#### Special Investments. Financial.

A SIMULTANEOUS ISSUE WILL BE MADE IN LONDON BY MESSRS. J. S. MORGAN & CO.

N.Y. Central & Hudson River RR. Co.

SUBSCRIPTION FOR

\$6,500,000

Five Per Cent Debenture Bonds

Principal Payable September 1, 1904.

Interest Payable March 1st and September 1st.

Coupon Bonds of \$1,000 each. Registered Bonds of \$1,000, \$5,000 and \$10,000 each.

WE OFFER FOR SALE \$6,500,000 5 PER CENT DEBENTURE BONDS OF THE NEW YORK CENTRAL & HUDSON RIVER RAILROAD COM-PANY.

THE PRICE IS 102 AND ACCRUED IN-TEREST, PAYABLE 10 per cent AT TIME OF SUSSCRIPTION, AND BALANCE ON OR BEFORE NOVEMBER 1 NEXT, AT THE OPTION OF THE SUBSCRIBER.

The \$6,500,000 Bonds now offered are part of \$10,000,000 authorized to be issued by the New York Central & Hudson River Railroad Company. The resolutions of the directors authorizing the tssue limit the amount to \$10,000,000, and provide that of these \$3,500,-000 shall be retained with which to retire \$1,350,000 Hudson River Railroad Company Second Mortgage Bonds due in June, 1885, and \$2,150,000 New York Ceutral Railroad Com-pany Bonds due in December, 1887. The resolutions' further state that between the years 1871 and 1883, inclusive, the Company ex pended for construction, and in the purchase of Stocke and Bonds of connecting lines, which securities are now owned by the Company, the sum of \$53,691,407; that during this period the bonded debt was increased to the extent of the bonded debt was increased to the extent or \$33,552,913, leaving an excess of expenditure of \$20,133,494, and that towards liquidating this excess the Company has applied the sum of \$8,297,839 surplus earnings, over and above the 8 per cent annual dividends paid to the Stockholders during the period named, together with income from various other sources aggregating \$5,252,570, leaving a balance of \$6,583,085, which amount is pro-vided for by the Debenture Bonds now issued.

The Bonds provide that any mortgage placed upon the Company's property prior to July 1, 1902, shall in-clude the present issue; and further, that each Bond shall be countersigned by the Union Trust Company of New York as cvidence of the validity thereof.

The Bonds are not liable to be drawn or compulsorily redsemed prior to their maturity in 1904. They are issued either in Coupon form of \$1,000 each to bearer, or in Registored Cer-tificates of \$1,000, \$5,000 and \$10,000 each.

The definitive Bonds are ready, and will be issued upon payment of the purchase money in full.

The subscription list will be opened in our offices at 10 o'clook on the morning of Thurs day, October 16, and closed upon notification from London.

#### CLEARING HOUSE RETURNS.

The clearings for the week under review do not, as a whole, make so favorable a comparison with the correspond. ing period last year as the previous week's figures did. Outside of New York, however, the showing favors this week, for while the total decline from 1883 is 33.3 per cent against 23.6 for the week ended October 4, with this city excluded it reaches only 12.3 per cent against 15.3 per cent. New Haven, Cleveland and Kansas City are the only points which report larger transactions, although at Detroit the falling off is very slight, being only one per cent. At New York the sales of stock aggregate only about \$75,500,000 in value against \$147,000,000 in 1883. If we deduct double these amounts, there will be left for the exchanges arising otherwise only \$345,582,000, against \$539,965,000, or a loss of 36 per cent. The sales on the various other Exchanges show a large decrease, due in a measure, no doubt, to the excitement consequent upon, and the uncertainties appertaining to, the coming election.

The aggregate movement of crops does not differ materially this year from last, but it must be remembered that the prices obtained are much lower; this alone would

account for a large part of the diminution in the volume of exchanges, and when to this is added the almost universal dulness of trade, it is not surprising that the showing should be less favorable. After New York follows Providence, with a decline of 31.1 per cent; St. Louis, 23.1; Louisville, 21.9; and Springfield 21.4. The returns from the different cities, in our usual form, are as follows.

The foregoing brings down the movement only to October 11. We have arranged to have telegraphed to us each week the clearings for the five days ended with Friday, at a few of the more important points covered by the fore. going statement, so as to give an indication of the course of business up to Friday night when we go to press.

This week we have only received the following, but shall hope to make this portion of our statement more complete during future weeks.

VOL. XXXIX.

### THE FINANCIAL SITUATION.

There is nothing new to offer with regard to the stock market this week. For many days previous to the Ohio election it was common report that that event, if the result was as anticipated, would mark the turning point in speculation. The early news from the State fully met the expectations of the chief speculative holders, and yet instead of going up the market obstinately went down. Cool weather very suitable for curing corn and encouraging fall business has prevailed, but crops unmarketed have ceased to be a feature any longer, and with no considerable improvement in railroad earnings, with all trade slow and unremunerative, with manufacturers, especially cotton and woolen mills, further reducing production, the public inclination to keep out of Wall Street seems still in control.

A source of increasing worry, if not of anxiety, has been the wheat situation, which is becoming more prominent and pressing under the slack foreign demand for our surplus now existing, while the movement from farmers' hands is so free that a rapid piling up of visible supply here and in the West, even at present low prices, is the result. Supply in sight weighs about as heavily upon European markets, whether it is in New York, Chicago or Liverpool. We found that out clearly enough during our unfortunate speculation of the last two seasons. Hence the average price at London goes down, down, down all the time as if there were no value at all to this staple, it being reported at 37s. 1d. per quarter July 26, at 36s. 4d. August 23, at 34s. September 13, at 33s. September 27. Since October came in the rate has been a little steadier, yet only because our dealers (possibly under the stimulus of the corner in corn) refused to yield further. But another fall can only be a question of time if America's visible stock keeps on increasing. The exports of course show very poorly, the following statement for September, issued this week, furnishing a good illustration. We add the totals for provisions and all the figures for previous years, for comparison.

| Exports                   | 18         | 84.         | 18         | 33.         | 1882.      |            |  |

\* Oatmeat not stated in 1882

The foregoing records an export of wheat reaching only 12,932,343 bushels, at an average price of 924 cents this September, against 11,305,765 bushels at \$1 13 last September, when the crop was so short, and 20,988,560 at \$1 14 in September, 1882. We are thus moving the crop from farmers' hands freely, though sending abroad scarcely any more than we were in 1883, when we had 100,000,000 bushels less surplus, but are piling the receipts up instead at our centres of trade. In India, price seems also to have affected the outward movement materially. In our article on Wheat Production last week we called attention to the considerable falling off there had then already been in the exports from that country this year. Through the kindness of the Secretary of the Government of India, we have this week received the figures for one month later, and they are as follows.

| Wheat from India—July.    | 1882.     | 18*3.       | 1894.     |
|---------------------------|-----------|-------------|-----------|
| Quantities in cwts        | 1,011,555 | 8,353,124   | 1,991,530 |
| Value in rupees           | 44,36,019 | 1,42,57,171 | 80,92,710 |
| Value per cwt. in rupees  | 4.83      | 4.25        | 4.06      |
| Value per bushel in cents | \$1.08    | \$1 0134    | \$1.00    |

The above only confirms the conclusions reached last week. India producers evidently mean, for the present at least, to keep their crop. But all this will have no important effect on price, until the point is reached at which it pays the American farmer to hold on to his wheat. So long as he is sending it to market freely, holders might much better ship it abroad at any price that can be got for it, than leave it piled up in New York and Chicago.

As regards the coal trade, which is causing some uneasiness, it should be remembered that short time at the mines was made in December last year, production being suspended nine days then, against the two weeks now announced, so that the comparison is not so unfavorable as the bare statement at first appears. To be sure there is an additional stoppage of a week, beginning with September 30, for which there was no corresponding suspension in 1883. But it was fully known that this must come, and so long as general trade continues without improvement, the coal industry must languish also. We notice that the *Iron Age* published last week its usual compilation of furnaces in blast and out of blast October 1, and from it we extract the following.

| October 1. | 18  | 78.  | 18  | 79. | 18  | 80.         | 18  | 81. | 18  | 82. | 18   | 83  | 1-  | 84. |
|------------|-----|------|-----|-----|-----|-------------|-----|-----|-----|-----|------|-----|-----|-----|
|            | Out | In.  | Out | In. | Out | In.         | Out | In. | Out | In. | Out  | In. | Out | In. |
| Charcoal   | 186 | 83   | 159 | 97  | 116 | <b>1</b> 53 | 119 | 153 | 93  | 154 | 145  | 104 | 175 | 69  |
| Anthracite | 135 | 88   | 98  | 128 | 96  | 143         | 87  | 148 | 72  | 157 | 110  | 122 | 141 | 86  |
| Bituminous | 133 | 80   | 90  | 112 | 91  | 128         | 87  | 134 | 111 | 128 | 110  | 114 | 146 | 79  |
| Total      | 434 | 251. | 247 | 837 | 303 | 421         | 293 | 435 | 276 | 443 | 305, | 340 | 462 | 234 |

Here we see that the furnaces in blast were fewer, and out of blast more, than even in 1878, although together there were 9 less furnaces reported. All this is, of course, only one item in the coal trade, but it illustrates the enforced economy in production which pervades pretty much all our manufactures and coal users, and explains the need there is for short time at the coal mines.

A very healthful sign and which must bring recuperation sooner or later, is the movement indicated as in progress in an article we give in a subsequent column showing the sales of public lands last year. Mr. Greeley's recommendation to "go West young man" appears to have been acted upon quite largely, for though immigration has been very much smaller the takings of public lands have increased 1,500,000 acres over even the large total for 1882-83. Most likely speculators have got around the law in some way and have helped swell these figures, but the sales must in the main represent actual settlement. How long can this process be in progress without leaving its mark upon our industries? Here are 56 millions of new land taken possession of by producers since 1880, and probably a quarter as much more sold by our railroads, or 70 millions in all, while during the same time population has increased say 10 millions! It surely seems, with such conditions, as if some revival of business could not long be delayed-that after a little while, the enlarged demand for consumption' represented by this increasing force of workers, producers, consumers, must break away from the restraints which have held it in check so long.

Our anticipations expressed last week of a permanent and speedy settlement of all pool difficulties, have not been fully realized. In fact, an appearance of unrest seems just now to pervade railroad circles. The retaliation of the Baltimore & Ohio upon the Pennsylvania for cutting off its New York connection, has led to the opening up of the new passenger through route over the West Shore and Grand Trunk. "Sealpers'" tickets, it is stated, are being seld over this route at material reductions from the regular tariff. There are also reports from Chicago, which seem to have a basis of truth, that East-bound business is still being done at the 15 cent rate, although the order restoring the tariff was issued a fortnight ago. The Western roads also have been engaged in a passenger rate war from Chicago to Missouri River points for ten days past and now tickets are being sold at such low figures as must make serious inroads upon the revenues of these lines. So far as is known, the agreement between the same roads to maintain freight rates has been adhered to; but if this bitter passenger war continues, it is impossible to say how long the freight compact will hold.

Under all these circumstances, it is not surprising that there has been no spirit in the Wall Street speculation, and that some stocks have touched the lowest point of the year thus far. Properties which are forcibly held up keep up, but the rest have fallen materially. New York Central sold yesterday at  $89\frac{1}{2}$ , and Lake Shore at  $67\frac{5}{8}$ . Reading and the Central of New Jersey have also tumbled, rumors of financial difficulties being abundant, the claim being made that the November interest will not be met, and that the guaranteed dividend on Central New Jersey will be lowered. Of course, the latter rumor involves the further possibility that the Reading will lose the Central, all of which reports are made plausible by reason of the bad condition of the coal trade already referred to. Other statements unfavorable to other properties have found circulation, some of which have had the appearance of truth, so altogether the situation as the week closes is far from satisfactory.

New York Luke Erie & Western directors had a meeting this week, at which Mr. Jewett fixed November I as the date when his resignation should take effect. According to previous understanding Mr. King was elected to take Mr. Jewett's place on the date mentioned. As the company's fiscal year ends September 30 no complete figures for the late year could be furnished, but Mr. Jewett took occasion to say that the results had been, all things considering, very favorable, and that the road had fallen only about \$700,000 short of meeting its charges, including interest on the second consols. This, he goes on to say, was "better than he had for some time anticipated." As in the previous fiscal year the company had a surplus of over  $1\pm$  millions, the difference between the two periods is very marked, and it is possible therefore bondholders and stockholders of the road will not share Mr. Jewett's view in regarding the present exhibit as "very" favorable, even after making due allowance for all the adverse circumstances that the company had to contend with. Still, the Erie has suffered more drawbacks than most roads, some of them of a serious nature and peculiar only to its own class. Among the general public the disposition is to attribute the road's great loss in earnings to the demoralized and depressed state of trunk line business, and to the unsatisfactory condition of all industrial and manufacturing interests. The Erie has no doubt suffered in this way, in common with the other trunk lines. But the fact seems to be lost sight of that the road, besides being a trunk line, is also one of the leading coal carriers of the country. Indeed, the steady gain in earnings which the road was able to show for a number of years, and to which its prosperity in that period was due, was in very large measure the result of an extraordinary development of this very coal traffic. The bad state of that trade now must have had an important effect in diminishing the traffic over the line. Then, besides, the road has been engaged almost Central Pacific cannot as yet be placed within the category

the whole year in a triangular fight with the Buffalo New York & Philadelphia and the Rochester & Pittsburg (new competitors) on coal to Buffalo. We should not be surprised to find that the loss on the coal business had been of greater consequence than that arising from any other influence. Anyway, some such circumstance as this must have combined with the depression of trunk line business to reduce the Erie's receipts, otherwise it seems incomprehensible how the company could in a single period of twelve months have lost the large sum it has. The latest actual figures to hand are those for August and the eleven months ended August 31, and these we compare below with the corresponding figures for the four years. preceding.

| N. Y. L. ERIS & WEST.    | 1884.      | 1893.      | 1-82.      | 1881.      | 1580.      |

\* Proat-from a a/ 1.

Thus the company has lost in these eleven months pretty nearly two million dollars in net, a falling off of over 30 per cent. It will also be seen that the total is very considerably smaller than in any other year given, so much so that only the exceptional combination of circumstances cited above could have brought about the change. As 'stated, the company had in the fiscal year 1882-83 a surplus of \$1,265,485 above all the requirements for interest and rentals. In the eleven months of the fiscal year just closed there is a loss in net earnings, according to the above, of \$1,929,571. Assuming that there has been no increase in the interest charge over the previous year, and that the miscellaneous incomewas also unchanged from that year, that would giveus a deficiency in meeting the interest on the second consols of \$664,086, to be increased by whatever falling off the twelfth month - September shall show. As Mr. Jewett fixes the deficiency for the year at \$700,000, it would seem that he has made no allowance for a loss in September. Yet the September net last year were unusually large-namely, \$1,037,412, against \$811,281 in 1882, \$581,683 in 1881 and \$758,119 in 1880. In August, when the earnings last year were also very large, the falling off in the present year amounted to \$460,000. The conditions in September having been very much the same as in August, it does not seem possible that the company could have come up to its last year's total for that month. Hence it is not unlikely that. when the report is finally made up, the deficiency for the year will be greater than Mr. Jewett now states it.

Central Pacific has issued its August statement of earnings and expenses, and, as in the case of previous months, the exhibit is quite unfavorable. This is somewhat unexpected, because the decrease in gross earnings, reported at the close of the month, had been less than in other recent months, and it was known that the loss occurred entirely on the through business, the local business (paying the best rates) showing an increase. But it appears that not only were gross earnings less, but expenses, on these decreased earnings, were more than a year ago, so there is a loss for the month of over \$200,000 in the net. Evidently, for one reason or another, the of roads that are effecting a regular saving in expenses. The comparison is not improved, either, if we contrast the present exhibit with some of the years further back—say 1882 and 1881, as the following table will show.

| CENTRAL PACIFIC.   | 1884.      | 1883.      | 1882.      | 1881.      |
|--------------------|------------|------------|------------|------------|
| August.            | \$         | 8          | 8          | \$         |
| Gross earnings     | 2,113,339  | 2,207,513  | 2,850,557  | 2,088,519  |
| Operating expenses | 1,408,335  | 1,848,631  | 1,420,150  | 1,212,030  |
| , Net 'earnings    | 710,004    | 918,912    | 030,407    | 876,489    |
| Jan, 1 to Aug. 31. |            |            | -          |            |
| Gross earnlags     | 14,385,503 | 15,845,884 | 16,583,176 | 14,877,791 |
| Operating expenses | 10,469,490 | 10,254,793 | 10,525,997 | 8,667,107  |
| Net earnings       | 8,916,007  | 5,584,105  | 6,057,179  | 0,210,394  |

Thus while the loss, compared with 1883, is \$208,008, compared with 1882 it is \$220,403, and \$166,485 when compared with 1881. For the eight months to the end of August, the comparison is of course very unfavorable, but that is in great measure the result of the heavy floods that the company experienced two separate times, causing great damage to the property and interrupting transportation. The net are \$1,678,098 below 1883, \$2,141,172 below 1882, and \$2,294,587 below 1881.

Foreign exchange has been heavy this week, and although rates are nominally \$4 82 for long and \$4 85 for short, concessions are made which bring them about one cent below these figures. Bankers report a very light inquiry and a comparatively abundant supply of commercial bills, chiefly cotton and breadstuffs. Money in the open market at London is 2 11-16 per cent; so long as this rate is maintained no material decline in sterling is expected, and yet a fall to the gold-importing point is possible. The uncertainty, however, makes the hazard of ordering out gold from London great, especially in view of a probable further advance in the Bank rate to be looked for at any time should the amounts ordered hither reach any considerable sum. There was a consignment of £100,000 received on Monday by the Bank of British North America and there is now due £100,000 more for the same institution.

The following shows relative prices of leading bonds and stocks in London and New York at the opening each day.

\* Expressed in their New York equivalent. † Reading on basis of \$50, par valuo. ; Ex-interest.

Bankers' balances continue to rule at 1 to 2 per cent. One feature this week has been the refusal of some banks to make time loans' even at advantageous rates and on collateral generally regarded unexceptionable. There was a report current during the week that the Metropolitan National Bank will go into liquidation, and also that it has about \$5,000,000 Clearing-House loan certificates which cannot be cancelled without sacrificing the assets of the bank. A meeting of the stockholders will be held November 19th to decide upon the question of liquidation. So far as the loan certificates are concerned it may be stated that they are amply secured, mainly by assets which can be made available at any time and partly by share and bond properties. Whatever loss, if any, is incurred by the cancellation of these certificates will fall upon the stockhold-

ers of the bank and not upon the Clearing-House association. The following statement, made up from returns collected by us, exhibits the week's receipts and shipments of gold and currency by the New York banks.

| Week Ending Oct. 17, 1884.   | Received by N.Y. Banks. | Shipped by<br>N.Y. Banks.    | Net Interior<br>Movement.        |  |  |
|------------------------------|-------------------------|------------------------------|----------------------------------|--|--|
| Currency                     | \$1,536,000             | <b>\$900,000</b><br>*850,000 | Gain. \$636,000<br>Loss. 850,090 |  |  |
| Total gold and legal tenders | \$1,536,000             | \$1,750,000                  | Loss. \$214,000                  |  |  |

\*\$\$35,000 of this was transferred in the shape of silver certificates hy a deposit of gold in the Sub-Treasury.

The above shows the actual changes in the bank holdings of gold and currency caused by this movement to and from the interior. In addition to that movement, the banks have lost \$250,000 through the operations of the Sub-Treasury, and have gained \$800,000 by imports of gold. Adding these items to the above, we have the following, which should indicate the total gain to the New York Clearing House banks of gold and currency for the week covered by the bank statement to be issued today.

| Week Ending Oct. 17, 1884.  | Into Banks. | Out of Banks           | Net Change in<br>Bank Holdings.  |  |

The Bank of England reports a loss of £485,000 bullion for the week. This represents £116,500 sent abroad and £368,500 sent to the interior. The Bank of France shows a decrease of 1,675,000 francs gold and of 287,500 francs silver, and the Bank of Germany since the last return has, if correctly reported, lost 10,435,000 marks. The following. indicates the amount of bullion in the principal European banks this week and at the corresponding date last year.

|                       | October 1  | 16, 1884.  | Oclober 18, 1883. |            |  |

#### CONSERVATISM IN DIVIDENDS.

A continued loss in corporate earnings suggests of course a further lowering of dividends. Though there are undoubtedly numerous instances in which the old rate can still be fairly paid out of the year's profits, yot in many cases the needed profits will only be secured by increasing the risks of business, in many others the rate will be kept up by borrowing money, in others the necessary funds will have to be taken out of surplus, while in others the issue will be squarely faced and the dividend passed or lowered. These various modes of meeting this contingency, are accompaniments of every depression in business and sure to be features of coming months.

The thought is worth considering whether very frequently too much importance is not attached by directors and the public to the question of continuing dividends. Obviously we do not mean that uniformity in this particular is not desirable; if in every way proper, it is obligatory. In fact many believe and practice the belief, that there is no better way of managing such a trust than in conducting its affairs so that in unusual prosperity something may be laid aside for less favored years. But without discussing the policy of that course, the point now is, whether it is worth while to force business or balances, or weaken surplus, or increase floating debt, or run any risk whatever at such a time as the present, to keep ap appearances in this particular. Evidently the management of the Bank of England does not lose position. or the stock of the Bank lose market value by lowering the rate. In September the proprietors had their meeting, lasting it is said only a few moments, but long enough to fix the dividend at 14 per cent against the usual semiannual 5 per cent; and yet the stock went up. If the management of every railroad and bank corporation inspired a like confidence, market values would be very little affected by the simple fact of such temporary changes in dividends.

And why should not shareholders expect the returns they receive on their investment to reflect any marked peculiarities of the times? When business incomes are greatly diminished, manufacturers' profits lost, railroad traffic lessened, and banks making bad debts and but little money, security holders know that for the time being the earning capacity of their property is crippled, and that it cannot net the same results. In Great Britain, where the general principle prevails of dividing each year's profits, be they more or less, any depression in the industries of the country, when it exists, is quite clearly shown in the half yearly distributions. Thus in the following statement of dividends, which we have prepared from the columns of the London Economist, the state of trade there for the first half of 1884 is fairly reflected. These figures are the average rate per annum made on the percentage of the declarations for the first half of the year. The table covers three leading Scotch, four leading Irish and fifteen leading English railroad companies.

| Dividends, | 1879. | 1880. | 1881.   | 1882.  | 1883.   | 1881.  |
|------------|-------|-------|---------|--------|---------|--------|
| Scotch     | 2     | 3!%   | 3 9-16  | 4 1-16 | 4 3-18  | 4 1-16 |
| Irish      | 91%   | 4)é   | 31/8    | 87%    | 4 1-16  | 23%    |
| English    |       | 514   | 4 13-16 | 5      | 4 13-16 | 43.6   |

Contrasted with 1883, here is a loss this year on an average of 2-16 of one per cent on Scotch companies, of 7-16 on Irish companies, and of 5-16 on English companies. Of course in Great Britain railroads are not subject to such wide fluctuations in traffic receipts as our roads are, their business being much less dependent on any one industry. But this record fairly illustrates the principles we were contending for-that directors should not be too strenuous to keep up rates, that lower dividends in times like these argue no loss in intrinsic value, that the husbanding of resources under existing circumstances is simply common prudence, and investors should not throw their stocks overboard simply because of exaggerated street interpretations of lower returns to the shareholders.

But we have nearly lost sight of the thought we had in mind when we began to write. Our topic was suggested by a remark of a bank president as to the extent of his idlo cash and the necessity he felt under of keeping it employed as far as possible in order to make his dividend. This statement and the prevailing opinion that the large reserves the banks hold are sure to lead to widespread eligible public lands are still to be had, new occupation is

speculation in the near future, make all we have said above applicable to these institutions. We do not however share the opinion that the banks are so soon to forget the lessons of last May; yet beyond a doubt many feel this dividend pressure. It is to be remembered too, that it would probably be a low estimate to put the losses of our city banks by bad debts during the last six months at an average of five per cent of their capital. With so many failures, such a result could not be avoided, but it very naturally increases the desire to make money now.

At the same time there never was a period when more arguments could be advanced in favor of conservative bank management than at this moment. Last May showed that twenty-five per cent reserve was not nearly enough to meet any sudden demand for the large interest-bearing deposits which are held here. The experience of that time also proved that demand loans on railroad stocks were very little better than merchants' notes to answer large; urgent, immediate calls. Is there anything in our present surroundings that leads one to feel that we are on any surer basis in that particular yet? We are all hoping for and believing in better times in the near future. With crops moving freely, it is anticipated that goods will find a wider distribution, trade become more healthful and railroad traffic increase. But until that change is reached, it seems only right towards the public to keep bank resources well in hand and let the question of dividends take care of itself.

#### SALES OF NEW LANDS.

An important feature in the growth and development of the United States is the constant addition to its wealth producing capacity through the opening of new territory. Other countries have it within their power to augment the measure of their accumulations by saving the products of their skiil and industry; we have open to us the same source of wealth, but in addition we have vast tracts of fertile lands that lie untouched, and which, with even slight cultivation, yield most bountiful harvests. It is to this latter that we must attribute our phenomenal growth, and not to the practice of economy, frugality and thrift, for, on the contrary, we are lavish and wasteful.

Of these tracts of land, large sections are put under cultivation each succeeding year, and our prosperity is in some degree at least dependent upon .whether the area annually thus brought within the reach of our markets and our people is growing greater or smaller. These new lands are at once the stimulus and sustenance of our railroads. It is the prospect of their development that holds out to the projector of a new line the leading inducement for carrying on his work, and it is the realization of that prospect that makes the line when built a success. The new lands open to settlers are of two kinds-railroad lands, donated to and disposed of by the railroads, and public lands in the possession of the Government which can be taken up by intending settlers under certain restrictions imposed by the law. The development of both kinds is equally important, but statistics as to the railroad lands sold cannot be obtained except in the case of a few isolated roads, and not then without great difficulty. Public lands, on the other hand, being under Government control, the extent taken in any given year can be easily determined.

It thus happens that the disposals of public lands offer the only guide we have to the opening and settlement of new territory. It is quite a valuable guide, too, for a very large and increasing amount is taken up in this way each year, and it must be that in those districts where

confined almost exclusively to them, since they can be hid | from the East, who, finding it impossible, owing to the on much more favorable terms than the average of gcod railroad lands. As the fiscal year of the Government ends June 30, and all statistics made up are for that period, we have, as is our practice, obtained from Washington, through the kindness of the Commissioner of the General Land Office, the figures for the late fiscal year, arranged by States and Territories, and present them be-Iow in very complete form, in comparison with similar figures for five preceding years. It should be understood that our endeavor is to show the lands actually opened to cultivation and settlement, so we include only such of the public domain as has been sold for cash or entered either under the homestead or timber-culture laws, and exclude lands certified to railroads or patented to the States (swamp lands), as these latter must be regarded as simple transferrals, and thus have not passed into the possession of real settlers. Texas, we may say, is not embraced in the table, because there are no public lands in that State.

DISPOSALS OF PUBLIC LANDS FOR CASH AND UNDER THE HOMESTEAD AND TIMBER-CULTURE LAWS BY FISCAL YEARS FROM JULY 1, 1878, TO JUNE 30, 1884.

The most striking feature about these figures is the steady and uninterrupted growth which they show to have been in progress in the total takings. This is the more remarkable that the quantity of desirable land still remaining in the possession of the Government is known to be quite small. All sections to be sure do not 'share in the increase-in some cases because the limit of takings has been reached-but the aggregate of all keeps steadily mounting up, and has now reached large amounts. We supposed a year ago we were reporting a very heavy total in disposals of 16,830,455 acres, but now we have a still heavier amount in 18,233,821 acres taken during the twelve months ended June 30, 1884. Of the 18 million acres thus disposed of 6,317,847 acres (or over one-third) were for actual cash, 7,831,510 acres were entered under the homestead law, and 4,084,464 acres under the timber culture laws. It is not so long since the yearly aggregates were not above three to five millions.

We have been disposed to regard the great increase in the disposals in recent years as due in considerable measure to the immigration movement, which had reached such large dimensions. But now a large and very decided falling off in that movement has occurred, and yet the sales are greater than ever. This suggests the probability of some other influence being at work to swell the total. It is well known that the increase in the earlier years-1877, 1878, 1879-was the result of the migration of persons

prevalence of bad times, to make a satisfactory living here, turned their attention to the undeveloped West, and sought there, in farming and other agricultural pursuits, for an easier road to prosperity, favored by the great foreign demand at that time existing for all our products. When that influence had passed away, the steady influx of foreigners devoted to tilling the soil tended to keep up, and even increase, the totals. Now this, too, presumably is no longer the influence it was, and as the sales still go on increasing, it seems likely that there is again a movement from the East, because of the great depression in all industrial interests. If that should be the case-and on the theory that the sales are all bona fide and not specu. lative, it would appear to be a fair assumption-the effect later on cannot but prove to be beneficial. Such a movement tends to relieve the East of the surplus labor which it cannot keep occupied in poor times, and adds to the development and extension of our Western territory, and in doing this lays a new basis for national prosperity when other conditions shall again have become favorable.

In the sense, too, of stimulating all industrial enterprises, the effect of the increasing occupation of new lands can hardly be over-estimated. During the last seven years no less than 80,565,591 acres have been taken up in this way. Who can measure the full influence of this, first, upon the districts directly affected, and secondly, upon all other sections of the country. The bulk of the new land disposed of was of course in the Far West and Northwest, where, also, railroad land sales are most numerous, and with that fact before us it is not difficult to understand why our Northwestern railroads have done so well, and are still doing so well, even when the railroads in other parts of the country, which are more largely dependent upon the state of our manufacturing interests than the Western roads, are suffering severely from the prevailing depression in business. In the agricultural districts everything depends upon the outturn of the crops, and with the territory on which these crops are raised constantly enlarging, by the occupation of new lands, the roads in the Northwest, though they may for the time being (as some of them are now) be adversely affected, like Eastern roads, by the disinclination of capitalists to engage in new enterprises, yet their future is full of promise. It must not supposed, either, that the railroads get the entire benefit of the settlement of new land in the first year of its occupation. It takes time to work out results. Very little is accomplished in the first year, compared with what is reaped in the second year, and probably not till the third year are full returns obtained. Of the 801 million acres disposed of in the last seven years, 47<sup>1</sup>/<sub>2</sub> millions were taken up in the last three years, which shows both the magnitude of the recent totals and also what a large extent of the takings yet remains to work out best results.

As regards the direction this new army of settlers is taking, Dakota, Minnesota and Nebraska seem to be the favored districts. From this, however, it is not to be inferred that the lands there are more desirable than elsewhere. Without doubt they are very good lands, but the relative desirability of the different States and territories is not to be judged by the above figures showing the disposals of each. Other circumstances enter into the matter. For instance, where there are no more public lands, none can be taken. This would appear to be the case with Illinois, Indiana, and Iowa; consequently these States show on'y nominal quantities disposed of. In Iowa there is still a large quantity of unoccupied land, but it is mostly in the possession of the railroads, and therefore does not come under Government disposal. It would be very useful to know just how much of the public domain remains untaken in each State and Territory, but unfortunately the information is not to be had. The Government claims not to know. We repeat what we have said in previous years that this is nothing less than discreditable. It is certainly the duty of Congress or of the Executive Department of the Government to furnish light on the point. A person wishing to settle in the West, or to direct others having that object in view, is utterly in the dark as to where he may find the much-vaunted land which the Government by law places at his disposal. If he has friends adjoining a piece of unoccupied land, he may perhaps be enlightened by them, but otherwise he can have or can get no knowledge as to where the lands sought for are situated. It is to be hoped that some steps to remedy this serious defect will soon be taken. As said, Dakota, Nebraska and Minnesota have been most favored in the past year. In Dakota the takings reach over six million acres, or about one-third the whole amount. The previous year, however, was the banner year, for then the takings were 6,689,594 acres. Nebraska comes next after Dakota, as it did in tho previous year, but has doubled its total of that year. Indeed, almost the whole of the increase in the aggregate for the entire country over that of 1882-83 occurs in Nebraska, the number of acres disposed of having been 2,615,101. For the purpose of showing what part the sales in this section have played in the total disposals for several years, and what growth there has been there, we have prepared the following table. We have added a line at the end to show the railroad mileago in the district on January 1 of each year.

| State or Ter- | 1879.     | 1830.     | 1881.     | 1882.     | 1883.     | 1884.     |

| Minnesota     | 935,788   | \$51,027  | 843,965   | 1,035,733 | 1,292,969 | 937,870   |
| Nebraska      | 1,181,882 | 1.324,718 | 643,290   | 831,028   | 1,815,104 | 2,813,101 |
| Total         | 3,774,481 | 4,434,235 | 4,020,404 | 6,324,802 | 9,297,667 | 9,622,284 |
| Mileage In    |           |           |           |           | 1         |           |
| operation     | 4,199     | 5,642     | 6.359     | 7,283     | 8,817     | 9,097     |

The above table shows how closely railroad extension and the opening of new territory are connected. Of the somewhat less than 181 million acres disposed of altogether in the late year, we see that the section given had 9,622,284 acres, or considerably more than half, and this exceeds even the large aggregate which the same section had in the previous year, the loss in Dakota and Minnesota being overcome by the gain in Nebraska. In 1877-8 the takings in the district were less than 3 million acres altogether. The growth since then has been rapid, and in the last seven years 40,423,195 acres (out of 80 millions in the whole country) have been located in these three States. In the same time the mileage has increased from 3,770 miles on January 1, 1878, to 9,097 miles on January 1, 1884. The building of the Northern Pacific, and the extension of the Northwest and St. Paul systems, no doubt account for the great tide of settlement into Dakota; while the expansion of railroad mileage in Nebraska (the State has now 2,696 miles, against 1,344 miles only five years ago) explains the great increase in the takings in that State. It is to be said that in the latter State there has also been a great demand for railroad lands contemporaneously with the taking of public lands. Trus in the nine months of the calendar year, from January 1 to September 30, the Union Pacific sold 3,969,995 acres in 1884, against only 524,633 acres in the same period of 1883. The railroad lands, however, appear to have been arisen, in connection with the newly-explored Congo of a poor quality, for whereas in 1883 the Union Pacific country, difficulties which only an International Confer realized an average of nearly 31 dollars per acre on ence could properly deal with, in the way of bringin

On the other hand, in Minnesota and Dakota, as the age. public land sales show a falling off, so also do the railroad land sales-judging at least by those roads for which we have figures. The Northern Pacific, for instance, sold 268,395 acres in Minnesota and Dakota in the fiscal year 1883-1, against as much as 527,422 acres in 1882-3, and the St. Paul Minneapolis & Manitoba sold 83,908 acres in the same year, against 104,245 acres in 1882-3, and 203,143 acres in 1881-2.

Another section that has made considerable progress in recent years in the opening of new territory is the-Pacific Coast-California, Oregon, and Washington Torritory. Settlement there has been stimulated by the building of the Northern Pacific and the Oregon Navigation lines. In both California and Washington Territory nearly a million acres were sold the past year, and in Oregon over half a million. Following is the record of the same section for a number of years past.

| State or Ter-<br>ritory. | 1879.   | 1860.     | 1881.   | 1882.     | 1883.     | 1894.     |  |
|--------------------------|---------|-----------|---------|-----------|-----------|-----------|--|
|                          | Acres.  | Acres.    | Acres.  | Acres     | Acres.    | Acres.    |  |
| California               | 379,921 | 854,953   | 415,403 | 493,838   | 701,274   | \$85,416- |  |
| Oregon                   | 120,443 | 239,418   | 204,734 | 801 109   | 499,770   | 585,943   |  |
| Washt'nTer.              | 245,319 | 421,297   | 874,823 | 444,165   | 788,770   | 915,128   |  |
| Total<br>Miles of RR.    | 745,674 | 1,015,670 | 995, 22 | 1 241,009 | 1,957,823 | 2,386,487 |  |
| In operat'n              | 2,644   | 2,716     | 2,880   | 8.241     | 3,751     | 4.320.    |  |

Here we see that in this Pacific Coast section 24 million acres were taken up in 1883-4, or over 400,000 acres more than in the previous year, and nearly twice the quantity of two years ago. If we go back to 1879, we find an annual total of less than three quarters of a million. In this interval the mileage of that section has been raised from 2,644 miles to 4,329 miles, and that accounts for the increased activity in the settlement of the territory.

The district contiguous to the Pacific Coast section,. comprising Idaho, Wyoming Territory, Montana, and Colorado, is also noted for its development. Wyoming particularly has taken a big stride forward, for it will benoticed that no less than 595,787 acres were taken up in that territory (505,605 acres of the same for actual cash) in the year, while in 1882-3 the quantity was only 187,409 acres. Passing to other sections of the country, Kansas has improved on its aggregate of 1883, and reports 985,193 acres sold; but in 1879 2,784,538 acres and in 1880 1,516,469 acres were disposed of in that State. In the heavy sales of 1879 and 1880 have we not the basis for the prosperity of the Kansas roads which enables them to keep up their earnings so well, while other roads arefalling behind ? In reference to the decrease in the sales. in the later years, it should be remembered that under the heavier sales in earlier years the amount of land remaining undisposed of must have undergono great. diminution. In Michigan, too, the quantity remainingparticularly timber land-is supposed to be small, so the sales in that State are much less than formerly. As regards the Southern States, in almost all of them have the sales been materially increased in recent years,. Florida and Louisiana being conspicuous in this respect ; but the land here is of a different character, and no such important results can be expected to follow from its opening as have followed that of the opening of new land in. the West and Northwest.

## THE PROJECTED CONGO CONFERENCE.

For some time past it has been manifest that there had the sales, this year it has realized less than half that aver- about anything like a satisfactory settlement. It was

very wise conception of the King of Belgium, or it is to be set down as a specimen of that astuteness for which Mr. Stanley is distinguished, that the society of which the one was the president and the other the managing chief assumed the character of international from the outset. Any other arrangement might have proved fatal even at the commencement of the enterprise. It would certainly have failed to secure for it what it has now obtained—the sympathy of the United States and of the larger number of the European governments.

' It was very natural for those who were interested in the welfare of the association to look to Germany, and especially to Germany's all-powerful Chancellor, for favor and even practical assistance, when they felt themselves confronted with opposing obstacles against which, unaided, they could not contend. Germany, it was known, was not only experiencing the inconveniences of a growing population within restricted territorial limits, and with a not too productive soil, but was actually making efforts with a view to colonial expansion in the direction of Eastern Asia and Australia. Here was a newly-opened region, rich in resources and much nearer home, inviting just such energy and enterprise as Germany could afford to give. Events have shown that the friends of the International Central African Association did not turn their thoughts to Germany in vain. The idea of building up colonies in the far East seems to have been immediately abandoned; and we find the Germans busy all along the western shores of the African continent, reviving almost forgotten claims, asserting new ones, and, with an amazing rapidity, hoisting the German flag, and establishing protectorates alike in Walfisch Bay and in the Bight of Biafra. The latest outcome of these negotia. tions between the International Association and the German Government is the proposal to hold a conference at Berlin to consider certain questions relative to the future management of the Congo region. The fact that this conference is to be held in Berlin, at the call of Prince Bismarck, is proof at once of the controlling power which Germany has acquired in Europe, and of the interest which the German Government and people are now taking in the subject of colonial expansion generally, and of colonial expansion especially in the direction of Africa.

That such a conference will be held may now be almost taken for granted. France has expressed herself through her Minister at Berlin, the Baron de Courcel, as favorable to such a representative assemblage, and to the principle of freedom of commerce on the Congo ; and to the demand of England, through her Foreign Minister, Lord Granville-a demand adhered to by Holland, Portugal and Italy-that the programme of the Conference should be limited to the regulation of commerce in the Congo country, and that it should not trench upon the disputes which have arisen as to the ownership of territory in West Africa. Prince Bismarck, it is reported, has returned a satisfactory answer. It would appear also that France, on second thought, has expressed a desire that the Conference should be allowed to consider the question of freedom of commerce on the Niger and in the Niger country. If France should insist on this point, it is almost certain that no Conference will be held. The Niger has long been looked upon as a British river. The chiefs upon its banks have for many years been living by agreement under British protection. At the mouth of the river is a British gunboat with a British consul on board, who is in the habit of cruising as far south as the Calabar River, where British influence is also supreme, and where five hundred tons of oil are shipped every week. The present consul, we are

told, has been firmly advising his Government as to the propriety of immediately annexing the whole Niger Delta, with all the oil rivers on the coast. It is not at all likely that Great Britain will consent to have her rights questioned or her privileges curtailed on this section of the African coast; and the probability is that if France is at all anxious to have a Conference, she will withdraw her request regarding the Niger and the Niger Delta generally. As there is no reason why Russia or Austria or either of the Scandinavian governments should object the presumption is that with greatly restricted and well defined powers, the proposed Conference will be held and consultation had as to the best means of regulating commerce on the Congo.

What such a Conference could accomplish it is not easy to foresee. It seems natural that a settlement of property rights should have preceded the consideration of trade privileges. It is difficult, indeed, to see how anything can be done in the way of laying down rules for the gnidance of traders in that region until certain existing disputes are removed out of the way. Portugal insists upon the possession of prior rights along the whole line of the Lower Congo. The English government have negotiated a treaty with Portugal on the basis of these rights, although it can hardly be said that that treaty has been concluded. The French claim territory on both banks of the Upper Congo; and during Stanley's absence, it is understood, De Brazza occupies the lands in the neighborhood of Stanley Pool, which have long since been regarded as the property of the International Association. With all these conflicting claims demanding solution. how is a prosperous trade on the Upper or Lower Congo possible? Supposing laws are made for the regulation of trade, who is to have jurisdiction? Should England refuse to retire from her arrangements with Portugal, England and Portugal together will be supreme on the seaboard section. If Stanley and De Brazza cannot agree, and if the native chiefs continue to change at pleasure their allegiance from the one to the other, destructive war, not trade, will flourish in the upper section.

It has been suggested that the Congo might be managed, as the Danube is managed, by a commission representative of the Powers. But the two rivers are differently situated. The Danube runs through a civilized region. The banks of the Congo are inhabited by savage and warlike tribes. It is absolutely necessary that in the Congo territory there be a visible embodiment of authority, and that that authority be one and undivided. The recognition by the conference of the International Association, and the investing of that association with powers of dominion, would be the natural and easy way out of the difficulty. But such an arrangement is in open conflict with the existing claims. Nay, more. Such an arrangement seems to be rendered impossible by Lord Granville's demand that the programme shall be so limited as to exclude the consideration of all proprietary rights. Thus, looking at the whole subject, it is difficult to see what good can come from this endeavor; and in view of the fruitlessness of the late Conference on Egypt, another abortive assembly of diplomatic magnates would be very disappointing and would discourage future similar attempts.

Vicksburg Shreveport & Pacific,—This company owns some 20 miles of track, from Shreveport, La., west to the Texas line, which was built some 18 years ago and has been operated by the Texas & Pacific Co. under a lease which will shortly expire. It is now stated that an agreement has been concluded for a new lease, both companies to use the road together. This will prevent the building of a new line by the Texas & Pacific.—Railroad Gazette.

[From our own correspondent.]

LONDON, Saturday, Oct. 4, 1884.

Owing to the termination of the quarter, there has been more animation in the money market since Saturday last, and the open market rates of discount are nearly, and in some instances quite, equal to those current at the Bank of England. The official minimum has not been altered, and remains, therefore, at 2 per cent, while the outside rate for three months' bank bills is 134 to 178, and in some instances 2 per cent. The proportion of reserve to liabilities has declined from 44.83 to 38.01 per cent, or to the extent of nearly 7 per cent. Last year it was nearly 34 per cent; in 1882, 35.25; and in 1881 only 30.25 per cent; the Bank rate being in those years respectively 3, 5 and 5 per cent. The position of the Bank compared with last year is a weak one. The supply of coin and bullion does not exceed £21,799,392, contrasting with £23,755,283, while the reserve is reduced to £11,269,932, the total at this period last year being £12,894,568. The diminution is important, and leads some to conclude that an advance in the rate cannot be long delayed. Undoubtedly, the tendency is just now in an upward direction, but this is a special week, as it includes both quarter day and the "fourth" of the month. A good deal of money has been borrowed this week of the Bank in anticipation of the dividends on the public funds. "Other securities" show, in consequence, an increase of rather more than £2,000,000, and it is believed that by this time the dividend money has been fully anticipated.

The money market closes with a decidedly quiet and even easy appearance. The position of affairs is not very different from that of last week, and further case is anticipated as soon as the dividends on the public funds have been distributed. Some considerable loans have, however, to be re-paid the Bank in the course of a few days, and a steady money market is ultimately looked forward to. To-day business in London is remarkably quiet, and it is almost a blank. What had to be done was speedily accomplished, and as we are enjoying brilliant autumn weather, the "City" was cleared of business men at an early hour. The following are the present prices for money.

|                   | Rate. |        | ank Bill | Interest allowed<br>for deposits by |                 |                            |        |                          |   |

The Clearing House return issued this week shows a total of £130,400,000, comparing with £144,735,000 last year. In each year there was a "settlement" in shares and foreign stocks on the Stock Exchange, and this sheet does not account entirely for the difference, there being a difference of only £1,700,000 on the day on which that arrangement was made. The falling off is due to other causes, chiefly, it is supposed, commercial In this week's return the smallest total was only £12,404,000, the highest (excepting the Stock Exchange settlement day), £21,093,000. Last year the lowest was £18,250,000, and the highest (with the exception referred to), £25,243,000.

The following return shows the present position of the Bank of England, the Bank rate of discount, the price of consols, the average quotation for English wheat, the price of middling upland cotton, of No. 40 mule twist, fair 2d quality, and the Clearing House return for the past week, compared mith manufacture

In reference to the state of the bullion market during the past week, Messrs. Pixley & Abell remark:

the past week, Messrs. Pixley & Abell remark: Gold-Since our last thore has been more lequiry for gold, and all arrivals have been taken for expert. The Gank has lost £223,000, chiefly in sovereigns, which have been sent to Egypt. The ooly arrivals are £44,000 per "Para," and a smail parcel from the Cape. The P. & O. steamer has taken £7,700 to Gibraltar, £195,000 to Egypt and £70,000 to Bombay. Bilver-Ex "Para" and "Colopaxi" was sold at 5013<sub>16</sub>d.; to-day, how-ever, some has been purchased at 507sil. The chief amounts to hand are: £28,000 from the West Indies, £45,000 from New York, £73,700 from Baneos Ayres and £34,700 from Chile; total, £181,400. £15,000 has gone this week to Bombay. Mexican Dellars are due nominal, and there are very few offering. The Imports are £102,500 from West Indies and £4,400 from New York. The cupations for hullion are reported as follows:

The quotations for bullion are reported as follows:

Tenders for £1,195,000 Treasury Bills were received at the Bank of England on Tuesday, and allotments were entirely in three-months' bills. Those at £99 11s. 4d. will receive about 62 per cent, and above in full. 'The average rate per cent was £1 11s. 9-82d.

The Government of New South Wales re-appears in this market a borrower of £5,500,000 at 312 per cent at a minimum price of £92 per cent. This will bring the debt of the Colony to about £30,000,000.

The revenue returns are not favorable, and they plainly indicate that the business of the country is very quiet. Tho receipts during the past quarter from all sources have amounted to £17,610,522, against £19,942,403 in the previous quarter and £26,838,487 in the March quarter. In the cor. responding quarter of last year to the one just concluded, the total receipts were £18,146,785, in the June quarter £20,796,798, and in the quarter ended March 31, 1883, £29,668,825. During the four quarters ended September 30, the receipts were £35,814,586, against £89,610,496 in the corresponding period of The decreases during the past month are important. 1882-3. viz., of excise, £240,000; stamps, £80,000; property and income tax, £125,000. During the year the falling of in the income tax has amounted to £2,450,000; in excise, £213,000; in stamps, £321,000. Unless trade improves very considerably between now and Easter-a long period cetainly-the Chancellor of the Exchequer will have an unwelcome task before him in presenting his next budget to Parliament.

The weather being remarkably fine, the progress of agricultural work has been very satisfactory, and a considerable

quantity of land has already been planted with wheat, and with an excellent promise. In fact, agricultural work is considered to be in more than an usually forward state. As regards the wheat trade, although much quietness still prevails, there is more steadiness apparent, and in a few localities rather better prices have been obtained. The quotations, however, are still very low. English wheat is arriving at market in fair quantities, and in excellent condition. The receipts show an increase over last year, the total for four weeks being estimated at 4,300,000 cwt., against 3,689,000 cwt. last year. Foreign wheats have changed hands at rather more money.

The following return shows the extent of the imports of cereal produce into the United Kingdom during the first four weeks of the season, the sales of home-grown produce, the average prices realized, compared with last season:

NKW YORK, FRIDAY, OCT. 17. 1884-5 P. M. The Money Market and Fluancial Situation.—There have been only two subjects of interest in the markets this week first, the Ohio election, and secondly, the decline in stocks.

The first went nearly as expected, but the prices of stocks went very differently from what had been predicted. It can not fairly be said that the weakness at the Stock Exchange was caused by the elections, but it is rather apparent that the market was rigged, and after having an appearance of strength given to it on Monday and Tuesday, was fed with long stock on Wednesday—probably by the same parties who manipulated the strong tone beforehand.

As to the actual situation of the railroads, affairs certainly do not seem to be promising so far as the maintenance of rates is concerned, and matters have been aggravated by the war between Baltimore & Ohio and the Pennsylvania Road, followed by the open cutting of passenger rates by West Shore. But a disagreement on rates can be settled at any moment; and although the West Shore does now rejoice in that freedom from obligation which always attends insolvency, still the company will not always be insolvent, and a very short time may see it in the possession of strong parties. As to the trunk lines, the main fact remains true (whatever their temporary difficulties) that for nearly six months of the year the regulation of rates between the East and West is in the control of five parties—Grand Trunk, the Vanderbilts, Erie, Pennsylvania and Baltimore & Ohio.

Rates for call loans during the week on stock and bond collaterals have ranged at 1 to 2 per cent and to-day at  $1\frac{1}{2}$ @2 per cent. Prime commercial paper is quoted at 5@6 per cent.

The Bank of England weekly statement on Thursday showed a loss in specie of £485,000, and the percentage of reserve to liabilities was 35¼, against 3213-16 last week; the discount rate remains at 3 per cent. The Bank of France lost 1,675,000 frances in gold and 237,500 frances in silver.

The New York Clearing-House banks, in their statement of Oct. 11, showed an increase in surplus reserve of \$2,215,625 the total surplus being \$32,113,300, against \$29,897,675 the p revious week.

The following table shows the changes from the previous week and a comparison with the two preceding years in the averages of the New York Clearing House banks.

|                                | 1884.<br>Oct. 11.                       | Differ'nces fr'm<br>Previous Week.   |   | 1892.<br>Oct. 14.                       |

Exchange.—Sterling exchange has been very dull, though rates have been maintained, and there is no change in the posted rates from those quoted last week. Tho supply of bills from cotton and grain shipments ought to be on the increase now, but the movement of securities between this and the foreign markets cannot be foreseen.

To-day the rates on actual business were as follows, viz.: Bankers' 60 days sterling, 4  $81\frac{1}{4}@4 \ 81\frac{1}{2}$ ; demand, 4  $84\frac{1}{4}@4 \ 84\frac{1}{2}$ . Cables, 4  $84\frac{1}{4}@4 \ 85$ . Commercial bills were 4  $79\frac{1}{2}@4 \ 80$ . Continental bills were : Francs, 5  $23\frac{1}{6}@5 \ 23\frac{3}{4}$  and 5  $20\frac{5}{6}@5 \ 21\frac{1}{4}$ ; reichmarks,  $94\frac{3}{6}@94\frac{1}{2}$  and  $95@95\frac{1}{6}$ ; guilders,  $89\frac{3}{4}@39\frac{7}{6}$  and  $40@40\frac{1}{6}$ .

The following were the rates of domestic exchange on New York at the under-mentioned cities to-day: Savannah, buying ¼ discount, selling ¼ discount @ par; Charleston, buying 2-16@¼ discount, selling par @ ¼ premium; Boston 10@20 premium; New Orleans, commercial, 50@75 discount; bank 100 premium; St. Louis, 75 premium; Chicago, 25 premium.

The posted rates of leading bankers are as follows :

| October 17.   | Sixly Days                        | Demand.                       |

United States Bonds.—The business done in government bonds the past week has been very light, but prices have been strong and higher, and, compared with quotations of a week ago, show an advance of  $\frac{1}{4}$  for the 4s and  $\frac{4}{4}$ s.

The closing prices at the N. Y. Board have been as follows:

|   | Interest<br>Periods. |        | Oct.<br>13.         | Oct.<br>14.              | Oct.<br>15.                | Oct.<br>16.  | 006<br>17.           |

\* This is the price bid at the morning board; no sale was made.

State and Rallroad Bonds.—State bonds were entirely neglected until the latter part of the week, when the following sales were recorded: \$5,000 Missouri 6s, 1886, at 10634; \$1,000 do., 1887, at 107; \$1,000 do., 1888, at 10714; \$2,000 North Carolina special tax, Western R. R. issue, at 41/2; \$10,000 do. 6s, 1919, at 1051/2; \$15,000 Tennessee 6s at 39; \$10,000 South Carolina Brown consols at 106.

In the railroad bond market the better class of investment bonds continue to be pretty firmly held, with a light business. In the more speculative classes business has been more active and prices have fluctuated, in some cases quite widely. Erie 2ds close at 53, against  $55\frac{1}{2}$  last Friday; West Shore 5s at  $41\frac{7}{6}$ , against  $43\frac{1}{2}$ ; Northern Pacific 1sts at 103, against  $103\frac{5}{6}$ ; Metropolitan Elevated 1sts at 106, against  $104\frac{3}{4}$ ; do. 2ds at 96, against  $91\frac{1}{2}$ ; Oregon Short Line 6s at 85, against 81; Fast Tennessee 5s at 52, against  $56\frac{3}{4}$ ; do. incomes at  $13\frac{7}{6}$ , against  $15\frac{1}{6}$ .

Railroad and Miscellaneous Stocks.—In the stock market transactions were light in the early part of the week, but later there has been more activity with conspicuous weakness. On Monday and Tuesday a strong tone was manifested, which was mostly the result of a manipulation of prices in anticipation of the result of the Ohio election. Thus the good effects supposed to arise from that election were only realized before it occurred, by the "discounting" process, and on Wednesday, although the opening was strong, prices gave way sharply and have since been weak and declining.

The coal shares have been a conspicuous feature this week, especially Lackawanna, which has been very active, and the price has fluctuated widely. The coal business is still in a precarious condition, though the coal combination has ordered a suspension of work the first week in November and the first and fourth weeks in December, and this outlook, coupled with the increasing complications in Reading's financial affairs, causes great weakness in the latter stock and in Jersey Central.

The trouble between Baltimore & Ohio and Pennsylvania was still further involved this week by the withdrawal of the former from all passenger pools, the establishment of an independent passenger route in connection with West Shore between New York and Chicago and the inevitable cutting of rates on passenger business.

Manhattan consolidated stock rose 2 per cent on Tuesday, in consequence of the favorable decision of Judge Pratt in the Elevated railroads' tax suits.

The Vanderbilt stocks, including Northwest, have been active and weak. The Northwest road shows decreasing earnings, and the trouble among the Eastern trunk roads is telling serieusly on the business and earnings of the Vanderbilt lines. To-day, Friday, there was a further large decline in prices, attributed mainly to the open reduction in passenger rates by the West Shoro Company, which touched all the trunk lines, and through them weakens the whole list. \_\_\_\_

Bank

#### RAILROAD EARNINGS.

The latest railroad earnings and the totals from Jan, 1 to latest date are given below. The statement includes the gross earnings of all railroads from which returns can be obtained. The columns under the heading "January 1 to latest date" furnish the gross earnings from January 1 to, and including, the period mentioned in the second column.

New York City Banks.—The following statement shows the condition of the Associated Banks of New York City for the week ending at the commencement of business Oct. 11:

The INVESTORS' SUPPLEMENT contains a complete exhibit of the The INVESTORS' SUPPLEMENT contains a complete exhibit of the Funded Debt of States and Cities and of the Stocks and Bonds of Railroads and other Companies. It is published on the last Saturday of every other month—viz., February, April, June, August, October and December, and is furnished with-out extra charge to all regular subscribers of the CHRONICLE. Extra copies are sold to subscribers of the CHORNICLE at 50 cents each, and to others than subscribers at \$1 per copy.

#### ANNUAL REPORTS.

#### Chicago & Eastern Illinois.

#### (For the year ending June 30, 1884.)

(For the year ending June 30, 1884.) The annual report of this company has just been issued. As the company has been through a most interesting and extraordinary litigation, and has only during the past year made a settlement of the points at issue, the 'report scems quite defective in entirely ignoring these facts, and in not giving a clear account of the terms of adjustment. The present company was formed as successor to the Chicago Danville & Vincennes, sold in foreclosure; the validity of the foreclosure was assailed, and a decision obtained in the U. S. Supreme Court in favor of the assailants. The case went back to the Illinois Court, and was there pending for some time, and what finally became of it the stockholders are not now informed in the report of the President, Mr. Horace H. Stevens, which contains no remarks at length upon the affairs of the company. company.

The statistics compiled for the CHRONICLE are as follows:

| EARNINGS AND EXP   | ENSES ON WH                             | OLE LINE. |           |

GENERAL INVESTMENT NEWS.

Central Iowa.—The Boston *Transcript* says: "The New York report that the payment of the Central Iowa Company's coupous had been enjoined at the investigation of Messrs, Chase & Higginson was false. The coupons for October and July are not yet paid, nor were those for January paid by the company. Mr. Sage has a lot of them which he bought, but they are alive and a debt of the company."

Central Pacific.—Gross and net carnings for August and for eight months were as follows :

|                    |             | gust        | Jan. 1 10    | Aug 31       |

Net carnings... \$710,001 \$913,912 \$3,916,007 \$5,594,105 **Fargo &** Southern.—This company makes application to have its first mortgage bonds placed on the list of the New York Stock Exchange, and submits the following statement: The Fargo & Southern Railway Co. was organized by virtue of a patent issued under the general laws of the Territory of Dakota, and became the owner by the purchase of all the rights and franchises of the Fargo & St. Lonis Air Line Rail-road Company. It is authorized to construct and operate a line of railroad from Fargo, Dakota, in a southerly direction by way of Wahpeton to the foot of Lake Traverse, thence in the State of Minnesota in a southerly direction by way of Graceville to Ortonville, Minnesota, with power to build ex-tensions. The road was completed and operade for traffic between Fargo and Ortonville in August, 1884, 119 miles. The company has no floating debt, The amount of cupital stock subscribed and issued is 12,500 shares of \$100 each (\$1,250,000). The bonded debt consists of first mortgage bonds dated Oct. 10, 1883, due January 1, 1924, with coupons bearing 6 per cent interest, payable January and July. Principal and interest payable in gold coin of the standard of 1874. Bonds num-bered from 1 to 1,250 inclusive of \$1,000 each, \$1,250,000. President, H. E. Sargent, Trustees of mortgage, Parmers' Loan & Trust Company of New York. Louisville & Nashville.—A circular has been issued by this company to the statement that the \$2,000 of the statement the state \$2,000 of the statement the state \$2,000 of the statement to 1,250,000. \$3,916,007 710.00 \$919.912

Louisville & Nashville.-A circular has been issued by

Louisville & Nashville.—A circular has been issued by this company correcting the statement that the \$5,0,0,000 of new bonds were a lieu on the equipment of the road after the car trust bonds had been liquidated. The form of the new bonds, it appears, was erroneous, and the directors, on Monday, voted to have the necessary correction made. The trust bond mortgage and the general terms of prior mortgages cover the roll-ing stock of the company whenever acquired, so that the new bonds must be subject to any liens previously established. It turns out that Louisville & Nashville stockholders had the right to subscribe to the new stock without the bonds. This priv-ilege was taken advantage of by quite a number, and the stock probably sold in advance at about 28. The D aw & Jones let ter says: "The syndicate is believed to have taken over \$3,000,000 of the bonds at the syndicate price of 55 and about 20,000 shares of the stock at the syndicate price of 2212. The results indicate that stockholders took nearly half of the rights and the syndicate the balance. At the office of the company the only statement made is that the rights have all been taken." taken.

Manhailan Elevated.—In the tax cases of New York City against the elevated railroads, Judge Pratt has rendered an important decision, reported in the N. Y. Times as follows : "Since the elevated railroads have been in existence the city has received from them, by way of taxes, the sum of \$186,187. This amount was paid to the Clerk of Arrears by the Manhai-tan Railway Company on July 29, 1881, for taxes imposed on the structure of the New York Elevated Railroad Company, considered as real estate, for the years 1879 and 1880. The col-lection of all the other taxes imposed on the New York, Metro-politan and Manhaitan companies for the years 1879 has

lection of all the other taxes imposed on the New York. Metro-politan and Manhattan companies for the years since 1879 has been resisted, on the ground that the assessments on which they were based were made illegally. To review the assess-ments the three companies obtained writs of certiorari. "As the city claimed that the writs were ineffective, the Manhattan and Metropolitan companies joined as plaintiffs in an equity suit against the Mayor and the Tax Commissioners, the correction of all the assessments from 1879 to 1882, both years inclusive, being the end sought. This suit and all the certiorari proceedings were heard by Judge Calvin E. Pratt, in the Supreme Court, Special Term, last June. Decisions favorable to the railroad companies, by reducing the taxes elaimed from them, were rendered by him this week. "The disputed assessments and taxes were:

"The disputed assessments and taxes were:

the fixed charges of the company, including the interest on the second consolidated mortgage bonds, less about \$700,000, which under the circumstances was, in his opinion, a highly favorable result, and better than he had for some time anticiavorable result, and better than he had for some time antici-pated. He further sold that as there had been some criticism of the wisdom of the lease of the New York Fennsylvania & Ohio Railroad, he would state that, in addition to the great advantage to the New York Lake Erle & Western Company in having the control of that property, he had no doubt that as a mere question of money a profit would be realized from the lesse, whenever business resumed anything like its ordinary and natural condition; that even under the most adverse cir-cumstances which had existed since the lease had been made,

curnstances which had existed since the lease had been made, the loss to the Eric Company for the entire period of the lease up to August 31, 1884, was but \$41,040. The vacancies in the board were filled by the election of John King, Jr., J. G. McCullough, Ogden Mills and James A. Raynor, who take the places of Theron R. Butler and Thomas Dickson, deceased ; James D. Fish and Jacob H. Schiff. Mr. Schiff recently resigned because of his proposed absence for several months in Europe. The Nominating Committee, which was to report a ticket for the annual election in November, made no report and was discharged. There will be no actual contest at this meeting, for the former directors are willing to surrender their places to the real owners.

New York & New England.—On the 15th inst. some \$10,-000,000 of the stock had voted for the issuing of preferred stock and second mortgage bonds under the recent resolutions

Deficiency for year..... ..... \$359,308 "This statement shows a deficiency of \$759,000, or a slight improvement upon the previous year, when the deficit was

\$631,604." The New York & New England has been an unfortunate property, although there are few railroads in the United States that seem to have a better location for commanding business. The road was barely completed to the Hudson River when the The road was barely completed to the Hudson River when the trunk line rates became so unprofitable that the through busi-ness via the Eric Road had to be abandoned. Then the project of connecting it with the N. Y. City & Northern for passenger business out of New York was never perfected by Messrs. Gould, Field and their associates, who went into the direct-ory with great expectations to the stockholders. The company should have money to pay off all thoating debts and all obligations maturing shortly, and it is use-less to create new interest-bearing obligations. If the stockholders or others will raise the necessary capital by taking preferred stock at a fair price, they may save their property; but if the road should go to forcelosure and be purchased by heavy capitalists, there are few railroads in the country that seem to offer greater promise of becoming valuable properties in a few years. in a few years

Ohio Central.—A meeting of security holders of this rail-road (main line) was held at No. 52 William Street. There were repre-ented \$624,000 first mortgage bonds, \$391,000 income bonds and 2,000 shares of stock. A committee con-sisting of C. W. Opdyke, Grinnell Burt, D. B. Halsted, Charles J. Canda and John S. Stanton was appointed to protect the interests of the security holders, and prepare a plan of re-organ-ization. The committee was also instructed to secure a post-ponement of all foreclosure proceedings until the re-organiza-tion plan has been considered.

Ohio & Mississippi.-At the recent annual meeting, Presi-dent Peabody's report was read and ordered printed. After reciting the resolutions, giving the plan of re-organization, the report continued as follows:

Acting under this resolution, this board took such other steps as were recessary to relieve the property from the custody of the court, and on April 1, by the order of the court, the receiver was discharged, and the board of directors on that day assumed the control and management of the property. As provided in the plan, the proceeds of the bonds sold have been applied to the payment of arreatages of interest on the existing mort-gage dobts, the unsecured debts and the mortgage indebted ness already matured, and also to the purchase of additional rolling stock. The present inancial status of the company is as follows:

| LIABILITIES.   |                                     |
|--|-------------------------------------|

"From this it appears that during the present year track;

laying has been in progress on at least 120 lines, in 40 of the 74 States and Territories, and has reached an aggregate, so far as our returns show, of 2,553 miles—reference being had to main line only and not including sidings or additional tracks. Our records for the corresponding period of 1883 showed 4,244 miles, and for the nine months of 1883 we reported 8,075-miles." \* \* miles

miles." \* \* \* St. Louis Hannibal & Keokuk.—An argument was made in St. Louis recently, before Judge Brewer, on exceptions filed by the bondholders' agents and the receiver of the St. Louis Hannibal & Keokuk Railroad to the allowance of elaims reported by the Master in Chancery. Most of the elaims excepted to were for services rendered prior to the appointment of the receiver, and the bondholders elaim that no payments should be made on those allowances prior to the payment of the defaulted interest on the bonds. In the report the time fixed for the period from which valid claims can arise and take priority to the elaims of the mortgagers is Oct. 1, 1883, because that was the date when default in the payment of the interest on the bonds was made. Mr. Thos. G. Case made an elaborate argument in favor of the position of the exceptors to this report, contending that if a bondholder was to lose the security turnished by a mortgage, for not foreclosing the mortto this report, contending that if a bondholder was to lose the security turnished by a mortgage, for not foreclosing the mort-gage immediately there was default in the payment of the interest, then every mortgagee would become a Shylock and a. wrecker of roads, that might with some leniency pull through. Again, it was held that if the court could make such an order as that contemplated in the payment of these intervenors, such order should have been made at the time the receiver was such order should have been made at the time the receiver was appointed, for thus the mortgagers would have had an oppor-tunity to refuse the receiver under such conditions. The Mas-ter's allowance of claims was based mainly upon the United States Supreme Court opinion in the case of Burhan vs. Bowen, rendered May 5, 1884, in which it is established that all claims arising from indebtedness for labor and material furnished a corporation after the same has defaulted the payment of inter-est on their bonds, take precedence over the claims of the bondholders and constitute a prior lien upon the property. Between \$70,000 and \$100,000 is involved in the outcome of this portion of the receivership proceedings. Texas Central.—This company has executed a general

Texas Central.—This company has executed a general mortgage to secure an issue of 6 per cent boads at the rate of \$25,000 per mile. The new bonds are to be used to retire ex-isting issues and to provide funds for extensions and im-provements of the road. The company, which is controlled by the Houston & Texas Central Co., owns 220 miles of completed road.

Texas & Pacific.—The property of the Texas & Pacific Com-pany in New York, including the books, money and securities in the company's office and in the Mercantile Trust Company, were attached this week in five suits, begun in the United States Circuit Court, to recover cash interest on Texas Pacific land grant merce bonds. It was reported that Mr. John R. Dos Passos, who won a similar suit for H. S. Marlor, caused this attachment to be made and that a large amount to the

Des Passos, who won a similar suit for H. S. Marlor, caused this attachment to be made, and that a large amount of the bonds have united in the new suit; also that an application for a receiver will probably be made by the same parties. This cash liability was brought upon the Texas & Pacific by the action of the officers in refusing to issue scrip to the holders of land grant income bonds for the two years ending June 30, 1883. The Court held that, having refused to exercise their option and issue scrip for interest, the company was responsible for interest for these two years in cash. Taledo (incinnati & St. Louis-Semtheastern Division

Tolesto Cincinnati & St. Lonis-Southeastern Division. —The meeting of bondholders in Boston to perfect an organi-zation was adjourned in order that the plan might be printed and distributed. The plan of organization, if adopted, will make the capital and debt as shown below, if the whole was to be issued, which it probably will not be.

Total 9 months..... 4,2.8.478 \$7,510,159 742.514 The *Transcript* says: "The trustees of the Union Pacific lands has above \$3,000,000 in cash on interest with trust com-panies in New York and Beston and loaned on collateral security." security.

the periods named for their redemption are: \$1,554,000 due April, 1887; \$1,208,000 due October, 1898; \$1,691,000 due April, 1880. It is stated that the high price of land grant 7s is due to the endeavor of large holders to sustain the price and force the trustee of the land grants to buy the bonds at these figures. The trustee, however, unless he can get the bonds at fair prices, will hold the money until the bonds mature.

fair prices, will hold the monoy until the bonds mature. Wahash St. Louis & Pacific.--The receivers give notice that the coupons which became due Sept. 1 on St. Louis Kan-sas City & Northern real estate bonds will be paid Oct. 20, on presentation at the National Bank of Commerce in New York. Interest due Sept. 1 on Wahash scrip certificates will also be paid Oct. 20 at the Metropolitan National Bank in New York. At St. Louis, Mo., Oct. 13, in the United States Circuit Court, E. T. Allen, special master, filed two reports. In the first matter the master recommends the purchase of fourteen new freight locomotives of the Bahlwin locomotive works, at a price not to exceed \$\$,290 each: also, eleven similar locomotives from the New York locomotive works, at \$\$,250 each. It is further recom-mended that the receivers be authorized to purchase forty box exceed \$5,200 each: also, eleven similar locomotives from the New York locomotive works, at \$8,250 each. It is further recom-mended that the receivers be authorized to purchase forty box cars, forty stock ears and twenty coal ears at the following prices, respectively: \$463 20, \$421 30 and \$339 40 each. With regard to the payment to be made in these matters, it is rec-ommended that a lot of old rolling stock besold and the balance be paid by receivers' certificales. In regard to the Havana bonds interest, it is recommended that the receivers be au-thorized to pay the interest which accrued on July 1, 1884, on \$340,900 of the first mortgage preferred 1 onds issued by the Champaign Havana & Western Railroad Company, and also the interest on such of the Havana division bonds as have been exchanged for the preferred bonds of the Champaign Havana & Western Company. It states that though, owing to failures of crops, this 131 miles of road has been unproductive to the Wabash for two years past, yet it is an important factor to the system, to which it should contribute much business this vear of good harvest. It is also of use as being on the direct line to Chicago, and as giving a double track, with easy grades for forty miles, which will be of great service in the press of work now expected. Western Union Telegraph Co.—An appendix to the

Cedar Falls & Minn. 18 ... 3.000 j United States 4 per cent. 1,700 Wisconsin Central.—The report of the Wisconsin Central Railroad for the year ending June 30, 1884, was filed with the Railroad Commissioner by the trustees, J. A. Stewart and E. H. Abbot. The total income was \$1,476,821, against \$1,272,-195 by the last report. Operating expenses, including ear service, \$1,071,428, last report \$992,492: excess of income over operating expenses, \$405,392, against \$279,703 last year. License fee and taxes, \$34,038, against \$9,814 last year. Rentals. \$201,016: last year, \$118,358. Interest, \$150,500: last year, \$94,500. Total of taxes, rentals and interest is \$385,585. leaving the balance for the year \$19,807. which last years was leaving the balance for the year \$19,807, which last year was \$57,029.

-Messrs, Drexel, Morgan & Co. of this city and Drexel & Co. of Philadelphia, in connection with J. S. Morgan & Co. of London, have brought out for popular subscription \$6,5(0,000) 5 per cent debenture bonds of the New York Central & Hudson River Railroad Company. These bonds are part of an issue of \$10,000,000, and the resolutions of the directors authorizing the same limits the amount of the issue to that sum. \$3,500,000 being specially reserved to retire \$1,350,000 Hudson River Railroad second mortgage bonds due in June, 1885, and \$2,150,-000 New York Central Railroad bonds due in December, 1887. Between 1871 and 1883 the company expended \$53,691,407 for 000 New York Central Railroad bonds due in December, 1887. Between 1871 and 1883 the company expended \$53,691,407 for construction and the purchase of stocks and honds of connecting lines, while the bonded debt was increased only \$33,552,918. The excess of expenditure of \$20,133,494 was partly liquidated by the application of \$8,297,830 surplus earnings over the amount paid to stockholders, and \$5,252,570 income from other sources. The difference of \$6,500,000 is capitalized in these debenture bonds now offered for subscription as above. —The Homestake Gold Mining Company of Dakota has declared its seventy-fourth dividend of \$25,000, parable at the company's office, San Francisco, or at the Transfer Agency Messrs. Lounsbery & Co., 15 Broad Street, New York.

## The Commercial Times.

#### COMMERCIAL EPITOME.

FRIDAY NIGHT, Oct. 17, 1884. The Presidential canvass has become much emblitered, and for the coming two weeks will occupy a large share of attention from all classes of our people. Both parties claim the advantage in the result of the Ohio election. The weather has become more seasonable in respect to temperature, but all the const States, from Texas to Maine, complain of drought, which in some sections is quite serious. Trade is dull and speculation fitful and feverish, but an improvement in both particulars may be expected when the Presidential contest shall have been decided.

The speculation in lard futures has at times been brisk, but at variable and unsettled values, most of the improvement of the previous week having been lost, there having been some decline to-day, and the close was at 7:55c. for October, 7:43c. for November, 7.38c. for December, 7.13c. for January and 7.49c. 15 February. Spot lard has been much less active, and was weak to-day at 7.50c. for prime city and 7.60@7.65c. for prime Western, with refined for the Continent quoted at 7.95@8c. Pork is quiet at \$17 for mess. Bacon continues nominal. Cut meata were selling rather more freely; pickled bellies, 9@9¼c.; hams, 12½@12½c.; shoulders, 7@7½c. Beef very quiet. Beef hams are firmer at \$20@\$21 per bbl. Tallow has become dull at 61/2c. Stearine quoted at 81/2c. and oleomargarine 81/2c. Butter is quiet-creamery, 23@32c. Cheese steady-State factory, 81/2@123/4c. Eggs are decidedly higher at 23@23c. per dozen for prime to choice. The reports of pork packing at the West continue to show a material reduction from last year, but the exports are also much smaller,

Rio coffee has been quiet at 101/c. for fair cargoes; options have been dull and slightly lower for the later deliveries; October closed at 8.50@8.55c. ; November, 8.25@8.30c. ; December, 8:30@8:35c.; January at 8:35@8:40c.; February at 8:35@8:45c., bid and asked; mild grades quiet and rather Tea has been dull at lower prices; the large depressed. auction on Wednesday showed a further decline. Foreign fruits have been steady and moderately active. Rice has been in fair demand and steady. Raw sugar has been very active, and is quoted at 5c. for fair refining Muscovado and 59-16c. for 96 deg. test centrifugal; yesterday the sales here were nearly 10,000 hogsheads; refined was quiet and declining until two days ago, when the market advanced, and granulated closed at 6%@6 5-16c.

In Kertucky tobacco little of importance has been done on the spot, but lugs have remained stendy at 7@8c., and leaf 81/2@101/4c. Seed leaf also has been quiet, but no particular changes have taken place, and no interesting features have transpired. The sales embrace 1,130 cases, including 250 cases 1883 crop, Pensylvania, 83/@11c.; 100 cases 1882 crop, do., private terms; 280 cases 1881 crop, do., 5@11c.; 200 cases 1º83 crop, Wisconsin Havana, 16@35c.; 200 cases 18º3 crop.

1283 crop, Wisconsin Havana, 16@35c.; 200 cases 1883 crop. New England, including Havana seed, 12@34c, and 100 cases 1883 crop. State Havana, private terms: slso 400 bales Havana, 80c @\$1 15, and 300 bales Sumstra, \$1 20@\$1 60. While naval stores have been dull both for export and con-sumption, and the speculation also very slow, holders have managed to maintain prices in pretty steady shape, and to-day spirils turpentine was sold on the spot at 31c.; common to good strained rosins remain at \$1 25@\$1 30. The hop mar-ket looks a trifle brighter, and fancy State 84s are held at 23c.; the bulk of the business has been in grades creting 20@ 21@22c. In metals nothing worth special mention has occurred, and recent figures are unaltered. Word is flat and dull for all grades except Ohio flexces, which find a fair out-let at firm figures. Oils are essentially unchanged. Crude petroleum certificates have been brought out under the influence

The second seco

#### COTTON.

FRIDAY, P. M., October 17, 1384. THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening (Oct. 17), the total receipts have reached 242,239 bales, against 205,813 bales last week, 168,721 bales tho previous week and 118,463 bales three weeks since; making the total receipts since the 1st of September, 1884, 373,248 bales, against 971,141 bales for the same period of 1885, showing a decrease since September 1, 1884, of 97,893 bales.

The exports for the week ending this evening reach a total of 117,515 bales, of which 67,959 were to Great Britain, 1,250 to France and 48,313 to the rest of the Continent, while the stocks as made up this evening are now 453,141 bales. Below are the exports for the week and since September 1, 1884.

The speculation in cotton for future delivery at this market has been only moderately active for the week under review, and prices show a considerable decline. The Bureau report, when analyzed, led to some augmentation of crop estimates. Besides this the weather has been generally favorable to the work of gathering the crop, while there has been some restriction of consumption by New England spinners. These facts greatly weakened confidence in the speculation for the rise, so that the few sellers found no buyers except at a reduction. There were considerable declines on Saturday and Monday. On Tuesday there was a partial recovery, but as it was apparent it had no other basis than a temporary demand to cover contracts, there was on Wednesday a fresh decline of 6@8 points. Yesterday the stoppage of mills at Fall River, to-gether with a sharp decline at Liverpool, caused a further reduction in values to the lowest figures which have thus far been reached this season; but the close was steadier. To-day with frost accounts from the Carolinas and a recovery in the with frost accounts from the Carolinas and a recovery in the Liverpool market, the opening was quite buoyant, but an un-settled feeling followed, the highest figures of the day were not sustained, and as compared with last Friday the close was at a decline of 19@21 points. Cotton on the spot has been with-out business, except in a limited way for home consumption. Quotations were on Wednesday reduced 1-16c. To-day the market was quiet and unchanged on the basis of 9 15-16c. for middling uplands. The total sales for forward delivery for the week are 503,400 bales. For immediate delivery the total sales foot up this week 2,896 bales, including — for export, 2,891 for consumption. 5 for speculation and — in transit. Of the above, 135 bales were to arrive. The following are the official quotations for each day of the past week

each day of the past week

0 9. THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph, is as follows. The Continental stocks, as well as those for Great Britain and the afloat, are this week's returns, and consequently all the European figures are brought down to Thursday evening. But to make the totals the complete figures for to-night (Oct. 17), we add the item of exports from the United States, including the time structure for the

RECEIPTS FROM THE PLANTATIONS .- The following table is **RECEIPTS FROM THE PLANTATIONS.**—The following table is prepared for the purpose of indicating the actual movement each week from the plantations. Receipts at the outports are some-times misleading, as they are made up more largely one year than another at the expense of the interior stocks. We reach, therefore, a safer conclusion through a comparative statement like the following. In reply to frequent inquiries we will add that these figures, of course, do not include overland receipts or Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports. which finally reaches the market through the outports.

RECEIPTS FROM PLANTATIONS.

| 11    | Week Receipts at the Ports. |   |         | St'k at 1 | nterior | Towns. | Rec'pts from Plant'n |        |         |         |         |

The above statement shows-1. That the total receipts from

The above statement shows—1. That the total fecelipts from the plantations since September 1, 1884, were 948,687 bales; in 1883 were 1,124,955 bales; in 1882 were 1,033,859 bales. 2.—That, although the receipts at the outports the past week were 242,289 bales, the actual movement from plantations was 266,835 bales, the balance going to increase the stocks at the interior towns. Last year the receipts from the plantations for the same week were 295,331 bales and for 1882 they were 271,692 bales. 271,693 bales.

AMOUNT OF COTTON IN SIGHT OCT. 17.—In the table below we give the receipts from plantations in another form, and add to them the net overland movement to Oct. 1, and also the takings by Southern spinners to the same date, so as to give substantially the amount of cotton now in sight.

|  | 1884.            | 1883.     | 1882.     | 1881.     |
|--|------------------|-----------|-----------|-----------|
| Receipts at the ports to Oct. 17                           | 873,248          | 971,141   | 925,30    | 988 174   |
| Interior stocks on Oct. 17 in<br>excess of September 1     | 75,439           | 153,814   | 108,554   | 183,360   |
| Tot. receipts from plantat'ns                              |                  | 1,124 935 |           |           |
| Net overlaud to October 1<br>Southern consumpt'n to Oct. 1 | 12,391<br>28,000 |           |           |           |
| Total in sight October 17                                  | 989,078          | 1,174,190 | 1,174.190 | 1,222.430 |
| Touthour oninnousl takings to                              |                  |           |           |           |

It will be seen by the above that the decrease in amount in sight to-night, as compared with last year, is 135,1 2 bales, the decrease as compared with 1852 is 85,121 bales, and with 1881, 233,3 2 bales.

WEATHER REPORTS BY TELEGRAPH.-The weather in general has been all that could be desired for picking purpo es during the week. The temperature has been lower than during previous weeks and at a few points light frosts are reported, but no actual harm done.

Galveston, Texas.-We have had one shower during the week, the rainfall reaching twenty-eight hundredths of an inch. The thermometer has averaged 76, the highest being 85 and the lowest 63.

Indianola, lexas .- There has been no rain during the week and picking progresses well. The thermometer has averaged 77, ranging from 63 to 84.

Palestine, Texas .- We have had no rain all the week. Good progress is being made with picking. The thermometer has rarged from 49 to 85, averaging 69.

Huntsville, Texas .- No rain all the week. Picking is progressing finely. Average thermometer 71, highest 88, lowest 49.

Luling, Texas.-We have had no rain during the week. Picking progress-s very satisfactorily. The thermometer has averaged 73, the highest being 88 and the lowest 57.

Brenham, Texas.-It has rained on one day of the week, Brenham, Texas.—It has rained on one day of the week, the rainfall reaching twenty-five hundredths of an inch. Good headway is being made with picking. The thermometer has averaged 75, ranging from 62 to 86. Bellon, Texas.—We have had no rain during the week. The thermometer has ranged from 51 to 89, averaging 73. Weatherford, Texas.—There has been no rain this week, and picking has progressed very well. Average thermometer 69, highest 88 and lowest 43. Dallas, Texas.—No rain all the week. Crop accounts are more favorable, and picking makes excellent progress. The thermometer has averaged 72, the highest being 95 and the lowest 48.

lowest 48

lowest 48. Columbia, Texas.—We have had no rain during the week. Good progress is being made in picking. The thermometer has averaged 73, ranging from 55 to 85. New Orleans, Louisiana.—We have had no rain during the week. The thermometer has averaged 77. Shreveport, Louisiana.—We have had no rain during the week. The thermometer has ranged from 54 to 86, aver-

aging 67.

aging 67. Vicksburg, Mississippi.—It has rained on one day of the week, the rainfall reaching three hundredths of an inch; other-wise the weather has been cool and dry. The river is steadily ising. The thermometer has ranged from 54 to 87. Columbus, Mississippi.—We have had no rain all the week. The thermometer has averaged 72, ranging from 48 to 90. Little Rock, Arkansas.—We have had a week of clear, pleasant weather and cotton is coming in freely. Average thermometer 64, highest 80, lowest 51. Fort Smith, Arkansas.—We have had no rain since last report (three weeks), but heavy dews have prevailed. Cotton is coming in freely; our staple is fine—the best for a number of years. of years.

*Helena, Arkansas.*—The weather has been cold and dry all the week. The weather is splendid, and picking progresses well. The thermometer has averaged 66, the highest being

well. The thermometer has averaged 66, the highest being 80 and the lowest 54. Memphis, Tennessee.—It has rained on one day of the week, the rainfall being inappreciable. We have had spendid weather all the week for gathering the staple; picking and marketing are consequently progressing finely. The ther-mometer has averaged 65:5, ranging from 52 to 79:5. Nashville, Tennessee.—We have bad no rain all the week. The thermometer has ranged from 43 to 82, averaging 66. Mobile, Alabama.—Telegram not received. Montgomery, Alabama.—The days have been warm but the nights have been cold, with no rain. There has been no appreciable rain in three months, and suffering consequently continues. Picking and marketing progresses very well. The thermometer has averaged 57, the highest being 88 and the lowest 48.

thermometer has averaged 57, the highest being 88 and the lowest 48. Selma, Alabama.—The days have been warm but the nights cold during the week, with no rain. Picking is making excel-lent progress, and cotton is being marketed freely. The ther-mometer has averaged 70, ranging from 47 to 83. Auburn, Alabam 1.—The days have been warm, but the nights have been cool during the week, with no rain. The thermometer has ranged from 48 to 86, averaging 69. Modison, Florida.—Telegram not received. Macon, Georgia.—We have had one light snower during the week. The thermometer has averaged 70, the highest being 90 and the lowest 40. Columbus, Georgia.—There has been no rain all the week.

90 and the lowest 40. Columbus, Georgia.—There has been no rain all the week. We had frost on Thursd up night. The thermometer has aver-aged 70, ranging from 44 to 85. Sax a unah, creorgia.—It has rained on three days, and the remainder of the week has been pleasant. The rainfall reached two inches and four hundredths. Nights have been cool. The thermometer has ranged from 46 to 82, averaging co 69.

Augusta, Georgia.—It has rained lightly on one day, and the remainder of the week has been pleasant. The rainfall reached seventy-one hundredths of an inch. At the close of the week there has been a decided change, the weather be-coming cooler with a light frost on the morning of the six-teenth—first of the season. Average thermometer 69, highest 85 and lowest 43.

85 and lowest 43. At/anta, Georgia.—Telegram not received. Charleston, South Carolina—It has rained on three days of the week, the rainfall reaching twenty-three hundredths of an inch. Average thermometer 67, highest 82 and lowest 51. Columbia, South Carolina.—We have had no rain all the week, and picking progresses finely. There has been a frost, but not a killing frost. The thermometer has ranged from 45 to 87, averaging 68. Stateburg. South Caroling.—The weather was warm and

to 87, averaging 68. Stateburg, South Carolina.—The weather was warm and dry during the early part of the week, but during the latter portion it has been cold and dry, with a light frost. The ther-mometer has averaged 65, the highest being 80 and the lowest 40. Wilson, North Carolina.—The weather has been cold and dry all the week, with a frost, but not killing. About two-thirds of the crop has been picked and is being marketed freely. Average thermometer 65, highest 82 and lowest 38,

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 3 o'clock October 16, 1884, and October 18, 1883.

|             | Oct. 1             | 0, '81,                           | Oct. 18, 148.                   |                            |  |

New Orleans reported below high-water mark of 1871 until Sept. 9, 1874, when the zero of gauge was changed to high-water mark of April 15 and 16, 1874, which is 6-10ths of a foot above 1871, or 16 feet above low-water mark at that point.

INDIA COTTON MOVEMENT FROM ALL PORTS, - We have re-arranged our India service so us to make our reports more detailed and at the same time more accurate. We had found detailed and at the same time more accurate. We had found it impossible to keep out of our figures, as cabled to us for the ports other than Bombay, cargoes which proved only to be shipments from one India port to another. The plan now followed relieves us from the danger of this inaccuracy and keeps the totals correct. We first give the Bombay statement for the week and year, bringing the figures down to Oct. 16.

BOMBAY RECEIPTS AND SHIPMENTS FOR FOUR YEARS

|            | Shipments this week. |       |        |                  | ents anne          | Receipts.             |               |                |
|------------|----------------------|-------|--------|------------------|--------------------|-----------------------|---------------|----------------|
| Year       | Great<br>Erit'n.     |       | Totai. | Great<br>Britain | Continent.         | Total.                | This<br>Week. | Since<br>Jan.1 |
| 1884       | 2,000                | 1,000 | 3,000  | 500,000          | 631,000<br>803,000 | 1,131,000<br>1,25 000 | 6,000         | 1,561.00       |
| 882<br>881 | 2,000                |       | 2,000  | 739,000          | 608,000            | 1,367,000 862,000     | 6.000         | 1.633.00       |

According to the foregoing, Bombay appears to show a *decrease* compared with last year in the week's receipts of 5,000 bales, and a *decrease* in shipments of 1,000 bales, and the shipments since January 1 show a *decrease* of 124,000 bales. The movement at Calcutta, Madras and other India ports for the last reportel week and since the 1st of January, for two years, has been as follows. "Other ports" cover Ceylon, Putiescin, Kurrechee and Coconada. Tuticorin, Kurrachee and Coconada.

|  | Shipme            | nts for th      | e week.        | Shipments since January 1. |                  |                          |  |  |
|--|-------------------|-----------------|----------------|----------------------------|------------------|--------------------------|--|--|
| -                                      | Great<br>Britain. | Conti-<br>nent. | Totat.         | Greal<br>Britain.          | Oontinent.       | Total.                   |  |  |
| Caloutta-<br>1884<br>1883              | 500               |                 |                | 82,500<br>86,200           | 42,700<br>10,500 | 125,200<br>97,000        |  |  |

This last statement affords a very interesting comparison of the total movement for the three years at all India ports.

ALEXANDRIA RECEIPTS AND SHIPMENTS.—Through arrange-ments we have made with Messrs. Davies, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years.

| Alexandria, Egypt,<br>October 15.                  | 1884.                        | 1883.                          | 1882                        |  |  |
|--|------------------------------|--------------------------------|-----------------------------|--|--|
| Receipts (cantars*)-<br>This week<br>Since Sept. 1 | 100,300<br>163,000           | 80,000<br>182,000              | 2,700<br>6,700              |  |  |
|  | This Since<br>week. Sept. 1. | This Since<br>week. Sept. 1.   | This Since<br>week. Sept. 1 |  |  |

NEW YORK COTTON EXCHANGE.-For a length of time it has been a matter of complaint that losses are frequently incurred by re-classification of cotton delivered on contracts, and some large speculators have ceased, on that account, to operate on the Exchange. The desire has been often expressed that cer-

large speculators have ceased, on that account, to operate on the Exchange. The desire has been often expressed that cer-tificates regarding the grades should be issued, to pass from hand to hand. However, such a measure has hilherto met with opposition, because it was thought impracticable. A committee appointed by the Board of Managera has now devised a plan which it is hoped will meet all objections. It has been laid before the members, and is to be discussed at a meeting of the members on Monday, the 20th of this month. The plan proposes that an inspector be appointed, who shall be a member of the Exchange, and Sceretary of the Warchonse and Delivery Committee. Subject to the approval of the Board, he shall uppoint one or more assistant inspectors. It is further proposed to appoint a committee for the classi-fication of cotton, not exceeding five in number, members of the Exchange and recognized experts in the classification of cotton, three of whom shall constitute a quorum. It shall be the duty of the inspector carefully to inspect, sample in duplicate or triplicate, if desired, to class and to class-mark the same, placing each set of samples according to grade in separate papers, on which shall be placed the marks corresponding to those upon the bales; they are also to care-fully weigh according to class marks, and deliver all sets of samples with the weighmaster's return to the classification committee, and a duplicate and triplicate of the weighmaster's return to the owner of the cotton. When the classification committee shall have returned to the inspector the samples, elass marks, grade, weight and number of bales of each grade. It shall be the duty of the classification committee to com-pare the set of samples, and if alike to select one set for classi-fication. They shall class each mark as so many bales of a specified grade. After having classed all the marks, they shall return all sets of samples to the inspector, with their certificate in duplicate of the grade of each mark. Their decision

in duplicate of the grade of each mark. Their decision as to grade shall be final. The warehouseman's receipt, as described above, shall be a good delivery in fulfillment of all contracts for delivery. Two pounds per bale are to be allowed for loss in weight for Sep-tember and October, and for each succeeding month one-half of a pound per bale. The charge for inspecting, sampling, classing and grading shall be 25c, per bale, to be paid by the party by whom the inspection is ordered. The inspector shall collect said charge, and 5c, per bale shall be paid by him for sampling and inspecting, 10c, per bale for classing the same, and 10c, per bale shall be returned to the Treasurer of the Exchange. Each receiver or shipper of cotton on contract shall, upon removing same from warehouse, pay to the Exchange a fee of \$5-per contract. The Cotton Exchange shall be responsible for false packed cotton to the last receiver or shipper, provided it has been inspected by the inspector, but all liability shall cease 90 days after it has been shipped from the port of New York. Settlement shall be made for any variation from weight specified on the face of the contract not exceeding 1,000 pounds, at the value of spot cotton on the day of delivery. Should the variation be more than 1,000 pounds, and not more than 3,000 pounds, then settlement shall be made for the whole difference, if an excess, at 1/c, below, and if a deficiency, 1/c, above, the value of spot cetton on delivery. No variation greater than 3,000 pounds shall be allowed. delivery. allowed.

AGRICULTURAL DEPARTMENT'S REPORT.-Below will be found the full text of the Agricultural Department's report on cotton for Oct. 1.

for Oct. 1. The, October returns of cotion indicate a reduction of nearly eight points in the average of condition, from 82.5 to 74.7, as the result of the continued drouth in arresting development and destroying the vitality of the plants. The prospect of a top crop is reduced to a minimum. The drough has been general and its effect is manifest in every State. Of ten auccessive crops only two have averaged lower to condition in Oorder. These wore 1851 and 1853, when the averages were 66 and (8 respectively. The average was 88 in the great crop year 1882. The Bate averages are as follows: Virginis, 81; North Carolina, 74; South Carolina, 80; Georgia, 79; Florida, 81; Alabama, 71; Masissippi, 76; Lonislaus, 77; Texas, 62; Arkansas, 76; Tennessee, 85. The returns of local estimates of the yield per acre, in fractions of bales indicate an average rate of yield of thirty-six hundredths of a bale per acre.

It will be noticed that notwithstanding these very unfavorable figures of condition (so bad that "cf ten successive crops only two have averaged lower in condition in October") the yield promised on October 1 a crop averaging '36 of a bale per

acre, or say 6,273,353 bales.

That the reader may have for comparison the condition, according to the Agricultural Department, for October 1 of previous years, we give the following, collated from its roporte

| reports.   |   |       |   |                                 |                   |  |   |                         |  |   |  |  |

Taking the above figures for October, and adding them to those for the previous months, we have the following comparison between this year and last year:

|   | 1884.  |  |  |  |   |  | 1883.  |  |  |  |   |  |
|---|--|--|--|--|---|--|--|--|--|--|---|--|
| States.   | June.  | July.  | Aug.   | Sept.  | Oct.  | d ver.   | June.  | July.  | Aug.   | Sept.  | Oet.  | Aper.  |
| N.Car'lina<br>S. Car'lina<br>Georgia<br>Florida<br>Alabama .<br>Miss' sippi<br>Louisiana<br>Texas<br>Arkansas.<br>Tennessee | 95<br>97<br>96<br>99<br>97<br>97<br>97<br>97<br>97<br>97<br>97<br>97<br>97<br>97<br>97<br>97 | 87<br>93<br>90<br>99<br>93<br>83<br>74<br>86<br>89 | 87<br>91<br>90<br>97<br>92<br>85<br>85<br>79<br>85<br>85<br>79<br>87<br>92 | 90<br>87<br>86<br>88<br>84<br>83<br>84<br>72<br>83<br>90 | $74 \\ 80 \\ 79 \\ 84 \\ 76 \\ 77 \\ 62 \\ 70 \\ 85 \\ 85 \\ 85 \\ 85 \\ 85 \\ 85 \\ 85 \\ 8$ | 86.6<br>99.2<br>93.4<br>87.2<br>93.4<br>87.6<br>40.4<br>83.6 | 81<br>85<br>94<br>87<br>86<br>91<br>89<br>87<br>75 | 91<br>93<br>95<br>87<br>95<br>89<br>91<br>93<br>84<br>88 | 87<br>80<br>78<br>93<br>83<br>85<br>85<br>85<br>85<br>83<br>90 | 73<br>70<br>93<br>75<br>75<br>75<br>67<br>89 | $\begin{array}{c} 09\\ 67\\ 60\\ 82\\ 67\\ 65\\ 65\\ 71\\ 75 \end{array}$ | $\begin{array}{c} 81.2\\ 75.6\\ 78.5\\ 91.4\\ 80.0\\ 80.4\\ 82.4\\ 80.2\\ 81.0\\ 84.0\\ 84.0\end{array}$ |
| Avarago   | 87   | 86   | 87   | 82.5   | 74.7  | 83.4   | 86   | 90   | 84   | 74   | 68  | 80.1   |

From the above it will be seen that the averages for the five months, with the exception of Louisiana and Texas, are above similar averages for same months of last year. But for the month of October, Texas is the only State with a lower average now, the others being in general much above 1883.

GEORGIA AGRICULTURAL REPORT FOR OCTOBER 1.-The report of the Commissioner of Agriculture on cotton October 1 was issued on the 11th inst., and is as follows :

issued on the 11th inst., and is as follows: "The cotton crop of North Georgia in comparison with an average crap, is reported at c.G. MiddleGeorgia 65 and Southweat Geor, ia 66, East Georgia of, Southeast Georgia 73, and the average for the State 65. There has been a remarkable deterioration in the condition of the crop, caused by rust and shedding since the last month's report. The reports from North and Middle Georgia fall below those of last month 18 points, Southwest Georgia 16 points, East Georgia 10 polits and Southeast Georgia 4 points. Very little damage has been done by worms. The crop is very considerably below the average, bat will compare favorably with that of last year. The seasons have been unfavorable throughout the year for the growth of the erop in most parts of the State. The cold spring, which caused a late start for the plant, was followed by exces-sive wet weather, and then by a general drought. The conditions developed rust to an unusual extent, and caused he shedding of later runt. The state of the weather for gathering the crops up to the time the reports were made has been unusually favorable, and the condition and quality of the line exceptionally good."

JUTE BUTTS, BAGGING, &C .- The market for bagging has continued quite active, and prices are firmly held. There is nothing offering except at full figures, sellers not being willing to accept the prices offered for round parcels. There is not to accept the prices offered for round parcels. There is not much doing in this way, but the orders for small lots are coming in quite freely. There have been sales of several thousand rolls within the range, and the market closes at 9%for 1% lbs., 10%c. for 1% lbs., 11c for 2 lbs. and 11%c. for standard grades, an allowance of 2%@5 per cent being made on quantities. Batts are also meeting with some demand, both on spot and to arrive, and the market is steady. For paper grades there is something being done on the basis of 1%@2c., while bagging qualities are quoted at 2%@2\% c., with sales of 3,000 bales, both kinds, at these figures.

COMPARATIVE PORT RECEIPTS AND DAILY CROP MOVEMENT. -A comparison of the port movement by weeks is not accurate, as the weeks in different years do not end on the same day of the month. We have consequently added to our other standing tables a daily and monthly statement, that the reader may constantly have before him the data for seeing the exact relative movement for the years named. The movement during September, 1884, and previous years, has been as follows.

| Honthly                |                         | Year Beginning September 1. |         |         |         |         |  |  |  |  |  |  |  |
|------------------------|-------------------------|-----------------------------|---------|---------|---------|---------|--|--|--|--|--|--|--|
| Receipts.              | 1884                    | 1883.                       | 1882.   | 1881.   | 1880.   | 1879.   |  |  |  |  |  |  |  |
| Sept'mb'i<br>Pere'tage | 345,443<br>of tot. port |                             | 326,656 | 429,777 | 458,478 | 333,643 |  |  |  |  |  |  |  |
| receipts               | 8ept. 30                | . 07.09                     | 05.13   | 09 10   | 07.80   | C6 67   |  |  |  |  |  |  |  |

This statement shows that up to Sept. 30 the receipts at the ports this year were 1,638 bales more than in 1883 and 18,789 bales more than at the same time in 1882. By adding to the above totals to September 30 the daily receipts since that time, we shall be able to reach an exact comparison of the movement for the different years.

|      |       | 1884.                    | 1883.   | 1832.   | 1891.   | 1880.   | 1879.   |

This statement shows that the receipts since Sept. 1 up to to-night are now 2,459 bales less than they were to the same day of the month in 1883 and 69,644 bales more than they were to the same day of the month in 1882. We add to the table the percentages of total port receipts which had been received to October 17 in each of the years named.

SHIPPING NEWS.—The exports of cotton from the United States the past week, as per *latest mail* returns, have reached 106,747 bales. So far as the Southern ports are concerned, these are the same exports reported by telegraph, and published in the CHRONICLE last Friday. With regard to New York we include the manifests of all vessels cleared up to Thursday night of this week.

Below we add the clearances this week of vessels carrying cotton from United States ports, bringing our data down to the latest dates:

DEFIANCE, steamer, of the Clyde Line, was burned to the water's edge at Newberne, N. C., on the moraling of Oct. 15. Five hundred bales of cotton aboard were also destroyed. Loss on cotton \$25,000 and on the steamer \$25,000.
 MUNTINGDON, steamer (Br.), Whithurn, from New Orleans, October 5, for Havre, arrived of Charleston bar October 11, with piston rod

troken The di-abled portions of the machinery were taken to Charleston October 12, for repairs, and the steamer would have

Charleston Octobor 12, for reputrs, and the steamer would have quick despatch.
NEV to t, steamer (Br.), from New York. October 9, for Liverpool, was oft Queenstown with her eargn on fire October 17. The eargo had been on fire since Wednesslay, and it is supposed that it originated from spontaneous combustion. A tender from the Nevada went to Queenstown and returned to the steamer with gaugs of inborers to inclusion the flames.
STRATHEDEN, steamer (Br.), at Savannah, loading for Reval. A fire was discovered October 11 in the earge of steamally firstheden, which was extinguished with comparatively slight damage.

Cotton freights the past week have been as follows:

## BREADSTUFFS.

FRIDAY, P. M., October 17, 1994.

Flour has been only moderately active at the best, and generally has met with a very light demand. The receipts. have been large, and this fact, together with the slowness of trade, has had a more or less depressing effect on prices.

Wheat has been fairly active on the spot at declining prices. The export trade in red wheat has reached a very fair aggregate, quite a little ungraded wheat being taken. Business in spring and white has been restricted by a small supply. The speculative trading has been rather smaller of late. The foreign markets have been depressed, as also those at the West. The crop movement has been more liberal. To-day the market opened 16c. to %c. lower.

Indian corn for October has advanced, owing to a demand to cover contracts both here and at the West. The receipts have been small here, and on one day, Indeed, there were none at all, which is an unusual circumstance. The later options have declined, owing partly to the favorable crop prospects and partly to the depression in wheat. The Chicago clique, it is said, has shown no disposition to check the decline, while others attribute the fall in prices to manipulations by the bulls in order to shake out weak holders. There has been very little business for export here by reason of the smallness of the supply not only of mixed but of white and yellow, which have been to a great extent nominal in the absence of any business of importance. To-day the market was dull, and 1/2 to 1c. lower.

Oats have been quiet at a decline. There is little interest in this cereal just now. Not only the trade on the spot, but the transactions in futures are comparatively insignificant.

AGRICULTURAL BUREAU REPORT FOR OCTOBER.-The following is the Agricultural Bureau report of the condition of crops in this country October 1:

CORN.

CORN. The Department roports that the October returns of corn average hyber for condition than in the past five years, but not so blaw as ia any of the remarkable earn years from 1875 to 1879, inclusive. The general average is 93, which is very nearly au average of an varies of tea years, number 70,000,000 acres. The region between the Mississippi and the Rocky Mountain slopes again presents the bighest figures, which in every state rise a little above the normal standard of fail condition. No State east of the Mississippi returns condition us high as 100. The lowost figures are 73 in West Virgiola; Ohlo, 74; Louisiana, 74; Fexas, 95; South Carolina, 83. The reduction was omused by drouth. There is complaint of drouth in the Ohlo Valley and in the Atlantic and Guif states, but not sufficiently severe to rodaes aeriously the yield. They well diled. Very little logicy has been done by frosts. There was frost in Vermont on the 25th of Aucrist and has everal border States about they well diled. Very little logicy has been done by frosts. There was frost in Vermont on the 25th of Aucrist and has everal border States about they ethnet bugs and other inseeds bas been light. WIEAT.

#### WHEAT.

WHEAT. The wheat crop will exceed that of last year by about 100,000,000 bushels. Threading is slow and late, with results thus far constraining the indications of former reports. The yield per nere will average about thirteen and a third bashels. The quality of the present wheat crop is generally very good, especially in the Eastern and Middle States, on the western alope of the Alleghenles, Michigan, Wisconsin and Mionesota. Some depreciation in quality is noted in Indiane. Illinois, Iowa, Missouri-and Kansas. The average for the entire breadth is 90.

RTE. The indicated yield of rye is about twelve bushels per nere. The qual ity is superior.

#### OATS.

The yield of oats is a little above average, yielding about twenty-seven bushels per acre and making a crop approximating 570,000,000 hushels, of good quality.

#### BARLEY

The barley crop makes a yield of usarly tweaty-three hushels per acre, and a product exceeding 50,000,000 bushels, of average quality. The condition of buckwheat averages 57, indicating a crop slightly under sa average.

#### POTATOES.

The condition of the potato crop is represented by S3, which is five points lower than in October of last year. It is two points lower than in 1879-1882, and the same as in 1820.

#### THE DRY GOODS TRADE.

FRIDAY, P. M., October 17, 1834.

<sup>'</sup>he market for dry goods was dull and featureless the past week, operations having doubtless been checked to some extent by the growing political excitement. The weather was somewhat cooler, and more favorable for the distribution of seasonable fabrics, but stocks in the hands of jobbers and retailers have not yet been reduced to the replenishing point. There was, consequently, a very light demand at first hands, and the jobbing trade was of strictly moderate proportions. Men's-wear wootens have met with more attention from the clothing trade, but their purchases were conspicuously small compared with the same period in former years. The depression lately existing in woolen goods has caused some failures; and smong others Messrs. James Legg & Co., Mapleville Mills, Burrillville, R. L, failed during the week with estimated liabilities of \$300,000.

DOMESTIC COTTON GOODS.—The exports of domestic goods for the week were 2,363 packagos, including 1,636 to Great Britain. 203 to Argentine Republic, 170 to U. S. of Colombia, 116 to Brazil, &. Some additional and good-sized lots of brown cottons were sold to exporters, but the demand by the home trade was quite light. Bleached and colored cottons continued quiet, and wide sheetings and cotton fluorels were in limited demand at unchanged prices. Print cloths were in fair demand, and steady at 3% of 64x644 and 23% of 56x603, Fall River manufacturers having determined to shut down about 800.000 spindles next week in order to lessen the supply. Prints ruled very quiet, and ginghams were almost neglected in first hands. White goods were more sought after by large jobbers, and some liberal orders were placed for future delivery. PAINT CLOTHS.-The following shows the course of the market during the week:

Transferable Nollces-Saturday, S'15; Mouday, S'15; Tussday, S'29; Wednesday, S'15; Thursday, S'15; Friday, S'15.

DOMESTIC WOOLEN GOODS.—There was a considerable force of Western clothiers in the market, and there was, consequently, a slight improvement in the demand for spring casimeres, suitings, &c.; but buyers were exceedingly cautions in their selections. Worstel coatings continued to move in fair quantities, and leading makes are pretty well sold up. Ludies' cloths, tricots, cloakings and Jersey cloths were in light and irregular demand, and a limited business was done in satinets and Kentucky jeans. Flannels and blankets ruled quiet, and hosiery, knit underwear and fancy knit woolens were lightly dealt in by package buyers. Plaid wool sackings and snitlngs continued in fair request, but worsted dress goods were mostly quiet in first hands, and sluggish with jobbers.

FOREIGN DAY GOODS.—The demand for imported fabrics was very slow, and almost wholly restricted to small parcels of specialties. Dress goods ruled quiet and silks continued dull, but there was a steady call for velvets, plushes and velveteens. Men's-wear woolens were a trille more active, but linen and white goods, laces, embroideries and hosiery were out little wanted. The auction rooms were fairly supplied, with silks, dress goods, cloaks, &c., but the prices obtained were in most cases very low.

#### Importations of Dry Goods.

The importations of dry goods at this port for the week ending Oct. 16, 1884, and since January 1, and the same facts for the corresponding periods of 1883, are as follows:

| Wool.<br>Bilk<br>Bilk<br>Viacellane via<br>Total or vosumpi.<br>Total at the port.  | Total on market | Flax   | Winifaotures of-   | Total      | W nol<br>Conton<br>Rilk<br>Max<br>Macellaneoux                |                                 | ENTERED                  |
