WILLIAM B. DANA COMPANY., Publishers, Pine Street, N. W. Corner of Pearl Street, POST OFFICE BOX 958. NEW YO NEW YORK.

CLEARING HOUSE RETURNS.

The following table, made up by telegraph, etc., Indicates that the total bank clearings of all the clearing houses of the United States for the week ending to-day, December 29, have been \$797,714,459, against \$1,010,588,370 last week and \$782,-842,597 the corresponding week of last year. Figures in each year cover only five business days in consequence of the Christmas holiday.

CLEARINGS.	Week Ending December 29.					
Returns by Telegraph.	1894.	1893.	Per Cent.			
New York	\$321,891,495	\$334,215,427	- 3.7			
Boston	55,290,976	54,539,226	+ 1.4			
Philadelphia	62,697,983	38,486,938	+62.9			
Baltimore	8,403,923	8,750,000	- 4.0			
Chicago	57,621,764	56,293,374	+ 2.4

New Orleans	8,064,693	9,391,885	-14.1			
Seven cities, 5 days	\$531,430,554	\$517,820,250	+ 2.4			
Other cities, 5 days	110,291,432	101,376,291	+ 8.8			
Total all cities, 5 days	\$641,721,986	\$619,196,541	+ 3.6			
All cities, 1 day	155,992,473	163,646,056	- 4.7			
Total all cities for week	\$797 714 459	\$782 842 597	1.9			

The full details of clearings for the week covered by the above statement will be given next Saturday. We cannot, of course, furnish them to-day, bank clearings being made up by the various clearing houses at noon on Saturday, and hence in the above the last twenty-four hours of the week have to be in all cases estimated, as we go to press Friday night.

Our usual detailed figures for the previous week, covering Our usual detailed figures for the previous week, covering the returns for the period ending with Saturday noon, Decem-ber 22, are given below, and we also present the results for the corresponding week in 1893, 1892 and 1891. In comparison with the preceding week there is a decrease in the aggregate exchanges of about thirteen and a-half millions of dollars, the loss at New York being twenty millions. Contrasted with the week of 1893 all but twenty ciffes record gains and the total for the whole country shows an excess of 7*7 per cent. Compared with the week of 1892 the current Seturns exhibit a falling off of nearly 28 perfeat and the loss zeturns exhibit a falling off of nearly 28 per cent, and the loss

from 1891 is 3.6 per cent. Outside of New York the excess over 1893 is 9.7 per cent, the loss from 1893 reaches 15.2 per cent and the excess over 1891 is 14.4 per cent. Week ending December 22. THE CHRONICLE FOR 1895.

We shall prepare and publish during the coming year two new Supplements-

A STREET RAILWAY SUPPLEMENT, to be issued quarterly.

A BOND AND STOCK QUOTATION SUPPLEMENT, to be issued monthly.

These publications will be given to our subscribers without charge. The first number of the Street Railway Supplement we hope to furnish our readers the last Saturday in February. The first issue of the Quotation Supplement will probably be made a little later-the date and fuller particulars with reference to its contents will be announced hereafter.

THE FINANCIAL SITUATION.

There has been no new feature of importance this week except it may be the marked dullness at the Stock Exchange. How desperately dull it has been is clearly seen from the fact that the average daily sales of bonds (par values) this week, that is for the five business days from December 21 to 28 inclusive, have been only \$885,300, and the average daily sales of shares have been only 93,098 shares, against an average of bonds during the previous days of December of \$1,295,861 and of shares 193,966. Of course the Christmas holiday week is usually by comparison a quiet one, but this year the week has distinguished itself. A year ago in the corresponding five days the sales of stocks averaged daily 236,730 shares, or about three times the amount of the sales the current week. We do not find a marked similar depression in the character of mercantile business, though as usual at this season stock-taking has engaged the attention of trade circles, and business is quiet.

As to the business outlook in the West, we learn from the credit bureau of one of the largest banks that the mercantile situation is, generally speaking, good. Collections have been prompt as a rule; stocks are comparatively low; business has been conservatively conducted ; merchants owe but little, and, with few exceptions, are able to meet their obligations as they mature. The clothing trade, however, is in bad condition in some sections, and there may be failures reported later on of merchants engaged in that line of business. At Milwaukee operations are restricted just now from the effects of an epidemic of smallpox, and in the extreme Northwest there are sections where merchants have been embarrassed through the failure of crops, which has almost impoverished the farmers. This is true also in portions of Kansas. The opinion is expressed, based upon the returns made to the credit bureau referred to, that mercantile failures in the West at the beginning of the year will be few and comparatively unimportant.

The year now closing has been in every way an extraordinary one, and no industry has felt the unparalleled depression in trade more than the railroad industry. It will not be surprising to hear therefore that the record of new railroad construction for the year is the smallest for a very long time past. Both the "Railroad Gazette" of this city and the "Railway Age" of Chicago have issued statements showing the new track laid, and both agree in making the total very small, though somewhat larger than seemed

months were published last July. According to the "Age" 1,919 miles of road have been built during the twelve months, and according to the "Railroad Gazette" the aggregate has been only 1,761 miles. In either case we have an addition of less than two thousand miles, which for this country is a marvelously small amount of new construction. But nearly every condition was unfavorable to such undertakings, and no other result could have been expected. The Gazette says the new mileage for 1894 is apparently the smallest actual amount of new road built in any year since the Civil War. In one quite recent year, namely 1887, the addition for the twelve months was 13,000 miles. It would be well for those who have done so much since that time to discourage the building of new lines to reflect upon the part played by this falling off in new construction work in bringing about and intensifying the existing depression in trade. The Gazette is of the opinion that in the coming year there will be more activity. It says that there has been a considerable revival already, and that in the past few months quite remarkable progress has been made in resuming active work on projects which were delayed by the financial depression, so that there is every indication that all over the country new railroads of local importance will be taken up and pushed to completion. We think every one will join us in the wish that this favorable prospect may be realized.

The New York Central statement of gross and net earnings for the quarter ending December 31 (in part estimated, of course,) has been issued this week, and considerable encouragement is to be derived from the favorable nature of the results disclosed. The company reports a diminution in gross earnings as compared with the corresponding quarter of 1893 of \$494,-911, or only about 4 per cent, and this was met by a reduction in expenses of \$668,330, so that the net was actually larger than in this quarter of 1893, and stands at \$3,952,000 against \$3,778,581. The company had somewhat heavier charges to provide for, but after allowing for these and also for the regular $1\frac{1}{4}$ per cent quarterly dividend, a surplus balance remains on the operations of the three months of \$128,000, which contrasts with \$76,958 surplus in the same quarter of 1893. It may be supposed that we are comparing with very poor results last year. But that is not a fact, the loss then having been been only \$371,-373 in gross and \$103,149 in net; the World's Fair traffic at that time was a factor in the results. For the six months of the new fiscal year since the 1st of July the company reports the gross earnings for 1894 \$22,174,000 against \$24,039,759 for 1893, the loss thus being about 13 million dollars; in the net, however, the decrease is only trifling. the total for 1894 being \$7,678,000 against \$7,722,340 for 1893. Allowing for the charges and the usual dividends, there is for 1894 a surplus of \$31,000 against \$273,014 for 1893. Another fact worth noting is that for the closing month, December, the company estimates an increase in gross earnings over a year ago.

Money on call, representing bankers' balances, has this week loaned almost uniformly at the Stock Exchange at $1\frac{1}{2}$ per cent, though some small amounts have been placed at 2 per cent, making the average a fraction above $1\frac{1}{2}$ per cent. Banks and trust companies have been unable to obtain more than $1\frac{1}{2}$ per cent, and the indications point to lower rates after the January disbursements are completed. The demand for time conlikely when the figures for the first six tracts is not urgent, but lenders are indisposed to make

THE CHRONICLE.

concessions and rates are firm at 2 per cent for thirty days, 21 per cent for sixty to ninety days, 3 per cent for four months and $3@3\frac{1}{2}$ for five to six months on good Stock Exchange collateral. The demand for first-class commercial paper continues good, and brokers report a very small supply, indicating light borrowing for Rates are $2\frac{3}{4}$ @3 per cent for sixty to this season. ninety day bills receivable, with some exceptionally good names offered at $2\frac{1}{2}$ per cent; $3@3\frac{1}{2}$ per cent for four months commission house names and prime four months' single names, with sales of very choice at $2\frac{1}{2}$ per cent; $3\frac{1}{2}@4$ for prime six months and $4\frac{1}{2}@7$ per cent for good four to six months single names.

About the only important European news is the announcement of a German Imperial loan of 44 millions of marks-\$11,000,000-for the army and navy and the railways; and also of a Danish 3 per cent loan for £1,400,000 for railway construction. The Bank of England minimum rate of discount remains at 2 per cent. The cable reports discounts of sixty to ninety day bank bills in London 3 of 1 @ 1 per cent. The open market rate at Paris is 13 per cent and at Berlin and Frankfort it is 12 per cent. According to our special cable from London, the Bank of England lost £814,911 bullion during the week and held at the close of the week £32,547,478. Our correspondent further advises us that the loss was 'due to shipments to the interior of Great Britain of £671,000, to exports of £200,000 (of which £100,000 was to Roumania and £100,000 to the Cape), and to imports of £56,000, of which £42,000 were bought in the open market, £8,000 came from Australia and £6,000 from France.

The market for foreign exchange has been dull and firm this week, with no special feature. The supply of bills continues small, but the demand has been chiefly for current remittance and for settlements incident to the close of the year, which inquiry has simply absorbed all offerings and kept the market bare. So far as can be traced there has been no special demand to remit for coupons, and therefore the inquiry for this purpose has either been anticipated or may be expected immediately after the beginning of the new year. Brown Bros. & Co. reduced the long rate for sterling on Saturday to 4 88 but no change was made by the other drawers. The market opened on Monday steady at the closing figures of last Friday. On Wednesday the tone was firm for sterling at an advance in rates for actual business, but francs were easier because of a rise in the rate of exchange at Paris on London. On Thursday the market opened steady, growing firm toward the close, but there were no indications of preparations for gold exports on Saturday, though it was thought that some of the metal would go forward. Yesterday it was announced that Lazard Freres would ship \$750,000, and possibly a full \$1,000,000.

The Pennsylvania Railroad, in its return for November, again shows improved results. This is particularly gratifying because the Pennsylvania system, on account of the representative nature of its business, is generally regarded as typical of the country's industries. The improvement extends, too, to both the Eastern and the Western lines. On the Eastern system there is an increase of \$177,705 in gross and an increase of \$211,425 in net, and on the Western system an increase of \$287,763 in gross and an increase \$378,857 in net. It will be observed that a of saving in expenses, on enlarged gross receipts, is a feature of the returns of both the Eastern and the Western lines. On the combined system the gain for the month is \$465,468 in gross and \$590,282 in net; of course this is after heavy losses last year, though the falling off in November 1893 was not as large as in some of the subsequent months; the decrease then was \$1,367,024 in the gross and \$581,564 in the net, show ing that in the latter case at least the present year's gain is fully equal to last year's loss. The following gives the figures for the lines east of Pittsburg and Erie for a series of years past.

LINES EAST OF PITTSBURG.	1894.	1893.	1892.	1891.	1890.	1889.

CURRENCY SUGGESTIONS, OLD AND NEW.

No advance has been made since we last wrote towards solving the currency problem. Perhaps none could be expected since Congress adjourned over the holidays so soon after the substitute measure we referred to a week ago had been offered. As we stated last Saturday this substitute removes some of the most objectionable portions of the original bill, leaving the national banks free to continue the circulation they now have or to withdraw it and take out currency under the new law. We are pleased to see also that it does not remove, as has been claimed, those parts of the original bill that provided for the gradual withdrawal of the legal tenders, which chiefly gave the bill whatever of favor it received in conservative circles. There is no call or opening for a new bank currency except as it may be used as a means or made an adjunct to a device for the reformation of our present harmful systems. To have any scheme acceptable, indeed to even furnish an excuse for agitating the subject of change, the plan must include a method for extinguishing the outstanding legal tenders.

While the movement in Congress is thus in a state of temporary inactivity and possible collapse, it muy perhaps be of use to call attention to one among the new currency plans sent us this week. This country is enormously prolific in the production of paper money ideas; we receive new schemes almost daily. The harm done does not lie though in this fertility, but in the exposure to the tendency every inventor faces of making his idea his hobby. A man astride of a currency hobby has put his mind outside of all receptive inflaences-has, so far as that subject is concerned, lost his receptive faculty. He can be talked at about other currency plans and about defects in his own, but he can never be talked with. He listens, but will not or cannot hear. Hence an individual is on precarious ground, in danger of unfitting himself for discussion, and putting himself outside of any deliberative body of which he may chance to be a member, when he allows himself to think he has devised a perfect measure. Principles can be fixed because truth is eternal, but methods can never be so fixed as to be incapable of al[VOL, LIX,

teration and improvement. Fertility in ideas is the glory of this new nation; only we want to keep ourselves always in shape to take advantage of every new suggestion from whatever source it may come, remembering that discussion is the threshing device which never harms, but brings out and saves the kernel of truth while giving only the chaff to the wind.

The new scheme we have referred to as having been received by us this week has two sources for the creation of currency. One of them has no originality or value. It is the same as that which obstructs the mental vision of so many would-be investigators and restricts their field of research wholly within the lines of the present national-bank note system. What that class of writers want to copy is a device gotten up in time of war simply to make a demand for Government bonds, and which bonds became a very profitable investment to the institutions purchasing them because they advanced in price and the banks sold them and got rid of their currency. This idea and its evolution is what so many are seeking to restore and to realize again. They consequently look to Congress to authorize an issue of Government bonds for banks to use as the basis of the currency proposed and desired. Of course the system would not work at all unless some of the conditions were more favorable to the banks than they are at present; so the plan always is to have the new bonds 21 per cents, the currency issue equal to the face of the bond, and one-half the present tax on circulation remitted. Fixed in that way the currency would no doubt be taken out and retained by the banks just so long as it was more profitable to keep the currency than to sell the bonds, and no longer. Hence if there were no other objection to the plan, it would be enough to say that it would in no wise create a permanent currency system, but would merely be a device for the banks to secure notes for the time being, and a profit on the Government bond investment in the end, without any risk to themselves.

Of much the same character as described in the foregoing is the first half of the most elaborate currency plan sent us this week. It was prepared by Mr. J. M. Ashley, Jr., Vice-President of the Toledo Ann Arbor & North Michigan Railroad, and published in the Toledo Blade of last Saturday. We notice it because Mr. Ashley's communication contains in the latter half of it another device which is so far as we know an original suggestion, its leading feature being a clearing house arrangement having for its purpose the providing of a safe currency and an effective method for its redemption. We will refer to that part of his proposal shortly, for it might, we think, in some different connection be worked up into an ingenious and successful system. The earlier half of his plan is, however, more commonplace ; it calls upon the Government to authorize the issue of 400 millions of 24 per cent gold bonds, to sell them to the national banks for gold or legal tenders, and to allow the banks to issue notes on them up to par of the bonds, the bonds to be deposited with the Government as now. Objections to that kind of security have been so often stated and now are so widely adopted that we need give them only very briefly. Summarizing them, it may be said that (1) a special issue of Government bonds for use as security for bank notes would be wrong in principle, would be in opposition to public opinion, and we cannot think it will ever receive the sanction of any Congress; (2) even if done it would be but a temporary provision and could not be the basis of a.

Diaiti

permanent system, for an increasing demand for banks, and hence for the bonds, would enhance the market price they are not free from objection. They are offered and the notes would be given up and the bonds sold-a process of which we have had an illustration during recent years; (3) bank notes so secured cannot be elastic or the volume afloat be made in any degree to conform to the volume of commercial trans actions, and consequently would not relieve our present embarrass. ment in the least; (4) a currency with a Government bond back of it calls for the locking up of an equal or larger amount of capital to secure it, so that the operation is of no advantage but a disadvantage to the public.

It remains only to notice Mr. Ashley's other suggestion. In addition to the 400 million dollars in currency covered by the bonds, he proposes that the Comptroller of the Carrency be authorized to divide the country into suitable and convenient districts and that the national banks in each of those districts form themselves into a clearing-house. After this has been done, it is then provided further that these district clearing-houses shall organize a national clearinghouse, the representation in the national body being based in each case on the combined banking capital of the district. Thereupon this central or national organization is to possess the power to issue notes to each of these district clearing-houses to the amount of 50 per cent of the capital represented in such district "on the deposit of sufficient collateral as surety for pay ment, together with 25 per cent of gold or United States notes." The notes are then to be distributed among the individual banks by the district clearinghouses. It is also provided that the individual banks shall be primarily responsible for the redemption of the notes, but that both the district and national organization "should be liable in the order named for their redemption in gold or silver at the option of the holder."

It would not be fair to criticise any of the minor details of this suggestion as they have not been fully developed by the author. But it appears to us, as already said, that the idea, with some slight changes, might be utilized with advantage to form a part of any scheme already prepared. Suppose, for illus'ration, a plan to have been formulated in which it is provided that the notes to be issued shall be a first lien on the assets of the issuing bank, and that a 5 per cent guaranty fund shall be collected and kept up, according to the terms of the Baltimore plan. With that arrangement in operation, what objection would there be if, in addition to the security thus provided (and instead of all the banks of the country, or instead of the Government, standing as sponsor for the notes), the aggregate capital of the banks of the district be made liable for the note issues of the district. In that case each district clearinghouse could have the power given it by statute to exercise a supervision over the banks of its district, much like that our Clearing House exercises over its members, and likewise well-guarded statutory power to examine the books and affairs of any institution within its district. Such a liability as is here suggested would lead to vigilance, and that not only to soundness of the individual banks but also to an active redemption of the notes. Of course in this case a lien for the notes on the double liability of the stockholders would not be needed, as the aggregate capital of the district would much more than take its place.

These suggestions are very crude, and we admit that until it became unprofitable to retain the circulation simply to meet the prevailing notion that the Government or the whole body of the banks must guarantee the nctes to make them acceptable. We do not think this alternative is presented, for we are of the opinion that with a first lien on the assets and capital and double liability of the stockholders, with a 5 per cent guaranty fund and an effective system of redemption, a safe currency system can be maintained. Many disagree with that conclusion, and this thought may be of use to those who do.

THE GREAT NORTHERN REPORT.

The annual report of the Great Northern Railway Company has been issued this week. It reflects very clearly the adverse events and occurrences which marked the course of the year. But at the same time it serves to emphasize the strength of the company's position in the matter of income, which has enabled it to withstand peculiarly trying conditions.

As has been frequently pointed out in these columns, the year was such as to put the staunchest properties to the test, the depression in mercantile, industrial and agricultural interests being of unparalleled extent and intensity. The Great Northern has had an exceptional career of prosperity, but this bad trade situation came at a time when, by reason of the changed situation of its own affairs, the event involved a special strain upon it. The company had just completed its Pacific Extension, and had thereby added over 800 miles of road to the system, from which obviously only very light earnings could be expected at the start. Then, also, in building said extension, the company had increased its bonded indebtedness over 30 million dollars, and though its credit enabled it to borrow the money very cheaply, yet the additional interest charge was necessarily very large in the aggregate. The company had also created five million dollars of additional stock.

It so happened, too, that while all parts of the country suffered severely from the prostration of trade and industry, the Pacific Coast sections were especially depressed. And trans-Continental business fell off to a phenomenal extent. Farthermore, the Great Northern found itself obliged to compete with a number of bankrupt rivals operated by the courts through receivers. The Northern Pacific, its most immediate and direct competitor, passed into the hands of receivers in August, 1893, the Union Pacific system in October, 1893, and the Atchison system in December. The property has also encountered other drawbacks and hardships. Some of these are referred to in the report. Thus we are told that the winter in the system's territory was an unusually severe onethat heavy snows during the later months were followed by severe floods over large areas, which interrupted train service on most of the western divisions for nearly ten weeks. On the 13th of April [a] general strike occurred along the company's lines, without a day's notice or warning of any kind, says the report, and continued until the 2d of May, when it was settled, partly by agreement and partly by arbitration; the greater portion of the month of May, however, had passed before business was moving with its customary regularity. During the latter part of June the general railway strike occurred, and while this did not involve the lines of the company, in paralyzing the trade of the whole country it necessarily reduced the traffic and revenues of the Great Northern.

The effects of these various untoward influences and conditions are clearly seen in the traffic and income statements in the report. With an average of 3,765 miles of road against only 3,351 miles in the year preceding, the Manitoba leased lines had a freight traffic in 1893-94 of only 2,593,749 tons, against 3,103,647 tons in 1892-93, and a tonnage movement one mile of only 799,306,864 tons against 854,123,825 tons. The falling off, it will be observed, is over 16 per cent in the tons handled, but only a little over 6 per cent in the tons moved one mile, indicating that the loss was chiefly in the local or short-distance traffic, while at the same time the operation of the Pacific system gave the company a larger proportion of long-distance traffic. The business and agricultural depression also had the effect of decreasing the higher classes of traffic-those paying the biggest rates-since with the income of the farmers diminished by low prices and poor crops the buying power of the population was curtailed, and this in turn led to diminished consumption of manufactures, goods and merchandise. The presence of these influences is plainly apparent, for we find that not only has there been a great falling off in traffic but that coincidently there has been a heavy decline in rates, the average per ton per mile in the late year having been only 1.096 cents against 1.232 cents in 1892 3. As a result the earnings from the freight traffic reached only \$8,762,984 in 1893-4 against \$10,522,806 in 1892-3, thus showing a loss of over $1\frac{3}{4}$ million dollars. In the passenger department we get somewhat similar results, the number of passengers carried having been 1,020,976 against 1,436,939, the number one mile 76,663,741 against 84,956,282, the average rate per passenger per mile 2.361 cents against 2.525 cents, and the passenger revenues \$2,390,286 against \$2,747,973.

Taking aggregate gross earnings, the total is only \$11,345,357 against \$13,522,581, and net earnings \$4,856,578 against \$6,187,164. In other words, there was a decrease of \$2,177,224 in gross earnings, attended by a reduction of \$846,638 in expenses, leaving a loss in net of \$1,330,586. In view of the increased mileage operated, it will be interesting to see how the reduction in expenses is distributed under the various leading heads. For conducting transportation the expenditures were \$3,219,172 against \$3,473,277; for maintenance of equipment \$855,635 against \$1,045,419; for maintenance of road and structures \$1,767,447 against \$2,107,413; and for general expenses \$646,525 against \$709,308. Taxes are given separately, and these amounted to \$411,943 in 1894 against \$375,554 in 1893. Without the taxes the ratio of expenses to earnings is 57.19 per cent against 54.24 per cent last year, and with the taxes included the ratio is 60.82 per cent against 57.02 per cent.

The company has frequently been criticised because its percentage of operating expenses is lower than that of many other large companies. But obviously very little can be predicated on a mere comparison of ratios of expenses. A great many other factors have to be taken into consideration. Without attempting in this article to go into any extended discussion of the matter, it will be enough to indicate here very briefly one particular in which the Great Northern has a great advantage over some of its neighbors and competitors. It is an admitted fact that the company's lines have been very substantially built, and it is also well known that the system has very low grades. What is not so generally recognized is that such favoring factors play an important part in diminishing operat-

They enable a road to carry maximum loads ing cost. at a minimum of expense. In this respect the Great Northern now takes rank with some of the foremost roads in the country. Its low grades, good road-bed. and the possession of modern equipment and motive power have made possible the steady enlargement of the average train load, and for the late year the lading of the trains averaged 264.35 tons. As recently as 1890 the train load was but 179.36 tons, and even that was justly considered a high average for a road in that section of the country. The figure for 1894 includes the operations of the Willmar & Sioux Falls and the Duluth Watertown & Pacific, but not those of the Eastern of Minnesota and the Montana Central. With the Eastern included, the average would be still higher, for, as the traffic of the entire system is concentrated on that road, the train loads over said piece reach extraordinary figures, having been for 1894 514.57 tons.

We may take the average at 264.35 tons and compare it with the averages of some of our Eastern trunk lines to demonstrate how favorable is the showing of the Great Northern in this regard. We find that for the Lake Shore the train load for the calendar year 1893 was 275.7 tons, and for the New York Central the average for the year ending June 30, 1894, was 249 tons, so that the result on the Great Northern is almost as good as for the Lake Shore and slightly better than for the New York Central. If comparison be made with roads in the same territory with the Great Northern the difference in favor of the lines of that system is very striking. For while the train load for the Great Northern is 264.35 tons, the average for the Northern Pacific in the fiscal year 1893 (no figures for 1894 have yet been published) was but 153 tons; for the Milwankee & St. Paul for the same year as the Great Northern it was 161 tons, for the St. Paul & Omaha for the calendar year 1893 148 tons, and for the Rock Island for the fiscal year ending March 31, 1894, but 118 tons. Another fact should be borne in mind. On the Great Northern a perfect system prevails for guarding against waste and extravagance or unnecessary expenditures of any kind. Monthly reports are prepared for the use of the executive officials of the road, giving the results with the utmost minuteness for each division of the system, so that the unit of cost of every item is known. Moreover, the divisions are pitted one against another, and if the cost is higher on one division than on some other where the conditions are substantially the same, the fact is noted and the person in charge called on for an explanation; should the answer fail to be satisfactory, this person is replaced by some one else who can be depended on to look more carefully after the company's interests.

Returning to a consideration of the net earnings, the loss from last year, as already stated, was \$1,330,586; if we allow for the increase in taxes, the loss is \$1,-366,975. At the same time the fixed charges were \$704,-974 heavier than in the year preceding, while the dividend requirement was \$187,500 larger, this representing three-quarters of a year's dividend on the \$5,000,000 of new stock issued in 1893. Here, then, we have a total difference against the late year in the large sum of \$2,259,449. Few companies could have stood such a loss as this without becoming embarrassed. The Great Northern, with the help of the large income from its proprietary lines and from other investments was able not only to meet all its fixed charges

THE CHRONICLE.

but the regular dividends at the rate of 5 per cent per annum on its outstanding stock. We called attention last year to the large annual surplus resulting from the operation of the various proprietary lines, which the company had not included in its income account, since it had sufficient income to meet its charges and dividends even without this extra amount. In the late year of course it became necessary to avail of the extra income, as the revenue from the operations of the Manitoba lines had fallen off so largely; and it was the existence of that resource that enabled the company to pass so creditably through the year. The aggregate of the "other income" for 1893.4 was \$1,991,516, of which \$1,084,607 came from dividends received on stocks owned by the Great Northern Company-mainly the stocks of the proprietary lines. The net revenue from the operation of the Manitoba leased system was \$4,444,635, which added to the \$1,991,516 of other income, made the available net revenue \$6,436,151; the requirement for dividends and charges was \$6,540,305, showing a deficiency of only \$104,154 in a year of extraordinarily unfavorable conditions, when for the first time the company had its full maximum charges to meet on the Pacific Extension and when the rate realized on the freight traffic of the system was only 1.09 cent per ton per mile.

The balance sheet shows that the company had on June 30, 1894, no floating debt in the shape of loans or bills payable, that its ordinary current liabilities were \$4,208,956, with \$701,250 more for taxes, interest and dividends accrued but not due, making \$4,910,206 together. Against this it had in St. Paul, New York and London \$1,722,461 of actual cash, besides \$3,363,096 of bills and accounts receivable, or altogether \$5,085,557 of current assets.

It is gratifying to find that for the new fiscal year thus far the earnings have shown very decided improvement. Returns of the gross have been furnished to the end of November; that is, for five months from the 1st of July. For these five months there is an increase over the corresponding period in 1893 of \$650,133, of which \$378,764 is on the Manitoba, \$10,775 on the Eastern of Minnesota and \$260,594 on the Montana Central. What is particularly noteworthy about this gain is that it does not represent an increase in the grain traffic or any single item of tonnage, but a pretty general augmentation in business, and also shows a growing diversification of the system's We have made inquiry of the company for tonnage. the details, and find that the latest itemized statement covers the three months to September 30. But the results for this period bear out what we have said. For these three months the Manitoba lines show an increase of \$447,939, of which only \$73,786 cam + from wheat and \$43,403 from miscellaneous farm products, while \$84,670 came from lumber, \$97,908 from mineral products, \$63,441 from coal and \$99,895 from merchandise, these being the items showing the largest changes. On the Eastern of Minnesota aggregate earnings for the three months record a small decrease, \$9,668; but the revenue from the wheat tonnage diminished \$36,891 and from flour \$11,206, indicating gains in the other items of freight. The Montana Central has an aggregate increase for the three months of \$198,493, and in this coal and mineral products are the two largest itemscoal contributing \$102,444 and mineral products \$51,360.

LISTINGS ON THE NEW YORK STOCK EXCHANGE IN 1894.

The total amount of all securities listed on the New York Stock Exchange during the year 1894 is, according to our usual compilation, \$510,997,603. This aggregate shows a slight increase on the amount of stocks and bonds listed last year, but it is small in comparison with the totals for 1890 and 1889, which were \$1,122,860,209 and \$837,712,330 respectively. In 1885 the total listings were but \$254,372,116, or less than they have been for any year since.

Owing to the fact that so many railroads and other companies went into the hands of receivers during the financial crisis of 1893, and that in many instances reorganization plans were anticipated and several were partially formulated early this year, it might reasonably have been expected that the total listings of issues replacing old securities would have been unusually large. Such doubtless would have been the case had the recovery of confidence and business activity been more speedy. But the long continued depression which has prevailed in all financial circles has not only been unfavorable for raising money to establish new enterprises but has also rendered it extremely difficult to accomplish the rehabilitation of properties already in existence. In face of the anticipation when the year opened, only one railroad reorganization scheme has been carried through in time for the securities to have been listed in 1894; hence the total amount of refunding bonds listed has reached but \$92,782,000.

This, as has been indicated, is a surprisingly small amount when we consider the large number of railroads which have for some time been in the hands of receivers. Take the case of the New York Lake Erie & Western, for instance. Receivers for this property were appointed in July of 1893, and a reorganization plan was presented on January 2, 1894, but up to the present writing the reorganization has not been effected and none of the new bonds have been issued. The Atchison, Northern Pacific, Union Pacific, New York & New England, Louisville Evansville & St. Louis, Western New York & Pennsylvania, Cleveland Canton & Southern, and many other roads which we might mention furnish somewhat similar examples.

Stocks make a much better showing. The listings which are classified under the head of refunding are \$209,776,750 in amount. A very large proportion of this total, however, is made up of the securities listed by two companies, namely, the Southern Railway Company, 142 millions, and the United States Cordage Company, 30 odd millions.

The aggregate of *new* issues admitted to the list during 1894 (bonds $134\frac{3}{4}$ millions and stocks $36\frac{1}{2}$ millions) is smaller than it has been in any year since 1886. But the falling off is not so pronounced as might have been looked for, and the fact that the new issues listed during the last half of the year show a decided increase on those reported for the first six months is certainly encouraging.

The dulness of the market for our railroad and industrial securities produced by lack of confidence abroad and the small earnings of the companies has made the year an unpropitious one for obtaining new capital. Railroad construction has been less than in any year since 1875. The new mileage added during the first six months was computed by the "Railway Age" at about 500 miles, and up to October first the total

1128

THE CHRONICLE.

was but 1,000 miles. In the last three months, however, there has been a decided revival of railway building. The total new trackage for the year is now figured at 1,919 miles. Last year the addition was 2,828 miles; in 1892 it was 4,648; in 1891 it was 4,620; in 1890 it was 5,657; in 1889, 5,696; in 1888, 7,028, and in 1887 it was 12,983.

The following table shows the total listings of both stocks and bonds during each of the last ten years, the classification being in accordance with principles explained in former articles.

LISTINGS ON NEW YORK STOCK EXCHANGE.

Bonds.	1s. New issues. Old issu newly lis		Replacing old securities.	Total.		
1894	\$134,785,000	\$32,237,600	\$92,782,000	\$259,804,600

1887	98,726,791	32,643,426	138,653,333	270,052,55		
1886.,	54,006,350	67,?36,800	208,226,200	329,469,35		
1885	17,783,116	3.700,000	35.430,000	56,917,11		

NOTE-Applications for the listing of Trust Company receipts and of securities marked "assented" (if proparatory to reorganization), or of securities stamped "assumed" or "assessment paid"-the securities themselves having previously been listed-are not included in this table

During the last six months of 1894 the total listings of both stocks and bonds reached \$327,231,063. This is almost double the amount listed in the first half of the year and is considerably larger than the total for any six months since the middle of 1892.

There can be no doubt that these figures are indicative to some extent of an improvement in the financial condition of the country, and surely every such source of encouragement is of special interest in times like the present. The total listings for each half-year since the beginning of 1893 are given in the following tables, together with the amount of new issues and refunding issues included in the totals.

LISTINGS FROM JULY 1ST TO DECEMBER 29TH, 1894.

LISTINGS FROM JULI IST TO D	ECEMBER 2311, 1034.

Tot. listings of BR, bonds \$157,294,000

The largest issue of bonds listed by any railroad is the \$21,911,000 of Southern Railway new first consolidated mortgage 5s, which were admitted last month. The reorganization of this property is one of the few schemes of the kind which have been carried through this year, and the Southern Railway securities are the only ones of this nature which have as yet been listed. The mortgage under which the bond issue is made is to secure loans to the amount of \$120,000,000. Of the bonds listed \$8,000,000 were sold for cash and the balance were issued in exchange for bonds retired under the Richmond Terminal reorganization plan.

Southern Pacific of California first consols for \$10,-961,000 were issued against a deposit with the trustee of the mortgage of underlying bonds and \$4,154,000 were issued for acquiring new roads. Consols for \$719,000 can be listed without further notice on certificate from the Central Trust Co., trustee, that the same have been exchanged for underlying bonds.

The St. Louis division collateral trust 4s of 1890 of the Cleveland Cincinnati Chicago & St. Leuis were It will be noticed that the 79 millions of new bond issued to the St. Louis Alton & Terre Haute in payissues listed since July 1st stand against 55 millions ment for its main line. Of the original issue, bonds to

THE CHRONICLE.

the amount of \$250,000 are in the sinking fund for the loan itself, and the balance, \$9,750,000, have now all been listed. The total amount listed this year was \$8,000,000, of which \$6,710,000 were for the redemp tion of outstanding St. Louis Alton & Terre Haute bonds.

Chesapeake & Ohio general mortgage $4\frac{1}{2}s$ to the amount of \$3,241,000 listed in September represent bonds which were shown by the balance sheet of June 30th last to have been held in the treasury of the company. The general mortgage prescribes that the balance of bonds not reserved for other purposes may be issued for new acquisitions and rolling stock at the rate of not more than \$2,000,000 in any one calendar year. The listings in the table above represent expenditures covering two years, none of these bonds having been listed in the year 1893.

Included in the total of railroad stocks listed during the year (\$212,005,153) is \$119,900,000 of Southern Railway common stock or voting trustees' certificates. Of this sum \$25,000,000 was sold for cash, and the balance, together with \$48,000,000 of the preferred certificates, were issued for old securities under the provisions of the reorganization plan.

LISTINGS OF RAILROAD STOCKS.

Company and Class of Stock-	Am
Balt. & O. S. W. preferred	\$16.9
Ches. & Ohio common. Chicago & Alton common	2,5

Total of RR. stocks......\$212,005,153

The amount of industrial bonds listed during the last year has been only \$20,229,100 as follows:

LISTINGS OF INDUSTRIALS, ETC., BONDS.

Total industrial, etc., bonds.....\$20,229,100

The total listings of industrial and miscellaneous stocks, including \$500,000 of bank stocks, amounted to \$39,187,850, as shown by the subjoined table:

LISTINGS OF INDUSTRIAL, ETC., STOCKS.

Total industrial & bank stocks...\$39,187,850

It will be noticed that of the above total more than \$30,000,000 is accounted for by the listings of securities issued by the United States Cordage Company.

Street railway bonds to the amount of \$15,025,000 have been admitted to the list during the year. They are of the following description:

LISTINGS OF STREET RAILWAY BONDS. 7,650,000. Laying Broadway cable and improvements. 4,240,000. "Trolleying" its lines. 1,050,000. Additions and improv. 585,000 } Excg. for unlisted se-curities & imp'v'm'ts Brooklyn City 1st M. 5s... City & Sub. (of Balt.) 1st M. 5s... Denv. Total.....\$67,241,500

THE BOND SYNDICATE DISSOLVED.

It was officially announced on Thursday that the syndicate which last month purchased the \$50,000,000 of Government 5 per cent bonds had been formally dissolved. Mr. John A. Stewart, the President of the United States Trust Company, who organized the syndicate, stated that it had been formed for a specified time, and that time having expired, it had dissolved. On account of the fall in the price of the bonds, they had not all been sold. He said it was evident that Secretary Carlisle's currency plans had operated to depreciate the price. In connection with the termination of the arrangement, Messrs. Drexel, Morgan & Co. issued the following card: following card:

The action of the United States Treasury on currency questions having stopped progress in the sale of bonds for the account of the 5 per cent bonds syndicate, and the period of thirty days mentioned in the notice of the United States Treasury having expired, the syndicate is dissolved.

According to Messrs. Harvey Fisk & Son, the selling agents for the syndicate, \$20,000,000 bonds of the total of \$50,000,000 were intended for investment and \$30,000,000 for re-sale. Of the latter amount, the firm state, about 35 per cent have been disposed of around 119, and the other 65 per cent remain in the hands of the various members of the syndicate. The firm gives the same reason for the decline in the price of the bonds as the other parties mentioned.

MonetaryCommercialEnglishNews

[From our own correspondent.].

LONDON, Dec. 15, 1894.

The new Russian 31/2 per cent loan of a little under 16 millions sterling at an issue price of £94 4s. 6d. for every £98 17s. 6d. was offered here on Wednesday morning, and the applications were so numerous that the list was closed in a few hours. The subscriptions upon the Continent were still larger ; it would appear indeed from Thursday's return of the Bank of France that that institution lent 8 millions sterling to applicants for the loan. The proposals were also very large in Germany. The official details are not yet published, but it is reported that the loan has been applied for forty times. For some days the applications made money scarce and dear in Paris; but here in London although the subscriptions were numerous the effect upon the money market was slight. The fortnightly Stock Exchange settlement began on Tuesday morning and ended on Thursday evening, and the account to be settled, especially in South African securities, was very large. Still, the effect upon the money market was not great. For a couple of days day-to-day loans ruled at about 1/2 per cent, but taking the week all together the average was not much over 1/4 per cent, and the discount rate in the open market has been about 34 per cent or a little over.

The crisis in Newfoundland has hardly affected this market at all. It is an outcome of the excessively low prices ruling in Europe. It is said that about 2 million dollars worth of fish is stored in Newfoundland and cannot be sold. The im mediate break was caused by the death of a partner in a firm which had played a large part in the export of fish for many years. There have been about half a dozen failures; a couple of houses in this country have closed their doors; and the two local banks in Newfoundland have suspended. One of them is believed to be quite solvent, but succumbed to the run through want of cash. The distress in Newfoundland is reported to be very great, and applications for assistance have been made by the Governor to the British Government.

The value of the rupee is again steadily falling. On Wednesday the India Council offered for tender 50 lakhs of bills and telegraphic transfers, and sold the whole amount at an average of little over 1s. 0 29-32d. per rupee. Trade continues exceedingly dull in India, and though the export season has begun exports continue small. There is, however, a good demand from both China and Japan for provisions, especially for Burmah rice, and it is hoped that this demand will sustain exchange, as it is expected that the payments will be made through London. The silver market is likewise weak, the price having been under 28d. per ounce all through the week, although there is a fairly good demand for India and there is some buying likewise for China. Exports of gold from India are beginning again, but they are yet small. If exchange falls much further the best informed think that the gold shipments will once more assume large proportions. The passing of the bill authorizing pooling by the railway

companies through the House of Representatives has strengthened the market here for American railroad securities. The public, however, is holding aloof, and Stock Exchange operators are somewhat discouraged because New York has not responded to the action of London. There has likewise been an improvement in the Argentine market. The fear of political troubles still continues, and early in the week the rapid rise of the gold premium at Buenos Ayres unsettled the market. But on Thursday there was a sharp fall in the premium and all Argentine securities rose considerably. A little over £200,000 in gold has been withdrawn from the Bank of England for Buenos Ayres, and to that circumstance is attributed the fall in the premium. Trade is fairly active in Argentina. The crops are all reported to be good ; the wool clip is very large, and although locusts have made their appearance here and there no great damage is yet reported. In Brazil matters are quiet but promising, and there is no change in Chili.

The news from Australasia is disquieting. There has been a sharp fall in almost all Australasian Government stocks, and in the shares of many of the banks. The difficulty is that owing to the exceedingly low prices of produce in Europe the agricultural and commercial community are unable to meet their liabilities to the banks. The banks, especially the reconstructed banks, have engaged to pay a very heavy rate of interest on their deposits. In the present state of the colonies they are unable to earn the interest, and momentarily it is expected that two or three of them will have to apply for a modification of the reorganization schemes. On the Continental Bourses business was active during the first half of the week, and prices were well sustained ; but on Thursday when the Russian issue was completed business greatly slackened and there was a general decline in prices.

Here in the United Kingdom trade is not as good as could be wished, though there are distinct signs of improvement in several directions. Indeed, the purely home trade continues satisfactory, but the foreign trade is depressed by the excessively low prices, though in this case likewise there are some indications of recovery, and throughout Western Europe there are signs also of a better state of things. Even in Italy the Finance Minister in his Budget speech at the beginning of the week was able to say that during the past ten months there had been a decided increase in the exports and a falling off in the imports. The speech has been well received upon the whole, but the statement regarding the banks has naturally increased apprehension. The Minister estimates a deficit in the year 1895-6 of nearly 3 millions sterling. About a million and three quarters sterling it is proposed to cover by retrenchments and the remainder by increased taxation. The statement with regard to the three banks of issue, put as briefly as possible, is this : that they have nearly eleven millions sterling locked up, upon which it is impossible to realize in the early future, and that consequently fifteen years will be given them for liquidating those assets. The Bank of Italy undertakes at its own risk to wind up the Banca Romana, the scandals respecting which have had so great an influence upon Italian affairs of late. British railway stocks are fairly well supported, and speculation in the South African market has again begun. It was checked somew hat a forinight ago, but during the latter half of this week the buying has been on an enormous scale. The purchasers are Continental as well as British, and many of the shares have been pushed to extraordinary quotations.

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols, &c., compared with the last three years:

-Messrs. August Belmont & Co., Vermilye & Co. and J, Kennedy Tod & Co. offer for public subscription \$5,000,000 Minneapolis & St. Louis first consolidated 5 per cent gold bonds due Nov. 1, 1934, at 98½ and accrued interest. In our investment news columns will be found further particulars as to these bonds and an abstract of the mortgage.

-Messrs. Whitaker & Hodgman of St. Louis are sending their friends a very neat little pad calendar, with a poetical quotation for every day in the year. It will serve in a very pleasant way a practical purpose.

-Messrs. Blodget, Merritt & Co., Boston, advertise in the municipal department of this issue a new loan of \$200,ŭR. 000 City of New Bedford four per cent bonds.

-Messrs. Spencer Trask & Co. offer to investors a choice so-lection of railroad bonds.

By Messrs. Adrian H. Muller & Son:

Spencer Trask & Co., BANKERS, O WALL STREET, NEW YORK. State and James Streets, Albany. Bonds and Stocks Bought and Dealers in State, BOND City and Railroad

* Erroneously reported in our last issue as 5 per cent.

For dividends see previous page.

WALL STREET, FRIDAY, DECEMBER 28, 1894-5 P. M.

The Money Market and Financial Situation.-The conditions which usually dominate a holiday market at the Stock Exchange have been in full force during the week now closing.

The prospect of legislative action affecting the currency, the reduced traffic on some Western railroads and the uncer tainty hanging over certain large industrial corporations are given as some of the reasons for a feeling of hesitancy and cauticn which exists in financial circles.

On the other hand the favorable report of the Pennsylvania lines for the month of November, showing an increase of \$590,280 in net earnings, and also of the N. Y. Central for the quarter showing an increase in net earnings of \$173,419, with the announcement of the regular quarterly dividend, are facts of broad significance.

The opening of the year 1895 will find the conditions much more favorable for a rapid recovery of business than did Jan. 1st, 1894.

The money market is quiet with a hardening tendency, but quotations unchanged.

The open market rates for call loans during the week on stock and bond collaterals have ranged from $1\frac{1}{2}$ to 2 per cent. To-day rate on call was 11/2 per cent. Prime commercia paper is quoted at $2\frac{1}{2}$ to $3\frac{1}{2}$ per cent.

The Bank of England weekly statement on Thursday giowed a decrease in bullion of £814,911, and the percentage of reserve to liabilities was 63.32, against 63.67 last week; the discount rate remains unchanged at 2 per cent. The Bank of France shows an increase of 19,575,000 francs in gold and a decrease of 150,000 francs in silver.

The New York City Clearing-House banks in their statement of December 22 showed a decrease in the reserve held of \$2,-018,700 and a surplus over the required reserve of \$33,900,675 against \$33,345,825 the previous week.

Foreign Exchange.-The foreign exchange market has been firm through the week on a limited volume of business The tendency has been upward and quotations are a fraction higher than last week. The condition is unchanged at the close. Offerings are not equal to the demand for bills and \$750,000 gold will be shipped to-morrow.

To-day's actual rates of exchange were as follows: Bankers' sixty days sterling 4 871/2@4 873/4; demand, 4 881/2@4 883/4; cables, 4 883/4 @4 89.

Posted rates of leading bankers are as follows :

December 28.	Sixty Days.	Demand.		
	4 87 @4 874 4 864 @4 864	4 8912		
Paris bankers (Irancs). Amsterdam (guilders) bankers. Frankfort orBremen (reichmarks) b'nkers	404040516	407 ₁₆ @40 ¹ 2 95 ³ 4 @95 ¹³ 1		

The following were the rates of domestic exchange on New York at the under-mentioned cities to-day: Savannah, buying 1/8 discount selling par; Charleston, buying par, selling 1/8 premium; New Orleans, bank, par; commercial, \$1 discount; Chicago, 80c. per \$1,000 premium; St. Louis, 50c. per \$1,000 premium.

State and Railroad Bonds .- The activity in State bonds continues. Sales at the Board include \$615,000 Virginia 6s defer. trust receipts, stamped, at 115% to 13; \$105,000 Virginia fund. debt 2-3s of 1991 at 603/8 to 601/2; \$10,000 Tenn. settlement 3s at 8234 and \$87,000 So. Carolina 6s non-fundable at 21/2 to 27/8.

There is little to be said of the railroad bond market. Desi B ble issues are offered only in small amounts and are read 05

for FRASER

ily taken at full prices, while those of a lower grade, which are more freely sold, generally find little support. One of the features of the week in this department is the offering for subscription of \$5,000,000 Minneapolis & St. Louis first consolidated 5 per cent gold bonds due Nov. 1, 1934, by Messrs. August Belmont & Co., Vermilye & Co. and J. Kennedy Tod.

The new reorganization plan of the Atchison company which is looked for with interest and expected this week, has not yet been announced. The bonds have been the most active on the list and continued to decline. Phila. & Reading issues have been freely sold and are lower notwithstanding an agreement by parties holding large blocks of the securities to deposit the same with the Olcott committee under certain conditions, which action is supposed to facilitate the present plan of reorganization. M. K. & T. bonds are steady at about former quotations. Southern Ry. 1st 5s, now listed on the London Exchange, are active and firm. Wabash issues have sold in small amounts at full prices. U. S. Cordage 1sts are lower in sympathy with the stock, and Brooklyn Elevated 1sts have lost about 3 points.

United States Bonds .- Sales of Government bonds at the Board include \$40,500 4s, registered, at 113¼ to 114¼; \$11,000 4s, coupon, at $114\frac{3}{4}$ to $114\frac{3}{8}$; \$17,000 5s, coupon, at $117\frac{1}{2}$ to 118, and \$11,000 5s, registered, at $117\frac{1}{4}$ to $117\frac{3}{8}$. Closing quotations have been as follows:

Railroad and Miscellaneous Stocks.—The stock market has reflected the general conditions of the Street and been dull and featureless. With very few exceptions all the active list has declined on a limited volume of business.

this has declined on a limited volume of business. The unfavorable earnings of St. Paul for the third week in December was used by the bears to depress the entire granger group with some success. St. Paul closes at 57, a loss of 1¹/₄. Burlington & Quincy at 71, a loss of ³/₄. North-West at 96³/₄, a loss of 1¹/₂, and Rock Island at 61³/₈, a loss of ⁷/₈. Of the coalers only Central of N. J. and Reading have shown any life until to-day, when a raid was made upon the entire group; the former has been hammered by the bears, with the result of depressing the price to 88³/₈, a loss of 4⁷/₈, and Reading without any new features has declined to 14³/₈, a loss of 1¹/₉. N. Y. Central, which was bid down early in the week on light sales in anticipation of a reduced dividend, im-mediately recovered on the announcement of a regular divi-dend and earnings which more than covered the same. Stock of the Southern Railway, which has been listed on the London Stock Exchange in company with the bonds, is steady London Stock Exchange in company with the bonds, is steady

London Stock Exchange in company with the bonds, is steady on limited sales. The industrial list has been somewhat irregular. Am. Sugar on a relatively light business has declined with very narrow fluctuations to 88%, a loss of 134. Chicago Gas, the strongest of the group, closes at 73¼, against 71% last week. Distilling & C. F. on various rumors about reorganization and a new management has been active, fluctuating between 9½ and 11%, closing at 10. General Electric has been freely sold, dropping to 33% on Wednesday and closing at 34¾. U. S. Cordage has further declined, the common to 5½ on Wednes-day and the preferred to 8%, since which it has received some support, closing at 6½ and 10½ respectively. Am. Cotton Oil has declined, closing at 23 for common and 67¾ for preferred. U. S. Rubber has been more than usually active, with only slight fluctuations. slight fluctuations.

Investment AND Railroad Intelligence.

1138

The INVESTORS' SUPPLEMENT, a pamphlet of 160 pages, contains extended tables of the Stocks and Bonds of Railroads, and other Companies, with remarks and statistics concerning the income, financial status, etc., of each Company. It is published on the last Saturday of every other month-viz., January, March, May, July, September and November, and is furnished without extra charge to all regular subscribers of the CHRONICLE.

The General Quotations of Stocks and Bonds, occupying six pages of the CHRONICLE are published on the third Saturday of each month.

RAILROAD EARNINGS.

The following table shows the gross earnings of United States railroads (and also a few Mexican and Canadian roads) for the latest period reported. The statement includes every road from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two col-umns the earnings for the calendar year from January 1 to and including such latest week or month.

ANNUAL REPORTS.

Great Northern Railway.

(For the year ending June 30, 1894.)

The annual report of Mr. J. J. Hill, President, is given at length on subsequent pages, together with the revenue and the income account, and the general balance sheet. The earnings and expenses of the Great Northern Ry, com-piled in the usual complete form for the CHRONICLE, are shown below for four years. The Great Northern proprietary lines are not included here, being stated separately by the company.

Columbus Sandusky & Hocking Railway.

(For the year ending June 30, 1894.)

An advance statement showing time by 1004.) An advance statement showing the earnings of the Colum-cus Sandusky & Hocking for the late fiscal year is given below. The company was formed by consolidation January 16, 1894, so that its operations embrace less than six months, but to make the statement cover the entire fiscal year the earnings of the constituent companies prior to January 16 are included as follows: Columbus Shawnee & Hocking, July 1, 1893, to January 16, 1894, and the Sandusky & Columbus Short Line, July 28, 1893, to January 16, 1894. YEAR ENDING JUNE 3.0, 1894.

YEAR ENDING JUNE 30, 1894.

-V. 57, p. 1083.

Northeastern Railroad Company.

(Report for the year ending June 30, 1894.)

(Report for the year ending June 30, 1894.) The report of President C. S. Gadsden says that the un-favorable conditions in business mentioned in the report of 1893 have continued and been further intensified during the fiscal year terminating June 30th, 1894. Added to the gen-eral cause of depression in business felt throughout the country, Charleston and the coast region of South Carolina, north and south of the city, were visited by a series of dis-astrous cyclones in August and October, 1893. The planting interest tributary to the road sustained heavy loss, and thus contributed to injuriously affect the revenues of the company. The General Manager states that the number of through passengers carried decreased 23⁻¹ per cent, which was par-tially due to the competition of rival lines for the Florida travel. The compensation for the transportation of the mail

decreased about \$11,600, Congress having withdrawn the "special facility" pay for fast mail trains. No new locomotives or car equipment was purchased, which accounts for the large reduction in maintenance of equip-ment. Three hundred and eighty-seven tons of 70 lb. steel rail was purchased and laid in the track between Gourdins and St. Stephens. The road at many points south of the Santee River has given trouble for many years during wet weath-er on account of unsuitable ballast. About three miles of track has been ballasted with gravel, and the work will be continued. The expense will be considerable, but it is bewill lieved that great economy in the maintenance of the track will result.

Extraordinary expenses charged to operating expenses ag-gregate \$15,212. The equipment, roadway, track, bridges, buildings and other structures have been maintained in good condition.

Equipment includes: Locomotives, 29; cars in passenger service, 22; cars in freight service, 395. Earnings and expenses have been as follows:

GENERAL INVESTMENT NEWS.

To facilitate reference to information appearing in this column, particularly during the two months following the publication of the Investors' Supplement (each Supplement containing an index up to date of issue), it is proposed to append to all items here given the volume and page of the CHRONICLE where the last previous item pertaining to the company was published. It will then be an easy matter having found one statement regarding a company to refer to others of earlier date.

Furthermore, as ready reference is especially desirable as regards reorganization plans, the names of reorganization committees and the payment of overdue coupons, all announcements concerning these appearing after the publication of the latest issue of the INVESTORS' SUPPLEMENT will be indexed together in this column under heading "Reorganization Plans, etc.

etc." Anthracite Coal Roads.—The sales agents of the anthra-cite coal trade held a monthly meeting yesterday, the follow-ing companies being represented : Delaware Lack. & Western, Philadelphia & Reading, Lehigh Valley, Central RR. of New Jersev, New York Lake Erie & Western, Delaware & Hud-son, New York Ontario & Western and Pennsylvania Coal Co. It was decided to restrict the output during January to 45 per cent of the capacity. This is equivalent to 2,300,000 tons. No change was made in prices either here or in the West. This agreement is presumably subject to the approval of the presidents of the several companies. On Thursday "there was a conference of the officers of the Reading Railroad Company. The question of the natural and the proper distribution of anthracite traffic among the various anthracite coal-carrying companies was referred to a commit-tee to consider and report."

tee to consider and report." Atchison Topeka & Santa Fe.—Daily meetings are being held by the Joint Reorganization Committee, but nothing has been decided upon as yet, and nothing probably will be before next week. Whatever plan this committee produces must be submitted to the Bondholders' General Reorganization Com-mittee here, the London Bondholders' Committee and to the banking house of Hope & Co. of Amsterdam. If it receives the approval of all of these interests it will be worked out in detail, and all security-holders will be invited to co-operate under it. under it.

The New York Times of Friday contained the following:

The New York Times of Friday contained the following: It is learned that the committee deems it necessary to raise about \$14,000,000 in cash by assessments on the stock and the second mor-gage bonds. It is practically settled that the assessment on the stock will not exceed \$12 per share. It may not be more than \$10, the members of the committee peing undecided as to whether they will recommend an assessment of 2, 3 or 4 per cent on the "A" and "B" seconds. There is some talk also of giving the holders of the assessed securities a bonus of preferred stock equal to the amount of their as-sessments. A proposition to scale down the general fours (first morf-gage) in order to reduce the fixed charges is likewise under discussion. -V. 59, p. 1103.

Atlantic Florida & Gulf.—The construction work on this railroad has been undertaken by C. C. Smith, formerly Assist-ant General Manager of the Rio Grande Western, who is now

Vice-President of this company. His headquarters are at Kissimmee, Fla. The first portion of the railroad which it is proposed to build is from Rock Ledge, on the east coast of Florida, a station on the Jacksonville St. Augustine & Indian River road westerly across Osceola County to Kissimmee, about 40 miles. The Florida Engineering Construction Com-pany has been organized to build the road. -*Railroad Gazette*.

Charleston Clendennin & Sutton.—This company is re-ported to have issued \$3,000,000 in bonds to extend the line from Clendennin to Sutton, W. Va., and to be now ready to let contracts for the work between Clendennin and Clay C. H. Surveys have been completed. John H. Drake is managing director, Charleston, W. Va.

Cincinnati Extension Bonds—Alabama Great Southern. —The opinion of Judge Lurton with reference to the sale of the collateral held for the Cincinnati Extension bonds was given in the CHRONICLE of Dec. 1. The formal decree was entered at Nashville last Saturday. The East Tennessee Vir-ginia & Georgia is given 90 days in which to pay the defaulted interest into court, and in event they fail to make the pay-ment Governor Turney, as special commissioner, is ordered to proceed to Knoxville and sell to the highest bidder for cash the stocks which secure the bonds. The stocks are to be sold in a block, as they represent a controlling interest in the road. —V. 59, p. 968.

Cincinnati Southern-Cincinnati New Orleans & Texas Pacific.—The Supreme Court at Columbus, Onio, on Decem-ber 21, decided against the City of Cincinnati the suit brought to oust the trustees of the Cincinnati Southern, and refused to grant an injunction to pr. vent the settlement through ar-bitration of the claims made by the lessees, the Cincinnati New Onleans & Texas Pacific, for large sums spent on the Cin-cinnati Southern by way of improvements, terminals, &c.— V, 59, p. 920.

Cleveland Canton & Southern.—Woerishoffer & Co. and Clarence H. Wildes request holders of the first mortgage 5 per cent bonds of the Cleveland & Canton Railroad Company to confer with them before surrendering their securities to any reorganization committee.—V. 59, p. 1103. Colorado Coal & Iron Development.—Secretary Curtis, of this company, says subscriptions to over 80 per cent of the new bon 1s have already been taken. These bonds are the \$500,000 Suburban Land & Investment Co. 6s due November 1,19.9, and guaranteed by the Development Co. The proceeds will be used to liquidate the floating debt.—V. 59, p. 780. Consolidated Street Railway (of Partland Ore) —A dis.

Consolidated Street Railway (of Portland, Ore.).—A dispatch from Chicago states that Mc. O. F. Paxton has been appoin ed receiver of this company.

boin en receiver of this company. **Evansville & Richmond.**—Messrs. Harvey Fisk & Sons advise bondholders that neg stiations are pending which it is hoped will be brought to a favorable conclusion within a few days for a settlement of the claims against the Evansville & Terre Haute RR. Co. Pending these negotiations they caution holders of Evansville & Richmond bonds and of their negoti-able receipts therefor not to sell their bonds, the firm un-derstanding that certain parties cognizant of the negotiations are trying to buy bonds, quoting as the market a sale of one bond at a very low price some time a₅0.—V. 59, p. 1058. Eitaburg.—The Batton Hoesen Tunnel & Wastom dohen

Fitchburg.—The Boston Hoosac Tunnel & Western deban-ture bonds, of which \$1,364,000 are outstanding, have been called for payment at the office of Kountz B Ros., 120 Broad-way, on March 1, 1895, with accrued interest to that date, when interest will cease. The funds to redeem these bonds have been provided by the sale of \$1,350,000 Fitchburg 4s, authorized some time since.—V. 59, p. 835.

Grand Rapids & Indiana.—The Pennsylvania Railroad an-nounces that it will purchase at the office of Winslow, Lanier & Co. on January 2, 1895, the coupons of the 1st mortgage 7s guaranteed land grant bonds maturing January 1, 1895.—V. guaran. 59, p. 1007.

Kingston & Pembroke.—A special meeting of the share-holders or this company will be held at Kingston, Ontario, January 10, 1895, for the discussion of the state of the com-pany's affairs and of measures for dealing with the claims of the bondholders. Stockholders say that they have received no annual reports for years, and have been unable to secure any figures whatever. Interest on the bonds is in default.

company stands ready to retire upon their presentation. When this shall have been completed the new company will be without floating debt, with \$283,000 of new consoli-dated mortgage 5 per cent bonds, and with cash and cash assets aggregating about \$400,000 in its treasury, exclusive of sufficient funds set aside to retire the \$78,000 bonds above referred to. When these shall have been retired, the fixed charges under the reorganization will be as follows: On \$4,718,000 underlying bonds, \$316,440; on \$5,000,000 first con-solidated mortgage bonds, \$350,000, making a total annual fixed charge of \$566,440. "The net revenues of the property, after deducting operat-ing expenses, taxes and rentals paid, appear from the receiv-er's reports to have been: For the fiscal year ending June 30, 1892, \$863,183; 1893, \$732,619; 1894, \$749,962. The earnings since June 30, 1894, have been, up to the present date, consid-erably in excess of those of last year, both as to gross and net. "By the termination of the receivership the contract for the use of the St. Paul & Northern Pacific road between St. Paul and Minneapolis was abrogated, and a new contract has been agreed upon by which a saving has been effected to our road which will amount to at least \$40,000 net per annum."-V. 59, p. 1058. Missouri Kansas & Texas- International & Great North-

p. 1058. **Missouri Kansas & Texas-International & Great North-ern.**—At Galveston, on the 20th inst., the Court of Appeals rendered its decision in the suit in which the Missouri Kansas & Texas sought to obtain control of the Galveston Houston & Henderson, the stock of which it owns, while the road is operated by the International & Great Northern, under a ninety-nine year lease, made in 1883. In April last Judge Brashear sustained exceptions interposed by the Interna-tional & Great Northern, which attacked the right of the M. K. & T. or the G. H. & H. to the relief sought, on the ground that they were in equal fault, and that any right they may have had was barred by laches and acquiescence. On the appeal taken from this ruling the higher court has rendered its decision sustaining the exceptions.—V. 59, p. 920. New York Central & Hudson River.—The earnings for

New York Central & Hudson River.—The earnings for the quarter and the six months ending December 31 (the December, 1894, quarter being partly estimated), are reported as follows:

as follows: 3 mos. to Gross Net First Balance, Pr. et Dec. 31. carnings. earnings. charges. Dividend. surplus. op. ex. 1894....\$11,333,000 \$3,952,000 \$2,631,000 \$1,192,554 \$123,146 65:13 1893....11,327,912 3,778,582 2,583,770 1,117,554 76,958 68:05 6 mos... 1894....22,174,000 7,678,000 5,261,000 2,385,703 31,292 65:37 1893....24,039,759 7,722,340 5,213,618 2,235,703 273,014 67:88 -V. 59, p. 780.

New York & New England.—The receivers advertise the payment on and after December 24 of interest due July 1, 1894, on the first mortgage bon is of this company. The ap-plication to the court stated that the payment would be made out of income. Interest on the firsts due Jan. 1, 1894, was paid July 3, through an issuance of receivers' certificates.— V. 59, p. 969.

New York & New Jersey Bridge.—This company proposes "to give a fair opp runity of determining by the test of bids upon proper specifications prepared by one of the President's own experts whether any responsible firm will guarantee the construction of a suspension six-track railroad bridge, ade-quate to the needs of heavy traffic at high speed, at a cost which will render cheap transit possible.—V. 59 p. 1058."

New York Lake Erie & Western.—Through a composi-tor's blunder, the head lines to the statement concerning the Erie in the November edition of the INVESTORS' SUPPLEMENT Erie in the November edition of the INVESTORS' SUPPLEMENT were omitted, causing the statement to appear under the title of the next preceding company, the New York Lackawanna & Western. In a recent issue of the CHRONICLE mention was made of this mistake, but app irently without attracting gen-eral attention, a number of letters with reference to it having since been received. The courtesy shown by subscribers in pointing out inaccuracies is much appreciated by the editors of the CHRONICLE and constitutes an important means of keeping their statistics correct. -V. 59, p. 1058.

Northern Pacific.—Listed this week on the New York Stock Exchange were \$20,783,000 engraved Mercantile Trust Company certificates of deposit for Northern Pacific consoli-dated fives, with right to list from time to time further amounts of said certificates upon issue of the same for bonds

any figures whatever. Interest on the bond is in default. Lonisville Evansville & St. Louis.—A bill has been filed, before Judge Allen, in the Federal Court in Springfield, III, asking for a foreclosure of the consolidated mortgage against the Louisville Evansville & St. Louis Consolidated Railway. This action is merely a formal procedure on the part of the consolidated bondholders' committee, of which C. S. Fair-child, President of the New York Security & Trust Company, is the chairman. A deposit of the bonds under an agreement will shortly be called for.—V. 59, p. 600. Minneapolis & St. Louis.—The new first consolidated five subscription. On a subsequent page is published an abstract for mortgage. President Wm. L. Bull gives some addi-tional facts as follows: "In the recent reorganization of the company's finances there were paid off \$4,417,000 of prior lim 6 per cent and 7 per cent mortgage bonds, together with all past-due interest thereon, and the interest on all other issues of the company, with the exception of \$78,000 consolidated mortgage 6 per cent bonds, issue of 1882, which the

attainable results, having due regard to their respective legal —The Coeur d'Alene first mortgage bondholders' committee

is Chester W. Chapin, Frederick Grant, E. M. Buckley, L. S. Holzmarster and Henry Martin. The committee has been appointed to enforce the rights of the bondholders.—V. 59, p. 1104

North River Bank .- Receiver Francis Higgins has been North River Bank.—Receiver Frances Region of 4 per cent authorized by the Court to pay another dividend of 4 per cent to depositors and creditors whose claims have been proved. Payment will be made as soon after January 10 next as pos-sible. The Receiver has thus far paid 60 per cent of these claims since his appointment in March, 1891.

Old Colony.—The Massachusetts Railroad Commissioners have granted this company permission to issue \$200,000 new stock, to be sold at public auction.—V. 59, p. 1104.

Oregon Pacific.—At Corvallis, Oregon, Dec. 22, this railway was sold under foreclosure of a mortgage to Bonner & Hammond of Missoula, Mont., for \$100,000. The road is 136 miles long, running from Yaquina, Ore., to Detroit, Ore.—V. 59, p. 880.

Oregon Short Line & Utah Northern.-Petitions for an independent receiver have been filed.--V. 59, p. 1008.

Peoria Decatur & Evansville.—Receivers Huston and Hop-kins announce that the interest due July 1, 1824, on the coupons of the first mortgage (Peoria division) will be paid at the Central Trust Co. of New York on Dec. 31.—V. 59, p. 1104.

The Central Frust Co. of New York on Dec. 31.—V. 59, p. 1104. **Philadelphia & Reading**.—Through the courtesy of one of the company's receivers our attention is called to an inaccur-acy in the CHRONICLE of Dec. 22, 1894. It was stated that the decision of the Supreme Court of the United States established the right of appeal from decrees of the Circuit Court in the administration of receiverships, which right has heretofore been involved in doubt. The copy of the opinion of Chief Justice Fuller now at hand shows that the court did not decide that the right of appeal exists in these cases, but that that question is one which will have to be dealt with if an appeal should be taken.—V. 59, p. 1104. Philadenbia & Reading — At a meaning on Monday in

an appeal should be taken. --V. 59, p. 1104. Philadephia & Reading. --At a meeting on Monday in Philadelphia of representative Reading security holders the following resolutions were adopted : Resolved, That those present concur in recommending that the securities of the Philadelphia & Reading Railroad Com-pany, owned or represented by us, including the general and preference income mortgage bonds and shares, should be de-posited with the Olcott Committee under the plan for re-ad-justment, but that that committee be requested to so amend the plan that the proposed voting trust be terminated upon the payment of the extended coupons. Resolved, That in case the plan shall not be declared ef-fective, and any modification of the plan shall be necessary, the Olcott Committee be requested to confer with Messrs. Welsh, McKean and Borie, as our representatives, as to the action which they shall deem necessary. Resolved, That a copy of these resolutions, with the amount of securities represented, be furnished to the Olcott Com-mittee. The parties ioning in this recommendation are Harmy N

mittee.

mittee. The parties joining in this recommendation are Henry N. Paul, President of the Pennsylvania Company for Insurances, &c. (as trustees for various estates); C. & H. Borie, John B. Gest, President of the Fidelity Trust Company; Thomas Mc-Kean, Charles P. Perot, Vice-President of American Fire In-surance Company; Effingham B. Morris, President of Girard Trust Company; R. Dale Benson, President of Pennsylvania Fire Insurance Company; C. Stuart Patterson, Vice-President of Western Saving Fund, and Alexander Biddle, Chairman of Philadelphia Contributionship. These institutions are said to hold about six millions of general mortgage bonds, besides

The Philadelphia Contributionship. These institutions are said to hold about six millions of general mortgage bonds, besides junior securities, and their action will also have influence upon a numerous clientele. The Philadelphia *Ledger* of Friday says: "The active de-positing of securities under the Reading reorganization plan continued yesterday at the office of the Finance Company. At the close of business about \$15,000,000 general mortgage bonds had been deposited with the Finance Company here and the Central Trust Company in New York. In addition, by agree-ment with Chairman Olcott of the committee, the Pennsyl-vania Company for Insurances, &c., is collecting the general mortgage bonds of the companies represented at the meeting of last Monday, and their clients and friends, which are con-sidered as deposited with the committee, the amount thus cared for being estimated at about \$5,000,000. In London there have been considerable deposits, so that the estimate last night was that twenty-two to twenty-four millions had last night was that twenty-two to twenty-four millions had been deposited in all the depositories."—V. 59, p. 1104.

Rapid Transit in New York City.—The Rapid Transit Commission at its meeting Thursday received a report of the Chief Engineer, W. B. Parsons, on the cost of construction of the lines as at present planned. His estimates reach between \$65,000,000 and \$66,000,000, and suggests the abandonment of Broad way below Fourteenth Street as an escape from engin-eering difficulties. It was decided to submit the matter to a Broadway below Fourteenth Street as an escape from engin-eering difficulties. It was decided to submit the matter to a board of five experts. They will be named by President Orr at the next meeting. These will be asked to determine the following points; (1) Whether the calculations as to the prob-able cost embodied in this report may be properly accepted as a basis for conclusions. (2) Whether the experts concur in believing the plan of construction in Broadway pro-

posed by the former commission unsatisfactory; (3) whether the plans submitted by the Chief Engineer of treating the local the plans submitted by the other Engineer of treating the local and express tracks as two roads, using the same stations when they join, appears to them practicable and wise; (4) whether they can suggest any better solution of the problem. It was also decided that the plans be curtailed, if necessary, to bring the cost within \$50,000,000, the amount provided under the law.

Mr. Parsons reported that all the lines as planned could be constructed with reasonable economy and ease, except that below lower Broadway. Elsewhere the rock lies near the surface; there the tunnel would have to be through unstable sands.—V. 59, p. 836.

Railroad Construction.—In an article on railway con-struction in 1894 the *Railway Age* of December 21 states that 1,919 13 miles of steam road were built on 153 lines in 34 States during the year, which compares with 2,635 miles in 1893, 4,178 miles in 1892, 4,282 miles in 1891 and 5,670 miles in 1890. In Canada 323 miles and in Mexico 75 miles were built built.

These figures do not include electric, cable or horse roads, on which construction has been active during the year. The following table gives the amount of track laid in each of the several States.

TRACK LA	ID IN	THE YEAR 1894.	
State-	Miles.		Miles_
Alabama		Montana	. 101
Arizona	193	New Hampshire	. 8

Florida		North Carolina	. 4
Georgia		Ohio	. 94
Illinois	148	Oregon	. 2
Indiana		Pennsylvania	. 129
Kansas		South Catolina	. 59
Louisiana		Tennessee	
Maine		Texas	
Massachusetts	4	Utah	
Michigan	112	Virgipia	. 5
Minnesota	69	West Virginia	. 50
Mississippi		Wisconsin	. 46
Missouri		Wyoming	. 21

Total in United States..... .1,919 The Railroad Gazette of December 28 gives the total for the United States as 1,761 miles, for Canada as 253 miles, for Mexico as 40 miles, a grand total of 2,054, against 2,817 miles, the grand total reported by the Railway Age.

Reorganization Plans, etc.—The following is an index to all defaults, reorganization plans, the names of all reorganizaton committees and all statements respecting the payment of overdue conpons that have been published in the CHRON-ICLE since the November edition of the INVESTORS' SUPPLE-MENT was issued, all earlier facts of this nature being set forth in that publication. It does not, however, include matter in to-day's CHRONICLE.

The following abbreviations are used: Plan for reorganization or readjustment plan; *coup.* for coupon payments; *def.* for default; *Com.* for committee.

Savannah Americus & Montgomery.—The foreclosure sale of this road is advertised in another column, to take place at Americus, Ga., Feb. 28, 1895.—V. 59, p. 1059.

Third Avenue (Street) RR., New York.—The stockholders met on Wednesday, Dec. 26, and authorized an increase in the capital stock of \$2,000,000, making the total amount \$9,000,-000.—V. 59, p. 1008.

Topeka Water Co.—An interesting circular with reference to this property has been issued by the bondholders' commit-tee consisting of Frederick M. Colston, Baltimore; Henry P. Scott, Wilmington; Charles E. Jackson, Middletown, Conn.; Theodore C. Woodbury, Portland, Me.; Thomas Carmichael, London, Eng. This committee is represented in New York by their counsel Messrs. Sullivan & Cromwell. Refore assenting to any plan of reorganization bondholders will do well to communicate with some one of the parties above named.

Wheeling & Lake Erie.—The stockholders' meeting called for this week adjourned to the third week in January. It is understood the reason for this adjournment is that nego-tiations are pending in connection with the Valley Railway. —V. 59, p. 1004.

Wisconsin Central .-- It is authoritatively stated that of the Wisconsin Central.—It is authoritatively stated that of the \$2,000,000 of 6 per cent two-year receivers' certificates author-ized November 15, \$1,650,000 have been sold, with which the road's floating debt, East and West, has already been sub-stantially been paid off. The \$2,000,000 of treasury assets have been preserved for the benefit of the property, and are deposited with the United States Trust Company as special collateral under the receivers' new certificates -V. 59, p. 830.

Worcester Traction.—Earnings for the two months ending Nov. 30 are reported as follows:

Two mos. to November 30. { 1894, gross, \$63,150; net, \$23,516. 1893, gross, 49,899; net, 4,821.

Financial disturbances, followed by general depression in the mercantile, industrial and agricultural interests of the whole country, have fallen with particular severity on the lines of railway operated west of the Mississippi and Missouri rivers. The traffic of the Trans-Continental lines has been re-duced in all its various branches, and the tables in this report

duced in all its various branches, and the tables in this report give the extent of the reductions in both the tonnage and revenues of this Company. The operation of your road during most of the year has been attended with great hardships and much difficulty. The past winter was unusually severe; heavy snows during the latter months were followed by severe floods over large areas, which interrupted train service over most of the Western Divisions for nearly ten weeks

interrupted train service over most of the Western Divisions for nearly ten weeks. On the 13th of April a general strike occurred without a day's notice or warning of any kind, and continued until the 2d of May, when it was settled, partly by agreement and partly by arbitration; but, notwithstanding this settlement, the greater part of the month of May was gone before busi-ness of the company was moving with regularity. During the latter part of June and the greater part of July a general strike occurred, which included practically all the lines be-tween Chicago and the Pacific Coast, except the line of this company; but the effect of the strike on the general business of the country greatly reduced the traffic and revenues of this company. this company.

Notwithstanding these conditions and a general reduction Notwithstanding these conditions and a general reduction of the average rate per ton per mile, as shown in accompanying table of "Comparative Statistics of Freight Traffic," from '01232 per ton per mile in 1898 to '01096 in 1894, or 11 per cent of the former rate, your Company has been able, from its in-come from all sources, to pay its interest and guaranteed obligations and its usual dividend, with a deficiency of \$104,-152.62 153 68.

153 68. The Board of Directors believe that a careful examination of this report will show that under the conditions of reduced traffic and interruption to business the results confirm the great vitality of the company, and its ability to withstand adversity to an extent which can hardly be expected to occur again,

cur again, In the report for last year we called attention to the fact that "the country served by your lines is nearly all new country, where the fertility of the soil has not been ex-hausted by long cultivation, and we may look for quick re-covery from the effects of the recent financial conditions." We are glad to say that this recovery has already made itself manifest in the Company's earnings. Our revenues from traffic on the new lines are fast approaching in amount the entire revenue from grain carried on all the older portions of the railway. During the present summer a very gratify-ing increase has occurred in the lumber traffic from Puget Sound to the East; and the increase in coal, ore and mineral traffic in Montana is adding largely to the company's earn-ings.

traffic in Montana is adding largely to the company's carn-ings. The track and the entire property have been well main-tained, and are now in better permanent condition than ever before. The substantial manner in which the Pacific Exten-sion was built, and policy of heavy renewals and improve-ments on the older portions, together with the reduced grades, have enabled the company to greatly reduce the cost of doing its business. The past policy of permanent improvements of the property is being continued. About eight thousand feet of wc oden trestles are being filled with permanent embank-ments during the present summer. About one hundred miles of main track have been re-ballasted with either broken stone or clean gravel.

Six hundred and eight thousand seven hundred and eighty-six new ties have been used in renewal.

During the year four thousand eight hundred tons of sev-enty-five pound steel have been laid in place of sixty-pound steel in the main line, and the sixty-pound steel, which shows but little wear, has been re-laid on branch lines, where the traffic lighter traffic is lighter.

The embankments along the streams in the mountain por-

At a point west of the Columbia River, in the State of Washington, where the high water of last spring overflowed the track, the line has been changed so as to avoid any possi-bility of further trouble from such cause.

The improvement of the yards in Minneapolis, mentioned in last report, has been completed, and the Company is now, by contract with the city, released from further construction of street or highway bridges in the city. During the year the equipment has been increased as fol-

lows: 15 locomotives, 18 coaches, 6 sleepers, 12 baggage and ex-press cars. 8 postal cars, 6 dining cars, 8 buffet smokers, 173 flat cars, 66 ballast cars, 4 plow cars, 604 furniture cars. The Company has now a full equipment of engines, passen-ger and freight cars, all in good order, and no immediate need for increasing it. With the completion of its line to the Pacific Coast, the Company has no further extensions in view, and its efforts will now be turned to the development of its local business on all its lines. all its lines.

all its lines. Early in June the Northern Steamship Company's new pas-senger steamer, "North West," was put into service between Buffalo and Duluth, and continued during the passenger sea-son to make regular weekly trips. Her performance as a passenger ship placed her ahead of anything heretofore built for use on fresh water, and it may be said that she has no superior—if any equal—of her class on any water in the world. Her sister ship is well advanced, and will be ready to take her place upon the beginning of the passenger season next summer. next summer.

It is fully expected that these ships will, in addition to their own earnings, greatly aid the passenger business of the Rail-

own earnings, greatly aid the passenger business of the Rail-way Company. During the year \$60,000 of the St. Paul Minneapolis & Manitoba Railway Company's First Mortgage 7 per cent Land Grant Bonds were exchanged for the Consolidated Mortgage 4½ per cent bonds of that company, and, by the operation of the First Mortgage Sinking Fund, an additional amount of \$401,300 of the First Mortgage Bonds were redeemed and can-celed, thereby reducing the interest to be paid by this Com-pany as rental under the lease \$29,591 per annum. LAMES 1 HILL.

JAMES J. HILL, President.

LAND COMMISSIONER'S REPORT.

James J. Hill, Esq., President.

DEAR SIR-I herewith respectfully submit the following report regarding the *Minneapolis & St. Cloud Land Grant* for the fiscal year ending June 30, 1894:

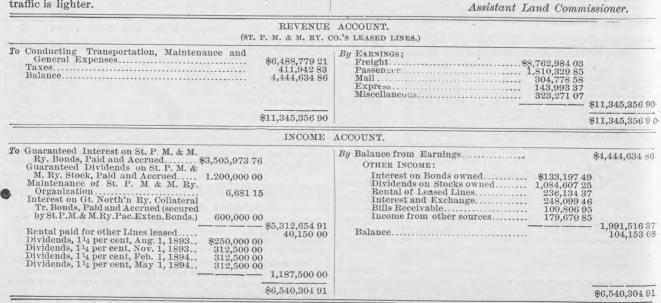

Amount of Grant, Hinckley Branch Amount of Grant, Willmar Branch	425,664.00 51,200.00	A.cres.
Total acreage selected to date Total acreage deeded to company	164,836·47 135,732·96	476,864.00
Total acreage sold prior to June 30, 1894 Value of same	8136.205 60	62,172 [.] 25

Remaining unsold June 30, 1894..... 414,691.75

During the year ending June 30, 1894, 1,587.88 acres were sold for \$7,661 99, an average price of \$4 82 per acre. The dis-bursements of the Land Department for the year were

\$7,642 24. Amount of deferred payments due company, \$23,071 07, bearing interest at six and seven per cent.

MINNEAPOLIS & ST. LOUIS RAILROAD.

FIRST CONSOLIDATED MORTGAGE DATED NOV. 2, 1894, SECURING \$10,000,000 OF 5 PER CENT GOLD BONDS MATURING NOV. 1, 1934.

PARTIES

The MINNEAPOLIS & ST. LOUIS RR. COMPANY of Minnesota, party of the first part, and the CENTRAL TRUST COMPANY OF NEW YORK, party of the second part.

PREAMBLE.

PREAMBLE. Whereas, said railroad company is a corporation reorgan-ized under the statutes of Minnesota as the successor by purchase under proceedings for the foreclosure of the im-provement and equipment mortgage ex-cuted in 1882 by the Minneapolis & St. Louis Railway Company, organized pur-suant to the laws of Minnesota and Iowa, and is the successor to the rights, immunities, franchises, privileges, exemptions and property of the said Minneapolis & St. Louis Railway Company [foreclosure sale under said mortgage having taken place Oct. 11, 1894]; and Whereas, the said railroad company has acquired said property subject to the lien of certain mortgages upon the same or portions thereof, and it is necessary for the railroad company to raise moneys for the purpose of discharging its obligations incurred in said purchase of said property and in providing for the payment of the amounts due upon the bonds secured by the mortgage so foreclosed, and for the purpose of making improvements and additions to said prop-erty, and for providing for the payment of bonds heretofore

purpose of making improvements and additions to said prop-erty, and for providing for the payment of bonds heretofore issued, and for providing for the payment of interest upon said bonds now due and unpaid, and for retiring as they shall become due the bonds secured by such mortgages not yet due and hereinafter more particularly described; and *Whereas*, the railroad company has heretofore by its Board of Directors duly resolved to exercise its borrowing power by the issue and sale of its corporate bonds to the amount of ten million dollars, par value of principal, each of said bonds to be in the form or substantially the form following: following:

THE BOND.

UNITED STATES OF AMERICA.'

STATES OF MINNESOTA AND IOWA. THE MINNEAPOLIS & ST. LOUIS RAILROAD COMPANY. First Consolidated Mortgage Gold Bond. NO.

\$1.000.

\$1,000. No. \$1,000. Know all men by these presents. That The Minneapolis' & St. Louis Railroad Company, for value received, promises to pay to the bearer, cr, if registered, to the registered owner hereof, the sum of one thou-sand dollars, in gold coin of the United States of the present standard of weight and fineness, on the first day of November, in the year one thousand nine hundred and 'thirty-four, at the office or agency of the Railroad Company in the City of New York, with interest at the rate of five per cent per annum from November 1, 1894, payable semi-annually at said office or agency in like gold coin on the 1st days of May and November in each year, upon surrender of annexed coupons therefor, as they severally mature; or where this bond is registered and the coupons appertaining thereto canceled, to the recistered owner hereof, on demand. The principal and interest of this bond are payable without deduc-tion for any tax or taxes which the Railroad Company may be required to pay or retain therefrom, under or by reason of any present or future law; the Railroad Company hereby agreeing to pay all such tax or taxes. This bond is one of the first consolidated mortgage gold bonds of said Railroad Company, amounting in the aggregate to ten million dollars of principal, issued and to be issued in pursuance of and sub-ject to the terms of the mortgage or deed of trust hereinafter referred to. Bonds of this issue to the amount of four million seven hundred and

Bonds of this issue to the amount of four million seven hundred and eighten thousand dollars, par value of principal, are reserved by the Trustee under the mortgage for the sole purpose of taking up, exchanging or providing for the payment of bonds secured by prior mortgages, as provided in said mortgage or deed of trust. All of said bonds are equally secured by the First Consolidated Mort-gage deed dated November 2, 1894, executed by said Railroad Com-Pany to the Central Trust Company of New York, as Trustee, to which reference is hereby made for a description of the property and fran-chises mortgaged, and the nature and extent of the security, and the rights of the holders of said bonds under the same, and the terms and Gonditions upon which said bonds are issued and secured.

This bond may at any time, upon production thereof to the said Rail-road Company, and proper endorsement being made thereon, and either with or without the surrender to said Railroad Company for can-cellation of all unpaid coupons appertaining thereto, be registered upon the books of the Railroad Company in the name of the holder thereof, and thereupon its transferability by delivery shall cease, and thereafter it can be transferred only by the registered owner or his attorney by a transfer daly made upon said books. This bond shall not become obligatory for any purpose until it shall have been authenticated by the certificate, hereon endorsed, of the trustee under said mortgage or deed of trust. After six months' default in the payment of any semi-annual instal-ment of interest thereon, the principal of all the bonds secured by said as preseribed therein. In witness whereof, the said Railroad Company has caused these presents to be signed by its President or one of its. Vice Presidents, and its corporate seal to be hereunto affixed and attested by its Secre-tary, and coupons for said interest, with the engraved signature of its treasurer, to be attached hereunto, this 2d day of November, 1894. THE MINYEAPOLIS & ST. LOUIS RALLROAD COMPANY,

THE MINNEAPOLIS & ST. LOUIS RAILROAD COMPANY, Bv

President.

Attest:

\$1.000.

Secretary.

FORM OF INTEREST COUPON. On the 1st day of The Minneapolis & St. Louis Railroad Company will pay to bearer, at its agency in the City of New York, twenty-five dollars, in gold coin, free from all taxes, being six months' interest then due on its first consolidated mortgage gold bond No.

Treasurer.

FORM OF TRUSTEE'S CERTIFICATE.

This bond is one of the series of bonds described in the within-men-tioned mortgage or deed of trust executed by The Minneapolis & St. Louis Railroad Company to the undersigned as Trustee, dated Novem-ber 2, 1894.

CENTRAL TRUST COMPANY OF NEW YORK, Trustee, Bv

Vice-President.

Whereas, The said coupons are to be issued with the engraved signature of the Treasurer of the railroad company, it being however agreed by it that, when thus issued, such engraved signature shall be as binding as if the signature of the Treasurer were affixed to such coupon in his own proper handwriting :

PROPERTY CONVEYED AS SECURITY.

PROPERTY CONVEYED AS SECURITY. Now, therefore, this Indenture witnesseth, That the said railroad company, in consideration of the premises, etc., and for the purpose of securing the payment of such bonds, with the interest to accrue thereon, according to the true intent and meaning thereof, doth by these presents grant, convey, etc., unto the Trustee and its successors and assigns forever, all the railways, equipment, property, rights, franchises, premises, privileges and immunities now owned by the rail-road company, the said railways now owned, constructed and in operation by the railroad company, together with the other property, real, personal and mixed, intended by these presents to be transferred and conveyed, being more particu-larly described as follows : EQUIPMENT.

said bonds solely for the protection of the holders of all bonds outstanding under this mortgage, shall be entitled to all the remedies granted by the terms of the mortgage under which the bonds exchanged shall have been respectively issued. REMAINING \$5,282,000 TO BE DELIVERED ON REQUEST OF RAILROAD COMPANY.

The trustee shall, from time to time, upon the request of the railroad company deliver to said railroad company the re-mainder of the bonds secured hereby, amounting to the aggregate principal sum of \$5,282,000.

COMPANY COVENANTS TO PAY TAXES, ETC.

FOURTH.—The railroad company covenants [from time to time to pay all taxes, assessments and Government charges lawfully imposed upon said mortgaged premises, the lien whereof might be held to be prior to the lien of these presents. RELEASE OF PROPERTY FROM LIEN HEREOF, ETC.

RELEASE OF PROPERTY FROM LIEN HEREOF, ETC. FIFTH. — Until default of principal or interest the trustee may upon written request fully release from the lien of this mortgage, any property, rights or franchises of any descrip-tion which in its judgment, or in the opinion of any expert selected by it, shall not be necessary for use in connection with said railways, and to consent to such changes in the location of tracks, depots, stations and other buildings as in its or his judgment may be expedient. But any property which may be acquired for permanent use in substitution for any so released shall thereupon become subject to the lien of this mortgage, and upon request by the trustee shall be conveyed to it upon the trusts of these presents. All pro-ceeds of sale of any property so released, where there is no replacement, shall be paid over to the trustee, and shall either be invested in such securities as the trustee may approve, to be held for the further security of the bonds secured hereby, or applied to the purchase and cancellation of bonds of the issue hereby secured, at not more than par and accrued interest. Any interest which may be collected by the trustee upon any investment made as aforesaid shall, which is no default in the newment of a principal or there is no replaced in the part of the principal or the secured hereby. by the trustee upon any investment made as aforesaid shall, while there is no default in the payment of principal or interest of the bonds hereby secured, be paid over to the

railroad company. SIXTH. The said bonds and stock certificates of the Minne-sota Transfer Company shall be duly assigned to the trustee, and so long as there shall be no default in payment of the principal or interest of any of the bonds secured hereby, all interest or dividends thereon shall be paid over by the trustee to the party of the first part, its successors or assigns. Upon default in respect of any covenant herein, the voting pow-er upon all such stock shall be exercised by the trustee in its discretion discretion.

DEFAULT FOR SIX MONTHS-TRUSTEE WHEN REQUESTED BY A MAJORITY OF THE BONDS SHALL TAKE POS-SESSION OF PROPERTY.

BY A MAJORITY OF THE BONDS SHALL TAKE POS-SESSION OF PROPERTY. SSVENTH. In case of default for six months in the payment of the principal or interest of any of the bonds hereby se-cured, or in the performance of any other covenant herein contained, after notice from the trustee requiring the per-formance thereof, then and i - that case said trustee may, and upon request in writing of holders'of a majority in amount of the said bonds then outstanding shall enter into and take posses-sion of all and singular the premises, estates, franchises, rights, privileges and property hereby granted or intended so to be, and operate the same. And the trustee shall thereafter make from time to time all such repairs or replacements as it may deem judicious, and all such useful alterations, additions and improvements as the income of the property shall be ap-plied to the proper expenses of operating and to the payment of taxes, assessments, charges, rentals, or such liens superior to the lien of these presents upon said premises as the trustee may deem proper, and all necessary and proper repairs, etc., and next to the payment of the interest and principal of the said bonds, according to the tenor and effect thereof, as the same may be or become due and payable. In case the princisame may be or become due and payable. In case the princi-pal shall not have become due, the moneys applicable to the payment of interest shall be applied upon the coupons remain-ing in default, in the order of their maturity; in case the said able to the payment of the principal and interest of such bonds shall be applied to the payment of such principal and interest pro rata, without any preference or priority whatsoever.

DEFAULT FOR SIX MONTHS-MAJORITY OF BONDS MAY REQUIRE TRUSTEE TO DECLARE PRINCIPAL DUE.

REQUIRE TRUSTEE TO DECLARE PRINCIPAL DUE. EIGHTH. In case of default for six months in the payment of any semi-annual instalment of interest, the trustee may, at its option, and, upon request in writing from holders of a majority in amount of the said bonds then outstanding, shall declare the principal of all of the bonds to be immediately due and payable. Such declaration may be made by notice in writing to the railroad company, or by publication thereof in some daily newspaper published in the city of New York. In the event of a sale of the mortgaged premises either under the power of sale hereinafter granted, or under judicial proceedings, the entire principal of all of said bonds shall be immediately due and payable without any further act or acts of the trustee or any bondholder.

DEFAULT FOR SIX MONTHS-MAJORITY OF BONDS MAY RE-QUIRE FORECLOSURE SALE.

NINTH. In case of default for six months in the payment of principal or interest or in the performance of any other

covenant herein contained, after notice, as aforesaid, the trustee may, and upon request in writing from holders of a majority in amount of the said bonds then outstanding, shall, cause the whole of the said premises, estates, franchises, rights, privileges and property hereby granted and conveyed with their appurtenances, and all benefit and equity of redemption, to be sold at public auction in the City of Minne-apolis. Minn., after publishing notice of proposed sale at least once in each week for six weeks in newspapers published in the cities of New York and Minneapolis.

once in each week for six weeks in newspapers published in the cities of New York and Minneapolis. Out of the proceeds of such sale, or of sale under judicial proceedings or otherwise the trustee shall in the first place pay the costs attending such sale, and all counsel fees and expenses incurred in the management of the prem-ises, &c., and shall apply the residue of the proceeds as may be necessary to the payment of the principal and interest which shall then be owing and unpaid upon the bonds secured which shall then be owing and unpaid upon the bonds secured hereby, or any of them, ratably in proportion to the amounts owing upon them respectively, and without discrimination as between principal and interest, and without preference of the

between principal and interest, and without preference of the holder of any one bond or coupon over any of the others. It is expressly provided, however, that at any time prior to a sale of the mortgaged premises, the holders of a *majority* in amount of all the bonds secured by this mortgage at the time outstanding shall have power, by instruments in writing, to direct the trustee to waive any default hereunder (except in the payment of the principal of said bonds or of any of them uses the maturing the dimensional states of the same super the same states of the same super the same states of th upon the maturity thereof), and to discontinue any suit for the sale of the mortgaged premises, upon such terms as may be directed by the said majority in said instruments.

JUDICIAL PROCEEDINGS IN CASE OF DEFAULT.

TENTH. The provisions for entry and sale herein contained are cumulative only, and upon default as aforesaid the trustee upon the happening of such event or events shall be entitled, in its discretion, to proceed in any court of competent juris-diction, to foreclose this mortgage or enforce the rights of the trustee and the bondholders hereunder; and to have the prem-iner sold by judicial sale under the decree of court for trustee and the bonnoiders hereunder; and to have the prem-ises sold by judicial sale under the decree of court for the satisfaction of the principal and interest due or owing upon the then outstanding bonds. In case of judicial sale, the net proceeds thereof shall be distributable as hereinbefore provided in repect of sale under the power hereinbefore con-tained; and all the provisions in this indenture with reference to a sale of such mortgaged premises if sold under soid power to a sale of such mortgaged premises if sold under said power of sale, shall be applied as far as may be, in case of such ju-dicial sale under the decree of the court.

BONDS AND COUPONS MAY BE USED IN PAYMENT OF PUR-CHASE MONEY.

At any sale in enforcement of the mortgage lien hereby created, the purchaser shall be entitled in making settlement of the purchase money to use the bonds and coupons held by him, reckoning such bonds and coupons so used at such sum as would be payable out of the net proceeds of such sale to such purchaser as holder of such bonds and coupons for his share of such net proceeds of sale, upon due apportionment thereof.

BONDHOLDERS SHALL NOT INSTITUTE FORECLOSURE PRO-CEEDINGS UNLESS TRUSTEE REFUSES TO ACT.

ELEVENTH. No bondholder shall institute any proceeding to enforce the provisions hereof or to foreclose this mortgage until after he shall have requested the trustee, in writing, to institute such proceeding and offer proper indemnity, and such trustee shall have thereupon refused to act.

DEEDS OF FURTHER ASSURANCE.

TWELFTH. The railroad company covenants that it will at all times hereafter, upon request, deliver all such further deeds as shall be reasonably required to effectuate the intention of these presents, and to assure to the trustee the property here-inbefore described, and hereby intended to be granted, and so as to render the same, and especially such portions thereof as shall be hereafter acquired, available for the security of the said bonds.

WAIVER OF ALL REDEMPTION, STAY, APPRAISEMENT, ETC. LAWS.

THIRTEENTH. The railroad company for itself, its successors and assigns absolutely and irrevocably waives and relin-quishes the benefit of any and all valuation, stay, appraise-ment, extension or redemption law or laws now existing, or which may hereafter be passed by the States of Minnesota or Iowa, and all right of redemption which it might be entitled to under any present or future laws of the States of Minnesota or Iowa in respect of any sale of the state of Minnesota or Iowa, in respect of any sale of the said mortgaged premises, properties, rights, franchises or any part thereof which may be made; and the said railroad company covenants that it will not seek to take the benefit of any such laws.

will not seek to take the benefit of any such laws. VACANCY IN OFFICE OF TRUSTEE TO BE FILLED BY HOLD-ERS OF A MAJORITY OF BONDS. FOURTEENTH. The trustee may at any time resign the trust created hereby by giving notice of such resignation in writing to the railroad company. Any vacancy in the office of trus-tee hereunder, whether created by resignation or otherwise, may be permanently filled by the appointment of a new trus-tee or new trustees by an instrument in writing, executed un-der the hands and seals of the holders of a majority in interest of the bonds hereby secured then outstanding; but the Board of Directors of the party of the first part, or its successors, may make a temporary appointment to fill such vacancy un-til a permanent appointment shall be made in the manner above prescribed. above prescribed.

COTTON. FRIDAY NIGHT, December 28, 1894.

COMMERCIAL EPITOME.

The Commercial Times.

FRIDAY NIGHT, Dec. 28, 1894.

The general volume of business during the current week was of limited and unimportant character. At leading foreign markets extra special holidays added to those of a fixed character served as an influence to curtail demand from abroad for export commodities, and home custom has limited its attention to absolutely necessary working assortments of goods. Speculation in staple articles of merchandise has embodied very few new risks, and there was considerable liquidation of old engagements in anticipation of the close of the year. No important disturbance of values is recorded. Mild weather prevailing early in the week was followed by a sharp drop in temperature, and storms of rain, sleet and snow in the middle and northern latitudes, but no authentic reports of damage therefrom have been received except such as may arise through delays in transportation. Previous to the change in

through delays in transportation. Previous to the change in weather fall-sown grain was reported doing well; the market-ing of wheat and corn was slow, and the feeding of wheat to live stock appeared to be gradually diminishing. Lard on the spot has sold moderately well, but at a further decline in prices, selling as low as 6.95c. for prime Western. The close, however, was steadier at 7.05c.; prime City, 6½ @ 6% c.; refined for the Continent, 7.50c. The speculation in lard for future delivery at this market has been quiet, and prices have declined in response to weaker advices from the West, where packers have been selling, prompted by esti-mates of heavy receipts of swine at the primary points for the coming month. the coming month.

0	
DAILY CLOSING PRICES OF LARD FUTURES.	
Sat. Mon. Tues. Wed. Ihurs. Fri. January 7'10 Holi- Holi- 7'00 6'95 7'05	
Pork has had a slow call and prices have declined, closing at \$12 75@\$13 25 for mess, \$13 50@\$16 for short clear and \$11 50@\$12 for family. Cut meats have been quiet and with- out changes of importance, closing at 6@64/c. for pickled bel- lies, 12@10 lbs av., 5c. for pickled shoulders and $8\frac{1}{4}$ @9c. for pickled hams. Beef has been dull but steady, closing at \$7 50@\$8 for extra mess, \$8 50@\$10 for packet, \$10@\$11 50 for family and \$16@\$18 for extra India mess. Beef hams have been quiet at \$17. Tallow has been quiet and without change at $4\frac{3}{4}$ c. Lard stearine has been quoted nominally at $8\frac{3}{4}$ c. Oleo-stearine has been steady at $7\frac{3}{4}$ c. Cottonseed oil has been quiet but steady, closing at $24\frac{1}{4}$ c. for prime crude and 29c. for prime yellow. Butter has been in slow demand, but with light receipts prices have held steady, closing at $15@24c$. for creamery. Cheese has been dull and unchanged, closing at 9.@12c. for State factory full cream. Fresh eggs have advanced on light receipts, closing firm at $24\frac{3}{24}24\frac{5}{6}$, for choice Western.	1

90: @\$3 in bond.
For Straits tin the market has been dull and prices have declined, closing weak at 13:50c. Ingot copper has declined also, closing quiet at 9:85@9.95c. for Lake. Lead has been dull and unchanged, closing at 3:05c. for domestic. Spelter has been without change, closing at 3:25c, for domestic. Pig iron has been steady, closing at \$9:50@\$13 for domestic. Refined petroleum has been without change at 5:70c, in bbls., 3:20c. in bulk and 6:90c. in cases; crude in bbls. has been dull, Washington closing at 6c. in bbls. and 3:50c. in bulk; naphtha, 6c. Crude certificates have declined, closing at 94½c. asked. Spirits turpentine has been quiet and unchanged, closing at 974@2734c. Rosins have been dull but steady, closing at \$137/30140 for common to good strained. Wool has been dull but steady. Hops have been in better demand for fancy grade for export.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 309,797 bales, against 357,693 bales last week and 360,136 bales the previous week; making the total receipts since the lat of Sept., 1894, 5,096,093 bales, against 4,157,260 bales for the same period of 1893, showing an increase since Sept. 1, 1894, of 938, 938 bales.

Digitiz

In addition to above exports, our telegrams to-night also give us the following amounts of cotton on shipboard, not cleared, at the ports named. We add similar figures for New York, which are prepared for our special use by Messrs. Lambert & Barrows, Produce Exchange Building.

Speculation in cotton for future delivery at this market has again proven slow and unimportant. Operators generally appeared disposed to move with much caution, acting under an impression that during the incoming month developments of a pronounced character may be expected regarding both supply and demand. The crop movement for the week was slightly below previous average local estimates. During Saturday trading was small with unusually light fluctuations in value, finally resulting in 1 point net gain. On Monday and Tuesday the Exchange was closed, and on Wednesday the Liverpool market observed an extra special Christmas holiday, but busi-ness was resumed here with some covering demand and a slight buoyancy on values, which gave temporary advance of 6 points, but half the improvement was subsequently lost, with apparently an easy feeling at the close. Yesterday business was taken up again at Liverpool upon a somewhat firmer basis than had been expected, which, together, with light notices of contemplated delivery on January contracts, and apparent shrinking tendency of receipts, led to a covering demand, and stimulated an advance of 5@6 points. To day the opening was about 5 points better, but afterward eased off under in-creased offerings against cotton bought at the South. Cotton on the spot is dull at 5 11-16c. for middling uplands. The total sales for forward delivery for the week are 331,500 bales. For immediate delivery the total sales foot up this week 385 bales, including — for export, 185 for consumption — for speculation and 200 on contract. The following ar the official quotations for each day of the past week— December 23 to December 28. Rates on and off middling, as established Nov. 22, 1893, wy the Bargison Committee at which credue there. market observed an extra special Christmas holiday, but busi

Rates on and off middling, as established Nov. 22, 1893, by the Revision Committee, at which grades other than middling may be delivered on contract:

Fair	14	or
Middling Fair.	78	or
Strict Good Middling	12	OI
Good Middling	516	or
Strict Low Middling	316	of
Low Middling	716 1316	of
Strict Good Ordinary	1316	of

indicates the actual movement each week from the plantations. The figures do not include overland receipts nor Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the mealton the parts of the crop which finally reaches the market through the outports.

Week	Receipts at the Ports.	St'k at Interior Towns.	Rec'pts from Plant'ns,
Ending-	1892. 1893. 1894.	1892 1898 1994	1001 0001 0001 0001

Last year the receipts from the plantations for the week were 266,411 bales and for 1892 they were 176,445 bales. 176,445 bales.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1. OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.-We give below a statement showing the overland movement for the week and since September 1. As the returns reach us by telegraph late Friday night it is impossible to enter so largely into detail as in our regular monthly report, but all the principal matters of interest are given. This weekly publication is of course supplementary to the more extended monthly statements. The results for the week ending Dec. 28 and since Sept. 1 in the last two years are as follows:

	1	894.	18	93.
December 28.	Week.	Since Sept. 1.	Week.	Since Sept. 1.
Shipped— Via St. Louis Via Cairo. Via Hamibal Via Evansville Via Louisville Via Cincinnati Via other routes, &c	32,226 10,107 9,278 7,269 4,387	210,157 545 1.487	$11,663 \\ 1,799 \\ 428 \\ 5,084 \\ 5,765$	374,947 144,137 12,644 5,895 59,449 63,738 67,967

THE CHRONICLE.

WEATHER REPORTS BY TELEGRAPH.-Our telegraphic advices from the South to-night indicate that the temperature has been lower in a number of localities the past week, with snow at some points in Arkansas, Tennessee and Alabama. Aside from this the weather has as a rule been favorable for the marketing of the crop.

Galveston, Texas .- We have had rain on one day of the week to the extent of thirty-seven hundredths of an inch.

Palestine, Texas .- We have had rain on one day of the week, the rainfall reaching three inches and thirteen hundredths.

dredths. Huntsville, Texas.—Rain has fallen on two days of the week to the extent of one inch and thirteen hundredths. Dallas, Texas.—Weather has been generally favorable during the week. It has been dry all the week. San Antonio, Texas.—We had rain on three days of the week, the rainfall being one inch and thirty-six hundredths. Luling, Texas.—It has rained on two days of the week, the precipitation reaching twenty hundredths of an inch. Columbia, Texas.—There has been rain on three days during the week, to the extent of seventy-two hundredths of an inch. Cuero, Texas.—There has been rain on two days of the week, the precipitation reaching ninety-five hundredths of an inch.

an inch. Brenham, Texas.—It has rained on two days of the week, the rainfall reaching two hundred the of a ninch. Belton, Texas.—There has been no rain during the week. Fort Worth, Texas.—We have had rain on one day of the

week. the precipitation reaching twenty-five hundredths of an inch

Weatherford, Texas.—The week's rainfall has been fifty-seven hundredths of an inch on one day. New Orleans, Louisiana.—We have had rain on one day of the week, the rainfall reaching sixty-six hundredths of an

the week, the raintan reacting staty-six induced is of an inch. The thermometer has averaged 57. Shreveport, Louisiana.—There has been rain on one day during the week, the precipitation being five hundredths of an inch. The thermometer has averaged 53, ranging from 27 to 75

Columbus, Mississippi. — We have had rain on one day dur-ing the week, the rainfall being nineteen hundredths of an inch. The thermometer has ranged from 10 to 74, averaging 48. Leland, Mississippi. — There has been rain on one day dur-ing the week the preprint procedure tweether with

ing the week, the precipitation reaching twenty-eight hundredths of an inch. Average thermometer 49.4, highest 86 and lowest 20.

Little Rock, Arkansas.-There has been rain on two days

Little Rock, Arkansas.—There has been rain on two days during the past week, the rainfall reaching twenty-one hun-dredths of an inch. Snow has also fallen. The thermometer has averaged 46, ranging from 21 to 70. Helena, Arkansas.—We have had light rain on four days during the week, accompanied by snow on two days, the rainfall reaching fifty-one hundredths of an inch. The ther-mometer has ranged from 8 to 66, averaging 42.6. Memphis, Tennessee.—Rain fell on Tuesday and we had snow on Wednesday, the rainfall, including melted snow, being eighty-four hundredths of an inch. Average thermom-eter 44.2, highest 68.3, lowest 21.1. Nashville, Tennessee.—The week's rainfall has been ninety-one hundredths of an inch on two days. The thermometer has averaged 39, the highest being 63 and the lowest 18. Mobile, Alabama.—Freezing weather to-day. We have had rain on one day of the week, to the extent of eighty-eight hun-dredths of an inch. The thermometer has averaged 53, rang-

dredths of an inch. The thermometer has averaged 53, ranging from 29 to 69.

Montgomery, Alabama.—We have had rain on one day of the week, the precipitation reaching eighty-one hundredths of an inch. The thermometer has ranged from 40 to 63, averag-

ing 52. Selma, Alabama.—There has been a rainfall of sixty-two hundredths of an inch on two days of the week. Light snow on Thursday night. Average thermometer 43, highest 71 and

Madison, Florida. —There has been rain on one day of the week, the precipitation being seventy-eight hundredths of an inch. The thermometer has averaged 57, the highest being 73 and the lowest 25.

Columbus, Georgia.—There has been rain on two days of the week to the extent of seventy hundredths of an inch. The thermometer has averaged 46, ranging from 26 to 56. Savannah, Georgia.—Rain has fallen on two days of the week to the extent of nineteen hundredths of an inch. The thermometer has repred from 29 to 71 correction 54.

thermometer has ranged from 32 to 71, averaging 54. Augusta, Georgia.—We have had rain on two days of the week, the rainfall reaching sixty-six hundredths of an inch. The week closes very cold. Average thermometer 49, highest 69, lowest 31.

Charleston, South Carolina.-We have had rain on one day Charleston, South Carolina.—we have had rain on one day during the week, the precipitation being twenty-eight hun-dredths of an inch. The thermometer has averaged 53, the highest being 69 and the lowest 32. Stateburg, South Carolina.—We have had rain on one day of the week, the precipitation reaching sixty-five hundredths of an inch. The thermometer has averaged 50, ranging from 34 to 66

ranging from 34 to 66. Wilson, North Carolina.—Rain has fallen on two days of the week, to the extent of seventy hundredths of an inch. The thermometer has averaged 43, highest 64, lowest 30. The following statement we have also received by telegraph,

showing the height of the rivers at the points named at 8 o'clock December 27, 1894, and December 28, 1893.

Total 1893.	24		24	18.924	2.832	21.757	1.502	11.593

A considerable portion of the Sea Island cotton shipped to foreign ports goes via New York, and some small amounts via Boston and Baltimore. Instead of including this cotton for the week in which it leaves the Southern outports, we follow the week in which it leaves the Southern outports, we follow the same plan as in our regular table of including it when actually exported from New York, &c. The details of the shipments of Sea Island cotton for the week will be found under the head "Shipping News," on a subsequent page. Quotations Dec. 28 at Savannah, for Floridas, common, 8½c.; medium fine, 11c.; choice, 14½c. Charleston, Carolinas, m-dium fine, 17c. to 18c.; fine, 22c. to 24c.; extra fine, 28c. to 35c.

COTTON CROP OF 1893 94 APPORTIONED TO STATES .-We publish to-day our usual table showing the cotton production of each State for the crop year ending with September 1, 1894 As we have heretofore remarked, this division among the States is not claimed to be accurate, but every effort has been made to get as near to the true result as possible, and the fig-ures are judged to be approximately correct. Of course, ures are judged to be approximately correct. Of course, nothing but an actual census can divide production accurately between the States. The subjoined compilation covers our estimates for the past four seasons, and for purposes of com-parison the results disclosed by the last Census are also ap-pended. The Census figures, it should be remembered, cover the actual production of the year, whereas the commercial crop embraces the amount marketed through the ports, in-terior towns and rail overland and Southern mill consumption during the season. during the season.

JUTE BUTTS, BAGGING, &C. —Business in jute bagging has been very quiet during the past week, but quotations have ruled fairly steady, the close to-night being at $5\frac{1}{4}$ c. for $1\frac{3}{4}$ lbs., $5\frac{3}{4}$ c. for 2 lbs. and $6\frac{1}{4}$ c. for standard grades in a jobbing way. Car-load lots of standard brands are quoted at $5\frac{1}{4}$ c. for $1\frac{3}{4}$ lbs., 6c. for 2 lbs., $6\frac{1}{2}$ c. for $2\frac{1}{4}$ lbs., f. o. b. at New York. Jute butts have been dull at $1\frac{3}{8}$ c. on the spot.

EGYPTIAN COTTON CROP.-The following report on the cotton crop in Egypt was issued by the Alexandria General Produce Association under date of November 30:

Troutice Association under date of November 30: The cool weather and the rains of November did harm to the cotton plants. This inclemency partially i jured the second picking and greatly damaged the third. Moreover the fogs in October did more harm than was at first supposed. The crop has therefore suffered. It will be inferior to previous forecasts, inct only as regards quality but also as regards quantity. On the other hand, the acreage being greater this year, an increase of production must be taken into account. This increase compensates in some measure for the deficit in the crop, and permits us still to hope that the ultimate result will amount to about 5,000,000 cantars.

SHIPPING NEWS.—The exports of cotton from the United States the past week, as per *latest mail* returns, have reached 301,066 bales.

Below we give all news received to date of disasters to vessels carrying cotton from United States ports, &c.:

Vessels carrying cotton from United States ports, &c.: AvonA, steamer (Br.) at Galveston, loading for Liverpool. Fire occurred, Dec. 23, in holds No. 3 and 4 of steamer Avona. The holds contained 3,000 bales of cotton, and underwriters estimate damage at \$40,00³. The fire was got under control the following morning, and breaking out of cargo immediately begun. The origin of the fire is a mystery, as the hatches were battened down and no work has been done in the holds since the previous day. About 2,000 bales were burnt and 1,00³ bales damaged by water. The vessel is re loading for Havre. Fire

BREADSTUFFS.

FRIDAY, December 28, 1894.

The market for wheat flour has continued dull and uninter_ esting. Buyers have given very little attention to the situation, but as the supplies here and on the way are small and the output from the mills has been light, prices have been steadily maintained. Rye flour has been dull but steady. Buckwheat flour has been quiet and without change. Corn meal has sold slowly but prices have held steady. To-day the market for wheat flour was dull and unchanged.

The trading in the market for wheat futures has been quiet, but prices made fractional advances on buying by a few "shorts" to cover contracts, stimulat d by a decided shrinkage in the movement of the crop at the Northwest, stronger foreign advices and reports that the yield of the Argentine crop will be considerably below last year's. Toward the close of 'Change yesterday, however, selling by prominent traders of Change yesterday, however, selling by prominent traders caused a decline. In the spot market shippers have been lim-ited buyers at steady prices. The sales yesterday included No. 2 red winter at $\frac{1}{4}$ c. under May delivered and No. 1 hard Manitoba at $7\frac{1}{4}$ @75%c. over May f. o. b. afloat. To-day the market was weaker in response to easier foreign advices. The spot market has been quiet but steady. The sales in-cluded No. 2 red winter at $\frac{1}{6}$ c. under May f. o. b. afloat.

Immediately after our last issue prices for Indian corn fu-tures declined slightly under expectations of an increase in the crop movement in consequence of the colder weather at the West, but subsequently buying by "shorts" to cover contracts caused what loss there was to be recovered. The spot market has been quiet but about steady. The sales yesterday included steamer mixed at $49\frac{1}{2}$ c. in elevator, $50\frac{1}{2}$ c. delivered and $51\frac{1}{4}$

(251½c. f. o. b. afloat; No. 3 mixed at 48½c. in elevator and steamer white at 49c. in elevator. To-day the market was dull and easier with wheat. The spot market was quiet and unchanged. THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., December 28, 1894.

The Christmas holiday broke up this week's business in all departments and from first to last but a poor attendance of buyers was to be noticed. Few salesmen are now on the road and the mail contributions to the demand were light also. Buyers have been more intent on stock-taking than on making new purchases, especially after the large obligations so many of them contracted at last week's auction sale. The projected advance in freight rates to Western points has been abandoned by the trunk lines and this has removed so mething of an incentive to further purchases before the end of the y-ar. The market for staple cottons is still in a more or less disorganized The market for staple cottons is still in a more or less disorganized condition, sellers not having thoroughly accommodated them-selves yet to new price bases, at least openly, the only changes of any account given out so far b-ing in wide sheet-ings, which are down on an average 10 per cent from the level prevailing before the auction sale. Buyers when ready to do business in volume will probably find the majority of staples affected to like extent, and the early weeks of the new year will be unusually interesting in disclosing how far they appreciate the lower level. There has been nothing of inter-est in other cotton goods departments, nor has the week's business brought to light any new material features in the woolen goods divisions. woolen goods divisions.

WOOLEN GOODS.—The demand for supplementary supplies of spring weights has been indifferent during the past week in all grades of men's-wear woolens and worsteds and without particular feature, heavy-weights for present season also being in light request. New heavy:weights for fall of 1895 have had few additional lines opened, and in such as have been shown business has been irregular, an occasional popular staple or low-priced fancy cheviot selling fairly, with others practically neglected. Prices show an irregular basis. The general run of new lines will hardly be on the market much before the middle of next month, and the prices of these may general run of new lines will hardly be on the market much before the middle of next month, and the prices of these may be subject to developments on the part of foreign houses under the new duties becoming effective on January 1. In overcoatings new lines of low-grade meltons, beavers, Kerseys and chinchillas have sold fairly, but high-grade goods not yet shown to any extent. Cloakings are inactive throughout, as are cotton-warp cassimeres, satinets and doeskin jeans. Woolen and worsted dress goods in quiet request; low-priced Henriettas, cashmeres and serges are oc-casionally 5 per cent higher. Flannels, blankets and carpets featureless. featureless

FOREIGN DRY GOODS.—The chief interest in this division is centred in the woolen and worsted goods departments which come under the lower range of duties on Tuesday next; pend-ing this little business is doing. In other directions the mar-ket has been decidedly quiet so far as new orders are con-cerned, but good deliveries have been made on old ones.

Importations and Warehouse Withdrawals of Dry Goods, The importations and warehouse withdrawals of dry goods at this port for the week ending December 27, and since January 1, 1894, and for the corresponding periods of last

FOR

THE CHRONICLE.

STATE AND CITY DEPARTMENT.

TERMS OF SUBSCRIPTION.

Commercial and Financial CHRONICLE contains 40 to 64 pages, published every week.

State and City Supplement of CHRONICLE contains 180 pages, published periodically.

Investors' Supplement of CHRONICLE (a Cyclopædia of Railroad Securities) contains 160 pages, published every other month.

Subscription to CHRONICLE for one year \$10.00, which includes every issue of both SUPPLEMENTS.

The purpose of this State and City Department is to furnish our subscribers with a weekly addition to and continuation of the STATE AND CITY SUPPLEMENT. In other words, with the new facts we shall give, the amplifications and corrections we shall publish, and the municipal laws we shall analyze in the "State and City Department," we expect to bring down weekly the information contained in the STATE AND CITY SUPPLEMENT to as near the current date as possible. Hence if every Subscriber will note in his SUPPLE-MENT on the page designated at the head of each item a reference to the page where the item in the CHRONICLE can be found, he will at all times possess a complete and fresh cyclopædia of information respecting Municipal Debts.

Connecticut State Treasurer's Report.-The report of State Treasurer Marvin H. Sanger for the year ending September 30, 1894, has just been made public. It shows that the receipts for the twelve months covered were \$1,912,138, the principal items of which are given as follows: Tax on telegraph and telephone companies, \$10,910; military commutation tax, \$137,223; tax on savings banks, \$309,792; tax on mutual insurance companies, \$262,452; tax on non-resident stocks, \$91,182; national aid to State homes, \$21,600; tax on express companies, \$9,839; tax on railroads, \$766,430; Commi-sioner of Insurance, \$62,115; tax on investments, \$56,003; collateral inheritance tax, \$74,179; interest, \$37,469. The total payments were \$2,027,122, and included: civil list orders, \$1,564,194; registered orders, \$354,902; interest on State bonds, \$104,700. The balance in Treasury Oct. 1 was \$733,412. The funded debt of the State is \$3,240,200, making the net debt \$3,501,781. One million and a-half dollars of the bonds bear 31/2 per cent interest and \$1,740,000 bear 3 per cent.

Philadelphia, Pa.-The Philadelphia Ledger reports that the amount of interest due January 1st on the city's debt is \$1,416,391, of which \$503,264 goes into the sinking fund. The principal of the debt on which interest is disbursed is \$52,-790,600. The amount of city debt falling due on January 1 is \$6,503,300, of which \$6,103,300 are untaxed 63 and \$400,000 4s. Of this maturing debt the sinking fund now holds \$2,609,250. The aggregate city debt of all issues outstanding after Jan-uary 1 will be \$53,607,300. There are \$5,400,000 of new city bonds authorized which have not yet been issued.

Bond Proposals and Negotiations.--We have reseived through the week the following notices of bonds recently negotiated and bonds offered and to be offered for sale.

Allegheny, Pa. -(CHRONICLE, vol. 58, pages 649, 691, 744, 786 and 1(81, and vol. 59, pages 37, 889 and 935) -High School bonds of Allegheny to the amount of \$31,000 will soon be issued.

Atlanta, Ga.—An election will be held at Atlanta to vote on issuing \$150,000 of 4½ per cent bonds for the erection of a new jail. The loan will become due at the rate of \$15,000 yearly in from 20 to 30 years from date.

Belmont, Mass.—Sewer bonds of this town to the amount of \$27,000 have been voted.

Boston, Mass.-(CHRONICLE, vol. 58, page 914, and vol. 59, pages 59, 383, 709 and 750).-Proposals will be received until January 2, 1895, by Alfred T. Turner, City Treasurer, for the purchase of \$1,000,000 4 per cent public park loans. The se-curities will be dated January 2, 1895, interest will be pay-

able semi-annually on January 2 and July 2 at the office of the City Treasurer, and the principal will mature January 2, 1925. The securities will be issued in the form of registered certificates, and holders, if so desired, receive their semi-annual interest through the mail by check payable to their order.

order. Brooklyn, N. Y.—(CHRONICLE, vol. 58, pages 565, 891, 744, 786, 787, 831, 876, 953, 1045 and 1118, and vol. 59, pages 84, 200, 384, 436, 616, 709, 845, 935 and 1024)—A request has been made by one of the Brooklyn Water Commissioners for an issuance of bonds not to exceed \$1,250,000 in amount, for a conduit and force mains to take the water from the new works, which are now approaching completion.

works, which are now approaching completion. **Cincinnati, Ohio.**—(CHRONICLE, vol. 53, pages 1045 and 1118, and vol. 59, pages 163, 299, 571, 935 and 1116.)—The Cin-cinnati Board of Administration has passed a resolution lim-iting the maximum amount of deficiency bonds to be issued by that city to \$56,500. It was further resolved that in order that the Board may consiler this matter intelligently before placing the amounts realized from the sale of such bonds to the credit of the departments enumerated, that the various boards and officers having control of these departments be requested to submit, as early as possible after Dec. 31, 1894, a complete statement of actual deficiencies in each of their respective funds, giving in detail the date and character of any unpaid pay-rolls or vouchers that they may have. The amounts of the deficiencies which were submitted to the Board of Administration by the various departments were as follows; Board of Police Commissioners, "Watch Fund," \$39.326; Board of Directors of House of Refuge, "House of Refuge Fund," \$3,712 57; Board of Hospital Trustees, "Cin-cinnati Hospital Fund," \$5,916 17; or a grand total of \$56,-157 50.

157 50.

Concord, N. H.—Proposals will be received for the pur-chase of \$9,000 of 3½ per cent sewer bonds, the loan to mature in 20 years.

mature in 20 years. **Covington, Ky.**—(CHRONICLE, vol. 58, pages 744 and 1118, and vol. 59, pages 299 and 978.)—Proposals will be received until February 4, 1895, by J. T. Van Hoene, City Clerk, for the purchase of \$31,400 of 5 per cent asphalt street improve-ment bonds. The securities are dated May 18, 1893, interest is payable annually at the City Depository, and \$3.000 of the amount matures May 18, 1896, \$4.700 May 18, 1901, \$11,900 May 18, 1902, and \$11,800 May 18, 1903. Department of the city of the Legislature for

Danbury, Conn.—This city will petition the Legislature for authority to issue \$200,000 of bonds to pay off the floating indebtedness.

debtedness. Elwood. Ind.—The School Board has asked for authority to issue \$40,000 of bonds for a new school building. Enfaula, Ala.—(CHRONICLE, vol. 59, page 1069.)—Edward B. Young, City Treasurer. writes us concerning a petition recently submitted to the Legislature, asking for authority to issue bonds, that the authority has not yet been granted. The object for issuing bonds is to build sewers and water works, and to refund outstanding securities. The amount and rate per cent has not been fixed. Eulk County S. D.—On December 17, 1894, \$36,000 of 6

Faulk County, S. D.-On December 17, 1894, \$36,000 of 6 per cent refunding bonds of Faulk County were awarded to N. W. Harris & Co., of Chicago, for a premium of \$500. Farson, Leach & Co. offered a premium of \$476.

Flushing, Mich.-An election will be held in this village to vote on issuing \$20,000 of water works and electric-light bonds.

Houston, Tex. (CHRONICLE, vol. 58, page 1119, and vol. 59, page 164.)-Interest coupons on the market house bonds of Houston, Tex., will hereafter be payable at the National City Bank of New York City. Funds for the January interest payment are now in the hands of the bank.

Mayor Browne's official notice will be found among the advertisements elsewhere in this Department.

Langlade County, Wis.—Railroad aid bonds of this county to the amount of \$57,500 will probably be issued soon.

Lansing, Mich.—(CHRONICLE, vol. 58, pages 832 and 1046, and vol. 59, pages 300, 344, 384 and 1069.)—On December 18 a meeting of the School Board was held to vote on issuing \$30,-000 of 5 per cent refunding school bonds, but we are notified by James P. Edmonds, City Treasurer, that no business was done on account of the attendance being so small. Another meeting will soon be called.

Las Animas County, Col. (CHRONICLE, vol. 59, pages 1069 and 1072.)—On Dec. 22, 1894, five per cent county refunding bonds were awarded to N. W. Harris & Co. at par. Bids were asked on bonds bearing 5 or 6 per cent interest. The se-curities will be dated December 1, 1834, and will mature De-cember 1, 1914, with an obtion of call December 1, 1904. Both principal and interest will be payable at the office of the County Treasurer or the First National Bank of New York, as the purchaser may desire.

Lincoln County, Wis.—This county will issue railroad aid bonds to the amount of \$175,000.

Marlborough, Mass.—(CHRONICLE, vol. 58, pages 744 and 1003, and vol. 59, pages 344, 487 and 1116.)—Charles F. Holyoke, City Treasurer, writes the CHRONICLE that a short-time note for \$50,000 has recently been negotiated to meet current expenses.

Menominee County, Mich.-Road bonds of this county to the amount of \$25,000 have been voted.

Milwaukee, Wis. – (CHRONICLE, vol. 58, pages 877, 916, 1003, 1046 and 10*3, and vol. 59, pages 84, 126, 664, 936 and 1116.) – City Comptroller William J. Fiebrantz reports to the CHRONICLE that Milwaukee will issue and offer for sale the following bonds about the middle of January:

City Hall bonds, dated Jan. 1, '95, due July 1, 1914...\$200,000 Library and Museum bonds, """ 150,000 Water works bonds, """ 1 (0,000 Viaduct bonds, """ " 100,000

All of the above-described bonds will bear interest at 5 per cent per annum, payable semi-annually. Five per cent of the original amount of each issue will be retired annually out of the sinking fund raised for that purpose by direct tax.

of the sinking fund raised for that purpose by direct tax.
Newton, Mass.—(CHRONICLE, vol. 58, pages 917, 955 and 1048, and vol. 59, pages 126, 164, 487, 751, 891 and 936.)—It is reported that this city has sold 4 per cent 30-year coupon sewer bonds to the amount of \$100,000 to N. W. Harris & Co., at 109.075. Twelve other bids were received as follows: Lee, Higginson & Co., 109 031; R. L. Day & Co., 108.949; W. J. Hayes & Sons, 108.875; Lamprecht Bros., 108.75; G. A. Fernald & Co., 109.75; Brewster, Cobb & Estabrook, 108.64. E. P. Jose, 108.5255; Blodget, Merritt & Co., 108.478; J. W. Longstreet & Co., 107.24; E. H. Rollins & Sons, 106.7996; C. H. White & Co., N. Y., 105.50; Blake Bros. & Co., 105.31.
Norwood. Ohio.—(CHRONICLE, vol. 58, pages 877, 916, 955, 1004 and 1083, and vol. 59, pages 39, 84, 164, 202, 300, 487, 573, 617, 664, 710, 847 and 979.)—Proposals will be received until January 22, 1895, by W. E. Wichgar, Village Clerk, for the purchase of \$6,001 20 of 6 per cent Cortland Avenue in provement bonds. The securities will be held in this village to

Oakland, Neb.—An election will be held in this village to vote on issuing \$5,000 of bonds.

Oconto, Wis.-It is reported that this municipality has ecently disposed of \$10,000 of 6 per cent refunding bonds.

Opelika, Ala. – (CHRONICLE, vol. 59, page 1116) – In refer, ence to the report that \$25,000 of Opelika sewer bonds are under consideration, City Treasurer B. E'. Phillips writes us that no securities can be issued without an amendment to the city's charter.

Port Huron, Mich.—(CHRONICLE, vol. 59, pages 75, 806 and 1117).—It is reported that this city has sold \$8,000 of 5 per cent water-works bonds.

per cent water-works bonds. **Portland. Ore.**—(CHRONICLE, vol. 58, page 745, and vol. 59. pages 126, 246, 526, 664, 710 and 979.) On December 18, 1894, the city of Portland sold \$100.000 of 5 per cent water-works bonds to E. & S. Heller of San Francisco for \$111,000. The securities are dated July 1, 1893, interest is payable semi-annually on January 1 and July 1 at the office of the City Treasurer, in gold coin, and the principal will mature July 1, 1923. THE CHRONICLE.

Rockford Precinct, Garfield County, Neb.—(CHRONICLE, vol. 59, pages 751 and 1069.—T. H. Dovan, Treasurer of Gar-field County, Neb., writes the CHRONICLE in reference to \$\$,500 of bonds which are to be issued by Rockford Precinct, that a sale as yet has not been effected. Bids will be received at any time. The securities are to be issued to the Burwell Irrigation Company to aid in the construction of an irrigation canal. They are to bear interest at the rate of 7 per cent per annum, payable annually, and to mature in twenty years. The assessed valuation of all property in the precinct is re-ported at about \$100,000 and the ratio of assessed to real value at about one-seventh or one-eighth. The population of the precinct in 1890 was 647.

Shreveport, La.—City Comptroller N. B. Murff has given notice that the city will retire ten of its bonds from the ac-cumulations of the sinking funds, Proposals will be received until January 10th from holders wishing to have their bonds redeemed.

Stenbenville, Ohio.—(CHRONICLE, vol. 58, page 652, and vol. 59, pages 488, 574 and 891.)—It is reported that this city has placed \$100,000 of 4 per cent water-works bonds at par less a commission of \$3,350.

Toledo, Ohio. (CHRONICLE, vol. 58, pages 651, 746, 788, 878, 1005, 1048 and 1084, and vol. 59, pages 39, 203, 441, 526, 574, 664, 711 and 891.)—Proposals will be received until January 21, 1895, by James H. Pheatt, City Auditor, for the purchase of \$23,000 of 4¼ per cent bridge bonds, dated December 1, 1894, and running 20 years, and \$200,000 4 per cent bridge bonds, dated February 1, 1895, and running 30 years. Interest on the loans will be payable semi-annually, both principal and interest to be payable at the Importers' & Traders' National Bank, New York. Bidders will be required to state, in addi-tion to par and accrued interest, such premium as they may offer. The amount of the premium must be specified plainly in writing. The bidders will also be required to deposit with each proposal an amount of money or a certified check, "drawn without condition as to payment," on some responsible bank of the City of Toledo, equal to at least 5 per cent of the par value of the bonds bid for.

The city's general debt December 19, 1894, was \$5,900,-272 85, of which \$1,000,000 was water debt. By deducting the water debt and sinking fund investments, \$337,000, the net general debt is found to be \$4,563,372 85. The special debt on the same date was \$1,222,855 59; sinking funds, \$107,083 54; net special debt, \$1,115,772 05. The assessed valuation for 1894 of real estate is \$43,764,240; personal property, \$10,691,000; total, \$45,455,240; real valuation (estimated), \$150,000,000. According to local figures the present population is 110,000.

Troy, Ala. --(CHRONICLE, vol. 59, page 1070.)-Josiah Jerni-gan, City Clerk and Treasurer, writes the CHRONICLE that \$30,000 of bonds for improvements, etc., recently authorized by the Alabama Legislature, have been sold. The securities bear interest at the rate of 6 per cent, payable semi-annually, and run 30 years. and run 30 years.

Wells County, Ind.—(CHRONICLE, vol. 59, page 807).—Proposals will be received until January 3, 1895, by Benjamin F. Kain, County Treasurer, for the purchase of \$7,000 of Chester Center gravel road bonds maturing at the rate of \$1,500 yearly in from two to five years and \$1,000 in six years, and \$9,000 of Keystone gravel road bonds, \$3,000 to mature in two years and \$1,500 yearly thereafter. The securities will be dated January 1, 1895, interest at the rate of 6 per cent will be payable semi-annually, and both principal and interest will be payable at the American Exchange National Bank, New York City. Separate proposals must be made for each of the loans, payment to be made within ten days after the sale.

Yonkers, N. Y.-(CHRONICLE, vol. 58, pages 649, 746 and 957, and vol. 59, pages 128, 165, 241, 345, 387, 527, 636, 979 and 1069.)—The Yonkers Common Council has authorized the issuance of redemption bonds to the amount of \$20,000.
