POST OFFICE BOX 958.

THE FINANCIAL SITUATION.

No essential change has occurred in the business outlook since our last issue. Uncertainty, if not distrust, seems for the time being to be widely prevalent. This was of course aggravated by the suggestion of last week to the Clearing House that the Secretary of the Treasury might be led to pay his balances in silver dollars or certificates, for that question brought our people face to face with the evil influence they have so long been quietly fearing. Hence the currency problem suddenly became the absorbing topic, the public being rudely awakened to the possible prospect of losing what it spent so much of misery to attain during the years previous to 1879.

Still, like all popular movements quickened by a fear, this one has been hasty. As we said last week, we can repeat authoritatively this week, there is no reason for

week is the evidence that merchants have been particularly active in hoarding gold. Over \$5,000,000 gold coin has thus been withdrawn from the Sub-Treasury since February 21st, and only a small portion of it for shipment, the remainder being now held in the vaults of the banks against checks, which have been drawn in favor of customers, made payable in gold and certified. This has been done at the instance of merchants who have taken alarm at the fact that from 1 to 1 of 1 per cent has been bid for the privilege of calling gold at 101 for the remainder of the year. But as it is now known that the Secretary of the Treasury has no present intention of changing the existing relations with the Clearing House, this withdrawal movement is evidently ture, and likely soon to cease. So far as the bidding for the privilege of calling gold at a premium is concerned, it may be dismissed as purely sensational, intended for effect upon the stock market and to keep alive an unsettled feeling in the community. Although several bids have been reported, we hear of but one actual transaction, and that was the payment of 1 of 1 per cent to call \$1,000,000 gold at 101 for the remainder of the year.

In the meantime the exchange market continues strong, and the feature on Thursday was an advance in the long rate, caused by a demand for this class of bills by bankers who have hitherto confined their purchases to short bills and cable transfers. Another reason was the easier feeling in the London discount market, the rate for money falling to 31 per cent. While this distributes the demand between the two classes of exchange, the inquiry is sufficiently urgent to keep the sight rate close to the gold-exporting point, although at current figures there is, as we stated last week, a very small margin of profit in making shipments. If the demand should be so large for to-day's steamers as to exhaust the supply of bills, it is probable that considerable shipments will be made by bankers who have not heretofore been disposed to assume the risk and trouble. At this writing we can verify only \$1,100,000 gold as having gone on board the Adriatic, \$500,000 for Von Hoffman, \$100,000 for J. Kennedy Tod & Co., and \$500,000 for Kidder, Peabody & Co. The supply of bills this week has been fair, and from a anticipating that the Government will take this suggested variety of sources, and some bankers report shipments step now, or until it is compelled to do so. Anyone, of securities in moderate amounts. The new Pennsylvania however, acquainted with currency laws knows that the rangoad loan for \$3,000,000, which was promptly taken event, if the coinage of silver continues, is as sure to between New York and London capitalists, will probably happen as the sun is to revolve, and the action this week fareish some exchange and other drafts may be made only suggests how suddenly and in what shape it will against foreign funds invested in Western lands, comcome when the forces now in operation have worked out paratively large amounts now going into those enterprises. their legitimate result. For instance, the feature this But the united offerings from all such sources and from exports of staples cannot be expected to make more than a temporary impression upon the market, and to slightly diminish gold shipments.

In view of all these facts, is not this a favorable opportunity to make an appeal to Congress for the suspension of silver dollar coinage? Can not our mercantile organizations at all our monetary centres be led to act in the matter? The emergency is urgent; and if our Chamber of Commerce would take the initiative, good might result. It seems not improbable that, as gold begins to go out more freely, the claims of business interests will be heeded. There is a further circumstance to encourage those who may contemplate such a movement, and that is, not for many a year have our legislators in Washington shown so little-fanaticism and given so decided evidence of conservatism as at present. This impression may all be changed by future legislation, but up to this time it remains true. We have conspicuous evidence of the fact this week, not only by the passage of the McPherson banking bill in the Senate, by the remarkable vote of 43 yeas to 12 nays, but also by its report to the House through the Committee on Banking and Currency, by a vote of 8 in favor to 4 against such a report.

We give the bill in full in another column, as it deserves a record, whether it ever becomes a law or not, as illustrative of the changed spirit which has come over Congress on financial questions, or at least in matters affecting banks. Evidently one truth has taken root at Washington now, and that is that it is not popular to attack or harm our present banking system without proposing a better. We do not mean that the McPherson measure will be accepted by all parties interested as the best pro. posed, or that it can in any event be more than a temporary relief. We hope the House will add to it the tax remis sion clause which the Potter bill proposes. If so amended and adopted, a large body of the smaller banks are likely to increase their circulation, so that for a year at least forced bank currency contraction will be avoided. The call at the close of last week by the Secretary of the Treasury of 10 millions more of the 3 per cent bonds suggests the urgency of the need for speedy action. We have heard some criticism of Mr. Folger for making this call. No criticism, it seems to us, could be more unjust. He has delayed action until his surplus has forced it. In fact his management in this particular has been so considerate that he has carried a largely increased balance all the year The only remedy lies in Congress, first to pass without delay some one of the measures now proposed for making note issues less burdensome to the banks and next to cut down the revenues to the lowest possible limit.

The tendency of the stock market has been irregular and generally downward this week. Reading was sharply advanced on Monday and Pacific Mail and Lackawanna on Tuesday, and this favored the view that manipulation, similar to that which has been in progress for the last four weeks, was to be further continued. The movement in Read. ing could not readily be accounted for upon any other theory than that it was being advanced for the purpose of influencing the other stocks on the list. It was observed, however, that the supply of stock came from Philadelphia, and in view of the fact that the earnings show a large decrease an attempted unloading was believed in, and can be readily understood. There is a suspicion that the buying here was more apparent than real, and that the large reported business in this stock and in Lackawanna was due to the execution of matched orders, for the purpose of conveying the impression that the demand was legitimate. After the upward movement in Pacific Mail and Lackait was evident that clique support was gradually being withdrawn. This encouraged the bears, and on Thursday they resumed their operations, being aided by reports of cutting of rates on Colorado business between the lines in the Western Pooling Association and the Quincy, Atchison and the St. Louis & San Francisco. The falling off in the traffic of many of the lines making reports tended to confirm rumors of a loss of business by all the roads, and the severe weather in the Northwest more or less affected the stocks of roads in that section.

The withdrawal of clique support from the market may have been for the purpose of encouraging a fresh short interest as the basis for another rise. The manipulators have doubtless succeeded in marketing upon the shorts a large proportion of the stocks they bought preparatory to the commencement of the upward movement a month ago, and perhaps they are not unwilling to see a decline now, particularly as a continuation of the advance would necessitate large purchases. This change of front may have been influenced to some extent by the sudden change in the financial situation discussed above, tending to unsettle confidence among non-professionals for whose benefit mainly the market was manipulated, the object being to encourage investment or speculative purchases. Still, the bulls have made a very successful campaign, and are in a position to take advantage of any favorable change in the situation to again turn the market upward. Indeed, they seem to have re-asserted their power yesterday afternoon, when a pretty general advance was established, West Shore bonds being conspicuous in the upward movement, on the announcement that Mr. W. H. Osborn, formerly of the Illinois Central, had gone into the management of the road.

We have already referred to the unfavorable statements of earnings and income that have come to hand as an influence on the stock market this week. For a long time railroad earnings have kept up remarkably well, but now they, too, are beginning to feel the effects of continued bad business. The New York Central return, as we shall show below, can hardly be regarded as favorable, while the January exhibit of the Pennsylvania is markedly unfavorable, and that of the Reading records no improvement on the poor result for December. Then Western roads, too, are beginning to lag behind. St. Paul has now for two weeks recorded a decrease, while the Northwest has had only a nominal increase. East of the Mississippi the Illinois Central is still running from \$15,000 to \$20,000 a week below 1883, while down in the South the Louis. ville & Nashville also records a continuous falling off. Altogether, the situation in this respect has been less favorable than for a long time past.

New York Central earnings, made public this week, are taken from the first quarterly report to the New York State Railroad Commissioners. The exhibit covers the period ended December 31, 1883. It shows a surplus of about \$50,000 above all charges of every nature, and above the quarter's proportion of the 8 per cent dividends being paid. This would be a very satisfactory showing were it not for the fact that it embraces the best quarter of the company's year-that is, the period in which earnings are much larger usually than in other quarters. Besides, it is clear that at present at least the traffic conditions are not as good as they were in the three months under review. In fact, there was a change in this respect even before the period closed, which must have affected the showing somewhat. Thus we know that in October both the Pennsylvania and the Erio recorded large gains in net; in November the Pennsylvania again wanna on Tuesday the market assumed a neavy tone, and had a very large gain, but the Erie had a small loss; in

December the Pennsylvania also had a loss (the Erie | would be. The reason for this is the same as in January figures for that period not yet having been received). Further, the Pennsylvania now comes cut with a loss of over \$600,000 for January, which emphasizes the dis-! tinction between the present quarter and that ended with

Hence, it is clear that the statement submitted offers no guide as to what may be expected in the remaining nine months of the fiscal year. Of course, if we had the figures for the same three months of 1882 we could easily determine whether the company had gained or lost thus far in the new fiscal year. But, unfortunately, we have not even the gross earnings for that period. In 1879 and 1880, however, monthly gross receipts were published for a time. Using these figures to arrive at the gross earnings, the items of interest, rontals and dividends can be got by taking one quarter of the amount paid in the full twelve months of which the quarters formed a part. As to expenses, we attempt only an approximation to the actual figures. In the fiscal year 1879-80 the ratio of expenses to earnings was 54 per cent. We use that for the quarter, October to December, 1879. In the year 1880-1 the ratio was $60\frac{1}{2}$ per cent, but we use 58 per cent for the quarter, since the ratio for the twelve months was raised by the rate war that prevailed in the latter part of the year. As to taxes, we are somewhat puzzled. What the company usually gives as taxes is simply the State tax on earnings and capital, amounting in the fiscal year 1882-3 to \$323,135, the tax on real estate (aggregating nearly a million more) being included in ordinary operating expenses. But in the statement just to hand the item of taxes counts for \$323,750 in a single quarter. It hardly seems likely that the company would bring full taxes on earnings and capital into one quarter. On investigation, we are inclined to think that the quarter's taxes has been made to embrace those on real estate, the company having taken them out of operating expenses to conform with the report of the Commissioners, who, in drafting their blank schedule, evidently intended to embrace all taxes in the item of that name. Hence it will be understood why the amount is so much larger in the present quarter than in the corresponding periods of 1880 and 1879. With these explanations we present the following statement.

	Oct. 1 to Dec. 31, 1883.	Oct. 1 to Dec. 31, 1880.	Oct. 1 to Dec. 31, 1879.
Gross earnings	\$ 7,914,128 4,435,799	\$,976,142 •5,206,163	8.546,637 4.615,184
Net	3,478,329	3,769,979	3,931,453
Charges— Interest. Taxes. Rentals	826,617 323,750 489,633	;712,397	1705,719 62,910 \$480,569
Total	1,610,000	1,247,694	1.189,198
Remainder	1,838,329 1,788,609	2,522,285 ;1,784,583	2,742,255 \$1,785,378
Surplus	49,720	737,700	956,877

On the basis of an assumed ratio of 58 per cent. † On the basis of the ratio of expenses for the full fiscal year, as shown in the report for that year—54 per cent. † One quarter's proportion of the charge for the year. § One quarter's proportion of tax on carnings and capital only—tax on real estate having been included in operating expenses.

Thus we see that the surplus of \$50,000 in the three months of 1883 compares (as nearly as can be determined) with a surplus of almost three-quarters of a million in the same period of 1880 and of nearly a million dollars in 1879. Gross earnings (which are actual in all the years given, and about which therefore there can be no doubt) prove to be \$632,000 smaller than in 1879 and \$1,062,000 smaller than in 1880.

Philadelphia & Reading's January statement has also

-namely, a partial auspension of coal mining, under which the Railroad had a coal tonnage of only 440,402 tons in 1884, against 576,211 tons in the same month in 1883. Another adverse circumstance was the diminished tonnage of general merchandise, which in December had kept pretty close to the preceding year. The loss for the month was 57,889 tons, while in December it was only 11,536 tons. The passenger movement, on the other hand, was larger than in the previous year (as was also the case in December), for, deducting the movement over the Central New Jersey, the number carried in 1884 reached 997,136, against only 948,282 in the same month of 1883. The effect of the smaller tonnage of coal and merchandise, not only on the Reading directly, but also on its leased line the Central of New Jersoy, is seen in net earnings (after allowing for the rental of the Central of New Jersey) of only \$197,234 in January, 1884, against \$664,878 in January, 1883. It does not seem to be generally understood that the Reading's earnings include in the present year those of the Central, and that those latter have to be deducted to obtain a proper comparison of operations with the previous year, and that after this has been done the loss on the lease must also be allowed for to arrive at the actual net result. The following statement for January and the two months of the company's fiscal year is correctly made up.

-	Janı	uary.	Two months.		
Items.	1884.	1883.	1883-84.	1882-83.	
Net earnings of the RR Deduct Contral N. J., net	\$759,133 178,158	\$675,343	\$1,644,690 448,453	\$1,513,952	
LeavingAdd result on Coal Co	\$580,975 *91,606	\$675,343 *10,465	\$1,196,237 *197,776	\$1,513,952 *5,291	
Total of both comp's Loss on Central lease	\$189,309 292,075	\$664,878	\$998,461 505,871	\$1,503,661	
Actual net result	\$197,234	\$064,878	\$192,590	\$1,508,661	

Thus the company had left to it in the two months of the current fiscal year only \$492,590, against \$1,508,661 in the same two months of the preceding fiscal year-a loss of \$1,016,071. Lest, however, too much weight be given to this unfavorable result during these two months, we would say that the company's officials are not at all alarmed at the showing, but state that they anticipated such a result for the early months of the year as a result of the restricted production of coal. In December the company had nine idle days, and by agreement with the other coal roads there was to be a suspension of mining during 39 days through January, February and March. So the officials expect poor results for two months more, but after that, with production resumed in full, think they can confidently count upon very large profits.

Pennsylvania Railroad's exhibit for January is of the same kind as that of the Reading. On the lines east of Pitteburg there is the large loss of \$355,124 in gross and of \$304,922 in net, while on the lines west of Pittsburg there is a deficiency of \$106,556 in meeting liabilities. whereas in the previous year there had been a surplus of \$221,810, a difference against 1884 of \$328,366. In other words, on all lines operated-both east and west of Pittaburg—the company lost no less than \$633,288 during the month, as compared with 1883. The month this year afforded only a moderate volume of through traffic, while local traffic was no doubt unfavorably affected to a large extent by the existing depression in manufacturing and other industries, which play so important a part in the company's business. To show how the present exhibit been received and is unfavorable, as it was expected it compares with that for the corresponding month in previous

years, we give below the gross and net earnings on the lines east of Pittsburg (those west are not furnished) each year since 1879, adding also the loss or profit on the Western lines, so as to get at the atcual result of all of cra-

January.	1879.	1880.	1881.	1882.	1883.	1884.
	8	\$	\$	\$	8	\$
Gross earnings	2,543,424	3,083,551	3,189,215	3,373,321	3,929,357	3,574,233
Operat's expenses	1,523,893	1,717,253	1,952,354	2,299,055	2,453,290	2,408,097
Net earnings	1,019,531	1,366,298	1,206,801	1,074,260	1,471,058	1,106,136
Western lines	*161,727	*300,827	*381,207	*42,748	*221,810	+100,556
Result	1,181,258	1,667.125	1,588,068	1,117,014	1,092,868	1,039,589

† Deficit. * Surplus.

Thus the company had a smaller profit in 1884 than in any of the six years given-smaller even than in 1879. In none of the years except the present have the Western lines returned a loss. The net earnings on the lines east of Pittsburg are somewhat larger than in 1882, when, however, the rate war had reduced them. They are also better than in 1879, but only a trifle, though meanwhile gross have increased over a million dollars, and this brings us to a very important feature in the returns namely, the heavy expenses. As compared with the pre. ceding year, there is, as already stated, a falling off of \$355,124 in gross, but expenses have declined no more than \$50,202. This would appear to show that wages and other items of expenses are still main ained at a comparatively high figure. If that be so, then there is a likelihood that though gross business may continue to fall off, the company will find it possible to offset the loss by a contraction in the items of expense. Certainly, when we find that expenses are now (for a single month) \$900,000 greater than in 1879, on a gross business augmented \$1,031,000, there would seem to be considerable room for a reduction. And this is a circumstance which should not be lost sight of in discounting the future unfavorably,either in the case of this company or of others.

: Ex-interest.

Money on call has not been effected by the unsettled feeling regarding gold, and the supply continues abundant. Should the hoarding of gold continue, however, and the amount in the custody of the banks be regarded as a special deposit, and not counted as part of the reserve, the effect upon the market would be a decided contraction, and be soon felt. The policy of the banks in this respect will doubtless be indicated by this week's bank return. The following statement, made up from returns collected by us, exhibits the week's receipts and shipments of currency and gold by the New York banks.

Week. Ending Feb. 29, 1881.	Received by N.Y. Banks.	Shipped by N.Y. Banks.	Net Interior Movement.
Currency	\$1,082,000 120,000	\$813,000 237,000	Gain. \$269,000 Loss. 117,000
Total gold and legal tenders	\$1,202,000	\$1,050,000	Gain. \$152,000

The above shows the actual changes in the bank holdings of gold and currency caused by this movement to and from the interior. In addition to that movement, the

banks have lost \$3,900,000 through the operations o the Sub-Treasury and by exports of gold. Adding that item therefore to the above, we have the following, which should indicate the total loss to the New York Clearing House banks of gold and currency for the week covered by the bank statement to he issued to day.

Week Ending Feb. 23, 1884.	Into Banks.	Out of Banks	Not Change in Bank Holdings.
Banks' Interior Movement, as above Sub-Treasury operations, nct		\$1,050,000 3,000,000	Gain. \$152,000 Loss. 3,9(0,000
Total gold and legal tenders	\$1,202.000	\$4,950,000	Loss. \$3,748,000

The Bank of England reports a gain of £246,000 bullion or the week. This represents £275,000 received from the interior and £29,000 shipped. The Bank of France shows a gain of 2,650,000 francs gold and a loss of 50,000 francs silver, and the Bank of Germany reports an increase of 6,780,000 marks. The following indicates the amount of bullion in the principal European banks this week and at the corresponding date last year.

	Feb. 28, 1884.			Mch. 1, 1883.

CANADA BANKS AND CIRCULATION.

Our monetary relations with our very near neighbor Canada have of course always been intimate. Of late years, however, though tariff restrictions have fettered trade, the financial connection with this city has become closer. This is due in great measure to the fact that the taxes our New York banks were able to pay in years of inflation were suppressive when bank privileges became less profitable, driving domestic capital out of the business and forcing our people to a larger extent than formerly to depend upon foreign banking capital. Thus it is that the New York Clearing House represented more capital in 1957 than it does now-then the total was about 641 million dollars, now it is only about 614 millions, whereas in 1871 and for a short time thereafter it reached about 813 millions.

Then again the building of the Canadian Pacific Rail. road and the obligations it has put out and is about to put out, connect that people more closely with the investing public, giving wider interest to every fact relating to financial affairs in the Dominion. But the special circumstance which turned our attention to the banks at this time, was a meeting of bankers held at Buffalo on the 13th of February to consider the propriety of longer taking Canadian money which now circulates in Buffalo almost as freely as our own bank bills or legal tenders. There seems, however, to have grown up there a general feeling of dislike for these notes, the complaint being that "they dare not so well secured as our own, and when a bank "fails there is no provision for the redemption of its

naking arrangements with the Canadian authorities under which we shall receive and publish hereafter the returns he banks are required to make within the first twenty lays of each month. We give them to-day in detail on a subsequent page, but below is a summary for January and a comparison for previous months.

LIABILITIES.	Jan., 1884.	Dec., 1883.	Dec., 1882.
apital paid up	\$61,474,273	\$11,451,733	\$61,039,657
teserve fund	17,512,718	17,457,718	
totee in circulation	30,031,077	83,589,455	36,501,69
overnment deposits	11,151,030	11,197,709	11,801,327
ther deposits	97,164,512	D6,609,746	96,879,510
oaus, &c., due Canada banks	2,800,679	2,451,615	2,669,880
no foreign agencies	1,226,015	1,685,812	1,560,819
Il other habilities	815,269	378,007	336,26
Total liabilities	\$221,712,179	\$224,722,195	\$210,789,18
ASSETS.			
pecie	\$7,527,369	\$7,225,553	\$6,555,76
ominion notes	11,799,980	11,176,840	10,463,81
ther cheeks and notes	8,850,108	10,595,651	10,097 49
no from foreign agoncies	21,713,375	22,280,009	12,953,30
oansto Gov't, Individ'is, &c.	161,227,622	163,399,275	177,361,07
ver-duo debla	4,487,505	4,396,300	3,131,55
curities and real estate	7,215,825	7,232,510	7,511,79
ll other assets	1,094,163	1,381,453	2,660,37
Total assets	\$224,815,446	\$228,103,651	\$230,675,20

It will be noticed that in the above the two sides of the account do not balance, the assets for January being \$3,103,267 in excess of the liabilities. The natural inference is that the difference covers the profits over and above the \$17,512,718 set aside and stated in the above as reserve. We ought to add perhaps that the capital subscribed is about two millions more than the amount given n our statement as paid up, and the capital authorized is about eight millions more.

But, as we said, the point of special interest is the currency and the provisions of the statute under which it is saued. Undoubtedly the banking system in operation in Canada is in many respects less perfect than our own, and yet it seems to be pretty well guarded. The laws grant quite full powers, great freedom and provide very little government supervision. On the latter point, however, we notice that besides the monthly returns, which are required to be full and under oath, there is another mode of obtaining information as to the condition of a bank; that is, through the provision which gives to the Minister of Finance "power to call " for special returns from any particular bank when-"ever in his judgment the same are necessary in "order to a full and complete knowledge of its condition." This, with the penalties attached for false statements, and for omissions to make statements, &c., would seem to furnish ample machinery, if faithfully used, for the discovery of any impairment of capital or over-issue of notes.

But the marked difference between the two systems in the matter of circulation is in the nature of the security provided, and the mode of payment in case of insolvency. With us confidence is complete, because the notes are issued through the agency of both the Government and the bank, and hence cannot be emitted in excess, while back of the note stands the Government bond with more than ample margin. In case of insolvency no depreciation of the note occurs, as the security is lodged with the Government, and the process of redemption continues uninterrupted. In the Canada aystem a wholly different plan prevails. There is no bond and no Government registry, but full authority to the bank to issue notes, the only limit being in the following provision: "The amount " of notes intended for circulation issued by the bank and "outstanding at any time shall never exceed the amount " of its unimpaired paid-up capital."

At first sight this will seem a very loose, irresponsible arrangement to the American reader, who has been accus- when critically examined, tend somewhat to modify this

"bills." This is a practical question and has led to our | tomed to look for safety to the Government inspection and the Government bond. But such a conclusion is by no means warranted. The truth is, the Canada law in the matter of note issues is formed on a different theory from ours. Its purpose is to let commerce provide its own currency, so it gives the authority, and then, in case it is used, holds the bank, the management and the stockholder, for security. Hence it is enacted (1) that no bank ahall issue notes, &c., * * * until five hundred thousand dollars of capital have been subscribed, * * * nor until it ahall have obtained from the Treasury Board a certificate to that effect; (2) that the unimpaired paid-up capital shall be the limit of the power of issue;" (3) that the outstanding circulation shall be the first charge upon the assets of the Bank in case of insolvency"; (4) that the shareholders if the assets are insufficient, shall be further liable in a sum equaling the full amount of their shares; (5) that a certified list of shareholders, with their residences and number of shares each holds, shall be transmitted every year to the Minister of Finance before the appointed day for the opening of Parliament; (6) that persons who have "transferred their shares, or any of "them, &c., * * * within one month before the commence. "ment of the suspension of payment by the bank, shall be "liable for calls on such shares," the same as if they had not transferred them.

Thus we see that the law makes the notes a first lien not only on the capital, but on all the assets of the bank, and makes the stockholders further liable to the amount of their stock (with no chance of akulking, as the Government has a record of them), while the total issue is under severe penalties confined to the amount of the unimpaired capital. If, in connection with these provisions, we recall the requirements as to reports to be made monthly, and when. ever called for, and the penalties for any false statement in such reports (so that impairment of capital or excess in note issues would be quickly disclosed), it would seem as if the feature of safety had been well considered and guarded in the law. Of course the other point referred to at Buffalo—delay in redeeming notes in case of insolvency—is a possible contingency. And yet with the currency a first lien on all the assets, and these calls on the stockholders also possible, there would appear little need for delay. . We notice that the law contemplates the business being closed up by the directors in some cases of insolvency.

We do not know precisely how the business of redemption is carried on in the Dominion. If it was perfect it would limit the power to issue notes to the wants of commerce. The statute says that a bank "shall "not be bound to redeem in specie or Dominion "notes at any place other than where they are made payable." The fact 'that the notes in circulation are now down to 30 millions, and have decreased 31 millions during the month, and 61 millions since the previous December, would indicate that redemption arrangements were quite effective.

ILLINOIS CENTRAL AND ITS LATE POLICY.

The Illinois Central report for 1883 presents flattering results. The figures submitted show that the company was enabled to meet the obligations assumed on account of the leased line, to pay 10 per cent dividends on its stock, to provide \$632,529 for betterments, and yet to retain a surplus on the year's operations of \$156,909. This is flattering, since it demonstrates anew the great strength of the company's position and its continued prosperity.

And yet there are certain features of the report which

very favorable conclusion. To one of these we alluded early in the year, when we urged the making public of the figures on which the action was based declaring an extra dividend of two per cent, calling for \$580,000 Using our knowledge of the company's charges, in connection with the published totals of gross earnings, we contended that the payment of such extra dividend could leave the company only a very small working balance on the year's income. The exhibit now furnished fully confirms our surmise. The surplus remaining is shown to be no mere than \$156,909, which for a large concern like the Illinois Central (particularly now that it embraces the line to New Orleans) is certainly very insignificant in amount.

It may be claimed that the \$632,529 spent for betterments in the year should be added to reach a correct total of the year's surplus. But the present report is not exceptional in this respect. For a long time it has been the policy of the management to devote a portion of the earnings to this purpose, in order to improve the road's facilities for doing business without at the same time increasing its liabilities and charges. Besides, that policy is in the direct line of the recommendations made by the committee of Dutch and English stockholders who came here in 1877 (the day of the company's adversity), to report on the road's condition and prospects, they laying down the broad principle that "if the railroad is to have "a permanent value, it is necessary that the capital expen-"diture of the company should not be increased, except "for matters which produce an actual increase of traffic, "such, for instance, as new branch lines," and that it would be "highly imprudent to continue the system of charging "to capital a portion of the expenditures for works which " are merely improvement on an existing state of things," which principle in effect other roads have also found it advisable to adopt.

It is proper to note, too, that this expenditure for betterments in 1883 is not large, as compared with other recent years. Thus, while on both the Illinois line and the Southern line no more than \$632,529 was spent in this way in 1883, no less than \$1,271,452 spent on the Illinois line alone in 1882. In 1881 the amount on the same division was \$925,380, in 1880 it was \$842,324. In 1879, when the item first came into prominence, the amount was \$386,016. Or, if we take out these outlays for improvement and add them to the company's surplus, the comparison would stand as follows for each of the years named.

1878...... \$746,205 | 1880...... \$1,343,965 | 1882......\$1,427,326 | 1879...... 1,003,221 | 1881...... 976,510 | 1883...... 789,438

On this basis, then, the balance in 1883 was smaller than in any year since 1878. Had the two per cent extra dividend not been declared it would have been \$1,369,438, even then less than in 1882, and but a trifle above what It was in 1880.

We should not have dwelt upon this feature except for the circumstance that 1884 will be even more than 1883 was, experimental, with the conditions such that a repetition of the 10 per cent dividends becomes improbable. With 1983 the road virtually entered upon a new period in its career. Previously it had only its lines in Illinois and Iowa to take care of; with 1883 the base of its operations was extended over the Southern line, to New Orleans. It is true that this Southern line had for many years before been under its management and control, but not till 1883 did the Illinois Central incur any annual obligations on its behalf. With that year not only did it assume the whole of the Southern line's interest charges, but it also guaranteed dividends on its stock, distributing last July

which to that extent would have diminished the requirement by reason of its guaranty. We are not arguing that this was not a wise step, nor that the leased line may not be able to take care of the whole charge itself. In fact though we have not the income account of the leased road, yet from the monthly figures of gross earnings and certain information contained in the report, we should judge that net earnings of the Southern line in 1883 were more than sufficient to meet the rental (\$1,486,203) in full.

This, however, was the best year the company has ever had. There was comparatively little competition on its business, and the cotton crop of 1882 (largely marketed in 1883) was the heaviest on record—the line being, like so many other Southern roads, dependent in a great degree upon this one kind of traffic. As a result, the gross earn ings for the twelve months reached \$4,350,000. To what extent this will be reduced the present year under a smaller cotton crop and the new element of competition to be intro duced (to which latter we shall refer presently) is of course a question. But a point of equal uncertainty is the cost of operating the road, and here's where the Illinois Central is trying what we call an experiment. Prior to 1883 the whole of the leased road's earnings were applied to operating expenses and improvements-all except what was necessary for interest, and this the road had to pay in full in only one year, a part of the debt not bearing obligatory interest till Dec. 1882. Now, not only interest but the dividend on the stock as well, has to be earned. In turning the road over to the Illinois Central in 1883, Mr. Clarke, the general manager of the line (now president of the Illinois Central) estimated it could be operated for 60 per cent. Perhaps that may be for a year or two, but can it be permanently operated for that percentage? The Mobile & Ohio, which is also a Southern longitudinal line, though in some other respects less favorably situated, under the economical and conservative management of Mr. William Butler Duncan, could not be operated for less than 721 per cent in 1882-3, and for less than 74 per cent in 1881-2. Suppose that the Central's Southern line should earn no more than it did in 1882 (which though it was not a very favorable year, was on the other hand not a very bad one), and that it took 65 per cent of the earnings to operate the road-even on the basis of the very large earnings of 1883, only a small surplus would be left above the rental.

All the more striking does this appear when we bear in mind that this Southern line will now have to contend with an increased number of competitors for its business. Up to 1883 it constituted substantially the only line between Cairo and New Orleans. The Mobile & Ohio could be used to reach the latter city, via Mobile, but this was a very circuitous route. Towards the close of 1883, however, the Erlanger people opened their New Orleans & Northeastern road, forming, in conjunction with the Mobile & Ohio, a very direct line to New Orleans, and this new road has been getting a good deal of business since, though whether this has been at the expense of the Illinois Central line we do not know; - we only know that there has been a contemporaneous falling off in the earnings of that line. But very soon there will be still another competitor. A line is being built (in the interest of the Chesapeake & Ohio) along the east bank of the Mississippi, from Memphis to New Orleans. The work is already well advanced towards completion, and it was recently announced that the road would be in running order by May 15 next. Above Memphis, of course, the Chesapeake & ()hio already has a line, so that this would make another the portion of said stock held in its own treasury and parallel road to the St. Louis & New Orleans (Illinois

Central) all the way to Cairo. Thus there will soon be three routes north from New Orleans, where six months ago there was but one. It cannot but be that the Illinois Central will be adversely affected by this fact. It may in part overcome the adverse effects, as far as gross business is concerned, through the opening of the branches now under construction-one to Aberdeen, Miss., from Kosciusko, and the other to Yazoo City, from Jackson, Miss. But will not the increased competition decrease the tonnage and force a reduction of rates? and will not those circum stances in turn increase the ratio of operating expenses? At least to us it would seem more conservative to await the outcome of such uncertainties as these, rather than sanguinely disregard them.

But the company is also at the same time increasing its debt. A year ago, in reviewing the work done to the end of 1882, we called attention to the fact that the debt then was actually smaller than in 1877, though mileage had been increased 220 miles in the interval. Now that the St. Louis & New Orleans road has been taken into the system, it is of course impossible to make a direct comparison. But we find that the \$5,028,000 of Chicago St. Louis & New Orleans five per cent bonds which the Illinois Central held in its treasury at the beginning of 1883 had at the beginning of 1884 been reduced to \$3,228,000 and that since then a further reduction to \$2,826,000 has taken place. So long as these bonds were held in the treasury, the interest charge on account of the Southern line was to that extent diminished, and in our calculations of 1883 we were led to disregard them, since we assumed that for all practical purposes they might be treated as if they had never existed. When a company has such large means immediately available, there is always a strong temptation to use the same, and recognizing this fact, Mr. W. H. Osborn was led to recommend the cancellation of this five millions of bonds. His words and the warning they conveyed, have a special significance at the present time. Mr. Osborn, it should be said, was for more than a quarter of a century identified with the Illinois Central, and to his management its present prosperity is largely due. To his energy and watchfulnesa, too, the success attending the investment in the Southern line is also attributable. In his linal communication to the Illinois Central, of date Dec. 30, 1882, after urging the cancellation of the unused bonds, he says: "It seems unwise to hold \$5,000,000 of your own exe-"cuted obligations available at any moment. The expe-"rience of nearly thirty years strengthens my impression "that prosperity (leading to unwiso expenditures) is "oftentimes as dangerous as adverse crops, with the con-"sequent loss of traffic affecting income. The specific for "accuracy in accounts and economy in expenditures, ap-"pears to be-to take all expenses, including construction, "out of income, and divide the surplus only." We doubt whether Mr. Osborn expected that the pertinency of his utterances would so soon become manifest.

It should be said, however, that the money derived from the sale of the bonds has not been squandered, but has been used in prosecuting the construction of two branch lines, already mentioned, in Mississippi, which may be necessary and ultimately profitable. But the point is, that it seems to mark a less cautious policy than heretofore, to make an extra 2 per cent dividend, (leaving a smaller surplus than for several years), in the face of these facts. Thus the sale of St. Louis & New Orleans bonds, and the distribution last July of nearly all of the stock of the same company, will have as an effect an immediate reduction of the company's income. Among the misceilaneous

and dividends on shares of the Southern line. As the company now holds only \$2,826,000 of the bonds and \$641,600 of the stock of the leased road, the income from this source in the current year can be no more than \$166,964, involving a reduction in this item from 1883 of \$131,000. In the same connection, and as showing the less favorable state of business at the present time, we may mention that up to the end of the third week of February gross earnings in 1884 (all lines) recorded a falling off of \$202,828.

There are also some other features of the report that do not wear so favorable an aspect as heretofore. Thus the company is now carrying a working stock of supplies smaller than in other years, though its mileage has been increased 578 miles by the addition of the St. Louis & New Orleans road. The total is given at \$532,566, while a year ago it was \$841,975 (including in this that of the Southern division), and the year before that (on the Illinois line alone) was \$534,678. Then the item of 'cash and other assets," amounting to \$2,316,487, is not quite clear. How much of it is cash, and how much something else? There was the same uncertainty a year ago, but the amount is very much larger now, as it should be, because of the heavier liabilities for interest and dividends. We know that in 1882 the item embraced at least \$383,000 of Kankakee & Southwestern railroad stock, which we should hardly be inclined to consider an available asset. Finally, the company in supplying current reports of gross earnings, refuses any longer to furnish the figures of the Southern line separately, as it should. Certainly, this is quite in contrast with the openness that has always characterized the company's conduct of affairs in the past. What can be the reason for withholding the figures? Even if they are unfavorable (as there is reason to suppose they are) nothing can be gained by concealment. Secrecy in corporate affairs never inspires confidence.

In all these facts, is there not evidence of some lack of the conservative spirit so long dominant in the company's affairs? It will be seen that we do not base our remark upon any one incident in the recent career of the property, but upon a whole series of events all apparently having the same tendency. We might be less inclined to lay stress upon this apparent departure, if it were not for rumors connected with some of the late changes in management.

FINANCIAL REVIEW OF FEBRUARY, 1884.

In comparison with the extraordinary events happening one after another in preceding months, the course of affairs in February was quiet and uneventful. The supply of money was yet superabundant, and some of the bankers with money to lend were even inclined to take a favorable view of an export movement of gold, as one means of diminishing the glut of money and advancing the rates of interest.

At the Stock Exchange the movements were comparatively healthy during the later weeks of the monthhealthy, at least, so far as the steadiness of prices was concerned. It was an open secret that some of the heaviost stock speculators of New York-usually known as capitalists-had joined their forces together late in January to stop the downward turn in prices which had been so conspicuous in the latter months of 1883 and was again felt very forcibly in January this year. After the ayndicate had taken the Northern Pacific and Oregon Railway & Navigation stocks, as mentioned in our last report, the market was sharply turned, and the support then put under it, together with the twisting of parties who had sold short, caused a large advance throughout nearly receipts in 1883 were \$298,009 credited as interest on bonds the whole list. Certain stocks were particularly advanced

as Delaware Lackawanna & Western to $132\frac{1}{2}$, for the purpose of helping the rest of the market. There was but a small interest taken by the public at large, but considerable trading among professional operators, until the 27th and 28th of the month, when prices began to sag and closed at a considerable re-action from the best prices.

While the decline in prices in the last half of 1883 was made in the face of large railroad earnings, the upward movement of February, 1884, was made in spito of many unfavorable reports of railroad earnings which were coming to hand. Thus the Pennsylvania Railroad and the Philadelphia & Reading lost heavily in December and January, and the condition of earnings generally since the first of the year could not be looked upon as particularly good.

One of the principal features in February was the advance in foreign exchange prices to the specie-shipping point and the consequent exportation of a moderate amount of gold. The trade movement was certainly not as much in favor of the United States as in the preceding year—especially in the diminished exports of breadstuffs—but this cause was hardly sufficient to account for the gold shipments, and it was believed that the balances were affected by the movement of securities,—both the return of some stocks from abroad and a less active demand than usual for our securities from the foreign markets.

The following summary shows the condition of the New York City Clearing House banks, rate of foreign exchange, and prices of leading securities and articles of merchandise, on or about the 1st of March, 1832, 1883 and 1884.

(From our own correspondent.)

London, Saturday, Feb. 9, 1884

The more prominent feature during the past week has been an advance in the Bank rate of discount from 3 to 3½ per cent. An alteration was not generally looked forward to, but at the same time the change occasioned no surprise. There has during the last three months been a steady export inquiry for gold, the result of which has been that the stock held by the Bank of England has been depleted to the extent of about £3,000,000. This demand, having to a large extent been for small amounts, has not attracted the attention which it deserved; but the export movement to Australia has brought the subject forward in a somewhat novel form. The advance in the rate of discount has given satisfaction in most quarters, and the effect upon the exchanges has been favorable. Some gold has been sent into the Bank, and the New York sterling exchange has risen to a point which leads to the conclusion that if we shall have to export further supplies of gold, we shall be able to draw it from countries which are indebted

The rise in the value of money is by many attributed wholly to the Australian demand for gold. Undoubtedly, that unexpected movement has, as stated, exercised considerable influence; but it is much to be apprehended that distrnst is the more prominent cause. The condition of our trade is very unsatisfactory. The Board of Trade returns confirm this remark, and there are no indications of immediate improvement. There are apprehensions of important failures, and in nearly every department the greatest cantion prevails. A desire is therefore naturally shown to strengthen one's position as far as is practicable, in order to provide against unforeseen contingencies. These donbts about the future check business very seriously, and there is no evidence at present which justifies a belief that new enterprise is likely soon to be undertaken.

The following are the quotations for money and the interest allowed by the discount houses to-day and same day of the previous five weeks:

In reference to the state of the bullion market during the past week, Messrs. Pixley & Abell remark:

past week, Messrs. Pixley & Abell remark:

Gold—The inquiry for bare has somewhat fallen off, but more sovereigns, to the value of £100.000, have been taken from the Bank for Australia. A small shipment of £6,000, sovereigns, from Spain has been sont to the Bank. The arrivals have been very small, comprising only £9,276 from Buenos Ayres. The Don has taken £4,410 to the West Indies; Robilia, £10,000 to Bombay; £0 rata, £100,000 to Australia; total, £114,410.

Silver—The market has been very steady at 51d. per oz. during the week, the ordere being almost entirely for the East. The arrivals have not been very large, and are only £23,000 from New York and £1,996 from Buenos Ayres. The P. & O. steamer has take : £100,000 to Bombay. The Aconcagna, from Chili, may be expected to-morrow at Liverpool with £40,000.

Mexican Dollars—About £45,000 have arrived during the week from New York. The price since our last has been steady at 495s.1. per oz.

The quotations for bullion are reported as below:

The Bank of England has given notice that it is prepared

to receive tenders for £2,000,000 Liverpool Corporation stock, bearing interest at £3 10s. per cent per annum. No tender will be accepted below £99 for every £100 stock.

Tenders were received at the Bank of England on Tuesday for £1,500,000 Treasury bills. The amounts allotted were 1 In bills at three months, £1,435,000, and in those at six months, £65,000. Tenders for the former at £99 5s. wili receive in full, and hose for the latter at £93 11s. 4d., 35 per cent, and above in full. This result is equal to a discount rate of 3 and 21/2 per cent per annum respectively, the average rate being for three months' bills £2 149. 1d. and for six months' bills £2 178. 3d.

A prospectus has been issued of the London, Paris & American Bank (limited), with a capital of £1,000,000, of which £500,000 is to be first issued. The bank has been established to acquire as a joint concern the banking business of Mesers. Lazard Freres at San Francisco.

The Secretary of the British Iron Trade Association has distributed an advance proof of the annual report, from which it appears that the total make of Bessemer steelingois in the United Kingdom in 1883 was 1,553,380 tons, a decrease of 120,269 tons, or 8 per cent, as compared with that of 1882. The principal decrease in the make took place in the Sheffield district, but this was chiefly due to the removal of the Dronfield works of Messers. Cammell to Workington. The decline of 25;018 tons in the make of the Cleveland district was mainly due to labor difficulties. The productions of South Wates and West Cumberland show horesses, that in the latter district being of course due to the new works started by Messers. Cammell. The production of Bessemer steel rails was 1,097,174 tons, a reduction of 138,641 tons.

The public sales of Colonial wool will be commenced on Thesday next. A leading circular says: "The circumstances attending the consumption of wool hardly improve as the new year wears. There is, indeed, no distinctly retrograde movement to record, but a rather quieter tone prevails in many quarters-a fact which tends to heighten the cautious attitude assumed by almost all sections of consumers, in view, perhaps, of a rather exaggerated estimate of the forthcoming supplies of new material. Other conditions, however, suggest the improbability of any material variation in value, among which may be especially cited the moderate level of prices which prevalls, and the general absence of any considerable excess of stocks, whether of manufactured goods or raw material. On the whole, however, indications which are readily discernible point rather towards weaker than stronger rates, though any development in this direction may be less perceptible than might otherwise be the case, if the character of much of the new clip should bear out the features of intrinsic superiority which are claimed for it. The provisional programme of the first series, which will open on the 12th inst., and, as at present arranged, last till March 19, has been issued; but as the arrivals to date include only a total of 222,515 bales, and the list will (subject to a maximum limit) remain open till the 19th last., some modifications at a later period may be rendered necessary."

In consequence of the defalcations and fallure of Messrs. P. W. Thomas & Sons, stockbrokers, the London Chartered Bank of Australia lose about £120,000.

The number of failures gazetted last week was 53, against 248, showing a net decrease in 1884 to date of 471, compared with last year.

The principal dealers and brokers in the American market on the London Stock Exchange have agreed that on and after Feb. 28, 1884, all transactions in New York Ontario & Western Railway shares entered into with any of them shall be for certificates, with the ticket of the London committee attached, unless otherwise specified.

The Board of Trade returns for the first month of the year, which have just been issued, confirm the reports which have prevailed of the slackness of our trade. Of cotton piece goods the falling off is very considerable, viz, from 410,793,400 yards in January, 1883, to 341,651,300 yards last month. To the United States the shipments were only 7,668,900 yards against 8,550,100 yards, and had it not been for a very large export to Brazil the results would have been quite serious. To that country the exports were 18,612,900 yards against 15,068,900 yards in 1883. To China and British India the reduction is very serious. In fact, nearly every branch of our trade has suffered I wool being the principal redeeming feature; and even in that department the aggregate improvement is not great, the total value being £1,935,093, against£1,851,913 last year. The iron trade has also been less active, the total value of the exports being £3,073,484, against £3,601,743 in 1883. The following are the leading particulars.

1892. 1883. 1894.
18xports in January....... 10,820,693 20,308,630 10,352,541
1mports in January...... 32,019,467 35,736,846 35,615,221

The trade for cereal produce has been very dull during the week, and prices are still lower. Some very good flour has been sold at 26% for 280 lbs, being about the lowest price on record. Wheat is cheaper to sell, especially East Indian descriptions. The trade is in a position which causes great anxiety, as supplies are heavy and millers are buying from hand to mouth.

The following are the quantities of wheat, flour and Indian corn estimated to be affect to this country, compared with previous periods:

 The following return shows the extent of the sales of homegrown wheat, barley and oats in the leading markets of England and Wales during the first twenty-three weeks of the season, together with the average prices realized, compared with previous seasons:

	8.41	Ev.7 s

Commercial and Miscellaneous News

NATIONAL BANKS.—The following national banks have lately been organized:

Deen organized:

3,126—The First National Bank of St. Paul, Nob. Capital, \$50,000.
Addison E. Cady, President; Georgo E. Lean, Cashier.

3,127—The Merchants & Farmers National Bank of Shakopee, Minn. Capital, \$50,000. Johan B. Conter, President; John M. Sohwartz, Cashier.

3,123—The Home National Bank of Holyoke, Mass. Capital, \$250,000.
James H. Newton, President; Edwin L. Munn, Cashier.

The First National Gold Bank of San Francisco, Cal., was converted into a currency bank Feb. 25, 1834.

The Third National Bank of Nashville, Tenn., went into voluntary liquidation Feb. 20, 1884.

Inquidation Fcb. 20, 1884.

IMPORTS AND EXPORTS FOR THE WEEK.—The imports of last week, compared with those of the preceding week, show an increase in dry both goods and general merchandise. The total imports were \$9,645,261, against \$8,630,982 the preceding week and \$7,460,042 two weeks previous. The exports for the week ended Fed. 26 amounted to \$5,264,482 against \$6,334,219 last week and \$5,773,340 two weeks previous. The following are the imports at New York for the week ending (for dry goods) Fed. 21 and for the week ending (for general merchandise) Feb. 22; also totals since the beginning of first week in January: week in January:

2 Office of the Country of the Count					
For Week.	1881.	1882.	1883.	1884.	
Dry goods Gen'i mer'dise	\$1,633,407 7,273,939	\$4.190.820 6,984,432	\$2,149,123 4,777,992	\$3,863,284 5,781,980	
Total Since Jan. 1. Dry goods Gen'l mer'dise	\$3,907,346 \$19,280,842 40,919,933	\$25.339.115	\$6,927,115 \$22,573,461 47,152,140	\$9,615,264 \$23,109,730 41,832,059	
Total 8 weeks	\$60,200,775	\$76,459,953	\$69,725,601	\$67,930.739	

In our report of the dry goods trade will be found the imports of dry goods for one week later.

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending Feb. 26, 1884, and from January 1 to date:

	1881.	1892.	1883.	1884.
For the week Prev. reported	\$8,528,255 49,944,040			
Total 8 weeks	\$58,472,295	\$51,233,210	\$55,078,113	\$48 505,367

The following table shows the exports and imports of specie at the port of New York for the week ending Feb. 23, and since Jan. 1, 1884, and for the corresponding periods in 1883 and 1882. EXPORTS AND IMPORTS OF SPECIE AT NEW YORK

Of the above imports for the week in 1884, \$6,560 wer American gold coin and \$2,800 American silver coin. Of the exports during the same time \$2,554 were American gold coin.

exports during the same time \$2,554 were American gold coin.

BANK CURRENCY BILL AS IT PASSED THE SENATE.—The following is the text of the McPherson Bank Currency Bill with the amendment of Mr. Morrill, which passed the Senate last Monday by a vote of 43 yeas to 12 nays.

"A BILL to provide for the issue of circulating notes to national banking associations:

"Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled that

"Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, that upon any deposit, already or hereafter made, of any United States bonds, bearing interest in the manner required by law, any national banking association making the same shall be entitled to receive from the Controller of the Currency, circulating notes of different denominations, in blank, registered and countersigned as provided by law, not exceeding in the whole amount the par value of the bonds deposited; provided, that at no time shall the total amount of such notes issued to any such association exceed the amount at such time actually paid in of its capital stock; and that all laws and parts of laws inconsistent with the provisions of this act be, and the same are, hereby repealed.

"Sec. 2. That the associations organized for the purpose of issuing notes payable in gold under the provisions of section

"Sec. 2. That the associations organized for the purpose of issuing notes payable in gold under the provisions of section 5,185 of the Revised Statutes of the United States upon the deposit of any United States bonds bearing interest, with the Treasurer of the United States, shall be entitled to receive circulating notes to the amount and in the manner prescribed in this act for other national banking associations.

"Sec. 3. That all laws and parts of laws of the United States inconsistent with the provisions of this act be, and the same are, hereby repealed."

Now York Cantrol & Hudson River.—The report of this

New York Central & Hudson River.—The report of this Company made to the New York State Railroad Commissioners for the quarter ending Dec. 31, 1883, gave the following figures. There is no comparison to be made with the previous year, as no report of monthly or quarterly earnings has ever been plished for 1882. Gross earnings, \$7,914,128; operating expenses, \$4,435,799; net earnings, \$3,478,328.—Charges—Interest, \$826,617; taxes, \$323,750; rentals, 489,633; total, \$1,641,000. Applicable to dividends, \$1,838,328. The charge for dividends was \$1,788,609, which leaves a surplus of \$49,719.

Spring Mountain Coal.—This company has been leased for

Spring Mountain Coal.—This company has been leased for ten years to the Lehigh Valley Company, which pays a fixed annual royalty amounting to about 7 per cent on the stock. The lease expires in December, 1884, and it is said will either be renewed at 5 or 6 per cent guarantee, or the stock will be called in and bonds issued for it.

Toledo Cincinnati & St. Louis.—A press dispatch from Indianapolis, Ind., Feb. 26, said: "In the foreclosure suit against the Toledo Cincinnati & St. Louis Railroad Company, on arguthe Toledo Cincinnati & St. Lonis Railroad Company, on argument before the United States Conrt, attorneys were granted ten days to consult with their clients before any order will be entered. Joint action on the part of the court was made necessary by the fact that the road extends through the districts of Judges Drummond and Baxter, and the rolling stock is under the jurisdiction of each. Among the claims is one of \$2,000,000 for rolling stock. The holders of the equipment bonds have no other security than the liens upon the equipment of the road, and as the receiver was appointed and took possession of the same, and has since made no payment for the use of it, the bondholders are anxious to have some adjudication defining their rights."

The attention of the cotton trade is called to the notice in our advertising columns to-day of a change in the old and favorably known firm of Messrs. Ware & Schroeder, by the retirement of Mr. H. H. Ware. The new firm will be composed of Mr. G Schroeder, the remaining partner, and Mr. H. J. Creighton, who has been for many years with the old firm. These gentlemen are reported to have ample means and facilities for conducting the business to the satisfaction of the friends of the old house as well as any new ones who may wish their services. The new firm will be known hereafter as G. Schroeder & Co., and will give special attention to the execution of orders for the purchase and sale of contracts for future delivery of cotton, and make liberal advances on consignments. Mr. Ware recommends his old friends to the new firm and will in future have his office and address with them. and address with them.

The Maine Savings Bank of Portland, Me., publishes its annual statement in excellent form, showing every item of its assets and the valuation put on the same, the total showing a surplus above all liabilities of \$593,212 over and above the amount due depositors, including the earned dividend payable in January.

Auction Sales.—The following, seldom or never sold at the Stock Exchange, were sold at auction this week by Messrs. Adrian H. Muller & Son.

NEW YORK, FRIDAY, FEBRUARY 29, 1884-5 P. M.

NEW YORK, FRIDAY, FEBRUARY 29, 1884-5 P. 91.

The Money Market and Fluancial Situation.—Within the last week there have been some indications of the beginning of "spring trade," and the daily customs collections not the New York Custom House have more than doubled since a week ago. There has also been some improvement in the situation of industrial affairs, one item of which is that the strike among the factory operatives at Fall River is gradually breaking up and some of the mills have resumed work. The general status of mercantile credit seems to show constant improvement, and though prices are low and profits unusually small, business is on a sounder and safer basis than at any previous time for a couple of years.

The question of the payment of the Clearing House balances of the New York Sub-Treasury in silver certificates has had some further discussion among the bankers and Treasury officials, and although there is no present purpose to make such payment, the discussion has developed the facts that just about 25 per cent of the customs collected at the New York Custom House are paid in silver and silver certificates, while on the other hand the Clearing House balances of the New York Sub-Treasury are paid, under the rules of the Clearing House, exclusively in gold and legal tenders; and the effect of course is to diminish the Treasury's gold supply.

During the nine days to the evening of Friday, the 29th, the total withdrawals of gold from the United States Sub-Treasury in New York were \$5,105,000, nearly the whole of which was in double-eagles. Up to the same time the total shipments of gold, including the engagements for \$1,000,000 to go by the steamship Adriatic on Saturday, the 1st, have been nearly two millions. It is understood, however, that some of the withdrawals from the Treasury were made with a view to exports later on if the market for sterling should continue firm.

The aspects of our foreign trade continue unfavorable in the facts that exports of domestic products are steadily diminishing

The aspects of our foreign trade continue unfavorable in the facts that exports of domestic products are steadily dimin-ishing, while imports, for the time being at least, are rather

There seems to be no symptom of change in the stagnant condition of our American money markets. The higher rates of interest in London than in New York are favorable to the condition of our American money markets. The higher rates of interest in London than in New York are favorable to the movement of capital in that direction in the form of gold exports, and are unfavorable to the purchase of American securities on foreign account. In the New York market the rates for call loans on stock collaterals have not varied from 11% and 2 per cent in the last week. Time loans on similar collaterals can still be had at 3½.004 per cent. Mercantile discounts remain unchanged at 4 and 4½ for first-class double-name paper for 60 days or 4 months and at 4½ and 5 for single-names. At the West the supply of idle money is larger than ever known before at this season of the year, and not withstanding the unusually large accumulation of grain and provisions at Chicago, which is all being carried by the banks, money is plenty for further loans at 5 and 6 per cent.

The last weekly statement of the New York banks showed a decrease in all items, but the surplus reserve still remains very large, viz., \$19,761,350, as compared with only \$1,209,000 last year, and as compared with a deficiency of over \$1,000,000 at the same dates in both 1882 and 1881, thus reflecting the present abnormally plethoric condition of the banks and the stagnation in the money market.

The great foreign banks have all gained in specie by their

stagnation in the money market.

The great foreign banks have all gained in specie by their last weekly statements, a fact which reflects the dulness of trade, as this specie has been drawn in chiefly from the local circulation. The Bank of England's weekly statement showed an increase of £246,000 in specie. The percentage of reserve increased to 40% from 40 18-16 last week. The Bank rate of discount was left unchanged at 3½ per cent. The Bank of France recorded a gain of 2,650,000 trancs in gold and a loss of 50,000 francs in silver for the week. The Bank of Germany in the week gained 6,780,000 marks.

The following table shows the changes from the previous week and a comparison with the two preceding years in the averages of the New York Clearing House banks.

	1884. Feb. 23.	Differ'nces fr'm previous week.	1893. Feb. 24,	1882. Feb. 25.

Exchange.—Sterling exchange has been firm throughout the week, and the 60-day rate was advanced ½ point. The

posted rates on Friday, the 29th, were consequently 4 87½ and 4 90½, the rates for actual transactions on the same day being as follows, viz.: 60 days, 4 86½64 87; demand, 4 89½64 89¾; cables, 4 1004 90½. Commercial bills have continued comparatively scarce, and are from ½ to ¾ higher at 4 8254 8534 85@4 850

Quotations for foreign exchange are as follows, the prices being the posted rates of leading bankers:

February 29.	Sixty Days	Demand.
Prime bankers'sterling bills on London	4.845	4 9039
Paris (francs)	5 167g 401a	5 1439 4038 96

United States Bonds.—Government bonds have been almost without variation in price, except that the threes now stand at 101 bid, against 100\(^3\)\(_4\) a week ago.

The closing prices at the N. Y. Board have been as follows:

	Interest Periods.		Feb. 25.	Fcb. 26.	Feb. 27.	Feb. Feb. 29.

* Includes \$2,000,000 U.S. notes received from Washington.
† Includes \$13,000 gold certificates put into cash.

State and Railroad Bonds.—The firmer tone noted a week

State and Railroad Bonds.—The firmer tone noted a week ago in the market for railroad bonds was pretty well sustained for two or three days early in the present week. But during the last few days it has been influenced more than usual by the decline in the stock market, the result of which is that the majority of issues show a decline as compared with the closing prices of last Thursday, the 21st. There has also been more evidence of activity in some of the speculative issues, and this is especially noticeable in the West Shore 5s, which have fluctuated between 53½ and 57, with increasing daily transactions until Friday, on which day they were nearly \$2,850,000. The following are the net changes in the principal issues on Friday evening, the 29th, as compared with the closing prices of the 21st, viz.:

Declined—Burlington & Quincy debenture 5s, 1½; Chesapeake & Ohio firsts, series B, 1; do. currency 6s, 1½; Denver & Rio Grande consols, 1; Denver & Rio Grande Western firsts, ½; East Tennessee incomes, 1; Erie second consols, ½: Loulsville & Nashville general mortgage 6s, ¾; New York Chicago & St. Louis firsts, ¾; Rome Watertown & Ogdensburg 5s, ¾; Texas & Pacific land grant incomes, 1½; do. Rio Grande Division firsts, ¾; Wabash general mortgage 6s, 4. and Fort Worth & Denver City 6s, ½. Advanced—Evansville & Terre Haute 6s, 1¼; Indiana Bloomington & Western seconds, 1; Jersey Central debentures, 2; Lehigh & Wilkesbarre consols assented, 1¼; Metropolitan Elevated firsts, 5%; and do. seconds, ½.

Railroad and Miscellaneous Stacks—The stock market

Railroad and Miscellaneous Stocks.—The stock market for the past week has been unfavorably affected by a variety of influences, viz., the beginning of exports of gold, the agitation of the silver question, the rumors of rate-cutting at the West, apprehensions of hostile legislation by Congress in regard to the land-grant roads, &c., &c., all of which has deterred the general public from investing freely, notwith-standing the prevalent belief that dividend-paying stocks are as a rule quite low at present prices. But the most telling influence used against the market has been the report that leading operators like Mr. Gould and Mr. Vanderbilt had sold on Tuesday, Wednesday and Thursday a good many of the stocks they had accumulated during the previous month, in the endeavor to advance prices. This was the immediate cause of a decided decline of from 1 to 7 per cent on all the active speculative stocks up to Thursday evening. But on Friday afternoon the belief gained ground that the bull party had not yet abandoned their project of advancing prices, and there was a sharp recovery, which, however, still left the active stocks from 1 to 5 per cent lower than a week ago. As compared with last Thursday, Pacific Mail, Spring Mountaiu Coal and Manhattan Elevated show the largest advances, while Chicago Burlington & Quincy, Canada Southern, Central Pacific, Denver & Rio Grande, Lake Shore, Michigan Central, Missouri Pacific, New York Central, Western Union, Union Pacific, and the stocks of all the Northwestern roads, show the heaviest declines. Railroad and Miscellaneous Stocks .-

GENERAL QUOTATIONS OF STOCKS AND BONDS.

Quotations in New York represent the per cent value, whatever the par may be; other quotations are frequently made per share.
The following abbreviations are often used, viz: "M.," for mortgage; "g.," for gold; "g'd" for guaranteed; "cud.," for ealorsed; "cons.," for consolidated; "conv.," for convertible; "s.f.," for slaking fund; "l. g.," for land grant.
Quotations in New York are to Thursday; from other cities, to late mail dates.

Subscribers will confer a favor by giving notice of any error discovered in these Quotations. United States Bonds. Bid. Ask. CITY SECURITIES. Bid. CITY SECURITIES. Ask. 8419

^{*} Price nominal; no late transactions.

GENERAL QUOTATIONS OF STOCKS AND BONDS-CONTINUED. For Explanations See Notes at Head of First Page of Quotations.

For	Expi	anat	ions See Notes at Head of E	irat I	Page	of Quotations.

RAILROAD INTELLIGENCE.

The Investors' Supplement contains a complete exhibit of the Funded Debt of States and Cities and of the Stocks and Bonds of Railroads and other Companies. It is published on the last Saturday of every other month-viz., February, April, June, August, October and December, and is furnished without extra charge to all regular subscribers of the Chronicle. Extra copies are sold to subscribers of the Charmele at 50 cents each, and to others than subscribers at \$1 per copy.

ANNUAL REPORTS.

Delaware Lackawanna & Western. (For the year ending Dec. 31, 1883.)

This company never issues an annual report in pamphlet form. The very brief statement of incume account and the balance sheet published officially are given below, in comparison with the ligures for previous years, compiled for the Chronicle:

with the figures for previ	ous yes	trs, combu	ed for the C	HIROMICEE:

* An itemized statement of the "accounts receivable" and "accounts payable" December 31, 1853, is given as follows: Accounts receivable— Cash on hand \$1,039,286								
(but on hand flow than man)	rat valu	0.1		500 966				

Coal on hand (less than market value)
Advances to leased rouds.
Advances on coal to be delivered, &c.
Coal bills and sundry accounts due
Assets N. Y. Lackawanna & Western Railway
Loans and sundry accounts receivable.

Accounts payable—
Past due dividends, interest and rentals...
Dividend payable Jan. 21, 784, (sluce paid).
Rentals payable after Jan. 1.
Stale taxes payable after Jan. 1.
December pay-rolls, payable in January, (since paid).
Bonds and mortgages.
Unadjusted items of N. Y. Lack. & Western Railway.
Vouchers due and payable after Jan. 1.
Sundry accounts payable after Jan. 1.
Sundry transfer accounts, since paid.

Balance of accounts receivable...... Phl'adelphia & Reading Railroad.

(For the year ending Nov. 30, 1883.)

The annual report of this company was published in the Chronicle of Jan. 19 (Vol. 38, p. 85 and 86). The general balance sheet, as of Nov. 30, 1883, however, has only just come out in the pamphlet report, and is presented below, with the increase or decrease in each item during the fiscal year. Reference should be made to the report published in the Chronicle for explaontion of some of the changes.

Philadelphia Wilmington & Baltimore.

(For the year ending Oct. 31, 1883.)

The President's report says: "Last spring the railroad, the franchise and all other property of the Dorchester & Delaware Railroad Company was sold at anction, under foreclosme of their first and only mortgage.

"This company were owners of a large portion of their boods, and became purchasers of the whole property. The company was re-organized under the title of the Cambridge & Seaford Railroad Company, the entire capital stock of which belongs to this company.

"The Cambridge & Seaford Railroad is 27.28 miles in length, and connects the towh of Cambridge with the Dorchester & Delaware Branch of the Delaware Railroad Company, whose lessees we are." * * * *

"The road when it came into our possession was in such a poor condition that a sum largely in excess of its gross earnings has necessarily been expended upon it, and it is not probable that it will directly pay its expenses during 1884; but as a feeder it brings to this company a profit sufficient to compensate for its own deficiencies, as is the case with the other roads controlled by this company, whose expenses are above shown to be in excess of their gross receipts.

"The Delaware Railroad Co. earned in excess of its rental \$54,015, of which one-fourth part is a direct profit to this company and three-fourths parts were returned to us in part payment of losses incurred by this company in past years in paying as rental sums in excess of the net earnings of that road. Since 1872 the claim of this company allowed by the lessor has been reduced from \$291,803 87 to \$183,526 95, and there is little doubt that the claim will be liquidated ere the termination of the lease."

"There was no charge made to 'road' or construction account during the year, but the Treasurer's report herewith shows that the cost of certain real estate, wharf property and side tracks not properly chargeable to operating expenses charged 'income' account for the year was \$102,854 30.

The earnings and expenses, the income for the year, and the general balance have been as follows:

Earnings. Expenses. Per ct. Net.

Cincinnati New Orleans & Texas Pacific.

(For the year ending Dec. 31, 1883.)

This company operates as lessee the Cincinnati Southern road, from Cincinnati to Chattanooga, Tenn., 335.8 miles, which is owned by the city of Cincinnati, and forms a part of the great through line, known as the "Queen and Crescent" route, between Cincinnati and New Orleans. The annual report of Mr. John Scott, President, has the following in regard to the small lincrease of only about 1 per cent in the gross earnings of 1883: "The causes for this small increase are several. The floods of February, 1883, caused a decrease in receipts of \$32,085.36, which was not recovered. The wheat crop showed a large falling off as compared with 1882. The cotton crop along the lines of other roads is short, so far as present returns indicate, some thirty per cent. The Louisville Exposition resulted in a large deduction of business from the city of Cincinnati, as many buyers who have been purchasers of goods and supplies went to Louisville, as is evidenced by my returns. The year 1883 has not been a good year for business. General stagnation has prevailed, and this has been especially felt in the lron trade. The pig iron has been steadily increasing in volume, but such has been the flatness of the market that the lowest rate in the sliding scale of charges has been in operation for the whole of the year. The pig iron tounage for the year 1883 was 97,953 tons, the receipts on which were \$163,110-16, or an average per ton of \$1.665. As most of this iron traversed your whole road, you will see that the average rate per ton per mile was only \$0.0049. I anticipate a much greater ratio of lucrease for the coming year, as trade indications are better, and your road will derive increased business from the opening of the Queen and Crescent Route, the shortest line from Cincinnati to New Orleans, between which cities solid

passenger trains are now being run. The Vicksburg Shreveport & Pacific Railroad, extending right across the State of Louisiana to the Texas State line, will also be opened in a few
months, and it will bring increased revenue to your road.

"The operating expenses, including taxes, have amounted to
\$1,800,168 03, which is at the rate of 69 34 per cent. This is a
still higher figure than that for 1882, which was 64:32 per cent.

"I alluded in my last year's report to the condition of the
road, which, as we became better acquainted with it, developed
more and more unsatisfactory features. Your chief engineer's
report of last year showed that the expenditures on the roadbed must still be considerable, and that it has been so the
figures for this year plainly show." * * "In two years,
while fulfilling in the most honorable and complete manner
every obligation contained or implied in your lease of this property, having vastly improved a road which your chief engineer
very justly describes as run down and in need of re-construction,
you have been made to pay in two years 6 per cent upon the
whole of your capital, because you have leased a railroad which
runs into a great city over a bridge and ends on a gravel-bank
in a mnd-hole. Since the date of the lease your company has
not received the benefit of an Inch of space from whatever purchases the trustees may have made, and such land as has been
purchased by them will need an expenditure of hundreds of
thousands of dollars to make the same available for railroad
purposes. To fill this land is not incumbent upon your company. The lease recites that the trustees shall, to the extent of
their trust funds, provide lands in the city of Cincinnati for the
erection of work-shops and depots, and for other terminal facilities and rights of way.

"This would show that they incurred the obligation of provid-

"This would show that they incurred the obligation of providing such lands, and I do not anticipate that a lingle stockholder knew the money at command would virtually do the lessees no

good.
"In any event, you leased a railroad which had not, and has not now, either terminal; or other facilities, at its largest terminal."

"There is a system of roads south of Chattanooga, having a total mileage of \$11 miles, and worth \$35,000,000, occupying a splendid strategical position, which is worked in complete harmony with the Cincinnati Southern. This makes a total mileage of 1,147 miles without anything like proper provision for its business at Cincinnati.

for the 2¼ years ending December, 1883. This sum is placed as a debit against the \$60,000 appropriated for sinking fund purposes in 1882."

Expenditures on capital account last year were \$308,070, of which the sum of \$183,405 was charged to track and road-bed, \$52,211 to equipment and the balance to bridges, buildings, etc.

The traffic as reported was as follows: The earnings for the year were as follows:

Colorado Coal & Iron Compiny.—A circular has been issued to the stockholders of the company, which states that the board of directors of the company, on January 25, 1884, adopted the following resolution:

"Resolved, That in the opinion of this board it is advisable, in order to protect this company's interests, that the present board he re-elected at the next annual meeting, and the officers of this company are hereby authorized and directed to solicit proxies for that purpose."

The aunual meeting will be held at Colorado Springs April

The annual meeting will be held at Colorado Springs April 7 next.

The circular says: "The depression in market prices has been general, and furnishes no real, honest criterion as to the intrinsic value of the company's securities, its financial position or business prosperity. The annual report will approximately show that during the past year 592,000 tons of coal have been mued, as against 350,394 tons in 1881 and 512,363 tons in 1882; 125,000 tons of coke have been produced, as against 47,640 tons in 1881 and 90,256 tons in 1882. At its works at South Pueblo and Denver, it has manufactured in 1883, 25,000 tons of pig tron, 16,000 tons of ateel rails, 63,000 kegs of nails, 4,500 tons of merchant bar iron, besid-s joints, spikes, and other products. The iron mines have shipped a total of 39,000 tons of iron ore. The company has no finating d-bt. And although the principal of the ten-year bonds (\$1,500,000) of a predecessor company fell due at a difficult moment, before new bonds could be negotiated, that debt, with all other debts, has been paid. It is not denied that this imposed difficulties and sacrifices, but they were overcome, and

Materials and manufactured's 'k on band am mot to \$156,928

"The company has in its treasury over \$400,000 of interestpaying securities, chiefly Denver & Rio Grande consols. The
litigation involving our title to certain coal lands in Southern
Colorado is now pending in the United States Supreme Court,
where the final result is expected to be favorable." * * *

"The only perceptible cloud on the horizon is the recent
attempt, on the part of the new administration of the Denver
& Rio Grande Railway, to violate the long-standing contracts
and time-honored policy under which both companies have
grown up from their birth. Long ago, when the Denver & Rio
Grande was embarrassed, it received at different times financial aid from the companies whose consolidation has formed
this company, which mortgaged their properties for the purpose, and accepted, as part of the consideration, long-time contracts, solemnly executed and since repeatedly ratified by the
railway stockholders, whereby, among other things, the latter
promised to give us as good rates over its lines as should ever
during their life-time be given any other shipper; which contracts were wise in their inception, proved to be of mutual
advantage, and enabled both companies to develop their
resources, and have been deemed inviolable in the past. This
company, conforming to them, has given all its freight to that
company and ignored competing carriers, until it became the
largest customer of the railway, furnishing it over 80 per cent
of its entire freight earnings. But on Jan. 7 last, in the
middle from the construction of the railway company, the effect of which was to give largely
preferential rates to other shippers and, temporarity, at least,
destroy all our newly-established trade in Utah, Nevada and
Catifornia" * * * "When we learned of the solicitation of
your proxies for a revolutionary board, we had no alternative,
as your representatives, but to lay the facts before you. The California" * * * * "When we learned of the solicitation of your proxies for a revolutionary board, we had no alternative, as your representatives, but to lay the facts before you. The issue is thus clearly made. Your board did not raise it or seek the controversy; it is thrust upon them We sought and seek in this business only what is due to your company, to wit, 'rates never to exceed the best rates per mile given to any other company, association, or individual." * * * "Even if no contracts existed between the companies, their respective interests are such that, under present conditions, their management shows proceed into the general-morigage nves, and that conversions are progressing steadily. These oew fives and that conversions are progressing steadily. These oew fives, and that conversions are progressing steadily. These oew fives, and that conversions are progressing steadily. These oew fives, and that conversions are progressing steadily. These oew fives, and that conversions are progressing steadily. These oew fives, and that conversions are progressing steadily. These oew fives, and that conversions are progressing steadily.

should be kept separate and independent of each other. Transfer control, and you give the administration of the rallway the power to construe both sides of your contracts, or annul them if they choose; to fix prices on fuel, rails, and other material used by them, and set limits to your trade, as may seem best to subserve interests elsewhere, at your expense."

Proxics are solicited for the re-election of the present board.

Proxies are solicited for the re-election of the present board.

Connotton Valley.—At a special meeting, held in Boston on the 21st inst., the following was adopted:

Whereas, The Interest due upon the bonds of the Connottoo Valley Rallway is now past due and in arrears; and whereas, there has been appointed a receiver of all the said rallway and property; and, whereas, action has been taken, or is about to be taken, by the bendholders for the purpose of foreclosure and sale of said rallway sud property; now, we, the stockholders of the Connotton Valley Rallway, this day assembled, do hereby constitute and appoint R. P. Ranney of Cleveland, O., R. A. Blood of Fitchburg, William Rotch, J. M. Watson and J. M. Evorett of Boston a committee to act in conjunction with a committee of the bondholders for us and In our behalf, with authority to take such neiton as shall best secure for us our equitable and legal rights in any reorganization or sale of our rallway or property, or take any action which shall stay proceedings until our rights shall be recognized. Baid committee are requested to report such recommendations as they may deem advisable; and said committee are turther authorized to fill any vacancy and add to their number.

The meeting then adjourned, subject to the call of the com-

The meeting then adjourned, subject to the call of the com-

Delaware Luckawanna & Western.—At the meeting this week the following officers and directors were elected: President, Samuel Sloan; Secretary, Frederick F. Chambers; Treasurer, Frederick H. Gibbons; managers, John I. Blair, George Bliss, Percy R. Pyne, William Watter Phelps, E.ias S. Higgins, Benjamin G. Clarke, Jay Gould, Sidney Dillon, Russell Sage, Edgar S. Auchineloss, Andrew T. McClintock, Abrabam R. Van Nest and Gardner R. Colhy. The two last named are new members of the board.

East Tenn. Virginia & Georgia.—State Treasurer Speer of Georgia has been in New York and received about \$750,000 State of Georgia bonds from the East Tennessee Virginia & Georgia Railroad Company on account of the balance due from the sale of the Macon & Brunswick Railroad, now a part of the East Tennessee Virginia & Georgia aystem.

Flint & Perc Marquette.—This company's earnings from all sources in 1883 were \$2,542,943; operating expenses and taxes, \$1,735,517; net earnings, \$807,426. Interest charges, \$314,127, leaving for dividends, \$493,299, out of which seven per cent was paid on \$6,500,000 preferred stock, amounting to \$455,000 and the surplus, \$38,299, was added to the surplus of \$35,613 from last year, making a total surplus of \$73,912.

Lehigh Coal & Navignation —In Philadelphia Euberger 26.

\$35,613 from last year, making a total surplus of \$73,812.

Lehigh Coal & Navigation.—In Philadelphia, February 26, at the annual meeting of this company, the President stated that the floating debt had been decreased \$60,000 and \$130,000 worth of scrip had been paid off out of the earnings. The proposition to dispose of 18,900 shares of the company's stock at par to extinguish the floating debt was discussed, and it was resolved to leave the time and mode of such distribution to the discretion of the Board of Managers. The following officers were elected: Board of Managers—Joseph S. Harris, President; Francis C. Yarnall, Vice-President; Edward W. Clark, Francis R. Cope, Fisher Hazard, Charles Parrish, George Whitney, John Leisenring, James M. Willcox, Edward Lewis, T. Charlton Henry, and Samuel Dickson. The vacancy caused by the death of Charles Wheeler was not filled.

of Charles Wheeler was not filled.

— The Philadelphia North American says it is reported that the Lehigh Coal & Navigation Company has extended its \$800,000 floating debt at 4 per cent for one year, with the option of prolonging the period to five years. If true, this removes all necessity of issuing the 18,900 shares of stock. It is also understood that the company has arranged with the largest holders of Nesquehoning Valley stock (on which the 7 per cent guarantee under the lease expires next September) to reduce the dividend to 5 per cent after that date. The alternative of accepting this is the sale of the stock at par to the Lehigh Navigation Company. The reduction in the Lehigh's fixed charges by this operation will be nearly \$26,000.

Long Island Railroad,—The lease of the Central (Stewart's)

Long Island Railroad.—The lease of the Central (Stewart's) road to the Long Island Company has been extended for ten years. The road is about eleven miles long and runs from Hinsdale through Garden City to Farmingdale and Babylon.

Missouri Kausas & Texas.—Since January 1, 1884, no earnings have been given out. The following is a brief etatement issued for the year 1883:

Gross earnings	1.273.000
Openting expenses (6229 per cent)	7,016,875
Net carnings	1,228,125
Interest account	3,600,000
Net	\$628,125 150,000
Not over all	6146 195

The company reports that \$5,000,000 of the \$8,000,000 second incomes have been converted into the general-mortgage fives, and that conversions are progressing steadily. These new fives being mortgage bonds, and amounting in all to \$10,000,000, will increase the cash interest charge of the company about \$500,000 per year.

N. Y. West Shore & Buffalo.—It is reported that the new interest in this company is represented by Mr W. H. Osborne, formerly President of Illinois Central, and that he was prominent in drawing up the financial plan. Last week the road averaged 195 through east-bound pasengers daily from Buffalo to New York. The Grand Trunk on Sunday delivered West Shore 56 through freight cars from Chicago. In the first 15 days of February, West Shore earned enough to pay operating expenses for 26 days. The Financial Record says: "Attention is called to the point that 10 per cent of the original 1851 subscription to \$16,000,000 West Shore bonds has not been called, and inquiries as to when the call would be given. On payment of this 10 per cent 20 per cent of the bonds and all the stock on the subscription are deliverable. This 10 per cent would give the company \$1,600,000 cash. The injunction against the North River Company prevents the calling of the 10 per cent and the delivery of the bonds and stock."

Norfolk & Western.—The earnings and expenses for January, 1883 and 1884, have been as follows:

Gress earnings Expenses		1893. \$200,487 122,603	Increase in 1884. Inc., \$12,533=6 per cent. Inc., 7,044=6 per cent.
37 4	000.000		

Not earnings.... \$83,372 \$77,384 Inc., \$5,488=7 per cent.

—The Virginia & Tennessee Enlarged Mortgage bonds for \$990,000, which mature July 1. 1884, have been extended for thirty years, at 5 per cent. This was done in place of issuing a like amount of the general mortgage sixes, the company thus saving the difference in interest.

Northern Central.—The comparative statement of gross earnings and expenses for January, 1883 and 1884, is as follows.

Gross earnings	Jan., 1884.	Jan., 1883 \$499,252
Operating expenses	\$244.794	\$232,923 58,108
Total expenses		\$341,033
Net earnings	\$136,792	\$158,219

Ohio & Mississippi.—The directors of this railroad have issued the following in regard to the new bonds:

"CINCINNATI, O., Feb. 25, 1884.

"At the meeting of the directors of the Ohie & Mississippi Railway Company, held in this city to-day, resolutions were passed by a very decided majority authorizing the Executive and Finance committees to dispose of the new five-per cent-mertgage honds of the cempany to the extent necessary to pay-off all arrears of indebtedness, so as to release the railway and other property from the custody of the courts and put the ecumpany again in control. Strong confidence was expressed by the committee of their ability to place the bonds with very little delay, and provision was made for an early application to the court for the proper order to restere the railway to the company and for the settlement of the Receiver's accounts. It is believed this valuable property will soon be again operated free from the restrictions which necessarily transmed the Receiver and canable its managers to place it in a strong and independent attitude, so as to command the traffic to which the line is fairly entitled."

The Commercial-Gazette of Cincinnati says: "The \$3,000,000 of the bonds are to be placed at a limit of 80 cents, and the B. & O. stands ready to take the lion's share at that figure. The commission is not to exceed 2½ per cent."

Penusylvania Rallroad.—The gross and net earnings in Jan., 1883 and 1884, are specially compiled for the Chronicle in the table below. In January, 1884, there was a decrease of \$355,124 in gross earnings and a decrease of \$304,922 in the net. On all the lines east and west of Pittsburg the net returns show a decrease of \$633,288 in January, 1884, compared with January, 1882. with January, 1883.

ALL LINES EAST OF PITTSDURG AND EDIE

	Gross Ec	arnings.	-Net Ear	nings.
January	1893. \$3,929,357	1884. \$3,574,233	1883. \$1,471,058	1884. \$1,166,136

As to the lines west of Pittsburg and Erie, the monthly reports issued in 1883 and for the current year show the results below. The company's returns, however, state a loss for January in the present year compared with January, 1883, of \$328,366.

ALL LINES WEST OF PITTSBURG & ERIE.

Nel Surplus over all Liabilili	es. Inc. or Dec. in
 1883. 1884. \$174.981 Def \$106.556	Dec 2281 527

Philadelphia & Reading.—The gross receipts from the P. & R. railroads, canals, steam colliers and coal barges in January were \$1,499,749 and the net receipts \$580,974. The gross receipts of the Philadelphia & Reading Coal & Iron Co. in January were \$979,019 and net loss \$91,666. The total receipts to the companies together (not including Central of New Jersey, leased) for each month of the fiscal years 1882-3 and 1883-4 were as follows:

	-Gross I	Receipts.	-Net R	ceeipts
-	1893-4.	1382-3.	1883-4.	
December		\$2,865,201	\$509,152	\$343,783

The Commercial Limes.

COMMERCIAL EPITOME.

FRIDAY NIGHT, Feb. 29, 1884.

The weather for the past week was generally favorable to trade till toward the close, when it turned excessively cold, snow falling as far south as central Mississippi. The tloods in the Mississippi Valley have risen to such height as to do some damage, but no serious or general overflow has occurred, and none is now apprehended. Depression has again prevailed on the Stock Exchange, and its influence has been felt to some extent in mercantile circles, speculative prices of several staple products having materially declined. The regular spring business opens with a fair degree of activity.

There has been severe depression in the lard speculation, in sympathy with a selling movement at the West, but to-day there was a stronger, though quiet market, the decline being partially recovered, with a firm closing at 9.77@9.80c. for March, 9.83@9.85c. for April, 9 90@9.92c. for May, 9 95@9.97c. for June and 9.96@10c. for July. Lard on the spot closes nearly nominal at 9.75@9.80c. prime Western, and 10@10.05c. for refined for the Continent. Pork is very dull at \$18 for mess. Bacon quoted nominal at 93/4c. for long clear. Cut meats are quiet; pickled bellies 8%4@9%c.; do. hams, 12@124c.; do. shoulders, 81/4@81/2c. Beef dull; extra mess \$12@\$13, and packet \$13 50 per bbl.; India mess \$24@\$26 per tierce. Tallow 7%c. for prime; stearine 10@10 1/2c. Butter firm at 16@37c. for common to choice. Cheese in good demand at 11@15c. for State factory.

Rio coffee has been quiet as a rule and closed weak at 121/2c. for fair, though sales were at one time made at 1234c.; options were rather quiet until to-day, when the transactions were liberal, though at some decline; March and April both closed at 10.80@10 85c., May at 10.85@10.90c., June at 10.90@10.95c., July at 10.95@11c. and August at 11@11.05c. Mild grades have been quiet and closed weak. Tea has at times been quite active at very firm prices, but the trade has decreased within a few days, both on speculation and for consumption; Japan sold to-day at 291/2@291/4e. for March, 311/5@32c. for April and 331/4@33%c. for May, while black sold at 85c. for March, 36c. for April and 371/4@371/4c. for May; Japan closed steady, but black, though firm on the spot, was weak for future delivery. Rice has shown no change. Refining molasses has declined to 21c. for 50-degrees test; grocery grades have sold fairly at about steady prices. Raw sugar has been dull, weak and nominal, and at the close 611-16c, was quoted for fair refining, though this figure could not be obtained; 96-degrees test centrifugal was nominal at 65%c.; refined has been dull and lower: crushed, powdered and cut loaf closed at 7%c., and granulated at 7%c. Spices have been quiet and foreign fruits dull and generally weak, though prunes have been steady.

The movement in Kentucky tobacco has latterly been very moderate, but holders maintain firm figures; lugs quoted 71/4@ 8c.; leaf, 8@11½c; sales for the month, 1,927 hhds., of which 878 were for export, 406 to jobbers and 643 to manufacturers. Seed leaf has continued slow, but all prices remain steady; sales for the week, 950 cases, including 200 cases crop 1882 Penn., 10@ 20c.; 400 cases crop 1881, Penn., 6@10c; 200 cases crop 1881, New England, 11@25c.; 150 cases snudries, 4@18c., and 500 bales Havana 80c.@\$1 15; also 150 bales Sumatra, \$1 20@\$1 50.

There has been little or nothing done in naval stores, but holders have maintained a firm front; spirits turpentine is held at 36c. and strained to good strained rosins \$1 48@\$1 50. Refined petrolenm has been dull until to-day, when a better tone was noticed, and 25,000 bbls. 70 Abel test for the first half of March delivery sold at 85%c. Crnde oil certificates have also assumed a brighter position; there were sales to-day at \$1 00%@ \$1 02½, and the close was at \$1 02½. In metals little has been done, but iron remains quite firm; steel rails receive some attention at \$34@\$35, deliverable at the mills. Oils are quiet but firm. Wool and hops are quite neglected.

The week in ocean freight circles has been quite indifferent. The movement has been a trifle better, but rates have shown a disposition to assume a lower plane. To-day grain to Liverpool by steam was taken at 13/4d.; flour, 12s. 6d.; bacon, 15s.; cheese, 20s.; cotton, 1/3d.; grain to London by steam, 21/2d.; do. to Copenhagen by steam, 2s. 3d. per qr.; refined petroleum to Calcutta in cases, 2lc. There were no charters of barrel petroleum, and rates at the moment are little more than nominal.

COTTON.

FRIDAY, P. M., F-bruary 29, 1384.

THE MOVEMENT OF THE CROP, as indicated by our telegrame from the South to-night, is given below. For the week ending this evening (Feb. 29) the total receipts have reached 76,487 bales, against 65,013 bales last week, 105,921 bales the previous week and 111,431 bales three weeks since; making the total receipts since the 1st of September, 1883, 4,340,218 bales, against 4,901,714 bales for the same period of 1882-83, showing a decrease since September 1, 1883, of 561,496 bales.

The speculation in futures has been only moderately active and prices, without fluctuating widely, have been variable and unsettled. Receipts at the ports were larger on Saturday and Monday, but have latterly again become small. Business in some of the Southern markets has been partially interrupted hy Mardi-Gras festivities, and the Liverpool market has been dull and unsettled. Prices on our Cotton Exchange were without much change, but made considerable advance on Monday and a further improvement on Tuesday, but declined slightly on Wednesday and Thursday. The advance of Monday and Tuesday was taken advantage of by many distrustful holders to "anload." To-day the opening was dull and unsettled, with some depression at mid-day, but there was a rally at the close, which was slightly dearer than yesterday, and as compared with last Thursday 5@9 points dearer for this crop and 7@8 points dearer for the next. Cotton on the spot has been quiet, but holders have shown strength, and quotations were advanced 1-16c. on Tuesday and again on Wednesday. To-day there was no change and the close was quiet at 10% c. for middling uplands.

The total sales for forward delivery for the week are 397,500

bales. For immediate delivery the total sales foot up this week 3,027 bales, including 300 for export, 2,017 for consumption, 710 for speculation and — in transit. Of the above, — bales were to arrive. The following are the official quotations for each day of the past week.

RECEITES FROM THE PLANTATIONS.—The following table is prepared for the purpose of indicating the actual movement each week from the plantations. Receipts at the outports are sometimes misleading, as they are made up more largely one year than another at the expense of the interior stocks. We reach therefore, a safer conclusion through a comparative statement like the following. In reply to frequent inquiries we will add that these figures, of course, do not include overland receipts or Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the out-ports.

RECEIPTS FROM PLANTATIONS.

Week ending-		Receip	ts at the	Ports.	St'k at.	St'k at Interior Towns.			Recipts from Plantins

The above statement shows-1. That the total receipts from th

The above statement shows—1. That the total receipts from the plantations since September 1, 1883, were 4,518,327 bales; in 1882-83 were 5,193,646 bales; in 1881-82 were 4,356,135 bales.

3.—That, although the receipts at the out-ports the past week were 76,487 bales, the actual movement from plantations was only 49,302 bales, the balance being taken from the stocks at the interior towns. Last year the receipts from the plantations for the same week were 122,314 bales and for 1882 they were 32,622 bales. 32,622 bales.

AMOUNT OF COTTON IN SIGHT FEBRUARY 29 .- In the table below we give the receipts from plantations in another form, and add to them the net overland movement to February 1, and also the takings by Southern spinners to the same date, so as to give substantially the amount of cotton now in sight.

	1883-84.	1832-83.	1881-82.	1880-81.
Receipts at the ports to Feb. 29 Interior stocks on Feb. 29 in	1,340,218	4,901,714	4,038,488	1,670,086
excess of September 1		291,932	297,617	283,620
Tot. receipts from plantat'ns Net overland to February 1	4,518,327 441,671		4,356,135 337,278	
Southern consumpt'n to Feb. 1		160,000		
Total in sight Pohanour 20	5 110 000	E COX OGO	4 010 410	Y 100 00F

Total in eight February 29 .. 5,112,998 5,825,966 4,818,413 5,438,625 It will be seen by the above that the decrease in amount in sight to-night, as compared with last year, is 712,968 bales, the increase as compared with 1881-82 is 294,585 bales, and the decrease from 1880-81 is 325,627 bales.

WEATHER REPORTS BY TELEGRAPH.-In general the weather Weather Reports by Telegraph.—In general the weather has been favorable at the South during the week. In Texas, farming operations are becoming active. The Mississippi River is very high at some points; our Memphis correspondent reports it at eleven inches above the danger line and stationary, and from Helena our advices are that it has risen, and is still rising rapidly. The Red River has overflowed at Shreveport, and many plantations are under water.

Galveston, Texas.—It has rained on two days of the week, the rainfall reaching thirteen hundredths of an inch. Average thermometer 59, highest 75 and lowest 37. During the month of February the rainfall reached eighty-nine hundredths of an inch.

Indianala, Texas.—We have had no rain during the week.

Indianola, Texis.—We have had no rain during the week. There are indications of an early spring; farmers are busy plowing. The thermometer has averaged 59, the highest being 73 and the lowest 39. Rainfall during February, fifty-eight hundredths of an inch.

hundreaths of an inch.

Palestine, Texas.—It has rained on two days of the week,
the rainfail reaching nine hundreaths of an inch. There
have been two killing frosts. Planting preparations are active. The thermometer has averaged 55, ranging from 28 to
75. February rainfall, one inch and seventy-eight hundreaths.

New Orleans, Louistana.—It has rained on two days of the week, the rainfall reaching eighty-two hundredths of an inch. The thermometer has averaged 61.

Shroveport, Louisiana.—The weather has been in general clear with a light rain on Wednesday, the rainfall reaching twenty-two hundredths of an inch. The water is stationary. Nearly all river plantations for 100 miles above the city are under water; below the city the flooded district extends 90 miles, and on the west side all except a few elevated places are covered. On the east side the banks are higher and the country is not so badly overflowed, although several plantations on that side are under water. The loss to the plantars in houses, fences and stock is large. The thermometer has ranged from 28 to 75.

Vicksburg, Mississippi.—It was showery on one day during the early part of the week but the latter portion has been cold, dry and pleasant. The rainfall reached thirty-one hundredths of an inch. The weather has been too cold, there having been frost, but not killing frost. The river is forty-five feet above low-water mark. The thermometer has ranged from 30 to 71.

Meridian, Mississippi.—Telegram not received.

Greenville, Mississippi.—Telegram not received.

Columbus, Mississippi.—It has rained on two days of the week, the rainfall reaching one inch and five hundredths.

February rainfall, eleven inches and fifty-one hundredths.

Little Rock, Arkansas.—It has been cloudy, with snow on one day and rain on three days of the week, and the remainder of the week has been fair to clear and cool. The rainfall reached one inch and six hundredths. Average thermometer 41, highest 61 and lowest 18. It rained on fifteen days during February, and the rainfall reached rine inches and three lundredths. The thermometer averaged 44 and ranged from 18 to 70.

Pine Bluff, Arkansas.—We have had rain on two days,

Pine Bluff, Arkansas.—We have had rain on two days, and the remainder of the week has been pleasant. The rainfall reached one inch and ten hundredths. Ice formed on two nights. The thermometer has averaged 44, the highest being

fall reached one inch and ten hundredths. Ice formed on two nights. The thermometer has averaged 44, the highest being 64 and the lowest 21.

Fort Smith, Arkansas.—We have had rain on two days and snow on one day of the week, the rainfall reaching fortyone hundredths of an inch. Roads are becoming passable. The thermometer has averaged 40, ranging from 18 to 68.

Helena, Arkansas.—It has rained on two days and has been cloudy on two days of the week, the rainfall reaching one inch and sixty-eight hundredths. The river has risen ten inches in twenty-four hours, and is now rising at the rate of half an inch an hour. It is feared that we will see the highest water known, which will do great damage all the way to the Gulf. The thermometer has ranged from 20 to 68, averaging 36.

Monticello, Arkansas.—Telegram not received.
Newport, Arkansas.—It has rained on one day of the week,
the rainfall reaching ten hundredths of an inch. The weather
has been too cold. The thermometer has ranged from 24 to

Memphis, Tennessee.—We have had rain on five days of the week, the rainfall reaching one inch and ninety-nine hundredths. The weather is now clear and cold. The river is eleven inches over the danger line and stationary. The therefore the danger line and stationary and the layer mometer has averaged 45, the highest being 61 and the lowest

Nashville, Tennessee.—It has rained on three days of the week, the rainfall reaching one inch and fifty hundredths. The thermometer has averaged 42, ranging from 16 to 60.

Mobile, Alabama.—It has been showery on two days of the week, the rainfall reaching fifty-three hundredths of an inch. The thermometer has ranged from 29 to 63, averaging 51. February rainfall, four inches and ninety-four hundredths dredths.

Montgomery, Alabama .- We had rain on three days dur-Montgomery, Alabama.—We had rain on three days during the early part of the week, and the latter portion has been clear and pleasant, but cold. The rainfall reached twenty-three hundredths of an inch. Ice formed in this vicinity on three nights of the week. Average thermometer 48, highest 69 and lowest 29. During the month of February the rainfall reached four inches and eighty hundredths. Selma, Alabama.—We have had rain on two days of the week, the rainfall reaching fifty-three hundredths of an inch. The weather has been too cold; ice formed on two nights of the week. The thermometer has averaged 41, the highest being 65 and lowest 21.

the week. The thermometer has averaged 44, the highest being 65 and lowest 21.

Madison, Florida.—We have had rain on two days of the week, the rainfall reaching one inch and four hundredths. The weather is very cold as the week closes. The thermometer has averaged 54, ranging from 30 to 73,

Macon, Georgia.—It has rained severely on one day of the week. Weather is now very cold. The thermometer has ranged from 20 to 65, averaging 42.

Columbus, Georgia.—There has been no rain all the week. Average thermometer 43, highest 63 and lowest 18. During the month of February the rainfall reached three inches and forty-nine hundredths.

forty-nine hundredths.

Savunnah, Heorgia—It has rained on three days of the week, and the remainder of the week has been pleasant. Ice formed on one day. The thermometer has averaged 54, the highest being 68 and the lowest 37; and the rainfall reached

seventy-six hundredths of an inch.

Augusta, Georgia.—We have had light rain on two days and the remainder of the week has been pleasant. The rainfall reached twenty-two hundredths of an inch. The thermometer has averaged 52, ranging from 31 to 71. During the

month of February the rainfall reached three inches and nincty-eight hundredths.

Atlanta, Georgia.—It has rained on one day of the week, the rainfall reaching forty-one hundredths of an inch. The thermometer has ranged from 24 to 65, averaging 46. Minimum temperature this (Friday) morning 12.

Charleston, South Carolina.—We have had rain on two days of the week, with a rainfall of fifty hundredths of an inch. Average thermometer 55, highest 68 and lowest 40.

Columbia, South Carolina.—Telegram not received.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 3 o'clock February 28, 1884, and March 1, 1883.

	Feb. 2	8, '84.	Meh. 1, '83.		
New Orleans Below high-water mark Memphis Above low-water mark. Nashville Above low-water mark. Shreyeport Above low-water mark. Vicksburg Above low-water mark.	1 34 15 32	Ineh. 5 11 6 5 10	Feel. 2 35 16 21 42	Inch. 11 6 4 3 3	

New Orleans reported below high-water mark of 1871 until Sept. 9, 1874, when the zero of gauge was changed to high-water mark of April 15 and 16, 1874, which is 6-10ths of a foot above 1871, or 16 feet above low-water mark at that point.

INDIA COTTON MOVEMENT FROM ALL PORTS.—We have re-arranged our India service so as to make our reports more detailed and at the same time more accurate. We had found it impossible to keep out of our figures, as cabled to us for the ports other than Bombay, cargoes which proved on to be shipments from one India port to another. The plan now followed relieves us from the danger of this inaccuracy and keeps the totals correct. We first give the Bombay statement for the week and year, bringing the figures down to February 28.

BOMBAY RECEIPTS AND SHIPMENTS FOR FOUR YEARS.

	Shipme	ents this	s week.	Shipm	ente sinc	Receipts.		
Year	Great Bril'n.	Gonti- nent.	Total.	Great Britain	Conti- nent.	Totat.	This Week.	Since Jan.1.
1883 1882	18,000 41,000	58,000 38,000	70,000 79,000	84,000 196,000	136,000 158,000 112,000 98,000	242,000 303,000	$68,000 \\ 50,000$	394,000

According to the foregoing, Bombay appears to show a decrease compared with last year in the week's receipts of 26,000 bales, and an decrease in shipments of 21,000 bales, and the shipments since January 1 show an increase of 1,000 bales. The movement at Calentta, Madras and other India ports for the last reported week and since the 1st of January, for two years has been as follows. "Other ports" cover Ceylon, Tuticorin, Kurrachee and Coconada.

	Shipme	nts for th	e week.	Shipmen	ts since Jan	uary 1.
	Great Britain.	Conti- nent.	Total.	Great Britain.	Continent.	Total.
Calcutta— 1884 1883 Madras—	4,000 1,000	2,500	6,500 1,000	23,000 39,000	12,000 8,000	40,000 47,000
1884 1883 All others—		*****	*****	6,000 4,0₺ ♦	800	6,000 4,800
1884 1883	4,000		4,000	8,000 4,000	2,000	8,000
Total all— 1884 1883	8,090 1,000	2,500	10,500	42,000 47,000	12,000 10,800	54,000 57.800

The above totals for the week show that the movement from the ports other than Bombay is 9,500 bales move than same week last year. For the whole of India, therefore, the total shipments since January 1, 1884, and for the corresponding periods of the two previous years, are as follows.

EXPORTS TO EUROPE FROM ALL INDIA.

Shipments	18	884.	18	83.	1882.		
to all Europe from—	This week.	Since Jan. 1.	This week.	Since Jan. 1.	This week.	Since Jan. 1.	
Bombay	55,000 10,300		76,000 1,000	242,000 57,800		303,000 91,700	
Total	65,500	297,000	77,000	299,800	87,600	399,700	

This last statement affords a very interesting comparison of the total movement for the three years at all India ports.

ALEXANDRIA RECEIPTS AND SHIPMENTS.—Through arrangements we have made with Messrs. Davies, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipt and shipments for the past week and for the corresponding week or the previous two years.

Alexandria, Raypt, Feb. wry 27.	1883-84.	1882-83.	1881-82.		
Receipts a satars*)— Time week Since Sept. 1	34,000 2,531,000	29,000 2,150,000	32.000		
	This Since week. Sept. 1.	This Since Sept. 1.	This Since week. Sept. 1.		
Exports (bales)— To Liverpool. To Continent	5,000 207,000 3,000 96,000	1,000 200,000 5,000 66,000	11,000 212,500 3,500 140,338		
rout farang	8.000 303,000	6,000 266,000	14,500 352.978		

^{*} a catter le 98 lbs.

This statement shows that the receipts for the week ending Feb. 27 were 34,000 cantars and the shipments to all Europe 8,000 bales.

MANCHESTER MARKET.—Our report received from Manchester to-night states that the market is dull. We give the prices of to-day below, and leave previous weeks prices for com-

THE NEW YORK COTTON EXCHANGE. - The corner stone of the new Exchange was laid last Monday. Mr. Walter T. Miller, the chairman or the Building Committee, deposited a box containing various documents relative to the Exchange, several newspapers, coins, &c., and stated in a short address to the members present that the Committee had decided to postpone more formal ceremonies until completion of the building, which might take frather more than a year. The light colored stone of the lower part of the structure is carried high enough to give a good idea of its effect, and meets with general approval. A seat offered for sale at auction on 26th inst. realized \$2,750.

East India Crop.—From Messrs. Wallace & Co.'s cotton report, dated Bombay, Jan. 25, we have the following:

port, dated Bombay, Jan. 25, we have the following:

"Advices from Oomrawuttee continue unfavorable as to the out-turn and quality of this crop, and, judging from present small arrivals, it is the general impression that in both respects the crop will be disappointing. There are, however, a few very nice parcels classing between 'good' and 'fine' to be picked up every now and then, for which fancy prices are asked. Recent rains in the Oomrawuttee districts have caused further damage, and it is now expected that the second pickings will also suffer to some extent from stain. How far this report will be borne out cannot be ascertained till the second crop commences to arrive, by end of February. Rain has also fallen in the Broach and Dhollerah districts, but very slightly, and it will be, if auything, beneficial to these crops, It is still maintained by some authorities that neither the Broach nor Dhollerah crops will exceed last year's yield, but even assuming that there will be no falling off in these growths, looking to the undoubted deficiency in the quality of Oomrawuttee descriptions available this season, it seems very unlikely that the exports from Bombay to Europe for the half-year ending June 30th will be so large as last year, the probability being that one million bales is as much as they are likely to total."

Jure Butts, Bagoing, &c.—There has not been any change

JUTE BUTTS, BAGGING, &c.—There has not been any change in the position of bagging since our last report, and the market is rather quiet. Buyers are only supplying their present wants and are not disposed to lay in stocks at present figures. Sellers continue firm, however, and no shading is being done, the market closing with 9½c. for 1½ lbs., 10c. for 1¾ lbs., 10¾c. for 2 lbs. and 11½c. for standard grades, the asking quotations. Butts have been rather dull and prices are rather nominal, though not quotably changed. There have been several arrivals during the week, part of which were placed previously and the balance goes into store. The close is quiet, with sellers naming 2¾@2½c. for paper grades and 2¾@2½c. for bagging quality. quality.

COMPARATIVE PORT RECEIPTS AND DAILY CEOP MOVEMENT. Comparative Poet Receipts and Daily Ceop Movement.—A comparison of the port movement by weeks is not accurate as the weeks in different years do not end on the same day of the month. We have consequently added to our other standing tables a daily and monthly statement, that the reader may constantly have before him the data for seeing the exact relative movement for the years named. The movement each month since September I, 1883, has been as follows.

Monthly	Year Beginning September 1.									
Receipts.	1883	1882.	1881.	1880.	1879.	1878.				
8ept'mb'r	313,812	326,656	429,777	458,478	333,643	288,848				
October	1,046,092	980,584	833,195	968,318						
Novemb'r	1,030,380	1,094,697	974,043	1,006,501	942,272	779,237				
Decemb'r	1,059,653	1,112,536	996,807	1,020,802	956,464	893,664				
January .	487,729	752,827	497,727	571,701	647,140	618,727				
Totalyear	3,967,666	4,267,300	3,741,549	4,025,800	3,768,011	3,269,740				
	of tot. port									
receipts	Jan. 31	70-89	79.27	68.53	75.34	73.52				

This statement shows that up to Jan. 31 the receipts at the ports this year were 401,923 bales less than in 1882 and 226,117 bales more than at the same time in 1881. By adding to the above totals to Jan. 31 the daily receipts since that time. we shall be able to reach an exact comparison of the movement for the different years.

Shipping News.—The exports of cotton from the United States the past week, as per latest mail returns, have reached \$1,780 bales. So far as the Southern ports are concerned, these are the same exports reported by telegraph, and published in the Chronick last Friday. With regard to New York, we include the manifests of all vessels cleared up to Thursday night of this week.

BREADSTUFFS.

FRIDAY, P. M., Feb. 29, 1884

Figur has been in rather better demand and prices have advanced. The rise is due more, however, to the comparative scarcity of flour than to any other influence. There is no activity in any description. Buyers prefer winter wheat flour, and of this there is only a moderate supply. The stock of spring wheat grades, moreover, if being steadily reduced, and it is now by no means excessive. To-day there was a moderate trade at steady prices.

Wheat has been very quiet for export, and still only moderately active on speculation. Options have therefore declined, despite the efforts of the bulls here and at the West to sustain prices. Both here and at Chicago the trading has been largely among brokers. The dulness of the export trade is a heavy weight on the market, and tends to discourage speculation, while the unusually large supply in this country likewise exerts a more or less depressing influence. The supply in Chicago on the 23d inst., for example, was 13,102,000 bushels, against only 5,999,000 bushels on the same date last year and 3,774,000 bushels in 1882. At other important centres of the grain trade the stock is relatively quite as liberal, and it is well known that Europe is abundantly supplied. The course of the market latterly has not been steadily downward, however, as the covering of shorts has enabled the bulls to occasionally advance prices a fraction; and in Chicago it is asserted that the market has been over-sold. The weather has been in the main favorable. To-day there was a moderate business at a slight advance. No. 2 red closed to-day at \$1 1314 in elevator, \$1 08 for March, \$1 10% for April, \$1 121/2 for May and \$1 131/2 for June, showing a decline for the week of 1/2c. to 3/4c.

Indian corn has been easier and very quiet both for export and on speculation. The trading in options has, in fact, been triffing compared with the transactions of active times. several days the sales here have not much exceeded half a million bushels. There is little disposition to speculate largely either here or at Chicago. The visible supply in this country is not much larger than at this time last year and, compared with that held at this date in 1882 and 1881, it is an important item smaller; but it is none the less true that it is more than ample for the existing wants of the trade, and it is, moreover, slowly increasing. At Chicago indeed the stock is still much larger than for some years past. The feeling everywhere is feverish and distrustful. There is a disposition to await the course of events before embarking on what seem hazardous speculations on either side of the market. Some consider that the largenesa of the supply is offset by the fact that little of the corn coming to market is of contract grade. Others think Europe will want much less than usual of our cereals this year. To-day there was light trade at a fractional advance. No. 2 mixed closed at € %c. in elevator, 621/2c. for March, 63%c. for April, 64%c. for

The prices are given in pence and 64ths, thus: 5 62 means 5 62-64d. May and 65%c. for June, showing in most cases a trifling decline, though cash and March are slightly higher.

Rye has advanced, while barley has declined. Both have sold fairly. Oats have been very dull, and show a slight decline for the week. To-day No. 2 mixed sold at 40% @40% c. for March, 41% c. for April and 42% c for May.

THE DRY GOODS TRADE.

FRIDAY, P. M., Feb. 29, 1884.

The past week has developed few new features of special interest in the dry goods trade, and the general situation is unchanged. There was a fair representation of wholesale clothiers in the market, who placed some pretty good orders for clothing woolens; but otherwise business ruled quiet with the commission houses, and the demand for foreign goods failed to realize expectations. The jobbing trade was spasmodic and irregular, owing to the stormy condition of the weather which existed at times, but a fair aggregate distribution of staple and department goods was made in this connection, and retallers from all parts of the country are arriving in such force that an active business is expected by jobbers in the near future. There was a slight shrinkage in values of print-

ing cloths, because of the comparative failure of the strike among the Fail River operatives; but in other respects the tone of the market was steady.

Domestic Corron Goods.-The exports of cotton goods for the week were 2,409 packages, including 65t to U.S. bia, 418 to Brazil, 409 to Argentine Republic, 348 to Hayti, 293 to Great Britain, 113 to Mexico, &c. There was a continued light demand for plain and colored cottons at first hands, and the jobbing trade was moderate. The best brands of brown sheetings remain steady in price, but some makes adapted to conversion purposes are a trifle easier, in sympathy with print cloths. Bleached cottons and wide sheetings were in moderate request by package buyers, and most descriptions of colored cottons ruled quiet but unchanged. White goods were in steady request and firm Print cloths remained duli, and prices are lower (owing to an accumulation of stocks on hand), closing at 31/2c for 64x64s and 3 1-16@31/2c. for 56x60s. Prints were quiet as regards fancy styles, but indigo blues, shirtings, fine sateens and furnitures were fairly active, and a good business was done in dress ginghams, chambrays, seersnckers and wash fabrics, by the principal jobbers.

Domestic Woolen Goods.—There was a slight change for the better in the demand for men's-wear woolens by the clothing trade, some fair orders for all-wool and cotton-warp cassimeres, worsteds, overcoatings, &c., having been placed for future delivery. There was, however, an evident reluctance on the part of buyers to take hold with their customary freedom, owing in a measure to the uncertainty in regard to the probable action of Congress upon the tariff question. Ladies' cloths, tricots, &c, were in moderate request, and a fairly active business was done in Jersey cloths. Satinets and Kentucky jeans have not shown much animation in first hands, but fair sales of the latter were reported by jobbers. For all-wool and worsted dress goods a steady demand was experienced by agents, and the jobbing trade was of very fair proportions. Carpets were less active, but prices remain steady.

Foreign Dry Goods.—The jobbing trade in foreign fabrics was more active at times, but the business done by importers was restricted in volume, the tariff agitation having rendered buyers very cautions. Silks ruled quiet, and prices are low and unsatisfactory to importers. Dress goods were in irregular demand, but mostly sluggish, and there was a limited inquiry for housekeeping lineus; but specialties in white goods, embroideries and laces were in steady request.

importations of Dry Goods,

The importations of dry goods at this port for the week ending Feb. 23, 1834, and since January 1, and the same facts for the corresponding periods of 1883, are as follows:
