

MERCHANTS' HUNT'S MAGAZINE,

Newsp"per, Weekly

REPRESENTING THE INDUSTRIAL AND COMMERCIAL INTERESTS OF THE UNITED STATES. Entered according to Act of Congress, in the year 1893, by WM. B. DANA & Co., in the office of the Librarian of Congress, W shington, D. C.

VOL. 56.

SATURDAY, I

The Chronicle.

Terms of Subscription-Payable in Advance:

(The above terms for one month and upward are for standing cards.)

London Agents: Messrs. EDWARDS & SMITH, 1 Drapers' Gardens, E. C., will take sub-scriptions and advertisements, and supply single copies of the paper at 1s. each.

JOHN G. FLOYD. WILLIAM B. DANA. WILLIAM B. DANA & Co., Publishers, 102 William Street, NEW YORK. POST OFFICE BOX 958. JOHN G. FLOYD.

CLEARING HOUSE RETURNS.

The following table, made up by telegraph, etc., Indicates that the total bank clearings of all the clearing houses of the United States for the week ending to-day, May 20, have been \$1,171,162,718, against \$1,269,758,813 last week and \$1,203,466,546 the corresponding week of last year.

CLEARINGS	Week Ending May 20.				
Returns by Telegraph.	1893.	1892	Per Cent		
New York	\$556,872,538	\$600,470,929	-7.2		
Boston	83,101,884	81,467,607	+2.0		
Philadelphia	63,738,055	60,699,013	+5.0		
Baltimore	12,407,039	16,630,741	-9.0		
Ohicago	81,548,361	82,119,000	+3.0		
St. Louis	20,465,740	17.567,120	+16.5		
New Orleans	7,930,991	6,510,763	+21.8		
Seven cities. 5 days	\$829,064,608	\$862,465,173	-3.8		
Other cities, 5 davs	150,473,297	140,108,261	+7:4		
Total all cities, 5 days	\$979,537,905	\$1,002.573,434	-2.3		
All cities, 1 day	191,624,813	200,893,112	-4.6		
Total all cities for week	\$1,171,162,718	\$1 203 466 546	-2.7		

Total all cities for week \$1,171,162,718 \$1,203456,546 -2.7 The full details of clearings for the week covered by the above statement will be given next Saturday. We cannot, of course, furnish them to-day, bank clearing being made up by the various clearing houses at noon on Saturday, and hence in the above the last twenty-four hours of the week have to be in all cases estimated, as we go to press Friday night. Our usual detailed figures for the previous week, covering the returns for the period ending with Saturday noon, May 13, as well as the comparative totals in 1892, are given below. The aggregate for the week is two hundred and trirteen mill-ions of dollars 1 ss than that for the preceding week, New York showing a falling off of one hundred and forty-seven millions. Speculation on the New York Stock Exchange has been less active than during the preceding week, but the vol-ume of transactions shows a large gain over the week of last year. Contrasted with the corresponding period of 1892 there year. Contrasted with the corresponding period of 1892 there is an excess of 3 2 per cent in the whole country, and a gain of 6.3 per cent outside of New York, the increase at this city being 1.2 per cent. The most important percentages of in-crease in the current statement are at Houston 71.7 per cent, Fremont 69 and Milwaukee 66 per cent, and the ratio of loss is heaviest at Seattle and Nashville heaviest at Seattle and Nashville.

The London market was more or less excited during the early part of the week, in consequence of the Australian situation, but after Wednesday there was a more settled feeling and a decidedly better tone. The Bank of England, according to our special cable from London, lost £543,298 bullion during the week and held at the close of the week £23,462,902. Our correspondent also advises us that the loss was due to the export of £520,000 gold to Australia, the shipment of £288,000 to the interior of Great Britain, and receipts of £265,000-the latter representing £204,000 bought in the open market and £61,000 received from miscellaneous sources. The Bank of France reports an increase of £297,000 gold, and since the last return the Bank of Germany has gained about £228,000 of this metal. The Bank of England, as already stated, advanced its minimum rate of discount on Thursday to 4 per cent. The cable reports discounts of 60 to 90day bank bills in London $4\frac{1}{2}$ per cent. The open market rate at Paris is $2\frac{1}{2}$; at Berlin it is 3 and at Frankfort 31 per cent.

Foreign exchange has been dull and firm during the week with the inquiry chiefly for sight stering and cable transfers, and on Tuesday the latter were quoted at \$4 901@\$4 91, which are extraordinarily high figures. Compared with the close of the market on Friday of last week there was no change at the opening on Monday, all the drawers quoting \$4 86 for 60 day and \$4 90 for sight. On Wednesday Baring, Magoun & Co. ad vanced the sight rate to \$4 901, and on Thursday Brown Bros. and the Bank of British North America reduced the long rate to \$4 851. Yesterday Baring, Magoun & Co. reduced long to \$4 851 and short to \$4 90. The market closed dull and steady at \$4 851 to \$4 86 for long and \$4 90 for short. Rates for actual business were \$4 84% to \$4 85 for 60-day, \$4 89% to \$4 89% for sight, \$4 901 to 4 902 for cable transfers and \$4 84 to \$4 841 for both prime and documentary commercial bills. The Bank of British North America shipped \$500,000 gold to London on Saturday, taking metal which was withdrawn from the Sub-Treasury during the flurry late in April, and which had since been held in the bank's vaults. On Wednesday this bank sent \$500,000 and Lazard Freres \$1,000,000. On Thursday the last-named house sent \$1,000,000, and it was then announced that they would also ship \$1,500,000 to-day and that Heidelbach, Ickelheimer & Co. would send \$500,000; in addition Kidder, Peabody & Co. will ship \$500,000 from Boston. The statement of United States imports and exports above referred to is as follows.

FOREIGN TRADE MOVEMENT OF THE UNITED STATES In the following table three ciphers (000) are in all cases omitted.

It will be seen from this that for the four months from January 1 imports have exceeded exports in the amount of \$86,233,918.

Mr. Isaac L. Rice, the accountant who has been making an examination into the Reading's accounts, particularly in relation to the purchase of Boston & Maine and New York & New England stock, has furnished his report for publication this week. It does not afford very pleasant reading for the security holders, though the events of the last few months had made the character and nature of those transactions pretty well known. Mr. McLeod has issued a reply to Mr. Rice, but the essential facts do not appear to be in dispute. It is admitted that a large amount of the stock of the Boston & Maine and also a large amount of the stock of the New York & New England was purchased, that the shares were bought on margin, and that securities of the Reading were used as collateral and margin against the purchases. It is also admitted that the Reading management finally assumed responsibility for the transactions. The question in dispute is whether Mr. McLeod originally acted with or without authority from the board of directors. As far as Mr. McLeod himself is concerned this of course is an important point of difference; but whether he had authority or did not have authority, in either case the character of the transactions remains the same. They were speculative in nature and outside the Reading's province. The whole matter forms a melancholy chapter in the Reading's affairs-a kind of proceeding which, to the credit of our managers be it said, is fortunately very rare in American railroad history.

As already stated, the Northern Pacific board on Thursday adopted a plan for the extinguishment of the company's floating debt. A dispatch from Cleveland yesterday announced that the Toledo St. Louis & Kansas City had been placed in the hands of a receiver. We referred last week to the settlement of the Ohio coal miners' strike. Of course the returns of earnings now coming in relate to the period when the strike was in progress. The strike may be said to have lasted two weeks, or from the 1st to the 14th of May. This will account for the fact that roads like the Toledo & Ohio Central, which were affected by the strike, report heavy losses in earnings for the first and second weeks of the month. The trouble, however, is now a matter of the pist, and the mines are again in full operation at the old scale-that is, 70 cents a ton.

Perhaps the most noteworthy feature in the statement of anthracite coal production for April, issued this week, is that while the aggregate output for the month increased 345,501 tons as compared with the same month last year, the production of the Wyoming region actually shows a small falling off (2,819 tons), the gain having been entirely in the Schuylkill and Lehigh regions-175,153 tons in the former and 173,-167 tons in the latter. This is quite different from the results in most of the months preceding, when the Wyoming region steadily gained at the expense of the

809

[VOL. LVL

other two regions. We also observe from the statement that tide-water stocks during the month increased nearly two hundred thousand tons, having risen from 781,187 tons on March 31, 1893, to 970,988 tons on April 30, 1893. Last year in the corresponding month stocks were reduced. Still, as considerably more coal was mined this year, when we come to allow for the changes in stocks it is found that the amount of coal disposed of by the companies does not differ much in the two years. Here is a statement bringing out that fact.

		April.		January 1 to April 30.			
Anthracite Coal.	1893.	1892.	1891.	1893.	1892.	1891.	
Stock beginning	Tons.	Tons.	Tons.	Tons.	Tons.	Tons.	
of period	781,187	821,023	784,587	657,868	754,432	535,652	
Production	3,284,659	2,939,15?	2,813,693	13,200,139	12,033,292	10,845,316	
Total supply	4,065,846	3,760,180	3,598,280	13,858,007	12,787,724	11,380,968	
St'k end of period	970,988	714,842	711,571	970,988	714,842	711,571	
Disposed of	3,094,858	3,045,338	2,886,709	12,887,019	12,072,882	10,669,397	

Thus 3,094,858 tons were disposed of in April, 1893, against 3,045,338 tons in April, 1892, and 2,886,709 tons in April, 1891. Of course, besides the changes in tide-water stocks there must have been changes in the stocks at interior storage points, but as to these we have no information. For the year to date the amount disposed of is 12,887,019 tons in 1893, against 12,072,882 tons in 1892 and 10,669,397 tons in 1891.

The following gives the week's movements of money to and from the interior by the New York banks.

CANADIAN PACIFIC'S EXCEPTIONAL CHARACTERISTICS.

The Canadian Pacific has had a very phenomenal history, and striking success has attended its operations and management from the very beginning. In nothing, however, has its career been more unique than in the wonderful record of growth in traffic and earnings which it has established during the last few years, as also the great financial strength attained by the property and the noteworthy way in which its finances have been handled, and to which its strong financial condition is in great measure to be ascribed. The annual report of the company, just issued, brings out these features in a very strong light.

The company makes regular weekly and monthly reports of earnings, and hence of course it has been well known that earnings in the late calendar year (the period covered by the report) increased decidedly as compared with those of the year preceding. In gross the increase was \$1,168,256; in net, \$410,688. But

this covers merely the changes for a single year, and gives no idea of the wonderful expansion in earnings which has occurred during, say, the last five years; for the gain in 1892 is simply additional to steady and continuous gains in all the years preceding. This is clearly shown in the following brief recapitulation of the gross and net earnings for 1887 and the five years succeeding; it is proper to state that 1887 was the first year when the road was operated for through business the entire twelve months.

	Gross earnings.	Net earnings.
1887		\$3,504,118
1888		3,870,774
1889		6,127,836
1890 1891	. 16,552,528	6,299,700 8,009,659
1892.	21 409 351	8.420.347
		0,120,011

Thus in the short period of five years gross earnings have risen from \$11,606,412 to \$21,409,351, and net earnings from \$3,504,118 to \$8,420,347, the upward movement in both cases having been uninterrupted through the whole five years. When it is remembered that much of the mileage of the system runs through new territory-territory which until the Canadian Pacific was built had very few settlements and but a small population-this record of growth will certainly be considered remarkable. In the construction of the road the company, as is known, received very important aid from Government sources, but without traffic and income to sustain the lines the enterprise must nevertheless have proved a failure. The fact that it has been possible to increase the earnings so decidedly is evidence at once of the good judgment and far-sightedness of the promoters of the undertaking and of the progressive and energetic way in which the property has been managed. This latter has been a marked characteristic in the conduct of the enterprise; besides developing the strictly local traffic of the road, or rather the traffic of the territory contiguous to the lines of the system, the management have reached out in various other directions to secure business. They have provided new steamship lines across the ocean, have made connections at several points with the United. States system of roads, and have in many other ways displayed peculiar energy in extending the system's business. Some of these steps have not been to the liking of our own roads, but they have evidently been of advantage to the Canadian Pacific-at least if a steadily-rising income, gross and net, is the standard by which to judge.

It is scarcely necessary to say that the great increase in earnings during the five years has not been made without a considerable increase in mileage. But that in itself in no way qualifies the importance of the growth in earnings. It has frequently happened that new mileage has failed to justify its existence for a long time after its construction-adding perhaps somewhat to gross receipts but proving a steady drain on net earnings, and thus drawing down, instead of adding to, the net income of the parent company. In the Canadian Pacific case, the expansion in net income, we see, has been no less marked than the expansion in gross income. And while speaking of the mil-age of the system, it is proper to state that the figures of earnings. given do not include the operations of the Duluth South Shore & Atlantic or the Minneapolis St. Paul & Sault St. Marie, both controlled by the Canadian Pacific, but operated separately; nor are the receipts and expenses of the Southeastern, the Qu'Appelle Long Lake & Saskatchewan and the Calgary & Edmonton roads. included. The total mileage on which the earnings

the roads enumerated would add 2,351 miles to the total.

Quite a noteworthy feature in the operations of the Canadian Pacific are the low average rates received, and that of course gives additional significance to the heavy increase in earnings. The average per ton per mile on the freight tonnage of the system in 1892 was only 84-hundredths of a cent. On the Union Pacific system the average for the same twelve months was 1.245 cents. No doubt many will think that the low average on the Canadian Pacific is to be ascribed to the quantity of trans-Continental and trans-Oceanic freight moved-to the through freight from the Pacific Coast and from China and Japan. As a matter of fact, much even of the system's strictly local business (by which we mean business originating on the company's lines) has to be hauled long distances to market, and hence must be carried at low rates. In a word, the average is less than on our own Pacific roads, chiefly for the reason that the Canadian Pacific has a much smaller proportionate amount of short distance freight. The average on passengers, too, is very low, and here also the absence of any considerable short distance travel is an important factor in the result. The average per passenger per mile in 1892 was only 1.69 cents, in 1891 it was 1.70 cents, and in 1890 1.74 cents. The Union Pacific system realized an average per passenger per mile in 1892 of 2.398 cents.

As is known, the Canadian Pacific has for many years paid a portion of the dividends on its capital stock out of a Guarantee Fund lodged with the Dominion Government. In fact, so long as the dividends were only 3 per cent they were paid entirely out of that fund, such fund having been expressly provided to ensure the payment of that amount of dividends, so as to bridge the period in the earlier years of the company's existence, when, except for a guaranty of that kind, the payment of dividends might be uncertain. Earnings having proved very satisfactory, the 3 per cent dividend out of the Guarantee Fund has for several years been supplemented by an additional dividend of 2 per cent out of income, so that the stock has for some time been on a 5 per cent basis. With the payment, however, of the dividend in August next the dividend fund will be exhausted. The question, therefore, comes up can the dividends be continued at the present rate; and if they can, will they be so continued?

The management have already answered this query, and in a very emphatic way. But before referring to the action taken it will be interesting to see what the dividend capacity of the property is, measured by the late year's income. Net earnings, as has already been shown, were \$8,420,347. Adding interest earned on deposits and loans, total net income was \$8,623,950. Fixed charges for the year were \$5,102,018, which deducted left a surplus on the operations of the twelve months of \$3,521,932. The supplementary dividends of two per cent called for \$1,300,000, and hence there was left a surplus balance of \$2,221,932, equal to 3.42 per cent on the \$65,000,000 of stock. In other words, while only two per cent was paid out of income (the other three per cent coming out of the Guaranty Fund), earnings were actually equal to 5.42 per cent on the stock. Hence even without any Guaranty Fund, the full 5 per cent dividends could have been paid from earnings. This result was reached on a ratio of operating expenses to earnings of 60.67 per cent. The management have hopes that this ratio can in the near future be reduced. Speaking of certain improvements ' the \$4,000,000 cash for the Dividend Guaranty Fund is

which are contemplated, they say : "The completion of these works will it is believed place your railway well in advance of any of the other trans Continental lines in point of economical working and general efficiency, and will go far towards reducing the cost of working to the point which your directors fully believe will soon be reached, viz. 55 per cent of the gross earnings." If this expectation should be realized, the balance of earnings above the 5 per cent dividends on the basis of last year's operations would of course be further increased.

But to remove all doubt regarding the dividends the company has taken a step which is as remarkable as it is rare. It is nothing less than the placing of \$4,000,-000 in cash on deposit with the company's bankers "to meet any possible deficiency at any time in maintaining dividends at 5 per cent." The keeping of a large cash reserve of this character might not perhaps be deemed remarkable in the case of some other classes of corporations, but in the case of railroad corporations it has few if any parallels, and must be considered as marking a new departure in railroad management. In effect it is an extension of the Guaranty Fund for another term of years. The \$4,000,000 cash would suffice to pay 3 per cent dividends (the amount now paid yearly out of the fund deposited with the Dominion Government) for over two years. But it may not be necessary to draw upon the cash at all during the two years. In that event the deposit would remain intact, available as a protection against any deficiency in subsequent years. If earnings should prove satisfactory there is no reason, as we understand the arrangement, why the new fund may not be retained for the purpose mentioned for a great many years, always within reach in times of need, to be drawn upon in large or small amount as the emergency may require. The experiment is a novel one, and its operation will be watched with much interest.

Of course except for the company's strong financial condition such action would not have been possible. The \$4,000,000 cash mentioned comes out of accumulated surplus income. These surplus earnings on December 31, 1892, amounted to nearly seven million dollars-\$6,923,531-and the management calls attention to the fact that the whole of this surplus exists in cash or in temporary loans on security and bearing interest. In this particular, toc, therefore, the company's record is very exceptional. Here is the statement of the current assets and current liabilities at the close of the year.

Station balances, accounts receivable, miscellaneous se curities and advances Temporary loans on security	\$5,908,887 3,334,425
Total current assets Current liabilities, including vouchers and pay rolls Interest and rentals accrued Supplementary dividend due in February	\$2,794,299 1,788,213
Total current liabilities	\$5,232,512

It will be seen that the company held \$5,290,129 of actual cash and had \$3,334,425 loaned out on security, making '85 million dollars together; station balances, accounts receivable, etc., aggregated \$5,908,887 more, the latter of course not including deferred payments on land sales or other items of that description. Altogether the available current assets foot up over 141 million dollars, whereas the current liabilities are less than 54 million dollars, including accrued interest and rentals and the February dividend, thus leaving an excess of assets of over 94 million dollars. Even after taken out, the excess of assets still exceeds 54 million dollars.

There is another feature concerning the financial management of the property which deserves to be noted. It relates to the method pursued in providing for interest, rental and other charges out of earnings, and the matter has special interest because public mention of it has previously been made. The report says that "for the past five years all interest charges and rentals have been deposited every day with the company's bankers in a special fund which is available for no other purpose, and since the payment of supplementary dividends was commenced daily deposits to cover these have likewise been made. From the beginning of the next half-year these special deposits will include each day's proportion of the full dividend on the capital stock of the company." The report states further that for the past five years all expenditures on capital account have been made on special estimates and appropriations passed upon by the Board, and that no item can be charged to said account which has not been duly approved.

RAILROAD ENDORSEMENTS-ARTICLE VI. RECITALS.

When used in connection with railroad guaranties, a 'recital," as we stated last week, is any endorsement upon the bonds or stock certificates of a company that, without itself taking the form of a contract, states the guaranty which such securities enjoy under some existing lease or agreement. It may or may not be signed, and if signed the signature may not be, though it generally is, that of an officer of the company guaranteeing, to the extent stated in the recital, the interest or dividends. It is probably true that recitals are less commonly employed now than formerly, scarcely any of the important recitals in our possession being of recent date. But it is worth while nevertheless to con-sider them. They have been prominent in the past and still hold a conspicuous place on leading securities. They are of much importance to the investor, and may well continue to be used in many instances where, for some reason, the full endorsed guaranty is debarred. They differ from the full guaranty, and the character of the difference ought to be kept clearly in mind-at the same time under some circumstances they may be held to be no less binding on a lessee company than the true guaranty. Finally, they exist in several different styles.

One typical form of recital is seen in the statement printed across the face of the certificate of preferred stock of the Fort Wayne & Jackson Railroad Company, whose road is leased in perpetuity to the Like Shore & Michigan Southern. The recital, which is annexed, is not signed and it is not dated. There is nothing to show by whose authority it was placed on the stock, and yet brief as it is it is sufficient to inform the investor positively and officially of the important fact that the Lake Shore, as lessee, guarantees $5\frac{1}{2}$ per cent per annum on that preferred stock. If the word "perpetually" were added the "memorandum," as it might be called, would be still more complete, the endorsement reading as follows:

FT. WAYNE & JACKSON RAILROAD CO. PREFERRED STOCK. "The Lake Shore & Michigan Southern Railway Company, lessees of the Fort Wayne & Jackson Ruilroad, guarantee interest on the within-mentioned stock at the rate of 5½ per cent per annum, payable semi-annually, on the first days of March and September, at the office of the Farmers' L an and Trust Company, New York City."

In practically the same form, we believe, are the endorsements on the Warren Railroad 7 per cent stock and the Utica Chenango & Susquehanna 6 per cent stock, dividends on both of which are payable by the Delaware Lackawanna & Western. Similar examples might doubtless be cited from stocks of other wellknown companies. Some bonds also carry analogous endorsements.

Another common method has been to stamp upon the security, either bond or stock as the case may be, quotations from the lease under which coupons or dividends are payable. The certificates for 15 millions of Morris & Essex stock thus inform us that the lease of the road to the Delaware Lackawanna & Western provides for the payment of 7 per cent yearly on the stock, and that a further 1 per cent is to be paid if 30 per cent of the Morris & Essex's gross earnings in any year shall be sufficient to pay all charges and 10 per cent on its capital. The certificates bear these words.

MORRIS & ESSEX GUARANTEED 7 PER CENT. STOCK.

MORRIS & ESSEX GUARANTEED 7 PER CENT. STOCK. "The lease from the Morris & Essex Railroad Company to the Delaware Lackawanna & Western Railroad Company contains the following provision as to the payment of interest by the last-named company: * * * "And will pay to the holders of the capital stock of the said party of the first part, interest at the rate of 7 per centum upon the par value of said stock, and pay the same semi-annually on the first days of July and January in each year, free from all taxes, assessments and impositions whatever, and, if any in year (from December 31 to January 1) after the year 1973, 30 per cent of the gross earnings of the railroads hereby demised, including the earnings of any branch or other railroads that may hereafter in pursuance of the provisions of this indenture be constructed or used, shall amount to a sum sufficient to pay the interest on all the then existing obliga-tions and liabilities of the party of the first part, and to pay 10 per cent free and clear as aforesaid on the par value of the entire amount of the capital stock of the party of the first part which shall then have been issued, that then, in that case, the party of the second part shall pay to the holders of said stock, at the end of every such year, an additional interest upon their stock of 1 per cent per annum, free of taxes as aforesaid. But stock of 1 per cent per annum, free of taxes as aforesaid. free and clear as aforesaid, be 'paid upon or on account of said stock, unless 30 per cent of the gross earnings are suffi-cient to pay the interest as aforesaid and 10 per cent free and clear as aforesaid on all of the capital stock then issued."

As it happens, the first clause of the quotation is in this case all that is of immediate value, the road never having earned the additional dividend. But how helpful it is to be able to learn from the certificate, without the necessity of looking for documents, perhaps troublesome to obtain, that the dividends are to ba paid "free from all taxes, assessments and impositions whatever."

The Cleveland & Pittsburg 7 per cent stock certificates contain several long quotations from the lease of the road to the Pennsylvania. These quotations make known, with other facts, that the 7 per cent rental is to be paid without deduction for any tax laid on the company's earnings or capital, though naturally this does not apply to taxes levied on the stockholders personally without the "intervention" of the railroad company.

Whatever obligation may rest on the lessee company where the bonds or stocks of the lessor company are stamped with an unsigned recital, to many persons no doubt the obligation will appear stronger when the signature of the lessee is appended to the recital. A very good example of such an endorsement is the following, placed by the Long Island Railroad Company on the first consols of the New York Brooklyn & Manhattan Beach Railway Company.

NEW YORK BROOKLYN & MANHATTAN BEACH RY. 1sr CONSOLS.

"The payment of the principal and interest of the whole of the within mentioned issue of bonds is further secured by the lease contract between the Long Island Kailroad Company and the New York Brooklyn & Manhattan Beach Railway Company, whereby the said Long Island Railroad Company, for the use and benefit of the holders of the said issue of bonds, absolutely binds itself to pay and apply so much of the reserved rental as shall be necessary directly to the payment of the said interest when and as the same shall become due, of the said interest when and as the same shall become due, and at the maturity therof to purchase the whole of the said issue of bonds at par on the presentation thereof by the holders. "THE LONG ISLAND RAILROAD COMPANY, (Signed) "By HENRY GRAVES, Treasurer."

The above endorsement, the use of which in precisely the form shown, was provided for both by mortgage and lease, states, as will be seen, that the bonds are "further secured by the lease contract" whereby the Long Island Railroad Company "absolutely binds itself" to apply so much of the reserved rental as may be necessary to the payment of interest on the bonds as the same shall become due, and also to purchase the bonds themselves at maturity. A slight change in the language would render this in itself, independent of the lease, a guaranty, and even in its present shape it carries much weight.

A recital-if such it may properly be called-that is remarkably strong, and that in its form might well perhaps be employed on many "assumed" bonds now unendorsed, is found on the Scioto Valley & New England bonds, as follows :---

SCIOTO VALLEY & NEW ENGLAND 1ST MORTGAGE 4S.

SCIOTO VALLEY & NEW ENGLAND IST MORTGAGE 48. This is to certify, that in consideration of the deed of con-veyance dated July 22, 1890, from the Scioto Valley & New England Railroad Company of all its railroad, property and franchises to the Norfolk & Western Railroad Company, the Norfolk & Western Railroad Company has assumed and cove-nanted to pay the principal and interest of this bond on the terms set forth in the said deed. NORFOLK & WESTERN RAILROAD COMPANY. Attect.

Attest :

Secretary.

The Norfolk & Western's report speaks of these bonds as guaranteed, but the recital makes clear the fact that they have been "assumed," and are therefore direct obligations of the N. & W.

A recital that is altogether unique, both in the facts it describes and in the manner in which it is signed. will do to end our list of this class of indorsements. The preferred stock certificates of the Dayton & Michigan Railroad Company-securities not well known on the New York market but of which in the aggregate \$1,211,250 are outstanding-have upon them a statement signed by the President of the Cincinnati Hamilton & Dayton (lessee of the Dayton & Michigan), and also of the Secretary of the Dayton & Michigan, certifying to certain facts. In the first place it vouches for the adoption by the Dayton & Michigan on a certain day of a resolution authorizing an issue of 8 per cent preferred stock secured by mortgage. In the second place it declares that the Cincinnati Hamilton & Dayton stockholders ratified the action of their directors in guaranteeing "to the holders of said preferred stock punctual payment of the dividends thereon, according to the terms thereof." Finally it rehearses that a mortgage has been executed "on the property, income and franchises of the Dayton & Michigan Railroad Company and of the interest therein of the Cincinnati Hamilton & Dayton Railroad Company" * "to secure the payment of said dividends." This is the indorsement as it appears on the stock certificates.

COPY

COPY. This is to certify that on the 22d day of December, 1870, the stockholders of the Dayton & Michigan Railroad Company adopted the following resolution : *Resolved*, That this company, under and by virtue of the provisions of the act of the General Assembly of the State of Ohio entitled "An act to enable railroad companies to re-deem their bonded debts," passed April 16, 1870, and for the purpose of providing means for the redemption of its bonds aforesaid, secured by a mortgage on its road, does hereby cre-ate and authorize the issue of preferred stock to an amount of

three million seven hundred thousand dollars, divided into seventy-four thousand shares of fifty dollars each, and do hereby promise and guarantee to the holders thereof dividends thereon, payable quarterly, on the first Tuesdays of January, April, July and October in each year, at the office of the Cincinnati Hamilton & Dayton Railroad Company, at four nominal value thereof; provided, however, that the holders of the certificates of said preferred stock shall not have or exercise the right to vote the same, or as owners of the same at any meeting of the holders of the capital stock of said company, and provided also that no further or other mortgage upon the property, rights or income of said company and provided also that no further or other mortgage upon the property, rights or income of said company shall ever hereafter be made to the prejudice of the dividends thereon shall be secured by a mortgage on said property, rights and income, which conditions shall be primeted as part of the certificates to be issued for said stock.
— Mat hat on the 20th day of December, 1870, the directors of the Cincinnati Hamilton & Dayton Railroad Company and provided resolutions which were duly ratified by the stock of the purpose, and held on the 15th day of February, 1871, whereby said Company at a meeting thereof, duly called for the purpose, and held on the 15th day of February, 1871, whereby said Company guaranteed to the holders of said prefered stock punctual payment of the dividends thereon, and that on the 12th day of September, 1871, a mortgage of the functionati Hamilton & Dayton Railroad Company under its lease thereof, was duly executed and delivered to Staley, and has been recording to law.
— Mathematica Company, and of the interest therein of the functionati Hamilton & Dayton Railroad Company under its lease thereof, was duly executed and delivered to Staley, and has been recording to law.
— Mathematica Company, and of the interest therein of the functionati Hamilton & Dayton Railroad Co three million seven hundred thousand dollars, divided into

C. H. & D. and D. & M. railroads.

Since the earlier articles of this series were issued, we have come across a true guaranty of the principal and interest of an issue of bonds that is secured by mortgage on the property of the guarantor. The case is, we believe, unprecedented, and it is worth mentioning here. The New York New Haven & Hartford in 1881 endorsed \$1,000,000 second mortgage bonds of the Harlem River & Port Chester RR. In 1883 the New Haven company executed a mortgage for \$5,000,000 [but only \$2,000,000 issued] on its main line to secure its own 4 per cent bonds, and also, as the deed says, "for the further purpose of better securing the guaranty of the party of the first part of the principal and interest of the \$1,000,-000 of bonds known as the second mortgage 4 per cent bonds of the Harlem River & Port Chester Railroad Company dated the first day of June, 1881, and payable the first day of June, 1911, and all renewals thereof. Hence the guaranty of this second mortgage of the little Harlem & Port Chester is given a lien on the main line of the New Haven Company from Woodlawn to Springfield, upon which so many millions have been spent and which is so lightly mortgaged.

MEXICAN INTERNATIONAL.

Construction of the Mexican International Railroad has been pushed so quietly and unostentatiously that many persons will no doubt hear with surprise that the system now comprises 573 miles of road in full operation, extending from Ciudad Porfirio Diaz (formerly called Piedras Negras) on the Rio Grande to Durango, the great iron centre in the State of Durango, the extension to the latter point having been completed October 1, 1892. The road is an undertaking of Mr. C. P. Huntington and his associates, and peculiar interest attaches to its affairs because Mr. Huntington has shown such faith in the success and future of the enterprise that he has been willing to carry it through without receiving any subsidy from the Mexican Government. This is a peculiarity which distinguishes the road from the other large trunk lines connecting the sister republic with the United States, such as the Mexican Central and the Mexican National, which have all

had large subsidies-and indeed required them, as it would have been difficult, if not impossible, to raise the needed capital except for such aid. Mr. Huntington has been willing to risk his capital without obtaining any subvention from the Government, and it is interesting to see if the results of operations thus far appear to justify his faith and expectations.

We have just received a copy of the company's report for 1892-the first report issued-and from this it appears that the gross earnings in the late calendar year reached over two million dollars. The opening of the extension to Durango has proved of great advantage, but the company had the benefit of the operation of that extension for only the last three months. This is a circumstance to bear in mind, for obviously earnings would have been even larger if the whole line had been operated the entire twelve months. As it is, the company earned \$2,095,726 on an average of 463 miles, being 110 miles less than the full mileage. Net earnings were \$830,436. This is in Mexican currency. In American currency the net income was \$553,624. Out of this latter the company had general expenses of \$22,468 to meet, and paid one-third of a year's interest on its outstanding bonds, leaving a surplus balance of \$344,489 for the year. The amount of these outstanding bonds is \$14,000,000, and this, like the extent of road operated, conveys an idea of the importance to which the property has risen. While interest on this issue was a charge against income for only the last four months, the year's net income on the incomplete mileage was practically sufficient to provide a full year's interest on the entire amount of bonds, net earnings having, as already stated, been \$553,624, besides which the company received \$12,282 other income, making \$565,906 together, while 4 per cent interest on the \$14,000,000 bonds calls for \$560,000.

This is certainly an encouraging result. But doubtless the most gratifying feature to the management in the operation of the property is the way the earnings per mile are increasing from year to year, and with each extension of the line. Here is a little table that serves to bring out that feature:

Av. miles Year. operated, 1892463.79 1891409.66 1890396.54 1889356.66	\$4,518 67 2,924 02 2,839 77	Year. operated. 1887170'00 1886170'00 1885170'00 1884152'37	Earnings per mile. \$1,396 43 1,098 11 905 39 569 42
--	------------------------------------	---	---

In 1884 with an average of but 152 miles, earnings per mile were only \$569. Three years later, in 1887, with 170 miles in operation, the earnings per mile had risen to \$1,396. In 1891 with an average of 409 miles. the company earned \$2,924 gross per mile, while in 1892, with average mileage up to 463 miles, carnings jumped to \$4,518 per mile. Evidently Mr. Huntington has reason to feel pleased at this satisfactory outcome.

NET EARNINGS FOR MARCH, AND FROM JANUARY 1 TO MARCH 31.

Our statement of net earnings for March shows much better results than the statements for either January or February. And yet there is no considerable gain in net earnings as compared with the same month last year. The gain indeed is only \$229,378, or but little over one per cent. The improvement consists in the fact that in both the months preceding there had been heavy losses-\$1,320,999 in January and \$2,797,409 in February. In at least one of these months too (Feb-"nary) there had been over two million dollars loss in dominate in this list. As regards the large gains in

The improvement of course has followed in large part as the result of less severe weather conditions. Drawbacks on that score were by no means absent in March, the roads in the North Pacific section, as also some of the Northwestern roads, having still suffered from snow blockades; but on the whole there were decidedly fewer obstacles of that nature than in the preceding months. In some cases the change for the better in the weather was sufficiently decided to permit of the moving no doubt of a great deal of delayed freight. On the other hand, speaking generally there was a smaller movement of traffic in some leading items of freight-grain, provisions, live stock and cotton for instance. Altogether, therefore, the showing is quite as good as could have been expected. The following furnishes a summary of the results both for March and the three months to March 31.

Wan	March. (137 roads.)			January 1 to March 31. (181 roads.)		
	1893.	1892.	Inc. or Dec	1893.	1892.	Inc or D. c.
The state of the	\$	\$	\$	\$	\$	8
Grossearn's	61,895,805	58,652,387	+3,212,918	207,909,686	202,562,184	+5,347,502
Oper. exp	43,237,824	40,224,281	+3,013,540	150,287,453	142,591,603	+7,695,850
Not carn's	18 657 481	18 498 103	+999 378	57 699 283	59 970 581	2 348 348

This makes the improved character of the exhibit for March evident at a glance. While for that month there is a gain in gross of \$3,242,918, for the three months the gain is but little larger, being \$5,347,502, and while in the net for the month there is an increase of \$229,378, for the three months we actually have a loss of \$2,348,348. It is proper to state that the exhibit for the quarter is somewhat more comprehensive than that for the month, as it includes a number of roads from which it is possible to secure quarterly but not monthly returns. The following gives a summary of the March results for a series of years past. It will be seen that there were heavy gains for both periods last year in gross and net alike, and that in most of the previous years, too, the showing was very good-a fact of course which makes any gain at all in 1893 appear quite encouraging.

While in the aggregate there is a slight increase in the net earnings for March, it must not be supposed that the returns of the individual roads are uniformly favorable, or that there are not some quite large losses. As a matter of fact there are several of these latter, the Pennsylvania having suffered a decrease of \$255,-938, the Union Pacific a decrease of \$116,688, the Southern Pacific \$72,990, the St. Paul \$68,089, the "Soo" road \$60,123, the Burlington & Quincy \$46,-448, the Central of New Jersey \$44,159, the Burlington Cedar Rapids & Northern \$35,528 and the Louisville & Nashville \$35,544. It will be observed that on the whole, Northwestern roads and Pacific roads pre-

net, these are somewhat more numerous than the large losses, and yet on the other hand the very highest increase is that of the Chesapeake & Ohio for \$103,517, the Reading (not including the Coal & Iron Company) following with \$88,493, the Mexican Central with \$84,149, the Baltimore & Ohio with \$72,553, the Atchison with \$72,050, the Illinois Central with \$71,-297, &c., &c. In the case of the gross for the month, there are only three large losses-namely, the Union Pacific \$80,744, the Grand Trank \$49,450, and the St. Paul \$34,685-while the large gains are very conspicuous and noteworthy, being led by the Atchison with \$576,453, and the Pennsylvania (lines east and west of Pittsburg), with \$475,994, and followed by the Reading with \$238,432, the Erie with \$172,170, the Norfolk & Western with \$167,203, &c. B low we give a full list of all the large gains and all the large losses in gross and in net for the month.

t The net increased \$127,822 on Eastern lines and decreased \$383,-760 on Western lines.

For the three months to March 31 the number of large decreases, in net at least, is quite extensive, and the amounts of decrease in many cases very heavy. Thus the Pennsylvania (entire system) has fallen behind as much as \$1,839,822, while the Reading, not including the Coal & Iron Company, has lost \$670,096, the Grand Trunk of Canada \$306,845, the Biltimore & Ohio \$290,312, the Burlington & Quincy \$283,156, the St. Paul \$230,460, the Union Pacific \$206,461, the C. C. C. & I \$204,773, the Canadian Pacific \$175,573, and various others for smaller amounts. As in the case of the losses in net for the month, Pacific roads and Northwestern roads are much the most prominent. In the increases in net for the quarter, the New York Central is distinguished for a gain of \$520,796, while the New Haven reports an increase of \$375,235, this latter, however, being based on a much larger mileage the present year. The Chesapeake & Ohio has \$245,736 increase, the Louisville & Nashville \$222,369 increase, the Southern Pacific \$215,379, &c. The list in full is In the gross we have taken the changes as follows. down to \$100,000, in net down to \$75,000.

Total (representing 31 . roads).....\$5,054,622

The net on Eastern lines decreased \$781,996 and on Western lines \$1,057,826. In the gross earnings the change on the combined system is small, a loss of \$429,820 on the Western lines being offset by a gain of \$169,534 on the Eastern lines.

Last year the Southern group was practically the only one showing diminished net for the month or quarter; this year there are four groups which fall behind for the month and five which fall behind for the quarter, while the Southern group has a gain in both periods. Three of the groups show losses in net for both the month and the three months, namely the trunk lines, the Northwestern and the Pacific Coast. The anthracite coal group and the Middle Western have a loss in net for the quarter but not for the month. The New England group has a substantial gain for the quarter, due, however, to the heavy increase on the New Haven; for the month said group has a loss, but that has no significance, as in this case the totals comprise only three small roads, being all that will furnish monthly returns. In the trunk-line group the New York Central, the Erie and the Ohio & Mississippi form exceptions to the general rule of loss for the quarter, and have gains. In the Pacific group the Southern Pacific forms a conspicuous exception, though for the month that system has a loss. The Northwestern group makes the most generally unfavorable showing of any, there being indeed only one very small road that is able to report an increase in its net for the three months. The Southwestern group, on the other hand, excels all others in the generally favorable character of the returns, only three of the roads having suffered a decrease for the quarter, though for the month there are five that have susstained decreases. This group of course has not felt the effects of the severe winter as much as those further north, while the heavy crops raised in Kansas last season have served to give a large grain traffic and at the same time to stimulate general business.

IMPORTS AND EXPORTS OF GOLD AND SILVER AT SAN FRANCISCO.

The Collector of Customs at San Francisco has furnished us this week the details of imports and exports of gold and silver through that port for the month of April, and we give them below in conjunction with the figures for preceding months, thus completing the figures for the ten months of the fiscal year 1892-93. Imports were light during the month, the amount of gold received being only \$13,384, of which \$876 was in coin, while of silver there came in \$188,837, mainly bullion. There has been received during the ten months a total of \$5,438,195 gold and \$2,335,883 silver, which compares with \$9,479,299 gold and \$2,659,839 silver in 1891-92. The shipments of gold during April were smaller than in any month since July last, reaching only \$19,710 coin and \$1,310 bullion, and the exports of silver have been \$271,216 coin and \$292,200 bullion. For the ten months the exports of gold have been \$914,245, against \$784,628 in 1891-92, and \$12,426,999 silver has been sent out, against \$7,114,572 in 1891-92. The exhibit for April and the ten months is as follows :

Monetary Commercial English Aews

[From our own correspondent.]

LONDON, Saturday, May 6, 1893.

At the end of last week the Standard Bank of Australia suspended payment. It was an event of little importance, for in the first place the concern failed at the end of 1891 and was started again twelve months ago; and in the second place it was not a bank in the English sense of the word, but rather a mortgage and finance institution. Its total paid up capital was £338,000 and the deposits amounted to £861,000. A much more serious matter was the failure of the Nationa Bank of Australasia on Monday. It has a paid-up capital of a million pounds sterling, the £5 shares having £4 paid. Besides the £1 liability there is a reserve liability in case of liquidation of £5 per share, or a total liability of a million and a-half sterling. On the last day of December the deposits amounted to £8,861,000, of which £1,805,000 had been raised in this country, or somewhat over 20 per cent.

Yesterday another failure occurred, that of the Colonial Bank of Australasia, which was, however, not of much importance. The subscribed capital of the undertaking on December 31 was £1,000,000, with £406,250 paid up, and its deposits reached about £3,500,000, of which only some £160,-000 represented British money, the great bulk of the depositors being in Victoria. Leaving out of account the Standard Bank, which has practically been dead a year and a-

half, the failures of real banks this year now amount to seven in number, and the aggregate deposits of these seven institutions somewhat exceed 49 millions sterling. There are notes outstanding and bills in circulation which would raise the liabilities to nearly 55 millions sterling. But a lock-up in deposits alone of 49 millions sterling must have the most serious results for the Colonies, and cannot fail to be felt for a considerable time in this country also.

As soon as the Government of Victoria learned that the suspension of the National Bank was inevitable, it issued a proclamation ordering a moratorium, or bank holiday, for five days beginning on Monday morning and ending last evening. It is understood that the banks were not consulted, and the measure is altogether disapproved by the directors of the really sound banks as well as by city opinion. The Union bank of Australia and the Bank of Australasia-two of the very best of the Australasian banks-refused to take advantage of the holiday, and have done business as usual. The Bank of New Zealand did the same; but the Bank of New South Wales, which is as well managed and as solvent as any Australasian bank, on Monday closed its Melbourne branch. The mistake is supposed to have been due to the local manager. Tue branch in Melbourne is a small one, and the manager seems to have thought it his duty to obey the Government proclamation. He was instantly instructed, however, to re-open, and since Tuesday morning the Bank of New South Wales at Melbourne has been doing business. All the other banks in the Colony availed themselves of the holiday.

It is reported that negotiations are going on between some of them with a view to amalgamation. It is quite clear that the colonies are "over-banked," and amalgamation is certainly desirable in the interests of all concerned. The run in Sydney has not been as formidable as in Melbou ne, but there is a very bad state of feeling there also. The Government of New South Wales has carried a measure throug 1 the Legislature making the notes of the issuing banks a first charge upon their assets, authorizing the Government in certain contingencies to make the notes legal tender, and also empowering further issues under certain circumstances. The measure is unwise from every point of view. The Government does not guarantee the notes except under peculiar conditions, and yet it takes power to declare the notes of the banks legal tender. It is almost certain that depositors outside the Colony will refuse payment in the notes, while if the measure is enforced specie payments are suspended.

On Thursday the Bank of England raised its rate of discount from 21/2 per cent, at which it had stood since the 26th January, to 3 per cent. For fully a fortnight, owing to the panic in Australia, the leading joint-stock banks have been restricting their loans and discounts; consequently borrowers have had to apply to the Bank of England, both last week and this week, for very large amounts. For example, during the week ended Wednesday night the advances made by the Bank to the outside market amounted to very nearly 21/4 millions sterling. At the end of the week the additions made to the market deposits with the Bank only slightly exceeded a million, so that a million and a quarter went into the internal circulation, a large part of it to Scotland, where at this time of the year the circulation always increases, and gold has in consequence to be brought from London. As the strong Australian banks have decided upon sending gold to Melbourne and Sydney, it is probable that there may be a further advance in the rates next week or the week after. Orders have been given at the Bank of England to prepare three quarters of a million sterling for shipment. On the other hand, it is expected that the receipts from New York will be large. There are symptoms likewise of a demand for gold for the Continent, which, it is hoped, will be satisfied in New York. There has been a very long drought, and the prospects of the crops at present are exceedingly bad. The expectation is that the chief Continental banks, in anticipation of large imports of grain later in the year, will now begin to add to their stocks of gold.

The silver market is decidedly firmer, the price having risen early in the week to 38 9-16d. per oz., though it has since given way somewhat. On Wednesday the India Council offered for tender 60 lakhs of rupees in bills and telegraphic transfers, as it has been doing for many weeks past, and sold the whole amount, the average price being 1s. 2 15-16d. per rupes. Subsequently it sold a small amount of telegraphic transfers by pecial contract at 1s. 3 1-32d. per rupee. The Indian money

market has been made stringent partly by the refusal of the India Council to sell below 1s. 25%d. per rupee, which prevented sales to any considerable extent for miny weeks together. Recently the stringency has been added to by a very active demand for money to move the cotton and the ricecrops. It is estimated, for example, that there are about 200,000 bales of cotton in Bombay waiting for shipment. The wheat export, too, is becoming very active.

Business on the Stock Exchange is quite at a stand-still, owing mainly to the panic in Australia, partly also to the fallin New York, and of course to some extent to the rise inmoney. There is nothing like a panicky feeling, nor is there any great eagerness to sell, but of course there is a good deal of uneasiness, nobody being able to judge how the numerous bank failures in Australia will affect the leading houses in the Australasian trade, and through them our own money market. . The fall in prices is quite trifling, considering all the circumstances. But operators have quite ceased dealing, and investment has become very small. The great dock strike in Hull is not yet settled, and up to the present the attempts. to bring about a general dock strike have failed. There are several other labor disputes, but they are on a small scale, and gradually the reduction of wages is going on all over the country.

The Board of Trade returns for May show that our foreign trade is still contracting, though some of the falling off is due to the Hull dock strike. The imports of the month have declined 23¼ millions sterling, or 8 per cent. The exports have fallen off 11/4 millions, or nearly 7 per cent, and the re-exports of foreign and colonial produce have diminished £690,000, or 12.43 per cent. Reduced arrivals of raw cotton are responsible for £766,000 of the shrinkage in imports, and wheat, bacon, coffee and wine have also declined heavily. On the other hand, our imports of raw wool increased over £500,000. The falling off in exports has been principally due to a shrinkage of some £600,000 in our exports of cotton yarn and piece goods, to a falling off of no less than £404,000 in telegraph wires, &c., and of £241,000 in coal. It may be mentioned that the export of telegraph wires last year was exceptional. In 1891 the value of telegraphic wires exported amounted to only £59,000 in April 1892 it reached £448,000, and in April 1893 it is but £43.000.

The imports since January 1 have been as follows:

Turnonma	1893.	1892.	Difference.	Per Ol.
IMPORTS. January	£ 33,125,888	£ 38,485,244	£ -5,359,356	-13.92

Niagara Falls Power Co.—The N. Y. Tribune recently, reported that "a syndicate was formed here with a capital of \$4,000,000 for the construction and equipment of a transmission line between Niagara Falls and Albany, for the transmission of electric power generated by the waters of the Niagara River." * "The Niagara Falls Power Company has expended nearly \$5,000,000 in this great development at the Falls, consuming nearly three years in its construction and now seeks a market for the electric energy thus generated in all of the principal cities of the State between Buffalo and Albany." * "When the Niagara Falls Power Company was incorporated its charter gave it the right to furnish power at any point in the counties of Erie or Niagara. A bill which passed the last Legislature, and which was signed by Gov-ernor Flower on April 25, gives the company the right to transmit Niagara water and light, heat or power developed from it, to practically any point in New York State." The office of the Niagara Power Company is in the Mills Building. Missouri Kansas & Texas.—At Parsons, Kan., May 17, at

office of the Niagara Power Company is in the Mills Building. Missouri Kansas & Texas.—At Parsons, Kan., May 17, at the annual meeting, the following board of directors was elected: John D. Rockefeller, W. E. Rockefeller, William Rockefeller, Henry Grace, Colgate Hoyt, Henry W. Poor, William Bond, William Dowd, Joel F. Freeman, Simon Stern, Joseph H. Bond, all of New York; Thomas C. Purdy of St. Louis, F. H. Filimore of Milwaukee, J. H. McDonald of Fort Scott, Kan.; Alfred J. Poor of Chapman, Kan.; Lee Clark of Parsons, Kan., and H. J. Demarest Oyens of Amsterdam, Holland. Later Henry C. Rouse was elected chairman of the board and president of the company, and the following gen-eral officers were chosen: Thomas C. Purdy, Vice-President and General Manager, headquarters at Parsons, Kan.; William Dowd, Vice-Pres-ident; Charles G. Hedges, Controller, Secretary and Treasurer; Simon Stern, General Counsel, and Robert Maguire, Local Treasurer.

WALL STREET, FRIDAY, MAY 19, 1893-5 P. M.

The Money Market and Financial Situation.-A more confident feeling has developed during the week. This is the more noteworthy since new developments have not been altogether favorable. But notwithstanding efforts, at first in part successful, to depress prices, and in spite of serious bank failures in Australia that occasioned for a time English selling of American securities, and in spite, too, of the embarrassments of certain financial institutions in Minneapolis, and last, but not least, a renewal of gold exports on a considerable scale-notwithstanding all these facts prices have advanced, and in some cases close several points higher than last week. The improvement may be attributed to several causes, among which are: The decreased liquidation which is naturally accompanied by a recovery in prices ; the position of the National Treasury, which has continued better than many persons expected; the strong condition of the New York banks as reflected by the statement published on Saturday, the 18th, and, as resulting from this, the ease in the market for call loans. Time loans too have been obtained without difficulty, though the collateral has been scrutinized with more or less care and the gold clause has sometimes been required. More important perhaps than any of these causes even have been the knowledge that the Northern Pacific was in a fair way to be relieved of its floating debt and the announcement that a strong committee would undertake to reorganize the National Cordage.

The reports of railroad net earnings for the month of March published this week are better than were the similar reports for January and February, but the change from last year's figures is not significant. As said last week, however, the returns of gross earnings coming in are very good indeed, and when the weather improves should be even better, at least for roads which obtain any large share of the travel to the Chicago Fair.

cago Fair. The open market rates for call loans during the week on stock and bond collaterals have ranged from 2 to 5 per cent, the average being 3 per cent. To-day rates on call were 2 to 3 per cent. Commercial paper is quoted nominally at 6½ to 8 per cent, but the market is unsettled. The Bank of England weekly statement on Thursday showed a decrease in bullion of £543,298, and the percentage of reserve to liabilities was 36:09, against 39:41 last week: the discount rate was advanced from 3½ to 4 per cent. The Bank of France shows an increase of 7,425,000 frances in gold and a decrease of 850,000 francs in silver. The New York City Clearing-House banks in their statement of May 13 showed an increase in the reserve held of \$5,183,-400 and a surplus over the required reserve of \$17,795,025, against \$12,835,175 the previous week:

Foreign Exchange.—Discount rates in London have been higher than last week and on Thursday the Bank of England raised its rate to 4 per cent. This, in conjunction with easy money here, has had the effect of strengthening short bills and weakening 60-day bills. Commercial bills have been scarce, and consequently to meet the English demand gold has gone out, \$1,500,000 being shipped on Wednesday and \$1,000,000 on Thursday, while \$2,000,000 has been engaged for export to-morrow, and in addition \$500,000 will go from Boston. Actual rates of exchange are : Bankers' sixty days sterling, 4.84^{3}_{4} @4.85; demand, 4.89^{1}_{4} @4.89¹₂; cables, 4.90^{1}_{2} @ @4 903

Posted rates of leading bankers are as follows:

State and Railroad Bonds.-Sales of State bonds include

State and Railroad Bonds.—Sales of State bonds include only \$1,000 Alabama class "A" at c. 102 ¹/₂. Railroad bonds have been only moderately active, but values which were last week in some cases rather unsettled have been generally stronger. Of Northern Pacific consols especially is this true. On false rumors, it will be remembered, these bonds fell on Wednesday a week ago to 58; they close to-day at 69, having been helped upward by the plan for funding the floating debt. Richmond Terminal 6s were in request yesterday and were higher by 3 points at the close to-day than they were the week before. Philadelphia & Reading generals 4s stand about where they did seven days since, but the first preference bonds have touched the lowest point of the year, and close at 42¹/₂ against 44¹/₄. Toledo St. Louis & Kansas City first 6s have fallen 6¹/₂ points to 60¹/₂ on moderate sales, because of the appointment of a receiver. M. K. & T. 4s are higher, and so are Texas & Pac. 5s, and Atch-ison Class A and many of the other bonds on the list, though there is some irregularity, as is often the case when there has there is some irregularity, as is often the case when there has been a sharp advance, some loans feeling its effect more quickly than others.

quickly than others. **Railroad and Miscellaneous Stocks.**—The stock market was much depressed on Saturday and Monday, not a few stocks striking lower figures than heretofore this year. Among such were substantial stocks like Lake Shore, which touched 11834, and N. Y. Central, which went well below par. Louisville & Nashville also sold at 6414, against 6736, the previous minimum this year, and St. Paul at 6634, while of the industrials National Cordage went to 934. The weakness was so particularly noticeable in what are known as London specialties that it was clear the bears in their efforts for lower prices were being helped by selling for London account, such selling being occasioned by the Australian Bank failures and by rumors of one kind and another. Latterly all this was prices were being helped by selling for London account, such selling being occasioned by the Australian Bank failures and by rumors of one kind and another. Latterly all this was changed and if in every case the recovery has not been com-plete it has at least been sufficiently pronounced. N. Y. Cen-tral is 3½ points above par, Lake Shore closes at 123½, Louis-ville & Nashville at 69, St. Paul at 71½ and National Cordage at 2034. In fact the upward movement was led by Cordage and Northern Pacific, the former advancing sharply upon the appointment of the reorganization committee. As regards Northern Pacific, when it became known that the plan for issuing collateral notes in order to fund the floating debt was likely to be successfully and speedily put in opera-tion, the preferred stock became very strong and ac tive, rising quickly from 32 on Tuesday to 38¼ on Thursday and closing at 37%. Richmond Terminal stocks have also been in request, the reorganization plan being, it is reported, about ready for publication. Distilling & Cattle Feeding has been largely dealt in, and the price has varied greatly according to the view prevailing at the moment re-specting the proposed bond issue. General Electric has shown much recuperative power. Manhattan Elevated has been heavy on the dispute with the Commission respecting the proposed extensions. Western Union is well held. The mar-ket c'osed to-night strong.

GENERAL QUOTATIONS OF STOCKS AND BONDS.

Quotations in New York represent the per cent value, whatever the par may be; other quotations are frequently made par share. The following abbreviations are often used, viz: "M." for mortgage: "g." for gold: "g'd," for guaranteed; "end.," for endorsed; "cons.," for consolidated; "conv." for convertible; "s. f.," for sinking sund; "l. g.," for land grant. Quotations in New York are to Thursday; from other citizes to late mail dates.

Subscribers will confer a favor by giving notice of any error discovered in these Quotations.

* Includes Colorado Midland both years.

* Includes Colorado Midland both years. Net Earnings Monthly to Latest Dates.—The following shows the gross and net earnings to latest dates of all railroads furnishing monthly statements. The compilation includes every road from which we can get returns of this character, and in that form is given once a month. Early returns are published from week to week, as soon as issued, but for the convenience of our readers all the roads making returns are brought together here in the week in which we publish our monthly article on net earnings—say on or about the 20th of the month. A paragraph mark (¶) added after the name of a road indicates that the figures for that road have not pre-viously been given, but appear for the first time in this issue. issue.

ANNUAL REPORTS.

Canadian Pacific Railway.

(For the year ending Dec. 31, 1892.)

The report of this railway has come to hand this week, and on subsequent pages are given President Van Horne's remarks in full, together with the balance-sheet as of Dec. 31, 1892, and other tables relating to the business of the year. At the annual meeting last week the shareholders author-ized the expenditure of capital for the following purposes:

\$3,000,000 Tota1.....

The resolution adopted at the meeting relative to the issue of new preferred stock is as follows: "*Resolved*, That in addition to the capital stock heretofore is-sued, and now outstanding, the company may, for any purpose involving the raising of new capital, the expenditure of which shall have been previously authorized by the shareholders at an annual or special general meeting, from time to time create and issue preferred stock to an amount not exceeding in the an annual or special general meeting, from time to time create and issue preferred stock to an amount not exceeding in the aggregate either the limit prescribed by clause 37 of the com-pany's charter or by clause 2 of the said Act, such preferred stock to be issued on the following conditions, that is to say: "1. The said preferred stock shall be designated 'preference stock,' and as to dividend shall take priority over ordinary stock up to but not exceeding four per centum per annum, and shall not receive at any time a dividend at a higher rate than four per centum per annum. "2. And if for any period or periods the dividends on such prefer-ence stock be less than four per centum per annum, the deficiency or any part of it shall not be made good afterwards. "3. The said preference stock may be issued in sterling money of Great Britain in amounts of one pound or multiples thereof—every

2,221,932

twenty pounds of it giving the same rights as to voting as are given by a share of one hundred dollars of ordinary stock. "4. The directors may issue the said preferance stock for any pur-pose for which the expenditure of capital shall have been so authorized as aforesaid, in such portions, at such times and at such prices, respect-ively, as they may from time to time by resolution determine. "5. The method of evidencing the ownership of the said preference stock and of making transfers of it shall be such as the company may from time to time by by-law prescribe."

The comparative statement for four years of operations, earnings and charges has been compiled for the CHRONICLE, as follows:

(For the year ending December 31, 1892.)

(For the year ending December 31, 1892.) The first annual report of this company has come to hand. This is the only trunk railroad built in Mexico with American capital without a subsidy, and its progress may be seen from the following earnings per mile: In 1884, \$569; 1885, \$905; 1886, \$1,098; 1887, \$1,396; 1888, \$1,841; 1889, \$2,305; 1890, \$2,839; 1891, \$2,924; 1892, \$4,518. The average miles operated in 1884 were 152.37; in 1892, 463.79.

463-79. Mr. C. P. Huntington, the President, says in the report: The company was organized December 9, 1882, under special char-ter from the State of Connecticut. In 1883 it acquired certain concessions granted by the Government of Mexico. under date of June 7, 1881, November 4, 1881, and April 21, 1882. In addition to other things, the "concessions stipulated that the road and its appurtenances shall be exempt from taxation for fifty years, and that the materials required for the con-struction, operation and repair of the road shall be free from import or other duties. No subvention is granted, but the Government has obligated itself not to give a subvention to any other line of railroad within fifty miles on each side of the lines embraced in these concessions.

Government has obligated itself not to give a subvention to any other line of aritroad within fifty miles on each side of the inese embraced in these concessions. "Believing that a line from the Rio Grande towards the Pra-fired Ocean would traverse a section of the Republic of Mexico usceptible of great development, work was commenced at that direction; and on October 1, 1892, the line was completed to the city of Durango, the capital of the State of Durango. "The company owns the following miles of road. Main line; Statinas to Hondo, 12:43 miles; Hornos to San Pedro, 14:35 miles; Pedresena to Velardena, 5:82 miles; total, 573:04 miles; branches, "At Ciudad Porfirio Diaz connection is made with the rail-road system of the Southern Pacific Company and all points in the United States. At Trevino connection is made with the rail-road system of the Southern Pacific Company and all points in the United States. At Trevino connection is made with the Mexican Central Railway, running from is made with the Mexican Central Railway, running from files to the city of Mexico, at Winties terrate constructed from Laredo to the City of Mexico, " * * This company-liar is the only means of railroad communication between Du-rango and other parts of the Republic. "The company is authorized to issue its first mortgage fifty-ry ear four per cent gold bonds are the trate of their ty file of the director decided to issue fits mortgage of dol are for each mile of road constructed, or to be constructed of runst to the Metropolitan Trust Company the city of the to the Mexica for the large area bein stated and were outstand-dol area for each mile of road constructed, or to be constructed of unst to the Metropolitan Trust Company of the city of the city of the such and were outstand-dol area for each mile of road constructed, or to be constructed, or acquired, There honds are secured by a mortgage or deed of unst to the Metropolitan Trust Company of the city of the cist of the anyout of \$3,000,000. Every distil

0

annually, March 1 and Sept. 1. The capital stock outstanding Dec. 31, 1892, was \$16,975,000." * * * "While the company operated but 410.08 miles of road for the first four months of the year, and did not receive the benefit of the earnings on its full mileage of 573 miles until October, the earnings for the year have been sufficient to meet the in-terest on the bonded debt for an entire year, although but four months of said interest (from Sept. 1 to Dec. 31, 1892.) are a charge to the income account of the year." * * * "It is stated that there has been a depreciation in the price of the silver dollar of about 8'48 per cent against the price ob-tained for it in 1891, and this low price for silver has of course operated to reduce the net earnings of the company in that proportion.

Italied for it in 1891, and this low price for silver has of course operated to reduce the net earnings of the company in that proportion.
"The company's lines run through the only known good coal fields in the Republic. The development of the coal mining territory tributary to the Sabinas branch is steadily increasing," * * "and the companies have thus far been unable to meet the demands for both coal and coke, the output during the year 1892 being 166 256 tons of coal and 17,326 tons of coke. In addition to this steadily-increasing traffic, the transportation of silver ore is also constantly growing." * *
"Up to the present time the movement of iron ore from Durango has been limited, but the owners of the famous Iron Mountain are understood to be about ready to push the development of their property in all practical ways." * *
"The advantages secured to the road for a profitable business arise from its favorable location as to grades and connections. It is the shortest and most direct standard gauge route to all points in the Uaited States east of the 100th meridian from all points on the railroad systems of Mexico, already aggregating about 10,000 miles."

Earnings, expenses and charges have been as follows:

GENERAL INVESTMENT NEWS.

American Cotton Oil.—An official summary of the opera-tions of the American Cotton Oil Company for the seven months ending April 1 shows the net earnings to have been \$2,406,475, as against \$1,822,927 for the corresponding period of the previous fiscal year. Interest on the debenture bonds for the seven months was \$176,866, and dividend on the pre-ferred stock, \$366,951, a total of \$533,817, leaving a surplus of \$1,872,657. The gross quick assets of the company, that is, exclusive of real estate, buildings and machinery, are \$10,-600,000, of which \$7,375,000 is stock on hand, and the balance cash in bank and bills and accounts receivable.

"The option to redeem in ten years specifies that no bonds so taken up shall be paid at par. The Central Trust Company's "The option to redeem in ten years specifies that no bonds so taken up shall be paid at par. The Central Trust Company of New York will be the trustee, and all of the compan's property will be covered by the mortgage." He further said: "We are going into the distributing business. Fifty-three agencies now distribute our goods. It cannot be said at pres-ent how many of these we shall purchase, or duplicate pro-vided we cannot agree on a price with the agencies wanted. A portion of the bonds will be used for this purpose and a portion as collateral. Whatever is wanted for both purposes will be issued at once. They will not go on the market at all. The balance of the bonds will be issued as they are needed. "Next month there will be a heavy call on the company by the holders of rebate certificates. The company has found it not possible to borrow more money on goods in its own ware-

the holders of rebate certificates. The company has found it not possible to borrow more money on goods in its own ware-houses. If we could store goods elsewhere outside of houses controlled by us the goods would be ample security. To borrow what money we need for June rebates some of the bonds will be used as collateral." The directors subsequently decided that \$2,500,000 bonds be placed in escrow at once to secure rebates, and that \$1,000,000 more be issued as collateral for loans.

At the meeting the directors also determined to close all of the distilleries except two, the trust having a stock of about 120,000 barrels of spirits on hand. "We intend to sell it," said President Greenhut, "and that is why it has been de-cided to close all but two of our plants. The shut-down will

cided to close all but two of our plants. The shut-down will probably last all summer." —At Chicago, May 18, an action at law to break the Whiskey Trust was begun in the Circuit Court. It was a quo warranto proceeding brought by Attorney-General Maloney in the name of the State. The Court ordered a rule nisi entered against the Trust to appear May 26 to show cause why leave shall not be granted to file information in the nature of a quo war-ranto. The Court ordered that a summons might issue against any officer of the company.

Houston East & West Texas.--The Master Commissioner, Mr. G. Howe, advertises that the sale of the railway property and its appurtenances under foreclosure proceedings in the District Court of Harris County, Texas, has been made and con-firmed, and the purchaser has complied with the terms of his purchase. The unconstruction will be turned over an demand to F purchase. The property will be turned over on demand to E. S. Jemison, the purchaser for the bondholders under the plan of reorganization. A new company has been formally organized, with Mr. Jemison as President, and the new securities will be issued very shortly.

Houston & Texas Central. The Federal Court at Paris, Texas, has granted an injunction restraining the State of Texas from proceeding with suits filed for the recovering of 103,000 acres of land from the Houston & Texas Central Rail-road on the claim that the company had failed to construct its read in accordance with the terms of the charter. road in accordance with the terms of the charter.

road in accordance with the terms of the charter.
Manhattan Elevated.—At the meeting of the Rapid Transit Commissioners this week a letter from Mr. Gould was read relative to the compensation to the city for the privileges to be granted, which said: "I am willing to recommend to my board to accept an off-r from you that they pay into the city treasury 5 per cent of the net receipts of the entire system, provided you will allow us to deduct the interest on our funded debt, not to exceed \$2,000,000 a year. I cannot say that the board will accept this proposition. I must see my people again before I can say anything further."
The Commissioners addressed a reply to Mr. Gould, informing him that the Commission was unable to assent to his proposition as to compensation. The Commission then adjourned to meet again next Tuesday afternoon.

Jevons and E. S. Knapp. They also authorized and assented to the proposition for the construction of an extension of the road to Montgomery, Ala.

Monterey & Mexican Gulf .- The control of this property is Monterey & Mexican Guit, — The control of this property is now vested with Brussels capitalists and Messrs. Bullock and Wilder, the original promoters and builders of the road, have retired from the management. The road is doing well and it is expected that it will soon be taken out of receiver's hands.

National Cordage.—At a meeting held on Monday of all parties interested to consider the situation of the National Cordage Company's affairs, a preliminary statement furnished by the receivers showed assets very largely in excess of the liabilities. A committee was appointed, in concurrence with officers of banks, to arrange a plan of reorganization, to be submitted to stockholders. This c m mittee, which will have the aid of independent accountants. is composed of Mr. George C. Magoun, of Baring, Magoun & Co.: Mr. Ernest Thalmann, of Ladenburg, Thalmann & Co ; and Mr. Gus ave H. Gossler, of G. Amsinck & Co., who will report at the earliest date pos-sible. sible.

a. Boston advices say that the coupons due May 15 on the Ogden notes given in connection with the purchase of the Boston Cordage Company, were to be cashed on presentation at the office of the Old Colony Trust Company.
b. The New York Sun says "The Security Corporation owns a number of factories which were acquired by the sale of its debenture bonds, and these concerns are leased to the National Cordage Company, the consideration being the guarantee by the lessee of the principal and interest of the Security Corporation bonds. Lust year the National Cordage Company, nor does its capitalization and debt have to be considered in a reorganization of the last named. As the relations between the National Cordage Company and the Security Corporation do not seem to be thoroughly understood by the Street, it may be well to call attention to the fact that they are two distinct organizations, and that the \$4,464,-000 of debenture bonds issued by the last named are not a lien upon the properties represented by National Cordage, common upon the properties represented by National Cordage, common

and preferred." —Messrs. William Deering & Co., of Chicago and Cincin-nati, have dismissed all their attachment suits against the National Cordage Company, at their own cost, leaving the re-ceivers in undisputed possession of the properties of the National Cordage Company.

New York New Haven & Hartford.—At Bostov, May 19, the Railroad Committee reported unanimously in the Senate that the New York New Haven & Hartford Railroad Company had not violated its charter or the charter of any of its connecting or leased lines.

New York New Haven & Hartford -Boston & Maine.following is the full text of the agreement of the New York New Haven & Hartford Railroad Co. with the Boston & Maine Railroad Co. for the division of New England between them:

them: "At a meeting of committees of the B. & M. and the N. Y. N. H. & H. railroad companies, held at the house of J. Pier-pont Morgan, Monday, March 6, 1898: Present on behalf of the B. & M. R.R. Co., Hon. Frank Jones, Hon. Sam'l C. Law-rence, George G. Haven, a committee; and W. F. Berry, gen-eral traffic manager. And on behalf of the N. Y. N. H. & H. R.R. Co., Charles P. Clark, Lucius Tuttle, J. Pierpont Mor-gan, Wm. D. Bishop, a committee. The following preamble and agreement was agreed upon, with the recommendation that the same be accepted and approved by the respective boards of di ectors: *Whereas:* The B. & M. and N. Y. N. H. & H. railroads connect with

that the same be accepted and approved by the respective boards of di ectors : Whereas: The B. & M, and N. Y. N. H & H. railroads connect with each other at various points, notably, Northampton, Springfield. Wor-cester, West Berlin, Lowell and Boston; and Whereas: Because the territories served by each company are in the main distinct and not competitive, and their relations are for the most part reciprocal; and Whereas: Because the territories served by each company are in the main distinct and not competitive, and their relations are for the most part reciprocal; and Whereas: It is for the advantage of the public and of the owners of said railroads respectively that a full and free interchange of business, both freight and passenger should continue; it is Agreed, as follows: First-That the B. & M. R. R. Co. shall not, directly or indirectly con-struct, lease, or otherwise acquire the ownership or control of the Boston & Albany R. R., or of any other railroad south of the line thereof; or any of the securities of the same; but will approve the acquirement by the N. Y. N. H. & H. R. R. Co. of any such properties. Second-That the N. Y. N. H. & H. R. R. Company shall not, directly or indirectly, construct, lease or otherwise acquire the ownership or control of any railroad, or any of the securities of any rail-oad north of the line of the B. & A. R. R. co. Third-That each of the parties hereto will interchange with the others of ar as they legally and properly may, all the business origin-ating and terminating in either of their respective territories, and at such convenient points, and upon such joint rates and divisions as may be agreed upon from time to time by the proper offleers of the re-spectween New York and Bar Harbor or other points on the coast of Maine or New Hampshire, it is agreed that each of the parties hereto shall have the right to furnish the through cars of all kinds in propor-tion to their respective mileages; the Maine Central LR being for the purpose of

final Fifth—The purpose of this contract is, and shall be, construed to be the protection in good faith by each party hereto of the property, busi-ness, territory and interests of the other, so far as the same can law-fully and properly be done, having due regard to the rights of the public and to the corporate obligations of the parties hereto.

Sixth -This contract, when duly executed by the parties hereto un der authority of their respective boards of directors shall continue in force for one year from its date, and thereafter until the expiration of twelve months after written notice shall be given by either party to the other of its desire to terminate the same.
(Bigned)
G. G. Harven, Samuel C. Lawrence, Frank Jones, Boston & Maine.
(Signed)
J. Pierpont Morgan, Wm. D. Bishop, Charles P. Clark, Lucius Tutle, for N. Y. N. H. & H RR. Co.
The preamble and agreement above recommended having been accepted and approved by the respective boards of directors of the B. & M. RR. Co. at meetings held the eleventh day of March, 1893, the same is hereby made and entered into by and between the said companies acting therein by their respective pecidents theremute duly authorized.
Dated at Boston this thirteenth day of March, 1893.
[L. s.] The New York New Haven & Hartford RR. Company. BY A. A. McLeon, President.
[Northern Pacific.—The board of directors at their meetings

[L. s.] The New York New Haven & Hartford RR. Company. By CHARLES P. CLARK, President.
Northern Pacific.—The board of directors at their meetings this week decided to issue collateral trust notes to extinguish the floating debt. The authorized issue is \$15,000,000, bearing 6 per cent interest and redeemable in five years or earlier, at the option of the company. Only \$12,000,000 are to be offered at present. The Farmers' Loan & Trust Company will be the trustee of the notes, which will be offered at 95, less commissions. The security back of the notes will be the consolidated bonds and other assets now pledged for the floating debt, and in addition the St. Paul & Northern Pacific stock in the company's treasury and the Northern Express Company's franchises. The security is valued at \$40,000,000. The Committee under the collateral trust agreement con-sists of the following gentlemen: R. G. Rolston, President of the Farmers' Loan & Trust Co.; John A. Stewart, President of the National City Bank; John D. Probst and F. T. Gates. It is understood that Mr. Rolston represents the trustees and the railroad company. Messrs. Stewart & Stillman represent the subscribers other than holders of the present indebtedness. John D. Probst represents the Deutscher Bank of Berlin and Messrs. Speyer & Co. and their associates, and Mr. F. T. Gates represents the Rockefeller interests. The entire subscription of \$12,000,000 to the guarantee syndicate is now practically assured. assured.

-In answer to the inquiries as to the correctness of the pub-

-In answer to the inquiries as to the correctness of the pub-lished reports regarding his retirement from the boards of directors of the Northern Pacific and American Companies, Mr. Villard authorized the following statement: On March 1, 1893, immediately after the publication of the reply of the Northern Pacific Board of directors to the report of the committee of stockholders, in accordance with a long-entertained intention, he addressed to President Thomas F. Oakes a formal letter of resignation form the board, accompanied by a personal one, with a full statement of reasons for this step. President Oakes in a personal reply, urged him, while recognizing the force of his reasons, to withdraw his resig-nation, as the company urgently needed his assistance in funding the foating debt. Mr. Villard answered, according to this request, with the qualification that, under no circumstances, could he serve longer than the end, in October next, of his present three years' term as a director. It has been well understood by Mr. Villard's personal friends for a long time that he would not seek a re-election at the annual meeting of stockholders of the North American Company, but that he would continue to be interested in the company as a large stockholder, and to obtain for it, if desired, such financial aid as it may need.

and to obtain for it, if desired, such maneral and as it may need. **Pacific Mail Steamship.**—Mr. George Gould has notified the directors of the Pacific Mail Steamship Company that, owing to the many calls upon his time, he will not be a candi-date for re-election to the office of President at the next annual meeting. It is expected that Mr. C. P. Huntington will be elected in his stead. It is reported that the differences between this company and the Parame Railroad have been adjusted, and that negotia-

the Panama Railroad have been adjusted, and that negotia-tions between the two companies have been satisfactorily concluded and that their relations are now harmonious.

Philadelphia & Reading.—Mr. Isaac L. Rice, who was the foreign representative of Reading in Europe, and who was requested by the Pennsylvania Annuity Company to report to them for the benefit of bondholders for whom that company is trustee, has made his report.

As a result of his examination, Mr. Rice gives the following as an account of Mr. McLeod's transactions:

as an account of Mr. McLeod's transactions: About September 25, 1892, he entered into certain individual stock transactions, resulting in the purchase of 24,036 shares of Boston & Maine and 32,000 shares of New York & New England. On October 18, 1892, Mr. Rice states that Mr. McLeod withdrew from the treasury of the company without the authority of the Board of Managers \$30,000 general mortgage bonds of the company, which as it after ward appeared were used as margin in the transaction. Subsequently he withdrew in the same manner and for the same purpose the follow-ing additional securities: Out 28, 1292, 8250,000 Collectors Unset Day 5.

Oct. 28, 18	392, \$250.	000 Coll	ateral Tr	ust Bonds	i
Oct. 29, 18				ust Bonds	
Nov. 7, 18	392, 250,	000 Coll	ateral Tr	ust Bonds	
Nov. 11, 18				ust Bonds	
Dec. 1, 18	392, 100	,000 Coll	lateral Tr	ust Bonds	1.

Nov. 11, 1892, 63,000 Collateral Trust Bonds. Dec. 1, 1892, 100,000 Collateral Trust Bonds. Dec. 1, 1892, 99,000 Third Pref. Income Bonds. Part of these were deposited with the brokers and the remain-der used as collateral for a note to the Pennsylvania Warehousing & Safe Deposit Company not made by the company, dated Oct. 29, 1892, the proceeds of which, amounting to \$143,076 15, were applied in part payment of the New York & New England stock. "No reference whatever is made to these transactions on the books of the company excepting the mention of the withdrawal of securities against the personal receipt of the President," and it is stated no men-tion is made of the same on the minutes of the Board of Managers prior to December 24, 1892. On that day the board passed a resolution that after consultation with members of the board the President joined with certain friends, of the company in the purchasing of the stock men-tioned, and in Carrying the same used certain collateral of the com-pany, and that the action be approved. "No further move appears to have been made after the adoption of the above preamble and resolution until January 17, 1893, when the President deposited as further margin \$250,000 additional collateral

trust bonds, making a total of \$963,000 of those bonds deposited as

trust bonds, making a total of \$963,000 of those bonds deposited as margin." It was not until February 10 that Mr. McLeod directed the brokers carrying the accounts to transfer them from his individual name into that of the company. The brokers complied with the directions of Mr. McLeod and trans-ferred the accounts relating to these transactions from his name to that of the company, subsequently rendering statements to the com-pany with respect thereto, of which the following are synopses: F. H. Prince & Co., of Boston, have a balance on account of \$4,261, 507 43. Against this the firm held 24,036 shares of the B. & M. R. R. and \$350,000 Col. Trust bonds. Ervin & Co., of this city, have a balance on account of \$392,-of 627. Against this the firm holds 11,000 shares of N. Y. & N. E. R. R. Co., \$283,000 railroad collateral trust bonds and \$1,540,0.00 P. R. third preference bonds. Summing up both accounts there is involved in them money and obligations to the company amounting to \$3,152,000. The report deems it of the highest importance that the company should ascertain without delay its exact status in respect to the foregoing transactions. In the matter of stock transactions there has been a total loss of \$1,385,000, considering the collateral sold at the price they brought; and a loss of over \$1,500,000, considering them as obligations of the company now outstan ling. In a reply to the report of Mr. Ruce, Mr. McLeod, in a state-

In a reply to the report of Mr. Rice, Mr. McLeod, in a state-ment over his signature, explains in detail that all the trans-actions for the purchase of the stocks to control New England railroads were made with the concurrence and approval of the Reading directors for the benefit of the Reading. He also states that the claim of F. H. Prince & Co. for \$180,000 in com-missions for making transactions to acquire stock was unjust; histons for making transactions to acquire stock was unjust; that he was to get only the regular commission, and that Mr. Prince had no other understanding. —Mr. John Lowber Welsh says Reading has paid \$2,000,000 of obligations incurred prior to the appointment of the re-

Mr. John Lowber Welsh says Reading has paid \$2,000,000 of obligations incurred prior to the appointment of the receivers.
On May 18, 1893, Mr. George M. Pullman effected a settlement of his claims against the Reading Company by agreeing to surrender the equipment notes held by him and to subscribe for \$1,000,000 of the new collateral trust loan.
Regarding the plan, the Philadelphia *Press* says: "If it is accepted by 90 per cent of the general mortgage bondholders and the stockholders agree to place their stock in the hands of a voting trust for seven years, the promoting syndicate will stand ready to furnish the money necessary to carry out the details in accordance with their contract. The responsibility for the failure or success of the plan will, in this instance, be with the security holders. It is stated that the proposition which will be offered to them is one of the most favorable ever presented under such circumstances."
The Boston *News Bureau* says: "The 24,033 shares of B stom & Maine RR. stock recently held in this city for the account of the Philadelphia & Reading RR. Co. has been taken by a syndicate of Philadelphia and New York capitalists whose names or future plans cannot yet be announced, but there is very likely to be some change in the B. & M. directory shortly. The proposition which Mr. McLeod made for taking up B. & M. from the Reading in behalf of his syndicate was not accepted by the Reading."

Port Royal & Augusta.—At Charleston, S. C., May 12, in the United States Circuit Court, Judge Simonton denied the motion to remand the cases to the State court and ap-pointed J. H. Averill temporary receiver of the property and assets of the company.

This decree is in conformity with the recent decrees ren-dered by Judge Pardee in Savannah and Judge Simonton and places the Port Royal road absolutely in the hands of Receiver Averill.

Railroads in New York State.-The following have reported to the State Railroad Commissioners for the quarter ending March 31.

CANADIAN PACIFIC RAILWAY.

TWELFTH ANNUAL REPORT OF THE DIRECTORS-FOR THE YEAR ENDING DECEMBER 31, 1892.

A balance sheet of the affiirs of the Company at 31st December last and the usual statements relating to the busi-ness of the past year are submitted.

The gross earnings for the year were	821,409,351 77 12,989,004 21
And the net earnings were	\$8,420,347 56 203,602 72
Deducting the fixed charges accrued during the year	\$8,623,950 28 5,102,018 09
The surplus was. From this two supplementary dividen is of one per cent each were made, and paid August 17th, 1892, and February 17th, 1893.	
Leaving a surplus carried forward. Surplus of previous years	$\frac{\$2,221,93219}{4,701,59925}$
Total surplus carried forward	\$6,923,531 44

The working exceases for the year amounted to 60.67 per cent of the gross earnings, and the net earnings to 39.33 per cent as compared with 60.43 and 39.57 per cent respectively in 1891.

The earnings per passenger per mile were 1.69 cents, and per ton of freight per mile 0.84 cents, as against 1.70 and 0.91 cents respectively in 1891.

cents respectively in 1891. The earnings and working expenses of the South Eastern Railwav, which is worked by the Company for the account of the Trustees, are not included; nor are the earnings and working expenses of the Qu'Appelle Long Lake and Sas-katchewan, and the Calgary and Edmonton Railways in-cluded, these lines being worked temporarily by your Company.

The following is a comparative statement of the earnings and working expenses of the Railway for four years :--

	1889.	1890.	1891.	1892.
	\$	\$	*	\$
Passengers	4,623,474 00	4,774,713 76	5,459,789 46	5.556,316 40

Netearn'gs 6,127,836 16 6,299,700 51 8,009,659 87 8,420,347 56

The traffic of the Railway for the year suffered from an unusually light harvest and from the very low prices for wheat prevailing in the world's markets, but the continued development of general business more than made good the loss from these causes

An increase in the acreage ready for crop in the Northwest of more than 30 per cent over any preceding year gives promise of a large traffic following the next harvest. Mean-time, in addition to the ordinary development of traffic, which is constantly going on, the opening of the World's Fair at Chicago will doubtless bring increased earnings from presenters. passengers. The winter of 1891-92 was a very favorable one for railway

and net earnings; but the past winter has been the most difficult within the experience of 'the Company, and al-though the lines have been worked without interruption, the results compare at a disadvantage with those of a year ago

All of the property of the Conpany has been maintained in

All of the property of the Company has been maintained in excellent condition, and its traffic has been conducted with the usual freedom from serious accident. The Company's Steamship line to China and Japan has quite justified the expectations of your Directors. The profits from the steamships are included in the gross earnings of the rail way as shown in this report. The profits of the Company's Telegraph, Express, Sleeping Cars, Lake Steamers and Grain Elevators have considerably increased

increased.

increased. The greater part of the Company's lines having been made in 1882, '83 and '84, and the ordinary life of the timber used in sleepers, etc., being from 6 to 9 years, the renewals of timber in the permanent way have fallen in neavily within the past two or three years, making a heavy charge on the working expenses; but by the end of the present year a small percent-age of the original timber will remain and the rene wals may be expected to fall to a moderate average. The Minneapolis St. Paul & Sault Ste, Marie Railway (the so called "Soo" line), controlled by your Company, shows a large increase in gross earnings and profits for the year, and there is already a fair margin of safety between the profits of the line and the liability of your Company as guarantor. The extension of this line to the International Boundary, and the construction of a branch of your railway connecting

and the construction of a branch of your railway connecting

it with your main line at Pasqua, both of which were re-ferred to in the last annual report, are expected to be completed and in operation within five months from this time, and will

and in operation within five months from this time, and will afford one of the shortest routes between St. Paul, Minneapolis and Chicago and the Pacific Coast, and a line having advan-tages over all others in nearly every respect. The †Duluth South Shore & Atlantic Railway, also con-trolled by your Company, has suffered for two years from various temporary causes affecting its iron-ore traffic; but the losses in this regard have been made good by a large increase in its general business, especially in forest products. Its un-favorable conditions are now removed and it is expected that its present year will be a prosperous one.

The results of both these important lines up to the present time have satisfied your Directors that, while at no time a drain upon your resources, they will soon add largely to your profits.

During the year the Souris branch was extended to the coal fields at Estevan. 47 miles, making available an abundant supply of cheap fuel for the prairie sections of Manitoba and Assiniboia.

A sindoua. A line from Deloraine to Napinka, 18 6-10 miles, connect-ing the Southwestern branch with the Souris branch, and another from Souris to Nesbitt, 18 5-10 miles, connecting the Glenboro branch with the Souris branch, were completed

Glenboro branch with the Souris branch, were completed during the year. The Pipestone branch referred to in the last annual report was completed for a distance of 31 3'10 miles. Towards the construction of these four lines the Company received from the Province of Manitoba \$204,775, and from the Dominion Government a grant of 6,400 acres of land per mile in respect of the first three named and a promise of a grant at the same rate per mile for the Pipestone branch. The navigation of the Columbia River between Revelstoke and the head of Arrow Lakes has proved to be only practiz-able for about three months in the year, and it will doubtless become necessary to construct 28 miles of railway during the present year to cover this section and maintain connection with your Columbia and Kootenay Railway, upon which the protection of your interests in Southern British Columbia, de-pends. pends.

pends. A branch from a point on the main line near Renfrew, in the Ottawa valley, westward by the way of Eganville through the chief forests of pine in Ontario has been in contemplation for a number of years. The protection of the Company's in-terests in that direction made it necessary to proceed with the construction of this branch, and 23 miles of it, to Eganville, are now completed and in operation, the work having been done under the charter of the Atlantic & Northwest Railway, which is owned by your Company. Your Directors have agreed to leave the line of the Montreal & Lake Maskinonge Railway, extending from St. Felix to St.

Your Directors have agreed to lease the line of the Montreal & Lake Maskinonge Railway, extending from St. Felix to St. Gabriel, a distance of eleven miles, for the term of 99 years, at a rental of 40 per cent of the gross earnings, with the option to your Company to purchase the line at the price of \$6,000 per mile at any time during the said term. The lease will be submitted for your approval. Negotiations are pending with the Alberta Railway & Coal Company for the lease and subsequent nurchase of that Com-

Company for the lease and subsequent purchase of that Com-pany's line, extending from Dunmore to the coal mines at Letnbridge, 109 miles. Your authority will be asked to lease Lethbridge, 109 miles. Your authority will be asked to lease the line in question at a renal of 40 per cent of its grossearn-ings on its being brought to your Company's standard, and to purchase it on or before December 31, 1897, at the rate of \$9,000 per mile. This line will be necessary to your Company in the event of the construction of a line through Crow's Nest Pass, and in any case it will be quite self-supporting. A detailed statement of the expenditures for additions, im-provements and equipment is appended to this Report. Five hundred and fifty-one timber bridges were replaced with permanent work—masonry or iron, or earth embank-ments—during the year, and the work on ninety-nine more was partly done.

was partly done.

While a vast amount of work has been done within the past

While a vast amount of work has been done within the past five years in the way of replacing woolen bridges with per-manent work, much remains to be done this year and next. The estimate in the last annual report, that the improve-ments made in roadway and bridges had resulted in a saving in working expenses equal to about 20 per cent per annum on their cost, will hold good in regard to the improvements of the past year, and the improvements yet to be made will doubtless result in a proportionate saving. Your Directors therefore desire to proceed with and complete the work re-maining to be done as soon as possible. The completion of these works will, it is believed, place your Railway well in advance of any of the other trans-Conti-

The completion of these works will, it is believed, place your Railway well in advance of any of the other trans-Conti-nental lines in point of ec nomical working and general effic-iency, and will go far towards reducing the cost of working to the point which your Directors fully believe will soon be reached, viz., 55 per cent of the gross earnings. Aside from the completion and improvement of the perma-nent way, large additions must be made to the rolling stock to keep pace with the increasing traffic, but just when and to what extent these additions should be made must depend upon the development of business during the season. An addional grain elevator of 1.500,000 bushels capacity should be built at Fort William during the present year, and another of 800,000 bushels at Winnipeg. Large additions to the Company's wharves at Vancouver, and to the terminal facilities at Montreal, Toronto and other points, must be made. The Company's telegraph system should be extended to a

number of important points not yet reached. Additional sid-ings for working purposes are needed at many points, and sidings for new industries are in constant demand.

sidings for new industries are in constant demand. Improvements and permanent additions to your property of this and similar character are necessary to the healthy and continuous development and retention of traffic, and expendi-tures for these purposes will not cease so long as the Company continues to prosper. These expenditures must be made either from profits or from new capital. The Directors hold that the annual profits, after providing for a reasonable reserve fund, should be divided among the shareholders, and that additions and improvements to the property should be provided for by new capital. The additions and improvements made for a number of years back have been provided for by the issue of 4 per cent Debenture Stock, the additions including the steamships in the China line.

Debenture Stock, the additions including the steamships in the Debenture Stock, the additions including the steamships in the China line. D. benture stock has also been issued to take up interest-bearing obligations of the Company as opportunity has offered, and when the exchange could be made to advantage. Your Directors, however, are of the opinion that the time has arrived when these outlays may be advantageously pro-vided for otherwise than by the issue of 4 per cent Debenture Stock; and in order that a proper relation may be maintained between the fixed obligations of the Company and its Capital Stock, and in view of the high credit of the Company, which your Directors feel sure will be strengthened year by year, they procured the passing of an Act by the Parliament of Canada at its last session restoring to the Company the powers of its original charter respecting the creation of preference stock. This Act permits the creation of such preference stock as may be authorized by a two-thirds vote of the shareholders at any special meeting, called for the purpose, and linits the total issue to one-half the amount of the ordinary shares at any time outstanding.

total issue to one-half the amount of the ordinary shares at any time outstanding. The Act also provides that any new stock may be issued in sterling amounts, and that the outstanding ordinary stock" may be converted into sterling stock at the holders' request; every twenty pounds of sterling stock, whether ordinary or preference, to have the same voting power as a share of one hundred dol'ars of ordinary stock. Your Directors now recommend that preference stock be issued for such purposes requiring new capital as may be from time to time approved by the shareholders. The Directors wish especially to call your attention to the following items in the balance sheet : Station balances, accounts receivable, miscellanceous se-

curities and advances	\$5,908,887 3,334,425
and the second se	

Total current assets	\$14,533.441
Current liabilities, including vouchers and pay-rolls.	\$2,794,299
Interest and rentals accrued	1,788,213
Supplementary dividend due in February	650,000

LANDS.

LANDS. At the beginning of last year the Directors made a con-siderable reduction in the price of the Company's lands, with a view to hastening their sale and cultivation. This policy was remarkably successful; the acreage disposed of during the year was FOUR TIMES greater than in 1891. A large movement of settlers from the United States to the Canadian Northwest was a marked feature of last year's im-migration. In addition to the free Government lands taken up by them, and to the lands purchased from other Compa-

nies, these settlers purchased from the Canadian Pacific Railway Company 87.680 acres. During the year a settlement was made with the Ontario &

deres. 25,000,000 Surreadered to Govt under ag'm't of Mar. 30,'86 6,793,014

The amount received from Town-sites during the year, after

The amount received from Town-sites during the year, after deducting all expenses, was \$344,552'37. As anticipated in the last annual report, the Company has been able to pay from the proceeds of the Manitoba Sourhwestern land grant, and to set aside from deferred pay-ments on lands sold from this grant, a sufficient amount to reduce the claim of the Manitoba Government against these lands by \$317,881 24, leaving a balance due of only \$325,341, and it is expected that by the end of the present year a suffi-cient amount will be set aside to practically excinguish this claim, after which the entire proceeds of sales of these lands, together with the proceeds of sales of I ands earned in respect of the Souris Branches and the proceeds of Town-sites, will be available for interest on the land grant bonds outs anding, and for recouping to the Treasury the amounts alreaty advanced as interest on these bonds.

as interest on these bonds. With the payment of the divid-nd in August next the divi-dend fund deposited with the Dominion Government in 1883 will be exhausted. This event has been looked forwarl to by many with anxiety, but the Directors are happy and proud to say that the termination of the guaranty which was based on this deposit finds the Railway earning more than five per cent on its ordinary stock, and with an available surplus amount-ing to two years' dividends at five per cent to fall back upon in case of need. With a view to more convenient working and to the more active participation of the Directors in the affairs of the Com-pany, it is recommended that vacancies occurring in the Board shall not be filled (except in special cases when the Di-rectors may deem it expedient) until the number of Directors shall be reduced to nine. You will be asked to approve a by-law to this effect, and another changing the date of the an-mual meeting from the second Wednesday in May to the first Wednesday in April, by which date the annual statements may in the future be in readiness. The Directors regret to announce that the Right Hon. Lord Mount Stephen, owing to his absence from Canada, finds him-set unable to director the during neutrino to the nore)

The Directors regret to announce that the Right Hon. Lord Mount Stephen, owing to his absence from Canada, finds him-self unable to discharge the duties pertaining to the position of a Director to his own satisfaction, and therefore declines re-election. This severance of his official connection with the Company will not, we are well assured, in any way lessen the deep interest which he has always taken in the Company, and in everything connected with it calculated to promote its prosperity. Nor will it, we are equally well assured, make him less willing in the future than he has been in the past, to aid and support your Directors in all their efforts to advance aid and support your Directors in all their efforts to advance the interests of the Company. For the directors, WM. C. VAN HORNE,

President.

Pittsburg Shenango & Lake Erie.-At Columbus, Ohio, Pittsburg Shenango & Lake Erie.—At Columbus, Ohio, May 18, articles incorporating the Pittsburg Shenango & Lake Erie Railroad Company were filed. The company is a con-solldation of the Pittsburg Shenango & Lake Erie Railroad Company, the Erie Terminal Railroad Company and the Con-neaut Terminal Railroad Company. The capital stock of the new company is \$4,800,000. The stock of the new company is to be exchanged for that of the several constituent com-panies, share for share, except in the case of the Conneaut Terminal, whose stockholders will receive two shares of the new for one of the old. The consolidated company will issue \$4,250,000 in bonds to redeem a like amount already issued by the Pittsburg Shenango & Lake Erie; \$150,000 to redeem bonds of the Erie Terminal, and the necessary amounts to take up other bonds; provided the whole issue shall not exceed \$4,800,000 \$4,800,000.

Rio Grande & Pecos.—A meeting of the holders of the second mortgage bonds will be held on June 21 at the office of C. B. Wright, Jr., 142 South Third Street, Philadelphia, second mortgage bonds will be held on June 21 at the office of C. B. Wright, Jr., 142 South Third Street, Philadelphia, "for the purpose of removing or confirming the removal of the trustee named in the mortgage, of appointing or confirm-ing the appointment of a trustee in its place, of declaring the principal of said mortgage due, and of directing the trustee to sell the said mortgaged premises under the terms of said mortgage." mortgage."

Savannah & Western.—At Savannah, May 17, Judge Pardee of the United Sates Circuit Court of New Orleans appointed R. J. Lowery and H. M. Comer receivers of the Savannah & Western Railroad. Suit was brought by the Central Trust Company of New York. Judge Pardee has appointed Comp-troller Edward McIntyre of the Central Railroad of Georgia a special master to take account of all property and assets of the Savannah & Western and file it in the Circuit Court with-in ninety days. The Central Railroad and the Savannah & Western will be operated together, but accounts will be kept separately. separately.

The Savannah News says that \$4,163,000 of the Savannah Western bonds out of a total issue of only \$7,000,000 have been sent to the Mercantile Trust Company for entrance into the reorganization plan.

Staten Island .- The stockholders of this company, whose Staten Island.—The stockholders of this company, whose road is leased to the Staten Island Rapid Transit Company, meet on May 22, 1893, to vote on a proposition to execute a new first mortgage to secure \$1,000,000 of 4½ per cent bonds which will mature in 1993. The old first mortgage 7s for \$300,000 were 'paid at maturity April 1 last. The new loan will refund this amount, and provide for improvements, ex-tending the line and laying dcuble track, when authorized by two-thirds in interest of the stockholders.

Texas Santa Fe & Northern.—On application of the Farm-ers' Loan & Trust Co. of New York, Associate Justice Teeds, of the Territorial Supreme Court in Santa Fe, New Mexico, ers has appointed E. R. Chapman of the firm of Moore & Schley, New York, receiver.

Toledo Ann Arbor & North Michigan.—Several prominent banking houses who are creditors of the Toledo Ann Arbor & North Michigan have united in a formal request to Mr. F. P. Olcott, President of the Central Trust Co., that he will form a committee, with himself as chairman, to reorganize the affairs of the company. A large sum in cash will have to be raised, and the reorganizing committee will, it is understood, be pre-pared to subscribe it. The reorganization will be complete, all the various mortgages being merged in a new first mort-gage bond covering the entire property, and the fixed charges.

an the various mortgages being merged in a new instantion gage bond covering the entire property, and the fixed charges will be brought safely within the earning power of the road. It is reported that an issue of receiver's certificates has been determined upon in order to provide funds for the adjustment of the claims of the Craig Ship-building Company, which con-structed the large steamers for the road's lake service.

Toledo St. Louis & Kansas City.—At Cleveland, Ohio, May 19, President Calloway of the Tol. St. L. & K. C. RR, was appointed receiver by Judge A. J. Ricks in the United States District Court on the application of Stout & Cory of New York, who filed a bill against the T. St. L. & K. C. RR., claiming to have a judgment for \$40,000 in the Common Pleas Court at Toledo, upon which execution had been returned un-satisfied Col Robert G Lucgeral Coursel for the satisfied. Col. Robert G. Ingersoll, General Counsel for the company, who was present, consented to the appointment on behalf of the company, and application was at once made before Judge Woods of the United States Circuit Court at Chicago for a similar appointment for Indiana and Illinois.

Toledo & Sonth Haven.-In the United States Court in Grand Rapids, Mich., a decree of foreclosure has been handed down in favor of the Farmers' Loan & Trust Co. of New York for \$306,397.

Trunk Line Association.—At a meeting of the presidents this week, relative to the N. Y. Central's "flyer," the following rates, which are to be added in each instance to the standard rate of \$20, were agreed to, the increase applying to all the roads besides the Central: Twenty-six hours, \$3; twenty-four and one-half hours, \$6; twenty-two and one-half hours, \$8; twenty and one-half hours, \$10.

Union Pacific .- The amount of collateral trust bonds outstanding has been reduced to \$11,510,000.

Western Maryland .- The report of the Western Maryland Bailroad Commission has been sent to the Baltimore City Council, recommending the postponing for two years of the consideration of the sale of the road unless a most advan-tageous offer for its sale is received in the meantime. The Commission says :

Commission says: "Liabilities and charges have been incurred in the construction of branches which your Commission might not have been willing to recommend had such question rested with them, but which it now finds fluished or nearing completion and with a very heavy traffic in transit over a portion thereof. Under these circumstances the Commission deems your interests best served by recommending that there be no haste in seeking a purchaser. Having carried the property so long it had better be retained for a time to enable you to learn what is its earning power. * * * "Your Commission believes that two years' working, with an able comptroller in charge of the accounts, would reveal the real situation and the earning power of the property much more thoroughly and ex-clusively than is possible to-day, and you would then be enabled to determine intelligently the price at which you would be willing to sell it. "If there is to be no comptroller appointed, and you permit matters to go on as at present, the Commission is of opinion that you had bet-ter sell your interest as soon as possible, and not wait for further and greater complications." The report states that the line is in good condition through-

The report states that the line is in good condition through-out and gives evidence of close, careful and, it is believed, economical management. The Commission finds that to Sept. 30, 1892, the cost of the railroad to the City of Baltimore was \$8,458,197, and the present value is \$5,784,193. "This is without regard to the benefit that may be derived in the future from the net earn-ings of the branch lines."

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, May 19, 1893.

The business situation remains unchanged. Most manufacturing industries are well employed in filling contracts, but great care is exercised to abstain from producing an excess of stocks. Speculative investments in staple merchandise have again been moderate, financial conditions not being favorable to such ventures. Foreign demand for breadstuffs has been conducted with greater caution, under the influence of a gradual improvement during the week in tenor of reports regarding European crop prospects. Weather conditions in agricultural localities at the West have been unsettled, but the latest advices at hand from sources accepted as reliable, indicate that winter wheat is maintaining quite as good a status as one week ago; spring seeding of wheat has pro-gressed with greater rapidity and the corn crop is nearly planted, but excessive moisture and deficiency of warmth and sunshine are unfavorable to rapid cermination. Lard on the spot has relapsed into dulness and prices have declined, though at the close the market was steady, with part of the loss recovered, at 10°25c. for city, 11°05c. for prime Western and 11 35c. for refined for the Continent. The speculation in lard for future delivery in this market has continued dull, and in the fore part of the week was depressed in sympathy with the weakness of the grain markets, but later small receipts of swine at primary points caused a re-covery, and the close was steady. DALY CLOSING PRICES OF LARD FUTURES. dise have again been moderate, financial conditions not being

Beptember deilvery....c. 11:15 11:20 11:40 11:20 11:25 11:40 Pork has met with a fair inquiry and prices have been advanced to \$2125a\$22 for mess, \$2150@\$2250 for short clear and \$21@\$2150 for family. Cut meats have sold slowly, but values have been firmly maintained, owing to a higher cost of hogs, closing firm at $12@121/_{\circ}c$. for pickled bellies, 12 @10 lbs, av., $131/_{\circ}0$ 14c. for pickled hams and $93/_{\circ}0$ 10c. for pickled shoulders. Beef is quiet but steady at \$750@\$8 for extra mess, \$8@9 for packet, \$11@12 for family and \$16@\$17 for extra India mess. Beef hams are unchanged at \$18@1850. Lard stearine is easier at $113/_{\circ}012c$ in hhds, and tcs. Oleo stearine has declined to $91/_{\circ}c$. Tallow is fairly active and steady at $51/_{\circ}c$. Cotton seed oil is closing dull and easy at 47c. for prime crude and 50c, for prime yellow. Butter is in fair demand and steady at 20@24c. for creamery. Cheese is moderately active and fairly steady at $93/_{\circ}012c$. for State fac-tory full cream. Fresh eggs were steady at $151/_{\circ}0153/_{\circ}c$, for Western. Western.

Coffee further advanced through the influence of increased demand and moderate offering of desirable qualities, but toward the close became somewhat easier. Rio quoted at 163%c. for No. 7; good Cucuta, 2034@21c., and interior Pa-dang, 24@25c. Contracts were bought with some freedom to cover short engagement on present crop months, but at the advance there was some selling of late options. At the close to-day the offerings were smaller and tone firmer. The following are the final asking prices:

Speculation in cotton for future delivery at this market fails to secure stimulating influences, and the business during the current week has been of an apathetic, perfunctory character. The average run of foreign advices was somewhat more encouraging in the steadiness shown for contracts and an increased sale of cotton to Manchester spinners, and there was also a very good business done in this market on orders from Continental buyers. During the early portion of the week indications of an overflow of the Mississippi prevailed, which have since become modified, but are supplemented by drive supplemented by week indications of an overflow of the Mississippi prevailed, which have since become modified, but are supplemented by advices reporting unfavorable weather in several localities of the Cotton Belt. None of the features noted, however, were sufficient to fully neutralize the apprehensions en-tertained in regard to financial conditions, and deal-ings in cotton certificates were confined, in the main, to the protection of outstanding engagements and to small trading between local operators. During Satur-day, Monday and Tuesday prices underwent many moderate fluctuations, influenced by the variable reports regarding the rising of waters of the Mississippi and its tributaries, with some covering of short engagements taking place, but no evi-dence of new ventures. Wednesday opened firmer, but re-acted sharply under reports of greatly lessened danger of over-flow. Yesterday there was renewed strength in reflection of less promising weather reports from the South. To-day the offerings were somewhat more plentiful, on Southern account in particular, and prices eased off again. Cotton on the spot has received fair attention, principally for export, at steady rates. Middling uplands, 7 13 16c. The total sales for forward delivery for the week are 527,600 bales. For immediate delivery the total sales foot up this week 10,779 bales, including 8,562 for export, 1,817 for consumption, — for speculation and 400 on contract. The following are the official quotations for each day of the past week-May 13 to May 19.

Price Mid. Upl., New York 713160. 7380. 815160. 1238 The imports into Continental ports the past week have

been 28,000 bales,

The above figures indicate a *decrease* in the cotton in sight to night of 418,964 bales as compared with the same date of 1892, an *increase* of 667,643 bales as compared with the corresponding date of 1891 and an *increase* of 1,435,176 bales as compared with 1890.

AT THE INTERIOR TOWNS the movement—that is the receipts for the week, and since September 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period of 1891-92—is set out in detail in the following statement.

Louisville figures "net" in both years.

The above totals show that the interior stocks have decreased during the week 13,561 bales and are to-night 26,972 bales less than at the same period last year. The recipts at all the towns have been 2,919 bales less than the same week last year and since Sept. 1 they are 1,186,261 bales less than for the same time in 1891-92.

QUOTATIONS FOR MIDDLING COTTON AT OTHER MARKETS,-Below we give closing quotations of middling cotton at South-ern and other principal cotton markets for each lay o the week.

RECEIPTS FROM THE PLANTATIONS, -The following table indicates the actual movement each week from the plantations, The figures do not include overland receipts nor Southern sonsumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which Anally reaches the market through the outports.

Week Ending—		Receipt	satthe	Ports.	St'k at 1	Interior	Towns.	Rec'pts from Plant'ns.			
		1891.	1892.	1893.	1891.	1892.	1893.	1891.	1892.	1893.	
Apr.	14	71,313	62,416	53,243	259,773	347,989	333,387	55,220	42,414	31,373	
	21	64.733	43,207	42.895	247,381	320,683	307,836	52,841	15,901	17.344	
	28	59,536	49.283	48.144	231,975	301,912	280,297	44,130	30,512	18.605	
May	5	44,772	50.870	30.968	211,869	283,018	259,203	24,666	81.976	9.874	
46	12	52.519	50,127	30,150	187.744	264.971	243,088	28.391	32,080	14.033	
61	19	38,591	30,670	8 ,625	169,863	256,497	229,525	20.710	22.198	19,064	

The above statement shows: 1.—That the total receipts from the plantations since Sept. 1 in 1892-93 are 4,955,052 bales: in 1891-92 were 7,084,481 bales; in 1890-91 were 6,868,928 bales. 2.—That, although the receipts at the outports the past week were 32.625 bales, the actual movement from plantations was only 19,064 bales, the balance being taken from the stocks at the interior towns. Last year the receipts from the plantations for the week were 22,196 bales and for 1891 they were 90 710 bales 20,710 bales.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.-OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.— We give below a statement showing the overland movement for the week and since September 1. As the returns reach us by telegraph late Friday night it is impossible to enter so largely into detail as in our regular monthly report, but all the principal matters of interest are given. This weekly publication is of course supplementary to the more extended monthly statements. The results for the week ending May 19 and since Sept. 1 in the last two years are as follows:

Street Steves States Street Street	189	2-93.	189	91-92.
May 19	Week.	Since Sept. 1.	Week.	Since Sept. 1.
Shipped— Via St. Louis Via Cairo. Via Hannibal Via Evansville	4,762 2,043 83	190,803 138,131 14.020	3,463 1,921 76	339,756 161,462 37,546
Via Louisville Via Cincinnati Via other routes, &c	1,785 3,651 1,674	97,254	1,089 2,494 1,781	
Total gross overland	13,998	1,137,879	10,824	1,672.389
Overland to N. Y., Boston, &c Between interior towns Inland, &c., from South	8,574 5 782	21,506	7,403 265 1,397	60,459

Leaving total net overland*	4,637	787,350	1,759	1,142,733

Including movement by rail to Canada.

The foregoing shows that the week's net overland movement this year has been 4,637 bales, against 1,759 bales for the week in 1892, and that for the season to date the aggregate net overland exhibits a decrease from a year ago of 355,333 bales.

	189	92-93.	1891-92.			
In Sight and Spinners' Takings.	Week.	Since Sept. 1.	Week.	Since Sept. 1.		
Receipts at ports to May 19 Net overland to May 19 Southern consumption to May 19	32,625 4,637 10,000	787,350	1,759	6.883.913 1,142.733 524.000

North'n spinners tak'gs to M'y 19		1,571,122		2,017,887		

* Decrease during week.

It will be seen by the above that there has come into sight during the week 33.701 bales, against 31,955 bales for the same week of 1892, and that the decrease in amount in sight to-night as compared with last year is 2,447 812 bales.

WEATHER REPORTS BY TELEGRAPH. - Our telegraphic advices this evening indicate that over a large portion of the South the temperature was rather low early in the week, but toward the close it has turned more favorable. The precipitation has, on the whole, been light and, as a rule, beneficial. Reports from Texas are generally very satisfactory, and in most other districts the crop is making fairly good progress in development. From some sections, however, there are complaints that cold nights have damaged the plant, rendering replanting necessary. The Mississippi River is thirty-five and one-tenth feet on the gauge at Memphis, and stationary. This is half a foot below the high-water mark of 1890. One or two breaks in the levees have occurred during the week.

Galveston, Texas .- We have had rains on two days of the week, the precipitation reaching seventy-seven hundredths of an inch. The thermometer has averaged 74, ranging from 66 to 83.

Palestine, Texas.—There have been hard showers on three days of the week, the rainfall reaching one inch and sixteen hundredths, but the weather is now clear, with crops promis-ing. The thermometer has ranged from 54 to 84, averaging ing. 69

69. Huntsville, Texas.—Crops are very flattering but are get-ting grassy. We have had hard showers on three days of the past week, the precipitation being one inch and nineteen hun-dredths. Weather now clear. Average thermometer 69, highest 84 and lowest 54. Dallas, Texas.—Early in the week fine rains fell in every part of the cotton region of Texas, immensely improving all crop prospects, and clear weather has now set in, which is desirable, as it will enable planters to keep out of the grass. The rains stopped all work, but field labor is now resumed. Cotton-planting is now completed every where except in north-west Texas, where it is now nearing a finish. The crop Cotton-planting is now completed everywhere except in north-west Texas, where it is now nearing a finish. The crop promise is excellent everywhere. Rice is up. Wheat and oats are headed, but in consequence of the April drought the yield per acre will be short of an average. Some harvesting has already been done, but generally it will not be finished until a fortnight hence. As to cotton, there is the usual com-plaint about poor stands, sickly growth from low tempera-ture, washed-out hill sides, overflowed creek bottoms, neces-sitating replanting, bad seed, &c., but these chronic com-plaints have no more foundation than they have every year. They are always at hand at this stage of the season. There have been splendid rains on two days the past week, the rain-fall reaching two inches and fifteen hundredths. The ther-mometer has averaged 70, the highest being 86 and the low-est 54. est 54.

San Antonio, Texas .- There has been one magnificent rain

San Antonio, Texas.—There has been one magnificent rain the past week, and there is great rejoicing. The precipitation reached two inches and ten hundredths. The thermometer has averaged 74, ranging from 62 to 86. Luling, Texas.—Cotton and corn never promised better. It has been showery on two days of the week, the rainfall being four hundredths of an inch. Weather now clear. The ther-mometer has ranged from 56 to 88, averaging 72. Columbia. Texas.—The crops of old Brazoria never looked finer than they do this blessed day. We have had showers on two days of the week, the rainfall reaching forty hundredths of an inch. Average thermometer 70, highest 84 and lowest 54. Cuero, Texas.—No more rain is needed for a while. Crops are very flattering. Corn is considered assured without an-other drop of rain. We have had one good shower the past week, the rainfall reaching fifty-eight hundredths of an inch. The thermometer has averaged 74, the highest being 86 and the lowest 62.

The thermometer has averaged 74, the highest being 86 and the lowest 62. Brenham, Texas.—Crops are very promising but are get-ting in the grass in some sections. It has been showery on five days of the week, the precipitation reaching sixty hun-dredths of an inch, but the weather is now fair. The thermom-eter has averaged 70, ranging from 56 to 84. Belton, Texas.—It has rained tremendously on three days of the week, stopping field work, but clear weather has now set in and the granger is tackling the grass and weeds. The rainfall reached two inches and twenty-five hundredths. The thermometer has ranged from 42 to 84, averaging 63. Fort Worth, Texas.—Crops in general look well. It has rained on two days of the week, the precipitation reaching one inch and one hundredth. Average thermometer 73, highest 90 and lowest 56. Weatherford, Texas.—Wheat and oats are short of an aver-age. Cotton planting is finishing off. There has been rain on two days of the week, the precipitation being one inch. The thermometer has averaged 73, the highest being 90 and

The thermometer has averaged 73, the highest being 90 and the lowest 56. New Orleans, Louisiana.—Rain has fallen on three days of

New Orleans, Louisiana.—Rain has fallen on three days of the week, to the extent of one inch and seven hundredths. The thermometer has averaged 74. Shreveport, Louisiana.—Rain in the early part of the week rendered ground too wet to work. Cotton is backward, and some replanting has been necessary on account of cold weather. There are no apprehensions of an overflow of the Red River. The week's rainfall has been sixty-two hun-dredths of an inch, on four days. The thermometer has ranged from 58 to 86, averaging 71. Meridian. Mississimi.—The temperature has been too low

Meridian, Mississippi.—The temperature has been too low and the rainfall excessive. In consequence some cotton has died out and land is being replanted with corn.

Columbus, Mississippi.—The grain crop is fair, but cotton looks sickly and very small, cold weather being the cause. We have had a precipitation the past week of seventy-four hun-dredths of an inch, on two days. The thermometer has aver-aged 71, the highest being 91 and the lowest 50. Leland, Mississippi.—Rain has fallen during the week to the extent of ninety-four hundredths of an inch. The ther-mometer has averaged 70.1, ranging from 52 to 82

The ther-

mometer has averaged 70.1, ranging from 52 to 83. Little Rock, Arkansas.—We have had rain on three days of the week, the rainfall reaching fifty-six hundredths of an The thermometer has ranged from 56 to 83, averaging inch. 68.4.

Belena, Arkansas.-Telegram not received.

68 4.
Belena, Arkansas.—Telegram not received.
Memphis, Tennessee.—Nights have been too cool, but the weather is more favorable as the week closes. The river is thirty-five feet and one-tenth on the gauge and stationary, or two feet and one-tenth above the danger line and five-tenths of a foot below the extreme high water of 1890. We have had rain on three days during the week, to the extent of one inch and thirty-seven hundredths. The thermometer has averaged 68 8, the highest being 86.2 and the lowest 55.1.
Mashville, Tennessee.—Telegram not received.
Mobile, Alabama.—Crops are in fair condition but are needing dry, warm weather. We had rain on two days in the early part of the week, but the latter portion has been clear and cool. The rainfall reached one inch. The thermometer has ranged from 56 to 83, averaging 72.
Montgomery, Alabama.—Nights have been somewhat too cool, but otherwise the crop outlook is more favorable. We had rain on two days early in the week, the rainfall reaching one inch and three hundredths, but latterly the weather has been dry. Average thermometer 70, highest 79 and low-st 60. Selma, Alabama.—The weather has been favorable latterly and work is progressing nicely. We have had rain on this progressing nicely. We have had rain go on inch and forty-six hundredths. The thermometer has averaged 74, the highest being 97 and the lowest 52.

Auburn, Alabama.—Cotton and corn have been injured by excessive rain. Peaches are rotting badly. We have had rain during the week, the rainfall reaching one inch and five hundredths. The thermometer has averaged 67.5, ranging hundredths. T from 48.5 to 85.

Madsson, Morida.—Chopping out is about over. Crops look well. It has rained on one day of the week, the rain-fall being twenty hundred the of an inch. The thermometer Crops

tail being twenty hundredus of at inch. The thermometer has ranged from 50 to 85, averaging 62. Coumbus, Georgia.—It has rained on two days of the week, the precipitation reaching sixty-one hundredths of an inch. Average thermometer 71, highest 83 and lowest 58. Savannah, Georgia.—It has raised on four days of the week, the rainfall reaching thirty-four hundredths of an inch.

The thermometer has averaged 71, the highest being 86 and the lowest 54.

the lowest of. Augusta, Georgia.—Crop outlook is not encouraging, the continued cool weather being detrimental to the plant. We have had light rain on two days during the week, the rainfall reaching twelve hundredths of an inch. The thermometer has

reaching twelve hundredths of an inch. The thermometer has averaged 69, ranging from 53 to 88. Stateburg, South Carolina.—There has been rain on two days of the week, the rainfall reaching seventeen hundredths of an inch. The thermometer has ranged from 52 to 84.7, averaging 67.5.

Charleston, South Carolina.—We have had rain on three days of the past week, the precipitation being thirty-four hun-dredths of an inch. Average thermometer 72, highest 88 and lowest 56.

lowest 56. Wilson, North Carolina.—The increase in acreage is about ten per cent. Cool weather has killed some cotton. There has been rain on three days of the past week, the precipitation reaching eighty-two hundredths of an inch. The thermome-ter has averaged 67, the highest being 78 and the lowest 52. The following statement we have also received by telegraph mowing the height of the rivers at the points named at 8 clock May 18, 1893, and May 19, 1892.

ALEXANDRIA RECEIPTS AND SHIPMENTS .- Through arrangements we have made with Messrs. Davies, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years.

Alexandria, Egypt, May 17.	189	2-93.	189	1-92.	1890-91. 2,000 4,000,000		
Receipts (cantars*) This week Since Sept. 1.	5,1	1,000 12,000	4,6	9,000 20,000			
- and the second second	This week.	Since Sept. 1.	This week.	Since Sept. 1.	This week.	Since Sept. 1	
Exports (bales)— To Liverpool To Continent		281,000 281,000		316,000 232,000		273,000	
Total Europe	10.000	562.000	9.000	548,000	6.000	489.000	

* A cantar is 98 pounds.

This statement shows that the receipts for the week ending May 17 were 1,000 cantars and the shipments to all Europe 10,000 bales.

EUROPEAN COTTON CONSUMPTION TO MAY 1.—We have received to-day by cable, Mr. Ellison's cotton figures brought down to May 1. The revised totals for last year have also been received and we give them for comparison. Spinners' takings in *actual* bales and pounds have been as follows:

October 1 to May 1.	Great Britain.	Continent.	Total.
For 1892-93. Takings by spinnersbales Average weight of bales.lbs Takings in pounds	494	470	
For 1891-92.			

Takings by spinners...bales 2,058,000 2.347.000 4.405.000 Average weight of bales.lbs. 493 473 482 4

According to the above, the average weight of the deliveries in Great Britain is 494 pounds per bale this season, against 493 pounds during the same time last season. The Continental deliveries average 470 pounds against 473 pounds last year, and for the whole of Europe the deliveries average 4799 pounds per bale against 482.4 pounds last season. Our dispatch also gives the full movement for this year and last year in bales of 400 pounds.

Oct. 1 to May 1.		1892-93.		1	891-92	
Bales of 400 lbs. each. 000s omitted.	Great Britatn	Oonti- nent.	Total.	Great Britan	Oonti- nent.	Totai
Spinners' stock Oct. 1 Takings to May 1	91, 2,018	275. 2.748.	366, 4,766	148 2,537	326 2,763,	474
Supply Consumpt'n 30 weeks.	2,109, 1,929	3,023, 2,640.	5,132, 4,569	2,685	3,089 2,640.	5,774,
Spinners' stock May 1	180	383.	563	247	449	696,
Weekly Consumption. 00s omitted.						
In October	82,0	88.0	170,0	82.0	88,0	170.0
In November	66,0	88,0	154,0	82,0	88.0	170.0
In December	60,0	88,0	148,0	82,0	88,0	170,0
In January	60,0	88,0	148,0	82,0	88.0	170.0
In February	60,0	88.0	148,0	82,0	88.0	170.0
In March	55,0	88,0	143,0	84,0	88,0	172,0
In April	*82.0	88,0	170.0	84,0	88.0	172,0

* The average weekly consumption is as given by Mr. Ellison; deduc-tion from the nonth's total having been while on account of the stoppage of spindles.

The foregoing shows that the weekly consumption in Europe is now 170.000 bales of 400 pounds each, against 172,000 bales of like weights at the corresponding time last year. The total spinners' stocks in Great Britan and on the Continent have decreased 37,000 bales during the month, and are now 133,000 bales less than at the same date last year.

MANCHESTER MARKET. - Our report received by cable to-night from Manchester states that the market is easy for yarns and steady for shirtings. The demand for both home trade and foreign markets is poor. The improving tendency noted last week was counteracted by the financial situation. We give the prices for to-day below and leave those for previous weeks of this and last year for comparison:

		a level	-	1893.	12		1892.						
	32s Oop. Twist.		. 814 lbs. Shirings,			Oott'n Mid. Uplds	32s Oop. Twist.		84 lbs. Shirtings.			Oott'n Mid. Upls	
May 5 " 12	738 74 7	d. 084 084 0778 0778 0758	85555555	d. s. 8 ¹ 207 8 07 7 07 6 07 6 07 4 ¹ 207	d. 549222		d. 618 614 638 619 638 638		5 2 5 11		d. 4467619	d. 334 378 378 4 31516 4116	

JUTE BUTTS, BAGGING, &C .- Business in jute bagging for future delivery has been more active during the week under review and considerable orders have been booked. The ruling quotations to-night are 41/2c. for 13/4 lbs., 5c. for 2 lbs. and 51/2c. for standard grades, but round lots can be bought for 1/8c. less per yard. The market for jute butts is very quiet at 11%c. for paper grades and 13%c. for bagging quality.

SHIPPING NEWS.—The exports of cotton from the United States the past week, as per *latest mail* returns, have reached 59.122 bales

BREADSTUFFS.

FRIDAY, May 19, 1893. A complete change has taken place in the market for wheat

FREMAY, May 19, 1893. A complete change has taken place in the market for wheat flour since our last. The demand has relapsed into dulness, and all of the recent improvement in values has been lost in consequence of a decline in wheat. Low grades, however, are excepted; the supply continues light, and as a result val-ues are firmly maintained. Rye flour has sold slowly and the tone of the market is a shade easier, though no quotable declines have been made in prices. Corn meal has met with a fair inquiry at steady prices. To-day the market for wheat flour was quiet, but holders were a trifle stronger in their views in sympathy with a slight rise in the price of the grain. The speculation in wheat has been less active, and prices have declined materially under liquidation by "longs," prompted by a decided improvement to the crop prospects both at the West and abroad and owing to the failure of a number of Western banks. Foreign markets have been weak, and this, with considerable selling for foreign account, has added materially to the depression. In the spot market shippers have been fair buyers at declining prices. Yester-day's sales included No. 2 red winter at 78c. f. o. b. afloat and No. 2 hard winter at 1%c. under July delivered. The specu-lative dealings to-day were moderately active, and prices made a fractional advance on a demand from "shorts" to cover contracts, stimulated by less favorable corop advices from the Southwest. The spot market was firm, but quiet. Sales included No. 2 red winter at about ½@lc. under May delivered. delivered.

Early in the week the market for Indian corn futures was a trifle steadier for the near-by deliveries, owing to the small-ness of the crop movement and a general scarcity of supplies; but subsequently there was a decline in sympathy with the weakness of wheat and continued favorable crop prospects. The spot market was firm and higher early in the week, but The spot market was firm and higher early in the week, but later there was a decline, leading to a moderate business for export. The sales yesterday included No. 2 mixed for July delivery at $51\frac{1}{2}$ c. $abstrace{0.51}{4}$ c. f.o.b. afloat and No. 2 white for early June delivery at 543. in elevator. To-day the market was a trifle stronger with wheat. The spot market was dull. Sales included No. 2 mixed at $51\frac{1}{2}$ $abstrace{0.51}{4}$ delivered.

Oats have declined a trifle in sympathy with the weakness of wheat and corn, but any important break in values was checked by the continuation of the demand from shippers, their purchases this week amounting to about 275,000 bushels. The market to-day was a trifle higher, following wheat and corn.

THE DRY GOODS TRADE.

NEW YORK, Friday, P. M., May 19, 1893.

There are no new features in the dry goods trade. One day is monotonously like another in its unqualified dulness at first hands. The number of buyers who find their wav into the market is decidedly limited, resident representatives of out-oftown jobbers are in quiescent mood, and the aggregate transactions daily are more suggestive of a retail than wholesale business. The promise of warmer weather given by several fine days last week has not been fulfilled, this week's conditions having proved decidedly unfavorable in character. Continued inactivity is thus not to be wondered at. The numerous bank failures in the interior do not, so far, appear to have entailed serious consequences upon the dry goods houses in the districts affected by them, but they have naturally enough done something to add to the perplexities and discomforts of the present situation. Agents find it very difficult to persuade buyers, whether they are jobbers, converters, manufacturers or exporters to take an interest in anything they do not absolutely require for immediate use. Comparatively low prices do not appear to be an incentive to covering future needs to any extent, nor does a readiness on part of sellers to put goods " on memorandum " accelerate spot sales. There is still evident considerable irregularity in the condition of stocks in the market, those of some makes of domestics being scarce while others, and the great majority, are steadily increasing. It is some relief to agents and commission men to know that preparations for fall trade on the part of the most important buyers cannot well be much longer delayed, even if those preparations are to reflect continued adherence to a conservative policy. The jobbing trade has shown but slight symptoms of a reviving demand ; prices are very irregular in nearly every department, silks, ribbons and linens being about the only exceptions.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending May 16 were 1,361 packages, valued at \$99,206, their destination being to the points specified in the table below:

NEW YORK TO MAY 16.		1893.	1892.

C

* FIGH New England mill points direct.

The value of the New York exports since January 1 have been \$3,143,207 in 1893 against \$4,666,701 in 1892.

Business in all lines of staple domestics has proved limited so far as new orders are concerned, but considerable deliveries are still going forward to distributing points in completion of previous orders. There have been no changes at first hands during the week, but the price of Lockwood B 4-4 brown sheetings was reduced to 61% c. from 61% c. per yard by a leading joboing house. White goods are inactive, and weak and irregular in price. Kid-finished cambrics, silesias, corset jeans and satteens and other converted fabrics are also selling but slowly. Trade in the different makes of colored cottons, in fancy shirtings and in woven-patterned dress fabrics is of a hand-to-mouth character, while printed calcoses of all kinds continue inactive throughout with jobbers and nothing doing with agents. In some instances fine wash fabrics, printed and woven, had done a little better, but there is no breadth in the improvement to give it a significant character. Print cloths are 31% c, for 64 squares at Fall River and 31-16c, at Providence. The market continues dull and featureless.

WIND I HARD I HA	1893.	1892.	1891.
Stock of Print Cloths-	May 13.	May 14.	May 15.
Held by Providence manufacturers.	65.000	1.000	428.000
Fall River manufacturers		36,000	330,000

have again been made throughout the week, but have met with small success. In woolen and worsted dress goods new orders have been on a very moderate scale, despite the strenuous efforts of agents to interest jobbers and others. FOREIGN DRY GOODS.—The chief feature in this department has been the auction sale referred to above, by which some 10,000 pieces of woolen and worsted goods and sundries of British manufactures were distributed. The sale was well attended and the offerings quite disposed of, but prices for the majority were very low, although hardly lower than might have been looked for considering current trade conditions and the fact that much of the merchandise was produced for by-gone seasons. In other respects business in imported goods showed no changes from the preceding week,

Importations and Warehouse Withdrawals of Dry Goods. The importations and warehouse withdrawals of dry goods at this port for the week ending May 18, and since Jan. 1, 1893, and for the corresponding periods of last year are as follows:

AND CITY DEPARTMENT. STATE

TERMS OF SUBSCRIPTION.

Commercial and Financial CHRONICLE contains 40 to 64 pages ublished every week.

State and City Supplement of CHRONICLE contains 180 pages published several times each year.

Investors' Supplement of CHRONICLE (a Cyclo pædia of Railroad Securities) contains 160 pages published every other month.

Subscription to CHRONICLE for one year \$10.00, which includes every issue of both SUPPLEMENTS.

The purpose of this State and City Department is to furnish our subscribers with a weekly addition to and continuation of the STATE AND CITY SUPPLEMENT. In other words, with the new facts we shall give, the amplifications and corrections we shall publish, and the municipal laws we shall analyze in the "State and City Department," we expect to bring down weekly the information contained in the STATE AND CITY SUPPLEMENT to as near the current date as possible. Hence if every Subscriber will note in his SUPPLE-MENT on the page designated at the head of each item a reference to the page where the item in the CHRONICLE can be found, he will at all times possess a complete and fresh cyclopædia of information respecting Municipal Debts.

Wisconsin.-(STATE AND CITY SUPPLEMENT, page 100.)-A new law passed by the Wisconsin Legislature and approved on the twentieth of last month gives authority for the issuance of bonds to cities operating under special charters granted by the State, and containing a population of three thousand or more inhabitants, as follows :

For the erection and construction of a city hall and the

For the erection and construction of a city hall and the purchase of a site for the same. For the construction and extension of water-works or the purchase of the same, and for constructing sewers, and for the improvement and maintenance of the same. For the erection, construction and completion of school buildings and the purchase of school sites. For the purchase of sites for engine houses, for fire en-gine and other equipments of the fire department, and for the construction of engine houses.

the construction of engine houses. For the purchase of sites for police stations and for the construction of buildings thereon for the u_{3e} of the police department. For the construction of viaducts, bridges, and for repairs

of the same,

For the erection and construction of library and museum buildings and the purchase of sites for the same.

For the establishment of public baths and hospitals and For the purchase of lands for public parks and improve-

ments thereof and for the payment of purchase money and interest thereon which may be or become due for park lands already acquired or contracted for.

For permanently improving streets in such city, and for creating a fund out of which to advance the cost of repairs to sidewalks in anticipation of the collection of special assessments for such cost of repairs by the treasurer of such

city. For the construction or purchase of electric or gas light plants for lighting streets and public buildings. For refunding existing indebtedness.

The law further provides that bonds issued under its authority shall bear interest, payable annually or semi-annually, at a rate not exceeding 6 per cent per annum; also that no such bonds shall be issued so that the amount thereof, together with all the other indebtedness of the city, shall exceed 5 per cent of the assessed valuation of the city at the last assessment for State and county taxes previous to the incurring of the indebtedness. Another very wise requirement is that the bonds shall show on their face the amount of indebtedness of the city issuing the same, the annual amount of the assessment of the taxable property therein for the five years next preceding the issue, and the average amount thereof, and they shall not be sold for less than their par value and accrued interest.

The common council of any city having issued bonds authorized by this act shall annually levy a tax upon all the taxable property within such city sufficient to pay the annual interest thereon, and to provide a sinking fund each year equal to 5 per cent on the principal of said bonds for the payment of said bonds

Finances of Essex County, N. J.-The Board of Freehold ers of Essex County, N. J., have received and made public the reports of the finance and sinking fund committees for the year ending May 8, 1893. The statements show that, including the balance of \$216,426 on hand May 9, 1892, the total receipts for the year were \$1,945,600; expenditures, \$1,578,736; balance May 8, 1893, \$366,864. The expenditures include \$78,187 for interest on the road and war bonds.

During the year the Board issued \$15,000 of road bonds for laying out and constructing part of Springfield Avenue and old road bonds to the amount of \$13,942 were redeemed. The net indebtedness of the county this year is \$909,732, having been reduced \$60,986 since May 9, 1892. The following statement is from our STATE AND CITY SUPPLEMENT and has been corrected to date by means of the new report.

The county seat is Newark.

LOANS-	When Due.
ROAD BONDS-	
58, \$4,588	Apr. 30, 1901
5s, J&J, 70,000	
(\$10,000, due y'rly) to July 1, 1899

78, 510,000	0Apr. 1, 1899

The sinking fund assets as given above include road improvement bonds to the amount of \$67,978, Newark City water bonds, \$50,000, and \$130,267 in cash.

Page County, Va .- (STATE AND CITY page SUPPLEMENT, 154.)-It has been reported that the entire indebtedness of Page County, \$79,000, has been refunded into 5 per cent bonds. The old securities were 6s. At the time of the organization of the Shenandoah Valley Railroad Company Page County subscribed \$200,000 to the capital stock of the company. The road was not built in the time contemplated, and for this and other reasons the county refused to pay its subscription. Litigation ensued, but the matters in dispute were finally adjusted and compromised at \$100,000, for which amount the county issued its bonds. The debt has since been reduced by payments to the sum of \$79,000, which amount has just been refunded. Nearly all of the old bonds were held by residents of Frederick County, Md. The supervisors of Page County were authorized by an act of the Legislature of Virginia to refund its railroad debt and by the successful accomplishment of the plan the county saves about \$800 yearly in interest.

Kansas City, Mo .- (STATE AND CITY SUPPLEMENT, page 114),-A letter received from Messrs. Kountze Brothers, of New York, since the publication of our STATE AND CITY SUPPLEMENT last month, states that the bonds and coupons of Kansas City, with the exception of those issued by the school districts, are payable at their office and not at the Ninth National Bank, as reported in the SUPPLEMENT. On reference to our files we find that the statement for Kansas City was corrected in the City Comptroller's office, but no change was made in the interest paragraph, which was undoubtedly overlooked.

South Carolina Bond Case .- The Supreme Court of South Carolina has decided in favor of the validity of the new 41/2 per cent State refunding bonds to the amount of \$5,250,000. We mentioned the case more fully in our issue of last week.

Bond Proposals and Negotiations,-We have received through the week the following notices of bonds recently negotiated and bonds offered and to be offered for sale.

Abington, Pa.—(STATE AND CITY SUPPLEMENT, page 65).— Bids will be received by Joshua Longstreth, Jr., Fox Chase, Puiladelphia, Pa., or Daniel Webster, Abington, Pa., super-visors of the township of Abington, until May 27, for the purchase of 5 per cent improvement bonds to the amount of \$33,000. The bonds will be in denominations of \$100, \$500 and \$1,000 each, and \$15,000 will mature May 1, 1923, with an option of call May 1, 1898, and the remaining \$18,000 will ma-ture May 1, 1923, wich an option of call May 1, 1903. The loan will be clear of all taxes, and interest will be payable semi-annually at the Jenkintown National Bank,

Allegany Co., Ind.—County Treasurer Thomas Johnson writes us that the \$38,000 of school bonds offered for sale on May 13 were not marketed, as the bids received were not deemed sufficiently high. The bonds are re-advertised for sale on Lune 5. on June 5.

Bioomfield, N. J.-At a special meeting of the Bloomfield Township Committee, held Thursday afternoon, the sewer

bonds for which bids were received on Monday were awarded bonds for which bids were received on Monday were awarded as follows: State Mutual Life Assurance Association of Wor-cester, Mass., \$35,000 at 3% per cent; Montclair Savings Bank, \$5,000 at 4 per cent and \$5,000 at 3 per cent; Edwin A. Rayner of Bloomfield, \$2,000 at 3% per cent. The bonds will be ready for delivery the latter part of June.

Butte School District No. 1. Silver Bow County, Mont.— Mr. S. B. Rice, Clerk of the Board of Trustees of this school district, writes the CHRONICLE that owing to the flurry in financial circles the \$50,000 of 5 per cent 10-20-year school bonds, advertised for sale on May 12, were not marketed. Only one bid was received, that being for par and a premium of \$100 on the total amount, which bid was rejected, the board thinking that a better price could be obtained in the near future. There were six bidders present, but their principals wired at the last moment not to bid. The board also voted to make the bonds 6 per cent, instead of $5\frac{1}{2}$ per cent, as ad-vertised. Bonds are open for private sale now.

Colorado Springs, Col.-(STATE AND CITY SUPPLEMENT, page 136.)-Bids will be received by Charles E. Smith, City Clerk, until May 29, for the purchase of refunding water bonds to the amount of \$82,000, due in fifty years, payable after forty years at the option of the city, and bearing interest at the rate of 4 per cent per annum, and also water works bonds to the amount of \$35,000, due in fifteen years, payable after ten years at the option of the city, and bearing interest at the rate of 5 per cent per annum.

Covington Ky.—(STATE AND CITY SUPPLEMENT, page 157.)— City Auditor P. J. Orr writes the CHRONICLE that \$140,000 of the city bonds offered for sale on May 15 will be used to pay the judgment award in favor of Caspiris & Co., and that Caspiris & Co. will sell the securities to C. C. Crane, of Cin-cinnati, at par. The total amount of bonds offered was \$148,218 90 and \$14,821 89 will be redeemed each year from May 18, 1894, to May 18, 1903. Interest will be payable annu-ally at 5 per cent at the city depository.

Cumberland, Md.-(STATE AND CITY SUPPLEMENT, page 74.) -Mr. H. Resley, City Clerk, notifies the CHRONICLE, that at the election which took place in Cumberland on May 15, the

people voted on four different propositions. The first, to issue \$75,000 of bonds for new water-mains, was carried; the second, to issue \$25,000 of bonds for a new engine, was carried; the third, to issue \$20,000 of bonds for a new intake, was defeated, and the fourth, to issue \$60,000 of bonds for a reservoir, was also defeated. The water and engine bonds will bear interest also defeated. The water and engine bonds will beat interest at the rate of 4 per cent per annum, and will run thirty years.

Custer County School Dist. No. 1, Mont.—The bonds which were offered for sale on May 13th were not awarded. The Clerk of the Board of Trustees writes us that only one bid was received, and the board took no action in the matter, but will hold a meeting that evening, and will probably decide whether to receive the bid offered or to extend the time and advertise again. The Clerk also writes that the district has no indebtedness, is in prosperous condition, and the feeling is held there that the bonds will sell as soon as capitalists understand the conditions.

Detroit, Mich.—(STATE AND CITY SUPPLEMENT, page 98)— Sealed proposals will be received by Patrick Barry, Deputy and Acting Controller, until May 29, for the purchase of \$100,000 of boulevard and \$100,000 of park improvement bonds. Both loans will bear interest at the rate of 4 per cent bonds. Both loads will be an interest at the rate of a per cent per annum, payable semi-annually, and both principal and interest will be payable in New York City. The boulevard bonds will be dated Aug. 1, 1893, and payable Aug. 1, 1923, and the park improvement bonds will be dated July 1, 1893, and payable July 1, 1923.

and payable July 1, 1925. **Duluth, Minn.**—(STATE AND CITY SUPPLEMENT, page 105.) — Mr. W. G. Ten Brook, City Comptroller, writes the CHRON-icle that the \$200,000 of 5 per cent school bonds which were offered for sale on May 13 were assigned to E. H. Rollins & Co., but that these parties have since declined to take them and the sale has been declared off. He states that the bonds will be sold again. Interest and principal of same will be payable at the American Exchange National Bank of New York City, and the loan will mature May 1, 1923.

East Hampton Union School District, N. Y.-Jos. S. Os-borne, Treasurer of East Hampton Union School District, writes the CHRONICLE that the \$11,500 of district bonds offered for sale on May 16 were awarded upon the first bid to the Sag

Harbor Savings Bank at par. The loan bears interest at the rate of 4 per cent per annum, payable semi-annually on June 1 and December 1 of each year, and will mature \$500 yearly from December 1, 1894, to December 1, 1916.

Everett, Mass.—(STATE AND CITY SUPPLEMENT, page 24).— Nathan Nichols, City Treasurer, writes the CHRONICLE that in accordance with the Legislative act of 1892, authorizing the issuance of \$125,000 of sewer bonds of this city, the City Council has voted that the Treasurer have 125 \$1,000 bonds printed. All or a portion of this loan will be offered for sale during the coming summer, probably in July. It is reported that the bonds will bear 4 p. c. interest and will run 30 years. Eitabharg Mass.—(STATE AND CITY SUPPLEMENT page 24).

Fitchburg, Mass — (STATE AND CITY SUPPLEMENT, page 24.) -City Treasurer George E. Clifford writes us that the Board of Aldermen has passed an order authorizing the issuance of 4 per cent 30-year school bonds to the amount of \$200,000. The order has not yet been passed by the Common Council, so that no action can be taken in relation to the sale of the bonds until final action is taken by both branches of the city government.

Ft. Fdward, N.Y.—Water bonds of this village to the amount of \$97,000, bearing 4 p. c. interest and maturing \$16,000 every other year from May 1, 1913, to May 1, 1921, and \$17,000 on May 1, 1923, were to be offered for sale on May 10, 1893. Mr. W. A. Taylor, Village Clerk, writes us that the Water Board thought it advisable to postpone the sale, and that bids will now be received until May 31. Principal and interest of the bonds will be payable at the First National Bank of Fort Ed-ward. ward.

Fremont, Wash.—An election will be held in Fremont to to the proposition of issuing sewer bonds to the amount vote of \$250,000.

Grand Junction, Col.—A proposition to issue bonds to the amount of \$100,000 for the purpose of securing a water supply from the mountain lakes near the city is being considered by the Council.

Highland County, Ohio.—(STATE AND CITY SUPPLEMENT, page 82.)—County Treasurer H. W. Roads writes the CHRON-ICLE that the \$35,000 of bonds which were offered for sale on May 2 were awarded to N. W. Harris & Co. of Chicago for a

premium of \$1,082 42. The loan bears interest at the rate of 5 per cent per annum, payable semi-annually, and falls due \$1,000 semi-annually from March 1, 1894, to March 1, 1905, and then at the rate of \$2,000 semi-annually from Sept. 1, 1905, to \$1000 semi-annually from Sept. 1, 19000 semi-annually from \$1000 semi-annually f Sept. 1, 1908.

Sept. 1, 1908. Lawrence, Mass —(STATE AND CITY SUPPLEMENT, page 26.) —City Auditor R. J. Shea writes us that \$20,000 of cemetery bonds have recently been sold to the commissioners of the different sinking funds. The loan will mature, part yearly, in from one to ten years, and will bear interest at the rate of 4 per cent. The City Auditor also states that \$900,000 of water loan bonds will soon be offered for sale. \$800,000 of which will be used for refunding the water debt, and the remaining \$100,000 for extension purposes. This loan is to run 30 years at 4 per cent.

run 30 years at 4 per cent. Long Island City, N. Y.—(STATE AND CITY SUPPLEMENT, page 49.) – City Treasurer F. W. Bleckwenn will receive bids until May 23 for the purchase of the \$50,000 of 4½ per cent revenue bonds which were previously offered for sale on May 9, at which time four bids ranging from 100 to 100°15 were rejected. The bonds are of the denomination of \$500 each, interest parable semi acouvally and mature April 1, 1903. Bids will also be received by the City Treasurer until May 23 for the 'purchase of \$90,000 of five per cent funded debt bonds, to be issued for the purpose of redemption. We give below a record of the prices received for bonds recently placed by this city. Date of sale Rate. Amount. Time. Amard.

payment of same at maturity. The city's total bonded debt on May 10, 1893, was \$3,419,500; sinking fund, \$708,644; net bonded debt, \$2,710,856.

Melrose, Mass.-(STATE AND CITY SUPPLEMENT, page 27.) **Melrose, Mass.**—(STATE AND CITY SUPPLEMENT, page 27.)— Town Clerk John Larrabee writes the CHRONICLE that the town has petitioned the Legislature for authority to issue \$/5,0.00 of bonds for the increate of its water supply and \$50,000 for the construction of works, which acts have not been accepted and no authority given for the issuing thereof. It is also rep ried that \$100,000 of sever bonds have been authorized, but the Town Clerk states that same bave not as yet been voted upon.

Morris County, N. J.—It is reported that this county will soon issue bonds for \$350,000 for the purpose of constructing wagon roads, the bonds to run ten years at the rate of 4 per cent. George M. Cracken, County Collector, writes the CHRONICLE that no decision relating to the sale of these bonds has as yet been reached, and may not be for some time.

Nevada, Mo.-Mr. C. T. Davis, Financial Agent for the city of Nevada, writes the CHRONICLE that the \$17,000 of bonds which were offered for sale on May 2 were awarded 'o Messrs. N. W. Harris & Co., of Chicago, for \$17.017. The following is a list of the bids which were received for the loan :

Bid. 17,000 10,025 7,002

*The bid of L.A.Coquard, of St. Louis, was made on condition that the city pay \$100 for preparing the bonds, and that of N.W. Harris & Co. on condition that the city pay \$50 for preparing the bonds.

preparing the bonds. The bonds bear interest at the rate of 5 per cent, payable semi-annually, and principal and interest is payable at the National Bank of Commerce, St. Louis. Ten thousand of the bonds are issued for funding purposes, and are payable in 20 years, with an option of call in 10 years, and the remaining \$7,000 are issued for sewer purposes, and are payable in 20 years, with an option of call in 5 years. Both issues are dated

May 2, 1893. The total indebtedness including these secur-ities is \$19,000; assessed valuation, \$1,567,286.

Newark, Ohio.—(STATE AND CITY SUPPLEMENT, page 83.) —There is a current report to the effect that Newark, Ohio, will issue temporary loan bonds to the amount of \$610,000. Upon inquiry, we are informed by Walter A. Irvine, City Clerk, that this report is entirely unfounded.

Newcastle County, Del.—(STATE AND CITY SUPPLEMENT, page 72.)—John T. Dickey, County Treasurer, will receive oids until May 22 for the purchase of \$100,000 of bridge and \$60,000 of redemption bonds. Both loans will be composed of bonds of the denomination of \$1,000 each, \$10,000 to be paid each year, beginning September 1, 1904. Interest will be payable May 1 and November 1 in each year at a rate not exceeding 5 per cent per annum per cent per annum.

Newport, R. I.——(STATE AND CITY SUPPLEMENT, page 34.) —Sealed proposals will be received by the Finance Com-mittee of the City Council until May 25 for the purchase of \$146.000 of 4 per cent coupon bonds. The loan will run 30 years from May 15, 1893, with interest payable semi-annually. and both principal and interest will be payable in gold coin of the United States by the Bay State Trust Company of Boston, Mass Mass.

North Brookfield, Mass.—The Commissioners of the town of North Brookfield have been authorized to borrow \$50,000 for water purposes.

North Dakota.--(STATE AND CITY SUPPLEMENT, page 116.) Bids will be received until June 1, 1893, for \$30,000 of 4 per cent 30-year State refunding bonds.

Omaha, Neb.—(STATE AND CITY SUPPLEMENT, page 123).— City Treasurer Henry Bolln writes the CHRONICLE that the \$77,700 of 5 per cent district grading bonds offered for sale on May 15 were awarded to W. J. Hayes & Sons, of Cleveland, Ohio, at par, accrued interest and a premium of \$1.731. The securities mature, part yearly, from June 1, 1894, to June 1, 1903 1903.

Piqua, Ohio.-(STATE AND CITY SUPPLEMENT, page 83).-Bonds of this city to the amount of \$20,000 have been author-

ized by the Legislature for the purpose of securing natural gas. City Treasurer John S. Patterson also notifies us that the Board of Etucation of Piqua will soon issue \$40,000 of bonds for building purposes.

San Diego, Cal.-(STATE AND CITY SUPPLEMENT, page 144.) -Mr. T. J. Dowell, City Treasurer, will receive sealed propesals until Wednesday, the fifth day of July, 1893, for the purchase or exchange of \$380,000 of 20-year funding bonds of San Diego, being bonds Nos. 1 to 760, both inclusive, and each for the sum of \$500, dated January 1, 1893, and bearing interest at the rate of 41/2 per cent per annum, payable annually at the office of the City Treasurer. No proposals will be accepted either for the purchase or exchange of these bonds for a less sum than their face value and the accrued interest thereon. Any proposal accepted will be subject to the approval of the Common Council of the City of San Diego, who reserve the right to reject any and all proposals.

The total debt of the city at the present date is \$437,000, of which \$380,000 is to be refunded. The assessed valuation for 1892 was \$15,393,378; the present population, 18,000. An advertisement to be found elsewhere in this department gives full particulars concerning the sale of the new securities.

Santa Rosa, Cal.-J. L. Jordan, city clerk of Santa Rosa, notifies the CHRONICLE that the election which took place in this city on May 8 to vote on the proposition of issuing \$165,-000 of water bonds resulted in favor of the bond issue by a vote of 730 to 251. The bonds will be of the denomination of \$825 each, will bear interest at the rate of 4 per cent per an-num and will mature \$4,125 yearly from the first Monday in December, 1894, to the first Monday in December, 1933.

Tacoma, Wash.—(STATE AND CITY SUPPLEMENT, page 149.)— The election which took place in Tacoma on May 9, to vote on the question of issuing \$506,000 of sewer bonds, resulted in
