REVIEW OF MAY.

While few evidences of an improvement in business have been discernible in May, favorable developments promising a better state of things in the future have not been altogether wanting. The spring has been cool and backwards in nearly all parts of the country but yet the usual progress has been made in farm work in the West, and the planting of the leading crops has been completed under quite satisfactory conditions. In the South a distinct change for the better occurred in the situation of the overflowed districts in the Mississippi Valley. The water has been steadily receding and in many of the districts cotton planting has been begun on the lands recently submerged.

The course of tariff legislation has also been much more encouraging—that is, the work has proceeded more expeditiously than had been expected at one time. The sub-committee of the Senate Finance Committee, which has had the new bill in charge, made its report to the full committee on Tuesday, May 4th, and the latter instead of following the usual course and keeping the measure under consideration for a time reported the bill the same day to the Senate. Moreover, to the relief of business interests it was found that the retroactive clause had been stricken from the bill. The Finance Committee in submitting the bill gave notice that it would be called up on the 18th, but this was subsequently changed to the 24th. On the 25th general debate on the bill was begun, and consideration of the various sections proceeded with reasonable diligence, there being no indication of factious opposition by the opponents of the measure.

The outflow of gold from the United States to Europe continued, but did not reach very large pro-

portions. It created no feeling of uneasiness or alarm and in fact caused scarcely a ripple on the surface of affairs. One reason for this was that it was generally felt that the Treasury and the country are exceptionally well able to meet the drain at this time, and then also it became palpably evident that the exports of the metal were the result entirely of special circumstances, chiefly the large merchandise imports arising out of the desire on the part of merchants to get their goods through the customs houses before the new tariff bill imposing higher rates of duties shall go into effect. The Government trade statement showed merchandise imports of \$101,305,000 for April, by far the largest total for any month in the country's history. In April 1896 the imports were only \$58,650,000, and previously the largest monthly aggregate was that for March 1893, namely \$86,663,524. The Treasury gold balance amounted to \$153,340,890 May 1 and to \$144,319,563 June 1.

The Arbitration Treaty with Great Britain, as amended in the Senate, finally came to a vote on the 5th, and failed of ratification, not having received the two-thirds vote necessary for that purpose. The vote stood 43 against 26. Cuban matters again came to the front, and at one time proved quite a disturbing feature. Rumors were current that the new Administration would assume an aggressive attitude in the conflict in progress on that island. One or two Senators who had had access to the correspondence on file in the State Department furnished a rather sensational account of the state of things prevailing on the island. In the resulting discussions the usual violent speeches were made. On the 17th the President sent a message to Congress, but it related simply to the condition of needy Americans in Cuba and suggested an appropriation of \$50,000 for their relief. The appropriation was promptly voted. On the 20th the Senate passed a resolution by a vote of 41 to 14 recognizing the belligerency of the Cuban insurgents. It is not considered likely that the resolution will be allowed to come up in the House for some time.

The Turco-Grecian war ceased to have any influence on the markets either here or abroad. The Greeks were completely vanquished, and the great European Powers intervened to protect them from the rapacity of the Turks, who sought to impose very onerous conditions, such as the cession of Thessaly to Turkey, the payment by Greece of an indemnity of £10,000,000, the

abandonment of Greek capitulations, &c. An armistice was agreed on during the month and renewed again at the close. Previously the Greeks had withdrawn their forces from the island of Crete, out of the occupation of which the whole trouble between the two countries had arisen.

The price of print cloths at Fall River dropped to 2 7-16 cents per yard, which is as low as any figure previously recorded. A curtailment resolution was adopted by some of the Southern manufacturers of cotton at a meeting in Charlotte on the 15th, but as the gathering was composed almost entirely of representatives of yarn mills, the action taken was not regarded as conclusive. A local event of some importance, acting to depress the woolen goods trade, was the strike of the garment makers in the tailoring trades in New York City and vicinity.

In the railroad world, the Illinois Central announced the negotiation of large issues of 3 1/2 per cent bonds, to finance operations connected with the acquisition of the Chesapeake Ohio & Southwestern and Alton & Terre Haute roads. An important event indicative of the prostration of the railway industry was the reduction of the dividend of the Chicago & Alton, which had been maintained on an 8 per cent basis for years, to 7 per cent. Not less important in its general bearing was the decision of the United States Supreme Court in the action against the Cincinnati New Orleans & Texas Pacific and other Southern roads, denying the right of the Inter-State Commerce Commission to fix or prescribe rates. In this State an action begun by the Attorney-General at Albany against the anthracite coal roads, under the recently passed anti-trust laws, attracted a good deal of attention. At Washington, Mr. Elverton R. Chapman, who had refused to answer questions before the Senate Investigating Committee in the Sugar investigation of 1894, was forced, after many appeals, to serve a term in prison. On the other hand, both Mr. Henry O. Havemeyer and John E. Searles, who had been indicted for the same offense, were brought to trial and by order of the Judge, acquitted. The long period of depression in trade led to the liquidation of the Third National Bank of this city, and the transfer of its business and accounts to the National City Bank. A movement looking towards the consolidation of banks in other parts of the country is also to be noted. At Albany Governor Black vetoed the Dudley Graduated Inheritance Tax Bill.

The foreign exchange market was devoid of important features. While rates fluctuated more or less, the general tendency was downwards, and in actual business the price for bankers' sixty day bills was half a cent lower, and for sight bills and cable transfers three quarters of a cent lower at the close than at the beginning of the month. Gold exports continued, but were not of exceptionally large volume, and those at the close of the month were facilitated by triangular operations based upon the condition of sterling at Paris on London. After the shipment of \$4,000,000 gold May 1 (on engagements made the day previous) the exports to Europe from this port for the week ending the 8th were \$2,500,000, the week ending the 15th \$2,800,000, the week ending the 22d \$1,200,000 and the week ending the 29th \$2,850,000. In each case the sale of bills against these exports sensibly weakened the market. There also appears to have been a fair supply of bills against shipments of provisions and flour. On the

other hand the demand for remittance for imported goods was not so urgent as it previously had been, the reason presumably being that part of the goods have not been sold yet and will not be remitted for until they are. The Bank of England on the 13th reduced its minimum rate of discount from 2 1/2 per cent to 2 per cent. Changes in actual rates have been :

Speculation on the Stock Exchange continued dull and the volume of business has been small, the share sales reaching only about 3 1/2 million shares. The movements of prices were decidedly irregular, some stocks manifesting firmness, others weakness. Nor has the tone been at all uniform, periods of depression alternating with periods of strength, the close being quite confident.

NEW YORK STOCK EXCHANGE.

MONTHLY AND YEARLY RECORD.

The following tables furnish a complete record of the New York Stock Exchange transactions for the past month and for the year 1897. They need no extended introduction, as they are self-explanatory. The tables embrace every security (excepting only State bonds) dealt in on the Exchange. We give bonds first, using the classification adopted in the official list. As to prices the form is our own, and we think it will be found to contain just the facts desired by our readers and to present them in the most convenient way for study and reference. All quotations in the column headed "Price about January 2, 1897," were made on that date except those in italics, which are the nearest in January, 1897.

For foot notes to tables see last page of Bonds and last page of Stocks.

BOSTON STOCK EXCHANGE.

MONTHLY AND YEARLY RECORD.

The following tables furnish a record of Boston Stock Exchange transactions in railroad securities for the past month and for the year 1897. Also a record of transactions in mining stocks for the past month and for the year 1897. The railroad securities which are active on the New York Stock Exchange are omitted from this list. We give the securities in alphabetical order under the three general headings, Railroad Bonds, Railroad Stocks and Mining Stocks.

In comparing New York and Boston prices, it should be noted that bond prices in New York are flat prices—that is, the price includes the accrued interest, while in Boston accrued interest must be paid in addition to price. It should also be remembered that New York stock prices are per cent while those in Boston are dollars per share.

BONDS. BOSTON STOCK EXCHANGE.	Int. Period.	Sales in May. Par value	Price about January 2, 1897.		PRICES IN MAY.						RANGE FOR YEAR 1897				
			Bid.	Ask.	May 1.		May 29.		Lowest.		Highest.

GENERAL QUOTATIONS

—OF—

BONDS AND STOCKS.

1. In the following twenty-seven pages of tables quotations are given for all securities listed on any Stock Exchange in the United States; also for all leading unlisted and inactive securities for which we have been able to obtain reliable prices.
2. Quotations from all Stock Exchanges are as near as possible for the last day of May. Of course the coupon, if there be one, maturing between the date of quotation and the date of this publication, is not deducted from the price.
3. Bond prices marked thus (*) are flat prices—that is, the purchaser does not pay accrued interest in addition. Stock prices marked thus (†) are per share. All others are per cent except bank stock prices.
4. It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.
5. The following abbreviations are often used, viz.: "M.," for mortgage; "g.," for gold; "g'd.," for guaranteed; "end.," for endorsed; "cons.," for consolidated; "conv.," for convertible; "s. f.," for sinking fund; "l. g.," for land grant.

MUNICIPAL BONDS.

It should be borne in mind that municipal bonds are not subject to such decided fluctuations in value as are securities which form a basis for speculation.

Prices marked (*) are flat prices—that is, the purchaser does not pay accrued interest in addition.

The figures in the column "to net" indicate the basis on which the securities sell or the interest rate which the securities, if held to maturity, will net to the purchaser at the present market price.

† Prices are per share not per cent.

QUOTATIONS OF BANK AND TRUST COMPANY STOCKS.

Prices are per share, not per cent, with the exception of New York City and Brooklyn bank stocks. Prices marked thus (*) are last sales.

The dagger (†) prefixed to a price indicates that the figures show the book value.

The double dagger (‡) prefixed to the capital stock indicates that only part is paid in.

The section mark (§) prefixed to surplus indicates that undivided profits are included.
