GOVERNMENT REVENUE AND BOND CALLS.

There is no financial question affecting so great interests about which so little is clearly understood, as the Government's surplus revenue. To be sure, the Treasury Department publishes full monthly statements, and in them gives many useful statistics, but the figures are so involved through the fictions of book-keeping, that very few gain from them any definite idea of the actual change the Government balance is undergoing. It may be growing larger month by month, or it may be growing smaller, and yet one unfamiliar with the mode of keeping the accounts, will draw a conclusion the opposite of the truth. As for instance, from October 1882 to February 1883, among the cash items or assets were included all bonds paid prior to the maturity of the call, and consequently the apparent balance was just so much greater than the actual balance. This was good book-keeping, but it misled the average reader, for when all the calls were matured and all these paid bonds were marked off, it was suddenly seen that instead of a balance of 140 millions, as the monthly report stated it, the Government was only carrying about 120 millions.

We call attention to this now, because from the little

to be again in danger of being led astray by the current figures. In fact, there seems to be a general concurrence in the idea that Government revenues are very small, its disbursements very large, its balance hardly sustained and bond calls never likely to be resumed. And yet, up to this time, no such conclusions are warranted. Of course, we all know that the revenues have fallen off, but to no greater extent than was anticipated. In our last article on this subject (Chronicle April 7, page 378,) we summed up this feature of the question by estimating that the "net "loss in the revenue this fiscal year compared with the "fiscal year ending with July 1, 1882, would be at least "81 millions, and bring the actual total receipts down to " say \$395,000,000 against \$403,525,250 last year." Judging from the statement up to June 1st, it looks as if the loss was to be no greater than we at that time stated it, and in fact as if the actual figures were coming out marvellously near our estimate. To illustrate this, we give the following, showing the Government receipts from all sources in May and since July 1st for the two years, leaving therefore only one month more to be added.

Government Receipts	1855	2-93.	1881-82.		
from-	For May.	Since July 1.	For May.	Since July 1.	
	8	8	8		
Customs	13,597,112 33	192,932,366 37	18,197,754 23	202,880,099 00	
Internal revenue	15,980,298 36	133,710,992 94	15,504,910 81	133,322,532 43	
Miscellaneous sources	1,922,158 82	34,728,034 21	2,426,010 91	31,312,681 68	
To'al recelpts	31,439,598 51	363,371,413 52	36,128,081 48	370,545,353 19	

The reader will see from the foregoing that if the June revenue equals the actual given above for May, the total for the year will only be \$200,000 short of our estimate of 395 millions. Hence it appears that there is nothing which was unanticipated in the current falling off in the receipts.

Nor is there any unfavorable change which was unexpected in the disbursements; that is to say, the disbursements have been no larger than our estimate, in fact they have thus far been even less. Hence the impression that bond calls have ceased because the net revenue has not been sufficient, or that their suspension now furnishes reason for anticipating no calls next year, is evidently erroneous, quite the contrary conclusion being the correct one. The simple truth is, that instead of making bond calls, the Government is engaged accumulating surplus, and is doing so, as we shall show, much faster than is generally supposed. This new policy the Secretary has probably adopted because previously he had reduced his balance below the level of the months prior to this fiscal year, and because the changes in the tax laws, the remainder of which go into operation on the first of July, introduce some uncertainty as to the volume of the revenue after that date. In view of these facts, a suspension of bond calls seems very proper; but it items we see published from time to time, the public appears should be remembered that the accumulation of surplus is

still in progress, and is already amply sufficient to provide for another call had not the plan of carrying a very much larger balance been adopted.

We think, however, that the extent to which this change of policy has been carried, and the consequent accumulations in the Treasury during late months, will probably surprise most readers who have not investigated the matter. In the first place, even the stated balance has largely increased. On the first of January it had been reduced—less called bonds redeemed but not matured—to 111½ millions. On June 1st it had grown to 129½ millions, or an addition of 18 millions during the five months, besides paying off about 23 million dollars—we have not now the precise figures*—on account of bonds called and matured since January 1st.

But, in addition to this accumulation, there are items in the Treasury statement which, before striking the balance for each month, are set down as liabilities, though they are in no sense liabilities, one of which since the first of January has been enormously increased. We refer to the balances placed to the credit of disbursing officers, or, as the item is called in the Treasury statement, "Disbursing "officers' balances." The sum in each monthly exhibit placed opposite that head is a matter of book-keeping purely, and is as much a part of the Government balance as the socalled "balance" itself. The Government owes the departments nothing at all; and to the ordinary mind a more simple plan would seem to be to let the general balance include this "Disbursing officers' balances," thus displaying in one total the entire amount held by the Treasury for all purposes. But still, the present mode of keeping the accounts has long been pursued.

Now it will be readily seen that if the amount of disbursing officers' balances were constant—that is always the same, or even nearly so, as it formerly was-this book. keeping arrangement would be unimportant; but just as soon as that item begins to vary from month to month, an element of uncertainty or mystery as to the surplus revenue is introduced, which the reader can solve only through an investigation or a comparison with previous returns. As we have already stated, there has been since the first of January just such an increase in progress. We are not raising any inquiry now with regard to the reason why this has been done-it is the simple fact we have to deal with at present. And for the purpose of showing how unusually large the sum has become, we give the following statement of the item in question, taken from each Treasury statement since January, 1879.

BALANCES TO THE CREDIT OF DISBURSING OFFICERS.

	1679.	1830.	1881.	1882.	1883.
Jan. 1. Feb. 1. Mar. 1. April 1. May 1. June 1. July 1. Aug. 1. Sept. 1. Oct. 1. Nov. 1. Dec. 1.	\$	\$22,249,727 19,634,889 21,051,561 19,165,577 17,863,337 15,610,622 17,554,639 19,598,948 22,257,020 21,549,909 22,799,917 20,034,634	\$19,834,984 10,91°,149 18,96°0,122 20,552,063 19,417,744 20,030,294 16,330,578 21,283,338 23,971,652 22,278,363 23,023,874 23,023,874	\$22,521,326 22,157,086 24,726,551 24,207,044 21,137,645 23,010,160 26,708,013 26,104,950 27,970,629 27,524,855 30,506,469	\$25,567,489 22,934,123 26,937,860 23,921,435 31,273,992 40,050,1442

These figures show an addition to this single item since the first of January of $14\frac{1}{2}$ millions, and further, they show that the item is now largely in excess of any previous year. The important point, however, is that the above $14\frac{1}{2}$ millions and the 18 millions in the general balance before mentioned, together with the 23 millions paid since January 1st on account of called bonds, being a total of $55\frac{1}{2}$ millions, has all of it been accumulated since the first of

January—that is, represents the surplus revenue since January 1st, or more than 11 millions a month.

Do these figures lend any support to the idea that we are to have no more bond calls? Are they not rather an indication that such calls are not likely to be delayed long after the opening of the new fiscal year?

THE FINANCIAL SITUATION.

With continued warm, forcing weather, the agricultural question has this week passed beyond the power of speculative circles. A temperature among the nineties, with occasional showers, are evidently not conditions favorable for the growth of skeptical views respecting crop development. It is still likely that the harvest will be late, but though late, there is every reason, according to the present outlook, for believing that it will be abundant.

Recently the weather in Europe, and especially in Great Britain, has also been very favorable, while the continued flow of grain from miscellaneous sources to England and the Continent—the amount of wheat reported affoat on the 7th inst. being still 21 million bushels—has further helped to make the prospect gloomy for our breadstuffs speculators. No result, therefore, but harm to ourselves can come from ignoring the fact, so patent now, that a shortage of wheat in Europe this summer is not among the probabilities. Accumulations in their leading markets are already so large and America has just at present so much competition in foreign markets in the matter of new supplies, that it is impossible for our operators to control prices. And with the prospect of good crops here this season, and a much better yield of wheat abroad than was thought possible a few weeks since, there seems every reason for free shipments from our present large and increasing visible supply.

The speculation in grain and the check it has given to the export of breadstuffs is really the basis for the strong market and higher rates for exchange which have ruled here of late. We are aware that the special strength of the past week has been attributed to manipulation by stock operators. It is very possible that some such movement has aggravated the situation, for the frade balance is so small that every new inquiry, however slight, must be quickly felt. In fact, the condition of our foreign trade at present would probably send gold abroad were it not that we are so near the period when the movement of our new crops will begin. Hence even now bills known as "futures" are being offered on the market, drawn in the expectation of covering them with produce sixty days hence or of a renewal if they cannot so soon be covered at a profit. Such negotiations are, however, not yet freely entered into, the high rates of money in London and low rates here checking the movement. But unless there should be further disturbance in European money markets, it is thought probable that after the middle of this month, these "future" bills will become much more abundant, being drawn in anticipation of cotton exports. If this should prove to be the case, such offerings it is likely will give a downward tendency to the market for sterling, and then should our wheat and corn also begin to move again, the present condition may be quickly

In Wall Street circles a feeling of greater confidence has been very apparent. The truth is, all business interests have felt the influence of the more scasonable weather and the improving crop prospects. Railroad earnings, which we have compiled and reviewed for another month in a subsequent column, show very good results and indicate that even now the distribution of merchandise and

^{*} The last call for 15 millions, issued January 31, and about 8 millions under other calls which had not matured January 1st.

passenger traffic is large. The great complaint in the commercial markets has been that prices were not remunerative. Only a little addition to the demand, however, of which there seems at present to be good promise, will rectify this. In fact there is this week a decidedly more cheerful feeling in all departments of business; labor troubles also seem to be subsiding and the industrial out look everywhere improving.

It is no surprise, therefore, that the stock market should show more buoyancy and strength than it has for a long time, and this was the more natural as there were many special eauses operating in the same direction. The upward movement seemed to be inaugurated last Saturday by a start in Central New Jersey, in which there was a large uncovered short interest, the stock having been freely sold by speculators in the expectation that it would decline when the lease to the Reading had been consummated. The price however was steadily pushed upward until the leading shorts were induced to cover. The next decided movement was in Chicago Milwaukee & St. Paul. It was understood that an issue of 30,000 shares of new stock would be made and speculators for a decline felt assured that on the announcement of the issue, the property would be unfavorably influenced. Accordingly they made beavy sales of it and found to their chagrin that they were on the wrong side of the market. The movement in Central New Jersey, Reading and St. Paul naturally stimulated a rise in the general list and the advance was aided by the favorable conditions of weather, &c., which we have already mentioned. By Wednesday the speculators for a decline appear to have become thoroughly slarmed, and in seeking to cover they gave the market another impetus which carried it rapidly upward. On Thursday and Friday the Northern Pacifics rose on a report that a dividend of 3 per cent on the preferred stock would shortly be declared. Union Pacific was favorably affected by the decision of the First Comptroller of the Treasury and other influences referred to below. Western Union was advanced by a rumor that arrangements had at last been made for listing the stock in London, and also that a large block of it had been sent cut for delivery to a recent' purchaser. The Wabashes and other Southwesterns rose by reason of a covering of shorts and increased earnings.

With regard to the Union Pacific, as already stated, the rise had for its basis several facts. In the first place, it is reported that the company is making good progress in funding its floating debt, so that in the near future its ordinary operations may no longer be hampered by the disability always entailed by obligations of that sort. In the second place, the dividend declared last week is accepted as evidence of the company's continued prosper. ity. In the third place there was the decision of the First Comptroller of the Treasury, as stated above, he having decided this week that on railroads not subsidized by the Government, whether controlled by roads so subsidized or not, full and not half compensation must be paid by the United States for service rendered the Government. As a large proportion of the Union Pacific's total mileage is non-subsidized, this decision is of great importance to the company, though the amount involved in the particular case reviewed was only about \$2,000. Finally, fresh encouragement was derived from the company's statement of earnings and expenses for April. We referred last week to the heavy gains that had been made in net earnings in the first quarter of the year, despite a reduction in gross earnings, but the return for April gives us the figures for one month later, and emphasizes the favorable character of all of this year's exhibits. We I the past week.

find that there was in April a gain of \$66,237 in gross and \$62,826 in net earnings, and that the total gain in net for the four months now aggregates \$650,723. As the net earnings last year were \$3,363,736, this is equivalent to a gain of pretty nearly 20 per cent, which must certainly be denominated as a very satisfactory ratio of increase. A noteworthy feature in the April return is that the corrected gross earnings for that month exhibit a small increase instead of a decrease of \$162,000, as the earlier statement of approximate figures made it appear.

The new stock issue of the St. Paul, if current rumor is to be believed, has all of it been taken by l'resident Mitchell in payment of money loaned by him to the company. If that proves to be so, this three millions stock wipes out a corresponding amount of floating debt, and the company's position in this respect must be greatly improved. In our article of March 17 we showed the net floating debt to be \$4,479,536, without allowing in this for the stock of fuel and materials on hand, and after having added on \$2,630,000 for interest due the 1st of January on the company's debt. If now three millions of this should be cancelled, the floating debt remaining would be scarcely more than nominal in amount—somewhat less even than the amount of fuel and materials on hand.

In view of all the facts we have cited above, it seems that the upward movement of the stock market this week has been due to a diversity of causes, some general in their bear ing, such as the weather and improving business outlook, others special, relating to particular properties, and others wholly speculative, the work simply of manipulators inducing the covering of short contracts and the temporary conversion of operators for a decline to the opposite side of the market. How far outsiders have taken part it would be difficult to say, and yet there seems but little evidence of their having purchased stocks to any considerable extent. In fact, after so many disappointments, it is not to be expected that non-professionals will take hold largely until they are assured that prices are to be maintained, and their confidence in the stability of the market is restored. As London is not likely very soon to take back the stocks it has lately sold here, and may further feed this market if there is any considerable rise, the condition there is closely watched, and may have an important hearing on the course of prices here. following, showing relative prices in London and New York of leading stocks and bonds, indicates how closely London is following our market.

^{*}Expressed in their New York equivalent.

Money continues to rule easy at the Stock Exchange, the supply being fully equal to the inquiry. The Treasury has not been disbursing liberally, the largest payments being for pensions, but the interior movement continues to favor us. The New York Olearing House banks, according to returns collected by us, have received from and shipped to the interior gold and currency as follows the past week.

[!] Reading on pasis of \$50, par value.

Week Ending June 8, 1883.	Received by N.Y. Banks.	Shipped by N.Y. Banks.	Net Interior Movement.
GurrencyGold		\$290,000	Gain.\$1,746,000 Gain. 17,000
Total gold and legal tenders	\$2,053,000	\$290,000	Gain.\$1,763,000

The above shows the actual changes in the bank holdings of gold and currency caused by this movement to and from the interior. In addition to that movement our City banks have lost \$103,100 through the operations of the Sub-Treasury. Adding that item, therefore, to the above, we have the following, which should indicate the total gain to the New York Clearing House banks of gold and currency for the week covered by the bank statement to be issued to day.

Week Ending June 8, 1883.	Into Banks.	Out of Banks	Net Change in Bank Holdings.
Banks' Interior Movement, as above Sub-Treasury operations, net		\$290,000 103,100	Gain.\$1,763,000 Less. 103,100
Total gold and legal tenders	\$2,053,600	\$393,100	Gain.\$1,659,900

The Bank of England reports a gain of £329,000 bulion for the week, and an increase of ½ of 1 per cent in the proportion of reserve to liabilities. The Bank of France shows an increase of 1,200,000 francs gold and a decrease of 825,000 francs silver for the week, and the Bank of Germany since the last report gained 5,246,000 marks. The following indicates the amount of bullion in the principal European banks this week and at the corresponding date last year.

	June 7	, 1883.	June 8, 1882.

RAILROAD EARNINGS IN MAY, AND FROM JANUARY 1 TO MAY 31.

Railroad earnings still tend upward, though of course the percentage of increase is no longer so large as it was. May, however, makes a somewhat better record than April, in this respect; but the heaviest gains come this time from the Southwest and the South, rather than from the Northwest. Our table contains fifty-nine roads, and of these thirteen record a decrease (with two exceptions, small in amount) and forty-six an increase; the net increase on the fifty-nine roads being nearly 2 million dollars, and the ratio of gain 9 1-3 per cent, against 8 per cent in April, and 17 per cent in March.

It is to be said in explanation of the large gain in the last mentioned month that there was in March an unusually heavy grain movement, which was not the case in May. On the contrary, the grain movement in May this year was in the aggregate but a trifle above that for the same month in 1882, when the total was materially less

however, the shipments to market continued very heavy, besides which there appears to have been in the South a pretty active general business, as a direct result of the larger cotton movement. From what we can learn general business also keeps up well in other sections of the country, though, except in isolated instances, it is of only ordinary proportions. Passenger traffic, the best guide to our industrial condition, continues very active and growing. The following table contains May earnings and mileage of all roads from which we have been able to obtain reports.

GRGSS EARNINGS AND MILEAGE IN MAY.

*Three weeks only of May in each year. † For the four weeks ended May 26. § Freight earnings.

In point of increase the Chicago, Milwaukee & St. Paul heads the list, with an increase of over \$406,000 (but little less than in April), or 25 per cent, on mileage increased less than 10 per cent. In this respect, however, it stands almost alone among Northwestern roads, most of these lagging behind April in their gains, and certainly occupying as a whole a position inferior to that of a month ago. Thus the Burlington Cedar Rapids & Northern has a gain of only \$7,749 for the three weeks of May, against pretty nearly \$40,000 for April, and the Chicago & Northwest a gain of only \$11,000, against over \$74,000 in April, while the St. Paul Minneapolis & Manitoba has a decrease of no less than \$131,000 for May, though in April it had an increase of over \$241,000. Some of the minor roads—like the St. Paul & Duluth and the Central Iowa-make very good reports, but their gains, of course, are not very large in amount. In reference to the Manitoba road it should be said that the earnings than in the corresponding period of 1881. In cotton, last year in May were nothing less than extraordinary. We commented upon them at the time, and called attention to the fact that the business of the road was being swelled to great proportions by the large immigration into the district which it traverses, and by the activity and expansion in all branches of trade which this immigration brought with it. To show the bearing of this on the present year's earnings, it is only necessary to state that the gain in May, 1882, was \$476,261, or 124 (1) per cent, and that, though the earnings of May, 1883, are \$131,000 below those of that year, they are \$345,000 above those of 1881.

As to the small gain again recorded by the Chicago & Northwestern road, as compared to the very large gain made by the St. Paul, it is not very difficult to offer a few explanations. In the first place, the St. Paul has, as said a month ago, a much larger mileage than the Northwest, a good part of which is only just beginning to be developed; in the second place, the Northwest in May last year had a heavier gain-\$231,000, against only \$90,000 on the St. Paul; in the third place, the St. Paul, having extended its line to Omaha last year, is now getting some of the Omaha business, so that the Northwest's percentage of the same is no longer so large as it was; and, finally, the Northwest appears to be suffering some loss of earnings from a falling off (under a decreased demand for the product) in the mineral traffic from Northern Michigan, in which falling of: the St. Paul does not participate, since it does not run into that region. The Northwest, as our readers know, penetrates the Northern peninsula of Michigan by means of its Peninsula Division, and thus secures for itself the transportation of some of the ore taken from the Michigan mines. The falling off is perhaps not very important in amount of traffic, but as the Northwest presumably gets a long haul on it, the effect on earnings is quickly felt

Excepting the Northwest and the Manitoba, none of the Northwestern roads recorded any very gains in May a year ago, so that there be some common reason why there is not a more marked improvement this year. Looking at the grain movement we find at least one unfavorable influence. It will be remembered that in our review for April we showed that although in the aggregate the grain movement was smaller than in April, 1882, at the Northwestern points it was large and heavier than a year ago, the falling off being entirely at other points. In May quite the reverse is true, and though St. Louis, Toledo and Peoria exhibit enlarged totals, Chicago falls materially behind 1882. This will appear from the following table of the receipts of flour and grain at the principal lake and river ports for the four weeks ended May 26, in 1883 and 1882.

RECEIPTS OF FLOUR AND ORAIN FOR FOUR WEEKS ENDED MAY 26.

	Flour, bbls.	Wheat,	Corn, bush.	Oats, bush.	Barley, bush.	Rye, bush.
Chicago— 1883 1882	198.493 164.782	492,190 159,492	2,783,474 5,176,207	2,189,423 1,479,951	297,661 233,913	277,969 62,312

1883 1882 Clevel'd—	10,538 12,331	238,316 231,816	57,304 154,894	50,031 77,725 64,700	30,193 33,436 10,085	32 535 1,000
1883 1882 Peorla— 1883	11,245 9,359 6,841	109,871 38,437 28,150	97,690 41,303	115,301	7,500	450 82,200
1882 Duluth— 1883	6,070	19,025 200,790	576,100		55,750	75,950
Total of all	8,100	135,251	5.789,482	1 170 131	715.320	453.697
1883 1882 4831	630,181 570,777 658,280	2,760,809 2,135,918 3,598,041	7,688.075		528,490 352,244	177.761

This table shows that the total receipts of all of kinds grain (not counting flour) sggregate 13,898,742 bushels this year, against bushels last year, and 17,967,405 bushels in 1881. Thus while the movement was somewhat larger than in 1882, it was considerably smaller than in 1881. Particularly noteworthy, however, is the movement at Chicago-Chicago being the great Northwestern market. Here we find that while all the items of small grain record an increase, corn shows a very heavy decrease, so that the total receipts of grain foot up only 6,040,717 bushels this year, against 7,111,875 bushels in the same period of 1882. Going back one year further, to 1881, we get total receipts still larger-namely, 7,446,748 bushels. Compared with that year, though, the falling off is not alone in corn, but in wheat and oats as well, and flour, too, shows a decrease, barley and rye exhibiting a slight gain. With a diminishing grain movement, not only last year, but again this year, it is not surprising that Northwestern roads (or at least those chiefly affected by that movement) made only relatively small additions to their May earnings in both 1882 and 1883. On the other hand, St. Louis, Toledo and Peoria all have llarger grain receipts than a year ago, though even here we find a movement fully one-third less than in 1881. This will be apparent from the following table of the receipts of grain at each of these points, their total, the receipts at Chicago, and the grand aggregate of the receipts at all the lake and river ports of the West.

RECEIPTS OF GRAIN FOUR WEEKS OF MAY.

		(1
	1883.	1882.	1881.
St. Louis	Bushels. 2,827,432 1,274,842 1,556,000	Bushels. 2,246,912 1,139,061 1,122,275	Bushels. 3,433,125 2,501,873 2,558,025
Total	5,658,274	4,508,248	8,496,033
Chlcago	6,040,717	7,111,875	7,448,748
All points	13,898,742	13,274,124	17,967,405

With the improvement on last year that is here shown to have taken place at St. Louis and Peoria, we need not be surprised to find the roads carrying to those points recording handsome gains. Take, for instance, the Missouri Pacific running to St. Louis. Last year this road had a decrease somewhat less than \$30,000. This year this is not only made good, but largely improved upon, for the increase over 1882 aggregates \$158,594. Indeed, not only the Missouri Pacific, but all the roads in the Southwest, show very large gains on last year, which is particularly noteworthy from the fact that it is precisely these same Southwestern roads (barring only one or two exceptions) that made quite liberal gains in May, 1882. On the Gould Southwestern system the gain this year reaches the large aggregate of \$432,848, and of the roads embraced in it we see that the Texas & Pacific has a gain of \$75,459, after year of as much having made a gain last the Kansas & Texas a gain of as \$139,435, \$95,352 on a gain of \$86,589 in 1882, and the Iron Mountain a gain of \$39,668 on \$40,045 gained last year. But the increase is not confined to these roads. Others in the same section do fully as well. The Gulf Colorado & Santa Fe, for instance, makes a very good showing, as does also the St. Louis & San Francisco, and at the northern end even the Wabash has an increase again, having been aided no doubt by the gain in the grain receipts at St. Louis and Toledo. With some of the Southwestern roads the large cotton movement this year must also have been a favoring influence, and to Southern roads it certainly was an influence of very great importance. It will be interesting therefore to see just how this in avement compares at individual ports, and we give below the receipts of cotton at all the Southern outports in May this year

RECEIPTS OF COTTON AT SOUTHERN PORTS IN MAY, 1883 AND 1882.

	1883.	1882.	Difference.
Galveston. bales. Indianola, &c. New Orleans. Mobile. Florida Savannah Brunswick, &c. Charleston Port Royal, &c. Wilmington Morehead City, &c. Norfolk. West Point, &c.	26,084 434 49,257 4,576 14,83 13,183 8,305 667 1,569 472 31,969 7,906	13,296 107 13,053 4,931 13,058 2 13,088 2,464 292 1,303 274,64 4,771	Ino 12,788 Inc 327 Inc 36,204 Dec 353 Inc 16 Inc 145 Dec 2 Inc 841 Inc 395 Inc 266 Inc 14,183 Inc 14,183 Inc 3,135
Total	144,592	78.449	Inc 68.143

The total receipts, it will be seen, are nearly double those of 1882, and they are also about 5,000 bales larger than in 1881. With two exceptions, every port has larger receipts than a year ago, but it is noticeable that Mobile and some of the South Atlantic portsnotably Savannah and Charleston—fall considerably On the other hand, below their totals for 1881. Galveston, New Orleans and Norfolk, particularly the first and last, have quite marked gains. But aside from a larger cotton movement, it is evident (from the gains in earnings which they report) that Southern roads must also have had a larger volume of miscellaneous traffic. In one of the earlier months of the year, in comparing the earnings of different roads for a series of years past, we had occasion to remark upon the small gains recorded by Southern lines as a rule, at a time when Western roads were making such gigantic strides forward. The same remark certainly will not apply to the month of May, for not only have the leading Southern lines improved upon their earnings of last year, but they have done this in the face of earnings last year which were considerably above those of 1881. Take the Louisville & Nashville, for instance. In May; 1882, this company made a gain of no less than \$129,000; yet this year we find a further gain of \$92,485. ()r take the East Tennessee, whose growth is slower-in May last year this road reported earnings \$23,000 larger than in 1881, and this year it reports earnings enlarged \$47,000 more. On the Richmond & Danville system we have not the figures for 1881, but the earnings compare well with last year, on all except the South Carolina lines, which show on the Columbia & Greenville a small loss and on the Charlotte Columbia & Augusta but a small gain.

For the first five months of the year our table makes a pretty satisfactory exhibit, fifty-eight roads reporting an aggregate increase of \$9,413,173, or about 11 per cent on the earnings of 1882. The number of roads showing a decrease keeps diminishing, while, on the other hand, among those having an increase, the gain is mounting to very large figures indeed. In this particular, first position must be assigned the Chicago Milwaukee & St. Paul, whose increase for the five months aggregates as much as \$1,149,-202. After the St. Paul comes the Missouri Pacific, with \$856,244 increase, and then various roads in the extreme Northwest, the South, and the Southwest. Following is our usual table, giving full particulars.

				OTT TOTAL	

^{*} Includes three weeks only of May in each year. † January 1 to May 26. § Freight carnings only in May.

Net earnings (which are to hand to the end of April) are almost uniformly favorable if we include the first four months of the year, but when we take April alone the gains are not so general, and usually The Atchison Topeka less pronounced too. Santa Fe statement, however, for April, is signally favorable, for with an increase of only \$1,700 in gross, net have increased \$280,518, reducing operating expenses to less than 50 per cent of earnings. On the other hand, the Chicago Burlington & Quincy augmented its gross earnings \$293,291, and yet was compelled to absorb the whole of it and \$50,174 more in increased operating expenses; for the four months, though, the road is \$828,481 ahead of 1882 in net. The Union Pacific further increased its net in April, and is now \$650,728 in advance of 1882. The Louisville & Nashville has a small decrease, and the Nashville Chattanooga & St. Louis also records a decrease, but the Norfolk & Western and the Richmond & Danville lines submit better results than a year ago. The Philadelphia & Reading's April exhibit must be characterized as very good for both the Railroad Company and the Coal & Iron Company. The Pennsylvania's figures we have already commented on in a previous issue. In the following table will be found all roads that are willing to furnish reports for publication.

COTTON CONSUMPTION AND OVERLAND MOVEMENT TO JUNE 1,

We are able to day to bring down our overland statement to June 1. The figures now cover the first nine months of the season.

OVERLAND MOVEMENT TO JUNE 1, 1883.

Rail shipments during May show a pretty active movement. In gross, the months' figures, however, are less than in 1881, though larger than in 1882 (being 74,635 bales this year against 58,248 bales in 1882 and 81,515 bales in 1881); but the net total is larger than for the same month of any other year in our record, being 13,933 bales in excess of May 1882, and 1,064 bales in excess of May 1881. The total net since September 1 now reaches 627, 317 bales this season, against 443,152 bales last season and 498,632 bales the previous season. The details for the nine months of these three years are as follows:

OVERLAND FROM SEPTEMBER I TO JUNE 1.

	1882-83.	1881-82.	1880-81.
Since September 1, shipped-			
From St. Louis	428,432	359,859	364,669
Over Illinois Central	21,992	5,289	38,193
Over Cairo & Vincennes	195,046	149,405	110,753
Over the Mississippi River, above St.L	110,598	99,819	137,520

Deduct-			
Receipts overland at N.Y., Boston,&c.	480,309	480,621	427,108
Shipments between (or South from)			
Western interior towns	15,029	5,532	11,124
Shipments inland (not otherwise deduct-			
ed) from-			
Galveston	50	14.478	8.17
New Orleans	37	15,272	2,162
Mobile	26,003	80,369	45,514
Savannah	1.490	1,433	1,190
Charleston			
North Carolina ports	754	5,287	5,736
Virginia ports.	2,465	9,370	9,987
Total to be deducted	526,129	612,964	503,658
Leaving total net overland*	627.317	443,152	494,632
* This total lucludes shipments to Canad	la by rail,	which since	e 8ept. 1.

* This total lucludes shipments to Canada by rall, which since Sept. 1. -882, amount to 35,784 bales.

HECEIPTS, EXPORTS AND SPINNERS' TAKINGS.

May also records a further increase in the receipts at the ports, the total now being 1,263,904 bales larger than for the same months of 1881-82, and 266,302 bales greater than in 1880-81, and within 58,378 bales of the total port receipts during the latter season. Galveston has now reached the position of the second cotton port of the country, her increase in receipts thus far this season being about 914 per cent against an increase at New Orleans of 40 per cent and Norfolk 31 per cent. The exports to foreign ports during the month reach 290,501 bales, against 203,622 bales in May last season, and 272,121 bales in the previous season; the excess for the nine months over 1881-82 is 1,154,914 bales, and over 1880-81, 261,436 bales. The movement direct to the Continent compares very favorably with each of the two past seasons. stocks on June 1 were 37,264 bales greater, and interior stocks about 21,000 bales in excess of last season. The receipts, exports and stocks, presented in our usual form, are as follows.

Movement from	Receipts		EXPORT	S SINCE	SEPT. 1, 1	882, TO-

* Great Britain exports include to the Channel.								

Using the facts disclosed by the foregoing statements, we shall find that the portion of the crop which has reached a market through the outports and overland, and the Southern consumption since September 1 this year and the two previous years, is as follows.

	1882-83.	1891-82. 1880-91.
Receipts at the ports to June 1bales. Not shipments overland during same time	5,815,712 627,317	4,551,808 5,549,410 443,152 498,632
Total receiptsbales. Southern consumption since September 1.	6,443,029 360,000	4,994,950 8,019,012 224,000 190,000
Total to June 1bales.	6,743,029	5,218,960,6,288,042

The increase in the amount of-cotton marketed during the first nine crop months of 1882-83 is thus seen to be 1,524, 069 bales over 1881-82 and 504,987 bales over 1880-81 To determine the portion which has gone into the hands of Northern spinners during the same period, we have prepared the following.

Total receipts to June 1, 1893, as above......bales. 6,713,029 Stock on hand commencement of year (Sept. 1, 1892)—

 At Northern ports
 08,392

 At Southern ports
 21,830-120,722

Taken by Northern spinners same time in 1981-82...... 1.475,043

Increase in takings by Northern spinners this year. bales.

e. 152,79d

The above indicates that Northern spinners had up to June 1 taken 1,627,841 bales, an increase over the corresponding period of 1881-82 of 152,796 bales, and an increase over the same months of 1880-81 of 75,911 bales.

AMOUNT OF CROP NOW IN SIGHT.

In the foregoing we have the number of tales which have already been marketed this year and the two previous seasons. An additional fact of interest is the total of the crop which was in sight on June 1, compared with a year ago. We reach that point by adding to the above the stock remaining at that date at the interior towns, less stock held by them at the beginning of the season. In this manner we find the result for the three years on June 1 to be as follows.

	1892-83.	1881-82.	1880-81.
Total marketed, as abovebales. Interior stocks in excess of Sept. 1	6,743,029 98,200		
Total in sightbales.	6,841,229	5.270,960	6,339,042

This indicates that the increased movement up to this date of the present year is 1,570,269 bales as compared with 1881-82, and 502,187 bales as compared with 1880-81.

WEIGHT OF BALES.

To furnish a more exact measure of the receipts up to June 1, we give below our usual table of the weight of bales. We give for comparison the figures for the same time in the two previous seasons.

	Nine Mon	Same peri'd in 1881-82.			
	Number of Bales.	Weight in Pounds.	Average Weight.	Average. Welght.	Average Weight.
Texas	828,280	429,256,110	518.25	504.37	511.55
Louisiana	1,627,317	785,668,648	482.80	467.03	481.36
Alabama	308,893	155,369,155	503.00	494.00	508.00
Georgia*	825,854	398,557,140	482.60	471.63	480.00
South Carolina.	588,859	278,194,657	472.43	462.76	471.03
Virginia	1,010,325	480,379,228	475.47	470.19	473.29
North Carolina.	145,883	68,662,752	470.67	468.76	469.68
Tennessee, &c	1,407,626	703,813,000	500.00	477.00	500.00
Total	6,743,029	3,299,900,690	489 38	474.46	486.80

^{*} Including Florida.

It will be noticed that the movement up to June 1 shows an increase in the average weight as compared with the same periods of the last two years, the average this year being 489.38 lbs. per bale, against 474.46 lbs. per bale for the same time in 1881-82 and 486.80 in 1880-81.

We have shown in a previous table that the amount in sight to the present time is 1,570,269 bales greater than last season. We might add to this that the average weight of bales shows an increase of over 3 per cent this year or about 170,000 bales, which would bring the excess this season up to 1,740,000 bales of the same average weight as last season.

THE COTTON GOODS TRADE IN MAY.

Trade has been quiet in the principal markets throughout the month, the demand in the regular way having been light and unimportant. Some large sales of brown sheetings and colored cottons were, however, made by agents at a concession from nominal holding rates (in order to enable them to close their semi-annual accounts with the mills) and about 1,800 cases of tickings were dis. posed of through the New York auction rooms at low prices. Fair orders were also placed for cotton flannels for future delivery, but bleached goods and most descriptions of colored cottons were very quiet. Print cloths were in moderate demand, and prices advanced ten points about the middle of the month, but there was a subsequent reaction, and the market closed steady at three points above opening quotations.

[From our own correspondent.]

London, Saturday, May 26, 1988.

The past week has been one of considerable analyty, but no additional failures on the Stock Exchange have taken place. Still, as the fortnightly settlement will be commenced on Monday, the markets have, in consequence, been in a state of suspense. In fact, at times there has been quite a despondent feeling—a condition which has more than usual significance, as not only is there no reason for believing in dearer money, but, on the contrary, there is now a tendency towards ultimate case. Furthermore, the weather at present is simply grand. We have had for several days past almost uninterrupted sunshine, and the crops have been making rapid progress. To-day a most welcome rain is falling, from which all the later-sown crops may be expected to derive substantial benefit.

In spite, however, of these favorable features, there is no general confidence, as several Stock Exchange failures are anticipated, while the difficulties in trade, judging from the more frequent suspensions which have been recently announced, are rather increasing than diminishing. It is now very certain that a cautious policy will be pursued in every department of business until something definite is known as to the actual posltion. In the meantime, rumor is busy with its suggestions of evil, although many good judges are of the opinion that the next accounts will be arranged satisfactorily and without important failures. Under such circumstances, however, the multitude seem to think it is wiser to watch events than to take any new ventures or even to buy for investment. The stock markets, therefore, which have been for a long time past in a dangerously inflated condition, have broken down. That process must have results adverse to many who speculate, but an improved state of affairs will ultimately arise out of the operation, and then the public will be inclined to come forward and buy, even if the terms obtainable are less favorable than they are to-day.

A very encouraging feature is that the return of the Bank of England is more favorable than had been anticipated. Some critics have asserted that the statement is a bad one; but such criticisms assume that the part of a month should, and can, be crowded into a few days. If the rate of progress during the next few weeks is in proportion to that which has been made of late, the Bank of Eogland will soon be in a satisfactory condition. It is quite true that the proportion of reserve to liabilities is only 35.11 per cent, against 32.32 per cent last week and 44% per cent last year. But the more favorable feature is the evidence these figures give that the influence of the 4 per cent Bank rate is now being felt, and, as the exchanges are favorable to us, gold may be expected to gradually accumulate. If a fault has been committed, it is undoubtedly the dilatory action of the authorities in raising their minimum quotation from 3 to 4 per cent. The delay of a week in making a necessary change is sometimes disastrous, and it is more than likely that the position of affairs on this occasion would have been less unfavorable had an earlier movement been agreed to. The London money market is now decidedly higher than the average of the Continental rates, and the exchanges are expected, therefore, to remain in our favor. Much money, however, is wanted here for Stock Exchange purposes; but the supply of bills in the discount market is small, without prospect of imme-

The increase of £273,084 of bullion in Bank is owing to the return of coin from Scotch circulation, and of money circulated during the Whitaun holiday, making the total stock now amount to £20,130,694, against £23,385,099 last year. The note circulation has been diminished by £320,510, and the increase in the total reserve is therefore £593,594. The reserve is now £10,413,659, against £13,324,924 in 1882. Loans and discounts have been repaid to the Bank to the amount of £1,281,391; but the market has been drawn upon heavily, as "other deposits" show a falling off of £1,368,868. As there are many who are in want of money, the dividends due in July on the National Funds are already being anticipated, and this is a sign that the official minimum is not likely to fall below 4 per cent for a time at least.

The following are the quotations for money and the interest allowed by the discount houses to-day and same day of the previous five weeks:

In reference to the state of the bullion market during the week, Messrs. Pixley & Abell observe :

week, Messrs. Pixley & Abell observe: Gold—The demand for export has now ceased and the imports, which for the past week have been very small, have been sent into the Bank, the amount so disposed of being £54,000.

Silver—The market has been very steady since our last and the price has only varied 1-16d, per oz. At the close of last week the arrivals from Buenos Ayres and the West Indies were sold at 501-16d., and to the early part of this, 5019d, was obtained for the bars that eame by the Pacific steamer. The rate to-day seems quiet, and the nearest quotation we can give is 5019d, per oz. We have received since our last £28,000 from the Pacine and £11,970 from New York. The Para has taken £33,000 to the West Indies, and the P. & O. steamer £103,000 to India. Mexican Dollars—Without arrivals of any consequence, the market has been without alteration in price. The Pekin has taken £111,420 to the Straits and China; these dollars arrived last week.

The quotations for bullion are reported as below:

Short loans during the week have been largely in demand, and, owing to the settlement on the Stock Exchange next week, the inquiry is now strong.

As stated above, we have had another week of brilliantly warm weather, and vegetation has made further considerable progress. The prospect is regarded as more than usually satisfactory, and it has been improved to-day, owing to the steady rain which is falling. It is impossible for the weather to be more favorable to the crops than it is now; and although they are backward they will not, in all probability, be much behind, should the weather continue so genial as it is now. The trade for cereal produce has, in consequence, been dull, and the quotations have been with difficulty supported.

The sales of home-grown wheat, barley and oats in the 150 principal markets of England and Wales during the first thirty-eight weeks of the season, together with the average prices realized, are shown in the following statement:

SALES.

IMPORTS AND EXPORTS FOR THE WEEK .- The imports of last IMPORTS AND EXPORTS FOR THE WEEK.—The imports of last week, compared with those of the preceding week, show an increase in both dry goods and general merchandise. The total imports were \$8,502,838, against \$5,956,552 the preceding week and \$8,230,171 two weeks previous. The exports for the week ended June 5 amounted to \$6,445,92t, against \$5,896,051 last week and \$6,373,889 two weeks previous. The following are the imports at New York for the week ending (for dry goods) May 31 and for the week ending (for general merchandise) June 1; also totals since the beginning of first week in January: week in January:

FOREION IMPORTS AT NEW YORK.

For Week.	1880.	1881,	1882.	1883.
Dry goods Gen'l mer'dise	\$1,304,539 6,012,156			\$1.747,799 6,735,040
Total Since Jan. 1.	\$7,316,635	\$4,455,215	\$10,148,989	\$3,502,938
Dry goods Gen'l mer'dise	\$57,496,420 161,565,245	\$47,907,372 133,849,273	\$60,022,412 159,461,432	\$54,778,712 138,814,607
Total 22 weeks	\$219,061,665	\$181.756,645	4219,483,874	\$193,593,349

In our report of the dry goods trade will be found the imports of dry goods for one week later.

The following is a statement of the exports (exclusive of speele) from the port of New York to foreign ports for the week ending June 5, and from January 1 to date:

EXPORTS FROM NEW YORK FOR THE WHEEL

	1830.	1881.	1882.	1893.
For the week Prev. reported		\$6,617,107 155,614,851		
Total 22 weeks	\$159,913,055	\$162,2411,961	\$135,084,675	\$151,156,492

The following table shows the exports and imports of species the port of New York for the week ending June 2, and at the port of New York for the week ending June 2, and since Jan. 1, 1883, and for the corresponding periods in 1882 and 1851:

Of the above imports for the week in 1883, \$2,265 were American gold coin and \$5,826 American silver coin.

Chicago Mil. & St. Panl.—It was announced at the New York Stock Exchange that this company had resolved to issue 30,000 shares (\$3,000,000) of additional common stock. The new stock will be transferable on the company's books within thirty days. The amount of common stock now outstanding is \$27,904,261. The amount of preferred stock of this comis \$27,904,261. The amount of common stock now outstanding is \$27,904,261. The amount of preferred stock of this company, given in exchange for convertible bonds from April 16 to 25, was \$93,500, which makes the total amount of preferred stock \$16,540,983.

St. Paul Minneapolis & Manitoba.—Application has been made to the New York Stock Exchange by the St. Paul Minneapolis & Manitoba Company for the listing of \$10,574,000 of the consolidated bonds of that company. The amount of of the consolidated bonds of that company. The amount of these bonds authorized is \$50,000,000, and of the remaining \$39,426,000 there are reserved to cover previous issues \$19,426,000, leaving \$20,000,000 to be issued on additional road, as built or acquired, at \$15,000 per mile.

—A new map of Minnesota and another of the Territory of Dakota have just been issued by Messrs. Warner & Foote, Minneapolis, Minn. These maps cover a section of the country the rapid growth of which is simply marvelous, and where map making is an operation requiring about as much activity and enterprise as any business in the community. The maps are handsomely executed on a large seale, and are well worth the attention of all persons interested in that part of the country.

—Attention is called to the card of Messrs. Narr & Gerlach in our advertising columns. This is a large and growing firm in the city of Philadelphia. Their office is connected by telegraph wires with the principal places in Penusylvania, and with Messrs, Prince & Whitely in New York. The house deals in foreign exchange, having correspondents in London, Paris Frankfort, Vienna and Stuttgart.

The eard of Messrs. Buttrick & Elliman, stock and bond moved from No. 37 to No. 18 Wall Street, and in addition to ordinary Stock Exchange business, they will give special attention to investment orders in the purchase of bonds.

Anction Sales.—The following, seldom or never sold at the Stock Exchange, were sold at auction this week by Messrs. Advian II. Multer & Son,

NEW YORK, FRIDAY, JUNE S. 1883-5 P. M.

The Money Market and Financial Situation .- The improvement in the general mercantile and industrial situation in the last week has been more in the subsiding of apprehensions of the future than in any actual changes in business conditions, or in the volume of trade. Ten days ago there was a general feeling of distrust, on account of apprehensions of disastrous strikes and important failures, and a disorganization of the iron industry. The crisis, however, seems to have been passed. Some furnaces have been blown out, the millowners declaring that they cannot afford to manufacture for present prices, and at least one important failure-the Graf ton Iron Company-has occurred; but aside from these incidents the situation in this branch of trade is more hopefully regarded. The diminished production of iron, both from the mines and the mills, will probably soon permit the consumptive demand to overtake the supply, and thus at least maintain prices, if not soon advance them. If the iron industry is -as is often claimed-an index of the general state of industry and trade, it may be that the most unfavorable aspect of the situation has been passed, and that any change is likely to be in the line of improvement.

The general crop prospect has certainly improved, notwithstanding that the latest reports from Indiana, Illinois and Ohio confirm the damage to the winter wheat crop. But the reports from the spring wheat region of the Northwest, and from the further-west winter wheat States, are of the most flattering character, and there is scarcely room to doubt that the general crop will be at least a good average. Speculation in various lines has increased lately, and the transactions in grain and petroleum have been on a large scale in the last week. The speculation in grain has maintained prices at figures which still operate against a free export movement, though wheat has declined during the week in view of the improving crop

In the general monetary situation the features are only those usual at this season of the year. The domestic exchanges are generally in favor of New York, and the accumulation of funds here had given the banks of New York a surplus reserve of \$9,071,650 on last Saturday, against \$3,951,100 on the corresponding date of last year. The accumulation of so large a surplus reserve this year was, however, about a large a surplus reserve this year was, however, about a month later than last year, when it was \$10,895,600 on April 29th, and from that point declined to \$3,951,100 by June 2d. The cause of this more tardy accumulation of money in the banks here was believed to be due to the fact that the volume of products in the country to be moved this year was larger than last year, and therefore the money was retained in the interior longer. With the increase of money here, speculation has been revived; last week the banks increased their loans \$1,294,300, the larger part of which was probably for speculative purposes. Following this was an advance in the stock market of from 2 to 4 per cent in the last week, and an increased activity in the speculation in grain and petroleum. Rates for money have been nominally no lower than they were in the previous week, but the supply of funds has been abundant at 2 to 3 per cent for call loans on stocks and 4 to 5 per cent per annum on the same collaterals for time loans running from 4 to 8 months.

The sterling exchange market has been very quiet, the

same collaterals for time loans running from 4 to 8 months. The sterling exchange market has been very quiet, the amount of business being small for the reason that the transactions in American securities on foreign account, as also the exports of our domestic products, have been small. Diminished imports of dry goods and general merchandise have also made a light mercantile demand for exchange. The following table shows the changes from the previous week and a comparison with the two preceding years in the averages of the New York Clearing Honse banks.

	1883. June 2	Differ'nces fr'm previous week.	1882. June 3.	1881. June 4.
Loansand dis.	\$317,575,800 62,251,500	Inc.\$1.291.300 Dec. 575,300	\$313,373,300 53,692,900	\$311,091,900 76,052,100

Legal reserve. Reserve held.	\$77,732,350	Inc. \$324,650		\$84,837,150
Surplus	\$9,071,650			\$9.490.250

The Bank of England has been gaining in its reserve. The last weekly statement on June 7 showed in increase of £329,000, and a proportionate increase of reserve, from 35½ per cent of its liabilities to 35¾ per cent. At the statement on June 2 the gain was £367,000, and on May 26th, £273,000. The weekly statement of the Bank of France showed a gain of 1,200,000 francs in gold and a loss of \$25,000 francs in silver.

-The business in sterling in the last few days has Exchange.—The business in sterling in the last few days has been very light, and rates have been nominally unchanged, though there have been some indications of attempts to manipulate the market. On Wednesday the Canadian banks advanced the posted rates ½ cent on the £, but the other leading drawers did not follow. The posted rates on Friday were 4 86 and 4 89½. Actual rates were as follows: Sixty days, \$4 85½ (@4 85¾; demand, \$4 88½ (@4 88¾; cables, \$4 89½ (@4 89¾, and commercial bills 4 83½ (@4 84½).

Quotations for foreign exchange are as follows, the highest prices being the posted rates of leading bankers:

June 8. •	Sixty Days.	Demand.
Prime bankers' sterling bills on London. Prime commercial Documentary commercial Paris (francs) Amsterdam (guilders) Frankfort or Bremen (reichmarks)	4 84 204 85 4 84 04 84 2 5 19 3 25 17 2 40 0 40 4	4 88 ¹ 2 74 89 ¹ 2 4 87 ¹ 2 74 88 4 87 74 87 ¹ 2 5 16 ⁷ 8 75 15 40 ¹ 4 76 40 ¹ 2 95 ¹ 8 76 95 ⁵ 8

United State's Bonds,—Government bonds have been firmer this week, and advanced 3% to 5%.

The closing prices at the N. Y. Board have been as follows:

Total		6,415,165 24	7,224,067 13					

State and Railroad Bonds,-The railroad bond market has State and Railroad Bonds.—The railroad bond market has been strong, but only moderately active, during the week. The most business has been done in the West Shore bonds and the Atlantic & Pacific incomes. The former have ranged pretty steadily from 78½ to 79. The latter since last Friday have fluctuated between 36½ and 34, and close at 35½. Among the other railroad issues, Canada Sonthern 1sts have advanced 1¾, Chesapeake & Ohio 6s 1¾, Fort Worth & Denver City firsts 1½. Texas & Pacific (Rio Grande Division) 1½, Iron Mountain 5s ½ per cent, and Kansas & Texas general mortgages 1¾ per cent. There has been comparatively little done in railroad bonds on foreign account. bonds on foreign account.

State bonds have been very dull but firm.

Railroad and Miscellaneous Stocks.—There has been an almost continuously advancing market for stocks during the week. Several circumstances combined early in the week an almost continuously advancing market for stocks during the week. Several circumstances combined early in the week to advance particular stocks, and these, together with improving crop reports and the settlement of the labor troubles at the West, have imparted a stronger tone to the market. The special features referred to were, the favorable decision of Judge Lawrence, the First Comptroller of the U.S. Treasury, in the matter of the Union Pacific Co.'s claim for payment in cash for mail and military services on its non-subsidized branch lines; also the expectations of profitable results from the lease of the Jersey Central to the Reading, etc., etc. The general advance in stocks has ranged from 1 to 6 per cent, the most important being as follows, viz.: Union Pacific 3½, Long Island 6, Alton & Terre Hante 8, C. C. C. & I. 5, Northwestern 2½, St. Paul & Manitoba 3¾, Reading 3¾, Western Union 2¾, Rock Island 2¾, Lackawanna 2¾, Jersey Central 4¼, Missouri Pacific 2½, Bnrlington & Quincy 2, Central Pacific 5½, Canada Pacific 1¼, Canada Southern and Lake Shore ½, Northern Pacific preferred 1¼ and Texas & Pacific 1½ per cent.

The Chicago & Northwest. Company gave notice to the Stock Exchange to-day of its intention to issue, after thirty days, 97.651 shares of common stock—86,842 shares for Chicago Milwaukee & Northwestern stock and 10,809 shares for Elgin & State Line stock—both held in the treasury of the Chic. & Northwestern Company.

& State Line stock-both held in the treasury of the Chic. &

Northwestern Company.

STATE, CITY AND CORPORATION FINANCES.

The Investors' Supplement contains a complete exhibit of the Funded Debt of States and Cities and of the Stocks and Bonds of Railroads and other Companies. It is published on the last Saturday of every other month-viz., February, April, June, August, October and December, and is furnished without extra charge to all regular subscribers of the Chronicle. Single copies are sold at \$2 per copy.

ANNUAL REPORTS.

Canada Southern Rallway,

(For the year ending December 31, 1882.)

The annual report says that the number of miles of road operated in 1882 was the same as in 1881—403 64, of which 229 20 miles are main line (International Bridge to Amhersthurg, Ontario), and 174 44 miles are branches and tributary roads. The miles are main line (International Bridge to Amherstburg, Ontario), and 174.44 miles are branches and tributary roads. The main line, the Toledo Canada Southern & Detroit Railway, the road of the Canada Southern Bridge Company and 15 miles of the Erie & Niagara Railway, are laid with steel rails—a total of 303.73 miles.

The amount charged to construction account during 1882 was the follower that the control of the control

The amount charged to construction account during 1882 was \$548,592, the details of which are as follows: Essex Centre and Windsor Branch, \$442,141; new buildings, \$1,704; new bridges, \$41,134; new sidings, \$34,130; new telegraph, \$8,977; new water stations and reservoirs, \$4,000; new fences and crossings, \$7,064; new tools, land and all other purposes, \$9,439—total for 1882, \$548,592; in 1881, \$76,227; 1880, \$127,746; 1879, \$310,128; 1878, \$85,011—total for five years, \$1,147,707. Nothing was charged to equipment account in 1882. The locomotive equipment remains the same as at the close of 1881. The passenger equipment shows an increase of six over the

locomotive equipment remains the same as at the close of 1881. The passenger equipment shows an increase of six over the number given in last report, being for four new second class coaches and two new express cars, built in company's shops and charged in operating expenses. Freight equipment shows an increase of thirty-one, being for two new stock and twenty-nine new gondola cars, built in St. Thomas shops.

Mr. W. H. Vanderbilt, the President, says in his report:

"The unfavorable conditions which so seriously affected the business of 1881 continued, with little modification, through the first half of 1882; but the settlement of the truck line difficulties was felt during the later months of the year in a larger business and at better rates. This favorable condition still continues with every prospect of permanency, and promises very satisfactory results for the ensuing year.

"During the year covered by this report, two very important measures have been adopted, which promise the most favorable results to all interested in the property. First, it was decided

"During the year covered by this report, two very important measures have been adopted, which promise the most favorable results to all interested in the property. First, it was decided to make the principal western terminus of the road at Windsor, opposite Detroit, and there to make direct connection, by ferry, with the Michigan Central RR.; and, secondly, an agreement was entered into with the Michigan Central RR. Co. for a term of twenty-one years, whereby that company is to operate this company's lines in connection with its own, making practically one road or system of roads from the Niagara River to Chicago and the other western points reached by the Michigan Central, the gross earnings of the whole system to be applied first to the payment of the operating expenses and the fixed charges of both companies, and the net surplus to be then divided in the proportion of two-thirds to the Michigan Central and one-third to the Canada Sonthern. In order to make the desired connection at Detroit, it became necessary to build about fifteen miles of main line, from E-sex Centre to Windsor, and to provide extensive terminal facilities at the latter point; but in view of the fact that the distance to Detroit would thus be reduced about fifteen miles, and that this connection would be a necessity if the arrangement then contemplated with the Michigan Central should be perfected, it was thought best to undertake the work at once and to push it forward as rapidly as possible. The agreement with the Michigan Central Railroad Company, to which the shareholders of this company gave their consent at the special meeting in November last, also requires that this company shall acquire the control of a bridge over the Niagara River, to give it an independent connection with the New York Central and other roads on the American side, and that it shall make other extensive improvements and additions to its property, in order to accommodate the largely increased volume of traffic which is expected to be thrown upon it."

Milwaukee Lake Shore & Western.

(For the year ending December 31, 1882.)

(For the year ending December 31, 1882.)

The annual report of the Milwaukee Lake Shore & Western Railway Company for the year ending Dec. 31, 1882, is completed and will be submitted to the stockholders at the annual meeting, to be held Wednesday, June 13; next. The total number of miles of road operated Dec. 31 was 326, of which all but 4 miles, running from Milwankee to Lake Shore Junction and leased from the Chicago & Northwestern Company, is its own property. President Rhinelander calls attention to the fact that since Jan. 1, 1883, the Milwaukee Lake Shore & Western Railway Company has been consolidated with the Vienx Desert & Lake Superior Railroad Company, a corporation organized under the laws of Michigan. This was done as that a road in Michigan could be constructed and operate as an extension of the Wisconsin road by one and the same corporation. The consolidated company bears the same name as the old Wisconsin corporation, and its organization and powers are substantially the same, except that it is authorized to construct and operate a road in Michigan, and its authorized common capital stock is \$5,000,000.

A general exhibit for the year makes the following showing in comparison with 1881:

in comparison with 1881:

Earnings.	1992.	1991.

Concord Railroad.		13
(For the year ending March 31, 1883.)		1
To the goal stately many the		1 (

The annual report says that during eleven months of the year the road was operated in connection with the Boston & Lowell Railroad, under a joint business contract, for which time a percentage of certain joint receipts and expenditures was apportioned to each road, making the gross amount of each for this road appear somewhat more than it otherwise would have been. The net receipts of the Concord road were not, however, materially changed thereby, and the result of the operation of the road for the year has been favorable, as will appear by the following statement of receipts and expenditures: RECEIPTS.

"There were included in the receipts for the previous year \$48,455 for old rails sold, and the income of that year for earnings was apparently increased by this amount. There is included in the expenses herein the amount of \$73,807, which has been paid as this road's proportion of the new locomotives and ears purchased during the last year.

"The business connection with the Boston & Lowell Railroad, referred to in last year's report, has been annulled, this corporation having received notice from the Boston & Lowell Railroad that a continuance of the same would be precised every to

Leaving amount carried to contingent fund.....

osd that a continuance of the same would be unsatisfactory to that company.'

Northern Railroad (N. H.)

(For the year ending March 31, 1883.)

The report says: "A comparison of the results of the business for the past year with that of the former year shows quite an increase in the gross receipts, with a comparatively small increase in the amount of expenses. The net income is consequently materially larger than that for the preceding year, caused principally by a reduction of expenses, which is largely attributed to the laying of the main line of read with steel rails, which not only reduces the expense of repairs of track, but also that of rolling-stock generally. * * *

"The indebtedness of the corporation consists of coupon notes amounting to \$97,000, due Jan. 1, 1884, and the guaranty by this corporation of bonds of the Concord & Claremont, N. H., Railroad to the amount of \$500,000, of which this corporation owns \$200,500. It also continues to purchase the semi-annual interest coupons on one hundred thousand dollars of bonds of the Peterborough & Hillsborough Railroad, amounting to \$6,500 per annum." The report says: "A comparison of the results of the busi-

Lenving a balance of \$255

The report from the assistant superintendent shows that there was a "decrease from the business of last year, caused by the freight destined to Lawrence being transported via the Boston & Lowell Railroad under the contract for the joint operation of the Concord and Boston & Lowell roads. The termination of these contracts will restore the business to the road and probably increase the amount." * * *

"No change has occurred in the relations of this road with the Concord Railroad. The negotiations for a final adjustment of the various matters growing out of their operations, about which differences of opinion have arisen, have been practically suspended during the existence of the contract of the Concord with the Boston & Lowell Railroad for the joint operation of those roads. The termination of that arrangement has enabled the directors to resume their efforts for a full settlement, which they hope to see speedily accomplished."

Colorado Coal & Iron Company.

Colorado Coal & Iron Company. (For the year ending December 31, 1882.)

From the report of Gen. W. J. Palmer, President, the follow-

City and Ouray ores can be reached, and is now completed through to Salt Lake."

" * * * * * * *

"During the year the price of coke was reduced in the belief that it would cause an increased consumption which would in the end yield greater profit. The results have justified this expectation. The total output of coal for the year 1882 was 512,363 tons, against 350,944 tons in 1881, an increase of over 45 per cent. The shipments of coke for the year were 90,256 tons, against 47,640 tons in 1881, an increase of over 90 per cent. The steel works at Bessemer were put in operation on April 12th, 1882, and the first steel rail made west of the Missouri River was rolled on that day. During last year 20,993 gross tons of steel ingots and 16,265 gross tons of steel rails were made. The puddle mill and nail works were put in operation in August and September respectively, and during the year produced 1,411 gross tons of muck bar and 16,103 kegs of nails. The spike mill was also put in operation during the year and produced 5,720 kegs (100 lbs. each) of railroad track spikes. The blast furnace has been kept in operation during the whole year, and yielded a product of 23,719 net tons of pig iron, a very good showing for that size furnace. The foundry and machine shop were kept busy on repair and construction work for the Company, no outside work being done.

"The sales of real estate during the year amounted to \$82,-105. While the volume of sales has fallen off somewhat, prices have been well maintained and the prospect for the future is encouraging. The Denver rolling mill has been kept in constant operation during the year, though not run to its full capacity. It produced 3,934 net tons of merchant bar iron, mine rails and splice bars during the year. The iron mines at Placer, Hot 3prings, Calumet and Grape Creek have been operated during the year, and shipped a total of 53,065 net tons of ore.

In the income account, "the itema constituting the net deduction of \$138,112 were expenditures incident to the negotiation of the securities of the Company for the purpose of redeeming the old Central Colorado Improvement Company mortgage bonds, the principal of which fell due during the year, and are therefore expenses peculiar to that year, and which will not enter into the expense account of future years, so that the legitlmate net earnings for the year were \$348,173, after paying interest on all the outstanding bonds of the Company.

"In addition to the above, the sales of real estate were: Cash received, \$58,617; on time notes bearing interest, \$23,488—total, \$82,105.

"In addition to the above, the sales of real estate were: Cash received, \$55,617; on time notes bearing interest, \$23,488—total, \$82,105.

"Commencing January 1st, 1882, the plan was adopted of charging, as an operating expense, a royalty on every ton of iron ore and coal mined by the Company from ita own lands, and on every ton of coke made, and these royaltles were credited to the proper capital accounts, lands or improvementa, as the case might be, thus reducing the amount at which such lands or improvements stand on the books of the Company. The amount so charged and credited during the year was \$83,687; and while this is undoubtedly the proper course to pursue, it should be borne in mind, when making comparisons with previous years, that had the books been kept in the same way as in those years, the net surplus for the year 1882, after paying interest on bonds, would have been \$420,561 instead of \$346,173.

"The amount expended for construction and equipment during the year was as follows: Coal department (for mine improvements), \$31,951; coke department (for new ovens at El Moro and Crested Butte), \$27,46z; iron and steel department, \$32,922; iron mines' department, \$29,491; real estate department, \$57,-224; general department, \$168—total, \$779,222.

"Arrangements were made in the early part of the year fotake np and cancel the remaining outstanding bonds of the Central Co'orado Improvement Company. To do this it was necessary that the Company should sell some of the Colorado Coal & Iron Company or Denver & Rio Grande Railway consolidated bonds held by it. Owing to the weak condition of the stock market this was only possible by making large discounts on the selling price of the bonds. This will explain the heavy items of 'discount on securities sold,' and 'interest, discount and exchange,' which appear in the financial statement. This old mortgage has now, however, been finally disposed of, and enough securities sold to wipe out the large items of 'bills payable' and 'accounts payable' which appear on th

GENERAL INVESTMENT NEWS.

Atlantic & Pacific.—It is reported that an agreement has been entered into by a N. Y. syndicate to take 100,000 shares from the company at 15, with an option on another

100,000 at 20. It is supposed that, on completion of the trade, the money will be used to liquidate in part the floating of tigation of the Atlantic & Pacific Company to the Atlantic and the St. Louis & San Francisco companies. The Atlantic & Pacific was completed to the Colorado River May 30. The bridge will be completed in a few days.

Central of Now Jeracy.—The accurities deposited with Receiver Little to accure the \$2,000,000 of floating debt of the Jeracy Central consisted of \$1,000,000 first series new committed bonds of the Reading Company and \$2,000,000 of the second series. He certified that the market value of these bonds was "upwards of \$2,000,000."

"upwards of \$2,000,000."

At a conference between President Gowen, of the Philadelphia & Reading Railroad, President Little, of the Central Railroad of New Jersey, and holders of the income bonds of the latter company, an agreement was reached for the settlement of the back interest on the bonds. It was agreed that the bondholders should receive in settlement of their claim for back interest 10% per cent in scrip bearing 0 per cent interest, and convertible after 1885 into atock of the company; that the company should walve its right of redemption before the maturity of the bonds in 1908, and make them also convertible after 1885 into atock, and that the bonds should be entitled, hereafter, to 6 per cent instead of 7 per cent interest. The payments under this agreement are guaranteed by the Philadelphia & Reading Railroad in accordance with the provisions of the lease of the Jersey Central.

Chicago & Northwestern.—A dispatch from Chicago, June 7.

chicago & Northwestern.—A dispatch from Chicago, June 7, said: "At a meeting of the directors of the Chicago & Northwestern Ralway, in session here, the following directors were re-elected: Sidney Dillon, D. O. Mills, John M. Burke, M. Hughitt and N. R. Fairbank, the latter being elected in place of David Dows, who declines re-election. Total number of votes cast, 324,782. Articles of consolidation were unanimously adopted with the Chicago Milwaukes & Northwestern Railway and the Elgin & State Line Railroad Company, which were formerly proprietary lines. The board declared a dividend of 3½ per cent on common stock and a quarterly dividend of 2 per cent on preferred stock, payable June 28. The transfer books close June 15 and open June 30."

close June 15 and open June 30."

Chicago Rock Island & Pacific.—At the annual meeting of the stockholders, held in Chicago, June 6, there were represented 351,424 shares, out of a total stock vote of 419,800. The following directors were elected for three years: A. G. Dulman, Benjamin Brewster, R. P. Flower and George G. Wright. The new board of directors assembled for re-organization and to elect officers for the ensuing year. Mr. Hugh Riddle was re-nominated for the position of President, but peremptorily declined a re-election, and Mr. R. R. Cable, the Vice-President and General Manager of the road, was elected as his successor. The following Executive Committee was elected: Hugh Riddle, chairman; David Dows, F. H. Tows, R. P. Flower and R. R. Cable.

Chic. St. Paul Minneanelis & Omaha—The following poster.

Chlc. St. Paul Minneapolis & Omaha.—The following notice was sent to the Stock Exchange:

was sent to the Stock Exchange:

To the President of the New York Stock Exchange.—Notice is hereby given that the Chicago St. Paul Minneapolls & Omaha RR. Co. will issue at its convenience, after thirty days from date, an additional amount of capital stock at the rate of \$10,000 per mile of preferred stock and \$15,000 per mile of common stock, as anthorized by its articles of consolidation, for construction of 50 43-100 miles of new initrond—viz. 40 45-100 miles from the Superior Branch line is Wisconsin, 10 miles of Bayfield line in Wisconsin, upon which lines consolidated bonds of the company were recently issued and listed. Amount preferred stock will be 5,043 shares, amounting to \$756,400.

M. L. Sykes, Vice-President and Treasurer.

Elizabeth City Debt. —A final confurence between the citizence.

Elizabeth City Debt.-A final conference between the citizens and John Davidson, Chairman of the Bondholders' Committee, was held June 1. There was a long discussion of the city debt question. The lifty-cent plan, on which nearly \$1,000,000 have paeston. The nity-cent plan, on which hearty \$1,000,000 have been exchanged, was rejected by the bondholders. The ultimatum of the meeting was a suggestion of a plan of settlement, levying 3 per cent taxes on the present valuation of Elizabeth property, 1 per cent to be paid bondholders as interest, 1 per cent for city expenses, and the rest for State and county, the bonds to be refunded at their face value, with accrued interest, and to run 40 years. It is not certain that this will be accorded. this will be accepted.

New York West Shore & Buffalo,-On Jame 4 this import-New fork west shore & Bundio.—On June 4 this important railroad was opened for passenger traffic between Jersey City and Newburg. By an arrangement with the Pennsylvania Railroad that company's depot at Jersey City is used for the arrival and departure of trains. It is also contemplated to run through trains between Saratoga and Long Branch by way of the Pennsylvania line, after the West Shore Road is opened to Saratoga. The officers of the company expect to open the line to Albany and Saratoga by July 1. The principal stations as I the distances between Albany and Jersey City are as follows:

Penusylvania Railroad.—At Harrisburg, June 1, the organization of the Pennsylvania Schuylkill Valley RR. Company was completed by the filing at the State Department of articles of merger and consolidation between the Philadelphia Norristown & Phœnixville, the Phœnixville Pottstown & Reading and the Phœnixville & West Chester RR. companies. The road will extend from Philadelphia to Reading, and is controlled by the Pennsylvania RR. Company. The new company's capital is \$4,500.000. the Pennsylvis \$4,500,000.

Phila. & Reading—Lehigh Coal & Nav. Co.—The agreement between the Lehigh Coal & Navigation Co. and the Philadelphia & Reading Railroad Co., in reference to the lease of the Lehigh & Susquehanna Railroad, has been signed by the parties in interest, though the full details are not yet made public. It is claimed by purchasers of Jersey Central stock that this agreement is beneficial to them, as it provides for the development of the Lehigh & Wilkesbarre coal lands, which will insure a steady increase of receipts for the coal business of the road. The different accounts of the arrangement agree that the 33 per cent guarantee is not to fall below the rental paid last year, which was \$1,445,190, and which, allowing for the increased net profits on Lehigh coal, will be sufficient to pay fixed charges and 8 per cent dividends hereafter. A maximum limit was also agreed upon, the particulars of which have not yet transpired. Rome Watertown & Ogdensburg.—At Watertown, June 6,

agreed upon, the particulars of which have not yet transpired.

Rome Watertown & Ogdensburg.—At Watertown, June 6, at the annual meeting of the stockholders, the following directors were elected: Charles Parsons, Clarence S. Day, Lucius Lyon, Charles Parsons, Jr., J. Y. A. Johnson, Edwin Parsons, William Lummis and Walter Fergnson, of New York; George B. Phelps and Talcott H. Camp, of Watertown; John S. Farlow, of Boston; William M. White of Utica, and Josiah Lassell, of Williamsburg. Mr. Charles Parsons, of New York, has become a large owner of the stock of the road. The new board of directors elected the following officers: President, Charles Parsons; Vice-President, Clarence S. Day; Secretary and Treasurer, J. A. Lawyer; executive committee, Charles Parsons, Clarence S. Day, John S. Farlow, T. H. Camp, W. M. White, Charles Parsons, jr., and William Lummis. Only three of the present directors were members of the former board: Talcott H. Camp, of Watertown; William M. White, of Canaseraga, and John S. Farlow, of Boston. By this change of management the road is removed from the control of the Delaware Lackawanna & Western Railroad.

—The Georgeal Term of the Superior, and Supreme control

& Western Railroad.

—The General Term of the Superior and Supreme courts have decided that the dividend on the income bonds of this company was properly declared by the board of directors.

Toledo Cinclinati & St. Louis.—The first meeting of the stockholders of the consolidated company took place in Toledo May 30, with a representation of 235,000 shares, of which the Cinclinati party voted 41,000, Mr. Netter voting over \$2,225,000 par value. Messrs. Albert Netter, of Cincinnati, C. A. King, of Toledo, and W. R. Patton, of Illinois, were elected directors in place of Eastern men retiring, so that the directory now stands: C. A. King, Toledo; A. Netter, Cincinnati; E. B. Phillips, Boston; H. D. Hyde, Boston; J. McNab, Connecticut; W. D. Hobbs, Boston; D. H. Darling, Boston; S. C. Blanchard, Boston; W. R. Patton, Charleston, Ill; G. C. Moses, Boston; Geo. Wm. Ballon, Boston; Chas. H. Pierce, Boston; Willard White, New York. The stockholders then adopted a code of by-laws and adjourned.

In the afternoon the board organized by the election of the following officers: E. B. Phillips, President; Willard White, Vice-President; E. B. Dwight, General Manager; Herbert Steward, Secretary and Treasurer.

Union Pacille.—Judge Lawrence, First Controller of the

Union Pacilic,—Judge Lawrence, First Controller of the Treasury in Washington, has given an opinion in the matter of the right of the Utah & Northern Railway Company to payment for services rendered in carrying mails for the United States. He holds as follows:

States. He holds as follows:
1. The act of March 3, 1673, as carried into section 5,260 of the Revised Statues, gives no right to any officer of the Government to withhold from a railway company which did not receive aid in subsidy bonds of the United States the payment in compensation earned by it in carrying mails, even though such company is "controlled" by a bond subsidized railway com-

company is "controlled" by a bond subsidized railway company.

2. Neither the so-called Thurman act of May 6, 1878, nor the act of March 3, 1879, gives any authority to withhold such compensation from a railway company which received no aid in subsidy bonds of the United States.

3. The statutes relating to the bond-subsidized Pacific Railway companies do not repeal or in any manner interfere with the statutes giving jurisdiction to accounting officers of the Treasury Department.

4. The Utah & Northern Railway Company is entitled to payment from the United States for its services in carrying the mails of the United States in pursuance of the regulations of the Post Office Department.

This decision is in favor of the Pacific Railroad companies in the long-pending controversy as to their right to receive payment in cash for transportation services to the Government on the leased or otherwise non-subsidized portions of their respective lines.

Vermont & Mass.—This company's issue of \$1,000,000 new 5 per cent bonds, guaranteed by the Fitchburg Co., lessee, has been taken by that enterprising corporation the Maverick Nat'l Bank of Boston, at 110. Of this issue \$550,000 will be used to pay off the old bonds maturing on July 1, the balance to re-pay the lessee for advances made for additional tracks and other improvements. improvements.

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, June 8, 1883.

The weather during the past week has been summer-like and very warm, greatly to the benefit of the crops in nearly all sections. The spring season for business is brought to a close with rather unsatisfactory results; but a good fall trade is anticipated from the reduction in taxation, good yields of agricultural products, and a lower range of values for nearly all standards. all staples.

The following is a statement of the stocks of leading articles of domestic and foreign merchandise at dates given:

[1883.	1893.	1882.

The advance in cotton for future delivery at this market at the date of our last was followed by a steady decline throughout Saturday, Monday and Tuesday, continuing down to near the close of Wednesday, when some re-action set in. The depression was caused by the greatly improved crop accounts and dull Liverpool advices. The re-action was the effect of a demand to cover contracts, encouraged somewhat by conjectures that the forthcoming Bureau report will be unfavorable, Still, the recovery in values made but little progress, and tho feature of Thursday was a smart decline in options for tho next crop. To-day, under weak accounts from Liverpool and Manchester and continued favorable crop accounts, there was a fresh decline for all deliveries, but the close was steady, with a moderate demand to cover contracts. Cotton on tho spot has been quiet. A large business was reported for export on Wednesday, but transactions have been small, and mainly for home consumption. Quotations were reduced 1/ac. on Tuesday. To-day the market was dull and weak, but without quotable decline, middling uplands closing nominal at 10% c.

The total sales for forward delivery for the week are 370,500 bales. For immediate delivery the total sales foot up this week 3,553 bales, including 2,500 for export, 1,053 for consumption, for speculation and — in transit. Of the above, — bales were to arrive. The following are the official quotations for each day of the past week.

RECEIPTS FROM THE PLANTATIONS.—The following table is prepared for the purpose of indicating the actual movement each week from the plantations. Receipts at the outports are sometimes misleading, as they are made up more largely one year than another at the expense of the interior stocks. We reach therefore, a safer conclusion through a comparative statement like the following. In reply to frequent inquiries we will add that these figures, of course, do not include overland receipts or Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the out-ports. RECEIPTS FROM THE PLANTATIONS.—The following table

RECEIPTS	RROM	PLANT	RIGHT

RECEIPTS FROM PLANTATIONS.										
Week	Receip	ts at the	Ports.	St'k at l	Interior	Towns.	Rec'pts from Plant'ne			
ending-	1881.	1882.	18/3.	1881.	1882.	1883.	1581.	1882.	13:9,

" 11	49,150	25,881		191,683				10,184	34,134	
• 18	42,415	20,864		174,809			22,582		19,905	
4 25	33,851	13,981	33,539	117,173				2.564	80,233	
June 1	32,642	13,050	30,426	138 470		114.679		5,517	19,540	
es 8	39,432	15,624	25,456	109.380	85,394	105,126	2,342	5,433	16,703	

The above statement shows—1. That the total receipts from the plantations since September 1, 1882, were 5,937,024 bales; in 1831-82 were 4,610,482 bales; in 1880-81 were 5,665,016 bales.

2. That, although the receipts at the out-ports the past week were 25,456 bales, the actual movement from plantations was only 16,703 bales, the balance being taken from the stocks at the interior towns. Last year the receipts from the plantations for the same week were 5,433 bales and for 1881 they were 2,242 bales. were 2,342 bales.

Amount of Cotton in Sight June 8—In the table below we give the receipts from plantations in another form, and add to them the net overland movement to June 1, and also the takings by Southern spianers to the same date, so as to give substantially the amount of cotton now in sight.

	1882-93.	1891-82.	1880-81.	1879-80.
Receipts at the ports to June 8.	5,817,593	1,572,513	5,591,474	4,781,696
Interior stocks on June 8 in excess of September 1	89,441	37,959	70,51.	109,766
Tot. receipts from plantat'ns	5,1:37.024	4,610,482	3,565,010	1,490,462
Net overland to June 1	627,317 300,000	413,152 221,034	498,63± 190,000	Charles & seal
	6,861,341	5,279.631	6,353,948	5,611,300

It will be seen by the above that the increase in amount in sight to-night, as compared with last year, is 1,583,707 bales, as compared with 1830-31 is 510,693 bales and with 1879-90, 1,253,041 bales.

WEATHER REPORTS BY TELEGRAPH.—The weather has in general been very favorable for crop purposes during the week. There have been beneficial rains and fine growing weather most sections. Blooms are reported in the Southern

weather in most sections. Blooms are reported in the Southern half of Texas.

Galveston, Texas.—We have had showers on four days of the week, the rainfall reaching thirty-four hundredths of an inch. Most sections of the State have had beneficial rains this week, but generally there has not been enough; more rain will be needed everywhere within a week. Crops are promising, but the out-turn depends altogether upon timely rains. Blooms are reported throughout the southern half of the State. Average thermometer 77, highest 88 and lowest 68.

Indianola, Texas.—It has been showery on three days of the week, the rainfall reaching fifty hundredths of an inch. Cotton is doing well enough, but corn needs more rain. The thermometer has averaged 79, the highest being 89 and the lowest 69.

lowest 69.

Dullas, Tewas.—It has rained splendidly on three days of the week, though interrupting the wheat harvest. The rainfall reached three inches and six hundredths. Crops are very promising. The thermometer has averaged 79, ranging from promising. 65 to 93.

Brenham, Texas.—We have had showers on four days of the week the rainfall reaching eighty-nine hundredths of an inch. Crops are exceedingly good, but will need more rain, especially on sandy lands. The thermometer has ranged from 65 to 95, averaging 80.

Palestine, Texas.—We have had delightful showers on three days of the week, which, from the indications, must have extended over a wide surface. The rainfall reached four inches and sixty-six hundredths. Crops could not be more promising than they now are. Average thermometer 77, highest 00 and lowest 04.

Huntsville, Texas.—Delightful showers have visited this section on three days of the week, the rainfall reaching three inches and thirteen hundredths. Crops are excellent and farmers are greatly encouraged. The thermometer has averaged 78, the highest being 94 and the lowest 62.

Weatherford, Texas.—We have had a splendid shower on one day of the week, the rainfall reaching one inch and fifty hundredths. Crops are unquestionably good; wheat is turning out better than expected. The increase in cotton acreage is about ten per cent. The thermometer has averaged 71, ranging from 50 to 91. about ten per cent. ing from 50 to 91.

ing from 50 to 91.

Bellon, Texas.—It has been showery on two days of the week, the rainfall reaching eighty hundredths of an inch. The crop promise is first-class; wheat harvest, now progressing, will be nearly up to average. The thermometer has ranged from 66 to 94, averaging 80.

Luling, Texas.—We have had rain on one day of the week, but not enough to do much good. The rainfail reached fifty hundredths of an inch. We need more rain badly; early corn is injured beyond recovery; late corn looks well, but it and cotton both need rain badly. Farmers are becoming very nervous about the prospect. Average thermometer 82, highest 99 and lowest 67.

New Orleans, Louisiana.—We have had rain on six days

New Orleans, Louisiana.—We have had rain on six days of the week, the rainfall reaching one inch and eighty-three hundredths. The thermometer has avaraged 72.

Shreveport, Louisiana.—The weather has been cloudy during the week with heavy rains, the rainfall reaching four naches and forty hundredths. The thermometer has ranged from 64 to 89.

Vicksburg, Mississippi.—It has rained on four days of the week. The crop is developing promisingly; crop accounts are more favorable.

week. The crop is developing promisingly; crop accounts are more favorable.

Columbus, Mississippi.—We have had rain on two days of the week, and the remainder of the week has been cloudy. The rainfall reached one inch and forty-one hundredths. Average thermometer 78, highest 96 and lowest 57.

Little Rock, Arkansas.—We have had rain on five days and it has been clear on two days of the week. The rainfall reached two inches and twenty-seven hundredths. So much rain is preventing the proper working of crops, which otherwise are in good condition. The thermometer has averaged 69, the highest being 82 and the lowest 61.

Memphis, Tennessee.—We have had light showers on five days of the week, the rainfall reaching thirty-eight hundredths of an inch. Since the close of May we have had fine, growing weather, and crop prospects are now encouraging. The thermometer has averaged 74, ranging from 57 to 90.

Nashville, Tennessee.—It has rained on five days of the week, the rainfall reaching one inch. The thermometer has ranged from 55 to 87, averaging 74.

Mobile, Alabama.—We have had delightful showers on two days of the week, and the indications are that they extended over a wide surface. The rainfall reached thirty-nine hundred.

mobile, Alabama.—We have had delightful showers on two days of the week, and the indications are that they extended over a wide surface. The rainfall reached thirty-nine hundraths of an inch. The crop is developing promisingly. Average thermometer 79; highest 91; lowest 70.

Montgomery, Alabama.—It has rained constantly on four days of the week, the rainfall reaching one inch and three hundredths. The crop is developing promisingly, and the fields are clear of weeds. The thermometer has averaged 75.

Belma, Alabama.—It has rained on one day of the week, and the remainder of the week has been pleasant. The rainfall reached fifty hundredths of an inch. The thermometer has averaged 74, ranging from 60 to 83.

Madis m. Florida.—It has rained on four days of the week. We have secured a good stand of cotton, and the plant looks strong and healthy. Crop accounts are more favorable, and good progress is being made in clearing the fields of weeds. The thermometer has ranged from 75 to 90, averaging 82.

Macon, Georgia.—We have had rain on two days of the week, which was beneficial. The fields are clear of weeds and the cotton plant looks strong and healthy. Average thermometer 76; highest 87; lowest 62.

Columbus, Georgia.—It has rained on three days of the cotton plant looks strong and the cotton plant looks strong and healthy. Average thermometer 76; highest 87; lowest 62.

Columbus, Georgia.—It has rained on three days of the

ter 76; highest 87; lowest 62.

Columbus, Georgia.—It has rained on three days of the week, the rainfall reaching one inch and seventy-one hundredths. The thermometer has averaged 80, the highest being

92 and the lowest 70. Savannah, Georgia.—It has rained on four days, and the balance of the week has been pleasant. The rainfall reached fifty hundredths of an inch. The thermometer has averaged fifty hundredths of an inch.

77, ranging from 65 to 88.

Augusta, Georgia.—The weather has been warm and sultry with general rain on two days, which was very beneficial to crops. The rainfall reached one inch and lifty-five hundredths. Cotton is fully two weeks behind; stands are poor, but the fields are clear of weeds. With good seasons from this time forward, more favorable developments are looked for, The thermometer has ranged from 64 to 91, averaging 77.

Allanta, Georgia.—Telegram not received.

Charleston, South Carotina.—It has rained on two days of

the week, the rainfall reaching seventy hundredths of an inch The thermometer has averaged 76, the highest being 85 and the lowest 64.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 3 o'clock June 7, 1883, and June 8, 1882.

	June 7, '83.		June 8, '82.	
New Orleans	1 25 11 14	Inch. 8 11 5 9 10	Feet. 2 32 13 19 41	Ineh. 6 2 7 5 5

New Orleans reported below high-water mark of 1871 until Sept. 9, 1874, when the zero of gauge was changed to high-water mark of April 15 and 16, 1874, which is 6-10ths of a foot above 1871, or 16 feet above low-water mark at that point.

AND IN TO feet above low-water mark at that point.

A INDIA COTTON MOVEMENT FROM ALL PORTS.—We have during the past year been endeavoring to rearrange our India service so as to make our reports more detailed and at the same time more accurate. Hitherto we have found it impossible to keep out of our figures, as cabled to us for the ports other than Bombay, cargoes which proved only to be shipments from one India port to another. The plan we have now adopted, as we have reason to believe, will relieve us from the danger of this inaccuracy and keep the totals correct. We first give the Bombay statement for the week and year, bringing the figures down to June 7.

BOMBAY RECEIPTS AND SHIPMENTS FOR FOUR YEARS.

	Shlpm	ents thu	s week.	Shipm	en!« sine	Receipts.		
Year	Great Brit'n.	Conti- nent.	Total.	Great Britain	Conti- nent.	Total.	This Week.	Since Jan. 1
1882 1881	18,000	26,000 14,000	$\frac{14,000}{24,000}$		163,000 411,000	1.111,000 628,000	63.000 46,000	975,000

According to the foregoing, Bombay appears to show an increase compared with last year in the week's receipts of 8,000 bales, and an increase in shipments of 19,000 bales, and the shipments since January 1 show a decrease of 91,000 bales. The movement at Calcutta, Madras and other India ports for the last reported week and since the 1st of January, for two years, has been as follows. "Other ports" cover Ceylon, Tuticorin, Knrrachee and Coconade. Kurrachee and Coconada.

	Shtpme	nts for t	he week.	Shipments since January				
	Great Britain.	Conti- nent.	Tatal.	Great Britain.	Canti- nent.	Tatal		
Calcutta— 1883 1882 Madras—	1,000 1,600	1,200	1.000 2,800	62,500 96,100	9,100 31,500	71,600 127,600		
1883 1882 All others—	*****		******	4,500 16,800	1,000 2,000	5,500 18,800		
1883 1882	*****	1,000	1,000	4,000 24,000	2,000 5,900	6,000 29,900		
Total all— 1883 1882	1,000 1 600	2.200	1,000 3,800	71,000 136,900	12,100 39,400	83,100 176,300		

The above totals for the week show that the movement from the ports other than Bombay is 2,800 bales less than same week last year. For the whole of India, therefore, the total shipments since January 1, 1883, and for the corresponding periods of the two previous years, are as follows:

EXPORTS TO EDROPE FROM ALL INDIA

Shipments	1.8	383.	18	382.	1881.					
to all Europe from-	This week.	Since Jan. 1.	This week.	Sinee Jan. 1.	This week.	Since Jan. 1.				
BombayAll other p'rts.	25,000 1,000	1,020,000		1,111,000 176,300		628.000 168,200				
Total	26,000	1,103,100	47,800	1.287.300	24.000	796 200				

This last statement affords a very interesting comparison of the total movement for the three years at all India ports.

ALEXANDRIA RECEIPTS AND SHIPMENTS. Through arrangements we have made with Messrs. Davies, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years. of the previous two years.

Alexandria, Egypt, June 7.	1882-83.	1881-92.	1880-81.		
Receipts (cantars*)— This week Since Sept. 1	2,000 2,251,000	3,000 2,831,720	1,500 2,757,500		
	This Since Sept. 1.	This Since week. Sept. 1.	This Since week. Sept. 1		
To Liverpool To Continent	1,000 230,000 1,000 85,000	1,500 242,700 2,000 174,871	1,250 234,000 139,632		
Total Europe	2,000 315,000	3,500 417,571	1,250 373,632		

^{*} A cantar is 98 lbs.

This statement shows that the receipts for the week ending June 7 were 2,000 cantars and the shipments to all Europe were 2,000 bales.

MANCHESTER MARKET.—Our report received from Manchester to-night states that the market is dull, with a declining tendency. We give the prices of to-day below, and leave previone weeks' prices for comparison.

EUROPEAN COTTON CONSUMPTION TO JUNE 1.—We have received by cable to-day Mr. Ellison's cotton figures brought down to June 1. The revised totals for last year have also been received, and we give them for comparison. The takings by spinners, in actual bales and pounds, have been as follows.

Fram Oct. 1 to June 1.	Great Britain.	Cantinent.	Total.
For 1882-3.			
Takings by spinnersbales	2,476,000	2,527,000	5,003,000
Average weight of bales	440		
Takings In pounds	1,089,440,000	1,076,502,000	2,165,042,000
For 1881-2.			
Takings by spinnersbales	2,431,420	2,102,300	4,533,720
Average weight of bales	433	425	
Takings in pounds	1,052.804,860	893,477,500	1,946,282,360

According to the above, the average weight of the deliveries in Great Britain is 440 pounds per bale to June 1, against 433 pounds per bale during the same time last season. The Continental deliveries average 426 pounds, against 425 pounds last year, and for the whole of Europe the deliveries average 433 pounds per bale, against 429 pounds during the same period last season. In the following table we give the stock held by the mills, their takings and their consumption, each month since October 1, all reduced to bales of 400 pounds each for this season and last season. It is a very convenient and useful summary.

Oct. 1 to June 1.	•	1892-3.		1881-2.			
Bales of 400 lbs. each. 000s amilted.	Great Britain.	Conti- nent.	Tatal.	Great Britain.	Canti- nent.	Talat.

Takings in May	348,	469,	817,	372,	384,	756,	
Total supply	646,	940,	1,586,	557,	704,	1,261,	
Consump. May, 5 wks	360,	315,	675,	350,	295,	645,	
Spinners' stook June 1	236,	625,	911,	207,	109,	616.	

A more striking comparison with last year is reached by bringing together the above totals and adding the average weekly consumption up to the present time for the two seasons

Oct. 1 to June 1.		1892-3.		1881-2.			
Bales of 400 lbs. each. 000s omitted.	Areat Britain	Conti- nent.	Total.	Great Britain	Continent. Total		
Spinners' stock Oct. 1. Takings to June 1		139, 2,691,	221, 5,415,	25, 2,6112,	240, 2,231,	265, 4,860,	
8apply Consumpt'n 35 weeks	2,808, 2,520,	2,830, 2,205,		2,657, 2,450,	2,474, 2,065,	5,131, 4,515,	
Spluners' stock June 1	286,	625,	911,	207,	409,	616,	
Weekly Consumption. 00s omitted.							
In October	72,0	03,0	133,0	70.0	58,0	129,0	
In November	72,0	63,0	135,0	70,0	58,0	123,0	
In December	72,0	63,0	135,0	70,0	58,0	128,0	
In January	72,0	63,0	135,0	70,0	58,0	129,0	
In February	72,0	63,0	135,0	70,0	58,0	123,0	
In March	72,0	63,0	133,0	70,0	58,0	128,0	
In April	72,0	63,0	135,0	70,0	59,0	129,0	
In May	72,0	63,0	133,0	70,0	59,0	129.0	

The foregoing shows that the weekly consumption in Europe is 135,000 bales of 400 pounds each, against 129,000 bales of the same weight at the corresponding time last year.

Mr. Ellison again revises the Continental consumption by adding 1,000 bales of 400 pounds each per week for the whole

NEW YORK COTTON EXCHANGE-ANNUAL ELECTION.-The annual election for officers of the New York Cotton Exchange was held on Monday, June 4. There were several tickets in the field, and in consequence there was considerable scratching. The officers elected were as follows: President, M. B. Fielding; Vice-President, Siegfried Gruner; Treasurer, Walter T. Miller. Board of Managers-Mayer Lehman, James F. Wenman, Geo. E. Moore, K. M. Mnrchison, James Swaun, J. H. Hollis, P. A. Fachiri, Thomas Scott, G. C. Hopkins, J. M. White, Jr., W. V. King, Wm. H. Woods, H. M. LeConnt, E. R. Robertson and J. P. Billnps. Trustees Gratuity Fund— Emanuel Lehman, Nicholas Gwynn and B S. Clark. Inspectors of Election-J. A. Boylan, A. G. Mann, Jr., W. W. Hill, Jr.

The Board of Managers met Thursday afternoon, June 7, Mr. M. B. Fielding presiding, and re-elected Mr. George E. Moore Secretary and Mr. Powers Superintendent. Messrs. Thomas Scott, James Swann, P. A. Fachiri, James F. Wenman and Mayer Lehman were appointed a committee to arrange standing com-mittees, after which the Board adjourned until Monday.

Overland Movement to June 1.—In our editorial columns will be found our overland movement, receipts, exports and spinners' takings to June 1.

spinners' takings to June 1.

JUTE BUTTS, BAGGINO, &C.—Bagging is firmly held by dealers, and no disposition is shown to force goods on the market, as with the present demand it would be hard to place any quantity except at a figure that would not be accepted. The demand for small parcels has been good, however, and in the aggregate considerable stock is being worked off. At the close the asking figures are 9½c, for 1½ lbs., 9½c, for 1½ lbs., 10½c. for 2 lbs. and 11½c. for standard grades. Butts have been in steady jobbing demand, and sales are reported of 1,000 bales of various grades at full rates, with holders quoting 1½@3c. for paper grades and 2@2%c. for bagging quality. The stock on hand here and in Boston is 75,000 bales, which with the quantity on the way as reported to May 31st makes up a total visible supply of 261,186 bales.

Comparative Port Receipts and Daily Crop Movement.—

COMPARATIVE PORT RECEIPTS AND DAILY CROP MOVEMENT. A comparison of the port movement by weeks is not accurate as the weeks in different years do not end on the same day of the month. We have consequently added to onrother standing tables a daily and monthly statement, that the reader may constantly have before him the data for seeing the exact relative movement for the years named. The movement each month since September 1, 1882, has been as follows.

Monthly	14	Year	Reginnin	g Septembe	er 1.		
Receipts.	1882	1881.	1880.	1879.	1878.	1877.	
Sept'mb'r	326,656	429,777	458,478	. ,	283,815	98,491

2,059 bules doducted as correction of previous receipts.

This statement shows that the receipts since Sept. I up to to-night are now 1,273,053 bales more than they were to the same day of the month in 1882 and 262,474 bales more than they were to the same day of the month in 1881. We add to the table the percentages of total port receipts which had been received to June 8 in each of the years named.

Shipping News.—The exports of cotton from the United States the past week, as per latest mail returns, have reached 54,854 bales. So far as the Southern ports are concerned, these are the same exports reported by telegraph, and published in the Cheonicle last Friday. With regard to New York, we include the manifests of all vessels cleared up to Thursday night of this week:

	i bales.

BREADSTUFFS.

FRIDAY. P. M., June 8, 1883. Flour has latterly been quiet, and, owing to this fact and a declining wheat market, prices have been depressed. The higher grades of spring and winter patents are the best sustained, for the reason that they are in moderate supply. Winter ground flour, as usual at this time of the year, is pressed for sale. Today the market was quiet but about steady for the commoner brands that are most available for export, though the higher grades were to a great extent nominal.

Wheat has been fairly active on speculation and for export. Prices have fallen about two cents per bushel, mainly owing to a decline at the West, where improved crop prospects are reported in Minnesota, Wisconsin, Kansas, Michigan, Iowa, Nebraska and Dakota. There has been considerable covering of shorts both here and in Chicago, at the lower prices. To-day the market here declined 40%c. at the opening, but later recovered and advanced as much. No. 2 red sold at \$1 20%0 \$1 21% for June, \$1 22½0\$1 23% for July, \$1 24%0\$1 25% for August, \$1 26½0\$1 27% for September and \$1 28%0\$1 29% for October.

Indian corn has sold quite freely at times for export, but the speculation has not gone beyond a fair aggregate. Prices for options have declined from 1 to 2 cents per bushel, the greater decline being on the later deliveries. This decline is largely due to sympathy with the wheat market, though larger receipts and lower prices at Chicago, not to mention the encouraging weather at the West, have had no slight effect. To-day the market was irregular, opening weak but re-acting later and advancing \(\frac{1}{4} \)@\(\frac{3}{4} \)c. No. 2 mixed was quoted at \(65 \)\(\frac{1}{2} \)@\(65 \)6c. for June, and sales were made at \(65 \)\(\frac{3}{4} \)@\(66 \)6c. for July and \(66 \)6c. for August.

Rye has been firmer and quiet. Barley is neglected. Oats have been fairly active, and though at one time depressed, have within a day or two re-acted and advanced slightly. There has been a disposition latterly to cover contracts, both here and in Chicago, and large transactions at the latter market gave prices more strength. No. 2 mixed sold here at 46\%\@47\\day{6477\day{647\\day{6477\

THE DRY GOODS TRADE.

FRIDAY, P. M., June 8, 1883.

The situation in the dry goods trade has not undergone any material change the past week. Business continued very quiet in commission and jobbing circles, but not more so than is usually the case at this stage of the season, and a somewhat better feeling has prevailed in regard to the future, because of encouraging reports about the growing crops. Under the influence of warm weather, the retail trade has at length started up briskly, and jobbers have consequently experienced a slightly improved demand for small re-assortments through the |

medium of mail and telegraphic orders, but there were comparatively few buyers in the market; hence the volume of business done by jobbers was only moderate. The condition of the woolen goods market continues unsatisfactory, and another large offering will be made at auction next wesk, on which occasion 10,000 pieces % and 6-4 cassimeres, etc., will be sold without reserve to the highest bidders.

DOMESTIC COTTON GOODS .- The exports of domestics for the week were 1,940 packages, including 1,504 to Great Britain, 161 to Chili, 74 to Haytl, &c. As a whole the market has been very quiet, but some fair-sized "round lots" of plain and colored cottons were taken by interior jobbers, who are making shipments by cheap water routes, and converters were rather more liberal in their operations. I'rices of the best brown and bleached goods remain fairly steady, but colored cottons are unsettled; and so unprofitable has been the manufacture of these fabrics that several mills have been compelled to pass their usual semi-annual dividends. Print cloths have been dull, and quotations have receded to 35 c. for 64x64s and 3 1-16c. for 56x60s, with more sellers than buyers at these figures. Prints and ginghams were lightly dealt in by package buyers, and

the jobbing trade was only moderate.

Domestic Woolen Goods.—There was a slight tendency towards improvement in the demand for men's-wear woolens in the early part of the week, which was subsequently checked by the announcement of the coming auction sale referred to above. There was a fair movement in fancy cassimeres and worsteds on account of back orders, and a moderate amount of new business was done in the former fabrics, although buyers exhibited great caution in their operations. Overcoatings continued dull, and sales of cloakings were comparatively light. Kentucky jeans were quiet as a rule, but very fair transactions were reported in exceptional cases. Satinets have shown very little reported in exceptional cases. Satinets have shown very little animation, but stocks are in pretty good shape, and prices are fairly steady. Many mills making men's-wear woolens have already curtailed production because of the unsatisfactory state of the market (mainly caused by over-production), and many others are expected to shut down for a time before the close of the present month. Flannels and blankets have met with rather more attention, but actual business has them. with rather more attention, but actual business has thus far

been moderate.

Foreign Dry Goods.—The general demand for foreign goods has been light and unimportant. Dress fabrics specially adapted for summer wear were taken in small lots to a fair amount, but silks and velvets were mostly quiet in first hands. Linens continued slow of sale, but specialties in white goods, as dotted Swisses, &c., met with fair sales, and Spanish laces were fairly active in some quarters.

Importations of Dry Goods,

The importations of dry goods at this port for the week ending June 7, 1883, and since January 1, and the same facts for the corresponding periods of 1882, are as follows:

10.	• • • • • • • • • • • • • • • • • • • •	for the corresponding periods of 1002, are as follows:

Publications.

"Its Value Increases Every Year."

THE GREATEST LIVING Anthors, such as Prof. May Muller, Rught Han. W. E. Gladstone, Jns. A. Froude, Prof. Huxley, H. A. Practar Edward A. Freeman, Prof. Tyndad, Dr. W. B. Chruenter, Frances Fower Cabbe, Professor Goldwin Smith, The Duke of Argyll, Wm. Minck, Miss Thackerny, Mrs. Mulnek-Crulk. Geo. MincDounld, Wrs. Cliphant, Jenn Ingelow, Thes. Hardy, W.H. Minllock, W.W. Stnry, Matthew Arnald, Ruskin, presented in the pages of

LITTELL'S LIVING AGE.

THE LIVING AGE has been published for nearly forty years, and has met with continuous commen-dation and auccess. Weekly Magazine, it gives more

THREE AND A QUARTER THOUSAND

double-column octavo pages of reading matter year-ly. It presents in an inexpensive form, considering its great amount of matter, with freahness, owing to its weekly issue, and with a satisfactory completeness attempted by no other publication, the best Essays, Reviews, Crit cisms, Serial and Short Storics, Stetches of Travel and Discovery, Poetry, Scientific, Biographical, Historical and Political Information, from the entire body of Foreign Periodical Literature odical Literature.

It is therefore invaluable to every American reader, as the only satisfactorily tresh and COM-PLETE compliation of an indispensable current literature,—indispensable because it embraces the productions of

THE ABLEST LIVING WRITERS

THE ABLEST LIVING WRITERS

n'all branches of Literature, Science, Politics and Art.

"In it we find the best productions of the best writers upon all subjects ready to our hand."—
Phila, Enquirer.

"It is indispensable in every household where any attempt is made to keep up with the current thought of the day."—Hartford Courant.

"As much in the orefront of eelectic publications as at its start, forty years ano."—Cincinnati Gozette.

"As much a necessity as ever."—The Advance Concago.

"It affords the best, the cheapest, and most convenient means of seeping abreast with the progress of thought in all its phases."—North American, Philadelphia.

"The great eelectic of the world."—Morning Star Wilmington, N. C.

"The best of magazines to subscribe to."—Mont real Gazette.

"LITTELL'S LIVING AGE bas now for many years held the first place of all our secial publications."

"It will be found in it."—The Churchman, New York.

"It stands easily at the head of its class and deserves its prospectry."—The Congregationalist, Boston.

"The ablest essays and reviews of the day are to sefund here."—The Prebyterian, Philadelphia.

"It enables its readers to keep fully ulreast of the best thought and literature of civilization."—Pitistury Christian Advocate.

"There is no other way of procuring the same amount of excellent literature for unything like the same orice."—Boston Advertiser.

"No other periodical can compare with it in interest and value."—Boston Tarveler.

"No reader who makes himself familiar with its contents can lack the means of a sound literary culture."—New York Tribune.

"No other periodical can compare with it in interest can lack the means of a sound literary culture."—New York Tribune.

"No other publication can amply its place," * *

"It contains not only the best soild literature but also the best serial stories of tho day."—Episcopa Register, Philadelphia.
