PINE ST., CORNER OF PEARL ST., NEW YORK.

### REVIEW OF MAY.

The whole commercial and financial world was held in thralldom to the political situation during May. A Presidential election is always counted on to have some adverse effect on business, but this year the future of our currency and finances is dependent on the result. Hence the announcement of policy to be made at the coming national Conventions of the two great political parties—the first of which, that of the Republican Party, is to be held at St. Louis on June 16—has been awaited with anxiety. The anxiety was greatly increased by the fact that so many of the State conventions of the Democratic party in the South and also some in the West, were being captured by the adherents of silver. Then, too, the reports circulated with so much persistency, that the position of the candidate most talked of for the Republican nomination was an uncertain one, added to the feeling of uneasiness. In consequence enterprise was held in check and business markedly depressed.

As the month progressed the depression grew more pronounced and more general, until finally this political factor became the all absorbing and all dominating feature. The effect was seen in both the reports of earnings and the returns of clearings. The former showed much smaller gains than had been looked for in view of last season's excellent cereal crops and the increase in the grain movement resulting therefrom, while bank clearings showed a decrease as compared with last year in each and every week of the month. The influence mentioned extended through all the markets; on the Stock Exchange things drifted into a stagnant condition, with the volume of dealings exceedingly small.

The outflow of gold to Europe was persistent from beginning to end of month, and reached large proportions in the aggregate. On Saturday, May 2, the shipments were \$1,451,000, for the week ending May 9th they amounted to \$5,857,000, for the week ending the 16th to \$4,550,000, for the week ending the 23d to \$2,700,000, and for the week ending the 30th to \$4,600,000. Altogether, it will be seen, over 19 million dollars were exported. This large export was the more noteworthy that our merchandise trade with foreign countries must have shown a fairly considerable balance in favor of the United States, and that some large negotiations of new bond issues abroad were announced during the month. Among the more prominent of the reported loans placed in Europe may be mentioned the sale of a block of New York City bonds to amount of \$4,039,502, the sale of \$4,000,000 of State of Massachusetts bonds, the sale to foreign investors of a portion of the \$3,000,000 4 per cent bonds of the Pittsburg Cincinnati Chicago & St. Louis offered for subscription, and the sale of \$6,500,000 Northern Pacific prior lien bonds. The latter transaction we should suppose would not involve the issue of any bills of exchange immediately, as the bonds can hardly be ready for delivery yet.

The large gold exports made a decided impression on the Government gold reserve, as the metal was taken from the Treasury. Payments on account of the February bond sale were small, only little remaining to be paid for. There were some further transfers of money from the depository banks to the Treasury, but these did not affect the Treasury stock of gold, as the full amount of gold received from the sale of the bonds already appeared in the Treasury reports. On May 29th the National Park Bank deposited a million of gold in the Sub-Treasury in exchange for legal tenders, but this was about the only substantial gain the Government made, while there were daily withdrawals of the metal in larger or smaller amounts, in addition to what was taken for export. The Government reserve stood at \$125,393,900 May 1 and at \$108,345,234 June 1. In order to induce exporters to take bars for export, rather than coin, the Treasury officials on Friday, May 29th, reduced the premium on bars from 3-16 of one per cent to  $\frac{1}{2}$  of one per cent, and of the shipment of \$1,800,000 on the 30th \$700,000 was in bars; some gold previously sent was also in bars.

The stagnation in trade was so great, and the interior demand for money for all purposes so small, that currency flowed to this centre in excess of the amount of gold exported, and the rates for money dropped to low figures, thus removing one of the inducements for keeping foreign capital here. At the close of the month the rate for call money on the Stock Exchange was only 1½@2 per cent. The New York Clearing House banks at the beginning of the month (May 2) held \$146,695,300 of specie and legal tenders; and on May 29th, notwithstanding the heavy gold exports in the interval, the aggregate had increased a little to \$146,949,200.

The weather conditions during May were generally very favorable for the crops, except in the Northwest, where the planting of spring wheat was delayed by excessive rains. The Agricultural Department at Washington made the general condition of winter wheat in the United States the beginning of May 82·7, or 5·6 points better than at the beginning of April, and during May the weather, as said, continued favorable as a rule. For cotton the conditions were about all that could be desired, and according to our Acreage Report given in the CHRONICLE to-day, the acreage devoted to that staple is 12·9 per cent larger than that of last year.

An unusual number of violent storms in the West, attended by great loss of life and much damage to property, was one of the features of the month. All of these, however, paled into insignificance alongside the destructive tornado that visited St. Louis and East St. Louis on the evening of Wednesday, May 27. It is yet too early to state the exact extent of the havoc wrought by this visitation; the loss of life reaches several hundred, and the loss of property runs into millions.

One of the favorable features of the month was the decision of Judge Wheeler in the United States Circuit Court for the Southern District of New York, dismissing the Government bill and denying the injunction asked for against the railroads forming the Joint Traffic Association. This association since the 1st of the year has been a powerful factor in maintaining rates and preventing the granting of rebates and concessions to favored shippers, and the effort of the Government to upset such beneficent work was not regarded with favor. Consequently the present decision, though subject to appeal, is hailed with much satisfaction. Judge Wheeler well said that the agreement does not provide for lessening the number of carriers, nor their facilities, nor for raising their rates except expressly by its terms not contrary to law.

The foreign exchange market showed striking steadiness throughout the month. In the rates for actual business there were only five changes, all of them one-quarter of a cent per pound sterling, and as the changes were alternately up and down, the range for the month was also only one-quarter of a cent. The close was one-quarter of a cent lower than the opening. The market was nearly bare of commercial bills; for those that were offering quite high prices were asked. The supply of bankers' sterling was almost entirely made up of bills against the exports of gold. We have referred above to the placing abroad of several new issues of bonds, but no bills against these seem to have made their appearance in the market. The aggregate exports of gold to Europe for the month amounted, as already stated, to about 19 million dollars. The amounts shipped each week have been given above. In the

early part of the month some of the bills against these shipments were, according to report, sold nearly three quarters of a cent below the figure at which it was calculated the gold could be sent with profit as an ordinary exchange operation. In the following we show the actual rates for exchange for every day in which a change in any class of sterling bills occurred.

The stock market, as already said, was dull and stagnant, and the tendency of prices was downwards. On the Stock Exchange the share sales for the month reached only 2,799,613 shares and the bond sales amounted to only \$22,297,700. In May of last year the share sales were 8,932,707 shares and the bond sales \$78,556,700. Nothing could point the contrast between the two years more strongly than these comparisons. The decline in prices has not been large, amounting for the general range of stocks, outside of the industrial shares, in most cases to only about 1@3 points. Manhattan Elevated stock broke badly the early part of the month, but subsequently recovered part of the loss on the refusal of the Appellate Division of the Supreme Court to approve the report of the Commissioners in favor of the Rapid Transit road. In the dull state of the market the decision already referred to in support of the legality of the Joint Traffic Association, in the suit against the same instituted by the United States Government, had no appreciable influence on prices. The disaster at St. Louis had a weakening effect. The following shows the volume of business on the Stock Exchange and the sales of cotton on the Cotton Exchange and of grain on the Produce Exchange.

38 WALL STREET, NEW YORK.

# The Commercial and Financial Chronicle.

INVESTORS SUPPLEMENT (QUARTERLY) QUOTATION SUPPLEMENT (MONTHLY)  
STREET RAILWAY SUPPLEMENT (QUARTERLY) STATE AND CITY SUPPLEMENT (ANNUALLY)

WILLIAM B. DANA COMPANY, Publishers.

PINE STREET CORNER PEARL STREET, NEW YORK.

THE CHRONICLE is a weekly newspaper of 48 to 64 pages, published for the earliest mail every Saturday morning with latest news by telegraph and cable from its own correspondents relating to the various matters within its scope.

## SOME FACTS WORTH KNOWING.

1. The CHRONICLE has the largest circulation among Investors of any Financial and Commercial Journal in the United States.
2. It has the largest list of subscribers of any similar Journal among (1) Banks and other Financial Institutions; (2) Railroad Officials, Managers and Agents; (3) Bankers, Brokers and the larger Merchants; and (4) Investors and moneyed classes generally.
3. It has much the largest circulation among investors in Europe of any American Journal.
4. It has likewise a substantial and representative list of subscribers in every important Financial or Commercial centre not only of Europe but of the World.

A unique feature of the CHRONICLE is its

## FOUR SUPPLEMENTS.

1. The INVESTORS' SUPPLEMENT, 160 pages, issued quarterly on the last Saturday of January, April, July and October, containing the latest available information respecting the property, stocks, bonds, earnings, dividends, interest payments, &c., of every Steam Railroad of importance and of the leading Industrial Corporations, &c., in the United States.
2. The STATE AND CITY SUPPLEMENT, of 190 pages, issued semi-annually in April and October, containing among other things about 3,000 detailed reports of the indebtedness and general financial condition of States, Counties and Cities; also digests of laws relating to investments by Savings Banks, &c.
3. The STREET RAILWAY SUPPLEMENT, of about 100 pages, issued quarterly on the last Saturday of February, May, August and November, containing a complete description of Street Railways in the different cities of the country, their stock, dividends, bonded indebtedness earnings, &c., &c.
4. The QUOTATION SUPPLEMENT, a monthly publication of 48 pages issued the first week in each month, giving the most complete and comprehensive tables of Quotations ever issued, embracing prices of Railroad Bonds and Stocks, Bank Stocks, Municipal Securities, Street Railway Stocks and Bonds and Miscellaneous Securities.

A FURTHER NOVEL FEATURE is that the publishers of the CHRONICLE *make no charge* for any of these Supplements, but give them all to the CHRONICLE subscribers.

*Investors* wishing to keep informed with reference to their investments,  
*Buyers and Sellers* of Bonds and Stocks of Steam Railroads,  
*Buyers and Sellers* of Bonds and Stocks of Street Railways,  
*Buyers and Sellers* of Bonds of States, Cities, Towns, Etc,

EACH and all need the CHRONICLE and its four SUPPLEMENTS.

**TERMS:** { For the United States, Canada and Mexico, including Four Supplements: \$10.  
For all other foreign countries, including postage and Four Supplements, 12.

**N. B.**—No subscriptions are taken for either of the SUPPLEMENTS apart from the CHRONICLE, and no single copies of the Supplements are sold, as only a sufficient number is printed to supply subscribers of the CHRONICLE with one copy of each issue.

**File Covers.**—A file cover or binder to hold the current numbers of the CHRONICLE and its supplements for one volume (six months) is sold at the office at 50 cents, or sent by mail for 68 cents, which includes the postage.
