REVIEW OF AUGUST.

Gold exports and the state of the foreign exchange market continued the absorbing feature during August. Apart from this there were no stirring events in the financial markets during the month. The usual mid-summer quietness reigned as a rule, and the statement applies also to the stock markets, though in this latter case there was considerable animation the latter part of the month, with a further advance in prices notwithstanding the continued gold exports and high rates for foreign exchange. The stimulus of course was the brilliant promise for the corn crop and the continued improvement in trade.

In the foreign exchange market the posted rates were kept unchanged up to the 21st of August at the uniform figure of 4 90 for sixty days and 4 91 for sight by all the bankers. On the 21st Brown Bros. reduced their rates half a cent, to 4 89½ for long sterling and 4 90½ for short sterling. None of the other leading bankers made any change until the 26th, when there was a pretty general drop to 4 89½ and 4 90½, Brown Bros., however, marking their quotations down on that day ½ cent further, to 4 89 and 4 90, respectively; thereafter the course was upward again, though the changes were irregular, most of the bankers quoting 4 90 and 4 91 at the close, but some continuing to quote 4 89½ and 4 90½ and Brown Bros. making no change from 4 89 and 4 90.

This record of the fluctuations in the quoted rates of exchange furnishes a good idea of the course of the exchange market for actual business. During the first three weeks the tone was very strong, and rates were maintained at full figures. Then came a period of weakness, which encouraged hopes that a permanent

turn in the market had arrived. But this was quickly succeeded again by a firmer tone, and at the close rates were only fractionally below the highest for the month. At the beginning of the month business was done at 4 89½@4 89½ for long sterling, 4 90½@4 90½ for short sterling, and 4 90½@4 90½ for cable transfers, with commercial bills quoted at 4 88½@4 89 for prime and 4 88½@4 88½ for documentary. A little later, with the market very strong, and few bills of any kind offering, there was an advance of ¼ cent all around, but this advance was subsequently lost. In the week ending the 24th the tone became distinctly easier, and on Monday the 26th business was done at 4 88½@4 88½ for long, 4 89½@4 89½ for short and 4 89½@4 90 for cable transfers, with prime commercial 4 88@4 88½ and documentary 4 87½@4 87½. But after this the market rapidly advanced again, the rise amounting to half a cent, and the rates for actual business at the close were 4 89@4 89½ for sixty day bills, 4 90@4 90½ for sight, 4 90½@4 90½ for cable transfers, 4 88½@4 88½ for prime commercial and 4 88@4 88½ for documentary.

In brief, from the highest point for the month there was a drop of fully a cent per pound sterling, and subsequently a recovery of half a cent. The supply of commercial bills continued very small, as is natural at this season of the year; a few drafts against cotton and grain futures were reported the latter part of the month. The Syndicate bankers appear to have sold only very few bills and those early in the month, though when the general break in rates occurred they reduced their quotations too.

The feature of chief moment to the public in connection with this state of the foreign exchange market was of course the outward movement of gold. The shipments continued all through the month, even during the period when rates had declined, and reached a large amount in the aggregate. On Saturday, August 3, \$1,450,000 gold was exported; in the week ending August 10 the exports were \$1,712,000; in the week ending the 17th, \$4,300,000; in the week ending the 24th, \$4,200,000, and in the week ending the 31st, \$3,300,000, making about 15 million dollars for the month.

These large shipments must have made a deep impression upon the gold reserve of the United States Treasury, but the Syndicate continued its policy of replenishing the reserve by the deposit of gold in the Treasury in exchange for paper money. Of course not

the whole of the gold exported was withdrawn from the Sub-Treasury, but the greater portion of it was. On August 13th the Syndicate deposited \$1,350,000 gold at the New York Sub-Treasury, on August 14th they deposited \$1,650,000, on August 20th \$2,000,000, on August 29th \$1,500,000 and on August 30th \$1,000,000, an aggregate of \$7,500,000. This was in addition to the deposit of \$2,000,000 in July. The action of the Syndicate prevented the Treasury reserve from dropping below the 100-million mark. The exact amount of the gold reserve at the close of the month was \$100,329,837, against \$107,236,487 at the close of July.

It is evidence of how completely confidence has been re-established that these heavy gold shipments have at no time caused alarm or even created a feeling of uneasiness in business circles. There has been no check to the revival in trade, but on the contrary the circle of activity has continued to widen and expand. From nearly all lines of business the accounts have been of the most satisfactory kind. In the anthracite coal trade, while no agreement has yet been reached between the large producing interests, prices have advanced to a slightly higher level. We noted sales of stove coal the previous month f. o. b. in New York at \$2 75 per ton. The companies now seem to be able to get \$3 00 per ton.

In the money market the plethora of loanable funds has continued as great as ever, notwithstanding the improvement in trade, and during the month some loans of bankers' balances were made at even less than the stereotyped figure of 1 per cent—only $\frac{3}{4}$ of 1 per cent being taken in a few instances. The cotton crop is very late and the winter-wheat crop is short, and doubtless for these reasons the currency movement to the interior was smaller than in other years, while at the same time the supply of money in the banks has been materially increased by the operations of the Syndicate. Early in the month there was a distribution to the members of the Syndicate of 34.4946 per cent of the money contributed by them, and the latter part of the month there was a further and final distribution of 30 per cent.

As regards the crops the bright prospects for corn previously noted were well maintained. The Agricultural Bureau at Washington reported the average condition of that cereal for the whole country the 1st of August at 102.5, and the average of spring wheat at 95.9. The price of wheat tended strongly downward during the month; the December option on the New York Produce Exchange was quoted at 75 $\frac{1}{2}$ cents on the first of August, and from this there was a decline to 66 $\frac{5}{8}$ cents on the 28th, the close on the 31st being at 68 $\frac{1}{4}$. In cotton, on the other hand, where the outlook is for a greatly reduced yield, the price of low middling uplands advanced from 6 11-16 cents on the 1st to 7 $\frac{3}{4}$ cents on the 31st.

On the Stock Exchange the excellent crop situation in the West was of course the dominant feature. The gold exports counted as an influence only when operators for a decline sought to make use of them to depress prices, and then the effect was only temporary and not commensurate with the efforts put forth. The market was very dull the early part of the month, but business was done at steadily advancing prices; in the latter part of the month greater activity developed with a further advance in prices. At this time, too, the issue of the Erie reorganization plan proved a favorable circumstance. Altogether a very substantial rise

occurred, on top of the decided advance in the month preceding, and the granger shares as well as many others reached their highest prices of the year. St. Paul sold at 70 $\frac{1}{2}$ on the 7th and at 77 $\frac{5}{8}$ on the 29th, Rock Island at 77 $\frac{1}{2}$ on the 7th and at 84 $\frac{3}{8}$ on the 28th, Burlington & Quincy at 89 $\frac{1}{2}$ on the 8th and at 92 $\frac{3}{8}$ on the 28th, North Western common at 100 $\frac{5}{8}$ on the 7th and 106 $\frac{5}{8}$ on the 29th, Louisville & Nashville at 59 $\frac{3}{4}$ on the 7th and at 64 $\frac{1}{2}$ on the 31st, &c., &c. Even the anthracite coal shares were strong, it being argued that a settlement between the companies must come before long, and Central of New Jersey advanced from 101 $\frac{1}{2}$ on the 6th to 111 $\frac{1}{4}$ on the 31st.

The advance in the general market was all the more noteworthy in view of the renewed weakness of some of the industrial properties, Sugar common selling down from 118 on the 1st to 106 $\frac{3}{4}$ on the 22d, and American Tobacco common from 114 $\frac{1}{2}$ on the 10th to 92 on the 19th. However there was a recovery even in these cases the latter part of the month, and a few of the industrial shares, like General Electric and Tennessee Coal & Iron, have been strong and higher, the latter advancing from 34 $\frac{1}{2}$ on the 19th to 40 $\frac{1}{2}$ on the 30th. As regards the bond market that too was very strong, and many noteworthy advances occurred throughout the list. We annex our usual table showing the volume of business on the New York Stock Exchange in both stocks and bonds and also the sales of grain on the Produce Exchange and of cotton on the Cotton Exchange.

NEW YORK STOCK EXCHANGE.

MONTHLY AND YEARLY RECORD.

The following tables furnish a complete record of the New York Stock Exchange transactions for the past month and for the year to date. They need no extended introduction, as they are self-explanatory. The tables embrace every security (excepting only State bonds) dealt in on the Exchange. We give first the bonds, using the classification adopted in the official list. As to prices the form is our own, and we think it will be found to contain just the facts desired by our readers and to present them in the most convenient way for study and reference. In the column headed "Price about January 2, 1895," the quotations in italics are those of the nearest date in December, 1894, or January, 1895.

For foot notes to tables see last page of Bonds and last page of Stocks.

BOSTON STOCK EXCHANGE.

MONTHLY AND YEARLY RECORD.

The following tables furnish a record of Boston Stock Exchange transactions in railroad securities for the past month and for the year to date. Also a record of transactions in mining stocks for the past month only. The railroad securities which are active on the New York Stock Exchange are omitted from this list. We give the securities under the three general headings, Railroad Bonds, Railroad Stocks and Mining Stocks, in alphabetical order.

In comparing New York and Boston prices, it should be noted that bond prices in New York are flat prices—that is, the price includes the accrued interest, while in Boston accrued interest must be paid in addition to price. It should also be remembered that New York stock prices are per cent while those in Boston are dollars per share.

GENERAL QUOTATIONS.

—OF—

BONDS AND STOCKS.

In the following twenty-five pages of tables quotations are given for all securities listed on any Stock Exchange in the United States; also for all leading unlisted and inactive securities for which we have been able to obtain reliable prices.

Quotations from all Stock Exchanges are so near as possible for the last day of August.

Bond prices marked thus (*) are flat prices—that is, the purchaser does not pay accrued interest in addition. Stock prices marked thus (+) are per share. All others are per cent except bank stock prices.

It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.

The following abbreviations are often used, viz.: "M.," for mortgage; "g.," for gold; "g'd.," for guaranteed; "end.," for endorsed; "cons.," for consolidated; "conv.," for convertible; "s. f.," for sinking fund; "l. g.," for land grant.

MUNICIPAL BONDS.

Prices marked (*) are flat prices—that is, the purchaser does not pay accrued interest in addition. The figures in the column "to net" indicate the basis on which the securities sell or the interest rate which the securities, if held to maturity, will net to the purchaser at the present market price.

† Prices are per share not per cent. ‡ Last sale. x Ex-dividend.

QUOTATIONS OF BANK AND TRUST COMPANY STOCKS.

Prices are par share, not per cent, with the exception of New York City and Brooklyn bank stocks. Prices marked thus (*) are last sales.

The dagger (†) prefixed to a price indicates that the figures show the book value.

The double dagger (‡) prefixed to the capital stock indicates that only part is paid in.

The section mark (§) prefixed to surplus indicates that undivided profits are included.
