TERMS OF SUBSCRIPTION-PAYABLE IN ADVANCE;

THE FINANCIAL SITUATION.

It would scarcely be correct to say that there has been no change this week in the aspect of affairs, when such a political revolution has been effected as the elections have produced. And yet as a disturbing influence these changes are of no account. To be sure, a few speculators attempted to use them for a day to further their plans in depressing stock properties, but their efforts met with trifling success, and would have miscarried wholly had not other circumstances aided them. In fact, this sudden, quiet, but positive substitution of one party for another, simply tends to strengthen confidence, as it gives new evidence of the power of the non-office-holding class, by their votes, to administer reproof when it is needed. The people have not changed masters, but have simply asserted their own sovereignty.

Aside from the interruption which a holiday must always cause to mercantile affairs, business has continued to progress favorably. Judged by the traffic returns of the railroads, which we publish elsewhere, the outlook is certainly very encouraging. There is an unusually large distribution of merchandise going on ; for although cotton is the only staple that is really moving freely, earnings extent helped produce this condition; but even allowing

show large increase, and when all products begin to move, as they must later on, and the canal is closed and rates are maintained, the income of the roads cannot fail to be satisfactory. It is not wonderful, therefore, that each decline in the market should bring in orders, domestic and foreign, for the purchase of choice stocks and bonds, giving assurance of a speedy recovery of values, except of such properties as are purely speculative.

The condition of the foreign exchange market, viewed in the light of the foreign trade movement, plainly indicates how considerable must have been the European takings of our stocks and bonds during late months. On another page we give our usual monthly review of the trade figures, but that the reader may be enabled at a glance to know the real situation, we have prepared the following summary for 1882, by months, omitting from all the figures 000s.

FOREIGN TRADE MOVEMENT OF THE UNITED STATES. (000s omitted.)

†Excess of imports. Excess of exports.

We here see that without allowing anything for interest due to Europe or for freights or for undervaluation of imports-the latter always an important feature under a protective tariff,-the simple trade figures show a balance against us every month since last January. To be sure, in September it had become almost nominal, and since then the account has undoubtedly turned in our favor. But back months left against us a large debt unpaid, an evidence of which was seen in the sterling loans which matured in London in October. Yet, notwithstanding such conditions as these, we have imported nearly a million gold in September and small amounts have been coming ever since. In fact, the normal condition of the exchange market for the past few weeks has shown that whatever balance was due to foreign countries at the end of the last fiscal year and subsequently, has been to a very great extent, if not wholly liquidated. This is well illustrated now by the circumstance that we are weekly receiving small amounts of specie from the West Indies, Mexico, and Europe. Of course the future bills on the market have anticipated exports and to that for these, there must have been a very considerable movement in securities to have brought the exchange market of to day into its present condition.

Starting, then, with our old balance settled for, with foreign exchange dull and heavy, with bankers' bills for securities in moderate supply and not unlikely to increase as our railroad properties by their earnings improve in value, and with large offerings of cotton bills, the conclusion would seem to be that we may anticipate not long hence a considerable influx of gold. To be sure, imports continue marvellously large, but these are being paid for in part by the movement in securites, while the present indications point to a good if not an increasing inquiry from abroad for all our food staples. It appears that early estimates of the crops in Western Europe were exaggerated, and late reports also reveal the fact that the weather since the harvest, has been very unpropitious for planting. In England the rains have been almost unprecedented, and the ground is soaked with water, so that preparations for the new crop cannot be made.

All these things tend to enhance prices for food and to ensure a good demand for all our surplus. The supplies at the Western centres are for the moment somewhat deficient by reason of the fact that the turnpike roads are heavy in consequence of the open season and frequen rains, thus preventing the farmers from marketing their grain and other produce. But the temperature may soon be expected to change, and as the wagon roads improve, the supply of grain will become more liberal, and the export movement be stimulated. Sterling exchange is even now very near the gold-importing point and it will require but a comparatively slight change in rates to make it profitable to move specie.

Then, again, active money here may exert an important influence upon the foreign exchanges. This week, Wednesday, money ruled at one time as high as 30 per cent, falling, however, in the afternoon of the next day to 2 per cent. This was undoubtedly in great part if not wholly due to speculative manipulation. Among the reports current on Wednesday was the absurd rumor that since the election had resulted so unfavorably for Mr. Folger, no effort would be made by him to relieve the money market in case it should become stringent. The suggestion that such a course might be pursued served to alarm the timid, and it had the desired effect so far as the speculators for a decline were concerned. But on Thursday afternoon the announcement was made that the Secretary of the Treasury had instructed the Assistant Treasurer in this city to redeem without rebate of interest bonds embraced in any call to the amount of \$5,000,000 each week until otherwise ordered, and it is probable that the decline in the rate for money was directly influenced by this order, for it indicated a purpose on the part of Mr. Folger to continue the policy he has always pursued of allowing government operations to interfere as little as possible with the money market. The particular call to which this order applies is the one maturing January 18 for \$15,000,000, although by the terms of the order it may apply to any future calls unless rescinded. Probably the Treasury Department will issue another call in a few days to mature in February. The domestic exchanges at interior points show a decline at Chicago and St. Louis, indicating a renewal of the demand upon this centre for money, but at New Orleans the rate has advanced, showing less urgency for funds. The Treasury operations for the week, making allowance for such items as do not affect the banks, havo resulted in a gain, which is a loss to the banks, of \$730,037 18 The interior movement has been as follows.

Receipts at and Shipments from N.Y.	Received.	Shipped.
Currency	\$1,016,600 34,000	\$1,680,000 335,000 100,000
Total	\$1,080,000	\$2,135,000

The Bank of America paid out \$1,400,000 gold on account of the associated banks during the week.

Last week's bank statement was doubtless made up on declining averages. This week's return will be made up on rising averages, as the Treasury paid \$2,293,400 for called bonds yesterday. Considering these facts, the following will indicate the character of to day's exhibit.

	In/o Banks.	Outof Banks	Nel Loss.
Sub-Treasury operations, net Interior movement			
Total	\$1,080,000	\$2,865,037	\$1,785,037

As may be gathered from what has been already said, the stock market was again unsettled this week. The influences which have been acting are various. Much speculation has been indulged in, as to the attitude of Mr. Gould with regard to the market. Ho has for a long time been reported as operating to depress pries. This week some events have transpired apparently adverse to his interests. For instance, he has been defeated in his efforts to secure a majority representation in the board of directors of the Metropolitan Elevated Railroad Company. This want of success it was argued would indispose him to take a very active part in the stock market, especially in the direction of higher figures, and therefore the speculators for a decline were almost certain that he would not interfere with their plans. Their most determined opponents were the supporters of the Vanderbilt who until Thursday morning pretty properties, steadily supported the price of their favorites. for a fall could not Of course the speculators hope for entire success in their plans unless they could succeed in breaking down these barriers; and therefore, notwithstanding the manipulation of money on Wednesday, the market did not become demoralized until Thursday morning, when, to the dismay of margin speculators, Lake Shore suddenly broke under circumstances which led to the conviction that the support had been withdrawn. The speculators for a decline took advantage of the breach they had made, energetically pressed the Vanderbilt and other stocks, circulated disquieting rumors and apparently were on the eve of a great victory when the decline was checked by the stubborn resistance shown by the Wabashes and by a determined rally in the Vanderbilt properties. Early in the afternoon the market was turned upward, the recovery being aided by the announcement of the continuation of the recent policy of the Secretary of the Treasury as to anticipating the payment of called bonds; speculators for a rise took courage and the subsequent advance was almost as rapid as had been the decline in the morning. Yesterday the market was variable and feverish, with frequent fluctuations in prices, but for most stocks the close was not materially different from the opening.

The movements in the market have been, as will be seen by the above sketch, in great part the result of speculative manipulation. Louisville & Nashville was directly affected by the announcement that a portion of the new stock of the company has been sold and will be immediately delivered. Western Union has been influenced by the decision respecting the consolidation of the telegraph companies, the threatened opposition of the Mutual Union, added to the rumor on Thursday that the Baltimore & Ohio was negotiating for a control of the latter; and to the fact that the money necessary for the construc-

OVEMBER 11, 1882.]

tion of a new ocean cable had already been subscribed. Erie has been affected by the report that the Grand Trunk of Canada was negotiating with the New York West Shore & Buffalo for a New York connection, and the Northern Pacifics were broken down on Wednesday and Thursday on the theory that the new Congress would take measures to annul the land grant, speculators apparently ignoring the fact that at the present rate of progress the road will most likely be so far completed before the new Congress can convene, that it will be beyond the power of that body, even if it had the disposition, to interfere with the grant. The following table shows relative prices in London and New York at the opening each day for leading securities, indicating the profit in cable transactions.

• Expressed in their New York equivalent. • Reading on basis of \$50, par value.

The Bank of England rate of discount remains unchanged at 5 per cent. The Bank gained $\pounds 94,000$ bullion during the week, but the cable reported a withdrawal on balance of $\pounds 47,000$ on Thursday. The proportion of reserve to liabilities was increased 3 5-16 this week. The return of the Bank of France shows an increase of 3,100,000 francs gold and a decrease of 2,600,-000 francs silver. The Bank of Germany since last report has gained 6,000,000 marks. The following indicates the amount of bullion in the principal European banks this week and at the corresponding date last year.

THE WEEK'S ELECTIONS.

The one engrossing topic of the past few days has been the result of Tuesday's elections, which is surely wonderful enough to be engrossing. That the tidal wave of political reaction, which began in Ohio in October, should sweep across the country, is not so remarkable, because this had occurred before; but that it should be so emphatic, even parting Massachusetts from her political moorings, and giving as Governor to that staid old Com-

monwealth, the man who has for many years been the bugbear of her respectability, is more than a nine days' wonder; while the majority in this State, closely approaching 200,000, is something utterly without a parallel in the history of popular elections and may be called truly phenomenal.

The causes which have worked so violent a revulsion throughout the country are not distant. It is not too much to say that their result, except in its extent, was discounted and foreseen by the most inteiligent observers weeks ago. And yet, when we examine what the causes were, we are met by unusual conditions. "When the crib is low the animals kick," says a proverb. In hard times, with wages low and work hard to find, dissatisfaction with the powers that be is easily stirred and is not always reasonable. The discontented man fancies that some good may come out of a change and feels sure that he will not be any worse off ; even the far back Long Island fisherman, when fish won't bite, unconsciously favors a change in the government. Hence, an "opposition" sweep was natural and intelligible in 1874, 1876, or even 1878; but the country is prosperous now-how is it, then, that we are to explain it?

Whoever turns his thoughts back over the record of governmental doings for, say, two or three years, can see much which should disturb even a busy and a patient people. What doubt can there be that the country thrives and grows in spite of the government for which it pays so profusely? The number of men in Congress who are really possessed or actuated by a feeling of official obligation and responsibility, may, we fear, be counted without taxing the arithmetic of the finger ends. Of the subjects which have really demanded attention from Congress, how many have had it? Of the measures which the public interest required to have passed, how many have been? On the other hand, is there not a dreary list of things done which ought not to have been done-things untimely, uncalled for, stupid, profligate, corrupt, vicious, and pregnant with the power of perpetuating their own baleful kind? Is it not soberly true that Congress, and legislatures generally, have ceased to adequately and really represent the substantial elements which comprise the people? The question seems absurd at first glance, and yet we must admit that if this were not true-that is, if the people were not better than the men who somehow are sent to the Capitals to represent them-the order of society would break down.

Consider the long tampering with the subject of currency. Consider the persistent and defiant refusal to relieve the country from suffering further the slow but sure operation of the silver lunacy; and, on the contrary, the attempts to force silver upon the banks. Consider the coercive attempt in the Carlisle amendment ; the preposterous bills to prohibit certification of checks; the unconcealed desire to punish the banks for adhering to sound money; the doctrine that national banks are "creatures of the government" and become fit subjects for discipline if they demur to whatever the moralists in Congress see fit to portion out to them, coupled with the other doctrine that, as pets of the government, they are monopolists devouring the people. Consider, on the side of sins of cemmission, such work as that of the pensions bill, which simply goes beyond the power in language to fitly and calmly characterize it. As a sin of commission and omission combined, consider the overslaughing of revenue reform and tax reduction, and the sleeping tariff commission ; the remedy for excessive surplus as found in increasing profligacy, not in diminished revenues.

It is quite true, and only just to admit, that the fault for these sins is pretty evenly to be distributed. But the party

in power is the one held responsible. The form of elections does not yet permit the people to express, in so many words, approval or disapproval of men and measures; they can thunder displeasure by a vote adverse to the dominant party, and let it find those at whom it is aimed. This election no more means approval of the non-dominant party than it ensures the success of that party in 1884 ; it expresses displeasure only. In the lack of a third party coming forward with apparently clean hands, the people can only say to the responsible party, "We want no more of you, at any rate, until discipline has chastened you." This is an assertion of the old-fashioned but now almost overslaughed doctrine, that legislation is not merely a scramble for spoils, but that the public interest should be thought of sometimes. It is a broad hint, perhaps, that the party with a positive policy, which is determined to stick by that policy and to go on record to stand or fall on it, is the party which the people will prefer. It is an expression of disgust at the rottenness of platforms and the insufficiency of names without principles. It is a clear demand for better ends to be pursued than office keeping or office-getting, and a call for something more than spoilsparties. It is a blow at the most destructive of all forces in a popular government, to wit, the deep rooting of a system under which a few professional manipulators, through the polls, the convention, the local convention, the "primaries," and back to "the slate," are able to "fix things," leaving the people only the mockery of ratification, under the alternative of no alternative. Viewed in this way-and in no other way can it be reasonably viewed-the result must work out a healthy lesson.

OUR FOREIGN COMMERCE.

Again we have a trade statement with an unfavorable The figures of our foreign commerce for balance. September have been issued by the Bureau of Statistics this week, and they show that in September, as in the previous months, our merchandise imports exceeded the exports. It is to be observed, however, that the excess of imports is small-only \$681,961-and that in this particular therefore the exhibit is more encouraging than its immediate predecessors. September is the eighth successive month that has recorded a balance against us, but for May the excess of imports was over 19 millions, since which time it has been gradually growing smaller, having been only three millions in August, and having now, as stated, been reduced to but little over half a million for September. The adverse balance for the latter month is wholly the result of our extraordinary imports, which are maintained on a scale of unprecedented magnitude, the exports being fairly large for the season in view of the heavy contraction in special commodities. The following will show the import and export movement at each of the eix leading ports.

EXPORTS AND IMPORTS OF MERCHANDISE AT U. S. PORTS.

The imports, as will be seen from the foregoing, are not

[VOL. XXXV.

quite as heavy as in August, but there was a similar relation between the corresponding months of 1881; still the total for September this year is over 74 millions above that of September last year, which shows clearly how heavy the movement really is. Imports of 63¹/₄ millions-or 760 millions a year-will certainly not be considered otherwise than large in any month; yet for the last seven months they have averaged considerably more, and for the twelve months ended September 30 the aggregate is \$103,899,641 above that of the corresponding period in the previous year. This is the more surprising when we remember that during these same twelve months our exports fell off pretty nearly 150 millions-to be exact, \$148,491,458. Thus in the face of a most remarkable decline in the shipments of domestic products and consequently in our purchasing power, we have managed to spend more money than ever before for foreign goods.

Such being the condition of things, one naturally expects to see increasing stocks of goods in the warehouses, but this expectation is not borne out by the facts. There is no excessive accumulation of goods in bond. In our review of August we noted a decrease of four millions in the stocks remaining in warehouses, from \$38,268,715 at the end of July to \$34,334,523 at the end of August, and now we note a further reduction to \$31,050,684 at the end of September. During these months of last year, our imports being smaller, the reduction in stocks was somewhat larger, so that on the 1st of October this year we had \$2,722,875 more goods in warehouses than at the same date in 1881; but the increase is not sufficiently large to merit particular significance.

Thus we see that large exports, exceptional prosperity, and may we not add inflated currency, have wonderfully stimulated our consuming power and introduced an en. tirely new element in our foreign trade movements and one which must materially modify all previous calculations. Were this year's crops, like those of last year, a failure, there would be no reason to doubt a speedy export of gold in such quantities as to enforce economy. But with crops excellent in quality and more than ordinarily large in quantity, and every prospect of finding a market for them, the danger of gold going out is averted for the time being, and therefore although imports may not continue so large as they have averaged during the last seven months, we cannot anticipate a return at present to the smaller figures of recent years.

But if as regards imports the September statement is unsatisfactory, it is not without its favorable features. We have above alluded to the smaller balance against us than in the preceding months. There are two other particulars in which the exhibit is encouraging. We refer to the fact that for the first time in thirteen months the merchandise exports show an improvement on the preceding year, and to the further fact that during September, strange as it may seem, we imported more gold than we exported. As to the merchandise exports, the increase over the previous year is only \$165,720, but is noteworthy all the same, and this for the reason that while the shipments of wheat and flour were undoubtedly large, the outward movement of all other leading staples was very restricted indeed. Of cotton we sent only 140,496 bales, against 195,101 bales in September, 1881; of corn only 623,597 bushels (valued at \$463,375), against 4,095,111 bushels (valued at \$2,914,-307), and the value of our provisions exports fell from \$9,695,218 to \$7,453,784. But the gain in wheat and its product, flour, was sufficient to wipe out the loss on these items, and leave a slight increase bosides. With such a

result under such conditions, it is not too much to expect still better exhibits when, as in October, cotton goes out freely, and larger exports later on, when in addition to cotton we will have corn and possibly also increased amounts of provisions to ship abroad. With the approach of this period, too, the probability of gold shipments to this country becomes less problematical, and this brings us to the other particular in which the September exhibit is noteworthy, namely, the excess of gold imports over the gold exports.

Our gold imports, which began on an important scale in 1879, continued with but little interruption till January, 1882. With that month the movement ceased, and with February it was reversed. Since that time we have exported more or less gold each month, as much as 34 millions net in the aggregate ; but in September the tide seems to have turned. Stated briefly, we shipped only \$205,405 domestic and \$24,444 foreign gold during September, or \$229,-\$49 altogether, and received \$1,135,799, leaving the net import \$905,950. The explanation of this change in the specie currents is to be found not in the trade movements -for of merchandise and coin for the three months ended September 30, we imported \$7,127,704 more than we exported-but in the large amounts of future bills drawn against anticipated shipments of merchandise later on, and in the movement of securities to Europe, which would again appear to be in progress to some extent. Though the trade figures do not warrant it, gold arrivals of importance might even yet be possible before the end of the year should securities go out in any quantity.

A few words as to the merchandise movement at individual ports. As will be seen from the table above, New Orleans again has an increase, and as in August the increase is due to an augmented breadstuffs movement. That port, which last year lost heavily in its breadstuffs exports because of the deficient grain production, is again looming up as an exporting port for this staple. Baltimore also is largely increasing its breadstuffs exports, which is very natural considering that it is largely depend. ent upon the production of the Ohio Valley, so excellent this year and so poor last year. San Francisco, on the other hand, has smaller exports than a year ago, the reasons for which we gave in our last review. The following exhibits the breadstuffs and provisions movement at each port.

we have already remarked upon the small shipments of corn and the heavy shipments of wheat and flour during October. The decrease in corn becomes especially marked, however, when we look at the aggregate for the nine months. During that period this year we shipped less than eleven and a half million bushels, while in the same time last year we shipped over sixty-one million bushels, a loss of pretty nearly fifty million bushels. Following is our usual table giving full particulars.

It is probable—nay certain—that September is the last month that will show an excess of merchandise imports over exports. The downward movement has run its course, and a change has already taken place. This is not so evident from the New York figures, but it is to be remembered that at this period of the year New York does not hold the same relative prominence in the export trade as at other periods. The Southern ports do a large export trado in cotton in the autumn, while some of our neighboring ports ship freely of breadstuffs. However, the New York totals are the only figures we have got, and with proper allowance they may be made to answer our present purpose. Hence we give the following table, showing the imports and exports at the port of New York for four weeks of Octoher this and last year.

MPORTS AND EXPORTS AT NEW YORI	MPORTS	AND	EXPORTS	AT NEW	YORK
--------------------------------	--------	-----	----------------	--------	------

Imports.	1882.	1881.	Exports.	1882.	1891.
" 27	8,181,793 8,946,718 10,188,767 7,657,733	8,411,665 10,214,552	Wk. end'g- October 10 "17 "24 "31	6,592,524 6,109.988 8,086,939 5,855,520	6,590,674

It will be seen from this statement that while the imports still continue in excess of those of last year, the exports are also beginning to show an increase. But even with this improvement in the exports, if New York should bear the same relation to the entire movement of the United States as in September—namely, 51½ per cent of the exports and 69½ per cent of the imports—the total exports would be but little above the total imports of the country. As said, however, these percentages offer no guide as to the October ratios. Not only is the export movement outside of New York heavier, but the imports also are heavier, though in the latter the gain in percentage is not so great as in the former. Last October New York had less than 41 per cent of the exports (against 511 above for September this year) and 651 per cent of the imports (against 691 for September). Going back to October, 1880, we find that in the imports New York had almost precisely the same proportion as in October, 1881, but that in the exports it had about 3 per cent more, or 444 per cent. We may safely calculate the October imports on the basis of 651 per cent. As to the exports, we think the percentage this year will be above 41 per cent-this because the cotton movement is so largely represented in the New York total. The cotton exports were very heavy in October this year, no less than 516,310 bales going out, against 387,321 bales in October, 1881, an increase of 128,989 bales. But of this increase 61.697 bales was at New York, the exports from this port being 105,249 bales, against 43,552 bales. Thus New York had over me-fifth of the whole cotton movement this year, against only about one-ninth in 1881. Consequently, we conclude that 41 per cent is too low for New York's percentage of the total merchandise exports, and therefore fix it at 43 per cent. On this basis the New York figures above, enlarged so as to cover the full month instead of only four weeks, would give total exports for the whole country of about 68 millions. The imports at 654 per cent would give somewhat less than 60 millions total imports. So it would seem that October will inaug urate the change from a monthly balance against us to a balance in our favor, in the substantial sum of about eight million dollars.

REPORT OF THE TARIFF COMMISSION.

We have received the following communication from a leading manufacturer, a typical one in New England. It expresses the views, not of a theorist, but of a busy, practical man-a student of men, things and events-one of a large class, rapidly increasing. Congress may for a time ignore the growing sentiment to which this letter gives expression, but it is becoming a power too strong to be resisted, and the party that attempts it will be pushed aside. To the Editor of The Chronicle-

The report reaches us from all quarters that the Tariff Commission will recommend no important changes in the rates of duty as now levied. We are forced to give some weight to a report so current and so unani-mous, and we do so with the greatest reluctance and regret, because if such shall be the result of the six months' labor of the Commissioners it will prove that they are simply the agents of the various rings in whose interest the present tariff was made, and by whose operation the industry of the country is to-day hampered.

No honest and intelligent mon can give a single day's attention to the tariff as it stands, and be prepared to defend the monstrous tax upon iron and steel, the effects of which are felt by every industry and every individual in the land. What excuse can there be for taxing salt in bulk a higher advalorem duty than champagne? For collecting nearly one quarter of the whole customs revenue from an essential article of food like sugar! For levying ous hundred per cent duty on rice qDo these duties protect the wages of laboring men? Laboring men want the essential articles of food, such as sait and sugar, as cheap as they are in other countries. Iron and steel, the raw material of all manufacturing industry, must not he excessively taxed for the benefit of its few producors.

If the Commission shall report in favor of continuing these duties if they shall endorse this tariff substantially as it now is as the best of all possible tariffs, the country will be confirmed in the present suspicion that the Commission is simply a ring of the rings, the

agents of interested parties, a part of the thing to be reformed. No doubt the large majority of the Commission will, with a smile, ac-cept this verdict and find nothing injurious to their established reputations in the fact that they have accepted a public trust and used it for special private becefit. But we have always believed that there was at least one gentleman of their number whose previous reputation would be tarnished by such an allegation, and we trust and believe that even if he should find himself alone, he will publish a minority report stating fairiy the iniquities and defects of the present tariff, and recommending such changes as the interest of the country at largo demands.

Yours truly, On the subject of labor referred to above, we have in the report of Mr. Shaw, our Consul at Manchester, some interesting suggestions. This report is in a pamphlet issued by the State Department upon the "Cotton and Woolen Mills of !

Europe." Mr. Shaw gives a letter of Mr. James Thormly of Manchester (who visited this country in 1879), in which is worked out the cost per pound of certain descriptions of cotton goods in England and at four centres of cotton manufacture in the United States. His figures we do not quite understand, but his result seems to be that the proportion per pound paid for wages in England is considerably more than it is here. This conclusion is in accord with the one reached some time since, we think, by Mr. Atkinson, and would seem to corroborate recent state. ments of a similar nature made by Mr. Carroll D. Wright. If the Tariff Commission would further investigate this question of wages, their report might be of no little use. The inquiry would necessarily take the double form of (1) the actual wages paid and (2) the decreased purchasing power of the wages, by reason of the tariff.

RAILROAD EARNINGS IN OCTOBER, AND FROM JANUARY 1 TO OCTOBER 31.

Railroad earnings continue to show a steady growth as the autumn season progresses and the crops move in greater volume. The October statement is peculiarly favorable, and in the extent and distribution of the increase which it records fully confirms the expectation that business and trade will be large and active during the fall and winter months. The gain on last October is over four million dollars, having gradually risen month by month since June last, when there was a small loss. The following table gives mileage and earnings of individua. roads.

The percentage of increase is 16, against 14 for September, 10 for Angust and 9 per cent for July. Out of the sixty-two roads in the table all but six have improved on 1881, and in the case of every one of these the decrease is scarcely more than nominal. All sections of the country appear to share in the improvement, though the Southwest and the Northwest have undoubtedly been especially favvored. The increase of 16 per cent this year was made on earnings of last year 11 per cent above those of 1880, and these were 17 per cent above those of 1879, which in turn were 25 per cent above those of 1878. Thus there has been a steady gain from year to year, and the large growth the present year is the more noteworthy for this reason.

Though the movement of grain was in the aggregate somewhat heavier than in 1881, it was far from large. In fact, wheat is the only kind of grain at present moving to any extent, the receipts of corn having dwindled to very small proportions, and the loss on that cereal more than offsetting the gain in wheat. Corn will probably not come forward in large amounts for some time yet, and until it does this will be an unfavorable element to many roads, especially to such as are not wheat-carriers. Owing to the very large and active general trade, it is not easy to detect the influence of this drawback. No doubt, the earnings of some of the roads running South from Chicago would have been still heavier except for the exhaustion of the old stock of corn in farmers' hands. That there should be an improvement on most of the corn-carrying roads despite the loss in this cereal, is a striking commentary upon the growth of traffic in those sections. Take, for instance, the Illinois Central. Not only on its line in Illinois, but more especially on its line in Iowa, is corn a very important item in its traffic movement; yet though it must, with other roads, have suffered heavily through the general shrinkage in the volume of this cereal going to market, the company is able to report increased earnings on both its lines, though the totals this year fall a trifle below those of 1880. It is only where a line is almost solely dependent upon this one cereal, that the effect upon earnings is easily discernible—as in the case of the Des Moines & Fort Dodge in Iowa. In Illinois the Peoria Decatur & Evansville must also have sustained quite a loss on this account, but the road records a small increase nevertheless. Peoria and Chicago, but more particularly the latter, are the points that have been most affected by the diminished corn movement, as the following table, giving the receipts of flour and grain at the eight principal interior towns of the West, will show.

RECEIPTS OF	FLOUR A	ND GRAIN	FOR	FOUR	WEEKS	ENDED	OCT.	28.
-------------	---------	----------	-----	------	-------	-------	------	-----

	Flour, bbls.	Wheat, bush.	Corn, bush.	Oals, bush.	Barley, bush.	Rye, bush.

* : ,034,645.

We here see that while Chicago gained two million bushels on wheat, it loat five millions on corn. Taking all the ports the gain in wheat is 6,091,056 bushels and the decrease in corn 6,451,522 bushels. But there were also gains in oats and barley, so that the total of all kinds of grain reaches 21,449,157 bushels for the four weeks this year, against 20,108,272 bushels in the corresponding weeks of 1881, an increase of 14 million bushels. In comparing with 1881, however, it must be remembered that the movement then was small-on wheat very small-and that an increase this year is only natural, therefore. If we go back to 1880 we will find that even wheat, which shows this year such a decided gain over 1881, was then moving in larger amounts and that consequently the present figures are not by any means exceptional. To bring out this fact we give below the totals of flour and grain for four weeks in October for the last three years.

-	Flour,	Wheal,	Corn.	Oals,	Barley,	Rye,
	bbls.	bush.	bush.	bush.	bush.	bush.
1881	843.357	10,642,810 4,551,754 13,303,399	9.862,121	3,131,630	1,800,233	762,534

Thus wheat falls pretty nearly three million bushels below 1880, while corn is over $9\frac{1}{2}$ million less, and oats fully 2 millions less; and the total of 21,449,157 bushels of all kinds of grain this year compares with 35,322,056 bushels in that year, a decrease of over one-third, or 14 million bushels. It is clear from this that while our grain movement is a little ahead of last year, it is still far behind 1880. The point is deserving of note, because of the steady rise in earnings on leading roads notwithstanding this fact. To show how heavily earnings have increased, not only over 1881 but also over 1880, we have selected and give below the figures of eight representative roads for October, 1882, 1881 and 1880.

Nams.	1882.	1831.	1880.
Burlington Cedar Rap & North. Chicago & Lattern Illinois. Chicago Milwankee & St. Paul. Chicago Milwankee & St. Paul. Chicago St. P. Miun. & Omaha. Illinois Central. St. Paul Minneapolis & Manitoba	865,325	\$221,748 771,844 156,837 1,591,052 2,341,093 379,029 815,238 605,708	\$204,990 783,199 130,891 1,493,620 2,105,217 342,052 880,211 345,057
	\$3,515,919	\$6,882,574	\$3,287,237

These figures demonstrate that the gain this year is not merely a recovery of what was lost last year on 1880. On the contrary, with two exceptions the roads all had larger earnings in 1881 than in 1880, and the increase in 1882 is therefore additional to the increase previously made. While the eight roads gain \$1,633,345. or 24 per cent, on 1881, they gain \$2,228,682, or 35 per cent, on 1880. The Illinois Central is the only road that has smaller earnings this year than in 1880, and its decrease is only nominal and accounted for by the tremendous contraction in the corn movement.

Next to the Northwestern roads, those in the Southwest are conspicuous for their heavy gains. In the case of these latter, the increase is not quite so large in point of amount, but almost as large in percentage, since it is based on smäller total earnings. The Gould roads have particularly heavy earnings, and to these the enlarged cotton movement in Arkansas and Texas must have been an element of importance. In fact, a larger cotton movement was also a factor with many other Southern roads, and as it is interesting to see what points gained most in this respect, we subjoin our usual table, showing the receipts of cotton during October at the Southern outports this and last year.

RECEIPTS OF COTTON AT SOUTHERN PORTS IN OCT., 1882 AND 1881.

Total.	952,786	811,483	Toe 141,303				

While this table makes it evident that a number of points had smaller receipts this year than last, it also shows that Galveston, Mobile, Savannah and Norfolk gained largely. The increase at the latter point probably served to swell the earnings of the Norfolk & Western, and also those of the East Tennessee Virginia & Georgia. The East Tennessee lately completed its extension from Rome to Macon, giving it, in connection with the Macon & Brunswick, which forms part of its system, a line all the way to Brunswick; but the new mileage does not count The Mobile & Ohio has in the earnings. 8. this time, small increase due probably to a slight gain in its cotton movement. The Louisville & Nashville records a very large augmentation in earnings, also brought about, no doubt, to a great extent, by the expansion in the volume of cotton traffic. This is evident from the receipts of that staple at Mobile. Of the increase of 27,870 bales at that port, it would appear that a very small amount only was contributed by the Mobile & Ohio, almost the whole of it coming either from the Mobile & Montgomery (Louisville & Nashville line) or from the Alabama and Bigbee rivers. We have not the figures for the month, but for the five weeks ended November 3 the Mobile & Ohio delivered at Mobile this year 31,867 bales, against 30,691 bales, or scarcely 1,200 bales more, while the Mobile & Montgomery delivered 34,413 bales, against 8,246 bales, an increase of over 26,000 bales. All the Texas roads-International & Great Northern, Texas & Pacific, Gulf Colorado & Santa Fe-have materially enlarged their earnings, under the heavy cotton crop in Texas and its free marketing as reflected by the great gain in the cotton receipts at Galveston. Richmond & Danville is doing very well, and so are the various lines embraced in the same system, like the Charlotte Columbia & Augusta, the Columbia & Greenville, and the Virginia Midland. The Chesapeake & Ohio is again conspicuous for its very decided gain over the previous year, and every other road in the South exhibits an increase greater or less in amount.

As to trunk-line traffic, our table does not embrace any of the great east-and-west lines, but we have several roads whose earnings are affected by the state of that class of business, and these all show somewhat better figures than a year ago. Among them may be mentioned the Lake Erie & Western, the Indiana Bloomington & Western, the Cincinnati Indianapolis St. Louis & Chicago, and the Chicago & Grand Trunk. The latter is the Chicago line of the Grand Trunk of Canada, and the increase on it is due in some measure to a greater passenger business, which indeed is true of almost all the roads that have come under our notice. But there is a large gain in freight, too. Of the total increase of \$61,655 on this line, \$34,003 was in freight-the remainder in passengers. Among Pacific roads, the Northern Pacific has its usual amount of increase, while the Union Pacific falls about \$10,000 below last October, when, however, the earnings were very large, having been over half a million above

too, were very large in 1881, so there is only a moderate gain this October. Central Pacific, like Union Pacific, shows a small diminution.

For the first 10 months of the year we have a gain on 55 roads of almost 32 million dollars, or about 16 per cent. Bearing in mind how short the crops of grain and cotton were last season, this is eminently satisfactory. There are but six roads with any diminution in receipts. The Northwestern roads lead in increase-the Chicago & Northwestern, the Milwaukee & St. Paul, and the St. Paul Minneapolis & Manitoba having pretty nearly 8 millions gain between them-and the Pacific roads come next, while the Louisville & Nashville is prominent in this respect among the roads in the South. In the extreme East, the New York & New England has more than half a million increase, while on the Pacific slope the Oregon Railway & Navigation has a gain of almost \$650,000. The following table gives the figures of individual roads.

Net increase..... * Three weeks only of October in each year. † January 1 to October 28. † Includes freight earnings only in Oct.

Net earnings for September are very much like those for August-very favorable in the main, with one or two prominent exceptions. Among the latter may be mentioned the Chicago Burlington & Quincy, which again records a decrease, though it is only \$13,815 this time, bringing its loss for the year, (to the 1st of October,) up to \$548,298, a part of which it is expected will be wiped out before the end of 1882. The Pennsylvania again has a large increase, and the company is now \$208,695 ahead of last year on the lines east of Pittsburg, though on the Western lines it is \$1,325,502 behind. The Northern Central added \$219,181 in September to its previous increase in net, making the total gain for the nine months but little less than half a million dollars. The Chesapeake & Ohio is another road that keeps rolling up larger net these of 1880. Atchison Topeka & Santa Fe earnings, carnings. For September it had \$125,061 this year,

against only \$65,563 the previous year, while for the current year to October 1 it has net earnings of no less than \$740,337, against only \$301,337 in 1881, a gain of \$439,000, or over 145 per cent. The excellent showing made during recent months by Louisville & Nashville, we discussed in a special article last week and need only allude to it now. The Denver & Rio Grande has begun to publish statements of net earnings, and for September reports a gain of \$72,000. We have not the figures for the first nine months, but an exhibit for the ten months to the 1st of November (October expenses this year being estimated) has been furnished us, according to which it appears that the total net for the period are \$2,257,037, against \$2,155,767 for the ten months of last year, an increase of \$100,000. The Rich-mond & Danville has also begun to give out reports of net earnings; for October its estimate is \$230,000, as against \$174,000 in 1881, a gain of \$56,000. For September the gain was estimated at \$11,000. The following table exhibits the gross and net earnings of all roads that will furnish monthly exhibits for publication.

IMPORTS AND EXPORTS FOR SEPTEMBER AND FOR THE NINE AND TWELVE MONTHS ENDED SEPT. 30, 1882.

[Prepared by the Bureau of Statistics and corrected to Oct. 28, 1882.] Below is given the third monthly statement for the current fiscal year of the imports and exports of the United States. The excess of imports or of exports of merchandise was as follows:

ALF VICT-
Month ended Sept. 30, 1882 (excess of imports) \$681,961
Month ended Sept. 30, 1881 (excess of exports)
Nine months anded Sept. 30, 1482 (excess of imports) 54,309,644
Niae months ended Sept. 30, 1881 (excess of exports) 121,171,904
Twelve months ended Sept. 30, 1832 (excess of imports) 12,141,869
Twelve months ended Sept. 30, 1331 (excess of exports) 240,249,230
The excess of imports or of exports of gold and silver coin
and bullion was as follows:
Month ended Sept. 30, 1882 (excess of imports)
Month ended sept. 30, 1881 (excess of imports) 10,199,565
Nice months ended Sept. 30, 1882 (excess of exports) 41,206,793
Nino months ended Sept. 30, 1881 (excess of imports) 37,629,100
Twelve months ended Sept. 30, 1832 (excess of exports) 29,508,431
Twelve months ended Sept. 30, 1851 (excess of imports) 77,320,263
The total values of imports and of domestic and foreign
exports for the month of Sept., 1882, and for the nine and

twelve months ended Sept. 30, 1882, are presented in the following tables :

	MERCHANDISE.

[From our own correspondent.]

LONDON, Saturday, Oct. 28, 1882. The money market continues in a very easy condition, and the rate for choice bills is not more than $3\frac{1}{2}$ per cent; but the Bank of England directors at their weekly meeting on Thursday decided on making no change in their published minimum. which is, consequently, still 5 per cent. So large a difference is to be regretted, and there are a few who contend that a reduction to 4 per cent might have been made this week ; but the majority seem to consider that the Bank authorities are justified in the policy they have pursued. Those, however, as far as I know, who support the course which is being adopted by the Bank directors were only a few weeks ago, when the rate was 5 per cent, contending that a 6 per cent rate, though not immediately necessary, should be at once adopted. The probable withdrawals of coin, in connection with the harvest and with augmented commercial engagements, together with a threatened demand for gold for exportation to the United States, were cited as causes justifying such a movement.

But those alarms have proved groundless; the provincial requirements for coin for harvest purposes have been scarcely perceptible. The improvement in our autumn trade, to the extent, certainly, that had been anticipated, has not taken place, and there have been no exports of gold to the United States. The 6 per cent rate of disconnt has not only, therefore, become entirely unnecessary, but the open market has been rapidly falling away from the official rate, until, as stated, a difference of as much as $1\frac{1}{2}$ per cent is observed. It is now said that a reduction in the Bank rate to 4 per cent is impracticable, as it would lead to an adverse movement in the exchanges, and gold would be speedily sent to New York, at least in sufficient quantities to create anxiety ; and it is also contended that the transmission of a moderate quantity of coin to Scotland for a brief period is a sufficient reason for allowing so great a discrepancy to exist between the official and the open market rates of disconnt. It is very clear, from present indications, that there is only little prospect of the value of money in the open market improving, and consequently, if the present abnormal condition of things is to be terminated, the Bank rate must be reduced.

If the existing Bank minimum of 5 per cent had any influence on the exchanges, the retention of the rate at that point could be justified; but exchange operations are not based upon theories but upon facts; and they are at the present time being calculated by comparison with the open market rate of discount, and not by the fictitions minimum of 5 per cent. If America was in the position to take gold from us, she could take it now, as money is very cheap in this country, but it is evident that our indebtedness to foreign countries is by no means great, and that the balance of trade is in our favor. On the other hand, the continuance of the Bank rate at 5 per cent. is undesirable for the reason that, as money in the open market is at so very moderate a point, many merchants are disposed to assume that the directors of the Bank of England view the future, if not with apprehension, at least not very favorably; and this is obviously calculated to exercise an adverse influence upon our trade-a result by no means to be wished for. It also gives the capitalists, that is to say the banks, an undue advantage in the very numerous small operations which are daily being arranged throughout the country. This is due to

the fact that small traders whose position is regarded as sound, and whose bills are approved, have, as a rule, to pay one per cent over Bank rate for accommodation. Six per cent, more especially when the open market rate of disconnt in London is only $3\frac{1}{2}$ per cent, is a very burdensome price to pay, and especially since profits in business are, owing to keen competition, small. The directors of the Bank of England will probably keep their rate of discount at five per cent until the return movement of coin from Scotland takes place, which will be towards the end of November.

There has been very little demand either for loans or discounts during the week. A "settlement" has been in progress on the Stock Exchange, but the inquiry for loans has not perceptibly increased, the rate at the banks and discount houses on the best security being only 2 to $2\frac{1}{2}$ per cent. Mercantile paper is still very scarce, and there is no prospect of any increase in the supply. The following are the present quotations for money:

- Per cen	11. 1	Open-market rates- Per cent.
Bank rate		4 months' hank bills 312 2358
Open-market rates-		6 months' bank bills 312 à 358
30 and 60 days' bills 3120		
3 months' bills $3^{1}y^{2}$		

The following are the rates of interest allowed by the jointstock banks and discount houses for deposits:

	cent.
Joint-stock banks	3
Discount houses at call	3
Do with 7 or 14 days' notico	214

The above figures show a reduction of $\frac{1}{22}$ per cent from those previously current, the low rates of discount in the open market necessitating a smaller allowance of interest on deposits.

There is no demand for gold for export, and only a few parcels of sovereigns have been sent to India. The importations have also been upon a small scale. Silver has been less in demand, and the quotation for fine bars is somewhat easier; but Mexican dollars are unchanged in value. At the sale of India Council bills on Wednesday, only a very small proportion of the £250,000 was disposed of at 1s. 7% d. the rupee. The following prices of bullion are from the circular of Messre. Pixley & Abell :

A feature on the Stock Exchange during the week has been that all securities of acknowledged soundness have been in demand, and their value has had an upward tendency. Consols have reached the high price of 1021/4, and the markets for Indian Government, Indian railway, Colonial Government and municipal government securities have been rising in value. An Indian railway loan, receiving the moral support of, but not guaranteed by, the Indian Government, introduced by Messrs. Bariog and Messrs. Rothschilds, has been rapidly subscribed. The undertaking is called the Bengal & Northwestern Railway Company, Limited, and the present issue is £1,000,000, being the unsubscribed portion of £2,200,000, the capital of the company. Interest at the rate of 4 per cent is to be paid out of capital; but the works are in an advanced state, and it is expected that, as the line runs through a fertile district, the company will soon become a dividend-paying concern.

Annexed is a statement showing the present position of the Bank of England, the Bank rate of discount, the price of consols, the average quotation for English wheat, the price of middling upland cotton, of 40 mule twist, fair second quality, and the Bankers' Clearing House return, compared with the three previous years:

The trade for wheat in the early part of the week, though quiet, was tolerably film in tone. Bad weather was cited as a reason for this partial firmness; but notwithstanding that the weather has become still more unpropitous, the trade closes with a very unsatisfactory appearance for producers. Our imports continued on a large scale, but as the exports from American ports have declined considerably, the supply estimated to be afloat to the United Kingdom is now only 1,630,000 week, compared with those of the preceding week, show an quarters of wheat and 150,000 quarters of flour. The supply of increase in both dry goods and general merchandise. The

Indian corn afloat is only 15,500 quarters. American mixed corn on the spot has been sold this week at 35s, and 37s, per quarter, but the price for February-March delivery is 27s. per quarter :

The London stocks of wheat and flour show a large increase over last year, the totals being as under:

	 1882.	1881.
Wheat, quarters	 	233,249
Flour, bushels	 25.060	5,868
Flour, sacks		93.752

The fall of rain during the past week has been exceedingly heavy-heavier, in fact, than for some years past. We have had some heavy gales, and the land throughout the country is so greatly saturated with water that farmers are unable to make any progress with ploughing and the sowing of grain. We have not, indeed, had so unfavorable an antumn season as the present, and it may therefore be concluded that the prospect at the present time is not very encouraging. With the average price of English wheat under 40s. per quarter, and with but a small hope of permanent improvement, the farmers' position cannot be regarded otherwise than as a serious ore. The improvement which seemed to be taking place has been checked, and from what quarter relief is to come is a very difficult problem to solve.

The following return shows the extent; of the imports of cereal produce into the United Kingdom during the first eight weeks of the season, compared with the corresponding period in the three previous years; it also shows the quantities of wheat and flour placed upon the British markets during the current and three previous seasons, the average price of English wheat for the season, the visible supply of wheat in the United States and the quantity of wheat afloat to the United Kingdom.

Of the above imports for the week in 1882, \$281,350 were American gold coin and \$3,384 American silver coin. Of the exports for the same time, \$3,512 were American nickel coin. Of the

California Southern,-This company issues the following circular :

CIRCULAR NO. 3.

CIĘCULAR NO. 3. BOSTON, NOV. 6. 1882. The road of this ecompany is now completed to Colton, a small station on the Southern Pacific Rk., 1274 miles from National City. The board have recently decided to extend the road at this time to San Bernardine, about five miles north from Colton. For the purpose of making this ex-tension, and to enable the company to extend its wharf to deep water, and to erect suitable sheds and other buildings for the storage and de-livery of cargoes, and to complete its machine shops and erect freight and passenger stations, it has been determined to raise the sum of \$117,600. This subscription is now offered to the stockholders under enquarks 1 and 2, each holder of fifty shares of stock being entitled to under the sums of \$500 or multiples thereof, and must be received at the office of the company, No. 70 Kilby Street, Boston, on or before Nov. 16, 1582. Any amount undaken by the stockholders on that day vo-the company.

FROPOSAL. For \$800 in cash, payable one fourth on alloiment, one fourth Dec. 15, 1882, one fourth Jan. 15, 1833, and one fourth Feb. 15, 1883, the California Southern Railvoad Company will deliver to subscribers eight shares of the full paid capital stock of the company, and one thousand doilars in its first mortgage bonds. THOMAS NICKERSON, President.

doilars in its first mortgage bouds. THOMAS NICKERSON, President. Danville Olney & Ohio River.—This company has com-pleted about 98 miles of road and is operating about 130 miles between the cities of Olney and Danville, entering Danville over tracks leased from the Chicago & Eastern Illinois Railroad. There are outstanding upon the road about \$775,000 of first mortgage bonds, and the company has a floating unsecured debt of about \$100,000. The company has been obliged to extend some of the floating debt by reason of the failure of the townships to pay the bonds which had been subscribed as local aid. In this condition of affairs the trustees under the mortgage, George Whitney, Darwin E. Ware and Charles R. Codman, of Boston, have deemed it best to place the road tem-porarily in the hands of a receiver, to be appointed by the United States Circuit Court. The company asked for the appointment of Mr. Maxwell, the General Manager, but there was opposition to this from Western creditors. North River Construction Co.—The stockholders of the

North River Construction Co.—The stockholders of the North River Construction Company are notified that a further instalment of ten per cent on their respective shares

(instalment No. 7) has been duly called by the board of direct-ors, and is now payable at the company's office, No. 15 Broad Street.

Teluantepec (Mexico).—The Mexican Financier reports that "the Minister of Public Works has just signed a contract with Mr, Delfin Sanchez, Superintendent of the Morelos R. R., for completing the railroad across the isthmus of Teluantepec. The road has been partly built by an American company, but was declared forfeited last August, as more fully referred to in our editorial columns. The Government has determined to com-plete the road, and Mr. Delfin Sanchez will at once proceed to the United States to purchase materials. The contractors bind our editorial columns. The Government has determined to com-plete the road, and Mr. Delfin Sanchez will at once proceed to the United States to purchase materials. The contractors bind themselves to adhere strictly to the plans already adopted; if modifications are deemed necessary, these must have Govern-mental approval. The work is to begin next November, and the entire road is to be completed on or before the last day of Feb-rnary, 1885." In commenting upon the subject editorially the *Financier* says: "The contract just closed by the Mexican Government for the completion of the Tehuantepee Railroad, as given in our railroad column, promises to be the end of a com-plicated and vexatious question, whose late issues have caused much comment in the United States. The subject was deemed important enough to form an item in the last Presidential Mes-sage to Congress, and severe criticism had been passed on the action of the Government declaring the concession to that road forfeited. We hold that these eriticisms, while very natural to the 'injured' party, were not well-founded." * * * * "So far, however, from showing an unyielding demand, the Mexican Government did grant repeated extensions for the work. In his message President Gonzalez says: 'Four different times did the Executive extend the terms of the contract. But seeing that in spite of such extensions the work on the road did not advance in the least, and after duly notifying the company that no furin the least, and after duly notifying the company that no fur-ther extension of time would be granted, and the company de-eidedly failing to fulfill their engagements, the Executive was finally compelled to declare the concession forfeited.' This is the other, and equally important side of the question."

d. The report

Attention is called to the card of Mr. Fred. H. Smith, of this eity. Mr. Smith has had an experience of over fifteen years in railroad and other securities, and has recently added to his now extensive business the dealing in, and carrying on margins of, all stocks dealt in at the N. Y. Stock Exchange.

Auction Sales.—The following, seldom or never sold at the Stock Exchange, were sold at auction this week by Messrs. Adrian H. Muller & Son:

NEW YORK, FRIDAY, NOV. 10, 1882-5 P. M.

The Money Market and Financial Situation .- Since Tuesday there has been an impression creeping over Wall Street that Mr. Folger acted very wisely in not resigning his position as Secretary of the Treasury. As if to show his good purposes, and that his policy will not be changed by the elections, he sent an order on Thursday to the Assistant Treasurer in New York to redeem, without rebate of interest, any of the called bonds yet outstanding, to the amount of not over \$5,000,000 per week, thus bringing the \$15,000,000 called bonds due Jan. 18 within the limits of those which may be thus redeemed on presentation.

The great topic of the week, of course, has been the result of the general elections, which give a majority in the next Congress to the Democrats. There can be no change in the Executive of the Federal Government before March, 1885, and the Democrats in Congress will, in the meantime, be placed on their good behavior to an extent hardly known before, so that any depression in stocks at this time based on the idea of extravagant action to be taken in the National Legislature, is founded on the most shadowy of future possibilities. A common-sense view of the situation leads one to conclude that the weakness in stocks has been engineered by parties who were working for it; or that prices might have declined this week without any election, and that the latter was merely used as a convenient handle to effect the result. Most assuredly, the railroad earnings for October, which have been compiled so fully and comprehensively in the tables given on another page, do not show any cause for dissatisfaction, but give an indication of the large traffic in the season of 1882-3 upon which we are now just entering. The N. Y. State canals will be closed on the 7th of December.

Aside from the political outlook, the Western Union decision has attracted more attention than any other event of the week. The opinion of the Court says very squarely that the issue of the stock dividend was void; but with the prospect of an appeal to the Court of Appeals, and the delay and uncertainty incident thereto, it is impossible now to foretell what the final result will be. But the unfavorable outcome of Mr. Gould's recent litigations or negotiations excites a good deal of comment-first came the Story decision against the elevated roads, giving property holders a right to recover damages; then came the Mutual Union difficulty, entailing new law suits; after these, the great Western Union decision was rendered; then the Caro decision was affirmed in plaintiff's favor and a re-settlement refused; and finally the Kneeland party was completely victorious in the Metropolitan Company's election.

The money market has been unsettled and high rates have ruled at times, as might have been expected from the shaking up in the stock market. Borrowers on stock collaterals paid as high as 20 to 25 per cent at times in the past three days, but 6@7 per cent has been the rate for most of the business of good houses. Government bond dealers have generally been supplied at 4@5 per cent. Prime commercial paper is quoted at 6@7 per cent.

The New York City Clearing-House banks in their statement of Nov. 4 showed a deficiency in their legal reserve of \$14,325, against a surplus of \$1,597,900 on Oct. 28, being a decrease for the week of \$1,612,225.

The following table shows the changes from the previous week and a comparison with the two preceding years:

	1882. Nov. 4.	Differ'nces fr'm previous week.		1880. Nov. 6.
Specie Circulation Net deposits .	52,026,990 18,630,390 288,448,500	Dec. 147,900 Inc. 4,757.700	$ \begin{array}{r} 60,913,500 \\ 20,008400 \\ 292,082,500 \end{array} $	66,691,700 18,691,800 307,796,700
Legal tenders. Legal reserve. Reserve held. Surplus	\$72.112,125 72,097,800	Inc.\$1,189,425	\$73.020.625 76,123,300	\$76.949.175 78,681,300

The Bank of England on Thursday showed a gain of £91,000 in specie for the week, and the percentage of reserve to liabilities was 371/4, against 33 15-16 last week; the discount rato remains at 5 per cent. The Bank of France gained 3,100,000 francs gold and lost 2,600,000 francs silver.

Exchange.--There has been little variation in exchange this Exchange.—Incre has been little variation in exchange this week, and to-day the actual rates for bankers' prime 60 days' sterling were 4 801%@4 81 and for demand 4 843%@4 85, with cable transfers 4 853%@4 86. The actual rates for Continen-tal bills are as follows: Francs, 5 231% and 5 193%; marks, 943% and 951%@95%, and guilders, 393% and 40. Quotations for foreign exchange are as follows, the highest prices being the posted rates of leading bankers:

Nov. 10.	Sixly Days.	Demand
Prime bankors' sterling bills on London. Prime commorcial Documentary commercial Paris (franes) Amsterdam (gnilders) Frankfort or Bremen (reichmarks)	$\begin{array}{c} 4 \ 79^{1}{}_{2} \overline{}_{2} 4 \ 80 \\ 4 \ 79 \ \overline{}_{1} 79^{1}{}_{2} \\ 5 \ 23^{3}_{4} \overline{}_{5} 5 \ 21^{1}_{4} \\ 39^{5}_{8} \overline{} 40 \end{array}$	
Colns The following are quotation	ons in gold for	various coins:

United States Bonds.-The result of the elections has not had much effect upon the prices of government bonds, and this fact tends to prove that the decline in railroad and mis-cellaneous stocks was manipulated. It is reported on what seems to be good authority that Mr. W. H. Vanderbilt has recently sold \$10,000,000 of his 4 per cent bonds at privato sale. The closing prices at the N. Y. Board have been as follows:

	Interest Periods.		Nov. 6.	Nov. 7.	Nov. 8.	Nov. 9.	Nor. 10.

* This is the price bid at the morning board ; no sale was made.

State and Railroad Bonds.—As to Southern State bonds, the result of the elections had a more direct bearing than on any other class of securities. The bonds of other States than Tennessee appear to be well sustained, but Tennessee com-promise bonds sold off to-day to 52. It is true that the low-tax party has been victorious, but there are many who be-lieve that the recent adjustment of the State debt on such a low interest basis will not be disturbed, and it would be great folly and bad policy for the party in power to undertake any new adjustment.

new adjustment. Railroad bonds have been variable and sympathetic with stocks, and it is well worth while for cash buyers to look about now for satisfactory purchases.

stocks, and it is well worth while for cash buyers to look about now for satisfactory purchases. **Railroad and Miscellaneous Stocks.**—Since the opening of the market on Wednesday morning after tho elections, there has been a good deal of activity with prices irregular and gen-erally weak. As noted in our remarks above, there is every reason to suppose that the elections have been made use of to work the market down; and then there are always some par-ties who are ready to take the gloomiest views of a situation (quite sincerely), and acting on such views they will sell stocks to their own detriment. There is strong suspicion, also, that the money market has been manipulated for the purpose of causing stringency, and shaking out holders who are carrying stocks on slender margins. On the other hand, Mr. Vanderbilt is reported as wanting \$10,000,000 for use in some direction, and it is naturally con-cluded that he is a buyer of stocks. With the new railroad lines that are opening and the new charges for obligations on interest account, there must be sharp discrimination between different stocks, and it must be remembered that a certain prosperity in the country does not benefit all railroads alike. For instance, a large cotton crop can do no good to the North-western roads, and, similarly, a large grain crop can not help much theroads in the Southern Atlantic States, while such a road as the Denver & Rio Grande is peculiarly situated and relies for its heavy freights neither upon grain nor cotton. These are mere generalizations, it is true, but when we talk of the pros-pects of the stock market they must not be lost sight of, as rothing is less rational than to put all stocks on a dead level, and look for a rise or fall in all of them as about equally prob-able. The fruits of that sort of boom have been seen in the past in such stocks as Wabash, Louisville, Denver, Richmond & Alleghany, and many others. The Western Union litigation and the Metropolitan election have been the principal events bearing directly

have been the principal events bearing directly upon particu-lar stocks. Towards the close to-day the tone was irregular, and easily vacillating between strength and weakness.

VOL. XXXV.

Luvestments

STATE, CITY AND CORPORATION FINANCES.

The INVESTORS' SUPPLEMENT contains a complete exhibit of the Funded Debt of States and Cities and of the Stocks and Bonds of Railroads and other Companies. It is published on the last Saturday of every other month-viz., February, April, June, August, October and December, and is furnished without extra charge to all regular subscribers of the CHRONICLE. Single copies are sold at \$2 per copy.

ANNUAL REPORTS.

Old Colony Railroad.

(For the year ending Sept. 30, 1882.)

(For the year ending Sept. 30, 1852.) The report states that the increase of business made it imper-ative to largely increase the equipment, and extensive purchases of cars and locomotives were made in addition to what could be built in the ahops. Six powerful locomotives have been built or purchased. Twenty of the old passenger cars in use npon the opening of the road in 1846, and in recent years used chiefly for excursion business, have been sold, and in their place twenty-two new cars of the best modern style and of large capacity have been purchased or built. Eighty box freight cars and two-handled coal cars have been purchased. The amount paid for new equipment, after deducing all sums received for equipment sold, has been \$273,659, a much larger amount than has ever before been expended in a single year. The whole of this has been charged to the expense and improve-ment accounts, and while the equipment account on the books has not been increased the value of the locomotives and cars is greater than at the beginning of the year. To provide for the growing business of the company a further increase will be necessary in the next year, and contracts have already been made for new cars and engines. The cost, however, will not probably exceed one half of that expended the past year. The company has now about twenty-three miles of double track out of fifty miles between Boston and Fall River, and the directors ontemplate the necessity within a few years of completing the double track for the whole distance. It can probably be dome out of income without interfering with reasonable dividends. During the year a lease for ninety-nine years has been taken of the Fall River Railroad, between Fall River Railroad has exercised its option to share in this lease. The rental is to be thirty per cent of the gross earnings. Nearly all the stock and a major part of the bonds of the Fall River Railroad Company are h-ld by or in the interext of this conporous during the year, and a dividend o The report states that the increase of business made it imper-

Notes having more than one year to run have been issued during the year to nearly the extent authorized the last year, and it may be necessary during the coming year for the conve-nient transaction of the business of the company to issue anothen notes; and the directors ask for authority to issue notes or bonds to an amount not exceeding \$500,000. The attention of stockholders is called to the fact that the balance of interest paid has been reduced the past year by the sum of \$41,457. Of all the expenditures made in the past year, nothing has been charged to construction except for the purchase of land and for the cost of the railroad from Raynham to Taunton, including freight yard at Taunton. These charges amount to \$287,364. The dividend was increased in July to 3½ per cent, which can probably be maintained in future at the same rate, news unforeseen accidents prevent. Operations and income for two years were as follows: Notes having more than one year to run have been issued

Boston & Providence Railroad.

(For the year ending Sept, 30, 1882.)

(For the year ending Sept, 30, 1882.) The report for the late fiscal year has just been made, and it states that two dividends of 4 per cent each, clear of taxes, have been earned and declared. The dividends on investments in the Union Freight Railway and the preferred stock of the Providence Warren & Bristol Railroad have been credited to interest account. The increase in expenditures has been chiefly due to the increase of mileage, higher taxation, renewals, re-pairs and additions to property. Taking advantage of the larger receipts, many improvements heretofore delayed have been for-warded. Small parcels of land have been purchased in Provi-dence, Pawtucket, Readville, Roxbury and Boston. At Pawtucket a freight honse, greatly needed, and at Dedham a new passen-ger station and locomotive house, have been finished and occu-pied. An iron highway bridge has been built at Canterbury Street in Roxbury, rendered necessary by the extension of the third track. The heavy ledge of rocks near by has been re-moved. Next year the third track will be completed from Mt. Hope to Readville, and put in operation as noon as practicable. All the improvements and additions to rolling stock and prop-erty have been charged directly to expense account. The main line is now entirely equipped with steel, and there are 12 miles of steel rails in the branchea. The earnings and expenses, and the disposition of income. together with the general balance, were as follows in 1880-81 and 1881-82: OPERATIONS AND FISCAL RESULTS.

Manhattau Elevated.—The following named gentlemen were elected directors of the Manhattan Elevated Railway Company: Messrs, Jay Gould, Cyrua W. Field, Russell Sage, R. M. Galla-way, Edward M. Field, George J. Gould, Sidney Dillon, Samuel Sloan, Jose F. Navarro, W. E Connor, George S. Scott, John H. Hall and H. F. Dimoek. Inspectors of election: G. P. Morosini, J. J. Sloeum and P. P. Harris.

J. J. Slocum and P. P. Harris. Memphis & Little Rock.—A dispatch to the Globe-Democrat from Little Rock. Ark., Nov. 4, said that the case of R. K. Dow, Matthews and Moran against the Memphis & Little Rock Railroad Company, as reorganized, was that day sub-mitted to Judge H. C. Caldwell in the United States Coart. It will be remembered that in March last the State recovered a judgment against the company, and the railway was advertised for sale. Before the day of sale Dan Matthews and Moran, as trustees of a mortgage executed by the present Memphis & Little Rock Railroad Company on May 2, 1877, paid the amount, it being over \$233,000, into the State Treasury. Afterward these gentlemen, by their counsel, filed a bill in the Federal Cort against the railroad company, praying to have judgment against the company for the sum so paid, and to have the road sold subject to the lien of their mortgage. The company, by counsel, answered, claiming that the mortgage and bonds were void; that consequently the plaintiffs had no interest in the property and no right to pay the debt. The company also filed a cross bill making the same allegations, and praying that the mortgage and bonds be canceled. Judge Caldwell's decision will be looked for with interest. Metropolitan Elevated.—At the annual meeting for the

will be looked for with interest. Metropolita: Elevated.—At the annual meeting for the election of directors, Mr. Sage voted only.600 shares, Mr. Cyrus W. Field only 100, Mr. Gould for himself only 100, and for the Manhattan Elevated 3,200 shares. The total vote of the Gould party was 5,246 shares and of the Kneeland party 27,174 shares, although the latter appear to own 52,000 shares. The following are the directors elected: Joseph S. Stout, Jacob Berry, Elijah Smith, Thomas T. Backley, Rufas H. Gilbert, Sidney Shepard, Joseph N. Burnham, Morillo H. Gillett, Charles Duggin, Sylvester H. Kneeland and Benjamin W. Gillett. At a meeting of the new board Mr. Kneeland was elected President and Morillo H. Gillett Vice-President. John E. Body continues as Secretary and Treasurer. None of the stock converted into Manhattan second preferred could be voted on, but in addition to this a large amount of stock was disfranchised, on account of the inability of the owners to transfer it on the books of the company recently. In this way nearly 10,000 shares belonging

Mexican Central.-The two last bonds on the second block Mexican Central, — The two last bonds on the second more of Mexican Central will not be issued nntil soon after the 1st of January. There remains subject to call 65 per cent of the third block, which, in connection with the funds now in hand, will supply the management with funds until another block is put out, now a question of a few weeks. When the bonds belong-ing to the three now subscribed for are issued, there will be from \$21,000,000 to \$22,000,000 of the 7's upon the market.— Boston Advertiser.

Boston Advertiser. Mutual Union Telegraph.—In the New York Superior Court, Wm. H. Cameron, as plaintiff (supposed to represent the Gonld interest), has begun a suit, on the equity side, against John G. Mcore, Thomas C. Purdy, George F. Baker, George William Ballou, Charles F. Peck, H. C. Fahnestock and other individuals, and the Mutual Union Telegraph company, as defendants. The complaint sets forth that the plaintiff brings the action on his own behalf and on behalf of all others in like situation share-holders of the Mutual Union Telegraph company; that he owns seventy-five shares of Mutual Union Telegraph stock; that the original capital of the Mutual Union Telegraph Company was \$600,000, divided into 6,000 shares of \$100 each, and that the certificate providing for the increase of the eapital of said company to \$10,000,000, divided into 100,000 shares of \$100 each, was not filed, as by statute required, untit on or about the 16th company to \$10,000,000, divided into 100,000 shares of \$100 each, was not filed, as by statute required, until on or about the 16th day of February, 1882. And the allegations are made, in sub-stance, that the agreement for construction and extension of lines made with John G. Moore & Co. were modified, to the great detriment of the company. "Wherefore the plaintiff de-mands that the said modifications be decreed to be null and void and a fraud upon the rights of the corpotation of this plaintiff and of shareholders and of the rights of creditors. That said defendants nay over to the telegraph company the amount of and of shareholders and of the rights of creditors. That said defendants pay over to the telegraph company the amount of the profits of said firm in the performance of said contract. That the said firm be required to perform every of the obliga-tions of said firm not yet performed under the said contract. That the said firm, as the first takers of capital shares of the said telegraph company, be required to account with and to the said telegraph company, be required to account with and to the said the Mutaal Union Telegraph Company for and as to the actual values by them paid for or upon account of such shares. And that the Mutual Union Telegraph Company be decreed to do whatsoever and to take such action and institute such pro-ceedings whatsoever as shall be requisite or proper to ascertain the rights and enforce the remedies in the premises of the plaintiff, and of all others for whose benefit this action is brought."

plaintiff, and of all others for whose benefit this action is brought." New York Central & Hudson.—In the great suit against this company by the U. S. Government, through J. M. Bailey, Collector, to recover the tax on the famons scrip dividend of Dec. 19, 1868, the U. S. Supreme Court has just rendered a decision in favor of the company. To a World reporter Mr. Wm. M. Evarts, of the firm of Evarts Southmayd & Choate, counsel for the railroad company, related the history of the suit as follows: "This is an intricate and interesting case, but I can give you the points in a few words, though Mr. Choate had the case in charge. The United States Government levied its internal revenue taxes under the act of 1864 on the scrip issued by the New York Central Railroad everal years ago, and which doubled the capital stock of the company. The Govern-ment levied this tar as if the scrip was a dividend on the profits of the railroad. Suit was brought, and on trial in the United States Circuit Court it was held that the scrip was not taxable. Appeal was taken of the United States Supreme Court, which reversed the decision and held that it was taxable, but sent the case back for retrial. Mr. Choate then appeared and on trial of the case in the Northern District he showed that a great part at least of this scrip did not represent profits, but invest-ments of the funds of the company. On this trial the com-pany recovered \$498,432.68 of the accun ulated taxes. The United States appealed to the Supreme Court. At the heari g

there the Attorney-General appeared for the Government and Mr. Choate for the company. Judgment was rendered sustain-ing the decision of the lower court. This about covers the his-tory of the suit. The principle involved in the case was that stated by Mr. Choate, that the taxes to the amount of the judg-ment were levied on actual property and not on profits or dividends." The decision in the Supreme Court was rendered by Judge Matthews. Justice Harlan dissented.

New York Chlcago & St. Louis.—This company (the Nickle Plate) has about completed arrangements for terminal facilities at Buffalo by connecting with the Lake Shore Railroad. The large switch, about half a mile in length, extending from Big Tree station to the Lake Shore tracks, is nearly completed, and the Nickle Plate trains will run into and from the Lake Shore denot Nor 11 depot Nov. 11.

Railroad Construction (New).—The latest information of the completion of track on new railroads is as follows:

Atchison Top. & Santa Fe.—The San Pedro Branch is completed from San Antonio, N. M., cast to Carthage, 9 miles. Chicago & Atlantie.—Track laid between Lima, O., and Hunlington, Ind., 37 miles, and between North Judson, Ind., and Rochester, 23 miles.

Tind., 37 miles, and between North Judson, Ind., and Rochester, 23 miles.
Corning Cowanesque & Antrim.—The Cowanesque Valley Branch is created from Ekklaud, Pa., west to Knoxville, 7 miles.
Indiana Illinois & Iowa.—Extended from Momence, Ill., east 5 miles.
Jacksonville St. Augustins & Halifax.—Track laid from the St. Johns River, opposite Jacksonville, Fla., south by cast 6 miles. Gauge 3 feet.
Kansas City Springfield & Memphis.—Fxtended from Loveland, Me., east by south to Narwood, 16 miles.
Marquette Houghton & Ontonagon.—Branches hare been completed to Wetmore Mine, Mich., 1 mile; to Beaufort Mine, 2¹4 miles, and to Erie Mine, 5³4 miles.
Northern Pacific.—Extended from Park City, Mon., west to Merrill, 23 miles, and 30 miles beyond. The Fergus Falls branch is extended from Fergus Falls, Minn., west to Breekcaridge, 27 miles. The Farge & Sontilwestern Branch is completed from Chewton, 7a., north to New Castle, 10 miles.
Pittsburg & Western.—Extended from Chewton, Fa., north to New Castle, 10 miles.
St. Louis & San Francisco.—Inc Arkansas Division is extended from Baldridge out to Callery Junction., 7 miles.
St. Louis & San Francisco.—Inc Arkansas Division is extended from Montainburg, Ark., south to Van Buren, 21 miles, The Springfield Southern Braine, A., north to Van Buren, 21 miles, and from Baldridge out to Callery Junction., 7 miles.

Southern Branch is extended from the James River south to Ozark, Mo., 10 miles. Trinity & Sabine.—Extended from Moscow, Tex., east 5 miles. Union Pacific.—Track on the Oregon Short Line is extended westward to Ponneuf, Idaho, 55 miles; also from American Falls westward 16 miles. The Greeley Salt Lake & Pacific Branch is completed from Gree-ley, Col., west to Stout, 39 miles. This is a total of 419 miles of new railroad, making 8,731 miles thus far this year, against 6,003 miles reported at the corresponding time in 1881, 4,946 miles in 1880, 2,987 miles in 1876, 1,128 miles in 1875, 1,594 miles in 1874, 3,283 miles in 1873 and 6,106 miles in 1872.—Railroad Gazette

Razette Rochester & Pittsburg.—At the meeting of stockholders of the Rochester & Pittsburg Railroad Company, the President submitted his report for the fiscal year ending September 30, showing that the earnings were \$305,988; erpenses, \$204,408; net earnings, \$101,580. Interest charges, including September, on first mortgage bonds, \$78,000; on ear trust bonds, \$12,564; total interest charges, \$90,564. On the main line \$130,816 were spent in improvements and \$144,405 in the purchase of rolling stock. The lease of the following roads was approved : Brock-waysville & Purnutawney Railroad, Perry Railroad and Rochester & Ontario line. Also the exchange of \$4,000,000 of Rochester & Pittsburg stock for \$4,000,000 stock of the Rochester & Pittsburg Coal & Iron Company. The fol-lowing directors were elected; Augustus Kountze, Frederick D. Tappan, Andrew Fierce, F. O. French, Henry K. Southwick, Walston H. Brown, A. L. Hopkins, Fred. A. Brown, James Cal-lery, Henry Day, Frank R. Lawrence, Wheeler H. Peckham, William M. Shaffner. lery, Henry Day, Fr William M. Shaffner.

Union Pacific.—At the time of the organization of the Union Pacific Railway Company, in January, 1880 (the consoli-dated company), the names of but 1,126 stockholders appeared upon the books of the company. To-day there are 3,454 stock-holders. The following table, showing the number of stock-holders each year since the consolidation and at the present time, is interesting:

	Boston	New York	
Tonmour 1000	Stockholders.	Stockholders.	Total.
January, 1880	····· 506	620	1,126
January 1, 1881	847	1,085	1,932
January 1, 1882	1,358	1,325	2,683
October 1, 1882	1,927	1.527	3.45.4

This shows not only a considerable increase in investment holdings, but that this year, for the first time since the consoli-dation, Boston stockholders outnumber those of New York.— Boston Advertiser.

Boston Advertiser. Western Union Telegraph.—The General Term of the Superior Court of New York City has rendered decisions in the two suits of William S. Williams and Rufus Hatch against the Western Union Telegraph Company and others, which came up on appeal from judgments of Judge Truax, dismissing the com-plaint in each case. The suits were brought by the plaintiffs, as Western Union stockholders, to prevent the consummation of the famous consolidation agreement between the Western Union, American Union and Atlantic & Pacific telegraph com-panies, to have the same declared invalid, and also to invalidate the issue of \$15,526,590 of Western Union stock issued as a dividend. In the Williams suit two opinions are written, the opinion of the Court being by Judge Freedman. Judge Arnoux writes a concurring opinion, and Judge Russell also concurs in the result in both cases. The Court reverses the judgments of Judge Trnax and orders new trials in both suits. Judge Freed-

man in giving the opinion of the Court makes the following statement of the facts:

man in giving the opinion of the Court makes the following statement of the facts: "This action is brought by the plaintiff as a stockholder of the Weatern Union Telegraph Company against the said company, its directors and the Union Trust Company, to obtain an adjudi-cation determining that a certain agreement made by the West-ern Union Telegraph Company with the American Union and the Atlantic & Pacific telegraph company with the American Union and the Atlantic & Pacific telegraph companies is void, and for relief not only against the agreement and its execution as being beyond the powers of the telegraph companies, but to the extent of reaching the personal hability of the directors of the Western Union Telegraph Company. The Union Trust Company was made a party defendant because it had been selected as a trustee for carrying out the spreement. The agree-ment is dated January 19, 1881, and it provides for the purchase by the Western Union Telegraph Company of the property, rights and fran-chiese (except the franchise to be a corporation) of the American and Atlantic & Pacific company was under a corporation) of the American and Atlantic & Pacific ecompany was on hand to make payment with, it was provided in the agreement that the capital stock of \$33,926,590, represented by shares of \$100 each, and shall issue and doliver the same to the said union Trust Company for distanding stock of \$33,926,590, represented by shares of \$100 each, and shall issue and doliver the same to the said Union Trust Company for distibution as follows; \$15,526,590 to holders of its present shares, the same being to represent its investment of earnings in the purchase, construction and equipment of addition to fear and of stat company of distibution as follows; \$15,526,590 to holders of its present shares, the same being to represent its investment of earnings in the purchase, construction and equipment of addition to fear and reaching the provided to be deivered to western Union Company shareholders, the amount of \$55,820,500,

As to the power to declare stock dividends by this or other corporations, the opinion says :

As to the power to declare stock dividends by this or other corporations, the opinion says : "Ordinarily the law requires that additional stock to be issued by a corporation shall he paid for. This power of disposition the directors are to use in trust. " " " " " " " " " " " " " " " The terms of the agreement of January 19, 1891, do not provide or contemplate, nor was provision made in any other way, this the dis-tribution of the new shares among the company's own shareholders should be made upon equivalent value being returned or promised to be returned by the shareholders, nor, indeed, upon any new value to the company. The agreement is sengit to be upheld upon the theory that the shares to be distributed represent the company's investments of earnings in the purchase, construction and equipment of additional lines, wires and general plant since the 1st of July, 1866, and that as these earnings are or were due to, or should have been divided among, the shareholders, an acceptance of a stock that represents them will be a release by the shareholders of the earnings from the other property of the corporation and a delivery of the shareholders and a return to the company in the shape of equital. This theory would, upon the facts of this case, be open to no objection so long as the scheme involved in it has the requisite sanction of a certain proportion of shareholders if there were no statutory obstacle to it. But in its advocacy the respondents are con-fronted with the following statute : "it shall not be lawful for the directors of any of them, any part of the empirity profits arising from the business of such corporation; and it shall not be lawful for the directors of any such company to divide, withidraw or in any way pay to the shareholders, or any of them, any part of the empirity sprofits arising from the business of such corporation; and it shareholders of the Legi-lature." "It seems too clear for argument that in the face of that statute the issue of the stock to the shareholders of the Vestern Union

The general conclusions of the court are as follows :

the set of shelp be of profits. It became capital. The general conclusions of the court are as follows : "The power of the Western Union Company to create and issue, under the provisions of charter 568 of the laws of 1970, to the American Weak of the agreement of Jan. 19, 1981, as a whole, and when all the objects and purposes to be accomplished by it are considered, is not in other scentral particulars in excess of the authority conferred by the proposed division of shares among the shareholders of the Western Union Methods and the state of the state of the state of the capital state advision, withdrawid, and payment of part of the capital state advision, withdrawid, and payment of part of the capital state advision, withdrawid, and payment of part of the capital state advision of the Legislature, and within the prohibition to the statute." " " " " " " " " " " " " " " " " From the forezoing it will be seen that, notwithstanding the most the statutes in relation to the incorporation and regulation of the fore paper of the constant of the legislature, and within the prohibition of the statutes in relation to the incorporation and regulation of the fore paper of the constant of the part of the stating of the state of the cont on ground affecting public interests." " " " " " " The interpretation of the fact, and the most interpretation of the stating of the paper of the cont on ground affecting public interests." " " " " " " To be fore content and permeated the agreement of January 19, 153,526,500 of stock among the shareholders of the Western Union Company was to be first diluted to the extent of the vector of January 19, 153,526,500 of stock among the state diluted to the extent of the vector of paper of the station paintiff has demonstrated that the proposed gratuitons for both coundined, could overcome this difficulty, and as the legality of the statute of the the state difficult is and tranchises of the vector paintiff has a shareholder in the vector Union Company, on behalf of h

The Commercial Times.

EPITOME. COMMERCIAL

FRIDAY NIGHT, NOV. 10, 1882.

There has been another severe twinge in the money market, which caused the Secretary of the Treasury at Washington to take measures for its relief. Leading staples of agriculture have further declined, and the disposition to meet the export demand seems to increase. The general elections this week have resulted in the success of the opposition to the present Administration. The House of Representatives for the Congress which meets in December, 1883, will have a large Democratic majority, supposed to be pledged to the reduction of import duties and the abolition of internal imposts.

The speculation in provisions has been fairly liberal, and in sympathy with the rise in corn prices have been advanced, particularly for lard. To-day pork was sold on the spot at \$22 25 for mess; the options were neglected and entirely nominal. Lard opened firm, but a realizing movement brought about a slight weakness at the close; Western contract sold on the spot at 12:40@12:65c. and to arrive at 12:10c.; refined for the Continent 12:40c.; South American 12:75c.; Western for future delivery sold at 12@12 05c. for November, 11.27½@11.35c. for December and year, 11.221/2@11.321/2c. for January, 11.30@ 11:35c. for February, 11:30@11:37½c. for March and 11:37½@ 11.42%c. for May; the feeling at the close was weaker. Bacon qulet at 12¼@12½c. for long clear. Beef hams dull at \$17 50@\$18. Beef steady at \$23@\$30 for city extra India mess. Butter was steady for fine grades. Cheese firm at 7%@12%c. for State and 5@12%c. for Ohio factory. Tallow quiet at 8 5-16@8%c, Sterine dull at 12½@125%c. for Western and 12%@13c. for city prime.

Rio coffee has been dull on the spot at a decline to 81/400 8½c. for fair cargoes, while there has again been a large business in options, though at steadily falling prices; to-day there ness in options, though at steadily falling prices; to-day there were sales of 4,750 bags at 5'85@5'90c. for November and De-cember, 5'90@5'95c. for March and 5'95c. for April, with fair grade for March 7'90c.; mild grades have been very quiet as a rule, and the supply being very large some depression has at times been noticeable; a fair business has been done in Mara-caibo and washed Caraccas, but aside from this very little. Rice has been quiet but firm. New Orleans molasses has been more ative at a decline to 60c. as the outside price; foreign has been dull and nominal. Foreign dried fruits have been rather quiet aud raisins have declined. Spices have been dull and unchanged. Raw sugar has been dull and nearly nominal at 7%c. for fair refining. *Inds. Boxes. Bags. Melado.*

In January and February, 1882, large additions to our port eccepts were made, for omissions during previous weeks of a por-tion of the City Point, &c., movement. Consequently we have now revised our weekly and monthly tables of receipts from Sept. 1, 1881, o Feb. 1, 1882, and incorporated the omlesions in the weeks to which they belong justead of inserting them in bulk in December and January.

In addition to above exports, our telegrams to-night also give us the following amounts of cotton on shipboard, not cleared, at the ports named. We add similar figures for New York, which are prepared for our special use by Messrs. Carey, Yale & Lambert, 60 Beaver Street.

The speculation in cotton for future delivery has been only moderately active the past week and there is some further decline from the low prices already made. There was, on Saturday evening, an effort towards a reaction, based on the statistical position as presented in the last CHRONICLE. The fact that the out-turn of the crop for the first two months of the season was about 70,000 bales less than for corresponding period last season, and that at the same time the visible supply of American cotton was about 367,500 bales smaller than at the end of Oct., 1831, caused some buying for the rise, as well as a demand to cover contracts, but there was a further decline on Monday. Tuesday was a holiday. Wednesday opened firmer on the better accounts from Liverpool but values soon include for the wart of fourner. firmer on the better accounts from Liverpool but values soon yielded, for the want of support. December and January were notably weak under large sales for Southern account. On Thursday prices again gave way, but there was a slight recovery at the close and a steadier feeling. To-day there was an early advance on a better Liverpool report, stimulating a demand to cover contracts, but as the inquiry on this account subsided prices partially receded. Spots declined 1-16c. on Wednesday without leading to any marked revival of demand, whether for export or home consumption. To-day the market was quiet and unchanged, middling uplands closing at 10 7-16c. The total sales for forward delivery for the week are 462 200

The total sales for forward delivery for the week are 462,200 bales. For immediate delivery the total sales foot np this week 4,671 bales, including 1,200 for export, 3,271 for consumption, 200 for speculation and — in transit. Of the above, 500 bales were to arrive. The following are the official quotations and sales for each day of the past week.

Short notices for November-Saturday, 10.35c.

We have included in the above table, and shall continue each week to give, the average price of futures each day for each month. It will be found under each day following the abreviation "Aver." The average for each month for the week is also given at bottom of table.

The following exchanges have been made during the week: 38 pd. to exch. 100 Nov. for April.
34 pd. to exch. 200 Feb. for May.
12 pd. to exch. 100 Feb. for May.
12 pd. to exch. 100 Feb. for May.
147 pd. to exch. 100 Jan. for May.
45 pd. to exch. 200 Feb. for Jane.
47 pd. to exch. 200 Jan. for May.
47 pd. to exch. 200 Jan. for May. THE VISIBLE SUPPLY OF COTTON, as made up by cable and telegraph, is as follows. The Continental stocks are the figures of last Saturday, but the totals for Great Britain and the affoat for the Continent are this week's returns, and consequently brought down to Thursday evening; hence, to make the totals the complete figures for to-night (Nov, 10), we add the item of exports from the United States, including in it the exports of Friday only.

The imports into Continental ports this week have been 36,000 bales.

The above figures indicate a *decrease* in the cotton in sight to-night of 175,786 bales as compared with the same date of 1881, a *decrease* of 8,432 bales as compared with the corresponding date of 1880 and an *increase* of 260,759 bales as com-pared with 1879.

AT THE INTERIOR TOWNS the movement—that is the receipts for the week and since Sept. 1, the shipments for the week, and the stocks to-night, and the same items for the corresponding period of 1881—is set out in detail in the fellowing statement:

This year's ligures estimated.

The above totals show that the old interior stocks have in-creased during the week 27,652 bales, and are to-night 112,251

bales less than at the same period last year. The receipts at the same towns have been 8,479 bales more than the same week last year, and since September 1 the receipts at all the towns are 9,925 bales less than for the same time in 1881.

RECEIPTS FROM THE PLANTATIONS .- The following table is RECEIPTS FROM THE PLANTATIONS.—The following table is prepared for the purpose of indicating the actual movement each week from the plantations. Receipts at the outports are some-times misleading, as they are made np more largely one year than another at the expense of the interior stocks. We reach therefore, a safer conclusion through a comparative statement like the following. In reply to frequent inquiries we will add that these figures, of course, do not include overland receipts or Sonthern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the out-ports. which finally reaches the market through the out-ports.

The above statement shows-1. That the total receipts from the

The above statement shows—1. That the total receipts from the plantations since September 1, in 1882 were 1,881,173 bales; in 1881 were 1,934,102 bales; in 1880 were 2,082,326 bales.
That, although the receipts at the out-ports the past week were 262,251 bales, the actual movement from plantations waa 298,899 bales, the balance going to increase the etocks at the interior towns. Last year the receipts from the plantations for the same week were 263,341 bales and for 1880 they were 285,328 bales. were 238,538 bales.

AMOUNT OF COTTON IN SIGHT NOVEMBER 10.—In the table below we give the receipts from plantations in another form, and add to them the net overland movement to November 1, and also the takings by Sonthern spinners to the same date, so as to give substantially the amount of cotton now in sight.

1,657,366 276,736
126,083
270

Total in sight November 10...... 2,034,029 2,105,185 It will be seen by the above that the decrease in amount in sight to-night, as compared with last year, is 71.156 bales.

WEATHER REPORTS BY TELEGRAPH .- The favorable conditions noted for several weeks past still prevail in the greater portion of the South, and cotton is being gathered and marketed very freely.

Galveston, Texas .- The weather has been warm and dry all of the past week. Picking has been interfered with to some extent by the election excitement but not as much as expected. Average thermometer 74, highest 79 and lowest 68.

Indianola, Texas.-We have had harmless showers on three days of the past week, the rainfall reaching forty hundredths of an inch. The thermometer has ranged from 69 to 84, averaging 77.

Dallas, Texas.-We have had no rain during the past week. Prospects are unchanged. The thermometer has averaged 75, the highest being 84 and the lowest 59.

Brenham, Texas .- We have had no rain all of the past week. The thermometer has averaged 79, ranging from 61 to 86.

Palestine, Texas.-It has rained on four days of the past week, doing no harm. The rainfall reached one inch and thirty-five hundredths. Average thermometer 71, highest 79 and lowest 62.

Huntsville, Texas.-We have had showers on four days of the past week, the rainfall reaching one inch. The election the past week, the rainfall reaching one firch. The election excitement has partially interfered with picking. The ther-mometer has ranged from 63 to 80, averaging 71. Weatherford, Texas.—We havo had no rain during the past week. Prospects good. The thermometer has averaged 74, the highest being 83 and the lowest 53. Belton, Texas.—There has been no rain during the past week. The thermometer has ranged from 58 to 83, averaging

75.

Luling, Texas.—We had no rain all of the past week. Ficking has been interfered with to some extent by the elec-tion. Average thermometer 75, highest 84 and lowest 58. New Orleans, Louisiana.—We have had no rain during the past week. The thermometer has averaged 71.

past week.

Shreveport, Lousiana.-Telegram not received.

Vicksburg, Mississippi.—It has rained on one day of the past week and the remainder of the week has been pleasant. Columbus, Mississippi.—We have had no rain during the past week. About three-fourths of the crop has been picked, and is being marketed freely. The thermometer has averaged M ranging from 47 to \$1.

and is being marketed freely. The thermometer has averaged
64, ranging from 47 to 81.
Little Rock, Arkansas.—It has been cloudy with rain on
two days of the past week, and the remainder of the week has
been fair to clear. The rainfall reached sixty-four hundredths
of an inch. Average thermometer 62, highest 73 and lowest 51.
Memphis, Tennessee.—We have had rain on five days of the
past week. It has been cloudy the entire week. Planters are
marketing their crop freely. The thermometer has ranged
from 51 to 75, averaging 63, and the rainfall reached eighty-nine
hundredths of an inch.
Noshville, Tennessee.—It has rained on three days of the

Nashville, Tennessee.—It has rained on three days of the ast week, the rainfall reaching one inch and forty-four hun-redths. The thermométer has averaged 57, the highest being dredths. 72 and the lowest 43.

72 and the lowest 43. Mobile, Alabama.—We have had no rain the past week. Picking is making good progress. The thermometer has averaged 64, ranging from 51 to 81. Montgomery, Alabama.—The weather has been warm and dry all of the past week. Picking is progressing finely and planters are marketing their erop freely. The thermometer has ranged from 46 to 74, averaging 61. Selma, Alabama.—We have had no rain during the past week. We are having the finest weather ever known. Average thermometer 56, highest 67 and lowest 45. Madison, Florida.—The weather has been cold and dry dur-ing all of the past week. We have had a frost, but not a killing frost. Picking has been interfered with by the election ex-citement. The thermometer has ranged from 52 to 70, aver-aging 61.

aging 61. Macon, Georgia.—The weather has been cold and dry dur-ing all of the past week. We have had a frost, but not a kill-ing frost. About two-thirds of the crop has been picked, and about one-half has been marketed. Average thermometer 54, highest 79 and lowest 39. Columbus, Georgia.—It has rained on one day of the past week. The thermometer has ranged from 53 to 70, averaging 13

63.

53. Savannah, Georgia.—The weather has been pleasant during the past week, with no rain. The thermometer has averaged 56, the highest being 68 and the lowest 43. Augusta, Georgia.—The weather has been clear and pleas-ant during the past week with light rain on one day. The rainfall reached but four hundredths of an inch. Planters are marketing their crop freely. The thermometer has averaged 55 reaches 40 to 71

marketing their crop freely. The thermometer has averaged 55, ranging from 40 to 71. Atlanta, Georgia.—There has been no rain during the past week. The weather has been very dry and favorable for cot-ton. No killing frost yet. The thermometer has ranged from 36 to 70, averaging 54. Charleston, South Carolina.—We have had no rain during the past week. The thermometer has ranged from 45 to 70, averaging 51. The following statement we have also received by telegraph.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 3 o'clock November 9, ISS2, and November 10, 1881.

	Nov.	9, '82.	Nov. 1	0, '81.
	Fest.	Inch.	Feet.	Inch.
New OrleansBelow high-water mark	13	3	10	4
Memphis Aboye low-water mark.	6	9	18	8
Nashville	2	2	9	6
ShreveportAbove low-water mark.	15	4	16	0
Vieksburg Above low-water mark.	8	8	22	11

New Orleans reported below high-water mark of 1871 until Sept. 9, 1874, when the zero of gauge-was changed to high-water mark of April 15 and 16, 1874, which is 6-10ths of a foot above 1871, or 16 feet above low-water mark at that point.

INDIA COTTON MOVEMENT FROM ALL PORTS.—We have during the past year been endeavoring to rearrange our India service so as to make our reports more detailed and at the same time more accurate. Hitherto we have found it impossible to keep out of our figures, as cabled to us for the ports other than Bombay, cargoes which proved only to be shipments from one India port to another. The plan we have now adopted, as we have reason to believe, will relieve us from the danger of this inaccuracy and keep the totals correct. We first give the Bombay statement for the week and year, bringing the figures down to November 9. down to November 9.

BOMBAY RECEIPTS AND SHIPMENTS FOR FOUR YEARS.

	Shipme	ents this	s week.	Shipm	hipments since Jan. 1. Recetpts.				
Year	Great Bril'n.	Conti- nent.	Total.	Great Britain	Conti- nent.			Since Jan.1.	
1882 1881 1880 1879	6,000	6,000	12,000 2,000	778,900 323.000 360.000 252,060	566.000 505.000	889,000	12,000	1,660,000 1,224,000 1,112,000 838,000	

According to the foregoing, Bombay appears to show a decrease compared with last year in the week's receipts of 3,000 bales, and a decrease in shipments of 8,000 bales, and the shipments since January 1 show an *increase* of 506,000 bales. The movement at Calcutta, Madras and other India ports for the last reported week and since the 1st of January, for two years, has been as follows. "Other ports" cover Ceylon, Tuticorin, Kurrachee and Coconada. Kurrachee and Coconada.

	Shipme	nts for t	he week.	Shipment	ts since January 1.				
	Great Britain.	Continent.	Total.	Great Britain.	Conti- nent.	Total.			
Calcutta-									
1882	400		400	109.100	38,500	147.600			
1881	100	100	200	113,600	37,900	151,500			
Madras-									
1882	2,800		2,900	56,300 (5,000	61,500			
1881	300		300	22,000	600	22,600			
All others-					70.100	73.200			
1882				54,100	19,100	31.900			
1881			******	25,500	0,100	31,900			
Total all-									
1882	3.200		3,200	219,700	62,600	282.300			
1881	400	100	500	161.100	44,900	206.000			

The above totals for the week show that the movement from the ports other than Bombay is 2,700 bales more than same week last year. For the whole of India, therefore, the total ship-ments since January 1, 1882, and for the corresponding periods of the two previous years, are as follows:

EXPORTS TO EUROPE FROM ALL INDIA

Shipments	1	382.	18	381.	18	330.
to all Europe from-	This week.	Since Jan. 1.	This week.	Since Jan. 1.	This week.	Since Jan. 1.
Bombay All other p'rts.	4,000 3,200	$1,395,000 \\ 282,300$				
Total	7,200	1,677,300	12,500	1,095,000	4,600	1,092,400

This last statement affords a very interesting comparison of the total movement for the three years at all India ports.

ALEXANDRIA RECEIPTS AND SHIPMENTS .- Through arrangements we have made with Messrs. Davies, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years.

Alexandria, Egypt, November 9.	1882.		18	381.	1880.		
Receipts (cantars*)— This week Since Sept. 1		20,000 36,000		33,000 57,530		190,000 635,500	
0	This week.	Since Sept. 1.	This week.	Since Sept. 1.	This week.	Since Sept. 1.	
Exports (bales)- To Liverpool To Continent	12,000 1,000				3,000 322		
Total Europs	13.000	27,000	12,101	50.184	3,522	36,504	

* A cantar is 98 lbs.

This statement shows that the receipts for the week ending ov. 9 were 120,000 cantars and the shipments to all Europe Nov. were 13,000 bales.

MANCHESTER MARRET.—Our report received from Manchester to-night states that the market is quiet. We give the prices of to-day below, and leave previous weeks' prices for comparison:

EUROPEAN COTTON CONSUMPTION FOR OCTOBER .- We have received to-day (Friday), by cable Mr. Ellison's figures for October, the first month of the new cotton season. We have also received the revised totals for last year, and give them for eomparison. The spinners takings in actual bales and pounds have been as follows:

In October.	Great Britain.	Continent.	Total.
For 1882.			
Takings by spinnersbales	221,520	152,360	373,880
Average weight of bales	421	391	409
Takings in pounds	93,259,920	59,572,760	152,832,680
For 1881.			
Fakings by spinnersbales	309,950	129,720	439,670
Average weight of bales	434	411	427
Takings in pounds	134,518,300	53,314,920	187,833.220

According to the above, the average weight of the deliveries in Great Britain is 421 pounds per bale in October this season, against 434 pounds during the same time last season. The Continental deliveries average 391 pounds, against 411 pounds last year, and for the whole of Europe the deliveries average 409 pounds per bale, against 427 pounds last season. Our dispatch also gives the full movement for this year and last year, in bales of 400 pounds each.

[VOL. XXXV.

THE CHRONICLE.

In October.	Great Britain.	Continent.	Total.
For 1882.			107.000
Spinners' stock October 1 Takings in October	56,000 233,000	139,000 149,000	195,000 382,000
Total supply	289,000	258,000	577,000
Consumption	284,000	244,000	528,000
Spinners' stock Nov. 1	5,000	44,000	49,000
For 1881,			
Spinners' stock October 1	25,000	240,000	263,000
Takings in October	336,000	133,000	469,000
Total supply	361,000	373,000	734,000
Consumption	280,000	232,000	512,000
Spinners' stock Nov. 1.	81,000	141,000	222,000

The foregoing indicates that spinners' stocks are now 49,000 bales, against 222,000 bales a year ago.

The cable also adds that the consumption of Great Britain was in October 71,000 bales per week (which is the same as given for September), and that the Continental consumption was 61,000 bales per week, against 60,000 bales reported for September. Hence it appears that the total for the whole of Europe is 1,000 bales more than it was last month, or 132,000 bales in October, against 131,000 bales in September.

THE EGYPTIAN CROP.-Mr. Fritz Andres of Liverpool gives the following respecting the Egyptian cotton erop:

LIVERPOOL, Oct. 25, 1882 LIVERPOOL, Oct. 25, 1882. My Alexandria firm writes by mail dated 16th inst.: "The new cotton has been coming in during the last week at the rate of 500 to 2,000 cantars per day. Some lots contain more dead than last year, but generally speaking the quality so far is satisfactory, particularly Mansurat. Cotton from Zagazig is rather disappointing. All the leading firms agree that the plant has suffered from insufficient irrigation and by worms, and there is hardly any putting forward estimates of more than 2¹/₄ million cantars as the result of this year's crop."

 $2\frac{1}{4}$ million cantars as the result of this year's crop." JUTE BUTTS, BAGGING, &c.—There are no special features to note in the bagging market, and business shows no increase; orders continue to be for small lots only, as under present con-ditions buyers are not disposed to take more than required for present wants. Prices under the competition of makers con-tinue to rule in buyers' favor, and at the close the asking rates are $7\frac{1}{4}c$. for $1\frac{1}{2}$ lbs., $7\frac{1}{2}c$. for $1\frac{5}{4}$ l bs., $5\frac{1}{4}c$. for 2 lbs. and $9\frac{1}{2}c$. for standard grades, but an offer of a shade less for a quantity would probably be accepted. Butts are in about the same position as when we last wrote. Prices are about steady, with a moderate demand for small parcels, and holders are ask-ing $27 \cdot 16@2 9 \cdot 16c$. for paper grades and $2\frac{1}{2}@2\frac{3}{4}c$. for bag-ging qualities. ging qualities.

Ging qualities. COMPARATIVE PORT RECEIPTS AND DAILY CROP MOVEMENT.— A comparison of the port movement by weeks is not accurate as the weeks in different years do not end on the same day of the mouth. We have consequently added to our other standing tables a daily and monthly statement, that the reader may constantly have before him the data for seeing the exact relative movement for the years named. The movement each month since September 1, 1882, has been as follows.

Since September 1, 1952, has been as torrows. To In January and February, 1982, large additions to our port receipts were made for omissions during previous weeks of a portion of the City Point, &c., movement. Consequently we have now rowrested our weekly and monthly tables of receipts from Sept. 1, 1881, to Feb. 1, 1982, and incorporated the omissions in the weeks to which they belong instead of inserting them in bulk in December and January.

Monthly	Year Beginning September 1.									
Receipts.	1882.	1881.	1880.	1879.	1878.	1877.				
Sept'mb'i Octoher	326,656 930,584			333,643 888,492	283,845 689,204	93,272 583,637				
Total year Perc'tage		1,232,972 27·18	1,426,796 24 29	1,222,133	978,112	678,959 13 [.] 62				

This statement shows that up to Oct. 31 the receipts at the ports this year were 24,268 bales more than in 1881 and 119,556 bales less than at the same time in 1880. By adding to the above totals to Oct. 31 the daily receipts since that time we shall be able to reach an exact comparison of the movement for the different years. for the different years.

	1882.	1831.	1880.	1879.	1878.	1877.
Tot. Oc.31	1,307,240	1,282,972	1,426,796	1,222,135	978,112	678,950

" 10	37,777	33,530	31,966	46,534	8.	22,876
Total 1,685,917 Percentage of total		1,610,297	1,779,939	1,522,36:	1,213,510	961,405
poer reo'	ots Nov.10	31.11	30.30	30.44	27.33	22.19

This statement shows that the receipts since Sept. 1 up to to-night are now 75,620 bales more than they were to the same day of the month in 1831 and 94,072 bales less than they were to the same day of the month in 1880. We add to the table the percentages of total port receipts which had been received to November 10 in each of the years named.

SHIPPING NEWS.—The exports of cotton from the United States the past week, as per *latest mall* returns, have reached 16S,212 bales. So far as the Southern ports are concerned, these are the same exports reported by telegraph, and published in the CHRONICLE last Friday. With regard to New York, we include the manifests of all vessels cleared up to Thursday night of this week:

 50764 56364 FRIDAY. 64 BREADSTUFFS. FRIDAY, P. M., November 10, 1882. Flour has been very quiet for the better grades, which have

accordingly been, to a great extent, nominal in value. The grades of winter wheat brands below \$5, however, have latterly been in good demand for export, and, as a rule, not being plentiful, have been quite firm in most instances. There is a large supply both of spring and winter, with the exception of the lower grades of the latter, and the tone of the market is unsatisfactory to holders, To-day the market was generally quiet,

the common grades of winter alone selling at all freely. Prices were steady for these, and barely so for the other descriptions.

Wheat has latterly been in good damand for export, and though in the fore part of the week there was a steady decline there has been a recovery of confidence with increasing activity, and prices have advanced to about the figures of a week ago. The supply has been gradually increasing at Chicago of late, however, and speculators on the bull side have shown considerable cantion, though operators on the opposite tack have been equally cantious about taking large risks. The result has been that until yesterday comparatively little speculative trading took place, and even the transactions then -some 2,200,000 bushels-would not have been considered especially important during the height of the speculative fever some months ago. The foreign markets are in a more encouraging state, however, and the increased export movement here of late may perhaps be accepted as the precursor of the active foreign trade which has been so long deferred. To-day the market was irregular, opening ½c. higher, but becoming weaker later in the day; No. 2 red sold at \$1 071/300 1 07½ for Nov., \$1 09%@1 09¾ for Dec., \$1.07%@1 07% seller's option the year, \$1 11%@1 11% for Jan. and \$1 13% @1 131/s for February.

Indian corn has advanced four cents on the spot, owing to scarcity, while options have declined several cents. There has been a better demand for cash corn, and the fact that there has been very little available has given holders a decided advantage, though options, by reason of the increased movement of the crop during the last fortnight, have been depressed. The predictions of speculators that the receipts at Chicago during the first fortnight of this month would be small have not thus far been realized. The weather at the West, however, has for some realized. The weather at the West, however, has for some days been less favorable than could be wished, and complaint is made at Chicago that the quality of the late receipts has not met expectations. To-day the market was $\frac{1}{\sqrt{22}}$. higher, with only a small trade in cash corn, owing to its scarcity, though options were fairly active; No. 2 mired sold at $84\frac{3}{\sqrt{20}}$ 85c. for November, 76%c. for December, 76%2076%c seller the year, $65\frac{3}{\sqrt{20}}$ for January and 64c. for February. Rye has been quiet at some decline. Barley has been de-pressed. Oats have declined slightly on the spot and have fallen several cents for options, while there has, in each case, been a fair business. To-day the market was fairly active at some re-covery from the late decline; No. 2 mixed sold at 43@43%c. for December and $43\frac{3}{\sqrt{20}}$ 4c. for January. The following are closing quotations: ELOUR.

THE DRY GOODS TRADE.

FRIDAY, P. M., November 10, 1882. As generally expected, the dry goods trade was very quiet in the early part of the past week, owing to the elections. Since then some improvement has been developed in the jobbing branches of the trade, more seasonable weather having enabled retailers to place considerable quantitles of fall and winter

coods in the channels of consumption. The demand for domstic cotton and woolen goods at first hands continued light nd a very limited business was transacted by importers. Prices ave not undergons any material change, but the market cannot e reported strong, and it is probable that concessions would be nade on certain fabrics if buyers were less apathetic than at present. The auction rooms were poorly attended-none of he offerings having been of special importance-and few of the sales resulted satisfactorily.

DOMESMIC COTTON GOODS .- The exports of cotton goods for the week were 3,587 packages, including 1,275 to Chins, 578 to Freat Britain, 520 to Argentine Republic, 240 to Hayti, 137 to Iamburg, 113 to Chill, 104 to Sandwich Islands, 103 to British West Indies, 65 to Santo Domingo, &c. The demand at first hands was seemingly gauged by actual requirement-neither obbers nor converters having shown any disposition to anticipate future wants-and transactions were light in the aggregate. The best makes of plsin and colored cottons are unchanged in price and mostly steady, because of the moderate supply, but outside brands are less firm and plentiful enough. Print cloths ruled quiet and steady at 33/8 @3 11-16c. for 64x63 "spots" and 'near futures" and 314@3 5-16 for 56x60s. Prints continued dull and unsettled and there was a very light call for ginghams and cotton dress goods.

DOMESTIC Wy VEN GOODS .- There was a fair movement in men's-wear woolens, in execution of back orders, but new business was restricted in volume, comparatively few buyers having appeared in the market. Heavy clothing woolens have been pretty well cleaned up, and desirable makes are fairly steady in price. Spring cassimeres, suitings and worsteds are sold ahead in nearly all the most popular makes, but indifferent styles are in some stock. Kentneky jeans and doeskins have been quiet with agents, and so were satinets, but a moderate trade in these fab-ries was done by jobbers. White, scarlet and blue flannels were taken in small parcels to a fair amount, and agents continued to make liberal deliveries of dress flannels, suitings and sackings on account of back orders. B ankets were in light demand, aside from the better grades, for which there was some inquiry. Worsted dress goods, shawls and skirts were slow of sale, as were carpets, knit underwear and hosiery.

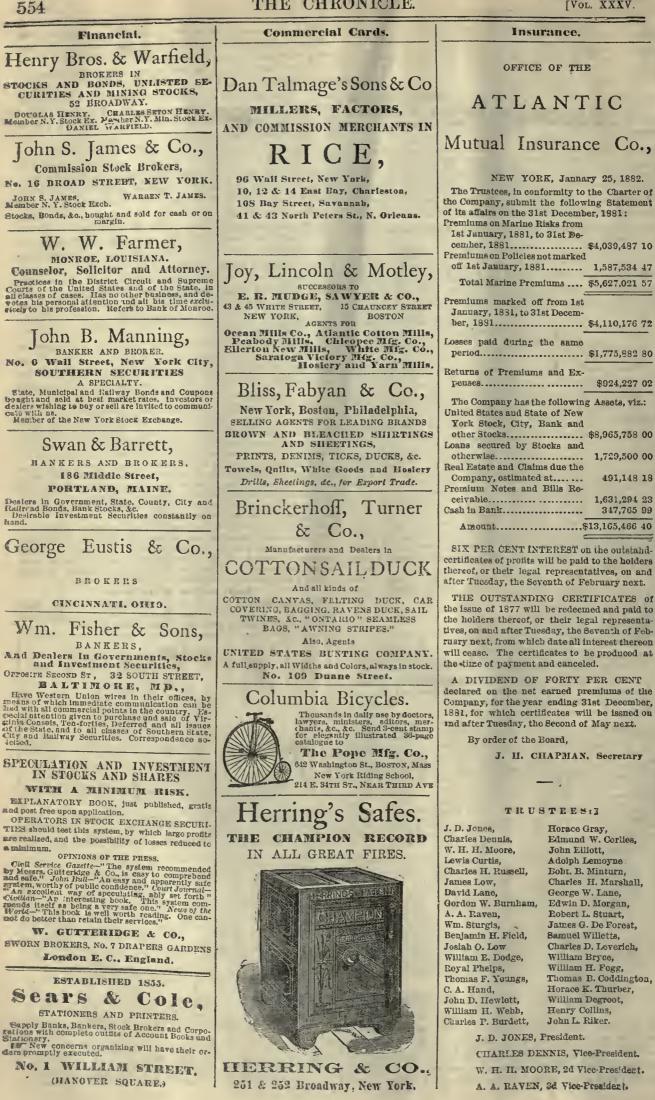

FOREION DER GOODS have been dull in importers' hands, and only a moderate business was effected by jobbers. Silks ruled quiet, but small parcels of plushes and velvets were in steady request. Dress goods were inactive, and linen and white goods lacked animation. Laces, handkerchiefs and fancy holiday goods were severally distributed in moderate quantities.

Importations of Dry Goods.

The importations of dry goods at this port for the week ending Nov. 9, 1882, and since Jannary 1, and the same facts for the corresponding periods of 1881, are as follows:
