THE EFFECT OF THE NEW BANK BILL.

The Bank Extension bill which we publish in full in another column as reported by the Conference Committee, has now passed both Houses and is in the hands of the President. At this late day of the session—so late that it would be impossible to mature and pass another measure for the reorganization of the banks—it is presumable that, although in one particular at least it cannot receive the President's approval, it will be signed by him under the pressure of a financial necessity.

The main feature of the law is of course the machinery it provides for the renewal of the charters of the banks hereafter expiring. In those particulars the measure is all that could be desired. Very simple provisions are made for effecting the change. There need be no fear under it of the disturbance to business threatened through the more cumbersome arrangements now in use. Yet these arrangements of the Comptroller under the old law are working so smoothly and so much better than anticipated, hat if it were not for the accumulation in the Treasury of legal tenders which results, there would be little reason for the change. It was thought possible that this consideration might lead the President to veto the bill, as there are such

obviously objectionable features in it that nothing but necessity would seem to excuse its approval. Still it must be admitted that this withdrawal from active use and rapid accumulation in the Treasury of legal tenders now in process, is a serious defect in the present mode of reorganization; whereas under the new law the bonds held for circulation are not taken up at all, but such circulation is redeemed as it comes in with the five per cent redemption fund and replaced by new notes of the reorganized bank. The change leaves our currency undisturbed, and is certainly a weighty argument in favor of the bill.

Another wholesome provision the new law contains is that authorizing the exchange of 31 per cent bonds for registered 3 per cent bonds. This gives the banks a 3 per cent at par to deposit as security for circulation, which cannot be called in so long as any bonds of the United States bearing a higher rate of interest than 3 per cent and redeemable at the pleasure of the Government are outstanding. As the last issued of these 3 per cents are the first to be called, of course it will be desirable to send in as early as possible the old bonds for exchange. So on August 1st, at 10 A. M .- the hour Secretary Folger has named for receiving the old bonds—we may expect that there will be no little manœuvring for precedonce. Some have suggested that these securities may not be sought after, because of the peculiarity in the section providing for their issue in stating only that they are "exempt from all taxation by and under State authority," leaving them so far as the literal wording of this section goes, liable for taxes authorized either by any city, by any county or by the United States. There is, however, a general provision of the Revised Statutes (sec. 3,701) which provides that all bonds and obligations of the United States are "exempt from taxation by or under "State or municipal or local authority." This would probably cover the defect, except so far as the power of the central government is concerned, and the government in the tax on capital (sec. 5,214) has exempted all amounts invested in United States bonds. So we do not see that the omission is material.

The tendency of this section will be to at least prevent any decrease in bank circulation, notwithstanding the provision in section 8 which authorizes banks of \$150,000 of capital or less to diminish their bond holdings to one-quarter of their capital. For under the 3 per cents the profit in circulation will be greater than if the banks had been left no option but to purchase the 4 per cents say at 120. They can obtain the new bonds at par and receive 90 per cent of their face in notes; but with the 4 per cents, the premium paid had to come out of their capital and be locked up; with the 4 per cents hey ran besides

greater risk of a decline in price. For these reasons it is likely that for a time the tendency will be for bank circulation to expand rather than to contract.

These are the only features in this act which can give one any satisfaction in reading. It is to be said, however, with regard to the remaining sections that like very many attempts of legislators to interfere with the laws of trade the present will probably prove an equally barren effort. Take the section (section 12) in which the attempt is made to force clearing houses to accept silver certificates at par with gold certificates. We showed last week how impotent such an edict was, even if it had been expressed in good, clear English. But as it is, the law is so worded, that it means nothing of the kind. We need not reproduce here the section in full because it is all published on another page. It begins, however, with a general authorization to the Secretary of the Treasury to receive gold and issue certificates therefor, and then makes directions as to their use, character and powers. Every subsequent sentence either speaks of "said certificates" or "such "certificates," referring not only evidently but as a grammatical necessity to gold certificates, with reference to which the section was framed. In only one sentence are silver certificates mentioned, and then only in a parenthesis, which parenthesis confines their connection with the act to that simple clause; and when the law goes on to provide that "no national banking association shall be "a member of any clearing house in which such certifi-"cates shall not be receivable," &c., it cannot include silver certificates under the phrase "such certificates," but only gold certificates.

This peculiar infelicity of expression seems to attach itself to the soft-money party. Almost every time they attempt to interpolate their obnoxious doctrines in a statute, they show the hand of a novice in their words as well as in their principles. But in this case it was of little importance, for as already stated the whole of the above restriction as to clearing houses is absolutely void. It could not have been so expressed as to force upon such an intangible thing as a place of meeting for exchanging checks, restrictions in making exchanges between the clerks there gathered. And furthermore it is impossible to give silver certificates the power to pay one depositor's check, without having first made such certificates legal tender for all debts. The wording of the act therefore is of little importance, as the attempted provision was outside of statutory possibilities.

What effect the section as to certification of checks wil have, it is impossible as yet to say. The law will of course be obeyed. But it will soon be seen that the necessities of business will provide a remedy. You may change the course of a river, but you cannot stop its flow, or make it run up hill. The result of this provision will be either a return to the State system by those banks which have few out-of-tewn depositors, and can therefore make the change without harm, or the devising of some new plan for transacting business which will be equally efficacious to the present system of over-certification.

THE CONDITION OF THE TREASURY.

In view of the passage of the Bank Extension bill, and its probable effect upon bank and Treasury operations, an examination of the Treasury balance-sheet for July may possess features of interest. The first point to attract attention is the fund for the redemption of national bank notes, which amounts now to no less than \$36,675,085. Of course, this fund will always appear in the Treasury statements, but at present its aggregate is very large—the late

additions being due to the cumbersome process of reor ganization to which the banks whose charters were expiring were subjected. The July total is four millions greater than it was a year ago, and 71 millions greater than it was only six months ago, on January 1. It is within a few hundred thousand dollars of the amount held on the 1st March, 1881, when the fund was swelled 16 million dollars in one month—from \$20,697,283 February 1, 1881, to \$36,856,444 March 1—by reason of the fear inspired by the passage of the refunding measure which sought to impose restrictions upon banks in the matter of retiring circulation. A veto by President Hayes removed the source of irritation, but bank currency comes in so slowly for redemption that it took 13 months to draw down this greenback fund 8 millions, to \$29,103,930 April 1, 1882, the lowest point touched since February, 1881, and now it is up to the old figure again. It is gratifying to note therefore that the Bauk Extension law will prevent this source of danger to the money market in coming months from becoming more serious than at present.

Another point worthy of note in the Treasury statement is the small balance the Treasury now has as a reserve against greenbacks. It would seem as if the Secretary, to overcome the effects of the large holdings in the redemption fund, had determined to keep his own balance of cash down to much smaller limits. On July 1, 1882, the "balance, including bullion fund," which represents the actual balance on hand, after providing for matured bonds, interest, &c., was only \$119,583,665, against \$136,089,643 July 1, 1881, a reduction of over 161 millions. In Secretary Sherman's time, March 1, 1881, this balance was \$158,542,647; Secretary Windom had it as high as \$154,640,688, May 1, 1881, and the present Secretary had it but little lower than this only a short time ago, namely in March, when it was \$153,024, 219. In comparing with a year ago, it does not appear that the falling off in balance is the result of an increase in the amount of called bonds outstanding, or in the amount of interest due and unpaid. On the contrary, the latter item aggregates only \$11,819,935 this year against \$17,348,944 last July, a reduction of 51 millions while called bonds aggregate but half a million more, or \$26,307,659, against \$25,872,797, so that these two items would tend to add to the balance, rather than to diminish it.

With this smaller balance of cash, we expect, of course, a smaller amount of available assets on the other side of the account, and the expectation is not disappointed. Of gold coin the Treasury holds \$91,964,504 this year, against \$74,153,944 July 1, 1881, a gain of \$17,810,560, but of gold bullion it holds but \$56,541,886, against \$89,-017,716 a year ago, a loss of \$32,475,830, making a net loss of \$14,665,270. This comes within two millions of the loss in the general balance. Altogether the gold held by the Treasury is \$148,506,390, against \$163,171,660 in July 1881. During the same time the specie held by our New York City Clearing House banks has fallen from \$77,728,500 to \$64,283,600, a decrease of \$13,444,900, so that the Treasury and the banks have together lost more than 28 millions of gold. Notwithstanding the heavy shipments of this metal from this country during recent months, the movement for the twelve months ended July 1 will, we think, show a slight balance in favor of the United States—possibly a million. As our domestic production amounts to about 35 millions a year it would appear that the whole of this, together with such portion of the 28 millions drawn from the Treasury and New York banks as has not gone into consumption or into the banks outside of New York has been absorbed by the people; tha

is, we are still hoarding gold, as we have before pointed out in these columns.

As to silver, it is scarcely necessary to say that the Treasury holds an increased and increasing amount. standard silver dollars it held July 1, 1881, \$62,544,722; on July 1, 1882, the amount had been increased to \$87,153,-816, an addition of \$24,609,094, showing again that these dollars as fast as coined go into the Treasury and stay there. The people absolutely refuse to take them. the shape of silver certificates during the activity of last year they were put in circulation, but these certificates are now accumulating in the Treasury again. The total amount of certificates issued is \$66,096,710, of which the Treasury holds \$11,590,620, leaving only \$54,506,090 actually outstanding. On January 1, 1882, the amount issued was \$68,675,230, of which the Treasury held but \$6,359,910, leaving \$62,315,320 outstanding, or 8 millions more than at present. There are some other features of the Treasury statement worthy of note, but we have not the space to dwell upon them.

THE FINANCIAL SITUATION.

The outlook this week has continued to increase in promise. In fact, at present everything seems to be tending to make the situation more hopeful; and if we are only wise and do not permit ourselves to be too elated and carried away by another wild speculation, it appears as if a year of great prosperity awaits us. Of course, the primary cause of the better feeling, is the daily improving crop condition, and the prospect that the disturbance in Europe will enable us to realize fair prices for our products. But besides that, a feature which has caused decided relief is the rectification in progress in the foreign trade movement as indicated by the New York figures. Furthermore—and an important factor—are the railroad earnings, which even now continue surprisingly good. And to all this, may we not be excused for adding, that Congress is on the eve of adjournment.

The bombardment of Alexandria by the English fleet commenced on Tuesday morning and by Thursday the city was in ashes, having been deserted by its defenders, then sacked and burned. The Suez Canal was closed on Tuesday by order of the authorities, and although private dispatches say that it will be reopened on the 14th, the turn which affairs have taken in Egypt, and the fact that steamers might be plundered in the canal, may render such a course inadvisable and result in navigation through it being interrupted indefinitely. The news of the attack upon Alexandria made only a slight impression upon the London and Continental markets. It was not until Thursday afternoon, when it was announced that the city was being rapidly reduced to ashes, and that Arabi Pasha had fallen back upon Cairo, there to continue his work of destruc. tion, that the speculators and capitalists in London realized the fact that the war thus far had damaged England more than it had Egypt, that the contest promised to be prolonged, and that Egyptian unified and other stocks were no longer desirable as investment properties. The haste displayed in parting with these securities made the London market panicky on Thursday afternoon just at the close of business and the tone was very feverish on Friday.

At the moment it seems unreasonable to expect a speedy end to this contest. And yet if England succeeds in putting the Sultan foremost in the pacification movement, as she is now attempting to do, and if the Sultan acts in good faith-which is at least not his custom-it may prove less prolonged than is at present anticipated. So

arduous work to protect the Suez Canal against roving and irresponsible bands of Bedouins, and it is possible that this avenue may be so greatly injured at unguarded points as to render its navigation entirely unsafe, and compel the diversion of traffic either around the Cape of Good Hope, or across the American continent. It must be remembered that there are only twenty-six feet of water in it when full, and that this amount may be reduced by cutting off the supply on the line of the work. Until, therefore, the canal can be patrolled and guarded by infantry at every point, its free navigation cannot be relied upon with any certainty. The importance of this avenue of commerce may be illustrated by the following table, prepared from statements in the report of the Bureau of Statistics for the quarter ended March 31, 1880.

Distances.	Via Canal.	Via Cape Good Hope
Liverpool to BombayMilos.	6,281	11,139
Liverpool to Calcutta	7,966	11,790
Liverpool to Melbourne	11.231	12,598
Liverpool to Auckland, N. Z	12,706	14,073
Liverpool to Singapore	8,296	12,700
Liverpool to Hong Kong	9,865	13,640
Liverpool to Yokohama	11,540	15,315

For the calendar year 1878 the commerce between Europe and India amounted to £52.129,640; the Straits settlements, £4,419,743; Caylon, £3,772,772; Hong Kong, £4,215,798; and Australia and adjacent islands, £42,380,-570. During that year the imports of merchandise into British India via the Suez Canal amounted to \$135,833,257, and the exports to \$103,747,649. These figures remind the reader of the value of the canal as a commercial avenue. Of course, if the interruption continues beyond the harvest, shipments of grain and cotton to Europe must be via the Cape of Good Hope, and the time attending this longer transit will in some measure enhance prices here; whereas the probable curtailment of cultivation of these productions in Egypt will reduce the world's supplies. Suggestions of this nature are even now having an influence upon our markets.

The foreign news early in the week made a decided change in rates for foreign exchange. Instead of the downward tendency observable last week, the rate for sight sterling and for cables moved upward. The explanation is, that bankers did not care to buy long bills, for it was impossible to say what might be the rate of discount in London by the time the drafts arrived out; consequently long sterling and commercial were neglected. Bankers here freely sold American securities for London account and bought sight bills and cables for remittance, thus making a pressing inquiry for these drafts. Some loan bills were covered and others were extended during the week, further adding to the demand for short sterling. Thursday afternoon, when the news came of the financial flurry in London, foreign bankers became so apprehensive of an advance in the discount rate that they determined to await further advices before doing any business. Friday, pretty much the same conditions were apparent.

It is fortunate for us that this Egyptian difficulty did not arise earlier, since in the condition of our foreign trade it could not fail to have had considerable effect on our gold reserves. Last week we commented upon the unfavorable foreign trade figures, and showed by the New York weekly statements in June that a reaction had now taken place. This week the New York Custom House returns for the whole of June have been published and they, together with the later July figures, indicate even more clearly that the turning point has been reached. Our imports have become decidedly less, while our exports long, however, as there is no settlement, it must be an are large in view of the small remnant of old crops left.

And speedily we shall be in position to send forward new produce. So that even if there should be an outflow of gold now it is likely to be limited in amount.

The advance in the stock market, which commenced after the July holidays, has continued almost uninterruptedly this week, being, as already stated, stimulated by the foreign news and by the very favorable reports regarding the harvest and the growing crops. Speculators appeared confident that the European complications could not be otherwise than beneficial to this country, enabling us to find a market for our produce at comparatively high prices, and to transport goods which would be diverted from the Suez Canal across our continent. Free sales of stocks in our market for European account, the realizations by timid speculators, and the progress of the strike among the freight handlers, made only a passing impression upon the market, which rose steadily.

· The cliques took advantage of the strong tone to move upward some of their specialties and the promise of much higher figures for some of them may have induced outside speculators to purchase. The Pacific railroad stocks and Pacific Mail were directly affected by the foreign news, Minneapolis & St. Louis advanced on the story that the Rock Island had obtained control, St. Paul Minneapolis & Omaha moved upward by reason of large earnings and the favorable condition of the property, Rochester & Pittsburg rose in consequence of a story that the stock was wanted for control by the Wabash and the New York Lackawanna & Western, St. Paul sharply advanced on a report that the arrangements for the stock dividend were completed, and the Eries started upward in consequence of covering in this market of stock sold in London. On Thursday afternoon, when the report came of a panicky condition of the London market, prices yielded to the pressure of free sales and the market was more or less unsettled; but on Friday there was a generally strong tone, with further advances in special stocks.

Money has been in aburdant supply during the week. The only feature about this branch of the market is that banks are indisposed to make time loans running beyond September, except at full rates, and commercial paper of long date is not desirable. Evidently banks and other lenders look for activity early in the fall, and from present indications they will not be disappointed. The 114th call for \$15,000,000 bonds will mature August 1st, and the next call will be the 115th, for \$16,000,000, issued this week, which will fall due September 13. Meantime the banks will have to meet the drain from the West for crop purposes, which in all probability will soon commence, as the new wheat is now moving into the grain centres rapidly. The immediate future of the money market depends greatly upon the condition in which the European markets may be placed by the political complications. The Treasury operations for the week have resulted in a loss, which is a gain to the banks, of \$323,-302 17. There is little change to note in the domestic exchanges and the interior movement is shown by the following.

Receipts at and Shipments from N. Y.	Received.	Shipped.
Currency	\$1,526,000	\$864,000
Gold	13,000	36,000
Total	\$1,541,000	\$900,000

The Bank of America received \$600,000 gold on account of the associated banks, and paid out nothing.

The bank statement of last week was made on rising avorages for specie. Considering this fact the following will indicate the character of this week's return.

	Into Banks.	Oul of Banks	Nel Gain.
Sub-Treasury operations, net	\$323,302	\$	\$323,302
Interior movement		900,000	641,000
Gold exported this week			********
Total	\$1,864,302	\$900,000	\$964,302

The Bank of England lost £415,000 bullion during the week, but gained 4½ per cent in the proportion of reserve to liabilities. The Bank of France shows a decrease of 5,300,000 francs gold and 4,125,000 francs silver. The Bank of Germany since last report has lost 7,860,000 marks. The following exhibits the amount of bullion in each of the principal European banks this week and at the corresponding date last year.

	July 13, 1882.			July 14, 1881.		
	Gold.		Silver.	Gold.	Silver.	
_	£		2	£	A	
Bank of England	23,737,94	1		26,653,743		
Bank of France	38,742,08	38	46,242,151	25,217,552	49,402,470	
Bank of Germany			21,077,250			
Total this week	69,505,77	19	67,319,401	59.084.295	71.041.470	
Total previous week	70,231,26	35	67,760,104	59,923,805	71,048,659	

The above gold and silver division of the stock of con of the Bank of Germany is merely popular estimate, as the Bank itself gives no information on that point.

The following will show the relative prices in London and New York of leading securities at the opening each day.

RAILROAD EARNINGS IN JUNE, AND FROM JANUARY 1 TO JUNE 30.

For the first time in thirty-seven months our monthly statement of earnings shows a decrease as compared with the previous year, the upward movement having been in uninterrupted progress ever since May, 1879. And yet, strange as it may seem, this latest exhibit will be accepted, and with reason, by the vast majority of persons as fully as encouraging as any of its predecessors. Statements of earnings, though valuable in themselves, should always be interpreted in the light of the surrounding circumstances and conditions of trade, traffic and business. In the present instance especially is it necessary that this should be borne in mind, since though there is a diminution, that is not at all the surprising feature in the figures -that was long since recognized as inevitable; but what is surprising is, that with all the conditions of business unfavorable, the roads should have kept up their earnings so well that in the aggregate the loss reaches only a nominal figure. What with the great deficiency in the grain

crops, bringing the movement of this source of traffic over the railroads down to infinitesimal proportions during the closing months of the crop year, the contraction in the cotton movement, the hesitancy and inactivity characterizing general trade the extent which affects the business of the railroads in no imma terial degree, and the marvelous earnings last year in when larger totals than ever before were reached-what with all these influences to contend with, it was supposed that a very large falling off in earnings would be witnessed, and having this possibility in mind we suggested to our readers some months since that it would be well to be prepared to see smaller receipts than a year ago. The actual result presents a gratifying surprise. With the customary increase in mileage, which however cannot be counted on as contributing much to earnings, since new mileage always affords but a light traffic in its early years, there is a decrease of only about \$150,000 in earnings, or less than one per cent. We think that making allowance for all the adverse circumstances, there are few that will consider such a showing other than very favorable. The figures for each road are given in the following table.

GROSS BARNINGS AND MILEAGE IN JUNE.

*Three weeks only of June in each year. I Four weeks ended July 1.

The first point that will probably attract attention in the above table in the case of the individual roads, is the small difference between the figures in the two years. Out of the fifty-seven roads in the table, there are only seven that report a difference of over \$100,000 in amount, counting both increase and decrease. All the others show, as a rule, very small changes. Of course the percentage of increase or decrease fluctuates quite widely, but it is significant that in amount the two years should approximate so

closely to each other. The Northwestern roads, altogether, make very satisfactory exhibits, notwithstand. ing the tremendous falling off in the receipts of grain at Western ports. The Chicago Milwaukee & St. Paul has a decrease of only \$109,811 on earnings of last year pretty nearly \$700,000 above those of 1880. The Chicago & Northwestern has a decrease of \$283,740, on earnings of last year \$635,263 above 1880. This large increase last year not only bears out our remark above about the generally heavy earnings in June, 1881, but also demon. strate how small the present decrease is, relative to the large increase then. Perhaps it will be remarked that mileage is considerably heavier than two years ago. That is so. But even on a mileage basis, with its light traffic on the new road, the earnings make a good comparison with 1880. At present the St. Paul operates 4,263 miles; in June, 1880, the mileage was about 3,000 miles-increase 1,263 miles, or 42 per cent. Earnings in June this year are \$1,620,000; in June, 1880, they were \$1,037,958increase, say, \$582,000, or 57 per cent. Thus the ratio of increase in earnings is greater than in mileage. In other words the St. Paul earned \$380 per mile in 1882, against only \$346 per mile in 1880, and in 1880 there were no short crops. On the Chicago & Northwestern the earnings per mile are smaller than in 1880, being \$616, against \$670, but it is to be noted that the mileage earnings on this road are much, heavier than on the St. Paul, so that comparing the new mileage with the old the disarity between the earnings must have been much greater in the case of the Northwest than in that of St. Paul, requiring consequently a much larger increase on the old lines to make good the shortage of earnings on the new lines and maintain the former average per mile.

The Burlington Cedar Rapids & Northern has slightly larger earnings than last year, though then they were over one-third greater than in June, 1880. The St. Paul Minneapolis & Manitoba is still getting the benefit of the marvelous stream of immigrants wending their way to the Northwest, and its earnings continue to reflect the large business it is doing. On earnings of \$405,321 last year, there is this year a gain of \$451,096, or fully 110 per cent. The Chicago St. Paul Minneapolis & Omaha exhibits a decrease of 10 per cent, or \$41,453, but last year's June earnings were unprecedented, the increase being no less than \$186,469 on earnings of only \$218,093 in June, 1880. To show how great was the contraction in the grain movement, as compared with a year ago, and what an important influence the diminution must have been to all the grain-carrying roads, we annex the subjoined table of the receipts of flour and grain at the leading lake and river ports for the four weeks ended July 1.

RECEIPTS OF FLOUR AND GRAIN FOR FOUR WEEKS ENDED JULY 1.

The total receipts of all kinds of grain were thus only 11,647,609 bushels this year, against 28,951,453 bushels last year, a decrease of 60 per cent, besides a falling off of 200,000 barrels in flour. The loss is in the three items of wheat, corn and oats. Especially heavy is the shrinkage in corn, of which the receipts were this year only 51 million bushels, against over 161 millions last year. Of wheat the receipts were only 21 millions, against 6 millions, and of oats 3 millions, against 6 millions. Chicago has, without doubt, suffered most from this diminished grain movement. It lost 7 million bushels on corn, over 2 million on oats, and almost 2 million more on wheat. That is, it had total receipts of only 6,122,076 bushels, against 17,235,236 bushels in the corresponding time in 1881. The decrease at the other receiving ports is much less pronounced.

With such a decline in the movement at Chicago, no wonder that the roads leading to that point have smaller earnings than a year ago. The decrease in earnings is not confined to what are commonly called the "Northwestern roads" to Chicago, but those leading south and southwest from that city also share in the decline. Thus the Illinois Central on its main line records a falling off of \$108,470, or about 16 per cent. The Chicago & Alton has a much smaller loss, or only about \$22,000. The Chicago & Eastern II' nois lo es \$12,264, or about 8 per cent. The Missouri Pacific which leads to St. Louis, loses \$72,310, or 12 per cent. The Wabash St. Louis & Pacific shows a falling off of \$159,310, though pretty nearly 900 miles more road were operated this year than last; but this additional mileage, it should be said, adds proportionately very much less to earnings than to mileage, so that with the mileage the same in both years—the additional mileage, be it understood, does not consist of new road built, but of old road acquired—the decrease amounts to a little less than \$300,000. The Hannibal & St. Joseph loses \$35,710 for the month, but the officers of the company state that winter wheat is now being cut and that in a very short time they expect a heavy traffic over their line. mark will probably apply to many other roads similarly situated. The winter-wheat harvest is believed to be unprecedented both in quality and quantity. Take Kansas, for instance. According to the State Agricultural Bureau Kansas expects a crop of 30,264,000 bushels, or five mil lions above the crop of 1878, the largest ever raised in that State. This crep is now being harvested in fine con dition, and before long such roads as the Hannibal & St. Joseph, the Missouri Pacific, the Wabash, and the Chicago & Alton, must feel the effect and show it in their earnings.

But Kansas is not alone in this respect. All other winter-wheat producing States have a similar story to tell. The Southwest, however, appears to have been especially favored as respects good crops of every description, and this will not only soon be a very favorable influence to all roads that connect with that promising section, but is already swelling the receipts of those within the district. All the Southwestern roads in the Gould system, for illustration, show for June fair gains over last year. This is the case with the Iron Mountain, the Missouri Kansas & Texas, the International & Great Northern, and the Texas & Pacific. Yet the effects of the increased crops were only partially felt in June; they are daily becoming more pronounced, so that the promise is for still heavier gains in the future. The St. Louis & San Francisco lost \$19,028 in June, but in the fourth week of the month there was an increase, though the road does not derive as much benefit from the good crops in the Southwest as the Iron Mountain or some of the other Gould roads.

The Pacific roads are not so conspicuous for their gains as in some previous months. The Northern Pacific has its customary increase of a little over \$200,000, but the Central Pacific gains only \$79,619, while on the Union Pacific there is a decrease of about \$400,000. On the latter the increase last June was very heavy-over \$660,000. The Atchison Topeka & Santa Fe records a decrease of only \$50,000 on earnings of last year over \$450,000 above those of June, 1880. Among the trunk lines, the Canadian roads all report better earnings than last year, though this is probably the result more of an increase in passenger receipts than in freight receipts. On the Great Western, for instance, there was an increase of \$8,614 from passengers, and \$6,725 from freight; while on the Chicago & Grand Trunk there was actually a decrease of \$16,462 in freight, against an increase of \$46,885 from passengers. The Indiana Bloomington & Western, which is to some extent affected by the course of trunk-line traffic, reports a moderate decrease; while the St. Louis Alton & Terre Haute, which runs east from St. Louis, again has a heavy decrease, though with an augmentation in the volume of traffic to St. Louis on account of the better crops in the Southwest, the latter road should soon cease to show a falling off in receipts. The Michigan roads in our list appear to be doing well. The Detroit Lansing & Northern has a small increase, while the Marquette Houghton & Ontonagon is conspicuous for a very large increase. In Wisconsin, the Wisconsin Central and Milwaukee Lake Shore & Western have larger receipts than a year ago; while the Green Bay Winona & St. Paul sustains a decrease. The Long Island is still swelling its earnings largely, and so is the New York & New England, whose carrying capacity is said to be taxed now to the utmost.

The roads in the South, notwithstanding a smaller cotton movement, have earnings not materially different from those of June, 1881. The East Tennessee road records a gain of about 2 per cent, the Louisville & Nashville and Mobile & Ohio a loss of about 3 per cent; on the Norfolk & Western there is an increase of about 8 per cent. To show the influence of the cotton movement in the two years, we give the following table of the receipts at the Southern outports in June, 1882 and 1881. New Orleans, Norfolk and Galveston, it will be seen, suffered the heaviest diminution.

RECEIPTS OF COTTON AT SOUTHERN PORTS IN JUNE, 1882 AND 1881.

	1882.	1881.	Difference.
Galveston bales. Indianola, &c. New Orleans. Mobile. Florida Savannah Brnuswick, &c. Charleston Port Royal, &c. Wilmington Morehead City, &c. Total	52,633	95,776	Dec 43,143

For the first six months of the year, our statement of earnings presents a very satisfactory showing. Although two of the Western Vanderbilt roads are included in the list—namely, the Lake Shore and the Michigan Central, with a decrease of \$1,091,226 between them—the total decrease is less than 2 millions, against which there is an increase of 19 millions, making a net gain of over 17 millions, or rearly 14 per cent. There are only 10 roads altogether that have a decrease, and in almost every case these are roads that were either affected by the smaller cotton movement in the South or roads that have suffered from the contraction in the volume of trunk-line traffic. The following is our usual table showing the figures of individual roads.

GROSS EARNINGS FROM JANUARY 1 TO JUNE 30.

Net increase			17,026,661				
*Three weeks only of June in each year.							

Net earnings on the few roads reporting are now to hand for May and the first five months, and as in previous months we have varying results, though in the main the returns are favorable. The Pennsylvania for the first time this year has larger net earnings than in 1881 on its lines east of Pattsburg and Erie, but for the five months the loss is still very heavy-in amount \$852,822. The Northern Central also had larger net earnings than in May, 1881, but, like the Pennsylvania, has a large decrease for the five months—loss \$164,992. The Philadelphia & Reading on the Railroad Company shows a small loss in net for May, but is still ahead of last year on the five months' exhibit; on the Coal Company, notwithstanding very much larger gross earnings, net earnings are below last year both for May and the five months. Buffalo Pittsburg & Western maintains the large gains of previous months, and Burlington Cedar Rapids & Northern added \$6,246 in May to its previous gain of \$171,063, making the total increase in net for the five months \$177,309. The Marquette Houghton & Ontonagon, a road situated on the northern peninsula of Michigan, and which is enjoying unusual prosperity at present, had larger net earnings in May this year than gross in May, 1881—that is, it earned net \$120,544 this May, while last year it earned but \$70,977 gross, and only \$35,460 net.

Louisville & Nashville increased its net in May about \$83,000, raising the gain to \$541,000 for the five months. Approximate returns for June make the net in that month \$550,000, or about \$23,000 below the June net last year. This would leave a gain in net of \$518,000 for the six The Nashville Chattanooga & St. Louis reports a decrease in gress and net for both May and the five

in the gross, on account of a reduction in expenses. The Norfolk & Western increased its net in May \$16,627, and the decrease for the five months is thus only \$42,993. Oregon Railway & Navigation reports slightly larger earnings in June this year (both gross and net); for the half year there is quite a heavy augmentation. The following table furnishes the gross and net earnings of all the roads that will supply monthly statements for publication.

HEAD-MONEY TAX ON IMMIGRANTS.

We hope that notwithstanding the pressure of business incident to the close of the session, the Senate will not omit to pass the House bill imposing a head tax on steamship companies of 50 cents for each emigrant brought to any port of the United States. The bill promises to dispose satisfactorily of the long troublesome subject of caring for emigrants arriving at this port. The unprecedented increase in immigration during the last two years is well known, and the great bulk come in at New York. For example, in the calendar year 1881, the total arrivals were 720,045, this port receiving 461,131, or 63 per cent; Huron, Michigan, came next, with 72,117, or 10 per cent; Boston next, with 49,850, or 63 per cent; Baltimore next, with 46,998, or 61 per cent; Philadelphia next, with 36,236, or 5 per cent.

It thus appears that upon this State and port is necessarily thrown the responsibility of looking to it that, in some manner and by some authority, the immigrants are cared for instead of being left to land-sharks on their arrival, the immediate consequence of the lack of protection being that thousands would speedily become a public charge here. Yet it is too plain for argument that the immigrants arriving here, or at any other port, are no months, but the decrease is much smaller in the net than more for the special benefit of the port or State than the

imported merchandise so arriving is. According to the estimates made by the Emigration Commissioners, fully three-fourths of the immigrants arriving in New York in 1880 held prepaid tickets to their destination; and of the entire 327,371 entering this port in that year 112,119 went directly West, 63,368 went East, and only 137,561 (42 per cent) remained in this State. It may also fairly be urged that, at least to a pretty large extent, the most desirable of the immigrants—those possessing industrious habits and some cash-pass on, while the least desirable, including the criminals, the lazy, the paupers, beggars, and determined non-workers, remain to swell the troublesome population of the metropolis.

This fact, as far as it goes, is another proof that this State should not be taxed with the cost of providing for a movement in which it has no peculiar concern, other than that of self-defence against the evils inevitably following neglect to have effective provision. Accordingly, as our readers know, efforts have been repeatedly made to put the burden of cost upon the carriers that bring the immigrants and derive the first and most immediate advantage from their coming. But the State laws were resisted and overthrown by the Supreme Court, as was inevitable, under the constitutional reservation to Congress of all regulation of foreign commerce; and, since then, the subject has been more "at sea" than ever. Recently, the Legislature passed a bill appropriating \$200,000 for Castle Garden expenses. This the Governor held under consideration for some time, but finally signed. While the bill was still in the Governor's hands the closing of Castle Garden seemed imminent, so the steamship companies, although they had very recently refused to pay the 50 cents required, wheeled one by one into line and agreed to pay for the present rather than have their human cargoes to arrive a trouble upon their hands.

Here comes in the new bill, which passed the House almost unanimously, under suspension of the rules. It makes no mention of New York, of course, but applies equally to all ports where emigrants may arrive. imposes a head tax of 50 cents, to be paid to the nearest Collector of Customs and to constitute a special immigrant fund, under control of the Treasury Department; this tax is made a lien upon the vessel, to be enforced by any appropriate remedy. No more money shall be expended for the care of immigrants in any port than is collected in such port. The Secretary of the Treasury is charged with executing the law, and is given power to enter into contract with any State Commission, board, or officers that may be designated for the purpose by the Governor of any State to attend to the care of immigrants, and such board or persons are given authority to inspect all arriving vessels. Convicts, lunatics, idiots, or other persons liable to become a public charge shall not be permitted to land, but shall be returned in the same vessel, at its expense, to the countries from where they came.

This bill ought to go promptly and easily through the Senate. Its constitutionality is unquestionable, and, if passed, it will be a happy settlement of the subject.

THE BANK EXTENSION ACT .- Through the kindness of the Comptroller of the Currency, we are enabled to give our readers an exact copy of the act to enable national banks to extend their charters, &c.

AN ACT TO ENABLE NATIONAL BANKING ASSOCIATIONS TO EXTEND THER CORPORATE EXISTENCE AND FOR OTHER PURPOSES.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, that any national banking association organized under the acts of February 25th. 1843, June 3d, 1864, and February 14th. 1830, or under Sections 5.133, 5.134, June 3d, 1864, and February 14th. 1830, or under Sections 5.135, 5.135, 5.134, and the section of the Revised Statutes of the United States, may at at any time within the two years next provious to the date of the expiration of its corporate existence under present lawy and with the approval of the Comptrolier of the Currency, to be granted as hereinsfer provided, extend its period of succession by amending its articles

of association for a term of not more than twenty years from the expiration of the period of succession named in said articles of as ociation, and shall have succession for such extended period, unless sooner dissolved by the act of shareholders owning two-thirds of its st ok. or unless its franchise becomes furfeited by some violation of law, or unless hereafter modified or repealed.

Sec. 2. That such amendment of said articles of association shall be authorized by the consent in writing of shareholders owning not less than two-thirds of the capital stock of the association; and the board of directors shall cause such consent to be certified under the seal of the association, by its president or eashier, to the Comptroller of the Corrency, accompanied by an application made by the president or oashier for the approval of the auended articles of association as the Comptroller; and such amended articles of association as the Comptroller; and such amended articles of association a certificate under his hand and seal that the association has compiled with all the provisions required to be compiled with, and is authorized to have succession for the extended period named in the amended articles of association.

ency, accompanied by an application made by the president or osable for the approval of the andorded artices of association by the Comprover of the compression of association by the Comprovisions required to be compiled witt, and is antiorized to have succession as a complex with all the provisions required to be compiled witt, and is antiorized to have succession.

Soc. 3. That upon the receipt of the application and certificate of the association provided for In the precenting section, the Comprovision of the association provided for In the precenting section, the Comprovision of the association provided for In the precenting section, the Comprovision of the association provided for In the precenting section, the Comprovision of the association provided for International control of the association provided for International control of the association provided for International Comprovision of the Internationa

tionate amount of the bonds held as security for its circulating notes in the order of such deposits; and no national bank which makes any deposit of lawful money in order to withdraw its circulating netes shall be entitled to receive any increase of its circulation for the period of ix mouths from the time it made such deposit of lawful money for the purpose aforesaid: Provided, that not more than \$3,000,000 of lawful money shall be deposited during any calendar month for this purpose; and provided further, that the provisions of this section shall not apply to bends called for redemption by the Secretary of the Treasury, nor to the withdrawal of circulating notes in consequence thereof.

Sec. 10. That upon a deposit of bonds as described by sections fifty one lundred and fifty-une and fifty-one hundred and sixty, except as modified by section four of an act entitled "An act fixing the amount of United States notes, providing for a redistribution of the national bank currency, and for other purposes," approved June 20, 1874, and as modified by section eight of this act, the association making the same shall be entitled to receive from the Comptroller of the Currency circulating nates of different denominations, in blank, registered and countersigned as hereinafter provided, equal in amount to ninety per centum of the current market value, not exceeding par, of the United States bonds so transferred and delivered, and at no time shall the total amount of such notes issued to any such association exceed inlety per centum of the amount at such time actually puid in of its capital stock; and the provisions of section fifty-one hundred and seventy-six of the Revised Statutes are hereby repealed.

Sec. 11. That the Secretary of the Treasury is hereby authrized to

amount of such notes issued to any such association exceed ninety per centum of the amount at such timo actually paid in of its capital stock; and the provisions of section fifty-one hundred and seventy-one and fifty-one hundred and seventy-six of the Revised Statutes are hereby repealed.

Sec. 11. That the Secretary of the Treasury is hereby authrizoed to receive at the Treasury any bonds of the United States bearing three and a half per centum interest, and to issue in exchange therefor an equal amount of registered bonds of the United States of the denominations of fifty, one hundred, five hundred, one thousand, and ten thousand dollars, of such form as he may presenbe, bearing interest at the rate of three per centum per annum, payable quarterly at the Treasury of the United States. Such bonds shall be exempt from all taxation by or under State anthority, and be payable at the pleasure of the United States. Such bonds herein authorized shall not be called in and paid so long as any bonds of the United States heretofore issued bearing a higher rate of interest than three per centum, and which shall be redeemable at the pleasure of the United States, shall be outstanding and uncalled. The last of the said bonds originally issued under this set, and their substitutes, shall be first called in, and this order of payment shall be followed until all shall have been paid.

SEC. 12. That the Secretary of the Treasury is authorized and directed to receive deposits of gold coin with the Treasurer or Assistant Treasurers of the United States, in sums not less than twenty dollars, and to issue certificates therefor in denominations of united States notes. The coin deposited for or representing the certificates of deposit shall be retained in the Treasury for the payment of the same on demand. Said certificates shall be received may be reissned; and such certificates, aball not he receivable for customs, taxes, and all public dues, and when so received may be reissned; and such certificates, ashall be counted as part of

SECRETARY FOLGEE'S CIRCULAR AS TO EXCHANGING THE 31/2 PER CENTS.-The Secretary of the Treasury issued, on Thursday, the 13th instant, a circular, addressed to all holders of 3½ per cent continued bonds, in which, after quoting the eleventh section of the bank charter act, approved yesterday (authorizing the issue of 3 per cent bonds in exchange for the 31/2s), he

Ing the issue of 3 per cent bonds in exchange for the 3½s), he says:

Under the previsions of this law, the Department will be prepared to receive, on and after the 1st day of August next, at 10 o'clock A. M., antii further notice, any of the bonds issued under the act of March 3. 1863, and 5 per centum houds issued under the act of July 14. 1870. and Jau. 20, 1871, continued, as stated above, to bear interest at 3½ per cent per annum, which have not been called for payment by a call therefor issued prior to the date hereof; and as carly as practicable hereafter will issue in exchange therefor a like amount of United States registered bonds, bearing interest at the rate of 3 per contum per annum, as provided by the act approved July 12, 1882. To effect the exchange, the bonds should be antrendered to the Secretary of the Treasury in accordance with the terms of this circular. They will then be accepted for that purpose in the order of the surrender of them to him, and new bonds, bearing interest at the rate of 3 per centum per annum, will be issued in the same order in lieu thereof. A letter of transmittal should accompany each package of bonds for exchange, setting forth the purpose for which they are forwarded, and giving the address to which the new bonds and checks for the interest thereon shall be sent. When the bonds are already in the enstody of this Department, or any officer thereof, or are transmitted otherwise than with a letter, a letter advising of the proposed surrender should be sent, complying with the requisites for a letter of transmittal, and with such other requisites as the case demands under the regulations prescribed by this circular. The surrender may be made by mail or by express, and not otherwise, beginning on the first day of August next, at 10 o'clock A. M. If made by mail, the Postmaster should stamp or otherwise mark upon the envelope containing the bonds or the letter advising of their surrender, the day, hour, and minute at which received by him. If made by express, the express

of this circular, especially as to assignments and authority to assign interest on the bonds surrendered will cease on the first day of August next, and the new bonds will bear interest from that date. The envelopes should be addressed to the "Secretary of the Treasury, Division of Loans, &co., Washington, D. C., "and marked "Bonds for exchange into 3 per cents." The bonds should be assigned to the "Secretary of the Treasury for exchange into 3 per centum bonds." Where a new bond is desired in the name of any one but the payee of the old bond, the old bond should be assigned to the "Secretary of the Treasury for exchange into a 3 per centum bond in the name of." (Here insert the name of the person in whose favor the bond is to be issued.) The Department will pay no expense of transportation on bondar eleved under the provisions of this circular, but the bonds returned will be sent by prepair ergistered mail, unless the owners otherwise direct. The requisite blanks to be used by national banks and other corporations and institutions, to be used by national banks and other corporations and institutions, to be used by national banks and other corporations and institutions, to be used by national banks and other corporations and institutions, to be used by national banks and other corporations and institutions, to be used by national banks and other corporations and institutions, to be used by national banks and other corporations and institutions, to

[From our own correspondent.]

LONDON, Saturday, July 1, 1882.

Owing to a settlement on the Stock Exchange, which has been a cause of considerable anxiety, and to the close of the half-year, money has been more wanted, but a return of ease is anticipated in the course of a few days. The dividends on the public funds will soon be distributed, and there will be a large supply of floating capital. In the absence, therefore, of any important trade demand for money it is naturally expected that during the summer months the money market will be in a very easy condition. The Bank rate remains at 3 per cent, while in the open market the quotation has improved to 2% to 2½ per cent. The probabilities seem to be that the open market rates of discount will somewhat recede, that the Bank rate will remain unchanged, and that no feature will manifest itself until something can be ascertained respecting the extent of the autumnal demand for money.

Our general trade is still satisfactory, but there is room for improvement. Business with the United States has not been brisk of late. It is very satisfactory, however, to be able to hold to the opinion that there is some prospect of a favorable agricultural season. The crops on the European Continent are spoksn of very favorably, and, although there have been some assertions to the contrary, the harvest in this country promises to

yield a satisfactory result.

In judging of the crops in this country it has always to be borne in mind that a full crop of cattle-feeding stuffs is of supreme importance. We can always depend upon a full wheat supply from abroad, but for hay and roots we must depend upon our own resources, and the weather of late has been very favorable for their development. We have just passed through a "dripping" June, and, although the work of stacking the hay has been impeded, a large quantity of produce has been stacked in good condition, and it is asserted that the crop will be one of the largest on record. At the same time, the genial rains have left the pastures rich with verdore, and cattle are thriving to the best possible extent. Even allowing for the retrograde movement which has been apparent in British agriculture, owing to a series of bad seasons, and to the imperfect way in which many farms are now cultivated, we may still hope. with six weeks or two months of propitious weather, to secure a harvest which will show very satisfactory results compared with the last five years. The increase in the crops of 1681 had a beneficial effect upon our home trade, and it is but reasonable to expect that, should there be no mishap, the crops of 1882 will produce still more substantial results. Of late years our

summers have been very treacherous as far as the weather has been concerned, and any indications of unsettledness are naturally a cause for anxiety; but there are no serious complaints from the farmers as yet, and this is always a hopeful sign.

As usual toward the close of the half-year the Bank return shows changes of more than usual importance, but they have no special significance. Money has been freely borrowed, the total of "other securities" showing an increase of £1,673,634. A large proportion of that amount reappears, however, under the head of "other deposits," or current accounts, and hence it is obvious that the money borrowed has been for the customary temporary purposes. The supply of bullion shows a slight increase, but, the note circulation having been augmented, the total reserve has declined to the extent of £441,889. The proportion of reserve to liabilities is now 43 per cent, showing a reduction on the week of about 3 per cent. The following are the present quotations for money.

Per cent.	Open market rates—	Per cent.
Bank rate 3	4 months' bank bills	
Open-market rates—	6 mouths' hank bills	
30 and 60 days' bills 238@212		8.3 74
3 months' bills 23, @249		

The rates of interest allowed by the joint-stock banks and discount houses for deposits remain as follows:

Per	cent.
Joint-stock bank 8	2

The recent fall in the value of securities, and especially of Egyptian, has been the cause of some embarrassment on the Stock Exchange this week. Several failures have taken place, but only in a few cases have they been important. The settlement has, in fact, passed off much more satisfactorily than had been anticipated, and there would, no doubt, be a great rise in prices were the Egyptian difficulty to be arranged. Of this there are some indications, and a termination to the present state of tension is much to be desired. The Irish difficulty is still an unsolved problem, and this week's events, unfortunately, lead to the conclusion that the progress which legislation has made has failed to exercise any beneficial or humanizing effect.

The crown agents for the colonies invite applications for £509,000 of debentures of the Government of Jamaica, in amounts of £1,000, £500 and £100 each. Interest will be at the rate of 4 per cent per annum, payable half-yearly in London. £200,000 of the loan is to be applied to the extension of the Government railways, and £309,000 to the purchase of a portion of the existing public debt of the colony, which now bears interest at 5 and 6 per cent. The loans are secured on the general revenue and assets of the Government of Jamaica.

Silver has been in demand on Indian account, and has been sold at 513/d. per ounce. Mexican dollars have realized 513/d. per ounce.

The weather during the week has been unsettled, but we have had some bright summer days, and many of the crops promise satisfactory results. Uninterrupted sunshine is now much to be desired, as the crops have arrived at a critical stage of their progress to maturity. The supplies of produce offer-

ing have been very moderate. Holders have been firm and have no some cases secured better terms, but with an increasing visible supply in the United States, and with the prospect of a good harvest on the Continent millers are still very cautious buyers. Their purchases, as a rule, are of a very limited character, and are restricted to actual requirements. It is expected that harvest work will be commenced in this country about the end of the current month. The following are the present quantities of cereal produce at present afloat to the United Kingdom: Wheat, 1,931,000 quarters; flour, equal to 183,000 quarters, and Indian corn, 319,500 quarters.

During the week ended June 24 the sales of home-grown wheat in the 150 principal markets of England and Wales amounted to 22,879 quarters, against 24,118 quarters last year and 23,204 quarters in 1880; while it is computed that they were in the whole kingdom 91,520 quarters, against 96,500 quarters and 93,000 quarters. Since harvest the sales in the 150 principal markets have been 1,727,257 quarters, against 1,602,564 quarters in the corresponding period of last season and 1,279,383 quarters in 1879-80, the estimate for the whole kingdom being 6,909,100 quarters, against 6,054,300 quarters in 1880-81, and 5,143,000 quarters in 1879-80. Without reckoning the supplies of produce furnished ex-granary at the commencement of the season, it is estimated that the following quantities of wheat and flour have been placed on the British markets since harvest. The visible supply of wheat in the United States is also given:

A large degree of animation has marked the progress of this series, and the attendance of home and foreign buyers has been very good; and, though there may have been some slight falling off in the demand towards the last, the general results must be taken as decidedly satisfactory.

The daily closing quotations for securities, &c., at London, and for breadstuffs and provisions at Liverpool, are reported by cable as follows for the week ending July 14:

Commercial and Miscellaneous News.

IMPORTS AND EXPORTS FOR THE WEEK.—The imports of last week, compared with those of the preceding week, show an increase in dry goods and a decrease in general merchandise. The total imports were \$7.570,274, against \$8,963,735 the preceding week and \$7,158,533 two weeks previous. The exports for the week ended July 11 amounted to \$8,025,017, against \$4,940,319 last week and \$6,212,748 two weeks previous. The following are the imports at New York for the week ending (for dry goods) July 6 and for the week ending (for general merchandise) July 7; also totals since the beginning of first week in January: week in January:

FOREION IMPORTS AT NEW YORK.

For Week.	1879.	1880.	1881.	1882.
Dry goods Gen'l mer'dise	\$1,304,836 3,436,557		\$1,255,822 6,039,316	
Total	\$1,741,393	\$8,155,564	\$7,295,138	\$7,570,274
Dry goods Geu'l mer'dise	\$13,866,910 115,115,894	\$66,169,048 199,205,306	\$54,543,601 167,278,321	68,498,673 193,307,983
Total 27 weeks	\$158,932.804	\$265,374,354	\$221.821.922	\$261,806,658

In our report of the dry goods trade will be found the imports of dry goods for one week later.

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending July 11, and from January 1 to date:

EXPORTS FROM NEW YORK FOR THE WEEK.

	1879.	1830.	1881.	1882.
For the week Prev. reported				
Total 27 weeks	£165,319,039	\$207,236,817	\$198 875.881	\$166,580,114

The following table shows the exports and imports of specie the port of New York for the week ending July 8, and since Jan. 1, 1682:

EXPORTS AND IMPORTS OF SPECIE AT NEW YORK.

Gold,	Exp	orts.	Imports.			
Gota,	Week.	Since Jan.1.	Week.	Since Jan.1.		
Great Britain France. Germany West Indies Mexico. South America All other countries.	\$31,000 1,400	83,160 6,088	\$ 5,183 6,113 5,636	401 232 190,043 92,659		
Tetal 1882 Total 1881 Total 1880		\$29,837,169	\$16,932 37,468 24,336	\$607,701 28,233,854		
Great Britain France. Germany. West Indies Mexico Bouth America. All other countries	\$ 183,700	48,500	21.589 19,975 832			
Total 1882 Total 1881 Total 1880	\$183,700 196,000 148,000	5.928,425	30,282	1,602,719		

Of the above imports for the week in 1882, \$7,486 were American gold coin and \$12,740 American silver coin. Of the exports for the same time, \$31,000 were American gold coin.

Louis'ana State Bunds.—The following notice to bondholders is published in New Orleans:

Louis and State Bonds.—The following notice to bondholders is published in New Orleans:

Office State Treasurer, & Baton Rouge, July 10, 1882, Interest will be paid by the State Treasurer, at Baton Rouge, on the consolidated bonds of the State of Louisiana, at the rate of 2 per cent per annum, from January 1, 1880, to December 31, 1881, inclusive, on the presentation and surrender of the 7 per cent coupons maturing July 1, 1880, January 1, 1881, July 1, 1881 and January 1, 1882. The taxes for the year 1882 have not yet been covered into the Ireasury, but the interest on said bonds due July 1, 1882, at the rate of 2 per cent per annum, will be eashed at the State National Bank (Fiscal Agent), New Orleans, on presentation and surrender of the 7 per cent coupons of July 1, 1882. The interest coupons, payable July 1, 1882, on constitutional bonds of the State, will be eashed by the State National Bank (Fiscal Agent), New Orleans.

Said payments will not impair or nevate any right of the holders of bonds accepting the same, or their assigns, in case the preposed amendment to the Constitution, relative to the State debt ordinance, be not. on submission to the people, duly adopted. The coupons surrendered will not be destroyed or defaced, but will be preserved and kept in paekages for identification.

Upon the adoption of the amendment to the Constitution, to he voted inpon in April of 1884, said consolidated bonds will as presented bo stamped: "Interest reduced to two per cent per annum for fivo years from January 1, 1880, and four per cent per annum thereafter."

E. A. Burke, State Treasurer.

Railroad Construction (New) .- The latest information of

Railroad Construction (New).—The latest information of the completion of track on new railroads is as follows:
Allance Niles & Ashtabula.—Extended northeast to Nilos, O., 17 miles, completing the road.
Buffalo Pittsburg & Western.—Extended from Broeton, N. Y., northeast to Dunkirk, 9 miles.
Carson & Colorado.—Extended from near Belleville, Nev., to White Mountain Summit, 23 miles. Gauge, 3 feet.
Chesapeake Ohio & Southwestern.—Completed by laying track from Dyersburg, Tenn., south by west to Hatchie River, 32 miles.
Chippewa Valley & Superior—Extended from Durant, Wis., southwest to the Mississippi, 12 miles, completing the road.
Denver Cirele.—Track is laid for 4 miles in Denver, Col., making a line to the Exposition Grounds.
Gaineaville Jefferson & Southern.—Extended southward to Jug Tavern, Ga., 7 miles. Gauge, 5 feet.
Georgia Pacific.—Extended from Douglasville, Ga., west to Villa Rica, 10 miles. Gauge, 5 feet.
Kansas City Springfield & Memphis.—Extended cast by south to Seymour, Mo., 23 miles.
Marietta & North Georgia.—Extended from Canton, Ga., northward to Ball Oround, 13 miles. Gauge, 3 feet.
Natchez Jackson & Columbus.—Extended from Utien, Miss., northeast to Raymond, 14 miles. Gauge, 3 feet 6 inches.
New York Lackawanna & Western.—New track is reported laid from Alden, N. Y., cast 20 miles, and from near Mount Morris, N. Y., southeast 55 miles.
Northeastern of Georgia.—Extended from Turnersville, Ga., north to Taliulah Falis, 4½ miles. Gauge, 5 feet.
Northeastern of Georgia.—Extended from Turnersville, Ga., north to Pelican Rapids, Minn., 11 miles.
Richmond & Mecklenburg.—Track laid from Keysville, Va., sonth to Ft. Mitchell, 11 miles. Gauge, 5 feet.
St. Louis Des Moines & Northero.—The extended northward to Pelican Rapids, Minn., 11 miles.
St. Louis Des Moines & Northero.—The extension to Boome, Ia., is 3.3 miles longer than heretofore reported.
Soux City & Paelite.—Track on the Nebraska Division is laid to a point forty-five miles west by north from Long Pine, Neb., an extension of 35 miles.
Union P of 35 miles.
Union Pacific.—Track on the St. Paul brauch has been extended from St. Paul, Neb., westward 20 miles. On the line of the Denver & South Park Division, the track of the Gundson branch is extended from Hancock, Col., southwest to Woodstock, 6 miles. This division is of 3 feet

eock, Col., southwest to Woodstock, 6 miles. This division is of 3 feed gauge.
West & East.—Extended from Gray's Mills, Miss., west by north to Lexington, 5 ½ miles.
West Jersey.—The Salem branch is extended in Salem, N. J., 0.6 miles. Wheeling & Lake Eric.—Extended westward to Tolodo, O., 6 miles. This is a total of 343 tofles of new railroad, making 4.758 miles thus far this year, against 2.418 miles reported at the corresponding time in 1851, 2,228 miles in 1880, 1,035 miles in 1879, 791 miles in 1878, 710 miles in 1877, 846 miles in 1876, 457 miles in 1875, 727 miles in 1874, and 1,587 miles in 1873.—Radroad Gazette.

-The Deadwood-Terra Mining Company announces its regular dividend of \$30,000 for June, payable at the office of Messrs. Lounsbery & Haggin.

—The Homestake Mining Company has declared its 47th dividend (for June) of \$50,000, payable at office of Messrs. Lounsbery & Haggin, on the 25th inst.

—Messrs. Morton, Bliss & Co. are offering for sale the first mortgage 30-year 7 per cent gold bonds of the Southwestern Division, also the 6 per cent gold 40-year first mortgage bonds on the Pacific Division, of the Minneapolis & St. Louis Railway Company. These bonds, considering the security and the low rate of bonded debt per mile, are offered at a comparatively low price.

Auction Sales.—The following were sold at auction this week by Messrs. Adrian H. Muller & Son:

The following dividends have recently been announced:

NEW YORK, FRIDAY, JULY 14, 1882-5 P. M.

The Money Market and Financial Situation .- The past week has witnessed the bombardment of Alexandria by English cannon. At this new imbroglio of Great Britain with one of the oriental powers, the conclusion is immediately drawn in Wall Street that Englishmen and other European investors will turn once more towards American securities, with the feeling that this country is more safe from the contingencies of war than any other nation in the world. It is not out of the way also to observe in this connection that England's foreign commerce and monopoly of the ocean carrying trade, which is her glory in time of peace, has in it a certain element of weakness in time of war; and all the vast capital invested in shipping trembles at the fear of hostile cruisers, privateers, or, as in this case, at the possible damage to arise from the shutting up of some important channel of commerce.

New winter wheat is beginning to arrive in market quite freely, and the exports of wheat and flour will soon feel the effects of this supply if the demand for our produce keeps up. Thus comes the first relief to that scarcity of breadstuffs in this country and Europe which began to be felt in August, 1881, and has ever since played a most important part among the controlling forces bearing on the markets at home and abroad.

At the Stock Exchange the firmness of last week has fairly run into buoyancy, and some of the worst bears during the depression of June have apparently turned bulls, and are pushing up the market with all their strength. There is also much to encourage outside buyers of stocks in the very good agricultural prospects, the tolerable certainty of larger rail-road earnings in the last half of the year than in the first half, and perhaps in the circumstance that the heaviest of the road earnings in the last half of the year than in the first half, and perhaps in the circumstance that the heaviest of the stock operators are probably interested for the present in getting stocks up to higher figures. Though, as to the last point, it is well to suggest that a discrimination should be made between those stocks which advance on their substantial merits and those which are crowded up for the purpose of getting a market to sell on. Of the latter sort, there were enough distributed last spring to make buyers cautious in dealing with the same class of stocks again.

The money market has been quite easy, and on call loans to stock borrowers the rates have been 2½@4 per cent, with exceptions at 5 per cent, while government bond dealers have paid 2@2½ per cent. Prime commercial paper sells at 4½@5 per cent.

The Bank of England weekly statement on Thursday showed a decrease in specie of £415,000, but the percentage of reserve to liabilities was 39½, against 35 last week; the discount rate remains at 3 per cent. The Bank of France lost 5,300,000 francs gold and 4,125,000 francs silver.

The New York City Clearing-House banks in their statement of July 8 showed an increase of \$2,872,300 in their surplus reserves the total surplus being \$8,303,325, against \$5,431,025 on July 1.

The following table shows the changes from the previous week and a comparison with the two preceding years:

Go.	1882. July 8.	Differ'nces fr'm previous week.	1881. July 9.	1880. July 10.							
Loans and dls. Specie Circulation Not deposits. Legal tenders.	64,283,600 18,410,800 318,329,100	Inc.\$3,795,600 luc. 8,159,100 Dec. 58,100 Inc.12,960,000 Dcc. 2,046,800	77,728.500 19,149,200 349,843.000	70,822,100 19,525.800 290,714,700							
Legal recerve. Reserve held.	\$79,582,275 87,885,600	Inc.\$3,240,000 Inc. 6,112,300	\$87,460,750 94,012,800	\$72,678.675 90,446,900							
Surplus	\$8,303,325	Inc.\$2,872,300	\$6,552,050	\$17,769,225							

Foreign Exchange.—There has been a good demand for short bills and no great supply of bills offering, either bankers' short or bankers' or commercial long. The offerings of commercial bills to be drawn against future shipments of produce are quite free. To-day, on actual transactions, prime bankers' 60 days sterling bills sold at 4 85½ and demand bills 4 88½, with cable transfers 4 89. The actual rates for Continental bills are as follows: Francs, 5 19½ 65 18¾ and 5 155½ 65 15; marks 945½ 6943¼ and 95½ 6955½; guilders 40@40 5-16.

In domestic bills, New York exchange was quoted to-day as follows at the places named: Savannah, buying, par, selling, ½ 60½ premium; Charleston, buying par, selling, ½ 60½ premium; Chicago, 50 premium; Boston, par.

Quotations for foreign exchange are as follows, the highest prices being the posted rates of leading bankers:

July 14.	Sixty Days.	Demand.
Prime bankers' sterling bills on London. Prime commercial Documentary commercial Paris (francs) Amsterdam (guliders) Frankfort or Bremen (relobmarks)	4 84 @4 811 ₂ 4 831 ₂ @4 81 5 193 ₈ @5 171 ₂	4 SS 4 Ø 4 89 4 × 7 Ø 1 87 ½ 4 86 ½ Ø 4 87 5 15 58 Ø 5 14 38 40 14 Ø 40 12 95 38 Ø 95 58

United States Bonds.—All transactions in government bonds have hung on the new bank law permitting the ex-change of 3½ per cents for new 3 per cents, and prices of the continued fives have been advanced by the demand for these change of 3½ per cents for new 3 per cents, and prices of the continued fives have been advanced by the demand for these bonds to exchange for threes. Some of the largest dealers in government bonds think that the banks would do better to buy 4 per cents of 1907 at current prices than to take these short bonds, which have probably but a few years to remain outstanding. Secretary Folger has issued a circular to all holders of 3½ per cent continued bonds, in which he says: "The surrender may be made by mail or express, and not otherwise, beginning on the first day of August next, at 10 o'clock A. M. If made by mail, the postmaster should stamp or otherwise mark upon the envelope containing the bonds, or the letter advising of their surrender, the day, hour and minute at which they were received by him. If made by express, the express agent should, in like manner, stamp or mark the envelope."

It thus appears that the priority of the new bonds to be issued, which establishes their right to remain longest outstanding, will be determined by the Postmaster or express agent marking on the package the "day, hour and minute at which they were received by him." If it should turn out that \$100,000,000 or so of 3½ per cents were offered at 10 A. M. on August 1 to Postmasters and express companies, there should be no priority among such bonds, but, according to the accidental opening of one envelope before another at the Department.

The Secretary of the Treasury issued July 10 the one hundred and fifteenth call for bonds, embracing \$16,000,000 of the registered bonds of the Act of March 3, 1863, continued during the pleasure of the Government under the terms of Circular No. 42, dated April 11, 1881, to bear interest at the rate of 3½ per centum per annum, from July 1, 1881, as follows:

\$50—No. \$01 to No. \$000, both inclusive.

\$500—No. \$5,501 to No. \$000, both inclusive.

\$50—No. 801 to No. 902, both inclusive. 100—No. 5,501 to No. 6,500, both inclusive. 500—No. 3,501 to No. 4,150, both inclusive. 1,000—No. 19,001 to No. 21,000, both inclusive. 5,000—No. 6,401 to No. 6,900, both inclusive. 10,000—No. 12,501 to No. 14,650, both inclusive. Total. \$16,000,000

The closing prices at the N. Y. Board have been as follows:

* This is the price bid at the morning board; no sale was made.

State and Railroad Bonds.—In State bonds the Tennessees and Louisiana consols have been most active, the former closing to-day at 57½ and the Louisiana's selling at 71½. Some of the new Tennessees, or rather what might be called the "latest and best" Tennessees, sold at 75. The State Treasurer of Louisiana publishes notice that he will pay at Baton Rouge back interest on the consol bonds from July 1, 1880, to January 1, 1882, at the rate of 2 per cent per annum, on surrender of the 7 per cent coupons due in that period, and the State National Bank, New Orleans, will similarly pay 1 per cent for July 1, 1882, on surrender of the 3½ per cent coupons due at that time. State and Railroad Bonds.—In State bonds the Tennessees coupons due at that time.

Railroad bonds have been more active and decidedly strong, as may be seen by the quotations on another page.

Railroad and Miscellaneous Stocks.-The Stock market, Railroad and Miscellaneous Stocks.—The Stock market, following up the firmer tendency of last week, has developed a positive buoyancy. Nearly all the list has shared in the movement, though some stocks have been particularly strong and active, advancing rapidly under heavy purchasing. For the time being, the bears have been lost sight of, and there has been nothing to oppose the advance in prices. The trunk line stocks are generally 3@4 per cent higher than a week ago, and Erie has advanced with the rest and sold to-day at 39%, there being pretty good signs that parties who were bearing the stock and bonds a month ago are now pushing them up. and Erie has advanced with the rest and sold to-day at 59%, there being pretty good signs that parties who were bearing the stock and bonds a month ago are now pushing them up. Western Union has shared in the advance, and at any price over 85 it is possible that the largest holders may distribute a good deal of this stock. St. Paul common has been conspicuous for a rise of nearly 8 points, from 1123/4 last Friday to 1201/4 to-day; and in this stock, also, it is believed that parties who endeavored to bear it after the new issue was determined upon, have recently been purchasers. Louis-wille & Nashville and Denver & Rio Grande, which have so long been weak spots in the market, have shared in the general advance; but in regard to neither of them has there been any new point given out as a matter of fact, and the L. & N. dividend is yet uncertain. The Wabash stocks have also taken their place in line and recovered much from their late depression; the good winter wheat crop is an excellent thing for the Wabash Road, as it carries a great quantity of that class of grain. Minneapolis & St. Louis stocks have come into prominence on large sales, and it is supposed that the purchases for account of Rock Island or Omaha parties have pushed up the prices.

Railroad earnings for June and for the first six months of this year are given at length on another page.

348,483 1,043,208 During the last fiscal year the M. K. & T. RR. Company acquired the railroad and property of the International & Great Northern Railway of Texas, by an exchange of two shares of its own stock for one share of the I. & G. N. Such exchange has increased the share capital of the M. K. & T. RR Company to date by \$16,470,000.

Since the close of the fiscal year the capital stock of the company has been increased to \$44,652,000 (June, 1882), to meet the contracts growing out of the mileage constructed since January,

St. Louis Iron Mountain & Southern.

(For the year ending December 31, 1881.)

GENERAL INVESTMENT NEWS.

Adirondack.—The bondholders who bought the Adirondack road at forcelosure sale have organized a new company under the name of the Adirondack Railway Company, and filed the necessary certificates. The capital stock is fixed at \$4,000,000. The road is projected from Saratoga, N. Y., to Ogdensburg, 185 miles; it is completed from Saratoga to North Creek, 58 miles.

Cable Companies.—The French Cable Company has ratified the contract with the American Cable and Western Union companies.

Chesapeake Ohlo & Southwestern.—The last spike in the Paducah and Memphis division of the Chesapeake Ohio & Southwestern Railway was driven July 13 in the neighborhood of the Hatchie River in Tennessee. Through trains between Louisville and Memphis will be running by the new ronte next week.

Chicago & East Illinois—Chicago Danville & Vincennes.—At Chicago, July 7, in the United States Circuit Court, before Judges Harlan and Drummond, in the case of Fosdick and Fish vs. the Chicago Danville & Vincennes Railroad Company, the following order was made:

The petition of William R. Fosdick and James D. Fish for leave to file a supplemental bill is granted, and supplemental bill allowed to be filed. The objections of the railroad company and of Elwell, Trustee, to such leave, and to the filing of the supplemental bill, are overruled. The order of reference asked by the railroad company is for the present denied, the Court being of opinion that such order is premature, and that no order of reference for the ascertainment of the principal or interest due is necessary or proper until at least the parties are at Issue upon the matters set out in the supplemental bill. Further, by the time that occurs, the Court will probably be advised of the result of the appeal pending in the Supreme Court of the United States, which is claimed to be an appeal from the order of this Court heretofore made confirming the sale under the decree of foreclosure recently set aside in pursuance of the unadato of that court.

Cluciumatl & Baltimore.—The stockholders of the Cincin-

Clucinnati & Baltimore.—The stockholders of the Cincinnati & Baltimore Railroad have ratilied the sale of their stock made by the trustees to the Baltimore & Ohio Company at 110. The stock will be delivered August 1. This practically makes the Baltimore & Ohio the owner of the Cincinnati & Baltimore, and removes one difficulty in the way of the reorganization of the Marietta & Cincinnati Railroad.

Denver & Rlo Grande.—An approximate statement has been published showing the operations of the Denver & Rio Grande Railway for the six months ended June 30, as follows:

	1882.	1881.
Mileage, June 30	1,066	800
Gross earnings (June, 1882, estimated) Operating expenses (June, '82, only est'd).	1,876,0.0	\$2,555,750
Net earningsFixed charges, about	\$1,234,000 875,000	\$1,175,750 630,000
		\$545,750
Applicable to dividends	\$359,000	16.000,000
Earnings on stock for half year	1.2 pr. ct.	3.4 pr. ct.

Elizabeth City Debt.—The difficulty in the way of a settlement of the debt seems to be disappearing. The Post says that "the obstacle was the claim of the Singer Manufacturing Company to recognition as a preferred creditor of the city, and a demand based on the claim that the terms of the settlement with the concern should be more favorable than the terms with other creditors. The city officers were anxions to make a settlement in time for the tax levy just made, for fear that if no compromise was reached now none would ever be possible, and at the last moment a partial concession seems to have been made to the company. The basis of the settlement is that the Singers shall receive, like the others, fifty per cent of the amount of their bonds, but that, unlike the others who are to exchange the old bonds for half their face value in new bonds, the Singers shall receive their fifty per cent in cash. The City Council has ordered a special tax levy of \$136,000 to meet the interest on the new bonds, with a proviso that, if the proposed compromise shall for any reason fail, the money is to go into a sinking fund. If the scheme is carried out Elizabeth City will wipe out her debt of \$6,800,000 for \$3,400,000. To settle with the Singers in cash it will be necessary to negotiate the new bonds; that will involve an expenditure to pay bonus and a possible discount. The new bonds have no market value as yet, of course. If they cannot be negotiated for a figure near to their face value, the effort at settlement may after all be defeated. But the city authorities hope they will bring par, and expect to have the aid of the Singers in negotiating them."

Iowa Railroad Land Company.—The June sales at the Iowa Railroad Land Company's office, Cedar hapids, Ia., embraced 108 town lots and 23,991 acres for \$179,426. The number of land purchasers was 234 and the cash collections \$184,-218. The sales in June, 1881, were 203 town lots and 40,966 acres for \$305,505. The land purchasers numbered 331 and the cash collections were \$208,593.

Massachusetts Central.—A press dispatch from Boston, July 13, says: "A number of the largest bondholders of the Mas-sachusetts Central Railroad met, and, in conjunction with the July 13, says: "A number of the largest bondholders of the Massachusetts Central Railroad met, and, in conjunction with the permanent committees, considered the plans for relief suggested, and finally voted to recommend a complete reorganization of the board of directors. Three plans are now proposed: First, to issue \$1,500,000 new bonds, with interest on the same guaranteed; make the present bonds preferred stock, on which interest shall be paid only after the interest on the new bonds is fully met. The stock in this case becomes a third security, having a nominal value. Second, issue new consolidated mortgage bonds of \$1,500,000, making the new bonds preferred bonds, interest payable after that on the new bonds. One mortgage, in this case, to include all the bonds. Third, a proposition similar to the plan recently adopted by the Connotton Valley Road. It recommends the assessment of \$350 on the cash bond, giving in return a bond of face value of \$1,500. In this way \$225,000 would be seenred. Each plan has its own advocates, and one of the three is expected to be adopted. As to the attachment threatened to be placed on the rolling stock, it now appears it was on account of a mortgage held by a trust company of Boston. This matter has been satisfactorily adjusted, and no further fears of a suspension of business on the road are entertained."

New Orleans Pacific.—A dispatch from New Orleans says:

New Orleans Pacific.—A dispatch from New Orleans says:
"The last rail on the New Orleans Pacific road connecting this
city by the Southern Pacific with San Francisco was laid-to-day
at a point just beyond the Atchafalaya River. The City Council yesterday granted the site of the Claiborne Market in this
city to the road for a union depot, and President Wheelock
left for New York last night to complete his work."

New York & Bestern Live. The directors of the New

New York & Boston Air Line.—The directors of the New York New Haven & Hartford Company and the New York & Boston Air Line Company recently agreed upon a lease of the latter road to the former company, as reported in the

CHRONICLE. No provision was made in the lease for the common stock of the Air Line Road, which amounts to about \$800,000. The preferred stock amounts to about \$3,000,000. Most of the common stock is said to be owned by W. J. Hutehinson. A meeting of the stockholders of the Air Line Company will be held, and the common atockholders intend to defeat the rease, if they can receive sufficient support from preferred stockholders. It is believed that the result may be a modification of the present directors' agreement.

New York & New England.—Notice is given that the 34,750 shares of stock, of the par value of \$100 each, which have been held by the Commonwealth of Massachusetts, and which are now at the disposition of the company, are offered at \$50 a share to the stockholders of the company in proportion to the stock owned by them respectively, as shown by the company's books on August 2, 1882. Holders of the Berdell bonds still unconverted must convert them into stock of the present company before August 1, in order to entitle them to subscribe for the stock.

Rochester & Pittsburg .- A dispatch from Rochester says : Rilroad Company will have 302 miles, including branches, in operation next fall. The new line is to have a relling stock of 20 consolidated 44-ton locomotives, 1,400 20-ton coal cars, 100 box cars, 100 flat cars and o passenger cars.

St. Louis Alton & Terre Haute.—In the suit of this company, Judge Drummond of the United States Circuit Court decides that the lease executed with the Indianapolis & St. Louis Railroad Company and the second guaranty contract dated September 11, 1867, are valid and binding, but that the liability of each guaranteeing company (the Pittsburg Fort Wayne & Chicago and Cleveland Columbus Cincinnati & Indianapolis) is one-third instead of one-half, because they never released the other, the Indianapolis Cincinnati & Lafayette Company. The injunction in force is continued. The amount of rental overdue now amounts to about \$500,000.

St. Paul Minneapolis & Manitoba.—The land department of the Sr. Paul Minneapolis & Manitoba RR. reports that the sales for June, including some \$,600 acres by special commission, amounted to 61,367 acres, for which \$256,758 was received. One sale of 32,000 acres in Kittson county was made to Valentine and associates at \$5 per acre, with a rebate of \$2 50 per acre for breaking. Excluding this one sale, the ordinary current business for June was 28,989 acres, for which \$167,719 was received. The land was sold to 217 different persons, the average acreage being 107. The sales for June were three times as acreage being 107. The large as in June of 1881.

large as in June of 1881.

Southern Pacific of Callfornia.—The Southern Pacific Railroad of California embraces that part of the great Southern Pacific system lying within the State of California. Of this, 176 miles of the road, constituting the Northern Division, is operated by itself, and the earnings for five months of this year are given below. The remaining 551 miles, constituting the Southern Division, are operated on a short lease by the Central Pacific. The road is making such progress in earnings that when the lease to Central Pacific expires the company may prefer to operate the road on its own account. The actual gross earnings for four months of this year—the latest yet at hand—are given below. It should be clearly understood that these earnings on the 551 miles are included in the earnings of Central Pacific, as reported in the Chronicle, and the Central Pacific also operates and includes in its returns the Sonthern Pacific also operates and includes in its returns the Sonthern Pacific in Arizona and New Mexico and down to Sierra Blanca in Texas, where the junction is made with the Texas Pacific.

Utle: Itliaca & Elmira.—Application has been made to Judge Rumsey, of the New York Supreme Court, for the appointment of a receiver for this road, and the case was referred to a master to take testimony and report to the Court. The road extends from Elmira, N. Y., to Cortlandt, 71 miles; and the company has also controlled and worked the Cazenovia Canastota & De Ruyter road, 29 miles, and has worked the Ithaca Auburn & Western road, 27 miles. The road was sold under foreclosure four years ago, and the present company was then organized.

Virginia State Funds.—At Richmond, Va., July 8, Judge Wellford, in the Richmond Circuit Court, rendered a decision in the ease of Gautt vs. the State of Virginia, in which the plaintiff prayed for an injunction to restrain the alleged misappropriation of \$500,000, the proceeds of the sale of the State's interest in the Atlantic Mississippi & Ohio Railroad. Of this money \$100,000 was appropriated by an act of the last Legislature for the establishment of a colored normal school, the remainder to be used in refunding to the public free schools a portion of the money heretofore diverted therefrom. The decision was in favor of the complainant and against the State, enjoining and restraining any State officer from using in any manner any portion thereof for school purposes, and ordered the State Treasurer to take possession of said money and pay it over to the Commissioners of the Sinking Rund, to be applied by them for the settlement of the State debt. The case will be taken to the Supreme Court of Appeals.

The Commercial Limes.

COMMERCIAL EPITOME.

FRIDAY NIGHT, July 14, 1882.

The weather has become warm and summer-like, and the violent wind and rain storms at the West have been much less frequent. Good progress has been made in the work of harvesting the ripening crops. Some of the "vegetablea" have declined materially under the liberal supplies which are now declined materially under the interial supplies which are now coming to market, and altogether the prospects are as good as could be expected after so unfavorable a spring. The course of affairs in Egypt, embracing the bombardment of Alexandria by the English fleet and its evacuation by the Egyptian forces,

affairs in Egypt, embracing the bombardment of Alexandria by the English fleet and its evacuation by the Egyptian forces, have excited much interest, but have been somewhat variable and uncertain in their effects upon values.

The advances and liberal speculations in provisions, which have been so noticeable during the past week or more, have been checked, and prices are on a downward course, mainly owing to the lack of export support and the few realizing sales. To-day old mess pork was sold on the apot at \$21 25@\$21 50 and new at \$22; September options realized \$22; August \$21 80. Lard declined to 12.75@12.82½c. for prime Western on the spot; refined to the Continent was quoted at 13c.; July options realized 12.72½@12.77½c.; August, 12.77½@12.85c.; September, 12.87½@12.77½c.; October, 12.95@13c.; January, 12.77½@12.80c.; seller year, 12.67½@12.75c.; February, 12.80c.; elosing weak and somewhat lower. Bacon itrm at 13½@13¾c. for long clear. Beef quiet at \$30@\$31 for extra India eity mess. Beef hams quiet and unchanged. Tallow firm at 8¼@6¾c. for prime. Stearine quiet at 13@13½c. Butter firm for prime grades, which are scarce. Cheese more active at 9@11c. for fir to fine State factory; Ohio factory, 7½@10c.

Rio coffee has been firm and moderately active on the basis of 9½c. for fair cargoes; mild have sold quite freely at firm prices. Spices have been firm, and nutunegs have advanced slightly, owing to the possibility of the closing of the Saez Canal, through which come many of the vessels which bring that spice to this port. Foreign fruits have shown little change, and trade has been rather quiet. Tea has brought firm prices

Canal, through which come many of the vessels which bring that spice to this port. Foreign fruits have shown little change, and trade has been rather quiet. Tea has brought firm prices at anction; 75 per cent of the tea now received here comes through the Suez Canal, a fact which explains the present firmness of the market here. Rice has remained generally ateady, and, though domestic has been quiet, foreign has sold fairly. Molasses has been quiet and nominally unchanged for grocery grades, and active at some decline for boiling stock, which is now quoted at 30@32c. respectively for north and south side of Cuba stock. Raw sugar, owing to a proposition in Congress to reduce the tariff 25 per cent immediately. has been quiet, pending the settlement of the question. Meanwhile quotations remain nominally 7½ @7%c. for fair to good refining, and 8½c. for 96 degrees test Centrifugal. As regards the tariff question the importers here, of course, favor the proposed reduction, and the retiners either favor it or are not opposed to it, while the Louisiana planters naturally do not wish to see it adopted.

COTTON.

FRIDAY. P. M., July 14, 1882.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening (July 14), the total receipts have reached 8,142 bales, against 9,586 bales last week, 9,288 bales the previous week and 13,869 bales three weeks since; making the total receipts since the 1st of September, 1881, 4,639,715 bales, against 5,722,045 bales for the same period of 1880-81, showing a decrease since September 1, 1881, of 1,082,330 bales.

The past week has been one of considerable excitement on our Cotton Exchange, with a brisk speculation in futures at varying and irregular values. On Saturday prices were very buoyant on renewed efforts toward a "corner" on contracts for this month. On Monday there was much variableness, but the efforts toward a "corner" seemed to have ceased for the time, for at the close, while July and August were no dearer, the next crop advanced 4@7 points, owing to the threatened bombardment of Alexandria. On Tuesday morning the bureau report for July was made public, and was much more favorable than many had expected, fully sustaining the CHRONICLE's advices on the subject. There came also from Constantinople indications of diplomatic complications which threatened the peace of Europe. Under these influences, inducing sales to realize, prices rapidly declined, especially for early delivery, and continued to give way further during Wednesday and Thursday, until the closing figures of Thursday were 20@25 points down for the early deliveries, and 14@17 for the later months, as compared with the closing figures of Monday. To-day there was some further decline, without much speculative activity or decided feature. Cotton on the spot was advanced 1-16c. on Saturday, Monday and Tuesday, and was reduced 1-16c. on Thursday. The demand has been mainly for home consumption. To-day there was a further decline of 1-16c, and little doing, prices closing nearly nominal on the basis of 12½c. for middling uplands.

The total sales for forward delivery for the week are 624,800 bales. For immediate delivery the total sales foot up this week 4,010 bales, including 597 for export, 3,871 for consumption, 42 for speculation and —— in transit. Of the above, —— bales were to arrive. The following are the official quotations and sales for each day of the past week. The past week has been one of considerable excitement on

The Visible Supply of Cotton, as made up by cable and telegraph, is as follows. The Continental stocks are the figures of last Saturday, but the totals for Great Britain and the affoat for the Continent are this week's returns, and consequently brought down to Thursday evening; hence, to make the totals the complete figures for to-night (July 14), we add the item of exports from the United States, including in it the exports of Friday only.

there sluce September 1, 1881, have been about 300,000 bales, against about 260,000 bales for same time last year.
† This year's figures estimated.

We have corrected last year's St. Louis stock.

The above totals show that the old interior stocks have decreased during the week 6,422 bales, and are to-night 36,605 bales less than at the same period last year. The receipts at the same towns have been 2,815 bales less than the same week last year, and since Sept. 1 the receipts at all the towns are 576,286 bales less than for the same time in 1880-81.

RECEIPTS FROM THE PLANTATIONS.—The following table prepared for the purpose of indicating the actual movement each week from the plantations. Receipts at the outports are sometimes misleading, as they are made up more largely one year than another at the expense of the interior stocks. We reach therefore, a safer conclusion through a comparative statement like the following. In reply to frequent inquiries we will add that these figures, of course, do not include overland receipts or Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the out-ports.

RECEIPTS FROM PLANTATIONS.

Week Receipts at the Ports.		St'k at Interior Towns.			Rec'pts from Plant'ns.				
ending-	1880.	1881.	1882.	1880.	1881.	1882	1880.	1881.	1882.

** 80	17,057	20,602							2.012
July 7	14,070				1				
22-11-11	. 4.11001								

The above statement shows—1. That the total receipts from the plantations since Sept. 1, in 1881-82 were 4,629,744 bales; in 1880-81 were 5,757,210 bales; in 1879-80 were 4,922,646 bales.

2. That, although the receipts at the out-perts the past week were 8,142 bales, the actual movement from plantations was only 753 bales, the balaace being taken from the stocks at the interior towns. Last year the receipts from the plantations for the same week were 19,811 bales and for 1880 they were 4,404 bales.

Amount of Cotton in sight July 14.—In the table below we give the receipts from plantations in another form, and add to them the net overland movement to July 1, and also the takings by Sonthern spinners to the same date, so as to give substantially the amount of cotton now in sight. We shall continue this statement hereafter, bringing it down to the close of seep week. of each week.

	1881-82.	1880-81.
Receipts at the ports to July 14bales. Interior stocks in excess of Sept. 1 on July 14.	4,639,715 *9,971	5,722,045 35,165
Total receipts from plantations Net overland to July 1 Southern consumption to July 1	4,629,744 464,336 229,000	5,757,210 509,799 195,000
Total in sight July 14	5,323,090	6,462,009

^{*} Decrease from September 1.

*Decrease from September 1.

It will be seen to the above that the decrease in amount in sight onlight, as contact with last year, is 1,138,929 bales.

Weather of Pars by Telegraph.—The weather conditions have in general been very favorable during the past week, and the crop is developing finely. Picking has been commenced in the southern half of Texas.

Galveston, Texas.—We have had a light shower on one day of the past week, the rainfall reaching seven hundredths of an inch. The northern half of the State has had good rains during the week, and all crops are very promising; the southern half have had only trifling showers, and crops of all sorts are suffering badly. Picking is beginning in southern half. The thermometer has averaged 83, the highest being 91 and the lowest 75.

the lowest 75.

Indianola, Texas.—It has drizzled on one day of the past week, the rainfall reaching but two hundredths of an inch. We are needing rain. Picking has begun. First bale new cotton was received here on the seventh, and shipped to Galveston. The thermometer has ranged from 77 to 93, averaging 81.

Ing 84.

Dallas, Texas.—On three days of the past week we have had beneficial showers, and indications are that they extended over a wide surface. The rainfall reached three inches and sixteen hundredths. The corn crop is safe, and cotton is doing splendidly. Average thermometer 81, highest 98 and lowest 64.

Brendage Texas. The results

doing splendidly. Average thermometer 81, highest 98 and lowest 64.

Brenham, Texas.—The weather has been warm and dry during all af the past week. Most sections need rain. The thermometer has averaged 87, ranging from 71 to 102.

Palestine, Texas.—We have had delightful showers on four days of the past week, which have extended over a large surface. The rainfall reached two inches and eight hundredths. All crops are doing as well as possible. The thermometer has ranged from 66 to 98, averaging 82.

Huntsville, Texas.—We have had warm and dry weather during all of the past week. Rain is badly needed, and crops of all sorts are suffering. Average thermometer 86, highest 100 and lowest 71.

Weatherford, Texas.—We have had rain on one day of the past week, which has benefitted a large surface. The rainfall reached two inches and thirty-two hundredths. Corn is out of danger and cotton is flourishing. The thermometer has averaged 81, the highest being 97 and the lowest 65.

Belton, Texas.—It has rained on one day of the past week, the rainfall reaching, fifty-three hundredths of an inch. The rainfall was insufficient and more is needed. Otherwise crops are promising. Average thermometer 84, highest 100 and lowest 67.

Luling, Texas.—We have had a light shower on one day of the past week.

Luling, Texas—We have had a light shower on one day of the past week, but more is wanted. Picking has been commenced. The thermometer has ranged from 64 to 100, averaging 82.

New Orleans, Louisiana.—It has rained on five days of the past week, the rainfall reaching two inches and six hundredths. The thermometer has averaged 80.

Shreveport, Louisiana.—We have had cloudy weather during the past week, with heavy rains and gales on the 11th and 12th. The rainfall reached three inches and seventy-eight hundredths. The thermometer has ranged from 67 to 98.

Vicksburg, Mississippi.—Telegram not received.

Columbus, Mississippi.—It has been showery on three days of the past week, the rainfall reaching thirty-eight hundredths of an inch. The thermometer has averaged 81, the highest being 95 and the lowest 68.

Little Rock, Arkansas.—The weather has been more or less cloudy all of the past week, with rain on four days. The rainfall reached one inch and fifty-seven hundredths. Average thermometer 75, highest 87 and lowest 63.

Memphis, Tennessee.—It has been showery on five days of the past week, The thermometer has averaged 77, ranging from 68 to 87.

Nashville, Tennessee.—It has rained on two days of the past week, the rainfall reaching one inch and thirty hundredths. The weather has been too cool. The thermometer has ranged from 64 to 91, averaging 77.

Mobile, Alabama.—We have had delightful showers on six days of the past week, and the indications are that they extended over a wide surface. The rainfall reached one inch and twenty-nine hundredths. The crop is developing promisingly. We hear rumors of the appearance of caterpillars, but think them of very little importance. The then nometer has averaged 77, the highest being 91 and the lowest 66.

Montgomery, Alabama.—The early part of the past week was clear and pleasant, but during the latter portion it has been rainy on three days. The rain extended beneficially throughout the interior. Crop accounts are more favorable. The fields are clear of weeds and the plant looks strong and healthy. The thermometer has ranged from 65 to 94, averaging 79, and the rainfall reached four inches and seventy-one hundredths.

Selma, Alabama.—We have had

hundredths.

Selma, Alabama.—We have had rain on two days of the past week, the rainfall reaching two inches. The crop development is encouraging. The thermometer has averaged 77.

Madison, Florida.—We have had rain on two days of the past week, and the remainder of the week has been pleasant. Crop reports are less favorable. Good progress is being made in clearing the fields of weeds. There is some complaint that bolls are dropping badly, and that the bottom crop will be poor. The thermometer has averaged 83, ranging from 72 to 94. poor. 94.

**Macon, Georgia.—It has been showery on three days of the ast week. The thermometer has ranged from 60 to 76, aver-

aging 87.

Columbus, Georgia.—It has rained severely on one day of the past week, the rainfall reaching one inch and sixty-five hundredths. Average thermometer 80, highest 92 and lowest

Savannah, Georgia.—We have had rain on three days of the past week, and the remainder of the week has been partially cloudy. The rainfall reached thirty-five hundredths of an inch. The termometer has averaged 81, the highest being an inch. The thermo

91 and the lowest 67.

Augusta, Georgia.—We had heavy rain on three days during the early part of the past week, but the latter portion has been clear and pleasant. The rainfall reached one inch and five hundredths. The crop is developing encouragingly and accounts are favorable. The thermometer has ranged from 62 to 93, averaging 79.

Atlanta, Georgia.—Telegram not received.

Charleston, South Carolina.—We have had light showers on three days of the past week. The thermometer has averaged 81, ranging from 69 to 92, and the rainfall reached seventy-six hundredths of an inch.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 3 o'clock July 13, 1882, and July 14, 1881.

	July 1	3, '82.	July 1	4,'81.
			Feet.	Inch.
New Orleans Below high-water mark		10	6	6
Memphis Above low-water mark.	30	9	15	2
Nashville Above low-water mark.	7	11	Miss	
ShreveportAbove low-water mark.	10	8	Miss	ing
Vicksburg Above low-water mark.	40	5	27	10

New Orleans reported below high-water mark of 1871 until Sept. 9, 1874, when the zero of gauge was changed to high-water mark of April 15 and 16, 1874, which is 6-10ths of a foot above 1871, or 16 feet above low-water mark at that point.

New York Cotton Exchange. On Monday next, July 17, the application for membership of the senior of a Liverpool house will be voted on. Another application is made by a partner of a Havre firm with a branch at New Orleans, and one member of the Exchange has posted his intention to transfer his seat.

A counter petition was signed yesterday requesting the Beard of Managers not to act on the petition referred to on June 24. The latter recommended an amendment of the Commission Law so as to restrict the right to selicit business to members of the Exchange, and not to allow salaried agents to act in that capacity. The counter petitioners consider such a change, in addition to other objections, not only to be unfair, but also unconstitutional. The question will, no doubt, be submitted to the decision of the members of the Exchange, when it will require a two-third vote to carry the amendment.

The following were introduced this week as visitors to the

Exchange:

Rxchange:
J. S. Hipkins, Baltimore,
J. G. Bryce, North Carolina.

THE AGRICULTURAL DEPARTMENT'S JULY REPORT. -The following statement, showing the condition of cotton, was issued

by the Department of Agriculture, July 10.

by the Department of Agriculture, July 10.

The statistical returns of the Department of Agriculture for July, which are very full, show that cotton has improved since the first of June, its average condition being three points better on the first of July. From Virginia to Georgia and west of the Mississippi every State shows higher figures. From Florida to Mississippi and Tennessee the condition has slightly declined. The general average is 92, which is higher than in July of 1873 and 1874, and lower than in any other year of the past ten. It was 93 in 1877 and 1879, and 95 last July. This condition is due to a late, wet spring, and is rapidily and generally improving under favoring skies.

to a late, wet spring, and is rapidily and generally improving under favoring skies.

The fighres for the several States are: Virginia, 85; North Carolina, 90; South Carolina, 98; Georgia, 92; Florida, 92; Alabama, 93; Mississippi, 87; Louisiana, 96; Texas, 97; Arkansas, 90; Tennessee, 78.

In Texas and South Carolina the condition is better than in July of 1881, and the same as at that date in Louisiana. The drawbacks reported are those of the past and are mainly deficient stands, slow growth and general backwardness; but there is a marked absence of present unhealthful condition. The returns are nearly unanimous in indicating a good degree of vigor and rapidity of growth. Thus far there is only a loss of time for development and fruiting. Future favorable conditions may make good the deficiency, but unfavorable weather in July and Angust would make a full crop impossible.

The June and July condition figures, compared with the

The June and July condition figures, compared with the June and July figures for previous years, are as follows:

States.	1882.		1881.		1880.		1879.		1878.

GALVESTON'S FIRST BALE.—Galveston received her first bale of this year's crop on Sunday, July 9. It was received by Messrs. Gust, Heye & Co., from C. H. Gruecke of Grueckeville, DeWitt County. The bale weighed 378 pounds; and was sold by auction at the Galveston Cotton Exchange on Monday for \$80 to Messrs. J. O. Symes & Co., and by them shipped to Messrs. Richardson & May of New Orleans. The first bale was received at Galveston last year on July 11, and came from De Witt County.

WITE FIRST TEXAS BALE.—The first bale of new Texas cotton, which was shipped from Houston on July 6, and consigned co Messrs. Latham, Alexander & Co. of this city, was sold at auction in front of the New York Cotton Exchange on Monday afternoon, July 10, at 19 cents per pound. It was purchased by Mr. Thomas Perkins, Jr., and shipped to Liverpool the following day per steamer Wyoming, of the Williams & Guion Line.

THE FIRST BALE OF GEORGIA COTTON.—Our correspondent at Albany, Ga., telegraphed us on July 11, as follows: "First bale of new cotton was received to-day by Ed. L. Wight from P. W. Jones, Baker Coun'y; sold to A. B. Westow for twenty cents per pound and shipped to Tolar, Hart & Co., New York." Last year the first bale of Georgia cotton was received at Macon, July 23; this is the earliest bale of cotton received anywhere in Georgia last year of which we have any record.

Viguria's First Broom.—The first bloom of this year's cotton

VIRGINIA'S FIRST BLOOM.—The first bloom of this year's cotton crop was received at Petersburg, Va., July 10, from the farm of Reuben Ragland, of Chesterfield County, near that city. The cotton crop in Virginia State is about a month late, and the stand is bad and irregular.

EUROPEAN COTTON CONSUMPTION TO JULY 1.—The cable brings us to-day Mr. Ellison's cotton figures brought down to July 1. The revised totals for last year have also been received, and we give them for comparison. The takings by spinners in actual bales and pounds have been as follows:

From Oct. 1 to July 1.	Great Britain.	Continent.	Total.
For 1881-82.			
Takings by apinnersbales	2,714,210	2,418,660	5,132,870
Average weight of bales	432	42i	427
Takings in pounds	1,172,538,720	1,018,255,860	2,100,701,580
For 1880-81.			
Takings by spinnersbales	2,425,190	2,323,150	4,748,340
Average weight of bales	450	432	441
Takings in pounds	1,091,335,500	1,003,600,800	2,094,936,300

According to the above, the average weight of the deliveries in Great Britain is 432 pounds per bale to July 1, against 450 pounds per bale during the same time last season. The Continental deliveries average 421 pounds, against 432 pounds last year, and for the whole of Europe the deliveries average 427 pounds per bale, against 441 pounds during the same period last season. In the following table we give the stock held by the mills, their takings and their consumption, each month since October 1, all reduced to bales of 400 pounds each for this season and last season. It is a very convenient and useful summary.

useful summary.							
Oct. 1 to July 1.		1881-82.		1890-91.			
Bales of 403 lbs. each. 000s omlited.	Great Britain	Conti- nent.	Total.	Great Britain	Conti- nent.	Total.

Total supply Consumption in Jan	413, 280,	487, 232,	900, 512,	386, 272,	342,	728, 490,	
Spinners' stock Feb. 1 Takings in February.	133, 283,	255, 242,	358, 525,	114, 289,	124, 313,	238,	
Total supply Consumption in Feb.		497, 202,	9i3, 512,	403, 270,	437,	810, 500,	
Spinners' stock Mar. 1 Takings in March	1	265, 337,	101, 755,	133, 335,	207, 310.	340, 645,	
Tetal supply Consumption in Mar.		602, 290.	1,156, 640,	466, 337.	517, 272,	985, 609,	
Spinners' stock Apr. 1 Takings in Aprii		312, 270,	516, 531,	131, 265,	245,	376, 528,	
Total supply Consumption in Apri	465,	582, 262,	1,017, 542,	396, 284,	508, 238,	904, 522,	
Spinners' slock May I	185,	320, 300,	505,	112,	270, 351,	382, 657,	
Total supply	490,	620, 236,	1,100,	418, 272,	621, 232,	1,039	
Spinners' stock June 1 Takings in June	200,	384,	584, 771,	146,	389,	535	
Total supply	576,	779,	1,355, 697,	443,	723, 290,	1,166,	
Spinners' stock July		445,	658,	103.	433,	536	

A more striking comparison with last year i reached by bringing together the foregoing totals, and adding the average weekly consumption up to this time for the two years.

Oct. 1 to July 1.		1881-82.		1880-81.			
Bales of 400 lbs. each. 000s omitted.	Great Britain	Conti- nent.	Total.	Great Britain	Conti- nent.	Total	
Spinners' stook Oct. 1. Takings to July 1	25, 2,931,	240, 2,545,	265, 5,476,	27, 2,728,	112, 2,509,	139, 5,237,	
Supply	2,956, 2,743,	2,785, 2,340,	5,741, 5,083,	2,755, 2,652,	2,621, 2,198,	5,376, 4,840,	
Spinners' stock July 1 Weekly Consumption.	213,	445,	658,	103,	433,	536,	
00s omitted.							
In October	70,0	58,0	128,0	66,0	54,0	120,0	
In November	70,0	58,0	128,0	66,0	54,0	120,0	
In December	70,0	58,0	128,0	68,0	54,5	122,5	
In January	70,0	58,0	128,0	68,0	54,5	122,5	
In February	70,0	58,0	128,0	68,0	54,5	122,5	
In March	70,0	58,0	128,0	67,5	54,5	122,0	
In April	70.0	59,0	129,0	68,0	56,0	124,0	
In May	70,0	59,0	129,0	68,0	58,0	126,0	
In June	71,0	0,00	131,0	69,0	58.0	127,0	

The foregoing shows that the weekly consumption in Europe is now 131,000 bales, of 400 pounds each, against 127,000 bales last season, and that the stocks at the mills both in Great Britain and on the Continent are greater than a year ago.

CONDITION OF COTTON.

NORTH CAROLINA.—The Henderson (Granville County) Gold Leaf, in a recent issue, says:

"Cotton has taken a fresh start and is coming out wonderfully." The census gave the county 2,535 bales.

A correspondent of the Wilmington Morning Star, writing from Magruder, Bladen County, says: "The cotton crop of that section is very fine and is very much larger than ever before, a great deal of it being over waist high. He sends a cotton bloom picked in S. B. Anders' field on June 25th. New Hanover has reported her first boil."

Both of these counties have been small producers of cotton, the census giving Bladen 683 bales and New Hanover only 66 bales.

BROOKS COUNTY, GEORGIA.—The Savannah Morning News received, July 7, from Mr. J. A. Johnston, of Grooversville, a boll of this year's cotton picked out of his cotton field in Brooks County, July 5. Accompanying the specimen is a note, which says "I have one hundred acres and plenty of cotton. This is the most forward cotton in this section. I will be picking by the 15th or 18th of this month."

The census year Brooks County raised 6.288 bales.

The census year Brooks County raised 6,288 bales.

LOUISIANA.—The Marksville (Avoyelles Parish) Bulletin, of last week, says:

"We have seen cotton bolls in the bayous this week. is more advanced this year than it has been for a long time, and with a favorable season the heaviest crop that has been made in years will be the result."

The census year Avoyelles produced 18,355 bales.

MISSISSIPPI .- A special from Vicksburg to the New Orleans Times-Democrat, dated July 7, says:

"Crops are reported to be excellent on the Tallahatchie River and on Big Deer Creek. An encouraging report also comes from nearly all sections of the country tributary to Vicksburg."

East Tennessee.—The Knoxville, Tenn., Tribune, received July 4, from Charleston, Tenn., the first cotton bloom of the season. The accompanying communication says that the cold, backward spring held the cotton crop in check for awhile, but the prospect is fair for a good yield. The acreage of the cotton crop is the largest ever known in East Tennessee.

Of course our readers know that this section only produces little cotton, and is no indication of the crop of Tennessee.

Texas.—(From the Galveston Daily News)—Paris, Lamar Connty, July 6.—"A fine rain fell all over the county a few days ago, and has assured the farmers of an excellent corn crop, which is already safe, and the prospect for a good cotton crop is now certain."

The census year Lamar County is reported as producing 24.154 bales.

Brenham, Washington County, July 4.—"Several bolls of opening cotton were received at the Banner office to-day, and the indications are that cotton picking will commence two weeks hence."

The census year Washington County was reported as pro ducing 20,692 bales.

COMPARATIVE PORT RECEIPTS AND DAILY CROP MOVEMENT. A comparison of the port movement by weeks is not accurate as the weeks in different years do not end on the same day of the month. We have consequently added to our other standing tables a daily and monthly statement, that the reader may constantly have before him the data for seeing the exact relative movement for the years named. The movement each month since September 1, 1881, has been as follows.

Monthly	Year Beginning September 1.							
Receipts.	1881.	1880.	1879. 1878.		1877.	1876.		
Bept'mb'ı	425,770	458,478	333,643	288,818	98,491	236,868

May	113,573	,	110,006	84,299	96,314	68,939		
June	68,679	131,871	88,455	29,472	42,142	36,030		
Totalyear			4,837,328	1,421,749	4,239,246	3,939,755		
Pero'tage								
receipts	June 30.	96.72	96.71	99.42	97.52	97.56		

This statement shows that up to June 30 the receipts at the ports this year were 1,060,794 bales less than in 1880-81 and 216.841 bales less than at the same time in 1879-80. By adding to the above totals to June 30 the daily receipts since that time

we shall be able to reach an exact comparison of the movement for the different years.

*				500 halas		

*A correction of previous receipts of 1,500 bales added.

This statement shows that the receipts since Sept. 1 up to to-night are now 1,078,926 bales less than they were to the same day of the month in 1881 and 223,765 bales less than they were to the same day of the month in 1880. We add to the table the percentages of total port receipts which had been received to July 14 in each of the years named.

INDIA COTTON MOVEMENT FROM ALL PORTS.—The figures which are now collected for us, and forwarded by cable each Friday, of the shipments from Calcutta, Madras, Tuticorin, Carwar, &c., enable us, in connection with our previously-received report from Bombay, to furnish our readers with a full and complete India movement for each week. We first give the Bombay statement for the week and year, bringing the figures down to July 13.

BOMBAY RECEIPTS AND SHIPMENTS FOR FOUR YEARS

	Shipme	ents thu	s week.	Shipments since Jan. 1.				Receipts.	
	Grcat Bril'n.	Conti- nent.	Total.	Great Britain	Conti- nent.	Total.	This Week.	Since Jan. 1.	
1882 1881 1880 1879	1,000	18,000	19,000	696,000 252,000 344,000 234,000	501,000 447,000	753,000 791,000	7,000	1,548,000 1,099,000 1,023,000 754,000	

According to the foregoing, Bombay appears to show an increase compared with last year in the week's receipts of 3,000 bales, and a decrease in shipments of 2,000 bales, and the shipments since January 1 show an increase of 502,000 bales. The movement at Calcutta, Madras, Tuticorin, Carwar, &c., for the same week and years has been as follows.

CALCUTTA, MADRAS, TUTICORIN, CARWAR, RANGOON AND KURRACHES.

	Shipm	ents this	week.	Shipments since January 1.			
Year .	Great Britain.	Conti- nent.	Total.	Great Britain.	Continent.	Totas.	
1882 1881 1880 1879	8,000 4,000 9,000	1,000 6,000	8,000 5,000 15,000	226,000 148,000 190,000 168,000	118,000 61,000 75,000 104,000	314.000 209,000 265,000 272,000	

The above totals for this week show that the movement from the ports other than Bombay is 8,000 bales less than same week last year. For the whole of India, therefore, the total shtpments this week and since Jan. 1, 1882, and for the corresponding weeks and periods of the two previous years, are as follows.

EXPORTS TO EUROPE FROM ALL INDIA.

Erioments	18	382.	18	381.	1880.		
to all Europe from—	This week.	Since Jan. 1.	This week.	Since Jun. 1.	This week.	Since Jan. 1.	
Bombay	17,000	1,255,000 344,000					
Total	17,000	1,599,000	27,000	962,000	15,000	1,056.000	

This last statement affords a very interesting comparison of the total movement for the week ending July 13 and for the three years up to date, at all India ports.

ALEXANDRIA RECEIPTS AND SHIPMENTS.—Through arrangements we have made with Messrs. Davies, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years.

	Alexandria, Egypt, July 13.	1881-82,	1880-81.	1879-80.	
	Receipts (cantars*)— This week Since Sept. 1	2,931,720	1.500 2.770,500	3,204,000	
i		This Since Scpt. 1			
	Exports (bales)— To Liverpool To Contluent	245,90 176,27		289.780 666 174,328	
I	Total Europe	422.17	1 395,303	666, 164,103	

- * A cantar is 98 lbs.
- No report.

This statement shows that the receipts for the week ending mly 13 were —— cantars and the shipments to all Europe July 13 were were — bales.

MANCHESTER MARKET.—Our report received 'r m Manchester to-night states that there is a fair inquiry, and that prices are unchanged. We give the prices of to-day below, and leave previous weeks' prices for comparison:

1	1882.		1881.			
32s Cop. Twist.	8 ¹ 4 lbs. Shirtings.	Mil. Upt is	32s Cop. Iwist.	8¼ lbs. Shirlings.	Ootl'n Mid. Up!ds

Shipping News .- The exports of cotton from the United States the past week, as per latest mail returns, have reached 33,141 bales. So far as the Southern ports are concerned, these are the same exports reported by telegraph, and published in the Chronicle last Friday. With regard to New York, we include the manifests of all vessels cleared up to Wednesday night of this week:

Below we give all news received to date of disasters to vesse is

Bellow we give all news received to date of disasters to vesse is carrying cotton from United States ports, etc.:

Wild Hunder, bark, from Savannah for Reval, via Boston, before reported, burned at sea. A schooner which arrived at Casno, July 5, from the Bauks, passed through a large number of baies of cotton on the lat inst., in the vicinity of Sable Island. A large quantity was being saved by the fishing fleet. As some of the bales were scorched, there is little doubt that the cotton is part of the eargo of the bark Wild Hunter, burned off Halifax a few days ago. Cotton freights the past week have been as follows:

	Satur.	Mon.	Tues.	Wednes.	Thurs.	Fri.

BREADSTUFFS.

FRIDAY, P. M., July 14, 1882.

Flour has advanced materially in sympathy with a rise in wheat, and a fair amount of business has been done. The lower grades are being utilized for feeding stock and the better grades have been more freely taken for export; patents have been selling quite freely. A large proportion of the receipts of clears, ordinary patents and of spring wheat brands generally are sonr however, and this is one of the most unfavorable features of the market. To-day trade was less active and prices, except for No. 2 and snperfine, were weaker.

Wheat has advanced with only a brief interruption, and large speculative transactions have taken place. The influences at work have been the breaking out of hostilities in Egypt, a steady advance in prices in London, and the wet, unfavorable weather in England. The closing of the Snez Canal would necessitate a return to the old voyage around the Cape of Good Hope for East Indian merchantmen, and, it is believed, would make Great Britain more than ever dependent upon the United States for her supply of cereals. Still the belief is by no means general that the trouble will be of long duration, and early in the week some of the bulls showed such anxiety to secure their profits on the recent advance, that prices dropped three cents in one day. This has since been recovered, and the three cents in one day. This has since been recovered, and the advance in options for the week is marked, especially in the later deliveries. The warm, favorable weather at the West, and the prospect of a good crop of winter wheat, if circumstances continue propitious for a week or two fonger, act as a drag on the upward movement, however, and a more conservative spirit has been manifest for several days. The export trade has been of fair magnitude, but the firmness of ocean freight rates and the moderate supply of suitable tonnage have been serious hindrances to business, while the limits of many of the exporters have been several cents under the current prices. It is stated that a considerable portion of the recent large shipments of wheat from this port was made by the bull clique in order to facilitate the accomplishment of the July corner which they are said to have in view. To-day prices July corner which they are said to have inview. To-day prices were 1c. to 2c. lower, with less speculation at the decline, though the export trade slightly increased. No. 2 red sold at \$1 281/261 291/2 for July, \$1 231/261 25 for August and September, \$1 241/261 251/2 for October and \$1 230/251 231/2 seller's option all the year.

seller's option all the year.

Indian corn has been firm most of the time for cash and July, as the shorts have been covering through fear of the bull clique here and at Chicago. At the same time the shorts have been selling the later menths owing to the warm weather at the West, which gives hopes of a more abundant crop than was recently anticipated, and owing also to a material increase in the receipts at Chicago. The weather reports have been sufficient to offset in a great degree the war news from Egypt, which,

however, has had the effect of restricting the decline of prices to about two cents per bushel. There has been less activity in the speculation than last week, and the export trade has been insignificant. To-day the market was dull and slightly lower; No. 2 mixed sold at 86%c. for August, 86%c. for September, 86%c. for October and 81%c. seller's option all the year.

Rye has sold moderately at an advance. Oats have been fairly active at some advance for white on the spot, and also in options, which the bulls have still largely controlled. To-day prices on the apot were firm for white. but slightly lower for mixed, while options were 1c. lower; No. 2 mixed sold at 61%c. for July, 51% @52c. for August, 48% @49c. for September and 48%c. for October. 61%c. for July, 51%4@5 and 48%c. for October.

THE DRY GOODS TRADE.

FRIDAY, P. M., July 14, 1882.

As a whole the dry goods market has been quiet the past week, owing, in a measure, to the uncomfortable warmth of the weather, which has caused many package buyers to take a brief vacation at the watering places, &c. There has, however, been a very fair business in a few specialties, such as soft wool dress goods and suitings, sackings, &c., which were opened in variety by manufacturers' agents, and the movement in staple cotton goods (on account of back orders) was larger than

is usually witnessed at this quiet stage of the season. The jobbing trade was rather slow, as generally expected, yet the order demand was probably in excess of the corresponding period last year, and the outlook is regarded hopefully. The tone of the market has greatly improved, and though values have not materially changed there is a firmer feeling, indicative of more remunerative prices in the not far distant future.

DOMESTIC COTTON GOODS .- The week's exports of cotton goods aggregated 3,414 packages, making a total of 80,214 packages since January 1st, against 75,894 for the same time last year and 56,296 in 1880. The principal shipments were made as follows: 2,000 packages to China, 508 to Great Britain, 437 to Brazil, 155 to U. S. of Colombia, 95 to Hayti, etc. The demand for cotton goods was steady, though chiefly of a hand-to-mouth character, and deliveries on account of back orders were continued on a liberal scale. Prices for cotten fiannels were made at about last July's quotations, save in the case of low grades, which are a trifle dearer because of the advance in the staple. Brown and bleached goods are not only steady in price, but some few makes have already been marked up about 1/4c. per yard, and colored cottons are firm but unchanged. Print cloths were less active, but firm at 3%c. for 64x64s and 3½035%c. for 56 x60s—the latter grades being in very light supply. The opening price for the best standard prints has been made 6½c., and there was a fair though not very active business in leading makes.

DOMESTIC WOOLEN GOODS -The feature of the woolen goods market has been a brisk demand for soft wool dress goods, and suitings, sackings, etc., for which very satisfactory orders were placed with manufacturers' agents. Colored flannels were also in fair request, and a considerable business in blankets was effected in some quarters. The demand for men's wear woolens was irregular, and the movement on account of former orders was less active, as agents have in some cases nearly completed their deliveries. Low grade cassimeres were mostly quiet, but there was a fair reassorting demand for fine and medium qualities. Overcoatings were in lessened demand, but choice cloakings have received a fair share of attention. Kentucky jeans ruled quiet, and doeskins were only in moderate request. Satinets were inactive as a rule, but repellents continued to move with a fair degree of freedom, and there was a little more inquiry for linseys by early buyers. Carpets were in moderate demand, and for the most part steady at current quotations.

Foreign Dry Goods—There has been little, if any, improvement in the demand for imported goods, and a renewal of activity in this branch, of the trade is not looked for until importers are fully prepared to open new fall styles. Staple market has been a brisk demand for soft wool dress goods, and

porters are fully prepared to open new fall styles. Staple goods have been rather more sought for by distant buyers, but business was strictly moderate in the aggregate.

Importations of Dry Goods.

The importations of dry goods at this port for the week ending July 13, 1882, and since January 1, and the same facts for the corresponding periods of 1881, are as follows:

Total at the port	Total Ent'd for cousumpt.	Wool Cotton Silk Flax Miscellaneous		Total on market	Fnt'd forconsumpt.	Manufactures of Wool. Cotton. Silk Flax Miscellaneous	W	Total	Silk Flax Miscellaneous	Wool Cotton			PA CHRISTNE
