## The Chronicle.

THE COMMERCIAL AND FINANCIAL CHRONICLE is published in New York every Saturday morning.  
 [Entered at the Post Office, New York, N. Y., as second-class mail matter.]

### TERMS OF SUBSCRIPTION—PAYABLE IN ADVANCE:

For One Year (including postage) .....	\$10 20
For Six Months do .....	6 10
Annual subscription in London (including postage) .....	£2 7s.
Six mos. do do do .....	£1 8s.

These prices include the Investors' Supplement, issued every other month, and furnished without extra charge to subscribers of the CHRONICLE.  
 Subscriptions will be continued until ordered stopped by a written order, or at the publication office. The publishers cannot be responsible for remittances unless made by Drafts or Post-Office Money Orders.

### London Office.

The office of the COMMERCIAL AND FINANCIAL CHRONICLE in London is with Messrs. EDWARDS & SMITH, 1 Drapers' Gardens, E. C., where subscriptions and advertisements will be taken at the regular rates, and single copies of the paper supplied at 1s. each.  
 A neat file cover is furnished at 50 cents; postage on the same is 18 cents. Volumes bound for subscribers at \$1 00.  
**WILLIAM B. DANA, } WILLIAM B. DANA & Co., Publishers,**  
**JOHN G. FLOYD. } 79 & 81 William Street, NEW YORK.**  
 POST OFFICE BOX 958.

### LONDON OFFICE OF THE CHRONICLE.

The publishers of the CHRONICLE have established an office in London with Messrs. Edwards & Smith, No. 1 Drapers' Gardens, E. C. All business pertaining to subscriptions and advertisements will be promptly attended to at this office, and any information furnished regarding the CHRONICLE, the INVESTORS' SUPPLEMENT and other publications issued from the CHRONICLE office in New York.

No change will be made in the method heretofore in practice for the payment of yearly accounts by old subscribers, and they will remit, as usual, by drafts through the banking house of Messrs. Morton, Rose & Co.

### THE FINANCIAL SITUATION.

There has been but little change in the situation during the past week. The disturbed feeling pervading financial circles two weeks since does not exist now, and to that extent the outlook has improved. But as no effective remedy for existing financial ills has earnestly engaged the attention of Congress, the threatened evil is only for the time being at rest, not removed. In the meantime all

business drags, spring trade is very slow and backward, the weather wretched with floods in the Southwest, and the prospects of railroad business not favorable.

On the latter point the further reduction on Thursday in the trunk-line rates from Chicago is by no means a promising feature. With this last reduction (making 15 cents in all), it only costs 15 cents per 100 lbs. to carry grain by rail all the way from that city to New York. At first sight this would be supposed to stimulate the movement to the seaboard and so it may; for 15 cents per 100 lbs. means a saving of 9 cents per bushel on wheat. But before this marking down of rates from 30 cents began, there was just about 9 cents difference between the price of grain in Chicago and the price in New York, so the reduction makes no change except in permitting a movement which prices before prevented, that is, if we suppose any road received full rates under the old schedule. As, however, there have been considerable shipments all along, we must suppose that the cutting which has been in progress has equaled the reduction. Whether the roads can find fun enough to pay for the loss in handling and moving grain to the seaboard under this arrangement we cannot undertake to say.

An approximate idea of how the operation will affect income may be gained by calculating the return which 15c. per 100 lbs. will afford on the basis of mileage between New York and Chicago, and then comparing such return with the average cost per ton per mile at which freight was moved on the respective roads during recent years. Here is how the mileage stands between New York and Chicago on the principal roads.

Pennsylvania and Fort Wayne route.....	912 miles
New York Central and Michigan Central.....	961 miles
Erie and Chicago & Atlantic.....	986 miles

Fifteen cents per one hundred pounds is equivalent to just three dollars a ton. Dividing this by the mileage given, we find the rate realized per mile to be 0.329 cent in the case of the Pennsylvania route, 0.312 cent in the case of the Central, and 0.304 cent in the case of the Erie. Turning now to the cost of moving freight on the respective roads, we meet with the following figures, which, with the exception of those of the Lake Shore (covering 1882), cover the fiscal or calendar year 1883. It should be understood that the figures show the average cost per mile on all freight of every description, through and local. As local freight, being hauled only short distances, costs more to handle than through freight, it is likely that if the latter were stated separately, the result would be less unfavorable to the roads than given. On the other hand, in the case of some of the lines, particularly the Erie, the large amount of coal freight included should operate to make the average on all freight nearer the minimum.

Cost per ton per mile on Erie.....	0.519 cent.
Cost per ton per mile on Central.....	*0.680 cent.
Cost per ton per mile on Pennsylvania lines east..	0.562 cent.
Cost per ton per mile on Pennsylvania main line..	0.477 cent.
Cost per ton per mile on Lake Shore (1882).....	0.413 cent.

\* The rate in 1883 was unusually high. In 1881 it was only 0.56 and in 1880 only 0.54.

On the basis of the lowest cost here given, there would seem to be a loss of one tenth of a cent per ton per mile (the difference between the 0.312 cent received and the 0.413 cent cost of moving), while on the basis of the lines more expensive to operate, the loss would be two-tenths of a cent and over, for every ton of freight moved one mile. In other words, in carrying freight at 15 cents there would appear to be a loss varying from 90 cents to \$2 on every ton of freight moved from Chicago to New York. Last summer the trunk lines received 25 cents per 100 lbs. for the same class of freight.

It is pleasant to turn to a more favorable feature in railroad circles. The movement to compromise the differences between the Quincy and the Union Pacific and the settlement of the dispute in the Northwestern Traffic Association, are events of that nature. The Quincy managers have hitherto not found it to their advantage to accept any of the offers made on the part of the Union Pacific and its allies in the new Western pool to adjust the differences arising out of the Nebraska business of the two lines, which differences are inflicting serious damage upon all the roads concerned, as we show later on in this article. A continuance of these inharmonious relations also threatens to deprive the members of the tripartite pool of nearly all the advantages they hoped to obtain by combining. Conferences having proved abortive, an agreement was made or announced on Wednesday for reference of the matters in dispute to committees appointed by the respective companies. What will be the result it is difficult now to determine, but it is expected that there will be a speedy and possibly a permanent settlement of all the vexed questions, although from the nature of the contest, both companies occupying the same territory, the adjustment will be difficult to make. The extension of the Northwestern Traffic Association was announced on Wednesday evening. This combination embraces the St. Paul, the Northwestern, the Minneapolis & St. Louis and the Omaha, and indirectly the Rock Island. Several conferences were had between the managers of the respective lines, and finally the proposition submitted by the Rock Island was to form a pool for two years, after which thirty days' notice of withdrawal should be given, the question of percentages to be fixed by arbitration. The Northwestern first insisted upon a proviso for withdrawal before the expiration of the two years, but it is understood that it yielded this point, and therefore the pool was formed.

Another event of the week has been the recovery in foreign exchange and further shipments of gold. This has had no influence on our markets, only taken in connection with other circumstances it induces caution. The amount which has gone out is \$302,864 on the 20th and \$605,258 on the 19th. Other shipments were expected for to-day by the City of Chester, but as the steamer will not leave until Monday it is not known as we write what will go by her. The Donau sails to-day. She is a slow boat and will take only \$377,603. All the week the supply of bills has nearly equaled the demand, which fortunately was not urgent. The bills drawn last week by the agency in this city of the Bank of Montreal, on account of the Canadian Government, amounted to not more than £600,000, and

they were so quickly absorbed that exchange re-acted as soon as the pressure of an unexpected supply was removed. But there was an impression that this agency had not drawn the full amount originally intended, and that more bills from the same source might come upon the market. This possibility increased to an extent the risk of gold exports and induced bankers to prefer fast steamers for the transmission of the metal to London. Then, again, the fact that money is, concurrently with these exports, going to the interior, and that our money market has, therefore, exhibited a hardening tendency, with the prospect that before the end of the month it might become more active (especially if speculators should aid in making it so), has had its influence upon the operations of foreign bankers. The latest report indicated that 2½ per cent was the rate in the open market in London, and that was early in the week, before the Bank had received the \$4,500,000 shipped from here on the 8th inst. It was reasonable to expect that a little lower rate would follow the arrival of so large a consignment of American gold; so if money should at the same time suddenly spring into activity here it might not only be desirable for foreign bankers, as well as others, to have as large an available supply as possible, but the margin of profit in moving gold, which is very small, might disappear. All these considerations combined have tended to limit gold exports this week, and they may continue to exert more or less influence in that direction. Part of the demand this week has been on Cuban account, the financial condition of affairs at Havana being such as to induce capitalists to transfer their funds to London. The mercantile inquiry has been light, mainly for the reason that importers who could do so have refrained from purchasing while bills were so high, preferring to wait for the chance of a reasonable decline.

The stock market has in general been strong through the week. Monday afternoon there was a little set back, but the market rallied next day, supported by an advance in Pullman, the Grangers, the Gould specialties, and the St. Louis & San Francisco stocks. On Wednesday one feature was a scarcity of Michigan Central shares, and the inclination was upward for that and the leading properties until the late trade, when unfavorable traffic returns of the Union Pacific for January, remarked upon below, encouraged the bears to attack that stock. The decline, however, was only fractional, for before the close the news was received with regard to the measures taken to compromise the differences between the Union Pacific and the Chicago Burlington & Quincy. On Thursday the Grangers and Union Pacific were strong in the morning on the announcement of the extension for two years of the Northwestern Traffic Association, and although the bears attempted to break prices they were only partially and very temporarily successful, the market being advanced late in the afternoon. On Friday, the further reduction in East-bound freight rates exerted an unfavorable influence in the early trade, but the strength of the Northern Pacific group of stocks served to hold the market steady the rest of the day.

A feature of the market has been the rise and activity in the prices of bonds. It has been observable for some time past that though stocks were languishing, bonds showed considerable animation. This week the movement has become so pronounced as to merit special mention. There can be no doubt that there is a large legitimate investment demand for the better class of such securities, for when stocks fall into disrepute bonds naturally increase in favor. But the movement now is not

confined to the better class of bonds. Semi-speculative securities—bonds that have no established reputation as yet, and whose standing and integrity the future alone can determine—have been made to share in it. When a prime investment security which is in meagre supply records an advance of  $\frac{1}{2}$  or 1 per cent on small transactions, or between sales made at long intervals, the circumstance has no special significance, but when bonds of a less unquestioned character, which have lain dormant for months, or else have shown but feeble signs of life, suddenly spring into activity, sell in enormous amounts, and score an advance of two or three points in as many hours, the transaction is of a different character. And of this nature many of the transactions in the last ten or twenty days have been. We would by no means reflect upon the great majority of bonds that have appreciated in market value during this period, nor is it to be understood that because a security is quoted at a low figure, its standing is necessarily to be called in question—there are not a few of these latter which sell low, because their merits are not yet generally known to the public—but there is as much distinction between bonds as between stocks, and a rise in price should not of itself predispose one to making purchases. There are some manufacturers of mortgages still existing—controlling mortgages with no limit—and they will meet the demand.

*Union Pacific* has issued a statement for the month of January which we have already alluded to. Briefly stated, gross earnings have decreased \$377,946, reducing them to \$1,538,908, and on this total of over a million and a half the company made only \$233,544 net, against \$897,732 in the month of January, 1883, a loss of \$664,188, on mileage of 4,256 miles in 1884 and only 3,996 miles in 1883. The unfavorable result is due to a variety of causes. Owing to the completion of the Northern Pacific, the *Union Pacific* has lost the through business to and from Oregon and Washington Territory. For the same reason it now gets only one-half of the Montana business—the traffic of which must be very profitable, since it affords a haul over the whole of the Utah Northern road and the entire length of the *Union Pacific* main line. Then on the business from Utah and Colorado the competition with the *Burlington & Quincy* and the *Denver & Rio Grande* has been very severe and has caused very serious reductions in rates, while also the road had to contend with an unusual amount of snow. As far as concerns the division of Montana traffic with the Northern Pacific, that of course is a permanent loss. The loss of the Oregon business, too, will be a continued unfavorable feature—till the juncture with Oregon Navigation lines by the Oregon Short Line shall have been effected, when the *Union Pacific*, like the Northern Pacific, will be able to offer all-rail connection to that territory. But as relates to what were the chief factors in the present unsatisfactory showing, namely, the “cut” on Colorado and Utah rates, and the expense of keeping tracks clear of snow, these of course are temporary in their character. The restoration of rates, for instance, would cause an immediate improvement in results, and the snows certainly are not a lasting circumstance. The adverse effect that these snows had will only be fully appreciated when it is known that, according to the Assistant General Manager, they were heavier than in the winter of 1871-2, when the *Union Pacific* in January was operated at a loss of over \$100,000. Of course the other competitive roads suffered in like manner from the low rates prevailing, &c., and it will, therefore, be interesting to see the extent to which each was affected. Accordingly, we have been to the pains

to prepare the January earnings and expenses back to 1881 for the *Burlington*, the *Denver & Rio Grande*, and the *Union Pacific*.

NAME.	1884.	1883.	1882.	1881.
<i>Union Pacific</i> —				
Gross earnings.....	\$ 1,538,908	\$ 1,916,854	\$ 2,175,286	\$ 1,656,005
Operating expenses.....	1,305,364	1,019,122	1,393,717	1,003,098
Net earnings.....	233,544	897,732	781,569	652,907
<i>Chic. Burl. &amp; Quincy</i> —				
Gross earnings.....	1,648,220	1,625,680	1,658,834	1,307,948
Operating expenses.....	1,412,706	818,283	888,919	711,889
Net earnings.....	635,514	807,397	769,915	596,059
<i>Denver &amp; Rio Grande</i> —				
Gross earnings.....	487,291	463,762	516,128	307,477
Operating expenses.....	415,066	345,154	334,996	115,792
Net earnings.....	72,225	118,608	181,132	91,685

Here we see that all three roads sustained a reduction of net earnings this year, though both the *Denver & Rio Grande* and the *Burlington & Quincy* had a small increase in gross. Previous years' returns also afford a lesson, but we have not space to indicate it to-day.

There is very little doing in securities between London and New York and that little is confined to arbitrage operations. The following shows relative prices in London and New York of leading securities at the opening each day.

	Mch. 17.		Mch. 18.		Mch. 19.		Mch. 20.		Mch. 21.

‡ Ex-interest.

Money has been in a little better demand on call. That is to say, whereas a week ago it was difficult to lend at 2 per cent, the transactions this week have been more numerous at that rate and fewer at  $1\frac{1}{2}$ . There is also a good inquiry for time loans, 3 per cent being bid on government collateral for thirty days and  $4\frac{1}{2}$  on stocks for ten months. The Treasury disbursed liberally for called bonds during the early part of the week, a call for \$10,000,000 falling due on 15th inst., and this has tended to augment the supply, so that the slight hardening of the rate indicates that had it not been for the Treasury payments higher figures would have ruled. The following statement, made up from returns collected by us, exhibits the week's receipts and shipments of gold and currency by the New York banks.

Week Ending Mch. 21, 1884.	Received by N.Y. Banks.	Shipped by N.Y. Banks.	Net Interior Movement.
Currency.....	\$640,000	*\$1,015,000	Loss. \$375,000
Gold.....	.....	300,000	Loss. 300,000
Total gold and legal tenders.....	\$640,000	\$1,315,000	Loss. \$675,000

\* Includes \$475,000 transferred in the shape of silver certificates, by a deposit of gold in the Sub-Treasury.

The above shows the actual changes in the bank holdings of gold and currency caused by this movement to and from the interior. In addition to that movement, the banks have gained \$3,000,000 through the operations of the Sub-Treasury and lost about \$1,000,000 by exports of gold. Adding these items to the above, we have the following, which should indicate the total gain to the New York Clearing House banks of gold and currency for the week covered by the bank statement to be issued to-day.

Week Ending Mch. 21, 1884.	Into Banks.	Out of Banks	Net Change in Bank Holdings.
Banks' Interior Movement, as above	\$640,000	\$1,315,000	Loss. \$675,000
Sub-Treasury operations, net. ....	2,000,000	.....	Gain. 2,000,000
Total gold and legal tenders. ....	\$2,640,000	\$1,315,000	Gain. \$1,325,000

Government bonds have been strong this week, with a good demand for the 4s and 4½s for temporary investment, such as is usual at this period of the year.

The Bank of England reports a gain of £1,619,000 bullion for the week. This represents £190,000 from the interior and £1,429,000 from abroad, chiefly New York. The proportion of reserve to liabilities has increased 4 per cent. The Bank of France shows a gain of 2,975,000 francs gold and of 2,600,000 francs silver, and the Bank of Germany has lost 2,200,000 marks. The following indicates the amount of bullion in the principal European banks this week and at the corresponding date last year.

	Mch. 20, 1884.		Mch. 22, 1883.	
	Gold.	Silver.	Gold.	Silver.
Bank of England.....	25,251,913	.....	22,620,724	.....
Bank of France.....	39,905,378	40,092,987	39,843,738	42,537,613
Bank of Germany.....	7,729,662	23,188,938	7,928,000	23,784,000
Total this week.....	72,886,953	63,281,975	70,392,462	66,321,613
Total previous week.....	71,176,453	63,260,475	70,394,551	66,652,607

The Assay Office paid \$217,017 through the Sub-Treasury for domestic bullion during the week, and the Assistant Treasurer received the following from the Custom House.

Date.	Duties.	Consisting of—			
		Gold.	U. S. Notes.	Gold Certif.	Silver Certificates.
Mar. 14...	\$524 291 17	\$11,000	\$35,000	\$263,000	\$166,000

" 20...	214,538 86	4,000	15,000	139,000	56,000
Total...	\$2,248,387 74	\$43,000	\$237,000	1,357,000	\$610,000

**THAT \$606,000,000 STOCK OF GOLD.**

We wish to say a few words respecting the current official estimate of the stock of gold in the United States. Every now and then the Director of the Mint puts out figures purporting to cover this item (which, of course, he has confidence in, being based on Government statistics,) but which in the opinion of commercial men familiar with the subject are very erroneous. No great importance would attach to the question were it not that these excessive figures are used to encourage unsafe opinions among a numerous class who are inclined to put implicit faith in any statistical statement issued by the Government. Thus when gold shipments in a large amount are threatened, a telegram comes from Washington saying, the Director of the Mint esteems this of no moment whatever since we have 606 millions of gold in the country and it would be a benefit to lose a little; or, if the Chamber of Commerce complains that silver coinage is becoming unsafe, the next day the daily press receives pretty nearly the same old dispatch, only with a new date, and adding that nervousness on account of silver dollar coinage is quite uncalled for in a country possessing 606 millions of gold. The question thus becomes important—are there 606 millions of gold in the United States? If our readers will follow us briefly we think we can show most clearly that there is no such amount, and that the statement is a gross exaggeration.

As a preliminary thought, is it not surprising, if such a marvelous stock exists, that no addition is made to the portion which is in sight at this time of great business inactivity? Many more legal tenders and bank notes were

idle in our banks and Sub-Treasury on the 1st of last November than at the same date in 1880, 1881 and 1882, but those depositories, in the aggregate, contained 21 millions less gold than they did November 1, 1881, and only 20 millions more than on November 1, 1880, although according to the Mint report the country since November 1, 1880, has increased its holdings of that metal 153 million dollars.\*

Another fact in the same connection worth remembering is that the Government issued about 78 millions of gold certificates during the year ending October 1, 1883, an instrument which one would think peculiarly well adapted for economizing the use of gold, and very potent in drawing into the Treasury, and therefore bringing into sight, gold which was in active use or hid away among the people. Certificates are much easier for the public to hold and carry, and also much safer, for they can be put into a very small space; furthermore, they are not only an explicit promise of the Government to pay gold, but the actual representatives of gold on deposit in the vaults of the Treasury pledged to redeem them. What more effective device could be suggested for attracting or gathering it up? And yet during the year ending October, 1883, while these 78 million gold certificates were issued, and while the stock of gold in the country, according to the Mint report, increased about 43 million dollars (reaching in the aggregate 606 millions at the end of the year), the stock in sight (including that covered by the gold certificates) only increased about 21 million dollars; that is to say, not only of even the year's increase was kept in sight, while the old stock was wholly unaffected. That certainly is incredible; the certificates would have tapped such a large reservoir had it existed.

But let us carry the investigation one step further. According to the Mint report the stock of gold has been as follows at the dates named, and according to the Comptroller of the Currency the holdings of the banks (National and State), and of the Sub-Treasury, have been as given below, at about the same dates.

In the United States—	Nov. 1, '80.	Nov. 1, '81.	Oct. 1, '82.	Oct. 1, '83.
Gold coin.....	375,323,881	469,000,600	512,191,036	544,512,699
Gold bullion.....	78,558,811	94,075,744	51,440,420	61,683,816
Total gold in United States.....	453,882,692	563,076,344	563,631,456	606,196,515
Gold in all banks, including gold certificates, and in Sub-Treasury excluding certificates.....	253,632,511	294,905,569	260,455,297	273,179,117
Leaving in hands of the people.....	200,250,181	268,170,775	303,176,159	333,017,398

Our purpose with the above statement is to locate the supply. There is no better way of testing the truth of the assumption that we possess it, than to hunt for it in its reputed hiding place. Of course if it is in the country it must be either in bank or in the Sub-Treasury, or in daily circulation or hid away in old stockings. Mr. Knox each year about the first of November receives a return of the holdings of all banks, national and State, and the Sub-Treasury publishes its figures on the first of each month. In that way a total, covering about every dollar belonging to any public depository of the country, is obtained. Hence in the above we have deducted the amount so found to be in bank and Sub-Treasury from Mr. Burchard's stock of the same date, and that leaves a remainder all of which if the Mint Bureau is not in error, must obviously be either in active circulation or hoarded. Taking for instance the statement for October, 1883, we have a balance outside of bank and Sub-Treasury of 333 million dollars. That the reader may understand just

\* We adopt November 1, 1883, for the comparison, because we have no figures for banks other than National except through the Comptroller's returns of that date.

MARCH 22, 1884.]

what that means, let us call the population of the United States 55 millions, and making the usual allowance of five persons to a family, every family must have had in its possession (not in bank) constantly (not occasionally) during the past year over thirty gold dollars! Is it necessary to add another word in proof of the inaccuracy of the Mint statement? The truth is, there is actually no gold in circulation, and the merchant is the rare exception in New York or any other city this side of the Rocky Mountains, who has seen thirty dollars in gold even through an entire month, unless drawn from bank for some special purpose, and the most of our people have not seen that amount in a year. But we repeat, a stock in the United States of 606 millions requires us to assume that each family in the country had every day of the year over thirty dollars in its constant possession, and as there is practically no gold in circulation, we are forced to the conclusion that every household has hid away on the average thirty dollars of this metal! The proposition is so utterly untenable that it would be wasting words to dwell upon it further.

We might stop our inquiry here, but we have such a clear and recent proof of one way in which the error of the Mint Bureau has occurred that it may be more satisfactory to refer to it. Our readers know the process by which this imaginary stock is determined. The total gold coinage less recoinage is accepted as the increase for the year, diminished or added to by the official record of the imports and exports, and that total is then decreased by the estimated takings of gold coin for consumption in the arts. To make the Mint process clearer we insert the following extract from a letter from Mr. Burchard to us Dec. 11, 1883, which also shows the result down to Oct. 31, 1883.

Gold in the country January 1, 1879.....	\$273,271,707
Gold coinage for the period from January 1, 1879, to November 1, 1883.....	\$287,193,524
United States gold coins re-melted .....	1,831,928
Net coinage.....	\$285,351,596
Imports of United States gold coin.....	\$40,222,999
Exports of the same.....	41,067,554
Net exports.....	\$844,555
Making a total gain of.....	284,507,041
Add bullion in the Treasury November 1, 1883.....	62,392,847
	\$620,171,595
Deduct gold coin used in arts from January 1, 1879, to November 1, 1883, (estimated).....	12,800,000
Total stock gold November 1.....	\$607,371,595

The foregoing process it will be seen contains at least two uncertain factors; one is the estimated amount of American gold coin used in the arts, and the other is the imports and exports of coin. Passing the former on this occasion, the latter is a portion of our Government statistics most liable to error of any it issues, for no consignor or consignee has any interest to disclose the fact to the Government whether his shipment or receipt is American, English or French coin or bullion, while frequently his interest is to keep it concealed. Even the bare item itself proves the truth of this assertion, and establishes its untrustworthiness, for it shows that all our exports of American coin since January, 1879, had been on November 1, 1883, actually returned to the United States except \$844,555.

But there is also direct evidence of this inaccuracy. We have on previous occasions cited erroneous classifications which have come to our knowledge in this particular, both of imports and exports, showing that the Mint's process was faulty. We have now another instance to record which occurred in the gold exports for the week ending Saturday, March 8. There were \$250,000 that went out that

week, not included at all in any of the Government statements. The Custom House first gave the week's total gold exports at \$6,177,192, and a week later it added \$450,000 as omissions; but even with its additions it was short \$250,000—the total shipments of gold that week being \$6,877,192, the portion of American gold coin being also in that amount larger.

We mention this error only to illustrate the kind of omission that of necessity becomes a part of the gold record of the Mint Bureau. The above investigation shows that the estimated stock is obviously an exaggeration, and this instance indicates one way in which it may have become very largely misleading. The item of consumption of American coin in the arts is also purely estimate, and therefore another source of error. But we forbear. Enough certainly has been said to eliminate this hypothetical stock of gold from all future discussions touching silver coinage or gold exports.

LOANS AND DISCOUNTS OF OUR BANKS.

A communication in the Boston Advertiser under the well known initials of "A. W. S." calls attention to a defect in the reports of the National banks as now issued which is well worthy of consideration. The item this correspondent wishes more in detail is that of loans, and as the writer is President of one of the largest banks in Boston, where the lessons taught by the failure of the Pacific National Bank are not yet forgotten, he speaks strongly and from a knowledge of the misconception the present mode of making returns may encourage.

The objection which is urged against the usual form of report is that it offers a cloak for covering up unsoundness. The heading "Loans and discounts" represents not only the largest item in the return, but under it we have the substance of the bank; yet in the total an overdue debt or an absolutely worthless piece of paper when included counts as much as the same amount put out on a government collateral. It is scarcely necessary to say therefore that the make up of this item is of even more importance to the public than the details of the reserve, as the latter is simply the advance guard for meeting and resisting an emergency, while ultimate safety depends wholly upon the efficiency of the former and greater fund.

But while this is true, it is by no means evident that any return can be so drawn up as to disclose the contents of the bank vault, if the party preparing the statement desires to conceal the truth. In the case of the Pacific Bank of Boston, and also of the Mechanics' Bank of Newark which failed the same year, we doubt whether any classification of the loans would have been effectual. In the latter institution, if we remember rightly, false entries were made, even forged letters from correspondents were issued indicating balances in favor of the bank which did not exist, while forged paper was put among the assets payable at places remote from the bank. In the matter of the Pacific Bank, the impairment of capital was so covered up by irregularities in the loans, that one would, we think, have to present a special schedule, only possible to prepare after examination, to bring out the real facts. It is unfortunate that such returns are possible as were made by these institutions only a very little time before their weakness was disclosed, but we should be at a loss to know what division of the item in question would have served to uncover the irregularities existing. In fact, where there is a purpose to deceive, there is no limit to the devices which can be adopted to conceal wrong acts in a published statement.

Still, the suggestions of "A. W. S." would be of use unless there is objection to the public disclosures which honest bank officials might have to make at times. He proposes that the item of "loans and discounts" should be divided into three parts, as follows. 1. The amount considered good. 2. The amount suspended, overdue and doubtful. 3. The amount overdue and unpaid for more than six months. This is not very unlike the division used under the Canadian bank law which we remarked upon a few weeks since though less specific. But in case of actual fraud we cannot, as we said above, see that there would be any great gain, for one can readily imagine how easy it would be, if the disposition existed, to cover up the special disclosures called for in any such return. All loans would be considered good to an officer of that description, and as to overdue debt he could easily keep it alive by renewal if that were necessary to retain the good standing of his bank.

Should it not likewise be remembered in discussing this question, that our banks are already subject to the visits of a public examiner, which are supplementary to and, as it were, a part of the published returns. Once a year (and oftener if he thus or otherwise finds such visits needful) the Comptroller is supposed to know whether a bank is sound or not. These examinations, though sometimes failing in their purpose in case of fraud, as every device must, there is good reason to believe are faithfully performed. Comptroller Knox has said in his reports that in very many instances the capital of a bank has been thus found to be impaired and the deficiency made good without the knowledge of the general public, and that hundreds of instances occur annually and many occur daily, wherein irregularities are discovered and corrected. Hence, when the returns are published, the depositor and stockholder read them with a knowledge of this practice. They are not left therefore wholly to the published figures for their confidence, and the history of the national banking system proves the effectiveness of these arrangements. Under such circumstances, does it not seem of doubtful wisdom or utility to enforce rules for making returns which would perhaps at times embarrass an honest manager, and yet would be in no degree effective in catching rogues?

#### THE LEGAL-TENDER AND CONSTITUTIONAL AMENDMENT.

It would certainly be unjust and premature to complain because three weeks have elapsed since the unexpected fact was communicated to the country by the Supreme Court that Congress is possessed of absolute and unlimited power over the currency—and yet that nothing has been done. But it is not premature to complain because those who should have taken up this subject with energy and determination have either neglected it altogether or brought it forward in only the most formal and perfunctory manner.

On the Monday after the decision was rendered, four propositions to amend the Constitution so as to restrict the power of Congress over the legal-tender money of the country were introduced—two in each branch. The mildest of the four measures was that of Mr. Garland, Senator from Arkansas, who would limit the issue of legal-tender treasury notes to three hundred and fifty millions, unless Congress should vote by two-thirds, as in case of a veto, to increase the amount. Next is that of Mr. Potter, Representative from New York, who wishes to prohibit the making of anything but gold and silver a legal tender, "except after a declaration of war, when the public safety may require it." Mr. Hewitt proposes the same thing, without the exception in favor of such a

measure in time of war. And, finally, Mr. Bayard, Senator from Delaware, besides going as far as Mr. Hewitt in an absolute prohibition upon Congress to make anything legal tender except gold and silver coin, adds to it "nor pass any law impairing the obligation of contracts." This is all very well as far as it goes, but that is not saying much. The two House resolutions were sent, as is required under the rules, to the Committee on the Judiciary. That was not quite the same thing as giving the matter instant and respectful interment. For there is reason to hope that a majority of the Committee will favor some sort of an amendment aimed at the power to issue fiat money, and even legal-tender notes. But manifestly any measure upon the subject of the currency stands but a poor chance of consideration in the House until after the appropriation bills and the tariff question are out of the way; and it is therefore the part of wisdom for the Senate to act first and to send down a resolution of amendment as speedily as possible, to be acted on by the other branch when the financial bills have been passed or rejected.

But it is precisely in the Senate that progress bids fair to be slow and leisurely. Mr. Garland's resolution lies on the table subject to his call. Mr. Bayard's is also on the table, and the mover proposes to speak upon it before it is even referred to the Committee on the Judiciary. No doubt the argument he will make, when he brings the matter to the attention of the Senate, will be well worth reading, but we are forced to doubt the wisdom of delaying the reference to the Committee, even if a strong Constitutional argument from Mr. Bayard is to be the compensation for the loss of time. To review the decision of the Court by way of adverse criticism is wholly idle and useless. What is written, is written. Only one of two things can be done. We must accept the decision as a final exposition of the power of Congress, making the best of it, and hoping that Congress will not act foolishly hereafter in exercising its newly-discovered power; or we must take away that power by an amendment of the Constitution. It is practical statesmanship to lend all energy to remedy the evil, wasting no time whatever in a discussion of the decision which reveals the evil to us. If Mr. Bayard, or any other Senator or Representative, or citizen, hopes for a two-thirds vote in this Congress limiting the power of that body over the legal-tenders, he must be aware that there are no votes to spare. Consequently, those who regard the decision as a wholly erroneous presentation of the law should refrain from exciting any antagonisms, and particularly to avoid giving their opponents an opportunity to take as a line of defense the finality, if not the infallibility, of a decision by the Supreme Court.

It is no easy matter to amend the Constitution. Only four amendments have been made in eighty five years, one of which was rendered necessary by the Jefferson-Burr contest, and the other three were the result of the war. The present effort will not be successful without a struggle. Every hard-money man in either House of Congress should take a constant interest in the subject. Hard-money men out of Congress should take an early opportunity to let every candidate know that they will, under no circumstances, vote for a man who will not promise to support a limitation of the power of Congress over the currency. Even after the amendment has been carried through Congress, it must go to the State legislatures; and this suggests the great importance of an early organization of the friends of coined money in every part of the country to promote the ratification of the amendment when it has been submitted to the legislatures. In fact, too great earnestness in this matter is impossible.

and no effort that will serve to promote the limitation proposed will be labor wasted.

But the first movement should be made in Congress itself. There is little need of discussion, none at all of a debate upon the soundness of Mr. Justice Gray's decision or of its reasoning. Congress possesses a power which is capable of being abused, to the detriment of every permanent interest of the country. Will Congress abdicate that power? Let there be a test of that question, and let those who appreciate the peril set it forth as vigorously as they can.

ST. PAUL'S FAVORABLE SHOWING.

The complete report of the Chicago Milwaukee & St. Paul, issued this week in pamphlet form, bears out in full the favorable anticipations raised by the company's preliminary statement, which we reviewed in our issue of February 2. The report is not only satisfactory as regards the exhibit it makes, but has the additional merit of coming to hand about a month sooner than in 1883, and two months sooner than in 1882, which we accept as evidence of a disposition on the part of the managers to give stockholders and the public earlier knowledge of the company's doings and affairs.

The surplus on the year's operations proves a little larger than stated in the first return. Our remark that the company could have realized but little from new sales of land during 1883 (since no mention of this item was made in the return, and since the company had virtually closed out its lands in the year preceding) is substantiated, but there was "income from other sources" to the amount of \$164,707, which raises the surplus from \$1,186,693, as given, to \$1,351,400—this, of course, above all charges for interest, &c., and also above 7 per cent dividends on both classes of stock. It is perhaps well to reiterate that we have made up this surplus on the basis of the dividends paid or to be paid out of the year 1883's income—not the dividends paid in the year. On the latter basis, the balance would be still more favorable, since the dividend of April, 1883, being on a smaller amount of stock, called for less than does that for April, 1884. With this item of miscellaneous receipts in our possession, we bring forward again the table given in our article of February 2, and change the balance so as to make it embrace in each year this miscellaneous income—it being always understood that the column of "dividends" represents dividends paid out of the earnings of the year in which they appear.

Year.	Mileage end of yr.	Gross Earnings	Operating Expenses	Net Earnings	Interest Paid.	Dividends.	* Balance
		\$	\$	\$	\$	\$	\$
1879.....	2,359	10,012,820	5,473,795	4,539,025	2,357,407	1,783,819	466,866
1880.....	3,775	13,086,119	7,742,426	5,343,693	2,918,381	1,912,237	807,370
1881.....	4,217	17,023,461	10,317,931	6,707,530	4,127,389	2,210,617	1,004,832
1882.....	4,523	20,386,726	12,186,073	8,200,653	4,784,053	2,794,988	1,243,425
1883.....	4,760	23,659,823	13,778,038	9,881,785	5,373,925	3,321,167	1,351,400

\* Including miscellaneous income, which in 1879 amounted to \$69,057; in 1880 to \$324,293; in 1881 to \$635,308; in 1882 to \$623,813; and in 1883 to \$164,707.

It is scarcely necessary to call attention again to the great progress that the company has made within recent years, as shown by the above figures of gross and net earnings, but we may note that the past year records a larger surplus than any other, even though miscellaneous income (mainly because of the disappearance of land sales) was only \$164,707, against \$623,813 and \$635,308 respectively in 1882 and 1881. This surplus remained, too, it will be seen, after the company had paid out nearly \$8,700,000 for interest and dividends—that is to say, it was able to meet this large charge (in 1879 the amount was less than \$4,200,000) and yet carry forward a surplus of nearly 1½ million dollars. This relates simply to the results of operations for the year 1883. The total accumu-

lated surplus to date is quite another thing. This, according to the report before us, amounts to \$5,079,079. The casual reader may, however, misunderstand that item. The company in reality does not claim to have any such accumulated surplus. The five millions is merely the difference between the receipts and outgoes up to the 31st of December, 1883. It is irrespective of certain current liabilities which are a charge against income and which should be deducted to obtain the actual surplus remaining. Thus on the next day after the accounts were closed, the company had a large amount of maturing interest to meet (almost the whole of the funded debt having January and July as its interest periods), and this of course would diminish the surplus about \$2,750,000. Then, the dividend payable in April (\$1,660,000) was dependent upon 1883's earnings, and has been declared out of that year's income. If we allow for both these items, there is still left about \$670,000, which, strictly speaking, is the real surplus. If this seems a small balance, it should be remembered that three months' earnings will be received before the dividend is payable, and furthermore that a year ago \$3,550,974 of surplus profits were applied to the payment of 71,019 shares of stock sold to stockholders at 50 cents on the dollar, which was practically equivalent to a stock distribution to the extent of the remaining 50 cents.

The satisfactory features in the present report, however, are not confined simply to the operating results of the year. The improvement that has been made in the floating debt is perhaps even more striking. A year ago the size of this debt gave many of the friends of the company much concern, though the officials apparently did not share this anxiety. The sum total then was over seven millions and the offsets against it, apart from \$2,969,732 cash held (which had to be applied almost in full the next day to the payment of maturing interest), were either insignificant or disputed. This year the gross amount of the debt is only \$3,443,787, and the company held \$3,048,965 cash, and \$1,550,232 of bills receivable and balances due it. Even after allowing for the interest maturing the 1st of January, which this year must have been about \$2,750,000, there is left only about 1½ millions of the whole sum unprovided for.

As to the company's bonded debt, the additions during the year were as stated in our article of February 2. The increase amounts to \$6,636,500, and the total of the debt now reaches \$96,272,000. In speaking of the St. Paul, critics invariably single out this feature for adverse comment and dilate upon the extent of these funded obligations. That the aggregate of the debt is very large is of course an indisputable fact. And yet it is possible to lay too much stress upon that point. The debt covers a mileage of 4,760 miles of completed road, which would give an average of only a little more than \$20,000 per mile—a figure that will not be considered high, and certainly looks small alongside of the per-mile indebtedness of many other companies. It is to be noted also that the total capitalization of St. Paul, stock and all (the stock being \$30,904,261 common and \$16,540,983 preferred), is only at the rate of \$30,192 per mile. But the most important consideration with regard to the debt of the road is, that it constitutes the sole and only charge against net earnings preceding dividends. In the case of most large companies, the charge for rentals of leased lines is almost as heavy, if not heavier, than the direct charge for interest. We may mention, in illustration, the Delaware Lackawanna & Western, a company whose own funded debt calls for only \$283,000 a year, and yet it takes care of a vast amount of debt on leased roads whose interest it pays in the shape of rentals, the sum of which in 1883 reached \$4,663,800. This we state, not as

evidence of weakness on the part of the Lackawanna, but to show the difference between it and the St. Paul, the latter's direct debt being large simply because its indirect debt is nothing. It is to this distinction that Mr. Mitchell refers when, after stating that the whole 4,760 miles of road operated by the company is also owned by it, he remarks: "No part of it is held upon leases on which rents are reserved, and the property is only encumbered by the bonded debt above mentioned. The company has never guaranteed the bonds or indebtedness of any other company and has no contingent liabilities of any kind or description."

With the increase that has taken place in the company's indebtedness, there has come of course an increase in the yearly requirements for interest on the same, as we have before remarked. The table above tells what the increase has been in the past, and, bearing upon the future, we may say that the call for this purpose has not yet reached its maximum. The complete figures of the debt given in the report enable us to make more exact calculations on this point than was possible in our previous article. On the debt outstanding the first of January the annual requirement for interest is \$5,967,533, which would be \$593,608 more than was actually paid in the past year. If the company should have to meet an increase of this amount in 1884, which, for reasons stated in our former article, is perhaps unlikely, the operations of 1883 would leave a margin of \$1,351,400 with which to do it.

#### MR. GLADSTONE'S HEALTH AND A CHANGE OF POLICY.

During the course of the past week, there have been strange, and sometimes conflicting, rumors regarding the condition and prospects of the Gladstone Cabinet. The Prime Minister's absence from recent Cabinet meetings is a known fact. Naturally enough it has led to much conjecture; and the explanations have been as varied as they have been numerous. Amid the mass of conjecture two things seem certain: The one that Mr. Gladstone is not well, the other that there is dissension in the Cabinet.

Whether the absence of the Prime Minister from the Cabinet meetings is wholly due to the condition of his health or in part to differences with his colleagues, is perhaps doubtful. Whatever be the true explanation, his absence from his place in the House of Commons in the present condition of public affairs is a fact which lends a certain amount of gravity to the situation. Later reports announce an improvement in Mr. Gladstone's health; but if it should still be necessary for him to seek for a time the milder air of the south of France, it is impossible but that the programme of business which was announced at the opening of Parliament will be seriously disturbed. There is but one man in England at present who can regulate and control the movements of that complex machine called the Liberal party; and that man is Mr. Gladstone.

It is safe, we think, to say that whatever truth there may be in the statement that he is about to retire temporarily from the scene of active duty, while still retaining his post as Premier, we cannot think that there is any likelihood of any immediate dissolution of Parliament and consequent appeal to the constituencies. The Government is strong with the strength of a powerful majority; and although there may be a pronounced anti-Government feeling on certain subjects outside the House, it is with the feeling of the House that the Government has to do. On two great questions—the policy pursued in Egypt, and the policy pursued in Ireland—the strength of the

Government was fairly tested; and on both questions in the most unmistakable manner it was sustained. Nothing has occurred since to change this feeling. On the contrary the success which has attended General Graham so far has in some measure soothed the public mind; and there is no good reason to believe that a second test vote on the Egyptian question, if the Government presented a united front, unless some great disaster should occur, would be difficult or less doubtful. On the Irish question the feeling remains what it was.

The main difficulty, it would appear, exists inside the Cabinet itself. If rumor at all speaks the truth, Mr. Gladstone and his colleagues, while agreed on all the points presented in the new Reform bill, on the policy to be pursued with regard to Ireland, and on all other questions of immediate public interest, are divided in their views regarding Egypt. Mr. Gladstone's plans with regard to Egypt are well known. They are in harmony with the views which have long been popular with the more extreme section of the Liberals, with the surviving members of the old Manchester school, such as John Bright and one or two others, and with some younger men who have imbibed their lessons from that school, such as Mr. Chamberlain and Sir Charles Dilke. Mr. Gladstone is opposed to the re-conquest of the Soudan. He is opposed to anything which would seem like the permanent establishment of British authority in Egypt. He is willing for the time, at least, that the British Government be the guardian and receiver of Egypt, and he is resolved for the sake of trade to adopt measures for the permanent defense of the Red Sea Littoral; but further he is unwilling to go. The Whig members of the Cabinet, of whom Lord Hartington is the leading representative, following the traditions of their party, are in favor of a policy at once more pronounced and more vigorous. According to them, every step which has been taken during the last four months, not to speak of the delays and the uncertainties of the war in Lower Egypt at the beginning of the trouble, has been a fresh blunder. They are not unwilling to abandon Kordofan and Durfar, and the greater part of the country lying to the west of the Nile; but Sennar and the Eastern Soudan they would hold for the Khedive; and to make an end of that distrust which has ruined trade and industry in Egypt proper, they would guarantee absolute protection to the whole region of the Delta, by means of a British garrison, for a fixed and satisfactory length of time. The question now is, which of these views shall prevail in the Cabinet.

Mr. Gladstone has quite recently declared that there would be no change in that part of the Ministerial programme which related to Egypt. It is an open question, however, how far this determination would be affected by his temporary retirement. It is just possible that in his absence Lord Hartington, aided by Lord Granville and Sir William Harcourt, would be able to push matters in Egypt with greater vigor, and with a less scrupulous regard to tender consciences. If Mr. Gladstone's temporary retirement on the ground of ill health should not be necessary, and the opposition in the Cabinet should become obstructive, it will be competent for the Prime Minister to reconstruct his Cabinet and pursue his own policy. It is not an impossibility that Mr. Gladstone, consulting his own health and comfort, should resign; but with the Reform bill on hand, such a course is only conceivable on the supposition of positive and dangerous illness. In the event of his resignation, the presumption is that the seals of office would be placed in the hands of Lord Hartington; and even in such an emergency, it is well to bear in mind that, in the present condition of parties in

MARCH 22, 1884.]

the House, a dissolution and an appeal to the constituencies would be unnecessary. Sometimes things are allowed to drift, and sometimes they drift successfully. If General Graham should succeed in breaking the power of El Mahdi, the Egyptian policy may yet shape itself to the satisfaction of all, and without any radical change in the Government. However matters may end, there can be no doubt that a policy of greater energy and purpose in the earlier stages of this Egyptian difficulty would have prevented a world of trouble.

**NEW YORK STATE RAILROAD REPORT.**—We have several times had occasion to call attention to the useful work our State Railroad Commission was rendering in various ways. We have now to commend them for the promptness and efficiency they have displayed in preparing their annual report. When the Commission was created, the duty of preparing this report, which formerly had devolved upon the State Engineer, was placed in their hands. The task had previously been but imperfectly accomplished. The figures and data were thrown together in a mechanical and haphazard sort of way, and, to further detract from the value of the report, with each succeeding year the volume was more and more delayed, till finally it came out sixteen months after the close of the period to which it related, of course being destitute of all interest and throwing discredit upon that State supervision which tolerated such a state of things. Moreover, to reduce the labor of getting out the report, the process of wholesale and indiscriminate condensation was adopted in the later reports, till one of our contemporaries in sheer disgust was moved to remark that the report was not only late in coming to hand but was a sham when it did come.

In marked contrast to the tardiness and inefficiency that distinguished the old system, we have the celerity and general satisfactoriness that characterize the new. The present report is the first issued since the change, and is in two volumes. The first volume was a review of the proceedings of the Commission during the twelve months of its existence and was published soon after the opening of the year. The second volume contains the complete tabular statements which the railroads are by law required to make, and was put in our possession, bound and printed, in the first part of the current month. As the railroads have until near the close of December in which to file their returns, the work of preparing, arranging, printing and publishing the report was pressed into a space of about eight weeks. Much of the extreme delay under the old system was no doubt due to the time consumed in getting the document through the printing office, but it is to be noted that we now have the report in printed form at an earlier day than that at which the work of mere compilation was formerly completed—the State Engineer having usually submitted his report to the Legislature about the 1st of April.

The present report, too, shows much skill in the arrangement of the tabular matter in a useful and convenient form, and gives other evidences of the presence of a guiding spirit of some intelligence. We understand that this part of the Commissioners' work is under the special charge and direction of Mr. John O'Donnell, to whom also the public is largely indebted for the system of quarterly returns lately put into force. If that is so, then this is a particularly gratifying feature, for Mr. O'Donnell was deemed by the community the least satisfactory member of the board at the time of the appointment of the Commissioners. In his decisions Mr. O'Donnell has not always displayed that rigid impartiality that should characterize the judge in actions against the railroads, but he has been a most efficient and trustworthy member—agreeably disappointing the expectations entertained with regard to him—and we only wish that the public service contained a few more such useful men.

**NATIONAL BANKS.**—The following national bank has lately been organized:

3.138—The Galesburg National Bank, Illinois. Capital, \$100,000. W. W. Washburn, President; J. H. Losey, Acting Cashier.

**IMPORTS AND EXPORTS FOR THE WEEK.**—The imports of last week, compared with those of the preceding week, show a decrease in both dry goods and general merchandise. The total imports were \$8,023,057, against \$9,626,819 the preceding week and \$8,239,074 two weeks previous. The exports for the week ended March 18 amounted to \$6,107,266, against \$5,339,440 last week and \$5,046,465 two weeks previous. The following are the imports at New York for the week ending (for dry goods) March 13, and for the week ending (for general merchandise) March 14; also totals since the beginning of first week in January:

**FOREIGN IMPORTS AT NEW YORK.**

For Week.	1881.	1882.	1883.	1884.
Dry goods.....	\$2,985,818	\$3,410,504	\$3,449,811	\$2,636,178

**Bankers' & Merchants' Telegraph Co.**—At a meeting of the board of directors held March 19, the following resolution was adopted:

*Resolved*, That a million dollars of the capital stock of this company (making a total issue of three million dollars) be issued, and that stockholders of record April 18, 1884, shall have the privilege of taking the same at par in cash, in the proportion of one share of the new issue for every two shares then held by them, respectively, payment to be made and stock delivered on Monday, April 21, 1884, on which day the option to subscribe shall expire.

**Connotton Valley.**—The Boston *Herald* reports that the plan of re-organization has been substantially agreed upon by the combined committees representing the bondholders and stockholders. The present 1st mortgage bonds and coupons and interest on the coupons to May 1, 1884, will be converted into preferred stock at par, and will amount to about \$6,500,000. The present common stock will be converted into new common stock at 50 per cent of its par value, par for the old being \$50 and of the new \$100, that is to say, one new share at \$100 will represent four old shares at \$50. This will reduce the \$5,000,000 common stock to \$2,500,000. The old preferred stock will also be converted into new common at 60 per cent of its par value, now \$50, but to be \$100. There will be three new shares at \$100 for ten old ones at \$50. There are now \$885,000 preferred. It will be particularly stipulated that the preferred stock shall receive all earnings above operating expenses and fixed charges to the amount of 50 per cent, and that there shall be no extensions of the road or other similar and extraordinary expenditures to create a lien above the preferred stock, except by a two-thirds vote of the preferred shareholders. It is not yet settled just what provision will be made for the terminal trust, car trust and equipment indebtedness, but it is probable that a mortgage will be issued for \$1,000,000 at 6 per cent, and the terminal and car trust securities be exchanged for it at par and the equipment at a possible sacrifice. The amount of this indebtedness is about \$850,000. The road could probably take care of a \$1,000,000 mortgage and perhaps show a surplus.

**Ohio Central.**—At Charleston, W. Va., March 15, Judge Jackson, of the United States District Court of West Virginia, rendered his decision, extending the power of Thomas R. Sharpe as receiver over that portion of the Ohio Central Railroad lying between Corning, O., and the Ohio River. In the three cases of Nelson Robinson et al., Owen and Johnson, and the Central Trust Company of New York, against the Ohio Central Railroad, the question involved was a conflict of jurisdiction between the United States District Court of West Virginia and the United States District Court of Southern Ohio.

**Ohio & Mississippi.**—The decree of the United States Circuit Court in Illinois provides that Receiver J. M. Douglas shall deliver to the company 415 bonds and their coupons, secured by a mortgage on the Flora & Beardstown Branch. The receiver is also to surrender possession of the roadbed and its equipment to the company as soon as a written consent to the dismissal of the foreclosure suit and a \$500,000 bond to provide for the payment of all debts incurred during the receivership shall be filed.

**Portland & Ogdensburg.**—At Portland, Me., a bill in equity has been filed against the Portland & Ogdensburg Railroad Company in the Supreme Court by the trustees under the mortgage of 1871 for possession of the road by the trustees and the appointment of a receiver. Mr. Putnam, counsel for the trustees, says the bill in no way reflects on the management of the road; that this movement will not cause any securityholder to part with his securities at any diminished price; that the emergency calling for this action has come on very suddenly, and that when a motion is heard for the appointment of a receiver, he believes it will be conceded by all that the course the trustees have taken is prudent.

**Richmond & Allegheny.**—At a meeting of the first-mortgage bondholders of the Richmond & Allegheny Railroad, \$1,211,000 first-mortgage bonds were represented. The following basis of settlement was proposed in place of that submitted by the Richmond & Allegheny officials in their proposed plan dated Nov.

15 last: "Half the interest on the first-mortgage bonds for four years from July 1, 1883, to Jan. 1, 1887, both inclusive, to be paid semi-annually in cash, commencing July 1, 1884; payment of the remaining half to be deferred a reasonable time without surrender of the first-mortgage securities of the same, with interest at 5 per cent, payable semi-annually on such deferred amounts as run from the dates on which they originally matured, provided that in any scheme of reorganization arranged on the basis we propose, there shall be embraced proper guarantees for the due and punctual enforcement of the conditions thereof." A committee consisting of Messrs. George Buckingham, Crowell Hadden and George Arents was appointed to carry out the provisions of the foregoing resolution.

**Shenango & Allegheny.**—On the application of English stockholders Mr. John Fowler Powell has been appointed Receiver of the Shenango & Allegheny Railroad, which extends through Mercer & Crawford counties, Pa., a distance of 46 miles.

**Sinaloa & Durango.**—The Boston *Transcript* says that the Sinaloa & Durango Railroad was organized to build a railroad in Mexico from Altata, on the Gulf of California, 250 miles east to Durango upon the line of the Mexican Central. The subscription was first taken to build 40 miles of road from Altata to Culiacan, and the company promised, for \$2,700, a block of \$3,000 first-mortgage bonds and \$3,000 stock. Nearly \$540,000 was paid in and the company proceeded with construction. The subsidy was \$8,000 per kilometre, or substantially \$12,000 per mile, and was so promptly paid by the Mexican Government that when more money was needed the stockholders advanced (January, 1882), \$200,000 upon a one-year 7 per cent loan, taking a bonus of 100 per cent of stock and the subsidy receipts as security. The subsidy repaid this loan within the year. Besides the \$540,000 of subscribers' money expended, the company collected and expended over \$200,000 of the Government subsidy, and negotiated the other \$209,000 subsidy with Mexican bankers at only 7 per cent discount, and spent the proceeds of this also, nearly \$1,000,000 in all having gone into the construction of the road. As the company has no means for further construction, the subscribers were to be asked to surrender all their rights—the securities having never been delivered—allow the property to be turned over to the parties to whom it has become indebted, and receive in consideration exemption from personal liability.

A circular issued by the company asks holders of rights to allow the company to use the securities as pledges for a loan.

**Toledo Cincinnati & St. Louis.**—Mr. W. J. Craig, receiver of the Toledo Cincinnati & St. Louis Railroad, has filed his reports for December and January in the clerk's office of the United States Court. The report for December shows total receipts \$179,316, including \$32,012 on hand December 1. In January receipts were \$136,313, including \$55,710 on hand January 1. Cash balance on hand January 31 was \$33,309.

**Virginia State Bonds.**—Messrs. J. A. Hambleton & Co., Baltimore, say in their circular: "The Virginia Legislature is expected to adjourn to-day. As we have informed our readers, there were many bills introduced relating to the debt question, but the only ones which have passed—both of which require the signature of the Governor to make them laws—is the bill requiring all license taxes to be paid in money instead of coupons as formerly, and the bill which amends coupon-killer No. 1, so as to give the holders of 10-40 coupons the same rights as are possessed by the holders of consol coupons, viz., to prove and collect them. Coupon-killer No. 1 formerly provided only for the proving and collecting of consol coupons. This latter bill is favorable to the holders of Virginia 10-40s."

—Attention is called to the notice in our advertising columns of the Iron Mountain Company of Durango, Mexico, for additional capital to enable it to increase its capacity for manufacturing iron from the vast deposits of ore which lie above ground and form the celebrated Iron Mountain of Durango. This company was organized under the laws of the State of New York in 1881, and embraces the names of Wm. L. Helfenstein, President, and Joseph Knotts of Council Bluffs, Iowa, Vice-President. Owing to the high price of manufactured iron in Mexico, caused by the high tariff and heavy cost of transportation, and to the well attested richness of its claim in both quality and quantity, the promoters state that this company is well entitled to attract the attention of investors as an enterprise worthy of examination.

—The New England Mortgage Security Company of Boston, which has successfully placed its bonds to the amount of about \$2,500,000 since its organization in 1875, has now for sale a part of the issue, series "F," which bear 5 per cent interest. The capital of the company, as also the proceeds of the sale of its bonds, are invested in well-selected farm mortgages, and on Jan. 1, 1884, the company had loans on its books of \$3,933,385, secured by first mortgage on 839,337 acres of land, estimated to be worth \$9,999,921. The company's card is in the INVESTORS' SUPPLEMENT.

**Auction Sales.**—The following, seldom or never sold at the Stock Exchange, were sold at auction this week by Messrs. Adrian H. Muller & Son.

St. Louis Alton & P. H. pref.	7	May 1	

NEW YORK, FRIDAY, MARCH 21, 1884-5 P. M.

**The Money Market and Financial Situation.**—The general mercantile and industrial lines of business throughout the country, though showing considerable increase in volume, as would naturally be expected at this season of the year, are still in an unsatisfactory condition in the fact that profits are exceedingly small. Interior and country merchants, while holding much smaller stocks than usual, are also buying very sparingly, and the general distribution of goods is not equal to that of past years. Mercantile credit, however, throughout the country stands well, and there was never a better demand from banks for good mercantile paper for discount than at present.

The earnings of the great trunk lines of railroad in the West and Northwest have been very much diminished in the last few weeks by bad weather, but the comparison with the corresponding period of last year is also unfavorable because the traffic conditions then were better than they are now, and, further, Northwestern roads were then carrying a large amount of freight that had been delayed in previous months. The last reported earnings of the St. Paul, the Northwest and the Omaha all show a falling off for this reason. In the case of the Union Pacific, whose January exhibit recording a loss of over \$600,000 was made public this week, there was the additional circumstance of an intense competition with the Burlington & Quincy and the Denver & Rio Grande.

The export movement of specie has diminished, temporarily at least. The exports from New York thus far this week reach less than \$1,000,000, making a total of about \$10,000,000 exported since February 21, when the movement began. The reduction of 15 cents per 100 pounds (10 cents previously and 5 cents more this week) in the rates of East-bound freights from Chicago by the trunk line railroads, is equivalent to a reduction of 9 cents per bushel in the price of the wheat stored in the Western markets, and if this difference is not neutralized by an equal speculative advance in the Western prices, it should facilitate the movement of grain to the seaboard and the foreign markets, and to just the extent that breadstuffs went out of the country further shipments of gold would be avoided. To some extent, however, the reduction in freights is only nominal, as previous to the official reduction rates had been cut by some of the leading lines.

The money markets, both in New York and in the interior cities, are still over supplied with loanable funds, and rates for all classes of loans and discounts remain at low figures. In the New York market the rates for call loans on stock collaterals have continued at 1½ and 2 per cent per annum (the bulk of transactions being at the higher figure), and time loans on good dividend-paying stocks for any period less than 9 months are still obtainable at from 3½ to 4 per cent. Discounts of mercantile paper remain at 4 and 5 per cent for first-class double names for 60 days and 4 months, and 5 and 5½ for single names. Nevertheless, it is apparent that the export movement of specie is reducing the reserve of the New York banks to a point where it must soon affect their ability to loan.

The weekly statement of the Bank of England on Thursday showed a gain of £1,619,000. The reserve in the Bank was increased to 47 1-16 per cent from 43 7-16 per cent last week. The Bank rate of discount remained unchanged at 3 per cent. The Bank of France gained during the week 2,975,000 francs in gold and 2,600,000 francs in silver. The Bank of Germany lost 2,200,000 marks in specie.

The following table shows the changes from the previous week and a comparison with the two preceding years in the averages of the New York Clearing House banks.

	1884. Mar. 15.	Differ-ences fr'om previous week.	1883. Mar. 17.	1882. Mar. 18.

\* Deficit.

**Exchange.**—The foreign exchange market has been firmer but very dull during the past week, and on Monday the posted rates were advanced ½ cent on the £ to 4 88 and 4 90½, against 4 87½ and 4 90 a week ago. The rates for actual business on Friday, the 21st, were as follows, viz.: Sixty days, 4 87½@4 87½; demand, 4 89½@4 89½; cables, 4 90@4 90½. Commercial bills continue comparatively scarce at 4 85½@4 86. Continental bills have been firm throughout the week.

Quotations for foreign exchange are as follows, the prices being the posted rates of leading bankers:

	March 21.	Sixty Days	Demand.
Prime bankers' sterling bills on London	4 88		4 90½
Prime commercial	4 86½		-----
Documentary commercial	4 85¾		-----
Paris (francs)	5 16½		5 14¾
Amsterdam (guilders)	4 0¼		4 0¾
Frankfort or Bremen (reichmarks)	95¼		96

**Coins.**—The following are quotations in gold for various coins:

Sovereigns	\$4 84 @ \$1 83	Silver ½s and ¼s	— 99¼ @ par.
Napoleons	3 85 @ 3 90	Five francs	— 92 @ — 94
XX Reichmarks	4 74 @ 4 78	Mexican dollars	— 87 @ — 88
X Guilders	3 96 @ 4 00	Do uncommere'l.	— 86¾ @ — 87½
Spain's Doubloons	15 55 @ 15 75	Peruvian soles	— 82 @ — 82½
Mex. Doubloons	15 45 @ 15 60	English silver	4 77 @ 4 82
One silver bars	1 11¼ @ 1 12½	Prus. silv. thalers	— 68 @ — 70
Fine gold bars	par @ ¼ preu	U. S. trade dollars	— 90 @ —
Dimes & ½ dimes	— 99½ @ par	U. S. silver dollars	— 99¼ @ par.

**United States Bonds.**—There has been an increased demand for government bonds at advancing prices, the 4½s being ½ and the 4s ¾ higher than a week ago.

The closing prices at the N. Y. Board have been as follows:

	Interest Periods.	Mch. 15.	Mch. 17.	Mch. 18.	Mch. 19.	Mch. 20.	Mch. 21.
4½s, 1891	reg. Q.-Mar.	113¾	113¾	*113¾	113½	*113½	*113½
4½s, 1891	coup. Q.-Mar.	113¾	*113¾	*113¾	*113¾	*113¾	*113¾

\* This is the price bid at the morning board; no sale was made.

**State and Railroad Bonds.**—There has been a decided improvement in the market for railroad bonds during the last week. There has been a larger volume of business, and prices have generally advanced under what appears to be largely a legitimate investment demand for the better class of such securities, as well as an increase of speculation in the low-priced bonds. The various issues of the Western trunk-line roads have been conspicuous in the rise. The largest advance, however, was in Oregon & Trans-Continental firsts. Incident to this, we learn the Oregon Railway & Navigation Company has negotiated \$3,000,000 of a new loan, and that with the proceeds it will at once complete its line to a connection with the Oregon Short Line of the Union Pacific. The Canada Southern is also said to have negotiated this week the entire \$6,000,000 of its issue of 5 per cent second mortgage bonds. The West Shore 5s have been more active and higher, though no definite action appears yet to have been taken on the financial plan for the relief of the company.

A comparison of closing prices with the final figures of Friday last shows an advance of 1¾ in Burlington & Quincy debentures; 1½ in Canada Southern firsts; 2½ in do. seconds; 1½ in Central Iowa (Eastern Division) firsts; 2 in Chesapeake & Ohio firsts, series B; 3 in do. currency 6s; ¾ in Erie second consols; 3 in Green Bay Winona & St. Paul incomes; 2¼ in International & Great Northern 6s; 2 in Jersey Central debentures; 1½ in Missouri Kansas & Texas general mortgages; 2 in Louisville & Nashville general mortgages; 1¾ in Metropolitan seconds; 1½ in Milwaukee & St. Paul, Chicago & Pacific (Western Division) 5s; 2¼ in New York & New England 7s; 1½ in Chicago & Northwestern consols; 1½ in do. debenture 5s; 1¾ in Northern Pacific firsts; 4 in Oregon & Trans-Continental firsts; 2 in Rome Watertown & Ogdensburg 5s; 3¼ in Texas & Pacific land grant incomes; 2½ in do. Rio Grande Division firsts; 2½ in Wabash general mortgages; 1½ in New York West Shore & Buffalo 5s; 2 in Fort Worth & Denver City firsts; 1½ in Shenandoah Valley firsts; and 2½ in do. general mortgages.

State issues were quiet during the week, transactions having been confined to Tennessee compromise bonds at 49, 50, 49½, North Carolina 4s at 85¾ and South Carolina 6s non-fundable at 3.

**Railroad and Miscellaneous Stocks.**—Notwithstanding the diminished current earnings of the principal Western trunk lines, and the enormous reduction of 50 per cent in the last two weeks in the tariff rates on East-bound grain, provisions, meats, &c., by the Eastern trunk roads, the stock market has been held comparatively firm by the leading operators embarked on the bull side. They have received some encouragement from the fact that the roads in the Northwestern Traffic Association have settled their differences and reorganized the association, and also in the fact that the Burlington & Quincy and the Union Pacific have submitted matters in dispute to committees of the respective roads. There has, however, been no attempt to advance prices, and such gain as there has been has resulted as much from an increasing scarcity of floating stock in the market and the unwillingness of the bears to put out large lines of shorts, as from any other cause. The general public are taking very little interest in stocks, and the market has been left entirely to the manipulations of the professional speculators and the room traders. The principal stocks that show an advance for the week are Burlington & Quincy, Colorado Coal, Kansas & Texas, Lake Erie & Western, the Northern Pacific group, Pacific Mail, Peoria Decatur & Evansville, Pullman Palace Car, St. Paul & Manitoba and Texas & Pacific. Those showing a decline are Lackawanna, New York Central, Reading and Union Pacific.

NEW YORK STOCK EXCHANGE PRICES FOR WEEK ENDING MARCH 21, AND SINCE JAN. 1, 1884.

Table with columns: STOCKS, HIGHEST AND LOWEST PRICES (Saturday, Monday, Tuesday, Wednesday, Thursday, Friday, March 15-21), Sales of the Week (Shares), Range Since Jan. 1, 1884 (Lowest, Highest), and For Full Year 1883 (Low, High). Rows include RAILROADS (e.g., Atchafalpa, Boston & N.Y. Air-Line), MISCELLANEOUS (e.g., American Tel. & Cable Co.), and INACTIVE STOCKS (e.g., Albany & Susquehanna).

## AND RAILROAD INTELLIGENCE.

The INVESTORS' SUPPLEMENT contains a complete exhibit of the *Funded Debt of States and Cities and of the Stocks and Bonds of Railroads and other Companies.* It is published on the last Saturday of every other month—viz., February, April, June, August, October and December, and is furnished without extra charge to all regular subscribers of the CHRONICLE. Extra copies are sold to subscribers of the CHRONICLE at 50 cents each, and to others than subscribers at \$1 per copy.

### ANNUAL REPORTS.

#### Chicago Milwaukee & St. Paul.

(For the year ending December 31, 1883.)

The annual report of this company for the year 1883 has just been issued and makes a very favorable exhibit. The changes in the stocks and bonded debt during the year were as follows:

Common stock at date of last report.....	\$27,904,261
Issued on vote of st'holders at annu'l meeti'g in June, '83.....	3,000,000
<b>Total common stock.....</b>	<b>\$30,904,261</b>
Preferred stock at date of last report.....	\$16,447,483
Issued in 1883, in exchange for first mortgage—	
La Crosse Division bonds.....	\$93,000
For River Division, sterling bonds.....	500
<b>Total preferred stock.....</b>	<b>\$16,540,983</b>
<b>Total bonded debt at date of last report, including all liens on purchased roads.....</b>	<b>\$89,635,500</b>
Issued and sold in 1883—	
Hastings & Dakota Div. Extension.....	\$390,000
Chicago & Pacific, Western Div.....	3,360,000
Wisconsin & Minnesota Div.....	1,420,000
Land grant bonds, 2d series.....	1,600,000
<b>Total.....</b>	<b>6,770,000</b>
<b>Less land grant bonds, 1st series, redeemed.....</b>	<b>\$40,000</b>
Exchanged for preferred stock—	
La Crosse Division bonds.....	93,000
River Division sterling bonds.....	500
<b>Total bonded debt.....</b>	<b>\$96,272,000</b>
Increase during the year.....	\$6,636,500

The entire cost of the company's property is represented by a total capitalization, in stock and bonds, of \$143,717,244 for 4,760 miles of road, being at the rate of \$30,192 per mile.

#### EXTRAORDINARY EXPENSES.

There have been purchased and added to the equipment of the company in 1883 cars and locomotives costing \$865,407. There have also been expended, for new buildings and other property, \$758,725, making the total extraordinary expenditures \$1,624,132.

At the date of the last report the company owned, 4,520 miles of road. During the year 1883 there have been constructed or purchased 240 miles.

In the Territory of Dakota.....	146 miles.
In extension of the Southern Minnesota Division, from Howard to Woonsocket Junction.....	38 miles.
From Letcher to Ashton, in the James Riv. Valley.....	81 do
And in extension of the Hastings & Dakota Division, from Aberdeen west to Ipswich.....	27 do
<b>In the State of Iowa.....</b>	<b>146 miles.</b>
From Sigourney to Ottumwa.....	26 miles.
From Cedar Rapids to Amana.....	21 do
And from Okoboji to Spirit Lake.....	3 do
<b>In the State of Wisconsin.....</b>	<b>50 miles.</b>
From Eau Claire to Chippewa Falls.....	12 miles.
From North La Crosse to Onalaska.....	4 do
And from Iron Ridge Junction to Fond du Lac.....	28 do
<b>Length of road at last report.....</b>	<b>4,520 miles.</b>
Making the present mileage of the road.....	4,760 miles.

"All of which is owned by the company. No part of it is held upon leases on which rents are reserved, and the property is only encumbered by the bonded debt above mentioned. The company has never guaranteed the bonds or indebtedness of any other company, and has no contingent liabilities of any kind or description.

"Since the last report 420 miles of new steel rails have been laid, 213 of which were on the new road constructed and 207 miles in renewal of track in place of iron rails taken up.

"The 81 miles of road constructed in Dakota, from Letcher to Ashton, make a continuous line in the James River Valley from Yankton, by way of Mitchell, through Aberdeen to Ellendale, a distance of about 250 miles, reaching a point within 65 miles of Jamestown, on the Northern Pacific. The 38 miles constructed from Howard City to Woonsocket are an extension of the Southern Minnesota line to a connection with the James River Valley line. By means of these additions, all the lines of the company in Dakota are connected.

"The rapidity of the settlement of Dakota is a marvel of the times. During the last year over 12,000,000 acres of land were taken up for cultivation by settlers, and from present advices we have every reason to believe that the immigration the present year will equal that of the past. The lines in Dakota, although mostly built in advance of settlements, will at an

early day be supplied with an abundance of traffic, the product of the rich prairies, through which they run, now peopled by an energetic and thrifty race of settlers."

The comparative statistics for four years, compiled for the CHRONICLE, are as follows:

	1880.	1881.	1882.	1883.
Miles owned.....	3,775	4,217	4,520	4,760
Locomotives.....	425	527	626	657

† \$3,550,974 of income balance applied towards payment for 71,019 shares common stock taken by shareholders at par.

#### Southwestern (Gould) System of Railroads.

(For the year ending Dec. 31, 1883.)

The brief pamphlet report of these companies has been issued this week. The remarks were quoted in the CHRONICLE of March 15, page 331.

The net results of the operations of each road for the year is shown in the table below, which gives the net gain or loss in the income account after charging off all liabilities. The "debit" account, as in Wabash, Missouri Kansas & Texas and Texas Pacific, indicates a deficiency in income carried forward from year to year; with St. Louis & Iron Mountain a deficiency of \$109,921 last year is changed to a surplus of \$936,573 this year.

#### BALANCES OF INCOME ACCOUNT.

	Jan. 1, 1883.	Jan. 1, 1884.	Gain in the year.	Loss in the year.

**Galveston Houston & Henderson.**

This road was only operated under lease to the International & Great Northern in 1883, having been foreclosed in 1882. No report of earnings in 1882 has ever been published; in 1881 gross earnings were \$327,652 and operating expenses \$340,665. It is but 50 miles long, and forms the only outlet of the Gould system to the city of Galveston; but the road was in poor condition when foreclosed, and large expenditures have probably been made on the property. In 1879 the gross earnings were reported at \$536,838 and operating expenses only \$307,287, leaving net earnings \$229,551.

**Illinois Central Railroad.**

(For the year ending December 31, 1883.)

An abstract of the annual report, including income account and balance sheet, was published in the CHRONICLE V. 38, p. 237. The year 1883 is the first in which the earnings of the Southern Line have been included with the balance of the system, but a statement of all lines for 1882 is presented to make a proper comparison. The operating expenses as given herewith do not include rentals or taxes.

Total road operated.....	1882. 1,908	1883. 1,928
Locomotives.....	330	340
Passenger, mail and express cars.....	315	315
Freight and other cars.....	8,773	8,169
Derricks, snow plows, &c.....		81

**Milwaukee Lake Shore & Western.**

(For the year ending December 31, 1883.)

The annual report of this company is altogether statistical, the figures being given without remark or comment. The business of the company seems to be healthy. The traffic statistics were as follows:

Number of passengers carried.....	1882. 242,159	1883. 239,634
Number of passengers carried one mile.....	8,559,872	9,552,770
Average rate per passenger per mile.....	322,000	324,000
Number of tons of freight carried.....	358,500	396,260
Number of tons carried one mile.....	27,543,115	31,747,993
Average rate per ton per mile.....	219,000	22,000

The earnings, expenses and income for the years 1882 and 1883 have been as follows:

Miles of road.....	1882. 326	1883. 389
<b>Earnings from—</b>		
Freight.....	\$592,364	\$696,618
Passengers.....	275,624	309,975
Mail, express, &c.....	37,330	52,070
<b>Total earnings.....</b>	<b>\$905,318</b>	<b>\$1,058,663</b>
<b>Operating expenses and taxes.....</b>	<b>578,044</b>	<b>670,525</b>

Interest paid (including incomes).....	219,071	232,849
<b>Surplus.....</b>	<b>\$102,792</b>	<b>\$110,231</b>

**GENERAL INVESTMENT NEWS.**

**Buffalo New York & Philadelphia.**—Messrs. J. H. Taylor & Co., in Philadelphia, deny positively the rumors regarding the asserted borrowing of moneys from the Messrs. Seligman for the purpose of paying dividends on the preferred stock of the Buffalo New York & Philadelphia, and say: "The funds used to pay the dividends came from an undivided cash surplus of \$800,000, applicable to this special purpose."

**Chesapeake & Ohio.**—Comparative statement of earnings and expenses for the month of January is as follows:

Earnings.....	1884. \$280,621	1883. \$251,969	Inc. \$28,651
Expenses.....	215,011	214,714	3,296
<b>Net earnings.....</b>	<b>\$65,609</b>	<b>\$10,255</b>	<b>\$25,354</b>

**Chicago & Eastern Illinois.**—The stockholders of the Chicago & Eastern Illinois Railroad are to meet in Chicago on May 20 to consider a proposition to borrow \$3,000,000 for the purpose of retiring all the outstanding bonds of the company, paying its indebtedness, and completing, improving, extending and operating its railroad.

**Chicago St. Louis & Pittsburg.**—At Indianapolis, March 19, the stockholders of this company held their annual meeting. The first action taken was the approval of a consolidation of the Chicago St. Louis & Pittsburg road of Indiana with the Chicago St. Louis & Pittsburg road of Illinois, the Legislature of Illinois having enacted a law at its last session permitting such consolidation. The gross earnings for the year 1883 were \$5,320,937; net earnings over operating expenses, \$984,972, against \$703,584 net in 1882 and \$641,053 in 1881. The stockholders elected as directors for the ensuing year William L. Scott, Erie, Pa.; O. J. Osborn, New York; George B. Roberts and J. P. Green, Philadelphia; George Driggs, R. B. Roberts, George Williams, William Borner and F. W. Belc. The five last named are new men.

**Colorado Coal & Iron Company.**—At a meeting of stockholders of the Colorado Coal & Iron Company, a committee, consisting of Charles Moran, L. H. Meyer, Reuben Leland, Isidor Wormser and Spencer Trask, was appointed to co-operate with a similar committee recently appointed at a meeting in Philadelphia to prepare a ticket for the annual meeting in April.

The result of the meeting in the election of the committee by a vote of 29 to 26 was said to be favorable to the present management.

**Elizabethtown Lexington & Big Sandy.**—Comparative statement of the earnings and expenses for the month of January is as follows:

	1884.	1883.	Dec. 1883.	Dec. 1882.
Earnings.....	\$17,387	\$17,893	\$17,893	\$17,893
Expenses.....	13,881	15,998	15,998	15,998
Net earnings.....	\$3,506	\$1,895	\$1,895	\$1,895

**International Inter-Oceanic & Oriental (Mexico).**—A dispatch from Matamoros, Mex., says that Mr. James M. Belder, of Monterey, has been appointed receiver of this line, which was projected from Laredo via Victoria and the coast to the city of Mexico, and on which considerable grading has been done.

**Kentucky Central.**—Since some of the large stockholders of Kentucky Central refused to join the agreement for an assessment to raise funds to meet the road's indebtedness, other plans of re-organization have been talked of. The latest is that the bond and stock holders who are willing to help the road should form a syndicate, and, by paying the debt, prevent the appointment of a receiver. It is said that having thus bought the debts of the company, the syndicate will demand a sale of the road, and if possible buy it in, and if not, let stockholders outside of the syndicate take care of themselves.

**Mexican Central.**—A Boston dispatch says: "Within a month the Mexican Central Railroad will issue securities due to block subscribers; \$4,000,000 in bonds will, therefore, be issued upon a single date, the largest amount ever issued at any one time. As they were all paid for some time ago, and no more assessments remain to be paid, some curiosity is manifested as to how many of these bonds may come upon the market. The total amount of Mexican Central bonds issued to the subscribers to the four series of blocks and \$2,000,000 bonds to the founders will amount to \$35,000,000."

**Mexican National.**—A statement has been prepared by the directors of the Mexican National Railroad Company for submission to the bondholders, on the subject of the financial condition of the company. It is proposed to fund all coupons from and including April 1, 1884, to Oct. 1, 1886, of bonds bearing date April 1, 1881, and to fund the coupons from and including July 1, 1884, to Jan. 1, 1887, of bonds bearing date July 1, 1882. There are \$19,330,000 of the first-named bonds and \$5,000,000 of the second. The question of passing the April coupon was considered by the Executive Committee March 19. The company has been negotiating with capitalists in England for money, but a short time ago the negotiations fell through.

**Missouri Kansas & Texas.**—The Treasurer reports that the privilege of exchanging the second mortgage income bonds and coupon-scrip upon the terms adopted by the board of directors November 2, 1883, is extended until further notice.

**Nashville Chattanooga & St. Louis.**—The gross and net earnings for February, and for the eight months ending February 29, in 1883 and 1884, have been as follows:

	February.		8 mos. to Feb. 29.	
	1883.	1884.	1882-83.	1883-84.
Gross earnings.....	\$195,262	\$210,495	\$1,574,184	\$1,621,393
Operating expenses ...	106,336	119,221	872,024	880,848
Net earnings.....	\$88,926	\$91,274	\$702,160	\$743,545
Interest and taxes.....	54,530	55,482	433,929	442,306
Surplus.....	\$34,396	\$35,792	\$268,231	\$301,239

**New York Lake Erie & Western.**—The gross and net earnings for December, and for the three months ending December 31, in 1882 and 1883, are given below. The gross earnings include only 68 per cent of the earnings of the N. Y. Pa. & O. Railroad, leased in 1883, and the net earnings thus compare properly with the previous year.

	December.		Inc.
	1882.	1883.	
Gross earnings.....	\$1,491,403	\$1,824,568	\$132,161
Working expenses.....	1,245,665	1,597,226	347,560
Net earnings.....	\$245,738	\$227,342	Dec. \$215,306

  

	Oct. - Dec. - 3 mos.		Inc.
	1882.	1883.	
Gross earnings.....	\$5,324,237	\$6,415,696	\$1,083,458
Working expenses.....	3,186,964	4,612,907	1,156,443
Net earnings.....	\$2,137,273	\$1,772,788	Dec. \$69,484

**New York West Shore & Buffalo.**—It is reported that a plan for the financial reorganization of the West Shore road will shortly be submitted to the creditors of the company. The proposition favored now is to issue a \$25,000,000 6 per cent second mortgage and to fund three years' coupons of old bonds into the new. Enough of the new bonds will be reserved to retire the \$10,000,000 of income bonds issued to the North River Construction Company, and the remainder will be issued to provide equipments, &c. The terminal bonds authorized will probably be withheld from the market for a year. The scheme is said to be favored by a controlling interest in the road, but is opposed by some large bondholders.

**North River Construction Co.**—Receiver Ashbel Green has given notice that the North River Construction Company will go into liquidation, and that the books have been closed permanently.

**Oregon Railway & Navigation Co.**—The Boston *Transcript* says: The Oregon Railway & Navigation Company has not published any earnings since its December report until today, when the gross earnings for February and since July 1 are given out. The figures in detail are as follows:

	1884.	1883.
January gross.....	\$299,374	\$378,000
January net.....	.....	189,600
February gross.....	187,503	233,238
February net.....	.....	71,200
From July 1, gross.....	2,738,051	3,372,548
From July 1, net.....	.....	1,659,800

—The Oregon Railway & Navigation Company's loan of \$3,000,000 was taken largely in Germany. The balance was subscribed for in England and America. This loan was made to complete the Baker City Branch Company to a junction with Oregon Short Line. Terms are not stated.

**Oregon Southern Improvement.**—A dispatch from Portland, Oregon, March 20, said: "The Oregon Southern Improvement Company filed a mortgage of \$2,000,000 yesterday to secure the bonds issued on the company's property in Coos and Douglas counties. The bonds are payable to the Boston Safe Deposit Trust Company and bear 6 per cent annual interest, payable half-yearly."

**Pittsburg Cincinnati & St. Louis.**—The annual meeting of the stockholders of the Pittsburg Cincinnati & St. Louis Railroad Company was held in Columbus, O., March 18. The annual report for 1883 is as follows:

Gross earnings.....	\$4,623,740
Expenses.....	3,087,465
Net earnings.....	\$1,536,275
Add amount received for interest, &c.....	8,784
Total.....	\$1,545,059
Interest on bonds.....	707,290
Other payments.....	198,864
Total.....	\$1,006,154
Net profit main line 1883.....	\$538,905
Deduct losses on leased lines.....	592,747
Loss on all lines 1883.....	\$53,841
Profit in 1882.....	\$7,407

The following directors were elected: G. B. Roberts, J. N. McCallough, William Thaw, Thomas D. Messler, R. Sherrard, D. S. Gray, H. H. Houston, Wistar Morris, J. N. Dubarry, W. H. Barnes, J. P. Wetherill, G. H. McCook and John P. Green. The organization of the board was postponed for the present.

**Pittsburg Fort Wayne & Chicago.**—A special meeting of the stockholders of the Pittsburg Fort Wayne & Chicago Railroad has been called for April 3, to vote upon a proposition for a new issue of bonds. By order of the Executive Committee, President L. H. Meyer has issued a circular to the stock and bond holders explaining the situation. The lease of the Pittsburg Fort Wayne & Chicago Road to the Pennsylvania Railroad provides that the stockholders of the leased road shall keep that property in good running order. To pay for the necessary betterments, the lessor company has issued to the lessee company for several years special guaranteed stock known as "betterment stock."

So long as this stock seemed the least burdensome security that could be placed at par, the directors of the Pittsburg Fort Wayne & Chicago Company were satisfied to issue it; but when it advanced in market value above par, the directors did not feel that they had the right to issue it at par. The inevitable result of such an issue, it was stated, would enable the lessee company, by accumulating these issues in a trust or sinking fund, in a few years to outgrow the lessor company in the control of the latter's own property. The issue of the "betterment stock" was therefore stopped, and negotiations have been pending with a view to providing some other form of security to cover the costs of the improvement.

The directors of the Pittsburg Fort Wayne & Chicago Road have decided to submit to the stock and bond holders the proposition to issue mortgage bonds not exceeding \$20,000,000 in amount; the bonds to have fifty years to run, and to be issued from time to time, as required, to pay for betterments under the terms of the lease with the Pennsylvania Company. Louis H. Meyer, George W. Cass and Charles Lanier are the committee appointed to receive proxies in favor of the proposition.

The Pennsylvania Railroad Company claims to have made betterments on the leased property amounting to \$3,000,000, for which it has not yet been paid.

**Union Pacific.**—The statement of net earnings for January has been published and shows a large decrease in comparison with January, 1883. This is undoubtedly owing in great part to the cutting in rates, which is a temporary difficulty. The candor and fair dealing of the managers in continuing to report the earnings when they make a bad showing, will impress the public most favorably. The Union Pacific is reducing its debt by land sales, and had it not been for the delay of Oregon Railway & Navigation in completing its line to Baker City to a junction with the Union Pacific's Oregon Short Line, this road would now have the benefit of a large Oregon business. As it is, the connection will probably soon be finished. The following is the statement of earnings and expenses for January:

	1884.	1883.	Changes.
Gross.....	\$1,538,908	\$1,910,854	Dec. \$377,946
Operating expenses.....	1,305,364	1,019,122	Inc. 286,243
Net.....	\$233,544	\$297,732	Dec. \$64,189

—The land sales of the Union Pacific Railway for the month of February were: 1884, 173,593 acres for \$418,657; 1883, 42,620 acres for \$137,902; increase, 130,974 acres; \$280,755.

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, March 21, 1884.

The weather the past week has been more favorable for the season of planting and sowing in the West, causing declines in prices of food staples, and giving some impulse to general trade; but business is quite backward for the Spring months, and nowhere are any very sanguine anticipations entertained regarding the outcome of the near future. Yet there is no apprehension felt that any serious complications will arise, and confidence is expressed that values are uniformly on a sound basis, promising that any change will be for the better. The financial situation is calm, and the political atmosphere gives little indication of the approach of a canvas for the Presidential successor.

The speculation in lard has been quite without spirit in the past week, and prices have materially declined, a slight rally yesterday being followed by renewed depression to-day, prime Western closing at 9.70c. on the spot and for March and April delivery, 9.74@9.76c. for May, 9.82@9.84c. for June and 9.86@9.88c. for July. Pork has sold to a moderate extent at \$17 62½@17 75 for mess and \$20@20 50 for clear. Bacon remains nominal at 9¾c. for long clear. Pickled cut meats have had some inquiry at 8½@8¾c. for bellies, 8¼@8½c. for shoulders and 11¾@12¼c. for hams, and smoked are quoted at 13¼@13½c. for hams and 9¼@9½c. for shoulders. Beef is nearly nominal at old prices. Beef hams are drooping at \$27@27 50 per bbl. Tallow is easier at 7¼@7¾c. Stearine is quoted at 9¾@10c., and oleomargarine 8¾@9c. Butter is dull, except for new creameries at 34@40c.; Western factory quoted at 15@22c. Cheese is scarce and firmer, but very dull at 12@15¼c. for factory. Eggs are dearer at 23@24c. per doz. The Cincinnati Price Current has printed its compilation of the pork-packing for the past season at seven cities—Chicago, Cincinnati, St. Louis, Kansas City, Indianapolis, Milwaukee and Louisville—showing the total to be 3,867,485 hogs, against 4,450,940 last year, a decrease of 583,455 hogs. This is a decrease of 18.37 pounds in the average gross weight, making a deficiency in the manufactured product equivalent to 848,000 hogs, or 19 per cent. The decrease in the yield of lard is 2 4-10 pounds per hog, which is equivalent to 91,000 tierces. The reports of the stocks of provisions show a decrease of 53,500,000 pounds of meats and 108,000 barrels of pork. The stock of lard is about 6,000 tierces greater.

Rio coffee has been dull and declining, and fair cargoes at the close are nominally 11¼c.; options have been active, excited and panicky at a decline of 1c. to 1½c., closing at 9.10c. for March, 9c. for April, 8.95c. for May and June and 9.05c. for July and August; the stocks are largely in excess of those held here at this time last year, while prices are materially higher than then; the failure of three firms has added to the demoralization; mild grades have latterly sold more freely, notably Padang and Caracas, but at lower prices. Tea has been fairly active, but at lower prices; Japan sold to-day at 30c. for April, 31½c. @ 31¾c. for May and 32¾@33c. for June. Rice has been quiet and steady. Refining molasses has declined to 22c. for 50 degrees test Cuba; New Orleans has not changed materially and has been quiet. Spices have been quiet, with ginger and cassia lower. Foreign fruits have been generally steady, and raisins have advanced. Raw sugar has been fairly active at declining prices, fair refining closing nominally at 5¾@5 7-16c., with centrifugal 96 degrees test not over 6¾c.; fair refining has sold freely for July at 5.77½c.; refined has been quiet at 7½@7¾c. for powdered, 7¾@7¾c. for crushed and 7 5-16@7¾c. for granulated.

There has been a steady but quiet market in all grades and descriptions of tobacco. Kentucky has sold to the extent of 374 hhds., of which 125 hhds. were for export; on the Tobacco Exchange 550 hhds. have been sold. Lugs are quoted 7¼@8c. and leaf at 8¼@11c. Seed leaf ruled steady though by no means active. Sales for the week embrace 1,050 cases, including 500 cases crop 1881, Pennsylvania, 6@10c.; 250 cases crop 1882, Pennsylvania, 5@20c.; 100 cases crop 1882, Wisconsin, Havana seed, 30@35c.; 100 cases crop 1882, New England, 9@25c., and 100 cases crop 1882, Ohio, 9@12½c.; also 500 bales Havana, 80@1 25, and 200 bales Sumatra, \$1 20@1 60.

The trading in naval stores has been limited, and not until to-day were there signs of weakness; spirits turpentine is now quoted at 34¼@34½c., and strained to good strained rosins \$1 47½@1 52½. In metals nothing of interest occurred, the feeling being almost uniformly easy. Refined petroleum has ruled steady at 8½c. for 70 Abel test, and the sales have aggregated 30,000 bbls. on that basis. Crude oil certificates have been irregular and inclined to weakness, but to-day renewed buying on the "long" side brought out a higher range of values; the opening price was \$1 00¾, highest \$1 00¾, lowest \$1 00¼, and closing \$1 00¾.

In ocean freight-room berth rates have been irregular and inclined to easiness. Charters, particularly petroleum tonnage, have been well maintained. To-day grain to Liverpool by steam was quoted 1½@1¾d.; flour 7s. 6d. per ton; bacon 10s. @ 12s. 6d.; cheese 15@20s.; cotton 7-64@½d.; grain to London by steam was taken at 3@3¼d.; do. to Avonmouth by steam at 3d.; do. to Antwerp by steam 2d.; do. to Stettin by steam 2s. 6d. per qr.; do. to Hamburg by steam 50 pfennigs; do. to Marseilles by steam 2s. per qr.; crude petroleum to Passages 3s. 10½d.

COTTON.

FRIDAY, P. M., March 21, 1884.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening (March 21), the total receipts have reached 42,635 bales, against 49,876 bales last week, 68,720 bales the previous week and 76,487 bales three weeks since; making the total receipts since the 1st of September, 1883, 4,528,559 bales, against 5,242,783 bales for the same period of 1882-83, showing a decrease since September 1, 1883, of 714,224 bales.

There has been a great increase in the activity of the speculation in cotton for future delivery at this market the past week, attended by an important improvement in prices. Saturday showed an advance of a few points, and on Monday there was a very active buying, mainly for April, and said to be by several German houses, who would expect the delivery of the cotton for export. This greatly stimulated speculation and caused an active buying at the South for prompt shipment to this market. Tuesday opened buoyant, but Liverpool did not respond to the advices from this side; consequently there followed a heavy selling movement to realize profits, under which the early advance was not only lost, but the close was at some decline from the latest prices of Tuesday. There was some recovery in the course of Wednesday and Thursday, the reports from Liverpool and Manchester having improved, and the receipts at the ports proving quite small. To-day there was a buoyant opening but active selling under apprehension of free deliveries on April contracts, which caused the early advance to be lost. The close was at an advance for the week of 14@17 points for this crop and 16@17 points for the next. Cotton on the spot has been quiet, but not being freely offered prices are dearer. There was an advance of 1-16c. on Monday and again on Tuesday. To-day there was a further advance of 1-16c., middling uplands closing quiet at 11 1/8.

The total sales for forward delivery for the week are 600,600 bales. For immediate delivery the total sales foot up this week 4,455 bales, including 537 for export, 1,559 for consumption, 2,359 for speculation and — in transit. Of the above, — bales were to arrive. The following are the official quotations for each day of the past week.

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph, is as follows. The Continental stocks, as well as those for Great Britain and the afloat, are this week's returns, and consequently all the European figures are brought down to Thursday evening. But to make the totals the complete figures for to-night (March 21), we add the item of exports from the United States, including in it the exports of Friday only.

Price Mid. Val. Liverpool..... 5 1/16 5 3/8 6 1/16 6 3/8

The imports into Continental ports this week have been 49,000 bales.

The above figures indicate a decrease in the cotton in sight to-night of 212,221 bales as compared with the same date of 1883, an increase of 172,469 bales as compared with the corresponding date of 1882 and a decrease of 5,858 bales as compared with 1881.

NOTE.—In the visible supply table last week India afloat was stated inaccurately; it should have been 225,000 bales instead of 265,000 bales, making a decrease of 116,072 bales as compared with 1883, an increase of 230,29 bales as compared with 1882, and an increase of 100,797 bales as compared with 1881.

AT THE INTERIOR TOWNS the movement—that is the receipts for the week and since Sept. 1, the shipments for the week, and the stocks to-night, and the same items for the corresponding period of 1882-83—is set out in detail in the following statement:

TOWNS.	Movement to March 21, 1884.			Movement to March 23, 1883.		
	Shipm'ts This week.	Receipts Since Sept. 1, '83.	Stock Mch. 21.	Shipm'ts This week.	Receipts Since Sept. 1, '82.	Stock Mch. 23.

\* This year's figures estimated.

The above totals show that the old interior stocks have decreased during the week 22,217 bales and are to-night 103,906 bales less than at the same period last year. The receipts at the same towns have been 15,068 bales less than the same week last year, and since September 1 the receipts at all the towns are 588,562 bales less than for the same time in 1882-83.

QUOTATIONS FOR MIDDLING COTTON AT OTHER MARKETS.—In the table below we give the closing quotations of middling cotton at Southern and other principal cotton markets for each day of the past week.

Week ending March 21.	CLOSING QUOTATIONS FOR MIDDLING COTTON ON—

RECEIPTS FROM THE PLANTATIONS.—The following table is prepared for the purpose of indicating the actual movement each week from the plantations. Receipts at the outports are sometimes misleading, as they are made up more largely one year than another at the expense of the interior stocks. We reach, therefore, a safer conclusion through a comparative statement like the following. In reply to frequent inquiries we will add that these figures, of course, do not include overland receipts or Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

RECEIPTS FROM PLANTATIONS.

Week ending—	Receipts at the Ports.			Stock at Interior Towns.			Total in Sight.		
	1882.	1883.	'84.	1882.	1883.	1884.	1882.	1883.	1884.

" 22.....	60,100	134,448	67,013	362,430	3-3 521	3-3 521	3-3 521	1-15 3	51,394
" 29.....	51,980	135,321	76,457	349,074	3-3 521	3-3 521	3-3 521	1-15 3	49,302
Mch. 7.....	58,747	124,826	48,729	335,943	3-3 521	3-3 521	3-3 521	1-15 3	46,332
" 14.....	57,454	111,181	49,862	324,432	3-3 521	3-3 521	3-3 521	1-15 3	28,813
" 21.....	61,816	105,082	42,237	309,299	3-3 521	3-3 521	3-3 521	1-15 3	19,630

The above statement shows—1. That the total receipts from the plantations since September 1, 1883, were 1,630,312 bales; in 1882-83 were 5,506,244 bales; in 1881-82 were 4,222,708 bales.

2.—That, although the receipts at the outports the past week were 42,635 bales, the actual movement from plantations was only 19,030 bales, the balance being taken from the stocks at the interior towns. Last year the receipts from the plantations for the same week were 87,835 bales and for 1883 they were 31,141 bales.

AMOUNT OF COTTON IN SIGHT MARCH 21.—In the table below we give the receipts from plantations in another form, and add to them the net overland movement to March 1, and also the takings by Southern spinners to the same date, so as to give substantially the amount of cotton now in sight.

	1883-84	1882-83	1881-82	1880-81.
Receipts at the ports to Mch. 21.....	4,528,559	5,222,780	4,222,600	5,012,112
Interior stocks on March 21 in excess of September 1.....	111,653	265,431	204,190	270,675
<b>Tot. receipts from plantations</b> .....	<b>4,640,212</b>	<b>5,488,211</b>	<b>4,426,790</b>	<b>5,282,787</b>
Net overland to March 1.....	161,670	500,550	34,315	415,047
Southern consumption to Mch. 1.....	190,000	2 000	13,000	13 000
<b>Total in sight March 21</b> .....	<b>4,611,882</b>	<b>6,000,761</b>	<b>4,448,105</b>	<b>5,730,834</b>

It will be seen by the above that the amount of cotton in sight to-night, as compared with last year, is 91,535 bales, the increase as compared with 1881-82 is 33,429 bales, and the decrease from 1880-81 is 541,552 bales.

WEATHER REPORTS BY TELEGRAPH.—Wet weather has continued to act as a bar to farming operations in a large portion of the South during the week. In Texas, however, (where they have had good rains this week), planting is making good progress, and in a few districts there is some cotton up. The river has again risen at Memphis, but is expected to quickly decline. In the vicinity of Vicksburg and Greenville plantations are overflowed.

Galveston, Texas.—We have had hard, but splendid, rains throughout the State on two days, which have been very beneficial. The rainfall here reached three inches and twenty-four hundredths. The thermometer has averaged 60, ranging from 51 to 69.

Indianola, Texas.—It has rained very finely on four days of the week, but hardly enough. The rainfall reached one inch and fifty-three hundredths. Corn is generally up and thriving; there is also some cotton up, and all things are making good progress. Average thermometer 63, highest 73 and lowest 51.

Palestine, Texas.—We have had very welcome rain on two days of the week, the rainfall reaching two inches and

twenty-two hundredths. Corn and cotton planting make good progress, and farmers are encouraged. The thermometer has averaged 57, the highest being 72 and the lowest 41.

**New Orleans, Louisiana.**—It has rained on three days of the week, the rainfall reaching three inches and forty-nine hundredths. The thermometer has averaged 62.

**Shreveport, Louisiana.**—We had heavy rain on Monday, and the remainder of the week has been clear. The rainfall reached one inch and eighty-nine hundredths. Roads are in fair condition. The thermometer has ranged from 44 to 71.

**Vicksburg, Mississippi.**—It was showery on three days during the early part of the week, but the latter portion has been clear and pleasant. The rainfall reached two inches and thirty-three hundredths. The planting season is very backward. The river is now forty-eight feet, three inches, above low water mark; several levees are breaking below here. The thermometer has ranged from 41 to 72.

**Meridian, Mississippi.**—Telegram not received.

**Greenville, Mississippi.**—It has rained on one day of the week, the rainfall reaching one inch and twenty-three hundredths. Planters in overflowed districts are discouraged by the prospect of continued high water. Average thermometer 49, highest 79 and lowest 40.

**Columbus, Mississippi.**—We have had rain on two days of the week, but at the close there is a favorable change in the weather. The rainfall reached one inch and eighty-seven hundredths.

**Little Rock, Arkansas.**—The weather has been much more settled and spring-like during the week. It has been cloudy, with light showers, on three days, the rainfall reaching thirty-five hundredths of an inch. The thermometer has ranged from 38 to 65, averaging 52.

**Pine Bluff, Arkansas.**—It has rained on one day of the week, and the balance of the week has been pleasant. The rainfall reached fifteen hundredths of an inch. The thermometer has averaged 57, ranging from 40 to 68. Last week it rained on two days, and the rainfall reached one inch and thirty hundredths. The thermometer averaged 45, and ranged from 30 to 79.

**Fort Smith, Arkansas.**—Telegram not received.

**Helena, Arkansas.**—It has rained on two days of the week, and the remainder of the week has been pleasant. The rainfall reached thirty-one hundredths of an inch. The thermometer has averaged 53, the highest being 64, and the lowest 40.

**Monticello, Arkansas.**—Telegram not received.

**Newport, Arkansas.**—Telegram not received.

**Memphis, Tennessee.**—We have had light showers on three days of the week, but the weather is now clear and pleasant. The rainfall reached thirty-six hundredths of an inch. Plowing is making good progress in the uplands. The river is again rising and is now two feet below the danger line, but will soon be on the decline again. It will all run out in time for the making of the next crop. Average thermometer 55.5 highest 70 and lowest 41.

**Nashville, Tennessee.**—We have had rain on five days of the week, the rainfall reaching ninety-three hundredths of an inch. The ground is still too wet, and little or no plowing has yet been done; but as the week closes the weather has taken a favorable turn. The thermometer has averaged 54, the highest being 65 and the lowest 36.

**Mobile, Alabama.**—It rained constantly on two days, and was showering on one day, during the early part of the week, but the latter portion has been clear and pleasant. The rainfall reached four inches and sixty-seven hundredths. Planting preparations are very backward. The thermometer has ranged from 43 to 75, averaging 59.

**Montgomery, Alabama.**—We had rain on three days the early part of the week, but the latter portion has been clear and pleasant. The rainfall reached two inches and two hundredths. The tributary rivers have overflowed. The thermometer has averaged 58, ranging from 40 to 73.

**Selma, Alabama.**—It has rained on two days of the week, the rainfall reaching two inches and forty-seven hundredths. Average thermometer 55, highest 69 and lowest 37.

**Madison, Florida.**—Telegram not received.

**Macon, Georgia.**—It has rained on three days of the week, but as the week closes there is a favorable change in the weather. The thermometer has ranged from 35 to 72, averaging 56.

**Columbus, Georgia.**—It has rained severely on one day of the week, the rainfall reaching two inches. The thermometer has averaged 60, ranging from 42 to 72.

**Savannah, Georgia.**—We have had rain on two days, and the remainder of the week has been pleasant. The rainfall reached forty-seven hundredths of an inch. Average thermometer 60, highest 76 and lowest 42.

**Augusta, Georgia.**—We had rain on three days during the early part of the week, and the latter portion has been pleasant and clear. The rainfall reached seventy-one hundredths of an inch. In consequence of the bad weather, very little, if any, progress has been made in preparing land for planting. The thermometer has averaged 58, the highest being 75 and the lowest 37.

**Atlanta, Georgia.**—We have had rain on two days of the week, with a rainfall of two inches and forty-four hundredths. The thermometer has ranged from 36 to 68, averaging 54.

**Charleston, South Carolina.**—It has rained on two days of the week, the rainfall reaching sixty-four hundredths of an inch. The thermometer has averaged 58, ranging from 42 to 78.

**Columbia, South Carolina.**—Telegram not received.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 3 o'clock March 20, 1884, and March 22, 1883.

	Mch. 20, '84.		Mch. 22, '83.	
	Feet.	Inch.	Feet.	Inch.
New Orleans.....	Below high-water mark	0 3	1 9	
Memphis.....	Above low-water mark.	31 11	24 0	
Nashville.....	Above low-water mark.	41 11	6 8	
Shreveport.....	Above low-water mark.	22 1	22 2	
Vicksburg.....	Above low-water mark.	48 1	42 10	

New Orleans reported below high-water mark of 1871 until Sept. 9, 1874, when the zero of gauge was changed to high-water mark of April 15 and 16, 1874, which is 6-10ths of a foot above 1871, or 16 feet above low-water mark at that point.

INDIA COTTON MOVEMENT FROM ALL PORTS.—We have re-arranged our India service so as to make our reports more detailed and at the same time more accurate. We had found it impossible to keep out of our figures, as cabled to us for the ports other than Bombay, cargoes which proved only to be shipments from one India port to another. The plan now followed relieves us from the danger of this inaccuracy and keeps the totals correct. We first give the Bombay statement for the week and year, bringing the figures down to March 20

BOMBAY RECEIPTS AND SHIPMENTS FOR FOUR YEARS.

Year	Shipments this week.			Shipments since Jan. 1.			Receipts.	
	Great Brit'n.	Continent.	Total.	Great Britain.	Continent.	Total.	This Week.	Since Jan. 1.
1884	24,000	10,000	34,000	158,000	182,000	340,000	53,000	495,000
1883	1,000	24,000	25,000	130,000	251,000	381,000	76,000	612,000
1882	35,000	5,000	40,000	288,000	146,000	434,000	76,000	590,000
1881	12,000	4,000	16,000	83,000	147,000	230,000	45,000	365,000

According to the foregoing, Bombay appears to show a decrease compared with last year in the week's receipts of 23,000 bales, and an increase in shipments of 9,000 bales, and the shipments since January 1 show a decrease of 41,000 bales. The movement at Calcutta, Madras and other India ports for the last reported week and since the 1st of January, for two years, has been as follows. "Other ports" cover Ceylon, Tuti-corin, Kurrachee and Coconada.

	Shipments for the week.			Shipments since January 1.		
	Great Britain.	Continent.	Total.	Great Britain.	Continent.	Total.
Calcutta—						
1884.....	6,000	9,000	15,000	45,000	21,000	69,000
1883.....	1,500	.....	1,500	46,500	9,000	55,500
Madras—						
1884.....	1,000	.....	1,000	8,500	.....	8,500
1883.....	.....	.....	.....	4,500	1,000	5,500
All others—						
1884.....	2,000	.....	2,000	12,000	.....	12,000
1883.....	.....	.....	.....	4,000	2,000	6,000
Total all—						
1884.....	9,000	9,000	18,000	65,500	24,000	89,500
1883.....	1,500	.....	1,500	55,000	12,000	67,000

The above totals for the week show that the movement from the ports other than Bombay is 16,500 bales more than same week last year. For the whole of India, therefore, the total shipments since January 1, 1884, and for the corresponding periods of the two previous years, are as follows:

EXPORTS TO EUROPE FROM ALL INDIA.

Shipments to all Europe from—	1884.		1883.		1882.	
	This week.	Since Jan. 1.	This week.	Since Jan. 1.	This week.	Since Jan. 1.
Bombay.....	34,000	340,000	25,000	331,000	40,000	434,000
All other ports.	18,000	89,500	1,500	67,000	1,000	112,300
Total.....	52,000	429,500	26,500	448,000	41,000	546,300

This last statement affords a very interesting comparison of the total movement for the three years at all India ports.

ALEXANDRIA RECEIPTS AND SHIPMENTS.—Through arrangements we have made with Messrs. Davies, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years.

Alexandria, Egypt, March 19.	1883-84.		1882-83.		1881-82.	
Receipts (cantars*)—						
This week.....	15,000		10,000		25,000	
Since Sept. 1	2,538,000		2,190,000		2,736,000	
Exports (bales)—						
To Liverpool.....	1,000	217,000	1,000	211,000	2,000	223,000
To Continent.....	3,000	106,000	3,000	74,000	2,500	158,338
Total Europe.....	4,000	323,000	4,000	285,000	4,500	381,338

\* A. cantar is 98 lbs.

This statement shows that the receipts for the week ending March 19 were 15,000 cantars and the shipments to all Europe 4,000 bales.

MANCHESTER MARKET.—Our report received from Manchester to-night states that the market is firm. We give the prices of to-day below, and leave previous weeks' prices for comparison.

	1884.						1883.

A NEW NEWSPAPER FOR THE SOUTH.—Mr. R. Dundas Chater, of 187 Pearl Street, has just issued the first number of "The Naval Stores Market Reporter," devoted exclusively to Southern interests. Mr. Chater has for twelve years issued a weekly circular on naval stores which has been an authority on that subject throughout the country, and now he has begun the publication of this paper to take the place of the circular, only covering a wider field. He proposes to give the latest and fullest intelligence relative to naval stores from all parts of the world, including values, receipts, sales and stocks of spirits turpentine and rosin in all the American and European markets. We trust this new venture will be abundantly successful, and have no doubt it will deserve it.

JUTE BUTTS, BAGGING, &C.—The market continues very steady, but business continues to be of a jobbing character, only a few round parcels having found buyers. Sellers are not forcing goods, however, as a good demand is expected shortly, and we do not hear of any lots offering below 9 1/2c. for 1 1/2 lb., 10c. for 1 3/4 lb., 10 3/4c. for 2 lb. and 11 1/2c. for standard grades. Butts are still rather quiet, and, beyond a few orders for present wants, we do not hear of any business. A few inquiries are reported for parcels to arrive, but we did not learn that any transactions had been made. Prices are somewhat easier, and 2 3/8 @ 2 1/2c. are the figures for paper grades, while bagging qualities are held at 2 3/4 @ 2 3/8c.

COMPARATIVE PORT RECEIPTS AND DAILY CROP MOVEMENT.—A comparison of the port movement by weeks is not accurate, as the weeks in different years do not end on the same day of the month. We have consequently added to our other standing tables a daily and monthly statement, that the reader may constantly have before him the data for seeing the exact relative movement for the years named. The movement each month since September 1, 1883, has been as follows.

Monthly Receipts.	Year Beginning September 1.					
	1883.	1882.	1881.	1880.	1879.	1878.
Sept'mb'r	343,812	326,656	429,777	458,478	333,643	288,848
October..	1,046,092	980,584	853,195	968,318	888,492	689,264
Novemb'r	1,030,380	1,094,697	974,043	1,006,501	942,272	779,237
Decemb'r	1,059,653	1,112,536	996,867	1,020,802	956,464	393,664
January	487,729	752,827	487,727	571,701	647,140	618,727
February.	385,938	595,598	291,992	572,728	447,918	566,824
Total year	4,353,604	4,862,898	4,033,541	4,598,528	4,215,929	3,836,564
Perc'tage of tot. port receipts Feb. 29...		80.78	85.45	78.28	84.28	86.27

This statement shows that up to Feb. 29 the receipts at the ports this year were 562,440 bales less than in 1882, and 320,063 bales more than at the same time in 1881. By adding to the above totals to Feb. 29 the daily receipts since that time, we shall be able to reach an exact comparison of the movement for the different years.

	1883-84.	1882-83.	1881-82.	1880-81.	1879-80.	1878-79.

Total....	4,528,559	5,202,558	4,206,182	4,951,900	4,405,391	4,058,522
Percentage of total port rec'pts Mch. 21		86.42	89.11	84.30	98.08	91.26

This statement shows that the receipts since Sept. 1 up to to-night are now 673,999 bales less than they were to the same

day of the month in 1883 and 322,377 bales more than they were to the same day of the month in 1882. We add to the table the percentages of total port receipts which had been received to March 21 in each of the years named.

THE EXPORTS OF COTTON from New York this week show a decrease, as compared with last week, the total reaching 8,028 bales, against 10,015 bales last week. Below we give our usual table, showing the exports of cotton from New York, and their direction, for each of the last four weeks; also the total exports and directions since September 1, 1883, and in the last column the total for the same period of the previous year.

SHIPPING NEWS.—The exports of cotton from the United States the past week, as per latest mail returns, have reached 91,366 bales. So far as the Southern ports are concerned, these are the same exports reported by telegraph, and published in the CHRONICLE last Friday. With regard to New York we include the manifests of all vessels cleared up to Thursday night of this week.

	Total bales.
NEW YORK—To Liverpool, per steamers Britannic, 1,265.....	1,265
Gallia, 1,705....Republic, 882....The Queen, 501....Van Dyck, 503....Wyoming, 1,562.....	6,418
To Hull, per steamer Rialto, 500.....	500
To Havre, per steamer St. Laurent, 500.....	500
To Bremen, per steamers Main, 50....Werra, 105.....	150
To Hamburg, per steamer Gellert, 210.....	210
To Antwerp, per steamer Belgenland, 250.....	250
NEW ORLEANS—To Liverpool, per steamers Alava, 4,091....	4,091

Philadelp'a	1,473	.....	.....	.....	.....	.....	.....	1,473
Total....	58,488	11,457	15,524	1,371	1,850	1,257	919	91,366

Included in the above totals are from New York to Hull, 500 bales.

Below we add the clearances this week of vessels carrying cotton from United States ports, bringing our data down to the latest dates:

**GALVESTON**—For Liverpool—March 18—Bark Nadia, 1,928....March 19—Ship Cashmere, 4,607.  
**NEW ORLEANS**—For Liverpool—March 15—Steamers Eduardo, 4,725; Serra, 3,460....March 20—Steamer Discoverer, 3,092.  
 For Havre—March 15—Steamer Redewater, 3,897....March 20—Steamer Craighton, 4,767.  
 For Reval—March 15—Bark Gloria, 3,070.  
 For Pasages—March 19—Bark Familia, 900.  
**SAVANNAH**—For Liverpool—March 17—Bark Wacissa, 2,780.  
 For Bremen—March 15—Ship Adolphus, 2,027.  
 For Reval—March 15—Bark Ashantee, 2,575.  
 For Cronstadt—March 15—Bark Lepreaux, 2,989.  
 For Barcelona—March 17—Brig Soberano III., 899.  
**CHARLESTON**—For Liverpool—March 17—Bark J. Walter Scammell, 3,031.  
 For Barcelona—March 14—Bark Bertha, 1,530; brig Eva, 650....March 19—Bark Guayaquil, 850.  
**NORFOLK**—For Liverpool—March 17—Bark Traveler, 1,522.  
**NEWPORT NEWS**—For Liverpool—March 14—Steamer Gleurath, 1,369.  
**BOSTON**—For Liverpool—March 12—Steamers Catalonia, 139; Iberian, 1,369.  
**BALTIMORE**—For Liverpool—March 15—Steamer Thanemore, 1,977.  
 For Bremen—March 14—Steamer Weser, 1,904.  
**PHILADELPHIA**—For Liverpool—March 14—Steamer Lord Gough, 2,291....March 18—Steamer British Prince, 2,561....March 19—Steamer Indiana, 1,379.

Below we give all news received to date of disasters to vessels carrying cotton from United States ports, &c.:

**WYOMING**, steamer (Br.), Douglass, at New York, March 13, from Liverpool, on March 8, lat. 43, lon. 40, passed a bale of cotton.  
**ASIANA**, ship (Br.), before reported, from New Orleans for Liverpool, which put into Bermuda in distress, had discharged 1,750 bales of cotton on March 13, but the arrival of a special agent from owners and underwriters had stopped any further discharge. Her bottom was to be examined by a government diver before any further action be taken.

Cotton freights the past week have been as follows:

**LIVERPOOL**.—By cable from Liverpool, we have the following statement of the week's sales, stocks, &c., at that port. We add previous weeks for comparison.

	Feb. 29.	Mch. 7.	Mch. 14.	Mch. 21.
Sales of the week.....bales.	75,000	60,000	54,000	73,000
Of which exporters took.....	6,000	5,000	5,200	5,000
Of which speculators took..	5,000	4,000	1,360	5,300
Sales American.....	57,000	42,000	38,500	52,000
Actual export.....	5,000	6,200	5,500	5,800
Forwarded.....	37,000	21,500	23,000	16,000
Total stock—Estimated.....	973,000	999,000	1,046,500	1,035,500
Of which American—Estim'd	706,000	725,000	768,000	753,000
Total import of the week.....	117,000	99,000	124,000	73,000
Of which American.....	102,000	80,000	98,000	51,000
Amount afloat.....	374,000	365,000	322,000	317,000
Of which American.....	270,000	250,000	214,000	205,000

The tone of the Liverpool market for spots and futures each day of the week ending March 21, and the daily closing prices of spot cotton, have been as follows:

Spot.	Saturday	Monday	Tuesday	Wednes.	Thursd'y.	Friday
Market, 12:30 P.M.	Harden'g.	Active and firmer.	Steady.	Steady.	Firm.	Firmer.
Mid Up'l's	5 <sup>7</sup> <sub>8</sub>	5 <sup>7</sup> <sub>8</sub>	5 <sup>15</sup> <sub>16</sub>	5 <sup>15</sup> <sub>16</sub>	5 <sup>15</sup> <sub>16</sub>	5 <sup>15</sup> <sub>16</sub>
Mid. Or'l'ns	6	6	6 <sup>1</sup> <sub>16</sub>	6 <sup>1</sup> <sub>16</sub>	6 <sup>1</sup> <sub>16</sub>	6 <sup>1</sup> <sub>16</sub>
Sales.....	10,000	15,000	10,000	12,000	10,000	12,000
Spec. & exp.	1,000	3,000	1,000	1,000	1,000	2,000
Futures.						
Market, 12:30 P.M.	Firm.	Firm.	Steady.	Quiet.	Firm.	Firmer.
Market, 5 P. M.	Firm.	Steady.	Steady.	Firm.	Firm.	Steady.

The opening, highest, lowest and closing prices of futures at Liverpool for each day of the week are given below. These prices are on the basis of Uplands, Low Middling clause, unless otherwise stated.

The prices are given in pence and 64ths, thus: 5 62 means 5 62-64d. and 6 03 means 6 3-64d.

	Sat., Mch. 15.				Mon., Mch. 17.				Tues., Mch. 18.

BREADSTUFFS.

FRIDAY, P. M., March 21, 1884.

Flour has been quiet and depressed, owing partly to the slowness of trade, and partly to the reduction in freight rates hither from the West. Winter wheat flour of high grade has continued in moderate supply, but some of the lower grades are in ample supply. The receipts, however, have been mainly of spring wheat flour. City mills and Southern flour sell rather the most readily, though the dulness of all grades differs only in degree. To-day the market was dull and generally weak.

Wheat has been quiet for export but fairly active on speculation. Prices have declined, mainly owing to the favorable weather at the West, where the prospects seem to point to an early Spring seeding. Not a little has been sold in Chicago on stop orders, and here at times there has also been free selling. May is the favorite option here among speculators, and recently a bull movement was started in that month, but it is not at all aggressive now. The shorts have covered steadily as prices fell, or there would have been a much greater decline. The export trading has been comparatively unimportant here, though the market has not been much above the limits of exporters in some cases. In Chicago there has been an increased foreign business in Spring wheat, exporters being favored by low rail freight rates eastward, and exceptionally favorable terms on through bills of lading. To-day there was a moderate trade here at a fractional decline. English buyers are indifferent, as they claim there is a prospect of large supplies from Russia. No. 2 red wheat closed at \$1 10¼ in elevator, \$1 07½ for March, \$1 08¼ for April, \$1 10½ for May, and \$1 12½ for June, these prices being ¼ to 1c. lower than the figures of a week ago, the later months showing the greatest depression.

Indian corn has been only moderately active on speculation and very quiet for export. Prices have fallen in sympathy with the decline in wheat, but corn has not followed the latter cereal so closely as at times in the past. Still, the speculative trading, both here and at Chicago, has been without animation, and only a better demand at the latter market for the lower grades, which are becoming scarce, prevented a more marked decline there; though somewhat smaller receipts have likewise served to break the force of the downward movement in wheat. To-day there was a moderate trade here at a slight decline. White and yellow descriptions are neglected and to a great extent nominal. No. 2 mixed closed weak at 61c. for March, 61½c. for April, 62½c. for May, 63½c. for June and 65c. for July. These prices are ¾c. to 1c. lower than those of a week ago.

Rye and barley have sold moderately at prices showing no marked change. Oats have been fairly active only, and have declined slightly; No. 2 mixed closed at 40c. for April, 40½c. for May and 40¾c. for June, showing a decline of ½c. for the week. The trading toward the close was more active.

The following statement, prepared by the Bureau of Statistics, will show the exports of domestic breadstuffs from the undermentioned customs districts, during the month of February, 1884, and for the eight months ended the same, as compared with the corresponding months of the previous year:

Customs Districts.	Barley.		Indian corn.		Indian corn meal.		Oats.		Oatmeal.		Rye.

THE DRY GOODS TRADE.

FRIDAY, P. M., March 21, 1884.

The past week has developed very little change in the general condition of the dry goods trade. Wholesale buyers continued to operate lightly, and in accordance with positive wants, and a comparatively small business was consequently done by domestic commission houses and importers. There was at times a moderately good trade in jobbing circles, but the weather was capricious, and there were so many quiet intervals that a much smaller aggregate distribution of seasonable goods was made by jobbers than has usually been the case at the corresponding period in former years. It has become apparent that the outlook for a really good spring trade is not encouraging among distributors and they are therefore making their early purchases with unusual caution, but it is by no means improbable that the situation will change for the better within the next few weeks, if the demand for consumption should start up briskly. Values are without material change, but a steady advance in cotton has imparted more firmness to some kinds of manufactured goods in first hands, and a few descriptions have slightly appreciated.

DOMESTIC COTTON GOODS.—The export movement in cotton goods was unusually large, 9,243 packages having been shipped

from this port, including 7,779 packages to China, 341 to Santo Domingo, 314 to U. S. of Colombia, 217 to Venezuela, 196 to Great Britain, 75 to Newfoundland, &c. There was a continuation of the light and unsatisfactory demand for cotton goods lately reported by manufacturers' agents, and the jobbing trade was somewhat disappointing. Brown sheetings were slow of sale, but the advance in cotton has strengthened prices in first hands, and Pepperell fine brown sheetings were advanced 1/4c. per yard by agents. Bleached goods, and most kinds of colored cottons, ruled quiet, but a fair business was done in wide sheetings and corset jeans at steady prices. Print cloths were in fair demand and dearer (in sympathy with cotton), closing at 37-16c. for 64x64s and 3c. bid for 56x60s. Prints were in light and irregular demand by wholesale buyers, but a fair distribution of both prints and gingham was made by jobbers, and wide printed cottons, lawns and piques were in fair request.

DOMESTIC WOOLEN GOODS.—The demand for men's-wear woollens has not realized the expectations of holders. There was a fair business in strictly desirable styles of all-wool and cotton-warp cassimeres, but indifferent makes were almost neglected. Worsted coatings and suitings were taken in moderate quantities to a fair aggregate amount, as were choice makes of overcoatings; but there was less spirit in the demand by clothiers than is usually seen at this stage of the season. Stocks of the above goods are not excessive, and the best makes are steadily held at opening quotations. Satinets (though in fair demand) were less active than of late, and a limited business in Kentucky jeans was reported by agents. Cloakings were fairly active in some quarters (owing to exceptionally low prices), but the general demand was moderate, and there was only a limited call for ladies cloths, Jersey cloths and stockinettes, while all wool and worsted dress fabrics were in fair request, as were shawls and carpets.

FOREIGN DRY GOODS have ruled quiet in importers' hands, and only moderate sales were effected by jobbers. Fancy summer silks and fine black and colored silks were in fair request, as were a few specialties in fancy dress goods; but low-grade silks and staple dress fabrics were lightly dealt in. White goods, laces and embroideries met with considerable attention, but linen goods were slow of sale, as were most kinds of men's wear woollens.

Importations of Dry Goods.

The importations of dry goods at this port for the week ending March 20, 1884, and since January 1, and the same facts for the corresponding periods of 1883, are as follows:

Manufactures of—	Week Ending March 22, 1883.		Since Jan. 1, 1883.		Week Ending March 20, 1884.		Since Jan. 1, 1884.

		100 lbs.	2 20 @ 3 50

The movement of breadstuffs to market is indicated in the statements below, prepared by us from the figures of the New York Produce Exchange. We first give the receipts at Western Lake and River ports, arranged so as to present the comparative movement for the week ending Mar. 15 and since Aug. 1 for each of the last three years:

Receipts at—	Flour.	Wheat.	Corn.	Oats.	Barley.	Rye.
	Bbls. 100 lbs	Bush. 60 lbs	Bush. 56 lbs	Bush. 32 lbs	Bush. 48 lbs	Bush. 56 lbs
Chicago	46,434	144,500	1,298,150	431,312	100,778	24,465

THE DRY GOODS TRADE.

FRIDAY, P. M., March 21, 1884.

The past week has developed very little change in the general condition of the dry goods trade. Wholesale buyers continued to operate lightly, and in accordance with positive wants, and a comparatively small business was consequently done by domestic commission houses and importers. There was at times a moderately good trade in jobbing circles, but the weather was capricious, and there were so many quiet intervals that a much smaller aggregate distribution of seasonable goods was made by jobbers than has usually been the case at the corresponding period in former years. It has become apparent that the outlook for a really good spring trade is not encouraging among distributors and they are therefore making their early purchases with unusual caution, but it is by no means improbable that the situation will change for the better within the next few weeks, if the demand for consumption should start up briskly. Values are without material change, but a steady advance in cotton has imparted more firmness to some kinds of manufactured goods in first hands, and a few descriptions have slightly appreciated.

DOMESTIC COTTON GOODS.—The export movement in cotton goods was unusually large, 9,243 packages having been shipped

from this port, including 7,779 packages to China, 311 to Santo Domingo, 311 to U. S. of Columbia, 215 to Venezuela, 196 to Great Britain, 5 to Newfoundland, &c. There was a continuation of the heat and unsatisfactory demand for cotton goods lately reported by manufacturers' agents, and the jobbing trade was somewhat disappointing. Down castings were slow of sale, but the advance in cotton has strengthened prices in first hands, and Epperell fine brown sheetings were advanced 1/2c per yard by agents. Bleached goods, and most kinds of colored cottons, ruled quiet, but a fair business was done in wide sheetings and coats' jeans at steady prices. Print cloths were in fair demand and dearer in sympathy with cottons, closing at 37-16c for 61x64s and 3c bid for 56x60s. Prints were in light and irregular demand by wholesale buyers, but a fair distribution of both prints and gingham was made by jobbers, and wide printed cottons, lawns and piques were in fair request.

DOMESTIC WOOLEN GOODS.—The demand for men's-wear woollens has not realized the expectations of holders. There was a fair business in strictly desirable styles of all-wool and cotton-warp cassimeres, but indifferent makes were almost neglected. Worsted coatings and suitings were taken in moderate quantities to a fair aggregate amount, as were choice makes of overcoatings; but there was less spirit in the demand by clothiers than is usually seen at this stage of the season. Stocks of the above goods are not excessive, and the best makes are steadily held at opening quotations. Satinets (though in fair demand) were less active than of late, and a limited business in Kentucky jeans was reported by agents. Cloakings were fairly active in some quarters (owing to exceptionally low prices), but the general demand was moderate, and there was only a limited call for ladies cloths, Jersey cloths and stockinettes, while all wool and worsted dress fabrics were in fair request, as were shawls and carpets.

FOREIGN DRY GOODS have ruled quiet in importers' hands, and only moderate sales were effected by jobbers. Fancy summer silks and fine black and colored silks were in fair request, as were a few specialties in fancy dress goods; but low-grade silks and staple dress fabrics were lightly dealt in. White goods, laces and embroideries met with considerable attention, but linen goods were slow of sale, as were most kinds of men's-wear woollens.

Importations of Dry Goods.

The importations of dry goods at this port for the week ending March 20, 1884, and since January 1, and the same facts for the corresponding periods of 1883, are as follows:

ENTERED FOR CONSUMPTION FOR THE WEEK AND SINCE JANUARY 1, 1884 AND 1883.	Week Ending March 22, 1883.		Since Jan. 1, 1883.		Week Ending March 20, 1884.		Since Jan. 1, 1884.
