13" Statement National Banks under call May 9 on page 22.

CLEARING HOUSE RETURNS.

For the month of June and the six months the exhibit

The week's total for all cities shows a loss of 13 9 per cent from 1895. The excess over 1894 is 13 9 per cent and the decline from 1893 is 13 1 per cent. Outside of N+w York the decrease compared with 1895, is 10.5 per cent, the increase over 1894 is 8.9 per cent, and the loss from 1893 reaches 1 9 per cent.

Week ending June 27.

THE FINANCIAL SITUATION.

There has been no essential change in the political situation. Fluctuations in values at the Stock Exchange (which we notice below) and likewise in the markets for staple products have been features of the week. Otherwise affairs have remained very quiet awaiting the action of the Democratic Convention, when the status of the financial issue will perhaps be more sharply presented. As matters stand to day, we can see no need for hesitancy as to which side any man should throw his influence if he believes, as the writer does, that national honor, industrial safety and the principle of individual honesty are all staked in the contest. The Republican candidate on Saturday last accepted without reserve the platform adopted by his party. No other course was anticipated. To be sure, in his address he has made another matter, the tariff, prominent. We should regret the re-imposition of the higher duties; but whatever opinion any one has on that subject has become for the time being by comparison immaterial. When the Altgelds, the Tillmans, and the like, are seeking to engraft their ideas on the finances of the country, every other thought except opposition to them is necessarily banished. As individuals and as a nation we can be honest and we can be prospered under either a high or a low tariff.

Our city banks tell us that the mercantile situation is, as a rule, very satisfactory. There is no particular desire shown on the part of merchants to borrow; on the contrary the tendency has been of late to bring their affairs more nearly down to a cash basis. That is the general idea and aim among conservative classes everywhere. While having confidence in the success of the sound-money cause, thoughtful men seek to be out of debt. They know that if the unlikely should happen and free-silver coinage prevail, the result for a long time could not fail to be great confusion and unprecedented depression while a readjustment of values to the new standard was in progess. The silverites consequently, even if their party could be successful, could never realize the anticipation they cherish of paying existing debts with silver. The very end which they now suppose would secure their purpose they would find had rendered their real estate and the kinds of securities such classes are likely to hold of extremely uncertain value. At such a crisis those in debt could not borrow either silver or gold ; their obligations would be foreclosed and their property sold for a song to some of their neighbors who were out of debt. Instead therefore of realizing their dream of riches and abundance, poverty and distress would follow the success of free coinage, and during those sorrowful years the country would slowly work back to gold again.

It is interesting to study the developments at Chicago from day to day, especially interesting for those who entertain the absurd belief that there is a chance for the success of the free silver movement. It is easy enough to hurrah for an idea, but to organize such elements as are gathered at the great Western trade centre into an aggressive party, with an available leader, calls for a common principle that does not offend the moral sense and will bear the test of an honest and thorough investigation. The thought of rallying around, as the battle cry, a plan for paying one's debts with a fifty-cent dollar, and presenting that as a subject of discussion for three or four months to the people of the United States, is a folly not affording a shadow of a promise. Even the lead-

ers know the weakness of the situation. Governor Altgeld of Illinois is said to have inspired a statement in his Chicago organ that no Southern man (including the aspiring Bland) is available for nomination, for he would lose Cook County by 70,000 majority. Senator Dubois of Idaho, a silver seceder from the Republican convention, says that Chicago must nominate Teller, for no Democrat can carry Colorado, Utah, Idaho and Montana. The head of the Populist organization says that no Democrat can get any Republican State. Altogether, if we can accept these prophets' predictions, the movement is as good as dead already.

Our Stock Exchange has been the centre of moderrate activity and of comparatively large operations. The features were first a considerable decline early in the week and later reported buying for London account. A street rumor has it that the Kaffir mining party under the leading of Barney Birnato has formed a syndicate to speculate in American securities, and bought on Thursday over thirty thousand shares of Louisville & Nashville, St. Paul and other stocks to be sent to London by today's steamer. Dealers in foreign exchange say there were offerings on that day of bills deliverable next week against stocks bought through the arbitrage houses. At the same time exchange was only affected in tone; rates were not lowered either for nominal or for actual business. This syndicate story must be taken for what each individual considers it worth. It appears somewhat surprising that Europeans under existing political conditions in this country should have been so suddenly impressed with the desirableness of our securities as to form a kind of blind pool for their purchase. We can, however, easily understand that the lower prices should have tempted purchases to a moderate extent, especially as the demand occurred subsequent to Mr. McKinley's address, which very likely had a tendency to increase confidence in London.

Two favorable events in connection with our railroads deserve more than passing notice. One of these is the action of the Canadian Pacific in deciding to join the Joint Traffic Association under certain reservations and conditions and the other is the declaration by the Wabash of a dividend on its debenture Class "A" bonds. Our readers are aware that efforts. have been making for several months to induce the Canadian Pacific to become a member of the Association referred to. There are several outside roads which it is desired to have become parties to this agreement, but the principal ones are the Can dian Pacific and the Norfolk & Western. That one of these two has now given its adhesion to the scheme is a very encouraging fact. We have no doubt that the Norfolk & Western too will come in after the property has been reorganized. The new Association has already accomplished a great deal of good, and the inclusion of these two roads will further add to its strength and power. The establishment of the Association on an enduring basis makes the prospects of the roads in the territory between Chicago and St. Louis and the Eastern seaboard very bright, so far as the prosperity of the roads depends upon the maintenance of rates. The Wabash is one of the important roads in this territory, and the declaration of the dividend referred to on the Class "A" bonds shows the improvement that has already occurred in the revenues of the trunk lines, largely of course as the result of last season's excellent grain crops. The dividend is to be only one

per cent, though it is stated that the income account will show 2 per cent earned. The amount of the Class "A" bonds is not very large, only \$3,500,000, but the significance of this dividend distribution will be understood when we say that in 1894 5 the Wabash showed a deficiency of \$542,907 and in 1893-4 a deficiency of \$671,764 in meeting the fixed charges coming ahead of those bonds. During the fiscal year which has just closed the company's earnings have been steadily rising, and for the eleven months to May 31 the increase in the net has been \$567,895, as compared with the corresponding eleven months of 1894.5.

Evidence that trade continues on a very restricted scale as a result of the political and financial situation is furnished by returns of bank clearings and railroad earnings alike. We have prepared our statement of bank clearings for the month of June, and it shows a decrease from last year of 2.3 per cent with New York included and a decrease of 1.8 per cent outside of New York. It is perhaps encouraging to find that the loss was smaller than for the month preceding, when the figures showed 13 per cent decrease with New York included and 6.8 per cent decrease without New York, though the importance of that fact is somewhat weakened by the knowledge that the falling off in May was made greater than it otherwise would have been by the circumstance that the month had one less working day than the same month of last year, it having contained five Sundays. The contrast with last year of course is very noteworthy. Then business was expanding in a very marked way, and the clearings for May showed an increase of 24.7 per cent and those for June an increase of 22.1 per cent. Now we have entered on a retrograde movement, and unfortunately the political uncertainties do not afford any promise of an immediate change. Below is our usual monthly summary.

MONTHLY CLEARINGS

A feature in these returns of clearings which should not be overlooked is that while a good many separate points show enlarged totals, the different geographical groups nearly all record losses. The large grain move-ment (following last season's excellent' crops) has proved a favoring circumstance at a number of Western points, so it is not surprising to find the Middle Western section showing 2.3 per cent increase and "other Western" 5.4 per cent increase, but the Middle States group records 3.1 per cent falling off, the New England 2.4 per cent, the Pacific Coast 1.6 per cent, and the South makes the worst exhibit of all with a decrease of 8.4 per cent. Following is a four-year comparison for a number of leading points : BANK

Outside N.Y. 1,880 1,915 1,709 1,928 11,248 11,167 10,320 12,878 Of c urse the depression in business has adversely affected dealings on the Stock Exchange, and in a double way, reducing both prices and the volume of transactions. We give the record of the stock and bond sales in our customary monthly review in our QUOTATION SUPPLEMENT, and present here simply our usual summary of the stock sales. It will be observed that as a result of the liquidation and break in prices the latter part of the month, the total of the share sales is larger than it was in May, but nevertheless reaches only 4,370,765 shares, with a market value of 295 million dollars, against 6,030,415 shares for 318 million dollars in June 1895.

Messrs. R. G. Dan & Co. have issued their statement of mercantile failures for the quarter and half-year, prepared under the guidance of Col. W. M. Grosvenor, and of course everybody is prepared to hear that it does not disclose very flattering results. It happens that the liabilities of the failed debtors reach a somewhat smaller aggregate for the quarter this year than for the same quarter last year, though the amount large enough in both years, the figures is being \$40,444,547, against \$41,026,261; the number of the insolvents, however, is 2,995, against 2,855. For the six months there have been 7,026 failures in 1896, against 6,657 in 1895, and the liabilities are \$97,869,682 against \$88,839,944. We give the figures by geographical groups on a subsequent page, and print here a comparison of the aggregates by quarters for the last

dozen years.

[VUL. I XIII

The Pennsylvania Railroad return for May, issued this week, shows results just about as we should expect, considering the prevailing industrial conditions. Last year in May the company reported a gain in gross on the lines directly operated both east and west of Pittsburg and Erie in the large sum of \$1,409,765 and a gain in net in the sum of \$662,397. But this was in comparison with an extraordinarily poor month the year before, when the bituminous coal strike, extensive floods, and various other agencies, combined to reduce earnings, and when as a consequence the loss on the combined lines directly operated reached \$2,904,188 in gross and \$1,685,595 in net. The present year the company reports \$40,100 increase in gross and \$100,700 decrease in net on the lines directly operated east of Pittsburg and \$133,900 increase in gross and \$167,400 increase in net on the lines directly operated west of Pittsburg. A separate statement is furnished to show for each section the results for all lines operated or controlled. This indicates a loss of \$19,900 in gross and \$218,800 in net for the eastern part of the system and \$113,600 increase and \$180,200 increase respectively for the Western part. It will be noticed that the Western lines make a very much better exhibit than the Eastern, which reflects the advantages derived from last season's crops. Below we compare the gross and net earnings for May and the five months for the last six years on the lines directly operated east of Pittsburg and Erie-the only part of the system for which we can furnish such a comparison.

LINES EAST OF PITTSBURG.	1896.	1895.	1894,	1893.	1892.	1891.

A great many other roads have also submitted returns for May this week, but we have space here to refer to only a few of the leading ones. The Burling. ton & Quincy is obliged to report a loss in both gross and net this time-\$160,239 in the former, \$228,554 in the latter. The Milwaukee & St. Paul has added \$113,827 to its gross but loses \$161,659 in net. The Erie reports \$79,465 increase in gross, \$10,515 increase in net; the Louisville & Nashville \$68,650 increase in gross, \$15,716 increase in net; the Atchison \$131,170 decrease in gross, \$92,756 increase in net; the Canadian Pacific \$283,446 increase in gross, \$142,841 increase in net; and the Central of Georgia \$25,981 decrease in gross, \$12,069 decrease in net. Below we furnish a four-year comparison for a number of roads.

* Includes Chicago Burlington & Northern for all the years.

The Southern Pacific Railroad Company of California is one of the constituent properties in the Southern Pacific system for which a separate report is made, and we quote from it at length on another page. The property is quite a large one, embraciog 1,678 miles of road independent of the Mojave Division, which is leased to the Atlantic & Pacific, and has \$52,326,500 of bonds outstanding. The company's lines are operated under lease by the Southern Pacific Company, which pays all the charges, expenses, &c., but the important point, from an investment standpoint, is that its own earnings show a large surplus over and above the yearly requirements. For 1895 the gross earnings reached nearly 101 million dollars, being with one exception the largest in the company's history, and the net was \$4,067,679, while the charges were \$2,896,-347, leaving a balance of \$1,171,331. A statement in the report covering the last eleven years brings out the fact that there has been a larger or smaller surplus for each year in the whole of that period.

The call loan branch of the money market was more or less influenced early in the week by shifting of loans incident to the decline in stocks, and also by preparations for the semi-annual settlements. On Monday money on call, representing bankers' balances, loaned at 4 per cent and at 2 per cent, averaging $2\frac{1}{2}$ per cent, and though on the following day 31 per cent was the highest, the average was not changed. For the remainder of the week the range was from 2 to 3, with the bulk of the business at 21 per cent, and the average for the week was probably about 28 per cent. Banks and trust companies quote 3 per cent as the minimum for new engagements, but good contracts at lower figures have been undisturbed. The demand for time loans is not urgent, though some business is reported for long dates. Quotations are 3 per cent for thirty to sixty days, 31 per cent for ninety days to four months and 4 per cent for five to six months, and a few transactions have been made for money until January at 41 per cent. The banks having correspondents at the West and South report no new inquiry for re-discounting and the majority of the interior banks seem to be awaiting the course of events at Chicago next week. The supply of commercial paper on the market is comparatively small, and, except by a few brokers, none is pressing. The demand is only moderate, the large buyers being still out of the market, and quotations are $4\frac{1}{2}$ per cent for six y to ninety day endorsed bills receivable, 41,0051 per cent for four months' commission house and firstclass single names, $5@5\frac{1}{2}$ per cent for prime and $5\frac{1}{2}@6$ per cent for good four to six months single names.

The European financial situation has been without important change this week, and now that the semi-

annual settlements are over open market rates are growing easier. The Bank of England minimum rate of discount remains unchanged at 2 per cent. The cable reports discounts of sixty to ninety day bank bills in London #@# of 1 per cent. The open market rate at Paris is 13 per cent, at Berlin it is 24 per cent and at Frankfort 25 per cent. According to our of money to and from the interior by the N. Y. banks. special cable from London the Bank of England los £671,021 bullion during the week and held at the close of the week £48,485,256. Our correspondent further advises us that the loss was due to shipments to the interior of Great Britain in the net amount of £780,-000 and to imports of £109,000, of which £103,000 were from Australia and £6,000 from Italy.

The foreign exchange market has been without the least change as to nominal rates or those for actual business this week, though the tone has been quoted as easy. The business has been moderately large, and one noticeable feature has been the offering of bills against securities by prominent houses who are recognized as arbitrage traders, confirming reports which have been current at intervals that there has been large speculative buying of stocks for European account. Had it not been for the offerings of the bills against these stocks, and also of a few drawn against the recent purchase of Anaconda Copper Mining stock, through Kuhp, Loeb & Co., rates for sterling would most likely have been higher, for this is the period when remittances have to be made for interest and dividends. On Monday the market opened with an easy tone for sterling, though rates for actual business were not quotably lower, remaining, as at the close of Friday of last week, at 4 87@4 871 for sixty day, 4 88@4 881 for sight and 4 881@4 881 for cable transfers. It was announced that Lazard Freres would ship \$700,000 and that J. & W. Seligman would send \$350,000 gold to Europe on the following day, but the withdrawal from the Treasury of the last-named amount was on an Assay Office check for bullion, and therefore the gold reserve was not affected thereby. On Tuesday the tone was quoted as steady, but on Wednesday it was easy again and then business was done nearer the bid than the asking figures. Heidelbach, Ickelheimer & Co. engaged \$200,000 gold for shipment to Germany on order, and the reduction by the Treasury of the premium on gold bars from 1 to 1.10 of 1 per cent had no influence. On Thursday the market was again easy and some bankers reported that any pressure of bills would doubtless cause a reduction in the rates for actual business. The largest houses stated that they would not ship gold on Saturday. There was a shipment of \$50,000 to Canada on Taes day and there was a withdrawal yesterday of \$150,000, which it was supposed had the same destination ; another withdrawal of \$250,000 took place, but it is not known for what purpose. The tone of exchange at the close was quoted steady.

TREASURY OUTLOOK FOR THE COMING TWELVE MONTHS.

We have written on a subsequent page with reference to the Government figures for the fiscal year ending with the first of July. That review covers a twelve months of special interest. A new revenue law has been in operation during that period-on trial as it were. The year's receipts and disbursements show the large deficit of \$26,042,244. Tested by this result the ready response is no doubt authorized that the law made insufficient provision for the Government needs. That is to say, as business affairs have turned out the Treasury income has fallen short of the disbursements. Those who framed the law were obviously too sanguine in their forecast of the industrial development. This error of judgment is not surprising, inasmuch as the conditions which have prevailed have been of a phenomenal character. Trade interruption has in the main grown out of currency irregularities, aggravated by the silver agitation in and out of Congress, and further by strained foreign relations, made especially disturbing because of the danger threatening the standard of values. The depressing and irritating influence of these events could not have been anticipated. A fact favorable to future income is that in the face of these adverse circumstances last year's deficit is nearly 40 per cent less than the deficit in the year ending July 1 1895.

It will be noticed that the closing month, June 1896, shows a surplus. There is no special significance in this circumstance. To be sure the receipts were \$4,-560,300 larger than they were in May, but they were not large enough to have covered the May disbursements, which were \$28,426,592. Nor were they large enough to have covered the average disbursements during the year, which average was \$29,352,623. The truth is, in Jane and December very little interest falls due, only the quarter's interest on the 251 million dollars of 2 per cents. All the other months have a much

larger amount to meet, January and July requirements for that purpose reaching about 71 million dollars. Hence the surplus in June does not justify the expectation of a surplus in succeeding months, even with disbursements confined to last year's total. There is little doubt, however, that if business revives in 1896-97 and if the appropriations had not been increased, the revenue law as it now stands would prove sufficiently productive to provide for the outgoes. Unfortunately there is an increase the current year of \$18,751,300 over last year in the appropriations, and it is consequently highly improbable that revenue will in any presumable state of business affairs be sufficient to prevent a considerable deficit at the close of the current twelve months.

July receipts and payments it is anticipated will show a very large adverse balance. That is likely first of all because a large revenue cannot be looked for until business has a chance to expand, and it cannot have that so long as any considerable uncertainty hangs around the coming election. Moreover, as already stated, the interest falling due the first of July and the first of January is about 71 million dollars, or larger than any other month of the year. Then, in addition to these facts there is the other important circumstance that July is always conspicuous for its large general disbursements. It is the first month when the enactment authorizing the new appropriations goes into effect and becomes operative, and on that account it is reasonable to presume that the aggregate of the "ordinary" payments falling due will exceed the average for all the months. Last year in July the payments that fell due under the head of "ordinary" (which includes everything except post office, pensions and national bank note fund) were \$18,485,000 - or the largest of any month during the year. They may be even more than that this year, for besides the larger appropriations the outgoes on account of the sugar bounty claims promise to be a very considerable item. We should not be in the least surprised if the total deficit were to reach considerably more than 10 million dollars in the single month of July.

As the Treasury still holds a large surplus in currency, a deficit does not of itself entail borrowing. In case of need the Treasurer emits the necessary quantity of legal tenders to supply the demand. Of course the emission diminishes the surplus in the same amount and tends to weaken the currency situation. The harmful effect on the currency is produced by making the money market easier, making money more of a drug through an increase of the bank reserves, and so inducing the transfer of capital to Europe for employment, and also by increasing the volume of legal tenders afloat and thereby facilitating the withdrawals of gold for shipment. What is called the Treasury's available balance was at the close of business on the first day of July \$267,432,097. Not all of that is by any means available to pay debts with. Indeed every dollar of it which is put out in excess of receipts, under existing conditions of the currency, harms business in some degree in the manner just indicated. But omitting that consideration, there are items included in the so-called available balance which cannot be used. First of all the net gold reserve, \$101,699,605, should be deducted ; then the fractional silver, fraction currency, minor coin, &c., included in the cash should also be deducted; a further sum of say 50 million dollars for a working balance would likewise have to come out. Altogether say 170 million dollars were never accused of juggling with their books."

as affairs stand are unavailable, leaving about \$97,~ 000,000 which could be disbursed if it were not for Indeed, if our legal tenders the currency weakness. were all retired and a good bank note currency substituted, there would be a farther amount available equal to the net gold holdings, 1018 million dollars, or say 200 million dollars in all, which could in that case be disbursed to-morrow to pay funded and unfunded debt.

Below we give our usual table of Government cash holdings on the 1st of July and on three previous monthly dates. These are the figures we have referred to in the above remarks.

INVESIMENTS . AND AMERICAN CORPORATE MANAGEMENT.

In the "Engineering Magazine" for June there was an article entitled "The Fruits of Fraudulent Railroad Management," by J. Selwin Tait. The subject is a hackneyed one, the fallacies which it embodies have been time and again exposed, and it is only because of the way in which Mr. Tait treats it that the paper commands attention. For ourselves we must confess that we can neither accept his diagnosis nor commend without qualification the remedies he proposes.

Mr. Tait's purpose of course is altogether laudable. He would like to see American corporate securities occupy a higher plane as a field for investments. He recognizes and appreciates the unique opportunities which this country offers for the employment of capital. "Thanks to its enormous natural advantages," he says, "the United States is to-day the richest country in the world, and this while its resources are not half developed. Under ordinary conditions, the disparity between its wealth and that of the richest of European countries must become more and more conspicuous, because the natural wealth of Europe has already been realized and added to its available assets. while this country is still largely undeveloped, and a great appreciation in its wealth is inevitable. Here then we have a condition of affairs which ought to place our Government secarities, our railway stocks and bonds and all our investment stocks at the head of every competing security in the world, and American investments ought, without effort and simply by the natural process of rising to their proper level, to be more in demand than those of any other country."

Mr. Tait then refers to the large amounts lost in Union Pacific, Northern Pacific, Reading, Atchison and Erie, and says that to day the investors of Great Britain will not touch our securities at any price. "Our railroad securities enjoy the proud distinction now of ranking alongside the defaulting bonds of the effete governments of Europe and of rubbing shoulders with the output of Spain, Portugal, Greece and Turkey. But even here we wrong these poor countries by such a comparison, for they paid while they could, and they never had any intention of deceiving the investor, and

It will at once be recognized that the picture is overdrawn, and that Mr. Tait is prone to exaggerate. But his line of treatment is more clearly revealed in the extract which follows: "The principal source of distrust in our railways-apart from reckless competition and the physical conditions of the country-and also in our other corporations under suspicion, is the manipulation of the accounts. While it is probably safe to say—and I say it on good authority— that the books of such railway companies are as well kept as they are in any other country, in so far as good book-keeping is necessary for the proper working of the business and the prevention of loss from fraud by employes, the manipulation of the various accounts by the presidents or other high officials of such corporations to suit their own views or interests is so well proved and is such a monstrous offence against public morals, both in itself and in its ruinous results, that the only wonder is that it has been endured for a moment, or that Europe ever trusted us with a dollar after it had learned our methods.'

There is no warrant for such sweeping remarks. It cannot by any means be admitted that "manipulation of the accounts" by "presidents or other high officials" is "well proved," nor is the statement correct that the principal source of distrust is found in such manipulation. The "distrust" is principally owing to the fact that so many of the investments in American railroad properties have proved unprofitable. If they had turned out profitable, we should hear little of distrust. Nor can the unfavorable results attending such investments be ascribed even in minor degree to manipulation of the accounts, but must be ascribed to a great variety of other causes. Among these causes may be mentioned the building of new lines into undeveloped sections where the immediate return was not commensurate with the outlay; the building of duplicate and triplicate competing roads for which there was no need and no business, largely with the aid of foreign capital; the action of State legislatures and railroad commissions in reducing rates; the change in railroad methods caused by the enactment of the Inter-State law; the policy of the railroads themselves in failing to hold their agents to a rigid maintenance of rates, and repeated failures of the crops. To these must be added the influence of a vicious currency system in bringing the country to the verge of ruin, and, lastly, the effects of the panic of 1893 and the long period of depression which has followed. To shut one's eyes to these important factors in the situation, and to proclaim that it is manipulation of accounts that explains the prevailing distrust, and to build an elaborate argument on this unsound proposition, is not calculated to lead to correct ideas, but simply tends to befog the issue.

We know that after each failure of a larg : corporation, charges of dishonesty and manipulation of the accounts have been freely made, but there has been only one instance where manipulation of the accounts has actually been proved, namely the Atchison. In that case, the overstatement of earnings no doubt induced some buying of the company's securities by persons who would not otherwise have bought them, and the effect generally of the disclosures was very damaging. But even here it is well to remember that the proparty itself was not harmed by the reprehensible acts of the management. Mr. Reinhart was not accused of having helped himself to any of the moneys of the company, and his acts did not substract a dollar from the income of | served by the companies, and he would have the stock-

the company or impair its earning capacity. The downfall of the company therefore was not due to that circumstance, but arose from other causes, and could not have been prevented in any event. As a matter of fact, the company had been reorganized (without foreclosure) before these acts occurred, and the second reorganization was necessary because the first had not been drastic enough.

Of course it may fairly be claimed that our managers have made errors of judgment, but this is a different thing from dishonesty or the cooking of the accounts. Their mistake has usually been in taking a too hopeful view of the future. As to this it is to be said that in a country like the United States, possessing boundless resources and boundless opportunities for growth and development, sanguine views are natural, and within rational bounds are by no means to be condemned. Besides, railroad officials can hardly be blamed for not having foreseen and made preparations for the tremendous combination of unfavorable agencies and events which has marked the course of railroad affairs during the last few years. They counted on a continuance of prosperity in the industrial world, attended by further expansion and growth, and doubtless except for our currency troubles this prospect would have been realized. Had the expectation not been disappointed, the outcome of railroad operations would have been entirely different from what it has proved to be, and many of the schemes which have turned out to be failures would have been crowned with success. In that case, what now appear as errors of judgment would be regarded evidences of 88 wisdom and sound sense. That the fault has not been with the management to any extent, is manifest from the fact that besides the properties which have actually gone to the wall most others have suffered hardly less severely ; nearly all large roads pay smaller dividends now than a few years back, and the staunchest and best properties have felt the pressure, arguing a common depressing agency entirely apart from individual faults of managemeat. It is therefore unfair and a positive injustice to our railroad people to ascribe all the troubles and misfortunes of the roads to manipulation of the accounts or to dishonest methods.

As Mr. Tait has not given proper consideration to the causes which account for the unfortunate results attending railroad operations and railroad investments in the United States, it is natural that his suggestions of remedies should also be faulty in essential particulars. After saying that "it must seem to all rightminded men that the situation is one calling for the prompt interference of Congress, either through the Inter-State Commerce Commission, or otherwise," he makes three main recommendations as to enactments to be passed by Congress. The third of these (taking them up in their inverse order) is that the Companies Acts of Great Britain, "which represent the costly experience-as well as the wisdom-of half a century in regulating corporations," be carefully examined and such regulations as are adapted to this country be considered with a view to adoption; that for the proper carrying out of such a law Congress frame certain clear directions for the treatment of railway accounts, and with a view to preventing manipulation for stock-j bbing purposes attach a heavy penalty to any violation of this law. Mr. Tait's second regulation is closely analogous to the third. He would have Congress prescribe a form of balance sheet to be ob-

holders elect auditors, who "shall have the fullest power to examine the books at all times, and to call upon the President, directors and officials for whatever explanation or information they may require.'

It will be observed that in both these recommendations Mr. Tait lays great stress upon the necessity of having a truthful and accurate system of accounting. On this point of course there is no room for any difference of opinion. But as we have already seen, the difficulties of the railroads have arisen from causes outside their methods of accounting. The mistake of supposing that if only it had been the practice here as in England to have an independent annual audit, investors, domestic and foreign, would have been saved the tremendous losses which they have sustained in their investments, is very common among writers on the other side, but a very little reflection will show that it is nothing more than a pleasing fiction. Where railroad companies have become embarrassed from causes not common to the whole railroad system, it has usually been from the construction or acquisition of too much additional road, from the giving of too liberal guaranties to branch or auxiliary lines, or from other unwise ventures. But these are all cases which an audit cannot reach. They are questions of policy with which the auditors have nothing to do, but which must always be left to the managers and directors for decision -to be decided wisely or unwisely, according as the judgment of the management may prove good or bad.

As we pointed out only last week, auditors' examinations are well enough in their way; but they must be taken at their proper value. They furnish one more safeguard against irregularities in accounting, but they cannot ensure wise management or afford protection against errors of judgment on the part of those properly charged with the duty of administering the affairs of the roads. In other ways, too, the limitations of an audit have been frequently shown. Even as a check upon the accounts auditors' examinations are not always conclusive, as the case we reviewed last week demonstrates. Mr. Tait's idea is to have the auditors certify that they have examined the books, vouchers, accounts, etc., and that the balance sheet and income account furnish a true and correct view of the company's affairs; and as showing the value "In examinations of these he says: this country, where the word expert book-keeper is too often supposed to be the full equivalent of the London public accountant or the chartered accountant of Scotland, it is unintelligible that there should exist a class of carefully-trained professional accountants, whose word is law on all questions of accounts, and who care no more for the opinions of railway presidents on such subjects than they do for that of the least important member of their office." Furthermore, that the standing of these accountants is so high that "no one ever dreams of questioning" their reports. As it happens, in the case noted last week we had an instance where the auditors' examinations proved worthless, failing to detect fraud which could have been discovered on the slightest probing, and where nevertheless the Court ruled that the auditors were not to blame, since they had accepted without question the statements of "tried" and "trusted " officials.

As to the remaining one of Mr. Tait's recommenda tions it is surprising that it should be seriously made. This recommendation is as follows: "Tnat in future all the capital stock of a railway or other corporation

not future prospects, but cash actually paid into the treasury, dollar for dollar, and expended, or to be expended, upon the property; or it shall represent property certified by competent valuers to be worth at the time of purchase the full value paid for it in stock."

It would be atter folly to attempt to enforce such a policy in the present stage of the country's develop ment. How much new road does Mr. Tait suppose would be built in the unopened sections of the West and South during the next ten or twenty years with such a policy in force? We know that the Grangers and Populists will not allow carriers to make more than an ordinary return on their capitalization, and with this capitalization representing only the actual cash expended on the property, the effect of the policy suggested would be to give those putting out capital in that way simply current interest rates. Who would advance money under such conditions. Before a man can be induced to engage in a new venture, involving serious risks of loss, he wants an assurance that in case the venture succeeds the profits will be in some degree proportioned to the risks he takes. The capitalization of "future prospects" furnishes one of the means for obtaining such profits. That the risk of loss in new railroad enterprises is very considerable is attested by the large number of undertakings of this description which have come to grief in recent years.

With the possibility of any considerable profits cut off and with no prospect of a higher rate of return than the investor can obtain in a great many other ways without the same amount of risk, is it not obvious that the flow of capital into such enterprises would entirely cease? Would not the effect be to induce those having money to loan to invest it in real estate mortgages (thus increasing the tendency to landed investments which Mr. Tait so much deplores) or to employ it in other channels where the danger of loss was at a minimum? We can imagine that in the New England and Middle States, where the conditions are different, the policy proposed might not be harmful, but in the remoter parts of the country, where there will be during the next quarter of a century need for considerable additional transportation facilities, the policy could only be disastrous. There has been in the last decade much unnecessary new railroad building, and we should like to see some restrictions imposed on future construction; but Mr. Tait's proposition would simply result in stopping it altogether; even the older companies would not be able to prosecute new construction and pay for it with stock issues, or for that matter work of any kind, unless they could sell their stock at its full par value.

GOVERNMENT FINANCES FOR THE FISCAL YEAR.

The close of the Government fiscal year on June 30 makes interesting a review of the results and figures for the year. The task does not suggest pleasing anticipations. Time was when the national accounts could be contemplated with much satisfaction. That was when we were confronted with an overflowing Treasury, with revenues largely in excess of the disbursements, and when the record was one of continuous and noteworthy reduction of the public debt. The situation of those days presented some difficult problems, as many will remember. The events of the last few years have changed all this, and the change is in no small measure due to attempts to solve these probover which Congress has jurisdiction shall represent, lems growing out of the earlier situation. We now have to deal with accruing annual deficits, with a dwindling gold reserve which becomes impaired almost as soon as it has been restored, and with a steady enlargement of the national debt.

That the fiscal year which has just closed was in a general way a disappointing one admits of no question. It opened under very promising auspices, and it seemed as if the year might mark the beginning of a new and brighter chapter in the affairs of the nation. Under the gain in confidence and stimulus to business afforded by the contract between the Government and the Morgan-Belmont Syndicate for the purchase of gold and the protection of the Treasury gold reserve, mills and factories everywhere had started up, prices improved, consumption increased, wages were voluntarily advanced, and the volume of trade rose to proportions which suggested that a return of full prosperity and a complete revival in trade might be near at hand. The iron trade-that never-failing barometer of the industrial situation-was "booming," and the output of the pig ron furnaces reached an aggregate never previously attained. To make assurance of a sustained improvement (as it then seemed) doubly sure, Nature added her bounties in the shape of excellent harvests of our leading grain crops-the yield in some cases, notably spring wheat, corn and oats standing unsurpassed.

But these bright prospects ware soon destroyed. Tae resumption of the gold outflow to Europe and the growing pace of the movement made it evident that our currency disorders were still without a cure, and that if the beneficial results of the work of the Morgan-Belmont Syndicate were not to be lost, effective aid must be rendered by Congress in the shape of needful legislation for dealing with the currency situation. The Syndicate for a considerable time made good the losses in the Treasury reserve caused by the withdrawals of gold for export, and even after they ceased doing this (their contract having long previously expired), no alarm or uneasiness was felt, and the industrial out look continued favorable. Trade slackened a little from appreciation of the fact that everything depended upon Congressional legislation, but as the Congress about to convene was a new one the business community was encouraged to hope that it would prove equal to the occasion.

This latter expectation was quickly disappointed. The House of Representatives seemed to have only an imperfect conception of what was wanted, while the Senate proved to be more completely than ever in the control of the silver people and Populists. Then came an entirely unlooked for shock in the President's message regarding the boundary dispute between Venezuela and British Gaiana. In the meantime the Treasury gold reserve kept steadily receding to a point where it again needed replenishing, and the Venezuelan message was speedily followed by another setting out the urgency of the currency situation and asking for prompt legislation in redress of the same. The answer of the House was the passage of a bond bill and also a tariff bill, the one of which was rejected in the Senate after several weeks of wrangling and discussion-or rather was transformed into a silver free coinage bill-and the other of which the silver Senators refused to allow to come up for consideration. Failing of relief at the hands of Congress, the President was again obliged to issue bonds under existing authority of law. But popular clamor forced him to resort to a public subscription, and proposals were invited for 100 millions of the 4 per cent bonds. The date for the opening of bids was set several weeks ahead, and in the interval

doubts as to the outcome proved a serious disturbling influence. The bellicose talk in Congress regarding Venezuela and Cuba tended further to depress business. As the depression grew more pronounced, the silver element gathered new strength, and the attitude to be assumed by the two great political parties, the Republican and the Democratic, on this issue began to cause anxiety and uneasiness. The Republican Party was finally driven to the support of the gold standard, the Democratic Party was evidently drifting further and further away from it. Congress did not adjourn until the 11th of June, and on the 2d of June the Senate reached the climax in its policy of opposition to everything that tends to promote public interests by passing the so-called Butler anti-bond bill, prohibiting further issue of Government bonds for any purpose. Thus the state of things went from bad to worse during the whole of the last six months.

It is important to recall these various incidents and events which marked the course of the year, because obviously they have such an important bearing on the year's results. The recital makes it evident that if the previous fiscal year was a trying one to those charged with the administration of the national finances, the late year was hardly less so. With those facts before us too we readily understand why the result for the twelve months has proved so much less favorable than seemed likely when the period opened. For we have to deal with a deficit of quite considerable proportions. Roughly, this deficit reaches a little over 26 million dollars, not counting, either in the receipts or the disbursements, the operations on account of the National Bank Redemption Fund. As recently as last December Secretary Carlisle estimated the deficit at only 17 million dollars. But large though the shortage is, the figures present some favorable aspects. In the first place the showing is much better than for the year previous, and still better than for the year preceding. While the deficit for 1895 96 is 26 millions, for 1894-95 it was nearly 43 million dollars and for 1893-94 was but little short of 70 million dollars. This shows steady improvement in face of great obstacles, and in that sense is highly encouraging. If we include the operations of the National Bank Fund, the comparison is changed a little, but there is nearly the same relative improvement. For 1895-96 the deficit on that basis is \$31,301,000, for 1894-95 \$43,837,000, for 1893-94 \$64,094,000.

When we come to look into the details of the revenues, we find further room for encouragement. Here is the yearly record of receipts and disbursements back to 1879. The operations on account of the National Bank Redemption Fund are not included in the figures for any of the years.

1896	177,410,930	3	139,434,046	1 35,586,488	352,231,470	df.26,042243	

+ Allowing for the premiums paid, the actual excess in 1888 is \$119,612,116; n 1889, \$105,003,444; in 1890, \$105,344,496, and in 1891, \$37,239,763.

It will be observed that each of the three great divisions of the receipts, namely Customs, internal revenue and "miscellaneous," records an improvement over the previous year. The Customs duties indeed show a progressive increase, for starting with \$131,818,. 530 in 1893-4, there was first an increase to \$152,158,-617 in 1894.5 and now to \$160,534,351 in 1895.6. Of course every one knows that in 1893 4 the amount was exceptionally small, having been reduced both by the panic and business depression and by the prospect of lower duties under the new tariff law; and that in 1894-5 the varying effects of the changes made by that law and the varying dates at which several of the schedules went into effect disturbed results. The point of chief importance is that the total has risen considerably from the low point of 1892-3, notwithstanding many adverse conditions. In the internal revenue receipts there was at no time any such marked contraction as occurred in the Castoms revenues, and the total at \$146,508,265 for 1896, compares with \$143,421,672 for 1895, with \$147,111,233 for 1894 and with \$161,027,624 for 1893. This latter was the maximum total reached in the whole of the eighteen years given in the above table ; but as a guide to the future it should be remembered that the whiskey tax now is \$1 10 against only 90 cents under the old law.

Of course we have as yet had nothing to show the full productivity of the new tariff law either as to Customs or internal revenue. Secretary Carlisle last December estimated the Customs receipts for 1895-6 at \$172,000,000, which is 111 million dollars more than they have actually proved to be, and the internal revenue has also fallen 111 million dollars short of the expectations at that time. Thus we have a total difference of 23 million dollars, and doubtless a good portion of this expected additional revenue would have been realized had not trade taken such a decided turn for the worse. The extra revenue would have served to restore almost an equilibrium between receipts and disbursements. As to the probable results for the new fiscal year, everything depends upon the course of trade. But we have discussed that point in a previous article. Expenditures, judging from the appropriations voted, will be larger, and that tempers somewhat the satisfaction felt over the gradual reduction in the expenditures during the last three years. For it will be seen that the aggregate of the expenditures for 1896 is reported as only \$352,231,470, against \$356,195,298 in 1895, \$367,525,280 in 1894 and \$383,477,954 in 1893. This reduction has occurred in spite of an increase of several million dollars in the interest requirements. The pension payments have been reduced

from 159 million dollars in 1893 to 139 million dollars, and the "ordinary expenditures" from \$196,856,004 in 1893 and \$198,506,589 in 1894 to \$177,410,936 in 1896.

What has been the change in the net amount of the debt during the year ? The deficit of the receipts for the twelve months, as we have seen, has been \$26,042,243, but the Government realized a premium of about 11 million dollars on the February bond sale, allowing for this there should be an and increase in the net debt of only about 15 million We make the debt, less cash in the dollars. treasury, July 1 1896, \$955,297,254. It is difficult to say just what the debt was a year ago on the The debt statement then did not same date. report as outstanding the foreign half of the bonds issued to the Bilmont-Morgan Syndicate, while on the other hand the gold received in payment of the same had already been paid in and consequently counted in the Treasury cash. Hence on the face of the return the debt appeared to be about 31 million dollars less than its actual amount. Alding that on, we figured the net debt at that time as \$932,830,667. Comparing this with the \$955,297,254 fo: the present year, the increase for the twelve months would appear to be about 221 million dollars. The difference between this amount and the 15 millio1 dollars reached above is referable to some feature of the bond operations this year or last, or some of the other numerous items in the accounts, which vary from year to year, and which have to be taken into consideration in order to arrive ': the exact amount of the debt at any given time. It is proper to add that the debt statement itself does not purport to show the net amount of debt. The computations are our own, based however on the figures in the statement. As regards the interest-bearing debt, there has apparently been an increase of 131 million dollars, making the amount now \$847,363,890. Actually the increase has been only one hundred million dollars, the difference arising out of the fact already mentioned that a year ago the foreign half of the Syndicate loan had not yet been entered in the debt statement.

One of the important changes of the year is found of course in the Treasury holdings of cash. As the result of the previous year's bond sales, the available cash balance had then been increased from \$117,584,-436 to \$195,240,153; in the late year, as the result of last February's bond sale, there was a further increase to \$267,432,097. Tais is the amount after deducting the current liabilities. In cash in banks and subtreasuries there was an increase during the twelve months from \$230,719,643 to \$305,537,082. The gold reserve, however, notwithstanding the 100-million bond issue, was only \$101,699,605 July 1 1896, against \$107,-512,362 July 1 1895. The increase has been chiefly in the holdings of legal tenders, which are reported \$89,389,658 July 1 this year against \$26,166,560 a year ago. Of silver the Treasury holds \$36,724,949 against \$29,965,754; of Treasury notes, \$34,465,919 against \$30,109,692; of national bank notes, \$10,668,620 against \$4,643,489; of fractional silver, \$15,730,976 against \$16,552,845, and in depositary banks, \$16,857,-355 against \$15,768,941. The net gold holdings reached their lowest point (according to the official daily statements) on February 10 at \$44,563,493, and after the bond sale went above 128 million dollars in March, and held there quite a while, but they are now down again, as stated, to \$101,699,605.

DEBT STATEMENT JUNE 30, 1896.

The following statement of the public debt of the United States on Jane 30, 1896 is made up from official figures issued on that day. Lower down we give an interesting exhibit of the bonds issuel in aid of the Pacific R silroads, and the Tressury cash holdings. all of the same date.

Clearings by Telegraph.—Sales of Stocks, Bonds, &c.— Stock Exchange Clearing-Honse Transactions.—The sub-joined statement, covering the clearings for the current week, usually appears on the first page of the CHRONICLE, but on account of the length of the other tables is crowded out once a month. The figures are received by telegraph from the leading cities. It will be observed that as compared with the corresponding week of 1955 there is a decrease in the age. the corresponding week of 1895 there is a decrease in the aggregate of 8.9 per cent. The total in each year embraces only five business days, in consequence of the Fourth of July holiday. So far as the individual cities are concerned New York exhibits an increase of 9.0 per cent for the five days ending Friday and the gains at other points are, Beston 2.9 per cent, Baltimore 15.7 per cent, Chicago 7.4 per cent and New Orleans 3.6 per cent. St. Louis records a loss of 0.6 per cent and Philadelphia 0.7 per cent. It should be borne in mind, however, that this year's figures for the five days end-ing with Friday cover one more business day than those for ing with Friday cover one more business day than those for last year.

Monetary Commercial English News

[From our own correspondent.]

LONDON, SATURDAY, June 20, 1896.

On Monday, Mr. Balfour, as leader of the House of Commons, called together his supporters at the Foreign Office and announced that the Government felt it impossible to carry the Education Bill this year, and was unwilling to hold an autumn session; consequently, Parliament would be adjourned in the

middle of August and would meet again in the middle of January to finish the Education Bill. The announcement has created widespread dissatisfaction in the Ministerial Party, and there are rumors already that the Government will after all have to hold the objectionable autumn session, or else that it will be compelled to drop the greater part of the Education Bill.

The muddle in public business has had a depressing effect upon the Stock Exchange. The rumor that a collision has taken place between Venezuela soldiers and a British surveying party has likewise had a disquieting influence; and the spread of the Matabele insurrection destroys the hope felt so strongly last week that the rising was nearly put down. The nomination of Mr. McKinley was a foregone conclusion, and has made little impression here, while the currency plank in the St. Louis platform is regarded as not very much improving matters. Upon the Continent politios are quiet. The only event that has excited much interest is the visit of Li Hung Chang to Berlin, where he has been received with great attention; and it is reported that negotiations are going on between him and the German Government for important trade concessions to Germany.

Money continues exceedingly abundant. Short loans are freely made at ½ per cent, and the discount rate is not very much higher. Everything points to a long continuance of cheap money, and though for the moment speculation has been checked the general impression prevails that business is about to expand very rapidly.

The silver market is steady; American mine-owners are still selling on a small scale and there is a moderate demand for the Far East. The Indian Government continues wonderfully successful in the sale of its drafts. We believe that its success is mainly due to a Chinese demand. China has been importing large amounts of goods, chiefly cotton, from India; and it is paying for its purchases by the buying of Council drafts here, which are immediately remitted to India.

The Stock Exchange in all its departments has been very quiet throughout the week, and prices generally have given way somewhat. Monday and Tuesday were exceptionally hot for this country, and many operators consequently absented themselves. On Tuesday the Ascot races began and attracted many people from the city. Further, there has been considerable selling both on Paris account and by the great South African magnates, owing mainly, it is understood, to the liquidation of the insolvent accounts taken over last autumn and winter. It will be recollected that almost all the members of the Coulisse were plunged into difficulties during the autumn, and that they had to be assisted by the great banks. Now that prices have recovered the banks have been liquidating on a large scale. The difficulties were by no means as large in London ; but still a good deal of help had to be given by the leading South African magnates, and they also have been liquidating for some weeks past.

The continued selling by the great magnates here and by the leading banks in Paris has somewhat alarmed operators, who for the moment did not understand the meaning of what was going on. It is believed that the liquidation is now nearly completed; at all events the selling has stopped and there has been during the past day or two large buying by leading operators in Paris. Confidence is thus reviving, and after the fortnightly settlement next week the general expectation is that there will be a very considerable recovery in the market.

Early in the week there was more doing in American securities than for a long time past; but the belief is widespread here that the mere maintenance of the existing currency the system is not enough; that there ought to be a contraction of currency, and therefore the currency plank has not given the confidence which many expected. Indeed, when it was announced that the Convention would declare beyond all doubt for sound money, the speculators sold very largely on Thursday and Friday.

South American securities have shared in the general stagnation, but there has been no material decline in prices. Consols gave way somewhat on the report of the collision in Venezuela, and so did most of the high-class securities, as well as British railway stocks. On the Continental bourses quotations are fairly well maintained, but there is not much doing. In Paris, the proposed taxation of rentes is causing much dissatisfaction, and it is reported that many small holders are still selling.

The declaration in Parliament by the British Government that negotiations are in progress with the Government of the United States both for a definitive treaty of arbitration between the two countries and for the reference to arbitration under proper conditions of the frontier question with Venezuela, and that the Government will present papers to Parliament relating to both branches of the question, without delay-is regarded here as foreshadowing an amicable settlement of the difficulty. The rates for money have been as follows:

	1	Rate.	a protection	Or	en Mar	ket Rate	18.		Intere for d	st allo eposit

-Attention is directed to the offering by the New England -Attention is directed to the offering by the New England Loan & Trust Company of its six per cent debenture bonds secured by real estate first mortgages deposited with the Farmers' Loan & Trust Company as trustee. Prompt pay-ment of interest and principal and twenty years' business without loss to clients are among the features claimed for these bonds, described at length in a book giving infor-mation regarding the company and its securities, with a list of institutions and individuals who have invested with the company for years. This book will be furnished on applic-ation at its office, 34 Nassau Street, New York. The adver-tisement will be found in the QUOTATION SUPPLEMENT issued to-day. to-day:

-The old firm of merchant bankers, Maitland, Phelps & Co., on July 1 became Maitland, Coppell & Co. Mr. Arthur Coppell, son of Mr. George Coppell, its senior, becomes a partner.

Difference.
The history of the house of Maitland, Phelps & Co. runs back over a period of a hundred years. It was established July 1, 1796, by James Lenox, an ancestor of the late Robert Lenox of New York, and William Maitland, under the firm name of James Lenox and William Maitland. In 1812 Robert Maitland of Virginia, and afterwards David S Kennedy, were taken in, and the firm became Lenox, Maitland & Co., and then Kennedy & Maitland, and later Maitland, Kennedy & Co. and Maitland, Comrie & Co. The business of the house under the style of Maitland, Phelps & Co, was begun on the lat of January, 1847, and has continued under this name up to the present time.
Royal Phelps, Esq., than whom no man was perhaps better or more favorably known in this city during his time, was the senior partner in the firm from 1847 until his death, which occurred July 30, 1884. With him were associated Robert Gordon and Banjumin F. Batler, both of whom retired in 1883; also George Coppell and Thomas Maitland, who became members of the firm on the 1st of January, 1880. Mr. Phelps was succeeded as senior partner by Mr. Coppell. On the 30th of June, 1392, Mr. Maitland, having taken up his residence in England, retired from the firm. The partners now are George Coppell, Gerald L. Hoyt, Dallas B. Pratt and Arthur Coppell. The history of the house of Maitland, Phelps & Co. runs

Coppell. The merchandise business of the firm, which is a commis-sion business, is with Mexico, South America, Cuba, etc.; and besides this they do a general domestic and foreign banking business.

-The Street Railway Publishing Company, publishers of the "Street Railway Journal," have just issued their Finan-cial Supplement, "American Street Railway Investments." The general structure of the book is practically the same as that of last year, though improvements are noted in various particulars. As regards the new and small corporations the work is of especial value. It now embraces 1,444 reports, in-cluding many companies recently incorporated and as yet not in operation. in operation.

-The Fourth National Bank of New York has issued a small pamphlet relating to gold, silver and paper money. It gives the history of American currency for the past hundred years, with statistics relating to coinage, the various kinds of money in circulation, production of gold and silver, and much other useful information. The little book is a valuable con-tiluation to the function litterature of the day. tribution to the financial literature of the day.

-Messrs. Harvey Fisk & Sons, 24 Nassau Street, have had a large demand for their little book entitled, "Wages, Fixed Incomes and the Free Coinage of Silver." The boox is writ-ten in a popular vein; i: presents the arguments of the silver advocates and gives the ans vers in each case so clearly as to be appreheuded by the most ordinary intellect,

-Cnecks for the semi-annual dividend of four per cent on the preferred stock of the John B. Stetson Company will be mailed to stockholders. Dividend payable 15th inst.

-Messrs. Redmond, Kerr & Co.'s July investment circular will be found on the last page of the QJOTATION SUPPLEMENT issued with to-day's CHRONICLE.

-Mr. Arthur Lincoln has been admitted a member of the banking firm of Chas. Fairchild & Co.

WALL STREET, FRIDAY, JULY 3, 1896-5 P.M. The Money Market and Financial Situation.—Business has been active during the week at the Stock Exchange under somewhat peculiar conditions. The purchases of stocks for foreign account have been unusually large, and it is assumed that investors abroad take a more dispassionate and hopeful view of our financial policy of the future than local caritalists are inclined to do.

local capitalists are inclined to do. In view of the probable action on the silver question by the National Democratic Convention at Chicago next week, there has been a vigorous and successful raid upon prices of stocks by operators working for a decline. On Tuesday and Thursday there was some reaction, but net losses are in most

cases relatively large. The foreign exchange market has been supplied to some extent with bills drawn against sales of securities abroad. Gold to the amount of \$1,250,000 has been exported on special extent with bills drawn against sales of securities abroad. Gold to the amount of \$1,250,000 has been exported on special orders from the Continent, regardless of the rates for sterling exchange, which are below the price at which gold can be shipped to London at a profit. There was some irregular-ity in the money market early in the week, incident to the monthly and half-yearly settlements, but steadiness again prevails under an abundant supply and limited demand. The open market rates for call loans during the week on stock and bond collaterals have ranged from 2 to 4 per cent. To-day's rates on call were 2 to 2½ per cent. Prime commercial paper is quoted at 4½@5½ per cent. The Bank of England weekly statement on Thursday showed a decrease in bullion of £671,021, and the percent-age of reserve to liabilities was 54:42 against 59:37 last week; the discount rate remains unchanged at 2 per cent. The Bank of France shows a decrease of 3,333,000 francs in gold and 1,187,000 francs in silver. To-morrow being Independence Day and a legal holiday, the 'Clearing-House bank statement was issued to-day. It shows an increase in loans of \$1,200,000; decrease in circula-tion of \$28,000; increase in deposits of \$2,072,00; decrease in specie of \$61,666,300; decrease in legal tenders of \$922,000 and a decrease of \$1,589,050 in surplus reserve. In the fol-lowing we give the figures for the previous week:

Foreign Exchange .- There is no new feature in the market for foreign exchange, which has been easy under liberal supply of bankers' bills and a limited demand. Ray Rates are unchanged.

To-day's actual rates of exchange were as follows: Bankers' sixty days' sterling, 4 87@4 87¼; demand, 4 88@4 88¼; cables, 4 88¼@4 88½. Posted rates of leading bankers follow:

July 3.	Sixty Days.	Demand.
Prime bankers' sterling bills on London. Prime commercial Documentary commercial Parls bankers' (francs) A msterdam (guilders) bankers Frankfort or Bremen (reichmarks) bkers'	4 86404 864 4 86404 864 $5 1613_{16}5 167_{8}$ 40480403_{16}	5 1558 @ 5 15

The following ere the rates of domestic exchange on New York at the mder-mentioned cities to-day: Savannah, buying 1-16 discount, selling par; Charleston, buying par, selling ½ premium; New Orleans, bank, \$1 50 premium; commercial, 50c. per \$1,000 premium; Chicago, par; St. Louis, 30c.@50c. per \$1,000 premium.

United States Bonds.—Sales of Government bonds at the Board include \$124,000 4s, coup., 1925, at 1161⁄2 to 117; \$5,000 4s, reg., 1925, at 1161⁄2; \$13,000 4s, coup., 1907, at 1087⁄2 to 110; \$2,000 4s, reg., 1907, at 1087⁄2 and \$75,000 5s, coup., at 113 to 1131⁄2. The following are the closing quotations:

State and Railroad Bonds.—Sales of State bonds at the Board are limited to \$10,000 Tenn. settlement 3s at 82½ and \$1,000 Virginia fund. debt 2-3s of 1991 at 57%. The market for railway bonds has been dull and ir-regular. A large proportion of the active list has de-clined, including the Atchison, some of the Northern Pacific, the Oregon Short Line, Mo. Kan. & Texas, Rio Grande Western, Texas & Pacific, Ches. & Ohio, Southern Ry., and other issues. Chic. & No. Pacific 1st 5s have ad-vanced 1½ points. Some activity is noted also in Rock Island, Erie, Mil. & St. Paul, N. Y. Chic. & St. Louis, St. Louis Southwest., Ore. R. & Nav., Wis. Central, Wabash and West Shore bonds. Louis Southwest., Or and West Shore bonds.

and West Shore bonds. **Railroad and Miscellaneous Stocks.**—Stocks have suf-ferred a radical decline during the week, with some reactions. Liberal purchasing for the foreign account has been one of the prominent features, but under a vigorous and persistent attack by the bear element, en-couraged by discussion of political issues, the shares of several prominent railroads have declined to very near the low quotations recorded in January, and a few have reached the lowest prices of the year. Prominent among the last-named is the Burlington & Quincy, which lost 6% points, and Manhattan Elevated, which lost 7 points within the week. The subjoined table, which shows the highest and lowest prices at which ten of the more prominent railroad stocks have sold in this market within the last twenty days, and the closing price to-day, will doubtless be of interest to many readers. many readers.

sector and the sector of the s			

* Ex-dividend.

^{*}Ex-attraction. Under prevailing conditions the industrial stocks have been subject to manipulation, as is shown by the wide fluc-tuations which have occurred. Chicago Gas declined 10³/₄ points and American Sugar 9¹/₄ points. American Tobacco, affected possibly by the action of the directors in not declar-ing a dividend on the common shares, lost 5³/₄ points, and several other stocks of this list declined from 2 to 5 points.

RAILROAD EARNINGS.

The following table shows the gross earnings of United States railroads (and also a few Mexican and Canadian roads) for the latest period reported. The statement includes every STEAM road from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and neluding such latest week or month.

The returns of the street railways are not included in thie table, but are brought together separately on a subsequent page.

A DE

STREEF RAILWAYS AND TRACTION COMPANIES.

The following table shows the gross earnings for the latest period of all STREET railways from which we are able to obtain weekly or monthly returns. The arrangement of the table is the same as that for the steam roads—that is, the first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest weak to month week or month.

*Earnings in May, 1895, were increased by Confederate Soldiers' Re-union in Houston.

Street Railway Net Earnings .- The following table gives the returns of STREET railway gross and net earnings received this week. In reporting these net earnings for the street railways, we adopt the same plan as that for the steam roads— that be, we print each week all the returns received that week, but once a month (on the third or the fourth Satur-day) we bring together all the roads furnishing returns, and the latest statement of this kind will be found in the CHRONICLE of June 20, 1896. The next will appear in the issue of Luly 18, 1896. issue of July 18, 1896.

Cleveland & Marietta Railway.

(Report for the year ending Dec. 31, 1895.)

The tonnage was \$95,041 tons, as compared with 795,710 tons in 1894, an increase of about 1215 per cent. The principal items of increase were bituminous coal and miscellaneous cipal items of increase were bituminous coal and miscellaheous merchandise. The average earnings per ton per mile were 8.5 mills, as compared with 8.6 mills in 1894. Cross ties to the number of 39,595 and 70½ tons of new steel rails were used in renewals. In order to avoid the heavy grade at Tunnel No. 2, a line of a little over eight miles in length is being constructed between Kimbolton and Guernsey station, which is now practically completed. The condition of the motive power was improved by the purchase of four engines to supply vacant numbers.

The 6 per cent bonds, amounting to \$590,000, being subject to call, were paid off at 110 per cent out of the proceeds of \$1,250,000 of 4½ per cent bonds, maturing in 40 years from May 1, 1895. The trust notes and other floating obligations were also discharged, and a portion of the balance used in the

construction of the new line already referred to. Through the retirement of these high-interest bearing securities the financial condition of the company has been greatly improved, and it was able not only to meet the entire interest upon its debt but to pay for the four engines already referred to and carry a small surplus to the credit of profit and loss.

Pittsburg Youngstown & Ashtabala RR.

(For the year ending December 31, 1895.)

There were 5,849,456 tons carried in 1895, an increase of 46.22 per cent as compared with 1894, the gain being princi-pally in through traffic. There was an increase in the mileage of 54.73 per cent, and in the revenue of \$505,658 96, or 47.81 per cent.

47.81 per cent. There were used in the maintenance of track 501 tons of new strel rails and 45,176 cross ties; 635 tons of partly worn steel and 9,912 cross ties were used in the laying of additional tracks. The expenditures on capital account amounted to \$233,465 11, of which \$225,774 was for 425 new gondolas. The second track was also extended in Youagstown. The average rate per ton per mile was '6) cents, against "62 cents in 1895.

Erie & Pittsburg RR.

(Report for the year ending Dec. 31, 1895.)

The tonnage increased 895,112 tons, or over 50 per cent. The largest increases were in the items of bituminous coal, coke, ores, stone, sand, and pig and bloom iron, and the larg-est item of decrease was miscellaneous merchandise. The average rate per ton per mile was 58 cents, against 58 cents in 1894.

In 1894. There were used in renewals 153 tons of new steel rails and 23,870 cross ties, while 63 tons of partly worn steel and 2,000 cross ties were used in the construction of additional tracks. Three miles were ballasted with furnace cinder. The motive power and equipment are in the same condition as in the preceding year, except that two tool cars were sold to the Pennsylvania Company.

Terre Haute & Indianapolis RR.

(Report for the year ending December 31, 1895.)

The tonnage transported was 1,686,712 tons, as compared with 1,490,763 tons in 1894, an increase of 13 14-100 per cent. The average rate per ton per mile was '88 cents agains) '37 cents in 1894.

cents in 1894. The expenses for the year were seriously increased by the disastrous accident to a passenger train January 23th, 1895, at Coatesville, Ind., through the breaking of a switch rail, and the maintenance-of-way expenditures were also largely in excess of the previous year. There was a largely increased loss in operating the leased lines of this company, the result being a deficit in meeting all obligations of \$251,729. The condition of the property was fully maintained, a larger amount of new 85-pound steel rails having been used than in the preceding year, a material parcentage of the tressle bridges having been renewed, and an increased number of cross ties put into the track. cross ties put into the track.

Toledo Peoria & Western Railway.

(Report for the year ending Dec. 31, 1895.)

(Report for the year ending Dec. 31, 1890.) The tonnage was 723,691 tons, against 621,474 tons in 1894, an increase of 102,217 tons, or 16 45-100 per cent, entirely in through traffic. The largest items of increase were grain, miscellaneous mill and animal products, anthracite coal, pe-troleum, sugar, wines, liquors and beers and miscellaneous manufactures. There were large decreases in bituminous coal, stone, sand and miscellaneous merchandise. The work of replacing trestles and wooden bridges with embankment and iron structures was further continued, as also the ballasting of the track with cinder and gravel. The

also the ballasting of the track with cinder and gravel. The equipment was increased by the purchase of 4 consolidated

The average rate per ton per mile was 1'19 cents against 1'32 cents in 1894.

Dominion Coal Company, Limited.

(Report for year ending Feb. 29, 1896.)

(Report for year ending Feb. 29, 1896.) President Henry M. Whitney says: General Remarks—The output for 1395 was less by 135,633 tons than for the previous year, due partly to the dulness of trade in Canada and to the unusually large stocks of coal car-ried over by consumers, and partly to the low price for coal prevailing in the United States. The construction of the railway, begun in May, 1893, was not completed for shipments from Louisburg until October, 1805. As the interest on its cost was charged during construction to working expenses, the sum of \$51,385 (being interest at the rate of 5 per cent on cost to completion of road) has been transferred from the railway suspense account, leaving to the credit of this ac-count \$123,000 to meet future railroad extensions and re-newals. The outlook for 1896 is quite good, the contracts al-ready made ensuring an output in excess of that for any pre-vious year. Shipments for the three months ending May 31 show an increase of 69,489 tons over same period last year. *New Stock*, &c.—As all the mines are now equipped with modern machinery, and the railways and piers completed, no construction work is being done nor is contemplated. Some additions to motive power and rolling stock may be necessary in the an availab to the annunt of \$522,000 represents what is

additions to motive power and rolling stock may be necessary if business increases. Bills payable to the amount of \$523,000 represents what is needed to clear off liabilities for construction work, and leave some money for supplies, &c. The directors have therefore decided to issue \$500,000 preferred stock left in the treasury for such purpose, and have sold and received payment for the whole of this at \$91 net per share, subject to the right of stockholders to subscribe at said price

Railroads Owned—The company owns and operates be-tween its mines and shipping places 54 miles of standard-gauge lines and 22 miles of sidings, with 13 locomotives and 1,170 cars of 10,854 tons coal capacity. It also owns and uses as supplementary to these, narrow-gauge lines 18 miles miles in length, with 6 locomotives and 350 cars. Its pissenger and general freight business is satisfactory. Earnings and Bulance Sheet .- For the late year the earn-

ings, etc., were :

Lamson Consolidated Store Service.

(Report for year ending March 31, 1896.)

The directors say in their report for the late fiscal year:

The directors say in their report for the late fiscal year: "The general stagnation in business has continued and the busines as has not proved so large and profitable as we had reason to hope when making our report to you a year ago. The earlings however, have been increased considerably, although the competition in some cases has been very sharp. Two dividends at the rate of 8 per cant per an-num have been earced and paid. The bonded debt has been reduced \$40,000, and in addition \$35,472 has been placed to the credit of profit and loss account. New and ingenious systems have been de-reduced systems for s ores, news-papers, public libraries, markets, etc., and the company is now prepared to install all kinds of carrying systems for s ores, news-papers, public libraries, manufactories, markets and banking houses. In the suit with the Barr Company all the evidence has been taken and the case is in order for argument at the fall term. The difficultion for between four and five hundred stations." *Earnings.*—Earnings show as follows: *Year endingn March* 31— 1896 1895 Increase

P. Lorillard Company.

(Statement for year ending June 30, 1896.)

The company has issued no report, it is understood, "for trade reasons," but the following is the statement made by the President at the annual meeting June 30:

by the President at the annual meeting June 30: "While it is impossible to give any accurate report of the business intil our books are made up. I would state that during the early par of the year the tobacco business of the United States was more or less seriously affected by excessive competition, combined with duil times. However, in the last few months general business shows an improve-ment and competition has lessened considerably, and all signs point; We have ample capital and large stocks of leaf tobacco; have made practically no bad debts; we have also recently mide som; what extensive improvements and alterations in our factory, which will enable us in the coming year to manufacture at a considerably ma-chnery has also been reorganized, and should in the future enable us to put our product on the market at less expense than in former years.

years. "For the year ending Feb. 1 the company paid 8 per cent in divi-dends on its preferred slock and 6 per cent in dividends on its com-mon stock, besides putting aside the usual amount to guarantee against depreciation account."-V. 61, p. 67

Georgia Railroad & Banking Co.

(General Balance Sheet of March 31, 1896.)

Following is the general balance sheet of the Georgia RR. & Banking Co. presented at the annual meeting in May, 1896. GENERAL BALANCE SHEET MARCH 31, 1896.

ities owned or in the stock and bonds outstanding. The surplus at \$1,360,283 in 1896 compares with \$1,359,443 in 1895. -V. 60, p. 1144.

GENERAL INVESTMENT NEWS.

* Reorganizations Etc.-Latest Data as to Defaults, Re-organization Plans, Payment of Overdue Coupons, Etc.-All facts of this nature appearing since the publication of the last issues of the INVESTORS' and STREET RAILWAY SUPPLE-MENTS may be readily found by means of the following index. This index does not include matter in to day's CHRONICLE.

For some minor companies see also index in CHRONICLE May 16, p. 907; June 6, p. 1039, and June 27, p. 1176. of

American Tobacco.—*Dividend*.—The directors this week declared a 2 per cent dividend on the preferred stock but took no action on a dividend for the common.—V. 62, p. 907.

American Water Works Co.—Opposition to Plan.—The following Boston banks object to the reorganization plan heretofore submitted (CHRONICLE, June 13, page 1085): Na-tional Bank of the Republic, National Bank of Redemption, National Eagle Bank, National Security Bank. A circular issued by them says in part:

issued by them says in part: Especially do we object to the excessive amount of \$360,000 for the committee to spend under their second item of "cash requirements." for expenses of foreclosure, receivership and reorganization, etc. We also object to the voting trust, which will vest in the committee com-plete control of the proposed new company for mahy years to come, and, if the committee so elects, forever. If the bondholders will sign and return to the National Bank of Redemption, Boston, the enclosed form of dissent, we will see that all dissents so received are duly filed with the Farmers' Loan & Trust Co. This is necessary to be done, as the agreement of Aug. 16, 1893, was so framed that unless a majority dissent, any plan submitted will be adopted. We will then undertake, within thirty days of the rejection of this plan, to submit one that shall accomplish a reorganization with a future prosperity much more fully assured and not calling for \$300,000 of the proposed assessments on certificates of deposited bonds, and possibly doing away with the entire assessment of \$540,000, except the \$10 per bond which the bondholders are already bound to pay to the committee under existing agreement. agreement.

The circular also contains the correspondence with the committee and the changes in the plan suggested by the banks .-V. 62, p. 1086.

Athens (Ga.) City Water Works.—Foreclosure Sale Con-firmed.—Judge Newman has signed the decree confirming the foreclosure sale of this property at Atlanta to Charles Chaun-cey Savage for \$3,000.

Atlantic Short Line RR.—Ordered Sold Aug. 4.—Judge Speer, of the United States Circuit Court at Macon, Ga., has ordered this road to be sold in foreclosure Aug. 4, the mini-mum price being \$210,000. The property was formerly the

Macon & Allantic, projected from Macon to Savannah, and consists of about 30 miles of road, on which rails are down, and 60 miles of graded roadway. Its indebtedness is said to be about \$200,000. Two unsuccessful attempts have already be about \$200,000. Two unsuccessful attempts been made to sell the property. $-\nabla$. 61, p. 151.

Atchison Topeka & Santa Fe Ry.—Report.—President Walker has prepared an elaborate statement of receipts and expenditures under the receivership, and of the charges. earn-ing since the new company took possession. We are expenditures under the receivership, and of the charges, earn-ings, &c., since the new company took possession. We are able to give this week only the following table showing the earnings and expenses for the system (now 6,433 miles) for the first five months of the present year, including income from investments and deducting taxes and rentals, the bal-ance being applicable to the payment of interest:

Since January 1, 1896, 50 miles of new steel rails have been laid in the main line, charged to operating expenses, which were purchased by the receivers at last year's prices. The total annual fixed charges upon the property as taken over on January 1, 1896, were as follows:

a Rate % Ann Int.

Ronde	outstand'
DUILLOS	O cococorow ;

	Dorotto o cocordinate gr	200000 10	
Guarantee Fund Notes	. \$9,000,000 00	6	\$540,000

General Mortgage		. 4	3,879,620
denormi interiouse			

\$4,662,030

General mortgage bon's to the amount of \$863 000 have been issued since January 1, 1896, and a corresponding amount of said miscellaneous unasented bonds have been retired; resulting in a slight decrease of fixed charges, as the bonds retired carried interest at higher rates than 4 per cent. The total annual fixed charges are now \$4,650,590, or \$387,519 per month

per month. During the present year a final settlement has been con-cluded with the Mexican Government in respect to the Sonora Subsidy, as the result of which this compaoy now holds bonds of the Interior Consolidated debt of the United States of Mexico, bearing interest at 3 per cant to the amount of \$1.049,800 the coupons of which are being regularly paid. *Cash Assets.*—On Dec. 31, 1895, the committee held for the company sundry securities having an aggregate par value of \$13,083,000, including \$5,663,000 St. Luis & San Francisco consol, 4s, \$5,000,000 old Atchison 2nd mortgage, class B, bonds, \$519,000 class A bonds, \$955,000 old general mortgage bonds, etc. In addition thereto, after making allowance for all expenses of the committee, there remained in their hands on Jan. 1, 1896, as estimated, \$1,000,000 in cash. The new company uherefore received : company therefore received :

Thi

Total......\$4,671,550

On Jan, 1, 1896, there was assumed by the new company accrued interest upon funded debt to the amount of \$1,165,-262, being chiefly interest on the new General Mortgage Bonds for three months prior to January 1, 1896. Cash to the amount of \$1,000,000 was drawn from the above monies in the hands of the Reorganization Committe, and used in pay-ing said interest when the coupons fell due. Since January 1, 1896, funds have been provided for payment of \$2,324,018 coupons, all from the earnings of the property except said amount of \$1,000,000. The report of the receivers shows:

The report of the receivers shows:

Baltimore Catonsville & Ellicott Mills Ry.—(Electric) Ry.—Columbia & Maryland RR.—New Mortgage.—The B. C. & E. M. Ry. Co. has filed a mortgage to the Safe De-posit & Trust Co. of Baltimore, trustees, to secure the issue of \$500,000 in twenty-year 5 per cent gold bonds. The road be-longs to the Columbia & Maryland system.—V. 62, p. 908.

Baltimore & Ohio RR.—Preferred Stock.—Default was made July 1 on the dividend payable on the preferred stock. As already stated the holders of this stock are proposing, if possible, to establish their claim that they have a lien on the company's main line ahead of all the mortgages. As to this contention the Baltimore Daily Record for June 27 publishes in full an opinion furnished by Alfred J. Shriver, attorney-at-law. This opinion closes as follows: Strictly and literally construed, and not going outside of the papers which constitute the contract, which is the general rule of evidence. I must say that what is now known as the first preferred stock is not payable, at present, out of the "gross," but out of the "net" profits

of the road, and constitutes no lien whatsoever on the assets or corpus of the company.

Below, under the heading "Toledo St. Louis & Kansas City," is a statement which has been sent us calling attention to the similar position occupied by the preferred stocks of the B. & O. and T. St. L & K. C. Coupon Payments and Defaults.—The coupons due July 1 on the various bonds of the system were paid or defaulted

upon as follows :

Coupons due May 1.	How treated

Boston Terminal .- New England RR.-Bonds Offered. Boston Terminal.—New England RR.—Bonds Offered.— The Massachusetts Railroad Commissioners have approved the issue of \$6,000,000 in bonds by the Terminal Company, which is about to erect the new Southern Union station in Boston. The company showed that \$5,000,000 of the loan can be used within ten days in the purchase of real estate. The land of the New England RR. Co., which it is understood will be the first conveyed, is valued at about \$2,000,000, the valuation having been determined by three referees. The Terminal Company has advertised for bids for its 3½ per cent 50-year currency bonds.—V. 62, p. 1133. Brunswick Traction Co. New Brunswick N. I.—New

Brunswick Traction Co., New Brunswick, N. J.-New Mortgage.-This company has filed a mortgage for \$500,000 to the Fidelity Title & Deposit Company of Newark.-V. 61, p. 966.

Buffalo Rochester & Pittsburg Ry .- Pittsburg Extension -The company has completed the survey of a route extend-ing its line from the present terminus at Punxutawney to Pittsburg, but nothing definite has yet been decided upon as to constructing the line. -V. 62, p. 908.

California & Nevada RR .- Foreclosure Suit .- The Central Callfornia & Nevada KK.—*Poreclosure Sult.*—The Central Trust Co., as mortgage trustee, has brought suit to foreclose the \$5,000.000 mortgage of 1894, under which \$545,000 of 6 per cent bonds were issued. No interest has been paid. The action was precipitated by the suit of Charles H. Smith, filed May 28, to declare the bonds illegal. A new receiver is asked in place of C. B. King, appointed on motion of Smith. The company has been operating from Emeryville to Bryants, Cal. 31 miles Cal., 31 miles.

Central of Georgia Ry.—Georgia Southern & Florida Ry. Southern Ry.—Stock Control —On June 29, it was shown to the Georgia Commission that 49.991 of the 50,000 shares of stock of the Central of Georgia Ry. are held by Messrs. Thomas & Ryan, of New York, while President H. M. Comer and each of the eight directors hold but one share each. President Comer stated to the Commission that the Southern Railway Company does not own a dollar's worth of the Cen-tral stock, and so far as he was concerned it never would. For the Georgia Southern & Florida, General Counsel Judge Hall admitted that the Southern Railway Company owned 10,000 of the 27,000 shares of stock, but denied that the Southern exercised or could exercise, if it wanted to, the control of the line by reason of this holding, as the firm of Edwards & Parsons of Birmingham hold 7,000 shares, which was the balance of control.—V. 62, p. 908, 1138, 1177.

Central Vermont RR.-Coupon Payment.-The bond-holders' committee gives notice to holders of the Con-solidated Railroad of Vermont 5 per cent bonds that the July coupons of the above bonds deposited with this com-mittee have been paid and certificate holders may obtain their interest by presenting their certificates at the American Loan & Trust Company, 53 State Street, Boston. All those bond-holders who have not already deposited their bonds are earn

notders who have not already deposited their bonds are earn-estly requested to do so before July 10th. Besides the interest on the bonds of the Consolidated RR. Co. of Vermont, due July 1, amounting to \$175,000, the U. S. Circuit Court has authorized the receivers to pay the interest on equipment bonds to July 1, amounting to \$13,000; also in-terest on the floating debt. secured by collateral, not to ex-ceed \$20,000.--V, 62, p. 1138.

Chicago & South Side Rapid Transit-Ordered Sold Chicago & South Side Kapid Transit—Ordered Sold in Foreclosure—At Caicago on June 29 Judge Hanecy entered a decree of foreclosure under bo'h mortgages, ordering a sale of the property after sixty days' advertising. The upset price is fixed at \$4,000,000. For principal and interest there is due on the first mortgage \$8,172,812, on the extension mort-gage \$3,227,895. The findings of the Master show the receiver now has in his possession \$211,887, while there is held by the Northern Trust Co. the sum of \$103,311 belonging to the Ca. & S. S. R. T. Co. The decree of sale is the result of the agree-ment referred to hast week.

& S. S. R. T. Co. The decree of sale is the result of the agree-ment referred to last week. *Reorganization Plan.*—The Chicago *Tribune* gives the fol-lowing additional particulars as to the proposed plan:

The plan provides new bonds shall be issued at our for the first mort-gage bonds and at the rate of 60 per cent of the face value of the bonds in case of the secon section bonds. This will make a new issue of \$9,300,000 bearing interest, will be paid at the rate of 3 per cent for

the first five years, 4 per cent for the second five years, and 5 per cent for the remainder of their term. Preferred stock will be given for the back interest, and also for the amount of the scaled interest during the ten years. Preferred stock would also be given under the assess-ment upon the stock. This would give a total of \$4,078,300 6 per cent non-cumulative preferred stock at the end of a ten-years term. In the event of the stockholders failing to pay the assessment of \$25 per share the bondholders will be left with the road, against which there would be no securities other than the issue of \$9,300,000 in bonds. -V. 62, p. 1176.

Colorado Coal & Iron Development—Receiver Ap-pointed.—John L. Jerome was on June 24 appointed receiver of this company on application of the Colorado Fuel & Iron Co. H. H. Truman, President of the Development Co., says :

Co. H. H. Truman, President of the Development Co., says: The receivership was a total surprise to us. Under the terms of the \$700,000 Colorado Coal & Iron 5 per cent bonds, issue of 1889, the Colorado Fuel & Iron Co. is practically a guarantor of interest and taxes on the land. The friends of the Development Co., as well as the company itself, have discharged these claims as they matured- in the aggregate for three years \$170,000. In their estimation, the Develop-ment Co. has a claim against the Fuel Company for that amount. The last payment of this nature was \$17,500 made individually by Mr. E. J. Berwind, who bought the January 1 coupons. The company has been compelled to borrow money to meet part of these payments and its floating debt to day is between \$90,000 and \$100,000, mostly secured by land notes and mortgages.

Coupons Purchased.—Coupons due July 1, 1896, from the 5 per cent gold mortgage bonds of the Colorado Coal & Iron Development Company are being purchased by Ladenburg, Thalmann & Co., 45 Wall Street, New York.—V. 61, p. 661.

Colorado Midland RR.—Default on July Interest.—The Receiver of the Colorado Midland, owing to the strike of the miners, has failed to remit the funds to meet the coupon due July 1 on the Busk Tunnel bonds and the Aspen Short Line bonds. The coupon due on the Equipment B bonds was paid. bonds. -V. 62, p. 726.

Columbus & Hocking Coal & Iron.—Interest on Bonds.— On July 1 the company had on deposit with the Central Trust Company the full amount necessary to pay the coupons on its first morgage bonds. The trust company, however, was ad-vised by its counsel and also by counsel to the bondholders' committee not to pay out the money until after the adjourned hearing in the foreclosure proceedings on July 6. The Court adjourned the hearing from April 28 to the date mentioned "in order to see whether the navment of the July 1, 1896, inadjourned the hearing from April 28 to the date mertioned "in order to see whether the payment of the July 1, 1896, in-stalment of interest shall be paid or defaulted." As the money has been paid to the trustee, the company is not in default, and it is assumed that the application for the appoint-ment of a receiver will be dismissed unless it is retained simply to determine whether the defendant company is bound to pay the trustee's costs and expenses. The only cou-pons paid July 1 were those on a few bonds not deposited with the committee.—V. 62. p. 1176. *Deposits of Stock.*—The time for deposit of stock with the Farmers' Loan & Trust Company has been extended to July 10, after which date no stock will be received except upon the payment of a penalty of 25 cents per share, and then only at the discretion of the committee.—V. 62, p. 1176.

Consolidated Kansas City Smelting & Refining Co.-Listing of Preferred Stock.—This company's 7 per cent cumu-lative preferred stock was listed last week on the New York Stock Exchange. The full text of the resolutions of the stockholders increasing the capital stock and stating the terms as to the rights of the preferred stock is given in the application to the Stock Exchange, which we print at length on a subsequent page.—V. 62, p. 1176. Das Moines & Fort Dadge RR — Annual Statement.—The

Des Moines & Fort Dodge RR.—Annual Statement.—The income account for the year ending Dec. 31, 1895, is furnished as follows :

	Miscel. expenditures 1,322 Div. (6%) Aug. 1, 1896,
The Bill of	preferred stock 45,756
Total income\$166,563	Balance in treasury \$14,605

Distilling & Cattle Feeding - American Spirits Manufactaring—New Securities Ready July 6.—Noice is given to holders of reorganization certificates that on and July 6, 1896, the Manhattan Trust Co. will be prepared to receive the said certificates for conversion into securities of the American Spirits Manufacturing Co., as provided in the plan of reorganization.-V. 62, p. 907.

ization.-V. 62, p. 907. Dabuque & Sioux City Ry.-Cedar Falls & Minnesota RK.-Illinois Central RR.-Consolidation.-New Bonds.-The stockholders of the Dubuque & Sioux City, at Dubuque, on June 25, voted to amend the articles of incorporation, in-creasing the capital stock and giving power to incur indebted-ness in order to absorb the Cedar Falls & Minnesota. Of the Illinois Central Western Line bonds for \$10,000,000 (secured by first mortgage of the Dubuque & Sioux City Co.) \$1,875,000 are reserved unissued until the Cedar Falls & Minnesota shall be transferred free and clear of incumbrance to the mortgage trustee. Consequently on merger of the Cedar Falls & Minne-sota, recently sold in foreclosure, into the Dubuque & Sioux City, the plan for issuing the \$1,875,000 additional Western Lines bonds can be carried out.-V. 62, p. 1039. Funder Steta Bank -Bank Dissolved -This bank, organ-

Empire State Bank.—Bank Dissolved.—This bank, organ-ized under the laws of New York in 1889, has been finally dissolved by an order of the Supreme Court.

Georgia & Alabama Ry.—Coupon Payment.—The coupons due July 1 on the first consols were paid in cash, the earnings of the road making it unnecessary to pay them in scrip, as permitted for first five years by mortgage.—V. 62, p. 1040.

Gray's Point Terminal Ry.—St. Lonis Southwestern Ry. *—New Mortgage.*—The stockholders of the Gray's Point Ter-minal Ry. will meet Aug. 31st to authorize the making of a mortgage for not exceeding \$500,000 for the completion and furnishing of i's line of railroad from Dalta, Mo., to Gray's Point (on the Mississippi River).—V. 62, p. 988.

Jacksonville Louisville & St. Louis Ry.—Jacksonville & St. Louis RR.—The Jacksonville Louisville & St Louis Ry., recently sold in foreclosure, was turned over to the new com-pany, the Jacksonville & St. Louis RR, on July 1. *Reorganization Plan.—New Securities*.—The new company will issue the following securities:

- \$350,000

1.650.000

Joint Traffic Association .- Canadian Pacific Joins Tentatively.- It was agreed this week by President Van Horne that the Canadian Pacific should join the Joint Traffic Associa-tion tentatively, with right to withdraw at any time on thirty days' notice in case the agreement does not operate to the company's benefit.--V. 62, p. 988.

Long Island RR—Mr. Corbin's Stock.—The will of the late Austin Corbin, President of this road and a large owner of its stock, is said to provide that his stock in this and other corporations shall be given to the executors in trust to hold during the life of Mrs. Corbin. After her death the property is to be divided among the children and grand-children but the executors, it is said, will have power over it. Officer.—The directors have elected Edgar S. Edgell, son-in-law of Mr. Corbin, Vice President of the company, but no decision has been made as to the Presidency.—V. 62, p. 949.

Louisville St. Louis & Texas Ry.—Louisville Henderson & St. Louis Ry.—New Securities Ready July 10.—The reorgani-zation committee announces that on and after July 10 the re-organization certificates representing the bonds may be ex-changed at the State Trust Co., 100 Broadway, N. Y., for the new securities to which they are entitled under the plan.—V. 62 p. 1440 62, p. 1040.

Marietta & North Georgia BR.-Atlanta Knoxville & Northern Ry.-Co Receiver.-Eugene Spalding of Atlanta has been appointed a co-receiver of the Marietta & North Georgia Railroad. He represents the syndicate that bought the road.-V. 63, p. 1086.

Memphis & Charleston RR.-Foreclosure Suit.-Bills for the foreclosure of the 7 per cent mortgages are being filed and it is the intention of the Iselin reorganization committee to push the proceedings as rapidly as possible. Under the Iselin plan (V. 62, p. 457) it is provided that the Southern Railway shall own the stock of the reorganized company.-V. 62, p. 1041,

Minnesota & Wisconsin RR.—Sold in Foreclosure.—At Hudson, Wis., June 25, this short road was bid in at fore-closure sale for \$80,000 by Maurice Auerbach, represent-ing the St. Paul Trust & Title Insurance Company, the mortgage trustee. Receiver Dewey, at Medford, Taylor County, Wis., on June 23, also sold to a kindred syndicate all the lands and manufacturing appliances, embracing 50,000 acres of timber and mineral lands and other property to the amount of \$220,000. The receiver still has the Eagle Iron company plant at Spring Valley to dispose of.—V. 62, p. 1041.

Missouri Kansas & Texas Ry.-New Stock Listed.-This company has listed on the New York Stock Exchange the \$5,450,000 stock recently authorized in order to absorb by consolidation the following subsidiary lines:

Consolidation the following subsidiary lines: First-The Missouri Kansas & Eastern Ry., extending from Boon-ville Bridge to St. Locis, forming the entrance into that city. Second-The St. Locis & Kansas City Rv., from a point on the main line westerly 33 miles to Holden, thus antiting the St. Louis and Kan-sas City divisions, and forming a through line between the two im-portant cities named. Third-The Southwestern Mineral Ry., extending from the main line south of Parsons, 17 mil-s, to the company's coal properties in southeastern Kansas.-V. 62, p. 1087.

New Orleans & Southern RR.—Foreclosure Sale Ordered.— udge Parlee, in the United States Circuit Court at New Orleans on June 26 ordered the foreclosure sale of this road in New Orleans, after eight weeks' advertising.—V. 62, p. 590.

New York Telephone-Metropolitan Telephone & Tele-graph-Westchester Telephone.-Business Consolidated.-The New York Telephone Company, recently organized, has formally taken over the business of the Metropolitan Tele-phone & Telegraph and Westchester Telephone companies. It is said there will be no dissolution of the old corporations, but the business will be managed by the New York Telephone Co. The stock of the two old companies will participate equally in such dividends as the earnings will warrant. The officers of the New York Telephone Company are the same as the officers of the Metropolitan corporation, viz.: Presi-dent, Charles F. Cutler; Vice-President, Joseph P. Davis; Secretary, John H. Cahill, and Treasurer, William H. Driver. V. 62, p. 1139. New York Telephone-Metropolitan Telephone & Tele-

V. 62, p. 1139. New York & Queens County Ry.—Steinway Ry.—Incor-poration.—The New York & Queens County Ry. Company was incorporated at Albany June 26 with a capital stock of \$2,500,000. This company, the bonds of which were offered for subscription in December last by Dexel & Co. of Phila-delphia will be a consolidation of the Steinway Ry. Co. of Long Island City, the Newtown Ry. Co., the Riker Avenue & Sanford's Point RR. Co. and the Flushing & College Point Electric Ry. Co. The directors are: Rudolph T. McCabe, Benjamin Orme, Walter Pease of New York City, and Ed-ward J. Matthews, Edward T. Stotesbury, Caleb F. Fox, William Shelmerdine and R. E. Cowen of Philad-lphia. See statement as to enterprise in the CHRONICLE of December 14, 1895, page 1065.—V. 61, p. 1065.

Organ Short Line & Utah Northern Ry.—Reorganiza-tion Notice.—Notice is given to the securities disturbed that until July 15, 1896, the bonds may come in under the plan on payment of \$5) penalty per bond, and the stock may be deposited on payment of \$1 per share in addition to

They be deposited on payment of \$1 per share in addition to the required assessment. See our advertising columns. After July 15th d posits will be received only in the dis-cretion of the committee and upon payment of a penalty of \$100 per bond and \$2 per share of stock deposited — V. 62, p. 1140,

Providence & Springfield RR.—New England RR.—New Lease.—At Providence June 27, the stockholders of the Provi-dence & Springfield ratified the modified lease to the New England RR. This lease, it is und erstood, is substantially the same as the lease to the old New York & New England, ex-cept that under the terms now in force dividends at the rate of 4 per cent per annum are payable semi annually on the stock, as against 6 per cent under the old contract. The lease runs till July 1, 1989.—V. 61, p. 1014.

Rutland RR.-Coupon Payment.-The coupons due July 1 on the consolidated bonds were paid when due. This road is now operated independently of the Central Vermont. See V. 62, p. 868.

St. Lawrence & Adirondack Ry.—Consolidation.—This company was consolidated on Thursday with the Southwestern Ry. Co. of Canada. The consolidated company has a capital stock of \$1,090,000. The directors are William Seward Webb, of Shelburne, Vt.; Chauncey M. Depew, Elgar Van Etten, John Jacob Astor, Charles H. Birnett and Henry L. Sprague, of New York; Martin E. McClary, of Malone; Edward C. Smith, of St. Albans, Vt., and Reuben W. Leonard, of Beau-harnois, Quebec.—V. 62, p. 1140.

St. Louis & San Francisco Ry.—Sold Under Foreclosure.— The St. Louis & San Francisco Ry. was sold under foreclosure June 27 to E. C. Henderson, counsel for the Rorganization Committee, for \$1,250,000, the upset price. There was no other bid. On the same day Judge Thayer confirmed the sale. He also confirmed the sale to the same persons of cer-tain lands, stocks, etc., not covered by the consolidated m ort-

sale. He also confirmed the sale to the same persons of cer-tain lands, stocks, etc., not covered by the consolidated mort-gage, for \$25,000. *Contracts and Stocks Discarded.*—Subsequently the pur-chasers filed notice that they did not intend to assume cer-tain obligations of the former Frisco, twenty in number, in-cluding the "tripartite agreement" between the Frisco, the Santa Fe and the Atlantic & Pacific companies, and other contracts connected therewith. The purchasers also gave notice that they elected not to take the stock of the Kansas Midland Ry., the St. Louis Kansas & Southwestern RR, the Kansas City & Southwestern RR, and the St. Louis Salem & Arkansas Ry.

Kansas City & Southwestern RR, and the St. Duts balance Arkansas Ry. Arkansas Ry. New Company.—At Jefferson City, Mo., on June 30, was chartered the St. Louis & San Francisco Railroad to take over the property sold as above stated and to issue the new securi-ties described in the reorganization plan on page 829 of the CHRONICLE for May 2, 1896. The president and directors of the new company were given last week. The new company took possession at midnight, June 30.—V. 62, p. 1179.

St. Louis Siloam & Southern RR. — Mortgage for \$8,000,000 Filed.—This company, of which Col. H D. Mackay of St. Louis is President and chief promoter, has filed a mortgage to the United States Mort. & Trust Co. and Thos. Jefferson Portis, trustees, to secure \$8,000,000 bonds to be issued for the con-struction of its road from Fort Smith, Ark., to St. Louis, Mo. The company was incorporated June 15 with a authorized capital stock of \$5,000,000; par \$100.

Sandusky Mansfield & Newark RR.-Default July 1.-President Gardiner, of this company, advertised this week that the coupons on the consolidated mortgage bonds due July 1 would not be paid, owing to the receivers of the Baltimore

300,000

& Ohio RR. not being in funds. He adds: "We are assured that the net earnings of this road will be applied to the pay-ment of the rental, and think it is only a question of a few months when the coupons will be paid."

Second Avenue Traction.—Federal Street & Pleasant Valley Ry.—Pittsburg Allegheny & Manchester Traction. —Consolidation.—As to the consolidation, the following from the Baltimore Sun is pronounced substantially correct:

the Baltimore Sun is pronounced substantially correct: Arrangements are satisfactorily progressing for the consolidation of a number of street railways at Pittsburg, Pa, the entire capital being furnished by Alexander Brown & Sons, of Baltimore. So far lines with an aggregate of 115 miles have been secured and negotia-tions are in progress for several others. The Pleasant Valley Railway Co.'s property, embracing 36 miles of road, has been secured by pur-chase. Under the terms of this sale the majority stockholders will re-ceive \$25 a share, the par value, for their stock and 6 p. c. interest in January next. The minority stockholders are to receive \$24 25 a share and 5 per centinterest in January. The Pittsburg Altegheny & Manchesler Traction Co.'s line, with 20 miles of road, and the Second Avenue Traction Co.'s property, including 62 miles of road, have also been secured.

sectired. A new company will be organized to operate these lines and any others that may be secured. It is expected to reduce materially the operating expenses by having but one management for the consoli-dated properties. A number of improvements are planned to improve the facilities of the various lines.

A statement that is not confirmed is to the effect that the stockholders of the Manchester company will be allowed \$50 per share for their stock, with 5 per cent interest. -V. 62, p. 989, 1179.

Susquehanna & Tidewater Canal.—Sold at Auction.— This property, with the Columbia dam and appurtenances, was sold at public auction last Saturday and bought for \$80,000 by Judge E. D. J. Cross, attorney for the Baltimore & Ohio.—V. 61, p. 473.

& Ohio.-V. 61, p. 473. Tehuantepec National Ry. (Mexico). - Lease.-It is an-nounced that the Mexican Government has leased this road to Messrs. Pierson & Son of London for fifty years. The Gov-ernment contributes \$150,000 per month during three years for the remaining construction of the road proper was announced by President Diaz to the Mexican Congress some time the lesses obligate themselves to have the line in sub-stantial condition. The completion of the road proper was announced by President Diaz to the Mexican Congress some time ago; but it remained to provide costly harbor and ter-minal facilities at Coatzicoalcos, on the Gulf, and to build a pier half a mile long to deep water at Salina Cruz, on the Pa-cific. It also remained to establish fully the system of ope-ating the road, and to provide for trans-shipment by lighters until the piers should be ready. After three years the re-ceipts of the road are to be divided between the Government and the lessees on a varying scale for each period of the years. The road runs between the Port of Coatzacoslos, on the Gulf, and the Port of Salina Cruz, on the Pacific Ocean. and the Port of Salina Cruz, on the Pacific Ocean.

Tennessee Coal & Iron.—Steel Plant Project.—The project of constructing a steel plant at Birmingham determined upon some months ago is held in abeyance, owing to the inability to secure on advantageous terms all of the one million dollars required.—V. 62, p. 632.

Terre Hante & Logansport RR.-Default.-The coupons due July 1 on the first mortgage bonds remain unpaid.

Toledo St. Louis & Kansas City RR —Baltimore & Ohio RR.—Status of Preferred Stock —Mr. James M. Quigley, the lawyer who is prominently identified with the preferred stock of the Toledo St. Louis & Kansas City, furnishes the following, in connection with suit now on appeal to establish the lien of that stock on the property of the company :

The Baltimore & Ohio first preferred stock and the Toledo St. Louis & Kansas City RR. preferred stock present much the same questions for the decision of the courts. Both are stated to be liens; the like-ness to a bond in the latter being carried to the extent that it runs to bearer and does not entitle the holder to vote at stockholders' meet-

ferred stockholders.—V. 62, p. 1178, 1179. Union Pacific RR.—Coupon Payment.—Coupons due July 1, 1896, on the collateral trust 6 per cents of 1879 were paid at maturity at the Union Trust Co, New York.—V. 62, p. 1098. Wabash RR.—Interest on "A" Debentures.—The directors Wednesday declared a dividend of 1 per cent on the deben-ture "A" bonds. The statement for the year ending June 30, it is stated, will show a surplus of about 2 per cent applicable to dividends on these bonds, but it was considered conservative to apply only half of the surplus to the bonds. The last pay-ment on the "A" bonds was 6 per cent in 1893.—V. 62, p. 1042. Westinghouse Blocking & Bondiage and Stock

Westinghouse Electric & Manufacturing Co .- Stock to be Listed July 16.—The \$3,000,000 additional assenting stock re-cently auth rized will be added to the official list of the New York Stock Exchange on July 16, making total amount listed \$3,105,126,—V, 62, p. 1042.

Reports and Documents.

SOUTHERN PACIFIC RAILROAD COMPANY OF CALIFORNIA.

ABSTRACT OF THE ANNUAL REPORT FOR THE YEAR ENDING DECEMBER 31, 1895.

NEW YORK, May 30, 1896.

Mr. C. P. Huntington, President Southern Pacific Co .:

SIR: In accordance with your request, I submit here-with report showing the property owned and the financial condition of the Southern Pacific Railroad Company of California, a constituent company of the Southern Pacific Company, for the year ending December 31, 1895. The mileage at the close of the year was as follows:

Miles of road owned, i Needles*			
Leased: San Bernardine	to Motor Jui	netion	 7.237
Total			 1,920.667
Second track		****************	 12.237

2.333.274

[•] The line between Mojave, Cal., and the Needles, 242.51 miles in length, is leased, and contract delivered for its sale, to the Atlantic & Pacific Railroad Company, that Company paying as rental an amount equal to the interest on the bonds which were issued in respect of said line. This rental amounts to the annual sum of \$436,266, and is treated as rental received for account of Southern Pacific Railroad of California in the accounting between it and the Southern Pacific Company.

There was added during the year the following additional mileage: Extension of the Coast Division, San Luis Obispo to Guadalupe, 24.9 miles; Shorb to Pasadena, 4.834 miles; Guadalupe to Lake, 3.399 miles; Bassett to Covina, 9.557 miles, a total of 42.690 miles of main line and branches, and 5.542 miles of double track from Los Angeles to Shorb.

II. CAPITAL ACCOUNT.

The bonded debt outstanding at the close of the year consisted of : 1995 1004

First mortgage six per cent bonds under	1894.
mortgage of April 1, 1875- Dae April 1, 1905	\$12,953,500 4,711,000 8,111,000 5,154,000
Issued against the mileage shown under \$30,667,500 Division I.*	\$30,929,500
First mortgage six per cent bonds of the Southern Pacific Branch Ry. bonds, due April 1, 1937	\$3,578,000
First mortgage five per cent bonds, due January I, 1905, of the Stockton & Cop- peropolis RR	\$500 ,000
First mortgage five per cent bonds of 1888, due October, 1938	\$1,471,000
First mortgage five per cent bonds of 1893, due November, 1937	14,445,000
Issued against the mileage shown under \$17,581,000 Division IV.*	\$15,916,000
Total\$52,326,500	\$50,923,500

["These divisions are given in the pamphlet report.-EDS.]

The changes in the bonded debt have been as follows :

The capital stock outstanding at the close of the year con-sisted of 700,061 shares, of \$100 each, amounting to \$70,006,-100, of which \$68,162,250 is owned by the Southern Pacific Company. There was issued during the year capital stock to the amount of \$1,603,200, in payment for construction of new lines.

There was expended during the year for betterments and additions, and charged to capital account, \$273,364 20, de-tails of which are shown on Table No. 8.

Outstanding December 31, 1895......\$30,667,500 00 The company has toward the redemption of said bonds the following assets :

\$4,700.162 55

The bonded debt outstanding at the close of the year, eliminating therefrom the \$7,271,000 bonds of the Mojave Division perpetually leased to the Atlantic & Pacific RR. for rental equal to the interest on said bonds, averages \$26,-965 29 per mile of road, and the annual interest charges thereon to \$2,522,514, or \$1,509 70 per mile of main line.

III. INCOME FOR THE YEAR 1895.

III. INCOME FOR THE YEAR 1895. The company's lines of railroad are operated by the Southern Pacific Company, under a lease for ninety-nine years. The lessee, under said lease, agrees to pay the operating expenses, taxes and the interest on the bonded indebtedness; and to pay over to the lessor, at the end of each year, 44 per cent of the net profits which remain from the operation of the following railroads, leased by the same instrument to the Southern Pacific Company, viz.: Southern Pacific Railroad of California, Southern Pacific Railroad of Arizona, Louisiana Western Railroad, Morgan's Louisiana & Texas RR. & S. S. Co. properties. This company's proportion of the net profits under the above lease for the year ending December 31, 1895, amounted to \$916,808 67. The income from all sources for the year and charges against said income have been as follows:

charges against said income have been as follows :

Income from operations as above	1895. \$916,808 67	1894. \$526,322 26
Income from land sales as per Table No. 4 [in pamphlet] Earnings of company's sinking funds	76,150 66 61,064 4 6	$79,571 \ 06 \\ 42,832 \ 50$
*	\$1,054,023 79	\$648,725 82
Charges- General expenses	\$4,287 88	\$29,523 34
Balance of taxes and expenses for ac- count of granted lands Premium paid on 6 per cent bonds under	53,544 22	57,902 92
mortgage of April 1, 1875, bought and canceled Income applicable to redemption of 6 per cent bonds under mortgage of April 1, 1875, including annual contri-	36,170 83	26,944 16
bution of \$100,000 to company's sink- ing fund. Interest on open accounts	201,044 29 21,277 48	195,459 40
Total	\$316,324 70	\$309,829 82
Surplus for the year	.\$737,699 09	\$338,896 00

The above charges include the income to be applied to the redemption of bonds, which constitutes an asset of the com-pany. Table No. 2 [in pamphlet] shows the net revenue account of the company.

IV. TRANSPORTATION OPERATIONS.

The earnings, operating expenses, taxes, interest on bonded debt, and other charges appertaining to the property leased to the Southern Pacific Company, for the year 1895, as reported by the lessee, have been as follows:

The 242.51 miles, Mojave to The Needles, are not included

The 242.51 miles, Mojave to The Needles, are not included in the above mileage, and the amount of fixed charges is less by the \$436,266 rental received from the Atlantic & Pacific RR. Co. for said line. Although the wheat crop of the State was only about 20,779,832 bushels, against about 26,071,510 bushels in 1894, the prices received were from 14 to 18 cents per cental higher than in 1894. There was a marked increase in the yield of barley, which was about 720,000 centals greater than in 1894. The export of flour shows an increase of about 200,000 barrels.

Although wheat will continue to be one of the staple crops of the State, the steady fall since 1882 in prices has caused the people of the State of California to turn their attention to the creation of new industries and to the development of the many other resources in which the State abounds. The shrinkage in the value of the wheat exports of the State be-tween 1882 and 1894, although great, has been in part offset by large gains in new industries.

According to the report of the California State Agricul-tural Society for the year 1895, the fruit industries show a gain in the shipments between the above periods as follows :

	1894.	
The second s	Pounds.	Pounds.
Fresh fruit.	. 179,574,800	7,919,340
Dried fruit	. 102,510,800	4,532,350
Raisins	. 93,826,400	865,770
Nuts.		
Canned fruit	105,325,200	25.163.190
Citrus fruit	. 143,390,720	21,000,000
Total .	632.456.920	59,480,650

Respectfully.

WM. MAHL, Comptroller.

CONSOLIDATED KANSAS CITY SMELTING & REFINING COMPANY.

APPLICATION TO NEW YORK STOCK EXCHANGE.

NEW YORK, June 16, 1896.

Application is hereby made to list on the regular list of the New York Stock Exchange eighty thousand additional shares of twenty-five dollars each of the capital stock of this company, to be issued for the purpose of paying the floating debt of the company and for providing cash capital. I beg to give you the following certified copy of the action of our stockholders Jan. 25, 1894, and June 4, 1896 : At a meeting of the stockholders of this company, duly called and held at its office, No. 20 Nassau Street, Jan. 25

1894, there were present, or represented by proxy, 93,368 shares out of the total issue of 100,000 shares. The following resolutions were adopted by the unanimous vote of the stockholders present or represented by proxy : *Resolved*, That the Consolidated Kansas City Smelting & Refining Company does increase its capital stock from the present amount thereof, namely, the sum of two million five hundred thousand dollars, consisting of one hundred thousand shares of the par value of twenty-five dollars each, to the amount of three million five hundred thousand dol-lars, to consist of one hundred and forty thousand shares of lars, to consist of one hundred and forty thousand shares of the par value of twenty-five dollars each, and that the Chairman and Secretary of this meeting are hereby author-ized to take all legal and other necessary or proper steps to

perfect such increase of capital. Whereas the stockholders at this meeting have resolved to increase the capital stock by the sum of one million dollars;

therefore be it Resolved. That the said stock to be issued shall be pre-ferred stock, entitled to a preference both as to the earn-ings and also, upon any winding up of the company, as to capital, the preference as to earnings to be at the rate of 7 per cent per annum, or at that rate for fractions of years, and the company of the company of the company of the start of th capital, the preference as to earnings to be at the rate of 7 per cent per annum, or at that rate for fractions of years, and such preference as to earnings to be cumulative, so that each holder of the stock so preferred shall be fully paid dividends at the rate of seven per cent per annum from and after the date of the issue of the stock before there shall be a distribution of dividends to the remaining or common stock; and shall also, after the remaining or common stock; and shall also, after the remaining or common stock shall have received dividends at the rate of eight per cent per annum (in estimating such dividends the period to be computed from the date of issue of the preferred stock), receive dividends to be paid ratably, that is to say, at the same time to holders of common and pref. stock alike. At a meeting of the stockholders of this company, duly called and held at its office, No. 100 Broadway, June 4, 1896, there were present or represented by proxy 108,251 shares out of a total outstanding stock of 114,706 shares, and the following resolutions were unanimonsly passed: *Resolved*. That the capital stock of this company be increased from the sum of four million five hundred thousand dollars to the sum of four million five hundred thousand dollars, the same to be divided into shares of twenty-five dollars.

dollars, the same to be divided into shares of twenty-five

creased from the sum of three million five hundred thousand dollars to the sum of four million five hundred thousand dollars, the same to be divided into shares of twenty-five dollars each. *Resolved*, That the capital stock to be so issued as an in-crease, that is to say, the sum of one million dollars in par value of such stock, together with the sum of one million dollars in par value heretofore authorized to be issued as preferred capital stock, making in all the sum of two million dollars in par value of preferred stock, shall have a prefer-ence over the common or unpreferred stock both as to divi-dends and as to principal or investment; such preference as to dividends to be at the rate of seven per cent per annum, cumulative, payable in gold coin of the present standard of weight and fineness, before any dividend shall be paid to the said common or unpreferred stock, with the right to such preferred stock, in any year in which all the common or unpreferred stock shall have received in such gold coin a dividend of ten per cent, to share ratably with the remain-ing stock of the company other profits which shall be divided i; such preference as to principal or invest-ment to be operative upon a winding up of the corpora-tion or otherwise; the holders of such preferred stock, upon any such distribution, to first receive the full par value of the total capital stock or by the use of surplus profits, on the basis of dividends as aforesaid, before any distribu-tion shall be made upon the common or unpreferred stock; the company, however, to have the right to retire such pre-ferred stock, or any portion thereof, either by reduction of the total capital stock or by the use of surplus profits, but in either case only by the payment of one hundred dollars in par value of such preferred stock; provided, however, that if the company shall avail itself of the right to retire any por-tion of such preferred stock, any holder of such preferred stock shall have the option, in lieu of such retirement, at any time b

of preferred stock for shares of common stock, share for share, and thereupon to enjoy all the rights then accrued or to accrue on the said common stock, but no more. *Resolved*. That all proceedings had or resolutions adopted at the meeting of the stockholders held on the 10th day of April, 1896, which are in any way contrary to or inconsistent with the provisions contained in the resolutions heretofore at this meeting adopted, be rescinded, canceled and an-nulled. Respectfully yours, EDWARD BRUSH, Asst. Secretary. The Committee on Stock List recommended that \$228,500 of the above-described 7 per cent cumulative preferred stock be admitted to the list. Also that the Committee be empowered to add to the list from time to time, previous to

empowered to add to the list. Also that the committee be october 1, 1896, various amounts of the above-des-scribed stock up to an aggregate of \$2,000,000, upon receipt of an official notice from the company that said stock has been issued.

Adopted by the Governing Committee June 24, 1896.

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, July 3, 1896.

FRIDAY NIGHT, July 3, 1896. The silver agitation at the West and South, and the grow-ing belief that at the Convention to be held next week at Chicago a free-silver platform will be adopted, have caused some uneasiness in financial circles. Business in the mercan-tile world has been very quiet, as merchants generally have been taking account of stock; furthermore, as the agitation of the silver question becomes more prominent, the recent declaration for sound money by the St. Louis Convention appears to be lost sight of, and there has developed a general disinclination to open large trades until after the fall election. Serious labor troubles have been re-ported at the West, resulting in rioting and bloodshed. Our leading commercial exchanges adjourned Thursday night until Monday morning. until Monday morning.

The following is a comparative statement of stocks of lead-ing articles of merchandise at dates given:

THE WALL	June 1, 1896.	July 1, 1896.	July 1, 1895.

Total 1896...12,4123,88914,4881,35532,144211,904Total 1895...12,5763009,4003,38825,664385,151Total 1894...5,90940014,1604,18624,655282,267Speculation in cotton for future delivery has been quiet.Operations have been confined almost exclusively to professional traders, and prices have fluctuated within a very narrow range, with the tendency towards a slightly lowerbasis.Saturday the market opened at a slight advanceon the CHRONICLE's report showing damage to the growing crop in Texas by lack of moisture and also onstronger foreign advices.Subsequently, however, therewas a slight further decline in sympathy with the depression in financial circles due to the uncasiness over the silveragitation at the South and West.Tuesday there was a stronger market during early 'Change, inresponse to an unexpected advance in Liverpool, but laterrains were reported in Texas and prices weakened,closing at a decline of 1 to 4 points for the day. Yes-terday there was a very narrow and uninterestingmarket; the fluctuations in prices were within a range of3 points.Cable advices were unexpectedly stronger andmaintained values.There was also a denial of the reportsof rains in Texas.Advices received from New Orleansstated that the first bale of new cotton had been shipped toGalveston from Duval County, Texas, which is about a weekearlier than the average shipment.Cott

The total sales for forward delivery for the week are 387,900 bales. For immediate delivery the total sales foot up this week 4,910 bales, including 1,416 for export, 294 for consumption, — for speculation and 3,200 on contract. The following are the official quotations for each day of the past week— June 27 to July 3. Bates on and off middling or exhibited by an extent

Rates on and off middling, as established Nov. 22, 1893, and revised Dec. 11, 1895, by the Revision Committee at which grades other than middling may be delivered on contract:

Fair	14	on.	Good Ordinary	l off.
Middling Fair.	78	on.	Good Middling Tinged	Even.
Strict Good Middling	12	on.	Strict Middling Stained	732 Off.

July 3	10,119	3,795	5,224	79,386	64,724	98,249	3,920	649	565	

The above statement shows: 1.—That the total receipts from the plantations since Sept. 1, 1895, are 5,255,757 bales; in 1894-95 were 7,849,679 bales; in 1803-94 were 5,896,996 bales. 2.—That although the receipts at the outports the past week were 5,234 bales, the actual movement from plantations was only 565 bales, the balance being taken from the stocks at the interior towns. Last year the receipts from the plantations for the week were 649 bales and for 1894 they were 3.920 bales. 3,920 bales.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1. OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.— We give below a statement showing the overland movement for the week and since September 1. As the returns reach us by telegraph late Friday night it is impossible to enter so largely into detail as in our regular monthly report, but all the principal matters of interest are given. This weekly publication is of course supplementary to the more extended monthly statements. The results for the week ending July 3 and since Sept. 1 in the last two years are as follows.

Tel	189	5-96.	1894-95.	
July 3.	Week.	Since Sept. 1.	Week.	Since Sept. 1.
Shipped— Vla St. Louis Via Cairo Via Parker City Via Evansville Via Louisville Via Conisville Via theinanti Via other rontes, &c	2,504 266 544 2,774 248	547,022 242,270 19,751 1,681 137,917 118,339 91,802	4,016 1,244 93 180 259 1,183

Leaving total net overland*	2,952 3,384		$\frac{4,490}{2,485}$	679,405 1,140,238

* Including movement by rail to Canada

The foregoing shows that the week's net overland movement this year has been 3,384 bales, against 2,485 bales for the week in 1895, and that for the season to date the aggregate net overland exhibits a falling off from a year ago of 310,389 bales.

In Sight and Spinners'	189	95-96.	1894-95.		
Takings.	Week.	Since Sept. 1.	Week.	Since Sept. 1.	
Receipts at ports to July 3 Net overland to July 3 Southern consumption to July 3.	5,224 3,384 14,000	829,849	3,795 2,485 12,000	7,844,950 1,140,238 689,000	
Total marketed Interior stocks in excess	$22,608 \\ *4,659$	6,835,057 65,549	18,280 *3,146	9,674,188 7,389	
Came into sight during week. Total in sight July 3	17,949	6,900,606	15,134	9,681,577	
North'n spinners tak'gs to July 3.	8,552	1,581,307	3,525	2,032,111	

It will be seen by the above that there has come into sight during the week 17,949 bales, against 15,134 bales for the same week of 1895, and that the decrease in amount in sight to-night as compared with last year is 2,730,971 bales.

WEATHER REPORTS BY TELEGRAPH.-Our telegraphic advices this evening indicate that rain has fallen lightly in some districts of Texas during the week, but in the greater part of the State drought continues. In the remainder of the South rain has fallen as a rule, and at a few points along the Atlantic the precipitation has been excessive.

Galveston, Texas .- It has been dry all the week. The ther-

Galveston, Texas.—It has been dry all the week. The ther-mometer has averaged 84, the highest being 88 and the lowest 79. Rainfall for June thirty-four hundredths of an inch. Palestine, Texas.—There has been rain on one day of the past week, to the extent of six hundredths of an inch. The thermometer has ranged from 72 to 102, averaging 87. June rainfall seventy-one hundredths of an inch. Huntsville, Texas.—We have had rain on one day of the week, the precipitation being fifty-two hundredths of an inch. Average thermometer 86, highest 101 and lowest 72. During the month of June the rainfall reached forty-five hun-dredths of an inch.

During the month of June the rainfair routed of the week, dredths of an inch. Dallas, Texas.—It has rained here on one day of the week, the rainfall being fifteen hundredths of an inch. The ther-mometer has averaged 85, ranging from 67 to 103. June rain-fall fifty hundredths of an inch. San Antonio, Texas.—It has been dry all the week. The thermometer has averaged 86, the highest being 100 and the lowest 72. June rainfall sixty-one hundredths of an inch. Luling, Texas.—Cotton is doing very well but excessive sunshine is causing it to shed forms. We have had no rain during the week. The thermometer has averaged 88, ranging

substitue is causing it to show that, in the number of the during the week. The thermometer has averaged 88, ranging from 74 to 101. Month's rainfall ten hundredths of an inch. Columbia, Texas.—Cotton looks well, notwithstanding the drought. It has been dry all the week. The thermometer has ranged from 72 to 96, averaging 84. During the month of June the rainfall was seventy-four hundredths of an inch.

June the rainfall was seventy-four hundredths of an inch. *Cuero, Texas.*—Cotton is growing splendidly, despite the drought. There has been no rain the past week. Average thermometer 86, highest 100 and lowest 73. June rainfall one inch and seventy-seven hundredths. *Brenham, Texas.*—We have had only a trace of rain during the week. The thermometer has averaged 87, the highest being 100 and the lowest 74. June rainfall ninety hundredths of an inch. *Fort Worth, Teras.*—We have had rain on one dow of the

of an inch. Fort Worth, Texas.—We have had rain on one day of the week, the precipitation reaching four hundredths of an inch. The thermometer has ranged from 70 to 103, averaging 86. Rainfall for the month, one inch and two hundredths. Weatherford, Texas.—Rain has fallen to an inappreciable extent during the week. Average thermometer 86, highest 102 and lowest 71. During June rain fell to the extent of nineteen hundredths of an inch. Temple, Texas.—Early cotton is growing fairly well but will soon suffer without rain. There has been but a trace of rain the past week. The thermometer has averaged 83, ranging from 74 to 103. During the month of June the rainfall reached forty hundredths of an inch. New Orleans, Louisiana.—It has rained on three days of the week, the rainfall being seventy-five hundredths of an inch.

week, the rainfall being seventy-five hundredths of an inch. The thermometer has averaged 83. Shreveport, Louisiana.—We have had rain on two days of

Shreveport, Louisiana.—We have had rain on two days of the week, but to an inappreciable extent. The thermometer has averaged 85, ranging from 72 to 99. Columbus, Mississippi.—There has been no rain during the week. The thermometer has ranged from 67 to 101, averag-ing 84 June rainfall four inches. Leland, Mississippi.—No rain during the week. Average thermometer 79.9, highest 92 and lowest 65. Vicksburg, Mississippi.—There has been one shower during the week, the precipitation reaching two hundredths of an inch. The thermometer has averaged 85, the highest being 95 and the lowest 70. inch. The thermome 95 and the lowest 70.

Little Rock, Arkansas.—There has been rain on three days of the past week, the precipitation being one inch and forty-six hundreths. The thermometer has averaged 81, ranging from 70 to 95.

70 to 95. Helena, Arkansas.—Crops are clean, but need rain in some sections. We have had showers on two days of the week, the rainfall reaching forty-nine hundredths of an inch. The thermometer has ranged from 60 to 94, averaging 78. June rainfall one inch and forty-seven hundredths on eleven days. Memphis, Tennessee.—Rain fell on Saturday and Sunday, but it was partial and unequally distributed. Crop condition is deteriorating on account of drought. The rainfall reached fifty-eight hundredths of an inch. Average thermometer 79'7, highest 95 and lowest 68. During the month of June the rainfall was two inches and seven hundredths on nine days, the smallest since 1887. Nashville. Tennessee.—We have had rain during the week

Nakwille, Tennessee.—We have had rain during the week to the extent of one iach and forty-nine hundredths of an inch. The thermometer has averaged 77, the highest being inch. The thermome 92 and the lowest 64.

92 and the lowest 64. Mobile, Alabama.—Telegram not received. Montgomery, Alabama.—Crops are doing well. Cotton mills have commenced to curtail production, owing to dull trade and accumulation of goods. There has been rain on three days of the past week to the extent of forty-two hun-dredths of an inch. The thermometer has ranged from 74 to 93, averaging 84. June rainfall six inches and ten hun-dredths

dredths. Selma, Alabama.—We have had no rain the past week. Average thermometer 83. highest 94 and lowest 72. Columbus, Georgia.—We have had rain on two days of the

week, the precipitation reaching two inches and ten hun-dredths. The thermometer has averaged 86, ranging from 70 dredths. to 96,

Savannah, Georgia.-The rainfall has reached one inch and eighteen hundredths, on five days of the week. The thermom-eter has ranged from 71 to 99, averaging 83. June rainfall

five inches and thirty-one hundredths. Augusta, Georgia.—We have had rain on four days of the past week, the rainfall reaching one inch and fifty-eight hundredths. Average thermometer 84, highest 99 and lowest 68

Charleston, South Carolina.—There has been rain on six days during the week, the precipitation being three inches and thirty eight hundredths. The thermometer has averaged 82, ranging from 70 to 94. Stateburg, South Carolina.—The week's rainfall has been

Stateburg, South Carolina, —The week's rainfall has been seventy-five hundredths of an inch on one day. The thermom-eter has ranged from 72 to 95, averaging 81.9. June rainfall

four inches and fifty four hundredths. Greenwood, South Carolina.—There has been rain on four days of the week, to the extent of ninety-seven hundredths of

an inch. Average thermometer 81, highest 95, lowest 66. Wilson, North Carolina.—There has been rain on one day of the week, the rainfall reaching sixty-five hundredths of an inch. The thermometer has averaged 84, the highest being 93

and the lowest 72. Madison, Florida.—Crop is not looking well in consequence of excess of moisture. There has been rain on five days of the week, the precipitation reaching five inches and twenty-five hundredths. The thermometer has averaged 88, the highest being 100 and the lowest 78

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 8 o'clock July 2, 1896, and July 4, 1895.

SEA ISLAND COTTON MOVEMENT .- We have received this (Friday) evening by telegraph from the various ports the details of the Sea Island cotton movement for the week. The receipts for the week ending to-night (July 3) and since Sept. 1, 1895, the stocks to-night, and the same items for the corresponding periods of 1894-95, are as follows.

Contraction in the	189	5-96.	189	4-95.	Stock	
Receipts to July 3.	This week.	Since Sept. 1.	This week.	Since Sept. 1.	1896.	1895.

A considerable portion of the Sea Island cotton shipped to foreign ports goes via New York, and some small amounts via Boston and Baltimore. Instead of including this cotton for the week in which it leaves the Southern outports, we follow the same plan as in our regular table of including it when a stually exported from New York, &c. The details of the shipments of Sea Island cotton for the week will be found under the head "Shipping News," on a subsequent page. BREADSTUFFS.

FRIDAY, July 3 1896.

The feature of the week in the market for wheat flour is a report that there is trouble in the combination controlling the prices of spring-wheat flour; at any rate prices have been lowered and at the concessions a fair business has been trans-acted. City mills have been moderately active and steady. A limited amount of business has been transacted in rye flour at steady prices. There has been an increased demand for corn meal, with some buying by shippers, and prices have been steady.

corn meal, with some buying by shippers, and prices have been steady. There has been a quiet market for wheat futures and early in the week prices declined under continued liquidation by inthe week prices declined under continued favorable crop advices both from the West and Europ₂. Subsequently, how-ever, there was an advance, as prospects were reported as less favorable, advices from the Northwest reporting damage to the growing crop by rust, stimulating a demand from "shorts" to cover contracts. In the spot market only a limited amount of business has been transacted and prices have followed futures. Yesterday the sales included No. 3 hard Manitoba at $60\frac{1}{2}$ °. f. o. b. afloat; No. 2 red winter was quoted for for-ward d-livery at $66\frac{5}{2}$ °. f. o. b. afloat, No. 1 Northern at $61\frac{4}{8}$ °. f. o. b. afloat. DALLY CLOSING PRICES OF NO. 2 RED WINTER WHEAT.

JABOD

The market for Indian corn futures has been quiet and prices have declined slightly under favorable weather condi-tions at the West for the growing crop. Sympathy with the improvement in wheat during the latter part of the week, however, had a tendency to sustain values. In the spot mar-ket shippers have made a limited number of purchases, but at easier prices. The sales yesterday included No. 2 mixed at 2414c. delivered 341/2c. delivered.

For other tables usually given here see page 14.

THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., July 3, 1896. There has been more delay than expected in bringing the required number of New England mills into agreement to curtail production, but to day it is reported that signatures representing 4,000,000 spindles have been secured to the prop-osition to reduce the output fifty per cent during this month and next. Buyers have not shown by their action any appreand next. Buyers have not shown by their action any appre-hension of the effect of this upon the market, a generally dull and disappointing week's business again being recorded. Both spot trade and orders by mail have failed to come up to expectations. The only quotable change in prices has been in wide sheetings, which in several prominent makes have been reduced 7½ to 10 per cent. In other cotton goods of staple order sellers are occasionally inclined towards greater reserve, but buyers do not find any difficulty in filling their require-ments at previous prices. Print cloths show a firmer tend-ency under prospective curtailment of output, but stocks are excessively large. In woolen goods business in heavy-weights for men's wear has been more liberal, but buyers show no in-terest in new goods for spring. terest in new goods for spring.

WOOLEN GOODS.—Buyers still manifest almost complete indifference to such new lines of spring-weight goods for men's wear as have been so far shown, the business done in these being of a comparatively trivial character and insuf-ficient to afford any guide to the price situation. It will now probably be the middle of the month before there is a general limbar. In hear, maights reorders have been were purchased display. In heavy-weights reorders have been more numerous and a better business is reported, but, as before, it has been and a better business is reported, but, as before, it has been largely confined to one or two descriptions, low and medium grade fancy cheviots and cassimeres. Plain and fancy worsteds continue slow. Kerseys and plain-faced goods of that order are in fair demand by the cloaking trade but for over coating purposes orders are slow. Flannels are inactive and blankets in slow request at previous prices. In carpets an occasional advance of 21/2c, is noted in tapestries.

DOMESTIC COTTON GOODS-The exports of cotton goods from this port for the week ending June 29 were 5,603 packages, valued at \$235,116, their destination being to the points specified in the tables below:

are for \$100, \$500 and \$1,000. The Constitutional bonds for \$5, etc.
INTEREST is payable by Winslow, Lanier & Co., New York City
and by Whitney National Bank, New Orleans.
TOTAL DEBT-The subjoined statement shows Louisiana's total
bonded debt, and the floating debt in detail, on May 1, 1896.
May 1, '96,
Total bonded debt bearing interest \$11,084,500
Floating Debt-
Interest coupons from January, 1874, to July, 1879 146,806
Baby bonds and certificates (act of 1880) exclusive of
COUDODS
Warrants, etc
man 1 Jult 010 000 000
210 0EG 020

Judicial expense fund, etc. (additional to above). \$347.468

In September, 1889, it was discovered that a number of bonds had been frandulently issued. Part of these were subsequently recovered, but \$373,600 consols so issued (\$303,600 being consols of 1874 and \$70,000 Constitutional bonds) are still outstanding. The State consid ers them "null and vold," and they are therefore not included in the amount outstanding above. There are also \$421,935 fradulently issued baby bonds outstanding.

There are moreover old bonds not recognized, and hence not fundable amounting to \$3,953,000. These include New Orleans Mobile & Texas 8 per cent bonds, endorsed, \$875,000; 8 per cent State bonds issued to said rond, \$2,500,000; 8 per cent bonds issued to the N.O. Mobile & Chattanooga RR. \$70,000; 7:30 per cent bonds issued to the Mississippi & Mexican Gulf Ship Canal Co. \$260,000, etc., etc.

ASSESSED VALUATION-The State's assessed valuation has been as follows at different periods :

te 178,818,818

Years. 1895	3108,651,282	Parish of N. Orleans. \$140,654,475	<i>Total.</i> \$249,305,757
1893			251,091,348 250,045,503
1892			234,915,173
1890 1885	88 707 870	\$131,915,057 123,927,593	234,350,791
1875		120,027,000	212,725,564 195,904,419
1870			253,371,890
1860 ^p			435,787,265 233,998,764
			200,000,704

North Tonawanda, N. Y .- S. R. Vandervoort, Mayor; Henry Homeyer, Treasurer. The following statement regarding the financial condition of North Tonawanda has been corrected to date by means of a report from T. E. Warner, Clerk. The floatir g debt of \$15,000 will soon be paid off.

This village is in Niagara County,

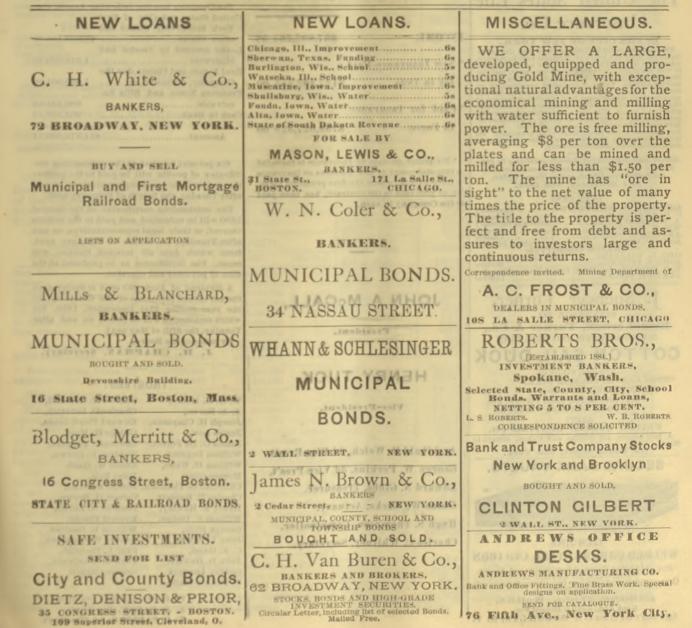

INTEREST on the sewer bonds and paving 6s is payable at the Chase Nat'l Bank; on the paving 5s at the Bank of America, N. Y. City.

Perth Amboy, N. J .- The following statement has been corrected to March 1, 1896, by means of a special report to the CHRONICLE from Edward W. Barnes, Mayor.

This city is in Middlesex County.

Loans secured by Stocks and IN THE CITY OF NEW YORK. This old and reliable Company now has the experi-lence of forty-six years of practical Life Insurance, which has taught if that the sine qua non of success is the adoption of good plans of insurance, and the pursuit of a liberal policy towards both its Insured and its Agents. These essentials it possesses in an eminent degree, but judiciously tempered by that conservatism which is the best possible safeguard of the policy-holder. Its contracts are incontestable after two years. The are non-forfeiting, providing generally for either paid-up policy or extended in surance, at the option of the policy-holder. It gives ten days of grace in payment of all premiums. He course during the past forty-five years subundantly demonstrates its absolute security. 1,216,500.00 otherwise * New Insurance Paid Real Estate and Claims due the Company, estimated at ... 1.000.004.90 for in 1895, · · \$127,492,555 00 Premium Notes and Bills Re-896,431.88 ceivable..... *Paid for Insurance 202,518.33 Cash in Bank \$799,027,329 00 in Force . .
