H. B. PARSONS, Assistant Secretary.

Financial.

An Iron and Copper Investment.

In 1876 the incorporators of the

NORTH STATE MINING COMPANY

began the examination and development of the mineral wealth of North Carolina, and, after five years of labor and expense, became satisfied that they were possessed of rich and valuable mineral properties that only required a railroad to enable them to pour into the pockets of their stockholders thousands of dollars of dividends.

The principal properties being in Ashe County, remote from transportation, the Legislature of North Carolina was saked to grant a special charter for mining, railroad and telegraph purposes. This charter was grented Fic. 11, 1879. Under this charter the company have acquired very valuable privileges; pow r to buy end sell mines and mineral lands, to carry on the mining and reduction of ores, in all its branches; to construct railroads and letegraph times connecting its mines with trunk lines of railroad and telegraph times, and for the purpose of constructing soid railroad and telegraph fines. It has power to issue bonds to the amount of \$25,000 per mite. The eapital stock of the company is \$10,000,000, divided into 400,000 shares, of par value of \$25 per share.

In Stanley County, 23 miles from Salisbury, on the Piedmont Air-Line Road. In North Carolina, is the well-known Crowell Gold Mine, which is well equipped and developed. The estate consists of \$50 acres of laor, the state consists of \$50 acres of mirrerous gravel which yields numerous fine nungets and coarse gold. The company lass own and operate alarge saw mill in connection with the mine. In Ashe County the company have large tracts of mineral land. Among them a very valuable Copper mine, carrying gold and silver, which is a property of \$50 acres, covered with heavy timber. This mine is fully equipped with modern machinery, and has alrealy produced a large quantity of rich and valuable ore. Propressor system to this mine. The concur in the helief that it gives indication of great commercial value, and th

THE STOCK OF THE COMPANY CAN BE OBTAINED THROUGH ANY REPUT-ABLE BROKER CONNECTED WITH THE MINING EXCHANGES, AT THE CUR-RENT MARKET RATES.

Maps, pamphlets and full information can be obtained at the Company's Office, No. 52 Broadway, New York City.

A neat file cover is furnished at 50 cents; postage on the same is 18 cents. Volumes bound for subscribers at \$1 00. A complete set of the COMMERCIAL AND FINANCIAL CHRONICLE—July, 1865, to date—can be obtained at the office.

THE FINANCIAL SITUATION.

There is at present an abundant supply of loanable funds, and if Government accumulations do not increase, there seems no reason to anticipate any change in this condition, for a time at least. Customs and internal revenue receipts are however heavy and unless something is done, more than has yet been announced, to let currency out of the Treasury, a possibility of a speedy disturbance must be acknowledged. But it is believed that Mr. Folger, the new Secretary, who enters on the discharge of his duties next Monday, will meet the emergency by more effectual arrangements for bond purchases.

The Treasury order directing the redemption of two

millions uncalled extended bonds on each Wednesday of this month, brought out, as was anticipated, but a trifling offering. These bonds are, in the present state of the money market, too desirable as collateral for time loans to be converted into cash at the Treasury price. It is intimated that if this condition continues, terms will be named which will command the bonds, and if that proves true the Secretary will keep his balance down and thus the Government, as it should be, will be eliminated as an influence affecting the money market. We hope the new Secretary will be prepared, when Congress meets, for some effective and definite plan for managing hereafter the disbursements of the Treasury Department. What the commercial interests need is, certainty and knowledge with regard to the Government movements of currency. It may have been necessary in the past to leave to the discretion of the Secretary the amount of his holdings, but there is no such necessity now. The reserve [needed is known, and the amount required for current disbursements is also known; beyond those items, the law should direct the immediate use of all surplus revenues in the purchase of bonds. extremely unwise longer to leave our money market in the power of any official, however wise and honest he may be.

It may be interesting in this connection to recall how the Treasury stood on the first of the present month. Compared with a year ago some marked differences are observable. The gold coin and bullion held this November was \$172,989,829, against only \$140,725,953 held Nov. 1, 1880. But there are \$66,327,670 silver certificates outstanding, against only \$27,113,960, an increase of \$39,213,710. The amount of silver of all kinds, fractional included, has increased but 18 millions, or from \$77,757,316 to \$95,985,640, so that 21 millions of the increased certificates may have gone out in exchange for gold, in accordance with the practice of the department in vogue until about the close of last month. Granting this, there would still be 111 millions of gold unaccounted for. But the lawful money held is also further augmented by the increased holding of bank and legal tender notes. These latter were Nov. 1, \$31,021,315, against \$26,616,216 a year ago, making, with the 111 millions increased holdings of gold to be accounted for, 151 millions, to which should be also added 21 millions for the smaller amount of gold certificates outstanding, giving altogether 173 millions. There is also an increase of about one million in the deposits held by the National bank depositories, but this may be regarded as being in the market, and besides it is balanced by other items. The explanation for these increased holdings of 173 millions is to be found, in the first place, in the fact that the "Fund for

the redemption of national banks failed, in liquidation, and reducing circulation" is now \$30,311,222, against only \$20,349,802 a year ago. Our readers will remember that last March, when the refunding bill, afterward vetoed by President Hayes, was passed by Congress, the banks, fearing that the bill would become a law, and that under its operation they would be forced to keep their circulation out at a loss, hastened to give notice of their desire to withdraw it and deposited funds for its redemption. When the danger which threatened was averted, they took out new circulation, and the redemption fund is now gradually contracting in size, having diminished over threequarters of a million during October. In the second place, there is now held against called bonds the sum of \$11,241,826, while last year the amount was \$5,550,742, or about $5\frac{3}{4}$ millions smaller. Finally, checks and drafts outstanding aggregate \$6,595,720 this year, against \$4,199,882 last year, an increase of over 21 millions. These three items thus give us an increase of about 18 millions, and show how the Treasury's present enlarged holdings have been acquired.

Other than the Treasury influence, the present tendency is, as we have stated, towards an increase in our bank reserves. Since the collapse of the speculations in domestic products, domestic exchanges at all points except in the South have turned in favor of this centre. This first stopped the outflow of funds to the West, and now at St. Louis and Chicago the ruling rates admit of a return movement. Still, at the moment the South, and New Orleans especially, is making urgent demands for currency, which for the time being tends to turn the current, even from distant points, in the latter direction. As soon, however, as the requirements for cotton are satisfied, this drain will of course cease, and then the accumulations in reserves here are likely to be more rapid, unless the large issues of silver certificates force certificates back instead of gold and legal tenders.

These certificates are even now making it difficult to measure the flow of currency to and from our banks. Gold and legal tenders are of course counted in the reserve, while silver certificates cannot be. When the latter were taken out of the Treasury in lieu of gold, the coin drain from the banks could be traced in our weekly reports; but their return now is a different problem. For certificates may come back from some interior points in excess of the amount sent away the same week, and yet as they are kept as a special fund, the net influx may not appear in our weekly tables. So, too, the receipts and disbursements of the Sub-Treasury cover certificates as well as the other descriptions of currency, and thus these serve also as a further cause of irregularity. For instance, this week the Sub-Treasury has increased its holdings of certificates \$670,180, while last week they were decreased. inquiry has been raised as to the extent to which certificates will return here after the demand for them as a remittance has ceased. Now they are needed for the South, as they were a short time since for the West. When these calls are satisfied, the presumption would seem to be that they would, in the main stay where they are, except as wanted for customs or taxes. They can be turned into the Treasury only for those purposes, and after those wants are met, if sent here, they must be held as a special deposit. In the meantime, however, they make it difficult, as we have said, to trace the currency movements of the banks and also increase the uncertainty with regard to our banks accumulating reserve.

A further source of doubt with regard to the future of the money market here, is, as we stated last week, the condition of the gold reserves in Europe. Now that our all the roads, though business was pressing. Still it is

export movement has begun again and our imports keep down to comparatively moderate figures, it is only reasonable to anticipate an early resumption of the shipments of gold to this side. The rates of exchange do not admit of this at present, but the existing rates cannot, it is anticipated, be long maintained, at least unless there is a further rise in the Bank of England rate which shall force securities back on us. England is looking for a supply of gold from Australia. and £430,000 is reported as on the way to London from that point, to arrive about the middle of December. But the Bank of England is even now losing bullion, and at the present rate its reserve will be greatly reduced before the arrival of this consignment. The Bank return for this week shows a loss of £133,000, which brings the amount of bullion down to the lowest point of the year. There is an increase in the proportion of reserve to liabilities of 1 1-16 per cent compared with last week. It is possible that the reduction reported in the bullion is mainly due to domestic demands, although the Bank of France reports a gain of 10,675,000 francs gold, and a loss of 2,525,000 francs silver, and the rate of exchange at Paris on London has been against the latter all the week. If the Bank of England is meeting a Continental and a domestic demand at the same time, as is likely from present indications, the situation may become embarrassing, especially if America should also commence to take gold from the Bank. The following shows the amount of bullion in each of the principal European banks this week and at the corresponding date last year.

	Nov. 10	, 1881.	Nov. 11, 1880.		
	Gold.	Silver.	Gold.	Silver.	
	£	£	£	£	
Bank of England	20,727,164		26,592,066	*********	
Bank of Franco	24,887,856	47,378,794	22,258,755	49,884,912	
Bank of Germany	6,406,862	19,220,587	9,009,000	18,018,000	
Total this week	52,021,832	66,599,381	57,959,821	67,902,912	
Total previous week	51,434,447	65,839,385	59,079,987	67,835,516	

The above gold and silver division of the stock of coin of the Bank of Germany is merely popular estimate, as the Bank itself gives no information on that point.

At this date in 1879 the Bank of England held 29 million pounds gold, now it has nine million pounds less; then France and Germany were in a condition to respond to our calls, now they too are drawing on England. This present drain also is in the face of a 5 per cent rate. It would seem as if that rate had about exhausted its power to affect exchanges. The only point we are interested to know is what effect a renewal of the demand from this side for gold would have. We have received \$40,000 gold from Europe this week.

The stock market has been active and generally stronger and prices higher during the past week. No disturbing influences have been at work, and confidence in values has increased. This is due mainly to a continued improvement in the business of the roads and the prospect of better rates, and therefore of larger earnings. In another column we give our review of the railroad earnings for the month of October, which, under the circumstances, show very satisfactory results. Furthermore, the announcement is made that the Pennsylvania and the Erie have given notice of a general advance in West-bound rates from New York to Chicago, to take effect on Monday. On the 7th the Vanderbilt roads advanced rates to the East from Chicago to the basis of 25 cents on grain, which is nearly up to the winter schedule. This move. ment was somewhat of a surprise, as it was understood that the blockade of freight had been removed on

taken as an indication that the war of rates is practically over, and that for the winter at least a more profitable business will be done. There also appears to be a renewal of the investment domand for first-class properties. nearly four months investors have seemingly stood aloof from the market. While the life of the late President liung in the balance there was little disposition on the part of capitalists to invest in now enterprises, much less to buy any kind of share property. After the death of the President there was some uncertainty in the public mind regarding the course of his successor, but now all doubt is dispelled, it is seen that the machinery of the Government works smoothly under the new Administration, the financial policy is well defined, confidence is established, and as a natural result there is a good demand for first-class shares and bonds, which, as stated, are freely taken by investors. These facts will readily account for the rise that has taken place in these properties.

The exchange market has been steady and strong during the week. The early demand was for bills to remit for the gold brought to San Francisco from Australia, reported in our last, and this importation is regarded here as a speculative operation. Since then there has been some inquiry to remit for securities sold in London for account of bankers here, and this would indicate that the outward movement had ceased for the present. The margin of profit for cable transactions is exhibited by the following, showing relative prices in London and New York at the opening each day.

	Nov. 7	7.	Nov.	8.	Nov.	9.	Nov.	10.	Nov.	11.

- * Expressed in their New York equivalent. † Reading on basis of \$50, par value.

Note.-The New York equivalent is based upon the highest rate for cable transfers, which ordinarily covers nearly all charges, such as luterest, insurance and commissions.

There was a transfer of \$2,000,000 gold from the Philadelphia mint to the Sub-Treasury during the week. Including this the operations resulted in a loss to the Treasury of \$1,405,843 48, which is a gain to the banks. The payments by the Assay Office through the Sub-Treasury, and embraced in the above, amounted to \$694,744, of which \$600,000 was for gold received from Europe. The following are the receipts by the Sub-Treasury from the Custom House.

			Consisting of—						
Date.		Duties.		Gold.		U.S. Notes.	Silver Dollars.	Silver Certificates.	
Nov.	4	\$525,265 81		\$257,000	8	328,000	\$1,000	\$239,000

8.6	9	576,621 71		391,000		18,000	1,000	168,000	
58	10	604,995 28		378,000		21,000		205,000	
Total		\$2,476,780 80	9	\$1,432,Q00	45	886,000	\$3,000	\$956,000	

Last week, out of a total of \$2,576,343 received for duties, \$914,000 consisted of gold and \$1,512,000 of silver It will be seen that this week the gold certificates. receipts are largely augmented, while those of silver certificates are reduced.

The following table shows the Sub-Treasury operations for the week ended Nov. 10 and the receipts and shipments of gold and currency reported by the leading banks.

	Inio Banks.	Outof Bunks	Net.
Sub-Treasury operations, net Interior movement			
Total	\$2,501,813	\$1,238,000	\$1,266,843

The interior movement, as above, embraces all the receipts and shipments of gold and currency reported to us by the principal banks for the week ended Nov. 10, which (stated in our usual form) are as follows.

	Receipts at and Shipments from N. Y.	Received.	Shipped.
-	Currency		\$993,000 255,000
ı	Total	\$1,099,000	\$1,238,000

The Bank of America received \$1,000,000 gold during the week on account of the associated banks for deposit in the vault.

RAILROAD EARNINGS IN OCTOBER, AND FROM JANUARY 1 TO OCTOBER 31.

For the first time in many months our monthly returns show a smaller ratio of gain in earnings than in mileage and consequently a decrease in the average earnings per mile. The aggregate earnings of the forty-eight roads given in our table amount to \$23,012,562 in October this year, against \$20,747,989 in October last year, an increase of \$2,264,573, or about 11 per cent.; the mileage on which these earnings are based has increased during the same time from 34,102 to 38,893, or about 14 per cent, so that the earnings per mile reach this year only \$592, against \$608 in October, 1880. The following is our usual statement of earnings and mileage.

GROSS EARNINGS AND MILEAGE IN OCTOBER.

Three weeks only of October in each year.
For the four weeks ended October 29.
Including Ohio Division. § Including International & Gt. Northera.

Taking these figures by themselves the inference might be that the situation was no longer so encouraging as it appeared a short time ago, and there seems to be a disposition in some quarters to so regard the figures. But any conclusion which ignores the changed conditions that prevailed this year is sure to be misleading. Viewed in the light of these conditions the present statement is eminently satisfactory and calculated to inspire renewed confidence in the situation of affairs.

In the first place we should remember that we are comparing with earnings of last year which were 17 per cent above those of October, 1879, and that these in turn were almost 25 per cent above those of 1878. This is a very important fact. Although we are making progress at a very rapid rate, we cannot expect to continue to keep on doubling our business in the course of every third year, as we showed recently we had done in a late month. The percentages given tell us that for every dollar earned in October, 1878, there was earned in October, 1879, one dollar and a quarter, that this was increased in 1880 to \$1 46\frac{1}{4}, and that this year the amount was further increased to \$1 62 1-3. Of course, mileage has also increased, but not anywhere near in the same proportion.

But these facts relate wholly to a comparison of the bare figures. The influences tending to diminish receipts this year must also be considered. And foremost among these should be mentioned the diminished grain movement by the railroads. Last year prices of grain were low, the crop was abundant, and there were no influences to interrupt free marketing by the farmers. This year prices are high, the crop more or less diminished, and the accumulations at the principal points so heavy that there is storage room for no more, and railroads are compelled to refuse further offerings from the farmers. As a result of this condition we find that the receipts of grain at leading Western lake and river ports show a falling off, when compared with last year, of almost 43 per cent. A falling off of three sevenths in this class of traffic on the chief grain-carrying roads is an element not to be overlooked in noting the continued gains on these lines. Aside from this, particular roads in the West had to contend with severe floods, seriously interfering with their traffic operations, and in the South the roads suffered from a diminished cotton movement. In addition, in many sections of the country rates on both passengers and freight were lower this year than last, having in some instances been voluntarily reduced and in others forced down by the agency of competition. Bearing all this in mind, earnings now 62 per cent above those in 1878 would seem to offer little cause for complaint.

Furthermore, the decrease from last year in the earnings per mile is insignificant, and even if it were larger it should not carry with it very much weight in this discussion. For in itself a mere decrease here does not show much. It does not indicate, as we have before said in these columns, that the old lines are doing no better than last year. It merely shows that the earnings on the old lines, when added to the light receipts of the new lines, and distributed over all, do not suffice to maintain the former average per mile. While it is clear that an increase in the average means progress, it is also clear that this may be so even with a decrease in the average. Take a hypothetical case for illustration—hypothetical simply because we have not data for an actual case. A road operating 3,000 miles, earned, say, in 1880, \$6,000 per mile, or \$18,000,000; in 1881 it adds 1,000 miles of new road averaging \$3,000 per mile. The addition of 1,000 miles increases the system one-third in size, or 33 1-3 percent; the addition of \$3,000,000 increases the earnings one-sixth, or only 16 2-3 per cent.

Maintaining the same earnings on the old mileage as in 1880, the entire system would thus show in 1881 an average of only \$5,250 per mile, against \$6,000 the previous year,

a diminution of \$750, or \$62½ per month. If the earnings of 1880 on the old mileage were not only maintained, but increased, the decrease per mile would of course be less than \$750, and might even be wiped out altogether: but to effect this latter there would be required an increase of fully 16 2-3 per cent in the earnings of the old mileage and of 33 1-3 per cent in the total earnings. In other words, the earnings on the original 3,000 miles would have to rise from \$6,000 per mile to \$7,000, and even then the average per mile on the entire system would only be just as large as in the previous year. That we have in the past been able to increase earnings even faster than mileage, shows how extraordinary our development has been. Not only that, but it shows also how unreasonable it would be, now that we have to compare with a time during which this development was going on, to expect a continuance of the same rate of progress. More than this, the above illustration demonstrates that we may lay too much stress on the bare fact of a decrease in mileage earnings, and further demonstrates that a decrease of but \$16 per mile in a single month is of very little moment.

There is nothing to be said as respects particular roads beyond what is said above in a general way, but to show what a decided falling off has taken place in the grain movement, we have had prepared the following table of the receipts of flour and grain at the principal lake and river ports of the West for the four weeks ended October 29, this and last year.

RECEIPTS OF FLOUR AND GRAIN FOR FOUR WEEKS ENDED OCT. 29.

1880	8,800	736,000	9,438	*****	*****	*****
1000	0,000	750,000	0,403			
Total of all						7
1881	843,357	4,551,754		3,131,636		
1830	814,342	13,303,339	12,972,814	6,199,547	2,244,693	601,613

It will be observed that while last year the receipts of wheat at these eight ports were 13,303,389 bushels, this year they were only 4,551,754 bushels, or 8,751,635 bushels less. Of corn the receipts were this year only 9,862,121 bushels, against 12,972,814 bushels; of oats, only 3,131,630 bushels, against 6,199,547 bushels; of barley, 1,800,238 bushels, against 2,244,693 bushels; and of rye, 762,534 bushels, against 601,613 bushels. Of all kinds of grain, the total foots up 20,108,277 oushels, against 35,322,056 bushels last year, a decrease of more than 15 million bushels. In flour there was a slight increase. With such figures before us, and especially those relating to Chicago, St. Louis, and Toledo, we are not surprised that the Wabash has to report a decrease of over \$100,000 in earnings notwithstanding an increase of 750 miles in road operated.

Our table does not contain any of the great trunk lines, so we need not dwell upon the effect of the war of rates. As regards Southern roads, we have referred above to the diminished cotton movement, and to bring out this point we give the following table of the receipts of cotton at all the leading outports.

	1881.	1880.	Difference.

orfolk.	113,830	136,930	Dec23.08
City Point, &c	10.549	43,791	Dec 33 24

Referring to the earnings for the first ten months of the year we find a very favorable exhibit. The forty roads included in the table have earnings amounting in the aggregate to \$173,100,136 this year, against 146,099,895 last year, an increase of 27,000,241, or about 181 per cent. There are but five roads that show smaller figures than in 1880. Subjoined is the table.

GROSS EARNINGS FROM JANUARY 1 TO OCTOBER 31.

- * Three weeks only of October in each year. † January 1 to October 28. ‡ Including International & Great Northern.

Our statement of net earnings covers September and the first nine months of the year. As in previous months, it is difficult to draw any general conclusions applicable to all roads. Some exhibit better results than last year, others worse. Perhaps the most noteworthy change in comparing the two years is seen in the case of the Chicago Burlington & Quincy. This company reports an increase of \$400,695 in gross, and \$220,821 in net, during September. The decrease in net earnings for the current year which at one time amounted to \$1,126,636, has now been cut down to \$555,200. The following will show figures for this as well as all other roads from which returns can be obtained.

ROYAL AND IMPERIAL MEETINGS.

For the last two weeks the recent visit made by the-King of Italy to the Austrian capital has formed a conspicuous feature of our foreign news. Naturally enough importance attaches to such meetings. Ever since the famous meeting of the First Napoleon and the First-Alexander of Russia on board the raft at Tilsit, they have been looked upon with suspicion and distrust. The times, however, are now different, and it is probable that sometimes too much importance is attached to royal and imperial interviews. Kings and emperors are, after all, but. men, and it is not wonderful that they should occasionally court a little friendly intercourse.

It is not difficult, however, to perceive that the present. domestic policy of Russia has been largely influenced by the recent meeting of the young Czar and the Emperor of Germany. It was the Emperor's advice that a firm and unbending policy be pursued, and that reform should only succeed peace and submission to authority. That the advice has been carefully followed, is certain; and it may also, we think, be taken for granted that at Gastein thebonds of friendly alliance between Russia and Germany were renewed. It was confidently expected that the interview between the Czar and Kaiser William would bepromptly succeeded by a similar exchange of courtesies on the part of the Czar and the Emperor of Austria. Surprise and wonder have been expressed the world over that such a meeting has not yet taken place. surprise has since risen to excitement and almost alarm in consequence of the visit of the King of Italy to the Austrian capital. 'A few months ago, and such a visit, not to speak of the demonstration with which it was accompanied, would have been deemed an impossibility. For at least two generations there has been but little friendship between the House of Savoy and the House of Hapsburg. United Italy was secured at a cost which implied at once the humiliation and delimitation of Austria; and on both sides there existed animosities which dated further back than Magenta and Solferino.

It was deeply significant that such difficulties should have been gotten over, and that a meeting of the King of Italy and of the Emperor of Austria, with their respective ministers, should have been found not only possible, but, to all outward appearance, in the highest sense agrecable. It was all the more significant that difficulties, meanwhile, were discovered and allowed to stand in the way of two such ancient allies as Austria and Russia. These difficulties, it has appeared, have been mainly, if not wholly, on the side of Austria. It is certainly not wonderful, that, in the circumstances, Russia should have felt irritated, and should have asked Austria to explain.

Thus for a day or two the visit of the Italian King to the Austrian capital threatened, apparently, to become a source of danger to the continued amity of the great northern Powers. Some of the speeches delivered during the festivities, especially by the Austrian statesmen, were perhaps more jubilant than politic. They were certainly open to misconstruction and liable to mislead; but it would now appear as if the explanations were satisfactory -satisfactory so far at least that in the understanding arrived at by Austria and Italy there is nothing detrimental to the interests of Russia. It would now appear, also, as if the obstacles which have hitherto hindered the meeting of the Czar and the Austro-Hungarian monarch were being got over, and as if the imperial interview were imminent. The Russian Minister of Foreign Affairs tells us that "the interview has now become indispensable." This, however, is not all. Count Von Kallay has so far satisfactorily explained a speech which was reported as having been delivered in the Hungarian delegation, and which gave offence to Italy; and Count Andrassy, the coming man again in Austro-Hungarian councils, has assured us that "during the whole of his ministerial career he has been convinced that the union of Italy and Austria was a great and important factor in the preservation of the European equilibrium." From this it would seem safe enough to infer that the late royal and imperial meeting at Vienna was not wholly unconnected with questions of State and international policy. Whatever may have been done, and however these meetings may ultimately develop their hidden purport, it seems safe enough to conclude that they do not in any way, for the present at least, menace the peace of Europe.

And yet an Austro-Italian alliance is significant. Italy has been irritated by the recent action of France in Tunis; and the monarchy is ill at ease alongside of the prosperous and aggressive republic. Alone she is no match for France. An alliance with some Power was a necessity. After France, Austro-Hungary was the next nearest neighbor. These are perhaps reasons sufficient to explain this courtship of Austro-Hungary by Italy. There was but one remaining difficulty between them. Trieste and the Trentino are regarded by a certain section of Italian politicians as "unredeemed Italy." It is reasonable to conclude that as the price of this Austro-Hungarian alliance the Irredentists have been sacrificed. It is probable, however, that for the abandonment of this claim compensating promises have been made. The Eastern question is not yet finally settled; nor is it difficult to see what Austria means to do when the time for final action shall have come. She is already enforcing the military regulations of the Empire on Bosnia and Herzegovina; and she is ready, on the first opportunity, to rush to Saloniki. We know that she has Germany at her back in the carrying out of her purpose in the East. Her plans are Bismarck's plans. Russia may object-probably will object to Austrian extension eastward; but Germany and Italy will be with Austria; and both will look for compensation. Compensation may come to both in the same way

German unity may thus find completion; and the Italian Irredentists may yet be satisfied.

In the meantime, it is becoming to write with caution. Much will depend on the probable meeting of the Russian and Austro-Hungarian rulers; and much also will depend on the political alliance of France and England—an alliance which Earl Granville declared on Monday night in the Guildhall to be of the utmost importance.

BROKERS' COMMISSIONS.

A decision, just published, of the Court of Appeals, explains under what circumstances a broker employed to sell property, may be deemed to have earned his commissions. He can not claim them, it is said, unless he actually procures a purchaser. The story of the case was that a broker was employed by the Bethlehem Iron Company to negotiate sales of steel rails for railroad tracks which they might manufacture, with reference, particularly, to the Grand Trunk Railway Company of Canada, with whose officers this broker was supposed to have acquaintance and influence. The broker visited Canada and conversed with the manager of the Railway Company, and afterwards corresponded with him, endeavoring to arrange a sale of one thousand tons of rails; sent a sample of steel, and made 'other efforts; and the Grand Trunk Company expressed themselves as inclined to purchase, but, ultimately, the Bethlehem Iron Company declined to name a price, and the negotiation fell through. Apparently the Iron Company had become dissatisfied with the broker for his willingness to yield on prices. Four months passed in this ineffectual negotiation. Afterwards another broker who had learned "on the street" that the Grand Trunk Railway was in the market for rails, opened negotiations which resulted in a sale such as plaintiff had been employed and had endeavored to accomplish. Hence the suit. The broker first employed claimed that he had introduced the parties and krought the rails of his principal, the Iron Company, favorably to the notice of the Railway Company, and that he could not be deprived of his commissions by his principal's dismissing him and reopening negotiations through another person.

The court decided against the claim. The opinion says that the duty undertaken by a broker employed to buy or sell, and the essential condition of his right to commissions, is, to bring buyer and seller to an agreement. A broker is "one who makes a bargain for another" and receives a commission for so doing. To earn commissions a broker to sell must produce a buyer ready to purchase on terms satisfactory to his employer. He need not of necessity be present and an active participator in the agreement of buyer and seller when this agreement is actually concluded. He may just as effectually produce and create the agreement, though absent when it is completed and taking no part in the arrangement of its final details. But his duty is to bring the minds of the buyer and seller to an agreement for a sale, and the price and terms on which it is to be made, and until that is done his right to commissions does not accrue. It necessarily follows that he is never entitled to commissions for unsuccessful efforts. The risk of failure is wholly his. The reward comes only with his success. The broker may devote time and labor, and expend money with ever so much fidelity to the interests of his employer, and yet if he fails, if before a bargain is accomplished he abandons the effort, or his authority is fairly and in good faith terminated, he gains no right to commissions.

sation. Compensation may come to both in the same way
—in the more completely rounding off of their territory.

And in such event it matters not that after his failure,
and the termination of his agency, what he has done proves

of benefit to the principal. He may have introduced to each other parties who otherwise would have never met; he may have created impressions which, under later and more favorable circumstances, naturally lead to and materially assist in the consummation of a sale; he may have planted the very seeds from which others reap the harvest; but all this gives him no claim. It was part of his risk that, failing himself, others might be left to some extent to avail themselves of the fruit of his labors. If the efforts of tho broker are rendered a failure by the fault of the seller; if capriciously he changes his mind after the purchaser, ready and willing, and consenting to the prescribed terms, is produced; or if the latter declines to complete the contract because of some defect of title in the ownership of the seller, some unremoved incumbrance, some defect which is the fault of the latter, then the broker does not lose his commissions. But this limitation is not an exception to the general rule affecting the broker's right, for it goes on the ground that the broker has done his duty, has brought buyer and seller to an agreement, but that the contract is not consummated and fails through the afterfault of the seller.

Moreover, unless the employment of the broker is expressly made for a specific time, his employer may terminate it at will, subject only to the requirements of good faith. Ordinarily the broker is entitled to a reasonable time for finding a buyer, but, this being granted, the principal may terminate the broker's authority whenever he pleases, provided his doing so is not a mere device to avoid paying commissions. If, in the midst of negotiations instituted by the broker and evidently approaching success, the seller should revoke the employment with design to conclude the bargain without the broker's aid, and on that pretext to refuse commissions, it might well be said that the due performance of the broker's duty was purposely prevented by the principal. But if the seller, acting in good faith and moved fairly by a view of his own interest, not by a desire to escape from commissions, chooses to revoke the broker's authority before a bargain is made, he has the right to do so, and the broker can not afterward claim compensation for a sale made by the principal, even though it be made to a customer with whom he was negotiating and to some extent by the aid of his efforts.

Applying these two principles to the particular case, the court denied the broker's claim, both because he had not in point of fact completely negotiated a contract, and because the Iron Company had seen fit to terminate his employment, after he had had a reasonable opportunity (three or four months) to make a sale and before he had effected one; which the company had the right to do.

Error with regard to Fork-Packino.—The Cincinnati Prices Current in the following calls attention to an evident error which, through the carelessness of the copyist, was incorporated in our article on "Pork-Packing" in our issue of October 15th. The figures as given probably misled none since the mistake was so gross and the correction so very apparent:

"In an article on pork-packing the usually careful Financial Cheonicle has fallen into a very serious error in saying that on Oct. 15 there were in Chicago '607 million pounds of bacon and cut meats, against 337 million pounds last year.' The actual atock of bacon and cut meats in Chicago Oct. 15, 1881, was 60,716,946 lbs., against 33,597,330 lbs. Oct. 15, 1880, so that the increase in the supply this year over last year is only 27,000,000 pounds, instead of 270,000,000 pounds."

CHESAPEAKE & OHIO.—Track is now laid on this company's Elizabeth Lexington & Big Sandy line to Herat, Ky., 66 miles eastward from the old terminus at Mt. Sterling, and 100 miles from Lexington. Just beyond Herat is the Means Tunnel, the completion of which is expected in a few days. As soon as track can be laid through the tunnel the connection through to Ashland will be made.

[From our own correspondent.]

London, Saturday, Oct. 29, 1881.

The "liquidation" in Parls will be commenced and concluded next week and it is still a cause for anxiety. This anxiety was especially apparent in the early part of the week, and it was expected that, as the London money market is the easiest for borrowers, considerable sums of gold would be remitted to Paris against sales of foreign bonds. It is understood that a large amount of foreign government stocks has been sold here of late, and the exchanges between London and Paris have finctnated considerably; but the movements in gold have so far been of an unimportant character. There is now an impression that the preparations for the arrangement of the account on the Paris Bourse are now in so advanced a stage that our money market will not be materially affected. Some difficulties are apprehended, but they will in all probability be confined to second class operators, and no serious results are looked for. The more favorable view which is thus taken of financial affairs in Paris has naturally exercised a beneficial influence, and the week closes with a fair degree of firmness prevailing in most departments of business. Financially, also, the position of affairs here has decidedly improved. The Bank rate of discount remains at 5 per cent; but in the open market the best three months' bank bills are taken at 4 to 11/2 per cent, a moderate percentage of business being reported at 3% per cent. The state of the Bank of England has also somewhat improved, the proportion of reserve to liabilities having advanced to nearly 38 per cent. The supply of bullion held by the Bank does not, however, increase; there being a decrease of £16,214, against a recorded influx of £94,000. The circulation of notes, however, is diminishing, the falling off this week amounting to £470,365, and the result is that the total reserve has been augmented by £454,151. The Bank is transacting very little discount business, tha total of "other securities" having been diminished by £451,442; and the government appears to have repaid the Bank a further sum of £600,600 in reduction of the loan granted for the purpose of paying the dividends. Although the process is a slow one, the Bank makes progress towards improvement, but the opinion must still be entertained that the process must remain slow. Since the value of money in the open market has declined to 4 per cent, the Continental exchanges have been less favorable to us, and not only can we expect no supplies of gold from the Continent, but, on the contrary, that commodity, for special, though only temporary, purposes is more likely to be sent to Paris, as well as to other Continental financial markets of importance. The news from America, however, is of a favorable character, and there is felt to be now very little, if any, reason for believing in a revival of the export demand for gold on New York account; but we are not likely to receive gold from there, and consequently, in order to maintain our present position, which is certainly not a strong one, we must depend chiefly upon our colonies for supplies. These will not be liberal, and although we may hope for the return of sovereigns from Egypt and South America, as well as from the provinces of England and from Scotland, in the aggregate receipts must be small. The demand for money for commercial purposes is still very

moderate, notwithstanding the improving state of our commerce; and there is still every probability of much discrepancy existing between the Bank rate and the open market rates of discount. This condition of things is likely to last for some time to come, and although the state of the commercial demand would seem to justify a lower official minimum, it is very evident that the directors of the Bank of England will be unable to see their way clear to adopting any change. The following are the present quotations for money:

The silver market has been very quiet, and the value of fine bars has had a downward tendency. There has been scarcely any inquiry either on Continental or Indian account. Mexican dollars have been in very limited request, but the supply has been small and prices have been maintained. India Council bills were sold at the Bank of England on Wednesday at 1s. 7%d., being the official minimum, and £400,000—an increase of £50,000—is to be offered next week. The following are the present quotations for bullion:

The traffic returns of British railway companies are still disappointing, but better results are anticipated shortly. The trade of the country continues to improve, and an increasing amount of business is being carried on with the United States. It is expected that the October Board of Trade returns will, in this respect, show very favorable results, especially as regards our shipments of iron. Our trade has undoubtedly much improved this year, and it is very satisfactory to notice that the business of the country is upon a sound basis. Very few failures are recorded, and there is no reason to apprehend any mercantile difficulties of importance. The firm of Salberg Brothers & Co., of London, has failed this week, with liabilities estimated at £180,000 to £200,000, and assets of about £80,000. The firm had branches at Luxembourg and Chaux de Fonds, Switzerland, and the suspension does not seem to be of much importance to this country. It is attributed to the failure of a Belgian bank.

The weather during the week has been winterly, but dry, and the season for farmers is proving to be very satisfactory.

The land is in good condition and works well, and autumn wheat is being sown under very favorable conditions. Very satisfactory progress has been made, and farmers have also found time to thresh out a moderate quantity of produce. Now, however, that they have disposed of a considerable proportion of their crop, and have probably met some of their more pressing financial necessities, there seem to be indications of a limitation of our home supplies. The trade, however, has been dull during the week, owing to the reduction which has taken place in prices at New York, and sales have only been practicable by submitting to a reduction in prices of about 1s. per quarter.

During the week ended October 22 the sales of home-grown wheat in the 150 principal markets of England and Wales amounted to 54,329 quarters, against 41,531 quarters last year and 35,617 quarters in 1879; and it is computed that they were in the whole kingdom 217,320 quarters, against 166,130 quarters and 142,500 quarters. Since harvest, the sales in the 150 principal markets have been 386,612 quarters, against 351,500 quarters and 171,640 quarters, the estimate for the whole kingdom being 1,546,500 quarters, against 1,406,100 quarters and 686,540 quarters in the two preceding seasons. Without reckoning the supplies of produce furnished ex-granary at the commencement of the season, it is estimated that the following quantities of wheat and flour have been placed upon the British markets since harvest. The visible supply of wheat in the United States is also given:

Commercial and Miscellaneous News.

NATIONAL BANKS.—The following national banks were organized last week.

2,583—The Des Moines National Bank of Des Moines, Iowa, Authorized capital, \$100,000. B. L. Harding, Prest; W. E. Hazeu, Cash'r, 2,584—The Second National Bank of Dauville, Ill. Authorized capital, \$100,000. Wm. P. Cannon, Pres't; Thos. S. Parks, Cashler.

IMPORTS AND EXPORTS FOR THE WEEK .- The imports of last week, compared with those of the preceding week, show an increase in both dry goods and general merchandise. The total imports were \$7,817,024, against \$7,580,223 the preceding week and \$10,214,552 two weeks previous. The exports for the week ended Nov. 8 amounted to \$6,029,302, against \$5,910,615 last week and \$6,590,674 two weeks previous. The following are the imports at New York for the week ending (for dry goods) Nov. 3 and for the week ending (for general merchandise) Nov. 4; also totals since January 1:

FOREIGN IMPORTS AT NEW YORK.

Chicago Milwaukee & St. Paul.—The extension of the Southern Minnesota Division from Dell Rapids, Dak., southward to Sioux Falls, 19 miles, is completed. The extension from Madison, Dak., west to Howard, 22 miles, is nearly done.

Connecticut & Western.—One of the directors of this road, said to a Boston Herald reporter: "We propose to build a new road on a direct line from New York to New Haven, not far from the present line of the New York & New Haven Road, but further from the shore and straighter, so that we shall go directly through the main places rather than some distance away from them, as the present road does at Norwalk, West-

port and other points. Our line will run 45 miles in Connecti-

"Our maximum grade will be only 40 feet to the mile, so that we shall be able to make quicker time beside running less risk of accidents over half a dozen draws. There is business enough to support the new line. The New York & New Haven Company is running trains with great frequency, and it carries about 100,000 tons of freight a month. It earried over 3,000,000 passengers last year, and there is complaint that it was not able to meet fully the demands of business upon its facilities. As we calculate to save at least half an hour in time, besides touching the big places directly, instead of by feeding branch roads, we think there is a fair prospect of our securing business. We can make a profit of 10 per cent on one-quarter of the business now done by that road. Our capital is \$6.000,000, and we are capitalized at one-third less that any other road running in that direction."

Deuver & Rlo Grande.—This company has completed and opened for business the San Luis Valley Branch, which extends from Mears, Col., on the Gunnison Division, 228 miles from Denver, southward to Villa Grove, 19 miles.

The Blue River Branch has been extended from Robinson Col., northeast to Wheeler's, nine miles, making the branch 25 miles long from Leadville.

On the Eagle River Branch track is now laid to Eagle Park, Col., seven miles from the late terminus at Mitchell, and 20 miles from the main line at Malta.

Louisville New Albany & Chicago —On this company's

Louisville New Albany & Chicago.—On this company's Chicago & Indianapolis Air Line grading is now completed, from Delphi, Ind., southeast to Sheridan, about 40 miles, leaving only 25 miles to reach Indianapolis. The right of way is cleared from Sheridan to Broad Ripple. Two gangs of tracklayers have begun work at Frankfort, going in both directions from that place. from that place.

—The attention of the banking and investment interests is called to the card of Messrs. Barker & Tinker in our advertising columns to-day. This firm, recently organized, is composed of capable and live business men, Mr. F. D. Barker, a member of the New York Stock Exchange, having had considerable experience as a broker in Wall Street. The firm will pay strict attention to the buying and selling on commission, for cash or on margin, all stocks and bonds dealt in at the Stock Exchange.

—The attention of the cotton trade is called to the card in to day's Chronicle of Messrs. Ewen Brothers, cotton brokers, in this city. The gentlemen composing this firm are active and enterprising, and possessed of large experience in their line of

-The Ontario Silver Mining Company of Utah has declared its dividend for October, \$75,000, making a total to date of \$3,875,000.

—A dividend of \$30,000 for the month of October has been declared by the Deadwood-Terra Mining Company.

BANKING AND FINANCIAL.

BANKING DEPARTMENT.

office of FISK & HATCH,

No. 5 NASSAU STREET,

NEW YORK, 1881.

In answer to numerous letters of inquiry as to the terms on which we receive deposit accounts of banks, bankers, business firms and indiv iduals, we issue this circular for the general information of those who may desire to open accounts with a private banking house in this city.

We are prepared, on the terms mentioned below, to receive the

accounts of responsible parties in good standing.

1. Except in case of banks, savings banks, or other well-known corporations, or of individuals or firms whose character and standing are already known to us, we require satisfactory references before opening an account.

2. We allow interest at the rate of 3 per cent per annun on the average monthly balances when the same amount to \$1,000 or over. On accounts averaging less than \$1,000 for the month we allow no interest.

3. We render accounts current, and credit interest as above, on the isst day of each month.

4. Fer parties keeping regular deposit accounts with us we collect and credit United States, railroad and other coupous and dividends and credit United States, railroad and other composes and dividends payable in this city, without charge; make careful inquiries and give the best information we can obtain respecting investments or other matters of financial interest to them; and in general serve their interests in any way in which we can be of use to them in our line of business.

5. We do not discount or buy commercial paper, but are at all times prepared to make advances to customers and correspondents on U. S bonds or other first-class and marketable securities.

6. All deposits are subject to check at sight without notice.

One of our firm is a member of the New York Stock Exchange, and we give particular a tention to orders by mail, telegraph or in person for the purchase or sale of Bonds and Slocks on Commission. We continue to buy and sell direct, without commission, all issues and denominations of United States Bonds for immediate delivery at current market rates, and make exchanges for National Banks in the Banking Department at Washington, without troucle to them.

Our "Memoranda Concerning Government Bonds" will be sent postpaid on application.

The Bankers' Gazette.

DIVIDENDS:

The following dividends have recently been announced:

Massau			Nov. 3 to Nov. 9

NEW YORK, FRIDAY, NOVEMBER 11, 1881-5 P. M.

The Money Market and Financial Situation.-The statement of the condition of the national banks of the country on the first of October, 1881, has been issued by the Comptroller of the Currency, and is given below, in comparison with the corresponding statement for June 30. There is a further growth in the aggregate resources and liabilities of about \$33,000,000; the increase in capital is about \$3,600,000, and in national bank notes outstanding about \$8,000,000. The items of gold coin and legal tender notes each show a decrease.

The following is the abstract made to the Comptroller, showing the condition of the national banks of the United States at the close of business on June 30, 1881, and October t, 1881, the number of banks reporting October 1 being 2,132:

The local money market has shown a hardening tendency for call loans on stock collateral, and during the last few days stock brokers have in exceptional cases paid as high as 6 per cent plus a commission of 1-64 of 1 per cent. The bulk of business, however, has been done at 5@6 per cent. On government bond collateral the case has been different, and so scarce are the bonds offered for loans, and so considerable are the trust and other funds, &c., loanable only on such collateral, that the rates have actually become easier on government bonds, and call loans have been made to the large dealers as low as 3 per cent, while 3½ to 4 per cent has been the ordinary rate.

The Bank of England weekly statement on Thursday showed a loss of £133,000 in specie, but the percentage of reserve to liabilities was 3834, against 37 11-16 the previous week. The discount rate remains at 5 per cent. The Bank of France gained 10,675,000 francs gold and lost 2,525,000 francs silver.

The last statement of the New York City Clearing-House banks, issued Nov. 5, showed a decrease in the surplus reserve of \$1,606,125, the total surplus being \$3,104,675, against \$4,710,800 the previous week.

The following table shows the changes from the previous week and a comparison with the two preceding years:

	1881. Nov. 5.	Differ'nces fr'm previous week.	1880. Nov. 6.	1879. Nov. 8.
Loans and dis. Specie	20,005,400 292,082,500	Inc. 60,400 Inc. 4,013,700	66,691,700 18,691,800 307,796,700	33,823,800 22,341,500
Legal reserve. Reserve held. Surplus	\$73,020,625 76,125,300	Inc.\$1,010,325 Dec. 595,200 Dec.\$1,606,125	\$76,949,175 78,681,300	\$57,981,925

Exchange.-Foreign exchange is firmer, and quotations show an advance over last week. The small supply of commercial bills is considered the principal reason for higher rates. To-day the actual rates for prime bankers' 60 days sterling were about 4 81 @4811/4 and for demand 4841/2 @ 485. Cable transfers are 4 85%@4 86 and prime commercial bills 4 79% @4 79%. The actual rates for Continental bills are as follows: Francs, 5.25 and 5.20@5.20%, marks 94@94% and 95, and guilders 39%@ 39 11-16 and 40.

In domestic bills New York exchange was quoted to-day as follows at the places named: Savannah, buying at 3/8 off, selling at 1/4 to 1/5 off; Charleston, buying at 1/4@5-16 dis.; selling par@% dis.; New Orleans, commercial 300 dis., bank 100 prem.; St. Louis, 50 prem.; Boston, par to 10c. prem.

Quotations for foreign exchange are as follows, the outside prices being the posted rates of leading bankers:

November 11.	Sixty Days.	Demand.
Prime bankers' sterling bills on London. Prime commercial Documentary commercial Paris (francs) Amsterdam (guilders) Frankfort or Bremen(reichmarks)	$ \begin{array}{cccccccccccccccccccccccccccccccccccc$	$\begin{array}{cccccccccccccccccccccccccccccccccccc$

United States Bonds.—There has been a pretty active business in governt ent bonds, and the floating supply in the market is becoming scarcer. Many of the banks are changing off their bonds to get the continued fives, which will be called in last; and in addition to this, there is a good demand for bonds from savings banks, trust companies, and other financial institutions. At the Treasury purchase on Wednesday only the insignificant amount of \$2,550 was offered, and unless money grows decidedly stringent, it is not supposed that any considerable amount will be offered next week.

The closing prices at the New York Board have been as follows.

*This is the price bid at the morning board; no sale was made.

State and Railroad Bonds.—In Southern State bonds there has been less activity in the Arkansas railroad bonds, North Carolina special tax, and other low-priced securities, and the principal sales have again run on the more standard bonds,—the Tennessees and Louisiana consols. To-day Tennessees sold at 72½ for old, Virginia 6s deferred at 19½ "seller 30," and South Carolina 6s non-fundable at 12¾.

Railroad bonds meet with a steady and well-distributed business, and the old bonds which are not subject to "drives," washed sales, and other speculative manipulations, hold their prices very steadily.

Auction sales are given on the preceding page.

Railroad and Miscellaneous Stocks.—The week has been

Auction sales are given on the preceding page.

Railroad and Miscellaneous Stocks.—The week has been broken by the occurrence on Tuesday of the general elections, as election day is now a "bank" holiday in New York and in several of the other States. The volume of business has not been excessive, and prices have been quite irregular. The closer working of the money market has apparently not had much influence on prices. A feature of the wesk's transactions has been the temporary activity in specialties, first one stock and then another becoming active, with an advance in price, and many of these the newer stocks which are more susceptible of manipulation. The gross earnings of the railroads are well kept up, considering the acknowledged decrease in the corn and wheat crops this year, but the earnings per mile frequently show a decrease, and as expenses are unquestionably larger than last year, the net earnings per mile would also in those cases show a decrease. The elevated stocks are all to be consolidated into Mauhattan stock, of which the total issue will be \$26,000,000, in three classes of first preferred, second preferred and common.

stock, of which the total issue will be \$26,000,000, in three classes of first preferred, second preferred and common.

Texas Pacific has been one of the active stocks at high prices, and the uninitiated are watching for some new development or consolidation in this extraordinary company.

Taken altogether, the tone of the stock market has been rather strong and confident, and with the advancing freight rates on the trunk line roads the conclusion seems to be drawn that the war is virtually over, and that during the winter season good prices for transportation will be obtained.

Investments

STATE, CITY AND CORPORATION FINANCES.

The Investors' Supplement contains a complete exhibit of the Funded Debt of States and Cities and of the Stocks and Bonds of Railroads and other Compunies. It is published on the last Saturday of every other mouth—viz., February, April, June, August, October and December, and is furnished without extra charge to all regular subscribers of the Chronicle. Single copies are sold at \$2 per copy.

ANNUAL REPORTS.

Old Colony.

(For the year ending September 30, 1881.)

This company's lines are as follows: Boston to Newport, R. I., 67'79 m.; South Braintree, by Middleboro, to Somerset Junction, 37'60 m.; South Braintree to Plymouth, 25'94 m.; Braintree, by Cohasset, to Kingston, 32'36 m.; Cape Cod Line, Middleboro to Provincetown, 85'77 m.; branches, 54'38 m.; total owned,

Boston Clinton Fitchburg & New Bedford road and appendages leased: Fitchburg to New Bedford, 91.02 m.; South Framingham to Lowell, 26.12 m.; Fairhaven to Tremont, 15.17 m.; seven short branches and connections, 19.14 m.—151.45 m.; total

operated 455.29 m.

The operations and earnings in the two last fiscal years embraced the following:

	1880-81.	1879-80, [
Passengers carried	. 5,924,030	5,526,279
Passenger miles	39 187 583	89,502,519

Stock was increased \$400,000 and bonds decreased \$403,000

Stock was increased \$400,000 and believe during the year.

"During the year past, four thousand shares of new stock have been sold. On these shares a premium above the par value of \$118,857 has been realized. While in the form of returns adopted by the railroad commissioners the premium on shares or bonds sold is returned as income, it can in no sense be regarded as income to be divided, and this amount has been credited to the improvement account. This account is annexed

to the report. Bonds of the company to the aggregate amount of \$413,000 have been paid, and no new bonds have been issued. To carry on the business of the company in the next year it may be desirable to issue notes or bonds having more than one year to run, and the directors ask for authority from the atockholders to issue such notes or bonds to the amount of not exceeding \$500,000." * * * * * *

holders to Issue such notes or bonds to the amount of not exceeding \$560,000." * * * * *

"The business of the year has been satisfactory. It has shown a fair increase over the very large business of the preceding year, and has been the largest ever done over the lines now operated by the Old Colony Railroad Company. But this increase in business has its burdens as well as its benefits. As appears from this report, it has entailed large expenditures upon lands and equipment to enable its transaction with economy to the company and satisfaction to the public. The growth in business is still going on. It has been greater in the past three months than in any part of the year, and the directors have felt obliged to devote a considerable part of the income to provide for the future wants of the company. The expenditure upon road-bed, rails, equipment and stations has been greater than the average amount necessary to keep them in good condition. When the business becomes stationary, and there is less pressing demand for increased accommodations, the expenses can be greatly diminished; but in the present condition of the business the directors have considered it the better policy to meet this demand out of the income, so far as possible, instead of Increasing the capital invested. For this reason they have transferred \$90,000 of income to the improvement account, to be applied to improvements of the road and equipment which are necessary to meet immediate demands."

Great Western of Canada.

(For the six months ending July 31, 1881.)

The accounts of the company for the half-year ended the 31st July, 1881, have been presented.

REVENUE ACCOUNT.

The revenue of the half year compares with that of the corresponding period to the 31st of July, 1880, as follows:

Gross receipts (main line and branches)2137,433 Work'g exps., includ'g transfers to reserve funds 301,228	July 31, '81, £170,725 330,006
Interest on bonds and debenture stock, leased	£140,719
lines, balances, and all net revenue charges 103,145	100,154
Balance from the previous half year	£40,565 4,674
Surplus £34 847	945 930

To this balance of £45,239 is added the sum of £12,329, being divided on the shares of the Detroit Grand Haven & Milwaukee Railway held by this company, making a total sum available for divinend of £57,568—an amount in excess of the corresponding half year of £13,474.

The gross receipts on the main line and branches show an increase compared with those of the half-year ended the 31st July, 1880, of £32,292, as follows:

Increase iu passenger earnings	219.677
Increase in freight and live stock earnings	12.610
Increase in mail and express freight earnings	973
Increase in rents and sundries	32

WORKING EXPENSES.

The cost of working the main line and branches amounts to £330,006, against £301,228 in the corresponding half year, an increase of £28,777. The usual comparison of the gross earnings and working expenses per train pile for the last six corresponding half-years show the following results:

	Earnings	Work	g caps
	per	Per	Per cent
Half-years	train	train	of gross
ended.	mile.	mile.	receipts.
	8. d.	8. d.	•
July 31, 1876	4 104	3 634	73.63

July 31, 1878	4 2	3 2	76.05
July 31, 1879	4 14	3 14	75.92
July 31, 1880		3 5%	69.78
July 31. 1881	4 11	3 619	71.93

WABASH CONNECTION.

The branch railway between Butler and Detroit, referred to in the last half-year's report, not having been open throughout for traffic prior to the 31st July, little advantage is shown from this connection in the present accounts. The line has since been taken over by the Wabash Company, and is expected to be in full eperation before the close of navigation. The directors have to report the conclusion of agreements between the Lake Shore & Michigan Southern, the Canada Southern, and this company for a division of traffic to and from the Southwest in connection with the Wabash St. Louis & Pacific Railway. Railway.

GENERAL INVESTMENT NEWS.

Arkansas State Bonds.—A dispatch from Little Rock, Ark., Nov. 5, eays: "The Attorney-General of the State, in response to an inquiry from the Governor, has given an official opinion that the railroads to whom State aid bonds were issued a few years ago are legally liable for the payment of the bonds. There are \$5,350,000 of these bonds outstanding, issued to the following roads: Memphis & Little Rock, \$1,200,000; Little Rock & Fort Smith, \$1,000,000; Little Rock Pine Bluff & New Orleans, \$1,200,000; Mississippi Onachita & Red River, \$600,—

000, and Arkansas Central, \$1,350,000. All of these roads are now completed, and are doing a good business, with the exception of the latter two, and work is being vigorously pushed on the Ouachita Road. Senator Garland, Governor Chnrchill, ex-Chief Justice McClure and others have expressed opinions similar to that of the Attorney-General. Suits are to be instituted in the United States Court at once to force the railroad companies to settle the question."

—The American Exchange says of this: "The claim of the holders of the Arkansas State bonds issued by the railroad is based upon the following decision in the case of the Florida Central Railroad Company against Schutte, recently decided by the Supreme Court of the United States, opinioned by Chief Justice Waite. In this case the bonds had been declared unconstitutional by the State courts, and suits were brought against the roads and prosecuted to a successful termination. In the course of the opinion, Chief Justice Waite says: 'We proceed then, to inquire whether the companies, or either of them, can successfully defend the Schutte suit. At the outset it will be conceded that the State bonds are unconstitutional. The Supreme Court of the State has three times so decided in cases where the congrainers and constitutions are directly presented by the placeting was directly presented by the pla then, to inquire whether the companies, or either of them, can successfully defend the Schutte suit. At the outset it will be conceded that the State bonds are unconstitutional. The Supreme Court of the State has three times so decided in cases where the question was directly presented by the pleadings, and apparently fully argued, &c. But it by no means follows that because the State is not liable on its bonds, the companies are free from responsibility under their statutory mortgages. By the express provisions of the act, the State bonds were to be given the company in exchange for its own bonds. The company, not the State, was to use and dispose of the State bonds. The object of the State was to aid the company with its credit. The State bonds were to be made payable to bearer and negotiable, while the company bonds were to the State alone and not negotiable. The company bonds were to be coupon bonds, payable at the same time and place as the State bonds, and, if the company paid its interest in gold, it was the duty of the State to pay in the same way. It is clear, therefore, the intention was that, as between the State and the company, the State was to be the grarantor of the company bonds and the company the principal debtor. With the public, however, it was different. There the State was the debtor, and the company was only known through the statutes under which the bonds were put tont, and the certificates indorsed on the bonds itself, which were that the State held 'the first mortgage bonds of the railroad company for a like amount as security to the holder thereof.' Such bonds of the State with such indorsements the company put on the market and sold. Under these circumstances the certificate of the Governor as to the security held by the State is in legal effect the certificate of the company itself, and equivalent to an engagement on the part of the company that the bond, so far as the security is concerned, is the valid obligation of the State. The case is clearly within the reason of the rule whic the rule which makes every endorser of commercial paper the indorses. We cannot doubt that under these circumstances the company is estopped so far as its own liabilities are concerned from denying the validity of the bonds. Having negotiated them on the faith of such a certificate, the company must be held to have agreed, as part of its own contract, whatever that was, that the bonds were obligatory. It is next contended that as the bonds were fraudulently put out by the officers of the companies, and are unconstitutional, the recovery must be confined to the amount actually paid for the bonds to the agents of the companies. As we have endeavored to show, the bonds, although void as to the State, are valid as to the company that sold them. To this the Chief-Justice answers as follows:

"'Having been put on the market by the companies a valid bonds, the companies are estopped from setting up this unconstitutionality. As against the companies, they occupy in the market the position of commercial securities, and may be dealt with and enforced as such. The companies, through their faithless agents, are in a position where they must meet those they have dealt with commercially and respond accordingly. For commerce commercial paper means what on its face it represents, regardless of what its maker or promoter may have got for it. The bonds of this State in the open market purported to be what they called for. The companies put them out, and in legal effect, as we think, indorsed them. A bona fide holder can now require the indorser to respond to his indorsement commercially; that is to say, by paying what he in effect agreed the maker must pay."

—The State Board of Finance on the 31st ult, made an order directing the Treasurer of the State to call in for redemption, on or before January 1, 1882, \$80,000 of the 5-10 years 10 per cent bonds of the State. These bonds were issued under the acts of May, 1874, and March 4, 1875, and are commonly called Baxter war bonds. The condition of the sinking fund justifies such ac

State of \$8,000 in interest.

State of \$8,000 in interest.

Baltimore Cinclunal! & Western Central.—Of this projected road the New York Times reports that it is the old p'an of a railroad from Baltimore to Cincinnati to run parallel with the line of the Baltimore and Ohio, which has been revived. A prospectus of the new road has been issued, in which its projectors claim that they are acting in perfect good faith, and aver that the construction of this road is assured, more than a sufficient amount of capital having been subscribed. Ex-Secretary of the Navy Richard W. Thompson has accepted the presidency of the company, and is to be associated in the management with Henry B. Hammond, President of the Indianapolis Decatur & Springfield Railroad and of the Boston & New York Air Line. The latter gentleman will be at the head of the con-

etruction company. Chief among the supporters of the new road appears the Erlanger syndicate, which controls the great Southern system of railways. which controls the

great Southern system of railways.

The route determined upon for the new road, according to the prospectus, is as follows: Starting from Cincinnati, the line follows the Inorth bank of the Ohio River to Portsmonth, thence to Gallipolis, on the Ohio River, a distance from Cincinnati of about 150 miles. Crossing the Ohio River there into West Virginia, the line follows the Great Kanawha River a distance of 54 miles to Charleston, where it connects with the Chesapeake & Ohio Railroad, coming up from Richmond. From Charleston the line turns northeasterly and follows the valley of the Elk River for some 160 miles to its head-waters at the Alleghany Mountains; crossing there through a remarkably low gap, upon a grade of only 73 feet to the mile, it passes a distance of about nine miles to the north fork of the south branch of the Potomac River, and thence by the banks of same distance of about nine miles to the north fork of the south branch of the Potomac River, and thence by the banks of same for some 60 miles to Moorefield, near the boundary of Virginia and West Virginia. Thence the line crosses the country, via Winchester and Leesburg, to the Potomac River, a distance of about 104 miles, and crossing that river at Edward's Ferry, it passes through the State of Maryland about 57 miles to the City of Baltimore. Thus the line extends a total distance of 601 miles from Baltimore to Cincinnati, of which distance 381 miles—nearly two-thirds the entire length—are along the banks of rivers.

banks of rivers.

There are 208 towns and cities directly on the line of the road, of which 188 have no railroad connections whatever. road, of which 188 have no railroad connections whatever. Forty-two counties, with an average population of 33,043, are passed through. The estimated cost of construction given in the prospectus places the maximum cost of a first-class, steel-nail, single track railway at \$25,000 per mile, or \$15,000,000 for the 600 miles. To this the cost of erecting depots, warehouses, grain elevators, establishing repair shops, providing side tracks and rolling stock, and constructing telegraph lines, it is estimated will add not more than \$10,000,000, thus providing a complete road in running order, fully equipped, for \$25,000,000. This sum, says the prospectus, is only about one-fourth of the amounts expended in establishing the other lines from Cincinnati to the sea-board. The construction company which, it is announced, will build and equip the road is to be known as the Uniou Improvement Company, and will have a ready cash capital of \$10,000,000. The projectors of the new road will hold a formal meeting next week, at which full plans for the future will be determined upon.

California & Oregon.—Arrangements have been made for an

California & Oregon.—Arrangements have been made for an immediate extension of the Cal. & Oregon R.R. from Redding to the State line. The Oregon Central will build down and meet the extension of the California & Oregon at the State line. In a short time Sacramento will be connected by direct rail. communication with Portland, Oregon. I will be accomplished in less than two years. This, it is expected.

Central Construction Company.—The Central Construction Company, which was organized to construct the telegraph lines of the American Union Company, went into process of liquidation immediately after the consolidation of the American Union with the Western Union. A majority of the directors recently petitioned for leave to withdraw the petition for the dissolution of the company, but without stating any reason for their change of mind. Judge Barrett, in Supreme Court, Chambers, before whom the application to withdraw had been made, has rendered a decision granting the application and made, has rendered a decision granting the application and discharging the referee previously appointed from his duties.

Dallas & Western.—Articles of incorporation of the Dallas & Western Railway Company have been filed in the office of the Secretary of State of Texas. The proposed line of road will extend from some point in or near the city of Dallas, thence running in a northwesterly direction to a point on the Rio Grande in the county of Presidio; and also a line from some point on the main line in Haskell or Throckmorton county; thence running in a northeasterly direction to some point on the Red River, in the county of Wichita or Clay, being a total distance of 750 miles. The principal office of the company will be in the city of Dallas. The amount of the capital stock is placed at \$750,000, in shares of \$100 each, with the privilege of increasing the capital stock from time to time to any amount required for constructing and operating the road. The following are the names and residences of the incorporators: Jno. W Forney, Samuel J. Randall, W. H. Brady, Frank Link, Thomas J. Everett, W. W. Restsell and James Forney, State of Pennsylvania; Chas. H. Cole, J. W. Throckmorton, W. M. Walton and C. C. Slaughter, of the State of Texas.

Flarida Central.—Jacksonville, Fla., Nov. 5.—The sale of the Florida Central Railroad, extending from this place to Lake City, advertised to take place to-day under a decree of the United States Supreme Court, was postponed by order of Judge Pardec, toDecember 11. A number of European capitalists who were here to attend the sale were much disappointed that it did not occur. it did not occur.

Indianapolls Bloomington & Western.—While Judge Drummond was in Indianapolis two weeks ago, he was chiefly occupied in disposing of a large number of intervening claims in the foreclosure suit against the Indianapolis Bloomington & Western Railroad. The Court found that between \$550,000 and \$600,000 had been diverted in payment of coupon interest, and in permanent improvements and betterments of the road, which ought to have been applied toward the payment of these intervening claims for supplies, etc. The Judge also disposed of claims amounting to upward of \$500 000 for car-service, labor, supplies, materials furnished, etc. The railroad had been sold under the mortgages, and a reorganization had been made by the purchasers of the main and extension lines were different, and they were put in possession, subject to the payment of these claims allowed or to be allowed by the Court. The purchasers had made provision for the payment of these claims allowed or to be allowed by the Court. The purchasers had made provision for the payment of the claims by the issue of bonds, the proportion to be issued by the main and extension lines being settled by stipulation between the parties. The principles on which all the claims were to be settled were established. Monday the decree was drawn to be entered at Indianapolis yesterday, and at Springfield to-day, directing the purchasers to pay the claims within sixty days. Although it was not the practice to allow interest on such claims in the case of the sale of an insolvent railroad, where the mortgages lose a large portion of their debt, yet in the present case a small part of the interest due was atlowed, the purchasers having taken possession of the property in 1877. All the claimants were decreed to bear their share of the expense Incurred in establishing their rights, including legal fees, the costa having been, as a matter of fact, borne by a few, though all received the benefit. The general costs are to be paid by the purchasers. The latter intend to take the case to

Manhattan Railway.--The annual meeting of the stock-holders of the Manhattan Elevated Railway Company was held on Wednesday. The following directors were elected: Jay Gould, Russell Sage, John H. Hall, William R. Garrison, Edward M. Field, Henry F. Dimock, Cyrus W. Field, Samuel Stoan, Sidney Dillon, George I Gould, Washington E. Connor, George S. Scott, and Robert M. Gailaway. A report of the settlement between the New York, the Metropolitan and the Manhattan companies was read and approved, and the following resolution

companies was read and approved, and the following resolution was passed:

"That while the stockholders of this company regard with satisfaction the settlement thus made with the New York and Metropolitan companies, they recommend that measures be taken to merge into the stock of this company the stock of the two other companies—that is to say, that a surrender or transfer of the capital stock of the New York and Metropolitan companies be made by their stockholders to this company and accepted by it; and for that purpose they approve and authorize the issue of the like additional amount of the stock of this company, not exceeding in the aggregate the stocks of the New York & Metropolitan companies—that is is to say, \$13,000,000—on such terms and conditions as may be agreed upon between the three said companies."

Subsequently the new board met and elected the following officers: President, Jay Gould; Vice President, Robert M. Galloway; Secretary, F. E. Worcester; Treasurer, John P. Body; General Manager, F. K. Hain.

—President Gallaway wrote a letter to Mr. Cyrus W. Field relative to the earnings for the year ended Sept. 30, in

which he says:

Field relative to the earnings for the year ended Sept. 30, in which he says:

"During the month of March I caused a count to be made of the passengers transferred from the Second to the Third and from the Third to the Second Avenue lines at Chatham Square daily. During the entire month 205,618 passengers were transferred from the Second Avenue line. Also 30,280 passengers transferred from the City Hall branch to the Second Avenue line. In the first instance the fares were collected by and credited to the Second Avenue line. In the last instance the fares were cellected by the Third Avenue line and credited to the Third Avenue line. This would give a balance of 175,338 passengers in favor of the Third Avenue line. The average fare received was 6 81-100 ceuts, making \$11,939 for the mouth. This being an average month would give \$13,238 for the year in favor of the Third Avenue line. The total net receipts (according to the books of the Manhattan Company) of the Metropolitan E vated road was \$35,566, and of the New York Elevated road \$1,073,424. Deducting \$143,208 from the Metropolitan line and adding the same to the New York Elevated would give \$792,298 for the Metropolitan Elevated and \$1,216,692 for the New York Elevated road."

The use of the shops I surive at as follows:

I have received plans and estimates from our engineers showing that \$160,000 would erect and stock a machine shop adequate for all purposes of the Metropolitan line. I also am informed that the value of the land upon which the shops would be erected is \$175,000. making a total of the Land of t

In both instances these calculations are exclusive of tuxes.

The Manhattan Elevated Railway Company notified the Stock Exchange Thursday that its capital stock would be increased from \$13,000,000 to \$26,000,000, for the purpose of merging the New York and Metropolitan stock into Manhattan.

It is reported that \$6,500,000 of the stock to be first preferred will be issued to the New York stockholders, \$6,500,000 second preferred to the Metropolican stockholders, and the \$13,000,000 remaining to be common stock. The New York Company directors held a meeting in the afternoon and appointed Cyrus W. Field a committee of one to confer with the presidents of Manhattan and Metropolitan as to the proposition of the Manhattan Company to merge the stocks. Mr. Field afterwards said that he and Mr. Gould had met and agreed that the proposition should be accepted. Mr. Sage was not seen by them. The World says: "It is reported that suit will be brought by the New York Company against the Metropolitan claiming that the former is entitled to one-half of the Metropolitan structure between Fifty-third and Eighty-first streets, on Pearl Street, and from Chatham Square to the City Hall, and that the bonds issued for the building of the joint structure yielded \$200,000 per mile more than it cost, and the balance belongs to the two companies."

Minneapolis & St. Louis.—On the extension of this road from Fort Dodge, la., southward, track is now laid to the Chicago & Northwestern crossing at Ogden, 37 miles from Fort Dodge, and 29 miles beyond last winter's terminus. It is expected that the road will reach Coaltown, 13 miles further, in another month. The intention is to build to Greenfield on the Chicago Burlington & Quincy, 90 miles from Fort Dodge. On the Pacific Division grading is about finished to Winthrop, 35 miles beyond the present terminus at Arlington. Winthrop will probably be the winter terminus, leaving 25 miles to build in the apring to reach Redwood Falls. It is said that the company is considering the question of building a line of its own from Taylor's Falls to Superior or Duluth. The distance is about 90 miles.—Railroad Gazette. about 90 miles. - Railroad Gazette.

New York Central.—The Boston Advertiser reports: "The Clarion Mahoning & Pittsburg Railroad is the title of the extension of the Dunkirk Allegheny Valley & Pittsburg road, running from North Warren to Brooksville, Jefferson county. The road crosses the Connewango Creek, just below Falconer's Island, and runs thence east of the Connewango, and crosses the Allegheny River on Butternut Island, at Glade Run; thence running to Stoneham, crossing under the Philadelphia & Erie Railroad at Dutchman's Summit. Then it runs down the Tionesta Creek as far as Blue Jay, then up the Blue Jay to Ward's Summit, then up Maple Creek to Brooksville, a distance of sixty miles. The distance now by rail is 150 miles. The main object of the road is to furnish the New York Central with coal from the Jefferson County coal mines. The preliminary survey has been made about two miles up the Blue Jay, and the location has been made from North Warren to Clarendon. The grading will begin soon. The work is under the general management of Mr. C. Karr, managing director for the company." the company."

New York Stock Exchange.—The Governing Committee of the Stock Exchange, at a meeting this afternoon, listed the fol-

American Dock & Improvement Company—The 7 per cent mortgage bonds dated October 1, 1866, now upon the list, have been recalled, and the company has replaced them with an issue of \$5,00,000 of first mortgage bonds in 5,000 bonds of \$1,000 each, with interest at 5 per cent. The new bonds are placed on the regular list.

the regular list.

the regular list.
Galveston Harrisburg & San Antonio Railway Company—First mortgage bonds Nos. 1 to 4,500, each for \$1,000, dated February 1, 1871; Nos. 4,501 to 4,800, each \$1,000. La Grange extension, dated August 1, 1880; both mature February 1, 1910; same rate of interest, payable at same time; included in the same mortgage; are on an entire equality and are a first mortgage on the total length of road, 256 miles, and sidings 20 miles. They have been on the list and called separately. The company requested that they be united and called as one, and the committee ordered that the call of La Grange extension be discontinued and the whole 4,800 bonds be embraced in one call as first mortgage bonds. first mortgage bonds.

New York West Shore & Buffalo.—The negotiations which have for some time been pending between the New York Central Railroad Company and the New York West Shore & Buffalo Company for the acquiring by the latter company of the Athens Branch Railroad, &c., have been amicably concluded. The West Shore Road, by this arrangement, obtains possession of the railroad built by the New York Central Company from Athens to Schenectady—40 miles long, with 4 miles of sidings 17 acres of land in the town of Coxsackie, and over 400 acres of land and 1 mile of river frontage with deep water at Athens, on the Hudson River. This branch will at once be double tracked and made part of the main line of the West Shore Road. This purchase will greatly hasten the completion of the West Shore Road through Greene, Albany, and Schenectady counties.—

est was ever paid. On class paid, and on class 3 two instalments. class 2 est was ever paid. On class 2 one instalment was paid, and on class 3 two instalments. About \$13,000,000 of the bonds were issued, and were readily taken up by the Northerners at \$85 and \$90. To provide for paying their interest a special tax was imposed by the State, hence the name now applied to the bonds. Some years ago the State debt of North Carolina was reorganized, and these bonds, while not exactly repudiated, were not included in the new list of indebtedness. The bonds have depreciated in value, until to-day they are selling at \$10, with few purchasers at that figure. Heretofore there has been no relief for this class of sufferers, as the Constitution of the United States prohibits the suing of a State by an individual. The enabling act passed by the New York Legislature last winter promises, however, Justice Flammer said, some relief, as under it this State will, under certain conditions, maintain against another State the suit of an individual. It was resolved at yesterday's meeting to test their rights under this law, providing a sufficient number of the bondholders could be interested in the project. Justice Flammer and Mr. Hendricks were appointed a committee to confer with the larger holders in Wall Street to secure their co-operation, and the meeting adjourned suject to the call of the chair.

—N. Y. Times. About \$13,000,000 of the

Pacific Mail—Pacific Railroads.—Representatives of the Union Pacific Railroad Company, the Pacific Mail Steamship Company and the Panama Railroad Company, held a conference in New York this week looking to a modification, rather than to the total abrogation, of the old contract, by which the Union Pacific gnaranteed to the Pacific Mail a freight patronage of \$110,000 per month. It is stated that, after deducting the actual California business of the line, they have been compelled to pay in money about \$800,000 during the last year. The payments have ranged from \$59,000 to \$75,000 a month. The Union Pacific recently gave notice of an abrogation of the contract, which, under its terms, will expire January 1 next. A compromise committee was appointed to settle upon an agreement, as follows: For Pacific Mail, President J. B. Houston and Henry Hart; for Union Pacific. President Sidney Dillon and C. P. Hontington; for Panama, President Trenor W. Park.

St. Louis & San Francisco.—A press dispatch from St. Louis, November 7, says: "A deed of trust recently issued by the St. Louis & San Francisco Railroad Company for \$30,000,000 was filed in the Recorder's office here Saturday evening. The deed was given to the United States Trust Company of New York, and is on the entire line of the road and its property, and not only covers all present indebtedness of the road, but all future extensions and branches. The present debt of the road is \$15,000,000, for which new bonds will be issued at once, and the remaining \$15,000,000 will be issued as required for construction of the main line and branches. A copy of the mortgage will be filed in each county in Missouri, Kanyas and Arkansas through which the road runs."

Arkansas through which the road runs."

Texas-Mexican.—The Galveston News says that a representative of that journal saw at the County Clerk's office, lately, a deed from Charles S. Hinchman and wife of Philadelphia, conveying, for a consideration of \$60,000 in cash, to the Texas-Mexican Railway Company, to the Guarantee Trust and Safe Deposit Company of Philadelphia, by deed of trust, of date June 30, 1877, and sold to Charles S. Hinchman by the Guarantee Trust and Safe Deposit Company as trustee, on the lat of April, 1881, all that part of the railroad formerly belonging to the Galveston Brazos & Colorado Narrow-Gange Railway Company, extending from the eastern terminus of said road in the city of Galveston to Seaforth station, comprising about fifteen miles of said railroad, together with all the roadbeds, lands, rights of way, franchises, &c. There is also on fle in the County Clerk's office a document far more formidable in appearance and interest than the deed just referred to. It is a mortgage from W. J. Palmer as President and John Pratt as Secretary of the Texas-Mexican Railway Company to the Guarantee Safe Deposit Trust Company of Philadelphia, conveying to the latter as trustees all the line of railway and telegraph the Texas-Mexican Railway Company has heretofore constructed and operated, and which it is now engaged in locating and constructing, &c. The mortgage specifies the various lines of road proposed to be bnilt, embracing 1,400 miles, and sets out the fact that the stockholders and directors have authorized the execution of the indenture; "that they have resolved to issue mortgage bonds upon the roads constructed and to be constructed in amount not to exceed \$15,000 per mile; that this mortgage is made at once to cover the issue of 2,500 bonds of the denomination of \$1,000 each, to run forty years, drawing 6 per cent interest, principal and interest payable in gold."

Wabash St. Louis & Pacific.—The Quincy Missonii & Pacific

and made part of the main line of the West Shore Road. This purchase will greatly hasten the completion of the West Shore Road through Greene, Albany, and Schenectady counties.—

North Carolina State Bonds.—An informal meeting of holders of certain North Carolina bonds, to discuss the propriety of resorting to tegal measures to compel that State to recognize her own indebtedness, was held in the Astor Honse last week. Half a dozen gentlemen, representing \$500,000 worth of the bonds—special tax bonds they are called—were present. Police Justice Flammer was appointed Chairman and Mortimer Hendricks Secretary. The bonds, it was stated, were issued immediately after the war as State aid to certain railroads, and were divided into three classes. On class 1 no inter-

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, November 11, 1881.

General elections were held in this and several other States on Tuesday. Their results were not important except in the success of the "Readjuster" or semi-repudiation party in Virginia, and precisely how much this means is now quite uncertain. Election day is a close holiday in this State, and to that extent interrupted business. Rainy weather during the first half of the week also had an unfavorable effect. The general condition of mercantile affairs is, however, good. Exports have been Increased by the abatement of speculative values, and the force of legitimate influences is on the increase, thus promoting a healthy and active trade. The close to-day showed a greatlyimproved tone to the general market.

Rio coffee has declined to 1tc., for fair cargoes, trade being very dull and receipts accumulating; it has been found necessary to sell some 800 bags at auction; mild grades have been moderately active at about steady prices; at the close the entire market is dull and nominal. Rice has been moderately active and steady. Foreign fruits have been in fair demand at firmer prices. Spices have been dull. Tea sold at some decline for all kinds at an anction yesterday, but to-day at a sale of 9,000 packages, although greens were slightly lower, blacks were generally steady, and common Amoy oolongs about 1c. higher. Molasses has been very quiet; new crop New Orleans has been quoted at 65@74c. Raw sugar has been quiet but firm at last week's prices.

Hhds.	Boxes.	Bags.	Melado.
Receipts since November 1 4,147		49,080	-
Bales since Nov ember 1 2,340	3.853	6.146	
Stock November 9, 1881 51,536	6.814	577.525	52
Stock November 10: 1880 52,909	8.452	1.021.318	4 308

Refined sugar, after a dull week, closed more active at firm prices; cut loaf and crushed, 10 1/4c.; powdered and cubes, 10 1/4c; granulated, 9%c.; standard soft white "A," 9%c.

Kentucky tobacco has continued quiet, but prices are firm. Sales for the week 350 hhds., of which 200 for export and 150 for home consumption. Lugs are quoted at 6½@7¼c. and leaf 7½@14c. Seed leaf has been quiet, and sales for the week are only 1,300 cases, as follows: 400 cases 1880 crop, New Engiand wrappers, 18@40c., and Housatonic, assorted, 21@25c.; 300 cases, 1880 crop, Pennsylvania, assorted, 12@t8c.; 200 cases, 1880 erop, Ohio, private terms, and 400 cases, 1830 crop, Wisconsin fillers, 21/2@31/4c.; assorted lots, 7@9c., and Havana seed, 10@15c.; also 400 bales Havana fillers, 86c.@\$1 20.

The provision market has continued irregular and somewhat weak during the week, but at the close there was an improved state of affairs, resulting from stronger advices from the West Mess pork on the spot was sold at \$1750; January options were quoted at \$18@\$1845; February, \$18 20@\$1850 bid and asked. Lard was firmer, and prime Western sold on the spot at asked. Lard was firmer, and prime western sold on the spot at 11.35@11.37½c.; December options realized 11.45@11.50c.; January, 11.65@11.70c.; February, 11.75@11.77½c.; March, 11.87½c.; refined to the Continent, 11.60c. Bacon was dull and almost wholly nominal at 9½c. for long clear. *Beef hams and beef have ruled quiet, but without essential exanges. Tallow has sold fairly well at 7¾@7½c. for prime Stearine is dull at 11¾c. Butter has been weak and dull, but at the close a better tone prevailed. Cheese has declined to 13½@12¼c. for fair to choice factory.

11¾c. Butter has been weak and dull, but at the close a better tone prevailed. Cheese has declined to 13½@12¾c. for fair to choice factory.

Naval stores have been irregular. Losins have declined to \$2 50 for good strained in the face of lage arrivals and small demands. Spirits turpentine has advanced to 55½c. in yard, owing to reduced offerings and higher Southern advices. Petroleum has continued dull and weak. Refined for export is now quoted at 7½c. Crude certificates have shown great irregularity, but close steady with sales at 8½c. Ingot copper has been more active and firm at 18½@13¼c for Lake. All other metals have been fairly active at full prices. Hops continue in fair export sale at 22@30c. for State, 1881. Wool has had a moderate movement at steady prices.

Ocean freight-room has latterly been more active, and rates have shown more steadiness. The interest has been evenly divided between the grain and petroleum trades. To-day grain was taken to Liverpool by steam at 4¼d. standard and 4½d. 60 lbs., and corn at 4d. 56 lbs.; bacon and cheese, 15s.; cotton, 3-16@¼d.; flonr, 12s, 6d. per ton; grain to London by steam, 4½d4d; do. to Card for orders by sail, 4s. 3d.@4s. 4½d. per quarter, regular, and 4s. 1d. free of elevating charges; do. to Lisbon, 12c. per bushel; do. by steamer to Newcastle, 3s. 9d.; do. to Copenhagen by steamer, 4s. 6d.; refined petroleum to Bremen by sail, 3s.@3s. 0¾d.; do. to United Kingdom, 3s. 6d.; do. in cases to Calcutta, 20c.; do. to Oran, 17½c.; do. to Phillipopolis, 18c.

COTTON.

FRIDAY, P. M., November 11, 1881.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening (Nov. 11), the total receipts have reached 224,426 bales, against 216,685 bales last week, 203,241 bales the previous week and 184,531 bales three weeks since; making the total receipts since the 1st of September, 1881, 1,606,830 bales, against 1,857,906 bales for the same period of 1880, showing a decrease since September 1, 1881, of 251,106 bales.

*Included in this amount there are 100 bales at presses for foreign ports, the destination of which we cannot learn.

The speculation in cotton for future delivery, for the week under review, has not been active; and prices, though changeable, have not finctuated widely. On Saturday and Monday there was some depression, under the increased movement of the crop, and the reports that the frosts at the South last week had done very little injury. On Tuesday, when a general election was held, the Cotton Exchange was closed. On Wednesday the market opened weak, but towards the close it was reported that the forthcoming Bnreau report will be very unfavorable, and prices advanced a few points; but they were more than lost on Thursday, under a subsidence of demand, and weak, closing accounts from Liverpool. To-day continued unfavorable; reports from the Southern exchanges caused some reduction in crop estimates, and revived speculative confidence, upon which an important advance was realized. Cotton on the spot was quiet and unchanged until Thursday, when the high grades were advanced 1-16c., being in demand and comparatively scarce. To-day there was no decided change, but holders were firmer.

The total sales for forward delivery for the week are 419,300 bales. For immediate delivery the total sales foot up this week 5,128 bales, including 883 for export, 2,295 for consumption, 50 for speculation and 1,900 in transit. Of the above, 50 bales were to arrive. The following are the official quotations and sales for each day of the past week.

The imports into Continental ports this week have been 22,100 bales.

The above figures indicate an increase in the cotton in sight to-night of 167,354 bales as compared with the same date of 1880, an *increase* of 436,545 bales as compared with the corresponding date of 1879 and an *increase* of 604,002 bales as compared with the corresponding date of 1879 and an *increase* of 604,002 bales as compared with the corresponding date of 1879 and an *increase* of 604,002 bales as compared with the same date of 1880, an *increase* of 604,002 bales as compared with the same date of 1880, an *increase* of 436,545 bales as compared with the same date of 1880, an *increase* of 436,545 bales as compared with the same date of 1880, an *increase* of 436,545 bales as compared with the same date of 1880, an *increase* of 436,545 bales as compared with the same date of 1880, an *increase* of 604,002 bales as compared with the corresponding date of 1870 and an *increase* of 604,002 bales as compared with the corresponding date of 1870 and an *increase* of 604,002 bales as compared with the corresponding date of 1870 and an *increase* of 604,002 bales as compared with the corresponding date of 1870 and an *increase* of 604,002 bales as compared with the corresponding date of 1870 and an *increase* of 604,002 bales as compared with the corresponding date of 1870 and th pared with 1878.

AT THE INTERIOR PORTS the movement—that is the receipts and shipments for the week, and stocks to-night, and for the corresponding week of 1880-is set out in detail in the following statement:

14

Total, new ports	29,910	28,389	36,753	31,578	31,258	36,123		
Total, all	150.147	118,126	322,161	149,725	127.029	263 238		

The above totals show that the old interior stocks have in creased during the week 30,470 bales, and are to-night 58,273 bales more than at the same period last year. The receipts at the same towns have been 5,080 bales more than the same week last year.

RECEIPTS PROM THE PLANTATIONS.—The following table is prepared for the purpose of indicating the actual movement each week from the plantations. Receipts at the outports are sometimes misleading, as they are made up more largely one year than another, at the expense of the interior stocks. therefore, a safer conclusion through a comparative statement like the following. In reply to frequent inquiries we will add that these figures, of course, do not include overland receipts or Sonthern consumption; they are simply a statement of the weekly movement from the plantations of that part of he crop which finally reaches the market through the out-ports

RECEIUTS FROM PLANTATIONS,									
Week	Receip	te at the	Ports.	Stock at Interior Ports			Recipts from Plantins.		
ending-	1879.	1880.	1881.	1879.	1890.	1881.	1879.	1840.	1831.

The above statement shows—
1. That the total receipts from the plantations since Sept. 1 in 1881 were 1,856,673 bales; in 1880 were 2,064,098 bales; in 1879

1881 were 1,856,673 bales; in 1999 were 2,847,263 bales.

2. That, although the receipts at the out-ports the past week were 224,420 bales, the actual movement from plantations was 254,890 bales, the balance going to increase the stocks at the interior ports. Last year the receipts from the plantations for the same week were 238,218 bales and for 1879 they

WEATHER REPORTS BY TELEORAPH,-Rain has been general in most sections of the South during the past week, interfering to some extent with picking. The temperature has continued low, but no killing frosts are reported to-night.

Galveston, Texas.-We have had rain on five days of the past week, and it is raining now. The rainfall reached one inch and eighty-six hundredths. The rain has been general throughout the State, interrupting picking and making the roads bad. The thermometer has ranged from 54 to 79, averaging 66.

Indianola, Texas.-It has rained hard on six days of the past week, the rainfall reaching two inches and eighteen hundredths. Picking has been interfered with by the storm. Average thermometer 67, highest 80 and lowest 58.

Corsicana, Texas.—Telegram not received.

Dallas, Texas.-We have had hard rain on four days of the past week, the rainfall reaching two inches and forty hundredths. The rain has interfered with picking and the roads are bad. The thermometer has averaged 53, ranging from 38 to 75.

Brenham, Texas.-It has rained hard on four days of the past week, the rainfall reaching three inches. Picking has been interfered with by the storm. The roads are in a wretched condition. The thermometer has averaged 65, the highest being 77 and the lowest 50.

New Orleans, Louisiana.-We have had rain on three days of the past week, the rainfall reaching three inches and six hundredths. The thermometer has averaged 65.

Shreveport, Louisiana.—The weather has generally been cloudy and cool during the past week. The rainfall has been heavy, and has prevented all cotton picking. The wind has also damaged cotton to some extent. The river has risen one foot ten inches. Highest thermometer 74, lowest 47, average, 58.

Vicksburg, Mississippi.—It has rained on four days during the past week. We are having too much rain.

Columbus, Mississippi .- It has rained on three days during the past week, the rainfall reaching one inch and fifty six hundredths. The thermometer has averaged 60, the highest being 72 and the lowest 43.

Little Rock, Arkansas.-Friday and Saturday of the past week were clear, but the remainder of the week has been cloudy, with heavy rain on three days, and it is still raining. The rainfall reached two inches and ninety-three hundredths. The thermometer has ranged from 40 to 66, averaging 52.

Nashville, Tennessee.—We have had rain on five days of the past week, the rainfall reaching one inch and seventy-three hundredths. The thermometer has ranged from 41 to 73, aver-

aging 57.

Mobile, Alabama.—It has rained on one day, and has been showery on one day, the past week, the rainfall reaching four inches and fifty hundredths. The tributary rivers are higher. Average thermometer 63, highest 81 and lowest 42.

Montgomery, Alabama.—It has rained on four days during the past week, the rainfall reaching one inch and sixty-eight hundredths. The thermometer has averaged 64, ranging from

Selma, Alabama.—We have had rain on two days of the past week, and the balance of the week has been cloudy. The rainfall reached one inch and sixty hundredths. We have had a frostthis week, but not a killing frost. The thermometer has averaged 64.

Madison, Florida.—Telegram not received.

Macon, Georgia.—It has rained on two days during the past
week and the balance of the week has been cloudy. The
planters are marketing their crop freely, but there is a great

disposition to hold on, for the belief in higher prices is general

disposition to hold on, for the belief in higher prices is general as the crop is undoubtedly short. The thermometer has ranged from 38 to 77, averaging 60.

Columbus, Georgia.—We have had warm, sultry, wet weather during the past week, with rain on three days. The rainfall reached one inch and sixty-four hundredths. The planters are sending their crop to market freely, and it is believed that about one-half of the crop has been marketed. The theremometer has averaged 70, the highest being 76 and the lowest 53.

Savannah, Georgia.—On three days of the past week we have had rain, and the balance of the week has been pleasant. The rainfall reached twenty hundredths of an inch. Average thermometer 65, highest 80 and lowest 43.

thermometer 65, highest 80 and lowest 43.

Augusta, Georgia.—It has rained lightly on four days of the past week, and the rest of the week has been cloudy and cool. The rainfall reached sixty-seven hundredths of an inch. The tenor of the crop accounts is about the same as last report. Average thermometer 64, highest 81 and lowest 39.

Atlanta, Georgia.—Telegram not received.

Charleston, South Carolina.—We have had light showers on four days of the past week, the rainfall reaching thirty hundredths of an inch. Average thermometer 65, highest 77 and lowest 43.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 3 o'clock. November 10, 1881, and November 11, 1880.

	Nov. 1	0, '81.	Nov. 11, '8	0.
		Inch.	Feet. Inc	ch.
New Orleans Below high-water mark .	. 10	4	13 ()
MemphisAbove low-water mark	. 18	8	7 7	7
Nashville Above low-water mark	. 9	6	12 7	7
Shreveport Above low-water mark	. 16	0	8 3	3
Vicksburg Above low-water mark	. 22	11	Missing	

New Orleans reported below high-water mark of 1871 until Sept. 9, 1874, when the zero of gauge was changed to high-water mark of April 15 and 16, 1874, which is 6-10ths of a foot above 1871, or 16 feet above low-water mark at that point.

DROUGHT AND THE COTTON CROP.-Unusually wide differences of opinion exist with regard to the effect on the cotton crop of the drought of this summer. Some are willing to give but little credence to the reports received, while others believe them fully. It is, however, an undoubted fact that in sections the drought was at the time very harmful, no rain and high temperature combining to almost take the life out of the plant as well as the fruit from it; and had the plant been poorly started in the spring, no future growth would have been possible. The points affected most severely were the uplands in the driest districts; and in those worst districts the subsequent rains have not to any considerable extent revived the plant. Elsewhere, however, there seems to be a general opinion that results are proving better than expected, as is always the case with a well-started plant in dry seasons. Over a considerable district, therefore, a good top crop seems now assured, and this later growth will make a material addition to the yield. Our information in this particular extends especially to parts of Arkansas, Texas, Louisiana and Mississippi. In fact, the reports we have indicate that the crop of a good portion of the bottom lands in the States named bids fair-with the open season prolonged a little later—to be quite satisfactory both in quality and quantity, and in some if not many counties better in each particular than last year. But it is too early yet to talk about results.

We were led to refer to this subject by the following letter and inquiry.

To the Editor of the COMMERCIAL AND FINANCIAL CHRONICLE.

DEAR SIR:—We take the liberty of appealing to your superior judgment on a question submitted to us by one of our European friends. He asks: "How is it that cotton, which had a good start, can stund three months of dry and excessive hot weather in Egypt and India? And if it can, why should it be affected so much by a few weeks of drought in America?"

If you could favor us with an answer to this question, we would feel extremely obliged, not being ourselves sufficiently conversant with the physiology of the cotton plant.

We remain, dear sir, yours respectfully,

Our correspondents' inquiry appears to assume—for it is based upon the supposition—that the "dry and excessively hot weather" in India does not decrease the yield. We do not think that is a fair assumption. It is, we presume, the climatic conditions which make the yield per acre there average less than a third of the yield in America. In other words, "the dry and excessively hot weather" in India reduces the fruit-bearing power of the plant two thirds and not unfrequently destroys it. On the contrary, cotton in the Southern States during a perfect season grows and fruits all summer and produces what is called three crops. This year the drought interfered and prevented a complete and healthful development. No one, however, has claimed, even the advocate of the smallest estimate, that the drought has been severe enough to reduce the crop to the India average; so we do not see how any comparison can be made on the basis of our correspondents' question.

And still we admit that the harm reported to have been done throughout the South by the summer weather is, in the then excellent condition of the plant, so unusual as to make one critical in studying the conditions which prevailed, as well as those that have prevailed since.

EUROPEAN COTTON CONSUMPTION FOR OCTOBER.-We have received to-day (Friday), by cable, Mr. Ellison's figures for October, the first month of the new cotton season. We have also received the revised totals for last year, and give them for comparison. The spinners takings in actual bales and pounds have been as follows:

In October.	Great Britain.	Continent.	Totat.
For 1881.			
Takings by spinnersbales	309,950	129,720	439,670
Average weight of bales	434	411	427
Takings in pounds	131,518,300	53,314,920	187,533,220
For 1880.			
Takings by spinnersbales	248,450	130,160	378,610
Average weight of bales	437	397	423
Takings in pounds	108,572,650	51,673,520	160.246,170

According to the above, the average weight of the deliveries in Great Britain is 434 pounds per bale in October this season, against 437 pounds during the same time last season. The Continental deliveries average 411 pounds, against 397 pounds last year, and for the whole of Europe the deliveries average 427 pounds per bale, against 423 pounds last season. Our dispatch also gives the full movement for this year and last year, in bales of 400 pounds each.

271,000	129,000	400,000
264,000	216,000	480,000
	25,000 333,000 361,000 280,000 81,000 27,000 271,000	25,000 240,000 133,000 361,000 270,000 141,000 271,000 129,000 298,000 216,000

The foregoing indicates that spinners' stocks are now 222,000 bales, against 59,000 bales a year ago.

The cable also adds that the consumption of Great Britain was in October 70,000 bales per week (which is the same as given for September), and that the Continental consumption was 58,000 bales per week, against 57,000 bales reported for September. Hence it appears that the total for the whole of Europe is 1,000 bales more than it was last month, or 128,000 bales in October, against 127,000 bales in September. It will be remembered that Mr. Ellison estimated in his annual review a weekly average of 129,000 bales for the season of 1881-82.

NEW YORK COTTON EXCHANGE MEMBERSHIP.-Nothing has yet transpired as to what will be the decision of the Board respecting the petition referred to last week. It may therefore be taken for granted that the Board is still deliberating on the advisability of limiting membership to its present number. As the price per seat has been doubled (that is, raised to \$10,000) since November 1, it must be allowed that there is ample time for deliberation. Meanwhile, one seat has been sold at \$5,500; three new applications for membership have been received, and two members have filed their intention of transferring their seats—one of the two having only recently joined the Exchange at the cost of \$5,000.

COTTON EXCHANGE REPORTS FOR NOVEMBER.-We publish below the Cotton Exchange condition reports for November 1, as received by telegraph:

Norfolk Department.

The Norfolk Cotton Exchange, through their Committee on Information and Statistics, composed of Louis Hiliard, Chairman, W. D. Rountree, and John C. Maximos, issues the following report, covering the State of Virginia and the following Counties in North Carolina: Rutherford, Lincoln, Catawba, Rowan, Davidson, Irodell, Burke, Wilkes, Caldwell, Alexander, Davie, Forsythe, Yadkin, Stokes, Surrey, Rockingbam, Caswell, Person; Granville, Warren, Franklin, Nash, Wake, Hyde, Pitt, Oreen, Cartaret, Craven, Beaufort, Tyrrel, Washington, Martin, Bertie, Chowan, Pasquotank, Camden, Currituck, Gates, Hertford, Northampton and Halifax.

North Carolina and Virginia.—68 replies from 35 counties;

average date October 31.

The replies generally show the weather to be warm and dry, with slight rain in some sections; 60 replies show more and 8 less favorable

weather than last year. The average replies show the first frost was from the 5th to the 6th of October; 49 reported no damage and 10 slight damage from the frost. According to the replies, about 74 per cent of the crep has been picked and picking will probably be over by Nov. 20. The average yield will be 525 pounds to the aere. As shown by the replies the yield is 3223 per cent less than that of last year. Forty-six replies show no damage from rust, storms, worms or rot, while 28 show slight damage by rust and sterm. The weather has been very the for the picking, which has progressed favorably, although in some sections a scarcity of labor is much complained of.

Savannah Department.

This report covers Northern, Middle und Southwestern Georgia. (being all of Georgia except the twenty-eight counties in charge of the Augusta Cotton Exchange) and the entire State of Florida. The report is prepared and issued by the Savannah Cotton Exchange, through their Committee on Information and Statistics, composed of J. H. Johnston, Clayins Phillips, J. J. Wilder, F. M. Farley and R. C. Wood.

Georgia.-74 replies from 46 counties.

The weather during October has been remarkably fine, and no damage from frost; from three quarters to seven cightlis of the crop has been gathered, and the picking will be over by the let of December. The yield of seed cotton is estimated to be about 400 pounds per acre, which is from 10 to 15 per cent less than tast year. This is attributable to the drought in the early summer, to cust, and to worms. The yield of intection from the seed is nearly 10 per cent less than last year; while the bales, owing to the lack of moisture in the atmosphere, are about 3 per cent lighter than usual.

Florida.—21 replies from 9 counties.

fiorida.—21 replies from 9 ccunties.

During the past month the weather has been warm and dry and very favorable to the gathering of the crop, soven eighths of which has been picked. The yield of seed cotton is about 350 pounds per acre; compared with last year it is about 10 per cent less. In the Sea Island section the weather has been very fine. These fourths of the crop has been gathered, and picking will be finished by the 1st of December. The yield is about 250 pounds of seed cotton per acre, about 12½ per cent less than last year, which is caused by drought, worms, and rust. The quality of the crop, owing to the fine weather for gathering, is generally reported better than last year.

Augusta Department

covers the Counties of Georgia not included in the Savannah Report, and is issued by the Augusta Cotton Exchange, through their Committee on Information and Statisties, composed of L. L. Zulavsky, Chairman; Geo. W. Crane, S. M. Whitney, J. J. C. McMahan and W. M.

Georgia.-27 replies from 14 counties. Average date

Georgia.—27 replies from 14 counties. Average date Oct. 31.

The reports are unanimous that the weather has been dry and warm; very favorable for gathering, but not for any development of the crop. Two reports state the weather as same as last year, and 25 as more favorable. A very slight frost is reported from Richmond and part of Hancock counties, without any damage. No frost elsewhere. Four correspondents report 62½ per cent pleked, three 75 per cent, thirteen 85% 90 per cent, and seven as nearly all picked. The gathering of the crop will probably be completed by Nov. 10 to 15, only three correspondents saying that picking may extend into December. Four correspondents report a yield of 250 to 300 lbs. One correspondent (Wilkes Co.) reports the crop as somewhat better than last year, three (Warren (Co.) same, ten a decrease of 20 to 30 per cent, nine of 40 to 50 per cent, two of 60 to 65 per cent. The average indicates a decrease from last year of about 30 per ceut. Only in three counties is any material damage reported by wornes—say 10 per cent. They are reported in 10 other counties, but without damage, except to foliage and the youngest fruit. Rust and rot are reported as having done no damage at all. Very little damage is reported by storms, and that only to quality of cotton. It is universally admitted that the past month was one of the lest ever known for saving the erop. All damage to the crop was done by Sept. 1 or before by the continuous drouth. There is no doubt that in many places a top crop was made, and that much late cotton has turned out much better than was expected two months ago. Part of the shortness in production is due to the fact, too, that during the growing season, in many sections, there was not rain enough to dissolve well and to give proper effect to fertilizers applied. Several correspondents state that two or three weeks more of fairly warm weather, without killing frosts, will add to the crop, and picking may not then be thished as soon as indicated.

This being the last report

Mobile Department

covers the State of Alabama as far north as the summit of the Sand Mountains, and the following Countles in Mississippi: Wayne, Clark, Jasper, Lauderdale, Newton, Kemper, Neshoba, Xebaboe, Winston, Lowndes, Oktibbeha, Clay, Monroe, Chicasaw, Itawamba, Lee, Pontotee, Prentiss, Alcorn and Tishamingo. The report is prepared and issued by the Mobile Cotton Exchange, through their Committee on Information and Statistics, composed of T. K. Irwin, Chairman, Julius Buttner, S. Haas, G. Thos. Cox and G. L. Hopkins.

Alabama.-55 replies from 38 countles.

The weather is reported to have been dry and warm throughout the department, and, as compared with last year, decidedly more favorable. There has been no frost of any consequence. About 90 per cent of the crop has been picked, and picking will be finished between the 10th and 20th of November. The yield per acro is reported at about 400 pounds of seed cotton. The estimated yield as compared with last year is reported as being 22 per cent less in 31 of the most productive counties and 22 per cent less in seven of the smaller counties.

Mississippl. - 30 replies from 20 counties.

The weather is reported as having been warm, dry and pleasant throughout the department, and, as compared with last year, much more favorable. No frosts occurred during the month. About 80 per cent of the crop has been plaked, and all will be gathered by Dec. 1. The yield per acre is reported at about 400 poun is of seed cotton. The estimated yield, as compared with last year, is reported at 25 per cent less. Many counties report that there is a smaller yield of but from seed cotton than usual.

New Orleans Department

covers that part of the State of Mississippi not apportioned to the Memphis and Mobile Cotton Exchanges; the entire State of Louisiana, and the State of Arkansus south of the Arkansus River. The report is prepared and issued by the New Orleans Cotton Exchange, through their Committee on Information and Statistics, composed of Wm. A. Gwyn, Chairman, Chris. Chaffe, Jr., W. H. Hawcott, W. A. Poale, Chas. Holland and A. L. Browne.

Louislana.—95 replies from 35 parishes; average date Oct. 31. The weather for the month is reported as very favorable for the gathering of the crop, and, as compared with last year, decidedly better. There

has been no frost. Eighty-five per cent of the crop has been picked and the remainder will be gathered by November 15. The average yield of seed cotton per aere throughout the State is 591 pounds, and, as compared with hat year, is 35 per cent short. An extremely short yield is especially noticeable in the hill parishes. The top crop has not undured throughout the State. There has been no considerable damage from rust, worms or storms.

Mississippl.—Replies from 34 counties; average date Oct. 31

The weather is universally reported as very tine for the gathering of the crop, and much more favorable than last year. There has been no frost reported during the month; 79 per cent of the crop has been picked; picking will be thished about Nov. 20. The average yield of seed cotton per acre is 608 pounds, which is 18 per cent less time last year. Worms have appeared in several counties, doing some damage to the top crops. There has been very little damage from rust or storms.

Arkansas.-117 replies from 30 counties; average date

The weather has been favorable for gathering the crop—more favorable than last year. Light frosts have occurred without causing any damage; Bo per cent of the crop has been picked; picking will be flashed by Nov. 10 to 15. The yield per nere of seed cotton is 360 pounds, and as compared with last year is 60 per cent less.

Galveston Department

covers the State of Texas, and was prepared and issued by the Galveston Cotton Exchange, through their committee on Information and Statistics, composed of J. D. Skinner. Chairman, Chas. Kellner, H. Dreier, J. M. Kling and Robt. Bornefeld.

Texas.-106 replies from 82 counties.

Texas.—106 replies from 82 counties.

The character of the weather since Oct. I has been favorable in 40 counties and rainy and unfavorable in 42. The weather compared with last year has been more favorable for the gathering of crops in 46 counties, the same in 10, less favorable in 26, and no damage from frost. Eighty per cent of the crop is reported picked. Picking with probably be finished by Nov. 15. The average yield is estimated at 500 pounds, the seed centen indicating a decrosse of 40 per cent compare d with tast year. Forty-three counties report serious damage by worms, which have cut short the top crop; 14 report more or less damage from storms and rust; 25, mostly northern counties, report no damage from either cause.

JUTE BUTTS, BAGGING, ETC.—The market for the past week has not been active, and the inquiry noted in our last has almost ceased. There has been a fair amount of business for jobbing wants, but large lots are not wanted. Prices are easier and tend in buyers' favor. Bagging is now quoted at 91/4c. for 1½ lbs., 10¼c. for 2 lbs. and 11¼c. for standard grades. Butts have not been taken except in small lots, and though no change has been made in quotations, there is an easier tone to the market, and an offer at a shade under our figures might obtain a lot. Paper grades are held at 2 9-16@21/sc., while bagging qualities are quoted at 21/8@3c.

COMPARATIVE PORT RECEIPTS AND DAILY CROP MOVEMENT .-A comparison of the port movement by weeks is not accurate as the weeks in different years do not end on the same day of the month. We have consequently added to our other standing tables a daily and monthly statement, that the reader may constantly have before him the data for seeing the exact relativemovement for the years named. The movement each month: since September 1, 1881, has been as follows:

Monthly Year Beginning September 1.								
Receipts.	1881.	1880.	1879.	1878.	1877.	1876		
Sept'mb'r October	422,057 827,849	458,478 968,315		283,845 689,264	95,272 583,687	236,868 675,260		
Totalyear			1,222,135	978,112	678,939	912,128		
receipts	of tot. pori Oet. 31	24.29	24.43	21.99	15.62	22-59		

This etatement shows that up to Oct. 31 the receipts at the ports this year were 176,890 bales less than in 1880 and 27,771 bales more than at the same time in 1878-79. By adding to the above totals to Oct. 31 the daily receipts since that time, we shall be able to reach an exact comparison of the movement for the different years.

	1881.	1880.	1879.	1878.	1877.	1876.

port ree	DE- 7404.1 F	30.0	31.00	30 11		

This statement chows that the receipts since Sept. 1 up to to-night are now 199,327 bales less than they were to the same day of the month in 1880 and 51,583 bales more than they were to the same day of the month in 1879. We add to the table the percentages of total port receipts which had been received to November 11 in each of the years named.

INDIA COTTON MOVEMENT FROM ALL PORTS.—The figures which are now collected for us, and forwarded by cable each Friday, of the ehipments from Calcutta, Madras, Tuticorin, Carwar, &c., enable us, in connection with our previously-received report from Bombay, to furnish our readers with a full and complete India movement for each week. We first give the Bombay statement for the week and year, bringing the figures down to Nov. 10.

BOMBAY RECEIPTS AND SHIPMENTS FOR FOUR YEARS.

Shipments this week.				Shipm	ents sinc	Recetpts.		
	Great Brit'n.		Total.	Great Britain	Conti- nent.	Totat.	This Week.	Since Jan. 1.
1881 1880 1879 1878		2,000 3,000	2.000 3.000	360,000 252,000	566,000 505,000 360,000 395,000	865,000 612,000	6,000 6,000	

According to the foregoing, Bombay appears to show an increase compared with last year in the week's receipts of 6,000 bales, and an increase in shipments of 10,000 bales, and the shipments since January 1 show an increase of 24,000 bales. The movement at Calcutta, Madras, Tuticorin, Carwar, &c., for the same week and years has been as follows.

CALCUTTA, MADRAS, TUTICORIN, CARWAR, RANGOON AND KURRACHEE.

	Shipm	ents this	week.	Shipments since January 1.			
Year.	Great Britain.	Continent.	Total.	Great Britain.	Conti- nent.	Totat.	
1881 1880 1879 1878	2,000 1,000 2,000 3,000	1,000 2,000 1,000 1,000	3,000 3,000 3,000 4,000	205,000 208,000 209,000 140,000	79,000 84,000 109,000 70,000	284,000 292,000 318,000 210,000	

The above totals for this week show that the movement from the ports other than Bombay is the same as last year. For the whole of India, therefore, the total shipments this week and since Jan. 1, 1881, and for the corresponding weeks and periods of the two previous years, are as follows.

EXPORTS TO EUROPE FROM ALL INDIA.

Shipments	18	381.	18	380.	1879.	
to all Europe from—	This week.	Since Jan. 1.	This week.	Since Jan. 1.	This week.	Since Jan. 1.
BombayAll other p'rts.	12,000 3,000					612,000 318,000
Total	15,000	1,173,000	5,000	1,157,000	6,000	930,000

This last statement affords a very interesting comparison of the total movement for the week ending Nov. 10, and for the three years up to date, at all India ports.

ALEXANDRIA RECEIPTS AND SHIPMENTS.—Through arrangements we have made with Messrs. Davies, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years.

Alexandria, Egypt, Nov. 10.	1881.		18	80.	1879.	
Receipts (cantars*)— This week Since Sept. 1	135,000 757.550			90,000 35,500	180,000	
	This week.	Since Sept. 1.	This week.	Since Sept. 1.	This week.	Since Sept. 1.
Exports (bales)— To Liverpool To Continent	5,000 7,101	35,500 14,684	3,000 522	31,000 5,504	9,000 5,033	
Total Europe	12,101	50,184	3,522	36,504	14,033	92,064

A cantar le 98 lbs.

This statement shows that the receipts for the week ending Nov. 10 were 135,000 cantars and the shipments to all Europe were 12,101 bales.

Manchester Market.—Our report received from Manchester to-night states that prices have advanced for both twists and shirtings, and that the market is firm. We give the prices of to-day below, and leave previous weeks' prices for comparison:

		1881.		1880.

The Exports of Cotton from New York this week show a decrease, as compared with last week, the total reaching 7,038 bales, against 7,932 bales last week. Below we give our usual table showing the exports of cotton from New York, and their direction, for each of the last four weeks; also the total exports and direction since September 1, 1881, and in the last column the total for the same period of the previous year:

EXPORTS OF COTTON (BALES) FROM NEW YORK SINCE SEPT. 1, 1881.

SHIPPING NEWS .- The exports of cotton from the United Shipping News.—The exports of cotton from the United States the past week, as per latest mail returns, have reached 112,339 bales. So far as the Southern ports are concerned, these are the same exports reported by telegraph, and published in the Chronicle last Friday. With regard to New York, we include the manifests of all vessels cleared up to Wednesday night of this week:

Below we give all news received to date of disasters to vessels earrying cotton from United States ports, etc.:

earrying cotton from United States ports, etc.:

Brssarania, steamer (Br.), Bevan, from Savannah, which arrived at Liverpool, October 29, took fire while discharging Nov. 2, and ind her carge, partially damaged.

Commander, steamer, from New Orleans. A fire broke out on board steamer Commander (Br.), lying in Brunswick Dock, Liverpool, on October 24. Several bales were charred, but ship undamaged. The fire was quickly extinguished.

Liscard, steamer (Br.), before reported, from Norfelk for Liverpool, which put into St. Johns, N. F., Oct. 31, with damage to propeller, proceeded on her voyage Nov. 7, having repaired.

Scio, steamer (Br.), Thompson, from Savannah for Reval, put into Plymouth, E., Nov. 3. She had experienced heavy weather, during which the chart room was washed away, the bridge damaged, boats stove and stanchions started.

Riatro, steamer (Br.), for Mull, while lying at her wharf at Haboken, N. J., Nov. 6, with part of her outward earge on board, eaught fire from the wharf, which was on fire. She was towed into the stream, and the fire, which was confined to her rigging and forecastle, was exinguished. The damage to the steamer is estimated at \$1,200. Some water from the engines damaged part of the carge. There were about 300 bales of cutton on the dock awaiting shipment.

BREADSTUFFS.

FRIDAY, P. M., November 11, 1881.

The flour market has been only moderately active in the past week, and prices have not varied much. The feeling. however, is quite unsettled. Receivers meet the demand quite freely, in view of the depression which has prevailed in the wheat market, although supplies of favorite brands are by no means large. City mill flours continue in much favor for the West Indies and South America, but the relatively cheaper Western products are taken for Great Britain and the local trade. To-day there was a firmer, though quiet, market; but our quotations do not cover some barely sound stock.

The wheat market shows a further and material decline in values, not only on the spot but for future delivery. There has been a moderate export demand, and receipts are still on a greatly reduced scale as compared with last year; but the pressure to sell and the loss of confidence in the future of values. under the present accumulation of supplies, have forced down prices. The subsidence of the floods which interrupted railway and other transportation in the Northwest promises more liberal supplies in the near future. Still, the decline is not important. To-day the market was better. The export demand was more urgent, and there was a revival of speculation; No. 2 red winter sold at \$1 453/4 for December and \$1 483/4 for January.

Indian corn has shown a downward tendency, and prices have yielded more than in previous weeks. A report from Washington was published on Wednesday saying that the forthcoming report of the Agricultural Bureau will be very unfavorable to the corn crop, and this gave temporary strength to the market. But there was renewed depression yesterday. To-day, however, more favorable foreign advices caused an advance, and No. 2 mixed sold at 69%@69%c. for December and 71%@71%c. for January,

Rye has continued dull and drooping, and yesterday prime Canada sold to arrive, in bond, at \$1 03. Barley, at the decline noted in our last, became very active, and there was some recovery in values; but to-day was quiet, with buyers and sellers apart. Prime Canada malt sells at \$1 30.

Oats have been variable, but with less activity to the speculative or the local trade; and the aggregate changes in prices are not great. To-day the market was firm. No. 2 graded on the spot, 511/4c. for white and 471/2c. for mixed, and No. 2 mixed for future delivery, 48%c. for December and 50%c. for January

THE DRY GOODS TRADE.

FRIDAY, P. M., November 4, 1881.

Operations in dry goods have been restricted in volume the past week, owing partly to the intervention of a legal holiday, which was generally observed in the wholesale branches of the trade. There was, however, an active undertone in the cotton goods market, with fair transactions for present and future delivery, and the movement in woolen goods on account of back orders was of liberal proportions. The weather has been unfavorable for the distribution of heavy fabrics adapted to winter wear, and business was therefore quiet with jobbers although they experienced a steady demand for small re-assortments, through the medium of orders from retailers in various parts of the country. Accounts from the interior are generally satisfactory, but some small failures have occurred among Southern retailers, and a retail house in this city, with liabilities of about \$250,000, has been compelled to make an assignment.

Domestic Cotton Goods.—The exports of cotton goods from this port during the week ending Nov. 8 were 1,580 packages, including 700 to Great Britain, 269 to U.S. of Colombia, 144 to Argentine Republic, 128 to British Honduras, 87 to Hayti, 75 to Central America, &c. There was a fairly active demand at first hands for the most staple cotton fabrics, but business was mostly quiet with jobbers. Prices ruled very firm, and advanced quotations were made for additional makes of brown and bleached goods, wide sheetings, ducks, stripes, satteens, grain bags, &c., without apparently checking the demand, buyers realizing the fact that the most desirable fabrics are really scarce. Print cloths have been less active in demand, but prices ruled firm at 4c. cash and 4c., plus a small percentage, for 64x64 "spots," 4 1-16c. for 64x64 "futures," and 3½c. for 56x60s. Prints continued quiet, and there was only a moderate inquiry for ginghams and cotton dress goods.

Domestic Woolen Goods.—The market for woolen goods has been inactive as regards new business, but there was a good steady movement in light-weight cassimeres, suitings, worsted coatings, &c., in execution of orders previously placed by the clothing trade. Heavy clothing woolens moved slowly, and the demand for cloakings was light and irregular. Spring woolens have rarely, if ever, been so largely sold ahead at this stage of the season, and all fabrics of a desirable character are firmly held by manufacturers' agents. Kentucky jeans have lacked animation, but there was rather more inquiry for satinets, which resulted in a moderately increased business. Scarlet and blue flannels, also dress flannels and sackings, were distributed in relatively small parcels to a fair amount; and such was the case with blankets and shawls; but worsted dress goods were slnggish.

Foreign Dry Goods.—The demand for imported goods was almost wholly of a hand-to-month character, and in detail there are no changes to report in this branch of the trade.

The auction rooms were fairly supplied with silks, satins, velvets, laces, etc., and the feature of the week's business in this connection was a large peremptory sale of all-silk plushes, which was attended with satisfactory results, the entire offering and a good many duplicates having been disposed of to good advantage.

Importations of Dry Goods.

The importations of dry goods at this port for the week ending Nov. 10, 1881 and since January 1, and the same facts for the corresponding periods of 1880, are as follows:

"An Indispensable Visitor."

-New York Observer.

THE GREATEST LIVING Authors, such as Prof. Max Muller, Right Hon. W. E. Gradstore, Jus. A. Frondo, Prof. Haxley, R. A. Proctor Edward A. Freeman Prof. Tyndail, Dr. W. B. Carpenter, Frances Power Cobbe, Prof. Goldwin Smith, The Duke of Argyll, Wm. Black, Misa Thackerny, Mrs. Mulcock-Crnik, Geo. MacDonald, ours. Oliphant, Jean Ingelow, Thos. Hardy, Matthew Arnold, W. H. Mallock, W. Story, Tourmany others, are represented in the pages of

LITTELL'S LIVING AGE.

THE LIVING AGE has been published for nearly forty years, and has met with continuous commendation and success.

A weekly magazine, it gives more than

THREE AND A QUARTER THOUSAND

double-column octave pages of reading matter yeariv. It presents in an inexpensive form, considering
its great amount of matter, with freshness, owing
to its weekly issue, and with a satisfactory completeness attempted by no other publication, the
best Essays, Reviews, Criticisms, Serial and Short
stories, Stetches of Travel and Discovery, Poetry,
Scientific, Biographical, Historical and Political Information, from the entire body of Foreign Periodical Literature.

It is therefore invaluable to every American
reader, as the only satisfactorily fresh and COMPLETE compilation of an indispensable carrent
literature,—indispensable because it embraces the
productions of

THE ABLEST LIVING WRITERS

in all branches of Literature, Science, Politics and

THE ABLEST LIVING WRITERS in all branches of Literature, Science, Politics and Art.

"No other periodical can compare with The Livet of Act in Interest and value." "" "A veritable thesaurus of the best work of the most celebrated writers in literature, science, politics and art."—Boston Traveler.

"It supplies a better compendium of current discussion, information and investigation, and gives a greater amount and variety of reading matter, which it is well worth while to road than any other publication."—Boston Journal.

"It contains not only the hest solid literature, but also the best serial stories of the day." "" "Its pages are sufficient to keep my reader sbreast with the best printed thoughts of the best of our contemporary writers."—Episcopal Register, Philadelphia.

"The ablest essays and reviews of the day are to be found here." "" We know of no investment of \$\frac{1}{2}\sin \text{The Preshyberdan, Philadelphia.}

"To praise it is a work of supererogation."—New York Christian Advocate.

"It is indi pensable in every household where any attempt is made to keep up with the current thought of the day." "" " It is a thorough complisation of what is hest in the literature of the day, whether relating to history, biography, fiction, poetry, wt., science, politics, theology, criticism or art."—Hartford Courant.

"It being a weekly publication, is, comparatively speaking, the cheapest magazina published."—Commercial Advertiester, Defroit.

"No reader who makes himself familiar with its outents can lack the means of a sound literary culture."—New York Tribune.

"It enables its readers to keep fully sbreast of the hest thought and literat tree of civilization."—The oldest and be t."—Courier-Journal, Louis-wille.

"As much a necessity as ever."—The Advance, Chicago.

As much a necessity as ever."-The Advance,

Chicago.

"The best and cheapest periodical in America."—
Prangelical Churchman, Toronto.
