REVIEW OF JUNE.

Improvement marked the course of affairs during June. This was based perhaps as much as anything on the declaration of Mr. Gage, the Secretary of the Treasury, that the Administration had no intention of passing by the question of currency reform, but in due time would undertake to give effect to the popular mandate as expressed at the November election. In part, also, it was due to the progress of work on the new Tariff Bill. To this must be added yet a third cause, namely the favorable agricultural promise, and (as far as the stock market is concerned) also a fourth cause in the carrying forward in the railroad world of the movement to effect a saving in fixed charges by refunding at lower rates of interest bonded obligations maturing in the near future and now bearing quite high rates. The iron trade gave evidences of a revival, prices advancing and the inquiry being quite good. In the cotton goods trade the price of print cloths advanced from 2 7-16 cents per yard to 2½ cents.

The statement by Secretary Gage, from which the financial and business world derived so much encouragement, was made in a speech delivered by him at the banquet of the Commercial Club of Cincinnati towards the close of the previous month—that is, on Friday, May 28th. The statement was clear and explicit, being couched in these words: "If any of you harbor the suspicion that the Administration but just now installed into the responsibilities of high office has forgotten, or is likely to forget, the mandate of the people, whose voice in behalf of honest money and sound finances rang out loud and clear in November last, put that suspicion aside. It is unjust and unfounded. In good time and in proper order the affirmative evidences of my declaration will appear." This statement was reaffirmed on the following Thursday (June 3) in a speech before the Maryland Bankers' Association at Cumberland, Md. As a consequence anxiety lest the currency question might be allowed to go by default was in great measure relieved.

As regards tariff legislation, the new bill remained under consideration in the Senate throughout the whole month. The assuring feature was that there was no evidence of any intention on the part of the opponents of the bill to delay its completion. It was also made manifest during the discussions that differences of opinion within the dominant party regarding certain leading features of the bill, such as the duties on sugar, wool, hides, etc., would be reconciled through the caucus, the views of the majority prevailing, thus removing any danger of much delay in that way.

With reference to the crops, the indications pointed to a large yield of spring wheat in the Northwest. Warm weather the latter part of the month also proved helpful to corn, the season previously having been cold and backward. In the South and Southwest likewise (where the overflow of the Mississippi had retarded progress) great improvement was noted. The report of the Agricultural Bureau at Washington showed a low condition of winter wheat, the average for the whole country on June 1 being only 78·5, or but a trifle higher than at the corresponding date last year, when the figure was 77·9. The average of spring wheat on the same date was given as 89·6 (this comparing with 99·9 on June 1 1896), but later there is reason to think the condition improved.

In the matter of the refunding of maturing railroad bonds at lower rates of interest, it was announced that the Chicago & North Western would follow in the path of the Lake Shore and the New York Central and provide for a new mortgage to take up existing issues. The contemplated plan is to be submitted at a meeting of the directors early in July, and the intention is to make the rate of interest in the new bonds no higher than that in the Lake Shore, the New York Central and the Illinois Central bonds, namely 3½ per cent. There was also talk of refunding schemes by other companies.

The stock market reflected these various favoring influences in a pronounced and almost continuous rise in prices. The market also showed increased activity,

the share sales on the New York Stock Exchange reaching almost 6½ million shares, against only 3⅓ million shares in the month of May. The improvement extended to both bonds and stocks, the former, particularly the best issues, being in active request, while the speculative issues also found considerable favor. The granger properties were leaders in the advance in prices, and among them Chicago & North Western very naturally displayed special strength on the announcement of the probable early submission of a plan for refunding its high-rate bonds. The common stock closed at 116½ June 30, against 107¼ on May 29th. The anthracite stocks also were strong, and towards the close of the month it was announced that prices for coal would be advanced 25 cents a ton July 1. To indicate the extent of the advance and which groups of stocks have been most prominent in it, we present the following table:

	—Closing Prices.—		
Grangers—	*May 29.*	*June 30.*	*Advance.*
Chic. Burl. & Quincy	77	83⅝	6⅝
Chic. Mil. & St. Paul common	75¾	82⅛	6⅜

Missouri Pacific	15	19⅜	4⅜
Western Union	80	84¼	4¼
Manhattan Elevated	85¼	89¼	4
Chicago Gas	83⅜	94¼	10⅞

On the stocks in the foregoing the advance, it will be observed, has been from 1½ to 10⅞ points. Cleveland Cincinnati Chicago & St. Louis stock was not as strong as the rest, because of the suspension of dividends on the preferred shares. The list includes 16 stocks, and in the case of eight of these the highest price for June was also the highest price for the half-year, which shows perhaps better than anything else the strength of the market and the appreciation in values which has occurred It is noteworthy that this upward movement has taken place with but little aid from London, the Jubilee celebrations in connection with the completion of a sixty-year's reign by Queen Victoria having to a large extent kept London operators out of the market. The suicide of Barney Barnato, the South African "Diamond King", had no important influence in the foreign markets.

The outflow of gold to Europe continued, but the shipments were small until the latter part of the month, when the movement was doubtless accelerated by the demand to remit for interest payments on American securities held abroad. The exports from this port were $1,150,000 in the week ending June 5th, $260,000 in the week ending the 12th, $950,000 in the week ending the 19th and $4,800,000 in the week ending the 26th. Portions of the gold came out of the banks and were not taken from the Sub-Treasury. The Government gold balance stood at $140,754,114 June 29th, against $144,319,563 June 1.

An important event during the month was the submission by President McKinley on the 16th of a treaty for the annexation of Hawaii to the United States. The public manifested indifference regarding the matter. Japan lodged a protest against the annexation. The treaty was referred by the Senate to the Committee on Foreign Affairs, and the Chairman of that Committee subsequently stated that no effort would be made to secure the ratification of the Treaty at the present extra session. There were no new developments of importance regarding Cuba. In Europe the armistice between Turkey and Greece was prolonged; nothing definite transpired regarding the terms of the peace negotiations in which the European powers were engaged with the Porte.

The foreign exchange market showed noteworthy steadiness. On the 1st the rates for actual business in sight sterling and cable transfers were advanced one-quarter of a cent, and thereafter the only changes were an advance of a quarter of a cent in long sterling on the 16th, caused by easier discounts in London, a further advance of a quarter of a cent on the 18th and an advance of a quarter of a cent in sight bills and cables on the 17th, followed by an all-around reduction of one quarter of a cent on the 29th. Because of this steadiness the record of the changes in the rates for actual business during the month as shown by our usual table, as follows, is short:

NEW YORK STOCK EXCHANGE.

MONTHLY AND YEARLY RECORD.

The following tables furnish a complete record of the New York Stock Exchange transactions for the past month and for the year 1897. They need no extended introduction, as they are self-explanatory. The tables embrace every security (excepting only State bonds) dealt in on the Exchange. We give bonds first, using the classification adopted in the official list. As to prices the form is our own, and we think it will be found to contain just the facts desired by our readers and to present them in the most convenient way for study and reference. All quotations in the column headed "*Price about January 2, 1897*," were made on that date except those in italics, which are the nearest in January, 1897.

Boston Stock Exchange.

MONTHLY AND YEARLY RECORD.

The following tables furnish a record of Boston Stock Exchange transactions in railroad securities for the past month and for the year 1897. Also a record of transactions in mining stocks for the past month and for the year 1897. The railroad securities which are active on the New York Stock Exchange are omitted from this list. We give the securities in alphabetical order under the three general headings, Railroad Bonds, Railroad Stocks and Mining Stocks.

☞ *In comparing New York and Boston prices, it should be noted that bond prices in New York are flat prices—that is, the price includes the accrued interest, while in Boston accrued interest must be paid in addition to price. It should also be remembered that New York stock prices are per cent while those in Boston are dollars per share.*

* 4th instalment paid. § Less than 100 shares.

GENERAL QUOTATIONS

—OF—

BONDS AND STOCKS.

1. In the following twenty-seven pages of tables quotations are given for all securities listed on any Stock Exchange in th United States; also for all leading unlisted and inactive securities for which we have been able to obtain reliable prices.

2. Quotations from all Stock Exchanges are as near as possible for the *last day of June.* Of course the coupon, if there be one, maturing between the date of quotation and the date of this publication, is not deducted from the price.

3. Bond prices marked thus (*) are flat prices—that is, the purchaser does not pay accrued interest in addition. Stock prices marked thus (†) are per share. All others are per cent except bank stock prices.

4. It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.

5. The following abbreviations are often used, viz.; "M.," for mortgage; "g.," for gold; "g'd.," for guaranteed; "end.," for endorsed; "cons.," for consolidated; "conv.," for convertible; "s. f.," for sinking fund; "l. g.," for land grant.

MUNICIPAL BONDS.

It should be borne in mind that municipal bonds are not subject to such decided fluctuations in value as are securities which form a basis for speculation.

Prices marked (*) are flat prices—that is, the purchaser does not pay accrued interest in addition.

The figures in the column "*to net*" indicate the basis on which the securities sell or the interest rate which the securities, f held to maturity, will net to the purchaser at the present market price.

QUOTATIONS OF BANK AND TRUST COMPANY STOCKS.

Prices are per share, not per cent, with the exception of New York City and Brooklyn bank stocks. Prices marked thus (*) are last sales.

The dagger (†) prefixed to a price indicates that the figures show the book value.

The double dagger (‡) prefixed to the capital stock indicates that only part is paid in.

The section mark (§) prefixed to surplus indicates that undivided profits are included.
