The full details of clearings for the week covered by the above statement will be given next Saturday. We cannot of course furnish them to-day, bank clearings being made up by the various clearing houses at noon on Saturday, and hence in the above the last twenty-four hours of the week have to be in all cases estimated, as we go to press Friday night. Our usual detailed figures for the previous week, covering the returns for the period ending with Saturday noon, June 17, as well as the comparative totals in 1892, are given below. Transactions on the New York Stock Exchange have been of lesser volume than during the preceding week and compared with a year ago the dealings are much smaller. Contrasted with the corresponding period of 1892 a majority of the cities record losses and in the aggregate for the whole country there is a falling off of 94 per cent. In ratio of decrease Memphis leads this week with 50.4 per cent, being followed by Nash-ville 48.2 per cent, Lincoln 46.4 and Seattle 38.5 per cent. The heaviest gains are at Houston, Duluth, Los Angeles and Gal-veston, veston.

THE FINANCIAL SITUATION.

The feature of the situation this week has been the announcement of the shipment of \$500,000 gold from London to New York on the order of Baring, Magoun & Co. The event is chiefly significant as showing what a complete change has occurred in the condition of our It foreign exchange market during the last fortnight. by no means warrants the inference that there is to be a continued influx of the metal at the present time. Two weeks ago we were still exporting gold, and many of the conditions responsible for the outflow then remain in existence, though some of them in a modified form. The knowledge that there is to be an extra sestion of Congress in September and the growing belief that at that meeting a repeal of the Silver Purchase Law will be effected have undoubtedly tended in some degree to revive foreign confidence in American investments and led to a small increase in the buying of our securities for European account; considerable purchases of grain for export, under the low prices prevailing, have also been an influence in depressing foreign exchange; but, most important of all, the high rates for money here, combined with the decline in discounts in London, have had the effect of utterly demoralizing the foreign exchange market, so that quotations dropped to a point permitting temporarily the importation of gold. Doubtless other con. signments besides the \$500,000 actually announced could have been made at a profit, but as foreign bankers have felt that the causes bringing about the extreme depression in exchange were to an extent abnormal, they were reluctant to make engagements for shipment. There has since been a sharp upward reaction in exchange quotations, promoted in part by the somewhat easier condition of our money market, and further importations of gold will depend largely upon the course of interest rates here.

But if there is as yet no assurance of a continued inflow of the metal at this time, the events of the past two weeks show how easy it would be to turn the current in this direction if the underlying cause of all our financial troubles were only removed. It is encouraging to know that agitation for the repeal of the Silver Law is being continued in nearly all parts of the country. One of the latest representative bodies to put itself on record on the question is the Mobile Cotton Exchange, whose Board of Directors on June 17 adopted resolutions expressing it as the sense of the Board that the interests of the country demand the immediate stoppage of the operation of Silver the Law and requesting representatives in Congress to use their earn-This, est endeavors to that end. be it remembered, is the action not of a combination of bankers or financial men, but of merchants and business people directly in touch with the agricultural classes of the South, and the resolution they passed was adopted by a unanimous vote. The importance and significance of such efforts can not be over-estimated, and the work should be kept up without relaxation until the law has been wiped off the statute book.

Gold imports, even if assured, could only have a temporary effect in relieving the situation; they can not arrest the operation of the law or deprive it of its harmful character. How urgent is the need for action on behalf of mercantile and financial interests, is evident from the new manifestations of lack of confidence which have developed and the further failures which have occurred, the wave of distrust having this week reached the Pacific Coast, leading to quite a number of bank suspensions in California.

Some favorable developments are to be noted in addition to the drop in foreign exchange and the import of half a million gold. The shipments of currency to the country have in the aggregatebeen on a smaller scale than in either of the preceding weeks, notwithstanding the exceptional calls within the last few days from the Pacific Coast. The Government gold reserve has been steadily rising, and by the latest official statement the holdings aggregated \$94,136,459 against \$89,589,363 on the 8th of the month. On Thursday, June 22, Secretary Carlisle announced that orders had been issued directing the pre payment without rebate on June 26th of the interest on the 4 per cent bonds of 1907, and yesterday it was announced at the Sub-Treasury here that instructions. had been received to begin paying the interest at once. The condition of the Treasury permits this action, and it was felt that the step might afford relief to the mercantile community in the present monetary stringency. The Clearing House Association has begun to issue the loan certificates authorized last week, the initiative being taken by the Bank of Commerce (on the motion of Mr. J. Pierpont Morgan) the same as on the last previous occasion, in order to encourage to similar action banks whose position is less strong. Yesterday the aggregate of such certificates had reached \$5,350,000, the names of the banks who took them out not being given.

It is matter for deep regret that the attempt to readjust the affairs of the Philadelphia & Reading Ruilroad and place the company on a sound financial footing again, should have failed. The plan was so liberal in its treatment of the different interests and asked on the whole such unimportant concessions, that it seems surprising that any considerable body of security-holders should have withheld their assent from it. While the plan made provision for the raising of an enormous amount of cash, necessary to relieve the company of its heavy floating obligations, stock and bond holders were not called upon to contribute a single dollar for that purpose unless they felt so disposed, the syndicate having guaranteed the full amount of the subscription. In this respect the plan was quite unique. Yet neither the full amount of the stock called for (60 per cent) nor the full amount of the general mortgage bonds (90 per cent) required, was secured. The interests at stake are so enormous that it is to be hoped it will be found possible speedily to devise another plan. But it hardly appears likely that security holders will again be offered such easy conditions. The Richmond Terminal reorganization, unlike that of the Reading, is making very rapid progress. This week also we have had the reorganization scheme of the National Cordage Company. Mr. Villard's resignation as Chairman of the Board of Directors of the Northern Pacific has been accepted, and resolutions complimentary to him have been adopted by the Board. Mr. John D. Rockefeller was chosen a director of the company. Quite a passenger war between the Great Northern and the Northern Pacific has developed on business to the Pacific Coast.

The Bureau of Statistics at Washington has issued the foreign trade statement of the country for the month of May. It is the best exhibit we have had for any month this year, the imports being smaller and the exports larger than in the months preceding. The export total also makes a good comparison with the corresponding month of the previous year, which has not been the case before for nearly twelve months. The imports have continued above those for last year (though being, as said, smaller than for the preceding months of 1893), so that we have for May, 1893, an excess of imports on the merchandise movement of \$9,965,043, against an excess of exports in May, 1892, of \$1,007,308. However, this balance against us of \$9,965,043 for May, 1893, compares with a balance of \$24,375,697 against us in April, 1893, \$26,048,793 in March, \$19,705,216 in February and \$16,101,742 in January-which shows how decided has been the change for the better. Following is a summary of the results in our usual form.

It is interesting to note, as illustrating the difference in the trade results between the present fiscal year and those for the previous fiscal year, that for the eleven months of 1892-93 there has been an excess of merchandise imports in the sum of \$81,399,211, whereas in the corresponding eleven months of 1891-92 there was an excess of exports in amount of \$210,003,917-a difference of over 291 million dollars.

Money on call, representing bankers' balances, has loaned at 25 and at 3 per cent this week, the average being probably about 9 per cent; renewals have been at from 6 to 7 per cent. Banks and trust companies are lending very little, and that chiefly at 6 per cent as the minimum. The extreme high rate was recorded on Monday and 'Iuesday, but later in the day there came a better supply and a lighter inquiry, which caused a decline to 3 on Monday and to 6 on Tuesday. On

the rate gradually fell off, and early in the afternoon one of the foreign bankers offered a large amount of money for effect upon exchange, and the rate dropped to 6 per cent. On Thursday, after 15 per cent had been reached, there was a decline to 6 because of loans by foreign bankers, and the market closed at about 7. Yesterday, however, the range was from 7 to 20, and the close was at the higher figure. Time contracts are in urgent demand, but the supply is small and confined to the foreign houses. The city banks and trust companies are practically out of the market, because of inability to do more than meet the requirements of their customers, and borrowers with exceptionally good collateral have difficulty in obtaining loans at 6 per cent and a commission of 2 per cent. Rates are nominally 6 per cent for all dates and such commission as .can be arranged between the parties to the transaction. In commercial paper scarcely any-thing is doing. The offerings are urgently pressed, and in some cases by a good class of merchants who would willingly pay liberal rates in order to prepare for bills maturing early in July, but the banks here will do nothing for any one outside their regular customers, and but few private buyers can be found. It is impossible to classify rates for paper. Quotations are from 7 to 15 per cent, and the names are by no means inferior but embrace some of the best makers of paper.

There has been a reaction in London from the extremely low rates for discounts ruling in that market last week and the cable reports that 60 to 90 day bank bills are now 15 per cent. The open market rate in Paris is 24 per cent; at Berlin it is 34 per cent, and at Frankfort 35 per cent. According to our special cable from London, the Bank of England this week gained £208,548 bullion and it now holds £29,604,933. Our correspondent further advises us that this gain was the result of imports of £54,000 (£37,000 coming from Australia, £12,000 from China and £5,000 "bought"), exports of £38,000 to Russia, and receipts from the interior of Great Britain of £193,000.

Our foreign exchange market fell off early in the week, in consequence of active money, and on Tuesday and Wednesday it was demoralized by liberal offerings of loan bills and by the absence of demand, which made rates for actual business difficult to quote. On Wednesday sight bankers' drafts were sold as low as 4 831 and cable transfers fell to 4 84. The lowest nominal rates were $4.82\frac{1}{2}$ for 60 day and $4.84\frac{1}{2}$ for sight, not since December, 1891, when and 4 82 for the former and 484 for the latter were posted, have rates been as low. There was a recovery in the tone before the close of the day and on Thursday nominal rates advanced two cents per pound sterling compared with the previous day, in consequence of easier money and a demand to cover short contracts. Yesterday, under renewed high rates for money and a pressure of loan bills, the market again became demoralized. Compared with Friday of last Brown Bros. opened on Monday at 484 week for 60 day and 486 for sight, a decline of half a cent in each; the Bank of British North America posted 4 841 for long and 4 861 for short, a fall of half a cent, and the Bank of Montreal started off at 4 851 for 60 day and 4 862, having reduced to these figures on Saturday, and made a further reduction to 4 841 Baring, Magoun & Co. made no for the former. change. On Tuesday Brown Bros. reduced to 4 83 for long and 4 85 for short; Baring, Magoun & Co. low-Wednesday, after loans had been made at 20 per cent ered their rates to 4 84 for 60 day and 4 86 for sight; the Bank of British North America reduced to these figures and made a further reduction to $4 83\frac{1}{2}$ for long and $4 85\frac{1}{2}$ for short, and the Bank of Montreal posted 4 84 for 60 day and 4 86 for sight. On Wednesday Brown Bros. started off at 4 821 for long and 4 841 for short, Baring Magoun & Co. and the Bank of British North America at 4 83 for the former and 4 85 for the latter, and the Bank of Montreal made no change. In the afternoon Brown Bros. advanced to 4 83 for 60 day and 4 85 for sight and the Bank of British North America posted 4 831 for the former and 4 85% for the latter. On Thursday Brown Bros. opened at 4 84 for long and 4 86 for short and advanced to 4 841 for the former and 4 861 for the latter; Baring Magoun & Co. started off at 4 84 for 60 day and 4 86 for sight; the Bank of British North America opened unchanged and advanced to 4 84 for long and 486 for short and subsequently moved the latter up to 4 861, while the Bank of Montreal opened unchanged, and advanced to $4 84\frac{1}{2}$ for long and $4 86\frac{1}{2}$ for short. The market closed on that day a little unsteady in consequence of the sharp recovery from the extremely low rates. Yesterday money again having developed increased activity, considerable irregularity ensued, Brown Bros. reducing their rates half a cent to 4 84 and 4 86 respectively, and Baring, Magoun & Co. advancing one cent on each to 4 85 and 4 87, while the Bank of North America raised its long rate from 4 84 to 4 841. The close was at 4 84 to 4 85 for long and at 4 86 to 4 87 for short. Rates for actual business were 4 82 to 4 821 for 60 day, 4 841 to 4 85 for sight, 4 85 to 4 851 for cable transfers and 4.81 to $4.81\frac{1}{2}$ for prime and also documentary commercial bills. Baring, Magoun & Co. on Wednesday bought \$500,000 worth of American eagles from the Bank of England, which were shipped on the Columbia, sailing on the following day, and it was reported that other consignments of gold would be forwarded, but this report could not be confirmed and the rise in exchange on Thursday precluded further shipments.

When the statement of anthracite coal production for April was issued and it was seen that there had been a large increase in the output of the Schuylkill region as against a falling off in one of the other regions, it was supposed that this meant a new departure in the experience of that region, which had previously failed to obtain its share of the increase in production. The May statement now received, however, does not bear out that supposition, for it appears that while there was an increase in the aggregate production for the month of 182,354 tons, only 9,757 tons of the increase came from the Schuylkill region, while 79,101 tons was supplied by the Wyoming region and 93,496 tons by the Lehigh region. In general the statement may be regarded as favorable; with 182,354 tons increase in the amount mined, tide-water stocks have been reduced during the month from 970,988 to 877,014 tons. Below is our usual table, giving the comparative consumption after allowance for the changes in stocks.

Anthracite Coal.	May.			January 1 to May 81.		
annarache Cout.	1893.	1892.	1891.	1893.	1892.	1891.
Stock beginning of period Production	Tons. 970,988 3,707,082	Tons. 714,842 3,524,728				Tons. 535,652 14,184,851
Total supply St'k end of period	4,678,070 877,014	4,239,570 684,662	4,051,105	17,565,089	16,312,352	14,720,503
Disposed of	3,801,056	3,554,908	3,358,231	16,688,075	15,627,690	14,027,629

It will be seen that both for the month and the year to date a great deal more coal was disposed of in 1893

than in 1892 or 1891—that is while 3,801,056 tons were disposed of in May, 1893, in 1892 the amount was only 3,554,908 tons and in 1891 only 3,358,231 tons, and while for the five months the amount the present year stands at 16,688,075 tons, in 1892 it was only 15,627,-690 tons and in 1891 no more than 14,027,629 tons. These results of course do not take into consideration the changes in the stocks at interior storage points, regarding which no information is available.

The Lake Shore & Michigan Southern, the Michigan Central and the Canada Southern companies have had their semi-annual meetings this week and have declared their usual dividends-3 per cent on the Lake Shore, 2 per cent on the Michigan Central and 14 per cent on the Canada Southern. The half-yearly statements have also been submitted. The Michigan Central for the six months shows a small falling off in both gross and net earnings-\$92,000 in the former and \$145,000 in the net-but the Lake Shore makes a very favorable exhibit, gross having increased from \$10,678,656 in the six months of 1892 to \$11,744,000 in the six months of 1893, and net having increased from \$3,260,766 to \$3,460,794. While paying 3 per cent, the company earned 3.60 per cent, this comparing with 3.19 per cent in the first six months of 1892. In the expenses, we are told, have been included all expenditures for betterments and also about \$750,-000 charged off against open accounts brought forward from 1892 for expenditures made in that year in anticipation of this year.

The following table indicates the amount of bullion in the principal European banks this week and at the corresponding date last year.

Week Ending June 23, 1893.	Received by N.Y. Banks.	Shipped by N.Y. Banks.	Net Interior Movement.
Ourrency	\$2,737,000	\$5,717,000	Loss.\$2,980,000
9old	300,000		Loss. 2,121,000
Total gold and legal tenders	\$3.037.000	\$8,138,000	Loss.\$5.101.000

With the Sub-Treasury operations the result is as follows.

Week ending June 23, 1893.	Into	Out of	Net Change in	
	Banks.	Banks.	Bank Holdings.

THE MODIFICATIONS OF THE RICHMOND TERMINAL PLAN.

Very rapid progress is being made in carrying out the Richmond Terminal plan of reorganization. As concerns the securities of the Terminal Company itself, there has of course been little reason to doubt the success of the plan from the first, though even here the very large proportion of the total secured has come as an agreeable surprise. In the case of the securities of the subordinate companies, however, the situation has not been so clear, and the course of the reorganization

has been watched with considerable interest to see how the holders of these securities would view the plan. Of course ground for opposition had been in a measure removed by leaving undisturbed a very large mass of underlying bonds which seemed to be adequately secured, but at the same time the plan provides for the readjustment of a great many of the weaker and junior issues of bonds, and in those instances it seemed possible that some objections would be raised to making the concessions called for. But up to this time fewer obstacles of this nature have been encountered than might reasonably have been looked for, and already the reorganization committee have fixed a time limit for the deposit of securities representing the greater part of the whole mileage of the East Tennessee and Richmond & Danville systems.

The securities on which a time limit has been fixed comprise the consolidated mortgage 5 per cent bonds of the Richmond & Danville; the first mortgage 6 per cent bonds of the Georgia Pacific and the consolidated second mortgage, income mortgage and stock of the same company-which must be deposited on or before June 27, 1893; the 1st consolidated mortgage 6 per cent bonds of the Charlotte Columbia & Augusta; the 1st mortgage 6 per cent bonds of the Columbia & Greenville, and the second mortgage 6 per cent bonds of the same company; the improvement and equipment bonds of the East Tennessee, also the first extension mortgage bonds of that road and the general mortgage bonds of the same road; likewise the 1st preferred stock, the second preferred stock and the common stock of the East Tennessee, and the bonds and stock of the Louisville & Southern-holders of all of which must deposit their securities not later than July 8, 1893, at 12 o'clock. This is a formidable list, and the following shows the amounts represented by the same.

Bonds.	
Richmond & Danville consol. 5s	\$4.528.400
Georgia Pacific 1st mortgage 6s	5,660,000
" consol. 2d 5s	
" income bonds	4.660.000
Charlotte Col. & Augusta 1st consol. 6s	
Columbia & Greenville 1st mortgage 6s	
" " 2d " 68	1,000,000
East Tennessee improvement and equipment bonds	6,000,000
" extension mortgage bonds	3 7.000.000
" general mortgage bonds	
Louisville Southern mortgage bonds	5,000,000
the second part of the second state of the second sec	
Total bonds	.\$41,350,000
STOCKS.	
East Tennessee Virginia & Georgia 1st pref'd stock	.\$11,000,000
" " 2d prefid stock	
" " common stock	. 27,500,000
Louisville Southern stock	. 3,500,000
Georgia Pacific stock	. 8,555,000

Total stocks.....\$69,055,000 Here we have a total of 41 millions of bonds and 69 millions of stock on which a time limit has already been set for deposits under the plan. Of the bonds, the whole amount is not in each case actually outstanding in the hands of the public, a portion of some of the issues being pledged as security for the floating debts; nevertheless, with these deducted the aggregate would still be very heavy. In the case of the stocks quite considerable amounts of course are held by the Terminal Company, more particularly the East Tennessee stocks; and yet even of the E. T. stocks over 35 million dollars are held by the public, namely \$21,620,000 common, \$11,964,000 second preferred and \$2,216,800 first preferred. Remembering, therefore, that besides the stocks and bonds of the subordinate companies the stocks and bonds of the Terminal Company itself, comprising \$70,000,000 of common stock, \$5,000,000 of preferred stock, \$10,-679,000 of collateral trust 5 per cent bonds and \$5,500,-

being now received only on the payment of a penalty, and there being indeed only a comparatively small percentage of the whole which has not yet come in), and considering that it is hardly a month since the plan was made public, it becomes evident that the work of the reorganization is being pushed with great rapidity.

In the case of some of the securities of the subordinate companies, assent to the scheme has been secured through a modification of the plan in certain particulars. It is desirable to see what the modifications are, and what their nature and effect will be. The Richmond & Danville consol. 5s by the plan were to get 100 per cent in new bonds and 5 per cent in preferred stock ; this has now been changed so as to give them 5 per cent in cash in lieu of the 5 per cent in preferred stock, the amount to be paid on the completion of the reorganization. The alteration is obviously unimportant. The Georgia Pacific first mortgage sixes were to get 90 per cent in new fives and 40 per cent in preferred stock ; by the amendments (made in pursuance to an arrangement with the holders of a majority of the bonds) they will retain their present lien and receive 5 per cent in cash and one per cent in new preferred stock for five years and 6 per cent in cash thereafter. The Georgia Pacific consol. 2ds were to get 100 per cent in new preferred stock ; they will now receive 125 per cent in such stock. In the case of the income bonds and stock of the same road, adjustment had been deferred in the plan; it is now provided that the income bonds shall receive 35 per cent in new preferred stock and the stock 50 per cent in new common stock.

The other changes relate to the bonds of the Columbia & Greenville and the improvement and equipment bonds of the East Tennessee, and have also been accepted by a majority in amount of each class of bonds. The Columbia & Greenville first 6s were to get 100 per cent in new fives and 20 per cent in new preferred stock. By the change, which is like that made in the case of the Georgia Pacific firsts, the bondholders will retain their present lien and receive 5 per cent in cash and one per cent in preferred stock for five years from January 1, 1893, and 6 per cent in cash thereafter. The second mortgage bonds of the Columbia & Greenville were to get 120 per cent in new preferred stock ; they will get instead 125 per cent. As regards the East Tennessee Virginia & Georgia improvement and equipment bonds, the original offer was 60 per cent in new fives and 70 per cent in new preferred stock. As now arranged they are to retain their present lien, but the principal of the bonds is to be reduced to 75 per cent of the present amount, and on this 75 per cent 4 per cent is to be paid for five years from March 1, 1893, and 5 per cent thereafter; in addition bondholders will get 50 per cent in new preferred stock, and the coupon which matured last March is to be purchased at its face value.

It will be seen, therefore, that the modifications are unimportant in themselves and unimportant in their effect on the plan as a whole. They do not involve any material additions to the obligatory charges of the new company, and do not change in any essential particular the general outlines of the reorganization. Of course, there are some other issues of bonds which have not yet accepted the terms offered, but that it should have been possible to secure the adhesion of so many important issues within so short a period, and with such slight modifications of the original plan, is 000 of collateral trust 6 per cent bonds, have given their really a noteworthy feature in a reorganization involvadhesion to the scheme, (further amounts of such issues "ing so many different interests and securities,

FUTURE DELIVERY CONTRACTS.

We have been asked by several of our readers to indicate the nature and scope of the recent decision of the United States Supreme Court in the case involving the validity of future delivery contracts. The decision was one of those rendered by the Court just before its adjournment, and though the points of law involved were not new—the principles applicable in such cases being well established—yet the matter has no doubt a great deal of general interest, especially as contracts for the future delivery of goods, or staples, or merchandise, constitute such an important part of the transactions of our mercantile exchanges.

The legal status of future delivery contracts has not been in doubt. The courts have repeatedly held such contracts valid where it could be shown that an actual delivery of property was contemplated under the contracts. In the present instance it was sought to identify such contracts-or more specifically contracts for the delivery of cotton-with wagering or gambling operations, which under the law of New York are illegal. The action was that of Richard H. Allen & Co. of this city against Benajah S. Bibb and one Hopkins (who on the trial of the case it was found was not a partner in the concern, but merely a clerk) doing business under the name of B. S. Bibb & Co., and was to recover the sum of \$20,023, with interest, as commissions for services rendered and money paid and advanced by Allen & Co. for and at the request of Bibb & Co. in selling in December 1886 for the latter's account, and as their agents, cotton for future delivery, according to the rules and regulations of the New York Cotton Exchange. The suit was brought in the U. S. Circuit Court for the middle district of Alabama, where judgment was given in favor of the plaintiffs, and the case reached the Supreme Court on appeal in error by the defendant Bibb; this last tribunal has now decided (Mr. Justice Jackson delivering the opinion) that the several errors assigned for reversal of the judgment of the Circuit Court were not well taken. the judgment accordingly being affirmed.

Bibb sought to have the judgment of the lower court upset on quite a variety of grounds and the assignments of errors filed numbered 19. Among other things he charged irregularity in the taking of the deposition of one of the witnesses, and that the Court erred in overrulling the motion to suppress said deposition; also that it erred in admitting as evidence the statutes of New York under which the Cotton Exchange was incorporated and the rules and regulations of the Exchange, and furthermore he contended that as Hopkins was found not to be partner but a clerk, under the pleadings no judgment could be rendered against Bibb alone. Most important of all, however, was the contention that the contracts for the sale of cotton for future delivery were gambling contracts within the meaning of the New York statute against wagers, bets, &c., and that said contracts were also invalid under the statute of frauds of the State of New York.

The Supreme Court in its ruling goes over the whole ground very carefully, and, as already said, sustains the Circuit Court on every point. Regarding the claim that the Circuit Court erred in admitting in evidence the statutes of New York under which the Cotton Exchange was organized, together with the rules and regulations of the Exchange, the Court decides that such evidence was clearly competent and relevant, because the contracts entered into between Bibb & Co.

and the plaintiffs contemplated that the business to be transacted by Allen & Co. for their principals was to be under and in accordance with the rules and regulations of the Exchange. It was proper, says the Court, to show that this Cotton Exchange was a lawful body, organized for lawful business purposes, and had power to make such rules and regulations as might be deemed necessary and proper to carry out the purpose of its organization. "It is clearly shown that B. S. Bibb & Co. knew that the plaintiffs did business as cotton factors in that Exchange, and in accordance with those rules and regulations, and that in acting as their agents in the sale of cotton for future delivery they would transact the business through that Exchange, and in accordance with its rules and regulations. It was therefore germane to the issues in the case, and was both competent and relevant to prove that the contract. between the parties had been carried out on the part of the plaintiffs in the mode and according to the methods contemplated by the parties."

Coming to the main point, namely as to whether the transactions were illegal under the New York statute against wagers, bets, &c., the Court declares that the evidence in the case clearly fails to make out such a defense. Judge Jackson, speaking for the Court, says it is not questioned that if the transactions in which the parties are engaged are illegal, the agent cannot recover either commissions for services rendered therein or for advances and disbursements by him for his principal, the reason for this rule being that in such illegal transactions of which the agent has knowledge he is regarded as particeps criminis, which precludes him from the recovery of either commissions or advances. But in the present instance the facts of the case do not bring the transactions within the operation of that principle, for the evidence set out in the bill of exceptions fails to show that either party to the transactions intended the same as wagering or gambling operations. "On the contrary, the undisputed testimony establish es that the sales were not wagers, but that the cotton was to be actually delivered at the time agreed upon. Bibb's own statement of the transactions does not disclose the fact that they were intended, even on his part, as gambling or wagering speculations. He certainly never disclosed to the plaintiffs, as his brokers, either in their correspondence or in their verbal communications, that he did not intend to deliver the cotton sold through them for future delivery. In addition to this, it is shown that the rules and regulations of the New York Cotton Exchange recognized no contracts except for the sale and purchase of cotton to be actually delivered. These rules and regulations impose upon the seller the obligation to deliver the cotton sold, and upon the purchaser the obligation to receive it, except in certain specified cases which have no application to the present case."

The Court also points out that it is well settled that contracts for the future delivery of merchandise or tangible property are not void, whether such property is in existence in the hands of the seller or to be subsequently acquired, and that it is further well settled that the burden of proof is upon the party who seeks to impeach such transactions to show affirmatively their illegality. The Court cites several cases where this view was taken, among others Irwin vs. Williar, in which the trial court charged the jury that the burden of proving that the parties were carrying on a wagering business, and were not engaged in legitimate trade or speculation, rests upon the defendant, saying—"a

person may make a contract for the sale of personal property for future delivery which he has not got. Merchants and traders often do this. A contract for the sale of personal property which the vendor does not own or possess, but expects to obtain by purchase or otherwise, is binding if an actual transfer of property is contemplated. A transaction which on its face is legitimate cannot be held void as a wagering contract by showing that one party only so understood and meant it to be. The proof must go further and show that this understanding was mutual-that both parties so understood the transaction. If, however, at the time of entering into a contract for the sale of personal property for future delivery, it be contemplated by both parties that at the time fixed for delivery the purchaser shall merely receive or pay the difference between the contract and the market price, the transaction is a wager and nothing more."

The foregoing would seem to define very clearly the limits between legal and illegal transactions-between wagering contracts and ordinary legitimate mercantile operations-and the Court says it approved the charge in that case as a correct statement of the law upon the subject. The statement is directly applicable in the present instance, Judge Jackson declares, as "the evidence fails to show not only that Bibb & Co. intended it as a wagering contract, but it fails to show also that the plaintiffs so understood it. The testimony establishes that the plaintiffs did not in fact so understand it. It furthermore appears that in the memorandum or 'slip contracts' of sale actually made by the plaintiffs for the account of Bibb & Co., the sales were described as made 'subject to the rules and regulations of the New York Cotton Exchange.'" The testimony indeed is so clear and convincing on this point that the Court finds itself compelled to say that if the question had been submitted to the jury and the jury had found that the contracts were wagers, it would have been the duty of the Circuit Judge to set aside the verdict.

As regards the claim that the contracts of sale were void under the statute of frauds of the State of New York because there was no sufficient note or memorandum in writing of the transactions, signed by the parties in interest (the New York law requiring such note or memorandum to be made in writing and be subscribed by the parties to be charged thereby), the Supreme Court holds that this contention cannot be sustained under the facts of the case. It says that the "bought" and "sold" notes called "slip contracts" exchanged between Allen & Co. and those to whom they sold the cotton, when read in the light of the rules and regulations of the Cotton Exchange, and considered in connection with the letters and telegrams between Allen & Co. and Bibb & Co., constitute a sufficient note or memorandum in writing of the transactions to satisfy the requirements of the statute of frauds. In telegraphing orders to sell, Bibb & Co. would direct Allen & Co. to make sales for delivery for account of designated names, such as "Albert,' "Alexander," "Andrew," &c., but the Court says that fact is no valid objection to the "slip contracts" and that parol evidence was clearly competent to show that these fictitious names which Bibb & Co. had adopted represented them as the parties for whose account the sales were made. Entirely aside, however, from this and independent of the question whether the slip contracts constitute a compliance with the statute of frauds, the contracts, the Court points out, were fully executed and the transactions closed before the plain-

tiffs commenced the present suit, and it is well-settled that the statute of frauds cannot be set up against an executed contract. Finally, as regards the question whether under the pleadings and proofs in the case judgment was properly rendered against Bibb alone, after a verdict had been given finding that Hopkins was not a partner, the Court holds that under the laws of Alabama, where the suit was brought, judgment might properly be entered against that defendant alone who was the owner of the business.

Altogether, it will be seen, the case involved some special and exceptional features, but it also involved squarely and directly the question of the validity of future delivery contracts, and, as was to be expected from the previous rulings of the courts, the validity of such contracts is sustained.

RAILROAD ENDORSEMENTS, ARTICLE VII. GENERAL SUMMARY.

In a general way we have now acquainted ourselves with the principal forms of railroad endorsements. It only remains to gather together certain leading ideas scattered here and there throughout this series of articles and to make a few general observations.

We have commented upon the good features of many guaranties. Let us for each variety group together those characteristics most deserving attention. We will review the several varieties in the order in which we first took them up.

"Assumption" of the debt. The idea to be expressed in the endorsement when the debt is to be assumed is so simple as to need little comment. The guarantor company makes the debt its own, and the more clearly and unreservedly the endorsement states that "for value received," the company "hereby" assumes and undertakes to pay the principal and interest, the better. Reference to the terms of other instruments may weaken rather than strengthen in the investor's eyes the force of the agreement. The use of this style of endorsement, we believe, might well be much more extensive than it is at present. Railroad systems are becoming more and more complicated, road after road being to a greater or less extent "absorbed." The difficulty of ascertaining or keeping in mind the relations of different parts of a system increases daily, and the question is constantly arising-Has absolute consolidation taken place, and has this or that security been "assumed," or what is its standing ? This being so, it is best that bonds assumed should be endorsed in order that there may be no question as to the facts of the case, for where there is uncertainty prices are depressed, and every company is benefitted by having its securities quoted at a fair valuation.

Guaranties of principal and interest.—These are much the most important of the railroad endorsements and should be worded with especial care. Not only should all the legal points be duly covered, but that the loan may be most readily salable, such further particulars as investors are wont to consider should be made prominent. Thus we would emphasize (1) the "punctual and immediate payment" of the principal and interest as they mature, if the maker of the bond defaults; (2) the cancellation of the same to the principal and all subsequent interest; and (3) if the bonds are gold bonds, the payment by the guarantor of principal and interest in gold coin. To these might be added the clause present in many modern mortgages,

if not in the guaranties, to the effect that no taxes levied through the company on principal or interest shall be deducted from the sums to be paid the bondholder. Too much in the way of preamble is not desirable since it may be looked upon as "notice" in the legal sense that the guarantor's liability is limited. The words "subject to the terms" of a lease or other agreement are often for like reason of questionable advantage, for they suggest doubts as what the instrument referred to may contain-better we should say it is to embody in the guaranty the essential portion of any provisions vital to the contract. As regards the coupons, it is best of course that they should be canceled, but if to indemnify itself the guarantor wishes after payment to hold them alive, there is no objection if his lien is only made inferior to that of the bondholders.

Guaranties to purchase principal and interest. These are a special kind of guaranty. They never have been and never will be much used, since for most purposes the customary guaranty meets all requirements, and at the same time is more in accord with public notions of what a guaranty should be. But when employed it ought to embrace principal as well as interest, and it would seem right and proper to provide also that all coupons purchased shall rank inferior to the principal and subsequent interest *until* the agreement to purchase the principal has been fulfilled.

Guaranties of interest. As to these, the principles laid down for guaranties of principal and interest apply, but as the principal is not guaranteed, the cancellation of the coupons is more than ever essential. If it is the intention that the guaranty of interest shall continue until the principal is paid, the fact should be plainly stated in the endorsement, for few persons read the bond, while many examine the endorsed guaranty. It may be added that where a company wishes its guaranteed bonds to bring good prices, it is a mistake to make the guaranty cover interest only, since a guaranty so limited frequently imparts to the investor a feeling of insecurity regarding the bond that may not be at all justified by the facts.

Guaranties of dividends. Like the other guaranties described, these often gain from brevity in preambles as well as from clearness in every other particular. Under some leases, as in the lease of the St. Paul Minneapolis & Manitoba to the Great Northern, the dividends guaranteed are payable in gold. In such cases, if the certificates are endorsed, as we believe the St. Paul Minneapolis & Manitoba certificates are not, the endorsement should state the obligation to pay in gold or its equivalent. If the guaranty is perpetual, that should be stated clearly, and if limited to the continuance of a lease or for any other length of time whatever, this should be distinctly made known. The guaranty as well as the lease may also, under some circumstances, with reason, be made to provide for increased dividends as the bonds on the property shall from time to time be refunded at a lower rate of interest.

Recitals.—Recitals should, we think, be used only when there is some good reason for not using the regular guaranty. They should be signed, and it is best that their contents should be certified to by the company whose obligation to make payment is described in the recital, or perhaps in some instances by the trust company that acts as trustee of the mortgage or as registrar for the stock (as the case may be), so that the authority for the recital may be evident.

The value on the market of guaranteed stocks and bonds depends to a considerable extent on the earning capacity of the road directly responsible for them, but it is affected still more by the financial standing of the company giving the guaranty. Where the guarantor company has for many years earned a large surplus over all charges, and is known to be wisely and conservatively managed, its endorsement will serve to make well nigh "gilt edged" (as the expression is) a security that is in itself far from strong. Contrarywise if the financial position of the guarantor is for any reason not above question—whether because of poor management, threatening competition, or for any other reason, its guaranty will not be so highly esteemed.

Manifestly, however, it is of the first importance in determining the value of a guaranteed security to ascertain positively that the guarantor was legally capable of giving a guaranty-for the act of guaranty is ultra vires unless permitted by some provision of the guarantor's charter, or by legislative enactment. In some States, too, the law requires that guaranties, in order to be binding, shall be ratified by the guarantor's stockholders. In practice, therefore, careful financiers, when asked to purchase guaranteed stocks or bonds, insist on having it demonstrated to their satisfaction, first that the right to guarantee was held by the guarantor, and, secondly, that the methods prescribed by the law have been followed in the making of the guaranty. Most of the disputes that have arisen as regards endorsements can indeed be attributed to a failure to comply with one or the other of these essentials. Recently, also, it has appeared that the guarantor's mortgages may preclude the making of a proper guaranty. The explanatory statement attached to the Reading readjustment plan announces that the Reading's preference income mortgages expressly forbid the appropriations of earnings to the payment of subsequent rentals or guaranties, and that the company's promise to pay such charges is consequently of no avail.

It is much to be regretted that a disposition is ever shown to treat lightly the rights of guaranteed securities. They are a necessary part of our railroad financial system, and as such, whatever casts discredit upon them does harm that cannot be over-estimated. In reorganizations the holder of guaranteed securities, if the road on which they were issued is doing poorly, cannot always expect to fare as well as holders of direct mortgage bonds of the guarantor company; but they have a moral right, be the earning capacity of their road ever so small, to stand ahead of the stock of the company that has pledged its credit in giving the guaranty.

The cases where guaranteed securities have fared badly are few indeed compared with the number of those yielding much and permanent profit. Selling perhaps low at the outset many guaranteed bonds have been tided by their guaranty over the weak time in their company's career, and eventually stand on their own merits. Frequently, too, the guaranty is merely a temporary matter, and is superseded later by a consolidation that renders the bond a direct liability of the guarantor. It was so with a number of loans guaranteed by the now unfortunate Toledo Ann Arbor & North Michigan. Tney are still endorsed, but consolidation has made them the North Michigan's own direct liabilities. Tt was so with the Union Elevated bonds originally guaranteed and now assumed by the Brooklyn Elevated, and it will probably be so with the Fulton Elevated bonds, guaranteed by the Kings County Elevated, it.

being proposed to merge the Fulton Elevated into the Kings County. It has been so with many well-known loans. Another thing to be remembered is that gaaranteed securities, if only the road they represent is of undoubted value to the lessee, not infrequently suffer less from the financial embarrassment of the lessee than the lessee's own direct mortgage bonds. Take for instance the Virginia Midland and some other securities guaranteed by the Richmond & Danville that receive their interest regularly, although the R. & D. is in default on its own bonds. Even if the earnings of the leased line, when alone considered, show no profit to the lessee, it may be that the lessee is well repaid for its guaranty through the obtaining of a long haul on freight bound from points on the leased line.

The right to guarantee is of great importance to our railroad companies ; but is it not one that calls for safeguards to ensure its proper use ? When we remember how strong properties have been literally rendered bankrupt by having fastened upon them from one motive or another unprofitable guaranties, we may well ask whether some means cannot be devised to make railroad companies more deliberate about assuming as contingent liabilities burdens that as direct obligations they would shun most carefully. As we have said above, the rights of the stockholders as regards guaranties are already recognized in some States by laws requiring that guaranties shall be ratified by a majority vote of the stock. It seems proper that in every State the stockholder should have his interests similarly pro tected. At least one thing more may certainly be insisted upon-the companies should be required in their reports to stockholders and to railroad commissions to describe the amount and nature of all contingent liabilities. Guaranteed stocks and bonds exercise no small influence on a company's financial status, and ought to be no less carefully mentioned than the direct liabilities.

STOCK EXCHANGE CLEARING-HOUSE TRANSACTIONS.—The subjoined statement includes the transactions of the Stock Exchange Clearing-House from June 12 down to and including Friday, June 23; also the aggregates for June to December, 1892, and January to May, 1893, inclusive. The figures for the portion of May, 1892, during which the Clearing-House was in operation are dropped from the statement.

MINNESOTA STATE BANKS.—Public Examiner Keryon, of Minnesota, has furnished us this week a statement of the condition of State banks in Minnesota at the close of business on May 4, 1893. From it and from the latest statement of the condition of national banks—that of May 4—we have prepared the following, which gives the results for all the banks in Minnesota. The aggregate for all the banks in the State on March 6, 1893, are added for comparison :

IMPORTS AND EXPORTS OF GOLD AND SILVER AT SAN FRANCISCO.

We have received this week from the Collector of Customs at San Francisco the details of imports and exports of gold and silver through that port for the month of May, and we give them below, in conjunction with the figures for preceding months, thus completing the figures for the eleven months of the fiscal year 1892-93. Imports were in the aggregate lighter during the month than in April, the amount of gold received being \$27,238, of which \$980 was in coin, while of silver there came in \$156,441, mainly bullion. There has been received during the eleven months a total of \$5,465,433 gold and \$2,492,324 silver, which compares with \$9,602,957 gold and \$2,887,401 silver in 1891-92. The shipments of gold during May were heavier than in any month since January last, reaching \$137,561, all coin, and the exports of silver have been \$338,308 coin and \$179,900 bullion. For the eleven months the exports of gold have been \$1,051,806, against \$791,451 in 1891-92, and \$12,945,207 silver has been sent out, against \$7,627,677 in 1891-92. The exhibit for May and the eleven months is as follows:

PRE-PAYMENT OF INTEREST ON UNITED STATES 4 PER CENT BONDS.—Secretary Carlisle made public the following memorandum on Thursday, June 22: "The Secretary of the Treasury has authorized the Treasurer of the United States and the several assistant treasurers to begin on Monday, the 26th inst., the pre-payment of coupons and checks for interest due July 1, 1893, on the 4 per cent consols of 1907. No rebate will be charged on account of this pre-payment. The quarterly interest checks will be mailed to the owners of registered bonds on Saturday, the 24th instant." Yesterday the Assistant Treas urer in this city announced that he had received instruction s to begin the pre-payment of interest at once.

Monetary Commercial English Rews

[From our own correspondent.]

LONDON, Saturday, June 10. 1893.

The directors of the Bank of England on Thursday lowered their rate of discount from 4 per cent, at which it had stood for just three weeks, to 3 per cent. It was hardly possible to avoid the change, as already the rate of discount in the open market had fallen to $1\frac{3}{4}$ per cent. During the three weeks ended Wednesday night the Bank received from abroad, chiefly from New York, not far short of $3\frac{3}{4}$ millions sterling in gold, and since then it has received in addition another million. This strengthening of the Bank, with the revival of confidence due to the abatement of the crisis in Australia and the fact that no important commercial failures have followed, induced the joint-stock banks to lend freely and the discount houses to compete for bills. The discount rate in the open market is now $1\frac{3}{6}$ per cent.

Rumors have been circulating all the week that the Hir. schell Committee proposes important currency changes in India which will have for their object the raising of the purchasing power of the rupee. Nothing is really known on the subject, but the prevalence of the rumors has encouraged a very active speculation in rupee paper. In a week the price was run up from about 621/2 to 67. Then, however, the offers were so large that there was some decline. At the same time doubts began to spread of the correctness of the reports respecting the Hirschell Committee. When the speculation began the supply of rupee paper here was very small, and to satisfy the demand the Indian banks bought largely in India, selling here. One result of this was that the Indian banks had to apply on an unusually great scale for India Council bills and telegraphic transfers. During the week ended Wednesday night the Council received for its drafts over £450,000, and the prices obtained were exceedingly good. Silver was also bought freely and the price has risen to 381/4d. per ounce. At the same time the Indian money market has become easier. The Bank of Bombay this week reduced its rate of discount to 7 per cent. While rupee paper rose so much Indian sterling stocks have fallen nearly

1 per cent, one of the rumors circulating being that to carry out the proposed changes the Indian Government would borrow in London 5 millions sterling.

Outside of the Indian department very little has been doing on the Stock Exchange. The fall in Greek bonds has continued, having reached nearly 5 during the week. The Greek Government is clearly without means to pay the full interest on its debt, and the opinion is becoming general that it will have to default on the 1st of July. Negotiations are going on with the Messrs, Hambro in London for a funding arrangement similar to that entered into with the Argentine Republic at the time of the Baring crisis.

With the exception, however, of Greeks, the market for international securities has been very steady; indeed there has been an advance both in Egyptian and Russian stocks, Egyptian unified and Russian 4 per cents having both risen a fraction over par during the week. In the American department the public is still holding completely aloof. When the reported interview with President Cleveland was first made known here, there was an inclination to look upon it favorably and to buy more actively ; but as New York prices came lower that inclination quickly passed away and every one now is waiting to see what action Congress will take. The market for Australian securities has been very quiet. There are good grounds for hoping that the banking crisis is at an end; but the colonies will obviously have to pass through a long period of depression. There is very little fear but that the governments will be able to continue paying the interest on their debts, but still there is not much disposition to buy. British railway stocks are steady and so are British Government securities. Early in the week there was a rise in Argentine securities, but the announcement on Thursday of the change of ministry caused a sharp fall, which has been since more than recovered, and upon balance prices are very nearly what they were last week. Apart from Greeks and Indian rupee paper the only material movement has been in the stocks of Allsopp's Brewing Company. A report was circulated that it was about to amalgamate with Bass's Company, but we believe there is no foundation for the rumor. On the strength of it, however, prices were run up very sharply, and have since fallen as quickly.

The Board of Trade returns for May are more satisfactory than any that have been issued for many months past. The value of imports was £36,837,000, an increase of £1,801,000, or slightly over 5 per cent. The value of the exports of British and Irish produce and manufactures was £17,822,000, an increase of £38,000, or 0.2 per cent. In the exports of foreign and colonial merchandise there was an increase of £354,000, or about 5¼ per cent. In the imports the largest increases are in food and raw materials for manufacture. The value of the latter is nearly £934,000 higher than for May of last year and the former about £668,000. The exports show better business in linen, jute and woolens, and there has been a marked increase in the shipments of iron. Of cotton piece goods over 54½ million yards less were shipped.

Messrs. Rothschild have received a telegram from Buenos Ayres stating that the new Finance Minister will probably accept the last proposal of the Rothschild Committee within a couple of days. The telegram is not official, for in fact the Cabinet had not met when it was sent off. but it is from an influential source. If the Minister does accept the last proposal of the Committee, it would mean raising the annual payments for the service of the debt from a million and ahalf sterling to about £1,600,000.

The funding plan now under negotiation between Messrs. Hambro & Son, of London, and the Greek Government is as follows: The interest on all the Greek foreign debt, except the Monopoly loan, is to be funded for 21/2 years. As the Mon opoly is working well and yielding enough to pay the interest on the Monopoly loan in cash, that is not to be touched. The Sinking Fund is also to be funded, and a portion of the floating debt which is immediately falling due, likewise. All these together would necessitate an issue of bonds to the nominal amount of about £800,000 per annum. New taxes are to be imposed, payable in gold, the proceeds to be collected by the National Bank of Greece, the Ionian Bank and another institution, and to be remitted fortnightly to Messrs, Hambro & Son in London. So far the details are practically agreed upon. But the Greek Government wishes that a syndicate should be formed for the purpose of buying any of the new Funding bonds which may be thrown upon the market, up to a certain maximum and at a stipulated minimum price. It is expected that this will be done.

" Last week's stocks: this week's not received.

-Staten Island Railway Company first gold 4½ per cent 50-year bonos are offered for sale by Messrs. C. H. White & Co., 72 Broadway. The bonds are issued for double-tracking the road and other purposes, and are guaranteed by the Staten Island Rapid Transit RR. Co. See the advertisement.

-The Rail way Age, of Chicago, has issued a new edition of its Biographical Directory of Railway Officials. It is a volume of 400 pages, and is very useful as a ready reference con-cerning railway officials.

-Messrs. Sanford & Kelly, bankers at New Bedford, Mass., have issued a small book of statistics and information relating to New Bedford.

-The attention of investors is called to the City of Moline 5 per cent School Bonds advertised in last issue by Messrs. Geo.

A. Lewis & Co., Chicago.
—The West Virginia Central & Pittsburg coupons due July
1 will be paid at the office of Hambleton & Co., Baltimore.

Government Purchases of Silver.—The following shows the amount of silver purchased to date in June by the Government. The Department having purchased the amount of silver required by law for the month no further offers will be considered until Monday July 3.

WALL STREET, FRIDAY, JUNE 23, 1893-5 P. M. The Money Market and Financial Situation.—The New York banks have again resorted to the issue of Clearing-House Fork banks have again resorted to the issue of Clearing-House certificates for the adjustment of balances between them-selves, thus recognizing the large and imperative demand for currency as something requiring extraordinary measures. On all sides it seems to be conceded that it is wise to provide for such an emergency in time and not to wait until a financial crisis is already imminent.

such an energency in time and not to wate thirt a minimum crists is already imminent. Two important events have taken place this week in regard to comport and fairs, namely, the issue of the Committee's report and plan of adjustment for the National Cordage Com-pany and the abandonment by the syndicate of the Philadel-phia & Reading plan of reorganization. The latter was held strictly to the brack time limit of June 21, and it was almost a foregone conclusion that the assent of 90 per cent of the gen-eral mortgage bonds ould not be gathered in during so short a period. It seems as f there must have been some motive or some inside history regarding this Reading plan which has never been fully known by the public. The ordering of \$500,0th gold in London for export to this country created quite a title breeze in our market talk, but the transaction was without general significance and based only on the slump in expange here produced by the stringency in money. In fact this small importation may do harm in raising the expectation of a continued gold move-ment in this direction.

harm in raising the expectation of a continued gold move-ment in this direction. The Pacific Coast is now feelin, the effects of the crisis produced by the silver legislation. A object lesson is grow-ing in all parts of the United States, and t is to be hoped that the cause and effect will be so distinctly t aced by our Con-gressmen that no argument in words will be necessary to con-vince them that the silver law of 1890 is so pring the vitality of the country. What we need now for sp bing the vitality in all quarters is the placing of business the mactions on a basis of certainty so far as money values are unsactions on a being assured there is little doubt that the informer of foreign money for investment in this country would how of foreign

The open market rates for call loans during the week on ock and bond collaterals have ranged from 3 to 25 per ont, the average being 9 per cent. To-day rates on call ere 7 to 20 per cent. Commercial paper is quoted at 7 to 15 c., but it is almost impossible to secure accommodation.

The Bank of England weekly statement on Thursday showed increase in bullion of $\pm 208,000$, and the percentage of serve to liabilities was 50°12, against 49°79 last week; the sount rate remains unchanged at $2\frac{1}{2}$ per cent. The Bank France shows an increase of 4,000,000 frances in gold and 000 000 function silvar 00,000 francs in silver.

The detailed statement of the condition of the Clearing-The detailed statement of the condition of the Chearing-ouse banks has been discontinued for the present, and will be again be issued so long as there are any loan certificates itstanding. The totals, however, are furnished as usual, ad the figures for last Saturday (June 17) as compared with lose of the preceding Saturday, show a decrease in the re-rve held of \$8,741,400, leaving a surplus over the required serve of \$8,776,800, against \$14,420,900 the previous week :

Foreign Exchange.-The rates for foreign exchange were depressed by the stringency in money here that a small t of \$500,000 gold was actually ordered from London. This, owever, was regarded as quite abnormal, and the rates for erling advanced quickly Thursday as money relaxed, but were eak again to-day. There has been no large supply of comeak again to-day. There has been no large supply of com-ercial or other bills, and no gold imports of any consequence e looked for in the infmediate future. The actual rates exchange are: Bankers' sixty days sterling, 4 82@ 32½; demand, 4 84½@4 85; cables, 4 85@4 85½. Posted rates of leading bankers are as follows:

State and Railroad Bonds .- The sales of State bonds

State and Railroad Bonds.—The sales of State bonds have included only \$20,000 Tennessee settlt. 3s at 70@71, and \$10,000 Ala. cur. funding 4s at 91. Railroad bonds as a rule have been neglected, but a few issues have been active at prices very fairly maintained, con-sidering the present sentiment of the market. The Atchison 1st mortg. 4s and the Rock Island coupon 5s have been among the most active bonds, the former generally selling be-tween 79 and 80 and the latter around 98@99. Most bonds have been a trifle weak and hard to sell, owing to the money disturbance. The Reading general mortg. 4s and pref. incomes were so little affected by the abandonment of the re-organization plan that they hardly sold sufficiently to make prices, though to-day on moderate sales they are weaker. As the prices of the lower classes of railroad bonds and the general depression in securities influence to some degree the prices of depression in securities influence to some degree the prices of choicer investments, the attention of buyers of this class of bonds may well be directed to their current figures.

Railroad and Miscellaneous Stocks.—There has been the usual dull business with prices generally steady on the present low basis of values. Two leading events of the week have been the issue of the Cordage plan and the relinquishing of the Philadelphia & Reading plan, and in each case there has been a decline in the stocks. This was to be expected with Reading, and as to Cordage, whatever plan was issued within the limit of possibilities it might have been anticipated that the market would construe it unfavorably at this time. There is little to be said regarding the stock situation except what pertains to financial affairs at large, as prices for many stocks are so near the bottom that they can hardly be pressed lower, and with any permanent improvement in the general outlook they ought to advance materially. To-day there was a continuation of low prices at the Stock Exchange, with Reading down to 12%, closing at 13¹/₂; Cordage 12¹/₄, Chicago Gas 69, St. Paul 63¹/₆, Western Union 82³/₄, &c., &c. Among the industrials, Sugar is the most active and to day went lower, closing at 81¹/₂; Lead closes at 31 and Tobacco had no sales, Railroad and Miscellaneous Stocks .- There has been the

#### ANNUAL REPORTS.

## North American Company.

(For the year ending May 31, 1893.)

The annual report of this company states that aside from its current routine financial transactions, the business 

	Gross.	Nel.
1892	\$1,158,621	\$408,993
1891	902,400	273,367
and a second sec	and the second second	In the set party of

\$256,220 Increase . \$135,625

While the loss was nominally covered nearly in full by insur-ance, yet the indirect consequences were serious. Notwith-standing all these adverse conditions, the following comparative statement exhibits the development of this property:

#### INCOME FOR FIRST FIVE MONTHS.

	1892.	1893.	Increase.
Gross	.\$407,889	\$505,181	\$97,291
Net	.\$117,212	\$137,486	\$20,274
A have stated the estual	not coming	a for the	TOON 1902

Net......\$117,212 \$137,486 \$20,274 As above stated, the actual net earnings for the year 1893 are estimated at not less than \$550,000. Some two months ago the Board of Directors resolved upon the formulation of a plan for the issue and sale of the con-solidated mortgage bonds of the Milwaukee Street Railway Company, whereby the North American Company might speedily realize its cash investment in the property while remaining the proprietor of the greater part of its capital stock and profiting by its certain future growth. Prior to May 1 informal commitments had been obtained to a guarantee syndicate for the underwriting of the greater part of the bonds subject to the bankers' acceptance and the fixing of a date of public issue which should be acceptable. But the Wall Street conditions have been so unfavorable that the Board were advised to wait until after the first of July before proceeding further with the proposed syndicate. The Milwaukee Street Railway Company syndicate pro-poses to issue five per cent thirty-year consolidated mortgage gold bonds, dated December 27, 1890, for an authorized amount of \$10,000,000, of which \$1,500,000 will be reserved to meet underlying bonds, \$7.000,000 will be offered for sale at 97½ or taken by the syndicate at 92½, and \$1,500,000 will be reserved for future requirements. Upon the carrying out of this plan the company will own about \$4,000,000 of the bonds to be sold, which at 92½ net will yield approximately \$3,-700,000. This amount, says the report, "will be sufficient to pay the entire indebtedness of the company, and, with the cash now in

to be sold, which at 92½ net will yield approximately \$3,-700,000. This amount, says the report, "will be sufficient to pay the entire indebtedness of the company, and, with the cash now in bank, leave more than \$1,000,000 actual cash in hand, besides its other cash resources and listed securities quickly converti-ble. An adequate working capital will thus be provided with which to enter upon new business." The Cincinnati Edison Electric Company, in which the North American Company is a large shareholder, has shown a con-stant and satisfactory growth in business. "The aggregate connections for light and power are equivalent to 21,273 in-candescent lamps of 16 c. p. each, which compares most fa-vorably with the progress at a similar stage made by the cen-tral station electric companies in New York and other large cities. There have been considerable additions to both the steam and electric plants within the past year, and the pres-ent equipment is of the latest and most approved types. Under the advantageous contract made with the city of Cin-cinnati on May 31, 1892, to furnish all the city lighting for a term of eleven years, the lighting of the first district, com-prising the commercial heart of the city. was completed on February 28th of the present year." ** * "The earnings of the company already show a fair surplus over the operat-ing expenses, and there is every reason to believe that the installation of the additional business in immediate prospect will give a good return upon the investment."

#### Huntingdon & Broad Top Mountain RR. & Coal Co.

(For the year ending December 31, 1892.)

The report says: The number of passengers carried in 1891 was 98,811, while in 1892 the number carried was 107,248. There were moved in 1891 a total tonnage of 2,521,771 tons while in 1892 there were moved 2,447,279 tons, being a decrease

while in 1892 of 74,492 tons. "While the figures show a considerable falling off in the coal tonnage of your road for the year as compared with the previous year, the loss was entirely from coal received from other roads, and was largely owing to the depressed condition of the bituminous coal trade during the first six months of the year" * *

of the bituminous coal trade during the first six months of the vear." * * * "Your management has continued to carry out the policy as outlined in the last report, in providing all the cars neces-sary for the shipment of coal from its own region, besides having a number of cars to send to other localities, thus being in a position to largely augment its traffic." * * * "The company has built during the year 380 coal cars, 180 of which were referred to in the last annual report as having been contracted for. Two hundred and fifty additional cars have been contracted for, to be finished during the early part of the year 1893; \$48,635 have been expended for permanent improvements, betterments &c., all of which have been paid for without increasing the indebtedness of the company in any manner, except to the extent of the issue of 189 shares of the preferred stock, for which the sum of \$9,615 was realized, thus bringing the issue of the preferred stock up to its au-thorized limit of 40,000 shares, of the par value of \$2,000,000. Dividends at the rate of seven per cent on the preferred stock and four per cent, on the capital stock have been paid during the year out of the earnings. Results for two years have been as follows: RECEIPTS AND EXPENSES.

#### Sioux City & Northern R R. (For the year ending December 31, 1892.)

(For the year ending December 31, 1892.) Mr. Garretson, the President, says: "I am glad to be able to call your attention to the splendid increase in business done by the road for the year 1892, after taking into account the adverse circumstances that attended its operation for the year 1892. The new towns and villages along the line have made a good steady growth. The condition of the road and equipment is first-class." * * * "Rates during the last year have been well maintained."

\$4,710,6481 \$4,710,6481 The report says: "On May 17, 1892, an unprecedented flood, the result of a cloud burst on the west fork of the Floyd River, swept down the Floyd Valley. The damage to the properties, the Sioux City & Northern Railroad and the Sioux City Terminal Railway & Warehouse Company, was consid-erable." * "The loss of traffic to the Sioux City & Northern Railroad Company, and the Sioux City O'Neill & Western Rail-way Company, caused by the flood, was a considerable item, and were it not for this, the increase in gross earnings for the Sioux City & Northern Railroad for the year 1892 would have exceeded the earnings of 1891 by \$65,000 (approximated). It is proper to say here that the amount of money used in per-flecting the terminal system of tracks and bed of road gener-ally, after the flood, is charged in regular operating expenses." ally, after the flood, is charged in regular operating expenses.

#### GENERAL INVESTMENT NEWS.

Atchison Topeka & Santa Fe.—President Reinhart has furnished for publication the following statement of the actual fixed charges for the year ending June 30, 1893, including interest on bonds, interest on floating debt, taxes, rentals. &c., and the actual receipts from all Atchison properties during the year: "The fixed charges of the Atchison Topeka & Santa Fe RR. Co, and its auxiliary corporations, including the St. Louis &

"The fixed charges of the Atchison Topeka & Santa Fe RR. Co. and its auxiliary corporations, including the St. Louis & San Francisco and Colorado Midland railway companies, representing in all 9,345 miles of owned railroad, ten coal companies and other corporations, making in all the ninety of such comprising the Atchison general system, consisting of interest on bonds, all other interest, taxes, rentals and charges of every description, will aggregate for the current fiscal year to June 30 instant, \$14,328,000. "This total includes \$2,000,000 taxes and rentals paid in the Western office. leaving balance pavable in Boston, New York

"This total includes \$2,000,000 taxes and rentals paid in the Western office, leaving balance payable in Boston, New York and London during the year of \$12,328,000. "The cash remittances from Western offices during the fiscal year from July 1, 1892, to end of this month, will total at \$15,366,095, or \$1,038,095 more than fixed charges. "As should be generally known, as clearly demonstrated in Atchison Co.'s circulars 63 and 68, the Atchison system's fixed charges cannot materially increase, while all improvements are specifically provided for from other sources than net earn-ings, so that the \$5,900,000 floating debt of St. Louis & San Francisco Ry. and the Colorado Midland Ry. companies, which the Atchison Co. has carried, all of which is secured by first-class bonds, is really all that stands ahead of dividends on capital stock of Atchison Co. "If this floating debt was financed to day through disposal

on capital stock of Atchison Co. "It this floating debt was financed to day through disposal of the bonds back of it, even at the low market prices pre-vailing, there would still be left in the treasury of the Atchi-son Co. an ample supply of first-class marketable bonds which the company would have no occasion to dispose of, but which could be used in the future against any possible contin-gencies. gencies.

"The gross earnings of the Atchison Topeka & Santa Fe R. R. system for the ten months to April 30th last were \$42,-327,923 and the net earnings \$13,870,800. It is reasonable to expect that the gross earnings for the twelve months or fiscal year ending June 30 (current month) will not be less than \$50,0(0.000 and the net earnings at the lowest figure not under \$16,200,000."

Canade Southern.—At a meeting of the board of directors on the 23rd inst., a semi-annual dividend of 1½ per cent was declared payable on the first day of August next. A state-ment was received from the Michigan Central RR. Company (June being partly estimated) which shows the following re-sults from the business of the past six months:

Gross earnings of both roads Oper expenses and taxes Percentage of earnings	1891. 6,965,000 5,135,000 (73'73)	1892. \$7,642,000 5,732,000 (75.00)	1893. \$7,550,000 5,785,000 (76.62)
	1,830,000 1,230,000	\$1,910,000 1,200,000	\$1,765,000 1,200,000
Surplus Division as per traffic agree't— To Mich. Central &R. Co	\$600,000 443,000	\$710,000 526,000	\$565,000 403,000
To Canada So. Ry. Co Add balance previous years	\$157,000 215,763	\$184,000 218,417	\$162,000 176,632
Balance June 3) Less dividend 14 p. c. declared	\$372,733 187,500	\$402,417 187,500	\$338,632 187,500
Balance	\$185,233	*214.917	\$151,132

Lake Shore & Michigan Southern —At a meeting of the board of directors, held on the 23rd inst., a dividend of three per cent was declared, payable on the first day of August next. The following is the half yearly-statement that was presented to the meeting, the month of June being partly estimated:

Gross earnings Oper expenses and taxes Per cent	$\begin{array}{c} 1891. \\ \$9.550,047 \\ 6.609,009 \\ (69.20) \end{array}$	$\substack{1892.\\\$10,708,234\\7,420,573\\(69^{\circ}29)}$	1893. \$11,744,000 8,283,206 (70.53)
Net earnings Lut , rentals and dividends on guaranteed stock	\$2,941,035 1,680,000	\$3,237,661 1,680,000	\$3,4t0,794 1,680,000
Balance for stock Equals per share The dividend amounts to.(2	\$1,261.038 (\$2*55) \$) 1,236,662	\$1,607,661 (\$3 [.] 25) (3) 1,483,995	\$1,780.794 (\$3.60) (3) 1,483,995

Surplus for half-year .. \$24,375 \$123.666 \$296.799 Expenses include all expenditures for betterments-and also about \$750,000, charged off against open accounts brought forward from 1892 for expenditures made that year in antici-pation of this, as stated in annual report.

Manhattan Elevated.—The two propositions before the Elevated road directors now are: First—The proposition made by Mr. Spencer that the road shall pay 5 per cent of its net income, which shall be computed by deducting from its net income, which shall be computed by deducting from its gross receipts the maintenance charges, operating expenses, and the interest on its funded debt, which it is provided shall not exceed \$2,000,000 in any year, and the citv's share shall not be less than \$125,000 in any year. Under this proposition it is estimated that in fifteen years the payments to the city would amount to \$450.000 per annum. Second—The last pro-posal of Mr. Starin, that the Manhattan Elevated Railroad Company may enter into an agreement to pay into the city treasury on the first day of only in each year in lieu of said percentage the sum of \$175,000 in cash, and at that rate for any part of a year. That the tax in either event shall begin to accrue when the extension to Fort George shall be put in operation; and that the Manhattan Company shall, on or beoperation; and that the Manhattan Company shall, on or before July 10, exercise the option as to the form of tax, and as to whether it will accept the facilities and extensions approved by the Board by resolutions of March 11 to 30 and April 2 and this date.

The Sun remarks that if the Manhattan accepts either of the propositions the improvement in raud traosit facilities in the city, all to be completed within the next two years, will be as follows. On the east side :

and the city, and to be completed within the next two years, will be as follows. On the east side :

A third track over and along Park Row from Chatham Square to Tyron Row
The construction and operation of a line, with two tracks diverging from the present structure in Division Street and Park Row, at or near Catharine Street, thence running along either Catherine Street or Oliver Street, or through private property between the two, to South Street; thence along South Street to Coenties Slip, and thence by the most feasible route, either through private property between the two, to South Street; thence along South Street to Coenties Slip, and thence by the most feasible route, either through private property or otherwise, to a junction with the present tracks at or near Whitehall street.
Two additional tracks in the Bowery from Chatham Square to Third Avenue and a third track in Third Avenue from the Bowery to 129th Street.
A two-track extension from 177th Street, the present terminus of the Suburban, through Third Avenue, Fordham Avenue, Kingsbridge road, and College Avenue to the Station of the New York & Harlem road at fordham and the grounds of st. John's College
A third track on the Second Avenue line from Chatham Square to 129th Street.
R Additional terminal facilities at Park Row and Tryon Row, and at 24th Street.
The press trains on both the Second Avenue at Chatham Square, Fourteenth, Twenty-third, Forty-second, Fifty-seventh, Eighty-sixth and 125th; on the Third Avenue at Chatham Square, Fourteenth, Twenty-third, Forty-second, Fifty-seventh, and 125th; on the third Avenue at Subar Square, Fourteenth, Twenty-third, Porty-second, Fifty-sourth and 125th;

#### On the west side:

On the west side:
1. A new line diverging from the present elevated structure at or near Battery Place, running thence along Battery Place to WestStreet, thence along West Street to Barrow Street; thence along Battery Place to WestStreet, bence along West Street to Barrow Street; thence along Battery Place to WestStreet, thence along Battery Place to WestStreet, store a point near Bedford Street; thence in a straight line through private property, wherever necessary, and crossing Bedford, Commerce, Moron Bleecker and Cornelia streets, to a junction with the present elevated structure at Street structure in Ninth Avenue, pear108th Street, thence by a curve to the west Into 105th Street; thence along Hosth Street to the Boulevard or Eleventh Avenue; thence along Hamilton Place, This is to be a three-track road.
3. Four tracks in BiGreenwice Street from Barrow Street to 10-th.
4. Four tracks in the Ninth Avenue from Barrow Street to 10-th.
5. A third track in spots on the Sixth Avenue to Marine to enable the starting frains from almost any station on the line.
6. Exp ess trains on both the Sixth Avenue at Cortlandt, Fourteent, Ywenty-third and Forty-second : on the Ninth Avenue at Battery Place Cortlandt, Warren, Fourteenth, Forty-second, Fifty-ninth, 125th and 145th streets.

7. A loop at the Battery which will enable passengers to board a ain at an east or a west side station and ride around to the other side

train at an east or a west side station and ride around to the other side of town.
8. An extension with two tracks, switches, and connections, running from the structure of the Manhattan Railroad in Third Avenue through 129th Street to the east side of Fourth, or Park, Avenue to a point near 133d Street; thence over the proposed viaduct of the Harlem Railroad Company. along Fourth Avenue at through such private property as may be necessary to 135th Street, and along 135th Street to a junction with the Eighth Avenue structure.
9. Stations at Fifty ninth and 104th streets to be made starting points for south-bound trains during crowded hours.
10. Additional terminal facilities at 155th Street.

Michiga" entral.-At a meeting of the board of directors held June 23 a dividend of 2 per cent was declared payable on the first day of August next. The following statement of the business for the six months ending June 30 compared with that of the previous year was presented, June being partly estimated:

Gross earnings Oper. expenses and taxes Per cent	1891. \$6,965,000 5.135.000 (73.73)	1892. \$7.642,000 5,732,000 (75.00	$\substack{1893.\\\$7,550,000\\5,785,000\\(76\ 62)}$

Balance	\$68,236	\$151,236	\$28,236

National Cordage .- The report of the reorganization com-

National Cordage.—The report of the reorganization com-mittee, together with the plan proposed for the rehabilitation of the company, was made public on Wednesday, and the full text is given on following pages. The book value of all assets (after writing off the amounts recommended by the committee) amounts to \$25,732,517 89, and the liabilities (exclusive of capital stock) amount to \$11,-986,417 71. Among these assets are included twenty mills and plants, all going concerns, of which eight are held under lease from the Security Corporation. The transaction of in-creasing the common stock from \$10,000,000 to 20.000,000, as shown by the records of the company, has not yet been car-

creasing the common stock from \$10,000,000 to 20.000,000, as shown by the records of the company, has not yet been car-ried into the books of account. When this shall have been done an increase in the book value of assets will be shown. In order to pay its liabilities and to provide adequate working capital, it is proposed to fund and extend a portion of the debt by the issue of collateral trust 6 per cent bonds to an amount not exceed-ing \$6,000,000, and to call upon the stockholders for cash con-tributions, for which they will be given preferred stock at par. The preferred stockholders are to pay 20 per cent and the common 10 per cent. For this purpose the preferred stock will be increased from \$5,000,000 to \$8,000,000. In lieu of the cash payment from the holders of common stock they are will be increased from \$5,000,000 to \$5,000,000. If first of the cash payment from the holders of common stock they are given the option of assigning to the Reorganization Commit-tee 50 per cent of their holdings. Both classes of stock may subscribe to the new bonds at 85. If the stockholders do not consent to the plan the committee will take such measures— either by increasing the debt of the present company, or by winding up its affairs, selling out its assets and organizing another company for the purchase of these assets and the continuance of the business, or otherwise, as they think advisable.

Of the issue of \$5,000,000 of 6 per cent gold bonds which are offered to stockholders exclusively until July 11, at 85 and interest, \$3,000,000 have already been underwritten at 85 for a cash commission of 5 per cent. Stockholders may come in on the same terms as the underwriting syndicate in subscriptions of not less than \$5,000.

The U. S. Trust Company is the depositary for the secur-ities and will issue its negotiable certificates of deposit in exchange for deposits of stock under the reorganization agree-ment. The payments of cash are to be made for the pre-ferred stock 10 per cent by July 10, 5 per cent by August 10 and 5 per cent by September 10. Payments on the com-mon, 5 per cent July 10 and 5 per cent August 10.

North American Company.—The annual meeting of the stockholders of the North American Company, held in New Jersey, resulted in the election as directors of Charles W. Wetmore, Thomas F. Oakes, G. R. Sheldon, J. H. Herrick, S. W. Burt, Edward Edes, D. S. Wegg, H. C. Payne and George S. Jones. Mr. Wetmore was chosen President, Mr. Vice-President and Mr. Edes Secretary and Treasurer. Jones

An erroneous impression seems to have gained currency that the North American Company proposes an issue of \$10,-000,000 bonds. The fact is that the North American Com-pany is the owner of nearly \$4,000,000 of the consolidated mortgage bonds of the Milwaukee Street Railway Company, and a syndicate was formed some time since to issue \$7,000,000 of these bonds, which includes the afore-mentioned amount of these bonds, which includes the afore-mentioned amount. The North American Company has not proposed to make any issue of its own company's bonds.

issue of its own company's bonds. Northern Pacific.—Mr. Villard's resignation as a director and as Chairman of the Board of Directors of the Northern Pacific has been accepted and Mr. J. D. Rockefeller elected a director to fill the vacancy. The office of Chairman of the Board has been abolished. A complimentary resolution was adopted, stating among other things that, "in season and out of season Mr. Villard has been found at his post, care-outly and closely watching the financial interests of the comfully and closely watching the financial interests of the com-pany, and with the aid of his powerful friends abroad he has furnished assistance which it might not under any other circum-

stances have been able to obtain. The Board fully recognizes the facts that it has not been the personal desire of Mr. Villard to keep the position which he has occupied and to take upon himself the responsibilities which it has been necessary for himself the responsibilities which it has been necessary for him to bear, and that he has remained in his position for sev-eral years at the earnest personal solicitation of many of the members of this Board and a number of the largest stock-holders. The position of Director and Chairman he accepted with great reluctance, and we fully bear testimony to the fact that it has exposed him to unjust and unfair criticism."

Ohio & Mississippi-Baltimore & Ohio Southwestera -The committee of shareholders of the Ohio & Mississippi Railroad announce that over 85 per cent of the Ohio & Mississippi general mortgage 5 per cent bonds and the junior se-curities of the Ohio & Mississippi and Baltimore & Ohio Southwestern railroads have been deposited under the plan of consolidation.

of consolidation. The committee also announces that the Farmers' Loan & Trust Company of New York and the Mercantile Trust & D--posit Company of Baltimore are now prepared to receive de-rosits of the Ohio & Mississippi first mortgage consolidated 7 per cent currency bonds second mortgage consolidated 7 per cent currency bonds and first mortgage 7 per cent Spring-field Division currency bonds.

Under the plan of consolidation holders of these bonds will be entitled to receive in exchange for their bonds new 41% per cent first consolidated mortgage gold bonds on the following basis: For each \$1,000 of the first mortgage currency bonds \$1,100 of the new gold bonds; for each \$1,000 of the second consolidated mortgage bonds \$1,200 in the new gold bonds; for each \$1,000 of the Springfield division bonds \$1,150 in

be payable in gold.

Omaha & St. Louis.—Mr. John F. Barnard has been appointed receiver of the Omaha & St. Louis Railway at Keokuk on ap-plication of the U. S. Trust Co. of New York, trustee of \$2,700,000 bonds.

Pacific Mail-Pavama .- The arrangements by which the Pacific Mail—Pavama.—The arrangements by which the Panama Railroad Company assumes control of the Atlantic business of the Pacific Mail Steamship Company has been signed by the President of each company. It is reported (but not officially) that the terms of the lease of the three steamers of the Pacific Mail now engaged in the Atlantic service include the payment of a rental of \$9,000 per month. The arrange-ment also covers the extensive dock facilities of the Pacific Mail Company in both New York and Coloa. Messis, Stan-ford, Parry, Herron & Co., who have been the agents in charge of the Pana na Railroad's Columbian Line, will con-tinue as agents of the Company for the new service. Mr. Charles H. Tweed, counsel for Mr. Huntington and the Pacific Mail Company, made the following statement:

Mail Company, made the following statement: "After between three and four months of negotiation a contract was signed this afternoon between the Panama and Pacific Mail interests. The instrument is a lease of the Pacific Mail Company Columbia Normert and City of Dark the Pacific Mail interests. The instrument is a lease of the Pacific Mail steamers Columbia, Newport and City of Para to the Panama Company, represented in this city by the Parry firm, A through line is to be operated from New York to San Francisco via Colon and Panama; the Pacific Mail Company handling the west coast business through its offices at San Francisco, and the Panama having control of the traffic originating on the east coast. The advantage of this arrangement will be apparent when it is recalled that the Pacific Mail has a steamship service between China and Japan and San Fran-cisco which will yield a large tonnage for the Isthmus route."

It is understood that the present agreement is in the nature of a compromise, to stand until a more permanent contract is made.

Philadelphia Traction Co.—By a vote of 106,700 shares out of 140,000 the Philadelphia Traction Company has been authorized to issue 40,000 additional shares, increasing the capital stock from \$7,000,000 to \$9,000,000. President Widener said the stock would probably not be

issued until the shareholders would take it at \$150 per share, par being \$50. Arrangements have been made to borrow money to complete the trolley improvements and prevent a forced issue of stock.

Philadelphia & Reading.—The plan of reorganization has been abandoned because 90 per cent of the general mort-gage bondholders and 60 per cent of the stockholders have not given their assent to this large scheme in the short space of about three weeks. The plan was well received and the assents in the brief period it has been before the public aggre-gated the very large amount of \$31,356,000 of general mort-gage bonds and 411,318 shares of stock; of the latter only 480,424 shares were called for and the balance would probably have been obtained in a few days. have been obtained in a few days.

There has been something extraordinary about this from the start and it looks very much as if the limited time allowed for assent to this excellent plan was put in as a safety valve for the syndicate, to enable them to relinquish the scheme at the end of three weeks if 90 per cent of the widely-scattered general mortgage bonds had not then come in. The CHRONICLE pointed out when the plan was first expressed that the pointed out when the plan was first announced that the time allowed was too short. Mr. J. Lowber Welsh of Phil-adelphia, who is understood to have been the author of the

plan, is quoted as follows: "It was unwise in the bond and stock holders not assenting. Each man in the syndicate was able to pay the amount subscribed by him. Some of the members of the syndicate are glad now that they do not have to pay.

President Harris has issued the following statement:

OFFICE OF THE PHILADELPHIA & READING RAILROAD COMPANY, No. 227 South Fourth Street, Philadelphia, June 22, 1893. To the stockholders and bondholders of the Philadelphia & Read-ing Railroad Company: The Board of Managers regret to announce that the plan of readjustment of May 27, 1893, has failed to receive the assent of the holders of the requisite number of shares and obliga-tions of the company.

tions of the company. The total assents to the plan of readjustment were as follows:

PPPGL 

JOSEPH S. HARRIS, President. —At Philadelphia June 21, the application of the receivers of the Philadelphia & Reading Railroad for permission to issue \$5,500,000 of receivers' certificates again came up for a hear-ing before George L. Crawford, master. Thomas Hart, Jr., counsel for the Reading receivers, stated that the request in the petition for provision for the payment of \$1,233,463 for coal purchases would be withdrawn temporarily and the peti-tion would then be simply for wages and supplies. After a general discussion among counsel the meeting adjourned in order to give the Comptroller an opportunity to furnish data asked for by the various attorneys. asked for by the various attorneys.

Richmond & West Point Terminal.—The Reorganization Committee has fixed a time limit for depositing the following securities, in addition to those already announced, viz.: Charsecurities, in addition to those already announced, viz.: Char-lotte Columbia & Augusta tirst mortgage consolidated 6s, Columbia & Greenville first and second mortgage bonds, East Tennessee Virginia & Georgia improvement and equipment bonds, first extension bonds and general mortgage bonds, Louisville Southern first mortgage bonds; also all classes of East Tennessee Virginia & Georgia stock and Louisville Southern stock. All these issues must be deposited with Drexel, Morgan & Co. by July 8, otherwise they will have to pay penalties. Application has been made to the Stock Exchange to list.

Application has been made to the Stock Exchange to list the reorganization receipts for Richmond & Danville consolidated 5s.

Further modifications of the reorganization plan are an-

Further modifications of the reorganization plan are an-nounced as follows: The East Tennessee improvement and equipment bonds are to receive 75 per cent in bonds, preserving their present lien, bearing interest at 4 per cent for five years from March 1, 1893, and at 5 per cent thereafter, and 50 per cent in preferred stock; also \$25 in cash on completion of the reorganization. The Columbia & Greenville first and second mortgage bonds receive the same terms as Georgia Pacific first and second mortrage bonds viz . First mortgage bonds to receive

bonds receive the same terms as Georgia Pacific first and second mortgage bonds, viz.: First mortgage bonds to receive interest at 5 per cent in cash and 1 per cent in preferred stock of the new company for five years from January 1, 1898, and at 6 per cent in cash thereafter; their present mortgage lien to remain undisturbed. Second mortgage bonds to receive 125 per cent in preferred stock of the new company.

San Antonio & Aransas Pass.—The Central Trust Co. of New York will deliver the new first mortgage 4 per cent guaranteed bonds upon presentation and surrender of reorganization receipts.

Toledo Ann Arbor & North Michigan.—At a meeting of the directors of the Toledo Ann Arbor & North Michigan Bailroad in Toledo on the 19th inst. the following New York capitalists untered the directory to fill vacancies: John Jacob Astor, J. Edward Simmons, George W. Quintard, Amos F. Eno, Joseph Walker, Jr., H. B. Livingston and E. Dichman. These changes are the result of an agreement reached by the Bondholders' Committee,

#### Reports and Documents.

NATIONAL CORDAGE COMPANY.

REPORT OF COMMITTEE AND PLAN OF REORGANIZATION.

#### NEW YORK, June 15, 1893.

To the Creditors and Stockholders of the National Cordage Co:

The undersigned have been requested to act as a Reorgani-zation Committee to investigate the affairs of the National

zation Committee to investigate the affairs of the National Cordage Company and to devise a plan for its reorganization. They report as follows: Their examination into the affairs of the Company leads the Committee to believe that the chief impediment to the finan-cial success of this Company has been that of lack of adequate working capital. This did not present itself as a practical difficulty to the stockholders or directors so long as the com-mercial and financial methods mentioned in a new long difficulty to the stockholders of the s mercial and financial markets remained in a normal condition, except that it has obviously increased the Company's ex-penses, and, to a certain extent, diverted the attention of the officers and directors from the management of the manufac-

turing business of the Company. The great prosperity of the business, also, and the experi-ments attending its formative period, have induced a scale of expenditure, both in purchases and in management, which may be avoided in the future. But special conditions of the money market, well under-

may be avoided in the future. But special conditions of the money market, well under-stood by all parties in interest, confronted this company about May 1st, 1893. At this time of the year stocks of merchandise in this business are always largest; the distributing season for binder twine had just arrived; large amounts of money were required to ship this twine and to sell it on time payments; the Company was more extended than at any other period of the whole year, and the most active season for all the other products of the Company was setting in. At this time, there-fore, when the Company most needed large amounts of cap-ital, the condition of the money market made it impossible for the Board of Directors of the National Cordage Co. to find sufficient capital for the renewal of maturing obligations. Under these prevailing conditions, the sale of additional pre-ferred stock, as approved by the Board of Directors in a reso-lution dated April 29th, 1893, was also found to be impractica-ble. The emergency thus created called for prompt and rad-ical action. Therefore, on May 4th, 1893, it was decided by the Directors and various creditors and stockholders of the Company that the Company must be put in the hands of the receivers, to protect alike the interests of creditors and stock-holders. The Chancellor of Naw Jersey appointed Edward E. C

holders

The Chancellor of New Jersey appointed Edward F. C. Young and G. Weaver Loper as receivers of the Company. After the receivers had qualified, they addressed the following communication to the principal creditors, and some large stockholders of the Company:

Abolders of the Company: "Dear Sirs: "The undersigned, receivers of the National Cordage "Company, find it highly desirable, in their efforts to "protect the property for the benefit of all concerned, "that some committee representing the creditors and the "parties interested should be appointed to confer with "them as to questions of policy, and to further some steps." "for the ultimate reorganization of the affairs of the "Company." "Company.

"We therefore address you, understanding that you "have some interest directly or for others in these mat-"ters, and express our strong desire that steps should be "taken in the direction indicated.

"E. F. C. YOUNG, "G. WEAVER LOPER, "Receivers."

In response to this letter, a meeting, called together by the receivers, was held on the 8th day of May, at which there was unanimously appointed as a Reorganization Committee Mr. George C. Magoun, of Baring, Magoun & Co.; Mr. Ernst Thalmann, of Ladenburg, Thalmann & Co., and Mr. Gustav H. Gossler, of G. Amsinck & Co. At this meeting also, the presidents of three of the largest New York Banks consented to got a on advicer committee in conjunction with the Pa-

presidents of three of the largest New York Banks consented to act as an advisory committee, in conjunction with the Re-organization Committee. The firm of Messrs. Deloitte, Dever, Griffiths & Co., chart-ered accountants, of London, England, and New York, was employed to make a thorough investigation of the books of the Company. At the same time an investigation was begun, and is now in progress, concerning the physical condition and value of the various properties and the legal status of the Company. This latter investigation is not yet concluded, but the importance of keeping the business going by a prompt re-organization is so great as to induce the committee not to await the completion of this investigation before recom-mending action by stockholders and creditors. mending action by stockholders and creditors.

PRESENT CONDITION OF THE COMPANY.

The increase of the production of the various mills is shown by the books of the Company to be as follows:

Pounds of Rope and Binder Twine Made.

#### Assets and Liabilities.

Messrs. Deloitte, Dever, Griffiths & Co. have just finished their preliminary examination. and the Committee refer to their report on the annexed sheet.

As to the present financial condition of the Company, their report shows that the book value of all assets (after writing off the amounts recommended by the Committee) amounts to \$25,the amounts recommended by the Committee) amounts to \$25,-732,517 89, and that the liabilities (exclusive of capital stock) amount to \$11,986,417 71. Among these assets are included twenty mills and plants, all going concerns, of which eight are held under lease from the Security Corporation. The transaction of increasing the common stock from \$10,000,000 to \$20,000,000, as shown by the records of the Company, has not yet been carried into the books of account. When this shall have been done, an increase in the book value of assets will be shown.

will be shown. Whatever may be the result of the appraisement now in progress, the Committee is of the opinion that such result will show the value of these assets, as assets of a going concern, to be very considerably in excess of the amount of the liabilities. If, however, on account of the refusal of the stockholders to assent to the present plan of reorganization, or for other reas-ons, it should become necessary to liquidate the affairs of the Company at once, the Committee is unable, at the present stage of their investigation, to express an approximate opinion as to the result.

as to the result. The books and accountants' statement show that dividends were declared and paid to stockholders as follows:

# 

The Committee have not thought it advisable to attempt to The Committee have not thought it advisable to attempt to state a profit and loss account for the past six months, because this would involve a stoppage of the business of the various mills for the purpose of taking an inventory, and because a detailed examination of the books of the various concerns would involve a further delay of several weeks in the pro-posed reorganization, and because the present, and perhaps temporary, low price of raw materials would probably not fairly represent at the moment the real condition of the Com-nany. pany.

As a matter of abundant precaution, however, the Committee has recommended a reduction of the book estimate of the value of merchandise assets and other items to the extent of value of merchandise assets and other items to the extent of \$1,501,000, which represents a reduction in value accruing since the end of the last fiscal year, and especially since the appointment of receivers. They made this reduction before reaching the figures which they have hereinbefore stated as approximately representing the condition of the Company. The Committee find, on examination of the accounts, that prior to October, 1891, sundry operations in merchandise, of a more or less speculative character, and not likely to occur again, were made, which resulted in loss to the Company. It is due, however, to state that some of the Directors who advo-

again, were made, which restrict in loss to the company. It is due, however, to state that some of the Directors who advo-cated such transactions voluntarily made good the loss so sus-tained at about the time it occurred, so that the Company itself has not been the loser thereby.

The Committee do not find that any funds of the Company have been employed in any stock or other speculations other than those above mentioned.

As the result of their preliminary investigation, the Com-mittee feel justified in expressing the following

ESTIMATE OF THE FUTURE OF THE BUSINESS

They are of the opinion that the business of the Cordage Company, under prudent and conservative management, and with the additional working capital recommended by them, can be made to produce very satisfactory results, sufficient for the payment of interest on the bonds proposed to be issued and for the payment of dividends upon the proposed preferred stock, and for the payment in good years of satisfactory divi-

In this connection they call attention to the fact that the payments for interest for the year ending October 31, 1892, alone amounted to \$430,102 56, and for the six months ending May 1, 1893, to \$269,250 43.

The anticipated saving upon this item of interest alone would pay the interest on the proposed bonds and a portion of the dividends on the preferred stock. It is just to add that the principal officers and directors of the Company, being largely interested in it, have never received any salaries. The Committee therefore submit the following

#### SUGGESTIONS.

With a view to certain proposed changes in the business management of the Company, the number of the Board of Directors should be increased, and a majority of the present directors should resign, to make room for new members of the Board, to be approved by the Reorganization Committee and by the the United States Trust Company of New York. This having been done, radical changes and reduction of

This having been done, radical changes and reduction of expenses in many departments can be advantageously effected, new business methods, especially in the financial depart-ment, introduced, unnecessary offices abolished, concentration of management secured, and provison made for the protec-tion and promotion of the business interests of the Company in all directions, whether this business be continued by the

In all directions, whether this business be continued by the present organization, or by a new organization to be formed. The Committee especially recommends that the financial part of the business should be put under the management of a finance committee in charge of this department of the busi-ness at the Home Office, as well as at branch offices.

The simplest method for providing these necessary funds is by the voluntary action of the stockholders and creditors of the Company. If the stockholders and creditors decline to cooperate in procuring these funds, the Company can continue its business only by incurring a very considerable additional debt, which would make its stocks of doubtful value, or by a debt, which would make its stocks of doubtful value, or by a judicial sale of its properties to or for the benefit of a new company, freed from some of the present obligations, or by proceedings to assess stockholders. If the reorganization which the Committee suggests be car-ried out, the following, generally speaking, will be THE PURPOSES OF THE PLAN.

(1.) To fund and extend a portion of the present debt by means of bonds to be issued;

means of bonds to be issued;
(2.) To supply an adequate working capital, mainly by the voluntary contributions of stockholders;
(8.) To deliver to stockholders as a consideration for these contributions preferred stock of the company at par;
(4.) To acquire such additional properties as the stockholders and the Reorganization Committee may hereafter deem to be desirable in the interests of the Company.
To carry out these purposes, the Committee proposes the following:

following:

#### PLAN.

1. The National Cordage Company (or some successor cor-poration) will issue collateral trust first mortgage bonds having thirty years to run, secured by a mortgage on all the mortgageable property of the National Cordage Company (or its successor corporation), including its lease from the Securits Successor corporation, including its lease from the Secur-ity Corporation, to an amount not exceeding Six Million Dollars, bearing six per cent interest, with a sinking fund of three per cent per annum after 1895. One Million Dollars par value, or so much as may be necessary, of these bonds will be retained by the trustee, subject to the order of the Board of Directors evidenced by a vote of at least two-thirds in number of the Board for the purpose amount of the board of Directors evidenced by a vote of at least two-thirds in number of the Board, for the purpose, among other things, of paying off existing prior liens on the Union Mills. Five Million Dol-lars par value of these bonds, or so much thereof as may be deemed necessary by the Committee, will be sold and the proceeds used, among other things, in paying off the existing debts of the Company, or will be delivered to present creditors of the Company in satisfaction of those debts, in full or in part. The bonds will be so sold or paid at the price or rate of 85 p. c. of 85 p. c.

of 85 p. c. As many as possible of these Five Million Dollars par value of bonds will be underwritten by a guaranty syndicate at 85 per cent, for a commission of 5 per cent. Before being offered for sale elsewhere, or to the creditors in payment of debts, the whole of these bonds will be offered to the stockholders for subscription at 85 per cent. The stockholders of the Company, both preferred and com-mon, will have the right until and including July 11th, 1893, to suoscribe for these bonds at this price. If the issue should be over-subscribed by the stockholders, allotments will be made over-subscribed by the stockholders, allotments will be made pro rata in the proportion which their respective holdings of stock bear to the total capital stock, both preferred and com-

mon, of the Company. 2. For the purpose of delivery to contributing stockholders the preferred stock of the National Cordage Company now amounting to \$5,000,000 will be increased to \$3,000,000. This increased issue will have the same privileges as the present preferred stock

Each preferred stockholder will pay to the Reorganization Committee, or its nominee, at such times and in such am junts as the Reorganization Committee shall designate, a sum of

as the Reorganization Committee shall designate, a sum of money equal to twenty per centum of the par value of their holdings of preferred stock, and will receive in exchange for such payments preferred stock of the Company at par. Each common stockholder will pay to the Reorganization Committee, or its nominee, at such times and in such amounts as the Reorganization Committee shall designate, a sum of money equal to ten per centum of their holdings of common stock of the Company, and will receive in exchange for such payments preferred stock of the Company at par. If any of the holders of common stock prefer not to pay this sum in cash, they can make their contribution by assigning to and delivering to the Reorganization Committee, or its nominee, to be used for the purposes of the reorganization, certificates for

delivering to the Reorganization Committee, or its nominee, to be used for the purposes of the reorganization, certificates for fifty per centum par value of their respective holdings of common stock, but in this event they will receive no pre-ferred stock for their contribution. If, under this plan, it becomes necessary to provide for fractions of shares, either in the distribution of new Pre-ferred Stock or the payment of contributions in Common Stock, then the Reorganization Committee will make such adjustments, through the Trust Company, by the delivery of script receipts redeemable in stock, when such receipts shall be presented and surrendered in lots of \$100 or any multiple be presented and surrendered in lots of \$100 or any multiple thereof in par value. 3. If the Stockholders do not unanimously consent to the

3. If the Stockholders do not unanimously consent to the foregoing plan, or do not consent with sufficient unanimity to satisfy the Reorganization Committee, then the Reorgani-zation Committee will take such measures, either by increas-ing the debt of the present Company, or by winding up the affairs of the present Company, selling out its assets, and organizing another company for the purchase of these assets and the continuance of

the business of the National Cordage Company, or otherwise, as they think advisable. The Stock-holders who assent to such plan and become parties to Such reorganization agreement, however, will occupy substantially the same relative position and will have a corresponding in-terest in the reorganized Company or in the new Company, as is herein proposed; but the stockholders of the National Cordage Company, whether preferred or common, who do not assent to such plan and become parties to such reorganization agreement will not be represented in and will not have any right or interest in such reorganized or new company. The Committee cannot too strongly urge all interested par-ties, both creditors and stockholders, to co-operate in this plan of reorganization. The properties must be kept together, and the rights of creditors and stockholders, preserved and protected by keeping the assets intact and carrying on the business. It is equally clear that the shareholders, both pre-ferred and common, must agree to make such proper con-tribution for working capital as the circumstances of the Company demand. A prompt acceptance of this plan by all parties will avoid troublesome litigation between creditors and stockholders and will very materially increase the future and stockholders and will very materially increase the future value of their property.

GEORGE C. MAGOUN, ERNST THALMANN, GUSTAV H. GOSSLER,	$\left\{ \begin{array}{c} Reorganization\\ Committee. \end{array} \right.$
------------------------------------------------------------	----------------------------------------------------------------------------

To Messrs. GEORGE C. MAGOUN, ERNST THALMANN, GUSTAV H. GOSSLER, Committee.

GENTLEMEN: We have had submitted to us the Treasurer's Books and Vouchers of the National Cordage Company, and from an examination of them and with the information afforded us by the Officials of the Company, we find that, ex-clusive of the book values of the Real Estate, Plant and Good-will, etc., the Assets on the evening f the 4th of May, 1893, amounted to \$10,463,657 13, the details of which appear on the attached Statement of Assets, and their value is sub-ject to our Notes thereon.

on the attached Statement of Assets, and their value is subject to our Notes thereon. We find the value of the Real Estate, Plant and Good-will, etc., as recorded in the Books of Account, to be \$14,931,360 76 and the amount paid on account of the purchase of the Security Mills to be \$337,500 00, but we cannot form any opinion as to the true value of these Assets. The Security Mills were leased to the Company November 1st, 1891, from the Security Corporation, under a lease pro-viding for a rental of \$360,000 per year and a sinking fund of \$225,000 per year to apply upon the purchase price of the property, as representing which purchase price \$6,000,000 in bonds were issued by the Security Corporation and secured by a mortgage to the Manhattan Trust Company. By the payment of \$337,500, three hundred and fifty-three bonds have been purchased and canceled. The Liabilities, as they appear on the Books and Records of the Company under date of 4th May, 1893, amount to \$11,-986,417 71, and we have obtained a Certificate from the Treasurer that all known Claims are included in that amount. From the following Statements, and subject to our Notes and Remarks contained thereon, the Liabilities are in excess of the Assets by \$1,522,760 58; this result, however, is before taking into consideration the value of the Real Estate, Plant, Machinery, Good-will, etc., etc., and the Security Mills, which, according to the original entries in the Books of Ac-count, together agregate the sum of \$15,268,860 76. We are, Gentlemen, Your obedient servants,

#### COMMERCIAL EPITOME.

FRIDAY NIGHT, June 23, 1893. A feeling of extreme conservatism is manifested in com-mercial circles. Purchasers of staple merchandise are con-fined as closely as possible to indicated early requirements, and the rigid scrutiny of credits and the difficulty ex-perienced in obtaining financial assistance continue as restraints upon speculation. Some descriptions of foreign goods have fallen so low in value as to induce pur-chases for re-exportation. Breadstuffs have sold somewhat less freely for export in consequence of shippe s being engaged in getting forward their previous liberal purchases, but the coarser grains suitable for animal food are still in demand on foreign account, and large orders for hay have been received from abroad. A drought in Europe has greatly curtailed the feed crops. A noteworthy feature of the season is the un-usually low range of values on wool and the very slow mar-keting of the clip. A feeling of extreme conservatism is manifested in comketing of the clip.

keting of the clip. Lard on the spot has been in slightly better request, but values have been lowered somewhat, though at the close the market was steady at 8.75c. for prime City, 10c. for prime Western and 10.40c. for refined for the Continent. The specu-lation in lard for future delivery in this market has continued dull and values have further declined, owing to a larger movement of swine at the West than was generally antici-pated and the unfavorable financial situation. The close, however, was steady. however, was steady. DAILY

Raw sugars have been somewhat unsettled, with turn of values favorable to buyers in consequence of forced realizing on arriving cargoes. Centrifugal quoted at 4% c. for 96 deg. test and muscovado at 3% c for 89 deg. test. Refined sugars found moderate demand at unchanged prices; granulated quoted at 5 9-16c. Teas weak; spices have attracted some European investing orders.

quoted at 5 9.16c. Teas weak ; spices have attracted some European investing orders. For Kentucky tobacco the demand continues slow but values hold firm. Sales reported were about 200 hhds. Seed leaf tobacco was less active but fairly steady. Sales for the week were 1,070 cases, as follows : 150 cases 1891 crop, State Havana, 18,020c.; 200 cases 1891 crop, Wisconsin Havana, 81,6011c.; 100 cases 1891 crop, Dutch, 12,013c.; 150 cases 1891 crop, Ohio, 81,60 tile.; 120 cases 1891 crop, Zimmer's, 11,013c.; 100 cases 1891 crop, New England Havana, 25,050c.; 150 cases 1891 crop, Penn-sylvania seed leaf, 11,014c.; also 800 bales Havana, 70c.@\$1 10; 400 bales Sumatra, \$2 60,084 10. There has been less activity to the speculative dealings in Straits tin, but early in the week the market was higher in response to stronger advices from abroad, but subsequently free arrivals, together with large stocks, caused a decline. The close, however, was steady at 20c,@20'10. Sales for the week were about 475 tons. Ingot copper is without change and steady at 10'60c. for Lake. Lead is dull but steady at a slight further decline, closing at 3 57½c. for domestic. Pig iron is quiet an ' unchanged at \$12'75,0\$15'50. Refined petroleum is dull and easier at 5'20c. in bbls., 2'70c. in bulk and 5'85c. in cases; crude in bbls. is lower, Washing-to closing quiet at 4'90c. in bbls, and 2'40c. in bulk, naphta 5½c. Crude certificates have declined, closing easy at 57½c. bid. Spirits turpentine is without change and steady at 29½ @30c. Rosins have declined for the choice grades but the low grades are unchanged at \$120,0\$125 for common and good strained. Wool is dull and easy. Hops are firm but quiet.

quiet.

FRIDAY NIGHT, June 23, 1893. THE MOVEMENT OF THE CROP, as indicated by our telegrams THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 23,096 bales, against 20,876 bales last week and 25,296 bales the previous week, making the total receipts since the 1st of Sept., 1892, 4,974,374 bales, against 7,032,849 bales for the same period of 1891-2, showing a decrease since Sep. 1, 1892, of 2,058,475 bales.

Speculation in cotton for future delivery was of smaller proportions than during the week ending with our last review. The tone also was more feverish, although the general results appear to indicate a local bullish sentiment slightly predomjnating, based upon an assumption that the wants of both domestic and foreign spinners will compel steady buying for some time to come. The circulation of reports claiming a grassy and backward condition of crop has also had some in. fluence. On Saturday, after considerable irregularity, the market wound up at a net loss of 8 points under the favorable construction placed upon the weekly resume of crop conditions and slower trade abroad. On Monday trading was slow and irregular, finally resulting in a further shading of cost and on Tuesday quite a sharp break of 20 points occurred in consequence of an impression that spinners were withdrawing from the Liverpool market. On Wednesday, however, private advices from abroad reported that Manchester, although taking smaller quantities than during the preceding week, was likely to continue a steady buyer, and the effect was to promptly stimulate values about  $\frac{1}{3}c.$ , with similar influences leading to a further advance yesterday, holders of "Short" engagements showing considerable nervousness. Today trading was moderate and in the absence of general demand prices after an opening advance set back a trifle, but offerings were moderate in consequence of cheering accounts from Manchester. Cotton on the spot has sold moderately at somewhat irregular rates, closing at 8c. for middling upands.

The total sales for forward delivery for the week are 752,600 bales. For immediate delivery the total sales foot up this week 3,401 bales, including 1,845 for export, 1,256 for consumption, for speculation and 300 on contract. The following are the official quotations for each day of the past week— June 17 to June 23,

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph is as follows. The Continental stocks, as well as those for Great Britain and the afloat are this week's returns, and consequently all the European figures are brought down to Thursday evening. But to make the totals the complete figures for to-night (June 23), we add the item of exports from the United States, including in it the exports of Friday only,

	A P THE A REPORT OF	and the second second		

The imports into Continental ports the past week have

been 47,000 bales.

The above figures indicate a *decrease* in the cotton in sight to night of 449,725 bales as compared with the same date of 1892, an *increase* of 593,210 bales as compared with the corresponding date of 1891 and an *increase* of 1,383,550 bales as compared with 1890.

AT THE INTERIOR TOWNS the movement—that is the receipts for the week, and since September 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period of 1891-92—is set out in detail in the following statement.

RECEIPTS FROM THE PLANTATIONS.—The following table Indicates the actual movement each week from the plantations, The figures do not include overland receipts nor Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

Week	Receipt	satthe	Ports.	St'k at 1	Interior	Towns.	Rec'pts from Planting,			
Ending-	1891.	1892.	1893.	1891.	1892.	1893.	1891.	1892.	1893.	
May 19	38,591	30,670	32,625	169,863	256,497	229,525	20,710	22,196	19,064	
** 26	33,092	36,977	25,359	151,932	245,202	213,479	15,151	25,682	9,313	
June 2	30,996	84,444	25,586	140,322	230,583	201,857	19,386	19,825	13,964	
** 9	27,303	30,526	25.296	127,806	218,364	187,899	14,787	18,807	11,338	
** 16	20,621	25,494	20,876	120,083	204,922	166,902	12,895	11,552		
** 23	15.412	19,643	23.096	110.540	193,908	150,762	5,869	8,629	6,956	

The above statement shows: 1,—That the total receipts from the plantations since Sept. 1 in 1892-93 are 4,996,503 bales; in 1891-92 were 7,170,828 bales; in 1890-91 were 6,944,539 bales.

3.—That, although the receipts at the outports the past week were 23,096 bales, the actual movement from plantations was only 6,956 bales, the balance being taken from the stocks at the interior towns. Last year the receipts from the plantations for the week were 8,629 bales and for 1891 they were \$60 bales. 5,869 bales.

5,509 bales. OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.— We give below a statement showing the overland movement for the week and since September 1. As the returns reach us by telegraph late Friday night it is impossible to enter so largely into detail as in our regular monthly report, but all the principal matters of interest are given. This weekly publication is of course supplementary to the more extended monthly statements. The results for the week ending June 23 and since Sent 1 in the last two years are as follows: and since Sept. 1 in the last two years are as follows:

	189	92-93.	1891-92.			
June 23.	Week.	Since Sept. 1.	Week.	Since Sept. 1.		
Shipped-	to El Sert	The second	Loniter	AT ANTIN L		
Via St. Louis	7,437		7,836			
Via Cairo	1,093		1,905	346,281		
Via Hannibal	31	138,610	43	162,175		
Via Evansville	50			37,564		
Via Louisville	2,948	121,005	895			
Via Cincinnati	623		723	157,732		
Via other routes, &c	1,683	160,991	451	160,207		
Total gross overland	13,865	1,202,794	11,903	1,728,496		
Deduct shipments-	0 000	288.967	3,238	400.010		
Overland to N. Y., Boston, &c	3,203 15	288,907	3,238	61,518		
Between interior towns	398	71.370	1,407	96,619		
Inland, &c., from South	290	71,370	1,407	30,013		
Total to be deducted	3,616	383,339	4,723	558,147		
Leaving total net overland*	10,249	819,455	7,180	1,170 349		

Including movement by rail to Canada.

The foregoing shows that the week's net overland movement this year has been 10.349 bales, against 7,180 bales for the week in 1892, and that for the season to date the aggregate net overland exhibits a decrease from a year ago of 350,894 bales.

	189	92-93.	1891-92.			
In Sight and Spinners' Takings.	Week.	Since Sept. 1.	Week.	Since Sept. 1.		
Receipts at ports to June 23 Net overland to June 23 Southern consumption to June 23	23,096 10,249 7,000		7,180	7,032,849 1,170,349 560,000		
Total marketed Interior stocks in excess	40,345	6,392,829 22,128		8,763,198 137,979		
Came into sight during week. Total in sight June 23	24,205	6,414,957	22,809	8,901,177		
North'n spinners tak'gs to J'ne 23		1,639,413		2,105,274		

Decrease during week.

It will be seen by the above that there has come into sight during the week 24,205 bales, against 22,809 bales for the same week of 1892, and that the decrease in amount in sight to-night as compared with last year is 2,486,220 bales.

WEATHER REPORTS BY TELEGRAPH.-Reports to us by telegraph from the South this evening denote that at some points in the Carolinas and Georgia and in portions of east and south Texas there has been too much rain during the week. In the remainder of the cotton belt the weather has been favorable as a rule and cotton is developing well. The Mississippi River is twenty-four and three-tenths feet on the gauge and falling ranidly. rapidly

Galveston. Texas .- We have had heavy rain on three days during the week, the rainfall reaching three inches and ninety hundredths. The thermometer has ranged from 70 to 86, averaging 78.

eraging 78. Palestine, Texas.—Crops are doing well. There has been fine rain on two days of the week, the precipitation reaching eighty-four hundredtbs of an inch. Average thermometer 81, highest 94 and lowest 68. Huntsville, Texas.—The corn crop is secure but cotton is badly in the grass. Rain has fallen heavily on five days of the week, the rainfall reaching six inches and ninety-eight hun-dredths. The thermometer has averaged 74, the highest being 92 and the lowest 56.

week, the rainfall reaching six inches and ninety-eight hun-dredths. The thermometer has averaged 74, the highest being 92 and the lowest 56. Dallas, 7exas.—Crops look well in all this region. The small grain harvest has been satisfactorily finished. A good corn crop is considered secure for Texas. Cotton is doing well hereabouts but is not faring so well in portions of east and south Texas, where protracted rains have badly washed fields, prevented needful work and stimulated grass and weeds. Some counties report cotton worms but no damage has resulted as yet. Plant is irregular in growth. It has rained on three days of the week, the precipitation reaching one inch and ninety-seven hundredths. The thermometer has averaged 75, ranging from 58 to 92.

rained on three days of the week, the precipitation reaching one inch and ninety-seven hundredths. The thermometer has averaged 75, ranging from 58 to 92. San Antonio, Texas.—We have had showers on two days of the week, the rainfall reaching twenty-four hundredths of an inch. The thermometer has ranged from 66 to 94, average 80. Luling, Texas.—The corn crop is safe and cotton looks well. There have been light showers on two days of the past week, the precipitation reaching six hundredths of an inch. Aver-age thermometer 82, highest 96, lowest 68. Columbia, Texas.—Heavy rain on five days of the week has prevented work and fields are in the grass. There has been too much rain. The corn crop is good. The rainfall reached two inches and eighty-one hundredths. The thermometer has averaged 83, the highest being 96 and the lowest 70. Ouero, Texas.—Corn is already secure, and cotton, with oc-casional exceptions, is quite promising. We have had rain on two days of the week, the precipitation reaching one inch and thirty-eight hundredths. The thermometer has averaged 75, ranging from 60 to 90. Brenham, Texas.—There has been rain on four days of the week, harder than needed, but crops have been beenfitted.

week, harder than needed, but crops have been benefitted. Corn and cotton are doing fairly well. The precipitation reached two inches and eighteen hundredths. The thermom-eter has ranged from 68 to 98, averaging 83. Belton, Texas.—The crop outlook is irregular. Early plant-ings are doing well but late plantings look rather poor. It has been showery on three days of the week, the rainfall reaching eighty hundredths of an inch. A yerage thermometer 74

been showery on three days of the week, the rainfall reaching eighty hundredths of an inch. Average thermometer 74, highest 92 and lowest 56. Fort Worth, Iexas.—Crops are backward and stands ir-regular. We have had rain on three days of the week, the rainfall reaching one inch and twenty-six hundredths. The thermometer has averaged 78, the highest being 94 and the lowest 69 lowest 62.

thermometer has averaged 78, the highest being 94 and the lowest 62. Weatherford, Texas.—Small grains have been satisfactorily harvested. Cotton is small but improving under the influence of recent rains. It has been showery on three days of the week, the rainfall reaching fifty-two hundredths of an inch. The thermometer has averaged 82, ranging from 66 to 98. New Orleans, Louisiana.—We have had rain on two days of the week, the rainfall reaching twenty-four hundredths of an inch. Average theremometer 81. Shreveport, Louisiana.—The crop outlook is now quite fa-vorable. There is considerable grass in the fields, but it will soon be cleared out if the weather remains satisfactory. It has rained on five days of the week, the rainfall being one inch and forty-five hundredths. The thermometer has ranged from 67 to 91, averaging 79. Lake Charles, Louisiana.—The week has been verv favora-ble for growth. Cane is doing finely and cotton is blooming and looks promising. It is healthy and vigorous. Rain has fallen on three days, to the extent of one inch and ten hundredths. The thermometer has averaged 89.5, the highest being 97 and the lowest 72. Columbus, Mississippi.—Rains have been local, and there

being 97 and the lowest 72. Columbus, Mississippi.—Rains have been local, and there is a large area in this section badly needing moisture. It has rained on one day of the week, the precipitation reaching two hundredths of an inch. The thermometer has averaged 82, ranging from 63 to 101. Little Rock, Arkansas.—Crops are in fair condition, but rains rather excessive. We have had rain on four days of the past week, the precipitation reaching one inch and forty hundredths. Average thermometer 77 9, highest 88, low-est 67.

Helena. Arkansas.—The river has fallen ten feet. We are having almost too much rain at present. It has rained on four days during the week, on two of which heavy, the rainfall being two inches and twenty-three hundredths. The ther-mometer has averaged 77, the highest being 87 and the low-est 68 est 68.

Leland, Mississippi.-Rain has fallen on five days of the

week to the extent of two inches and twenty-eight hundredths. The thermometer has ranged from 66 to 87, averaging 76.7. Nashville, Tennessee.—Telegram not received. Memphis, Tennessee.—High water is a thing of the past, as the river now registers but twenty-four and three-tenths feet on the gauge and is falling rapidly. The weather conditions have been favorable for crops and cotton blooms are reported to be numerous. We have had rain on three days of the week, the precipitation reaching fifty-two hundredths of an inch, but it is now clear. The thermometer has averaged 78.9. inch, but it is now clear. The thermometer has averaged 78.9, ranging from 66.2 to 89.9. Mobile, Alabama.—The weather has been very favorable

Mobile, Alabama.—The weather has been very favorable during the week, and the crop is developing promisingly. Rain has fallen on five days, to the extent of twenty-two hundredths of an inch. Average thermometer 80, highest 94 and lowest 70. *Montgomery, Alabama.*—Crops have improved. It rained on four days in the early part of the week, the rainfall being thirty-five hundredths of an inch, but latterly the weather has been bet. The thermometer has averaged \$1 the bidget

thirty-five hundredths of an inch, but latterly the weather has been hot. The thermometer has averaged 81, the highest being 92 and the lowest 71. Selma, Alabama.—Crops are improving, but there is still some grass. We have had rain on four days of the week, the precipitation reaching one inch and fifty hundredths. The thermometer has averaged 86, ranging from 70 to 104. Auburn, Alabama.—Corn looks fine and potatoes and sugar cane are promising. Cotton and fruit, however, were damaged by recent heavy rains. The week's precipitation has been twelve-hundredths of an inch. The thermometer has ranged from 66 to 90. averaging 78:2

twelve-hundredths of an inch. The thermometer has ranged from 66 to 90, averaging 78.2. *Madison, Florida.*—Prospects continue good for a full crop. It has rained on two days of the week, the precipita-tion being sixty hundredths of an inch. Average thermome-ter 81, highest 93, lowest 67. *Columbus, Georgia.*—Cotton is a week late but in good con-dition. It has rained on three days of the week, the precipita-tion reaching one inch and ninety-four hundredths. The ther-mometer has averaged 83, the highest being 93 and the low-est 73. est 73.

Augusta, Georgia.—The crop is in a more satisfactory con-dition, and with good weather from now on favorable de-velopment is looked for, especially in red lands. On grey lands the plant is poor and spotted. There has been rain on six days of the week., the rainfall reaching four inches and one hundredth. The thermometer has ranged from 68 to 92, averaging 80.

Savannah, Georgia.—There has been rain on six days of the week, the precipitation reaching three inches and thirty-five hundredths. The thermometer has averaged 80 and

ranged from 68 to 96. Charleston, South Carolina.—We have had rain on each day of the week. Average thermometer 80, highest 91 and lowest 68.

lowest 68. Stateburg, South Carolina.—Some farms are very grassy. There has been rain on five days of the week, the rainfall reaching three inches and seventy-three hundredths. The ther-mometer has ranged from 69 to 87, averaging 76.3. Wilson. North Carolina.—We are having too much rain for crops. Rain has fallen on three days of the week, to the ex-tent of two inches and sixty-three hundredths. The ther-mometer has averaged 82, ranging from 68 to 92. The following statement we have also received by telegraph s owing the height of the rivers at the points named at 3 o'clock June 22, 1893, and June 23, 1892.

JUTE BUTTS, BAGGING, &C .- During the past week the demand for jute bagging has been quiet at unchanged quota-tions, which are  $4\frac{1}{2}c$ , for  $1\frac{3}{4}$  lbs., 5c. for 2 lbs, and  $5\frac{1}{2}c$ . for standard grades. Jute butts continue without special feature. Prices have eased off a trifle, however, the close to-night being on the basis of 1 1-16c. for paper grades and  $1\frac{5}{6}$ .  $1\frac{2}{4}c$ . for bagging quality.

DOMESTIC EXPORTS OF COTTON MANUFACTURES.—Through the courtesy of Mr. S. G. Brock, Chief of the Bureau of Statistics, we have received this week a statement showing the exports of domestic cotton manufactures for April and for the ten months ended April 30, 1893, with like figures for the corresponding periods of the previous year, and give them below: below:

Quantities of Manufactures of Cot-	Month end	ing Apr. 30.	10 mos. end	ing Apr.30.

EAST INDIA CROP. - The following is from Messrs. Gaddum, Bythell & Co.'s report, dated Bombay, May 20:

The weather has undergone a change, and in most of the Oomra districts rain has fallen during the week. Cultivators are pushing on their ploughing operations vigorously and most of the cotton lands are ready for sowing.

RICE CROP, 1893-Messrs. Dan Talmage's Sons issued on June 15 their second bulletin on the rice crop of 1893, which they summarize as folle ws :

they summarize as follows: Acreage and promised outcome in North Carolina and Georgia con-siderably below that of last year. South Carolina up to average and in good condition. In Louisiana, along the Mississippi River and in other old parishes, some diminution of acreage, but in the Southwest the culture being prosecuted on a larger scale than ever before. Those who overdid last y-ar reduce acreage, having learned that a small crop well handled is of more money value than a larger one neglected. The total area is enlarged, as there has been considerable immigration during past year from the Northwest, and the new-comers almost than wheat or any other cereal. The number of planters is increased by fitteen to twenty percent. Early crop looking handsome and first arrivals expected by August. Unusual care has been given to seed, and the crop should prove quite equal to best average of the Carolinas, Reports from other States are unfavorable, except Texas, which shows progress and promises outcome equal to that of North Carolina. Total area planted in the United States 261,000 acres; estimated yield 10,500,000 bushels.

EXPORTS OF COTTON GOODS FROM GREAT BRITAIN.—Below we give the exports of cotton yarn, goods, &c., from Great Britain for the month of May and since October 1 in 1892-93 and 1891-92, as compiled by us from the British Board of Trade returns. It will be noticed that we have reduced the movement all to pounds.

The foregoing shows that there has been exported from the United Kingdom during the eight months 735,786,000 lbs. of manufactured cotton, against \$25,854,000 lbs. last year, or a decrease of 90,068,000 lbs.

A further matter of interest is the destination of these exports, and we have therefore prepared the following statements, showing the amounts taken by the principal countries during May and since October 1 in each of the last three years:

EXPORTS OF PIECE GOODS AND YARNS TO PRINCIPAL COUNTRIES IN MAY, AND FROM OCTOBER 1 TO MAY 31.

EGYPTIAN COTTON CROP.—The following report on the cot-ton crop in Egypt was issued by the Alexandria General Pro-duce Association under date of May 31:

duce Association under date of May 31: The temperature continued cool during the first fifteen to twenty days of May. It then rose considerably and attained about the normal heat of the time of year. The cotton plants naturally benefited by the favorable temperature, and as they are for the most part in a healthy condition, in spite of their small size, they now show everywhere visi-ble signs of being jin a fair way of vegetation. Nevertheless the weather has been any recovery of the backwardness noted in our last resumé. Nearly all our correspondents still continue to estimate this backwardness at thirty days. The water is sufficient, even abundant, in some localities, and the fields everywhere trigated regularly. regularly

SHIPPING NEWS.—The exports of cotton from the United States the past week, as per *latest mail* returns, have reached 45,554 bales.

#### BREADSTUFFS.

FRIDAY, June 23, 1893.

BREADSTOFFS. FRIDAR, JUNE 23, 1893. Exclusive of the low grades of winter-wheat flour, which are in light supply and steady, the market has been very slow and prices have weakened, particularly for the spring grades, as the Northwestern millers are pressing their goods on the market, due to the liberal crop movement of wheat and the tightness of the money market. Rye flour was in light re-quest but without change and steady. The demand for corn-meal has continued fairly brisk at full steady prices. To-day the market for wheat flour was dull and easy. There has been but little animation to the speculative deal-ings in wheat, and values have further declined under the continued stringency of the money market, a liberal crop movement, favorable crop prospects and dull and easier foreign advices; but during the latter part of the week there was some recovery in the near-by deliveries, thereby lessening the carrying charges, and interpreted by some as meaning an easier market for money. In the spot market shippers have had free buying orders, but their purchases have been largely yesterday included No. 2 hard winter at July price and  $\frac{1}{4}$ C. over July price f.o.b. afloat; No. 1 Northern at  $\frac{5}{6}$ c. under July price delivered and No. 2 red winter at  $\frac{5}{6}$ c. under July price delivered and No. 2 red winter at  $\frac{5}{6}$ c. under July price f.o.b. afloat; No. 1 Northern at  $\frac{5}{6}$ c. under July price f.o.b. afloat; No. 1 Northern at  $\frac{5}{6}$ c. under July price delivered and No. 2 red winter at July prices from abroad, but later reports of financial difficuites at the West caused depression. The spot market was quiet, but about steady. Sales included No. 2 red winter at  $\frac{1}{4}$ c. over July f.o.b. afloat. DALT COSING PRICES OF NO. 2 RED WINTER WHEAT. BALT MORE THERES OF NO. 2 RED WINTER WHEAT.

AGRICULTURAL DEPARTMENT REPORT .- The report of the Department of Agriculture, showing the condition and acre-age of the cereal crops June 1, was issued on the 10th inst., and is as follows :

and is as follows: The report of June 1, based on returns to the Department of Agri-culture, makes the acreage of winter wheat as compared with that of last year 87'8 per cent, being a reduction of 12'2 points. The States in which the principal decrease has occurred are Illinois, Missouro, Kansas and California. The reduction of the area in the States on tinued drought and extremely cold winter. A vast amount of the acre, age planted has been plowed up and put to other crops. The decrea se from the acreage of 1892 is in the States of Illinois 24, in Missour 16, and Kansas 39 points; North Dakota 96. The percentage for the country of spring wheat area is 94. The per-centages of the principal spring-wheat States are: Minnesota 90, Nebraska; 100 South Dakota 95. The condition of winter wheat has improved but slightly since the last report, being 75:5, against 75:3 for the month of May. The per-centages of the principal States being respectively Ohio 90, Michigan 72, Indiana 81, Illinois 67, Missouri 74, Kansas 47. The condition of spring wheat presents an average for the entire country of 86:4, and for the principal spring-wheat 85, Iowa 95, South Dakota 89, North Dakota 9. The average percentage of acreage for both spring and winter wheat free states of the principal states being respectively on a state 39, North Dakota 95. The vertical spring-wheat States as follows: Meraska 65, Missouri 89, Minnesota 85, Iowa 95, South Dakota 89, North Dakota 92.

North Dakota 92. The average percentage of acreage for both spring and winter wheat for the whole contry is 89's, and the condition for same 78 s. The percentage of acreage of oats as compared with last year is 100'7, and the condition 83'9 for June 1, as against 83'5 for the same month in 1892. The returns show the percentage of the acreage of rye as compared with 1392 to be 94'3, while the reports of condition make the general average 84'6, the lowest for years. Barley acreage as compared with last year shows a decrease of 5'1 points or 94'9. The condition of this crop is 83'3 against 92'1 in June last year.

#### THE DRY GOODS TRADE.

NEW YORK, Friday, P. M., June 23, 1893.

The market has again been disappointingly quiet. The development of the fall demand for staple domestics and prints has made slow progress, and although the volume of business transacted is larger than was recorded for last week, it is still much below what it ought to be for the time of year. It is noticeable that while sellers are anxious enough to do as much business as possible with the most prominent buyers, they are conservative in their endeavors to do trade with they are conservative in their endeavors to do trade with many of their usual customers, and on the other hand there are few buyers who show a disposition to go beyond the requirements necessary for the earliest busi-ness of the coming season. The event of the week has been the action of leading agents for bleached shirtings in fixing the new season's prices. These show a de-cline of generally  $\frac{1}{2}c$ , per yard in 36-inch makes. This meets the expectations of the bulk of the trade, although there were some who looked for a decline of  $\frac{3}{4}c$ , per yard. The demand for export continues restricted in all departments and the natural result of indifferent home trade and poor exports is a for expirit continues restricted in all departments and the natural result of indifferent home trade and poor exports is a gradual accumulation of unsold stocks, chiefly in brown and blue goods. Jobbers report a fair business in cotton wash fabrics again with but a hand-to-mouth trade doing in other departments. Collections are under existing conditions throughout the country more satisfactory than might be ex-pected. They might be better, but that they are no worse is pected. They might be better, but that they are no worse is somewhat surprising.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending June 20 were 2,730 packages, valued at \$191,141, their destination being to the points specified in the table below:

NEW YORK TO JUNE 20.	All mark	1893.	1892.

* From New England mill points direct.

The value of the New York exports since January 1 have been \$3,902,548 in 1893 against \$5,555 365 in 1892.

The value of the New York exports since January 1 have been \$3,902,548 in 1893 against \$5,555 365 in 1892. The recorded engagements during the week show evidences of preparations for fall business of a very cautious character. Sales of brown shaetings and drills for immediate delivery have been restricted, while forward orders have covered moderate quantities only. The prices of Lonsdale and "Fruit of the Loo n" 36-inch bleached shirtings were made on Tuesday, being 8½c. per yard against previous price of 9c. A number of other changes followed to bring competing makes into conformity with that basis. The new prices have released to some extent a demand that was awaiting them, but the business done has been marked by an absence of spirit. Wide sheetings are slow and occasionally lower in price. The demand for cambric muslins, kid-finished cam-brics, silesias and other converted goods, and colored cottons, runs within mod-rate limits and not always at steady prices. Orders for fall prints continue considerably smaller than during the opening weeks a year ago, while there is little doing in dark work in ginghams. Jobbers are selling prints and ginghams from the balances of their spring stocks at very irregular prices. Print cloths continue very dull on the basis irregular prices. Print cloths continue very dull on the basis of 3%c. for 64 squares.

A DESCRIPTION OF A DESC	1893.	1892.	1891.
Stock of Print Cloths-	June 17.	June 18.	June 19.
Held by Providence manufacturers.	97,000	None.	452,000
Fall River manufacturers	19,000	None.	445,000

DOMESTIC WOOLENS.—With the exception of some of the finest lines, which are always the latest in making their ap-pearance, there is now a full range of spring styles in men's-wear woolens and worsteds on the market, but neither the spot demand nor the business coming to hand through salesmen on the road is of considerable extent. Buyers are placing orders with diffidence and continually endeavoring to secure lower prices than last year. Most agents ask last year's prices, but the tendency is in buyers' favor, and in some instances a re-duction of 5c. per yard has been mide on popular goods. The tendency, so far as at present developed, is toward lines sell-ing under \$1 per yard, with blues the dominant color, particu-larly in serges and unfinished woolens. Heavy-weights have been reordered in but little better than retail lots. Pusiness in woolen and worsted dress goods continues small, and outsi le woolen and worsted dress goods continues small, and outsile of staple lines there have been very few new orders received by agents.

FOREIGN DAY GOODS -Business in this department has again been on a very moderate scale. Broken lots of seasonable merchandise are being cleaned up pretty well, irrespec-tive of price so far as sellers are concerned, whenever a buyer can be induced to take an interest in them. Orders for fall are coming in slowly, and from all appearances the opening of the new season will be somewhat later than usu il.

Importations and Warehouse Withdrawals of Bry Goods. The importations and warshouse withdrawals of dry goods at this port for the week ending June 23, and since Jan. 1, 1893, and for the corresponding periods of last year are as follows:

# STATE AND CITY DEPARTMENT.

#### TERMS OF SUBSCRIPTION.

**Commercial and Financial CHRONICLE** contains 40 to 64 pages blished every week.

State and City Supplement of CHRONICLE contains 180 pages published several times each year.

Investors' Supplement of CHRONICLE (a Cyclopædia of Railroad Securities) contains 160 pages published every other month.

Subscription to CHRONICLE for one year \$10.00, which includes every issue of both SUPPLEMENTS.

The purpose of this State and City Department is to furnish our subscribers with a weekly addition to and continuation of the STATE AND CITY SUPPLEMENT. In other words, with the new facts we shall give, the amplifications and corrections we shall publish, and the municipal laws we shall analyze in the "State and City Department," we expect to bring down weekly the information contained in the STATE AND CITY SUPPLEMENT to as near the current date as possible. Hence if every Subscriber will note in his SUPPLE-MENT on the page designated at the head of each item a reference to the page where the item in the CHRONICLE can be found, he will at all times possess a complete and fresh cyclopædia of information respecting Municipal Debts.

-The Seaboard National Bank advertises in this issue payment of coupons due July 1 on the bond issues of several sities and towns.

-Messrs. Coffin & Stanton will pay the July 1 coupons on a large number of municipal issues.

**Bond Proposals and Negotiations.**—We have received through the week the following notices of bonds recently negotiated and bonds offered and to be offered for sale.

Adams, Mass.—(STATE AND CITY SUPPLEMENT, page 20.)— A letter received from E. W. Spalding, Treasurer of the Fire District, states that the \$100,000 of 5 per cent bonds of this town which were offered for sale on June 20 have been awarded to H. H. Wellington, of Adams, at par and a premium of \$2:50 per thousand. Interest on the loan will be payable semi-annually and the bonds will run from 1 to 20 years.

Adrian, Minn.—C. A. Sands, Village Recorder, notifies the CHRONICLE that bids will be received until July 10 for the purchase of \$13,000 of 6 per cent water works and electriclight bonds. Interest on the loan will be payable annually on May 1 of each year at the office of the village Treasurer, and the bonds will mature in 20 years from date of issue.

Belleville, III.- (STATE AND CITY SUPPLEMENT, page 91.)-John Winter, City Treasurer, writes the CHRONICLE that an election which took place in Belleville on June 12 to vote on the question of issuing \$20,000 of school bonds resulted in favor of the proposition. He states that the bonds will bear interest at the rate of 5 per cent, payable semi-annually and will mature in twenty years with an option of call after 10 years. Date of issue of the loan has not as yet been determined.

Buffalo, N. Y.—(STATE AND CITY SUPPLEMENT, page 45.)— City Comptroller Joseph E. Gavin notifies the CHRONICLE that he will receive bids until June 28 for the purchase of \$75,000 of Buffalo City refunding bonds. The securities are to be dated June 2, 1893, bear interest at the rate of 3½ per cent per annum, payable J. &. D., and mature June 2, 1913. Both principal and interest will be payable at the office of the City Comptroller in Buffalo or at the Gallatin National Bank in New York City, as the purchaser may elect.

**Canon City, Colo.**—G. T. Conaway, Town Recorder, writes the CHRONICLE that the School Board of Canon City will issue \$15,000 of bonds on July 1, 1893. The loan will bear interest at the rate of 6 per cent per annum, payable semi-annually, and will mature in 15 years, with an option of call in 5 years. The present bonded indebtedness of the school district is \$11,000, and its assessed valuation in 1892 was \$900,000.

Cheboygan, Mich.-(STATE AND CITY SUPPLEMENT, page 98.)-J. Finn, City Clerk, writes the CHRONICLE that bids will be received until July 3 for the purchase of \$35,000 of city bonds. The bonds are to be issued for the purpose of building a school-house, will bear interest at the rate of 5 per cent per annum, payable in January, and will mature in 1894. The assessed valuation of property (which is about 40 per cent of actual value) in 1892 was \$1,500,000. Cherokee Bonds.—The Cherokee Strip bonds which have been offered for sale during the last month have at last been negotiated. They were sold at par and accrued interest to Messrs. Christie & Janney of this city. The amount involved is \$6,000,000, and the bonds will be delivered on July 10. The securities are to be guaranteed, principal and interest, by the United States, and payable at the United States Treasury. Interest will be payable at the rate of 4 per cent per annum, and the bonds will become due in four equal annual instalments, beginning March 4, 1896.

Cleveland, Ohio.—(STATE AND CITY SUPPLEMENT, page 79.) —Sealed proposals will be received until July 7 at the office of the City Auditor, N. A Madison, for the purchase of \$224,-000 of 5 per cent funded debt bonds; \$285,000 of 4 per cent bridge repair bonds, and \$247,000 of 4 per cent fire department bonds. All of the bonds bear interest from Aoril 1, 1893, payable semi-annually, and mature October 1, 1902. Both principal and interest of the loans will be payable at the American Exchange National Bank, New York.

Custer County School District No. 1, Miles City, Mont.— City Clerk George W. Allerton writes the CHRONICLE that only one bid was received for the \$10,000 of 6 per cent bonds offered for sale on June 16, which would net par. He states that he is now negotiating with the party, and if the bonds are not taken that they will be placed on sale in the hands of the local banks. Interest on the loan will be payable semiannually and the bonds will become due in 1903 with an option of call after 1898.

**Dillon, Mont.**—Edwin Norris, City Clerk, will receive proposals until July 8 for the purchase of \$45,000 of water works bonds. Interest on the loan will be payable semi-annually at the rate of 6 per cent per annum, and the bonds will mature August 1, 1913, with an option of call August 1, 1903.

East Providence, R. I.—(STATE AND CITY SUPPLEMENT, page 34.)—Bids will be received by George F. Hunter, Town Clerk, until July 5, for the purchase of 4 per cent bonds to the amount of \$145,000. Interest on the bonds will be payable semi-annually, at the rate of 4 per cent per annum, and both principal and interest will be payable in gold coin of the United States. The loan will be dated July 1, 1893, and \$25,-000 of same will become due on July 1, 1923, \$60,000 on July 1, 1933, and \$60,000 on July 1, 1943.

Eastland Free School Incorporation, Texas.—Dallas K. Scott, Secretary of the Board of Trustees, writes the CHRON-ICLE that bonds to the amount of \$5,000 will be issued for the purpose of erecting school buildings. The bonds will be dated July 1, 1893, will bear interest at the rate of 6 per cent, payable annually, and will mature in 20 years, with an option of call after 5 years.

Erie, Pa.—(STATE AND CITY SUPPLEMENT, page 67.)—City Comptroller G. F. Brevillier writes the CHRONICLE that the Council of Erie has authorized the issuance of refunding bonds to the amount of \$561,700, the same to bear interest at a rate not to exceed 4 per cent per annum, payable semiannually. These bonds are to be issued for the purpose of refunding the city's bonds maturing between September 1, 1893, and July 1, 1894. The date of sale of the bonds has not as yet been fixed.

Fall River, Mass.—(STATE AND CITY SUPPLEMENT, page 24.)—Charles P. Brightman, City Treasurer, writes us that the \$75,000 of water bonds offered for sale on June 15 were awarded to Edward Morton & Co. of New York for \$75,150, this being the only bid received. The loan bears interest at the rate of 4 per cent per annum, payable semi-annually on June 1 and December 1 of each year and matures June 1, 1923.

Franklin County, Ohio.—(STATE AND CITY SUPPLEMENT, page 81.)—Bids will be received by County Auditor Henry J. Caren until July 1 for the purchase of \$127,000 of bridge bonds. The bonds will bear 6 per cent interest, payable semiannually, and \$10,000 of the amount will mature on July 1, 1894; \$12,000 on July 1, 1895; \$15,000 on July 1, 1896; \$17,000 on July 1, 1897; \$21,000 on July 1, 1898; \$25,000 on July 1, 1899, and \$27,000 on July 1, 1900.

Gloucester, Mass.—(STATE AND CITY SUPPLEMENT, page 25.)—Proposals will be received until June 28 by the Committee on Finance of the city of Gloucester, for the purchase of \$15,000 of improvement bonds. The loan will be dated July 1, 1893, will bear interest at the rate of 4 per cent per annum, payable semi-annually, and both principal and interest will be payable at the First National Bank, Boston, or at the City Treasurer's Office. Payment of the loan is to be secured by a sinking fund.

Holyoke, Mass.—(STATE AND CITY SUPPLEMENT, page 25.)— City Treasurer Pierre Bonvouloir was to receive proposals until to day for the purchase of \$60,000 of 4 per cent refunding bonds. The bonds are to be dated July 1, 1893, and will become due July 1, 1913. Interest will be payable semiannually on Januuary 1 and July 1 of each year, and principal and interest will be payable in gold or its equivalent at the National Hide & Leather Bank, Boston, Mass.

Kansas City, Kansas.—(STATE AND CITY SUPPLEMENT, page 127.)—William Albright, City Clerk, writes the CHRONICLE that the people of Kansas City did not vote on June 17 on the question of issuing \$100,000 of bonds for school building purposes, the election having been recalled. He states that a

new proposition will probably be submitted, but in no event earlier than the fall election, which takes place in November.

Manchester, N. H.- (STATE AND CITY SUPPLEMENT, page 14.)—Bids will be received until June 29 by Mayor E. J. Knowl-ton for the purchase of \$100,000 of 4 per cent improve-ment bonds. The loan will be dated July 1, 1893, and will be payable January 1, 1913, at the City Treasurer's Office. In-terest will be payable in January and July of each year at the Suffolk National Bank, Boston, Mass. The bonds are not subject to call before maturity, and Mayor Knowlton writes us that it was owing to a misunderstanding on this point that they failed to sell when offered a short time since.

Milwaukee, Wis.—(STATE AND CITY SUPPLEMENT, page 102.)—City Comptroller R. Czerwinski writes the CHRONICLE that bids were to be received until June 23 for the purchase of \$100,000 of public park improvement bonds. These bonds will bear interest at the rate of 5 per cent, rayable semi-annually on January 1 and July 1 of each year, and will mature at the rate of \$5,000 yearly from July 1, 1894, to July 1, 1913. The City Clerk also states that more bonds will be issued about the latter part of July.

Montgomery, Ala .- (STATE AND CITY SUPPLEMENT, page 170.)-City Clerk R. B. Snodgrass will receive bids until July 15 for \$100,000 of Montgomery City bonds. The securities will bear interest at the rate of 5 per cent per annum, and they are to run for forty years. An advertisement giving further information in regard to the proposed issue will be found elsewhere in this Department.

New York (ity.-(STATE AND CITY SUPPLEMENT, page 50.)-Comptroller Myers will receive bids until June 29 for \$263,-999 57 of 3 per cent consolidated stock, known as school-house bonds, maturing November 1, 1911. The loan will be exempt from city and county tax and the securities are a legal invest-ment for executors, administrators, guardians and others holding trust funds in the State of New York.

Newton, Mass.—(STATE AND CITY SUPPLEMENT, page 28.)— The Board of Aldermen of Newton has passed an order author-

OFFICIAL STATEMENT OF BONDS TO BE IS-SUED BY THE CITY OF SEATLLE, WASH. 

PURPOSE OF ISSUE.

PURPOSE OF ISSUE. The Funding Bonds, first series, are for the pur-pose of funding the indebtedness in the Fire and Street Funds, incurred prior to June 1, 1801, at which date the ninth ward was added to the city. The Funding Bonds, second series, are for the pur-pose of funding indettedness in the Salary, General, Fire Department, Street, Police Department, Street Light and Harbor and Wharf Funds, incurred sub-sequent to June 1, 1891.

izing the Mayor and City Treasurer to prepare blank sewer bonds to an amount not exceeding \$100,000, payable in thirty years and bearing interest at the rate of 4 per cent per annum.

Norfolk, Va.—(STATE AND CITY SUPPLEMENT, page 154.) —It is reported that \$180,000 of 5 per cent 30 year bonds of this city have been sold at par. The city finances are stated to be in good condition and well managed, and the sale is regarded as quite favorable.

Oklahoma, O. T.—City Clerk J. T. Martin writes us that an election which recently took place in this city to rate on issu-ing \$70,000 of bonds for school building purposes resulted in favor of the proposition. The bonds will be issued by the Board of Education of Oklahoma, will bear interest at the rate of 6 per cent per annum, payable semi-annually on Janu-ary 1 and July 1 of each year, and will mature in twenty years from date of issue from date of issue.

Orrville, Ohio.—Village Clerk H. S. Wertz will receive proposals until July 18 for the purchase of \$25,000 of water-works bonds. Interest on the loan will be payable semi-annu-ally at 5 per cent per annum and the bonds will mature at the rate of \$1,000 yearly from 1894 to 1903, and then at the rate of \$1,500 yearly from 1904 to 1908.

**Paw Paw, Mich.**—H. D. McNeil, City Clerk, writes the CHRONICLE that bonds to the amount of \$15,000 will be issued for electric-light purposes. The loan will bear interest at the rate of 6 per cent per annum, payable annually on July 1 of each year at the First National Bank of Paw Paw, and will mature at the rate of \$1,000 yearly from 1894 to 1908, with an option of call after 1898. The city has at present no debt of any kind, and its assessed valuation for 1893 is \$618,495; city tax rate (new \$1.000) \$8 tax rate (per \$1,000), \$8.

Pelham Manor, N. Y.—Bids will be received by the Board of Road Commissioners of the village of Pelham Manor until June 26 at the offices of W. R. Lamberton, Nos. 16 and 18 Exchange Place, New York City, for the purchase of \$40,000 of village bonds. The bonds will bear interest at the rate of 4½ per cent per annum, payable semi-annually, and the prin-cipal will become due and payable in ten annual instalments of \$4,000 each from 1903 to 1912.
