INVESTMENTS-MARCH AND APRIL.

The principal movement of interest in investment securities has been the extraordinary advance in government securities of long dates. The 4 per cents of 1907 have sold up to $121\frac{7}{8}$, and there seems to be as yet no limit to their possible advance, for the chief demand has so far come from the savings banks, insurance, and trust companies, and other parties holding money to invest in a fiduciary capacity; and the national banks, which must have bonds or relinquish their circulation, have yet to come in as large buyers.

As a gauge of the rate of interest on general investments by individuals, this price of government securities amounts to nothing, for the price of government bonds is constantly forced up by an artificial demand from parties who are practically limited to these securities, and who would take them, for a while at least, if they paid no more than 2 per cent a year. The large calls from the Treasury Department are reducing the supply so rapidly that prices are abnormally driven upwards.

year. It is obvious that if the stock can still pay S per cent, it is worth much more than 125 to 128; and as to this and other investment stocks, purchasers must look to their history and reports as given in the CHRON-ICLE and SUPPLEMENT, and determine which among them are the safest to buy. Many persons, for instance, would regard New York Central at 130 a safer purchase for income than Lake Shore at 105. As to the group of stocks now strongest, the established roads of the Northwest undoubtedly have the preference, on account of the remarkable immigration in that direction, the well-known life and activity of the country, and the heavy cash receipts of the roads during the current year.

Bonds have ruled below the prices of last year in many cases. For the habitués of Wall Street it is unnecesssary to enumerate the various bonds selling now at fair prices, ex accrued interest; but investors can use their own judgment and the opinion of their brokers, and can find not a few bonds on the Stock Exchange lists which are a very fair investment, yielding nearly 6 per cent per annum.

But for the purpose of calling the attention of persons less familiar with financial affairs to some mortgage bonds on roads which are known to have had net earnings in the past, the following named are among the lowest-priced bonds selling at the Exchange, and their approximate quotations are given ex interest accrued to date, viz., Central Iowa 1st 7s, 1899, at 1101; Charlotte Col. & Augusta 1st 7s, 1895, at 108; Chic. & East. Ill. 1st 6s, 1907 (in litigation), 92; Erie second consolidated 6s, 1969, at 92; Galveston Harrisburg & San Antonio 1st 6s, 1910, 103; second 7s, 1905, 106; Louisville N. Alb. & Chic. 1st 6s, 1910, at 102; Metropolitan Elevated 1st 6s, 1908, at 100; second 6s, 1899, at 91 ; Nashville Chattanooga & St. Louis 1st 7s, 1913, at 1141; Norfolk & Western general mort. gage 6s, 1931, at 101; St. Louis & San Francisco class "B" and "C," 4s in 1882, 5s in 1883 and 6s afterward, at 881; Texas & Pacific consol. 6s, 1905, at 93; Richmond & Danville consol. 6s, 1915, at 98¹/₂. Then there are in Philadelphia the Reading general mortgage 6s, due 1998, which Mr. Gowen has given notice will be paid off July 1. These carry the coupon of Jan. 1, 1882, unpaid, and have another 3 per cent coupon due July 1, and sell now at $97_{\frac{1}{4}}$, or ex interest about 93, and it is a question whether the holders would not do better to have the principal of the bonds go unpaid, as the mortgage trustees hold the Coal & Iron Company's mortgage on their coal lands, and the bonds seem to be well secured. So long as interest is in default, however, they are certainly a semi-speculative

The present circumstances, however, give additional force to the article in the February SUPPLEMENT touching upon the necessity of having some new forms of investment for trust funds; and from the present outlook in this field, that necessity should most easily be met by mobilizing, so to speak, the mortgage loans on real estate,which are in truth a first-class security, and only need to be made convenient, inexpensive to the purchaser, and readily marketable at their fair value.

Now as to practical suggestions for investments in railroad securities,-there have been considerable changes in the position of stocks and bonds, and as a type of the largest fluctuations, N. Y. Central & Hudson, usually regarded as the king of the market, has sold at 125, after selling at 155 in 1881 and 135⁴/₄ in January of this purchase.

STOCKS AND BONDS OWNED BY THE PENNSYLVANIA RAILROAD.

A feature of great interest in the affairs of the Pennsylvania Railroad Company, and one having an important bearing upon the yearly result of its operations, is the large and steadily increasing amount of stocks and bonds which it holds. When the Investigating Committee made its report, detailed and full, early in 1874, the total of stocks (par value) was \$44,541,240 and the total of bonds \$29,053,200, together \$73,594,440. At the end of 1881 this aggregate had been so far swelled that the company was credited on its books with no less than \$110,129,429 of securities (at par value), composed of \$75,424,029 stocks and \$34,705,400 bonds, which had cost \$79,719,156.

The relative amount of stocks and bonds at the close of each of the last three years, and their total cost as per the general balance sheet, are shown in the following table.

| | SUMMARY. | | - |
|---|--------------------------------|--------------------------------|--------------------------------|
| Class of Security. | Dec. 31, 1881. | Dec. 31, 1880. | Dec. 31, 1879. |

| | 110,129,429 | 93,144,596 | 100,143,984 |
| Cost as per general account | 79,719,156 | 61,833,681 | 65,481 682 |

There is a natural increase from year to year, on account of advances to roads leased or operated, for which advances the Pennsylvania usually receives some sort of security either in the form of stock or bonds. Thisincrease will go on until these roads are able to stand for themselves and meet all their charges, without financial aid from the Pennsylvania. But aside from the changes due to this cause, the stock and bond list of the Pennsylvania Railroad Company has within recent years undergone a number of material alterations, chiefly by reason of one or two transactions of considerable magnitude, and it is changes of this character that deserve the most attention as affording a clue to the course which is being pursued in the management of the vast interests represented by this great corporation.

Just before his death, Mr. Thomas A. Scott, who was for so many years identified with the Pennsylvania and who was chiefly instrumental in raising it to its present proportions, gave it as his opinion that the system was so comprehensive that there was no necessity for any further extensions to protect its interests, and that the management would be fully able to develop and extend the traffic of the system without reaching out for other roads. But circumstances alter cases, and in the administration of railroad properties new difficulties and complications are all the time arising which not infrequently compel a change of base or an abandonment of policy. Mr. Scott

present is that to effect the purchase an increase in the stock to the extent of pretty nearly 9 million dollars was necessary, enlarging in this amount the total of the capital upon which dividends will have to be earned in the future. The Philadelphia Wilmington & Baltimore pays 8 per cent at present, but anything that the Pennsylvania receives from this source is applied either in payment of the 4 per cent annual interest upon the \$10,000,000 trust certificates (which supplied the remainder of the money for the purchase of that road) or as an increment to the sinking fund for the redemption of the bonds. Though the road cost the Pennsylvania over 17 million dollars it is represented in the list of stocks owned by only \$10,890,950, that being the par value of the stock bought, the remainder representing the premium paid.

In another respect has there been a change in the Pennsylvania exhibit of stocks and bonds during the last two years. On December 31, 1879, the Pennsylvania Railroad held \$10,995,000 of the stock of the Pennsylvania Company, operating the Western lines. The entire capital stock of that company at that time was \$11,000,000. so that the Pennsylvania Railroad held the whole of it except a few shares, and these it acquired during the next year, making it absolute owner. Then in 1880 it was thought desirable to transfer the ownership of the Newport. & Cincinnati Bridge to the Pennsylvania Company so as to bring it more directly under the supervision of the officers of the Western lines. Accordingly, \$805,000 of Bridge stock was exchanged for \$1,000,000 of Penn. sylvania Company stock. The Pennsylvania Railroad also had in its treasury \$1,200,000 of the bonds of the bridge, and these were transferred to the Pennsylvania Company during 1881, together with \$1,938,100 of the stock of the Jeffersonville Madison & Indianapolis Railroad, and \$5,000,000 of the debenture bonds of the Pennsylvania Company, for which three items the latter issued to the Pennsylvania Railroad 8 millions of its stock, making the total issue \$20,000,000, all held by the Pennsylvania Railroad.

A further change in the Pennsylvania Railroad's holdings of securities took place with its determination to dispose of its interest in roads south of the Ohio and Potomac rivers. The bonds of the Richmond & Danville (\$1,843,800) and the stock of the Charlotte Columbia & Augusta (\$603,600) now no longer figure among its assets. Then the company also appears to have deemed it expedient to part with some other securities held by it not necessary to insure control of the properties on which they are based—probably taking advantage of the favorable state of the market. At the beginning of 1880 it held \$710,000 of the consolidated general mortgage bonds of the Northern Central and \$1,000,000 of the second mortgage bonds. Now only the latter are held. Of Pittsburg Fort Wayne & Chicago special guaranteed stock it retains only 27 shares, of par value \$2,700, against 7,074 shares, of par value \$707,400, on December 31, 1879. Susquehanna Coal Company bonds held have been reduced from \$407,000 to \$96,000 in the two years. The International Navigation Company bonds to amount of $1\frac{1}{2}$ millions vanish from the list, and instead we have \$625,000 Girard Point Storage Company 1st mortgage bonds and \$1,063,-700 of the same company's stock. In these various ways has the stock and bond account of the Pennsylvania Railroad been altered during the last two years, so that the total of bonds is now only \$34,705,400, against \$44,167,-800 on January 1, 1880, (the decrease being due mainly to the transferral of bonds to the Pennsylvania Company and the sale of Richmond & Danville securities), and the total of stocks has risen from \$55,976,184 to \$75,424,029.

11

resigned about a year before his death, but there was little change in the *personnel* of the management, and no doubt the new officers shared the views expressed by their old President. Yet during 1881 these officers considered it incumbent upon them to make one acquisition which alone entailed a cost of \$17,032,879.

As between the Baltimore & Ohio and the Pennsylvania, the Philadelphia Wilmington & Baltimore held a neutral position, taking sides with neither, and probably the Pennsylvania would never have thought of taking any action looking to a control of that property, had not the Baltimore & Ohio first sought to acquire it and thus forced the Pennsylvania to take a like course to protect itself, with more success than attended the efforts of the Baltimore & Ohio. But success was purchased at no mean figure, and the 317 miles of road thus acquired stand the company, it will be seen, at more than fifty thousand dollars per mile. The main interest that this has at

APRIL, 1882.]

To show what an important element this mass of securities is, it is only necessary to say that in 1881 the income yielded by it was \$3,211,466. This is equivalent to over four per cent on the cost of the securities and also to over four per cent on the \$77,672,750 of the capital stock of the Pennsylvania Railroad outstanding on December 31 last. No longer ago than 1878 this income amounted to only \$1,804,846. Looking a little more closely at the income received in 1881 we find that the \$3,211,466 included just \$1,000,000 for a five per cent dividend on the 20 millions stock of the Pennsylvania Company. The whole remainder of the income received was made up of small items, only five of them being above \$100,000 in amount. There is of course a certain measure of safety in the deriv. ation of such a large proportion of the income from many different sources, yet it by no means follows that this income is assured to the Pennsylvania Railroad under any circumstances. But at least it is safe to assume that unless there should be widespread depression and universal contraction in business the greater part of it can reasonably be depended on in the future. Then the main question would appear to be as to the \$1,000,000 contributed by the Pennsylvania Company. There is a bare possibility that the Pennsylvania Railroad might have to forego any income from this source, if the earnings of the lines west of Pittsburg & Erie should fall off too heavily. The subjoined tables, carefully compiled for the SUPPLEMENT, will show the changes in the Pennsylvania's list of securities since 1879.

The lines west of Pittsburg are classified under three different heads. First are those embraced in the Pennsylvaria Company, commonly designated as the Northwestern system. Then there is the Southwestern system, or the lines worked by the Pittsburg Cincinnati & St. Louis Company. Finally there are a few lines operated under their own organizations, but on which the Pennsylvania has assumed part liability, including the Indianapolis & St. Louis, the Vandalia & Terre Haute, the Grand Rapids & Indiana and the East St. Louis & Carondelet. The operations of the Pennsylvania Company in 1881 exhibited a profit of \$2,860,752, after allowing for annual charges of all kinds, but those of the Pittsburg Cincinnati & St. Louis entailed a loss of \$38,338 and the other lines a loss of \$260,486, leaving a net profit of \$2,511,927 on all, against a similar profit of \$3,072,952 in The net income of the Pennsylvania Company 1880. (embracing receipts and payments of every kind and including \$419,045 cash advances to the Pittsburg Cincinnati & St. Louis and other companies) was almost precisely the same as the net profit on the year's traffic operations; it was \$2,866,183, which after providing for the \$1,000,000 for dividends, left \$1,866,183 to credit of profit and loss account. And this latter sum we may take as the margin the company has to draw upon before en renching upon the \$1,000,000 required for the dividend on the stock.

Louisiana.- The Constitutional amendment passed December, 1879, provides for a new bond in place of consols of 1874, bearing 2 per cent for 5 years, 3 per cent for 15 years and 4 per cent afterwards, on which basis the interest charge per year for consols is \$235,542. To April, 1882, the 2 per cents issued were \$237.300, 4 per cents, \$186,150; and 3 per cents (baby bonds), \$1,307,105. The assessed value of property for 1880 was \$149,635,805, and tax is limited to 6 mills. The interest tax alone was $5\frac{1}{2}$ mills before the constitutional amendment, and bond-holders are trying to enforce its collection by suit; in December, 1880, an injunction was granted against the State Treasurer to prevent his diverting the interest funds. There is considerable overdue interest of the years 1874 to 1880 inclusive. A suit is pending by the State of New Hampshire against Louisiana on her bonds. Taxable valuation for 1881

Michigan.—The debt is practically extinguished, as the sinking fund has sufficient assets to meet the debt. Equalized valuation of real and personal property, 1881, about \$\$10,000,000, and tax rate for State pur-poses 1 4-10 mills on the \$1.

Minnesota.—All the old State bonds are held by the permanent school fund. Minnesota "refused to recognize the "State Railroad Bonds" of 1858, to the amount of \$2,275,000. A proposed compromise with the holders was provided for in 1881, and was carried out by the issue of the 4¹₂ per cent bonds. Taxable valuations and State tax have been: Inn Tax Rate Real Estate. Virginia.—The accumulated arrearages of interest on the debt proper, October 1, 1881, were \$3,565,331. The law of March 28. 1879, for refunding the debt, was given inCHRONICLE, Vol. 28, p. 353. The new

Pennsylvania.—Sinking fund, \$6,625,753. Revenue is raised prin-cipally from corporations. Taxes are levied on personal property. The State holds \$1,754,331 in stocks and \$7,900,000 of railroad bonds. Any coupon bonds may be changed to registered. (V. 33, p. 623; V. 34, p. 20.)

Rhode Island.—The debt was all created for war purposes. In Jan., 1380, the net debt, less sinking fund, was \$1,828,013. The State valua-tion of real property in 1876 (the latest made) was \$243,658,190, and personal, \$84,872,369; tax rate 1879, 12 cents on \$100.

South Carolina.—The funding law of Dec. 23, 1873, provided for scal-ing down the old debt 50 per cent. The consols were again "re-adjusted" in 1879. The several acts were passed Dec. 3, 1873, Dec. 24, 1878, Dec. 24, 1879, and February, 1880. In November, 1881, the consols stood at \$5,336,104, which amount was made up as follows: Brown consols actually issued, \$3,165,832; green consols not yet exchanged \$2,885,203, less amount invalid, \$714,932; balance, \$2,170,274; total,'

refunding the debt, was given inCHRONICLE, Vol. 28, p. 353. The new bonds are 10-40 year bonds, and bear 3 per cent for 10 years, 4 per cent for 20 years, and 5 per cent for 10 years, coupons tax-receivable. The total interest on all the acknowledged debt is \$1,523,516 per year, of which \$1,117,724 is in tax-receivable coupons, leaving only \$405,791 payable in cash. In January, 1882, a law was passed prohibiting the receiving of coupons in payment of taxes, and in February the Riddleberxer law for readjusting the debt (see V. 34, p. 88). The circular of Messrs. Maury & Co., Richmond, said: This bill directs that the bonds shall be refunded in new 3 per cent bonds as fol-lows: -----

Atlanta & Charlotte Air-Line.--Dec. 31, 1880, owned from Charlotte, N. C., to Atlanta, Ga., 269 miles. Successors of Richm. & Atl. Air-Line, which was a consolidation (1870) of three separate lines in No. Carolina, So. Carolina and Ga. The whole road was opened for traffic Sept. 28, 1873. Soon after completion default was made, and the property passed to a receiver November 25, 1874. Sold under foreclosure December 5, 1876, and purchased by the bondholders, who formed the existing corporation February 27, 1877, and possession was taken April 16, 1877. On March 26, 1881, the road was leased to the Richmond & Danville. The line forms the Southwestern Division of the Piedmont Air-Line (under control of the Richmond & Danville Railroad), extending from Richmond, Va., to Atlanta, Ga., 550 miles. Capital stock \$1,700,000. Total receipts in 1880, \$951,688; expenses, \$587,550; net, \$364,137. Interest, &c., \$337,700. Surplus, \$26,437. Two per cent paid on incomes, April, 1881. (V. 32, p. 443; V. 33, p. 687.)

Atlanta & West Point.—June 30, 1881, owned from East Point, Ga., to West Point, Ga., 81 miles; leased, 6¹₂ miles; total operated, 87¹₂ miles. In April, 1881, a controlling interest in the stock was purchased by W. M. Wadley and others for the Central Georgia, and a stock dividend of 100 per cent was afterward declared in debenture certificates. Gross earnings in 1879-80, \$368,130; net, \$153,319; in 1880-81, gross, \$418,-054; net, \$107,634. (V. 32, p. 444, 635; V. 33, p. **224**.)

Atlantic & Pacific.—Road completed from Albuquerque, on Atchison Top. & Santa Fe, about 300 miles, to the close of 1881, and in progress to Big Colorado River. The company was building a Pacific line, of about 600 miles, in connection with the Atch. Top. & Santa Fe and the St. L. & San Fran., which companies guarantee 25 per cent of the gross earnings over their respective lines to and from this road, one year after its completion, provided its own earnings are insufficient to pay coupons. The bonds were sold, with a bonus of \$750 in income bonds for each \$1,000 first mortgage. The last mort. con. bonds are \$1,000 each and reg. bonds \$5,000 each The stock authorized is \$100,000,000, and issued to July, 1881, \$19,760,300, nearly all owned by the Atch. Top. & S. Fe and the St. Louis & San Francisco companies equally, and held in trust for 30 years for those two companies. In January, 1892, most of the St. Louis & San Francisco Company's stock passed into control of Jay Gould and C. P. Huntington, and the new arrangement made stipulated that the Atlantic & Pacific road is to be completed during 1852 to the Colorado River. The Southern Pacific will build east to meet it, as the act of Congress of July 27, 1866, requires, and agrees to pay to the Atlantic & Pacific 25 per cent of its gross carnings on through business, which is to be applied to the payment of interest on the Atlantic & Pacific bonds, the same as the Atchison Topeka & Santa Fe and the St Louis & San Francisco companies. The Atlantic & Pacific, in consideration of this agrecuent being carried out, stipulates that the present subscription shall be reduced from \$16,500,000 to less than \$6,600,000. Of the latter amount about \$6,000,000 will be required to finish and equip its read to the Colorado River, and the balance to ball its central division from Vinita to Albuquerque. The land grant claimed under the old Atlantic & Pacific grant is 25,600 acres per mile in Territories, October, 1880, the U. S. Attorney General held the company was entilled

3 miles; total operated. 54 miles. Opened December 7, 1864, and leased to Pennsylvania Railroad Company for 99 years. The branch is the joint property of the lessors and lessees. Rental, 40 per cent of gross earnings. Interest, \$24,000, and dividends (January and July, each $2\frac{1}{2}$ per cent), \$27,500. In July, 1881, 4 per et. div. was paid. Stock, \$550,000. The gen. mort., dated Jan. 1, 1880, was provided for the replacement of the two series of bonds. In January, 1881, purchased the Bellefonte & Snow Shoe road for \$300,000, as reported. -(V, 32, p. 99, 396.)

Relay House to Washington.. 31

An abstract of the last annual report is given in the CHRONICLE, Vol. 33, p. 586, and the following extracts are quoted therefrom. The profit and loss account showed an increase for the year of \$1,697,038, against \$2,356,934 in 1879-80. It will be seen by this account that the nominal surplus fund, which represents invested capital derived from net earnings, and which is not represented by either stock or bonds, amounts to \$42,258,680.

The gross and net earnings of the main stem and its branches and of the other divisions, for the last fiscal year, as compared with 1879-80, were as follows:

Capital, \$5,484,000, of which \$27,000 is in U.S. currency. The bonds to City of Portland are now provided for by accammulations of sinking fund.

Augusta & Savannah.—Sept. 1, 1381, owned from Millen to Augusta, Ga., 53 miles. Chartered as Burke Coanty in 1838 and opened in 1854. Leased to Central of Georgia for \$73,000 per annum. Has no bonded debt. The capital (\$1,022,900) represents its cost. Dividends of 3^{1}_{2} per cent are paid June and Dec. each year. Has a considerable surplus fund.

The aggregate working expenses of the Main Stem, with all branches and divisions, were 61.69 per cent of the whole gross revenue, being 5.30 per cent more than the preceding year. Eight hundred and fifty miles of track of the Main Stem and branches east of the Ohio River are now laid with steel rails. The increased cost of steel thus continuously substituted for iron rails has been charged to the repair account as uniformly heretofore.

The report had the following remarks: "The needlessly low and unremunerative rates under which a large amount of traffic has been transported by the trunk lines has materially reduced the net results of the past year as compared with those of the preceding years. The increase in the surplus fund for the year ended 30th Sept, 1880, was \$2,356. 954, while for 1881 it has been \$1,697,038, thus showing a comparative decrease of net results, with a largely increased business, of \$659,946." Dividends for 5 years, 1872-77, 10 per cent; for 1877-78, 7¹2 per cent; for 1878-79, 8 per cent; for 1879-80, 9 per cent; for 1880-81, 10 per cent. The three dividends from May, 1878, to May, 1879, inclusive, were paid in stock. Results of operating all lines owned and controlled for the five years 1876-81 :

The B. & A. was formed (Dec., 1867) by the consolidation of the Bost. & Worcester and the Western railroads. The report for the year 1880-81 says in regard to the traffic earnings: "It will be noticed that the receipts for freight have fallen off about \$200,000, while the tonnage has increased 283,000. The loss in receipts is partly owing to the flerce competition between the trunk lines for business between the seaboard and the West, which has reduced the rate on through traffic to a point never before dreamed of; but more to a general reduction of about onesixth in the local tariff, which went into effect January 1." Results of operations for five years were as follows:

The Milwaukee & St. Paul Railroad Company was organized May 5, 1863, and embraced a number of other companies, including the Milwaukee & Mississippi, the Prairie du Chien, the Lacrosse & Mil-waukee, and otuers. The Milwaukee & St. Paul afterward pur-chased the St. Paul & Chicago Road and others, and built the line from Milwaukee to Chicago, and on February 11, 1874, the company took its present name. In February, 1880, the Hastings & Dakota Railroad was purchased, and in March and April the Chicago & Pacific and the Sioux City & Dakota. The Western Union Railroad was leased in 1879 for 999 years, and the bonds were to be retired by the issue of the Chic. Mil. & St. Paul bonds secured by mort. on that road. Of the consol. mort. bonds of 1875, enough are reserved to take up the prior consol. mort. bonds of 1875, enough are reserved to take up the prior bonds, and any of the holders of those bonds (except the Iowa & Dakota division) may exchange them for the consol bonds. The latter had a sinking fund of 1 per cent per annum, but holders may have their bonds stamped and discharged from the operation of the sinking fund. The Southern Minnesota bonds were all to be exch anged for the bonds of this company secured on that line (see V. 30, p. 433), and the condition of those bonds before consolidation may be sen in the SUPPLEMENT of April 24, 1880. In June, 1881, stockholders authorized the issue of \$5,000,000 new common stock, which was allotted to common and pre-ferred stockholders of record on Sept. 20 at par, to be issued Oct. 1, 1881. The preference of the preferred stock is a prior right to a non-cum'alative dividend of not exceeding 7 per cent from net earnings (except that \$250,000 above interest on bonds may be reserved as a working capital, before payment of the dividend.) After payment of 7 on preferred and 7 on common, both classes share pro rata. Prices of stock of the Chicago Milwaukee & St. Paul have been:

in lessees' returns. Rental—interest, quarterly, \$65,700, and dividends, semi-annually, each 2 per cent, \$43,800. Capital stock, \$1,095,000. and funded debt, \$1,095,000. The road is owned by the lessees, but a separate organization is maintained in Michigan.

Chicago & Eastern Illinois.—June, 1881, owned from Dolton, Ill., to Danville, Ill., 107¹/₂ miles; Covington, Ind., to Coal Creek, Ind., 9 miles; Danville to Grape Creek, 7 miles; leased, Dolton to Chicago (C. & W. I.), 17 miles; Evansville T. Haute & C. RR., Terre Haute to Dan-ville, Ills, 55 miles; Otter Creek to Brazil, Ind., 14 miles; Danville, Ill., to Covington, Ind., 13 miles. Evansville Terre Haute & Chicago leased May 1, 1880 for \$75,000 per year. The Chicago for East Ulipois was to Covington, Ind., 13 miles. Evansville Terre Haute & Chicago leased May 1, 1880, for \$75,000 per year. The Chicago & East Illinois was chartered as Chicago Danville & Vincennes in 1865, and opened in 1872 and 1873. Sold under foreclosure Feb. 7, 1877, and reorganized under existing style Sept. 1, 1877. The Louisville & Nashville purchased 8,000 shares of stock, as reported, and roads will be operated in har-mony. In March, 1882, the U. S. Supreme Court reversed the decree of foreclosure of the Danville road. See V. 34, p. 291. Report for ten months to June 30, 1881, in V. 33, p. 411. (V. 32, p. 437, 500; V. 33, p. 100, 411, 502; V. 34, p. 86, 114, 175, 291, 316. 343.) Chicago & Grand Trank—This is the consolidation of roads between

Connotion Valley & Straitsville.—The prospectus issued in May, 1881, stated: "For the purpose of extending the Connotton Valley Railway, this company has purchased the Connotton Valley & Straitsville RR. This railroad extends from Canton, Ohio, where it is connected with Cleveland by the Connotton Valley Railway Company, of which it is a branch, through Coshocton and Zanesville to the coal fields of New Straitsville, and through the Hooking Valley to Athens—the whole dis-tance from Canton to Athens being 136 miles. The Connotton Valley is the nearest coal field to Cleveland, and its rapid development, which is already sufficient to supply Cleveland with 1,500 tons a day, on the opening of the railway will supply an enormous and most remarkable freight over that part of the line. Through arrangements already made, capital to the amount of \$2,000,000 is being directed to the de-velopment of mines in these different districts in the interest of this railroad, and the development will be such as to supply the road with at least 3,000 tons a days, as soon as the company is in posi-tion to carry that amount. For the purpose of completing this road, furnishing sidings, freights houses and ample equipment, it is proposed to issue \$2,720,000 first mortgage 7 per cent 30-year bonds, principal and interest payable in Boston. Coupons May and November 1. For each cash subscription of \$950, the subscriber will receive \$1,000 first mortgage bond and two shares Connotton Valley Railway stock." (V. 34, p. 460.) Add to these drawbacks the want of terminals in the shape of elevators and wharves, which are now nearly ready for business in the Charlestown District, and the con-dition of the Vermont & Massachusetts Division, a large portion of which is being double-tracked, and it is surprising that the road makes which is being double-tracked, and it is surprising that the road makes as good a showing as it has for the past year's work."

This was a consolidation in 1862 of the Androscoggin & Kennebee This was a consolidation in 1862 of the Androscoggin & Kennebee Railroad and the Penobscot & Kennebee. In August, 1873, the Port-land & Kennebec, Somerset & Kennebee and Leeds & Farmington rail-roads were also consolidated with the Maine Central. The annual report was published in V. 34, p. 31. The ending of the fiscal year was changed from Dec. 31 to Sept. 30, so that no comparison of operations with prior years was practicable. The report had the following: "The gross trans-portation earnings of the last two years have increased very largely over those of the two years impediately preceding as will appear from over those of the two years immediately preceding, as will appear from a comparison of the earnings for these periods. For the years ending September 30 they were: 1878, \$1,482,770; 1879. \$1,465,453; 1880. \$1,661,779; 1831, \$1,877,078. Our ordinary operating expenses have necessarily been increased to enable us to do this amount of business, but not in the same propertion and we should be able to exhibit a band but not in the same proportion, and we should be able to exhibt a handsome gain in the net results had we not been obliged to make large expenditures in the nature of permanent improvements, and as they are charged to the operating expenses this account is unduly increased."

Manhattan Beach Company.—A consolidation under the above title was made in February, 1880, of the New York & Manhattan Beach Railway, the Manhattan Beach Improvement Company and the Marine Railway Company. The stock of the new company, amounting to \$4,680,000, embraces the stocks of all the other companies converted into it, and the Manhattan Beach Co. holds those stocks in its treasury, except about \$100,000 of N. Y. & Manhattan Beach Railway pref. stock, as also \$300,000 2d mort, bonds of the N. Y. & Manhattan Beach RR. The New York Bay Ridge & Jamaica Railroad is leased and the bonds and stock are guaranteed. In December, 1881, a lease of the New York & Manhattan Beach Railway was made to the Long Island Railroad for 35 per cent of gross earnings to the lessor, but the sum of \$97,500 per year is guaranteed to pay all annual charges. (V. 33, p. 642.)

Manhattan Elevated.—This was a corporation formed to lease and operate the two elevated railroads in New York City. Its capital stock was \$13.000,000, and it was to pay the interest on the bonds of the two elevated roads and certain dividends. The original lease guaranteed 10 per cent per annum on the stocks, but this lease was amended in October, 1881, by the agreements made substantially as follows: 1. A tripartite agreement among the three companies that the indebtedness of the Manhattan Company to the Metropolitan and New York be canceled, except that the New York company should receive their dividends due in July and October, and the interest due July 1 on the New York bonds, the interest on the Metropolitan bonds also to be paid, but no back dividends on Metropolitan stock; the claim of the Manhattan Company against the other two to be withdrawn; and then the net carnings to be distributed as follows: First, 6 per cent on New York stock, then 4 per cent on Metropolitan stock, provided that road should carn it; then 4 per cent on Metropolitan stock, and then all the remain ing surplus to be equally divided between the three parties to the compact. 2. A supplementary contract was made immediately after between the Metropolitan Company should have a preference over the Manhattan to the extent of 6 per cent out of its own earnings, and in consideration of this to relinquish all claims to any proportion of the Surplus of either road, thus giving to the Manhattan Company a claim to two thirds of the surplus carnings, its own share and that of the Metropolitan Co. This was further supplemented by an agreement of

This company was organized March 1, 1878, and acquired the N. Y. Westchester & Putnam (formerly the N. Y. & Boston Railroad), sold in foreclosure March, 1876. The com-pany in May, 1880, leased the West Side & Yonkers road for 999 years, and the consolidated mortgage was issued to take up all the other bonds, of which \$274,000 under a prior mortgage were outstanding Nov. 1, 1881. Stock is \$3,000,000. (V. 32, p, 101, 265, 288, 500; V. 34, p. 378.)

New York & Greenwood Lake .- Dec. 31, 1830, owned from Jersey City, New York & Greenwood Lake.—Dec. 31, 1830, owned from Jersey City, N. J., to Greenwood Lake, 40 miles; extension, New York Lake Erie & Western, 1¹₂ miles; total operated, 41¹₂ miles. Branch to Orange, N. J., opened in 1881. This was the Montclair Railroad, opened in 1874. It was sold and reorganized as Montclair & Greenwood Lake, and again sold October 12, 1878, and the present company organized. The New York Lake Erie & Western purchased a controlling interest in the property and now operate it. The holders of the second mort-gage bonds have a right to pay off the first mortgage bonds of \$900.000 In the property and now operate it. The holders of the second mort-gage bonds have a right to pay off the first mortgage bonds of \$900,000 at 105, and thus gain control of the property. (See Vol. 27, p. 172, 228.) It has been reported that the New York Lake Erie & Western purposed extending the road and making it an important part of their line. In 1880 the gross receipts were \$133,452; expenses, \$155,071. -(V. 32, p. 611.)N. Y. & Harlem.-Sept. 30, 1880, owned from N. Y. City to Chatham, N. I. & Harlem. -Sept. 30, 1880, owned from W. I. Only to Chathall, N. Y., 127 miles. From Chatham to Albany, 24 miles, the Bost. & Alb. RR. is used. This company owns 5½ miles of street railroad on the Fourth Avenue. The property (except the horse railroad) was leased April 1, 1873, for 401 years, to the N. Y. Central & Hudson River RR., a point 1, 1873, for 401 years, to the N. Y. Central & Hudson River RR., at a yearly rental from the lessee of 8 per cent dividends on the stock and at a yearly rental from the lessee of 8 per cent dividends on the stock and the interest on the bonds. The Fourth avenue horse railroad, together with valuable real estate, was retained by this company, and extra dividends are paid out of the receipts therefrom annually in April. All operations of the main road are included with those of the N. Y. Central & Hudson.

19,000,000 6 & 7 J. & J. N. Y., Kidder, P. & Co. Jan., 1905 In 1881 an arrangement was made for completion of line from Marion, O., to Chicago, forming a through route. See V. 32, p. 613. The New York & Erie Railway went into the heads of a Receiver in 1859, and in 1861 the Erie Railway was organized as its succes-sor. The Erie Railway defaulted on its bonds in 1875, and was sold in foreclosure under the second consolidated mortgage in 1878. The present company was organized and took possession June 1, 1878. Under the plan of reorganization the above statement represents all the stocks and bonds issued to September 30, 1881. By the terms of the plan one-half of the stock, both common and preferred, is issued to "Voting Trustees" in London, who shall vote on them until the dividend on the preferred stock (6 per cent) has been paid for three consecutive years. The funded coupon bonds are secured by lien of consolidated mortgage. The second funded coupon bonds are 5 per cents till June, 1883, and after that 6. On the second mortgage and second funded coupon no foreclosure can take place till six successive coupons are in default, but all of one coupon must be paid before any part of a subsequent coupon is paid. The most prominent feature of the reorganization was the provision for outlay of new capital on the property, and the cash from assessments on stock has announted to \$2,907,814, and in 1882 the reorganization first lien bonds dated 1878 were issued to procure money for laying double track west of Hornells ville to complete the double track throughout. These bonds rank next to the first consolidated mortgage and its funded coupons. Preferred stock has a prior right to 6 per cent (non-cumulative) from the net profits, "as declared by the board of directors." Prices of stock have been as follows:

The extension from Brewsters to Fishkill on the Hudson River was completed Nov., 1881. This was the Boston Hartford & Erie Railroad, which became insolvent and was succeeded by this company, formed in 1873. The Boston Hart-ford & Erie's principal debt was the Berdell mortgage for \$20,000,000, which fixes the stock of this present company (\$20,000,000). In 1878-9 the company acquired the Hartford Providence & Fishkill Railroad by the payment of its bonds. The new mortgage issued in 1879 was to pay for the extension of the road to the Hudson River. On Sept. 30, 1881, there was \$1,980,541 of floating debt. Operations, &c., for three years mast were as follows: past were as follows:

St. Louis Keokuk & Northweslern.—Keokuk, Ia., to St. Peters, 135 miles. The Mississippi Valley & Western Railroad was sold April 14, 1875, and this company organized July 1, 1875. Road completed in Autumn of 1879. Income bonds above were originally a part of \$2,750,000 first mortgage bonds, but by agreement they were changed into their present form. Gross earnings year ending Dec. 31, 1881, \$368,435; gross expenditures, \$488,132, including \$88,876 for new work, and \$30,821 loss by floods. (V. 33, p. 256.)

St. Louis & San Francisco.-Dec. 31, 1881, owned from Pacific to Seneca (main), 292 miles; branches-Granby branch, 2 miles; Orongo, Mo., to Joplin, 12 miles; Joplin to Galena, 47 miles; Carbon Branch, 3 miles; Peirce City to Oswego, Kan., 73 miles; total owned, 429 miles; leased and controlled-Oswego to Wichita, 145 miles; Plymouth to Brent-wood, Ark., 88 miles; Seneca to Vinita, I. T., 33 miles; total leased and controlled, 266 miles; total operated Dec. 31, 18×1, 695 miles. This company was organized Sept. 20, 1876, as successor to the Atlantic & Pacific RR. The latter was chartered by act of Congress July 27, 1866, and embraced the South Pacific RR. (originally the Southwest Br. of the Pacific RR. of Mo)., which was consolidated with the Atlantic & Pacific road Oct. 25, 1870. The South Pacific Railroad had a grant of lands by act of Congress June 10, 1852, of 1,161,205 acres. The Atlantic & Pacific received about 507,000 acres of land. The South Pacific lands showed 187,963 acres on hand January 1, 1882. Atlantic & Pacific lands showed 187,963 acres on hand at same date, and for these lands (A. & P.) the second mortgage bonds, class B, are receivable in payment. The interest on bonds "B" and "C" is 4 for 1882, 5 for 1883 and 6 after-ward. The trust bonds of 1880 are secured by deposit of 7 per cent mortgage bonds of the St. Louis Arkansas & Texas RR. and Joplin RR. The general mortgage of 1881 for \$30,000,000 is made to the United States Trust Company as trustee, and enough reserved to take up all prior debt. First preferred stock has prior right to 7 per cent (non-cumulative); then pref. entitled to 7 per cent; then common entitled to 7; then all classes share in any surplus. The pref. and 1st pref. also by their terns had a precedence of any mortgages made subsequent to the creation of said stocks. On January 31, 1880, an agreement was entered into with the

On January 31, 1880, an agreement was entered into with the Atchison Topeka & Santa Fe for construction of a through line to the Pacific coast on the parallel from Albuquerque, on the Rio Grande, to San Francisco. The road was to cost \$25,000,000, and to be known as the Atlantic & Pacific Railway. Three trustees—John A. Stewart, of the U. S. Trust Company, Warren Sawyer and H. P. Kidder, of Boston —were appointed to hold the stock in trust. The voting power was to be vested in six directors of each road. The old companies were to preserve their separate organizations, and the gains of traffic on the extension to be divided in equal proportions. The two companies divided the issue of bonds (\$25,000,000). The road was partially built, when in January, 1882, a large interest in the stock was acquired by C. P. Huntington and Jay Gould, and this changed the projected plans for extensions, and arrangements were made subsequently for building only to the Colorade River to a junction with the Southern Pacific.

New stock was issued for the old stock of the three companies, but their bonds remained unchanged. (See CHRONICLE, V. 30, p. 118.) The company, under acts of Congress above-named, took a land grant of 12,800 acres per mile, estimated at a total of 12,083,227 acres, and a subsidy in U. 8 bonds of \$27,236,512. lines of the company. The report says "the total length of the Union Pacific Railway and branch lines is 4,270 miles," so it appears from this that all this mileage having been open by the end of 1881, and most of it having been operated during that year, the gross earnings on 2,450 miles were about \$5.750,000. While the year 1881 was in progress the monthly reports of earnings issued showed a large increase over 1880, and the company of the gross entry and early inmonthly reports of earnings issued showed a large increase over 1880, and the earnings on new road were to some extent evidently in-cluded in the returns, as the total for the year 1881 was made \$27,451,-831; but when the annual report was issued the earnings were only given for the same mileage as in 1880, with no information about the earnings of all the other lines. It would have been very satisfactory to stockholders to have a more detailed account of the business and prospects of nearly 2,500 miles of their road. Of the Union Pacific collateral trust bonds, the issue is limited to 80 per cent of the following bonds: Omaha & Republican Valley RR, \$850,000; Colorado Central Railroad bonds, \$2,526,000; Utah Northern Railroad, about \$3,480,000; total, \$6,856,000. The collateral trust bonds are a direct obligation of the Union Pacific Company, and have as their security the first mortgage bonds of the roads named pledged with the trustees. The excess of interest collected on hypothecated bonds—say \$22,000 per

about 53,420,000; itela, 50,50,000; The contact at have as their security the first mortgage bonds of the roads named pledged with the trustees. The excess of interest collected on hypothecated bonds—say \$22,000 per year—forms a sinking fund to reduce the principal. The Kansas Pacific extended from Kansas City, Mo., to Denver, Col., 639 miles, with Leavenworth Branch, Lawrence to Leavenworth, 34 miles. It was organized as "Leavenworth Pawnee & Western" in 1861, then changed to "Union Pacific, Eastern Division," June 6, 1863, and to "Kansas Pacific" on March 3, 1869. The Pacific Rallroad acts of 1862 and 1864 applied to this road, and gave it a subsidy of \$6,303.000 and a land grant of about 6,000,000 acres. The lands mortgaged were put in two trusts, 2,000,000 acres in the first, from the first to the 380th mile westward, covered by the first and second land mortgages, and 3,000,000 acres in the second grant, from the 380th mile westward, are covered by the Denver Division mortgage. The outstanding bonds of Kansas Pacific above are given less the amounts of each class held by the trustees of the general mortgage. The second land grant mortgage, with various other bonds, was taken up with the general consolidated mortgage of May 1, 1879, which covers road and lands; the trustees of that mortgage are Jag Gould and Russell Sage, and they held in trust on Jan. 1, 1882, the following bonds of the Kansas Pacific, making \$10,-81,428,250; second land grant; 1,499,000; income (unsubordinated) bonds, \$187,650; income (subordinated) bonds, \$3,036,400; Leaven-worth Branch, coupon certificates, \$297,240; Middle Division coupon certificates, \$243,851; second land grant, coupon certificates, \$877,605; Denver Pacific bonds, \$2,002,000. They also held \$2,875,800 of the stocks and \$2,143,000 of the bonds of other companies controlled by the Union Pacfic. In funding other bonds in to the consol. mortgage, the old Kansas Pacific securities were exchanged at par, except as follows: The "funding mortgage" bonds received nothing fo 199,545 bonds (sevens due May 1, 1899) was reduced to 6 per cent. The Denver Pacific-Denver to Cheyenne, 106 miles-was built under the charter of the Union Pacific, E. D. (Kansas Pacific), and opened January 1, 1871. The Denver & Boulder Valley was opened under a 99 year lease from 1873. The company made default, and a receiver was appointed April 4, 1878. The stock of \$4,000,000 went into this consoli-dation January 1880, and the bonds are retired with the consolidated mortgage of the Kansas Pacific. The United New Jersey Railroad & Canal Companies were leased in May, 1871, to the Pennsylvania Railroad for 999 years, at a rental of 10 per cent on the stock, besides interest on bonds. The smaller leased roads were taken with their several contracts. The Belvidere Delaware was leased to the Pennsylvania Railroad March 7, 1876, and since January 1, 1877, has been operated as the Belvidere Division of United New Jersey Railroad were the part of the part of the lessons in full as rental system. The net earnings are paid over to the lessors in full as rental. The lease has not been profitable in cash receipts to the Pennsylvania Railroad, and the net loss in 1879 was \$939.839, and in 1880 \$1,035,-308, and \$302,864 in 1881; but the connection with New York was indispensable. Operations and earnings for five years past (including the canal) were as follows:

Vermont Central (or Central Vermont).—Windsor, Vt., to Rouse's Point, Vt., 158 miles; branches and leased lines, 273 miles, included in the returns of the Vermont Central Company. Other leased line, New London & Northern, 100 miles. This company has been through more complicated and vexatious litigation than-any railroad in New England. Poor's Railroad Manual of 1879 gives the following account of it: "This company (Central Vermont) was chartered under its present title, November 2, 1872. The Vermont Central Railroad Company was chartered October 31, 1843, and the road opened to Burlington December 31, 1849. August 24, 1849, it leased the Vermont & Canada Railroad, then under construction, agreeing to pay an annual rental of 8 per cert on its cost, and creating a mortgage on their own road as security for such payment. This lease has been the subject of almost continual litigation since 1854. The Vermont Central Railroad Company having defaulted on its interest and rental, the trustees under the lease took possession of the road June 23, 1532, and it has ever since been operated by them under direction of the court. On the first of January, 1871, a lease was taken of the Rutland Railroad and its leased line, the Addison Railroad, the leasees agreeing to pay \$376,000 years; \$\$1,800 per year for six years, and \$94,500 per year thereafter This contract was modified February 25, 1876, as hereafter stated. In September, 1861, a lease was also taken of the Sullivan County Railroad of New Hampshire, at an annual rental of \$25,000, but subsequently modified so that the rental depends on earnings. About 1867 the managers of the Vermont Central Railroad Contage and Line to St. Johns is also operated by this company, and is practically a portion of it, though chartered by the Provincial Parliament under the Stanstead Shefford & Chambly Railroad, extending from St. Johns, P. Q., 43 miles, to Wareloo., P. Q., paying therefor \$50,000 in buds. They also took a lease of the Missisquoi Railroad Co. The Vermont & Canada Railroad

The Vermont section is operated under lease for fifteen years from December 1, 1870, by the New London Northern Railroad; lease rental, \$48,000 in 1880 and \$54,000 per year afterwards. But in May, 1880, it was sold to New London Northern.

Was a consolidation in 1870 of Montgomery & West Point and Western of Alabama. Sold May 10, 1875, in foreclosure and purchased jointly by the Georgia Railroad and Central Railroad of Georgia. The old stock and income bonds were wiped out in the fore-closure, and the property is represented by the bonded debt and \$361,005 due each of the above companies. There are also \$45,000 second mort-gage 8s of Montgomery & West Point RR. due May 1, 1888. The gross and net earnings have been as follows: Gross Net Bonded

Western Maryland.—Line of road—Baltimore to Williamsport, Md., 90 miles: Emmitsburg Branch, 7 miles; Edgemont to Shippens-burg, Pa., 34 miles; total, 131 miles. The capital stock is \$682,250. The company was largely assisted by the city of Baltimore, and was unable to pay all its interest. A compromise was made with the preferred second mortgage bondholders for funding coupons. The President's report for 1881 contained the following: "There were moved during the year 498,090 passengers and 201,259 tons of freight, being equivalent to the movement of 12,277,592 pas-sengers and 7,278,431 tons of freight a distance of 1 mile, which compared with 1880, shows an increase of 1,571,667 passengers and 333,103 tons of freight carried a distance of 1 mile. The average rates of transportation received during the year to per mile, which, compared with the rates of 1880, show an increase in the passenger rate of 100 of a cent per passenger mile, and in freight an increase of 18100 of a cent per ton mile." * * " During the year the company's facilities proved totally inadequate for the accommodation of its business, and while \$64,306 was a very gratifying increase in the gross earnings, yet, with ample means at hand, this amount could have been very greatly ex-ceeded." Wilmington Columbia & Augusta.—The road extends from Wilmington N.C., to Columbia, S.C., 189 miles. In 1880-81 there was expended \$42,000 out of earnings for locomotives. Paid 3 per cent dividends for 1880 and 1831. Eatnings have been:

Road was sold in foreclosure, October, 1879, for \$860,500, and reorganization is in progress. The scheme of reorganization (which was carried out) provided that a new corporation should be created, with a capital stock of \$960,000 and \$1,600,000 in thirty-year first mortgage bonds. The holder of \$2,000 of the old bonds, together with the certificates for funded interest, received a \$1,000 bond of the new company, and in addition six shares of stock. The plan adopted provided only for the first mortgage bondholders, and cut off income bonds, \$600,000; certificates of debt, \$336,000; floating debt. \$879,022, and the capital stock of the old company, \$300,000. (V.33, p. 6\$6.)

Wilmington & Weldon.—Road extends from Wilmington to Weldon, N. C., 163 miles; branch to Tarboro, 17 miles; total, 180 miles. Was leased November, 1872, to Wilmington Columbia & Augusta Rallroad for 99 years.—The lessees made default December, 1877, and the lease was surrendered April 13, 1878. For three years, 1879-81, 3 per cent yearly dividends were paid. The earnings and expenses for five years have been:

Wisconsin Central.—Dec. 31, 1891, owned main line and branches Stevens Point to Menasha, 69 miles; do. to Ashland, 186 miles; do. to Portage City, 70 milos; branches, 7 miles; total owned. 332 miles. Leased, Milwaukee & Northern road, 124 miles, and Milwaukee to Schwartzburg, 9 miles. Total operated. 465 miles. The Milwaukee & Northern lease is terminable on six months' notice, and on Feb. 1, 1882, the Wisconsin Central gave notice: A foreclosure suit was begun in Sept., 1878, and in Jan., 1879, the road was taken possession of by the trustees for bondholders, who still operate it. There is a land-grant of over 800,000 acres, and on March 1, 1882, proposals were received for \$100,000 bonds to be taken up with proceeds of land and stumpage sales. The full plan of reorganization (now practically accomplished) was given in the CHRONICLE, V. 29, p. 303. This embraced the issue of a new consolidated mortgage to cover \$400,000 5 per cent preferred bonds; \$3,800,000 first series bonds, bearing 2 per cent for three years from July 1, 1880, and 5 per cent afterward; and \$5,700,000 second series

bonds, to draw interest if earned (but not cumulative), 2 per cent for three years, and 7 per cent thereafter. Interest on the second series is payable J. and J., but dependent each time on the net earnings of the half year ending six months before. The stock of \$11.500,000 remains, \$2,000,000 of it preferred and \$9,500,000 common, and is all deposited in trust with Stewart and Abbott, Trustees, to be voted on until all interest is being earned and paid on new bonds, and in the judgment of the trustees is likely to continue so to be. Certificates for new stock have been issued to the old stockholders, which pass as a delivery on sales. In March. 1882, a circular was issued, inviting subscriptions of \$1,400,000 to build a 65-mile extension from Neenah south to Schleisingerville. The object was to get a paying independent line to Milwaukee and towards Chicago. For \$10,000, subscribers are offered \$10,000 first mortgage 6 per cent bonds, \$2,000 5 per cent (cumulative interest) in come bonds, \$1,000 6 per ceut (cumulative dividends,) preferred stock and \$2,000 common stock - in all \$15,000, at par, of securities. Stockholders have the right to subscribe in the proportion of 1 for 8 of their holdings of Wisconsin Central stock. The Wisconsin Central will lease the new road for ninety-nine years. For four years past the earnings, &c., were:

Worcester & Nashua.—Sept. 30, 1880, owned from Worcester to Nashua, 46 miles; leased, Nashua & Rochester, 48 miles; total operated, 94 miles. Paid regular dividends of 10 per cent for some years before 1874-5. in 1875-6 the leased line charges (Nashua & Rochester, 48 miles) first appear in the accounts, and the Worcester & Nashua paid only 5½ per cent dividends in that year. The rental charge being plainly too heavy, an agreement was made in 1879 to reduce the interest on bonds to 5 per cent, and the dividends on Nashua & Rochester stock to 3 per cent per annum. The interest on Worcester & Nashua bonds was also reduced to 5 per cent, and surplus earnings in any year above requirements for interest and 3 per cent on each stock are to be apportioned between the stock of eacb company according to the relative number of shares. In 1880-81 had a surplus of \$145 over all. charges and a dividend of 3 p. ct. In addition to above there are \$37,000 5 per cent W. & N. bonds. Five years' operations were as follows:
