THE COMMERCIAL AND FINANCIAL CHRONICLE is published in New York every Saturday morning.

|Entered at the Post Office, New York, N. Y., as second-class mail matter.]

TERMS OF SUBSCRIPTION-PAYABLE IN ADVANCE:

Annual subscription in London (including postage) £2 7s. Six mos. do do do do £1 8s. These prices include the Investors' Supplement, issued once in two months, and furnished without extra charge to subscribers of the

CHRONICLE.

Subscriptions will be continued until definitely ordered to be stopped. The rublishers cannot be responsible for remittances unless made by Drafts or Post-Office Money Orders. A neat file cover is furnished at 50 cents; postage on the same is 18

cents. Volumes bound for subscribers at \$1 00.

Offices in England.

The office of the COMMERCIAL AND FINANCIAL CHRONICLE in London is with Messrs. EDWARDS & SMITH, I Drapers' Gardens, E. C., where subscriptions and advertisements will be taken at the regular rates, and single copies of the paper supplied at 1s, each. The office of the CHRONICLE in Liverpool is at B 15, Exchange Buildings

Buildings.

THE FINANCIAL SITUATION.

In Wall Street, though the markets have been extremely dull, actual transactions very small, and prices fluctuating daily, values have in the main been kept from falling.

without justification. One might with as much reason complain of the pugilist who fails to come up to the scratch after his wind has been knocked out of him. The panic certainly, and very properly, knocked out of the banks all that extreme credulousness which suffered them to cultivate unwholesome speculations and hold up firms like one that failed here this week with a million of liabilities and a few hundred thousand dollars of assets. More than that, the revelations since the panic have naturally and of necessity made them cautious, most likely over cautious, because it is almost always the case that from one extreme the swing is to the other. But in our criticisms we should remember the narrow escape from partial destruction banking capital experienced only a few weeks since, and that timidity has through that experience and the failures that are occurring become inseparable from the present situation. This leads to close discrimination by bank managers, to hardships in many cases, and bears heavily upon very important classes of business. Still that will be but temporary, for such extreme caution cannot last long. Banks desire of all things to see confidence return and to help it as far as they dare. Besides, their vaults are fast filling up with money, and the officers cannot let it lie idle_they must put it out. Gradually, therefore, this timidity will wear off again, so that the deserving will find the help they need ; but we trust it will be many a month before we return to that reckless bank policy which fostered and furthered the vicious speculations of the past two years, stimulating our imports and bringing our exports down to the lowest figures they have been for many a year.

This criticism, so far as it means that they refuse to run

the risks they did run a few months since, is, of course,

A feature just now at variance apparently with the ten-

except temporarily, below the opening level of the week, and the close is higher with the tone strong. In busir ~s circles there has been considerable disturbance due ma. By to important failures in the dry goods department of this city and to the closing of the doors of a certain promi. nent banking firm in Indianapolis with consequent excitement and suspensions there and elsewhere in Indiana. Domestic trade, though further depressed by these failures and continuing dull and unsatisfactory, has, with these exceptions, furnished no additional cause for anxiety, while signs of increased healthfulness in the foreign trade are uninterrupted. During the same time our Clearing-House banks have gone on gaining strength, but though their ability to accommodate their customers has increased, mercantile credits, in consequence of the failures mentioned, have by no means improved.

banks because they do not discount paper more freely. the more likely since notwithstanding there have been this

FRASER

Digitize

dency of the times is the advance in the price of coal and the report that the production is being fully taken at the advance, and that there is to be no restriction in production, there being no need for it, during August. It will be remembered that last year, from August 1 to December 1, full time was made in coal mining, and as the capacity for production is all the time increasing, the output in those months reached about 13 million tons, against about 11 million tons for the same months of 1882, although there were only six idle days in the latter year. As all in. dustries have been manifestly less prosperous during 1884, and especially during late months, and as last year's full time from August to December seemed greatly to overstock the coal market, so that there had to be nine idle days in December, it was feared that the coal combination would be forced to materially lessen during the remainder We note a disposition in many quarters to upbraid the of the year the working time at the mines. This seemed

60

THE CHRONICLE.

year already 78 idle days, against 51 last year, the production of anthracite has only fallen off a few hundred thousand tons, the producing capacity having in the meantime been further enlarged so considerably. It will, of course, be good news for the coal railroads if this reported active consumption in face of an advance in price proves true. Where, however, an increased supply over even last year's large production can now be put, must remain somewhat of an enigma. With the prices of all our manufactures scarcely paying cost of manufacture, with production of goods lessened in obedience to the lessened demand for consumption, with values of merchandise showing no tendency to improve, with a universal disposition among the people to economize, it seems as if the reported increased activity must be some very temporary inquiry. possibly the want for winter consumption anticipated to a greater extent than a year ago under the fear that prices will in later months be further advanced. Still should it prove more permanent, it cannot but have a favorable influence on the finances of the railroads most interested in that kind of traffic.

In the meantime the feature of chief promise is that our crops appear to be making satisfactory progress. Cali. fornia and the Pacific coast is an exception to this favorable outlook. The start_there and the development up to the middle of June were very promising indeed, but rains during late weeks have lessened the yield, harmed the quality, and made the harvest expensive by breaking down the straw. while reports of grasshoppers are also unfortunately confirmed. But with that exception, judging from the glowing reports daily received, almost every section of the country is now giving promise of an abundant harvest. ('otton, of which for two or three weeks we have had to write more doubtfully, is again doing much better. Of course this is a crop which there is time enough even yet, for the weather conditions of rain, or drought, or frost, to curtail greatly, and we can only speak of the possibilities now. But it is satisfactory to know that good progress has been made during the past two weeks towards restoring the confidence previously felt in the more promising districts. The crop is backward undoubtedly, and will be a late one. but there are fair grounds for the hope that it may be a very large one. Late good, hot, working weather has given opportunity to clear out the grass in the Atlantic States where it was becoming troublesome, especially in the bottom lands; in the Southwest the outlook is still encouraging. But with regard to wheat, oats and corn in the Northwest, there is scarcely anything to be said that is not favorable. The speculators, who have been trying to extract a hope out of the cool wave which has just passed over that see tion, found it too short for their purposes; and, judging from the hot period which has prevailed in the South the last two weeks, beginning in Texas and passing northerly, there seems excellent reason for the conclusion that the coming week will be hot enough to stifle complaints and fully satisfy the needs for crop development. All this cannot fail to be encouraging. So too is the course of foreign exchange, which has been dull, irregular and lower this week. While some are complaining of the timidity of capital, the course of this market furnishes evidence of the remedial effects of the panic, which was mainly instrumental in producing the timidity. For the movement abroad of grain and other staples which had been stopped before, is now in free progress again, and furnishes the bills to pay our foreign indebtedness with, while the lower prices of good securities are gradually attracting foreign capital for the best of them. I ast week's rise in exchange was mainly due to a special

itized for FRASER

demand for the purpose of closing out certain sterling loans. Now that they have been settled for, the market is in a more natural condition. The securities being sent abroad are chiefly first-class stocks and bonds, bankers reporting more interest having been manifested of late by Europeans in the condition of our market. They are, just now, beginning to realize that prices of many well managed properties are very low. The highly prosperous agricultural prospect is, of course, looked upon as a feature of future promise for our railroad system, the only need for complete assurance being an improvement in the in. dustrial situation, which we trust cannot be long delayed after our farmers have realized on their crops. It is a little surprising that the imports of dry goods for the week ending yesterday should have been so large, reaching \$3,709,710; but it is to be remembered that they have been small of late, and of course they are in response to orders long since sent out when the conditions of the dry goods market were more favorable.

As already stated, the stock market has been quite featureless, except that values have been maintained under a very dull and sluggish movement, and yesterday closed higher. Every day prices have had their hour for buoyancy and their hour for depression; a pump-handle could scarcely be worked with more regularity; but yesterday, as said, there was a more decided upward movement. The failures of the week, especially in the dry goods department, have been the chief disquieting influ ence, rumors of other and greater mercantile disasters soon to follow being freely circulated, but the latter have produced little effect, the bears having about exhausted that mode of attack. The news of the arrivalof the committee appointed by the London stock and bond holders of Erie at first had a depressing influence upon the second consolidated mortgages, the transactions in which have recently become almost wholly speculative, but when it was stated that the object of the investigation was not so much to criticise the management as to ascertain what measures of financial relief were needed, the securities recovered. St. Paul has been far more extensively traded in this week than any other stock, the operations of the clique manipulating if attracting therefore unusual attention. Lackawanna and Reading improved in consequence of statements, already referred to, that the demand for coal had become so active that it was regarded as probable that there would be no need of further suspension of production. Lake Shore yielded on Thursday to reports of a rupture of the trunk-line passenger pool, but the decline was not serious, and Western Union fell on the news that the three opposition lines had formed a combination arrangement. We give these as some of the floating daily gossip; but the fruth is, the business at the Exchange has been almost wholly confined to the cliques and traders, and it does not seem to be expected that non-professionals will operate to any extent for the present, or at least until the business situation improves. An event of the week unheralded in Stock Exchange circles but one nevertheless that marks an important occurrence as relates to the railroad situation of a large section of the country, is the final completion of the Vicksburg Shreveport & Pacific road to a connection with the Texas & Pacific at Shreveport, the bridge across the Red River at the latter point being now about ready for use. For years the Vicksburg Shreveport & Pacific ended at- Monroe, La., leaving an unfinished gap of 95 miles between it and the Texas & Pacific, which acted as an effectual barrier to direct communication between points in Northern Texas and the Southern States east of the Indeed for the people of Mississippi, Mississippi.

THE CHRONICLE.

Georgia, and South Carolina, there was Alabama, Northern Texas except by of reaching no way going south via New Orleans, or north via Memphis, in either of which cases a long detour had to be made. Now this is avoided, and a very direct route is opened up to all that territory. The new road seems to be such an essential link in the Southern systems of roads that it really appears surprising that its construction should have been so long delayed. As now built it forms part of the Cincinnati New Orleans & Texas Pacific system (commonly called the Erlanger system), and to the same system also belongs the New-Orleans & Northeastern (to New Orleans), opened last fall. That system is thus placed in very excellent position for traffic to Texas and New Orleans from Cincinnati, its northern terminus. It is to be noted that the route to Texas (over the Vicksburg Shreveport & Pacific) affords at Vicksburg the only crossing of the Mississippi River with railroad connections, that there is between Memphis and New Orleans. Primarily, of course, the completion of this route will benefit the Erlanger system, but at the same time it cannot fail to be of immense advantage to almost all other systems in the Southern section of the country. To the Richmond & Danville it opens an entirely new route, to the East Tennessee and Norfolk & Western it affords a second line in addition to that via Memphis, while to the Texas & Pacific it gives a connection more desirable than any other that that road could have. To the Georgia system of roads (from Savannah) and to the South Carolina line (from Charleston) the route furnishes increased opportunities for business with Texas and with the Pacific Coast as well, for the route is almost a straight one from Savannah all the way to the Pacific. In fact, the whole Atlantic States south of the Potomac should profit more or less from the additional railroad facilities supplied. Note, for instance, what an excellent route it affords to a person in Washington wanting to go to El Paso and thence to the Mexican capital. We hail the new line not only as a link needful to complete the Southern network of roads, but as offering sure evidence of the continuous growth and development of the South.

Denver & Rio Grande statement of earnings and expenses for May has some features of interest. We observe that the net earnings for the month reach \$146,090, as against \$104,895 in April, and as against only \$124,543 for the whole of the first three months of the year, showing that there is some improvement at least on the very poor exhibit of the early months. But that is really the most favorable thing that can be said about the statement, for if we compare with the corresponding period of a year ago we find quite a large falling off. in the earnings. The net then were \$217,459, or \$71,369 greater than now. If we compare with either 1881 or 1882, the decrease is even heavier, for in the former year the net were \$280,616 and in the latter \$274,433, as against \$146,090 now. The decrease is the result both of smaller gross receipts and larger expenses, as the following summary of the May statements for the four years will make apparent. We have also added the figures for the five-month period from Jan. 1 to May 31, in the same years.

The expenses here for May are larger than ever before, and the same is also true of those for the five months, but it is satisfactory to note that in the former case the increase over last year is comparatively slight, reflecting In this the important part played by snows and ice and freshets in the earlier months in swelling the expense account. The absence in great part of this feature in May tended to improve the result of course, but the continued decline in receipts operated to make a less favorable exhibit than had been expected. It may be asked why it is that with rates restored (the war on the Colorado and Utah business having been given as the reason for the large decline in the early months) there should be a continued loss of earnings,---to be sure not near as heavy as in February or March, but nevertheless quite large. The explanation is that when rates were down to a very low figure, as a result of the strife between the competing companies, merchants and shippers took advantage of the situation of affairs to the extent of sending not only the goods needed for immediate delivery but also shipped goods in advance on future orders to get the benefit of the low tariff prevailing. The result was that during the progress of the war the roads did a very heavy business at ruinous rates, and as soon as rates were restored a complete absence of all traffic developed. That accounts in good part for the poor showing that the later months have made. Of course, when that influence has exhausted itself, better returns may follow, but it should be remembered that the mining traffic in Colorado, upon which the line has to depend so largely, is no longer what it was in the palmy days of 1880 and 1881, that the old rates which prevailed while railroad facilities were yet in their infancy can never again be realized, and that now whatever business there is has to be divided up among an increased number of roads.

The following shows relative prices of leading bonds and stocks in London and New York at the opening each day.

* Expressed in their New York equivalent. † Reading on basis of \$50, par value.

Brokers' money balances have loaned at nominal rates at the Stock Exchange during the week. but these rates by no means represent the condition of the money market, for although the banks now have a surplus reserve larger than at any time in their history, loans by them are, as more fully set out above, cautiously made and the most ample security is demanded. The following statement, made up from returns collected by us, exhibits the week's receipts and shipments of gold and currency by the New York banks.

aily has ers, als ntil nge. ant rge the ith the for ed lesan nts he pi,

OREGON RAILWAY $d \sim NAVIGATION$ THELEASE TO NORTHERN PACIFIC.

The proposed lease of the Oregon Railway & Navigation Company to the Northern Pacific (which lease as we stated last week is reported to have the approval of the respective boards of directors of the two companies), is interesting as indicating an unchanged policy on the part of the new management of the latter property; that is, it indicates a purpose to preserve in its entirety the original idea of the enterprise, which was, to have a complete trans continental line und r a single management and under one control. The charter of the Northern Pacific provided for a railroad from Lake Superior all the way to the Pacific Ocean, and though Mr. Villard evidently did not mean to have the Northern Pacific build a line itself for the whole

land, Mr. Villard turned a controlling interest in both companies into a third company-the Oregon Trans-Continental-with the object of permanently lodging control " therein, and thus in effect placing the whole line from the Lakes to the Pacific coast under one management. How successful Mr. Villard was in this part of his programme we all know. With the vicissitudes, however, that the Oregon Trans-Continental has been going through, there would seem to have been danger that the object had in view would be defeated, and there have been repeated reports that the Union Pacific was seeking possession of the Navigation Company, and one or two rumors that it had actually got it. Of course, with a lease of the company by the Northern Pacific the Oregon Trans-Continental could dissolve or go to pieces without in any way affecting the position of the Northern Pacific enterprise.

The Navigation Company would of course be useful either to the Northern Pacific or to the Union Pacific, but to the former it seems almost indispensable--for the present, at least. The connection is at Wallula, and for the 214 miles beyond that point to Portland the Northern Pacific has no outlet to the ocean except over the Oregon Navigation Company. It is true that it already has a traffic contract—and a very favorable one, too—with the Navigation Company, but with the latter in the hands of an adverse interest, there might be a disposition not to carry out its terms, efforts might even be made to break it or contest it, while trouble in some form would not be at all unlikely. Even now, with the concern in control of parties favorable to the Northern Pacific, there are whisperings of discontent on the part of the Navigation Company. It is declared that the mileage allowance of 66 miles which the Northern Pacific was to have under the contract, in return for its agreement not to build a parallel line along the Columbia River, is unfair to the Navigation Company in its operation, and considering that the Northern Pacific gets a haul half way across the continent on traffic, while the Navigation Company gets a haul of only about 200 miles, that more liberal treatment should be accorded the latter. It is easy to see that with the Union Pacific controlling the property this feeling of dissatisfac. tion might become more pronounced and assume a serious form. Of course, with the company leased to the Northern Pacific for a certain fixed rental, all cause for complaint would be removed.

The value of the Navigation Company to the Union Pacific lies in the same fact as that which makes it valuable to the Northern Pacific-namely, its affording an outlet to Portland. But there is this difference, that to the Northern Pacific it is the only outlet to the ocean, while to the Union Pacific it would be merely another outlet to the coast, in addition to that afforded by the Central Pacific. The latter has been, and probably always will be, its chief connection-first, because it is very direct, and secondly, because it leads to San Francisco, where the commerce of the Pacific Coast centres. Moreover, with the Union Pacific the Portland line is somewhat of a matter of the future, since the connection with the Navigation line has not yet been effected. It is an effort on its part to open a new channel of trade to get increased business. The Union Pacific undertook to build the Oregon Short Line, from Granger in Wyoming Territory to the Snake River in Oregon, and the Oregon Navigation agreed to meet said line at the latter point, through an extension The object of the of its Baker City Branch. Union Pacific is to have a direct route to Portland, which at present it can only reach via San Francisco (using steamer from the latter point), or through vide the Northern Pacific with the needed outlet to Port. I the circuitous route that the Utah Northern offers by its

62

distance, he was careful not to depart from the intentions of the incorporators, and so provided for unity of control over a system, made up of different and distinct pieces; but having nearly identical interests.

It will be remembered that that was his purpose in organizing the Oregon Trans-Continental Company. The Oregon Railway & Navigation was already in existence. and was doing a profitable business. It was mainly a water line just then, but yielding to the necessities of the situation, which required greater expedition than the water route afforded, it was building a rail line along the Columbia River from Portland to the eastern extremity of Oregon at Walla Walla and Wallula. The Northern Pacific was at the same time building west, and would also have to construct a line along the same river to Portland. To protect the Navigation Company's business, by guarding against the introduction of all competition, and to pro-

connection with the Northern Pacific. But the San Francisco business, or connection, is in no way affected, no matter what happens to the Portland line, and it is on that connection, as we have said, that the Union Pacific chiefly has to rely. With the Northern Pacific, however, retention of the Portland outlet is an all-important matter Close the Oregon Navigation lines to it-(directly, of course, that is not possible, under the law, but indirectly it might just as effectually be accomplished)-and you leave it over 200 miles short of its destination. To be sure, to make its Oregon Short Line serviceable, the Union Pacific also must use the Navigation route, but having the alternative route-round-about though it may be-by way of San Francisco, it would at least be in position to retaliate should the Navigation Company refuse it fair terms. Besides, a traffic agreement for fifteen years between the two companies was made early in 1883, which the Government directors in their report of last December declared was satisfactory to the Union Pacific. There is no reason, indeed, why it should not be satisfactory to it, since the consideration which it gave was that "the entire Oregon and Washington Territory traffic from and to the Union Pacific and its extension, the Oregon Short Line" should be turned over the Baker City branch and main line of the Navigation Company. Mr. Villard, also, referred to the matter in his last report of the company as one of the achievements of the year, and a consummation that was deemed very desirable, so it would seem that the arrangement is mutually satisfactory and therefore to the interest of both parties to maintain. In this view of the case, too, the managers of the Navigation Company, whoever they may be, would be apt to interpret it in a spirit of fairness. So while the Northern Pacific by the lease secures beyond peradventure the piece of road so essential to it, the Union Pacific apparently has no reason to fear that its own interests in the same direction are jeopardized.

It is perhaps well to say that with the lease of this line, the Northern Pacific will be in undisputed possession of all the property needful to the operation of the road from one end to the other. The terminals at Portland Mr. Villard had secured by the formation of the Northern Pacific Terminal Company of Oregon, the stock of which was distributed 40 per cent to the Navigation Company, 40 per cent to the Northern Pacific Railroad, and 20 per cent to the Oregon & California. The terminals at St. Paul and Minneapolis had been secured by the formation and lease of the St. Paul & Northern Pacific Railway, providing for a line from Brainerd, on the Northern Pacific, to the cities mentioned, which line we announced last week had been finally completed and turned over to the Northern Pacific on the 1st of July. Previously the St. Paul Minneapolis & Manitoba had to be relied upon for an entrance into Minneapolis and St. Paul. Mr. Villard's plans were very comprehensive and far-reaching, and it will be seen that they have now enabled the Northern Pacific to become a complete trans-continental line from Duluth, Minneapolis and St. Paul at one extremity to Portland at the other. Moreover, work is being pushed on the Cascade Division, across Washington Territory, so that ultimately the road will also have a direct line to Puget Sound inste d of the indirect and round about line via Portland, which is the only one it now has. As to whether the lease is likely to prove profitable or burdensome to the lessee, a few figures will help to form a correct opinion. We showed in an article in our issue of May 17 that the year's operations (fiscal year ended June 30) were likely to result in a deficit in meeting the payments out of earnings, but that was because dividends to

 $S_{\frac{1}{2}}$ per cent in the aggregate had been paid, against the 6 per cent which is the present rate of distribution. This is to be the rate at first, too, under the lease, the terms as given being 6 per cent for two years, 7 per cent for three years and then 8 per cent. Since we wrote our article, however, it has transpired that the Navigation Company has abrogated, or seeks to abrogate, the lease of the Oregonian narrow guage, which has proved very onerous, and which, if annulled, would effect a very important saving to the Navigation Company. In the fiscal year 1882-3 (it is too early yet for a report for the year 1883-4) this narrow guage system earned \$54,478 gross at an expense of \$\$1,936, leaving a balance on the wrong side of \$27,458, to which should be added the lease rental of \$145,429, making a total loss to the lessee of \$172,887. In this same year the Navigation Company had a surplus of \$226,284 above interest, taxes, rentals, sinking funds, and the amount paid out for dividends, which latter figured for \$1.584,000. Had the company been without the Oregonian system the surplus would have been \$399,171. With this as a basis, we may arrive at some idea of the results of the lease of the Navigation Company at 6 per cent on its stock.

As stated, the report for the fiscal year ended with the first of the present July has not yet been prepared, but from the monthly statements of earnings and expenses we know that for the eleven months ended the 31st of May there was a comparative loss in net of \$75,355. We know nothing about the figures for June, but suppose there should be a further loss in this month of S24,000; that would give \$99,000 in all, and would reduce the above surplus of \$399,171 to \$300,000. Starting from this point to estimate the result to the lessee during the current fiscal year, 1884-5, we would have first of all \$72,000 increase in charges that we did not have in 1882-3, being the 40 per cent for which the Navigation Company is responsible of the 6 per cent interest on the \$3,000,000 Northern Pacific Terminal Company bonds which have been issued. Then the Navigation Company has lately issued three millions of its own gold debenture bonds for the completion of the Baker City extension. These bonds hear 7 per cent interest, and would therefore call for \$210,000 annually. Add this to \$72,000, and we have a total increase in charges beyond the amount paid in 1882-3 (which has been assumed as a basis) of \$282,000. On the other hand, the amount required for dividends will be less than was paid in that year. Six per cent on 24 millions stock would call for only \$1,440,000, while in 1883 the aggregate of dividends was \$1,584,000. Offsetting this \$144,000 decrease in the dividend requirement against the \$282,000 increase in charges, leaves a net increase of \$138,000 in the call for

63

interest, to meet which there is the above surplus of \$300,000. The conclusion, then, is that on the basis of the past year's net earnings, and with interest and charges computed on the amount of debt now outstanding, and with the Oregonian lease considered as annulled, the 6 per cent dividends which the Northern Pacific proposes to assume on the Navigation Company's stock would entail no loss upon it.

Alabama N. O. Tex. & Pacific Junction.-This company, controlling what is commonly known as the Erlanger system of roads, has just completed its line to Shreveport, La., and its bridge over the Red River at that point. The name of that division of the company's roads is the Vicksburg Shreveport & Pacific, and for many years past it has been a wonder to the observer of railroad progress that the comparatively short link connecting the whole railroad system of Northern Texas with the railroads east of the Mississippi, via Vicksburg, should remain unfinished. The old portions of the track will now be raised and improved, and the whole line put in order for a heavy traffic.

[From our own correspondent.]

LONDON, Saturday, July 5, 1884.

The weather during the past week has been very brilliant, • and although rain is wanted for certain crops, the prospect, taken a whole, and in an agricultural point of view, is very satisfactory. There has been no general fall of rain, but there have been numerous local showers and storms, which have been productive of great benefit, more especially to the latesown crops. Wheat promises well, and as far as potatoes are concerned the yield promises to be more than usually abundant. The reports from abroad regarding the crops are also very satisfactory, and there is every reason for believing in a continuance of cheap food. This should exercise considerable influence, and there is in consequence a belief in a more prosperous future.

The money market during the past week has assumed a very easy appearance. The demand for short loans has been quite limited, and the rate is quite nominal at about 34 per cent. As far as discount accommodation is concerned, there is extreme case. The rates have been falling away throughout the week, and the quotation for three months' bills is only about 114 per cent. Some transactions have, in fact, been reported at as low a figure as $1\frac{1}{8}$ per cent. Money will be soon required for harvest purposes, as the cutting of wheat in the south of England will not be long delayed. If the present weather should continue, the cost of harvesting will be small. This can be already applied to the hay harvest, which is making rapid progress; and if this should be also applied to wheat and other cereals, farmers will not be at any great expense this season.

The following are the quotations for money and the interest allowed by the discount houses to-day and same day of the previous five weeks:

The following remarks by Messrs. Pixley & Abell apply to the bullion market, and relate to the past week :

to the buillion market, and relate to the past week : Gold-With ro great arrivals and a strog demand for export, gold has continued extremely firm. The Bank has sold during the week $\pounds 250,000$, of which $\pounds 150,000$ was in bar gold for Canada, via New York, and $\pounds 100,000$ in sovereigns for Montreal, direct per Dominion Live steamer sailing this day. The arrivals are: $\pounds 34,000$ from West Indies, $\pounds 3,500$ from Australia, $\pounds 3,000$ from Buenos Ayres, $\pounds 3,400$ from the C ope of Good Hope; total, $\pounds 43,900$. The "Valetta" takes $\pounds 46,700$, and the "Indus" $\pounds 25,000$, to India. Silver since our last has hardened considerably. The amounts ex "Nile" and "Buffon" were sold at 505 sd. Later the Indian exchanges were firmer, and this, together with the small amount available, caused the price to rise to 503 d., which we give this day as our quotation. The

in the state of t S. S. "Valetta" takes £130,400 and the China boat, sailing to day, $\pounds 0,000$, to India. Mexican dollars to the amount of £30,000 were brought by the West

India steamer "Nile," and realized 50'sd. per oz. Since then there have been no arrivals, and should any now come to hand they would no doubt realize slightly higher rates. The P. & O. steamer takes £109,020 to China and the Straits.

The quotations for bullion are reported as follows:

Although it cannot be said that business is in any way active, it may be very safely asserted that there has been an improvement in the condition of things. How far this is likely to prove to be permanent is quite an open question, and this is a cause for much discussion and anxiety, because we have so very frequently been disappointed. Prices have now reached so very low a point that any further reduction is regarded as doubtful, more especially as the weather is so propitious in most respects. We have no rumors of impending failures of any serious importance. On the contrary, it is the general opinion that the stability of business, both commercially and financially, is greater than it has been for a long time past. During the current month—a month of holiday making-business may be expected to rule quiet, but there appear to be some distinctive signs of an improved feeling, which, it is to be hoped, will be maintained, and which will develop into something substantial. The reasons for

for FRASER

Owing to adequate importations and to liberal supplies of produce afloat, together with the fineness of the weather, the wheat trade has been very quiet, but without material change in prices. Millers are operating cautiously, and are only supplying actual wants. They pursue that policy because in a few weeks' time they expect to have offered to them a selection of excellent wheat which they hope to purchase on very moderate terms. The wheat crop in the southern counties of England is ripening rapidly, but the rain which is now falling in the London district, and which we are officially informed is not likely to be protractedly heavy, will be calculated to check an advance to hasty maturity, and will not only benefit wheat. but will also be of great benefit to the later-sown crops. Not only is there no reason for despondency, but on the contrary a hopeful view should be taken of the future.

The following are the estimated stocks of wheat, flour and Indian corn afloat :

| At present. | Last week: | Last year. | 1882. |

NEW YORK, FRIDAY, JULY 18, 1884-5 P. M.

The Money Market and Financial Situation.-The bank statement of July 12 attracted much attention by the large increase of \$7,550,200 in the surplus reserve, making the total surplus \$23,853,000, against \$8,517,925 at this time in 1883 and \$10,559,950 in 1882. Some criticism has been made on the action of the banks as pursuing a too conservative course in declining discounts to merchants on single-name paper. We do not believe that our bank officers are inclined to be illiberal, and attention having being called to the subject, they will no doubt grant discounts in every case where the showing of assets warrants it.

Tl e failures of Halsted, Haines & Co. and Edmund Yard, Jr. & Co., in the dry goods trade, and of Fletcher & Sharpe, bankers in Indianapolis, have had no great effect on our financial markets.

An attempt is made sometimes to force an analogy between the crisis of 1873 and the recent stock panic of 1884. But however great or small may be the disasters of the current year, we protest against any attempt to draw positive conclusions from the course of affairs following the crisis of September, 1873. The financial situation of the country is now quite different; the railroad situation is entirely different; and any advice to shape business transactions on an assumed basis of affairs that is supposed to be similar to that of 1873 will probably lead those who follow it into serious errors.

The crop reports from the West continue to be of the most encouraging nature, and if the good weather continues, the yield of wheat and corn in 1884 will probably exceed that of any former year. Each day of good weather now adds millions of bushels to the wheat harvest.

Rates for call loans during the week on stock and bond collaterals have ranged at 12 to 3 per cent, and to-day at 112 to 2 per cent. Prime commercial paper is quoted at 515@615 per cent.

The Bank of England weekly statement on Thursday showed a loss in specie of £126,483, and the percentage of reserve to liabilities was 4433; the discount rate remains at 2 per cent. The Bank of France lost 2,075,000 francs in gold and gained 33,000 francs in silver.

The New York Clearing-House banks, in their statement of July 12, showed an increase in surplus reserve of \$7,550,200, the total surplus being \$23.853,000, against \$16,302,800the previous week.

The following table shows the changes from the previous week and a comparison with the two preceding years in the averages of the New York Clearing House banks.

| | | | | | | by some strong parties who intend to stay in. |

United States Bonds .- The government bond market continues to be strong on the long-date issues, and the 4 per cents of 1907 show a gain of nearly ³/₄ per cent in the week. The 3 per cents were barely steady till to-day, when they became firmer.

The closing prices at the N. Y. Board have been as follows:

| Interest Periods. | | July 14. | July 15. | July 16. | July 17. | July 18. |
|---|-------|-----------------------|-------------|-------------|----------------------|----------------------|
| 4 'ss, 1891 reg. QMar. 4 'ss, 1891 coup. QMar. | 1124 | *1124 | *1124 | *11930 | 11935 | *1193. |

| 63, our'cy. '99 reg. J. & J. | *131 | *131 | | | *130 | *132 |

This is the price bid at the morning board; no sale was mad 3.

State and Railroad Bonds.-There is nothing worthy of note in State bonds. Railroad bonds show a general improvement, and there is evidently more confidence that mortgage bonds, even of junior issues, will yet have some value. The Erie second consols have been decidedly firmer, even while the stock was weak. Reading general mortgages have also been stronger in Philadelphia. Denver & Rio Grande Western mortgages have advanced here on moderate purchases. West Shore bonds have been prejudiced but slightly by the suit to foreclose on the terminal property. Texas & Pacific, Rio Grande Division, bonds are stronger, but will be in an uncertain position until something definite is known as to the payment of August interest. The directors met to-day and discussed the matter, but nothing definite was announced.

Railroad and Miscellaneous Stocks .- The market during the week has been more notable for dulness than anything else. In twenty days from this time the country will know far more about the wheat crop, including spring wheat, and also about the stand and final prospects of corn, and then the freights for 1884-85 on the grain-carrying roads will be a matter of greater certainty. Heavy crops, cheap food, large freights, and large exports to foreign countries, are the elements of prosperity which we now want, and these will serve us much better than a contracted business at high prices.

The greatly improved tone of confidence in Wall Street has been well shown in the small effect produced there by the two failures in the dry goods trade; the conclusion is evidently drawn that prices have already touched bottom, and that a few mercantile failures are not likely to send them back again.

The short element in the market is still important, as evidenced by the borrowing rates for stocks; and while some of the oldest and heaviest bears covered their principal shorts some time ago, the immense profits realized on that side probably tempted many small operators to go short at comparatively low prices. This morning New York Central lent at 1-32@1-16 per diem for use; Lackawanna at 1-16; Manitoba at 1-32: Lake Shore, Central Pacific, Jersey Central, Union Pacific and Burlington & Quincy at 1-64; and St. Paul, Northwest and Western Union flat to 1-64.

Among the active list of stocks St. Paul has recently been most conspicuous, and while the sales on trading from day to day are very large, it would not be surprising if the remarkable decline in St. Paul to 5814 in June had induced purchases by some strong parties who intend to stay in

VOL. XXXIX,

has been little of importance bearing upon the exchange market, and at times the bills against securities appeared in. more abundant supply.

To-day the rates on actual business were as follows, viz.: Bankers' 60 days sterling, 4 831/4; demand, 4 85@4 851/4. Cables, 4 $85_{4}^{-0.0}(4) = 85_{4}^{-$

The following were the rates of Domestic Exchange on New York at the under-mentioned cities to-day: Savannah, buying ¹/₆ premium, selling ¹/₄ premium; Charleston, buying par, selling 3-16@!4 premium: Boston, 10@12 discount: New Orleans commercial 150 premium, bank 200 premium, St. Louis, 100 discount.

The posted rates of leading bankers on Friday are as follows:

| July 18. | Sixty Days | Demand. |
|---|------------|--------------------|
| Prime bankers' sterling bills on London Prime commercial | 4 202 | 4 86 |
| Documentary commercial Paris (france) | 4 8134 | 5 174 |
| Amsterdam (guilders). Frankfort or Bremen (reichmarks) | 1.1 | 40^{1}_{4} 95 |

led by St. Paul, which advanced to 727_8 ; Northwest to 923_4 ; Lake Shore to 751_4 ; Central to 1031_2 ; Lackawanna to 110; Missouri Pacific to 9718, &c. The closing prices were only a trifle lower.

damaged by the spring floods.

U. S. Sub-Treasury.-The following table shows the receipts and payments at the Sub-Treasury in this city, as well as the balances in the same, for each day of the past week :

In the last hour of business to-day prices were very strong,

RAILROAD INTELLIGENCE

The Investors' Supplement contains a complete exhibit of the Funded Debt of States and Cities and of the Stocks and Bonds of Railroads and other Companies. It is published on the last Saturday of every other month-viz., February, April, June, August, October and December, and is furnished without extra charge to all regular subscribers of the CHBONICLE. Extra copies are sold to subscribers of the CHORNICLE at 50 cents each, and to others than subscribers at \$1 per copy.

ANNUAL REPORTS.

Alabama New Orleans Texas & Pacific Junction Railways Company (limited.)

(For the year ending Dec. 31, 1883.)

The annual meeting was held in London on July 15, 1884, at which the report for 1883 was submitted. Just at this time the status of the roads controlled is of greater interest, from the fact that the Vicksburg Shreveport & Pacific road is just completed to Shreveport, La., making one of the most important railroad connections, geographically considered, that remained to be completed in the United States. A map of all the lines of this company will be found in the next issue of the INVESTORS' SUPPLEMENT. The report states that "the sum of £163,890 15s. 9d., comprising interest on first mortgage bonds of the New Orleans & North Eastern and Vicksburg Shreveport & Pacific companies, has not yet been paid by them, and has not been included in the revenue account, but has been carried to a suspense account. This sum forms a first charge against the future net earnings of these roads, and, when re-ceived, will require adjustment as between capital and revenue in the accounts of this company.

"The revenue account, after providing for interest on the first debentures and on loans, shows a loss of £51,228 6s. 0d., from which has to be deducted the balance to the credit of the account on the 31st of December, 1882, of £38,155 12s. 5d., leaving a net deficiency of £13,072 13s. 7d." * * *

"The Vicksburg & Meridian road, during its financial year ending the 31st March, 1884, earned at the rate of \$3,618 per mile per annum, and the operating expenses were at the rate of 75.73 per cent. It is expected that the traffic of this road will show considerably increased returns upon the completion of the Vicksburg Shreveport & Pacific line through to Shreve-port." [Completed July 13.] "The New Orleans & Northeastern Road was opened

throughout in November, 1883. Since that time a regular service of through trains has been in operation, and there are two passenger trains daily each way between New Orleans and Cincinnati. There is every reason to believe that when this new passenger route is thoroughly equipped and developed, and its great advantages over competing lines, both as to saving of time and distance, are understood by the traveling public, it will prove a very remunerative source of revenue.

"With regard to the Vicksburg Shreveport & Pacific Road, the raising of the permanent way on the old section of the line will be proceeded with, so as to place it above the danger of interference by floods, from which it has suffered in the past, and the whole of the road will be placed in good working order, and ready to receive the large traffic which is confi-dently expected." * *

"Since the issue of their last report, the directors have been enabled to place £1,000,000 of the first debentures, but only at a considerable discount. The proceeds were consequently insufficient to furnish the funds required for the construction and equipment of the roads, and the board have, therefore. availed themselves of the powers granted at the general meeting in November last, to create and issue £500,000 second debentures, bearing 6 per cent interest. They have succeeded in placing £370,000 of these debentures at 70, subject to an option reserved to the shareholders to subscribe for the whole issue of £500,000 at that price. The directors have further found it necessary, with the sanction of the trustees for the first debentures, to enter into an arrangement for the sale of \$1,000,000 of the stock of the Cincinnati New Orleans & Texas Pacific Railway Company to the Alabama Great Southern Railway Company, for the sum of £200,000. In consequence. of this arrangement, the annual subsidy of \$60,000, payable to this company by the Alabama Great Southern, will cease as from the 1st January, 1884."

GENERAL INVESTMENT NEWS.

Atlantic & Pacific.—The following circular was sent out **Tuesday:**

BOSTON, July 11, 1834. The holders of subscription certificates under this company's circular The holders of subscription certificates under this company's circular of Jan. 20, 1882, have paid 35 per cent, as previously called, and from the sale of first mortgage bonds, in accordance with its option, the company has received 52¹/₂ per cent, leaving a final balance of 12¹/₂ per cent due from the subscribers to the company. This balance is hereby called, payable at the Boston Safe Deposit & Trust Company, as follows: Ten per cent on July 30, 1834; 2¹/₂ per cent on August 30, 1884. (Upon payment of 40 per cent by subscribers, delivery of the securities becomes due as provided by the terms of sub-scription). When all assessments due to July 30, 1834, inclusive, have been paid, the securities called for by the subscription certificates will be delivered, income ach block as follows: First mortgage bonds wast be delivered, upon each block, as follows : First mortgage bonds, west-

JULY 19, 1884]

ern division, \$240; first mortgage bonds, central division, \$24; capital stock, \$1.76. All the remaining securities called for will be delivered August 30, 1884, upon payment of the $2\frac{1}{2}$ per cent due on that date as above, and interest will be adjusted at that time. Scrip will be given above, and interest will be adjusted at that time. Scrip will be given for fractions. All deliveries will be made, and indorsed upon the certifi-cates by the Boston Safe Deposit & Trust Company, and the certificates must be surrendered to the trust company upon final delivery of the securities. The 10 per cent called for July 30, 1884, amounts to \$88 on each certificate. Subscribers, who so desire, may, upon five days' notice to the undersigned, pay the entire 12¹/₂ per cent on July 30, 1884, and in that case all the securities will be then delivered, interest adjusted and the certificates surrendered. In this case there will be \$110 in all due on each certificate, and the securities so deliverable therefor will be due on each certificate, and the securities so deliverable therefor will be as follows: First mortgage bonds, western division, \$380; first mort-gage bonds, central division, \$38; incrme bonds, western division, \$495; income bonds, central division, \$49 50; capital stock, \$440. * * * * Please make the checks payable to the order of the trust company and present your certificates for indorsement at the time of payment. C. S. TUCKERMAN, Treasurer.

The Boston Herald says:

The Boston Herald says: "The New York subscriptions are payable at the United States Trust Company. Under the terms of the subscription circular of Jan. 20, 1882, the syndicate has a right until 40 per cent is called and paid by the subscribers to take any or all of the first mortgage bonds and a part of the incomes, and to remburse the subscribers for the amounts they have paid, with interest. This option lives until July 30. The syn-dicate may before that date pay the 12¹/₂ per cent, in which case the sub-scribers will have paid the 35 per cent and the syndicate 65 per cent. Or the syndicate may elect to pay the full subscription, 100 per cent. refunding the 35 per cent with interest, as before mentioned. Should the subscribers pay the 47¹/₂ per cent they will be entitled to securities, as stated in the circular. Should the syndicate pay the 12¹/₂ and allow subscribers to receive securities for 35 per cent, the subscribers will receive per block: \$283 in Western division first mortgages, \$28 in Cen-tral division incomes, \$440 in stock. "Should the syndicate take 10) per cent of the subscribtion, sub-scribers would receive back the \$308 they have paid with interest and these securities, all of the first mortgages going to the syndicate: \$400 Westein division incomes, \$410 Central division incomes, \$410 tock. The books close fof the purposes of the above call to-night (July 14). What the syndicate will do is not known, but, in any event, there will be a final settlement on the blocks and distribution of securities." **Bankers' & Merchants' Telegraph—Baltimore & Ohio**

Bankers' & Merchants' Telegraph—Baltimore & Ohio-Postal.-The terms of the alliance between the Baltimore & Ohio, the Postal and the Bankers' & Merchants' telegraph companies, which have been under consideration for several weeks, were finally agreed upon Thursday. This agreement, which will go into effect on the 31st of July, practically consolidates the three rivals of the Western Union into one enterprise for business purposes. The Times reports that-

enterprise for business purposes. The *Times* reports that— "The contract provides for a pooling arrangement which shall last for 25 years, and under the terms of which each company is to receive about an equal percentage of the earnings. Each company will con-tinue to maintain its individual organization, but the effices and work-ing force will be consolidated and the management of the enterprise will be in the hands of the united executive committees of the three companies. No changes can be made in the policy of the consolidated system except by unanimous consent of the representatives of each company. Should any serious disagreements arise the contract pro-vides for the appointment of arbitrators. John W. Mackay, Robert' Garrett, James Gordon Bennett, and other capitalists, will be in the Joint Evecutive Roard. D. H. Bates, President of the Baltimore & Ohio Telegraph Company, will be the executive manager, and G. S. Mott of the Bankers' & Merchants' will be general manager. "The union of these three companies brings under one control more

"The mion of these three companies brings under one control more than 16,000 miles of pole lines and 120,000 miles of wire, connecting all of the principal cities cast of the Missouri River and southward as far as Galveston, Texas. The total mileage of wire of the new combination is equal to about one-third of the Western Union mileage, omitting railroad wires, but this one-third, by reaching the most important trade centres, reaches about 80 per cent of the entire paying telegraphic business of the country, with complete facilities for handling the busibusiness of the country, with complete facilities for handing the busi-ness. The united companies will have four lines between New York and Boston, with branches to Newport and Fall River. They will also have four lines between this city and Philadelphia, Baltimore and Washing-ton. There will be five lines between New York and Chicago, having ton. There will be hyb lines between Faw fork and Chicago, having in the aggregate 50 wires, including the telegraphic lines of the West Shore and Nickel-Plate railroads. Two complete lines, with convenient branches, will run through the oil regions between Buffalo and Pitts-burg. The lines west and south are now being extended, and additions

burg. The lines west and south are now being extended, and additions will be built to meet the demands of business. "The combination includes a complete stock quotation or ticker system, which is now in operation in this city and Philadelphia, and which is soon to be started in Chicago, Bosten, and all of the prin-cipal cities; also a well-established district telegraph and messenger service, and a complete telephone system in many of the larger cities. service, and a complete telephone system in many of the larger effes. The entire consolidated system will be operated in connection with the Bennett-Mackay ocean cables. In this arrangement between the three companies neitner assumes or becomes responsible for the fixed liabili-ties of the others. Their joint control and management, it is stated, will be composed of the best talent and financial strength of the three companies. The expenses of operating will be reduced as nearly as possible to the cost of running one company, and the business will be extended wherever and whenever there seems to be need for it. "Before the signing of the contract yesterday there was a full under-"Before the signing of the contract yesterday there was a full under-standing between the three companies that extensions of lines now under way should be completed and paid for independent of the com-bination. It was stated that provision had been made by each company to raise all of the money required to finish their several extensions. The Bankers' and Merchants' will need about \$500,00°, the Postal Telegraph Company will need about \$250,000 and the Baltimore & Ohio Company expects to expend about \$250,000. The actual cash cost of the property combinated of the property and the setimated of about \$22,000.000 expects to expend about \$250,000. The actual cash cost of the property embraced in this consolidated system is estimated at about \$18,000,000. Within four months 20,000 miles of new wire were put up by the Baltimore & Ohio Company, and 5,000 miles more are in progress of construction. The total mileage of the Baltimore & Ohio will be 45,000 miles of wire by August 1. "The Gulf Colorado & Santa Fe Railroad of Texas, which has been doing public telegraph business in opposition to the Western Union Company for several years, will join the combination, and in connection with the Baltimore & Ohio will build lines to all important cities and towns in Texas." towns in Texas."

Chicago & Northwestern .- This company, under date of July 3, asked the Stock Exchange to list \$14,757,500 of its common stock. This stock will be paid to the Blair roads as follows:

Chicago Iowa & Nebraska.\$5,874.300Cedar Rapids & Missouri River.6,850,400Maplo River.2,032,800 There will be paid 11/2 shares Northwest for 1 share Chicago Iowa & Nebraska, and share for share with the other two companies, stocks of acquired roads to be retired. The leased lines of the above roads are also acquired, viz.: Sioux City & Pacific, Fremont Elk Horn & Missouri Valley. Total cost of theso lines is represented by: Northwest stock\$14,757,500Bonds and obligations assumed11,149,600Northwest 5 per cent 25 year debenture bonds1,968,000

Miles acquired, 487.97; tributary road, 418.42. This purchase

will make total mileage of Northwest system 4,197.73.

Grand Rapids & Indiana.—A special meeting of the Grand Rapids & Indiana Railroad Company, held in Grand Rapids last week, ratified arrangements which put its debt capitalization in a new condition. The accumulation of past due interest on old mortgages, amounting to something like \$2,200,000, with the bonds for the extension of the line to Mackinaw, and notes given to the Pennsylvania Railroad Company for the use of rolling stock and other purposes, have been taken up and made part of a new "blanket" mortgage. The Pennsylvania Railroad Company has relinquished its 7 per cent bonds on the Grand Rapids & Indiana, amounting to nearly \$7,000,000, and due in 1889, and also an issue of about \$1,100,000 of 7 per cents due in 1901, and a new issue has been given in exchange for these two series and the accumulations mentioned above, the indebtedness being thus changed into a single consolidated first mortgage on the entire road, but bearing interest at 5 per cent instead of 7.

Grand Trunk of Canada.—The earnings of this road for the five months ending May 31 are reported in London as follows:

Nashville Chattanooga & St. Lonis .- This company issues a more complete monthly report of income and expenses than any other railroad company. Their statement includes gross earnings, operating expenses, net earnings, charges for interest and taxes, extraordinary expenses paid out of earnings, and the surplus applicable to dividends. For the month of June, 1884, gross earnings were \$161,956, against \$170,660 in 1883, and net earnings were \$79,689, against \$83,768.

For the full fiscal year ending June 30, 1884, the returns are given below in comparison with 1882-83. It will be observed that in the year just finished the net surplus over interest and was \$406,320 or a little over 6 per cent on the stock, but \$106,077 was spent for improvements, leaving a net surplus of \$300,243 applicable to dividends, against \$253,230 last year. The details in each of the past two years were as follows.

Boston & Lowell.-Northern of New Hampshire.-In the bill in equity of Dow et al. vs. The Northern Railroad and Boston & Lowell Railway and directors, Hon. Isaac W Smith of the Supreme Court made the following order :

That during the pending of the action, accounts of the business of "That during the pending of the action, accounts of the business of the Northern Railway now commonly known as the northern division of the Boston & Lowell Railway, including that done at its shops, be kept under the direction of the Northern Railway in like manner as the same have been heretofore kept by the Northern Railway. It appearing to the Court that the above order will protect the interests of the plain-tiffs' pending litigation, it is further ordered that the plaintiffs' prayer for trustes or receiver, and their prayer that the directors of the Northern Railway he ordered to resume possession and court of their Northern R ilway be ordered to resume possession and control of their railroad pending litigation, be denied."

N. Y. West Shore & Buffalo-West Shore & Ontario Terminal.-The Central Trust Company of this city has begun in the Supreme Court a suit for the foreclosure of a mortgage for \$10,000,000 held by it as trustee for the owners of bonds to that amount of the West Shore & Ontario Terminal Company. The mortgage was made in July, 1883, and in that month the Terminal Company leased all its property, real and personal, to the railroad companies, they agreeing to guarantee the interest on the \$10,000,000 of bonds.

The Terminal Company defaulted on its interest in February last, and the railroad companies have been unable to act up to their agreement. The receivers of the West

Digitized f SFR

http://fra

THE CHRONICLE.

Shore Company now hold the mortgaged property under the lease, and claim an interest in it for the benefit of their trust. Other corporations and individuals also claim liens on the mortgaged premises. The Central Trust Co. asks that a receiver be appointed pending the action, and a hearing on this is to be had on July 23. It is said that the action of the Central Trust Co. in beginning a suit for the foreclosure of the mortgage was a surprise to the officers and friends of the railroad companies. Few of the \$10,000,000 bonds have been sold outright, but nearly the whole amount was hypothecated at sixty cents on the dollar. Efforts to arrange for a withdrawal of the suit will be made. President Olcott of the trust company said that a meeting of the lenders on the Terminal bonds would be held probably on some day this week. A large majority in amount of the lenders have signed an agreement to extend the loans for six months on the payment of the interest on the bonds partly in cash and the remainder in receivers' certificates of the West Shore Railroad.

Norfolk & Western.—The President of the Norfolk & Western Railroad Company authorizes the following statement: "The dispatch from Lynchburg, Va., to the effect that the work on the Cripple Creek extension of the Norfolk & Western Railroad has been suspended for want of funds to pay contractors is not true. Before the company began work on the Cripple Creek extension it sold \$1,500,000 of improvement and extension bonds with which to pay for this and other new work. The syndicate that took them had an option on \$1,000,-000 more, which, if taken, would furnish ample means to complete the improvements. The company determined that no work should be done beyond what was provided for in cash n this way. Owing to the present financial depression the ast \$1,000,000 of bonds have not been negotiated and the company has stopped the work until the funds for its completion are assured by the sale of the \$1,000,000 of bonds referred to. The contractors have been promptly paid and are in funds to pay laborers and sub-contractors. The company is abundantly able to meet all obligations."

Oregonian.—A suit has been instituted in the United States Court at Portland, Oregon, for the payment of the half-year's rent due by the Oregon Railway & Navigation Company to the Oregonian Railway Company, which will at once bring up the question of the legality of the lease.

Mr. J. B. Montgomery, writing from Oregon, says that the lease was made entirely at the solicitation of Mr. Villard, and that the road remained incomplete for the very reason that it had been leased. He says: "At length Mr. Villard's proposition was accepted in Scotland. The lease was prepared by Mr. C. E. Bretherton, attorney for the Oregon Railway & Navigation Company, and Mr. Thomas Thornton, on behalf of the Oregonian Railway Company, and it was then submitted to Hon. Judah P. Benjamin, who pronounced it perfect. It was then sent to New York, and there the President of the Oregon Railway & Navigation Company executed the lease." * *

"The refusal to carry out this lease, it seems to me, in view of all these facts—in view especially of the fact that the lease was solicited by the Oregon Railway & Navigation Company, and obtained through the acts of some of its very managers now—is flat repudiation; or rather it would be if the United States courts permitted it to be done with impunity."

Pacific Mail Steamship Co.—The directors of Pacific Mail have declared a quarterly dividend of $1\frac{1}{4}$ per cent, payable Aug. 1. The statement presented to the meeting by President Houston showed that the payments to the Panama Railroad Company for the quarter ending May 21, amounted to \$60,000. The net earnings for the quarter were \$396,200, and earnings on stock were \$37,000 short of 2 per cent for the quarter. The cash on hand was \$1,252,000. The books will close July 21st and re-open August 22d.

Rochester & Pittsburg.—The *Mail and Express* says: "The Rochester & Pittsburg Company has outstanding \$1,132,500 of second mortgage bonds; it has a floating debt of

or losing it altogether. Some suggestions have been made relative to the relief of such stockholders as are not able to pay the assessment, but they have assumed no definite form. Some stockholders have formed a resistance movement, contributing \$12 50 on each 100 shares to furnish means for defense." * *

"The present condition of the company's affairs is due in part to the fight at Buffalo during the past few months. Rochester & Pittsburg is accused of having precipitated and prolonged this fight. An officer of the company said : 'The coal of our line is the best brought into Buffalo, and the distance from our mines to Buffalo is seventy-six miles shorter than any other line from coal competing at all with that of Rochester & Pittsburg. - When the line to Buffalo was opened Rochester & Pittsburg offered to maintain prices; Erie refused. Rochester & Pittsburg offered to divide equally between the three roads; Erie refused. Rochester & Pittsburg has received an average of 10c. per ton more for its coal than has been received by Erie or Buffalo New York & Philadelphia.' * * * We have not cut rates in any instance, but have merely fol-lowed rates made by our competitors. We have always refused freight that did not pay a profit, and have never operated the road at a loss. In June the company carried over 53,000 tons and earned about \$104,000 gross and over \$30,000 net.' "

St. Paul & Duluth.—At a meeting of the board of directors of the St. Paul & Duluth Railroad Company; on the 11th inst., a dividend of 7 per cent in preferred stock was declared, payable to the preferred stockholders August 1, at the Fourth National Bank of New York. The stock books will close on July 15 and re-open on August 15. The 7 per cent dividend is for $3\frac{1}{2}$ per cent due since July 1, 1882, and $3\frac{1}{2}$ per cent due July 1, 1884, and, with 14 per cent paid in cash, makes 21 per cent to the preferred stockholders for the three years ending June 30, 1884. The dividend in preferred stock instead of cash was authorized at the annual meeting of the stockholders, as a large proportion of the income for the past three years has been devoted to improvement of the road and equipment and in the construction of branch lines, which appear upon the books of the company as assets unrepresented by either bonds or stock.

Toledo Cincinnati & St. Louis.—At Cincinnati, July 15, the United States Court confirmed the sales of the several divisions of the Toledo Cincinnati & St. Louis Railroad in Ohio, subject to the payments provided by the terms of the sale, to be paid prior to the first mortgage claims and subject to the payment of such other sums as the court may find, prior to the first mortgage. The master commissioner is ordered to make a report on July 29 of such claims of this kind as are not disputed. Receiver Craig has resigned the receivership of the Cincinnati Northern Division, not yet sold, and George Hafer has been nominated to succeed him. The nomination has been taken under advisement.

-The Southeastern Division Committee has issued a call upon bondholders of 5 per cent, payable July 26, at the International Trust Company. The call contains a resolve of the committee, "That for this money certificates be issued drawing interest at the rate of 6 per cent per annum, and for which holders will be entitled to a first-mortgage bond upon a re-organization of the property, with a proper adjustment of interest when such exchange shall be made; or, if the property shall be sold without a re-organization, the certificate will be redeemed, principal and interest, in cash." And the committee adds: "You are reminded that, under the trust agreement which you have signed, your receipts cannot be transferred or sold until this assessment is paid, and that you have empow-ered the committee to sell all your interest in the property or receipts on your failure to pay this assessment within ten days. The call has been made as small as possible, and we are advised that on this payment we can get possession of the property, and be able to operate it economically."

Trunk Line Freights from Chicago.-Compared with the

72

\$1,182,000, and it owes about \$684,000 on equipment loans. The second mortgage bonds have been relied upon to take care of the floating debt. Up to a recent time it has been practicable to make loans on these bonds, but attacks upon the credit of the company have made the bonds at once unsalable and unavailable as collateral for loans. The creditors of the company have been pressing for payment. Walston H. Brown & Co. have met the company's liabilities hitherto, but do not propose to meet them any longer. On Aug. 1 interest becomes due on the first mortgage bonds, amounting to about \$39,000, which will be paid out of June earnings. Interest also becomes due Aug. 1 on the second mortgage bonds. The amount due, \$32,000, has not been carned, and it has seemed to be necessary to foreclose the second mortgage bonds.

"This necessity has brought out several plans for the relief of the company. The one received with the most favor has been a proposition to foreclose the second mortgage bonds and organize a new company with stock to be given share for share to stockholders in the present company on payment of a 15 per cent assessment in cash. This assessment would yield about \$3,000,000, sufficient to pay off the second mortgage bonds, the floating debt and equipment loans and leave about \$200,000 in the treasury. The advantage of this plan to stockholders is that the stock would be brought next to the consolidated mortgage bonds and put in a position very favorable to dividends. The objection to this plan is, of course, the unwillingness of some and the inability of other stockholders of pay an assessment as large as 15 per cent. Those who did not pay would be under the necessity of selling out their stock

preceding two years, the east-bound tonnage shows a large increase in the past two months. The following is a comparative statement of east-bound shipments in ten weeks :

JULY 19, 1884.1

Union Pacific.—The Boston *Transcript* has the following : "The returns of land sales by the land department of the Union Pacific for June show that the notable increase characteristic of the first five months of the year still continues. The number of acres sold in June was 453,299 and the receipts for the same aggregate \$931,041, while for the corresponding month of 1883 the sales comprised 118,547 acres for \$485,666, or an increase for the month of 334,752 acres and \$445,376 in receipts. [It should be understood that these receipts are not all in cash, but mainly in mortgage notes after the usual method of railroad land sales.] The details of the sales for June and for the first half of the present year compared with corresponding periods of last year are as follows:

"The increase in sales the present year is due in great part to the fact that the boom which for the past two or three years has been in the direction of the Northwest is now seeking the warmer climate of Nebraska and Kansas, and if it keeps on at the present rate will soon purchase nearly all of the fifteen millions of acres now left of the Union Pacific's magnificent land grant."

Wabash St. Louis & Pacific.—The receivers of the Wabash Railroad have made a general announcement that Vice-President Talmage, of the Missouri Pacific Railroad Company, has severed his connection with that property and will take entire charge of the general management of the Wabash system. The court, in its original instructions, ordered the receivers of the Wabash to cancel the lease of the property to the Iron Mountain Railroad and to separate the management of the properties entirely.

-Attention is called to the Knickerbocker Trust Company's card in the CHRONICLE to-day. This company has just been organized, and has opened its fine offices at 234 Fifth Avenue, corner Twenty-seventh Street, where an institution of this character was much needed by up-town residents. The Knickerbocker starts at a most opportune time, as the shrinkage in securities to their very low level now allows them to start at the bottom, and consequently not get loaded up with a large line of assets subject to a heavy decline. Besides, they have a special charter, with large and general powers to transact all kinds of trust business, either for individuals, corporations, estates or court funds; also to issue certificates of deposits bearing interest and current accounts subject to check at sight. The capital stock is now some three hundred thousand dollars, but in case of necessity can be increased to one million dollars. We give a list of the officers and directors, among whom will be found many of our most active business men in every department of trade and finance, viz.:

department of trade and finance, viz.: Messrs. Frederick G. Eldridge, President; Charles T. Barney, Vice-President; Joseph T. Brown, Secretary; Directors - Messrs. Joseph S. Auerbach, Charles T. Barney, James H. Breslin, C. T. Cook, Joseph W. Drexel, Frederick G. Eldridge, Jacob Hays, A. Foster Higgins, Harry B. Hollins. Alfred M. Hoyt, Gen. George J. Magee. Henry W. T. Mali, Robe: t G. Remsen, Andrew H. Sands, James M. Waterbury and Charles H. Welling. Among the stockholders are J. Pierpont Morgan. Edward Cooper, George Henry Warren, William R. Travers, A. S. Hewitt, W. K. Vanderbilt, W. Y. Mortimer, John W. George, Samuel D. Babcock, Moses Lazarus, John J. Townsend, James L. Breese, Peter Moller, Jr., George Garr, A. Depau Moran, Isaac P. Smith, William H. Hays, Benjamin L. Swan, Jr., C. L. Tiffany, John De Koven, James T. Woodward, E. K. Willard, N. S. Jones, Alexander Mitchell, Amory G. Hodges, William Woodward, Jr., Henry W. Oliver. Jr., C. J. Langdon, the Hon. Ira Davenport, William Marshall, Stephen H. Herriman and Walter C. Tuckerman.

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, July 18, 1884.

Some important failures have occurred in this city and at the West during the past week, retarding the revival of trade and to some extent unsettling values. The weather has been rather cool for the season and abundant rains have fallen, but crop accounts continue generally favorable, and nearly all food staples are very cheap. Troubles have again arisen with labor in various branches of industry, but no important "strikes" have taken place as yet. The political canvass attracts more attention, and may be expected to increase in activity as the autumn months approach, but it is not probable that trade will suffer much from this cause.

The speculation in lard futures has been more active, prices varying widely, and the market showing an unsettled tone. Early in the week very low prices were current, from which the recovery was fitful and ill-sustained, closing yesterday at some reduction from the best prices, at 7.41@7.43c. for Aug., 7:57c. for Sept., 7.67c. for Oct. and 7.65c. for Nov., with lard on the spot 7.20@7.25c. for prime city and 7.45@7.50c. for prime Western. Pork has ruled firm and rather more active at \$15 50@ \$16 50 for old and new mess and \$17 25@ \$18 75 for clear. Bacon is still nominal. Pickled cutmeats have met with a good demand at full prices, including bellies at $7\frac{5}{8}$ @8c., shoulders at $7\frac{1}{4}$ @ $7\frac{3}{8}$ c. and hams $12\frac{3}{4}$ @13c. Smoked meats selling very fairly at full prices. Dressed hogs closed at 714@71/2c. The reports of the progress of summer porkpacking show the total slaughter of swine to July 9 to have been 2,210,000, against 1,960,000 for the corresponding period last season. Beef is quiet and nominal. Tallow closes more active at 618@614c. Butter has been more active and closes steady; creamery, 16@22c.; Western factory, 9@14c. Cheese sold very freely at better prices, but closes quieter; State factory, 5@ 9½c. Eggs are dearer at 19@21c.

In groceries a steady, and as a rule fairly active, market has been noticed in a regular way. Coffee in a speculative way has drooped somewhat in sympathy with the Havre advices and the increased receipts at Rio Janeiro. To-day Rio was steady on the street at 10c. for fair cargoes. Options were inclined to easiness, and closed at a decline of five points, as follows : July, 8.15@8.30c.; August, 8.20@8.25c.; September, 8·30@8·35c.; October, 8·35@8·40c.; November, 8·40@8·45c.; December, 8.45@8.50c. Molasses has continued quiet at 17c. for 50-degrees test Cuba refining. Grocery grades **B** without new feature and very slow. Rice continues in ir jobbing call at 51/2@7c. for domestic grades. Raw sugars have been quite firm during the week, and yet of late the movement has been less liberal; fair to good refining Cuba is held at 5@51%c.; centrifugal, 96-test, 6c.; refined has ruled about steady, and a fair local and export trade has been reported; hards, 6% @7% c.; standard "A," 6 7-16@61/2c.

Kentucky tobacco has had another quiet week both in a legitimate and speculative way; crop accounts are good and prices have shown easiness and irregularity, and lugs are now quoted 7@8c. and leaf 81/2@10c. Transactions to-day included 300 hhds. for shipment to Spain at 81/2c. and 50 hhds lugs for August at 71/4@73%c. Seed leaf has been moderately active, the sales for the week including 250 cases New England, 1883 crop, at 121/2@28c., 350 cases Pennsylvania, 1881-82 crops, 6@ 10c., 50 cases New York, 1882 crop, private terms, and 100 cases sundries, 4@28c.; also 800 bales Havana at 80c.@\$1 15 and 200 bales Sumatra at \$1 20@\$1 60. Naval stores have been quiet and uninteresting until to-day, when spirits turpentine was advanced to 32c. on the spot and rosins closed steady at \$1 221/2@\$1 271/2 for strained to good strained. Refined petroleum was quite active to-day, in strong contrast to the early part of the week; 70 Abel test sold at $7\frac{1}{8}$ c. for all August delivery; cases sell at $9\frac{1}{4}@10\frac{1}{2}$ c. by the cargo; naphtha firm at 71/2c. Crude oil certificates had a selling day, owing to the free flowing of the new Grace & Grandin wells; the sales were made at 65@633/8c., closing at 631/@633/4c. Hops are less firm, and the best grades can now be had for 30c. Metals and oils, also wool, continue very slow, and prices as a rule are almost nominal. In ocean freight room quite an improved movement has been noticed, both in berth and charter room. Grain rates have been advanced, and oil tonnage is very firmly held; grain to Liverpool by steam was taken to-day at 5d.; do. to London, 514d.; do. to Glasgow by steam quoted 5d.; refined petroleum to Hamburg, 3s., another to do. at 2s. 101/2d.; cases to Palma, 18c.; crude to Cette or Marseilles, 4s.; refined to Oporto, 3s. 6d.; do. to Dantzic. 3s. 9d.; do. to Belfast, 3s. 6d.; do. to Bre-men or London, 2s. 9d.; if Antwerp, 2s. 10½d.; grain by steamer from Newport News to Cork for orders, 4s. per qr.

As an unusual feature among corporations, attention is called to the following by-law relating to the management:

"From time to time, at least once a week, the Executive Committee shall request one of the directors to meet with two of the Executive Committe, as a sub-committee, who shall personally examine all securities and investments of the company, and shall make a detailed statement thereof, which shall be duly verified by such committee, and which shall be filed among the records of the company and shall be copied into the minute book of the Executive Committee."

-The St. Paul Minneapolis & Manitoba Railroad Company gives notice that the regular quarterly dividend of 2 per cent on the stock will be paid on and after Aug. 1, at the office, 63 William Street.

-The Homestake Gold Mining Company of Dakota has declared its seventy-first dividend for June, of \$25,000, payable at the office, San Francisco, or at the office of Messrs. Lounsbery & Haggin, this city.

Digitized

COTTON.

FRIDAY, P. M., July 18, 1884.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening (July 18), the total receipts have reached 3.810 lales, against 7,578 bales last week, 4,655 bales the previous week and 5,642 bales three weeks since; making the total receipts since the 1st of September, 1883, 4,798,684 bales, against 5,925,194 bales for the same period of 1882-83, showing a decrease since September 1, 1883, of 1,126,510 bales.

The speculation in cotton for future delivery at this market during the week under review has been only moderately active, but prices have somewhat improved, especially for early deliveries. Stocks in this and the Southern markets have become quite reduced. The export movement has been considerable, and receipts at the ports hardly worth recording; but the home demand has been less active. The Atlantic Cotton Mills are to stop for two weeks, and it is expected that others will follow the example. The weather reports have been fairly favorable, though heavy rains have fallen in some sections, and from Western Texas complaints of drought are received. Failures in the dry goods trade have been among the most depressing influences. The foreign markets have been variable and unsettled. On Saturday an early decline was mostly recovered at the close, but on Monday an early advance was more than lost. On Tuesday the early months began to develop strength and on Wednesday were quite buoyant, with renewed discussion of the possibility of a "corner" on this crop: but the next crop advanced only a few points. A feature of the dealings was the payment of 16 points to exchange August contracts, "regular," for August contracts, "no notice." the change being practically from sellers' to buyers' option. Yesterday the failure of Liverpool to respond to the course of this market caused a dull business, and better weather reports from the South caused a selling movement, under which prices fell off 5607 points, the close being barely steady. To day some further decline in the morning was fully recovered at the close. The only important changes from last Friday are an advance of 12 points for July and 5 points for August. Cotton on the spot has been fairly active for export, but otherwise rather quiet. Today the market was quite firm, middling uplands closing at 11c.

The total sales for forward delivery for the week are 304,600 bales. For immediate delivery the total sales foot up this week 15,788 bales, including 11,101 for export, 4,687 for consumption, — for speculation and — in transit. Of the above, — bales were to arrive. The following are the official quotations for each day of the past week.

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph, is as follows. The Continental stocks, as well as those for Great Britain and the afloat, are this week's returns, and consequently all the European figures are brought down to Thursday evening. But to make the totals the complete figures for to-night (July 18), we add the item of exports from the United States, including in it the exports of Friday only.

Price Mid. Upl., Liverpool.... 614d. 571.d. 6151.d. 61116d. The imports into Continental ports this week have been 20,000 bales.

The above figures indicate a *decrease* in the cotton in sight to-night of 163,047 bales as compared with the same date of 1883, an increase of 193,103 bales as compared with the corresponding date of 1882 and a decrease of 26,014 bales as compared with 1881.

AT THE INTERIOR TOWNS the movement—that is the receipts for the week and since Sept. 1, the shipments for the week, and the stocks to-night, and the same items for the corresponding period of 1882-83—is set out in detail in the following statement.

* This year's figures estimated.

The above totals show that the old interior stocks have decreased during the week 3,087 bales, and are to-night 31,493 bales less than at the same period last year. The receipts at

the same towns have been 293 bales less than the same week last year, and since September 1 the receipts at all the towns are 710,200 bales less than for the same time in 1882-83.

QUOTATIONS FOR MIDDLING COTTON AT OTHER MARKETS .in the table below we give the closing quotations of middling cotton at Southern and other principal cotton markets for each day of the past week.

RECEIPTS FROM THE PLANTATIONS .- The following table is prepared for the purpose of indicating the actual movement each week from the plantations. Receipts at the outports are sometimes misleading, as they are made up more largely one year than another at the expense of the interior stocks. We reach, therefore, a safer conclusion through a comparative statement like the following. In reply to frequent inquiries we will add that these figures, of course, do not include overland receipts or Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

RECEIPTS FROM PLANTATIONS.

| Week | Receip | ts at the | Ports. | St'k at | Interior | Towns. | Rec'pts from Plant'n. | | | | | |
|---------|--------|-----------|--------|---------|----------|---------|-----------------------|--------|----------|--|--|--|
| ending- | 1882. | 1883. | 1884. | 1852. | 1853. | 1884 | 1882 | 1883. | 1881 | | | |
| May .2 | 34,423 | 48,761 | 20,053 | 143,327 | 184,383 | 82,809 | 19,914 | 23,338 | 12,068 | | | |

| * 13 | 13,658 | 21,573 | 8,409 | 72,408 | 98,763 | 50,355 | 2,672 | 14,410 | 2,655 | | | |
| ** 20 | 13,569 | 12,395 | 4,725 | 59,530 | 88,210 | 45,934 | 1,011 | 1.572 | 504 | | | |
| " 27 | 9,28: | 11,497 | 5,612 | 50,417 | 79,509 | 39,547 | 175 | 2,766 |) | | | |
| July 3 | 9,586 | 11,9:4 | 4,455 | 42,843 | 74,817 | 87,523 | 2,012 | 7.052 | \$ 1,888 | | | |
| " 11 | 8,142 | 11,024 | 7.578 | 85,454 | 68,762 | 81,941 | 758 | 5.133 | 1.99 | | | |
| " 18] | 9,150 | 9,208 | 3,810 | 31.622 | 64.239 | 28 24 : | 5.318 | 4, 85 | 113 | | | |

The above statement shows—1. That the total receipts from the plantations since September 1, 1883, were 4,777,772 bales; in 1882-83 were 5,972,948 bales; in 1881-82 were 4,635,062 bales.

2.—That, although the receipts at the outports the past week were 3,810 bales, the actual movement from plantations was only 113 bales, the balance being taken from the stocks at the interior towns. Last year the receipts from the plantations for the same week were 4,685 bales and for 1882 they were 5,318 bales.

AMOUNT OF COTTON IN SIGHT JULY 18.-In the table below we give the receipts from plantations in another form, and add to them the net overland movement to July 1, and also the takings by Southern spinners to the same date, so as to give snbstantially the amount of cotton now in sight.

| | 1883-84. | 1882-83. | 1881-82. | 1880-81 |
|--|-----------|-----------|-----------|-----------|
| Receipts at the ports to July 18 Interior stocks on July 18 in | 4,798,634 | 5,925,194 | 4,648,865 | 5,741,407 |
| excess of September 1 | *20,912 | | , | |

| Total in sight July 18 | 5,643,377 | 6,928,616 | 5,323,398 | 6.473.121 |

Lit ing, Texis.—It has been showery on one day of the week, the rainfall reaching twenty-five hundredths of an inch. We need more rain. Crops good if rain comes. The thermometer has averaged 87, the highest being 102 and the lowest 71.

Brenham, Texas .- We have had a shower during the week, and want more. The rainfall reached thirty hundredths of an inch. The thermometer has averaged 86, ranging from 73 to 98.

Belton, Texas.-The weather has been warm and dry all the week. We are needing rain badly. The thermometer has ranged from 65 to 99, averaging 88.

Weatherford, Texas .-- We have had warm and dry weather all the week. Crops are good, but need rain. Average thermometer 85, highest 100 and lowest 70.

Dallas, Texas .- The weather has been warm and dry all the week. We are needing rain. The thermometer has averaged 88, the highest being 102 and the lowest 71. Columbia, Texas—We have had warm and dry weather all

the week. Crops are fine, but need rain. The thermometer has averaged 85, ranging from 71 to 98.

New Orleans, Louisiana-It has rained on three days of the week, the rainfall reaching forty-six hundredths of an inch. The thermometer has averaged 86.

Shreveport, Louisiana.-Telegram not received.

Vicksburg, Mississippi .- The early part of the week was clear and pleasant, but during the latter portion we have had showers on two days. The rainfall reached sixteen hundredths of an inch. The thermometer has ranged from 73 to 96.

Meridian, Mississippi.-We have had rain on five days of the week, the rainfall reaching three inches and ten hun-dredths. The crop is developing promisingly. The thermometer has ranged from 73 to 88.

Greenville, Mississippi .- It has rained on one day of the week, the rainfall reaching thirty-seven hundredths of an inch. Average thermometer 85, highest 94 and lowest 72.

Columbus, Mississippi .-- We have had rain on three days of the week, the rainfall reaching three inches and forty-four hundredths. The continuous rains are damaging crops. The thermometer has averaged 81, the highest being 96 and the lowest 70.

Little Rock, Arkansas.-Tuesday and Thursday were cloudy with rain, and the remainder of the week clear and warm. The rainfall reached one inch and fourteen hundredths. Rains were quite general during the week and very beneficial to crops, which are promising. The thermometer has averaged 81, ranging from 68 to 93.

Pine Bluff, Arkansas.-Telegram not received.

Fort Smith, Arkansas.—We have had rain on three days of the week, the rainfall reaching one inch and eighty hundredths. Crop prospects are fine. The thermometer has ranged from 62 to 98.

Helena, Arkansas.—We have had showers on three days. and the remainder of the week has been cloudy. The rainfall reached eighty-one hundredths of an inch. Cotton is small but growing well. Rains have been local; one neighborhood reports no rain in ten weeks, others say too much. The thermometer has averaged 76, ranging from 69 to 92. Newport, Arkansas.—Telegram not received.

Memphis, Tennessee .- We have had rain this week, but not enough to do much good, and part of the district is very dry. It rained on three days and the rainfall reached forty hundredths of an inch. Good progress is being made in clear-ing fields, and the cotton plant looks strong and healthy, b.t is very small. The thermometer has ranged from 70 to 93, averaging 81.

Nashville, Tennessce.-It has rained on two days of the week, the rainfall reaching three hundredths of an inch. Average thermometer 79, highest 92, lowest 68.

Mobile, Alabama.-It rained severely on two days and was showery on one day in the early part of the week, but the lat-ter portion has been clear and pleasant. The rainfall reached two inches and twenty hundredths. The crop is developing promisingly, but there are some complaints of too much rain. The thermometer has averaged 80, the highest being 91 and the lowest 71.

September 1.

It will be seen by the above that the decrease in amount in sight to night, as compared with last year, is 1,285.269 bales, the increase as compared with 1881-82 is 314,979 bales, and the decrease from 1880-81 is 829,747 bales.

PRINT CLOTH MARKET AT THE COTTON EXCHANGE .- For prices and market of print cloths at the Cotton Exchange see our dry goods report on a subsequent page.

WEATHER REPORTS BY TELEGRAPH.-The weather in most sections of the South has been favorable for crop development during the week. Some few districts are having too much rain still, while in the extreme Southwest, especially in Texas, rain is now greatly desired.

Galveston, Texas .- We have had showers on two days of the week, the rainfall reaching thirty-three hundredths of an inch. The thermometer has averaged 87, the highest being 95 and the lowest 79.

Indianola, Texas.-It has been showery on one day of the week, the rainfall reaching nineteen hundredths of an inch. More rain is wanted. The thermometer has averaged 87, ranging from 80 to 96.

Palestine, Texas.—The weather has been warmer and dry all the week. Rain is desired. The thermometer has ranged from 68 to 94, averaging 84.

Huntsville, Texas.-We have had one good shower during the week, the rainfall reaching one inch. We need more rain. Average thermometer 87, highest 99, lowest 72.

Montyomery, Alabama.—It has rained on two days of the week, the rainfall reaching fifty-one hundredths of an inch. The crop is developing promisingly, but in some localities is fruiting badly. Caterpillars are reported to have appeared in places. The thermometer has averaged 81.6.

Selma, Alabama.-Telegram not received.

Madison, Florida .- We have had rain on five days of the week, the rainfall reaching one inch and twenty-eight hundredths. Average thermometer 82, highest 91 and lowest 74. Macon, Georgia.-It has been showery on four days of the week. The crop is fruiting slowly and on the lowlands is turning yellow. The thermometer has averaged 81, the highest being 92 and the lowest 71.

Columbus, Georgia .- We have had rain on three days of the week, the rainfall reaching one inch and forty-five hundredths. The thermometer has averaged 81, ranging from 74 to 92.

Sarannah. Georgia.-It has rained on three days, and the remainder of the week has been pleasant. The rainfall reached one inch and twelve hundredths. The thermometer has ranged from 75 to 95, averaging 83.

Augusta, Georgia.-We have had general rain on three days, and the remainder of the week has been warm and dry -good growing weather. The crop is developing promisingly; general accounts are unexceptionably good. Average ther-

JULY 19 1.84]

mometer 81, highest 94, lowest 72. The rainfall reached seventy-one hundredths of an inch.

Atlanta, Georgia.—It has rained on one day of the week, the rainfall reaching forty-five hundredths of an inch. The thermometer has averaged 79, the highest being 90 and the lowest 69.

Charleston, South Carolina.—We have had rain on three days, with a rainfall of four inches and sixty-two hundredths. The thermometer has averaged 81, ranging from 70 to 95.

Columbia, South Carolina.-Telegram not received.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 3 o'clock July 17, 1884, and July 19, 1883.

| | July 1 | 7, '84. | July 1 | 9, '83. |
|-------------|--|---------------------------------|---------------------------|---------------------------|
| New Orleans | nark 6 ark. 15 ark. 3 ark. 12 | Inch. 9 11 6 1 8 | <i>Feet.</i> 2 19 8 11 37 | Inch 8 10 9 6 |

New Orleans reported below high-water mark of 1871 until Sept. 9, 1874, when the zero of gauge was changed to highwater mark of April 15 and 16, 1874, which is 6-10ths of a foot above 1871, or 16 feet above low-water mark at that point.

INDIA COTTON MOVEMENT FROM ALL PORTS. — We have re-arranged our India service so as to make our reports more detailed and at the same time more accurate. We had found it impossible to keep out of our figures, as cabled to us for the ports other than Bombay, cargoes which proved only to be shipments from one India port to another. The plan now followed relieves us from the danger of this inaccuracy and keeps the totals correct. We first give the Bombay statement for the week and v ar, bringing the figures down to July 17.

BOMBAY RECEIPTS AND SHIPMENTS FOR FOUR YEARS.

| | | | | | ente sinc | Receipts. | | | | |
|--------------|-------------------------------|-------|----------------|--------------------|--------------------|------------------------|---------------|----------------|--|--|
| Year | Great Conti- Brit'n. nent. | | Total. | Great Britain | Conti- nent. | Totat. | This Week. | Since Jan.1 | | |
| 1884 | 6,000 | | 6,000 2,000 | 463.000 421,000 | 582,000 754,000 | 1,050,000 1,175,000 | 5.000 | 1.520 v 0 | | |
| 1882 1881 | | 6.000 | 6,000 | 696,000 | 565,000 | $1,261,000 \\ 759,000$ | 10.000 | 1,553.604 | | |

According to the foregoing, Bombay appears to show an *increase* compared with last year in the week's receipts of 1,000 bales, and an *increase* in shipments of 4,000 bales, and the shipments since January 1 show a *decrease* of 125,000 bales. The movement at Calcutta, Madras and other India ports for the last reported week and since the 1st of January, for two years, has been as follows. "Other ports" cover Ceylon, Tuticorin, Kurrachee and Coconada.

| 1884 1883 Madras 1884 1883 | Shipme | nts for th | e week. | Shipments since January 1. | | | | | | | | |
|--|-------------------|-----------------|---------|----------------------------|------------|---------|--|--|--|--|--|--|
| | Great Britain. | Conti- nent. | Tolal. | Great Brilain. | Continent. | Total. | | | | | | |
| Calcutta- | | | | | | | | | | | | |
| 1884 | | | | 87.500 | 41.200 | 123.700 | | | | | | |
| | 2.000 | | 2,000 | 75,400 | 10,500 | 86,200 | | | | | | |
| | | | | | | | | | | | | |
| | 1.000 | | 1.000 | 17.500 | 1.600 | 19,100 | | | | | | |
| | 203 | | 200 | 4.900 | 1.000 | 5,900 | | | | | | |
| All others- | | | 200 | 2,000 | 1,000 | 0,000 | | | | | | |
| 1884 | | | | 10,500 | 9.200 | 19.700 | | | | | | |
| 1883 | | | •••••• | 7.500 | 2.000 | 9,500 | | | | | | |
| 1000 | | ••••• | | 1,000 | 2,000 | 0,000 | | | | | | |
| Total all- | | | | 1 | <i></i> | | | | | | | |
| | 1 000 | · | 1.000 | 115.500 | 52.000 | 167.500 | | | | | | |
| 1884 | 1.000 | | | | | | | | | | | |
| 1883 | 2,200 | | 2,200 | 87,800 | 13,8001 | 101.600 | | | | | | |

The above totals for the week show that the movement from the ports other than Bombay is 1,200 bales *less* than same week last year. For the whole of India, therefore, the total shipments since January 1, 1884, and for the corresponding periods of the two previous years, are as follows:

EXPORTS TO EUROPE FROM ALL INDIA.

| al in an la | 18 | 384: | 188 | 3. | 18 | ·S2. |
|------------------------------------|---------------|----------------------|---------------|--------------------|------------|----------------------|
| Shipments to all Europe from | This wcek. | Since Jan. 1. | This week. | Since Jan. 1. | This week. | Since Jan. 1 |
| Bombay | | 1,050,000 167,500 | | 175,090 101,600 | | 1,281,000 218,900 |
| Total | 7,000 | 1.217.500 | (4,200°) | 273,690 | 12.900 | 1,479,900. |

This statement shows that the receipts for the week ending July 16 were —— cantars and the shipments to all Europe —— bales.

MANCHESTER MARKET.—Our report received from Manchester to-night states that the market is quiet but steady. We give the prices for to-day below, and leave previous weeks' prices for comparison.

| 3 | _ | | | | | | | 1883. | | | | | | | | | |

COMPARATIVE PORT RECEIPTS AND DAILY CROP MOVEMENT. —A comparison of the port movement by weeks is not accurate, as the weeks in different years do not end on the same day of the month. We have consequently added to our other standing tables a daily and monthly statement, that the reader may constantly have before him the data for seeing the exact relative movement for the years named. The movement each month since September 1, 1883, has been as follows.

| Monthly | | Fear | Beginnin | g Septemb | er 1. | |
|-----------|--------------|-----------|-----------|-----------|-----------------|-----------|
| Receipts. | 1883 | 1882. | 1851. | 1880. | 1879. | 1878. |
| Sept'mb' | 313.81: | 326,650 | 429,777 | 458,478 | 333,643 | 288,848 |
| October. | 1,016.092 | 980,584 | 853,195 | 968,318 | 888,492 | 689,264 |
| Novemb'r | 1.030,350 | 1,094,697 | 974,013 | 1,006,501 | 942,272 | 779,237 |
| Decemb'i | 1,059,653 | 1,112,536 | 996,807 | 1,020,802 | 956,464 | 893,664 |
| January | 487,729 | 752,827 | 487,727 | 571,701 | 647,140 | 618,727 |
| February. | 385,939 | 595,598 | 291,992 | 572,723 | 447,91 | 566,824 |
| March | 241,514 | 482,772 | 257,099 | 476,582 | 261,913 | 303,955 |
| April | 111,755 | 284,519 | 147,595 | 284,246 | 158,02 5 | 167,459 |
| May | 45,91~ | 185,523 | - 113,573 | 190,054 | 110,00 6 | 84,299 |
| June | 31,632 | 78,504 | 68,679 | 131,871 | 88,455 | 29,472 |
| Totalyear | 1.781,473 | 5,391,216 | 4,620,487 | 5,681,281 | 4,837,328 | 4,421 749 |
| Perc'tage | of tot. port | | | | | |
| receipts | Jane 30 | 97.91 | .97.88 | 96.72 | 96:71 | 99 42 |

This statement shows that up to June 30 the receipts at the ports this year were 1,109,743 bales less than in 1882-83 and 163,986 bales more than at the same time in 1881-82. By adding to the above totals to June 30 the daily receipts since that time, we shall be able to reach an exact comparison of the movement for the different years.

| port rec'pts July 1 | 98.38 | 98:37 | 97.52 | 97 33 | 99.62 |

This last statement affords a very interesting comparison of the total movement for the three years at all India ports.

ALEXANDRIA RECEIPTS AND SHIPMENTS.—Through arrangements we have made with Messrs. Davies, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria. Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years:

| Alexandria, Égypt, July 16. | 1982-94. | 1582-83. | 1881-82 |
|--|------------------------------|-------------------------------|-----------------------------|
| Receipts (cantars*)- This week Since Sept. 1 | 2,641,000 | 2,254,000 | 2. 831,720 |
| | This Since week. Sept. 1. | This Since week. Sept. 1. | This Since week. Sept. 1 |
| E sports (bales) - Fo Liverpool Fo Continent | | 2,000 238,000 1,000 88,000 | $\frac{245,900}{176,271}$ |
| Total Europe | 389,000 | 3,000 326,000 | 422 171 |

RASER

This statement shows that the recepts since Sept. 1 up to to-night are now 4,123,178 bales less than they were to the same day of the month in 1883 and 155,289 bales more than they were to the same day of the month in 1882. We add to the table the percentages of total port receipts which had been received to July 18 in each of the years named:

JUTE BUTTS; BAGGING, &C.—There has been more business doing in bagging since we last wrote, and orders are coming in more freely. There have been a few large parcels placed, and the market is tending toward a firmer basis, with sellers disposed to hold for an advance; but parcels can still be had at 9½c. for 1½ lb., 10c. for 1% lb., 10% c. for 2 lb. and 11% c. for standard grades. Buttshave not shown any great activity, and the larger trade is still rather quiet, but a good business is being done in jobbing quantity, and in this about 2,000 bales have been placed at $2\frac{1}{4}$ ($\frac{3}{2}$ % c. for paper grades and $2\frac{1}{2}$ $\frac{2}{4}$ c. for bagging gualities, the market closing steady at these quotations. 78

has not yet seriously affected the cotton crop; but sunshine is greatly needed. If showers should continue, without too long intervals of sunshine, and the sun should not be excessively hot and scorching, crops

Multi certainly be abund ant. Andersonville. Ga.—The rain has been heavy and cotton is suffering. The ground is too wet to plow, and grass is covering cotton up. Archer, Fla.—Tremendous showers on the 22d, 23d and 23th. Mach

Madison, Fla.-Violent rain during the last half of month. Much

grass in the cotton filds. Greenc Springs, Ala—The rain has been pretty well distributed dur-ing the month—except in the last week, when we had 4:15 inches. This, while it makes the corn crop, is injurious to the cotton, as it makes

it difficult to keep down the grass. Auburn, Ala.We have had an unusual amount of rain this month, but crops are looking well. May was very dry, and the grass and weeds were pretty well cleaned out.

Grand Col. au, La. - Crops suffered from drought, but have recovered by the frequent showers of the last few days, and all kinds promise an average in this immediate neighborhood, though somewhat behind time.

Brookhaven, Miss.—Farmers are badly in the grass. Mount Ida, Ark.—Crops very promising. Fort Smith, Ark.—Crop prospects are very promising. Observed cotton blooms on June 24.

Ashwood, Tenn.-: ofton some two weeks behind, and grassy in conse-

Ashrood, Ichn.-: ofton some two weeks beind, and grassy in conse-quence of continuous drizzling rains up to middle of the month. Austin, Tenn.-Month favorable to growing crops. Clebarne, Tex.-Altogether a delightful and seasonable month. Clarksville, Tex.-Crops are doing very well. We have had rain enough, except just in town we are needing a little rain now. Money is scarce, and resple are pressed closer in money matters than for two or three years or three years.

GEORGIA AGRICULTURAL REPORT FOR JULY.-The report of the Commissioner of Agriculture of the State of Georgia on cotton for July is as follows:

The cotton crop has been seriously injured by the excessive and con-The cotton crop has been seriously infinite by the excessive and con-tinued wet weather of the month of June. There is a general complaint of too much rain and grass and too little sunshine for the crop. Since the last monthly report the prospective condition has fallen ten per centin North, Middle and East Georgia; six per cent in Southwest, and for per cent in Southwast Georgia.

The condition compared to an average in North Georgia is 82, in Middle Georgia, 85; in Southwest Georgia, 93; in East Georgia, 85, in Southeast Georgia, 93, and in the whole State, 83.

THE CROP IN TEXAS .- From Messrs. Kaufman & Runge's circular, dated Galveston, July 9th, we take the following ;

The weather in June has been very favorable, and in the general prospects of the Texas crop there is a marked change for the better, compared with the poor condition of a moath ago. The fields are gener-ally clean, and the plant is growing well. Only about thirty per cent of the crop, however, is in as forward a condition as usual, which will car-tait receipts in August and September. The large percentage of the crop which is of young growth, would be injured by a prevalence of hot and dry weather in July and August. Abundant moisture will be required to keep it in such a condition until September 1 as to insure a tult yield. The character and length of the fall will be of even more than ordinary importance this year in determining the final result of the Texas crop. The weather in June has been very favorable, and in the general

SHIPPING NEWS .- The exports of cotton from the United States the past week, as per latest mail returns, have reached 37,401 bales. So far as the Southern ports are concerned, these are the same exports reported by telegraph, and published in the CHRONICLE last Friday. With regard to New York we include the manifests of all vessels cleared up to Thursday night of this week. Tatul halas

| | | | | | | | | | | Below we add the clearances this week of vessels carrying |
| | | | | | | | | - | 1000 | BEING WE AND THE CICHIANCES THIS WEEK OF FESSERS STREET |

The following remarks accompany the month's weather reports for June, 1884:

Middle Cope Fear: N. C .- Crops have been much injured by hardbill

and bud worm. Many farmers have been much injurea by hardonn and bud worm. Many farmers have yet to replant. *Spartanburg, S. C.*—This has been the coldest June since 1876. The rainfall has been excessive, and much injury is said to have been done to cotton. In some parts of the State the floods are said to have been

the greatest known for many years. Stateburg, S. C—The temperature during the month has been unusu-ally low, with a great many cloudy and rany days, but the rains have been generally moderate, so that there has been little interruption to

field work. Crops, especially corn, and gardens, are in a remarkably flourishing condition. Attanta, Ga.-Weather during June unprecedented for that month. Rainfall 7.75 inches above the average, and temperature 5.5 below the average average

Columbus, G1.-We are having too much rain for the crop-unable to plow-and it has not cease I yet.

For sylh, Ga.-It is the opinion of close observers that this has been the weitest June since 1843. There have been only four sunny days this month. The prospect is encouraging for the corn crop. The wet

ing cotton from United States ports, bringing our data down to the latest dates:

NEW ORLEANS-For Liverpool-July 15-Steamer American, 1,250

PHILADELPHIA-For Liverpool-July 16-Steamer British Prince, 1,944.

Below we give all news received to date of disasters to vessels carrying cotton from United States ports, &c.:

Carrying cotton from Onice States ports, det.
VINCENZO FLORIO, steamer, before reported, from New York for Gibraltar, Marseilles, &c., which struck on Di mond Reef, July 9, and returned with her bottom damaged, arrived at Erie Basin, Brooklyn, N. Y., and on July 11 had discharged about 18,000 bushels of grain. A considerable quantity of corn from the after hold was discharged in a badly dama ed condition. The steamer was on dry dock on the 15th, where she will discharge more cargo. Her keel is badly damaged from about midway between the fore and main mast to the stern. and main mast to the stern.

Cotton freights the past week have been as follows:

supply of the commoner grades is not excessive and this fact has done much to sustain the market for them, although within a day or two the export trade has shown some decrease. The supply of grades quoted above \$4 is liberal.

Wheat has at times sold freely for export, the preference being given to spring grades. On Wednesday the transactions in wheat on the spot and to arrive reached the now unusual aggregate of 415,000 bushels. New red Ohio has sold on the spot at \$1 05, new red Southern at \$1 and hard No. 1 Duluth at \$1 delivered. The demand from millers has shown some increase at times, though as a rule the sales have been within moderate limits. The speculation has been fairly active, but the fluctuations in prices have latterly been within narrow limits. The cholera panic in Europe and the reduction in the visible supply of wheat in this country have led to not a little covering of contracts both here and at Chicago, and this has at times given both markets considerable strength. But there has been no large speculative interest, and with the indications apparently pointing to a large harvest this year, it has been found impossible to bring about any marked rise in values. The receipts, moreover, of new wheat at the distributing markets are beginning to increase, and the failure of a Western bank, as well as the disturbed state of credits in this section arising from recent suspensions, has likewise militated against any decided upward movement. Prices are considerably lower, however, than at this time last year, and this fact makes the bear party cautious. To-day, in sympathy with the views of Western speculators, all options were advanced and the final figures were very firm; No. 2 red sold on the spot at 991/2c.; the August option sold at $97\frac{5}{3}$ @99c., closing at the latter figure; September sold at $98\frac{1}{3}$ @99 $\frac{3}{4}$ c., and closed at the latter; Octo-ber sold at $99\frac{3}{4}$ c. and closed at \$1 00%c.

Indian corn has been quiet, both for export and on speculation, and latterly prices have shown some weakness, though earlier in the week the tone was firm in response to the firm-ness of the wheat market. The visible supply has decreased, and is now the smallest since this time in 1882. Early in the week, moreover, the cool weather at the West helped to strengthen the market, but the improvement in this respect later on, as well as the promising outlook for the crop and the absence of anything like activity in trade here, fully offset anything unfavorable in the situation. The speculation here within a week has been unusually small, while there has been little to encourage export business either in the prices current or the rates for ocean freight room. To-day the advance as a rule was 2c. per bushel on all the options. No. 2 on the spot closed at 63c.; August sold at 61³/₄c. and closed 63³/₄c.; September at 62¹/₈c. and closed 64c.; October at 62¹/₈c. and closed

 $64\frac{1}{2}$ c.; November at $62\frac{1}{4}$ c. and closed $63\frac{1}{2}$ c. Barley has been dull and nominal. The crop promises to be liberal. Rye has been quiet and steady. Oats have been quiet and latterly a little lower. Earlier in the week the market was firmer. The interest in this cereal is slight at the moment, and the situation is without features of special in-terest. To-day the market closed with an advance to 36½c. for July, 345%c. for August, 335%c. for September and 343%c. for October.

BREADSTUFFS.

THURSDAY, P. M., July 18, 1881.

Flour has been firmer though generally without marked change. There has been a fair export trade of late, mainly in the lower grades. The better descriptions have been quiet for port, but have met with a fair demand for home use. The

THE DRY GOODS TRADE.

THURSDAY, P. M., July 18, 1884.

There was a large force of package buyers in the market the past week, but the volume of business was hardly up to expectations, operations having been conducted with a degree of caution bordering upon timidity. There was a freer demand for certain specialties adapted to the coming season, as prints, ginghams, dress goods, shawls, skirts, &c., but the most staple cotton and woolen fabrics were devoid of animation, notwithstanding the exceptionally low prices ruling for all descriptions. The failure of the old jobbing firm of Halsted, Haines & Co. was followed by the suspension of the white goods importing house of Edmund Yard, Jr. & Co., with estimated liabilities of nearly one million dollars, mostly due to parties in Europe, and that has been followed by the suspension of Julian White, Son & Co., and others of lesser note. These failures have naturally had a somewhat depressing effect, but crop prospects continue favorable, and stocks in the hands of distributers throughout the country are so light (owing to the conservative policy pursued by merchants for many months past), that a fair average fall trade is still anticipated by manufacturers' agents and importers. About 1.400 cases wool flannels and 20,000 plush and wool robes were disposed of at auction, and the former brought within about 10 per cent of private sale prices, while the latter sold low, -as expected by the owners.

DOMESTIC COTTON GOODS.—The exports of domestics for the week were 1,660 packages, of which 294 were shipped to U.S. of Colombia, 285 to Great Britain, 242 to Venezuela, 194 to Argentine R-public, 92 to Santo Doningo, &c. There was only a moderate demand for plain and colored cottons at first hands, and the jobbing trade was generally quiet. Cotton flannels continued to move steadily, and a few of the most popular medium and fine blenched gools were in fair request, but brown and colored cottons were for the most part quict. Prices are somewhat unsettle I and in buyers' favor, and additional makes of bleached goods, wide sheetings, &c., have been reduced from 21% to 5 per cent, without materially increasing the demand. Print cloths were lightly dealt in, but prices ruled fairly steady at 3 5-16c. for 64x64s and 24@2 13 16c. for 56x60s. Durk prints were a trifl; more active, and there was a better demand for dark ginghums and cotton dress goods, though selections were less liberal than in former seasons. PRINT CLOTHS AT THE COTTON EXCHANGE.- Iraling in print cloths commenced, according to previous notice, on the 14th inst., and although the dealings have thus far been light the experiment gives fair promise of ultimate success. There has been an improving tone to the murket; the autumn months advancing 5 points on Tuesday and again on Wed-nesday. Yesterday the market was dull and 5 points lower. To-day there were no sales, and prices were nominally as yesterday. The present stock is said to be about 1.000,000 pieces, and the product of the mills in Fall River alone is about 169,000 pieces weekly. The advantages offered by the legitimate features and office of the system in protecting the manufacturer, printer and commission merchant, precisely as the same system in cotton protects the planter, consignor, consignee and spinner, will sooner or later be felt and appreciated, and dealings upon the contract plan no doubt become an indispensable requirement of the trade. A repetition of the particulars regarding a contract may be found interesting. A contract is for 45,000 yards in about 1,000 pieces, 64 squares of the grades of best extra, extra and standard, on the basis of extra, the fluctuations to be in 5-100 of a cent per yard, which makes the smallest fluctuation \$22 50 per contract, equal to 5 points in cotton. At present prices the goods covered by a contract are worth about \$1,500. Margins are regulated the same as with cotton contracts, and the transferable notice will be similar to those now in use. The following shows the course of the market during the week:

, Transferable Notices – Monday, 335; Tuesday, 340; Wednesday, 340 Thursday, 335; Friday, 335.

DOMESTIC WOOLEN GOODS .- There has been very little improvement in the demand for men's-wear woolens, and business in this connection was disappointing to holders. Flannels were in fair request and steady at ruling quotations, but blankets were somewhat slow, owing in a measure to the announcement that another large line will be offered at auction next week. Repellents were distributed in fair quantities, and moderate dealings in Kentucky jeans were reported in some quarters. Cloakings were more sought after, and limited sales of Jersey cloths and stockinettes were reported by agents. Soft all-wool suitings and sackings, also worsted dress goods, were in pretty good demand, and a fair business was done in shawls and skirts, while wool hosiery continued to move steadily, and there was a slight improvement in the demand for shirts and drawers. Carpets were in fair request at first hands, and good aggregate sales were made by jobbers having salesmen on the road.

FOREIGN DRY GOODS have met with a little more attention from Western and Southern jobbers, but the demand was irregular, and chiefly confined to a few specialties for the early trade. Low-priced dress goods, black silks, velvets. velveteens and plushes were severally in fair request, but linens, white goods, hosiery, kid gloves, embroideries and laces were more or less quiet, and men's-wear woolens were only in moderate demand. Importations continue very light compared with former seasons, but the cable is now such an important factor that no scarcity in this market need be apprehended.

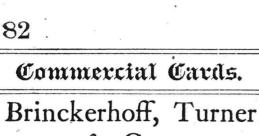

Importations of Dry Goods.

The importations of dry goods at this port for the week ending July 17, 1884, and since January 1, and the same facts for the corresponding periods of 1883, are as follows:

| Total at the port | Total Ent'd forconsumpt. | Silk Flax Miscellaneous | Vanufactures of- Wool | Total on market | Total. Ent'd for consumpt | Flax. discellanceus. | Wool Cotton Silk | | Total | riax discellaneous | Cotton Silk | Manufactures of- | July 103 CONSUMPTION |
