## THE FINANCIAL SITUATION.

The aspect of affairs still wears a quiet look, and nothing of any importance has occurred during the week mater rially affecting the business prospect. There was a momentary disposition to invest the result of the Ohio election with more than ordinary significance, but the efforts of interested parties in this direction did not meet with the success anticipated, and the matter is already passing out of mind. The proceedings of the Bankers' Convention at Louisville have commanded more attention, serving, as they have, to give prominence to two fiscal questions in pressing need of early solution. The evils arising out of the continued coinage of silver dollars have been fre quently pointed out in these columns, and we have more than once taken occasion to direct public notice to the importance of the continued reduction of our national debt in its bearing upon bank note circulation, for which the debt figures as a basis, so that these subjects will not appear altogether new to our readers, but their significance remains all the same, and it is gratifying to note that our bankers are alive to the necessities of the situation.

this country and in Liverpool, prices continue to evince a downward tendency under accumulating stocks, but it does not appear that the decline has as yet stimulated any export movement of very large proportions. Provisions go out in quite considerable quantities, and the exports of corn remain fairly liberal, but wheat fails to find any demand, even at the low prices prevailing. It would seem that the markets are so choked with wheat that they cannot for the present take any more. As to cotton, a large reduction is now generally admitted, and while this is no doubt an adverse influence with many interests, the effect, both upon producers and upon the world's supply, is likely to be overestimated. The planter will have part compensation in a better price than he otherwise would have obtained, while the world's supply of cotton is certain to be ample for all wants. The prospective loss of cotton traffic, however, is already exerting an unfavorable influence upon the properties of leading Southern roads, and during the week this has been made the basis for sharp attacks upon the same. Meanwhile, present earnings continue good, and our statement for the month of September, given on another page, shows a very satisfactory increase, considering the fact that comparisons are made with a heavy traffic a year ago.

NO. 955.

As bearing upon the trunk lines, the award of percentages by Commissioner Fink in the east-bound pool has attracted not a little attention. It will be remembered that when, early in July, the Nickel Plate and the Chicago & Atlantic were admitted into the pool it became necessary to readjust the percentages, and Mr. Fink, as Commissioner, was given the task of making the new apportionment. This he seems to have done with considerable tact as will appear from the fact that up to the present time none of the roads have appealed from his decision to Mr. Charles Francis Adams, Jr., the arbitrator, as they have a right to do under the pooling arrangement. The following shows the present allotment, which we understand to date back to the 1st of July, as compared with that in force prior to that time. The allotment covers dead freight only, and applies merely to the shipments east from Chicago.

Name of Road.	Present Proportion.	Former Proporti'n	
Michigan Central. Lake Shore. "Nickel-Plate".	1875     1700     800     800	21·25 24·25	
Chicago St. Louis & Pittsburg	19·25 8·00 7·00	$     \begin{array}{r}       25.50 \\       10.00 \\       8.00     \end{array} $	
Grand Trunk Chicago & Atlantic	$     11.00 \\     11.00   $	· 11 00	
Total	100.00	100.00	

It will be seen that the loss under the new allotment falls chiefly upon the Vanderbilt and Pennsylvania sys-In the leading grain and provisions markets, both in tens, which seems not unfair, considering that the two

- [VOL. XXXVII.

new competitors to the old lines for the traffic in question must, by their location, gain mainly at the expense of those. systems. Under the former allotment the Vanderbilt lines —Lake Shore and Michigan Central—had  $45\frac{1}{2}$  per cent of the entire business. Now, if we include the Nickel-Plate as a Vanderbilt line, they have 43.75 per cent. The Pennsylvania lines—the Fort Wayne and the St. Louis & Pittsburg—had 35.50 per cent, but this included on the Fort Wayne the traffic of the Erie now going over the Chicago & Atlantic. In the present arrangement the Pennsylvania lines get  $27\frac{1}{4}$  per cent, and the Chicago & Atlantic gets 11 per cent. It should be said that on live stock traffic the percentages are different, but that traffic is of much smaller importance, and we have not the space for the details here.

For foreign exchange the market has been dull and irregular. Early in the week the demand for sight bills was such as to justify an advance in the short rate, but some of the bankers marked the rate down again on Friday, mainly because of more liberal offerings of a bankers sterling and a less urgent demand. One reason assigned for the early advance was that money was more active in London, but bankers who are in constant communica. tion with that metropolis assert that there has been no material hardening of the rate in the open market, and the last quotation indicated a rise of not more than  $\frac{1}{3}$  of 1 per cent. The advance in the sight rate may therefore be attributed to the temporary scarcity of sight drafts. Commercial bills are still limited, and the best command rates very near bankers' sterling. The more liberal supply of the latter and the offerings of cable transfers within the past few days, are supposed to result from a movement of securities, chiefly prime investment stocks and railroad bonds. The prices of some of the former have been relatively higher in London than here during the week, and reports are current that quite large amounts of New York West Shore & Buffalo bonds have been sent to the Continent. It is believed that the outward movement of securities is now in excess of the importation, and if this should continue it will have a very important influence upon the course of exchange. The following shows relative prices of leading bonds and stocks in London and New York at the opening each dow

\*Expressed in their New York equivalent. †Reading on basis of \$50, par value.

Money remains in abundant supply on call, and there are no present indications of the activity usual at this season. The movement to the East and to Philadelphia appears to be at an end, but the West and South continue to draw upon this centre quite liberally. Out of the 32 millions bonds embraced in the 121st call, the redemptions to October 11 amounted to \$23,669,300, and it is now reported that the Secretary of the Treasury contemplates making another call for the 3 per cents early next week. The following statement, made up from returns collected by us, exhibits the week's receipts and shipments of currency and gold by the New York banks.

Week Ending Oct. 12, 1883.	Received by N.Y. Banks.	Shipped by N.Y. Banks.	Net Interior Movement.
Currency	₹820,000 7,000	*\$2,400,000	Loss.\$1,550,000 Gain. 7,000
Total gold and legal tenders	\$827,000	\$2,400,000	Loss.\$1,573,000

1,575,000 of this was transferred in the shape of silver certificates by a deposit of gold in the Sub-Treasury.

The above shows the actual changes in the bank holdings of gold and currency caused by this movement to and from the interior. In addition to that movement the banks have lost \$520,000 through the operations of the Sub-Treasury. Adding that item, therefore, to the above, we have the following, which should indicate the total loss to the N. Y. Clearing House banks of gold and currency for the week covered by the bank statement to be issued to-day.

Week Ending Oct. 12, 1883.	Into Banks.	Out of Banks	Net Change in Bank Holdings.
Banks' Interior Movement, as above Sub-Treasury operations, net		\$2,400,000 520,000	Loss. \$1,573,000 Loss. 520,000
Total gold and legal tenders	\$\$27,000	\$2,920,000	Loss.\$2,093,000

In the stock market the course of prices has been almost uninterruptedly downward. The official announcement of the determination of the managers of the Northern Pacific to issue a 6 per cent fifty-year second mortgage for 20 millions, subject to the approval of the preferred shareholders, at first had a stimulating effect upon the Villard properties, mainly because it was reported that 18 millions of the bonds could be immediately placed and also for the reason that it was rumored that a prominent speculator had become interested in the property. The short interest in the stocks was well closed out in the rise which ensued, and on Tuesday and Wednesday the speculators for a decline again attacked the properties, but there seemed to be a fair support given them and they did not yield as much as expected.

On Monday cable advices reporting lower prices for grain in Liverpool unsettled the Western markets and unfavorably influenced the stocks of the Granger roads, the theory advanced being that as the fall in Liverpool was reported to be due to an accumulation of stocks, there would be a very light export demand, even though prices should also fall in our markets, and therefore the railroads leading to the grain centres, and the trunk lines east, would have little business. The stocks of the lastnamed roads were also affected by the announcement of the percentages on east bound business and the assertion (yet to be verified) that they were so unsatisfactory to some of the lines that an appeal would be taken to the arbitrator. On Wednesday, and again on Friday, there was a sharp decline in the Texas & Pacific securities, because it was reported that holders of the income bonds, upon which interest has not been paid for the last two years, had demanded payment and threatened legal proceedings in case of further refusal to pay. The decline in Texas & Pacific stock unfavorably influenced the other South westerns, and the shortage in the present year's yield of cotton was also used against these stocks and against the stocks of Southern roads. New York West Shore & Buffalo bonds have exhibited marked strength during the week, owing to reports of purchases for European account, and also because of the transfer of coupon into registered bonds, indicating domestic investments in them. For two or three days the market was turned upward during the last hour of business, showing either that the speculators for a rise were yet in control, or that their opponents were fearful that a sudden advance might be made.

The trading is still confined to the professionals, there being scarcely anything to encourage outside speculation. Even an upward movement sustained by manipulation, if

GR

such were possible in the existing condition of the market, while it might entice the unwary, would not give confidence, since the belief is pretty general that the leaders are heavily loaded and have no interest in the market except to dispose of their holdings. Confidence can only be restored by publication of truthful and prompt reports of earnings, gross and net, and of financial condition, and by managing the properties in the sole interest of their proprietors-the stock and bondholders.

The Bank of England return for the week shows a loss of £492,000 bullion, and as there was a net receipt from abroad of £31,000, the shipments to the interior must have been £523,000. The proportion of reserve to liabilities was reduced 1 11-16 per cent. The Bank of France lost 3,350,000 francs gold and 5,050,000 francs silver, and the Bank of Germany, since the last report, exhibits a decrease of 11,560,000 marks. The following indicates the amount of bullion in the principal European banks this week and at the corresponding date last year.

a structure of the	Oct. 11	1, 1883.	Oct. 12, 1882.

#### RAILROAD EARNINGS IN SEPTEMBER, AND FROM JANUARY 1 TO SEPTEMBER 30.

Railroad earnings continue to record improvement. Our statement for the month of September shows results in the aggregate much the same as in August, there being a gain of somewhat over two million dollars on the total of a year ago, and the ratio of increase standing at about 8 per cent. In September, 1882, the gain was 14 per cent, and this was on earnings of 1881 16 per cent above those of 1880, which in turn were 22 per cent above those for 1879, so that there has been no break in the upward movement for several years. General business was of only moderate proportions this year-and this must have affected the volume of general and miscellaneous freightbut the grain movement was large, and the cotton movement also was above that of 1882. In the case of some roads, the quietude of trade seems to have brought with it a decrease in passenger business, but this may be only temporary and exceptional, and, besides, it should be remarked that there are not sufficient details as yet to warrant any general deductions therefrom, the number of companies giving full particulars of receipts being very small. The ratio of gain in earnings for the month, as given above (8 per cent), is not quite equal to the ratio of gain in mileage, but it is scarcely to be expected that new mileage should yield a very heavy business at the outset. The following table gives earnings and mileage of each road this year and last.

oss	EARNINGS	AND	MILEAGE	IN	SEPTEMBER.

\* Three weeks only of September in each year. + For the four weeks ended September 29. § Freight earnings only. | Not including the lines in Utah.

Northwestern roads, it will be seen, make a less favorable showing this month than in the month preceding, but it should be remembered that these roads had exceptionally heavy earnings in September a year ago. Further, it should be said of the Northwestern roads, as well as of those in other sections, that they all had one disadvantage this year, namely, a smaller number of working days. September, 1882, had only four Sundays; September, 1883, had five, which left 25 working days, against 26 in 1882. The importance of this extra day will be readily seen when we say that in the case of a road like the Chicago & Northwestern it means a difference of fully one hundred thousand dollars in receipts, the average daily earnings on the Northwest being over that amount. This loss of a day this year did not come in to disturb the comparisons until the last week of the month, and hence it was that the fourth quarter made so much less favorable an exhibit than did the previous quarters of the month. Despite this drawback, however, very satisfactory gains in earnings are reported by the roads in the Northwest. The St. Paul has a gain of \$270,200, after having gained no less than \$306,000 in 1882; the Northwest gains \$15,000, after having gained \$260,000; and the St. Paul & Omaha records a nominal increase,

after having gained \$150,000, or over 40 per cent, a year ago-all on the basis of one less working day in 1883. Among other Northwestern roads the Burlington Cedar Rapids & Northern has a small decrease (\$1,000) after quite a large increase in 1882 (\$40,000). The Central Iowa, with materially enlarged mileage, adds only \$2,827 to its earnings of last year, though its receipts then were not more than about 13 per cent above those of the year before. The St. Paul Minneapolis & Manitoba, which of late months has been showing such a large falling off in earnings on account of the loss of the construction traffic of the Canadian Pacific, and also on account of the diminished immigration to that section of the country, this time exhibits a much smaller decrease -in fact, the falling off is less than \$55,000, though the gain in 1882 was \$347,000, or over 70 per cent.

The lines running south and southwest from Chicago exhibit in a number of instances smaller totals than in 1882, and on such roads as the Chicago & Eastern Illinois and the Evansville & Terre Haute, as well as others, the reason, no doubt, is found in the failure of the wheat crop in Illinois, Indiana and the whole of that territory. The main line of the Illinois Central has an increase of about \$37,000, but this line, unlike the Chicago & Eastern Illinois, had no gain of any consequence a year ago. The Chicago & Alton, which runs both to St. Louis and Kansas City, has a small loss, but this is after a very heavy gain (\$138,000) in 1882. The Hannibal & St. Joseph, which forms part of a line to Chicago, makes a gain this year, and had one last year. The Wabash also records improvement this year, though only in small amount, after having gained \$192,000 in 1882. The road has Toledo as one of its termini, and probably shared in the increased movement of wheat to that point, besides bearing no doubt some part in the gain in corn shown at Chicago. The grain movement at the different ports this year and last, compares as follows. S OF FLOUD AND OPAIN FOD FOUD WEEKS ENDED SEDTEMO

Here we see that the total movement of wheat was about the same in 1883 as in 1882, but that the movement at individual ports varies. Chicago loses quite a little, and St. Louis also loses some, to be ascribed no doubt to the smaller crop of winter wheat this year; but Duluth on the other hand makes a noteworthy gain, its receipts for the four weeks of 1883 reaching  $1\frac{1}{4}$  million bushels, against only 424,000 bushels in 1882. The corn movement (all ports) is two and a half times as large as in 1882, and of course Chicago gets the greatest part of the gain. This increased movement of corn at Chicago was quite a feature this year with many Western roads, but the roads that must have been chiefly benefitted by it, like the Burlington & Quincy, are not in our

table. There was also a gain in the corn movement at St. Louis, Toledo and Peoria (the latter accounting very likely for the gain in the earnings of the Peoria Decatur & Evansville), but the aggregate of these is very small alongside that of Chicago. It is to be noted, too, that the receipts of oats are increasing quite rapidly (Chicago and Peoria being the points of chief importance in this respect), and that this cereal is playing a bigger part in the grain movement than heretofore.

The roads that make perhaps the best showing for September are those in the South and Southwest. These roads, as a rule, had quite large gains a year ago, and the additional gains which they report this year are the more noteworthy for that reason. Chief among them is the Louisville & Nashville, which records an increase of \$190,688, after having gained \$163,000 in 1882. The East Tennessee gains \$65,000 in addition to the \$24,000 gained in 1882, and the Norfolk & Western gains \$40,000, after having gained \$12,000. Both these latter roads have increased their mileage this year. The St. Louis & New Orleans (Illinois Central Southern line) improves \$51,000 on its earnings of 1882, but we have no figures to compare with for 1881. The road delivered 14,342 bales of cotton at New Orleans in September, 1883, and only 8,343 bales in 1882. Larger cotton receipts also operated to swell the earnings of the Mobile & Ohio, which gains \$26,142 this year, but lost about double that amount in 1882. The Memphis & Charleston has swelled its earnings in the sum of over \$22,000, though its loss in 1882 was less than \$7,000. The Richmond & Danville lines also do well, while the Gulf Colorado & Santa Fe down in Texas keeps making handsome gains. The Gould Southwestern lines are particularly conspicuous for their favorable results. The Missouri Pacific last year enlarged its earnings some \$176,000, and this year contributes \$143,000 additional in the same direction. The Missouri Kansas & Texas records \$116,000 increase this year, besides \$69,000 last; the Iron Mountain \$46,000, besides \$15,000; and the Texas & Pacific \$57,000, besides \$128,000. The International & Great Northern is the only one among the Gould roads that has fallen behind, and this records a decrease of \$63,000, which, however, is much smaller than the gain in 1882, the latter having been about \$114,000. The St. Louis & San Francisco, which may also be classed as a Southwestern road, has further augmented its receipts about \$40,000 this year, after having augmented them \$57,000 last year. As the cotton movement plays an important part in the business of many of the Southwestern and all the Southern roads, we give below the receipts for this and last September at the leading Southern outports. The contraction at Mobile, it should be said, does not reflect the result on the Mobile & Ohio, which really carried more cotton this year .than last, but rather the falling off in the Mobile & Montgomery division of the Louisville & Nashville.

Total	339,499	319,061	Inc 20,438		

Among the Pacific roads, the Canadian and Northern Pacific, under increased mileage, continue to record large gains in earnings. The Central Pacific, on the other

hand, has a decrease of \$184,000, which however still leaves a good part of the gain made in 1882, when earnings were \$310,000 above 1881. The Union Pacific figures are withheld. As to the east and west trunk roads, we have none of the principal lines in our table, but the Grand Trunk of Canada makes a moderate increase. The Lake Erie & Western, which is affected by the course of trunk line traffic, has a small decrease, but had quite an increase in 1882. The Indiana Bloomington & Western has a small gain, as it also had a year ago. From Baltimore we have Mr. Garrett reporting larger earnings in August than ever before on the Baltimore & Ohio, and earnings but little smaller than this during September.

For the first nine months of the year our table makes a very good exhibit. The aggregate gain reaches about  $17\frac{3}{4}$  million dollars, which is equivalent to an increase of 9 per cent. There are 14 roads recording a decrease, and 51 an increase. The heaviest decrease is made by the Central Pacific and the Marquette Houghton & Ontonagon. The heaviest increase, aside from the large augmentation in receipts reported by the Canadian Pacific and the Northern Pacific, and excepting the Milwaukee & St. Paul, which leads all others (having a gain of nearly  $2\frac{1}{2}$  millions)—the heaviest increase on any roads as a class occurs on those of the South and Southwest, namely, Louisville & Nashville, Missouri Pacific, Kansas & Texas, Texas & Pacific, East Tennessee, &c. The following is our usual table, giving full details.

Name of Road.	1883.	1882.	Increase.	Decrease.

Net earnings for August and the eight months to August 31, are pretty generally favorable. As in the case of gross earnings, Southern roads seem to occupy a leading position in recording improvement on a year ago. We have the Louisville & Nashville, the Chesapeake & Ohio, the Elizabethtown Lexington & Big Sandy, the Kentucky Central, the Norfolk & Western, and the Shenandoah Valley, and these all make excellent exhibits. Then the Chicago Burlington & Quincy in the West, under a heavy corn traffic, continues to swell both gross and net earnings, while the Atchison Topeka & Santa Fe in the Southwest keeps reducing expenses very largely and augmenting net in a corresponding ratio. The Pennsylvania, too, has a very good statement this time, and in general it may be said that our table contains very few roads that have not done better than a year ago. The following gives gross and net earnings of all roads that will furnish monthly exhibits for publication.

#### BRITISH TRADE AND THE SUEZ CANAL.

The Jordan Canal scheme, to which attention was called in these columns a couple of weeks ago, may now be regarded as a thing of the past. The article in Blackwood's Magazine was its death sentence. Up to a certain date it seemed to be winning its way into popular and even imperial favor. Now, on all hands, it is pronounced visionary, ruinous, impracticable. The Euphrates Valley scheme, attractive enough in many respects, labors under the one serious disadvantage that it is off the beaten track of commerce. It is bad for any enterprise when it does not offer immediate returns; and this, fortunately or unfor-

tunately, is the case with the proposed route to India along the Euphrates Valley. Public sentiment again falls back upon the Suez Canal line; and the opinion gathers strength that if the present canal cannot be made more available for the purposes of British trade and the general interests of the British empire, the remedy lies in a rival canal in the immediate neighborhood and solely under British control. The London Times, which usually reflects the sentiment of the moneyed and conservative classes, comes out strongly in favor of a rival canal. "We shall be greatly surprised," says that journal, "if the result of the holiday meditations of the ship owners and the public of England is not to confirm them in their demand for a new canal under English control, and if the Government does not ultimately come to see that in this manner only can the question be solved."

Since the time of the Draft agreement, which was the cause of so much excitement, and which brought no little odium on Mr. Gladstone's government, many fresh facts have been brought to light, all tending to show that the present state of things is not such as will long be found compatible with the requirements of British trade. In a report drawn up by a naval officer who has made himself familiar with all the details of the canal, and which has been submitted to the Admiralty, a strong case is made out against the present canal and its management, the entire argument pointing in favor of a new canal. Some of the figures are suggestive. It appears that 7,000,000 of tons annually pass through the canal. Of these 7,000,000, not less than 5,500,000 are English. More than four-fifths of the tonnage is English-that is, more than four fifths of the ships are English ships, manned by English crews, trained in English methods of navigation, and of course speaking the English language. Yet the management is absolutely and entirely French. The existence of a few English officials in unimportant positions does not affect the truth of this general statement. The rules and regulations, and the manner in which they are carried cut, constitute a fruitful and unending source of annoyance. It appears from some published statistics that discrimination is made in favor of French steamers as against British, and that while the French massagerie steamers get through the canal in about 48 hours, the British steamers find it difficult to get through in 71. The pilotage also is complained of, only three of the 117 pilots being British. Nor does the harbor system commend itself to the British commanders. The dues are high and the police is defective. Liquor, it is said, is too easily obtained; and violence and robbery are frequent. It is easy to conceive that from such causes annoyances must frequently arise.

It would seem, however, that the general management of this canal is unsatisfactory from other causes. Among these is mentioned the incompetency of many of the chief employes. For the special work in which they are engaged, they have had no professional training, it is asserted. The "Chef de Transit" lives in Ismalia. It is claimed that he ought to live at Port Said. A difficulty arising at Port Said between a ship's captain and the Com. pany, is referred to the "Chef de Transit" at Ismalia; the "Chef de Transit" consults the "Agent Superieur" at Cairo ; and in nine cases out of ten, the "Agent Superieur" transmits the case to Paris. The more thoroughly the working of the canal is understood, the more hopeless the English seem to regard the idea that a French Com. pany should ever be able to provide in a satisfactory man. ner for a trade which is almost wholly British. In plain terms, the British people have discovered that in spite of the heavy investment made by the Government in Canal

stock, in spite of the conquest and virtual occupation of Egypt, the Suez Canal is French property, and is controlled and managed in the interest of France, and for the benefit of a French Company. The recent concession of two and a half francs per ton on ships in ballast has had little healing effect. The *Times* seems to strike the keynote when it says that the only solution is a new canal.

[From our own correspondent.]

London, Saturday, Sept. 29, 1883.

The Bank rate of discount has this week been reduced from 3½ to 3 per cent-a point to which it might have been lowered a fortnight ago. A downward movement in the value of money at this period of the year is of more than ordinary significance as the market is usually expected to advance in consequence of the pressure of the autumnal demand for accommodation. This season the discount inquiry has fallen away to a remarkable extent, and is now upon the most limited scale. The cause of it is not difficult to ascertain, as the present contraction of busi ness may be easily traced to the anxieties which were felt earlier in the year regarding the course of business in the United States. The American failures have evidently had a very adverse influence, and as some rather important difficulties have arisen here of late, business is likely to be conducted with excessive caution during the remainder of the present year. Some branches of business, and especially the cotton departments, have been in a state of much depression of late, and as employers regard a reduction in wages as a necessity, the relations of employers to employed are not just now very satisfactory. The question of a reduction in wages has brought about a strike in some districts, and business is, in consequence, much interfered with. The iron trade, however, is moderately active, and other departments of trade, though quiet and, it is said, unremunerative, are steady in tone. There now seems to be but little calculated to influence the money market in either direction for some time to come. The ease which prevails will naturally affect the exchanges and will have no power in attracting gold from the Continent. Any additional improvement in the position of the Bank of England may be regarded as doubt. ful; but, at the same time, the resources at the command of the Bank are great, and are certainly fully adequate to all demands which may be made upon it. More than this is hardly desirable. On the contrary, it would indicate a better condition of things if the distribution of unemployed money were to assume a more active form.

Although there has been a settlement in progress on the Stock Exchange during the week, the demand for money for short periods has been very limited, and the rate is only from  $1\frac{3}{4}$  to  $2\frac{1}{2}$  per cent on the best security. The discount inquiry is very limited, and the rate for the best three months' bills is  $2\frac{1}{4}$  per cent. The banks are now only allowing 2 per cent interest per annum for deposits, but the discount houses have made no further alteration. The proportion of reserve to liabilities at the Bank is now  $47\frac{3}{6}$  per cent, comparing with only  $39\frac{1}{2}$  per cent last year. The total supply of bullion amounts to  $\pounds 24,355,909$ , against  $\pounds 21,982,775$ , while the total reserve is  $\pounds 14,836,314$ , against  $\pounds 11,543,900$  in 1882.

The following are the quotations for money and the interest allowed by the discount houses to-day and same day of the previous five weeks:

In reference to the state of the money and bulli on markets, Messrs. Pixley & Abell remark :

Messrs. Pixley & Abell remark : Gold.—A few orders for South America have been received this week' and nearly all the bars that have arrived have been taken. The Bank has, however, a large amount of sovereigns and other con sent in since our last, the aggregate purchases being £314,000. £10,000 (overeigns) have been taken out for Lisbon and £10,000 for Alexandria. The "Pekin" has brought £5,790 from the East, the "Garth Castle" £145,150 from the Cape, the "Para" £40,000 from the West Indies and the "Ville de St. Nazaire" £32.000 from Central America—total, £272,910. The "Slaw" has taken £5,000 to India. Sliver.—The market has again improved, and 507sd. has been paid, with an offer of 50 15-16d. for immediate shipment; at this rate the considerable. The arrivals comprise £47,000 from New York, \$216,000 from the Pacific and £22,000 from the West Indies-total, \$25,000. The Peninsular & Oriental steamer has taken £141,300 to india. Mexican dollars have also improved, and may be quoted 505sd. per ounce. We have received £13,000 from New York and about £12,000 by the West India steamer; a considerable portion of these had been periously sold. The "Indus" has taken £101,500 to China and the straits.

The quotations for bullion are reported as below :

The National Bank of Australasia invites tenders for a South Australian government loan of £1,438,500 in bonds of £1,000. £500, £200 and £100 each. The principal is repayable at par on the 1st of April, 1918. The minimum price is £98 103. per £100 bond. The loan is for railway and other works of utility and necessity.

The Railway Debenture Trust Company, limited, invites applieations to an issue of £250,000 4½ per cent debenture stock at 102 per cent, redeemable at par on July 1, 1911.

Tenders are invited by the Union Bank of Australia for  $\pounds 200,000 \ 4\%$  per cent debentures of the Corporation of the City of Melbourne, at a minimum price of par. The principal purposes to which the loan is to be applied are the erection of buildings upon market lands of the corporation, which will yield immediate returns in rentals, the construction of underground drains and the paving of the principal streets with wood.

Messrs. Hollsbowe Brothers & French have issued a circular showing the results of the working of 15 of our principal railways during the half-year ended June 30, 1883, compared with the same period in 1882. The reduction in the dividends paid on ordinary stock amounts to £103,014 for the half-year.

The gross receipts on 21 principal railways in the United Kingdom during the week ended September 23-on 14,7593/2 miles-amounted to £1,304,003, against £1,282,383 last year on 14,5693/4 miles, showing an increase of 1893/4 miles, or 1.3 per cent, and an increase of £21,620, or 1.7 per cent.

The total receipts into the Imperial Exchequer from April 1 to September 22 were £37,498,666, against £36,693,195 last year, while the expenditure was £38,380,145, against £39,682,437an increase in the former of £805,471 and a decrease in the latter of £1,302,292, making a net gain of £2,107,763.

The importations of foreign wheat and flour are still very large, and the cousequence is that our heavy stocks are well kept up. Compared with last year, however, they show a falling off of about 1,500,000 cwt. for the first four weeks of the season ; but in 1882 they were upon a scale of great magnitude. The deliveries of home-grown wheat have, up to the present time, been disappointing both as regards quantity and quality. Some of the wheat was harvested in poor condition, owing to the unsettled weather. That portion of the crop is being now marketed, as no advantage is to be gained by holding it; but farmers believe that during the winter months good dry English wheat will command a better sale and a higher price. Those consequently, who can do so, are indisposed to sell just now. During the past week the trade for wheat has been very slow. Millers fail to perceive that any rise upon current prices is possible, and are, therefore, unwilling to increase their stocks. Prices, however, do not vary much, though the tendency is downward. The average price for the present season is 42s. per quarter, against 43s. 7d. per quarter last year.

The following are the quantities of wheat, flour and Indian corn estimated to be afloat to the United Kingdom, Baltic supplies excepted:

## Commercial and Miscellaneous Rews

IMPORTS AND EXPORTS FOR THE WEEK.—The imports of last week, compared with those of the preceding week, show a decrease in dry goods and an increase in general merchandise. The total imports were \$8.673,880, against \$8,005,547 the pre-ceding week and \$9,972,011 two weeks previous. The exports for the week ended Oct. 9 amounted to \$6,599,430, against \$6,826,497 last week and \$7,442,624 two weeks previous. The following are the imports at New York for the week ending (for dry goods) Oct. 4 and for the week ending (for general merchandise) Oct. 5; also totals since the beginning of first week in January: week in January :

FOREIGN IMPORTS AT NEW YORK.

For Week.	1880.	1881.	1882.	1883.
Dry goods Gen'l mer'dise	\$1,846,246 6,494,012	\$2,214,436 5,743,757	\$2,222,104 5,959,689	\$1,947,678 6,726,202
Total	\$8,340,258	\$7,958,193	\$8,181,793	\$8,673,880
Since Jan. 1. Dry goods Gen'l mer'dise	\$102,647,015 278,288,685		\$107,440,535     283,509,065	\$99,655,116 255,413.696
Total 40 weeks	\$380,935,700	\$339,114,354	\$390,949,600	\$355,068,812

In our report of the dry goods trade will be found the imports of dry goods for one week later. The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending Oct. 9, and from January 1 to date:

Total 1883 Total 1882 Total 1881	\$327,900 58,200 170,246	9,412,916	\$161,032 6,454 28,131	2,002,719	

Of the above imports for the week in 1883, \$20,233 were American gold coin and \$1,783 American silver coin. Of the exports during the same time \$12,000 were American gold coin, and \$125,000 American silver coin.

Canadian Pacific.—The Manitoba Southwestern Railroad has been transferred to the Canadian Pacific. The construc-tion will be begun at once. The line is located to its destination in the Souris coal fields. The road will no longer be a rival of the Canadian Pacific, but, when constructed, will be an impor-tant feeder. The land grant is 600 acres per mile, and the total length of the road will be 312 miles. —At Montreal, Quebec, Oct. 6, the directors of the South-eastern Railway transferred the road to the bondholders—that is to the control of Canadian Pacific.

eastern Railway transferred the road to the bondholders—that is to the control of Canadian Pacific. Pittsburg & Western.—A recent dispatch from Pittsburg to the Chicago *Times* said: "A few weeks ago it was re-ported that the Pittsburg & Western Railroad Company, whose headquarters are in this city, was in financial difficulties. This report was denied, but it has come to the surface again, and with it the report that the road is to pass from the control of the present stockholders to Jewett, Garrett or Gould, with the probabilities in favor of Jewett." It was stated that a meeting of the syndicate which controls the road would be held, at which a majority of the stock would be transferred to H. W. Oliver, Jr., the extensive iron manufacturer. Mr. Oliver had been buying Pittsburg & Western stock in large blocks. The stock of the company, including that of the Bradford & Buf-falo, with which it was lately merged, is 155,000 shares. Of this, 6,200 shares of the original Pittsburg & Western stock is held as a trust, whose object is to preserve the independence of the road. Since the merger with the Bradford & Buffalo the trustees have not held a majority of the stock, and could not prevent its sale to some other corporation. The road, within the past three years, has grown from a little narrow-gauge until its rails now cover over two hundred miles of territory in Western Pennsylvania. About one-half of this is of the standard gauge. It has not paid more than 80 per cent of expenses, and although valuable connections have been arranged for, they are still in the future. Texas & Pacific.—Suits to recover payment of interest on Texas & Pacific income bonds for past years have been instituted

for, they are still in the future. Texas & Pacific.—Suits to recover payment of interest on Texas & Pacific income bonds for past years have been instituted. The company claims that the division on which the incomes are issued has not earned the interest. The plaintiffs are in New York, and apparently base their claims upon the terms of the income bonds, which state: "Interest is secured by mortgage on the net revenue from 524 miles of railway. This bond shall be a first mortgage on land in the State of Texas east of Fort Worth, and also upon the net income of said line of railway, deducting current expenses, reconstructing and repairing, and also interest on the first and second mortgages of said line."

Toledo Ann Arbor & Grand Trunk.—This road and the Grand Trunk Railway of Canada have been united by the com-pletion of the line between South Lyons and Pontaic, Mich.

Toledo Delphos & Burlington.—The committee appointed by the bondholders to investigate the affairs of the Toledo Cincinnati & St. Louis road advised that steps be taken at once to secure the foreclosure of the mortgage. The first mortgage is for \$1,250,000 in 30-year bonds drawing 6 per cent interest.

Is for \$1,250,000 in 30-year bonds drawing 6 per cent interest.
Virginia Bond Cases.--In the United States Supreme Court, October 9, a motion to advance was made by Mr. William L, Royall, of counsel for the plaintiffs, in what are known as the Virginia bond cases, on account of their public importance. Much confusion has resulted from different interpretations given to a decision of this Court in another case by Judge Bond of the United States Circuit Court and the judges of the State Court. The condition of affairs is explained by the statement of the defendant in error, who in concurring with the plaintiffs in asking that these cases be advanced, represents to the Court that he cannot know his rights and duties as collector of the State's taxes until it decides the questions involved.
Wabash St. Louis & Pacific.-The Wabash Company reports

State's taxes until it decides the questions involved.
Wabash St. Louis & Pacific.—The Wabash Company reports as filed with the Hlinois Board of Railroad and Warehouse Commissioners, for year ended June 30, 1883, shows: Total earnings \$17,232,981; operating expenses and taxes, \$11,996,385; net; \$5,236,596; interest, equipment and construction, \$5,750,228; deficit, \$513,632; balance debit last year, \$2,908,497; total deficit, \$3,432,129; capital stock, \$50,346,000; mileage, 3,482'4, funded debt, \$70,724,224; unfunded debt, \$9,772,010; debt per mile \$34,766. mile, \$34,766.

mile, \$54,700. —The report of the Hong Kong & Shanghai Banking Corporation shows profits for the half-year ending June 30 last of \$633,165, out of which a dividend of £2 per share has been paid, \$100,000 added to the reserve fund for equalization of dividends, and \$52,509 carried forward to the credit of the present half-year's profit and loss account. The capital of the bank paid up now amounts to \$5,926,000 and reserve funds to \$3,395,000. Mr. A. M Townsend is the agent in New York.

-Notice is given that the regular 2 per cent quarterly divi-dend on the stock of the St. Paul Minneapolis & Manitoba Railroad will be paid on and after November 1.

Auction Sales.—The following, seldom or never sold at the Stock Exchange, were sold at auction this week by Messrs. Adrian H. Muller & Son.

North River. 4 On dem.

NEW YORK, FRIDAY, OCT. 12, 1883-5 P. M. The Money Market and Financial Situation.-The general financial situation remains unchanged. There have been no new or specially unfavorable developments, no failures of great importance, no change in the prospects for trade, but neither has there been any revival of confidence. The mind of the business community remains still in doubt as to whether the basis of trade, as now manifest in moderate crops on the onehand and unusually large supplies of all manufactured articles on the other, justifies the expectation of an increase of activity. These features are not confined to the United States, but prevail also in Europe, where an unusually long period of peace has permitted industry to be applied without interruption to the production of all sorts of commodities. The testimony given by foreign buyers of European commodities for American houses in all lines of trade is unanimous on the point that there seems to be an overstock of almost all articles, and that manufacturers, not only of the luxuries, but of the more necessary articles of life, are not sanguine about any improvement in the near future.

There has been unusual activity this week in West Shore & Buffalo 5s at advancing prices. This is presumed to have been, to a considerable extent, speculative rather than legitimate investment, though in view of the lack of other employment for money there may have been purchases for investment also. It is reported that negotiations are pending for a lease of the New York West Shore & Buffalo to the Grand Trunk, one of the proposed terms of such lease being the -guarantee of the West Shore bonds by the Grand Trunk. Whether anything will come of this negotiation of course is not known.

Two financial events of the past week were the authorization of a \$50,000,000 general mortgage by the Denver & Rio Grande and a \$20,000,000 second mortgage by the Northern Grande and a \$20,000,000 second mortgage by the Northern Pacific. We have the authority of the syndicate of bankers interested for stating that \$18,000,000 of the Northern Pacific loan has been taken by them, viz., \$15,000,000 firm, with an option for six months on \$3,000,000 more, the price being  $87\frac{1}{2}$ per cent and the commissions being 5 per cent, the bonds thus netting the Northern Pacific Company say \$12,375,000 for \$15,000,000 or \$14,850,000 for \$18,000,000. The fact that rail-way loans are being taken by syndicates of bankers of high standing, is the most encouraging feature of the present situa-tion, as it indicates that they feel confident of finding a market for such securities. Money continues superabundant in this market for call

market for such securities. Money continues superabundant in this market for call loans at 2 per cent on collaterals of good railway stocks, and at 5 per cent for time loans on the same collaterals. Rates for mercantile discounts remain nominally unchanged at  $5\frac{1}{2}$ and 6 per cent for first-class double names for 60 days and 4 months, and 6 and 7 per cent for first-class single names. The bullion in the Bank of England decreased  $\pounds 492,000$ during the last week (and  $\pounds 600,000$  in the preceding week), and the percentage of reserve to liabilities was this week reduced to  $42\frac{1}{2}$  per cent from 43 15-16 last week. The Bank of France showed a decrease of 3,350,000 francs in gold and 5,050,000francs in silver in the last week. These movements of specie out of the two great banks are presumed to indicate increased activity in domestic trade.

The following table shows the changes from the previous week and a comparison with the two preceding years in the averages of the New York Clearing House banks.

	1883. Oct. 6.	Differ'nces fr'm previous week.	Oct. 7.	1881. Oct. 8.

**Exchange.**—The New York rates for sterling exchange were reduced  $\frac{1}{2}$  cent on the £ on Friday, after having been ad-vanced  $\frac{1}{2}$  cent early in the week, and the quotations now are 4 82 and 4 85. The rates for actual business on Friday were : sixty days, 4 81 $\frac{1}{4}$  @4 81 $\frac{3}{4}$ ; demand, 4 84 $\frac{34}{2}$ ; cables, 4 84 $\frac{34}{4}$ @4 85; commercial bills were 4 80@4 80 $\frac{1}{2}$ .

Quotations for foreign exchange are as follows, the prices being the posted rates of leading bankers:

October 12.	Sixty Days	Demand
Prime bankers' sterling bills on London. Prime commercial Documentary commercial Paris (francs) Amsterdam (guilders) Frankfort or Bremen (reichmarks)	$\begin{array}{cccccccccccccccccccccccccccccccccccc$	4 85 5 2058 4014

gold certificates taken out of cash.

\* Above payments include \$525,000 gold certificates taken out of cash.
State and Railroad Bonds.—There was more business in the railroad bond market in the last week, but at generally lower prices for the speculative issues, while the first-class bonds were, as a rule, only steady to firm. The New York West Shore & Buffalo 5s were, however, an exception to the general rule. They were active and higher, the extreme advance being 4½ per cent, and the net 2%. Texas & Pacific incomes were also unusually active, but lower, the decline on these being 3 per cent and on the Rio Grande division firsts 5% per cent. The range of fluctuations for the most important issues during the week was as follows, viz.: New York West Shore & Buffalo firsts at 74½, 76, 75, 79, 76½, 71¼; Texas & Pacific land grant incomes at 52½, 485%, 49½; do. Rio Grande division firsts at 76%, 74, 76, 70, 71¼, 71; Denver & Rio Grande Consols at 87¾, 88, 85¼; Burlington & Quincy debenture 5s at 91½, 99, 91%; Kansas & Texas general mortgages at 79½, 704, 81, 781½, 77; N. Y. Chicago & St. Louis firsts, at 99%, 99½, 100, 99½, 99¾; New Orleans & Pacific firsts at 71, 69½, 70; Ohio Southern incomes at 24, 20; Chesapeake & Ohio currency 6s at 48¼, 48¾, 47¾, 48; East Tennessee incomes at 30, 29, 30, 28, 28½, 28; Ohio Central firsts at 70, 69, 69½; Erie second consols at 94½, 94; Louisville & Nashville general mortgages at 93, 91½, and Kansas & Texas seconds at 54, 52.
Railroad and Miscellaneous Stocks.—The stock market her shown declining mices during the creater partial of the second consols at 87%. State and Railroad Bonds.—There was more business in the

mise sold at 39%, virginia consols at 10, and Arkansas is issued to Central RR., at 7½. **Railroad and Miscellaneous Stocks.**—The stock market has shown declining prices during the greater portion of the last week. There was a temporary firmness during Monday and Tuesday, but since that time the market has drooped for first one and then another group of stocks each day. The Vanderbilts have on the whole shown the greatest falling off, and after these come the Southwesterns. The Northern Pacifics and their kindred stocks (all except Northern Pacific preferred) also show greater or less declines, but they are no longer the weakest, as they had been for sever-al previous weeks. The coal stocks, Western Union, Union Pacific, Northern Pacific preferred, and a few others, have been pretty well sustained, though even some of these have depreciated. The principal declines for the week are Lake Shore, 2 per cent; Michigan Central, 3¾; Canada Southern, 3; Northwestern, 2¼; Omaha, 3¼ on common and 4 on the pre-ferred; Texas & Pacific, 4¼; Kaasas & Texas, 2½; Missouri Pacific, 2¾; Wabash, 1 on common and 2½ on preferred; Western Union, 1½; Northern Pacific common, 3½ (preferred 5% higher; Oregon & Trans-Continental, 3¾; Coregon Railway & Navigation, 3¼; Canada Pacific, 1½; Louisville & Nashville, 2¾; Pacific Mail, 1½; Rock Island, 1½; Denver, 3⅓; Erie, 1½; Lackawanna, ½; Reading, ½. Jersey Central is 13%

#### RAILROAD EARNINGS.

The latest railroad earnings and the totals from Jan. 1 to latest date are given below.

New York City Banks.—The following statement shows the condition of the Associated Banks of New York City for the week ending at the commencement of business on Oct. 6:

The INVESTORS' SUPPLEMENT contains a complete exhibit of the Funded Debt of States and Cities and of the Stocks and Bonds of Railroads and other Companies. It is published on the last Saturday of every other month-viz., February, April, June, August, October and December, and is furnished without extra charge to all regular subscribers of the Chronicle. Single copies are sold at \$2 per copy.

NORTHERN PACIFIC RAILROAD MILEAGE AND BONDS .- The total mileage operated by this company, on which its earnings are based, is now reported as 2,365 miles, including branches. The part of this mileage on which first mortgage bonds may be issued, as recently stated by the Vice-President, Mr. Oakes, is only 1,874.38 miles. The provisions of the mortgage deed are quite clear as to the road on which bonds may be issued, including only the main line and one branch, described in the following language :

"The general route of the said main line of the said railroad has been located, from its terminus in the State of Wisconsin at or near the mouth of the Montreal River, which river forms in part the boundary between the States of Michigan and Wisconsin and flows into Lake Superior, to its terminus on Puget Sound via the valley of the Columbia River; and the general route of the said branch across the Cascade Mountains has been located from the said main line to the same terminus on Puget Sound."

Pursuant to the above provisions in the mortgage deed, which, it will be observed, includes no branch road except the Cascade branch, the mileage on which bonds may ever be issued would appear to be substantially as follows :

With the above details we have the following mileage on which Northern Pacific bonds may be issued at \$25,000 per mile, viz. :

From the above amounts in each case must be deducted the full amount of the Missouri and Pend d'Oreille division bonds \$6,481,000, against which the first mortgage bonds are held and cannot be issued except to extinguish them.

In making the foregoing estimates of roads in progress and projected, the following account may be given of their present status. The Portland division to near Kalama, and the Wisconsin division as far as Ashland, are in active progress, and will probably be completed early in 1884. The road from Ashland east to the Montreal River, 50 miles, will probably not be constructed for some time. The Cascade branch or division has not been fully surveyed or located, and in view of the financial demands for the present in other directions, the construction of its unfinished portion, say 274 miles, will probably be postponed for some time.

#### ANNUAL REPORTS.

#### Western Union Telegraph Company.

(For the year ending June 30, 1883.)

The report was submitted at the annual meeting held this week, The report was submitted at the annual meeting held this week, when the old board of directors was re-elected with only two exceptions. Mr. John Hay was chosen in place of E. D. Wor-cester, and Frank Work in place of Z. G. Simmons. The report is very brief in details, and gives general results only. Thus, it is not stated what the operating expenses were as dis-tinguished from the numerous rentals, and the amount of these various rentals is also unknown, although they are becoming a very large amount in the annual disbursements. No general balance sheet is given, nor any statement as in former reports balance sheet is given, nor any statement as in former reports of the amount of the expenditures for new construction, patents, &c.

patents, &c. Dr. Green, the President, after commenting upon the progress of the company for some years past, remarks: "Nor does the past year exhibit any lagging in the race of progress. It exhibits an increase of 13,234 miles of line, or about 10 per cent; and of 58,358 miles of wire, being 15½ per cent over the previous year; while the earnings show an in-crease of \$2,340,937, or about 14 per cent, and the net profits an increase of \$542,279, or about 8 per cent over the year pre-ceding. ceding.

The increase of \$1,798,457, being 18 per cent in the gross expenditures, is because of rentals paid for the American cables, the Cuba cables and the Gold & Stock Telegraph Com-pany (all the rentals paid by the company being charged in current expenditures), whilst these rentals were paid for only a small portion of the preceding year. "The percentage of cost of operating the land lines of the company has been steadily reduced."

BUSINESS OF THE YEAR.

Surplus July 1, 1882.....\$1,664,240 The revenues, expenses and profits of the year ended June 30, 1883, were as follows:

Profits..... \$7,660,349 \$9,324,589

From which there was applied:

40.094 5,666,035

Deducting which, leaves surplus June 30, 1883, of \$3,658,553 Represented as follows:

\$3.658.553

were \$7,660,000, out of which \$467,000 were paid for interest and sinking fund on bonded debt, and \$5,199,000 in dividends to stockholders, leaving \$1,994,000 (nearly two millions) of excess above dividends and fixed charges to be added to the surplus before accumulated. "During the past year the Mutual Union Telegraph Company "Summing up in round numbers, the net earnings for the year

surplus before accumulated. "During the past year the Mutual Union Telegraph Company has been absorbed by lease, the rental agreed to be paid being the interest on five millions of dollars in outstanding bonds, and a sum equal to one and a half per cent per annum on its capital stock of ten millions of dollars. This transaction was followed by the usual vexatious litigations and injunctions, in-volving extraordinary expenditures of over three hundred thousand dollars, from being compelled under the restraining order of court to operate that company separately for some months after its absorption. But for these anforeseen elements in the business of the year the profits for the year would have reached eight millions of dollars, as estimated in the last annual report." \* \*

annual report." \* \* \* "The company has other large and valuable assets, which were not purchased and paid for at a fixed price, but which were taken over under contracts with the several companies absorbed by lease or amalgamation, and which, therefore, had no specific cost value at which they could be entered into the general accounts of the company. These are included in the following list of marketable assets in the treasury of the company, June 30, 1883, with their marketable value as nearly as can be ascertained. as can be ascertained.

#### East Tennessee Virginia & Georgia Railroad.

(For the year ending June 30, 1883.)

The annual report of this important company for the year ending June 30, 1883, has just been issued. The report is limited mainly to a statement of the condition of the roads, and the earnings and expenses of the system, and no remarks are made upon the finances, nor any income account given showing fixed charges for interest, &c. The important parts of the report are given in the following extracts and compilations:

extracts and compilations: "During the fiscal year the increase in the number of miles operated by the company was 197 (1,098 miles at the close of the last and 901 miles at the close of the previous fiscal year,

including the 18 miles from Lauderdale to Meridian, belonging to the Mobile & Ohio Railroad, over which the company runs its trains.)" \* \* \*

its trains.)" \* \* \* "The Ooltewah cut-off, 11.5 miles, was not opened for busi-ness until July 3, 1883. Of the above-mentioned road 18 miles of the Meridian Sub-Division is owned by the Mobile & Ohio Railroad, but is operated by our trains under a contract with that company. Of the Atlanta Division 17.6 miles operated trains igner property of our empany and the Generic Music are the joint property of our company and the Georgia Pacific Railroad," \* \*

are the joint property of our company and the Georgia Pacific Railroad." \* \* \* "The Atlanta division (from Rome to Macon-153.6 miles) was opened October 4, 1882, long before it was in condition for the proper conduct of business. The extension of the Ohio Branch, 27 miles long, was not opened until June 4, 1883, and the Ooltewah Cut-off, 11.5 miles long, July 3, 1883; and as the equipment during the busiest season of the year was entirely inadequate, it is safe to say that the company during the last fiscal year not only derived no benefit from the opening of its new roads, but that such opening was of positive disadvantage in diminishing its net revenue—the earnings of the new roads having been insufficient to pay their operating expenses. "Under these circumstances it is gratifying to note the large increase in the revenues of the older roads, and it is safe to predict that, with the additional 197 miles in successful opera-tion, and with the additions which have been made to the equipment, the earnings for the present fiscal year will fully meet the expectations of the friends of this important system of roads." \* \* \*

fully demonstrated during the fall and winter of last year, when the company was unable to accommodate the traffic offering. Large additions have been made to the motive power and rolling

Large additions have been made to the motive power and rolling stock, and it is believed that the former will prove adequate, at least during the present year, while the latter is still insuffi-cient to meet the requirements of the rapidly-growing business. Timely additions should therefore be made to the rolling stock, especially to the box and coal cars now owned by the company. "It will be seen from the Auditor's report that the total num-ber of passengers transported over the road during the fiscal year was \$32,032, of which \$02,636 were local and 29,396 through passengers. The total mileage of passengers was \$4.387,197 and the total revenue \$965,478 51. The average number of miles traveled per passenger was 41'3 cents, and the average rate per passenger per mile, 28 cents. "There were transported over the road 1,350,177 tons of freight, of which 211,556 tons were through and 1,138,621 tons local. The mileage of tons was:

Through Local	10ns. 49,649, 122,167.	966 870
Total		836
The revenue for tonnage transported was \$2,603,2 rates per ton per mile were as follows :	25 29. 7	The

### 

prepared for issuance in October, when the floating debt will be canceled.

canceled. "The further issue of second mortgage bonds is limited to \$1,000 per mile per year for each mile of main line of road completed or to be completed, and the proceeds are to be used, if used at all, together with the proceeds of the first mortgage bonds, in the further extension of road, main line or branches. The limitation of the issue of the second mortgage bonds to \$1,000 per mile of road each year will, of necessity, compel a conservative course, but still will enable the company to grad-ually extend the road, if your directors so determine. When it is taken into consideration that twelve years must elapse before all the second mortgage bonds can possibly be issued, it will readily be seen that they will be sought for as a perfectly safe investment.

will readily be seen that they will be sought for as a perfectly safe investment. "The development of the country traversed by your road, and the yearly increase of business therefrom, will give us suf-ficient increase of earnings to pay all increase of interest on bonded indebtedness, without affecting your stock as a divi-dend-paying investment. Dividends may be regularly expected from this time forward." The unccentric dands along the line of road are being

from this time forward." The unoccupied lands along the line of road are being steadily taken up by permanent settlers, and the towns increas-ing in population. Large business houses have been, and are being, established along the route of the road, and everything indicates increasing business. " The comparative statistics for three years, compiled for the

CHRONICLE, are as follows :

#### GENERAL INVESTMENT NEWS.

Arkansas Railroad Aid Bonds.—In June last, in Keokuk, Ia., before Justice Miller, of the Supreme Court of the United States, and Judge Caldwell of the United States Court for the Eastern District of Arkansas, the cases against the Arkansas railroads were argued on the suits brought against these corpor-ations by holders of the Arkansas State aid bonds. Judge McCrary, of the United States Circuit Court, hearing an argu-ment on demurrer, had declared the bonds a lien on the rail-roads, but after hearing the case on its merits, Justice Miller, sitting as circuit judge, has decided that the bonds were never indorsed by the railroads and are not a lien thereon. Judge Caldwell dissented. The case will, doubtless, be carried to the United States Supreme Court, but the latest decision is a vic-tory for the railroads. Brooklyn Flatbush & Coney Island – This comments Arkansas Railroad Aid Bonds .- In June last, in Keokuk,

Brooklyn Flatbush & Coney Island.—This company defaulted in the payment of interest on its second mortgage bonds on October 1, amounting to \$500,000, and in addition there are first mortgage bonds to the same amount. The bulk of both issues is held in Brooklyn.

Canada Southern .- The hearing of the suit of the Canada Canada Southern.—The hearing of the sub of the Canada Southern Railroad, against the Grand Trunk Railroad Com-pany of Canada and the International Bridge Company has been postponed until January. The three companies named have made a settlement on the basis of \$250,000 for the back tolls, instead of \$450,000 claimed. By January 1 the Canada Southern will have its own bridge built.

Chicago & Atlantic.—This company (the Chicago line of N. Y. Lake Erie & Western) has made to the Farmers' Loan & Trust Company of New York a second mortgage for \$5,000,000, with interest at 6 per cent per annum, the principal payable August 1, 1923. This mortgage is given subject to a previous one of \$6 500 000 one of \$6,500,000.

Chicago Pekin & Southwestern.—The annual report of this company to the Illinois Railroad Commissioners shows that the amount of capital stock is \$2,000,000; funded debt, \$1,175,000; total liabilities, \$2,626,500. The earnings of the passenger department were \$22,451 and of the freight department \$250,-035. The total income from all sources was \$273,879. The operating expenses and taxes were \$218,996. The net income during the year was \$54,883. The assets of the company are \$729,184. \$729,184.

\$729,184.
Denver & Rio Grande.—The special meeting of stock-holders held at Colorado Springs unanimously passed the resolution authorizing the creation of a general mortgage for \$50,000,000, the bonds issued under which shall run thirty years and bear 5 per cent interest. The issue shall never exceed \$39,000 per mile outstanding, including all prior mortgages, and shall be made on the finished road. Three-fourths of the entire stock of the road was represented at the meeting. The directors of the Denver & Rio Grande Railroad Company met in New York Oct. 11, and authorized the issue of general mortgage bonds up to \$5,000,000, in pursuance of the resolution adopted by the stockholders at Colorado Springs last Saturday. President Lovejoy stated that the guaranteeing syndicate had been completed and all of the necessary papers signed.
Lake Erie & Western.—At Lafayette, Ind., Oct. 11, the

Lake Erie & Western.—At Lafayette, Ind., Oct. 11, the annual election of three directors resulted in the choice of Arthur Moulton, representing the Mutual Life Insurance Com-pany, as holder of first mortgage bonds, Nelson Robinson and Frank Hollins, all of New York State. The general officers will be elected at the meeting in New York.

Marquette Houghton & Ontonagon.—This company has completed its road to Houghton. Through trains will be running November 1. This opens the copper and iron districts to rail communication with the east.

Northeastern Ga.—This company has been thrown into the hands of a receiver, Mr. Augustus Hull having been appointed. The stockholders' meeting will be held on the 17th of October. In 1881 the city of Athens owned stock in the Northeastern to the amount of \$100,000, and had made contracts for completing the read to Tallulah with parties representing the Air Line the amount of \$100,000, and had made contracts for completing the road to Tallulah with parties representing the Air Line Co. As the law prohibited the Air Line road from taking the Northeastern, it was put in the hands of a terminal company, which was virtually the Air Line. In building eighteen or twenty miles extension the terminal company mortgaged the road to the Central Company for \$900,000, and this mortgage has been lying dormant ever since has been lying dormant ever since.

Northern Pacific.—A special meeting of the directors of the Northern Pacific Railroad Company was held October 6. The former officers were re-elected without opposition. The following resolutions were adopted :

The former officers were re-elected without opposition. The following resolutions were adopted :
Whereas, There is now required to provide for the present unfunded debt of this company beyond the cash means available, the sum of \$9,459,920 83; and
Whereas, The additional sum of \$5.500,000 will be required to complete entirely the construction of the main line now under contract, including the bridges and tunnels, and provide and pay for all equipment required and contracted for; therefore
Resolved, unanimously, That this board, subject to the approval of three-tourths of the preferred stock, authorizes the execution of a second mortgage for 20 millions of dollars on all the property of this company, subject only to the priority of the present general mortgage. That this mortgage, the she has a standard of the second mortgage bonds and construction to this board.
Resolved, That a meeting of the preferred stockholders of this company in the city of the scale of \$15,000,000 of the second mortgage bonds and the proint their action to this board.
Resolved, That a meeting of the operative second mortgage bonds and issue of the 20 millions of second mortgage bonds and the pront he question and issue of the 20 millions of second mortgage bonds and the protect at the first days prior thereto by advertisements in newspapers published in the cities of New York, philadelphia and Boston; and that for the purpose of said meeting the transfer pooks of the preferred stock of this company be closed on the 26th day of November, at 10 o'clock A. M.
Resolved, That the dispatch, for the information of the stockholders, including in the latter the cancellation of the stockholders, including in the latter the cancellation of bonds with the process of that departments, including in the latter the cancellation of bonds with the process of land cancellar giving full particulars of the funded and mindeed debt of this company, and of the present condition of the open stockhold

Ohio Central.—At Toledo, Ohio, Oct. 8, in the Court of Common Pleas, Mead & Johnson, attorneys for bondholders in the case of Nelson Robinson against the Ohio Central Railroad Company et al., presented a petition and bond for the removal of the action to the United States Circuit Court. This is a case wherein a receiver for the Ohio Central was appointed on Sep-tember 27. The application is supposed to have been made on behalf of bondholders, who desire a change of the receiver.

Ohio & Mississippi .- A press dispatch from Cincinnati, October 11, says:

October 11, says: The annual meeting of the stockholders of the Ohio & Mississippi Railroad was held here this morning, and the President's anunal report was read. The presence of James H. Smith of New York, with the proxies of the London bondholders, showed that the contest was to be made against the ticket which Mr. Garrett claimed the London bond-holders had agreed upon, namely, Robert Garrett, J. H. Smith and Mr. Whittaker. Mr. Smith presented a ticket composed of himself, George H. Hill and Mr. Whittaker. Thereupon Mr. Garrett presented a new ticket, composed of himself, Mr. Whitright of New York and Theodore Meier of St. Louis. When the voting began Mr. Smith presented his proxies first, but had not proceeded far when the discovery was made that the same proxies were in the hands of both parties. The judges thereupon adjourned the meeting until to-morrow morning. It is thought twat there are 360,000 votes to be presented, nearly double the amount at any previous election. Mr. Smith's action is understood to be in opposition to the control of the road by the Baltimore & Ohio, but whether in the interest of any competitor does not yet appear. **Gractan Short Line** —On this Union Pacific branch. now nearly

Gregon Short Line .- On this Union Pacific branch, now nearly Oregon Short Line.—On this Union Pacific Dranch, how hearly completed, there have been listed \$3,000,000 bonds and \$4,000,-000 stock, and 524 miles of the road having been finished the company has made application to have the bonds listed up to \$12,500,000 and the stock up to \$12,500,000, the same to be used in settlement with the subscribers to the stock according to the terms of the original subscription. The Union Pacific retains one-half of the Oregon Short Line stock, which it will keep in its Treasury, the subscribers getting only one-half as much of stock as they do of bonds.

much of stock as they do of bonds. Portland & Ogdensburg.—A meeting of the Special Com-mittee of the City Council of Portland was held October 2 to hear the proposition of the Canadian Pacific Railroad Company for the purchase of the Portland & Ogdensburg Railroad. Mayor Deering said that there are now three distinct parties in the field who desire to purchase the road. He had received in-quiries from New York men, but declined to make public the sum offered by them for the road. He said it would be fair to wait until the Canadian Pacific and the men represented by the Messrs. Cleaves had submitted their propositions. The latter had not shown their hands, and the New York bidders should be informed of the existing state of affairs before their bid was published. A vote was passed that the committee would be in readiness to receive all propositions for leasing of selling the city's interest in the Portland & Ogdensburg road Oct. 9. Staten Island Railroad.—The stockholders of the Staten

Staten Island Railroad.—The stockholders of the Staten Island Railroad Company have ratified the lease to the Staten Island Rapid Transit Company.

## COMMERCIAL EPITOME.

FRIDAY NIGHT, Oct. 12, 1883.

VOL. XXXVII.

Trade has been generally dull and disappointing during the week under review. The weather has been very fine except in extreme latitudes, and promises to redeem in some degree the adverse effect upon crops of the cool and dry August and September. The speculation in domestic products has received a check in nearly every particular, and prices have taken a downward turn in the past few days. Money is very plentiful, but very little disposition is shown to employ it, except in safe investments. The cost of living is much less than one year ago, but wages are not reduced, and taxes complete the obstacles to manufacturing and mercantile activity.

A better speculation in lard at somewhat improved prices has been a feature in provision circles during the week. The strength in corn has been the incentive, and a slight improvement in the export interest has not been without effect. Pork has sold quite well for export and consumption. To-day lard was again stronger; contract Western sold on the spot at 7 95c.; October options sold at 7.82@7.85c.; seller the year, 7.71c.; January, 7.74@7.77c.; February, 7.80c., closing steadier; October, 7.83@

stronger; contract western sold on the spot at 7 35., October options sold at 782@785c.; seller the year, 771c.; January, 774@77c.; February, 780c., closing steadier; October, 783@ 786c.; November, 774@776c.; February, 782@784c. Refined to the Continent, \$10@\$12 cash and family at \$15 25. Mess pork sold at \$11 50@\$12 cash and family at \$15 25. Mess pork sold at \$11 50@\$12 cash and family at \$15 25. Mesf quiet; city extra India mess, \$19@\$19 50. Beef hams steady at \$19 25@\$15 50 for Western. Bacon was quite slow at 7%c. Butter is easy at 27@30c. for the best creameries, and cheese for export has declined to  $11\frac{3}{2}$ @11%c. for the best factories. Tallow is steady and sells fairly at 7 11-16c. Stearine is still slow at  $3\frac{1}{2}$ @\$3%c. for prime and 8%c. for oleomargarine; 500 hhds. of the latter have been recently sold on that basis. Ric coffee has been active on speculation at a marked advance, attended by a failure in the trade on the "bear" side; to day the market on the spot was quiet but steady at  $11\frac{1}{5}$ @11%c. for fair cargoes; the supply here of Brazil in first hands was 109,993 bags; options were less active to-day and declined 30 to 40 points; No. 7 sold at 10<sup>-10c.</sup> for October, 9.40@9.55c. for November, 9.40@9.75c. for December, 9.35@9.95c. for January and 9.30@9.55c. for February; notwithstanding the decline to-day, these prices show an advance during the week of  $1\frac{1}{4}c.$ ; mild grades have been quiet and loves weak. Foreign fruits have been quiet but steady. Rice has sold well at firm prices at auction. Spices have been quiet and cloves weak. Foreign fruits have been quiet but steady, specially New Orleans, which has beeome scarce; the demand is not very brisk. Raw scgar has been quiet but steady, sepcially New Orleans, which has beeome scarce; the demand is not very brisk. Raw scgar has been quiet but steady at 1.16c.6 for gir refined has declined to  $8\frac{5}{6}$ @ for standard "A." Kentucky tobacco has continued very firm, and the business for the week aggregates \$10 hhds., \$86

\$1 15@\$1 45.

Rosins have been quiet for export, owing to the higher rates

Rosins have been quiet for export, owing to the higher rates for ocean freights; 1,000 bbls. good strained sold to-day at \$157½. Spirits turpentine has been advanced by the small offerings on the spot; yard lots now 41c. Refined petroleum has been quoted at 8½c. for 70 Abel test, though 30,000 bbls, of re-sales were made at 8½c., and at the close more are offered at 8¾c. Crude certificates have declined badly, but are now in better shape, closing at \$1 10%, after selling at \$1 08% to-day. American pig iron is firmly held by the companies at \$21@ 22 50; no further speculative sales of moment have been no-ticed. Steel rails are dull at \$37, and the Lackawanna Iron & Steel Company, not satisfied with their appointment to the Chicago district, are offering large blocks at \$30, as an effort to break the combination. Ingot copper is steady at 15¼c. for Lake. Pig tin is now 20%c. cash for straits. Hops are steady at 13@25c. for State 1883 and 25c. for yearlings; a better ex-port call has taken place.

at 13@25c. for State 1885 and 25c. for yearings, a percer of port call has taken place. Ocean freight-room has been more active, and a good tone to rates is noticed. Grain was taken to Liverpool by steamer to-day at 4½d; do. to London by steam, 4¾d.; do. to Glas-gow by steam, 4½d; do. to Hull by steam, 4¾d.; refined pe-troleum to Liverpool, 3s. 4½d.; naphtha to do., 3s. 6d; refined oil to Bremen, 3s. 4½d.; grain by sail from Baltimore to Cork for orders, 5s. 1½d.; do. by steamers for October, November and December to do., 4s. 9d.@5s.

FRIDAY, P. M., October 12, 1883. THE MOVEMENT OF THE CROP. as indicated by our telegrams

THE MOVEMENT OF THE CROP. as indicated by our telegrams from the South to-night, is given below. For the week ending this evening (Oct. 12) the total receipts have reached 228,897 bales, against 165,461 bales last week, 125,032 bales the previous week and 96,819 bales three weeks since; making the total receipts since the 1st of September, 1883, 713,865 bales, against 682,976 bales for the same period of 1882, showing an increase since September 1, 1883, of 30,889 bales.

Prices of cotton for future delivery at this market advanced rapidly from the close of our last down to Tuesday morning. Short crop estimates began to be more generally accepted. Sales to realize profits, large receipts at the ports, and good weather at the South, caused on Tuesday a decline from the highest figures of the morning, and the final close was even below Monday's latest figures. On Wednesday the decline of Tuesday was recovered on strong Liverpool advices, and rumors that the forthcoming Bureau report would be unfavorable. On Thursday the Bureau report was printed, and caused a momentary advance here as well as at Liverpool; but as the report came to be analyzed, it was declared to point to a crop of at least 5,800,000 bales. Then came a sharp pressure to sell, under which prices fell off sharply, and the close was 9@11 points below Wednesday. To-day Liverpool was decidedly lower, and this market further declined 5@7 points, closing unsettled. Cotton on the spot has met with but a moderate general demand. Quotations were advanced 1-16c. on Saturday and again on Monday, and 1/8c. on Tuesday. To-day the sales embraced a large line in transit, but the close was easy at 1034c. for middling uplands.

The total sales for forward delivery for the week are 897,200 bales. For immediate delivery the total sales foot up this week 10,898 bales, including 400 for export, 4,598 for consumption, 1,400 for speculation and 4,500 in transit. Of the above, 800 bales were to arrive. The following are the official quotations for each day cf the past week.

RECEIPTS FROM THE PLANTATIONS.—The following table is prepared for the purpose of indicating the actual movement each week from the plantations. Receipts at the outports are some-times misleading, as they are made up more largely one year than another at the expense of the interior stocks. We reach therefore, a safer conclusion through a comparative statement like the following. In reply to frequent inquiries we will add that these figures, of course, do not include overland receipts or Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the out-ports. which finally reaches the market through the out-ports.

RECEIPTS FROM PLANTATIONS.

Week	Receip	ts at the	Ports.	St'k at 1	nterior	Towns.	Rec'pts	from P	lant'ns

** 12	191.056	206.136	228.897	196 581		184,915			

The above statement shows—1. That the total receipts from the plantations since September 1, in 1883, were 829,624 bales; in 1882 were 762,166 bales; in 1881 were 946,779 bales: 2.—That, although the receipts at the out-ports the past week were 228,897 bales, the actual movement from plantations was 256,276 bales, the balance going to increase the stocks at the interior towns. Last year the receipts from the plantations for the same week were 224,949 bales and for 1881 they were 232,058 bales. 232.058 bales.

AMOUNT OF COTTON IN SIGHT OCTOBER 12.—In the table below we give the receipts from plantations in another form, and add to them the net overland movement to October 1, and also the takings by Southern spinners to the same date, so as to give substantially the amount of cotton now in sight.

	1883.	1882.	1881.	1880.
Receipts at the ports to Oct. 12	713,865	682,976	795,643	903,125
Interior stocks on Oct. 12 in excess of September 1	115,759	79,190	151,136	109,075
Tot. receipts from plantatins Net overland to October 1 Southern consumptin to Oct. 1.	829,624 19,235 30,000	762,166 17,680 28,000	946,779 30,896 20,000	

Total in sight October 12.... 878,859 807,846 997,675 1,045.292 It will be seen by the above that the increase in amount in sight to-night, as compared with last year, is 71,013 bales, the decrease as compared with 1881 is 118,816 bales, and with 1830, 166,433 bales.

WEATHER REPORTS BY TELEGRAPH.-Our telegrams to-night show that the weather has continued very favorable for picking purposes during the week. The crop is being gathered and marketed quite freely.

Telegrams have not been received from the following Texas points: Galveston, Indianola, Dallas, Brenham, Palestine, Huntsville, Weatherford, Belton and Luling.

New Orleans, Louisiana,-We have had no rain during the week. The thermometer has averaged 79.

Shreveport, Louisiana.-The drought still continues. have had clear to fair weather during the week. Cotton men are reducing their estimates on the yield. The thermometer has ranged from 64 to 95.

Vicksburg, Mississippi.-Telegram not received.

Meridian, Mississippi.-Telegram not received.

Columbus, Mississippi .- We have had no rain during the week. Crop prospects are unchanged. The thermometer has ranged from 61 to 98, averaging 80.

Little Rock, Arkansas.—Telegram not received. Memphis, Tennessee.—The weather has been warm and dry all the week. Picking is (making good progress, and the crop is being marketed freely. The thermometer has averaged 27 ranging from 62 to 82

77, ranging from 62 to 88. Nashville, Tennessee.—It has rained on two days of the week, the rainfall reaching forty-five hundredths of an inch. The thermometer has averaged 73, the highest being 86 and

the lowest 56. Mobile, Alabama.—There has been no rain during the week. The thermometer has ranged from 59 to 90, averaging 77. Montgomery, Alabama.—We have had warm and dry weather all the week. The drought continues; there are no-signs of rain. The thermometer has averaged 79, the highest being 96 and the lowest 59. Setma, Alabama.—We have had no rain during the week. Planters are marketing their crop freely; average thermometer 75. highest 91 and lowest 55.

75, highest 91 and lowest 55.
 Madison, Florida.—Telegram not received.
 Macon, Georgia.—We have had splendid weather for picking purposes during the week. No rain.
 Columbus, Georgia.—We have had no rain during the week.

The thermometer has averaged 76, the highest being 88 and the lowest 67.

the lowest 67. Swannah, Georgia.—It has rained on two days of the week and the remainder of the week has been pleas int. The rain-fall reached twenty-four hundredt's of an inch.' Average thermometer 69, highest 85 and lowest 55. Atlanta, Georgia.—There has been no rain during the week. The weather is very favorable for picking cotton. Average thermometer 69.4, highest 85 and lowest 54. Augusta, Georgia.—The weather has been warm, dry and favorable all the week, tending to increase the bearing of the plant. Picking is making excellent progress, and the crop is being marketed freely. Indications now point to a fair aver-age crop. The thermometer has averaged 68, the highest being 86 and the lowest 55. being 86 and the lowest 55. Charleston, South Carolina.—We have had no rain all the

week. The thermometer has averaged 72, ranging from 56 to 82.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 3 o'clock October 11, 1883, and October 12, 1882.

	Oct. 1	1, '83.	Oct. 1	2, '82.
	Feet.	Inch.	Feet.	Inch
New Orleans	13	7	12	11
MemphisAbove low-water mark.	4	1	6	7
NashvilleAbove low-water mark.	1	9	2	6
ShreveportAbove low-water mark.	1	0	10	1 1
VicksburgAbove low-water mark.	3	5	9	4

New Orleans reported below high-water mark of 1871 until Sept. 9, 1874, when the zero of gauge was changed to high-water mark of April 15 and 16, 1874, which is 6-10ths of a foot above 1871, or 16 feet above low-water mark at that point.

INDIA COTTON MOVEMENT FROM ALL PORTS .- We have rearranged INDIA COTTON MOVEMENT FROM ALL PORTS.—We have rearranged our India service so as to make our reports more detailed and at the same time more accurate. We had found it impossible to keep out of our figures, as cabled to us for the ports other than Bombay, cargoes which proved only to be shipments from one India port to another. The plan now followed relieves us from the danger of this inaccuracy and keeps the totals correct. We first give the Bombay statement for the week and year, bringing the fourse down to October 11 bringing the figures down to October 11.

BOMBAY	RECEIPTS	AND	SHIPMENTS	FOR	FOUR	YEARS.

	Shipme	ints this	s week.	Shipm	ents sinc	e Jan. 1.	Re	ceipts.
Year	Great Brit'n.	Conti- nent.	Total.	Great Britain	Conti- nent.	Total.	This Week.	Since Jan.1.
1883 1882 1881 1880		6,000 3,000 6,000 2,000	10,000 6,000	757,000 311,000			5,000 5,000	1,570,000 1,632,000 1,176,000 1,088,000

According to the foregoing, Bombay appears to show an ncrease compared with last year in the weeks receipts of 2,000 bales, and a decrease in shipments of 2,000 bales, and the shipments since January 1 show a *decrease* of 114,000 bales The movement at Calcutta, Madras and other India ports for the last reported week and since the 1st of January, for two years has been as follows. "Other ports" cover Ceylon, Tuticorin, Kurraches and Coconada. Kurrachee and Coconada.

	Shipme	nts for th	e week.	Shipmen	ts since Jan	uary 1.
	Great Britain.	Conti- nent.	Total.	Great Britain.	Continent.	Total.
Calcutta-						- 24 18 1 28
1883	500		500	\$5,400	10,800	96,200
1882				105,800	32,000	137,800
Madras-					1 01.1	
1883	300		300	17,500	1,000	18,500
1882	2,000		2,000	64,400	4,600	69,000
All others-	7 000		7 000	05 -00	8,600	44.300
1883	1,300		1,300	35,700	26,700	72,800
1882				46,100	20,100	14,000
Total all-						
1883	2,100		2,100	138,600	20,400	159.000
1882	2,000		2.000	216,300	63,300	279,600

The above totals for the week show that the movement from the ports other than Bombay is 100 bales more than same week last year. For the whole of India, therefore, the total ship-ments since January 1, 1883, and for the corresponding periods of the two previous years, are as follows.

404

## THE CHRONICLE.

Total	10,100	1,110,000	12,000	1,641,600	6.400	1.054,000

This last statement affords a very interesting comparison of the total movement for the three years at all India ports. ALEXANDRIA RECEIPTS AND SHIPMENTS.—Through arrangements we have made with Messrs. Davies, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the pravious two years of the previous two years.

Alexandria, Egypt, October 11.	18	83.	18	882.	18	381.
Receipts (cantars*)— This week Since Sept. 1		50,000 02,000		4,000 4,000		100 C 00 172,530
and the second	This week.	Since Sept. 1.	This week.	Since Sept. 1.	This week.	Since Sept. 1
Exports (bales)— To Liverpool To Continent	5,000 1,000	7,000 3,000			3,060 667	7,000 1,855
Total Europo	12 000	10.000			9.000	0.055

Total Europe ..... [ 6,000 | 10,000 ] ..... ] ..... ] 3,667 8,855 \* A cantar is 98 lbs. This statement shows that the receipts for the week ending Oct. 11were 50,000 cantars and the shipments to all Europe were 6.000 bales.

MANCHESTER MARKET.—Our report received from Manchester to-night states that the market is quiet with limited business. We give the prices of to-day below, and leave previous weeks' prices for comparison.

AGRICULTURAL DEPARTMENT'S REPORT.-Below will be found the full text of the Agricultural Department's report on cotton for Oct. 1.

The cotton returns of the Department of Agriculture show that the condition of the crop on the 1st of October was worse

than on the 1st of September. The continuance of drought at many points, the ravages of worms in regions most infested, and the more visible results of worms in regions most infested, and the more visible results of previous injuries, have reduced the general average of condition from 74 to 68. In October of last year 88 foreshadowed a crop of 7,000,000; in October of 1881 the average was 66 and the crop was less than five and a half million bales. The rate of yield per acre was a third greater than last year; the indica-tions point to a crop a little larger than that of 1881, but falling short of the last crop by more than a million bales. The highest condition is in Florida, where a small breadth had an early and favorable start; the lowest in Texas. The entire Gulf coast suffered both from drought and the cater-pillar.

pillar.

pillar. The more northern States of the cotton belt escaped insect injuries and the worst severity of the dry season. The averages of condition are as follows: Virginia, 67; North Carolina, 69; South Carolina, 67; Georgia, 66; Florida, 82; Alabama. 67; Mis issippi, 67; Louisiana, 65; Texas, 65; Arkan-sas, 71; Tennessee, 75 An attempt was made, for the first time, in October to get an estimate of the probable average yield of counties in hundredthe

An attempt was made, for the first time, in October to get an estimate of the probable average yield of counties in hundredths of a bale per acre. The result, after correction of obvious errors, is stated as follows: Virginia, 36 hundredths of a bale per acre; North Carolina, 37; South Carolina, 32; Georgia, 29; Florida, 24 (including Sea Island; Alabama, 31; Mississippi, 35; Louisiana, 43; Texas, 37; Arkansas, 46; Tennessee, 33.

That the reader may have for comparison the condition according to the Agricultural Department for October 1 of previous years, we give the following, collected from its reports,

					_								
October.	1883.	1882.	1881.	1880.	1879.	1878.	1877.	1876.	1875.	1874.	1873.	1872.	1871.

GEORGIA AGRICULTURAL DEPARTMENT REPORT FOR OCTOBER 1. Commissioner Henderson issued, on October 6, his report on the condition of cotton for October 1. It is as follows :

the condition of cotton for Ostober 1. It is as follows: The prospect of the cotton crop has steadily diminished since Sep-tember 1. At that date the estimates of correspondents were effected to some extent (and justly) by reasonable anticipations of favorable weather. The few showers that occurred in most places during the first ten days of August induced a second growth of the plants that gave promise of adding materially to the yield. But the recurrence and con-tinuatice of dry weather throughout September has destroyed these hopes in great part. In Southern Georgia-embracing, Southwest, East and Southeast Georgia-the caterpillar has materially damaged the crop,—in some localities 50 per cent. The prospective yield compared to an average crop, as shown by dis-tricts, and the falling off since September 1, is as follows: North Geor-gia, 59, a loss of 11 points; Middle Georgia, 59, a loss of 7 points; Southeast Georgia, 59, a loss of 4 points; the whole State, 62, a loss of 8 points. The season has been very favorable for gathering the crop, and this

toss of 8 points. The seas n has been very favorable for gathering the crop, and this circumstance will generally favorably affect the estimates. The crop, however, will be nearly all harvested by the middle of October. In the last report the opinion was expressed "that the cotton crop of Georgia cannot, in any event, exceed 75 per cent of an average crop, with the probabilities very strongly in favor of a lower figure." This statement was intended to be very guarded, and after mak ga liberal allowance for a seasonable and otherwise favorable fall, including the chroumstances of a late frost. These conditions have not occurred with full force, and a late frost cannot now very materially affect the result.

NEW YORK COTTON EXCHANGE.-Plans and specifications of the new building have been filed at the Building Bureau. The excavations for the foundation and the test of the soil have proved to be of the most satisfactory character. Mr. C. von Destinon, 54 Wall Street, Mr. H. T. Clason, Bremen, and Mr. Thomas F. Brown, Cincinnati, have been elected members of the Exchange. The following visitors were introduced this week :

C. L. Roche, Charleston, S. C., J. M. Campbell, Columbia, S. C., W. T. Heaver, Ashville, N. C., E. G. Muse, Ricamond, Va.,

H. I. E. Roffee, Utica, N. Y. C. R. Hallums, Tennessee, A. Viatull, New Orleans, W. W. Screws, Montgomer<sub>f</sub>.

JUTE BUTTS, BAGGING, &c -The market for bagging is without material change. The demand has continued quite active for small parcels, and goods are moving freely. The inquiry is for all grades, and sales are reported of 1,500 rolls at full rates, sellers at the close not showing any disposition to accept less than 9c. for 11/2 lbs., 91/2c. for 13/4 lbs., 101/4c. for 2 lbs. and 11c. for standard grades. Butts are firmer in price for spot lots, and the market is more active. Orders are coming in for jobbing quantities, and for these holders are asking a shade higher figures, paper grades being quoted at 21/4@23%c. and bagging qualities at 23/3@21/2c. There have been sales of about 1,000 bales, mostly paper grades, at 23-16@21/4c. and 2%c. for bagging.

COMPARATIVE PORT RECEIPTS AND DAILY CROP MOVEMENT .---A comparison of the port movement by weeks is not accurate as the weeks in different years do not end on the same day of the month. We have consequently added to our other standing tables a daily and monthly statement, that the reader may constantly have before him the data for seeing the exact relativemovement for the years named. The movement each month since September 1, 1882, has been as follows.

Monthly		Year	Beginning	septembe	r 1.	
Receipts.	1883	1882.	1881.	1880.	1879.	1878.
Sept'mb'ı	313,812	326,65t	429,777	458,478	333,643	288,848
P re'tage receipts	Sept. 30	05.43	09.10	07.80	06.67	06.49

This statement shows that up to Sept. 30 the receipts at the ports this year were 17,156 bales more than in 1882 and 85.935 bales less than at the same time in 1881. The receipts since September 1, 1883, and for the corresponding periods of the five previous years have been as follows.

	1883.	1882.	1881.	1880.	1879.	1878.

Percentage	of total					
port rec'p	ts Oct. 12	10.57	15.52	13.57	12.04	12.39

This statement shows that the receipts since Sept. 1 up to to-night are now 77,343 bales more than they were to the same day of the month in 1882 and 18,729 bales less than they were to the same day of the month in 1881. We add to the table the percentages of total port receipts which had been received to October 12 in each of the years named.

THE EXPOSTS OF COTTON from New York this week show a decrease, as compared with last week, the total reaching 13,119 bales, against 14,715 bales last week. Below we give our usual table showing the exports of cotton from New York and their direction, for each of the last four weeks; also the total exports and direction since September 1, 1883, and in the last column the total for the same period of the previous year

SHIPPING NEWS.—The exports of cotton from the United States the past week, as per *latest mail* returns, have reached 65,490 bales. So far as the Southern ports are concerned, these are the same exports reported by telegraph, and published in the CHRONICLE last Friday. With regard to New York, we include the manifests of all vessels cleared up to Thursday night of this week:

New YORK-To Liverpool, per steamers Baltic, 2.021 Celtic, 1,275City of Richmond, 2,471Gallia, 641	
Helvetia, 781Horrox, 606Wisconsin, 1,774	9.569
To Bremen, per steamers Rhein, 850Salier, 400	1,250
To Hamburg, per steamer Suevia, 700	700
To Amsterdam, per steamer Zaan am, 1,150	1,150
To Antwerp, per steamers Hermann, 350 Penniand 100.	450

Below we add the clearances this week of vessels carrying cotton from United States ports, bringing our data down to the latest mail dates:

latest mail dates:
GALVESTON-For Liverpool-Oct. 11-Steamer Scrapis, 1,550.
NEW ORLEANS - For Liverpool-Oct. 6-Steamer Inventor, 3,553....Oct. 8-Steamer Sculptor, 1,521...Oct. 10-Steamer Simoon, 5,966.
For Havre-Oct. 9-Steamer North Cambria, 5,670.
For Malaga-Oct. 9-Steamer North Cambria, 5,670.
For Bermen-Oct. 9-Steamer Fornwood, 4,500.
WILMINGTON-FOR Liverpool-Oct. 11-Steamer Wolviston, 4,613.
For Bermen-Oct. 9-Steamer Fernwood, 4,900.
WILMINGTON-FOR Liverpool-Oct. 10-Steamer Bellmore, 3,575.
BOSTON-FOR Liverpool-Oct. 5-Steamer Strassburg, 3,087.
For Roterlam-Oct. 9-Steamer George Heaton, 1,000.
PHILADELERILA-FOR Liverpool-Oct. 5-Steamer British Prince, 1,226.
Below we give all news received to date of disasters to vessels carrying cotton from United States ports, &c.: carrying cotton from United States ports, &c.:

MARY M. COOPER, steamer, filled and sank as her wharf at Savannah, September 30. She was loaded with 18 bales cotton and other merchandise, all of which was saved without damage ENDYMICON, steamer (Br.), at Savannah, loading. About 11 P. M. of Oct. 7 the cargo of cotton in the forward compartment of the steamer Eadymion was discovered to be on fire, and 150 bales were burned. 500 to 600 bales were damaged by water.

Cotton freights the past week have been as follows:

#### BREADSTUFFS. FRIDAY, P. M., Oct. 12, 1883.

Flour has continued dull and weak. The European, South American and West Indian markets are reported to be well supplied for the present, and the home demand, in addition, is quite moderate. The supply available here is liberal, both of winter and spring wheat grades. To-day the market was still very quiet, but there was perhaps a slightly steadier tone apparent.

Wheat has sold more freely on speculatian but the export traffic has not been on a very extensive scale. The ample supplies in such markets as London, Liverpool, Glasgow and Paris have unquestionably a restrictive influence on the foreign trade. In addition the supply at the West is steadily increasing and is now materially larger than that held there at this time last year or at this date in 1881. Prices have accordingly declined here about 3 cents. As the quotations have receded there has been no little covering of contracts, and on several days the transactions in options, in fact, reached a large aggregate. Today the market was  $\frac{1}{40}$ %c. higher with a fair degree of activity. No. 2 red on the spot sold at \$1 11½@\$1 11¾ delivered, and for future delivery at \$1 09½@\$1 10½ for October, \$1 12‰@\$1 12¾ for November, \$1 14¼@\$1 14½ for December and \$1 16½@\$1 17 for January.

Indian corn has met with a good export demand, and the prices on the spot have latterly been quite firm. Options have sold moderately only, but some depression in the fore part of the week has latterly given place to a firmer tone, which was especially noticeable yesterday, when the visible supply in this country showed a decrease of 651,319 bushels, compared with that of a week ago. To-day there was a fair business, and cash corn was steady, while options, which early in the day were weak, recovered later and advanced  $\frac{1}{4}$  to  $\frac{1}{2}$ c. On the spot No. 2 mixed sold at 59 $\frac{1}{2}$ c. afloat, but later this figure was bid and 60c. asked; steamer white and yellow sold at 59c. and graded yellow in elevator at  $60\frac{1}{2}$ c.; No. 2 mixed for future delivery sold at  $59\frac{1}{4}$ @59 $\frac{1}{6}$ c. for both October and November, 59 @59 $\frac{3}{4}$ c. for December and 58@58 $\frac{1}{2}$ c. for January.

Rye has been moderately active, with Canada and State rather easier. Buckwheat has been scarce and quiet. Barley has been quiet, pending receipts of the new crop; No. 1 Canada to arrive has sold at 90c. and Western is quoted at nominally 70@ 75c. [Oats were at one time depressed, but have latterly rallied in response to rather firmer markets at the West, and prices are now slightly higher than a week ago, while there is a fair business in progress. To-day the market advanced ½c.; N. 2 mixed sold at 34¾@34‰c. for October, 35½@35¾c. for November, 36¾@37c. for December and 38@38‰c. for January.

#### THE DRY GOODS TRADE.

#### FRIDAY, P. M., Oct. 12, 1883.

Business has ruled quiet in the wholesale branches of the trade the past week, the mildness of the weather having retarded the demand for consumption for nearly all heavy fabrics. The domestic commission houses experienced a steady though strictly moderate call for cotton and woolen goods, prints, dress goods, sackings, &c., but there was no snap to the demand, and selections were entirely governed by actual wants. Foreign goods were very quiet in first hands, and most kinds sold poorly when offered through the medium of the auction rooms. The jobbing trade was light and irregular, and there was only a moderate movement in clothing, shirts, cloaks, suits, &c., from the hands of manufacturers. Accounts from the West and Southwest continue satisfactory, but late advices from certain sections of the South are not as favorable as could be desired, the partial failure of the cotton crop in some of the districts having had a depressing effect upon business, and rendered buyers very cautious in their operations.

## THE CHRONICLE.

DOMESTIC COTTON GOODS .- The exports of domestics for the week were 2,561 packages, of which 917 were shipped to Great Britain, 732 to Chili, 296 to China, 200 to United States of Colombia, &c. The demand at first hands was strictly moderate, aside from a few fabrics adapted to the spring trade, in which there was a fair business for future delivery. The hardening tendency of the staple has imparted a firm tone to the market for manufactured goods, but the demand has been so light that agents have not ventured to advance prices. Leading makes of brown, bleached and colored cottons, cotton flannels, &c., are well sold up as a rule, and outside brands are not in excessive supply at present. Print cloths were in moderate demand and closed firm at 3 11-16c. for 64x64 "spots," 33/4c. for 64x64 "futures," and 31/4c, plus 1 per cent, for 56x60s. Prints ruled quiet in agents' hands, but some large lots were closed out by jobbers at relatively low prices.

Domestic Woolen Goods .- There was a considerable influx of clothing manufacturers from the West, who placed some fair orders for spring cassimeres, suitings and worsteds, but their purchases were conducted with a degree of caution suggestive of considerable "carried over" stocks. Heavy clothing woolens were taken in small lots to a moderate amount, and there was a fair business in cloakings, sackings, repellents and stockinettes, while Jersey cloths have subsided into a condition of comparative quiet, after having had an exceptionably brisk run. Satinets met with a fair share of attention, but Kentucky jeans and doeskins were lightly dealt in. Flannels were in steady request, and stocks are so well in hand that prices remain firm. but blankets were somewhat unsettled upon the announcement of another large auction sale for the coming week. Dress goods continued in pretty good demand and firm, because of the light supply on hand. Shawls, skirts and carpets were in fair request, but hosiery and knit underwear were mostly quiet.

FOREIGN DRY GOODS.—The market for imported goods has lacked animation, and yet there was a fair business in a few specialties. Silks were dull in private hands, and sold poorly when offered at auction, but velvets, velveteens and plushes found ready buyers. Dress goods were in irregular demand. and, upon the whole, sluggish, and transactions in men's-wear woolens were mainly restricted to placing orders for spring weights. Linens, white goods and laces were severally quiet.

#### Importations of Dry Goods.

The importations of dry goods at this port for the week ending Oct. 11, 1883, and since January 1, and the same facts for the corresponding periods of 1882, are as follows:

10.		-			1000
