## THE FINANCIAL SITUATION.

A further decided fall in sterling exchange has been the feature of the week. Asit has also been accompanied by lower figures for Continental, it indicates a uniform weakness of the market. This sudden and decided downward turn has been attributed quite as much to a light demand as to more liberal offerings of bills, and it looks a little as if this gold export movement had been somewhat forced and overdone. For this reason little surprise would be expressed if gold imports should become a feature sooner than has been anticipated. Cotton drafts are reported to be coming forward quite freely now, though they are still held at comparatively high figures; but the indications point to more liberal offerings and lower figures in the near fature.

Our industrial interests remain in a satisfactory state of activity. In some trades where there has been extreme buoyancy a trifling reaccion has occurred, but that is natural, and the volume of business remains very large. The returns of bank clearings reflect the activity prevailing. We have this week prepared our statement for the month of September, and it shows an increase over the corresponding month of last year of 18.4 per cent. In August the increase had been not quite as large as this, being only $16 \cdot 1$ per cent; in the months immediately preceding, however, the ratio of improvement had been much heavier, having been for May $24^{\prime} 7$ per cent, for June $22 \cdot 1$ per cent and for July 29.8 per cent. But in these earlier months the circumstances as to the comparison were different. Then we were comparing with heavy losses in 1894. For August and September the comparison is with figures last year which had shown gains over 1893. In September 1894 this gain was 5.7 per cent, and the present gain of 18.4 per cent is therefore additionai to that gain. Another influence affecting the totals the present year should not be overlooked. We had a short winter-wheat crop this season, and consequently the movement of that grain in the winterwheat districts has been very much smaller than a year ago. As a result the volume of clearings at some of the Western points has also been reduced. We notice, for instance, that at Chicago there is an increase in the clearings of only a fraction of one per cent. Again, parts of the West are still suffering from last year's short crops. In addition in the South we have the present yeur not only a small cotton crop but an excetdingly late crop. The effect of all this is seen in a ratio of gain outside of New York of only 8.6 per cent, and the increase of 18.4 per cent for the country as a whole has been made in face of this small addition at the outside points.

With business expanding all over the country and with large crops giving the assurance that it will continue to expand, we may expect that mercantile failures in the near future will be reduced to a minimum. Up to the present time the improvement in that particular has not been as striking as it might have been. But the results reflect past conditions, not present conditions. Messrs. R. G. Dun \& Co. have this week issued their compilation of failures for the third quarter of the year, prepared according to the intelligent system formulated by Col. W. M. Grosvenor, and they show that the failures bave continued rather large both in number and liabilities. The number has been a little less than in the corresponding three months of 1894, being 2,792, against 2,868, but on the other hand the amount
of the liabilities has increased, the comparison standing at $\$ 32,167,179$ against $\$ 29,411,196$. Of the total of 2,792 failures for the quarter in 1895, 2,159 with liabilities of $\$ 18,430,147$ are classed as trading, 587 with liabilities of $\$ 12,205,115$ are classed as manufacturing, 46 with liabilities of $\$ 1,531,917$ are designated as "other commercial;" 31 banking failures for \$3,532,523 are reported separately. We give the figures for the different geographical groups in a little tabular statement on another page, and will only say here that for the New England States and the Middle States the comparison with last year shows a decease both in the number of insolvencies and the amount of the liabilities. These are the manufacturing sections, which are distinctly enjoying the greatest benefits from the revival of business. In the Southern, the Southwestern and the Central States, where the agricultural situation dominates largely, there has been an increase both in numbers and liabilities. In the Far Western States the number of failures has fallen off while the liabilities are somewhat larger, and in the Pacific States there has been a small increase in numbers, with a marked decrease in liabilities.

Last week's bank statement showed a decrease of $\$ 5,866,700$ in loans, making $\$ 11,322,700$ in two weeks. This reduction has seemed out of accord with large discoxats for interior banks. It is probably in the main to be accounted for by the liquidation of contracts which we recorded as made sixty and more days ago with near-by interior banks and Eastern and Middle States cities, the latter borrowings being in anticipation of taxes, and were obtained in very considerable amounts at low figures of our Clearing House institutions. The small loss in cash last Saturday's return showed, notwithstanding the free movement of currency to the interior, is most likely to be accounted for by the distribution of profits by the Bond Syndicate to the participating banks. This week the outflow of currency to the South and West has been heavy again, but it is in som9 measure covered up by the interest payments by the Treasury, the amount of interest falling due on the first of October being about $5 \frac{1}{2}$ million dollars on the old 4 per cents.
Money on call, representing bankers' balances, has loaned generally at 2 per cent this week, there being less competition because many of the largest lenders were distributing October interest and dividends, and those lenders who were in the market sought to obtain full rates. S me loans have been made every day at $1 \frac{1}{2}$ per cent, and yesterday the range was from that figure up to $2 \frac{1}{2}$ per cent; the average for the week was probably only a small fraction bslow 2 per cen ${ }^{\circ}$. Banks and trust companies quote 2 per cent as the minimum, and very few obtain any higher rates. Some of the foreign bankers called in outstanding loans early in the week and none appear to have been lending liberally. Time contracts have been in little better request and more firmly held this week, and in some instances rates have been slightly shaded where very choice collateral was offered. Quotations on good Stock Exchange security are 2 per cent for thirty days, $2 \frac{1}{2} @ 3$ for sixty to ninety days, $3 \frac{1}{2}$ for four and $3 \frac{1}{2} @ 4$ for five to seven months. The supply of c mmmercial paper is fairly liberal and there is a good assortment of names from which to select, but the demand is not urgent; the large city banks remain out of the market and the business done is chiefly by institutions other than banks and by purchasers in the interior. Banks having large interior correspondence continue to
report a dearth of money in the Northwest, which makes a good demand upon Eastern banks, and generally speaking money is moving to all points in the South. Mobile banks sent in applications this week for re-discounting for the first time this season. Cotton is moving freely from nearly all plantations to the seaboard. Quotations for commercial paper are $4 \frac{1}{2} @ 5$ per cent for sixty to ninety day endorsed bills receivable, $4 \times \frac{3}{4} \times \frac{1}{2}$ per cent for four months' commission house and prime four months' single names, $5 @$ @ $\frac{1}{2}$ per cent for prime six months' and $5 \frac{1}{2} @ 7$ per cent for good four to six months' single names.

The Bank of England minimum rate of discount remains unchanged at 2 per cent. The cable reports discounts of sixty to ninety day bank bills in London $9-16 @ \frac{5}{8}$ of 1 per cent. The open market rate at Paris is $1 \frac{3}{2}$ par cent, at Berlin it is 2 per cent and at Frankfort 2 per cent. According to our special cable from London, the Bank of England lost $£ 970,937$ bullion during the week and held at the close of the week $£ 42$,772,315. Our correspondent farther advises us that the loss was due to $£ 984,000$ sent to the interior of Great Britain, to an import of $£ 267,000$ (of which £217,000 were bought in the open market and $£ 50,000$ were (rom Australia), and to an export of $£ 254,000$, of which $£ 200,000$ were to Ejgpt, $£ 44,000$ were to Spsin and $\leqslant 10,000$ to the Continent.
The foreign exchange market has been decidedly lower this week and each day until Thursday the tone at the close was easier than at the opening. The offerings of co nmercial bills against cotton have increased, though they are held at full rates, and in some cases above the views of buyers. Bankers who do a large business with the South directly through their own agents are reported to have been abundantly supplied, and the fall in rates for bankers' bills has naturally tended to induce buyers to hold off in the expectation of still lower figures. The absence of inquiry, for this and other reasons, has materially contributed to the easier tone. All accounts agree in stating that cotton is moving freely to the seaboard from all points in the South, and it is felt that the supply of bills must increase rapidly. On Monday the market opened dull though fairly firm, but the Merchants' Bank of Canads reduced rates half a cent. It was reported that there were some cable transfers in the market, presumedly against an intended shipment of gold to Germany and there were comparatively few commercial bills. In the afternoon the tone grew easier and on the following day Brown Bros, reduced their rates half a cent and the figures for actual business were quoted at $487 \frac{1}{4}$ @ $487 \frac{1}{2}$ for long, $488 \frac{1}{4}$ @ $488 \frac{1}{2}$ for short and $488 \frac{1}{2}$ act $488 \frac{3}{4}$ for cable transfers, a reduction of one-quarter of a cent compared with the close on Friday of last week, while francs were fully 1-16 lower. The market was weak and the supply of commercial bills against cotton was reported large. On Wednesday Brown Bros. reduced rates another half cent, and Baring Magoun \& Co., the Bank of British North America, the Bank of Montreal, the Canadian Bank of Commerce, Heidelbach, Ickelheimer \& Co., Lazard Freres and the Merchanta' Bank of Canada lowered their rates half a cent and the tone was weak at the close with a still better supply of commercial bills. Rates for actual business were quoted at $4863 \times 3$ 487 for long, $4873 \times 488$ for short and $488 @ 488 \frac{1}{4}$ for cable transfers, while Continental bills were lower all around. The light demand seemed to induce holders of spot commercial bills and of futures to offer them at
concessions. On Thursday Brown Bros., the Bank of British North America, the Bank of Montreal and the Canadian Bank of Commerce again reduced their rates balf a cent and the market opened steady at a decline for actual business in short to $487 \frac{1}{2} @ 487 \frac{3}{4}$ and in cable transfers to 4873 @ ${ }^{4}$ 88, while francs and marks were about 1-16 lower. The demand was fairly good all day and the tone continued steady to the close. It was reported that some of the gold bills which were sold early in the week had been re-bought and there were no indications whatever of gold exports even on order. Yesterday Baring, Magoun \& Co. and the Merchants ${ }^{*}$ Bank of Canada marked their rates down half a cent. The tone was easier at the opening but the close was steady at an advance of $\frac{1}{4}$ cent in the rates for actual business in sight bills and cable transfers. The following table shows the daily posted rates of exchange by leading drawers.

The market closed steady on Friday at $487 @ 488$ for sixty day and 485 @ 489 for sight. Rites for actual business were 486 等@4 47 for long, $4873 \times 10488$ for short and $488 @ 488+$ for cable transfers. Prime commercial bills were $486 \frac{1}{4} \times 48 \frac{1}{2}$ and documentary $485 \frac{3}{4}$ (a4 86. There were some sales of bills during the week, supposed to be against the reported purchase by the Rothschilds of the Anaconda Copper Mine, and it is understood that the entire issue of $\$ 3,000,000$ fifty-year 4 per cent gold bonds of the Lonisville \& Jeffersonville Bridge Company has been placed in Amsterdam. But the exchange against these bonds is said to have been sold last week. Oae of the Canadian banks sent $\$ 50,000$ gold to Canada. Lazard Freres have $\$ 600,000$ in gold in transit through this port from Earope and Zimmerman \& Forshay have $\$ 250,000$ in transit.
The Oleveland Oincinnati Chicago \& St. Louis has issued its August return of gross and net earnings this week, and it shows 876,217 increase in gross and 838 , 339 increase in net. The Louisville \& Nashville for the same month has 834,493 increase in gross and $\$ 54,598$ decrease in net; the Denver \& Rio Graude 823,761 increase in gross, $\$ 10,241$ decrease in net; the Chesapeake \& Ohin $\$ 08,641$ decrease in gross, 848,945 decrease in net; the Southern Rsilway $\$ 46,503$ increase in gross, *38,273 increase in net; the Ohicago Barlington \& Qaincy $\$ 140,052$ increase in gross, 830,644 decrease in not; the Ohicago Burlington \& Northern $\$ 16,346$ decrease in gross, 822,887 decrease in net; the Canadian Pacifio 819,811 increase in gross, $\$ 72,121$ increase in net ; the A chison $\$ 77,357$ decrease in gross, $\$ 192,362$ decrease in net ; the New York Susquehanna \& Western, 839,407 increase in gross, $\$ 49,100$ increase in net; the Mexican Central \$118,548 increase in gross, $\$ 114,384$ increase in net ; the Mexican International $\$ 55,802$ increase in gross, $\$ 30,418$ increase in net; the Buffalo Rochester \& Pittsburg $\$ 21,160$ decrease in gross, 82,527 decrease in net; the Rio Grande Western *34,362 increase in gross, 837,985 increase in net ; the St. Paul \& Duluth \$7,773 increase in gross, \$13,067
decrease in net；and the Oregon Improvement Oompany $\$ 56,687$ decrease in gross，$\$ 13,035$ decrease in net．

Excluding Colorado Midland in all the years．
In the earlier portion of this article we have referred to the increase of 18.4 per cent in our statement of bank clearings for the month of September，and enu－ merated the circumstances which give particular sig－ nificance to this increase．In the different geographical divisions the ratio of improvement varies greatly for the reasons there given．For the Middle States the increase is as much as $24 \cdot 3$ per cent，for the New Wingland States it is 16.4 per cent，for the Middle Western States only 3.9 per cent，for the Pacific States but 2.8 per cent，for the Far Western States 4.2 per cent and for the Southern States 8.5 per cent．In the following we show the comparative monthly aggregates back to the 1st of January．

STATE OF THE TREASURY INCOM\& AND FINA NCES.
The Government receipts in September have shown gratifjing results. To be sure the total is not quite so large as the total for dugust; it would be a tritle less than in August even were we to allow for one less day in the month; but the item of internal revenue for September is the largest of any month in the calendar year with a single exception. This feature we consider especially imporiant because the internal revenue re ceipts come nearer than any other class of the Government income to being an expression of the productive ness of the present tax law. Moreover the results are gratifying because in only one other month since the new law went into operation has the revenue been in excess of the disburs ments.
There were no material changes made in the provisions of the internal tax laws under the 1894 revision exefpt in the item of spirits and fermented liquors. Tast rema $k$ must be qualified to this extent-s tax was imposed on that occasion on playing cards of 2 cents a pick and the tobaces schedule also was modi fied. But those changes have not hitherto proved material as they have had no essential effect on the revenue, and may consequently be discegarded in this discussion. We notice, for instance, that the revenue from tobacco averaged about 21 million dollars a month before the 1894 revision and is averaging but very little mord than that now, while the 2 cents a pack on playing cards has not up to thik time given to the receipts from "other sources," under which head it is included, any noticasble incress, Later on as general business improves it is reasonable to expect from present indications that the imposts on tobaccoand playing cards will be more productive. Tnose additions though cannot be large. Is is from the whiskey tax and from the addition of 20 cents a gallon made to that tax under the 1894 law that the enlargement of the interaal revenue receipts is chiefl to be obtained. As ofcen heretofore explaiued, Government income from that source siace the new tax went into operation was, for reasods we need not repest, in large measure suspended for msny months. Th revenue from spirits alone in 1892 under the oll tax was over 95 millions of dollars, averaging abulu o million dollars a month. If we may accept that result as normal the revenue from the same source the current year under the new law ought to reach about $116 \frac{1}{2}$ million dollars, or almost 10 million dollars a month, whereas the highest it has reached as yet in a aingle month has been $6 \frac{1}{2}$ million dollars.

As the case stands then, with the interasl revenue receipts for Ssptember from all sources, including spirits, $812,260,000$, the public seem to be authoriz-d to look for a further increase in that monthly total before the fiscal year closes of about 4 million dollars; and with the development of business activity, now so marked a feature, continued, that estimate would seem to be a minimum figure not unlikely to be exceeded in coming months. This certainly is reassuring. For if there were no other gain in revenue to be anticipated, here is a promising source of addisional income which if realized will of itself more than make good the deficit since July 1. For insiance, taking our own statement of receipts and expenditures, which will be found to-day in our "Commercial and Miscellaneous News" department, and which differs from the Government figures
ouly in including the "National bank relemption fund"-taking that statement we find the receipts for the first quarter of the current fiscal year to have aggregated $\$ 86,586,000$ and the disbursements $\$ 98,012,-$ 000 , or a shortage in the three months of $\$ 11,425,000$, which shortage would have been entirely wiped out had the tax on spirits yielded 4 millions additional a month, its estimated normal productiveness.
That, however, is by no means the sole dependence for enlarged income from the existing tax laws. A fair conclusion is that not only the internal revenue receipts will materially increase, but that Customs duties also are certain to be added to. Tais view is warranted in the first place because the imports of sugar, the article which was expected to be a chief source of revenue a ader the Uustoms provisions of the law of 1894, have not yet reached a normal movement, though they have i creased quite steadily and largely in late months. It fiads further support in the fact that other merchandise imports, alchough on the increase, have averaged less than the supply for the same period of an ordinary year. Very likely for the remainder of the calendar year imports may be even a little less than han they were in the last two months. It will be noticed that Castoms recsipts were less in September than in August, the August total bsing \$15,639,000 against $\$ 14,654,000$ in September. Importers are moving cautiously. Requirements have to be anticipated and a: a time like the present are uncertain. After recent experience it would not be natural for merchants to put out orders faster than the strength of the growing demand for consumption can be tested. Prevailing conditions can consequently only be mat by more than the usual fluctuations in the volume of merchandise imported.

We have stated that the Government revenue in S sptember was large enough to leave a favorable bslance. According to our figures the receipts for the month were $82,7 \% 1,000$ in excess of the disbursements. This result, it will be noticed, was possible only because the payments were small. Pension requirements appear to have been $81,594,000$ less than in August. But the chief reason the disbursements were at a minimum was that no interest falls due in September. The current month will diffor in this particular and will no doubt show a deficit again. A quarterly payment on the old 4 per cents falls due on the first of October and that calls for about $5 \frac{1}{2}$ million dollars. Pensions also are likely to be a little larger than in September. Altogether it would not be surprising if the disbursements should exceed the revenue in the full amount that the interest payment calls for. But current conditions indicate that these deficits are on the decrease, and at the moment it looks as if existing laws, with business revival continued, would afford all the revenue the Government needs. This antic pated result, if realized, will be heartily welcomed by the public. Few things could be more disturbing to business, now so rapidly developing, than long-continued agitation by the approaching Congress of new changes in the tariff under the plea of a need for additional revenu. The people and their industries can be better served br special effort towards economy in appropriations than in devising new ways for taxation.
There are no special features in the reported cash holdings of the Treasnry calling for extended notice. The most conspicuous change the figures for the first of October record is of course in the gold reserve. For the previous three months the opening report has shown this item to be above the 100 -million-dollar
limit. On June 1 it was $\$ 99,151,409$ and on May 1 it had been $\$ 91,247,144$. N w on O tober 1 it is $\$ 92$,911,974 . So loug as the export dem an lis in abeyance this condition is immaterial. A feeling prevails, born of recent experience, that after the new year opons and our cotton surplus has been mostly exported a new and large demand for gold will set in again. That is not possible unless something happens to change the trend of business affairs and conditions. We do not mean that no gold will be exported in 1896. More than likely such a movement will occur, bat if it does its proportions will be greatly restricted. The current fiscal year in all that tends to foster and make needful gold exports is as different from last year as any two consecutive years could well be. Besides, we are likely to see a considerable inflow of gold before the first of January.

There are two other changes in the cash holdings which deserve a word of notice. The surplus in receipts for September already referred to has of course increased the cash holdings and iocreased the general balance. The balance has not been added to in the same measure as the cash, because the balances in the hands of disbursing agents, etc., are larger. Among the cash items it will be seen that the flow of currency to the interior has served to diminish the net silver dollar holdings; the "net silver coin and bullion," which was reported August 1 at $\$ 30,367,816$, is now only $\$ 18,694,071$. Both of these changes strengthen the Treasury situation by increasing the available resources of the Government. Silver dollars are rot a quick asset. By means of the movement of currency to the interior they have been turned into legal tenders. The net legal tenders held August 1 were $\$ 18,411,688$; on October 1 they were $\$ 42,476,600$.

Below we give our usual table of Government cash holdings on the 1st of October and on the first of the three previous months. These are the figures we have refarred to in the above remarks, except the receipts and disbursements, which, as already stated, will be found in the "Commercial \& Miscellaneous News" de-
partment.

## LOUISVILLE \& NASHVILLE REPORT.

American railroad management has been much criticised in the past, but when one observes as each annual report is being received cumulating evidence of improvement in the administration of the properties improvement in methods of accounting, in methods of financiering and in methods of operating-one is forcibly impressed with the fact that the occasion for adverse criticism is fast passing away. Even in the case of properties like the Louisville \& Nashville, which have long been conservatively managed, there is an evident disposition to take further steps in the same direction by the inauguration of changes and reforms calculated to raise the properties still higher in public e:timation.

0 ur readers are aware that duriag the late fiscal year the Louisville \& $N$ ishville management decided to close its construction account and determined that all items heretofore charged to this account should hereafter be charged to operating expenses under the sub-title of Improvement Account. The effect of this change is strikingly shown in the annual report of the company, issued this week. The change was made to date from the 1st of July 1894. In the previous fiscal yeur (the year to June 30 1894) the canstruation expenditures had amounted to $\$ 1,160,714$, all of which was charged to capital account. In the late year this class of outlays, very naturally, was much smaller, aggregating only $\$ 279$,583, but no portion of the amount was added to cost of road-that is, to capital account-the whole of it being included in expenses. As a result the increase in cost of road for the year is only very trifling, namely $\$ 18$,54\%, this representing additional proporty acquired on some of the branch roads. It is proper to say that in the case of the Nashville \& Dccatur, a leased road, an apparent exception to the rule is found; there the construction account has been continued. Tae explanation, however, is very simple. Uader the terms of the lease of that road all improvement and batterment outlays are to be settled for at the end of the lease. The amount involved is very small, $\$ 11,275$ having been spent in that way during the twelve months.
An examination of the company's income account will show some other important changes in the direction of increased conservatism. Tae compzny has considerable sinking fund paymgnts to make each year. These have not heretofore been treated as part of the income account. Now the practice has been adopted of charging up against income the difference between the year's prymonts and the market value of the securities received for the various funds. This difference for the late year amounted to $\$ 175,000$, and it has been entered as a charge against earnings, the same as interest, rentals or other items. A few weeks ago, in reviewing the annual report of the Chesapeaks \& Oino, we noted that the directors of that company had decided to carry in a special account the discount upon the bonds soll during the year and to charge off the proportion applicable to each year during the life of the bond. The Louisville \& Nushville began this practice the previous year, and of course continued it in the late year. The charga against incame on that account was only $\$ 6,88 \%$, but the matter is important as showing a desire to apply rigid methods of accounting.

The company also ch urged agdinst the income of the late year the balance, a mounting to $\$ 697,669$, of advances to the Sjuta \& North Alabama RR. This. represents the remainder of advances made in past years to that company to meet yearly deficits, \&c., and for which the Louisville \& Nashville is entitled to be reimbursed, but which the South \& North Alabama Company is not likely to be able 10 repay in the immediate fature. The management concluded last year not to carry these advances as a credit upon the books of the Louisville \& Nashville any longer. Accordingly $\$ 714,063$ was written off in that year (in add.tion to $\$ 954,893$ of advances to other companies, making aitogether $\$ 1,668,956$ written off in 189394 ) and the bilance, $\$ 697,669$, has now also been written off. The amount in the previous year was charged off against profit and loss, while the anouat for thy late year has $b$ en charged directly agains: income. We observe,
too, by the report that the directors have re-valued the assets of the company and have charged off to profit and loss all losses and accounts and advances considered uncollectible. From the profit and loss statement furnished by Mr. Cushman Quarrier, the Comptroller, it appears that the deduction for uncollectible accounts was $\$ 90,448$ and for reduction in the market value of sundry stocks and bonds $\$ 24,500$, making together \$114,948.

These facts are interesting, both as showing the new methods adopted, all in the direction of increased conservatism, and because of their obvious bearing on the results for the year. We have seen (1) that the company has inc'uded $\$ 279,583$ of construction outlays directly with the expenses; (2) that it has allowed for a net charge of $\$ 175,000$ on account of the sinking funds; (3) that it has also allowed $\$ 6,887$ for the year's pro rata of the discount on bonds sold ; and (4) that $\$ 697,669$ of advances to the South \& North Alabama made in past years have been charged against the income of the late year. Yet after making all these deductions and allowances, as well as providing for fixed charges and operating expenses, the income account shows a surplus on the operations of the twelve months in the sum of $\$ 700,585$. The deduction for advances to the South \& North Alabams is of course a wholly exceptional item, not likely to occur again another year. Adding this therefore to the $\$ 700,585$ surplus, to show the results on the basis of the regnlar calls, we get a surplus bslance of $\$ 1,398,254$. The company has $852,708,620$ of stock outstanding, and thus it earned 25 per cent for its shareholders in a phenomenally unfavorable year, and according to very atrict methods of accounting too-not a bad showing, it will be admitted, for such a year.

We need not recount the various influences and conditions that marked the year, for we have done so repeatedly in other cases. The effect of the continued depression in trade which existed is seen in the further falling off in the passenger business, the earnings from passenger trains having declined from $\$ 5,676,105$ to $85,443,084$. In the earnings from freight trains there was an increase from $\$ 12,435,417$ to $812,933,251$. The average train-load was increased from 17312 tons to $177 \cdot 95$ tons, but nevertheless the earnings per train mile fell off from $\$ 1 \cdot 53 \cdot 914$ to $\$ 1 \cdot 50 \cdot 554$. The explanation is that the earnings per ton per mile decreased from 889 thousandths of a cent to 846 thousandths. In $1892-3$ the average was $93 \%$ thousandths. We may say that the average per passenger per mile also de-creased-from $2 \cdot 40$ cents to $2 \cdot 35$. In view of these declines in rates the result for the year is of course all the more satisfactory. Aggregate gross earning3 in 189394 had fallen off $\$ 3,429,000$; in the late year only $\$ 301,000$ of this loss was recovered. In the net earnings, on account of the augmentation in expenses, due in part to the inclusion of the construction outlays, there was no increase at all, but rather a further deorease, leaving the net in $1894-95$ only $\$ 6,998,220$ against $88,020,997$ in 189293 , and making the total the smallest of any year since 1888-89. Nevertheless, even with net diminished to that extent, a balance of $2 \frac{5}{5}$ per cent, as we have seen, can be shown for the stock.

One fact in the report which may perhaps not be underatood is the apparent decrease in the extent of the company's єquipment. The report shows only 526 locomotives on June 30 1895, against 549 on June $301894 ; 433$ passenger cars, against 448 , and 17,972
freight cars, aganst 18,41\%. This is on the Louisville \& Nashville proper. The Birmingham Mineral and the Nashville Florence \& Sheffield, for which separate inventories are furnished, also show decreases. Taking the total of them all, the number of cars for 1895 is only 20,104 , against 20,583 , and the number of locomotives 540 , against 563 . Thus there appears to be a considerable shortage. To those not familiar with the facts and who fail to study the report carefully, it may appear as if in the desire to keop expenses dowa not enough had been allowed to maintain the equipment up to its full number. In truth, expenses have been charged with the whole amount necessary to replace the equipment dismantled and destroyed, only the money was not actually expended but is carried in a deferred renewal account. There was allowed during the year $\$ 2,135,-$ 392 for account of building and maintenance of equipment, of which $\$ 1,632,413$ was actually expended and $\$ 502,979$ deferred until the present year. The latter appears in the balance sheet under the head of "Deferred Renewals of Equipment, Rails, Etc.," whose aggregate amount June 301895 was $\$ 638,347$. In other words, in its income account the company has estimated in full for the repair and renewal expenditures, but not all the money appropriated was used, it not being advisable to replace the equipment destroyed while traffic conditions did not afford employment for what equipment there was. That there was little need for supplying the deficiency is evident from the fact that the excess of car mileage paid for the twelve months was ouly $\$ 5,206$. The present year circumstances are likely to be different, and to make good the shortage the company purohased, for delivery subsequent to July 1 1895, fifteen new locomotives and 950 cars, which will be paid for out of the deferred renewal account.

The finances of the company are in good shape. A year ago the report showed $\$ 2,133,215$ of bills and contracts payable; for June 301895 there are only $\$ 825$, 000 of bills payable. [ncluding these bills payable and also the liability for deferred renewals, besides payrolls, vouchers, interest, \&c., the total current liabilities June 301895 were $\$ 4,373,595$, against which the company held at the same date $\$ 4,417,772$ of cash and available assets, including $\$ 2,200,000$ of Louisville \& Nashville stock figured at its par value; the company also had in its treasury $\$ 2,263,400$ of its Unified 4 per cent bonds, $\$ 531,000$ of its 10-40 Adjustment bonds, besides a large mass of other securities, both stocks and bonds.

With reference to the recent financial transactions, these are not mentioned in the report, since they occurred after the close of the fiscal year. As will be remembered, the company has called for payment on the first of February next the whole of the 10-40 6 per cent adjustment bonds, amounting to $\$ 4,531,000$. As will also be remembered, the company sold in August $\$ 2,000,000$ of the Unified 4 per cent bonds held in its treasury and $\$ 4,000,000$ of a new issue of Mobile \& Montgomery $4 \frac{1}{2}$ per cent bonds. Out of the proceeds of this sale the company has retired the $\$ 825,000$ of bills payable referred to above as outstanding June 30 1895, and has obtained the means for paying off the 10. 40 s next February, according to the call. The result of the whole transaction is to effect a saving in the yearly interest charges. The company has nearly 10 million dollars of 7 per cent bonds falling due in $189 \%$ and 1898, which can no doubt also be refunded at a lower interest rate at the proper time.

## UNEQUAL TAXATION.

Over five years ago we wrote of the efforts then making to tax personal property in the S ate of Unio. These efforts we said were the survivals of an old regime struggling vainly to maintain itself in the face of new condi iots. For, as we explained, personal property which originally embraced mainly tangible articles, such as cattle and appurtenances of the farm, all easily taxed, to-dzy is chiffly composed of stock certificates and evidences of debt, which no law, howevar inquisitorial. can to any great extent bring within the graep of the atsessor. The a tempt to tax intangible personalty it was predicted would fail in Ohio, and it has failed, though unfortunately the failure has not yet led to a modification of the erroneous system.

The subj ct is again called to mind by a history of the practical working of the efforts above referred to repoited by the special committee on taxation of th-Cleveland- Chamber of Commerce, and by Presi $\uparrow \leftarrow n t$ Iogalls, of the Cleveland Cincinnati Onicago \& So. Louis Railway Company, at a public dinner in Cleveland. Both the committee's report and Mr. I' gills' remorks have recently appeared in pamphlet form, at d both testify to the ritter and ridiculous failure of the stringent measures taken to discover the property and enforce the tax. In passing we mavsay that an arrimated discussion is in progress between Mr. Ingalls and the committee as to whether the railroads of O 010 bear their share of the cost of government-an important question but one which we shall not attemps to elucidate, for it does not touch the main point at issue in the committet's report, namely the evils of the personalty tax so far as it applies to intangible prop erty.

It was in $188 \%$ or 1888 , we think, that Ohio enacted its present notorious system, requiring the listirg of personal property, appointing paid spi-s to ferret out evasions, assessing the property discovered at not les. than 50 per cent above its actutl value, and paying the spies a large percentage of the addi ional income s secured. What has been the result? H ts the rev. nue of the $S$ ate been largely increased? Far from it. Toe tendency to evade, as the committee says, grows mart marked year by year, and a table is given which show. that in Hamilton County, of which Cincinnati is th county seat, the total assessed valuation now includes less than 3 per cent of intangible property. In Cuyahogn County, in which Cleveland is located, the percentage is about $4 \frac{1}{2}$ per cent. The average proportion in the country counties on the other hand is 11.45 per cent. Moreover, by comparison with previous years it is seen that the proportion of intangible property to the whole assessed grows less and less in the city counties, while in the country counties the proportion is a coustan one.

This inequality is demonstrated by reference to the cash on deposit returned for assessment. The people of Hamilton County, including Cincinnati, retur" about $\$ 1,400,000$, or 3 per cent of the total am unt actually in the bauks, over against 33 per cent returned by a country county like Montgomery. The to al intangible property in Hamilton County moreover, according to the tax returns, including stocks, bonds, moneys and credits, is at present, it seems, only about $\$ 7,000$, 000 , contrasting with $\$ 17,500,000$ thirty years ago. As the report very truly says, "the general property tax is a tax upon all classes of property in the country counties ouly; in the cities it tends to become virtually
a laud tas purels." Ia other words the int quality atid ineffestiveness of the system $b=c o m e$ more trausparent as time gues on. And yet strange to sar, tro, in the face of such disclosures it is the country counties that clamor for the enforcement of the tax on all personalty.
The history of the tax inquisitor in 0 io is also highly instructive. Reformers sometimes in other States advise the construction of similar machinery for carching delinquents. As well might they strive to pick up quickeilver ketween the fing rs. The tax inquisitor in Cuyahoga County, who receives for his services 25 per cent of the amount collected, last year succeeded in obtaining the payment of only $\$ 106445$. And yet this is said to be double the amount heretofore obtzined, except in one year, 1888 , when nearly $\$ 150,000$ was collected, "the larger part of which came from s veral large estates, the owners of which immediately changed their residence, ceased to pay taxes here, and have paid nothing since." Ooly $\$ 506,000$ in the aggregate was collected by the inquisitors from the eatire State, over half this sum coming from three counties, while from thirty-one counties not a dollar was by this means obtained. Scandalous, moreover, to record, is the fact which the committee states, that two men acting 18 ir quistors in three counties have been able in ten years to obtain for themselves as commissions sums aggregating nearly $\$ 400,000$, with the pitiable result which we have seen to the public revenue.
The committee likewise, and very properly, lay stress on the demoralizing effect as regards public morals of a liw wh ch requires the citizens of a State to declare under oath all their taxable property and then applies to the personal property a tax which is in many cases almost confiscatory. To show that the law is so unjust as to incite to perjury and evasions, the committee r -fer to the taxes which must be paid on stocks and bonds by honest holders. For instance, a man who bugs the bonds of the town in which he lives, "re-c-iving $\$ 4$ a hundred for the money which he has invested, has a right to feel that he is contributing more thin his sbare to the public burden," when the same municipality by way of taxes deminds from him $\$ 281$ out of the $\$ 4$ which has been paid him. So too, they add, prrsons whose investments in Lake Superior iron mines are paying large taxes to the State of M chigan have a right to feel harshly treated when the S ate of Ohio demands from them, as it does demand, an additional 20 to 60 per cent of their share of the property's yearly income simply because while holding a certificate of ownership in a Michigan property they happen to live in Ohio.
Aside from perjury and the consequent perversion of the sense of strict honesty which the law produces, its enforcement is a manifest obstacle to the growing prosperity of the S cate. What every State and municipality requires for its financial and commercial development is u questionably the presence and support of lange supplies of floating capital. To drive those possessing capital away means a loss, direct and indirect, that is incalculable, and out of all proportion to the small income derived from the tax. The committee sum up their record of events by drawing attention to this fact in the following words: "It will be seen therefore that the operation of the law is working gut the resul s which might naturally be expected. In ぃfew c unties some little money is obtaiued which immediately results in the tax payers, from whom it is collected, leaving the county and ceasing to pay taxes in the Scate thereaficer. In the greater part of the Scate
a few we ulthr people are sson exhausted and then the results of the law drop to nothing. There are however indirect results of the operation of the law in our city wiaich are extremely unfortunate. It is within the knowledge of the officars of this chamber that manufacturing corporations which would employ hundreds of men and contribute materially to the growth and prosperity of our city have been recently dissuaded from enming to Cleveland because of this act ; specific instances are known of this. In this manner certain it is that capital is kept from our city by the operation of this law ; that men of large capital have been driven away from the State and have removed to other States because of this act is of such common notoriety that it would be idle to discuss it."
Mussachuset1s, like Ohio, clings to old notions regarding taxation, and seeks to collect taxes from stock certificates representing the owner's share in property situated in sister States within whose borders the property itself is already fully taxed. In New York Citr, too, there is enough impolitic assessing of personal estates to drive many inflaential persons for residences into the suburbz, or to the more distant places where they may happen to be for the summer. The only materisl diff rence bet veen the city of New York and the city of Cleveland is that in Cleveland the existing laws are sought to be enforced and personal property is driven out of town to the greatest possible extent, while in New York the laws are only very partially lived up to. In Europe there is scarcely a vestige left of the old practice formerly so common of trying to levy n things that are intangible. Hure we are moving in the same direction, and a State like Ohio renders good service with its inquisitorial tax law by emphasizing the folly of the syatem.

## THE CLEVKLAND CINOINNATI CHIOAGO \& ST. LOUIS AND LOW RATES.

In the annual report of the Cleveland Cincinnati Chicaro \& St. Louis Railway, published by us last week, President Ingalls makes some obser rations bearing opon the question of rates, which deserve very careful consideration. They cover a festure to which we have frequently alluded-a recent instance being in the case of the report of the Ohesspeake \& Ohio, of which Mr. Ingalls is also President ; but the point is ove of controlling importance in the affiirs of the railrosds and it cannot be reiterated too often, or too much atress laid upon it. Repeating a remark made by bim the previons year, to the effect that the future of the Oleveland Oincionati Onicago \& S:. L uis, like that of all railway properties, depended largely nopo rates, Mr. Ingalls points out that if the company had received doring the late fiscal year the same rate per ton of freight and per passenger per mile as it recpived ouly as recently as 1892 , it would have had $\$ 1,309,616$ more of net earnings, an amount equal to over $4 \mathrm{p}-\mathrm{r}$ cent opnn the company's stock; that is to say, 4 per cent would have been earned even in such a bad year as the last could the company have obtained the same average rates as three years ago. In the case of the Chesapeake \& Obio we made a similar calculation and reached a similar result a few week+ agn, it being there foutd that the difference represented by the decline in rates would pay 3 per cent upon the comp tny's stock.

In contemplating the loss in revenues sustained by our railroads during the last two years we are very apt to sscribe it entirely to the depression in business which prevailed and to overlook the part played by the
decrease in rates. As a matter of fact the freight movement of the Cleveland Cincinnati Chicago \& St. Louis, like that of the Chesapeake \& Ohio, was for 1895 the largest ever made. The number of tons actually carried was not quite as heavy as that two years ago, but the tonnage movement one mile was in excess of that for that year, the figures for the last three years being 1,349 million tons for $1895,1,211$ million tons for 1894 and 1,331 million tons for 1893 . The freight revenues on the other hand for the three years compare as follows: in $1895 \$ 8,783,930$, in $1894 \$ 7.866$,967 , in $1893 \$ 9,338,787$, showing for $1895 \$ 555,000$ less earnings on a larger tonnage movement than in 1893. The reason for the loss is found entirely in the reduction iu the rates. F or 1895 the average at 6.51 mills per ton mile was a trifle higher than the average for the previous year at 6.49 mills, but for 1892.93 the average was 7.01 mills and for 1891-92 7-22 mills. Even in the passenger business there has been a decided decline in rates during the last two years, the average for $1 \times 95$ being $2 \cdot 055$ cents per passenger per mile, against $2 \cdot 18 \%$ cents for 1893; and here there has als) been a considerable falling off in the volume of the traffic, the two together having caused a marked contraction in the pissenger revenues, which for 1895 were only $\$ 3,785,410$, against $\$ 4,104$,769 for 1894 and $\$ 4,307,371$ for 1893 . It is perhaps well to note that in 1894 the sverage per pissenger per mile had dropped to only 1.832 cents, but the figure in that year was low for an exceptional reason, namely the large amount of travel to the World's Fair tasen at very low rates.
In view of this decline in rates-which is merely typical of the condition of things on the railroads gen-erally-one is inclined to woader that so many roads have escaped bankruptcy and a receivership. In the case of the Oleveland Oincianati Cnicago \& St. Louis the good results are ascribed to the excelleat physical condition to which the property has been brought by expenditures in previous years for fards, silings and equipment. President Ingalls notes that the company is to be congratulated on having succeeded in doing what but few railways have during the year, namely held its rate per ton per mile-that is, avoided a larther deeline in 1895 after the large decline in 1894 a.d previous years. Hə is moved to remark, however, that it would seem as though the public interest, as well as that of the stockholders, would be conserved if the road should at least get the low rates prevailing before the panic of 1893.
In this Mr. Ingalls gives expression to an important truth. There can be no question that public interests would be conserved by allowing the roads to obtain slightly better rates. The railroad industry is such a large and important one, and it is so intimately connected with other industries, that to raise it to a plane of prosperity would be certain to give a great stimulus to business activity everywhere in the country. At the same time the increase in rates required to bring about such a situation is so slight that no interest would feel it as a burden. It is the appreciation of the immense importance of better rates that accounts for the $z^{-a l}$ and evergy displayed by President Iugalls in promoting a new trusk line agreement, and it is certainly to be hoped that he will be successful in his efforts to place rates on an improved and lasting basis.

As regards the results of operations for the year, the company was not of course able to pay anything on its
common stock, but the regular 5 per cent dividends on the preferred stock, calling for $\$ 500,000$, were paid, and the income account shows that they were carned with a surplus of $\$ 49,62 \%$ left over. Gross earnings were $\$ 13,625,02 \%$, against $\$ 13,034,049$ in the year preceding (passenger earnings having further declined as already shown, while freight earnings recovered a part of their previous loss), but there was at the same time quite an increase in expenses, so that the gain in net was comparatively small, the amount of the net standing at $\$ 3,370,959$ for 1895 against $\$ 3,283,545$ for 1894 . The increase in expenses is found chiefly under three main heads, namely taxes, car service and maintenance of equipment. The increase in taxes is the result of a court decision against the company, under which the yearly payment for taxes is greatly enlarged; the amount of taxes for 1895 is $\$ 539,273$ against $\$ 405,688$ charged out for 1894.

With reference to the increase in the car service paymente, which were $\$ 309,236$ in 1895 against only $\$ 164$,018 in 1894, the explanation given by Mr. Ingalls brings to light a new difficulty with which railroad managers have to contend. Mr. Ingalls says that the increase is due in the case of passenger cars to the hauling of more sleepers, but in the case of freight (the increase is almost entirely in the freight mileage) it is due "to the fact that more and more each year the higher classes of freight are controlled by transportation companies who own their own cars and in order to secure this freight the company is obliged to use these private cars, paying mileage therefor, while its own are lying idle." As concerns the increase in maintenance of equipment, this has followed from large purchases of new cars and locomotives to replace equipment worn out, as detailed at length in the report.

It is pointed out that the company has had no construction account whatever during the year, all ad itions and improvements laving gone directly to ex penses. No bonds were sold during the year with the exception of $\$ 91,000$ of first consolidated mortgage bonds; $\$ 33,000$ of bonds were taken up for the sinking fund and canctleन, and $\$ 680,632$ of equipment notes falling due were paid. "The company's accounts receivable have been dccreased and its bills audited have increased, but it has no loans and its working balances are in comfortable condition." The balance-sheet shows that outside of the equipment notes, on which the payments due in 1895-6 are \$393,914, the aggregate of the current liabilities June 301895 was $\$ 3,227,380$; the amount of the cash and accounts and bills receivable at the same date was $\$ 1,433,969$.

In the case of the roads separately operated a very noteworthy improvement in the results of operations has occurred. The most important of these is the Peoria \& Eastern, and there the change has been very striking indeed. That road increased its gross earn ings $\$ 201,934$ while expenses were actually reduced $\$ 84,814$, and bence the net was enlarged in the sum of $\$ 286,748$, making it $\$ 463,938$ for 18945 against cnly $\$ 17 \%, 190$ for $1893-4$. The improvement is ascribed to the fact that the propperty is now in good physical condition, so that its expenses in the late year were normal, while in the previous jear they had included large amounts for betterments; also in part to an increase in the average freight rate received. As a consequence of the improved net earnings, the road was able to show a surplus of $\$ 22,317$ above the year's fixed charges, whereas in the previous year there had been a deficiency of
$\$ 264,430$. The importance of the change to the C . C . C. \& St. L. will appear when we say that under the lease the company has to advance the moneys needed to make good any deficiency, taking reimbursement out of future surplus earnings.

The C. C. C. \& St.L. has advanced altogether $\$ 893,563$ to that road for deficits in earnings and for improvements, and it is also liable, the report says, as indorser upon its notes for $\$ 36 \%, 56 \%$, for which, however, it has $\$ 397,000$ of its consolidated bonds as collateral. These bonds Mr. Ingalls thinks should be sold and the proceeds applied to the payment of adrances, and the balance of the amount either funded or carried as an asset until the net earnings of the leased road shall suffice to pay it. He says that he does not expect any further deficits on that road, but rather a gradual improvement from year to year in its net earnings. The Kankakee \& Seneca RR., operated jointly for the account of the C. C. C. \& St. L. and the Rock Island, shows for 1894-5 net of $\$ 11,222$, against a deficiency of $\$ 66,512$ for 1893.4, and the Mt. Gilead Short Line was operated at a profit of $\$ 628$, against a deficiency the previous year of $\$ 1,090$.

## COTTON CONSUMPTION AND OVERLAND MOVEMENT FOR SEPTEMBER.

Our usual statements of overland movement, receipts, exports, \&c., for September, the opening month of the new crop season, ara given below. The amount brought into sight through the ports, interior towns and the rail movement in September exhibits a considerable falling off from the figures for the corresponding period of last year, having been only 542,394 bales, against 663,703 bales in 1894, but as compared with 1893 there is a small increase. Northern spinners have taken 75,062 bales during the month, or a much smaller amount than in the same time in 1894.

OVERLAND MOVEMENT FOR SEPTEMBER,
The gross movement overland in September has been only 18,040 bales, against 31,908 bales in 1894 and 23,961 bales in 1893. In this decrease from last year of fourteen thousand $b_{i l}$ les most of the routes share, but the movement via Cairo and Cincinnati shows the greatest ratio of decline. The net for the month makes a less favorable comparison with the previous year than does the gross, the aggregate net boing only 8,508 bales, against 21,441 bales in 1894 and 12,865 bales in the preceding season.

RECEIPTS, EXPORTS AND SPINNERS' TAKINGS.
The net receipts at the po rts in September exhibit an important decrease from the corrasponding month last year, but a small excess is seэn when contrast is made with 1893. This ascompsnying table d-scloses the fact that the decline from last year is shared in by all the important ports. Exports to foreign ports during the month have reached only 111,553 bales, against 202,673 bales last year and 152,275 bales in 1893.

- Great Britaln exporta fnelude to the Channel.

Using the facts disclosed by the foregoing statements we shall find that the portion of the crop which has reached a market through the outports and overland, and the Southern consumption, during Ssptember this year and the two previous years is as follows.

|  | 1895. | 1894. | 1893. |
| :---: | :---: | :---: | :---: |
| Recelpts at the ports to Oct. 1 . . . . bales. Eetahilpmentsoverland during same time | $\begin{array}{r} 383,286 \\ 8,508 \end{array}$ | $\begin{array}{r} 518,762 \\ 21,411 \end{array}$ | $\begin{array}{r} 377,408 \\ 12,865 \end{array}$ |
| Total reeetpts. ................................ Southern consumption aince September 1 | $\begin{array}{r} 392,394 \\ 80,000 \end{array}$ | $\begin{array}{r} 540,203 \\ 68,000 \end{array}$ | $\begin{array}{r} 39), 273 \\ 65,000 \end{array}$ |
| Total to Oet, 1 ................bales | 472,394 | 608,203 | 455,273 |

The amount of cotton marketed daring September in 1895 is thus seen to be 135,809 bales less than in 1894 and 17,121 bales greater than in 1893. To determine the portion which has gone into the hands of Northern spinners during the same period we have prepared the following:
Total recelpta is September, 1895, as above............bales. 472,394 Btock on hand commencement ot year (Bept. 1, 1895)At Morthern ports....................... 169,527
At Bouthern ports............................ 110,536 - 280,083
At Sorthern interior markets.........................................782 - 285,045
Total axpply to Oetober 1, 1895... ........................... 758,239
of this supply there has been exported
to forelgn ports since Sept. 1, 1895. 111,553
Lena forelgn cotton included …....... $2,336-109,217$
Bent to Canads direet from Weat.................... 1,639
Barnt North and South,..............................
B. ock on hand end of month (Oet. 1, 1895)-

At Northern ports....................... 168,449
At Bouthern ports ...................... 319,088- 487,537
At Northern interlor markets....................... $4,784-603,177$
Total takfnge by splnners alnce September 1, $1895 \ldots \ldots . . \begin{gathered}\text { 155,062 }\end{gathered}$
Taken by \&outhern apinners..........................................
Takrn by Northern spinners since Septomber 1, 1395...... 75,062
Taken by Northern aptnners aame time in 1894............... 115,179
Deorease in taktngs by Northern sptnners this year...bales. 40,117
The above indicates that Northern spinners had up
to Ostober 1 taken 75,062 bales, a decrease from
the corresponding period of 1894 of 40,117 bales,
and a gain over the same period of 1893 of 34,624 bales.

## AMOUNT OP GROP NOW IN SIGHT.

In the foregoing we have the number of bales which has already been marketed this year and the two previous seasons. An additional fact of interest is the
total of the crop which was in sight on October 1 compared with previous years, and which is shown in the following :

|  | 1895. | 1894. | 1893 |
| :---: | :---: | :---: | :---: |
| Cotal marreted, as above ....bales. Enterior stooks in excess of sept. 1. | $\begin{array}{r} 472,394 \\ 70,000 \end{array}$ | $\begin{array}{r} 608,203 \\ 55,500 \end{array}$ | $\begin{array}{r} 455,273 \\ 56,000 \end{array}$ |
| Total in sight..............bales. | 542,394 | 663,703 | 511,273 |

This indicates that the movement during September of the present year is 121,309 bales less than in 1894 and 31,121 bales in excess of 1893.

## WEIGHT OF BALES.

To furnish a more exact measure of the receipts up to October 1 we give below our usual table of weight of bales. We give for comparison the figures for the same time in the two previous years.

|  | September 1895. |  |  | $\begin{gathered} \text { Same } \\ \text { perid in } \\ 1894 . \end{gathered}$ | $\begin{gathered} \text { same } \\ \text { peri'd in } \\ 1893 . \end{gathered}$ |
| :---: | :---: | :---: | :---: | :---: | :---: |

| Tennessee, do.. | 94,390 | 47,195,000 | $500 \cdot 00$ | 499.50 | 491.78 |
| Total. | 4:2,394 | 241,523,810 | $511 \cdot 28$ | 521.85 | 510.99 |

## - Ineludink Florida.

It will be noticed that the movement up to October 1 shows a decrease in the average weight as compared with the same period of last year, the average this year being 511.28 lbs . per bale, against 521.85 lbs . per bale for the same time in 1894 and 510.99 lbs . in 1893.
the dry goods trade during september.
It the market for cotton goods duriag the monch of September were to be judged by the volume of business transacted it would prove on the whole somewhat disappointing, but as a matter of fact the demand, particularly in staple cottons, was quite a subsidiary factor. The month opened with a strong tone ruling, and under the dominating influence of the continued rise in the price of raw cotton it closed with an extraordinary condition prevailing. The course of prices shown in the table below fails to fully indicate the situation. Standard sheetings (A:lantic As) are unaltered, but the price is nominal, agents taking orders at value only, whilst there have been general advances of $\frac{1}{4}$ c. in lower-priced makes, and some high-grade goods are held at $6 \frac{1}{4} \mathrm{c}$. and three yards are in limited supply at $5 \frac{1}{2}$ c. Eren this leaves something more to be told, and that is that a number of manufacturers are refusing to bahe orders in domestics for fature delivery, although tendered at the highest point of current quotations. The market thus not only shows unusually light stocks of brown, bleached and colored cottons, bat abaormally restricted opportunities open to buyers to make contrac's ahead. Brown goods may be quoted nominally $\frac{1}{2} \mathrm{c}$. , bleached $\frac{1}{4} \mathrm{c}$. to $\frac{1}{2} \mathrm{c}$. , coarse colored $\frac{1}{2} \mathrm{c}$. to $1 \frac{1}{2} \mathrm{c}$., and wide sheetings 1 c . to $2 \frac{1}{2} \mathrm{c}$. per yard upon the month. Ootton dress fabrics have on the whole ruled dull, a spell of very hot weather during the month affecting adversely the distribation of dark work in both printed and woven patterned lines. Prices of regular prints show an occasional advance of $\frac{1}{4} \mathrm{c}$. and staple ginghams advanced $\frac{1}{4}$ c. to $\frac{1}{2}$ c. per yard. Print cloths gained 1-16c., advancing to $3 \frac{1}{8} c$. for extras, but sellers declining bids thereat at the close.

Failures for Third Quarter and Since January 1.The following figures, prepared by Messrs. R. G. Dun \& Co., show the number of failures in the United States and Canada during the quarter ending September 30, 1895, and the nine months. For purposes of comparison like figures for the corresponding periods of the preceding year are given :

Clearings by Telegraph.-Sales of Stocks, Bonds, \&e.Stock Exchange Clearing-Ho ise Transacions.-The subjoined statement, covering the clearings for the current week, usually appears on the first page of the CHRONICLE, but on account of the length of the other tables is crowded out once a month. The figures are received by telegraph from the leading cities. It will be observed that as compared with the corresponding week of 1894 there is an increase in the aggregate of 148 per cent. So far as the individual cities are concerned New York exhibits an increase of 18 per oent, concerned New York exhibits an increase of 18 per oant, Louis $2 \pi .8$ per cent, Philadelphia 9.5 per cent, Baltimore 0.8 per cent, New Orleans $43 \cdot 6$ and Chicago $7 \cdot 0$ per cent.

## [From our own correspondent.]

London, Saturday. Sept. 21, 1895.
The relations of France and Russia are exciting a good deal of attention throughout Europe just now. The Russian For eign Mioister and a Russian military delegation, at the head of which is a distinguished General, attended the French mili ary mancuvres which have just ended an d were entert ained at a banquet by the President of the R-public. Furthermore, the Ruskian Finance Minister has lately been in France, and a St. Petersburg banker is there at present who is btleved to be his confidential adviser. One explanation offered is that Russia and France are merely replying to the Triple dlliance, the Emperor Francis Jostph and an Italian Prince having attended the German military manœuvres. To this it is replied that that dues not account for the presence of the Finance Minister and therefore another story is current which, however, is a mere guess: that France and Russia are concerting some great movement, and are considering not only the military but the financial preparations necessary, A third story is that there is no connection between the visit of the Fortign Minister and that of the Finance Minister; that the latter came to France to arrange about another Russo-Chinese loan; whatever the real facts may be, there is much speculation; and although the public is looking on unmoved there is undoubtedly uneasiness in diplomatic circles all over Europe.
Gold continues to pour in in vast amounts. The supply of unemployed capital is therefore increasing, and rates of interest and discount are as low as ever and are likely to remain so for the rest of the year. It is true that trade is improving; but the improvement is slow and will not for some time yet affect the money market. It may be noted, however, that at the Colonial wool sales in Sydney this week there was a decided rise in wool, and there is expected to be a further rise at the London sales which begin next week. Great damage has been done to the flocks in New Zealand; and although satisfactory rains are reported from New South Wales and Southern Queensland, it is feared that there has been and will be much mortality, esp cially among lambs, in both colonifs. The supply of wool in the early future is therefore th ught likely to be rather short. The woolen manufacturing industry all over Europe is very active.

The silver market is quiet, and this week there has been less speculation in silver securities. Especially there has been a decided check to the speculation in Indian rupee paper. For all that, there is a firm tone. The report that the Russian Finance Minister is arranging in France for a new RussoChinese loan to be brought out in November is thought to foreshadow considerable purchases of the metal by either China or Japan, or possibly both. Nothing is yet known as to whether the loan is really to come out so soon; and of course it is po sible that China may merely borrow enough to complete the indemnity to Japan and so hasten the evacuation of her territory. For the moment there is very little demand for silver for the Far East.
The stock markets have been quieter this week than for some time past. It will be recollected that at the fortnightly settlement on the Stock Exchange last week there was found to be a very large "bull" account and that many of the weaker operators were unable to carry over. Consfquently realizations have coutinued ever since. Furthermore the Jewish New Year holidays, which began on Thursday, have decidedly checked business. Early in the wetk the Jewish operators abstained from business, and they bave for the most part been absent since Wednesday. An advers influence, too, has been exercised by fears of a strike in the ship-build-
ing yards on the Clyde; especially there has been a fall in Scotch railway stocks. At the same time the feeling on the Stock Exchange is as hopeful as ever, and most members expect that when the fortnightly settlement next week is ended there will be a great revival of business.
In the mining market, more particularly, the Continent continues to buy, and the reports recelvid from Paris, Berlin and Vienna are that interest in mines is spreading, and that after the present pause transactions will become larger and more numerous than ever. It is to be noted that whereas until lately the chief interest centered in the Witwaterstrandt district and one or two other districts of the Transvaal, now there is a very large business being done "in the Chartered Company's territory; and the interest felt in Western Australia is also decidedly increasing. Herr Schmeisser, the German Government mining expert, is in Western Australia at present at the instance of several mining companies, and if his reports are as favorable as is expected that will undoubtedly stimulate investment there.
In the American department not much has been doing here, partly owing to the al sence of so many great operators and partly owing to the continued goldshipments. But while the public is abstaining, it is very clcsely watching for any sign of a wiser currency policy on the part of Congress. If proper measures were to be taken there is every reason to believe that British investments in the United States would be on a scale perbaps never before witnessed; and no doubt the Con. tir ent would invest very largely likewise.

For the past two or three days a check to the advance in Argentine securities has been given by the rise in the gold premium. Within less than three months the premium fell about 15 per cent; now it is rising rapidly again. The best opinion is that the fall was brought about by manipulation and that it was altogether excessive. However that may be, stocks rose rapidly while the premium was going down, and now they are declining as it is going up again.
In Briish securities of all kinds there is little doing, and not much etther in Colonial. Inter-bourse securities are fairly firm, being supported mainly by Paris. Bat the best opinion in Paris scems to be that French rentes will decline, owing to the heavy cost of the Madagascar expedition and the unwieldly magnitude of the floating debt, which must soon be funded. The negotiations for a Spanish loan do not appear to be making much progress. And the Cuban expedition is hanging like a mill-stone round the neck of Spain.
The rates for money have been as follows:

\$24,165,360

* Circulation of National Gold Banks, not included in above, 889,697 .

According to the above the amount of legal tenders on deposit October 1 with the Treasurer of the United States to redeem national bank notes was $\$ 24,165,360$. The portion of this deposit made (1) by banks becoming insolvent, (2) by banks going into voluntary liquidation, and (3) by banks reducing or retiring their circulation, was as follows on the first of each of the last five months:

\section*{Deposits by- June 1. <br> | Insolv'ntbks. | 949,924 | $1,017,913$ | 962,710 | 934,280 | 888,656 |

## *ALL, \&TREET, PRIMAY, OCT, 4, 1895,-5 P.M.

The Money Market and Financial Situation. - Business in Wall Street has been dull and generally featureless during the week and prices for all classes of securities have moved within a very narrow range. These conditions may be accounted for in part by the interest manifested in the cotton and grain markets, which continue to be favorite fields for speculation.

Of the few features of interest the more favorable condition of the foreign exehange market and the cessation of gold shipments are among the more prominent.
The statements of the principal European banks, published on Thursday, are of special interest. They all show considerable losses of specie and a large increase of outstanding circulation. This though does not amount to as much as would appear from the bare statement. So far as tne Bank of England is concerned the loss is due not to an export but wholly to a movement of $£ 970,937$ to the interior of Great Britain.

We learn from excellent authority that progress is being made with the new Reading plan of reorganization, and that it will soon be announced.

The anthracite coal business continues to improve and evidence is accumulating that this important industry will soon be eatabliahed upon a firmer basis than it has occupied during the year thus far.
The phenomenal development in the iron trade is reflected in the advance in prices during the week of the stocks and securities of some of the iron-producing properties. This is especially true of the Tennessee Coal \& Iron Company, the and the Duluth \& Iron Range Railway Company. Company and the Duluth \& Iron Range Railway Company.
The money market has been somewhat more active, owing to the demand from the interior and the October first settlements and disbursements.
The open market rates for call loans during the week on stock and bond collaterals have ranged from $11 / 2$ to $21 / 2$ per cent. To-day rates on call were $11 / 3$ to $21 / 2$ per cent. Prime commercial paper is quoted at 43/2 to $51 /$ per cent.
The Bank of England weekly statement on Thursday showed a decrease in bullion of 2970,937 , and the percentage of reserre to liabilities was $59 \cdot 63$ agnainst $61 \cdot 52$ last week; the discount rate remains unchanged at 2 per cent. The Bank of $1,700,000$ francs in silver.
The New York City Clearing-House banks in their statement of Sept. 28 showed a decrease in the reserve held of $32,479,300$ and a surplus over the required reserve of $\$ 22,296,175$ szainst $\$ 22,443,500$ the previous week.

| Cotal | 22,310,934 | 17,313,489 |  |  |  |

State and Railroad Bonds.-Sales of State bonds at the Board include $\$ 5,000$ Alabama Class A at 1091/2, $\$ 3,000$ Louisiana con. 4s at $981 /$, $\$ 10,000$ Virginia fund, debt $3-8 \mathrm{~s}$ of 1901 at 68 , and $\$ 29,000 \mathrm{Va}$. 6s defd. trast rects., stamped, at $61 / \frac{1}{2}$.
The railroad bond market has been steady fo firm, with the activity confined chiefly to a few issues which include the Atchison, Chesapeake \& Ohio, Chicago \& Erie, Louisville N. A. \& Chicago, Mo. Kan, \& Texas, No. Pacific, Oregon Imp., Oregon Short Line, Phila. \& Reading, St Louis Southwest., Tenn, Coal \& Iron, Texas \& Pacitic, Union Pacific and Wabash bonds. Duluth \& I. R. 1sts have been strong on the excellent showing of the company's business and have gained $11 / 2$ points. D. \& Rio G. have advanced about 2 points. Ore. Imp. Con. 5s have fluctuated between $361 / 2$ and 40 , closing at 381/2. The Atchison \& Reading issues have been steady and Tex. \& Pacifics strong.
Railroad and Miscellaneous Stocks.-The stock market has rule 1 firm on a limited volume of business, which has been largely of a professional character. Prices in the railroad list have generally moved within narrow limits. The grangers have been strong on increased earnings and the certainty of heavy traffic during the coming months. North West. and Burlington \& Quincy have made fractional gains within the week. St. Paul has been the most active of the group and is reported to have been freely sold for London account, but has been readily absorbed. The leading coal stocks, except Reading, have been exceptionally dull, and are firmly hova. Lackawanna \& Western advanced nearly 4 points above the previous highest price of the year on Tuesday, but even that rise failed to bring out much stock. Reading has been the most active of the railroad list, fluctuating within two points, and closes at $207 / 8$. The Southwestern stocks have been firm on liberal sales. Wabash pref, and Wheeling \& Lake Erie shares have been relatively active without notable change in quotations.
The industrial list has, as usual, been in favor with the speculating element, with Chicago Gas, Am. Sugar and Distilling the most conspicuous. The former has advanced on buying reported to be by strong interests, and expectatiot of an early reorganization. Distilling reached the highest point of the year on Monday, when it sold at $251 / 2$. It is again reported that conflicting interests in this property have harmonized, and that the reorganization will soon be completed. Tenn. Coal \& Iron has advanced about 2 points and Illinois Steel 7 points, on the improved conditions in the iron industry. The market has been weak to-day in consequence of a reported break in Kaffirs at Paris, higher rates for money and liberal selling for foreign account.
Declines are general, sveraging a point or more.

## Investment Railroad fintelligence．

## RAILROAD EARNINGS．

The following table shows the gross earnings of United States railroads（and also a few Mexican and Canadian roads） for the latest period reporied．The statement includes every STEAM Oad from which regular weekly or monthly returns can be outained．The first two columns of figures give the gross earuings for the latest week or month，and the last two col 1 mns the earnings for the calendar year from January 1 to and including such latest week or month．
The returns of the street railuays are not included in this table，but are brought together separately on a subsequent page．

## Road in process of reconstraction.

Street Rallway Net Earnisgs.-The following table gives the returns of Strget railway gross and net earnings received this week. In reporting these net earnings for the street railways, we adopt the same plan as that for the stsam roadsthat is, we print each week all the returns received that week, but once a month (on the third or the fourth Saturday) we bring together all the roads furnishing returns. The latest full statement will be found in the CHRONICLE of September 21. The next will appear in the issue of October 19 ,

## Mianeapolis \& St. Louis Railroad.

(Report for the year ending June SO, 1895.)
The report contains the following remarks by President William L. Bull.
General Results.-This company commenced its operations on the termination of the receivership Nov. 1, 1894, but in order to furnish a busis for comparison with previous years, a statement is given for 1894 to Nov 1, 1894 . It should be noted, however, that against this period are charged items aggregating $\$ 5 \%, 158$, which had accumulated
during a long period of years, and which were brought to
notice in the settlement of the receiver's accounts, and that in this way the ratio of operating expenses beca me abnor. mally large. This sum of $\$ 57,158$, if added to the nominal net earnings of the road's operationa for the past twelve months, would increase our net to $\$ 334,368$ for the yeur eoding Juoe 30, 1895. In spite, however, of this fact the nomin+1 net earnings for the entire year c vered hy this report show a handsome increase over those of the previous one, and th directors feel that the sto kholders bave reason to congratulate themselves on this result.

Financial Condition.-The company is without any floating debt whatever, and has in its treasury $\$ 276.360$ in cash, as well as $\$ 282,000$ consolidated mortgage 5 per cent bonds; $\$ 109.237$ first preferred stock; $\$ 57.250$ second preferred stucts, and $\$ 379,600$ common stock; also $\$ 95,0005$ per cent bonds of the Minnesota Transfer Comoany and one-eighth of its cap ital stick. The company has obtained judgment whereby the sum of about $\$ 75.000$, secured by real estate at Kenwood, will be real'zed by tize company.

Terminals. - The company has acquired additional real estate abutung on us present terminalsin Minueapolis and paid for the same out of treasury funds. Our terminal properties at Mıneapolis are very val iablo and our facilities for handling the bu-ivess of the company at that point for many years to come are unsurpassed.
The comproy has entered into contracts with the St. Parl \& Dulurh RR. Co. and with the recelvers of the Northern Pdcitic RR. Co. for the use of terminals. The St, Paul \& Du luth RR. Co. will use our freight terminals, thus giving us an additional income, hesides reducing cost of maintaıning them. The contract with the N rthern Pacific Companv and its receivers gives this company an entrance into St. Paul on terms of a very miterial reuuc ion from the old contract in force at the terminat ion-of the late receivership.

Physical Condition. - The policy of improving the condition of the property generally has been steadily and conservatively carried out. The Chief E igiaeer reports that the bridges, buildings and track of the rosd are in gond order, and tiat the property is in a hish state of efficiency. The mo ive power is in exc-llent cond tion and appears to be sufficteat for the demands of our business. Five thousand tons of steel rails were purchased last sping, at $\$ 23$ per ton, before the adrance in the price of rats took place.

Prospects. - The pro-pects for the current year are such as to jusufy the belief that the busiaess of the road will show a sub-ianisal incre se in net earnings.
Statistics. The comoaralive figures for four years have been compiled for the CHzonicle as follows

| Earnings from - | $1894-95 .$ | $\begin{gathered} \text { EXPENSES. } \\ 1893-94 . \\ \$ \end{gathered}$ | 1892-93. | $\begin{gathered} 1891.92 . \\ \$ \end{gathered}$ |

## St. Louis Sonthwestern Railway.

(Report for the year ending June 30, 1895.)
President S. W. Fordyce, in the annual report, speaks in substance as follows:
Financial Results.-During the greater "portion of July, 1894, the prevalence of the American Railway Union strike on conntcting lines caused a gentral stoppage of through traffic and a consequent decrease in local traffic. The great financial and industrial depression, now it is hoped becoming a matter of bistory, continued during the early por110 of the fiscal year ended Juue 30, 1895. The rate war to Southwestern Territory points existed during the entire month of June, 1895, but is now terminated and satisfactorily adjusted. Notwithstanding these adverse conditions, the
gross and net result; for tha late fiscal year have largely ex-
ceeded those of any previous fiscal year in the history of the prop-rty.

As compared with the preceding fiscal y ar, the inerasese in gross earnings $i=1304$ per cent a 1 d ia nes paraings $67 \cdot 25 \mathrm{p} \mathbf{r}$ cent. After provising for all charges there $w$ 19 a su olus of \& 306,189 , while $f$ or tha fiseal year ended Ju 3) 3), 1894, there was a deficit of $\$ 197.763$. Of the surplus income for the year just ended there has been anpli-d toward the reduction of tquipm-nt trist obligations $\$ 139,139$ for net additions to rolliug slock $\$ 55,353$, and the balance has been $u$ iliz d mainlv in reducing the floating debt, as shown June 31 1891, a large prrion of which was caused by the deficit of $\$ 197,763$ for the fiscal year ended Juae 30, 1894.

There has been expended for betterments and charg d to operating expenses during the fiscal year ended June 30,1895 , the sum of $\$ 197,086$, an increase over the amount of expenditures of a similar nature during the year en ted June 31. 1494, of $\$ 83,539$ an during the year end-d Jua+ 3), 18933, of \$ 4,421.
Floating Debt.-First mortgage certificates for $\$ 170^{\circ} 302$ were s id during the year for $\$ 120,444$. Of this sum, $\$ 44,510$, together with $\$ 121697$ from the year's surplus, was applitd to reducrion of the flating deot. The tital fluing deot Jaue $39,18+5$, including interest and tax-s accrued, \&c., was $\$ 1$, 068633 , concrasung with $\$ 1,290434$ June 30, 1894 ; current a-sets, includinıs su vpliex, aцgregated $\$ 532,5$ j4; making the net fla ing debt $\$ 536,1: 8$, aganse which are securities of an estim tud market value of $\$ 328,74 \%$. The report saps:

After taking into consideration oucstanding no es not due, taxes and int-rest accrued but not due, and the market value of investments in s socks and bonds, it will be seen from the fillowing summary that the company has practically no fl ati"g d. br."

The amount due the estate of Jay Gould has been reduced from $\$ 27,0,000$ to $\$ 175,500$. The securuties in the treasury include $\$ 325,000$ first m ,rgage certificates, \&c
Traffic.- Lumber still coalinues to form nearlv oop-half of the elitire tor nage hadled by this companv. For the year ended Ju ie 30. 1895, compared with the precedi gy year, the tonnage of this commooity shows an increase of 34.150 tons, or 5.19 per cent. The cotion movement was the largest iu the hisrory of the road. The total pumber of bales haul $d$ was 62 c .015 , an incr-ase com sared with the previnus year of 227, 535 bales, the revenue therefrom neing $\$ 1,019333$, agains $\$ 744$, 484 in 1893.94 . The increase in friyht tratn mileage is ouly 432 per cent, as ag inst an increase of 1062 per cent in the total tonnage transported and an increas of $16^{\circ} 41$ per cent in freight parnines.
Maintenance and Equipment -The management having adupte: as is standard steel rail weighing 75 pounds to the yard, 1,000 tons of such rall (-ufficient to lav about eight track mifs) were purchased during the month of June, 1895. Before the close of the fiscal year 4.1 miles of this rail we re laid and the remainder has beeu laid since the cl we o the fis al year. A contract has been let for 1,000 tons mo e of $\%$-pound roil for renewal purposes. As to equinment the reporisays:
air brakes hare been applied to 13 loco notives and 11 ? $f$ +ight cars and antom tic couvers 0132 freight cars In viow of the sto. Ay in. provemeut in the roadbed, the use of havier locnuotive equipment is considered more feanible uow than io the past. The s wi 4 io operati gexpenses th t would accrue frou tue us of heav er monderu loco-
motices would pay for th ir first cost in two years. Che necessity
not motices wound pay for th ir tirst cost iu two years. The necessity of eq ipping the empany's 1000 uo ives and ca's with air equipping locomolives is alluost completend, out comparatively few treight ears are so equipped. On Jnue 31). 895. Thカie Wr-re \& 100 omotises and 4,15 .fretght vars requiring air brakes ant 4,118 fre ght card r quiring aummatio conpers. It is estim ted that in oriler to tuus equip this rollions stock it will require a monithls expenditure in the leighnorliood of $\$ 12,000$ for the sucecediuk thitry mouths.
Toe following table gives various statistics relating to road, equipment, train loads, etc., for the fi,cal years ending June 30.

General Remarks.-The yield of cotton in the section of country wioutary to these lines, it is estimated, will be reduced the present season by about oae-third. The loss in revenue resulting, it is believed, will be largely overcome by increases in other commodities and in the general improvement in the business of the country.
The change to standard gauge of the Tyler Southeastern Ry, was completed September 1, 1895. Arrangements have been perfected bv which your company will have desirable outlet for its bu-iness (particularly lumber and cotton) by way of Delta, Cape Girardeau, Mo., and the Chicago Paducah \& Memphis and Chicago \& Texas railroads to a convection with the Wabash at Altainont, Ill. It is believed that the opening of this new line will add much to the value of your property. Emigration from the Northwest as $w \in 11$ as from the Southeast continues to move into the country coatiguous to your lines of rallway, and the general improvement ia the development of the Southwest continues.

## New York New Hiven \＆Hartfori R ililroad． <br> （Report for year ending June SO， 1895. ．

The pamphlet report has not yet come to baad，but from the Uoited Press dispatehes the fasts beluw given regardiag its cont－n＇s are obtaiged．
Earnings．－The earaings and balance sheet for the late fiscal year were given in the Chronicle of sept．14，pige 463. The annual report co ifirmsth tifures thare kiven and shows that out of the year＇s surplus of $\$ 3473,939$ ，dividen is argere gating $\$ 3,794,29$ ）were paid，lesving a deticit for the $\mathrm{E} \boldsymbol{\mathrm { V }} \boldsymbol{1 0} \mathrm{Fe}$ mooths of $\$ 315.8$ ）t．Che passanger earatogs aggr－gace i \＄ 5 ， $29 \mathrm{x}, 056$ ；frelght earaings，\＄12 3）9，953 Chese fis ires refer to the same proparty and the sam $\rightarrow$ inileage reported List year． The statement says：＂Stockholders will be grativied to note an increase of 9 per cent in the $ц r \boldsymbol{s}$ s revenue of the properties wnich is mainly due to the improvement io the busiaess sita－ ation．Subscriptions to origioal i＊ste debenture certificates amounted to $\$ 13.1 \times 324$ ），of waich $\$ 13.123,219$ was taken．＂
New England RR．The manner in which this road is agoorolited is stated in the report as follows：＂ Ch New Eagland R tilroad Cumpany，at the writing of this state－ ment，is in possession of the property formerly knowa as the New York \＆New England．Its lines reach maay points in southern New England which are als，served by the roads of this company．At moat of theze points sap ir ste organiz h－ tions are maintained．It is adparent that if the management of the two properties is unified the expenses of each cal be diminished materialiy by the consolidation，upon equitable terms，of agencies，yards and freight houses at thege p ints， and the customers of each c smpany can enjoy the benerits of the facilities belonging to both．The properties will then yi－ld the best results to each corporation and to the public．Yuav directors have therefore accepted an offer for the delivery prior to the annual meeting，of a majoricy of the capital stock of the New Eagland Railroad Company，an 1 have also purchased $\$ 5,000,000$ of its ne $\pi 5$ per cent moragage boads． But it is not prooos to mike any coasulidation with，or lease of，the New England Railroad．＂
Stamford Street $R R$ ．－The report also confirms the rumor that the company has secured a cuntrolliag iaterest ia the

Stamford Street RR, Co. and proposes to develop that property in close relationship with its own property.
Nantasket Beach Branch -Of the electrical

Nantasket Beach Branch -Of the electrical equipment of the Nanlasket Beach road the statement says:
The experiment has demonstrated that power gener ated in a stationa y plaut and transmitred by electrical ageney can be successfally used in the operation of a standard railroad. The current expenses
for fuel inde te that this result is economily obtained. Power thus transmitted is e pable of indefinite subdivision and is tharefore most
available for frequent car service. The comiae cial resmit depeads available for frequent car service The comiae cial resnit depeads power station wione
tri ity will b a promptly adopt d by the companv at other points on its
lines. With a rod free from grade erosslag it lo not too minth to expect its ultimate application wherever the busiuess justilles a flequent
train service and. it is hoped, without the use of an overhead trolley.
Steamship Stock.-The road now holds the entire stock of the Fall River Line and 18,233 of the 25.000 shares of the Providence \& Stonington Line.-V. 61, p. 559.

## GENERAL INVESTMENT NEWS

Reorganization Plans, etc.-The following is an index to all statements relating to defaults, foreclosure sales, reorganization plans, reorganization committees, payment of coupons, and receiverships, of the priacipal companies, that have been published in the CHRONICLE since the last editions of the Investors' and the Striget Railway Supplements were issued, all earlier facts of this nature being set forth therein. It does not, however, include matter in to-day's CHRONICLE.
The following abbreviations are used: Plan for reorganization or readjustment plan; coup. for coupon payments; def., for default; Com. for committee.

Alabama (reat Sonthern Ry -Southern Ry. - Change of elected this week to fill a majority of the places on the board of directors of the Alabama Great Southern Ry Co., which property therefore formally goes under the control of the Southern Rallway system. It will be operated as an independent property.-V. 61 , p. 569.

American Spirits Manufacturing-Distilling \& Cattle Feeding - Greenhut-Morris Settlement. - The following from the New York Times is pronounced to be a substantially correct statement of the settlement made this week with the Greenhut-Morris interest:
Acceptance of the reorganization plan in full and installation of the American spirits Manufacturing Company as successor; depositing 1,500 shares of certificates now controlled by the Greenhut-Morris opposition in New York with the holders of the majority interest; sur-
render of $\$ 1,000,000$ bond issue at 50 cents on the dollar; withdrawal ref all pendiag suits, including the litigation before Judze Beekman in the New York courts, attacking the purchase by the Reorganization Commitcee, the suits for the recovery of damages under cattle-feeding contracts by Nelson Morris, and the cessation of litigation to attempt the recovery of distilling plants by individual distillers.
The property has been turned over to the American Spirits Manufacturing Co, , but when the new securities will be iss ued is uncertain.

The Chicago Times-Herald says: "Greenhut and Morris will receive 55 cents on the dollar for the $\$ 800,000$ of bonds they hold and Greenhut will be paid $\$ 2850$ per share for the stock which he holds in the old company. An amicable arrangement has also been made with reference to ground leases of s)me of the property." $-\mathrm{V} .61, \mathrm{p} .558$.

Atchison System-Chicago Santa Fe \& California Ry.Suit for Interest.-At Toneka, Kan., William C. Osborn and Charles Guthrie have brought suit in the United States District Court against the receivers of the Atchison to compel payment of coupons on the Chicago Santa F\& \& California 5 per cent bonds for $\$ 629,000$, the outstanding portion of the loan for $\$ 15,350,000$, of which the balance is owned by the Atchison, having been exchanged for Atchison bonds in the reorganization of 1889. These coupons remain unpaid, although Judge Caldwell is claimed to have ordered their payment some time ago.-V. 61, p. 557.
Bangor \& Aroostaok RR.-Extension.-The branch from Oakfield on the main line to Ashland, a distance of 40 miles, it is expected, will be completed by November 1. The county of Aroostook, Maine, voted the B. \& A. a subsidy of $\$ 228,000$ towards the building of this branch line.-V. 60, p. 794.

Buy State Gas. - Increase in Stock.-This company announces an increase in its capital stock from $\$ 5,000,000$ to $\$ 15.000,000$ to acquire "certain gas properties," oy which some suppose the Brookline Gas Co, is meant. The stockholders are no'ified that they have the privilege of subscribiag prior 10 12 M . Oct. 7 for two shares of the $\mathrm{n}-\mathrm{w}$ sto k for each share held Sept. 27 at the market price of $\$ 10$ per sh are,

The following explanatory letter accompanied the announcement:
Sirs-Negotiations have bzen pending for a coasiderable time look
ing toward the acquirement of certain ing toward the acquirement of cert din gas propertios which it is mani-
festly for the interest of this fesily for tie interest of this o mpany th owa and onatrol. A move-
ment to place a lay ge fund in the treasury of this company has its inception in the desire to iucrease the proflitable businessof the oompany.
$-\nabla .60$, p. 873.
Balt Ry.-Union Ry. (Chattanooga, Tenn.)-New Company; New Securities. - The Union Railway Company has been reorganized by the formation of a new company under the name of the Belt Railway Company. The capital of this company is fixed at $\$ 300,000$ and it will have a first mortgage of $\$ 300,000$, bearing interest at the rate of 3 per cent for two years from July 1, 1895, 4 per cent for two years, and thereafter 5 per cent, and an incume mortgage for $\$ 24,000$, the income bonds to bear interest at the rate of 4 per cent, if earned, and from July 1, 1903, to become a fixed. charge, the company, however, having the right at any time to retire them at par. The new company will be leased for fifty years to the Alabama Great Southern Railroad Co at a price sufficient to guarantee the interest on the bonds issued. - V. 61, p. 112

## Caroliña Cumberland Gap \& Chicago Ry.-Foreclosure

 Sale. -The sale is advertised for October 29.Chicago G is-Plan of Consolidation.-A committee consisting of Frederic P. Olcott, Charman; Roswell P. Flower, Anthony N. Brady, Walcer Ferguson, C. K. G. Billings and Wm, K. Campbell, with J. N. Wallace as Secretary, 54 Wall Street, New York, has issued the following statement to holders of certificates of the Fidelity Insurance, Trust \& Safe Dep sit Company of Philad-lphia:
The questions which have been raised as to the legality of the arrangement under which the Fidelity Company holds the deposited
stocks of the Chicago Gas Companies, and the resulting linigation stocss of
render it advisable aud necessary that a plan should be adopted by which rour ingats shall be maintained and preserved, and the existing difficulties removed At the request of holders of a large amount of Fidelity Company certitucates, we have undertaken to act as a commitiee undre an agree日ent and plan of consolidation filed with the Central Trust Company of New York, dated October 1, 1895. The planits whose properties are repre ented bs the Fidelity Company certificates, so as to constitute one corporation under the laws of the State of Hinois, and after making proper provision for the nrotection of tie security of the guaranteed mortgage bonds, the issue of new certificates entitling the registered owners and holders thereof to the same proportional interest in the properties as is now represented by the Fidelity Company certiticates.
indorsed, with the Central Frust Company of New York, No, $5 t$ Wall Street, New York, under sad agreenent, on or before October 17, 1895. Negotiable receipts will be issued.

The agreement referred to is merely a legal document authorizing the committee to use the stock deposited to effect a consolidation of the properties in whatever manner a majority of the committee shall deem best. No change, however, can be made which shall involve the acceptance by any depositor of less than his proportional share in the stock of the consolidated company. The committee may borrow money to carry out the consolidation but shall not have power to bind any depositor for the payment of any assessment.- V . 61, p. 558.

Choctaw Oklahoma \& Gulf RR.-Extension Opened -The extension from South McAlester to Oklahoma City, a distance of 120 miles, was completed last week, giving the company a direct line, about 224 miles in length, from Wister, I. T., to EI R $\leftarrow$ no. As stated last week the Little Rock \& Memphis reorganizers propose to build an extension of their road to Wister, which extension if built would afford the Choctaw company a direct connection to Little Rock and the Mississippi River. The company's prospects for traffic, now that its line is completed, are said to be encouraging, contracts having been made to supply the Atchison and Rock Island roads with coal. These two contracts, it is claimed, will require at least 150,000 tons a year. Commercial sales in Kansas and Nebraska are estimated at about 100,000 tons annually. A large traffic from lumber is also said to be assured.-V, 61, p. 516.
Fitchburg RR.-New Stock.-The Massachusetts Railroad Commissioners announce a hearing Oct. 9 on the petition of the Fitchburg RR. Company for authority to issue 3,600 shares of preferred stock for the purpose of consolidation with the Brookline \& Pepperell, the Brookline and the Brookline \& Milford railroad companies.-V. 61 , p. 467 .
Georgia \& Alabama-Savanuah Americus \& Montgomery -Securities Authorized.-At Americus, Ge, Sept. 30, the stockholders of the Georgia \& Alabama authorized the new mortgage securing the preference bonds and first mortgage consuls. The Baltimore Trust \& Guarantee Company is the mortgage trustee.
Prospects and Sale of Securities.-The following is furnished the CHRONICLE from an official source :
Out of a total lssue of $\$ 3,350,000$ first mortgage bonds of the Savan, the Reorganization Committee. A majority of the old bondholders exercised their privilege to subseribe to the $\$ 1,675,000$ preference bonds and the underwriting syndicate has assumed the balance. This sale
gives the company about $\$ 1,700,000$ available funds, of which $\$ 700$,-
-000 is to be used only for the purpose of extending the road to Savan
nak, where ample terminals are being arranged for. The nah, where ample terminals are being arranged for. The
length of the road from Jontomery to Savannah will be 340 miles, of Which 265 miles is now in full operation. On the present basis of gross earnings, and a normal ratio of operating expenses, the net earn
fngs of the company, ev on in advance of its extension to Savannah, will be suffielent to piy about three times over the interest on the trst mottgaga profe
Y. 61 , p. 470 .
Houston City Street Ry.-Foreclosure, Etc -It is reported from Houston that a foreclosure suit is about to be instituted. The resignation of O. M. Carter as President has been accepted and Albert N. Parlin of Boston has been elected in his stead.-V. 61, p. 281.
Internationsl Bridge \& Tramway.-Foreclosure.-The Holland Trust Company bas filed a suit against this company of Laredo, Texas, for the foreclosure of the first mortgage for $\$ 80,000$.

Jarvis Conklin Mortgage Trust Co.-Total Indebtedness.Charles Steele, special master appointed to take proofs con-
cerning the indebtedness of this company, has filed his preliminary report in the United States Circuit Court. It shows that on September 28, 1893, when the receivers were appointed. the indebtedness amounted to $\$ 8,38844964$ with a convingent liability upon guaranteed mortgages and corporation bonds of $\$ 10,506.895$. May 31, 1895, the actual indebtedness amounted to $\$ 7,751,63688$ and the contingent liability to $\$ 3,746,88038$, The greater part of the obligations are held and represented by the North American Trust Company, 40 Wall Street, New York.-V. 60, p. 1058.
Kentucky Midland Ry.-Reorganization Committee-A committee has been formed representing the bonds of this company, Oharles E. Hoge, of Frankfort, Ky. being a member. There has bsen no date set for offering the road at foreclosure sale the second time.-V. 61. p. 420.

Lehigh \& New York RR.-Southern Central RR.-Reorganization Nolice.-The Southern Central reorganization committee notifies holders of trust company receipts for first consolidated mortgage bonds that upon application to the Metropolitan Trust Company they will receive the cash amounts due them under the reorganization plan. The certificates for the preferred stock will be ready for delivery after Oct. $15,-\mathrm{V}, 61$, p. 058.
Little Reck \& Memphis-Sale Postponed. -The foreclosure sale fixed for October 17 has been posiponed at the request of probable purchaser until November 25.-V. 61, p. 559.

Logansport \& Wabash Valley Gas.-Competition.-This company, which owns the natural gas system at Peru, Logansport, Decatur and Wabash in Indiana has given notice that gas after Oct. I will be furnished to consumers at onehalf the rates charged for the lass seven years. This is the result of the organization by Wabash citizens of the Wabash Fuel Company, which will be ready to supply gas through its independent line Nov, 1 at a 10 p:r cent reduction from the company rates.

Louisville \& Nashville RR. - Election of Directors, - At the annual meeting this week the following directors were elected: August Belmont, J. D. Probst. H. E. Garth, John I. Waterbury, J. A. Horsey, William Mertens, E. Mora Davison, Gardner M. Lane, John L. H $\mu \mathrm{lm}$, J. D. Taggart, M. H. Smith, Attila Cox and Rudolph Ellis. The new directors are E. Mora Davison, Attila Cox and Radolph Ellis, who sueceed Albert Fink, Thomas Rutter and Edmund Snith.-V. 61, p. 281.

Lowell \& Saburban St. By.-New Stock.-Touching this company's application for permission to issue 8400,000 new stock, of which $\$ 300,000$ for floating debt due to electrical equipment and $\$ 100,000$ for park purposes, the Massachusetts State Railroad Commissioners have authorized the company to issue at $\$ 115$ per share $\$ 176,500$ stock for floating debt and $\$ 63,500$ for park purposes.

Macon \& Birmingham RR. - Foreclosure Sale.-The sale of this road is advertised for Nov. 5. Copies of the decree may be obtained from the New York Security \& Trust Co.-V. 60, p. 795.

National Railway (St. Louis).-Reduction in Dividend.The quarterly Octover dividend will be $3 / 4$ of 1 per cent, in place of the usual $13 / 4$ per cent. The directors explain the reduction as follows :
The earnlags of the properties operated by the company since the panic of 1893 have deoreased as have the earnings of similar companies
 With the satety anil conservation of the several properties, and there-
by has been enabled to malutan the usual rate of divided. The de-
Frease in recelpts has continued to a recent date, but since July 1 have Frease in recelpta has continued to a recent date, but sfice July 1 have
ahown an ticrease. Besides paying for extenslons and new construc-
toon oser $\$ 200,000$ ont of the net

 above referred to continues, as now seems probinble, We may be able
to remme the dsial rate In the near futire.-V. 60 , D.
New England RR.- Trangfer Books,-The Reorganization Committee of the New York \& New Eogland gives notice that the transfer books for the reorkanization certificates
isased for preferred and common stack of the railroad comiasued for preferred and common stock of the railroad com-
pany will be closed at noon on Oct. 12, preparatory to tho pany will be closed at noon on Oct. 12, preparatory to the
issue of the stock of the New England Railroad Co.- V .61 , p. 517 .

New London Street Ry.-New Stock.-The capital stock will be increased Oct. 15 by the issue at par of one new share for each ten old shares to such stockholders of record Oct. 1 as may subscribe therefor on or before Oct. 15.
New Fork New Haven \& Hartford RR.-Control of New England $R R$ and Stamford Street $R y$. - In the annual repolt quoted on a previous page is an official statement regarding the manner in which the New Eagland RR. and the Stamford Street Railway are no w controlled. - V. 61, p. 559 ,

Norther a Pacific RR.-Change of Receivers.-On Saturday last at Milwaukep. Wis., Judge Jenkins appointed Edward H, McEenry of St. Paul and Frank G. Bigelow of Milwaukee, receivers, to succeed the old receivers resigned. Mr. Mc-
Henry is Chief Engineer of the company and Mr. Bigelow is President of the First National Bank of Milwaukee, in which ex-receiver Payne is a director. Herbert B. Turner, attorney for the Farmers' Loan \& Trust Co., express d his satisfaction with the choice. Subsequently Judge Sanborn at St. Paul confirmed the appointment for the Minnesota District.
On Tuesday Judge Hanford at Tacoma, Washington, refused to accept the resignation of the old receivers which was tendered last week, and because of their failure to obey the court and to file reports removed them from office. In their stead for the district of Washington he appointed Andrew F. Burleigh, heretofore lucal counsel of the Northern Pacific.
This appointment was afterwards confirmed by Judge Gilbert for the district of Oregon.
On Thursday Judge Lacombe, in the Circuit Court at New York, deferred action with reference to the resignation of the old receivers and the appointment of their successor until Oct. 11, saying
The Court does not see its way elear to acoept the resig nations of thereceivers upon the papers now before the Court. The case is too grave to be disposed of hastrly. The app in ment of other receivers
wonld onls tend to increase rather than diminish the present dimfenlwonld onls tend to increase rather than diminish the present dimfen-
ties. If thers should be an irreconcilable divergence between the fudges in the West, it would then be proper for this Court to aet. Any action that might tend to delay the coming together of the judicial minds of the West would be prejudicial to the interests of the company. Il have such coutidence in my brethren that I cannot believe
they will contlinue to disagree. I therefore postpone further hearing hey will eontinue to disagree. I therefore postpone further hearing
to the next motion day. Oetober 11, but in the meantime will be aocessible should exceptional ciroumstances require earlier action.
Strong efforts are being made to secure the appointment of one set of receivers for the entire road by the judges of the several districts, and it is hoped these efforts will prove successful.
The old receivers have been ordered to appear before Judge Hanford on a charge of contempt of court.
Trustee of Third Mortgage.-At Seattle, Wash., Charles B. Van Nostrund, of the general third mortgage bondholders committee, has filed a petition asking that he be made a party to the foreclosure suit, with the same effect as if he had been made a party to the bill. Mr. Van Nostraud alleges that the Farmers' Loan \& Trust Company, being trustee of the consolidated mortgage as well as of the general third mortgage, is obliged to serve conflicting interests. Corsequently, in behalf of the $\$ 2,000,000$ of bonds which his committee represents, he asks that he be made a party as aforesaid to the forpelosure suit.
Land Grant.-A press dispatch says the Seoretary of the Interior in Washington has approved grants of lands to the Northern Pacific amounting to $1,837,478$ acres.-V. 61, p. 559.

Northern Pacifle RR.-Central Washington Ry,-Mortgage Trustee Etc.-At Spokane, Wash,, Sept. 29, Judge Hanford of the United States District Court removed the Farmers' Loan \& Trust Co as mortgage trustee of the Central Washington Railway and substituted in its place the Knickerbocker Trust Company as requested by a majority of the bondholders. He also made Charles B. Chamberlain of Spokane sole receiver.

A press despatch from Spokane to the New York Times says:
A very strong effort is being made by business men of this city to have the bondholders take ofarge of the road and rua it as an independent line. The road runs through one of the most productive parts of Eastern Washington, and if the bondholders take charge of the road and extend it to the coast, it will give them co ntrol of a large tonnage
of grain from all of Eastern Washington and Northern Idaho.-V. 61 , of grain

Omaha \& St. Lonis-Receivers' Certificates.-An order has becir made in the United States Circuit Court authorizing Receiver J. F. Barnard of the Omaha \& St. Louis Railroad Co. to purchase 450 freight cars, capacity 60,000 pounds each, and two heavy engines. The new equipment will cost $\$ 260,000$, Which is to be raised by issuing receivers' certificates. No date for the foreclosure sale of this road has yet been fixed, Vol. 60, p. 712.
Oregon Improvement.-Default.-In view of the default which occurred Oct. 1 on the consolidated mortgage 5s, President Elijah Smith has issued a circular stating :
The financial condition of the sompany on the Pacifle Coast, in eludng the stamanhip and railroad companies, any of was as follows:
which is owned by the Oregon Improvement Company, Cash. Coal on haud at ait depots.

It is understood that the stockholders' protective committee (see vol. 60, p. 930) will also issue a cis cular.-V. 61, p. 569.
Oregon Railway \& Navigation-Sale of Collateral -The sale of the set urnies deposited in trust for the collateral trust bonds has been adjounned to Tuesday, Oct. 15, 1895. An article on the compai y's earnings was in the thitorial department of last week's Chronicle.--V. 61, p. 517, 536.

Oregun Short Line d Utah Northera Ry - Union Pacific Ry.-Decree of Foreclosure.-At Cbeyenne, Wyo., Sept. 27, Judge Riser signed a decree of fortclosure in the case of the American Loan \& Trust Company vs. Oregon Short Line \& Utah Northern. This is confirmatory of decrees already rendered for the Oregon and Utah districts. Decrees in other districts are yet to be obtained before the road can be scld,
Utah Southern Bondholders' Committee-At the request of the holdtrs of a large amount of the first general mortgage and extension first mortgage bonds, Alexander H. stevens, Samutl Carr, Isaac H. Bromley and Peter B. Wyckoff, with George S. Clin, Secretary, 195 Broadway, New York, have undertaken to act as a committee for the protection of the bondholders and the enforcement of their rights. Holders are urged to deposit their bonds wichout delay with the Mercantile Trust Company of New Yurk or the Uld Colony Trust Company of Boston, under an agreement, copies of which may te obrained from either of the trust companies or from the steretary of the committee. See advertisement on another page.-V. 61, p. 517.
Pacifle Railroads.-Report of $U$. S. Commissioner.Gen. Wade Hanp on, C mmissiover of Railroads, in his anuual report to the Secretary of the Interior says in part that in the hard times it appears the gross receipts of the Union Pacific system were reduced $\$ 1,000,000$ a month below the normal; that a casi-iron rule as to payments cannot be observed, and he thinks there should be a flexible adjustment of annual payments to correspond with diminisued earnings. He thinks that the Thurman Act will be found to justify the expectation of its framers if the following anendments are made:
First-To embrace within its provisions all Pacific roads which have eceived from the United States a loan of its bo tion.
Secon d-To provide that 50 per cent instead of 25 of the net earnngs be retained
Third-To extend the debt until it shall have been discharged as provided.
rom a sub To provide that if any of the companies divert business attached to the sub an msubsidized road that the conditions whioh subsidized live, in ordtr that the rights of the United States may be prot eted. As an alternalive he recommends that a commission be appointed by the President to settle the indebreanness of the bondaded railruads. He commends the order of the Treasurs Department Which directs that compensatory services rendered the Government by the receivers of the roads in cash, and not retained in the treasury, as oimerly.

He also says :
The results of the past two years have shown that during a period of financial and indusirlal depression it would be impossibie for the Union Pacitic Company to meet the annual Hixed charges, in addition to other necessary and inevitable expenses, oi such an amount as
would be required to discharge the debt to the United states in fifty Would be required to discharge the debt to the United states in fifty years at s yer cest. af ploposed in the Reily bill, or even $\downarrow$ yer cent,
which the sepresentalfes of the company were understood to be willing to accept. 8ome regard should be had for such conditions as have existed and which are likely to a ise again. - New York Sun.- $V$. 61, p. 518 .
Peoria Decatur \& Evansville. - New Directors, Etc.-At the annual meeting ou the 1st inst. at Peoria, three directors whose terms expired were replaced by John L. Lamson, William E Suong and Jobn H. Prall. The latter represents the minority stock interest. A plan of reorganization is being formulated which it is understood will take care of the stock on fair terms. The foreclosure proceedings are not being delajed, as has been heretofore stated.-V. 61, p. 569 .
Pine Bluff \& Eastern RR.-Receiver.-S. W. Fordyce, President of the St. Louis Southwestern RR, has been appointted receiver of the P. B. \& E. ruad, exteadiag from Rob Roy to English, Ark., 23 miles. F. M. Gilleıt, of New York, is President.
Pittsburg \& West End Passenger-Pittsburg Crafton \& Mansfleld Traction.-Guaranty. The stockholders of the Pittsburg \& West End Passenger Ry, have passed a resolution authorizing the company to guarantee the $\$ 250,000$ bonds

18sued by the Pittaburg Crafton \& Mansfield Traction UJ., an extension of the West Ead's system.

Puliman Palace Car.-Capitalization of Surplus - Rumors are current that at the annual meeting Oct. 17 a proposition will be made to capitalize some part of this e mpany's surplus which June 30, 1894, a mountt to $\$ 26,042,606$ It is kuown that some monihs ago a plan was uoder consideration having in view the formation of a company to take over the Pullman Company's real istate, and the distribution of the new company's s luck as a scr'p dividend to the Pullman stock holders. The present rumors refer to this plan, but whether they have any basis in fact remains to be soen. The Pullman Company owns in the town of Pullman 500 acres of land, and the "real esta e and plant" there is valued in recent reports at about $\$ 8,000,000$, The company owns alsn all of the shares of the Pullman Land Association, proprietor of 300 acres of land adjoining those of the car company in the town.-V. 60, p. 1010 .

San Diego Land \& Town.-Reorganization Committee. The following are a reorganization commites: B. P. Cheney, C. W. Shattuck, E. H. Mason and W. L. Frost, with power to add to their number.
Seattle Consolidated Strect Ry.-Reorganization Plan.The reorganization committee, consisting of N. W. Harris, All $n$ B. Forbts and Henry S. Boutelle of Chicago ; H. W. Bartol of Philadelphia, and dlbert L. Chester of Westerly, R. I., has prepared a reorganizati n plan, which provides that a new company shall be formed after foreclosure sale and shall issue the following securities
New flrst mortgase brids to be dated Oct. 1, 1895, and for
the first four sears to be non-cum lative 6 per cent in-
comes, and afier Oct 1, 1899. to bear Hxed interest at 6
per cent yearls, sald bonds any coupon dny. Total authorized issue....................... $\$ 1,000,000$ To be applied as follows For purposes of reorganizatio

457,000
For hettermen s [interest on thesi till Oct 1,1899, to be preferred and to be it tixed charge] ......................... 68,000 For new construcion or for the purchase of any other rallway in Seattle on terms below mentioned

475,000 Income second mortgage bonds, series A \& B. "A" preforred as to pincipal and interest) 6 per cent, oumulative. Said bonds are to bear fixed interest at it per cent after the new company has earned and paid full interest at par. They may ne applied as follows
Series A-
Tor retire new 1st mortgage bonds at $105 . . . . . . . . . . . . . . . . . . . . . . .11,780$ Selies B-
For purposes of reorgan'zation about.......................
For compens 1 ion to present flrst mortgage bonds for For compens ifon to present first mortgage honds for
all loss of interest (difference between rate which shall all loss of interest (difference between rate which shall
be paid and 6 per cent) to Oct. 1,1899 , at $\$ 2$ for $\$ 1$ of Series A or B for new construction. Uncertain.
See Note Stock. 1,000,000
Note.-First mortgage provssions.-For constructing new lines of railway and purchasing any other lines and plants in seattle at su h
prices as shall be determined upon by said new onmp thy, not toexceed $\$ 475,000$ of satd new firsi mortgace may be issued, provided "that the committes shall in e ch case unavimousily cousent to the purchase; and p ovided further that none of said bonds from $\$ 525,000$ upwards shall be issued for new coustruction at a greater rate than 85 per oent or the actual cost of such new eonstruction (construetion to include paving and increased power oapacity when by the committee
d emed neces ary), or be issued for construction nuless the net earnd emed neces ary), or be issued for construction unless the net earn-
ings of the new company for the six months then last past shall be equal to at least 10 per cent er annum uoon its first mortgage bonds then outstanding, together with the new bonds then proposed to be issued.
Second mortgage provisions.-"Said new second mortgage shall provide that further bonds may be issued thereunder of either series A or B for he purpose of retiring prior lieus, and upon the retirement of all prior liens then for extensions, on the same terms as are flxed in said new inst mortgaze for extensid securities and floating
be exchanged as follows for new securities:
Holders of Pay - and receive- " $B$ " bands, Stocte. First mortgage $\$ 1.000$.. None. $\$ 1,000$

 Stook, $\$ 100 \ldots . .$.

For assessment.
The old securitits are to be deposited with the Illinois Trust \& Savings Bank of Chicago and the committee has the power to decide whether or not the amounts deposited are sufficient to jusify the carrying out of the plan. The committee's address is 204 Dearborn St., Chicago, IIl.-V. 61, p. 569.
Tennessee Coal Iron \& RR.-Sale of Bonds.-This company bas sold to a syndicate represented by Moore \& Schley $\$ 440,000$ of the consolidated mortgage 6 per cent bonds of the De Bardele ben Company, it is reported, at 95. By this operation it is eaid, all of the floating debt excent that incidental to the transaction of current business is funded. -V .61 , p. 153.

Tex:s Trunk Ry.-Sale Confirmed.- The foreclosure sale of his road to Edward H. Parder. of New York, for $\$ 250,000$, has been confirmed. -V. 61, p. 241 .
Union Pacific RR.-Report of U.S. Commissioner-Under the heading "Pacific RRs." is given a bi ief statement of the recummendations made by U. S. Commissioner of Railroads Wade Hampton in his annual report.

Coupon Payment-The anvual parment of $\$ 72,000$ due Oct. 1 on the principal of the equipment bonds, Series A, and interest on the three Series A, B and C, due October, has been made.-Vol. 61, p. 518.

## EQUIPMENT

The equipment at the close of the year ended June 30,1895 , consisted of twenty thousand, one hundred and four cars, and 540 locomotives, as will be seen by the following statement.
There has been charged to Operating Expenses for the year ended June 30,1895 , the sum of $\$ 2,13539268$ for account of building and maintenance of equipment. This amount is made up of $\$ 1,63 \% .41335$ expended during the year, and $\$ 502.97933$ of deferred renewals, which will be expended during the succeeding year. The above charge shows an increase of $\$ 136,73138$ in excess of the charge for the year ended June 30, 1894.
There were built in the Company's shops; and charged to Operating Expenses, twenty-two cars, consisting of three baggage, one postal, three express, two box, ten flat, one gondola drop bottom, one coke, one furniture car, and one pile driver. This makes the equipment July 1, 1895, as follows:

CARS. - At the close of the fiscal year ended June 30, 1894,
The company owned.
20,583
Bought and built during the year.
FROM WHICH DEDUCT
Cars destroyed during the year-
 Freight cars
Pile driver.

-The American Engineer and Railroad Journal, which has been issued monthly, will after November 1 bo issued biweekly and will appear every alternate Thursday.

## The $\mathfrak{C o m m e r c i a l}$ Itmes.

## COMMERCIALEPITOME.

Friday Night, October 4, 1895.
A satisfactory movement for general merchandise is re ported, with a noticeable increase in demand for seasonable goods. Collections are as a rule good and country merchants manifest an inclination to renew supplies upon a fairly liberal scale. Export trade is averaging quite as full as a week ago. Speculation in wheat has been fair and in cotton very active, the Southern staple attracting attention in conssquence of continued belief in serious crop shortage. Weather has been favorable for an early and free movement of corn from growers' hands. An excellent milling demand prevailed for wheat, but the call from exporters was slow. Fall wheat seeding is still retarded in many localities by drought.
The following is a comparative statement of stocks of leading articles of merchandise at dates given :

|  | Sept. 1, 1895. | $\begin{aligned} & \text { Oct. } 1 \text {, } \\ & 1895 . \end{aligned}$ | Oct. 1, $1894$ |

For lard on the sput the demand has been slow and prices bave weakened slightly, closiog quiet at $6.221 / 6 \mathrm{n}$, for prime Weatern, 6o. for prime City and 6.650. for retined for the Continent. Speculation in the local market for lard futures has continued at a standstill and prices have weakened slightly in sympathy with a decline in corn, closing dull.

DATLT OLOATMO FBTOES OF LARD FOTURES.

Pork has been in moderate requeat for export to the West Indies and prices have held steady, closing at \$10@\$10 25 for mess. Cut meats have been quiet. Tallow has advanced, but the close was easy at 43 s . asked. Cotton-seed oil has advanced, closing firm at $273 / \mathrm{gc}$. for prime yellow and 263 (@) 27 c , for off-grade yellow. Burter has advanced. Cheese has been steady. Fresh eggs have advanced.

Coffee secured more attention and increaszd in value, for the better qualities in particular. Rio quoted 161 d c , for No. 7 , good Cucuta 183 jc , and standard Java 27ल271/2c, Speculation for future delivery embodied very little new investment but further covering of short contracts sustained and stimulated values until the close, when a realizing effort created a little weakness. The following were the final asking prices:

Raw zugars continue in good demand, offerings are limited and the market very strong Centrifugal quoted at $35 \%$. for 96 -deg. test and muscovado at $33-16 \mathrm{e}$, for $89-\mathrm{deg}$. test. R fined sugars are steadily advancing and production is largely oversold; granulated quoted at 434 c . Teas steadier.

Kentucky tobacco has been in better demand and firm for desirable grades, closing at 21/2@5c. for lugs and 5@14c. for leaf. Seed leaf tobacco has been in limited demand and steady. Sales for the week were 1,945 cases, as follows: 75 cases 1592 crop. New England Havana seed, 30@40c.; 400 cases 1894 crop, New England Havana seed, $15 @ 22 \mathrm{c}$. $; 50$ cases 1893 crop, New England Havana seed, 4c.; 150 cases 1894 crop, New Enyland seed leaf, 18(029c.; 250 cases 1894 crop, Zimmers. 11(G121/c ; 100 cases 1893 crop, Zummers, $111 / 2$ @ $121 / \mathrm{c}$ c; 840 cares 1894 crop. Pennsylvania Havana seed, 11 (6) $150 . ; 125$ cases 1892 crop, Pennsylvania seed leaf, $9 @ 111 \%$.;
80 casss 1893 crop, Flats, $14 \mathrm{c} ; 200$ casea 1894 crop, Flats. $10 @ 0$ 80 cases 1893 crop, Flats, 14 c ; 200 cases 1894 crop, Flats, $10 @$
$18 \mathrm{c} . ; 75$ cases 189 i crod, Wisconsin H ivana, 10 c ., and 100 cases 1891 crop, Gebharts, $10 @ 11 \mathrm{c}$; also 2,000 bales Havana, 65 c . © $\$ 110$ and 250 bales Sumatra, 40 c . © 8980 in bond.

The market for S:raits tin has been fairly active and prices have advanced, closing firm at $1470 @ 14.75 \mathrm{c}$. Ingot copper has been firm, closing at $12 \cdot 25 \mathrm{c}$, for Lake. Lead has been steady, clcsiog at 3.85@3871/2. for domestic. Spelier has been dull, closing at $4 \cdot 15 \times 4 \cdot 200$. for domestic. Pig iron fairly active and firm, closing at $\$ 12$ (a $\$ 1450$ for domestic.

Refined petroleum has been unchanged, closing at $7 \cdot 10 c$, in bbls, 4.60 c . in bulk and 7.50 c . in cases; crude in bbls bas been nominal; naphtha, $9 \cdot 25 \mathrm{c}$, Crude certificates have b en dull, closing at $\$ 124$ bid. Spirits turpentine has declined, closing at $24 @ 281 / \mathrm{c}$, Roeins steady, clcsing at $\$ 145 @ 3150 \mathrm{fcr}$ common to goed strained. Wool and hops dull.

## COTTON

Fridat NigHt, Ociober 4, 1895
The Movement of the Grop, as indicated by our telegrams from the South to-night, is given below. For the week endin 8 this evening the total receipts have reached 217,679 bales, against 149,139 bales last week and 91,080 bales the previous week, making the total receipts since the 1st of Sept., 1885 , 519,239 bales, against 728,664 bales for the same period of 1891, showing a decrease since Sep.1, 1895, of 209,430 bales.

In addition to anove exports，our telegrams to－night alse give us the following amounts of cotton on shipboard，nol cleared，at the ports named．We add similar figures fos New York，which are prepared for our special use by Messrs， Lambert \＆Barrows，Produce Exchange Building．

Speculation in cotton for future delivery at this market continues active，with an exceedingly feverish tone prevailing． The outside trading public invested freely upon apparent stronger evidences of crop injury，and the force of demand carried prices to a still higher plane than last week，but a large portion of the old＂long＂interest liquidated at the ad－ vance．Saturday opened with a drop of 14 points，which at－ tracted new buying orders，and the decline was quickly re－ covered．Oa Monday the advices from abroad proved much better than had previously been calculated upon and that，to－ gether with reports of frost damage，attracted very liberal demand and stimulated an advance of 28 points，of which 5 points were afterwards lost，but the close ruled firm in ton－ During Tuesday buyirg orders were less plenty，and after an opening fluriy of 7 points cost sharply shaded and closed at 16 ＠18 points net dtcline．During Wednesday there were several fluctuations，ranging from 8 points advance to 17 points de－ cline from highest of the day，finally closing at 3＠4 points net decline；but yesterday upon renewal of light crop esti－ mates and stronger cable advices demand cam $\rightarrow$ in again with great force and simulated an advance of 25 points，closing firm．To－day，however，under evidences of an increased crop movement the tone was easy and prices averaged 8＠10 points lower．Cutton on the spot closes dall at $91 / 8$ ：for mid－ ding uplands
The total sales for forward delivery for the week are 1，975．10 0 bales．For immediate delivery the total sales foot up this wee： 21.801 bales，including－for export， 2.301 for consumption －for speculation and 19,500 on contract．The following ar the official quotations for each day of the past week－ September 28 to Oc ober 4.
Rates on and off middling，as established Nov．22， 1895 by the Revision Committee，at which grades other that middlirg may be delivered on contract：

The closing quotations to-day (Friday) at other important Southern markets were as follows.
 REOEIPTS FROM TEE PLANTATIONS.-The following table indicates the actual movement each week from the plantstions. The figures do not include overland receipts nor Southern tonsumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which movement from the plantations of that part of th
fally reaches the market through the outports

| $\begin{aligned} & \text { Wook } \\ & \text { snainm- } \end{aligned}$ | Recelpts at the Ports. |  |  | St'k at Interior Towns. |  |  | Rec'ptafrom Plant'na |  |  |

| t. | ges, 1 | 207, $\mathrm{cl}^{16}$ | 217679 | 158 | 151.907 | 1. | 451.980) | 200.280 | 208,8 |

The above statement shows: 1.-That the total receipts from the plantations since Sept, 1, 1895, are 62 2,277 bales; in 1894 were 823,298 bales; in 1893 were 616,410 bales.
2.-That although the receipts at the outports the past week were 217,879 bales, the actual movement from plantations was only 268,830 bales, the balance going to increase the stocks at the interior towns. Last year the receipts from the plantations tor the week were 290,280 bales and for 1893 they were 251,980 bales.
Overland Movement for the Week and since Sept, 1.We give below a statement showing the overland movemen for the week and since September 1. As the returns reach us by telegraph late Friday night it is impossible to enter so largely into detail as in our regular monthly report, but al the principal matters of interest are given. This weekly publication is of course supplementary to the more extended monthly statements. The results for the week ending Oct, 4 and since Sept. 1 in the last two years are as follows:

| ber 4. | 1895. |  | 1894. |  |
| :---: | :---: | :---: | :---: | :---: |
|  | Week. | $\begin{aligned} & \text { Since } \\ & \text { sept, } 1 . \end{aligned}$ | Week. | $\begin{aligned} & \text { Simed } \\ & \text { sept. } 1 . \end{aligned}$ |
| 8hipped- |  |  |  |  |
| Via 8t. Lon | 8,372 2,624 | 17,602 3,472 | 8,163 4,652 | $\begin{aligned} & 23,013 \\ & 10,212 \end{aligned}$ |
| Via Parker Cilty | 150 | 693 |  |  |
| Via Evansville. |  |  | ${ }^{173}$ |  |
| Via Loulisville | ${ }^{525}$ | 1,706 1,059 | 1,266 <br> 1,376 | 2,810 4,282 |
| Vla other route | 1,246 | 4,177 | 2,633 | 4,79 |
| Total eross | 13,552 | 28,709 | 18,269 | 45,318 |
| Deduct shipments Overland to N. \% |  |  | 2,303 |  |
| Between intmilior towns.......... | 2,615 | 320 | 639 | 966 |

| Came into sicht furing week. Total in signt Oct. 4... | 296,611 | 737,914 | 320,204 | 937,851 |
| North'n spinners tak'gs to Oot. 4 | 36,385 | 10,349 | 36,611 | 143,404 |

North'n spinners tak' $k s$ to Qot. 4.. 36,335

- Including movement by rail to Uanada.
It will be seen bv the above that there has come into sight during the week 296,611 bales, against 320,204 bales to the sa ne wreek of 1884, and that the decrease in ...ount in sight to-night ss compared with last year is 199,937 bales.

Weather Reports by Telegraph.-Our telegraphic advices this evening indicate that the weather conditious at the South the past week have favored the rapid gathering and marketing of cotton. Light frost oc surred in some sections, but no damage is reported.

Galveston, Texas.-Picking is approaching completion in Southwest Texas, and in Central and Northern Texas it is progressing very well. The weather has been very favorable and cotton has cpened rapidly. Some parts of North Texas report a new growth, though unless there is a very late frost it is not apt to mature. We have had rain on one day during the week, the precipitation reaching one hundredth of an inch. The thermometer has ranged from 58 to 86, averaging 72. Rainfall for the month of September one inch and eighty six hundredths.

Palestine. Texas.-It has rained on one day of the week, the precipitation being too small to measure. Average thermometer 67 , highest 86 , lowest 48 . Rainfall for the month of Septemoer one inch and five hundredths.

Huntsville, Texas.-We have had a trace of rain on one day of the week. The thermometer has averaged 69, the highest being 88 and the lowest 50 . During the month of September the rainfall reached one inch and ten hundredths.

Dallas, Texas.-Rain has fallen on one day of the week, the rainfall reaching ninety-six hundredths of an inch. The thermometer has averaged 65, ranging from 46 to 84 . Rainfall for September three inches and sixty-eight hundredths.

San Antonio, Texas.- It has rained on two days of the week, the rainfall reaching fifty-six hundredths of an inch. The thermometer has ranged from 54 to 86, averaging 70 During the month of September the rainfall was two inches and fity-seven hundredths.

Luling, Texas.-There has been rain on one day during the week, the precipitation being ten hundredths of an inch Average thermometer 68, highest 84 and lowest 52 . During the month of September the rainfall reached ninety-two hundredths of an inch.
Columbia, Texas.-We have had rain on two days of the week, the rainfall being two inches and seventy-four hun dredths. The thermometer has averaged 71, the highes being 92 and the lowest 50. Rainfall for the month of Sep tember three inches and seventy-six hundredths

Cuero, Texas.-There has been rain on two days of the past week, the rainfall reaching two inches and fourteen hunlredths. The thermometer has a veraged 71, ranging from 54 to 88. Rainfall for the month of September two inches and orty-five hundredths,
Brenham, Texas.-It has been showery on one day of the week, with rainfall to the extent of eight hundredths of an nch. The thermometer has ranged from 52 to 92 , averaging 2. September rainfall eighteen hundredths of an inch.

Belton, Texas.-We have had rain on two days of the past week, the precipitation being one inch and seven hundredths. Average thermometer 70, highest 92 and lowest 48. During the month of September the rainfall reached one inch and sixty hundredths.
fort Worth, Iexas.- We have had rain on one day during the week, the precipitation being sixty-five hundredths of an inch. The thermometer has averaged 68, the highest be ing 89 and the lowest 47. During the month of September the rainfall reached one inch and ninety-one hundredths.
Weatherford, Texas. - There has been rain on one day of the week, the rainfall reaching thirty-four hundredths of an inch. The thermometer has averaged 71, ranging from 48 to 94. During September the rainfall was one inch and thirtyive hundredths.
New Orleans, Louisiana.-There has been no rain the past week. The ther mometer has averaged 70. September rainfall one inch and ninety-seven hundredths.

Shreveport, Louisiana.-It has been dry all the week. The thermometer has ranged from 46 to 84, averaging 65. Sepember rair fall seventy-two hundredths of an inch
Columbus, Mississippi.-Telegram not received.
Leland, Mississippi.-Rain has fallen during the week to the extent of fifteen hundredths of an inch. There has been a light frost this week. Average thermometer $63 \cdot 7$, bighes 94 and lowest 42. During the month of September rainfall was five hundredths of an inch on one day.
Vicksburg, Mississippi.-Dry weather has prevailed all the week. The thermometer has ranged from 44 to 82 , averag g 64.
Little Rock, Arfcansas. -There has been but a trace of rain the past week. Average thermometer 61, highest 79, lowest 44.
Helena, Arkansas. - Cotton is being picked and marketed rapidly. We have had light rain on one day of the week, the precipitation being forty hundredths of an inch. Light frost on Wednesday. The thermometer has averaged 60, the high est being 76 and the lowest 42 . During the month of September the jainfall reached eighty-five hundredths of an inch, on five days.
Memphis, Tennessee.-The weather has been dry all the week, with light frosts on Monday, Tuesday and Wednesday mornings throughout this section, No damage reported Picking ar d marketing are active. The thermometer has averaged 604 , ranging from 44 to 78.2 . During the month of September the rainfall reached seventy-three hundredths of in inch, on seven days.

Nashville, Tennessee. - There has been no rain during the week. The thermometer has ranged from 37 to 82, averaging 58. September 1 ainfall six il ches and sixty-nine hundredths.

Mobile, Alabama.-Picking is active but the crop short. We have had no rain during the week. Average thermometer 69, highest 89 and lowest 50. During the month of September the rainfall reached one inch and sixty-eight hundredths.
Montgomery, Alabama.-Picking, marketing and selling are going on rapidly. We have had no rain in over three weeks. Frosts occurred in Northern Alabama on Monday. The thermometer has averaged 67, the highest being 79 and the lowest 54. During the month of September the rainfall reached seventy-four hundredths of an inch.

Selma, Alabama.-There has been no rain during the week. The thermometer has averaged 64, ranging from 44 to 85 .
Madison, Florida.-Moisture is badly needed to mature the top crop. Dry all the week. The thermometer has ranged from 55 to 94 , a veraging 70 .

Columbus, Georgia.-We have had no rain during the week. Average thermometer 67, highest 86 and lowest 47.
Savannah, Georgia.- We have had rain on two days during the week, the rainfall reaching two hundredths of an inch. The thermometer has averaged 71, the highest being 93 and the lowest 52. Rainfall for the month of September two inches and seventy-two hundredths, on nine days.

Augusta, Georgia. - The weather has been clear all the week. The thermometer has averaged 66, ranging from 46 to 91 .

Albany, Georgia.-Telegram not received
Charleston, South Carolina.-We have had no rain the past week. Average thermometer 70, highest 91, lowest 53. September rainfall six inches and ninety-four hundredths.

Stateburg, South Carolina.-Dry weather has prevailed all the week and at the close the weather is much cooler. The thermometer has averaged $68 \cdot 1$, the highest being 39 and the lowest 44. September rainfall eighty-three hundredths of an inch
Greenwood, South Carolina.-Cotton is practically all open and is being gathered rapidly. There has been no rain during the week. The thermometer has average 65 , ranging from 51 to 78 . September rainfall ten hundredths of an inch.

Wilson, North Carolina. - We have had no rain during the week. Light frost has occured but no damage. The thermometer has ranged from 42 to 86 , averaging 66 .

Che following statement we have also recerved by telegraph snowing the height of the rivers at the points named at 8 o'clock October 8,1895 , and October 4, 1894

* Below zero of gauge.
india Cotton Movement From all Ports. - The recelpt and shipments of cotton at Bombay have been as follows for the week and year, bringing the figures down to October 3.
bOMBAY RECEIPTS AND SHIPMENTS FOR FOUR YEARS.

The above totals for the week show that the movement from the ports other than Bombay is 1,000 bales more than the same weik last year. For the whole of India, therefore, the total shipments since September 1, 1895, and for the corresponding periods of the two previous years, are as follows:

| Shipments to all Europe from- | 1895. |  | 1894. |  | 1893. |  |

A considerable portion of the Sea Island cotton shipped w foreign porta goes via New York, and some small amounts via Boston and Baltimore, Instead of including this cotton fo the week in which in leaves the Southern outports, we follaw the same plan as in our regular table of including it when sctually exported from New York, \&c. The details of the shipments of Sea Island cotton for the week will be founr under the head "Shipping News," on a subsequent page.
Quotations October 4 at Savannah, for Floridas, common, $9 \mathrm{c} . \mathrm{i}$ medium fine, 12 c ; ; choice, $151 / 2 \mathrm{c}$.
Charleeton, Carolinas, medium tine, 19 to 20 c ; fine, 24 to 26 c ; ; extra fine, 25 c .

Litrgroon. Stock.-A re-connt of the stock of cotton at Liverpool was made on Saturday last, September 28, and it 154 bales, the actual stock being 1037 eatimated fizures of 154 bales, the actual stock being $1,037,154$ bales. The total of American was 924,933 bales, or 3,067 bales less than tha running count; and of all others the aggregate was 112,221 bales, or 3,221 bales more than the weekly estimate.
Juts Butis, Bagaisg, \&cc,-There has been only a moderate demand for jute bagging during the week under review, but the close is steady at $41 / 8 \mathrm{c}$. for $13 / 4 \mathrm{lbs}, 41 / \mathrm{car}$. for $2 \mathrm{lb3}$. and 5 c, for standard grades in a jobbing way, Car-load lots of standard brands are quoted at $41 / 2 \mathrm{c}$. for 13 4 lbs., 456 c , for 2 lbe, and $51 / \mathrm{cc}$, for $21 / 4 \mathrm{lbs}, \mathrm{f}, \mathrm{o}$. b, at Now York. Jute butts on the spot have been quiet on the bsuis of 1c. for paper quality and $11 / 2 \mathrm{c}$. for mixing. Bagging quality is nominal in the absence of stock. The deliveries of jute butts and rejections at New York and Boston during September were nil against 15,097 bales for the same month last year, and for the nine months the deliveries reached 382,963 bales against 202,194 balem in 1894. The aggregate stock in the hands of
importers and speculators at New York and Boston on September 30 was 2,300 against nil at the corresponding date in 1894, and the amount afloat for the United States reacher 50,405 bales against 28,414 bales last year.
Comton Movement and Flugtuations, 1890.95.-New York: Latham, Alexander \& Co.-(Twenty-Second Annual Edition.) - We are indebted to Messrs. Latham, Alexander \& Co. for a handsomely bound copy of the twenty-second annual issue of their very useful publication ( Cotton Move. ment and Fluctuations." The value of the book has been further increased by the addition of new matter, all the features of former editions nevertheless being retained. There are a number of articles of considerable interest specially prepared for the publication, among which may be mentioned a general review of the New York cotton market for 1894-95 by the publishers and a letter from Messrs, Ellison \& Co., on the cotton industry in Europe, in which they review the past season and remark uponthe prospects for $1895-96$. Mr. Ellison also contributes a paper on the cotton trade of India. Brief reference is made to the Cotton States Exposition at Atlanta and a short sketch of Mr. Julius Sterling Morton, U. S. Secretary of Agriculture, is given. Other articles cover the production and distribution of our cotton crop and Southern cotton manufacture. Re= marks explanatory of contracts for future delivery which appeared in previous editions are retained, as well as the form of contract in use on the New York Cotton Exchange. The statistical matter includes fluctuations of cotton for fiture deliv ery in New York and Liverpool for five years and extensive tables of receipts, exports, total crop, etc., brought down to the close of the cotton year of 1894-95. The publication is one which will no doubt prove very useful and interesting.
sHIPPING NEWs. - The exports of cotton from the United trates the past week, as per latest mail returns, have reached 42,381 bales. So far as the Southern ports are concerned, these are the same exports reported by telegraph and published in the Chronicle last Friday. With regard to New York we include the manifests of all vessels cleared up to Thursday.

## BREADSTUFFS

Friday. October 4, 1895.
Early in the week the demand for the trade brands of wheat flour was fairly active, owing to a further advance in the grain, and prices in some instances gained an additional 5c. per barrel; but subsequently demand became less active in consequence of a reaction in wheat, but prices were steadily maintained. City mills have been in fairly gool request at full values. Rye flour has been without change. Buckwheat flour has been in fair supply, but demand has been poor and prices have declined. Corn meal has been in fair demand for the choice grades and steady. To-day the market for wheat flour was quiet but held steady.

Speculation in the market for wheat futures was fairly active early in the week and prices advanced on $c$ on inued buy. ing by leading "shorts" both here and at the West to cover contracts, stimulated by stronger fore1gn advices, a disappointing increase in the visible supply, a large decrease in the world's weekly shipments to Europe and unfavorable weather both here and in Europe for the planting of the new crop. Sulbequently, however, weaker advices fron abroad prompted realizing sales by longs under which all of the improvement was lost. In the spot market a small business has been transacted with shippers and prices have advanced slightly. The sales yesterday included No. 2 red winter at $1 / 8 \mathrm{c}$. over Dec• f.o.b. afloat; No. 1 Northern at $1 / 8 @ 1 / 4$ c. over Dэc. f.o.b. aflost and No. 1 hard spring at $15 / 8 \mathrm{c}$. over Dec. delivered and $25 / 8 \mathrm{c}$. over Dec, f.o.b. afl at for old; also do. at $21 / \mathrm{c}$ c. over Dec, f.o.b afloat for new. To-day the market further declined under liquidating sales by "longs," prompted by a heavy movement of the crop at the Northwest and dull and easier foreign advices. The spot market was dull and easier. The only business reported was choice red winter on private terms. No. 2 red winter was quoted at Dec. price to $1 / 8 \mathrm{c}$. over f.o.b. afloat and No. 1 hard spring at $21 / 2 \mathrm{c}$. over Dec, foob. afloat.

'he total receipts at ports named in last table from Jan, 1 to Sept. 28 compare as follows for four years:

[^3] ending Sept. 29, 1895, are shown in the annexed statement:

The value of the New York exports for the year has been $\$ 6,859,000$ in 1895 against $\$ 8,770,811$ in 1894 .
A number of advances have been reported ia brown goods during the past week, and at the close 5 c . is generally asked for 4 -yard sheetings, $51 / 2 \mathrm{c}$. to $53 / 4 \mathrm{c}$. for 3 yard sheetings and drills and $53 / \mathrm{c}$. to 6 c . for standards. There is no material change in the demand, buyers in face of the difficuluy in placing orders restricting operations to immediate requirements. In bleached cottons the advance of Lonsdale
$4-4 \mathrm{~s}$ to $81 / \mathrm{c}$. has been the most noticeable former $4-4 \mathrm{~s}$ to 81 cc . has been the most noticeable feature; other
tickets are moving up to tickets are moving up to a parity therewith, business meanwhile being moderate wide sheetings are quiet at recent advances. Coarse colored cottons are strong and have made marked advances in prices in denims, ticks, checks, stripes, cheviots and plaids. Business is on a moderate scale, but stocks are well controlled. Kid-finished cambrics are firmer under print cloth influences and generally held on the basis of $3 \% \mathrm{c}$. for 64 squares. Fancy calicoos are quiet but firm; other regular prints are tending against buyers with an occasional advance in indigo blue and stirting prints. Staple ginghams have advanced to $51 / 2 \mathrm{c}$. for Lancaster \& Amoskeag makes; otherwise ginguams are unaterad. Print cloths nave ruled strong throughout the week, and after small sales at 3 3-16. extras close with nothing available in contracts under $31 / 4 \mathrm{c}$.

Woolen Goods. - The demand for men's-wear woolens and worstedo in light weights has again been of an indifferent character in the azgregate, although an occasional fair re-order demand has been rpported, chiefly in low-grade goods. Indications are not more promising that before for mediam priced lines, outsideof serges and Clay worsteds, which are well sold, and in these grades io cheriots and cassimeres the situation is still unsatisfactory. High-priced fancies are iu quiet request and generally firm in price. Overcoatings also are quiet throughout and featureless. Cloakings are in some request, chiefly in boull varieties. The demand for spring dress goods has been on a fair scale and a number of agents report satisfactory progress at firm orices in soft wool and worsted fancies and lustrous effects. Flannels are very ficm, with moderate sales, as are blankets. Carpets firm and in fair demand.
Forbign Dry Goods-Ia seasonable merchandise business has been quiet and cutefly of a cleaning-up character. The demand for spring lines in cotton and woolen worsteds and mohair dress fabrics continues sacisfactory, with prices tirm thr azhout and fair sales for next season are reported in silks, ribbons, hosiery, underwear, hnens, etc.

## THE DRY GOODS TRADE.

## New York, Ferday, P. M., October 4, 1895.

The upward progress of the market for staple cotton goods has been further attested this week by the numerous advances reported in brown, bleached and colored cottons, and that too in face of a continued moderate demand from the general trade. The cbaracter of the demand, bowever, appears 10 be quite a minor consideration just now, as the great majority of sellers are more concerned in keeping their obligations within restricted limits than in seeking for new business, and ale watching the course of the cotton market much more keenly than they are the aclions of buyers Raw ma terial in fact dominates the market for all staple goods to pretty nearly the entire exclufion of other influences, and cion where manufacturers are rapidly nearing the complu. present ravge of valuss, This fearure, as previcusly reported, has hitherto bren most noticeable in connection with Southern mills, but this week the Eastern mills in a number of instances have practically retired from the marker for the time being also, Cotton dreas fabrics have again been in quiet request, but the marketrules very firm, with cocasional goods departments contioue in strong contrast to cotton goods departments contioue in strong contrast to cotson
goods, as apart from a fair busicess in dress goods for spring the market is dull and featur-less,
Domestio Cortos Goods, - The exports of colton gonds from this port for the wepli ending Saptember 30 were 2,293 packages, Falued at $\$ 93.296$, their destination belng to the pointa apecified in the table below:

## Btate and City Departmənt.

## TERMS OF SUBSCRIPTION.

The Investors' Supplement will be furnished without extra charge to every annual subscriber of the Commercial and Financial Chroniole.

The State and City Supplement will also be furnished without extra charge to every subscriber of the Chroniole.

The Street Railway Supplement will likewise be furnished without extra charge to every subscriber of the Chroniole.
The Quotation Supplement, issued monthly, will also be furnished without extra charge to every subscriber of the Chronicle.

TERMS for the Chroniole with the four Supplements above named are Ten Dollars within the United States and Twelve Dollars in Europe, which in both cases includes postage.

## Terms of Advertising-(Per inch space.)

The purpose of this State and City Department Is to furnish our subscribers with a weekly addition to and continuation of the State and City Supplement. In other words, with the new facts we shall give, the amplifications and correetions we shall publish, and the municipal laws we shall analyze in the "State and City Department," we expect to bring down weekly the information contained in the State and City Supplement to as near the current date as possible. Hence every Subscriber will at all times possess a complete and fresh cyclopædia of information respecting Municipal Debts.

## MUNICIPAL BOND SALES IN S\&PTEMBER.

Our record of municipal bond sales for the month of September which is given below shows that the total amount of new securities marketed was $\$ 11,292,564$. It will be noticed that over eight million dollars of this amount is accounted for by the two large issues of the State of Maseachusetts and New York City. The market for these securities during the month has been firm and many of the offerings called out an unusually long list of bidders. The total sales for September, 1894 , amounted to $\$ 8,249,347$. In the corresponding month of 1893 they were only $\$ 3,885,13 \%$ and in 1892 but $\$ 6,242,952$.

In the following table we give the prices which were paid for September loans to the amount of $\$ 10,028,064$, issued by 39 municipalities. The aggregate of sales for which no price was reported is $\$ 627,000$ and the total sales for the month $\$ 11,292,564$. In the case of each loan reference is made to the page of the Chron ICLE where a full account of the sale is given.
September Bond Sales.
Rate. Maturity.

[^4]
$\dagger$ Sold on a $31_{2}$ per cent basis.
In the Chronicle of September 14, vol. 61, page 483, a list of August bond sales amounting to $\$ 8,087,431$ will be found. Since the publication of that statement we have received the following reports of sales in that month.

## Additional August Bond Sales.

These additional loans will make the total sales reported in August foot up $\$ 8,464,431$.

Louisiana.-It is reported that at a meeting of the State Board of Liquidation held on Oct. 3 in Baton Rouge it was ordered that the State Treasurer purchase $\$ 200,000$ of Louisiana bonds. When the news was received at the Stock Exshange in New Orleans there was a decided rise in the price of State securities, and at 2 o'clock $\$ 4,000$ of State bonds were sold at par. This is the first time since the war that Louisiana State bonds have reached par.

Hond Proposals and Negotiations.-We have reseived through the week the following notices of bonds recently negotiated and bonds offered and to be offered for rale
Ashland. Ky.-On September 24, 1895, this city sold $\$ 15,000$ of funding bonds to Messrs. Seasongood \& Mayer, of Cıncinnati, for $\$ 15,025$.
Belmont, Wis.-On October 1, 1895, the village of Belmont sold $\$ 3,000$ of 5 per cent water-works bonds to the Citizens' National Bank, Darlington, Wis., at par and acorued interest. The securities will mature at the rate of $\$ 300$ yearly from November 1, 1896, to November 1, 1905. Iaterest is payable annually.
Brockton, Mass -OnSeptember 30, 1895, the city of Brockton sold $\$ 10,000$ of 4 per cent registered tire bonds dated October 1,1895 , and payable at the rate of $\$ 1,000$ yearly beginning October 1,1896 , at $101 \cdot 03$ and $\$ 25,000$ of 4 per cent coupon water bonds dated Oct. 1, 1895, and payable Oct 1, 1925, at 105•79. Both loans were awarded to E. H. Gay \& Co. of Bos on. Interest on the bonds is payable semi-annually on Aprill 1 and October 1. The water loan is secured by sinking fund.
Canton, Miss.-The citizens of Canton, Miss., have voted almost unanimously in favor of issuing $\$ 35,000$ of bonds for water-works and electric lights.
Carbon Connty, Mont.-Proposals will be received until October 21, 1895, by E J. McLean, County Clerk, for the purchase of $\$ 46,000$ of 6 per cent bonds. The securities will be dated November 11, 1895, and will mature November 11, 1915.

Charleston, S. C.-On September 20, 1895, the city of Charleston sold $\$ 90,000$ of 5 per cent bonds to the Carolina Savings Bank of Cbarleston at 105. Eleven bids were received for the loan. The securities are dated October 1, 1895, in terest is payable semi-annually on April 1 and October 1, and the principal will mature October 1, 1925. The bonds are of the denomination of $\$ 500$ each.

Charleston, W. Va.-On September 26, 1895, the city of Charleston sold $\$ 25,000$ of 6 per cent hospital bonds to Rudolph Keybolte \& Co., Cincinnati, O., for $\$ 27,31275$ and aicrued interest. The securities are dated September 26, 1895, interest will be payable annually, and the principal will mature in 20 years, both principal and interest to be payable at tie

Chase National Bank, New Yort. Thirteen bids were received for the loan as follows :

Rudolph Kleybolte \& Co
Hopklus Place Savings Bank, Baltimore
N. W, Harris Cos \& Co......
N. W. Harris Co
E. H. Rollins \& sons
E. D. Shep ird \& Co.

Second National Bank,"Cumberland, Ma

The city's bonded debt, including this issue, is $\$ 126,000$ floating debt (estimated), $\$ 14,000$; cash on hand, $\$ 14,846$. The assessed valuation for 1894 was $\$ 3,950,680$; estimated actual value, $\$ 12,000,000$. The estimated population is 15,000 .

Chicago, III.- It is reported that arrangements have been made to place $\$ 2,500,000$ of city warrants to be issued to meet this year's deficiency. They will be sold as funds are required and will be taken by the Chicago banks. There is also talk of distributing them among Chicago Clearing House members pro rata to their capital.

Cicero, I11.-On Sept. 29, 1895, the town of Cicero sold $\$ 102,41195$ of 4 per cent 20 -year railroad-aid bonds for $\$ 102$, 425. Three bids in all were received for the securities, one from W. J. Hayes \& Sons, of Cleveland, O., one from N. W. Harris \& Co. of Chicago and one from the First National Bank of Chicago. The securities were awarded to the two latter parties, subject to the approval of their attorneys. Interest will be payable semi-annually, both principal and interest to be collected and paid by the State Auditor.

Dayton, Ky.-Proposals will be received until Oct. 10, 1895, by the bond commissioners for the purcbase of $\$ 8,000$ of 6 per cent street improvement bonds. Interest will be payable semi-annually and the principal will mature in ten years,

Dublin, Ga.-Water-works and an electric-light plant are under consideration, the building of which will require the issuance of bonds to the amount of $\$ 15,000$.

Dulath, Minn.-On September 24 the citizens of Duluth voted in favor of issuing bonds to the amount of $\$ 1,856,000$ for the purpose of erecting a water-works plant. The proposition to expend the money derived from the sale of che bonds for the purchase of the water plant already in existence in the city of Duluth was voted down.
Harris County, Texas.-On September 24, 1895, this county sold $\$ 100,000$ of jail bonds to Mason, Lewis \& Co., of Chicago ${ }_{1}$ for $\$ 101,405$. Five other bids were received for the loan.

Houston, Tex. - An ordinance authorizing the issuance of $\$ 100,000$ of 5 per cent 40 -year street improvement bonds has been introduced in the Houston Common Council, At an election held on the 21 st of last month the proposition to issue $\$ 000,000$ of bonds for the same purpose was voted down.
Jefferson, Mo.-On September 21, 1895, this city sold $\$ 2,000$ of 5 per cent $5-20$ year sewer bonds to the First Natinal Bank of Jefferson for \$2,012 50 .
Leominster, Mass.-Proposals will be received until Oct. 7 for the purchase of $\$ 50,000$ of water bonds, the loan to bear interest at the rate of 4 per cent and to run 30 years.
Minneapolis, Minn.-On September 24, 1895, the city of Minneapolis sold $\$ 100,000$ of 4 per cent bonds to Messrs. Blair \& Co, at 104.34 and accrued interest. The securities are dated July 1, 1895, interest is payable semi-annually and the principal will mature July 1, 1925, both principal and interest to be payable at the State Fiscal Agency, New York.

Montevideo, Minn.-Bids will be received until to-day for the purchase of $\$ 5,000$ of water-works bonds. The loan will bear interest at the rate of 6 per cent and will become due in 20 years.
Montgomery County, Ala.-Proposals will be received until October 7 for the purchase of $\$ 50,000$ of 5 per cent 40 year bonds.
New Branswick, N. J.-Proposals will be received until October 15, 1895, by James Neilson, City Treasurer, for the purchase of $\$ 65,000$ of New Brunswick refunding bonds. Th

securities will be dated November 1, 1895, interest will $n+$ payable semi-annually on May 1 and November 1 at the office of the City Treasurer, and the principal will mature November 1,1920. Bidders are requested to state the price and the rate of interest at which they propose to take the bonds.

The Treasurer's advertisement giving full particulars re garding the proposed sale will be found elsewhere in this De partment. A detailed report of New Brunswich's debt and general financial condition is also published on next page.
New York State - The New York Chamber of Commerce has passed a resolution favoring the proposition to issue $\$ 9,000,000$ of State bonds for the purpose of enlarging a-d improving the Erie Canal, the Champlain Canal and the Oswego Canal. The question is to be submitted to a vote of the people at the November election.
Philadelphia, Pa.-Proposals will be received at the office of the City Treasurer beqinning October 14, 1895, and continuing until the whole amount is subscribed for, for the purchase of a $\$ 1,200,0003$ per cent serial loan of the city of Phila delphia, exempt from all taxes. Interest, commencing July 1 , 1895, will be payable semi-annually on January 1 and July 1 , and the principal will mature at the rate of $\$ 60.000$ yearly from December 31, 1905, to December 1, 1924. Settlement in full must be made with the City Treasurer within ten days after the subscription is made.
Rome, N. Y.-K. S. Putnam, City Chamberlain, reports to the CHRONicle that an election held September 30 on issuing $\$ 240,000$ of bonds for sewers resulted in favor of the propusition by a vote of 466 to 445 .
Springfield, Mass.-On October 2, 1895, the City of Springfield sold $\$ 35,000$ of 4 per cent registered school house bonds to Brewster, Cobb \& Estabrook at 108.69. The securities are dated October 1, 1895, interest will be payable semi-annually in April and October and the principal a ill mature October 1, 1915 , both principal and interest to be payable in gold coin at the office of the City Treasurer. The loan is secured by a sinking fund. Ten bids were received as follows:
E. C. Stanwood \& Co., Boston............................ ............ 106.11 Blodget, Merritt Co.., Boston.
R. L. Day \& Co., Boston ..... $106 \cdot 687$
R. L. Day \& Co., Boston ...............
Brewster, Cobb \& Estabrook, Boston.
Biake Bros. \& Co., Boston.................... 108.69 $108 \cdot 69$ E. H. Rollins \& Sons, Bosto $107 \cdot 047$ N. W. Rollins \& Sons, Boston $.106 \cdot 83$

The city's total water debt on September 24, 1895, was $\$_{1},-$ 625,000 ; sinking fund, $\$ 116,000$; net water debt, $\$ 1,509,000$. Other indebtedness, excluding temporary loans in anticipation of taxes and the present issue, was $\$ 284,500$; sinking fund, $\$ 50,05568$; net debt, exclusive of water debt, $\$ 234,-$ 444 32. The assessed valuation for 1895 (which is about 85 per cent of actual value) of real estate is $\$ 46,063,460$; personal property, $\$ 12,969,631$; total, $\$ 59,033,141$; total tax rate (per $\$ 1,001)$ ) $\$ 1220$. The valuation of city property in 1894 was $\$ 4,342,83741$. The population, by census of 1895 , is 51,534 .

Syracuse. N. Y.-On September 30, 1895, the city of Syracuse sold $\$ 300,000$ of $31 / 2$ per cent water-works bonds at $102 \cdot 5$. Seventeen bids in all were received. The securities are dated October 1, 1895, interest will be payable semi-annually in January and July at the office of the Metropolitan Trust Company, New York, and the principal will mature July 1, 1920.
Van Wert, Ohio. - Bids will $b$; recived until $O$, tobar 7 for the purchase of 5 per cent sur et improvemsat $b$ snds to the amount of $\$ 10,430$,

Winton Place, Ohio.-On September 30, 1895, the village of Winton Place sold $\$ 12,000$ of 5 per cent town hall refunding bonds to the Western Gerinan Bank of Cincinnati for $\$ 12,270$ and accrued interest. Seven hids in all were received for the loav. The securities are dated Oct. 2, 1897, interest will be payable semi-annually, and the principal will mature in 30 years, with an option of call after 20 years; both principal and interest will be payable at the Fifth National Bank, Cincınnati.

Varmeuth, Me.-Four per cent gold water and sewer bonds to the amount of $\$ 40,000$ have been sold to Swan \& Bartlett, of Portland, Me. The loan matures in 20 years.

STATE AND CITY DEBT CHANGES.
We subjoin reports as to munivipal deb's received since the last publication of our State and City Supplement Some uf thrse reports are wholly new and others cover items of informacion additional to those given in the SOPPLEMENT and of interest to investors.

New Branswick, N. J.-Tbis statement concerning the financial condition of New Brunswick has been corrected by meane of an official report fron Jamps Neilson, C.ly Treasurer.

The city is at present offering $\$ 65000$ of refunding bonds due November 1, 1920. See advertisement elsewhere in this Department.
Thrs ciry is situated in Middlesex County.

 6\&, M\&s, $41,000.1901,02$ \& 193 6\&, JdJ,
hs, M\&N.
5s, M1.500.. 1905 \&e 1906
45.000 May 1,18778

 $42 \%$ AkN, 125,000 . Mot $1,1907-8$
$4 \Omega$, MdN $, 65,000 \ldots 1907$ 4A, M\&N, 65,000 . 1907 \& 1919

$7 s$. M $18 \mathrm{~N}, 118,200 \ldots 1896$ \& 1897 7s, M $k \mathrm{~N}, 207,500 \ldots 1897 \& 1898$
The hond lasues marked thus ( $)$ ) in the above table are all held by besinking fund.
TAX FREE. - The city's bonds are exempt from taxatiou.
INTEREST on the water bonds, with the exception of the last two fisues listed in the above table, is payable at the Ninth National Bank; New York City. Allother Intereat at the Sational Bank of New Jersey in New Brunswiek.

TOTAL DEBT, SINKING FUND, ETC.- The subjoined statement shows New Brunswiok's total municipal debt, the sinking fund held by the eity against the same, the water debt, and the city's floating debt the dates mentioned.
Total munioipal debt..........
Sinking funds and oash assets
Net debt.
Water debt, included above

.$\overline{\$ 1,219,440} \overline{\$ 1,256,276} \overline{\$ 1,237,245}$ Floating debt (included above)
*The floating debt as given for April 1, 1893, includes revenue bonds.
The totnl debt of the city in 1885 was $\$ 1,618,619$; sinking fund and eash, \$57.519; nt t debt. \$1,561.100.
Regarding the bonds now being offered, the City Treasurer makes the following statement: "The bond offered is practioally a water bond, having the double security of the credit of a growing and a wealthy eity within 30 miles of New York whi h has never defaulted, and the assets of the water-works, rapidly increas ng in value, and a practically inexhaustible supply of remarkably pure water."
CITY PROPERTY. - The city owns publio buildings, steam tire engmes, etc., and water works which cost $\$ 493,000$. The gross earniugs from the water-works for the year 1894 were $\$ 52,107$. inoluding rental of fire hydrants; the cost and waintenance was $\$ 12315$, leaving a net incous for the ycar of $\$ 39,92$, or over 3 per cent of the
net deht of the city. Alout $\$ 10,000$ has been paid for new street
 years, all of which has been paid for out or the earnings of the works, white $\$ 10,000$ lim been expende 1 in extending the seweraxe system and charged to entrent expenses, showing a most conservative management of the esity affairs.
AS BE SSED VALUATION.-The eity's assessed valuation and tax $\begin{array}{cccc}\text { rate have been asell } \\ \text { Real } & \text { Personal } & \text { Total Assessed } & \text { Rate of Iax } \\ \text { Estate. } & \text { Properly. } & \text { Valuation. } & \text { per } \$ 1.000\end{array}$

| Year. | Estate. | Property. | Valuation. |
| :--- | :---: | :---: | :---: | per $\$ 1.0000$

POPULATION. In 1890 population was 18.603; in 1880 it was 17,166; in 1870 it was 15.058 ; Poilioe censuns, 1894, 20,338 . Popula-
tion in 1895 secording to local itmues is 20,000 . tion in 1895 according to local tigues is 20,000.
