\$500,000

First Mortgage 5 Per Cent

Gold Bonds

OF THE

Edison Electric Illuminating Company

OF

BROOKLYN, N. Y.

Dated Oct. 1, 1890. Due Oct. 1, 1940. Interest payable April and Octob r. Redeemable at 110 and interest after Oct. 1, 1900, at Company's option.

Franklin Trust Co. Trustee of the Mortgage.

The Edison Electric Illuminating Company of Brooklyn controls by license from the parent Edison Company the exclusive right for the City of Brooklyn to use the Edison system for the production and distribution of electric light and power, as also for all patents controlled by the parent Company for isolated business.

The Edison system of conductors, covered by many patents, is wholly underground, thus securing complete immunity from the many troubles incident to overhead systems of distribution. These bonds are secured by a first mortgage on all

the property, real and personal, now owned or here-after to be acquired, rights, franchises, leases, un-derground conductors, and everything pertaining to

the business of the company. It is provided in the mortgage securing these bonds that there cannot be at any time an amount issued in excess of fifty per cent of the outstanding capital stock, and the total issue of these bonds is absolutely limited to \$',500,000. The real estate owned by the company is centrally

located and valuable for general business purposes. The company commenced operations September 1, 1889.

The total lamp equivalent connected March 1 1892, is 44,709. During January and February of this year there have been added more than 3,300 additional lamps, and orders for 10,000 more are in hand,

ditional lamps, and orders for 10,000 more are in hand, to be connected by May 1. The percentage of gain in results, 1891 compared with 1890, shows: Increase in gross earnings. 90 per cent. Increase in expenset, 33 per cent. Increase in ne earnings, 140 per cent. January, 1892. net earnings were \$9,-114.91, compared with \$6,127.73 in 1891. February, 1892, net earnings were \$9,-028.92, compared with \$6,194.960 in 1891. The company is paying regular quarterly dividends of 1 per cent on its capital stock, having begun same for the quarter ending June 30, 1890.

ALBANY AND PROVIDENCE.

Cleveland Cincinnati Chicago & St. Louis Railway Co., Cincinnati Wabash & Michigan Div.,

IST MORTGAGE

4 PER CENT BONDS,

DUE 1991.

Interest payable January 1 and July 1, in the City of New York.

PRINCIPAL AND INTEREST PAYABLE IN GOLD COIN.

Coupon Bonds of \$1,000 each, with provision for registration of principal.

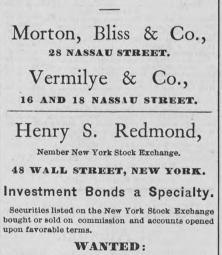

These bonds are part of an issue of \$4,000,000, made by the Cleveland Cincinnati Chicago & St. Louis Railway Company, and secured by a first mortgage of the line of road, about 203 miles in length, from Rushville, Ind., to Benton Harbor, Mich., formerly known as the Cincinnati Wabash & Michigan Railroad, and now operated by the Cleveland Cin-cinnati Chicago & St. Louis Company as a division of its own line.

The issue is at the rate of about \$20,000 per mile, and the mortgage covers all equipments, terminals and other property formerly owned by the Cincin-

and other property formerly owned by the Cincin-nati Wabash & Michigan Company. This line has been operated as a portion of the Cleveland Cincinnati Chicago & St. Louis system since July 1, 1891, only. Its net earnings for the six months ending Dec. 31, 1891, were \$129,384, or con-siderably in excess of the interest charges for the

siderably in excess of the interest charges for the same period. For some years the Cleveland Cincinnati Chicago & St. Louis Company has earned and paid divi-dends on over \$30,000,000 of stock, and for the six months ending Dec. 31, 189!, its earnings showed a large gain over the corresponding period in the previous year. We offer a portion of the above issue at 90 and

accrued interest, subject to previous sale, reserving the right to advance price without notice. At 90 per cent, the bonds yield about 4½ per cent, and we believe them to be an absolutely safe investment.

Buffalo N. Y. & Erie 1sts. (hicago & Great Western 1sts. Terre Haute & Logansport 1910s & 1913s. Evansville & 'err-Haute 6s, 1921. Chicago & No. West. underlying bonds. C. I. St. L. & C. 6s, 1920.

LIST OF BONDS OFFERED FURNISHED UPON APPLICATION,

CHICAGO MILWAUKEE & ST. PAUL RAILWAY COMPANY. Notice is hereby given that a dividend has been declared from the net earnings during the current fiscal year of THREE DOLLARS AND FIFTY CENTS per share on the preferred stock of this company, payable on the 19th day of April next, at the office of the company, 42 Wall St., New York. The preferred stock transfer book will close on the 26th day of April next. FHANK S. BOND, Vice-President.

NEW YORK, March 7, 1892. To the Stockholders of the Edison General Electric Co. AND

Financial.

Thomson-Houston Electric Co. The Stockholders' Agreement dated Feb. 9, 1892, between certain stockbolders of the Edison General Electric Company of New York and the Thomson-Houston Electric Company of Connecticut, under which the undersigned were appointed a committee to carry out the consolidation of the interests of the two companies on the plan therein set forth, having been signed by a majority of the stockholders of the two companies mentioned, the undersigned hereby give notice that the agreement has now become operative, and is binding on all the parties thereto.

All parties who have signed the said agreement are required to deposit their stock without delay with the New York Guaranty & Indemnity Company in New York or the Old Colony Trust Company in Boston, and receive in exchange therefor the tem-

porary receipts of said deposita ies. Parties to the agreement and all the stockholders of either company who have not signed the same, who shall fail to deposit their stock as above on or before the 21st day of March, 1892, shall then forfeit any right to come in under said agreement, except by the express permission of the Committee, and on such terms as it may impos

sit may impose. J. PIERPONT MORGAN, H. McK. TWOMBLY, D. O. MILLS, FREDERICK L. AMES, T. JEFFERSON COOLIDGE,

THE CASHIER OF A NATIONAL BANK in Michigan desires to place a limited amount of high-grade 6 per cent gold farm loans. Address CASHIER, care COMMERCIAL AND FINANCIAL CHRONICLE,

care COMMERCIAL AND FINANCIAL CHRONICLE, WESTERN UNION TELEGRAPH CO. New Yorks, March 9, 1862, DIVIDEND NO. 94. The Board of Directors have declared a quarterly dividend of ONE AND ONE-QUARTER PER CENT upon the capital stock of this company, from the net earnings of the three months ending March 31st inst., payable at the office of the Treas-urer on and after the 15th day of April next, to stockholders of record at the close of the transfer books on the 18 h day of March Inst. The transfer books will be closed at 3 o'clock on the afternoon of March 18th inst. and re-opened on the morning of April 2d next. K. H. ROCHESTER, Treasurer.

FOR SALE.

A controlling interest or less in one of the best equipped electric light and ice manufacturing plants in the South. Has an authorized capital of \$50,000; paid-up capital, \$39,100. Makes 25 per cent on paid-up capital. For further particulars address R.S. P., care Financial Chronicle.

HUNT'S MERCHANTS' MAGAZINE,

REPRESENTING THE INDUSTRIAL AND COMMERCIAL INTERESTS OF THE UNITED STATES. Entered according to Act of Congress, in the year 1892, by WM. B. DANA & Co., in the office of the Librarian of Congress, Washington, D. C.]

Compared with the week of 1891 the exhibit is quite satis-factory, the increase in the total for all the clearing houses being 17'9 per cent, while outside of New York the excess reaches 9'1 per cent. All sections except the Pacific and Southern show improvement over a year ago, and the ratio of gain is heavy at Memphis, Duluth, Minneapolis, Lincoln and Omaha.

The full details of clearings for the week covered by th above statement will be given next Saturday. We cannot, of course, furnish them to-day, bank clearings being made up b the various clearing houses at noon on Saturday, and hence i the above the last twenty-four hours of the week have to b in all cases estimated, as we go to press Friday night. Below are our usual detailed figures for the previous week, that i covering the returns for the period ending with Saturday noon March 5, with the comparative totals in 1891.

The present to al of clearings exceeds that for the preceding week two hundred and twelve millions of dollars, of which one hundred and thirty-nine millions is at New York. This large gain is ascribable to a number of causes—more active speculation in share properties on the New York Stock Ex-change, clearings arising through the usual monthly payments of interest, etc., and to the further fact that the week of February 27 covered one less business day. THE

STATE AND CITY DEPARTMENT.

See pages 454, 455, 456 and 457 for our State and City Department to-day. Among many other items of news we give a full detailed exhibit of the bonded debt &c. of Nevada, and also the debts of the various counties of that State.

All advertisements with relation to State and City Bonds will likewise be found on the same and following pages.

A new edition of the STATE AND CITY SUPPLEMENT,

revised to as near the day of publication as possible, will be issued early in the month of May.

THE FINANCIAL SITUATION.

The House of Representatives at Washington this week voted against postponement of the Free Silver To the Bill and in favor of its early consideration. industrial and financial world there is nothing encouraging in that fact, and yet the result is regarded with considerable equanimity. It is felt that whatever the House may do when the bill comes up and whatever the Senate may do, the final outcome is not doubtful, since the President's veto will be interposed to save the country from the consequences of such reckless folly. In the meantime, considerable encouragement is being derived from the many favorable factors in the general industrial situation. It is true that trade and business are not as good as could be wished, and that special industries are in a state of depression under the low prices prevailing. But the leading general conditions-those of controling importance we mean-could hardly be more satisfactory and assuring. Our merchandise exports are large beyond precedent for the season, and the balance of trade in our favor is much in excess of that of other years. The grain movement continues of extraordinary dimensions, and the Western farming industry is enjoying a period of exceptional prosperity. As a result of the same circumstance, the railroads, both in the East and the West, are finding their traffic swelled to unusual proportions, and their earnings as a consequence record heavy gains. For January, owing to special circumstances and drawbacks, the returns, both of gross and net, were rather poor, as is shown further on in this article. But it is evident from the results for February, as disclosed by our usual monthly review on another page, that the January showing was exceptional, and that with the removal of the drawbacks then existing the tendency towards improved results has again become very pronounced. In fact, the gain over last year for that month reaches \$4,626,468, or 13.43 per cent.

As regards the coming crops, too, which are already beginning to attract attention, there are some encouraging features at the start. In the first place the season is earlier than usual, and in the second place there has been during the last month or so a great improvement in the outlook for winter wheat. It will be remembered that the plant went into winter quarters in rather poor condition, and the prospect seemed unfavorable on that account. But the weather having been very propitious, the accounts now are of a totally different tenor, though it is a little too early yet to de-

termine whether the cold wave and blizzard in the West this week did any harm. We need hardly advert to the important effect which another large wheat crop the present year following that of last year, might have on all business interests. Of course, if there was any likelihood that the world would not require the wheat, the situation would wear a different aspect. But in Europe the weather conditions the past winter appear in many respects to have been similar to a year ago, and in Russia certainly the outlook is poor. Hence the conclusion seems warranted that there will be a market for our wheat. At present most demand continues assuredly the foreign verv urgent, as is reflected by the uninterrupted heavy export movement of both wheat and corn.

In reference to the ability of the United States to maintain the present large shipments till the next crops are harvested, the figures issued by the Department of Agriculture at Washington on Thursday are very interesting. The Department finds that independent of the 41,000,000 bushels or more of visible supply, there were 171,000,000 bushels of wheat still in growers' hands March 1-63,000,000 bushels in the spring wheat sections and 108,000,000 bushels in the winter wheat sections. This reserve of 171,000,000 bushels, it is stated, is the largest ever reported. Moreover, the weight of the wheat is much above the average, yielding 58.5 pounds to the bushel. The reserve of corn also reaches exceptional proportions, the Department estimating the quantity still remaining in farmers' hands at 860,000,-000 bushels, or 41.8 per cent of the crop. Only in one other year has the amount been larger than this. The proportion of the crop in merchantable condition is stated to be the largest without any exception, being 88.5 per cent. Evidently with such large reserves, and with an urgent demand from abroad, our exports will continue large for many months.

If our New York City banks keep losing cash in the way they have the last few weeks, it would seem as if the rates for money must soon begin to harden. Last week the loss of cash (specie and legal tenders) was \$5,267,500, and the week before it was \$3,718,600, making nearly nine million dollars for the two weeks. Moreover, the present week a further considerable loss must have occurred, as the Sub-Treasury has taken in more money than it has disbursed, while at the same time there have been some further gold exports, and the banks have also lost on the movement of currency to the interior. However, the supply of money held. by the banks is still very large, and the reserve also is large, and hence it is not strange that rates remain very low. On call, money as represented by bankers' balances has again ranged between 2 and $1\frac{1}{2}$ per cent; renewals are made at 2, and banks and trust companies quote 2 to 21 per cent. There is a good business in time loans, and whereas a few weeks ago lenders were seeking borrowers the reverse is the case now. Quotations are 3 per cent for 30 days, 31 for 60 to 90 days, 4 for four to five months, and $4\frac{1}{2}$ for six to eight months on good Stock Exchange collateral. Commercial paper is in good demand from out of town, but the inquiry is not quite so urgent from the city banks, many of the uptown institutions having full lines, and instead of buying more paper are devoting their attention to the wants of their customers. The supply is not excessive, and rates are 4 per cent for 60 to 90 day endorsed bills receivable; $4\frac{1}{2}$ to 5 for four months commission house names, and 5 to 6 for good single names having

of last week showed \$21,292,225 surplus reserve, of which \$6,559,300 was held by five of the larger banks.

It appears from recent cable advices that the London market has again been thrown into a state of unrest by the affairs of the Muriettas which from time to time since the Baring trouble in November, 1890, have been a disturbing factor in London and to some extent at Paris. Now it is believed that a crisis will soon be reached, and then the market should resume its Although there has been no normal condition. occurrence of 'a really disturbing character on the Continent, business and speculation seem to be at a standstill, waiting for something of a reviving nature. Discounts of 60 to 90 day bank bills in London are 15@12 per cent; at Paris the open market rate is 13, at Berlin it is 11, and at Frankfort 13 per cent. The Bank of England gained £313,000 bullion during the week. This, as we are advised by special cable to us, was due to the import of £58,000 from abroad, wholly from France and Portugal, and to receipts of £255,000 from the interior of Great Britain. The Bank of France during the week lost £10,000 gold, and the Bank of Germany since the last report shows a decrease of about £170,000 of this metal.

Foreign exchange has been quiet and steady this week. The arbitrage operations from day to day have had little influence, the bankers apparently buying one day and selling the next without reference to the exchange market. But there is a steady demand for sterling to remit for securities sold here for European account, and it is claimed that the high prices to which some properties have been forced within the past few weeks have proved so tempting to European investment holders of them that they have sold out, believing that opportunity to re-buy will be soon offered. Exchange opened on Monday at 4 861 for sixty-day and 4 881 for sight, being unchanged compared with the previous Friday. Brown Bros. reduced to 4 86 for long and 4 88 for short, and for the remainder of the week there was no alteration in the rates till yesterday, when Brown Bros. again advanced old figures. Rates for actual busito the ness yesterday were $4.85\frac{1}{2}$ to $4.85\frac{3}{4}$ for sixty-day, $487\frac{1}{2}$ to $487\frac{3}{4}$ for sight, 488 to $488\frac{1}{4}$ for cable transfers, $4\ 84\frac{1}{2}$ to $4\ 84\frac{3}{4}$ for prime and $4\ 84\frac{1}{4}$ to $4\ 84\frac{1}{2}$ for documentary commercial bills. It is reported that Austria is paying a premium for American gold in order to attract it from New York and that this is one reason for the shipment thence of the metal when exchange is below the normal exporting point. The exports this week have been small :- \$250,000 on Tuesday and \$250,000 on Wednesday, both lots being sent by August Belmont & Co. On Monday there was an arrival of about \$448,000 gold in transit for Havana.

Some further returns of net earnings for the month of January have been received this week, and they are of much the same character as those received in previous weeks-that is, on the whole unfavorable. But these returns must not be taken as furnishing a criterion of current results. There has since then been a decided change for the better. Two or three illustrations will suffice to make this clear. One of the poorest returns for instance is that of the Northern Pacific, that company (independent of the Wisconsin Central) showing a loss in net for the month of \$272,949. On examination it is found that the loss has followed entirely because of a decrease of \$304,805 in earnings. But for February the road gross shows no decrease in gross at all, but rather Total gold and legal tenders \$20,312,000 \$24,971,000 Loss \$4,659,000

an increase of \$88,001. Hence there seems no reason to doubt that the February net also will make a totally different showing than for January. The Wisconsin Central likewise reports a gain in gross for February (\$69,364), against a loss in January of \$17,870 on which the net fell off \$40,343. The Louisville New Orleans & Texas presents contrasts of the same nature. The January return shows that with gross diminished \$27,286, net for that month in 1892 was only \$74,250, against \$124,746 for January 1891. But for February gross so far from recording a decrease, shows \$62,530 increase. Of course not all the roads suffered decreases in net in January, but barring those especially favored like the Burlington & Quincy, the St. Paul, &c., and which were referred to last week, where there are gains they are usually small, even when the gain in gross has been large. We may refer to the Wabash, where gross for the month increased \$133,000, but net only \$13,000, and to the Chesapeake & Ohio, which on \$49,000 increase in gross has only \$2,000 increase in net. The New York Ontario & Western reports a decrease of \$10,511 in gross and a decrease of \$8,051 in net. The Oregon Improvement on a decrease of \$12,583 in gross, has \$12,716 increase in net. On the Chicago & West Michigan net is \$18,199, against \$19,475; on the Detroit Lansing & Northern \$11,043, against \$16,646; on the Kansas City Memphis & Birmingham \$18,815, against \$27,304; on the Philadelphia & Erie \$88,263, against \$110,274; and on the Ohio River \$16,531, against \$18,400.

After the excitement of last week the stock market this week relapsed into comparative quietude. The course of prices was irregular but generally downward till yesterday, when under the lead of Reading and the other anthracite coal stocks the whole market became strong, though there was very little activity outside of the coal shares. The advance in these was on the statement that a bill to legalize the Reading "deal" had passed both the House and the Senate in New Jersev. Richmond Terminal securities were weak in the early days on the appointment of a receiver for the Central of Georgia system, but subsequently recovered on statements that the Olcott reorganization would be carried through to conclusion, and yesterday in the closing hour both the stock and the bonds advanced sharply. The St. Paul directors this week concluded to make no dividend on the common stock of the company just yet, but to follow a conservative policy and wait till the end of the fiscal year. Before action was taken, the stock was pressed for sale on reports that no dividend would be paid, but after definite knowledge to that effect came the price steadied up. Lake Shore on Saturday last scored a further harp rise, but has since then fallen off, and the Vanderbilt stocks on the whole have remained rather quiet.

The following statement, made up from returns collected by us, shows the week's receipts and shipments. of currency and gold by the New York banks.

Week Ending March 11, 1892.	Received by N.Y. Banks.	Shipped by N.Y. Banks.	Net Interior Movement

MINERAL DEVELOPMENT OF THE UNITED STATES.

In the prominence which agriculture assumes in the United States, sight is very frequently lost of the mineral wealth and productions of the country and the very important part which these play in the activities of the nation. Of course when we speak of the mineral productions, we use the term mineral in its broadest sense. In the developments that are going on just now at Creede in Colorado-the sudden springing up of a mining centre of considerable consequence, the large influx of population, the increase in railroad traffic, and the growth in general business activity-we have an illustration of the wonderful transformation which is sometimes effected within a very brief period through sudden discoveries of the precious metals. But in the general mineral development the precious metals are really of the least consequence, and in any given year their value and production will form only a comparatively small proportion of the whole. It is the baser metals-like iron and copper-and the non-metallic substances, like coal, building stone and lime, which constitute the chief sources of our mineral wealth and contribute most to the yearly totals.

As elements in our national progress coal and iron are of course the two minerals that transcend all others. It must be evident to the dullest understanding that without these two aids to industrial growth, manufacturing and general development on the scale to which it has now risen would hardly be possible. How many, for instance, of the various branches of manufactures in the different parts of the country could be carried on without that prime requisite for fuel, coal, which is found nearly everywhere in the United States. Then as to iron, in the production of which we are favored by the possession in close proximity in many parts of the country of the ore, the fuel and the limestone, what would be our position industrially without our heavy annual output of that essential of modern times, and which forms the basis of all the higher products of iron and steel. And even as to the minor articles, such as copper, lead, zinc, building stone, cement, lime, &c., a moment's reflection suffices to reveal that they all, in larger or smaller degree, contribute to our manufacturing and industrial activity and general development.

Aside, however, from the importance of our mineral resources as factors in the creation and maintenance of our industries, and in the promotion and stimulus of industrial growth and expansion, the yearly product of these minerals is in itself an item of very large proportions, and that is a fact that does not receive general recognition or attract much attention. In the aggregate we have totals to deal with only less striking than those in the case of our agricultural productions. There is this difference, however, between the two, that

whereas the latter may fluctuate widely from year to year, accordingly as the harvest is good or bad, the mineral output is not subject to such very violent changes, the general tendency being upward. This comparative absence of extreme changes is probably one reason why the results do not command greater notice. Another reason we may suppose is that the mineral statistics are not furnished with the same regularity or promptitude as the agricultural statistics, and thus lose some of their interest, over two years very frequently elapsing before the returns for a given period make their appearance; we are referring, it will be understood, to the mineral statistics as a whole as prepared by Government officials, and not the statistics for special minerals like iron and the precious metals.

Some official compilations lately received, however, serve to bring the matter up at the present time, and serve also to make clearly apparent the size and vast extent of the products in question. One of these official compilations is the Census Bulletin issued a couple of weeks ago on the Mineral Products of the United States. This covers the ten years from 1880 to 1889 inclusive, and brings the data down to the end of the latter year. From the United States Geological Survey at Washington we have also received this week a chart which supplements the information contained in the Census Bulletin, giving the results for a year later-that is, for 1890. Both compilations have been prepared by the same authority, namely by Dr. David T. Day, acting in the one instance in the capacity of special agent of the Census Office and in the other as Chief of Division of Mining Statistics under the Geological Survey, and thus the two documents can be used conjointly.

The Census Bulletin gives the value of the productions not only for each year, but the aggregates for the whole ten years from 1880 to 1889 inclusive. In this latter case the figures reach imposing proportions. It appears that for the ten years the grand total of the mineral productions, metallic and non-metallic, amounts to no less than 4,687 million dollars. As confirming what has been said above as to the relatively small part of the whole contributed by the precious metals, we find that gold counts for only 330 million dollars in the total and silver for 505 million dollars, and in this the silver is figured at its coining value, which, as is known, is above its market value. Gold and silver together thus form only 835 million dollars out of the grand aggregate of 4,687 millions. The two largest items in value are coal and iron. The coal production for the ten years is valued at 1,517 million dollars-this being the value of the coal at the mines before any railroad freights have been added. The total embraces 675 million tons of bituminous coal mined in the ten years and 342 million tons of anthracite mined. The value of the iron output for the decade, based on the price in Philadelphia, is figured at 957 million dollars. The apparently minor minerals also show large aggregates-the value of building stone being stated at 229 millions, the value of petroleum (which forms one of the mineral productions) 223 mil lions, while even the production of lime figures out over 220 million dollars, the non-metallic substances being all given at their spot value, that is the value at the point of production. The copper output, taking the price at New York as a basis, is valued at 192 million dollars; the lead production, figured in the same way, 126 millions; and zinc at 38 millions. Cement is also given at 38 millions, salt at 44 millions and limestone for iron flux 27 millions. In the total mineral product of 4,687 millions, this 27 millions for limestone we may suppose is duplication, since it must be embraced in the value of the iron production, and the same would appear true regarding that portion of the coal product used as fuel in making the iron. But the matter is not of sufficient consequence to affect very materially the large aggregate reached.

At 4,687 millions for the ten years the yearly average would be about 469 million dollars. In reality the value of the yearly product now is very much larger than that. In the ten years covered there has been marked growth, and the total has decidedly risen. In 1880, the initial year embraced by the Census, the value of the mineral product was \$369,319,000; in 1889, the final year, it was \$587,230,662. But as stated above, we now also have the total for 1890, one year later, and in that year there was a further rise to \$652,099,218. In other words, between 1880 and 1890 there was an increase in the yearly product of nearly 300 million dollars, the total now being over 652 million dollars per annum, which will give an idea of the extent and importance of the mineral industries. We may compare this with the value of some of our grain crops. Take wheat for instance. The crop of that cereal in 1891 was the largest by far in the country's history, and the price was also unusually satisfactory, and yet the farm value of the entire crop, according to the Agricultural Bureau, was only 513 million dollars, thus being it will be seen 139 million dollars less than the aggregate value of the mineral productions in 1890. If we should compare with the crop of 1890, which was valued at 334 million dollars, the mineral total would be nearly double that of wheat. The value of the 1891 corn crop was estimated at 836 millions, and is hence considerably above the aggregate for minerals. The oats crop, however, was valued at only 232 millions. It is proper to add that of the total mineral product of 652 millions, hardly more than one hundred millions, or less than one-sixth of the whole, is made up of the precious metals, gold and silver.

It is very interesting to examine into the details of the mineral productions and observe the growth which has taken place in the separate minerals, for an analysis of that kind serves to furnish new evidence of the sources of our steadily-increasing and steadily-widening industrial activity. The expansion in the output of iron is a familiar fact, and hence it is only necessary to say that the product in 1890 was valued at \$151,200,410 against \$89,315,569 in 1880. The coal product increased from 63,822,830 [tons in 1880 to 140,882,729 tons in 1890, and in value from \$95,640,396 to \$171,-866,484. But while both iron and coal, by their heavy increases, contributed greatly to swell the grand total of the mineral products, some of the other minerals reveal hardly less noteworthy progress. Thus the copper product at \$30,848,797 for 1890 compares with only \$11,491,200 in 1880, 265,115,133 pounds having been produced in 1890 against only 60,480,000 pounds in the earlier year. The lead product is estimated at \$14,-266,703 against \$9,782,500, the output having been 161,754 tons against 97,825 tons.

The materials used for building purposes show very striking increases, and indicate how the requirements of the building trades have expanded. It is estimated that \$47,000,000 of building stone was produced in 1890, against only \$18,356,055 others. There is certainly no lack of work-work in 1880, that \$35,000,000 (60 million barrels) of lime which not only commands immediate attention,

rels), and that \$6,000,000 of cement was produced against \$1,852,707. The petroleum product is estimated at \$35,000,000 against \$24,183,233. Even the natural gas product in 1890 had an estimated value of \$20,000,000, against practically nothing ten years before, there having been no reports at that time. In this case there has been a decrease during the last two years, the figures for 1888 having been \$22,629,875; the loss presumably follows from the exhaustion of some of the gas wells. The value of the salt product at \$4,752,286 for 1890 was slightly less than the \$4,-829,566 for 1880, but this was due entirely to a decline in price, as the output was 8,776,991 bbls. against only 5,961,060 bbls. Of phosphate rock 510,499 tons, valued at \$3,213,795, were mined in 1890 against 211,377 tons, valued at \$1,123,823, in 1880. The product for the earlier year was entirely from South Carolina; that of 1890 chiefly from that State. In quicksilver, nickel and a few other minor items there has been a falling off, but it is unnecessary to refer to these since they do not play a very prominent part in the final result. Of zine 63,683 tons, valued at \$6,266,407, were produced in 1890 against only 23,239 tons, valued at \$2,277,432, in 1880. On the whole, therefore, the gains have not only been large, but widely distributed, about all the leading minerals having participated in the same-a circumstance which explains the industrial expansion which has occurred, and is typical of it.

BRITISH POLITICS-THE SITUATION PECULIAR.

Not in many years has the political situation in Great Britain presented so many really complex and peculiar features. Ordinarily when a great crisis has arrived there has been before Parliament and before the people one great leading question-some predominant issue on which party lines have been well defined. It was so in 1832, on the occasion of the passing of the first great Reform measure, when the nation was convulsed and on the point of violent revolution. It was so when Mr. Gladstone carried his schemes for the Reform of Land Tenure in Ireland and the disestablishment of the Irish Church. It was notably so in 1886, when Mr. Gladstone was forced from power by an adverse vote on his Land Purchase and Home Rule measures. On all these occasions interest was centered on one question, and Parliament and people were divided into two hostile camps. There was concentration of interest and concentration of strength.

At the present time it is altogether different. The questions before the public-questions many of them extremely urgent-are numerous, and the parties are almost as numerous as the questions which demand attention. There is still the unsettled and perplex ing question about Home Rule in Ireland ; there is the question of education in Ireland; there is the Church Disestablishment question, which has to be answered and determined alike for Scotland and for Wales ; there is the Small Holdings question-a question which is of vast importance to the rural and agricultural population ; and other domestic questions of greater or lesser interest. Then there are several important foreign questions, the settlement of which cannot well be deferred—such, for example, as the continued occu-pation of Egypt, the Behring Sea difficulty and was produced against only \$19,000,000 (28 million bar- but ability, energy, and above all things wisdom. If

there were anything like unity in the House of Commons-or rather if the party lines were limited to the Government forces and the forces of the Oppositionbusiness would be possible; and the political difficulties might be settled one by one and removed out of the way. But there is no such thing as unity visible. Where there ought to be two well organized, well disciplined armies there are several separate armies, each receiving instructions and obeying the orders of an independent chief. There are the Tories or Conservatives proper, under Lord Salisbury; there are the Whigs of the old historic school, under the Duke of Devonshire; there are the Liberals of the more radical school-Progressists they begin to call them-under Mr. Gladstone, and there are the Irish Home Rulers, now divided and under their respective rival leaders, Mr. McCarthy and Mr. Redmond.

It is not wonderful that, notwithstanding the poor prospect for the accomplishment of business, the meeting of the present Parliament should have been looked forward to with more than ordinary interest. It was well known that this would be the last session of one of the longest-lived Parliaments in many years, and that whatever else the session might accomplish, it could not fail to impart shape to those measures which would give character to the next general election and to the Parliament which would follow. It is not unfair to say that at the present moment more interest centres cannot much longer the election, which in deferred, than on the measures immedibe ately engaging the attention of Parliament; and when we say this, we mean it to apply equally to the National Legislature and to the general public. These views are sustained by what has already taken place in the House of Commons. It has been no secret that the Government in the preparation of their County Councils Bill intended it to play the part of a substitute for Home Rule, and that if the bill were fairly well received, they would turn it to account before the country by making it appear that they had met the wants of the Irish people without imperilling the integrity of the Empire, or in any way wounding the susceptibilities of the people of Ulster, of Scotland or of England-in other words, that they had beaten the Gladstonians on their own ground. Unfortunately, however, for Lord Salisbury and his friends and supporters, Mr. Balfour's measure proved as nearly a complete failure on its first introduction as any measure could when not absolutely voted down and thrown out. The Government was not defeated; but the majority in favor of the County Councils bill was so small that it is doubtful whether it will ever re-appear in the House of Commons even in an amended form. The Government had better luck with the Small Holdings bill, and with the Irish Education bill, the former introduced by Mr. Chaplin and the latter by Mr. Jackson; but we have no reason to believe that their success with these two matters of minor importance will at all compensate for the loss of prestige sustained through the virtual defeat of the local government measure -the intended substitute for the Irish parliament scheme.

Interest, as we have said, centres in the approaching general election more than in any measure which is likely to come before the present Parliament. We have also said that the character of the election and the character of the new Parliament will be determined largely by the test questions which shall be brought

There are those who look forward before the people. with confidence to a return of the Liberal Unionists, led by Mr. Joseph Chamberlain in the Lower House, to their old leader and their old flag. There are those also who predict restored unity to the ranks of the Home Rulers. If these two results can be achieved by means of, or as the result of, the general election, it will be a consummation calling loudly for the gratitude of Gladstonians and Home Rulers alike. We are not sure, however, that we could speak for the bulk of the British people, and say that it is a consummation devoutly to be wished. There are many persons in Scotland and many persons in Wales sincerely desirous of seeing an end made of ecclesiastical distinctions by the abolition of an endowed establishment,persons who know that there will be no more disestablishment, so far at least as Mr. Gladstone is concerned, until the Home Rule question is settled; and we are hardly permitted to doubt that, desirous as these persons are of disestablishment, they will never purchase it at the risk of dismembering the Empire, or by any sacrifice of national prestige. It unfortunately happens, as all such persons, and millions besides these, believe, that the return of Mr. Gladstone to power, which would be the result of such restored union as we have referred to above, would have a dangerous bearing on Imperial unity, and also on the national prestige. Mr. Gladstone is pledged to push the question of Home Rule to a final settlement. He is also committed to the policy of evacuating Egypt. The general British public will never willingly consent to the evacuation of Egypt; and unless his new Home Rule measure shall prove to be radically different from his last, it will be promptly and unceremoniously set aside.

It will thus be seen that there is much uncertainty as to the result of the next general election in Great Britain and Ireland. But while the prospect is uncertain in the extreme, its very uncertainty lends it an almost fascinating interest.

RAILROAD GROSS EARNINGS FOR FEBRUARY.

In amount and ratio of gain the statement of earnings which we present for February to-day is the best monthly exhibit we have had for a long time. The result is all the more significant in view of the decidedly indifferent showing for the month preceding. The causes for the improvement are not far to seek. In the first place, this being leap year the month had an extra day. In the second place, the grain movement was very heavy-a circumstance of wide importance in many different sections of the country. In the third place, the cotton movement in the South was of large dimensions and greatly in excess of a year ago, instead of below last year as was the case in January. Finally comparison is with a period last year when bad weather -rains, floods, etc. - operated to reduce railroad traffic and earnings over wide areas, while in February 1892 there was no general drawback of that kind, the bad weather having come this year in January. Of course the conditions affecting railroad traffic during the late month were not all favorable; there were some of the opposite nature, such as the falling off in the receipts of live hogs at Chicago, the inactivity of general trade, and the depression in special industries in certain sections; but these have been completely overshadowed

Мавсн 12, 1892.]

THE CHRONICLE.

The gain for the month reaches the large sum of \$4,626,468, and the ratio of improvement is 13.43 per cent. For January, it will be remembered, the increase was small—\$993,796, or only 2.57 per cent. Nor does the gain the present year follow a loss last year. Notwithstanding the unfavorable conditions which prevailed in February 1891, our statement then showed a gain of \$1,329,374; in the year preceding (1890) the gain was over three million dollars, and from the following summary it will be seen that the February exhibits have shown moderate improvement in all the years back to 1885.

As regards the increase in the grain movement, that has been an influence of great importance. The increase has not been confined to wheat, but has extended to all the cereals, and in the aggregate has reached heavy dimensions. Taking the movement at the Western primary markets, the receipts of wheat for the four weeks ending February 27 the present year were 11,310,577 bushels, against only 5,684,570 bushels in the corresponding four weeks of 1891, showing that the total was just about doubled, the gain being $5\frac{5}{5}$ million bushels. But large though the increase in that cereal was, the gain in corn was still heavier, the receipts for the four weeks this year having been 13,068,290 bushels against only 6,746,578 bushels for the four weeks of 1891. In addition, there was a gain of over $1\frac{1}{2}$ million bushels in oats and a further gain of 13 million bushels in barley. Combining the receipts of wheat, corn, oats, barley and rye, the total for the present year is 35,159,518 bushels, against only 20,284,-210 bushels last year. Here, then, is an increase of 145 million bushels over the movement in 1891, equal we may say to 350,000 tons of freight. And besides this the receipts of flour were also heavier, being 934,961 barrels against 734,484 barrels.

The gain in wheat occurred both at the winter-wheat and the spring-wheat markets, chiefly however at the latter. At Minneapolis the receipts were 5,672,-620 bushels against 3,001,535 bushels, at Duluth 1,525,405 bushels against only 529,780 bushels, and at Chicago 1,528,526 bushels against 597,277 bushels. These are all spring-wheat markets, though Chicago receives both winter and spring wheat. At the winter-wheat points the gains have been much more moderate, the increase at St. Louis for instance having been not quite 400,000 bushels. On the other hand, St. Louis is the point that has been especially favored on the corn movement, its receipts the present year being over $6\frac{1}{3}$ million bushels against only $1\frac{1}{2}$ million bushels in 1891-that is to say, of the total gain of 6 millions in corn nearly 5 millions is found at that point, and this suggests that the movement from the Southwest was very free. The following gives the details of the grain receipts.

Of the increase in onts a large part is found at Chicago. But we get a better idea of the comparative grain movement at that point by making up the figures for the even month, the statement above covering just four weeks in both years. Below is the comparison on the monthly basis. Of course, the fact that February had 29 days the present year makes the totals for the full month larger than those for the four weeks.

RECEIPTS AT CHICAGO DURING FEBRUARY AND SINCE JAN. 1.

		February.		Sir	ice January	1.
	1892.	1891.	1890.	1892.	1891.	1890.

Cut m'ts.lbs.	18,563,490	25,797,208	23,969,378	40,389,361	55,013,873	52,313,437
Lardlbs.	8,951,377	6,960,077	10,277,648	19,459,454	18,339,581	23,163,472
Live hogs No	675,568	933,873	563,836	1,652,902	2,002,133	1,371,634

Thus total grain receipts at Chicago the present year were 12,480,643 bushels, against 8,804,994 in February last year. The table also gives the receipts of provisions and live hogs, and from this it will be observed that in the latter there was some falling off, especially in the case of hogs, where the deliveries for the month in 1892 were only 675,568 head against 933,873 head in 1891. There was an increase of 1,359 barrels in the receipts of pork and an increase of about 2,000,000 pounds in the receipts of lard, but a decrease of over 7,000,000 pounds in the receipts of cut-meats.

In reference to the cotton movement in the South, the gross shipments overland in February 1892 were 165,393 bales against 147,724 bales in February 1891. The chief gain, however, was in the port receipts. There had been a gain of 132,000 bales in the total last year—we mean the total at the Southern ports and on top of this there was a further gain of 119,000 bales the present year. In other words, the receipts at the Southern ports in February 1892 were a quarter of a million bales greater than in February 1890. The following gives the results at each of the different ports.

	1	February.		Sinc	ce Januar	y 1.
Ports.	1892.	1891.	1890.	1892.	1891.	1890.

			018 111	1 104 449	1 000 100	059 97

Total...... 596,947 477,981 345,141 1,194,443 1,279,165 958,375

Analysis of these figures shows that the general statement of increase is subject to important qualifications when we come to apply it to the separate ports. The Gulf ports-Galveston, New Orleans and Mobile-supply considerably more than the whole of the addition, whereas most of the Atlantic ports show a decrease in receipts. This will explain the irregularity in the returns of earnings of Southern roads, to be noted further below. Thus at Savannah the receipts were only 51,877 bales, against 82,649; at Charleston 23,326 against 38,458; at Norfolk 31,112 against 45,783, and at West Point 36,565 against 56,672 bales. At New Orleans the gain has been quite remarkable, receipts this year having been double those of February 1891, or 308,866 bales against only 154,251 bales. The Louisville New Orleans & Texas brought in 74,009 bales against 34,164 bales, an addition of nearly 40,000 bales, in view of which the large gain in the road's earnings for the month is not difficult to understand. Most of the other roads to New Orleans were favored in an equally striking manner; the deliveries by the Illinois Central were 53,781 bales against 27,596 bales; by Morgan's road 24,523 bales against 10,548, and by the Texas & Pacific 46,966 bales against 23,367. On the other hand the deliveries by the New Orleans & Northeastern show a slight decrease.

With a gain in gross earnings for the month of over 45 million dollars in the aggregate, it is almost needless to say that the gains on many of the separate systems are very large in amount. The New York Central leads with an increase of \$475,238, this being independent of the results on the Rome Watertown & Ogdensburg; the St. Paul follows close behind with a gain of \$425,-110; these two systems between them, therefore, having over \$900,000 increase. The Great Northern has \$357,-020 increase, the Atchison with the San Francisco \$324,744, the Rock Island \$298,566, the Missouri Pacific \$255,083, the Louisville & Nashville \$241,339, the Northern Pacific (with the Wisconsin Central) \$157,-365, the Wabash \$143,219, the Denver & Rio Grande \$141,300, the Norfolk & Western \$122,208, the Canadian Pacific \$117,506, and a whole host below \$100,000 in amount. The following furnishes a full list of all changes above \$30,000 in amount-both gains and losses.

Mexican Railway \$87,929

This list, it will be observed, is made up chiefly of grain-carrying roads either in the West or in the Eastwe mean roads in the East which had a large traffic in grain-with a sprinkling of coal roads and Southern roads. The only noteworthy loss is that of \$87,929 on the Mexican Railway-the old road between the City of Mexico and Vera Cruz and which has a parallel

road to compete with now. There are also only very few losses of any kind, large or small; in fact, outside of the Southern section there are only 14 roads altogether which have fallen behind in their earnings. We do not know which of the 8 roads in the Rich-

mond & Danville system show a decrease in their earnings, as we have been unable to get the separate returns; presumably, however, most of them have a loss; but disregarding that system there are 6 Southern roads which report losses and 16 that report gains, the latter comprising such prominent companies as the Louisville & Nashville, the Norfolk & Western and the Chesapeake & Ohio, all of which, as we have already seen, gained heavily. While the cotton movement in the South was much larger than a year ago, it can hardly be claimed that the great improvement in the earnings of the Norfolk & Western and the Chesapeake & Ohio followed from that cause.

* Entire system. † Not including Mobile & Birmingham and Louisv. South'n. ‡ Includes Scioto Valley & New Eng. and Shenandoah Valley for all the years. a Fourth week not reported; figures taken same as last year.

Though the showing for all the different sections, excepting the Southern, is very good, no group reveals such striking improvement as the Northwestern. It is not alone that the large systems like the St. Paul, the Rock Island and the Great Northern have very heavy gains, but that even the smaller roads are distinguished for their very favorable exhibits. We may refer to the Burlington Cedar Rapids & Northern, which reports gross of \$336,497 against \$265,851; the St. Paul & Duluth \$132,623 against \$95,140; the Minneapolis & St. Louis \$150,832 against \$112,379; the Wisconsin Central \$395,866 against \$326,502; the St. Paul & Kansas City \$380,837 against \$284,728; the "Soo" road \$190,000 against \$135,511, and the Duluth South Shore & Atlantic \$133,096 against \$107,906. Among all the returns we have had from that section there is not a single one that records a loss in earnings. From the following comparative statement for the last six years for a few leading companies it will be observed that in some cases-that of the St. Paul for instancethere were gains even last year, to which the gains the present year therefore have been additional.

MARCH 12, 1892.

THE CHRONICLE.

In the Southwest the character of the exhibits is also very good, there being only 3 very minor lines which fall behind, while there are 19 roads which report gains. On some of these latter, notably the Missouri Pacific, the Atchison and the Denver & Rio Grande, the improvement is very striking. The increase on the Denver & Rio Grande is \$141,000 and attracts especial attention by reason of the fact that only a short time ago that road was doing very poorly. The improvement now follows in good part from the mineral discoveries at Creede, which has led to great The February earnindustrial activity in Colorado. ings the present month are the largest for that month in the company's history.

* Whole Atchison system except St. Louis & San Francisco.
 + Kansas City & Pacific included in these years.
 a Fourth week not reported ; figures taken same as last year.

Among the Pacific roads the Northern Pacific also is distinguished for changed results-improved totals against losses in the months preceding. The increase is the more gratifying since there had been an increase in the month last year too. The Canadian Pacific continues to enlarge its earnings in the same notable manner as heretofore.

EARNINGS OF PACIFIC ROADS.

February.	1892.	1891.	1890.	1889.	1888.	1887.
	\$	\$	\$	\$	\$	\$
Canadian Pacific	1,456,000	1,338,494	946,257	902,577	892,798	558,407
Northern Pacific	1,557,982	1,469,981	1,282,908	1,193,159	936,085	525,728
Rio Grande West	160,650	148,550	99,453	95,833	88,049	70,717

The roads in the Middle and the Middle Western States, including the trunk lines, present almost uniformly favorable comparisons. Out of 60 roads from those sections which have contributed returns to our tables, only eight are obliged to report a decrease; the rest all have gains, such roads as the New York Central, the Wabash and the Grand Trunk being conspicuous among them. The following is a comparative exhibit for 20 roads. It will be observed that while in the aggregate the earnings of these 20 roads for 1890 and 1891 did not differ much, for 1892 there has been an increase of about \$1,100,000.

TRUNK LINES AND MIDDLE AND MIDDLE WESTERN ROADS.

MonetaryzCommercial English News

[From our own correspondent.]

LONDON, Saturday, February 27, 1892. Money this week has been in strong demand. The chief cause is the magnitude of the tax collections just at present. During the week ended Wednesday night the Government deposits at the Bank of England increased nearly £1,400,000. Some of the railways, too, are accumulating funds to pay their dividends, and the joint stock banks have been lending less freely, as the end of the month is close at hand, when they make up their accounts. The rate of discount in the open market in consequence rose at one time to $2\frac{1}{2}$ per cent, but at the time of writing has declined to 2 7-16 per cent. At the fortnightly settlement on the Stock Exchange, which began on Wednesday morning, Stock Exchange borrowers were charged 31/2 per cent and in some cases even more. Billbrokers and discount houses, too, had to apply for loans to the Bank of England, the total borrowed during the week amounting to about a million and a quarter sterling. But the scarcity of money is quite temporary. The banks next week will be lending as freely as ever; the railway dividends are nearly all distributed, and in a couple of weeks now the payments out of the treasury will exceed the receipts.

The price of silver declined early in the week, then recovered to 41 9-16 d. per oz. and has since fallen back to 41 7-16 d. per oz. Except for India there is no demand. Merchandise exports from India are very large just at present, and money is required to move the crops; there is therefore a strong demand for remittances. The demand is chiefly for India Council bills and telegraphic transfers, but silver also is being taken.

The city has again been disturbed by alarmist rumors throughout the week, most of them quite unfounded and all grossly exaggerated. On Monday there was a run upon a small bank in the West End of London-a bank, that is, which does business chiefly with naval and military officers. The institution has since published its accounts and has proven itself to be in a perfectly sound condition. On Tuesday a small private country bank was found to be in difficulties, and there were rumors that other banks in the provinces were likewise embarrassed. Above all, the dispute respecting the Murrieta debentures still continues. It will be recollected that the debentures amounted to a million sterling nominal, and that holders of about £100,000 refuse to agree to the proposed conversion. The chief opponent is the Imperial Ottoman Bank, and although more than three-fourths of the debenture holders have accepted the conversion proposal the Imperial Ottoman Bank threatens to have recourse to the law courts. In consequence there is a fear that the trust companies which are interested may be placed in serious difficulties, and apprehension respecting those companies has arisen. Then, again, trade is falling off. There is a serious dispute in the coal industry, and the fall in silver, cotton, iron and coal is now being followed by a heavy fall in wool; wool in fact is nearly as cheap as ever it has been in the history of the trade.

The long-continued Ministerial crisis in France is likewise creating some anxiety, while the complaints of distress in Germany and Austria are adding to the general uneasiness.

It is true that the inter-bourse market has been very firm during the week. Egyptian stocks have risen decidedly, there has been a recovery in Greek bonds and Turkish bonds have advanced sharply on a report that the negotiations for conversion so long going on are likely to be successfully terminated soon. But in spite of this there is much anxiety respecting the Continent. At home here business is extremely stagnant, and above all, there has been a further fall during the week in American railroad securities; the gold shipments from America, being accompanied by reports that there is a currency scare in New York, have so frightened many holders that heavy speculative operators have been throwing stocks on the market in large quantities during the week. A favorable circumstance during the week has been a sharp fall in the premium on gold at Buenos Ayres, which has resulted in a very considerable rise in Argentine railway stocks and some recovery likewise in Government bonds.

In spite of the decline in trade, the price of coal until quite recently was wonderfully well maintained, but for some little time back it has been giving way. The coal owners therefore have called upon the work-people to submit to a reduction of wages, and this the miners have decidedly refused. In turn they have proposed either a reduction of the days of work from six to five per week, or a total stoppage of production for a fortnight. The latter plan has now been agreed upon by the Miners' Federation of Great Britain and Ireland. The members of the Federation are said to number 280,000, and the proposal is that the whole of this vast multitude shall stop work for a fortnight from the 12th of March. The Federation comprises the miners of Lancashire, Yorkshire, Central England and North Wales. There is a separate union for Northumberland and Durham, and it is not yet decided what course will be taken by it. Practically, the work-people admit that if the price of coal falls wages must go down, and their proposal is to prevent the fall in price. Whether the proposal will be accepted by the employers is not yet known, nor whether it will be taken up by Northumberland, Durham and South Wales.

At the first series of Colonial wool sales, which closed a few days ago, there was a further sharp fall in prices. For instance, Port Philip "good average grease" fell to about 8d. per pound. In November, 1889, the price was as high as 13d. per pound, so that in about two and a quarter years there has been a fall of about 40 per cent. Partly the depression in the trade is due to the decline in the American demand caused by the McKinley act, partly to the increased manufacture upon the Continent and partly to the large clips of last year in Australia, South America and South Africa, and the probable large clips this year. There is no recovery in the iron trade, Scotch pig being 40s. 3d. per ton, and a further decline is looked for. There is no sign of improvement in the cotton trade, and the wheat market is lifeless.

The rates for money have been as follows:

eturns . 120,665,000 124,367,000 124,790,000 Messrs. Pixley & Abell write as follows under date of Feb. 25.

Messrs. Pixley & Abell write as follows under date of Feb. 25. Gold—The demand for gold has continued without intermission, but there are to-day rather higher bids for open market parcels than have prevailed for a week past. The movements at the Bank are un-important, only £16,000 having been received and £10,000 withdrawn for Malta. Arrivals: Bombay, £15,000; Natal, £23,000; Madeira, £1,500; West Indies, £51,000; New Zealand, £6,000; total, £96,500. Silver—Silver on the 19th fell to 415₁₆d., but at this low price there was little to be had, and with a brisk demand rates immediately began to recover and business was done at 419₁₆d. on the 24th, which con-tinues the price to-day. Arrivals: West Indies, £20,000; New York, £9,000; total, £29,000. Shipments: To Calcutta, February 19, £172,000; Bombay, February 25th, £152,334. Mexican Dollars—There have been few dealings in these coin, and they are at present quoted at 407₁₆d. Arrivals: From New York, £10,000; West Indies, £3,000; total, £13,000. The quodations for hullion are reported as follows:

The quotations for bullion are reported as follows:

Commercial and Miscellaneous Rews

NATIONAL BANKS .- The following national banks have recently been organized:

4,703-The Park National Bank of Holyoke, Massachusetts, Capital, \$100,000. President, Edwin L. Munn; Cashier, George W.

\$100,000. President, Eawin L. Butth, Casher, Course in Parker. The Farley National Bank of Montgomery, Ala., which was placed in the hands of a receiver Oct. 7, 1891, was on February 15 permitted to resume business as an active national banking association. The corporate existence of the Lansing National Bank, Lansing, Michigan (No. 1,953), expired at close of business March 5, 1892.

IMPORTS AND EXPORTS FOR THE WEEK .- The following are the imports at New York for the week ending (for dry goods) March 3 and for the week ending (for general merchandise) March 4; also totals since the beginning of the first week in January.

	H	OREIGN	IMPORTS	AT	NEW	YORK
--	---	--------	---------	----	-----	------

2 per cents	1,783,000	21,779,350	23,562,350			
Total	\$17,476,500	\$159,451,300	\$176,927,800			

-Messrs. Spencer Trask & Co. of this city and the Frank-lin Trust Company of Brooklyn will on March 16 open sub-scriptions for \$500,000 first mortgage 5 per cent gold bonds of the Edison Electric Illuminating Company of Brooklyn at 101¼ and accrued interest. The company holds the exclusive license for Brooklyn to use the Edison system for the produc-tion and distribution of electric light and power. The per-centage of gain in 1891 compared with the business of 1890 was 90 per cent in gross and 140 per cent in net earnings, the net earnings for 1890 being \$24,583 and for 1891 \$59,232. In January, 1892, the net earnings were \$9,115, against \$6,128 in January, 1891, and in February the net was \$9,029, against \$4,950 in 1891. The company commenced operations Sept. 1, 1889, and has paid quarterly dividends on the stock of 1 per cent since June 30, 1890.

-Attention is called to the new loan of \$500,000 of bonds of the city of Spokane, Wash., offered in our columns to day by Messrs. Farson, Leach & Co., of this city and Chicago. The city of Spokane has a water power of some 30,000 horse power, together with three trans-Continental lines of railway center-ing there. This loan runs for twenty years at 6 per cent, with both principal and interest payable in gold.

-Messrs. Parkinson & Burr, of Boston, have just opened an office in this city at 56 Broadway. This firm was established in 1866, and is among the oldest Boston houses in the banking and brokerage business. The New York office is connected with the Boston house, both by private wire and private tele-phone, and has every facility for transactions in both markets.

-Messrs. Morton, Bliss & Co. and Vermilye & Co. offer at 90 and interest Cincinnati Wabash & Michigan first mortgage 100-year gold 4s. This road forms one of the divisions of the Cleveland Cincinnati Chicago & St. Louis system (the "Big Four"). At price offered the bonds yield about 4½ per cent. See advertisement See advertisement.

-Proposals are invited up to March 29 for \$181,000 city of Dover, N. H., four per cent bonds. Particulars as to the issue will be found in the advertisement in our State and City Department.

-Messrs. E. H. Rollins & Sons, Concord, N. H., are prom-inent dealers in municipal bonds. Their card will be found in our State and City Department.

Cincinnati Jackson & Mackinaw.—At Lansing, Mich., on March 9, articles of association consolidating the Michigan & Mackinaw Railway Company, of Michigan, and the Cincin-nati & Michigan Railway Company, of Ohio, into a single corporation, to be known as the Cincinnati Jackson & Mack-inaw Railway Company, were filed at the Secretary of State's office. The new company is capitalized at \$16,800,000, and paid Secretary of State Blacker a purchase fee of \$8,150, the largest ever received by the State.

Iargest ever received by the State.
Missouri Kansas & Eastern—Missouri Kansas & Texas.—Work is to be pushed on the newly-projected line incorporated as the Missouri Kansas & Eastern and which is intended to give the Missouri Kansas & Texas a line to St. Louis. It is intended to complete it and run freight and passenger trains of the Missouri Kansas & Texas into St. Louis by January 1, 1898. The line will be completed from Boonville on the M. K. & T. to the Burlington bridge across the Missouri River, between S'. Charles and St. Louis. It is understood that the Missouri Kansas & Texas will use the Burlington bridge and the Burlington tracks in North St. Louis for its inlet to that city, and that it will also use the Burlington's terminals under a joint arrangement.
The St. Louis Globe-Democrat reports: "The line will run from Franklin, near Boonville, east, through Howard, Boone, Callaway, Montgomery, Warren, St. Charles and St. Louis counties, a distance of 180 miles. The line will enter St. Louis at the north end on the river front, and it will run through a portion of Central Missouri not yet traversed by any railroad. From St. Charles to Hamburg, sixteen miles, the line of the Cleveland St. Louis & Kansas City, now in operation, has been acquired; likewise the graded portion of that line from St. Charles east twenty miles and from Hamburg West thirty-six miles. The new line will cross the Missouri River, wice, and will run along its banks for some distance."

-Parties owning Buffalo N. Y. & Erie 1sts, Chicago & Great Western 1sts, and other securities, should notice the list of bonds wanted by Mr. Henry S. Redmond, in the CHRONICLE of to-day.

-Messrs. Coffin & Stanton, bankers, New York, give notice that on and after March 15 they will cash, with accrued inter-est, a list of street improvement 6 per cent bonds of the city of Columbus, Ohio, which have been called for payment on that date, and which are advertised in another column of this issue.

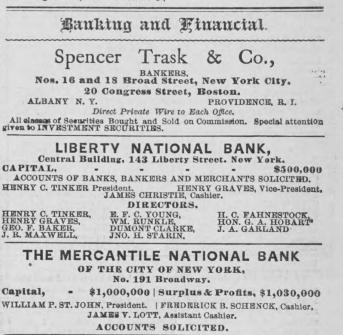

United States Sub-Treasury.—The following table shows thereceipts and payments at the Sub-Treasury in this city, as well as the balances in the same, for each day of the week.

WALL STREET, FRIDAY, MARCH 11, 1892-5 P. M.

The Money Market and Financial Situation.-There is a better feeling this week in regard to financial matters. The prospect of diminishing gold exports and increasing merchan-dise exports is regarded favorably, and the silver agitation in Congress has less influence from the fact that it is not be-lieved that any radical laws can be passed at this session over the President's veto.

Congress has less influence from the fact that it is not be-lieved that any radical laws can be passed at this session over the President's veto. Wheat exports are on the increase, as the price is low com-pared with what it was expected to be at this season, and supplies are coming to market freely at the West. Cotton is surely low enough to invite any amount of buying by for-eign consumers, and except for the unfortunate position of English spinners, who are hampered in selling goods to the East by the low price of silver, there would probably be an immense demand for our great staple that would relieve the South and help us all around. With free coinage gold would go to a premium and silver would in all probability be depre-ciated below its present value. For some weeks past the Lon-don correspondent of the CHRONICLE has called attention to the fact that Lancashire cotton manufacturers were large sellers of American securities. The outlook for the final establishment of the Reading leases seems to have improved this week. The Governor of Penn-sylvania is flooded with petitions from miners that the deal may be sustained, so that the price of coal may be kept steady, and the interests of Pennsylvania generally seem to be on the side of having the contracts broken they are the outside consumers in New York, New England, the Middle States, Canada and the West, who would be glad to get a very low price for anthracite coal, and Reading would not then be able to earn interest on its income bonds, which repre-sent capital invested many years ago. In New Jersey the whole matter may be settled by a law confirming the leases as made which has just passed both houses of the Legislature and is in the hands of the Governor. The open market rates for call loans during the week on stock and bond collaterals have ranged from 1½ to 2 per cent. the average being a little less than 2 p. c. To-day rates on call were 1½ to 2 p. c. Commercial paper quoted at 4@5per cent. The Bank of England weekly statement on Thursday showe

shows a decrease of 250,000 francs in gold and 1,400,000 francs

in silver. The New York Clearing-House banks in their statement of March 5 showed a decrease in the reserve held of \$5,267,500 and a surplus over the required reserve of \$21,292,225, against \$26,969,700 the previous week.

Coins.-The following are the current quotations in gold for various coins:

Napoleons 3 86 3 90 X X Reichmarks 4 74 0 4 80 25 Pesetas 4 75 0 4 85 Snan Doubloons 15 56 0 15 70	Fine silver bars 90^{1}_{2} 3° -91^{1}_{4} Five fn ances
--	--

State and Railroad Bonds .- The sales of State securities have included \$10,000 N. C. 6s, 1919, at 125; \$3,000 N. C. consol. 4s at 971/2; \$11,000 S. C. 6s, non-fundable, at 21/4; \$18,000 Tenn. Settl. 3s at 70@ 7014; \$2,000 Settl. 6s at 107.

Railroad bonds have had a moderate business, well distributed throughout the list. As a rule bonds have been a trifle stronger and purchasers seem to have a little more confidence. The consolidation of companies usually fortifies the old bonds and places a large amount of stock, and often of consolidated bonds, underneath them. Within a few weeks (aside from the railroad deals) consolidations have been pending, and are either effected or well in progress between holders of Chicago Gas and Economic Gas, between Edison General Electric and Thomson-Houston, between Tennessee Coal & Iron and the Schloss and Bardeleben companies, and between Colorado Coal & Iron and Colorado Fuel. The Reading affairs are also looking better, and the bonds to-day have improved mate-rially in price and their tone is strong. The Richmond Ter-minal bonds have been steady, waiting for further develop-ments and for the syndicate plan to be completed, but just at the close to-day jumped up sharply to 65 for the 5s and 95-96 for the 6s. The M. K. & T. seconds, Texas & Pacific seconds and Northern Pacific consols have met with a fair business, generally at higher prices than last quoted. **Bailroad and Miscellaneous Stocks.**—The stock market The consolidation of companies usually fortifies the old bonds

Railroad and Miscellaneous Stocks .- The stock market has narrowed down, as might have been expected after such skirmishing as that of last week. But as the kite-flying has ceased for a while the general tone is much steadier and there will be more confidence in buying things on their merits. The action of the St. Paul directors in not declaring a dividend on the common stock at this time was conservative, and with the good reasons they gave for waiting till the close of the fiscal year (June 30) it is calculated to increase confidence in the management. The Reading prospect has decidedly im-proved, and it looks very much as if the late agreements would not be overthrown in Pennsylvania and would be confirmed in New Jersey, perhaps for the very good reason that both those States are interested in having these large corporations do a thriving business and launch out in every direction, thereby increasing the value of property within their borders. To-day Reading was the chief feature of the market and rose on large dealings to 58³/₄, closing at the top. The other coal stocks also followed, at rising prices. New England is quiet since the late election, and steady at about ten points below the highest figure reached on the Dr. Seward Webb story which was 59 on the morning of March 3d. Lake Shore has also settled back to 135³/₄ after selling up to 140¹/₂ on Saturday, and there has been no fact to show that there was anything extra-ordinary to warrant such a sharp advance. Buffalo Rochester & Pittsburg common and preferred have been among the active specialties at stronger prices, possibly on the large earnings since Jan. 1. Tennessee Coal has been active and higher on the prospect of consolidation, but at the close to-day this was reported less imminent. Among the unlisted, Sugar has been much more active, sell-ing to-day at 93¹/₄ and closing at 92¹/₄. fiscal year (June 30) it is calculated to increase confidence in

THE CHRONICLE.

[VOL, LIV,

Investment Railroad Intelligence.

440

The INVESTORS' SUPPLEMENT, a pamphlet of 150 pages contains extended tables of the Stocks and Bonds of Railroads, and other Companies, with remarks and statistics concerning the income, financial status, etc., of each Company. It is published on the last Saturday of every other monthviz., January, March, May, July, September and November, and is furnished without extra charge to all regular subscribers of the CHRONICLE. Extra copies are sold to subscribers of the CHRONICLE at 50 cents each, and to others at \$1 per copy.

The General Quotations of Stocks and Bonds, occupying six pages of the CHRONICLE, are published on the third Saturday of each month.

VOL. LIV.

ANNUAL REPORTS.

Missouri Pacific Railway.

(For the year ending Dec. 31, 1891.)

The annual meeting was held in St. Louis this week and the old board of directors re-elected. The annual reports are not yet to hand, and it has been impossible to get one at the office, but the following comparative figures are compiled for the CHRONICLE from figures published in St. Louis. The operations, gross earnings, operating expenses and sur-plus earnings of all lines operated for the years 1889, 1890 and 1891 were as follows:

S, EXPENSES,	&C , WHOLE ST	STEM.

New York & New England Railroad.

(For the year ending Dec. 31, 1891.)

(For the year ending Dec. 31, 1891.) The annual report says: "The dividends on the preferred stock paid during the year amounted to \$210,000, so that the company's books as of December 31, 1891, show an apparent failure to earn the dividends paid by \$128,173. If, however, we take into account the net results of the twelve months comprising the two dividend periods for which dividends were paid in the year 1891, that is, if we reckon from October 1, 1890, to September 30, 1891, it will be found that there was a net surplus above the dividends paid of \$19,520. The net income of the year has been decreased by charging off various amounts which have accumulated in previous years and which cannot be considered at the present time as reliable assets, having been mainly carried in former reports as debit balances have been the result of expenditures which in some instances pertain to transactions as far back as the year 1883, and being of doubtful value your directors deem it better that the accounts should now show these various items abso-lutely charged off, so that the books may at least be a correct statement of the present condition of the company. What-ever may be realized from the sums now charged off will go into future accounts, but the present action will clear the books of questionable balances, and enable shareholders better to understand the real situation of the company." Of the operating expenses and charges in 1891 the report says : "Besides being burdened with charges that properly belonged in the accounts of preceding years, the operating ex-penses for the current year have been largely increased be-cause of lack of facilities to properly handle the freight busi-ness which has passed over our lines, so that business which might have proved a considerable source of revenue has not given the results that, under ordinary circumstances, might have been expected. With contemplated additions to the equipment and to the freight terminals, especially increasing, and that the rates received for the trans The annual report says: "The dividends on the preferred

that the rates received for the transportation of freight are found by other railroads to be remunerative, it is the belief of your directors that, with wise economy and careful superin-tendence, the net earnings of the road may be materially in-creased. Of the increased fixed charges, \$64,958 is on account of the rental of the Providence & Springfield Railroad and of the Woonsocket & Pascoag Railroad, from the operation of which we cannot as yet expect full returns. The interest paid on freight car equipment notes increased \$32,328; but the larger part of this increase served to reduce the balance paid by this company for freight car service, as the cars covered by the obligations upon which the interest is paid operate mostly over foreign roads, and earn a very large proportion of the interest charges. "There was expended during the year for improvements and

of the interest charges. "There was expended during the year for improvements and additions to property accounts the sum of \$334,324 of which amount \$152,993 was on account of equipment purchased, and \$181,230 was for additions and improvements to the property "..." generally."

Operations, earnings, &c., were as follows in 1891.

GENERAL INVESTMENT NEWS.

American Bell Telephone.—The directors have voted to issue \$2,500,000 new stock, one share at par to each holder of six shares. A dividend of \$3 per share has been declared, payable April 15.

Called Bonds .- The following bonds have been called for payment:

CLEVELAND COLUMBUS CINCINNATI & INDIANAPOLIS RY. CO. -108 consolidated mortgage bonds will be paid at the office of Messrs. Drexel, Morgan & Co., New York, or at the office of Messrs. J. S. Morgan & Co., in London, on the 1st of June, 1892, at which date interest will cease. The numbers will be found in our advertising columns.

found in our advertising columns. Central of Georgia—Richmond Terminal.—On March 4, Judge Speer, sitting in the Circuit Court at Macon, Ga., ap-pointed General E. P. Alexander, President of the Central, temporary receiver of the road. upon a bill for an injunction, receiver and relief brought by Mrs. Rowena M. Clarke, of Charleston, S. C., who owns 50 shares of the stock. The grounds upon which the suit was brought are that the lease is illegal under the laws of Georgia; that the properties of the Central are not being properly managed by the lesses, and that the projected action of the Olcott Committee in issuing a large amount of stock will be detrimental to the interests of the Central stockholders. Nothing further will be done, and the Central stockholders. Nothing further will be done, and the receiver will make no changes before March 14, when the case comes up for argument on the question of continuing the receivership.

Chicago Gas.—A circular will be issued offering to the holders of the Fidelity Trust Company's receipts representing control of the Chicago Gas Companies the option to subscribe to the amount of 16 per cent of their holdings to the \$4,000,-000 Indiana Natural Gas & Oil Company's 6 per cent bonds at 90, with a bonus of three shares each of the Indiana Company's stock.

pany's stock. Chicago Milwaukee & St. Paul.—The directors of the Chicago Milwaukee & St. Paul Railroad met on Thursday, and after declaring the usual dividend of $3\frac{1}{2}$ per cent on the preferred stock they determined not to resume the payment of dividends on the common stock just at present. It was announced that by the close of the present fiscal year (June 30) the accounts will show results of the year's business and the board will then have information as to the condition of the crops and probable earnings of the year to come, so that in resuming dividends an intelligent opinion can be formed as to what rate can be paid with reasonable assurance of its con-tinuance. tinuance.

Columbus Hocking Valley & Toledo.—The preferred stock which was authorized last November to provide for the payment of the 7 per cent bonds maturing January 1, 1892, and for other purposes, was listed this week on the New York Stock Exchange. In another column we give at length the facts contained in the application to the Exchange.

facts contained in the application to the Exchange. Denver & Rio Grande.—The United States Supreme Court on Monday affirmed the judgment of the Colorado Circuit Court in the case of the Chicago Rock Island & Pacific Rail-way Co., appellants, vs. the Denver & Rio Grande Railroad Co. A contract was entered into between the two roads by which, for an agreed compensation, there was to be joint use of the tracks of the Denver & Rio Grande Road between Den-ver and Pueblo, the Rock Island having constructed a line to Colorado Springs midway between the two places. Subse-

calendar years | quently the Rock Island entered into a traffic agreement with the Union Pacific and sought to use the terminal facilities of the Denver & Rio Grande at Denver for this business. The the Union Pacific and sought to use the terminal facilities of the Denver & Rio Grande at Denver for this business. The Denver & Rio Grande maintained that the use of these ter-minals was a mere incident of the use of its tracks from Col-orado Springs, and that Rock Island could not use the Denver terminals for Union Pacific business. The lower court de-cided in favor of the contention of the D. & R. G., and the U. S. Supreme Court affirmed that judgment. Justice Brown read the opinion of the Court. Justice Brewer dissented. The D. & R. G. expect as a result of this decision to receive about \$150,000 for services already rendered, with a future increase in revenue from the Rock Island Co. The Denver & Rio Grande earnings for February were the largest in the history of the company for that month. The increase was due almost entirely to the recent mineral dis-coveries in southern Colorado, especially in the vicinity of Creede. The ore shipments from Creede continue to run about nine cars per day, and the freight hauled into the camp averages at present some sixty cars daily. The total number of passengers taken into Creede during February was 4,701, and the number taken out was about 1,900. The general outlook in Colorado is very promising; the two largest smelting works at Denver, the Omaha & Grant and the Argo, are both now largely increasing their capacity. Edison General—Thomson-Houston.—The committee of

the Argo, are both now largely increasing their capacity. Edison General—Thomson-Houston.—The committee of stockholders of the Edison General and Thomson-Houston electric companies has announced that the majority of the stockholders of the two companies have agreed to the proposed consolidation and the formation of a new fifty-million-dollar company. All persons who have signed the agreement are required to deposit their stock by March 20 with the New York Guaranty & Indemnity Company or the Old Colony Trust Company in Boston and receive in exchange temporary receipts.

receipts. Green Bay Winona & St. Paul.—Security holders are asked to deposit their securities with the Farmers' Loan & Trust Co. under an agreement dated Feb. 24, 1892. It is proposed to give the present first mortgage holders a new five per cent consolidated mortgage bond at par and mortgage bond scrip to the amount of \$210 in full for principal and in-terest on each bond, the new bond to bear interest from Aug. 1 1892. The holder of each funded interest bond with over-due coupons to Aug. 1, 1892, is to receive a new consolidated five per cent bond with mortgage bond scrip to the amount of \$180. The new consolidated bond will be for \$2,500,000. The income bonds, preferred and common stock will be left in amount the same as at present, and all holders of these secur-ities that have not paid their cash assessment under the plan of July 15, 1889, are to be given an opportunity to do so. The reorganization committee are Messrs. H. B. Turner, M. Taylor Pyne and Joseph Walker Jr. Lake Erie & Western.—The second mortgage five per cent

Lake Erie & Western.—The second mortgage five per cent bonds to the amount of \$1,500,000 were listed this week on the New York Stock Exchange. An abstract of the mortgage is given on subsequent pages of this issue. The ernings of the road for 1891 were \$3,273,355 gross and \$1,447,897 net; interest, rentals and taxes, \$518,838; surplus, \$929,058.

Interest, rentals and taxes, \$018,558; surplus, \$929,058. Minneapolis & St. Louis.—In the suit of Henry Seibert, trustee of the Improvement & Equipment mortgage, against the company, Judge Lochren at Minneapolis on Saturday last rendered a decision adverse to the plaintiff. The contention was that the holders of the Pacific Extension bonds not hav-ing joined in the foreclosure proceedings were not entitled to participate in the distribution of proceeds. The Court granted the motion of the bondholders for the payment of back in-terest. terest.

\$1.726.522 Net earnings.....

New York & New England.—The annual meeting was held Boston March 8. Mr. C. A. Prince offered the following resolutions:

in Boston March 8. Mr. C. A. Prince offered the following resolutions:
Toted, That the board of directors be authorized and requested to issue from time to time, as they may deem expedient, the bonds of the company, bearing not over 5 per cent, interest annually, and payable at not exceeding that which at such time or times may be authorized by law.
Woted, That any boads issued pursuant to the above vote may be secured by one or more mortgages on all or any part of the franchises and property of the company, as the board of directors may deem expedient, made to such trustee or trustees, and in such form and on such terms and conditions as the board of directors may deem expedient, made to such trustee or trustees, and in such form and on such terms and conditions as the board is hereby empowered to apply for additional legislation by any State or States in which any parts of the railroads of this company may be situated in reference to such bonds and mortgages, the board is hereby empowered to apply for the same, and to accept in behalf of the company any such act or acts which may be passed on their application.
Woted, That any bonds issued under authority of these votes may be disposed of and the proceeds applied to the uses of the company and the development and improvement of its property and business by the board of directors from time to time, as they may deem most advantageous to the company providually issued.
The resolutions called forth considerable debate and some opposition. Mr. Prince offered an explanation that the issuance of these bonds had been carefully considered by the source of directors, but the amount and quantity was left to be decided at this meeting. A stockholder offered a resolution, also that the stockholders should vote a limitation,

Mr. Prince further explained that the property needed im-provement in the way of double-tracking on the Western divi-sion, and it was necessary to issue these bonds to accomplish this end. The resolutions were subsequently passed without amendment by a vote of 171,276 against 924. The following, offered by Mr. Adams, of Boston, was also passed:

"That the board of directors be requested to consider the question of securing a through and independent route to the city of New York, and to that end that this meeting be adjourned to a day to be fixed by said board not later than the first day of June next; and that a report be then made as to the progress."

There was only one ticket for directors, and the following

There was only one ticket for directors, and the following board was elected: J. A. Bostwick, Thomas Rutter, Henry Hentz, J. L. Macaulay, Sidney Dillon, A. E. Orr, Charles Par-sons, Charles Parsons, Jr., C. B. Tedcastle, E. V. Cary, of New York; Eustace C. Fitz, Charles A. Prince, F. H. Prince of Bos-ton; J. L. Howard, Hartford, Conn.; G. M. Landers, New Britain, Conn.; D. S. Plume, Waterbury, Conn.; B. F. Vaughn, Providence, R. I.; Aretas Blood, Manchester, N. H.; Arthur Sewall, Bath, Me. The changes from the old board were the substitution of the names of Charles Parsons, Jr., C. B. Tedcastle and E. V. Cary, of New York, and Aretas Blood, of Manchester, N. H., in the places of Austin Corbin, of New York, Charles How-ard, S. A. Carleton and R. H. Denny, of Boston. The officers chosen were: Chairman of the board, J. A. Bostwick, New York; President, Charles Parsons, New York; First Vice-President, F. H. Prince, Boston; Second Vice-President, Charles Parsons, Jr., New York; Treasurer, G. B. Phippen; Secretary, J. M. Perkins; the last two being re-elections.

Secretary, J. M. Perkins; the last two being re-elections.
New York Ontario & Western.—The directors of the New York Ontario & Western Railway Company have decided to submit to the stockholders on April 20 a financial plan which is intended to provide for the refunding of the outstanding bonds and for such additions and improvements to the property as may be required in the future. The proposition is to authorize the execution of a general mortgage, under which \$20,000,000 4 per cent 100-year sold bonds may be issued from time to time, of which \$5,500,000 will be used to retire the \$4,000,000 sixes, which are redeemable at 110 on any interest day. Seven million dollars will be held to retire the \$5,600,000 consolidated fives. and the remainder issued from time to time, as required, for additions, improvements, &c. The improvements contemplated immediately include the building of docks and coal trestles at Cornwall—the present facilities for coal transfer at Weehawken being inadequate to the equipment, a total expenditure of about \$250,000. The redemption of the "sixes" would effect a saving of \$20,000 in fixed charges, and leave only the \$5,600,000 fives a prior lien to the proposed "fours." A circular explanatory of the proposition will be issued to the stockholders.

New York Stock Exchange—New Securities Listed.—The Governing Committee of the New York Stock Exchange has added to the lists for dealings the following :

Governing Committee of the New York Stock Exchange has added to the lists for dealings the following: CLEVELAND CINCINNATI CHICAGO & ST. LOUIS RAHLWAY.--\$238,000 additional first mortgage 4 per cent gold bonds of the White Water Valley Division, making the total amount listed +650,000. COLLMEUS HOCKING VALLEY & TOLEDO RAHLWAY.--\$2,000,000 5 per cent non-cumulative preferred stock. [The application is given in full in another column.] INDIANAPOLIS DECATUR & WESTERN RAHLWAY.--Metropolitan Trust Company certificates of deposit for first mortgage 5 per cent bonds : also \$2,382,000 second mortgage 5 per cent bonds and income mort-gage bonds. The American Loan & Trust Company receipts were ordered stricken from the lists. LAKE ERL, & WESTERN RAHLWAY.-S1,500,000 second mortgage 5 per cent gold bonds of 1941. [An abstract of the mortgage will be found on a subsequent parc.] MISSOURI KANSAS & TEXAS RAHLWAY (Dallas & Waco Railway).-\$167,000 additional first mortgage 5 per cent gold bonds, making the total amount listed \$1,340,000. NORFOLK & SOUTHERN RAHLWAY.-\$625,000 first mortgage 5 per cent fifty year gold bonds. PENNSYLVANIA COMPANY.-\$1,250,000 additional guaranteed first mortgage 42 per cent coupon and registered bonds, making the total amount listed \$1,3,750,000. RIO GRANDE SOUTHERN RAHLWAY.-\$2,624,000 first mortgage 5 per cent gold bonds. [Application will be found on another page.] TERMINAL RAHLROAD ASSOCIATION OF ST. LOUIS.-\$7,000,000 first mortgage 49 per cent gold bonds.

Philadelphia & Reading .- The Governor of Pennsylvania has been flooded with petitions from the coal districts asking that the recent coal-road contracts may be allowed to stand undisturbed. A dispatch from Harrisburg on Monday said that Attorney-General Hensel would test in the Dauphin County Court the constitutionality of the leases and that a bill in equity, including an application for a permanent injunction to restrain operations under the lease, would be the proceed-ings adopted;

ings adopted; In New Jersey the Legislative investigation has made no progress, and at Trenton, March 10, a bill to legalize the Read-ing deal, which was introduced on Tuesday, passed the House by a vote of 35 to 17 and passed the Senate on the 11th. In Lycoming County, Pa., a bill was filed by M. H. Arnot, a banker of Elmira. N. Y., owner of 100 shares of Reading and 100 of Lehigh Valley, to break the leases, and answers have been or will be filed by the defendants.

Rio Grande Sonthern.—The bonds of this new Colorado company were listed this week on the New York Stock Ex-change, and on a subsequent page is given at length the offi-cial application. The road was only completed its entire length in December, and is not yet opened through for opera-tion, but it is expected that it shortly will be. It has already proven an important feeder to the Denver & Rio Grande.

For other Investment News see Pages 433 and 447.

Reports and Documents.

LAKE ERIE AND WESTERN RAILROAD.

ABSTRACT OF SECOND MORTGAGE.

DATE AND PARTIES.

The indenture is made the 30th day of June, 1891, between the Lake Erie & Western Railroad Company of the first part and the Central Trust Company of New York and Robert C. Bell of Fort Wayne, Indiana, Trustees, of the second part. RECITAL.

Bell of Fort Wayne, Indiana, Trustees, of the second part. RECITAL. The Railroad Company in order to raise money necessary to yay for completing, improving and maintaining its lines of railway and to pay debts contracted for the purposes afore-said, and in pursuance of proper resolutions to that end of its board of directors and of its stockholders, has determined to execute its gold bonds for \$1,000 each to be issued at the rate of not exceeding \$5,000 for each mile of the lines of railroad of the mortgagor hereinafter described (\$3,625,000 in all). Also to secure the payment of its said bonds, the company has determined to execute and deliver to the Central Trust Com-pany of New York, and Robert C. Bell, the trustees, a mort-gage or its deed of trust of its lines of railroad, and the rolling stock, equipment and other property of the mortgagor appur-tenant to the said lines of railroad, but subject in all respects to a first mortgage bearing date the 21st day of February, 1887, made by the mortgagor to the Central Trust Company of New York and A. L. Mason of Indiana. The holders of more than two-thirds of the capital stock of the company have concurred in the execution and delivery of and mortgage to secure said issue of bonds by the passage of a resolution at a meeting of the stockholders duly called for that purpose, of which due notice in writing had been given to each stockholder at least sixty days prior to the day ap-pointed for such meeting. Such notice also stated the time and place of the meeting and the object thereof, and the said proposed issue for the purpose, aforesaid of the bonds of the mortgagor. [FORM OF THE BOND].

[FORM OF THE BOND].

-, President.

\$25.

[FORM OF COUPON.]

Attest:

*25. \$\$25. The Lake Erie & Western Railroad Company will pay to bearer at its office or agency in the city of New York on the day of 18, for value received, twenty-five dollars in gold coin of the United States of America, being six months' interest due that day on its Second Mortgage Bond No-______

-, Secretary. [FORM OF TRUSTEE'S CERTIFICATE.]

This certifies that this bond is one of the series of bonds issued in conformity with and described in the mortgage or deed of trust bear-ing date the thirtieth day of June 1891, and referred to within. CENTRAL TRUST COMPANY OF NEW YORK, By

Vice-President.

PROPERTY COVERED BY THE MORTGAGE. The property conveyed by the indenture is particularly de-scribed as follows : <text><text><text>

BONDS TO BE CERTIFIED BY CENTRAL TRUST COMPANY.

BONDS TO BE CERTIFIED BY CENTRAL TRUST COMPANY. The said second mortgage bonds shall be required to be cer-tified by the Central Trust Company of New York only, and shall be certified and delivered by it to the mortgagor to the amount in the aggregate of three million six hundred and twenty-five thousand dollars (\$3,625,000) upon the written application of the mortgagor expressed by a resolution of its board of directors.

ROLLING STOCK TO BE DEEMED REAL ESTATE.

The rolling stock to be DEEMED REAL ESTATE. The rolling stock and equipment, and all personal property and chattels hereby conveyed or intended so to be, shall be deemed real estate for all the purposes of this indenture, and shall be held and taken to be fixtures and appurtenances of the said lines of railway, and a part thereof, and shall be used and sold therewith, and not separate therefrom.

PROVISIONS IN CASE OF DEFAULT.

If default shall be made in the payment of interest or in the payment, observance or performance of any other of the cove-nants, conditions, provisos or agreements in said bonds, or in this indenture contained, and if any such default shall continue for the period of three months, the Trustees, per-sonally or by attorneys or agents, upon a requisition in writing, signed and duly acknowledged by the owners of a third in amount of the bonds hereby secured and then out-standing, or their duly authorized agents, and upon receiving a proper indemnity against all costs, expenses and charges, shall enter into and upon all and singular the premises hereby conveyed, and shall, until the same be sold or surrendered to the mortgagor, its successors or assigns, use, manage and operate the same, making from time to time all repairs and replacements, as may seem to them judicious, and after paying all expenses out of the earnings shall apply the balance of moneys to the payment of the interest on the bonds secured hereby in the order in which the instalments of such interest shall have become due, ratably to the persons holding the compone on interest is holding the If default shall be made in the payment of interest or in the hereby in the order in which the instalments of such interest shall have become due, ratably to the persons holding the coupons or interest warrants evidencing the right to such in-terest; and after the payment of all interest that may be due, pay over the balance to the company.

PRINCIPAL MAY BE DECLARED DUE.

PRINCIPAL MAY BE DECLARED DUE. In case any such default shall be made, and shall continue for three months, the Trustees may, and upon the requisition of the owners of a third in the amount of the bonds then outstanding, shall, declare the principal of all said bonds to be fortwith due and payable without notice to the mortgagor; such requisition shall be evidenced by an instrument in writ-ing duly signed and acknowledged.

IF PRINCIPAL IS DECLARED DUE TRUSTEES SHALL SELL If the principal of said bonds shall become due and payable by reason of any default as aforesaid, or at maturity, and shall not be paid, and such default shall continue for thirty days, the Trustees, upon the requisition in writing, signed and acknowledged by the owners of a majority in amount of the bonds then outstanding, and upon a tender of a proper indemnity for costs, &c., shall forthwith proceed to sell and dispose of all and singular the said railways, equipment, property, franchises, &c., at public auction in Chicago, In-dianapolis or the city of New York, in the discretion of the Trustees, first giving public notice of such sale by advertise-ment for six weeks.

Trustees, first giving public notice of such sale by advertise-ment for six weeks. After deducting from the proceeds of the sale all expenses, the Trustee shall apply the purchase money to the payment of the interest on the bonds in the order in which the instal-ments of such interest shall have become due, ratably to the persons holding the coupons, and after paying all interest which shall have become due on said bonds, to the payment of the principal of said bonds.

TRUSTEES MAY PURCHASE. At any sale of the property pursuant to the powers herein granted or by judicial authority, the Trustees may purchase, on behalf of the bonds then outstanding, in the propertion of the respective interests of such holders, the property so sold, provided that if all the property be sold as aforesaid, the price at which the purchase hereby authorized may be made, shall not exceed the whole amount of said bonds then outstanding, with the interest accrued thereon, and the amount of all prior liens on said property so sold, together with the costs and ex-penses, and if but a portion of the said property shall be sold, at such price as shall be in the judgment of the Trustees reasonable.

BONDHOLDERS MAY PURCHASE.

Nothing in this provision contained shall prohibit any of Nothing in this provision contained shall prohibit any of the holders of the bonds from bidding at such sale, or from purchasing such property, or any part thereof, upon such sale; but any of said holders of said bonds may purchase said property at any such sale, and in the event of such purchase by them, they shall be allowed credit as so much cash paid for so much of the purchase money as shall be a proper share or dividend to which the bonds held by them shall be entitled from the purchase mice from the purchase price.

TRUSTEES MAY PROCEED AT LAW.

The Trustees may, in their discretion, resort to any legal or equitable proceedings in their judgment necessary or expe-dient for the enforcement of the security afforded by this in-denture, and any remedies specially conferred by any of the provisions of this indenture shall be deemed cumulative and not exclusive.

TRUSTEES MAY RELEASE CERTAIN PROPERTY.

TEUSTEES MAY RELEASE CERTAIN PROPERTY. The Trustees shall have full power, in their discretion, upon the written request of the mortgagor, to release any land held or acquired for the purpose of stations, depots, shops, or for other buildings or purposes, which lands, in its or their judg-ment, shall not be necessary for use, and also to convey, on like request, any land not occupied by the track of the mort-gagor which may become disused by a change of the location of any station house, depot, shop, or other building, and such lands occupied by the track and adjacent to such stations, depots or other buildings as the mortgagor may deem it expe-dient to disuse or abandon; but any lands which may be acquired for permanent use in substitution for any so released shall at once be subject to the lien of these presents without any further conveyance or mortgagor to dispose of such portion of the equipment, machinery and implements as may have become unfit for use, replacing the same by new, which shall at once be subject to the lien of these presents, without any further conveyance or mortgage. BONDS TO BE PURCHASED IN OPEN MARKET.

BONDS TO BE PURCHASED IN OPEN MARKET.

Whenever, under any of the provisions of this indenture, the Trustees shall receive any sum which shall be applicable to the redemption of bonds, the same shall be expended by the Trustees in the purchase, in the open market, of the bonds at the lowest market rate. All bonds purchased for redemption shall be at once canceled.

REGISTRY OFFICE IN NEW YORK.

The mortgagor shall at all times keep an office or agency in the city of New York, and a book or books therein, which shall serve as a register of the said bonds. Any holder of said bonds shall be entitled to have his name and address, and the number of every of the said bonds held by him, entered in such register in such register.

TRUSTEES MAY BE CHANGED.

Either trustee, and any successor in the trust, may be re-moved by a vote of a majority in amount of the bonds then outstanding. In case a vacancy shall at any time exist in the trusteeship notice of a meeting for the appointment of a new trustee, or trustees, shall be given to the holders of the bonds by publication for three months daily in a newspaper pub-lished in the city of New York and in a newspaper published by publication for three months daily in a newspaper pub-lished in the city of New York and in a newspaper published in Chicago. Such notice may be given by the holders of \$250,000 in amount of the bonds, and at such meeting, which shall be in New York City, a successor to the trustee shall be appointed by the vote of not less than a tenth in interest of the holders of the bonds then outstanding, who shall also be a majority in interest of the bondholders present and voting at such meeting.

majority in interest of the bondholders present and voting at such meeting. If the holders of the said bonds fail to appoint a new trustee within twelve months after a vacancy shall have occurred, the mortgagor shall apply to the Circuit Court of the United States for the Southern District of New York for the appoint-

ment of a new trustee, giving similar notice to the holders of the bonds. Any trustee, giving similar notice to the holders of pany having an office in the City of New York. BENEFIT OF STAY LAWS WAIVED.

BENEFIT OF STAY LAWS WAIVED. The mortgagor for itself, its successors and assigns, irrevo-cably waives and relinquishes the benefit of all valuation, stay, appraisement, extension or redemption law or laws now existing, or which may hereafter be passed by the legislatures of the States of Illinois, Indiana and Ohio, which, but for this provision, might be applicable to the sale hereinabove author-ized to be made by the trustee, or to any judicial sale which may be made of said property. Toledo, Ohio, to Pomeroy, Ohio, a distance of 327 miles.
Standard gauge.
This company has added to its capital stock of 116,963 shares (which shares are listed on the New York Stock Exchange) 20,000 shares of 5 per cent non-cumulative preferred capital stock, making a total stock capital of 136,963 shares.
This issue of preferred stock has all been subscribed and paid for. The company reserves the right to redeem and retire such preferred stock at par at any time after the expiration of three years from date of issue thereof.
The purposes for which the above-mentioned 20,000 shares of preferred stock were issued were for the payment of 777 7 per cent second mortgage bonds, of \$1,000 each, of the Columbus & Hocking Valley Railroad, being the total amount of such second mortgage which came due January 1, 1892, and for the payment of car trust obligations.
\$213,000 has been used to take up car trust obligations, maturing during the year 1891, and \$777,000 has been put aside for redemption of the 7 per cent second mortgage bonds due January 1, 1892. Up to this time \$762,000 bonds have been redeemed and canceled, leaving a balance of \$15,000 bonds not yet presented for payment; but the money, as before stated, has been set aside for their payment when presentation shall be made.

tation shall be made. Of the bonds redeemed \$743,000, after being canceled, were deposited with the Central Trust Company of New York, preparatory to the trust company delivering to the railway company the same amount of 5 per cent consolidated bonds in accordance with the terms of the consolidated mortgage. Arrangements have been made by the company for the can-cellation of these bonds when received. The company requests that this additional 20,000 shares of stock be added to the regular list of the New York Stock Ex-change.

change.

The Committee recommended that the above-described \$2,-000,000 5 per cent non-cumulative preferred stock be admitted to the list

Adopted by Governing Committee March 9, 1892.

RIO GRANDE SOUTHERN RAILROAD CO.

APPLICATION TO THE NEW YORK STOCK EXCHANGE.

DENVER, COLORADO, March 1, 1892. We beg to present this application for listing the securities of the Rio Grande Southern Railroad Company on your Exchange.

Exchange. The title of the company is The Rio Grande Southern Rail-road Company, which was organized by virtue and under the authority of Chapter 19 of the General Laws of the State of Colorado, entitled "Corporations," on the 30th day of Octo-ber, 1889. The application is now therefore made for the listing of the following bonds of the Rio Grande Southern Railroad Company, all of which have been sold, issued and are outstanding : \$2,624,000 of its \$5,000,000 first mortgage 50-year gold bonds, numbered 1 to 2,624 inclusive, of \$1,000 each, dated July 1, 1890, maturing July 1, 1940, and bearing interest at the rate of 5 per cent per annum, payable in New York on the first days of July and January of each year, evidenced by coupons maturing January 1, 1891, and each succeeding July 1 and January 1, until the maturing of said bonds. These bonds are a first lien on 172⁻⁴ miles of railroad described as follows: Commencing at Dallas (new name Ridgway) in Ouray County, Colorado, extending thence southerly to the head of Leopard Creek, in San Miguel River, thence up the San Miguel River to Telluride, in said County of San Miguel, State of Colorado; also extending from Vance Junction, a point 7.3 miles east of Telluride, in said County of San Miguel, in a generally southern direction over Trout Lake Park along the Delores Piror to River, in San Miguel, State of San Miguel, in a generally southern direction over Trout Lake The title of the company is The Rio Grande Southern Rail-

San Miguel, is a control of Colorado ; also extending from Valce Junction, a point 7.3 miles east of Telluride, in said County of San Miguel, in a generally southern direction over Trout Lake Park, along the Dolores River to Rico, in Dolores County, Colorado, thence down said Dolores River, in a generally easterly direction, to Durango, in La Plata County, State of Colorado, a distance of 172.4 miles. The remainder of the bonds issued upon the 172.4 miles, amounting to \$1,686,000, Nos. 2,625 to 4,310 inclusive, of \$1,000 each, have been issued, but are held in the company's treasury, and application will be made for their listing at some future time. The balance of the \$5,000,000 bonds, amounting to \$690,000, Nos. 4,311 to 5,000 inclusive, of \$1,000 each, will be issued under the terms of the mortgage to the Central Trust Company of New York, trustees. The authorized share capital is \$5,000,000 of capital stock, of which amount \$4,310,000 has been issued, and the balance of \$690,000 will be issued upon new lines, as they may be con-structed, at the rate of \$25,000 per mile; and application is therefore made for the listing of the \$4,310,000 of capital stock above referred to. The foregoing constitutes the entire lien of every kind upon

stock above referred to. The foregoing constitutes the entire lien of every kind upon the railroad and property of the company. The issue of bonds is secured by a mortgage to the Central Trust Company, of New York, trustees, under date July 1, 1890, conveying to said trustees all the property and fran-chises of the company. The line from Ridgway to Telluride was completed on December 1, 1890; the line from Vance Junction to Rico was completed on September 30, 1891; the line from Rico to Du-rango was completed on December 20, 1891.

rango was completed on December 20, 1891.

THE CHRONICLE.

pound steel rails for the balance of 50 miles, and is equipped with rolling stock owned by the company as follows: Loco-motives, 36; passenger, mail, baggage and express cars, 24; freight cars, 1,011; flangers, 3; rotary snow plows, 2. The company files herewith specimens of certificates of capital stock, and a copy of its first mortgage gold bonds, with six copies of mortgage. The Central Trust Company of New York is Registrar of the capital stock. Certificates of the Trustees under the mortgage and the Registrar of Transfers are filed herewith. The company also files a map of the line from Ridgway to Telluride and Durango.

Maitland, Phelps & Co., 24 Exchange Place, New York, are the Transfer and Financial Agents of the company. New York office, 24 Exchange Place. General office, Denver,

Colorado. The directors are: Otto Mears, John L. McNeil, Fred. Walsen, G. W. Kramer, J. W. Gilluly, of Denver, Colorado; H. D. Barber, of Polo, Illinois; J. H. Ernest Waters, of Telluride, Colorado.

The officers are : President, Otto Mears ; Vice-President, I. D. Barber ; Treasurer, J. W. Gilluly ; Secretary, J. L. H. D. McNeil.

Respectfully, THE RIO GRANDE SOUTHERN RAILWAY COMPANY,

The committee recommended that the above-described \$2,624,000 first mortgage five per cent gold bonds of 1940, Nos. 1 to 2,624 inclusive, be admitted to the list. Adopted by the Governing Committee March 9, 1892.

Flint & Pere Marquette.—The operations of the Flint & Pere Marquette road in 1891 were :

Gross earnings	-10001
Net earnings Charges	\$861.212
Balance for stock Dividends, 4 per cent	\$279,441

\$25,761

bring suit to set aside the recent sale of the road. Pennsylvania Bailroad.—The annual meeting was held this week, and the following resolution passed: *Resolved:* That in view of the statement made in the annual report just presented, the stockholders hereby authorize the board of direc-tors of the company to issue from time to time 349,131 additional shares of the capital stock of this company, being the balance of the authorized capital stock, the said shares to be issued, apportioned and disposed of as the directors may deem for the best interests of the company. company.

This warrants an increase in stock of about \$17,500,000.

Standard Oil.—The Supreme Court of About 971,500,000. a decision against the Standard Oil Company of that State as to the legality of its being in the Trust. Owing to this and to the unpopularity of trusts, the following has been sent out. "A special meeting of the holders of the Standard Oil Trust certifi-cates will be held at the office of the trust on Monday, March 21, at 11 o'clock, A. M., for the purpose of voting upon a resolution to terminate the trust agreement, in accordance with the terms of said agreement, and take such further action as may be thereby rendered necessary."

This was signed by H. M. Flagler as Secretary. Appended to it was a form for proxies, made out in favor of John D. Rockefeller, H. M. Flagler and J. D. Archbold.

Rockefeller, H. M. Flagler and J. D. Archbold.
Tennessee Coal & Iron.—Negotiations are under way for the consolidation or absorption of the Sloss and the De Bardeleben companies of Alabama, but nothing, it is officially stated, has yet been agreed upon. On Friday Dow, Jones & Co. reported: "The three presidents, Baxter, Seddon and DeBardelaben respectively have agreed to the plan as individuals, and signed an agreement to submit it to their stockholders. The plan proposed is to issue \$20,000,000 in 5 per cent bonds and \$20,000,000 in stock, the same to absorb the entire stock and liabilities of all the companies. There will be left as surplus in the treasury \$2,800,000 in bonds and about \$1,000,000 in stock. The plan will be laid before the Sloss stockhol ders on the 30th inst., the Tennessee Coal & Iron Company in April and the De Bardelaben at a special meeting."

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, March 11, 1892.

447

The weather has been seasonable, but in the past fortyeight hours a storm of great violence has extended over the Northwest. The state of trade is more promising for the future than satisfactory in the present. The low price of cotton cripples to an extent the purchasing power of the South. The export of breadstuffs has been on a liberal scale, and the Government estimates of the reserves yet to come forward had a very depressing influence upon values. Cotton declined, but partially recovered, with some revival of speculation for the rise.

Lard on the spot has been in fair demand, and early in the week was firmer, but latterly prices, sympathizing with contracts for future delivery, have had a downward tendency, closing moderately active at 6.25@6.30c. for prime City and 6.65@6.70c. for prime Western, with refined for the Continent quoted at 6.90@7.05c. Lard for future delivery declined early in the week under free selling for the "long" account, and has since been weak and unsettled, declining to-day in sympathy with the lower grain markets.

DAILY	CLOSING	PRICES	OF	LARD	FUTURES.
-------	---------	--------	----	------	----------

	March delivery	Sat. 6.70 6.76	Mon. 6.77 6.82 6.94	Tues. 6·71 6·76 6·87	Wed. 6.69 6.74 6.86	Thur. 6.70 6.74 6.86	Fri. 6.65 6.69 6.81
--	----------------	----------------------	------------------------------	-------------------------------	------------------------------	-------------------------------	------------------------------

Pork has been fairly active at steady prices, but to-day was quite dull at \$9 75@\$10 50 for mess, \$10@\$11 for extra prime and \$13@\$15 25 for clear. Beef continues dull; extra mess, \$6 50@\$7; packet, \$8@\$8 50; family, \$9 50@\$11 50 per bbl.; extra India mess, \$15@\$19 per tierce. Beef hams are quiet at \$13 50@\$14 per bbl. Cut meats have been quite active ; bellies have sold quite freely at 61/4 c. for medium weights in bulk with a few boxes at $6\frac{1}{2}@6\frac{3}{4}c$; also pickled hams at 9c. and shoulders at 5c. Tallow is easier at $4\frac{5}{6}c$., closing quiet. Stearine has declined, selling at 73%c. in tcs. Oleomargarine is lower at 6c. and dull. Butter is lower at 22@ 29c. for new creamery. Cheese is quieter but steady at 11@121/2c. for State factory, full cream.

Coffee on the spot has been fairly active, but at easier prices. Rio is quoted at 14% c. for No. 7. To-day's sales included Rio No. 7 to arrive at 141/8@143%c. and Santos No. 8 to arrive a 131/2c. Mild grades have been quiet at a further decline; good Cucuta is quoted at 201/2c. The speculation in contracts. has been dull and values have weakened a trifle in sympathy with the spot market. The close was steady, with sellers as follows :

-partially 15 points lower for the week.

Raw sugars have been fairly active and steady, closing at 3c, for fair refining Muscovado and 33%c. for centrifugals, 96 deg. test. Refined sugars have been in fair demand at a further advance in values ; quoted at 5@51%c. for crushed and 4¼@4 7-16c. for granulated. The boiling grade of molasses has been quiet but steady, closing at 121% c. for 50-deg. test. At the tea sale on Wednesday the offerings were limited and prices were steady to firm.

Kentucky tobacco has met with a fair demand for export, and sales are 300 hhds. at firm prices. Seed leaf has continued to move freely, and sales for the week are 2,200 cases, as follows: 1,000 cases 1890 crop, Pennsylvania seed leaf, 12@ 15c.; 250 cases 1890 crop, Pennsylvania Havana, 131/2@40c.; 600 cases 1890 crop, Wisconsin Havana, 12@14c.; 200 cases 1890 crop, State Havana, 13½@35c., and 150 cases sundries, 6½@32½c.; also 700 bales Havana, 70c.@\$1 15, and 350 bales Sumatra, \$2 25@\$3 25.

Sumatra, \$2 20@\$5 25. Refined petroleum is quoted at 6.40c. in bbls., 7.50c. in cases and 3.90c. in bulk; naphtha 5.50c.; crude 5.70c. in bbls. and 3.15c. in bulk, crude certificates closing very dull at 59½c. Spirits turpentine has declined sharply under increased sup-plies and dull trade, closing at 36@3634c. Rosins are quiet and easier at \$1 87½@1 42½ for strained. Wool and hops are standier steadier.

steadier. In metals, a moderate business is reported in Straits tin, and stronger foreign advices have caused an advance. The sales for the week are about 200 tons. closing quoted at 19.70c. @19.75c. Ingot copper is also dearer. It is reported that the principal mining companies will agree in reducing the output. Lake is quoted firm at 10% c. Domestic lead is dull and easier at 4.20c. Pig iron is dull and lower at \$14.75@\$16 for No. 2, Southern and Northern,

COTTON.

FRIDAY, P. M., March 11, 1892. THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 92,896 bales, against 119,758 bales last week and 142,668 bales the previous week, making the total receipts since the 1st of Sept., 1891, 6,286,188 bales, against 6,009,512 bales for the same period of 1890-91, showing an increase since Sept. 1, 1891, of 276,626 bales.

Total 1890.... 37,387 7.755 45,564 8,879 99,588 355,198 The speculation in cotton for future delivery at this market was attended by a sharp decline in prices, following a slightly dearer opening on Saturday last. The out-turn of the crop, not only at the ports but at some of the principal interior towns, combined with large stocks, favorable planting weather, dull trade in cotton goods and weak foreign markets, caused a decline from 7.20c. for August contracts on Saturday morn-ing to 7c. on Wednesday. It was thought by those operating for a fall that when August contracts approximated 7c. "stop orders" for selling in considerable quantities would come upon the market, but such did not prove to be the case, and prices took a stronger turn toward the close of that day. On Thurs-day a weak opening was followed by fitful exhibitions of strength, due mainly to the smaller port receipts, but ascribed in part to buying for the "long" account by parties outside of the regular trade. In fact the room traders were inclined to promote an advance, desiring a higher plane from which to make fresh operations for the decline. Still, those in favor of higher prices moved with caution, feeling their ground carefully, and turning sellers frequently to test the strength of values. To-day there was a buoyant opening to the market on a continuation of the sellers frequently to test the strength of values. To-day there was a buoyant opening to the market on a continuation of the stronger influences of yesterday, but toward the close part of the advance was lost under sales to realize. Cotton on the spot was quoted 1-16c. lower on Saturday last and again on Wednesday, the market ruling quiet but steady to-day at 6 15-16c. for middling uplands. The total sales for forward delivery for the week are 562,500 bales. For immediate delivery the total sales foot up this week 1,048 bales, including --- for export, 1,048 for consumption, --- for speculation, and --- in transit. Of the above --- bales were to arrive. The following are the official quotations for each day of the past week-----March 5 to March 11.

* Louisville figures "net" in both years. ‡ Last year's figures revised.

The above totals show that the interior stocks have decreased during the week 19,674 bales, and are to-night 106,165 bales more than at the same period last year. The receipts at all the towns have been 2,452 bales more than the same week last year, and since Sept. 1 they are 184,280 bales more than for the same time in 1890-91. QUOTATIONS FOR MIDDLING COTTON AT OTHER MARKETS.— Below we give closing quotations of middling cotton at South-ern and other principal cotton markets for each day of the week:

Week ending	CLOSING QUOTATIONS FOR MIDDLING COTTON ON-							
March 11.	Satur.	Mon.	Tues.	Wednes.	Thurs.	Fri.		
Galveston New Orleans Mobile Bavannah Charleston Wilmington. ---	--------------------------------------	---	------------	--	--

BECEIPTS FROM THE PLANTATIONS.—The following table indicates the actual movement each week from the plantations. The figures do not include overland receipts nor Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

Week		Receipts at the Ports.			St'k at Interior Towns.			Rec'pts	from P	lant'ns
En	ding-	1890.	1891.	1892.	1890.	1891.	1892.	1890.	1891.	1892.
Feb.	5	140,253	160,848	166,548	307,274	441,363	565,276	132,118	151,790	155,571

66	19	83,218	121,251	145,681	259,721	419,837	548,755	58,895	115,972	135,621
	26	86,608	126,896	142,669	240,659	410,637	522,746	67,516	117,728	116,659
Mch.	. 4	63,551	112,579	119,758	214,007	896,427	499,067	86.902	98,339	96,079
**	11	54,735	87,541	93,396	188,972	373,228	479,393	29,700	64,342	73,722

The above statement shows: 1.—That the total receipts from the plantations since September 1, 1891, are 6,709,602 bales; in 1890-91 were 6,368,170 bales; in 1889-90 were 5,666,171 bales. 2.—That, although the receipts at the outports the past week were 93,396 bales, the actual movement from plantations was only 73,722 bales, the balance being taken from the stocks at the interior towns. Last year the receipts from the plantations for the week were 64,342 bales and for 1890 they were 90 700 bales 29,700 bales.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1 .-OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.-We give below a statement showing the overland movement for the week and since September 1. As the returns reach us by telegraph late Friday night it is impossible to enter so largely into detail as in our regular monthly report, but all the principal matters of interest are given. This weekly publication is of course supplementary to the more extended monthly statements. The results for the week ending Mch. 11 and since Sept. 1 in the last two years are as follows: monthly statements. The results for the week ending and since Sept. 1 in the last two years are as follows:

	189	1-92.	189	0-91.

· Decrease during week.

It will be seen by the above that there has come into sight during the week 112,225 bales, against 88,437 bales for the same week of 1891, and that the increase in amount in sight to-night as compared with last year is 485,976 bales.

WEATHER REPORTS BY TELEGRAPH.—Reports to us by tele-graph from the South this evening indicate that the weather has on the whole been favorable, and that preparations for the next crop are progressing well. *Galveston, Texas.*—We have had showers on three days of the week, to the extent of twenty-three hundredths of an inch. The thermometer has averaged 58, the highest being 69 and the lowest 46.

the lowest 46.

Palestine, Texas.—It has been showery on one day of the week, the precipitation reaching twenty-four hundredths of an inch. The thermometer has averaged 58, ranging from 33 to 78.

to 78. Huntsville, Texas.—We have had one shower the past week, to the extent of twenty-five hundredths of an inch. The ther-mometer has ranged from 38 to 78, averaging 58. Dallas, Texas.—There has been good rain on one day of the week, the rainfall being sixty-two hundredths of an inch. Average thermometer 56, highest 78 and lowest 33. San Antonio, Texas.—There have been showers on two days of the week, the precipitation being fifty-four hundredths of an inch. The thermometer has averaged 62, the highest being 84 and the lowest 40.

an inch. The thermometer has averaged or, the higher of the 84 and the lowest 40. Luling, Texas.—It has been showery on one day of the week, the precipitation reaching thirty-eight hundredths of an inch. The thermometer has averaged 62, ranging from 42 to 83.

42 to 53. Columbia, Texas.—One good shower the past week has aided plowing and planting. The rainfall reached thirty hundredths of an inch. The thermometer has ranged from 44 to 75, averaging 60. Cuero, Texas.—There have been good rains, just as needed, on three days of the week, the rainfall being seventy-four hundredths of an inch. Average thermometer 58, highest 70 and lowest 87

79 and lowest 37.

79 and lowest 37. Brenham, Texas.—We have had good rain on one day dur-ing the week, the precipitation reaching fifty-eight hun-dredths of an inch. The thermometer has averaged 62, the highest being 82 and the lowest 41. Belton, Texas.—The week's rainfall has been twenty hun-dredths of an inch, on one day. The thermometer has aver-aged 61, ranging from 40 to 81. Weatherford, Texas.—We have had heavy, but very benefi-cial, rain on one day during the week, the precipitation reach-ing one inch and thirty-five hundredths. The thermometer has ranged from 36 to 69, averaging 52. New Orleans, Louisiana.—It has rained on six days during the week, to the extent of one inch and thirty hundredths. Average thermometer 61. Shreveport, Louisiana.—There has been rain on one day of

Average thermometer of. Shreveport, Louisiana.—There has been rain on one day of the week, the precipitation reaching sixty hundredths of an inch. The thermometer has averaged 59, the highest being 76

inch. The thermometer has averaged 59, the highest being 76 and the lowest 41. Columbus, Mississippi.—It has rained on two days of the week, the rainfall being two inches and fifty hundredths. The thermometer has averaged 55, ranging from 40 to 76. Little Rock, Arkansas.—The weather is now cold and clear. Last night the temperature fell below the freezing point, but the air being dry only very delicate vegetables were hurt. We had light rain on one day. The rainfall reaching thirty-four hundredths of an inch. The thermometer has averaged 51, the highest being 70 and the lowest 31. Helena, Arkansas.—It has rained lightly on one day of the week, the precipitation reaching twenty-one hundredths of an inch. The thermometer has averaged 52, ranging from 27 to 74.

inch. The thermometer has averaged 0.3, ranging inclusion to 74. Memphis, Tennessee.—Corn planting is progressing. We had a shower on Saturday last, to the extent of two hundredths of an inch, but the weather is now clear and cold. The thermometer has ranged from 50.9 to 69.6, averaging 52.5. Nashville, Tennessee.—It has rained on four days of the past week, the rainfall reaching ninety-one hundredths of an inch. Average thermometer 48, highest 70, lowest 29. Mobile, Alabama.—There has been rain during the week to the extent of three inches and seventy-one hundredths, on three days. The thermometer has averaged 57, the highest being 68 and the lowest 36. Montgomery, Alabama.—Rain has fallen on three days of the week, the precipitation reaching one inch and two hundredths. The thermometer has averaged 52, ranging from 32 to 72.

-Rainfall for the week one inch and sixty-Selma, Alabama.-

Selma, Alabama.—Rainfall for the week one inch and sixty-five hundredths, on three days. The thermometer has ranged from 34 to 74, averaging 56. *Auburn, Alabama.*—Telegram not received. *Madison, Florida.*—Rain has fallen on two days of the week, the precipitation being seventy-two hundredths of an inch. The thermometer has averaged 61, the highest being 71 and the lowest 34 71 and the lowest 34.

71 and the lowest 34. Columbus, Georgia.—We have had rain on three days of the week, to the extent of one inch and fifteen hundredths. The thermometer has averaged 50, ranging from 30 to 59. Savannah, Georgia.—The weather has been mild and pleasant during the week, with light rain on four days, to the extent of twenty-one hundredths of an inch. The thermom-eter has ranged from 40 to 74, averaging 60. Augusta, Georgia.—We have had light rain on three days, and the remainder of the week has been clear and pleasant. The rainfall reached sixty-five hundredths of an inch. Average thermometer 57, highest 73, lowest 33. Charleston, South Carolina.—Rain has fallen on two days of the week, to the extent of thirteen hundredths of an inch. Average thermometer 60, highest 71 and lowest 43.

Stateburg, South Carolina.—There has been rain on three days of the week, the precipitation reaching eighty-five hun-dredths of an inch. The thermometer has averaged 55.7, the highest being 72 and the lowest 31. Wilson, North Carolina.—It has rained on two days of the week, to the extent of fifty-two hundredths of an inch. Aver-age thermometer 55, highest 76 and lowest 30. The following statement we have also received by telegraph showing the height of the rivers at the points named at 3 o'clock March 10, 1892, and March 13, 1891.

ALEXANDRIA RECEIPTS AND SHIPMENTS.—Through arrange-ments we have made with Messrs. Davies, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years.

Alexandria, Egypt, March 9.			189	0-91.	1889-90.	
Receipts (cantars*) This week			50,000 3,740,000		34,000 3,042,000	
	This week.	Since Sept. 1.	This week.	Since Sept. 1.	This week.	Since Sept. 1.
Exports (bales)— To Liverpool To Continent	6,000 10,000	275,000 152,000	3,000 11,000	248,000 157,000	5,000 3,000	229,000 123,000
Total Europe	16,000	427,000	14,000	405,000	8,000	352,000

* A cantar is 98 pounds.

MANCHESTER MARKET.—Our report received by cable to-night from Manchester states that the market is easy for both yarns and shirtings. Merchants are buying very sparingly. We give the prices for to-day below and leave those for previous weeks of this and last year for comparison:

		1892.		1891.				
	32s Cop. Twist.	8 ¹ 4 lbs. Shirtings.	Oolt'n Mid. Uplds	32s Cop. Twist.	8 ¹ 4 lbs. Shirtings.	Oott'n Mid. Uplds

JUTE BUTTS, BAGGING, &C .- There has been a moderate business in jute bagging during the past week at well main_ tained prices. Quotations are 51/2c. for 13/4 lbs., 6c. for 2 lbs. and 6½c. for standard grades. Manufacturers are well supplied with jute butts, and trading is consequently light. Quoted, 2c. for paper grades and 23/@3c. for bagging quality.

451

SHIPPING NEWS.—The exports of cotton from the United States the past week, as per *latest mail* returns, have reached 120,588 bales. So far as the Southern ports are concerned, these are the same exports reported by telegraph and published in the CHRONICLE last Friday. With regard to New York we include the manifests of all vessels cleared up to Thursday.

BREADSTUFFS. FRIDAY, March 11, 1892.

The flour market has been without decided change in prices.

The flour market has been without decided change in prices, but trade, except for brief spurts of activity, has been quite dull. Shippers held aloof, and the local trade did not seem to be in need of large supplies. On Wednesday, with an up-ward turn to wheat, buyers accepted offers of wheat flour which they had refused the day before, and considerable lines were moved, and a fair business was done on Thurday. To-day the whole market was weak and some figures for wheat flour were slightly reduced. The wheat market was quite depressed early in the week, owing mainly to selling on accounts from the West, where receipts were large and the weather favorable for the next crop, counteracting the effect of a good export demand. But on Wednesday there was an upward turn to values, owing to the occurrence of a "blizzard" at the West, with adverse crop accounts from France. The export buying for the week has approximated half a million bushels, including on Wednesday afternoon large lines of frosted Manitoba and other low grades at 78@92c., with some No. 2 red winter at about \$1 05, afloat. To-day there was a sharp decline, owing to the Government reporting 171,000,000 bushels in the hands of farmers, against 112,000,000 bushels last year. At some decline there was a good business for export. decline there was a good business for export.

Indian corn has not maintained values. The large re-ceipts at the West and the check to export business which arose from a slight advance in prices, together with some increase in the visible supply, defeated all the efforts of the bulls to promote a speculation for the rise. To-day the market was depressed by the Govern-ment report, estimating 860,000,000 bushels in the hands of farmers against 542,000,000 bushels last year, but at some decline there was a large business for export, with an active local trade. local trade.

Oats have been quiet, fluctuating within narrow limits. Yesterday values for contracts were sustained by higher prices in the spot market, where the offerings were very small. To-day the market was weak in sympathy with the decline in wheth and and wheat and corn.

THE DRY GOODS TRADE.

NEW YORK, Friday P. M., March 11, 1892. NEW YORK, Friday P. M., March 11, 1892. Business at first hand is still being conducted without any show of activity, but judging from results reported by agents in various directions, the current movement, as made up of day-to-day sales and deliveries, is of considerable extent. Prices are on a low basis judged by everything but the price of raw co.ton, and this, unless experience is at fault, means increased consumption in the long run. Buyers have not shown the slightest anxiety, however, to make any unusual provision for increased future needs, and according to their own accounts are doing very little more than supplying cur-rent requirements. It is a favorable feature that these re-quirements are such as to call for so many goods as are now being delivered by agents and from the mills. Socks are kept in fair shape and the week has passed withous any changes in prices being reported. The jobbing trade has again been on a very considerable scale, although hardly so good as during the last week in February. Here and there are indications of the season approaching its close in the form of cut prices, but these are, so far, of limited extent, and con-fined to isolated instances in woven wash fabrics and silk fancies. A feature of the week was the sale at auction of the Pheenix M'g. Co's stock of silks on Wednesday, and a large auction sale of ribbons yesterday. Both were considered successful by the s-llers, prices closely approaching current market values. Collections are still reported in good shape. DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending March 8 were 1,412 NEW YORK, Friday P. M., March 11, 1892.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending March 8 were 1,412 packages, valued at \$80,988, their destination being to the points specified in the table below:

From New England mill points direct.

The value of the New York exports since January 1 have been \$2,150,683 in 1892 against \$2,210,032 in 1891. Brown sheetings and drils were in fair home demand without change in price, but export business was quiet.

Bleached cottons showed some irregularity in low qualities, but popular shirting makes are well sold ahead and steady. Colored cottons continue in better request than supply and tend against buyers. Southern plaids are reported in better shape han for some considerable time pass, the "combina-tion" mills all being well under orders. Business in printed fabrics is quiet for regular fancies, but higher priced special-ties still find a ready market. Ginghams are quiet through-out at first hands and prices have occasionally been cut some-what by jobbers. Print cloths are still unchanged at 3 1 16c. per yard for 64 squares, stocks being kept closely sold up at Fall River and Providence. The dividends reported this quarter by the Fall River mills show the print cloth industry in an improving condition, the aggregate amounts paid being in excess of the corresponding quarter in 1891. The quotations for mill stocks also show quite an apprecia-ble advance on the same comparison. 1892, 1891, 1890. Bleached cottons showed some irregularity in low qualities,

Total stock (pieces) 10,000 manufacturers.

manufacturers. FOREIGN DEX GOODS.—Importers have again transacted a very fair business, the attendance of buyers being on a con-siderable scale. In dress goods, specialties, while still in com-paratively largest request, have not so completely monopo-lized attention as previously, considerable quantities of Henri-ettas, cashmeres and other staple lines being taken for imme-diate consumption. Light-weight worsteds in men's-wear styles have also done fairly well. Silks continue in good re-quest in printed styles, with more favor shown towards gros-grains and heavy cords. Prices are steady, although here and there concessions are made to clear out some fancies which have moved slowly. have moved slowly.

Importations of Dry Goods.

The importations of dry goods at this port for the week ending March 10, 1892, and since Jan. 1, and the same facts for the corresponding periods of last year are as follows:

Commercial and Financial CHRONICLE conains 40 to 64 pages published every week.

State and City Supplement of CHRONICLE contains 184 pages published several times each year.

Investors' supplement of CHRONICLE (a Cyclopædia of Railroad Securities) contains 160 pages published every other month.

Subscription to CHRONICLE for one year \$10.00, which includes every issue of both SUPPLEMENTS.

The purpose of this State and City Department

is to furnish our subscribers with a weekly addition to and continuation of the STATE AND CITY SUPPLEMENT. In other words, with the new facts we shall give, the amplifications and corrections we shall publish, and the municipal laws we shall analyze in the "State and City Department," we expect to bring down weekly the information contained in the STATE AND CITY SUPPLEMENT to as near the current date as possible. Hence if every Subscriber will note in his SUPPLE-MENT on the page designated at the head of each item a reference to the page where the item in the CHRONICLE can be found, he will at all times possess a complete and fresh eyclopædia of information respecting Municipal Debts.

STATE AND COUNTY FINANCES IN NEVADA.

We have received this week the annual reports for the year ending December 31 1891 of the State Comptroller and State Treasurer of Nevada. The following statements of the debt, assets and assessed valuation of the State and its counties have been revised by means of these reports, and they show the financial standing on January 1 1892. No report was made by the officers of Lincoln County this year, and the figures given below are the same as those which were printed in OUR STATE AND CITY SUPPLEMENT of October 31 1891.

The State debt this year, exclusive of the irredeemable bond for \$380.000, is \$222,913, an increase of \$23,025 on the amount of outstanding liabilities on January 1 1891. The total assessment for 1891 is \$30,570,437, against \$25.350,093 for 1890, showing an increase during the year of \$5,320,344. This increase is, however, accounted for by the fact that, contrary to their previous custom, the Board of Assessors took last year the actual cash value of property as the basis of assessment. The real value of property in the State has probably changed but little.

The total debt of all the counties in Nevada on January 1 1892 was \$856,702, against \$948,325 on the first day of the preceding year. The grand total of State and county indebtedness on January 1 1892 was \$1,079,615.

We give first the details of the State's debt and valuation, and following that are financial reports for each of the counties. It will be noticed that five counties, namely, Churchill, Douglas, Elke, Eureka and Storey have reported no debt of any description.

STATE OF NEVADA .- R. K. COLCORD, Governor. The State capital is Carson City.

Bond Proposals and Negotiations.-We have re ceived through the week the following notices of bonds recently negotiated and bonds offered and to be offered for sale.

Abilene, Texas.—This city has sold \$12,000 of bonds to Messrs. G. M. Huston & Co., St. Louis, Mo.

Arizona Territory—(STATE AND CITY SUPPLEMENT, page 144).—Five per cent bonds of this Territory, amounting to \$1,500,000, have been sold to E. J. Horton, of New York City.

Brunswick, Ga.—(STATE AND CITY SUPPLEMENT, page 170.) Sewer bonds of this city to the amount of \$75,000 have recently been sold in Baltimore.

Carthage, Ohio.-It has been decided by the citizens of this village to issue bonds for electric lighting and water works extension.

Concord, N. H.-(STATE AND CITY SUPPLEMNNT, page 14) Concord, N. H.—(STATE AND CITY SUPPLEMENT, page 14).— Proposals for 4 per cent water works bonds of the city of Con-cord, payable in 1923, were opened on March 8 by William F. Thayer, Treasurer. The bonds were awarded to R. L. Day & Co. of Boston at a premium of \$4.699 per \$100. There were a large number of bids, chiefly from Boston parties, and the sale was considered highly creditable to the financial standing of the city. of the city.

Cook County, III.—(STATE AND CITY SUPPLEMENT, page 99.)—Cook County 4 per cent refunding bonds to the amount of \$1.850,000 are offered for sale. For particulars see advertisement elsewhere in this Department.

Elmira, N. Y.—(STATE AND CITY SUPPLEMENT. page 51).— Bids for the redemption bonds amounting to \$235,000 were not opened. The legality of the issue is in question and the sale of the bonds has been indefinitely postponed.

Estill County, Ky.—This county has issued \$50,000 of bonds in aid of the R. N. I. & B. Railroad Company.

Farmersville, Tex.—Six per cent twenty-year school bonds to the amount of \$15,000 have been sold at par to G. M. Huston & Co. of St. Louis, Mo.

Indiana.—(STATE AND CITY SUPPLEMENT, page 92.) The State Treasurer of Indiana will receive bids until March 15 1892 for 3½ per cent 5-10 year bonds to the amount of \$340,000.

1892 for 3½ per cent 5.10 year bonds to the amount of \$340,000.
New Bedford, Mass.—(STATE AND CITY SUPPLEMENT, page 29.)—This city will receive bids until March 23 1893 for \$50,000 of 4 per cent improvement bonds payable April 1 1902 and also for 4 per cent sewer bonds payable April 1 1912 to the amount of \$100,000. Both loans will be secured by special sinking funds. The permanent city deot, exclusive of water debt and sinking funds, is at present \$630,014, this amount being \$286,100 short of the debt limit. New Bedford's tax valuation in 1891 was \$36,644.571.
New York, N. Y.—(STATE AND CITY SUPPLEMENT, page 54).—The \$500,000 of 3 per cent dock bonds of New York City, for which proposals were asked until March 10, were awarded to the Commissioners of the Sinking Fund at par.
Norfolk, Va.—(STATE AND CITY SUPPLEMENT, page 158).—

Norfolk, Va.—(STATE AND CITY SUPPLEMENT, page 158).— Bids will be received until March 15 1892 for \$96,500 of 5 per cent city of Norfolk bonds, maturing March 1 1923 and also for \$20,000 of 5 per cent bonds maturing Feb. 1 1922.

Oak Cliff, Tex.—School bonds to the amount of \$30,000, bearing interest at 6 per cent, have been sold to G. M. Huston & Co., St. Louis, Mo.

& Co., St. Louis, Mo. Queens County, N. Y.—(STATE AND CITY SUPPLEMENT, page 57) Bids will be received by the County Treasurer. Jo-eph Dykes at the Court House, Long Island City, until March 23, 1892, for the purchase of \$45,000 of 4 per cent. Flushing Highway Improvement bonds. The bonds will run for ten years but the right is reserved to pay off \$9,000 per year after five years The interest and principal of the bonds are payable in gold and they are a charge to the amount of two-fifths on the town of Flushing. Beging Wis—(STATE AND CITY SUPPLEMENT page 109).

ntths on the town of Flushing. Racine, Wis.—(STATE AND CITY SUPPLEMENT, page 109). The \$29,500 of 7 per cent Racine adjustment bonds falling due in 1892 will be paid on April 1 at the office of the city treas-urer in Racine or at the Importers' & Traders' National Back in New York. City Treasurer F. H. Schulte has also issued a call for the \$50,000 of 6 per cent adjustment bonds, payable in 1897, and subject to call at any time after 1887. These latter bonds will be paid at either of the above-men-tioned places on and after March 15 1892. Interest will cease April 1st. April 1st.

Redwood Falls, Minn.—New 5 per cent water bonds to the amount of \$25,000 have been sold to E. H. Rollins & Co. of Concord, N. H., at par and a premium of \$261.

Romeo, Mich.---T amount of \$26,000. -This village has sold water bonds to the

San Antonio, Tex.-(STATE AND CITY SUPPLEMENT, page 181)-An ordinance has been passed by the city council of San Antonio authorizing an issue of 6 per cent 10 year redemption bonds to the amount of \$50,000.

Scranton, Pa.-(STATE AND CITY SUPPLEMENT, page 76.) On March 10 the city of Scranton sold 4 per cent municipal improvement bonds to the amount of \$90,000. The bon is fall due as follows: On Dec. 1 1901, \$22,000; on Dec. 1 1906, \$23,-000; on Dec. 1 1911, \$22,000. and on Dec. 1 1916, \$23 000.

Springfield, Vt.-Springfield has issued railroad aid bonds to the amount of \$40,000.

Springfield, Ohiv.-(STATE AND CITY SUPPLEMENT, 90).-Six per cent ten-year boads to the amount of \$ have been sold to Messrs. Spitzer & Co., Toledo, Ohio. of \$10,500

St. Paul, Minn.-(STATE AND CITY SUPPLEMENT, page 114.) -This city has sold \$30,000 of 4 per cent park bonds to Lamprecht Bros. & Co. of Cleveland, Ohio.

Tailadega, Ala.—Six per cent bonds to the amount of \$20.000, payable in thirty years, have been sold through a New York firm.

Topeka, Kan.--(STATE AND CITY SUPPLEMENT, page 135).--A special election will be held in this city in April to vote on an issue of bridge bonds to the amount of \$30,000.

Trinidad, Col.—School district bonds will soon be issued to the amount of \$30,000.

Waco, Tex.—(STATE AND CITY SUPPLEMENT, page 182.)— The Northwestern Mutual Life Insurance Co. of Milwaukee, Wis., has offered to take the Waco street improvement bonds, amounting to \$100,000, and \$30,000 of sewer bonds, at 95, the price which was originally bid by the company. This would indicate that the question as to the legality of the bonds has been settled been settled.

Woodlawn, Ala.—Public improvement bonds to the amount of \$20,000 bearing 8 per cent interest have been sold to Steiner Bros. of Birmingham, Ala.

STATE AND CITY DEBT CHANGES.

We subjoin reports as to municipal debts received since the publication last week of our STATE AND CITY DEPART-MENT. Some of these reports are wholly new and others cover tems of information additional to those given in the SUPPLE-MENT. and of interest to investors.

Maine.-(STATE AND CITY SUPPLEMENT, page 9.) The following report shows the details of Maine's debt and valuation at the present time, recent information having been furnished us by George L. Beal, State Treasurer.

PAR VALUE OF BONDS.-The bonds issued in 1889 are for \$1,000 or multiples thereof.

INTEREST-WHERE PAYABLE.-State Treasury, Augusta, Me. TOTAL DEBT, SINKING FUND, &C.-The subjoined statement shows Maine's total funded debt on the first of January of each of the last three years.

 1892.
 1891.
 1890.

 Bonded debt on January 1......\$2,552,300
 \$2,602,300
 \$2,652,300

 Temporary loan.......
 300,000
 300,000

 In January 1889 the debt amounted to \$3,967,900.
 At the same
 date the accumulations of the sinking funds valued at par were \$972, 530, all of which was applied to the redemption of bonds. There i now no sinking fund, but as the yearly instalments of the debt mature they are to be paid out of income from taxation.

ASSESSED VALUATION .- The State's assessed valuation is determined at intervals of ten years. The last rating was in 1891, when the valuation of real estate was \$233,895,031; of personal property, \$75,201,010; total valuation, \$309,096,041. The total valuation in 1881 was \$235,600,000. The State tax rate for 1891 and 1892 is \$2.75 per \$1,000; for 1889 and 1890 it was \$2.25; for 1886, 1887, 1888, and 1889 it was \$2.75; for 1885 and 1886 it was \$3.75, and for 1883 and 1884 it was \$4.00.
