### *REVIEW OF JULY.*

No essentially new developments marked the course of events during July. The two topics which chiefly engrossed attention were the high rates of foreign exchange and state of the exchange market and the crop situation.

The advance in foreign exchange was a continuation of the movement which has been in progress since the close of May, when the extensive buying of American securities on European account, which had been such a feature at that time, abated. In that month, it will be remembered, these European purchases, together with the numerous loan negotiations effected abroad, furnished a supply of bills, and the Syndicate bankers, who had previously been obliged to provide exchange so as to prevent gold exports, were able to cover their outstanding contracts. At this season of the year, when the export movement of the leading staples is at a minimum, the supply of bills from mercantile sources is naturally at a low ebb, and with the absence of sufficient offerings of bankers' bills against foreign purchases of securities to meet the demand the exchange market began to harden in June (in fact the latter part of May), and the advance was continued through July, and in both months the Syndicate bankers were required to meet the calls for drafts. At the close of July most of the foreign exchange houses quoted 4 90 as the rate for 60-day bills and 4 91 for sight, while for actual business the rates were 4 89¼@4 89½ for long sterling, 4 90¼@4 90½ for short and 4 90½@4 90¾ for cable transfers; with prime commercial bills selling at 4 88¾@4 89 and documentary at 4 88¼@4 88½. These were not only the highest figures reached in the present upward movement, but in some instances it would seem the highest ever touched.

The distinctive feature of this state of the foreign exchange market was that it led to some exports of gold. These exports were not large in the aggregate and in fact there was only one shipment of consequence, but the movement attracted attention because it marked a resumption of the outflow of gold for the first time since the making of the contract between the Syndicate and the United States Government the previous February. As said above, the Syndicate supplied bills freely to the market, and those having remittances to make could at any time have obtained all the exchange they needed; but the Syndicate held its bills at a fixed price, and that price very naturally was high.

The first shipment during the month was for $250,000 on the 13th, and was made by a firm of bullion dealers, who subsequently dissolved because of dissensions between the partners; it attracted attention for the reason stated, but the purpose of the shipment was not clearly defined and the export was not regarded as of any great importance either in its bearing on the present or the future; the same firm shipped several small lots the next week, aggregating $430,000. On Saturday of that week there came a large shipment, namely $1,000,000, by W. H. Crossman & Bro., a firm of importers. This of course was an outflow of greater moment. The explanation given was that the firm had remittances to make and they found it cheaper to send gold than to buy bills at the Syndicate price. At the same time this firm claimed that their position gave them a slight advantage, which reduced the cost a trifle to them of making exports. It was admitted that the margin was slight, and whether a given export netted a profit or a loss could not under prevailing conditions be determined until the gold arrived on the other side; only $250,000 more was shipped after that up to the close of July. Altogether the gold exports to Europe for the month reached about two million dollars. A few small lots were also sent to Canada, but these had their origin in the failure of the Banque du Peuple at Montreal.

The significance of this gold export movement of course lay entirely in its effect on the Treasury gold

reserve. As most of the gold taken for shipment was withdrawn from the Sub-Treasury here, the Treasury reserve was diminished to that extent. But towards the close of the month the Syndicate turned in $2,000,000 in gold at the Sub-Treasury in exchange for legal tenders, and thus showed both their disposition and their intention to keep the reserve intact. The net gold held by the Government July 1 was $107,512,362, on the 27th the amount was $105,451,811, and on the 1st of August $107,236,487.

The crop prospects, as far as the leading cereals are concerned, were maintained on a very high basis. The Department of Agriculture at Washington in its monthly report made the condition of corn (for the whole country) the first of July 99·3, with a largely increased acreage, and the condition of spring wheat 102·2. Throughout the month the weather was almost perfect for corn, with no complaints except of drouth in very small portions of one or two States. Thus at the close of the month the promise of the largest corn crop in the history of the country had been further strengthened. In the case of spring wheat some impairment of condition resulted from a variety of causes in limited districts, which it seems likely has reduced the general average somewhat, leaving it still high however, with the assurance of a large crop. The oats crop will also be large. Hence with the exception of winter wheat, where the National Bureau contrary to general expectations had reported a further lowering of condition the first of July, the situation of the grain crops has been highly satisfactory. The price of wheat underwent a sharp decline early in the month, the September option dropping from 75½ cents July 2 to 66¾ cents July 9, but the recovery was just as decided, and on the 29th the price of the same option was 76½ cents; the close on the 31st was at 73⅝ cents.

Aided by the excellent crop outlook, business recovery has continued to make steady headway. The condition of the anthracite coal trade, however, continued an unfavorable spot in the general industrial situation and also in the speculation on the Stock Exchange. The companies appear to have restricted production quite closely, but prices dropped lower than before, and sales of stove coal free on board in New York were made at $2·75 per ton. It was reported that in consequence of the low prices some of the large companies were no longer soliciting new business but were simply taking care of their old customers.

We have stated above that the general buying of securities for European account had abated during the last two months. Of course more or less investment is going on all the time, however, and new loan negotiations are constantly being made. The Pennsylvania, through Messrs. Speyer & Co., placed £1,000,000 of 3½ per cent bonds abroad; the Lehigh Valley Railroad sold to Brown, Shipley & Co. of London $6,800,000 of Lehigh Valley Coal Company bonds; and $2,500,000 of Lynn & Boston (street railway) bonds were disposed of in London through the Bank of Montreal.

The stock market showed considerable strength on a small volume of business. Early in the month the break in the industrial shares noted the previous month was continued. Tennessee Coal & Iron sold down from 40⅛ on the 2d to 32½ on the 16th, Chicago Gas from 63¾ on the 2d to 49¾ on the 16th, United States Leather common from 20⅝ on the 6th to 15 on the 19th, American Tobacco common from 114½ on the 9th to 107 on the 16th and Distilling & Cattle Feeding from 23½ on the 8th to 19¼ on the 16th. The decline in these stocks had comparatively little influence on the general market, and later in the month they advanced with the rest of the list. Sugar common followed an independent course, and sold up from 105 on the 1st to 116⅞ on the 30th. The granger stocks, on the splendid outlook for corn and spring wheat, made very important advances. Burlington & Quincy rose from 83⅜ on the 1st to 92⅝ on the 29th, Rock Island from 70¾ on the 5th to 79¾ on the 31st, St. Paul common from 67¼ on the 2d to 72½ on the 29th, North West. common from 97¾ to 102⅜, and Missouri Pacific from 30 to 37¾. Certain other stocks, like Lake Shore and Louisville & Nashville, also experienced a considerable rise. The meetings of the managers of the trunk lines at Manhattan Beach to carry out the agreement entered into the previous month for the maintenance of rates were regarded with much satisfaction. The gold shipments did not serve to weaken the market but simply to make it dull. In bonds a quite considerable business was done and the market was strong. The issues of certain roads in process of reorganization, as for instance the Atchison, came in for a large share of attention at higher prices. The following is our usual comparative statement, showing the volume of transactions on the New York Stock Exchange, and also the sales of grain on the Produce Exchange and of cotton on the Cotton Exchange.

It will be observed that the share sales amounted to 5,849,466 shares in July 1895, against only 2,803,736 shares in July 1894, when the dealings were very small on account of the railroad strike. Two stocks (Chicago Gas and Sugar common) furnished 1,874,972 shares of the present year's total. In the bonds the sales amounted to $42,189,000, against only $16,461,000 last year.

## MONTHLY AND YEARLY RECORD.

The following tables furnish a complete record of the New York Stock Exchange transactions for the past month and for the year to date. They need no extended introduction, as they are self-explanatory. The tables embrace every security (excepting only State bonds) dealt in on the Exchange. We give first the bonds, using the classification adopted in the official list. As to prices the form is our own, and we think it will be found to contain just the facts desired by our readers and to present them in the most convenient way for study and reference. In the column headed "Price about January 2, 1895," the quotations in italics are those of the nearest date in December, 1894, or January, 1895.

☞ *For foot notes to tables see last page of Bonds and last page of Stocks.*

# BOSTON STOCK EXCHANGE.

## MONTHLY AND YEARLY RECORD.

The following tables furnish a record of Boston Stock Exchange transactions in railroad securities for the past month and for the year to date. Also a record of transactions in mining stocks for the past month only. The railroad securities which are active on the New York Stock Exchange are omitted from this list. We give the securities under the three general headings, Railroad Bonds, Railroad Stocks and Mining Stocks, in alphabetical order.

☞ *In comparing New York and Boston prices, it should be noted that bond prices in New York are flat prices - that is, the price includes the accrued interest, while in Boston accrued interest must be paid in addition to price. It should also be remembered that New York stock prices are per cent while those in Boston are dollars per share.*

# GENERAL QUOTATIONS.

—OF—

## BONDS AND STOCKS.

In the following twenty-five pages of tables quotations are given for all securities listed on any Stock Exchange in the United States; also for all leading unlisted and inactive securities for which we have been able to obtain reliable prices.

Quotations from all Stock Exchanges are so near as possible for the last day of July.

Bond prices marked thus (*) are flat prices—that is, the purchaser does not pay accrued interest in addition. Stock prices marked thus (†) are per share. All others are per cent except bank stock prices.

It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.

The following abbreviations are often used, viz.: "M.," for mortgage; "g.," for gold; "g'd.," for guaranteed; "end.," for endorsed; "cons.," for consolidated; "conv.," for convertible; "s. f.," for sinking fund; "l. g.," for land grant.

# MUNICIPAL BONDS.

Prices marked (*) are flat prices—that is, the purchaser does not pay accrued interest in addition.

The figures in the column "*to net*" indicate the basis on which the securities sell or the interest rate which the securities, if held to maturity, will net to the purchaser at the present market price.

# QUOTATIONS OF BANK AND TRUST COMPANY STOCKS.

Prices are per share, not per cent, with the exception of New York City and Brooklyn bank stocks. Prices marked thus (*) are last sales.

The dagger (†) prefixed to a price indicates that the figures show the book value.

The double dagger (‡) prefixed to the capital stock indicates that only part is paid in.

The section mark (§) prefixed to surplus indicates that undivided profits are included.
