Atlantic & Pacific RR. Co., ST MILK STREET,

BOSTON, Oct. 20, 1886.

Boston, Oct. 20, 1886.

The holders of this company's bonds known as its "Western Division" 0s, due 1910, and of its "Central Division" 6s, due 1922, are hereby informed they can exchange those bonds, of each class, for an equal amont, par for par, of new Four (4) Per Cent Guaranteed Trust Gold Bonds of this o mpany.

The new bonds are to be dated Jan. 1, 1887, to run 50 years, to bear interest at the rate of Four (4) Per Cent per annum, payable aemi-annually, Jannary and July, and are to be guaranteed by indorsement upon each bond for due payment of principal and interest by the Atchison Topeka & Santa Fe Railroad Company and the St. Louis & San Francisco Railway Company to the extent of one-haif by each company, and are to be accured by the deposit in trust by such two companies; with the Mercantile Trust Company of New York of the bonds for which the new bonds are to be given in exchange.

The necessity for making this proposal to the bondholders has long received the careful consideration of the three companies and is now argent. The advisability of its acceptance on the part of the bondholders will be evident from the following statement:

holders will be evident from the following state-

holders will be evident from the following statement:

Notwithstanding the establishment of a new through trans-continental line over the Atlantic & Pacific Railroad between the Mississippi and Missouri Rivers and the Pacific Coast by contract with Southern Pacific Railroad Company, and also by the completion of the California Southern Railroad to a connection with the Atlantic & Pacific Road; the expectations entertained at the time of the inception of the enterprise have not been realized or to any satisfactory degree fulfilled. This has been owing to causes which could not be foreseen. Delays in contraction occurred, while the cost exceeded carefniestimates; general depression in business has existed, active competition and unprecedentedly low rates have prevailed, and, as the result of all, the earnings of the Atlantic & Pacific Road have to this time been wholly insufficient to meet its fixed charges, although the interest upon its bonds has been regularly paid. The funda for this purpose and to pay some of the other fixed charges of this company, have been from time to time advanced by the Atlantic of the St. Lonis company, have been from time to time advanced by the Atchison Topeka & Santa Fe and the St. Louis & San Francisco companies, because of their large respective interests in the securities and their con-fidence in the ultimate auccess of this railroad. The present obligations of those companies to pay money on account of interest upon Atlantic & Pacific bonds now issued are to advance to the extent of only 25 per cent of the gross earnings derived by them from the business passing over their respective lines and coming from or going to the road of the Atlantic & Pacido Company, and their advances are made only as loans, which are to be repaid with are made only as losses, which are to be repaid with interest. In order to maintain the solvency of the Atlantic & Pacific Company, and in the hope of better results in the future, the Atchison & San Francisco Companies have already advanced sums largely in excess of their obligations under traffic contracts; but the time has come when such assistance can be no longer expected, and the two com-panies have given notice that it will not be con-tinued. They have, however, agreed that on the new basis proposed each will in future absolutely guarantee the payment of one-half of the principal

and inicresatt 4 per cent of the company's existing mortgage indebtedness, if the bondholders will necept anch guarantee, and in consideration thereof exchange the existing bonds of this company.

The plan has already been acquiesced in and approved by many holders of the bonds, and in large amounts. Its success is contingent upon the assent on or before Dec. 27, 1880, of the holders of a majority in interest, If such assent is not obtained by that time it will be considered that the plan is not that time it will be considered that the plan is not acceptable to the bondholders, and at the option of either company may be abandoned. In that event it cannot be expected that any other plan can be pre-sented so advantageous to the bondholders as that now proposed, or that in any other way can they so effectually protect their interests.

effectually protect their interests.

The new 4 per cent bonds, so guaranteed as to principal and interest, and with all the advantages atated, ought to be highly regarded for investment and at once command a market value equal or approximately approximately according to the control of the command as a superfective and according to the control of th proximate to that of the most approved accurities of like character.

By the deposit in trust of the existing mortgage bonds to the extent that they are exchanged, the security of the lien of the present mortgages on all the property will continue for the benefit of the holders of the new bonds.

The Mercantile Trust Company of New York will be the Trustee under the Trust Indenture made by the three companies to accure the new bonds, each one of which will be authonticated by it, and a copy

ne of which will be authonticated by it, and a cop; if the same may be seen there.

The said Trust Company, at New York, and Messra. Elider, Peahody & Co., Boston, Messra. Seligman & Stottheimer, Frankfort-o-M., Wurttembergische Vereinsbank, Stuttgart, Rheinische Creditbank, Mannheim, Fillale der Rheinischen Creditbank, Karlsruhe, Filiale der Rheinischen Creditbank, Heidelberg, Filiale der Rheinischen Creditbank, Constanz, Ellisle der Rheinischen Creditbank, Freiburg-i-B.

Fillale der Rheinischen Greditbank, Freiburg-i-B., Alsberg, Goldberg & Co., Amsterdam, will be prepared to receive from hollers of the pres-ent bonds the deposit of the same, with all coupona attached, to be exchanged as stated. THE MERent bonds the deposit of the same, with all coupons attached, to be exchanged as stated. THE MER-CANTILE TRUST COMPANY OF New York. Messrs. KIDDER, PEABODY & CO., of Boston, and the FRANKFURTER BANK at Frankforto-M., will give temporary receipts, which will be exchangeable for new bonds as soon as ready.

For each Western Division Bond so deposited they

will also give \$20 in cash, as and for interest, and for each Central Division Bond \$18 33 in cash, as for each Central Division Bond \$13 53 in cash, as and for interest, and one of the proposed new guaranteed bonds, hearing interest from Jan. 1, 1867. The new bonds are to have coupons annexed, but provision is also to be made for their registration; and if at the time of the exchange they are not ready for delivery, receipts or certificates will be issued entitling the holder to the bonds as soon as they can be duly prepared.

Application will be made to have the Guaranteed

Trust Gold Bonds placed on the regular list of the New York Stock Exchange, and also admitted for dealings at the Exchanges abroad.

By order of the Board.

H. C. NUTT, President, Atlantic & Pac. RR. Co,

EDWARD F. WINSLOW, President, St. Louis & San Francisco Railway Company. Approved:

WM. B. STRONG, President, Atchison Topeka & Santa Fe Railroad Co.

CALIFORNIA PACIFIC RR. CO.

The \$2,250,000 FIRST MORTGAGE 7 PER CENT BONDS of the above company mature Jan. 1, 1887, payable in New York. The company has resolved to extend the same at the rate of 4¹2 per cent per annum for the term of twenty-five years, vis., till Jan. I, 1912. Principal and interest of the extended bonds will be payable, as heretofore, in United States gold coin.

Holders who wish to avail themselves of the privilege of extension are requested to present their bonds at the office of the undersigned, where their bonds will be stamped and the new coupon sheets affixed, until Dec. Ist, free of charge.

> Speyer & Co., MILLS BUILDING.

CLEARING HOUSE RETURNS.

Notwithstanding the fact that the returns of exchanges at New York for the week under review cover six days, whereas in the preceding week only five days were included, there is a loss in the total at this city from last week of \$31,036,743. Furthermore the decrease is not the result apparently of any falling off in speculative operations, for at the Stock Exchange, and on the other exchanges as well, the volume of transactions has been greater than a week ago. Outside of New York also many of the more important cities record losses as compared with November 6. All this would seem to indicate either that there has been some slackening in mercantile activity, or that payments on account of past transactions have for the time being been less liberal. Labor troubles have also undoubtedly had some adverse influence of late, but one of the most serious of the strikes (that of the packers at Chicago) has now been ended.

Heavy dealings at the New York Stock Exchange during the week of last year with which comparison is now made served to keep up the volume of exchanges, so that, although contrasted with 1885 there is this week a decline of 9.6 per cent at New York, the result after deducting double the value of the share sales (\$103,254,000 in 1886 against \$194,324,000 a year sgo) is a gain of 27.5 per cent. In percentage of increase over 1885 Indianapolis still leads with 84.2 per cent, foilowed by Omaha 751, St. Joseph 689, Columbus 421, Memphis 84.6 and Peoria 34.3.

	Week Ending Nov. 13.			Week Ending Nov. 6.

Our usual telegraphic returns of exchanges for the five days have been received and they exhibit a gain in the aggregate over the corresponding period of last week of \$58,987,900, contrasted with the similar five days in 1985 there is a loss in the total of 7.6 per cent. It should be remembered, however, that during this particular week last year stock operations at New York were the heaviest on record, and largely in excess of the current figures. This explains the present unfavorable comparison at New York.

· Pittin sted en il a la fihe last week! preturns.

THE FINANCIAL SITUATION.

Our market has shown evidences of an easier tendency this week, though actual rates have not differed materially from those last reported. * Bankers balances have loaned at the Stock Exchange at 7 and in moderate amounts at 3 per cent, averaging as last week about 51 per cent; even I per cent was recorded on Wednesday, but it was after the demand for the day had been satisfied, and scarcely a The banks are undoubtedly in a little fair quotation. easier condition, easier in that the urgency for interior shipments has somewhat subsided and their reserves have begun This has not made them liberal lenders on call, but they have been seeking to place funds on time on stock collateral, though first-rate collateral is required where anything below 6 per cent for four months is accepted. There has also been, and for a similar reason, a little better demand for commercial paper at unchanged rates, yet that demand has as heretofore come chiefly from out of town banks.

Evidence not only that legal tenders are accumulating, but also of the opinion of bank managers as to the future demand for money from the interior upon this centre, may be gathered from the circumstance that certificates of deposit which were liberally aurrendered to the Treasury when the inquiry for currency was active, are now being taken out again. In support of this view are the advices at hand reporting institutions at the chief Western distributing centres as fairly well supplied with funds and that a light in quiry from the country prevails. It is also to be noted that the Boston and Philadelphia banks show some small increase in lawful money compared with last month. Undoubtedly there is a little lull in many departments of business, though special trades remain verf active; probably also the movement of wheat from farmers' hands is becoming less free, while that of hogs and beef cattle was checked by the labor troubles at Chicago. Altogether therefore, with the continued arrivals of gold from abroad and some outflow of funds from the Treasury through interest payments and the issue of silver certificates, it is not a matter for surprise that our banks should for the time being at least be a little better supplied with funds.

How long this condition of money is to continue, and to what extent it will develop, must depend mainly upon the course of general business. With business active every industrial centre will not only keep its funds employed at home, but gradually absorb more, and so prevent accumulations here. Then the requirement for stock exchange operations promises to be large this winter if the funds are obtainable, for the tone is atrong and the prospect of arrangements and settlements among leading railroad companies is likely to favor activity in Wall street. The worst feature we can discover, or rather we should say the least hopeful one, is the meeting of Congress and the discussions which are likely to take place there; but it makes one breathe freer to remember that the 4th of March will put an end to all that. Mr. Beck's remarks at Chicago this week do not sound as if he had grown any more moderate or conservative during the vacation with reference to financial questions. We have not room to notice his assertions, except to say that had he taken the facts we have given in our pages the last two weeks he could never have said that more than half our bank note circulation has been swept away, and that if it had not been "for our silver certificates " a ruinous contraction of currency would have occurred "before now." We showed last week (1) that the entire contraction of the outetanding bank note currency

November 1 was from July 1 to only 71 dollars; (2) that during the same four we had imported 15 millions of gold net and produced about 10 millions more, thus adding 25 millions of gold to our currency against a loss of 71 millions of bank notes. That is a queer kind of "ruinous contraction" which "silver certificates" have prevented. Further than that, all the additional silver certificates Treasurer Jordan was able to get out in the same four months was just 12 million dollars, and in doing that his stock of silver dollars increased nearly 2 millions. And we mean no offense to Mr. Beck when we add that if general business should become dull through intemperate speeches in Congress, as for instance calling capitalists "vampires," &c., it would lower the high water mark for the floating of silver certificates very materially.

The cable reports discounts in the open market at London easy at 3 per cent, which is probably the result of the increased holdings of bullion by the Bank and the condition of exchange on Paris, which permits of a flow of gold to London. Our private cable states that the gain in bullion by the Bank which was £102,000 net, was made up by imports principally from France of £134,000 and of receipts from the interior of Great Britain of £43,000, and by an export principally to Lisbon of £75,-000. These facts show conditions existing which would seem to afford considerable confidence that the bullion held by the Bank of England was at its lowest point for this year two weeks ago, when it touched £19,-The managers of the Bank have certainly been very wise and skillful in their methods the past twelve months. They have been satisfied to let their stock of gold be low, while Paris and Berlin have been accumulating, and yet they have sufficiently protected their reserve without putting the rate of interest above 4 per cent. Of course, as a high Bank rate has a tendency to disturb general business, it is to be avoided when possible.

Our foreign exchange market has been very variable this week, fluctuating almost from day to day within half a cent per pound and alternately firm and weak for both long and ahort bills. Early in the week there was a demand, said to be to cover gold imports, which stiffened rates. This was only temporar was taken of the firmer tone to This was only temporary, for advantage sell a certain class of bills some of which were supposed to have been drawn against Mauitoba bonds. After the middle of the week, that is on Thursday, long sterling was again in request, commercial bills being scarce, but short was easier, the market being affected to some extent by cheaper money in London. Yesterday there was still another change, long and short being both marked up a half cent. The flow gold to New York from Europe continues. was an arrival on Monday afternoon of \$1,297,200 in francs, and on Tuesday of \$245,000 in English gold, besides which about \$360,000 gold came in on Saturday, making a total of \$1,902,200. There have been further shipments to this side this week, but we are able to trace only about £400,000. We are informed that the Bank of France has this week advanced the premium on gold This has been brought about by the to 1 of 1 per cent. drain now in progress from that centre, both to New York and London. The influence that the exports of staples are having upon exchange can perhaps be seen from the following summary of the movement during October of the last three years, made up from the figures of the Bureau of Statistics, issued this week. It will be noticed that, owing to the low prices prevailing, the total for the month is not quite up to that of last year.

The rise in silver bullion at London continues. It has touched this week 47 1-16d. per ounce. When we remember how short a time has passed since the quotation was at 42d., the change becomes the more striking. We notice that circulars reporting the silver market at London, still cling to the idea that the change in price is due to a change in supply and demand. Just so when it was constantly going down last winter with no recovery, the same authorities persisted in attributing the decline to trifling circumstances in the current movements of the metal, or for instance to the probability that silver coinage in the United States was to be immediately suspended, when there was far more chance of free coinage, so far as the power of Congress went, than of the stoppage of coinage. We would not refer to this, except that these erroneous statements affect views on the great questions respecting silver which are agitating the world to-day. When the public is forced to acknowledge that it is a mere sentiment which is putting the price up, and that it was a mere sentiment which put it down, and that that sentiment is the direct result of the current prospects with reference to the future standing of the metal as currency, a decided advance towards the solution of the problem will have been made.

Last winter the outlook for silver currency had grown to be almost hopeless. Every nation seemed to desire to be rid of it, and even in India the crisis, which is inevitable some time, appeared imminent. The belief that had hitherto kept up courage and price all over the old world, was that the United States would tumble into silver monometallism and furnish a market for the surplus holdings of other nations; for European financiers saw the plight our Government was in and thought there was no chance for us. But it became everywhere evident in July, 1885, that the administration had put the Treasury in a position of security, and so the last prop to European confidence in silver gave way and with it the latest tumble in the London price began. A little gleam of hope was the promise that our Congress would do something on the subject which by hurting America would help Europe, so the decline was a little irregular for a time, but as the session lengthened and that hope faded, the value settled more rapidly, until with the adjournment of Congress (just about a year from the date this fresh decline began) the final break to 42d. occurred, bringing the average price for the whole of August down to 42 11-32d. Next was the Royal Commission appointment (Sept. 6), and the belief which it gave rise to, strengthening almost constantly since, that the com-Times expressing the belief recently that a majority of the committee would report in favor of bimetallism; so the siderably below the 400,000 tons falling off shown in Sep-

price which touched 42d. and averaged only 42 11-32d. in August, rose to 45d. and averaged 43 13-16d. in September, then rose to 45 d. and averaged 45d. in October, and is now quoted at 47d. How high it is going before the reaction sets in will depend upon the degree of conndence felt in the ultimate outcome of the commission's work.

There has been some discussion this week of the question of an advance in east-bound freight rates on the 1st of December, the Central Traffic Association having rec ommended such a step for the consideration of the trunkline managers. At the time of writing, it seems to be doubtful whether the advance will be agreed to, at lesst as far as grain is concerned, and we should think that in the case of that article the wisdom of an advance might well be questioned. From a railroad standpoint everything can be said in favor of it, but railroads do not consider their own interests alone, but must put their action in harmony with the necessities of producers and the quotations for their products in the markets of the world. The present 25 cent tariff on grain from Chicago to New York is very low, as will be evident when we say that, allowing 1,000 miles roughly as the distance between the two points, that rate affords the roads an average gross return of only half a cent a ton a mile. The advance of five cents proposed would add one mill per ton to this, and even then make the average per mile only six-tenths of a cent. Moreover, it is customary to charge more in winter than in summer, for it costs the roads more; besides, the tariff of 30 cents per 100 lbs. would be no higher than that received in other recent years when the conditions were favorable and there was no war or other exceptional circumstance to keep down the rates. Were these the only considerations bearing on the matter, therefore, the advance would be unhesitatingly commended. But opposed to such a step we have, as already stated, the present condition of the farming interests. Prices of wheat are not only low, but extraordinarly low, and have been so for several years. It would not be correct to say that the producers have been impoverished as the result of these low prices, but certainly the margin of profits has been so far reduced that only a slight additional burden is needed to wipe it out altogether. Under these circumstances, 'is it not well worth considering whether the wiser course would not be to leave rates as they are, at least for the

The anthracite coal trade continues to be somewhat unfavorably affected by the mild weather that has prevailed. As our readers know, the further advance in prices which at one time seemed probable has not been made, and the figures issued yesterday for the month of October by Mr. John H. Jones evidently give us a reason why the advance was deemed impracticable. It will be remembered that the output for that month which had been originally fixed at 31 million tons was subsequently enlarged to 31 million tons, and this enlarged production the companies (as a whole) have closely followed, for the actual amount mined is given by Mr. Jones as 3,512,177 tons. This is only 49,989 tons below the production a year ago, and as during the month stocks at tidewater points were cut down 77,344 tons, the exhibit at first sight would appear to be very favorable. But last year with production 49,989 tons greater, stocks were cut down 154,291 tons. In other words, allowing for the changes in stocks, the amount gone into consumption mission would really accomplish something, the London in the month this year is seen to have been 126,936 tons less than in October last year. To be sure, that is con-

tember, but every month since the 1st of last July has recorded a lower consumption than for last year, and in view of the very glowing accounts current during October, the same result for that month is somewhat disappointing. Still it is not to be forgotten that both production and consumption were very large at this time in 1885, all the activity of the year having been crowded into the last four months. Moreover though consumption since the first of July has not kept up to the figures of 1885, yet in the early months there had been a heavy increase, so that the total for the ten months is full 800,-000 tons greater than in the same ten months last year. Furthermore, stocks now are much lower, namely 440,962 tons the 1st of November, 1886, against 661,616 tons at the same date in 1885, so that the trade is not without its satisfactory features. In tabular form the result is condensed as follows.

	Octo	ber.	Jan. 1 to Oct. 31.		
Anthracile Coal.	1886.	1895.	1886.	1885.	
Stock beginning of period	Tons. 518,306 3,512,177		Tons. 754,545 26,047,375		
Total supply	4,080,483 440,062		26,801,920 440,962		
Consumption	3,589,521	3,710,457	20,300,058	25,580,653	

The transactions in railroad bonds at the Stock Exchange have so greatly increased, both on speculative and investment account, that a record of prices and range since the first of January have become most desirable. To meet this want a new table has been compiled, occupying a full page of the CHRONICLE, and showing the closing prices of all active bonds on Friday of the present week compared with the week previous, and also the highest and lowest prices made at the Stock Exchange since January 1, and the months in which the extreme figures were reached. This table will be regularly published each week on the page immediately following the range of stock prices. Among the bonds that have been particularly prominent this week are the Texas & Pacifics, which advanced on reports of a possible agreement with the income bondholders on the arrival of Mr. Robert Fleming from the other side. There has been nothing new in speculation in share properties beyond the fact that more activity than of late has prevailed in the high-priced or better class of shares. The specialties have not been thrust aside; indeed some of them, and more particularly Richmond & West Point stock, have been more prominent than ever, but the attention has not been exclusively confined to these and Lake Shore and the other Vanderbilts, Chi. cago & Northwest and Milwaukee & St. Paul, have all participated in the upward movement. The events of the week comprise the recommendation of the Central Traffic Association for an advance in rates next month, the progress made in formula. ting a new plan for the reorganization of the Philadelphia & Reading and in promoting harmony between the Reading and Pennsylvania and the Pennsylvania and Baltimore & Ohio. Besides these, the Atlantic & Pacific scheme for reducing the interest on the 1st mortgage bonds, referred to by us last week, was definitely published this week and led to great activity in the stock that road and also in the income bonds. The strike of the pork packers at Chicago has been virtually ended by the men going back to work, thus removing that influence from the market. But Northwestern roads have had their operations somewhat interfered with by a severe storm of wind and snow that passed I coin, chiefly standard dollars.

over a large section of country. Returns of earnings for the second week of the month in the case of many leading roads are better than for the first week of the month, when, as is known, there was a decided improvement on the last week of October. The Illinois Central proposes to offer to stockholders the right to take one million new stock at 136 in January next.

The following statement, made up from returns collected by us, shows the week's receipts and shipments of gold and currency by the New York banks.

Week ending November 19, 1886.		Shipped by N. P. Banks.	Nst Interior Movsment.

Gold		25,000	Loss 25,000
Total gold and legal tenders	\$1,149,000	\$1,520,000	Loss \$371,000

The above shows the actual changes in the bank hold. ings of gold and currency caused by this movement to and from the interior. In addition to that movement the banks have lost \$200,000 through the operations of the Sub-Freasury and have gained \$1,650,000 by imports of gold. Adding these items to the above, we have the following which should indicate the total gain by the New York Clearing-House banks of gold and currency for the week covered by the bank statement to be issued to-day. It is always to be remembered, however, that the bank statement is a statement of averages for the week, whereas the figures below should reflect the actual change in the condition of the banks as between Friday of last week and Friday of this

Week ending November 19, 1886.	Into Banks.	Out of Banks.	Net Change in Bank Holdings.
Sanks' Interior Movement, as above	\$1,149,000	\$1,520,000	Loss. \$371,000
Sub-Treasury oper.and gold Import.	8,750,000	7,300,000	Gain. 1,450,000
Total gold and legal tenders	\$9,899,000	\$8,820,000	Galn \$1,070,000

The Bank of England gained £102,000 bullion during the week. This, as stated above, represents £59,000 net received from abroad, and £43,000 from the interior. The Bank of France lost 1,850,000 france gold and gained 4,575,000 francs silver, and the Bank of Germany, since the last report, shows an increase of 6,460,000 marks. The following indicates the amount of bullion in the principal European banks this week and at the corresponding date last year.

	Nov. 18	, 1886.	Nov. 19, 1885.		
	Gold.	Silver.	Gold.	Silver.	
		A	A	A	
Cank of England	20,118.595		20,929,637

Included in the above payments were \$7,5 00 in silver

THE BALTIMORE & OHIO REPORT.

The annual statement of the Baltimore & Ohio (covering the year ended September 30), will be studied with more than the ordinary interest. Within the year the company has opened its line to Philadelphia, and in the course of a few weeks expects to have the Schuylkill River East Side road (forming the connecting link with the Philadelphia & Reading) completed, and thus be able to carry business over its own route to New York. Moreover this week we have the announcement that the company is about to acquire an interest in a line of Lake steamers to ply between Ohio ports and Duluth on Lake Superior. With such evidence that the conservatism for which the management of the road is justly noted is not of the kind that invites decay or a cessation of activity and progress, the desire to see what kind of a statement the road is able to make is very naturally increased. Special interest in the year's results would have in any event been felt, since the twelve months covered by the report embrace a period of material improvement in trunk-line affairs, of some benefit to the Baltimore & Ohio, though for obvious reasons the company's business did not share in the improvement in full.

It may be that considering the higher rates in force, the exhibit though better than for the preceding twelve months does not come up to the expectations of the more sanguine, and for that reason a few words of explanation may not be inappropriate. In the first place, take the statement in President Garrett's report that the profit and loss account shows a surplus for the year of \$232,845. For 1884-5 this surplus was \$110,819, so that there has been an increase, and yet the increase hardly represents even the saving of one per cent in the dividends on the company's stock-the reduction was at the rate of two per cent per annum (from 10 to 8 per cent), but it only counted in one half-year period. The small gain in surplus therefore is rather disappointing, the more so that in the years immediately preceding the last two the surplus had been so very much heavier-close on to two millions in some of the years.

But it will not do to take this bald statement of the snr. plus account as a reliable indication of the degree of the company's progress and prosperity. We have no transcript of the income account for the year (that never appearing till much later), and thus are without the details necessary to a correct interpretation of the figures. There may have been some extraneous items to affect the result. Moreover, it is clear that there must have been an increase in the charge for interest, considering the new road built and new construction work done, and we are not at all sure that there may not have been a decrease also in the credits against interest. Besides all this, consider the difficulties under which the road has had to conduct its through busing ness to and from New York. Not having its own line to New York, it had to offer passengers as an inducement for taking the Baltimore & Ohio route to Chicago and making a transfer at Baltimore, a reduction of five dollars from the regular fare, and then had to pay the Pennsyl. vania full local rates for carrying such passengers between New York and Baltimore. Finally its arrangements on through freight were also upset, the Pennsylvania shutting In view of all these cirit off from its New York lines. cumstances, and the increase that has presumably occurred in the interest charge, the showing made on the surplus account is certainly not unsatisfactory.

There are, however, evidences of improvement of a can best see the various influences with who more positive kind when we come to the figures of traffic and earnings. It will perhaps surprise many to hear, that despite all the disadvantages under which the road labor despite all the disadvantages under the disadvanta

in competing for through business, its through merchandise (east and west) increased 392,972 tons during the year, reaching a larger total than ever before, while at the same time there was a recovery of some of the previous year's loss in the items of live stock, lumber and grain delivered at Baltimore. But it is not in these particulars that the expansion of the company's business and operations is most evident. It is rather in the matter of coal that the progress is specially manifest. The coal tonnage has been steadily gaining in all recent years, but in the late year the increase was simply extraordinary, and from a total of 6,400,746 tons in 1884-5, the total in 1885-6 leaped up to 7,430,367 tons, an addition of over a million tons. The increase extends to all divisions of the road, but is most conspicuous on the trans-Ohio divisions, where the ratio of gain is nearly 50 per cent. On these divisions as well as on the main stem, the increase has been almost uninterrupted year by year. On the Pittsburg division the amount of gain is largest of all, but it marks merely a recovery of the previous two years' loss, as the following table giving the traffic figures in full will show.

Looking now at the revenue accounts, we find this augmentation in traffic and tonnage reflected in the earnings. Some of the roads in the system do not give as good an account of themselves as was expected, but they are all such as would naturally feel the effects of the disarrangement of the company's through service, to which we have already referred, while the system as a whole certainly shows considerable improvement over the previous year in the case of both gross and net results. Gross earnings are up from \$16,616,642 to \$18,422,438, being an increase of over \$1,800,000, which is certainly considerable, though it does not bring the total up to the best figures of previous years. The gain, moreover, covers freight and passengers alike, the latter having contributed \$485,438 of the gain, and freight \$1,320,358. The net earnings are up from \$5,643,057 to \$6,386,695, or nearly three quarters of a million dollars, which confirms the remark above that the year's surplus alone does not offer a correct guide of the extent of the improvement in the company's income. If it be claimed that the gain in the net is hardly as great as the increase in the gross would seem to warrant, it should not be forgotten that there are reasons which would seem to explain the heavy increase in expenses. first place, the augmentation in the volume of traffic would of itself add considerably to the expense account. the disadvantages under which the through business had to be carried on would operate in the same direction, while as to the increase on certain special divisions, the greater prosperity which those divisions were enjoying would naturally tend to make the company more liberal in the use of earnings for betterments, improvements, &c. can best see the various influences with which the Baltimore & Ohio has had to contend, by arranging the earnings in such a way as to show each division separately for

net earnings on the Philadelphia Division.

This brings out sharply the contrast between the roads chiefly affected by the adverse circumstances with regard to through business and the roads only slightly or not at all affected by those circumstances. Thus the main stem, on which the gross earnings last year fell from 111 million dollars to \$9,700,000, or \$1,800,000, now shows a recovery of only a trifle over \$100,000, while the net earnings which had declined nearly \$1,300,000 have increased only \$56,000. Then the Chicago division, though it records a considerable increase in the gross earnings, exhibits scarcely any improvement in the net, and the inference is that by reason of the drawbacks referred to the expense account was greatly increased. The Pittsburg Division, too, has only a comparatively small increase, on a pretty heavy increase in the gross. Here coal is the main factor in the situation, but though the coal traffic on this division, as we have seen, greatly increased, the business of course had to be carried on in active competition with the Pennsylvania, and doubtless the margin of profit was not very large. Moreover the pooling of the bituminous coal interests, and the advance in rates to result from the same, is a comparatively recent occurrence, and did not figure in the late year's operations. On the other hand, on the lines in Ohio, where we may suppose the unfavorable conditions as to through business played only a minor part, the comparisons are very satisfactory, the Central Ohio, the Lake Erie, and the Newark Somerset & Straitsville divisions all showing large gains.

We think this analysis goes to prove that all things considering the Baltimore & Ohio has done well. The heavy

gain on the roads as a whole, in the face of the small improvement on the divisions affected by through business, is an illustration of the strength of the system. We may assume also that with a line of its own to New York, and with higher rates in prospect for bituminous coal, the outlook for the current year is very encouraging.

OREGON RAILWAY & NAVIGATION.

Rather tardily the report of the Oregon Navigation for the year ended June 30 has arrived, but it is especially opportune because of the proposed lease of the property by the Union Pacific, which has now assumed definite shape. Rumors of a lease either to the Northern Pacific, or to the Union Pacific, or to both combined, have been current so many times before that there is naturally much skepticism as to whether the present story has any more substantial basis than the others, but from all accounts it would seem that while the lease has not actually been signed and perfected, yet so much progress has been made in that direction as to warrant the belief that all obstacles have been overcome, and that a final closing up of the arrangement will not be much longer deferred. Indeed, President Elijah Smith states in his report that it is probable that an agreement with the Union Pacific will be concluded at an early day. It is understood that the lease is to be on the basis of 6 per cent dividends, and it seems to be believed that the way will be left open for the Northern Pacific to join in the arrangement if that company should desire.

The acquisition of the Oregon Navigation is probably a wise step on the part of the Union Pacific. It will give the latter a line under its own control to the Pacific, which cannot fail to strengthen the position of the system, and which perhaps was absolutely necessary to its continued prosperity. The Union Pacific can reach the Pacific Coast either over the Central Pacific or the Oregon Navigation, but as is well known the Central Pacific is in the control of parties antagonistic to the Union Pacific, and thus unavailable for a close alliance such as is required for profitable through traffic arrangements. In consequence the Union Pacific has to rely chiefly upon the Navigation route. If the managers could feel assured that that road would be maintained on a perfectly independent basis, interchanging traffic impartially with all connections, there would be little need for a lease; but for that purpose it is obviously no more to be depended on than the Central Pacific. With the Northern Pacific the case is different; that road will have its own outlet to the ocean as soon as the Cascade division is completed, and therefore can afford to regard with greater indifference a possible change of ownership of the Navigation Company. Still, it would probably conduce to greater harmony if the Northern Pacific could be made a party to the arrangement.

From a traffic standpoint therefore, the wisdom of the step by the Union Pacific can not be gainsaid. An equally important consideration, however, is the financial aspect of the matter. Will the guarantee of 6 per cent dividends on Navigation stock involve much of an outlay to the lessor or lessors? On that point the report just issued enables one to gain light. Let us say in the first place, however, that the company may be considered to have passed through its transition period. Very prosperous from the outset, its profits were yet almost wholly derived from the navition lines—river and ocean. But the cumbrous, slow and tedious process of transportation by boats had to be superseded by the more modern and more reliable means of transportation by rail, and gradually the latter was made to take the place of the former. This involved change, and with the change came doubts whether the prosperity of the company would continue. These doubts

have now in grest measure been removed. In the previous fiscal year it seemed for a time as if the company were undergoing a speedy decline, but that was a period of extraordinary local depression, of crop failure, and with winter weather of unparalleled severity and duration. As a result of these circumstances net earnings had fallen from \$2,482,575 to \$1,569,516, but for the late year we find them up again to \$2,561,490, or to the largest figures ever reached. How the company has changed its business from an almost exclusively water route to a railroad, can best be seen by stating the gross and net earnings by divisions as follows.

	1980-81.	1581-82.	1882-83.	1833-84.	1884-85.	1885-86.

^{· 11} months only.

l In 1891-82, 1892-83 and 1893-94, this covers the Oregonian narrowgauge roads, then operated; for 1884-85 and 1895-86 it covers the Commbia & Palouse road.

Thus the earnings of the River division, which in 1880-1 were over 21 million gross and over a million net, in the late year were only \$409,802 gross and \$35,202 net. On the other hand, the earnings of the Railroad division in the same interval have gone up from \$539,578 to \$3,925,-504 gross and from \$324,277 to \$2,068,489 net. In 1880-1 the Railroad lines contributed only \$324,277 out of \$1,666,862 total net; in 1885.6 they contributed (including the Columbia & Palouse road) no less than \$2,215,687 out of a total of \$2,564,490 net. In other words, the railroad business of the road has been firmly established, and now supplies almost the whole of the net profits of the company, which profits in the late year, as we have already pointed out, were the largest in the history of the enterprise, thus making it evident that in the railroad field, as in the navigation department, the efforts of the managers of the company have been attended with success.

But to what extent were these net earnings absorbed by interest, rentals, and other charges, and what did they leave for the atock? In brief, we may say that on the ordinary operations there was a surplus for the year of \$41,974 after paying dividends to the extent of $6\frac{1}{2}$ per cent on the 24 millions stock outstanding. If we take into account \$52,106 apent for replacing certain wooden bridges with iron ones, and erecting anow sheds on the Baker City line, we have, instead of the surplus given, a deficit of \$10,132. On that basis the result for the late year compares with the previous years as follows.

Foar Ended June 30.	Gross Earnings.	Total Income.	Expenses & Taxes.	Interest, Rentals & Sk. Fds	Distrurse-	Divi- dends.	Surplus or Descit.
	8	8			8	8	8
1993	5.077.174	5,128,706	2,612,541	557,503	18,601	1,294,000	+619,060
1963		5.185,680			7,500	1,584,000	+226,255
1984					95,015	1,800,000	-70,800
1996		4,221,021		769,843	2,500	1,080,000	-230,680
1895		6.661.745		847,099	68,301	1,560,000	-10,1×2

This shows that on the basis of six per cent dividends, calling for \$1,440,000, there would be a surplus above the amount required, on the operations of every one of these five years, except 1884-5, when for exceptional reasons the income of the property suffered a great reduction. It is also claimed that in the late year \$343,679 of the expenses were of a special or extra character, but we need hardly refer to that, as most of the items enumerated seem to be of a kind likely to occur again. With reference to the charges, however, it may be well to state that an increase over the amount required in the late year is to be anticipated. On the debt outstanding June 30, 1886, the annual charge is \$847,850, and sinking funds call for \$83,400 more, making \$931,250 together. In the late year the call for these two items was \$831,289, the amount having been smaller than it otherwise would have been by reason of the fact that in the purchase of the Columbia & Palouse road from the Oregon Trans-Continental in 1884 the latter paid two years' interest in advance on the bonds of the purchased road, and \$49,766 of this amount evidently counted in 1885-6. But the increase in the charge will not last beyond the current year, for on April 1, 1887, five millions of 7 per cent debentures mature, and as these will be replaced by the new consol fives, ensuring a saving of \$100,000 per annum, the charges will not be materially changed.

According to present appearances therefore a guarantee of six per cent dividends would seem to be on the basis of the leased property's earnings, and thus unlikely to entail much if any burden upon the lessee. Of course, with the completion of the Cascade division of the Northern Pacific, there will be two competitors for some of the traffic on which there is at present only one, and there will doubtless also be some further reduction of rates, but as that section of the country is in the infancy of its development we may suppose that any loss on those accounts will soon be made good by an expansion in the volume of business to be done.

RAILROAD EARNINGS.

Railroad earnings are again improving, and the statement below for the second week of November shows an increase of \$283,029 on the 29 roads reporting. This is not far from 9 per cent, the largest ratio of gain since the 1st week of October. Only four of the 29 roads show lower totals than a year ago, and three of these are situated in the Northwest. All the roads distinguished for heavy gains in the other recent weeks are still so distinguished, while some that previously recorded decreases now show increases.

Monetary Commercial English Aews

(From our own correspondent.)

London, Saturday, November 6, 1886.

Political affairs in Eastern Europe appear to be becoming more confused. The tortuous paths of Russian diplomacy are far from being made straight, and the prospect of the tangled threads of negotiations being speedily unravelled is as remote as ever, thanks to the provocative activity of General Kaulbars. All this is not favorable to a further improvement in trade, and yet it is satisfactory to know that politics do not now exercise the same influence they did. "Wolf" has been cried so often in connection with the Eastern question that it has been robbed of its terrors, making business much less sensitive to the news, alternately alarming and pacific, emanating from that quarter.

The expansion of commercial dealings is certainly more perceptible, notwithstanding some reactionary symptoms in the wool trade. No surprise can be felt at that circumstance when the rapidity and extent of the late advance are taken into consideration. What is of great importance is the stronger position now being occupied by the hardware industries. The returns of the Cleveland Ironmasters' Association, just issued for October, are more favorable than those for many a month past. The publication of these particular returns has been awaited with interest, and it is something to know that the anticipations formed respecting them have been realized. There is a reduction in stocks of 29,687 tons. Certainly the amount is considerably heavier than last year, namely, 690,735, against 413,609 tons, but with diminished production and an increasing demand a more equal balance should soon be struck. The reduction of stocks on the month is the more satisfactory as the actual make of pig iron during October was 1,679 tons more than in September. The shipments during October exceeded those of the preceding month by 7,174 tons. It is therefore very evident that the home demand for iron must have decidedly increased. The stocks at the present moment are 173,000 tons more than at the beginning of the year. Orders are, however, coming forward more freely, and a steady reduction of stocks seems promised. The Staffordshire iron works are very much better employed, and in many of the leading establishments full time until the end of the year is looked for. The shipping trade in the north also is in a better condition, and there is a general increase in the demand for freights. Altogether business is assuming a brighter aspect, and we are looking forward to the future with confidence.

Nothing special occurred in the money market during the week. Firmness has at times prevailed and occasionally bank rates have changed for both day-to-day loans and discounts. The close of the week has however witnessed some relaxation of firmness. Day-to-day loans are now obtainable at 21/2 to 3

per cent, and the discount rate for three months' bills has re ceded to 31% per cent. Still the prospect of dearer money be tween this and Christmas remains. The return of the heavy subscriptions to Guinness & Co. has increased floating balances but this is regarded as merely a temporary accession. Commercial requirements are steadily expanding and promise to become yet heavier. As there is no large surplus of capita available, an extension of the demand could not take place without very decidedly influencing values. As each Stock Exchange settlement comes round, we have very clear evidence of the growing scarcity of money. The weekly Bank of England return did not disclose any special changes. The Scotch demand for coin and the Autumnal expansion of the note circulation have combined to reduce the reserve by £484,276, and the proportion of reserve to liabilities has fallen from 41.47 to 38'7 per cent.

The rates for money have been as follows:

Messrs. Pixley & Abell write as follows on the state of the, bullion market:

Odd—The demand for India and America has been sufficient to absorb all arrivals in hars. The Bank has received £96,000 in sovereigns, and £50,000 have been taken for Lisbon. We have received £58,000 from Anstralia, £76,000 from West Indies and £5,000 from the Cape; total, £139,000. The P. & O. steamer has taken £25,000 to India. Silver has improved since our last week's quotation of 45°34, with a strong demand for the Continent; and the market not being very largely supplied, we give 46°3d, as the nearest quotation. The arrivals include £80,000 from Chili, £30,000 from West Indies and £20,000 from New York; total, £130,000. The P. & O. steamer has taken £52,000 to India.

York; total, £150,000. The Tree to the arrivals per Don and Mexican Dollars—The nusold portion of the arrivals per Don and Washington from West Indies was placed at 45d. per ounce. The arrivals comprise £165,000 from West Indies and £5,000 from New York. The P. & O. steamer has taken £24,000 to the East.

The quotations for bullion are reported as follows:

QOLD. London Standard.	Nov. 4.	Oct. 28.	SILVER. London Standard.	Nov. 4.	Oct. 28.

The Bank of England has received tenders for £2,280,000 Treasury Bills. The allotments were-in bills at 3 months £1,475,000 and six months £805,000. Tenders for bills at three months at £99 2s. will receive in full, and for hills at 6 months at £98 4s. 6, 32 per cent; above in full. The average rate for the three months' bills was £3 9s. 4½d. per cent, and for the six months £3 8s. 11d. per cent.

A new Chilian 41/2 per cent loan is announced by Messrs. N. M. Rothschild & Sons, the price of issue being 981/2 per cent, and the amount £6,200,000. The whole of the sum, with the exceptlon of £315,000, is for the conversion of the 1858, 1867 and 1870, 1871 and 1875 loans. The 1867 loan bears interest at the rate of 6 per cent, but the others at 5 per cent.

The company promoters are having a good time of it just The rush for gold mines has been rather checked hy the recent warning from Brisbane, and the shares of some of the undertakings have receded, though only fractionally. It is stated that one of the companies lately brought out was sold not long ago for £16,000. It was then disposed of for £70,000, and a few days after for £170,000, and eventually blossomed nto a full blown company with a capital of a quarter of a million pounds sterling. The success which attended the issue of Mesers, Guinness & Co's, prospectus has, it is rumoured led other brewing firms to consider the advisability of trans. ferring their business to public companies. The report now is that Messrs. Allsopp, the noted pale ale brewers, are likely to dispose of their business in this manner. The company mania s, in fact, permeating all branches of industry. among others we have the Hop Bitters Company, with a capital of £95,000, a small Advertising Agency, a Pressing and Ironing Machine Company, a Transformation Prints Company, a Chemical and Manure Company some half a dozen mining companies, besides the Chilian 41/2 per cent loan, of which only £315,000 in cash is required, and some Ottoman railway 5 pe: cent debentures for £300,000, issued at 81 per cent. will be seen that the intending investor has a rather bewilder. ing choice. The fresh capital creations for the week, presum-Ing that these companies go to allotment, is £2,37,0000.

In the grain trade at Mark Lane there has been no fresh Wheat has not lost its firmness. Seliers have still the advantage, but they have not succeeded in scoring any further improvement. Notwithstanding the recent recovery, the average price for the season so far is less by 3d. per qr. than it was last year, and apparently we are a long way from a substantial rise. Had there been any real life in the trade or any inclination to allow operations to exceed the bounds of current requirements, we might reasonably have expected that the past week would have witnessed a further distinct ha dening of values. The deliveries of home grown grain were sgain short, and appreciably less than last year. Since the commencement of the season the eales of home grown wheat have fallen short of last year by 135,000 qrs. At the same time the aggregate importations of foreign wheat and flour have declined some 222,000 cwts. Clearly, therefore, the markets have not been over-well supplied. millers are not inclined to hamper themselves with heavy stocks. It appears that many of them during the past season were heavy losers through buying rather freely during the earlier months, and as prices subsequently fell away they were ultimely compelled to part with a large portion of their purchases at prices materially below what they paid for them.

The following shows the imports of cereal produce into the United Kingdom during the first nine weeks of the

NATIONAL BANKS.—The following national banks have lately been organized:

ben organized:

3,586—The Citizens' National Bank of Sloux Falls, Dakota. Capital. \$10,000. Edward P. Beebe, President; Eben M. Hills, Cashler, 3,537—The Alabama National Bank of Birmingham, Ala. Capital, \$500,000. Joseph F. Johnston, President; John W. Read, Cashler.

3,588—The Towson National Bank, Maryland. Capital, \$50,000. John J. Cockey, President; John Crowther, Jr., Cashler.

3,589—The First National Bank of Lindsborg, Kansas. Capital, \$50,000. B. F. Duncan, President; John A. Severson, Cashler.

3,593—The First National Bank of Ashland, Wisconsin. Capital, \$50,000. Edwin Ellis, President; Walter R. Sulherland, Cashler.

IMPORTS AND EXPORTS FOR THE WEEK .- The imports of last week, compared with those of the preceding week, show an increase in both dry goods and general merchandise. The total imports were \$9,493,871, against \$8,400,207 the preceding week and \$8,415,904 two weeks previous. The exports for the week ended Nov. 16 amounted to \$8,257,493, against \$6,750,333 lasf week and \$6,700,753 two weeks previous. The following are the imports at New York for the week ending (for dry goods) Nov. 11 and for the week ending (for general merchandise) Nov. 12; also, totals since the beginning of the first week in January:

PORSIGN IMPOSTS AT NEW YORK.

For Week.	1883.	1884	1885	1886

Mexican National.—The recent agreement executed Oct. 15 by Mr. Smithers as representative of Matheson & Co. of London, and by Gen. Palmer of the Mexican National, has now been ratified by all parties, including the bondholders. The road has 489 miles completed on the north end and 406 at the south, with a gap of 370 miles between, and when all is finished it will make a line of 1,340 miles, including branches. The present mortgage is to be foreclosed and then—to provide money to complete the intervening gap of 370 miles between finished it will make a line of 1,340 miles, including branches. The present mortgage is to be foreclosed and then—to provide money to complete the intervening gap of 370 miles between the northern and southern divisions, a new first mortgage at 5 per cent of about \$9,000 per mile will be created over the whole property. This mortgage will suffice to complete the gap, enable the company to own its own equipment, and leave \$1,000,000 in the treasury for future requirements. The present bonds will form the next charge upon the property st about \$16,000 per mile (provision being made to increase it to \$25,000 per mile, but ouly to redeem the prior bonds by the additional issue), and these bonds are to be divided into two classes, A and B, say of about \$8,000 per mile each, bearing 6 per cent per annum interest, the interest upon the A bonds being cumulative and that upon the B bonds payable out of each year's income. The claims of the Mexican National Construction Company are to be settled by the creation of \$7,000,000 6 per cent income bonds, ranking next after the mortgage bonds now in existence. The \$33,000,000 of common stock will remain as it is, and will be admitted into the new company free from any assessment."

—Kiernan's on Thursday said: "The American bondholders of the Mexican National Railway have made some slight modifications, principal of which are, first, the nominstion of a purchasing committee, composed of Messrs. Albert Fink, Joseph D. Potts and Eckstein Norton; second, the right on the part of the railway company when reorganized to issue an additional \$1,000,000 of prior bonds in case they should be

the part of the railway company when reorganized to issue an additional \$1,000,000 of prior bonds in case they should be needed over the \$12,500,000 authorized in the original plan of the committee; third, determining the subsidy pledged as security for the new priors at the fixed sum of \$7,000,000."

—The card of Messrs, E. L. Oppenheim & Co. appears in to-day's CHRONICLE. This firm having already a large line of customers and every facility for business, invites the attention of parties who have occasion to buy or sell stocks and bonds.

-Mr. William O. Allison, 72 William Street, has issued a little pocket pamphlet on American Cotton Oil Trusts.

KNOXVILLE & OHIO RAILROAD FIRST MORTGAGE SIX PER CENT GOLD BONDS,

(DUE 1925.)

FIRST MORTGAGE SIX PER CENT GOLD BONDS,

(DUE 1925.)

INTEREST PAYABLE JANUARY & JULY.

At Central Trust Co. (Truslee), New York.

We offer, subject to sale, a limited amount of the above named bonds. These bonds are a first and only Mortgage on the Knoxville & Onio Railroad Company's properly,—a division of the East Tennessee Virginia & Georgia Railway, by which it makes convection for business with Cinclunati and Lonisville, and over which all the coal used by the East Tennessee Virginia & Georgia system, and supplied to the territory tributary to fifteen hundred miles of its line must pass. The main line of the Knoxville & Outo Ratinoan is sixty-seven miles in length; extending from Knoxville north to Jeilico, on the Knitacky State Line, where it connects with the Louisville & Nashville Railroad for Louisville, and with the Kentucky Contral for Cincinuati, forming the only line and the connecting liak between the Northwest and the cities of Louisville and Cincinnati, and the commercial centres of East Tennessee and points South and East.

Owing to the mountainous region traversed, this line was exceedingly expensive to build, and cannot be paralleled or its trade diverted except at an enormous outlay of money. The road was built with tunnels arch-d with stone, iron bridges and stone abutments over the streams, and the grades brought down to less than sixty-six feet, in order to so-commodate a large traffic. Over three and one-half millions (§3,500,-00) were spent by the old company in its construct made quipment to passes through a country unexcelled for coal and iron ore, which is being rapidly developed to supply the demands South and East, and owing to the superior quality of the coal will always furnish a large, increasing and profitable traffic. The mortgage to secure the \$2,000,000 of first mortgage six per cent bonds covers sixty-seven miles of main lin-, all side tracks and coal branches to the mines now in operation.

The Knoxville & Ohio Railroad is owned and operated by the East Tennessee Virginia

Leaving net revenue...... \$122,290 21 The gross and not earnings for the present fiscal year will be largely in excess of the above.

No better security has been offered to investors in this market at the price named.

Price 102 1-2 flat. These bonds are listed on the N. Y. Stock Exchange.

GRISWOLD & GILLETT,
Successors to Wayne Guiswold,
No. 2 Wall Street, New York.
[See annexed letter of General Samuel Thomas, President E. T. V. &
Ga. Rallway.]

Ga. Rallway.]

EAST TENNESSEE VIRGINIA & GEORGIA RAILWAY CO., Samuel Thomas, Pres't.

No. 10 WALL STREET,
NEW YORK. October 16, 1986.

MR. WAYNE GRISWOLD. 2 Wall Street, New York.

My Dear Sir—Your favor of October 14, making inquiries about the First Mortgage six per cent gold bonds of the Knoxville & Ohio Railroad Company, is received.

The Knoxville & Ohio Railroad is the line by which the East Tennessee Virginia & Georgia RR. makes connection with Louisville and Cincinnati at Jellico, near the State line. It is of vital importance to our system in giving us the control of the business from northern eities to ast Tennessee and points further south. The road was built through the mountain ranges at great cost, and while it is only seventy nites in length, about four million dollars was expended by the city of Knoxville, the counties through which it passes, and the present company, in its cons raction, It cannot be paralleled and occupies a commanding position for future growth, passing through and being the only line reaching the large and well-known Coul Creek coal field from which all the coal need by the East Tennessee Virginia & Georgia lines and by the people living in the sections reached by its traffic, must come. This traffic alone gives it a sufficient revenue to insure the payment of the interest on the bonds; but in addition to this the Knoxville, a number of miles of coal hranches, and equipment with which to do its business, all covered by this mortgage.

The East Tennessee Virginia & Georgia Railway Com-

able real estate in the City of Knoxville, a number of miles of coal branches, and equipment with which to do its business, all covered by this mortgage.

The East Tennessee Virginia & Georgia Railway Company could not afford to nave this property pass beyond its control, if its earthings we enot sufficient to meet its lixed charges. Its entrance to Knoxville, a city of twenty-five thousand inhabitants and the business crutre of East Tennessee, is so valuable that the road would be eagerly sought for by the Louisville & N shville or the Cincinnati Southern railroad companies, to gain access to the large business it controls. For this reason three-fourths of its Capital Stock was purchased by the East Tennessee Virginia & Georgia Company several years ago, and its management controlled by that company.

The property is able to carn the interest upon its First Mortg-gc Bonds from its net revenue, and has done so for the past two years, and from this year on must show a large surplus which will go to the credit of its owners, but if this was not the case the position of the road and its cost is such that the interest must be furni-her by its owners. These bonds are carried by the East Tennessee Virguia & Georgia Company as ao indebtedness on which interest must be paid, along with its inderlying divisional bonds, and is so stated in its reports. The earnings of the property are included in the reports of the gross earnings of the property are included in the reports of the gross earnings of the East Tennessee Virginia & Georgia Railway, and the affai s of the Company ananged as a part of the system of which I am Predden.

The bond about which you linquire is a clear first mortage bond upon all the Knowville & Oldo property, free from any complications, and legally executed, and is in my opinion a perfectly safe investment for parties who want a security which will give them no trouble and on which they will always receive their interest without delay.

Very truly yours,

(Signed)

Pres. E. Tenn. Va & Gu. Railway Co.

Pres. E. Tenn. Va & Gu. Railway Co.

Just refused par from two syndicates for \$700,000 of the \$1,100,000

Capital Stock of the Knoxville & Ohlo Road, and would not name a price at which they would sell.

The Bankers' Gazette.

DIVIDENDS.

The following dividends have recently been announced:

Name of Company.	Per Oent.	When Payable.	Books Closed, (Days inclusive.)				
Railroads, Chicago Burl. & Quincy	2	Nov. 18 Nov. 16	Nov. 24 to Nov. 30 Nov. 14 to —				
Miscellaneous, American Express. New York & Terms Land	3	Jan. 3	Dec. 14 to Jan. 3 Nov. 7 to				

WALL STREET, FRIDAY, November 19, 1886-5 P. M.

The Money Market and Financial Situation.-The week has been a favorable one in commercial and financial circles, excepting that the heavy storm in the West has done considerable damage and will hasten the close of inland navigation.

The great feature at the Stock Exchange is the unbounded confidence in properties that have never earned dividends-or, in other words, the readiness to buy at advancing prices the stocks of railroad companies that have scarcely been able, for years past, to pay their interest obligations, or have actually been sold out and reorganized. This indicates a buoyant speculative spirit as distinguished from an investment demand or even a conservative speculation based on an estimate of stock values.

In ordinary times, stocks are usually bought on a careful study of the past history of the respective companies, their earnings, income, dividends, etc. But when a period of extraordinary confidence in railroad properties comes around, once in a decade or oftener, the past counts for little, and the possibility of unlimited dividends in the future is easily talked up. The present time seems to be one of these periods of confidence, and it will be observed that the estimate of values put upon many stocks is based largely upon the assumption that they can do vastly better in the future than they have ever done in the

The open market rates for call loans during the week on stock and bond collaterals have ranged from 3 to 7 per cent, the usual rate to stockbrokers being 5@6 per cent; to-day the rates were 5@6 per cent. Prime commercial paper is quoted

at 51@61 per cent.

The Bank of England weekly statement on Thursday showed a gain in specie of £102,000, and the percentage of reserve to liabilities was 43 7-16, against 40 5-16 last week; the discount rate remains unchanged at 4 per cent. The Bank of France lost 1,850,000 francs in gold and gained 4,575,000 francs in silver.

The New York Clearing House banks, In their statement of November 13, showed an increase in surplus reserve of \$2,259,450, the total surplus being \$7,891,350, against \$5,632,900

the previous week.

The following table shows the changes from the previous week and a comparison with the two preceding years in the averages of the New York Clearing House banks:

Andrew 1	1886. Nov. 13.	Differnces fr're Previous Week.	1885. Nov. 14.	1854. Nov. 15.

Coins .- The following are quotations in gold for various coins : Coins,—Incitotiowing are questioned as a second and a second are questioned as a second as | Silver \(\frac{4}{2} \) and \(\frac{4}{2} \) = \(997_6 \) par. | Five france \(\text{Five france} \) = \(93 \) \(\text{\$\sigma} \) \(94_2 \) | Mexican dollars \(-80 \) \(\text{\$\sigma} \) = \(81 \) | Do uncommerc'1 \(-79_2 \) \(\text{\$\sigma} \) \(80 \) | Peruvian sole \(\text{\$\cdots \} \) \(-74_2 \) \(\text{\$\sigma} \) \(75_2 \) | English eliver \(\text{\$\cdots \} \) \(479 \) \(24 \) \(84 \) | U.S. trade dollars \(80 \) \(81 \) | U.S. allverdollars \(-99_2 \) \(20 \) \(100 \)

United States Bonds.—Government bonds continue to be lightly dealt in, and the market is still very dull. Prices have been variable, especially for the 4s, which were quoted one per cent lower than last week at one time, but subsequently recovered most of the decline.

The closing prices at the N. Y. Board have been as follows:

•	Interest Periods.		Nov. 15.	Nov. 16.	Nov. 17	Nov. 19.	Nov . 19.

* This is the price bid at the morning board; no sale was made.

State and Railroad Bonds.-State bonds have had only a moderate business and prices have not changed to any appreciable extent. The most active have been the Virginia deferred bonds, but even in these the business has been mod-

erate, the closing price being 131.

Railroad bonds have been conspicuous in the Stock Exchange transactions during the past week, the business being large and well distributed over the list. Many of the lower-priced and usually inactive bonds have been brought into prominence, including several classes of income bonds. The tone of the market has been decidedly strong, and most bonds have improved in price more or less, the advance in some cases being exists marked. improved in price more or less, the advance in some cases being quite marked. Among the leading specialties have been Columbus Hocking Valley & Toledo 5s, Fort Worth & Denver 1sts, Virginia Midland incomes, Shenandonh Valley bonds and Atlantic & Pacific incomes. The last-named have been very active and advanced quite sharply on the proposition to scale down the interest on A. & P. 1sts, the lower rate to be guaranteed by the Atchison and San Francisco companies. M. K. & T. bonds have also improved.

Rallroad and Miscellaneous Stocks.—The stock market continues to exhibit a decidedly firm tone, and while there has been no general advance the past week, prices have been strong as a rule, and a number of stocks have improved to a greater or less extent. The activity and wide fluctuations of certain specialties (which would formerly have been called "faucies"), continue to be a marked feature in the dealings, and many of them, especially the Southern stocks, have made further progress in an upward direction. The booming of these certainly has a considerable influence on the general market, but aside from this influence the tone is good and the tendency in the direction of higher prices. The influences which may be said to have a general application have been the settlement of the Rallroad and Miscellaneons Stocks.-The stock market to have a general application have been the settlement of the Chicago strike, the resumption of active foreign buying, and the reported increase of activity in the coal and iron business.

The most conspicuous of the special features has been Reading, various rumors and reports being circulated in regard to the revised plan of reorganization, under which the price advanced sharply. Another report stated that a conference had been held between Reading representatives on one side and Baltimore & Ohlo and Pennsylvania on the other, looking to an amicable arrangement for freight and other traffic. other coal stocks were affected somewhat in sympathy and have

been generally firm.

been generally firm.

The Southern stocks continue to advance, and some of them have been very actively dealt in. Richmond Terminal has been the leading one, and the other strong stocks of this class have been Louisville & Nashville, Memphia & Charleston, Nashville & Chattanooga, Louisville & New Albany and Norfolk & Western common and preferred. The grangers have been generally strong, especially Omaha, which has also been the most active. The Vanderbilts rose to some prominence late in the week, and advanced on favorable rumors about current earnings and probable dividends to be declared in Decemrent earnings and probable dividends to be declared in Decem-

To-day. Friday, there was a phenomenal activity in Richmond & West Point Terminal, which rose to 65 on immense sales and closed at the highest figure; the company was reported to have purchased more than enough of Richmond & Danville stock to control that company. The rest of the mar-

ket was tolerably active and strong.

PRICES OF STOCKS AT N. Y. STOCK EXCHANGE FOR WEEK ENDING NOV. 19, AND SINCE JAN. 1, 1886.

The Boston and Philadelphia banks will be found on p. 603.

Railroad Earnings.

The latest railroad earnings and the totals from Jan. 1 to latest date are given below. The statement includes the gross earnings of all railroads from which returns can be obtained. The columns under the heading "January 1 to latest date" furnish the gross earnings from January 1 to, and including, the period mentioned in the second column.

a For purposes of comparison, St. Louis & Cairo, now operated by the Mobile & Obio, is included in both years from and after the 1st of July.

b Figures of earnings for last year have been adjusted so as to make basis of comparison the same as this year.

c Not including earnings of New York Pennsylvania & Ohio.

¶ Including West Shore in 1886.

† Including since April, in 1886, the Utica & Black River Road.

† And branchos.

Investment

Railroad Intelligence.

The Investors' Supplement contains a complete exhibit of the Investors Supplement contains a complete exhibit of the Funded Debt of States and Cities and of the Stocks and Bonds of Railroads and other Companies. It is published on the last Saturday of every other month—viz., February, April, June, August, October and December, and is furnished without extra charge to all regular subscribers of the Chronicle. Extra copies are sold to subscribers of the Chronicle at 50 cents each, and to others at \$1 per copy.

ANNUAL REPORTS.

Baltimore & Ohio Railroad.

(For the year ending Sept. 30, 1886.)

The annual report of President Garrett was submitted at the annual meeting in Baltimore. An analysis of the figures of the report will be found in the editorial columns of the CHRONICLE, and the following are extracts from the report

The result of the operations of all divisions in the past two years is shown in the table below:

•	-Earnings,	1884-85	-Earnings,	1885-86.
	Gross.	Net.		
Main stem, etc	\$9,733,252	\$3,969,900	\$9,846,613	\$4,026,366

Totals...... \$16,616,612 \$5,643,057 \$18,422,437 \$6,386,694

"It is shown that the earnings of the main stem and the branches stated, in comparison with the fiscal year 1885, have increased \$113,361, and the working expenses have increased \$56,895, making a comparative increase of the net profits of

increased \$113,361, and the working expenses have increased \$56,895, making a comparative increase of the net profits of \$56,465.

"The expenses of working and keeping the roads and machinery in repair amounted to \$5,820,217, being 59:10 per cent upon the earnings, showing a decrease of 11-100ths of 1 per cent compared with the previous year.

"A semi-annual cash dividend of five per cent upon the capital stock was paid on the 2d of November, 1835, and of four per cent on the 17th of May, 1836.

"The profit and loss account shows an increase for the past fiscal year of \$232,845. It will be seen by this account that the surplus fund, which represents Invested c spital derived from net earnings, and which is not represented by either stock or bonds, now amounts to \$48,047,461.

"The payments for investments on account of the sinking funds for the redemption of the sterling loans due in 1895, 1902, 1910 and 1927, during the year amounted to \$642,600, which, at \$4 84 per poundsterling, make £132,763 15s. 2d.

"In accordance with the agreement with the City of Baltimore, the eleventh annual payment, namely, \$40,000 of the principal of the bond for one million dollars given for the purchase of the interest of the city in the Pittsburg & Connellsville Raliroad Company, has been made, thus reducing this obligation to \$560,000," a "

"The coal trade of the main stem shows an aggregate of 3,673,448 tons, which includes 489,361 tons for the company's supply. Of this quantity, that transported on the Pittsburg Division and 1,329,691 tons of coal on the Trans-Ohio divisions. The aggregate of coal and coke thus transported, including all divisions, was 7,430,367 tons, showing an increase for the year of 1,029,021 tons.

"It is shown by the report of the General Manager that the tonnage of through merchandise East and West has been 2,731,119 tons, while in the preceding year it was 2,333,147

"It is shown by the report of the General Manager that the tonnage of through merchandise East and West has been 2,731,119 tons, while in the preceding year it was 2,338,147 tons, showing an increase of 392,972 tons; 752,150 barrels of flour and 13,718,428 bushels of grain were brought to Baitimore during the fiscal year, being a decrease of 14,013 barrels of flour and an increase of 670,170 bushels of grain as compared with the preceding year. Of this aggregate of grain, 3,437,159 bushels were wheat, 9,474,275 bushels were corn and 684,168 bushels were oats, being an increase of 237,134 bushels of wheat, an increase of 1,000,416 bushels of corn and a decrease of 532,335 bushels of oats. In live stock the traffic has been 70,220 tons, an increase of 2,330 tons, and in lumber brought to Baltimore 92,831 tons, an increase of 6,271 tons.

"The tonnage of through merchandise east and west was:

Tons. Tons. Tons.

1876 1,09 4.393 18 12 2,013,227	

GENERAL REMARKS "The line between Baltimore and Philadelphia was opened for passenger and freight traffic on the 19th ultimo. The road is strictly first-class, being laid with ateel rails and stone ballasted. Commodious passenger stations and freight warehouses have been erected at many points, and at Newark and

Wilmington, Del., and Chester, Penn., handsome passenger stations of stone and brick are being built. At Twenty-fourth and Chestnut streets, Philadelphia, the main station is in course of erection. The structure will be substantial, ornate, and complete in all its appointments. The principal offices of the division will also be located in the main station. The Schuylkill River East Side Railroad, in the City of Philadelphia, is the connecting link between the Pniladelphia line and the system of the Philadelphia & Readiog Railroad Company. The work on this part of the route has necessarily been difficult and tedious, but its completion is anticiputed in the month of December, when passengers from New York will be carried, without change of cars, to Baltimore, Washington and all points on the system of the Baltimore & Ohio Company. The Delaware Branch Railroad, extending from a point on the line of the Schuylkill River East Side Railroad, is also nearing completion. By this branch the principal docks and large manufacturing establishments on the Delaware River will be reached.

"The increase in the earnings of the Baltimore & Ohio Telegraph Company for the fixed were ended Seatember 30.

will be reached.

"The increase in the earnings of the Baltimore & Ohio Telegraph Company for the fiscal year ended September 30, has been 172 per cent compared with 1894 and 41 25 per cent compared with 1895. In the midst of acute competition, the large and increasing patronage thus commanded demonstrates the strength of the company and the value and efficiency of its service. The fact that the Telegraph Company, in addition to its value in facilitating the varied business operations of the Railroad Company, has not only paid to that Company the agreed annual rental for the use of the wires on its railroads not needed for railroad purposes, but has also shown a satisfactory net earning capacity, fully vindicates the wisdom of the Board in establishing its telegraph system. The poles and wires of the entire system have been maintained and improved during the year, and extensions continue to be made from time to time to meet the requirements of the public and the growing business of the Company.

the growing business of the Company.

East Tennesses Virginia & Georgia Railroad. (For the year ending June 30, 1888.)

A map of this company's extended lines is regularly published in the Investors' Supplement.

lished in the Investors' Supplement.

The annual report for the year ending June 30, 1886, has just been issued. The road was operated during that year by Mr. Henry Fink, Receiver, and his report says:

"The East Tennessee Virginia & Georgia Railroad was sold at public auction at Knoxville on the 25th day of May, 1886, the sale was confirmed by the Court on the 28th day of June, 1886, and on the 30th day of June, 1886, in obedience to a decree of your honorable Court, I surrendered possession of all the property which came to my hands as Receiver and delivered the same to the purchasers thereof."

"On June 1st, 1886, the gauge of the East Tennessee, Alabama and Georgia divisions was changed from 5 feet to 4 feet 9 inches, the Meridian, Selma and North Carolina divisions naving been changed previously on the 20th of April and 25th and 29th of May, respectively."

"A presenter of the steak of the Maynetic & Charlestee Divisions and North Carolina divisions having been changed previously on the 20th of April and 25th and 29th of May, respectively."

changed previously on the 20th of April and 25th and 29th of May, respectively."

"A majority of the atock of the Memphis & Charleston Railroad Co. and other securities were acquired by the East Tennessee Virginia & Georgia Railroad Co., in the settlement of its account with the Knoxville & Ohio Railroad Co. By order of the Court, this settlement was made direct between these two companies; and the Memphis & Charleston stock, together with other securities, received by the East Tennessee Virginia & Georgia Railroad Co., in payment of its accounts against the Knoxville & Ohio Railroad Co., has been deposited with the Central Trust Co., of New York, subject to the company's consolidated mortgage."

The following statistics for two years have been compiled

The following statistics for two years have been compiled

The above statistics include the Knoxville & Ohio Railroad, the earnings of which were \$341,287 gross; operating expenses, \$218,906; and net earnings, \$122,006.

Boston & Providence Raliroad. (For the year ending Sept. 30, 1886).

The report comments on the fact that such large reductions have been made in fares that while the increase in the number of passengers carried in 1886 was 76 per cent over 1876, the increase of gross receipts was but 24 per cent.

The net earnings increased \$24,460 in 1885.6 over the previous year; a dividend of 8½ per cent was paid, and the balance to credit of profit and loss was \$38,164.

The earnings, expenses and income account for four years bave been as follows:

Mobile & Ohio Rallroad.

(For the year ending June 30, 1896.)

Mobile & Ohio Rallroad.

(For the year ending June 30, 1896.)

The report of Mr. W. Butler Duncan, President, shows that the total length of road and branches owned and operated is 688 miles. The St. Louis & Cairo Railroad (151.6) and the Millstadt Branch (9) have been operated by the Mobile & Ohio Railroad Co. since February 1st, 1886; and the Columbus (14) and Starkville (11) branches of the Mobile & Ohio Railroad have teen operated by the Georgia Pacific Railway Co. since December 1, 1885. The total length of road, including branches, operated by the Mobile & Ohio Railroad Co. at the close of the fiscal year (June 30th, 1886) was 662.6 miles.

By 1he agreement with the St. Louis & Cairo Railroad the M. & O. becomes a complete North and South trunk line between the cities of Mobile, Als., and St. Louis, Mo. This is a most important gain for the M. & O., and much is expected from it. But through trains on standard gauge track were not run till November, 1886, and therefore the benefits of the new connection are not shown in the earnings of the year ending 30th of June last. On February 1st, 1886, the Mobile & Ohio Railroad Co. entered into possession of the road and property of the St. Louis & Cairo, and assumed its operation from and after that date. By this agreement, which expires in 1931, the Mobile & Ohio agrees to operate the St. L. & C. road as part of a through line, and to pay therefor to the St. Louis & Cairo Railroad Co. the sum of \$85,000 on the 1st day of January, 1887, and thereafter twenty-five per cent of fifteen sixty-fourths of the total revenue and receipts of all kinds and from all sources of the railroad from Mobile to East St. Louis, subject to certain conditions; and it is further agreed that the said 25 per cent shall, in each and every year, amount to \$165,000, of which \$160,000 shall be applied to the payment of interest at 4 per cent upon \$4,000,000 of the bonds of the St. Louis & Cairo Railroad, the coupons of which are guaranteed by the Mobile & Ohio. The agreement also provided th

1886, standard gauge cars ran over the whole of the M. & O. system.

Mr. Duncan remarks of the year's traffic: "The tonnage moved exceeded the movement of the previous years, both in volume and in ton-miles, but with a large decrease in the revenue derived therefrom; the increase in the movement, notwithstanding the largely diminished local traffic, is due to a large increase in through and competitive business, which latter is mainly of a very low class of freight, and the same causes affect the revenue in the reverse to the tonnage. The cotton movement movement was about the same as the previous year, both in volume and revenue. The coal movement increased somewhat, both in tons moved and revenue. The development of the Western Alabama coal fields is comparatively a new thing, and while there is great energy and enterdevelopment of the Western Alabama coal helds is comparitively a new thing, and while there is great energy and enterprise being given to it, it will take time to produce practical results, both in the production of the coal and the finding and developing of markets for its use. In addition to the absurd competition among railroads themselves, the tendency to reduce rates upon all business has continued, and the struggle is particularly oppressive in the South."

The statistics of earnings, expenses, etc., for four years, are compiled for the Chronicle as follows:

New York Ontarlo & Western.

(For the year ending Sept. 30, 1886.)

A brief preliminary report for the late fiscal year states that the floating debt has all been paid and only \$73,000 of preferred stock remains to be exchanged.

The whole of the main line has been completed with steel

rails. During the three months, Oct.-Dec. 1885, the road was worked under the former lease to the West Shore, which ceased on Jan. 1, 1886, but the report says: "The subsequent working of your property during the nine months ending September demonstrates that a much better net result is obtainable by operating the company's railway under the contions now existing. The following is a summary of the gross and net earnings and obligations for the fiscal year:

	and not carried and	
ŧ	Gross earnings	\$1,492,851
	Working expenses including taxes	1.270.851
	WOTKING Expenses including toxes	
	Not constant	\$221,999

108,511 \$113.487

This surplus, the report says, is available to meet bond interest, or for improvements of the property.

The Utica Clinton & Binghamton and Rome & Clinton railways have been leased on favorable terms to this company, and their operation since the 1st of June last has resulted in a small profit, which will be carried to the credit of next year's revenue. Giving access, as these lines do, to the important towns of Utica and Rome, and to lines north and west, they will be of material benefit to the traffic of this Company.

Oregon Railway & Navlgation Company. (For the year ending June 30, 1886)

The annual report is published at a late date and loses much of its interest for that reason. The report says of the traffic:

"The incresse in gross earnings amounts to 35 9-10 per cent, and in net earnings to 63 4-10 per cent, both so unusually large as to be worthy of explanation. During the year 1834 and the first seven months of 1885, the country tributary to the lines of the Oregon Railway-& Navigation Co. passed through a severe business depression. The stoppage of construction of every kind in the early part of 1884, cutting off the expenditure of nearly \$7,000,000 per annum drawn from the East by various companies, and the large depreciation and burden of heavy interest charges on the stocks of goods purchased and carried in anticipation of the immediate and active development of the country, after the completion of the transcontinental lines, were the causes of a severe contraction; and when this was followed by a small crop in 1884-5 with the lowest price for wheat known in 30 years experience, the consequences upon the commercial and agricultural interests were very depressing, and it is worthy of remark, as an instance of the real resources of the country and the stability of its mercantile business, that the depression was so short, and occasioned so few failures. While it lasted the transportation companies were direct and heavy sufferers, and the low earnings of 1884-5 are an instance of how severely this company was affected. The crop of 1885 was a large one, both in acreage and yield, and the outlook for the present year for large crops and heavy immigration is very bright."

"During the past year the consolidated 5 per cent mortgage was perfected, and up to the end of the year \$3,625,000 of the bonds have been issued and applied as follows:

Retiring \$1,000,000 unsold debenture bonds pledged as collateral for floatlog debt.

\$1,000,000 Rettring \$1,200,000 of sorip bearing 8 per cent lateral

Issued, but unsold.....

"The \$1,000,000 unsold debentures have been canceled, and the floating debt entirely paid. The scrip has been paid, with the exception of \$39,670 which has not been presented. The annual saving of interest on the scrip retired will amount to about \$36,000. The bonds have been sold at very satisfactory prices and now command a premium. It will be necessary, on the 1st of April, 1887, to provide for \$5,000,000 debenture bonds, which fall due on that date." [To meet this, \$5,000,000 of consolidated bonds have recently been sold.]

"A settlement of the claim against Henry Villard was made during the year, the company releasing its claim upon the house on Madison Avenue, and accepting \$200,000 in full settlement of the account. The suit of Ervin et al. against the

company was decided adversely in the District Court, but has been appealed. On the basis of the decision of the District Court the entire liability of the company would be about \$300,000, of which over \$120,000 is already provided for.

" OREGONIAN RAILWAY.

"Judgments for three more instalments of rental have been "Judgments for three more instalments of rental have been rendered against this company in the suit of the Oregonian Railway Company, in the U. S. District Court for Oregon, the amounts being in gross about \$210,000. These cases have been appealed to the U. S. Supreme Court, and in view of recent decision of that court, covering materially the same points at issue, our attorneys have the strongest confidence that the decisions of the lower Court will be reversed."

Comparative statistics for four years, compiled for the Chronicle, have been as follows:

^{*}Adding bonds retired by sinking fund during the year makes surplus \$63,000 larger than here given. t Deducting \$91,000 for depreciation of steamers leaves a d-flet for the year of \$70,300. ;52,106 was spent for betterments, etc., leaving a deficit of \$10,132.

GENERAL INVESTMENT NEWS.

Atlantic & Pacific.—The advertised plan for the exchange of bonds for a new guaranteed four per cent issue will be found in the usual column. Detailed reference was made editorially to the proposition in the last issue of the Chronicle. Five millions of the bonds held in the United States are reported as having already assented, the persuading causes being the 25 years' extension of the new bond and the guarantee by two strong companies. The old bonds are to be held in trust as an additional security. tee by two strong companies. The in trust as an additional security.

Boston & Maine—Fitchburg.—The following abstract of operations for the years ending Sept. 30, is from the returns to the Massachusetts Railroad Commissioners.

N. Y. Stock Exchange,—The Delaware & Hudson Canal Company applied to the Stock Exchange to list \$1,000,000 new stock issued to retire bonds of the Union Coal Company, falling due Jan. 1, 1887.

The Toledo Ann Arbor & North Michigan Railway Company

asks the Stock Exchange to list \$2,120,000 first mortgage 6 per cent gold bonds.

The Buff. N. Y. & Phil. RR. applies to list certificates of deposit issued by the Bank of Republic representing \$7,000,000 5 per cent consolidated bonds and \$3,200,000 6 per cent. general mort, bonds.

The Chie Mil & St. Paul applies to list \$300,000 additional

The Chic. Mil. & St. Paul applies to list \$300,000 additional 5 per cent terminal bonds.

The Denver & Rio Grande applies to list its securities under

the plan of reorganization.

Oregon Railway & Navlgation—Union Pacific.—The lease of the Oregon Railway & Navigation Company to the Union Pacific Railway Company has been agreed upon. Elijah Smith, President of the Oregon Company, said that the lease was now simply a matter for the lawyers because the terms had been virtually arranged. A few details of minor importance were left to be arranged, but there was no doubt of the final execution of the lease. It is understood that the minimum rental is 6 per cent a year on the stock of the Oregon Company and that a division of earnings in excess of that amount may be provided. No definite action on the Oregon Company and that a division of earnings in excess of that amount may be provided. No definite action on the latter point was taken by the conference committees, although President Adams of the Union Pacific offered to agree to a division if the minimum rental should be reduced to 5 per cent a year. A provision was made for the building of branch lines by the Oregon & Trans Continental Company, which owns the controlling interest in the Oregon Company. the controlling interest in the Oregon Company.

Petersburg Railroad.—The annual report for the year ending September 30 shows gross revenue of \$359,596; expenses \$198,662; net earnings \$160,934; interest and guaranteed dividends \$115,720; surplus \$45,214.

Railroads In New York State.—The following reports for the quarter ending September 30 have been made to the Railroad Commissioners:

Richmond & West Point Terminal.—The meeting in Richmond Nov. 19 for the election of directors was postponed, and it was reported on apparently good authority that this company had purchased 25,000 shares of Richmond and Danville Railroad stock, giving it control of that company. It is now concluded that all interests will be united and the most made of both properties: The price reported as paid for part or all of the 25,000 shares was 230.

—It is now reported that there will be no fight at the meeting for the election of new directors of the Richmond & West Point Terminal Company at Richmond the latter part

of this week, and that Mr. Alfred Sully will be chosen president of the company.

St. Louis Arkansas & Texas.—The Philadelphia Inquirer reports: At a meeting of the stockholders of this Co., in Texarkana, it was voted to increase the capital \$13,000 per mile for the extension of the road to Sherman.

St. Louis & San Francisco.—This company has given notice that a new line has been completed between Arkansas City, Kan., and Caldwell, in the same State, which has been leased by the St. L. & S. F.

Sonthern Pacific Company.—The following is a comparative statement of the earnings, expenses and fixed charges of this company for September, and from Jan. 1 to Sept. 30. The total mileage is 4,780, against 4,697 last year.

United Lines Tel, Co.—In the United States Circuit Court in Philadelphia, Clinton P. Farrell of New York was appointed Receiver of the Bankers' & Merchants' Telegraph Company.

Valley Railroad (Va.).—The annual report for the year ending September 30 shows gross earnings of \$125,667 against \$129,709 in 1884-5; net earnings \$37,303, against \$45,421 in 1884-5.

Wabash St. Louis & Pacific.—The Omaha division of the St. Louis Kansas City & Northern road is advertised for sale on December 28.

The Council Bluffs & St. Louis road is to be sold at the same time; and also the Clarinda Branch of the St. L. K. C. & N.,

and the Clarinda & St. Louis Railroad.

—Judge Gresham in the Uni'ed'States Circuit Court at Chicago, heard the concluding arguments on the motions for separate receivers for the Wabash lines east of the Mississippi. He remarked that the purchasing committee should fulfil the terms of their bid for the property and pay into Court the \$4,000,000 for the wiping out of the receivers' indebtedness. Such a course might induce him to consider the propriety of delaying any change in the receivership. Decision was reserved.

Wabash St. Louis & Pacific—Indianapolis Peru & Chicago.—At Indianapolis, Ind., Nov. 13, the Indianapolis Peru & Chicago Railroad, extending from Indianapolis to Michigan City, was sold at public auction under decree of foreclosure. The first division, from Indianapolis to Peru, was purchased for the bondholders at \$850,000. The second division, extending from Laporte to Peru, brought \$501,000, and was also purchased for the bondholders of that division. The third division, extending from Laporte to Michigan City, eighteen miles, was purchased at \$155,000 for the bondholders who secured the first division. The sale included all the belongings of the several divisions, the docks at Michigan City being ings of the several divisions, the docks at Michigan City being also included.

—Attention is called to the Knoxville & Ohio Railroad Company's 1st mortgage 6 per cent gold bonds, due 1925, offered n this city by Messrs. Griswold & Gillett. This road is owned and operated by the East Tennessee Virginia & Georgia Railroad Company, and is practically a part of the system, contributing a large tonnage, which is transported by the latter to all the important points which it reaches. These bonds are a first and only lien on the property, which shows by its latest figures ample revenue to meet all charges. Messrs. Griswold & Gillett, we are informed, have already a large demand from careful investors and trust funds for these bonds, and at the present time, when 6 per cent gold bonds are getting scarce, this issue is worthy of the attention of bond buyers.

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, Nov. 19, 1886.

There have been heavy storms in nearly all parts of the country, slightly impeding railroad transportation, and in the trans-Mississippi region the temperature fell very low, but no serious injury is reported from any quarter. The strike at Chicago terminated in the workingmen abandoning their demand that eight hours be accepted for a day's work; and there is now no serious labor trouble except that involving the knit goods workers at Cohoes and vicinity in this State, although rumors abound regarding intended strikes. General trade has been only moderate, while speculative circles were feverish, the week showing few changes of moment in values. Chester Alan Arthur, late President of the United States, and one of the most capable and high-minded of the eminent men who have held that exalted position, died on Thursday morning.

The apeculation in lard futures was sluggish at weakening prices until yeaterday, when there was a revival of activity and some recovery in values, due mainly to a general revival of speculative confidence, and to-day there was a very strong opening, but a quiet closing. Lard on the spot has been somewhat inactive, but closes steady at 6.10c. for prime city, 6.221/2 26.27%c. for prime to choice Western, 6.60c. for refined for the Continent and 6.90c. for refined for South America.

DAILY CLOSING PRICES OF LARD FUTURES. Saturd'y, Mond'y, Tuesd'y, Wedne'y, Thursd'y.

Nov.delivery... 6:23 6:22 6:22 6:21 6:23

Dec'mb'r" 6:22 6:22 6:21 6:20 6:23

February 6:35 6:34 6:34 6:33 6:36

March 6:42 6:42 6:41 6:41 6:44

April 6:50 6·23 6·29 6·36

Pork has been firm, but rather quiet at \$10 50@10 75 for new mess, \$10@\$10 25 for extra prime and \$14 50@\$15 25 for clear. Cut meats more active at better prices: pickled bellies 6%@71/c., hims 9@91/c. and shoulders 51/25/c.; smoked hams 10.3101/c. and shoulders 65/c. Beef is ateady at \$8@ \$8 50 for extra mess and \$8 50@\$0 for packet per bbl. and \$15@\$17 for India mess per tierce, with beef hams nominal at \$17 50.4\$18 per bbl. Tallow is firm at 41/2c., but the demand is less urgent. Stravine is firm at 71/4c, and oleomargarine is quoted at 61/4c. Butter is in moderate supply at 20/20 30c, for creamery. Cheese is steady at 101/20121/2c. for State factory and 61/20101/2c. for ekims. The following is a comparative summary of aggregate exports from Nov. 1 to Nov. 18:

1863. 2,303,000 22,950,547 16,791,155 447,600 8,541,675 6,215,891

The epeculation in Rio coffee has been feverishly active with values taking a higher range, but fluctuating widely under the varying phases of reports from Havre and Rio. To-day there was an active but variable market, closing with sellers of the active months at 11:30c. Coffee on the spot is decidedly higher, and dealings have been large to the regular trade, and fair cargoes of Rio close firm at 12%@13c., the sales to-day including 11,500 bags at from 11%c. for No. 7 to 12%c. for No. 4.

to 12½c. for No. 4.

Kentucky tobacco has been fairly active at unchanged prices. The sales for the week are 400 hids., of which 350 were forexport. Seed leaf has been much quieter, and sales for the week are only 1,130 cases, as follows: 250 cases 1831-82-83 crops Pennsylvania 10@15c.; 100 cases 1881 crop, do., private terms; 190 cases 1855 crop, do., 9@15c.; 150 cases 1885 crop, Pennsylvania Havana seed, 9@16c.; 100 cases 1885 crop, Wiscousin Havana, private terms; 100 cases 1885 crop, New England Havana 19@29c.; 100 cases 1885 crop, Ohio, private terms, and 150 cases sundries 7@28c.; also 350 bales Havana, 60@\$105, and 200 bales Sumatra \$1 25@\$1 50.

The ajeculation for the rise in crude petroleum certificates culminated on Wednesday, when a fraction above 77c. was reached. Values have since been variable and the close this afternoon was dull at 75½@75½c. per btl., with crude in shipping order quoted at 65@65½c. per gallon, refined in bbls. 7c., and naphtha 8½c. Spirita turpentine rose to 37c. and receded to 36½c.

7c., and naphtha 84c.. Spirita turpentine rose to 37c. and receded to 364c.

The speculation in block tin was more active at times at better prices, and the close is at 22.55c. for Dec, and 22.65c. for prompt shipment. Measures have been adopted looking to a reduction in the output of ingot copper, but the close is without decided advance and Lake is quoted at 12c.

Ocean freights have been rather quiet, especially in grain shipments, owing to the scarcity of room offering, which favors the maintenance of full rates; quoted to-day at 4%d. to Liverpoot, 5%d. to New Castle, 8s. 9d. per quarter to Cork for orders. Business in petroleum charters has been fair for cases to Asiatic ports. cases to Asiatic ports.

COTTON.

FRIDAY, P. M., Nov. 19, 1886.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening (Nov. 19), the total receipts have reached 268,596 bales, against 273,550 bales last week 271,665 bales the previous week and 258,483 bales three weeks since; making the total receipts since the 1st of September, 1886, 2,157,612 bales, against 2,165,357 bales for the same period of 1885, showing a decrease since September 1, 1886, of 7,745 bales.

In the market for cotton for future delivery dealings were active at buoyant values during Saturday and Monday. The generally favorable character of European advices-including a dearer Liverpool and an active Manchester market and the more peaceful aspect of Bulgarian politics—all imparted some confidence to the bull party, and by alarming the "shorts" gave rise to a demand which carried values to more than thirty points above recent inside figures. There was much "covering" for account of Southern operators. Then came sales to realize profits, under which there was a decline and a very feverish and unsettled market, which continued throughout Wednesday and Thursday. To-day the market opened on some advance on the reduced crop movement, soon relapsed into dulness, but as compared with last Friday closed a few points dearer. Cotton on the spot sold to some extent for export, but remained quiet with the chief demand for home consumption. To-day the market was quiet at 9 3-16c. for modling uplands.

The total sales for forward delivery for the week are 535,100 bales. For immediate delivery the total sales foot up this week 2,531 bales, including 450 for export, 2,081 for consumption, - for speculation and - in transit. Of the above, - bales were to arrive. The following are the official quotations for each day of the past week.

The imports into Continental ports this week have been 65,000 bales.

The above figures indicate an increase in the cotton in sight to-night of 30,710 bales as compared with the same date of 1985, a decrease of 95,336 bales as compared with the corresponding date of 1884 and a decrease of 289,903 bales as ponding date of 1 compared with 1883.

At the interior Towns the movement—that is the receipts to the week and since Sept. 1, the shipments for the week, and the stocks to-night, and the same items for the corresponding period of 1885—is set out in detail in the following statement.

This year's figures estimated.

The above totals show that the old interior stocks have increase i during the week 17,819 bales and are to-night 27,476 bales more than at the same period last year. The receipts at the same towns have been 12,462 bales less than the same

week last year, and since September 1 the receipts at all the tawns are 27,096 bales more than for the same time in 1885.

QUOTATIONS FOR MIDDLING COTTON AT OTHER MARKETS.—
I the table below we give the closing quotations of middling cotton at Southern and other principal cotton markets for each day of the past week.

RECEIPTS FROM THE PLANTATIONS.—The following table indicates the actual movement each week from the plantations. The figures do not include overland receipts nor Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

		Receip	Receipts at the Ports.			St'k at Interior Towns.			Recipis from Plantine		
Bn	ding-	1884.	1885.	1886.	1884.	1885.	1886.	1884.	1885.	1886.

Nov.	5	257,041	274,423	271,665	171,194	238,814	279,484	275,979	924.579	322,35	
16	19	269,114	232,061	273,550	192,970	279,031	317,697	298,088	255,345	311.56	
**	19										

The above statement shows—1. That the total receipts from the plantations since September 1, 1886, are 2,446,732 bales; in 1885 were 2,458,763 bales; in 1884 were 2,433,033 bales.

2. That, although the receipts at the outports the past week were 265,596 bales, the actual movement from plantations was 288,079 bales, the balance going to increase the stocks at the interior towns. Last year the receipts from the plantations for the same week were 299,751 bales and for 1884 they were 289,343 bales.

AMOUNT OF COTTON IN SIGHT NOV. 19.—In the table below we give the receipts from plantations in another form, and add to them the net overland movement to Nov. 1, and also the takings by Southern spinners to the same date, so as to give substantially the amount of cotton now in sight.

	1886.	1885.	1884.	1893.
Receipts at the ports to Nov. 19 Interior stocks on Nov. 19 in	2,157,612	2,165,357	2,220,739	2,198,099
excess of September 1	289,120	293,411	212,324	310,592
Tot, receipts from planta'tns Net overland to Nov. 1 Southern consumpt'n to Nov. 1	2,446,732 120,086 68,000	2,458,763 153,156 60,000	98,274	126,859
Total in eight Nov. 19	2,634,618	2,671,924	2,591,337	2,694,550
Northern epinnere' takinge to Nov. 19	444,839	474,500	391,355	523,452

If will be seen by the above that the decrease in amount in sight to-night, as compared with last year, is 37.106 hales, the increase as compared with 1884 is 53,461 bales and the decrease from 1883 is 59,732 bales.

Weather Reports by Telegraph.—Our advices by telegraph to-night indicate that the temperature has been low at the South during the week, and that in some sections rather heavy rains have interfered with crop gathering. Killing frost and ice are reported in most localities, and at Nashville the first snow of the season fell on Wednesday. At many points picking is nearly finished.

**Galveston*, Texas*.—It has rained on five days of the week, the rainfall reaching one inch and six hundredths. There has been killing frost and ice on one night. The thermometer has averaged 53, the highest being 75 and the lowest 35.

**Palestine*, Texas*.—We have had rain on two days of the week, the rainfall reaching eleven hundredths of an inch. Killing frost and ice on three nights. The thermometer has averaged 47, ranging from 27 to 63.

New Orleans, Louisiana.—It has rained on three days of the week, the rainfall reaching one inch and five hundredths.

The thermometer has averaged 60.

The thermometer has averaged 60.

Shreeport, Louisiana.—Telegram not received.

Columbus, Mississippi.—It has rained heavily on two days of the week, the rainfall reaching four inches and ten hundredths. Picking is virtually finished. The thermometer has averaged 46, the highest being 64 and the lewest 26.

Letand, Mississippi.—It has rained on two days of the week, the rainfall reaching one inch and fifty-four hundredths. The thermometer has averaged 47.9, ranging from 27 to 70.

Greenville, Mississippi.—About seven eighths of the crop has been picked. The crop is shorter than was anticipated. Ice formed on two nights of the week. The thermometer has ranged from 30 to 55.

ranged from 30 to 55.

Clarksdale, Mississippi.—We are having too much rain, it having fallen on three days of the week, interfering with picking. The rainfall reacned one inch and eighty-four hundling.

redths. Ice formed on two nights of the week in this vicinity. About two thirds of the crop has been picked and is being freely marketed. Average thermometer 43.2, highest 72 and lowest 27

lowest 27.

Little Rock, Arkansas.—Telegram not received.

Helena, Arkansas.—We have had rain on two days of the week, the rainfall reaching one inch and eighty hundredths. The weather has been too cold for picking, and the rain has also caused interruption, but over two-thirds of the crop has been gathered and is being marketed freely. The thermometer has averaged 37, ranging from 28 to 68.

Nashville, Tennessee.—It has rained on five days of the week, the rainfall reaching two inches and thirty-seven hundredths. Snow fell here on the night of the seventeenth—the first of the season. Average thermometer 42, highest 65 and lowest 24.

lowest 24.

Mobile, Alabama.—It has been showery on two days and has rained severely on one day of the week, the rainfall reaching one inch and forty-five hundredths. Killing frost on Wednesday night. The tributary rivers are higher. The thermometer has averaged 53, the highest being 75 and the lowest 32.

Montgomery, Alabama.—We had rain on four days in the early part of the week, but the latter portion has been clear and pleasant, the rainfall reaching two inches and thirty-one hundredths. About all the crop has now been secured. The

hundredths. About all the crop has now been secured. The thermometer has averaged 52, ranging from 33 to 72.

Memphis, Tennessee.—It has rained on four days of the week, but the weather is now clear. The rainfall reached one inch and seventy-five hundredths. The thermometer ranged from 30 to 63.5, averaging 43.

Selma, Alabama.—It has rained on three days of the week, the rainfall reaching one inch and ninety-five hundredths. The thermometer has ranged from 39 to 69, averaging 52.5.

Auburn, Alabama.—There has been fine rains on four days of the week, the rainfall reaching two inches and ten hundredths. We had killing frosts on Saturday, Sunday and Thursday, and ice formed on Sunday, Wednesday and Thursday, Average thermometer 50.3, highest 68, lowest 30.5

Birmingham, Alabama.—It has rained heavily on two days of the week, with heavy winds. Picking has been interrupted by the rain.

rupted by the rain.

Madison, Florida.—We have had rain on one day of the week, the rainfall reaching one inch and twenty-two hundredths. The thermometer has averaged 64, ranging from 33 to 81.

Macon, Georgia.—It has rained on one day of the week.

Columbus, Georgia.—We have had rain on two days of
the week, the rainfall reaching two inches and thirty-six hundredths. Average thermometer 49, highest 65, lowest 31.

Savannah, Georgia.—It has rained on four days of the
week, the rainfall reaching forty-four hundredths of an inch.
The thermometer has averaged 58 the highest being 77 and

The thermometer has averaged 58, the highest being 77 and

the lowest 46.

the lowest 46.

Augusta, Georgia.—We have had light rain on three days of the week, the rainfall reaching fifty-eight hundredths of an inch. First ice of the season formed on Sunday night. About three-fourths of the crop has been picked and five-eighths marketed, and marketing still continues free. There is less cotton now in the country than at this time last year and indications point to a falling off in the product from last s ason. The thermometer has averaged 51, ranging from 25 to 78.

Atlanta, Georgia.—We have had rain on two days, and the remainder of the week has been pleasant. The rainfall reached

Attany, Georgia.—We have had rain on two days, and the remainder of the week has been plessant. The rainfall reached one inch and seventy-nine hundredths. Ice on one night. Average thermometer 52, highest 76, lowest 31.

Charleston, South Carolina.—It has rained on four days of the week, the rainfall reaching thirty-one hundredths of an inch. The thermometer has averaged 57, the highest being 74 and the lowest 34

and the lowest 34.

Stateburg, South Carolina.—It has rained on three days of the week, the rainfall reaching sixty-four bundredths of an inch. There have been light frosts on two nights and killing frost and ice on one. The thermometer has averaged 53, ranging from 31 to 73.

Wiley North Carolina. Talance and the same and

Wilson, North Carolina.—Telegram not received.
The following statement we have also received by telegraph,
showing the height of the rivers at the points named at 3 o'clock
Nov. 18, 1886, and Nov. 19, 1885.

	Nov. 1	8, '86.	Nov. 1	9, '85.

INDIA COTTON MOVEMENT FROM ALL PORTS.—The receipts and shipments of cotton at Bombay have been as follows for the week and year, bringing the figures down to Nov. 18. BOMBAY RECEIPTS AND SHIPMENTS FOR FOUR YEARS.

Shipme	Shipm	ents Sinc	Receipts.			
Year Great Brit'n.	Conti- nent. Total	Great Britain	Conti- nent.	Totat.	This Week.	Year.
1886 4,000 1885 1,000 1884 2,000 1883 6,000	7,000 9,000	220,000	472,000 653,000	1,013,000 692,000 1,160,000 1,247,000	9,000 6,000	1,036,000

According to the foregoing, Bombay appears to show an increase compared with last year in the week's receipts of

2,000 bales, and an *increase* in shipments of 3,000 bales, and shipments since January 1 show an *increase* of 321,000 bales. The movement at Calcutta, Madras and other India ports for the last reported week and since the 1st of January, for two years, has been as follows. "Other ports" cover Ceylon Tuticorin, Kurrachee and Cocenada.

	Shipme	nts for th	e week.	Shipments since January 1.			
	Great Conti- Britain. nent.		Totat.	Great Britain.	Continent.	Total.	
Calontta— 1886 1885 1886 1886 1885 1885 1886 1886 1886	1,500	2,000	1,500	01,000 59,000 37,000 13,000 66,000 61,000	37,000 18,000 5,000 51,000 64,000	98,000 77,000 42,000 13,000 117,000 125,000	
otal all— 1886 1885	3,000	2,000	5,000	164,000 133,000	93.000	257,000 215,000	

The above totals for the week show that the movement from the ports other than Bombay is 5,000 bales less than same week last year. For the whole of India, therefore, the total shipments since January 1, 1886, and for the corresponding periods of the two previous years, are as follows:

EXPORTS TO EUROPE FROM ALL INDIA.									
Shipmenis	1	886.	18	385.	1884.				
to all Europe from—	This week.	Since Jan. 1.	This week.	Since Jan. 1.	This Since week. Jan. 1				
Bombay	4,000	1,013,000 257,000	1,000 5,000	692,000 215,000		1,160,000 296,000			
Total	4.000	1,270,000	6.000	907.000	15,000	1.456.000			

ALEXANDRIA RECEIPTS AND SHIPMENTS.—Through arrangements we have made with Messrs. Davies, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years.

Alexanaria, Egypt, Nov. 17.	1886.		18	885.	1884.	
Receipta (cantars*)— This week Since Sept. 1	190,000 982,000		180,000 1,033,000		200,000 1,043,000	
	This week.	Since Sept. 1.	This week.	Since Sept. 1.	Thie week.	Since Sept. 1.
Exports (bales)— Fo Liverpool Fo Continent	21,000 4,000		14,000		10,000	76,000 23,000
Total Europe	25,000	102,000	23,000	90,000	19,000	99,000

This statement shows that the receipts for the week ending tov. 17 were 190,000 cantars and the shipments to all Europe 25,000 bales.

MANCHESTER MARKET.—Our report received by cable from Manchester to-night states that the market is firm for both varns and shirtings. We give the prices for to-day below, and leave those for previous weeks of this and last year for comparison:

		1886.		1885.			
	82s Cop. Twist.	84 the. Shirtings.	Mid. Uptas	32s Cop. 1wisi.	84 lbs. Shirtings.	Mid. Uplde	
Oct. 1 " 8 " 15 " 22 " 29	718 @758 714 @734 7318—7111 718 @758 7316—7111 718 @758	5 712 26 712 5 712 26 712 5 712 26 712	5518 5516 5516	d. d. 71516@8916 71516@8916 8 @858 8 @858 3 @858 7 1514@8916 778 @838	5 7 7 7 1 5 8 7 2 5 8 7 13		
" 12	$73_{18} - 711_{1}$ $73_{16} - 711_{1}$ $73_{8} $		518	758 7818 71118 788 16	5 8 7 112	518	

East India Crop.—Messrs. Gaddum, Bythell & Co.'s report dated Bombay, Oct. 15, had the following:

dated Bombly, Oct. 13, had the following:

The monsoon appears to be over in Bombly, and our days are bright and fine, though there have been a few light showers in some of the Decean and ferar districts aince last week. From up country opinions seem to be divided as to whether a little more rain will be beneficial or otherwise to the growing cotion crops, but except in the immediate vicinity of Bhowninggur, where the plants are decidedly in want of moisture, we do not think a further fall le necessary, though if we are to have any more rain it is to be hoped that it vill come down soon and not in December, as it has done of late years with disastrous effects.

Jute Butts, Bagging, and only alight jobbing trade is being done. Prices are easy, and a buyer of a large quantity could obtain a concession. At the closs sellers are quoting 6½c, for 1½ lbs., 7c, for 1¾ lbs., 7½ for 2 lbs. and 8½c, for standard grades. Butts have been taken in small lots at previous figures. About 1,500 bales have sold at 1½@1 11-16c. for paper grades and 2@2½c, for bagging qualities, the market closing at these figures.

Comparative Port Receipts and Daily Crop Movement,

COMPARATIVE PORT RECEIPTS AND DAILY CROP MOVEMENT, —A comparison of the port movement by weeks is not accurate, as the weeks in different years do not end on the same day of the month. We have consequently added to our other standing the month. tables a daily and monthly statement, that the reader may constantly have before him the data for seeing the exact relative movement for the years named. The movement since September 1, 1886, and in previous years, has been as follows.

Monthly	Year Beginning September 1.								
Receipts.	1956.	1835	1884	1883.	1882.	1881.			
Sept'mb'r						429,777			
October	1,034,450	1,035,721	1,020,385	1,046,092	980,584	853,195			
Total	1,393,653	1,441,266	1.435,830	1,389,901	1,307,210	1,282,972			
	of tot, port								
receipta	Oct. 31	26.71	30.06	2 .66	21-72	27:18			

This statement shows that up to Oct. 31 the receipts at the ports this year were 47,613 bales less than in 1835 and 42,177 bales less than at the same time in 1894. By adding to the total to October 31 the daily receipts since that time, we shall be able to reach an exact comparison of the

movement for the different years.

1896.	1885	1884.	1883.	1882.	1881.
1,393,653	1,441,266	1,435,830	1,389,904	1,307,240	1,282,972

This statement shows that the receipts since Sept. 1 up to to-night are now 51,083 bales more than they were to the same day of the month in 1885 and 41,034 bales more than they were to the same day of the month in 1881. We add to the table the percentages of total port receipts which had been received to Nov. 19 in each of the years named.

SHIPPING NEWS.—The exports of cotton from the United States the past week, as per latest mail returns, have reached 121,221 bales. So far as the Southern ports are concerned, these are the same exports reported by telegraph, and published in the Chronicus last Friday. With regard to New York we include the manifests of ail vessels cleared up to Thursday.

BREADSTUFFS.

FRIDAY, P. M., November 19, 1886.

Trade in flour and meal has been a good deal retarded by wet weather, which to some extent interfered with deliveries, especially to the trade, and prices, though generally without quotable decline, are at best barely maintained.

The speculation in wheat opened with the show of considerable strength. The storms in Western Europe, and especially in France, and the disturbed state of Europe regarding Bulgarian politics, stimulated speculation for the rise, but it was The acceptance by the Powers of Russia's not sustained. nominee to the Bulgarian throne, the check upon exports caused by the scarcity of ocean freight room, and the excessive visible supply, caused selling to realize, and the "spurts" of the bull operators effected only slight and temporary rallies. that of yesterday being due to apprehension of damage to the fall-sown wheat by the "blizzard" in the Northwest. To-day renewed speculation gave a higher range of prices to futures, but the regular trade was dull.

DAILY CLOSING PRICES OF NO. 2 RED WINTER WHEAT.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Wri.
In elevator			8414		8434	8512
November delivery	834	937a	8449	84	84	85
December delivery		8478	85 12	85	85	855a
January delivery	8038	8612	8714	865a	865g	8738

May delivery	5218	924	93	9242	9219	934
June delivery		9314		0350	0 m 2	00.4

Indian corn has continued to sympathize with wheat, though not subject to the same influences-at least not to an equal extent. The speculation was only moderately active, while business for export was checked by the scarcity of freightroom. To-day the market was rather firmer, but quiet.

DAILY CLOSING PRICES OF NO. 2 MIXED CORN.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Pi.
November delivery		4434	4532	45	4538	45%
December delivery	4338	4512	4618	4534	4578	464
January delivery	4034	4618	4719	467A	47	4738
February delivery	4758	4758	4.838	4734		4518
May delivery	1912	4919	5012	50	5019	5014

Oats have been dull, unsettled, and to some extent nominal. The speculation showed little spirit, and the bad weather checked the local trade. To-day there was a firmer market, with a better trade in the regular way, but the speculation is still dull.

THE DRY GOODS TRADE.

NEW YORK, Friday, P. M., Nov. 19, 1898.

Although quietness was the prevailing characteristic of the dry goods trade the past week, a fair average business for the time of year was done by commission merchants, importers and jobbers alike. The demand for consumption was stimulated by more seasonable weather than has prevailed of late, and a fairly satisfactory business was reported by retailers in his city and at many distributing points in the interior. Stocks in the hands of retailers are, however, pretty well assorted as yet, and their requirements at the bands of jobbers were only moderate. Goods adapted to the present season were in comparatively light demand by jobbers and the manufacturing trade, but spring and summer fabrics have met with a good deal of attention from large buyers, and liberal orders for some descriptions were placed for later delivery. A feature of the week was a peremptory auction sale of 17,500 dozen domestic silk handkerchiefs, which attracted a large company of buyers. The entire offering was promptly disposed of, and good average prices were obtained. The firm of Cohn, Sampliner & Co., Cleveland, O., has made an assignment, with liabilities of about \$200,000 and estimated assets of \$175,000; but the financial condition of the trade at large is considered sound, and collections are steadily improving in most sections of the country.

DOMESTIC COTTON GOODS.—The exports of cotton goods for the week ending Nov. 16 were 2,150 packages, of which 609 were ahipped to Great Britain, 461 to Argentine Republic, 271 to Hamburg, 205 to Venezuela, 133 to Haytl, 110 to U.S. of Colombia, &c. The demand for staple cotton goods continued light, but stocks are in such excellent shape that prices ruled firm all along the line. Print cloths were in moderate demand and easier, extra 64x64s, having declined to 37.16c., while 56x60s, were nominal at 3c.@31.16c. Stocks last Saturday and for the three previous years were as follows:

Stock of Print Cloths— Held by Providence manufrs. Fail River macufacturers Providence speculaiors Outside speculators (cat)	111,000	Nee. 14, 1885. 234,000 216,000 250,000 75,000	Nov. 15, 1884. 430,000 341,000 311,000 150,000	Noe. 17, 1983. 118,000 397,000 256,000 60,000
Outside speculators (est)	20,000	73,000	130,000	00,000

Total stock, (pleces)....... 216,000 775,000 1,232,000 831,000
Printed calicoes continued very quiet in first hands, and the jobbing trade was devoid of animation. Dress ginghams, plain and crinkled seersuckers and fancy cotton dress goods were fairly active, but transactions were mainly restricted to placing orders for later delivery. White goods and scrim curtains continued in good request for the spring trade.

DOMESTIC WOOLEN GOODS. - The market for clothing wooleens has developed no new features of special interest. Agents continued to make steady deliveries of light-weight cassimeres, worsteds, suitings, &c., in execution of back orders, but new business was of strictly moderate proportions. Heavy woolens for men's wear have shown little animation, and there was but a moderate business in cloakings. Staple and fancy Jersey cloths and stockinettes continued in fair request by the manufacturing trade, and leading makes are closely seld up to production. Kentucky jeans and satinets ruled quiet, but such makes as govern the market are firmly held by the mill agents. Seasonable makes of women's dress goods were mostly quiet, but some very fair orders for all-wool and worsted fabrics adapted to the spring trade were placed for future delivery. For flaunels, blankets, shawls, skirts and carpets the demand was chiefly of a hand-to-mouth character, but etocks are in good shape as a rule, and prices are generally steady. Wool hosiery, shirts and drawers, and fancy knit woolens, were sluggish in agents' hands, but prices are well main

Foreign Dry Goods—The growing activity of the retail trade was reflected in a more general demand for reassortments of foreign goods, but selections were—ngly governed by actual requirements, and transactions were only moderate in the aggregate. Fancy holiday goods were distributed in very fair quantities, privately and through the medium of the auction rooms, but nearly all staple fabrics were more or less quiet in first hands, and the jobbing trade was only moderate, though a trifle more active than in preceding eswek.

Importations of Dry Goods.

The importations of dry goods at this port for the week ending Nov. 18, 1886, and since Jan. 1, and the same facts for the corresponding periods are as follows:

Insurance.

MANHATTAN LIFE INSURANCE COMPANY

158 & 158 BROADWAY, NEW YORK. HENRY STOKES, President.

From Philadelphia Inquirer, Jan. 30, 1884.
The new plan of the Manhattan Life Insurance Company continues to meet the propular favor. It combines the protective feature of life Insurance with the investment feature of the endowment policy, while it avoids the expense attending the latter by the ordinary method. An improvement has also been added to this new form of pulicy within the year, which gives the assured the option at the end of the period of taking the endowment in cash or of continuing the insurance for a much larger amount without any further payment of premium independent of the condition of health at the time ESTABLISHED IN 135)
