## CLEARING HOUSE RETURNS.

Although the apeculation on the New Yort Stock Exchange was falrly active during the week ending October 23, the transactions in shares covered a market value some beventeen maillion dollara less than for the previous week, and to this fact is due the greater part of the falling off in the exchanges at this city. At Minneapolis the loss from October 16 is reported to have boen caused by the rallrosd etrike aad consequent intorruption to buslaess; al soms other points it is ascribed to the rather warm weather and to a little slowing up in trade for that and other reasons.
During the week of 1835 with which the present figuree compare, there was a very decided gain In the volume of clearings, in conserjuense of the marked increase in stock operatlons in Now York, the result being that there is this week a decrease at Now York compared with last jear of 11.3 per cent. At other polnts large gains over last year continue to be recorded, Indianapolin leading this week with 121 per cont, followed by Omaha $43 \cdot 6$, Columbus $41 \cdot 8$, Kansas City 44 and Cleveland $98-2$ per cent. The only important losese are at Now Orleans 28.7 per cent and Sinneapolis 19.5 per cent.
Share cransactions on the New York Stock Exchange for the weak have reachod a market value of $\$ 133,629,000$ against $\$ 191,331,000$ a year agn, the exchagges eriaing through other
busino: being $\$ 167,323,056$ and $\$ 45,045,019$ in the two years respectively, or an excess of 4.9 per cent.

Oucalde New York IJw, Natinaluded to rotala
Our usual telegraphic returns of exchenges for the five daye have been received, and are given below. At all paints there hebeers aome loss from the figures for the carresponding five days of last week, the decline belag greatestat New York, and ascribable to further falling off in at ck specultion. Contrasted with the flve days of 1885 there is a decreass in the whole country of 0.4 percent, but outside of Now York a gain of 7.2 per cent is recorded.

## THE FINANCIAL SITUATION.

The tendency in money has been towards lower rates this weok. Bankers' balauces have ranged from 8 to 2 per cent, with the average about 5 per cent. This change is due mainly to a better supply of funds in consequence of gold imports and partly to a lighter demand, resulting from a comparatively dull speculation at the Stock Exchange, and a little less urgency in the inquiry from the West and South for crop purposes. As a consequence of these conditions there has been a better . inquiry for commercial paper, first-class short acceptances and four months' endorsed bills receivable selling at $5 \frac{1}{2}$ per cent. At the moment the idea undoubtedly prevails that we have reached a period of larger reserves and easier rates, especially as the belief is that Secretary Manning, who again assumed the duties of the Treasury Dopartment yesteraay, will speedily put out liberal bond calls, one for 10 millions having in fact been made yesterday afternoon. As these calls have not hitherto liberated much money over and above the current Government receiptr, that resource does not seem to be a very promising one. Should gold imports continue the next two months they would give permanent relief. But without such a movement, unless business development is to be arrested, there would appear to be good prospect of a full employment for whatever funds may be available during the winter.

Discounts of sixty, day to three months bank bills in London are now reported by cable at $3 \frac{3}{8}$ per cent. The rising tendency is almost wholly due to the comparatively small amount of bullion held by the Bank of England (it is this week reported at only $£ 20,026,198$ ) and the high rates of exchange in Now York, the latter indicating (especially at this period of the year) a possibility of further large requirements of gold for shipment to America. The loss by the Bank this week has been $£ 122,000$. This we are informed by a special cable to us, resulted from receipts principally from China of $£ 37,000$, and from the interior of Great Britain of $£ 10,000$, and from an export wholly to South Americs of $£ 169,000$. The only shipment we have been able to discover from Loudon to America since our last has been $£ 60,000$. From the Continent we estimate there is now aflost about $\$ 800,000$, mainly francs, making the total still afloat, so far as we can trace the shipments, about $\$ 1,100,000$. The past week the steamers have brought in all we reported alloat two weeks since, those arriving Sunday and Monday bringing $\$ 3,355,000$ and on Tuesday £55,000, making $\$ 3,630,000$ in all.

As was natural the rates for foreign exchange were frmer on the arrivals of gold, being advanced one half cent on Tuesday; but since then the tone has been irregalar, long sterling being heavy in consequence of the pressure of commercial bills and dearer money in London, while short sterling and cable transfers were in demand and generally firm. The inquiry for sight bills has not however probably been to cover gold imports, as they were undoubtedly covered before arrival when there was a considerable profit in the operation. More likely it has arisen in connection with the Stock Exchange settlement in London and the operations of the arbitrage houses. There is so much uncertainty with regard to money in London, and there will be as long as there is danger of losing much gold, that speculators have to operate cautiously.
The low condition of exchange and the arrivals of gol.t, taken in connection with the foreign trade figures, affond a good measure of the proportions of the foreign demand which has for a few months back prevailed for securities. We have heretofore referred to this point, but as each
succeeding month makes the presentation more forcible, and as the Bureau of Statistics has this week issued its report of exports and imports for September, we give the foreign trade statement below for the nine months of the year. To bring out the situation more clearly, we have grouped the movement into threemonth periods, omitting 000s in each case, so as to be able to express merchandise, gold, and silver separately.

To obtain the full teaching of this statement, one must recall the fact that an average allowance of from 8 to 10 million dollars a month is required from the United Siates to cover undervaluations of imports, interest payments and freights due Europe. So when we find that for the first three months of this year, on the marchandise movement, there was a debt against us of $\$ 554,000$, and on the second three months a debt of $\$ 425,000$, we know that the full debt for that six months was really, say $\$ 50,979,000$, which we paid partly, we may presume, in secarities and partly by exporting in the same six months gold (\$34,$349,000)$ and silver $(\$ 5,503,000)$, or a total gold and silver of $\$ 39,857,000$. That was a period when our strikes and labor disturbances prevailed; so lack of confidence led Europe to demand gold and but ferr securities. Latterly, homtvar, the situation has in i:s leading features bsen almost wholly reversed. The first change was the disappearance of the threatening aspect in labor troubles, coupled with a marked illustration of the power of our courts and government to deal with and suppress violence, and of the healthy state of public opinion which prevails in support of order. This and the uninterrupted improve. meat in general business and in railroad earnings has led to a demand 1 n Europe for our securitios unparalleled in volume. An idea of the extent of the demand is disclosed by the above trade figures for the last three months. They show that on October 1 we owed Europe on the merchandise acconnt for that quarter $\$ 11,614,000$; now, if to that we add $\$ 25,000,000$ for under-valuation of imports, freights and interest (as explained above), we have a total indebtedness of say $\$ 36,614,000$ for the three months. But instead of our sending over any gold to pay this adverse balance, we received during the same three months $\$ \bigcirc, 929,000$ gold, which (less our silver exports of $\$ 2,278$, 000) brings our foreign indebtedness Oitober 1 up to the very large sum of $\$ 43,265,000$. Furthermore, we have been importing more or less gold every week since, with exchange about the gold importing point fduring the whole of October. Of course it is well known that at tuis period of the year there is always a considerable anount of bills on the market covering future shipments of produce, more especially cotton, and probably in Octoher the trade relations have changed. But all that affects S preuber and previons months very slighuls, being an 1 Huence operating chielly in Oztober and the coming
months. The fact still stands that on October 1 thes 43 mullions of unsettled balance stood against us, nearly all of which could only have been settled through a purchese of securities.

This conclusion accords too with the general report received from onr leading bankers having foreign connections, who say that the inquiry has come up from overy European monetary cenire. At first thought one might assume thai such large purchases cannot fail to leave the market in a very sensitive if not in an unssfe condition. Of course if the takings were in great part speculstive, liable to be returned on us at any strain or depression in London or New Yort, this construction would be warranted. But on the other hand if they are msinly for investment, and this is the assertion of those who are most largely engaged in thst business, it becomes a source of strength instead of weskness. These purchases are known to bave taken off the markel large quantities of our best securities and conservatively reorganized properties (for tho early demand was in great psrt confiaed to tbese two classes), all of which hsve lound a wide lodgment among foreiga iavestors. We do not mean to be understood as saying that there are no specu. lative holdiogs of American ecarities in London. Of course there are, and they have increased materially of late weelis; bat so far as these holdings are confined to sale properties they are being absorbed. The truth is, the amonat of idle capital in the world to-day is almost with. out parallel, being the accumulations of a long period of depression remarksble for its dearth of enterprise. A fsirillustration of this condition, was the excitement in Lon. don over the subscription for shares of Gainness Son \& Co., the famors porter-brewing 6 rm . Wo notice that a specisl cable to the Frening Post states that though tho amount asked was $£ 6,000,000$ the total spplied for reached $£ 127,000,000$. There is no doubt that the capital in Europe seeking good investment is not only large but eager; if it would be discrimiastiog as well, ita holdera would never have to regret having placed their tunds in American securities.

The decision made this weok by the United Sistes Court in the case of the Wabash Railroad, respectiog the reguIstion of rates by Stato Railrond Commisaioners on interState commerce, is one of decided importance. If the principles there avowed are to s:and ia their full meaning and to be accepted with all their logical consequences as the law defiaing and governing Scate and National anthority over rallrosd fares, the case will be a memorable one. The poiat at issue was whether a railroad can make a greator charge for the transportation of psssengers or lreight - ahorterdistance than it can for a longer diatance in the esme State in case where the passengers or freight are going out of that State into snother; in other words, whether Siatas hiva anj cjatrol over the rates ou inter-Siate com. merce. Toe aliegation was that tho W abash Road charged on a certain day Elder \& McKianey fifteen cents per huadred pounds for transporting goods from Peoria Ill. to Now York, and on the s3me day charged Bailey \& Swanell twenty-ीvo ceats per handred pounds for tho same clas of goods from Gilmsa Iil to New York, elthough the hal was eighty-six miles further in the State of Itinois for the former than for the latter. The court in ita opinion says substantially and as seoms to us very wisely, that the right of contlanous trassportation from one end of the country to the other is essential for commerce as carried on in modern times; freedom from the restraint which a Stato might choose to impose upon it was what the commerce claus in the Constitution was intended to secure. That clause gives Congrees the power to
regulate commerce among the States and with foreiga nations, and was among the most important of the subjects which prompted the formation of the Ccastitution; sut it would be a very feebleand almost useless provision, poorly sdapted to secure the entire froedom of commerce among the States which was deemed essential to a more perfect union by the framers of the Constitution, if at every stage of the transportation of goods and chattels through the country, bhe Stste within whoso limits a part of the transportation musi be done could impose regulations concerning the price, compensation, or tsxation, or any other restrictive regulation interfering with sud seriously embarrassing this cormmerce. The court consequeatly holds that any statute of a State attempling to regulate fares and charges by railroad companies for transportation which constitutes a part of the commerce among the States is not a valid isw.

As pertinent to the presont activity in railrosd building, and ahowing the bssis of the continuous developmeat of the country's resources and industries, wo would call attention to sn extended article in our Investors' Suppleypits of this date on Land Sottlements and Railroad Development. We all know of course that the opening of new sections of land plays an important part in ourindastrial growth and expansion, bat wo think fow parsons have su sdequate ides of the eftent of territory which has thus been added to our caltivated area in recent years. By reference to the article in question, it will be loand that the dispossls of public lands by the Government during the liscal year ended June 30,1836 , resched $18,309,942$ acres, an aggregato larger than ia any other year in our record. The significance of these figures will be apparent when We ssy that they compriss an ares slmost equal to that of the Stato of Misine. In Ksasas alone as much land was taken up during the late year as used to bo taken up in the whole coantry in the years preceding 1878. It is in Kansas and adjoining Siates that railrosd oxtensions are being carried on to the grestent extent just now, and therefore it is not surprising to note that tho $5 \frac{1}{2}$ million acres ontered upon in that Stato in the lato year cover an area larger than that of the wholo Stato of Massachusotts. During the last lour years the dispossls of public landsin the country have reached $69,457,553$ acres, and in the sevon years slace 1879 they have beea 99,453 , 83 acres, comprising a section of counary greater than that represented by Obio, Michigas and Illinois combined. When we bear in mind that this covers ouly Gov. ernment land, that in addition there have bsen heavy salos by tho railroads, and that since 1930 we have increased our population by immigration and reproduction over 10 unillions, it will not be difficult to account for the wonder. Iul way in which the country's activities have progressed. Some of the returns of esraings that have come in this week been accustorned to see of late. Of course wo are now comparing with better figures a yoar ago, so that we must bo prepared to seo amsller percentages of gains, but there are also somo apacial induences only temporary in charsctor that account for the less favorablo showing that certain rosds are making for current weaks. Thus in the Northwest the three great rosds from which we get weekiy reports all show for the third week of October a loss as compared with tiee correspoading waak in 1885. Now apart from th. circumstanco that these roads all had very heapy earnings a year ago, the awitchmens' strike at Minneapolis must havo operated to diminish traffic in the prosent year, and in minor degree the pork-packers' strike at Chicago must also have had some effect upon operations. Sorne of the trunk line exhibits for September, also received
during the week, have likewise been disappointing. The gross of the New York Central turns out a trifle heavier than the estimate in the preliminary statement, but the Pennsylvania statement for the aame month falls rather below expectations-at least as regards the lines east of Pitts. burg and Erie. The exhibit is disappointing howevor only in the case of net results, and that aimply because of an increase in expenses. The gross earnings show a considerable gain, which is gratifying as reflecting the benefits of the better rates and a continuance of the activity of business. The falling off in the net reaches only $\$ 75,516$ - scarcely 4 per cent-and it is interesting to note that the Philadelphia \& Erie which is included among the lines east of Pittsburg, and which runs from Erie, Pa., to Sunbury, Pa., contributed $\$ 27,171$ of this loss, there having been an increase on it of $\$ 18,259$ in gross and an augmentation of $\$ 45,430$ in expenses. It may be interesting to note, too, that the Northern Central-another Pennsylvania corporation, but one whose accounts are separately stated-also shows a large falling off in the net, as the result of both smaller gross and heavier expenses. On the other hand, the Baltimore \& Potomac, which is controlled in the same interest, has gains in gross and net alike, after a gain in the net the previous year too. Moreover, when we come to the lines west of Pitts. burg we find a much more favorable result than on the Eastern system. Thus these lines earned a surplus above all liabilities in September this year of $\$ 82,423$, while in September last year there had been a deficiency of $\$ 90,226$, a difference in favor of 1886 of $\$ 172,649$. It miay be of service to bring together the results on both parts of the system for a series of years past, so we annex the following statement in our usual form.

| Lines East of Pittsburg. | 1888. | 188. | 1884. | 1883. | 1882. | 1881. |

This shows that gross earnings this year in September were larger than in any previous September, which is certainly the reverse of discouraging. As to the expenses, we notice that in the two years preceding there had been very decided retrenchment, 80 that some increase now was inevitable, though the increase is larger than expectedHowever, when we come to the exhibit for the nine months, we find a gain in the net on the Eastern lines of $\$ 1,750,861$, and of $\$ 982,702$ on the Western lines, or $\$ 2,733,563$ together. There is certainly nothing to grumble about in such a showing.

With regard to the Northern Pacific September atatement, it is very favorable. There is a gain over the same month of last year of $\$ 147,717$ in the gross and of $\$ 76,972$ in the net, raising the latter to $\$ 769,031$ from $\$ 692,059$ in 1885. This large gain in the net is the more surprising that there had been quite a little increase in the same a year ago, the total having been only $\$ 646,449$ in September, 1884. We see it stated, too, in one of the Philadelphia papers that the expenses this year included $\$ 100,000$ paid Union Pacific for widening gauge of Utah Northern from Garrison to Butte City, and that except for that fact the net would have been that amount larger. If this is correct the
favorable comparison made in the face of such fact is certainly remarkable. The fixed charges that accrued during the month reach $\$ 523,522$, which deducted leaves a surplus of net earnings of $\$ 245,509$. In 1885 the surplus for the month was only $\$ 177,655$. Below is a comparison both for September and the first quarter of the company's fiscal year.

| North. Pactuc RR. | September. |  |  | Total S months. |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | 1838. | 1855. | 1884. | 1888. | 1885. | 1881 |
|  | * | 8 | \% | 8 | \% | - |
| Oross earnings..... | 1,372,872 | 1,224,955 | 1,236,580 | 3,699.058 | 8,108.255 | 3,291,800 |
| Oper, expenses..... | 603,041 | 532,896 | 590,111 | 1,736,646 | 1,448,014 | 1,601,761 |
| Net earnings.... | 709,031 | 692,059 | 840,449 | 1,962,510 | 1,748,2t1 | 1,029,839 |
| Fixed charges...... | 623,522 | 514.404 | ....... | 1,541,739 | 1,499,18: |  |
| Surplas............ | 215,509 | 177,655 | ......... | 417,771 | 259,027 |  |

For the quarter the gross are thus $\$ 502,801$ greater than in 1885 , and $\$ 407,456$ greater than in 1884 , while the net are $\$ 214,299$ larger than in 1885 and $\$ 332,671$ larger than in 1884. The surplus above charges is $\$ 417,771$ this year and $\$ 259,027$ last jear.
On the Stock Exchange this week attention has been absorbed largely by specialties, and particularly low-priced properties, which have of late weeks been in decided favor, and have nearly in every case scored a large advance, the easier rates for money being somewhat of a stimulus to them. Southern properties have boen especially active, Louisville \& Nashville, Richmond \& West Point Terminal, Nashville \& Chattanooga, Norfolk \& Western, East Tennessee, Texas \& Pacific, and South Carolina being the features. Some of these have had special influences in their favor, as for instance the West Point Terminal went up because of reports of an arrangement of the floating debt, but others like the Norfolk \& Western and the Louisville \& Nashville have been advanced on continued favorable statements of earnings, and the belief that as compared with the price of other properties, their present quotations are relatively low. Besides the shares mentioned, the St . Paul \& Duluth has been active and higher, and so has the Louisville Now Albany \& Chicago. Mr. Gould's Missouri Pacific has had a further rise, but most other high-priced securities have been dull and neglected, some of them touching lower figures. Union Pacific was raided on the old story of unfavorable action by the United States Government. Central New Jersey has been somewhat firmer on the covering, it is believed, of short contracts. President Little on Monday issued a circular giving the reasons that led to the application for the appointment of the present receivers but as bearing upon the plan of reorganization there is nothing more definite than that new capital must be secured for betterments and extensions, that interest must be scaled and fixed charges reduced, and that to effect all this some contribution from stockholders and some forbearance from bondholders will be necessary.

The following statement, made up from returns collected by us, shows the week's receipts and shipments of gold and currency by the New York banks.

| Week ending October 29, 1886. | Recelved by N. T. Banks. | Shspped by N. F. Banks. | Vet Interior Yousment. |
| :---: | :---: | :---: | :---: |
| Curre | 1624,000 | 12,200,000 | Loss.. 11,868,600 |
| Oold. |  |  | ................... |
| Total gold and legal tende | 1824,000 | 12,290,000 | Loss . . \$1,006,000 |

The above ahows the actual changes in the bank hold. ings of gold and currency caused by this movement to and from the interior. In addition to that movement the banks have gained $\$ 200,000$ through the operations of the SubTreasury and $\$ 3,200,000$ more by imports of gold. Adding these items to the above, we have the following, which should indicate the total gain by the New York

Clearing-House banks of gold and carrency for the week covered by the bank etatement to be issued ta-day. It is always to be remembered, however, that the bank statement is a statement of averages for the week, whereas the figures below should reflect the actual change in the condition of the banks as between Friday of last week and Friday of this week.

| Wreek onduag Oetober 29. 1588. | Ineo Banka. | Out of Banka. | Net Change in Bank Holding. |
| :---: | :---: | :---: | :---: |

The Bank of England reports a loss of $£ 122,000$ bullion for the week. This, as stated above, represents $£ 132,000$ net sent abroad, and $£ 10,000$ received from the interior. The Bank of France last $8,625,000$ francs gold and 1,825,000 francs silver, and the Bank of Germany, since the last report, gained $1,900,000$ marks. The following indicates the amount of bullion in the principal Europesn banks this week and at the corresponding date last year.

## THE SOUTII PENNSYLVANIA DECISION AND FUTURE PLANS.

It seem to ns as if the Springfeld Republican had made a prodigious effort to misunderstand what we said last week abont the decision of the Pennsylvania court as to the Beech Creek and the South Pennsylvania Rail road companios. Of course we wrote rery brielly, as we had but little room, but presumed that our readers would remomber what the real situation was and therefore draw a just inference from our words.

The court held, and so wo stated, that the special agree ment or understanding entered into with the Pennsyl. vania Railroad with regard to the abovementioned companies, at the time of the settlement of the Weat Shore affair, could not becarried out because, under the constitution of that Siste, one road cannot lease or purchase or control in any way another parallel or competing line. That was the only issue before the court, and there was nothing in our remarke criticising the conclasion reached, or justifying the inference that any one inteaded to defy or evade it. Of course there is a question of fact involved-that is, whether a mere hole in the ground, as Mr. Depew called the South Fensaylvania, can be conatrued into a road such as was contemplated by the conatitution; bat if we grant that, we see no way by which the thing forbid can be done by indirection any more than by direct act; and even
if if could, there is no reason to suppose that we would counsel underhand dealing, or that the Ponnsylvania Railroad would engage in it.

But while we believe that such is the purport of the court's opinion, it is equally true that this decision has no direct effect apon the chiel point which was and atill is at issue, and which we had in mind when we wrote. It is prominently brought ap again by the discussions in the Pennsylvania newapspers during the past week, and that is whether the South Pennsylvania Rail. rosd shall be built, and if so, when and under whose suspices and along what routo. It was boing built by the Vander. bilt interest, in hostility to the Pennsylvania Rsilroad, at the time of the West Snore settlement, and was a kind of a cul-throst scheme much in the nsture of the West Shore affair. That settlement stopped the enterprise, and left it for the Pennaylvania to finish and to operate. The decision now made says that the Pennsylvania shall not finish it; and as we always supposed the job of finishing the undertaking, as the scheme was planned, was very like a dish of boiled crow to that company, we cannot imagine that this feature of the injunction is particularly disagreeable. Hence, from that standpoint, looking at the decision in the light of affairs as they atand to-dsy, it appears of far less importance than has generally been supposed.

But some of the newspapers in Pennsylvanis are claiming, and were doing so last week, that the South Ponneylvania would now be built by the original subscribers apparently as a consequence of the foregoing decision. The idea seems to be that a majority of them were going to control thenext election and put the road into an attitude hostile to the Pennsylvania road, and then go on with the construction. Part of this may be true, but not the whole of it. The road may be bullt by the original subscribers, but if so we fancy it will be by all of them, and on some new basis. A msjority of the stock is in the hands of Mr. J. Pierpont Morgan ; at least he is rejported to have cestifed before Mr. John H. Weiss that he held 60 per cont of it for the Peansylvanis Company. It will be remem. bered be atated also, that the Pennsylvanis made the obtaining of 60 per cent of the total, condition precedent to its consent, and pending the securing of that amount nothing could be done lowards perfecting the agreement of the 23d of August, 1885; so Mr. Morgan took the transfer and in form became the purchaser. Now under such circumstances until the majority interest moves, we cannot see how anyching can be done; and one is pretty safe in belioving that it will not move until the Pennsylvania rosd is ready to have it. But laying aside prejudice and poli. tics, and taking all the circumstances togother-the settle. ment of the West Shore affair with its attendant advan. tagee, the obligation in behalf of the Pennaylvania road which that settlement carries with it, the utter folly of having a parallel line to do what it can towards destroy. ing the Ponneylvania property, the illustration the West Shore fight affordod of the harm all industrial interesta suffer by such a contoat,-keeping all these circumatances in view is it too much to wish, or is there anythligg wrong in wishing, that some method will be found to save all interests and yet conform to the law.

One other fact may as well be mentioned. We have already suggested thst this decision does not in any measure enforce the building of the rosd. There was an action begun with that purpose on the 23d of September, 1885, on behalt of the Resding Rsilroad. The South Pennaylvania had mades contract with the Reading whlch it was clamed had involved the lattor road in expense \&c., and so it sought to rostrain the
transfer of the South Pennsylvania's contracts \&c. With the syndicate, and to compel the South Pennsylvanis to fulall their part of the contract with the Rasding and complete the road. We do not know what is the situstion of that action, or even whether it was begun with the expectation of any important result ; Mr. Gowen was then the President of Reading, and without doubt omitted no act which might by any chance ombarrass the syndicate, even though final success was far from promising. How. over that may be, Mr. Gowen is no longer president, that position being now held by Mr. Corbin, and it is perhsps reasonable to suppose that the action as an aggressive measure will not be hesrd from agsin ; but so long as the injunction stands, it would seem to be a bar to the dis. turbance of any of the transfers of stock made preliminary to the agreement of August 23, even if all the parties to the agreement desired it. Is not this another reason for believing that it is a little hasty to talk about completing the South Pennsylvanis as yet?

## THE OMAHA ROAD'S PROGRESS.

The exhibit which we have obtained of the Chicago St. Panl Minneapolis \& Omaha's operations for the first half of the current yesr is favorable beyond the most san. guine anticipstions. All through the present year the securities of this company have shown marked strength. even when other properties in the same section have been comparatively weak, and the common stock now stends at 50 against 39 in January, and the preferred stock at 114 against 103. In the improvement in the company's operations will be found no doubt the main reason for the increased favor with which the shares of the property are regarded.

Of course, the gross earnings of the road have been published weekly and monthly, and for the first half of the year showed a considerable increase over the correspond. ing period of the preceding year, and the improvement has continued since then with the exception of the last week or two. Every one knows, however, that the course of gross earnings does not necessarily offer an indicstion of the course of net earnings. We noted last week in the case of the Milwaukee \& St. Paul a heavy falling off in the net, though the gross had been fully msintsined. It is therefore gratifying to be able to report that on the St. Paul \& Omaha the net shows as much progress as the gross-in fact more, the company having done a heavier business at a smaller expense.
Beginning with Jazuary, we find $\$ 62,521$ net earnings this year against $\$ 44,899$ last year, being an increase of $\$ 18,000$; the increase in the gross had been only $\$ 8,000$. In February the gain was little less than marvellous, for against net of only $\$ 40,019$ in 1885 the net this year were $\$ 143,321$. This increase of $\$ 103,000$ was the result of a gain of $\$ 88,000$ in gross receipts and a reduction of $\$ 15,000 \mathrm{in}$ expenses. In March the improvement was second only to that of February, the totsl net for the month being $\$ 254,395$ against but $\$ 176,805$ last year, $\$ 62,000$ of the increase having been contributed by the gross earnings. In April the gain was more moderate, but still the net were $\$ 197,629$, against $\$ 167,801$ a yesr ago. In May and June the order of things was reversed, there being in the first-mentioned month both a decrease in gross earnings and an increase in exponses, ànd in June an increase in expenses much heavier than the increase in earning3, sa that in both cases we have lower net than in 1885, the total for May being $\$ 141,879$ against $\$ 181,951$, and that for June being $\$ 167,885$ against $\$ 175,715$. But it should be remembered that in
both those months the net in the previous year had been extraordinarily large, so that a decline this year had no special significsnce. Moreover, there wes in these months this year a wer on some of the passenger business in the Northwest, and in the latter part of June there wes also a serious break in freight rates, all of which must have unfavorably influenced the returns. In order that the resder may see how the figures compare, not only with 1885 but with the year before, we annex the following summary of the results by months in the three years.

|  | 1830. |  |  | 1885. |  |  | 1881. |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | $\begin{gathered} \text { Grosg } \\ \text { Ern'ges } \end{gathered}$ | Op. ex penses. | $\begin{gathered} \text { Net } \\ \text { Eirn'os. } \end{gathered}$ | $\left\|\begin{array}{c} \text { Gross } \\ \text { Ern'gs. } \end{array}\right\|$ | op. ex penses. | $\begin{gathered} \text { Net } \\ \text { Ern'ps. } \end{gathered}$ | $\left\lvert\, \begin{gathered} \text { Gross } \\ \text { Ern'gs. } \end{gathered}\right.$ | $\begin{aligned} & \text { Op. } p_{1} \\ & \text { penses. } \end{aligned}$ | $\begin{gathered} \text { Net } \\ \text { Earn' } \end{gathered}$ |
|  | \% | \% | \% | - | - | - | - | - | $\cdots$ |
|  | 332,521 | 277,000 | 82.521 | 931,452 | 288,539 | 4,8\% | 350,284 | 271.21 | 8,0 |
| Feb | 385,600 | 253.279 | 143,82t | 307,043 | 237,021 | 40.018 | (331,433 | 278,403 | 6S,04 |
| Meb. | 520,053 | 268,258 | 251,395 | 438.524 | 283,019 | 178.805 | [463,953 | 202,007 | 171,94 |
| April. | 479,187 | 231,588 | 197,629 | 401.842 | 207,001 | 187.811 | 587,09* | 359.752 | 217, 24 |
| Ma | 458,023 | 117.04 | 141,874 | 473,152 | 233.201 | 181.931 | 513,319 | 412.835 | 100.891 |
| Jun | 144, 271 | 329,936 | 187,885 | 470,50 | 231.793 | 173,715 | 168.5 | 1850.92 | 79,5 |

Aggregating these results, we get gross earaings of $\$ 2,690,157$ in the half year of 1886 , agsinst $\$ 2,510,871$ in $1885, \$ 2,693,550$ in 1884 , and $\$ 2,352,389$ in 1883. Thus, while there is a gain of $\$ 179,286$ over 1835 , and of $\$ 337,763$ over 1883, the earnings are not quite up to those of 1884. For this reason it is the more surprising that the net should be nearly 50 per cent larger than in the latter year, and larger than ever before in this halfyear period. In fact, notwithstanding the fluctuations in the gross the net show a steady and uninterrupted progress from year to year, the extent of the improvement, however, being most pronounced in the present year. In 1883 the net were only $\$ 604,780$, in 1834 they rose to $\$ 698,564$, in 1885 they rose still further, to $\$ 787,190$, and now in 1886 we find them up to $\$ 967,630$, the gain on 1883 being full 60 per cent, and even on last year being nearly 25 par cent, the amount of increase in the latter case being $\$ 180,440$.

The next question is the position of the company as respects charges and dividends under this increase in not income. We can easily throw light on that point, as we are in possession of the exact figures. First, there are the taxes to come out, which for the six months reached $\$ 98,348$, reducing the $\$ 967,630$ net above to $\$ 969,282$. As to the charges for interest, thet item is dependent greatly upon the income from investments and the credits to the interest account, which acting as offsets to the ordinary charge for interest on the debt cause the net amount required for that purpose to vary considerably from yesr to yesr. The company sold a good part of its StPaul \& Duluth stock in 1885, and the income from that source snd from credits has been greatly reduced. Thus while in the twelve months of 1884 the total of the offsets reached $\$ 212,221$, in the $t w e l v e$ months of last year the amount was only $\$ 33,235$. Under the dimiaution in this item, too, the peculiarity to which we directed attention in previous reviews of this kind, nemely that the charge in the first six months was much heavier than in the second six months (the offsetting credits apparently counting most in this latter period), no longer applies. The actusl net amount paid for interest in the first six months of 1836 was, we are informed, $\$ 623,799$. The amount for the current six months of course will not be determined till the end of the period, but in the corresponding six months of 1885 the sum Was $\$ 644,421$, which as will be seen does not differ very grestly from the figure for the first half of 1836, as given. Besides the requirement for interest the only other charge syainst income aliead of. stock is the call for rentals, which for the six months of the current year foots up $\$ 45,005$. Adding this to the

8628,799 for interest, we get a total charge against the $\$ 369,252$ net esrniogs for the period of $\$ 673,804$, which deducted leaves $\$ 195,478$ for dividends. Ol coarse, that amonat is not safficient to meet the 3 per cent paid for that period on the preferred atock, but it comes nearer towards meeting it than in iany of the other years, while there remains in addition the large emonat received as income from the sales of land. What the land receipts wero in the six months in question", we "have not been able to find ont, but we may take half the sum received in the calendar year 1585 , which gives us $\$ 360,998$, and which we have reason to believe comes within \& few thousand dollars of the exact amount. Allowing for this, the dividend on the preferred stock is not only fully provided for, bat there is a sarplus of $\$ 218,772$ besides. But the chief significanco of these figares lies in their com. parison with similar Gigures in other recent years. Here is a summary of results for the first half of the last four years.

- Half of amone for greeniling iwelvo montha
t llaif of amo eat fur taluathe yese 1593.
This iadicstes a strikingly farorable retarn for the cur. reat year. We see that so far from there being anything discouraging aboat the fact that in the six moaths only $\$ 195,478$ was earned towards psying tho $\$ 337,704$ diví. dend on the proferred stock, that is a feature common to this period; in lact, the result as given is a decided im. provement on other yeare, for in none of thene years was there ayything earned for the stock in these six moathsthat is, prior to 1836 there was a deficit below the amount needed to pay ordinary fixed charges, the defliency in 1885 having been $\$ 7,174$, in $1894 \$ 18,495$, and in 1833 $\$ 31,513$. More than that, even with the help of jthe land sales the dividend on the preferred stock conld not be met in full in any of the yeare embraced in the above comparison, though the deficiency was only $\$ 40,449$ in 1885 , against $\$ 151,649$ in 1883. Now contrast with this, the surplus of $\$ 218,7 i 2$ above the dividend require. meat, and soma ifea csa be formed of the degree of improvement that has occurred.

The surplus of $\$ 218,7 i 2$ mentioned is equal to about 11.6 per ceat on the $\$ 18,559,660$ common stock outstanding, and though that is not very large in itself, it is a very satisfactory showing, indeed, considering that the firat half of the year is invarisbly the poorest half. We called attention to that fact last week in the case of the Mil wakee \& St. Panl, and it applies to the St. Paul \& Omaha with even greater force. Here is a statement we bave prepared to illastrate that point.

| s. Puwitomes. | 150.8 |  | 2R9\%. |  | 1 \%3. |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  |  |  | Crns. Eantry |  |
|  | - | 8 | 8 | - | \% | 1 |
| Janang to Jumo... | 2,510, 51 | 747.109 | 2.003,6en | ค-4501 | 2338.390 | 6n4,780 |
| Jaly co Deamber | a,solinc | 1, revina | 3.001 nes | 1,801 NO | 3,103,80m | 1.497.:04 |
| Whote geer... | E.814.810 | Y,316 1ex | 8.54, $0^{\text {(0) }}$ | 2,001,500 | 5,513,203 | 2,02:314 |

Thus in 1883 out of total net of $\$ 2,092,344$ for the year, the first six months contributed only $\$ 604,780$; in 1884 they contributed $\$ 693,564$ out of $\$ 2,001,335$, and in 1885 $\$ i 87,190$ out of $\$ 2,316,148$. In other words, the net for the last six moaths are usually twice as great as those for the first sir, sad that is what makes the above exhibit particularly gratifying. There is every reason to believe, too, that the current six months will maintain the recond by also showing materially heavier earaings than the previous six moaths, though it would be too much to expect that they will agsin be twice as large, beariag in mind how great the gain is that the first six months have recorded. In the case of the gross (which is all we have for the carrent period), there has certainly been some increaso over 1885, though it has not been heavy, being 821,340 for July, $\$ 23,252$ for Augush, and $\$ 17,895$ for September, or $\$ 62,437$ together, though against this the Grst three weeks of October show a loss of $\$ 15,900$.

As regards the company's finances, the funded debt increased some $\$ 200,000$ duriag the six months, and stood at $\$ 22,620,092$ on Juae 30,1856 , against $\$ 22,414,970$ on December 31, 1SS5. The atock is reported at $\$ 21,403,293$ common, and $\$ 12,646,833$ preferred, the same as on December 31, 1835, but this is the mount issued, not the smount outgtanding. It included in December $\$ 2,843,633$ common and $\$ 1,386,900$ prelerred held by the company $i_{t s e l f, ~ a n d ~ p r o b s b l y ~ t h e ~ a m o u n t ~ s o ~ b e l d ~ i s ~ t h e ~ s a m e ~ n o w . ~}^{\text {an }}$ At any rate, the total of stock and bonds owned is given at $\$ 4,970,386$, whilo the same item on December 31, 1885, wo figure from the compang's report to have been $\$ 4,952,058$, showing no reduction bat a smali increaso. Tho state of the floating debt may bo judged from the fact that thero is an excess of cash and cash assets over the sum of curreat lisbilities in the smount of $\$ 1,151,040$. Oa December 31 the oxcess had been a littlo heavier, name:y $\$ 1,304,616$. In the ssme aix months tho cost of road and equipment was incroased from $\$ 52,051,218$ to $\$ 52,665,503$, and tho atock of material and supplies was increased from $\$ 576,722$ to $\$ 530,475$, whilo the amount of advances to proprietary roads was dimiuished Irom $\$ 127,^{\circ}$ 887 to $\$ 377,987$. The balance of income to the crodit of profit and loss which on Ducomber 31 stood at $\$ 2, \$ 87,405$, is now reported at $\$ 3,100,688$, a gain of $\$ 213,283$-a sum which does not differ very materially from the surplus of $\$ 218,772$ on the ball-gear's operations arrived at by us sbore.

## RUSSIA AND BULGARIA.

The situstion as betweon Russis and Balgaria becomes more critical daily. Russis abates none of her demands, but every succeeding act is more haughty and overbearing; and the Bulgariang, while respectinlly civil to the government of the Czar, with becoming dignity and propriety refuse to forego their legitimato rights. In most dificult circumstances the Bulgarian regency havo conducted themselves in such a manner as to commend the respect and the aympathy of the civilized world; and whatever ultimate success they may have, they havo already had this success-they have put Russla in the wrong at every step, and exhibited the great northern Sower in a light which is the very reverse of flattering. Seldom in modern times has the right and wrong in a great international question been so clearly defined; and it would bo difficult to instance a case in which weaknoss on the one side was combined with so much courtesy, dutiful respect, pluck and determination, and overwhelmiag strength on the other side was allied with so mach of what might bo described as selfish, unreasoniog, irresponsible tyranny.

As the case now stands, Bulgaria has the sympathy of the nations. It is not a new thing, however, this sympathy of the nations; and it would not be the first time, if Russia should trample out Bulgarian liberty, thst the sympathy of the nations has gone for nothing. The conduct of Russis, from the moment that Prince Alexander complied with the wishes of the Roumelians, and consented to rule over them as well as over Bulgaria, has been persistently meddling and harassing. It thwarted the Prince's plans, trsversed his purposes, interfered with his action, embittored his life, and made success impossible. Not satisfied with its own success in the premises, it employs agents to seize him and smuggle him out of his kingdom. When discovered and brought back amid the acclamations ot his people, it forbida him to punish the conspirstors. When Alexsnder, in a spirit of generous magnanimity retired for the good of his people, it sent its Kaulbara and his agents to influence popular feeling, and by the use of money and promises and threats to control the elections for the great Sobranje, whose duty it is to choose a prince for the vacant throne. When gold and intrigues and fair words and foul, used with a liberality such as we may connect with the name of Kaulbars, failed, and the people had sustained the regency by a vote of four hundred against twenty, it demanded the postponement of the meeting of the great Sobranje. And now, when Bulgaria refuses to postpone the election, it raises the cry that Russian subjecta have been maltreated, that the country is in a state of disorder, that the late elections do not represent the sentiment of the nation; and then, to further terrorize the little principslity, sends war ships to Varna, and follows that act with a fresh note from Gen. Kaulbars to the Bulgarisn Foreign Minister, in which he says. "In view of the arrival at Varna of Government "emissaries, who are spresding reports that the presence of "Russian gunboats there is without importance, I am com"pelled to inform you that those gunboats will vigorously "affirm their importance if events render it necessary."
What adds further to the injustice and cruelty of these acts is the fact that messenger after messenger has been sent to the Czar asking him to name a candidste for the throne, and that he has either refused to see them or forbidden them to enter Rus. sian territory; and the other fsct that there is not a particle of evidence yet given to the public showing anything like irregularity in the elections, or disorder in the principality. It is in these circum.' stances that the great Sobranje is about to meet for the parpose of electing a prince to the vacant throne. How the whole affair is to result is the problem of the hour. Much will depend on the work to be done by the Sobranje. Much more will depend on the action which Russia may take. She is dealing now with Bulgaria alone, by means of civil and political agents. Directly she puts an armed force upon Bulgaria, she has to deal with Europe. None know this so well as the Czar and his advisers. But for the fear of Europe, there would have been less growling, less petty trickery and more decisive action. During all these months Russis has seen her influence wane in Bulgaria, she has watched with eagerness for some such opportunity as would justify interference, but she has watched in vain. Not only so. She has exercised her ingenuity to the utmost to creste such an opportunity, and yet she has failed. When we think of the effect which wonld naturally be produced by such conduct as that of Zankoff first and Ksulbars later, in any powerful country, the wonder is that she did fail ; but the wonder is coupled with sdmiration for Bulgarisn prudence.

We presume war will be averted, though wo cannot see how. It is possible that Russia may see fit to recognize the result of the election. It is hardly possible that the Sobranje will submit to have their election set aside ; and it would be cruelty to prolong the present state of uncertainty. We can hardly. imagine to ourselves Russis retiring and leaving Bulgaria absolutely to herself; but neither do we feel convinced that Russia, even with all her present parade, will invite the opposition of Europe by sending an armed force inta the principality. It is a noteworthy circumstance in views of the present state of things, that we are compelled to guess at the feelings of the other great Powers. We know how the Hungarians feel; but \& veil of comparstive secrecy hangs over the counsels of Vienna. We seek in vain to discover the sentiments of Bismsrck; and when we turn to England, we see her looking on, earnestly no doubt, but we hear nothing.

There is certsinly, to our thinking, something decidedly ominous in all this silence. It is not conceivable that these powers can be indifferent to the presence of Russia in Bulgaria; for once there she is but little likely ever again to leave. Russia in Bulgaria would mean not only the extinction of Turkey in Europe; it would mean the subordination of Greece, the curtailment of Austria, and a permanent check to Germsn expansion in Europe. It would be a calemity otherwise to the cause of civilization. Great Britain has much less to fear from Russia in Europe than have the Continental Powers. She alone, in the event of a great conflict, is in a position to stand aloof and to affect the balance of power at the right moment. If Austris and Germany can afford to sllow Russis to occupy Bulgaria, certsinly Grest Britain can. But it is because we cannot believe either Austris or Germany to be indifferent sny more than the Britiah power that we attach importance to the unasual silence. Russia, we are disposed to believe, will think twice, even with France at her bsck, before she will provoke a war in which she would have to face England at sea, and Germany and Austria, and in all likelihood Turkey, on land. An sccident at any moment may give a new aspect to the entire situation.

IMPORTS AND EXPORTS FOR SEPT. AND FOR THE NINE AND TWELVE MONTHS.
The Bureau of Statistics has issued its detailed statement of the foreign commerce of the country for the month of September, and the nine and twelve months ended with Sept. 30.

(2) that the switchmens' atrike this year interfered with businees. Aside from these, there are only nine roads that record lower earniogs than in the same week of 1885.

## Poolk 2lotices.

Ohso Comporathoss otmer than municipar, as Abthomigen me Contitution ant Requlated bi graterf By A. T. Brawer and G. A. Lanbsoher of tho Cloveland Bar. Clucinnsit: Robore Clarko \& Co, 1896.
This is a work of use, not alono to lnwyers but to a very largo clasy of business mon as well; for wo havo fallon on tiraes when nearly every man finds it convenient to hive as a reference book something that will tell him what are the constltutional and statutory provisioos and decisions of Ohio, with reference to corporations. This book brings tozether all these matters, besides furnishing forms lor organizing and a code of regulations and by-laws for managing every kind of company and association. It seems that, undor Ohio statutes, corporatlons may now be formed for any purpose for which individuals may lawfully associato themselves, except lor dealing in real estate er carrylag on professional business. The extanc to which the public have avalled themselves of these facilities may be Inforred by the fact stated by the nuthors of this book, that in the year 1883 there were $1,83 t$ companies formed under thoso statutes with suthorized capital of $\$ 209,000,000$. In the year 1884 about 863,000 of new capital was put uader corporate managemeat every tweaty-lour hours, so the need for the work even from this poiat of viow is appareat.
Bhitisn and Indian Ooveanmertg-Combermondevcr Reaftctivo 8ityer. Printad by Eyre al Spottawood, Londod.
We have received from Robert Beall (Bookseller and Statloner, 40.5 Pennsylvania Avenue, Washington City), da copy of the correspondence between the British and Indian governmeath respecting the silver question. Although this correspondence took place the first half of the year, and we relerred to certain features of it some months since, we havo no doubt that some of our readers would lite to have coples and presume that Mr. Ball would be glad to furnish them, though we do not know the price.

Gametaxyecommxextalewgitix
rates of exchange at london and on lonuon AT LATEST DATES.

|From our own correspondent.I
London, Saturday, Oçt. 16, 1886.
The situation commercially has not undergone any appre. ciable variation during the week. From all the leading centres of industry advices come to hand very similar to those previously received. The burden of the reports is that we are progressing, though slowly. Messrs. William Fallows \& Co. state that "it is gratifying to be able to report an improved tendency in the iton trade. This is due in some measure to the restrictions which have lately been placed upon the production of pig iron, and also to the growing impression that a general revival is imminent." If only an energetic movement can beimparted to the iron trade we can face the future with confidence.
It is the prolonged depression in the hardware industries that has to a great extent neutralized the bsnefits arising from the extension of business in textile manufactures. Hence if we can only be assured of the permanent return of prosperity to the iron districts we may calculate that we have bright times before us. At the Birmingham quarterly meeting held during the week the satisfactory information was rouchsafed that there were inquiries on the market for something like 100,000 tons of ateel rails on Colonial, American and other export account. Prices were advanced, and Welsh makers demanded $£ 4$ per ton. There were also American inquiries for 50,000 tons of steel blooms. The Welsh stee masters have decided to advance from November 1st steel bars, blooms and billets 5s., making bars £4103., blooms £4 and billets $£ 42 \mathrm{~s}$. 6d. per ton, all at the works.
But although :ittle has transpired commercially or financially to suggest the advisability of modifying' estimates respecting the future of trade, the uneasy feeling in political circles is clearly becoming stronger. The provocative mission of General Kaulbars through. Bulgaria may, it is feared, ultimately result in complicating affairs yet more seriously. Even allowing for exaggerated reports,-which invariably attain circulation at such moments, and which almost as often as not are merely the imaginations of a too fertile brain, or are set afloat for stock-jobbing purposes,-there is an uncomfort. able sensation afloat that more is going on behind the scenethan is generally known; and although the approach of wins ter may relard operations, a prolongation of the existing. condition of affaira until the spring might lead to the adoplion of such measures as would bring the final solution of the East ern question within measurable distance. Naturally all thia uncertainty paralgzes to some extent reviving animation on the Continent, but it is much less potent with us than it was.
The money market liss entered upon a distinctly firme $r_{r}$ phase. The main cause of the change has been the fall in the American exciange, the withdrawal of $£ 170,000$ from the Bank for New York, and the prospect of further sums being taken. The pressure at the Stock Exchange settlement just concluded was less than on the last occasion, but rates were very high nevertheless. The changes in the Bank of England weekly return are rather important, but not more eo than was expected. It was known that the return would ahow the repayment of advances to the Bank borrowed at the close of last month. This acceu ats for the - decresse of .£3,781,347 in other securities; but to effect this the flosting supply of expital has been sensibly reduced, as on the other slde of the
account prisate deposita have been lowered by $£ 2,789,524$ and the total of publio deposits has been reduced by $£ 1,001,802$; that is to say, that in the aggregato deposits held there is a loss of $£ 3,850,320$ on the week. The present balances available exhibit a deficiency compared with a year ago of $\mathbf{£ 6 , 7 8 0 , -}$ 000. Certainly last year at this time the Bank rate was only 2 per cent, but the position then was rightly described as anomalous, and the rate almost immediately began to move upwards. Now there is less money to manipulate, while a hetter traje demand exists, and a very decided extension of the Stock Exchange inquiry has also taken place. The margin for absorption has thus been materially reduced, and the way for a permanent hardening of money made clearer. The loss in the reserve is $£ 91,334$, made up of a decrease of $£ 170,330$ in note circulation, deducted from a falling off of $£ 370,604$ in bullion; and the proportion to liabilities stands at $37 \cdot 18$ per cent, against $33 \cdot 29$ per cent-last woek. The present amount of the reserve is $£ 10,631,000$, and the atock of bullion $£ 20,2 \$ 1,000$, and neither will bear treaching upon to any extent. Hence hould the American demand for gold continue, the open market and official rates would soon be brought into cioge assimilation, and further action on the part of the Bank of England authorities might be expected to follow.
I he rates for money have been as follows:

The following return ehows the position of the Bank of England, the Bank rate of discount. the price of consols, \&c.

Messrs. Pixley \& Abell write as followa on the state of the bullion market:
Gold-There has been a strong demant daring the weok for New York, and, thadditon to ait arrivals, 2171.0 .0 Withdrawn from the Kank has been tiken for that guattrr, Tho Bank has recelrad 260,000 in zoverelgne from Anstraila. Conqulerahle aumata have heen reoeired
from Paris, and elipments have alno heen mude from that alde to Newg from Paris, and ehipments have almo heen made from that alde to Now
Cork. The arrivals cumprise \&J0,000 frum the Eiat and $\& \delta, 000$ from the Cork. T
Silver-The market has been firm since our last, and thesmall arrivals enmblued with the rising Indian exchanges, have ciansad a kraiual and
 rate for to-diy. Ahout 224.000 has come in from New York. The P. \& O. steamer has taken $£ 108,000$ to the East.
 the market, aud in the absence of enppitis, we are unabis to give a ghot ition. 44n. beligg the last prioe at
Slisunon has taken e6,3to to Penang
The quotations for bullion are reported as follows:

The teaders for the $£ 1,567,800$ New Zealand Government 4 per cent atock received by the Bank of England amounted to $£ 2.094,000$, at prices varyiog from the minimum of 97 to 100. Tenders at 97 receive about 1 per cent of the amount applied for, and those above that price in full. The average price obtained was 5975 3. per cent.

In the wheat trade there has still been a quiet tone, but, at the same time some slight increase of steadiness. Holders appear to have come to the end of their limit of concession to buyers, and the small business transacted has therefore been at about the prices current last week. The change in the weather has indicated the near spproach of winter, and the consequent early closing of navigation in America and on the Continent. But this interruption of one mode of transit has not nearly the effect now it had a lew years ago. The development of the railmay system is proceeding almost daily, and there cannot therefore be any interruption to the supplying of the markets sufficient to exerclso more than a slight infuence upon quotations. However, every item, no matter how small, assists In defining the conrse of the market, and this is faversble to holders. In the statistical position no appreciable change has occurred. Imports for the past week were not up to the average of last year, nor were the deliver. iss of home grown produce so heavy; but for allthat the supplies offering were quite sufficient for the marzet to deal with, as there is otill an entire absence of any speculative demand. Greater firmness In prices seems to be anticipated, but with an increase of about $1,000,000$ qra. In the American visible aupply over last jear, and larger quantities on pasesge, any recovery must be gradual.
The followlng shows the imports of cereal produce into the United Kingdom during the first six weeks of the season. impoata.

[^1]Atlantic \& Paclfle.-A circular of the St. Louis \& San Francisco Railway directors to their stockholders, requests their assent to the guarantee by that company of the interest on tho bonds of the Atlantic \& Pacific.
"The agreement made nader date of October 5, 1886, between the Atlantio \& Paciflo, the Atchlson and the 8t, Louls \& San Francisoo oomThis agreement proposes that the Atlantlo \& Paoific company ehail issue its 4 per cent 50 year bonds io be used in exohauge, bond for hond. for its present 6 per ceut boudd, the principal and interest of such new fonr per cent bonds to be gaaranteed by endorso ment by the ' $\Delta$ tchison' and 'Ban Franolsco' companies severally but not joinily, one-half oy each. The elx per cent bouds will be deposited as receired with the Eecnrity for the payment of the princlpal and interest of the guaranteed our per cent bonds."

Massachnsetts Central.-Notices have been issued to Central Mas achusetts stockholders that a special masting will be held on October 30 to ascertain if the preferred stockholders will approve the lease to the Lowell; to authorizs the issue of $\$ 3,000,000$ bonds, of which $\$ 2,000,000$ is to be applied to complete and equip the road from North Cambridge to Northampton, and $\$ 1,000,000$ to be applied to construct and equip a branch from Bondville to Holyoke. The lease will provide a rental of twenty per cent of gross earninge under $\$ 1,000,000$ and twenty-five per cent above that amount, but the rental is guaranteed to be sufficient in any year to pay interest.
-The card of the Investment Company of Philadelphia will be found on the second page of the CHionicle. This company has a capital, full paid, of $\$ 2,000,000$. It offers for sale firstclass investment securities; accepts cash deposits, subject to check, allowing interest on daily balances; buys and sells bills of exchange, drawing on Measrs. Baring Brothers \& Co., London; also on Paris and Berlin. The company has in its board of managers some of the strongest and best known nameo in Philadelphia.
-Deghuce日s tables of bond values gives the exact rates of interest which will be realized by bonds bearing certain prices and the prices which may be paid to obtain certain rates of interest. An interest table euitably arranged for the calcula tion of interest in reducing to an "interest price" bonds offered at a "flat price" is also given, The book is neatly bound (pocket size) and will be found by brokers and others to be of the greatest convenience. It can be purchased from Mr. George W, Nougherty, Mille Building, New York.

VVALL STHEET, ERIDAY, October 99, 1Si6-5 P. M.
The Money Market and Financial Sitaation.-The week has been rather bare of evenis having any particular influence upon the atock market. Money has been casier, and the influx of gold alwaya causes a good feeling, although it may arise more from the shipment of securities than from the expoits of domestic produce.

There are many predictions that American products are likely to rule higher duriag the coming winter, and if a reasonable adrance could be established in cotton, breadatuffs and provigions, it would certainly contribute much to forter prosperity and to atimulate trade during the next twelve moaths.

The atock market has been irregular lately, and the actinity has been principally in specialties ; but to-day there was again more firmess and activisy in several of the leadiag stocks. When the market halts for a time, there is apt to crop out some movement in a special atock, which is brought forward and "boomed" on various rumors, and after making a aharp rise of 5 to 10 points, sometimes drops back as quickly as it advanced; it is hardly necessary to remark that these things are safa to let alone, unless one has inside information of what is going on.

The open market rates for call loang during the week on stock and bond collaterals have ranged from $2 t$ to 6 per cent, the usual rato to atockbrokers belog 5 ce 6 per cent; to-day the rates wero 506 per cent. Prime commercial paper is quoted at 006tper cent
The Bank of England weekly statement on Thursday showed s losa in specie of $£ 122,000$, ad the percentage of reserve to lisbilities was $41 \frac{1}{6}$ against 40 last week; the discount rate remaine unchanged at 4 per cent. Tba Bank of France lost $8,625,000$ francs in gold and gained 1,825,000 francs in cilver.

The New York Clearing House banks, in their statemeat of October 23, showed in increase in urplus reserve of $\$ 850,025$, the total aurplus being $\$ 5,409,675$, agalast $\$ 4,618,950$ the previous week.
Tne following table shows the changes from the prenous week and a comparison with the two preceding yeare in the averages of the New York Clearing Ilouse banks:

|  | $\begin{aligned} & 1898 . \\ & \text { Ocl. } 23 . \end{aligned}$ | $\left\|\begin{array}{l} \text { Do frer noes fry } \\ \text { Previous Wrek. } \end{array}\right\|$ | $\begin{aligned} & 1885 \\ & 0 \mathrm{ct.} 21 . \end{aligned}$ | $1884 .$ $\text { Oel. } 25 .$ |

Exchange.-Sterling exchango has been ouly moderately active, though pretty firm in toae, commercial billa being somewhat scarce. The firmbes has been most marked, however, in ahort billa. The arrivals of gold have been quito large, amounting to $\$ 3,630,000$ alnce lasi Friday.

To-day the rates on actual buriacas were as follows, viz. Bankers' 60 daya' sterling, 480 @ 481 ; demand, 481 @4 841 . Cablet, 48504 85t. Commercial bill were $479 @ 479 \%$. Continental billawere: Franca, 5 24\}@5 25 and 521 @5 221; reichmarks, 941 (1004\} and 05095 : muilder, 801040 and 40t@40t.
The followiag were the rates of domertic exchange on New York at the under-mentioned cities to-day: Sarannah, buying $t$ discount, selling + discount; Charlenton, buying 3-16ot discount, selling par; Naw Orleans, commercisi, $125 @ 150 \mathrm{c}$. disconot bank, 75 c . discount; 8t. Lous, 50c. aiscount ; Chicago, 50 c discount.

The rates of leading bankers are as follows:

United States Bonds.-Government bonds have been dull and featureless all the week, with prices a little irregular, though, on the whole, very little changed. Another call for bonds was issued to-day, retiring $\$ 10,000,000$ of the 3 per cents December 1.

The closing prices at the N. Y. Board have been as follow:

|  | Prierent | $\begin{aligned} & \text { Oct. } \\ & 23 . \end{aligned}$ | $\begin{aligned} & \text { Oct. } \\ & 25 . \end{aligned}$ | $\begin{aligned} & \text { Oct. } \\ & 26 . \end{aligned}$ | $\begin{aligned} & \text { Oet. } \\ & 27 . \end{aligned}$ | $\begin{aligned} & \text { Oct. } \\ & 28 . \end{aligned}$ | $\begin{aligned} & \text { Oct. } \\ & 29 . \end{aligned}$ |

*This is the price bid at the morning board; no sale was made.
State aad Rallroad Bonds.-The busiocss in State bonds has been moderately active, the total sales for the week being: \$134,000 Louisiana consol. 4s at 78\$-791; 810,000 South Carolina 6s Brown consols at 1107 ; $\$ 2,000$ do. 6s non §undable at B; $\$ 35,000$ Tennessee settlement is at 76$\}$ f $; ~ \$ 10,000$ do. 5 at 106; $\$ 2,000$ Sissouri 6s, 1887, at 103; $\$ 1,000$ do. 1890 at 110 ; $\$ 1.000$ Arkansas 7a at $13 ;$; 5,000 Georgia 7s gold at 1097 ; \$13,000 North Carolina 6s, 1910, at 123 ; $\$ 10,000$ do. specir 1 tax at 10.
The general market for railroad bouds has shown no new leature, business beiag moderate and prices not much changed. A few apecisl classes, however, have shown exceptional activity and atrength, and have acrved to give a somewhat atrong tone to the market. Missouri Kansas \& Texas general 5s and 0 os have risca sharply, and the 7a, after a aharp decline, have improzed: is to these latter bonds, it has been reported that the accumulated siaking fund aince 1874, amounting to something like 20 per cent of the boads, would be applied in a lump, and bonds to that extent be drawn at par and retired. This would be most extraordiaary way to apply a ainking fund, and it would seem to be of questonable legality. Ohio Sonthern income bonds and several other low-priced issues have also been promiaent in the transactions.
The closing prices and range of a few leading bonds are annexed :

## Bld price; no salo.

Rallroad and Macellancous Stocks.-The atock market has presented no hew features of importance duriag the past week, and the fluctuation of prices, cxcept for a few apecinltics, has not been great. The gencral tone has been irregular and apeculation unsettled, and not particularly active at any time; though, consideriag tho near approach of a geacral election and the foterest manifested in the Bartholdi statue ceromonles, a fair smount of husiness has been done. Taking the market as a whole, the changes for the week are slight and unimportant, the leadiag and higher-priced stocka haring been quita dull. Intercat has ceatred on a few apecialcies, and In these the apeculation has been moderately active, and tho prices of some of them have bcen pushed upward. Thero has been little newa of a general character, and the railroad earaInge, as we have herelofore mentioned, cannot now be expected to show the aame relative lncreaso over 1835 as they have in previous months. Foreign buying continues to help the market, and the large arrivals of gold are also a favorable feature.
Jersey Central has recovered part of its sharp declino of last week, and the buying at times has been quito active, partly to recovel the ahort sales of last week and partly as a result of the circular issued.

Several other stocks have been very active and sharply adranced and each has had some apecial cause, though theso sdvaces are generally the reault of a speculative move based on some reported beaeft which is not given out to the public. The most conspicuous of these have been-Richmond Terminal, which, after a decline to 314 on Wednesday, auddenly roae to 30 on Thursday and 40 to-day; Louisville \& Nasbville, in which the foreign buying has been prominent: Louisville N. $\mathbf{A}$. \& Chicago, Nashville \& Chattanoogs, the Norfolk \& Weateras, Reading, Consolidated Gas, Canada Southern, New Eagland and a few others less promincnt.

To-day, Friday, the market was tolerably strong and a little broader in its transactions, embracing such stocks as Western Union, St. Paul, Pacific Mail, \&c., in the active list.

NEW YORK STOCK EXCHANGE PRICES FOR WEEK ENDING OCTOBER 2D, AND SINCE JAN. $1,1886$.

* These are the prices bill and usked; no sale was made at the Board,
quUTATIONS OF STATE AND RALLROAD BONDS，OCTOBER $29,1856$.

The INvest uns' SUPPLEMENT contains a complete exhibit of the Funded Debt of Slates and Cities and of the Stooks and Bonds of Railroads and oiher Companies. It is published on the last saturday of every other month-viz., February, April, June, August, October and December, and is furnished without extra charge to all regnlar subscribers of the Chronicle. Extra copies are sold to subscribers of the Caromicle at 50 cents each, and to others at 1 per copy.

## ANNUAL REPORTS.

## Ohlo © Mississippi Rallway.

(For the year ending June 30, 1886.)
The annual report says: "For the first six months of the year the rates on through business were ruinously low. The loss of the wheat crop on the line of your road for the third successive year ecriously affected our earnings from local sources. The business of the spring opened well, and gave promise of revenues as large, if not larger, than any corresponding pericd in the history of the company; but the serious labor troubles in the Southwest, centering at St. Louis and involving the roads at East St. Louis, blasted all these prospects. From the 5th of March to the 5th of May the troubles continued, a portion of the time causing an absolute suspension of business to snd through St. Louis, and during all this time practically cutting us off from the great section west and southwest that covers so large a portion of our through traffic. Outside of the system dirt ctly involved in this strike your line probably suffered more than any other. I estlmate the loss directly and from the increased expenses at least $\$ 150,000$." * " "The prospect for the coming year for business locally is better than for several years past.
"A contract of great importance to the company has been executed with the Kentucky \& Indiana Bridge Company for the use of their bridge across the Ohio River, located at Sand Island, at the foot of the falls of the Obio River, two miles below the present bridge used by this company. By the provisions of this contract the business of the company with Louisville and Eouth will be done over the bridge at greatly reduced rates from those charged by the Pennsylvania Company, owners of the "old bridge;" the company will be relieved of heavy onerous terminal charges at Jeffersonville and Louisville; will run its own freight and passenger trains into Louisville; will be provided with ground ample for yard room and such buildings as are necessary, on the south side of the river. Seven miles of road will be required to be built (the right of way being provided free to the company) from the station of Watson, on the Iouisville branch, to the clty of New Albany, Indiana, the contract giving us such terminals in New Albany as are necessary for working our business across the bridge.
"There thculd be purchased at as early a day as possible four parlor cars, fifteen coaches, 509 coal cars, 200 large stock cars, and 300 flat or gondola cars. The business of the company absolutely demands this addition to its equipment, and business is lost daily for the want of it."
Operations, income, \&c., on the whole line for two years have been as follows:
oferations and fiscal results.

California Paciflc.-Notice is published that the $\$ 2,250,000$ first mortgage 7 per cent bonds of the above company mature Janusry 1, 1887, payable in New York. The company has resolved to extend the same at the rate of $41 / 2$ per cent per annum for the term of twenty-five years, viz: till January 1 , 1912. Holders who wish to arail themselves of the privilege of extension are requested to present their bonds as soon as pos fible at the office of Speyer \& Co., where their bonds will be stamped and the new coupon sheets aftixed.

Chesapeake \& Ohio.-The following circular has been issued, under date of Oct. 20, to the holders of the " $B$ " honds: "At the meeting of the directors of the Chesapeake \& Ohio Railway Company, held this day, after examination of the accounts of operations for the past six months, the results of which are shown by the statement snnexed hereto, it was determined that the result of such operations for that period would, under the circumstances, justify the payment in cash of one-half part of the coupon maturing Nov. 1,1886 , on the ' $\mathrm{B}^{\prime}$ bonds of that company, and that deferred interest certificates in the usual form should be issued for the remaining one-half of the coupon maturing on that day."

-The above indicates that holders of Chesapeake \& Ohio
" $B$ " bonds will receive $11 / 2$ per cent cash, or $\$ 15$, on their coupons due Nov. 1. Notice is also published that on those bonds already presented by holders and stamped as extended for 100 years at 4 per cent, the coupon of 2 per cent will be paid.
The holders of currency bonds of 1918 are also notified that
the Newport News \& Miesissippi Valley Company is now prepared to issue its certificates of stock in exchange for their bonds as provided in the circular letter of Mr. C. P. Huntington, dated July 24, IE86.

Central Railroad of New Jersey.-A circular has been issued to the stockholders and bondholders of this company relating the circumstances which led to the appointment of receivers. The circular also gives the report of a special commattee
lowing
"After a csreful and exhaustive examination of the affairs of the company, we are reluctantly furced to the conclusion that it cannot be re established, on a basis which will insure permsnent prosperity, without reorganization. The more important considerations which have led us to this conclusion are as follows:
Firat-The company has no mesns with Which to pav its present in-
 Rcceivers' debt.
 Princi a of car trusts past due..................................... 470,000 Fluating debt.................................................................... btock yard bonds.

Harana linatond \& Fastern-Wrbash. This Wahnsh line was snlul at Sprinkileld, 111 , Oit. 27 for $\$ 100.000$. The road runs from Nuw Albiny, Ind., to Leroy. 111 ., and is 76 miles ong. It was purchased. it is said, for a new company, who will widen the gauge and operate the line as a local road.
Ifouston \& Texas Ceniral,-An important legai step has just been taken in the affatrs of this company. It has a valuable land grant from the Siate of Texas. By the terme of the grant it was proviled that part of the lands should be alienated in fourteen years from the dato of the grants and part twenty one youran atter. The bondhelders have supposed that the placiog of the bonds in the hanrs of trustees was a tawfu and propur alienation, hut recentiy the Attorney-General ander the direciton n! the Governor of Texas, has investi fatml the inaller, sad then the ground that 4tey sccions of Niovember 20 , else they wrill revert to the Stato. Unwilling to run the riak of the forfelture, the trustees and the company have petitinned U.S. Circuit Julge l'ardee to ordar a forced sale prior to the dite fixel in the limit of the hoidinz of the lands. A privats diapitch annnunced that the Court had granted the petition and in the Gulveston News of Oct. 22 nppeare a long ariverticement offering at pubilc sale on Nov. 0 ome 273,000 acres of land in different couaties as thercíc deacribed.
Indiana IBnomington \& Western. - 1 circular has been ssued by this comp sny adjremed to its bondholders reterrlag to the prasent vituntion of aff sirs regarding the Cincinnati Bandusky \& Cleveland lease. The circular chen maya: "Under these circumatances it hecomes the duty of the management to alvise you that, in any event, it has become neceswary to
reorganize the company by means of foreclosure and aale, and the organizution of a new company which will be free from the obligations of the lease, and capable of megotiating for itself upon an indepsadent basis. Through the prompt cooperation of the compauy and all bondholders, this purpose can be speedily accomplished, and prompt and reguiar interest payments renewed and permanently continued. Numerous holders of large amounts of our several issues of bonds aqve been in consultation, and have advised the adoption of a plan of reorganization which will fuliy preserve the status of all the interest-bearing securities; secure beyond question the prompt payment of interest at a fixed rate; and at the same time protect the holders of incomes and stock. A meeting of boarthotders will be convened within a short time. With the view of appointing a suitable committee to represent your interests, and after due consideration to submit for your approval a plan of reorganizition. In the meantime you are earneslly cautioned againat being disturbed on account of the apparent complication of the company's aflairs, and are assure ithat in the beat opinion of your board your securities are abundantly good, and that, with your proupt co-operation, the surpension of latorest payments will bs merely temporay.

I am pleased to add for your information that at a recent conference with the representativea of the Cincinati Sandusky \& Cleveland Company, a basis for adjustmout was practically agreed upon, looking to a consolnlation of the entire systom, which seems to your board fnir, jus: and equitable, and one that will tend to the permnnent advantage of all chasea of accurity hoiders. Your approval of this adjustment and the reorganization will, however, be necessary to its consummation.

Inter-Slato Rallroad Trafilc.-The U. S. Supreme Court has rendere. a decision in the case of the Wabish St. Louis \& Pacife Railroad Company, piaintiffs in error, agairst the people of the State of Illinois. The speciflo allegation was that the rallroad company charged Elder \& McKinney fifteen cents per huntred pounds for traneporting goods from Peoria to New Yort City, and on the same diy charged Izac Baileg and F,O. Sweanell twenty-five cents per hamired pounds for the same clasio goods from Giiman, lil., to Now Yurk, Gilmon b-ing eifhty six milos nearer thin Peoria t? Nuw York. The discriminstion, it was alleged, was in vinlation of the law of Illinois, which prohibits any charige for the transportation of passengers or freight withia the S ato of 11 linois proportionstely greater than woull be charged for the transportation of pissengera or like classes of froght "over a greater distan 'e of the anme rond

The gist of tho decision is contained in the conclasion, as follows:
 arfira of stit asa princigie of thin klad and nirth one nf the slutes or of

 ant ha upereatimitad. That thlosprelen of regulation lan une wibleb untht

The judgment of the Supreme Court of Illinois, which was advarse to the railrom, is reversect, an I the case is reminded to that enur for further proccedings ia conforanty with the above opinvan
Jutice Bradley deliserel a dissen'ing opinion in wisch the Cniel Juatice and Justice Gray concurred, In this oplaion it is conceded that Cingress miaht, if it 5 aw fit, r-guiate the matter under consideratios, hut, not having done so, it is heod that the State does not lose its power to regula'o the chargea of ins own railroada in its own territory aimjly because the goxds or persons transp)ried have been brought from or are destined to a point beyoud the State borders.
Hittle Rack Mississippl' River \& Texas,-An extended report and glan of reorghization bat been issued which proposes that the propirty should be divided und two distinct corporations organized-ons to own the road between Littlo R rek and Arknnsas City, 120 milles, known 89 the Piug Bluff Division, the other to own the Ousehita Division from Trippe's stalion imiles aest of Arkansas City to Texarkana, Texas, of which 49 milea are built.
The reorganization plan of the Litt'e Rock Missiissippi River \& Texas Ruilway Company ia substantially as follows: The capital stock of the Pine Bluff Company (preferred), subject to increase or decrease. will the $81,920.106$; the common wrock will be $\$ 1,873,891$; 1 be $\$ 2.500,000$ of naw firat morigage goli bonds will be used in this whe: $\$ 1.609 .200$ to pay the first mnrtgage bondholifers 85 per cent of thelr holdings, \$1.892,000; $\$ 1,500,000$ to pay secured debts, and the balance, \& 331.800 , will bs retained in the treasury for steel rails, repairs, improvements, and to pay dispenting bondhoiders, if no cessary. their distributive share of the proceo's of the sale not pilif by stockholders. The preferreil to ik . $\$ 1,820,106$, will be uaed to par 15 per cent of thw $\$ 1.892000$ of the first moricaze bonda: $\$ 003,303$ of the principal to take ciro of the nverdue coupons, und the bainnce of $8.50,002$ to speured creditors. The common stock, $1.073,801$, is to he issued ratably (4) the se:ond mortagra bondholders, $\$ 1,100,000$ being taken for the principal, $\$ 482,750$ for the unpaid coupons, and $\$ 85,141$
for excess for distribution. Of the $\$ 3,000,000$ of the Ouschita Company's stock, $\$ 1,000,000$ will be issued to such stockholders of the present company as assent to the plan and that pay an assersment not exceeding 2 per cent in the aggregate of the par valuo of all the stock of the present company; $\$ 50,000$ will go to secured creditors, and the balsnce of $\$ 1,050,000$ will be reserved in the treasury. The plan sppears, so far as can be learned, to give very general satisfaction to the security holders.

Lonisvlile New Orieans \& Texas.-The Memphis Avalanche of Oct. 26 said: "A special train which came in over the Louisville New Orleans \& Texas railroad yesterday made, perhaps, the fastest long run ever accomplished on any South ern railroad, testing and proving the excellent condition of the track of that company between Memphis and Now Orleans, The train left New Orleans at 5:30 o'clock yesterday morning, and the party crossed Jackson Street in South Memphis exactly at 6 oclock. The total running time for the entire distance of 455 miles was 10 hours and 10 minutes, or a trifle less than 45 miles an hour. The total time consumed on the trip was 12 hours and 30 minutes, and for the first time in their existence New Orleans papers were delivered in Mem phis on the same day of their publication."

Memphis \& Charleston.-The gross and net earnings for September, and for three months of the fiscal year, have been as follows:

Phlladelphia \& Readlng.-The result of the joint opera. tions of the Philsdelphia \& Resding Railroad and Cosl \& Iron Company in the month of September, the tenth month of the fiscsl year (including Central New Jersey Railroad leased), was an increase of $\$ 23,829$ in gross earnings and a decrease of $\$ 39,505$ in net, compared with Sentember, 1885. In the ten months from December 1 there was an increase in 1885-86 of $\$ 1,082,301$ in gross earnings and a decrease of $\$ 861,172$ in net, compared with the same period in 1881-85,

Total 10 months. . $\overline{\$ 36,738,128} \overline{\$ 35,635,827} \overline{\$ 8,357,139} \overline{\$ 3,218,311}$
Richmond \& West Point Terminal.-The following named gentlemen, who represent a large interest in Richmond \& West Point Terminal stock, have been nominated as directors of the company, to be voted for at the ensuing election Nov. 19: Messrs, Alfred Sully, Geo, F. Stone, Emanuel Lehman, T. M. Logan, John A. Rutherford, Isaac L. Rice.

Texas \& Paciflc.-At a meeting of the Texas \& Pacific Reorganization Committee the Court was asked to sanction the issue of receivers' certificates to the amount of $\$ 70,000$ for new locomotives and $\$ 77,000$ for new rolling stock. The Court's approval was asked for steel rail contracts made for 23,000 tons and for one about to be made for 7,000 tons. A resolution was adopted agreeing to accept receivers' certificates to the amount of $\$ 38,000$, and to pay for them with funds received from stockholders' contributions,

Wabash St. Lonis \& Pacifle.-A circular has been issued by the committee of first mortgage bondholders of the Wabash Railway, consisting of Frederick N. Lawrence, Benjamin F. Romaine and Edward Oothout, urging the holders of the first mortgage bonds to sign an agreement with the committee at the earliest possible date for the protection of their interests, The circular says: "The argument (in the Circuit Court at Chicago) developed the fact that the Purchasing Committee, in place of conforming to the decree for the sale of the Wabash property, by which they were required, as part of the terms of sale, to pay off and discharge the receivers' obliga tions, proposed to purchase these obligations to the amount of four million dollars, and hold them with a view of litigating with the underlying mortgage bondholders as to their priority of lien. The further fact was developed that the Pur chasing Committee have obtained an order from the United States Court at St. Louis, sanctioning such purchase of said obligations, and authorizing the receivers to pay such coupons as might bedesignated by the Purchasing Committee out of the earnings of the road. The avowed purpose of the Purchasing Committee is to use these two orders to the disadvantage of the bondholders who do not assent to the funding scheme. It is believed that these orders can both be set aside."
--The Farmers' Loan \& Trust Company, trustees of two of the Wahash first mortgages, are taking steps at the instance of the Lawrence Committee to have the order of the St Louis Court of September 21 set aside. This order allowed the Purchasing Cummittee to keep the receivers' obligations alive instead of paying them off as decided by the decree of sale, sad allowed the Purchasing Committee to deaignate which coupons of prior mortgages should be paid by the present receivers.

## COMMERCIAL EPITOME.

## Erdoay Nigrt, Oct. 29, 1886,

The ceremonies sttending the dedication of the Bartholdi atatue caused the almost total suspension of business yesterday. The coming election has also sbsorbed attention, and uneaslnes has been felt in some quarters respecting the contest for the Mayor of this city and ita possible effect on apeculation and values. The prolonged drought, which has afllicted the Atlantic coast from Maine to Georgis was broken on Tuesday by a copious rain, which, though probsbly too late for many crops, will ward off danger to the public health. There is a notabie calm in labor circles, and only slight disputea are reportod from any quarter.

The speculation in lard for fature delivery has been comparatively quitt and prices varied but little. Tho bulls were without courage and the bears found prices too low to justify "shorl" sales. To-day there was a slight improvement.

> datly closing prices of hard.

Lard on the spot has been active. The parchases of refined have been large, not only for the Contlnent but for South America. To-day the markel was etrong and active at 6c. for prime city, 6.10ccol2 /5c, for prime Weatern and 6.40c. for refined for the Continent and 6.80c, for South America. Pork has been more active, with values fully maintained at $\$ 1025$ © $\$ 1050$ for new mess, $\$ 10 \times 1025$ for extra prime and $\$ 1475$ © $\$ 1525$ for clear. Cat meats were active, but at a decline of $1 / 4$ \%ío. for pickled belliee, closing quiet; pickled bellies 7a $71 / \mathrm{cc}$, hams 93/@10c. and shoulders 55 (a 5\% c ; smoked hams 11 @111/4c. and shoulders 63/c. Beef remains nearly nominal at $8725 @ 88$ for extra mess and packet per bbl. and $\$ 11 \mathrm{C} \$ 18$ for Indis mess per ticree, with beef hama dull at 81850 per bbl. Tallow is lower at $41 / \mathrm{al} 4 \% \mathrm{fc}$, with more doing. Stearine is firm at 70, and oleomargarine is quoted at 65 c . Butter is In fuil supply at 19@20c. for creamery. Cheese is firmer at $01 / 4$ (20) 12c, for State factory and 4@Sc. for ekims. TThe awive alaughtered at the principal Western towns from March 1 to lateat dates numbered $5,350,000$, against $4,965,000$ for the correspouding period Last season. The following is a comparative summary of aggregate exports from October 26 to October 23.

Port.................... 1835-6.
Bacom, \&0............. $161,753,545$ ן133,575,045 and.................. $23 y, 878,286: 292,225,103$ Jec. 3,348,877
The epeculation in Ro coffee was carried to an excited climax on Wednesday, when prices rose to 11c. and upward for options, on reports of reduced recelpts at the Brazil ports, and opened still higher jesterdas, when a decline set in, under sales to realize, which contlnued to the close this afternoon, when the reaction from the highest tigures was fully 3 Sc . per lb, tho final offerings being at 10.50 c , for the sutumn and winter months. Rio coflee on the apot touched 125 íc. for fair cargoes, but closes unsettled and nominal at intrc. Mild grades have been active, and a large line of Maracaibo sold co-day at 12@183/a.
Raw sugars have been fairly active, aud clowe steady at 4-1cc. for fair rellaing Cuba and 5 \$-16c. for atandard cen. trifugal. Slolasecs is dull at $18, \mathrm{yc}$. for 50 -degrees test. Teas have ruied firm, but with only a moderate degree of activity.
There has been a fair demand for Kentucky tobacco, and the sales for the week are 400 hhds , of which 300 for export at ateady prices. Seed leaf has been comparatively dull, and sales for the week are only 1,200 cases, as follows: 200 casea 1885 crop, Peaneylvania IIavans seed, 0@16c.: 100 cases 1883 crop, Penneyivanla seed leal, 10@121/2c.; 100 cases 1882 crop, do. do., private terms; 200 cases 1885 crop, Wisconsin Havans, 74 10c; 230 cases 1885 crop, Ohio seed leat, $83 / 4 @ 9 \mathrm{c}$; 100 casea 1885 crop, Littio Dutch, Oc.; 100 cases 1885 crop , State ILavana, private terms, and 150 cases sundries, 6o 28 c.; aiso, 350 bales Mavana, 60@ $\$ 110$, and 250 bales Sumatra, 1120 (a $\$ 160$.

Crude petroleum certillcates were firmer, until to-day, when there was a decllne under free offerings, and the close was at $651 / 6951 / \mathrm{c}$. Spirits torpentine advanced to 88 c ., but closes at $87^{2} / \mathrm{c}$. Common rosin is quoted at 05 c . Wool is quieter, Hops are firm, with a fair demand. On the Metal Exchange tho speculation in block tin was active, but the close is quiet at $22 \cdot 10 \mathrm{c}$, on the opot and 22.20 c . for December, Ingot copper is very firm.
Ocean freighte were only moderately active, but scarcity of room austained rates, and the shipments of grain to-day were at $41 / 4 \mathrm{~d}$, to Liverpool, $43 / \mathrm{d}$. to London and $41 / 3 \mathrm{~d}$, to

## COTTON

Friday. P. M., Oct. 29, 1886.
The MOVEarent of tez Crop, as indicated by our telograms from the South to-night, is given below. For the week ending this evening (Oct. 29), the total receipts have reached 258,483 balee, against 266,818 bales last week,230,288 bales the previous week and 197,166 bales three weeks since; making the total receipts since the 1st of September, 1886, 1,343,801 bales, againgt 1,389,453 bales for the same period of 1885, showing a decrease since September 1, 1886, of 41,652 bales.

The speculation in cotton for future delivery at this market haa shown considerable activity for the week under review， notwithstanding the intervention of a half－holiday．The market was weak on Saturday，and on Monday an early advance was followed by a sharp decline，options louching the lowest figures of the season，with．sales for January at 0 c．
There was some recovery in the course of Tuesday and There was some recovery in the course of Tuesday and reduced movement of the crop，especially at the ports，which caused some renewal of confidence among the＂bul！＂paity． The weather at the South，as reported at the Exchange，also took an unfavorable tuin，not only for she gathering but for the maturing of the crop，and the＂bears＂were quite diaposed to proceed with caution．Yesterday the Bartholdi cclebration caused business to be nearly suspended，but frost accounts from the Northern belt promoted an advance of a few points． To－day a firm opening was followed by a sharp decline，under free sale to realize profits，induced to aome extent by the early indications of a large interior movement，and the feel－ ing was quite unsettled，both parties eagerly watching the smallest developments．Cotton on the spot has met with only a limited demand for home consumption，but our stocks are atill kept within narrow limits．Drought has caused the stop－ page of several New England mills，which the recent rains may start again．To－day the market was dull at $91 / \mathrm{c}$ ．for middling uplands．
The total sales for forward delivery for the week are 492，200 bales．For immediate delivery the total sales foot up this week 1，862 bales，including－for export， 1,862 for consumption， －for speculation and－in transit．Of the above，－bales were to arrive．The following are the official quotations for each day of the past week．

Receiprs from the Plantations, -The following table indicates the actual morement each week from the plantations. The fgures do not include overland receipte nor Southern consumption; they are simply aistatement of the weekly movement from the plantations of that part of the crop which finally reaches the market through tho outports.

The above statement athowa-1. That the total neceipts from the plantations since September 1, 1830, are $1.5: 1,738$ bales; in 1845 were 1,$5 ; 9,010$ bales; in 1834 were $1,5: 4,675$ bales.
2. That, although the reccipts at the outports the past week were 359,183 bales, the actual morement from plantations wise 301,959 Dales, the balance ging to incrense the stocks at the interior towns, Last Year the receipts from the plantations for the same week were 313,113 bales and for 1891 they were 301,017 bales.
Ayount of Comton is Siort Ocr. 29. -In the table below Wogive the receipts from plantations in another form, and add to them the net overland movernent to Oct. 1 , and also the takings by Southern spinaers to the same date, so as to give aubstanlially the amount of cotton now in sight.

Little Rock, Arkansas.-Telegram not received
Helena, Arkansas.-We have had light rain on two days of the week, the rainfall resching five hundredths of an inch. There have been killing frosts on two nights of the week. Picking and marketing progress finely. The thermometer has averaged 58, ranging from 32 to 82.

Memphis, T'ennessee.-It has rained on one day of the week, the rainfall reaching six hundredths of an inch. We had killing frosts yesterday morning and this morning. No damage on uplands, but some is reported to the crop in the bottoms. Picking and marketing continue to make good progress. This week's receipts are the heaviest on record. The thermometer has ranged from 35.5 to 81 , averaging 45.5 ,

Nashville, Tennessee. - There has been no rain all the week A verage thermometer 56 , highest 81 , lowest 33 .

Mobile, Alabama-We have had one light shower during the week, the rainfall reaching one hundredth of kn inch. We hid frost but not killing frost, and no serious damage done. The thermometer has averaged 64, the highest being 83, and the lowest 58 .

Montgomery, Alabama.-It has been showery on one day, and the remainder of the week has been pleasant. The rain fall reached three hundredths of an inch. We had frosts on Thuredey and Friday, but not killing. Picking continues to progress finely. The thermometer has averaged 63, ranging from 37 to 82.
Selma, Alabama.-There hsb been rain on one dey of the week to the extent of one inch. We have had killing frost on one night. Picking is progressing finely. The thermometer has ranged from 37 to 80, areraging 64,

Auburn, Alabama.- It has rained to an inappreciable extent on one day of the week. We had killing frost on Wednesday and Thursday nights. Ice formed in this vicinity on Wednesday night. Average thermometer 63\%, highest 82 , lowest 34.
Birmingham, AJabama.-We have had rain on one day, Ind the remainder of the week has been pleasant. There has been frost on one night but not killing frost. Picking con tinues to make good progress.

Madlson, Florida.- There has been no rain all the week. We had the first frost of the season on Thursday night. The thermometer has ranged 65, ranging from 37 to 79 .

Macon, Georgia.-There has been no rain all the week. We had light frost this (Fridsy) morning.

Columbus, Heorgia.-We had killing frosts on Wednebday and ice formed on Thursdey night in this vicinity. The thermometer has ranged from 32 to 78, averaging 58 .

Savannah, Georgia.-It has rained on two days, very lightly on one, and the remainder of the week has been pleasant. Average thermometer 65, highest 78 and lowest 46.

Augusta, Qeorgia.- It has rained lightly on one dsy and the remainder of the week has been pleassnt. The rainfall reached seven hundredths of an inch. First frost on Thursday. Picking is progressing finely. Planters are freely marketing their crop, which in color and quality continues fine. The fall thus far has been very favorable for late cotton. The thermometer has averaged 60 , the highest being 81 and the lowest 38.

Atlanta, Georgia.-There has been an inappreciable amount of rain during the week. We hsve had frost, but no damage done.
Albany, Georgia.-The weather has been rather cold during the week, with rain on one day to the extent of seventeen hundredths of an inch. There have been killing frosts on two nights. The cause of the small receipts this week is that the shortness of the crop here is beginning to manifest itself. The thermometer has ranged from 39 to 83 , averaging 63.

Charleston, South Carolina.-It has rained lightly on one asy of the week, the rainfall rezeining one hundredth of an inch. Average thermometer ( $\overline{6}$, ulgnest 78 and lowest 46

Stateburg, South Caroluna.-It rained heavily on Tues dsy. but the remainder of the week has been pleasant. The rainfall reached two inches and two hundredths. We had frosts on low grounds on Thursday but not killing. The thermometer has averaged $01 \cdot 2$, the highest being 73 and the lowest 42.

List week there was no rain. The thermometer averaged $64 \cdot 9$, the h ghest being 81 and the lowest 47

Wilson, North Carolina.-Telegram not received.
The following statement we have also received by telegraph, showing the height of the rivers at the points named at 3 o'clock Oct. 28, 1886. and Oct. 29, 1885.

India Cotton Movement froy all Ports, The receipts and shipments of cotton at Bombay have been as follows for the week and year, bringing the figures down to Oct. 28.
gombar geotipts and shlpmente for four tears.

| Year | Shipments this week |  |  | Shipments since Jan. 1. |  |  | Receupts. |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | $\begin{aligned} & \text { Qreat } \\ & \text { Bril'n. } \end{aligned}$ | Conlinend. | Total. | Great | Oontinent. | Total. | This Week. | Fear. |
| 1888 | 00 |  | ,000 | $322.000$ <br> 22.000 | 675,006 4677000 | $997,000$ | 5.000 4.000 | 1,422.000 |
| 1884 | 2.000 | 0.000 | 8,000 | 30,000 |  | 1,141,000 |  |  |
| 1883 | 3,000 | 10.000 | 13.000 | 481,000 | 816,000 | 1,277,000 | 11,000 | 1,603,000 |

According to the foregoing, Bombay appears to snow an insrease compared with last year in the week's receipts of 1,006 bales, and a decrease in shipments of 1,000 bales, and shipments since January 1 show an increase of 310,000 bales, The movement at Calcutta, Madras and other Indis ports for the last reported week and since the 1st of January, for two years, has been as follows. "Other ports" cover Ceylon Tuticorin. Kurrachee and Coconada.

|  | Shipments for the week. |  |  | Shipments since January 1. |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |

* cantar ie 981 lbs

This statement shows thst the receipts for the week ending Oct. 27 were 140,000 cantars and the shipments to all Europe 13,000 bales.
Manohester Mareet.-Our report received by cable from Manchester conight states that the market is firm for both prras and shirtings, but that the demand in each instance is poor. We give the prices for to-day below, and leave those for previous weeks of this and last year for comnarison,

East India Crop.-The report of the Bombay Company (limited) of date September 24 says:
"Tbere have beon some hesus ehowera of rala here lutely, bat it hooke nall which thes will, no doubt, oborily get on tho settiog in of the northeast. monsoon, and tho prospects of tho new cutton orop are oo far
The following is from Messrs. Gaddum, Bythell \& Co.'s circular of the pamo date:
Eluee dispotehing our last elreniar, teo days aga, the weather ap enniry has. Iu mons plarea, cunlinued the, mid onr reports from pearty hal tho cutinn growlug districto niuto shat tho present bot. dry weatbor Bafte ind Ahwedingsar there has been a good fall of ralin during the orable; bot ifll over Gerarn and Khandelah, mwell as in somo parta of the 8 romeh and Dhollera districti, thit want of raln is now beginalige to be felt, and about iter rate mind ofr mneh loazer it in feared that all the
 erupe now rewiug will become rery gloomy. Wo have had a fow wasther is tise and brishs, with no indicailons of an eariy fallof raln."
Jute Butrs. Bagaiso, ec-The market shows bu! little change and onls a moderate inquiry is reported. Orders are coming to hanil for small lots for present wants, bat there is not much call fur large lots. Prices are unchanged, though a slight casiness is notod. and large buyers are obtaining a concespion. The closlog ficures are $61 / 2 \mathrm{c}$. for $11 / 2 \mathrm{lb}, 71 / \mathrm{c}$. for $13 / 4$ $1 \mathrm{~b} ., 8 \mathrm{c}$. Cor 2 lb . and $8 \mathrm{l} / \mathrm{c}$. for standard grales. A moderate domand is in prozresi for butts, and soma 1,500 hales are
 for bagging qualitios, wail the m urket closes at these figures.

Comparative Port Receipts and Waily Crop Moveyent, -A comparison of the port movement by weeks is not accurate. as the weeks in different years do not end on the same day of the month. Wo have consequently added to our other standing tablea a daily and monthly etatement, that the reader may conetantly have betore him the data for seeing the exact relative movement for the years named. The movement since september 1, 1596, and in orevious years, has boen as follows.

## BREADSTUFFS

Fridat, P. M., October 29, 1886.
Tho flour market has been without important cliange in prices during the past week. With the check to the advance in wheat the dtmand for its product fell off ; yet supplies being quite mo erate there was no pressure to sell, and a better supply of fieight room for the West Indies kept city millers fully employed. To-day the market was very dull.
The wheat market has reflected great activity in the specuative dealings. The struggle between the bulls and bearshas
at times been very fierce; but under quieter foreign advices, attended with a 6 maller business for export, the latter have had the advantage, and much of the advance of last week has been lost. The large viaible supply has bean an elcment of weakness, and it is felt on all sides that it is quite necessary to keep the staple moving toward consumption at the best prics to be had. Yesterday the Producs Exchange was closed, but there were some dealings on the Street at better prices, on warlike rumors from Europs; but to-day there was a sharp decline and an unsettled closing.

DAILT CLOSLNQ PRIOES OF NO. 2 BED WINTER WEEAT.

India corn has continued to sympathizs with wheat, as it has done for some time past, but the export demand way better oustained, and the decliue in values comparitively small. There have bean small offerings of the czop of 1830 , and it is evident that it will bs marketabls much eartier than usual. Today the market was ratber firmer, on the rather full export demand, with only moderate offerings.

Oats opened the week active and firmer, but have latterly been dull and drooping. The wet weather has been unfavorable to the local trade, and opeculation has shown little epirit. To-day the nuarket was firmer, but quiet.

## THE DRY GOODS TRADE

siew Yoak. Fidas. P. 31., Oct. 29, 1896. Busitem in the wholesale branches of the dry goods trade was comparatlvely light the past week, owing in a meagure to the unsea sonable mildinees of the weather, whlch has militated against the demand for consumptlon. Thursday was practl. cally a holiday, most of the commisolon houses and some $0^{\circ}$ the principal jobbers having closed their st ree on that diy in view of the ceremonles attending the unveiling of the Bartholdl Statue. A nother disturbing lolluence was the pendIag elections which absorbed the attention of many merchanta, and altogether the bnslness of the week was apasmodic, irregular and moderate in the aggrcgate. The tone of the market continues very firm, and such price changes as occurred were all In an upward direction, owing to the relstively emall stocks on luand, and interrupted production at some of the manufacturing centres lecsuse of arrikes and resultant "iock. outs" at the mills. Collections aro reported fairly good ln most sections of the conntry, but the jobbing house of Shipley, Doisy \& Co., Cincinnati, has been obliged to ask an extension from thrir creditors, whlch wra cheerfally granted becausc o: the undout led Integrity of the frm.

Donestic Cottos Goods. - The exports of domestics from this port for the week edding Oitober 23 wore 2,801 packegea, including 5? 5 to Great Britaln, 192 to Chili, $80-1$ to Argentine Republic, 202 to IIamburg, 230 to II igtl, 193 to Santo Dsmingo, 131 to U.S. of Colombla, 121 to Uruguay, 111 to Drasll and emaller parcels to other deatiations. The demand for itsple plain and colored cottons at first hands was only moderate, lut there was a good stoady movement in most descriptions on account of former transactions, which absorbed
in a great measure the current production of the mills, and the tone of the market was buysant and atrong. Print cloths were rather quiet, but atocks are so exceptionally amall that prices ruled very firm on the basis of $31 / 2 \mathrm{c}$. for $64 \times 6 \mathrm{~s}$. and $31 / 8 \mathrm{c}$ for $56 \times 603$. Stock 3 last Siturday and for the three previous jears were as follows :

Total atook, (pleces) ........ $\overline{105,000} 1 \overline{021,000} 1, \overline{212,000} \overline{652,000}$ Printed calicoes were in light and irregular demand at first hands, but there was a fair business in white goods, quilta, acrim curtains, crinkled aeersuckers and woven cotton dress fabrics adaptel to tbe spring trare.

Domestio Woolen Goods, - The market for woolen goods has lacked animation as regards new business, but there was a good ateady movement in light weight clothing woolens on account of former transactions, and prices remaip ateady. There was considerable inquiry for heavy cassimearea, overcoatinga, \&c., by the wholeaale clothing trade, but their views as to prices were in most cases too low to bo entertained by bolders, and comparatively few transactions were therefore reported in this connection. Cloakings and Jereey clothe wero In lizht and irregular demand, but deeirable makea are ateadily beld. Kentucky jeans and satinets ruled quiet and steady at unchanged prices. Wool and worsted dress fabrics ( (or women's wear) were quiet in demand, but agents continued to make fair deliveriesin execution of back orders, and prices remnin irm all along the line. Flannels and blankets were lightly dealt in by package buyers, and the jobbing trade in these goods was unfavorably induenced by the mildness of the weather, but prices are firmly maintaived. Carpets ruled qulet, and thero was only a moderate business in wool hosiery, sbit underwear and fancy knit woolens.

Fonelos Dry Goods continued quiot in first hands, and the jobbing trade was of atrictly moderate proportions, but atocks are not redondant as a rulo despite the largely incrased imports this season, and such fabrice as govern tho market are generally steady in price. The auct!on rooms have preaented few offerings of specisl Importance, and the prices obtained at publicsalo were mostly in buyera' favor.

Importationm of Dry Goodw.
The Importations of dry goods at this port for the week onding Oct. 29, 1858, and aluce Jan. 1, and the same facts for the correspondine periods are as follows:
