REVIEW OF JUNE.

The political situation in its bearing upon the state of our currency continued the controlling and absorbing feature in the mercantile and financial world during June. Suspense as to the course of at least one of the great parties on the question of standards was ended by the holding of the Republican Convention on the 16th, 17th and 18th of the month. The outcome of the deliberations of that body, too, on this question was entirely satisfactory.

The Convention declared plainly and unequivocally in favor of the gold standard. There had been fears that to placate the Western silver men an attempt would be made to straddle the question. But the strenuous efforts of the Eastern business men and other adherents of sound money, to prevent such a result, proved successful. Even before the meeting of the Convention, it had become evident that the views of those who wished to see the integrity of our currency preserved would prevail. One of the features attending the arrangements of the preliminaries, preceding the actual meeting of the Convention, was the excellent work done by the delegates from the Middle States and New England to secure a positive declaration for gold. The resolutions were sharply contested by the silver men because of the gold clause, both in Committee and before the Convention, but the voting disclosed that the silver party was in a hopeless minority. In the Convention the vote on the free-silver substitute offered by Senator Teller was 105½ against 818½, and the vote on the adoption of the financial plank was 812½ against 110½. The character of the action taken was emphasized by the course of a small body of the silver men in walking out of the

Convention when it was seen that they could not commit the party to free silver. There were 21 delegates who took this extreme course, comprising the entire delegation from Colorado (eight members) headed by Senator Teller, the entire delegation from Idaho (six men), 2 delegates from Nevada, 3 from Utah, 1 from Montana and 1 from South Dakota.

All business interests breathed easier when it was seen that one of the parties had come out unqualifiedly for the maintenance of the existing standard, and an improvement was at once observable in the tone of the markets. But unfortunately the outlook for similar action by the Democratic Party was not encouraging. After the Republican Convention a movement on the part of leading Democrats to rescue their party from the free-silver craze was initiated, and ex-Secretary of the Navy William C. Whitney postponed an intended visit to Europe in order to aid to that end. The New York State Democratic Convention under Mr. Whitney's guidance adopted resolutions declaring attachment to bi-metallism and saying that all the efforts of the country ought to be directed to securing the joint use of the two metals with the co-operation of the European nations, and expressing the belief that such co-operation could be obtained, but declaring that meanwhile the existing gold standard must at all hazards be maintained. The State Conventions in Ohio, Illinois and Indiana, however, showed a perfectly reckless spirit for silver, and at the close of the month the probability that the Democratic National Convention at Chicago could be induced to repudiate the free-silver notion was not considered bright.

As showing the importance which the matter of maintaining gold payments holds in the eyes of the financial world, the fluctuations in the price of Government bonds furnish an excellent guide. During the first half of the month the U. S. 4s of 1925 were quoted in the neighborhood of 116½, but on the 15th, when it appeared from the newspaper reports that the Republican Convention would declare for gold, there was an advance on actual sales from 116¾ to 117¾, and on the next day (the 16th) there was a further advance to 118¼. After the Convention on the 18th adopted its platform, attention turned to the probable action of the Democratic Party at its Convention in July, and as the prospect of a declaration for free silver at that Convention became more threatening the price of the bonds again fell off, and on the 30th of the month sales of the same issue of bonds were made at 116½.

As to the course of trade and business, the foregoing tells the situation plainly enough. With all classes concerned first as to the action of the Republican Convention, and then made increasingly anxious as to the probable stand of the Democratic Party, there could be no activity; enterprise was practically dormant, and the volume of business was necessarily on a very restricted scale. An incident growing out of the Venezuelan complications (we mean the arrest by the Venezuelan authorities of Mr. Harrison, a Crown surveyor, on territory in dispute between Venezuela and British Guiana, followed a few days after by his release,) and false rumors as to steps to be taken by the United States Government as regards Cuba did not tend to improve the situation. Nor was the passage by the United States Senate on the 2nd of the Butler bill, prohibiting further sales of Government bonds, calculated to revive confidence or promote trade activity, though the measure would undoubtedly have been defeated in the House had it come to a vote there, the Committee on Ways and Means having promptly rejected it.

Congress after having passed the River and Harbor bill over the President's veto and having amended the General Deficiency bill to remove the President's objections, finally adjourned on the 11th. This, under ordinary circumstances, would have proved a stimulus to trade, but the present year the event had no potency in that way, because every one feels that the money question transcends in importance every other question. During the month several of the New England cotton mills shut down, and at the close of the month a movement was under way for a general and prolonged stoppage.

The time for the final payments in connection with the Government loan of last February expired during June. This, however, had no great significance, as little remained to be paid for the bonds when the month opened. More important was the action of the Secretary of the Treasury on the 8th in making a call on the depositary banks for the remainder (estimated at \$4,500,000) of the money originally deposited with the banks on account of the bond sale. This was important because of its possible bearing on the money market and interest rates, but while the final payment of \$4,000,000 on the 15th (\$500,000 had previously been turned over under the call) acted to temporarily stiffen rates, the effect was soon lost.

The outflow of gold to Europe was continued, but on a diminished scale, and the action of the Republican Convention as regards the monetary question seems to have had a favorable effect abroad, modified later of course by apprehensions as to what the Democratic Party would do. The shipments to Europe were \$1,100,000 in the week ending June 6th, \$2,400,000 in the week ending the 13th, \$850,000 in the week ending the 20th, \$950,000 in the week ending the 27th and \$1,050,000 on Tuesday the 30th, making \$6,350,000 altogether. The Treasury gold reserve was reduced to about \$101,000,000.

A bright feature in the situation has been the excellent promise for the crops. The National Agricultural Bureau made the condition of winter wheat the 1st of the month somewhat lower than thirty days before, at 77.9, but the condition of spring wheat was reported 99.9, of oats 98.8 and of cotton 97.2. And all through the month the weather conditions in nearly all parts of the country were highly favorable.

In the anthracite coal trade things developed very encouragingly under the policy of restriction pursued,

and a further advance of 25 cents a ton in the price of coal at tidewater was made.

The foreign exchange market showed an easier tone, and though there were several fluctuations up and down, the general tendency was towards lower prices. Commercial bills were scarce and bills against purchases of stocks in this market by the arbitrage houses were also insignificant except temporarily during the week when the Republican Convention was in session. Messrs. J. P. Morgan & Co. placed a good part of \$5,100,000 of Milwaukee Electric Railway & Light Company 5 per cent gold bonds abroad, and foreign interests purchased for \$7,000,000 another block of Anaconda Company copper mining stock. Offerings of sterling bills against these and other recent loan negotiations tended to supply a part of the inquiry for exchange. Below we show the actual rates for exchange for every day in which a change in any class of sterling bills occurred.

The stock market was dull on a limited volume of business the early part of the month, and displayed considerable weakness the week before the holding of the Republican Convention. The next week, when it became evident that the Convention would declare for gold, prices hardened all around, though the transactions continued small. Later, the likelihood that the effort to prevent the Democratic Party from committing itself to the free silver crusade would fail, proved quite disturbing, and on heavy realizing sales a general break in prices occurred on the 29th, followed by some recovery on the 30th. The following shows the volume of business on the Stock Exchange, and the sales of cotton on the Cotton Exchange and of grain on the Produce Exchange.

VOLUME OF BUSINESS ON THE STOCK EXCHANGE.

NEW YORK STOCK EXCHANGE.

MONTHLY AND YEARLY RECORD.

The following tables furnish a complete record of the New York Stock Exchange transactions for the past month and for the year to date. They need no extended introduction, as they are self-explanatory. The tables embrace every security excepting only State bonds dealt in on the Exchange. We give bonds first, using the classification adopted in the official list. As to prices the form is our own, and we think it will be found to contain just the facts desired by our readers and to present them in the most convenient way for study and reference. All quotations in the column headed "Price about January 2, 1896," were made on that date except those in italics, which are the nearest in January, 1896.

For foot notes to tables see last page of Bonds and last page of Stocks.

BOSTON STOCK EXCHANGE.

MONTHLY AND YEARLY RECORD

The following tables furnish a record of Boston Stock Exchange transactions in railroad securities for the past month and for the year to date. Also a record of transactions in mining stocks for the past month and since January 1st. The railroad securities which are active on the New York Stock Exchange are omitted from this list. We give the securities in alphabetical order under the three general headings, Railroad Bonds, Railroad Stocks and Mining Stocks.

In comparing New York and Boston prices, it should be noted that bond prices in New York are flat prices - that is the price includes the accrued interest, while in Boston accrued interest must be paid in addition to price. It should also be remembered that New York stock prices are per cent while those in Boston are dollars per share.

GENERAL QUOTATIONS.

—OF—

BONDS AND STOCKS.

In the following twenty-seven pages of tables quotations are given for all securities listed on any Stock Exchange in the United States; also for all leading unlisted and inactive securities for which we have been able to obtain reliable prices.

Quotations from all Stock Exchanges are so near as possible for the last day of June. Of course the coupon, if there be one, maturing between the date of quotation and the date of this publication, is not deducted from the price.

Bond prices marked thus (*) are flat prices—that is, the purchaser does not pay accrued interest in addition. Stock prices marked thus (+) are per share. All others are per cent except bank stock prices.

It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.

The following abbreviations are often used, viz.; "M.," for mortgage; "g.," for gold; "g'd.," for guaranteed; "end.," for endorsed; "cons.," for consolidated; "conv.," for convertible; "s. f.," for sinking fund; "l. g.," for land grant.

Table with 4 columns: Stocks, Par, Bid, Ask. It lists various railway and utility stocks such as North & West Branch, Providence & Springfield, and Staten Island Ry. with their respective prices.

† Prices per share not per cent. ‡ In London. x Ex-dividend.

STREET RAILWAY SECURITIES.

Prices marked thus (*) are flat prices—that is, the purchaser does not pay accrued interest in addition.

Table with 4 columns: Bonds, Bid, Ask. It lists various street railway bonds from cities like Albany, Allentown, Baltimore, Boston, Bridgeport, Brooklyn, Buffalo, Charleston, Chicago, Cleveland, and Detroit.

* Flat prices. † Last sale.

† Prices per share not per cent.

x Ex-dividend.

MUNICIPAL BONDS.

It should be borne in mind that municipal bonds are not subject to such decided fluctuations in value as are securities which form a basis for speculation.

Prices marked (*) are flat prices—that is, the purchaser does not pay accrued interest in addition.

The figures in the column "to net" indicate the basis on which the securities sell or the interest rate which the securities if held to maturity, will net to the purchaser at the present market price.

† Prices are per share not per cent. ‡ Last sale.

QUOTATIONS OF BANK AND TRUST COMPANY STOCKS.

Prices are per share, not per cent, with the exception of New York City and Brooklyn bank stocks. Prices marked thus (*) are last sales.

The dagger (†) prefixed to a price indicates that the figures show the book value.

The double dagger (‡) prefixed to the capital stock indicates that only part is paid in.

The section mark (§) prefixed to surplus indicates that undivided profits are included.
