#### THE FINANCIAL SITUATION.

A conspicuous feature this week has been the deposit with the Sub-Treasury by the Morgan-Belmont Syndicate of \$2,000,000 gold in exchange for which they received United States legal tender notes. This was for the purpose of reimbursing the Treasury for the amount of gold which had been withdrawn and shipped to Europe since the settlement with the Government. The transaction, it may be said, cost those whose act it was but a trifle measured in dollars and and yet for any who think it is fair cents, dealing or even good policy to make a cheap currency to pay one's debts with (a fifty-cent-dollar currency for instance) it is an object lesson worth studying. No member of the Syndicate was required by the letter of the contract to make this further deposit. Even the spirit of the arrangement had been fully lived up to when a settlement with the Government was effected. Perhaps some may say they could well afford to do it; they made a large amount of money out of the Government. We have not seen their balance-sheet; one thing is everywhere known, however, which is that they have done a most marvelous work for the country-a work that could not have been done through any other possible connections in America and Europe, and we certainly hope they will in the end find they have made enough money to pay them well for the benefits they have conferred upon the country.

The revival of business activity finds no more striking or noteworthy illustration than that furnished by the weekly and monthly records of bank clearings. Through the liberal use of the telegraph we are able this week to present our statement of clearings for the month of July, and it is by all odds the best monthly exhibit we have yet had in the present upward movement. For May the ratio of improvement over last year had been 24.7 per cent, for June 22.1 per cent; for July the increase is almost 30 per cent-29.8 per per cent. It is true there was an extra business day in the month the present year (July 1895 having contained only four Sundays, whereas July 1894 contained five Sundays), but the increase in the ratio of improvement is much larger than would be explained by that fact alone. This is shown more particularly in the case of the results outside of New York, where against an increase of 12.3 per cent in May and an increase of 12.5 per cent in June, the gain in July is as much as 21.7 per cent. The further expansion is the more noteworthy in view of the fact that at quite a number of Western points, in the section where the crop failure was so complete, the clearings returns have shown not an increase but actually a large falling off. Thus Omaha, Duluth, St. Joseph, Sioux City, Des Moines, Lincoln, Topeka, Fremont, Hastings and Sioux Falls all report diminished clearings, the decrease ranging from 8.4 per cent to 55.0 per cent.

Of course July last year was the period of the great railroad strike, and it may be thought therefore that we are comparing with much poorer results than in other recent months. On the contrary, in July 1894 notwithstanding the strike the ratio of decrease was only 15.7 per cent, or less than in any preceding month of that year. As a matter of fact the most gratifying feature in the present statements of clearings is that the totals not only show a large increase over last year but that they compare well with the years preceding too. For instance the aggregate for

he whole country, at 4,570 million dollars for 1895 compares with 3,522 millions for 1894, with 4,155 millions for 1893, with 4,639 millions for 1892 and with 4,392 millions for 1891. In other words the present volume of the clearings is 10 per cent larger than that for 1893, over 4 per cent larger than that for 1891 and comes within  $1\frac{1}{2}$  per cent of the very heavy total for 1892.

The fact that no improvement has yet occurred in the condition of the anthracite coal trade, but that on the contrary prices are quoted lower than before, gives to the returns of gross and net earnings of the anthracite coal roads for the month of June, received within the last ten days, unusual interest. However, the losses in earnings reported by these roads should not be invested with an importance which they do not deserve, or accepted as reflecting simply the demoralization in the coal trade. The Reading statement, for example, shows \$270,577 loss in gross and \$226,670 loss in net for the Railroad Company and \$875,462 loss in gross and \$159,-393 loss in net for the Coal & Iron Company; and the Central of New Jersey \$87,335 decrease in gross and \$48,781 decrease in net; while the decrease of \$30,125 in gross and \$203,496 in net by the Erie is, no doubt, also connected with the coal movement. But it would be a mistake to charge these losses simply to the low prices for coal prevailing. The truth is we are comparing with very exceptional results-with a month in 1894 when on account of the strike in the bituminous coal fields the product in the anthracite regions was increased in that month alone over a million tons, and the total amount mined was the largest ever reached in any single month, namely 5,116,844 tons. The present year no such abnormal stimulus existed to swell the output, and hence the amount mined in June 1895 was only 3,777,644 tons as against the 5,116,844 tons for 1894. It is this great falling off in tonnage, due to a special cause, that mainly explains the poor showing of earnings made by the anthracite roads. In fact it is rather surprising in the case of the Erie and the Central of New Jersey that the losses should be no larger.

Money on call is in abundant supply at the Stock Exchange, and loans have this week been almost uniformly made at 1 per cent and some moderately large bankers' balances have been left unemployed. A few loans have been made for comparatively small amounts at 11, making the average for the week about 11 per cent. Banks and trust companies quote 1 per cent as the minimum, but loans are permitted to stand for indefinite periods at  $1\frac{1}{2}$  per cent on good security. The offerings of money for fixed periods are chiefly for short dates, for which, however, there is little demand. The inquiry is principally for loans maturing after the end of the year and some business is done for six months, while very little is recorded for less than four months. Qiotations on good marketable collateral are 2 per cent for thirty to sixty days, 21 for ninety days to four months and 24@3 for five to seven months. A broker who usually handles large loans for banks and trust companies reports contracts difficult to make, though offered at 11 per cent for sixty days, 2 per cent for ninety days, 21 per cent for four and 3 per cent for six months. Banks having extensive correspondence with institutions at the South and West report an increase in the inquiry for re-discounts, and some quite large sums have been placed in Texas and at Western centres. One bank reports that nearly all the business it has done for the past fortnight has been re-discounting, and in that interval no time loans have been made and no city paper has been bought. The market for commercial paper is moderately well supplied, and increased offerings are expected within the next fortnight, when business, especially for the spring season, will probably become active. The demand for paper is good, though most of the banks prefer that which will mature before the end of the year, and rates are firmly held at 3 per cent for sixty to ninety day bills receivable, 3½@4 per cent for prime four months single names, 4@4½ per cent for prime six months and 4½@5 per cent for good four to six months single names.

The political tension in Europe growing out of the troubles in Bulgaria seems to have entirely disappeared, and there has been no trace of disturbance this week. The Baak of England minimum rate of discount remains unchanged at 2 per cent. The cable reports discounts of sixty to ninety day bank bills in London 9-16 of 1 per cent. The open market rate at Paris is 1 per cent and at Berlin and Frankfort it is 11 per cent. According to our special cable from London the Bank of England gained £172,636 bullion during the week, and held at the close of the week £38,134,008. Our correspondent further advises us that the gain was due to the import of £669,000 (of which £508,000 were bought, £132,000 were from Australia, £19,000 were from France and £10,000 were from China); to the export of £205,000 (of which £100,000 were to the Cape, £55,000 were to Brazil and £50,000 were to Egypt) and to shipments to the interior of Great Britain of £291,000.

The foreign exchange market has been dull and strong this week. Bankers report that the offerings of commercial bills are very small. Futures against cotton and grain shipments have advanced during the week, and those which looked dear last week are regarded as comparatively cheap now, but they are firmly held and few bankers care to take the risk of buying them, for every day brings nearer the time when the market should be supplied with spot bills. The drafts against securities placed in Europe have been few and principally against old transactions, and the Syndicate have met the inquiry for with remittance their own bills and those which they have obtained from other bankers. Selling of securities by the arbitrage houses has somewhat increased the demand for remittance this week and this will account in part for the strong tone to the market. On Monday the Bank of British North America advanced the posted rates to 4 90 for long and 4 91 for short and the market was dull and firm all day. On Tuesday Brown Bros. & Co. and Heidelbach, Ickelheimer & Co. also advanced their rates to the same figures, and the market was quoted as strong at 4 891@4 891 for actual business in long sterling, 4 901@4 901 for short and 4 901@4 901 for cable transfers. The market continued dull and strong on the following day, when the Canadian Bank of Commerce advanced their rates, and on Tnursday Lazard Freres advanced their posted rates to 4 90 for 60 day and 4 91 for sight and the tone was firm at the close and so continued yesterday, when Baring, Magoun & Co. also advanced their rates, making the quotations uniform by all the bankers at 4 90 for 60-day bills and 4 91 for sight. The following table shows the posted rates for exchange by the leading drawers for each day of the past week :

As already stated the market was very strong on Friday at 4 90 for sixty-day and 4 91 for sight. Rates for actual business in sterling were 4 891@4 891 for long, 4 901@4 901 for short and 4 901@4 901 for cable transfers. Prime commercial bills were 4 884@ 4 89 and documentary 4 884@4 884. The Canadian banks sent \$300,000 gold to Canada during the week, and a firm of coffee importers gave notice at the Sub-Treasury on Thursday that they would require \$250,000 gold for shipment to Europe on Saturday. Yesterday W. H. Crossman & Bro. engaged \$1,000,000 for shipment to-day and Nesslage & Fuller engaged \$100,000. Handy & Harman will ship \$100,000 in gold bars, but this was not taken from the Treasury. Altogether, to-day's shipments foot up \$1,450,000. The Bank of Montreal yesterday also withdrew \$1,000,000 from the Treasury, but it is not known what disposition will bemade of the gold.

We have referred above to the favorable character of the exhibits of bank clearings for the month of July. As in the months preceding, the best returns as a rule come from the Eastern manufacturing and financial centres. For instance, for the New England section the increase is 32.6 per cent, for the Middle States, including New York, 33.8 per cent, and for New York alone 37.1 per cent. For the Middle Western States the gain is only 21.6 per cent and for the Far Western section but 8.2 per cent-this part of the country still suffering from the effects of last year's crop shortage. For the Southern States the gain is also quite small, being 12.3 per cent, but for the Pacific Coast the increase is 30 per cent. The following is a summary of the monthly aggregates since the beginning of theyear.

MONTHLY CLEARINGS.

| Month.    | Cleari         | ngs, Total All. |       | Clearings Outside New York. |                |        |  |  |

At quite a number of points the 1895 clearings are the largest for July of any recent year. This is notably true of Boston, Philadelphia, St. Louis, Baltimore, Pittsburg, Kansas City, Buffalo, Detroit and Cleveland, as will appear by the following.

#### INDUSTRIAL REVIVAL AND GOVERNMENT FINANCES.

The Treasury statements for July present decidedly encouraging features. Foremost among these are the evidences afforded of a permanently enlarged revenue. We say permanently because the development has come after a long suspension of income from certain important taxes, and the expansion has taken place in a way which indicates that the causes of the suspension of income are being gradually removed, and that the inorease is normal, healthy and growing.

Our industries are thus fortunately placed in having just at this time new and better conditions confronting the Treasury. Indeed it seems as if every conceivable force was contributing to make up a truly prosperous outlook for the coming year. Nature certainly is doing its best by bountiful harvests to gladden the hearts of the agriculturalists, while the better prices ruling for all farmers' products, including the important item of wool, show that the income from what they have to sell will be further added to through the enhanced value of these larger surpluses. Manufacturers, too, of almost every description are exhibiting evidences of prosperity not only by advancing wages but also by enlarging their plant in numerous cases ; with reference to iron it is to be said that we are apparently entering upon a season of the heaviest production the country has ever enjoyed, which, as we all know, means much to many departments of trade. In brief, the industrial activity which has been such a marked feature for months in the Eastern and Middle States is at length beginning to manifest itself everywhere. The point suggested by these facts, and which concerns the subject under review, is that this brighter prospect had its inception in the stability given to the Treasury and in the confidence given to capital through the Syndicate bond purchase in February last, and has received further aid this week by the same parties in re-fortifying the Government's gold reserve.

This brief recital thus serves again to disclose that so far as our industries are concerned the "key of strength and safety" is to be found lying very close to the financial situation of the Government. Hence, when we say the Treasury statements for July indica te that the situation as to revenue is permanently improv. ing, and that the Government has entered upon a new and better era in this particular, we are stating a fact of the widest interest, one which means that the Treasury will soon be independent of syndicates and be able to take care of itself. That this is the truth seems to be a fair inference. What has hitherto curtailed the Government income both from Customs duties and from internal revenue taxes ? Speaking in a general way it has been, first, the large imports made last year in anticipation of higher duties under the new tariff-mainly of sugar in the months prior to the revised sugar schedule going into effect; next, the great quantity of whiskey withdrawn from warehouse in June, July and August 1894, to avoid the extra internal revenue tax on whiskey, and, finally, the intense industrial strain that has prevailed so long, growing worse instead of better almost month by month during a large portion of the late fiscal year until February, but after that relaxing, very slowly at first, then, as hereinbefore described, more rapidly in the Eastern and Middle States, but only felt within one or two months to any considerable extent elsewhere.

In other words, it is plain enough that the industrial conditions have not been such until quite recently as to give any natural expansion to Government revenue; they have been just the conditions that would prolong the distribution and consumption of the over-supply thrown on the market of the two articles referred to above and chiefly depended upon for additional revenue. We all know too that the depressed state of business has not by any means even yet everywhere been thrown off. A large part of our country has scarcely felt the revival and cannot reap its benefits but very partially for months yet. Indeed until after the corn crop of the Northwest has begun to be marketed no man can say that the enterprise and energies of our people are in full operation and the productiveness of the new system of taxation is fully developed.

In the light of these facts look at the Government revenue figures. If we keep to the facts we will not get far astray either in the attempt to interpret the past or to forecast the future. We will give first the Customs receipts. In the following statement we have arranged them by months for the last two fiscal years, adding also the average for each three months.

The foregoing covers the last half of 1893 made memorable by the silver crisis which forced the legislation ending in the repeal of the purchase clause of the This contest had been so prolonged 1890 silver bill. in the Senate that even when tariff legislation began in D.cember 1893 the Customs duties had through the collapse of business fallen to the lowest point reached in the two years with the exception of the months of June and July 1894. We pass the figures for the fiscal year of 1893-94 with the simple suggestion that they show the effect on revenue of a loss in business activity while all the tax laws were unchanged. They are consequently something of a guide in reaching a judgment as to the extent to which business depression has been acting more recently and is still acting in reducing the productiveness of the present tax laws. Remember that the Customs revenue under the same laws that were in force in 1893-94 averaged \$16,946,251 for the fiscal year 1892-93, against an average of \$10,984,877 in 1893-94. Hence we see that business depression did in that case reduce productiveness 35 per If that condition was such a forceful contractcent. ing influence in 1893 and 1894 why should it not have had a like influence in 1895 and with its removal why should not revenue be further enlarged? This is a fair question and the answer we have made to it is a fair inference.

As to 1894-95, the first event which imparted irregularity to the Customs figures was the completion of tariff legislation, the new act having become a law August 28th. Hence withdrawals from warehouse of imported goods were increased to some extent in August, more largely in September and in smaller amount in October; these withdrawals included some goods held in bond to await lower duties and others which were taken out in anticipation of an enlarged consumptive demand, which was not fully realized, and not being realized the excessive supplies subsequently aided in keeping the Customs duties small. Another event was that in January 1895 the woolen schedule went into effect, and that fact, together with larger imports in anticipation of greatly improved business in 1895, added to the revenue in the next three months. The total imports from January to March, inclusive, were 195 million dollars, against 172 million dollars the last three months of 1894 and 1671 million dollars from July to September 1894. As we have already shown, business did not revive to any considerable extent in the first quarter of 1895, and hence these larger imports, which were continued in April, in some measure over-supplied the current demand and lessened the movement in subsequent months; besides May and June imports are usually below the year's average.

These details are in themselves uninteresting, but they are of use because they explain the irregularity in the receipts from Customs during previous months and also clearly indicate that in the matter of general imports there has been no special cause operating to make the movement in July abnormally large, so that whatever increase there is shown to be must be due to the ordinary trade influence. We do not intend to be understood as saying that Customs payments in the immediately succeeding months will show a large growth. After so considerable an addition as we have in July it would not be surprising if the total were a little smaller for August. But in the autumn when business develops and becomes more general, as it no doubt will, imports will increase and Customs payments be further enlarged. This is a conclusion which the figures we have given clearly establish.

Very little need be added with reference to the internal revenue taxes. The wide variations in the receipts from that source have been caused, incidentally of course, by trade influences, but other than that almost wholly by the tax on spirits, as we have fully explained on former occasions. In July, however, the addition to the total was in great part due to special licenses, which we stated more than two months ago (CHRONICLE May 25 1895, page 904,) always expire at the close of the fiscal year and are renewed and chiefly paid in July. It will be interesting to give the monthly receipts from internal revenue sources in the same form in which we gave the Customs dues.

The foregoing is instructive. First, it shows the influence of the proposed increase in the whiskey tax by Congress, beginning with February 1894, when the bill passed the House, and ending with August of the same year, when the Tariff bill became a law. In the movement during that period we see the reason for the very small average which up to July that branch of the revenue service contributed, and also the ground for the expectation that under the higher tax and improving business the total internal revenue receipts will exceed even the total for July, the month which has just closed, before the fall months are ended.

With reference to the immediate future of this department of revenues, it is to be said that August pay ments will lose the amount contributed by the renewa of licenses; expanding trade may though make this loss in part good, but we hardly expect a total the current month equal to that of July. One other fact is worth mentioning. As the fiscal year ends with June 30th, and as the figures usually published the first of the month were on that account included in the June total, July had one less day than August will have, and this to a trifling extent will be favorable to the income of the later month.

#### THE CHICAGO & NORTH WESTERN REPORT.

The Chicago & North Western report for the fiscal year ending May 31 is a document of great inter est. Twelve months ago it was supposed that the previous fiscal year had been a very trying one, and c-rtainly it was about as trying a period (speaking generally) as any the railroad industry had ever been called upon to endure. But it remained for the late year to disclose a situation and condition of things worse even than that for which the year 1893-94 had been distinguished.

Business depression following the pinic of 1893 and intensified by the tariff uncertainties, the large gold exports, the deficiency in Government revenues, and the precarious condition of the National Treasury, would in any event have prevented any material recovery in revenues, if it did not actually entail a further loss. But in addition there were other disturbing factors of large magnitude. The great railroad strike inaugu rated towards the close of June last year, and which in July assumed such a threatening aspect, for the time being bringing railroad operations almost to a standstill, was one of these; it interrupted trade and travel, and imposed a great loss in revenues, both gross and net, upon the Chicago & North Western, the same as upon other roads. Then came the widespread disaster to the crops. This involved in the case of the section traversed by the Chicago & North Western the spring-wheat crop and the corn crop-the two chief crops in that section.

We have often during the last few months referred to the extent and effects of this remarkable crop failure. In Iowa, where the North Western has 1,163 miles of road, the 1894 production of corn was only about 81 million bushels, against 251 million bushels in 1893, and in Nebraska, where 985 miles of the 1,300 miles comprised in the trans Missouri system are located, the corn yield was but 14 million bushels, against 157 million bushels. In several of the other States through which the lines of the system run there was also a considerable shortage in corn, and the spring wheat crop was likewise deficient. While this shortage necessarily greatly reduced the volume of the grain tonnage of the road, the effects extended way beyond this one item of freight. The failure operated to restrict very materially the purchasing and consuming capacity of the people of that section. In Nebraska part of the population was left in an actually destitute condition, so complete was the crop failure. Unfortunately, too, with the wheat yield below the average the price of wheat was very low, curtailing yet further the spending power of the farming classes. Still another drawback existed during the twelve months. In the preceding fiscal year the company, in common with others, had had the advantage of a large passenger traffic from the World's Fair. In 1894-5 this business was entirely lacking, involving a large loss in passenger revenues on that account, besides which the general passenger movement, local and through, was reduced by the business depression and the crop failure.

All these are conditions and influences from which all the roads in that part of the country have suffered. It is to be regretted that, owing to the inclusion of the Milwaukee Lake Shore & Western in the accounts of the North Western, it is not possible to state the exact amount of loss in traffic and revenues which the road has sustained during the last two years. The annual report makes the decrease in gross earnings in 1894 95, as compared with 1893-94, \$3,877,-808, or 12.12 per cent. But for the reason mentioned this falls short of showing the full amount of the decrease. In the comparison the Milwaukee Lake Shore & Western is included for the whole of 1894-95 but for only the last nine months of 1893 94. We estimate that on an even basis of mileage the loss in gross revenues would be in the vicinity of \$5,000,000. At the same time this decrease follows a very large decrease in the year preceding. According to the com-

18

一副

der

'n

the

8m

Jan

例

pany's report for 1893-4 the decrease was only \$723,565. But in that year the comparison was even more disturbed than in the late year by the absorption of the Like Shore & Western, the operations of said road being included for nine months of 1893-4, but not at all for 1892.3. We showed at the time that on the basis of the same mileage the loss have been \$3,452,188, instead of only would Hence it follows that allowing for \$723,565. the revenues of the Lake Shore & Western gross earnings of the Chicago & North Western have fallen off, roughly, in 1894 5 \$5,000,000, after a falling off of \$3,500,000 in 1893-4, making for the two years a loss of 84 million dollars. And this furnishes an idea at once of the magnitude of the shrinkage in receipts and of the severity of the influences which produced We may add that the 81 million it. dollars loss does not include the trans-Missouri lines, where there has been a further decrease in the two years of a million dollars.

The gross revenues constitute the only item where we can approximate the loss. The net revenues and all the items of traffic statistics are affected in the same way, but we cannot eliminate the operations of the Lake Shore & Western in those cases. We may note, however, that passenger earnings in 1894-5, even with that road included for the whole year, were only \$7,044,691 against \$9,226,467 in the year preceding, when the additional mileage was included for only nine months, thus showing a decrease of \$2,181,776, or nearly 24 per cent. A great part of this falling off, we need hardly say, was due to the absence of the World's Fair travel, which played such a conspicuous part in the business of the previous year. For instance, in round trip or excursion travel, which in 1893 4 embraced the bulk of the World's Fair passengers, the decrease was \$1,675,079, or 64 per cent. However, that business depression and the crop failure also operated to reduce the passenger revenues very materially is evident from the fact that while in 1894-5 on 5,031 miles the total of the passenger earnings was only a little over 7 million dollars, in 1892-3, on 4,273 miles, the amount was almost 8 million dollars. As a matter of fact, notwithstanding the addition of nearly 800 miles of road, the 1895 passenger earnings were the smallest of any year since 1891. The freight revenues for 1894-5 were only \$19,484,415 on 5,031 miles, against \$23,377,715 and \$22,788,422 respectively for 1892-3 and 1891-2 on only 4,273 miles.

These comparisons help one to understand the occasion and the necessity for the reduction in dividends which the company was obliged to make during the late year. It has been, as we see, a most remarkable period. The management, as we shall presently point out, pursued a rigid policy of retrenchment and economy, but of course it was not possible to offset in that way a loss of 84 million dollars in gross revenues during the last two years. Hence we find that even after all the saving in expenses the sum available for dividends in 1895 was only \$2,851,956, as against \$4,307,544 in 1894 and \$4,779,710 in 1893, and furthermore that the amount was the smallest of any year since 1879. The company paid the usual dividend of 7 per cent on the preferred stock, but, as will be remembered, the dividend on the common shares was reduced at both semi-annual periods-from 3 per cent to 21 per cent in January, and then to 11 per cent in July, making the payment for the year on the common stock only 4 per

cent, against 6 per cent in the years preceding. The company did not even quite earn the 4 per cent, but the deficiency is smaller than at one time seemed likely. The preferred stock dividends called for \$1,563,450, deducting which there was left for the common stock \$1,288,506, equal to a little less than 31 per cent on the \$39,054,788 of stock outstanding. The company paid 4 per cent, as said, calling for \$1,562,096, and for the balance of \$273,590 drew on its accumulated surplus. No account is taken in these figures of the income of the land department nor of the results of operations of the trans-Missouri lines. The latter show for the late year a deficiency of \$332,195; the land department shows a net income of \$316,771, and the one may be regarded as offsetting the other.

Considering the tremendous losses in earnings which the road sustained, this is not a bad showing for the year. It deserves to be mentioned, too, that the experience of the North Western has been no different from that of its leading neighbors; they have all had to reduce dividends. The Barlington & Qaincy from a 5 per cent basis has come down to 4 per cent, the St. Paul made the semirannual dividend on its common stock last April only 1 per cent against 2 per cent previously, and the Rock Island has for some time been giving its stockholders only  $\frac{1}{2}$  per cent each quarter instead of the old rate of 1 per cent.

A point of great interest and importance in the case of all roads, where a policy of retrenchment is forced upon the managers, is as to how the saving in expenses has been effected. We know of course that with a smaller volume of traffic the aggregate cost of doing the work will also be less. But at such times the managers are likewise obliged to reduce their yearly outlays for repairs and renewals. With roads like the North West, where a liberal policy in that respect has been pursued in the past, suc'i a course is comparatively easy. In analyzing the company's figures a year ago we showed that while there had been a considerable reduction in the repair and renewal outlays in 1893-4, the saving had been chiefly under one main head-namely, under repairs and renewals of freight cars-and was explained by the addition of a greatly diminished number of new cars. In the late year of course, with the further large loss in revenue, the process had to be carried to greater lengths.

As already pointed out, it is not possible to make direct comparisons with preceding years, but bearing in mind that results in 1894-95 are on an average of 5,031 miles, in 1893-94 on an average of 4,841 miles and in 1892-93 on an average of 4,273 miles, the figures for the three years are nevertheless useful as showing the extent to which this class of expenditures has been reduced. On the larger mileage of 1895 the repair and renewal outlays on locomotives was only \$973,852, against \$1,136,251 and \$1,178,034 respectively on the smaller mileage of 1894 and 1893. On freight cars \$878,559 was spent, against \$1,082,009 in 1894 and \$1,725,103 in 1893, and on roadway and track \$2,419,818 against \$3,202,075 and \$3,373,905 respectively, while under the various smaller heads the result has been much the same. In the following we bring forward a table which we gave last year, adding the figures for 1894-95. At the end of the table we show the number of locomotives and of freight cars purchased or rebuilt each year and charged to expenses. Rolling stock receiving merely ordinary repairs is not included in the designation rebailt.

Altogether it will be seen the company spent in these various ways for repairs and renewals in 1895 on 5,031 miles of road only \$5,501,888, against \$6,792,491 in 1894 on 4,841 miles and \$7,857,213 in 1893 on 4,273 In connection with this great reduction it miles. should be remembered that many of the supplies needed in making repairs could be bought at lower prices in the late year than in the years preceding and that with a smaller volume of business, wear and repair would also in many instances be less. Furthermore, it may be accepted as a fact that the 1893 expenditures in the above were exceptionally large. But allowing for all this, it is still evident that the necessities of the situation forced the management to retrench in an unusual way, which is of course true likewise of practically all railroad properties.

In the last Burlington & Quincy report it was stated that in reducing expenses during the past three years repairs on rolling stock and buildings had not been fully kept up, and that it was estimated that about \$1,000,000 ought to be expended to put them in good shape. President Hughitt, of the North West., on the other hand, it is gratifying to note, is able to state in the present report that "notwithstanding the large curtailment of expenditures in all departments as compared with former recent years, made necessary by the serious falling off in tonnage movement and passengers, the amount of material and labor expended has been sufficient to maintain the property in good condition." Of course, however, Mr. Hughitt must not be inferred as saying that repairs can be permanently kept at the low figures of the late year. His declaration simply means that owing to the high standard to which the road and plant had been brought by the very free outlays of previous years, it has been found possible temporarily to restrict the annual expenditures without detriment to the property. We may suppose that the management will think it prudent to enlarge these outlays again with any considerable increase in business and revenues.

The outlook now is for such an increase, and what margin there is for a recovery is evident from the loss of 8½ million dollars in gross earnings the last two years. In truth, the fact which it is important to remember above all others in studying the results of this great system for the late year is that these results furnish absolutely no criterion of the value or earning capacity of the property. They reflect the outcome in a year of very exceptional and wholly abnormal conditions. Happily, too, it seems likely that these conditions will soon belong entirely to the past. As every one knows, trade and business have already greatly improved all over the United States, and further decided progress in the same direction is being made with each succeeding day. The road is also getting a greatly increased tonnage in iron ore as the result of the revival in the iron trade. Then too the prospects

occur to mar these fine prospects between now and harvest, we may be sure that the showing for the current fiscal year will be totally different from that for the year which we have just reviewed.

#### THE BRITISH ELECTIONS AND THE POLICY THEY INDICATE.

There is now no longer any doubt as to the result of the British elections. It was our conviction that the electors had become so tired of the home and foreign policy of the Liberals that the Conservatives with their allies, the Liberal Unionists, would be returned in such numbers as would give them a strong working majority in the House of Commons. We did not, however, expect the result would prove so complete. No such victory has been won by either of the great political parties in many years. A majority of one hundred and fifty is something marvellous; and in ordinary circumstances such a preponderance of political strength might justly be regarded as dangerous.

The elections in themselves and in their results present.some features which are not unworthy of notice. It is noteworthy, as has already been remarked in these columns, that there was not much of a war cry on either side. The Liberals had nothing new to offer. Home rule was not mentioned by them. On the question of disestablishment in Wales and in Scotland they were silent. Whatever eloquence has been displayed by them since the elections commenced has been foolishly directed against the House of Lords. The opposite side had less need of either platform or programme. They had made no professions. They had not, therefore, failed in the fulfilment of their promises. They were before the people asking their suffrages because they had been resisting Radical legislation. On that ground they still stood. The question, therefore, before the country and demanding the attention of the electorate was the continuance of the policy of the party in power, and the returns are an emphatic answer to this question.

The result would have been unfortunate if the Conservatives-the old Tory element-had been strong enough to enable them to shake off at will the Liberal-Unionists. To the Liberal-Unionists they are indebted for all the success which has attended them so far. But for them they would not have been able to offer resistance so effective to the aggressive policy of their opponents; and the presence in the Cabinet of such men as the Duke of Devonshire, the Marquis of Lansdowne, Mr. Goschen and Mr. Chamberlain, not to mention the Unionist rank and file in both Houses, ought to be a powerful counteractant against any policy of retrogression. Toryism has not always been unwilling to yield to popular demand; but for active effort in the direction of reform, it has never been the worse for the judicious application of the Liberal whip. It has on more than one occasion stolen the thunder of the Whigs; but as a rule it has done so in order to save itself from destruction. Nor is it a matter of small consequence that the Irish party no longer constitutes the balance of power. Their strength was a source of great annoyance to Mr. Gladstone. Their comparative weakness will be a positive advantage to Lord Salisbury. Much is expected of the new Government; and it is fortunate that Cabinet Ministers find themselves in a position to meet expectations.

the revival in the iron trade. Then too the prospects There can be no doubt that the new government has for the crops are extremely favorable. Should nothing in store some surprises in regard to home affairs. It

is quite true that during his last administration Lord Salisbury did not perform wonders in the sphere of home legislation. In the County and the Parish Councils, however, he inaugurated a great work of reform-a work which is destined to be fruitful of good for ages to come. But he was characteristically cautious and faithful to the antecedents of his party, making no haste after change. He is placed now in slightly different circumstances, and it will be necessary for him to do something to please his Liberal associates. Men like Devonshire and Landsdowne and Goschen, and others of their stamp both in and out of office, will not be satisfied with a do-nothing policy. The work of reform must go on in every part of the three kingdoms, and something must be done for Ireland

Rumors are already afloat of certain schemesscheares suggestive of the younger and more aggressive brain of the First Lord of the Treasury than of the less yielding disposition of the Cabinet Chief. The Local Councils, which are working so well on the larger island, are to be extended, it is said, to the lesser; a United Catholic University is to be organized under Government patronage and largely aided by Government money; and whatever there is in Ireland having the appearance of an injustice-if such does not exist in England and Scotlandis to be removed. By way of making Ireland yield some compensation for these favors, the number of members she sends to Westminster is to be considerably reduced. This last arrangement it may be found difficult to accomplish; for although, as compared with Scotland particularly, Ireland has more members than her constituency justifies, the existing number forms a distinct stipulation in the act of union. Irishmen, it may be found, while willing enough to accept the favors, will grudge the payment. Times may yet be lively enough in the green isle; but it is to be hoped that her people will give the Government a fair opportunity to bring about a condition of peace, contentment and prosperity.

Great importance attaches to the foreign policy of the new Government. For the last four or five years so much has the attention of Ministers and members of Parliament been engaged with home affairs-engaged unfortunately to but little purpose-that foreign affairs to all intents and purposes have been neglected. The result has been that a feeling of unrest, altogether un favorable to the continuance of peace, has taken possession of the nations. That high sense of honor, too, which was wont to characterize the foreign policy of the civilized world has latterly, in some prominent cases, been found wanting. There is something very disgraceful in the feeling manifested by France towards Great Britain in the matter of Egypt. France would do nothing when men and money were required to save Egypt from ruin. But France would like to share all the benefits which have resulted from the magnanimous and self-sacrificing work which England accomplished single-handed and alone. There is something even more reprehensible if possible in the conduct of Russia toward Japan. In some respects Russia's behavior in this matter is one of the most indefensible in modern history. We see the beginnings of what may prove similar wrong doing by the great Northern power in regard to Italy and in the matter of Abyssinia. Such things could not have happened in the days of Lord Palmerstone, who in his day nobly apheld the honor of England. They could not have months for their completion.

happened when Lord Beaconsfield was at the head of affairs. Lord Salisbury, on whom the mantle of Beaconsfield has fallen, is not likely to be found wanting in present circumstances. It is time the voice of England were heard in foreign affairs ; and from present indications we are not likely to have long to wait. The first words have already been uttered; and they have not been uttered in vain. Turkey has been spoken to in the matter of Armenia, and has been told that delay will no longer be tolerated. As a result we are informed that the Sultan's Government has decided to accept in their entirety the Armenian reforms proposed by the Powers. We wait to hear the same voice speak to France and to Russia ; and we feel satisfied that as the result there will be less bravado and more fair play. We have no fear of war. England does not court it; and neither France nor Russia, for reasons well known to themselves, will provoke it.

#### ACTIVITY IN BUILDING.

It is perhaps not surprising that with trade and business reviving everywhere there should be evidence also of a considerable expansion in building operations here in New York City. According to the records, the work of erecting new buildings in this centre is apparently being prosecuted on a perfectly surprising scale. But it will be well to see if some special circumstance or condition has not affected the result to such an extent as to qualify somewhat the conclusions to be drawn from it. Of course building goes on all the time, whether the general trade situation is good or bad, but the extent of the movement is governed very largely nevertheless by the trade situation. Last year, when our industries were depressed beyond precedent, the building operations reflected that fact, and the projects filed for the erection of new buildings were the smallest in a good many years. The present year we have not only a recovery, but an increase so pronounced and general as to place 1895 way ahead of all other recent years, both in the number and aggregate cost of the new buildings planned.

This work of erecting new buildings is so important in itself and plays such a prominent part in affecting so many trades, it is surprising that the figures do not receive more attention from time to time. The "Record and Guide" of this city has recently published the statistics for the first six months of the year, and in view of the fact that the figures, as already said, reveal a very great increase, and that they seem to have escaped notice, it will be well to give them a little consideration. In brief we may say that the statistics show that plans were filed in the six months for 2,562 new buildings to cost \$59,201,804, against plans for only 1,297 buildings to cost but \$27,779,160 in the same six months of last year. The number of buildings has just about doubled, the estimated cost considerably more than doubled. In other words, should these projects all be carried to completion, they would provide for the expenditure of  $31\frac{1}{2}$  million dollars more than the projects undertaken in the first half of 1894. We need hardly say that this additional expenditure, if made, would mean a very great stimulus to all branches of trade. Of course the present is the season most favorable for building, but such new projects, be their number or their cost large or small, always provide work for a considerable time to come, and besides many of the structures in all periods require many

That the statistics are not open to question is evident from a statement which has come from the Bureau of Statistics of Labor at Albany. We are not informed as to the purpose which the Labor Bureau has in view in dabbling in the building statistics in this city, but at any rate the Bureau has prepared a statement of that kind. This statement makes the number of buildings for which plans and specifications were filed in the half-year of 1895 2,565, against 1,302 in the halfyear of 1894, and the estimated cost \$60,463,804, against \$27,849,935. Here the 1895 total is larger even than that of the "Record and Guide," and we may add that the Bureau also has aggregated the cost of alterations to buildings, which it reports at \$6,550,-598 for the six months of this year, against \$3,005,184 for the six months of last year. We prefer, however, to use the figures of the "Record and Guide," as that journal has been engaged in the work for a good many years and its statistics extend back over a long "period of time.

If there were an increase only as compared with 1894 the fact would not possess special significance, last year's total having been small. But as a matter of fact the 1895 total, as already said, is considerably in excess of the totals for the years preceding too. As against the 2,562 buildings provided for in 1895, the number in 1893 was only 1,552, in 1892 1,814, in 1891 1,589. The estimated cost in 1893 was \$43,007,813. which included the Cathedral of St. John the Divine, to cost \$5,000,000, and St. Luke's Hospital, to cost \$1,000,000. Eliminating the Cathedral, the aggregate for 1893 is reduced to \$38,007,813, while for 1895, as we have seen, the amount is \$59,201,804; in 1892 the plans provided for an expenditure of \$39,252,583, in 1891 for \$34,500,816. Hence the present year's aggregate is very much higher than that for any of these preceding years. The following shows the figures for each of the six months for the last four years. It will be observed that there is an increase over 1894 both in number and cost for every month except June. which exception, however, as we shall presently see, is rather significant.

\* Includes the Cathedral of St. John the Divine to cost \$5,000,-000. † Includes St. Luke's Hospital to cost \$1,000,000.

If we classify the new buildings according to the different parts of the city in which they are to be located, we find an increase no less decided or general. The "Record and Guide" has divided the city into seven sections or districts, and here is a comparison for these districts for the last three years.

| DISTRIBUTION | OF | NEW | BUILDING | PROJECTS | IN | NEW | YORK. |  |

\* Includes Cathedral of St. John the Divine, to cost \$5,000,000, and St. Luke's Hospital to cost \$1,000,000. [VOL. LXI.

We have already shown that the statistics themselves are not open to doubt. The question still remains to be answered, however, why are the totals so very large? Mere trade revival will not account for it. Speculation has some times played a large part in swelling the aggregates. We know of no speculative considerations that would have prompted the launching of new projects on an extensive scale the present year. But the Legislature at its last session was considering and finally passed an amendment to the building laws, providing more stringent regulations regarding the erection of tenement houses. Bearing that in mind, it is rather significant that a large part of the total increase for the six months is found under the head of "flats and tenements." Plans were filed for 1,519 of these in 1895 to cost \$33,708,200. against only 393 in 1894 to cost \$7,794,550 and 527 in 1893 to cost \$11,365,800. Here is an increase over 1894 of 26 million dollars and over 1893 of 22 million dollars. This of course suggests that a good many plans were filed in anticipation of the new law and to get the advantage of the less stringent provisions of the old law. If this surmise be correct-and it is further supported by the fact that the new law went into effect on the 29th of May and that in the next month (June) there was at once a marked falling off-then a good many of the building projects for which plans have been filed may not be immediately carried out and some perhaps never be carried out.

Still, the increase shown in the building projects can not all be explained in that way. There has been a considerable addition in some of the other classes of buildings, and this there is no reason to suppose has been swelled by any fictitious element. For instance, the present year's projects cover 683 private dwellings to cost \$6,836,000, against 550 to cost \$6,045,460 in 1894, and 126 office buildings, hotels, stores, &c., to cost \$17,442,200, against only 116 to cost \$12,650,350 in 1894. On the whole, therefore, the conclusion is that there is a considerable increase in projects which it is intended to carry to completion, but no such increase as appears by the face of the figures.

Looking at the building statistics of some of the other leading cities, we find that at Chicago plans were filed for 4,465 buildings to cost \$19,103,908 in 1895. against 5,670 buildings in 1894 to cost \$17,720,640. The decrease in the number of buildings coincident with the increase in aggregate cost is significant as showing that the tendency in that city is towards the erection of a better class of buildings. Even as it is, the contrast with New York is very striking, as the average per building in the City on the Lakes stands at less than \$4,500, whereas at this centre the average stands at over \$23,000. We subjoin the Chicago figures for the past five years. In explanation of the very large totals for 1891 and 1892, it should be said that those were the years preceding the holding of the World's Fair, when building was going on on an exceptional scale.

|-------------------|------------------|-------------------|--------------------|
| 1891              | 6,068            | 149,177           | \$22,877,700       |
| 1892              | 6,716            | 156,402           | 28,840 400         |
| 1893              | 4,850            | 130,489           | 18,235,895         |
| 1894              | 5,670            | 129,193           | 17,720,640         |
| 1895              | 4,465            | 114,887           | 19,103,908         |

In Brooklyn, or more accurately Kings County, there has been only a small increase over 1894, leaving the totals much below those of the years preceding. The plans provide tor 1,899 buildings, against 1,759 in THE UHRONICLE.

1894, but against 2,199 in 1893 and 2,380 in 1892. The estimated cost stands at \$7,831,354, against \$7,040,895 in 1894, \$11,452,444 in 1893 and \$11,953,084 in 1892. The class of buildings here is as unlike those in New York as are the buildings in Chicago, the average per building being only a little over \$4,000. It will be interesting to bring the figures of the three cities together as regards the expenditures provided by these building projects, and this we have accordingly done in the following:

| TOWING.                    |              |              |              |
|----------------------------|--------------|--------------|--------------|
| ESTIMATED COST O           | F NEW BUILD  | INGS PROJECT | ED.          |
| First 6 months, 1895.      | 1894.        | 1893.        | 1892.        |
| New York City.\$59,201,804 | \$27,779,163 | \$43,007,813 | \$39,252,583 |
| Kings County 7,831,354     | 7,040,895    | 11,452,444   | 11,953,084   |
| Total\$67,033,158          |              | \$54,460,257 | \$51,205,667 |
| Chicago 19,103,903         | 17,720,640   | 18,235,895   | 28,840,400   |
| Total\$86,137,066          | \$52,540,695 | \$72,696,152 | \$30,046,087 |

Thus the aggregate for the three cities stands at \$86,137,066 in 1895, against \$52,540,695 in 1894 and \$72,696,152 in 1893, \$80,046,067 in 1892 and \$69,709,-353 in 1891. If we should knock from the 1895 figures 15 million dollars to represent projects filed in New York merely to get the benefit of the old building law, the total would still be very large, and make a fair comparison with 1893 and 1892, in the latter of which years the number of new buildings put up in Chicago was extraordinarily large in anticipation of the World's Fair.

#### MR. ASHLEY ON FREE SILVER.

Mr. O. D. Ashley, President of the Wabash Railroad Company, has an interesting article on "free silver" in last week's "Independent". It is difficult to write anything really new on the subject. His article comes as near to doing that as it can be done. He has at least put old things in a new and attractive form so as to make them fresh if not distinctively new.

We wish Mr. Ashley in the article had carried his suggestion with reference to wheat as currency another step. So far as he develops the thought it is strikingly simple, instructive and conclusive. Had he gone on and applied to such a currency a coinage proposal like to that of the free silver advocates, he would of course have reached results similar to those he did reach, but expressed in that way they would be likely to have made a still more effective appeal to the classes he was addressing.

He takes the case of a community agreeing upon wheat as the measure of values and calling a bushel instead of a dollar the unit, and making bushels of wheat a legal tender for all debts, public and private. Then in place of saying that a house was worth ten thousand dollars, its worth would be expressed by ten thousand bushels of wheat; wages, on the supposition that the normal value of wheat was one dollar, would be one, two, three or four bushels of wheat per day in the place of one, two, three or four dollars per day. Wheat, as we know, is liable in the markets of the world to variations in value according to the supply and demand, just as silver is. In the case supposed wheat itself would not show to that community these variations, as its nominal value would be fixed by law; but all other products would be higher or lower according to the fluctuations of that article in the world's markets. Hence if wheat declined to fifty cents in London, farmers who had a surplas to sell would find that measured in other products or other values the purchasing power of wheat had decline 1. The owner of a house, for instance, who asked 10,000 bushels for the house before would now, perhaps, ask 15,000 bushels,

Some of the conclusions of the article are not just such as we should have reached. But with reference to those matters it is to be said that Mr. Ashley was endeavoring to put the case in the best possible light for silver so that he could not be charged with unfairness by the class he was addressing. If were asked to express his position, as it appears to us, we should say that he endeavored so hard to be just that we think he has leaned over backwards a little. We need take the space to mention but one instance, and we would not mention that were it not that the admission he makes is such an important one. He says "some advance in the gold value of silver may be reasonably anticipated " in the case of the free coinage of silver by the United States alone. We think on the contrary that if such an operation had any effect upon the price of silver it would by to depreciate its gold value. Of course a temporary spurt like that which occurred just before and just after the 1890 silver purchase law went into effect might be experienced. Aside from that speculative, and temporary movement, the course of the silver market expressed in gold would be down-We have given our reasons briefly on occasions for this view and there is wards. former no need for elaborating them again. If any friend of silver thinks we are in error and that silver would appreciate in the contingency mentioned, he is free to send us his views and we promise to publish them, and to answer them, too; the latter we think we can do to his complete satisfaction.

#### EFFECTS ON TRADE OF THE OPENING OF ADDITIONAL CHINESE TREATY PORTS.

The generally accepted view of the opening of additional treaty ports in China, through the treaty of peace concluded between Japan and that country, is that it will lead to a great increase in the trade with foreign countries, and that in this increase the United States may reasonably be expected to share. We have received from an esteemed reader the following communications, taking a different view of the importance of the event referred to.

The firm in China whose opinion has been solicited by our correspondent is a very large and influential one, as would be recognized if we were permitted to mention their name. This gives to what they say much weight, and besides it is interesting to hear what can be urged on the other side of the question. We make room for their letter on that account.

For ourselves, we must be permitted to say that we can not resist the conclusion that the opening of the new Chinese ports and the great stirring up which the war has caused must in the end result in a considerable expansion in the foreign trade with the East. Our correspondent's communications comprise two letters, the first the one addressed by him to the Chinese house referred to and the other the reply of that house.

#### NEW YORK, April 24, 1895.

#### Mr. ----, HONG KONG:

From what I can read and gather from others, if the stipulations of this treaty are carried out it seems to me that there will be a great demand for American machinery and goods of

DEAR SIR-According to the reports in the papers here, peace has been practically established between Japan and China, and among other conditions required by Japan are the opening of five more treaty ports to all nations, the introduction of machinery and improvements, and possibly other goods and materials.

various kinds and classes. Now, while we know that Eng-land and Germany have in the past catered in style, quality, prejudice and manner of putting up of articles to people of other countries, and therefore secured a larger part of foreign trade than ourselves, is there not, under the new condition of things, a possibility for a great extension and expansion of trade from this country with China and Japan, the former in the cruder and coarser goods, the latter in finer and "more civilized" articles? Allowing for the moment this to be so, will not our shipping ports on the Pacific Coast, particularly Seattle and Tacoma, gain much from this, not only from the freight of the East, but what is produced or raised in their own vicinity? Having been here so recently, you are well able to judge of conditions and trend of matters in connection with Chinese trade, and I would be glad to have you at your leisure write me a reply to this such as I could show or sub-mit to others, and also give me a general outline of the sort and kind of exports this country could with profit send to the East, and how it would be done; in what manner would pay-ment be made—that is through a firm such as yours acting as a commission house—and would there be any money in it for you; and where, if at all, the bank or firm on this end would "come in ?"

"come in ?" Another factor in this, in the course of a few years, will be the imports from China and Japan by our people of not only staple and necessary articles, but expensive and high-class goods, curios and bric-a-brac so-called; for as soon as times improve, and they are fast doing so, money will be made, as in the past, by "new people" who will want all these things and will spend their surplus wealth freely. Trusting that I am not asking too much of your time and attention, I am, Yours sincerely, \_\_\_\_\_.

#### Hong Kong, June 17th, 1895.

Mr. — , NEW YORK. DEAR SIR – I had the pleasure of receiving from you by the mail before the last a letter of inquiry as to the probable alteration or expansion of trade in China, in particular with the United States, consequent upon the conclusion of the Chino-Japanese War.

My own very definite opinion, on the assumption that the war is really now terminated, is that no or very little change will come over the commercial relations of the United States and China that would not have occurred had the war never taken place. As regards imports here, with the exception of flour,

kerosene oil and ginseng, America seems to produce very little that the Chinese need, and of these three articles of mer-chandise kerosene is the only one in what may be called universal use, as ginseng and flour practically go to Hong

Kong alone. The expansion of the oil trade will probably proceed as in the past decade, checked or encouraged momentarily by the usual factors, fluctuations in price, changes in internal taxa-tion and foreign competition. The American oil trade now concerns only the consumers and the Standard Oil Company, and though the largest in volume of our item in Chirade now and though the largest in volume of any item in China's im-port trade, for that reason is of small interest to the mercantile body

and though the targest in volume of any term in ontary the port trade, for that reason is of small interest to the mercan-tile body.\* Flour is persistently making its way as an important article of food supply in South China and Hong Kong, the latter being a distributing point to the Philippine; Indo-China and the Straits. The Northern Chinese have not as yet taken seriously to wheat bread and cakes, mainly owing, we sup-pose, to climatic reasons. All the flour comes from the Pacific Slope, California, Oregon and Washington, and the trade is constantly increasing by reason of the many shipping facilities and the reduced cost of milling in the wheat-grow-ing country. The business is not general among foreign firms in China, and is mostly in the hands of local agents of the mills, who sell directly to the Chinese.} Ginseng comes principally from the Middle and Western States, and trade in it remains stationary, owing to the gradual extinction of the plant, which cannot be grown artifically with success. The quantity imported is about the same last year as for the few years immediately preceding, and the gold price has varied to about the same extent. One foreign firm, our own, does one-third of the trade, and the Chinese the rest. The imported value for 1894 was about \$2,000,000 (Mexican.) The effects of the war were very slight. In the export trade the leading features are silk, tea, matting, straw, braid, rugs and furs, and Canton sundries, comprising fire-crackers, cassia, palm-leaf fans, etc. As far as my ob-servation goes, not a single one of these commodities has been affected in production or price by the war. Formoss tea, owing to the peculiar state of affairs in that island, may prove an exception, but Formosa is now Japan, or rather is in process of becoming so. Shipments of all the different mer-chandise mentioned go on in a perfectly steady and natural way, slow ly increasing year by year, the emolument to the merchant remaining the same, as the cutting of commissions and profits about keep pace

ago. The war has done very little towards awakening China to a proper sense of its backwardness in civilization and to its

\* Imports to Heng Kovg only of American oll for 1893, 1,420,000 cases of 10 gallons, valued at \$2,130,000 Mex. Shanghal imports were about the same. f American flour imported to Hong Kong in 1894, 2,000,000 quarter sacks of 50 lbs. each, valued at \$2,800,000 Mex.

culpable folly in not taking steps to avail of the new methods of defending itself by the introduction of modern arms and tactics and later-day modes of inland transport. China is a huge lethargic pachyderm and so inert and nerveless as never to have been thoroughly aroused to the fact that it has had on its hands a war that dangerously threatened its very existence and pointed to its eventual partition among the leading powers of the world. The creat isolary system one province and an

leading powers of the world. The great jealousy existing between one province and an-other, or rather the governors thereof, and between the dif-ferent political cliques at Peking acts as a great bar to the in-troduction of reform and progressive works. The development of mines, establishment of factories and building of railways would add so much to the power and wealth of any chosen province that the mandarindom of other provinces unite together to put a damper upon any progressive spirit that manifests itself. There is a difference of opinion as to whether all of China's resources will be so taxed to pay Japan's indemnity that there will be nothing left for home improvements, or she will proceed at once to put her affairs in order and the Government make amends for its failure to protect in the past her borders from foreign attack. An old-In order and the Government make amends for its failure to protect in the past her borders from foreign attack. An old-fashioned middle course I think will be adopted, and we shall see some funds available for forts, guns and a new navy. The United States may, if manufacturers are ener-getic and able to compete with Europe in price, obtain a share of this work, and it is to those only interested in armed ships, fortifications and guns that the present condition of China energies. ships, fortifications and gene China especially appeals. In a country like the United States, of such high returns for interest on capital, foreign loan mongering has no place. I remain. dear sir, Yours faithfully,

Clearings by Telegraph.—Sales of Stocks, Bonds, &c.— Stock Exchange Clearing-House Transactions.—The sub-joined statement, covering the clearings for the current week, usually appears on the first page of the CHRONICLE, but on account of the length of the other tables is crowded out once a month. The figures are received by telegraph from the leading cities. It will be observed that as compared with the corresponding week of 1894 there is an increase in the ag-gregate of 20 9 per cent. So far as the individual cities are concerned New York exhibits an increase of 25 9 per cent, and the gains at other points are: Boston 37 2 per cent, St. Louis 4.7 per cent, Philadelphia 19 1 per cent and Baltimore 11 3 per cent. Chicago records a decrease of 3 9 per cent and New Orleans 8.2 per cent.

#### Plonetary Commercial English News

[From our own correspondent.]

LONDON, SATURDAY, July 20, 1895.

The long continuance of cheap money is stimulating the bringing out of new issues, as was to have been expected. Messrs. Brown, Shipley & Co. are offering nearly 7 million dollars of Lehigh Valley Coal Co, gold bonds, guaranteed by the Lehigh Valley Railroad Company; Messrs, Rothschild are offering 6 millions sterling of Brazilian Government bonds; a number of new railroad enterprises in India are being brought out; there is talk of another Chilian loan before long; and several colonial loans are in preparation. All this goes to prove that confidence here is completely restored and that the investing public now is prepared to give all necessary accommodation to foreign countries and to foreign enterprises. It is understood even that large applications have been made from London for the new Chinese loan. The loan is not offered in London, but three of the great French banks which have offices here are accepting applications from their customers.

The silver market is rather dull, with a drooping tendency. The impression gains ground that very little silver will be remitted to China. Nothing official has yet been announced, but the belief in Paris, as well as in London, is that the whole of the proceeds of the loan will be at once handed over to Japan, and it is thought that Japan will spend the money in Europe, partly to pay off loans incurred during the war and partly to strengthen the army and navy. Still the India Council is selling its drafts fairly well. On Wednesday it offered 60 lakhs. The applications were for about two and onehalf times as much, and the whole amount was sold at 1s. 1 5-32d. per rupee as the minimum price, one-half indeed being placed at 1s. 1 3-16d. The applications for the drafts are largely on Chinese account. It is probable, however, that the new Indian railway enterprises that are being started in considerable numbers will by and by strengthen exchange.

The bank dividends for the first half of the year have now been all announced, and upon the whole they are better than might have been expected. The purely London banks, like the London & Westminster, the London Joint Stock, and the Union of London, all distribute at the rate of 1 per cent per annum less than twelve months ago. The banks that are partly metropolitan and partly provincial have not suffered quite so much, but as a rule they also pay less dividends. The purely provincial banks, on the other hand, have fairly well maintained their rates of dividend. A few of them pay considerably less, but as a rule they distribute about the same amounts. Of course it is to be recollected that the competition is not as great in the provinces as in London, and that consequently the old customary rates are generally maintained. For the half-year the average rate of discount for three-months' bank bills in the open market has been only about 17s. per cent, whereas in the first half of last year it was 26s. 6d., and short loans have ranged between  $\frac{1}{4}$  and  $\frac{1}{2}$ per cent-considerably less than in the first half of last year.

Only a few railway dividends have yet been announced. These, however, are rather better than had been looked for in the market. It was known that there would be a reduction in most cases, partly because of the increased fixed charges. But it is found that so far, at all events, the companies have been able to make reductions in their working expenses.

Trade throughout the country is decidedly improving. Especially the woollen manufacturer is very active, and the wool auctions which have been going on since the beginning of the month are well attended and the rise in prices is well maintained. The buying for the United States is exceptionally good. The Continent is not buying so much this week as last week ; but the buying for home account is very large.

The elections for members of the new Parliament began on last Saturday morning and they have continued all through the week, one result being much less activity upon the Stock Exchange than before they began. The city is greatly pleased with the Conservative victory, and probably markets will be strengthened by and by. But the holiday season is now beginning and attendance in the Stock Exchange must be expected to be small for the next two months. Investment in good American bonds is decidedly increasing, and there is a fair amount of activity in the share market likewise, but the business is purely professional. The general public is still holding alcof. There is no doubt that business would increase rapidly if it came to be believed that sound money would be maintained. But while doubt as to what Congress may do continues, the general public will probably remain timid. Investment in bonds, however, is sure to go on unless, of course, alarm returns in the United States itself.

In the South African department there is still active buying-not quite so much of course as before the elections began, but still there is very considerable activity for an election time and the season of the year. Prices, too, are exceed. ingly well maintained.

Outside of these two departments there is scarcely anything doing. The murder of M. Stambuloff, the renewed activity of the Russian Pan-Slavists everywhere, the agitation in Armenia and Macedonia, and the unsettled state of Servia, are all deterring operators on the Continental bourses. That the Chinese loan has been a success cannot be doubted, for every. thing possible has been done by the French banks to make it so. Besides, the issue itself is attractive. It is secured upon the Chinese Customs and has, besides, a Russian guarantee, and it yields rather more than 4 per cent. But in spite of the great success of this issue business is quiet in Paris and Berlin, and there is a more anxious feeling than has prevailed for some time. The belief continues that peace will be maintained, but at the same time every one recognizes that the state of things in the Balkan Peninsula and in Asia Minor is exceedingly dangerous. And the attitude of Japan likewise inspires some apprehension. Probably there is a good deal of exaggeration in the reports that reach this country; but there appears to be no doubt that there is great indignation throughout Japan at the action of Russia; and it is reported that Russia is sending out fresh ironclads and is insisting upon the immediate withdrawal of the Japanese troops from all Chinese territory.

Rumors too of political troubles in South America are renewed. There appears to be no foundation for them. Apparently the Brazilian Government is making progress in the pacification of the country, and strong assurances are given, both by Chili and Argentina, that the disputes between them will be settled amicably. Still the Uruguayan Government affects to believe that war will break out, and two million dollars have been voted by the Uruguayan Assembly to increase the army. The Brazilian loan announced to-day has not been very well received, being quoted at only 1/2 to 3/4 premium.

It may be mentioned that the success of the Conservatives at the elections is regarded as putting local veto out of the range of practical politics for a long time to come, and the values of brewery shares and of public house property are rising in value, the improvement during the past week already having been considerable.

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols, &c., compared with the last three years:

Commercial and Miscellaneous Rews

CHANGES IN LEGAL TENDERS AND NATIONAL BANK NOTES TO AUGUST 1.-The Comptroller of the Currency has furnished us the following, showing the amounts of national bank notes July 1, together with the amounts outstanding August 1, and the increase or decrease during the month; the changes in legal tenders held for the redemption of bank notes up to August 1.

National Bank Notes-Amount outstanding July 1, 1895..... Amount issued during July..... Amount retired during July..... Amount outstanding August 1, 1895\* ..

Legal Tender Notes – Amount on deposit to redeem national bank notes July 1, 1895. Amount deposited during July. Am't reissued and bank notes retired in July.

According to the above the amount of legal tenders on deposit August 1 with the Treasurer of the United States to redeem national bank notes was \$24,704,475. The portion of this deposit made (1) by banks becoming insolvent, (2) by banks going into voluntary liquidation, and (3) by banks reducing or retiring their circulation, was as follows on the first of each of the last five months:

\$211,600,698

\$211,281,908

\$25,538,600

834.125

318.790

\$692,777

\$187,442

\$1,900,000 Metropolitan Street Rulway Company of Kan May 1, 1910, are offered by Messrs, Lee, Higginson & Co., of Boston and Messrs. N.W. Harris & Co., of New York and Chi-cago, at 971/2 and interest, yielding about 51/4 per cent. The attention of our readers is called to the advertisement in another column.

-Mr. F. J. Lisman, the well-known bond broker of 10 Wall Street, was this week admitted to membership in the New York Stock Exchange. Mr. Lisman is recognized as excep-tionally well informed on investment securities, a line of business to which he devotes most of his attention.

-Messrs. W. J. Hayes & Sons, Cleveland and Boston, invite attention to a list of municipal bonds which they offer in the advertising columns of this issue. Complete data will be furnished on application.

- The United States Trust Company, New York, will re-ceive offers for the disposal of 100 Johnson Company first mortgage bonds, to be retired September 1, under the terms of the sinking fund.

#### WALL STREET, FRIDAY, AUGUST 2, 1895.-5 P. M.

The Money Market and Financial Situation .- No new features of importance have developed during the week to affect the markets or change the course of business in Wall While the principal activity in the stock market is Street. due to the speculative element, there continues to be a demand for investment securities which absorbs all the offerings of that class.

The certainty of a very large yield of spring wheat and the growing assurance of a bountiful corn crop are facts which, although not new, are the most important factors today in the general situation.

It is pleasant to note that progress is being made in the reorganization of some of the important companies now in receivers' hands, and it is hoped that we may soon see the Reading, Erie and Northern Pacific following in the line of New England, Atchison and the U. S. Cordage Company. The market for both bonds and stocks has been weak to-day and declines were general. The movement was stimulated by the withdrawal of over \$2,000,000 of gold from the subtreasury, a considerable part of which is for export.

There is an increasing demand for loans by banks in the South and West, which will no doubt soon be reflected in advancing rates in this market.

The open market rates for call loans during the week on stock and bond collaterals have ranged from 1 to 11/2 per cent. To-day's rates on call were 1 per cent. Prime commercial paper is quoted at 3 to 4 per cent.

The Bank of England weekly statement on Thursday showed an increase in bullion of £172,636, and the percentage of reserve to liabilities was 57.76 against 59.04, last week; the discount rate remains unchanged at 2 per cent. The Bank of France shows a decrease of 1,950,000 francs in gold and an increase of 875,000 francs in silver.

The New York City Clearing-House banks in their statement of July 27 showed an increase in the reserve held of \$4,161,-600 and a surplus over the required reserve of \$41,996,575 against \$38,491,125 the previous week.

Foreign Exchange.-There is no change to note in the condition of the foreign exchange market. There is a scarcity of both sterling and Continental bills and rates continue at the highest figures. Some gold has been engaged for export to Canada and Europe.

To-day actual rates of exchange were as follows : Bankers' sixty days sterling, 4891/4@4891/2; demand, 4901/4@4901/2; cables, 4 901/2@4 903/4.

Posted rates of leading bankers are as follows :

| Aug. 3.   | Sixty Days.  | Demand.   |
|---|--|---|
| Prime bankers' sterling bills on Lond<br>Prime commercial.<br>Documentary commercial<br>Paris bankers' (francs)<br>Amsterdam (guilders) bankers<br>Frankfort or Bremen (reichmarks) b'E | <br>$\begin{array}{r} 4 & 883 \\ 4 & 883 \\ 0 \\ 4 \\ 883 \\ 0 \\ 4 \\ 883 \\ 0 \\ 4 \\ 0 \\ 4 \\ 0 \\ 4 \\ 0 \\ 4 \\ 0 \\ 5 \\ 16^{3} $ | $\begin{array}{r} 4 \ 91 \\ \hline \\ 5 \ 15 \ 25 \ 14^{5} 16 \\ 40^{7} 16 \ 240^{1} 9 \\ 95 \ 15 \ 16 \ 296 \end{array}$ |

The following were the rates of domestic exchange on New York at the under-mentioned cities to-day: Savannah, buying to make the same operative.

par, selling 1/2021-10 premium; Charleston, buying par, selling 1/200 premium; New Orleans, bank, \$200 premium, commercial \$100 premium; Chicago, 25c, per \$1,000 premium; St. Louis, 50075c. per \$1,000 premium.

United States Bonds.—Sales of Government bonds at the Board include \$24,000 4s, coup., 1925, at  $123\frac{1}{2}$  to  $123\frac{1}{2}$ ; \$7,000 4s, reg., 1907, at 112 to  $112\frac{1}{2}$ ; \$2,000 5s, reg., at  $115\frac{1}{2}$ , and \$20,000 5s, coup., at  $115\frac{1}{2}$  to  $115\frac{1}{2}$ . Closing prices were as follow: follows:

State and Railroad Bonds.—Sales of State bonds at the Board include \$21,000 Tenn. settlement 3s at 90 to 90%; \$27,-500 Virginia fund. debt 2-3s of 1991 at 63 to 63¼; \$8,500 Louis-iana con. 4s at 98 to 99 and \$9,000 So. Carolina 6s, non-fund-able, at 1½. The railroad bond market has continued active and firm in

The rairoad bond market has contributed active and thin in tone, and changes are generally to higher prices. The Atchisons have been the most prominent features and the transactions in them aggregate a large amount. The 2d rects, 1st instalment paid have advanced nearly 2 points and the adj. 4s, new (when issued), about 1 point. Chic. & No. Pac. 1st rects. and Sav. & Western 1st rects. are one point higher. Mo. Kan. & Texas and Texas & Pac. issues have been active and are higher, the former 2ds having gained about 2 points. Or. Short Line & U. N. con. rects. have made the same advance.

U. S. Cordage 1sts., in sympathy with the stock, have ad-vanced about 5 points, as the reorganization plan becomes operative. Wabash issues have been conspicuously active without material change in prices.

Railroad and Miscellaneous Stocks.—The stock market has been fairly active and was strong during the early part of the week, especially for the railroad list. The increasing prospect of an abundant harvest has caused the granger stocks to advance to a higher level of prices. The Atchison and other Southwestern shares have continued active and strong, Mo. Pac. having advanced 3 points on liberal buy-ing, as the plan for funding the floating debt is succeeding. There is no change in the unfortunate coal situation, and the coal stocks have been neglected but without material change in prices. Louisville & Nash. has advanced about 2 points on good buying, stimulated no doubt by recent developments in the financiering of the company. Some of the low-priced stocks, including Lake Erie & Western, New York Susq. & Western, Wheeling & Lake Erie, C. C. C. & St. Louis, Minn. & St. Louis, Mobile & Ohio and P. C. C. & St. Louis, have been more active than usual. The speculative industrials have been the most active stocks Railroad and Miscellaneous Stocks .- The stock market

The speculative industrials have been the most active stocks in the market. Am. Sugar advanced from 113<sup>3</sup>/<sub>4</sub> at the close last week to 118 on Thursday, and closes to-day at 113<sup>3</sup>/<sub>4</sub>. Chicago Gas is over 2 points higher, and there is no reason known to the public for any change in the value of either of these stocks. General Electric has gained about a point. Tenn. Coal & Iron has been strong on limited sales. U. S. Leather has been unsteady, the preferred fluctuating between 88 and 85. U. S. Cordage shares advanced rapidly on Thursday when it became known that a sufficient amount of securities had been deposited under the plan of reorganization

The following table shows the gross earnings of United States railroads (and also a few Mexican and Canadian roads) for the latest period reported. The statement includes every $\begin{array}{r} 11,535\\ 17,029\\ 346\\ 40,560\\ 9,276\\ 7,274\\ 5,090\\ 60,922\end{array}$

THE CHRONICIE.

States railroads (and also a few Mexican and Canadian roads) for the latest period reported. The statement includes every road from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two col-umns the earnings for the calendar year from January 1 to and including such latest week or month.

| and including   | such latest  | Week of  | шопон.   |  |  | Lex'gton & East.   |                     | 437,016                   | 426,005  | 1,743,459   | 1,784,169   |

Boston & Albany.

#### (For year ending June 30, 1895.)

The pamphlet report is not yet issued, but from state-ments in the Boston papers we are able to give the following: The total westward tonnage shows an increase of 13.96 p. c., while the total eastward tonnage decreased 88-100 of one per cent. Tonnage in both directions increased 2.40 per cent and the freight earnings increased 2.90 per cent. From rates and the cent. Tornage in both directions increased 2 40 per cent and the freight earnings increased 2 21 per cent. From rates and mis-cellaneous sources the income has fallen off about \$55,000. A gain in freight receipts is offset by the loss in passenger earn-ings, so that the income from both sources is nearly the same as in the year 1894. The net profits have proved to be much greater than we had any reason to expect at the beginning of greater than we had any reason to expect at the beginning of the year.

the year. By the payment of \$2,000,000 six per cent bonds which ma-tured July 1, 1895, the fixed charges for the coming year will be decreased by the sum of \$120,000. The premiums, amount-ing to \$114,006, obtained by the sale of \$2,000,000 four per cent bonds and substituted for the above named six per cent bonds, have been credited to the improvement fund and charged to the trustees. Begarding the improvements made and in produces and

Regarding the improvements made and in progress, and the amounts charged to operating expenses on account of the same, the report says :

same, the report says: New shops have been built at West Springfield for the repair of cars and locomotives at a cost of \$186,472. New coal pockets have been built after improved modern methods at a cost of \$91,391. For the separation of grade crossings the sum of \$157,560 has been charged to the earnings of the year, though the whole amount has not yet been expended. The cost of raising and balasting the tracks has been \$114,089. Twenty-seven large and powerful locomotives have been purchased, and all cars are now substantially equipped with vertical plane couplers and with a sufficient number of power brakes to com-ply with the statute of the United States. All of the above items have been charged to working expenses of the year, and nothing has been added to the construction account. The directors and the Mayor and Aldermen of the city of Newton have substantially agreed upon a plan for the depression of the tracks between Newton and Auburndale. The plans are being made for this important undertaking, which will necessitate the temporary removal of the tracks to another location, and it is to be housed that the work will be begun in the near future. When these works are completed there will be no grade crossings between Boston and South Framing-ham.

#### Jacksonville Tampa & Key West Railway.

(Report for the year ending March 31, 1895.)

The report of receiver Joseph H. Durkee says in part:

General remarks.—During the first nine months of the year the business of the road was exceptionally good. The gross earnings between March 31st, 1894, and January 1st, 1895, were \$508,662, as against \$466,491 during the same period 1895, were \$508,662, as against \$466,491 during the same period of the preceding year, showing an increase of \$42,170. The orange crop of the State was larger than ever before and the growers were receiving fair prices for the fruit. Less than half of the orange crop along the line of the road had been shipped. On the night of December 28th, 1894, the first se-vere freeze of the year occurred, and all of the oranges on the trees were frozen and totally destroyed. As a result the gross freight earnings of the road for the months of January, February and March, 1895, were only \$79,109, as against \$200,480 for the same period of the preceding year, showing a decrease of \$121,871. On February 8th, 1895, there occurred another freeze, which was so severe that the orange trees themselves were to a great extent killed to the ground, and all another freeze, which was so severe that the orange trees themselves were to a great extent killed to the ground, and all were severely injured, so that but a small crop can be expect-ed for the next three or four years. During the year ending March 31st, 1894, the road carried about 2,000,000 boxes of or-anges and lemons, producing a gross revenue of \$190,414, being 38½ per cent of the gross freight earnings during the year. Add to this the freight realized from shipments of fer-ligrer material used the material used in the orange tilizer, box material, and other material used in the orange business, and the same will amount to at least 45 per cent of all the freight earnings of the road.

all the freight earnings of the road. During the current year a new industry has started up along the line of road, that of turpentine farming. One farm of considerable extent is now in operation, and there are prospects of other farms being operated in the near future. The lands adapted to this industry are quite extensive along

the line of the road, and it bids fair to become quite an im-portant factor in the business of the road. The road-bed, trestles, bridges, engines, equipment and the physical condition of the road generally have been improved during the year, and the road is now in better physical con-dition than when your receiver took possession thereof. Dur-ing the year new side tracks have been constructed and old of. Durones extended, to the amount of 6,351 feet, at a cist of \$3,-930 16

The receiver is a lyised that since his appointment some, and perhaps a majority, of the consolidated mortgage bonds held as collateral have been sold by the holders, but he is unadvised as to the details of such sales.

Receiver's certificates .- The amount now outstanding is \$49,300, the same as shown by the last annual report

Interest on underlying bonds—The receiver has paid under order of court the coupons maturing July 1st, 1894, upon the bonds of the Jacksonville Tampa & Key West Railway Co.; the coupons maturing March 1st, 1894, and September 1st, 1894, upon the bonds of the Sanford & Lake Eustis Railway 1894, upon the bonds of the Sanford & Lake Eustis Railway Co.; the coupons maturing March 1st, 1894, and September Ist, 1894, and certain coupons maturing September 1st, 1891, upon the bonds of the Atlantic Coast St. Johns & Indian River Railway Company; making a total of \$83,250, paid by the receiver during the year. The coupons upon 52 of the Sanford & Lake Eustis Railway Company bonds, numbers 239 to 290, inclusive, have not been paid by the receiver, as these bonds are held by the Florida Construction Company, which Company, it is claimed, is largely indebted to the Jacksonville Tampå & Key West Railway Company. Statistics.—The earnings and charges for two years have been as follows:

been as follows:

#### GENERAL INVESTMENT NEWS.

Allegheny & Kinzua .- An appeal to the Court of Appeals at Albany has been taken by the directors of this road in the case recently decided against them.—See V. 60, p. 1143.

Atchison System - Colorado Midland RR,-It is Aspen Short Line First Mortgage and Busk Tunnel First Mortgage Coupons due July 1, 1895, from above bonds will be paid on presentation at the office of the Central Trust Com-pany, 54 Wall Street, New York.—V. 60, p. 1143.

Atlantic Coast Electric Rallway.—This line between As-bury Park and Elberon was formally opened on Wednesday. -V. 60, p. 794.

Bank of America (New York City.)—A meeting of the stockholders of this bank is announced for October 7 to act upon a proposed reduction of the capital stock from \$3,000,-000 to \$1,500,000.

Beatrice Rupid Transit & Power.—At Beatrice, Neb., July 26, the property and franchises of this company were sold at auction under an order of the United States Circuit Court, and purchased for \$22,050 by Victor G. Lingtry of Omaha.

Brooklyn Elevated.—This company will on Monday next begin running trains from the Brooklyn Bridge to Manhattan Beach. The cars will be transferred at the Union Station, at Beach. The cars will be transferred at the Union Station, at Beach. The cars will be transferred at the Union Station, at Fifth Avenue and Thirty-sixth Street, to the old Prospect Park & Coney Island (now owned by the Long Island R. R. Co.), to Parkville, and then on the main line of the New York Brooklyn & Manhattan Beach Road. The running time will be thirty-six minutes.-V. 60, p. 1144.

Centralia & Chester R. R.—First mortgage 5 per cent gold bonds of this company, which are limited to \$12,000 per mile, are offered for sale by Messrs Griswold & Gillett. As is shown by the map in the INVESTORS' SUPPLEMENT, the Centralia & Chester extends from its connection with the Illinois Central RR. at Centralia, Ill., to Evansville, Ill., with a branch to Rosborough, Ill.

The bankers above named say :

The road passes through a thickly populated and fertile agricultural district, which produces enormous crops of cereals, and is underlaid with coal. The Randolph Coke & Coal Company, an organization with a capitalization of \$500,000, is now successfully operating several coal mines and a large number of coke ovens on the line of the road in the vicinity of Sparta, with an average capacity of about 1,500 tons per der day

Central RR. & Banking-Savannah & Atlantic .- The Savannah & Atlantic bondholders just before the time for de-posit of securities under the Central of Georgia plan expired, reversed their previous decision and deposited their bonds.-61, p. 158.

Chattanooga Rome & Columbus-Savannah & Western .-The Central Trust Company, as trustee of the mortgage on the Chattanooga Rome & Columbus, has brought action for a receiver for the property and for other relief, naming the company and the Savannah & Western as defendants--V. 61, p. 68.

Unicago Peoria & St. Louis-St. Louis Alton & Terre Hante.-A St. Louis paper says: The new title of the Chi-cago Peoria & St. Louis Line after the sale under foreclosure will be the St. Louis Chine after the sale under foreclosure will be the St. Louis Springfield & Peoria. The opinion is still generally expressed in traffic circles that the Illinois Cen-tral is behind the Cairo Short Line in the negotiations for ac-quiring this property.—V. 61, p. 68.

quiring this property.—V. 61, p. 68.
Columbus & Hocking Coal & Iron Co.—John H. Davis & Co., 10 Wall Street, as large holders of the company's stock and bonds, and representing other bondholders holding a large proportion of the entire issue, request that all security-holders who have not already replied to the circular of July 2d will communicate at once with them regarding the wisest course to pursue. They add, "It is proper for us to say that, in our opinion, the security for the bonds is ample, and if prompt and proper action is taken by the united bondholders no loss whatever need be feared."
M. L. Scudder, 32 Liberty Street, New York, announces that he has been requested by holders of more than one-third of the outstanding bonds to take steps to secure coperation of bondholders for their protection. Bondholders are therefore asked to send him their names, amounts of holdings and suggestions as to proposed committee.—V. 61,

holdings and suggestions as to proposed committee .- V. 61, p. 26.

Columbus Sandusky & Hocking.—The foreclosure sale of this road has been ordered for September 14, 1895.—V. 61, p. 153.

Columbus Southern.-Mr. T. E. Blanchard, of Columbus, Ga., was this week appointed receiver of the Columbus South-ern Railway Company on the application of the Central Trust Company, trustees of a mortgage securing \$1,087,000 of bonds. The road defaulted on the interest of the bonds two years ago and has continued to default ever since. The appointment was made by Judge Newman in the United States Court at Atlanta, Ga. This is the road which Savannah Americus & Montgomery (now Georgia & Alabama) parties have talked of buying. See v. 60, p. 874.

Coney Island & Brooklyn RR. (Trolley).-Earnings for the quarter and the year ending June 30 have been reported as follows:

Distilling & Cattle Feeding.—On the application of Fred-erick W. Anness and George M. Pynchon, represented by Messrs. Guggenheimer, Untermeyer & Marshall, Judge Morgan

J. O'Brien in the New York State Supreme Court on Thursday granted a temporary injunction against the Reorgan-ization Committee of the Distilling & Cattle Feeding Company, and also against the Manhattan Trust Company. The order of Judge O'Brien prevents the committee, or any

of them, personally or through their agents or attorneys, from bidding upon or acquiring the properties of the Trust under the reorganization agreement, or from taking any ac-tion whatsoever by reason of the alleged ownership of any stock or money deposited with the Manhattan Trust Com-pany. The injunction restrains the Manhattan Trust Comstock of moley dependences the Manhattan Trust Com-pany. The injunction restrains the Manhattan Trust Com-pany from paying out or disposing of any of the moneys or securities which are on deposit with it. Yesterday the in-junction in the matter of restraining the purchase of the properties by the Reorganization Committee was vacated. A decision upon the original motion will be given prior to date of sale. The Reorganization Committee believe all obstacles is the properties of the plan will be duly removed.  $-\nabla$ . 60, to the carrying out of the plan will be duly removed.-V. 60, p. 152.

Flint & Pere Marquette RR.—It is reported that construc-tion on the proposed extension of this road from Monroe, Mich., to Toledo, Ohio, twenty-five miles, will probably be Mich., to Toledo. Ohio, twenty-five miles, will probably be undertaken in the early autumn. The extension will be built by the Monroe & Toledo Ry. Co., which will be owned by the F. & P. M. It will afford connection at Toledo with the Co-lumbus Hocking Valley & Toledo, with which company very friendly relations exist, Mr. T. F. Ryan being a director of both roads (see v. 58, p. 902 and v. 57, p. 1038). The annual report of the F. & P. M. for the year ending December 31, 1894, showed \$101,729 to that date invested in the Monroe & Toledo, for securing rights of way, etc. The company, how-ever, has not felt disposed to push the extension until the To be, snowed \$101,729 to that date invested in the Monroe & Toledo, for securing rights of way, etc. The company, how-ever, has not felt disposed to push the extension until the floating debt, amounting in bills payable to \$765,327, January 1, 1895, was paid off; but this, it is said, has been arranged for. -V. 58, p. 710.

1, 1895, was pair off; but this, it is said, has been alranged for.—V. 58, p. 710. Georgia & Alabama-Savannah Americus & Mont-gomery.—For this new company, which has taken over the property of the Savannah Americus & Montgomery, recently sold in foreclosure, officers and directors have been elected as follows: President, John Skelton Williams, of the banking house of John L. Williams & Sons, of Richmond; Vice-Presi-dent and General Manager, Cecil Gabbett; Treasurer, J. Will-cox Brown, President of the Maryland Trust Co., of Balai-more, and Secretary, W.W. Macall, of Savannah. Directors: Adolph Ladenburg, of Ladenburg, Thalmann & Co., bankers, New York; C. Sidney Shepard, of New York; John Skelton Williams, of Richmond, Va.; J. W. Middendorf, of Midden-dorf, Oliver & Co., Baltimore; J. Willo x Brown, R. B. Sperry, Baltimore; John W. Sheffield, Americus, Ga., Presi-dent of the Bank of Commerce; Cecil Gabb-tt, Americus; John Flannery, W. W. Macall and John K. Garnett, of Sa-vannah; James D. Stetson, Macon, Ga.; Vice-President, American National Bank, and S. A. Carter, Columbus, Ar-rangements will be made at once for completing the Savan-nah extension.—V. 60, p. 1147. Knoxville Electric Railway.—In the United States Circuit

Knoxville Electric Railway.—In the United States Circuit Court on Thursday George W. Henderson, receiver of this company, filed a bill in equity against the Union Trust Com-pany of Philadelphia, trustee of one of the mortgages of the railway company, to recover \$200,000, proceeds of bonds said to have been paid to William G. McAdoo, Jr., President of the railway company, and alleged to have been converted by Mr. McAdoo to his own use.—V. 61, p. 152.

Louisville Evansville & St. Louis.-The Fairchild Com-mittee representing the consols have extended the time for deposits without penalty to August 20. See advertisement to-day's CHRONICLE.-V. 61, p. 152.

day's Chronicht. - v. 61, p. 152. Louisville & Nashville. - Under date of August 1 notice is given to the holders of the *ten-forty adjustment mortgage bonds* dated 1884 that the whole series of said bonds is called for payment on the first day of February, 1896, pursuant to their terms, and will be paid on that date at the office of the company, No. 120 Broadway, New York City. Of the *ten-forty* six per cent bonds \$4,531,000 are outstand-ing and their cancellation will release to the company the fol-lowing securities:

lowing securities :

 Howing sections:
 \$1,500,000

 Pensacola & Selma division bonds
 \$98,000

 Mobile & Montgomery division bonds
 \$98,000

 Louisville Cincinnati & Lexington bonds
 \$,208,000

 Pensacola & Atlantic bonds
 1,000,000

 (4.11)
 \$2,200,000

loans.

loans. Up to the present time unified bonds have been issued to a total of \$15,824,000, of which \$2,330,000 have been held in the company's treasury. A sale of \$2,000,000 of these treasury bonds has just been made to Kuhn, Loeb & Co., who have also taken \$4,000,000 of new bonds, part of an issue of \$5,000,000 to be made jointly by the Louisville & Nashville and Mobile & Montgomery. The old Mobile & Montgomery bonds will be cancelled, and the new 50-year 41½ per cent gold bonds will be a first lien at \$28,000 per mile on the 1781½ miles of main line between Mobile and Montgomery ; \$1,000,000 of the new bonds will be reserved for improvements.

This financial operation enables the company to pay off about \$1,000,000 of floating debt, and makes available a large-amount of "unified" and other bonds, at the same time de-creasing the annual interest charge (if we take into account the interest accruing on the floating debt) by between \$50,-

000 and \$75,000 per annum. It is pointed out also that in less than three years the com-pany will be able to refund at a lower rate of interest about \$10,000.000 of 7 per cent bonds, viz., \$2,850,000 L. C. & N. bonds, due Jan. 1, 1897, and \$7,070,000 consols, due April 1, 1898. - V. 61, p. 69.

Macon & Northern Railway.—At the meeting this week a report was received from Alexander Brown & Sons, agents for the bondholders, regarding the proposition mide pre-viously for the sale of the property. The Executive Commit-tee of the company making the offer failed to approve of the details of the proposition. Under these circumstances no proposition was made to the meeting, which adjourned sub-ject to the call of Alexander Brown & Sons. The report presented to the meeting said :

The report presented to the meeting said :

The Macon & Northern Railway Company is taking care of itself, and while the security holders are not deriving any interest upon their investment, all the net earnings of the company being put back upon the property, it is now in very good physical con-dition, and under these circumstances we think it much better to hold on to our property util we can dispose of it on satisfactory terms. Our not accepting any proposition at the present time will unquestionably leave us in a much better position to make a more favorable settlement with the Reorganization Committee of the Central Railroad & Backing Company of Georgia for the guar-antee of that company which we hold. -V. 61, p. 112.

Mamp is & Charleston R. R. Co.—The receivers announce that the coupons due July 1, 1893, from the following-named bonds will be paid on and after August 1, 1895, at the Chase-National Bink, New York, with interest thereon at 6 per cent from date of maturity:

First and Second Extension 7 per cents, extended 1880. Second Mortgage 7 per cents, renewed January 1, 1885. First Mortgage Tennessee Division 7 per cents, Consolidated Mortgage 40 year 7 per cents -V. 59, p. 1055.

Mexico Cuernavaca & Pacific RR.—A press dispatch from Cuernavaca, Mexico, July 30, says that this road has just been completed to Las Tres Marias, a distance of seventy-tour kilocompleted to Les Tres Marias, a distance of seventy-four kilo-metres from the City of Mexico, and the construction of the line to Cuernavaca is being vigorously pushed. Col. J. H. Hampson, President of the road, is quoted as saying that the prospects are bright for the building of the line to the port of Acapulco, on the Pacific Coast.

Acapulco, on the Pacific Coast. Mirsissippi Valley.—A special dispatch to the Globe-Dem-ocrst from Chester, Ill., says that this company by Thomas N. Chase, i's President, has filed a deed appointing William J. S'rong, of Chicago, attorney for the purp se of selling the \$3,000,000 of bonds of said company, which are secured by a mortgage deed of trust, dated April 10, 1894, to the amount of \$15,000 per mile for every mile of track laid from East St. Louis to Cairo, the attorney not to sell the bonds for less than 90 per cent of their face value.—V. 60, p. 432.

New York & New England R.R.—Judge Wallace, in the United States Circuit Court, on Wednesday, entered an order confirming the foreclosure sale of this road to the R-organiza-tion Committee for \$5,000,000. It is expected the new com-pany will take possession within thirty days. Poor & Greenough will purchase the equipment bonds and their coupons due August 1.—V. 61, p. 69. Northern Pacific.—The Northern Pacific & Montana R. R. Co. hondholders' committee has extended the time for denosit

Co. bondholders' committee has extended the time for deposit of bonds until August 15, after which a penalty of \$10 per bond will be imposed. Out of \$5,631,000 bonds listed, \$4,042,-000 had been deposited with the Knickerbocker Trust Co. prior to Aug. 2.-V. 61, p. 27.

North Carolina RR.—It is stated that the Seaboard Air Line people propose to bid for the lease of this road and there-fore ask that the matter be deferred for future consideration. -V. 61, p. 152.

-V. 61, p. 152. **Pennsylvania RR.—Philadelphia & Reading.**—The Penn-sylvania RR. Co. this week revived an old suit long dormant respecting the agreement by which the Reading Company agreed to ship annually one million tons of anthracite coal over the Pennsylvania RR. lines. Subsequently the Reading under-took to revoke the contract by reason of alleged violations of its terms by the Pennsylvania Company. The latter appointed a referee to adjust the matter, but the Reading, in equity in the Common Pleas Court, No. 3, at Philadelphia, had the referee enjoined from taking any action. No further steps were taken until this week when the Pennsylvania Railroad filed a cross bill setting forth that the Reading had defaulted in the performance of the contract, causing the Pennsylvania a loss to date of nearly \$7,000,000. The Court is asked to de-clare the agreement in full force and effect : that an account be stated between the parties and that the Reading Company be ordered to perform its contract.—V. 61, p. 69,113. Philadelphia & Reading R. R.—The receivers have ob-

Philadelphia & Reading R. R.—The receivers have ob-tained an order from the United States Court authorizing the purchase of new equipment—1,000 coal cars from the Pull-man Company, two steam tugs and six barges. The coalcars are to cost \$489,500, to be paid for 10 per cent cash and the remainder in sixty notes, one falling due each month, thus spreading the payments over five years. The vessels are to cost \$352,000, of which the Cramp3, who build them, will re-

ceive \$53,000 cash, and the remainder in notes, payable monthly. -The results of operations for June and the seven months of the fiscal year-Dec. 1 to June 30-have been as follows :

-V. 61, p. 113. Philadelphia Traction-Electric Traction-People's Traction-Union Traction.-The boards of directors of the Philadelphia Traction, People's Traction and Electric Trac-tion companies have all formally approved the plan for uniting their interests. The Philadelphia Traction stock-holders will hold a special meeting of stockholders on Sep-tember 26 to vote on the question of leasing their system to the Union Traction Company. The stockholders of the People's and Electric Traction companies have received a circular describing the proposed consolidation. This circular is important as it states the particulars regarding the deal in official form. We therefore quote it at length; After conference between the boards of directors of the Philadel-

circular describing the proposed consolidation. This circular is important as it states the particulars regarding the deal in official form. We therefore quote it at length:
After conference between the boards of directors of the Philadelphia Traction Company, an application has been filed at Harris-property Traction Company, an application has been filed at Harris-property for a charter of a new corporation, to be known as the Union Traction Company of Philadelphia, with a capital stock of \$30,000,000.
Instainent of \$5 per share on or about the first of October, 1985, also not now expected that any further immediate calls will be necessary. The proposed that the rew corporation shall acquire the control by lease of by the purchase of shares of all the lines now forming the strengths of the Philadelphia Traction Company, the Electric Traction Company and the People's Traction Company, the Electric Traction Company and the People's Traction Company at the rest of \$60 per share on the \$50 per share of the \$50 per share of the \$50 per share of the \$50 per share that the important Parsenger Ry. Co.
The plan adopted provides that the property and franchises of the Philadelphia traction Company shall be leased at a rental which will be assed to a rental being measured. The plan adopted provides that the property and franchises of the Philadelphia Traction Company shall be leased at a rental which will be aborte of the Electric Traction Company and the People's Traction Company at the prate of \$50 per share for each share on which \$50 has been paid at \$60 per share for each share of the Electric Traction Company at the rate of \$50 per share for each share on which \$50 has been paid at \$61 per share for each share of the Electric Traction Company at the rate of \$50 per share for each share on which \$50 has been paid at \$61 per share for each share of the Electric Traction Company at the rate of \$50 per share for each share on the box to \$76 per bear of the Electric Traction Company at the rate o

and Granting Annulties. The stockholders of the People's Traction Company will take action September 26 on the proposed reduction of the par value of their stock from \$50 to \$30, its paid-up value. This will reduce the capital stock of the company to \$6,000,000, which will bring the combined capital of the Electric and People's companies within the limit prescribed by law, under which the two companies can be absorbed by the Union Trac-tion Company

As to the use to which the cash received by the Union Traction Company from the subscriptions to its stock will be put, the Philadelphia *Ledger* says: On the two calls of \$5 each per share on the stock of the Union Traction Company, amounting to \$6,000,000, it is stated

be no further calls on the stockholders for money on their shares, unless for the purpose of building new lines not now contemplated.—V. 61, p. 153.

Pacelo City Railway.—The foreclosure sale of this street railway is advertised for August 31 at not less than \$150,000.— V. 60, p. 1010.

Reorganization Plans, etc.-The following is an index to all defaults, foreclosure sales, reorganization plans, the names of all reorganization committees, and all statements respecting the payment of overdue coupons, that have been published in the CHRONICLE since the last edition of the INVESTORS' and the STR-ET RAILWAY SUPPLEMENTS were issued, all earlie facts of this nature being set forth therein. It does not<sup>T</sup> however, include matter in to day's CHRONICLE.

The following abbreviations are used: Plan for reorganiza-tion or readjustment plan; coup. for coupon payments; def., for default; Com. for committee.

Charleston (W.V.) St. Ry. sale. 26 | Union Pac. coll. tr. g. és. coup. 153 **Bockaway Valley RR.**—Commissioner Rowe has been au-thorized to sell sections two and three, one from Peapack, New Jersey, to Minden, and from Minden to Morristown, of the Rockaway Vallev Railroad Company, which was con-trolled by Mr. Pidcock. The first section, from Whitehouse to Peapack, was sold last week and was bought in for \$30,000 by two of Mr. Pidcock's sons.—V. 61, p. 153.

St. Louis Street Railway Consolidation.-Negotiations are pending with a view to consoli lating the leading street car lines of St. Louis, Mo. into a single system.

Savannah & Western RR. Co. — Central RR & Binking. — The Savannah & Western Bondholders' Committee, of which Simon Borg is chairman, gives notice that it has agreed to participate in a plan for the purchase of the properties of the Central Ralroad & Banking Company of Georgia, subject to the approval of the Savannah & Western certificate holders as provided in the Bondholders' Protective Agreement. A meeting of the certificate holders will therefore be held at the office of Messis. Simon Borg & Co., New York City. August 26, 1895, for the purpose of ratifying the action of the committee in accepting participation in said plan. In order to render the plan effective, the consent of the holders of 60 i er cent of the certificates is essential. The committee has remitted until August 3 the penalty of \$25 heretofore imposed for deposit of unassented bonds, after which day no bonds will be received for account of the committee except upon the payment of a penalty of \$25 per bond. The Borg Committee has issued a circular explaining the situation. In the course of this circular, alluding to the new consols which are allotted to the bondholders [see V. 61, p. 112] the committee says: If you desire that your bonds should be cashed it is necessary to file, methics with a committee as a vides to that affect which different Savannah & Western R.R. Co.-Central R.R. & Banking,

V. 61, p. 112] the committee says: If you desire that your bonds should be cashed it is necessary to file, in writing, with the committee a notice to that effect within fifteen days after the bondholders' meeting (which meeting has been called for the 26th day of Angust, 1895). If you prefer to participate in the syndicate which will bring out the new consolidated bonds, you have a right to do so. In this event you will receive the pro rata net cash proceeds of the bonds which are sold and of any bonds remaining un sold. We are informed by the proposel purchasers that all of the new consolidated bonds of the Central of Georgia Railway Company have been or are to be underwritten and will be offered to the public in the usual manner at a price in excess of 85.-V. 61, p. 68, 153. Southern Central.—The reorganization committee, of which Simon Borg is chairman, announces that the time for depositing bonds with the Metropolitan Trust Company has been extended to Aug. 15, which is the last day on which honds will be received for deposit.—V. 61, p. 28. Toronto Hamilton & Buffalo.—Arrangements have been

Toronto Hamilton & Buffalo.—Arrangements have been completed to extend this road at both ends to make it a through line between Buffalo and Toronto via Hamilton, a total distance of 122 miles. The Canadian Government grants a subsidy of \$3,200 for each mile of track and the City of Hamilton has also granted a subsidy of \$225,000. S. E. Peabody, President of the American Loan & Trust Company, of Boston; N. W. Jordan, Treasurer of the same company; Henry D. Hyde, of Boston, and W. N. Coler & Co., bankers, of New York, are stockholders.

Union Pacific .- A dispatch from Omaha July 29 says that Special Master Cornisb has filed a report in the two Union Pacific cases. Edward Sheldon, attorney for the trustees of the *Denver Extension* bonds prayed on January 25 for an orthe Denver Extension bonds prayed on January 25 for an or-der for the Receivers to pay certain interest on those bonds. Judge Cornish recommends that the petition be denied on the ground that there was not sufficient funds to the credit of that mortgage division to pay the interest in default. The second report refers to the non-payment of the taxes on the Kanaas Cily & Omaha road. Taxes were delinquent for 1894 in February, and the bondholders filed a prayer with the Court calling upon the receivers to pay overdue taxes. Judge Cornish denies the petition for the reason that he finds no funds available for the purpose prayed for by the bond-holders. The cases were heard in New York.—V. 61, p. 153. Unadilla Valley. – This railroad, running from Bridgewater to New Berlin, N. Y., a distance of 20 miles, was formally opened on Thursday. By means of the new road the Delaware Lackawanna & Western obtains a connection with the New Berlin branch of the New York Ontario & Western Railroad. The road was chartered in 1890.

United States Cordage.—The company's reorganization committee annunces that there have been deposited with the Manhattan Trust Company under the plan of reorganization more than a majority of the outstanding bonds of the United States Cordage Company, and also more than 70 per cent of the guaranteed, preferred and common stocks of said company. The committee has therefore declared said plan of reorganization operative.

pany. The committee has therefore declared said plan of reorganization operative. The bondholders' committee say that even if it be true, as announced, that the company's committee has received a majority of the Cordage bonds, that fact does not in any respect alter the purposes of the bondholders' committee, who intend to prosecute the plan announced by them and who have sufficient support to enable them to carry it out. A mere majority of bonds, they say, gives no practical advantage to the party holding them in the face of an amount so large as that held by the bondholders' committee and others who have not joined the Waterbury plan.—V. 61, p. 153.

United States Leather.—The executive committee, "in view of the misleading reports which have recently appeared," has sent to the stockholders a circular in which the statements quoted in the CHRONICLE of July 20 (p. 114) are repeated. They also say the company "will be glad to explain any item" in the annual report issued in February last "needing elucidation, or to give upon personal application of stockholders such general information as can be reasonably asked for." The circular closes with the following: The status of the \$4.000.000 bonds unissued and in the treasury is

The status of the \$4,000,000 bonds unissued and in the treasury is unchanged, power to issue remaining with the directors; and while no present necessity exists for their sale yet as trustees for the stockholders the directors would not hesitate to take action should conditions arise when in their judgment the company's interest would be served by the sale of all or any portion of them.—V. 61, p. 114.

Valley RR. of Ohio-Baltimore & Ohio.-The Court yesterday granted a decree for the foreclosure sale of the Valley RR. of Ohio.

RR. of Ohio. Washington County Railroad (of Maine).—The citizens of Washington County, Me., this week voted largely in favor of the proposition to subscribe to \$500,000 of the company's preferred stock, as authorized to do by the last legislature. The projectors are said to have secured also private subscriptions for a considerable portion of an additional \$200,000 of the stock, and the chances of the road being constructed are considered good. The project is a reorganization of the Shore Line RR. Co. The line is to extend from a connection with the Maine Central across Washington County as near the coast line as practicable to Calais and Eastport on the eastern boundary line of Maine. Mr. George A. Curran, of Portland, Me., is President of the new company and the projectors include Messrs, S. H. Leavitt, S. D. Leavitt, N. A. Nutt, G. A. Murchie, E. B. Curtis and T. W. Cooper. Washlargton County is the most eastern county of Maine and up to the present time has enjoyed railroad facilities only on its northern, eastern and western borders.

-The Reorganization Committee of the Fort Worth & Denver City Railway Co. gives notice to the holders of the first mortgage bonds that deposits should be promptly made with the Mercantile Trust Co. in exchange for its negotiable certificates, and those who have not received the circular of the Reorganization Committee, showing the necessity of an immediate deposit in order to protect the property, will be furnished with it on application to the Mercantile Trust Co. or at the office of the Company, No. 1 Broadway, New York City. -The Louisville & Nashville Railroad Co. having called in

-The Louisville & Nashville Railroad Co. having called in for payment the entire issue of the Louisville & Nashville Railroad Co. ten-forty adjustment mortgage bonds, dated October 2, 1884, on the first day of February, 1896, Messrs. August Belmont & Co. give notice that they are prepared to purchase such bonds in anticipation of payment by the company at a price equal to their redemption value on that date, less a discount of 3 per cent per annum.

a discount of 5 per cent per annum. —Messrs. Griswold & Gillett offer a limited amount of first mortgage 5 per cent 30-year gold bonds of the Centralia & Chester Railroad Company of Illinois at 93½ and accrued interest, at which price they will pay the investor over 5½ per cent. These bonds are not a new security, as the twelfth coupon was paid at the Farmers' Loan & Trust Company, trustee of the mortgage, on July 1. A map of the line will be found in our INVESTORS' SUPPLEMENT.

-Mr. Henry P. Davison has been appointed cashier of the Liberty National Bank and Messrs, Charles G. Emery and E. C. Converse have been added to the board of directors. The Liberty Bank is located in the Central Railroad Building, Liberty Street, corner West Street. Its list of directors comorises prominent names in the financial world. See the card on the first page of the CHRONICLE.

-In our advertising columns will be found a list of investment securities offered by Messrs. Redmond, Kerr & Co., covering a large variety of steam and street railroad securitiee. These securities are fully described in the circulars issued by this firm, which will be mailed on application.

## Reports and Documents.

#### CHICAGO & NORTH WESTERN RAILWAY.

ANNUAL REPORT FOR THE THIRIY-SIXTH FISCAL YEAR ENDING MAY 31, 1895.

The ann ual report of the business and affairs of the Chicago & North Western Railway Company for the fiscal year beginning June 1st, 1894, and ending May 31st, 1895, is herewith submitted:

| submitted :<br>A summary of the year's operation   | one is as follo   | 10.                          |

#### LENGTH OF ROAD.

The miles of railroad embraced in the system of the Chica-go & North Western Railway are the same as were in opera-tion at the beginning of the fiscal year, to wit, 5,030'78 miles, as follows :

3.842.31 -1.188.47

Length of road ..... All of which was operated the entire year against the aver-ge of 4,841.35 miles operated in the preceding year. The mileage by States is as follows: age of

| In Illinois     | 593.97  |
|-----------------|---------|
| In Wisconsin    |         |
| In Michigan     | 521.19  |
| In Iowa         | .163.12 |
| In Minnesota.   | 414-47  |
| In South Dakota | 744.13  |
| In North Dakota | 14.28   |
|                 |         |
| Total           | 000.00  |

The number of miles laid with steel rails on May 31, 1895, was 4,726.35, equal to 93 95-100 per cent of the whole mile age. The total of second track not included in the foregoing state-ment was 393 78 100 miles, all of which is laid with steel.

#### CAPITAL STOCK.

Capital Stock account on May 31, 1895, was as follows:

| Common Stock<br>Preferred Stock |                                       | Stock held by<br>the Company.<br>\$2,333,000 00<br>3,200 00 | <i>Total.</i><br>\$41,385,400 00<br>22,338,200 00 |
|---------------------------------|---------------------------------------|---|---|
| Common Scrip<br>Preferred Scrip | \$61,387,400 00<br>2,387 92<br>170 00 | \$2,336,200 00<br>78 05<br>84 56                            | \$63,723,600 00<br>2,465 97<br>254 56             |
|                                 | \$61,389,957 92                       | \$2,336,362.61  | 863,726,320 53                                    |

The only change during the year was the issue of one share of Common Stock for conversion of Scrip.

#### FUNDED DEBT.

By the payment of bonds drawn for cancellation in the sinking funds, and the redemption of \$3,000 of Cedar Rapids & Missouri River Second Mortgage Bonds which matured in 1894, the funded debt was reduced \$249,000 during the year, viz :

#### BONDS PAID.

21,000

Cedar Rapids & Missouri River RR. Co., Second Mort. Bonds. 3.000

Reduction of debt .... The Company also paid to the sinking fund of the Mil-waukee Lake Shore & Western Railway Extension & Im-provement Bonds and cancelled \$42,000 of the same issue, taken from bonds on hand, which amount is not included in shore statement above statement.

The debt was increased by the issue and sale of \$1,800,000 of the 25 year five per cent Debenture Bonds of 1909, the same being the balance of this class of bonds heretofore reserved from issue; of the present amount \$1,500,000 were sold in anticipation of a large expenditure for track elevation in the city of Chicago, and for construction and equipment purposes, and \$300,000 were sold for sinking fund invest-ments. ments.

The net increase arising from these changes during the year was \$1,551,000. The total amount of funded debt on May 31st, 1895, including \$2,252,000 of live bonds in the various sinking funds was \$131,664,500.

#### PASSENGER TRAFFIC.

PASSENGER TRAFFIC. The gross earnings from passengers amounted to \$7,044,-691 43 against \$9,226,466 90 in the preceding year, being a decrease of \$2,181,775 47, or 23 65-100 per cent; this decrease was equivalent to 56 26-100 per cent of the total losses which the Company sustained upon all of its traffic during the year, and was, for the most part, the result of general dulness and local inactivity which followed closely upon the discontinuance of the large movement of the World's Fair travel in the pre-ceding year. ceding year.

MAINTENANCE OF TRACK. The gross sum expended up in track was \$2,704,386 86, o which amount \$1,595,250 70 was for labor; \$512,440 35 for re newals of rails; \$399,059 87 for renewals of ties, and \$197,-d55 94 for track fastenings, switches, frogs, dump cars, hand to \$1,675,079 60, or 64 per cent; in the earnings from commuta-tation travel the decrease was \$99,77656, or 8.34 per centandin parlor car travel the decrease was \$4,918 51, or 1352-100 per cent; there was a small gain of \$2,255 15 in receipts from second class passengers, caused by the relatively longer haul of the travel compared with that of the preceding year. The number of passengers carried was 15,117,298, a com-parative decrease in first class was 222,823 or 3 83-100 per cent; the decrease in first class was 1,084 or 18 per cent; the decrease in round trip and excursion passengers was 643,504 or 33 10-100 per cent; and the decrease in commuta-

tion passengers was 1,092,691 or 11 74-100 per cent; the average rate received from first class passengers was 88 cents, from second class, \$6 43, from round trip and excusion 72 cents, and from commutation passengers, 13 cents, making the total average rate received from each passenger 47 cents, against 54 cents in the preceding year, a reduction equal to 12 96-100 per cent.

12 96-100 per cent. The total number of all classes carried one mile was 340,-377,973, a decrease of 133,762,860, or 28 21-100 per cent. The number of first class passengers carried one mile de-creased 22,338,269, or 10 47-100 per cent; the number one mile of second class increased 169,257, or 12 86-100 per cent; the number one mile of round trip and excursion decreased 101,236,165, or 69 per cent, and the number one mile of commutation passengers decreased 10,267,683, or 9 11-100 per cent. per cent.

per cent. The average rate received per passenger per mile was 2 7-100 cents, against 1 95-100 cents in the previous year, an increase of 6 15-100 per cent, and the average distance that each passenger was carried was 22 52-100 miles, being a decrease of 5 24-100 miles compared with the distance trav-eled by each passenger in the preceding year.

#### FREIGHT TRAFFIC

The earnings from freight traffic were \$19,484,415 06, agains t \$21,284,929 06 in the preceding year, a decrease of \$1,800,514. or 8 46-100 per cent.

or 8 40-100 per cent. The total number of tons of freight carried was 13,822,906, against 12,949,382 tons in the preceding year; an increase of 873,524 tons, or 6 75-100 per cent; this increase was derived principally from a partial revival of iron ore tonnage during the season of lake navigation, and a moderate amount came from the movement of iron products, stone, brick, lumber, and other coarse and miscellaneous commodities.

and other coarse and miscellaneous commodities. The average fata received per ton was \$1 41 against \$1 64 in previous year, a decrease of 23 cents per ton, or 14 2-100 per cent; the number of tons carried one mile declined from 1,989,355,696 to 1,713,655,944, a decrease of 275,699,752 tons, equal to 13 86-100 per cent; the average distance that each ton of freight was carried was 124 miles against 154 in the preceding year, being a decrease of 30 miles, or 19 48-100 per cent, and the rate received per ton per mile was 1 14-100 cents. cents.

#### PERFORMANCE OF ENGINES.

There was a decrease in the number of miles run during the

There was a decrease in the number of miles run during the year as follows: Reduction in passenger service, 208,040 miles, or 2 15-100 per cent; in freight service, 1,401,499 miles, or 8 72-100 per cent; in switching, 549,087 miles, or 8 6 100 per cent, and in gravel train work, 182,030 miles, or 27 45-100 per cent, and in gravel train work, 182,030 miles, or 27 45-100 per cent. The total mileage accomplished was 30,866,139, against 33,206,795 in the preceding year, a decrease of 2,340,-656 miles, or 7 5-100 per cent. The cost of this service, including labor, supplies, fuel and repairs, amounted to \$5,586,137 37, and was 31 91-100 per cent of the entire operating expenses. The reduction in this de-partment of expenditure, as compared with the previous year, was \$614,713 98, or 9 91-100 per cent as follows: De-crease in service of enginemen, firemen and wipers, \$155,-511 32, or 6 68-100 per cent; decrease in fuel account, \$273,-518 78, or 10 38-100 per cent; decrease in oil, waste and tal-low, \$23,285 20, or 22 92-100 per cent, and decrease in cost of rearis, \$162,398 68, or 14 29-100 per cent. The total cost per mile run was 18 10-100 cents against 18 67-100 in the preceding year, distributed as follows: For service of enginemen, firemen and wipers, per mile run, 7 3-100 cents, being a slight increase per mile of 2-100 of a cent; for fuel, per mile, 7 66-100 cents; for oil, waste and tal-low, per mile, 25-100 of a cent, and for repairs, per mile, 3 16-100 cents. The miles run per ton of coal or cord of wood were 24 36-100 a gain of 1 46-100 miles, or 6 38-100 oer cent; the miles

3 16-100 cents. The miles run per ton of coal or cord of wood were 24 36-100, a gain of 1 46-100 miles, or 6 38-100 per cent; the miles run to a pint of oil were 16 88-100, a gain of 1 87-100 miles, or 12 46-100 per cent; and the miles run to a pound of waste, 156 50-100, a gain of 23 93-100 miles, or 18 5-100 per cent. The quantity of coal consumed by engines was 1,243,015 tons, being a decrease of 168,798 tons, or 11 96-100 per cent, as compared with the consumption in the previous year, and the quantity of wood consumed was 23,773 cords, a decrease of 15.396 cords, or 39 31-100 per cent. The average cost of coal per ton was \$1 85, an increase of 5 cents per ton, or 2 78-100 per cent; and the average cost of wood per cord was \$2 71, an increase per cord of 18 cents, or 7 11-100 per cent.

7 11-100 per cent.

#### MAINTENANCE OF TRACK.

#### EQUIPMENT.

EQUIPMENT. The number of locomotive engines was 1,010, the same as at the beginning of the year. To the car equipment were added 85 cars by the purchase of 110 refrigerator cars and the dis-mantling of 25 dump cars taken out of service. The whole car equipment at the close of the year consisted of 36,238 cars of all classes. The sum of \$1,016,381 49 (less credit of \$42,529 52 for old material) was expended in locomotive repairs in the Com-pany's shops, and 505 engines were taken up, partially rebuilt and put in thorough repair. For the maintenance of passenger equipment, the net sum

For the maintenance of passenger equipment, the net sum of \$324,441 08 was expended, and for freight equipment the net sum of \$578,559 05, included in which is the cost of 625 box cars and 208 live-stock cars purchased to replace wornout cars.

A large amount of work was done during the year in equip-ping passenger trains with steam-heating apparatus and Pintsch gas light, and in fitting up freight cars with air brakes and automatic couplers, in addition to the usual repairs and renewals, and the rebuilding of 6 furniture cars.

#### GENERAL REMARKS.

GENERAL REMARKS. In the Land Department the sales consisted of 15,755 99-100 acres and 467 lots, which were sold upon the usual terms for the consideration of \$152,676 07. The average rate received was \$10 15 per acre for lands in the Minnesota Grant, \$3 37 per acre for lands in Michigan, \$4 50 for lands in Wisconsin and \$1 97 per acre for Ashland Division lands. The net land income amounted to \$316,770 85, including sales of sundry miscellaneous lands, for which the sum of \$17,740 05 was realized and credited to construction account. The quantity of all lands remaining on the 31st of May, 1895, was 967,855 82-100 acres, of which 231,490 88-100 acres had been sold under contracts still running, and 736,364 94-100 acres were unsold lands.

acres were unsold lands.

The outstanding amounts unpaid to the Land Department on the 31st of May last for lands and lots sold under contracts were \$1,247,758 11. These transactions do not include the lands of the St. Paul Eastern Grand Trunk Ry. Co., of inconsiderable amount, which are set over to the credit of that company. There was a large reduction in the amount expended on construction account, and for new equipment and permanent improvements, during the year; additional facilities were acquired by the building of 36 51-100 miles of side tracks, at a cost of \$143,565 66; the sum of \$19,894 33 was paid for right cf way; \$52,659 62 was expended for account of second track; \$90,313 90 for equipment; \$71,112 40 as the first outlay fcr elevation of track in Chicago; \$103,579 59 for iron ore docks and wharves at Ashland, and \$104,655 05 was expended for various other permanent improvements on the Company's property. property.

The gross earnings per mile of road averaged \$5,587 28, against \$6,616 87 per mile in the preceding year, being a de-crease of \$1,019 59 per mile, equal to 15 43-100 per cent; oper-ating expenses and taxes were reduced from the average of \$4,318 62 per mile in the preceding year to \$3,679 69, making a saving of \$638 93 per mile, or 14 79-100 per cent. The rate of operating expenses to gross earnings was 62 27-100 per cent and of operating expenses and taxes 65 86-100 per cent, against 62 11-100 per cent and 65 37-100 per cent, respectively, in the previous year. The fiscal year covered by this report was marked by a series of adverse circumstances, which greatly reduced both freight and passenger earnings. At its beginning business had not recovered from the general depression of the previous two years, when freight earnings had fallen off with the decline of numerous industries, and the situation, with respect to

recovered from the general depression of the previous two years, when freight earnings had fallen off with the decline of numerous industries, and the situation, with respect to passenger traffic, was only relieved by the exceptional move-ment of World's Fair travel. These existing conditions were soon aggravated by the formidable labor strike which origi-nated at the Pullman Car shops, and, in spreading, involved the Company's lines in common with other roads at Chicago and throughout the West, to the interruption of communica-tion, trade and travel, with corresponding loss of revenue. This disturbance was followed by the unparalleled and almost complete failure of the crops in Iowa, Nebraska and South Dakota, and by less general failure in other regions served by the Company's system of roads, and the immense volume of tonnage dependent upon the movement of agricul-tural products, and the consequent prosperity attending the same were lost to the year's business, and the regult is shown in the unusual decline of receipts, both in freight and passen-ger earnings.

ger earnings.

Notwithstanding the large curtailment of expenditures in Notwithstanding the large curtailment of expenditures in ali departments as compared with former recent years, made necessary by the serious falling off in tonnage movement and passengers, the amount of material and labor expended has been sufficient to maintain the property in good condition. The usual detailed statements, tables and statistics showing the results of the year's business, and the reports of the Land Commissioner, and of the Fremont Elkhorn & Missouri Val-ley Railroad Company, will be found in the accompanying pages.

pages.

MARVIN HUGHITT,

President.

Office of the CHICAGO & NORTH WESTERN RAILWAY COMPANY, July 31st, 1895.

## -----The Commercial Times.

#### COMMERCIAL EPITOME.

FRIDAY NIGHT, August 2, 1895.

There has been increased inquiry for bulk parcels of many descriptions of staple merchandise and jobbers and retailers generally appear about ready to commence renewal of workgenerally appear about ready to commence renewal of work-ing assortments. All recent gains in value have been well sustained and additional business has in some instances served as stimulus for further advance in prices. A few labor troubles have developed during the week, but as a rule em-ployers manifest a disposition to grant reasonable requests from workmen. Variable weather has prevailed over most latitudes during the week, but there is no evidence to indi-cate that growing crops have suffered any appreciable injury. The marketing of new wheat continues very slow. The following is a comparative statement of stocks of leading articles of merchandise at dates given:

|                         | July 1,<br>1895. | Aug. 1,<br>1895. | Aug. 1,<br>1894 |
|-------------------------|------------------|------------------|-----------------|
| Porkbbls.               | 14,352           | 10,188           | 2,117           |

| Flour bbls. and sacks.  | 126,600          | 132,700          | 162,900         |

Lard on the spot has declined, and at the concessions increased business has been transacted, closing at 6 452. for prime Western, 6:25c. for prime City and 6:85c. for refined for the Continent. The speculation in the local market for lard futures has been at a standstill, but prices have been quoted lower in response to weaker advices from the West, where leading packers have been operating for a decline.

#### DAILY CLOSING PRICES OF LARD FUTURES,

Raw sugars have sold with greater freedom, in part to arrive, and prices are higher. Centrifugal quoted at 3 5-16c, for 96-deg. test and muscovado at 2 15-16c, for 89 deg. test. Refined sugars were quiet but steady; granulated quoted 45%c.

Teas easy. Coffee sold freely at higher prices, closing firm at the advance. Rio quoted at 16¼c. for No. 7, good Cucuta 19¼c. and standard Java 27¼@27¾c. For future delivery offerings were moderate, demand to cover good, and prices firm, closing unsettled. The following were the final asking prices :

60c.@\$3, in bond.

60c.@\$3, in bond. Trading in the market for Straits tin has been quiet and prices have declined in response to weaker advices, closing barely steady at 14.25c. Ingot copper has continued to ad-vance, and the close was strong at 11.90@12c. for Lake. Lead has made a slight further advance, and the close was steady at 3.55c. for domestic. Spelter has also advanced, closing firm at 3.85@3 871½c. for domestic. Pig iron has been mod-erately active and firm, closing at \$11.50@14.00 for domestic. R-fined petroleum has further declined, closing at 7.10c. in bbls, 4.60c. in bulk and 7.50c. in cases; crude in bbls. has been nominal; naphtha, 9.25c. Crude certificates have been steady, closing at 1.30c. asked. Spirits turpentine has fur-ther declined, but the close was steady at 27c.@2734c. Rosins-have been easier, closing at \$1.52½@1.57½. Wool has been moderately active and firm. Hops have been dull and weak.

#### COTTON.

FRIDAY NIGHT, August 2, 1895, THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 1,760 bales, against 2,734 bales last week and 2,676 bales the previour week, making the total receipts since the 1st of Sept., 1894, 7,865,690 bales, against 5,918,843 bales for the same period of 1893-4, showing an increase since Sep.1, 1894, of 1,946,847 bales.

Speculation in cotton for future delivery at this market has been irregular. At commencement of week business was unusually dull with tone easy, but demand subsequently revived and prices advanced in consequence of an increased consuming demand for cotton and an unfavorable construction placed upon crop advices from the South. Saturday brought only limited trading, confined mainly to settling up small deals for the week, and prices declined 2@3 points. About the same decline took place on Monday without really any new features shown, and on Tuesday trading was so light that scarcely a fluctuation took place; closing rates were same as preceding day. On Wednesday, however, there was a sharp change for the better, stimulated by unexpectedly poor showing in Government weather report and increased demand from Eastern spinners, influences that served to stimulate a net gain of 637 points. Yesterday the same general influences, fortified by stronger cable advices, created further buoyancy, with 12@13 points additional advance made. To-day the demand was generally less active and with some selling to realize prices receded about 5 points. Cotton on the spot is steady at 71%c. for middling uplands,

The total sales for forward delivery for the week are 409,700 bales. For immediate delivery the total sales foot up this week 36,447 bales, including 3,149 for export, 5,398 for consumption, - for speculation and 18,900 on contract. The following are the official quotations for each day of the past week-July 27 to August 2.

Rates on and off middling, as established Nov. 22, 1893, by the Revision Committee, at which grades other than middling may be delivered on contract:

| Fair                 |      |      | Good Ordinary  |           |
|----------------------|------|------|--|-----------|
| Middling Fair.       |      |      | Good Middling Tinged   |           |
|                      |      |      | Strict Middling Stained  | 732 Off.  |
| Good Middling        | 516  | on.  | Middling Stained   | 718 Off.  |
| Strict Low Middling  | 318  | off. | Strict Low Mid. Stained  | 2932 Off. |
| Low Middling         | 718  | off. | Low Middling Stained   | 138 off.  |
| Strict Good Ordinary | 1316 | off. | and the second sec |           |

On this basis the prices for a few of the grades would be : s

\* Louisville figures "net" in both years. † This year's figures estimated. The above totals show that the interior stooks have decreased during the week 6,194 bales and are now 15,657 bales less than at same period last year. The receipts at all the towns have been 566 bales less than same week last year and since 3-pt. 1 are 1,776,544 bales more than for same time in 1892-94.

-

38

those for Great Britain and the afloat are this week's returns and consequently all the European figures are brought down to Thursday evening. But to make the totals the complete figures for to-night (Aug. 2), we add the item of exports from the United States, including in it the exports of Friday only.

THE CHRONICLE.

QUOTATIONS FOR MIDDLING COTTON AT OTHER MARKETS,-Below we give closing quotations of middling cotton at South ern and other principal cotton markets for each day of the week

RECEIPTS FROM THE PLANTATIONS,-The following table indicates the actual movement each week from the plantations. The figures do not include overland receipts nor Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

| Week        | Receipts at the Ports. |        |       | St'k at Interior Towns. |        |        | Reciptatrom Plantina |        |       |

| Aug. 2      | 10,713                 | 3,944  | 1,760 | 91,651                  | 62,859 | 47,202 | 4,376                | 818    | -     |

The above statement shows: 1.—That the total receipts from the plantations since Sept. 1, 1894, are 7,855,557 bales; in 1893-94 were 5,905,536 bales; in 1892-93 were 5,024,484 bales.

2.-That although the receipts at the outports the past weel were 1,760 bales, the actual movement from plantations was only — bales, the balance being taken from the stocks at the interior towns. Last year the receipts from the plantations for the week were 853 bales and for 1893 they were for the way 4,576 bales.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1. OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.-We give below a statement showing the overland movement for the week and since September 1. As the returns reach u-by telegraph late Friday night it is impossible to enter so largely into detail as in our regular monthly report, but al the principal matters of interest are given. This weekly publication is of course supplementary to the more extended monthly statements. The results for the week ending Aug. 2 and since Sent 1 in the last two years are as follows: monthly statements. The results for the week endin and since Sept. 1 in the last two years are as follows:

|  | 189                               | 4-95.   | 189                                     | 8-94   |

† Less than September 1. e during week.

It will be seen by the above that there has come into sight during the week 7,296 bales, against 10,085 bales for the same week of 1894, and that the increase in amount in sight to-night as compared with last year is 2,300,671 bales.

WEATHER REPORTS BY TELEGRAPH .- Our telegraphic ad-WEATHER REPORTS BY TELEGRAPH.—Our telegraphic ad-vices from the South this evening indicate that there has been but little rain generally the past week. In Texas the weather has been dry almost everywhere and cotton is said to need moisture in a number of sections. Some districts along the Gulf report an improvement in condition, but in others the position is somewhat unfavorable. At a few points in the Atlantic States rain would be of benefit. *Galveston, Texas.*—The weather has been dry the past weak

week.

Palestine, Texas.—Crop is generally in good condition. We have had no rain during the week. The thermometer has averaged 82, ranging from 70 to 94. *Huntsville, Texas.*—We have had only a trace of rain dur-ing the week. The thermometer has ranged from 79 to 88,

ing the week. The thermometer has ranged from it to be, averaging 84. Dallas, Texas.—There has been no rain during the week. Average thermometer 82, highest 96 and lowest 68. San Antonio, Texas.—Dry weather has prevailed all the week. The crop is three weeks late and condition is below the average. There is some complaints of Mexican weevil. The thermometer has averaged 85, the highest being 98 and the hermost 73. the lowest 72.

the lowest 12. Luling, Texas.—Cotton needs moisture. We have had rain on one day of the week to an inappreciable extent. The thermometer has averaged 87, ranging from 74 to 100. Columbia, Texas.—Only one-third of a crop will be made in this county. Cotton is fully four weeks late. We have had dry weather all the week. The thermometer has ranged from 70 to 96 averaging 83 from 70 to 96, averaging 83.

*Cuero, Texas.*—The weather has been dry all the week. Crop is from three to four weeks late and considerable shed-ding of blooms is reported. Average thermometer 86, high-est 98 and lowest 74. *Brenham, Texas.*—We have had only a trace of rain during the week. The thermometer has averaged 86, the highest be-ier 00 end the lowest 74.

the week. The thermometer has averaged 86, the highest be-ing 98 and the lowest 74. Bellon, Texas.—Crop needs rain, although not damaged as yet. The thermometer has averaged 85, ranging from 68 to 102. Fort Worth, Texas.—It has been dry all the week. The

Fort Worth, Texas.-It has been dry all the week. The thermometer has ranged from 68 to 96, averaging 82.
 Weatherford, Texas.—There has been no rain during the week. Average thermometer 82, highest 96 and lowest 68.
 New Orleans, Louisiana.—It has been dry all the week, The thermometer has averaged 83.
 Shreveport, Louisiana.—It has rained on one day during the week, to the extent of twenty-five hundredths of an inch. The thermometer has averaged 82, ranging from 71 to 94.
 Columbus, Mississippi.—There has been rain on one day during the week, to the extent of five hundredths of an inch. The thermometer has ranged from 64 to 104, averaging 83.
 During the month of July the precipitation was one inch and ninety-eight hundredths.
 Leland, Mississippi.—The weather has been favorable the

Little Rock, Arkansas.—Rain has fallen on three days of the week, to the extent of two inches and saven hun-dredths. The thermometer has averaged 79, ranging from 66 to 94.

to 94. Helena, Arkansas.—Cotton is grassy. There have been light showers on three days of the past week, the rainfall be-ing twenty hundredths of an inch. The thermometer has ranged from 66 to 91, averaging 78. July rainfall five inches and twenty-five hundredths, on seventeen days. Memphis. Tennessee.—Warm, dry weather and sunshine is needed. The first open boll was received on Thursday from Concordia Parisb, Louisiana. We have had light rain on four days of the week, the precipitation being fifty-four hun-dredths of an inch. The weather now is clear. Average thermometer 76-2, highest 90.5 and lowest 66-8. During July it rained on twenty-two days, to the extent of six inches and ninety-nine hundredths. ninety-nine hundredths.

Nashville, Tennessee, -- The week's rainfall has been thirteen hundredths of an inch. The thermometer has averaged 76, the highest being 89 and the lowest 58.

Mobile, Alabama.—Crop reports are unfavorable. Much complaint of poor fruitage. It has rained on one day of the week, the rainfall reaching seven hundredths of an inch. The thermometer has averaged 83, and ranged from 71 to 94.

Ine thermometer has averaged 83, and ranged from 71 to 94. During the month of July the rainfall reached four inches and fifty-three hundredths. *Montgomery, Alabama.*—Cotton has improved considerably and is maturing very rapidly. Corn is made and there is plenty of it. We have had a trace of rain on two days of the week. Month's rainfall three inches and forty-seven hun-dredthe dredths.

Selma, Alabama.—The cotton crop through this section is spotted. In some districts it looks wilted and yellow and is suffering for rain. On upland and rolling lands it is fairly good. Rain has fallen on two days of the week but to an inappreciable extent. Average thermometer 80, highest 93 and lowest 66.

Madison, Florida .- We have had rain on three days of the past week, the rainfall reaching two inches and seventy hun-dredths. The thermometer has averaged 81, the highest being

past week, the fallowmeter has averaged 81, the highest bound dredths. The thermometer has averaged 81, the highest bound 91 and the lowest 70. *Columbus, Georgia.*—Rain has fallen on one day of the week, to the extent of four hundredths of an inch. The thermometer has averaged 82, ranging from 69 to 90.

Savannah, Georgia.-We have had rain on four days of the week, the rainfall reaching two inches and fifty-six hun-dredths. The thermometer has ranged from 69 to 98, averaging 82.

aging 82. Augusta, Georgia.—We have had rain on three days of the week, the precipitation reaching fifty-one hundredths of an inch. Avtrage thermometer 81, highest 92 and lowest 68. Albany, Georgia.—Telegram not received, Charleston, South Carolina.—We have had rain on four days of the week, the precipitation reaching sixty-four hun-dredths of an inch. The thermometer has averaged 81, renging from 69 to 94

days of the week, the precipitation reaching sixty-four hun-dredths of an inch. The thermometer has averaged 81, ranging from 69 to 94. Stateburg, South Carolina.—Rain has fallen on two days of the week, to the extent of one inch and ninety-five hundredths. The thermometer has ranged from 65 to 88, averaging 78. Greenwood, South Carolina.—Cotton needs moisture very much. It is estimated that it has already suffered to the ex-tent of ten per cent and will further depreciate unless rain comes soon. Average thermometer 75, highest 90 and lowest 69. Wilson, North Carolina.—Telegram not received. The following statement we have also received by telegraph, showing the height of the rivers at the points named at 8 o'clock August 1, 1895, and August 2, 1894.

COMPARATIVE FORT RECEIPTS AND DAILY CROP MOVEMEN -A comparison of the port movement by weeks is not accurate as the weeks in different years do not end on the same day of the month. We have consequently added to our other standing tables a daily and monthly statement, that the reader may constantly have before him the data for seeing the exact relative movement for the years named. The monthly movements since September 1, 1894, and in previous years, have been as follows:

| Monthly   |              | Year Beginning September 1 |           |           |              |                |  |  |  |  |  |
|-----------|--------------|----------------------------|-----------|-----------|--------------|----------------|--|--|--|--|--|

| Perc'tage | of tot. port |                            | 1         |           | S Crow Indda | and the second |  |  |  |  |  |
| receint   | Inly 31      | 98.90                      | 98.86     | 99.02     | 98.68        | 98.58          |  |  |  |  |  |

This statement shows that up to July 31 the receipts at the ports this year were 1,947,860 bales more than in 1894 and 2,809,301 bales greater than in 1893. By adding to the totals to June 30 the daily receipts since that time we shall be able to reach an exact comparison of the movement for the different years.

7,704 bales added as correction at New Orleans.

This statement shows that the receipts since Sept. 1 up to to-night are now 1,947,510 bales more than they were to the same day of the month in 1894 and 2,807,828 bales greater than they were to the same day of the month in 1893. We add to the table the percentages of total port receipts which had heen received to August 2 in each of the years named.

#### THE CHRONICLE.

SEA ISLAND COTTON MOVEMENT.—We have received this (Friday) evening by telegraph from the various ports the details of the Sea Island cotton movement for the week. The receipts for the week ending to-night (August 2) and since Sept. 1, 1894, the stocks to-night, and the same items for the corresponding periods of 1893-94, are as follows.

JOTE BUTTS, BAGGING, &c.—Bagging has been in limited request during the week under review, but prices have been well maintained at 4½c. for 1½ lbs., 4½c. for 2 lbs. and 5c. for standard grades in a jobbing way. Car-loid lots of standard brands are quoted at 4½c. for 1½ lbs., 4½c. for 2 lbs. and 5¼c. for 2½ lbs. f. o. b. at New York. Jute butts continue dall on the spot at 1½c. for paper quality, 1½c. for mixing and 1½c. for bagging quality. The deliveries of jute butts and rejections at New York and Boston during July were 51,606 tales against only 4,651 bales for the sume month last year, and for the seven months the deliveries reached 370,145 bales against 147,032 bales in 1894. The aggregate stock in the hands of importers and speculators at New York and Boston on July 31 was 2,800 bales, against nil bales at the corresponding date in 1894 and the amount afbat for the United States reaches 40,778 bales against 74,509 bales last year.

THE EXPORTS OF COTTON from New York this week show an increase compared with last week, the total reaching 4,298 bales, against 3,065 bales last week. Below we give our usual table, showing the exports of cotton from New York, and the direction, for each of the last four weeks; also the total exports and direction since Sept. 1, 1894, and in the last column the total for the same period of the previous year.

SEPORTSOF COTTON (BALES) FROM NEW YORK SINCE SEPT. 1, 1894.

### BREADSTUFFS.

3 55 3 55

3 55 3 55

FRIDAY, August 2, 1895.

357 357

3 56 3 56

For wheat flour the market has been dull, and while no material changes have been made in quoted values, to sell holders had to make concessions of at least 10c. per bbl. In city mills a fairly large business was transacted with the West Indies and prices ruled steady. Rye flour has been quiet and without change. Corn meal has sold slowly, but prices have held steady. To-day the market for wheat flour was dull and easy.

easy. Immediately after our last issue the market for wheat futures was fairly active at advancing prices on buying by "shorts" to cover contracts, stimulated by unfavorable crop accounts from the West and stronger foreign advices, but subsequently the market became quiet and under weaker advices from abroad, accompanied with selling orders and improved crop accounts from the West, prices declined, losing all of the early improvement. In the spot market business has been dull but prices have been steady. Yesterday No. 2 red winter was quoted at 2½c. over September f.o.b afloat. To-day the market was steady during early 'Change in response to stronger foreign advices but subsequently Western selling caused a decline. The spot market was quiet. The sales included No. 1 hard at 4c. over September f.o.b. afloat. No. 2 red winter was quoted at 2½c. over September f.o.b. afloat.

The speculative dealings n Indian corn have been moderately active, and although crop accounts from the West have been favorable prices for the near-by deliveries have made fractional advances on fairly brisk buying by "shorts" to cover contracts, stimulated by a good business in the spot market both for local and foreign account. The sales yesterday included No.

2 mixed at 491%c. in elevator, 501%(2501%c). delivered and 2c. over September f. o. b. afloat; also yellow at 511%c. delivered. To-day the market was weaker under realizing sales by "longs." The spot market was easier. The sales included No. 2 mixed at 491%(250c). delivered, and 2c. over September f. o. b. afloat; also No. 2 white at 493%c. f. o. b. afloat.

The movement of breadstuffs to market as indicated in the statements below is furnished to us by the Statistician of the New York Produce Exchange. We first give the receipts at Western lake and river ports, arranged so as to present the comparative movement for the week ending July 27, 1895, and since August 1, for each of the last three years:

| Receipts at-  | Flour.       | Wheat.                 | Oorn.                                 | Oats.  | Barley.                 | Rye.                                  |  |  |

#### THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., August 2, 1895.

Although there has again been a good attendance of buyers in the market, there has not been much development of demand in cotton goods of any kind, whilst in men's-wear woolens and worsteds some falling off in business has been noticeable. So far as cotton goods are concerned this may be attributed in some degree to the influence of the end of the month and to some extent to the recent advance in prices having a tendency to check freer buying. In woolens and worsteds the falling off is but a sequel to recent good demand by which the bulk of early requirements have been met. The general tenor of reports of July business, which include deliveries on old orders is to the effect that the volume is largely in excess of July last year, and better considerably than the aver age July. This month opens under very encouraging auspices. Available stocks have seldom been in such small compass in staple cottons as at present, production is largely taken care of for the next two months, or even longer. Distribution from second-hand is brisk, a good supplementary business is probable and prices are generally on a basis returning some profit to manufacturers, with indications that they may in many instances go still higher.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending July 29 were 2,723 packages, valued at \$139,066, their destination being to the points specified in the table below:

\* From New England mill points direct.

The value of the New York exports for the year has been \$5,182,481 in 1895 against \$6,821,265 in 1894.

The advances in bleached cottons noted last week have been followed by a number of others, this bringing m st tickets

into line again with the leaders. The demand has not been at all free at the advance, but is likely to prove brisker before long in all grades. Low-grade bleached cottons are very firm. In brown sheetings four-yard makes are gradually hardening, but as a rule standards and three yards in both sheetings and drills can be bought at previous prices. The home demand is moderate, but there is a fair inquiry for export. Denims are still quiet and easy to buy, as a rule. Ticks are firm and light makes occasionally ¼c. higher. Cheviots have sold rather more freely, but other coarse colored cottons are dull. Wide sheetings and cotton flannels and blankets are all very firm, but sales are moderate. Kid-finished cambrics are quiet even at 3½c. for 64 squares, although most sellers are asking 35%c. Other linings firm but quiet. Business in dark fancy prints is expanding and prices are firm There is a relatively good demand for printed flannel effects and wide specialties. Shirting prints and indigo blues have an upward tendency and other regular prints are firm. Ginghams are quiet throughout. Print cloths have been dull but the price has held firmly at 2%c. plus one per cent for 64 squares. Odd goods have been in fair demand.

Wootex Goops.—In most lines of light-weight woolen and worsted fabrics for men's wear the bulk of the first round of orders has been taken and current orders show some falling off in consequence. The highest grades of worsted goods in fancies have shown, relatively, best results. In woolens the tone is hardly as confident as at the opening of the season, some reductions from opening prices in indigo blue flannel suitings and other, wool goods having a rather disturbing influence. In worsteds the market, however, is generally quite firm. Sales of low-grade goods in cotton-warp cassimeres and the like have been limited, with some irregularity in prices. The demand for overcoatings is quet and cloakings are without new feature. Woolen and worsted dress goods are fairly re-ordered, with a generally firm tone prevailing. Flannels have advanced 1c. to 2c. per yard and blankets occasionally 5 per cent, with but a moderate current business in progress.

FORTIGN DRY GOODS.—Business this week has been considerable in the aggregate in foreign merchandise, but individual transactions were moderate. Mohairs and fine worsted dress goods have sold well at very firm prices, as have silk fabrics. Ribbons are quiet but firm. Linens steady, with more doing an 1 some increase reported in orders for hosiery and underwear in new lines for spring.

Importations and Warehouse Withdrawals of Bry Goods The importations and warehouse withdrawals of dry goods at this port for the week ending August 2, and since January 1, 1895, and for the corresponding periods of last year are as follows:

# STATE AND CITY DEPARTMENT.

#### TERMS OF SUBSCRIPTION.

THE INVESTORS' SUPPLEMENT will be furnished without extra charge to every annual subscriber of the COMMERCIAL AND FINANCIAL CHRONICLE.

THE STATE AND CITY SUPPLEMENT will also be furnished without extra charge to every subscriber of the CHRONICLE.

THE STREET RAILWAY SUPPLEMENT will likewise be furnished *without extra charge* to every subscriber of the CHRONICLE.

THE QUOTATION SUPPLEMENT, issued monthly, will also be furnished without extra charge to every sub scriber of the CHRONICLE.

TERMS for the CHRONICLE with the four Supplements above named are Ten Dollars within the United States and Twelve Dollars in Europe, which in both cases includes postage.

#### Terms of Advertising-(Per inch space.)

The purpose of this State and City Department is to furnish our subscribers with a weekly addition to and continuation of the STATE AND CITY SUPPLEMENT. In other words, with the new facts we shall give, the amplifications and corrections we shall publish, and the municipal laws we shall analyze in the "State and City Department," we expect to bring down weekly the information contained in the STATE AND CITY SUPPLEMENT to as near the current date as possible. Hence every Subscriber will at all times possess a complete and fresh cyclopædia of information respecting Municipal Debts.

#### CALIFORNIA IRRIGATION DISTRICT BONDS.

We have received this week the full text of the decision of Judge Ross of the United States Circuit Court of Southern California, declaring invalid the Wright Irrigation District Law. The decision is an important one to investors in general and particularly to those interested in the irrigation schemes of our Western States.

The "District Irrigation Law" of California, popularly known as the "Wright Act," was passed by the Legislature after a hard struggle in 1887, and was amended in 1889 and 1891. It provides that the organization and government of irrigation districts shall be much the same as that of counties. It authorizes the districts to issue bonds for the acquirement of irrigation works and canals, to make assessments for the payment of the principal and interest of such bonds, and in case the assessments become delinquent to sell the property for their payment. Efforts have been made to frame similar irrigation laws in other States but none have as yet been successful.

In his decision of last week Judge Ross holds that this district irrigation law is in violation of both the Constitution of the United States and that of California on the ground that it authorizes the taking of land from private owners without due process of law and for purposes not public. The decision is a lengthy one and we can quote but briefly from it as follows:

"Can it be properly held that within the reasons that underlie any of the cases in which private property may be taken for a public use falls the case where it is sought to take such property in order to supply water only to certain individuals within a certain district? I think not. The property to be held by the corporation whose creation is provided for by the legislation in question is not, as said by the Supreme Court of California in re Madera Irrigation District, 92 Cal., 322, to be held 'in trust for the public,' but in trust for the land owners of the district, and for nob dy else. Manifestly, they do not constitute the public, whether they number many or few; and for their exclusive use the private property of no man can be taken without his consent. 'To lay, with one cand,' said the Supreme Court of the United States, in Loan Association vs. Topeka, 20 Wallace, 655, 'the power of the Government on the property of the citizen, and with the other bestow it on other individuals to aid private enterprises and build up private of law, and is called taxation.' In Cummings vs. Peters, 56 Cal., 593, it was held that several owners of mines could not condemn a right

of way for a ditch through which to convey water to work their mines, because the use was a private one, being limited to specific individuals and not intended for the general public. Precisely the same thing is true in respect to the legislation in question. It is wholly immaterial whether the specific individuals are named or are designated as the owners of the lands within the district, or whether they number a half-dozen only, or as many hundred. The important and controlling fact in respect to this point is that in the case at bar, as in the case of the miné-owners referred to in 56 California, 593, the use of the water is limited to specific individuals, and the interest of the public is nothing more than that indirect and collateral benefit that it derives from every improvement of a useful character that is made in the State."

The weight of the decision, its wide-reaching effects and the public policy involved may be gathered from the following extract:

"The fact that vast sums of money have been invested in works constructed under and in pursuance of this legislation, and that bonds running into the millions have been issued and sold thereunder, and that many individuals may not otherwise be able to secure water for the irrigation of their respective tracts of land, and that the validity of the legislation has been several times sustained by the Supreme Court of the State, while demanding on ithe part of this Court great care and caution in the consideration of the case, and casting upon it a very grave responsibility, cannot justify it in failing to declare invalid legislation which. In its judgment, violates those principles of the Constitution of the United States which protect the private propeity of every person against forcible taking without due process of law, and for other than a lawful purpose. Such questions are not to be determined by considerations of expediency or hardship. Unfortunate as it will be if losses result to investors, and desirable as it un doubtedly is in this section of the country that irrigation facilities be improved and extended, it is far more important that the provisions of that great charter which is the sheet-anchor of safety be in all things observed and enforced."

The old case of "Trogea vs. Modesto Irrigation District," involving the constitutionality of the Wright act is now pending in the Supreme Court of the United States, and as this new case will probably be appealed it is hoped a decision will soon be had from that body.

The following we take from the Los Augeles Daily Tomes: The districts now in existence which have been formed under the Wright law are given below, with the exception of two or three which were recently formed and which are said to be of minor importance. The list shows the names of the districts respectively in each county and the amount of bonds which have been voted in each district:

| SAN BERN                              | DOTNO COUNTRY                                      |

This is the district in the case of which the decision of Judge Ross is rendered.

All the bonds voted by the several districts, as above stated, have not been sold. The bonds awaiting sale, pending the decision on the validity of the act by the Supreme Court of the United States, are said to aggregate about \$3,500,000. The bonds which have been voted in these districts aggregate approximately \$17,000,000.

Until the decision of the Supreme Court is had uncertainty is sure to prevail in the minds of those interested in these irrigation districts and it is hardly probable that the work of completing the water works systems will be continued.

Kansas City.—At Burlington, Vt., on the 29th inst., Justice-Brewer, of the United States Supreme Court, granted the ap plication of the attorneys representing Kansas City for an

210

order providing that the parties who furnished the \$3,000,000 to pay for the water works should be subrogated to the rights of the National Water Works Company bondholders. On the following day Judge Brewer granted the Water Works Company an appeal and supersedeas, the case to be heard in St. Louis August 26.

Bond Proposals and Negotiations .- We have pserved through the week the following notices of boncs recently negotiated and bonds offered and to be offered for sale.

Allegan, Mich.—An election held July 24 on issuing \$8,000 water-works bonds resulted in the defeat of the propsition.

Alliance, Ohio .- An election held July 20 on issuing \$20,000 or \$30,000 of sewerage bonds resulted in favor of the proposition.

Baltimore, Md.—On July 29, 1895, the city of Baltimore sold \$720,000 of 3½ per cent Clifton Park bonds to the Fidelity & Deposit Co. of Maryland at 106:68. The securities are dated March 1,1895, and will mature March 1,1945. Five months accrued interest will be paid by the Park Commissioners. Sixty-two bids were received, aggregating \$7,025,000 and rang-ing from 103 to 106 78. The last-named price was offered for \$120,000 of the bonds, but the Fidelity & Deposit Company bid for all or none, and the whole amount was therefore awarded to them. The city officials expressed themselves as highly pleased with the high prices which were bid. In a communication to the CHRONICLE Messrs. Wilson, Col-ston & Co., bankers of Baltimore, say in reference to the city's park loans that all city passenger railways in Baltimore pay nine per cent of their gross earnings to the city for a " park fund." This sum amounts at present to about \$250,010 a year and is continually increasing. It provides interest and sinking fund on all stock issued in payment of parks and cost

" park fund." This sum amounts at present to about \$250,000 a year and is continually increasing. It provides interest and sinking fund on all stock issued in payment of parks and cost of maintenance. The stock issued in payment of Druid Hill Park, the principal one, has been already redeemed by the operations of the sinking fund. The splendid park system of Baltimore has not cost the citizens anything in the way of a direct tax. The fare on the city passenger railways is five cents and free transfers are given on connecting lines. Bristol, Conn.—On July 30, 1895, the borough of Bristo sold \$50,000 of 4 per cent sewer bonds to E. H. Gay & Co. at 103:09 and accrued interest. The securities are dated July 1, 1895, interest is payable semi-annually on January 1 and July 1 and the principal will mature at the rate of \$10,000 every five years from July 1, 1905, to July 1, 1925, both principal and interest being payable at the Bristol National Bank. Nine bids were received for the loan as follows:

| E. H. Gay & Co                              | 9  |
|---|----|
| N. W. Hatris & Co                           | 7  |
