### REVIEW OF MARCH.

The overshadowing event of the month was the decision of the Supreme Court of the United States in the case of the Trans-Missouri Freight Association. The public mind was wholly unprepared for the ruling made, and nearly every one has been startled at a contemplation of the possible consequences to result from the application of the doctrine laid down by the Court. It had previously been accepted as an established fact that the Anti-Trust law was not meant to cover the cases of railroads, but the Supreme Court decides not only that the Act does apply to common carriers by railroad, but it rules that the words "restraint of trade" in the Act cannot be construed to have the meaning which they have had at common law, namely unreasonable restraint, but must be used in their broad, unrestricted sense—therefore barring out apparently all arrangements and agreements for the fixing of rates.

The stock market weakened as soon as the decision was declared, and the depression subsequently became quite pronounced. It was argued that the effects of the ruling were likely to be serious and far reaching; that in the present state of railroad development rates cannot be maintained except by joint action of some kind, which the Court, as it would seem, decides is forbidden. Hence the tone, previously strong for reasons presently to be mentioned, has entirely changed and prices have sharply declined. The decision has also exercised somewhat of a depressing influence on general business, owing to the knowledge that disaster to the railroads would mean serious harm to the whole range of industries. Thus we have had a repetition of previous experience that just when we were apparently on the eve of a great improvement in affairs a new dis-

turbing element has arisen, modifying or deferring the bright prospect in view.

In the general uneasiness, the earlier event of the month, which seemed likely to have far-reaching beneficial effects, has for the moment been quite lost sight of. We refer to the arrangement by which the Lake Shore & Michigan Southern undertakes to refund in advance of maturity, and at a great saving in the yearly fixed charges, its indebtedness represented by high-rate bonds falling due within the next few years. It was at once seen that the event opened up large possibilities in the case of other roads similarly situated. The occurrence was soon followed by reports that the New York Central had a refunding scheme under consideration, and there were also rumors that other companies were discussing the advisability of action of that kind. The effect of all this was to stimulate activity in the stock market, and there was a large and general rise throughout the whole list. Then came, as said above, the decision of the Supreme Court upsetting all calculations and precipitating a decline again.

So far as the ordinary events are concerned, President McKinley was inducted into office on the 4th, and his inaugural address was favorably received. He promptly issued a proclamation convening Congress in extra session, the date of assembling being fixed for the 15th. The House of Representatives as promptly began work on the new tariff bill. The Committee on Ways and Means of the previous House had had the measure under consideration for a long time, and when the Committee of the new House entered upon its duties the bill was ready for submission. It was favorably reported to the House on the 19th, and March 31st was agreed on for taking a final vote upon it, and on that date it was passed. The probable action of the Senate on the bill is a matter of speculation. The prospect of higher tariff duties and a fear that the act might be made retroactive led to very extensive withdrawals of goods from the bonded warehouses, and on the 15th (the date when Congress convened) the payment of duties at this point reached the large figure of \$2,178,515. After that the payments rapidly fell off, anxiety regarding a possible retroactive clause having largely disappeared, but the latter part of the month the payments again became large, on the announcement that a retroactive provision had been definitely agreed upon. In the bill as it passed, April 1 was fixed as the date for the retroactive provision.

In the railroad world, another favorable occurrence (besides the Lake Shore refunding plan) was the announcement that the co-operation of Messrs. J. P. Morgan & Co. and of Drexel & Co. had been secured in readjusting the finances of the Lehigh Valley. The arrangement included a plan for refunding the indebtedness of the Packer estate and for taking care of the Packer promissory notes, known as Packer paper. The scheme was important not only on its own account, but because it promised to be of benefit in preserving harmony among the anthracite coal roads. It did not, however, prevent an important break on the Stock Exchange in the price of Central of New Jersey stock. An unfavorable feature during the month was excessive rains and floods in various parts of the West and South. Along the Mississippi River an extensive area of low lands was overflowed, breaks in the levees having occurred at points in Arkansas, Missouri and Mississippi.

In the money market the only influence of consequence was the demand for loans in connection with the large withdrawals of goods from the warehouses, to get the benefit of the existing tariff rates, as mentioned above. The inquiry on that account was somewhat urgent at one time. Still there was such a plethora of funds that rates were very little changed, the effect being mainly to give a firmer tone to the market. On the Stock Exchange the rate for money on call did not at any time get above 2 per cent, and generally loans were made at 1½@1¾ per cent. On time the demand by importers advanced rates fractionally for the longer dates, but transactions were very limited. In the early part of the month the rate for ninety days to four months was 2½ per cent and for five to six months 3 per cent; later 3 per cent was asked for the former periods and 3½ per cent for the latter. In the commercial paper market much borrowing on tobacco paper was noted, the business being handled by institutions familiar with this trade, chiefly trust companies, and it was also reported that these latter had bought quite extensively of paper secured by warehouse receipts on imported goods as collateral. The following shows the interest rates on the various classes of loans for each week of the month:

The foreign exchange market, as in the preceding month, showed remarkable steadiness. In the rates for actual business there were only three or four changes throughout the whole month. It is noticeable, however, that the tendency of the market was again upward, sixty-day bills being particularly strong. In sight bills and cable transfers the net advance for the month was only one-quarter of a cent per pound sterling, but in sixty-day bills the advance was three-quarters of a cent. The rise in this latter case is ascribed to the scarcity of commercial bills and to the fact that the few bills in the market were held at high figures. It is also said that there was again a demand for investment, some bankers still figuring out a small profit in

such purchases with call money here at 1½ per cent. The following shows the rates for actual business in sterling for every day in which a change in any class of bills occurred.

In the stock market, as already said, there were two distinct movements—an upward movement and a downward movement. The outlook the early part of the month seemed brighter than for a long time past, and there was very confident buying, particularly of the Vanderbilt properties, on the refunding arrangement of the Lake Shore and the prospect of similar action in the case of other companies. Lake Shore touched 172 on the 1st; New York Central advanced to 102 on the 22d, and the granger properties, like Milwaukee & St. Paul, Chicago & North Western, St. Paul & Omaha, Burlington & Quincy, all touched their highest figures of the year between the 15th and the 18th. After the Supreme Court decision on the 22d, the market declined even more rapidly than it had previously advanced, Burlington & Quincy dropping from 78½ to 69½, Milwaukee & St. Paul common from 78½ to 71¼, Rock Island from 69½ to 60½, New York Central from 102 to 93¼, Chicago & North-Western from 110½ to 103¼, &c., &c. From these low prices there was some slight recovery before the close of the month, the market, however, being decidedly weak again at the close on the 31st. Central of New Jersey was depressed throughout the whole month, and dropped to 77 on the 31st, against 103¼ January 19th. The other anthracite properties also declined sharply on the 31st on reports of heavy losses by floods at the mines in Pennsylvania. The following furnishes a four year comparison of the volume of business on the Stock Exchange, and also shows the sales of cotton on the Cotton Exchange, and of grain on the Produce Exchange.

## MONTHLY AND YEARLY RECORD.

The following tables furnish a complete record of the New York Stock Exchange transactions for the past month and for the year 1897. They need no extended introduction, as they are self-explanatory. The tables embrace every security (excepting only State bonds) dealt in on the Exchange. We give bonds first, using the classification adopted in the official list. As to prices the form is our own, and we think it will be found to contain just the facts desired by our readers and to present them in the most convenient way for study and reference. All quotations in the column headed "Price about January 2, 1897," were made on that date except those in italics, which are the nearest in January, 1897.

For foot notes to tables see last page of Bonds and last page of Stocks.

# GENERAL QUOTATIONS.

—OF—

## BONDS AND STOCKS.

1. In the following twenty-seven pages of tables quotations are given for all securities listed on any Stock Exchange in the United States; also for all leading unlisted and inactive securities for which we have been able to obtain reliable prices.
2. Quotations from all Stock Exchanges are as near as possible for the *last day of March*. Of course the coupon, if there be one, maturing between the date of quotation and the date of this publication, is not deducted from the price.
3. Bond prices marked thus (\*) are flat prices—that is, the purchaser does not pay accrued interest in addition. Stock prices marked thus (†) are per share. All others are per cent except bank stock prices.
4. It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal; but in all cases the figures are obtained from sources which are considered reliable.
5. The following abbreviations are often used, viz.; "M.," for mortgage; "g.," for gold; "g'd.," for guaranteed; "end.," for endorsed; "cons.," for consolidated; "conv.," for convertible; "s. f.," for sinking fund; "l. g.," for land grant.

MUNICIPAL BONDS.

It should be borne in mind that municipal bonds are not subject to such decided fluctuations in value as are securities which form a basis for speculation.

Prices marked (\*) are flat prices—that is, the purchaser does not pay accrued interest in addition.

The figures in the column "to net" indicate the basis on which the securities sell or the interest rate which the securities, if held to maturity, will net to the purchaser at the present market price.

† Prices are per share not per cent.

QUOTATIONS OF BANK AND TRUST COMPANY STOCKS.

Prices are per share, not per cent, with the exception of New York City and Brooklyn bank stocks. Prices marked thus (\*) are last sales.

The dagger (†) prefixed to a price indicates that the figures show the book value.

The double dagger (‡) prefixed to the capital stock indicates that only part is paid in.

The section mark (§) prefixed to surplus indicates that undivided profits are included.
