WESTERN RAILROAD COMPANY

OF MINNESOTA (Now ST. PAUL & NORTHERN PACIFIC RAILWAY COMPANY.)

Notice is hereby given that the undersigned, the trustees under the mortgage dated May 1, 1881, made by said company to us, to secure an issue of 140 bonds of \$1,000 each, all of that date, have designated, and we hereby call in, for redemption, as provided in the mortgage, all the outstanding bonds of said issue, namely, bonds numbered as follows:

15	36	79	100	120
16	37	80	101	121
17	38	81	102	122
18	39	82	103	123
19	40	83	104	124
20	41	84	105	125
21	42	85	106	126
22	43	86	107	127
23	44	87	108	128
24	45	88	109	129
25	46	89	110	130
26	47	90	111	131
27	48	91	112	132
28	49	92	113	133
29	50	93	114	134
30	51	94	115	135
31	52	95	116	136
32	53	96	117	137
33	54	97	118	138
34	55	98	119	139

Being one hundred and one (101) bonds of \$1,000 each.

The said bonds must be presented and delivered to Messrs. Winslow, Lanier & Co., bankers, 26 Nassau Street, New York City, for account of the undersigned trustees, on or before the first day of May, 1885. The interest on any bond not delivered by that day shall thenceforth wholly cease.

MORTGAGES.—Only the most desirable loans

Absolute safety and satisfaction. The Kansas—Missouri Loan Trust Co., Wyandotte, Kansas.

Financial.

The Corbin Banking Co.

115 Broadway, New York.

7 AND 8 PER CENT FARM MORTGAGES.

The chief difficulty with lenders is their inability to determine whether securities offered can positively be relied upon to return the capital, that being the important consideration.

We have been in active business for thirty years, possess as diversified a knowledge of such securities as are generally offered to the public as any other house, and say unhesitatingly that the showing we can make will enable a lender to form a perfectly independent opinion regarding the desirability of these first mortgage farm loans. We claim that first mortgage farm loans, as negotiated by us, are as safe as either Government or State bonds, and can demonstrate the fact to parties who call and investigate. Those having funds for investment for a term of years, where there is absolute safety and at the same time a high rate of interest, owe it to themselves to call and examine the records of our business for these thirty years.

COMPTROLLER'S OFFICE,
CINCINNATI, March 30, 1885.

SEALED PROPOSALS WILL BE

received at this office until April 30, 1885, at 12 o'clock M., for the purchase of

\$236,000 Bonds of the

City of Cincinnati,

Or less, at the option of the city, at four (4) per centum per annum interest, payable semi-annually, such bonds to bear date of May 1, 1885, and to be redeemed at any time after ten (10) years, and payable at the expiration of twenty (20) years, from such date, accrued interest from date of bonds to day of payment to be added to the price; said bonds to be in all respects in conformity with the provisions and requirements of the act of the General Assembly of Ohio, bearing date March 11, 1883, and authorizing their issue, principal and interest, payable at the American Exchange National Bank, New York.

The said bonds will be sold for not less than par, to the highest bidder.

The right is reserved to reject any or all bids, or to accept them to a part only of their amounts.

Proposals to be in writing, signed by the party, sealed and indorsed "Bids for Bonds," and addressed to the Board of Public Works, care of

R. O. ESHELBY, Comptroller.

THE UNION PACIFIC RAILWAY CO.

TREASURER'S OFFICE,
44 EQUITABLE BUILDING, BOSTON, April 1, 1885.

The undersigned, on behalf of this Company, hereby offers to purchase, on or before June 1, 1885, any or all of the outstanding issue of its Land Grant Bonds on the following terms:

Bonds of the series due and payable April 1, 1887, 104½ per cent and coupon interest.

Bonds of the series due and payable October 1, 1888, 107½ per cent and coupon interest.

Bonds of the series due and payable April 1, 1889, 108½ per cent and coupon interest.

Holders are requested, in making tenders, to state specifically to which of the above-named series their bonds belong, and should address their offers to the undersigned, at his office, No. 44 Equitable Building, Boston.

CLEARING HOUSE RETURNS.

Exchanges during the week under review were adversely affected by the partial suspension of business on Good Friday, which at some of the more important cities was observed as a close holiday. Yet the decline from March 23 in the aggregate reaches only \$5,600,885, and this is wholly due to a loss of \$20,644,731 at New York, for excluding that city an increase of \$15,043,846 is exhibited. Twenty-one cities record clearings in excess of a week ago, and of these six have larger totals than in 1884. New York Stock Exchange share transactions reached a market value of \$48,551,836 for the five days this year, against \$108,525,660 for the full week a year ago. Outside of New York the decline from 1884 was 21.8 per cent.

	Week Ending April 4.			Week Ending Mar. 25.

* Estimated on the basis of the last weekly returns.

THE FINANCIAL SITUATION.

The past week has been conspicuous for the quietness which has prevailed in almost all business circles. One exception should be made, and that is our breadstuffs markets, which have shown no little activity and many variations in price, due mainly to the varying phases of the rumors current respecting England's dispute with Russia, but in part to the persistent claims of damage to the winter wheat. Of course, if the inference from the latest foreign advices, which look like war actually begun, is fully sustained, we may confidently anticipate a fair price for our food products. But ought not our people to be cured by this time of the notion that America can corner the world's wheat supply. We tried it under better circumstances than now prevail and failed; and yet the old hope seems to be perennial among our grain dealers and a dollar a bushel at Chicago is the present dream; hence every time wheat goes up 3d. per quarter at Mark Lane it goes up 5 cents or more a bushel here.

As far as this confidence arises from the unfavorable crop advices which have been current throughout our winter wheat States, the week does not fully encourage it. Only within a very few days, has it been possible to know the effect of the spring weather on the fall-sown grain, but now from several points the report comes, that the start is surprising the farmer who had pronounced the plant winter-killed. These hopeful promises, however, do not merit full acceptance as yet, no more than the hopeless ones did a few weeks back. Yet they are very encouraging, for no greater disaster could befall us now than short crops, and the earlier indications have therefore been quite dispiriting, not solely because they affected winter-wheat but because in the present sensitive condition of the public mind they are readily accepted as a general forecast of the season. What the abundant crops of last year are doing for us, may be seen in our railroad earnings which still continue to record better results than a year ago. Many of our roads are thus rapidly securing a stronger position, and the recuperative force has not spent itself yet, nor will it for months, the benefit from the increase in corn and provisions lasting through the whole year. Hence every one is anxiously looking for evidence of what the coming summer and fall are to bring, feeling that if they only prove as productive as the last, with possibly a better cotton crop too, our railroad properties will have tided over the season of their severest trial.

With regard to the influence of the Russian war upon our commercial and financial interests, we cannot help repeating that it is very easy to overestimate the benefit we are to derive from it. Even on the price of wheat the prevailing views appear to us extravagant. Without counting California, where there is a large surplus and where the crop prospects are now reported excellent, the amount in sight in the United States and afloat for Europe is about 22 million bushels more than last year, while current receipts as well as the low values ruling go to prove that a very considerable amount is even yet left to be sent forward. Then the Australian crop is just coming in and is a good one, and will afford according to the latest advices an exportable surplus of about 14 million bushels. In addition to that we have to remember that last season's crops were almost everywhere excellent, while prices have been not only low but unremunerative during the year, that no producing country has therefore been drained of its old stock, and hence that farmers everywhere must be presumed to be better supplied than ever before at this season. Finally, there seems no good reason

why Russia, if prices advance, may not also market the remnant of her crop through Austria and Germany. Against these facts, about all there is to say is, that in the United Kingdom the visible stock is smaller than last year, the amount at London and Liverpool being about six million bushels less. Of course in case of war there will be an advance high enough to cover a profit on production; but after reaching that point, if we run away from a market we are very likely to repeat our folly of 1883.

Besides, though war seems possible and perhaps we may say probable, it is as yet by no means certain. Russia has gained her point and appears to be the aggressor, but is ready to prove that the fault for the affray lies with the Afghans and to apologize; in fact, the British Ambassador at St. Petersburg telegraphed to London at once "that M. de Giers, the Russian Prime Minister, had expressed for himself and for the Czar an earnest hope that this "unhappy incident might not prevent the continuation of "the negotiations for peace." If, therefore, the Gladstone Ministry is as easily satisfied as it was on the previous occasion, the boundary rectification might still proceed. We acknowledge that in the present temper of the English people such a course does not seem at all probable. Yet there is a doubt on the point and a further doubt as to the length of the war if declared—uncertainties which, with the facts given above, and the likelihood that in these days of cable communication the effect of the worst view is speedily discounted in our markets, should at least moderate our speculative proclivities. Furthermore, we fail to see any reason for assuming that hostilities would stimulate English investments in this country. Some of our railroads are, as stated, gradually getting into better condition, and with good crops this summer their incomes will be assured and their securities become a better and more attractive purchase for investors everywhere. That will result whether the war goes on or not; but any large new movement of foreign capital this way with the silver coinage law still in operation, is simply impossible.

Aside from these war rumors and the hopes they have encouraged, the developments of the week affecting general confidence have not been wholly favorable. The examination of Mr. Fish, late President of the Marine Bank of this city, discloses and recalls bank dealings and methods which are very suggestive and by no means reassuring. Then the failure of another bank at Norfolk shows the gravity of the situation there, and the later information respecting last week's failures of Bain & Brothers and the Exchange Bank are of such a nature as to lead to the fear that the large line of depositors in the latter may have to wait a long time for their funds. The locking up to such an extent of the money resources of a district like that, is an extremely serious event to the community. Of course the influence of these Norfolk disasters is largely local, but they have a more general significance in this case than usual, because of the prominence of Norfolk in the cotton trade and further because of the connection of the Exchange Bank with the railroads of that section, especially with the Chesapeake & Ohio. As we stated last week, the decline in the bonds of that road was mainly due to this latter circumstance and to the attempt of the bank to market some portion of its holdings. For the same reason and because of rumors that the interest was to be passed, the bonds have been feverish all this week. We are informed however that the interest which falls due on the "B" series May 1st is already in the treasury for the purpose, and that it will be paid. Still railroad officials change their minds sometimes in these days, so one cannot put

full confidence in a promise the fulfilment of which is two weeks distant.

Our stock market this week, like our breadstuffs markets, has been almost wholly under the influence of the foreign advices respecting English and Russian difficulties, prices being alternately advanced or depressed as the news pointed towards war or peace. As we have already stated we see little reason for this, except so far as a remunerative price for our food products might improve the general situation, and therefore increase the intrinsic value of our securities. Still, the idea of a more extended influence was encouraged by the comparatively firmer tone for American stocks and bonds dealt in on the London Stock Exchange during the semi-panic there on Thursday, the conclusion being easily reached and reported on the street, that those who were selling the British funds were putting their money into American securities. A moment's thought would have been sufficient to convince any one of the absurdity of such a notion, for it is based on the assumption that the ordinary English investor has so little confidence in the capacity of his own country to engage in the threatened struggle with Russia, as to believe that Great Britain's stability and credit are to be hazarded by it. The truth is, that in London, although the necessity for war is regretted on general principles, the prevailing opinion, judging from the latest mail advices, gives this contest a very small place as an influence affecting either the industrial or financial interests of Great Britain—a temporary crisis on the Stock Exchange seemed to be anticipated, but not much more.

Chicago Burlington & Quincy, which in January reported marked improvement in its net earnings, now in February reports an even more marked falling off. Against net of \$958,166 in February, 1884, we have net this year of \$498,688—a contraction of \$459,478, or nearly one half. Of course the aggregate last year was unusually large; but even allowing for that, the decrease is very heavy. It is, however, easily susceptible of explanation. There was one day less in the month this year than in the year preceding, but the bad weather prevailing was the main cause for the decrease. We have previously alluded to the fact that Iowa suffered from the effects of the weather as no other section of the country, and it is in that State that the Burlington & Quincy has a large portion of its mileage. It is scarcely possible to overstate the influence that this condition had on railroad traffic. On parts of the Burlington & Quincy system no freight trains were moved for over a week at a time, and the whole system was more or less affected during at least half the month. Then the weather also prevented the road from getting the benefits of the increased yield of corn in Iowa, as would appear from the fact that the receipts of that cereal at Chicago over all roads were only 4,433,216 bushels this February, against 5,564,616 bushels in four weeks of the month last year, and every one knows that the Burlington & Quincy is the largest corn carrier in the West. These facts account for the decline of \$370,000 in gross earnings, and the fact that on this diminished business expenses were increased \$91,000, makes plain the difficulties encountered this year in operating the road. Following are the figures for five years.

CHIC. BUR. & QUINCY.	1885.	1884.	1883.	1882.	1881.
<i>February.</i>	\$	\$	\$	\$	\$
Gross earnings.....	1,601,015	1,971,015	1,611,021	1,457,300	1,094,821
Operating expenses.....	1,103,227	1,012,817	888,294	815,302	711,097
Net earnings.....	498,688	958,198	722,726	641,998	383,724
<i>Jan. 1 to Feb. 28.</i>					
Gross earnings.....	3,591,390	3,610,233	3,236,701	3,116,134	2,342,769
Operating expenses.....	2,233,181	2,025,553	1,706,561	1,734,221	1,426,880
Net earnings.....	1,358,208	1,584,680	1,530,140	1,381,913	915,889

Owing to the gain that had been made in January, the loss for the two months in the net, as compared with 1884, is only \$232,000. This loss it should be a comparatively easy matter to make good in a single month, under the increased production of corn in Iowa—252 million bushels raised in 1884, against only 169 million in 1883.

Atchison Topeka & Santa Fe, like the Burlington & Quincy, presents an unfavorable statement of earnings for the month of February. In this case, however, there was also a heavy loss in the month preceding, January, the returns for both months having come to hand this week. The Atchison lies so much further south than the Burlington that we can hardly consider the weather as the primary cause of the falling off, so we must look elsewhere for an explanation. We find it in the fact that net earnings last year, both in January and February, were unusually heavy, the result of an increase in gross receipts and a decrease in operating expenses. As a reason for the gain in gross earnings, the company had not only the excellent crops in Kansas of the season preceding, but no doubt also derived some benefit from the blockade by snow of the more northern route across the continent—Union and Central Pacific—which diverted through business to the Atchison and Atlantic & Pacific route. The expenses, on the other hand, were at that time being steadily and largely diminished. Only the figures themselves can show the extent of this movement, so we give below the earnings and expenses for four years.

ATCHISON TOPEKA & SANTA FE.	1885.	1884.	1883.	1882.
<i>February.</i>	\$	\$	\$	\$
Gross earnings.....	1,064,747	1,167,020	1,093,591	1,127,390
Operating expenses.....	638,221	583,944	608,572	788,580
Net earnings.....	411,526	583,076	429,962	338,810
<i>January 1 to February 28.</i>				
Gross earnings.....	2,180,445	2,399,368	2,099,328	2,272,680
Operating expenses.....	1,324,013	1,153,007	1,253,291	1,548,945
Net earnings.....	856,432	1,246,361	846,037	723,735

Thus while between 1882 and 1884 the February gross earnings had risen about \$40,000, indicating of course an augmented business done, the expense of doing this augmented work had been reduced about \$205,000, from \$788,530 to \$583,944; for January and February combined gross earnings increased from \$2,272,680 to \$2,399,368, while expenses diminished from \$1,563,945 to \$1,153,007, so that net earnings were added to in the large sum of \$477,626. It is only natural that after this heavy growth there should now be a return in the net to smaller figures. The loss in 1885 is \$329,929, or \$147,697 less than the previous gain, so that the aggregate is still decidedly higher than in 1882 and a trifle above that of 1883.

It is quite possible, however, that this loss in 1885 may lead to very erroneous conclusions. Some may draw from it the inference that subsequent returns are likely to be equally unfavorable, and that as the company did not have a very large margin of surplus on the 1884 operations, the loss of \$330,000 thus far in 1885 must be a very serious matter. We do not think the inference is sustained by the facts. As bearing upon that point, it should be remembered that the gains noted in January and February last year did not constitute a feature of the returns in subsequent months; on the contrary, that these subsequent returns were distinguished, almost all, by very heavy losses. This is a circumstance of such controlling importance that we have brought together below the gain or loss in each of the first eleven months of 1884, the figures for December not having been officially declared as yet.

GAIN OR LOSS IN NET EARNINGS IN 1884 AS COMPARED WITH 1883.					
January.....	Gain \$187,900	May.....	Loss \$180,295	September.....	Gain \$10,553
February.....	Gain 153,111	June.....	Loss 257,039	October.....	Gain 101,247
March.....	Gain 6,409	July.....	Loss 241,230	November.....	Loss 139,933
April.....	Loss 101,566	August.....	Loss 244,577		

Here we see that following the gain of \$187,000 in January and \$153,000 in February, there was in March a gain of only \$6,000, and after that there was an almost uninterrupted loss, each month, amounting to \$101,000 in April, to \$180,000 in May, to \$257,000 in June, to \$284,000 in July, to \$244,000 in August, with gains in September and October, and a further loss in November. Hence while in the first two months we are this year comparing with very heavy totals, after March we shall be comparing with very much diminished totals, and a repetition of the losses now shown would therefore seem quite improbable, especially as the corn crop of 1884 (now being moved) in Kansas was but slightly less than in 1883, and the wheat crop was larger. Of course if the present season's wheat outturn should be diminished, that would modify the conclusion to a certain extent, but as to that only future developments can establish the reports of damage done, and even then there always remains the possibility of making good any loss in wheat by an increased production of corn.

Exchange was not perceptibly affected by the war news for the reason that the market is so dull as not to be responsive to indirect influences. Bankers report a moderate renewal of the inquiry for investment bills and a fair supply of maturing sterling, but the mercantile demand is insignificant and that from bankers readily absorbs all the commercial sterling offering.

Bankers balances remain unchanged at $\frac{1}{2}$ @ $1\frac{1}{2}$ per cent. The following statement, made up from returns collected by us, exhibits the receipts and shipments of gold and currency by the New York banks during the week.

Week ending April 10, 1885.	Received by N. Y. Banks.	Shipped by N. Y. Banks.	Net Interior Movement.
Currency.....	\$1,845,000	\$365,000	Gain...\$1,480,000
Gold.....
Total gold and legal tenders..	\$1,845,000	\$365,000	Gain...\$1,480,000

The above shows the actual changes in the bank holdings of gold and currency caused by this movement to and from the interior. In addition to that movement, the banks have gained \$500,000 through the operations of the Sub-Treasury. Adding that item, therefore, to the above, we have the following, which should indicate the total gain to the New York Clearing House banks of gold and currency for the week covered by the bank statement to be issued to-day.

Week ending April 10, 1885.	Into Banks.	Out of Banks.	Net Change in Bank Holdings.
Banks' Interior Movement, as above	\$1,845,000	\$365,000	Gain. \$1,480,000
Sub-Treasury operations.....	5,000,000	5,000,000	Gain. 500,000
Total gold and legal tenders....	\$7,345,000	\$5,305,000	Gain. \$1,980,000

The Bank of England reports a decrease of £368,286 bullion during the week. This represents £129,000 received from abroad, and £497,286 sent to the interior. The Bank of France lost 82,000 francs gold and gained 10,000 francs silver, and the Bank of Germany since the last report has increased 5,980,000 marks. The following indicates the amount of bullion in the principal European banks this week and at the corresponding date last year.

	April 9, 1885.		April 10, 1884.	
	Gold.	Silver.	Gold.	Silver.
Bank of England	25,294,620	25,045,648
Bank of France	40,295,414	42,482,323	39,773,570	40,003,269
Bank of Germany	7,055,750	21,167,250	7,435,000	22,305,000
Total this week	72,645,784	63,649,573	72,254,218	62,308,269
Total previous week ..	73,188,350	64,162,173	73,040,654	62,614,513

The Assay Office paid \$212,433 through the Sub-Treasury for domestic bullion and \$59,731 for foreign bullion during the week, and the Assistant Treasurer received the following from the Custom House.

Date.	Duties.	Consisting of—			
		Gold.	U. S. Notes.	Gold Certific's.	Silver Cer- tificates.
Apr. 3	\$389,513 73	\$2,000	\$83,000	\$74,000	\$230,000
" 4.	213,048 54	1,000	73,000	58,000	83,000
" 6	555,038 89	2,000	150,000	233,000	119,000

" 8.	288,465 48	2,000	43,000	95,000	143,000
" 9.	297,080 79	1,000	45,000	98,000	153,000
Total.	\$2,170,309 01	\$9 000	\$176,000	\$725,000	\$960,000

TRADE AND CLEARINGS OF LONDON AND NEW YORK.

Quite erroneous conclusions with respect to the comparative trade of London and New York seem to prevail somewhat widely, drawn from the Bank clearings of the two cities. We have for instance seen a statement published in many papers during the past year, giving the figures of clearings and claiming a larger business for New York because the published totals were in excess of those for London. Some of our readers have also written us for an explanation of this feature of the reports, to which we have replied by letter. But as others have requested similar information, we deem the matter of sufficient general interest to explain the comparative situation more in detail than we can do by letter.

The misconception is perhaps not at all surprising. It follows naturally from the figures themselves; for the banks being the instruments of commerce through which payments and transfers are made, their clearings presumably reflect the aggregate of each day's transactions. Hence the annual totals, which are as given below, become the measure of the volume of business. The London figures we have reduced to dollars at the rate of \$4 84 to the pound sterling.

Year.	London Clearings.	New York Clearings.	Year.	London Clearings.	New York Clearings.
1884.....	\$27,710,284,200	\$30,985,871,165	1879.....	\$23,104,286,020	\$20,235,673,820
1883.....	28,007,105,360	37,434,300,372	1878.....	23,509,893,240	10,858,671,307
1882.....	30,110,637,440	40,910,955,031	1877.....	22,773,831,080	21,285,278,472
1881.....	30,768,213,980	49,370,832,833	1876.....	24,010,451,040	10,584,393,108
1880.....	27,073,703,840	38,614,448,223	1875.....	27,330,042,520	22,475,350,330

Here we have a direct comparison, with the result for each year since 1878 decidedly in favor of New York. Another statement that helps confirm the conclusion which the face of these figures authorizes, is the close agreement in the relative use of checks and money in dealings with the banks in the two cities. It might be supposed that the deposits were more largely made up of money in London and in a much greater proportion of checks in New York. If this were so, of course to the extent of this difference, the daily clearings at London would reflect less perfectly the daily deposits; or in other words, the clearings at each of these trade-centres would not afford a like measure of the total business of the banks. But the truth is, no marked difference in this particular exists between the two cities. In 1881, Mr. G. H. Pownall of London, made an investigation into the proportionate use of checks and money in English banks and read his results before the Bankers' Institute of London Oct. 19, 1881, and published the same in their Journal for December. In September of the same year Mr. Knox, then Comptroller of the Currency, did a similar work for the United States and gave his results in his report for 1881. These two cities appear as follows in the returns thus made up. We add, also, the proportions given for other sections of the two countries, for subsequent comment.

KINDS OF MONEY RECEIVED BY BANKS.	Coin.	Notes.	Checks.
Great Britain (1881).	Per cent.	Per cent.	Per cent.
London*.....	728	2 030	97 293
The Metropolitan Area	25 213	11 092	63 765
Country Banks in 261 Places.....	15 200	11 910	72 800
Towns, excluding Agricultural Places.....	17 310	14 470	65 230
United States (Sept., 1881).			
New York City.....	55	55	95 80
Other Reserve Cities.....	2 01	5 61	92 35
Banks Elsewhere.....	3 99	14 27	31 71
Total in United States.....	1 55	4 36	91 09

* The London return is made up from the Town Counter only.

From the above the total proportion of checks appears to differ only about 1½ per cent in the make-up of the Bank deposits of London and New York. To the extent of this difference, the above exhibit affords of course an explanation of the clearings and modifies the conclusion to be drawn from their face. But that is a small matter, and allowing for it, would not very greatly change the comparison made by the annual figures first above given.

A more important difference is however suggested by the other items in above returns, a difference, as these figures show, that distinguishes all bank receipts for deposit in the two countries except at London, and prevents London clearings being as true a measure of London trade as New York clearings are of New York trade. It will be noticed, for instance, that notwithstanding London returns show about 97½ per cent of checks, "the metropolitan area" shows only 63¾ per cent. That is to say, cash deposits figure as a very much larger item in the suburbs of London, and in fact everywhere else except in London itself than in the United States. And this suggests the important difference that in Great Britain floating cash and cash transactions between individuals are much more extensive and frequent than among us, for the reason that "current accounts" (that is, accounts where customers are allowed to withdraw their money on check) are discouraged by the English Banks, a heavy tax for keeping them being charged. It used to be everywhere as high as one quarter of one per cent, but more recently it has been reduced. Only in London where there is great competition for business has the charge been abandoned. And yet even now, as we understand it, London banks would not take small accounts in that way. On the other hand, with us nearly every one has a bank account, not merchants and bankers only, but the smallest traders, and even individuals who disburse a few thousand dollars a year or less; so that it may be said substantially that we pay almost everything by check, and the entire transactions of the city and in good part of the suburbs (the mass of little ones, as well as the large ones) are covered by our clearings. This is an important difference between London and New York business methods, and involves a very considerable amount in the aggregate.

We are tempted to dwell for a moment longer on this point in passing, because many fail to recognize the full meaning of the fact that no country in the world has utilized the check as an economical instrument for the settlement of transactions to the extent America has. Great Britain comes next, but after that, there is no next—for only a long way off follows Germany, while France scarcely knows its use in domestic settlements. This is especially worth recalling since one so frequently meets with Congressmen and others talking glibly about the needs for currency in this country, and enforcing their views by a per capita comparison with European nations. Clearly, that mode of measuring our wants is not at all pertinent. What a country like France can use would be greatly

redundant and disturbing here. Even England's wants are no guide for us, since, as we have seen, the practice of keeping "current accounts" is by no means general; and, besides, long custom has made it almost a second nature for her people to depend to a very great extent upon gold.

This habit has been encouraged and strengthened, too, by the circumstance that the Bank of England's £5 note is its smallest issue. All wages therefore—manufacturing, agricultural and every other kind—have to be paid in gold, as the weekly payment to each does not often equal the amount of the note. Hence it has been more convenient, more in accord with the habits of the people, as well as encouraged by the charge made by banks for keeping "current accounts," to retain in their possession large amounts of money, instead of depositing it all and checking against it. Thus they find use for more money per capita than we can. But the check is such an economical instrument, and through the system of clearings so convenient and unobjectionable, that it must continue to make its way in the commercial world, economizing the use of coin and supplanting more and more completely all other methods of payment.

Another and very material difference between bank clearings in London and New York, grows out of the practice at London of separate stock exchange clearings with settling days only twice a month. This is a point that is familiar to many of our American readers, but few seem to take the pains to measure its importance. With us the whole of each day's stock transactions passes through the banks, and if we may consider the broker simply as the go-between, each transaction covers two checks; or if there be two principals and two brokers, each transaction will require three checks. But even assuming that only two checks are used in effecting each sale, and we have an aggregate reaching on the average fully 33 per cent of the total New York daily clearings chargeable to stock transactions at the Stock Exchange alone. But the recorded sales of stocks there, do not probably cover over two-thirds the actual sales of stocks and bonds which are made on Wall Street in active times, many good judges on Wall Street estimating them at such periods as not more than one-half the total. Still, without adopting either of these views, or allowing for any considerable unknown quantity, it is certainly within bounds to say that on the average, one half the Bank clearings at New York come from sales at the Stock Exchange. In London, on the other hand, because of the methods that prevail for striking balances with only two settling days each month for such transactions, they cover only about 17 per cent of the total clearings, as may be seen from the following statement. To make the difference more obvious we have taken the aggregate Bank clearings each year since 1880 at New York and London (stated in dollars at the rate of 4·84 to the pound sterling) and deducted from the London figures the official stock clearings which they include and from New York figures twice the value of the stocks sales at the Stock Exchange. Of course this makes no allowance for the large additional amount of bond sales and sales outside of the Stock Exchange in this city, which, as already stated, it is estimated would in active times greatly increase the total, and if included would be, just to that additional extent, to the disadvantage of the New York figures.

LONDON.	Total Clearings.	Stock Clearings.	Clearings other than Stock.
1884	\$27,716,284,300	\$4,676,277,320	\$23,040,006,980
1883.....	25,697,105,360	5,123,638,520	20,573,466,840
1882.....	30,110,637,040	5,609,233,440	24,501,403,600
1881.....	30,763,213,960	6,693,844,760	24,072,369,200
1880.....	27,673,793,810	5,575,086,320	22,098,707,490

NEW YORK.	Total Clearings.	Double Values of Stocks sold at Stock Exchange.	Clearings less Stock Exchange.
1884.....	\$90,985,871,105	\$11,870,000,000	\$19,106,871,103
1883.....	87,434,300,872	12,520,019,922	24,918,680,950
1882.....	46,916,955,031	15,378,906,872	31,538,048,153
1881.....	40,371,852,883	16,305,012,806	32,981,870,077
1880.....	88,614,448,223	13,638,172,108	24,970,270,115

In a very dull year like 1884, it is quite likely that the deductions from the New York clearings for stock transactions may be sufficient as given above, for at such a time fictitious or "wash" sales are numerous, while the transactions outside the Exchange are at their minimum; but in the previous speculative years, and especially in 1880, 1881 and 1882, a further large amount should obviously be added to that item, for unrecorded Wall Street business, and so deducted from New York clearings before the attempted comparison is possible.

And this brings up a distinguishing feature in our business methods which should not be overlooked, as it pervades more or less all New York markets, affecting in a large measure our Bank clearings, and yet London outside of its Stock Exchange has nothing to correspond with it. We refer to the enormous extent of the purely speculative business done at our numerous exchanges. The above table gives expression to the same thought, for the steadiness of the London returns and the variability of the New York figures cannot fail to attract attention. In fact, taking out stock operations, the London totals are almost stationary, and even with them in, the changes from year to year are comparatively trifling; whereas the expansion in our clearings covers our speculative cycle from 1880 to 1883, and is to a degree a measure of its extent, not alone in financial ventures but in commercial as well, the speculative feature being universal. For instance, in 1883 the future sales of grain at the New York Produce Exchange covered 2,417,726,933 bushels. These transactions are in no sense actual trades, for they are mere phantom sales in which no delivery of grain follows; and yet they are representative of the business which is done at our commercial exchanges. It is to be said, however, that such operations figure to a very much less extent than Wall Street transactions in our Bank clearings, because a process of "wringing out" is gone through with every morning by the members, which is really a kind of clearing system, permitting of a settling of balances. Yet, notwithstanding all that, they are a feature in our business methods, entering into our bank clearings, with substantially no corresponding practice at London.

We think the foregoing suggestions will enable the reader to put a proper interpretation upon the Clearing House returns of London and New York. But even then one must not make the error of assuming that London represents the trade of Great Britain to the same extent that New York represents that of the United States. It is not necessary to enter upon that point, and yet we may mention Liverpool by way of illustration, which, with slight exception, monopolizes the entire cotton trade of the country, and is the outlet for the goods trade of Manchester and outlying districts. Still, London is the financial centre, and settlements even for cotton imported and cotton goods exported are chiefly made through it.

RAILROAD EARNINGS IN MARCH, AND FROM JAN. 1 TO MARCH 31.

True to the anticipations entertained with regard to it, the month of March makes a very much better exhibit of earnings than its predecessor. The weather was still unseasonably cold, but the other drawbacks to a free movement of merchandise—so conspicuous in their adverse effects in February—no longer existed, and on

the whole the month was reasonably free from interruptions to railroad operations. The result is seen in earnings (on the 58 roads reporting) \$702,539 greater than a year ago, as against a loss in February (on 69 roads reporting) of \$251,874, though in that month the comparison with the preceding year was somewhat disturbed by the fact that February this year had one less day.

Of course, reports of declining earnings have not ceased to appear, for while it is true that if we take all the roads reporting together, the March statement shows an increase, it is also true that the result on individual roads and in particular section varies, as it may well be expected to vary, with quite a number of companies still recording a falling off. But it is at least satisfactory to note that these latter are not so numerous as heretofore, constituting for March less than two-fifths of the whole number embraced in our list—that is, there are thirty-nine roads that have increased their earnings, and nineteen that have fallen behind.

There were no specially favoring influences in operation during the month. The better weather was a decided advantage, as against the condition prevailing in February, but it was an advantage of a negative character wholly, since it marked merely the absence of a state of affairs that might have continued. There was no improvement in passenger travel—no extension of general business, the same quietude prevailing as heretofore. The grain movement was larger than a year ago, but only to a small extent, and not all roads or sections shared in it; on the contrary, some suffered a very decided contraction in the same, and, as compared with two years ago, there is a falling off even in the total. The cotton movement was simply reduced to infinitesimal proportions. On the other hand, some traffic delayed by the snows and ice in February came forward in March, and that was a temporary influence of a favorable character. Then it should also be mentioned that March in the previous year was not a month of large traffic, many roads having shown a heavy decrease then. The following table gives the gross earnings and mileage of all roads, in our usual form.

GROSS EARNINGS AND MILEAGE IN MARCH.

* Only three weeks of March in each year.

The most striking feature of this table is the heavy gains reported by several prominent systems. For the increase on the Canadian Pacific and the Mexican Central, there are of course special reasons. But it will be noted that the Chicago & Northwestern, the Chicago Milwaukee & St. Paul, the Denver & Rio Grande, the Illinois Central, (main line), and some other companies, have equally striking gains. One reason for this no doubt is found in the large losses that the same roads reported a year ago, so that the comparison is with reduced totals. But in the Northwest an additional reason was the quite generally freer movement of grain, both of corn and wheat. In previous months it was wheat alone that was moving in increased volume in that section, but now that cereal is giving place to corn. Of course the difference in effects is important, for not all roads that are wheat carriers are corn carriers, nor vice versa. The Northwest road, for instance, having heretofore benefitted very little by the increased movement of wheat, the inference is plain that the gain now is to be ascribed to the influence of the corn shipments. Still, the St. Paul gains \$293,000, while the Northwest gains only \$171,000. In 1884, the loss on the former was only \$254,000, while on the Northwest it was \$328,000. Corn having, however, begun to move, it may fairly be assumed that the differences in results in favor of the St. Paul will hereafter become less marked.

It is not to be supposed, though, that the wheat movement is running smaller than a year ago. That is not the case. There is still a heavy increase, but the volume of the movement is no longer what it was, and consequently it cannot be expected to count for as much. At Duluth, for example, there is a gain over 1884 of 216,000 bushels, but the total receipts altogether at that port were only 292,586 bushels. Apparently the gain in that item was insufficient to offset the loss of earnings in other respects, and consequently such roads as the St. Paul & Duluth and the St. Paul Minneapolis & Manitoba are compelled to report a further decline in receipts, even after a loss in 1884. The Manitoba particularly loses a large amount, but that road has also the element of increased competition to contend with. The St. Paul & Omaha likewise has a loss, but it is small—\$13,000—and comes after a gain of twice the amount—\$26,000—in 1884. Roads in Iowa, or running through that State, have improved totals, but these roads suffered last year from a snow blockade and, besides, probably had a heavier corn movement this year. Among them may be mentioned the Burlington Cedar Rapids & Northern, the Central Iowa, the Des Moines & Fort Dodge, and the Iowa Division of the Illinois Central. The heaviest loss by any road in our list is that of the Northern Pacific, and the explanation of it given is that the Cœur d'Alene gold excitement which produced a great increase of business in the previous year, was not an influence this year, so that the earnings have merely dropped back to their

natural level; but probably also the company did not have the same source of gain from the grain traffic at the eastern end—because of the smaller extent of that movement—as it had in some of the months preceding. The following exhibits the grain movement at all the leading Western ports.

Thus in wheat there is a pretty general increase, both at the winter-wheat points and the spring-wheat points, but in corn, while there are gains at Chicago, Detroit, and Peoria, there are, on the other hand, heavy losses at St. Louis and Toledo—at the latter point the receipts of the staple being only 356,000 bushels for 1885, against 1,090,000 bushels in 1884. The receipts at these ports do not always correctly reflect the grain movement over the railroads in the territory tributary to the same, but at least in interpreting the results in the district east of the Mississippi between the lakes and the Ohio River. We find gains in earnings on the Cincinnati Indianapolis St. Louis & Chicago, the Cleveland Akron & Columbus, the Illinois Central (Main Line), the Chicago & Eastern Illinois, the Indiana Bloomington & Western, and the Ohio Central, (usually, however, less than the losses in the preceding year), while the Evansville & Terre Haute, the Peoria Decatur & Evansville, the Cincinnati Washington & Baltimore, and the St. Louis Alton & Terre Haute, report diminished totals. The two latter are probably influenced by the state of trunk line business as much as by anything else, and as their present losses are additional to losses in 1884, it is easy to see that the great east-and-west trunk lines not in our list cannot have done very well. The heavy decrease shown by the Grand Trunk of Canada is evidence to the same effect.

The St. Louis & San Francisco and the Chicago & Alton—running into, or connecting with, the Southwest—again have a decrease, but the St. Louis Fort Scott & Wichita has a small increase, and the roads forming the line between Kansas City and Memphis, namely the Fort Scott & Gulf and the Fort Scott & Memphis, continue to swell their receipts in a very marked manner. The Texas & St. Louis also records considerable improvement. Down in Texas the contracted cotton movement still exerts an adverse effect upon railroad business, but we

have no prominent road from that section in our list. The Fort Worth & Denver has a small increase. In other Southern States the diminished cotton movement has likewise been an unfavorable feature, but the falling off in earnings is only moderate, nevertheless, and in many cases there is actually an increase. How insignificant the cotton movement has been, will appear from the following.

RECEIPTS OF COTTON AT SOUTHERN PORTS IN MARCH, AND FROM JAN. 1 TO MARCH 31, 1885, 1884 AND 1883.

PORTS.	March.			Since January 1.		
	1885.	1884.	1883.	1885.	1884.	1883.

West Point, &c.....	6,000	12,150	20,528	33,825	53,196	63,076
Total.....	138,318	202,921	427,931	802,012	944,755	1,630,861

We here find a heavy decline at all but one or two minor ports, and the decline is all the more noteworthy that it comes after a heavy falling off in the previous year. Against receipts of 427,961 bales in 1883, the movement in 1884 fell to 202,921 bales, and now there is a further drop to 138,318 bales—that is, to less than one-third of the total of two years ago. That Southern roads have done so well generally, despite this great decrease in their principal item of traffic, is a strong point in their favor. Of course, some roads have done better than others, but it is not necessary to particularize; the figures will speak for themselves, and they can be studied in the light of the movement of the staple at each port, as set out in the foregoing table.

As regards the statement of earnings for the quarter ended March 31, there is little to be said in addition to what has been said in previous reviews. Considering the character of the weather we have experienced, and the generally unsatisfactory state of business, the comparison with 1884 is much better than might have been expected. There are quite a good many roads that have fallen behind—mostly because of the weather or some special influence—but it is a gratifying circumstance that the gains offset the losses and leave the aggregate ahead of the total for the corresponding period in the previous year. Following are full details.

Net Increase.....			1,165,731	

* Includes three weeks only of March in each year.

Our exhibit of net earnings covers February, and though rather variable in results, is on the whole of an encouraging nature. The Burlington & Quincy has a heavy loss because of the weather, and the Pennsylvania because of that and other adverse circumstances, and the Atchison likewise loses heavily in net, but aside from these the returns are pretty generally satisfactory, and in some instances very favorable indeed. Thus the Pacific roads—Canadian Pacific, Union Pacific, Central Pacific and Northern Pacific—all have large gains, and the Louisville & Nashville is distinguished in the same way. The New York & New England, the Northern Central, Oregon Improvement, and the Eastern Huntington roads—barring the Chesapeake & Ohio—also give a good account of themselves. The following embraces all roads from which returns can be obtained.

THE MEXICAN COTTON CROP AND MANUFACTURES.

To the Editor of the Commercial Chronicle:

DEAR SIR: The lack of commercial exchanges, and without regular and systematic crop reports such as are common in this country, Mexican cotton statistics have hitherto been almost unattainable, but now, owing to the indefatigable zeal and studious research of Consul Plutereo Omelas, M. D., the efficient Secretary of the Mexican National Commission to the World's Industrial and Cotton Centennial Exposition, reliable facts and figures regarding Mexican products can be presented in English for the first time in the history of that country.

Hitherto the estimates of the world's cotton crop either omitted Mexico entirely or else lumped the crop of that country by guess work, and consolidated the amount with the supposed product of other little-known cotton producing countries. The result has been far from satisfactory, and one of the oldest, if not the oldest, cotton-producing countries of the world has been almost entirely overlooked.

Cotton is indigenous to Mexico. This is proved by the fact that when Cortez landed in that country A. D. 1521 he found the natives clad in cotton fabrics made on rude hand looms similar to those anciently used in India. A further proof of that fact is here now in the form of a small triangular piece of cotton cloth found by the distinguished Mexican archæologist, Senor Alfredo Chavero, in an ancient stone burial casket in a cavern in a large ravine near Tejupilco, in the State of Mexico. Judging by other objects, such as idols, ancient ceramics, sea shells, mule bells, etc., found in this cavern, it is clear that this relic of the early cotton manufacture of Mexico belongs to an epoch not far removed from the time of the landing of Cortez. The body of a *Yabitzqui ocelotl*, a species of mountain wild cat, found in the casket, shows it to have been the place of sepulchre of a distinguished warrior. Tradition further states that long prior to the conquest of the country by Cortez the victors in the internal wars of Mexico received their tribute in cotton, which shows a cultivation of the staple in remote ages. It is also stated that the ancient acreage devoted to the crop was much greater than that of recent years.

Dr. P. Omelas, in his studies on this subject, has prepared from official reports to the Mexican Government the following tabulated statement of the Mexican crop of seed cotton, estimated in Mexican pounds of sixteen ounces each.

SUMMARY OF MEXICAN COTTON CROP BY STATES.

States.	Mexican pounds.	States.	Mexican pounds.
Coahuila.....	5,014,620	Nuevo Leon.....	181,431
Colima.....	3,584,625	Sanluis.....	3,584,625
Chihuahua.....	1,359,811	Tamaulipas.....	1,264,434
Durango.....	0,997,188	Vera Cruz.....	25,237,932
Guerrero.....	4,731,705	Jalisco.....	6,860,108
Hidalgo.....	510,200		
Michoacan.....	1,003,605	Total.....	60,185,409

This is seed cotton, or cotton before it has been ginned; still, taking these figures and computing the yield of lint cotton to be but one third, which is the estimate of one of the least favorable American consuls in Mexico, and with bales of about three hundred and fifty Mexican pounds, the total crop would be about 57,319 bales.

Now refer to the following table of the cotton manufactures of Mexico, which has also been prepared by Dr. P. Omelas, and it will be seen that Mexico requires in average years about 12,800 bales of cotton from the United States in addition to the entire Mexican crop.

STATISTICS OF COTTON MILLS IN MEXICO.

Total.....	67	217,894	8,745	\$4,433,176	\$9,071,775	25,826,200	

That cotton should have been cultivated for so long a time under the most favorable influences of soil and climate, and with such progress made in cotton manufactures as is the case in Mexico, and yet the crop remain so small, is a point which misleads many cotton experts. Take, for instance, the Laguna district of Mexico, a beautiful valley which is subject to an annual irrigation through the overflow of the river Nazas which traverses it, and serves the same purpose for its district as the Nile does for its district in Egypt, leaving a very rich alluvial deposit over the entire valley and often several feet in depth, thus doing away with all need for manure or other fertilizers. In this valley cotton grows to be a small tree, and Senor Donato Gutierrez, who is probably the largest cotton planter in Mexico, and who is also the perfecter of six distinct varieties of Mexican cotton, states that it is only necessary to plant some of the varieties once in twenty years, that being the life of the plant. Other varieties, however, are annuals, and similar to those grown in the cotton district of the United States. Cotton plants twelve feet high are so common in the Laguna as to excite no surprise, and Senor Gutierrez has counted as many as a thousand bolls on a single stock. When these statements are considered with the fact that intelligent labor is abundant, and costs only from twenty-five to fifty cents per day, and that the latest improved agricultural machinery is being used in the cultivation and care of the crop, the small number of bales raised will cause surprise until the ravages of the cotton worm are considered. It is only necessary to say that no precautions are taken by Mexican planters to guard against the worms by any of the means in common use in the United States. Such an expedient as fires at night to attract and destroy the moth is unused, and neither are any of the poisons used to destroy the worms. The worms come and make a clean sweep. It is confidently predicted by those who have given this subject their personal attention and study that, with the adoption of those precautions against the cotton worms which the experience of American planters has shown to be effective, the cotton crop of Mexico will amount to considerable importance not only in the home market, but also as one of the leading exports of that country. Certain it is that Mexico is well represented at the World's Industrial and Cotton Centennial Exposition, not only in its exhibits of its natural and manufactured products, but also in its most distinguished scientists and scholars who form its resident National Commission. Besides this there are a large number of wealthy capitalists and land owners of that country who are present at the Exposition engaged in studying the various exhibits of modern machinery, etc., for the purpose of adopting such of the recent inventions are best suited to the development of the unparalleled natural resources of Mexico.

STEPHEN GOULD, 26 Camp Street, New Orleans, La.

[From our own correspondent.]

LONDON, March 29, 1885.

The past week has not witnessed any improvement in the political situation. The calling out of the reserves and the reserve militia can only be taken to mean that the Government have recognized the necessity of being prepared for every eventuality. The gravity of the situation has not diminished, but neither have hopes of the maintenance of peace been abandoned. We have been fluctuating during the past few days between optimism and pessimism, and for the moment the latter appears to be in the ascendant. The unwonted and unexpected display of energy by the Gladstonian ministry, and the rapid mobilization of forces, will no doubt have a great deal to do with preventing an actual rupture, as Russia had evidently not counted upon anything but a war of words, and the prospect of real fighting must therefore have come as a surprise to her.

That there could be any extension of commercial or industrial enterprise under existing circumstances, is, of course, out of the question. In the hardware districts quietness is as clearly defined as ever, and there is very little activity in other branches. The wool sales appear to be going off well, particularly for choice descriptions, and both Continental and home buyers are operating with fair spirit; but the aggregate extent of business remains small and continues to compare unfavorably even with the bad times of last year. Wheat has responded very slightly to the war scare, and cannot be quoted more than 1s. per quarter dearer, while business is far from active at the improvement. The failure of Messrs. Scaramanga, one of the largest Greek firms in the Russian trade, reported during the week, with liabilities estimated at £260,000 and with assets subject to realization promising a dividend of 10s. in the pound, was, like that of Messrs. Spartali, mainly due to the continued depreciation in the value of wheat. The firm's losses in the 18 months have been estimated as high as £200,000 on grain alone. The immediate cause of the suspension seems, however, to have been an attempt to retrieve their position by dabbling on the Stock Exchange, and as like the majority of outside speculators they preferred the "bull" tack and had given a preference to such risky stocks as Grand Trunks and Brighton A's, they have suffered rather severely—to the extent it is said of £35,000—and the fact of their being unable to meet these differences has expedited the crisis and compelled them to call a meeting of their creditors. It is a matter for congratulation that the fortnightly settlement which was concluded yesterday was arranged so easily, when the further serious fall in home railways, and Grand Trunks is taken into consideration. The position of the stock markets just now is anything but satisfactory. The only department in which steadiness is at all apparent is that for American railways, in sympathy with the improved New York advices.

Money has been rather wanted during the week from a variety of causes. A heavy instalment fell due on the last New South Wales loan, and in addition there was the Stock Exchange demand to meet, besides the quarterly payments and the subscriptions to the Commissioners of Sewers 3 $\frac{1}{2}$ per cent loan for £1,000,000. Floating balances have consequently been reduced, causing quotations rather to harden. In a few days, however, we shall have the dividend money distributed,

and a return of ease may be calculated upon, as the commercial inquiry remains restricted.

The following are the present prices for money.

Messrs. Pixley & Abell report as follows on the state of the bullion market:

Gold—The order for Spain has now been completed, and with the exception of a very small amount bought for India, the bulk of the arrivals have been taken to the Bank, which has received since our last £346,000. The Peshawar takes £10,000 to Bombay.

Silver has fallen away rapidly from our last quotation of 49 3 $\frac{1}{2}$ d., partly owing to a large remittance from the River Plate arriving at the same time as the usual fortnightly shipment from Chili, and also afterwards to the very small and unfavorable allotment of India Council bills, followed by the announcement that the India Council intend offering a further 5 lakhs for tender next week (being the commencement of the financial year), and we now quote 49d. flat. The Valparaiso brought £38,000 from Chili; Horrox, £64,000 from River Plate; Celdio, £14,000 from New York. The Peshawar takes £133,000 to India.

Mexican Dollars—The arrivals by the last French steamer were disposed of at 48 3 $\frac{1}{2}$ d. per oz., showing a considerable advance on the last quoted price. The rate subsequently declined to 45d. per oz., in sympathy with the lower quotations for silver. The Clyde takes 293,730 to the East.

The quotations for bullion are reported as follows:

Price of Gold.	Mar. 26.		Mar. 19.		Price of Silver.	Mar. 26.		Mar. 19.	
	s.	d.	s.	d.		s.	d.	s.	d.

S. Am. doubloons... oz.					Mexican dols... oz.	45			

The number of failures in England and Wales during the week ending March 21 was 95, or 15 more than the corresponding week of last year, but there is a net decrease to date of 107. The number of bills of sale published in England and Wales for the week was 251, or 6 less than last year, the decrease to date being 33. The number published in Ireland for the week was 31, being 19 more than for the corresponding week of last year, but showing a net decrease to date of 25.

Tenders for £1,000,000 Commissioners of Sewers of the City of London 3 $\frac{1}{2}$ per cent debentures amounted to £1,048,900, at prices ranging from 100 to the minimum of 96. Tenders at 96 received about 91 per cent of the amount applied for, and those above in full. The average price was £96 10s. 11d. per cent.

Some of the largest shareholders of the late Oriental Bank corporation have requested the official liquidator to convene a meeting to consider a scheme for the formation of an assets company, to acquire any assets which promise great improve-

ment in value, but which require in the meantime to be the subject of outlay. This scheme may enable the shareholders to recover a material portion of their lost capital, which in the absence of such an arrangement seems irrevocably gone. The official liquidator estimates that the ordinary course of winding up will give the creditors less than 20s. in the pound.

The grain trade has been in a rather fluctuating state during the week. The opening was dull, and wheat was not held with steadiness; in fact, had their been an inclination to force sales, prices might possibly have given way; but as the week progressed the tone became stronger, and when it was announced that the reserve and the militia would be called out, there was a distinct exhibition of steadiness, wheat being quoted at an advance of 1s. per quarter. This fresh move was taken, rightly or wrongly, to indicate greater gravity of the political situation, and there was consequently a desire to obtain higher prices. But whilst holders were not disposed to sell except at an improvement, millers were not so sure that peaceful relations between this country and Russia would be actually interrupted, and they were, therefore, rather sparing in their operations. On the whole, it is curious that prices have not so far manifested a stronger upward tendency. The recovery from the extreme depression is up to the present time insignificant. The initiation of a speculative movement in America is not responded to here. In our trade the speculative element seems to be almost entirely eliminated. We have unfortunately had frequent demonstrations of the losses incurred through the locking-up of grain, and it is not unlikely that there are still some firms who have quite as much as they can conveniently carry without committing themselves to further risks. Possibly this has a great deal to do with the absence of life in the trade, and with the difficulty of promoting real animation, even when the prospect of a war with Russia presents itself.

The following return shows the extent of the imports of cereal produce into the United Kingdom during the first twenty-nine weeks of the season, the sales and average prices of home-grown produce for the same period, and other items, compared with last season:

	1884-5.	1883-4.	1882-3.	1881-2.
Wheat.....cwt.	26,675,321	31,165,478	35,913,002	34,813,840

Commercial and Miscellaneous News

IMPORTS AND EXPORTS FOR THE WEEK.—The imports of last week, compared with those of the preceding week, show a decrease in dry goods and an increase in general merchandise. The total imports were \$3,046,516, against \$7,537,134 the preceding week and \$7,743,652 two weeks previous. The exports for the week ended April 7 amounted to \$6,450,710, against \$5,824,232 last week and \$5,907,263 two weeks previous. The following are the imports at New York for the week ending (for dry goods) April 2 and for the week ending (for general merchandise) April 3; also totals since the beginning of the first week in January:

FOREIGN IMPORTS AT NEW YORK.

For Week.	1882.	1883.	1884.	1885.
Dry goods.....	\$2,922,544	\$2,400,051	\$2,359,983	\$1,704,549
Gen'l mer'chise..	8,728,926	5,593,934	7,035,729	6,341,993
Total.....	\$11,551,470	\$8,293,985	\$9,394,712	\$8,046,542
Since Jan. 1.				
Dry goods.....	\$43,350,739	\$41,804,454	\$38,675,125	\$31,408,987
Gen'l mer'chise..	93,867,117	85,664,331	85,891,133	72,004,647
Total 14 weeks.	\$137,217,836	\$127,468,835	\$124,569,258	\$103,413,634

In our report of the dry goods trade will be found the imports of dry goods for one week later.

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending April 7, 1885, and from January 1 to date:

EXPORTS FROM NEW YORK FOR THE WEEK.

	1882.	1883.	1884.	1885.
For the week.....	\$6,161,401	\$7,501,821	\$5,463,282	\$8,450,710
Prev. reported..	82,726,830	91,833,216	74,539,361	84,424,364
Total 14 weeks.	\$88,888,231	\$99,335,037	\$80,302,623	\$90,875,074

The following table shows the exports and imports of specie at the port of New York for the week ending April 4, and since January 1, 1885, and for the corresponding periods in 1884 and 1883:

EXPORTS AND IMPORTS OF SPECIE AT NEW YORK.

	Exports.		Imports.	
	Week.	Since Jan. 1.	Week.	Since Jan. 1.
Gold.

* Includes \$100,000 notes received from Washington.

—Attention is called to the removal of the Commercial Mutual Marine Insurance Company to large and beautiful offices at No. 42 Wall Street, Merchants' Bank Building. This company is one of the old and enterprising corporations, and shippers will in future find them in a more convenient location for business.

The Bankers' Gazette.

DIVIDENDS.

The following dividends have recently been announced:

Name of Company.	Per cent.	When Payable.	Books Closed. (Days inclusive.)
Railroads.			
Atchafalpa Top. & Santa Fe (quar.).	\$1 50	May 15	April 19 to May 3
Baltimore & Ohio Main Stem.....	5	May 16	April 29 to May 15
Do Do Wash. Branch.....	5	April 17
Houston & Texas (quar.).	1 1/2	April 15	April 9 to April 15
St. Paul & Northern Pacific.....	1 1/2	April 15	April 11 to April 15
Miscellaneous.			
Union Trust Co. (quar.).....	2 1/2	April 10	April 9 to April 10

NEW YORK, FRIDAY, APRIL 10, 1885-6 P. M.

The Money Market and Financial Situation.—The prevailing stagnation at the Exchanges was relieved on Thursday by an activity and buoyancy based entirely on the Anglo-Russian war prospects. Wheat has been more firmly held for some time past on the reports of injury to the winter grain and the belief that the whole crop of 1885 would be smaller in consequence of the low prices which have ruled, but on Thursday the price was fairly bounced upward by the bull speculators in Chicago and New York, who were greatly assisted by the scrambling of the shorts. On the other hand, cotton was depressed by the war rumors. Consols in London closed at 94 1/2 on Thursday night, opened at 95 1/2 this morning, advanced to 95 11-16, and closed at 95 1/2, indicating a much more peaceful tone.

The monthly statement of railroad earnings will be found on another page, including also the net earnings from January 1 to March 1, so far as they have yet been reported. The returns are very irregular as compared with 1884, some roads showing improvement and others a decrease, but it has been well known that both February and March were bad months for the railroads on account of the great severity of the weather. It is worth noting, however, that in the two months of January and February the exports of each of the articles, flour, wheat and corn, from the United States, were larger in quantity than ever before in the corresponding two months; but the total value was not relatively as large, owing to the low prices which then ruled.

Rates for call loans during the week on stock and bond collaterals have ranged at 1/2 @ 1 1/2 per cent, and to-day at 1 @ 1 1/2 per cent. Prime commercial paper is quoted at 3 1/2 @ 4 1/2 per cent.

The Bank of England weekly statement on Thursday showed a loss in specie of £368,286, and the percentage of reserve to liabilities was 47, against 44 9-16 last week; the discount rate remains at 3 1/2 per cent. The Bank of France lost 82,000 francs in gold and gained 10,000 francs in silver.

The New York Clearing House banks, in their statement of April 4, showed a decrease in surplus reserve of \$1,295,875, the total surplus being \$47,125,850, against \$48,421,725 the previous week.

The following table shows the changes from the previous week and a comparison with the two preceding years in the averages of the New York Clearing House banks.

	1885. April 4.	Differences fr'm Previous Week.	1884. April 5.	1883. April 7.
Loans and dis.	\$302,757,100	Inc. \$1,775,900	\$347,600,500	\$311,039,400

Surplus.....	\$47,125,850	Dec. \$1,295,875	\$4,203,375	\$4,370,100

Exchange.—The sterling exchange market continues very dull, with no special feature, though rates continue firm as last quoted. In case of positive war between England and Russia it is believed by many bankers that at first there would be a demand for gold in London, that American railroad securities would be sent home and rates of exchange would advance.

To-day the rates on actual business were as follows, viz.: Bankers' 60 days' sterling, 4 84 1/2 @ 4 84 1/2; demand, 4 87 @ 4 87 1/2. Cables, 4 87 1/2. Commercial bills were 4 83 @ 4 83 1/2. Continental bills were: Francs, 5 21 1/2 @ 5 22 1/2 and 5 20 @ 5 20 1/2; reichmarks, 94 1/2 @ 94 1/2 and 95 @ 95 1/2; guilders, 40 @ 40 1/2 and 40 1/2 @ 40 1/2.

The following were the rates of domestic exchange on New York at the under-mentioned cities to-day: Savannah, buying

1/2 discount, selling 1/2 discount @ par; Charleston, buying 1/2 premium, selling 3-16 premium; Boston, 5 @ 10 premium; New Orleans, commercial, 100 premium; bank, 200 premium; St. Louis, 100 premium; Chicago, 60 discount.

The posted rates of leading bankers are as follows:

April 10.	Staly Days	Demand.
Prime bankers' sterling bills on London.....	4 95 1/2	4 88
Prime commercial.....	4 82 1/2
Documentary commercial.....	4 82 1/2
Paris (francs).....	5 22 1/2	5 20 1/2
Amsterdam (guilders).....	40 1/2	40 1/2
Frankfort or Bremen (reichmarks).....	94 1/2	95

Coins.—The following are quotations in gold for various coins:

Sovereigns.....\$4 84	2 \$4 87	Silver 1/4s and 1/2s. — 99 3/4 @ par.
Napoleons.....3 85	2 3 90	Five francs.....— 92 @ — 94
X & Reichmarks. 4 74	2 4 78	Mexican dollars...— 84 @ — 84 1/2
X Guilders.....3 98	2 4 00	Do uncommere'l...— 83 1/2 @ —
Spanish Doubloons. 15 55	2 15 75	Peruvian soles....— 76 3/4 @ —
Max. Doubloons. 15 55	2 15 65	English silver.... 4 78 @ 4 84
French gold bars.. 1 06 1/2	2 1 07 3/4	U. S. trade dollars 84 @ —
Five gold bars....	par @ 1/4 prem	U. S. silver dollars — 99 3/4 @ par.
Dimes & 1/2 dimes. —	99 3/4 @ par	

United States Bonds.—Only a moderate amount of business was done in Government bonds, and prices remain about steady. Whatever bonds are now owned abroad would probably be retained by their owners, and prices of U. S. Government bonds might very possibly be strengthened by an increased demand for them.

The closing prices at the N. Y. Board have been as follows:

	Interest Periods.	April 4.	April 6.	April 7.	April 8.	April 9.	April 10.

* This is the price bid at the morning board; no sale was made.

State and Railroad Bonds.—The dealings in State bonds were more active than for some time past, the sales including \$73,000 Tennessee compromise bonds at 53 1/2—53; \$8,000 do. 6s at 47; \$44,000 North Carolina consol 4s at 86 1/2—88—87 1/2; \$15,000 do. special tax at 4; \$1,000 do. 6s 1919, at 108 1/2; \$4,000 Alabama class A at 88; \$2,000 Missouri 6s 1887 (Hannibal & St. Joseph issue) at 104 1/2.

Railroad bonds were moderately active, and in the early part of the week the tone was generally irregular, with many classes declining. On Thursday, however, bonds were stronger in sympathy with the upward turn in stocks, and Erie 2ds were advanced on large transactions, after having declined early in the week. The Chesapeake & Ohio 'B' bonds were again a leading feature, selling off in the early dealings, accompanied by a rumor that the May interest would not be met, but later re-acting a little. Erie 2ds close at 54 1/2, against 54 1/2 last week; West Shore 5s at 29 1/2, against 30 1/2; Chesapeake & Ohio series B at 64, against 66; do. currency bonds at 17 1/2, against 22; Texas & Pacific Rios, coupons off, at 47 1/2, against 49; do. income and land grant bonds at 31, against 34; New York Chicago & St. Louis 1sts at 79, against 76 1/2; Central New Jersey consol. assented, coupons off, at 96, against 92.

Railroad and Miscellaneous Stocks.—Extreme dullness characterized the dealings at the Stock Exchange during the early part of the week, and a general disposition to await some new development or impulse was apparent. The tone was somewhat irregular, but considerable weakness was developed in a number of stocks, including the Oregon and the Northern Pacifics, which declined on the rumor that the dividend on Oregon Navigation would be passed or reduced. Chicago Burlington & Quincy also declined quite sharply in consequence of the relatively poor exhibit of earnings.

On Thursday, however, the whole aspect of the market changed, and with the cable reports of the commencement of hostilities between Russia and the Afghans, the advance in prices of active stocks was quite marked. The immediate effect in London was a severe fall in British consols and Russian bonds, and strength in American securities, and in Wall Street the price of consols is watched more closely as an indication of the real situation of affairs than the various war rumors in newspapers. To-day the dispatches from London were more peaceful in tone, and the market generally sagged. It was said that a large amount of stock was marketed on Thursday by parties who did not believe in the war rumors as a vitalizing force of any long-continued effect. Towards the close the market relapsed into dullness, with prices tolerably steady.

RAILROAD EARNINGS

The latest railroad earnings and the totals from Jan. 1 to latest date are given below. The statement includes the gross earnings of all railroads from which returns can be obtained. The columns under the heading "January 1 to latest date" furnish the gross earnings from January 1 to, and including, the period mentioned in the second column.

Investment AND Railroad Intelligence.

The INVESTORS' SUPPLEMENT contains a complete exhibit of the *Funded Debt of States and Cities and of the Stocks and Bonds of Railroads and other Companies. It is published on the last Saturday of every other month—viz., February, April, June, August, October and December, and is furnished without extra charge to all regular subscribers of the CHRONICLE. Extra copies are sold to subscribers of the CHRONICLE at 50 cents each, and to others than subscribers at \$1 per copy.*

ANNUAL REPORTS.

Chicago Burlington & Quincy.

(For the year ending December 31, 1884.)

The annual report of this company is mainly statistical, and as to the general remarks of the President, an abstract was given in the CHRONICLE of March 21, on page 302.

The comparative statistics for four years, compiled for the CHRONICLE, are as follows:

ROAD AND EQUIPMENT.				
	1881.	1882.	1883.	1884.

† Includes subscription under circular of Sept. 15, 1881, \$1,973,750; and local aid and voluntary contributions, \$1,211,311, &c.
‡ Includes unclaimed dividends, unpaid accounts, pay-rolls, &c., &c.

Mexican Central Railway.

(For the year ending Dec. 31, 1884.)

The main line, City of Mexico to El Paso, Texas, was completed and put into operation in April last (1884), and has been recently inspected by the President and two of the directors. It is in good condition, and above the average of roads in the United States. The present mileage is 1,354.1.

"Subsidy certificates were received during the year to the amount of \$2,550,000, and the amount of cash subsidy collected was \$974,564, Mexican currency. The entire expense of collection, including local exchange, was \$17,313. The company is

now receiving 8 per cent of the import duties, in accordance with the provisions of the concession. Up to Dec. 31, 1884, the company has received in cash from this source, net, \$3,669,344 U. S. currency, and has paid out \$2,700,535, in the same currency, for interest on the first mortgage bonds.

"The actual income for the year from all sources was as follows:

Net earnings, U. S. currency.....	\$1,150,219
Net subsidy collections, U. S. currency.....	847,446
Total.....	\$1,997,676

"But, as intimated in the annual report for last year, July 1, 1884, was fixed as the date when the main line ceased to be operated for account of construction, and all interest paid, and all net earnings received prior to that date have been closed into the construction account; the general income account of the company dates from July 1, 1884, and the details will be found in the tables below.

"At the present time (April, 1885) coupons Nos. 6, 7 and 8, from \$36,062,000 of the first mortgage bonds, amounting to \$3,780,510, have been funded, and coupon notes and scrip for that amount issued in accordance with the terms of the circular of June 16, 1884, leaving the coupons on \$512,000 of first mortgage bonds, amounting to \$53,760, not yet exchanged.

"The trust notes given for the loan of Jan. 24, 1884, and all floating indebtedness has been paid by the proceeds of the subscription under Circular No. 5. The company has no floating debt.

"The debentures, issued under Circular No. 5, are limited to \$2,500,000.

INCOME ACCOUNT.

(Exclusive of subsidy), for six months ending Dec. 31, 1884.

* Of which \$1,133,704 collected in cash to Dec. 31, 1884.
† \$93,000 of this has since been paid.

Milwaukee Lake Shore & Western.

(For the year ending December 31, 1884.)

The annual report states that now the great and rapid increase for two years past in the property, and important prospects and connections, and wider distribution of the securities, call for an account of what has been done in the past, and a full explanation to the stockholders of the condition of the enterprise, on the eve of the completion of the line to a terminus on Lake Superior. "When the company was reorganized in 1875, the line extended from Milwaukee along the shore of Lake Michigan to Two Rivers, and west from Manitowoc to Appleton, 126 miles. The country was thickly settled, well cultivated, and the towns on the line were growing in population and manufactures, but the competition from the lake and shorter lines of railway to Appleton, the terminus, reduced the traffic and rates to very low figures. The gross earnings for 1875 were \$182,187. An extension into the unoccupied territory north of Appleton was the only means of increasing the business satisfactorily. The country north of Appleton was sparsely settled for thirty miles, but beyond that line to Lake Superior, for 130 miles, was an unbroken forest, and in that part of the region lying south of the lake for fifty miles were valuable iron mines hitherto inaccessible. It was decided to penetrate this country, as yet uninhabited and full of promise of business. * * * "It will, however, be some years before any farm products are raised beyond the

needs of the local population; the most profitable employment for labor being in the cutting of timber.

"The road is to be completed by July, 1885, to Ashland.

"The docks, yards, repair shops and station buildings at Ashland will cost about \$400,000, and this property with a large amount of real estate acquired by the company in the neighborhood of the docks will be placed under the mortgage known as the Ashland Division mortgage, which also covers the line of railway from the Montreal River to Ashland, 40 miles in length. In July the company will have in operation 527 miles, of which 150 miles have been built mainly with reference to the development of the iron mines." * *

"The operating expenses, as shown in the report for 1884, were 66 75-100 per cent of earnings, against 63 34-100 per cent for 1883, the increase being due to the operating of many miles of new line, upon which no business was yet developed and also to the cost of hauling construction material, for which no charge was made during the year."

Chicago & West Michigan.

(For the year ending Dec. 31, 1884.)

The directors' report says: "The road-bed and track are being steadily improved—3,000 tons of steel rails and 183,000 ties having been put in during the year 1884, the cost of which has been charged to operating expenses, less credit for old iron. The bonded debt was increased during the year by the sale of \$35,000 of the 5 per cent mortgage bonds of the company, the proceeds of which were used for terminal facilities at Muskegon and other charges for construction and equipment. All of the outstanding stock of the White River Railroad Company having been exchanged in 1882 for bonds of the Chicago & West Michigan Railway Company, the former company has been dissolved, and the accounts representing its cost to this company have been closed by transfer to construction account."

Earnings and income for four years were as follows:

Detroit Lansing & Northern.

(For the year ending December 31, 1884.)

The annual report is mainly statistical, the directors merely stating that "the earnings of the first six months of the year warranted the dividend of 3 per cent upon the common stock of this company, which was declared by the board in August, in the full expectation that the last six months would show a similar result; but the sudden prostration of the lumber business tributary to this road made this an impossibility. A revival of the business should again place this stock upon a dividend-paying basis."

Earnings and income for four years were as follows:

	1881.	1882.	1883.	1884.

* In 1881 and 1882 7 p. c. on common; in 1883, 6 on com. and 7 on pref.; in 1884, 3 on com. and 7 on prof.

West Jersey.

(For the year ending Dec. 31, 1884.)

The report says that the stock has been increased \$43,050 during the past year by scrip converted into stock. "In March last the Stockton Hotel and Improvement Company, controlled by your company, sold that portion of its property bounded by Gurney Street, Columbia Avenue, Howard Street and the Beach drive, on which was located the large hotel and attached buildings, for the sum of \$91,000. This property was represented on your books at \$150,000. The difference has been charged off in the profit and loss account, and the amount shown on your balance sheet is the nominal value of the property belonging to the Hotel Company. The mortgage of \$60,000 shown in the assets is the security held by your company for the balance due on account of sale of this property." * * *

"The sinking fund now amounts to \$431,000, at par, invested in the bonds of this company, the bonds of companies of which this is the guarantor, and others." * * *

"The parties controlling the property adjacent to Ocean City, which has heretofore been reached by ferry from Somers' Point, having taken out a charter for the Ocean City Railroad Company, extending from Sea Isle City to Ocean City, a distance of 11.1 miles, constructed the road-bed and bridges ready for track, and have transferred to the West Jersey Railroad Company all of the stock owned by it, in consideration of the West Jersey Railroad Company laying the track thereon." * * * "The West Jersey Railroad Company own the entire issue of the stock of the Ocean City Railroad Company, amounting to 4,000 shares, and it is represented on your books at the sum of \$50,000."

Richmond & Alleghany.

(For the year ending September 30, 1884.)

The receivers of this company have issued a full report for the year ending September 30, 1884. Their report says:

"The close of the year finds the property in an improved condition. Bridges, trestles and buildings have been maintained and added to, the rolling stock put in repair, and the road-bed and the alignment and surface of the track materially bettered. The operations have been free from serious accidents. In March, 1884, there was a freshet in James River, greater in volume than any which has occurred since the construction of the road was begun." * * * "The Lynchburg dam was brought to completion this year. Its construction was a necessity imposed by various contracts of the old James River & Kanawha Company. It is a most substantial structure, costing about \$120,000. Toward this cost, however, the city of Lynchburg made liberal contribution by giving the company the rights of way through any of the streets in the

lower part of the city and releasing a claim of \$35,000, for the payment of which all the revenues of the Lynchburg water power had been pledged." * * *

"The Richmond & Alleghany has, in common with most other roads, failed to realize expected earnings during the year. All the sources from which revenue is derived have been seriously affected by the general depression. The principal effect has been to retard expected development in most branches. Actual decline was experienced only in local traffic, dockage and rents. Rates on local traffic and dockage were maintained; the decrease was in tonnage. The movement of iron ore was but one-third of that of the year before. Less wheat has been carried, although the yield of the James River Valley was estimated to be larger than that of the previous year. Lumber and other interests have suffered greatly, and local return freights, consisting largely of supplies and merchandise, have kept pace in the decline. Through tonnage has largely increased; as a result of improved relations with connecting lines no restrictions are now imposed upon the interchange of through business at Clifton Forge, Lexington or Lynchburg. The result of this favorable change, effected during the year, would have been most satisfactory but for the unprecedentedly low rates that prevailed, the evil effect of which has been aggravated by their fluctuations and uncertainty. Passenger earnings show a steady increase through the year, with good prospects of continuance, the results of improved relations with connecting lines being manifest in this branch of service also."

EARNINGS AND EXPENSES FOR THE YEARS 1882, 1883 AND 1884.

Earnings—	1884.	1883.	1882.

The general balance sheet gives total assets of \$15,676,548, and liabilities the same amount, including under the latter head \$7,994,000 bonded debt, \$755,959 bills payable and \$959,595 "interest on bonds."

GENERAL INVESTMENT NEWS.

Baltimore & Ohio.—The Philadelphia Press reports: "The Baltimore & Ohio have at last practically succeeded in obtaining their right of way into Philadelphia. The original plan is to be adhered to, and the road will cross the Schuylkill below the Gray's Ferry Bridge, follow the wharves on the East side to about Arch Street, where the river takes a bend to the West, and thence in a direct line to Twenty-third Street and Pennsylvania Avenue, where connection is made with the tracks of the Philadelphia & Reading. Nothing but the adverse action of Councils or two or three property owners can prevent the successful completion of this route. It must be understood that the Baltimore & Ohio, as a corporation, does not enter over this line. The route in question is to be owned and operated by the Schuylkill River East Side Railway, a company incorporated under the laws of Pennsylvania, and doing business simply in the county of Philadelphia. This line is the connecting link between the Baltimore & Ohio and the Philadelphia & Reading, and it is over its tracks that the two companies propose to exchange business. Although not a foot of track has been laid, the right of way has been almost completely secured, and actual construction may begin at any time."

Boston & Lowell.—Notice is given that, in accordance with a vote of the board of directors passed April 1, the capital stock of this corporation will be increased by the issue of 7,660 new shares. Stockholders of record at the close of business that day will be entitled to subscribe for one new share for every five shares of 100 dollars par value held by them respectively, on the payment of \$100 per share. One old share of \$500 will be entitled to the same rights as five shares of \$100 each.

—A correspondent of a Boston paper states that "the Massachusetts Railroad Commissioners recently notified the Boston & Lowell corporation that the legal limit of its right of borrowing money on bonds was already reached, and it was obliged to forego the issue of \$500,000 of new bonds, as voted at the annual meeting, until an enlargement of the paid up capital is had. Being unable to raise money by borrowing on the bonds, the directors, at the time of acquiring this Vermont railroad (April 1), voted to issue 7,660 shares of new stock. This stock, if taken, will yield \$766,000 of money to the company, with which they can begin the extension of their track from Swanton or Sheldon toward Montreal." The Vermont road referred to is the St. Johnsbury & Lake Champlain.

—A traffic contract was consummated between the Boston Concord & Montreal and the St. Johnsbury & Lake Champlain railroad companies, whereby the latter line passes under the control of the former, which in turn is under the management

of the Boston & Lowell Company. The arrangement took effect April 1, and is another step in a comprehensive plan of the Boston & Lowell road to make itself independent of the Central Vermont for its through connections.

Chesapeake & Ohio.—The following summary of information in regard to the several mortgages of the Chesapeake & Ohio Railway is given in the New York Express:

"The drop in Chesapeake & Ohio Series B bonds has drawn attention to the nature of those and other securities of the company, and caused that inquiry on the part of bondholders which might have been more wisely made at an earlier day." "Chesapeake & Ohio Series A and B bonds were issued under one mortgage made July 1, 1878, under the reorganization plan formulated by A. S. Hatch, C. P. Huntington and others. The amount of the mortgage was \$17,000,000; the security was the main line from a point on the James River below Richmond to a point on the Ohio River in West Virginia, together with franchisees, buildings, &c. [Series A also secured on Peninsula Extension.] Of the bonds issued under the mortgage \$2,400,000 were known as Series A, with interest payable October and April in gold. The remainder, \$15,000,000, were designated Series B, and were issued with interest coupons for the first three years payable May and December in first preferred stock, or in scrip convertible into such stock, &c., &c. "Provision was made in the mortgage that the company might issue other bonds not to exceed \$10,122,500 (now known as the second mortgage), bearing 6 per cent interest, payable January and July, and running forty years. Interest on these additional bonds was payable for the first six years in second preferred stock; in the seventh year 2 per cent in currency and 4 per cent in second preferred stock; in the eighth year, 4 per cent in currency and 2 per cent in second preferred stock; in the ninth year and thereafter, in full in currency, or as nearly in conformity therewith as the net revenues of the company would permit, any deficiencies in cash payment of interest on the said bonds to be made up in second preferred stock.

"Besides the bonds described, Chesapeake & Ohio has issued \$2,350,000 purchase money funding bonds; \$2,000,000 gold Peninsula Extension; \$42,000 of \$3,000,000 authorized of first mortgage gold extensions and \$900,000 equipment bonds. It should be stated, also, that Series A bonds differ from Series B in that, besides the security afforded by the mortgage of the main line, by a subsequent mortgage the lien was extended over the Peninsula Division, a line seventy-five miles long, running from Richmond to Newport News, and the terminus at Newport News. With one exception, all the Chesapeake & Ohio mortgages contain a provision that, in case of default on principal at maturity or default of interest when due, the terms of the mortgage shall continue 'until on each of six successive due dates of coupons some interest shall be in default.' Then only the holders of bonds representing in the aggregate at least a majority in amount make demand in writing for surrender of the security of the mortgage. After default and demand, the trustees have power to sell the security. The only mortgage of the company drawn in the ordinary way is the Purchase Money Sinking Fund Mortgage, which was made under an order of court to secure prior liens when the road was reorganized. But the amount of that mortgage is so small that it should not imperil the interests of bondholders under the other mortgages.

"The interest payable in cash in 1885 is that on the first mortgage, embracing the A and B bonds and smaller mortgages. Interest on the second, as may be seen, may be paid in second preferred stock so long as net earnings are not equal to paying them in cash. Friends of Chesapeake & Ohio say the road is in excellent condition, and is capable of earning more than its interest in times of merely ordinary prosperity along the line. The interest payable in money last year was about \$1,344,300 and this year should be \$1,544,000. To pay full interest in cash the company would need \$1,944,300. The following statement is taken from the annual report; taxes are included in operating expenses:

	Gross Earnings.	Operating Expenses.	Net Earnings.
1881.....	\$2,705,343	\$2,247,403	\$137,940
1882.....	3,331,976	2,302,148	1,029,828
1883.....	3,906,792	2,804,931	1,306,861
1884.....	3,538,605	2,462,720	1,075,885

Cincinnati Washington & Baltimore.—At Cincinnati, April 8, the annual meeting of the stockholders of the Cincinnati Washington & Baltimore Railroad was held. A report of the president shows for 1884—gross earnings, \$1,854,307; expenses, \$1,408,371; net earnings, \$445,936. The fixed charges amounted to \$692,072, making a deficit of \$246,136.

Denver & Rio Grande.—A committee selected after the visit last winter of the representatives of the foreign bondholders in London, Edinburgh and Amsterdam, is preparing a plan of reorganization of this company. Those gentlemen representing the foreign bondholders went over the road, and made an intelligent report on the status of the company and its future requirements; their plan of reorganization, as foreshadowed by their report, seemed to be excellent in its main features, and unless the plan when issued should suggest the unsettling or scaling of the first mortgage bonds in any way, it would appear to be substantially as good as one as could be proposed.

But in the meantime comes a report from Philadelphia of a plan proposed by a committee there, formed in October, 1884, which seems to be made in the interest of the car trusts and to please the consolidated mortgage bondholders and the stockholders. This plan seems to be open to most decided objections from first mortgage bondholders, whose prior rights are not fully acknowledged. It is proposed to scale down their interest, and also to ask them to give up their present lien on the best part of the property and take a new bond secured by a mortgage of much larger amount. The first mortgage bondholders should not entertain such a proposition for a moment, as they have a strong first lien, which there is no doubt the courts will protect. A brief outline of the Philadelphia plan is given as follows: "The fixed charges will not, it is claimed, exceed \$1,500,000 for the years 1886 to 1889, inclusive. Holders of the present first mortgage bonds and car trust certificates are to be given a bond ("A") bearing 6 per cent at a rate of \$7,000 per mile on the whole road and the equipment. Holders of the consolidated bonds will get 4½ per cent till 1890 and 5 afterward ("B"). The plan contemplates the issuance of a new first mortgage for \$30,000,000 gold on all the existing property. Series "A" will amount to \$10,000,000 and mature Jan. 1, 1896, at 6 per cent interest, payable quarterly. Series "B" includes \$20,000,000, maturing Jan. 1, 1916. For the years 1886 to 1889 interest will be 4½ per cent, and after that 5 per cent. A new second mortgage, amounting to \$20,000,000, of non-cumulative gold debentures is also to be created, \$11,000,000 being issued to execute the

plan, and the balance to be held in reserve for the acquisition of new property when needed.

—At Denver, Col., April 6, a meeting of the stockholders of the Denver & Rio Grande Railway was held. About \$20,000,000 was represented. W. S. Jackson, C. F. Woerishoffer, and T. H. A. Tromp were elected directors. A meeting of the directors to elect officers will be held in New York on April 13.

Des Moines Osceola & Southern.—On application of several creditors of this company, the Iowa Circuit Court appointed a receiver for the road on April 2. The road is a narrow-gauge line extending from Des Moines, Ia., southwest to Cainsville, Mo., 113 miles. It was intended to run to Kansas City. By the latest report issued the company had \$879,000 first mortgage bonds outstanding. The net earnings for 1883—the latest year reported—were \$47,520, or about \$15,000 less than the interest on the bonds.—*R. R. Gazette.*

Houston & Texas Central.—A press dispatch from Waco, Texas, April 5, said: "In the United States circuit court today Morgans' Louisiana & Texas Railway & Steamship Company filed a bill of complaint against the Houston & Texas Central Railway for the recovery of \$762,000. This suit embraces the line of the Central railroad from Ross station ten miles north of Waco to Albany, Texas, a distance of 228 miles. Benj. G. Clark of New York, and Charles Dillingham of New Orleans, were appointed joint receivers in this suit."

Iron Railroad (Toledo Cincinnati & St. Louis).—At Cincinnati, April 6, William Robinson, of Boston, filed a bill in the United States Court against the Toledo Cincinnati & St. Louis Railroad, the Iron Railroad, the Iron Railway Company, the Central Trust Company of New York and John C. Coombs. The plaintiff recites that the suit is brought on behalf of the second mortgage bondholders of the Iron Railroad Company. The bill states that the consolidation of the three first-named companies was illegal, and asks that the sale of the Iron Railroad be set aside, and such other relief be granted as is deemed necessary.

Mexican Central.—At the annual meeting of the Mexican Central Railroad in Boston, the following directors were unanimously elected: Oliver Ames, Isaac T. Burr and Benjamin P. Cheney of Boston; Sebastian Camacho and Charles C. Blodgett of Mexico; Jacob Edwards and Ambrose B. Lawrie of Boston; Levi Z. Leiter of Chicago; Albert W. Nickerson, Charles J. Paine and William Roth of Boston; David B. Robinson of Mexico; Warren Sawyer of Boston; Robert R. Symon of London, England; Arthur Sewall of Bath, Me., and George B. Wilbur and Levi C. Wade of Boston.

Mexican Subsidy.—The Boston Transcript says: "A correspondent asks why the Mexican Government continues to pay the Mexican Central subsidy, while it has suspended payment upon the Sonora subsidy. It may be some reason to state that the Sonora subsidy is a direct cash obligation of the Mexican Government, which the Government declares itself at present unable to fulfil. The Mexican Central subsidy is paid directly from the customs revenues, eight per cent of all these revenues belonging by law to the Mexican Central subsidy account."

New York Chicago & St. Louis.—A meeting of first mortgage bondholders of the Nickel-Plate Railroad was held at the office of William Heath & Co., bankers and brokers, who issued the call for the meeting. It was said that about \$10,000,000 of the first mortgage bonds were represented. The nature of the grievances and the remedies proposed are fully set forth in the following preamble and resolution offered by Mr. E. B. Underhill, and unanimously adopted:

Whereas, The Lake Shore & Michigan Southern Railroad Company holds the controlling interest in the capital stock of the New York Chicago & St. Louis Railroad, and

Whereas, The management of the latter has been under the practical direction of the same parties, as shown by the fact that the leading directors have been the same in both companies, and

Whereas, The New York Chicago & St. Louis Railroad Company is reported to have a large floating debt, and has been placed in the hands of a receiver at the instance of the junior creditors, which is believed to have been done with the consent of the management of the company for the purpose of retaining control of the property in the interests of the Lake Shore Company, with intent of defaulting in the interest upon the \$15,000,000 first mortgage bonds maturing June 1, 1885, for the purpose of forcing the first mortgage bondholders to take a less rate of interest; and

Whereas, It is believed that the property, under an independent management, can demonstrate its ability to secure such business relations as will amply provide for the full interest charges under the first mortgage; therefore,

Resolved, That a committee of seven be appointed, consisting of F. H. Coesett, of the Mutual Life Insurance Company; Adrian Isella, Jr.; Stephen Crowell of the Phenix Insurance Company; I. B. Newcombe; Thomas Denny; Charles E. Quincey, and W. R. Travers, for the purpose of determining what steps are necessary to fully protect the interests of the first mortgage bondholders, and of employing the necessary counsel to the end that the rights of the first mortgage bondholders be promptly enforced; and further, to take such steps as they may be advised shall prevent the payment of any debt in abrogation of the rights of the first mortgage, and to prevent the creation of any debt or obligation by receiver's certificates or otherwise, as shall be a prior lien to the first mortgage.

On motion of Mr. Hugh L. Cole, it was also resolved that the committee be instructed to take into consideration the advisability of obtaining proxies from bondholders and minority stockholders, so as, if possible, to control a majority of the votes and put their own board of directors in charge of the property,

New York & New England.—In the receivership cause, which is pending in the United States Circuit Court at Hartford, Conn., Messrs. William T. Hart, Frederick J. Kingsbury and Eustace C. Fitz, trustees under the second mortgage of the New York & New England road, have filed a cross petition, praying for the partition of the rolling stock of the New Eng-

land Car Trust, and for an order to close the trust. The petition represents that Receiver Clark, alleging that the continued custody of the whole of their rolling stock is a burden to the estate in his hands, threatens to deliver it to the owner—the American Loan & Trust Company, trustee—and in this case it would be withdrawn from the railroad; but in the opinion of the petitioners the use of a portion of it has added and will continue to add to the earning power of the railroad, and if all of it is withdrawn, the earnings of the road will be materially diminished; they therefore pray for a division of it. The time for hearing this petition has not yet been fixed by the Court.

—On April 6, the last day, there had been \$600,000 of the New England Car Trust bonds deposited with the American Loan & Trust Company, to be exchanged for second mortgage bonds of the New York & New England. There were \$200,000 more ready for exchange, and said to be nearly \$200,000 more likely to come in.

—At Hartford, Conn., April 8, the Senate passed the bill for settling the overdue taxes of the New York & New England road, by accepting \$150,000. It had already passed the House.

New York West Shore & Buffalo.—Kiernan's report says: "Messrs. Russell Sage, H. L. Horton & Co., Henry Clews & Co., Schafer Bros., Musgrave & Co., and others interested in the West Shore Railway Co., who are dissatisfied with proposed plan of reorganization, have called a meeting of the holders of bonds at Windsor Hotel, 18th inst., for the purpose of taking measures to protect their interests."

North Carolina State Bonds.—The State Treasurer gives notice that the time for exchanging certain old bonds of the State into new 4 per cents, under the act of 1879, has been extended to Jan. 1, 1887. The exchange is made at Raleigh, and bonds presented must be accompanied by all coupons in the holders' possession.

Oregon & California.—About a month ago this company procured a preliminary injunction restraining the Oregon & California Company and the Farmers' Loan & Trust from issuing additional bonds. The ground of the injunction was an allegation that the Oregon and California Company had agreed to limit to \$2,610,000 the issue of bonds on its road as it stood on July 1, 1884. Judge Andrews, holding Supreme Court, Chambers, has vacated the injunction, holding that as the alleged agreement had not been proved the defendant companies had the right to issue and certify additional bonds.

Oregon Improvement Company.—This company's statement for February and for the three months of the fiscal year from Dec. 1 to Feb. 28 is:

	February, 1885.	1884.	Three Months, 1884-5.	1883-4.
Earnings.....	\$212,050	\$225,133	\$673,366	\$759,788
Expenses.....	171,098	203,851	545,765	634,576
Net earnings.....	\$40,952	\$21,282	\$127,601	\$124,212

Philadelphia & Reading.—At Philadelphia, April 9, a long conference of the Bartol and the Whelen Reading Railroad committees was held. Upon the adjournment the members decided to give no publicity to their deliberations. No proposition, they said, had been made by either party.

Pittsburg & Western.—On the petition of the receivers of this company for leave to borrow money for wages, &c., the Court made a decree that the receivers be permitted to borrow any amount not exceeding \$210,000 for the purpose of making payment of wages of employees; also, accommodation paper outstanding, judgments obtained for land damages and counsel fees.

Texas & St. Louis.—It is understood that a plan of reorganization is to be submitted shortly to the bondholders, which will provide for the extension of the road from Bird's Point, Mo., to St. Louis, 155 miles, making the entire length of the road 890 miles. It provides also for the change of the road from 3-ft. to standard gauge. In order to pay for the extension and the change of gauge, new first-mortgage bonds will be issued on the entire line at the rate of \$12,000 per mile; the present first-mortgage bonds to be exchanged for income bonds and the income bonds for preferred stock. The details of the plan are not yet made public. This company has made a traffic agreement with the St. Louis & Cairo providing for the exchange of business to and from St. Louis and points in Texas. Some three years ago the company made an exclusive contract with the Illinois Central for St. Louis business, but the receiver claims that he is not bound by that contract.

Union Canal.—The general mortgage bondholders of the Union Canal Company have foreclosed. The canal is seventy-seven and one-half miles in length, running from Reading on the Schuylkill to Middletown on the Susquehanna, and the sale will take place on the 19th of next month.

Union Pacific.—The following is a report of this company's land sales effected in March and the first quarter of 1885:

	March, 1885.	March, 1884.
	Aeres. Amount.	Aeres. Amount.
Union Division.....	100,990 \$181,289	332,924 \$798,187
Kansas Division.....	64,208 258,951	48,148 209,792
Total.....	165,193 \$440,241	381,073 \$1,007,979
Decrease, 1885.....	215,874 \$567,738

Total.....	252,149 \$655,121	667,182 \$1,811,216
Decrease, 1885.....	415,032 \$1,159,146	

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, April 10, 1885.

The most important event of the week is the occurrence of hostilities in Afghanistan, strengthening the belief that war will ensue between Great Britain and Russia, and producing a marked effect in speculative circles. Breadstuffs and Provisions advanced; cotton and some other staples declined. There has been a return of colder weather, snow having fallen in Northern latitudes, but progress has been made in the resumption of inland navigation. The low temperature is causing the spring season for regular trade to pass away without realizing satisfactory results. There is, however, an increasing activity in manufactures. Labor shows some discontent and several strikes of minor importance have occurred, but no serious troubles from this cause are anticipated.

Lard futures were dull until Thursday, when they became active at buoyant values, in sympathy with the speculative advance in corn. To-day there was a quieter market, closing at 7.20c. for April, 7.28c. for May, 7.35c. for June and 7.43c. for July. Spot lard was to-day quite active at 7.15c. for prime city, 7.25c. for prime Western and 7.50c. for refined for the Continent. Pork is dearer and more active at \$13 25 for mess, \$13 50 for family, \$10 50@11 for extra prime and \$14 50@15 25 for clear. Cut meats have been dull, but close more active, with large sales of pickled bellies at 5 $\frac{3}{4}$ @6 $\frac{1}{4}$ c., with shoulders quoted at 5 $\frac{1}{4}$ @5 $\frac{3}{4}$ c., and hams at 9 $\frac{1}{4}$ @9 $\frac{1}{2}$ c. Smoked meats quiet. Beef unsettled. Tallow steadier with a fair demand at 5 $\frac{3}{4}$ c. Butter is dull at 10@27c. for creamery. Cheese quoted at 6 $\frac{1}{2}$ @12c. for State factory.

The slaughter of swine at the West for "summer packing" shows a considerable increase as compared with last year—nearly 50 per cent. The following is a comparative summary of aggregate exports from Oct. 27 to April 4:

	1884-5.	1883-4.	
Pork, lbs.	24,206,800	19,348,200	Inc. 4,858,600
Bacon, lbs.	217,482,833	180,716,015	Inc. 36,766,818
Lard, lbs.	131,369,213	91,662,489	Inc. 39,706,724

Coffee on the spot has been fairly active, with fair cargoes Rio still quoted at 8 $\frac{1}{2}$ c., but the speculation has been dull at drooping values, closing to-day with sellers at 7.30c. for May, 7.45c. for July and 7.60c. for September. Raw sugars have declined, but close steady and more active at 4 9-16@4 11-16c., with sales of 1,800 hds. white centrifugal at 5 5-16c. Refined sugars unsettled. Molasses has declined and closes at 17 $\frac{1}{2}$ c. for new crop Cuba, 50 deg. test. Teas have been dull and drooping.

Kentucky tobacco has been quiet and nearly nominal. Seed leaf has been fairly active, the sales aggregating 720 cases, including 500 cases 1893 crop, Pennsylvania, 8@14c.; 100 cases 1883 crop, New England, 10@15c.; 20 cases 1882 crop, Ohio, private terms; 100 cases 1883 crop, Wisconsin Havana, private terms; also, 400 bales Havana, 68c.@1 15 and 200 bales Sumatra, \$1 10@1 60.

The speculation in crude petroleum certificates has been dull and prices have further declined, under the increased flow of wells and the unfavorable foreign advices, checking the export demand. The close to-day was at 78c. Crude in barrels quoted at 7@7 $\frac{1}{4}$ c.; refined in barrels for export, 7 $\frac{3}{4}$ @7 $\frac{1}{2}$ c., and in cases, 8 $\frac{1}{4}$ @10 $\frac{1}{2}$ c.; naphtha, 6 $\frac{1}{2}$ c. Naval stores have been depressed; 100 bbls. spirits turpentine sold to-day for April delivery at 30c., and strained rosin is quoted at \$1 15@1 17 $\frac{1}{2}$. Hops are steadier, with some speculative feeling.

Metals have continued to show very little speculative interest. At to-day's exchange pig iron certificates were quiet and steady at \$15 $\frac{3}{8}$ @16 $\frac{3}{8}$ bid; \$16 $\frac{3}{8}$ @16 $\frac{3}{8}$ asked. Tin steady at five points decline, closing firmer at 17.45c.@17.70c. spot; 17 $\frac{1}{4}$ c.@17.40c. futures; 16 tons Aust., April, sold at 17.20c. Tin plate neglected. Copper stronger at 10.60@10.80c. Lead steady at 3.55@3 $\frac{5}{8}$ c. domestic. Spelter steady at 4 $\frac{1}{4}$ @4.31 $\frac{1}{2}$ c. domestic.

Ocean freights have been doing better, an impulse to grain shipments arising from the war news, and 4 $\frac{1}{4}$ d. was paid to Liverpool to-day, and recent charters are from Baltimore to Cork for orders at 4s. Petroleum charters are dull, with room plenty; recent business includes crude hence to Marseilles, 2s. 4 $\frac{1}{2}$ d.

COTTON.

FRIDAY, P. M., April 10, 1885.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening (April 10), the total receipts have reached 21,803 bales, against 23,111 bales last week, 23,810 bales the previous week and 32,885 bales three weeks since; making the total receipts since the 1st of September, 1884, 4,601,095 bales, against 4,619,774 bales for the same period of 1883-84, showing a decrease since September 1, 1884, of 43,679 bales.

Receipts at—	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.	Total.

There was no important feature to the speculation in cotton for future delivery at this market until yesterday. The re-opening of the market on Monday (to which day business had been adjourned on the previous Thursday), was dull at drooping figures. A small advance on Tuesday morning was more than lost at the close, and there was a dull, somewhat irregular market on Wednesday, the next crop making a show of strength without activity. But yesterday morning the reports of actual hostilities between Russian and British forces in Afghanistan, accompanied by a sharp decline in consols, caused this market for cotton futures to open in a sort of semi-panic, under the influence of which prices broke down to an extent that must be considered, in connection with the statistical position and other circumstances, as quite notable. There was, however, a partial recovery in the last hour, and the close was firm. To-day Liverpool reported some improvement, and our market was slightly dearer, but dull. Cotton on the spot was dull and nominally unchanged until yesterday, when quotations were reduced $\frac{1}{8}$ c. To-day the market was quiet and unchanged at 11 1-16c. for middling uplands.

The total sales for forward delivery for the week are 355,900 bales. For immediate delivery the total sales foot up this week 364 bales, including 100 for export, 764 for consumption, — for speculation and — in transit. Of the above, — bales were to arrive. The following are the official quotations for each day of the past week.

April 4 to April 10.	UPLANDS.			NEW ORLEANS.			TEXAS.

Market, Prices and Sales of FUTURES.											

* Includes sales in September, 1884, for September, 153,200; September-October, for October, 421,800; September-November, for November, 582,200; September-December, for December, 967,800; September-January, for January, 2,114,100; September-February, for February, 1,959,200; September-March, for March, 2,294,100.

We have included in the above table, and shall continue each week to give, the average price of futures each day for each month. It will be found under each day following the abbreviation "Aver." The average for each month for the week is also given at bottom of table. Transferable Orders—Saturday, —; Monday, 11:50c; Tuesday, 11:50c; Wednesday, 11:10c; Thursday, 11:05c; Friday, 11:10c. Short Notices for April—Monday, 11:09c; Tuesday, 11:12c; Wednesday, 11:15c; Thursday, 11:17c.

The following exchanges have been made during the week: 200 Nov. for Dec. even. 10 pd. to exch. 100 April s. n. for May. 10 pd. to exch. 500 April for June. 11 pd. to exch. 500 May for June. 15 pd. to exch. 200 June for Aug.

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph, is as follows. The Continental stocks, as well as those for Great Britain and the afloat, are this week's returns, and consequently all the European figures are brought down to Thursday evening. But to make the totals the complete figures for to-night (April 10), we add the item of exports from the United States, including in it the exports of Friday only.

	1885.	1884.	1883.	1882.

Price Mid. Up., Liverpool..... 6d. 63½d. 5½d. 61½d.

The imports into Continental ports this week have been 86,000 bales.

The above figures indicate a decrease in the cotton in sight to-night of 270,483 bales as compared with the same date of 1881, a decrease of 597,394 bales as compared with the corresponding date of 1883 and a decrease of 808,564 bales as compared with 1882.

AT THE INTERIOR TOWNS the movement—that is the receipts for the week and since Sept. 1, the shipments for the week, and the stocks to-night, and the same items for the corresponding period of 1883-84—is set out in detail in the following statement:

TOWNS.	Receipts. This week. Sept. 1-10, 1885.	Shipments. This week. Apr. 10, 1885.	Stock. Apr. 10, 1885.	Receipts. This week. Sept. 1-10, 1884.	Shipments. This week. Apr. 11, 1884.	Stock. Apr. 11, 1884.

						43,715
						110,008

* This year's figures estimated.

The above totals show that the old interior stocks have decreased during the week 15,193 bales, and are to-night 21,003

bales more than at the same period last year. The receipts at the same towns have been 15,622 bales less than the same week last year, and since September 1 the receipts at all the towns are 186,118 bales less than for the same time in 1883-84.

QUOTATIONS FOR MIDDLING COTTON AT OTHER MARKETS.—In the table below we give the closing quotations of middling cotton at Southern and other principal cotton markets for each day of the past week.

RECEIPTS FROM THE PLANTATIONS.—The following table is prepared for the purpose of indicating the actual movement each week from the plantations. Receipts at the outports are sometimes misleading, as they are made up more largely one year than another at the expense of the interior stocks. We reach, therefore, a safer conclusion through a comparative statement like the following. In reply to frequent inquiries we will add that these figures, of course, do not include overland receipts or Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

RECEIPTS FROM PLANTATIONS.

Week Ending—	Receipts at the Ports.			St'ks at Interior Towns.			Rec'pts from Plant'ns.

The above statement shows—1. That the total receipts from the plantations since September 1, 1884, were 4,712,786 bales; in 1883-84 were 4,710,686 bales; in 1882-83 were 5,709,144 bales.

2.—That, although the receipts at the outports the past week were 21,803 bales, the actual movement from plantations was 5,716 bales, the balance being taken from the stocks at the interior towns. Last year the receipts from the plantations for the same week were 14,737 bales and for 1883 they were 55,241 bales.

AMOUNT OF COTTON IN SIGHT APRIL 10.—In the table below we give the receipts from plantations in another form, and add to them the net overland movement to April 1, and also the takings by Southern spinners to the same date, so as to give substantially the amount of cotton now in sight.

	1884-85.	1883-84.	1882-83.	1881-82.
Receipts at the ports to Apr. 10	1,691,093	4,649,774	5,486,138	4,369,336
Interior stocks on April 10 in excess of September 1.....	111,691	60,912	222,976	136,322
Net receipts from plantations	4,712,786	4,710,686	5,709,114	4,524,658
Not overland to April 1.....	556,182	526,325	572,324	394,473
Southern consumption to April 1	217,000	236,000	240,000	190,000
Total in sight April 10.....	5,485,968	5,473,014	6,521,438	5,109,131
Northern spinners' takings to April 10.....	1,182,212	1,336,545	1,479,212	1,332,101

It will be seen by the above that the increase in amount in sight to-night, as compared with last year, is 12,954 bales, the decrease from 1882-83 is 1,033,470 bales, and the increase over 1881-82 is 376,937 bales.

WEATHER REPORTS BY TELEGRAPH.—The weather has continued generally favorable for planting operations during the week at the South, and good progress is being made. The temperature has been slightly cool for the season.

Galveston Texas.—It has been showery on one day of the week, the rainfall reaching two hundredths of an inch. The thermometer has ranged from 62 to 77, averaging 69.

Indianola, Texas.—We have had light showers on three days of the week, the rainfall reaching fifteen hundredths of an inch. Young crops are coming up well. The thermometer has averaged 73, ranging from 60 to 82.

Palestine, Texas.—It has rained on three days of the week, the rainfall reaching one inch and eighty-seven hundredths. Corn is growing and cotton planting is making good progress. Average thermometer 64, highest 70 and lowest 50.

New Orleans, Louisiana.—We have had rain on one day, the rainfall reaching thirty-eight hundredths of an inch. The thermometer has averaged 67.

Shreveport, Louisiana.—Telegram not received.

Vicksburg, Mississippi.—Telegram not received.

Meridian, Mississippi.—It has rained on three days of the week. The weather has been too cold for the season.

Columbus, Mississippi.—The weather has been cool, with rain on two days. The rainfall reached one inch and seventeen hundredths. Planting is progressing well.

Leland, Mississippi.—We have had rain on three days of the week, the rainfall reaching one inch and fifty-four hundredths. The thermometer has averaged 60.1, the highest being 84 and the lowest 39.

Little Rock, Arkansas.—The weather has been fair to cloudy on two days of the week, with rain, the rainfall reaching sixty-five hundredths of an inch. The weather keeps too cool for farming interests. The thermometer has averaged 56, the highest being 78 and lowest 40.

Helena, Arkansas.—It has been showery on three days, and the remainder of the week has been pleasant. The rainfall reached eighty-six hundredths of an inch. Average thermometer 55, highest 74 and lowest 37.

Memphis, Tennessee.—There have been light rains on five days of the week, with a rainfall of eighty-seven hundredths of an inch. Farm work continues to make good progress. The thermometer has averaged 55, ranging from 35 to 75.

Nashville, Tennessee.—We have had rain on three days of the week, the rainfall reaching one inch and eighty-eight hundredths. Average thermometer 51, highest 73, lowest 36.

Mobile, Alabama.—It has rained severely on two days, and has been showery on one day, but as the week closes there is a favorable change in the weather. The rainfall reached four inches and ninety-two hundredths. The thermometer has averaged 60, the highest being 73 and the lowest 39.

Montgomery, Alabama.—Telegram not received.

Selma, Alabama.—We have had rain on four days, and the balance of the week has been pleasant. The rainfall reached two inches. The thermometer has averaged 57, ranging from 38 to 74.

Auburn, Alabama.—It has been showery on three days of the week, the rainfall reaching one inch and ten hundredths. The thermometer has averaged 67.4, the highest being 78 and the lowest 37.

Madison, Florida.—We have had rain on two days of the week, the rainfall reaching one inch and sixty-two hundredths. Average thermometer 64, highest 83 and lowest 45.

Macon, Georgia.—We have had light rain on one day of the week. The thermometer has averaged 62, the highest being 78 and the lowest 40.

Columbus, Georgia.—It has rained on one day of the week, the rainfall reaching ninety-six hundredths of an inch. The thermometer has ranged from 40 to 74, averaging 60.

Savannah, Georgia.—We have had rain on two days and the rest of the week has been pleasant. The rainfall reached thirty-one hundredths of an inch. The thermometer has averaged 63, ranging from 44 to 76.

Augusta, Georgia.—The weather has been pleasant during the week, with light rain on three days, the rainfall reaching forty-six hundredths of an inch. Conditions favorable and cotton planting makes good progress. Average thermometer 54, highest 81, lowest 38.

Atlanta, Georgia.—We have had rain on two days of the week, the rainfall reaching fifty-eight hundredths of an inch. The thermometer has averaged 55.7, the highest being 77 and the lowest 38.

Charleston, South Carolina.—It has rained on two days of the week, the rainfall reaching nineteen hundredths of an inch. The thermometer has ranged from 46 to 74, averaging 63.

Columbia, South Carolina.—We have had rain on two days of the week, the rainfall reaching fifty hundredths of an inch. The thermometer has averaged 62, ranging from 32 to 77.

Stateburg, South Carolina.—It has rained on two days, and the remainder of the week has been pleasant. The rainfall reached fifty-four hundredths of an inch. Average thermometer 60.4, highest 80 and lowest 37.

Wilson, North Carolina.—There has been rain on two days of the week, the rainfall reaching seventy-five hundredths of

an inch. The thermometer has averaged 60, the highest being 76 and the lowest 36.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 3 o'clock April 9, 1885, and April 10, 1884.

	Apr. 9, '85.		Apr. 10, '84.	
	Feet.	Inch.	Feet.	Inch.
New Orleans	Below high-water mark	4	1	1
Memphis	Above low-water mark.	18	2	33
Nashville	Above low-water mark.	12	7	9
Shreveport	Above low-water mark.	19	1	17
Vicksburg	Above low-water mark.	23	6	46

New Orleans reported below high-water mark of 1871 until Sept. 9, 1874, when the zero of gauge was changed to high-water mark of April 15 and 16, 1874, which is 6-10ths of a foot above 1871, or 16 feet above low-water mark at that point.

INDIA COTTON MOVEMENT FROM ALL PORTS.—We have re-arranged our India service so as to make our reports more detailed and at the same time more accurate. We had found it impossible to keep out of our figures, as cabled to us for the ports other than Bombay, cargoes which proved only to be shipments from one India port to another. The plan now followed relieves us from the danger of this inaccuracy and keeps the totals correct. We first give the Bombay statement for the week and year, bringing the figures down to April 9.

BOMBAY RECEIPTS AND SHIPMENTS FOR FOUR YEARS.

Year	Shipments this week.			Shipments since Jan. 1.			Receipts.	
	Great Brit'n.	Continent.	Total.	Great Britain.	Continent.	Total.	This Week.	Since Jan. 1.
1885	14,000	15,000	29,000	81,000	197,000	278,000	35,000	410,000
1884	26,000	46,000	72,000	231,000	518,000	749,000	69,000	697,000
1883	22,000	9,000	31,000	197,000	336,000	533,000	66,000	828,000
1882	41,000	8,000	49,000	416,000	228,000	644,000	75,000	830,000

According to the foregoing, Bombay appears to show a decrease compared with last year in the week's receipts of 31,000 bales, and a decrease in shipments of 43,000 bales, and the shipments since January 1 show a decrease of 240,000 bales. The movement at Calcutta Madras and other India ports for the last reported week and since the 1st of January, for two years, has been as follows. "Other ports" cover Ceylon, Tuticorin, Kurrachee and Coconada.

	Shipments for the week.			Shipments since January 1.		
	Great Britain.	Continent.	Total.	Great Britain.	Continent.	Total.
Calcutta—						
1885	5,800	200	6,000	36,000	9,000	45,000
1884	10,000	10,000	69,000	25,000	94,000
Madras—						
1885	4,000	4,000
1884	1,000	1,000	10,500	10,500
All others—						
1885	15,500	6,500	22,000
1884	13,500	3,000	16,500
Total all—						
1885	5,800	200	6,000	55,500	15,500	71,000
1884	11,000	11,000	93,000	28,000	121,000

The above totals for the week show that the movement from the ports other than Bombay is 5,000 bales less than same week last year. For the whole of India, therefore, the total shipments since January 1, 1885, and for the corresponding periods of the two previous years, are as follows:

EXPORTS TO EUROPE FROM ALL INDIA.

Shipments to all Europe from—	1885.		1884.		1883.	
	This week.	Since Jan. 1.	This week.	Since Jan. 1.	This week.	Since Jan. 1.
Bombay	29,000	278,000	72,000	518,000	31,000	553,000
All other ports.	6,000	71,000	11,000	121,000	1,200	71,700
Total	35,000	349,000	83,000	639,000	32,200	624,700

This last statement affords a very interesting comparison of the total movement for the three years at all India ports.

ALEXANDRIA RECEIPTS AND SHIPMENTS.—Through arrangements we have made with Messrs. Davies, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years.

Alexandria, Egypt, April 8	1884-85.		1883-84.		1882-83.	
	This week.	Since Sept. 1.	This week.	Since Sept. 1.	This week.	Since Sept. 1.
Receipts (cantars*)—						
This week....	11,000		5,000		6,000	
Since Sept. 1	13,460,000		2,614,000		2,225,000	
Exports (bales)—						
To Liverpool.....	3,000	284,000	6,000	251,000	2,000	221,000
To Continent	9,000	163,000	3,000	115,000	1,000	77,000
Total Europe.....	12,000	447,000	9,000	366,000	3,000	298,000

* A cantar is 98 lbs.

† Revised.

This statement shows that the receipts for the week ending April 8 were 11,000 cantars and the shipments to all Europe 12,000 bales.

MANCHESTER MARKET.—Our report received from Manchester to-night states that the market is irregular and unsettled owing to political affairs, and difficult to quote. We give the prices for to-day below, and leave previous weeks' prices for comparison.

	1885.						1884.

MEXICO'S COTTON CROP.—Some information and statistics with reference to Mexico's cotton crop and cotton manufactures will be found in our editorial columns.

EAST INDIA CROP.—The Bombay Prices Current of March 6 gave the following:

"The receipts show a slight increase this week, but are still under and losing ground as compared with last year. The deficiency in round figures is now 100,000 bales alike in receipts and exports, and although some people adhere to the belief that it will be made good before the end of the season, we do not think it likely, not at all events with such markets as we are now having. It must not be forgotten that in April and May last year the arrivals of Bhowanuggers and Dhollers were on an unexpectedly heavy scale, and were moreover helped by considerable receipts of Bharwar and Comptas. This year, unless up-country reports are absolutely misleading, the Dhollera and Bhowanuggers crop will not admit of any such unusual arrivals, while the Compta and Bharwar yields will be insignificant. We still consider 900,000 bales a full estimate of the season's exports, with a probability of the total proving considerably less."

COMPARATIVE PORT RECEIPTS AND DAILY CROP MOVEMENT.

—A comparison of the port movement by weeks is not accurate, as the weeks in different years do not end on the same day of the month. We have consequently added to our other standing tables a daily and monthly statement, that the reader may constantly have before him the data for seeing the exact relative movement for the years named. The movement since September 1, 1884, and in previous years, has been as follows:

Monthly Receipts.	Year Beginning September 1.					
	1884-85.	1883-84.	1882-83.	1881-82.	1880-81.	1879-80.
Sept'mb'r	315,443	343,812	326,656	429,777	455,478	333,613
October...	1,090,385	1,046,092	990,584	833,193	963,315	838,492
Novemb'r	1,122,164	1,030,380	1,094,697	974,043	1,006,501	942,272
Decemb'r	1,101,211	1,059,653	1,112,536	996,807	1,020,802	956,461
January	475,757	487,729	752,827	487,727	571,701	647,140
February	261,449	385,938	595,598	291,992	572,728	447,918
March...	163,503	241,514	482,772	257,099	476,582	261,913
Total year	4,562,914	4,595,118	5,345,670	4,290,640	5,075,110	4,480,842
Percentage of total port receipts March 31		94.73	88.80	90.89	88.40	89.55

This statement shows that up to March 31 the receipts at the ports this year were 32,204 bales less than in 1883-84 and 782,756 bales less than at the same time in 1882-83. By adding to the above totals to March 31 the daily receipts since that time, we shall be able to reach an exact comparison of the movement for the different years:

	1884-85.	1883-84.	1882-83.	1881-82.	1880-81.	1879-80.
Tot. Mr. 31	4,562,914	4,595,118	5,345,670	4,290,640	5,075,110	4,480,842
Apr. 1....	5,050	5,344	8.	6,612	15,516	5,922
" 2....	5,994	5,770	8,096	8.	10,903	8,293
" 3....	5,329	4,556	15,531	7,501	8.	6,524
" 4....	1,830	8,973	12,239	9,772	23,210	8.
" 5....	8.	6,155	13,537	7,048	13,035	8,237
" 6....	3,111	8.	13,334	4,022	9,980	6,333
" 7....	4,998	6,300	15,310	9,512	13,636	6,243
" 8....	2,829	4,507	8.	4,170	14,912	5,264
" 9....	2,415	3,204	11,300	8.	9,676	4,717
" 10....	6,625	3,319	18,301	7,387	8.	5,156
Total.....	4,601,095	4,643,146	5,453,404	4,346,661	5,186,000	4,537,541
Percentage of total port receipts Apr. 10		95.72	90.60	92.00	88.29	90.72

This statement shows that the receipts since Sept. 1 up to to-night are now 42,051 bales less than they were to the same day of the month in 1884 and 852,309 bales less than they were to the same day of the month in 1883. We add to the table the percentages of total port receipts which had been received to April 10 in each of the years named.

JUTE BUTTS, BAGGING, &C.—There has been a light call for bagging since our last report, and the market is only mode-

ately busy filling the jobbing orders that are coming in. We do not hear of any inquiry for large lots, buyers not laying in stock at the moment. Prices are steady and sellers are quoting 9c. for 1 1/2 lb., 9 1/2 c. for 1 3/4 lb., 10 1/2 c. for 2 lb. and 11c. for standard grades, but on a quantity a shade better could be done. There has been more demand from manufacturers for butts, and orders show an increase. Some parcels have been taken on the basis of 1 1/2 @ 1 3/4 c. for paper grades and 2 @ 2 1/2 c. for bagging qualities, about 3,000 bales finding takers; and at the close sellers are quoting these figures for any fair sized parcel.

THE EXPORTS OF COTTON from New York this week show an increase, as compared with last week, the total reaching 15,899 bales, against 13,900 bales last week. Below we give our usual table, showing the exports of cotton from New York, and their direction, for each of the last four weeks; also the total exports and directions since September 1, 1884, and in the last column the total for the same period of the previous year.

EXPORTS OF COTTON (SALES) FROM NEW YORK SINCE SEPT. 1, 1884.

SHIPPING NEWS.—The exports of cotton from the United States the past week, as per latest mail returns, have reached 50,248 bales. So far as the Southern ports are concerned, these are the same exports reported by telegraph, and published in the CHRONICLE last Friday. With regard to New York we include the manifests of all vessels cleared up to Thursday night of this week.

		Total bales.
NEW YORK—To Liverpool, per steamers Anania, 543....		543
Atlantic, 2,049....City of Chicago, 1,872....City of Rome, 345....Hipparchus, 1,060....per ship Marabont, 4,620....		10,430
To Hull, per steamer Chicago, 161....		161
To Havre, per steamer Amerique, 175....		175
To Bremen, per ship Joseph H. Seammell, 4,414....		4,414
To Hamburg, per steamer Moravia, 50....		50
To Antwerp, per steamer Bolgenland, 350....		350
To Genoa, per steamer Britannia, 200....		200
NEW ORLEANS—To Liverpool, per steamers Alice, 2,287....		2,287
France, 5,900....Texas, 2,551....		10,741
To Havre, per ship Scotia, 3,892....per bark M. Fremuda, 3,000....		6,892
To Reval, per bark Triade Tarrabochis, 3,350....		3,350
To Vera Cruz, per steamer Estaban de Antunano, 240....		240
MOBILE—To Liverpool, per bark Oerda, 1,294....		1,294
CHARLESTON—To Bremen, per steamer Jeannet, 3,975....		3,975
GALVESTON—To Vera Cruz, per steamer Whitely, 900....		900
NORFOLK—To Liverpool, per ship Senator, 4,869....		4,869
PHILADELPHIA—To Liverpool, per steamer British Crown, 2,148....		2,148
Total.....		50,248

The particulars of these shipments, arranged in our usual form, are as follows:

	Liverpool.	Hull.	Havre.	Bremen.	Antwerp.	Genoa.	Vera Cruz.	Total.
New York.	10,439	161	175	4,464	350	200	15,839
New Orleans.	10,741	6,892	3,350	240	21,223
Mobile.....	1,294	1,294

BREADSTUFFS.

FRIDAY, P. M., April 10, 1885.

There was no marked change in the flour market until yesterday. Prices did not sympathize to any considerable extent with the advance in wheat, which had been promoted by the unfavorable crop accounts. But on the receipt of the war-like intelligence from Afghanistan, the dealings became very active. Some 30,000 bbls. were taken for export, and prices advanced 15@30c. per bbl., the fair low grades improving most. There is still a scarcity of full lines of shipping grades. The high grades of family brands are plenty, and the demand for them is readily met. Rye flour and corn meal have been firmer, but prices show little advance. To-day flour was in brisk request from dealers, and further advanced.

The wheat market has been the scene of an excited speculation here and at the West, attended by an important advance in prices. For the first half of the week the basis of the movement was unfavorable crop accounts. In California, it was asserted, the needed rains had not fallen; and in the Ohio and Missouri valleys the fall-sown wheat had been winter killed to a large extent, while in the Northwest the severe weather was impeding spring sowing. On Wednesday the speculation for the rise, growing out of these influences, had nearly subsided, but it gained renewed strength from the foreign advices, and on Thursday the war news from Afghanistan caused the greatest excitement, prices advancing 4@6c. per bushel. There was also more doing for export than for some time past. To-day wheat opened 3c. lower, but there was a good export demand, speculation revived, and most of the early decline was recovered.

DAILY CLOSING PRICES OF NO. 2 RED WINTER WHEAT.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.

Indian corn has moved somewhat in sympathy with wheat, a considerable rise in prices having taken place on Thursday, especially for the more distant futures; but the speculation has been only moderately active, and the rise has had the effect of checking the business for export. White corn is very scarce and decidedly higher. To-day there was a further advance, with a brisk speculation, but the close was somewhat irregular.

Barley was quiet.

Oats were comparatively dull early in the week, but revived on Wednesday, and were active and buoyant on Thursday. There has been also a renewal of the export movement to London, and likewise shipments to Cork for orders. To-day there was a further speculative advance, with a moderate export, closing at 39c. for May and 39¹/₂c. for June and July.

THE DRY GOODS TRADE.

FRIDAY, P. M., April 10, 1885.

There was during the past week a continuation of the quiet tone lately noticed in the wholesale branches of the dry goods trade, the general movement having been light and unsatisfactory for the time of year. There was a meagre representation of out-of-town jobbers in the market, and their purchases were chiefly restricted to small parcels of specialties required for immediate distribution. The re-order demand from Western and Northwestern jobbers was of fair dimensions, but orders from other sections of the country were neither numerous nor important in the aggregate. Business in commission and importing circles was therefore of limited proportions, and by no means up to expectations. The jobbing trade has shown very little animation, still a fair distribution of the most desirable fabrics was made at regular quotations, and exceptionally low prices enabled some of the leading local jobbers to move large quantities of domestics, prints, gingham, &c., in package and assorted lots.

DOMESTIC COTTON GOODS—The exports of cotton goods from this port for the week ending April 7 were 2,477 packages,

including 1,591 to Great Britain, 151 to Brazil, 78 to Venezuela, 76 to Mexico, &c. Brown and bleached goods ruled quiet in first hands, and stocks are doubtless accumulating in some quarters. Colored cottons were in irregular demand, but some large transactions in tickings and denims were stimulated by lower prices than ever before known in the history of the trade, and a moderate business was done in chevots at unchanged figures. Light cotton fabrics, as Victoria and India lawns, nainsooks, &c., continued in fair request and steady in price, and quilts continued to move in considerable quantities. Print cloths were in moderate demand and a trifle dearer at 3 1-16c. plus 1 per cent for 64x64 "spots" and 2 3/4c. less 1 per cent for 56x60s, the appreciation having been caused by a sensible movement to stop production at Fall River and in Rhode Island for one month before July 1, which, if carried out, will relieve the market to the extent of one million pieces. It is more than probable that manufacturers of other cotton goods will also stop production for a time in the near future, because the prices obtainable in the present condition of the market are ruinously low. Prints were mostly quiet in agents' hands, but a fair distribution was made by leading jobbers. Ginghams, woven wash fabrics and lawns were in moderate request, but printed piques continued dull.

PRINT CLOTHS.—The following shows the course of the market during the week:

Transferable Notices.—Saturday, —; Monday, 3-10; Tuesday, 3-10; Wednesday, 3-10; Thursday, 3-10; Friday, 3-10.

DOMESTIC WOOLEN GOODS.—The demand for men's-wear woollens was a trifle better than of late, but by no means satisfactory to manufacturers or their agents, buyers having continued to operate in both light and heavy fabrics with a degree of caution bordering upon timidity, while their demands for price concessions and long credits were also unreasonable. Some fair orders were placed for heavy worsted suitings, cassimeres and overcoatings by buyers on the spot and through the medium of traveling salesmen, but transactions in this connection were by no means as liberal as at the corresponding time in former years, owing perhaps to the fact that considerable stocks of heavy goods were carried over

from 1884—by Western clothiers, at least. Satinets and Kentucky jeans ruled quiet in first hands, and business in Jersey cloths, tricots, ladies' cloths, sackings and suitings was less active than of late, while worsted dress goods, flannels and blankets were in strictly moderate demand by package buyers.

FOREIGN DRY GOODS have participated in the general inactivity, the movement from first hands having been conspicuously light. For choice specialties in dress goods, silks, grenadines, &c., there was a steady re-assorting demand, but linen goods, laces, embroideries, hosiery, fabric gloves, &c., were mostly quiet, and there was a light business in men's-wear woollens. The auction rooms were enabled to offer considerable lines of silks, dress goods, Canton mattings, &c., but buyers continued apathetic, and low prices were obtained for most of the goods sold.

Imports of Dry Goods.

The importations of dry goods at this port for the week ending April 9, 1885, and since January 1, and the same facts for the corresponding periods are as follows:

Policies Absolutely Non-Forfeitable After Second Year.

IN CASE OF LAPSE the Policy is CONTINUED IN FORCE as long as its value will pay for; or, if preferred, a Paid-up policy for its full value is issued in exchange.

After the third year Policies are INCONTESTABLE, except as against intentional fraud; and all restrictions as to travel or occupation are removed.

CASH LOANS are made to the extent of 50 per cent of the reserve value, where valid assignments of the Policies can be made as collateral security.

LOSSES paid immediately upon completion and approval of proofs.
