H. L. Grant, No. 145 BROADWAY, NEW YORK CITY RAILROAD STOCKS & BONDS BOUGHT AND SOLD.

See quotations of City Railroads in this paper.

NEW YORK. All Interest and Principal Payable in New York City.

From 1851 to 1866 Mr. Austin Corbin resided in the State of Iowa, and, in connection with the banking business, made a specialty of negotiating First Mortgage Loans npon Improved Farms in that and other North-western States. In 1866 he transferred the business to the City of New York, with immensely successful results. In 1874 the Corbin Banking Company was organized to succeed him in this business, and has continued it ever since. From moderate beginnings this special business has grown to very large proportions, and now shows a Continuous and Complete Record of Result Covering the Entire Period of 33 Years. The number of current loans upon our books at this date exceeds 33,500, and the amount of money outstanding and due to individuals, savings banks and other corporations is upward of \$12,000,-000. Tho business has grown to its present magnitude because its results, as shown by this long record, have been eminently satisfactory. During the periods of depression and general depreciation of nearly all classes of investment securities, which succeeded the panies of 1855, 1857, 1861 and 1873, these first mortgage farm loans negotiated by us, based upon a 40-per-cent each valuation of the farms, returned high rates of interest to the lenders, with almost the promptitude of Government bonds, and from the beginning of the business to the and from the beginning of the business to the present time have absolutely proved them-selves to be the Safest and Best Paylug Investment in this Country. From year to year during this period of 33 years we have been perfecting the details. Our corres-pondents in the various States are picked men, skilled in this hranch of business, of superior judgment, unquestioned integrity and honor, and thoroughly conversant with the laws, proeedure and practice of their several States. In addition to this, all the farms are examined and our correspondents' statements concerning them revised by independent agents of our com pany, paid by us a liberal salary, who report directly to us in New York; and in a multitude of minor details which have been perfected at great expense through the experience of this long period we have been able to reduce the management of this business to a perfect system. Indeed, it is the perfection of our work that has enabled these first mortgage loans upon proved farms to manifest their superiority and to maintain their very high standard of value over all others, while at times great depreciation has followed nearly all other classes of investments.

To investors who wish to place money for a term of years with entire safety, at rates varying from 7 to 8 per cent, we recommend these ioans as being, all things considered, the Best in the World, We hold ourselves in readiness at all times

promptly, personally or by letter, to reply to all inquirles and to furnish all needed information in detail.

We have prepared an exact statement of the results of \$3,501,845, comprising investments for individuals for the last ten years. Of this amount \$3,310,417 were paid promptly with in-terest in full when due, or over 9.4 per cent. Of the \$191,423 unpaid at maturity there has now been paid \$112,180, with an added interest of \$2,3,136, leaving yet to be collected \$73,248, which is principally due from a few later delin-quents, is being rapidly paid up, and is absolutely good. So it will be seen that 98 per cent of all this \$3,501,815 capital has been already returned with rates of interest varying from 7 to 8 per cent, and that only 2 per cent is now uu-paid. What other class of investment securi-ties, taken at an average, will show such a record as this? We solicit investors to investigate our meth-ods and the character of the loans. amount \$3,310,417 were paid promptly with in-

THE FINANCIAL SITUATION.

The features of the week have been an easier market for foreign exchange checking in a measure the outflow of gold, a slight downward turn in the speculations in grain and cotton (the latter affecting prices of goods and giving a further impulse to the short-time movement), a variable market with a tendency to still lower prices on Wall Street, and the failure of a large operator in stocks here and of a large operator in grain in Chicago and St. Louis. With the exception of the variation in foreign exchange, these occurrences have had no effect on the general situation, which has continued spiritless and depressed, more under the influence of fear than of actual loss. For in mercantile circles although profits are small and goods are in some departments accumulating, there is undoubtedly a very fair amount of business in progress while labor is in general very well employed.

It should be kept in mind that, under existing condi. tions, the present volume of our domestic trade can by no means be measured by our foreign trade movement. The latter is unnatural, thoroughly deranged through the influence of currency conditions which we have so often explained. We would call the attention of our readers to an analysis, in a subsequent column, of the March figures of imports and exports, issued this week by the Bureau of

Statistics. That statement gives the exports at only 564 millions, but the imports are nearly 611 millions. There has been no March since the resumption of specio payments with so small a record of exports, while the imports during that month have reached a similar total only two years during the same period. That is to say, after a long season of depression in our industries, with consumption evidently restricted, prices here compared with prices at European markets rule so high, as not only to prevent our own products from leaving us to the extent of even the worst of above years, but also to attract foreign products in greater amount than in most former years. Some will claim that our exports are small because our crops were small. That is only in part true. Crops were not so large last summer as they were the previous year, but were very much larger than in 1881-2, and in fact, taken together, probably larger than any other year except 1880. Besides, as business is depressed, products other than food ought to go out in greater volume than during more active yearsthat is, values ought to and would, if the influences were wholly natural, conform to the conditions of trade so as to produce that result. Furthermore, and for the same reasons, our imports should be running low. But instead of such results, we are importing freely and exporting sparingly.

In this connection the Government revenue figures for April, which we have received through the kindness of Mr. Folger, Secretary of the Treasury, are interesting, giving us as they do something of a guido for estimating the foreign imports for April, while at the same time further showing the opportunity there is for relieving the industrial situation by large tax reduction. It seems that the customs duties last month reached a total of nearly 154 million dollars, against 13 million dollars a year ago, and the internal revenue receipts were over 10 millions, against 91 millions. The monthly figures for this and last fiscal year are as follows.

[VOL. XXXVIII.

It should be said, in explanation of the above, that in 1883 a larger portion than usual of our imports went into warehouse to await the tariff reductions which took effect. some of them the first of June and others the first of July. Hence the customs duties paid that month did not probably bear the same relation to the total imports that they do this year. . We may consequently estimate the imports this April at say 59 millions, against 57 millions in 1883. The internal revenue receipts were also smaller last year than they otherwise would have been, some payments having been held back until after May 1st, at which date the changes in the internal revenue taxes went into effect. The foregoing figures, however, go to confirm our estimates and suggestions made April 5 (page 400) with reference to our surplus for the next fiscal year and the pressing need there is for tax reduction. To further illustrate the same truths, we give for two years the following, showing first the total merchandise imports during each of the ten months, second a similar statement of the customs receipts, and third the percentage the customs receipts have borne to the total merchandise imports for the same months.

* Estimated.

For the reason we have stated, no conclusion can be drawn from the April percentages. The final or total percentages are a more correct indication. According to them the customs receipts for the ten months under the new tariff have averaged 29.40 per cent on the total imports, against 29.79 per cent for the same months last year under the old tariff. Such figures, taken in connection with the remarks made above, afford a pretty clear indication of what the country needs. In fact, we believe that any Congressman who will study the present situation carefully, with a sole desire to take such action as will quickest relieve, the existing industrial depression, cannot fail to conclude that, first of all, we need to have our currency reformed throughout, until it is made strictly responsive to our varying trade requirements; and second, we need to lessen at once the tax exactions which our industries are now burdened with. If we could secure legislation in these two directions there would be little cause for further anxiety.

The first of May Treasury statements also help us to follow the gold shipments of the last two months and to note the sources of supply. During March we shipped, according to the Bnreau of Statistics, \$11,323,334 net, and during April, as nearly as we can figure it from the New York totals, the net outward movement reached about 18½ million dollars, or a total of nearly 30 millions in the two months. The change that has taken place in the Treasury stock in this period is indicated in the following table, showing separately the holdings of coin and bullion, the amount of certificates issued against the same, and the total of certificates actually outstanding.

	May 1.	April 1.	March 1.
Gold coin Gold bullion	\$ 150,638,694 45,686,932		\$ 154,863,976 67,017,657
Gold certific's	100,825,626		221,881,633
issued Less held		104,236,400 35,424,250 68,812,150	108,443,500 50,609,070 77,843,436
Net gold not represented by certific's	139,624,831	142,259,857	144,033,209

Here we see that the actual loss by the Treasury during these two months was only about $4\frac{1}{2}$ million dollars, so it is evident that the banks have met the greater part of the demand. It is interesting to observe, however, how the different items of the_ Treasury's holdings have been affected.under the drain. It has been cheaper to ship bars, so the demand has been mainly for these, and the Treasury has been the source of supply. This is seen in the fact that while on the 1st of March the Treasury stock of bullion counted for \$67,017,657, on the 1st of May it counted for only \$45,686,932, or nearly 211 millions less. But while this movement of bars out of the Treasury has been in progress, the movement of certificates in, has been equally large, and this of course has offset the loss on that account. The gold certificates outstanding have been diminished in two ways: first by a reduction of the amount issued from \$108,443,500 to \$101,116,200. and secondly by an increase of the Treasury holdings of the same from \$30,600,070 to \$44,415,395, the two together involving a decrease in the amount outstanding of \$21,142,625, or only a little less than the whole decrease in bullion. The falling off in the stock of coin has been about \$4,200,000, which is nearly the same as the net loss of all kinds of gold by the Treasury in the two months. Turning to the bank figures, we find that whereas the associated banks of New York held \$76,848,200 specie on the 1st of March, on last Saturday, April 26, this had been reduced to \$58,215,300, a decrease of \$18,632,900. Adding this to the Treasury loss, we get a total loss of about 23 millions, against the 30 millions sent out, leaving 7 million apparently unaccounted for. But last week's bank statement, on account of the system of averages, did not reflect in full the loss of the previous seven days, while the exports of gold on Saturday, and again on Wednesday of this week, did not of course count at all in that statement. Further, as the movement of currency has all along been in favor of this centre, it is to be presumed that by an inflow from the banks of other sections our banks have been able in part to replenish the loss on account of the export movement.

But this outflow of gold has, as already stated, tem porarily received a check this week, rates for sterling exchange having been reduced on Thursday so that now actual business is being done at figures which afford little or no profit for shipments. The reasons assigned for the reduction are, the little better request for money here, the glut of money in London, and seme addition to the supply of bankers' drafts. On the latter point we hear of bills of over £300,000 drawn against investments by British capitalists in Southwestern lands. Another addition to the offerings came from bills drawn on South These, together with drafts American accounts. against a variety of shipments, have made for the week a fairly good supply. Those bankers who have been fortunate enough to secure these bills have had no occasion to send gold. Others whose engagements at the other side have been more urgent have continued to ship and are still shipping, although the profits in making exports have been fractionally reduced by the inability to obtain from the Assay Office bars of a degree of fineness greater than 900, or to get from the Sub-Treasury any more double eagles. This fact of itself would tend to re-

521

tard shipments; but it would be no bar to exports in case there was any great urgency in the demand for remittance. If foreign bankers find that they can employ any large amounts of capital on safe loans running for long enough to make it an object, periods they may draw liberally and thus keep the rates of exchange at or a little below current figures until such timo as bills made in anticipation of the movement of the next crop of cotton become available, which will be towards the end of June. But at least so long as our imports continue large, we eannot expect that the condition of our trade will justify any material reduction in the rates for sterling. The exports of gold this week amounted to \$1,777,654 77 on Wednesday, and \$302,366 92 on Thursday. It is expected that the steamers sailing to-day will take \$700,000,

In the stock market the transactions have been large this week, but, as already stated, the tendency of prices has been toward lower figures. There has also been evidence of the throwing over of large blocks of stocks, some of which have been held for a long time by parties abundantly able to carry their holdings, but who have doubtless sold because dissatisfied with the representations of those by whom they were first induced to buy. Last week and previously Union Pacific was manipulated in the direction of higher prices. This week the same stock has been poured upon the market under circumstances which seem to give some weight to the report that the pool who bought it nearly ten per cent higher have been forced to unload. Large blocks have also come from individual holders, and the bears have been able to cover their short contracts from the abundance of long stock.

On Monday Reading, the coal shares and the grangers were raided, the latter on a rumor, subsequently denied, of the rupture of the tripartite pool. The denial of this rumor was accompanied by the statement that the conference bet ween the Quincy and the Union Pacific had resulted in the appointment of commissioners to examine and report upon percentages for eight separate pools at as many different Western points, and it was stated that the prospects were good for an amicable adjustment of all the differences between the roads- in that section. On Tues. day morning a calling in of Lake Shore started a covering movement in the other oversold stocks, and the market was generally strong until the afternoon, when it became unsettled by liberal sales of Western Union, Union Pacific, and Central Pacific. The decline was arrested by a sharp advance in Central New Jersey and Reading, but the effect of this movement was only temporary and the tone was weak at the close. In the afternoon of this day an injunction was obtained in one of the State courts against the New York West Shore & Buffalo, but the papers were imperfect and the writ was annulled the next morning, causing a sharp recovery in the bonds early on Wednesday. There was also at the same time a manipulated rise in the stocks which were weakest the day before, and after a raid upon Lake Shore and Louisville & Nashville, the market was generally strong until the late trade, when news that Mr. James R. Keene was unable to meet his engagements on privilege contracts caused an unsettled feeling for the remainder of the day. On Thursday the market was again manipulated in the direction of higher prices, the smaller bears covered their short contracts, and with the exception of occasional re-actions, the movement was upward until the last hour of business. Then disquieting rumors aided the bears in a demonstration ipon Western Union, Union Pacific, Denver, and the Gould specialties, and the market was weak at the close,

lowest price previously recorded, and Union Pacific at 61, against $57\frac{1}{2}$ in 1879. The fall in Western Union was in part due to the reduction of rates on messages, which went into effect Thursday. On Friday there was a fractional advance at the opening, but under renewed depression in Union Pacific and Western Union (the former dropping to $57\frac{1}{3}$ and the latter to $59\frac{1}{4}$), the whole market became weak; lator, a rise in the Northern Pacific stocks (on reports of large earnings) was one of the features of the day, but the close was quite irregular, though generally somewhat better.

Central Pacific has not yet issued a report of its operations for the year 1883, though we have just entered upon the fifth month of the year 1884. But this week there comes, by way of California, a 'statement of the company's income during 1883, which, in the absence of the detailed report, will repay a few moments' study. It shows (what was known before) that the company's gross income during the year fell off in amount of nearly a million dollars, but it also shows that expenses were reduced over \$400,000 at the same time, so that the loss in net is only \$563,000. Still, as the balance remaining in 1882 was hardly more than nominal, this further loss in 1883 makes the company show a deficit in meeting its 6 per cent dividend of \$430,235, and this has caused unfavorable comment. How the present statement compares with those of the two years preceding, made up in the same way, appears below

		-	and the second s
Central Pacific R. R.	1883.	1992.	1881.

Result	-430,235	+35,112	+1.337,227

As compared with either 1881 or 1882-and especially the former year-the exhibit is unsatisfactory; but taken by itself, the result for 1883 is really more favorable than appears on the face. It should be remembered that the Central Pacific has large annual payments to make on account of its debt to the Government, on account of the sinking funds on its own debt, and on account of the redemption (out of land sales) of its land grant bonds. In this way, no less than \$2,337,625 was paid out during 1883, and the deficit of \$430,235 occurs because of that fact. Except for these payments there would be a large surplus, instead of a deficit, on the year's operations. It is only fair to say that payments of this kind can hardly be called a legitimate charge against income-certainly not when they reach any such amount as in the present instance. The less favorable result in 1883 than in 1882 and 1881 is to be ascribed largely to the continued reduction in rates as a result of increased competition, and also by the scaling down of charges on local business by the California Railroad Commissioners. Thus far in the present year the same influences have been at work, and the company also suffered an interruption of traffic by reason of the floods in Southern California, so that its gross receipts for the first three months fall \$647,166 below those of the first three months in 1883.

Then disquieting rumors aided the bears in a demonstration ipon Western Union, Union Pacific, Denver, and the Gould specialties, and the market was weak at the close, Western Union selling at 60¹/₂, against 56 in 1877, the

progress, and a further large loss in gross and net earnings, with also an additional loss on account of the lease of the Central of New Jersey. As the Reading is such a large producer of coal (together with the Central New Jersev, it now controls about one-third of the entire production of anthracite in the country), and is so dependent upon this item of traffic for its prosperity, the contraction in the output of that article of course affects its income and revenues to a very great extent. How the restriction worked in reducing tonnage during March is seen in the fact that the coal traffic of the road (allowing for the Central of New Jersey) reached only 376,773 tons the present year, against 660,903 tons in the same month of 1883, a decline of 284,130 tons, or over 40 per cent. That is the one unfavorable feature in the Reading's present position-the diminished demand, necessitating a reduced output of coal. Its merchandise and passenger traffic not only keep up well, but actually show an increase on the preceding year. Thus without counting those on the Central of New Jersey there were carried in March, 1884, 1,013,443 passengers, against only 970,332 in March, 1883, and the movement of general merchandise was 599,478 tons, against 589,828 tons in 1883. But of course the gain here could only in very small meas-

ure offset the loss on coal. Furthermore, the same fact that causes the Reading to make such a poor showing on its own lines, has also operated to reduce the results on the Central of New Jersey, so that there is this month another heavy loss in operating that road under the lease. As the figures of gross and net earnings in the company's monthly statement do not afford a correct comparison with 1883, by reason of the inclusion the present year of the operations of the Central New Jersey (not so included in 1883) we have prepared the following table in our usual form to obviate that difficulty.

Philadelphia & Reading RR.	Ma	rch.	Four Months.		
i nutureipnut a neturny no.	1884.	1883.	1883-84.	1882-83.	
Net earnings of Rallroad lines Deduct Central of N. J., net	\$ 718,076 199,735	690,743	\$ 3,001,390 939,327	2,830,791	
Not on Reading proper Add result on Coal Co	518,338 115,201		2,062,063 -403,754	$2,830,791 \\ +10,453$	
Total of both companies Loss on Central lease	403,137 272,311	702,502	1,658,309 -958,864	2,841,214	
Actual net result	130,526	702,502	699,445	2,841,244	

Here we see (1) that under the restriction in coal production the Reading and Central of New Jersey combined earned \$602,875 net this year, while in March last year the Reading alone earned \$702,502; (2) that taking out \$199,738 for the Central New Jersey, the Reading's own net reach \$403,137, against the \$702,502 actually earned in March, 1883; (3) that the \$199,738 net taken out for the Central of New Jersey fall \$272,311 short of meeting the monthly rental which the Reading assumed on account of the lease, so that there is this additional amount to be deducted from the Reading's net earnings of \$403,137, in order to bring the comparison back to the basis of a year ago, before the lease was made ; allowing for this, we have net earnings remaining of \$130,826 this year, against the \$702,502 which remained in March, 1883. For the four months of the company's fiscal year-December 1 to April 1-after making in full the allowances necessary on account of the Central of New Jersey lease and rental, we find that the Reading had left \$699,445 to apply to its own charges for interest, rentals, &e., against \$2,841,244 in the corresponding four months of the previous fiscal year.

The following shows relative prices of leading bonds and stocks in London and New York at the opening each day.

Money on call has been a little more active this week, and the majority of the loans at the Stock Exchange have been at $2@2\frac{1}{2}$ per cent. The demand appears to be entirely legitimate, and it is probably caused by the shifting of loans resulting from the sharp fluctuations and the decline in stocks. The movement of currency at interior points is still in this direction, and it is therefore probable that the supply of loanable funds will continue for the present at least fully to equal the demand. An important export movement in whiskey from Louisville and other distilling centres tends to relieve apprehensions which have been felt lest the banks in those localities might be called upon to make further advances in order to enable the manufacturers of the whiskey to pay the tax and withdraw it from bond. Arrangements have been made for the export of about 2,000,000 gallons of the manufacture of 1881, tax on which would have to be paid on May 5. This product is being sent to Bermuda and Germany, where it will be held at the pleasure of the owners, and the banks now loaning on the domestic warehouse receipts will accept instead those given by the foreign warehouses. The movement has already commenced, and it will probably continue until nearly all the whiskey distilled in 1881 is exported. The following statement, made up from returns collected by us, exhibits the week's receipts and shipments of gold and currency by the New York banks.

Week Ending May 2, 1884.	Received by N.Y. Banks.	Shipped by N.Y. Banks.	Net Interior Movement.
Currency Gold		\$326,000	Gain. \$3,070.000 Gain. 60,000
Total gold and legal tenders	\$3,480,000	\$355,000	Gain.\$3,130,000

The above shows the actual changes in the bank holdings of gold and currency caused by this movement to and from the interior. In addition to that movement, the banks have gained \$750,000 through the operations of the Sub-Treasury and lost \$3,800,000 by exports of gold. Adding these items, therefore, to the above, we have the following, which should indicate the total gain to the N.Y. Clearing House banks of gold and currency for the week covered by the bank statement to be issued to-day. It should be said that last week's statement was made up on declining averages, while the payments yesterday by the Treasury for interest can count only in part in this week's averages, so the statement to-day may not be as favorable as here indicated.

Week Ending May 2, 1884.	Into Banks.	Out of Banks	Net Change in Bank Holdings.
Banks' Interior Movement, as above Snb-Treas. operat'ns and gold exp'ts		\$356,000 3,800,000	Gain.#3,180,000 Loss. 3 050,000
Total gold and legal tenders	\$4,236,000	\$4,156,000	Gain. \$80,000

The Bank of England reports a loss of £1,828 bullion for the week. This represents £147,000 received from abroad and £148,828 sent to the interior. The Bank of France gained 4,439,000 francs gold and 1,439,000 francs silver. The Bank of Germany reports an increase of 12,943,000 marks. The following indicates the amount of bullion in the principal European banks this week and at the corresponding date last year

OUR DIMINISHING FOREIGN TRADE.

The course of our foreign trade during March, which was reflected by the early statements of breadstuffs and provisions exports and by the outflow of gold, is more clearly shown in the report issued this week by the Bureau of Statistics, of our total trade movement for the month. Ever since last antumn the merchandise balance has been running in our favor; but now it has been reversed, and instead of an excess of exports, we have for March an excess of imports in the sum of over 5 million dollars. In the corresponding month of 1883, the balance was nearly 17 million dollars in our favor, so that on this one month we are about 22 million dollars behind 1883. With our foreign trade in such a condition and with a further large balance duo from us for interest, ocean freight, &c., it is not surprising that the movement of gold ont of the country should have assumed large proportions. In the following table we give the merchandise imports and exports from each leading port this and last year, from which it will be seen that every port specified shows smaller exports in March 1884 than in March 1883.

EXPORTS A	ND IMPORTS	OF MERC	HANDISE AT	U. 8	PORTS.

Boston, &c Philadelphin	6,949,584 3,575,464	9,333,636	6,875,349 3,195,663	17,898,589 7,524,493	
San Francisco All other ports	2,011,477 3,063,917	7,803,493 8,059,449	3.259,078 3,238,968	10,373,873 8,506,573	
Total	61,225,820	170,244,715	60,780,603	174.052.319	

It will be noted that almost the entire difference between this and last year is due to the heavy contraction of $21\frac{1}{2}$ 9 11-10 millions in our merchandise exports, but it will also be observed that the total of the imports has been maintained at a very high figure, and is even half a million above the from t large movement of March 1883. The total is $61\frac{1}{4}$ millions, and is $6\frac{1}{2}$ millions greater than in the month of February preceding. It is true that the March imports are almost invariably heavier than those of either January or February, but in view of the fact that these latter months exhibited a falling off from 1883, it was supposed that the same would prove true of March, and to discover now that there has actually been an increase, is, to say the least, occasion for sur-

prise. For no one could anticipate in a time of business de. pression when our exports are falling to the smallest figures known for years, when gold as a result is flowing out in such amounts as to disturb the public mind-that, in this combination of unfavorable circumstances, there should be no check or interruption to the imports, a diminution of which would afford such a natural, ready means of improving the situation. The only explanation that can be made is that we have through our nufortunate currency arrangements prevented the laws of trade from asserting themselves, so that we keep on importing goods as if in the midst of the prosperous times of 1880 and 1881. If gold occupied the proper place in our currency, instead of the inferior position which it is really made to hold, the outflow in progress would speedily apply its own corrective, and a proper equilibrium be established. As it is, a recovery is delayed and for that reason more trying, since it can come only through such a depression in business as shall make prices reflect the tendency of the times. At present, it looks as if we were approaching such a condition, and as if our imports would henceforth make progress toward that lower level which they are bound to reach, before a permanent recovery can be looked for. An evidence that the large imports during March did not go into consumption is found in the fact that while at the beginning of the month the stock of goods in the warehouses was only \$30,907,627, at the end of the month it had reached \$33,330,212-an increase of nearly 24 million dollars. At the same date in 1883 the amount was \$35,469,127, but then the total was being constantly added to, by reason of a disposition to keep goods in bond to get the benefit of the new tariff law.

As to the exports, the statement that the movement is $21\frac{1}{2}$ millions below the figure of a year ago in March, conveys only an inadequate idea of how small it really is. Not since the year 1877 have we had in that month a total so diminutive as the present. To make this plain, we give below the movement each year in March since 1877.

1877	\$45.791.286	1881	\$95.069.704
1878	71,529,498	1882	62.613.872
1879	66,154.745	1883	77.651.820
1880	77,350,547	1884	56,218,705

Thus the total is smaller even than in 1878 by 15 million dollars, and as compared with the best year that March has seen-namely, 1881-there is a falling off of nearly 29 millions. The decrease from last year is, as already said, 211 millions, and turning to see how so great a loss occurred, we find that there has been a falling off in all the leading staples of domestic exports-breadstuffs, provisions, cotton, petroleum, the reduction being in breadstuffs \$7,388,416, and in provisions \$4,823,420, or together \$12,206,836. Of cotton, we have not the values, but our own statistics as to quantity show that we only shipped 379,528 bales of the staple this year, against 503,290 bales in March, 1883, a diminution of 123,762 bales. Prices, however, are considerably higher, low middling uplands being quoted at 101 and 11 1-16 cents respectively at the beginning and end of the month in 1884, while in 1883 the quotation was 9 11-16 and 9 9-16 cents. The petroleum shipments also underwent a diminution, if the figures of the movement at New York are any criterion of the total movement from the United States, though here, too, the average of prices was probably a little higher than in 1883. But the falling off in cotton, petroleum, breadstuffs and provisions does not apparently account for the whole of the 214 millions loss in the total exports, so the conclusion is, that general and miscellaneous items of exports must also have been of smaller amount this year. The breadstuffs and provisions movement from each leading port is shown

EXPORTS OF BREADSTUFFS AND PROVISIONS FROM LEADING PORTS.

But it is not only our merchandise staples of export which show a smaller movement. There is one other commodity which we produce in abundance here and for which we ought to find a foreign market in increasing amounts, but which also records a falling off. We refer to silver. Remembering that the merchandise balance was against us this year, while it was largely in our favor a year ago, and that we have plenty of silver and no gold to spare, one would naturally suppose that a greater amount of silver had gone out this March in liquidation of our indebtedness than in 1883. Such is not the case. We actually exported more silver in March, 1883, when our trade balance did not require any shipment of the precious metals in settlement, than we did this year, when such shipment was imperative. In 1883 the silver exports for the month aggregated \$2,957,474; this year the amount was only \$2,088,103, though we also imported about \$300,000 less. Of gold, on the other hand, we shipped \$12,224,135 this year, against which \$900,801 imports were received, making the net shipments \$11,323,334; while in 1883 only \$284,180 was sent out and \$3,244,859 was received, making the net ingo then nearly 3 million dollars. What better illustration could possibly be given of the effect of our over-valuation of silver and undervaluation of gold. We hold on to the poorer and get rid of the better in making settlements for merchandise debts.

Returning to the breadstuffs exports, it is of course unnecessary for us to say that wheat and flour are mainly responsible for the falling off. But corn is hardly less conspicuous in this respect, and in partial explanation it should be said that the shipments of this cereal last year were unusually large by reason of the fact that there was a heavy demand just at that time, the crop of the season of 1881 having left a large shortage which could not be met out of that of the season of 1882 until the early months of 1883. The decrease in the shipments of wheat continues to be more marked than of flour, and we have again to note that in value the two very closely approximate each other. Thus the value of flour exported was \$3,618,617, while of wheat it was \$1,387,514, or but about \$700,000 more. Rye, as Followin previous months, is noteworthy for its gains. ing are the figures.

In the provisions and dairy exports the loss is heaviest in what are termed pork products, but with the exception of tallow there is not a single item in our table that does not record a large decrease from the month of March, 1883, as will appear from the subjoined statement.

COTTON CONSUMPTION AND OVERLAND MOVEMENT TO MAY 1.

We bring down our overland statements to day to May 1. The figures now cover the first eight months of the crop season.

OVERLAND MOVEMENT TO MAY 1, 1884.

The gross rail shipments during April record a decrease from the figures for the same month of the two previous years, the month's movement being 80,276 bales, against 89,155 bales last year and 80,683 bales in 1882; for the eight months the total now reaches 953,946 bales, against 1,078,811 bales and 997,768 bales respectively for the same period of the two preceding seasons. In the *net* movement the falling off is equally decided, the April figures being only 20,398 bales, while in 1883 they were 27,538 bales, and in 1882 reached 35,157 bales. The total for the season up to date is 546,726 bales, against 599,862 bales last season and 429,630 bales in 1881–82. Our usual table, giving in detail the movement for the eight months of this year and the two preceding years, is as follows.

* This total includes shipments to Canada by rail, which, since Sept. 1, 1883, amount to 18,443 bales.

RECEIPTS, EXFORTS AND SPINNERS' TAKINOS.

The falling off from previous seasons in the receipts at the ports, noted last month, has continued during April. The month's movement has been only 111,755 bales, against 284,519 bales in 1883 and 147,595 bales in 1882, making the total for the eight months 4,706,873 bales, against 5,630,189 bales for the same period last season and 4,438,235 bales in 1881-82. Exports during the month exhibit a marked decline from the two preceding years, reaching the small total of 186,098 bales; for the same time last year the figures were 388,058 bales and in 1882 reached 352,348 bales. For the eight months of the season the total exports reach 3,509,981 bales, against 4,106,241 bales in 1882-83 and 3,038,206 bales in 1881-82-Port stocks are now about 103,389 bales below those at the same time in 1883, and the stocks at the interior towns are fully 80,000 bales less than on April 30 last year. The receipts, exports and stocks, presented in our usual form, are as follows :

• Great Britain exports include to the Channel. Using the facts disclosed by the foregoing statements, we shall find that the portion of the crop which has reached a market through the outports and overland, and the Southern, consumption since September 1 this year and the two previous years, is as follows.

	1883-84.	1882-83.	1881-82.
Receipts at the ports to May 1bales.	4,706,873	5,630,189	1,438,235
Net shipments overland during same time	546,726	599,562	429,630
Total receiptebales.	5,253,599	6,230,051	1,867,885
Southern concumption since September 1.	264,000	275,000	210,000
Total to May 1bales.	5.517.599	6.503.051	5.077.865

The amount of cotton marketed since September 1 in 1883-84 is thus seen to be 987,452 bales less than in 1882-83 and 439,734 bales more than in 1881-82. To determine the portion which has gone into the hands of Northern spinners during the same period, we give the following.

Total receipts to May 1, 1884, as abovebales. 5,517,599 Stock on hand commencement of year (Sept. 1, 1883)- At Northern ports
At Southern ports
At Providence, &c., Northern interior markets. 5,011- 237,117
Total supply to May 1, 1884 5,754,716
Of this supply there has been exported to foreign ports since Sent.1, 1883, 3,509,081
Less foreign cotton included 7,253-3,502,728
Sent to Canada direct from West 18,443
Burnt North and South 12,657
Stock on hand end of month (May 1, 1884)-
At Northern portsbales. 370,710
At Southern ports 185,327- 556,037
At Providence, &c., Northern interior markets 9,073-4,098,938
Total takings by spinners since September 1, 1883 1,655,773 Taken by Southern spinners
Taken by Northern epinners eince September 1, 1883 1,391,778

responding period of 1882-83 of 147,190 bales and from the same months of 1881-82 of 1,109 bales.

AMOUNT OF CROP NOW IN BIOHT.

In the foregoing we have the number of bales which has already been marketed this year and the two previous seasons. An additional fact of interest is the total of the crop which was in sight on May 1, compared with previous years. We reach that point by adding to the above the stock remaining at that date at the interior towns, less stock held by them at the beginning of the season. In this manner we find the result for three years on May 1 to be as follows.

	1883-84.	1882-83.	1881-82.
Total marketed, as abovebales. Interior stocks in excess of Sept. 1	5,517,599 35,000		
Total in sightbales.	5,552,599	6,673,051	5,190,265

This indicates that the movement up to May 1 of the present year is 1,120,452 bales less than in 1882-83 and 362,334 bales more than in 1881-82.

As it will interest the reader to see what has come into sight each month of the season during this and previous years, we have prepared the following, which shows the movement for the last three seasons.

Months.	1883-84.	1882-83.	1881-82.
September. October. November. December. January. February. March.	453,985 370,337 262,772	402,336 1,180,761 1,402,952 1,435,006 803,565 664,834 518,540 265,057	550,673 1,093,382 1,213,870 1,240,407 455,495 301,069 207,974 127,395
April Total 8 mouths	$-\frac{107,153}{5,552,599}$	6,873,051	5,190,265

WEIGHT OF BALES.

To furnish a more exact measure of the receipts up to May 1, we give below our usual table of the weight of bales. We give for comparison the figures for the same time the two previous years.

	Eight mon	the ending May 1	, 1884.	Same peri'd in 1882-83.	
	Number of Bales.	Weight in Pounds.	Average Weight.	Average Weight.	Average Weight.

• Including Florida.

mine the portion which has gone into the hands of Northern spinners during the same period, we give the following. It will be noticed that the movement up to May 1 shows a decrease in the average weight as compared with the same periods of the last two years, the average this year being 482.11 lbs. per bale, against 489.95 lbs, per bale for the same time in 1882-83 and 474.58 in 1881-82.

THE COTTON GOODS TRADE IN APRIL.

There has been a fairly active demand for plain and colored cottons in the leading markets during the first two weeks of the month, owing to the upward tendency of the raw material; but buyers supplied their immediate and near prospective wants, and the market again relapsed into a quiet condition. Exceptionally low prices stimulated large dealings in cotton flannels, and there was an active demand for these goods throughout the month. Brown, bleached and colored cottons have ruled steady in price, and Atlantic sheetings were advanced $\frac{1}{4}c$. per yard on the 25th inst. Print cloths were in fair demand, and a trifle dearer at times, but closed weak and lower. The stock of print cloths in the hands of manufacturers and speculators at the close of the month reached about 775,000 pieces, against 689,000 pieces on April 1, 1884, 602,000 pieces on May 1, 1883, and 1,276,000 pieces on May 1, 1882. The proposition to restrict production by partial shutting down of the cotton mills in New England, and by reducing the hours of labor, has met with much favor among many manufacturers. Some of the mills, however, are bound by foreign contracts, while still others have on hand a full supply of the raw material, so that the short-time movement will not be uniform; but it is expected that there will be a considerable reduction in running time. It is now stated that the Lowell companies will shut down one day of each week (Saturday) beginning May 3.

FINANCIAL REVIEW OF APRIL.

The two events in April which excited more attention than any others were the continued large export of gold and the extreme depression in stocks in the latter part of the month.

The export of gold, in view of the trade situation as to foreign commerce, seemed perfectly natural; and except for the silver question and the piling up of silver dollars by the continued coinage of \$28,000,000 annually, the export of \$50,000,000 gold in the present half-year might not be regarded with any particular apprehension in the plethoric condition which our money market has been in for a long

time past. The shipments of gold from New York in April were about $18\frac{1}{2}$ million dollars, and the shipments since January 1 about $31\frac{3}{4}$ million dollars, these being the net amounts in excess of imports.

To regular readers of the CHRONICLE who had been well informed that the cotton crop of 1883 was 1,000,000 bales short of 1882, and the wheat crop was about 80,000,000 bushels short, it could hardly be surprising that the trade movement of the first-half of the present year did not compare well with its predecessors.

The money market was affected only to a slight degree by the decrease in gold, and the city banks did not fall below the legal limit in their reserves.

At the Stock Exchange the latter half of the month was marked by an extreme depression in prices throughout nearly the whole list, and the lowest points reached by many stocks were the lowest they had touched in several vears. While the immediate cause for this decline was to be found, as usual, in the action of prominent operators, the movement was based on the decline in railroad earnings on a number of leading roads-notably the Union Pacific, Pennsylvania Railroad, Erie, and presumably the other trunk lines not reported, also the Philadelphia & Reading, and, as supposed, the Wabash and Southwestern Gould roads, the earnings of these latter in 1884 having been suppressed. The Gould stocks were among the weakest, and the Stock Exchange rumors gave to Mr. Gould the credit of being the chief operator for a decline in the present movement. At the close of the month the tone was a little better; but prices-especially of Western Union and Union Pacific-showed but little recovery as compared with the heavy decline that had previously taken place.

Foreign Exchange was necessarily firm to permit of the export of so much gold, and the depression in stocks probably had the effect of checking any large purchases here for foreign account.

The following summary shows the condition of the New York City Clearing-House banks, rate of foreign exchange and prices of leading securities and articles of merchandise, on or about the 1st day of May, 1882, 1883 and 1884.

[From our own correspondent.]

LONDON, Saturday, April 19, 1884.

Business during the past week has presented much of a holiday appearance; but the features which have manifested them selves may, on the whole, be regarded as favorable. If very cheap money is a sign significant of prosperity, the trade and financial business of the future should be very remunerative; but, unfortunately, the want of confidence which has been prevailing for so protracted a period has restricted genera business to such an extent that the financial requirements of the community are now unusually limited. Gold continues to arrive from the United States in large quantities, and a considerable amount has now been piled up at the Bank of England. The supply of bills in the discount market is very limited, and as there is but little inquiry for money for financial purposes the rates of interest for loans, as well as the rates of discount, have declined during the week to a considerable extent, more especially when it is borne in mind how low the quotations previously were. The position of the Bank of England must continue to improve during the next few weeks, and the opinion is becoming very general that a 2 per cent Bank rate is more than probable. Business throughout the country during the remainder of the spring and during the earlier summer months is likely to remain stagnant, and it is just as difficult to foresee the future as it was months ago. Cheap money and reasonable prices for food fail at the present time to give a stimulus to activity quite as distinctly as they did last year, and calculations and opinions regarding the future possess but little value. Merchants will undoubtedly pursue the same inert policy that has so long been the characteristic of the commercial world, and it is evidently the better course at present.

The Bank of England return issued this week is favorable, and the proportion of reserve to liabilities has risen from 4534 to 4734 per cent, an improvement of 2 per cent. The increase in the supply of bullion, notwithstanding that £321,000 was sent into the establishment during the week, does not exceed £90,694; but this may be accounted for by the fact that the holidays have caused a large increase in the circulation of gold coin. The supply of gold held by the Bank now amounts to £25,136,242, against £21,258,805, while the total reserve is £15,373,022, against £11,302,765 last year. "Other securities" amount to £22,032,307, contrasting with £22,182,240 in 1883.

The demand for money has fallen away considerably, and the rate for short loans is now 11/2 to 2 per cent. The discount market has been very quiet, and the rates have had a downward tendency. A still further increase of ease is anticipated.

The following are the quotations for money and the interest allowed by the discount houses to-day and same day of the previous five weeks:

In reference to the state of the bullion market during the past week Messrs. Pixley & Abell remark:

past week Messrs. Pixley & Abell remark: Geld.—The lnflux of go'd from America has in no way abated, and the Bank of England still continues to receive the bulk of arituals. The mounts bought during the past week ancuat to \pounds S1,000, egainst \pounds 60,000 sold. The only demand is for slipment to Fouth America, and for a small amenot to fudia, the former sum being about \pounds 00,000. The arrituals are: \pounds 499,600 from New York, \pounds 7,000 from River Plate, \pounds 5,000 from the West indices and \pounds 1,000 from the Cape; total, \pounds 15,-700. The Royal Mail stearer Don takes \pounds 10,000 to the West Ind es. Silter has made a considerable advance since cur last, and the pice, which was quoted as 50^9 gd. on Wednerday last, may new be called 50^3 dd, owing to increased business for indicand a Continental dem and. We have received \pounds 66,0.0 from the River Plate, \pounds 4,000 from the

Pacific ceast (bet \pounds SO,000 as mentioned), \pounds 6,600 from New York and \pounds 4,200 from the West Indics; tetal, \pounds 120,800. The Don takes \pounds S,000 to the West Indics, and the P. & O. steener \pounds 142,500, in bars, to Bembar. makay. Subtraction of the second state of the

Advices from Berlin state that a new Russian 5 per cent loan has been arranged, the price of issue being 86 per cent. It is understood that it is already a success, as the Prussian Government has lent it its moral support. The total amount of the loan is £15,000,000, and the object is, as usual, to construct railways in those districts which need them, Russian securities are still held in favor by Continental capitalists, but they are less sought after in this country. The Russian Government, however, is too astute to fail in its obligations, and there is no doubt many here will make investments even at a premium. Even supposing the quotation to advance to 90, a good and comparatively safe rate of interest is obtainable.

It is a satisfactory feature in commercial circles that the creditors of Messrs. im Thurn & Co., who failed in 1875 with gross liabilities amounting to £3,000,000, have been paid 20s. in the £.

The weather during the week has been bitterly cold, with strong easterly winds and with some slight showers of rain. Vegetation has been kept seriously in check, and some are of opinion that the fruit crop, which promised well, will be injured. The little rain which has fallen is not, however, calculated to do much harm, and the frosts being dry ones, not much harm has probably been done. It is when late frosts are accompanied by much rain that anxiety becomes reasonable. For the cereal and other crops the weather has been satisfactory, and it cannot now be said that vegetation is in a forward state. Some warm and genial rains will, in fact, soon be welcome, especially in those districts where the soil is light.

The wheat trade has remained in a very dull and inactive state. Where sales are pressed, lower prices have to be accepted; but there is no actual change. The course of the wheat trade in the United States is being closely watched, and buyers operate here with great, and no doubt judicious, caution. It will be seen by the figures given below that although the stocks of wheat in the United Kingdom are considerably less than at the commencement of the year, they are largely in excess of last year. The stocks of flour have not varied to any important extent.

The quantities of wheat, flour and Indian corn afloat to the United Kingdom, not including those from the Baltic, are as follows:

At present.	Lust week.	Last year.	1882.
Wheatqrs.1.9 0.000	1,853,000	2.186,000	2,205,000
Flour 281.000	302,000	214,000	212,000
Indian corn 132.5 0	194,500	268.000	1/32 000

In the following statement is shown the extent of the sales of home-grown wheat, barley and oats' in the 187 principal markets of England and Wales during the first 33 weeks of the season, together with the average prices realized, compared with those in 150 markets in the previous seasons :

		LES.		
	33-84.	1882-83.	1881-82.	1880-81.

C1 11				

Converting quarters of wheat into hundred-weights, the total sales in the whole kingdom arc estimated as follows :

1883-84. ...ewt.28,934,000 1882-83. 28,902,035 1881-82. 1880-81. 24.778,140 21,124,000 Wheat ... This aggregate is arrived at by multiplying the sales in the 187 markets above by 31₃, and that result is reduced to ewt. by multiplying it by 41₃. This proportion between the 187 markets and the totals for the kingdom is adopted by the London gran trade and is accepted by it as producing a result approximately correct.

Annexed is a return showing the extent of the imports of cereal produce into the United Kingdom during the first 33 weeks of the season, &c.:

Commercial and Miscellaneous News

- IMPORTS AND EXPORTS FOR THE WEEK.—The imports of last week, compared with those of tho preceding week, show a decrease in both dry goods and general merchandise. The total imports were \$7,513,279, against \$8,485,041 the pre-ceding week and \$7,867,135 two weeks previous. The exports for the week ended April 29 amounted to \$5,984,831, against \$5,157,159 last week and \$5,018,570 two weeks previous. The following are the imports at New York for the week ending (for dry goods) April 24 and for the week ending (for general merchandise) April 25; also totals since the beginning of first week in January: week in January:

FOREIGN IMPORTS AT NEW YORK.

For Week.	1881.	1882.	1883.	1884
Dry goods Gen'l mer'dise	\$1,955,590 9,882,655		\$2,268,997 7,411,867	\$1,548,108 5,967,171
Total Since Jan. 1.	811,633,243	\$10,198.931	\$9,710.764	\$7,313,279
Dry goods Gen'i mer'dise	\$41,890,791 09,863,805		\$47,352,139 107,926,642	\$44 137.534 104.277.159
Total 17 weeks.	\$141,703,596	\$170,785.083	\$155,279,081	\$148,431,913

In our report of the dry goods trade will be found the im-ports of dry goods for one week later. The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending April 29, 1884, and from January 1 to date:

EXPORTS FROM NEW YORK FOR THE WEEK

	1891.	1882.	1883.	1884.
For the week Prev. reported	\$6,911,596 120,200,067			
Total 17 weoks.	\$127,111.663	\$103,985,669	118,377,734	\$96,413,183

The following table shows the exports and imports of specie at the port of New York for the week ending April 26, and since January 1, 1884, and for the corresponding periods in 1883 and 1882:

Cold	Expo	orte.	Imports.		
Gold.	Week.	Since Jan.1.	Week.	Since Jan.1.	
Great Hritain France Germany West Indies Mestico South America All other countries	\$3,579,120 1,201,444 652,521 258,400 115,500	1,331,841 2,121,038	* 714,100 387,410 4,548		
Total 1884 Total 1883 Total 1882	\$5,806,985 250,000	\$32,915,869 121,250	\$1,106,058 7,819	\$2,953,004 2,722,199 456,402	
Silver. Great Britain France	\$204,200 27,117 6,905 3,000		\$ 7,427 33,069	\$1,068 37,052 109,865 1,158,762 57,674 18,521	
Total 1884 Total 1883 Total 1882	\$241,222 254,780	\$4,929,801 5,443,394 3,679,357	\$40,496 6,331 313,285	1,747,095	

Of the above imports for the week in 1884, \$1,000 were American gold coin and \$235 American silver coin. Of the exports during the same time \$1,065,500 were American gold coin.

Nevada & Oregou (N. G.).—This road was sold April 17, at Reno, Nev., under mortgage, to Mr. Moran of New York, who will reorganize the company and complete the road. It now runs from Reno to Oneida, 30 miles.

-Messrs. Geo. H. Prentiss & Co. have just removed into fine and commodious offices at 49 Wall Street. This firm, besides dealing in all stocks and bonds on the New York Stock Ex-change, buy and sell gas, insurance and city railway stocks and bonds. Their quotations will be found in their card in the INVESTORS' SUPPLEMENT of April 30, 1884.

-Attention is called to the removal of Messrs, G. K. Sisarcticention is called to the removal of Messrs, it. K. Sis-tare's Sons to new and elegant offices at 18 Broad Street. This firm is one of the oldest in the city in town, city and county investment securities. They are also members of the New York Stock Exchange and execute orders for all the active stocks

--The old and conservative house of Messrs. Jesup, Paton & Co. are succeeded May 1 by John Paton & Co. The senior partner of the old house, Mr. Morris K. Jesup, becomes the special partner in the new house; Mr. Alex. J. Leith retires and Mr. Benjamin Graham is admitted. Otherwise the firm remains as heretofore.

-Messrs. Winslow, Lanier & Co., bankers, give their usual monthly notice of the payment of a large number of coupons May 1, at their banking house, 26 Nassau Street.

The following office changes occurring May 1 among subscribers of the CHRONICLE are noticed :

The following office changes occurring May 1 a seribers of the CHRONICLE are noticed :
Morton, Bliss & Co., to 28 Nassan Street.
Nutnal Life Insurance Co. to 32 Nassan Street.
John Munroe & Co., to 32 Nassan Street.
Hanover Fire Irsurance Co. to 40 Nassan Street.
Jesse Young to 34 Nassan Street.

## NEW YORK, FRIDAY, MAY 2, 1884-5 P. M.

The Money Market and Financial Situation .- A week The Money Market and Financial Situation.—A week ago we referred to the general movement on the part of manufacturers in all parts of the country, and in almost every line of industry, to reduce the cost of producing their goods by reducing the wages of operatives, thus accepting the current low prices of commodities as comparatively permanent, and thus also requiring the railroads to prepare to accept the lower rates of transportation that the changed conditions have forced upon them, making a corresponding reduction in the cost of operating. This latter reduction is now in progress on many railroads, some of which are making contracts for the year for coal at prices which will reduce the cost of fuel 10 per cent.

railroads, some of which are making contracts for the year for coal at prices which will reduce the cost of fuel 10 per cent. The Union Pacific Railroad also gives notice to its employes of a reduction in wages and salaries on May 1st, which will average probably 11 per cent of all salaries and wages paid, and of course salaries constitute one of the main items in the cost of operating a road. If, now, allowance be made for the lower cost of all materials, supplies, &c., it will be seen that we have here the means of very materially decreasing the ratio of expenses to earnings, which later on may make itself apparent in more favorable returns of net earnings. The movement of grain from the producers' hands to the primary markets in the principal Western eitics is steadily diminishing, and the eastward movement of products also diminished during the latter part of the past month. The ex-ports for the week to April 26 had not yet begun to show the effects of the speculative rise in the prices of wheat in this country, and showed a slight increase over the preceding week. But the fact that the price of wheat has been advanced 10 cents per bushel here, and has been met by little or no ad-vance in the foreign markets, shows that the American markets have got so far away from the foreign that exports must again be expected to decline. The advancing tendency of rates of interest in the New York market, though not manifest in any very important change in the quotations, has still had a decided effect on the foreign exchanges. Money is now so superabundant in London and on the Continent that the slight hardening tendency here has been sufficient to cause a reduction of ½c, on the £ on ster-ling exchange, which brings it to figures where there is scarcely any profit in making shipnents. The total exports of gold in the week from Friday the 25th to Friday, May 2, were \$3,836,144, and about \$700,000 more has been engaged for ship-ment to-mortow.

3,836,144, and about \$700,000 more has been engaged for ship-

\$3,836,144, and about \$700,000 more has been engaged for ship-ment to-more. Money on call on stock collaterals in the last week has ranged from  $1\frac{1}{2}$  to 5 per cent, the great bulk of the transac-tions, however, being made at  $2\frac{1}{2}$  to 3. This is an advance averaging about 1 per cent over the range of the several previous weeks, but it has been made more by an increasing disposition of lenders to advance the rates, in view of the possibility of a diminished supply later on, than from any immediate decrease or any increase of demand. Money is also still moving to this city from the interior, the domestic exchanges in all the Western and Southern cities being in favor of New York, and the prospect is fair of a continued good supply. Nevertheless there is less disposition to make time loans at low rates. There is no more  $3\frac{1}{2}$  per cent time money, though loans on dividend stocks can yet be had at 4 per cent. Discount rates for mercantile paper remain unchanged at 4 and  $4\frac{1}{2}$  for endorsed paper for 2 and 4 months and 5 and  $5\frac{1}{2}$ for single names. and 41/2 for ende for single names.

for single names. The weekly statement of the Bank of England showed a loss of £1,828 in specie and a reduction in the reserve to  $48\frac{1}{2}$  per cent from 49 per cent last week. The Bank of France gained 4,439,000 francs in gold and 1,439,000 francs in silver. The Bank of Germany gained 12,943,000 marks in specie specie.

The following table shows the changes from the previous week and a comparison with the two preceding years in the averages of the New York Clearing House banks.

	1384. April 26.	Differ'nces fr'm previous week.	1983. April 28.	1882. April 29.
Circulation Nat deposits .	58,215,300 14,493,800 335,654,000	Dec \$3,969,400 Dec. 2,535,100 Inc. 30,500 Dec. 4,977,330	53,736,830 16.342,404 289,922,400	65.989,909 18.942,500 297,259.80
Lagal tendere Legal reserve. Reserve held Surplus	\$83,921,000	Inc. 1,144,000 Dec.\$1,241,325 Dec. 1,391,100 Dec. \$146,775	\$72,180,300 73,375,800	\$74,312,70

Exchange.-The market for sterling has kept rather firm all the past week, and the supply of commercial bills has been

very light. Nevertheless, in view of the hardening tendency in the money market here and the extremely easy money in London, the posted rates for sterling were reduced on Thursday  $\frac{1}{2}$  cent on the £, to 4 88 and 4 90. The rates for actual business at the same time were reduced as follows, viz.: Sixty days, 4  $87\frac{1}{4}@4 87\frac{1}{2}$ : demand, 4  $89\frac{1}{4}@4 89\frac{1}{2}$ ; cables, 4  $89\frac{3}{4}$ . Commercial bills sold at 4  $85\frac{1}{2}@4 86\frac{1}{2}$ .

United States Bonds.—Government bonds have been a little more active this week at fractionally lower prices. The closing prices at the N. Y. Board have been as follows:

* Includes \$326,000 gold certificates taken out of cash.

Railroad and Miscellancons Stocks .-- The general course of the stock market in the last week, like that of the several previous weeks, has been toward lower prices, and many of the leading speculative stocks touched lower figures in the the leading speculative stocks touched lower figures in the last few days than they have touched before for many years. The main causes for this decline are the competition, and con-sequent reduction in rates of freights and fares on railways, and of the charges for messages on telegraph lines. Among the railroads in the Trunk Line Pool, competition has reduced freights between Chicago and St. Louis and New York to where there is no profit in doing the work. The struggle between the Union Pacific and its tripartite allies and the Burlington & Quincy remains undecided yet. The association of Trans-Continental roads for the maintenance of rates appears also to be in danger of dissolution, and some of and the binnington to quincy remains undeclated yet. The association of Trans-Continental roads for the maintenance of rates appears also to be in danger of dissolution, and some of the features of the market in the last week have indicated the probability of a struggle between various Trans-Continental interests for the control of the Oregon Railway & Navigation Co.'s lines. The decline in prices has been increased and pro-longed by the temper of some of the most prominent operators who have been on the bear side of the market, and Mr. Gould has the reputation of having been a heavy seller of stocks. An incident of the continued decline was the suspension on Wednes-day of Mr. James R. Keene, who was unable to take the stocks tendered to him on his outstanding puts. Pretty nearly the whole market is lower than a week ago, but Union Pacific, Central Pacific and Western Union Telegraph have sustained the largest depreciation, amounting for the week to 6@9 points. About the only stocks that have advanced are those of the Northern Pacific system, which are higher on large earnings. Delaware Lackawanna & Western has been very firmly held, and closes ½ higher than last Friday. and closes 1% higher than last Friday.

## RAILROAD INTELLIGENCE.

The INVESTORS' SUPPLEMENT contains a complete exhibit of the Funded Debt of States and Cities and of the Stocks and Bonds of Railroads and other Companies. It is published on the last Saturday of every other month—viz., February, April, June, August, October and December, and is furnished with-out extra charge to all regular subscribers of the CHRONICLE. Extra copies are sold to subscribers of the CHRONICLE at 50 cents each, and to others than subscribers at \$1 per copy.

## ANNUAL REPORTS.

#### Chicago St. Louis & Pittsburg Rallroad Company. (For the year ending Dec. 31, 1883.)

The tirst annual report of this railroad company, formerly the Col. Chic. & Ind. Central, has just been issued, and after recit-ing the facts relating to the foreclosure and reorganization,

Col. Chie. & Thie. For the property of the foreclosure and reorganization, says:
"Your company having completed its organization March 20, 1983, took possession of your property April 2, 1883, and the portion of the road in Illinois having been operated in connection with the residue of the property the figures hereinafter submitted cover the working of the entire line.
"Under the provisions of the agreement entered into between the creditors and stockholders of the C. C. & I. C. Railway Company, the consideration to be paid by the C. St. L. & Pitts. Railroad Co. for the property in question was:
"First. The assumption of the mortgage debts of the original companies consolidated into the C. C. & I. C. Railway Co., amounting to \$5,334,831, of which there have been paid to Dee. 31, 1883, \$294,600; outstanding Dec. 31, 1883, \$5,010,234.
"Second. The delivery to the purchasing committee of the following scentrities of your company, to be by them delivered to the holders of the securities of the C. C. & I. C. Railway Company, in accordance with the plan of reorganization, viz.; \$22,000,000 proferred stock and \$10,000,000 common stock : but with the agreement that such of the securities as should not be needed for the above purpose should be returned to your company.

company. "There have been issued to Dec. 31, 1883, of these securities:

Commen steek	\$6.570.142
Amount to be used in exchange for stock of the C. C. & I.	
C. Railway Co., when presented	3.178.957
Balance in the treasury of the company	230,900
Preferred stock, issued to Dec. 31, 1883	
To be issued	431,400
Balance in treasury	2,167,400
Five percept consol, first mortgage issued to Dec. 31, 1883	\$12.503.000
To be issued in redemption of certificates	116,000
Reserved for payment of sectional bonds	5,500,0 0
Balance in treasury of the company	3 831 000

The amount of interest on bonded debt appearing in the

The increase of earnings from freight was the result of bet-ter rates obtained during the year on this class of business, the tonnage and ton mileage having both decreased. The decrease in the tonnage was mainly owing to reduced crops of cereals during the past year, and to the fact that a large amount of basiness which formerly passed over the line to and from the New York Lake Erie & Western Railway was transferred to the Chicago. "The ratio of expenses to carnings was 81 90-100 per cent, as against 86 27-100 per cent in 1882; but this was partly due to the policy adopted of charging to construction account the cost of improvements and additions made since your company assumed control of the property and which, under the administration of the receivers of the C. C. & I. C. Railway, had been charged to expenses." The condition of the car equipment has also been bett red, and additions made thereto. The condition of the track,

Du Otl Mis

(For the year ending Dec. 31, 1883.)

(For the year ending Dec. 31, 1883.) The comparative statistics of this report were compiled and presented in the CHRONICLE of last week on page 507. From the report of the President, Mr. Marvin Hughitt, the following details are obtained: The average number of miles of road operated during the whole year, including leased lines, was 1,187. The miles in operation Dec. 31, 1883, were 1,275, an increase over Dec. 31, 1883, of 160 miles; proprietary roads, 5; total miles. 1,280. The capital stock of the company was increased during the year on account of 40 43-100 miles Superior Branch and 10 miles Bayfield Extension, \$756,400 common stock and \$501,300 preferred: being at the rate of \$15,000 per mile of common stock and \$10,000 per mile of preferred; total, \$1,260,700; less common stock for scrip, \$240; net increase, \$1,260,460; making the amount of stock at the clese of the year 1833, \$10,329,393 common stock and scrip, and \$11,234,232 reforred stock and scrip, or a total of \$30,593,626.

The bonded debt was increased during the year by the issue of C. St. P. M. & O. R'y consolidated mortgage bonds and scrip at the rate of \$15,000 per mile on the lines above named, and on 54 67-100 miles of the Chippewa Falls & Northern Rail-way, making a total of \$1,576,500; add for scrip issues account fractional mileage of new lines built in previous years, etc., \$632; total increase, \$1,577,132; total bonded debt Dec. 31, 1883, \$21,161,620. Equipment has been increased during the year by the pur-chase of 16 locomotives, 2 dining cars, 9 first-class passenger cars, 4 baggage, express and combination cars, 2 caboose cars and 200 coal cars.

Equipment has been increased during the year by the pur-chase of 16 locomotives, 2 dining cars, 9 first-class passenger cars, 4 baggage, express and combination cars, 2 caboose cars and 200 coal cars. The lines in Wisconsin under construction at date of last annual report are finished and in operation, in addition to which has been built a line from Eau Claire to Chippewa Falls under the franchises of the Eau Claire & Chippewa Falls Rail-way, 10 58-100 miles in length, uniting the Eastern and North-ern Divisions, and completing a direct line between Eau Claire and Lake Superior termini. This road, as well as the remainder of the Chippewa Falls & Northern Railway with which it connects, was purchased by the C. St. P. M. & O. Ry. Co., when completed, in accordance with the laws of Wisconsin. "A promising but hitherto undeveloped section of North-eastern Nebraska has been opened up by the construc-tion of the Hartington Branch, under the charter of the Sioux City & Nebraska Railroad, beginning at Wakefield station on the Norfolk line of the Nebraska division, and extending north-westerly a distance of 33 76-100 miles through Dixon and Cedar counties to Hartington. The line is direct, following the val-leys of the Logan and Bow, with nominal grades. It is laid with cedar ties, new 56-pound steel rails, equipped with three station houses, side tracks, stock yards, five section houses, three water tanks, and one two-stall engine house. This line was opened for business November 1st, and was purchased, when completed, by this company." The land commissioner's report has the following : "The lands disposed of during the year from the several grants of the company were as follows, viz.: From the West Wisconsin Railway Grant, 40,548 acres; consideration, \$120,388; an average of \$7 74 per acre. From the North Wisconsin Railway Grant, 155,608 acres; consideration, \$12,04,388; an average of \$7 74 per acre. From the Superior Railway Grant, 22,849 acres; consideration for lands and lots disposed of during the year amou

were as follows :

Cash sales and advance payments. Land contracts and bills receivable. Interest on land contracts, bills receivable, etc Stumpage, trespass, hay, taxes, etc	305,709	
Total cash receipts		

Tee following statement shows amounts of outstanding land contracts and bills receivable at end of year:

407,831 78,576 \$2,206,493 The acreage account for 1883 is as follows :

No. of acres Acquired. North Wisconsin 46,073 West Wisconsin	No. of acres Conveyed. 134,593 29,021 20,286	Dec. 31, 1 No. of acres Under Contract. 113,330 158,999 2,553	No. acres Un-

Balance for dividends	\$1,893.757	\$3,591,642	\$3,126,295
New construct'n, imp'vm'ts,eio.	\$350,627	\$1,549,109	\$2,169,808

New construct'n, imp'vm'ts,elo. \$350,627 \$1,549,109 \$2,169,808 The figures above show a net decrease in the net profits for 1883 from the year 1881 of \$1,767,462, or in the past two years a net reduction of 36 per cent. The balance available for divi-dends on the business of 1883 amounts to 5½ per cent on the capital stock. The rates for freights and fares charged by the company have been steadily decreased, as experience has shown they must continue to do in the future to meet the requirements of competition and to encourage the develop-ment of traffic. The average rate charged on the whole sys-tem, from the Rio Grande to the Great Salt Lake per passen-ger per mile was for 1881 3.06 cents, for 1882 2.92 cents, for 1883 2.73 cents. Had the average charged for the whole system in

1881 been maintained in 1883, the passenger receipts for the latter year would have been \$960,661 more than they actually were. The freight statistics not being fully compiled as yet for the year, no comparison is made.

Connotton Valley.—The plan for reorganization (the main points of which have already been published in the CHRON-ICLE) has been finally agreed upon, with the following modi-fications: 1. Dividends on preferred stock are made cumula-tive. 2. Seven of the pref. stock directors and one of the common stock directors are to be citizens of Ohio. 3. The trustees are to fill any vacancy in their own number.

Indiana Bloomington & Western.—Mr. Austin Corbin, President, says the road has been placed in a good working condition, without the increase of a dollar to its floating or funded debt. There have been expended in improvements from net earnings \$900,000, and the road is in a condition to work with considerable activity. An understanding has been come to with President Rutter, of Cleveland & Indianapolis, which will enable the Indiana Bloomington & Western to operate its 850 miles of road in harmony with the Vanderbilt lines.

Lehigh Coal & Navigation—Nesquehoning Valley.—The option of extending the stock of the Nesquehoning Valley Rail-road Company, operated by the Lehigh Coal & Nav, Co. expired May 1. The lease gave the Lehigh Navigation Company the right to pay the par value of the stock on Sept. 1, and stock-holders were given the option to extend their stock upon a guarantee of 5 per cent. About 18,000 shares have been so extended extended.

Louisiana State.—A dispatch from New Orleans, April 26, says it is regarded as certain the first amendment to the State Constitution, fixing the rate of interest on the debt, has been carried.

Lowell & Framingham—Old Colony.—At South Framing-ham, April 26, at a meeting of the stockholders of the Lowell & Framingham Railroad, consolidation with the Old Colony Railroad was voted by 3,634 shares to 39 shares against it. The Old Colony Railroad will issue 4½ per cent bonds in exchange for the Framingham & Lowell bonds, and will give one share of its stock for four shares of the preferred stock of the Lowell & Framingham, and one share for 20 shares of the common stock. On the basis of par for everything, the s500,000 Lowell & Framingham bonds will cost the Old Colony \$500,000 ; the \$450,000 Lowell & Framingham preferred will cost \$112,500; the \$300,000 Lowell & Framingham common will cost \$15,000,—\$627,500 for 26 miles of read, or \$24,000, in round numbers, per mile, the purchase carrying with it an entrance into the second largest city in the State. The Lowell & Framingham Railroad was opened in 1871, is 26 miles long, from Lowell to Framingham, and has been leased to the Boston Clinton Fitchburg & New Bedford Railroad and latterly to the Old Colony Railroad. —The late sale of 2,000 shares of Old Colony stock was to provide in part for the \$400,000 Agricultural Branch 6s matur-ing in July, and inherited as a legacy from the Boston Concord Fitchburg & New Bedford road at the time of consolidation. These bonds will be redeemed.

These bonds will be redeemed. Memphis & Little Rock.—At Little Rock, Ark., April 24, in the United States Chancery Court, a decree was rendered against the Memphis & Little Rock, compelling the railroad to issue certificates of deferred stock to all holders of second mortgage bonds issued to holders of Arkansas bonds and for its floating debt, and to holders of income bonds of the com-pany subsisting February 15, 1879, who shall surrender the securities and file them in the Master's hands "within ninety days from this date," and the Master shall receive any such securities tendered him and cancel them. An appeal was taken to the Supreme Court of the United States. Mexican National.—The negotiations with English cap-

Mexican National.—The negotiations with English cap-italists for aiding the Mexican National Railway Company have not resulted in anything, and are said by insiders to be at an end.—*Boston Transcript*.

Missouri Pacific.—The earnings and expenses of the Missouri Pacific and the St. L. I. Mt. & So. railroads for the first quaretr of 1883 and 1884 were as follows:

Gross earnings	\$3,977,288	\$4,031,628
Operating expenses	2,219,896	2,317,252
Not earnings	\$1,757,392	

New York West Shore & Buffalo.—At Buffalo, N. Y., April 26, an action was commenced in the Supreme Court upon th

complaint of R. N. Moore, John Zimmerman, Elnathan Sweet, James R. Young and others, against the North River Con-struction Company, the New York & West Shore Railroad, and the United States Trust Company of New York, for the payment of claims amounting to \$810,506, and of the claims of others of the creditors of the North River Construction Com-pany amounting to \$3,750,000. It is desired to have the trial take place in Scheneetady County. A dispatch from Rochester states that Judge Landau of the Supreme Court has granted an injunction restraining the New York West Shore & Buffalo Railroad Company from issuing any bonds under the recent mortgage for \$25,000,000, or, if already issued, restraining the fling in any of the counties through which the road runs. A further injunction was also granted restraining the railroad company from transferring any of its property either in honds or real estate. The suits were brought by Robert H. Moore and John Zimmermann, contractors. The mortgage in ques-tion was filed at Kingston on Friday last, but at the West Shore offices it is stated that it is the mortgage that was executed in Jannary. \$10,000,000 of the bonds are said to have been issued to the North River Construction Company, and are now in the hands of its receiver. New York Susquehanna & Western.-The earnings and

New York Susquehanna & Western .- The earnings and expenses for the years 1882 and 1883 were as follows:

Oregon & Trans-Continental.—A proposition is under con-sideration to cancel the lease of the Oregon & California Rail-road Company to the Oregon & Trans-Continental Company. The terms of the lease, it is said are not satisfactory to the leading stockholders in the last-named company.—N. Y. Times.

leading stockholders in the last-named company.—N.  $\tilde{Y}$ . Times. Philadelphia & Reading.—The result of the joint opera-tions of the Philadelphia & Reading Railroad and Coal & Iron Company in the month of March was a decrease of \$299,364 in net earnings; and for the four months from December 1, 1883, a decrease of \$1.182,931 net, compared with the same period in 1882-83. On the lease of the Central Railroad of New Jersey there was a loss to the Reading of \$272,311 in March and a loss of \$958,863 for the four months. The total re-ceipts of the Philadelphia & Reading Railroad and Coal & Iron Company (not including the Central of New Jersey, leased) for each month of the fiscal years 1882-83 and 1883-84 were as follows: were as follows :

	Gross Receipts		Net Receipts	
	1883-4.	1982-3.	1883-4.	1882-3.
December	.\$2,672,218	\$2,865,201	\$509,152	\$343,783

Total 4 mos...\$2,929,259 \$939,325 \$1,598,189 \$258,863 Pittsburg Fort Wayne & Chicago-Pennsylvania. Ac-cording to dispatches from Pittsburg, the Pennsylvania R. R. is making arrangements to acquire the Pitts. Ft. W. & C. R. R. absolutely. It has been decided to issue \$22,000,000 of bonds, the payment of the principal and interest of which will be equaranteed by the Pennsylvania Railroad Company: to ex-ehange these bonds for the original stock of the P. F. W. & Ch. company, and so transfer the road to the Pennsylvania R. R. Co., which will be the only stockholder of the Fort Wayne Co. after the bonds are all issued. The matter will be definitely issued in exchange for stock will run until the year 2808, or nearly 1,000 years. They will bear interest at the rate of 7 per cent. This is the same compensation received by the original stockholders under the lease, and it will be paid in the same manner, viz., in quarterly instalments. Mr. Haley, the Secretary of the Ft. W. Co., says that while the Pennsylvania R. R. Co. will own the Ft. W. road, the company will con-tinue to exist as at present. This is required by the charter. About a year will be required to complete the transfer. Port Royal.—In 1869 the Port Royal Railroad Company

Port Royal .- In 1869 the Port Royal Railroad Company made a mortgage on its property to secure 2,500 bonds of the par value of \$2,500,000. Three years later the Georgia Railthe road & Banking Company guaranteed the payment of 500 of these bonds. Both corporations defaulted on the interest in 1873, and suit has been brought for the recovery from the Georgia Railroad & Banking Company of the face value of the coupons, with interest from May, 1873. Judge Donahue, of

New York, has granted an attachment against the property of the defendant corporation on the ground that it is the New York, has granted in attachment against the property of the defendant corporation on the ground that it is the creature of a foreign State. It appears from the affidavit that after the Georgia Company had guaranteed the payment of the bonds, the Legislature of Georgia passed a special act the bonds, the Legislat legalizing the guarantee.

Richmond & Danville .- The directors of the Richmond A Danville Extension Company, it is stated, have authorized the construction of the Columbus Gap extension on the Georgia Pacific. Steel rails will be used, and the cost of the extension is estimated at about \$900,000. The new line will extend to Birmingham. The President's office is to be removed to New York. York.

Rechester & Pittsburg.—It is said that of the \$1,000,000 of bonds covered by the equipment mortgage recorded in the Register's office on Tuesday, \$1,100,000 have been taken by the stockholders of the company. The balance remains in the possession of the corporation. The bonds are dated Feb. 1, 1884, hear 6 per cent interest and will mature in 1924. More than \$900,000 of the proceeds has already been invested in rolling stock. rolling stock.

Not earnings.... \$8,444 \$14,342 \$17,859 Loss. \$1,737 Toledo Clneiu. & St. Lonls.—The Boston Transcript says : "The Tol. Cin. & St. L. is now in a fair way for piecemeal reorganization. Every one of the fivo hundred bonds upon the Iron division has gone into trust to purchase the property at the foreelosure sale on the 28th of June, and 50 is refused for any of these securities. This is a broad gauge (not standard) line of 23 miles, and though bonded at \$22,000 per mile, is be-lieved to be able to earn the interest thereon independently of the system. Of the \$2,250,000 bonds in the Southeastern division of 185 miles (\$12,000 per mile), about \$1,450,000 have come into the trust agreement to purchase the property at the sale on the 28th. The time for coming into this agreement has been extended to May 10, after which I per cent will be charged for entering the scheme. These bonds are now about 20 per cent bid, and the road is regarded as capable of earning some-

for entering the scheme. These bonds are now about 20 per cent bid, and the road is regarded as capable of earning some-thing for its bondholders. "The St. Louis division of 268 miles has \$3,000,000 first-mortgage bonds (\$11,200 per mile) and cannot earn its operat-ing expenses at present. Mr. Austin Corbin will meet the bondholders of this division next Tuesday in this city to for-mulate a plan for reorganization. These bonds are worth in the market not far from 13 per cent of their face value. "Where the stock and the income bonds are coming in under all the various foreclosures is not yet apparent, but it is nearly impossible, under Ohio laws, to wipe out a railroad stock equity."

equity.

Trunk Line Pool.—The meeting of trunk line presidents this week resulted in the abrogation of the rule by which the Pool Commissioner was bound to order a reduction of rates on the demand of any one of the pool roads. Erie and New York Central representatives were said to have been most active in getting the rule removed. The meeting resolved that future complaints of cutting should be submitted to Commissioner Fink, who should make examination and submit his conclu-sions to the pool Executive Committee, which alone has power to take action in such an emergency. to take action in such an emergency.

to take action in such an emergency. Wahash St, Louis & Paclfic.—A suit has been begun at Peoria, III., against the Toledo Peoria & Warsaw, the Toledo Peoria & Western and the Wabash St. Louis & Pacific railway companies, to compel the last company to issue certi-ficates of stock in the Wabash St. Louis & Pacific Company to the amount of \$25,000, in exchange for \$100,000 in the Tol-edo Peoria & Warsaw road given by the city to aid in the construction of the latter road. It has been held that tho bonds held by the city were valueless because the agreement stigulated that the bonds should be transferred in thirty days stipulated that the bonds should be transferred in thirty days after a specified time, but legal publication of that fact was never made and the discovery of a vital document in the case was made by accident.—N. Y. Tribune.

Western North Carolina.—President A. B. Andrews of the Western North Carolina Railroad Company, on May 1 paid \$600,000 to the State under its contract for the purchase of the State's interest in the line.

State's interest in the line. Union Pacific.—At Boston. Mass., April 29., in the United States Circuit Court, Judge Lowell rendered a decision in the suit of the United States against the Union Pacific Railroad Company to recover \$1,180,619, being 5 per cent of the net earnings of the road for the five years preceding 1875, as provided by the contract. The court has now allowed the defendant to plead in its favor the judgment of the Court of Claims. The question now at issue is only one of coets. —OMAHA, NEB., April 30.—General Manager Clark of the Union Pacific Rallroad, acting under instructions from the board of directors, has issued an order which goes into effect to-morrow, reducing salaries as follows: Those over \$3,600 per annum, 15 per cent; between \$1,000 and \$3,600, 12½ per cent; less than \$1,000, 1 per cent. These reductions apply to all employes except locomotive engineers and firemen. —The Union Pacific land sales from January I to April 25 1884, were 747,112 acres for \$2,197,787.

## The Commercial Limes. COMMERCIAL EPITOME.

FRIDAY NIGHT, May 2, 1884. FRIDAY NIGHT, May 2, 1884. The weather has become quite spring-like, and it now seems probable that within the coming week there will be a complete resumption of inland navigation at the North and West. Business feels the influence of more favorable circumstances, but is still dull. A number of failures in the Produce Ex-change caused momentary excitement. It is expected that a vote on the pending tariff bill will be reached next week in the lower house of Congress. The following is a statement of the stocks of leading articles of domestic and foreign merchandise at dates given :

Total 1883 ...... 36,983 9,158 30,533 10,325 60,999 514,952 Total 1852 ...... 30,096 10,221 5,998 3,824 50,139 509,634 The past week has been one of much interest to the specu-tators in cotton for future delivery at this market. There had been some dulness from the apprehension of free deliveries on May contracts ; but on Saturday it was seen that May notices were generally stopped in the interest of a leading shipper, and this crop advanced. The weather at the South, however, showed a great improvement, and the next crop closed lower. During Monday and Tuesday there was a sharp decline, under sales to realize, in which many weak holders were "shaken out." There were no new features operating to put down prices, but simply a withdrawal of buyers, and the market, being left without support, developed the weakness that naturally fol-lowed an important advance. On Wednesday the market was variable and unsettled, showing no decided change. But on Thursday there was renewed activity and buoyancy, on favorable news from Liverpool, though part of the early ad-vance was lost in the later dealings. To-day the market was variable, closing slightly dearer, but as compared with last Fri-day 15(617 points lower for this erop, 12 points lower for the spot has been dull and quotations were reduced  $\frac{1}{6}$ c. on Monday. There has been no change since, and the close on Friday was quiet at 1134 c. for middling uplands. The total sales for forward delivery for the week are 617,500 bales. For immediate delivery the total sales foot up this week 1,917 bales, including 25 for export, 1,572 for consumption, 320 for speculation and — in transit. Of the above, 400 bales were to arrive. The following are the official quotations for each day of the past week.

each day of the past week.

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph, is as follows. The Continental stocks, as well as those for Great Britain and the afloat, are this week's returns, and consequently all the European figures are brought down to Thursday evening. But to make the totals the complete figures for to-night (May 2), we add the item of exports from the United States, including in it the exports of Friday only.

The above totals show that the old interior stocks have decreased during the week 7,668 bales and are to-night 71,227 

bales *less* than at the same period last year. The receipts at the same towns have been 170 bales *less* than the same week last year, and since September 1 the receipts at all the towns are 618,193 bales less than for the same time in 1882-83.

QUOTATIONS FOR MIDDLING COTTON AT OTHER MARKET In the table below we give the closing quotations of middling cotton at Southern and other principal cotton markets for each day of the past week.

Econsville....) 11¹/₂ + 11¹/₂ + 11¹/₂ + 11¹/₂ + 11¹/₂ RECEIPTS FROM THE PLANTATIONS.—The following table is prepared for the purpose of indicating the actual movement each week from the plantations. Receipts at the outports are some-times misleading, as they are made up more largely one year than another at the expense of the interior stocks. We reach, therefore, a safer conclusion through a comparative statement like the following. In reply to frequent inquiries we will add that these figures, of course, do not include overland receipts or Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

The above statement shows—1. That the total receipts from the plantations since September 1, 1883, were 4,746,972 bales; in 1882-83 were 5,808,568 bales; in 1881-82 were 4,564,067 bales. 2.—That, although the receipts at the outports the past week were 20,053 bales, the actual movement from plantations was only 12,068 bales, the balance being taken from the stocks at the interior towns. Last year the receipts from the plantations for the same week were 23,338 bales and for 1882 they were 19 914 balas 19,914 bales.

AMOUNT OF COTTON IN SIGHT MAY 2.—In the table below we give the receipts from plantations in another form, and add to them the net overland movement to May 1, and also the takings by Southern spinners to the same date, so as te give substantially the amount of cotton now in sight.

	1883-84.	1882-83.	1881-82.	1880-81,
Receipts at the ports to May 2 Interior stocks on May 2 In		5,660,670	4,466,165	5,396,883
excess of September 1		147,898	97,902	176,415

Southern consumpt'n to May 1.	264,000			

Total in sight May 2 ........ 5,557,698 6,683,430 5,203,697 6,220,539 It will be seen by the above that the docrease in amount in sight to-night, as compared with last year, is 1,125,732 hales, the increase as compared with 1881-82 is 354,001 hales, and the decrease from 1880-81 is 677,841 hales.

WEATHER REPORTS BY TELEGRAPH.—The weather has in general been very favorable for crop preparations and develop-ment at the South during the week. At a few points in Texas, nowever, there has been too much rain, which has interrupted planting

planting. Galveston, Texas.—We have had one light shower during the week, the rainfall reaching six hundredths of an inch. The thermometer has averaged 73, ranging from 65 to 77. The rainfall during the month of April reached five inches and fifty-nine hundredths. Indianola, Texas.—We have had good showers on two days of the week, the rainfall reaching fifty-four hundredths of an inch. Young crops are doing reasonably well. The thermometer has ranged from 61 to 82, averaging 73. During the month of April the rainfall reached two inches and fifty hundredths. Palestine. Texas.—It has rained hard on three days of the

hundredths. Palestine, Texas.—It has rained hard on three days of the week, interrupting planting in some sections, and washing the surface badly. The rainfall reached two inches and forty-five hundredths. The reported damage to the crop is much exag-erated. Average thermometer 71, highest 81 and lowest 55. Rainfall for the month of April eight inches and fifty-five hundredths. hundredths B 1 - T Halling Party 

Nunisville, Texas.—We have had welcome showers on two days of the week, the rainfall reaching two inches and forty-eight hundredths. Planting progresses well. The thermometer has averaged 72, the highest being 86 and the lowest 48. During the month of April the rainfall reached four inches and seventy-one hundredths.
 Luting, Texas.—It has rained harder than desired on two days of the week, the rainfall reaching one inch and twelve hundredths. No serious damago has been done, but dry weather is wanted. The thermometer has averaged 73, ranging from 55 to 84. Rainfall for the month of April four inches and nine hundredths.
 Brenham, Texas.—It has rained on three days of the week, the rainfall reaching one hundredths.

are having too much rain; still no serions damage has been done. The thermometer has ranged from 52 to 86, averaging 74. The rainfall during April reached six inches and twenty-

(done) The interfall during April reached six inches and twenty-one hundredths. Bellon, Texas.—It has rained hard on one day of the week, the rainfall reaching one inch and eighty hundredths. No serious damage has resulted. Planting progresses finely. Average thermometer 68, highest 81 and lowest 53. Rainfall during April three inches and twenty hundredths. Rainfall

Average thermometer os, highest of and lowest os. Rufman during April three inches and twenty hundredths. Weatherford, Texas.—We have had very hard rain on three days of the week, but, oxcept the interruption caused to plant-ing, no serions harm has been done, as rain was needed. The rainfall reached five inches and four hundredths. The ther-mometer has averaged 69, the highest being 88 and the lowest 51. During the month of April the rainfall reached five inches and fifty hundredths. Dallas, Texas.—It has rained very hard on four days of the week, the rainfall reaching two inches and ninety-three hun-dredths. Accounts from the interior are conflicting, but much damage is feared on low bottom land. We are having too much rain, and planting is suspended. The thermometer has averaged 70, ranging from 40 to 86. Rainfall for the month of April six inches and seventy-nine hundredths. New Orleans, Louistana.—We have had no rain during the week. The thermometer has averaged 64. Shreveport, Louistana.—The weather has been cloudy during the week, with several light rains, the rainfall reaching one inch and twenty-two hundredths. Roads are in bad condition. The thermometer has ranged from 51 to 86. Vieksburg, Mississipp1.—The early part of the week was

dring the week, with several right rains, the rainfair reaching one inch and twenty-two hundredths. Roads are in bad condition. The thermometer has ranged from 51 to 86.
Vicksburg, Mississippt.—The early part of the week was clear and pleasant, cold and dry; but during the latter portion we have had showers on two days; still not enough to do much good. The rainfall reached ten hundredths of an inch. The thermometer has ranged from 50 to 84. Rainfall for April four inches and forty-seven hundredths.
Meridian, Mississippi.—Telegram not received.
Greenville, Mississippi.—Telegram not received.
Greenville, Mississippi.—The weather has been warm and dry all the week. Rainfall during the month of April six inches and twenty-two hundredths.
Little Kock, Arkansas.—We have had one clear, and two fair, days during the week, with rain on six days. The rainfall reached two inches and ninety-four hundredths. The tweather has been unfavorable to planting interests so far. The thermometer has ranged from 43 to 78, averaging 63. We had rain on seventeen days in April, and the rainfall reached ten inches and fifty-eight hundredths. The thermometer averaged 57, and ranged from 36 to 78.
Pine Bluff, Arkansas.—Telegram not received.
Helena, Arkansas.—We have had rain on three days, and the remainder of the week has been cloudy. The rainfall reached one inch and tweive hundredths. The river is falling stowly, but is still above the danger line. The thermometer has averaged 68, the highest being 80 and the lowest 54.
Monticello, Arkansas.—Telegram not received.
Memphis, Tennessee.—We have had rain on four days of the week, but the weather is now clear and pleasant. The river is now four feet below the danger line and falling steadily. Farm work is making good progress. Average thermometer for 70, highest 83 and lowest 47. It rained on fifteen days in April, and the reinfall reached one inch and twenty-six hundredths. The river is now four feet

cter 70, highest 83 and lowest 47. It rained on fifteen days in April, and the reinfall reached eight inches and sixty hundredths. The thermometer averaged 59.5, the highest being 83 and the lowest 40.5.
Nashville, Tennessee.—It has rained on three days of the week, the rainfall reaching twenty-four hundredths of an inch. Planting makes good progress. The large receipts this week are caused by through cotton. The thermometer has averaged 67, the highest being 82 and the lowest 44.
Mobile, Alabama.—We have had warm and dry weather all the week. Cloudy to-day. Planting has been about completed in this neighborhood, and the crop is developing promisingly. The increased amount of hand given to cotton this year is between five and ten per cent. The thermometer has ranged from 47 to 84, averaging 69. During the month of April the rainfall reached five inches and fifty-nine hundredths.
Montgomery, Alabama.—The weather has been warm and on a good stand of cotton has been secured, but late corn and oats are more forward than cotton. The sales of fertilizers in Montgomery have amounted to \$10,573 this year, against \$6,815 hast year. The thermometer has averaged 69, the highest steing \$5 and the lowest 46. During the month of April the rainfall reached three inches and four hundredths.

New Orleans reported below high-water mark of 1871 until Sept. 9, 1874, when the zero of gauge was changed to high-water mark of April 15 and 16, 1874, which is 6-10ths of a foot above 1871, or 16 feet above low-water mark at that point.

above 1871, or 16 feet above low-water mark at that point. INDIA COTTON MOVEMENT FROM ALL PORTS. — We have re-arranged our India service so as to make our reports more detailed and at the same time more accurate. We had found it impossible to keep out of our figures, as cabled to us for the ports other than Bombay, cargoes which proved only to be shipments from one India port to another. The plan now followed relieves us from the danger of this inaccuracy and keeps the totals correct. We first give the Bombay statement for the week and year, bringing the figures down to May 1. BOMBAY RECEIPTS AND SHIPMENTS FOR FOUR YEARS.

BOMBAY RECEIPTS AND SHIPMENTS FOR FOUR YEARS.

	Shipme	ents thu	s week.	Shipm	ents sinc	Receipts.		
lear	Great Brit'n.	at Conti- In. nent. To		Great Britain	Conti- nent.	Total.	This Week.	Since Jan.1.
1883 1882	13.000 53.000	4×.000 40.000	83,000 93,000	254,000 518,000	$\begin{array}{r} 421,000\\ 484,000\\ 310,000\\ 303,000 \end{array}$	738.000 828,000	79.000 72.000	1.057,000

According to the foregoing, Bombay appears to show an *increase* compared with last year in the week's receipts of 14,000 bales, and an *increase* in shipments of 12,000 bales, and the shipment since January 1 show a *decrease* of 9,000 bales. The movement at Calcutta, Madras and other India ports for the last reported week and since the 1st of January, for two years, has been as follows. "Other ports" cover Ceylon, Tuticorin, Kurrachee and Coconada.

	Shipme	nts for th	e week.	Shipments since January 1.				
	Great Britain.	Conti- nent.	Total.	Great Britain.	Continent.	Total.		
Calcutta- 1884 1893	4.000 2,000	9,000	13.000 2,600	82,000 57,700	38,000 9,000	120,000 16,700

545

This last statement affords a very interesting comparison of the total movement for the three years at all India ports.

ALEXANDRIA RECEIPTS AND SHIPMENTS.—Through arrange-ments we have made with Messrs. Davies, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years.

Alexandria, Egypt, April 30.	188	3-84.	188	2-83.	1881-82		
Receipts (gantars*)- This week Since Sept. 1	2,6	2,000 24,000	2,2	4,000 37,000	2	6 0° 0 ,815,720	
	This week.	Since Sept. 1.	This week.	Since Sept. 1.	This week.	Since Sept. 1	
Exports (bales)- To Liverpool To Continent	3,000 1,000	241, <b>0</b> 00 122,000	2,000 1,000	225,000 80,000		235, <b>70</b> 0 166,871	
Total Europe	4,000	363,000	3,000	305,000	5,000	402,571	

A cantar is 98 lbs

This statement shows that the receipts for the week ending April 30 were 2,000 cantars and the shipments to all Europe 4,000 bales.

MANCHESTER MARKET.—Our report received from Manchester to-night states that the market is easy at a fractional decline. We give the prices of to-day below, and leave previous weeks' prices for comparison.

OVERLAND COTTON MOVEMENT FOR APRIL,-In our editorial columns we give the statement of the overland movement for April.

April. NEW YORK COTTON EXCHANGE.—The price of seats has been further advanced. There was a sale this week at \$3,500, another at \$3,600 and still another at \$3,700, and more is now demanded. The rules respecting contracts of print cloth are nearly completed, and it will now rest with the Board of Mana-gers to sanction the addition of sales and purchases of this im-portant article to the regular business of the Exchange, which has hitherto been solely confined to cotton. There can be no doubt as to the Committee's recommendation being adopted.

JUTE BUTTS, BAGGING, &C.—There has been a moderate de-mand for bagging since our last, and prices are steady. The orders are for small parcels, but in the aggregate considerable stock is being worked off. For large lots the demand con-tinues absent, buyers not caring to lay in future supplies. The market closes with sellers quoting 9½c. for 1½ lbs., 100. for 134 lbs., 1034c. for 2 lbs. and 11½c. for standard grades. Butts have been taken to some extent, and prices are steady. For paper grades the figures are 2¼@2½c., and 25‰234c. for bag-ging qualities. The transactions for the past month aggregate 25,010 bales spot an⁴ to arrive at 2¼@234c., and the supply here and aftort is 223,211 bales.

COMPARATIVE PORT RECEIPTS AND DAILY CROP MOVEMENT. -A comparison of the port movement by weeks is not accurate, as the weeks in different years do not end on the same day of the month. We have consequently added to our other standing tables a daily and monthly statement, that the reader may constantly have before him the data for seeing the exact relative movement for the years named. The movement each month since September 1, 1883, has been as follows.

Monthly		Year	Beginnin	ng September 1.				
Receipts.	1883	1882.	1881.	1880.	1879.	1878.		
Sept'mb'r	343,812	326,656	429,777	458,478	333,643	258,848		
Ootober	1,046.092	980,584	853,195	968,318	888,492	689,264

.April	111,755	284,519	147,595	284,246	158,025	167,439		
	4,706,373 of tot. porl		4,438,235	5,359,356	1,638.867	4,307,978		
	April 30		94.02	91.23	92.74	96.86		

This statement shows that up to April 30 the receipts at the ports this year were 923,316 bales less than in 1882-83, and 268,638 bales more than at the same time in 1881-82. By adding to the above totals to Apr. 30 the daily receipts since that time, we shall be able to reach an exact comparison of the movement for the different year. for the different years.

	pts May 2.		94.20	91.43	92.31	97.07

This statement shows that the receipts since Sept. 1 up to to-night are now 929,035 bales less than they were to the same day of the month in 1883 and 263,787 bales more than they were to the same day of the month in 1882. We add to the table the percentages of total port receipts which had been received to May 2 in each of the years named.

SHIPPING NEWS.—The exports of cotton from the United States the past week, as per *latest mail* returns, have reached 31,154 bales. So far as the Southern ports are concerned, these are the same exports reported by telegraph, and published in the CHRONICLE last Friday. With regard to New York we include the manifests of all vessels cleared up to Thursday night of this week.

## BREADSTUFFS.

FRIDAY, P. M., May 2, 1884.

Flour at one time showed more activity and considerable firmness, in sympathy with a strong market for wheat, but latterly the trade has decreased materially and prices have become more or less depressed. The better grades of shipping brands have not been at all plentiful, and the same is true of No. 2 and superfine, but of most descriptions of flour the supply has continued ample. To-day the market was dull and weak.

Wheat has been dull for export, and though at one time there was a pretty liberal business on speculation, the transactions of this nature have latterly shown a falling off. Though there have been occasional rallies, the general course of the market has been downward. Yesterday, owing to the number of notices issued for delivery on May contracts, that option declined 21/4c. There has been less anxiety among the shorts both here and at the West, and though the quotations here have latterly shown rather more depression than those at Chicago, there have been no new failures; but the financial irregularities in the case of one bankrupt are alleged to have reached very grave proportions. The weather in the wheat region is fine, and the foreign markets have within a few days become depressed. To-day there was only a moderate business either for export or on speculation, and prices declined a fraction. No. 2 red closed at \$1 0914 in elevator, \$1 0734 for May, \$1 093% for June, \$1 061/4 for July and \$1 041/2 for August, showing a decline for the week of 1/c. on the spot and 2½ to 3½c. for options.

Indian corn has been dull and declining, in sympathy with the depression in wheat. There is less than the usual specula_ tive interest in this market at this time of the year. The great drawback is the dulness of the foreign trade. To-day the market on the spot was steady but quiet; options were dull and slightly lower. No. 2 mixed closed at 6134c. in elevator, 611/2c. for May and June, 623/4c. for July and 633/4c. for August, showing a decline for the week of 1 to  $1\frac{1}{2}c$ .

Rye and barley have been very quiet. Oats have been only moderately active, and prices have followed other cereals downward. To-day there was a deeline of 1/2c., attended with small transactions. No. 2 mixed closed at 361/2c. for May and 37c. for June.

## THE DRY GOODS TRADE.

FRIDAT, P. M., May 2, 1884.

Business was dull and featureless in the wholesale branches of the trade the past week, but large quantities of seasonable goods were doubtless placed in the channels of consumption by retailers throughout the country. The market for staple cotton goods has subsided into a quiet condition, and little if any improvement was developed in the demard for foreign fabrics, or domestic woolens, at first hands. The jobbing trade was spasmodic and irregular, moderately active days having alternated with others of conspicuous dulness, and the movement as a whole was light and disappointing. There was no great pressure upon the part of agents for domestic manufacturers to force goods upon unwilling buyers, and the tone of the market was generally steady. Some large lines of foreign hosiery and gloves were however pressed to sale through the anction rooms, with fairly satisfactory results.

DOMESTIC COTTON GOODS.—The exports of domestics from this port for the week were 3,331 packages, including 1,055 to Great Britain, 419 to Argentine Republic, 377 to Hayti, 370 to British East Indies, 236 to United States of Colombia, 228 to

China, 181 to Venezuela, 98 to Brazil, &c. There was a large business in certain makes of cotton flannels for future delivery, but other descriptions of cotton goods were comparatively quiet in agents' hands and sluggish with jobbers. Prices ruled steady on all the most desirable plain and colored cottons, but the tendency toward a general advance has scemingly been checked for the present, owing partly to the less buoyant condition of the staple, but mainly because of the apathy displayed by buyers and their determination to await further developments before beginning operations for the coming season. Fall River manufacturers have voted to curtail production, in the event of other New England mills doing so, as suggested by the Arkwright Club of Boston, but this decision has not improved print cloths, which ruled quiet and easier, closing at 31/c. for 64x64s and 3 1-16c. for 56x60s. Prints, lawns, ginghams, &c., were in light and irregular demand, but fairly steady in price.

DOMESTIC WOOLEN GOODS .- There was a limited call for heavy cassimeres, worsteds and overcoatings by the clothing trade, and considerable deliveries of these goods were made by agents on account of early orders. Light-weight cassimeres and worsteds were taken in moderate lots by cloth and drygoods jobbers, but the demand was by no means active, and prices favored the buyers in some instances. Cloakings were in irregular demand, as were ladies' cloths, jersey cloths and stockinettes, but fair sales of popular makes were reported. Satinets continued in steady request, and a fairly active trade was done in Kentucky jeans and doeskins. Worsteds and allwool dress goods adapted to the present season ruled quiet in first hands, but some good orders for cashmeres, beiges, &c., in fall shades, were placed for future delivery. White flannels were in fair request, but other descriptions ruled quiet, and but little inquiry was made for blankets. Hosiery and knit underwear were lightly dealt in, and carpets were quiet with agents.

FOREIGN DRY GOODS.—The situation in the market for imported dry goods was unchanged. The demand at first hands was chiefly confined to a few specialties, and the jobbing trade was not up to expectations. Prices are without quotable change, but concessions on fancy fabrics were occasionally offered in order to stimulate their sale.

## Importations of Dry Goods.

The importations of dry goods at this port for the week ending May 1, 1884, and since January 1, and the same facts for the corresponding periods of 1883, are as follows:

Total at the port!	Total Ent'd foroonsumpt.	Wool. Cotton Silk. Flax Miscellaneons		Total on market	Total Ent'd for consumpt	Flax Miscellaneous	Wool Cotton 811k	-10 89.	Total	Flax Miscellaneons	Wool Cotton 811k			ENTERED FOR
