Transfer books close on the 15th. H. B. PARSONS, Secretary.

Financial,

OF HARTFORD, CONN.,

recognizing the possible continuance and future effect of the canses producing the recent great changes in the rate of interest on the best securities; and the necessity of basing all life insurance calculations upon a rate certain to be earned during the possible continuance of policies hereafter to be written, a period of more than two generations, because of the impossibility of changing their basis in the future as to business then existing should the assumed rate of interest fail to be realized; and that in a business dependent on future contingencies nothing is certainly safe that is not certainly more than apparently safe; in order to provide absolute safety in the basis of its business and to have the largest liberty in the future selection of investments, will compute the net premiums and reserves upon future policies on the assumption of earning 3 per cent interest on the best long investments, instead of 4 per cent, which is now and will remain the basis of business now existing.

As a further basis it assumes the rate of mortality shown by the American Experience Table, the entire safety of which, as an assumption for the future, has been fully proved.

Its contracts will thus be more securely based than any now written; and so long as the actual rate of interest remains above the assumed rate, the larger reserves invested will give the larger returns of surplus interest.

The new premiums charged for policies, while providing a larger reserve for future safety, will give the advantage of the company's unrivalled economy in management; being on annual premium life policies on the average something less than those heretofore charged.

Its new policies will contain some most important

NEW FEATURES:

While most men never get beyond the need for insurance, nearly all look forward to a time when others will be no longer dependent upon them and when they may wish to have all the remaining surplus from past labors available for personal use. Hence they take endowment policies for such periods as they think will cover the need of insurance, and payable to themselves afterwards; to which there are two essential objections: lst, That in point of fact they usually need the insurance after the term of the policy has expired, but have then become uninsurable, or can only get new insurance at a much higher premium because of advanced age; 2d, That the premiums for endowments are so much higher than for life policies that men cannot usually afford by this means to carry as much insurance as their families need.

In order to give a method by which one can carry the largest possible amount to protect his family just as long as they may need it and yet make the payments, less the cost of insurance had, available at once should the need of insurance cease, we offer the following:

The Whole Life Policy at the ordinary annual premium, or with a limited number of premiums; all surplus credited upon the policy may be left with the company to accumulate at such rate of interest as may be determined by the Directors, to be paid with the policy, at its maturity, to the person entitled thereto.

At the end of each period of 10, 15, 20, 25, 39, 35, etc., years from the issue of such policy, the parties in interest may surrender the same for a cash value as therein agreed, together with the amount of the surplus previously credited and so accumulated.

Or paid-up insurance may then be taken for such amount as the cash value and surplus previously credited will buy as single premium.

Should the policy lapse at any intervening year of the above periods. and after three premiums have been paid, paid-up insurance wil be given, on surrender of the policy according to its terms, for such amount as the reserve and surplus previously credited, less a small surrender charge, will buy as a single premium.

Each policy will have attached a table of cash values growing out of the reserve, and the accumulation of surplus will be stated each year.

The accumulated surplus may be used in case of necessity to pay current premiums.

This gives the greatest amount of insurance the premiums can buy while insurance is needed, and also gives their entire effect as an endowment if insurance becomes nunecessary. The longer the policy runs the greater its value, both as an insurance and an endowment, and the higher reserve required by the assumption of 3 per cent interest makes the policy just so much the more valuable as an endowment.

We believe it. as we intend it to be, the safest. most valuable, and most liberal contract ever written.

THE FINANCIAL SITUATION.

There is very little change to note in the situation this week. The stock market continues depressed. General trade is not quite so buoyant as it has been, but seems to be improving, railroad earnings are comparing very favorably with those of a year ago, money is easy not only at home but abroad, and there is really little that is discouraging in the outlook. The great central and controlling fact is that the leaders' "pegs" have been pulled out and their "tin boxes" put away. Perhaps the moral might be drawn that when operators in stocks learn to have a judgment of their own and not follow like a shadow the uncertain and often deceptive movements of leaders, the stock market will right itself, the wheat and the chaff will be estimated at their true value, and the Street will no longer be as it now is, so like an army of men thoroughly defeated and discouraged.

The most noteworthy and favorable feature of the market has been the continued advance in the 4 and 41 per cent United States bonds, which are now selling at the highest figures ever recorded. This is due to an urgent demand from banks, but mainly from savings institutions and

investors who, by reason of the present and prospective calls for the extended 6s, have been or expect to be obliged to surrender their present holdings. The banks of issue are to a considerable extent replacing their called bonds with extended 5s and with the 4 per. cents as security for circulation; savings institutions give these and the 44 per cents the preference; and those who are investing rust funds select the 4s, even though at current figures hey yield a comparatively low rate of interest. Some panks are retiring their circulation rather than pay the nigh premium for the 4 per cent bonds, but many others are continuing their issues, and one prominent firm of bankers who are authority on matters relating to Government bonds, show by a recent circular that there is a profit in a bank retaining its circulation secured by 4 per cents even as high as 130.

It is expected that calls for the extended 6s will oxhaust the amount now outstanding-\$109,901,000, of which \$30,000,000 are already called-by the 1st of September. Then the Secretary of the Treasury will commence redeeming the extended 5s, amounting to \$401,-503,900. At the rate of \$15,000,000 per month, which is a low estimate-if the revenue is not cut down by a revision of the revenue laws-the whole of these will have to be surrendered by the end of 1884, and then there will be nothing available for the banks, savings institutions and trust funds except the 4 and 44 per cents, which, by that time, will probably be almost wholly withdrawn from the market. The holdings of United States bonds by the banks, as security for circulation, are shown in the following table comparing the amount so held February 5, 1881, before the bank panic of last year, with April 30, 30, 1881, when the extended 6s first appeared as security for notes, and with January 1st and April 1st, 1882.

and the second	18	81.	1882.		
Bonds.	February 5.	April 30.	January 1.	April 1.	
	\$	\$ \$		\$	
U.S. 64	50,176,850	38,358,950			
U. 8. 58	162,731,850	168,333.700	194,000	174,000	
Extended 6s		0,652,900	51,152,000	41,272,000	
Extended 5a			192,318,850	199,183,900	
U S. 4128	36,307,550	34,808,550	32,286,650	32,303,830	
U. 8. 4s	106,109,300	102,701,900	91,924,600 93,315,93		
Currency 6s	3,916,006	3,846,000	816,000 3,816,000 3,646,00		
Toinl	359,304,530	154,702,000	172,032,100	369,900,700	

This shows that the extended 5s have heretofore replaced the called extended 6s to a large extent. But there is now a disposition to substitute the 4s for the called bonds, and purchases of even the 41s for this pur pose are comparatively light.

The stock market has during the week shown the absence of leadership, as noted above. While promiuent stocks were being supported, as they were, for the three weeks ended April 1, there was very little difficulty in determining the probable course of the market. The withdrawal of that support has shown its demoralizing effect this week more even than it did last week, since speculators for a rise felt for some time almost certain of the leadership of Mr. Gonld, and many were confident that he would not desert them in their extremity. But, sad to relate, the evidence was not wanting on Monday that Mr. Gould had abandoned to their fate the speculative craft. Reports, seemingly on good authority, were to the effect that he had been a free seller of stocks during the three weeks' rise, that he had taken advantage of a short interest in some of his specialties to unload more stocks last week, and that he was now content to see the market decline, being unwilling longer to aid either in sustaining it or forcing it upwaed.

Speculators for a decline have therefore been more bold in their operations this week. Previously they feared a trap. Now they see that there need be no apprehensions of interference on the part of Mr. Vandcrbilt or his following, and they are almost ready to claim Mr. Gould as a companion. The raids have been vigorous without being too demoralizing in their effects, and the attacks have generally been successful. Aided by the news of the cold winds and snow storm which swept over the Western and a portion of the Southern States, they attacked first one and then another of the Western stocks and finally assailed Louisville & Nashville. Reports that the Illinois railroads were likely to suffer from the exactions of the new regulations imposed by the State Commissioners helped to depress the stocks of roads having charters granted by that State. The absence of the least semblance of a "peg" left the Vanderbilt properties open to assault, and the opportunity was not neglected. On Wednesday the report that one of the directors of the Central of New Jersey had been a free seller of that stock, revived the story that there was a large floating debt, and accordingly the property fell off sharply, but partially recovered on Thursday on the announcement that an application would be made to the Chancellor for permission to close the books for the election. A report on Thursday that the Colorado freight pool had broken up also started a decline in the Wabashes and other Southwesterns, and the market was kept unsettled nearly all day. But yesterday the Street realized that the Colorado pool had nothing to do with ths Southwestern Association, so there was a recovering in those stocks and in the general market also.

Money has been in ample supply during the week, and it promises to be abundant, for the tendency is very strongly toward this centre from the interior, as the April settlements are now over, and the funds which were sent away for those purposes are coming back. The Treasury operations for the week, excluding the receipt of \$2,000, 000 gold from Philadelphia, have resulted in a loss, which is a gain to the banks, of \$7,639,997 71. The following shows the interior movement for the week.

Receipts at and Shipments from N.Y.	Received.	Shipped.
Currency	\$3,306,000 23,000	\$882,000 216,000
Total	\$3,329,000	\$1,098,000

The Bank of America received \$5,000,000gold during the week for the associated banks.

The bank statement of last Saturday by no means reflected the actual condition of the banks, for the known receipts were much larger than appeared in the returns Making allowance for this fact, the following will give an indication of this weeks' statement.

1	Into Banks.	Out of Banks	Net Gain.
Bub-Treasury operations, net Interior movement Gold exported this week			\$7,639,998 223,000
Total	\$10,968,998	\$1,098,000	\$9,870,998

Foreign exchange was quiet but firm until Wednesday. Then the market weakened and on Thursday the rates were reduced half a cent. The decline was due to the pressure of bills drawn against stocks bought in this market for London account. For some time, as will have been seen by our table, the prices of securities have been relatively higher in London than here, thus affording a good margin of profit for cable transactions. Stocks have been sold in London and covered here and the bankers have drawn demand bills for the proceeds. These operations have now become so large in the aggregate that the impression above noted has been made upon the exchange market. As long as London continues to rule higher than New York we may look for a supply of bills from this source in sufficient volume to keep sterling just below the gold-shipping point. The following will show relative prices in London and New York at the opening each day this week.

	[•] April 10.	Apri	211.	Apri	l 12.	April 18. April 14		14.	
	on							Lond'n prices.*

Exch'ge, cables.		4*9:	1	4-1	91	4-01 4-90		0	

* Expressed in their New York equivalent. + Reading on basis of \$50, par value.

NOTE.—The New York equivalent is based upon the highest rate for cable transfers, which ordinarily covers nearly all charges, such as interest, insurance and commissions.

The Bank of England return for the week shows a gain of $\pm 103,000$, and an increase of 5 11-16 in the proportion of reserve to liabilities. The Bank of France reports a decrease of 475,000 francs gold and of 2,775,000 francs silver, for the week; and the Bank of Germany since last report shows a gain of 6,660,000 marks. The following exhibits the amount of bullion in each of the principal European banks this week, and at the corresponding date in 1881.

	April 1	4, 1882.	April 1	5, 1881.
	Gold.	Silver.	Gold.	Silver.
	£	2	2	£
Bank of England	23,419,964		26,226,075	
			23,555,154	
Bank of Germany			7,088,000	
Total this week	65.404.642	67.260 378	56,869,229	69 968 66
Total previous week	64.955.165	66.270.386	57 975 459	70.126.68

The above gold and silver division of the stock of coin of the Bank of Germany is merely popular estimate, as the Bank itself gives no information on that point.

The payments by the Assay office through the Sub-Treasury for the week amcunted to \$66,856. The receipts by the Assistant Treasurer from the Custom House have been as follows.

			Consisting of-			
D	ale.	Duties.	Gold.	U.S. Notes.	Silver Dollars.	Silver Cerlificales.
April	1 7	\$451,790 63	\$312,000	\$29,000	\$	\$110.000

[VOL. XXXIV.

THE BURLINGTON & QUINCY'S NEW ACQUISITIONS.

The Chicago Burlington & Quincy report for the year 1881, in pamphlet form, has reached us this week. The report of course contains much useful matter, and is an interesting record of work accomplished; but it cannot be said that there is in it anything new or striking—anything for which we were not well prepared by current news from time to time. The Boston people at the head of this enterprise have won for themselves an enviable reputation in the management of the property. A conservative, yet aggressive, course has been pursued, and has proven very successful.

With the consolidations, combinations and extensions which have been effected during the last three years by other systems tributary to Chicago, St. Louis, etc., it became necessary for the Chicago Burlington & Quincy in like manner to protect and strengthen its position. With these objects in view the Kansas City St. Joseph & Council Bluffs was acquired, against the active competition of Mr. Gould; in furtherance of the same ends the St. Joseph & Des Moines was added, which, now that the Mount Ayr branch has been completed to Albany, Mo., needs only a change of gauge to give the Burlington another outlet to St. Joseph; the management have also made permanent the bond with the Burlington & Missouri River in Nebraska by amalgamation, besides building new branch roads and extending old ones, so as effectively to drain the country adjacent to its system. All these additions seem to have been needed for the preservation of the company's interests.

But while saying this, it is undeniable that the purchase of the Burlington & Southwestern and the lease and purchase of the St. Louis Keokuk & Northwestern appear to belong in a different category. The acquisition of the Kansas City St. Joseph & Council Bluffs was clearly a necessity. The Burlington & Quincy could not afford to allow this road, upon which it was dependent for an outlet to Kansas City, Council Bluffs and other Missouri River points, to occupy a position where it might at any time fall into the hands of parties inimical to its interests. For the same reason the St. Joseph & Des Moines, offering the possibility of a short, independent line to St. Joseph, would seem a wise investment: These were necessary as a protection against being isolated from connecting roads and reduced to local importance. No reasonable objections can be raised against them. But, as seems to us, the buying of the Burlington & Southwestern can only be given a qualified approval at best. The Burlington & Quincy had no need for that road-that is, the road was not required to secure the Burlington & Quincy in its possession of business legitimately seeking a market over its lines. It had in the Kansas City & Council Bluffs acquired excellent outlets and there was no longer any danger that it would be cut off from any points now reached by it. To be sure, the Burlington & Southwestern threatened to become, as the report says, a rival line in a certain sense, having projected an extension of 100 miles to Kansas City ; but is it the business of a railroad, or does it pay in the long run for it to buy up every competing or rival line, in operation or projected?

Suppose the extension to Kansas City had been built what of it? Was not the Burlington & Quincy in position to meet any competition likely to arise? As a matter of fact, would not the Burlington & Southwestern have been more dependent upon the Burlington & Qüncy than been more dependent upon t

the Burlington & Quincy upon it? All business bound to Chicago from Kansas City, which the road secured, it would have had to give to the Burlington & Quincy at Viele, its northern terminus, in order to get the haul the entire length of its road. It is not likely that it would tender the business to the Hannibal & St. Joseph at La Clede, because in that case its own line would get only the haul over the extension from Kansas City to that point-in other words, the extension proposed, instead of becoming a feeder to itself, would have become a feeder to the Hannibal & St. Joseph. And as for the business bound to Kansas City, there was no reason why the Burlington & Quincy should not carry it over its own line, as now ; there was nothing to force it to transfer it to the Burlington & Southwestern at Viele. The St. Louis Keokuk & Northwestern is an acquisition of a similar kind. It can only be meant to guard against possible competition. It gives a line to St. Louis on the west side of the Mississippi, but the Burlington & Quincy has already one line east of the river in the Rockford Rock Island & St. Louis, and it has no pressing use for another.

We do not assert that these ventures are likely to prove unprofitable. That depends upon the charge they will entail. Probably they were acquired upon advantageous terms, and will prove very useful as branches to the main system and pay the interest on their cost. We refer to the matter simply because it would seem to indicate a departure from that conservative policy for which the Burlington & Quincy management is so justly noted, and also because it has a certain pertinency now, when reports are in circulation that the Burlington & Quincy is negotiating for the possession of the Hannibal & St. Joseph, another parallel line. But with the two exceptions named there is as yet no evidence that this Boston company intends to adopt a policy which has proven so disastrous in the case of other systems. The combination and consolidation mania is a dangerous malady when it once takes firm hold of a corporation. It begins with the absorption of competing lines, but soon assumes larger dimensions; and the "system" is only considered completed when every connecting and intersecting line, bankrupt or solvent, has been taken in, regardless of the obligations incurred or assumed. If carried to its logical conclusion there can of course be but one ending to such a course-insolvency and disintegration. It is not necessary to give any illustrations. Possibly our readers can recall one or two "systems" of this kind that appear to be now in the throes of dissolution because of this disorder. Of course, nothing of the kind can be said with regard to the Burlington & Quincy. The cases cited are only slight exceptions to a traditional policy which has otherwise been so conservative while at the same time progressive.

With regard to the branches, which constitute such a large proportion of the company's mileage and form such a strong feature in its condition, all seem to have been carefully looked after during the year and added to where necessary. In Missouri $17\frac{1}{2}$ miles of new branch roads were built, in Iowa 16 miles, and in Illinois 24 miles. The road has already so thoroughly gridironed the territory contiguous to its lines in these States that little further construction is called for from year to year. It is in Nebraska that there is most room for new mileage. And here the company is carrying out the policy pursued with so much energy and profit in the older States through which its lines pass, namely that of building new feeders and branches as fast as the business of any section seems to warrant it, thus forestalling the action of rival lines. In this way 1334 miles were added during 1881, and other work of a similar character is in progress. As our readers are aware, the company has also under way an extension of the Burlington & Missouri River road to Denver, Colorado, and the report informs us that on December 31 the extension was completed to a point 77 miles west of Culbertson, and that it was expected to have the whole line (169 miles remained to be built) in operation by September 1 next.

In the year's record an event of some importance, as indicating the conservative spirit which usually animates the management, and to which event we made allusion at the time of its occurrence, was the agreement come to with the Wabash with reference to the extension of the Missouri Iowa & Nebraska, controlled by the Wabash, westward through Southern Iowa on toward Omaha. The Burlington & Quincy had planned a line of its own from a point on its Chariton branch to the Missouri River, through almost the same counties. This promised to give two lines in a section of country which for some time to come will be able to support but one. The Burlington & Quincy wisely evinced a disposition to make some concessions, rather than invite such an evil; and being met in the same spirit by the Wabash managers, little difficulty was encountered in reaching a satisfactory solution. It was agreed that only one line should be built-that to be under the joint control of the two parties interested.

The gross earnings of the company during 1881 were larger than ever before, being \$832,104 above those of 1880, but owing to the heavier expenses incurred, net are \$429,917 smaller than in that year. Of the \$1,262,021 increase in expenses \$400,000 is ascribed to a natural augmentation on account of the larger business done, and the remainder to the snow and ice of last winter, the floods of the spring, and to an enhanced cost of labor and materials. Out of the net earnings of \$10,257,636, there was paid \$310,667 for rent of tracks and depots, \$3,430,454 for interest on bonds, and \$687,246 for sinking funds, leaving a balance of \$5,829,269, equivalent to more than 10 per cent on the amount of the capital stock outstanding at the close of the year. Only 8 per cent was paid, calling for \$4,349,287, so that there then remained a surplus of \$1,479,982. From this the customary one million was transferred to renewal fund, showing an actual surplus to the credit of income account of \$479,981, besides which the Burlington & Missouri road in Nebraska contributed \$1,170,437 as the net receipts of its land department. The following table shows some of the results of operations for a number of years past. In explanation of the figures for 1880 and 1881 it should be said that the operations of the Burlington & Missouri in Nebraska were not included in the accounts of the Burlington & Quincy prior to 1880.

Years. Mileage	Gross	Net	Paid from n	et earnings.
year.	earnings.	earnings.	Interest.	Dividends.
$\begin{array}{cccccccccccccccccccccccccccccccccccc$	$\begin{array}{c} \$11,405,226\\ 11,645,318\\ 11,791,361\\ 12,957,795\\ 12,551,455\\ 14,119,665\\ 14,817,106\\ 20,492,046\\ 21,324,150\\ \end{array}$	$\begin{array}{r} \$ 4,970,458\\ 5,131,805\\ 5,361,238\\ 5,189,249\\ 5,373,140\\ 6,247,750\\ 7,260,038\\ 10,687,553\\ 10,257,636\end{array}$	\$1,966,300 1,958,892 2,014,709 1,991,957 2,108,463 2,155,972 2,110,9463 3,232,718 3,43,454	\$2,576,770 2.661,089 2.685,536 2,749,066 2,479,714 2,212,>27 3,0<1,985 *4,366,064 4,349,287

* Also \$6,217,240 in stock.

It will be observed that during 1881 the amount paid for interest increased \$148,000. In the present year it would seem the increase will be much larger. Under the circular of September 15, providing for the Denver extension, \$7,895,000 four per cent bonds were to be issued with which to prosecute that work, and an equal amount of scrip exchangeable for Burlington & Quincy stock

for \$315,800, and 1 per cent for an annual sinking fund on the bonds would call for \$78,950 more, making together \$394,750. The additional amount of stock would swell the dividend account (assuming that the same rate will be maintained as in 1881) in the sum of \$631,600, The scrip, however, was not entitled to dividends until April 1, so that the 2 per cent for the March dividend should be deducted, leaving \$473,700 to this account, which, added to the \$394,750 for interest and sinking fund on the bonds, gives \$868,450 altogether. This amount will be diminished some if the bonds do not bear interest from the first of January but from some later date. If. therefore, the road would do as well as in the previous year, it will have to earn net in 1882 about \$\$00,000 more than in 1881. We have been favored with a statement of the company's earnings for January and February, and give it elsewhere. It shows that in these two months the company has increased its net earnings no less than \$462,530 over the corresponding period of 1881. As to the traffic statistics for 1881, there is nothing to be said. for virtually there are none given. The number of tons of freight carried increased from 6,639,186 in 1880 to 6,710,-750 in 1881, and the number of passengers from 2,800,151 to 3,202,817, but that is absolutely all the information which the report contains, so no further remarks are needed.

RETIREMENT OF PRINCE GORTSCHAKOFF. Among the many indications that the Russian Government is about to make a change of policy, is the retirement from the management of the Foreign Office of the venerable Prince Gortschakoff. Since 1856 he has held almost undisputed power over the foreign affairs of the Russian Empire, and been virtual head of the State. For a much longer period he has been a prominent public official, and has figured largely in the international politics of Europe.

Born in 1798, he was, while quite a young man, connected with the diplomatic service. As attaché to Count Nesselrode he was present at the Congresses of Laybach and Verona. He was secretary to the Russian Embassy in London in 1824, and after holding positions successively in Florence and in Vienna he was sent to Stutgard, where he negotiated the marriage of the Grand Duchess Olga with the Prince Royal of Wurtemberg. When the difficulties which ultimately led to the Crimean war arose, Gortschakoff was the powerful and popular Minister of Russia at Vienna, and took an active part in the abortive Congress of 1854. At the Paris Conference of 1856 he represented Russia; and with patriotic zeal and discretion he watched over the interests of his country. He had been Nesselrode's pupil from the first, and now that a change was deemed necessary he was summoned from his post at Vienna to St. Petersburg to replace that great statesman in the ministry of foreign affairs.

Gortschakoff's later career forms part of the public history of Europe. By his management of the affairs of the Foreign Office, and by his conduct as Imperial Chancellor, rather than by his earlier successes as a diplomat, will he be judged by posterity. His name will be linked with that of Emperor Alexander II.; and in the glories and misfortunes of that reign his memory will participate. It will be remembered that it was during the life of Alexander, and while Prince Gortschakoff was his chief adviser, that twenty-three millions of human beings were emancipated from serfdom, and that in 1861 the Russian peasant for the first time in history became a free man. It will be remembered that, a few years later, in 1864, a similar boon was conferred upon the Poles. How far thrown in as a bonus. Four per cent interest would call these liberal measures have proved unmixed blessings we need not now inquire. It is undeniable that they were well intended. It will be remembered also that, during this same period, laudable and not unsuccessful efforts were made to place the State colleges on a level with the best educational institutions in Europe, and that a notable and praiseworthy step in the direction of reform was taken by the establishment of elective-representative assemblies in the different provinces of the empire.

In other lines of Imperial conduct the influence of Gortschakoff was less beneficent. He has always been a Russian of the Russians. Faithful to the ambitions of the nobility, and to the traditions of the House of Romanoff, he has been too anxious to extend the limits of the empire, and to have his country figure as the first of military powers. Conquest has followed conquest in Asia, until on the north the empire extends to the waters of the Pacific, and in the central regions south as far almost as the very confines of British India. It has yet to be proved that this extension of empire has been in any sense a blessing, either to the victors or to the vanquished. It is certainly not to be doubted that the same expenditure of money and energy, not to speak of the lives of men, might have been infinitely more fruitful of good if directed to purposes more immediately affecting the heart of the empire.

It was Gortschakoff who, when France was humbled in 1870, issued his famous circular upsetting the treaty of 1856-a stroke of policy which brought about the London Conference of 1871, and which humbled both France and England-England particularly-in the eyes of the world. It was a daring effort; and it might even then have involved Europe in war. The war of 1877, if not Gortschakoff's by inception, was his by encouragment and support; and if it largely failed of one of its principal objects, perhaps its main object-the establishment of Russian supremacy over the entire region of the Balkansit was because England had not forgotten the impudent and even insolent act of 1870. The treaty of Berlin was a counter-blow for the London arrangement of 1871. It was Gortschakoff's first serious diplomatic defeat. Russia was unquestionably the victor in the strife; but through the influence of England she was denied the spoils. Gortschakoff had at last found more than a match in Beaconsfield.

The treaty of Berlin marks a new phase in the carcer of Gortschakoff, as it marks a new departure in the history of Europe. Latterly the path of the old man-he is now in his eighty-fourth year-has been a pathway of thorns. Clouds and darkness have been gathering about him. The late war proved in every way unsatisfactory. It brought no substantial benefits, hardly even glory, and it entailed vast burdens upon the nation. Some ninety millions of people boiling over with discontent, nihilist conspiracies and nihilist assarsinations, the assassination of the Emperor and the threatened assassination of his son, the brutal persecution of the Jews-such a persecution as has not been witnessed in four centuries-and their departure almost wholesale from the country,-such is the state of things amidst which the aged Chancellor finds himself on restoring to his master his official trust. We do not wonder that his health is shattered, and that rest comes as relief. The end closes in upon him in gloom and sorrow.

It is safe to say that his policy has in many essential particulars proved a failure. A new departure has become necessary if Russia is to maintain her existence. What is wanted now is not extension of empire, but domestic reforms; not war, but peace. His retirement seems to imply that such is the conviction of the Czar and of those who are most worthy of his confidence.

THE CHRONICLE AND THE COTTON SPECU-LATION.

The Louisville Courier-Journal asserts that we have done the Southern cotton interest great harm, all through the present season, by magnifying the probable cotton supply, and that it is our duty now to acknowledge it and right the matter as far as we can. We know nothing that gives us more pleasure than to acknowledge an error, unless it be not to make one; and we have therefore looked over the matter very carefully since we received the Courier-Journal's suggestion, so as to be in a position to recant intelligently if we are to recant at all.

Following then the same course of thought our investigation took, we find that the season opened on a rampant speculation in cotton, based upon the assumption that the world's supply would not be nearly sufficient to meet the world's consumption. Various estimates of our own crop were put out to support this theory, all of them, however, crystallizing in October and November in and about three statements which an eminent cotton and banking house epitomized in the latter month as follows, and which if we are not mistaken—the *Conrier-Journal* quoted with decided approval.

Estimate No. 1- From 334 eountles (Agricultural Bureau), October 15	Bales. 4,634,725
Estimate No. 2— From 900 replies, October 24.	4,516,378
Estimate No. 3- From 1,910 replies, November 1	4,709,287
Average of above three estimates, bales	4,620,130

On the strength of these figures the South began to buy future contracts by the thousand. They could not get too many. Only a little more than $4\frac{1}{2}$ million bales of American cotton grown this year! Why of course prices would advance; 20 cents was none too high. This was the common talk on the street, and Southern people, who are always ready to believe that the crop is a very short one, swallowed the bait and took the contracts without limit, except such as their bank accounts interposed in the matter of margins.

All this we saw going on in a wild kind of way, and knowing that the whole speculation was baseless and dangerous, for nothing but loss could come out of it, we took occasion to say, on the 29th of October (page 456) shortly after the Agricultural Bureau figures were issued, that there was going to be no dearth of cotton this year, and that it would be wise to let Europe have all it wanted at the then current prices. April contracts were at that time selling higher than they are selling to day. Now whose advice was best, those who put out and quoted the above estimates approvingly, and who told the South to buy all the contracts it could get, or ours who told them to keep out of the speculation ?

But in January, seeing that the catastrophe was drawing near, we wrote the article the Courier-Journal particularly complains of. If our readers will turn to their file and carefully go over that article (Jan. 14, pages 66 and 67), we think they will agree with us that, taken as a whole, we never published anything the teaching of which was more wholesome than that, or which if followed by the South would have saved them more money. What we said there was, in substance, that prices were not high, but that stocks were so large and burdensome that the question of price was "reduced to a question of endurance between "New York and Liverpool, with the hot end of the poker "in our hands." It is scarcely necessary for us to recall here the disastrous break in prices which occurred just as we intimated it would, and within one month from the day our article was written. Is there anything here to recant? We should say that those who led the South into risking their money had better rise and explain, not we who warned them in time to save it.

But our Louisville friend tells us that in that article we stated the crop was to be over 51 million bales. Well, we did; and we thought so at the time; and it looks now as if it would come short of that figure-not much, but a little; perhaps the shortage will be a hundred or two hundred thousand bales. Still all that is not of the least importance in this discussion. The great fact, and the only fact we have attempted to enforce during the season, and attempted to enforce in the article in question, was, not that our crop would reach any certain figure, but simply that the total supply from all sources would, with the old stocks left over last October, provide for the con. sumption. This was the controlling circumstance in the situation then, and the whole burden of the last half of the article of the 14th of January. Furthermore, that conclusion as to total supply was true when written, and it is now equally true whether our crop reaches 51 millions or the lower figure, which seems at present more likely. Thus, the upshot of the whole matter appears to be that any one who has followed our conclusions this year has been right as to the world's supply, and made money in cotton; and any one who has followed the Louisville-Courier-Journal has been wrong as to supply and lost money. Once more we would ask, Who should recant?

We would not, however, intimate that there is to be no speculative movement this summer which will give a twist to the market. Stocks are certain to be reduced much below what they were during the same months of last year, when the celebrated corner was engineered. Clearly, therefore, in the light of such an experience, it would not be wise for any one to be short of cotton when money is so abundant and the speculative mania is so universal. The chances are certainly in favor of a corner and higher prices.

And yet, did any of our readers ever know an event to happen that all the world expected ?

A NEW FEATURE IN LIFE INSURANCE.

A popular notion prevails that life insurance contracts are attended with pretty much the same risks that pertain to fire contracts. This is a disagreeable admission for what is claimed as an exact science, and yet experience, particularly in this State during the last twenty years, goes far to encourage such an idea. For, taking the percentage of failures to the total number of companies of each description existing during that period, it will be found that the life business compares quite unfavorably with the fire business.

These weaknesses, however, have not of course developed because of any defect in the principles which form the basis of life policies; for it is still as true as when the first company was formed here, that with the average mortality given, the average interest rate determined, and the class of investments fixed, there can be no uncertainty; conformity to those conditions ensures safety. But at the same time no business can run itself; honest, watchful and efficient management is always necessary, and nothing can supply its place. The life insurance failures were in good part the product of the delusion that State supervision could be made a substitute for official brains and conscience. The truth is, State interference only handicaps the efficient manager, while it proves a cover to the weaker brethren. Give us a well-matured insurance law, and after that the less the State has to do with the business the better it will be for all interests. This much at least New York State experience has established.

A good illustration of efficient individual management, in no way dictated by State authority, is seen in the late action of the Connecticut Mutual of Hartford. Since the panic of 1873 rates of interest have evidently ruled much

lower than before that date. Whether this change is a permanent one is of course a question. We have always claimed that it was not permanent, and still believe so. But in favor of the opposite view we have the fact that there has not as yet been any very marked recovery in general rates, while Government bonds yield a less return now than ever before. It is also argued, with considerable plausibility, that there has been such a transformation in the wealth-producing conditions of the United States, as well as in our relations to the commerce and capital of the whole world, as to encourage the belief that our money market is hereafter to approximate closely to European rates. We are not at present arguing this question, but only stating the well-known views of many, to illustrate the judiciousness of the action of this Hartford Life Company. The management have given the benefit of the doubt, on this interest question, to the policy-holder. That is to say, they have determined hereafter to act as if the interest rate had declined permanently, so as to make it positively sure that the holder of the policy will in any event be protected.

To understand the matter more fully we have only to remember that for a life contract to be at the same time equable and safe, the company, in fixing the premium, must know at what rate of interest they can invest the premiums as paid. It is not a question simply of to-day. It may be forty or more years before the contract of to-day is completed, and investments of premiums must therefore go on being made each year; and if the rate of interest assumed in establishing the premium is higher than the rate earned at any period during the life of the policy, of course the more business of that kind the company does the worse it is for it. These are facts sufficiently familiar to the most of our readers, and we only recall them to illustrate this new departure in life insurance. Heretofore 4 to 41 per cent was the basis fixed upon by all the States that have legislated on the subject. The Connecticut Mutual, for the reasons we have given above, has now determined to change its premiums to a basis of 3 per cent, that being, according to the belief of President Greene, the highest rate upon which it is perfectly safe to reckon during all the time future contracts will run.

It is an extremely interesting fact in this discussion that United States bonds and the securities of Statesthat is to say, the investments which are most sought after by Life Companies-are being so very rapidly paid off. Since July 31, 1865, we have redeemed fully one thousand millions of our-national obligations, and now the reduction is going on at the rate of over 150 millions a year. With regard to State bonds the same tendency prevails. The debt of New York State, for example, is now scarcely more than nominal, and will speedily paid off altogether. Most of the other Northern States are in a similar condition and they are not likely again to be large borrowers. So, also, our best city, county and township obligations are rapidly disappearing. Even our own overburdened New York will, with its sinking fund arrangements and without recourse to taxation, pay off its present debt in twenty years. As to real estate mortgages the old ones have been mostly liquidated, and there are as yet so few new ones being made to take their places, that they are quickly absorbed. We are, however, inclined to the opinion that we shall see an increase in this species of debt in the early future, but that is a matter wholly of opinion, with not many facts to give color to it at present. Thus all the favorite forms of investment so long used by Life Com panies seem, for the moment at least, to have passed, or to be rapidly passing, out of existence.

ATRIL 15, 1982.]

423

These facts bring out in clear light a further reason which may be urged for adopting the plan the Connecticut Mutual now proposes to pursue. Every one knew that insurance in this old conservative company was safe before. But policy-holders will be glad to see that the tendency of the officers in charge is in the direction of extreme caution and conservatism, and not towards lax management; the latter being a habit which is not unfrequently developed out of such prosperity as this company has hitherto enjoyed. Thus we find that faithful officers do not need State supervision, and the past has proved that unfaithful ones are not benefited by it.

RAILROAD EARNINGS IN MARCH, AND FROM JANUARY 1 TO MARCH 31.

Railroad earnings in March, though unfavorable in the case of a number of roads and less favorable in the aggregate than in the provious month, are yet very satisfactory, bearing in mind the conditions which have prevailed. The increase averages 22 per cent, made with 15 per cent additional mileage. The increase in March last year was small, less than 9 per cent, on mileage more than 15 per cent greater, so the increase this year is less significant than it otherwise would be; still, the 9 per cent increase last year was made on earnings of 1880, 28 per cent above those of 1879, which is a fact not to be lost sight of in the consideration. The gain of 22 per cent in March compares with a gain of 31 per cent in February and 25 per cent in January; but the smaller percentage in March is in very great part to be ascribed to the more pronounced character of the adverse forces at work in the South and Southwest. The following is our usual table, showing the earnings and mileage of each road.

GROSS LARNINGS AND MILEAGE IN MARCH.

Three Vecks only o	"March in	ach Teas			

Three weeks uniy of March in each year. For the four weeks ended April 1. Freight earnings.

In a general way, it may be said that March did not

differ much from February in the leading features that have distinguished this from last year-the only difference being that the distinction between the two years is in some particulars more marked. The mild, open wintor this year, as we have repeatedly said, stands out in sharp contrast to the severe, rigorous winter of 1881. Taking each month as a whole, probably February, 1881, was worse than any other month of that year. But obstruction and loss did not by any means cease with that month. On the contrary, parts of March were much the worst of the whole period and in some instances the difficulties extended all through that month, and into April. Western and Northwestern roads of course suffered most, snow and ice being especially troublesome in those districts. With such conditions prevailing last year, and no impediments whatever to railroad transportation in those districts this year, we are able to understand how it is that the Chicago Milwaukee & St. Paul was able to increase its receipts \$644,011, from \$916,989 to \$1,561,000; the Northwest \$517,771, from \$1,178,795 to \$1,696,566; and the St. Paul & Omaha \$154,130, from \$251,649 to \$405,779.

While, however, the railroads in this section of the country had the weather in their favor, they had against them the shortage of the crops. Remembering how exceptional the weather was last year, and how seriously it interfered with the movement of all kinds of freight, one would suppose that the grain movement this year would show a much larger total than in the corresponding period of 1881. Such is not the case. Notwithstanding every. influence this year was of a favorable character, and there was an additional stimulus to the free marketing of produce in the high prices ruling, the shipments are decidedly below those of last year, which can only be accounted for by a shortage of extraordinary dimensions, such as all reports agree we have sustained. To bring out the fact of a smaller movement this year, we have prepared the following table, showing the receipts of flour and grain at the eight Lake and River ports of the West for the four weeks ended April 1, this and last year.

RECEIPTS OF FLOUR AND GRAIN FOR FOUR WEEKS ENDED APRIL 1.

It will be observed that the decrease this year is very
pronounced in flour, wheat and corn; and that barloy,
oats and rye each exhibit an increase, the gain being
largest in the case of oats, which, according to the Agri-
cultural Bureau, is the only one of our cereals that has
sustained no loss. The receipts of wheat are only $1\frac{1}{2}$
million bushels, against over 3 millions in the four weeks
of 1881; but it is corn that records the heaviest diminu-
tion, the receipts this year aggregating only 3,591,484
bushels, against 7,221,094 bushels in 1881. Going back
to 1880, we find receipts of over 111 million bushels, so

that this year's total of corn is less than one-third of that of 1880! Chicago, St. Louis and Toledo all show very much smaller figures, the latter two especially.

In the South and Southwest the conditions, as in the previous month, were just the reverse of those prevailing in the West and Northwest; that is, they were very unfavorable this year and very favorable last year. Last year the weather in the South was fine, and the movement of the crop free and large. This year the weather was wretched and the movement of the crop restricted and small. The rains and floods continued through the early weeks of March, and in some cases the interruption was much greater in this period than in February. The St. Louis Iron Mountain & Southern was cut off from Cairo for about three weeks of March, which in part explains its heavy decrease of \$118,994. The Cairo & St. Louis also had to abandon the running of trains to Cairo for a time, and the traffic of the Mobile & Ohio suffered a diminution from the same cause. The traffic of other Southern roads was interfered with in similar ways by overflows and rains.

But the smaller cotton movement was an equally serious matter to the Southern reads. The South has no such diversity of traffic to offer its roads as other sections of the country, and consequently a falling off in the movement of this staple, constituting as it does a leading item with many roads, quickly changes the current of their receipts. The influence of bad weather, floods, and diminished cotton shipments, combined, is strikingly apparent in what are called the Gould Southwestern roads. Thus the Texas & Pacific has earnings only \$12,983 above these of March, 1881, although it has added over 400 miles to its total of road in operation ; the Missouri Kansas & Texas increased its receipts only \$38,705, though mileage increased over 300 miles; the Iron Mountain shows the large decrease of \$118,994 (already alluded to and partly explained above) on a slightly increased mileage; and the International & Great Northern increased only \$16,390 on a mileage augmented 184 miles. On the other hand, the Louisville & Nashville, which covers a wider area, has a more varied traffic, and was less affected than the Gould reads by the floods, makes a very good exhibit, recording an increase of \$125,786, with mileage only 185 miles larger. The Richmond & Danville, which is altogether removed from the flooded sections, also shows a fair percentage of gain. That our readers may see how the cotton movement in the two years compares, we have had prepared the subjoined statement of the receipts at the leading Southern ports in March, 1882 and 1881. RECEIPTS OF COTTON AT SOUTHERN PORTS IN MARCH, 1882 AND 1881

As to trunk-line traffic, in the absence of definite reports from the leading roads our readers can draw their own inferences from the course of business on the Canadian lines and on some minor lines indirectly affected by this class of business. The Chicago & Grand Trunk, which is the Chicago extension of the Grand Trunk, has an increase of \$69,242, the greater part of which was made on passenger business; the Grand Trunk itself has a decrease of \$36,240, which would be doubled in amount except for a gain of over \$37,000 on passengers. In view

of the repeated reports that the Grand Trunk was carrying off the largest share of the east-bound traffic from Chicago, this decrease of \$73,000 on its business other than passengers appears significant. If with an increasing propertion of the Chicago traffic the Grand Trunk shows a decrease in its earnings, what sort of an exhibit, it is asked, will the roads with a decreasing preportion of this traffic be able to make? It is not easy to answer such a question, and it will not be correctly answered until the actual figures are presented. That the dimensions of the grain and provisions traffic are very small is evident. The drouth of last summer is responsible for that. But all Western roads show a largely augmented volume of general and miscellaneous freight, so it is only proper to infer that the trunk lines, too, are swelling their receipts in this way, and it may be that the gain here will be sufficient to offset the loss elsewhere. On the Pennsylvania, certainly, as is evidenced by the January and February returns, it was sufficient, though it should be said that the increase in earnings was met by a much greater increase in expenses (the reasons for which we explained two weeks ago), leaving net actually smaller than last year. Our table contains a few roads like the Cincinnati Indianapelis St. Louis & Chicage, Indiana Bloomington & Western, Lake Erie & Western, and St. Louis Alton & Terre Haute, which to a certain extent are affected by the course of trunk-line traffic, and of these the two former show an increase and the two latter a decrease-the decrease being small on the Lake Erie & Western, but heavier on the Alton & Terre Haute because of the interruptions caused by the floods, which interfered with the road's traffic operations at St. Louis.

For the first quarter of the year we have the returns of fifty two roads, as follows.

decrease of \$36,240, which would be doubled in amount The earnings of these reads show an improvement on except for a gain of over \$37,000 on passengers. In view last year of pretty near'y 12 million dollars, or more than 26

APRIL 15, 1882.]

per cent. The increase is largest on Western roads. Northwest and St Paul have more than three millions increase between them; St. Paul & Omaha has an increase of pretty nearly \$490,000 and the Minneapolis & Manitoba an increase of over \$600,000; Burlington Codar Rapids & Northern has a gain of \$261,000, and the Illinois Central, with its leased lines, a gain of almost \$400,000. Next after the Western roads come the Pacific roads. Union Pacific has swelled its receipts 11 millions, Central Pacific three-quarters of a million, Northern Pacific half a million. The Oregon Navigation Company gains \$475,000, and the Wabash \$928,000. There are only eight roads having smaller receipts than in the three months of last year, and the decrease aggregates only \$655,748 in all. In every ease is the less due either to the conditions affecting Southern roads or the conditions affecting the trunk lines.

Net earnings, which are to hand for two months of the year, show varying results. Pennsylvania is conspicuous for a large decrease, which we discussed at length when the figures were first made public. Chicago Burlington & Quincy is equally conspicuous for a large increase. What is particularly noteworthy about the latter is that the increase in net comes not from a decrease in expenses, as one would expect, recollecting the extraordinary charges incurred last year in the removal of snow and ice, but from an increase in gross earnings. Thus the expenses for the two months of this year are \$311,000 above those of last year, but gross earnings are more than \$773,000 greater than last year, leaving a gain in net of \$462,530. In the heavier business, no doubt, we have a reason for the heavier expenses.

Burlington Cedar Rapids & Northern, one of the Western roads which suffered very heavily last year from the severe weather, naturally shows a decided improvement this year. But the improvement is not confined to the comparison with last year; there is a handsome increase, even if we compare with 1880, when for the two months the company had net earnings of \$140,776, swelled thia year to \$190,000. Southern roads, as a rule, do well. The Louisville & Nashville has net earnings for January and February of \$714,372 in 1882, against \$451,962 in the corresponding period of 18\$1, and \$578,250 in 1880. Norfolk & Western reports net earnings for the two months of \$120,075, against \$104,572 in 18\$1, \$178,196 in 1880, and \$79,896 in 1879. Nashville Chattanooga & St. Louis shows a loss of \$7,138, or a total net for the two months of \$124,630, against \$131,768 in 1881, which is a very good showing considering that the loss in gross is over \$52,000.

The Northern Central, a Pennsylvania road whose business is influenced by trunk-line traffic and rates, like the Pennsylvania itself exhibits a gain in gross and a falling off in net. New York Pennsylvania & Ohio, also affected by trunk-line business, lately issued > statement for January, showing net of \$368 for 1882 after deducting all charges, rents, etc., against \$38,135 in 1881. The Grand Trunk of Canada for January and February records a decrease of £6,651 gross and £19,795 net. The Great Western of Canada suffered a loss of £2,835 gross and £8,568 net in February. Philadelphia & Reading exhibits a loss in net in February on both the Railroad and the Coal & Iron Company, said to be due to the voluntary restriction of coal production during the month. In January there was a small increase. Oregon Railway & Navigation Company, which is prompt in making its returns and has already furnished the March figures, reports an increase of \$175,792 in gross for the three months and \$313,125 in net. European & North American, on \$9,347 increase in gross for the two months, makes an increase of \$25,140 in net, but in February last year \$12,000 was charged to expenses on account of steel rails, making the actual increase in net \$13,140, which is a large amount for a small road. West !Jersey has net earnings the same as last year, expenses and net earnings having increased in about the same amounts. The following statement contains the gross and net earnings of all companies that will furnish monthly statements for publication.

[From our own correspondent.]

LONDON, Saturday, April 1, 1882.

Owing to the close of the quarter and of the financial year money has been in fair demand during the past week, but there has been no material change in the quotations. The rate for short loans is regarded as firm at 2¾ to 3 per cent, while the rate of discount for three months' bank bills is 2½ per cent. In fact, bills of all dates are taken at that quotation and there seems to be no indication of any immediate change. The Bank return may be expected to be influenced by the quarterly payments, but these are of small concern and can exercise no permanent results. Business is undoubtedly being conducted with much caution, but it is still understood that the general position is sound. Commercially a fair amount of legitimate business is in progress, but on the Stock Exchange the amount is small. New companies and new loans of various kinds continue to be introduced to public notice somewhat freely, but they are not, as a rule, rapidly subscribed. Any loan of acknowledged soundness is rapidly taken up, and it is expected that the value of old-established securities will steadily improve. Consols have been dealt in at 1011/2, which is a high price considering that only three months' interest has accumulated since they were last quoted ex-dividend. Preparations are now being made for paying various dividends, and the tendency of the money market is for the moment towards firmness, but as soon as the dividends have been distributed a return of considerable ease is looked forward to. The rates of discount are, however, low as under:

		-

There has been rather more demand for gold, but it has been mainly on Indian account and has by no means assumed important proportions. The Continental inquiry is very limited. On the whole, the silver market has been firm and the quotations have had an upward tendency. In the value of Mexican dollars no material change has taken place. India Council bills were disposed of on Wednesday at 1s. 8d. the rupee. The following are the present quotations for bullion:

The Present Header on a buttom

 -£ -8	4	Calcutta	10	

The weather has been very bright and we have again had a remarkable week of warmth and sunshine. Some rain has fallen in places, but now that spring sowing has been completed a genial fall of rain would be beneficial. The favorable weather and the prospect of a speedy re-opening of the navigation of ice-bound ports have the effect of producing much quietness in the wheat trade, but as far as choice qualities of produce are concerned, there has not been much, if any, variation in prices. Yesterday's telegram from New York gives the visible supply of wheat in the United States as only 12,600,000 bushels. This is about 10,000,000 bushels less than at this period last year; but, although the statistical position has become more favorable to holders, millers show not the slightest disposition to depart from the cantious

policy they have pursued throughout the season. The probabilities at present are that in this country, as well as on the Continent, there will be an early harvest, and as long as the trade adheres to that belief, it is not likely to purchase in excess of actual requirements. More especially as there are ample supplies of produce afloat to this country. While stocks have somewhat increased since the commencement of the year farmers' deliveries are moderate, considering the advanced period of the season, and the rather limited crop. They are, in fact, maintained at a higher rate than had been expected. The quality and condition of the home supplies have improved owing to the long period of dry weather which we have enjoyed.

we have enjoyed. During the week ended March 25 the sales of home-grown wheat in the 150 principal markets of England and Wales amounted to 35,722 quarters, against 31,190 quarters last year and 27,197 quarters in 1880; while it is computed that they were in the whole kingdom 142,000 quarters, against 124,760 quarters and 108,800 quarters. Since harvest the sales in the 150 principal markets have been 1,342,396 quarters, against 1,229,520 quarters and 933,956 quarters; the estimate for the whole kingdom being 5,369,600 quarters, against 4,562,000 quarters in the corresponding period of last season and 3,793,220 quarters in 1879-80. Without reckoning the supplies of produce furnished ex-granary at the commencement of the season, it is estimated that the following quantities of wheat and flour have been placed on the British markets since harvest. The visible supply of wheat in the United States is also given : 1881-2. 1880-1. 1879-90. 1878-9.

Rallroad Construction.—The Railroad Gazelte contains information of the laying of track on new railroads as follows: California Southern.—Completed to a point eighty-seven miles from San Diego Bay, Cal., an extension of 39½ miles. Chippewa Valley & Superior.—Track laid from Eau Claire, Wis., southwest 30 miles.

Danville Mocksville & Southwestern.-Track laid from Cas-cade Junction, Va., southward to Leaksville, N. C., 8 miles. Gauge, 3 feet. East Tenn

East Tennessee Virginia and Georgia.—This company's Macon & Brunswick line is extended from Holston, Ga., northwest 21 miles. Gauge, 5 feet. Georgia Pacific.—Extended from Chattahoochee Bridge, Ga.,

west 7 miles

west 7 miles. New York Chicago & St. Louis.—Track has been laid on the gap between the ends of track east from Hammond, Ind., and west from Fort Wayne, 3°85 miles; also west from Ham-mond, Ind., 0°50 mile; east from Vermillion, O., 3°38 miles; east from Brie, Pa., 9°02 miles, and east of Brocton, N. Y., 4°50 miles, making 21°25 miles in all. New York Lackawanna & Western.—Extended from El-mira, N. Y, westward 32 miles. Track also laid from Alden, N. Y, west by north to near Buffslo, 13 miles. Oregon Railway & Navigation Co.—The line from the Cas-endes to the Dalles is 4 miles longer than heretofore reported. Stony Chice & Catskill Mountain.—Extended from Edge-wood, N. Y., to Hunter, 1½ miles. Wilmington & Weldon.—The Scotland Neck Branch is extended from Conoconara Swamp, N. C., southeast to Scotland Neck, 10 miles.

Neck, 10 miles. This is a total of 187¼ miles of new railroad, making 1,545 miles thus far this year, against 778 miles reported at the cor-responding time in 1881, 964 miles in 1880 326 miles in 1879, 258 miles in 1873 and 232 miles in 1877.

-The Deadwood-Terra Mining Compary announces a divi-dend of \$30,000 tor March, payable at Wells, Fargo & Co.'s on the 20th inst. Transfers close on the 15th inst.

-Mesrrs. Fisk & Hatch, 5 Nassau Street, have issued a cir-cular to national banks in reference to circulation, in which they give interesting calculations showing what the banks can do. They say that national banks can secure their circulating notes with fours up to 130, and still find that it will pay. Thus with fours at 120, a bank with a capital of \$1,000,000 having its full amount of circulation out, secured by 4 per cent bonds, receives an income as follows:

If the bank sells its bonds and retires its circulation, its income

will be as follows:

Leaving money to invest...... \$268,000

\$263.000 invested at 5 per cent Deduct one-half of 1 per cent tax on capital not invested in	\$13,400
U. 8. bonds	5,000
To which add income on \$900,000 represented by the circu-	\$3,400
lation outstanding, at 5 per cent	40,000
Income without circulation With fours at 125 the profit would be	\$48,400 7,775
With fours at 130.	3,650

in each case providing for a sinking fund sufficient to retire the premium in 25 years.

-Attention is called to the card of Messrs. Ivison, Blake-man, Taylor & Co. in to-day's CHRONICLE, relative to their Spencerian Writing Inks. These inks are recommended as highly indelible, and for legal documents this quality alone must ever be the most important; besides it has a beautiful color, and does not thicken when exposed to the sir. The established reputation of this well-known firm ought to recom-mend at least a trial of their inks among our banks, bankers, business men and corporations generally.

-The Homestake Mining Company has increased its dividend for March to 40c. per chare, payable at Wells, Fargo & Co.'s on the 25th inst. Transfers close on the 20th.

BANKING AND FINANCIAL.

BONDS.

The policy of the Government in making successive calls of bonds for redemption will render it necessary for many holders to re-invest, during the coming year, money now lying in safes and vaults in the form of old issnes of bonds, which have ceased, or will soon cease, to bear interest.

> Government Bonds can be obtained at our office a suy smono. at market rates, with no charge for commission

BANKING.

We receive deposit accounts of parties in good standing ; satisfactory references required from those not already known.

Interest allowed at 3 per cent per annum on average monthly balances of \$1,000 or over. No interest on accounts averaging less than \$1,000.

STOCKS.

We do a general commission business in Stocks and Bonds dealt in at the New York Stock Exchange, and other sound securities.

Especial attention given to orders by Mail and Telegraph from Banks, Bankers and other institu-tions and from investors out of the city.

Our Memoranda of Government Bonds for 1882, containing valuable information on maav subjects, can be obtained by all desiring to make investments or to consult its pages for any purpose.

NEW YORK, FRIDAY, APRIL 14, 1882-5 P. M.

The Money Market and Financial Situation.-The Stock

New YORK. FRIDAY. APRIL 14. 1852–5 P. M. The Money Market and Fiuancial Situation.—The Stock Exchange continues to be the centre of interest in financial exchanges are looked at mainly with regard to their possible bearing upon the prices of stocks and bonds. The depressed to deal to be the generally much lower than the closing prices of last week has continued, and the prices of speculative stocks to-day are generally much lower than the closing prices of last Friday. The complaints against the heavy operators who virtually declared themselves as supporters of the market have been very lond, and our readers must judge for them-shave been very lond, and our readers must judge for them-shave been very lond, and our readers must judge for them-shave been very lond, and our readers must judge for them-shave been very lond and our readers must judge for them-shave been very lond and our readers must judge for them-shave been very lond, and our readers must judge for them-shave been very lond, and our readers must judge for them-shaves any unusual or extraordinary deceit practiced by them upon the puble. But whatever may be thought of representations made by heavy capitalists in order to enable them to unload their stocks on the moderate operators, there is one point of more calls for attention—and this is the matter of railroad reports. Every railroad company having its stocks and bonds on the stock Exchange List in New York or other cities ought certainly once a year to make a full report of its earnings, expenses and financial condition; and a failure to do so should faily be accepted as an admission that there was something to be concelled from the public. Perhaps our readers are not aware of the extent to which some of the very largest information any size of their affairs, even from the eyes of their own stockholders. The Delavare Lacka-multical corporations conceal their affairs, even from the eyes of their own stockholders. The Wabash St. Louis & remonse dealing th

information in regard to those companies, which have a mileage now of 2,450 miles. Persons dealing in New York, London, or other markets where many of these prominent stocks are sold, can form their own opinions as to whether it is desirable to purchase the stocks or bonds of companies which issue no full reports. But so far as the facts are concerned, it is well that they should constantly keep in view the companies which refuse to give out such information. In London, most assuredly, they will soon learn to avoid the companies having a secretive manage-ment, as that sort of thing is against the spirit and practice of their financial institutions. their financial institutions.

their financial institutions. The local money market has been easier, and after a few loans early in the week at 6 per cent ou stock collaterals, the rate since has been 3@5 per cent, and on government collat-erals 2@3 per cent. Prime commercial paper is easier at 5@ 5½ per cent. The Bank of England on Thursday showed in its weekly statement an increase of £103,000 in specie, and the proportion of reserve to liabilities was 42 5-16 per cent, against 36% per cent the previous week. The discount rate remains at 3 per cent. The Bank of France showed a decrease of 475,000 francs gold and 2,775,000 francs silver.

gold and 2,775,000 france showed a decrease of 475,000 francs gold and 2,775,000 francs silver. The New York City Clearing-House banks in their statement of April 8 showed a decrease of \$909,000 in their surplus reserves, the total surplus being \$811,650, against \$1,720,950 on April 1

The following table shows the changes from the previous week and a comparison with the two preceding years:

	1882. April 8.	Differ'nces fr'm previous week.	1881. April 9.	1880 . April 10.								
	01+012,200	Inc. \$1,581,600 Inc. 280,500	\$305,244,400 60,429,600	\$288,470,900 52,023.600								
Circulation Net deposits . Legal tenders.	236 345 400	Inc. 122,200 Inc. 1,622,000	16,709,900 282,788,500	20,987,900 256,267,800								
Legal reserve. Reserve held.	\$71.586 350	Inc. \$405.500	\$70.697.125	\$64.066,950								
Surplus				63,959,500 def. \$107,450								

Foreign Exchange.-The rates for foreign exchange were decidedly easier to-day, on account of the free offerings of bankers' bills drawn against stocks and bonds shipped. It is not always easy to learn whether the bills of this class are made against securities purchased in the open market on orders from abroad, or on the private negotiation of loans by banking houses; though it is concluded they are mostly of the first-named, as no loans of importance have been advertised in London this year. To-day the actual rates at the close for bankers' demand sterling were about $4.88\frac{1}{6}(4.89\frac{1}{4}, \text{ and for}$ prime bankers' 60-day bills $4.86(4.86\frac{1}{4}, \text{ Continental bills sold}$ at the following rates: Francs, $5.18\frac{3}{4}(0.518\frac{1}{4})_{*}$, and for short, 5.15; Marks, $95(2.95\frac{1}{4})_{*}$ and $95\frac{5}{4}(2.95\frac{3}{4})_{*}$, and Guilders, $40\frac{1}{4}(40\frac{1}{4})_{*}$. Quotations for foreign exchange are as follows, the outside-prices being the posted rates of leading bankers:

April 14.	Sixty Days.	Demand.
Prime bankers' sterling bills on London. Prime commercial Deennentary commercial Paris (francs) Amsterdam (guilders) Frankfort or Bremen (reichmarks)	$\begin{array}{c} 4 85 & 24 85 12^{\circ} \\ 4 84 12 & 24 85 \\ 5 18 34 & 25 167_8 \\ 40 & 2 & 40 1_4 \end{array}$	$\begin{array}{r} 4 & 89 & \varpi 4 & 90 \\ 4 & \ast 8 & \varpi 4 & 88^{1} \\ 4 & 87^{1} 2 & \varpi 4 & 88^{1} \\ 5 & 15^{5} 8 & \varpi 5 & 13^{1} \\ 40^{1} 4 & \varpi & 40^{5} \\ 95^{5} 8 & \varpi & 96 \end{array}$

United States Bonds.—The further advance in the prices of the long bonds is the great feature of the week, and there seems to be no limit to the price that will be paid on a govern-ment bond having thirty years or more to run. The fives conment bond having thirty years or more to run. The fives con-tinued are also weaker, as the large calls for sixes make it prob-able that the fives will be reached by September, and then the highest numbers, that is, the bonds last issued, will be called for the fives of the second first.

The closing prices at the New York Board have been as follows:

	Interes! Periods.	Aprit 8	April 10.	April 11.	April 12.	April 13.	Aprel 14.

*This is the price hid at the morning board ; no sale was made.

*This is the price hid at the morning board; no safe was made. State and Railroad Bonds.—The dealings in State bonds have been very small. Tennessees were steady at 50 this morning, but advanced to 55 this afternoon, on purchases from Tennessee supposed to have been influenced by the belief that the Legislature is to be called upon to pass a bill which shall refund the debt into new bonds, bearing 6 per cent interest, to be issued for 60 per cent of the principal and inter-est of the present debt. Louisiana consols were quoted 64@64³/₄. Railroad bonds have only been active in a few of the specu-lative issues, among which Erie second consols have been the foremost, and declined to 92¹/₂ and 91³/₄ seller 60. A heavy attack is made upon these bonds and it has been asserted repeatedly that since no foreclosure can take place till "on each of six successive due dates of coupons some interest" shall be in default, therefore the payment of one coupon would break this succession, and five more coupons might go unpaid. But this is expressly negatived by the provision of the mort-gage which says that "each due coupon must be paid in full before part payment of any coupon subsequently maturing." As to the Erie seconds, the Wabash general mortgage, the Louisville & Nashville general mortgage, and all other blanket mortgages, it is well understood that they are much better than a cumulative income mortgage bond, inasmuch as the right to foreclose on default of interest compels the whole body of stockholders to stand under the bonds. **Railroad and Miscellaneous Stocks.**—There has been but

body of stockholders to stand under the bonds.
Railroad and Miscellaneous Slocks.—There has been but little variation this week from the tone of depression and weakness which characterized the market, and in no direction has there been any strong and healthy support given to prices. In the last half-hour to-day there was some active buying, which caused a reaction for the time, and advanced prices to about the best figures of the day.
There have been some stocks conspicuous for weakness, even in a weak market, and among these were Jersey Central, Wabash, Louisville & Nashville, Michigan Central, and at times Lake Shore, Missouri Pacific, Texas Pacific, Western Union, and others of less note. It is reported to-day that an order has been granted by the Chancellor of New Jersey for an election for directors for New Jersey Central. Mr. Gowen arrived in Liverpool on Thursday, and the holders of Reading stock look for activity as soon as he gets before the stockholders in London. It would be a good stroke of policy, and add not a little to the dramatic effect, if Mr. Gowen should say as he appears before the stockholders' meeting: "I hold in my hand a cable dispatch just received from Philadelphia, announcing that the overdue coupon on the general mortgage bonds will be paid April —." This would represent works, while Mr. Gowen is himself the embodiment of faith.
The price of New York Central has come down while Pennsylvania Railroad has been held pretty steadily, and this week the stocks of these great trunk lines, which last year were 20 per cent or more apart, have been within 2@3 points of each other.

other.

The borrowing prices for some stocks to-day showed a con-siderable short interest in the market. Railroad earnings for March are reported at length on another page.

VOL. XXXIV.

Investments AND

STATE, CITY AND CORPORATION FINANCES.

The INVESTORS' SUPPLEMENT contains a complete exhibit of the Funded Debt of States and Cities and of the Stocks and Bonds of Hailroads and other Companies. It is published on the last Saturday of every other month-viz., February, April, June, August, October and December, and is furnished without extra charge to all regular subscribers of the CHRONICLE. Single copies are sold at \$2 per copy.

ANNUAL REPORTS.

Chicago Burlington & Quincy.

(For the year ending December 31, 1881.)

The annual report gives the following summary of financial condition of the entire property of the company on December 21 1881

Permanent investment in construction	117,527,013
Materials on hand	1,295,189
Amount held for necount of sinking funds in other than our	
own canceled scentities	4,912,352
Cost of investment in Kansas City St. Joseph & Council	
Binffs, Humeston & Shenandoah, St. Joseph & Des	
Moines, and other branch road securities, held for the	
hottos usolosti n of lossos &o	10.581.938

Sundry investments, and bills and accounts receivable, over med above bills and accounts payable, and suspended 26,571 debt8

Against which stand:

\$134.343.065

Showing cost of property in excess of stock, bonds, and all other liabil tics..... \$19.882.894

This surplus of the company on December 31, 1881, amounting to \$19,882,894, was represented thus :

\$19.882.891

In Illinois and Iowa during the year 75½ miles of single main track have been laid with steel rails in place of iron, and 19 miles of steel rails have been laid iu new second track, and 25½ miles in new side tracks. The total number of miles of steel rails in all tracks east of the Missouri River on December 31, 1881, was 1,160. This includes the whole main line in Illinois and Iowa.

NEW BRANCHES. During the year branch roads have been built in Illinois, Iowa and Missouri, in whole or in part, as follows: 1st, The Leon MI. Ayr & Sonthwestern Railroad was extended from Bethany to Albany, Missouri, 17 '2 miles. 2d. The Clarinda Collego Springs & Sonthwestern Railroad, from Charinda to the Missouri State Ine, 16 miles. Grading partly done; will probably be completed May 1, 1882. 2d. The Jollet Rockford & Northern Railroad, from Sheridan to Paw Paw, Illinois, 24 miles. Grading partly done; will probably be com-pleted July 1, 1882. In Nebraska during the measure of the state of t

In Nebraska, during the year, extensions of the Republican Valley Railroad have been built as follows:

Valley Railroad have been built as follows: 1st. From Hubbell east to Endicott, 25:6 mlies. 2d. From Beatrice southwest to Wymore, 12:3 miles. 3d. From Wymore west to Endicott, 37:1 miles. 4tb. From Nemaha west to Calvert, 9:6 miles. 5th. From Indianela west to Culbertson, 22:6 miles. 6th. From Table Rock west to Wymore, 38:2 miles. 7th. There was under construction December 31, 1831, the Denver extension, from Culbertson to Denver, 246 miles, 0 which 77 miles were completed on that date, but not opened for business. It is expected that the lice will be opened to benver by September 1, 1882, a part of the eastern division of the Republican Valley Railroad, from Tecumseh to Calvert, 22 miles. "The average length of read operated in 1880 was 2.552 miles.

The eastern division of the Republican Valley Rallroad, from Techmach Calvert, 22 miles.
"The average length of road operated in 1880 was 2,653 miles; while in 1881 the average length was 2,822 miles. It will be observed that, notwithstanding the increased mileage in 1881, he net earnings have decreased \$429,917. The gross earnings, however, show an increase of \$832,103, and the increase of expenses has been \$1,262,020. Of this, about \$400,000 may be said to be due to the increase of business, leaving about \$60,000 of extraordinary increase in the cost of operation and maintenance for the year, or about \$305 per mile of road operated. This is due to increased prices of labor and material, and also largely to the snow blockade of February and March, 1881, and to the extraordinary floods in the Missispipi and Missouri Rivers in both the spring and autum." * **
"Land sales have not been so large as in previous years, partly owing to the diminishing quantity of land which we have and to offer. Payments on account of land sold have been as large as we had r. ason to expect.
"It became apparent in the latter part of the summer that the interests of the company would be promoted by an extension of its line to the base of the Rocky Mountains, at Denver, and an addition to the Republican Valley system, in the easter apparent of the State of Nebrasks. A plan for carrying these objects into execution was approved by the stockholders at a precial meeting, held on September 28. Little or no benefit in the store of t

has been derived in the earnings from these extensions, work npon which was begon so late in the year." * * * "The Humeston & Shenandcah Railroad Company has leased its road in perpetuity to the Chicago Burlington & Quincy and Wabash companies, as tenants in common. By this arrange-ment, the Wabash Company scenres a connection throogh, and the local business of the Humeston & Shenandoah Road is equally divided between the two lessee companies. The con-struction of this road is progressing, and it is expected to be open for business by the 1st of July, 1882. "Allusion was made in the last report to negotiations, then pending, for the control by this company of certain lines of road connecting with our own. Among these was the Barlington

pending, for the control by this company of certain lines of road connecting with our own. Among these was the Burlington & Southwestern, the lease or purchase of which was authorized at the stockholders' meeting of September 23. This road was built some years ago, from a point on our Keokuk lins, about twenty-five miles south of Burling-ton, to Laclede, on the line of the Hannibal & St. Joseph Railroad, 109 miles west of the Mississippi River, at Quincy. In 1880, the parties controlling this property had perfected arrangements for reorganization under the name of the Chicago Burlington & Kansas City Railroad Company, and to extend it about 100 miles to Kansas City ; while, at the same time the Hannibal & St. Joseph Railroad Company was engaged in pro-moting the construction of a new railroad from Qnincy to Chicago. With the object of stopping for the present the con-struction of both these lines, and of strengthening our own position relative to Kansas City and the Southwest, it seemed to your directors desirable to get control of this Burlington & Southwestern Railroad. This has now been practically effected upon satisfactory terms, although no formal transfer has yet taken place.

effected upon satisfactory terms, although no formal transfer has yet taken place. "Arrangements have also been perfected during the year for the control by this company of the St. Joseph & Des Moines Railroad, a narrow-gauge railroad fifty miles in length, ex-tending from St. Joseph, Mo., to Albany, in the same State, where connection is made with our Leon Mount Ayr and South-western branch. Ultimately the gange of the St. Joseph & Des Moines Road will be changed, giving us a new through line to St. Joseph.

Des Moines Road will be changed, giving us a new through line to St. Joseph. "We have also to report an agreement for the lease to this company, subject to the approval of our st. ckholders, of the St. Louis Keokuk & Northwestern Road, extending from Mount Pleasant, Iowa, on the north, through Keokuk Hannibal & Louisiana, on the Mississippi River, to Dardenne, where it joins the Wabash Railway, about 30 miles from St. Louis. using the Wabash track there into the city. We have bought most of the securities of this company. "The three last-named roads and the Kansas City St. Joseph & Conncil Bluffs Road continue for the present to be operated as

"The three last-hamed roads and the Ransas City St. Joseph & Council Bluffs Road continue for the present to be operated as separate organizations, and their earnings, expenses and milesge are not included in this report. The results of their operation would not materially affect the figures given h-rein." The report of the Land Commissioner shows that the net result of sales in Iowa was 23,084 acres for \$279,902, and in Nebraska, 96,467 acres, for \$440,856.

The comparative statement below, compiled for the CHRON-ICLE, presents a very complete exhibit of this company's opera-tions and condition in the past four years:

Allegheny Valley.

(For the year ending December 31, 1881.)

(For the year ending December 31, 1881.) The annual report of President John Scott makes a compara-tively good showing for last year. There has been a net increase in the bonded debt during 1881 of \$500,700. Besides the deficit in the payment of interest charges, there was an instalment of \$100,000 principal'of the second mortgage low-grade division bonds, held by the State of Pennsylvania that had to be provided for, and a construction account of \$38,092— a total of \$924,288. This little sum was provided for by the payment of \$393,000 in income bonds to the contributing com-panies under the contract of October 2, 1874, and the same securities were issued to individuals in payment of interest on bonds, making a total payment of \$551,700, and leaving a bal-ance yet to be provided for of \$372,588. This is accounted for by the increase in liabilities, especially the compons of the low-grade first-mortgage bonds held by the Pennsylvania that and the Philadelphia & Erre railroads contributed, under the contract of October 2, 1874, a total of \$66,274 during the year, being \$16,091 more than for 1880. But the amount is insuffi-cient by \$149,657 to pay the interest on income bonds held by individuals, which are payable in cash from such contributions. 1880. 1881. 1880. 1881. 1880. 1881. 259

	£339.682 73:52	£407,722 67:67
The above sum of f18 145 received for		01 01

The The above sum of £18,145 received for interest on capital tem-porarily employed includes interest on debts owing to the com-pany, and on temporary advances on account of subsidiary lines. In the corresponding half-year a sum of £10,056 was received, and deducted from the charge for the interest on de-benture stock, as it had principally arisen from the temporary use of the funds raised by an issue of that stock. The passengers and freight carried were as follows :

Balance January 1..... £ 100

Balance Jannary 1. 2498 The net revenue charges, less interest on investments shown above, were £166,022, against £185,277—a decrease of £19,255. The report says: "The decrease in the gross receipts has been caused by the continuance during the half-year of serious com-petition among the trunk lines in the United States. The fares for through passengers were also very much reduced, though the greater number carried, namely, 243,558, increased the receipts from that traffic by £46,632. On the other hand, the merchandise traffic, with an increase of 220,774 tons, showed a decrease of £90,415. The working expenses were increased by —(1) the additional work performed in the carriage of a greater number of passengers and tons of freight; (2) the maintenance and working of 144½ miles of additional railway in excess of the corresponding period of 1880, and (3) an increase in the price of commodities and the rate of wages. The proportion which the working expenses bear to the gross receipts has been increased principally by the great reduction in the half-year in the rates obtained by way of remuneration for the work done; and it must be remembered that the revenue account includes the net amounts only received on account of the 144½ miles of additional railway above referred to, after deducting from the gross receipts the amount required to meet the traffic agree-ments with those railways. The amount charged against capital account during the half-year was £1,880,661. The principal item, £1,781,121, represents the discount and expenses on the issue of £2,407,867 of ordinary stock, at 26 per cent, less the premiums received on the sale of debenture stock during the half-year. There has been expended £39,652 on new rolling stock and £66,500 on new works, including £35,000 on new sidings and double tracks."

GENERAL INVESTMENT NEWS.

GENERAL INVESTMENT NEWS. Central of New Jersey.—Argument was heard April S, in the United States Circuit Court at Philadelphia, upon the injunction asked for by E. C. Knight and others to restrain this company from increasing its capital stock. The court denied the application, and said that the Court in Chancery of the State of New Jersey had already issued a permanent injunction restraining the directors from any further issue of stock with-out the consent of the Chancellor. In the opinion of both judges the stock could not legally be issued under the act of the Legislature, but as the officers of the Jersey Central Com-pany made affidavit that they would not issue the stock, the Court held that there was no such immediate danger of this issue as made a continnance of the injunction necessary. The application of Mr. Knight was left open, however, to be con-sidered at any time that perilmight arise. Receiver Little said that the new stock was not likely to be issued. He said also that his report was all ready and would be submitted to the Chancellor before being filed. The report would not be extensive, giving merely the valuation of the property, amount of assets and liabilities, and a brief mention of the Gowen party applied to the Chancellor for an election of directors on May 5, the regular day for the annual meeting. The press dispatch says the Chancellor has granted an order per-mitting the directors of the Central Railroad of New Jersey to take the necessary steps for an election of directors by the stock-holders of the company. The application was not contested by the counsel for the railroad, but the order was made by a mu-tual agreement between counsel. The following circular has been issued to the stockholders: "To the Stockholders of the Central Railroad. Company of

The following circular has been issued to the stockholders: "To the Stockholders of the Central Railroad. Company of New Jersey

New Jersey: "In view of the approaching annual e'ection of the company, which should take place, according to the charter, on the 5th of May, we, the undersigned, representing large interests in the stock of the company, desire to call your attention to the necessity of electing such a board of directors as will preserve the independence of the company as an open highway for all the traffic which may be thrown upon it. It is

believed that efforts have been made to secure a mana, gement which would interfere with the friendly relations now existing between the company and the Philadelphia & Reading Railroad Company and the Baltimore & Ohlo Railroad Company, which of all corporations are likely in the future to throw the great-est traffle upon the lines of the Central Railroad of New Jersey. The Philadelphia & Reading Railroad connects with the Central Railroad of New Jersey at four several points, and the former company is not the owner of any rival lines whatever, whereas almost all of the other companies which have been spoken of as likely to be identified with the management of the Central Railroad Company of New Jersey are owners of rival or opposi-tion lines. The gross earnings derived in cash by the Central Railroad Company of New Jersey from the interchange of local business with the Philadelphia & Reading Railroad Company last year amounted to \$1,133,000, a very large proportion of which was profit." * * * *

Shareholders who are in favor of maintaining the independence of the company as a separate organization, working in har-mony with the interests above referred to, and at all times open to receive traffic from all sources, will kindly sign the proxy here-with sent and remit it in the enclosed stamped envelope to Mr. Knight. The fact that another proxy may heretofore have been signed will not interfere with the validity of the enclosed, which upon execution revokes any prior proxy. "Edward Clark, George R. McKenzie, Edward C. Knight, A. G. Richey, Sidney Shepard, Robert Garrett, John Kean, Jr., F. A. Comly, Franklin B. Gowen, William F. Proctor, W. H. Stevenson, James R. Keene. "April 4, 1882."

Cleveland Columbus Cinclunati & Indianapolis.—At the annual meeting of this railway William H. Vanderbilt, C. Van-derbilt, Augustus Schell and James H. Rutter of New York, and Anos Townsend, were elected directors in place of H. J. Jewett, H. B. Hurlbut, James R. Keene, Walton Ferguson and Amos Townsend, whose terms have expired. The board of directors organized by re-electing last year's officers, namely : Gen. J. H. Devereaux, President, and E. B. Thomas, General Manager Manager.

Manager. Connotion Valley.—The Boston Transoript says: "Out of \$4,700,000 of Connotion Valley Railroad Company bonds and Connotion Valley & Straitsville Railroad Company bonds, more than \$2,700,000 have been subscribed to the reor-ganization plans. Of this number, however, \$1,292,000 repre-sents Connoticn Valley bonds, \$948,000 Straitsville bonds, and the balance represents subscribers to the new plan, which also proposes that the Straitsville bondholders bear the burden of the assessment, but receive in return something more than the first plan proposed; many of those who subscribed to the old plan are also signing the new, but in the above ennmeralion only those who subscribe to the new plan alone are counted in making up the total of assenting bondholders." Indianapolls & St. Louis.—At Indianapolis, April 7, H. B.

making up the total of assenting bonunoiders. Indianapolis & St. Louis.—At Indianapolis, April 7, H. B. Hutburt, trustee of the second and third mortgages of the Indianapolis & St. Louis Railway Company, filed in the U. S. Court a bill for the forcelosure of these mortgages and the sale of the road; also asking for the appointment of a re-ceiver pending the litigation. The second mortgage is for \$1,000,000, dated Oct. 1, 1870—the bonds ranning for 31 years, but by reason of a failure to pay interest they have all become due due

Mexican Central.-Circular No. 3 has been issued by the board of directors as follows:

Mexican Central.—Circular No. 3 has been issued by the board of directors as follows: MEXICAN CENTRAL RAILWAY COMPANY, } Lintrep, Bostox, April 12, 1852. . Creular No. 3. This company has constructed 218 miles for the main line from the fit of Mexico north, and 136 miles from Pase del Norte south, and to date 374 miles. The total inforest on bonds issued and to be issued this year, including coupons due Jan. 1, 1833, will amount to \$991,935. After a careful craningtion of the carnings of the road, as far as reported, and the estimates of General Manager Flok and General superintendent Anthony, together with the information obtained from all other sources, I estimate the gross carnings of the road for the year 1852, exclusive of earnings ou company's materials, at \$1,798,584; deducting 60 per cent for operating expenses (the company payles) to the payment of interest during construction if required. When the main has a 52,000 of the stock per mile, which may be applied to the bear of \$5,800,000 of bonds and \$2,000 of a stock. The gross carnings on the amount of \$5,800,000 of bonds and \$2,000,000, exclusive of company material. The amount of \$5,800,000 of bonds and \$2,000,000, exclusive of company material. The samount of \$5,800,000 of bonds and \$2,000,000, exclusive of company material. The amount of \$5,800,000 of bonds and \$2,000,000, exclusive of company material. The amount of starts as the provide the gross carnings on the division of the road from the City of Mexico north have been up to date \$2,000,000, exclusive of company material. The amount of \$5,800,000 during the present year. The bond have company estimation of the total the date action and the start castom houses. Hasing our estimate of bonds and \$2,000,000, and certificates are now being delivered as fast as boy \$5,500,000, and certificates are now being delivered as the start as the provide the year 1881, the company expects to collect in easily the present year. The bond have resolved to bomate the main time as tas a posible in the year 1881

securities :

New York Lake Erie & Western Rallroad Company.-Prior lien bonds, \$2,500,000, bearing interest at 6 per cent and due December 1, 1908. The bonds in order of priority come between the first consolidated 7s and the second consolidated 6s

Oregon Short-Line Railroad Company.—First mortgage 6 per cent bonds, due February, 1922, issued upon sixty-eight miles of completed road, \$2,500,000. Wabash St. Louis & Pacific Railroad Company.—The remainder of the authorized amount of general mortgage bonde, \$2,000,000.

bonde, \$2,000,000.

bonds, \$2,000,000. Ohio & Mississippi.—At the meeting of stockholders at Flora, Ill., April 8, 192,620 shares of stock were represented by proxy and were voted, out of a total of 240,300. Two-thirds of the total stock were required to ratify the resolution of the directors at the Cincinnati meeting, last October, to create a new first mortgage of \$16,000,000 5 per cent bonds, having fifty years to run. The action of the directors was unani-mously ratified. Three millions of the sixteen millions will be used to extinguish over-due debts, and the other thirteen mil-lions will be used to take up the present bonds as they fall due. A resolution was passed to leave the road in the hands of the receiver till the annual meeting next October. Bichmond & Danville.—A statement of the financial con-

Richmond & Danville.—A statement of the financial con-dition of the Richmond & Danville Rai'road, based upon the last annual report and the operations of the first quarter of the current fiscal year, is as follows : The bonded indebtedness of the company at date of last report, September 30, 1881, was stated at \$4,311,100.

\$411.973

Net increase for three months..... \$237.591

\$235,271

Net increase of surplus for the three months..... \$77.890 The official circular says :

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, April 14, 1882.

The weather has been unseasonably cold during the past week,-indeed, quite wintry, severe frosts having injured fruits In middle latitudes, snow having fallen throughout the Northern and Western States, doing some damage, it was reported, to winter wheat, and giving fresh impulse to the speculation for higher prices in breadstuffs. Trade is improving, but has suffered during the week from bad weather, and the feeling in commercial circles shows an absence of that buoyancy which has so long been apparent. The conviction is gaining ground that the full effects of the drought of last season upon crops, and through them upon values and general business, are but just beginning to be revealed.

Lard has shown marked advances during the past week, the result of a general covering of the large "short" interest and heavier speculative buyings for "long" account in Chicago. Other provisions have sympathized, though trade has been only moderate. Old mess pork on the spot was quoted to-day at \$17 and new at \$18; April options quoted at \$17 40@17 65; at \$17 and new at \$18; April options quoted at \$17 40@17 65; May, \$17 60@17 80; Jnne, \$17 75@\$18. Bacon was strong at 10 $\frac{3}{4}$ c. for long and 10 $\frac{3}{4}$ c. for short clear. Lard was easier early to-day, but closed better at 11.52 $\frac{3}{2}$ @11.55c. for prime Western on the spot; May options realized 11.52 $\frac{3}{2}$ @11.55c; June, 11.57 $\frac{3}{2}$ @11.65c.; July, 11.67 $\frac{3}{2}$ @11.72 $\frac{3}{2}$ c.; Augnst, 11.77 $\frac{3}{2}$ @11.80c.; September, 11.35@11.87 $\frac{3}{2}$ c.; seller the year, 11.40c.; refined to the Continent, 11.55c. Beef quiet at \$25@\$27 for extra India mess; packet quoted at \$14.50@\$15. Beef hams quiet but firm at \$22@\$22 50. Butter has rapidly declined under very free receipts and cautious buying. Cheese is firm for the fancy grades; fair to prime factory, 9@10 $\frac{3}{2}$ c.; choice to fancy, 12 $\frac{12}{2}$ @ 115 $\frac{3}{2}$ c. Tallow rules very firm at 8c. Stearine held at 115 $\frac{3}{2}$ c.

@13½c. Tallow rules very firm at Sc. Stearine held at 11½c. Rio coffee has been quiet, and to-day was depressed at $9\frac{1}{2}$ @ 9¾c. for fair cargoes; mild grades have been dull and without marked change. Rice has been steady, but Southern now sells rather slowly, buyers being more inclined to purchase Rangoon at the difference in cost. Molasses has been firm and refining stock very active on the basis of 30c. for 50-degrees test, to arrive, cost and freight, or 40c. on the spot. Soices have been dull. Tea has been steady or strong for most kinds, but Japan has declined. Foreign dried fruits have been quiet as a rule, but large speculative transactions in Turkish prunes have taken place at an advance to 7c., the movement being based on reports of damage to the growing crop by frost. Raw sugar-has advanced to 7½c. for fair refining. *Hads. Boxes. Bags. Melado.*

	Hhds.	Boxes.	Bags.	Melado.

T. C. J		1 1	1 1.11	

Refined sugar met with a pretty good demand until to-day, when the trade fell off noticeably, and prices declined slightly; crnshed closed at 10%c., powdered at 10%@10%c., and granulated at 10c., these, however, showing an advance compared with last week.

lated at 10c., these, however, showing an advance compared with last week.
Kentucky tobacco has again been quiet. The sales for the week are only 425 hhds., of which 350 for export and 75 for home consumption. Prices are as last quoted: Lugs, 6½@8c., and leaf, 8½@14½c. Seed leaf has been in rather better demand, and sales for the week are 1,475 cases, all from the crop of 1880, as follows: 925 cases Ohio fillers 4@4½c., assorted 5¼@6½c. and wrappers 9@13½c.; 250 cases Pennsylvania fillers 6@6½c. and assorted 9@14c.; 100 cases New England wrappers 13½@35c.; 100 cases state, private terms, and 100 cases Wisconsin Havana seed binders and wrappers 8@12½c. Also, 500 bales Havana S8c.@\$1 25.
Naval stores have been quieter and a natural reaction to the late sharp advances has taken place. Spirits turpentine is now quoted on the spot at 59@60c., and selling for delivery next week at 57@57½c. Strained rosin was dull at \$2 47½. Refined petroleum for export has been firm and fairly active at 7%c. Crude certificates were firmer at the close, selling at 79½@ 80¼c.; May options, 80½c.; June, S2½c.; July, 84½c. Iugot copper at one time sold at 18c. for Lake, but closed steadier at 18½c. American and Sectch piz irons are dull and almost nominal, with prices for the latter weak. Wool is still very dull and quotations are unsettled and very unsatisfactory to the holding interest. Hops are at a standstill and nominal in value.

value. Ocean freight room has continued very quiet, and rates for berth tonnage show further declines and much irregularity. Charter-room has met with some inquiry from the petroleum trade, particularly for vessels to the East Indies. Grain to Liver-pool, by steam, to-day was quoted at ½d.; flour in sacks, 2s. 6d.; cotton, 5-321; bacon and lard. 5×.@7s. 6d.; cheese, 10s. Grain to London, by steam, quoted ½@1d.; peas taken at 1½d.; do. rake at 7s. 6d. Grain to Glasgow, by steam, quoted ½d.; do. to Hull, by steam, 1d.; do. to Antwerp, 1½d. Naphtha, to Cork for orders was taken at 3s. 10½d.; do. to London, 3s. Refined etrcleum to Tromsoe, 4s.; do. from Philadelphia to Rotterdam. s. 3d.; do. in cases hence to Java, 31@32c.; do to Singapore, **30c.**

30c.

COTTON

FRIDAY, P. M., April 14, 1882.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening (April 14), the total receipts have reached 33.229 hales, against 44,467 bales last week, 54,035 hales the previous week and 61,916 bales three weeks since; making the total receipts since the 1st of September, 1881, 4,388,336 bales, against 5,242,901 bales for the same period of 1880-81, showing a decrease since September 1, 1881 of 854,565 bales

The speculation in futures opened very dull on Monday last, owing to the absence of advices from English markets, which remained closed for Easter; yet there was a firmer feeling, owing to the very small receipts at the ports. On Tuesday a dull opening was followed by considerable speculative activity and a decided advance, but the close was less buoyant. owing to the indications of a large overland movement. On Wednesday there was some decline, in sympathy with dull foreign advices, but the close was nearly up to the values of Tuesday. Yesterday there was a dull opening, but afterwards a hardening market, owing to the remarkable shrinkage in receipts at the ports. To-day the market was variable, with the final close at a slight advance for this crop. Cotton on the spot has been in some request for home consumption, but other demands were quiet. Quotations were advanced 1-16c. on Wednesday, and again on Thursday. To-day prices were again 1-16c. higher, middling uplands closing quiet at 121/4c.

The total sales for forward delivery for the week are 455,600 bales. For immediate delivery the total sales foot up this week 4,706 bales, including 112 for export, 4,299 for consumption, 295 for speculation and —— in transit. Of the above, — bales were to arrive. The following are the official quotations and sales for each day of the past week.

This year's figures estimated.

The above totals show that the old interior stocks have de^{-1} creased during the week 15,016 bales, and are to-night 59,218 bales less than at the same period last year. The receipts at the same towns have been 8,227 bales less than the same week last year, and since Sept. 1 the receipts at all the towns are 467,334 bales less than for the same time in 1880-81.

RECEIPTS FROM THE PLANTATIONS.—The following table is prepared for the purpose of indicating the actual movement each week from the plantations. Receipts at the outports are some-times misleading, as they are made up more largely one year

than another, at the expense of the interior stocks. We reach, therefore, a safer conclusion through a comparative statement like the following. In reply to frequent inquiries we will add that these figures, of course, do not include overland receipts or Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the out-ports. RECEIPTS FROM PLANTATIONS.

The above statement shows—1. That the total receipts from the plantations since Sept. 1, 1881-82 were 4,524,658 bales; in 1880-81 were 5,465,662 bales; in 1879-50 were 4,815,630 bales.

1850-81 were 5,465.662 bales; in 1879-80 were 4,815,630 bales. 2. That, although the receipts at the out-ports the past week were 33,229 bales, the actual movement from plantations was only 19,032 bales, the balance being taken from the stocks at the interior towns. Last year the receipts from the planta-tions for the same week were 50,828 bales and for 1880 they were 25,255 bales.

AMOUNT OF COTTON IN SIGHT APRIL 14.—In the table below we give the receipts from plantations in another form, and add to them the net overland movement to April 1, and also the takings by Southern spinners to the same date, so as to give substantially the amount of cotton now in sight. We shall continue this statement hereafter, bringing it down to the close of each week.

	1881-82.	1830-81.
Receipts at the ports to April 14bales. Interior stocks in excess of Sept. 1 on Apr. 14.	4,368,336 156,322	5,242,901 222,761
Total receipts from plantations Net overland to April 1 Southern consumption to April 1	394,473	. 5,463,662 452,089 155,000
Total in sight April 14	5,109,131	6,072,751

It will be seen by the above that the decrease in amount lu sight to-night, as compared with last year, is 963,620 baics.

WEATHER REPORTS BY TELEGRAPH.-There has been con-WEATHER REPORTS BY TELEGRAPH.—There has been con-siderable rain in a good portion of the Southwestern section during the past week, all of which was beneficial. A hailstorm also visited some points and frost at other points, doing harm to fruit; but no harm to other crops is reported. Elsewhere the weather has been fairly favorable, and planting has made

the weather has been fairly favorable, and planting has made good progress. Galveston, Texas.—We have had light showers on three days of the past week, and more rain is needed. The rainfall reached twenty hundredths of an inch. In Northern Texas they have had good rains, but the rest of the State has not had enough to do much good. Average thermometer 70, highest 81 and lowest 58. Indianola, Texas.—We have had showers on three days of the past week, but not enough to do much good. The rainfall reached twenty-one hundredths of an inch. Crops are doing very well. The thermometer has ranged from 51 to 87, aver-aging 69.

very well. The thermometer has ranged from or to of, and aging 69. Dallas, Texas.—It has rained tremendously on four days of the past week, the rainfall reaching three inches and ninety-six hundredths. A hailstorm on Tuesday did considerable damage to buildings, ruining tin roofs and smashing windows; fruit has been injured, but the extent is probably exaggerated; to other crops probably no serious damage has been done. Ice formed this week in this vicinity on one night, doing harm, and there was snow westward. Average thermometer 62, highest 91 and lowest 81.

and there was snow westward. Average thermometer 02, highest 91 and lowest 31. Brenham. Texas.—We have had fair showers on three days of the past week, but not enough. The rainfall reached forty hundredths of an inch. Planting is making good progress, and planters are giving increased land to cotten this year. Accounts from the interior are conflicting, but mainly favor-able. The thermometer has averaged 71, the highest being 92 and the lowest 50 able. The thermo and the lowest 50.

Palsetine. Texas.—We have had very beneficial rains on five days of the past week, the rainfall reaching one inch and ninety-two hundredths. Planting is making good progress, and prospects are good. Average thermometer 67, highest 86 and lowest 48.

New Orleans, Louisiana.—It has rained on three days of the past week, the rainfall reaching three inches and sixty-three hundredths. The thermometer has averaged 74. Shreceport, Louisiana.—The weather has been cloudy, with light rains and thunder storms, during the past week. Tho rainfall reached two inches. The thermometer has ranged from 47 to 93. Visiteburg. Mississipping. It has rained on two days of the

Vicksburg, Mississippi.—It has rained on two days of the past week, The weather has been cool and cloudy. Columbus, Mississippi.—We have had rain on four days of the past week, the rainfall reaching one inch and one hun-dredth. The thermometer has averaged 68, the highest Being 84 and the lowest 47. 84 and the lowest 47.

APRIL 15, 1882.]

Little Rock, Arkansas.—The past week has been cloudy, with the exception of Sunday and Monday, with rain on four days. The rainfall reached eighty-six hundredths of an inch. Average thermometer 60, highest 83 and lowest 45. *Nashville, Tennessee.*—It has rained on four days of the past week, the rainfall reaching one inch and ninety-eight hundredths. The thermometer has ranged from 36 to 82, everysize 58.

hundredths. The thermometer has ranged from 36 to 82, averaging 58. Mobile, Alabama.—It has been showery on two days and has rained severely on two days of the past week. The rain-fall reached one inch and ninety hundredths. The thermometer has averaged 73, tho highest being 89 and the lowest 61. Montgomery, Alabama.—The early part of the past week was clear and pleasant, but during the latter portion it has been showery on three days. The rainfall reached fifty-four hundredths of an lnch. Average thermometer 68, highest 86 and lowest 52. and lowest 52

and lowest 52. Selma, Alabama.—The early part of the past week was clear and pleasant, but during the latter portion it has been cool and cloudy with rain on one day. The rainfall reached forty-eight hundredths of an inch, and the thermometer has averaged 66. Madison, Florida.—It has rained on three days of the past week, and the remainder of the week has been cloudy. Plant-ing is about completed in this neighborhood. Crop accounts are more favorable. Average thermometer 65, highest 70 and lowest 60 lowest 60.

Macon, Georgia.—The early part of the past week was clear and pleasant, but during the latter portion we have had rain. The thermometer has averaged 65, ranging from 46 to 85. *Columbus, Georgia.*—It has rained slightly on one day of the past week. The thermometer has ranged from 60 to 78.

averaging 71.

Savannah, Georgia.—We have had rain on four days of the past week, and the remainder of the past week has been pleasant. The rainfall reached sixty-five hundredths of an inch. The thermometer has averaged 63, ranging from 49 to 86.

86. Augusta, Georgia.—We have had light rain on three days of the past week, the rainfall reaching twenty-six hundredths of an inch. On Wednesday the weather was quite cold and frost was feared, but it has since moderated and now there is no possibility. Planting is making good progress. Average ther-mometer 66, highest 87, and lowest 45. *Atlanta, Georgia.*—It has rained on two days of the past week, the rainfall reaching forty-three hundredths of an inch. Average thermometer 63, highest 83 and lowest 46. *Charleston, South Carolina.*—It has rained on one day of the past week, the rainfall reaching sixty-one hundredths of an inch. The thermometer has ranged from 46 to 86, aver-aging 65.

aging 65.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 3 o'clock April 13, 1882, and April 14, 1881.

	Apr. 1	3, '82.	Apr. 1	4, '81.
New OrleansBelow high-water mark MemphisAbove low-water mark. NashvilleAbove low-water mark. hreveportAbove low-water mark. VicksburgAbove low-water mark.	1 29 29 16	Ineh. 3 4 9 5 6	Feet. 29 29 13 41	Inch. 5 10 3 6 1

New Orleans reported below high-water mark of 1871 until Sept. 9, 1874, when the zero of gauge was changed to high-water mark of April 15 and 16, 1874, which is 6-10ths of a foot above 1871, or 16 feet above low-water mark at that point.

NEW YORK COTTON EXCHANGE -The building committee are inviting proposals for a plot of ground suitable for the erection of a new building within half a mile of Hanover Square.

The rumor that a site had already been fixed upon is therefore without the slightest foundation.

There is one application for membership, and notices are posted that two seats are to be transferred.

Visitors during the last week have been as follows:

THE CHRONICLE AND THE COTTON SPECULATION .- In our editorial columns will be found some remarks to-day suggested by a criticism in the Louisville Courier-Journal

MISSISSIPPI LEVEES .- A correspondent, In referring to the suggestions in last CHRONICLE on the subject of the insufficiency of any levees for the Mississippi, says :

any levees for the Aussissippi, says: Should any one incline to talk of confining the waters of that valley within any river walls, whether of clay, wood, stone or iron, he can be reminded that the map of the inundated country south of Memphis (published by the New Orleans Lithographing Company, 78 St. Charles Street, New Orleans) shows an area of submerged land of an average width of 45 miles and of probable average depth exceeding 3 feet of water, besides the ordinary river channel filled to the top of the banks. Assuming the average width of the river proper to be 1½ miles—and its banks full, one can see that to retain the 45 miles width of water (now outside the banks) within the banks, would require an elevation of the banks (and width of base) beyond man's ability to pay for, if not beyond his skill to construct.

EUROPEAN COTTON CONSUMPTION TO APRIL 1.-We have received by cable to-day Mr. Ellison's cotton figures brought down to April 1. The revised totals for last year have also been received. and we give them for comparison. The taklogs by spinners' in actual bales and pounds have been as follows:

		The second se	
From Oct. 1 to April 1.	Great Britain.	Continent	Total.
For 1881-82.			
Takings by spinnersbales	1,823,740	1,462,240	3,283,980
Average weight of bales	439	432	435
Takings in pounds	739.798,120	631,687,680	1,430,455,900
For 1880-81.			
Takings by spinnersbales		1,423,060	3,066,090
Avorago weight of bales		439	446
Takings in pounds	744,281,390	624,723,340	1,369,015,930

According to the above, the average weight of the deliveries in Great Britaln is 43S pounds per bale to April 1, against 453 pounds per bale during the same time last season. The Continental deliveries average 432 pounds, against 439 pounds last year, and for the whole of Europe the deliveries average 435 pounds per bale, against 446 pounds during the same period last season. In the following table we give the stock held by the mills, their takings and their consumption, each month since October 1, all reduced to bales of 400 pounds each for this season and last season. It is a very convenient and useful summary.

Oct. 1 to April 1.		1891-52		1	1980-81.			
Bales of 403 lbs.each. 000s omitted.	Great Britain	Conti- nent.	Total.	Great Brltain	Conti- nent.	Total.

A more striking comparison with last year is reached by bringing together the foregoing tetals, and adding the average weekly consumption up to this time for the two years.

Oct. 1 to April 1.		1881-82.	-	1	1880-31.				
Balcs of 400 lbs. each. 000s omitted.	Great Britain	Conti- nent.	Total.	Great Britain	Conti- nent.	Total			
Spinners' stock Oct. 1. Takings to April 1	25, 1,999,	240, 1,580,	265, 3,570,	27, 1,830,	112, 1,361,	139, 3,421,			
Supply Consumption	2,024, 1,820,	1,820, 1,508,	3,844, 3,328,	1,937, 1,756,	1,673, 1,428,	3,560, 3,184,			
Spinners' stock Apr. 1	204,	312,	516,	131,	245,	376,			
Weekly Consumption.									
00s omitted. In October	70,0	58,0	128,0	66,0	54,0	129,0			
In November	70,0	58,0	128,0	66,0	54,0	120,0			
In December	70,0	58,0	128,0	68,0	54,5	122,5			
In January	70,0	58,0	128,0	68,0	51,5	122,5			
In February	70,0	58,0	128,0	68,0	54,5	122,5			
In March	70,0	58,0	129,0	67,5	54,5	122.0			

The foregoing shows that the weekly consumption in Europe still continues at 128,000 bales, of 400 pounds each, and that the stocks at the mills both in Great Britain and the Continent are greater than a year ago—that is to say, together they hold 516,000 bales, against 376,000 bales same time last year.

JUTE BUTTS, BAGGINO, &C.—There is no increase in the demand since our last report, and the market is quiet. The inquiry is not so active, and beyond a small jobbing demand we hear of no transactions. Prices are still unchanged, and there appears to

be a steady feeling among sellers, who are indisposed to accept less than full figures, which are 7%c. for 1% lb. 8%c for 1%lb., 9%c. for 2 lbs. and 10%c. for standard grades. Butts are in the same position, and there have been some further sales for futures. Spot lots are quiet, and about 2,000@2,500 bales are reported placed, for which 2%@3c. was paid, the lower price for paper grades and the higher for bagging qualities.

 for paper grades and the higher for bagging qualities.
 COMPARATIVE PORT RECEIPTS AND DAILY CROP MOVEMENT.—
 A comparison of the port movement by weeks is not accurate
 as the weeks in different years do not end on the same day of the month. We have consequently added to our other standing tables a daily and monthly statement, that the reader may constantly have before him the data for seeing the exact relative movement for the years named. The movement each month since September 1, 1881, has been as follows:

Monthly	Year Beginning September 1.							
Receipts.	1881.	1880.	1879.	1878.	1877.	1876.		
Sept'mb'r	425,770			283,818	98,491	236,868		
October	837,349				578,533			
Novemb'r		1,006,501	942,272		822,493			
Decemb'r	983,440	1,020,802	956,464	893,664	900,119	787,769		
January .	543,912	571,701	647,140	618,727	689,610	500,680		
February.	291,992	572,728	447,918	566,824	472,054	449,636		
March	257,099	476,582	264,913	303,955	340,525	182,937		
		5,073,110	4,480,842	4,140,519	3,901,825	3,734,592		
Pero'tage	of tot. port							
receipts	Meh. 31	86.10	89.58	93.10	89.78	92.48		

This statement shows that up to Mar. 31 the receipts at the ports this year were 784,470 bales less than in 1880-81 and 190,272 bales less than at the same time in 1879-80. By adding o the above totals to Mar. 31 the daily receipts since that time, we shall be able to rea h an exact comparison of the movement for the different years.

	1881-92.	1890-91.	1879-80.	1878-79.	1877-78.	1876-77

			1 200 102			0.531.030
Total	14,368,336	5,230,532	4,560,495	4,233,320	4,011,034	3,731,823

Percentage of total pert res'nta Apr.14 \$9.04 91.17 95.19 92.30 93.73

This statement shows that the receipts since Sept. 1 np to to-night are now 862,196 bales less than they were to the same day of the month in 1881 and 192,159 bales less than they were to the same day of the month in 1880. We add to the table the percentages of total port receipts which had been received to April 14 in each of the years named.

April 14 in each of the years named. INDIA COTTON MOVEXENT FROM ALL PORTS.—The figures which are now collected for us, and forwarded by cable each Friday, of the shipments from Calcutta, Madras, Tuticorin, Carwar, &c., enable us, in connection with our previously-received report from Bombay, to furnish our readers with a full and complete India movement for each week. We first give the Bombay statement for the week and year, bringing the figures down to April 13. BOMBAY RECEIPTS AND SHIPMENTS FOR FOUR YEARS.

Shipments this week.				Shipm	ents since	e Jan. 1.	Receipts.		
Year	Great Brit'n.	Conti- nent.	Total.	Great Britain	Conti- nent.	Total.	This Week.	Since Jan. 1.	
1881	41,000 6,000	28,000	31,000	416,000 115.000	217,000	332,000	55.000		
1880 1879	21,000	5,000	26,000	$131,000 \\ 85,000$	168,000 127,000	\$02,000 212,000		507,000 360,000	

According to the foregoing, Bombay appears to show an *increase* compared with last year in the week's receipts of 20,000 bales, and an *increase* in shipments of 15,000 bales, and the shipments since January 1 show an *increase* of 312,000 bales. The movement at Calcutta, Madras, Tuticorin, Carwar, &c., for the same week and years has been as follows.

CALCUTTA, MADRAS, TUTICORIN, CARWAR, RANGOON AND KURRACHEE.

	Shipm	cnts this	r week.	Shipment	ls since Jan	mary 1.		
Year.	Great Britain.	Conti- nent.	Total.	Great Britain.	Conti- nent.	Totaı.		
1882 1881 1880 1879	8,000 16,000 7,000	1,000 3,000 2,000	9,000 19,000 9,000	132,000 101,000 103,000 57,000	50,000 59,000 29,000 41,000	182,00 ° 163,000 132,000 93,000		

The above totals for this week show that the movement from the ports other than Bombay is 9,000 bales *less* than same week last year. For the whole of India, therefore, the total shipments this week and since Jan. 1, 1882, and for the corresponding weeks and periods of the two previous years, are as follows.

EXPORTS TO EUROPE FROM ALL INDIA.									
Shipments	.18	382.	18	181.	1880.				
to all Europe from-	This week.	Since Jan. 1.	This week.	Since Jan. 1.	This week.	Since Jan. 1.			
Bombay All other p'rts.	49,000	644,000 182,000		332,000 163,000		302,000 132,000			
Total	49.000	826,000	43,000	495,000	45,000	434.000			

This last statement affords a very interesting comparison of the total movement for the week ending April 13, and for the three years up to date, at all India ports.

ALEXANDRIA RECEIPTS AND SHIPMENTS.—Through arrangements we have made with Messrs. Davies, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years.

Alexandria, Egypt, Aprit 13.	1891-82.	1880-31.	1879-80.	
Receipts (cantars*)- This week Since Sept. 1	32.000 2.799.000	9,000 2,716,000	3,193,000	
	This Since week. Sept. 1.	This Since week. Sept. 1.	This Since week. Sept. 1.	
Exports (bales)— To Liverpool To Contluent	231,000 1,533 163,871	$\begin{array}{c} 11,000 \\ 3,000 \\ 118,563 \end{array}$	279,750 1,316 156,597	
Total Europo	1,533 394,871	14,000 340,563	1,316 436,347	

* A cantar is 98 lbs.

This statement shows that the receipts for the week ending April 13 were 32,000 cantars and the shipments to all Europe were 1,533 bales.

MANCHESTER MARKET.—Our report received from Manchester to-night states that prices are lower for both twists and shirtings and that the market is quiet. We give the prices of to-day below, and leave previous weeks' prices for comparison:

	1	1882.		1881.		
	32s Cop. Twist.	8 ¹ 4 lbs. Shirtings.	Oott'n Mil. Upt 's	32s Oop. Iwist.	814 lbs. Shirtings.	Cott'n Mid. Upldo
* 24	$\begin{array}{c} 9^{3}8 @ 9^{7}8 \\ 9^{3}8 @ 9^{7}8 \\ 9^{3}8 @ 9^{7}8 \\ 9^{7}16 @ 10 \\ 9^{5}8 @ 10^{3}16 \\ 9^{9}18 @ 10^{3}16 \\ 9^{7}16 @ 10^{18} \\ 9^{7}16 @ 10^{18} \\ 9^{7}16 @ 10^{18} \end{array}$	$\begin{array}{cccccccccccccccccccccccccccccccccccc$	$\begin{array}{c} 67_{18} \\ 6^{1}_{2} \\ 6^{5}_{8} \\ 6^{11}_{16} \\ 6^{11}_{18} \\ 6^{5}_{8} \\ 6^{5}_{8} \end{array}$	$\begin{array}{c} 93_{6} @ 10^{1}_{4} \\ 95_{8} @ 10^{1}_{4} \\ 91_{2} @ 10^{1}_{6} \\ 91_{2} @ 10^{3}_{6} \\ 91_{4} @ 97_{6} \\ 91_{4} @ 97_{6} \\ 90 & 97_{8} \\ 9 & @ 97_{8} \\ 9 & @ 97_{8} \\ 9 & @ 97_{8} \\ 9 & @ 97_{8} \\ 9 & @ 97_{8} \end{array}$	$\begin{array}{c} 6 & 10 \\ 10 \\ 12 \\ 00 \\ 00 \\ 00 \\ 00 \\ 00 \\$	$ \begin{array}{c} 67_{16} \\ 63_{8} \\ 63_{8} \\ 63_{16} \end{array} $

Shirping News.—The exports of cotton from the United States the past week, as per *latest mail* returns, have reached 9),926 bales. So far as the Southern ports are concerned, these are the same exports reported by telegraph, and published in the CHRONICLE last Friday. With regard to New York, we include the manifests of all vessels cleared up to Wednesday night of this week:

Include the manifests of an vessels cleared up to word an night of this week:

BREADSTUFFS.

FRIDAY, P. M., April 14, 1882.

The flour market has been very firm as a rule, the lower grades especially, and some advance has taken place, though the export trade has been but moderate and mainly with the Provinces, while the home demand has been fair. To-day trade was in about the same state with prices, however, very firm. Rye flour and corn meal are dearer, and the advance in the latter increases the demand for low grades of flour.

The wheat market has been advancing of late, owing to cold, unseasonable weather at the West. Heavy rains have latterly interfered with seeding in many sections, and heavy snowstorms in Minnesots. Dakota and in the Red River Valley, have added to the drawbacks. Floods have also caused some damage. Still, while there is likely to be a decrease in the springwheat yield in some sections, it seems quite as certain that the deficiency will be made good elsewhere, though the season will undoubtedly be later than was expected. Winter wheat has been killed in some sections to the extent of from 6 to 10 per

cent, but in the main the crop is in a favorable condition, and st the beginning of the month the Illinois crop seldom promised better. The advance has kept trade within rather moderate limits, especially the export business. To-day the market was again higher, but only moderately active for export; No. 2 red sold at \$1 44¼@\$1 45 for May, \$1 41½@ \$1 42½ for June, \$1 27@\$1 28 for July and \$1 22½ for August. The receipts at the principal Western markets still fall below the shipments, and the interior supplies are therefore being steadily reduced.

Indian corn has sold more freely at steadily-advancing prices, owing to the improved trade and the continued smallness of the receipts. Speculative manipulation, as usual, has not been lacking to assist the rise. To-day the market was fairly active at a further advance; No. 2 mixed for May and June was held at 84c. and for July there were sales at 83%c.

Rye has been quiet but steady. Barley has been dull. Oats have been irregular, declining heavily at one time, but latterly taking an upward turn again in response to an excited market in Chicago, where the supply is reported very small. To-day oats were fairly active and firm, with sales at 59% c. for April 57% c. for May and 56% c. for June.

THE DRY GOODS TRADE.

FRIDAY, P. M., April 14, 1882.

The dry goods trade has not displayed much activity the past week, the weather having been unseasonably cold, and unfavorable for the distribution of many spring and summer fabrics. The demand at first hands was chiefly of a hand-to-month character, but some large orders for cotton goods were placed by exporters, and liberal price concessions enabled agents to make considerable sales of light-weight clothing woolens and cottonades. The jobbing trade exhibited the same irregularity reported of late, and while a very fair business wasdone by certain houses, transactions were only moderate in the aggre[VOL. XXXIV.

gate, sales of dress goods, prints, ginghams, lawns, &c., having been interrupted by the low temperature that prevailed during the greater part of the week.

DOMESTIC COTTON GOODS.—The exports of cotton goods for the week ending April 11 were 2,597 [packages, including 1,563 to Great Britain, 396 to Argentine Republic, 252 to Brazil, 113 to British North American Colonies, 60 to Mexico, 60 to Uruguay, etc. Brown cottons continued in fair demand and prices remain firm because of the light supply on hand. Bleached goods were slow of sale except fine shirtings and wide sheetings, in which there was a steady business at unchanged prices. Colored cottons were in steady request, and fair deliveries of dyed ducks, denims, tickings, corset jeans, etc., were made by agents on account of back orders. Cheviots were generally sluggish, but some large transactions in cottonades were effected by means of price concessions. Print cloths were more active and prices ruled firm at 3%c. plus ½ per cent for 64x64s, and 3 11-32@3%c. for 56x60s. Prints were mostly quiet and ginghams were in light demand.

DOMESTIC WOOLEN GOODS.—The demand for heavy clothing woolens was only moderate, but there was a good steady movement on account of back orders, and leading makes of cassimeres, snilings, cheviots, worsted coatings, &c., are so closely sold up that prices are firmly maintained. Overcoatings were in fair request, and there was a steady call for re-assortments of both light and heavy cloakings, Spring cassimeres and worsteds were mostly quiet, but a few large purchases were stimulated by means of lower prices. Satinets have not shown much animation, and there was a slaggish demand for Kentucky jeans; but the best makes are held at unchanged prices. Dress fiannels were fairly active, but other descriptions ruled quiet as usual at this stage of the season. Toules, nuns' veilings and specialties in worsted dress goods met with moderate sales, and there was a fair movement in carpets at steady prices.

FOREIGN DEV GOODS.—The main feature of the market for imported goods has been that fine fabrics of nearly all descriptions have been relatively more active than the lower grades. Medium to fine silks were in fair demand and steady, and nuns veilings, satines and specialties in fancy dress goods were distributed with some freedom. Honsekeeping and fronting linens were in moderate request, and Hamburg embroideries, laces, hosiery and gloves, met with fair sales at steady prices.

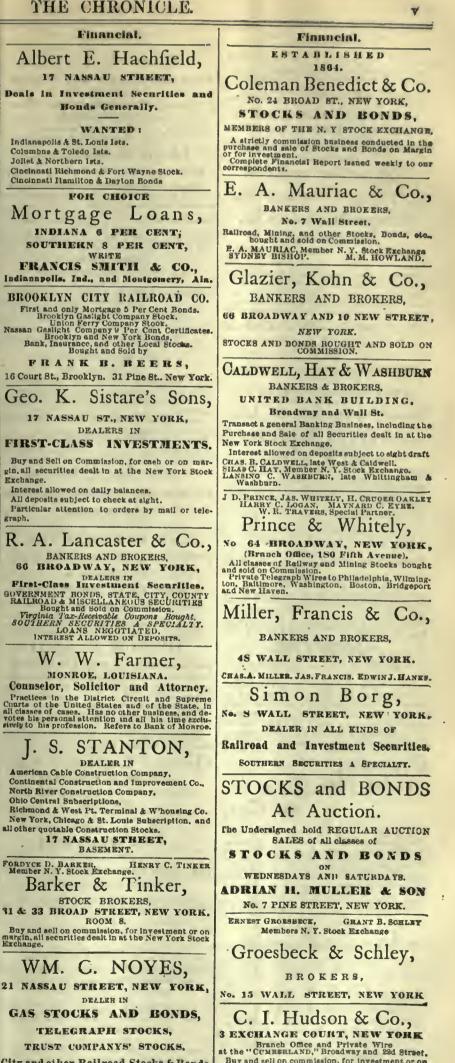

Importations of Dry Goods.

The importations of dry goods at this port for the week ending April 13, 1882, and since January 1, and the same facts for the corresponding periods of 1881, are as follows:

tor	for the corresponding periods of 1881, are as follows:
