

REPRESENTING THE INDUSTRIAL AND COMMERCIAL INTERESTS OF THE UNITED STATES. [Entered according to Act of Congress, in the year 1895, by the William B. DANA COMPANY, in the office of the Librarian of Congress.]

VOL. 60.

SATURDAY, JUNE 8, 1895.

NO. 1563.

The week's tota over 1894. The do ing off compared York the aggrega

CLEARING HOUSE RETURNS. For the month of May and the five months the exhibit is as follows: The week's total for all cities shows a gain of 15.7 per cent over 1894. The decline from 1893 is 10.9 per cent an i the falling off compared with 1892 is 16.5 per cent. Outside of New York the aggregate for the current year exhibits an excess, as compared with 1894, of 9.1 per cent, but contrasted with 1893 there is a loss of 11.4 per cent. The decrease from the 1892 figures reaches 15.3 per cent.

THE QUOTATION SUPPLEMENT.

We issue this week the second number of our Quo-TATION SUPPLEMENT, and a copy is mailed to-day to every subscriber of the CHRONICLE.

We do not desire to speak too highly of this publication, but we think all will find that the present number is better than the first. Every part of it has been revised, the railroad and miscellaneous bonds and stocks have been added to materially, and the columns of quotations are much fuller than they were. We think too we have improved the mechanical worktype, printing and paper.

THE FINANCIAL SITUATION.

The leading events of the week have in truth all been as we look at them of a favorable character. Even the lowering of the Chicago & North Western dividend cannot be construed otherwise. Any one who has cared to have his judgment guided by the earnings has all along known that a company conspicuous for its conservative management must do just what it has done, and is conscious also that the act is evidence of strength not weakness, of "steering" not "drifting." It is at the same time worthy of notice that this has happened in a week when the crop reports from the West have been growing better day by day, and at the close of which it is acknowledged that our statement of last Saturday reflected accurately the crop situation. To day the idea is becoming prevalent that there has seldom been a better outlook for a good yield of small grains. Of course there is opportunity before the ingathering comes for many a set-back ; but such a start as we now have is an assurance that very seldom fails.

Another incident has been higher foreign exchange. Some people look upon that movement as unfavorable. All we say of it is that it is a natural product of the conditions and no indication under present circumstances of gold exports. With money at 1 per cent on call and not always loanable at that-the penalty we pay for "cheap" and unredeemable currency issuesadded to the fact that this is the period of small merchandise exports, and to the further fact that the fools and the Anarchists have been getting together in convention and fulminating their ignorant and vicious theorieswhat else could be expected ? Besides, as we have often remarked, the Syndicate has no interest in keeping exchange lower than just inside the gold-export point, and we think there is pretty good reason now to believe that it will be kept there this year. One word more we want to say with reference to that silver convention in Illinois and the national movement it has marked out for itself; we should take it as a singularly hopeful circumstance and position if all of those who are so ignorant as to innocently advocate a silver basis for our currency, or who, knowing better, are so vicious as to seek it, were to get together into one crowd or party. Nothing could be more advantageous to a sound money movement in this country than just such a situation.

We review further below the figures of bank clearings for the month of May, and the record tes ifies to the great expansion in industrial activity which is taking place. The total of the clearings for the month is nearly a thousand million dollars greater than for the same month of 1894-in exact figures 964 millions greater. In ratio the gain is almost 25 per cent-24.7 per cent. Not unnaturally the gain is heaviest at this centre and in the East generally. We months at 2 per cent. A New York stock commission.

FRASER

say not unnaturally because it is here that financial transactions are most prominent and because the improvement in trade to which the enlarged volumeof bank exchanges is in great measure due is especially pronounced in the manufacturing and industrial sections. There is still another reason why the comparisons are better in this part of the country, and that is that the effects of last year's crop shortage are felt less here than they are at seat of the trouble. Of course last year the the totals of the clearings were very small, but even as compared with the earlier years the showing is not bad. The aggregate is within 8 per cent of that for 1893 and not quite 4 per cent less than for 1892. The significance of such comparisons lies in the fact that in these earlier years business was in a state of full activity, and furthermore that while prices of many commodities have latterly risen, they are nevertheless in not a few instances still below the values ruling in the years mentioned ; as far as New York is concerned, too, the Stock Exchange Clearing Housewas in 1892 at least only in partial operation-in fact. had barely begun its work at that time, its beginning dating from the 17th of May of that year. That inview of all these facts the totals for 1895 should so closely approach to the totals for 1893 and 1892 is strong evidence that the volume of trade and business. is large.

The action of the board of directors of the Chicago-& North Western Railway in reducing the dividend on the common stock of the company was clearly foreshadowed by the statement and figures for the calendar year 1894, which we gave in an article in the CHRON-ICLE of February 9. As pointed out in our review of the Rock Island Railway report on subsequent pages, Western roads during the late year have suffered in a double way. They have had to contend not only with industrial depression but also with a very extensive and pronounced crop failure. As a result, their revenues have fallen off in a striking manner, and though extreme economy has been practiced, it has not been found possible to avoid a very large contraction in net revenues, involving consequently a curtailment of the dividend rate. The North West., as will be remembered, had been paying 6 per cent per annum on its common shares for a good many years. Last January the semiannual distribution was made 21 per cent instead of the previous 3 per cent, and now the company announces a payment of $1\frac{1}{2}$ per cent the coming July, giving altogether 4 per cent for the twelve months. This is a very good return for such a remarkable year, and much better than was at one time thought would be the case. Just what has been earned on the stock from the operations of the road it is too early to say. The fiscal year runs to May 31 and therefore ended only eight days ago. At the annual meeting at Chicago a very brief preliminary estimate of the probable results was furnished, according to which it appears. that, including the "net earnings from free land sales," the income applicable to dividends is \$2,887,-705. Allowing for the requirement on the preferred shares, this would show about 31 per cent earned on the common shares.

Binkers report loans of money and purchases of paper at unusually low rates this week. The State of Massachusetts borrowed \$500,000 in anticipation of taxes from the Old Colony Trust Company for six

house has borrowed, on an exceptionally good line of stock collateral, \$250,000 at 21 per cent for seven months, and the borrower stated that this was the lowest rate for the longest time of any domestic loan made by him in many years. Some choice single-name paper, having five months to run, has this week been accepted at 3 per cent. Bankers report little demand from the South for re-discounting as yet. Indeed, re-discounting is slow even by banks who have the greatest number of correspondents. There is a good inquiry for money at Chicago and at other Western centres on grain collateral at 4@5 per cent, and banks at Chicago and at St. Louis are doing something in the way of re-discounting for institutions in their particular localities, so that the paper does not reach this centre.

Money on call, representing bankers' balances, has loaned this week generally at 1 per cent, with some loans for small amounts at $1\frac{1}{2}$, but the average for the week has been not over 13 per cent. Banks and trust companies quote 1 per cent as the minimum and some obtain 11 for new loans. The inquiry for time contracts is light and the offerings are liberal. Quotation are 12@2 per cent for thirty to sixty days, 2 per cent for ninety days to four months and 21/2@3 per cent for five to seven months on good marketable collateral, though some lenders refuse high priced industrial stocks and Distillers. The supply of commercial paper is in creasing and brokers report a general assortment of very good names in the market and some indications that the lowest rates have been recorded for the season. The demand continues urgent, however, and the best names are promptly taken, some choice notes being sold without the intervention of brokers. Quotations are $2\frac{1}{2}$ @2³/₄ per cent for sixty to ninety day bills receivable, $2\frac{3}{4}$ @3¹/₄ per cent for four months' commission house and prime four months' single names, $3@3\frac{1}{2}$ per cent for prime six months and 4@5 per cent for good four to six months' single names.

The Bank of England minimum rate of discount remains unchanged at 2 per cent. The cable reports discounts of sixty to ninety day bank bills in London 11-16 of 1 per cent. The open market rate at Paris is $1\frac{5}{5}$ per cent and at Berlin and Frankfort it is $1\frac{7}{5}$ per cent. According to our special cable from London the Bank of England lost £478,500 bullion during the week, and held at the close of the week £37,021,876. Our correspondent further advises us that the loss was due to the import of £365,000 (of which £181,000 came from Australia, £178,000 was bought in the open market and £6,000 came from France), to the export of £225,000 (of which £120,000 went to South America, £100,000 to the Cape and £5,000 to Gibraltar), and to £618,000 sent to the interior of Great Britain.

The foreign exchange market has been firm this week at gradually advancing rates for sterling, marks and francs, due to the light offerings of bankers' and commercial bills and to a good demand to remit for settlements, some inquiry to cover bills previously sold in expectation of lower rates, easy money, which tends to prevent the drawing of bills to be covered later on with cotton and produce drafts, and some demand for cables by the arbitrage houses. The supply of bankers' bills has been limited to drafts delivered this week against some securities which were last week placed abroad, though it is reported that the Morgan-Belmont Syndicate have been drawing against securities. The bankers do not appear much concerned regarding the situation, though nominal

rates have advanced to within half a cent per pound sterling of the highest point of the year. At least one banking firm ventures the opinion that there will be more liberal offerings of bills next week, presumably against securities. There is nothing whatever in the situation to excite the least reason to anticipate gold exports. The Morgan-Belmont Syndicate still have control of the market, none of the bankers, whether en rapport with the syndicate or not, have the slightest intention of shipping gold, and even though rates should still further advance it is almost certain that none of the metal will be exported. The market opened firm on Monday, when Brown Bros, the Bank of British North America, the Bank of Montreal, Heidelbach, Ickelheimer & Co. and the Merchants' Bank of Canada advanced their posted rates half a cent and rates for actual business in sterling were moved upward one-quarter of a cent, compared with Friday, to 4 873@4 873 for long, 4 883@4 883 for short and 4 883 @4 89 for cable transfers. The tone was firmer on the following day and then Baring, Magoun & Co., Heidelbach, Ickelheimer & Co. and Lazard Freres advanced their nominal rates half a cent, while figures for actual business in sterling were moved upward one quarter of a cent and francs and marks were also advanced. On Wednesday the tone remained firm and Brown Bros. & Co. and the Merchants' Bank of Canada moved their nominal rates upward half a cent, while rates for actual business further improved one quarter of a cent and francs and marks were higher. On Thursday the market was firm in the morning and a shade easier in the afternoon, because of some offerings of security bills, and the only change in nominal rates was by Baring, Magoun & Co. and the Canadian Bank of Commerce, who advanced their rates half a cent. Figures for actual business in sterling remained unaltered, but francs and marks were again higher. Yesterday the Bank of Montreal advanced its quotations half a cent, making the posted rates uniform by all the bankers at 4 89 for 60 days and 4 90 for sight. Among the securities announced this week as having been in part placed abroad were \$5,000,000 Allegheny Valley 4 per cents, the books for which were closed by Speyer & Co. on Wednesday, the bonds having been subscribed for eight times over. The following table shows the daily posted rates for sterling by leading drawers:

* Saturday.

The market closed steady on Friday at 4 89 for sixtyday and 4 90 for sight. Rates for actual business in sterling were $488\frac{1}{4}@488\frac{1}{2}$ for long; $489\frac{1}{4}@489\frac{1}{2}$ for short and $489\frac{1}{2}@489\frac{3}{4}$ for cable transfers. Prime commercial bills were $487\frac{3}{4}@488$ and documentary $487\frac{1}{4}@487\frac{1}{2}$.

We have referred above to the statement of bank clearings for the month of May, and noted that the improvement is particularly marked at New York and at the manufacturing centres in the Eastern and Middle States. For the country as a whole the increase is 24.7 per cent, for the Middle States including New THE CHRONICLE.

York it is 31.2 per cent, for New York by itself it is 35.4 per cent. As we get further away from this section the percentage becomes smaller as a rule. Thus for the New England States the increase is 17.8 per cent, for the Southern States 13.6 per cent, for the Middle Western 12.6 per cent, for the Far Western only 3.5 per cent, while for the Pacific Coast section there is actually a small decrease—4.8 per cent. In the following we compare the clearings for four years at a number of leading points. It will be observed that only four of the twenty-one points here included show a loss from 1894.

Total all	4,864	3,900	5,282	5,032	20,981	18,660	26,691	26,283
Outside N.Y.	2,031	1.807	2.227	2.052	9.274	8.610	10.950	10.181

When the aggregate of all points outside of New York is taken it is found that the ratio of gain is just about half that for the country as a whole, being 12.3 per cent. In all the previous months, too, there was some disparity, though not to the same extent. The reason for this has already been explained above.

On the New York Stock Exchange of course the month was a very active one. We have reviewed the business of the Exchange in our article in the QUOTA-TION SUPPLEMENT, and therefore present here our usual customary summary without further comment.

SALES OF STOCKS AT THE NEW YORK STOCK EXCHANGE.

	1895. •			1894.

Our review of railroad gross earnings for the month of May will be issued next week. Preliminary totals which we have prepared this week show that the result will be quite satisfactory; returns have been received thus far from 82 roads, and the gain on these reaches 6.08 per cent. Quite a number of returns of net for

April have also been received this week, and these too are generally quite favorable. The Erie reports \$67,874 gain in gross, \$74,854 gain in net; the Buffalo Rochester & Pittsburg \$30,484 gain in gross, \$14,050 gain in net; the Atchison (whole system) \$38,325 gain in gross, \$117,125 gain in net; the Mexican Central \$74,335 gain in gross, \$132,675 gain in net; the Illinois Central \$113,059 gain in gross. \$153,591 in net; the Denver & Rio Grande \$46,002 gain in gross, \$31,932 in net; the Louisville & Nashville \$34,375 gain in gross, but \$57,420 loss in net; and the Southern Pacific \$104,406 loss in gross and \$129,124 loss in net. The Rio Grande Western reports net of \$71,566 against \$55,517; the Mexican International \$92,227 against \$45,031; the San Antonio & Aransas Pass \$22,582 against \$11.182 : the New York Ontario & Western \$78,517 against \$49,152; the St. Paul & Duluth \$18,441 against \$20,-853; the Toledo & Ohio Central \$38,292 against \$52,435, and the Mexican National \$163,639 against \$156,150.

 \ast Figures for 1893 and 1892 given on a basis slightly different from that for the other years.

The following statement gives the week's movement of money to and from the interior by the New York banks.

Week Ending June 7, 1895.		Shipped by N.Y. Banks	Net Interior Movement.
Currency	4,782,000	\$2,019,000	Gain.\$2,763,000
Gold		300,000	Gain. 425.000
Total gold and legal tenders	\$5.507.000	\$2.319.000	Gain \$3 188 000

With the Sub-Treasury operations the result is as follows.

Week Ending June 7, 1895.	Into Banks.	Out of Banks.	Net Change in Bank Holdings.
Banks' interior movement, as above	\$5,507,000	\$2,319,000	Gain.\$3,188,000
Sub-Treasury operations	15,700,000		Gain. 1,900,000
Total gold and legal tenders	\$21,207,000	\$16,119,000	Gain. 5,088,000

The following table indicates the amount of bullion in the principal European banks this week and at the corresponding date last year.

TREASURY SITUATION AND PROSPEC-LIVE REQUIREMENTS.

It will be noticed by reference to our usual statement of Government revenue and expenditures (given to-day in our Miscellaneous News Department, page 997), that the excess of expenditures over receipts in May, including the national bank note fund, was \$4,151,-000, and excluding that fund it was \$3,287,000. These figures will be modified to some extent the beginning of another month, for the Treasury Department always revises the previous month's statement when it issues the figures for the last month. It will be noticed, for instance, that April receipts are given to-day at \$26,842,000, whereas a month ago they were stated at only \$25,014,000; hence the deficit in April, as now revised, is only \$7,238,000 (instead of \$9,066,-000 as it stood before the revision), including \$5,520,000 of interest paid that month, against \$1,751,000 of interest paid in May. Deducting the interest payment in each case-which as is known varies greatly from month to month-leaves the deficit on account of the ordinary payments only \$1,718,000 in April and \$2,-400,000 in May.

There is nothing at present in the Treasury situation of so much interest to business classes as the facts relating to the Government deficit and cash balance. It is for this reason, and because the situation is so frequently misinterpreted, that we often call attention to that feature in reviewing the monthly reports of the Treasury Department. On the present occasion we need not make any extended analysis, for it was only two weeks ago in speaking of the income tax decision that we reviewed the situation at length. Each month's developments, however, add something to the stock of information affecting the outlook. Thus it happens that the revised figures of the April deficit given above are highly interesting because so very much smaller than the receipts as originally reported indicated.

The chief importance of this change of the April figures is that it authorizes a material reduction in the average deficit we adopted in making our estimate for future months. Moreover a much lower average finds added support in the May balance; indeed judged in the light of these two months, April and May, as now reported, it looks as if the future ordinary monthly Government deficit (by ordinary we mean to include all items except interest) would not exceed 2 million dollars. Estimated on that basis the failure of the receipts to meet the disbursements during the remaining seven months to January 1 1896 would only aggregate 14 million dollars. As to the interest account, the amount falling due in July is about 72 million dollars, in October it is about $5\frac{1}{2}$ million dollars and in all the other of the seven months it aggregates about 4 million dollars, or a total to January 1 of about 17 million Adding this to the above 14 million dollars dollars. makes for the remainder of 1895 an aggregate deficit of 31 million dollars. Hence if that amount be deducted from the stock of money the Treasury has in hand June 1 and had owing to it by the syndicate on the bond purchase at the same date, the remainder would be a minimum estimate for the available Treasury balance on the first day of the new year.

The Government's actual available balance stood on is welcome news that this frenzy born of ignorance June 1 at \$185,370,100. The Syndicate accounts are and which has had only a brief run is now obviously so kept that it is difficult to say just what amount is on the decline

On Friday of last week the gold paystill unpaid. ments on foreign account had reached \$14,545,973. When writing two weeks ago with reference to these matters we assumed, on the faith of a Washington dispatch, that only 10 million dollars were still due from the Syndicate. If that statement was correct, and inasmuch as the subsequent arrivals of foreign gold down to June 1 were about two million dollars, the unpaid balance on June 1 may be assumed to be 8 million dollars. Adding this latter item to the first of June Treasury balance would bring the amount available at that date up to about 193 million dollars, and deducting the 31 millions of deficit during the succeeding seven months we have left an available balance still in the Treasury on January 1 1896 of 162 million dollars. This result of course is not exact. On the one hand no account has been taken of any increase in revenue, which for the reasons we have on so many previous occasions shown was to be anticipated, while on the side of disbursements no allowance has been made to meet any special calls for extra funds on account of certain appropriations, the payment of which, it is claimed by some, has been deferred during the period of short income-a claim which may be true, for it is not unreasonable. However though that may turn out, we think the balance on January 1 1896 as we give it is more likely to be added to than diminished by these undeveloped quantities and certainly affords assurance that Congress will have abundant opportunity to study the question of more revenue before it becomes urgent. In the meantime it may be found, if business goes on improving according to the present outlook, that the yield of the existing laws is all-sufficient for the needs of the Government.

The Treasury net gold holdings is another interesting item. Indeed it is not only interesting, but its course since the Morgan and Belmont contract was made with the Government has been absolutely marvelous. Through that contract those bankers-taking the Treasury at a time when if tested by the Government credit, by its lack of resources, and by the offices the Treasury had to perform, it was on the verge of bankruptcy, and when likewise the business of the country was paralyzed-have brought both the Treasury and commerce into the present secure and promising condition. But we need not repeat the facts-they are all fully recorded in the pages of the CHRONICLE. It is sufficient to say that just after a previous bond sale and on December 1 1894 the reported gold balance was \$105,424,569; but on February 1 1895 it had fallen to \$44,705,967; on February 12 it had dropped to \$41,340,181; on March 1 it reached \$87,085,511; on April 1 it was \$90,643,307; on May 1 it was \$91,247,144; and now, on June 1, it has reached \$99,151,409.

This constant and steady upward movement of the Treasury net gold holdings since the Syndicate's work began has been its most notable feature, and the other feature hardly less notable has been a rapid business development, keeping close step with the growing strength of the Treasury. After experiencing so great relief and gain by the restoration of the Government credit, it passes comprehension how the desire to again involve the country's finances with an increase of "cheap" money and a change from a gold to a silver standard can possess any considerable class of our people. It is welcome news that this frenzy born of ignorance and which has had only a brief run is now obviously on the decline

There are no other features in the Government exhibits issued the first of June calling for special notice. The funded debt statement is without change except \$300 added to the old four per cents, due to the conversion of \$200 and interest of the refunding certificates issued February 26, 1879. No more of the bonds under the Syndicate contract appear this month than the \$31,157,700 given in the debt statement of last month. We have been informed by an officer of one of the Syndicate banks that the Messrs. Morgan and Belmont are preparing to close up their arrangements with the Government on or about the 15th of July instead of August 15th. The object, we are told, in thus anticipating the final settlement is that they may obtain and deliver to the European subscribers the bonds for which they have contracted.

Below we give our usual table of Government cash holdings on the 1st of June and on three previous monthly dates. These are the figures we have referred to in the above remarks, except the receipts and disbursements, which, as already stated, will be found in the Commercial and Miscellaneous News Department.

THE REPORT OF THE ROCK ISLAND.

If anything were needed to show how trying the last twelve or fifteen months have been to the Western roads, the annual report of the Chicago Rock Island & Pacific Railroad for the fiscal year ending March 31, issued this week, would furnish striking proof of the fact. And the preliminary annual statement of the Chicago & North Western for the year ending May 31, also made public this week, would serve to make the demonstration complete,

Both roads reveal very plainly the effects of the unfavorable conditions prevailing in the results of their operations. We refer to the North West. figures in another place, and it is only necessary to say here that even after including the net income from land sales the company shows only 31 per cent earned on its common stock after allowing for the usual dividend on the preferred stock. The Rock Island has no preferred shares, and the annual report shows but 1.26 per cent earned on the stock. In other words, the company had only \$583,141 available on the operations of the twelve months out of which to pay dividends on the \$46,155,800 of stock outstanding. It was fortunate that through the reorganization of the Minneapolis & St. Louis Railroad the company received the back interest on its holdings of bonds in that road. These accumulations of interest amounted to \$746,680, and in addition the Rock Island realized \$407,400 more as premium on Minneapolis & St. Louis bonds sold, making a total yield of \$1,154,080, which has been added to the income for the year. The principal of the debt has not of course been counted as part of the income. This latter has gone to swell the total of cash on hand. The company is now pay-

actual amount paid out of the year's income was 3 per cent, calling for \$1,384,674. As the net earnings available for dividends amounted to only \$583,141, there would have been a deficit of \$801,533 except for the income from the Minneapolis & St. Louis, which has served to turn this deficit into a surplus of \$352,547.

Gross earnings fell off from \$21,039,073 to \$17,420,-816. This is a very remarkable reduction, the decrease being \$3,618,257, or not far from 171 per cent. The company practiced very close economy of course, and managed to reduce expenses nearly 23 million dollars. But even with this great saving in expenses the net was cut down, roughly, 13 million dollars, leaving the amount of the same for 1894-5 only \$4,738,555, against \$6,061,594 for 1893-94. Charges were somewhat larger than in the year preceding, and the effect of all these changes was that there was a balance for the stock in the late year, as already said, of only \$583,141, against a balance for 1893-94 of \$2,054,731. The surplus above the dividend in this latter year was \$208,499 and for 1892 93 \$201,821; in both cases, however, after the payment of 4 per cent dividends. To sum up, therefore, in 1895, after the inclusion of \$1,-154,080 of back interest, &c., received from the Minneapolis & St. Louis and with dividends only 3 per cent, there is a surplus of \$352,547, while in both 1892-93 and 1893.94 the year's surplus was over \$200,000, with no exceptional item of income and with dividend payments of 4 per cent.

Considering the conditions which prevailed, the result is not very strange after all. We noted in our review for the previous year that the showing for that year had been exceptionally good, there having been a slight gain in both gross and net in the face of the panic. The favorable result was due in part to the extra passenger traffic derived from the holding of the World's Fair at Chicago. What the road gained in this way in 1893-94 it lost in 1894-95, and very much more too. The course of the passenger earnings in the last three years is interesting in view of that fact. These passenger earnings amounted to \$4,-338,053 in 1895, to \$6,538,568 in 1894 and to \$5,843,-146 in 1893. The volume of the traffic shows much the same general results. The company carried 4,611,-127 passengers in 1895, against 5,768,441 in 1894 and 6,024,272 in 1893, and the passenger movement one mile was 193,153,346, against 329,360,986 and 264,-874,980 respectively.

The loss on the passenger revenues was larger than the loss in the freight receipts, but the latter followed a decrease in 1894, though in that year the falling off was comparatively small. The freight revenues were \$11,206,686 in 1895 and \$12,-852,979 and \$13,302,196 respectively in 1894 and 1893. The decrease of course is easily explained. Our industries were depressed all over the country, and the volume of trade and business shrank with the contracted wants of the population. Then the crops, which are such an essential factor with Western roads. were an almost complete failure in certain sections. About two-thirds of the company's mileage lies in the States of Iowa and Kansas. Not to speak of the other crops, the former State produced only 81,344,010 bushels of corn in 1894, against 251,832,150 bushels in 1893, and Kansas 41,797,728 bushels of the same cereal against 139,456,702 bushels. The road also suffered in its through traffic from the poor crops in the surrounding sections, some of which fared even ing quarterly dividends of only 1/2 per cent, but the worse than Kansas and Iowa. In Nebraska, for instance, portions of the people were left in an actually The Rock Island system, it will destitute condition. be remembered, embraces two through routes, one through Omaha to Denver and the other through Kansas City into Texas and the Southwest. Doubtless except for the traffic derived from its new extensions into the latter territory, the loss in the freight revenues would have been still greater. In the aggregate the road moved 6,227,105 tons of freight in the late year, against 7,056,579 tons in 1894 and 7,479,287 tons in 1893, and the tonnage movement one mile was 1,071,-763,263 tons, against 1,288,576,685 and 1,264,387,796 tons respectively. The average rate per ton per mile was a trifle higher in the late year, but that does not indicate that the road actually received better rates; the slight increase follows solely from the great falling off in the classes of traffic taking the lowest rates. The average is small even after the increase, being 1.05 cents, against 1.00 cent in 1894 and 1.05 cents in 1893.

With reference to the Texas extension, which is known as the Chicago Rock Island & Texas, it is treated as a separate and distinct system, to conform with the Texas laws, and its operations and accounts, therefore, do not form part of those of the Rock Island proper. Speaking of this line, the report says that besides being a valuable feeder to the parent system it has earned and paid interest on its entire cost of construction.

In view of the fact that the road has had to contend simultaneously with poor crops and with general industrial prostration, an analysis of the freight traffic will be both interesting and instructive. In the following we have followed the plan pursued in other years and classified the leading items of freight in two groups, the first group comprising the tonnage in grain and live stock, and the second group the tonnage dependent more or less on general industrial activity.

TONNAGE	OF LEADIN	G ITEMS O	F FREIGHT	ON ROCK IS.	LAND.
Group I. Wheat Corn Oats	1894-5. <i>Tons.</i> 1 3,202 284,672 163,968	1893-4. <i>Tons.</i> 218,933 634,661 263,606	1892-3. <i>Tons.</i> 427,123 515,627 275,817	1891-2. <i>Tons</i> 297,250 573,084 310,437	$\begin{array}{c} 1890 \hbox{-} 1.\\ Tons.\\ 133,997\\ 543,214\\ 323,008 \end{array}$

Group II.	1,179,186	1,711,618	1,717,622	1,651,018	1,502,683
Coal and coke.	1,513,463	1,736,580	1,808,076	1,565,587	1,328,852
Merchandise	585,935	640,545	730,510	696,151	623, 963
Lumber, lath, et	0.440,728	541,010	646,521	561,347	445,542
Stone	248.340	231,264	322,777	267,562	225,936
Brick	164,687	162,906	308,450	259,087	177,03)
Iron	220,822	189,860	256,401	214,007	2 7,248
Sand and grave	1 148,454	140,979	200,080	161,665	130,076
	001 000	2 642 144	1 979 815	3 725 106	3 164 697

3.322,429 3.643,144 4,272,815 3,725,406 We see reflected in the foregoing the effects both of the crop failures and of the bad times. The road carried only 193,202 tons of wheat in 1895 against 218,-983 tons in 1894 and 427,123 tons in 1893, in which year the tonnage from the Kansas wheat crop of 1892 had been exceptionally large; of corn the tonnage was only 284,672 tons, against 694,661 tons and 515,627 tons, and the oats tonnage also shows a decline. The live-stock traffic makes a very good comparison, owing no doubt to the building of the Texas extension. Of cattle 338,142 tons were moved, against 390,849 tons and 336,128 tons, and of hogs 199,202 tons, against 170,519 tons and 162,927 tons. Taking now the items of traffic in group II, we find that of coal and coke the amount was only 1,513,463 tons, against 1,736,580 tons and 1,808,076 tons, of merchandise 585,935 tons, against 640,545 tons and 730,510 tons, and of lumber, laths and shingles 440,728 tons, against 541,010 tons and 646,521 tons, but it is noteworthy that all the other items -stone, brick, iron and sand-show an increase. which the company is called upon to pay but the

The finances of the company are in better shape than ever. The reorganization of the Minneapolis & St. Louis has enabled the company to realize on assets which had long been in a dormant state. The balance sheet shows \$3,865,651 of cash and cash assets against only \$152,651 a year ago. Of course the amount of stocks and bonds of connecting roads held has been diminished through the Minneapolis & St. Louis transaction, and now stands at \$6,109,487 against \$8,736,390. There are only \$617,529 of accounts payable, with \$761,835 of accounts receivable. \$1,500,000 of debenture bonds were put out during the year and \$26,000 of 5 per cent extension bonds were bought for the sinking fund.

CENTRAL PACIFIC AND ITS SUBSIDY INDEBTEDNESS.

The appearance of the annual report of the Central Pacific (the report was printed in the CHRONICLE of last week) directs attention anew to the need for an adjustment of the company's relations with the United States. Unlike the Union Pacific the Central Pacific has thus far been able to keep out of the hands of receivers and is not in default on any of its interest obligations. In some other respects also it holds an advantage. The Union Pacific system, owing to the failure of Congress at its last session to make provision for arranging the subsidy debt, is rapidly undergoing disintegration. The Central Pacific on the other hand still holds its old place as part of the Southern Pacific system (to which it is leased), and this system is operated in the same way and by the same people as before. Nor are there such numerous divisional liens as in the case of the Union Pacific. It follows that in reaching an agreement there will be a smaller proprietary to consider and also a smaller number of lien holders.

Nevertheless the situation is no less urgent than in the Union Pacific case. In some respects the urgency is even greater. One instalment of the United States subsidy bonds issued in aid of the Central Pacific has already fallen due, and on the 16th of January the Government had to pay off such bonds to the principal amount of \$2,362,000. On the 1st of July \$2,995,000 of the 6 per cent first mortgage bonds (a prior lien to that of the Government) mature, and the company has just made arrangements through Messrs. Speyer & Co. to extend these bonds for $2\frac{1}{2}$ years at 5 per cent interest. The extension is to the date when the last instalment shall mature. Thus already a part of the Government debt and also a part of the debt preceding it ia lien has had to be provided for. The sinking fund in the United States Treasury sufficed to meet the first instalment of the Government debt, but as subsequent instalments fall due this resource will not long be available, since the sinking fund is comparatively speaking not large, amounting to only \$5,700,108.

It is of course well understood what is the reason for the state of things in which the Central Pacific in common with the other Pacific roads finds itself. The reason is that the requirements of law have been insufficient to provide for the indebtedness at maturity. These requirements have fallen far short even of meeting the accruing interest charges from year to year. The result is that the accumulations of interest have been becoming larger each year, and now exceed in their aggregate gross amount the principal of the debt. So it is not the original amount of the subsidy loan amount of such loan plus all the unpaid accumulations of interest-a vastly different undertaking.

It will be well to stop a minute and compute the aggregate of this debt, principal and interest. The United States issued altogether \$27,855,680 bonds in aid of the road-\$25,885,120 to the Central Pacific and \$1,970,560 to the Western Pacific. In the thirty years since the bonds were put out the Government has paid no less than \$43,505,553 in interest on the same. By transportation services and by payments out of cash the company has repaid \$7,867,229, leaving an unpaid balance in the sum of \$35,638,324. The amount of the loan, as stated, was \$27,855,680, thus making the gross aggregate of the debt on January 1 \$63,494,004. As against this the sinking fund in the United States Treasury is \$5,700,108; in addition there is due from the Government to the company on claims allowed by the accounting officers of the Treasury for transportation services performed prior to June 30, 1892, the sum of \$3,974,646, and the company claims \$899,783 more as being due it for the period since then, making total offsets of \$10,574,537, but still leaving a net debt of \$52,919,467, of which only \$27,855,680 represents the original principal of the loan.

When the amount of this debt as enlarged by the accumulations of interest is shown, it becomes plainly evident that it is out of the question for the company to meet it, or in case of an extension to pay any but a very low rate of interest on it. And this we believe is not disputed anywhere. The only question is whether it would be better for the Government to take the property rather than to make a settlement with the company on terms within its ability to meet. Only a little investigation is needed to show that there is nothing to be said in favor of the former proposition.

It is sometimes argued that the Pacific roads have only themselves to blame for their present troubles, that they should have made provision for their debts long ago. That no doubt is the way it ought to have been done-if possible. But this view ignores the fact that Congress by devising a method of its own in effect took the matter out of the hands of the companies. For the Central Pacific it is claimed that various plans for taking care of the debt were proposed by the management at different times but were all rejected. It has long been evident that the Thurman Law was entirely inadequate to the requirements, yet the National Legislature allowed things to drift and failed to change the law. In the meantime the companies observed the law just as it was, and fulfilled its every requirement. As concerns the making of further and independent provision to the same end, no less a person than Mr. Charles Francis Adams. when President of the Union Pacific, thought that in building an extensive system of branch and tributary roads and holding the securities of such branch roads in its treasury, the Union Pacific was making the strongest kind of preparation for taking care of the debt-providing at once new sources of traffic, while strengthening the treasury of the company.

There is still another consideration to take into account, and that is as to the ability of the companies to have paid more than the law required them to pay. The experience of the last few years has shown that it was indeed fortunate that the annual payments under the law were not larger, for the companies would in that event have found it difficult if not impossible to meet them. Back in the early eighties there were a few very prosperous years when increased annual pay- Rivers Wilson may well be accepted as conclusive. Sir

ments would have imposed no hardship and should have been made. But in the more recent years the situation has been entirely different. This is well shown by the income account of the Central Pacific for the late calendar year. The Government requirement for that year was only \$599,700. If we add to this \$256,397, which appears to have been the increment of the sinking fund in the United States Treasury during the year, we get \$856,097 as the total contribution from the company towards the payment of the year's interest on the subsidy indebtedness. But as this subsidy debt amounts to \$27,855,680, and as the Government is paying 6 per cent interest to the holders of it the charges on it for the twelve months were \$1,671,340, so that for this year alone the company fell over \$800,000 short of meeting the accrued interest on the debt. And yet though the payments to the United States were so small, the income account for the year shows a surplus of only \$144,594.

Of course, owing to the bad times, both gross and net earnings have fallen off heavily during the last three years, but if we would understand the reason for the company's inability to make larger yearly payments, we have only to compare the gross and net revenues for 1894 with those for 1880, fourteen years before, as is done in the following :

CENTRAL PACIFIC GROSS AND NET EARNINGS.

Gross oppings	1894.	1880
Gross earnings		\$13,119,560 5,530,475
Net earnings Ratio of earnings to expenses		\$7,539,085 (42·15%)

Thus gross earnings in 1894 were actually a trifle less than in 1880, while in the meantime expenses increased from \$5,530,475 to \$8,168,858, and the ratio of expenses to earnings rose from 42.15 per cent to 62.73 per cent, leaving net of only \$4,854,113 in 1894 against \$7,589,085 in 1880. Now what does this increase in operating cost mean? It means that in 1894 rates were so much lower than in 1880 that to yield the same amount of gross revenue the company had to do an immensely larger amount of work, involving of course greater expenses. What accounts for the lower rates? Chiefly increased competition. And to what is the increased competition due? Mainly to the building of new trans-Continental lines, encouraged and fostered by the policy of the Government in subsidizing them with land grants, etc. The opening of these new lines had a double adverse effect on the older routes ; it diverted traffic from them, while at the same time operating to reduce rates. It follows that the company can hardly be held responsible for the unsatisfactory net results, which may be ascribed to causes and circumstances beyond the control of the management.

But it may be asked has not the Southern Pacific developed at the same time a large business over its southern route. Yes. But that is in great part traffic for which the Central Pacific line, by reason of its geographical position, could not be used. It is traffic made up of fruits and other products of California, on which the all-rail charges to the Atlantic seaboard would be altogether too high. The managers of the Southern Pacific early recognized this, and hence they secured lines with outlets to the sea at New Orleans and Galveston, at which points they are able to avail of cheap water transportation over their own lines of steamers. As bearing upon the general question whether the Southern Pacific has built up its own roads at the expense of the Central Pacific, the opinion of Sir

A

JUNE 8, 1895.]

THE CHRONICLE.

Rivers as will be remembered was especially delegated by the Central Pacific shareholders last autumn to make an investigation into the affairs of the road, and speaking on the point in question he said : "I have thought it well to give particular attention to the distribution of traffic between the two companies, and I think it will be conceded that there do not appear to be sufficient grounds to support the charge of unfair diversion of traffic from the Central Pacific to the Southern Pacific."

It is therefore plain that the company's net revenues must be accepted as the measure of its ability to pay. On the basis of the late year's requirement under the Thurman Law the annual payment would be \$599,700, which is but little more than one per cent on the \$52,919,467 net amount of debt figured above as now owing to the Government. But with the Government debt question settled, the $28\frac{1}{2}$ millions of 1st mortgage bonds now bearing 6 per cent interest could no doubt be refunded at a much lower rate of interest—say at $4\frac{1}{2}$ per cent-and the amount of the bonds would at the same time be reduced through the sinking fund accu mulations now held against the bonds. Possibly in this way a saving of \$650,000 per annum could be effected, which added to the \$599,700 would make about \$1,250,000. Even this latter, however, would be barely $2\frac{1}{2}$ per cent on the net amount of the debt, principal and interest, though of course in good times the company could doubtless afford to pay more. It is thus evident that the basis of an agreement must be that so many times suggested within recent periods, namely the extension of the debt for a long term of years at a very low rate of interest.

Consider for a moment what the alternative course would mean-the taking of the road by the Government for the debt. The Government would then have to pay off the $28\frac{1}{2}$ million dollars of prior liens, increasing its investment in the property from 53 millions to $81\frac{1}{2}$ millions. And what would the Government have to show for this investment? Not the 1,360 miles of the Central Pacific as it now exists but simply the 860 miles of subsidized lines extending from Ogden to San Jose. It would not even have a terminus at San Francisco. It would have no feeders and be without connections at either end. Supposing that at the same time the Government took possession of the Union Pacific lines, the only effect would be to extend the eastern terminus from Odgen to the Missouri River at Omaha and Kansas City, at which latter points the Government would be nearly as helpless as What could the property be made to earn at Odgen. under such conditions. Certainly not more than a fraction of what it earns now. Leaving out of consideration altogether, therefore, the question of expediency, as a practical business proposition the Government will do better by agreeing to a settlement on fair terms. It would in that event at least be put in position to obtain all the net earnings of which the property is capable, which is the very most it could obtain anyhow.

Before closing we would refer to certain considerations of equity which deserve also to be kept in mind. Under the conditions existing at the time the road was built the cost was made very heavy. In a letter which Mr. Huntington addressed last January to Mr. Reilly, the Chairman of the Committee on Pacific Railroads of the House of Representatives, he pointed out some of the difficulties and expenses which attended the construction of the road. Supplies and machinery had to dogmatically of his work. Certain well known con-

be ordered more than twelve months beforehand, as they had to be first manufactured, then shipped around Cape Horn, a distance of 17,000 miles, with freight rates exceedingly heavy and insurance high. From San Francisco the supplies had to be reshipped in small sailing vessels to Sacramento, and thence had to be transported by cars, in some cases nearly half way back across the Continent. Cross-ties, says Mr. Huntington, which cost fifty cents each in the forests of Michigan, after being hauled 1,500 miles at a further expense of \$2 or more to the summit of the Rocky Mountains, were burned in piles to keep the laborers and their armed escort from freezing. Snow galleries erected on the Central Pacific in the Sierras for many miles cost from \$25,000 to \$150,000 per mile. Mr. Huntington also notes that the bonds issued to the road were currency bonds; that as gold was at a premium, these currency bonds were looked upon with doubt, and that the Comptroller at that time ruled that they were not available as security for bank note circulation. When the 1862 act was passed the bonds were worth their face value in gold, says Mr. Huntington; before the road was completed they had declined to 90 cents in currency, or about forty cents in gold. The Central Pacific realized less than \$18,000,000 in coin for the \$25,885,120 bonds issued to it, and it had to pay gold for everything it bought in California, some of the materials costing the company as high as \$2 22 in currency for one dollar of gold.

These are all facts with which the present generation is not familiar. Yet the Government and people of the United States, who benefitted so largely through the opening of this first rail route to the Pacific Ocean, would not be justified in leaving them out of account in dealing with the road. Congress, is not in session now, but political quiet prevails at present and hence the time would appear to be favorable for a calm and careful study of the whole subject. Some action at the next session of Congress seems to be imperative, and our legislators should prepare themselves to meet the issue in an intelligent and creditable way.

COTTONACREAGE, STAND AND CONDITION. 1895.

There can be no doubt that the acreage planted to cotton in 1895 is less than it was in 1894. Still another fact equally apparent is that this condition represents the prevailing tendency in every State, though that of course does not mean that every planter in the South has seeded less land to cotton than a year ago. A good many planters are successful men, who never plant more than they can comfortably manage. They are cautious even when cotton is high, so that if it happen that their crop meets a very depressed market, they can use their judgment about selling or holding. As a rule that class has planted just as much this year as it did last year, except it may be in cases where the weather has interfered ; but neither the weather nor anything else interferes much with the plans of that kind of man.

The foregoing are truths which even a cursory investigation of the planting situation this year will disclose. As soon though as the investigator progresses from general facts to procuring first the details of separate districts and then the aggregates for towns, counties or States, results of course at once partake of great uncertainties, so that it does not become any one to speak

ditions must control acreage. The large majority of planters are usually disposed to put as much land under cotton as they can command the labor, mules and supplies to do it with. The argument is the natural one, that if they can clear ten dollars or more an acre, the greater the number of acres they plant the larger their income will be. Hence it is that planting ordinarily goes on increasing year after year. But the past season has left an unfortunate experience which, as we all know, does not favor any disposition of that kind; indeed the price received for the crop has been so low that the argument is reversed, for by far the greater number have found that the more acres planted the greater was the loss. Then, too, there is the other condition which helps to regulate the extent of the seeding, which is money, and this likewise has not only been decidedly unfavorable to the carrying out of the usual enlargement, but has enforced contraction. Finally, weather during the planting season has more or less effect according as it facilitates or hampers the requisite work. This year that has also acted adversely in some States, more adversely than the same conditions would have acted had there been less of discouragement in the other surroundings.

The foregoing, it may be claimed, does not represent the market conditions of to-day, nor the future outlook as to the value of cotton. All that is true. The price of cotton has advanced materially since the early spring, and moreover spinners' takings have increased in America, while the promise is that they are likely to increase also in Europe during future months. No doubt too this change has had a considerable effect upon planting; had the earlier conditions been prolonged up to the present time the year's acreage would have been much less than it now is, for a most decided inclination prevailed in all sections not to put fresh money into cultivating cotton, inasmuch as most sections could buy the staple cheaper than they could raise it. That feeling has of course been to some extent modified by the later developments with reference to the value of this raw material, and yet the year's experience is too recent to be forgotten at once, and the money-lender would not forget it even if the planter could.

CONCLUSIONS.

From the details by States given on subsequent pages, we sum up our conclusions briefly as follows:

First-Notwithstanding the modification of early intentions by some as a result of the upward movement of prices in April and May, the reader will observe by consulting the table below that the aggregate decrease in area has been quite large. His attention cannot fail also to be attracted to the fact that in general the loss has been well distributed. North Carolina has apparently made the greatest reduction. The smallness of the decrease in Florida is due to the more extensive planting of Sea Island cotton. In the Gulf States the decline ranges from 10 percent in Mississippi to 14 per cent in Louisiana. Texas records a loss of 11 per cent, Arkansas 12 per cent and Tennessee 9 per cent. Oklahoma stands alone in showing an increase in area. The difficulties encountered in ascertaining the situation as to acreage are so great that each year we find it needful to further extend our sources of information. This year has been no exception in this respect, and in consequence we are perhaps better able to approximate to the actual situation. Absolute accuracy we have never claimed for these re-

truth as possible. The changes this year, as we make them up for each State, have been as follows:

STATES.	Acreage,	Est	imated for 1895.		
	1894.	Increase.	Increase. Decrease.		
North Carolina	952,741		20 per cent.	762.193	
South Carolina	1,983,363		10 per cent.	1,785.027	
Georgia	3,346,928		13 per cent.	2,911,827	
Florida	217,509		5 per cent.	235,134	
Alabama	2,858,847		11 per cent.	2,544,374	
Mississippi	2,862,783		10 per cent.	2,576,505	
Louisiana	1,123,948		14 per cent.	966,595	
Texas	4,474,310		11 per cent.	3,982,136	
Arkansas	1,429,372		12 per cent.	1,257,847	
Tennessee	628,866		9 per cent.	572,268	
Other States & Ters.*	198,580		1212 per ct.	173,757	

This shows a net decrease compared with 1894 of 11.6 per cent, making the total 17,767,663 acres in 1895 against 20,107,247 acres in 1894. We add the acreage for previous years for comparison, giving at the foot of the table not only the acreage but the total crop for each year, with the percentage of increase or decrease in acreage or production compared with the preceding year, and the product per acre. The figures of acreage for 1889-90 in the table are from the Census report ; those for other years are our own compilation. It is perhaps well to state that our total for the Census year was 20,309,480 acres, a difference of only 136,584 acres from an actual house-to-house canvass, or a variation of only seven-tenths of one per cent in ten years.

COTTON ACREAGE FOR THE YEARS NAMED-(000s omitted).

Second—As to the maturity, cultivation and condition of the plant, the results reached are as follows:

(1) As to maturity, the crop is unquestionably a late one; the spring opened late, delaying planting, and the weather up to about May 27 was not as a rule favorable either for satisfactory germination or rapid development. This statement is applicable to almost all sections, but more decidedly to the Atlantic States, Texas, Arkansas and Tennessee. In early May the conditions improved except in the Southwest, where rain was needed; but about the 12th of the month an unusually cold term set in, which continued with more or less severity until near the close of the month, checking growth for the time being. Whether any permanent injury to the plant has resulted from this adverse inflaence cannot in all cases be determined; but it is likely, since the weather has now become almost everywhere more satisfactory, that no serious harm has resulted except in limited districts, where the frost may have made replanting necessary.

haps better able to approximate to the actual situation.(2) Cultivation has not been kept up in as thoroughAbsolute accuracy we have never claimed for these reports, but every effort is made to get as near to the(2) Cultivation has not been kept up in as thorougha manner as it was a year ago.In the Gulf States,Texas and Tennessee fields were reported to be in good

condition at the date of our mail advices, but along the Atlantic and in some parts of Arkansas, &c., we have received many complaints. By telegraph, however, we are informed that cultivation is now making rapid progress everywhere. As to the takings of commercial fertilizers there has been a very heavy decrease, but of home-made manures a slightly greater use is reported.

(3) Condition of the plant, as already indicated, was on the whole less satisfactory at the close of the month than at the same date last year. The States of least promise are apparently the Carolinas and Georgia, but the plant is late almost everywhere and so is farm work. It does not necessarily follow that the condition is really unpromising, but rather that more depends upon future development than has been the case in some other productive years.

Our summaries by States are as follows:

VIRGINIA-The planting season was late this year as a result of unusually cold weather in the early spring and excessive rainfall later. Seed came up poorly in most instances, continued low temperature and an excess of moisture acting as adverse influences. The weather all through the season up to within the past few days has been quite unfavorable, having been entirely too cool for satisfactory development. Under the circumstances it is not at all surprising that replanting has been carried on to a much greater extent than usual Stands at this writing are not good, and the appearance of the plant is far from satisfactory. Fields, however, are quite clean. Acreage has been largely decreased, other crops holding out greater inducements to planters. A careful analysis of our replies seems to warrant the conclusion that the reduction in area this year is about 20 per cent. Fertilizers-A considerable falling off in the takings of commercial fertilizers is indicated and in home-made sorts a decreased use is reported.

NORTH CAROLINA.-The cold and wet weather in the early spring delayed farm work, so that planting operations were not actively entered upon until near the end of April, and in a number of localities little was done until after the first of May; hence while in some districts seeding had been completed by the 10th of May, in others it was not finished until after the 20th. On the average the season was about ten days later than last year. Our correspondents are quite well agreed that the seed germinated poorly, owing to low temperature, and excess of moisture has prevented satisfactory cultivation. From various causes seed has failed to come up and as a consequence a greater amount of replanting than usual has been done. Stands-As the foregoing serves to indicate, a good stand has not yet been secured. In fact at the date of our mail advices it did not average fair. Late advices by telegraph however cover reports of more seasonable weather and state that late plantings are now coming up quite well. Fields which had been very grassy on account of wet weather are now being rapidly put in good condition. Acreage-The poor financial results of the past season have had much to do with bringing about a decided decrease in area this year. It averages for the State as a whole about 20 per cent. Fertilizers-Commercial sorts have been much less freely used, and in some instances home made varieties have received less attention.

SOUTH CAROLINA.-In common with a large section of the cotton belt, planting began in South Carolina later than in 1894. Commencing in the coast section about the 1st of April, it gradually extended westward and was finally completed May 20. On some low and sandy lands seed germinated poorly, but as a rule it came up well. At the same time the weather conditions have not been favorable to the best development of the plant, temperature having been too low much of the time; at intervals there has been an excess of moisture. High water, frost and cut-worms are the causes mentioned, rendering much replanting necessary. It is stated that in the more northerly portions of the State, along the North Carolina border, whole fields have been replanted. An improvement in the weather since the beginning of the last week in May is to be noted, and the crop is now doing quite well. Stands are reported very irregular, being exceptionally good in some portions of the State and in others very poor. The crop, however, is a late one, and may soon show much improvement under the present more satisfactory conditions.

Out-door work has been retarded, but cultivation is now rapidly progressing. Acreage.—Contrary to expectations there have been additions to acreage in some localities, but these lie in the western portion of the State. Elsewhere the tendency has been strongly in the opposite direction, the reductions being much more than sufficient to balance the gains, the apparent net decrease reaching 10 per cent. Fertilizers.—It would appear that the takings of commercial fertilizers have been but little more than half of what they were in 1894. Furthermore, the use of home-made manures has but stickers increased.

GEORGIA-The cold and late spring delayed farming opera tions so that work was not actively begun until fully two weeks later than in 1894. When, however, a start had been made, fairly rapid progress was the rule, so that planting was finished only about ten days later than last year. The tenor of the returns is that seed came up well but that in consequence of the various unfavorable conditions, either too cold or too wet, or both, development has been rather unsatisfactory, the plant in a number of localities having a drawn and sickly appearance as late as the 20th of May. Since then, however, the progress has been more satisfactory. A moderate amount of replanting has been necessary. Stands-Afew correspondents say that a good stand has been procured, but a majority of them report the stands as only fair, though it is claimed that good weather would speedily bring about considerable improvement. Where rains have been excessive the fields are quite grassy, although at the close of May cultivation is rapidly going on. Telegraphic advices subsequent to the 1st of June give evidence of a marked change for the better in the weather. Acreage-A disposition to reduce acreage is clearly manifest and for the State at large we estimate the loss at 13 per cent from last year. Fertilizers-Planters have largely decreased their use of commercial fertilizers (some say fully 50 per cent), and in consequence homemade varieties have received considerably more attention.

FLORIDA.-Preparations for the new crop began about the usual time in this State, and good progress in planting was being made during the closing days of March. There was no special hindrance during April, and in consequence the work was in good part completed before the end of the month, or a few days earlier than in 1894 With regard to germination the information we have received is very satisfactory ; some say that seed came up well but the general run of our replies is, very well or better than usual, the most favorable returns coming from the sections where long staple cotton is raised. The weather has favored the development of the plant pretty much all the time, but for about two weeks subsequent to the 12th of May the temperature ranged too low. Practically no replanting has been required. Stands are good in general, and fields are reported to be quite free from weeds. The present outlook in the Sea Island districts is especially encouraging. A very well informed correspondent writes us that with an average season a considerable increase in the yield of this variety of cotton may be looked for. Acreage .- In the sections where short staple cotton is grown the area has been decreased, but in Sea Island districts the tendency has been in the opposite direction. For the whole State we estimate that the decrease has been about 5 per cent. Fertilizers .-Our returns lead us to conclude that even though commercial fertilizers are not largely used they have been less freely taken this year than last. Home-made composts show no marked change.

ALABAMA-The same complaint comes from Alabama as from the Atlantic States-an unfavorable early spring. Planting did not become at all active until near the 10th of April, but quite rapid progress was made after work began, so that the finish was hardly more than a week later than in 1894. For the most part the seed came up well, but a few of our returns say that the start was rather poor in consequence of cool weather. The conditions since growth began have in the main been fairly favorable, but the cold snap in May acted as a hindrance to development and the plant is late. Too much moisture at times is also complained of in some districts. Toward the close of May the meteorological conditions turned more favorable, and as a rule the crop is now doing very well. Some seed died out as a result of the cold and had to be replanted. The aggregate amount of replanting, nevertheless, was slight. The stand secured will average good, although on this point there is considerable diversity of opinion indicated in the reports. In one or two instances a perfect stand is said to have been secured, while a few say it cent. Fertilizers .- In some sections a decrease in the takings is not good. Fields are clean as a rule. Acreage has not been changed in some localities, but the general tendency has been toward a decrease. The falling off, however, has not been as heavy as early advices seemed to point to, and averages for the State not more than 11 per cent. Fertilizers of the commercial sorts have been much less freely taken than in the previous year, but a small increase in the amount of homemade manures used is reported.

MISSISSIPPI.-Planting began in the earlier sections of Mississippi about the 10th of March, but seeding did not become general until near the middle of April. Work was interrupted in some sections by rainy weather, and as a result was not finally completed until the middle of May, or from a week to ten days later than in 1894. The returns with reference to germination vary, but they are almost all of a satisfactory character and range from good to very good. The weather is stated to have been favorable since growth began, until about May 12th, when a drop in temperature occurred which tended to check development. There was also too much rain in some localities at about the same time. Latterly, however, conditions have been quite uniformly favorable, and the plant is doing well. Replanting has been done to only an inappreciable extent, the necessity for it arising mainly from the fact that the cold weather caused some seed to die out. Stands range from good to excellent, and average very good. The rains referred to above gave weeds and grass a good start, but with the return of favorable weather rapid progress was made in clearing the fields, and now they are generally well cultivated. Acreage.-The past year's experience has led farmers in Mississippi to turn their attention to diversifying crops, raising, so far as is possible, everything they need. This in part explains the pretty general tendency towards a decrease in area this year. All of our reports indicate some falling off, and for the State as a whole it will reach fully 10 per cent. Fertilizers of the commercial varieties, never largely used, have been less freely taken this year, but homemade sorts show a slight increase.

LOUISIANA.-In one respect the situation this year in Louisiana is more satisfactory than in any recent season. We refer to the fact that there has been complete freedom from overflow. But the backward early spring interfered here as elsewhere with planting operations, but not of course to so great an extent as further North. Seed germinated fairly well in general, but development was slow in consequence of low temperature, as well as on account of lack of moisture. The adverse conditions were not equally effective in all sections of the State, as some of our returns are distinctly satis factory, but were felt to a greater or less extent in most districts. It is clear, however, that as a rule the plant is not so well advanced as usual at this time of the year, although now growing out rapidly under the stimulus of the more favorable weather prevailing. Stands are reported as fairly good to good, and fields are with but rare exceptions well cultivated Acreage-Louisiana planters have turned their attention to a diversification of crops this year, and the result is seen in the marked decrease in cotton area, which averages fully 14 per cent. Fertilizers, while but little used, have received much less than the usual amount of attention.

ARKANSAS.-On the whole the planting season in Arkansas was a little later than in 1894 consequent upon the severely wintry weather in the early spring. Planting began in the earlier districts about the 10th of April and finished generally the middle of May. Owing to too dry weather the very early planting in a few sections came up poorly, but as a rule seed germinated well. In fact, one correspondent states that lateplanted seed came up splendidly. During April and until about May 10th the conditions, both as regards temperature and rainfall, were on the whole quite satisfactory, but between that date and the 25th low temperature operated to check the development of the plant. In consequence of this the plant is a little smaller than in an average year. Our latest reports indicate that the weather latterly has been about as desired and cotton is doing well. But little replanting has been required. Stands range from fairly good to very goodtwo correspondents say splendid. The weeds and grass, although somewhat troublesome recently as a result of wet weather, are now being rapidly removed, and the fields put in satisfactory condition. Acreage.-There has been a strong tendency in Arkansas to reduce cotton acreage this year, with the result that the loss for the State reaches about 12 per

of commercial manures is reported, but only a small aggregate amount is used in the State.

TENNESSEE. - The same may be remarked of the start in Tennessee as in most other States ; it was late. In a few districts planting began about the usual time, but as a rule it had not become active until late in April, and at the close of May there were some sections that had only just finished. Low temperature and dry weather delayed germination generally, but on the average seed came up well. A few of our correspondents state that the weather since growth began was quite satisfactory up to about the 12th of May, but the majority complain that continued low temperature and lack of moisture has kept back the plant. There has been a limited amount of replanting but less than is usual. It is evident that the cold snap in May checked development, but a marked improvement in this particular is be to noted since the beginning of June. Stands are said to be good in general, but the tenor of our returns is that the crop is from two to three weeks late. The conditions have not favored the growth of grass and weeds. Acreage has been decreased to a fair extent, the loss having been about 9 per cent of the total cotton area of the State. Fertilizers are used but little in Tennessee.

TEXAS .- The planting season was very irregular in Texas this year, work in many sections being retarded first by cold weather and afterwards by drought. Seeding began in the extreme southern districts early in February, but was not completed in the whole State until near the close of May, or about ten days later than last year. On account of the dry weather seed came up very slowly in many districts, and the start was therefore uneven. For the State as a whole, however, the seed may be stated to have germinated fairly well. Since growth began there has been a considerable variation in the conditions in different parts of the State. In North Texas they have been for the most part favorable, but in East Texas there has been rather too much moisture. In the central portion of the State a little more rain would have been beneficial, and in South Texas lack of moisture was frequently complained of up to the beginning of the last week of May. Our latest advices indicate that the heavy precipitation during the last week of May did some damage to crops in Eastern and Southern Texas. Temperature has been satisfactory in the main except in the early spring and from May 13th to 27th. There has been more than the usual amount of replanting done this year, mainly on account of the late heavy rains Stands are good as a rule, though the plant is not as well advanced as in an average year. Acreage .- The low prices for cotton the past season have had an effect in bringing about a decrease in area that no other argument could have produced. As in other years, there has been some new land put in the staple this year, but the loss in other sections has been sufficiently great to make the net result for the State a decline of 11 per cent. Fertilizers are not used to any extent.

INDIAN TERRITORY AND OKLAHOMA.-There was but little difference between the date of planting this year and last. beginning about the 15th of April and being completed by the middle of May. Seed came up well as a rule. With regard to the conditions of weather since growth began, our reports vary widely. Some correspondents state that it could not have been better, others say that it has been quite favorable, and still others complain of low temperature and lack of moisture. In the main however the season thus far has been fairly satisfactory. Replanting has not been necessary to any considerable extent; drought accounts for the little that has been required. Stands in general are good and fields are in fair condition. Acreage.-Here, as elsewhere, there has been a disposition to decrease the amount of land under cotton. In the Indian Territory a reduction of 15 per cent seems to be warranted by the information at hand, but in Oklahoma there is an increase of 10 per cent. The cotton area in the latter, however, is so much less than in the Indian Territory that the net decline for both reaches about 10 per cent. Fertilizers are really not needed and are but little used.

MISSOURI.-The cultivation of cotton in Missouri is confined to the Central and Southern sections of the State. The backward spring interfered somewhat with planting this year, but work was begun in some districts about the mildle of April, and was generally completed by May 15th. Seed came up very well on the whole, but some slight damage from frost resulted and made necessary a limited amount of replanting.

JUNE 8, 1895.]

Growth has not been rapid on account of the low temperature during the greater part of the time, but a good stand has been secured and fields are clear of weeds and grass. Acreage has been materially reduced in Southeast Missouri, and the same is true, but in a less marked degree of the Southwestern section. In Central Missouri a moderate loss of area is reported. For the whole State the decrease aggregates 20 per cent. Fertilizers receive little or no attention.

Clearings by felegraph.—Sales of Stocks, Bonds, &c.— Stock Exchange Clearing-House Transactions.—The sub-joined statement, covering the clearings for the current week, usually appears on the first page of the CHRONICLE, but on account of the iength of the other tables is crowded out once a month. The figures are received by telegraph from the leading cities. It will be observed that as compared with the corresponding week of 1894 there is an increase in the ag-gregate of 27:5 per cent. So far as the individual cities are gregate of 27.5 per cent. So far as the individual cities are concerned New York exhibits an excess of 34.5 per cent, and the gains at other points are, Boston 31.2 per cent, Philadel-phia 35.7 per cent, Chicago 20.5 per cent, St. Louis 26.6 per cent, Baltimore 11.3 per cent and New Orleans 26.1 per cent.

LONDON, Saturday, May 25, 1895.

Money continues extremely abundant, so that short loans for a week, and in some cases even for a month, have been made at 1/2 per cent; and as gold is coming in from abroad in very large amounts the market is likely to continue exceedingly easy for months to come. At the fortnightly setilement Stock Exchange borrowers were able to obtain all they required at from 11/2 to 13/4 per cent.

An a dress from the principal merchants and bankers of the City of London has been presented to the Chancellor of the Exchequer opposing any attempt to change our monetary system. The address is signed by all the private bankers of the city, by representatives of the principal joint-stock banks and by all the influential merchant bankers with the exception of the Messrs. Rothschild and Messrs. J. S. Morgan & Co. The Messrs. Rothschild, though in full agreement with the address, h sitate to sign because of the susceptibilities of France; and the Messrs. Morgan, while also expressing themselves in full accord with the address, do not think it would be proper for them as American bankers to interfere in such a question. Since the address was presented the Chancellor of the Exchequer has made an important speech at a banquet given by the Lord Mayor, in which he declared most emphatically once more that the Government would not do anything calculated to further the opinion either at home or abroad that it would in any way countenance measures for disturbing our monetary and commercial systems. The speech has given great satisfaction in the city.

All interested in the silver market are waiting anxiously for the settlement of the various questions pending between China and Japan and between Japan and the Continental governments. There have been rumors this week, which are believed to be unfounded, that China refuses to pay an increased indemnity for the retrocession of Port Arthur. The best opinion is that the Continental powers are agreed that some compensation must be given to Japan. It appears, however, to be unquestionable that Russia and France are raising difficulties with regard to Formosa, and there is in consequence some apprehension here that troubles may arise. Meanwhile Russia, Germany and France are urging upon China to accept a European control and are offering their own assistance to raise a large loan if China complies. The belief here is that China will refuse. It is understood that the offer of the Continental Powers is to raise at once 30 millions sterling, so as to insure the immediate evacuation of Chinese territory by Japan, and that a further loan of 30 millions sterling will be raised later on to enable China to carry out the necessary reforms. Hopes are likewise held out that a third loan of 20 or 30 millions sterling will be raised.

Here in London the great financial houses declare such sums to be quite inadmissible, and the probability appears to be that London will take little part in the issues if the amounts now talked of are insisted upon. It is said further that if China accepts a European control the rate of interest is to be only 5 per cent, that Russia will give a guarantee, and that the French and German governments will pledge themselves to secure the success of the loans. As it appears probable now that the negotiations may drag for a considerable time, many of the speculators in silver are growing anxious, and it seems clear that if there is pressure to sell from any quarter there will be a considerable fall. Meanwhile the price is well maintained around 3034d. per ounce, and the Eastern

preparing to fund 40 millions sterling of floating debt, and it has found that investors have of late been selling rentes on a considerable scale to buy South African securities. In consequence it has warned the Agents de Change not to encourage further business in South Africans. The London public is apprehensive that this may cause a falling off in Continental dealing, and the market is less firm in consequence. But the best opinion in Paris seems to be that the intervention of the Government will not have much effect; that South African securities are too popular to be dropped so easily. Meanwhile at the fortnightly settl-ment, which began on Tuesday morning, it was found that the "bull" account in South Africans had not been reduced during the preceding fortnight as much as was supposed. There were still some very large and weak accounts open. The market refused to carry over these accounts, and liquidation has been going on ever since Tuesday. It is believed now that the market is in a healthy state; and unless French buying should altogether cease it is hoped that business will begin again on a very large scale. It is to be remembered, however, that the Whitsuntide holidays are approaching, and also the Epsom Races, and for a week or ten days therefore there is not likely to be much doing.

In the American market likewise there has been less activiy. The buying lately has been chiefly by professional operators. The public have come in to a small extent but not at all in the way that was generally hoped, and the operators are not prepared, therefore, to continue buying. Inter-bourse securities have been fairly well supported although Thursday was a holiday on all 'the Continental bourses. There has been some decline in Argentine securities chiefly owing to the arrival in London of Agents of the Argentine Government for the purchase of ships and munitions of war. It is understood that when difficulties with Chili were apprehended a little while ago and orders to prepare the army and navy for eventualities were given, it was found that stores of all kinds were entirely wanting. The Government, therefore, has decided upon replenishing the stores. It is said that it intends to spend altogether about 2 millions sterling. But the payments will be spread over the next two years, as the purchases in Europe will be chiefly of ships and they cannot be completed for two years. Still, 2 millions sterling is a large sum for a Government in such difficulties as that of Argentina. The Chilian Government gives assurances that it is resolved upon maintaining peace and that the preparations of Argentina, therefore, are quite unnecessary.

At home here British securities of all kinds, and especially British railway stocks, are in good demand. Trade is unquestionably improving. Prices of all kinds are rising somewhat, and the general expectation is that before long there will be a further and a very marked rise. At the wool auctions which have been going on all through the month, the earlier sales were disappointing. Wool of good quality was at freely bought by American merchants at the prices ruling the last sales, but inferior kinds fell off. During the present week, however, there has been a better tone in the market, though not much advance in prices. Still, it is believed that about 70,000 bales will remain unsold. The wheat market, too, is more active and more hopeful; and good accounts are received from the manufacturing districts of both Yorkshire and Lancashire.

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols, &c., compared with the last three vears:

WALL STREET, FRIDAY, JUNE 7, 1895.-5 P. M.

The Money Market and Financial Situation.-The investment demand for securities of all classes which was apparent early last month seems to have become largely satisfied and is no longer a prominent feature of this market. There has been very little reaction, however, especially in the stock market, and prices are generally well sustained.

Recent heavy rains in the West have improved the crop prospects, and the reports of decreased earnings on some of the granger roads is largely lost sight of in view of the hopeful outlook for next season's business

The announcement on Thursday of a reduction in the semiannual dividend on North Western stock, was generally expected and had little or no effect beyond a decline of one point in the stock itself, a part of which it has recovered today.

Considerable interest has centered in the foreign exchange market during the week. The demand for bills has exceeded the supply, and has been met by Syndicate offerings. Under these conditions rates have advanced to near the highest of

the year. With a few exceptions the reports of railroad earnings which have been announced this week show a favorable con-dition of traffic when contrasted with the dull period of a year ago

The money market continues without feature.

The money market continues without feature. The open market rates for call loans during the week on stock and bond collaterals have ranged from 1 to $1\frac{1}{2}$ per cent. To-day rates on call were 1 to $1\frac{1}{2}$ per cent. Prime commercial paper is quoted at $2\frac{1}{2}$ to $3\frac{1}{2}$ per cent. The Bank of England weekly statement on Thursday showed a decrease in bullion of £478,500, and the percentage of reserve to liabilities was 62 19, against 63 40 last week; the discount rate remains unchanged at 2 per cent. The Bank of France shows a decrease of 3,550,000 francs in gold and an increase of 1,500,000 francs in silver. The New York City Clearing-House banks in their statement of June 1 showed an increase in the reserve held of \$2,337,-600 and a surplus over the required reserve of \$41,221,250, against \$39,975,150 the previous week.

Foreign Exchange.—The market for foreign exchange has hardened as the week advanced, and rates are now near the maximum. The offerings of all classes of bills is restricted, the demand being supplied chiefly by the bond syndicate. To-day actual rates of exchange were as follows: Bankers, giving days of the state of the syndicate of the syndicat

sixty days sterling, 4881/4@4881/2; demand, 4891/4@4891/2; cables, 4 891/2@4 893

Posted rates of leading bankers are as follows :

June 7.	Sixty Days.	Demana.
Prime bankers' sterling bills on London Prime commercial	4 89	4 90
Documentary commercial Paris bankers' (francs)	4 874 04 8712	5145,005143
Amsterdam (guilders) bankers Frankfort or Bremen (reichmarks) b'kers'	403,00404	4038 @ 40716

The following were the rates of domestic exchange on New York at the under-mentioned cities to-day: Savannah, buying par, selling ½@1-10 premium; Charleston, buying par, selling ½ premium; New Orleans, bank, \$100 premium, commercial \$100 discount; Chicago, 80c. per \$1,000 pre-mium; St. Louis, 60@75c. per \$1,000 premium.

United States Bonds.-The market for Government bonds has been firm. Sales at the Board include \$8,000 4s, coupon, 1907, at 1131/4; \$20.000 5s, coupon, at 1161/8, and \$50,000 4s, coupon, 1925, at 1235/8.

The following are the closing quotations :

Fine gold bars... par @4 prem. U.S. trade dollars - 55 @-75State and Railroad Bonds.—Sales of State bonds at the Board include \$14,000 Tenn. settlement 3s at 87; \$2,000 Ala-bama Class A at 108½ and \$84,000 Virginia fund. debt 2-3s of 1991 at 603¼ to 62. The railroad bond market has been dull and featureless, with prices generally declining. The exceptions include Ches.& Ohio bonds, which have been among the most active issues, and are from about 1 to 2 points higher, influenced no doubt by the re-ports of earnings, which show an increase of over \$90,000 for the last week in May. St. Louis Southwesterns have made a somewhat smaller gain. Southern Ry. 5s have advanced on liberal sales, and some of the Union Pacific issues are fraction-ally higher than last week. The Atchisons are weak, as the reorganization plan promises to become effective and have declined from about 1 to 2 points. Texas & Pacifics, Mo. Kan. & Tex., Ore. Short Lines, No. Pac. and Wabash issues are among the most active on the list, and are generally lower. U. S. Cordage bonds are specially weak in sympathy with the stock, and have declined about 7 points, closing at $31\frac{1}{2}$. Railroad and Miscellaneous Stocks.—The market for

Railroad and Miscellaneous Stocks. — The market for stocks has ruled dull during the week, and the tendency has been towards lower prices. The foreign demand has been limited. The certainty of a reduced winter-wheat crop and the uncertainty as to spring wheat have been used as argu-ments in favor of the bear element.

ments in favor of the bear element. Notwithstanding these facts and talk about a reduced divi-dend on North Western shares, Burlington & Quincy closed fractionally higher to-day than it did last Friday, and other grangers, including North West., closed only small fractions lower than our last quotations. The coal stoucks have been more irregular and under limited

lower than our last quotations. The coal stocks have been more irregular, and under limited sales Central of N. J. and Del, & Hud. Canal have been weak, and close from ¹/₄ to 3 points lower than last week. Reading has lost over 3 points on liberal offerings, while N. Y. Sus. & Western found no support until to day, under continued selling pressure, and the common has declined from 12½ to 8½ and the pfd. from 36½ to 25½ within two weeks. It is reported to day that the Treasurer of the company has been served with a copy of an attachment for \$3,400 against the company. company

The industrials seem to have received their share of atten-The industrials seem to have received their share of atten-tion. Am. Sugar has been unusually steady, ranging from $117\frac{1}{4}$ to $118\frac{3}{8}$, at which it closes. U. S. Rubber common has been active and declined several points, presumably as the re-sult of profit-taking, as there have been no new conditions announced. General Electric has fluctuated between $35\frac{1}{4}$ and $37\frac{3}{6}$ on various reports about its relations with the Westinghouse Company. U. S. Cordage has reached another epoch in its history and has gone into the hands of receivers, as a result of which the common closes at $1\frac{5}{6}$ and the pfd. at $3\frac{1}{6}$. U. S. Leather has been steady. THE CHRONICLE.

THE CHRONICLE.

1005

Investment Kailroad Intelligence.

RAILROAD EARNINGS.

KAILROAD EARNINGS. The following table shows the gross earnings of United States railroads (and also a few Mexican and Canadian roads) for the latest period reported. The statement includes every road from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

Total (59 roads)	7,521,758	7,064,358	646,943	189,543
Net increase (6.47 p			457,400	

For the month of May 82 roads (all that have furnished statements for the full month as yet) show aggregate results as follows :

1

EDAGEE

Month of May.	1895.	1894.	Increase.	Per Cent.
Gross earnings (82 roads)	\$ 31,699,153	\$ 29,882,936	\$ 1,816,217	6.08

It will be seen there is a gain on the roads reporting in the amount of \$1,816,317, or 6.08 per cent.

Net Earnings Monthly to Latest Dates .- The table following shows the net earnings reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the CHRONICLE of May 25, 1895. The next will appear in the issue of June 99 1805

a Not earnings here given are after deducting taxes. b Not earnings here given are before deducting taxes. * After deducting proportion due roads operated on a percentage basis and results of operations of auxiliary compavies, bet in April, 1895, was \$265, 791, agalast \$22,333 in 1894, for four months ended April 30 \$-97,349, agal \$t \$651,124, and for seven months from Octo-ber 1 to April 30, \$2,151,665, against \$2,456,918. * After deducting other expenditures for repairs, replacements and general expenses, net income applicable to interest on bonds in April was \$88,729 against \$77,163 last year, and for four months to April 30, \$32-,527, against \$291,972; after adding earnings received from Federal Government bet from January 1 to April 30, 1894, was \$369,-41. This is the result in Maxican dollars treated (according to the company's method of keeping its accounts) as equi-valent to 80 cents in United States money-that is, all depreciation beyond 20 per cent has already been allowed for.

GENERAL INVESTMENT NEWS.

Atchison System-St. Louis & San Francisco.-The re-Atomson System—St. Louis & San Francisco. The fee ceivers give notice that they will pay on and after June 15 next, at their office, 120 Broadway, New York City, coucon No. 26, due Jan. 1, 1895, from St. Louis & San Francisco Ruilway Co. general mortgage5 per cent and 6 per cent bonds.—V.60, p.523.

general mortgage 5 per cent and 6 per cent bonds. --V.60, p.523. Atchison Topeka & Santa Fe. --The deposits under the re-organization plan have continued very heavy, the total de-posits of general mortgages up to Friday amounting to \$90,-000,000. The Protective Committee representing stockholders of the Atchison Co. has issued a circular withdrawing its objections to the reorganization plan and recommending that it be supported by all security holders. The present plan is a modification of the one first objected to. The committee comprises Theodore W. Myers, Benjamin F. Tracy, Henry Clews, E. N. Tailer, C. H. Allen and M. F. Dickinson. --V. 60, p. 967. p. 967.

Atlanta & Florida.—At Atlanta, Ga., June 4, this road was sold in foreclosure and bid in for the bondholders for \$275,000. V. 60, p. 794.

-V. 60, p. 794. Buffalo & Niagara Falls Electric Ry.-Buffalo & Tona-wanda Electric Ky.-An agreement for the consolidation of these companies, forming the Buffalo & Niagara Electric Railway, was filed on Tuesday with the Secretary of State. The route of these two railroads forms a continuous line, but neither road has been yet constructed. The directors of the consolidated company are W. Caryl Ely, Charles B. Gaskell and Burt Van Horn, Jr., of Niagara Falts; Robert L. Fryer, Henry H. Pierce, George H. Dunbar and John J. McWilliams, of Buffalo; Frank A. Dadley, of Niagara Falls, and Willard P. Whitlock, of Elizabeth, N. J. The authorized capital is \$1,250,000.-V. 60, p. 873 Called Bonds.-The following bonds have been called for

Callel Bonds .- The following bonds have been called for payment :

AMERICAN COTTON OIL - Two hundred and fifty-eight 8 per ant depenture hands will be paid off on August 1. The cent debenture bonds will be paid off on August 1. The numbers of the bonds drawn and other information will be found in our advertising columns.

Canada & Michigan Funnel & Bridge Company.-The bill to authorize the construction of a railroad bridge between Detroit and Windsor has received the assent of the Railway Committee of the House of Commons. The bridge must be commenced within five years and finished within seven. If

ized for FRASER

will be a cantilever, with a drawbridge in the center, having a span of 1,000 feet. The drawbridge will be 45 feet above the level of the river. It was originally the intention of the company to build a tunnel, but this idea has been abandoned. -Railroad Gazette.

-Railroad Gazette. Cape Fear & Yadkin Valley.-Messrs. C. Adolphe Low, George F. Baker and William E. Strong, with Seward, Guth-rie, Morawetz & Steele, 25 Nassau Street, New York City, as counsel, give notice that at the request of holders of a large number of first mortgage bonds, Series A, they have ag eed to act as a committee to protect the interests of such holders as distinguished from the separate and conflicting interests of the holders of Series B and C bonds. Series A bonds are therefore requested to communicate with the committee, in order to protect mutual interests. The first mortgage bondholders' committee, of which Wm[•] H. Blackford is Chairman, referring to the above notice, state that with them have been deposited bords of Series A to the amount of \$1,157,000 out of a total issue of \$1 500,000, and that they have requested the trus'ee under the mortgage to post-pone any application for a decree of foreclosure until a plan

they have requested the trustee under the mortgage to post-pone any application for a decree of foreclosure until a plan of reorganization, which they are now considering, can be formulated and submitted to the bondholders, as provided in the bondholders' agreement. They further state that they represent bonds amounting to \$2,655,000 of all the series, out of a total issue of \$3,054,000.-V. 60, p. 794.

of a total issue of \$3,054,000.--V. 60, p. 794. Central Railroad & Banking Company of Georgia.--Samuel Thomas and Thomas F. Ryan issued on Wednesday the plan which they have prepared for the reorganization of the Central RR. & Banking Co. The plan contemplates the sale to a new company, to be called the Central of Geor-gia Railroad Compaoy, of all the prop-rties of the present corporation, by the purchasers under foreclosure of the tri partite or consolidated mortgage, or both, and of the securi-ties pledged for the floating debt. The purchasers under the foreclesure sale, on condition of acquiring title thereto, agree to free the property of the Savannah & West-ern and the Chattanocga Rome & Columbus from any claims of indebtedness to the Georgia Central, and also to pay the underlying bonds issued by the Columbus & Western Railroad Company of \$300,000 and the Rome & Carrollton bonds of \$150,000. They will also pay al the expenses of the reorganization, all of the secured floating debt of the Georgia Central, the tripartite b nds, with interest, and the ascertained debts of the receivership.

Georgia Central, the tripartite bonds, with interest, and the ascertained debts of the receivership. The new first mortgage bonds, the proceeds of which will be used in retiring the tripartite bonds, have been under written by a syndicate. The plan has been approved by the holders of a majority of the capital stock of the company, by the committee of the holders of certificates of ind-bted-ness, by the underwriters of the proposed first mortgage bonds and by the committee representing the first mortgage bond-holders of the Mobile & Girard R aliroad Company. The cash requirements of the plan other thu n for nayment.

The cash requirements of the plan other than for payment of the tripartite bonds are provided for by the consolidated mortgage.

mortgage. The Southern Railway Company as owners of a majority of the stock of the old company, it is understood, will control the reorganized company. Presumably it will own the entire capital stock of said company, since the plan says nothing re-garding the disposition of this stock. The stock of the old company held by the public is made exchangeable for third reorganeous preference incomes.

Under this plan the fixed charges will be reduced to \$1,815,000 a year, a figure believed to be well within the earn-ing capacity of the system, as against \$2,700,000 under the

ing capacity of the system, as against \$2,700,000 under the present arrangement. The Savannah & Western consols for \$6,127.000 held by the public are subject, it is pointed out, to \$1,000,000 prior bonds, and cover disjointed sections of road upon which is a large floating debt and no equipment. Under the plan all prior liens are discharged, an additional \$1,628,000 of the loan held by the Central of Georgia is canceled, and a new mortgage is created which will have an absolute first lien. This is the so-called general mortgage for \$4,000,000. The bonds not canceled will receive 50 per cent of their par value in this new mortgage, which is well within the earning capacity of the road, and the balance in preference incomes, which are in-comes on the entire system. New Securities.—The plan provides for the following new

New Securities .- The plan provides for the following new securities :

Securities : A. \$7,000.000 first mortgage 50-year gold bonds, bearing 5 per cent interest, secured by a first lien on the main line from At a ta to Sa-vannah, inclucing the Milledgeville brauch, all equipment and appur-tenances and the equity in the steamship procerties. B. \$13,000,000 consolidated mortgage 50-year gold bonds, bearing 5 per cent interest, secured by a second lien on the main line, its equipment and appurtenances, and a lien upon all leaseholds, securi-ties and properie a equired by the new company, now owned by the Central Railroad & Baking Company of Georgia, subject to all exist-ing contracts and lient, so far as accented by the new company, and a first lien upon the Montgomery & Eufaula Raitroad and a sec nd lien upon the Mobile & Girard Railroad and their equipment, property and appurtenances, if and when titles thereto are acquired by such new company. company

This issue of consolidated bonds may be increased \$2,000,000, at the rate of not more than $\pm 500,000$ in any one year, the proceeds of such increase to be used by the new company strictly for the purposes of betterments and purchase of equipment for the railroads covered by this mortrage. This issue of consolidated bonds may be increas d to \$20,000,000 on condition that the \$7,000,000 first mortgage bonds above mentioned are not executed or used, with the same right as above stated to increase such issue by \$2,000,020. C. \$4,000,000 50-year 4 per cent general mortgage golds bonds, se-cured by a *first lien* on the Savannah & Western and Macon & North-

RUNTICLE.

Particulars regarding the depositing of assenting securities with the Central Trust Company are given in our advertising columns.-V. 60, p. 967.

Columns.— v. 60, p. 507. Chesapeake Ohio & Southwestern.—The receivers give notice that coupon No. 27, due Feb. 1, 1895, on the first mort-gage bonds of that company, will be paid on June 8, with in-terest at the rate of 6 per cent a year from Feb. 1, 1895, at the National Bank of the Republic of New York or at the receiv-ers' office in Louisville, Ky.—V. 60, p. 928. Chicago City Pailway.—The directors of the Chicago City.

Chicago City Railway.—V. 60, p. 925. **Chicago City Railway.**—The directors of the Chicago City Railway announce that an issue of \$1,000,000 in new stock will be made July 1 to the present stockholders at par. Authority for this was voted at the annual meeting in January.—V. 59, p. 919.

Chicago & North Western .-- The annual meeting of stock-

Chicago & North Western.—The annual meeting of stock-holders was held at Chicago on Thursday. A dividend of 1½ per cent was declared on the common stock and on the pre-ferred stock a dividend of 1¾ per cent. The resolution by which the dividend is declared recites that business of the fiscal year ending May 31, embracing the actual result for eleven months, and that of the month of May closely estimated, shows a falling off in passenger earn-ings of \$2.160,732 and a decrease o' freight and misc-llaneous of \$1.667,524. This makes a total decrease in gross earnings of \$3.828,256 and an approximate net result of \$2.887.705 applic-\$3,828,256 and an approximate net result of \$3,887,705 applic-able to dividends, inclusive of net railroad earnings and of net earnings derived from free land sales and other miscellaneous receipts.

As the preferred stock is entitled to a dividend of 7 per cent As the preferred stock is entitled to a dividend of 7 per cent for the year and as the company declared 2½ per cent upon the common stock in December last an undivided approxi-mate amount sufficient for a further dividend upon the com-mon stock, ranging within a fraction of 1½ per cent for the last six months and constituting a dividend equal to 4 per cent upon the common stock for the entire year, is left. Upon this showing the dividend was declared. The following directors were elected for three years to suc-ceed those whose term expired : Marvin Hughitt, N. K. Fairbanks, Oliver Ames 2d. James Stillman and Zonas Crane.

ceed those whose term expired : Marvin Hughitt, N. K. Fairbanks, Oliver Ames 2d, James Stillman and Zonas Crane.

JUNE 8, 1895.]

C. H. McCormick was elected for one year to fill the unex-pired term of Percy R. Pyne, deceased. Officers were elected as follows: Chairman of the Board, Albert Keep; President, Marvin Hughitt; Vice-President, Secretary and Treasurer, M. L. Sykes; Assistant Secretary and Assistant Treasurer, S. O. Howe, and Au litor and Assist-ant Secretary, J. B. R. dield; Executive Committee, Albert Keep, Marvin Hughitt, C. M. Depew, H. McK. Twombley, S. F. Barger, David P. Kinball, W. K. Vanderbilt and James C. Fargo. V. 60, p. 873.

C. Fargo.-V. 60, p. 873. **Distilling & Cattle Feeding**.-At Chicago, on Thursday, Edwin Walker filed his amended and supplementary bill in the Central Trust Company application for an injunction against the Whiskey Trust. Judge Showalter on Monday refused to grant an injunction under the original bill, hold-ing that the lien of the Central Trust Company under the bond issue mortgage was being protected by the receiver. The supplementary bill declares that the interest due June 1 on the company's bonds was not paid and prays that the receiver be ordered to pay the full amount. It also prays that the trust company may have leave to apply for the ap-pointment of a receiver, and for a writ of injunction here-after, if it shall become necessary for the protection of the trust company's interest in the estate and the property.-V. 60, p. 928. V. 60, p. 928.

Frankfort & Southeastern.—This road, formerly operated by the Toledo Ann Arbor & North Michigan, has been sold under a decree of the United States Court to George Lord Day of New York and A. C. Hall of Connecticut for \$100,000. The purchasers have organized a new company called the E-canabee Frankfort & Southeastern.

He purchase Frankfort & Southeastern. Herring-Hall-Marvin.—The contest between the Eastern and Western stockholders for control of the Herring-Hall-Marvin Company has resulted in a victory for the Eastern stockholders. This will lead to placing the management of the various companies which went into the organization un-der the control of the parties who managed them before the combination was effected; that is, the Herring people will take absolute control of the Herring business and manufacture the Herring safes; Hall will take charge of the Hall business and manufacture the Hall safes; Marvin will take charge of the Marvin business and manufacture the Marvin safes. Farrell & Co. and Myers & Co., of Philadelphia, will be under the control of those who formerly managed these concerns A new President will be elected tor the H rring-Hall-Marvin Company at the first meeting of the bourd. The by-laws have been amended to provide for these changes in the man-agement of the company. The safe manufacturers have been agement of the company. The safe manufacturers have been cutting prices both on safes and vault work. Many large con-tracts in vaults have been taken by a number of the prom-inent makers at prices considerably below cost. An attempt is being made to stop this warfare.—Journal of Commerce and Commercial Bulletin.

Kansas City & Omaha – Union Pacific. — At St. Paul, Minn., May 30, attorneys for the bondholders' committee of the Kan-sas City & Omaha made application to Judge Sanborn for leave to file a bill against the receivers of the Uaion Pacific for the foreclosure of the first mortgage of the Kansas City & Omaha, one of the branches of the Union Pacific, and the order was granted. The bill prays for separate receivers, as well as for the foreclosure of the bonds. The bonds amount to \$2,713,000.-V. 60, p. 969.

to \$2,713,000.-V. 60, p. 969. Lake Street Elevated (Chicago.)-Announcement is made of an agreement between the Lake Street "L" and the Columbia Construction Company, by which interest due on Lake Street bonds will be paid without enforcing the agree-ment relating to non-cancellation. There was due April 1 in interest \$178,500, and the money was deposited with the American Trust & Stving; Bank as trustee. There was some trouble, however, and the Construction Company, which had loaned the money, refused to allow it to be paid out with-out certain conditions being agreed to. The agreement which is reached is thought to be in the nature of a concession to is reached is thought to be in the nature of a concession to the Ziegler interests.—*Chicago Tribune.*—V. 60, p. 836.

Little Rock Traction & Electric.—V. 60, p. 836. to have been organized to control all the street railway lines of Little Rock, Ark., which were recently sold in foreclosure. —V. 60, p. 967.

Long Island Traction.—The reorganization plan cannot yet be obtained for publication, but it is understood to provide for an assessment of \$10 a share. Ex-Gov. Flower is quoted as saying:

"At first it was supposed that the company would be all right if th re was an assessment levied of \$5 a share, but we have found the road in pretty bad shape, and the money needed to carry everything through will be nearer to \$10 a share."—V. 60, p. 795.

through will be nearer to \$10 a share."-V. 60, p. 795. **Manchester & Lawrence-Concord & Montreal.**-A de-spatch from Concord, N. H, June 6, states that the Supreme Court there has rendered a decision in the case of the Man-chester & Lawrence Railroad against the Concord & Montreal Railroad for a division of profits while the two roads were being run in partnership. The court gives to the Manchester & Lawrence Company the same award as returned by the referees, excepting a two fifths interest in the Manchester & North Weare Railroad. The Manchester & Lawrence, however, gets a ca h award and interest amounting to about \$475,000; also a two-fifths interest in the Manchester & Reene road, and a similar interest in the Manchester & Keene road. The entire amount of the award is understood to be about \$800,000.-V. 59, p. 650.

Marietta & North Georgia.-At Atlanta. Ga., in the United States Court, Judge Newman on Tuesday signed an order for the sale of this railroad within the next 60 days. The upset The upset

States Contr, States Lewman on thestay signed an order to the sale of this railroad within the next 60 days. The upset price is fixed at \$900,000. --V. 58, p. 866.
This is the second decree. For legal reasons the first decree of foreclosure was never operative. The road is to be off-red first in five parcels, the upset price being as follows: 1. That portion of the road lying in Teanessee, exclusive of the bridge over the Tennessee River at Knoxville, \$325,000; (2) the bridge over the Tennessee River, \$40,000 [the certificates of the receiver issued for the purpose of building the bridge are declared a hea prior in right to the mortgage of the Central Trust Company]; (3) that portion of the road in Georgia between the town of Marietta and the Tennessee line, \$550,000; (4) the narrow-gauge line from Blue Ridge to the State limits, \$15,000 [the bonds of the Boston Safe Deposit & Trust Company are decreed a lien upon this property]; (5) The narrow-gauge in North Carolina, \$12,000, the mortgage to the Central Trust Company being a prior lien on this portion.

Metropolitan Street Railway, N. Y.—This company oper-ates all the lines of the Metropolitan Traction C.». Earnings for the quarter and the nine months ending March 31, 1895, have been reported as follows :

Mexican National.-An arrangement was officially an-Mexican National.—An arrangement was officially an-nounced by the Mexican Government on May 21 for the con-version of the subsidy certificates issued to the Mexican National Construction Company into 5 per cent interior debt bonds of the Mexican Government. There remained \$3.335,-685 77 certificates pledged with the trustees of the Mexican National Railroad first mortgage bonds, their proceeds to be applied to the redemption of the railway bonds. Under the new arrangement these certificates will be replaced with the Government bonds; the certificates collectible to March 1, 1895, to be rated at par, and collections after that date to be Government bonds; the cartineates conectible to Match 1, 1895, to be rated at par, and collections after that date to be discounted at 7 per cent per annum on an estimated encash-ment of \$0,000 monthly. The sum so ascertained is to be converted into bonds at 72 per cent. The Government by this arrangement is relieved from the considerable monthly payments neretofore made.—V. 60, page 562.

payments neretorore made. — V. 60, page 363. Mexican Northera.—At the annual meeting in New York this week the entire board of directors, consisting of Robert S Towne, A. R. Mayer, N. Witherell, E M. Shep-ard, A. Foster Higgins, Georg + Foster Peabody and W. F. Dummer was re-elected. The annual report showed gross earnings, \$642,091; operating expenses, \$338.121; net earn-ings, including miscellaneous receip's \$343,161; fixed charges \$139,005; surplus earnings, \$209,156. The directors de-clared a quarterly dividend of 1 per cent, payable June 15. —V. 60, p. 482. -V. 60, p. 482.

Milwankee Street Railway,—A committee consisting of Frederic P. Olcott, Cnairman; Arnold Marcua, Secretary (15 Broad Street), William Nelson Cronwell and Churles W. Wetmore, have issued a plan of reorganization under which the stock and consolidated mor gage bonds are to be depos-ited with the Central Trust Co in exchange for negotiable receipts. The plan is to become effective as soon as holders of two-thirds the bonds and a majurity in amount of the of two-thirds the bonds and a majority in amount of the stock shall have been deposited. The assent of security-holders largely in excess of a majority of each class has al-ready been obtained. The new securities are to be as follows:

The committee may at its discretion provide for the issue of this \$1,0.0,000 of consols, or of the \$1,000,000 preferred stock, or b bh, for the acquisition from time to time "of new properties, for increas-ing, extending and developing the railway and lighting plants, for permanent betterments and improvements, or for the purchase of new or additional machinery, appliances and equipm mt." The preferred stock will also be entitled to share equally with com-mon stock in any dividends after 5 per cent has been paid on sommon.

The old securities are to be exchanged for new securities as follows:

The new mortgage is to cover all the properties of the Mil-The new mortgage is to cover all the properties of the Mil-waukee Street Railway Company with the exception of some real estate not used by the company, and the proceeds of which, after sale, are under proper restrictions to be used for betterments and improvements.—V. 60, p. 929. **Michigan Peninsular Car.**—This company announces by circular that the company is again compelled to pass is pre-ferred stock dividend. The management feels much encour-aged by the brighter outlook. The pipe works, rolling mill, forge and the Peninsular Car plant have been in full operation

during the greater part of this quarter and present orders will keep them employed until the middle of July.-V. 59, p. 778.

Missouri Kansas & Texas .- The wisdom of paying the August coupon on the second mortgage bonds, which is the last not obligatory, is being discussed by some of the foreign bondholders, and some have written to houses here suggest-ing that though the earnings are so large it would be more conservative not to pay it. Heretofore 2 per cent per annum has been regularly paid, the last payment being that of the coupon due Feb. 1, 1895.—V. 60, p. 749.

New York & Brooklyn Tannel.—Mayor Strong has approved the bill giving this company the right to build a tunnel under the East River.

New York & New Jersey Bridge.—This company has formally accepted the plan for a bridge across the Hudson River offered by the Union Bridge Company of this city. The plan provides for a suspension bridge with a centre hinged stiffening truss, the cost guaranteed by the company not to exceed \$25,000,000. The bridge is described in part as follows: as follows :

not to exceed \$25,000,000. The bridge is described in part as follows: It is to span the river without any support between the pier-head line on either shore; to have a clear opening of 3,110 feet, and a height at the centre of 150 feet in the clear above high water, with the grade running downward from that point on the New York side 35 feet to the mile. There will be six tracks on a level, designed to carry 3,000 pounds per liceal foot on each track, with excess for engine loading. The loading upon these tracks will be distributed by two stiffening trusses on either side, hinged at the centre. These trusses are of the bow-string order, with an extreme height of 200 feet and are spaced 125 feet apart, centre to centre. They are to be construc-ted of high grade "medium" steel, fulfilling all the conditions of the best practice. The cables sustaining the roadway are twelve in number, two on either side of the stiffening trusses and four between the trusses; arranged so as to divide the cross floorbeams into three equal lengths. The New York approach consists of one deck span 400 feet long crossing over the "New York Central" tracks. From the New York anchorage, eastward, the tracks would occupy a space 100 feet wide on the north side of Sixty-eighth Street.-Vol. 60, p. 432, New York & New England,-Foreclosure sale under the

New York & New England.—Foreclosure sale under the second mortgage is advertised for July 9. It is understood that all legislation required by the reorganization committee has now been obtained.—V. 60, p. 968.

New York New Haven & Hartford .- A bill before the Con-New fork New naven & narritora.—A oll before the con-necticut Legislature provides that any railroad company after acquiring three-quarters of the stock of any wharf, bridge ferry or railroad company may take the rest by appraisal. This bill if passed and held constitutional will enable the New York New Haven & Hartford to complete its consolidation with roads like the New Haven & Northampton, Shore Line, etc. only a small portion of whose stock remains in the hands etc., only a small portion of whose stock remains in the hands of the public.—V. 60, p. 968.

of the public.—V. 60, p. 968. New York Susquehanna & Western.—The N. Y. Evening Post says in regard to the rumors that this company is having difficulty with its floating debt that, according to an official statement, "the bonds issued were not sufficient to meet the expense of constructing the Wilkesbarre and Eastern exten-sion and the Weehawken terminals, and the amount had to be procured in other ways by the company. This absorbed earnings and compelled the making of some new loans." A meeting of the directors was held on Friday afternoon. At the close of the meeting President Borg stated that the assets of the company were far in excess of the liabilities and there was no basis for the rumors of a receivership.—V. 60, p. 874.

60, p. 874.

Niagara & Lewiston.—Application for authority to increase the capital stock of this company from \$100,000 to \$1,400,000 has been granted by the State Commissioners. The company proposes to build an electric line along the banks of the Niagara River from Niagara Falls to Lewiston.

Ohio Southern.-The first mortgage coupons due June 1 were not paid.-V. 60, p. 874.

Orange Mountain Cable.—The sale of this road was ad-journed indefinitely, there being no bids for the property.— V. 60, p. 968.

Oregon Short Line & Utah Northern-Union Pacific. At Portland, Ore., June 4, Judge Gilbert of the United States Circuit Court, signed the order appointing John M. Egan re-ceiver of the Oregon Short Line and granting authority to issue \$750,000 receiver's certificates to pay interest on bonds due. 1

A dispatch to the *Evening Post* from Omaha under date of June 5 says in part: "There is a general feeling about Union Pacific headquarters here that the American Loan & Trust will, through separate receivers, succeed to the control of the Oregon Short Line & Utah Northern, now a part of the Union Pacific. In view of the somewhat complicated condition of affairs, all eyes are directed toward Salt Lake, where the final battle is to be fought before Judge Merritt of the Territorial Court. Should he include the Southern extension in the order of the transfer it will put an additional obligation, represent-ing defaulted interest, upon the successor receiver. It is con-tended that in equity Judge Merritt can do nothing less than protect the first mortgage interests, which are in his court. The Union Pacific people are now asking themselves whether the American Loan & Trust Company will accept so onerous a burden. Those in a position to know believe that the money will be forthcoming."—V. 60, p. 968. **Pennsylvania Company—Pennsylvania Railroad.**—The

Pennsylvania Company-Pennsylvania Railroad.-The annual report of the Pennsylvania Company shows a loss for the year after paying all expenses, interest on bonded debt, rentals, advances, etc., of \$687,476 as compared with a profit

for the year 1893 of \$1,050,476, for 1892 of \$1,229,974 and for 1891 of \$1,725,938.-V. 60, p. 873.

Pittsburg Cincinnati Chicago & St. Louis.—The \$552,000 first mortgage 7 per cent bonds of the Cincinnati Richmond & Chicago will be paid off at maturity July 1, 1895, on pres-entation to the Union Trust Company, No. 80 Broadway, New York City.—V. 60, p. 662, ¹

Pittsburg Cleveland & Toledo.—The stockholders of this railroad company will meet July 10 to vote on the proposition to authorize the issue of \$4,000,000 fifty-year 4½ per cent gold bonds, to be secured by mortgage, and also on the question of purchasing the railroad and property of the Trumbull & Mahoning Railroad Co.

honing Railroad Co. **Pittsburg & Eastern.**—A contract is reported to have been let for the construction of the first division of this road from Mehaffey, Clearfield County, to Rankin Summit, a dis-tance of 18 miles. The division is to be ready for operation by October 1. It will develop the Cush Creek and Glen-Campbell coal districts and open up timber tracts near Burn-side, Clearfield County. The second division of the road will be 45 miles long and extend to Saltsburg, Indiana County. The contract for its construction, it is said, will probably be given out later in the season. The road is projected to a point near Pittsburg. S. H. Hicks of Philadelphia is Presi-dent.—V. 60, p. **Pittsburg Ft. Wayne & Chicago** —The comparison of this

Pittsburg Ft. Wayne & Chicago .- The earnings of this company for the year ending December 31 are as follows:

Pueblo City.-Judge Halleck, in the Federal Court a Pueblo, Col., has ordered the foreclosure sale of the Pueblo City Railway.

City Railway. Pullman Palace Car.—At Chicago, June 1, in the suit brought by Attorney-General Moloney against this company, Judge Baker sustained only two of the charges against the company. One was that the company had exceeded its power in becoming the owners of twenty-three acres of land in the town of Pullman which had been put to no use, and the other was that it violated its charter in becoming the owner of a part of the stock of the Pullman Iron & Steel Company. The Court holds that the company had the right to do the following: To erect a ten-story office building in Chicago and to rent part of it to tenants; to sell intoxicating liquors in its cars; to purchase the land upon which the town of Pullman is built and to erect thereon dwelling houses to be rented to its employees; to erect schools and a church in the town of Pullman, and to sell to the tenants of its houses water and gas.

The employees, to effect schools and a church in the town of Pullman, and to sell to the tenants of its houses water and gas. The two interests in which the company was defeated by the Court, and which it will have to sell, involve, it is said, about \$50,000. In other respects the company is unaffected. The Attorney-General proposes to appeal the case to the Su-preme Court.—V. 59, p. 741.

Reorganization Plans, etc.-The following is an index to all defaults, foreclosure sales, reorganization plans, the names of all reorganization committees, and all statements respecting of all reorganization committees, and all statements respecting the payment of overdue coupons, that have been published in the CHRONICLE since the April edition of the INVESTORS' SUPPLEMENT was issued, all earlier facts of this nature being set forth in that publication. It does not, however, include matter in to-day's CHRONICLE. The following abbreviations are used: *Plan* for reorganization

or readjustment plan; coup. for coupon payments; def. for default ; Com. for committee.

\$424,665 69

MASONRY, BRIDGES AND CULVERTS.—The double-track iron bridge over the slough at Rock Island, Ill., mentioned in our last report, has been completed during the year. Total cost, \$40,774,13

last report, has been completed during the part of \$49,774 13.
In Iowa and Missouri, new stone abutments and piers have been placed under eighteen (18) bridges.
During the year pile and trestle bridges aggregating over 21,000 feet in length have been replaced by permanent work or filled with earth, at a cost of \$197,288 00, which amount has been charged to Operating Expenses.

NEW BUILDINGS .- New depots have been built at Udell, Iowa, and Round Pond and South Enid, Ol lahoma.

A grain elevator at Indianola, Iowa. Track scales have been placed at DuBois and South Bend, Neb., and Ramona, Kan.

WATER SUPPLY.—Pumping stations have been erected at West Liberty and Evans, Iowa, and Herington, Kan., while improvements to water supply have been made at Dwight, Montrose and Lebanon, Kan., Bethune and Calhan, Col., and

Montrose and Leoanon, Kan., Betnune and Canan, Con, and Hennessy, Oklahoma. Street gates have been erected at various crossings in Chi-cago and other points on the Illinois Division. The Hall Block Signal System has been established between

Englewood and South Englewood, Ill., and at Moline and Rock Island, 111.

An interlocking plant has been placed at the crossing of the A. T. & S. F. RR. at Peabody, Kan.

EQUIPMENT.—The passengar equipment has been improved by providing cars with air signals and gas-lighting fixtures.

SIDE TRACKS .- Additional side tracks have been constructed on the various divisions of the road, aggregating 3.16 miles.

miles. TRACK ELEVATION.—Under an ordinance passed by the City Council of Chicago July 9, 1894, this Company was re-quired to clevate its tracks between Sixteenth and Seventy-second streets, the work to be completed by August 1, 1899. The expense for that portion of the work between Sixteenth Street and Englewood (Sixty-first Street) will be borne equally by this Company and the L. S. & M. S. Ry. Co. Work was commenced August 15th, 1894, and at the close of that year had been completed from Sixteenth Street to south of Twenty-third Street, at a cost to this company of \$139,567 03. This amount includes \$50,000 00 paid to the City of Chicago as a contribution toward the liabilities for land or business damages which may be incurred by reason of the elevation of the tracks, which liabilities, by the ordinance, the City of Chicago assumes. Work was discontinued dur-ing the winter, but was resumed in April, and is progressing satisfactorily. It is contemplated to build about two (2) miles this year. The total length of the elevated track, when completed, will be about seven (7) miles. By this improve-ment trains will be enabled to make better time through the city, and avoid grade crossings, which in the past have im-mended large express in their maintenance as well as in the city, and avoid grade crossings, which in the past have im-posed large expense in their maintenance as well as in the way of damages for injuries to persons and property.

THE CHICAGO ROCK ISLAND & TEXAS BAILWAY.

THE CHICAGO ROCK ISLAND & TEXAS KAILWAY. The above road, mention of which was made in our last report, has proved a very valuable addition to this Company's system. Making connection at Fort Worth, Texas, with the various systems centering at that point, opens up a terri-tory which heretofore has never furnished this Company any business. The road, in addition to paying its operating ex-penses, has earned and paid interest on entire cost of con-struction, and served as a feeder to this Company's lines for a large amount of business. large amount of business.

To the officers and employees of the Company, who have so successfully contributed toward maintaining the road in its present efficient condition, the thanks of the Board of Directors are extended.

All of which is respectfully submitted. R. R. CABLE,

President.

United States Cordage .- On Monday Mr. John I. Water-United States Cordage.—On Monday Mr. John I. Water-bury, President of the Manhattan Trust Company, and Mr. William E. Strong of the Stock Exchange house of Work, Strong & Co., a partner of President F. K. Sturgis, were ap-pointed receivers of the United States Cordage Company in all the States in which the property of the company is located. The receivership is the first step in the reorganization of the property under the plan below described. Under date of June 5 a committee consisting of Frank K. Sturgis. William Barbour and John I. Waterbury, with T. H. Wentworth as Secretary (No. 2 Nassau Stree), announce that they have prepared and deposited with the Manhattan Trust Company a plan of reorganization subscriptions to the \$3.-

Company a plan of reorganization subscriptions to the \$3,-500,000 of new first mortgage bonds proposed have been un-derwritten. Of the \$3,000,000 to be subscribed \$1,400,000 will be required to pay prior liens and the balance will be available for working capital. The plan provides in substance as follows:

follows:
First-The organization of a corporation to acquire the real estate and other properties of the present company.
Second-The issue of the following securities:

(a) \$3,000,000 first morigage 6 per cent fifty-rear gold bonds.
(b) \$7,500,0:0 consolidated morigage 5 per cent fifty-rear gold bonds,
(b) \$7,500,0:0 consolidated morigage 5 per cent fifty-rear gold bonds,
(c) \$1,500,0:0 consolidated morigage 5 per cent fifty-rear gold bonds,
(b) \$7,500,0:0 consolidated morigage 5 per cent fifty-rear gold bonds,
(c) \$1,200,0:0 consolidated morigage 5 per cent fifty-rear gold bonds,
(c) \$1,200,0:0 consolidated morigage 5 per cent fifty set to any dividend upon the stock of the company in any year, there shall be paid upon the consolidated bonds a further amount not to exceed 2.5 per cent from profits, if such profits shall justify the same, in c se there are arrears of interest equal to said amount; otherwise to the amount of such interest as may be in arrear.
(c) \$1,2,000,000 common stock.

Justify the same, in c se there are arrears of interest equal to said amount; otherwise to the amount of such interest as may be in arrear. (e) \$12,000,000 common stock.
Trird-The holders of boads and stocks of the present company who shall become parties to the reorganization, and shall deposit the same as the commutation, and shall deposit the same as the commutation of the present outstanding issue of \$7,50°,0°0° of boads and stock as the commutate, shall be entitled to rec ive boads and stock as the commutate, shall be entitled to rec ive boads and stock as the commutate, shall be entitled to rec ive boads and stock as the interest coupon n aturing July 1, 1895, to be raid also in like bonds.
(b) Every holder of guaranteed stock shall subsc the at par for said prophecoming party to the arreement, and the remander in three instalments upon the call of the committee upon not less than ten days' notice, and shall receive upon the completion of such payments, and upon the part to the arreement of \$3,00°,0000 to the adjusted, and shall also receives 80° per cent in the common stock of the new company at par upon the part value of his said holding deposited under the agreement.
They holder of preferred stock shall in like manner subscribe at par for said new first mortgage bonds to the amount of ten dollars per share for his respective holding, and shall pay \$2° 50° per share upon becoming party to the agreement and the remainder in three instalments as above provided, receiving bonds to the amount of ten dollars per share for his respective holding, and shall pay \$2° 50° per share upon becoming party to the agreement and the remainder in three instalments as above provided, receiving bonds to the amount of such cash payment and forly per cent of common stock of the new company at par upon the par value of his holding of preferred stock.
The said new first mortgage bonds to the amount of instalments are upon becoming party to the agreement and the remainder in three instalments as a

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, June 7, 1895.

FRIDAY NIGHT, June 7, 1895. Business continues good. Holders of supplies at first hands display a considerable measure of confidence and sustain the previous plane of values steadily. Manufacturers of staple commodities are as a rule well supplied with orders. Specu-lation in leading articles of merchandise has been conducted with greater caution, but very good general support was' given previous investments. The domestic wool clip is run-ning behind quantity secured last year, but the deficit is largely balanced by importations of foreign stock. The following is a comparative statement of stocks of leading merchandise at dates given:

	May 1, 1895.	June 1, 1895.	June 1, 1894
Porkbbls.	12,723	14,429	12,513

Flourbbls. and sacks.	99,500	95,500	189,300

The demand for lard on the spot has been slow and prices have declined, closing easy at 6.75c. for prime Western, $6\frac{1}{60}$ $6\frac{1}{2}$ c. for prime City and 7.05c. for refined for the Continent. The speculation in the local market for lard for future de-livery has been flat, but prices have declined with the West, where packers have been selling prompted by full receipts of swine at primary points, closing easy.

easy. Exporters have been better buyers of Kentucky tobacco at firm prices; sales 250 hbds. Seed leaf tobacco has not received much attention but prices have held seady; sales for the week were 1,180 cases, as follows: 230 cases 1892 crop, New England Havana seed, 16@33c; 150 cases 1893 crop, New England Havana seed, 4@7c.; 200 cases 1894 crop, New Eng-land seed leaf. private terms; 100 cases 1898 crop, Zimmer's, 13@14½c.; 200 cases 1893 crop, State Havana, 4@7c.; 100 cases 1892 crop, Wisconsin Havana. 11@13c.; 50 cases 1892 crop, Pennsylvania seed leaf, 9½@10c., and 150 cases sundries, 4¾@16c.; also 750 bales Havana, 65c.@\$1 05, and 260 bales Sumatra, 67½c.@\$2 90 in bond. There has been very little activity to the speculative dealings in the markets for Strats tin and prices have further declined

There has been very little activity to the speculative dealings in the markets for Straits tin and prices have further declined in response to easier foreign advices, closing easier at 14:10c. Ingot copper has also eased off a trifle, but the close was steady at 10:50@10:60c, for Lake. Lead has made a slight ad-vance and the close was firm at 3:30@3:32½c. for domestic. Spelter has advanced, closing strong at 3:75@3:80c. for do-mestic. Pig iron has been steady, closing at \$10@\$12:50 for domestic.

domestic. Refined petroleum has continued to decline, closing dull at 7.65c. in bbls., 5.15c. in burk and 8c. in cases; crude in bbls. has been nominal; naphtha, 9c. Crude certificates have further declined, closing at \$1 46 bid. Spirits turpentine has been easier, closing dull at 29@29½c. Rosins have declined, closing easy at \$1 52½@\$1 55 for common to good strained. Wool has been in better demand for foreignigrades and steady. Hore have here dull and easy. steady. Hops have been dull and easy.

COTTON. FRIDAY NIGHT, June 7. 1895

THE MOVEMENT OF THE CROP, as indicated by our telegrams trom the South to-night, is given below. For the week ending this evening the total receipts have reached 19,829 bales, against 29,020 bales last week and 29,065 bales the previous week, making the total receipts since the 1st of Sept., 1894. 7,801,331 bales, against 5,839,969 bales for the same period of 1893-4, showing an increase since Sep.1, 1894, of 1,961,262 bales.

The general trading public appeared unwill-ing to enter upon new ventures, and local operators were as a rule content with small deals for quick turns. The market has responded most readily to stimulating factors. On Sat-urday there was a loss of 9 points in consequence of im-proved weather reports and apparent selling for account of New Orleans holders of long engagements. During Monday there was an additional decline of 9 points at the opening, but upon the appearance of few buying orders quick recov-ery developed, with 2 points net gain shown at the close. On Tuesday morning 9@10 points further advance was stimulated by advices from Liverp ol, where, after the Whitsunide hol-idays, the market opened better than anticipated by our local operators, but local longs attempting to realize modified the gain to 5 points net. Wednesday buying orders were mod-erate, affording the local bears an opportunity to raid the market and sweep off about 10 points, which was promptly recovered yesterday upon the issue of the FINANCIAL CHRON-ICLE's acreage statement. The figures of the CHRONICLE were very generally accepted as showing careful conservative preparation, and the indicated reduction in yield strength-ened the tone of the market. To-day in the absence of ad-vices from Liverpool (holiday) operators were careful, but a pretty steady tone prevailed and rates averaged above last evening. Cotton on spot was quiet at 7¼c. for middling up-lands. The total sales for forward delivery for the week are 765.8(0 lands.

The total sales for forward delivery for the week are 765.860 bales. For immediate delivery the total sales foot up this week 8,814 bales, including -— for export, 1,214 for consumption. — for speculation and 7,600 on contract. The following ar the official quotations for each day of the past week— June 1 to June 7.

Rates on and off middling, as established Nov. 22, 1893, by the Revision Committee, at which grades other than middling may be delivered on contract: 1 Good Ord

L'all summer and annumers and . O. J	-4	υц.	Good Oruin
Middling Fair	78	on.	Good Middli

The imports into Continental ports the past week have been 40,000 bales. The above figures indicate an *increase* in the cotton in sight to-night of 410,399 bales as compared with the same date of 1894, an *increase* of 309,291 bales over the corresponding date of 1893 and a decrease of 130,265 bales from 1892.

AT THE INTERIOR TOWNS the movement-that is the receipts for the week, and since September 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period of 1893-94—is set out in detail below.

* Louisville figures "net" in both years. † This year's figures estimated. ‡ Last year's figures for season to date revised.

The above totals show that the interior stocks have decreased during the week 15,207 bales and are now 25,710 bales less than at same period last year. The receipts at all the towns have been 6,212 bales less than same week last year and since Sept. 1 are 1,825.403 bales more than for same time in 1898-94.

-The following table RECEIPTS FROM THE PLANTATIONS.—The following table indicates the actual movement each week from the plantations. The figures do not include overland receipts nor Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

	Week Receip		Receipts at the Ports.		St'k at Interior Towns.		Rec'pts.	from Pl	ant'ns	
En	ding-	1893.	1894.	1895.	1893.	1894.	1895.	1893.	1894.	1895.
May	3	30,988	38,823	56,937	259,203	170,936	165,978	9,874	24,814	36,274
**	10	30,150	27,850	41,900	243,036	155,917	148,553	14,033	12,831	24,475
**	17	32,625	21,601	30,565	229,525	147,049	137,322	19,064	12,736	19,334
**	24	25,359	21,602	29,065	213,479	134,495	114,859	9,313	9,048	6,602
64	81	25,586	12,208	29,020	201,857	123,963	101,628	13,964	1,676	15,789
June	7	25,296	18,697	19,829	187,899	112,131	86,421	11,338	6,865	4,622

The above statement shows: 1.—That the total receipts from the plantations since Sept. 1, 1894, are 7,830,317 bales; in 1893-94 were 5,375,934 bales; in 1892-93 were 4,989,667 bales.

2.—That although the receipts at the outports the past week were 19,829 bales, the actual movement from plantations was only 4,623 bales, the balance being taken from the stocks at the interior towns. Last year the receipts from the plantations for the week were 6,865 bales and for 1893 they were for the we 11,338 bales.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.— We give below a statement showing the overland movement for the week and since September 1. As the returns reach us by telegraph late Friday night it is impossible to enter so largely into detail as in our regular monthly report, but all the principal matters of interest are given. This weekly publication is of course supplementary to the more extended monthly statements. The results for the week ending June 7 and since Sept. 1 in the last two years are as follows:

189	94-95.	1893-94	
Week.	Since Sept. 1.	Week.	Since Sept. 1.
1,534	329,924 545 3,817 187,909	2,599 831 30 2,434 767 589	
9,030	1,749,002	7,250	1,196,384
6,426 27 267	553,542 30,496 73,956	1,304 38 1,219	291,175 21,736 99,226
6,720	657,994	2,561	412,137
2,310	1,091,008	4,689	784,247
	Week. 3,109 1,534 3,161 280 9466 9,030 6,426 27 267 6,720 2,310	Week. Sept. 1. 3,109 914,144 1,534 329,924 545 545 3,161 187,909 280 175,702 946 136,961 9,030 1,749,002 6,426 553,542 27 30,496 267 73,956 6,720 657,994 2,310 1,091,008	Week. Since Sept. 1. Week. 3,109 914,144 2,599 1,534 329,924 831 545 300 3,817 3,161 187,909 2,434 280 175,702 767 946 136,961 589 9,030 1,749,002 7,250 6,426 553,542 1,304 267 73,956 1,219 6,720 657,994 2,561

Including movement by rail to Canada. The foregoing shows that the week's net overland movement this year has been 2,810 bales, against 4,689 bales for the week in 1894, and that for the season to date the aggregate net overland exhibits an excess over a year ago of 306,761 bales.

	189	94-95.	1893-94		
In Sight and Spinners' Takings.	Week.	Since Sept. 1.	Week.	Since Sept. 1.	
Receipts at ports to June 7 Net overland to June 7 Southern consumption to June 7.	2,310	7,801,231 1,091,008 649,000	18,697 4,689 8,000	784,247	
Total marketed Interior stocks in excess	32,139 *15,207	9,541,239 29,086	31,386 *11,832	7,227,216 35,965	
Came into sight during week. Total in signt June 7	16,932	9,570,325	19,554	7,263,181	
North'n spinners tak'gs to June 7.	2,804	1,979,908	7,558	1,459,311	

It will be seen by the above that there has come into sight during the week 16,932 bales, against 19,554 bales for the same week of 1894, and that the increase in amount in sight to-night as compared with last year is 2,307,144 bales.

WEATHER REPORTS BY TELEGRAPH - Our telegraphic advices from the South this evening are of a somewhat more favorable character. The temperature has been quite satisfactory generally, and as a result the cotton plant is showing improvement in many localities. The precipitation has been light as a rule, and in sections of Mississippi, Arkansas and Tennessee moisture is claimed to be needed.

Galveston, Iexas .- It has rained on one day of the week, the rainfall reaching twenty-seven hundredths of an inch. The thermometer has averaged 80, the highest being 87 and the lowest 73.

Palestine, Texas.-We have had one shower the past week, the precipitation reaching one hundredth of an inch. The thermometer has averaged 75, ranging from 60 to 90.

Huntsville, Texas.-No rain all the week. The thermometer has ranged from 60 to 92, averaging 76.

Dallas, Texas .- Crops need working badly in some parts of the State, as the rain kept the ground wet and caused weeds and grass to grow rapidly. The weather is now favorable for cotton and prospects are improving. There has been rain on one day of the past week, the precipitation reaching three inches and nine hundredths. Average thermometer 74, highest 92, lowest 56.

San Antonio, Texas.-We have had rain on three days of the week, the rainfall being twenty hundredths of an inch. The thermometer has averaged 75, the highest being 90 and the lowest 60.

Luling, Texas.-Rain has fallen on two days of the week, to the extent of fifty hundredths of an inch. The thermometer has averaged 76, ranging from 60 to 92.

Columbia, Texas .- We have had rain on one day of the week, the rainfall reaching twenty-five hundredths of an inch. The thermometer has ranged from 63 to 92, averaging 77.

Cuero, Texas.-There has been rain on one day during the week, to the extent of two hundredths of an inch. Average thermometer 79, highest 96, lowest 62.

Brenham, Texas.-We have had rain on one day during the week, to the extent of seventy hundredths of an inch. The thermometer has averaged 78, the highest being 92 and the lowest 64

Belton, Texas .- It has rained on two days of the week, the precipitation reaching sixty-nine hundredths of an inch. The thermometer has averaged 78, ranging from 62 to 94.

Fort Worth, Iexas.-There has been rain on two days of the week, the rainfall reaching one inch and twelve hundredths. The thermometer has ranged from 56 to 91, averaging 74.

Weatherford, Texas .- Rain has fallen on three days of the week, the rainfall reaching one inch and five hundredths. Average thermometer 73, highest 90 and lowest 56.

New Orleans, Louisiana.-It has rained on five days of the week, the rainfall reaching thirty-three hundredths of an inch. The thermometer has averaged 80.

Shreveport, Louisiana.—There has been rain on one day of the week, to the extent of one hundredth of an inch. The thermometer has averaged 79, ranging from 63 to 94. Columbus, Mississippi.—There has been no rain during the week. Moisture is needed on sandy lands, but there have been local showers this week in the prairies. The thermome-ter has ranged from 54 to 100, averaging 82. Leland, Mississimi.—The week's rainfall has been one inch

Leland, Mississippi.—The week's rainfall has been one inch and thirty hundred hs. Average thermometer 77.3, highest

92 and lowest 60. Meridian, Mississippi.—Rain has fallen on one day of the week. The thermometer has averaged 80, the highest being 95 and the lowest 64.

95 and the lowest 64.
Little Rock, Arkansas.—We have had rain on one day during the week, the precipitation reaching twenty-four hundredths of an inch. The thermometer has averaged 78, ranging from 63 to 94.
Helena, Arkansas.—There has been no rainfall here all the week, but five miles away good rains have fallen. Cotton in this neighborhood needs moisture. The thermometer has ranged from 60 to 94, averaging 78.
Memphis, Tennessee.—It has been dry all the week, but there has been light rain in the neighborhood. Crops are suffering from drought. Average thermometer 81.6, highest 98 and lowest 62 5.
Nashville, Tennessee.—There has been rain during the week

Nashville, Tennessee.—There has been rain during the week to the extent of thirty-six hundredths of a 1 inch. The ther-mometer has averaged 78.5, the highest being 96 and the lowest 61.

Mobile, Alabama. - Crop reports are improving. The weather has been warm, with showers on four days of the week, to the extent of ninety-eight hundredths of an inch. The thermometer has averaged 80, ranging from 72 to 96. Montgomery, Alabama. - The weather has been warm and

And the second s

dry during the past four days, but on the preceding three days

dry during the past four days, but on the preceding three days rain fell to the extent of twenty two hundralths of an inch. Cotton is doing very well. The thermometer has ranged from 71 to 92, averaging 82. Selma, Alabama.—We have had rain on three days of the week, the rainfall reaching two inches and seventy-hun-dredths. Farm work has been interrubted by rain. Average thermometer 79, highest 93 and lowest 63. Madison, Florida.—Rain has fallen on one day of the week to the extent of forty-hundredths of an inch. The thermom-eter has averaged 83, the highest being 94 and the lowest 69, *Columbus, Georgia.*—We have had rain on one day of the week, to the extent of sixty-three hundredths of an inch. The thermometer has averaged 82, ranging from 67 to 93.

The thermometer has averaged 82, ranging from 67 to 93. Savannah, Georgia.—There has been rain on one day dur-ing the week, the rainfall reaching two hundredths of an ing the week, the rainfall reaching two number and inch. The thermometer has ranged from 68 to 98, averaging

Augusta, Georgia.-There has been rain on two days of the Average thermometer 83, highest 100 5 and lowest 67. Albuny, Georgia.—There has been no rain during the past

week and moisture is badly needed. 83, highest 95 and lowest 72. Average thermometer

83, highest 95 and lowest 72, Charleston, South Carolina.—It has rained on one day of the week, the rainfall being seven hundr-dths of an inch. Average thermometer 82, highest 97, lowest 71. Stateburg, South Carolina.—It has been very hot most of the week, but rain on Wednesday night cooled the atmos-phere. The rainfall has been sixty-one hundredths of an inch. Warmer weather has helped crops. The thermometer has ranged from 69 to 97 averaging 83.6

inch. Warmer weather has helped crops. The thermometer has ranged from 69 to 97, averaging 83.6.
Greenwood, South Carolina.—Cotton is growing finely. We have had rain on one day of the week, the precipitation reaching five hundredths of an inch. The thermometer has averaged 84, the highest being 97 and the lowest 71.
Wilson, North Carolina.—Telegram not received.
The following statement we hav also received by telegraph, showing the height of the rivers at the points named at 8 o'clock June 6, 1895, and June 7, 1894.

	June 6, '95	June 7, '94.
	Feet.	Feet.
New Orleans Above zero of gauge.	4.7	9.3
Memphis Above zero of gauge.	75	17.8
Nashville	4.0	3.5
Shreveport	44	107
Vicksburg Above zero of gauge	10.0	24.2

JUTE BUTTS, BAGGING, &C. —Jute bagging has been dull the past week, but prices are nominally unchanged at $4\frac{1}{3}$ °, for $1\frac{3}{4}$ lbs., $4\frac{1}{2}$ °, for 2 lbs. and $4\frac{7}{3}$ ° for standard grades in a jobbing way. Car-load lo's of standard brands are quoted at $4\frac{1}{4}$ °. for $1\frac{3}{4}$ lbs., $4\frac{5}{3}$ °, for 2 lbs. and 5°. for $2\frac{1}{4}$ lbs. f. o. b. at New York. Jute butts are very quiet at $1\frac{1}{3}$ °. for paper quality and $1\frac{1}{3}$ °, for mixing and $1\frac{3}{4}$ °. for bagging quality. The de-liveries of jute butts and rejections at New York and Boston during May were 34.493 bales, against only 12,293 bales for the same month last year, and since January 1 the deliveries during May were 34.495 bales, against only 12,295 bales for the same month last year, and since January 1 the deliveries reached 287,528 bales, against but 115,420 bales in 1894. The aggregate stock in the hands of importers and speculators at New York and Boston on May 31 was nil, against 6,000 bales at the corresponding date in 1894, and the amount affor the United States reaches 112,789 bales, against 75,633 bales last var last year.

INDIA COTTON MOVEMENT FROM ALL PORTS. -The receipts and shipments of cotton at Bombay have been as follows for the week and year, bringing the figures down to June 6.

BOMBAY RECEIPTS AND SHIPMENTS FOR FOUR YEARS.

	sipm	enisthi	sweek.	Shipm	ents since	Sept. 1.	Receipta	
4427	Great Brit'n.	Oonti- nent.	Total.	Great Britain	Oonti- nent.	Total.	This Week.	Since Sept. 1.
.94-5	2,000	48.000	50,000	24.000	373.000	397.000	70,000	1.314.000
,93-4			53,000		704.000			1,591.000
,92-3			30,000 38,000		706,000			1,557,000

According to the foregoing Bombay appears to show an *increase* compared with last year in the week's receipts of 22,000 bales and a *decrease* in shipments of 3,000 bales, and the shipments since Sept, 1 show a *decrease* of 351,000 bales. The movement at Calcutta, Madras, and other India ports for the last reported week and since the 1st of September, for two vears, has been as follows. "Other ports" cover Ceylon, Tuticorin. Kurrachee and Coconada.

	Shipmen	ntsforth	e week.	Shipments since Sept.			
	Great Britain.	Oonti- nent.	Total.	Great Britain.	Oontinent.	Total

WEATHER RECORD FOR MAY.—Below we give the thermometer and rainfall record for the month of May and previous months of this year and the two preceding years. The figures are from the records of the Weather Bureau, except at points where they have no station, and at those points they are from records kept by our own agents.

Hubbard, William Tubbs and J. T. Gwathmey, Trustee of Gratuity Fund, to serve three years, Robert H. Rountree; Inspectors of Election, J. W. Moses, J. W. Wen-A010 man and Charles Criss.

COMPARATIVE FORT RECEIPTS AND DAILY CROP MOVEMENT -A comparison of the port movement by weeks is not accurate as the weeks in different years do not end <u>a</u> the same day of the month. We have consequently added to our other standing tables a daily and monthly statement, that the reader may constantly have before him the data for seeing the exact relative movement for the years named. The monthly movements since September 1, 1894, and in previous years, have been as follows:

Monthly		Year	Beginnin	g Septemb	er 1.

This statement shows that the receipts since Sept. 1 up to to-night are now 1,964,563 bales more than they were to the same day of the month in 1894 and 2,879,399 bales greater than We add to they were to the same day of the month in 1893. We add to the table the percentages of total port receipts which had been received to June 7 in each of the years named.

COTTON ACREAGE REPORT.-In our editorial columns will be found to-day our annual cotton acreage report, with an account at length of the condition of the plant in each section of the South. The report has been prepared in circular form and the circulars may be had in quantity with business card printed thereon.

THE EXPORTS OF COTTON from New York this week show an increase compared with last week, the total reaching 17,109 bales, against 15,748 bales last week. Below we give our usual table, showing the exports of cotton from New York, and the direction, for each of the last four weeks; also the total exports and direction since Sept. 1, 1894, and in the last column the total for the same period of the previous year.

SALES OF FERTILIZERS IN ALABAMA. - Our correspondent at Montgomery telegraphs us that the Alabama Agricultural Department has issued to-day a comparative statement of the sales of fertilizer tags. In the current season-1894.95-there have been disposed of 611,795 tags, representing 61,167 tons, whereas in 1893-94 the number of tags sold reached 1,004,985 and covered 99,801 tons. The decrease this season has therefore been 33,631 tons, or nearly 40 per cent.

SHIPPING NEWS .- The exports of cotton from the United States the past week, as per latest mail returns, have reached 63,606 bales. So far as the Southern ports are concerned, these are the same exports reported by telegraph and published in the CHRONICLE last Friday. With regard to New York we include the manifests of all vessels cleared up to Thursday.

BREADSTUFFS.

FRIDAY, June 7, 1895.

For wheat flour the market has been quiet during the past week, and spring grades have been easier in sympathy with a decline in the grain. Winter grades, however, have continued in light supply and prices have been steadily maintained. City mills have sold moderately well at about steady prices. Rye flour has been firmly held but demand has been quiet. Corn meal has sold slowly, but prices have held steady. To-day the market for wheat flour was firm but quiet.

There has been a decided shrinkage in the speculative dealings in wheat futures, and during the first half of the week prices steadily declined under liquidating sales by "longs," prompted by improved weather conditions and more favorable crop accounts from the West. Subsequently rumors favorable crop accounts from the West. Subsequently rumors of a large shortage in the European rye crop and the report of the Onio State Board of Agriculture showing a decline of 13 points in the average condition of the crop as compared with last month caused a sharp rally. In the spot market shippers have been moderate buyers and prices have ad-vanced, particularly for red winter. The sales yesterday in-cluded No. 2 red winter on the basis of $1\frac{1}{4}$ c, over July f. o. b. afloat. To-day the market was fairly active and during early 'Change prices advanced sharply in response to desidedly stronger foreign advices, but toward the close realizing sales by "longs" caused part of the improvement to be lost. The spot market was firmer but quiet. The sales included No 1 hard at $4\frac{1}{4}$ @ $4\frac{1}{2}$ c. over July f. o. b. afloat. DAILY CLOSING PRICES OF NO. 2 RED WINTER WHEAT.

THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., June 7, 1895.

The strength of the market for plain staple cottons is the most noticeable feature of the situation, as even with but a quiet demand coming forward prices give daily indications of the movement towards a higher general level. There is in fact so large a proportion of current production in both brown and bleached cottons covered by existing contracts that the supplies coming upon the market unsold are apparently insufficient to meet even the current moderate new demand, and sellers are steadily working into still stronger position. Such a condition on the eve of what is recognized as the usual opening of fall trade suggests interesting develas the usual opening of fail trade suggests interesting devel-opments during the next few weeks, unless the demand for the coming season should be kept within much smaller dimensions than appears likely. Fall business in fapcy prints has assumed shape this week with the opening of new lines, although prices are not settled yet, and promises fair results. Reports from out-of town markets are encouraging, the re-turn of warm weather having had a beneficial effect on the distribution of seasonable merchandise and helped crop pros-nects materially. pects materially.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending June 3 were 3,956 packages, valued at \$160.217, their destination being to the points specified in the table below:

* From New England mill points direct.

The value of the New York exports for the year has been \$3,665,330 in 1895 against \$5,056,576 in 1894. The value of the New York exports for the year has been \$3,665,330 in 1895 against \$5,056,576 in 1894. The value advances of 1/4 c. per yard have been reported dur-ing the past week, which show that fine browns of Eastern manufacture are improving in value as well as the coarse yarn Southern makes. The advances include such prominent tickets as Pepperell, Lockwood, Atlantie and Comet. Brown drills are heavily sold ahead on both home and export ac-count. Brown osnaburgs are firm but quiet. Bleached shirt-ings show advances of 1/4 c. in grades from 5 c. to 6 c. per yard in a number of instances, and in 1 bw grade 64 squares the market has a hardening tendency. Fine muslins and cam-brics are well sold and firm. Wide sheetings are firm and have sold more readily. No change in cotton flannels or binkets. Denims continue dull and without improvement in price; ticks firm and occasionally 1/4 c. dearer; other coarse colored cottons quiet at previous prices. Kid-finished cam-brics and other finished linings are quiet, but previous prices maintained. Fancy calicoes for fall have been opened this week and fair orders taken, mostly subject to prices to be named later; these are expected to be on the basis of 51/2 c. for standard fancies. Indigo blues, shirting prints, solids, staples and other regular lines firm but quiet. Dark dress mand and staples steady but firm. Print cloths have ruled steady all week at 2 13-16c. for extras but business has been small.

Stock of Print Oloths— At Providence, 64 squares At Fall River, 64 squares At Fall River, odd sizes	24 000	1894. June 2. 271,000 466,000 } 146,000 }	1893. June 3. 78,000 8,000
Total stock (pieces)	252,000	883,000	86,000

Woolen Goods.—The most interesting feature this week has been the resumption of work at the Olneyville Mills. This will gradually relieve both sellers and buyers from some anx-iety regarding supplies for the balance of the heavy-weight season. In the market itself there has been little development of importance. Reorders are somewhat more liberal for men's wear fabrics, but still business is decidedly moderate and largely confined to black and blue staples and low-priced fancies. Cotton-warp goods have been in rather better re-quest. Overcoatings are quiet and featureless and cloakings dull throughout. Flannels are firm but quiet and blankets quiet and occasionally five per cent dearer. Carpets in an unsettled condition for fall owing to low prices quiet in some leading makes. Woolen and worsted dress goods firm, but orders in tifferent. WOOLEN GOODS .- The most interesting feature this week

FOREIGN DRY GOODS .- The market has been quiet through out, and apart from the strength in French dress goods in mohair fabrics without feature of special importance. dress goods and

Importations and Warehouse Withdrawals of Dry Goods

STATE AND CITY DEPARTMENT.

TERMS OF SUBSCRIPTION.

THE INVESTORS' SUPPLEMENT will be furnished without extra charge to every annual subscriber of the COMMERCIAL AND FINANCIAL CHRONICLE.

THE STATE AND CITY SUPPLEMENT will also be furnished without extra charge to every subscriber of the CHRONICLE.

THE STREET RAILWAY SUPPLEMENT will likewise be furnished without extra charge to every subscriber of the CHRONICLE.

THE QUOTATION SUPPLEMENT, issued monthly, will also be furnished without extra charge to every subscriber of the CHRONICLE.

TERMS for the CHRONICLE with the four Supplements above named are Ten Dollars within the United States and Twelve Dollars in Europe, which in both cases includes postage.

Terms of Advertising-(Per inch space.)

The purpose of this State and City Department is to furnish our subscribers with a weekly addition to and continuation of the STATE AND CITY SUPPLEMENT. In other words, with the new facts we shall give, the amplifications and corrections we shall publish, and the municipal laws we shall analyze in the "State and City Department," we expect to bring down weekly the information contained in the STATE AND CITY SUPPLEMENT to as near the current date as possible. Hence every Subscriber will at all times possess a complete and fresh cyclopædia of information respecting Municipal Debts.

New York's New Laws .-- We give below the full text of the Stanchfield bill for the protection of bona fide purchasers and holders of municipal bonds issued by the minor civil divisions of the State of New York. The act has recently become a law by the approval of Governor Morton.

a law by the approval of Governor Morton. AN ACT for the protection of bona fide purchasers and holders of coupon bonds and of municipal corporations against misfeasance, malfeasance or negligence of public officers. Sec. 1. Any bona fide purchaser and holder of any bonds or other obligations for the payment of money payable to bearer and transferable by delivery, and any such purchaser and holder of any interest-bearing coupon or obligation originally attached to such bonds, which said bonds or coupon shall have been issued or put in circulation by means of the misfeasance, malfeasance, or negligence of any public officer, of any of the civil or municipal divisions of this State, whose right of recovery or cause of action upon any such bond or coupon been issued of put in circulation by means of the misreasance, malfeasance, or negligence of any public officer, of any of the civil or municipal divisions of this State, whose right of recovery or cause of action upon any such bond or coupon has been, or shall be determined by the judgment of a court of competent jurisdiction in any suit or action, may within three years after the determination of said right of recovery and cause of action begin an action against such officer, and recover all damages which said purchaser, holder or privy shall have suffered because of the misfeasance, malfeasance or negligence of such public officer.
§ 2. Any municipal corporation of a court of a court of this State, which has been or shall be competent jurisdiction, because of the misfeasance, malfeasance or negligence of any public officer or agent of such municipal corporation or civil division, may within three years from the time when such payment shall have been compelled as aforesaid, begin an action against any such officer in any court of competent jurisdiction and recover the amount so paid with interest from the time for commencing an action shall affect any of the actions hereinbefore mentioned except as herein provided, and in such action any coupon of arrest and an execution against a person who shall have wrongfully misapproriated money held by him in a fiduciary capacity.
§ 4. In any suit or action upon any bonds hereinbefore mentioned, or to recover any damages hereinbefore mentioned, or to recover any damages hereinbefore mentioned, or to recover any damages hereinbefore mentioned except as herein provided, and in such action shall have and is hereby granted a right of appeal, to the general term or appellate division of the supreme court from the judgment of any trial court, or to the court of appeals from any judgment of action the supreme court from the judgment of any trial court, or to the court of appeals from any judgment of the general term or of the appellate division of the supreme

in such action has been or may be less than five hundred dollars. Appeals from any inferior court to any appellate court, including an appeal to the court of appeals aithough the amount in controversy may be less than five hundred dollars, from any judgment in any suit or action to recover against any municipal corporation or civil division of this State upon any negotiable bonds or upon any coupon originally attached thereto, issued or put in circulation by the agents or officers of such municipal corporations or civil division of this State, may be taken by any person who has been or shall be bound as a privy by such judgment within sixty days after such privy shall have been served by any of the parties to such civil action, with a copy of the said judg-ment and with a written notice of the entry thereof, and said appeal may be taken in the name of such party without entering an order of substitution as such party by sail person so bound as a privy, upon his giving the security and serving the notices of appeal prescribed by the code of civil procedure concerning an appeal by a party to such an action, and also upon giving to the party in whose name such an appeal is taken an undertaking with two sufficient sureties conditioned in the penal sum of five hundred dollars, to save such party to such action in whose name such appeal shall be taken harmless of and from all costs and disbursments which may be recovered against him upon such appeal, which said undertaking shall be approved as to its form and as to the sufficiency of the sureties thereon by justices of the supreme court. Said appeal when so taken by said privy shall be con-ducted and determined in the same manner as if taken by said party of the said action, except as herein otherwise procourt. Said appeal when so taken by said privy shall be con-ducted and determined in the same manner as if taken by said party of the said action, except as herein otherwise pro-vided.

§ 5. This act shall take effect immediately.

The new savings bank act has also become a law by receiving the signature of the Governor. The text of this law was printed in the CHRONICLE of May 25th, Vol. 60, page 839.

Minneapolis Water-Works Bonds .- The validity of \$200,-000 of 4 per cent water-works improvement bonds of the city of Minneapolis, Minn., which were awarded to Messrs. W. J. Hayes & Sons, of Cleveland, on April 29th, has been questioned and it is reported that the sale has been canceled.

Through the courtesy of Messrs. Hayes & Sons we print below the opinion of Messrs. Storey & Thorndike, of Boston, upon the issue. The opinion is especially interesting, as it raises the question, which has been variously decided in different States, as to whether securities which are held in a city's sinking fund but which may at any time be re-sold by the city and become again outstanding obligations should be deducted from the city's total debt in figuring the municipal borrowing power.

borrowing power. MESSRS. W. J. HAYES & SONS— Gentlemen : We have examined the papers you submitted to us relating to the proposed issue of \$200,000 of four per cent water-works improvement bonds of the city of Minne-apolis, Minnesota, to be dated 1st January, 1895, and payable in 20 years. These bonds are to be issued under authority of an act approved 12th April, 1893 (Laws 1893, c. 204), and we cannot certainly advise you that this issue would not exceed the limit of debt prescribed by section 2 of the act. The section referred to provides that no city shall issue bonds in excess of 5 per cent of the assessed valuation of its taxable property without an election of the city voters. From taxable property without an election of the date the assessed value

bonds in excess of 5 per cent of the assessed valuation of its taxable property without an election of the city voters. From the debt statement before us it appears that the assessed valu-ation of Mioneapolis for 1894 was \$134,476.572, of which 5 per cent is \$6,723,920; but it also appears that the aggregate amount of bonds of the city unpaid is already in excess of that limit (\$7,465,000, not including the proposed issue). In order to justify the issue of bonds the city proposes to deduct from its total debt the amount of securities and cash in the sinking fund, amounting to over \$1,000,000. A part of \$705,000, and it is certainly a grave question whether such bonds are to be considered any longer as debts of the city. But the charter of the city, c. 5, s. 14, provides that bonds of the city held in the sinking funds shall not be canceled, and if necessary shall be sold to pay other bonds becoming due, and consequently those bonds may become debts of the city of the same effect as bonds outstanding in the hands of third persons at any time. persons at any time.

persons at any time. A similar question to this was decided in an elaborate opinion by the Supreme Court of New York in Bank vs. Grace, 102 N. Y., 313, where it was held that city stock in the sinking fund of the city was not debt, although it might be sold. In a more recent case the Supreme Court of Pennsylvania ren-dered a decision to like effect (Brooke vs. Philadelphia, 162 Pa. 123). In this case, however, the Chief Justice dissented and especially on the ground that such bonds could be re-sold and become an outstanding liability at any time. Upon so grave an issue it is impossible to sav to what de-cision the courts of Minnesota would come, and we cannot therefore advise you that the proposed issue of bonds would be within the limitation of the act and would be duly author-ized.

ized.

Our attention has been called also to the provision of c. 10, 8. 29, of the city charter, permitting the amount of funds and securities in the sinking fund to be deducted in ascertaining the debt of the city in certain cases, but it seems to us that

this provision relates only to the issue of bonds therein mentioned, that is to say, permanent improvement revolving fund bonds. It cannot have the effect of enlarging a power granted by the later act in reference to the issue of other bonds.

(Signed) STOREY & THORNDIKE.

Middlesborough, Ky.—The City of Middlesborough, Ky., has defaulted in the payment of interest on its municipal bonds, and in answer to our inquiries City Treasurer Henry Steele makes the following statement:

makes the following statement: "Owing to the stringency of the times the city and the fiscal agent for the bondholders made an arrangement by which a reduction in interest of from six to four per cent for five years, beginning on April 1, 1895, has been entered into, and \$124,000 of the bonds, or rather those holding that amount, have agreed to accept the arrangement, and the fiscal agent writes that he thinks the others will agree to the same.

"There is sufficient money in the treasury now to pay off the April 1, 1895, coupons at the reduced rate, but unfortunately the City Council is and has been in a dead-lock since February last, owing to the aspirations of some of our Councilmen for the office of Mayor of the city on account of the ex-Mayor. Mr. Colson, being elected a member of Congress at the November election, 1894.

"Our Circuit Court meets on July 1, when we hope to get the matter in such shape that the April 1, 1895, coupons can be paid.

be paid. "There is a large amount of back taxes due the city, and when that is collected in there will be nearly sufficient funds to pay off the back indebtedness on the bonds.

when that is collected in there will be nearly sufficient funds to pay off the back indebtedness on the bonds. "The prospects for our industries starting up soon is very encouraging, and it is the hope of those interested in the city's welfare that we shall soon be able to extricate ourselves from our indebtedness. Under our laws I am unable to pay off the coupons without authority from the City Council, and under the present conditions I am unable to get that authority."

Bond Proposals and Negotiations.—We have reseived through the week the following notices of bonds recently negotiated and bonds offered and to be offered for sale.

Allegheny, Pa.—On June 1, 1895, the city of Allegheny sold \$600,000 of 4 per cent registered water extension bonds to the German National Bank of Allegheny at 106 712. The securities are dated June 1, 1895, in erest will be payable semi-annually on June 1 and December 1, and the principal will mature at the rate of \$100,000 every five years from June 1, 1900, to June 1, 1925, inclusive. Twenty-seven bids were received for the loan as follows:

Each bidder added a waiver of accrued interest. Comptroller Brown will sell \$800,000 of sewer and other bonds shortly.

Atlanta, Ga.—J. H. Goldsmith, City Comptroller, reports to the CHRONICLE that an election held May 30 on issuing \$150, 000 of 4 per cent 30-year water-works bonds resulted in the defeat of the proposition. The law required that two-thirds of the registered vote should be polled in favor of the issue, and while very few votes were cast against the bonds, yet the requisite number failed to vote.

Atlantic City, N. J.—It is reported that a number of bids have been received for the \$775,000 of 5 per cent water bonds which were advertised for sale on June 3, but owing to pending litigation with reference to the purchase of the waterworks the opening of the proposals will be indefinitely postponed.

Auburn, N. Y.—On June 1, 1895, the City of Auburn sold \$100 000 of 4 per cent coupon water bonds to Messrs. Walter Stanton & Co., Messrs. Storrs & Smith and Messrs. Benwell & Everitt. The securities are dated May 1, 1895, interest is payable semi annually on May 1 and November 1, and the principal will mature at the rate of \$12 000 yearly from May 1, 1896, to May 1, 1899, then at the rate of \$13,000 yearly from May 1, 1900, to May 1, 1903, both principal and interest being payable at the office of the Mercantile Trust Company, New York.

Battle Creek, Mich.—An election will be held in this city to vote on issuing \$30,000 of water-works extension bonds. It is also reported that \$10,000 of sewer extension bonds have been voted by the Council.

have been voted by the Council. Brooklyn, N. Y.—On June 3, 1895, the city of Brooklyn sold \$435,000 of 4 per cent registered local improvement bonds and \$100,000 of 4 per cent twenty-sixth and adjacent wards sewer bonds to W. I. Quintard at 111-79 and accrued interest. Nine bids in all were received for the bonds. The securities are dated June 6, 1895, interest is payable semi-annually on January 1 and July 1, the improvement bonds maturing at the rate of \$100,000 yearly from January 1, 1925 to 1928, and \$35,000 on January 1, 1929, and the sewer bonds maturing January 1, 1926. The bonds are exempt from all taxation except for State purposes.

Brownsville, Texas.—It was erroneously reported that an election would be held at Brownsville on May 7 to vote on issuing \$50,000 of road and bridge bonds. Thomas Carson, Mayor, writes us that no election was held nor was there any issue of bonds in contemplation for any purpose.

Brunswick, Maine.—Four per cent sewer bonds of this town to the amount of \$30,000 have been voted.

Chattanooga, **Tenn**.—Hon. S. C. Pyott, Mayor, writes the CHRONICLE in reference to an act recently passed by the Legislature enabling Chattanooga to issue \$200,000 of railroad aid bonds that the issuance of the bonds depends, first, upon the locating of shops which are in contemplation, and, secondly, the matter will have to be submitted to a vote of the people.

Chicago, Ill.—It is reported that Mayor Swift of Chicago has announced his intention of asking the Legislature to pass a bill authorizing the city to issue bonds for \$7,000,000, the proposition to be submitted to a vote of the people at the next general election. A current news item states that although the \$2.748,000 of 4 per cent refunding gold bonds, which were offered for sale on June 5th, have not yet been awarded, they will probably go to Messrs. Speyer & Co., of New York, who bid 104:645. The securities will be dated July 1, 1895, interest will be payable semi-annually at the American Exchange National Bank, New York City, and the principal will mature in 20 years. They are to be issued to refund \$1,485,000 of water bonds and \$1,263,000 of river improvement bonds maturing July 1, 1895.

Chicopee, Mass.-This city will borrow \$20,000 in anticipation of taxes.

Custer County, Mont.—A call has been made for the payment of Custer County bonds numbered from A1 to A 125, inclusive, from B 1 to B 250, inclusive, and from C1 to C 241, inclusive. Interest on these bonds will cease July 1, 1895, at which time they will be paid upon presentation at the office of Messrs. Kountze Bros., New York.

Delaware.—On June 6, 1895, the State of Delaware sold \$35,000 of 3½ per cent coupon hospital improvement bonds. A list of the bids received is as follows:

A	mount Bid.
Security Trust & Safe Deposit Co., Wilmington, Del	\$36.568
E. H. Rollins & Sons, Boston	36.414
Blair & Co., New York City	36.031 85
Street. Wykes & Co. New York City	35,941

N. W. Harris & Co., New York City	35.5 2
Farson, Leach & Co., New Yo k City.	35,405
Equitable Guarantee & Trust Co., Wilmington	35 360
whann & Schlesinger, N. w York City.	35.311 50
E. MOT 1800, New Yo k City	35.262 50
George M. Hahn, New York City	35.199 50
Edward C. Jones Co., New York City	35,087 50

Interest on the loan is payable semi-annually on January 1 and July 1, and the principal will mature July 1, 1915, with an option of call on or after January 1, 1906. The bonds are to be delivered and paid for July 1, 1895.

Delaware County, Ohio.—Six per cent one to ten year ditch bonds of this county to the amount of \$1,935 were sold on June 5 to the Deposit Banking Company, Delaware, for a premium of \$146 50; also \$5,600 of 5 per cent one to sixteen year road bonds to the Delaware Savings Bank at a premium of \$162 50. The securities are dated June 5, 1895.

Fall River, Mass.—Four per cent 30-year public library bonds of this city to the amount of \$75,000 and reservoir bonds to the amount of \$50,000 have been sold to Messrs. R. L. Day & Co. at 110.097.

Fort Collins, Col.—Proposals will be received until June 17, 1895, by Robert S. Fedder, City Clerk, for the purchase of \$105,000 of 5 per cent 5-20-year refunding water bonds. Interest will be payable semi-annually.

Grant County, Ind.—It is reported that 5 per cent bonds of this county to the amount of \$25,000 have been awarded to the Indiana Trust Co. at 105'46. The average time of the bonds is 5 years.

Greenville County, S. C.—Proposals will be received until June 18 by D. W. Holland, Supervisor, for the purchase of \$25.000 of railroad aid bonds. The loan will be dated July 1, 1895, will bear interest at the rate of 6 per cent, and will mature July 1, 1920.

Hempstead, N. Y.—The people of this village have voted in favor of issuing \$46,500 of water works bonds.

Hibbing, Minn.—Proposals will be received until June 11, 1895, by J. B. Connors, Village Recorder, for the purchase of

1025

\$11,400 of 7 per cent water and light bonds. The securities are dated May 15, 1895, interest will be payable semi-annually on Jan. 1 and July 1, and the principal will mature May 15, 1905.

Harrison County, Ohio.-Below is a list of the bids received on June 1 for \$20,000 of 5 per cent county court house bonds.

A	mount bid.
N. W. Harris & Co., Chicago, Ill.	
Lami recht Bios. Co, Cleveland, O	20,867 50

Marlborough, Mass,—On June 1, 1895, the city of Marlborough sold \$50.000 of 4 per cent coupon bonds known as "General Loan A" to E. H. Gay & Co., at 105'340 and accrued

interest. Eight other bids were received as follows: Blodg-et, Merritt & Co., 105'117: Harvey Fisk & Sons. 104'970; Blake Bros. & Co., 104'780; R L. Day & Co., 104'567; Brews-ter, Cobb & Estabrook. 104'419: E. H. Rollins & Sons. 104'050; Cushman, Fisher & Co., 103'771; J. W. Longstreet & Co., 105'760. The securities are dated June 1, 1895, interest is payable semi-annually in June and December, and the princi-pal will mature June 1, 1915. Both principal and interest are payable at the Winthrop National Bank, Boston.

Marysville, Cal — The citizens of Marysville will vote June 18 on issuing \$40,000 of drainage bonds. The securities are to bear interest at the rate of 5 per cent and are to become due at the rate of one-tenth yearly from date of issue, principal and interest to be payable in gold coin.

Meriden, Conn.—It is reported that 4 per cent coupon funding and water bonds of Meriden to the amount of \$70,000 have been sold to Messrs. Blodget, Merritt & Co. at 104.78.

Milwaukee, Wis.—Proposals will be received until June 17, 1895, by the Commissioners of Public Debt, care of Wm. J. Fiebrantz, Comptroller, for the purchase of \$142.500 of library and museum bonds numbered from 329 to 480, \$95,000 library and museum bonds numbered from 329 to 480, \$95,000 of viaduct bonds numbered from 216 to 310, \$150,000 of school bonds numbered from 1.151 to 1.310, \$200,000 of city hall bonds numbered from 661 to 860, \$100,000 of public park bonds numbered from 531 to 630, and \$20,000 of Bay View sewer bonds numbered from 41 to 60. The library and museum and viaduct securities will be dated January 1, 1895, and the city hall, school, park and sewer securities July 1, 1895. Interest will be payable semi-annually on January 1 and July 1, and five per cent of the issues will mature an-nually, the date of maturity being specified on each bond. Proposals for each separate issue or for all will be received. The city's bonded debt on June 2, 1895, was \$5,169,250.

Nashville, Tenn .- The report to the effect that the City of Nashville, item.—The report to the elect that the only or Nashville will issue bonds for a penitentiary is incorrect. The Tennessee Legislature has authorized the building of a penitentiary, but it is to be paid for by the State, and funds are already on hand for that purpose.

New Britain, Conn.—Proposals will be received until June 15 for the purchase of 4 per cent school bonds to the amount of \$60,000. The loan will be dated July 1, 1895, and \$3,000 of the amount will mature each year on July 1, 1896 and 1897, \$4,000 on July 1, 1898, and \$5,000 yearly thereafter until paid paid.

Newton, Kan.-Water-works bonds of this municipality to the amount of \$80,000 have been voted.

Newtown Union Free School District No. 12, Queens County, N. Y .- Proposals will be received until June 12, 1895. by the Board of Elucation of this district at the school-house for the purchase of \$9,000 of 5 per cent bonds. The securities are issued for the purpose of making alterations to, furnishing and heating the school-house. Interest will be payable annually on July 1 at the Queens County Bank in Long Island City and the principal will mature at the rate of \$500 yearly beginning July 1, 1905.

An advertisement elsewhere in this Department gives further particulars regarding this issue and the terms of the sale.

North Dakota.—Proposals will be received until June 20 by George E. Nichols, State Treasurer, for the purchase of \$88,-600 of 4 per cent 20-year refunding bonds.

Norwalk, Ohio.-The citizens of Norwalk will probably vote on issuing \$25,000 of electric-light bonds.

Pleasant Ridge, 0.—Proposals will be received until June 11, 1895, by Robert T. Hutton, Village Clerk, for the purchase of \$2,000 of 5 per cent sidewalk bonds. The securities are dated April 2, 1895, interest is payable semi-annually, and the prin-cipal will mature at the rate of \$500 yearly in 15, 16, 17 and 18 years from date, both principal and interest being payable at the Second National Bank, Cincinnati, O.

Portsmouth. Iowa.—On June 1, 1895, the city of Ports-mouth sold \$2,500 of 6 per cent water bonds to the Citizens" State Bank of Council Bluffs, Iowa, at par.

12.2

WARRANTS SELECTED WASH-COUNTY, CITY AND SCHOOL. JNO. P. DORR & CO., Seattle, Wash.

Rockingham County, N. H.—It is reported that on June 1, 1895, the County of Rockingham sold \$12,500 of 4 per cent funding bonds to the Portsmouth Savings Bank of Portsmouth, N. H., at 103.009 and accrued interest. The securities are to be dated July 1, 1895, interest will be payable semiannually, and the principal will mature July 1, 1905. Other bids received for the loan were as follows: E. H. Rollins & Sons, 102.91; G. A. Fernald & Co., 102.83; Exeter Banking Co., 102.50; N. W. Harris & Co., 102.473; R. L. Day & Co., 102.317; J. W. Longstreet & Co., 102.24; Blake Bros. & Co., 101.33.

Rockwell City, Iowa.-Water-works bonds of this municipality have been voted.

Sandersville, Ga.—The people of Sandersville will vote July 15 on issuing \$15,000 of water works and electric light bonds, the loan to bear interest at the rate of 5 per cent and to run 30 years.

Terre Haute, Ind.—A call has been made for the payment of \$206,000 of Terre Haute City funding bonds of 1890, numbered from one to ten, inclusive They will be vaid on presentation at the Central Trust Company, New York, on July 1, 1895, at which time interest will cease.

Waltham. Mass.—Four per cent bonds of Waltham to the amount of \$80,000 have been voted by the Baard of Aldermen for boulevard purposes.

Wenham, Mass.—Wellington Pool. Town Clerk, reports to the CHRONICLE that \$20,000 of water supply bonds, recently authorized, will probably not be issued for some time.

Wheeling, W. Va.—Notice has been given by the Commissioners of the loan of 1885 of the city of Wheeling that the following bonds have been drawn for redemption and payment on July 1, 1895: Bonds No. 1, for \$100; 2, for \$100; 6, for \$100; 23, for \$500; 63. for \$500; 72, for \$500; 76, for \$500; 85, for \$500; 88, for \$500: 110, for \$500; 119, for \$1,000; 134, for \$1,000; 143, for \$1,000; 156, for \$1,000; 175, for \$1,000; 196, for \$1,000; 251, for \$1,000. They will be paid on and after the above-mentioned date on presentation at the Bank of the Ohio Valley, Wheeling, at which time interest will cease.

West Pittston. Pa.—On June 14, 1895, at 10 o clock A. M., \$24,000 of West Pittston sewer bonds will be offered at public sale at the court house in the city of Wilkesbarre, Pa. The securities will be dated March 1, 1895, interest at the rate of 5 per cent will be paid semi-annually on March 1 and Sept. 1, and the principal will mature in thirty years. The borough reserves the right to call the bonds at the rate of \$4,000 every fifth year from their date.

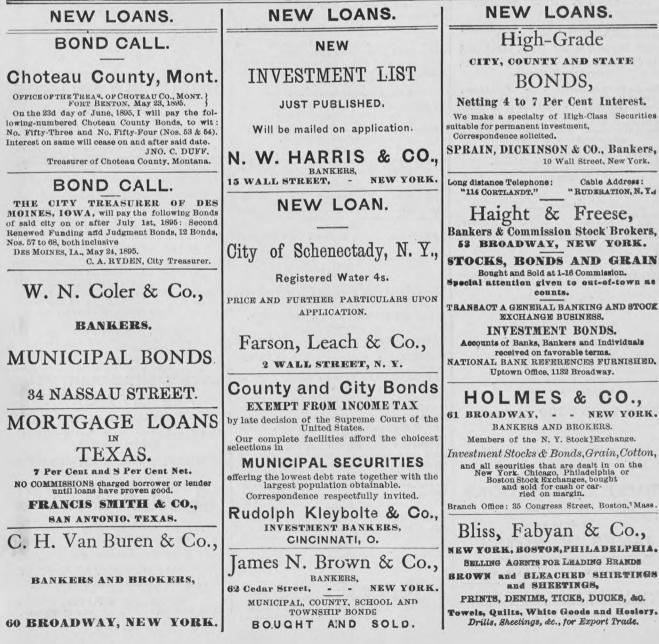

The official advertisement of this sale will be found elsewhere in this Department.

Wilmington, Del.—Proposals will be received until June 10, 1895, by Joseph K. Adams, City Treasurer, for the purchase of a \$125,000 4 per cent sinking fund loan, the proceeds to be used by the street and sewer department. Interest is payable semi-annually on April 1 and October 1 and the principal is redeemable as follows: Series 136, for \$2,000, October 1, 1922; series 187, for \$55,650, April 1, 1923; series 138, for \$57,300, October 1, 1923, and series 139, for \$9,150, April 1, 1924.

Winchester, Mass.—On June 3, 1895, the town of Winchester sold \$30,000 of 4 per cent sewerage bonds to Messrs. Blodget, Merritt & Co. at 105'89 and accrued interest. The securities are dated June 1, 1895, interest is payable semi-annually on June 1 and December 1, and the principal will mature at the rate of \$5,000 yearly from December 1, 1917, to December 1, 1922. Ten bids were received for the loan, as follows:

	Denos
Blodget, Merritt & Co	105.89
George A. Fernald & Co	105.83
N W. Harris & Co	105.815
R L Day & Co	105.796
Harvey Fisk & Sons	105.79
E. H. Gay & Co	105.39
E H Bollins & Sons	105.379
