7 AND 8 PER CENT FARM MORTGAGES.
Holders of these mertgages tell us they have no apprehension whatever concerning them, and that they find them a medium for safety investing surplus funds without care or anxiety, when it is considered that they combine safety with larger returns upon the capital their value becomes strikingly apparent. We are not experimenting with a new security, but closely following an old and familiar one, which has given and continues to give more satisfaction to lenders than any within our knowledge. We can from record evidence convince the most skeptical and assure those having funds which they wish to place for a term of years where there is entire safety and at the same time high rates of interest, that it will be greatly to their advantage to call upon us for information.

CLEARING HOUSE RETURNS.

For the week under review the total clearings are more satisfactory than during the preceding six days, the loss from last year new recorded being 24.6 per cent, against 25.4 per cent on January 3. This improvement is all the more gratifying, coming as it does in the face of an increased decline on the figures of the previous week of 3.7 per cent at New York. Of the twenty-seven cities embraced in our statement all but seven exhibit an improved condition over the last returns, and in many cases a decided increase over 1884 is recorded. This is particularly true of Cleveland, Kansas City, Memphis, Milwankee and Chicago.

The Western section exhibits clearings 13.8 in excess of a year ago, against a loss January 3 of 21.3 per cent; the South follows a decrease on Jan. 3 of 13.9 per cent with an increase now of 4.8 per cent, and San Francisco presents this week a gain of 1.5. The New England and Middle sections do not reach the figures of 1884, but nevertheless they record an improvement over last week, in the former case of 6.6 per cent and in the latter of 5.0 per cent.

The share transactions at the New York Stock Exchange have reached a market value of \$118,235,000, against \$143, 130,000 for the same week in 1884, and if we deduct double

these values from the total clearings at that city we find the exchanges otherwise arising to be \$279,682,177 and \$484,340,920, representing a falling off of 42.2 per cent.

Outside of New York the total for the week is \$274,250,475 against \$277,792,519 for the same period last year, \$286,076,699 in 1883 and \$288,883,329 in 1882, the decline from 1884 being only 1.3 per cent against a falling off on January 3 of 15.7 per cent. From 1883 the falling off is 4.3 per cent and from 1882 5.3 per cent. The details for the different cities, presented in our usual form, are as follows:

	Week 1	Ending Januar	Week Ending Jan. 3.

Of the cities reporting by telegraph for the five days ended with this (Friday) evening, Boston is the only one which exhibits an improvement over the corresponding period of last week, and the total there is in excess of a year ago. New York records a decline from the percentage on Jan. 9 of 0.7 per cent, Baltimore 3.5 per cent and Philadelphia 8.6 per cent. Last Friday St. Louis presented an increase over 1884 of 7.3 per cent, but now shows a decline of 9 per cent.

THE FINANCIAL SITUATION.

Wall Street affairs retain the peculiar position they have held for several weeks past. The failures of Thursday, though somewhat of a shock, were quite in keeping with the general course of events, for such occurrences merely mark the drift in the situation, and are not controlling incidents. Prices in general have been supported, but special securities, first one and then another, quietly sag or drop, the market in the meantime going up and down, being strong and weak, or dull and active by turns. Activity however is now only relative, for compared with former years the total sales seldom rise above mediocrity. And in this way we jog on, few having any fixed opinions as to the future, and fewer still daring to act on their convictions.

The truth is, we have reached a point where it has looked a little as if there were a turn in the road, and yet, as the buried hopes of the last two years would make a respectable graveyard, and as so much can even now be said in favor of still another tumble, timidity is of course easier, if not wiser, than boldness. On the side disturbing confidence we have besides the failures, (1) several recent defaults, some of which are very discouraging, as they were unexpected and on their face seemed to lack reason or excuse, suggesting a doubt whether one can sleep on any investment, even first-mortgage bonds; (2) then there is the old sore, silver dollar coinage, unsettling all calculations, no one knowing whether what he is buying today at gold prices may not, before he wishes to part with his purchase, be selling at silver prices; and so capital prefers idleness, or it makes haste to leave the countrypositive evidence of latter tendency even the dullest can see in the ruling rates for foreign exchange, under conditions of our trade balance which could not otherwise fail to produce a much easier and lower market; (3) finally, not to mention influences of more local action, such as the disturbance in the coal combination etc., we have the war of rates prevailing so generally that if we are to believe the evidence, it is almost universal, the contest between West Shore and New York Central being so bitter and destructive as to be everywhere demoralizing. so that even large traffic does not necessarily mean large earnings.

But on the other hand promising indications are certainly not wanting, while there are some substantial evidences of at least temporary progress. (1.) Look at the clearings since the first of December, and especially for the weeks since the new year came in. How well they correspond with, and may we not say confirm, the reports of business improvement now so general. (2.) Then look at railroad earnings-we give them for December in another column, and for the weeks since January began they are even more favorable-do they not look like cumulative evidence that better times are already beginning, for remember that these figures are in the face of generally lower rates and of cutting too. (3.) Neither can one forget that the lowest price for wheat has passed; a short time since it really seemed as if it was worth nothing, and now it has advanced from below 80c. to above 90c. in New York, and if the speculators would only leave it alone we could easily market the balance of our crop at the latter figure; what a propitious change in the situation that is, will suggest itself quickly enough to every one. (4) And finally the roads are just beginning to deliver a very large crop of corn (which will compare with a small one last year), and an abundance of corn means also an abundance of corn-fed meats for coming months, together giving promise of a

fair amount of traffic during the spring and summer, in place of short supplies of both in the corresponding seasons of 1884. Are there not here suggestions promising enough to lift any amount of ordinary gloom? But the question is, can they relieve us from the effects of selfish, unscrupulous railroad management, or from the unnatural action of a statutory provision which is driving capital from us and nipping every bud of enterprise?

The closing of the doors of the widely-known and highlyrespected banking house of John J. Cisco & Son, which was announced late on Thursday, was a surprise and a disappointment. It is supposed that the rumors circulated last week of its embarrassment, alarmed depositors, and were the immediate cause of the disaster. A wide call for the deposits of any banking house that must market securities in such a time as this to meet them, is a very serious and a very severe strain. Undoubtedly the firm had become saddled with some stocks and bonds during the prevailing depression (for who has not?) which would recover when the times recover, yet could not be turned into money now at any fair rate. But the final mishap was the default on the first mortgage bonds of the Houston & Texas Central. The house, we understand, held these and the seconds in a large amount, especially the latter. The seconds were quoted the first of the month at 111, and have sold freely within six months at 120; this week, with the default on the firsts, they lost for the moment all market value—a sale being made yesterday at 70. Had the marketing of any large number of bonds been forced, the result could only have been disastrous to everyone concerned, and hence the safer course for all was for the Messrs. Cisco & Son to stop payments.

Houston & Texas Central securities should not be sacrificed. The most of them are owned in large blocks by investors able to retain them, and there is no prospect that they will be sold; but the small holders may be frightened unless assured of their real value. The default, for the time being, has undoubtedly acted most disastrously, not only upon the bonds themselves, but upon every kind of investment. One would almost as soon have expected a default upon New York Centra 7s as upon Texas Central firsts, for the Texas seconds and firsts are beyond peradventure good. The first mortgage is a first lien on the main line at the rate of \$20,000 a mile, covering 345 miles of road; it is also a first lien on ten sections of laud for each mile, or 2,208,000 acres, which if sold at \$3 an acre (we are assured that is not an excessive valuation) would more than pay off the entire lien, \$6,262,000. The second mortgage, an 8 per cent security, is a second lien on 463 miles of road and also a first lien on six sections of land for each mile of road, being 1,777,920 acres in all; if this land were sold at only \$2 33 per acre, the proceeds would more than provide for this entire issue, which is \$4,118,000. Some party will undoubtedly soon come in and protect securities situated as these are, but for the moment the default was so unexpected, so bewildering, that the investing public was dazed.

The failure of Oliver Brothers, the largest iron manufacturers at Pittsburg, was also announced on Thursday, though it had very little effect in Wall Street; from an industrial point of view it is, however, an event of importance. It has long been a surprise that so few prominent houses in trade have succumbed under the extended depression which has prevailed. Manufacturers have all of them found sales slow, and during the year diminishing in volume, so that they have had to carry large and accumulating stocks, and with receding prices which scarcely pay for the manufacture, this could but prove a pretty severe burden. Diminished production

during late months, and recently a slight revival in the demand, have relieved the situation to an extent. Still, a pay-roll of \$200,000 to \$250,000 a month must make rapid inroads into active capital unless stock can be worked off quickly. Besides, we understand Oliver Brothers have been spending freely within a short time, enlarging and improving their works, so the causes of their trouble can be no enigma. The general belief in trade circles is that they only need an extension, and that their mills will soon be running again.

A good idea of the depression in general business may be gathered from the imports now in progress. In another column we publish to-day the December trade movement at New York, which is made up especially for us at the Custom House. It will be noticed from that statement, that the imports the last month of the year were about \$500,000 more than for November, but were only 29 millions in all, or about 10 millions less than in the same month of 1883. It is also a satisfactory feature to note that the exports were the largest of any month of the whole year, being 324 millions, an increase of 3 millions over the same month of 1883 and an increase of more than 6 millions over November, 1884 That would indicate that the December trade movement when made up, will show a very large balance;-a belief also strengthened by the statement of breadstuffs and provisions exports issued by the Bureau of Statistics this week. We have prepared a summary of the figures for three years, which are as follows.

EXPORTS OF BREADSTUFFS FOR DECEMBER AND FOR SIX MONTHS.

Exports	1884.		180	83.	1882.			
from U.S	December.	6 Months.	December.	6 Months.	December.	6 Months.

visions and	05 000 050	100 050 700	00 000 000	120 020 014	00 150 010			
breadstuffs 25,038,976 190,878,582 23,939,070 150,070.814 29,150,212 104,048,789								

In November the breadstuffs values only reached 11 million dollars, whereas the above gives them at 14½ million dollars for December, the total of provisions and breadstuffs being now 1½ million dollars in excess of the same month of the previous year. Altogether, therefore, the belief expressed above that the December trade report for the whole country, when it is made up, will show a very large balance in our favor is fully justified.

And yet notwithstanding that fact and the goodly balance previous months left over, with also very positive indications of a favorable trade statement for January, foreign exchange has continued strong during the week, sterling having actually advanced a cent per pound since last Friday. This strength is claimed to be and probably is chiefly due to a renewal of the demand for long sterling for investment, and it is said that the buying now is even more general than it was sixty days or more ago. This is perhaps natural, as the old investors are in the market again and are reinforced by others seeking to secure a similar profit. There is no way of explaining the mystery of the prevailing firm tone for short sterling, despite the fact that large amounts of bills are now maturing, except on the supposition that those having the bills do not sell them, but transfer the funds to

London. This plan is far better than hoarding gold. The investor makes on the bills ho buys, and as they mature he can place his money in the joint stock banks and obtain 3 per cent; if the contingency should arise, when gold was worth 20 per cent more here than our currency, he would then be in position to take advantage of the situation, while in the meantime he keeps his funds profitably employed.

Bankers' balances have commanded fractionally better rates this week, and in place of $\frac{1}{2}@1\frac{1}{2}$ per cent, loans have been made at 1@2. The banks are reported to be more liberally purchasing commercial paper, of which there is now a better supply of really first class, brought out by the expectation of a good spring trade. New York exchange has been at a moderately high premium at Chicago and St. Louis, reflecting a movement of currency to this centre, and mail advices report a light demand from the interior for crop purposes. The following statement, made up from returns collected by us, exhibits the week's receipts and shipments of gold and currency by the New York banks.

Week Ending Jan. 10, 1885.	Received by N.Y. Banks.		Net Interior Movement.
Currency			Oain\$2,011,000
Gold,	******	*450,000	Loss 450,000
Total gold and legal tenders	\$2,161,000	\$600,000	Galn \$1,561,000

*\$450,000 of this was transferred in the shape of silver certificates by a deposit of gold in the Sub-Treasury.

The above shows the actual changes in the bank holdings of gold and currency caused by this movement to and from the interior. In addition to that movement, the banks have gained \$1,400,000 through the operations of the Sub-Treasury. Adding that item to the above, we have the following, which should indicate the total gain to the New York Clearing House banks of gold and currency for the week covered by the bank statement to be issued to-day.

Week Ending Jan. 16, 1885.	Into Banks.	Out of Banks	Net Change in Bank Holdings.
Banks' Interior Movement, above Sub-Treasury operations, net		- ,	Gain. \$1,561,000 Gain. 1,400,000
Total gold and legal tenders	\$3,561,000	\$600,000	Galn. \$2,961,000

The Bank of England gained £378,487 bullion during the week. This represents £394,487 drawn from the interior and £16,000 shipped abroad. The Bank of France lost 1,358,000 francs gold and 932,000 francs silver, and the Bank of Germany since the last report gained 3,397,000 marks. The following indicates the amount of bullion in the principal European banks this week and at the corresponding date last year.

	January	15, 1885.	January 17, 1884.		
	Gold.	Silver.	Gold.	Silver.	
	£	£	2	2	
	21,101,255		21,500,336		
Bank of France	39,876,680	41,988,434	37,842,537	39,636,658	
Bank of Germany	6,515,212	19,545,638	7,200,000	21,600,000

PHILADELPHIA & READING'S AFFAIRS.

The affairs of the Philadelphia & Reading have commanded much attention this week. The annual meeting has been held, the year's report has been published, and the committee's plan for lifting the company out of its difficulties has been presented. As respects the meeting, there was unnsual harmony. Considering the disasters that have befallen the company, criminations and recriminations might naturally have been expected, but nothing of the kind actually occurred, and the ticket proposed was elected by a unanimous vote:

The report of course was not a very encouraging document. It appears that for November (the returns for which had not previously been published) there was a loss of net earnings in the large sum of \$729,104 to be added to the loss made in the previous months, and as a consequence the managers are able to show total net for the year of only \$13,519,202, against \$15,469,251 in the previous year, notwithstanding that in this previous year the Central of New Jersey operations were included for only six menths, while in the present year they were included for the full twelve months. With this decrease in earnings, the company had heavily increased charges to meet for rentals and interest (chiefly on account of the Central of New Jersey), the total of the same being \$16,874,453, against \$13,312,018, and the result is that there is a deficiency of \$3,355,251, whereas in 1882-83 there had been a surplus of \$2,157,233, a difference in a single year of \$5,512,484—a striking illustration of the fluctuations and changes that are possible on the coal roads.

In the case of the Reading, however, the natural difficulties inherent in the coal trade itself were aggravated by the assumption of the Jersey Central lease, and it may be asked how much of the difference of 51 millions is to be credited to that circumstance. The report tells us that of the deficit of \$3,355,251 for the year, \$1,474,232 occurred on the Central. But that does not represent the full measure of the difference occasioned by the lease. In the previous year, as said, the road was operated for only the last six months (the best part of the year) and the Reading did not have to meet dividends on Jersey stock for a good part of the time, so that Mr. Gowen was able to report a profit to the lessee for the half year of \$633,482, and that profit was included in the surplus of \$2,157,233 given. Adding the profit to the loss of \$1,474,232 in 1883-4 and we have a total of \$2,107,714, as the change by reason of the Central New Jersey alone. Hence, with the Central excluded, the difference in the results of the Reading in the operations of the two years would be \$3,404,770, instead of the 5½ millions now shown—a sufficiently big difference, however, and which is in great part caused by the condition of the coal trade and the periodical restrictions in mining.

Taking the entire system as it stands, however, we see that against charges of \$16,874,453 in 1883-84, there were net earnings of only \$13,519,202, leaving the \$3,355,251 deficiency already referred to. How to readjust the company's affairs so as to guard against a recurrence of such a result is the problem presented. The committee having this matter in charge have recommended a plan, which the stockholders have agreed to, as indeed it is natural they should, since no concessions are asked of them. The committee, however, have tried to be fair to all interests, and they state that it has been their endeavor to "preserve the proper order of priorities of each class of security." Briefly, they propose that the general mortgage bondholders shall fund half of their coupons for three years; that holders of junior securities shall accept income bonds, in-

terest cumulative but payable only if earned; that certain rentals of branches shall be reduced; and that Central of New Jersey shall be given only such dividends as its own earnings suffice to pay.

Mr. Gowen agrees with the committee's recommendations in the main, except that, in his usual sanguine way, he proposes that the Central stockholders be given 3 per cent in cash regularly for 5 years and the remaining 3 per cent in scrip. He claims, and advances arguments in support of his claim, that the result of the last year's operations of the Central would be much more favorable if proper allowance were made for terminals and other items. But without such allowance, the leased road cannot show net earnings sufficient to meet fixed charges, let alone dividends, the net having been \$4,445,980 and the charges \$4,806,420. Then why not give the stock just what it actually earns, as the committee suggests, crediting the road, of course, with everything it is entitled to-Certainly, it would not be fair to the Reading bondholders, having a mortgage on the Reading property and earnings, to ask them to yield their interest, in whole or in part, in order that dividends on the stock of a leased road might be paid, especially as they had no part in the making of the lease.

And furthermore as to the committee's plan, it may be said that the disposition of the floating debt is just as serious a matter as the scaling of the charges. Would it be reasonable to fund the 23½ millions of floating debt into a bond taking precedence of the mortgage bonds at least in the payment of interest-and if not, how could the bond be placed otherwise. The securities which it is proposed to pledge for the loan, though nominally greater in amount than the loan, have many of them only an insignificant value, and would therefore hardly answer for the purpose required. committee in concluding their report say that if after the acceptance of their funding scheme, it shall appear that the company cannot obtain the money necessary to retire the ... floating debt, "the "duty of providing the funds must devolve upon the "junior security holders, the floating debt holders, the "stockholders and the deferred income bondholders, all "of whose securities are necessarily in jeopardy so long "as the floating debt remains unpaid." Precisely, but why should not these people provide the funds at once. They have everything at stake—the general mortgage bondhelders little or nothing. Perhaps if the latter saw that the former were in earnest, they too would contribute towards placing the company on a thoroughly safe basis. and yield the concessions in interest asked.

HARD TIMES AND GOOD TIMES.

One cannot help wendering semetimes whether the feelings of a prosperous "bear" are not very much like those of an undertaker in good practice, during an unhealthy season. There is something jolly and whole-souled about a "bull," but who envies the man who is always a prophet of evil, and who makes a profit of evil? The year which has so recently closed has been a great one for the bears. From the lenders of money down-or up-to the tieling millions who work in the factory, or at the bench, or in the fields, the season has been one of discouragement and decline. Wages, grain, petroleum, railread earnings, dividends, interest—all have suffered a reduction. Now and then there has been a spasm of recovery, to be succeeded by another season of deeper depression. It must be admitted that the "bears" have taken the honors in the line of prophecy, and those who accept their reasoning, as well as the fact that they have heretofore predicted the

tendencies of the times accurately, will see in the present situation of affairs nothing to indicate that we have "touched bottom," or that there is presently to be a reversal of the tendency and a restoration of what is called prosperity.

Having more than once expressed the belief that the conditions are in many respects becoming steadily favorable for a revival of business, may it not be worth while to consider for a moment what is the real and ultimate effect of such a period of hard times as that of which we hope soon to see the close. The fact is, we think, that individual and aggregate wealth increases more rapidly in seasons of dull trade than when business is active; and that it is in good part this wealth becoming apparent and tangible that makes the succeeding good times. Of course we do not hold that the increase of wealth goes on at an undiminished rate when trade depression is a result of bad crops or of a great destruction of property, as by the Chicago or the Boston fire; but that it does so under such conditions as those of the last three years. The argument is, after all, in a nutshell. Wealth consists in the products of labor. Agricultural crops, improvements of land, buildings, railroads-these are all forms of wealth, and in this country the chief forms. The products of the soil, which are the foundation of all, have continued to be of more than average abundance. It is but recently that there has been any material restriction upon manufacturing. Until within a few months labor has been in general fully employed. In a consideration of the increase of wealth the matter of wages has little or no place, because the fact of their being high or low merely affects the distribution of wealth. We may say, then, that the production of consumable goods, constituting food and clothing, has gone on at a rate not much if any less than that in the years from 1879 until 1881. But meantime the consumption of these goods has been somewhat curtailed. This of itself would have led us to the conclusion that the accumulation of wealth had been greater in the last three years than during the preceding period of three years. There is, however, other evidence tending in the same direction.

What is the meaning, for example, of the decrease in the passenger earnings of the railroads, but that the people as a whole have been practicing economy in their traveling? Why should all the summer resorts have had an unsuccessful season in 1884, but that the people were saving? What can be more conclusive as to the selfdenial of Americans as respects foreign luxuries, than the statistics of the import trade? Why, seeing that production has been substantially undiminished, and that the cost of living is at a minimum, should the holiday trade have been so light? Why should factorics that were not able in 1880 to supply the demand for their goods, now be running on short time, and even at that be unable to sell their product? The lesson is the same in all cases. The people for some reason are spending no more than they are compelled to spend.

But it will be said the people are really poor. The wage-earner has not accumulated wealth. Savings bank deposits have not greatly increased. The tradesmen have not been growing rich; sales and profits have been small, it has been difficult to meet payments, and failures have been numerous. Neither are the farmers conscious of greater wealth, for if their crops have been good the prices they have received were wondrously low. And the manufacturers? They, too, complain, and more bitterly than any others, of the hard times. Their profits have been small or nil. Capital is in the samo case; the selling price of stocks has declined and dividends are diminished. which we wrote last week, namely, the evils resulting

Those who have money to lend find few who wish to borrow, and the rate of interest is nominal. Where then is the evidence that the wealth which theory asserts to have been accumulating in these years really exists? For proof that it is not altogether imagined we can point to the condition of the banks, of those of New York City particularly. Owing to the complicated character of modern banking one cannot say that a decrease of loans means certainly a diminution of business indebtedness, because it may only mean that stocks pledged as collateral are margined lower, or that an increase of deposits means a larger surplus of money at the command of business men. But we think no one can study the bank statements without being impressed with the fact that the customers of the banks, as well as the banks themselves, have been gradually coming into a stronger position.

We do not, however, rest upon that, or upon any other evidence that is now to be had. We do know that in every case similar to the present a scason of depression has been followed almost immediately, the tide having turned, by one of great and abounding activity. One week the wheels of business seem almost to have stopped. The next week they begin to revolve more rapidly, and before one is aware of it they are turning at their maximum velocity. Why is it? Does the country acquire in a month or two more wealth than in as many years before? That is what the superficial observer would suppose, but it is not the fact. It is the office of prosperous times to bring into view the wealth which has been growing by steady accretion in hard times. The process is simple enough. The property created by labor exists, and all that is needed is that its worth should be recognized. That is what happens when the recovery begins. Unsalable property becomes salable. Iron turns out to be worth a dollar or two more than its former price. An investment demand for stocks springs up, and the money to pay for them is forthcoming. The value of all articles of commerce advances more or less, or rather its price advances and its true value appears. It then becomes evident who has been growing rich during the hard times. It is he who has on hand a large stock of whatever he may deal in, at the fortunate moment when the real value of commodities becomes the measure of their price.

If this is a correct statement, it follows that the longer continued and the deeper the depression, not such as is caused by diminished production, or by destruction of property (as by war, flood or fire), but by general economy, the greater will be the succeeding rise in prices and the more active will business be during the process. The time when the change is to take place involves a consideration of circumstances and .conditions which each man must make for himself. We are all liable to be deceived; even the shrewd "bears" who have been so successful of late are not exempt from the common lot. The man who guesses exactly right, and who buys goods just before they actually rise, is he whose fortune is made by hard times.

THE WORK OF THE RAILROAD COMMISSION.

The usefulness of our New York Board of Railroad Commissioners has been shown in various ways, and we have frequently called attention to the excellent work the Commission have been doing. Not the least valuable part of their work is the annual report and the promptness with which it is issued. The report for 1884, covering the second year of the Board's existence, has been submitted this week, and in its facts and suggestions fully equals the previous one.

The Board lays great stress upon the subject about

from the unlimited construction of new mileage. Referring to the fact that any thirteen men who can obtain subscriptions of \$10,000 per mile, with 10 per cent paid in, may build a new road anywhere in the State, they point. edly ask, "Why should the State thus delegate this power to any 13 men to be exercised for mere private gain, frequently at the expense of vested rights and grave public interests?" "When the State has determined to exact the highest standard of service at reasonable rates of freight and fare," they go on to say, "it would certainly seem as if a corresponding obligation rested upon it to protect existing railroads from useless and disastrous competition by unnecessary new ones"—a proposition which cannot be controverted. They then picture some of the results of allowing the construction of new lines to go on unhindered;-how both old and new roads are reduced to poverty, how safety of travel is endangered, improvements neglected because earnings and financial condition do not warrant it, and how public convenience and accommodations are necessarily disregarded. In our article last week we dwelt more particularly upon the harm to our industrial system from the needless slaughter of capital, and this additional danger to the public weal in the operations of the roads themselves further enforces the argument against unlimited license in the building of new lines.

The Commissioners are not oblivious of the need of maintaining the supremacy of the commerce of the port of New York, and call attention to the efforts made by rival ports to deprive us of some of our advantages. They oppose all attempts at unwise restrictions and unnecessary burdens. But while clearly desirous of seeing the railroads 'unhampered in their work, they are anxious that nothing shall be done to impair the usefulness of the canals or prevent their exerting their full influence as a regulator of freight rates. For this reason they are decidedly opposed to the policy of the railroads making contracts with the shipper by which he has to bind himself to send all his goods over the railroad lines and none by canal, and they advise legislation to prevent such con. tracts. The Board also condemn the practice of compelling shippers to send freight exclusively over one road, against all other roads.

The questions of rates and discriminations as between persons and places, of course engage much of the Commissioners' attention. The report states that there has been some difference of opinion on these points in the Board, but the Commissioners have unanimously come to the decision that there should be entire publicity of rates, and that "railroads should not, as a general rule, charge " more between a terminal and an intermediate point, for "a like class and quantity of freight, than is charged " between such terminal and a more distant point, even "though at such more distant point there be railroad or "water competition, unless railroads can affirmatively " establish such circumstances governing such competition " as justify the higher charge for the shorter distance "which we must say seems entirely reasonable. They do not recommend any specific rate-fixing legislation, deeming that inadvisable until it is established that the proper remedies can not be found under existing laws.

The system of quarterly reports, which has proved of such great service to the investing public, is treated with great care, and some of the defects explained. have been taken to make these reports, as well as the annual reports, more nearly perfect, and, referring to the fact that some roads failed to comply with the request for quarterly statements, the Commissioners suggest that a penalty be imposed upon delinquents hereafter. They

deliberation, after consultation with railroad officers and other persons, has been adopted for the annual report, and will go into effect in the current year, the railroads having already received copies of the same. Respecting the quarterly returns the Board make one excellent recommendation. They claim, and justly, that the same publicity should be given to them that is now given to the quarterly reports of the banks, and that consequently they should be published in at least one newspaper where the principal office of the company may be. With that idea they submit an act similar to that in force with regard to the banks. Referring to the requirement that the stock of a road may be increased only with the concurrence of two-thirds in amount of the stockholders, provided the Commissioners give their written approval, they suggest that the same safeguards be thrown about the issue of bonds. The Commissioners also propose means for protecting more fully the rights and interests of minority holders and providing them with opportunities for ascertaining the financial condition of the properties in which they are interested. While thus seeking in every way to guard the interests of those having investments in railroads, they are not unmindful of their duties towards the patrons of the roads. Indeed, by far the greater part of their introductory remarks is devoted to the subject of accidents and collisions and how best to avoid them, with the safeguards and appliances to be employed.

We think that our readers will agree with us that the Commissioners, judging from the work they have accomplished, and the above suggestions and recommendations, have advanced far towards a solution of the complex question of railroad supervision and the full and impartial protection of all the varied interests comprehended in the railroad problem. If the Commissioners keep on in their present course they will soon be held in as high esteem and gain as enviable a reputation as the Railroad Board of Massachusetts. The question of restricting railroad construction is particularly timely and pertinent, and will soon be pressed we think upon the legislators not only of this State but of other States as well, as we suggested it should be. We notice for instance that the legislature of Connecticut is now being petitioned in that behalf. And before the season is over the people of other States, it can be confidently predicted, will be heard from on the same subject.

CLEARINGS AND SPECULATION IN 1884.

Our weekly statements of clearings have indicated plainly enough some of the more general features of the year's results. As however the future can only be read through the past, and as these clearings are in some particulars an exact reflection of the variations in business activity, we have been at great trouble to collect the details and put them into a shape which enables one to read them intelligently. In our article last week on "Mercantile Failures," we briefly presented the leading features which have marked the progress of the industrial depression of the last four years and especially of the last year, so that we need not repeat the same facts here. On that point it is of use only to say in this connection, that these figures of clearings are simply illustrative and confirmatory of the recital of facts and conclusions we then gave.

We wish it were possible to eliminate from our totals all transactions which are wholly speculative, as the figures then would represent more faithfully the true situation of legitimate business. Such a separation can, however, be done only very roughly. The New York aggregate is of course chiefly involved in the question, but as New York returns over two-thirds of the whole clearings, the imstate that a new form, devised with much care and portance of the inquiry is readily seen. Most people do

not keep informed with regard to the growth of purely speculative business. Wall Street and stock speculations are a feature so very prominent that the transactions there are better understood; but Cotton, Produce, Petroleum and other exchanges are becoming quite as important an element now; and in good part the latter speculative sales have been the growth of a few years. As an illustration, some of the Produce Exchange figures are quite significant. In the following we give the monthly and quarterly sales of wheat, &c., for 1884, and the totals for the three previous years.

SALES OF PLOUR, WHEAT, &C., AT NEW YORK PRODUCE EXCHANGE [Two ciphers (00) omitted from the figures for Wheat, Corn, Onts, Barley and Ryo.]

These figures are almost startling from their very magnitude. Only think of selling at a single exchange 1,524,-745,000 bushels of wheat (not including flour) in one year, as was done in 1883, nearly four times the total wheat production of the entire country, the actual receipts of wheat at New York being only about 60 million bushels! This is a business too, that has, as stated, grown up almost wholly within a very few years. We have no record going back of 1881; prior to that time it was of very much smaller dimensions. Even in 1881 according to the above, 812,048,005 bushels of all kinds of grain covered the total sales; the increase from that point was rapid, reaching the marvellous aggregate of 2,417,726,933 in 1883, then receding again in 1884 to 1,663,548,319 bushels; but it will be noticed that the latter is more than double the number of bushels sold in the very good business year of 1881.

This statement too, is not only interesting in itself, but is a fair illustration of the growth in volume of nearly all speculative sales of commodities, except that the future business in cotton began somewhat earlier, reaching 1,209,-149 bales in 1870, increasing to 13,548,203 bales in 1877, and from that to 30,324,600 bales in 1881, then going back again in 1884 to a total of 24,360,800 bales. But the sales of stocks and bonds always make of course much the largest single item, as the values are greater and each transaction can only be settled by two checks in the absence of any Clearing House arrangements. We have, therefore, prepared the following. It covers simply stocks sold at the Stock Exchange. Bonds are not included, because the statements for previous years are imperfect, and besides they have been comparatively small in amount and not in general speculative. There are also large transactions all the time in progress in securities not on the Exchange list, which of course not being recorded cannot be indicated.

NUMBER AND VALUE OF SHARES SOLD AT NEW YORK STOCK EXCHANGE.

Year.	Stocks,* Shares.	Av'ge Price.	Values† (appr'xim'te.)	Year.	Stocks,*		Values † (appr'xim'te.)
1891	90,151,071	\$61:77	\$5,939,500,000	1870	72,765,762	50.85	4,136,683,570
1888	97,049,900	01.51	6,260,899,961	1878	39,875,593	54.10	2,157,269,581

1880	97,919,099	60 60	6,819,086,054	1875	53,813,937	53-20	2,862,903,683

* The total sales of stocks we take from the record kept by the Journal of Commerce.

† The values of sales are the figures made up by The Public, except for the last year and a part of 1833 which are our own.

Here also we find a very marked change in the volume of transactions from year to year, the total values reaching over 8 thousand millions in 1881 and less than 6 thousand millions in 1884, and making, if we double the amounts, a difference between the two years' exchanges of nearly 41/2 thousand million dollars. Of course as a rule general speculative movements increase and decrease concurrently; and hence we may conclude that the total bond movement and outside stock operations must have differed in about the same ratio. So also the volume of purely speculative transactions in commodities, being modified by like influences, varied similarly. Altogether then, it seems clear that these purely speculative operations, which form so large a part of the business of the New York City exchanges, cover a vast amount in the clearings, far larger in the aggregate and in proportion to the total than in the years prior to specie payments. This conclusion is also further enforced by a comparison of the figures of New York clearings prior to specie payments with those of the period since that time, as follows.

Year.	N. Y. Clearings.	Year.	N. Y. Clearings
1894	\$30,985,871,105	1879	\$29,285,673,829
1883	37,434,300,872	1878	19,853,671,307
1882	46,916,955,081	1877	21,285,278,472
1881	49,876,882,883	1876	19,594,398,198
1880	38,614,448,223	1875	22,475,359,339

Taking the sales of shares at the New York Stock Exchange given in the previous table as the indicator of the rising speculative tide, we find by a comparison of those sales with this statement of clearings that the growth in the latter from 1878 steadily kept pace with the former. When the tide turned, the loss in clearings did not continue abreast with the shrinkage in transactions at the Stock Exchange, because other kinds of speculation did not begin quite so soon to develop and did not reach their highest so early. Thus in the table of breadstuffs given above, it will be noticed that the aggregate sales, which were only 1,269,000,000 bushels in 1882, nearly doubled in 1883, reaching then 2,417,000,000 bushels and, receding again, dropped to 1,663,000,000 bushels in 1884. Putting this as a representative of the speculations in commodities, and the change in stock operations as representative of speculations in securities, and comparing the dates of the two with above clearings, we arrive at a pretty fair explanation of the changes which occurred. Furthermore, although | it would be purely arbitrary to fix through these data any precise ratio for the total of this speculative business (and we mean by that term all business where nothing is really bought or sold-mere phantom trading) yet there would seem to be sufficient in what has already been set out to warrant the conclusion that, after allowing for the change in prices, the last year's decline (1884) in total clearings would be only little more than a measure of the decline during the same twelve months in this kind of speculation.

Turning now to the figures of clearings for the whole . country, we give below each quarter separately for 1884, to correspond with the table of failures given in our article last week, with the totals for 1883 and the percentage of increase and decrease in 1884.

Total Southern		400.0			1	1	
San Francisco	138.0	129.4	140.4	148.5			
Total all	12,603 9	11,992.3	9,205.0	10,017 7	43,918.3	51,570.2	-14.0
Outside of New York	3,977.5	9,364.0	2,918,8	3,272-1	12,932-4	14,135.9	8.2

This shows that the total clearings for 1884 in New York declined 17.2 per cent, that at all points outside of New York they declined 8.5 per cent, and in the whole country 14.9 per cent. Of course as stated we can not measure in exact figures the purely speculative business so as to deduct it all; in fact, it is only the stock sales in New York that we can reach in that way even approximately; doubling the values of them, however, and taking the amount from the total clearings for the years since 1878 gives us the following results.

CLEARINGS IN THE COUNTRY LESS DOUBLE STOCK SALES AT NEW YORK.

Year.	New 3 Clearings less Double Stock Sales.		Total Clearings Outside of New York.	Clearings in the whole Country less Stock Saics.	Per cent Inc. or Dec. from Prev. Year.
	\$		8	8	
1884	10,100,900,000	-23.3	12,932,500,000	92,039,400,000	-17.9
1883	24,912,680,000	-21.0	14,135,900,000	30,049,580,000	-13.9
1882	31,538,093,000	-4.4	13,830,900,000	45,968,993,000	-3.8
1881	32,981,837,000	+92.1	13,968,900,000	40,950,787,000	+29.1
1880	24,070,229,000	+19.1	11,375,400,000	30,351,628,000	+20.2
1879	20,962,333,000	+94.9	0,290,800,000	30,253,133,000	+28-8
1878	15,544,161,000	-8.3	7,955,100,000	23,499,261,000	-4.1

Relative prices we may attempt to measure on another occasion; but in the above the totals show nearly 18 per cent decrease on the year after deducting double the values of these stock sales. It is very interesting to note the pretty close comparison between the total clearings in 1884 and in 1879 and 1880, the speculative business which we have remarked upon above, not having been developed largely during the two years last mentioned; and yet the increase in 1884 compared with 1879 is all of it and more too, at the points outside of New York. Altogether then we must accept the conclusion, whatever way we view these clearings, that this center has been much the greatest sufferer.

Probably that condition is the result almost wholly of the panic, for it was here only that that crisis was felt in its full severity. By looking at the preceding table, where we give the figures for this year by quarters, the reader will have evidence in support of that assertion, for it will there be noticed that the falling off at New York was very marked after the first quarter; and especially

during the last half of the year in the last two quarters the loss averaged nearly 33 per cent compared with the first quarter of the year. It is not surprising therefore, as we are getting away from that event, that the returns of the new year should be improving. And does not this encourage the hope that the recovery will be more marked as the year progresses?

RAILROAD EARNINGS IN DECEMBER, AND FROM JAN. 1 TO DEC. 31.

Our statement of earnings below, for the month of December, is quite favorable, and reflects, as expected, the greater activity in business that resulted after the definite settlement of the Presidential canvass in November. There are many reads in the list that have fallen behind as heretofore, but the decrease is usually much smaller now, and in not a few instances increase is reported where we had become accustomed to seeing a decrease. The improved character of the showing in general, finds striking expression in the footings, exhibiting a loss in earnings for the month compared with the previous year of only \$36,000, against a similar loss of \$1,800,000 in November, \$1,450,000 in October, \$1,100,000 in September, and \$1,300,000 in August.

Besides the more hopeful view taken of the future, and the consequent disposition to enlarge somewhat the volume of business, giving the railroads a little more general and miscellaneous traffic, the month was characterized by much the same features as its predecessors. There was a larger movement of grain than a year ago, but the increase was exclusively in the item of wheat, and was moreover confined almost-entirely to one section of the country-namely, the Northwest. There was likewise an increased movement of cotton, but here also all sections did not share in the improvement, Texas being a conspicuous exception. Passenger traffic was not as a rule large (judging from the meagre returns to hand), and quite a number of roads had; as heretofore, a smaller revenue from the same than in 1883. On the trunk lines, of course, the hostilities between the West Shore and New York Central remained unabated, and operated to diminish receipts. There is no evidence, however, that freight rates were not maintained on these lines. The following is our usual table, giving the earnings and mileage of each road, which can be studied in the light afforded by the preceding remarks.

· Only three week in December in each year.

It needs only a superficial glance at the above to reveal that aside from the gain recorded by the Canadian Pacific, which has no particular significance because of the heavy increase in mileage, only the roads of the Northwest are conspicuous for any material improvement over a year ago. But here the increase is quite marked. To be sure, these roads were not as a rule distinguished for heavy totals in December, 1883, but any gain at all now, in the face of general business depression, is worthy of careful analysis. Even the Chicago & Northwest. reports a heavy increase. It is clear that only in the grain movement can we find the reason for the improved showing. The Chicago & Northwest., as we have heretofore said, is very largely dependent upon the movement of corn. It is also so situated that it does not get as much benefit from the movement of spring wheat as the St. Paul. Now, up to December the loss in corn was heavy and the Northwestern suffered correspondingly, while the St. Paul suffered not at all. In December, however, the loss in corn seems to have been comparatively small, while the gain in wheat was not only fully as large as in the preceding months, but even larger. For instance, the receipts corn at Chicago for four weeks of December fell off only 586,000 bushels (we are talking of the movement in general, and not that over the Chicago & Northwest alone), while the receipts of wheat increased 1,686,000 bushels, to which Milwaukee added a further increase of 451,000 bushels—that port receiving scarcely any corn.

Hence it would seem that the Chicago & Northwestern must have had a relatively better movement of corn than previously, while at the same time there accrued to it a gain in wheat, which though smaller than on the St. Paul, must yet have been considerable in amount. It is likely too, that the loss on the Peninsula Division of the road (in the transportation of ore, &c.) is no longer a very important factor, since the influences diminishing the revenue on that di. vision had already exercised considerable effect in the cor. responding month of the previous year. In this way we are able to understand the gain of \$162,144 (about 9 per cent) which the road reports. This gain, it should be said, comes after a loss of \$66,000 in December, 1883. It is claimed that the road has now passed through the worst period of its year, and that henceforth the exhibits will be quite satisfactory. As far as that claim is based upon the

probability of a larger movement of corn (the crop of the late season was excellent, it will be remembered, while the company is only just beginning to feel the beneficial effects of that circumstance) it has much to support it.

To the roads in the Northwestern section unaffected by the movement of corn, the gain in wheat was of course an exceedingly favorable circumstance. The St. Paul, which in December, 1883, had an increase of \$186,000 in earnings, now has a further increase of \$70,000, and its present total of \$2,221,000 compares with but \$1,397,000 only four years ago. The Burlington Cedar Rapids & Northern and the Chicago St. Paul Minneapolis & Omaha both had gains in 1883, and now have additional gains. But the further north we go in this section the more favorable the returns seem to become. The St. Paul & Duluth, which in the previous year had a small decrease, now has an increase of \$2-i,000, or 30 per cent. The St. Paul Minneapolis & Manitoba has swelled its total in the large sum of \$126,000, though \$54,000 of this is merely a recovery of what was lost in the year preceding. These latter roads probably had larger gains in the wheat traffic than any other. They drain the Northern half of Minnesota, which is in great part tributary to the port of Duluth, where the receipts of wheat in the four weeks of December this year reached as much as 2,391,138 bushels, against only 471,700 bushels in the same period of the preceding year, an increase of 1,919,438 bushels. With such figures as these, no wonder the roads are able to report larger December earnings than ever before. The Northern Pacific should, on its eastern division at least, share in the benefits of this heavy movement of cereals, but the figures show a loss of \$116,640, and the explanation no doubt is the interruption to through traffic caused by snow storms in Oregon, which blocked the Oregon Navigation lines for nearly the whole of the latter half of the month. If to the gain of 1,919,438 bushels in the receipts of wheat at Duluth we add the gain of 2,137,037 bushels previously reported at Chicago and Milwaukee, we get a total gain of 4,056,475 bushels, which is more than the increase in the movement at all the ports in the aggregate, showing that there must have been a decrease at some of the ports. And this is borne out by the following statement in our usual detailed form.

RECEIPTS FOR FOUR WEEKS ENDED DECEMBER 27 AND SINCE JAN. 1.

Thus the entire movement of wheat records an increase of only 3,719,957 bushels, while that of the spring wheat points records an increase of 4,056,475 bushels; hence in winter wheat there was a falling off, and the statement shows that Toledo and Detroit were the principal sufferers in this falling off. In corn, St. Louis is the only port that has enlarged receipts, and in the smaller grainsoats, barley and rye-there is also a pretty general decrease all through the list. From this it is apparent that notwithstanding the splendid agricultural outturn, the roads in the district east of the Mississippi and north of the Ohio, comprising the States of Illinois, Indiana and Ohio, could not, except in individual cases, have had an augmented crop movement in their favor. Remembering this, and also that in this section manufacturing industries abound and are greatly depressed, it occasion no surprise that many roads again fall behind in earnings, after having fallen behind in 1883, and that others that fared well a year ago this year have fared not at all well. The returns on the whole, however, are more irregular than heretofore and we have some roads that have improved on their results of 1883. Among these may be mentioned the Cincinnati Indinapolis St. Louis & Chicago, the Cincinnati Washington & Baltimore, the Ohio Central, the Ohio Southern, and the Cleveland Akron & Columbus. Chicago & Eastern Illinois, the Evansville & Terre Haute, the Indiana Bloomington & Western and the Alton & Terre Haute roads have a decrease, the most of them, too, after a falling off in 1883.

The most conspicuous decrease is that on the Alton & Terre Haute, with earnings of only \$83,072 for December, 1884, against \$136,249 in December, 1883, a contraction of \$53,177, or nearly 40 per cent. As this road forms part of a through route to St. Louis, the heavy contraction on it is suggestive of what the course of business must have been on the great trunk lines. To the same effect is the statement of the Grand Trunk of Canada, though here the ratio of loss is only about 10 per cent. On the Grand Trunk, however, the present loss comes after a heavy loss in 1883, while in the case of the Alton & Terre Haute there had been some increase in the previous year. The Illinois Central on its Iowa lines has a decrease as heretofore (probably because of a diminished movement of corn), but on the main division (including the Southern line to New Orleans) there is an increase of \$65,000, or about 6 per cent. This main division, though, sustained a loss of \$155,000 in the previous year, and the recovery of \$65,000 of it in the present year is to be ascribed in good part no doubt to an augmentation in its cotton traffic, as the road delivered 9,704 more bales of cotton at New Orleans than in the previous December, and also carried 24,447 more bales north from Cairo.

The roads running Southwest either from Chicago or St. Louis, as stated in previous reviews, no longer prove an exception to a general rule of decrease elsewhere, and for December the Chicago & Alton, the St. Louis & San Francisco, the St. Louis Fort Scott & Wichita, and the Atchison Topeka & Santa Fe, all record reduced totals, while the Kansas City Fort Scott & Gulf has a gain. The Texas & St. Louis, a narrow guage road running down into Texas, has quite a noteworthy improvement, but whether this represents new business developed by the road or old business taken from the Gould Southwestern lines we cannot say. The increase certainly is very satisfactory in view of the failure of the cotton crop in Texas, the effects of which are clearly shown in the falling off on the Gulf Colorado & Santa Fe. In the South, the returns are quite variable, but on the whole are in the direction of

Where there is a decrease it is usually better results. because of some special circumstance or circumstances. Thus the Chesapeake & Ohio and the Shenandoah Valley no doubt suffer from depression in mining on their lines, while the Cincinnati New Orleans & Texas Pacific probably lost somewhat by reason of the contest with the Louisville & Nashville on rates, though neither the latter road nor the other lines in the Cincinnati system seem to have been much affected by that circumstance. As far as the cotton movement had any influence upon the earnings of Southern roads, it was, as already said, in favor of larger totals pretty nearly everywhere except in Texas, and the following table gives the receipts of the staple during the month at all the principal outports, in comparison with both 1883 and 1882.

RECEIPTS OF COTTON AT SOUTHERN PORTS IN DECEMBER, AND FROM JAN. 1 TO DECEMBER 31, 1884, 1883 AND 1882.

With December we have the full twelve months of the year, and in reviewing the earnings for this period it goes of course without saying that the year was not a favorable one, either in the conditions that prevailed or the results that they produced. The first six months yielded pretty generally unsatisfactory returns. The crops of the previous year (including not only grain but also cotton) had been poor and had been rushed rapidly to market, mostly before the close of 1883, and this left but a comparatively light movement to go forward during the early months of 1884. Then general business was not at all up to expectations, and manufacturing and mining was everywhere depressed. Prices for all kinds of commodities and manufactures were very low, leaving but a narrow margin of profit or none at all, and this compelled retrenchment and economy to an extent that had a very important effect in diminishing the volume of traffic over the railroads and also in reducing passenger travel. This was a prominent feature of the situation even before the May panic, but after that crisis it was of course more marked, and caused heavy losses to many lines.

Besides the stagnation in general business, and in great part, no doubt, as a result of this, the roads were all the time quarreling among themselves-not only in this section or that, but all over the country-with a consequent demoralization of rates and loss of earnings. The most serious affairs of the kind no doubt were the troubles among the trunk lines (the differences between them leading to cut rates as low as 10 and 12 cents per 100 lbs. from Chicago eastward several times during the year), and the fight between the Union Pacific and the Burlington & Quincy on Colorado and Utah business, which extended through the early months of the year. But aside from these, there were pool difficulties nearly everywhere, though fortunately they were usually adjusted before much damage had been done. In passenger business as well, there were serious complications, and on the roads between Chicago and Missouri River points rates for a time were down to pretty low figures, while the disturbance between the West Shore and New York Central, which broke out in all its fury in October, and was prolonged all through the year and up to the present time, with rates

cut from \$20 to \$9 and \$10 for a passenger from New ! York to Chicago, was of course the distinctive feature of 1884. Towards the close of the year Southern roadsmainly the Louisville & Nashville and the Cincinnati Southern or Erlanger system-became involved in a dispute as to freight rates, which is also unadjusted up to the present time. Taken altogether, there probably never was a year before when the railroads were so much at loggerheads as this, and when pools were in such a generally chaotic condition. If to this we add that only in a few special instances did managers effect any saving in expenses, and remember also the disturbance occasioned by the Presidential election, which brought business nearly to a standstill for the time being, the reader will readily understand why the year was in all respects such an unsat-

We have not the space to enumerate the causes at work in each special group, but perhaps the most unfavorable returns are made by the great trunk lines running between Chicago and the seaboard. The small volume of traffic from the crops, the depression in general business, the diminution in export business, the increase in the lines competing for public favor, the intense strife between them—these are sufficient to account for the results displayed. Next to the trunk lines, the Pacific roads are entitled to distinction for their poor exhibits. The Northern Pacific of course is an exception in this group, because it was a new line, with a large increase in mileage, which was sure to give it considerable additional traffic in any event. But the Central Pacific and the Union Pacific sustained very heavy losses, and all the minor systems forming links in the through systems-notably the Denver & Rio Grande-also suffered very heavily. Special adverse influences in several cases aggravated the bad situation of affairs with which these roads had to contend -as for instance the Central Pacific was twice visited by floods on its Southern lines during the year, and the Union Pacific and Denver & Rio Grande encountered great obstacles from snow for several months early in the year-but in general it may be said that the opening of new routes, the falling off in business, the collapse of mining in certain sections, and reductions in rates, are chiefly responsible for the diminution of the earnings of these roads. As the year closed, the Union Pacific had a favorable factor in the large crops raised in Nebraska, but of course that was not a circumstance with the other lines. Another class of roads that was very unfavorably affected during the year is the coal roads, which had to fight against constantly increasing depression in manufacturing circles, and though with the exception of the Reading none of these furnish any periodical returns to the public, the exhibits of that road were sufficiently eloquent as to the course of affairs on other lines of the same charactermaking due allowance for the fact that doubtless the Reading suffered most from the policy of periodical restrictions of production.

The roads in the Northwest did not do well early in the year, but in the last half, under the exceptional yield of spring wheat, they made heavy gains, and in nearly every case retrieved most of their early losses. This does not apply, however, to the roads chiefly interested in the transportation of corn, which are mostly located further to the south of the district where the production of spring wheat was heaviest. The Chicago & Northwestern is a good instance of this type of road (though it also lost on its Peninsula division because of the depression in mining). The corn crop of 1883 was poor, while that of 1884, though excellent, did not come forward in time to count to any extent in the traffic of the year. As showing the difference between the corn

movement of 1883 and 1884, we may say that the receipts of the cereal at the interior towns of the West in the latter year were only 94,183,901 bushels, while in the former year they had been 114,931,590 bushels, or 203 million bushels more, about three-quarters of the falling off having occurred at Chicago. On the other hand, the receipts of wheat at the same towns were 91,250,919 bushels in 1884, against only 74,755,972 bushels in 1883, and the gain was almost exclusively in spring wheat, Duluth showing the largest gain and Milwaukee and Chicago making up the

Southwestern roads were distinguished through the greater part of the year for the generally favorable character of their exhibits, at a time when all other roads were showing the effects of industrial depression; but in the closing months they too fell behind, though on the whole they return larger earnings than in 1883. This relates more particularly to the roads running southwest from Chicago, or through Missouri and Kansas. The systems affected by the diminished movement of cotton in Texas of course are not included in that statement. These did poorly. In Ohio, Illinois and Indiana the returns have been quite discouraging. The poor crops of 1883 had their influence during the first half of 1884, and though later in the year the present season's out-turn was a favoring circumstance, manufacturing industries were in such a gloomy state that no recovery in railroad traffic was possible. Michigan roads also make a bad showing, stagnation in the iron and lumber trades—the latter more particularly since the panic-having had an adverse effect on all lines. With Southern roads the cotton movement is a very important factor, and of this staple the receipts at the outports during the calendar year 1884 were only 4,625,184 bales, against 5,501,576 bales in 1883-a contraction of 876,392 bales, which of course was not conducive to larger earnings. Besides this, some of these roads-notably those running through Virginia and West Virginia—have suffered from the closing of iron and coal mines. Roads like the Louisville & Nashville have, of course, been affected chiefly by the generally unfavorable condition of trade, in which the South has shared with the rest of the country.

^{*}Includes three weeks only of Decomber in each year.

Our exhibit of anet earnings covers this time November, and offers new proof of the utter stagnation in business that prevailed during that month as a result of the excitement attending the Presidential election. With the exception of the Union Pacific, there is not a single large road of any prominence that does not show a very heavy loss. There are some gains, but they occur in the case of minor roads, and are usually very small in amount. As to the showing for the eleven months, in view of the unfavorable combination of circumstances detailed above, it is scarcely necessary to say more than that the result is far from satisfactory. Only the Rome Watertown & Ogdensburg, the Northern Pacific and two or three minor roads record larger figures than in 1883, as will appear from the following, comprising all roads reporting.

GROSS AND NET EARNINGS TO LATEST DATES.

[From our own correspondent.]

London, Saturday, Jan. 3, 1885.

It is so far too early for the new year to have developed any special features, but the prospect is certainly not a pleasant one. The gloomy forebodings which characterized the close of 1884 threaten to be reproduced. A certain degree of steadiness is noticed in cotton and wool, but in all other industries the depression has been painfully apparent. At present iron and steel are, on the average, ten to fifteen per cent lower than they were a year ago. Copper has fallen £10 to £12, and tin £7 to £10, per ton. An expected stimulus to trade, which it was thought, would follow a better harvest, has not been youchsafed, except in a very mild manner, by some slight increase in the home demand for manufactures. Our foreign trade is still very bad, and the strength of competition abroad has a tendency to increase rather than diminish.

The last year (1884) was a year of low prices. The low range of values was not confined to raw materials, food products being equally obtainable on easy terms. Wheat and flour have not been so low during the present century as they are at present. Beef is about the same in price, but mutton is 1d. per lb. cheaper. Potatoes are from 10s. to 20s. per ton lower. Sugar has fallen 30 to 40 per cent, coffee nearly 20 per cent and tea about 4 per cent. It is, therefore, some small satisfaction to the wagesearner to know that if he is receiving smaller remuneration he derives some compensation from the low prices of food; but to those who are out of work—and their name is legion—a cheap loaf is not a cause for much congratulation when destitute of the funds necessary to acquire it.

There is clear evidence that confidence in the future is by no means strong. The misdeeds of Mr. Blakeway are not forgotten, neither are those of Mr. Parker. It certainly is a blot en our system that such men as these should be allowed to escape when some poor wretch is doomed to penal servitude for a comparatively trifling offence. Apparently the bigger the swindle the greater the chance of escape. Confidence received very severe blows from the discovery of these frauds, and it is far from being re-established at the present

A New Zealand loan for £1,000,000 in a 4 per cent stock, the minimum being 973/2 per cent, is announced. It is expected that the operation will prove a success. Something like £24,750,000 was raised by India and the Colonies during the past year. The Colonial loans proved an almost uninterrupted success. This class of security has been in strong favor with investors, who have come to regard a certain 4 per cent as far preferable to a speculative 6 per cent, with the prospect of an ultimate loss of both principal and interest.

The failure has been announced of Messrs. Baggakays & Spence, warehousemen, of 4 and 5 Love Lane. The firm was established in 1800 as Westatt & Co. The liabilities are about £200,000. Messrs. Truninger & Co., exchange merchants of 41 Threadneedle Street, a firm of 40 years standing, have also stopped payment. According to the lists of Mr. Richard Seyd, the number of failures in the United Kingdom during 1884 was 4,397, of which 607 are in the financial, wholesale and manufacturing branches of trade, and 3,787 in retail trade, professional pursuits, builders, publicans, amongst the working classes, &c. In 1883 the total failures were 10,599, divided with 9,238 retail and 1,361 wholesale houses. Mr. Richard Seyd furnishes the following remarks on the working of the Bankruptcy Act:

"The decrease in the number of failures during the second part of the year 1884 Is even more remarkable than that during the preceding half, and as rumors of private arrangements are continually affort, it remains a very open question whether the new Bankruptcy Act is working as well as its promoters anticipated it would do. The general experience seems to be that creditors are, under the new set, more disposed than formerly to accept any reasonable offer of composition made to them, rather than encounter the trouble and expense of bankruptcy proceed-

formerly to accept any reasonable offer of composition insective than encounter the trouble and expense of bankruptcy proceeding.

"As a commission is now sitting to inquire into the working of the act, it may be advisable to draw attention to Clause 115, in which it is enected that 'Any person or persons carrying on business under a co-partnership name may be proceeded against under this act in the name of the firm,' &c.

"This certainly appears a serious retrogression from the preceding Bankruptcy Law, which insisted that the name of each individual partner should be specified in the notification of bankruptcy.

"This clause in the new act seems to be a great mistake, which ought to be rectified at once, or it may lead in time to much inconvenience, as it leaves a door open to unscrupnious traders, who may work under fetitious names without nuch fear that their real names may become known to the public generally.

"It so happees that several failures have already taken place during the past twelve months among firms of some importance where (the 'receiving order' was taken out against the firm alone.

"It does not follow because the name of a firm is, for instance, Brown, Jones & Smith, that there is a Brown or Jones or Smith in the firm, irrespective of the fact that the individuality of the partners is quite lost sight of where their Christian names are not given in full; it must therefore be admitted that it is in the interest of commercial tirms generally that the failure of 'a firm' should necessitate full publicity being given to the names of each partner."

£1,195,000 in Treasury bills have just been allotted. The

£1,195,000 in Treasury bills have just been allotted. The whole at three months' date at an average of £3 18s. 6d. per

whole at three months' date at an average of £3 18s. 6d. per cent. At the beginning of the past year the average rate for three months' bills was £2 4s. 4d. per cent, and in July it fell as low as £1 2s. 11 84d. per cent.

The Bank dividend announcements have just commenced. The London & Northwestern pays at the rate of 8 per cent for the half-year, making 16 per cent for the year. The corresponding half-yearly dividend was at the rate of 9 per cent. The City Bank pays the usual dividend at the rate of 10 per cent per annum.

The position of the money market has not varied appreciably. We are waiting to see what will be the effect of the dividend money coming on the market. It is singular, considering the high rates for money here compared with other leading centres, we receive so little gold from abroad. True, the stock in the Bank of England is gradually increasing, but the proin the Bank of England is gradually increasing, but the progress made is very slow. It seems to be expected, however, that some reduction in the Bank rate will take place at an early date. Day-to-day loans are now quoted at 4 to 4½ per

In reference to the state of the bullion market, Messrs. Pixley & Abell observe:

& Abell observe:

Gold.—There has been but little doing in this market since our last and with the exception of a withdrawal of £100,000 sovereigns from the Bank for Vienna, and £35,000 for South America, there have been no other exports. There is no demand for bars, and the Bank has received the whole of the arrivals, amounting to £96,000. The Verone has brought £12,300 from the East, the Moselle £52,000 from West Indies, and a French steamer £15,000 from Central America. The P. & O. steamer has taken £50,000 sovereigns to Exppt.

SILVER.—Orders for Spain were received on the day of issue of our last circular, and caused an improvement in price day by day from 495gd. to 495gd. At this last the supplies by the Chili and West Indian steamers were sold. The market is quiet to-day, the Spanish order being complete, and there being no Indian exchanges to hand, owing to the holidays. We have received since the 23a ult., £76,700 from New York, £37,050 from River Plate, £49,000 from Chili and £39,000 from West Indies. The P. & O. steamer has taken £38,400 to India.

MEXICAN DOLLARS.—The arrivals comprise about £9,000 from America and £32,000 from West Indies, the price for which has not been fixed. The Shannon sails this day with £36,400 for China and the Straits.

The quotations for bullion are reported as follows:

Price of Gold.	Dec. 31.	Dec. 24.	Price of Silver.	Dec. 31.	Dec. 24.

S.Am.doubloons.oz.			Mexican dolsoz.	4856	43 5-16

The Christmas holidays have interfered with the grain trade and have reduced operations to within very narrow limits; but the tone has unquestionably improved. Wheat is about 1s. per quarter higher in price. We are experiencing a fairly long period of cold easterly winds, a steadier feeling being thereby imparted to trade. Other kinds of produce are also hardening. The quantity of wheat on passage to the United Kingdom from all parts is estimated at 1,856,000 quarters, or nearly 100,000 quarters more than last week. The quantity of flour is equal to 180,000 quarters, being 9,000 quarters more.

The following return shows the extent of the imports of cereal produce into the United Kingdom during the first seventeen weeks of the season, the sales and average prices of home-grown produce for the same period, and other items, compared with last season: The Christmas holidays have interfered with the grain trade

Commercial and Miscellaneous News

IMPORTS AND EXPORTS FOR THE WEEK .- The imports of last week, compared with those of the preceding week, show an increase in both dry goods and general merchandise. The total imports were \$8,774,077, against \$7,486,207 the preceding week and \$4,907,279 two weeks previous. The experts for the week ended Jan. 13 amounted to \$8,034,919, against \$6,393,757 last week and \$5,382,502 two weeks previous. The following are the imports at New York for the week ending (for dry goods) Jan. 8 and for the week ending (for generalmerchandise) Jan. 9; also totals since the beginning of the first week in January:

FOREIGN IMPORTS AT NEW YORK.

For Week.	1882.	1883.	1884	1885.
Dry goods Gen'l mer'dise	\$3,667,890 6,935,930	\$3,047,170 5,707,954	\$2,814,798 6,492,153	\$2,668,890 6,105,187
Total Since Jan. 1.	\$10,603,820	\$8,755,124	\$9,296,951	\$8,774,077
Dry goods Gen'l mer'dise	\$5,756,925 12,707,633	\$5,393,316 11,562,772	\$5,481,342 11,877,389	\$4,602,604 11,657,680
Total 2 weeks	\$18,464,558	\$16,956,088	\$17,358,931	\$16,260,294

In our report of the dry goods trade will be found the imports of dry goods for one week later.

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending Jan. 13, 1884, and from January 1 to date:

8,3	PORTS FROM	NEW YORK FO	R THE WEEK.	
	1882.	1883.	1884.	1885.
For the week Prev. reported	\$6,151,636 5,940,134		\$6,474,595 6,413,607	
Total 2 weeks	\$12,091,770	\$14,357,124	\$12,988,202	\$14,428,676

The following table shows the exports and imports of specie at the port of New York for the week ending Jan. 10, and since January 1, 1885, and for the corresponding periods in 1884 and 1883:

EXPORTS AND IMPORTS OF SPECIE AT NEW YORK

Anthracite Coal Combination .- At the recent meeting of

Authracite Coal Combination.—At the recent meeting of the board of drectors of the Pennsylvania Railroad Company President Roberts laid before the board a report of the conference of the representatives of the large anthracite coal companies. The following resolution was adopted:

*Resolved**, That while the board of directors of the Pennsylvania Railroad Company hereby express their desire that the anthracite coal interests of the said company should be managed in harmony with similar interests of other companies, they believe that neither the general interests of the public nor those of the sharcholders of the Pennsylvania Railroad Company could properly be protected or ndvanced by this company joining in any restrictive policy in the management of any part of its business.

Atlantic & Pacific **—In anywer to a correspondent's inquiry

Atlantic & Pacific.—In answer to a correspondent's inquiry, the Boston Herald says that "this road is earning in the vicinity of \$140,000 gross per month at present upon the Western

and Mojave divisions, and that the fixed charges on those divisions are, in round numbers, \$125,000 per month, not including the interest on the floating debt, which is of uncertain amount, say \$13,000 per month for an estimate. Then there is the Central division, operated by the St. Louis & San Francisco company, which supported itself in 1883, but required a little assistance last year. But \$140,000 per month would probably cover the first charges. It costs some 80 per cent to operate the road on gross earnings of \$140,000, which would yield \$28,000 net per month. Besides this, the road has an income of 27 per cent from the California pool, which yielded in October last about \$35,000 net. Beyond this, it is entitled to a rebate of 25 per cent from October last on business to and from the Atchison and St. Louis & San Francisco roads, applicable to the payment of interest, but in the nature entitled to a rebate of 25 per cent from October last on business to and from the Atchison and St. Louis & San Francisco roads, applicable to the payment of interest, but in the nature of a loan, for the repayment of which there is no specific provision. This rebate amounted to some \$60,000 in October, but has probably been less since, as business has decreased. Call it \$50,000 per month; then add \$35,000, pool percentage, and \$28,000, or, say, \$30,000, net earnings, and the result is \$115,000 per month to meet \$140,000 of interest with. But the January coupon was paid with the proceeds of land sales, and another will not be due until July. Meanwhile, the management expects to show largely-increased net carnings, as the gross can nearly be doubled without material increase in operating expenses." * * "The cattle husiness is growing rapidly, and many thousands of cattle will be hauled in 1885 and more in succeeding years. Work upon the Arizona Mineral Belt road has been commenced, and surveying is being done for the Arizona Central road, which will branch off at Ashfork and tap the Jerome mines, eventually reaching Prescott. Both roads will prove valuable feeders when finished. Then again, the California Southern road will be connected with the Mojave division the coming season. This road is, like the other feeders, more promising for the future than the present. Taken all in all, the Atlantic & Pacific should be a growing property henceforth. * * * No account has been taken of the company's land grant in the above calculation, beyond its connection with grazing. The bulk of the floating debt is secured by land, but there remain some millions of acres awaiting a market, and whose sale would greatly benefit the road. The future of the Atlantic & Pacific is encouraging. The stock sold at 8½."

Unlon Paelfic.—The report of the Government directors has some very sensible comments upon the affairs of this com-

bulk of the floating debt is secured by land, but there remain some millions of acres awaiting a market, and whose sale would greatly benefit the road. The future of the Atlantic & Pacific is encouraging. The stock sold at 8½."

Unlou Pacific.—The report of the Government directors has some very sensible comments upon the affairs of this company. Among other things it states that an examination of the stock holdings of the Union Pacific develops some very interesting, and, under present circumstances, important features. It demonstrates what may not be generally understood, that it would be quite a public misfortune if the holders of small lots should, by the permanently reduced value of the stock, be discouraged and induced to withdraw their investments. The capital stock is divided into 609,685 shares of \$100 each. The Boston stock ledger, which in 1875 contained the names of only 95 holders, representing 67,121 shares, now contains 5,145 names, representing more than 231,000 shares. In 1875 the average to each shareholder was 706; now it is 44 shares. Of the 95 holders only 33 are now on record, "It thus appears that about 149 in each 150 of those who hold stock today were not holders in 1875: not one in 150 of the present Union Pacific stockholders were owners of stock in 1875." There are now 7,713 holders of the stock. In 1875 there were scarcely as many hundred. At that time the holdings were in large amounts. Now 3,550 out of this total of 7,713 persons hold ten shares or less, 3,449 hold between 10 and 250 shares, 165 hold between 251 and 500, and 156 hold more than 500 each. These comprise women (mainly in New England, 2,346 holding 58,016 shares), trustees and guardians (327 holding 9,673 shares), and banks (holding! fas collateral 11,566 shares). The New York stock ledger shows a more nearly approximate condition than generally supposed, or at least frequently asserted. Of the 375,502 shares registered in New York, President Adams, upon careful computation, expresses the opinion that no more than 123

In conclusion the directors say: The very happy fact that the stock of the company is owned now mainly by investors instead of speculators has had great weight with the Government directors.

-The land sales in December and for the year were as fol-

	1	881	l:	383.
December-	Acres.	Amount.	Acres.	Amount.
Union Division	140,208	\$172,911	125,818	*380,201

		40.000.000	2.2.2.2.4.0	24 224 225
Totals	1.823,211	\$8,606,393	1,106,318	\$1,081,133

The acres sold increased 3,656,863 in 1884 and the amount increased \$4,525,265. The average price per acre in 1884 was \$1.78, against \$3.49 in 1883. Many of the lands sold in 1884 had been thought unsalable for years, but a market unexpectedly developed, and therefore the immense increase in the acres sold and the decrease in the price per acre.

—Among the cards of bankers and dealers in foreign exchange published in the Chronicle will be found this week the card of Messrs. Maitland, Phelps & Co., of 22 and 24 Exchange Place. This firm is too well known to require introduction to the readers of the Chronicle, but it may be permissible to call attention to the fact that this house is prominent in drawing bills and letters of credit on Cuba, Mexico. &c.

—Attention is called to the card of Messrs. J. H. Latham & Co. in to-day's Chronicle. The firm is composed of gentlemen well and favorably known in Wall Street. They make a specialty of all good investment bonds, and buy and sell on commission city, county, state, railroad and District of Columbia bonds.

—Messrs, L. H. Taylor & Co., the enterprising brokers of Philadelphia, have issued for their customers a diary for 1885, a neat little memorandum book, containing much useful information in regard to stock and bond quotations, and a chronicle of notable events in financial circles for 1884.

—The Homestake Mining Co. has declared its 77th dividend of 25 cents per share, for December, payable at the San Francisco office, or at office of Messrs. Lounsbery & Co., transfer agents, 15 Broad Street, N. Y.

-The regular quarterly dividend of 1½ per cent has been declared on the stock of the St. Paul Minneapolis & Manitoba

Anction Sales.—The following, seldom or never sold at the tock Exchange, were sold at auction this week by Messrs.

NEW YORK FRIDAY, JAN. 16, 1885 .- 5 P. M.

The Money Market and Financial Situation .- There was a better tone in financial circles and an inclination to take a more hopeful view of the future, but the two heavy failures of Thursday gave a serious check to this tendency towards improvement. The suspension of Oliver Bros. & Phillips in Pittsburg and John J. Cisco & Son in New York were both unexpected, and coming as they did on the same day, the effect on the markets was unsettling.

The report of railroad earnings for the month of December, published to-day, is the best monthly report, in comparison with 1883, that we have had for a long time. It is therefore encouraging that the last month of a very bad year should end so well; and as the gross earnings are maintained at so good a figure it is hoped that a severe economy in expenses during 1885 may cause the net income to show more favorably than in 1884.

The confidence of investors has been much shaken by the practice of railroad managers and receivers in making default on first mortgage bonds when the yearly earnings of a road are much more than sufficient to meet such interest. The attempt if made in this way to reduce first mortgage bonds to the level os a second, third, or consolidated mortgage, and to frighten weak holders into selling their securities at a low price, or consenting to scale down their interest to a lower rate. All trace senting to scale down their interest to a lower rate. All transactions of this sort may be classified under the general head of a disposition to ignore the strict obligation of contracts, and they should be resisted to the utmost. they should be resisted to the utmost. Holders of first-class mortgage bonds, abundantly secured for both principal and interest, should in no case sacrifice their bonds on account of a temporary default in interest.

Rates for call loans during the week on stock and bond col-

Rates for call loans during the week on stock and bond colterals have ranged at \$\frac{1}{4}\@2\$ per cent and to-day at \$1\@2\$ per cent. Prime commercial paper is quoted at \$4\@5\$ per cent.

The Bank of England weekly statement on Thursday showed a gain in specie of £378,487, and the percentage of reserve to liabilities was 40 13-16, against 33\frac{1}{8}\$ last week; the discount rate remains at 5 per cent. The Bank of France lost 1,358,000 francs in gold and 932,000 francs in silver.

The New York Clearing House heals in their gesterment of

The New York Clearing House banks, in their statement of Jan. 10, showed an increase in surplus reserve of \$7,623,750, the surplus being \$47,644,375, against \$40,020,625 the previous week.

The following table shows the changes from the previous week and a comparison with the two preceding years in the averages of the New York Clearing House banks.

	1885. Jan. 10.	Differ'nces fr'm Previous Week.		1883. Jan. 13.

Exchange.-Sterling has been very firm in tone all the week, and posted rates were twice advanced, ic. each time. This firmness is due principally to a scarcity of commercial bills, assisted by a slightly increased demand on account of January remittances

Tenittances. To-day the rates on actual business were as follows, viz.: Bankers' 60 days' sterling, $4\ 81\frac{5}{4}\ 42$; demand, $4\ 85\frac{5}{4}\ 48$ 6. Cables, $4\ 86\frac{1}{4}\ 486\frac{5}{4}$. Commercial bills were $4\ 80$. Continental bills were: France, $5\ 23\frac{5}{4}\ 524\frac{5}{8}$ and $5\ 21\frac{1}{4}\ 521\frac{1}{8}$; reichmarks, $94\frac{5}{8}$ and $94\frac{7}{8}\ 995$; guilders, $39\frac{5}{4}\ 39\frac{7}{4}$ and $40\ 40\frac{1}{8}$.

The following were the rates of domestic exchange on New York at the under-mentioned cities to-day: Savannah, buying discount, selling \(\frac{1}{2}\) discount \(\precent{0}\) par; Charleston, buying \(\frac{1}{2}\) discount \(\precent{0}\) par, selling \(\precent{0}\) par\(\precent{0}\) discount; bank, 100 premium; St. Louis, 90 premium; Chicago, 25 premium.

The posted rates of leading bankers are as follows:

January 16.	Sixty Days	Demand
Prime bankers'sterling bills on London Prime commercial	4 921g 4 80	4 86 12
Documentary commercial	4 794 5 234	5214
Amsterdam (guilders)Frankfort or Bremen (reiebmarks)	40	40¼ 95⅓

United States Bonds.—Government bonds bave been good demand, though the sales were not as large as during the previous two weeks. Prices are about steady.

The closing prices at the N. Y. Board have been as follows:

	Interest						Jan.
	Periods.	10.	12.	1.3.	14.	15.	16.

* This is the price bid at the merning board; no sale was made.

State and Railroad Bonds.—The sales of State bonds were: \$1,000 Missouri 6s, 1887, at 103½; \$1,000 do., 1886, at 104; \$3,000 do., 1889, at 107; \$1,000 Alabama, Class A, at 82½; \$22,000 Tennessee Compromise bonds at 49½-50½-50⅓,

and \$2,000 Virginia 6s, deferred, at 6.

The market for railroad bonds has been quite active and irregular in tone, some of the leading bonds declining sharply. The West Shore 5s and Eric 2ds have both had a severe break, immediately due to free selling, but not accounted for satisfactorily by any more substantial cause arising from any new facts that have come out in regard to those companies. The Houston & Texas Central bonds have declined by reason of the buying of the coupons, and the Central Iowa 1sts sold down for buying of the coupons, and the Central Iowa 1sts sold down for the same reason, that a part of the coupons were bought instead of being paid in cash. The West Shore 5s close at 35, against 37\(\frac{7}{8}\) last week; Erie 2ds at 55\(\frac{5}{8}\), against 58\(\frac{3}{4}\); Houston & Texas Cent. 1st (Main Line) at 88\(\frac{1}{2}\), against 99; do. Western Division at 78, against 91\(\frac{1}{2}\); do. Main Line 2ds at 70, against 95; Central Iowa 1sts at 95, against 100; Ohio Southern 1sts at 84, against 83; East Tennessee 5s at 45, the same as last week; do. incomes at 12, against 11; Richmond & Danville consol. 6s at 96, against 95; do. debenture 6s at 59, against 534 against 531.

Railroad and Miscellaneous Stocks.—Speculation on the Stock Exchange, while not very active, and at no time showing any marked or important advance, presented a firmer and healthy appearance in the early part of the week. This strength continued, with only partial re-actions, until Thursday, when the market gave way under bear pressure, led by a break in Eric stock and 2d consol. bonds.

On Thursday, the two important failures occurred though

On Thursday the two important failures occurred, though they came too late to affect prices that day. The failure of

Messrs. John J. Cisco & Son was a surprise to most people, but the firm had little or no liability on the Stock Exchange.

With the exception of these failures there have been few developments in financial affairs, and much of the strength of the market was due to a better feeling, as shown in the fact that prices gained in the absence of any depressing rungers. that prices gained in the absence of any depressing rumors, indicating a general tendency to improvement before the failures of January 15. The condition and prospects of the coal trade have not been improved by the refusal of the Pennsylvania Railroad to join the combination, and the coal road stocks, especially Lackawanna, have been among the weakest on the list.

The grangers were very well supported, and their prices strong on good returns of earnings and a reported pool movement in the market, but to-day, with the general decline, these stocks also weakened materially, though closing at a partial recovery.

The market this morning was rather demoralized by the news of the two heavy failures, and stocks all sold off, but in the afternoon there was a much better feeling and a decided recovery in prices, which closed at or near the best figures of the day.

Investment

Railroad Intelligence.

The Investors' Supplement contains a complete exhibit of the Funded Debt of States and Cities and of the Stocks and Bonds of Railroads and other Companies. It is published on the last Saturday of every other month—viz., February, April, June, August, October and December, and is furnished without extra charge to all regular subscribers of the Chronicle. Extra copies are sold to subscribers of the Chronicle at 50 cents each, and to others than subscribers at \$1 per copy.

ANNUAL REPORTS.

Philadelphia & Reading Ralfroad. (For the year ending Nov. 30, 1884.)

The report of President Keim, read at the annual meeting, shows that the earnings for 1884 include the Central of New Jersey receipts for the whole year, but in 1883 the receipts of that road were included only from the 1st of June.

GROSS AND NET RECEIPTS.

FLOATING DEBT.

With reference to the increase of the floating debt and the fliculties resulting therefrom the managers have to report—

11	the close of the fiscal year 1884, the floating debt of he Railroad Company, including receivers' certificates, was rrent flabilities.	\$12,086.241 7,770,815
E	e floating debt of the Coal & Iron Co. fovember 30, 1881, including receivers' cor- ifleates, was \$2,003,253 rrent liabilities \$1,657,314	\$19,857,056 - 3,660,567
	Total for both companies, November 30, 1884 Total for both companies, November 30, 1883	\$23,517,623 18,065,207
	THE CENTRAL OF N. A. STOCK TRANSLACTION	\$3,452,416

The above statement of the debt of the Reading Railroad

Company for the year 1883, included the liability of the company on 50,100 shares of the capital stock of the Central Railroad Company of New Jersey, which was purchased at an average price of \$78 05 per share. The aggregate sum to be paid for the same was \$3,010,776. Prior to the 1st of January, 1881, the sum of \$450,465 had been paid thereon, leaving a balance due of \$3,460,311. The stock was carried for the company by various parties in the cities of Philadelphia and New York. In consequence of the flanacial embarrassments that ensued after the numerous and extensive failures that occurred in New York City in the early part of the year, this company was called upon to pay the sums due upon the sald stock. It was impossible for the company at that time to repay the sums advanced upon it. If it should be thrown upon the market, as was threatened, it was certain that an enormous loss would be sustained by the company. To avoid this disastrous result the management secured a temporary loan to the amount of \$3,263,885, upon the security of said shares and other collaterals. The parties so advancing the money carried the stock until, in consequence of the inability of the company or the receivers to repay the loan, they caused 49,100 shares of the stock of the New Jersey Central Railroad Company to be sold, and realized thereon the average price of \$55 95 per share, making the aggregate sum for the sharea sold of \$2,747,367.

CLAIMS ON CENTRAL OF NEW JERSEY.

The expenditures on account of the Central Railroad Company arose under the terms of the lease. For such expenditures the Reading Company is entitled, at its election, to receive stock or bonds of the said company. The said company has been notified of the election of the Reading Company to receive the bonds of the former company in payment of the same. The Reading Company was, on December 1, 1884, entitled to bonds on the above account to the amount of \$1,516,411, it having received during the year 1883 bonds for \$600,000 on account of similar character of expenditures made by it during that year.

\$600,000 on account of similar character of expenditures made by it during that year.

To the extent that these obligations are issued to the Reading Company to replace obligations paid by the said company, there will be no increase thereby in the fixed charges assumed by the company under the terms of the lease.

Assuming that the lines named are to be placed under the system of the Central Railroad of New Jersey, the Reading Company is also entitled to be reimbursed for its expenditures on account of the Williamstown Railroad and the Philadelphia & Atlantic City Railroad. & Atlantic City Railroad.

LOSSES AND EXPENDITURES.

The expenditures on capital account for the Railroad and Coal and Iron companies have also resulted in a further increase of the floating debt.

In like manner the losses sustained in conducting the business of the two companies led to an increase of such indebtedness. The expenditures made and losses so sustained, as well as the principal items which contributed to such increase, may be thus summarized: be thus summarized:

Pittshurg & Lake Erie.

(For the year ending December 31, 1884.)

(For the year ending December 31, 1884.)

The meeting of the stockholders of the Pittsburg & Lake Erie Railroad Company was held at their office in Pittsburg. The report of the President showed that the road operates, including the Pittsburg McKeesport & Youghiogheny Railroad, 135 miles of track.

The capital stock of the company is \$2,050,000, the same as last year, and the funded debt consists of \$2,000,000 first mortgage bonds bearing 6 per cent interest. The sum of \$35,000 has been expended for real estate in Pittsburg near the Point Bridge. A sale of a tract to enable the Pittsburg Chartiers & Youghiogheny Company to connect with the road and to cross over it to reach their coal landing was made for the sum of \$16,772, which leaves this amount in excess \$18,227.

The earnings of the Pittsburg & Lake Erie Railroad for the years 18:3 and 1884 were:

Earningsfrom—

Earnings from-	1884.	1883.

PITTSBURG M'KEESPORT & YOUGH The lease of the Pittsburg McR		

Railroad was confirmed at the meeting of January 14, 1884. The results of the operation of the road for the year 1884 are

Net earnings.
Interest and dividends.

The rental under the lease calls for 6 per cent on the outstanding stock and bonds of the Pittsburg McKeesport & Youghiegheny Railroad, amounting for the year to \$329,230, which shows a loss in the operation of the road for the year of \$32,135. This is attributed mainly to the depression in business, and the board of directors is by no means discouraged. One-half of the loss of operating this road is assumed by the Lake Shore road and half by the Pittsburg & Lake Erie.

GENERAL INVESTMENT NEWS.

Central Iowa.—The non-payment by the company of the January coupons, which were due January 15, was explained by the following statement of Russell Sage, Vice-President of the read: "The coupons of the Central Iowa road, due to-day, are being paid and purchased by the Mercantile Trust Company. Those purchased will be repaid and canceled from the first earnings of the road until they are all paid, as have been the previous coupons on the same class of bonds. The directors are arranging a plan for paying one half or four coupons the previous coupons on the same class of bonds. The directors are arranging a plan for paying one half or four coupons on the divisional bonds, which are converted into consolidated bonds, in cash, the other half to be funded into said consolidated bonds. This will free the company from its floating debt and enable it to complete the building of the bridge across the Mississippi River at Keithsburg. With estimated earnings of the present and coming year, interest will easily be paid as it matures. The small deficiency that has accrued has been in consequence of the loss of crops in the last two years and the light earnings in consequence of the same; also the light earnings on the divisions of the road for two years. Earnings, however, are improving, and we believe that everything will go on smoothly in the future."

Chicago Burlington & Oniucy.—The Boston Transcript

Chicago Burlington & Quiucy.—The Boston Transcript says: About 80 per cent of the Chicago Burlington & Quincy stock due to issue January 1 was distributed by the company, subscribers for the balance availing themselves of the company's offer to loan the amount of the last payment at 3 per cent interest and retain the stock. The full amount of new stock will be entitled to dividends in March, adding some \$140,000 to the quarterly dividend payments on the 2 per cent basis. basis.

Cincinnati Indianapolis St. Louis & Chicago.—The comparative earnings, expenses and fixed charges for November, and for five months of the fiscal year, were as below. The earnings are from transportation only, miscellaneous income being added to profit and loss account at end of each six months. The conservative course pursued by this company in suspending dividends and paying off floating debt is having its legitimate fruits, and gives the promise of an early resumption of dividends on a more certain basis. Both the bonds and stock of this company seem to invite attention at their recent prices.

Fort Worth & Denver City.—A dispatch from Fort Worth,
Tex., says: "The announcement is made to-day on the authority of Colonel Frest, Superintendent of the Fort Worth & Denver Railroad, that the railroad will at once be extended from Wichita Falls, the present terminus, to some point in Wilberger County, about fifty miles further west. This will give them command of business in the Texas Panhandle, and largely increase their traffic and the trade of Fort Worth. Work will begin in a short while, and will be pushed."

Houston & Texas Central.—Mr. C. P. Huntington has made a statement regarding the default of the Houston & Texas Central Railroad Company, in which he says that the Southern Development Co. in November, 1884, acquired a majority of the Houston & Texas Central stock, with its purchases of

the Morgan's Louisiana & Texas property. The Houston & Texas Central Co. did not earn enough to pay its July, 1834, coupons on the first mortgage, and the Southern Development Co. loaned \$325,000 to the Houston & Texas Central Co. to meet the interest, the Houston & Texas Central expecting to repay the loan from the earnings of the latter half of the year; the company was, however, disappointed in this respect, and of the \$325,000 loaned only \$70,000 has been repaid. Mr. Huntington says further that, after inquiring into the Houston & Texas Central's affairs, he became fully convinced that not only had the road not earned its interest falling due Jan. 1, 1885, "but that, under the circumstances, it could not be reasonably expected that the Railway Company would be able to make provision for the large interest charge annually accruing against it." Under these circumstances Mr. Huntington made arrangements in December with the Southern Development Co. to purchase the coupons due Jan. 1st, 1885, purely as a matter of convenience to the holders. "Every pains was taken, as I am informed, to advise coupon holders that the interest had not been earned, that the Railway Company had not sufficient credit to enable it to borrow the money, and that the coupons were being purchased and not paid. If any person has sold his coupons to the Southern Development Company, through inadvertence or mistake, that company has not hesitated in any instance upon the repayment of the money to return the coupons."

—At a meeting of first mortgage bondholders on January 10 the following resolution was adopted:

That a committee of five be appointed to inquire into the condition of the Houston & Texas Central Railroad, and to recommend a course of proceeding for the protection of the bondholders' interests, the committee to report at a future meeting to be called by the Chair.

Messrs. James Middledith, Cyrus J. Lawrence, C. I. Hudson, A. Foster Higgins and William Laimbeer were appointed on the committee, said that \$2,500,000 of the bonds

Indianapolis Decatur & Springfield.—The attention of bondholders is called to the fact that the trustees of the second mortgage are now paying at the Central Trust Company, New York, one half of coupon No. 11, due Jan. 1, 1882, attached to the second mortgage bonds of said company, being \$17.50 on each one-thousand-dollar bend. On presentation of the bonds said coupon will be thereupon stamped "half paid."

This payment will equalize as to cash payment the bonds which have not been exchanged or converted with those herewhich have not been exchanged or converted with those heretofore exchanged.

Jamestown & Franklin.—A year ago the twenty years lease to the Lake Shore & M. S. Co. expired and efforts were made to prevent a renewal. The election was held on Monday, Jan 12 and a lease of the road to Lake Shore for five years. Jan. 12, and a lease of the road to Lako Shore for five years was then perfected.

Lake Eric & Western.—It is reported that an extension of the Lake Eric & Western Railroad from Bloomington to Peoria, Illinois, 43 miles, will be built this spring. The extension will be called the Lake Eric & Mississippi road, will be bonded for \$1,000,000 6 per cent firsts and stocked at \$1,000,000. The bonds have been taken by a syndicate controlling Eric & Western, it is reported, at about 80. The stock will be held in the company's treasury. With this extension the company will have a mileage of 429 miles. The extension is supposed to be in Lake Shore's interest.

Louisville Evansville & St. Louis.—At Boston, Jan. 12, the first and second mortgage bondholders of this company appointed Jonas H. French, Isaac T. Burr and F. B. Taylor a committee to co-operate with two to be chosen by the Louisville bondholders in maturing a plan for reorganization. Col. Jonas H. French presided, and briefly explained the object of the meeting. The company had been carrying a floating debt of about \$450,000, and it had become burdensome, so that the appointment of a receiver became necessary. appointment of a receiver became necessary.

Net earnings \$84,759 Interest and taxes 57,090 Surplus...... \$27,669 \$38,706 \$181,707

New York Central & Hudson.—In the suit of John Newton, a holder of debenture bonds, to enjoin the payment of the quarterly dividend, Judge Ingraham remarked that it appeared to him that, whether there had been sufficient earned for prior dividends or not, the company had earned a sufficient amount to pay this dividend, and there was no rule of law to prevent their doing it. There was no floating debt, and it would be manifestly improper to grant the injunction demanded. He therefore denied the application.

New York Lake Erie & Western.—The statement of gross and net earnings for November and from October 1 is given below, and the gress earnings include 68 per cent of the earnings of the New York Pennsylvania & Ohio leased line, the other 32 per cent of the earnings of that line being paid as rental. The net earnings are correct, and show the actual results to the New York Lake Erie & Western Company.

New York West Shore & Buffulo,—The general passenger agent of this company has issued a circular concerning the passenger business of the past year in which he says: "Not withstanding all the difficulties surrounding the operations of a new road, the gross passenger earnings of the West Shore between New York and Buffalo for the year ending December 31st, 1881, were in excess of one and one half million dollars. In considering this exhibit, the same allowance for the general depression in 1884 should be conceded the West Shore that has been allowed its competitors, and, moreover, it should be borne in mind that the West Shore was opened to Buffalo on January 1st, 1881, with all the rawness characteristic of new times, especially on the Buffalo Division, where, for several months, but one local and one through train was run, retarding the growth of both local and through business.

lines, especially on the Buffalo Division, where, for several months, but one local and one through train was run, retarding the growth of both local and through business.

"During the year the receivers completed the double track through the Mohawk Valley, finished many of the stations, and improved and increased the facilities all along the line." ** * * "Reducing the train and road mileage of the Central to the basis of the West Shore, treating mile and mile alike for the purposes of comparison, the results show that the passenger carnings of the Central, for the same road and train mileage, were not greatly in excess of the West Shore during the first year of the latter's existence. A comparison with the gross earnings per mile of the Eric system will reveal the fact that they were exceeded by the West Shore's passenger earnings per mile for the period under consideration."

The trustee of the 1st mortgage bonds of West Shore has notified the company that the principal of the bonds is due on account of the default in interest; also has given notice to the courts, and asks for leave to foreclose. We understand that no plan of reorganization has been decided upon by the bondholders' committee, because of creditors' claims, principally North River Construction Company, and because of some trouble among the bondholders. Another source of dissension is the fact that some of the bondholders have larger interests in North River Construction stock.

North Carellus State Finances The report of the State tion stock.

North Carollna State Finances.—The report of the State Treasurer of North Carolina shows the amount of old bonds authorized to be funded into 4 per cent bonds was \$12,627,045. of which \$9,627,445 have been refunded, making a new debt of \$2,803,796. If the Legislature extends the provisions of the funding act, now expired, and the remaining bonds are funded, the total issue of 4 per cents will be \$3,589,511. Two million and thirty thousand dollars new 6s were issued in exchange for a like amount of North Carolina construction bonds, \$765,000 of which are still outstanding. The interest on the new debt has been promptly met. The public fund on hand at the close of the fiscal year was \$926,026. The Treasner recommends that the tax be only ten cents on \$100 worth of property for the next year. The State finances are reported to be in excellent condition. North Carollua State Finances. - The report of the State of property for the next year. to be in excellent condition.

Northern Central.—The loan known as the second mort-gage, which is now a first lien upon the property, subject only to the mortgage to the State of Maryland, will mature July 1, 1885. The holders of the bonds will be given the op-tion of receiving payment in eash or exchanging their bonds at par for 4½ per cent consolidated bonds having 40 years to

Oregon & California.-The first mortgage bondholders' Oregon & California.—The first mortgage bondholders' committee have under consideration the best means of earrying into effect their resolutions of the 14th and 21st November for reorganizing the finances of the company. The London & San Francisco Bank (limited) is buying coupon No. 7, due 1st inst., of the company's first mortgage gold bonds, at 4s. 2d. per dollar. The committee hopes to form a satisfactory plan, but foreclosure proceedings will probably be begun soon.

but foreclosure proceedings will probably be begun soon.

Philadelphia & Reading.—The stockholders of the Philadelphia & Reading Railroad Company held their annual meeting in Philadelphia Jan. 12. The attendance was not as large as in previous years. The following ticket was elected without opposition: President, George DeB. Keim; managers, J. B. Lippineott, J. V. Williamson, Franklin A. Comly, Joseph Wharton, John Wannamaker, Robert H. Sayre; Secretary, Albert H. Foster; Treasurer, William A. Church.

General Collis offered a series of resolutions, which were adopted, providing for the appointment of a committee of seven stockholders to examine into the affairs of the railroad company, ascertaining what the liabilities and assets of the road consist of and appraise all real estate and other property belonging to and operated by the company.

road consist of and appraise all real estate and other property belonging to and operated by the company.

The committee appointed to consider a plan of reorganization presented a long report. It recommends the payment in cash of certain interest, rentals and guarantees, the aggregate of which will constitute the fixed charges. These are followed by those to be reduced in interest, which include some of the coal land mortgages and the following guaranteed securities:

Colebrookdale R. R. Co.—Guaranteed bonds, reduce to 4 per cent. Pickering Valley R. R. Co.—Guaranteed bonds, reduce to 4 per cent. Schuylkill Navigation Co.—Pay interest in full; extend overdue honds at full rate of interest and pay 5-7 of present dividends in cash, balance 2-7 to be capitalized in P. & R. R. R. Co. common stock.

Susquehanna Canal Co.—Pay interest on mortgage loans of 1894 in full. On State of Maryland loan, reduce to 4 per cent. All subsequent loans and interest and stock and accrued dividends to be converted into new second series 5 per cent income bonds at par.

Philadelphia Newtown & New York R. R. Co. bonds reduce to 4 per cent. The bonds held by the P. & R. R. Co. to be stamped as a subsequent flen to those hold by the public.

Norristown Junetion R. R. Co. bonds, in full.

Northeast Penn. lt. lt. Co. bonds, in full. Hamburg Iron Co. bonds, in full. The fixed charges must also include interest on floating debt, or any loan created to extinguish it.

The following changes are proposed in the various securities of the company, for which full payment is not provided in the other fixed charges:

The following changes are proposed in the various securities of the company, for which full payment is not provided in the other fixed charges:

General mortzage: Defer half the interest for three years for the unpublished compose beginning January 1, 1885; glvs serio in series A. Branch and the properties of the compose one exies for each year, not bearing interest, but it is not provided in the provided of the series of the compose of the compose of the compose of the first surplus earnings of each year, not bearing interest, one interest, not embraced in the above like of instinctive of the compose and provided the series of a past year, if any be left unpublished to be sepiled to the series of a past year, if any be left unpublished. Mr. Gowen had submitted his own plan of rehabilitation to the committee some days before the meeting. The following is a list of the securities printed at the end of Mr. Gowen's ing is a list of the securities printed at the end of Mr. Gowen's pamphlet, giving the plan for the reorganization of the Reading Company and referred to as schedule A. These are securities on which Mr. Gowen proposes to base a collateral loan for \$20,000,000, in place of the present floating debt. The Philadelphia *Press* says: "Mr. Gowen quotes all the securities at par value. Some of the stocks and bonds in the list, however, have only a nominal market value. For example, the \$1,870,000 Union Canal bonds are not worth 1 per cent; the 1,000 shares of New Jersey Central stock, valued at par, sold at 37 per cent yesterday." at 37 per cent yesterday.'

The result of the joint operations of the Philadelphia & Reading Railroad and Coal & Iron Company in the month of November (including Central of New Jersey Railroad, leased), was a decrease of \$1,211,792 in gross earnings and a decrease of \$729,104 in net, compared with November, 1883. For six months from June 1 there was a decrease in gross earnings of \$4,190,853, and a decrease in net of \$2,708,458, compared with 1883.

Total for 6 mos. \$26,002,285 \$30,193,133 \$8,446, 29 \$11,155,287 The earnings of the Central of New Jersey were separately stated until June, 1884, and the comparative statement of gross and net earnings of both companies from Dec. 1 to May 31 was published in the CHRONICLE of July 5, on p. 22.

Rutland.—The directors of this company have decided not to declare the semi-annual dividend of 1 per cent, which was expected. The reason given is somewhat peculiar. It is stated that some \$10,000 of the old 8 per cent bonds have been presented for payment which it was supposed had been paid and canceled by the former managers of the company.

Richmond & Alleghany.—A general meeting, open to all first mortgage bondholders, has been called for next week Friday at 3 P. M. at No. 20 Nassau Street. It is stated in the call that negotiations for a settlement have failed, and the question to be decided is, What shall be done to secure the imperilled rights of the holders of first mortgage bonds

State Line & Sullivan .- The State Line & Sullivan Railroad, extending from Monroeton, near Towanda, to the coal mines of the company at Bernice, has been leased by the Pennsylvania & New York Canal & Railroad Company, which is controlled by the Lehigh Valley Railroad Company, for a term of fifty years from May 1 last.

term of fifty years from May 1 last.

Toledo Cinciunati & St. Louis.—Judge Gresham in Chicago has ordered the receiver to report forthwith the rolling stock belonging to the mortgaged property and all outstanding charges or claims against it. Also, to keep separate accounts for each division of the road, to lease certain equipment and keep it on the road, and to take freight from connecting roads only at full local rates, thus abandoning for the present the unprofitable through business. The valuable terminals at East St. Louis were in danger of being lost by non-payment of notes given on their purchase, but some of the members of the Quigley reorganization stepped in and raised some \$48,000 and made the required payments to save this property. Judge Gresham permitted the purchase by these parties under an order that the new company to be organized under the auspices of this committee, should have an option at any time within eighteen months, to repay that \$48,000 with interest and take the terminals. A decree for the sale of the road is expected in April.

The Commercial Limes.

COMMERCIAL EPITOME.

FRIDAY NIGHT, January 16, 1885.

The outward movement of food staples, at somewhat better prices than those recently ruling, continues to be regarded as promising an early improvement in mercantile affairs; indeed, a favorable effect may already be noted in the revival of manufactures; but in relation to the trade for the coming spring the complaint is heard that if there be some increase in the volume of business, it is at prices so low as to afford little eatisfaction to the sellers. The weather is again changeable and wet, and the recent thaws and heavy rains are causing floods in many sections. Violence on the part of strikers is reported from the Western States, but reduced wages are generally accepted quietly. The failure of John J. Cisco & Son, and the suspension of important iron houses at Pittsburg, caused much depression in speculative circles this morning, but there was a pretty general recovery of tone and prices in the closing hours of business.

Lard futures have continued active, but the tone of speculation has been uncertain, and the advance in prices, noted in our last, has not been sustained. To-day some early depression was partially recovered and the close was steady at 7.18c. for Feb., 7.25c. for March, 7.31c. for April and 7.38c. for May. Spot lard is nearly nominal at 7@7.05c. for prime City, 7.15@ 7.20c. for prime Western and 7.40@7.50c. for refined for the Continent. Pork has advanced but closes dull at \$13 25@ \$13 50 for mess and \$15 50@\$16 for clear. Bacon remains nominal at 61/2@71/4c. Pickled cut meats have been fairly active at 61/4@63/4c. for bellies, 53/8@55/8c. for shoulders and 83/4@91/4c. for hams. The number of swine slaughtered at the principal Western points to the latest dates this season was 3,116,000, against 2,732,000 for the corresponding period last year. Beef and beef hams remain nominal. Tallow has been firmer but closes quiet at 61/8c. Butter has been quieter, but State creamery is still quoted at 23@36c. Cheese is steady

Brazil coffees have been more active, with fair cargoes Rio quoted at 934c. Options have been rather dull, and were weak to-day, closing at a general decline, with buyers at 8.03c. for Jan., 8.05c. for Feb., 8.25c. for March, 8.35c. for April and 8.45c. for May. Mild coffees have sold fairly. Raw sugars were quite active early in the week, and yesterday quotations were advanced 1-16c. to 43/4@41/2c. for fair to good refining, at which there is to-day less disposition to buy freely. Refined sugars are firm at 65/8@63/4c. for crushed. The speculation in teas has been quieter, but included to-day a line of standard Japans for March at 241/4c.

at 9@131/4c. for State factory.

Kentucky tobacco has continued in demand and firm; lugs 8@9c., and leaf 9@12c.; sales for the week, 650 hds. Seed leaf has also been in fair demand, and sales aggregate 1,050 cases, as follows: 300 cases, 1883 crop, Pennsylvania, 71/2@19c.; 150 cases, 1882 crop, Pennsylvania, private terms; 200 cases, 1881 crop, Pennsylvania, 5½@13c.; 150 cases, 1883 crop, New England, 13@321/2c.; 100 cases, 1883 crop, Wisconsin Havana seed, 16@35c., and 150 cases sundries, 5@28c.; also, 300 bales Havana, 78c.@\$1 15, and 200 bales Sumatra, \$1 20@\$1 60.

The speculation in crude petroleum certificates has been dull, and prices, as compared with last Friday, show an important decline. The opening this morning was at 63c., but there

ant decline. The opening this morning was at 68c., but there was a recovery to 69%c., closing at that figure, and refined has declined to 7½ 7%c., with naphtha 7½c., and crude in bbls, 65%63¼c. There has been much more doing in spirits turpentine, both spots and futures, the sales to-day including, at 30%c, on the spot and 30%c. for February. Rosins are firm, but remain quiet at \$1 25@\$1 50 for common to good strained. Wool has been quite active at Boston.

Metals have been dull, and at to-day's exchange pig iron certificates were unsettled and easier; bids ranging \$16@\$16%, and \$16%\$17 asked. Tin firm; futures closing 16% 16%c. Tin plate dull and easier at \$4 25@\$4 45. Copper steady at 10% 11%c. for Lake. Lead nominal; 3.80c. asked for domestic. Spelter quiet at 4@4%c. for domestic.

Ocean freights have been rather quieter, but rates have ruled steadier, there having been less room on the market. Late engagements include grain to Liverpool at 4½ 4½d., to London 4@4%d., to Avonmouth from store 4% 5% 5%d., to Antwerp 4% 64%d., to Elsinore for orders, 4s.9d., and from Biltimore to Cork for orders, 4s. 6d. Petroleum charters include cases hence to Bombay 28@28½c., and to Salonica 17½c., refined in bbls., from Philadelphia to London or Liverpool 2s, 3d.; crude to Bremen 2s. 1½d.; refined to Antwerp 2s., and cases to Shanghai, 32c. 2s., and cases to Shanghai, 32c.

COTTON.

FRIDAY, P. M., January 16, 1885.

THE MOVEMENT OF THE CROP, as Indicated by our telegrams from the South to-night, is given below. For the week ending this evening (Jan. 16), the total receipts have reached 130,951 bales, against 133,994 bales last week, 154,075 bales the previous week and 207,893 bales three weeks since; making the total receipts since the 1st of September, 1884, 3,956,461 bales, against 3,757,674 bales for the same period of 1883-84, showing an increase since September 1, 1884, of 198,787 bales.

'A firmer opening on Saturday last in cotton for future delivery at this market, was followed, in the next three days, by more or less depression, caused by increased receipts at the ports (mainly at New Orleans) and full arrivals at the interior towns, leading, among many operators, to a disposition to accept an increase in estimates of the total crop. But on Wednesday afternoon the early deliveries showed some re_ newal of strength, the receipts at the ports were greatly reduced, and there was a smart advance in Liverpool, causing some demand to cover contracts, and some revival of speculative confidence, upon which there was a general but somewhat irregular advance. Yesterday the receipts at the ports fell off nearly one-half, while the exports continued large, effecting a rapid reduction of stocks on hand. Liverpool also reported an advance, and the result was, the distant futures advanced smartly on a demand to cover contracts. To-day the opening was much depressed, under unfavorable foreign advices and the distrust caused by the Cisco failure, but the decline was mostly recovered, and, as compared with last Friday, the close was at a slight advance. Cotton on the spot has been very dull. On Monday quotations were reduced 1-16c. To-day the market was dull, middling uplands closing nomi-

To-day the market was dun, mal at 11 1-16c.

The total sales for forward delivery for the week are 294,900 bales. For immediate delivery the total sales foot up this week 1,293 bales, including —— for export, 1,293 for consumption, —— for speculation and —— in transit. Of the above, —— bales were to arrive. The following are the official quotations for each day of the past week.

*Includes sales in September, 1884, for September, 158,200; September-October, for October, 421,800; September-November, for November, 582,200; September-December, for December, 967,800.

*We have included in the above table, and shall continue each week to give, the average price of futures each day for each month. It will be found under each day following the abbreviation "Aver." The average for each month for the week is also given at bottom of table. Transferable Orders—Saturday, 11·15e.; Monday, 11·10e.

The following average have been made during the weeks.

The following exchanges have been made during the week:

'16 pd. to exch. 1,500 Feb. for Mar. | '63 pd. to exch. 800 Feb. for Aug.
'35 pd. to exch. 300 April for July. '06 pd. to exch. 100 Feb. for Mar.
'06 pd. to exch. 1,800 Feb. for Mar. '41 pd. to exch. 300 Feb. for June.

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph, is as follows. The Continental stocks, as well as

those for Great Britain and the afloat, are this week's returns, and consequently all the European figures are brought down to Thursday evening. But to make the totals the complete figures for to-night (Jan. 16), we add the item of exports from the United States, including in it the exports of Friday only.

The imports into Continental ports this week have been 53,000 bales.

The above figures indicate a decrease in the cotton in sight to-night of 213,370 bales as compared with the same date of 1884, a decrease of 73,225 bales as compared with the corresponding date of 1883 and an increase of 18,386 bales as compared with 1882.

AT THE INTERIOR TOWNS the movement—that is the receipts for the week and since Sept. 1, the shipments for the week, and the stocks to-night, and the same items for the corresponding period of 1883-84—is set out in detail in the following statement.

Total, all	Total, new towns	Newberry, S. C Raleigh, N. C Petersburg, Va Ionisville, Ky Little Rock, Ark. Brenham, Texas	Total, old towns.	Augusta, Ga Augusta, Ga Golumbus, Ga Macon, Ga Montgen Ty. -	Thi	s year s figures		imated.

The above totals show that the old interior stocks ha decreased during the week 13,653 bales, and are to-night 40,254 bales less than at the same period last year. The receipts at the same towns have been 24,046 bales more than the same week last year, and since September 1 the receipts at all the towns are 36,969 bales less than for the same time in 1883-81.

QUOTATIONS FOR MIDDLING COTTON AT OTHER MARKETS.— In the table below we give the closing quotations of middling cotton at Southern and other principal cotton markets for each day of the past week.

Week ending	CLOSING QUOTATIONS FOR MIDDLING COTTON ON-

RECEIPTS FROM THE PLANTATIONS.—The following table is prepared for the purpose of indicating the actual movement each week from the plantations. Receipts at the outports are sometimes misleading, as they are made up more largely one year than another at the expense of the interior stocks. We reach, therefore, a safer conclusion through a comparative statement like the following. In reply to frequent inquiries we will add that these figures, of course, do not include overland receipts or Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

RECEIPTS FROM PLANTATIONS.

Week	Receipts at the Ports.			St'k at Interior Towns.			Rec'pls from Plant'ns.		
Ending-	'82-'8S.	'83-'84.	'84-'85.	'82-'83-	33-184.	'84-'85.	'82-'83.	183-184.	'84-'85.

1 19	258,170	247,733	258,340	336,993	423,577	363,860	295,635	261,064	286,755
·· 28					422,310				
Jan. 2					407,974				
" 9					389,898				105,291
11 16	150,800								115,025

The above statement shows—1. That the total receipts from the plantations since September 1, 1884, were 4,244,105 bales; in 1883-84 were 4,069,233 bales; in 1882-83 were 4,363,713 bales. 2.—That, although the receipts at the outports the past week were 130,951 bales, the actual movement from plantations was 115,025 bales, the balance being taken from the stocks at the interior towns. Last year the receipts from the plantations for the same week were 81,284 bales and for 1883 they were 138,109 bales. 138,109 bales.

AMOUNT OF COTTON IN SIGHT JAN. 16.—In the table below we give the receipts from plantations in another form, and add to them the net overland movement to Jan. 1, and also the takings by Southern spinners to the same date, so as to give substantially the amount of cotton now in sight.

	1884-83.	1883-84.	1882-83.	1831-52.
Receipts at the poris to Jan. 16 Interior stocks on Jan. 16 in	3,956,461	3,757,674	4,012,231	3,600,400
excess of September 1	287,644	311,559	351,482	373,618
Tot. receipts from planta'tns				
Net overland to January 1 Southern consumpt'n to Jan. 1	115,000			
Total in sight January 16	4,717,153	4,574,648	4,906,795	4,397,528
Northern spioners' takings to January 16	844,261	938,001	1,023,595	1,130,300

It will be seen by the above that the increase in amount in sight to-night, as compared with last year, is 142,505 bales, the decrease from 1882-83 is 189,642 bales, and the increase over 1881-82 is 319,625 bales.

Weather Reports by Telegraph.—The weather has been rainy in the Southwest during the week, with snow and sleet reported to-day from Arkansas and Tennessee. In the Atlantic States there has been less rain, and the conditions for free marketing have been more favorable.

Galveston, Texas.—It has rained on two days of the week, the rainfall reaching two inches and ninety-five hundredths. The thermometer has averaged 63, the highest being 73 and the lowest 44.

the lowest 44.

the lowest 44.

Indianola, Texas.—We have had rain on four days of the week, the rainfall reaching one inch and eighty hundredths. The thermometer has averaged 58, ranging from 37 to 72.

Palestine, Texas.—It has rained hard on three days of the week, the rainfall reaching five inches and seventy-three hundredths. The thermometer has ranged from 23 to 70, averaging 51.

New Orleans, Louisiana.—Telegram not received.

Shreveport, Louisiana.—We have had rain on three days of the week, the rainfall reaching ten inches and five hundredths. Average thermometer 53, highest 73 and lowest 30.

Vicksburg, Misslssippi.—We are having too much rain. It has rained on four days and the remainder of the week has

been cloudy. The rainfall reached one luch and ninety-five hundredths. The thermometer has ranged from 42 to 66.

Columbus, Misslssippi.—We have had rain on four days of the week, the rainfall reaching two inches and forty-one

hundredths.

Little Rock, Arkansas.—The weather has been fair to clear on three days and the remained of the week cloudy with rain on three days. The rainfall reached two inches and ten hundredths. It is now snowing hard. The thermometer has averaged 42, the highest being 65 and the lowest 23. Last week was clear on three days, and we had rain on three days, with a rainfall of seventy hundredths of an inch. Average thermometer 36, highest 62 and lowest 18.

Helena, Arkansas.—It has rained on four days and the remainder of the week has been cloudy. The rainfall reached four inches and eighty-eight hundredths. Sleet is falling this morning. The thermometer has averaged 45, ranging from 29 to 66.

Memphis, Tennessee.—It has rained on three days of the week, and is now snowing. The rainfall reached two inches and ninety-six hundredths. Average thermometer 47, highest

65 and lowest 29.

Nashville, Tennessee.—It has rained heavily on one day and has been showery on three days of the week, the rainfall reaching two inches and one hundredth. It is claimed that there is much less cotton left at interior points and in planters' hands than for years past at this date. The thermometer has averaged 45, the highest being 63 and the lowest 28.

Mobile, Alabama.—It has been showery on two days of the week, the rainfall reaching fifty-nine hundredths of an inch. To-day constant rain. The thermometer has averaged 59,

To-day constant rain. ranging from 41 to 69.

Montgomery, Alabama.—We have had rain on three days of the week, the rainfall reaching thirty-three hundredths of an inch. The thermometer has ranged from 39 to 73, averof an inch.

aging 57.

Selma, Alabama.—We have had warm, sultry, wet weather during the week. It has rained on four days, with a rainfall of two inches and twenty hundredths. 'Average thermometer

of two inches and twenty hundredths. Average thermometer 55, highest 68, lowest 43.

Auburn, Alabama.—We have had a severe tornadic storm on three days of the week, the rainfall reaching one inch and sixty-two hundredths. The thermometer has averaged 52°8, the highest being 68 and the lowest 38°5.

Madison, Florida.—We have had rain on one day of the week, the rainfall reaching thirty hundredths of an inch. The thermometer has averaged 60, ranging from 37 to 77.

Macon, Georgia.—It has been showery on one day of the week. The thermometer has ranged from 35 to 70, averaging 52.

Columbus, Georgia.—We have had rain on one day of the week, the rainfall reaching forty-two hundredths of an inch. Average thermometer 54, highest 65 and lowest 42.

Savannah, Georgia.—It has rained on two days, and the remainder of the week has been pleasant. The rainfall reached thirty-one hundredths of an inch. The thermometer has averaged 58, the highest being 75 and the lowest 45.

Augusta, Georgia.—We had light rain on three days in the early part of the week, but the latter portion has been clear and pleasant. The rainfall reached sixteen hundredths of an inch. The thermometer has averaged 53, ranging from 37 to 70.

Atlanta, Georgia.—We have had rain on one day of the

Atlanta, Georgia.—We have had rain on one day of the eek, the rainfall reaching one inch and seventeen hundedths. The thermometer has ranged from 32 to 62, averaged. week, t

Charleston, South Carolina.—We have had rain on two days of the week, the rainfall reaching forty-eight hundredths of an inch. Average thermometer 57, highest 72 and lowest 44.

Stateburg, South Carolina.—We have had rain on two days of the week, the rainfall reaching eighteen hundredths of an inch. The thermometer has averaged 53.2, ranging from 38 to 67.

Wilson, North Carolina.—It has rained on two days of the week, the rainfall reaching fifty-four hundredths of an inch. The thermometer has ranged from 36 to 66, averaging 50.

INDIA COTTON MOVEMENT FROM ALL PORTS. — We have re-arranged our India service so as to make our reports more detailed and at the same time more accurate. We had found it impossible to keep out of our figures, as cabled to us for the ports other than Bombay, cargoes which proved only to be shipments from one India port to another. The plan now followed relieves us from the danger of this inaccuracy and keeps the totals correct. We first give the Bombay statement for the week and year, bringing the figures down to Jan. 15.

COMPAY RECEIPTS AND SHIPMENTS FOR FOUR YEARS.

Shipments this week.				Shipme	nl« since	Receipts.		
	Great Conti-		Great Conti- Britain nent.		Total.	This Week.	Since Jan.1.	
1985 1884 1883	6,000	7,000	19,000 13,000 20,000 28,000	24,000 18,000	29,000 31,000 29,000 25,000	55,000 46,000	21,000 36,000 34,000 41,000	113,000

According to the foregoing, Bombay appears to show a decrease compared with last year in the week's receipts of 15,000 bales, and an increase in shipments of 6,000 bales, and the shipments since January 1 show a decrease of 22,000 bales. The movement at Calcutta, Madras and other India per is for

the last reported week and since the 1st of January, for two years, has been as follows. "Other ports" cover Ceylon, years, has been as follows. "Oth Tuticorin, Kurrachee and Coconada.

	Shipme	nts for th	e week.	Shipments since January 1.			
7	Great Britain.	Conti- nent.	Total.	Great Britain.	Continent.	Total.	
Calentta- 1885 1884	2.000		2.000 3,300	2,500 6,300		2,500 6,300	
Madras- 1885 1884	500 1,200		500 1,200	1,000 2,200	*****	1,000 2,200	
All others— 1885 1884	1,560		1,500 600	1,500 1,400	*****	1,500 1,400	
Total all— 1885 1884	4,000 5,100	*****	4,000 5,100	5,000 9,900		5,000 9,900	

The above totals for the week show that the movement from the ports other than Bombay is 1,100 bales less than same week last year. For the whole of India, therefore, the total shipments since January 1, 1885, and for the corresponding periods of the two previous years, are as follows:

EXPORTS TO EUROPE FROM ALL INDIA.

-	18	85.	18	81.	1883.		
Shipments to all Europe from—	This week.	Since Jan. 1.	This week.	Since Jan. 1.	This week.	Since Jan. 1.	
Bombay All other ports.	19,060 4,000			55,000 9,900		46,000 19,500	
Total	23,000	38,000	18,100	61,900	29,000	65,500	

This last statement affords a very interesting comparison of he total movement for the three years at all India ports.

ALEXANDRIA RECEIPTS AND SHIPMENTS.—Through arrangements we have made with Messrs. Davies, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years.

Alexandria, Egypt, January 14.	188	1884-95.		3-81.	1882-83		
Receipts (cantars*)— This week Since Sept. 1		35,000 85,000		00,000	95,000 1,821,000		
	This week.	Since Sept. 1.	This week.	Since Sept. 1.	This week.	Since Sept. 1	
Exports (bales)— To Liverpool To Continent	7,000 9,000			161,000 71,000		146,000 45,000	
Total Europe	16,000	295,000	13,000	235,000	12,000	191,000	

This statement shows that the receipts for the week ending Jan. 14 were 135,000 cantars and the shipments to all Europe 16,000 bales.

MANCHESTER MARKET.—Our report received from Manchester to-night states that the market is flat. We give the prices for to-day below, and leave previous weeks' price for comparison.

	1884-85.							1883-84.			
32s Oc Twist		84 tbs. Shirtings.		Ooti'n Mid. Uplds	32s Cop. Iwisi.		814 lbs. Shirtings.		Cott'n Mid. Uplds

HISTORY OF THE KINODOM OF COTTON AND COTTON STAT-ISTICS OF THE WORLD .- Mr. Morris R. Chew, New Orleans, has issued a work on the above subject, suggested, we suppose, by the demand the World's Fair now being held in that city is likely to make for such information. The author has sought to put together the early historical references to cotton, following the history up till, in the progress of events, it became a leading article in the commerce of the world. He also gives some statistical tables of production and cotton movements in general, with a number of illustrations,

JUTE BUTTS, BAGGING, &c.-The demand for bagging has been quite fair and parcels are being taken steadily. There have been sales of 1,500 rolls various grades at full figures, and as selfers are firmly maintaining prices, which are 8%c. for 1½ lbs., 9½c. for 1¾ lbs., 10c. for 2 lbs. and 10%c. for standard grades. Butts are in better request, there being inquiries from manufacturers in market for parcels. The most of the business is for paper grades, though some transactions are reported in bagging. We hear of sales of 3,000 bales both kinds at 1%c. for paper and 2½@2½c. for bagging, the market closing firm at these figures.

COMPARATIVE PORT RECEIPTS AND DAILY CROP MOVEMENT. -A comparison of the port movement by weeks is not accurate.

as the weeks in different years do not end on the same day of as the weeks in different years do not end on the same day of the month. We have consequently added to our other standing tables a daily and monthly statement, that the reader may constantly have before him the data for seeing the exact relative movement for the years named. The movement since September 1, 1884, and in previous years, has been as follows:

Monthly		Year Beginning September 1.							
Receipts.	1884	1883.	1882.	1881.	1880.	1879.			
	1,090,385 1,122,164	1,046,092 1,030,380				942,272			
Pero'tage	3.662,205 of tot. port Dec. 31		3,514,473 58·38	3,253,922 63·93	3,454,099 53·80	3,120,871 62 39			

This statement shows that up to Dec. 31 the receipts at the ports this year were 182,268 bales more than in 1883 and 147,732 bales more than at the same time in 1882. By adding to the above totals to December 31 the daily receipts since that time, we shall be able to reach an exact comparison of the movement for the different years:

_

This statement shows that the receipts since Sept. 1 up to to-night are now 242,562 bales more than they were to the same day of the month in 1884 and 19,178 bales more than they were to the same day of the month in 1883. We add to the table the percentages of total port receipts which had been received to January 16 in each of the years named.

SHIPPING NEWS.—The exports of cotton from the United States the past week, as per latest mail returns, have reached 143,917 bales. So far as the Southern ports are concerned, these are the same exports reported by telegraph, and published in the Chronicle last Friday. With regard to New York we include the manifests of all vessels cleared up to Thursday

night of this week.

Below we give all news received to date of disasters to vessels carrying cotton from United States ports, &c.:

Below we give all news received to date of disasters to vessels carrying cotton from United States ports, &c.:

ACUBA, steamer (Br.), from Galveston for Bremen, arrived off Dover, Eng., January 15, with eargo in her afterhold on fire. Assistance was asked for and scot.

ABERDEEN, bark (Br.), from Mobile for Boston, before reported ashore at Harvey Cedars, N. J. On Jan. 7 the vessel had seven feet of water in her hold and on the 8th she was buried about eight feet in the sand. A few bales of cotton have been saved. The eargo cannot be saved until her deck washes off. There is no prospect of saving the vessel. The eargo emissted of 975 bales of cotton.

Hardinger, steamer (Br.), from Charleston for Grimsby, with 4,644 bales of cotton, while going to sen A. M. of 14th struck on Charleston bar. She spring a leak and the water extinguished the fires. She was towed back to the city with 11 feet of water in her hold. Most of the water has been pumped out. The leak is supposed to be out the nort bilge. The vessel is not thought to have sustained serious damage. Her eargo will be discharged.

Nova Scotian, steamer (Br.), from Bultimore for Liverpool, was towed into New York January 10 by steamship City of Washington, from New York for Mexico and Havann. The Nova Scotian on Jan. 7, 150 miles north of Cape Hearry, broke her shaft and was returning to Baltimore nuder sail. She was taken in tow on the 9th by the City of Washington.

SNOWHILL, steamboat, plying on the Neuse River, N. C., was burned, with a eargo of about one hundred hales of cotton, ten miles above Newbern, N. C., Jan. 10. Vessel and eargo partially insured.

Warren Sawyer, schooper, from New Orleans for Boston, before reported ashore at Nantneket. Seven hundred bales of cotton had been saved up to Jan. 2. The vessel became a total wicek A. M. of 8th, owing to the heavy sea.

BREADSTUFFS.

FRIDAY, P. M., Jaonary 16, 1885.

The large purchases of last week and the sharp advance in prices demanded at the opening of this week had the effect of checking the demand for flour until yesterday, when business was again brisk and the choice grades again marked up, with holders manifesting a very strong feeling. Current prices are now from 50c. to \$1 above those ruling at the opening of the month, and the advance has been most decided in the better qualities. Rye flour and corn meal have sympathized but little with wheat flour, and buckwheat flour has been dull and unchanged.

The wheat market has been variable and unsettled for the week under review. Early in the week there was a good deal of selling to realize profits accruing to speculators from the late advance, and some decline took place, followed by fitful fluctuations; but on Wednesday there was a renewal of the movement toward higher prices, and a very general recovery of speculative confidence. On Thursday the speculation became quite excited, in sympathy with Western advices, and there was an important advance, which, however, was not

fully sustained at the close. To day the opening was lower but the early decline was fully recovered.

Indian corn, though fluctuating somewhat, has not attracted so much speculative interest as last week. A sharp decline on Monday, due to sales to realize, is the main feature of the week's business, though the sharp recovery on Wednesday will not pass unnoticed. There has been a very good trade for export as well as home consumption, but with liberal receipts the demand has been freely met. To-day there was a dull and rather weak market. a dull and rather weak market.

Rye has been rather more active. There was a large business in barley early in the week at better prices, but the advanced views of holders checked business, and the close ist

advanced views of holders checked husiness, and the close ist quiet, with values somewhat uncertain.

Oats early in the week shared, to a limited extent, in the speculative movement, and prices have been rather dearer, but latterly little has been done in them. To-day the market closed firm, with No. 2 at 36c. for Feb., 36c. for March, 36½c. for April and 37½c. for May.

THE DRY GOODS TRADE

FRIDAY, P M . January 16, 1885.

The dry goods trade has presented a more active appearance the past week, owing to the arrival of a great many wholesale buyers in the market, but the volume of business was hardly up to expectations, Southern jobbers in particular having been exceedingly cautious in their purchases. The demand for most descriptions of staple cotton goods and clothing woolens was light and disappointing, but a fairly satisfactory business in spring and summer fabrics, as ginghams, prints, dress goods, lawns, woven wash fabrics, cottonades and white goods was done by the commission houses, and there was a more active movement in domestic hosiery, spring underwear, small wares and notions. The jobbing trade has shown little if any improvement as regards the distribution of assorted lots, and no material increase of business in this department is looked for until retailers have taken account of stock at the end of the month. A fair package trade in domestics, prints, etc., was however reported by a few of the leading jobbers who cater for the wants of small wholesale dealers and the manufacturing trade.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port during the week embraced 2.249 packages, and the principal shipments were as follows; Great Britain. 1,651 packages; Venezuela, 145; U. S. of Colombia 119, and Brazil, 109. The market for brown and bleached cottons ruled quiet, most of the large jobbers and converters being well stocked up for the present, but prices remain unchanged. Wide sheetings were in steady though moderate demand, and cotton sheetings were in steady though moderate demand, and cotton flannels, corset jeans, silesias, dyed cambrics and rolled jaconets continued in light request. Cottonades were distributed in good-sized parcels, and there was a fair business in camlets, cheviots and blue and fancy denims; but other colored cottons, as tickings, ducks, plaids, stripes, etc., were more or less quiet. White goods continued in steady demand, and there was an active movement in such makes as India linens, Victoria lawns. Nainsook checks, etc., in execution of early was an active movement in such makes as India linens, Victoria lawns, Nainsook checks, etc., in execution of early orders. Table damasks and damask cloths were fairly active, and prices are firm at the lately revised quotations. Print cloths were quiet in demand, and the tone of the market was easier at 3 3-16c. for 64x64 "spots" and 2¾ @2 13-16c. for 56x60s. Prints were more active in first hands, and a fairly satisfactory trade was done in ginghams, woven wash fabrics and printed lawns.

PRINT CLOTHS—The following shows the course of the

Domestic Woolen Goods.—The demand for clothing woolens was mainly restricted to small parcels of fancy cassimeres and worsteds, and transactions were light in the aggregate amount, buyers having manifested a degree of apathy bordering upon timidity. Satinets were in moderate request and Kentucky jeans and doeskins continued quiet. Jersey cloths have shown some activity, and pretty fair orders for these goods were placed by the manufacturing trade. Woolen fabrics adapted to ladies wear, as tricots, sackings, plain and plaid suitings, etc., were in very fair demand, and there was a freer movement in staple and fancy worsted dress goods. Flannels and blankets were lightly dealt in by package buyers, and the jobbing trade in these goods was adversely affected by the comparative mildness of the weather. Carpets were in irregular demand, and wool hosiery and knit underwear ruled quiet; but there was a good business in spring DOMESTIC WOOLEN GOODS.-The demand for clothing

wear ruled quiet; but there was a good business in spring hosiery and furnishing goods.

Foreign Dry Goods.—There was a slightly enlarged inovement in certain spring and summer fabrics on account of former transactions, but new business was light and the press goods and silks were mostly onict, and the press goods and silks were mostly onict, and the pressure of t Dress goods and silks were mostly quiet, and men's-wear woolens were slow of sale. White goods and embroideries were more sought after by jobbers and the manufacturing trade, and a fair business was done in British and German bosiery and fabric gloves; but linen goods, handkerchiefs and laces continued sluggish. The auction rooms presented targe offerings of tie silks and China mattings with fairly satisfactory results.

Importations of Dry Goods.

The importations of dry goods at this port for the week ending Jan. 15, 1885, and since January 1, and the same facts for the corresponding periods are as follows:
