# CLEARING HOUSE RETURNS.

Although the aggregate of clearings for the week under review records a decline from the total for the previous week of one hundred and thirty-one millions of dollars, the exhibit is quite satisfactory, as the falling off is pretty fully accounted for by the loss of one day's exchanges at New York and other leading cities in consequence of the election holiday. Stock speculation at New York showed no particular change in volume during the period which our statement covers, but transactions in grain and cotton were considerably stitimulated by the reduced crop estimates issued by the Department of Agriculture on the 10th icst.

During the period of last year with which comparison is now made, the figures in all cases included a full week, whereas the election holiday this year is responsible for the less of over one hundred millions of clearings. Taking into consideration this fact, the current aggregate for the whole country would show an increase instead of a decrease; the favorable character of the present exhibit is therefore apparent. Dealing with the figures as they stand, however, we find that the decline at New York of 14.5 per cent is in large part due to the smaller volume of stock transactions this year, and that the losses recorded at New Haven, Baltimore, Cincinnati and St. Joseph are quite unimportant. Wichita leads in percentage of gain over last year with 84.1 per cent, and is fol-lowed by Indianapolis, 62.1; New Orleans, 36.6; Worcester 31.8 and Peoria 30 per cent.

At the New York Stock Exchange the share sales for the week cover a market value of \$73,404,000, against \$103,254,000 in the same week of last year. After deducting from the clearings at New York two-and-a-half times these values, there remains \$418,730,352 in 1887 and \$446,437,285 in 1886, ascribable to other business, or a decrease of 6.2 per cent.

Total Southern ..... 44,052,513 +15 9 52.118.331 San Francisco..... 15,405,004 18,160,787 +17.5 Total all..... 962.626.905 1.035.995.638 -7.4 1.093.667.453 Outside New York ... 360,880,553, 384,420,858 +7.8 Not included in totals. Our usual telegraphic returns of exchanges for the five days have been received, and they record a heavy gain over the five

days of the previous week. In comparison with the similar period of last year, the aggregate for the seven cities exhibits an increase of 2.9 per cent. The estimate for the full week ended Nov. 19, based on these telegraphic figures, points to an excess over the week of 1886 of about 5.2 per cent. Messrs. R. G. Dun & Co. report the number of failures for the wcek ended to-night as 224 (205 in the United States and 19 in Canada), against 217 last week and 242 for the same week of last year.

The money market has shown a tendency to a little easier condition, notwithstanding the increased volume of business and higher prices at the Stock Exchange. As a consequence also the range of discounts by the banks for their customers covers a little broader field, that is a lower cast of security may be put through at the legal rate for money. The range on call, as represented by bankers' balances, has been 6 and 31 per cent, with the average about 41, at which renewals have been made. At bank call money has ruled at 5 per cent. Te loans on first class collateral running from 60 days to 4 months are quoted as bid, 41 per cent, but so far as we can learn there have been no transactions below 5 per cent, at which figure renewals of old loans have been recorded. This business, as heretofore, has been done principally by out of town institutions, with here and there a contract by our city banks and trust companies. The little doing here in such loans reflects the prevailing impression that in turning the new year there will be no excess of funds at this centre. The outflow to the interior seems to be so uninterrupted, with no indication of its subsidence, that the opinion appears to have a substantial basis, unless the Government should get out some of its old accumulations, which we should not suppose probable. The current surplus continues to be put into depositary banks. Of late banks have been accepted in other cities, so that the money is being well distributed, in the main we presume remaining near the locality where collected.

The cable reports discounts of 60 day to 3 months' bank bills in London at 27 to 3 per cent; until yesterday there was an easy tendency, in part the consequence of considerable arrivals of gold from South America-as our special cable indicates this week and has indicated previous weeks-and the anticipation of further contributions from that source, being simply the return of gold sent out early in the season. This addition and the stoppage of the drain to the United States with the near approach of the season when the conditions of our foreign exchange market will be reversed, are sufficient to account for the tendency referred to. At Paris the open market rate is 21 per cent, the same as last week, while at Berlin the rate has advanced also to 21 per cent. Political affairs are in a somewhat disturbed condition both at Berlin and Paris, growing ont of the health of the Crown Prince in the one case, and in the other the disclosures respecting M. Wilson and the possible resignation of President Grevy. The Bank of England reports a decrease of £54,000 bullion during the week, made up, as we are informed by a private cable to us, by the receipt of £90,000 from South America and the export of £50,-000 to Lisbon and the shipment to the interior of Great Britain of £94,000. The Bank of France is reported to have lost £264,000.

Our foreign exchange market has been almost without feature. Easier rates for discounts in London caused a better inquiry for long sterling and a lighter demand for short, but there was no change in the nominal rates and only a fractional alteration in those for actual business. Although arbitrage operations have been reported large during the week they have had no observable effect upon exchange. A small lot of \$16,000 gold came in from the Continent on Monday and it was reported on that day that \$400,000 had been shipped from Havre, but if this report was true, the movement could hardly have been an exchange operation, for bills could have been sold at prices netting to the shipper a less cost than the cost of importing gold. The

cotton export movement has continued free, and the amount going out represents a very large amount in bills during the past week, but they have had no effect on rates, which have continued, as already stated, without change, though yesterday afternoon there was more doing with the tone strong.

Mr. Switz'er of the Bureau of Statistics has issued this week his report of the exports in October of breadstuffs, provisions, cotton and petroleum. The result is very satisfactory in amount, but its details are not quite so assuring. Taking all the articles together there is a total increase in values of \$6,139,802; but analyzing the items, we find that there is an increase in cotton alone of \$8,579,275 and hence the net result in the movement of all the other articles was a loss on the month of nearly 21 million dollars. When we remember that up to last night (Friday) the cotton exports were, according to our report on a subsequent page, 431,910 bales more than up to the same date last year and that the Agricultural Bureau has estimated the cotton crop over 200,000 bales less than last year's crop, we find-if we are to believe the official estimate, and other things remain unchanged from a year ago-that we are drawing on future months for a material part of our present balance. Mr. Switzler's figures, arranged in our usual form, are as follows.

EXPORTS OF BREADSTUFFS, PROVISIONS, COTTON AND PETROLEUM.

We presume that the Bureau of Statistics will not have its October figures ready for the entire trade of the country until another week. But one can approximately estimate the result which will be reached. The total imports, we should say, would be somewhere about \$58,000,000, against \$54,805,262 last October, and the exports about \$75,500,000, against \$69,633,040, making the balance on the merchandise movement probably about \$17,000,000. If we allow the ordinary 10 millions for undervaluations, freights, interest, etc., it will be seen that, without counting gold and silver, the month's movement netted only \$7,000,000 in our favor. The next three months, ending with the first of February, ought to foot up considerably better, and will unless our imports show large totals.

Our Chamber of Commerce has this week celebrated its 119th annual dinner by entertaining Mr. Chamberlain and the other foreign members of the Fisheries Commission. It seems to have been a very enjoyable affair, and the impression Mr. Chamberlain left was exceedingly agreeable. Speeches were also made by Mr. Smith, President of the Chamber, and by Mayor Hewitt, President Dapew, Secretary Lamar and Mr. George William Curtis. With such material for an after dinner diversion it is no wonder that that part of the feast was entertaining and lively. Our English guests at least cannot fail now to understand that enjoy the blessing of we and that the amount very great country of politics to the square inch here is also fully as large as in Great Britain. We were sorry to have Mr. Depew pronounce our currency so unexceptionably good, and we cannot think he quite meant all that his words expressed. Everyone will agree with his remark that "a sound currency is a first necessity of a commercial people;" but very few who have thought upon the subject much would accept his addition that "ours is sound beyond question or dispute." We are inclined to estimate our currency in its entirety as about as unscientific and disturbing a device for effecting exchanges as a nation could well adopt. The country prospers in spite of it, simply because it has so much more than older countries to waste.

Evidently our remarks of last week with regard to the Agricultural Bureau's estimate of the yield of cotton have been misunderstood in some measure. Many appear to have drawn the conclusion that we intended to prepare a detailed estimate of the crop. That was precisely what we meant to be understood as not intending to do. Our career in that field was a brief and brilliant one-all glory up to the closing year, but ending then in an unfortunate The very reputation we had gained by failure. our successes, made our mistake work the greater Experience is a teacher we never tempt harm. twice by the same venture. It is our custom, however, every season about the first of November to send out special inquiries throughout the South, not so much with the expectation of acquiring an exact idea of the extent of the yield, as to get sufficient information to guide us in judging of the accuracy of official reports. With that purpose we sent out inquiries this year, and had begun to receive our replies when the Agricultural Report was made public. Since we wrote last week we have received very many other answers, until now we have returns from all sections of the cotton States.

Of one fact we feel perfectly well assured, and that is that the present crop will be in excess of the last one. Furthermore we cannot understand where the Agricultural Bureau got the facts to base its report upon. It was only because its error was so extreme and, if believed, so very disturbing, that we felt called upon to take decided exception to it. Speaking of our returns generally, we would say that all States appear to be more or less spotted; if that were not so the crop would have been a very large one indeed. Taken together, the Atlantic States promise very well-South Carolina stands first, Georgia second and North Carolina third, although the last two named report good lands where a less yield has been secured. Of South Carolina the estimates of increase received are very high almost without exception. Over a large portion of Georgia, where excellent results are being optained, they claim that a gool top crop has developed since the 10th of September, and that in those sections picking will not be finished before Caristmas. Another district which has been particularly favored is the Mississippi Valley. A correspondent who passed over the entire distance, from Memphis to Vicksburg and below a few days previously, writes that the best crop raised for years will be gathered in that territory, and the belief is that the farmers will not be able to pick it all, although it has been the most wonderful season for saving the crop they have had for many a year. An incident illustrating the occupa. tion of that whole community in the fields to the exclusion of all other work, is given by one person who states that on November 13 there were 13,000 bales in the compress at Greenville, Mississippi, detained there because the labor could not be spared to prepare it for market. Along that valley they estimate that only 40 per cent of the crop has

been marketed. But we have not space for further details.

There has been no material change in the trade situation during the week, but so far as there has been any it has been in the direction of improvement. The continued favorable returns of earnings, and also the reports of bank clearings, make it evident that a large volume of business is in progress, whatever may be said of the margin of profit. The relaxation of the money market and the revival of speculation on our Stock Exchange are also features which naturally develop confidence in mercantile circles. It is the iron trade just now which is watched with closest interest and it is pleasing to note that a measurably better feeling pervades that trade. Though the production of iron is extraordinarily heavy, current consumption is on a large scale. The weak point in the situation hitherto has been that buyers were not contracting to supply future wants and that consequently manufacturers were left without orders running any great way ahead. This policy is assumed to be the outgrowth of a belief that with the falling off in railroad building next year, and the consequent diminution in demand from that with production unchecked, source, and buyers rather than sellers would be able to fix terms, and that therefore it was better to hold off for lower prices. Recent developments however show that producers, if they can help it, do not intend that this expectation shall be realized. They are evidently engaged in efforts at selfprotection, and to that end forming new combinations or invoking the active aid of old ones. At a meeting of the steel rail makers at Philadelphia this week a determination was manifested to resist a further and to restrict the reduction in price output if that should become necessary. Also in this city on Thursday and Friday of last week a meeting of what is called the Merchant Steel Association of the United States was held, at which "a revised schedule of "prices" was adopted. It is stated that the Association is intended to include all the crucible and open-hearth makers of merchant steel, and that 90 per cent of the manufacturers have joined it. Not alone that, but on Tuesday a meeting of the "Bessemer Merchant Steel Association" was held at Pittsburg, and this organization when completed will work in harmony with the other. Finally we learn from the Iron Age that the "combination "among the German Rod makers which has been talked "of for some time past has been effected." All these efforts to control prices and production may prove unavailing, but coming at a time when greater confidence is felt, the effect may be material. At all events, as noted above, a firmer tone prevails for the time being.

In the anthracite coal trade, the situation grows more and more favorable to the railroads, and prices continue upward. We cannot see that this results from anything but a scare on the part of consumers, caused by the strike of the minera in the Lehigh region, and which prompts dealers to pay any price for coal for immediate deliv. ery. It is a somewhat curious fact at this juncture that while only the Central of New Jersey and the Lohigh Valley are affected by the strike, and thus of course show a large falling off in production, the Reading, the Pennsylvania Railroad and the Erie, according to Mr. John H. Jones' figures for October, also have diminished their output as compared with last year. Of the three remaining producers the Lackawanna is the only one that has enlarged its output decidedly, namely 149,019 tons, the increase on the Pennsylvania Coal Company being only 11,427 tons, and on the Delaware &

Hudson 19,582 tons. Total production for the month was 326,879 tons below last year, and as a consequence stocks at tidewater points were further reduced, and now stand at the low figure of 158,976 tons. Strange as it may seem, however, in the face of the talk about the extraordinary demand for coal, consumption in October this year was smaller than in October last year, when it had been smaller than the year before. Here are the figures to prove the assertion.

		October.		Jan. 1 to Oct. 31.			
Anthracite Coal.	1887.	1886.	1885.	1887.	1886.	1885.	
Stock beginning of period Production	Tons. 894,748 3,185,298		Tons. 815,907 8,582,166	Tons. 972,282 23,166,748	Tons. 754,545 26,047,375		
Total supply . St'k end of period	3,580,016 158,978	4,030,483 440,962	661,616	158,970	440,962	661,610	
Consumption .	8,421,070	3,589,521	3,710,457	28,400,055	26,360.958	25,500,653	

Thus while for the ten months of the year the consumption was 2,039,097 tons in excess of 1886, and 2,839,402 in excess of 1885, for October it was 163,451 tons below last year and 295,387 tons below two years ago.

The report of the East Tennessee Virginia & Georgia for the year ended June 30, 1887, and which we publish on snother page, is interesting chiefly as showing the results of the first year's operations of the reorganized company. The property appears to be doing quite well. Its gross earnings (not including the Knoxville & Ohio) in the late year were \$4,368,180, against \$3,778,291 the year before and \$3,693,857 in 1884-5, and the net reached \$1,466,952, against \$1,373,978 and \$1. the improvement in net would The 189,687. more decided except that \$212,621 have been of extraordinary expenses for maintenance of way and equipment were charged to operating account. But the main feature of interest is to note the relation of charges to income, as it is known of course that charges were reduced as the result of the reorganization. There is no income account in the report, but a statement is given showing annual interest on the debt outstanding June 30 to be \$1,027,360. Net earnings were, as stated, \$1,466,952, from which, however, must be deducted \$112,463 for taxes, leaving the actual net \$1,354,489. Hence if there was no other charge sgainst income the late year's operations left an excess of \$327,129; any cutside income that may have been received would of course increase this amount. Thus far in the current fiscal year earnings have continued to increase, the gain in gross from July 1 to November 7 being \$406,558, and in net for the three months ended September 30 being \$58,224. The physi cal condition of the property is evidently being greatly improved, for in addition to the \$212,621 charged to expenses, \$414,590 was spent for construction and \$374,773 for equipment, making a total outlay in this way of over a million dollars.

The New York Chicago & St. Louis Railroad, familiarly known as the "Nickel Plate," has now been fully reorganized, and its new securities were last week listed at the Stock Exchange. The company's application for listing, which states quite fully the details concerning its reorganization and present financial status, we publish at length to-day on a subsequent page. For the year ending Sept. 30, 1887, the gross earnings were \$4,569,591, against \$3,595,168 in the previous] year, an increase of nearly \$1,000,000, but owing to large expenditures made on the property and charged to operating expenses the net earnings were only \$1,327,509, against \$1,177,350 the previous year. As the youngest of the Vanderbilt lines, this company, now established on an apparently sound basis, will take a new rank among the trunk-line railroads.

E.C.

VOL. XLV.

The stock market this week has shown greatly increased strength, and at times a positively buoyant tone. Prices have advanced all around. There have been no new develop. ments of consequence, but a great revolution of sentiment. The favorable factors in the situation, with the exception of the easier condition of money, were no more prominent or pronounced than during previous weeks, but for the time being only these are regarded. The coal properties were of course leaders in the rise, but the trunk line shares, the grangers, Western Union and Missouri Pacific were all taken in hand and sharply The fancies and specialties likewise have had advanced. an active movement, and some of them have attracted a good deal of attention. Transactions have been on a large scale and the tendency almost steadily upwards, as have from time to time reactions such occurred hardly meriting notice. Commission houses report some outside buying, but on the other hand a good portion of the short interest has now doubtless been eliminated, two failures of houses on that side of the market having occurred-one in New York and another in Philadelphia. Railroad earnings continue very good. There has been considerable talk about advances and reductions in rates in the Northwest, but about the only certain thing is that some of the roads agreed to restore rates on soft coal.

The following statement, made up from returns collected by us, shows the week's receipts and shipments of currency and gold by the New York banks.

Week ending November 18, 1887.	Received by N. Y. Banks.		Net Interior Movement.
Currency			Loss \$801,000
Gold			Loss., 590,000
Total gold and legal tenders	\$1,065,000	\$2,310,000	Loss\$1,251,000

The above shows the actual changes in the bank holdings of currency and gold caused by this movement to and from the interior. In addition to that movement the banks have lost \$500,000 through the operations of the Sub-Treasury. Adding that item to the above, we have the following, which should indicate the total loss to the New York Clearing House banks of currency and gold for the week covered by the bank statement to be issued to day. It is always to be remembered, however, that the bank statement is a statement of *averages* for the week, whereas the figures below should reflect the actual change in the condition of the banks as between Friday of last week and Friday of this week.

Week ending November 18, 1887.	Into Banks.	Out of Banks.	Net Change in Bank Holdings.
Banks' Interior Movement, as above Sub-Treasury operations			Loss\$1,231,000 Loss 500,000
Total gold and legal tenders	\$6,565,000	\$8,\$10,000	Loss\$1,751,000

The Bank of England lost  $\pounds 54,000$  bullion during the week. This represents  $\pounds 40,000$  net received from abroad and  $\pounds 94,000$  shipped to the interior. The Bank of France lost 6,600,000 francs gold and gained 50,000 francs silver. The Bank of Germany gained 9,160,000 marks. The following shows the amount of bullion in the principal European banks this week and at the corresponding date last year.

### THE SURPLUS AND REFUNDING.

. (

There are two very dissimilar questions or classes of questions to be dealt with by Congress in connection with the surplus revenue—one relates to 'the constant inflow and the other to the accumulations up to the time when the excessive inflow shall be stopped. In the current discussions this difference is not always kept distinct enough, and consequently there is confusion as to remedies. From the former we know no way of obtaining relief except through a reduction of taxation, a re-adjustment of the tax gathering machine that will conform its product to the needs of the Government. But while that is being effected, accumulations already large and troublesome, are rapidly increasing. Consequently the necessity for disbursing these collected revenues, which no tax reduction will touch, brings up the other problem.

This latter inquiry is a peculiarly pressing one. It becomes especially so, because of the temptation a large amount of idle cash which must be put out presents. We may presume that every kind of device and every kind of claim will be tried when Congress meets-the flies around a sugar barrel can hardly be more numerous. Of course last year's methods will come up anew. The old scheme for distributing the surplus between the States, for educational purposes, will find advocates; others will look to internal improvements as the true device, even if necessary turning creeks into rivers and canals into ship routes; while still others will suggest pension schemes. The adoption of any of these, commits us to principles that are wrong, establishing troublesome precedents; yet we doubt not they will be the methods discussed and pressed by many for draining off past accumulations. But besides them we may be sure that every other plan which ingenuity can devise will be attempted for laying hold of some part of this coveted prize. The very fact that the need for getting it out is so urgent will make even honest legislators less vigilant; while those who expect to retain a part of what they aid others in securing, will find this very incautiousness a potent influence in their favor. Altogether, these conditions are obviously favorable for a recklessly extravagant session, with many schemes presented of more than doubtful utility.

We make these auggestions only to bring out more clearly the fact that the stock of money which is and will be gathered into the Treasury before the inflow can be les. sened, is not, if affairs take their usual course, going to prove a source of profit to the people, but a source of danger. Now how shall we ward off that danger? We know no more effective method for shutting out bad appropriations than by offering better ones. It is important to remember that it is not a situation permitting the country to wait until some one may devise a perfect method. No one may be able to suggest a mode of using the money which would induce the raising of it, if that was the issue; or even to suggest a mode that can be proved to net as large interest or be as profitable an operation as we could perhaps secure next year or the year after if we could delay action. But we have the money and we must get it out or commerce will suffer seriously. Those are the conditions. Now under such conditions we claim that-after the usual requirements of the Government are provided for-the only proposition which ought to command attention is one that has for its object the payment of our debts. If we cannot use the mouey so as to pay them in just the mode we would like, pay them in the best, that is in the least objectionable, way we can, but in any event let the money go in that direction.

We notice that Mr. Flanagan, cashier of the Commercial National Bank, in a communication to the

Evening Post proposes, as an indirect way of reaching that end, to loan the accumulations to whomsoever wants to borrow at 24 per cent on Government bonds until the debt matures. This, he thinks, would net the Government the best result and pay the bonds in the end. If his proposition were feasible, and if it were applied only to the present emergency, and to accumulations before tax reduction can become offective, we ahould urge no objection to it in the absence of a better device. But is the plan even feasible? Would those who have Government bonds borrow the money continuously or for any great length of time at that rate; would not the plan rather keep the money market on the quiver while the funds went in and ont as circumstances shifted the loans. Just now interest rules high, but if the Government should find takers and thus put out its past accumulations, how long would it be before that condition would change; or if business enterprise should be checked what we call money would pile up at the leading monetary centers and become almost valueless. We have an illustration in the condition as it ruled during 1884 and 1885 when call money for a considerable time went a begging for  $\frac{1}{2}$  of 1 per cent.

But even those years do not fully indicate what may happen at the next period of commercial rest, for the Government has been manufacturing money since 1885 rapidly; it has been turning its idle ailver dollars into active certificates, so that with our accumulations of gold, there are to-day a good many millions more of currency in the country than ever before. So when the next period of rest comes is it not likely that the congestion will be extreme ? At all events, varying degrees in the activity of money, attended with wide fluctuations, are in the meantime inevitable, and show that any calculation made on the supposition that these accumulations of revenue can be kept out at  $2\frac{1}{2}$  per cent for four years is very far from accurate. Furthermore it seems at least doubtful whether 150 millions of Government bonds could be got together even under present conditions as collateral for money at as high a rate. Many of our most conservative banks will not pay interest on any deposit, and all that Now York city gets even at the present time, for its deposits, is 21 per cent ; while outside of banks the holders of bonds by no means want money as a rule. But Mr. Flanagan's suggestion is, that loans be made only up to the face value, a limit which would obviously add further disfavor to the plan. The Secretary of the Treasury found it impossible to secure bonds in any considerable amount at 90, and has just been forced to raise his limit in order to get the banks to put up the bonds and take the money even without interest.

But why not buy the bonds at the market price, it is asked, and relieve in that simple way at once the Government of its burden and commerce from its danger. If the market could be fixed, the expensiveness of that proposal could be measured. But that is just the difficulty, while the preaumption clearly is that the price of bonds would materially advance under a Government demand of the proportions contemplated. Even now 127 is asked for the 4s against 125 a very short time ago. This advance is in part at least due to the new use made of them by depositary banks; but with the number of the bonds outstanding steadily diminishing as the attempt to secure by purchase sufficient to absorb the 150 millions of accumulated revenue progressed, one would be very venturesome in claiming that the limit of price has been reached yet. On the other hand it is not probable that the full surplus will have been extinguished even when the next fiscal year begins. Assuming that Congressional efforts to curtail revenue are successful, no reduction in taxation is likely to take it all off, for the Government must be safe and err if at all on the side of excess of revenue. The chances are that with a tariff as complex as ours is, it will require more than one revision to equalize revenue and expenditures; so that any plan making provision for the surplus should not only contemplate present needs, but future contingencies. In fact we look for a small surplus for years, and think there should be as long as we have a bond out, for we do not believe it is desirable to stop paying off our debt; and if no device could be suggested for attaining that end, other than the expedient of Mr. Flana gan of loaning the accumulations until the bonds fall due we should advocate his plan notwithstanding the disadvan'. tages attending it we have mentioned.

But we believe something better can be devised. A re. funding measure is required, and one by the terms of which the Government retains authority to draw and pay a certain amount of the bonds each year; that and only that We have in kind of measure meets the conditions. prospect the burden of 150 millions of surplus, which if loaned on Governments could not, we believe, be kept out four years at an average of over 11 per cent as a maxi. mum. We think that is a point which Mr. St. John, the President of the Mercantile Bank, also overlooks when he criticises Mr. Knox's plan. At the time Mr. St. John was pressing his measure in 1883, there was no urgency growing out of the position of the Government or of the country. Now, as we bave seen, public and commercial affairs have been forced into an unnatural and hazardous union; and being driven to it, the public would sanction a method of relief which called for a much greater sacrifice than it would have sanctioned then. To continue the present temporizing po icy is impossible. Relief of some kind is an absolute necessity, and no method except a refunding scheme seems to meet the case. Now why should we not build upon Mr. Knox's plan or Mr. Jordan's or Mr. Hewitt's proposal, or that of Mr. Aldrich, rather than simply rejecting the whole because of features that can be easily modified?

## THE WORK OF THE INTER-STATE COMMERCE COMMISSION.

There is one respect in which the Inter-State Commerce Commission has been a surprise both to its friends and foes. Every one supposed that its duties would be mainly administrative. Its friends expected that it would suspend the law in a number of cases where its rigid enforcement would prove disastrous. Its enemies believed that the effect of auch suspensions would be to make the law a dead letter. All parties thought that its work would be of a negative, or at most of an advisory, character. No one looked forward to the creation of a body of transportation law, based on the positive utterances of the Commission itself. Yet such is the work which it is to-day doing, and which has overshadowed all its other functions.

The Inter-State Commerce Law contained two sets of provisions with regard to rates. One set simply reaffirmed the old common law doctrine of equality; the other was more explicit, and prohibited specifically those cases of inequality where a higher rate was charged to or from an intermediate point than for the whole through route. The discussion was almost confined to this last prohibition Nobody objected to having the general common law doctrine reaffirmed, but it was feared that the more specific provisions of the long-and-short-haul clause would seriously affect the railroads and long distance shippers both. To mitigate this danger, the Commission was constituted, with power to suspend the operation of the short-haul clause in cases where it should prove necessary to do so.

The Commission had many other powers and duties, but this suspensory power was the one which, during the debates on the subject, most strongly attracted public attention. And when the Commission, soon after taking office, made a somewhat sweeping temporary use of this power, the public was confirmed in its first impression.

But it proved to be a thoroughly wrong one. This original suspension was merely intended to gain timetime for the railroads to adjust themselves to the new law, and time for the Commission to make up its mind on the subject. When the opportunity came for a full state ment of principles (in re Louisville & Nashville RR. Co.), it soon appeared that no such wholesale suspensions would. be needed. In the first place the language of the Act, as now construed, was not half so severe as many people had supposed. It limited the local charges on each road, not by their share of a through rate in which they participated, but by the aggregate amount of the through rate. To the law, as thus interpreted, there were comparatively few published rates which did not conform. But the railroads were allowed atill further liberty, because the lan. guage of the Act applied only to traffic which was carried under substantially similar circumstances and conditions. Now, most of the apparent violations of the short-haul principle by the railroads were made in cases where there was much ground for regarding the circumstances and conditions as dissimilar. By construing the Act carefully, the Commission almost did away with the necessity of exercising their power to suspend it. The great majority of complaints under the fourth section have been shown to be distinctly outside the scope of the Act.

But it was by no means the intention of the Commission to make the law a dead letter. They have used their authority under the less noticed sections of the Act in a way which promises to be of great benefit to the public, and which proves one of the most interesting chapters in modern legislative history.

The principle that common carriers should not make discriminations was old, but the courts had never succeeded in applying it very thoroughly to railroad regulation. They had proceeded on a false principle. The common law tradition had been that rates should be based upon cost of service. This had never been consistently applied even to the ruder means of transportation; to railroad business it was totally inapplicable. It would have prevented the reduction in rates to secure large train-loads of low-priced goods. Fettered by a theory which they dared not and could not carry out to its logical conclusion, the courts had not been able to make much progress in the matter of railroad regulation.

The theory of the railroad managers was that rates ahould be based upon value of service, or upon what the traffic will bear. This principle, properly understood, is much better than the cost of service theory. Unfortunately it has not been applied impartially. The railroad agents themselves have been sole judges of its application; and in their hands it has been so seriously abused as to become a by-word. Charging what the traffic will bear ought to mean reducing the burdens of the weaker lines of business. Practically it has come to mean inflicting the highest rates on those who were powerless to defend themselves.

What the Commission has done is to take the rail road principle and demand that it shall be applied judicially and impartially. They insist on equality of treatment for different shippers under more or less similar circumstances, not because the cost of service is the same, but because the shipper who suffers from unjust discrimination cannot compete on equal terms with his more fortunate rivals. This is the difference between the attitude of the Commission and the traditional attitude of the courts. It may seem a slight distinction, but it is not so. It is the substitution of a strong principle for a weak one. Instead of a theory which breaks down the moment we attempt to apply it, we have one which fits the facts, and which may be fearlessly pushed to it logical conclusion. The series of decisions of the Com<sup>a</sup> mission are successive steps in the development of thi principle. They give the shippers just as much relief as the decisions of the older courts; but they place that relief upon grounds which the better class of railroad men are ready to admit, because they simply strike at the abuse without sweeping away the whole foundation of railroad business methods.

Mr. Reagan's predictions with regard to the Commission have been completely falsified. He thought it would have the effect of weakening the force of the law. In point of fact, it is what gives the law its chief value. The special statutory provisions of the long-and-short-haul clause are loose enough to be ineffective. The courts would have construed them mildly, Commission or no Commission. Nothing is really left directly bearing on rates, except the general provisions against discrimina tion. These, except as they facilitated the jurisdiction of the United States courts, were nothing more than we had already had for years. But in the hands of a Commission that understood the subject, they have suddenly become effective. It is a striking illustration how much more important strong men are than mere legal machinery. The Commissioners are building up a body of law by their own personal knowledge and influence. It is nearly twenty years since Mr. Adams showed how such knowledge, independent of any specific powers, made itself felt in the influence of the Massachusetts Commission upon the railroads and the Legislature. To-day an experiment of the same sort is being tried in a somewha different field and upon a much larger scale. It is too soon to say how complete will be its ultimate success. The undertaking is one whose difficulties will increase rather than diminish for some little time to come. But what has been already accomplished gives ground of congratn lation for the present and fair promise for the future.

## THE SITUATION AS RESPECTS RAILROAD NET EARNINGS.

The subject of railroad net earnings commands just now a large share of attention, and hence our usual monthly summary of results will be received with special interest. It is known of course to our readers that we publish in our department of investment news and railroad intelligence, the monthly figures of net earnings for each company just as soon as issued, and these figures are con clusive as to the status and doings of the individual properties covered. But a comprehensive idea of the course o earnings as a whole, or of the exhibit in special sections of the country, can only be got by aggregating results, as is done in the present article covering September, and as was done in preceding articles covering previou<sup>8</sup> months.

In the matter of gross earnings our statement for the month of October, published last week, and the exhibits for the first and second weeks of the cur rent month, given on another page of the present issue, are evidence that the progress making is atill satisfactory and the ratio of gain large. As regards the net, however, the showing is aomewhat different. While the roads as a whole continue to record increases over last year, the comparison is decidedly less favorable than in other months,

though special roads and sections still do remarkably well. Here are the aggregates for September and the nine months, covering all roads that have made returns for either period.

	Month of September, (65 roads.)			Jan. 1 to September 80. (68 roads.			
1.0	1887.	1886.	1886. [Inc.or Dec.]		1886.	[Inc. or Dec	
	8	8	\$	8	-	8	
Oross oarn's	39,845,668	36,173.732	+8,672,996	354,460,445	311,802,976	+42,597,478	
Oper. exp	24,189,481	21,883,077	+9,608,404	226,195,508	201,723,154	+24,472,414	
Net earn's	15,657,187	14,590,655	+1,066,532	128,264,850	110,139,822	+18,125,028	

This would at first sight seem quite satisfactory, gross for the month exhibiting an increase of \$3,672,936, and nct an increase of \$1,066,532, but note that over twothirds of the gain in gross was consumed by augmented expenses, and further that the ratio of increase in the net is only 71 per cent, while in the case of the gross the in. crease reaches over 10 per cent. That a better comparison ruled early in the year is evident from the very much heavier ratio of gain on the results for the nine months, the improvement here being 164 per cent, but it is important also to know that the less satisfactory showing is not confined to this one single month, (in which case it might be deprived of a great deal of its significance,) but that it has been observed now for three successive months. In order to make this point clear, we give herewith the following recapitulation of the monthly summaries back to the first of January.

GROSS AND NET EARNINGS.

		G	ross Earni	ngs.	1	Net Earnir	1g8.
		1887.	1886.	1886.   Increase.		1886.	Increase.
_		8	8	\$ pc	8	8	8 . 1pc
Jan.	(51 roads)	24,163,423	19,930,926	4,212,497 21	7,213,497	4,690,990	2,532,507 54
Feb.	(57 roads)	24,936,460	22,675,611	2,260,849 10	7,406,993	7,283,664	143,929 8
M'ch	(58 roads)	32,592,658	26,861,876	5,727,782,21	12,176,647	8,967,232	3,200,415 36
April	(59 roads)	91,640,281	27,576,407	4,068,814,15	10,673,279	8,839,654	1,813,625 20
May	(58 roads)	\$2,596,432	28,934,958	3,661,494 13	11,661,438	9,342,016	2,839,422 25
June	(56 roads)	35,861,883	32,021,535	3,840,850,12	12,582,952	10,395,220	2,187,732 21
July	(58 reads)	38,323,922	35,600,219	2,723,703 8	14,340,465	13,985,299	1,005,166 8
Aug.	(06 roads)	39,538,600	85,702,523	3,836,137 11	15,468,969	18,945,403	1,523,566 11
Sept.	(65 roads)	39,846,668	36,173 732	3,672,938 10	15,657,197	14,590,655	1.066.532 7

Thus the ratio of increase for September 1s smaller than in any other month this year, excepting February, when the showing was rather poor owing to the disparity in the weather conditions prevailing in the two years. Sepsomber and February alone show a smaller ratio of im provement in net than in gross. There has also been a d cline in the percentage of the gross, and this of course? Operates to reduce the gain in the net; but if we except such months as January and March when special circumstances made earnings exceptionally large, the decline has not been very striking, the heaviest increase outside of the monthe mentioned being the 15 per cent for April, while now for September the gain is 10 per cent. Oa the other hand, in the case of the net, the increase of 7 per cent for September compares with 21 per cent for June, 25 per cent for May and 20 per cent for April, showing quite an important reduction.

One of the chief features of interest in connection with these less favorable comparisons of net is the great augmentation in expenses shown to have taken place. In many cases this has followed from reductions in freight and passenger rates, which, by increasing the amount of work required to produce a given amount of revenue, has raised the ratio of expenses to earnings. In many other cases the addition is altogether too large to be accounted for by that circumstance, and it is only fair to assume that it represents large expenditures for improvements and betterments. Moreover, it is undeniable that railroad managers nearly everywhere are taking advantag; of the present prosperity to put their road bed, track, bridges, equipment, &c., in first class shape and condition. The y know by experience that periods of prosperity are usially

succeeded by longer or shorter periods of depression, and in order to be prepared for such a contingency they are putting their roads in trim to meet it. In so far therefore as the larger expenses are attributable to this cause, the increase is not to be regarded as permanent; when the conditions become less favorable, expenses will again be reduced.

As to special roads and groups, the coal roads are the first to command attention. The demand for coal is so active, and prices are so satisfactory, that the course of net earnings on this group merits careful study. We find that while the Central of New Jersey shows reduced net as the result of the strike in the Lehigh coal region, and the Northern Central also shows diminished totals, the gain by the other roads reporting, and in the main by the Reading and its Coal & Iron company, is such that both in amount and ratio of increase this group excels all others, the improvement being \$473,911, or about 33 per cent. For the nine months, with the Central New Jersey and Northern Central sharing in the improvement, the gain reaches 59 per cent, and against net of only 115 million dollars last year, the total this year amounts to nearly 173 million dollars; in other words, there has been a gain of 61 million collars. No facts could indicate more strikingly than these the improvement that has occurred in the earnings of the coal properties.

Hardly less interest attaches to the results on the trunk lines. The Pennsylvania has lately increased its rate of dividend, and there are rumors of similar action in prospect on the part of the Vanderbilt lines. Of course, the gains are less striking than on the coal roads, since they follow gains last year, the trunk lines being in the second year of their more peaceful workings and the coal roads in the first. For September, the increase in net is only trifling, the Pennsylvania having augmented its expenses very heavily. For the nine months, however, quite a handsome improvement is shown, the gain in net amounting to over 4 million dollars, or 11 per cent, and in gress to about 14 million dollars. One of the Grand Truck branches, namely the Detroit Grand Haven & Milwaukee, stands alone in its failure to participate in the improvement.

Southern roads are another class which attract a good deal of attention. These have had a heavily expanded cotton movement since the opening of the seasor, but if the Agricultural Bureau statement of the yield was correct. a serious falling-off would be looked for speedily. Passing that point, however, the South has undergone and is still undergoing great development, and this activity invests railroad returns from that section with special interest. It is a fact, too, that we have a greater representation of roads from the South than from any other section, and this of course adds to the value of the exhibit. The ratio of gain has not fluctuated a great deal, a steady and almost constant increase being shown month by month. For September, however, presumably because of the increased cotton traffic, the improvement amounts to, 27 per cent. sgainst 22 per cent for the nine months. Only three roads (out of 19), and these minor ones, show decreased net for S ptember, and only one (out of 14) for the nine months, the falling off in each case being explained either by heavy expenditures for betterments or by the purchase of new equipment. Not a single road in either period reports a loss in gross earnings. Below is our usual deta led statement giving the results not only ou the groups already reviewed, but on all others as well. The figures in parenthesis indicate the number of roads comprised in the groups,

#### THE SITUATION IN EUROPE.

During the course of last week not much has occurred to give what could with any justice be called a new aspect to European affairs. There is no longer any doubt as to the nature of the disease from which the Crown Prince of Germany is suffering, and the nature of the malady, taken in connection with the extreme age of Emperor William, points to the early occupation of the German Imperial throne by a young man of comparative inexperience. The scandal affair in France, the further the inquiry is pushed, reveals more unpleasant features; and in spite of persistent denials, it seems to be becoming more and more a certainty that the home of the Chief of the State has been stained with crime.

There are those who are disposed to exaggerate the probable consequences of the Crown Prince's misfortune on the one hand and of the French scandal on the other; and if the latter leads to the resignation of President Grevy its issue may be momentous. At all events it is perhaps impossible to exaggerate the importance of either in its private aspect. Prince Frederick William has lived for fifty-six years under the shadow of the throne. He was long the hope of Prussia. He has latterly been the hope of the entire German people. As a soldier and as a statesman he has won confidence. He is known to be a man of peace; and Germany, if she needs anything, needs peace for many years to come. In the course of nature the venerable Emperor will soon be called away; and if the malady from which the Crown Prince is suffering should prove fatal, the weight of empire would fall upon the shoulders of his son, a youth of twenty-eight years, a man credited with the ambition and the military ardor of his race.

It is not long since it seemed as if the fortunes of the House of Hohenzollern were secure beyond any peradven-

## [VOL. ALV.

ture; and the public became familiar with a picture which represented the Emperor William and three possible successors. It did seem as if the Emperor, in that which is always dear to the heart of a ruler, was certain to realize the hope that the Imperial sceptre should remain in the hands of his descendants for generations yet to come. All the persons represented in that picture are still living; but how changed is the prospect. After the Emperor and the Crown Prince, there is only Prince Frederick William and his son, a boy of five, in the direct line. This possible failure of the direct line, which after all is only a possibility, is, in our judgment, much less important than the other possibility that Prince William on the throne might yield to the war sentiment, and involve not only his own people but the whole world in trouble. He is said to be pronounced in his dislike of France and the French revealing this dislike on all occasions when he has the opportunity, and in every possible way. Such a man on the throne of Germany would not certainly be any sure or satisfactory guarantee for the continuance of peace in Europe.

The French situation, even if it stops with the disgrace of M. Wilsor, has very unpleasant features. The Legion of Honor scandal and the corrupt practices in high places which have been brought to light in connection with the same, reveal a state of things the reverse of hopeful. The bottom has not yet been touched. The whole truth is not yet known. Enough, however, has been disclosed to make it plain that a wholesale system of corruption has for some time prevailed, and that titles of honor and lucrative positions and contracts have been bought and sold, the illegitimate traffic making rich the vendors. It is just such corruption which brought to the dust the empire of the late Louis Napoleon. Better things were hoped of and for the Republic. There are few people who have watched the course pursued by the men now in power who would for one moment be disposed to enter. tain suspicions regarding them. M. Rouvier has proved himself in the handling of great public questions a model Prime Minister; and M. Flourens has shown more skill and good sense in the management of foreign affairs than any man who has held the portfolio of Foreign Minister since the present Republic was organized. He has removed out of the way many difficulties, and he has improved the relations of France with all or almost all her neighbors. As little can suspicion be allowed to point the finger to M. Grevy, the honored President of the Re. public. It is the fact, however, that illicit transactions have heen effected which : lmost seem to imply a guilty knowl. edge in high places; and M. Wilson, the son-in-law of the President, is not only implicated, but in the eye of the public almost convicted. M. Grevy's term of office does not expire till January, 1889; and it is an assuring fact that he refuses to resign at the command of the extremists until such times as he shall conclude that justice and the public interest require it. It is undeniable that France is in a peculiarly excited condition; and at such times it is always difficult to predict what will happen.

Thus looked at, it is not difficult to see how danger might arise to Europe both from Germany and from France. But the danger implies the existence of a state of things which is not yet, and which may never arise. If possi. bilities point in the direction of danger, they point even more hopefully in the direction of continued stability and peace. Germany, as we have said, needs peace; and whatever may happen to the venerable Emperor, and however the Crown Prince's malady may result, statesmen will not be wanting equal to the situation, and the affairs of the empire will be conducted according to constitutional principles. In 1889 France will celebrate the revolution of 1789, the Great Revolution, and there is reason to believe that care will be taken of her present institutions, so that the celebration shall take place under the ægis of the Republic. Then again, it must not be forgotten that the danger of international trouble is greatly diminished by the Triple Alliance, which includes Germany, Austria and Italy, as well as by the good understanding which has been established between France and England. Under the present arrangement it will be next to impossible for any one Power to break the peace or to disturb the equilibrium.

### Monetary Commercial English News

## [From our own correspondent.]

LONDON, Saturday, November 5, 1887. Rather more business has been doing in money, but the demand was principally apparent at the commencement of the week. Since then it has eased off a little, and short loans have fallen from 3½ per cent to 3 per cent and under; The November demand should now be influencing the market. but whether, after the stringency of the past month, the precautions then taken to anticipate requirements, and the influence of Secretary Fairchild's action to relieve undue monetary pressure in America, the market will be as much affected as usual remains to be seen. The Treasury bills went off at a low figure, the average for the three months being £2 16s. 1¼d.; but the general rate for discounting three months' bills in the open market has been 31/8 per cent. In the weekly return of the Bank of England no great changes are noticed. The reserve has lost £247,465, which was owing to the increase of £303,960 in note circulation. The actual increase in bullion was £56,495, or about £20,000 more than the sum sent in from abroad. The proportion of reserve to habilities remains practically the same as last week, namely, 45:56, against 45:47 per cent, the aggregate deposits held having decreased £580,619, simultaneously with the decline in the reserve. The amount of the reserve is now £11,834,544, or about £378,000 more than last year; and the stock of bullion, which stands at £20,148,-759, shows an increase of about £339,000.

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols, &c., compared with last three years :

The character of the wheat trade bas not undergone any particular change. The demand is rather quieter, but it is something to know that in spite of this slackening of the inquiry there has been no relaxation of firmness; on the contrary, the recent gains have been well established. It would seem from this that the trade is being gradually brought into a sounder condition, and it is probable that before the end of the year the level of prices will be further advanced. Liverpool appears to hold much larger stocks than last year, the present total being 3,840,322 centals-an increase of 1,449,000 centals, but against this has to be placed the fact that the stock of flour, which is about 90,000 sacks, is only about one-half of what it was. Considering that the imports of wheat thus far this season have fallen short of last by about 900,000 cwts., and that from Sept. 1 to Oct. 15 American shipments to the United Kingdom were some 900,000 bushels below what they were in the corresponding period last year, the excess shown in the stock of wheat at this centre has created some surprise, and that some depreciation in values has not followed the publication of these statistics is looked upon as a hopeful sign for the future.

The following shows the imports of cereal produce into the United Kingdom during the first nine weeks of the season and other items, compared with previous years:

DIVIDENDS: The following dividends have recently been announced :							
Name of Company.			Books Closed, (Days inclusive.)				
Railroads. Boston Concord & Montroal Catawissa, preferred Delaware & Bound Brook (quar.).	310	Nov. 18	Nov. 16 to Nov. 1 to Nov. 13 10				

WALL STREET, FRIDAY, Nov. 18, 1887-5 P. M.

The Money Market and Financial Situation .- The stock market this week has come nearer to being a genuine bull market on outside orders than anything we have had for months past. There has been nothing new--nothing to give any special twist to the market-but on a popular feeling of greater confidence in values there has been more general buying.

The progress in Reading affairs and the practical conclusion of the New Jersey Central readjustment are matters which have helped along the prevailing tone of strength, while Western Union is also mentioned as a stock which is particularly in favor with some of the leading bulls. The attention of heavy capitalists is naturally turned towards those companies which have a chance, with greater or less certainty, of effecting a monopoly or combination in their field of business. Thus we have seen Western Union and Manhattan Elevated taken up and made to pay dividends on watered stock while some of the leading railroads of the country were obliged to pass their dividends in periods of sharp competition. So the anthracite coal roads have a com-paratively narrow field of operations, and where so few companies control the production and transportation of a necessary article like this, it is argued that combination will probably be able to keen prices up to a point that will permit them to earn dividends on the capital invested. Heretofore one great obstacle to such combination has been the weakness of the Reading Compsny.

Railroad earnings are keeping up well, though the compari-sons are now made with a period of large earnings in 1886. The open market rates for eall loans during the week on

stock and bond collaterals have ranged from 3 to 6 per cent, the usual rates to stockbrokers being 4@5 per cent. To-day the rates were 4@6 per cent. Prime commercial paper is quoted at 51@6 per cent.

The Bank of England weekly statement on Thursday showed a loss in specie of £54,000, and the percentage of reserve to liabilities was 47.72, against 47.11 last week; the discount rate remains unchanged at 4 per cent. The Bank of France lost 6,600,000 frances in gold and gained 50,000 frances in silver.

The New York Clearing House banks in their statement of Nov. 12 showed a decrease in surplus reserve of \$1,199,150, the total surplus being \$8,587,400, against \$9,786,550 the previous week.

The following table shows the changes from the previous week and a comparison with the two preceding years in the averages of the New York Clearing House banka:

1 1	1887. Nov. 12.	Diffr'nc's fr'm Prev. Week.	1886. Nov. 13.	1885. Nov. 14.

Surplus	8,587,400	Dec.1,199,150	7,891.350	26,495,150	

Exchange .-- The sterling exchange market has been dull Exchange.— The atering exchange market has been duft-most of the week, though quotations have not fluctuated much. It is, perhaps, a little singular that rates were not reduced, as nearly all the week the influences were favorable to lower prices, including quite an active buying of stocks here for for-eign account, a fair supply of commercial bills and the lack of an active demand. These conditions have been somewhat changed, however, in the latter part of the week, when the market has been much stronger. Rates have not varied much, and the posted rates are still the same as a week acco-4 820 market has been much stronger. Rates have not varied much, and the posted rates are still the same as a week ago-4 82@ 821 and 4 86@861.

To-day the rates on actual business were as follows, viz.: Bankers' 60 days' sterling,  $481\frac{1}{4}@481\frac{1}{4}$ ; demand,  $485\frac{1}{4}@485\frac{1}{4}$ . Cables,  $485\frac{1}{4}@486$ . Commercial bills were  $480\frac{1}{4}@480\frac{1}{4}$ ; Continental bills were: Francs,  $524\frac{1}{4}@525$  and  $522\frac{1}{4}@523\frac{1}{4}$ ; reichmarks,  $9411-16@94\frac{1}{4}$  and  $95\frac{1}{4}@953-16$ ; guilders,  $89\frac{1}{4}@39\frac{1}{4}$  and  $39\frac{1}{4}@453$ .

39% 394 and 39% 40. The following were the rates of domestic exchange on New York at the under-mentioned cities to-day: Savannah, buying

i discount; selling par@i premium; Charleston buying i@3-16-discount; selling par; New Orieans, commercial, \$1 50 dis-count; bank, par; St. Louis, 50c. discount; Chicago, 40@ 50e. discount.

The rates of leading bankers are as follows:

November 18.	Sixty Days.	Demand.
Prine bankers' sterling bills on London Prime commercial Documentary commercial. Paris (france) Amsterdiam (guilders). Frankfort or Bremen (reichmarks)	4 80% 04 81 4 80% 04 80% 5 25 25 24% 39% 16 16 240	*******

\* Now demonctized.

United States Bonds .- Government bonds have not been so entirely neglected as they were during the previous week, though the business has not been specially active. A few transactions have occurred, however, from day to day. Prices have been easy and are a trifle lower than they were a week ago for the 4s and 41s.

The closing prices at the N. Y. Board have been as follows:

501 1	Interest Periods		Nov. 14.	Nov. 15.	Nov. 16.	Nov. 17.	Nov. 18.
4 <sup>1</sup> 98, 1891reg. 4 <sup>1</sup> 98, 1891coup. 48, 1907reg. 48, 1907coup. 6 <sup>2</sup> , cur'cy.'95reg.	QMar. QJau. QJan.	*10978 *127 *127	*10878	109 *127 *127	*126%		*10858 *12638 *12638

\* This is the price bld at the morning board; no sale was made.

State and Railroad Bonds .- State bonds have been moderately active, though the transactions recorded have been mostly in small amounts. Virginia 6s deferred have been somewhat more active than the rest at advancing prices.

somewhat more active than the rest at advancing prices. The business in railroad bonds has been broadening per-ceptibly, both as to the total amount recorded and as to the number of different classes dealt in. The market continues to show a very healthy tone and the course of prices has been almost steadily upward. No violent or specially marked advances have been noticed, but a gradual improvement in nearly all classes has characterized the transactions. In addition to the prevailing demand for good bonds for investment, there has been an increased speculative demand for many of the lower-priced bonds, encouraged by the activity and strength of the stock market. These speculative classes havo consequently been very strong and show the greatest amount of improvement.

Railroad and Miscellancous Stocks.-The stock market hasat last shown a disposition to respond to the favorable condi-tions; after weeks of bull talk, during which prices have been making occasional spurts upward without any general or im-portant rise, we have this week had a more genuine, though portant rise, we have this week had a more genuine, though moderate, bull market. Speculation has been active, and the tone has been almost uninterruptedly strong throughout; re-actions have occurred, of course, but the setbacks have not been of sufficient importance to overcome the improvement in prices which has taken place. The movement is the more been of sumclent importance to overcome the improvement in prices which has taken place. The movement is the more significant as indicating the existence of a generally strong feeling, inasmuch as no apecial news or developments havo been used to influence prices. On the contrary, it has been almost entirely the result of a good demand and a feeling of confidence on the bull side of the market, and this feeling has been strengthened by the rapid rise in a few stocks which have received special attention. The improvement has been quito general, however, and one of the features has been the activity and prominence of many stocks which are usually not much noticed. Another healthy sign has been the reported increase in orders from parties outside the circle of those who see the tape daily, and the commission business is better than it has been in months been in months.

been in months. Among the special features Reading has been prominent; the transactions in this stock have been heavy, and the price has been rapidly advanced. The other coal stocks followed Reading in its advance and have been very strong. Western Union has attracted attention on account of its strength, and it sold at the highest price of the year. The rise in this stock was assisted by the report that it had at last been listed on the London Stock Exchange, but this was subsequently denied. Wheeling & Lake Erie was one of the specialties that rose into-sudden activity. All the different groups, including the coalers, the grangers, the Vanderbilts and the Gould stocks, have responded to the general improvement.

## 670 Investment ROADS. Weck or Mol Kailroad Intelligence.

THE CHRONICLE.

The INVESTORS' SUPPLEMENT contains a complete exhibit of the Funded Debt of S'ates and Cities and of the Stocks and Bonds of Raitroads and other Companies. It is published on the last Saturday of every other month—viz., January. March, May. July, September and November, and is fur-nished without extra charge to all regular subscribers of the CHRONICLE. Extra copies are sold to subscribers of the CHRONICLE at 50 cents each, and to others at \$1 per copy.

### RAILROAD EARNINGS.

Gross Earnings to Latest Dates.—The latest railroad earn-ings and the totals from Jan. 1 to latest date are given below for all the railroad companies from whom reports can be obtained.

### ANNUAL REPORTS.

#### East Tennessee Virginia & Georgia Rallway.

(For the year ending June 30, 1887.)

(For the year ending June 30, 1887.) The stockholders of this reorganized railroad held their an-nual meeting at Knoxville, Nov. 16. Nine milions of the first preferred and thirty-one millions of the second preferred and common stock were represented. Eight directors, namely, Samuel Thomas, C. S. Brice, Alfred Sully, T. M. Logan, John G. Moore, George S. Scott, John H. Inman and E. Lehman, were elected by the holders of the first preferred stock, and seven directors, namely, John Greenough, William L. Bull. Richard Irvin, George Coppell, Thomas P. Fowler, C. M. McGhee, James E. Grannis, were elected by the holders of the second preferred and common stock. The first annual statement of the company is an interesting raper, and the report of the President and Vice-President will be found on a subsequent page, under the title "Reports and Documents." The report contains much statistical matter, and consists of a pamphlet comprising in all 62 pages. The statistics, compiled for the CHRONICLE, are as follows : OPERATIONS AND FISCAL RESULTS.

Ohio & Mississippi Railway. (For the fiscal year ending June 30, 1887.)

The annual report of Mr. J. F. Barnard, President, says: The annual report of Mr. J. F. Barnard, President, says : "There has been nothing special to remark upon in connection with the business of the year. There were no unusual strikes, floods, or other incidents to mark the husiness of the year as other than ordinary, except that on the 5th of April, 1887, the Inter-State Commerce Act took effect, and co-incident with that, scales of freight rates, adopted by some of the trunk lines, were projected into Ohio and Mississippi territory, and both were to some extent the cause of considerable reduction in freight rates on three or four of the higher classes of goods. "The crops along the line of your road have this year been fair, except the corn crop, which is light, and in a general way may be stated as about a half crop, or possibly a little more than half a good crop." \* \* \*

than half a good crop," \* \* \* "An arrangement has been made for the precurement of five hundred box cars, three hundred gordola cars, and one hundred stock cars, all of twenty five tons carrying capacity each. The company has provided for their payment by a car trust, divided into ten equal annual instalments. It is believed that the saving of mileage on foreign cars will more than meet the payments of the car trust as they mature." "The suit pending in the State of Illinois a year ago, to compel the company to provide a retter service on the Spring-field Division and to make improvements in the line, has been decided in the company's favor. Since then a better service has been rendered, and so many improvements have been made on the Springfield Division that there is now a friendly

made on the Springfield Division that there is now a friendly feeling all along the line towards the company."

Operations, income, &c, on the whole line for three years have been as follows:

## GENERAL INVESTMENT NEWS.

Boston & Providence.—In Boston, Nov. 16, the annual meeting of the stockholders of this railroad was held. The directors were authorized to borrow \$2,000,000 for the purpose of paying the floating debt. A tallot was ordered for choice of directors and to authorize the directors to apply for legisla-tion to enable the corporation to lease the road, such lease to be subject to subsequent ratification by the stockholders. The vote on ratifying the lease was 24,176 for and 1,114 against. The proposal to near the corporation to the stockholders.

Central Iowa.—There is one portion of the line which has not yet been taken out of the hands of the receiver, and that is the line between Keithsburg and Peoia, Ill. Some compli-cations exist in regard to this portion of the property, and no order of court has been secured for its sale, although Mr. Thomsen, the coursel for the New York bondholders, says that it will be foreclosed and sold within the next month.

Cheshlre.—The comparative annual report of the Cheshire road shows the following :

Fear ending Sept. 30- Passenger	1887. \$202.316	1886. \$183,195	Increase. \$19,121

Chesspeake & Ohio.-Work on the Maysville & Big Sandy Division of the Chesapeake & Ohio Railroad has been discontinued for the present. A great deal of stone work will have to be done before the road will be in condition for trackaying.

Chicago & St. Louis.—The contract for the construction of 75 miles of roadbed for the extension of the Chicago & St. Louis Railroad from Springfield to Eureka, Iil., has been canceled, and work on the road has ceased,

Cincinnati Hamilton & Dayton.—The Circuit Ccurt in Ohio has overruled the decision of Judge Vanderveer, and has refused to appoint a receiver for this company. The Auditor submitted the following statement of income ac-count for the six months, April 1 to Oct. 1, beirg the first half of the current fiscal year:

Des Moines l'sceola & Southern.—This railroad, at the fore-closure sale in Des Moines, was bid in by M. V. B. Edgerly, of Springfield, Mass., for himself and other bondholders. The price paid was \$305,000.

Housatonic.—The gross earnings of the Housatonic road were \$988,549; the operating expenses, including the rental of the Danbury & Norwalk, the State tax of the latter being comprised in the rental, were \$751,282; net earnings, \$231,267.

Indiana Bloomington & Western.—The third step in the reorganization of the I. B. & W. system and the corsolidation of the various lines has been taken by filing articles of con-scilidation of the Springfield & Western Railroad Company and the Indiana & Western Company, the line running from Springfield, Ohio, to Pekin, Ill. The joint capital stock is \$13,325,000. The directors are Austin Corbin of Philade'phia, C. W. Fsirbanks and C. E. Henderson of Indianapolis, John A. Glover of Urbans, Ill., J. B. Mason, E. L. Stewart and Wm. Beckwith of Danville, Ill. The complete reorganization of the system will be made in January, and it will then be known as the Columbus Indianapolis & Western.

Knexville Southern,-Work has been commenced on the Knoxville Southern Railroad, which is been commenced on the Knoxville Southern Railroad, which is to run from Knoxville to Atlants. The new line will be an extension of the Marietta & North Georgia Railroad. The city of Knoxville has given the road \$270,000 on condition that the work shall be completed within eighteen months.

Milwankee & Nerthern.—This railroad company has just completed the extension of its main line about 52 miles to a junction at Republic and Champion, with the Duluth South Shore & Atlantic Railroad.

Missouri Pacific.—A circular to the stockholders, Nov. 10, said: "In answer to numerous inquiries by the stockholders, the following statement of the carnings and expenses for the first nice months, ending September 30, 1887, is furnished for their information :

Gross earnings of the Misseurl Pacific Railway Company (including Si, Louis Iron Mountain & Southern Railway), 3,258 miles, from January 1 to September 30, 1887, nine	
months. Operating expenses.	\$15,520,9 <b>29</b> 9,426,338

4 .....

tion dated June 1, 1887, so as to provide for an issue of \$750,000 first mortgage 5 per cent lncome bonds, interest payable out of net earnings only, and non-cumulative, in lieu of \$750,000first mortgage 4 per cent bonds, and for an issue of \$750,000of stock of the new company in lieu of \$1,000,000 stock.

New York Chicago & St. Louis.—The Nickel-plate Com-pany's new stocks and bonds were listed at the Exchange last week, and the Company's application in full is given for in-formation on a subsequent page. The issues are as follows :

		367160	JU111616660
	Amount.	per cl.	Int., &c.
1st mortgage bonds	\$20,0.0,000	- 4	\$300,000
1st mortgage sluking fund			100,000
1st preferri d stock		5	250,000
2d preferrod stock		5	550.000
Cemmon slock	14,000,000		

Thus it appears that for interest on the bonds the company requires net income of \$800,000; for int rest and sinking fund (when applicable) \$900,000, which is the total fixed charge; for the and a 5 per cent dividend on 1st pref. stock, \$1,150,000; for all the foregoing plus 3 per cent on the 2d pref. stock would require \$1,480,000. The report for the quarter ending Sept. 30, and for the fiscal year ending at that date, has just been made to the New York State Commissioners as below:

	-Quar. end.	Sept. 30	~ Tear endin 1887.	g Sept. 30 -
Gross earnings	\$1,160,255	\$905,198	\$4,569,591	\$3,595,168
Operating expenses.		637,001	3,242,082	2,417,818
Net earnings	\$243,644	\$268,197	\$1,327,509	\$1,177,350
Rentals and taxes	48,991	102,102	292,273	415,066
Surplus	\$191,653	\$166,095	\$1,035,236	\$762,284

From the figures above, showing gress earnings, it appears that if the road could be operated at 67 per cent of its gross earnings, including rentals and taxes, it would have a surplus of \$1,508,000, or sufficient to pay prior charges and 3 per cent on the second preferred stock. During the past year there have been large improvements made on the loadway which were charged to operating expenses, but when the benefit of these improvements is felt and the operating expenses are down to a proper working basis, the chief problem with this road will evidently be as to the ratio of earnings at which it can be operated; the Lake Shore road is operated at about 62 per cent, and Michigan Central and Canada S, uthern at 69 per cent, of gross earnings. cent, of gross earnings,

New York (ity Bonds.— Comptroller Loew opened proposals for \$600,000 3 per cent city bonds, payable on Nov. 1, 1897, the proceeds to be used for new school houses. These were the awards : Moller & Co., \$400,000 at 101.27; A. M. Hyatt, \$200,000 at 101.56.

New York & New England.—The Connecticut Railroad Commissioners have received the annual returns of the prin-cipal railroads of the State for the year ending September 30, 1887. The New York & New Englano's figures are given below, with the comparison for 1886:

URUSS LAUNIA	0.74		
Dansan an turn out tion	1886.	1887. \$1,386,488	
Passenger transportation Freight transportation	. 2,262,479	2,485,912	
Mails Express	$     46,658 \\     93,161 $	46,707 101,727	
Renis	53,467	38,813   158,036	1
Other sources			
Total gross earnings Total operating expenses	2,565,5991	\$4,217,685 2,820,377	1
Net earnings	\$1,298,391	\$1,397,307	
Passengers earried	5,240,906	5,698,794	
Passenger mileage Freight enrried (tons)	2,099,339	66,360,777 2,225,141	
Average mile rate per ton	. 0167	.017	

The surplus over charges and dividends on pref. stock this year was \$128,149, against \$11,160 last year.

New York New Haven & Hartford.—The report of this company to the Connecticut Commissioners (including Air Line, Shore Line and branches) shows these figures :

	1886.	1887.
Gross carnings.	\$7,601,946	\$7,890,209
Passenger carnings		4,319,252
Freight earnings	2,795,240	2,952,361
Operating expenses	4,911,759	5,526,819
Net earnings	2,690,186	2,363,389
Passengers carried	8,267,316	9,361,426
Freight earried (tons)	2.376,195	2,602,157
Average passenger rate	0192	-0177
Average freight rate	.0.2	·0195
¢ 0		

This road declared its usual 10 per cent oividend, and the sur-plus over this was \$203,901, against \$583,239 last year. The de-crease in net ear ings is said to be due to extensive improve-mente, such as four-tracking near the New York end of the road, reduction of grades and curves, abolition of grade cross-ings, new stations, ste ings, new stations, etc.

New York Pennsylvania & Ohio.-President Whitehead has alranged with the voting trustees in London for the issue of the new lean, to make extensive improvements on the road. Work will be commenced at once.

New York Ontario & Western.-Subject to final audit, the accounts for the fiscal year ending Sept. 30, 1887, show the following results:

\$10.00Q Net balance on working of leased lines about ..... #200.600 184.000.

Surplus, available for additional rolling stock, improve-ments and bellerments..... 871.900

New York Stock Exchange,—The Committee on Securities of the New York Stock Exchange have decided that ninety-nine 5 per cent gold debenture bonds of the Chicago & North-wealern Railway Company, due 1909, with coupon payable Nov. 1, 1887, attached, are not a good delivery; also, one-hundled and three first mortgage 6 per cent bonds, due 1920; of the Missouri Pacific Railway, with November, 1887, coupon attached, and 50 terminal mortgage 5 per cent gold bonds of the Chicago Milwaukee & St. Paul Railway Company. No cause was assigned for this action.

Northern, N. II.-Business arrangements have been entered into by which the Beston & Maine Railroad is to operate the Northern road for a term of one year on the same terms as if the Hazen bill had beet me a law.

Ohio & Northwestern.—This railroad has completed the change of gauge, and the first regular through train for Ports-mouth start d soon after. The track will be placed in perfect condition as soon as possible, and as econ as the new equip-ment of cars arrives trains will run regularly, and the O. & N. W. will be prepared to handle quickly its increasing passenger-and freight traffic,

Pittsburg & Lake Erle.—The court has ordered a re-argu-ment of the case of Cornelius Vanderbilt against James I. Bernett and others to break what is known as the Pottsburg & Lake Erie Railroad Company's stock trust deed. It al pears that the court is divided in its opinions upon the law of the case, and therefore wants further arguments from counsel. This probably postpones a decision until next year.

**Providence & Worcester.**—This company's report to the Massachusetts Railread Commission for the fiscal year ending Sept. 30, 1887, and also for the previous year, had the follow-Ing:

	1987.	1850.
Total income	\$1,270,828	\$1,245,711
Total expense (Inc. taxes)	831,850	874.661

Scioto Valley.—The case of this read came up on the 15th inst. in the Court of Common Pleas, at Portsmouth, Ohio, and has been referred to a master to prove the bonds, etc., and to report to the Court in April next.

Valley, Va.—The report of this company shows the earnings for the year ended September 30th to be \$122.272, akainst \$125,667 the previous year, and the expenses \$78,903, r gainst \$89,364 the previous year. The net earnings were \$43,368, against \$37,302 in 1885-86. At the election Mr. John A Robb represented the stock of the city of Baltimore, Henry Duvall that of the Baltimore & Ohio railroad and William A. Ander-son that of the town of Lexington.

# Reports and Poruments.

EAST TENNESSEE VIRGINIA & GEORGIA RAILWAY CO. FIRST ANNUAL REPORT FOR THE YEAR ENDING JUNE 30, 1887.

NEW YORK CITY, October 20, 1887.

To the Stockholders of the East Tennessee Virginia & Georgia Roilwoy Company:

The President and board of directors berewith submit their first annual report of the operations of the property for the fiscal year ending June 30, 1887.

On July 1, 1886, the East Tennessee Virginia & Georgia Railway Company, organized under the laws of the State of Tennessee, acquired from the purchasers at judicial sale:

First-The title to the East Tennessee Virginia & Georgia Railroad and branches.

Second-A controlling interest in the stock of the Knoxville & Ohio Railroad Company; and,

Third-A controlling interest in the stock of the Memphis & Charleston Railroad Company, the road of which latter company was also operated by the East Tennessee Virginia & Georgia Railroad Company under a twenty years' lease, of which eight years had expired.

Your board immediately gave notice to the Nerfolk & Western, and other connecting railroad companies, that this company was not bound by any traffic or other contracts of the East Tennessee Virginia & Georgia Railroad Company they having been abrogated by foreclosure; and no new contracts have been made by your board with any connecting companies.

#### EASTERN CONNECTIONS.

The eastern termini of the company's lines at Bristol and Paint Rock giving competitive eastern outlets via the Norfolk & Western and Richmond & Danville railroads, your board adopted the policy, which has since been maintained, of tbrowing open its lines on the same basis to each of its east ern connections. This policy, it is believed, has contributed to the increased volume of business of your company during the year 1887. These eastern outlets being ample and satis. factory, your board has not at any time contemplated extensions into the territory of either the Norfolk & Western or Richmond & Danville companies.

### NORTHERN CONNECTIONS.

Your company had also two natural connections to Cincinnati-the Cincinnati Southern and the Kentucky Central railroads; but the latter could not be utilized until the Ohio River bridge from Covington to Cincinnati should be constructed. To secure its early completion this company subscribed, and has since paid, one hundred thousand dollars to the company formed for the building of the bridge, which we are assured will be completed by July 1, 1888; and it is believed that the securities to be received from the construction company on the completion of the bridge will be worth the amount subscribed. In order to shorten the connection with the Cincinnati

In order to shorten the connection with the Cincinnati Southern Railroad, and to develop the company's large and prefitable coal-carrying business, as well as to satisfy the demands of the people of Knoxville for a northwestern out-let, your company decided upon the acquisition and com-pletion of the Walden's Ridge Railroad, extending from Clin-ton, on the Knoxville & Ohio Railroad, to Emory Gap, on the Cincinnati Southern Railroad, including its coal branches, being about fifty miles in length, and caused to be projected and surveyed in its interest an extension of this line from Emory Gap, down the Sequachie Valley to South Pittsburg, and thence up the Tennessee River to Chattanooga. Simul-taneously the Memphis & Charleston Railroad Company resolved to extend its line from Stevenson to South Pittsburg, so that the new line, when constructed from Chattanooga, so that the new line, when constructed from Chattanooga, via South Pittsburg, to Stevenson, would give your company a line under its own control from Chattanooga to Stevenson, a line under its own control from Chattanooga to Stevenson, relieving the Memphis & Charleston from a rental of sixty thousand dollars per annum now paid the Nashville Chatta-nooga & St. Louis Railway Company for trackage over thirty-eight miles between those points, and śccuring a maximum grade of twenty feet per mile, in place of grades of about seventy feet, over which the Nashville Chattanooga & St. Louis Railway is operated. The entire line from Chattanooga to Stevenson has been surveyed, much of the right of way secured, and preparation has been made to let the work of construction.

construction. As under the laws of the State of Tennessee, the board of directors were authorized to purchase such roads as it deemed to be to the interest of the company, and issue the company's bonds in payment therefor, and secure the same by mortgage; and inasmuch as it would be necessary for the company from time to time to construct various other branches and exten-sions to the new cities and industries growing up in the iron and coal regions of Tennessee, Georgia and Alabama, it was

decided that all bonds issued for such purpose should be of one series secured by a single mortgage. The board theredecided that all bonds issued for such purpose should be of one series, secured by a single mortgage. The board there-fore authorized the execution of a mortgage securing so many of a series of fifty year five per cent gold bonds as from time to time it might be found necessary or advisable to issue for such purposes, not exceeding fifteen million dollars (\$15,000,-000) in accrete amount or twenty thousand dollars such purposes, not exceeding fitteen million dollars (\$15,000,-000) in aggregate amount, or twenty thousand dollars (\$20,000) per mile of completed road acquired. Up to this time the issue so authorized has been limited to one million dollars (\$1,000,000) for the acquisition of the Walden's Ridge Railroad and branches.

## RELATIONS WITH MEMPHIS & CHARLESTON RAILROAD.

RELATIONS WITH MEMPHIS & CHARLESTON RAILROAD. The minority stockholders of the Memphis & Charleston Railroad have for some years carried on legal proceedings looking to the abrogation of the lease by which the East Tennessee Virginia & Georgia Railway Company operated the Memphis & Charleston Railroad. Inasmuch as the owner-ship by this company of a majority of the Memphis & Char-leston stock made it desirable that the interest of all stock-holders should be promoted in every way possible, your com-pany was satisfied to have a decree entered cance'ling the lease, which was done on April 29, 1887, in the Chancery Court at Memphis, Tennessee; and thereupon the East Ten-nessee Virginia & Georgia Railway Company turned over all the leased railroad and property to the hoard of directors and officers of the Memphis & Charleston Railroad Company, by whom it has since been operated. whom it has since been operated.

#### MISSISSIPPI RIVER BRIDGE.

MISSISSIPPI RIVER BRIDGE. Previous to the cancellation of the lease, and while the operation of the Memphis & Charleston Railroad was under the control of this company, your board, in the interest of the Memphis & Charleston Company and of the main line of this company, opposed the erection of a bridge over the Mississippi River at Memphis, which opposition has been maintained successfully up to the present. And your board committed itself, in the interest of both companies, to the policy of having substantially a free bridge at Memphis, under the joint management of all railroad companies now or hereafter reach-ing the Mississippi River at that point.

#### WESTERN EXTENSION.

During the existence of the lease your board also caused to be surveyed an extension of the lines of the Memphis & Char-lestion Railroad from Memphis, by the most direct route to Kansas City; and to a connection west of Memphis with the Missouri Pacific system, and with the lines of the St. Louis Arkansas & Texas Railway Company, and partially acquired

rights of way therefor. Fortunately these lines have been extended to the Missis-sippi River at Memphis, so as to obviate any present necessity of construction west of the Mississippi River.

#### ALABAMA EXTENSION.

ALABAMA EXTENSION. As your company's lines in Alabama terminate at Selma, one hundred and fifty miles from the Gulf at Mobile, with the branch extending westward to Meridian, Mississippi, it was determined to extend such lines to Mobile, Alabama, from which point trackage, could readily be secured to New Orleans. In February, 1887, the board of directors, under authority of the laws of Alabama, agreed on behalf of this company that it would guarantee an issue of twenty thousand dollars (\$20,000) per mile of five per centifity year gold bonds on the Mobile & Birmingham Railway Company's road from Mobile to a connection with this company's line near Selma, in con-sideration of the delivery to it of a controlling interest, being a majority of the entire capital of the said Mobile & Birming-ham Railroad. By the assistance thus afforded, the Mobile & Birmingham Company has been enabled to prosecute its work of construction so that it will be able to open its line from its connection with this company's line near Selma to Mobile during the year, and some progress has also been made toward an extension from a point on the Alabama Division near Brierfield, to a connection with the Georgia Pacific Railroad near Birmingham. During the fiscal year a majority of the first preferred stock of this company was acouired by the Richmond & West Pacific

Railroad near Birmingham. During the fiscal year a majority of the first preferred stock of this company was acquired by the Richmond & West Point Terminal Railway & Warehouse Company, and a majority of the board of directors was named by that company. The year's experience has shown that the effect of this change upon the operations of this company is to secure harmonious relations with the entire system of railroad c. ntrolled by that company, including maintenance of rates and the prevention of building extensions by one company into the territory of the other. In all other respects the affairs of the East Ten-nessee Virginia & Georgia Railway Company have been and will be continued to be managed as if no such acquisition had occurred. occurred.

The report of the Vice-President in charge of operation, together with full statistics, are submitted herewith. Respectfully, SAMUEL THOMAS, President.

VICE-PRESIDENT'S REPORT FOR THE FISCAL YEAR ENDING JUNE 30, 1887

## NEW YORK, October 10, 1887.

General Samuel Thomas, President: The East Tennessee Virginia & Georgia Railway Company was incorporated on the 1st day of July, 1886, under the laws of the State of Tennessee, and became the purchaser of the road, property and franchises of the company known under the name of the "East Tennessee Virginia & Georgia Railroad Company.

I respectfully submit the following report of the operations of the read for the fiscal year ending June 30, 1887.

MILES OF ROAD OFERATED DURING THE YEAR.	
East Tennessee Division-	Miles.
Main line, Bristol to Chattanooga	242.0
Ooltewah Cut-olf, Ooltewah to Cohutta	11.5
Nerth Carolina Branch, Morristown to Paint Rock	43.5
Alabama Division— Selma Subdivision, Cleveland to Seima	264.0
Meridian Subdivision, Selum to Meridian.	113.0
Georgia Division-	
Atlania Subdivision, Romo to Macon	158.5
Brunswick Subdivision, Macon to Brunswick.	190.0
Hawkinsville Branch, Cochran to Hawkinsville	10.0

Hawkinsville Branch, Cochran to Hawkinsville..... 

This mileage includes 17.6 miles of the Atlanta Subdivision from Austell to Atlanta, owned jointly with the Georgia Pa-cific Railway Company, and also 18 miles from Lauderdale to Meridian, the property of the Mobile & Ohio Railroad Com-pany, over which this company runs its trains under a con-tract with the Mobile & Ohio Railroad Company.

#### EARNINGS AND EXPENSES

The earnings for the year ending June 30, 1887, have been :
From passengers
From express
From mail
And the expenses : \$4,368,180 74
For conducting transportation
For maintenance of ears 917 163 13

For maintenance of way. For general expenses.	788,944 69 199,802 29 2,901,228 57	l
	Bran and a state of the state o	L
Leaving net earnings	\$1,466,952 17.	ł
Deduct taxes	112,463 15	l

\$1.354.489 02

The gross earnings were \$4,230 68 per mile of road operated. The operating expenses, exclusive of taxes, were 66 42-100 per cent of the gross earnings, and the net earnings \$1,420 77 per mile of road

per mile of road. The o \* ners of the road have reason to be satisfied with the result of the first year's operation; the gross earnings show an increase of \$590,899 52, equal to 15 6-10 per cent as com-pared with the gross earnings of the preceding year, when the same mileage of road was operated by a receiver The large increase in operating expenses is due to the in-creased train and car mileage, and to the fact that extraor-dinary expenses for maintenance of way and equipment, aggregating \$212,621 49, have been charged to operating ex-penses.

penses.

#### FINANCIAL CONDITION. BONDED DEBT.

The Auditor's condensed balance sheet and statement of the bon ied debt, her: to appended, show the company's financial condition on the 20th day of June, 1887.

#### TRAFFIC.

There were transported over the road during the year 830,-196 passengers and 1,946,980 tons of freight. The mileage of passengers was 42,765,468 and of freight 294,677,561.

The average revenue per passenger per mile was 02 54-100 cents, and of freight per ton per mile 01 03-100 cents. Both the local and through freight business show a large

increase.

The local tonnage increased about 261/2 per cent over the business of the preceding year. The principal increase was in coal, coke, pig iron, lumber, marble, rosin, turpe\_tine and

coal, coke, pig fron, function, markey, form, for a grain. It will be seen from the Auditor's statement of classified tonnage that there was transported during the year 561,721 tons of coal and coke; 250,758 tons of lumber; 32,307 tons of pig iron. bloom and scrap; 78,275 tons of ore; 82,731 tons of grain; 42,188 tons of flour; 46,200 tons of rosin and turpentine, and 29,771 tons of marble. The great resources of the country traversed by the road, and the fast that capital and labor are now actively engaged in their development, warrant the belief that the traffic will in the near future show a further increase. PHYSICAL CONDITION. IMPROVEMENT.

in the near future show a further increase. PHYSICAL CONDITION. IMPROVEMENT. At the time the company purchased the road it was known that large expenditures would be necessary to put it in proper condition for the efficient and economical conduct of its busi-ness. A fund was therefore created to partially provide for the expenditures for construction and betterments, in order that the net revenue of the road might not be burdened so heavily as to prevent the payment of such dividends as the stockholders might reasonably expect. There has been expended during the year, in addition to the betterments charge I to operating expenses, for construction, \$414,590 09, and for equipment, \$374,773 32. TRACK.

#### TRACK

bout 5,993 tons of new steel rails have been put in the main

About 5,953 tons of new steel rails have been put in the main line during the year. At the close of the fiscal year there was on the main line 792 miles 940 feet of steel rails, 144 miles 4,256 feet of iron fish-bars and 77 miles 84 feet of old iron chair rail. About 318 miles of the main line were fully and 17 miles partially ballasted.

38

#### SIDINOS.

Eightsen mlles 1,989 feet of new sidings bave been built during the year. The total length of side-track at the close of the year was 151 miles 4,589 feet.

#### ERIDGES, VIADUCTS.

6,061 cubic yards of bridge and culvert masonry have been built during the year. It will be seen from the General Superintendent's report that 3,322 linear feet of old wooden bridges have been replaced by new iron structures, and that 4,970 linear feeot f wooden bridges and trestles have been rebuilt in wood. The Ten-nessee River at Strawberry Plains and Loudon is now spanned by iron bridges. An iron viaduct, 780 feet long, has been built at Raccoon Valley on the Georgia Division, and some work has been done in filling in some of the numerous tres-tles on the Georgia Division of the road. This work should be continued and pushed to completion as rapidly as possible.

### BUILDINGS AND YARDS.

The large new freight depot at Atlanta has been completed and a new and commodious passenger depot has been built at Macon. New passenger and freight houses have been built at Alpha, Mascot, Randolph and McRae. A new freight depot is under construction at Macon. The new freight yard at is under construction at Macon. The new freight yard at Chattanooga has been completed, and ground has been pur-chased at Atlanta to enlarge the terminal facilities at that point. The Atkin House at Knoxville has been purchased with a view of converting it into a passenger depot. The large increase in the business of Knoxville has rendered nec-essary the construction of a new passenger depot and an addi-tional freight depot. Passenger and freight houses are needed at Cave Spring, Childersburg and Cross Plains; also a passenger house at Johnson City. The shops at Atlanta should be com-pleted, and suitable engine-houses should be erected at Chattanooga, Rome and Macon.

#### EQUIPMENT.

EQUIPMENT. Five passenger and four switching-engines have been added to the motive power during the year, and 24 consolidation engines are uncer contract, to be delivered during the present calendar year. At the close of the fiscal year the company owned 156 locomotives, of which 20 need heavy repairs to render them serviceable. Five passenger coaches, 1 baggage and express, 165 box, 600 coal and 100 flat cars, have been purchased during the year. At the close of the year the company owned 4 sleeping cars, 73 box ears, 2 officers' cars, 31 mail, baggage, express and postal cars, 4,627 freight cars and 110 maintenance of way cars.

cars.

#### MISCELLANEOUS.

The company owns a majority of the stock of the Knoxville & Ohio Railroad Company, which company owns and oper-ates a road 65 miles long, running from Knoxville in a north-erly direction to Jellico, where it connects with the Louis-ville and Nashville system of roads. The extensive coal mines which are located on the line of this road at Coal Creek, and near Newcomb and Jellico, furnish the company with a good cheap fuel, and with a large amount of tonnage. Large dep-osits of iron ores are also found on the line of the road, but so

cheap fuel, and with a large amount of tonnage. Large dep-osits of iron ores are also found on the line of the road, but so far no effort has been made to work them. This company also owns a majority of the stock of the Memphis & Charleston Railroad Company, whose road it oper-ated under a lease contract until the 29th of April, 1887, when the Chancery Court of Tennessee dissolved said lease, and the road and property were delivered to the Memphis & Charles-ton Railway Company. A large percentage of the traffic of the Southern rail-roads is competitive with water lines, either directly or indirectly; and the rates on such traffic are therefore not under the control of the managers of such rail-ways. When the Inter-State Commerce Law went into effect it was feared that the fourth, or so-called "long-and-short-haul" section of the law, would be so con-strued as to practically prohibit the railroads from competing with the water lines. The enforcement of the law in accord-ance with this construction would have ruined a large num-ber of the railroads of the South, and would have produced widespread commercial disaster in that section of the coun-try. Happily these disasters have so far been averted by a rational construction and a wise administration of the law on the part of the able Inter-State Commerce Commissioners. A new co-operative fast freight line has been established and is now in successful operation in connection with the

A new co-operative fast freight line has been established and is now in successful operation in connection with the Richmond & Danville system of roads, for the transportation of freight between eastern cities via West Point, Paint Rock, and points accessible by means of the company's road and its connections.

connections. Since the close of the fiseal year the earnings of the road have steadily increased. For July, August and September, the gross earnings from all sources show an increase of \$260,-777 (September earnings estimated), equal to 24 4-10 per cent, as compared with the earnings for the same period of last year; a gratifying evidence of the steady and healthy devel-ment of the resources of the country which is tributary to this important system of roads. The officers, accurts and employees of the company have

The officers, agents and employees of the company have performed their respective duties faithfully and efficiently. Respectfully submitted. HENRY FINK, Vice-President.

The balance sheet of the company on June 30, 1887, was as follows

#### WHITEBREAST FUEL COMPANY.

APPLICATION TO THE NEW YORK STOCK EXCHANGE. NEW YORK, July 10, 1887.

The Whitebreast Coal Mining Company was organized under the laws of the State of Iowa January 16, 1876, and re-incorporated as the Whitebreast Coal Company April 30, 1886. On the 20th of June, 1887, the Whitebreast Fuel Company was incorported under the laws of the State of Iowa, for the purpose of purchasing the business, property and assets of the Whitebreast Coal Company; the purchase was made and transfer completed July 2, 1887, on which date the Whitebreast Fuel Company actively commenced business.

The authorized capital stock of the company is \$2,000,000, of which \$1,300,000 has been issued and paid for. The par value of each share is \$100.

The officers of the company are :

C. Osgood, . J. C. Oszood, . . . . President. C. M. Schenck, Secretary. Wm. Fellowes Morgan, V.-Pres. J. Bryant Lindley, Treas.

J. C. Osgood, William McNett, D. Percy Morgan, C. M. Schenck, Wm. Fellowes Morgan, Heyward G. Leavitt, T. C. Mauro, J. Bryant Lindley, Charles H. Parmelee. Registrar: Mercantile Trust Company, New York. Transfer Agents: William Fellowes Morgan & Co., 80 Broud-way, New York. The bonded indebtedness of the company is \$50,000 five-year 6 per cent bonds and \$150,000 five-year 7 per cent honds; total, \$200,000.

total, \$200,000. The general office of the company is at Ottumwa, Iowa. The company controls 3,866 acres of coal lands, of which 2,836 acres are owned in fee simple and 980 acres are held under a perpetual lease. Of the foregoing lands 3,022 acres are at Cleveland, Lucas County, Iowa; 454 acres at Marys-ville, Marion County, Iowa; and 350 acres at Swan, Marion County, Iowa. These lands are all on the line of the Chicago Burlington & Quincy Railroad. The company has three shafts (two at Cleveland and one at

The company has three shafts (two at Cleveland and one at Swan), fully equipped, and having an actual daily capacity of 2,500 tons. The company employs an average of 1,250 men.

The company employs an average of 1,250 men. The coal ranks as the best coal in the State for steam and domestic purposes. The veins are from 4½ to 7 feet in thick-ness. The Cleveland mines are nearer to all the markets sup-plied than any others with which they come in competition. In a report on the property made June 7. 1887, Prof. J. S. Newberry, of School of Mines, Columbia College, New York, fays:

"I regard the lands owned and controlled by the White-breast Coal Company as the most valuable group of coal prop-erties known to me. From their geographical position with reference to the railroads, and the great coalless areas in Eastern Kansas and Nebraska now so rapidly filling with population, they must enhance in value from year to year; and the excellence and accessibility of the coal are such that the demand for it will be sure to be maintained, and will probably be largely increased. I may also say that I know of no coal enterprise in the whole country more systematically or economically managed. The books of the company show what the profits of the company have been, and it is not too much to say that if the present system of management shall be maintained, the mines may be depended upon to yield a net revenue of from one hundred thousand to one hundred and fifty thousand dollars per annum for many years." The company has a market for its coal throughout Central and Western Iowa, Nebraska and Northern Missouri, and has favorable contracts for the entire fuel supply of the Chicago Burlington & Quincy Railroad between Chariton, Iowa, and Hastings, Nebraska; and of the Union Pacific Railroad from-Council Bluffs, Iowa, to North Platte, Nebraska. \$300,000 has been expended in permanent improvements, buildings, machinery, etc."

\$300,000 has been expended in permanent improvements, buildings, machinery, etc.' The lands of the company have been carefully prospected with diamond core drills, and are known to contain not less than twenty million tons of merchantable coal. The com-pany has secured options on 3.400 acres of adjoining lands at Cleveland, which are now being\_prospected with a view to their surpluse.

Cleveland, which are not contact to the transfer of the purchase. The business from its inception has been successful and profitable. The net profits, after paying all charges, have been as follows for the past four years: \$56,253 39

h	bix montus chung April 00, 1004

I	Year ending April 30, 1887
	The company is not able at present to fully supply the de-
I	Find the provide the provide the start of th

The company is not able at present to fully supply the de-mand for coal, which has been steadily increasing, and has already commenced to sink and equip an additional shaft, which will increase the daily output 1,000 tons, and corre-spondingly increase the profits. It is believed that the business can with certainty be de-pended upon to justify the payment of quarterly dividends of one and three-quarters per cent on the stock issued, and allow an annual sinking fund of from thirty to fifty thousand dol-lars for the purpose of paying the bonded indebtedness and for the purchase of additional lands and the opening and ecuipping of new mines.

equipping of new mines. The company owns stock in the following auxiliary com-panies: Colorado Fuel Company of Denver, Colorado, \$75,-000; Whitebreast Coal & Lime Company of Lincoln, Ne-000; Whitebrea braska, \$23,100.

The company proposes to issue \$200,000 of the capital stock in addition to the \$1,300,000 already issued, making the total issue \$1,500,000. The proceeds of the sale of the \$200,000 additional stock will go into the company's treasury for the purpose of buying additional lands and opening and equipping new mines

The committee recommended that \$1.300,000 of the above-described capital stock be admitted to the regular list. Adopted by the Governing Committee, Nov. 9, 1887.

### NEW YORK CHICAGO & ST. LOUIS RAILROAD CO.

APPLICATION TO THE NEW YORK STOCK EXCHANGE.

#### NEW YORK, Oct. 24, 1987.

The property and franchises of the New York Chicago & St. Louis Railway Company were sold under a decree of foreclosure and sale in the suit of the Union Trust Company of New York, et al., against the New York Chicago & St. Louis Railway Company, et al., in the Court of Common Pleas, for the County of Cuyahoga, Ohio, and were purchased by a Purchasing Committee appointed by and acting under the Agreement of Purchase and Reorganization of the New York Chicago & St. Louis Railway Company, dated February 4, 1887; and said Purchasing Committee caused corporations to be formed in each of the States through which said railway passed, namely, the States of New York, Pennsylvania, Ohio,

Indiana and Illinois, for the purpose of owning and operating the several portions of said railway lying respectively in the States aforesaid.

The New York Chicago & St. Louis Railroad Company was incorporated under the laws of New York with a capital stock of \$4,500,000, composed of 7,500 shares first preferred, 16,500 shares second preferred and 21,000 shares common stock. The Erie & State Lino Railroad Company was incorporated under the laws of Pennsylvania, with a capital stock of \$3,000,000. composed of 5,000 shares first preferred, 11,000 shares second preferred and 14,000 shares common stock. The Cleveland & State Line Railroad Company was incorporated under the laws of Ohlo with a capital stock of \$13,950,000, composed of 22,500 shares first preferred, 52,000 shares second preferred and 65,000 shares common stock. The Fort Wayne & Illinois

22,500 shares first preferred, 52,000 shares second preferred and 65,000 shares common stock. The Fort Wayne & Illinois Railroad Company was incorporated under the laws of Indiana with a capital stock of \$3,550,000, composed of 15,000 shares first preferred, 30,500 shares second preferred and 40,000 shares common stock. The Chicago & State Line Railroad Company was incorporated under the laws of Illinois with a capital stock of \$1,500,000, composed of 2,500 shares first pre-ferred, 5,500 shares second preferred and 7,000 shares com-mon stock. The stock of each of the aforesaid corporations was issued in part payment for that portion of the said rail-way conveyed to it by the Purchasing Committee aforesaid. The New York Chicago & St. Louis Railroad Company and the Erie & State Line Railroad Company, having a capi-tal stock of \$7,500,000, composed of 12,500 shares first pre-ferred, 27,500 shares second preferred and 35,000 shares for pre-ferred and common of the constituent companies being ex-changed for one share of stock, first preferred, second pre-ferred and common of the constituent companies being ex-changed for one share of stock of corresponding preference of the consolidated company. The New York Chicago & St. Louis Railroad Company, were then consoli-dated into one corporation under the name of the New York Chicago & St. Louis Railroad Company and the Fort Wayne & Illinois Railroad Company, were then consoli-dated into one corporation under the name of the New York Chicago & St. Louis Railroad Company, were then consoli-dated into one corporation under the name of the New York Chicago & St. Louis Railroad Company, having a capital stock of \$30,000,000, composed of 50,000 shares first preferred, 110,-000 shares second preferred and 140,000 shares common stock, each share of stock first preferred, second preferred and com-mon of the constituent companies being exchanged for one share of stock of corresponding preference of the consolidated company. company.

company. The railroad of the Chicago & State Line Railroad Company has been leased in perpetuity to the New York Chicago & St. Louis Railroad Company, the capital stock of the said Chicago & State Line Railroad Company being held by the Central Trust Company, of New York, as Trustee under the Mortgage of the New York Chicago & St. Louis Railroad Company, dated October 1st, 1887, for the further security of the bonds issued thereunder executing sufficient shares to consist. issued thereunder, excepting sufficient shares to qualify directors.

The consolidated New York Chicago & St. Louis Railroad Company took possession of its property and went into opera-tion on the first day of October, 1887. The proceedings in foreclosure under which the property

The proceedings in foreclosure under which the property of this Company was purchased were in all respects regular and legal, and all parties in interest were before the Court. Upon this question this Company herewith submits the cer-tificate of Messrs. Butler, Stillman & Hubbard, of counsel for the Purchasing Committee and for the Central Trust Com-pany, of New York, in said foreclosure proceeding. The New York Chicago & St. Louis Railroad Company hereby applies for the listing upon your exchange of the fol-lowing stocks and bonds:

lowing stocks and bonds; First—Its \$5,000,000 first preferred stock, divided into 50,000 shares of \$100 each, entitled to a non-cumulative dividend of not more than 5 per cent per annum, after payment of fixed charges.

Second—Its \$11,000,000 of second preferred stock, divided into 110,000 shares of \$100 each, entitled to a non-cumulative dividend of not more than 5 per cent per annum, after pay-ment of fixed charges and the dividend on said first preferred

Third—Its \$14,000,000 of common stock, divided into 140-, 000 shares of \$100 each, entitled to a non-cumulative dividend of not more than 5 per cent per annum, after payment of the fixed charges and said dividend on the first and second preferred stock.

If there shall be any net earnings in any year after the pay-ments above provided for, they shall be applicable to pay-ment of dividend on all the stock, first preferred, second preferred and common, without discrimination between classes of stock

Fourth—Its total issue of \$20,000,000 of first mortgage bonds, said total issue being 20,000 bonds Nos. 1 to 20,000 inclusive, \$1,000 each, dated October 1, 1887, maturing Octo-ber 1, 1937, and bearing interest at the rate of 4 per cent per annum, payable on the first days of April and October in each year, evidenced by coupons maturing April 1, 1888, and each subsequent April 1 and October 1, until the maturity of the said bonds said bonds.

Fifth-Registered bonds of said issue, being the said bonds the coupons from which have been detached as provided in Article 13 of the Trust Deed.

RONICLE. 677
The foregoing constitute the entire lien of every kind u pone the lines and property of the company. Trust Company of New York, trusteee, under date of O ct. 1, 1887, conveying to said trustee the estate and property, real, personal and mixed, and all fixtures, rights, privileges, franchises, easements, rights under leases, terms and protects, real, personal and mixed, and all fixtures rights, privileges, franchises, easements, rights under leases, terms and protects of all and every kind held and owned or occupied by or belonging to the said party of the first part, including all and singular the lines of ralkroad of the said party of the first part, from Buffalo, in Erfo County, New York, and thence about five hundred and twenty four miles through Erie and Chautauqua counties, in the State of New York, and through the City and Chautauqua counties, for the State of New York, and into and through the City and County of Erlo, in the State of Peansylvania, and into and through the City of Cleveland—Lorain, Erie, Huron, Sandusky, Seneca, Hancock, Putnam and Paulding, in the State of Ohio, and into and through the County of Allen, passing through the City of Fort Wayne, and into and through the Extens of Indiana and Illinois, as the same now exists, to setter with all additional second or third track, branches or of the first part; and also all the right, title and interest of the party of the first part in and to the railroad and properties of the Chicago & State Line Railroad Company, extending from said last mentioned point on the boundary line between the States of Indiana and Illinois, through the Chicago & State Line Railroad Company, extending from said last mentioned point on the boundary line between the States of Indiana and Illinois, through the County of an extension and through the City of Chicago, under the terms of an agreement in tho nature of a perpetual lease, dated September 1, 1887, by and between the said The Chicago & State Line Railroad Company and the Fort Wayne & Illinois Ra copies of which are presented herewith and to which refer-ence is made.

A sinking fund of \$100,000 per annum is to be provided for, to be used for the purchase of such bonds at not more than 102 per cent and accrued interest, and the cancellation of the

102 per cent and accrued interest, and the cancellation of the bonds so purchased; but in any year, when, after advertise-ment, such bonds cannot be purchased for 102 per cent and accrued interest, or in any year when the company shall not have earned at least \$900,000 over operating expenses, such sinking fund shall not be provided; said sinking fund isto be the first fixed charge in each year after payment of the inter-est on all the outstanding first mortgage bonds. The bonds and stocks of this company, the listing of which is herein applied for, are all issued and outstanding, having been transferred and delivered by this company to the pur-chasers of said railroad, property and franchises, in con-sideration of the conveyance of said property and franchises by said purchasers to this company, in accordance with the terms of Article 5 of the agreement of February 4, 1887, for the purchase and reorganization of the New York Chicago & St. Louis Railway, a copy of which is furnished with this application.

operating expenses. Specimen copies of the certificates of first preferred, second preferred and common stocks, and a copy of the bond with a certified copy of the Deed of Trust are filed herewith. Very respectfully, NEW YORK CHICAGO & ST. LOUIS RAILROAD CO.

By ALLYN COX, Secretary.

The committee recommended that the above-described \$5,000,-The committee recommended that the above-described \$5,000,-000 first preferred stock, \$11,000,000 second preferred stock, \$14,000,000 common stock, \$20,000,000 first mortgage 4 per cent gold bonds of 1937, and registered bonds into which same may be converted, be admitted to the regular list, and also that the securities of the New York Chicago & St. Louis Railw y Company be stricken from the list on November 19th, 1887.

Adopted by the Governing Committee, Nov. 9, 1897.

# The Commercial Times.

## CONMERCIAL EPITOME.

FRIDAY NIGHT, Nov. 18, 1887.

The feature of business for the week under review is the active speculation and the rise in values of leading food staples. There has also been an important advance in coal. These are necessaries of life, and their increased price means an enhanced cost of iliving, as well as a better return to the provers of cereals. In cotton, on the contrary, part of the recent improvement has been lost. But whether prices have advanced or declined, speculation has been brisk, wheat showing at times great excitement, stimulated by foreign advices which encouraged the movement. General trade is very good for the sesson, but it is usually quiet as the end of the year approacher.

The speculation in lard for future delivery was comparatively quiet until Wechesday, when in sympathy with the advance in corn a brisk "buill" movement set in which was maintained with increased force on Thursday. To-day the market opened easier, but quickly rallied and made a further advance. Lard on the spot has moved rather sluggishly in sympathy with the sp culation in futures, and closes dull and irregular at 7c. for prime city, 7:30c. for prime Western, 7:25@7 30c. for refined to the Continent and 7:60@7:65c. for South America.

DAILY CLOSING PRICES OF LARD FUTURES.

Saturd'y	. Mond'y	Tuesd'y.	Wednsd'y.	Thursd'y.	Friday
Novemb'r delivery. 6.95	6.96	6.97	7.05	7.15	7.30

Pork is decidedly higher, closing firm and quite active in sympathy with Western advices. Old mcss, \$14; new do., \$14 75@\$15; prime, \$12 50, and clear, \$15 75@\$17 25. Cut. meats are rather firmer; pickled bellies,  $73_{4}@75_{2}c.$ ; shoulders,  $63_{4}c.$ , and hams.  $91_{4}@95_{2}c.$ ; smoked shoulders,  $71_{4}@71_{2}c.$ , and hams,  $101_{4}@101_{2}c.$  Beef and beef hams are held higher, tut remain nominal. Tallow firmer at  $43_{5}@4$  7-16c. Stearine is quiet at  $71_{2}@73_{4}c.$  Oleomargarine is quoted at  $57_{6}@6c.$ Butter is in better demand at 20@28c. for creamery. Cheese is steady; State factory, full cream,  $93_{4}@113_{4}c.$ , and skims,  $3@81_{2}c.$ 

The speculation in Rio coffee has not been active. Prices were unsettled early in the week, but have latterly gained s'rength on a better demand from the regular trade. To-day, however, an early advance was more than lost in the later dealings, cl sing with sellers at 15 90c. for November and December, 15 60c. for January, 15 45c. for February, down to 14 50c. for September; and for December, 1888, the closing sales were at 14 35@14 40c. Coffee on the spot is firmly held, closing with fair cargoes Rio quoted at 18¼@183%c., with a good business doing. Raw sugars are firm but quiet at 5 3-16c. for fair refining Cuba, and 6c. for centrifugal, 96 degrees test. Refined sugars are less active. In molasses there were sales this werk of 20,000 hhds. Cuba, for January to May shipment, at about 24c. here for 50 degrees test.

Kertucky tobecco was more active. The sales for the week are 550 hhds, of which 400 for export. Prices are unchanged. Seed haf tobacco has been more active, the sales for the week aggregating 1,808 cases, as follows: 400 cases 1881-85 crops, Pennsylvania, 9@14½c.; 300 cases 1886 crop, Pennsylvania, 10@11c.; 408 cases 1886 crop, Wisconsin Havana, 6@11c.; 150 cases 1886 crop, Dutch, 9@11c.; 150 cases 1886 crop, New England, 13@16c.; 100 cases 1886 crop, New England Havana, 13 @\$5c.; 150 cases 1886 crop, State Havana, 9@16c., and 150 cases sundries, 7@28c.; also 400 bales Havana, 60c.@\$1 05, and 250 bales Sumatra, \$1 40@\$1 75.

Spirits turpentine is dearer, but closes quiet at  $37\frac{1}{2}$ c. Rosins are easier at \$1 05@1 15 for common to good strained. Tar is dull at \$2@2 05. Crude petroleum certificates were unsettled, and to day closed easier at  $74\frac{1}{2}$ @74 $\frac{5}{2}$ c. Wells news show moderate production and the bears are cautious. Wool has met with a good demand at full prices. Hops are dull.

The speculation in copper has been fairly active, and latterly prices have shown a hardening tandency. The sales to-day were 625,060 lbs. at 12:35c. for November, 12:50c. for Decemher snd 12 60c. for January. Block tin sold to-day at 23% 29c. for February. held at 31c. on the spot. The iron markets are depressed and unsettled. COTTON.

FRIDAY, P. M., Nov. 18, 1887.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening (Nov. 18), the total receipts have reached 284,816 bales, against 301,600 bales last week, 289,174 bales the previous week and 294,434 bales three weeks since, making the total receipts since the 1st of September, 1887, 2,625,161 bales, against 2,157,612 bales for the same period of 1886, showing an increase since September 1, 1887, of 467,549 bales.

The speculation in cotton for future delivery at this market has been calmer, although fairly active, for the week under review, and prices have declined. The movement of the crop has continued large, the weather at the Sou h being good for the season, and the reduced crop estimates made public last week have come to be regarded as too low. The check to the advance brought out many sellers to realiz, but no one seemed inclined to "sell short" and remain so over night. Each decline brought out buyers and a quick rally followed. This was especially the case on Wednesday, when the short crop reports were reinforced by one from Galveston. Yester-day a house at New Orleans of some repute in cotton statistics, put forth an estimate making the crop nearly 6,300,000 bales, and there was some selling under disquieting political advices from the Continent, under which Wednesday's advance was mostly lost, although Liverpoo! and Manchester accounts were better. To day the market openei at a sharp decline, but a den and to cover contra is caused a quick recov-

decline, but a den and to cover contraits caused a quick recov-ery, and a further advance on a 11 port of a fresh short-crop estimate. Cotton on the spot was quoted 1-16c. lower on Tuesday. Yesterday high grads were quoted 1-16c. dearer and low grades 1-16@1%c. cheaper. To-day the market was quiet at 10%c, for middling uplands. The total sales for forward delivery for the week are \$94,200 bales. For immediate delivery the total sales foot up this week 1,614 bales, including 100 for export, 1,514 for consumption, — for speculation and — in transit. Of the above — bales were to arrive. The following are the official quotations for each day of the past week—Nov. 12 to Nov. 18.

The imports into Continental ports this week have been 299.000 bales.

The above figures indicate an *increase* in the cotton in sight to-night of 285,990 bales as compared with the same date of 1886, an *increase* of 319,700 bales as compared with the corres-ponding date of 1885 and an *increase* of 193,654 bales as compared with 1884.

AT THE INTERIOR TOWNS the movement-that is the receipts for the week and since Sept. 1, the shipments for the week, and the stocks to-night, and the same items for the corres-ponding period of 1886—is set out in detail in the following statement.

Towns.         This veek.         Since Sept.1,*87. \* The figures for Louisville in both years are "net."

The above totals show that the old interior stocks have increased during the week 33,174 bales and are to-night 39,375 bales more than at the same period last year. The receipts at 61.

the same towns have been 32,201 bales more than the same week last year, and since September 1 the receipts at all the towns are 261,171 bales more than for the same time in 1886.

QUOTATIONS FOR MIDDLING COTTON AT OTHER MARKET In the table below we give the closing quotations of middling cotton at Southern and other principal cotton markets for each day of the past week.

RECEIPTS FROM THE PLANTATIONS. — The following table indicates the actual movement each week from the planta-tions. The figures do not include overland receipts nor Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the weeklet through the untracted which finally reaches the market through the outports.

	Veek	Receip	ts at the	Ports.	St'k at	Interior	Towns.	Rec'pts	from P	lant'ns.
En	ding—	1885.	1886.	1887.	1885.	1888.	1887.	1885,	1886.	1887.
Oct.	14	231,491	230,288	275,878	119,132	143,852	179,580	280 835	262,565	908,457

Nov.	4									
6.6	11	232,061	273,550	301,800	279,931	317,697	347,022	255,348	911,543	345,861
85	18	270,4 :1	268,598	284,818	909,261	337,180	384,794	290,751	288,079	322,588

The above statement shows-1. That the total receipts from

the plantations since September 1, 1887, are 2,986,125 bales; in 1886 were 2,446,732 bales; in 1885 were 2,458,768 bales. 2.—That, although the receipts at the outports the past week were 284,816 bales, the actual movement from plantations was 322.548 bales, the balance going to increase the stocks at the interior towns. Last year the receipts from the plantations for the same week were 288,079 bales and for 1885 they were 299,751 bales.

AMOUNT OF COTTON IN SIGHT NOV. 18.-In the table below we give the receipts from plantations in another form, and add to them the net overland movement to Nov. 1, and also the takings by Southern spinners to the same date, so as to give substantially the amount of cotton now in sight.

	1887.	1886.	1885.	1884.
Receipts at the ports to Nov.18 Interior stocks on Nov. 18 in		2,157,612	2,165,357	2,220,759
excess of September 1		289,120	293,411	212,324

Tolal In sight Nov. 18	3,276,080	2,661,818	2,671,924	2,581,357
Northern spinners' takings to				

Nov. 18 ...... 590,624 471,839 474,500 384,555 It will be seen by the above that the increase in amount in sight to night, as compared with last year, is 614,262 bales, the increase as compared with 1885 is 604,156 bales, and the increase over 1884 is 694,723 bales.

WEATHER REPORTS BY TELEGRAPH.—Our reports by tele-graph to-night indicate that under the influence of favorable weather conditions picking and marketing continue to make

weather conditions picking and marketing continue to make excellent progress. *Halveston, Texas.*—We have had rain on one day of the week, the rainfall reaching one hundredth of an inch. The thermometer has averaged 66, ranging from 56 to 76. *Palestine, Texas.*—The weather has been dry all the week. Average thermometer 60, highest 76, lowest 38. *San Antonio, Texas.*—It has been showery on three days of the week, the rainfall reaching eighty hundredths of an inch. The thermometer has ranged from 48 to 76, averaging 61. *New Orleans, Louisnana.*—We have had no rain all the week. The thermometer has averaged 64. *Shreveport, Louisiana.*—Rainfall for the week two hun-dredths of an inch. Average thermometer 59, highest 80 and lowest 35.

lowest 35.

Columbus, Mississippi.--We have had rain on one day

Cotumbus, Mississippi.—We have had rain on one day of the week, the rainfall reaching four hundredths of an inch. The thermometer has averaged 50, ranging from 30 to 60. Lelund, Mississippi.—Rainfall for the week thirty-three hundredths of an inch. The thermometer has ranged from 33 to 78, averaging 57. Greenville, Mississippi.—It has been cloudy during the week, but with no rainfall. The thermometer has averaged 55, the highest being 71 and the lowest 40. Clarksdale, Mississippi.—There has been no rain during the week. The thermometer has averaged 56, ranging from

*Clarksdale, Mississippi.*—There has been not ranging from week. The thermometer has averaged 56, ranging from the week. 38 to 74.

Vicksburg, Mississippi.—We have had no rain during the week. The thermometer has ranged from 40 to 77, averaging

Gloster, Mississippi.—Telegram not received. Helena, Arkansas.—The favorable weather has increased the prospective yield of cotton. The crop is moving freely. The thermometer has averaged 57, the highest being 78 and

the lowest 40. Memphis, Tennessee.—There has been no rain all the week. Picking on the uplands is finished and marketing continues free. The thermometer has averaged 57, ranging from 42 to 76. Nashville, Tennessee.—There has been no rain all the week. The thermometer has ranged from 31 to 75, averaging 50.

The thermometer has ranged from 31 to 75, averaging 50. Mobile, Alabama.—No rain all the week. Average ther-mometer 61, highest 79, lowest 43. Montgomery, Alabama.—It has rained on one day of the week, the rainfall being inappreciable. The thermometer has averaged 58, the highest being 78 and the lowest 41. Selma, Alabama.—Rain has fallen on one day of the week, the rainfall reaching fifteen hundredths of an Inch. The thermometer has averaged 55, ranging from 40 to 73. Auburn, Alabama.—There has been no rain all the week, but we had a heavy fog on the 16th inst. The thermometer has ranged from 40 to 73, averaging 57. Birmingham, Alabama.—Telegram not received. Madison, Florida.—Rainfall for the week fifteen hun-dredths of an inch. Average thermometer 55, highest 73, lowest 40.

lowest 40.

lowest 40. Macon, Georgia,—There has been no rain all the week. Columbus, Georgia.—It has rained on one day of the week, the rainfall reaching one inch. The thermometer has averaged 57, the highest being 72 and the lowest 45. Savannah, Georgia.—It has rained very lightly on one day of the week, the rainfall reaching one hundredth of an inch. The thermometer has averaged 58, ranging from 41 to 76. Augusta, Georgia.—The weather has been clear and pleasant all the week, with light fost on Wednesday. Pick-ing in this vicinity is drawing to a close. The thermometer has ranged from 34 to 74, averaging 54. Attanta, Georgia.—No rain all the week. Average ther-mometer 52, the highest being 70 and the lowest 39. No kill-ing frost yet.

Ing frost yet.

Ing frost yet. Albany, Georgia.—Picking is finished and the cotton near-ly all marketed. The thermometer has averaged 57, the highest being 70 and the lowest 44. Charleston, South Carolina.—It has rained on one day of the week, the rainfall reaching four hundredths of an inch. The thermometer has averaged 57, ranging from 42 to 73. Stateburg, South Carolina.—Rain has fallen on two days of the week to the extent of thirty-six hundredths of an inch. Some hail and thunder on Monday, also three frosts during the week. The thermometer has ranged from 36 to 64, averaging 51 °6. the week. Th averaging 51.6.

Wilson, North Carolina.—We have had rain on one day of the week, the rainfall reaching ten hundredths of an inch. The thermometer has averaged 50, the highest being 66 and the lowest 34.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 3 o'clock Nov. 17, 1887, and Nov. 18, 1886.

INDIA COTTON MOVEMENT FROM ALL PORTS.-The receipts and shipments of cotton at Bombay have been as follows for the week and year, bringing the figures down to Nov. 17.

BOMBAY RECEIPTS AND SHIPMENTS FOR FOUR YEARS.

	Shipme	ents thi	s week.	Shipm	ents Sinc	Receipts.		
Year	Great Brit'n,	Continent.	Total.	Great Britain	Conti- nent.	Total.	This Week.	Year.
1887						1,065,000		
1885 1884	1,000		1,000	220,000	472,000	692,000 1,160,000	9,000	1,036,000

According to the foregoing, Bombay appears to show a *decrease* compared with last year in the week's receipts, of 3,000 bales, and an *increase* in shipments of 2,000 bales, and the shipments since Jan. 1 show an *increase* of 52,000 bales. The movement at Calcutta, Madras and other India ports for the last reported week and since the 1st of January, for two years, has heen as follows. "Other ports" cover Ceylon, Tuticorin, Kurrachee and Coconada.

	Shipme	nts for th	e week.	Shipments since January 1.			
	Great Britain.	Conti- nent.	Total.	Great Britain.	Continent.	Total.	
Calcutta- 1887 1886				99,000 61,000	127,000 37,000	226,000 98,000	
Madras- 1887 1886 All others-		1,000	1,000	57,000 37,000	13,000 5,000	70,000 42,000	
1887 1880	2,000		2,000	87,000 66,000	34,000 51,000	121,000 117,000	
Total all— 1887 1886	2,000	1,000	3,000	243,000 164,000	174,000 93,000	417,000 257,000	

The above totals for the week show that the movement from the ports other than Bombay is 3,000 bales more than the same week last year. For the whole of India, therefore, the total shipments since January 1, 1887, and for the corresponding periods of the two provious years, are as follows :

EXPORTS TO EUROPE FROM ALL INDIA.

Shipments	18	387.	18	886.	1885.	
to all Europe from—	This week.	Since Jan. 1.	This wcek.	Since Jun. 1.	This week.	Since Jan. 1.
Bombay All other ports.	6,000 3,000	1,065,000 417,000	4,000	1,013,000 257,000		692,000 215,000
Total	9,000	1,482,000	4,000	1,270,000	0,000	907,000

ALEXANDRIA RECEIPTS AND SHIPMENTS.—Through arrange-ments we have made with Messrs. Davies, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The follow-ing are the receipts and shipments for the past week and for the corresponding week of the previous two years.

Alexandria. Egypt, Nor. 16.	1887.		1	886.	1885.	
Receipts (cantars')— This week Since Sept. 1		90,000 16,000		90,000 82,000		80,000 33,000
	This week.	Since Sept. 1.	This week.	Since Sept. 1.	This week.	Since Sept. 1.
Exports (bales)— To Liverpool To Continent	14,000 16,000					61,000 29,000
Total Europe	30,000	124,000	25,000	102,000	23,000	90,000

\* A cantar is 98 pounds.

This statement shows that the receipts for the week en ling Nov. 16 were 190,000 cantars, and the shipments to all Europe 30,000 bales.

MANCHESTER MARKET.—Our report received by cable to-night from Manchester states that the market for yarns is dull but steady, and that shirtings are quiet. We give the prices for to-day below, and leave those for previous weeks of this and last year for comparison:

	[	1887.		[	1886.	
	32s Cop. Twist.	814 lbs. Shirtings.	Oott'n Mid. Uptds	32s Cop.	84 lbs. Shirtings.	Colt n Mid. Uplde

EUROPEAN COTTON CONSUMPTION FOR OUTOB R -- We have received to-day (Friday), by cable, Mr. Elliso i's figures for O stober, the first month of the new cotton season. We have also received the revised totals for last year and give them for comparison. The spinners' takings in actual bales and pounds have been as follows:

In October.	Great Britain.	Continent.	Total.
For 1887. Fakings by spinnersbales Average weight of hales Fakings in pounds	\$24,000 425 137,700,000	426	522,000 425·4- 226,308,000
For 1886. Takings by spinnersbales Average weight of bales Takings in pounds	436	420	405,000 430 174,212,000

According to the above, the average weight of the deliveries in Great Britain is 425 pounds per bale in O tober this season, against 436 pounds during the same time last season. The Continential deliveries average 436 pounds, against 420 pounds last year, and for the whole of Europe the deliveries average 425 4 pounds per bale, against 430 pounds last season. Our dispatch also gives the full movement for this year and last year in bales of 400 pounds each.

In October.	Great Britain.	Continent.	Total.	
For 1887. Spinners' stock October 1 Takings in October	51,000 811,0.0	167,000 222,000	218,000 566,000	
Total supply Consumption 4 weeks	395,000 283,000	389,000 284,000	784,000 572,000	
Spinners' stock Nov. 1 For 1886. Spinners' stock October 1	55,000	103,000	212,000	
Takings in October Total supply	274,000 329,000	161,000	435,000	
Consumption 4 weeks Spinners' stock Nov. 1	288.000	272,000	560,000 96,000	

The foregoing indicates that spinners' stocks are now 212,-000 bales, against 96,000 bales last year,

LARGE COTTON FIRES .- An enormous amount of cotton has been destroyed by fire at the ports and interior towns and on the ocean thus far this season. The losses at Savannah on steamers loading were a feature for a time, two of them oc. curring in one week and four of much less importance being reported subsequently in as many days. Since then other outports have suffered in the same manner in some measure. But the most important losses have occurred at interior towns within the last seven days, resulting in the destruction (if present estimates are fully confirmed) of something like 30,000 bales. The list of casualties includes the loss of about 6,000 bales at Memphis on the 11th inst., 3,200 bales at Green. ville, Texas, and nearly 5,000 bales at Little Rock on the 14th, and finally over 13,000 bales at Memphis November 17. This is a very surprising list of casualties.

JUTE BUTTS, BAGGING, &C .- A fair demand is reported for bagging and orders are coming to hand for present wants. Prices are stealy and sellers are quoting 55%@534c. for 11/2 b3., 6@61/sc. for 13/ 1bs, 61/2@65/sc. for 2 lbs. and 7@71/sc. for standard grades. Only a limited inquiry is reported for butts, and small orders are being filled at 21/4@23%?. for paper grades and 23%@21/2c. for bagging qualities, but on a quantity, less would buy.

EAST INDIA CROP .- The following is from Messrs. Gad. dum Bythell & Co.'s report, dated Bombay, Oct. 14:

During the earlier part of the week the weather up-conntry continued fine and dry, but within the last day or two timely showers have fallen in the Oonra districts. Unfortunately, the rain has not, so far, extended to Guzera and Kattywar, where it is most needed, and prospects in these districts are still uncertain.

COMPARATIVE PORT RECEIPTS AND DAILY CROP MOVEMENT. -A comparison of the port movement by weeks is not accurate, as the weeks in different years do not end on the same day of the month. We have consequently added to our other standing tables a daily and monthly statement, that the reader may constantly have before him the data for seeing the exact relative movement for the years named. The movement since September 1, 1887, and in previous years, has been as follows.

Monthly		Year Béginning September 1.						
Leceipts.	1887.	1886.	1885.	1884.	1883.	1882.		
Bept'mb'r October:					3-13,812 1,046,092	326,656 980,584		
Pero'tage			1,441,266 26 <sup>.</sup> 71	1,435,830 30.06	1,389,904 28.66	1,307,240 21.72		

This statement shows that up to Oct. 31 the receipts at the ports this year were 474,527 bales more than in 1886 and 426,914 bales more than at the same time in 1885. By adding to the totals to Oct. 31 the daily receipts since that time we shall be able to reach an exact comparison of the move ment for the different years.

	ots Nov. 18		38.42	43.59 -	41.32	32.96		

This statement'shows that the receipts since Sept. 1 up to to-night are now 520,525 bales more than they were to the same day of the month in 1886 and 551,552 bales more than they were to the same day of the month in 1885. We add to the table the percentages of total port receipts which had been received to Nov, 18 in each of the years named,

THE EXPORTS OF COTTON from New York this week show a decrease compared with last week, the total reaching 21,602 bales, against 31,394 bales last week. Below we give our usual table, showing the exports of cotton from New York, and the direction, for each of the last four weeks: also the total exports and direction since September 1, 1887, and in the last column the total for the same period of the previous year.

## BREADSTUFFS.

FRIDAY, P. M., November 18, 1887.

Active speculation in wheat and corn, with a sharp advance in prices, are the features of the week in breadstuffs.

The flour market has been more active, and prices have made a partial advance, but the improvement has rested wholly upon the better market for wheat. Buyers have paid higher prices very unwillingly, though purchasing more (reely when they could do so at late quotations. To-day the market was quiet.

Wheat has been active and buoyant. The market showed much excitement on Wednesday and Thursday, the dealings many times exceeding the usual amount. Stronger foreign advices, including disquieting political nows from the Continent, were the chief elements of strength, but reduced receipts at the West and a general revival of confidence in speculative circles were elements of strength, and higher prices kept business on the spot within narrow limits. Today a decline of 1c. a bushel led to some revival of exports, 88,000 bushels being taken, mostly No. 2 red winter, at 8734 @ SSc. delivered.

December '88 delivery	9438	9178	9513	9638	93	9578

Indian corn has advanced about as much as wheat. The impulse given to the speculation for the rise, which was caused by the Bureau report, has been continued from sympathy with the major staple; but, as in that, the higher prices have greatly curtailed the export movement. To-day the market was unsettled with an irregular decline, most decided for the distant options.

## THE DRY GOODS TRADE.

New York, Friday, November 18, 1887. The market for dry goods has not undergone any material change the past week. The demand at first hands was irregu-lar, but a large business in staple cotton soods was done by some of the commission houses, and very fair ordors for car-tain spring and summer fabrics were placed—for later delivery—by jobbers und the manufasturing trade. Opera-tions in sessonable goods required for immediate distribution were comparatively light, other than a few specialties adapted for the coming holdsy trade having been more or less quiet in commission and importing circles. The jobbing trade was moderate as is usually the case between seasons, but a very fair package business in domestics, &c., was done by a few of the leading jobbers, and fancy holiday goods were dis-tibuted in considerable quantities. Large lines of silks, laces, &c., were disposed of through the medium of the auction rooms, and better prices were obtained in this con-nection than for some time past. NEW YORK, Friday, November 18, 1887.

nection froms, and better pines were obtained in this con-nection than for some time past. DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending November 15 were 5,108 packages, valued at \$324,554. These shipments include 1,300 to China, 1,091 to Great Britain, 970 to Africa, 881 to South America, 843 to the West Indies, 176 to Central America, 175 to Mexico, and 172 to all other countries. Since the 1st of January the exports aggregate 166,605 packages, valued at \$10,097,893. Of this total China has had 78,658 packages valued at \$3,732,734; and 35,935 packages, valued at \$2,579,868, have gone to South America. For the similar period of 1886 the exports to all ports reached 180,512 packages and in 1885 were 158,531 packages. There was a steady business in brown and bleached cottors, and nearly all leading corporation makes were slightly advanced by mill agents. Colored cottons were relatively lees active then plain goods, but prices are very firm, and some kinde have appreciated. Print cloths were in moderate demand and dearer, extra 64x64s having advanced to 3% c. and 56x60s to 315-16c. Stocks last Saturday and for the three previous years were as follows:

The second se	1887.	1886.	1885.	1884.
Stock of Print Oloths-	Nov. 12.	Nov. 13.	Nov. 14.	Nov. 15.
Held by Providence manuf'rs	195.000	43,000	234,000	430,000
Fall River manufacturers	29,000	111,000	216,000	341,000
Providence speculators	44,000	42,000	250,000	311,000
Outside speculators (est)	60,000	20,000	75,000	150,000
				-

Printed calicoes, other than fine sateens, shirtings, indigo-blues, and choice styles of fancies adapted to the holiday trade, ruled quiet, but there was a good business in dress ginghams, seersu kers, and other woven wash fabrics, while white goods were in steady request for next season.

white goods were in steady request for next season. DOMESTIC WOOLEN GOODS.—The market for men's-wear woolens was devoid of animation as regards new business, but there was a good steady movement in light-weight cassimeras, cheviots, worsteds, etc., on account of former transactions. and a light re-order demand for heavy clothing woolens, overcoatings. etc., was reported by the commission houses, Stocks of clothing wocleus are not as a rule redundant—be-cause of curtailed production—and really desirable makes are cause of curtailed production—and really desirable makes are steadily held. Jersey cloths and stockinets were in fair re-quest by manufacturers, and a mederate business was done in satinets, while Kentucky jeans and doeskins ruled quiet but steady in price. Woolen dress goods were in improved

# demand for next season, but worsted fahrles were lightly dealt in by package huyers, and transactions in finnels, blankets, carpets, shawls, skiris, wool hosiery and heavy underwear were strictly moderate in the aggregate, selections having been almost wholly of a hand-to-mouth character.

685

Fouriest wholy of a hand-to-mouth character. Fouriest Day Goops.—At first hands the demand for Imported goods was strictly moderate, and the jobbing dis-tribution was light and unimportant. Silks, laces, hosiery and gloves were offered in libersl quantities through the auc-tion rooms, and mest of the sales were attended with satis-factory results, black silks and laces in particular having brought better average prices than have been realized at pub-ilo cale for some time past.

#### Importations of Dry Goods.

The importations of dry goods at this port for the week ending Nov. 17, 1887, and since Jun. 1, and the same facts for the corresponding periods of last year are as follows:
