| Total all cities for week | \$1,133,263,380      | \$968,417,007 | +17.0     |  |  |  |

The full details of clearings for the week covered by the above statement-will be given next Saturday. We cannot, of course, furnish them to-day, bank clearings being made up by the various clearing houses at noon on Saturday, and hence in the above the last twenty-four hours of the week have to be in all cases estimated, as we go to press Friday night. Below are our usual detailed figures for the previous week, that is covering the returns for the period ending with Saturday noon August 16, with the comparative totals in 1889.

A small increase in the aggregate dealings on the New York Stock Exchange accounts in part for the addition to clearings at the city during the week. The total for all other cities, however, exhibits a falling off, so that the gain in the whole country compared with the preceding week reaches only \$6,092,293. Transactions on the Produce Exchange continue of large volume, but in cotton and oil operations are Ontside New York ...... 411,051,024 355 274 400 161 441 858 440 49) 4 rather small.

The satisfactory character of the current returns is more The satisfactory character of the current returns is more clearly apparent when comparison is made with the like week a year ago. The subjoined statement indicates that the gain over 1889 in the aggregate for all the clearing houses is 15.5 per cent, the increase at New York reaching 14.9 per cent. At but five cities are the figures below those of last year, and in no instance is the decline heavy. On the other hand, and as for a long time past, there are a number of points at which the percentages of increase are phenomenally large, Buffalo and Duluth for instance recording gains of 158.8 and 113.3 per cent, respectively, while at Sioux City the excess is 86.1 per cent; at Tacoma, 67; Memphis, 66.4. Cleveland, 61.3; Fort Worth, 60, and Chattanooga, 52.9 per cent.

## THE FINANCIAL SITUATION.

The market for money has been stringent and at Last Saturday's bank times demoralized this week. return revealed the fact that the Clearing House institutions as a whole were \$655,725 below the limit of 25 per cent reserve to liabilities and that four of the larger banks held \$2,822,400 surplus, indicating that the others were in no condition to loan. Consequently, early in the week the demand for money at the Stock Exchange became so urgent as to make it evident that the supply was inadequate to the demand. Naturally every one looked to the Treasury for relief. Tuesday, after the close of business on that day, Secretary Windom issued a circular announcing that the department would redeem at par 15 millions of the 41 per cent bonds with interest to and including May 31, 1891, upon presentation on or before the 30th day of August. This proposal tended for a time on Wednesday to remove the disquietude, but later in the day it was seen that the offerings of bonds would be comparatively small, and it was then felt that something more effective would have to be done before relief could be obtained.

On Thursday the situation was almost beyond parallel. On Wednesday the highest point reached on call had been 35 per cent, but on Thursday money was bid up to  $\frac{1}{2}$  of 1 per cent commission and interest, or say at the rate of 189 per cent, and during the entire day there was great feverishness and anxiety, even down to the close of business. It was now evident that something further must be done, and at once, to restore confidence; so late in the afternoon Secretary Windom issued a new order rescinding the one above referred to, and offering to redeem at par 41 per cent bonds to an amount not exceeding 20 million dollars, and immediately after September 1 to prepay without rebate all the interest on said bonds to and including August 31, 1891. It was explained at the Treasury Department that the slight delay in making the prepayment of interest on the twenty millions of bonds was made necessary by the fact that the law does not permit the anticipation of more than one year's interest. The new offer therefore virtually gives to the bondholders to-day all they can get, principal and interest, when the bonds fall due the first of September, 1891, and consequently would seem to be a sufficient iu. ducement to bring in the bonds at once. Yesterday, however, the feverishness in the money market continued, the rate for call money reaching as high as 141 per cent about noon; but in the afternoon under quite liberal offerings of bonds and prompt payments for the same (the Assistant Treasurer here alone having paid for over 14 million dollars before the end of business), the rate declined sharply, transactions at the close being made as low as 3 per cent.

Some disappointment has been felt because the currency payments for Mint purchases of silver bullion do not get into the banks until long after the day of purchase. This has arisen partly because the deliveries are tardy, partly because in a majority of cases the bullion has been accepted subject to examination by assay, and partly because the bullion is not all deposited at New York, and when it is not the superintendent at the point of delivery pays for the same by a check upon the United States Assistant Treasurer at New York, and that official furnishes the new Treasury notes. This delay will, at least in one particular, be relieved hereafter, for the Director of the Mint issued an order Thursday authorizing

the Superintendent at Philadelphia to make advances on silver bars as soon as received; but we have not learned whether this order applies to the other points of delivery. At all events, up to this time the certificates issued on purchases of bullion have made but slight impression upon the money market.

So far as represented by bankers' balances, the extremes for call money this week have been 3 and 189 per cent. It is difficult to say how much money was loaned at the highest figures, but it is probable that few lenders obtained these rates. Renewals were made at 15 to 25 per cent on Weduesday, Thursday and Friday, and no doubt considerable amounts were loaned the last two days at from 25 to 50 per cent. It is likely that the average for the week was not far from 25 per cent. Banks and trust companies are quoting 6 per cent as the minimum, quite a number of them never taking anything beyond the legal rate, while some have obtained 8 per cent and higher. Of course in such a con dition of the market little or nothing is done in time loans. Those who have money to lend prefer to use it in the call loan branch of the market, and borrowers do not care to make engagements at rates which may be regarded as very high later in the season, for everyone naturally looks for speedy relief. Quotations for commercial paper are also entirely nominal.

Rates for money in London are lower. The Bank of England minimum was reduced on Thursday to 4 per cent from 5 per cent, at which it had stood since July 31, The cable reports discounts of sixty to ninety-day bank bills in London at 31 per cent. No doubt the drop in the official minimum was owing primarily to the better condition of the Bank. Last week, it will be remembered, the gain in bullion was a net of £1,465,201, the total net import being £1,580,000. This week the net gain reported is £566,000; this, as we are advised by special cable to us, was due to imports from miscellaneous sources and "bought" in the open market of £475,000, to receipts from the interior of Great Britain of £191,000, and to exports to the Argentine Republic and Portugal of £100,000. The Bank of England now holds £22,653,225 bullion, against £21,141,902 at the same time a year ago. The open market rate at Parisis 2½ per cent, and at Berlin and Frankfort it is 3 per cent.

Our foreign exchange market as a matter of course has been greatly unsettled this week by the activity in money. On Tuesday Brown Brothers & Co. posted 4 84 for long and 4 88 for short, and this reduction was followed by the other drawers. On Thursday Kidder, Peabody & Co. reduced the sight rate to 4 871 and the long rate to 4 831; the Bank of Montreal also posted sight rate at 4 872, and the Bank of British North America posted 4 831 for long and 4 87 for short. The rates for actual business not only for sterling but for francs and other Continental exchanges were so demoralized Thursday afternoon that no accurate quotations could be made, and dealings were at irregular figures. Yesterday the nominal rates were further reduced, Brown Brothers & Co. quoting 4 871 for short and 4 831 for long, the Bank of British North America 4 831 and 4 87, the Bank of Montreal 4 83 and 4 861 and Kidder, Peabody & Co. 4 831 and 4 871. In the afternoon, under easier money, the market was steadier, and the Bank of Mentreal advanced to 4 831 and 4 87. Bankershave been making sterling loans to brokers against stocks and these bills have been sold at large concessions. Of course so long as money continues active the demand for remittance

The trade situation remains unchanged. Our industries are in a state of activity, and the volume of business continues large. As far as crops are concerned, the outlook is possibly a little better than ten days ago, many sections having had rain which it is believed did not come too late to do some good. Iu any event, however, the yield of corn, wheat and oats will be short, and we shall have to rely on last season's surplus to help us out, this surplus being fortunately large. In the anthracite coal trade the prospect is regarded as somewhat more encouraging, as the companies seem more disposed to live up to the policy of restricting production. For the week ending August 16 the amount of coal mined was 47,371 tons less than in the corresponding period last year. Of this reduction 45,119 tons occurred in the Schuylkill region alone, and is therefore the more noteworthy, since it was in that region, as claimed, that the policy of restriction had been previously disregarded.

It is interesting to note that while the results of their coal-mining operations can hardly have been satisfactory to most of the anthracite companies, the results from their railroad business are proving decidedly better than a year ago. Evidence of this fact is furnished in the returns for the quarter ending June 30, a number of which were filed with the Railroad Commissioners at Albany the present week. The leased lines in New York of the Lackawanna constitute the most prominent of these, and there we find gross earnings of \$2,106,243 for the three months in 1890, against only \$1,785,057 in the corresponding period of 1889, and net earnings of \$1,003,014, against \$807,750. The improvement in the latter case is almost 25 per cent. The coal business last year was poor, so it may be thought that the present gains mark simply a recovery of what was lost then. But the gross earnings of the Lackawanna lines in that quarter of 1889 had shown only a trifling falling off, while the net actually had been a little better than for the corresponding period of 1888. The Syracuse Binghamton & New York is another road controlled by the Lackawanna, though its operations are reported separately. The figures in that case are much smaller, but both gross and net show gains. The Delaware & Hudson lines tell the same story. Thus the Albany & Susquehanna reports gross of \$921,308, against \$826,550; the Rensselacr & Saratoga \$694,481, against \$572,324, and the New York & Canada \$334,378, against \$226,076. It will be observed that the ratio of increase is quite heavy. The net of the Albany & Susquehanna, owing to heavier expenses, is slightly less than for the quarter in 1889, standing at \$304,242, against \$321,771; but on the Rensselaer & Saratoga and the New York & Canada there is quite a gain, the net being \$266,940 against \$195,876 for the one, and \$115,492 against \$70,941 for the other. It will be instructive to have the combined results for these various lines in the Lackawanna and Delaware & Hudson systems, so we have prepared the following :

| QUARTER ENDING JUNE 30. |                 |           |                    |           |               |           |  |  |
|-------------------------|-----------------|-----------|--------------------|-----------|---------------|-----------|--|--|
|                         | Gross Earnings. |           | Operating Expenses |           | Net Earnings. |           |  |  |
|                         | 1890.   1889.   |           | 1890,   1889.      |           | 1890.         | 1889.     |  |  |
|                         | 8               | 8         | 8                  | 8         | 8             | 8         |  |  |
| Del. Lack. & W          | 2,106,243       | 1,785,057 | 1,103,220          | 977.307   | 1.003.014     | 807,750   |  |  |
| Syr.Bing. & N.Y.        | 240,940         | 240,100   | 120,466            | 121.409   | 120.474       | 118,700   |  |  |
| Albany & Snsq           | 921,308         | 826,530   | 617,066            | 504.779   | 804.242       | 321,771   |  |  |
| Renss. & Sar            | 691,481         | 572,324   | 427.541            | 376,448   | 266,910       | 195,876   |  |  |
| N. Y. & Canada.         | 331,378         | 226,076   |                    | 155,135   | 115,492       | 70,941    |  |  |
| Total                   | 4,303,350       | 3,650,110 | 2,493,188          | 2.135.078 | 1.810.162     | 1.515.038 |  |  |

This gives a better idea of the aggregate extent of the gain on these coal roads. Gross earnings for the

quarter, it will be seen, have risen from \$3,650,116 to \$4,303,350, or over \$653,000, while the net is up to \$1,810,162 from \$1,515,038. The Philadelphia & Reading is another illustration of the same kind. For the six months to June 30 gross earnings are \$9,661,527, against \$8,469,870, and net \$3,888,985, against \$3,097,-707, while the operations of the Coal & Iron Company also show very decided improvement. The Central of New Jersey, on the other hand, appears to be an exception to the rule, though only in very small degree. Gross earnings show a slight increase both for the month of June and the six months ending with June, but net stands at \$\$551,744 against \$564,674 for the month, and \$2,400,367 against \$2,529,925 for the halfyear.

Outside of the coal roads the most prominent feature in the current returns of earnings is still the great increase in expenses which appears in so many cases. The Baltimore & Ohio report for July has been issued this week, and with gross increased \$105,055, net has declined \$50,869, owing to an augmentation of \$155,924 in expenses. The Illinois Central for the same month has increased its gross \$2,735, but diminished its net \$121,848, expenses having increased \$124,583. Then we have had this week the quarterly statements to June 30 of the Lake Shore & Michigan Southern and the Nickel Plate (New York Chicago & St. Louis), which reveal the same tendency. The Nickel Plate, as compared with the quarter ended June 30, 1889, has increased gross from \$1,032,748 to \$1,319,211, but net only from \$236,685 to \$269,985, expenses having been added to in the sum of \$253,163. The Lake Shore actually shows lower net than in the corresponding quarter of 1889 (the figures being \$1,569,074 against \$1,623,480), though the gross was enlarged no less than \$411,075. We have many times set out the reasons for this enhancement of operating cost. In the first place, the roads are doing a much heavier business; in the second place, rates are low and the margin of profit small, and in the third place managers are taking advantage of the existing period of prosperity to put their properties in good condition through extra repairs and renewals.

Of course there are a good many roads which submit very favorable statements of net, and among these some of the Southern roads are quite prominent. The Richmond & Danville system for June reports net of \$136,134, against \$57,456 last year; the Cincinnati New Orleans & Texas Pacific, \$122,000, against \$75,000; the New Orleans & Northeastern, \$29,000, against \$3,824 (some of the minor roads in the Erlanger system show losses); the Georgia Railroad, \$41,552, against \$10,431; the South Carolina, \$21,910, against \$5,005; the Chesapeake & Ohio, \$61,016, against \$25,-969; the Elizabethtown Lexington & Big Sandy, \$25,-683, against \$14,659; the Kentucky Central, \$39,078, against \$31,853; the Georgia Southern & Florida, \$22,-536, against \$11,242; the Petersburg, \$18,792, against \$3,162; the Shenandoah Valley, \$16,825, against \$3,-712, &c., &c.

Since the absorption of the Chicago Burlington & Northern by the Burlington & Quincy the monthly reports of earnings of the road have been discontinued. We are able to present, however, the following comparative statement for June and the first six months.

| Jui                         | re          | -Jan. 1 10 | June 30   |
|-----------------------------|-------------|------------|-----------|
| Chic. Burl. & North,- 1890. | 1889.       | 1890.      | 1889.     |
| Gross earnings              | \$141,861 . | \$903,476  | \$932,295 |
| Operating expenses 95,906   | 101,060     | 589,935    | 593,595   |
| Net earnings \$53,201       | \$40,801    | \$313,541  | \$338,700 |

For the half-year both gross and net earnings fall slightly behind those of the corresponding period in 1889, but for June both show improvement, the net standing at \$53,201, against \$40,801.

It is almost needless to say that our stock market has been quite excited, and that prices have been depressed and lower. With the bank statement showing the banks to be below the legal reserve, with money on call quoted at 189 per cent a year, with threats of an extension of the New York Central strike so as to involve all the Vanderbilt lines-under such conditions, and operators for lower prices alert to press their advantage, there could be but one outcome, namely severe depression and a great shrinkage in values. No class of stocks escaped from the effects of these influences, in most cases the fall in prices being very heavy, and yet fluctuations both up and down have wide and sudden, the market being been very sensitive and easily responding to the promise of easier money or reports to that effect. There was a decided recovery on the announcement of the first offer of the Secretary to buy  $4\frac{1}{2}$  per cent bonds, and again vesterday on the announcement of the second offer. Some favorable news bearing on the actual value of stocks, such as the restoration of rates to Texas points and the advance to go into effect next Monday in the West, has not attracted much attention in view of the overshadowing importance for the time being of the monetary situation.

The following gives the week's movements of money to and from the interior by the New York banks.

Included in the above payments were \$1,584 in silver coin, and \$2,735,437 in checks drawn against gold deposited in the Sub-Treasury, and \$800 in new Treasary notes.

## OUR SUBSTITUTES FOR MONEY.

Facts set out in our "Financial Situation" of to-day become quite suggestive when brought together so as to reveal their relationship. They help to disclose the reason why we are, and have been in recent years, so dependent each fall upon new issues of currency by the Treasury Department for effecting crop and trade movements.

Money in London this week has ruled at about  $3\frac{1}{2}$  per cent, closing yesterday for the discount of sixty to ninety-day bank bills at  $3\frac{1}{4}$  per cent.

Money in New York this week has ruled on call at an average of 25 per cent, large amounts having been loaned at 50 per cent; last week the average was 10 per cent. Commercial paper has been practically unsalable at any price either week.

London at present is about six days off from New York by steam and six minutes by cable. The two financial centres are therefore next-door neighbors. More than that, commerce has made them one, tying them together so closely that the floating capital of London cannot help moving to New York when by so doing it secures the opportunity to earn more than it ean earn staying at home. Water would run down hill no more surely than capital, if unobstructed, would flow here with this inequality, or even a much smaller inequality, in interest rates prevailing. Any foreign banker will confirm what we have said.

It follows from the foregoing, that were it not for the existence of barriers which have hindered such a movement, three millions sterling of gold (equal, say, to the 15 millions of dollars which the Treasury has been trying so hard to get out) would be as nothing compared with the millions of English capital that would be at the command of our industries.

In the light of such facts, is it not worth while to inquire what are these barriers. Here is a source of supply from which, in any healthy condition of our trade and finances, we ought to be able to obtain all the currency needed to keep our money market quite close to the current markets in Europe, and this supply is only six days distant. Yet money, not now alone, but for weeks together, keeps up to 10 per cent and higher, interfering with legitimate business of every kind, and this is all happening while we stand just in sight of piles of capital anxiously waiting for a chance to be invested at say 5 per cent or less and going around the world to find the opportunity.

We know no place better than Wall Street to find out the cause for this anomaly. There are a great many houses there that loan foreign money. Suppose one of our Southern or Western friends who thinks that the only thing needed to make floating capital abundant is for the Government to stamp paper or metal with "legal tender"-suppose such a friend should accompany us, for the sake of the information to be gained, while we endeavor to obtain a loan from one of these firms. We find money-plenty of it; and as we offer good security there is no objection made on that score. But read the contract the borrower is obliged to sign. Does not one soon find out what is the chief fear that is obstructing the free flow of capital. The agreement presented for the borrower's signature reads that the principal and interest must be paid in "gold." If one refuses to make that engagement, the alternative is, the money is not obtainable. Obviously that single fact says as plainly as words can say it, we like your security but we are afraid of your currency.

Some may claim that this word "gold" in the agreenient is no new thing; it was not put there this fall. That is true. The same word was in the agreement last year, and even before. That admission, however, does not relieve the situation in the least. It only shows that the fear has existed months back, and that the mind of the foreign capitalist was a year ago, and now is, in just that suspicious state when distrust increases easily.

Taking that as the starting point then, note whether there are not now in this same line any new sources of anxiety developing. Ask the first person you may meet of any financial experience and of mature years on the Street to-day. Will he not tell you that nothing could be better adapted for developing anxiety than this wild and senseless speculation in silver now in progress? Of course it is an undertaking easy enough to engineer through the earlier stages of its progress, but no one can be deceived in either Europe or America as to its lack of permanency. A rise from 42d. per ounce to 54d. per onnce in the short time which has elapsed between the dates of those quotations marks the whole proceeding as a speculative venture. It will not reassure Europe, but, on the contrary, it stimulates their fears; and, more than that, it can but force them to hold off from taking any part in a movement so purely illegitimate.

But what we had chiefly in mind was, that this affair is a world-wide, self-advertised announcement of the weakness existing in our currency. We may, to be sure, get gold from Europe when money goes up to 100 to 200 per cent; so does Buenos Ayres in the day of its deepest adversity. That does not affect the point we have been suggesting. What we desire to enforce is that a vicious currency is putting us out of the easy reach of European capital. Hence it is that we have to go to Treasury vaults for relief at each recurring crop movement.

## THE SOUTH CAROLINA RAILWAY.

It is the usual course for railroad properties when placed in receivers' hands to show increasing expenses and declining net earnings. The South Carolina Railway, under Receiver Chamberlain's management, seems to be proving a notable exception to the rule. For not only are the road's gross receipts steadily increasing, in common with other Southern properties, but the receiver appears to have found it possible also to reduce expenses, making a very decided improvement in net revenues. A few weeks ago we gave the results for the five months from January 1 to May 31, showing gross earnings of \$611,589 for 1890, against \$550,266 for 1889, and net of \$224,692, against \$121,482. Now we have the figures for June and the twelve months ending June 30, showing equally striking gains.

The South Carolina Railway has passed through a great many vicissitudes. It is a small road, but one of the very oldest roads in the country. Its charter dates back to 1827, and the main line from Charleston, S.C., to Augusta, Ga., was in operation as early as 1833. Before the war the road was very prosperous and paid high dividends. After the war its fortunos wavered (the road having practically to be rebuilt) and finally it wont to default and in 1881 was sold under foreclosure sale and reorganized. On January 1, 1889, it again defaulted on its obligations, and last October Mr. Chamberlain was appointed receiver. This last

default was the result of a long series of accidents and calumities, such as earthquakes, floods, cyclones, &c. besides which extra expenses were incurred in changing the gauge, and at the same time rates on traffic steadily declined—all of which misfortunes combined the company was unable in its then financial condition to withstand.

The situation of the property just before the appointment of the receiver may be judged from the fact that while the company was carrying quite a large floating debt for a corporation of its size, net earnings for the twelve months ending June 30, 1889, had been only \$270,195, and this without allowing for taxes, which when taken out reduced the actual amount of the nct to only \$216,702. Interest on the first consols alone called for \$292,980, and total interest requirements (not counting anything of course for the incomes) were \$407,577. In other words, not earnings fell about 50 per cent short of meeting the full obligatory charges. But during the last twelve months, according to special figures obtained by us, net earnings were \$446,773, against only \$270,195 in the twelve months preceding. The change is so decided that it will be worth while to see how it was brought about. Following is a table covering the operations of the last four years.

|                       | Twelve Months ending June 30 |           |           |           |  |  |  |
|-----------------------|------------------------------|-----------|-----------|-----------|--|--|--|
|                       | 1890.                        | 1889.     | 1888.     | 1887.     |  |  |  |
| South Carolina R'way, | \$                           | \$        | \$        | \$        |  |  |  |
| Gross earning3        | 1,420,762                    | 1,279,692 | 1,256,587 | 1,131,203 |  |  |  |
| Operating expenses    | 973,989                      | 1,009,497 | 853,141   | 894,832   |  |  |  |
| Net earnings          | 446,773                      | 270,195   | 403,446   | 236,371   |  |  |  |

This shows that the difficulty in the years preceding did not follow from a lack of growth in gross earnings, for there was an increase in both 1888 and 1889, but accompanied with a heavy augmentation in expenses, which cut net results down to small figures. In 1890, however, under Receiver Chamberlain's management, the increase in expenses was checked, while the growth in gross earnings was more decided than before. It is important to note that while expenses were reduced. vet the total for 1890 is only \$35,508 below the heavy aggregate of the year preceding. But this saving of \$35,508, coming coincidently with an increase of \$141,. 070 in gross earnings, has raised the net, as already stated, from \$270,195 in 1889 to \$446,773 in 1890. If from the latter we deduct say \$54,000 for taxes (the actual amount paid in the previous year was \$53,493), we have remaining net of about \$392,000. Full 6 per cent interest on the 1st and 2d consolidated mortgages, as well as the small amount of prior liens outstanding, ealls for \$374,394, so that the \$392,000 net would be more than sufficient to meet the amount. But allowance must also be made for interest on the floating debt, which has been a rising item for some years, and in 1889 called for \$35,330. With this or a somewhat larger amount taken into account there would be a But the deficit would be small in any deficit. event, and the change from the previous year would still be very decided-a change from net earnings in 1889 not sufficient to meet the interest. on the 1st mortgage bonds to net earnings in 1890 almost sufficient to meet obligatory interest of all kinds.

One result of the improvement is seen in the announcement made last week by the receiver that he was ready to pay all interest maturing up to and including July 1, 1890, on bonds prior in lien to the first consols. This will not require much money, as the amount of such prior liens is small. But the receiver also recently paid one of the back coupons on the first consols—that of April, 1889. What effect the improvement will have on the reorganization of the property it is of course difficult to say. Two coupons remain in default on the 1st consols and four on the second mortgage bonds, whose amount, however, is small. There are conflicting interests which will have to be harmonized. A reorganization plan was submitted about a year ago, but apparently did not satisfy any of the contending First mortgage bondholders opposed it factions. because they objected to having their interest reduced from 6 per cent to 5 per cent; they considered their bond perfectly good, and as it has till 1920 to run they naturally would prefer to see it remain undisturbed. The receiver is understood to have been appointed in their interest. On the other hand, junior securities do not seem to have been especially favored, either, in the plan. Second mortgage bondholders were to get preferred stock, income bonds were to be exchanged into common stock and pay one per cent assessment, while the present stock was to be exchanged for 60 per cent of its amount and pay 10 per cent assessment. As a new scheme will evidently have to be devised, the improved results now disclosed may make it easier to propose terms satisfactory to all.

## UNSETTLED EUROPE-KAISER AND CZAR.

Some of our recent items of news from various parts of Europe have been of a character well fitted to disclose the complicated nature of the foundations on which the peace of Europe now rests. The Balkan countries, the apple of discord, are as far as ever from a settled condition; and it is difficult to resist the conviction that new complications are arising in those regions.

Servia is about to pass through the ordeal of another Parliamentary election; and character has already been given to the struggle by some wholesale political poisoning. What is known as Old Servia, a piece of territory which does not belong to the Servian Kingdom, is in a condition of misrule which is said to be unprecedented in its own unexampled history. Bulgaria maintains her quasi-independence in spite of Russian intrigue; but she has not dared to take the final step of proclaiming the Kingdom and declaring Prince Ferdinand King. Recent concessions made by Turkey have given a new aspect to the whole Bulgarian question; and the permission which has been granted the Bulgarian Government by the Porte to appoint Bulgarian bishops in Macedonia has been a clear defeat of Russian diplomacy-a something to which that great Northern Power is rarely disposed to submit. In the meantime the German Kaiser and the Russian Czar have been playing at soldiers at Nerva, and discussing international politics over the wine cup; and many intelligent persons in all civilized lands are wondering whether, in the event of their conversations producing any practical fruit, it will be wholesome or nnwholesome-for the benefit or disadvantage of mankind.

A few days ago there was a grand concert at Vienna. It was held in one of the largest halls of the Austrian capital. An immense multitude was present, and included in the vast assemblage were many of the élite of Viennese society. The orchestra was powerful and the appointments were perfect. National airs were played and sung-airs which were not Austrian or Prussian or Bavarian, but German. They spoke of a nationality old as the Tenton and wide-reaching as German speech. The burgomaster of Nuremberg, yielding to

the inspiration of the moment, made a speech. Whether he was thinking of the possible evils which might result from the meeting of Czar and Kaiser, and saw in his vision of the future an evil combination, and a wicked scheme-such a combination and such a scheme as would put Austria and Germany into opposite and hostile camps-we are not told; but as if guided by some happy genius, he "proclaimed the union of all Germanspeaking races, in peace or on the battle-field." The effect was tremendous. The immense assembly gave way to the wildest enthusiasm, in the midst of which an Austrian archduke descended from the imperial box and intensified the excitement by re-echoing the sentiment, and promising to report the words which had been so fitly spoken to the Emperor. It is not possible, willing as one might be to do so, to treat such a demonstration as an ordinary affair. It had a meaning-a deep significance.

We are disposed to look at the Bulgarian question in the light which is thrown upon it from Nerva on the one hand and from the Festhalle at Vienna on the other. To the London Times, which has been steadily watchful of the Bulgarian difficulty, and which has been as sympathetic as watchful, we are indebted for whatever of fact is here stated. Prime Minister Stambuloff-who has openly declared within the last few weeks that he continues to hold office because he is resolved to have Prince Ferdinand recognized as King, and that he will be willing to retire as soon as this, his purpose, is accomplished-has been endeavoring to bring about a treaty of alliance between Bulgaria and Turkey-and not wholly without effect. The three following conditions form the basis of that treaty :

The Porte would sanction the election of Prince Ferdin-and and bind itself to protect the independence of Bulgaria by all the means diplomatical and military at its disposal.
 Bulgarian dioceses would be established in all the Mace-donian districts where the Bulgarian element forms an in-contestable majority—that is, in the districts of Veless, Sama-kovo, Skoplie and Ochrida.
 Bulgaria would pledge itself in case the Ottoman Em-pire were attacked to put a minimum force of 60,000 men at the disposal of the Sultan, these troops to be armed, equipped and maintained at the expense of Bulgaria.

and maintained at the expense of Bulgaria.

The second of these three points has already been conceded. It is hardly to be expected that the Porte, having the fear of Russia before its eyes, will, for the present at least, enter into any written agreement in regard to the two last. The prevailing belief is that, though no treaty may be signed, a tacit understanding may be come to in regard to the first and second conditions. It is known that Russia is displeased with the Porte because of the concessions made. It was by a piece of skilful diplomacy on the part of Stambuloff that the point was gained; and Count Neledoff, the Russian minister at Constantinople, was clearly outwitted in the transaction. The Czar is said to have been wild with rage when he heard of the result. He could trust none of his agents, he said; they all deceived him. Stambuloff having gained the victory in the matter of the Macedonian bishoprics very wisely postponed the proposed public proclamation of the sovereignty of Ferdinand. To have done so might have provoked Russian indignation too far.

Is it too much to suppose that the Bulgarian matter claimed the attention of the two imperial magnates at Nerva and afterwards at St. Petersburg? That Ferdinand shall not be King of Bulgaria the Czar is resolutely determined. If Bulgaria is resolved the other way, and if Europe with the exception of Russia is on her side, it is natural to expect serious diplomatic trouble. But if the Kaiser would go with the Czar

### AUGUST 23, 1890.]

Austria-Hungary could never join them. In the event of diplomacy failing Austria-Hungary and Germany would be in opposite camps. The German-speaking races would be divided. Such is the view of the situation if we look at it from Nerva alone. But when looked at from the Festhallo at Vienna, that meeting shows that Germany will not join Russia to crush out the Bulgarians, and mainly because such a union would antagonize Austria-Hungary. It shows moreit shows that in the alliance of the two great Germanspeaking Powers we have a substantial guarantee for the continued peace of Europe. Kaiser Wilhelm is too much of a German to put himself in opposition to a sentiment which is so strong, and which we cannot but hope for the sake of Bulgaria and the cause it represents will gather strength every day.

## RAILROAD GROSS AND NET EARNINGS IN 1890.

1 To On pages 237, 238 and 239 we give to-day the net earnings of each road in the country reporting them.

The Inter-State Commerce Commission, through its Statistical Department, has this week published the results of its compilation of the finances and income of United States Railroads for the fiscal year ending June 30, 1889. The period is rather a remote one, but the same objection holds against Mr. Poor's statistics. We do not intend, however, to comment to-day upon the Inter-State results (not having received a copy as yet of the full report) further than to say that the report has at least this advautage-that it covers a uniform period for all the roads.

It is of interest to note the issue of this report, because in the present article we are able to bring down results as to railroad income for a considerable portion of the mileage of the country to a date just a year later than that in the Inter-State compilations, and our results, too, are for a uniform period; that is, we are able to present a statement of gross and net earnings for the first half of the current calendar year, or, in other words, for the six months to June 30, 1890. The difficulty of getting full and complete returns will be appreciated from the fact that both Mr. Poor and the Inter-State Commission find it possible to issue their tabulations only after such a considerable lapse of time.

In presenting our statement of net earnings this time we also show the mileage on which the earnings are based, the same as in our earlier detailed statement of gross earnings. As is known, we have greatly extended the list of roads, both of those furnishing merely returns of gross earnings and those furnishing net as well as gross. Thus the statement of gross for the month of July given last week embraced 158 systems or lines, operating 87,107 miles of road, which is decidedly above the number of lines or extent of road comprehended in the corresponding month of any previous year. The aggregates include a few thousand miles of track in Canada and Mexico, and hence the criticism has been made that the statement represented really only about half the mileage of the country. But it must be remembered that this statement of gross earnings is issued very soon after the close of the month -within ten to fifteen days thereafter-that it comprises only roads which will furnish estimated figures of gross, and is always supplemented four or five weeks later by another statement giving the gross and net earnings for the same month; and this later statement has especial value in view of the fact, often pointed out by us, that the roads are not the same as those in the the Pennsylvania, which was not included in the early

early statement, many of those which appear in the one not appearing in the other, and vice versa.

As already said, we have prepared figures this time to show the mileage on which our compilation of net earnings is based. The present was not a favorable opportunity for arriving at a specially large aggregate, since June being the closing month of the Inter-State fiscal year and consequently also the fiscal year of many of the companies, the returns for that month are being in several instances withheld in order to include corrections for the year. Still we have returns on 84,170 miles for the month and on 94,243 miles for the half-year, including only three roads outside of the country. We have thought it desirable to go one step further, however. There are many reads which report gross earnings, but do not report net at all. There are others which do furnish returns of net, bat have as yet reported only the gross for the period under review. Quite a number in both classes always find representation in our early compilation of gross, but a part does not come to hand in time for that statement. At all events there are no less than 94 roads for the month and 90 for the half-year which are not embraced in the aggregates of gross and net earnings further below, since only their gross earnings have been made known to us. We have taken the total of these roads and combined it with the total of the gross in the net earnings tabulations, thus giving an aggregate on gross earnings comprising every road from which we have received reports either for the month or the half-year. The result appears in the following.

|                                  | Gross E     | arnings.    | Increase.  | Mileage end of<br>Period. |         |
|----------------------------------|-------------|-------------|------------|---------------------------|---------|
|                                  | 1890.       | 1880.       |            |                           | 1889.   |
| June.                            | 8           | 8           | 8          | Miles.                    | Miles.  |
| 128 roads report'g gross and net | 49,168,356  | 44,245,849  | 4,922,597  | 81,179                    | 82,144  |
| 94 roads reporting only gross.   | 20,958,636  | 19,543,292  | 1,415,344  | 45,564                    | 41,777  |
| Total 222 roads                  | 70,126,992  | 63,789,141  | 6,337,851  | 129,734                   | 129,921 |
| Jan. 1 to June 30.               |             |             |            | _                         | -       |
| 150 roads report's gross and net | 845,272,509 | 309,773,591 | 35,498,918 | 91,943                    | 92,106  |
| 90 roads reporting only gross.   | 98,574,305  | 87,621,441  | 19,952,864 | 41,977                    | 41,233  |
| Total 210 roads                  | 143,846,814 | 397,395,032 | 46,451,782 | 136,220                   | 133,333 |

This is at once the most interesting and the most comprehensive summary ever printed by us. It shows that we have had returns for the month from no less than 222 roads operating 129,734 miles of line, and returns for the half-year from 240 roads operating 136,220 miles. In each case a few Canadian and Mexican roads are included, but even allowing for these our figures cover about three-quarters of the entire mileage of the country. In the matter of earnings it will be seen we are dealing with very large figures, the aggregate of gross for June being 70 million dollars (\$70,126,992) and for the half-year being 4433 million The increase over the corresdollars (\$443,846,814). ponding period of the year preceding is 6 million dollars (\$6,337,851) for the month and no less than 46 million dollars (\$46,451,782) for the half-year. In other words, these figures establish the fact that in the first six months of 1890 there was an improvement in gross earnings on 136,220 miles of road as compared with the first six months of 1889 in the large sum of The figures also demonstrate the 461 million dollars. entire reliability of our early statement of gross as an index of current conditions with regard to earnings. On the surface this does not appear to be true of the results for June, since our early statement made the gain 8.44 per cent, while the present statement makes the gain 9.94 per cent. But there is a special reason for the difference in this case in the fact that statement, had an extraordinarily large gain in gross (\$1,240,984) as the result of comparison with the flood period last year, when it and other roads in the same section suffered very heavy losses. In the results for the half-year this special gain does not count for much, and hence while our early statement for that period recorded an improvement of 11.97 per cent, the present statement makes the ratio not materially different, or 11.69 per cent.

Taking up now the regular figures of gross and net earnings, we find that in net, as in the gross, the current year has been a period of improvement. For the month of June the net this year on the 128 roads which have furnished returns (and operating 84,170 miles in 1890, against 82,144 miles in 1889) stands \$1,496,824, or 11.71 per cent, better than in the same month last year. For the six months ending June 30 the improvement in net is \$11,901,361, or 12.76 per cent, the miles of road reported on being 94,243 at the end of the period in 1890, against 92,103 miles at the corresponding date in 1889. Here is a summary for the month and six months.

|                           | June.<br>(128 roads.) |            |           | January 1 to June 30.<br>(150 roads.) |                            |             |  |

In considering the improved results for the half-year, it must be remembered that the present increase follows after an increase the previous year too. Thus, while we have now a gain in net for the six months of 12 million dollars on 150 roads, last year our statement for the six months showed a gain of \$8,639,114 on 114 roads. But there was a vast difference in the conditions influencing the improvement in the two years. Last year the improvement came chiefly as the result of the Presidents' agreement to restore rates and as a natural recovery from the previous year's extreme depression. The increase in gross earnings then was not large-\$11,349,465, or only about 4 per cent. This year the improvement has come as the result of last season's large crops, of active business and of general prosperity. Hence the gain in gross earnings, as already pointed out, is very heavy, reaching even on the 150 roads in our statement \$35,498,918, or 11.46 per cent. The increased traffic brought with it augmented expenses, and besides this many railroad managers were liberal in the making of repairs, renewals and improvements, while in 1889 they were nearly all (out of necessity) pursuing a policy of economy and retrenchment, and the lower rates obtained in the West the present year on many articles and commodities also had the effect of reducing net results. Accordingly, the increase in expenses the first six months of 1889 was only \$2,710,351 (114 roads), but in the first six months of 1890 it is no less than \$23,597,557 (150 roads). In short, expenses consumed a much larger proportion of the gain in gross earnings in 1890 than in 1889.

Both as regards gross earnings and as regards net earnings, the improvement has been in progress through all the months of the year. April and May, however, on the whole show to best advantage, the increase in gross earnings for those months having been 14.43 per cent and 14.03 per cent respectively, and in net 14.81 and 15.81 per cent. It was supposed that June would do nearly as well as May, at least in the ratio of improvement in the net, as the Pennsylvania last-year

had lost very heavily (\$804,662 in net), and therefore was expected to show the present year a correspondingly large gain; in gross this expectation with respect to the Pennsylvania was realized, but in the net the improvement was quite small, amounting to less than \$300,000; and hence the effect on the general total has been less decided than was thought likely, the ratio of gain being 11.71 per cent. The following is a recapitulation of the results for each of the first six months.

The slightly diminished ratio of gain in net for June would not attract so much attention except that that month in 1889 was the only month last year which showed a loss in earnings, gross as well as net (the falling off having been caused by the great floods and the decrease on the Pennsylvania and other roads), and of course there had been a loss also in the previous year (1888), that having been a generally bad year. Hence, the present gain comes after a loss in each of the two years preceding, as the following statement will show.

|                   | Qı                                 | oss Earni  | ng•.                     | Net Earnings |                   |                          |  |

Arranging the roads in groups or classes, it is found that the Northwestern group is the only one showing diminished net for June, while there is no group which shows a loss for the six months. The returns have been gradually growing less favorable from that section month by month, and it is not unlikely that there is intimate connection between that fact and the rate demoralization which so long prevailed. The gradual restoration of rates, therefore, which is now being effected is all the more important on that account. The St. Paul reports slight improvement in net for the month, and the Chicago Burlington & Northern and three others keep it company; but the Burlington & Quincy and seven others have suffered a reduction. For the half-year the group has \$1,002,080 increase in net (10 p. c.), \$828,481 of the amount, however, being furnished by the Burlington & Quincy. Including the Quincy there are seven roads which have increased their net, while there are also seven which have decreased it.

The trunk line group presents a strikingly favorable exhibit for the half-year, every one of the roads reporting large gains in both gross and net, but for the month of June the showing is not so satisfactory. In fact, if it were not for the gain of \$290,206 by the Pennsylvania (which, as already said, is much smaller than expected, comparing with a decrease the same month last year of \$804,662), that group would record a loss in net for June. As it is the gain is small, amounting to \$128,720, or 4.52 per cent, and only the Big Four and the Ohio & Mississippi, besides the Pennsylvania, contribute to the same, the rest falling behind. Increased expenses are largely responsible for the less favorable result.

Middle Western roads make a much better comparison, there being an increase of 10.43 per cent for the half-year

### AUGUST 23, 1890.

THE CHRONICLE.

The ratio of gain, thus, and of 13.79 por cent for June. is not specially heavy, but what is noteworthy is that the improvement is so very general, there being not a single loss in gross earnings for the half-year and but two (the Illinois Central and the Dayton Fort Wayne & Chicago) for the month. In the case of the net we have a heavy loss (\$177,608) by the Illinois Central for the month and a still heavier loss for the six months (\$758,767), both following from augmented expenses; but there is only one other road in that group which has sustained a decrease for the six months, namely the Lake Erie Alliance & Southern, and only three others which have suffered a decrease for Junethe Chicago & West Michigan, the Dayton Fort Wayne & Chicago and the Toledo Columbus & Cincinnati.

+ For the six months only.

The Southwestern group has \$2,197,751 increase (or 36½ per cent) for the six months and \$199,792 (or 20½ per cent) for June. The improvement is noteworthy in both cases, but is contributed chiefly by the Atchison and the St. Louis & San Francisco, though for the half-year the Denver & Rio Grande also makes a splendid exhibit and has a large gain. The Kansas City Fort Scott & Memphis, the Rio Grande Western and the Little Rock & Memphis have lost in net for the half-year, and the same roads, together with the Denver & Rio Grande, fall behind in their net for June. The expense account of both the Rio Grando and the Rio Grando Western has been unfavorably affected of late months by interruptions and extra outlays incidental to the work of changing the gauge on parts of their lines.

The Pacific group reflects moderate improvement-25 per cent for the half-year and 6 per cent for the month. The Union Pacific has been having very heavy gains in gross, but only trifling gains in net. Some of the lines in the system, and notably the Oregon Short Line and the Oregon Navigation, have sustained large losses in net for the half-year, with the effect of keeping down the gain on the system as a whole. The Union Pacific Denver & Gulf, the Central Branch and the St. Joseph & Grand Island seem to be the parts of the system which have done best. On the Southern Pacific the lines west of El Paso have suffered a heavy reduction of their net for the half-year, while those east of El Paso show improved results. For the month this is in a measure reversed, the Pacific system showing a gain and some of the lines in the Atlantic system a loss.

Taken altogether Southern roads have done about as well as any, though the ratio of improvement is not so heavy as for the coal companies or the Southwestern group. The gain is 16 per cent for the half-year and 31 per cent for the month. Out of 38 roads there are 10 which show lower net for the month and 9 which fall behind for the half-year. In some cases there are special causes for the decline, as with the Louisville New Orleans & Texas, which suffered severely because of the overflow of the Mississippi.

The group of coal roads shows no less than 62 per cent increase for the month and 21 per cent for the six months. The Reading has been especially favored in this respect in both periods (in June because comparison is with the time of the floods in 1889), but most of the other companies also reflect very decided improvement. The leased lines in New York of the Lackawanna, for instance, and also the Delaware & Hudson leased lines all record better totals than last year. The Central of New Jersey and three minor companies are the only exceptions to the rule of increase for the month and the six months. In the Eastern and Middle group of roads the exhibits are rather irregular, but the general tendency has been towards improved returns, especially in the case of the New England lines and roads like the Rome Watertown & Ogdensburg.

One general feature of the exhibits for the half-year may be noted in closing. We refer to the very heavy increase in expenses which occurred on many systems. Numerous instances might be cited, but three illustrations must suffice. Thus the Pennsylvania, with \$3,954,275 gain in gross, consumed all but \$565,779 of the amount in augmented expenses. The Union Pacific system, in the same way, with \$3,295,028 increase in gross earnings, is able to show only \$222,048 increase in net. The Illinois Central added so greatly to its expense account that with \$274,769 increase in gross receipts, net has fallen off, as already pointed out, \$758,767.

There have been some conspicuously large gains both in gross and net earnings, and as it will be interesting and useful to know what they are, we annex the following, giving a list of them. The tables show for the half year all gains in gross above \$300,000 in amount, and all gains in net above \$100,000 in amount; for the month we take gains in gross of \$100,000 or over, and in net \$50,000.

## IMPORTS AND EXPORTS OF GOLD AND SILVER AT SAN FRANCISCO.

We have received this week from the Collector of Customs at San Francisco the returns of imports and exports of gold and silver through that port for the month of July, and they are given in the subjoined statement in conjunction with the figures for previous months of the calendar year 1890. The total imports of specie in July were below those for any previous month of the current year, being only \$240,109, of which \$28,074 were gold and \$212,125 silver. Of gold there was exported during the month \$91,870 coin and \$339 bullion, and the silver exports were \$345,054, all Mexican dollars. The total amount sent out was \$437,763, of which all but \$6,000 went to China. The exhibit for July and the seven months is as follows:

## Monetary Commercial English News

[From our own correspondent.] LONDON, Saturday, August 9, 1890.

The large gold shipments from New York last week and the rise of the Paris Exchange upon London to over the gold exporting point inspired a general hope that the Bank of England would be able so to replenish its reserve that all fear of stringency later on in the year would be dispelled. Therefore the bill brokers and discount houses have been competing for bills more eagerly this week, and there has also been a good demand for English bills on the part of the large Continental bonks with offices here. In consequence the rate of discount in the open market fell to 41/2 per cent on Thursday.

The publication of the Bank return, however, showed that the market had been too sanguine, especially as the rise in rates in New York lessened the hope that much more gold will be obtained thence. Besides, the Directors of the Bank of France have raised the premium on gold to  $4\frac{1}{2}$  per mille. Evidently they are resolved not to allow the stock of the metal to be drawn upon to any considerable extent. The Paris Exchange upon London would permit of gold being imported were it not for the premium imposed by the Bank. It is thought probable that some gold will be purchased in the open market in Paris and brought over here. But the chance of obtaining large supplies is small. In the meantime trade here is exceedingly active, and, owing to the wet weather in July, hay harvesting is later than usual; there is therefore an extraordinary expansion of the coin circulation going on. In the week ended Wednesday night over £600,000 in gold coin was taken out of the Bank of England for the internal circulation. In spite of recent imports, therefore, the stock of gold held by the Bank is under twenty and a half millions sterling, that is to say it is still smaller than it was at this time last year, when it was proved to be dangerously inadequate.

It is said that some of the gold on the way from New York to London has been diverted to Buenos Ayres, and now that President Celman has resigned and a new administration come into office it is feared that the shipments to Buenos Ayres may be on a larger scale. There are the usual demands for South Africa, Egypt and India, and it is said that about £400,000 in gold are to be sent to Roumania. A little while ago the Roumanian Government sold 27 million of francs in silver and part of the price it is now taking in gold. The opinion therefore is held in some quarters that little of the gold coming from New York will remain here, and that consequently the money market may continue for some time in an apprehensive state. The Bank reserve is under eleven and a half millions sterling; yet the Bank has so far done little or nothing to make the five per cent rate effective. It is charging all but its regular customers five and a half per cent for loans and five and a quarter per cent for discount. But it is not borrowing on an appreciable scale. The fact, however, that during the week ending Wednesday night the outside market had to borrow from the Bank £870,000 shows that with a little energy it could obtain control.

The silver market here follows, but not closely, the movements in New York. The fall in New York on Tuesday last caused on the following day a fall of a halfpenny, or from 51¼d. to 50¾d. per ounce. There are rumors that several of the Continental States will sell largely. Roumania has recently sold a considerable amount, Austria-Hungary apparently is selling, and it has been asserted that the Russian Minister of finance has resolved to sell the silver held by the Imperial Bank. How far this report is correct it is difficult to ascertain. But in spite of all, the market here is strong and the price has recovered to 51%d. The Indian exchanges advauce as the price of silver rises; and when recently American holders sold £600,000 worth of the metal, India bought freely. It would seem, in fact, that the fall in freights has to a considerable extent counter-balanced the influence upon the Indian export trade of the rise in silver, and consequently there is no evidence of a falling off in the Indian demand. Silver securities have given way slightly with the fall in silver, but the market is very strong. The truth is, that every one here is expecting a sharp rise in silver as soon as the purchases by the American Treasury begin, Holders of the metal, therefore, are not freely selling, and the Indian banks availed themselves of every fluctuation to buy moderately.

Business in the stock markets continues exceedingly small, but there is this week a decidedly better feeling, and markets

all round have hardened. At last President Celman has resigned, and the city has jumped to the conclusion that there will be an immediate marked improvement in Argentine affairs. Senor Pelogrini has a good character here for honesty and ability. No doubt he recognizes fully the mistakes of his predecessor, and will apply himself to remedying them without delay. If he does, and if he is as able and as honorable as he is believed to be, he will doubtless maintain order, and in the end place the fluances on a satisfactory basis. But however capable and industrious he may be, it will take him a long time to accomplish the task before him, and in the meantime a mere change of government will not affect the economic condition of the country. Many of the Argentine banks are believed to be unsound, and are expected therefore to be compelled to close their doors. The shock to credit, the losses of speculators and the fall in prices have greatly depressed trade, and the owners of houses and lands have mortgaged their proporties extravagantly. The Cedulas outstanding at the present moment, that is, the mortgage bonds of the National Mortgage Bank and the Hypothecary Bank of Buenos Ayres, amount to 415 millions of dollars; in other words the mortgages effected with those two institutions alone are of the amount just stated. How much more the owners of real estate owe there are no means of ascertaining. But it will be little short of a miracle if a large proportion of the mortgagors are able, in the present state of the country, to pay the stipulated interest and sinking fund on such immense sums. The annual charge for interest and sinking fund ranges from 7 to 10 per cent.

The better-informed, aware of all this, look upon the crisis in the Argentine Republic as only yet in its early stage; they expect years of depression and distress, and they will be surprised if the poorer provinces and municipalities do not default. But the general public sees only that a corrupt and incompetent President has at last been got rid of, that he is to be followed by a successor who has the confidence of the great European financial houses, and is spoken well of at home, and that the danger of a fresh revolutionary movement is thus removed. But though quotations have risen, there is no buying on the part of the public. Belief in the soundness of Argentine securities, which was so strongly founded here, has been rudely shaken, and investors as a body will be slower to buy them. There is the same absence of activity in the other departments of the Stock Exchange. In the American market there is extreme stagnation; the public hold entirely aloof, and a transaction in a few shares sensibly affects quotations. In international securities there would seem to be a slight recovery upon the Continental bourses, but here in London there is nothing doing. The same may be said of miscellaneous securities. And in British railway stocks, though prices are firm and tending upwards, the amount of buying is extremely small.

Trade continues exceedingly good ; the railway traffic returns, though they compare with an exceedingly prosperous time last year, show large increases; indeed the gross receipts on two or three of the lines last week were the largest ever recorded. The clearing house returns are to the same effect, and so are market reports and circulars. As yet at all events the high rates that have ruled in the money market all through the year and the falling off in Argentine trade have not affected the general business of the country. The threatened strike in South Wales began on Wednesday morning. It originated with the men employed by three local railway companies, and the men employed at the docks of Cardiff took up their cause and threatened also to strike. Most of the demands of the railway men have been conceded; but on one point the employers held out. The men asked for a guarantee of a certain number of hours of work every week. On Thursday, however, an informal proposal was made to them that they should accept a guarantee of 240 hours per lunar month, and with a slight modification they have agreed. Influence is being brought to bear upon the employers to induce them to meet the men in a friendly spirit, and it is hoped that a settlement will almost immediately be arrived at. If so, it is expected that the dock disputes will likewise be amicably arranged.

The wheat market continues quiet. The weather is still favorable, though not so warm as farmers would wish. Hay harvesting is not yet completed, even in the south of England, and the crops generally are backward. But it is hoped that

they will prove to be better than was thought likely a little while ago.

The foreign trade returns of the United Kingdom for July are not so good as in the previous month. The imports, which throughout the early part of the year had diminished, but which in June had again shown expansion, have resumed the decline, the falling off for the month amounting to £2,821,000, a percentage decrease of nearly 8. The greatest decline has been in our imports of raw wool, which has been a feature of the last few months, the decrease in July being £1,011,000. The imports of wool in 1889, with the higher prices ruling, were enormous, and with lower values ruling in 1890 the consignments hither have been greatly curtailed. Other raw materials for textile manufacture have also been small, the arrivals of jute having declined £365,000. Wheat imports have been large, showing an increase of £780,000, but other cereals received have generally been less than last year. The decline in price of sugar is responsible for a falling off in that item of £780,000. Metal imports compare favorably, both iron and copper having increased. Our exports are very satisfactory, the increase for the month being £2,197,000, or 9.92 per cent above the exports of July, 1889. Iron and coal have shown the greatest improvement. The value of cotton piece goods shipped is slightly above that of last year, but in yarns there has been a small falling off.

The comparison of our import and export trade is given

Messrs. Pixley & Abell write as follows:

Messrs. Pixley & Abell write as follows: Gold-Large arrivals have come to hand from New York and Hol-land, the bulk of which have been sent into the Bank. A small order for the Continent was speedily filled, and at the moment there is no de-mand of any sort. The Bank has purchased £791,000, and has sold 2100,000 for Lisbon. Arrivals : New York, £477,000; Natal, \$36,000; River Plate, £121,000; Anstralia, £7,000; total, £441,000. Silver-Following our last, the price of silver improved to 514d., at which considerable transactions took place. Yesterday a reduction in the New York rate and a very poor demand for India Council bills caused a drop to 50%d. The market closes to-day more steadily at 50 13-16d. Arrivals: New York, £202,000; Chile, £58,000; total, £260,000.

Mexicun Dollars-Some dollars were sold at 50d., but since that no buelness has been done. The demand for coin is slack, and usually melting value rules the quotation.

The quotations for bullion are reported as follows:

WALL STREET, FRIDAY, AUGUST 22, 1890-5 P. M.

-The strin-The Money Market and Fluancial Situation .-The Money Market and Fluancial Situation.—The strin-gency in money this week, together with the threatening aspect of the railroad strikers, has been quite sufficient to demoralize stock prices. The most encouraging event was the rather unexpected reduction of 1 per cent in the Bank of England rate on Thursday, apparently indicating a very de-cided improvement in the tone of feeling in London, and a remarkable gain of confidence within a few weeks. At the present writing there are fee means discummentances

At the present writing, there are too many circumstances bearing upon our monetary situation for one to hazard an opinion as to the probable course of affairs in the next few weeks. The Secretary of the Treasury seems inclined to do whatever may be within his power to relieve the situation, and his offer to redeem \$20,000,000 of the 4½ per cents due September 1, 1891, and pay one year's full interest on them is a striking proposition. On the other hand, government bonds are so widely scattered that it usually takes a long time to get any considerable amount of them. together; the working of the silver law furnishes no immediate benefit, and the outlook is, upon the whole, rather uncertain. The position of the railroad strikers is thus far weak in their failure to make out a case which enlists the sympathy of the public. This has much to do with the success of a strike in the long run, and whenever the action of the leaders savors more of maintaining their own personal importance or the the present writing, there are too many circumstances

more of maintaining their own personal importance or the technical dignity of their order than of righting some real grievance of the working men, the strike is likely to be of short duration.

Aside from these clouds on the financial horizon, the situa-tion remains unchanged. Railroad earnings show very well, though comparing now with a period of last year when

though comparing the traffic was heavy. The open market rates for call loans during the week' on stock and bond collaterals have ranged from 3 to 189 per cent, with 25 per cent as a fair average. Prime commercial paper

stock and bond collaterals have ranged from 3 to 189 per cent, with 25 per cent as a fair average. Prime commercial paper is quoted at  $6ia 61/_{2}$  p. c. The Bank of England weekly statement on Thursday showed an increase in specie of £566,000, and the percentage of reserve to liabilities was 43 70, against 41 93 last week; the discount rate wes put down to 4 per cent. The Bank of France gained 1,550,000 francs in gold and 1,925,000 francs in silver. The New York Clearing House banks in their statement of Aug. 16 showed a decrease in the surplus reserve of \$1,941,725, there being a deficit below the required reserve of \$655,725 against a surplus of \$1.286,000 the previous week.

against a surplus of \$1,286,000 the previous week.

United States Bonds.-Government bonds have been firm, United States Bonds.—Government bonds have been firm, and quotations have improved in consequence of the offer of the Secretary of the Treasury to redeem immediately \$20,000,-000 of the 4½ per cents. The first offer, made late on Tues-day afternoon, was to pay off \$15,000,000 of the honds with interest to June 1, 1891, this being equivalent to a bid of 104½. The holders of but a comparatively small amount of bonds availed themselves of the offer. Consequently on Thursday another proposition was made, namely, to redeem at once not exceeding \$20,000,000 bonds and on September 1 to prepay the interest upon the same to September 1, 1891. This more

liberal offer promises to be more effective, \$3,057,800 of 41/2 per cents having been accepted to-day, \$1,270,100 of this by the Sub-Treasurer in New York. The only sale at the Stock Ex-change this week was \$27,000 currency 6s of 1897, at 119. The purchases of bonds by the Secretary of the Treasury during the week have been as follows:

|             | 41/2 Per Cents due 1891. |             |        |       | 4 Per Cents due 1907. |             |             |  |  |

This is the price bid at the morning board ; no sale was made.

\* This is the price bid at the morning board : no sale was made. State and Railroad Bonds.—Quotations for State bonds are not much changed from last week. The sales have been as follows : North Carolina 6s of 1919 \$3,000, at 127 ; Tennessee settlement 3s \$2,000, at 73¼ and \$1,000 at 73 ; and Virginia 6s deferred trust receipts \$5,000 at 10. There has been very little life in the market for railroad bonds and prices have been irregular. On Thursday the tumble in stocks reacted upon quotations, and some issues sustained a considerable decline. Omaha & St. Louis 4s and Philadelphia & Reading 4s lost two points in the week, Mobile & Ohio general 4s  $2\frac{1}{2}$ , Texas & Pacific incomes  $1\frac{5}{6}$ , Atchison incomes  $1\frac{3}{6}$ , Fort Worth & Denver City  $1\frac{1}{4}$ . To-day, however, with very small sales, there was some improvement. Atchison incomes, for instance, rising from 64 to 65, and Reading 4s from 80 to  $80\frac{1}{2}$ . from 80 to 801/2.

Railroad and Miscellaneous Stocks.-The small buoyancy Railroad and Miscellaneous Stocks.—The small buoyancy which characterized dealings at our last report received a sudden check on Saturday, when another unfavorable bank statement was issued. Prices weakened and were kept un-steady by the spurts in the money market, and the fear of greater stringency. The railroad strikes, too, acted as another depressing influence. On Thursday the rates for money be-coming excessively high (call money loaning at one time as high as 6 per cent plus ½ per cent a day), values underwent a general falling off, and stocks that were pressed for sale de-elined quite sharply. The Vanderbilt stocks naturally were among those most affected, and as will be seen on reference to the following page. Northwest. Big Four common, Chesapeake among those most affected, and as will be seen on reference to the following page, Northwest, Big Four common, Chesapeake & Ohio common and first preferred, Lake Shore, Canada Southern and New York Central all fell below their previous lowest record for this year.

Southern and New York Central all fell below their previous lowest record for this year. Northern Pacific common and New York & New England were also sold down quite heavily, the former to 30½ and the latter to 45¼. Atchison, Missouri Pacific, Louisville & Nash-ville, Union Pacific, and others, receded to about the same level reached in last week's decline. The coal stocks yielded read-ily, Delaware & Hudson going to 158, Lackawanna to 141 and Jersey Central to 118. Mexican Central, owing to its re-ceipts in silver, was relatively stronger than other stocks; it closes to day at 26½, having touched 27¾ on Tuesday. Denver & Rio Grande preferred has likewise been strong; from 56½ last Friday it rose the next day to 57½, and on Thursday, after having touched 55½, it quickly recovered to 56¼ and to-day sold at 58, the highest point attained by it since 1887. A better feeling has prevailed to-day, and generally speak-ing about half of yesterday's fall has been regained. Sugar trust certificates suffered on Thursday a drop of 8 points from the closing price of last week. They sold at 75½ c. but to-day close at 77%. Lead Trust certificates have tended upwards on rumors of good earnings shown, and were sold at 22 on Wednesday, declining only to 20 on Thursday, as against 20½, the last price on Friday a week ago. Cotton Oil receipts sold at 25, and close to-day at 26¼, against 29¼ last week. The Secretary of the Treasury has purchased this week

2914 last week. The Secretary of the Treasury has purchased this week under the silver law 1,856,000 ounces of silver at prices ranging from \$1 16 to \$1 2025. The purchases took place as follows: On Monday, 540,000 ounces (out of 590,000 offered), at \$1 16@\$1 1975; on Wednesday, 466.000 (out of 1,314,000 offered), at \$1 1945@\$1 2025; to-day, 350,000 (out of 1,520,000 offered), at \$1 193@\$1 195. The sales of silver certificates at the Stock Exchange have

offered), at \$1 193@\$1 195. The sales of silver certificates at the Stock Exchange have aggregated for the week 6.555,000 ounces, at prices rang-ing from 115½@12034. The price was highest on Wednes-day, but Thursday fell off three points in sympathy with the stock market. It closes at 119%, against 1143/a week ago. The sales were as follows: Saturday 771,000 ounces at 115½@ 117½, Monday 2.336,000 at. 117½ #12034. Tue-day 1,608,000 at 119 3121. Wednesday 795,000 at 119½ 312034. Thursday 635,000 at 1173/@11934. Friday 410,000 at 118½@11934. Total, 6,555,000 ounces at 115½@12034.

Net Earnings Monthly to Latest Dates.—The following shows the gross and net earnings to latest dates of all raitroads furnishing monthly statements. The compilation includes every road from which we can get returns of this character. and in that form is given once a month. Early returns are published from week to week, as soon as issued, but for the convenience of our readers all the roads making returns are brought together here in the week in which we publish our monthly article on net earnings—say on or about the 20th of the month.

|   | of the month.   |                                 |                                   |                                    |                                   |

\* Includes controlled reads. i Adding income received from invest-ments, net for May, 1890, was \$130,498, against \$34,014 has year, and for 11 months to May 31, \$2,110,788, against \$2,345,873. 6 Main line only. c This excludes boats in 1939. d Earnings include ralk luces only, not the water routes. ; Figures for June, 1990, are esti-mated.

## GENERAL INVESTMENT NEWS.

Baltimore & Ohlo.—There has been placed on record in the Superior Court of Baltimore an agreement between the Finance Company of Pennsylvania and the Baltimore & Ohio RR. The agreement, which is dated Aug. 1, explains that the Finance Company has leased to the Baltimore & Ohio RR. the Finance Company has leased to the Baltimore & Ohio RR. Co. rolling stock and other railroad equipments to the value of \$2,000,000 to be secured by Baltimore & Ohio equip-ment bonds, bearing interest at the rate of 5 per cent per annum, and issued in series running respectively from one to ten years. The equipment to be acquired by the railroad company under the terms of the agreement embraces 35 loco-motive engines, 2,700 freight cars of various classes and 17 passenger coaches. passenger coaches.

Called Bonds,-The following bonds have been called for payment:

DISTRICT OF COLUMBIA 8 per cent certificates of indebted-ness, issued under the Act of the Legislative Assembly approved May 29, 1873, to be paid at the Treasury of the United States on and after the first day of September, 1890, interest ceasing on that day. Certificates due July 1, 1874, and July 1, 1875, viz.; 4,000 certificates of \$50 each, Nos. 1 to 4,000; 2,000 certificates of \$100 each, Nos. 1 to 2,000 : 800 cer-tificates of \$500 each, Nos. 1 to 800. Also compons due prior to and including July 1, 1875, on all outstanding certificates of indebtedness. indebtedness.

CHICAGO & WESTERN INDIANA.—First mortgage 6 per cent bonds of 1879, due November 1, 1919, to be redeemed at 105 and interest on November 1, 1890, at the office of Drexel, Mor-gan & Co., New York, 45 bonds of \$1,000 each, viz.:

gan & Co., New York, 45 bonds of \$1,000 each, viz.: Nos. 6, 13, 17, 52, 82, 193, 190, 219, 244, 432, 483, 490, 1301, 1314, 1378, 1411, 1646, 1664, 1669, 1754, 1790, 1827, 1880, 1944, 1952, 2075, 2232, 2240, 2396, 2506, 2554, 2609, 2665, 2768, 2804, 2884, 2894, 2950, 3042, 3069, 3070, 3170, 3183, 3257, 3274. NORTHERN PACIFIC, second mortgage 6 per cent bonds of 1883, due December 1, 1933. The numbers of 97 of these bonds which have been called for payment will be found in the ad-vertising columns. They will be redeemed at 110 and in-terest upon presentation at the Farmers' Loan & Trust Co., interest censing October 1, 1890.

interest ceasing October 1, 1890. Canadian Pacific—Minn. Sault Ste. M. & At.—Minneapolis & Paeific.—President Van Horne, of the Canadian Pacific Railway Company, gives notice that he is now prepared to endorse its guarantee of interest at the rate of 4 per cent per annum on the first mortgage bonds of the Minneapolis Sault Ste. Marie & Atlantic RR. and the first mortgage bonds of the Minneapolis & Pacific Bailroad, provided the holders of said bonds deposit them with Messrs. Morton, Bliss & Co., of New York, by whom checks will be given to such depositors of bonds for the full amount of the coupons due July 1, 1890. I Corollage Encoupilla & Granvilla —The completed part of

bonds for the full amount of the coupons due July 1, 1890. I Carolina Kuoxville & Greenville,—The completed part of this road from Greenville to Marietta, S. C., 14 miles, and the unfinished grade and survey have been, purchased by James U. Jackson of Augusta, William Bailey of New York, and other directors of the Augusta & West Florida. A new con-struction company, with a capital stock of \$500,000, has been formed by New York, St. Louis & Augusta parties, and it is stated that they propose to resume work on the line within two months. The project includes a road from Augusta to Knoxville, 280 miles long, but of this only 14 miles were built about two years ago.—*Railroad Gazette*.

Charleston Sumter & Northern.—On the extension from Sumter to Bennettsville, S. C., 63 miles, tracklaying has been begun. It is expected to have the first 37 miles from Sumter begun. It is expected to have the first 37 miles from Sumter to Darlington completed by September, and the remaining 30 miles to Bennettsville by January. The most important structure on the line is the steel bridge over the Pee Dee River, near Sumter, which is 393 feet long; it will be built by the Phoenix Bridge Company. The company have 76 miles in operation, comprising the main line. Pregnalls to Sumter, S. C., 58 miles, and branches 18 miles. Six per cent 20-year bonds have been issued on the whole line at the rate of \$15,000 a mile.

21,913 268,365 486,539 Chicago Elevated Terminal Railway Company.—The Chicago Elevated Terminal Railway Company, with a capital of \$25,000,000, was incorporated at Springfield, III., Aug. 16. Back of the chief incorporator, Gen. Joseph T. Torrence, now 24,407 125,510 26,697 131,768 303,410 Chicago Elevated Terminal Railway Company.—The Back of the chief incorporator, Gen. Joseph T. Torrence, now in New York City, and his four associates, is the Atchison Topeka & Santa Fe Railroad, which has valuable depot grounds in the heart of the city, but has long wished to secure better approaches thereto, unhampered by the city ordinances

relative to the speed of trains. Mr. Magoun said to a Sun relative to the speed of trans. Mr. Magoun said to a Sun reporter that Chicago is more inconvenient for trains to enter than New York, and must have rapid transit for express trains on the trunk lines; and the only practicable solution is to utilize the long strips of property within the city belonging to the Atchison Road. The plan is to build a main line of elevated structure extending from about Twelfth Street to the city limits, five miles long, either along or in the neighbor-head of Blue Llond Avenue: theneas everface read with such Blue Island Avenue; thence a surface road with such hood of connections as may be necessary in order to reach the roads that are interested. The elevated structure will have a capactracks, and at Twelfth Street a big union station six ity of aix tracks, and at tweirth Street a big thion station will be built on property belonging to the Atchison Road. All the roads particinating will use their own yards, as at present. It hasn't been decided yet what companies will come into the union station. The chief object of the enterprise, however, is to provide the Santa Fe and other non-competing lines with an entrance into Chicago over elevated tracks, and the route outlined is thoroughly in accordance with that idea.

Chicago Gas .- The earnings for the first six months this year were as follows :

|                | 122 |
|----------------|-----|
| Tetal receipts |     |
| Expenses       | 23  |

Balance..... The sales of gas increased 7.18 per cent. It is estimated that the company will earn \$1,295,620 this year, or 5.36 per cent on the outstanding stock, or nearly 10 per cent on the present price of the stock.—*Philadelphia Press.* 

Cleveland Akron & Columbus.—This company notifies holders of its first mortgage bonds that it will pay the prin-cipal on the first of January, 1891, with accrued interest to that date, at the office of Mr. J. A. Horsey, 17 and 19 William Street, New York.

Colorado Midland .- Earnings and charges were as follows for the year ending June 30:

| Gress earnings | 1889.       | 1890.       | Increase.  |
|----------------|-------------|-------------|------------|
|                | \$1,536,051 | \$1,724,791 | \$188,686  |

Great Northern.—Shepard, Siems & Co., of St. Paul, who have the contract for 75 miles on the Seattle & Montana, have also been awarded the contract for 185 miles of the eastern division of the Pacific Coast extension from a point near Fort Assimaboine, Mont., to near the summit of the Rocky Moun-tains. It is expected that 180 miles of the line will be com-nleted by Nov. 1. pleted by Nov. 1.

Green Bay Winoua & St. Paul,—In the United States Court at Milwaukee Judge Jenkins this week issued an order confirming the Farmers' Loan & Trust Company of New York in possession of the Green Bay Winona & St. Paul. The trust company filed a bill in equity setting forth that interest on the bonds has been in default since August, 1888, and Judge Jenkins appointed the plaintiff receiver of the defendant railroad. railroad.

Honston & Texas Central.—Messrs. M. Gernsheim & Co., as holders of 740 shares of the stock of this company, obtained from Judge Beach in Supreme Court, Chambers, on the 16th inst., an order requiring cause to be shown on the 22d inst., why the Central Trust Company should not be enjoined from proceeding further under the reorganization plan. By mutual agreement of counsel the case has been postponed to Septem-ber 4, and the Trust Company has extended the time to Sept. 15 for the payment of the assessment of 71:40 per cent. Hudson Susuension Bridge & New England BR—The

Hadson Suspension Bridge & New England RR.—The plans and specifications for the entire work have been com-pleted and the contract awarded to a construction company. Messrs. Bullivant & Co., of England, have the contract for the

steel cables. The construction contract includes the building steel cables. The construction contract includes the building of the railroad from Turners, on the Erie Read, to a junction with the New York & New England Road at Somerstown, a whole distance of 34 miles; also the Pull Hill tunnel, a mile in length, and the bridge; this latter will be 2,850 feet in length, the one span across the Hudson River being 1,610 feet. It is expected to complete the work in twenty months. The company have secured ample terminal facilities on both sides of the river, 74 acres on the west side and 53 acres on the east. Traffic contracts have been made with these companies : New York & New England, New York & Northern, Lehigh Valley, Lehigh & Hudson River, Central RR. of N. J., Philadelphia & Reading, N. Y. Sus. & Western and N. Y. Ontario & Western. Mexican Central.—The advance in silver makes Mexican

Lengh & Hudson River, Central R.C. O' N. J., Finladeipina & Reading, N. Y. Sus. & Western and N. Y. Ontario & Western. Mexican Central.—The advance in silver makes Mexican dollars worth much more than formerly. As the Mexican Central collects its earnings in Mexican dollars the advantage to it of this advance in the price of silver is obvious. On this matter the Boston News Bureau says: The Mexican Central sold yesterday silver dollars at 89½c., and at 116½ the dollars figure 91.05. Yesterday's sale was the highest the company has received for the past eight years, although at that time it was figured as exchange rather than in dollars, as the latter were needed for construction pur-poses. The price of Mexican dollars, however, is based on the London price of silver, as it is there that the dollars finally land for shipment to the East. The Mexican Central has shipped the past six months about 1,700,000 silver dollars, but a fair estimate, now that con-struction is less, would be at the rate of 4,000,000 annually. Figuring on the latter amount, the advance in silver from 73.96, the average of last year, to the value of the dollar to-day would make a difference in favor of the road of over §600,000. Another point is that the sale of the company's subsidy calls for payment in Mexican dollars, and the advance in silver since the sale was first aritated has made a difference in favor of the road of about \$1,000,000, with the future open to possibilities.

possibilities.

Milwankee & Northera - Chicago Milwankee & St. Paul. -A Milwankee dispatch dated 20th inst. says: "Regarding the rumor that the Chicago Milwankee & St. Paul intends to buy the Milwaukee & Northern, it is stated by an officer that no option has been secured, but it is not denied that negotiations are pending."

New York Railroads.—The reports below for the quarter ending June 30 have been filed with the Railroad Commis-sioners. As the companies now have to report for the year ending June 30, instead of Sept. 30, as formerly, we have com-piled in addition the results for the new year.

New York Stock Exchange—New Securities Listed.—The Committee on Stock List of the New York Stock Enchange have added to the list the following:

COLORADO MIDLAND.-\$1,946,000 consolidated mortgage 4 per cent fifty-year gold bonds. TOLEDO ST. LOUIS & KANSAS CITY.-\$6,000,000 additional first mort-gage 8 per cent gold bonds, making the total amount listed \$4,000,000. NORTH AMERICAN COMPANY.-\$33,612,500 stock.

Northern Pacific & Manitoba.—A press dispatch from Winnipeg says: "It is officially announced that a lease or traffic arrangement for one hundred years has just been concluded whereby the Northern Pacific takes the Northern Pacific & Manitoba system and operates it in connection with its own system. One of the conditions of the lease is that the North-ern Pacific agrees to furnish all funds necessary to pay the expenses of the Manitoba."

Pittsbarg Chicago Clucinnati & St. Louis.—At Indian-apolis, Aug. 20, Mr. S. B. Liggett, Secretary of the various railroad companies comprising the Southwest system of the Pennsylvania (with the proxies of directors of the various lines in his possession), consolidated 1,051 miles of railroads now operated under different names into one corporation, known as the Pittsburg Chicago Cincinnati & St. Louis Railway Company. Another meeting will be held at Pittsburg on Sept. 16, when the officers will be elected and such matters as chang-ing the names of the divisions will come up. Detailed infor-mation regarding the exchange of stocks, &c., is given in the INVESTORS' SUPPLEMENT. Bame Watertown & Ordensburg.—This railroad company.

Rome Watertown & Ogdensburg.—This railroad company, it is reported, has taken decisive action toward extending its line from the present western terminus at Suspension Bridge to Buffalo, a distance of thirty-five miles. The company has spent over \$100,000 for rights of way and has also bought fifty acres of land at Suspension Bridge for additional yard room and forty acres at Tonawanda as a site for station accommo-dations. The company has also obtained terminal facilities at Buffalo. Buffalo.

Bullalo. State Indebtedness.—Census bulletin No. 7 gives a pre-liminary summary of the debts of the several States of the Union outstanding June 1, 1890, and June 1, 1890, or the dates nearest thereto for which reports were obtainable. This re-port is made by Special Agent of State Finances J. K. Upton to Superintendent of Census Robert P. Porter. The reported bonded debt, Mr. Upton explains, represents in each case the amount of negotiable securities outstanding at the time men-tioned, and the floating debt that of all other obligations of the States, including those assumed or incurred for a specific pur-pose, even though no actual bonds or certificates may have been issued therefor. The assets embrace the cash and all the productive securities on hand of which a valuation is reported, whether they belong to the State or any of its funds, although whether they belong to the State or any of its funds, although in some cases they are not wholly applicable to the pay-ment of debt, but are pledged for the use of schools or charities

charities. It will be seen that the principal of the debt has changed within ten years as follows: The bonded debt in 1880 was \$254,-903,212, and in 1890 it was \$194,800,371, showing a decrease of \$60,102,840. The floating debt in 1880 was \$41,514,309, and in 1890 it was \$43,596,218, showing an increase of \$2,081,908. This left a net decrease of bonded and floating debt of \$58,-020,931. The report tells us that in most of the States reduc-ing their indebtedness during the decade, the reduction has been accomplished by applying to the extinguishment of their obligations the revenues not needed for current expenses. In a few of the States, however, the apparent decrease of the debt has arisen from the enforced refunding of the old debt into a new one at a discount varying from 20 to 85 per cent. These are among the Southern States, whose total indebted-ness (\$117,423,415) is now nearly equal to that of all the other States combined. This method of refunding is shown in the following table: States combined. following table:

| State.          | Rate of   | Amount of   |
|-----------------|-----------|-------------|
|                 | discount. | discount.   |
| Virginia        | 20 to 50  | \$3.334.300 |
| North Carolina. | 60 to 85  | 7.676.273   |
| South Carolina  | 50        | 461.461     |
| Louisiana       | 60        | 9,375,057   |
| Tennessco       | About 45  | 7.676.074   |
|                 |           | .,          |

Total......\$28,523,165 Taking from the amount of decrease in all the States the amount thus arising from the discount in refunding and there is left as paid by cash \$29,497,766, and the geographical section which includes the States named, instead of having a decrease of debt of \$27,593,587, as shown by the statement, will have an increase of \$929,577.

St. Panl & Dulath.—The recent declaration of the 4 per cent dividend on the St. Paul & Duluth preferred stock was explained by the following resolution adopted by the board

explained by the following resolution adopted by the board of directors: "Whereas, Dividends upon the capital stock of this company have been heretotoro paid during the months of July and January of each year, untwiking the heat profits of the railroad or the net income from stumpage and the sales of lands for any six or twelve months preced-ing the times of declaring said dividends, and it has been becessary in declaring said dividends to estimate said net profits and not income for at least two months immediately preceding the times of payment thereof; and, Whereas, it is desirable that in declaring dividends upon the capital stock of this company the board of directors should be able to reply upon actual and not estimated results: Reseived, That divi-dends shall be hereafter declared by this board in the months of Feb-ruary and August, and made payable in the months of March and Sep-tember, beginning with the month of August, 1890.

Sugar Trust.—The Central Trust Company has announced that it is ready to exchange its engraved certificates of deposit in exchange for the certificates of the Sugar Trust. The pre-liminary agreement is between Messrs. S. V. White, Kunhardt & Co., Cord. Meyer, Jr., G. P. Wiechers, Gust. H. Gossler, Nash, Spaulding & Co., and Silas Pierce, all certificate hold-ers, who sign the agreement, being the first party, Messrs. Theodore A. Havemeyer, Franz O. Matthiesson, John E. Searles, Jr., Joseph B. Thomas, Julius A. Stursberg and Kidder, Peabody & Co. (reorganization committee), the second party, and the Central Trust Company, the third party. By it full power is given given to the reorganization committee to wind up the Trust and reorganize it according to law. The agreement will be effective when approved by a majority of the certificate holders, and the committee is given power to vote on all certificates deposited. The Central Trust Com-pany will receive all dividends on Sugar Trust certificates deposited, and pay them over to the holders of engraved cer-tificates. The committee agrees to draw up a detailed plan of reorganization as soon as possible. A majority vote of the certificate deposited and the certificate of the certificates. Sugar Trust .- The Central Trust Company has announced tificates. The committee agrees to draw up a detailed plan of reorganization as soon as possible. A majority vote of the committee shall decide on all matters unless the action is dis-approved by Kidder, Peabody & Co. or the Central Trust Company. This provision practically gives the Central Trust Company and Kidder, Peabody & Co. full control of the reorganization. Louis Fitzgerald, President of the Mercantile Trust Company, Charles M. Fry, President of the Bank ol New York, and Jacob D. Vermilye, President of the Mer-chants' National Bank, are appointed representatives of the certificate holders to pass upon the accounts of the com-mittee. mittee.

United States Four-and-a-half Per Cent Bonds.-Secre-ry Windom issued on Tuesday, the 19th, the following tary circular:

circular: TREASURY DEFARTMENT, OFFICE OF THE SECRETARY. WASHINOTON, Aug. 19, 1890.  . Bonds outstanding.

Default .- In case of default for six months in the payment of principal or interest, the trustee may in its discretion, and

\* NOTE.-In these abstracts the length of the lines mortgaged, and in some instances the present termini when not mentioned specifically in the mortgage, have been supplied from reliable sources.

shall at the request in writing of the holders of one-fifth part of the said bonds of which the principal or interest money shall be so in arrear, take possession of the said premises and enjoy the same. And after paying all expenses incurred in working the railways and in making repairs, alterations, additions and all taxes, etc., the trustee shall apply the moneys arising from the property ratably to the interest in the order in which it shall have become due, and the residue, if the principal of the bonds be not due and payable, to the payment of the regular instalments to the sinking fund. Or if the principal shall be due, to the payment of the same ratably and without preference. In case all sums of money for the time being due and payable shall be paid before any foreclosure or sale the trustee shall restore the premises to the railway com-pany. And after such default as aforesaid the trustee may in its discretion and shall upon the like request sell the said premises, after having given notice of sale by advertisement. And the trustee out of the proceeds of such sale shall pay all expenses of the sale and afterwards the principal of the bonds and the interest thereon to the time of the completion of the said sale ratably and without any preference or priority among all the holders of the said outstanding bonds, and the coupons belonging thereto. And after such default the trustee may in its discretion. and belonging thereto.

And after such default the trustee may in its discretion, and notwithstanding any request to sell as aforesaid, institute proceedings for the foreclosure of this mortgage or for the sale of the said premises, instead of exercising the said power or trust for sale. And in case this mortgage shall be fore-closed by strict foreclosure without sale of the said premises, either under the power of sale as aforesaid or by decree in any foreclosure proceedings, the trustee may in its discre-tion, and shall at the request in writing of the holders of one-fifth part of the said outstanding bonds, sell and dispose of the said premises as hereinbefore provided. And the railway company hereby waives all right to bave the assets marshalled upon any foreclosure, and all benefit of all valuation, stay, appraisement, redemption, extension, etc., laws now or at any time hereafter in force.

laws now or at any time hereafter in force. Extensions may be Constructed Without the Issue of Bonds Secured Hereby.—If the railway company shall determine to construct or acquire any line of railway without raising money for that purpose by the issue of bonds secured by this inden-ture, and shall notify the trustee in writing of such determi-nation, then the trustee shall not certify any bonds hereby se-cured in respect thereto, and any such line of railway and any rolling stock acquired for use in connection with the same shall not be subject to the trusts hereof. The Bondholders May Interdict the Issue of Bonds for Ex-tensions.—In order that the security of bondholders under this indenture may not be impaired by the building or purchasing of extensions or branches which may not prove profitable, it is mutually agreed that if the trustee shall, on the written re-quest of the holders of a majority of the outstanding bonds, notify the railway company not to issue any more bonds for the building or purchasing of new road, then no more bonds shall thereafter be issued and certified hereunder for such pur-poses. poses

Sinking Fund.—The railway company covenants that out of Sinking Fund.—The railway in each calendar year which remain after paying taxes, operating expenses and the inter-est on the bonds secured hereby or by any of the prior mort-gages, but so far only as the earnings so remaining shall be sufficient for that purpose, will pay to the trustee on the 1st day of October in the succeeding year, until the principal of the bonds hereby secured shall become due and payable, a sum of money equal to two-thirds of one per cent of the ag-gregate of the principal of all said bonds that shall have been certified by the trustee before that day. And as often as the moneys so paid to the trustee shall apply the said fund to the purchase and redemption of the bonds secured by this inden-ture at not exceeding 105 and interest. And so far as bonds sufficient for the purpose cannot be obtained at that price, or if the trustee shall be so desired by the Board of Directors of the railway company, the trustee shall invest the moneys so paid to it and the income thereof according to its discretion in Sinking Fund.-The railway company covenants that out of paid to it and the income thereof according to its discretion in paid to it and the income thereof according to its discretion in any mortgage bonds made by the railway company, or by the Union Pacific Railway Company, or by certain other railway companies of the Union Pacific system (as more specifically provided in the mortgage), provided that such bonds will net 4 per cent on the amount so invested. And if such bonds can-not be obtained, or if the trustee shall be so desired by the directors of the company, the trustee shall invest the said moneys according to its discretion in such of the mortgage bonds of other railway companies or of the bonds of any.State, Terri-tory, county, precinct, town or city in the United States as will produce income at the last-mentioned rate. All bonds purtory, county, precinct, town or city in the United States as win produce income at the last-mentioned rate. All bonds pur-chased out of the said sinking fund, together with all their coupons, shall be canceled. And in case the premises com-prised in this mortgage shall be sold for the benefit of the holders of the bonds hereby secured, or in case of the fore-closure of this mortgage, the trustee shall sell the said invest-ments, and shall hold the proceeds upon the trusts hereinbe-fore arrangement.

Trustees.—In case of a vacancy in the trusteeship an incor-porated trust company, or three persons, may be appointed trustee or trustees of this indenture by an instrument in writ-ing executed by the holders of two-thirds of the bonds hereby secured. Or a successor trustee may be appointed by a ma-jority vote of the holders of said bonds who may be present at a meeting to be called by advertisement by the President or

constructed. 542

## THE OREGON RAILWAY & NAVIGATION COMPANY.

COLLATERAL TRUST DEED SECURING FIVE PER CENT GOLD BONDS, DUE SEPTEMBER 1, 1919.

Date.—September 2, 1889. Parties.—The Oregon Railway & Navigation Company of the first part, and the American Loan & Trust Company of

Massachusetts, trustee, of the second part. Property Covered.—First mortgage 5 per cent honds of the Washington & Idaho RR. Co., and of the Oregon Railway Ex-tensions Co, deposited with the trustee. (See abstracts of the mortgages securing these bonds immediately at the close of this obtract.)

this abstract.) The bonds deposited in trust, as well as any to be deposited under the provision following, are in this deed frequently en-

The bonds deposited in trust, as well as any to be deposited under the provision following, are in this deed frequently en-titled the trust securities. If the railway company shall acquire any bonds of any other railway company secured by a first mortgage of its rail-way, franchises, rolling-stock, and all other real and personal property, and shall desire to transfer to the trustee upon the trusts of this indenture the said bonds, the trustee shall give pub-lic notice to the holders of all bonds secured by this indenture by advertisement in New York and Boston for four consecu-tive weeks, and in such notice shall state what bonds the railway company desires to transfer to the trustee as afore-said. And if within sixty days the holders of one-third part of the bonds hereby secured shall not in writing notify the trustee that they object to such transfer, then it shall be law-ful for the trustee to receive the bonds described in such ad-vertisement upon the agreements herein expressed. And upon such transfer, bonds secured by this indenture may be issued at a rate not exceeding \$9,000 of bonds for every \$10,000 of bonds transferred to the trustee. But the toral amount certified under this indenture shall not exceed \$25,000,000. No bonds of any railway company not forming a part of the system of railways of the Oregon Railway & Navigation Com-pany shall be so transferred to the trustee hereunder, nor shall any bonds be as transferred which mature before the first day of September, 1919. THE BOND.

est of the trust securities.

### THE BOND.

Collateral Trust Five Per Cent Gold Bond.

Collateral Trust Five Per Cent Gold Bond. Date. -September 2, 1889. Demonination...+\$1,000 each. Amous 4 Authorized...+\$25,000,000, at the rate of \$9,000 for 'every \$10,000 of principal specified in the bonds mortgaged. Principal Payable...-The principal is payable September 1, 1019, "in gold coin of the United States equal to the present standard." Interest Payable...-The interest 1s 5 per ceat per anome, payable March 1 and September 1, in like gold eein, in New York or Boston. Coupon or Registered...-The bonds are coupon bonds, and may be registered as to principal. Redemption Before Maturity...-There is no sinking fund, but the whole issue is redeem able (but only as a whole) in like gold coin on March 1 or September 1, in any year before 1919, after seven months' notice by advertisement in New York and Boston. Guaranty...-The property of the Oregon Ry. & Navigation Co. was beased January 1, 1887 dease modified November 7, 1889), to the Oregon the bonds of the Oregon Ry. & Navigation Co. the oregon the bonds of the Oregon Ry. & Navigation Co. tand also 6 per cent on the stock), and the Union Pacific Ry. Co. guarantees the punctual pay-ment of all sums due under the lease by the lesses c.

Default.—In case of default for 90 days in the payment of principal or interest of the bonds hereby secured, the trustee shall at the request of the holders of one-fifth of the said bonds of which the principal or interest shall be in arrears, and may without such request, receive the interest of the trust securities. And out of said interest the trustee shall discharge all the expenses of this trust and afterwards apply any resi-due, first to the payment of the interest due on the bonds of the railway company in the order of its maturity, and, next, to all the expenses of this trust and afterwards apply any resi-due, first to the payment of the interest due on the bonds of the railway company in the order of its maturity, and, next, to the payment of the principal of the bonds, if due, ratably. If the principal be not then due and payable, the trustee shall hold any residue after the payment of the interest then due in trust until the principal of said bonds shall mature, except as hereinafter provided. If all sums of money due and payable by the terms of this indenture shall be paid before any fore-closure or sale, the trustee, upon receiving security that the railway company will thenceforth pay the interest on its bonds hereby secured, shall permit the railway company thence-forth to enjoy the same rights in respect of the trust securi-ties as if no default had been made. And after such default as aforesaid the trustee may in its discretion, and shall upon the request in writing of holders of one-fifth part of the bonds hereby secured of which the prin-cipal or interest moneys shall be so in arrear, sell the trust securities together, or in parcels, by public auction in the city of New York, after notice by advertisement. The trustee shall apply the proceeds of sale after paying all expenses thereof to the payment of the principal of the bonds hereby secured then outstanding (which principal shall be deemed to be due at the time of the completion of the sale), and the interest thereon to that time, ratably and without preference. Default on *Bonds Parcels of default* in the pay-

at the tune of the completion of the sale), and the interest thereon to that time, ratably and without preference. *Default on Bonds Pledged.*—In case of default in the pay-ment of principal or interest of the bonds held in trust, it shall be lawful for the company to transfer to the trustee, in substitution for the bonds then in default, such other bonds or securities as the trustee shall think sufficient to secure the bonds issued heraunder; and the substituted accounties as the securities as the trustee shall think sufficient to secure the bonds issued hereunder; and the substituted securities shall then be held subject to this indenture. In case such substi-tution shall not be made, it shall be lawful for the trustee in its discretion to act in respect of the enforcement of the said bonds as the trustee shall think for the benefit of bondholders bonds as the trustee shall think for the benefit of bondholders hereunder. And whenever any moneys arising from the pay-ing off or enforcement of the bonds pledged, and any interest thereon, shall amount to the sum of \$5,400, the trustee shall apply them to the purchase and redemption of the bonds of the railway company secured by this indenture at not exceed-ing 105 and interest. And so far as bonds sufficient for the purpose cannot be obtained at that price, the trustee shall invest the moneys so held by it and the income thereof in such mortgage bonds of any railway company, or such bonds of any State, Territory, county, precinct, town or city in the such mortgage bonds of any railway company, or such bonds of any State, Territory, county, precinct, town or city in the United States as shall be named by the directors of the railway company, provided that such bonds can be obtained at such a price that the investment will net not less than 4 per cent per annum on the amount so invested. The trustee shall cancel all bonds purchased or paid off out of the said moneys. And in case the trust securities shall be sold in pursuance of the power hereinbefore contained, the trustee shall thenceforth stand possessed of the said moneys and the securities in which the same shall be invested upon the trusts hereinbefore expressed.

Trustees.—The provisions respecting the appointment of trustees are as set forth in the abstract of the Oregon Short Line & Utah Northern consolidated mortgage which precedes.

Mortgages securing the Bonds pledged under the Oregon Railway & Navigation Company's collateral Trust Deed, an Abstract of which precedes.

THE OREGON RAILWAY EXTENSIONS COMPANY FIRST MORTGAGE, AND THE WASHINGTON & IDAHO RR. CO. FIRST MORTGAGE, BOTH SECURING FIVE PER CENT GOLD BONDS DUE SEPT. 1, 1919.

Date.—September 2, 1889. Trustees.—The trustee of both mortgages is the Bay State Trust Company of Massachusetts.

Property Covered.-The mortgages cover respectively all the standard gauge lines of railroad now or hereafter belonging to the companies making the mortgages, provided bonds secured by said mortgages respectively are issued in respect of said by said mortgages respectively are issued in respect of said lines. They cover also all appurtenances, rolling stock, fran-chises, etc., at any time appertaining to said railways. Each deed of trust describes a number of routes upon which

it is lawful to build railroads that, together with any branches or extensions thereof, may be rendered subject to the lien of that mortgage. In the Oregon Railway Extensions Company that mortgage. In the Oregon Railway Extensions Company mortgage one of the principal of these projected lines is from Portland, Oregon, northerly to the Canadian boundary. It has some thirteen projected branches. Another line extends exsterly via Wallula, Wash., to Butte City, Montana, while other lines traverse in various directions Washington, Oregon and Idaho. A line has been constructed from Winona to Selfice in Washington, 48 miles. The road of the Washington & Idaho RR. Co. is to be situated in Washington, Montana and Idaho, and lines may be built to Coeur d'Alene Lake, Murray and Mullan in Idaho, and to Missoula in Montana, &c. The road of this company has been constructed from Farmington, Wash., to Spokane Falls, Wash., 61 miles, with branch from Tekoa, Wash., to near Wallace, Idaho, 86 miles, a total of 147 miles.

### THE BOND. First Mortgage 5 Per Cent Gold Bond.

First Mortgage 5 Per Cent Gold Bond. Date-Beptember 2, 1839. Denomination.-\$1,000 each. Amount Authorized.-Under the Oregon Rallway Extensions Mort-gage, \$27,778 per mile of single track and \$35,839 per mile of double track of completed rallway. Under the Washington & Idaho mort-gage, \$30,000 per mile of single track and \$42,000 per mile of double track of completed rallway. Principal Payable.-The principal is payable September 1, 1919, "in gold coin of the United States of the present standard." Interest Payable.-The Interest is 5 per cent per annum payable March 1 and September 1 in like gold coin. Redemption before Maturity.-In neither mortgage is there any sink-ing fund, but the bonds may be paid before maturity at 105 and accrued interest after notice, but only upon payment of the entire Issue.

accrued interest after notice, but only upon payment of the entire issue. Guaranty.—The property of both companies is leased for 97 years from Jannary 1, 1889, to the Oregon Railway & Navigation Co., which company has assigned its leases to the Oregon Short Line & Utah Northern Railway Company. The leases provide for the payment of interest on all bonds issued under these mortgages. The Oregon Short Line company agrees to perform all the obligations of the Navigation Company under said leases.

Default.-In case of default for sixty days, the trustee may in its discretion, and shall if requested in writing by the holders of one-fifth of the outstanding bonds, proceed as de-scribed in the abstract of the consolidated mortgage of the Oregon Short Line & Utah Northern Railway Company above given.

Trustees.—For provisions respecting the appointment of trustees, see the abstract of the consolidated mortgage of the Oregon Short Line & Utah Northern Railway Company above given.

## UNION PACIFIC DENVER & GULF R'Y CO.

CONSOLIDATED MORTGAGE, SECURING 5 PER CENT GOLD BONDS DUE DECEMBER 1, 1939.

the company to use these narrow-gauge lines of the Denver & Ri-Grande.

Also all other lines that may be constructed under the com pany's charter, and including all appurtenances, rolling stock franchises, &c., now or hereafter appertaining to the railroads

### THE BOND. Consolidated Mortgage 5 Per Cent Geid Bend.

UNION PACIFIC RAILWAY COMPANY. "By Treasurer.

Prior Bonds and Rate at which Consols may be Issued 1. Bonds may be issued under this indenture at the rate of \$25,0 per mile of single track and \$35,000 per mile of double track of completed railroad formerly belonging to the compani-mentioned in the following schedule, but consolidated bors equal in amount to bonds of said companies shall, with the exceptions below noted, be reserved to retire these pri-bonds by purchase or exchange bonds by purchase or exchange.

### SCHEDULE I.

Amount out-standing. Name of company and description of bonds. Denver Texas & Fort Worth 1st mortgage 55, due April 1, 1987....\$ Denver Texas & Fort Worth 1st mort. 5s, due Nov. 1, 1987.... Equipment bonds of above companies, due Narch 1, 1890. Road Canyon RR, Chicosa Cauyon Ry, and Canyon De Agua 5 per cents, due in 1939..... .\$3,000,000 . 4,575,000 . 491,000 191.000

Total prior bouds under Schedule I..... ...\$8,257,000

But for \$1,000,000 of said Denver Texas & Fort Worth bonds, no honds shall be reserved under this provision, an equal amount of consols being hereinafter reserved to retire the same

same. And provided that upon that part of the already con-structed railroad formerly belonging to the Denver Texas & Fort Worth Railroad Company which is between Trinidad and Pueblo, and which it is contemplated may eventually become the main line of the consolidated company between those places, bonds hereunder shall be issued only at the rate of \$15,000 per mile of single track and \$25,000 per mile of double track. And inasmuch as the Denver Texas & Fort Worth Railroad Company agreed to issue \$1,000,000 bonds in respect to the 106 miles of road operated jointly with the Denver & Rio Grande Railroad Company, therefore it is pro-vided that a like amount of these consols, additional to those hereinbefore authorized, shall be reserved to retire the same. But if the Union Pacific Denver & Gulf Railway Company shall hereafter continue the construction of a line of its own shall hereafter continue the construction of a line of its own between Trinidad and Pueblo, it may then issue consols for each mile of completed railroad between said places at the rate of \$15,000 per mile of single and \$25,000 per mile of double track.

Bonds may also be issued at the rate of \$25,000 per mile of single track and \$35,000 per mile of double track railroad belonging to the companies named in the following schedule; but of these amounts consols at the rate of \$20,913 per mile shall be retained to retire, by purchase or exchange, the out-standing bonds of said companies.

### SCHEDULE II.

| Name of company and description of bonds.            | Amount<br>outstanding. |
|--|------------------------|
| Colorado Central 8 per cents, due June 1, 1892       | \$87,000               |

| Deuver Marshall & Bouider 5s, due June 1, 1916       | 226,000                |
| Greeloy Salt Lake & Pacific 7s, due June 1, 1913     | 937,000                |
| Cheyonne & Northern 5s, due Oct. 1, 1926             | 1,250,000              |
|  |                        |

Total prior bonds under Schedule II...... \$7,328,000

Bonds belonging to the issues described in schedules 1 and 2 above, delivered to the trustee in exchange for consols, shall be held by it subject to this indenture, but until default the company shall receive all income therefrom.

company shall receive all income therefrom. As upon the Denver & Middle Park RR. and the Colorado Central RR. in Wyoming there are no bonds outstanding, consols secured hereby may be issued at the rate of \$25,000 per mile of single track and \$35,000 per mile of double track thereon; and upon any extension which may be made under the charter of the consolidated company said bonds may be issued at the seme rate. issued at the same rate.

If the company shall rebuild that part of its railroad formerly belonging to the Colorado Central RR. Co. and the Colorado Central RR. Co. of Wyoming, extending from Fort Collins, Col., to Cheyenne, Wy., or any railway belong-ing to any of the constituent companies, then bonds may be issued hereunder in respect of such railway so rebuilt as upon newly-constructed railway.

issued hereunder in respect of such railway so rebuilt as upon newly-constructed railway. Fort Worth & Denver Bonds, etc.—Inasmuch as the con-solidated company owns a majority of the stock of the Fort Worth & Denver City Railway, extending from Fort Worth, Tex., to Texline, Col. (453 miles), and also a majority of the stock of the Panhandle Railway, extending from Pan Handle to Washburn, Tex., (16 miles), upon which roads there are bonds outstanding as follows—

### I SCHEDULE III.

| 200 Vame of company and description of how do           | Amount       |
|---|--------------|

Total......\$3,971,000 therefore it is agreed that whenever any of said bonds are

therefore it is agreed that whenever any of said bonds are delivered to the trustee a like amount of bonds hereby secured may be issued in exchange therefor, and the bonds so deliv-ered to the trustee shall be held subject to this indenture. In case the company shall wish to transfer bonds of any other company to the trustee on like terms, the trustee shall give notice by advertisement to the bond-holders of the company's desire, and unless within sixty days the holders of one-third of the bonds hereby secured shall object, such other bonds may be deposited as aforesaid, subject to this indenture; but no bonds of any railway not forming a part of the system of the consolidated company, including the Fort Worth & Denver City, shall be so transferred. All bonds delivered to the trustee in exchange for consols shall be stamped with a reference to this trust, and in case of a sale of the premises as hereinafter provided, the trustee shall sell the trust bonds, together or in parcels, at public auc-tion after notice of sale by advertisement. The proceeds of any bonds so deposited in trust which shall be paid off shall be invested in bonds of this issue, if obtainable at 105 and interest, and (to the extent that these consols cannot

be obtained at said rate), in such State, Territory, county, precinct, town or city bonds of the United States as will net 4 per cent on the sum invested. Consols so paid shall be can-

celed. Consolidation with Fort Worth & Denver.—In case of con-solidation with the Fort Worth & Denver City Railway Co., or with the Pan Handle Railway Co., the properties of said com-panies may be conveyed to the trustee and made subject to this mortgage: and in such case bonds hereunder may be issued on said railways at the rate of \$25,000 per mile of single track and \$35,000 per mile of double track, but only after deducting from said amounts the amount of bonds of said companies then outstanding. And if bonds hereunder be issued in respect of such properties a sufficient amount of consols shall be reserved to retire said prior bonds at matnrity. Default, Trustees, Etc.—The provisions respecting default, the appointment of trustees, the building of road free from the lien of the mortgage, and the power which bondholders have of forbidding the issue of consols for extensions, are precisely as set forth in the abstract of the consolidated mort-gage of the Oregon Short Line & Utah Northern Railway Company, given above.

Company, given above.

## **BALTIMORE & OHIO SOUTHWESTERN** RAILROAD COMPANY.

Together with all rights privileges and appurtenances to

September 1, 1887, and that with the Pullman Palace Car Co. for twenty-five years from June 25, 1888. Together with all rights, privileges and appurtenances to the same appertaining, being the same railroad property con-veyed by deed to Edward R. Bacon, James Sloan, Jr., and John K. Cowen, dated October 7, 1889, it being the intention of the company to convey to the trustee all franchises of every description, all real estate and interest therein, all mixed and property description. personal property designed for use in operating and maintaintime hereafter acquired.

THE BOND.

First Mortgage 412 Per Cent Gold Bond.

"Witness the corporate seal of the said company and the signature of its Treasurer." Fayment of Coupons by Guarantor.—It is expressly cove-nanted that in the event of the payment of any of the coupons on said bonds by the Baltimore & Ohio RR. Co, that the cou-pons so paid or purchased shall be subordinated in payment to the principal and subsequent interest on said bonds. Default.—In case of default for six months in the payment of the semi-annual interest on any of the bonds hereby se-cured, or of default in the payment of the principal of the same when due, or in case of failure to pay taxes and to keep the property free from any lien whereby the security of this moitgage may be impaired, or of failure to perform the cove-nants herein contained, then and in either of such events the trustee shall, upon the written request of the holders of a majority of the bonds then outstanding, forthwith enter upon the order of its maturity, and, second, if the principal be due, to the payment of the principal ratably. Or the trustee shall upon request, as aforesaid, proceed to sell all the property at public auction to the highest and best bidder after giving due notice by advertisement. All pro-ceeds of cale, after the payment of expresses shall be amplied

bidder after giving due notice by advertisement. All pro-ceeds of sale, after the payment of expenses, shall be applied, without preference to one bond over another, to the payment

without preference to one bond over another, to the payment of the whole amount of unpaid principal, and of the whole amount of the interest accrued and unpaid ratably. Or the trustee shall upon request as aforesaid proceed to en-force the rights of the bondholders by suits in equity or at law, the rights of entry and sale hereinbefore granted being intended as cumulative remedies, additional to all other remedies allowed the law. by law. But no holders of any bonds or coupons shall have the right to institute any action for the execution of the trust hereof without first giving thirty days' notice to the trustee of the default, nor without affording it a reasonable opportunity

the default, nor without affording it a reasonable opportunity to seek redress. Nor shall the premises be sold nor any suit be instituted otherwise than in the manner provided herein. In case of default for over six months in the payment of interest, the holders of a majority of the bonds hereby secured may by an instrument in writing instruct the trustee to de-clare the principal due and payable, whereupon the whole principal sum shall then be due and payable; but before the entry of any decree of sale the holders of a like majority of the bonds hereby secured may annul or reverse the declara-tion of the trustee. And in the event of any sale of the prem-ises as hereinbefore provided, the whole principal sum shall be due and payable. be due and payable.

The company agrees to waive the benefit of any stay, ex-emption, extension, valuation and appraisement laws now or hereafter existing.

Trustees .- In case the trustee shall resign or be removed by *Trastees.*—In case the trustee shall resign or be removed by a court of competent jurisdiction, or become unfit to act, the successor to said trustee shall be appointed by the holders for the time being of a majority in interest of the bonds secured hereby, by instruments in writing, and in case it shall at any time prove impracticable to appoint a trustee in this manner, the new trustee may be appointed by any court of competent jurisdiction upon application by holders of one-eighth in in-terest of the bondholders.

### FIRST, SECOND AND THIRD INCOME MORTGAGES OF THE BALTIMORE & OHIO SOUTHWESTERN RR. CO., SECURING BONDS DUE JANUARY 1, 1990.

Date.—December 28, 1889, December 30, 1889, and Decem-ber 31, 1889, respectively. Trustee.—The Farmers' Loan & Trust Co. of New York. Property Covered.—The property covered is the same as that described in the abstract of the first mortgage given above.

### THE BOND.

Five Per Cent Non-Cumulative Income Bond.

Five Per Cent Non-Cumulative Income Bond. Date.-December 23, 1889, December 30, 1889, and December 31, 1889, respectively. Denomination.-\$1,000 each. Amount Authorized.-Under the first income mortgage, \$5,500,000; under the second. \$6,400,000; under the third, \$7,700,000. Principal Payatic.-The principal is payable in gold coin of the United States of the present standard of weight and fineness on January 1, 1990. Interest Payable.-The interest is 5 per cent per annum, or so much thereof as may be earned; but non-cumulative.

Freedom from Taxation.—Both principal and interest are to be paid without deduction for any tax which the company may be required to retain by any law of the United States or of the State of Ohio. Coupon or Registered.—The bonds are coupon bonds, and may be registered as to principal. Sinking Fund.—None.

Declaration of Interest Payments.—The company shall apply its net earnings after the payment of prior interest charges to the payment of interest up to 5 per cent per annum upon the income bonds in the order of their priority. The words net earnings "shall be held to signify the sum remaining of the gross profits, earnings, incomes and receipts of the rail-road and property from all sources during each fiscal year ending the thirtieth day of June, after deducting therefrom all the expenses of maintaining, operating, running, replacing and repairing the said railroad property and equipment, including such reasonable improvements thereof and additiona thereto as shall be necessary for the safe, proper and economical operation of the same, and also after deducting all taxes and assessments imposed upon or against the tailroad and property or the incomes and earnings thereof;" and the interest on the bonds having a lien prior to the lien of said issue. The first coupon on the first mortgage incomes is payable, if at all, on May 15, 1891, out of the net earnings of the fifteen months ending June 30, 1892. All subsequent coupons of the first mortgage in a saw and also the first mortgage incomes and as a set or the accuracy of the interest on the set of the net earnings of the first mortgage incomes and and property of the net earnings of the first mortgage incomes and and property of the net earnings of the first mortgage incomes and as a set of the net earnings of the first mortgage incomes and and property of the net earnings of the first mortgage incomes and and property of the net earnings of the first mortgage incomes and and property and be apprended and property of the net earnings of the first mortgage incomes and the second coupon is pay-able out of the net earnings of the first mortgage incomes and and property and earling of the first mortgage incomes and and property and earling the second coupon is pay-able out of the net earnings of the first mortgage incomes and property and the apprending the second Declaration of Interest Payments .- The company shall ap-

30, 1892. All subsequent coupons of the first mortgage in-comes and all coupons on the other income bonds are payable out of the net earnings of the fiscal year ending June 30. All coupons on the first mortgage incomes except the first are payable, if at all, on October 1; cn the second mortgage in-comes on November 1, and on the third mortgage incomes on December 1.

The company is to furnish the trustee with a statement showing the amount of net earnings applicable from the earnshowing the amount of net earnings applicable from the earnings of each period to the payment of interest. If the holders of 25 per cent of the bonds of any issue notify the trustee that they object to the statement the trustee shall have the right to have the company's books inspected at the company's expense by an expert accountant. And if the trustee shall upon request of holders of 25 per cent of the bonds fle a bill in equity for an account of the net earnings; and unless the company cannot agree as to the statement, the function of the bonds file a bill in equity for an account of the net earnings; and unless the company cannot agree as the net earnings; and unless the company cannot be appreciable within three months after the final decree of the pany shall within three months after the final decree of the court pay the balance of earnings determined by the court to be payable by way of interest, such non-payment shall consti-tute a default for which the trustee shall be authorized to

take proceedings. Default.—The provisions respecting default are in the main as described in the abstract of the first mortgage above, except that the holders of one-fourth, instead of a majority, of the bonds may in each case there mentioned require the trustee to act

Trustees.—The provisions respecting the appointment of trustees are the same as in the abstract of the first mortgage above.

### PEORIA & EASTERN.

FIRST CONSOLIDATED MORTGAGE AND ALSO SUPPLE-MENTAL DEED, SECURING \$10,000,000 OF 4 PER CENT BONDS DUE APRIL 1, 1940.

Property Covered.—All the line of railway formerly of the Obio Indiana & Western Railway Co., extending from Pekin,

Property Covered.—All the line of railway formerly of the Ohio Indiana & Western Railway Co., extending from Pekin, Ill., to the tracks of the Indianapolis Union Railway Co. at or near Indianapolis, Indiana, and the right to use the tracks of said Indianapolis Union Railway Co., and of the Peoria & Pekin Union Railway Co. Also all bridges, stations; rights of way, and franchises appertaining thereto, and all engines and other rolling stock, and all supplies and appurtenances now owned or hereafter acquired, the same being subject to prior liens, as follows: 1. Indiana Bloomington & Wortern 7 per cent, bords to

now owned or nereater required, the same outing chapter prior liens, as follows: ... 1. Indiana Bloomington & Western 7 per cent bonds to the amount of \$1,000,000, dated 1879, and due Jan. 1, 1900. 2. Ohio Indiana & Western 5 per cent bonds to the amount of \$500,000, dated 1888 and due April 1, 1988. And all, the title of the railway company in a certain pur-chase money lien and charge of \$5,000,000, and the income thereof, on that part of the railway late of the Ohio Indiana & Western Railway Company, extending from Springfield, Ohio, westward to the tracks of the Indianapolis Union Rail-way Company, declared in the deed thereof to the Cleveland Cincinnati Chicago & St. Louis Railway Company in the prem-ises so conveyed, the same being subject to the prior lien of the said \$500,000 Ohio Indiana & Western 5 per cent bonds due April 1, 1938. [See also the supplementary deed below.] THE BOND.

### THE BOND.

First Consolidated Mortgags Four Per Cent Bond.

Date.—February 22, 1990. Denomination.—\$1,000 each. Amount Authorized.—\$10,000,000, of which \$1,500,000 shall be reserved to be issued from time to time in exchange for said prior bonds and \$570,000 shall be reserved and issued from time to time for

the purposes of the reorganization, or for the improvement of the mortgaged premises. Frincipal Feyable.—The principal is payable April 1, 1940, in New York City. Interest Payable.—The Interest is 4 per cent per annum, payable April 1 and October 1 in New York City. Freedom from Taration.—Hoth principal and interest are to be paid without deduction for any taxes which the company may be required to retain therefrom by any present of future law of the United States of America, or by any of the States thereof, the company agreeing to pay all such taxes. — Coupon or Registered.—The bonds are coupon bonds, and may be reg-istored as to principal. — Sinking Fund.—None. — Default.—In case of default for over three months in the

Default.—In case of default for over three months in the payment of the semi-annual interest on any of the bonds hereby secured, or in case of default in the payment of the principal thereof when due, or in case of failure to perform any of the covenauts herein contained, then in every such case (1) the trustee may in its discretion, and shall upon the written request of holders of one-quarter in amount of the bonds then outstanding, enter upon the property hereby con-veyed, and operate the railways, and after deducting all proper charges the trustees shall apply the remaining net income therefrom to the payment of the interest due on the outstand-ing bonds in the order of its matnrity, ratably and without discrimination. (2) Or the trustee may, and upon like request shall, proceed to sell the property to the highest and best bidder at public auction, after having given six weeks notice by advertisement. The proceed of sale after the payment of necessary expenses shall be applied to the payment of the principal of the bonds then outstanding and of interest accurded up to that time without preference between principal and interest, but ratably to the persons holding the bonds and coupons hereby seenred. Default .- In case of default for over three months in the coupons hereby secured.

(3). Or the trustee may, and upon like request shall, proceed: to protect the rights of the bondholders herennder, by suits in equity or at law. No holder of any bond or coupon shall have the right to begin any action for the execution of the trusts hereof without first giving the trustees notice of the default, nor without allowing it a reasonable opportunity to seek redress.

In case of default in the payment of interest or in the per-In case of default in the payment of interest of in the per-formance of any covenant herein, or in the event of the trus-tees taking possession of the property, then, and in either such case, the whole principal sum of all the bonds then outstand-ing shall, at the option of the trustees, or if the trustees omit to declare the principal due, at the option of the holders of 25 per cent of the bonds then outstanding, expressed in writing, and delivered to the trustees and served on the railway com-pany for the bonds the option of a percent. and delivered to the trustees and served on the railway com-pany, forthwith become due and payable. And in case of a sale of the mortgaged premises on account of default, the whole principal sum shall become due and payable; but the holders of a majority of the bonds may waive the right to declare the principal due, or may reverse the action of the trustee. In every proceeding for the enforcement of these presents, the trustees shall be entitled to a receivership of the mort-gaged premises and of the profits thereof, and in any such proceeding the railway company shall waive the benefit of any exemption, stay or appraisement laws now or hereafter in force.

in force.

Covenants.—The company covenants to pay the prior bonds when due, to discharge all taxes, &c., on the mortgaged premises, and to insure the property against fire. If the company shall make default in paying taxes or other charges, the trustee or any bondholders may advance the amount due therefor, and have a first lien on the premises for their reimbursement.

Trustees.—After default under these presents by the rail-way company, the trustee may be removed by writing signed by the holders of a majority of the bonds hereby secured then by the holders of a majority of the bolds hereby sectored then outstanding, and any vacancy in the trusteeship may be filled hy appointment by the holders of a majority of the bolds, or by any court of competent jurisdiction, upon application of oue-tenth of the outstanding bonds.

### SUPPLEMENTARY INDENTURE DATED MARCH 25, 1890, GUARANTEEING INTEREST AND CONVEYING COVENANTS.

Parties.—The Peoria & Eastern Ry. Co. of the first part, the Cleveland Cincinnati Chicago & St. Louis Ry Co. of the second part and the Central Trust Co. of New York and Charles W. Fairbanks, trustees of the first consolidated mort-gage and of the income mortgage of the Peoria & Eastern Ry. Co., of the third part.

gage and of the income mortgage of the Peoria & Eastern Ry. Co., of the third part. Preamble.—Whereas, the Cleveland Cincinnati Chicago & St. Louis Ry Co. entered into an agreement dated Feb. 22, 1890, whereby it arranged for operating for fifty years the railway of the Peoria & Eastern Ry. Co., and wherein among other things it agreed to make good any deficiency in the fund necessary for the payment of the interest on the prior bonds and on the first consolidated bonds of the Peoria & Eastern Co., and of any tax on said bonds, after devoting to such pay-ment the net income from the purchase money lien [i. e., the net earnings up to \$200,000 of the 142 miles of road between Indianapoles and Springfield] and the net earnings derived from the line of railway extending from Pekin to Indianapo-lis. And whereas, it further agreed that the benefits of said agreement might be pledged to secure the first consolidated mortgage bonds, and that a separate covenant should be ex-ceuted to the effect hereinabove stated; now therefore these presents witness : presents witness :

1. Assignment of Covenant.—That in consideration of the premises the Peoria & Eastern Company transfers to the trus-tees the above-mentioned covenants of said agreement (being

premises the reoria & Eastern Company transfers to the trus-tees the above-mentioned covenants of said agreement (being those in clause second of said agreement), and all right to prosecute all causes of action for any breach thereof. 2. Guaranty of Interest.—That in consideration of the premises the Cleveland Cincinnati Chicago & St. Louis Com-pany " absolutely guarantees to the parties of the third part [tho trustees] as such trustees of said first consolidated mort-gage, and to all and singular the persons and parties who may at any time be or become the holders of said first consolidated mortgage bonds, or any of them, the punctual payment of all the interest to accrue thereon, and on the bonds secured by said prior mortgages, as and when such interest shall become due and payable." 3. Endorsement of Bonds.—That at any time the holders of any of said first consolidated mortgage bonds may have them endorsed as entitled to the benefits of this indenture. And these presents further witness, that whereas the Cleve-land Cincinnati Chicago & St. Louis Company owns said rail-road extending from Springfield, O., westward to a point near Indianapolis, Ind., subject to a purchase money lien of \$5,000,-000; now, therefore,

1000; now, therefore, Enforcement of Purchase Money Lien.—It is agreed that in case of default under either the first consolidated mortgage or the income mortgage of the Peoria & Eastern Company, and of proceedings thereunder against the mortgaged premises, the said purchase money lien shall at the option of the trustees at once become dne and enforceable, and the trustees may (1) sell the said purchase money lien as part of the mortgaged prop-erty retaining the obligations of the Cleveland Cincinnati Chi-erco & St. Louis Company in full force or (2) foreclose the purcago & St. Louis Company in full force, or (2) foreclose the pur-chase money lien and sell the property in respect whereof said lien is so declared and reserved for its enforcement, free and clear from all rights of the party of the second part

### INCOME MORTGAGE OF THE PEORIA & EASTERN RAILWAY CO., SECURING \$4,000,000 BONDS DUE APRIL 1, 1990.

Date.—February 22, 1890. Parties.—The Peoria & Eastern Railway Co. of the first part and the Central Trust Co., of New York, and Charles W. Fairbanks, of Indianapolis, trustees, of the second part. *Property Covered.*—The property covered is the same as that conveyed by the first consolidated mortgage which pre-

### THE BOND.

Income Mortgage 4 per cent non-cumulative Bonds.

Income Mortgage 4 per cent non-cumulative Bonds. Date.—Feb. 22, 1890. Denomination.—\$1,000 each. Amount Authorized.—\$4,000,000. Principal Payable.—The principal is payable April 1, 1990, in New York City. Interest Payable.—Interest is payable on April 1 at a rate not exceed-ing 4 per cent per annun, but only out of the net income of the com-pany (as below stated) and not cumulative. The coupons maturing April 1, 1891, read for \$30, and the coupons maturing annually there-after for \$40 each. Coupon or Registered.—The bonds are coupon bonds without privi-lege of registration. Sinking Fund.—None.

Sinking Fund.-None. Payment of Interest.—The directors of the company shall ascertain each year the net income applicable to the payment of interest on these bonds "by deducting from the gross earn-ings and income of the railway company for such year all interest on prior bonds and on said first consolidated mortgage bonds, expenses of operation and maintenance, taxes, assess-ments, insurance, rentals, and other like charges, cost of re-pairs, renewals, and reasonable betterments to the property of the railway company necessary for its economical and efficient operation, and all deficiencies arising for said purposes in former years not otherwise provided for, and all advances which shall have been made to provide for such deficiencies." The said net income shall be ascertained and declared not later than March 1, and the interest declared be paid on April 1 following.

later than March 1, and the interest declared be paid on April 1 following. The railway company shall by March 1, yearly, furnish the trustees with a statement of earnings for the previous year, and if the trustees shall not be satisfied therewith, or if said trustees shall be notified in writing within thirty days by hold-ers of one-fifth the outstanding bonds hereby secured that they object to the same, the trustees shall have the right to have the books of the railway company inspected by an expert ac-countant, who shall be appointed by the trust company so long as it continues one of the trustees. If the said difference shall not be adjusted between the trustees and the railway company, or if the trustees be called upon by holders of one-fifth the ontstanding bonds, it shall be the duty of the trustee to file a bill in equity for an account of the net income. And if it shall be adjudged in such action that there is net income available for the payment of interest on these bonds beyond the amount declared by the railway company then, unless the railway company pay the balance of the net earnings so ad-judged available by way of interest, such non-payment shall constitute a default in the payment of interest. In the agreement before mentioned between the Peoria & Eastern and the Cleveland Cincinnati Chicago & St. Louis Companies, dated February 22, 1890, it is provided that the Cleveland Company shall receive all income from the railway hereby conveyed, and from the \$5,000,000 purchase money lien—*i. e.* the net earnings up to \$200,000 of the road between

Indianapolis and Springfield, 142 miles,—and that said com-pany, after paying therefrom all the charges detailed in the above paragraph with interest at 6 per cent on all advances, shall apply the balance to the payment of interest on these incomes and turn over any surplus thereafter to the Peoria &

Default and Trustees.—The provisions respecting default and the appointment and removal of trustees are substantially as stated in the abstract of the first consolidated mortgage above.

## MANHATTAN RAILWAY.

  12. The leasehold premises No. 34 Murray Street, not mad street and a depth of 28 feet.
  13. The leasehold premises No. 34 Murray Street, not mad sthe streets and A morningside avenues.
  14. The

The Manhattan Company agrees to transfer to the trustee all capital stock of the Metropolitan Company now or here-after surrendered under the agreement of August 1, 1884, but nothing herein shall prevent the accomplishment of the merger contemplated in said agreement. And whenever the same shall have been so accomplished all the property of the Metropolitan Co. shall become subject to the lien hereof.

In 1884 the New York Elevated Co. was duly consolidated with the Manhattan Co., and an agreement was made for a consolidation with the Metropolitan Co., whose property had been leased for 999 years from Nov. 1, 1875. Under this agree-ment the Manhattan has secured in exchange for its own stock all but about \$97,218 stock of the Metropolitan Co.]

### THE BOND.

Consolidated Mortgage Gold Bond.

Date.-February 26, 1890. Denomination.-\$1,000 each. Amount Authorized.-The amount authorized upon the present sys-tem of railroads is \$40,000,000, but of this \$26,645,000 is reserved for prior Hens, as hereinafter indicated. For extensions further amounts

may be issued at the rate of \$600,000 per mile of double and \$300,000 per mile of single track. Principal Payable.—The principal is payable April 1, 1990, "in gold coin of the United Statesof the present standard of weight and finences." Interest Payable.—The interest of the first issue is 4 per cent per mnum; of any subsequent issues not to exceed 5 per cent per annum; It is payable April 1 and October 1 in like gold coin in New York City. Freedom from Taxation.—Principal and interest are payable without any deduction for any taxes which the company may be required to retain therefrom by any present or future law of the United States or of the State of New York. Coupon or Registered.—The bonds are coupon bonds, and may be reg-istered, as to principal, in New York City. Sinking Fund.—None. Prior Liens.—The prior liens amount to \$26,223,000 co

Prior Liens.—The prior liens amount to \$26,223,000, as shown below, and against these \$26,648.000 of bonds hereby secured shall be reserved.

\* Secured by lien of this consolidated mortgage, as per agreement.

\*Secured by lien of this consolidated mortgage, as per agreement. Whenever any of said first mortgage bonds of the N. Y. Elevated RR. are deposited with the trustee, bonds hereby re-served may be issued at the rate of \$1,050 par value for every \$1,000 of said bonds so deposited. And whenever any of the other prior bonds shall be so deposited, bonds having an equal par value may be issued hereunder. Until the merger with the Metropolitan Co. is accomplished, the bonds of said com-pany so retired shall be held by the trustee uncanceled and be enforced by it as will in its judgment best secure the rights of the bonds hereby secured. The bonds of any of the other issues above referred to shall, when so retired, be held as se-curity hereunder until the whole of any issue has been de-posited, when thereupon that issue may be canceled. The railway companies further covenant that until said merger is completed no further lien upon the property of the Metropoli-tan Co. shall be created. No further issues shall be made under any of the prior mort-carges and of water the sum of the prior mort-

tan Co. shall be created. No further issues shall be made under any of the prior mort-gages, and at maturity all prior bonds shall be paid and can-celed, except as hereinbefore provided as to the bonds of the Metropolitan Co.

Metropontan Co. Default.—In case of default for sixty days in the payment of interest, or in the performance of any covenant herein contained, the trustee may, and upon the written request of holders of a majority of the bonds hereby secured and then outstanding shall, enter upon and enjoy the property hereby conveyed. And all revenues therefrom after the payment of conveyed and all revenues thereform after the payment of the property devices the sect of betterments of the shall conveyed. And all revenues therefore after the payment of operating expenses, taxes, the cost of betterments, etc., shall be applied to the payment of the interest due on the bonds hereby secured, ratably. And upon payment of all such arrears of interest the property shall be restored to the Manhattan Company.

Or the trustee may, and on like request shall, declare the principal of the bonds due and payable. And in case of default as aforesaid, or of default in the payment of principal when due, principal one one back and pupplied to the initial method of the func-sa aforessid, or of default in the payment of principal when due, the trustee may, and shall on request of a majority interest of the bondholders, sell the property as an entirety at public auction in New York City, after first giving notice of the sale by advertisement. The proceeds of sale, when all expenses thereof have been paid, shall be applied to the payment of the principal and interest hereby secured, without preference between them, or of one bond or coupon over another. But until the merger with the Metropolitan Co. shall have been accomplished, the charge created by these presents shall extend only to the amount which the Manhattan Co. now is, or shall be, entitled to out of the Metropolitan Co.'s property by said agreement, including all amounts due for expendi-tures for the completing and operating the railroads of the Metropolitan Co. And such lien shall be enforceable as the trustee may find expedient. Or upon default as aforesaid, the trustee may, and on ike request shall, take legal proceedings to foreclose this mortgage and to seek the appointment of a receiver, but no holders of bonds hereby secured shall have the right to insti-

mortgage and to seek the appointment of a receiver, but no holders of bonds hereby secured shall have the right to insti-tute any suit for the execution of the trusts hereof, without first giving notice to the trustee of the default, nor without affording it a reasonable opportunity to seek redress. *Trustees.*—The trustee, after default by the railway com-pany under these presents, may be removed by writing signed by the holders of a majority of the bonds hereby secured, then outstanding. And any vacancy in the trusteeship shall be filled either by any court of competent jurisdiction upon application of holders of one-third in amount of the bonds hereby secured at that time outstanding, and after due notice to the other holders—or by writing signed by the holders of a majority of said bonds. majority of said bonds.

Busk RR. (Col.)—In Leadville, Col., there has been filed in the clerk and recorder's office a mortgage given by the Busk Railway Company to the Continental Trust Company of New York, to secure the payment of an issue of first mortgage 7 per cent gold bonds to the amount of \$1,500,000, payable July 1, 1935. It is provided that should the Busk Company desire to redeem any bonds, they shall have the right to do so willin five years of the present time at 105. The mortgage is given on all property of the Busk-Ivanhoe Tunnel Company, includ-ing the line of railway to be constructed between Busk and Ivanhoe. Ivanhoe.

# The Commercial Limes.

## COMMERCIAL EPITOME.

FRIDAY NIGHT, August 22, 1890,

Two factors of chief importance in the commercial situation have been the high rates for money and reports of an impending strike on the Vanderbilt system of railroads, both tending to restrict transactions. The advices as to the growing crops of the country have been on the whole more favorable. And it is a noteworthy fact that there is a good business in finished iron and steel, and that the bank clearings indicate a fair degree of commercial activity in the country at large.

Lard on the spot has been advancing with corn, and in the face of large receipts of hogs, the exports being liberal and a good demand prevailing for immediate delivery. To-day 2,509 tcs. prime Western sold at 6.55@6.571/2c. on the spot and 6.50c., cost, freight and insurance. Prime city sold at 6c. and refined at 6.35@6.80c. for the Continent and 7.30c. for South America.

### DAILY CLOSING PRICES OF LARD FUTURES.

|                      | Sal. | Mon. | Tues. | Wed. | Thur. | Fri. |
|----------------------|------|------|-------|------|-------|------|
| September delivery   | 6.39 | 6.20 | 6.20  | 6.33 | 6.90  | 6.57 |
| Octoberdellvery      | 6.51 | 6.86 | 6.66  | 6.69 | 6.71  | 673  |
| November delivory    | 6.82 | 6.79 | 6.76  | 6.30 | 6.80  | 6.85 |
| December delivery C. | 6.70 | 6.80 | 6.87  | 6.92 | 6.91  | 6.96 |
| January delivery     | 6.89 | 7.03 | 7.07  | 7.13 | .7.11 | 7.13 |

Pork has been in moderate demand and firm, closing at \$12 50@\$13 25 for new mess, \$10@\$10'50 for extra prime and \$11 50@\$14 for clear backs. Beef has been quiet at \$6 25@ \$6 75 for extra mess, \$7 50@\$8 for packet and \$11 50@\$14 for extra India mess. Beef hams have been firm at \$1775@ \$18 per barrel. Cut meats have been been quiet, but firm, with pickled bellies, 10 to 12 lbs. average, 6@61/4c. ; do. shoulders at 5% c., and do. hams at 11@11% c. Tallow has advanced to 4% c. on large sales, though closing quiet. Stearine has remained at 71/2@73/4c. and oleomargarine at 53/4c. Butter has been advancing, with light receipts and a good trade, closing at 17@231/2c. for creamery. Cheese has advanced to 7@81/4c. for State factory full cream.

Coffee on the spot has latterly been quiet at 1834c. for No. 7 Rio undescribed. The warehouse deliveries have been liberal. There was at one time quite a good trade in mild coffee: Interior Padang sold to-day at 241/2c. Rio options were strong until the receipts at Rio and Santos began to increase materially, reaching 22,000 bags in one day, while to-day they were 23,000 bags, including 14,000 at Santos. The large arrivals together with increased Brazil crop estimates, less demand to cover, selling for European account and "firm offers" from Rio have latterly caused more or less depression. The American visible supply is about the same as a year ago, but the near options are materially higher than then. The close to-day was steady with sellers as follows :

 August
 18:25c.
 November.
 16:70c.
 February
 15:80c.

 September.
 17:70c.
 December.
 16:50c.
 March.
 15:75c.

 October.
 17:05c.
 January
 16:00c.
 April
 15:75c.

Raw sugar has latterly been dull and weaker, closing at 4 15-16c. for fair refining and 5 9-16c. for 96 degrees test Centrifugal. To-day 96 test Centrifugal sold at 33-16c. cost and freight; molasses sugar, 88 test, at 2 9-16c. cost and freight, and 80 test at 43/4c. Refined sugar has been steady, but closed easier at 61/sc. for granulated and 6 11-16c. for standard crushed. At the tea sale prices were strong. Large private sales have been made.

crushed. At the tea sale prices were strong. Large private sales have been made. Kentucky tobacco has been in better demand, hut the actual transactions have not increased materially, and prices show no change. Seed leaf has sold pretty freely, the sales including 500 cases, 1889 crop, New England Havana seed, 13 to 16½c.; 350 cases, 1889 crop, Pennsylvania seed leaf, 9½ to 10½c.; 300 cases, 1889 crop, Wisconsin Havana, 9½ to 11½c.; 100 cases, 1888 crop, Wisconsin Havana, 9½ to 11½c.; 100 cases, 1888 crop, Wisconsin Havana, 9½ to 11½c.; 100 cases, 1888 crop, Wisconsin Havana, 9½ to 11½c.; 100 cases, 1888 crop, Misconsin Havana, 9½ to 11½c.; 100 cases, 1889 crop, Misconsin Havana, 9½ to 11½c.; 100 cases, 1889 crop, Misconsin Havana, 9½ to 12c.; 200 cases, 1889 crop, State Havana, 12 to 14c.; 250 cases, 1889 crop, Ohio, 7 to 9c.; 250 cases sundries, 6 to 22½c.; also 1,650 bales Ha-vana, 65 to \$1 15 and 350 bales Sumatra \$1 15 to \$2 40. Refined [petroleum in barrels has remained at 7:35c.; cases 9:20c.; crude in barrels 7:50c. and naphtha 7:50c. Crude certifi-cates closed at 85c. per barrel. Spirits turpentine is quiet at 41½@42c. Rosin is quiet and steady at \$1 37½@1 45 for common to good strained. Hops have been firmer. Wool has been quict and depressed. On the Metal Exchange to-day iron warrants were dull and nominal. No response has been made here to the advance in Scotch iron warrants in Glasgow of late. Fig iron is dull and nather weak. In manufactured iron and steel a good business is reported from the West. Steel rails are dull and to a great extent nominal at \$31. Tin was firm at the Exchange to-day, and straits for August sold at 21.50c and for September and October at 21.40c. Copper was dull, lead steady and spelter nominal.

## COTTON.

FRIDAY, P. M., August 22, 1890.

THE MOVEMENT OF THE CROP, as indicated by our telegrams The MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 14,295 bales, against 3,756 bales last week and 1,419 bales the previous week, making the total receipts since the lat of Sept., 1889, 5,819,058 bales, against 5,516,066 bales for the same period of 1888-9, showing an increase since Sept. 1, 1889, of 802,089 bales.

The speculation in cotton for future delivery at this market has been moderate in the aggregate and prices have been declining. On Monday a sharp decline in Liverpool, continued dulness at Manchester, liberal receipts at the ports, depression in Southern markets and a reported failure in New Orleans, caused a decline here which was especially noticeable in the August and September options. On Tuesday much the same influences conspired to bring about a further decline. On Wednesday renewed dulness and depression in Liverpool, Manchester, New Orleans, and some other Southern markets, as well as liberal receipts caused another decline here. The later deliveries showed the least depression, as they were already at a considerable discount compared with August and September. On Thursday prices continued on the downward course. The mouey market now appeared as a depressing factor in the speculation. To-day August declined 31 points, but other options, after a small decline, recovered the loss and advanced 5 to 6 points. The depression was due to a decline of 6-64d, for August in Liverpool, the circulation of August notices of delivery for 10,000 bales, declining spot markets here and at the South, and continued stringency for a time in money. Cotton on the spot has declined 9 16c., with liberal sales for export at times and a fair trade for home account. To day the market was and a fair trade for home account. To-day the market was depressed, with middling uplands 11½c. The total sales for forward delivery for the week are 368,000

bales. For immediate delivery the total sales foot up this week 11,756 bales, including 8,759 for export, 2,997 for consumption, for speculation, and — in transit. Of the above — bales were to arrive. The following are the official quotations for each day of the past week-August 16 to August 22.

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph, is as follows. The Contineutal stocks, as well as those for Great Britain and the afloat are this week's returns, and consequently all the European figures are brought down to Thursday evening. But to make the totals the complete figures for to-night (Aug. 22), we add the item of exports from the United States, including in it the exports of Friday only.

The above totals show that the old interior stocks have decreased during the week 423 bales, and are to-night 957 bales less than at the same period last year. The receipts at the same towns have been 1,451 bales more than the same week last year, and since Sept. 1 the receipts at all the towns are 15,431 bales more than for the same time in 1888-89.

QUOTATIONS FOR MIDDLING COTTON AT OTHER MARKETS.-In the table below we give the closing quotations of middling cotton at Southern and other principal cotton markets for each day of the past week:

| Week ending  | CLOSING QUOTATIONS FOR MIDDLING COTTON ON- |       |        |         |        |        |  |  |  |  |
|--------------|--|-------|--------|---------|--------|--------|--|--|--|--|

The closing quotations to-day (Friday) at other important Southern markets were as follows:

| Columbus, Miss | Nashville | 114 | 1078 |
|----------------|-----------|-----|------|
|                | Natchez   |     |      |

RECEIPTS FROM THE PLANTATIONS.—The following table indicates the actual movement each week from the plantations. The figures do not include overland receipts nor Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

| Week<br>Ending- |    | Receipts at the Ports. |       |        | St'k at Interior Towns. |        |        | Rec'pts from Plant'ns. |       |        |
|-----------------|----|------------------------|-------|--------|-------------------------|--------|--------|------------------------|-------|--------|
|                 |    | 1888.                  | 1889. | 1890.  | 1888.                   | 1889.  | 1890.  | 1888.                  | 1889. | 1890.  |
| July            | 18 | 10,062                 | 1,952 | 2,500  | 31,479                  | 10,855 | 13,828 | 8,865                  | 124   | 1,227  |
|                 | 25 | 8,033                  | 1,710 | 3,643  | 28,163                  | 9,657  | 9,819  | 4,728                  | 512   |        |
| Aug.            | 1  | 6,384                  | 911   | 2,596  | 23,685                  | 9,158  | 7,436  | 1,906                  | 412   | 213    |
|                 | 8  | 9,915                  | 1,019 | 1,419  | 20,385                  | 7,848  | 6,789  | 0,615                  |       | 772    |
| 95              | 15 | 19,449                 | 1,406 | 3,756  | 16,244                  | 7,890  | 0,863  | 15,308                 | 948   | S.830  |
| 39              | 22 | 18,517                 | 8,532 | 14,295 | 15,991                  | 7,207  | 8,964  | 18,261                 | 8,340 | 16,396 |

The above statement shows: 1.—That the total receipts from the plantations since September 1, 1889, are 5,815,578 bales; in 1888-89 were 5,508,801 bales; in 1887-88 were 5,537,638 bales. 2.—That, although the receipts at the outports the past week were 14,295 bales, the actual movement from plantations was 16,396 bales, the balance going to increase the stocks at the interior towns. Last year the receipts from the plantations for the same week were 6,349 bales and for 1888 they were 18,264 bales. 18,264 bales.

AMOUNT OF COTTON IN SIGHT AUG. 22.—In the table below re give the receipts from plantations in another form, and add to them the net overland movement to Aug. 1, and also the takings by Southern spinners to the same date, so as to give "ubstantially the amount of cotton now in sight.

|   | 1889-90.                        | 1888-89.  | 1887-88.  | 1886-87.  |
|---|---------------------------------|-----------|-----------|-----------|
| Receipts at the ports to A'g.22<br>Interior stocks on Aug. 22 in                          | 5,819,058                       | 5,516,969 | 5,545,477 | 5,242,367 |
| excess of September 1   | *3,480                          | *8,168    | *7,839    | *24,804   |
| Fot. receipts from plantat'ns<br>Net overland to August 1<br>Southern consumpt'n to Aug.1 | 5,815,578<br>891,649<br>493,000 | 891,216   | 978,694   | 788,880   |
| Total in sight August 22  | 7,200,227                       | 6,876,017 | 6,951,332 | 6,397,443 |
| Northern spinners takings to<br>August 22.  | 1,763,100                       | 1,723,216 | 1,771,286 | 1,647,687 |

\* Decrease from September 1. It will be seen by the above that the increase in amount in sight to-night, as compared with last year, is 324,210 bales, the excess as compared with 1887-88 is 248,895 bales and the gain over 1886-87 reaches 802,784 bales.

WEATHER REPORTS BY TELEGRAPH.-Reports to us to-night by telegraph indicate a continuation of quite favorable weather conditions at the South. The plant, as a rule, is doing well, and in some sections picking and marketing are

doing well, and in some sections pressing making rapid progress. Galveston, Texas.—It has rained on two days of the week, the rainfall reaching eighty-eight hundredths of an inch. Average thermometer 83, highest 90 and lowest 75. Palestine, Texas.—We are having fine picking weather. Rain has fallen on one day of the week to the extent of forty-one hundredths of an inch. The thermometer has averaged 84, the highest being 94 and the lowest 71. Huntsville, Texas.— There has been rain on one day of the hundredths of an inch. The thermometer has averaged

Huntsville, Texas.— There has been rain on one day of the week, the precipitation reaching forty-two hundredths of an inch. The thermometer has averaged 83, ranging from 72 to 94.

Dallas, Texas.—Picking is progressing rapidly. The week's rainfall has been thirty-five hundredths of an inch on two days. The thermometer has ranged from 76 to 100, averaging 88. San Antonio, Texas.—The weather has been dry all the eek. Average thermometer 84, highest 96, lowest 72. Luling, Texas.—There has been no rain all the week, and cotweek.

ton is being marketed rapidly. The thermometer has aver-aged 86, the highest being 100, and the lowest 72. Columbia, Texas.—We have a good crop of cotton. Rain has fallen on two days of the week to the extent of forty-three hundredths of an inch. The thermometer has averaged 86, ranging from 72 to 99. Cuero, Texas.—It has rained moderately on one day of the week, the rainfall being thirty-two hundredths of an inch, and insufficient. The thermometer has ranged from 70 to 102, averaging 86. Brenham. Texas.—Cotton is being marketed rapidly. We

Brenham, Texas.—Cotton is being marketed rapidly. We have had rain on two days of the week, the precipitation reaching sixteen hundredths of an inch. Average thermometer 84, highest 96 and lowest 72.

Belton, Texas.—No rain has fallen all the week. The ther-mometer has averaged 87, the highest being 100 and the lowest 74.

lowest 74. Weatherford, Texas.—Light rain, of great benefit to cotton, has fallen on one day of the week. The thermometer has ranged from 68 to 100, averaging 84. New Orleans, Louisiana.—It has rained on two days of the week, the precipitation reaching forty-one hundredths of an inch. The thermometer has averaged 82. Shreveport, Louisiana.—Rainfall for the week twelve hun-dredths of an inch. Average thermometer 81 highest 94

dredths of an inch. Average thermometer 81, highest 94, lowest 69.

Columbus, Mississippi.—The week's rainfall has been ninety-three hundredths of an inch. No caterpillars have appeared, but damage is claimed by boll worms. Leland, Mississippi.—The week's precipitation has been one inch. The thermometer has averaged 80.4, ranging from 67

to 93.

to 93. Vicksburg, Mississippi.—Telegram not received. Little Rock, Arkansas.—There have been copious showers on two days of the week helping crops materially. The rainfall reached ninety-two hundredths of an inch. While rain has been ample here and to the northward, to the south damage is accruing from drought, especially in uplands. The ther-mometer has averaged 79, ranging from 68 to 90. Helena, Arkansas.—Cotton looks well and is beginning to open. It has rained on three days of the week, on two of which heavy showers, the rainfall reaching one inch and sixty-seven hundredths.

which heavy showers, the line states is a state of the second states of the method of the second states of the week, but the weather is now clear and cool. The days of the week, but the weather is now clear and cool. The second fifty-nine hundredths of an inch. The

crop outlook continues promising. Five new bales have ar-rived to date. Average thermometer 80, highest 92, lowest 67. *Nashville, Tennessee.*—There has been rain on four days of the week, the precipitation being one inch and sixteen hun-dredths. The thermometer averaged 78, the highest being 91 and the lowest 64. and the lowest 64.

Mobile, Alabama.—Crop reports are generally favorable, and picking is making good progress. There has been rain on two days of the week, the precipitation reaching twenty-nine hundredths of an inch. The thermometer has averaged 81, ranging from 72 to 89.

Montgomery, Alabama.—We have had rain on three days of the week, the rainfall reaching two inches and seventy-seven hundredths. The thermometer has ranged from 66 to 92, averaging 81

Selma, Alabama.-Rain has fallen on one day of the week,

Setina, Alabama.—Rain has fallen on one day of the week, to the extent of twenty-five hundredths of an inch. Average thermometer 78, highest 89 and lowest 68. Auburn, Alabama.—The week's precipitation has been thirty-six hundredths of an iuch. The thermometer has aver-aged 78.6, the highest being 84 and the lowest 69. Madison, Florida.—The weather has been fair all the week. The thermometer has averaged 80 ranging from 67 to 95.

Madison, Florida.—The weather has been fair all the week. The thermometer has averaged 80, ranging from 67 to 95. Columbus, Georgia.—It has rained on two days of the week, the rainfall reaching one inch and thirteen hundredths. The thermometer has ranged from 70 to 59, averaging 82. Savannah. Georgia.—Rain has fallen on five days of the week to the extent of thirty-eight hundredths of an inch. Average thermometer 78, highest 90, lowest 63. Augusta, Georgia.—The weather has been warm and dry during the week with light sprinkles on two days. Accounts from the crop are less favorable, the continued rains followed by hot sun having caused rust and shedding in some places. by hot sun having caused rust and shedding in some places, though prospects may be considered good. The thermometer has averaged 80, the highest being 94 and the lowest 65. *Charleston, South Carolina.*—Rain has fallen on two days of the week to the extent of one inch and seventy-five hun-dredths. The thermometer has averaged 80 ranging from 71

dredths. The thermometer has averaged 80, ranging from 71 to.88

50.05 Stateburg, South Carolina.—It has rained on two days of the week, the rainfall reaching thirty-three hundredths of an inch. The thermometer has ranged from 65.5 to 85.4, aver-aging 75.2. Wilson, North Carolina.—Telegram not received. The following statement we have also received by telegraph.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 3 o'clock August 21, 1890, and August 22, 1889.

According to the foregoing, Bombay appears to show a decrease compared with last year in the week's receipts of 2,000 bales and an *increase* in shipments of 4,000 bales, and the shipments since January 1 show an *increase* of 173,000 bales. The movement at Calcutta, Madras, and other India ports for the last reported week and since the 1st of January, for two years, has been as follows. "Other ports" cover Ceylon, Tuticorin, Kurrachee and Coconada.

ALEXANDRIA RECEIPTS AND SHIPMENTS.—Through arrange-ments we have made with Messrs. Davies, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years.

| Alexandria, Egypt,<br>August 20.                   | 1889-90.                       | 1888-89.                       | 1887-88.                       |  |  |
|--|--------------------------------|--------------------------------|--------------------------------|--|--|
| Receipts (cantars*)<br>This week<br>Since Sept. 1. | 1,000<br>3,174,000             | 1,000<br>2,708,000             | 2,000<br>2,903,000             |  |  |
| -  | This Since<br>week. Sept. 1.   | This Since<br>week. Sept. 1.   | This Since<br>week. Sept. 1.   |  |  |
| Exports (bales)—<br>To Liverpool<br>To Continent   | 1,000 266,000<br>1,000 160,000 | 1,000 229,000<br>1,000 161,000 | 2,000 250,000<br>1,000 163,000 |  |  |
| Total Europe                                       | 2,000 426,000                  | 2,000 390,000                  | 3,000 413,000                  |  |  |

A cantar is 98 pounds.

This statement shows that the receipts for the week ending Aug. 20 were 1,000 cantars and the shipments to all Europe 2,000 bales.

MANCHESTER MARKET.—Our report received by cable to-night from Manchester states that the market is quiet for both yarns and shirtings. The demand for both India and China is improving. We give the prices for to-day below, and leave those for previous weeks of this and last year for comparison:

MEMPHIS FIRST BALE.—The first bale of cotton of the crop of 1890-91, grown in the Memphis district, was received at Memphis on August 18 by Messrs. Dillard & Coffin, from Messrs. McCann & Houston, Pine Bluff, Arkansas. It classed middling, weighed 375 pounds, and was sold by auction to Messrs. Jones Bros. & Co. at 19 cents per pound. At the same time another new bale, raised by Mr. Carroll Smith, Canton, Miss., consigned to Messrs. C. P. Hunt & Co., was sold to Jones Bros & Co. at 15 cents per pound. This bale classed strict middling and weighed 482 pounds. The first bale arrived last year also on August 18. last year also on August 18.

JUTE BUTTS, BAGGING, &C .- Transactions in bagging the JUTE BUTTS, BAGGING, &C.—Transactions in bagging the past week have been of fairly satisfactory volume, mainly on orders from the South. No changes are to be noted lu prices, which are 5½c. for 1½ pounds, 6c. for 1¾ pounds, 6¾c. for 2 pounds and 7½c. for standard grades; but large lots might be had at a concession. A large quantity of damaged jute butts from the warehouses in Brooklyn has been disposed of this week, but in sound material the dealings have been unimport-ant. Quotations to-night are 1½c. for paper grades and 2c. for bagging quality. bagging quality.

NEW NORTH CAROLINA COTTON.—Our correspondent at Norfolk, Vu., informs us that the first two bales of new North Carolina cotton arrived at Norfolk August 20, from Golds-boro. N. C., consigned to Messrs. Vaughan & Barnes and Rountree & Co. They graded strict middling of fair staple, well matured and good conditioned. This is 17 days earlier than last season, and the earliest for a number of years.

EAST INDIA CROP.—From Messrs. Gaddum, Bythell & Co.'s cotion report, dated Bombay, July 18, we have the following: The reports from nearly all the districts are now satisfactory, the rains which have fallen during the past week having been most timely and seasuable. From Surat, however, there are still complaints of too much rain, though the early part of the week was sufficiently dry to allow of reserving being earried on.

The Bombay Prices Current of the same date says:

The Bombay Prices Current of the same date says: The official telegraphic advices to hand on Monday stated that no rain had failen at Bowar in the Bengal circle, nor at Wadwan and Bhownug zer in the Dhol'era circle, since the middle of last week, and in those districts it was much needed. At Broach, also, there had been no further rain, but to the advantage of the crop a break in the weather having been much needed. Cotton sowir gwae making good progress at Agra; the plants were flourisbing in the Oomrawuttee circle generally, though they required more rain at Barsee. In the Dhollera ofirtle sowing was completed at Virangaum, and was making good progress at Dhollera itself, though oaly begun at Wadwan, and re-tarded in eene parts of Bhowangger owing to scanty rains. Today's report states that rain was general over the Bewar district; and in other parts of the Bengal circle the plants were flourishing, as they had been no further rain, and it was mach needed; the same complatu also coming from Dhulla. At Broach the weather was eeasonable, and the plants w is flourishing. In the Dhollera circle sowing was com-pleted at Virangaum; but it was euspended in Dhollera itself owing to the rain.

COTTON CROP CIRCULAR.—Our annual Cotton Crop Review will be ready in circular form about Thursday, the 11th of September. Parties desiring the circular in quantities, with their business card printed thereon, should send in 'their orders as soon as possible, to ensure early delivery.

SHIPPING NEWS.—The exports of cotton from the United States the past week, as per *latest mail* returns, have reached 4,098 bales. So far as the Southern ports are concerned, these are the same exports reported by telegraph and published in the CHRONICLE last Friday. With regard to New York we include the manifests of all vessels cleared up to Thursday.

100

4.098 Total .....

The particulars of these shipments, arranged in our usual form, are as follows:

|             | Liverpool. | Havre. | Total. |
|-------------|------------|--------|--------|
| New York    | 2,826      | 28     | 2,854  |
| New Orleans | 1.144      |        | 1.144  |
| Boston      | 100        |        | 100    |

## BREADSTUFFS.

FRIDAY, P. M., August 22, 1890.

FRIDAT, P. M., August 22, 1890. There has been a strong market for flour, with moterate receipts and small stocks here of all kinds. Exporters have beld aloof as much as possible, but the home trade has purchased to a fair extent at advancing prices. Mills are not sending much flour here, as some other A meri-can markets are paying prices above the New York quota-tions. The rise in wheat gave holders considerable confi-dence, but latterly the reaction in that cereal has caused some irregularity in prices of flour. There has been only a moder-ate business either in flour or corn meal. The latter has been firm. To-day flour was very strong, owing to a further ad-vance in wheat, but transactions were to a great extent checked by the smallness of stocks and the firmness of holders. hoiders.

Wheat rose rapidly for a time, owing to the covering Wheat rose rapidly for a time, owing to the covering by foreign houses, higher European markets, reports of frost at the Northwest, wet weather in Eugland, liberal clearances from the Atlantic seaboard, advancing silver, and good "long" buying here and at the West. Later came a down-ward turn, owing to the cessation of foreign buying to cover shorts, a sharp advance in money, some weakness in silver, reports that Russian wheat could be imported to advantage here but for the high duty, and reports moreover that 56,000 bushels of American wheat had been ordered back from Europe to Baltimore, not to mention warmer weather at the Northwest, where some had professed to expect a frost. Northwest, where some had professed to expect a frost. Litle or no business has been done in the actual wheat for export, and the clearances are of old clearances are of old

purchases, though steamship companies have taken some wheat free of charge and have accepted 1/4 i on other shipments to Liverpool. To-day there was a fair speculation at a decided advance, owing to reports of frost in Manitoba and a reduced crop there, as well as less favorable weather abroad, stronger foreign markets, some foreign buying of options and considerable local covering. The market on the spot was quiet. No. 2 Milwaukee sold at 103, cost, freight and insurance, for Liverpool via Boston. Large clearances from this port were made public to-day which took place early in June, and which had been suppressed since then.

Oats have moved up and down with wheat and corn. Options have made a net advance while oats on the spot have been comparatively steady. New crop oats however have been arriving more freely and they have declined. There has been a fair business. To-day the market was firm but quiet.

## THE DRY GOODS TRADE.

NEW YORK, Friday P. M., August 22, 1890.

The jobbing trade in dry goods was buoyant and active the past week, considerably more than an average business in all departments having been transacted by such jobbers as keep abreast with the times. Retailers from all parts of the country were largely represented in the market, and while their purchases for the coming fall trade were quite liberal, there was not the least tendency towards speculation in any particular class of fabrics. The commission houses were able to report a somewhat freer demand by package buyers on the spot, and re-orders by mail an l wire were numerous enough to show that reserve stocks in the hands of interior jobbers have been reduced to the replenishing point. Business in nearly all sorts of domestic goods was fully up to expecta-tions, but the uncertainty regarding tariff legislation was a somewhat serious burrier to transactions in imported goods. Aside from a very slight drop in print cloths, values of both domestic and forwign goods are steadily mainteined domestic and foreign goods are steadily maintained.

domestic and foreign gools are steadly maintained. DOMESTIC WOOLEN GOODS.—There was a good deal of irregularity in the demand for men's-wear woolens, and the volume of business was barely up to expectations. In light-weight clothing woolens there was more relative activity in worsted suitings and trous-rings than in spring cassim-res, though some fair sized orders were placed for the latter. Serge suitings, also indigo-blue flannel suitings, continued in fair request by clothiers, and leading makes are well sold up. Overc. atings and other heavy clothing woolens were in fair demand, and there was a steady movement in some descrip-tions on account of back orders. Cloakings, stockinets and Jersey cloths were in light demand by the manufacturing trade, and there was a m-derate business in satinets and doe-skin jeans. Flannels, blankets, dress goods, carpets, shawls and wool skirts were freely distributed by jobbers, and a steady hand-to-mouth dem and for these gools was experi-enced by the commission houses. Prices for nearly all de-scriptions of woolen goods remain steady and unchanged. DOMESTIC COTTON GOODS.—The exports of cotton goods

DOMESTIC COTTON GOODS.-The exports of cotton goods from this port for the week ending Aug. 19 were 2,744

254

packages, valued at \$138,705, their destination being to the points specified in the table below:

\* From New England mill points direct.

The value of the New York exports since January 1 have been \$4,414,778 in 1890, against \$5,611,759 in 1889. The commission houses experienced a considerable improve

The commission houses experienced a considerable improve-ment in the demand for staple cotton goods, re-orders from interior markets having been more numerous than for some time past. The jobbing trade in plain and colored cottons was quite active, and a good package business was done by a few of the large jobbers. Prices of staple cottons ruled firm all along the line, save in the case of print cloths, which were a triffe easier. Dark ginghams and prints were fairly active in demand, and prices remain firm because of the small stocks on hand. Print cloths were sluggish and closed easier at 3 5-16c, less ½ per cent, for 64x64s, and 2% c for 56x60s. 1890. 1889. 1888.

FOREIGN DRY GOODS.—There was a moderately active busi-ness in foreign goods in jobbing circles, but the demand at first hands was disappointing, the impending tariff legisla-tion having caused buyers to pursue a cautious hand to-mouth policy. Importing jobbers are quite willing to dispose of their stocks at present prices, but in some cases the regular importers are holding for higher figures, which they will probably be able to obtain in the event of the passage of the proposed tariff.
