#### OUR NEW TABLES OF STOCK AND BOND PRICES.

We begin this week the publication of our weekly record of stock and bond prices in a new and greatly enlarged form, as we announced we should at the beginning of the year. The tables will be found on pages 504 to 511, both inclusive.

The compilation of Stock Exchange prices is the most comprehensive ever attempted in any weekly report. It finds its only parallel in the monthly record which we have for several years given in our QUOTATION SUPPLEMENT. It includes every security, whether stock or bonds, dealt in on the Exchange. Both in the stocks and in the bonds we have discarded entirely the customary distinction of "active" and "inactive" and give the names all in one list, alphabetically arranged under two heads—"Railroads" and "Miscellaneous."

As to the matter contained in the tables, we have retained in the case of the stocks the old form, since that has been found by experience to be entirely satisfactory. The list now, however, includes all stocks, instead of only the active ones. The table shows (1) the fluctuations for every day in the week; (2) the sales for the week in number of shares, and (3) the range since January 1, with the date when the highest and lowest points were reached.

In the case of the bonds, the form has been entirely changed and a vast amount of information is now given in a very compact form. The statement shows: (1) the prices for Friday the end of the week; (2) the highest and lowest sale prices for the week, based on actual business done at the Exchange; (3) the date and price of the last sale where there have been no transactions during the week. This latter is a feature which should be particularly useful, more especially as the search, where necessary, has been extended back fifteen months (that is to January 1 of last year) in order to find a sale. Besides these data, the table records (4) the number of bonds sold during the week and (5) the range of prices (highest and lowest) from January 1 up to and including the day of publication.

To these very elaborate tabulations of Stock Exchange prices we have added a very extensive list of outside securities. These are given at the foot of each page, and show the Friday bid and asked prices. In this latter statement we have sought to include all the various classes of securities which have a market in New York but are not "listed" or do not sell on the Stock Exchange. The statement embraces street railways, gas, telegraph, telephone, electric-light, ferry, industrial, manufacturing and miscellaneous securities. It is our intention also to revise another week our report of the transactions on the Boston, Philadelphia and Baltimore Stock Exchanges.

Altogether, our various tables of prices now occupy nine pages, where before only five pages were devoted to them. Taken in connection with the price records furnished in our monthly QUOTATION SUPPLE-MENT (and the weekly and monthly compilations are simply complementary of each other, and should be used together,) it will, we think, be admitted that we cover the ground fully and satisfactorily. As a matter of fact, nowhere else in the world can more comprehensive tables of prices be found than are contained in our QUOTATION SUPPLEMENT and the CHRONICLE combined.

zed for FRASER

#### THE FINANCIAL SITUATION.

The Cuban situation has continued a disturbing feature. The report published in the papers Monday morning that the Spanish Government had last week intimated to our Government a desire that General Lee, the American Consul-General at Havana, be recalled, and that President McKinley had promptly refused the request, and that the Spanish Government also objected to the sending of relief supplies for the starving Cubans in American war vessels, produced a decidedly uneasy feeling. As it happened, too, the news from the Far East concerning the movements and intentions of the European Powers in China was somewhat disquieting. The result was that our stock market experienced a severe break on extensive selling both for American and foreign account, prices opening off some three to four points as compared with those prevailing at the close on Saturday. Before the end of the day it was announced that Spain's request concerning General Lee had not been in the form of an official application, and that in view of the attitude of our Government the request had now been withdrawn, the incident therefore being closed. It was also announced that the relief supplies for the Cubans would be sent on the dispatch boat Fern, which, though a naval vessel, was more like a transport than a warship, and that this would be satisfactory to the Spanish Government. The stock market on these announcements and a favorable decision by the Supreme Court in the case of the Nebraska Maximum Freight law recovered somewhat, but it has remained fitful and irregular since then, the tendency yesterday being strongly downwards.

The action of Congress in placing \$50,000,000 at the disposal of the President for strengthening the national defenses, to remain available until January 1 1899, and to be used entirely at his discretion, has also added somewhat to the uneasy feeling; for it seemed to emphasize the critical state of the situation. There is a disposition now, though, to look upon it as in the nature of a guaranty of peace, if such an outcome is at all possible. The bill was introduced in the House by Chairman Cannon of the Appropriations Committee on Monday, after consultation with the President, and was reported to the House the next day and promptly passed after a few hours' debate, every one of the 311 votes recorded being cast in favor of the bill. In the Senate it was passed on Wednesday without any debate, 76 Senators voting in the affirmative and none in the negative, and authoritative announcement being made on behalf of every absent member that if he were present his vote would also be cast in favor of the bill. This unanimity of action on the part of Congress is considered a favoring circumstance in making it clear to Spain that the President in any step he is likely to take is certain to have the support of the entire people-knowledge of which fact must necessarily induce extra caution on the part of the Spanish Government. Lastly, there is the utmost confidence in the wisdom and good sense of the President, who has thus far acted with great care and judgment, and who is not likely to provoke war rashly or to use the immense power lodged in his hands except in accordance with the highest sense of duty.

While the decision by the U. S. Supreme Court this week, declaring unconstitutional the Nebraska Maximum Freight Law, is an encouraging event, it does not furnish a remedy for the Court's ruling of last year declaring the Trans-Missouri Freight Association an illegal body because in conflict with the anti-trust law of 1890. Since this earlier been almost impossible to decision it has traffic associations together, hold the various and rates have been becoming steadily more demoralized. The war in passenger rates to the Pacific Coast between the Canadian Pacific and the American Trans-Continental lines, which has increased in intensity the present week, is, perhaps, not attributable to that circumstance. But the unsatisfactory condition of freight rates all over the country can hardly be referred to any other cause. In this last instance matters have gone so far that the dissolution of the Western Freight Bureau seems imminent. It was an-Traffic nounced from Chicago yesterday that the Missouri Kansas & Texas had on Thursday given notice of its intention to withdraw from the association. The Milwaukee & St. Paul had previously given notice to the same effect, and it is reported that other roads purpose taking similar action. Chairman Midgley is quoted as saying that since the decision in the Trans-Missouri case he did not think the commissioner of any railway association, himself included, had been worth his salary. The Court's decision that associations designed to regulate railway traffic are in restraint of trade, he observes, has deprived the associations of their greatest power for good. It is announced that a meeting of the presidents of the Western roads is to be held next week to consider the future of the Western Association.

The Delaware & Hudson results of operation for the year 1897 were published in our issue of January 29. The pamphlet report at hand this week gives the details and also balance sheet. In this latter some changes attract notice. The company has charged off to profit and loss account \$1,264,689, being mainly reductions in the items representing cost of canals, boats and equipment. The change is in the direction of increased conservatism. The items on the credit side of the balance sheet would also appear to be stated very conservatively. Thus the stocks owned are put in at their par value, though the market value in the case of the Albany & Susquehanna and Rensselaer & Saratoga stocks, is about double the par value. As a result of the action of the management in charging off the amount above referred to, the accumulated surplus now stands at \$5,128,-344, as against \$6,000,870 a year ago. Operating expenses during the year were reduced \$639,000 as compared with the year preceding. Of this reduction \$483,000 was owing to decrease in mining and transportation charges, the company having mined some 250,000 tons less of coal. A further decrease in expenses was due to the saving effected by the double track on the Albany & Susquehanna road. Operating expenses were charged with 6,374 tons of steel rails. The balance of earnings over all charges was \$2,141,-420, as against \$1,765,012 in 1896.

Iron production is still increasing, and another new record has been made. According to the figures compiled by the "Iron Age" the number of furnaces in blast March 1 was 193, against 184 February 1, while the production was at the rate of 234,430 tons per week, against 228,338 tons per week the **previous** month. For several successive months now the output has been each month in ex

cess of the highest previously reported figures, and the limit of the upward movement has evidently not yet been reached, notwithstanding that many have been skeptical for some time as to whether under the existing low prices any further addition to the product could be expected. It is important to note, however, that stocks keep steadily, even if slowly, rising. On the 1st of March the total of the stocks for the furnaces reporting was 799,694 tons, against 776,384 tons February 1, 736,366 tons January 1 and 723,885 tons December 1. Even at 799,694 tons, however, the amount is equal to less than four weeks' production.

The bank statement of last week reflected the forced liquidation in loans which began during the previous week and also the withdrawal by interior banks of deposits in that week. Loans were decreased \$13,622,-000, making \$18,658,800 for two weeks; legal tenders fell off \$8,873,700, making a loss of \$26,947,600 since February 5, and deposits were reduced \$23,193,900, making \$32,540,200 in two weeks. These changes carried the surplus reserve of the banks down to \$20,823,500 last week, against \$35,609,450 at the end of January.

The low bank reserves and the fact that some of the institutions were below their limit of 25 per cent to liabilities induced a calling in of loans on Monday, and there was also more or less change in loans due to the unsettled stock market arising out of the reported. demand by Spain for the recall of General Lee. Banks generally marked up their rates to 3 per cent, subsequently maintaining that rate as the minimum, and fairly large amounts were loaned on the Stock Exchange at this rate until late in the afternoon, when there was a better supply, and the rate fell to  $1\frac{1}{2}$  per cent by the close. On Tuesday loans were made at  $2\frac{1}{2}$  per cent until the last hour, when there were transactions at 13 per cent. The bulk of the business was, however, at 2 to  $2\frac{1}{2}$  per cent. On Wednesday money loaned at  $2\frac{1}{2}$  per cent and at 2, and on Thursday at  $2\frac{1}{4}$  and at  $\frac{1}{2}$  of 1 per cent in the last half hour, after the demand for the day had been satisfied. On Friday loans were at 2 and at  $1\frac{1}{2}$  per cent. The range for the week was from 3 to  $\frac{1}{2}$  of 1 per cent, averaging about 2, and there was a better feeling regarding the immediate future of call money based upon the fact that imported gold was arriving, and that the supply from this source would probably soon be abundant. This feeling was also reflected in the time-loan branch of the market. Early in the week rates were firmly held at 5 per cent for all dates, and even on Wednesday some loans were reported by banks at 6 per cent for 6 to 8 months. On Thursday and on Friday the offerings were more liberal by brokers, at  $4\frac{1}{2}$  per cent for all dates, but the demand was small. The city banks are out of the market as buyers of paper, in consequence of their low reserves, and also because they are meeting the demands of their interior correspondents. The principal purchasers are banks in near-by cities, which banks are not subjected to the drain from the interior, and brokers report moderate sales. The supply is good, and there is a fair assortment of names. Rates are  $4\frac{1}{2}@5$ per cent for sixty to ninety-day endorsed bills receivable,  $4\frac{1}{2}$ @ $5\frac{1}{2}$  for prime and 5@6 for good four to six months' single names.

t 228,338 tons per week the For several successive months again strained. It was reported from Pekin on Monhas been each month in ex<sup>-</sup> day that immediately after the issue of the Imperial decree on Thursday, sanctioning the Anglo-German loan, Russia demanded that China surrender all her sovereign rights over Port Arthur and Talien-Wan and five days were granted for a reply. On the following aday it was reported from Berlin that China had agreed to a lease to Russia of these two ports for ninety-nine years, and that Russia had determined to carry the 'Trans-Siberian Railroad to Port Arthur. These reports caused much concern in London on Monday, though the markets were then also influenced by the fall in Spanish 4 per cents. There was a recovery in the tone on the following day, notwithstanding the partial confirmation of the reports of the Russian Hease of Port Arthur and Talien-Wan. More or less ·contradictory reports regarding the Far Eastern situation were received in London from day to day, and it was not until Thursday that the English Ministry denied that Russia had sent an ultimatum to China. It was then officially stated in the Eng-'lish Parliament that Russia was negotiating for the lease of Port Arthur and Talien-Wan on the same terms and for the same period as granted to Germany for Kiao Chou, and that Russia was also negotiating for the right to extend the Trans-Siberian Railway. This would seem partially to confirm the original report, with the exception that Russia had not demanded an immediate compliance with her demand. It was announced on Thursday that a Russian Imperial ukase had been issued ordering the disbursement of 90 millions of rubles (\$64,800,000) as extraordinary expenditures for the construction of war ships. It was also stated that no loan would be required to provide the money.

The Bank of England minimum rate of discount remains unchanged at 3 per cent. The cable reports discounts of sixty to ninety day bank bills in London  $3\frac{1}{4}$  per cent. The open market rate at Paris is  $1\frac{1}{3}$  and at Berlin and Frankfort it is  $2\frac{1}{3}$  per cent. According to our special cable from London the Bank of England lost £216,460 bullion during the week and held £33,625,994 at the close of the week. Our correspondent further advises us that the loss was due to exports of £265,000 (£200,000 to Argentine Republic, £50,000 to United States and £15,000 to other countries), to shipments of £167,000 net to the interior of Great Britain and to imports of £114,000 from Australia and £102,000 bought in the open market.

The foreign exchange market has been lower this week, influenced by a comparatively light demand, and also by quite liberal offerings of investment bills and by dearer rates for money on time, which make further holdings of such bills unprofitable and indeed undesirable. It is believed by bankers in a position to be well informed that the amount of sixty-day sterling which has been carried in this market has been very materially reduced within the past fortnight. In some cases the bills have been rebought by the drawers and the loans on them cancelled. In other cases, where the bills were approaching sight, they have been sent forward for collection, and presumedly many of these drafts have been used to cover gold imports. The movement of gold hither from Europe has been large this week. The amount thus far reported as engaged is \$16,585,000, of which \$5,700,000 was announced in the CHEONICLE as having been secured up to the end of last week. The engagements reported on Monday were \$4,525,000, the City National Bank securing \$1,600,-1000, Heidelbach, Ickelheimer & Co. \$825,000, Kuhn,

Loeb & Co., \$600,000, Ladenburg, Thalmann & Co. \$500,000, L. von Hoffman & Co. \$500,000 and Lazard Freres \$500,000. On Tuesday the engagements were \$2,350,000, the City National Bank procuring \$650,-000, Heidelbach, Ickelheimer & Co. \$650,000, Ladenburg, Thalmann & Co. \$300,000, the Guaranty Trust Company \$500,000 and the Union Bank of Chicago \$250,000. On Wednesday engagements were \$775,-000. The City National Bank secured \$300,000. Lazard Freres \$275,000 and Hallgarten & Co. \$200,000. On Thursday engagements were \$1,150,000; the City National Bank obtained \$200,000, Kuhn, Loeb & Co. \$200,000, Ladenburg, Thalmann & Co. \$250,-000 and Seligman & Co. \$500,000. Engagements on Friday were \$2,085,000; the National City Bank secured \$85,000, Kuhn, Loeb & Co. \$300,000, Ladenburg, Thalmann & Co. \$500,000, L. von Hoffmann & Co. \$150,000, Lazard Freres \$500,000, the Guaranty Trust Co. \$250,000, the First National Bank of Chicago \$100,000 and the Produce Exchange National Bank \$200,000. Arrivals reported as directly consigned during the week, including \$300,000 to Müller, Schall & Co., in transit, amount to \$3,705,000. The gold came on the Gascogne and the Kaiser Wilhelm der Grosse. It was consigned as follows: National City Bank, \$830,000; Heidelbach, Ickelheimer & Co., \$700,000; Kuhn, Loeb & Co., \$375,000; Ladenburg, Thalmann & Co., \$500,000; L. von Hoffman & Co., \$500,000; Müller, Schall & Co., \$300,000, and \$500,000 to order.

The foreign exchange market opened on Monday with nominal rates unchanged at 4 83 for sixty day and  $4.85\frac{1}{2}$  for sight. The tone was easy, but no change was made in rates for actual business, these remaining at 4 8112@4 813 for long, 4 84@4 844 for short and  $4\ 84\frac{1}{2}@4\ 84\frac{3}{4}$  for cable transfers. The tone was also easy on the following day, and Brown Bros. & Co., Heidelbach, Ickelheimer & Co., Lazard Freres and the Merchants' Bank of Canada reduced nominal rates, making the range 4 821/2@4 83 for sixty day and 4 85@4 85 $\frac{1}{2}$  for sight. The only change in rates for actual business was a reduction in those for long sterling to 4 814@4 811. On Wednesday Brown Bros. reduced their nominal rates, making the range 4 82@ 4 83 for sixty day and 4 85@4 85<sup>1</sup>/<sub>2</sub> for sight. Rates for actual business were reduced one-quarter of a cent, to 4 81@4 814 for long, 4 833@4 84 for short and 4  $84\frac{1}{4}@4$   $84\frac{1}{2}$  for cable transfers. The market was weak. On the following day the tone was again weak, but the only change in rates for actual business was a reduction of half a cent in long to  $4.80\frac{1}{2}@4.80\frac{3}{4}$ . On Friday the Bank of Montreal reduced nominal rates for sixty day half a cent, making the range from 482 to  $482\frac{1}{2}$  for sixty-day and from 485 to  $485\frac{1}{2}$  for sight. The market was dull and heavy, though no change was made in rates for actual business. The following shows daily posted rates for exchange by some of the leading drawers :

THE CHRONICLE.

The market closed easy on Friday. Rates for actual business were  $4 \ 80\frac{1}{2}@4 \ 80\frac{3}{4}$  for long,  $4 \ 83\frac{3}{4}@$  $4 \ 84$  for short and  $4 \ 84\frac{1}{4}@4 \ 84\frac{1}{2}$  for cable transfers. Prime commercial  $4 \ 80@4 \ 80\frac{1}{2}$  and documentary  $4 \ 80@4 \ 81$ . Cotton bills for payment  $4 \ 79\frac{1}{2}@4 \ 80$ ; cotton for acceptance  $4 \ 80@4 \ 80\frac{1}{4}$ ; grain for payment  $4 \ 81$ .

The following statement gives the week's movement of money to and from the interior by the New York banks.

Week Ending March 11, 1898.		Shipped by N.Y. Banks.	Net Interior Movement.
Gold.	\$5,800,000		Gain.\$1,894,000 Gain. 906,000
Total gold and legal tenders	\$7,100,000	\$4,300,000	Gain.\$2,800,000

With the Sub-Treasury operations the result is as follows.

Week Ending March 11, 1898.	Into	Out of	Net Change in
	Banks.	B inks.	Bank Holdings.
Banks' interior movement, as above	\$7,100,000		Gain. ±2,800,000
Sub-Treasury operations	15,300,000		Gain. 800,000
Total gold and legal tenders	\$22,400,000	\$18,800,000	Gain \$3,600,000

The following table indicates the amount of bullion in the principal European banks this week and at the corresponding date last year.

	M	arch 10, 18	98.	March 11, 1897.			
Bank of	Gold.	Silver.	Total.	Gold.	Silver.	Iotal.

Netherlands .	2,738,000	6,891,000	9,629,000	2,633,000	6,921,000	9,554,000	
Nat.Belgium*				2,868,000	1,434,000	4,302,000	
Tot.this week	195,036,781	97,423,300	292,460,081	191,087,132	96,311,452	287,398,58	
Tot. prev.w'k	193,270,973	93.074.704	289,345,677	190,715,129	96,580,612	287,295,741	

\* The division (between gold and silver) given in our table of coin and bullion in the Bank of Germany and the Bank of Belgium is made rom the best estimate we are able to obtain; in neither case is it claimed to be accurate, as those banks make no distinction in their weekly returns, merely reporting the total gold and silver, but we believe the division we make is a close approximation.

Nore.—We receive the foregoing results weekly by cable, and while not all of the date given at the head of the column, they are the revarns issued nearest to that date—that is the latest reported figures.

#### WHY WAR IS IMPROBABLE.

The incidents of the present week have doubtless encouraged the belief among alarmists that a rupture with Spain has grown more probable. We question, however, if these events have had a similar influence on the conservative public mind. The almost unanimous assertion in private discussion of the so-called "war preparations," that they are really measures to avert an outbreak of hostilities, is by far the most significant development of the day. The contrast of the people's attitude this week with their attitude during even the votes of Congress in the Venezuela episode of December 1895 is alike instructive and encouraging.

It would nevertheless be foolish and useless to deny that the situation is serious and that it is full enough of grave possibilities. Not, we believe, since the peace of 1865 has Congress been called upon to make an actual emergency appropriation for contingent purposes of war, and this has been done this week without a dissenting legislative voice. Responding to the President's request—wisely communicated through a conference with committee chairmen and not through a public message—the House and Senate on Monday and Wednesday last authorized by unanimous vote the increase of the national artillery force by two regiments, and on Tuesday voted an appropriation of fifty million dollars "for the national defense

and for each and every purpose connected therewith, to be expended at the discretion of the President, and to remain available until January 1 1899." On the other hand, the report that Spain was negotiating to purchase three new South American war ships, nearly completed in the English yards, appears to be confirmed. There has, it is true, been some indication later in the week that these efforts have been obstructed, but the purpose of strengthening its armament has, without doubt, been pursued by Spain. Similarly, it is reported that our own Government has been quietly sounding some of the smaller foreign States with a like purpose.

All this series of moves suggests undoubtedly that each government has in view the possibility of a serious collision. We think that it means no more than recognition of a possibility; and, to go further, we are confident that similar preparations even by European States would not be regarded as rendering hostilities either probable or certain. Our readers have probably not forgotten the repeated mobilizing of one or another Continental army ten or fifteen years ago. They will doubtless remember the sudden massing of Great Britain's "flying squadron" at the opening of 1896. On all these occasions, relations between some of the first-rate Powers were seriously strained; on none of them did any-thing result except the maintenance of peace on a surer basis than before. Each of these demonstrations was in fact arranged with the double purpose of making ready for a possible though remote emergency, and of showing to the world that provocation to war would not be a safe experiment. This week's moves by the United States and Spain have been inspired by an exactly similar purpose and by no other. People who imagine, because the two nations are arming at a delicate diplomatic juncture, that each or either is thereby showing a deliberate purpose of undertaking war, merely betray their unfamiliarity with recent history.

We have several reasons for believing that the present more or less strained diplomatic situation will not result in war. One, and the most important reason, is that neither party wishes for such an issue. We can recall no war, whether of modern or of ancient times, which broke out unless one or the other of the belligerents, or both of them, desired it. The Greek war of 1897 was forced, it will be remembered, by the Greek people. In the Russo-Turkish war of 1877, the Russian Government merely found a pretext for which it had long been seeking. The Prussian Government not only wished for war in 1870, but deliberately provoked into such a declaration the all-too-ready Government of Napoleon III. A similar story will be told with equal clearness as we go back further into history.

Nor, on the other hand, can we recall a declaration of war which was not partly at least inspired by a plain and distinct purpose of gaining something. The wars just mentioned had as their very immediate motives the acquisition of a Crete, a Constantinople, an Alsace-Lorraine. There have been wars for conquest, wars for independence, wars for indemnity, wars for self preservation, wars for simple booty. It will be obvious at a glance that none of these motives can exist in the present dispute between the United States and Spain. To Spain, indeed, war might conceivably become a desperate measure of selfpreservation; but this assumes such aggression and provocation on the part of the United States as would be of itself equivalent to declaring war. Neither nation, in short, has anything to gain by war; both have a heavy stake to lose. We do not wish Cuba as a part of our national dominion ; the most hot-headed jingo shrinks from avowing or approving such a purpose. It is extremely doubtful if the majority of our citizens wish even for Cuban independence; our hereditary sympathy with colonial insurrection has certainly been tempered by the contrast between the well-governed and contented English colony on our north and the alternate despotism and governmental chaos in the independent Haytis and Nicaraguas to the south of us. What, then, is to be gained by such a war as has been the burden of popular discussion for a month or more?

If successful in the contest, we should put an end, of course, to the Spanish undertaking to suppress the Cuban insurrection. We should hand over the government of Cuba to a mixed army of white adventurers, negroes and half-breeds, who have spent the active part of their lives in guerilla warfare. We do not describe the insurgent armies and leaders thus in order to express contempt. We have simply pictured them as every correspondent, even among the Cuban sympathizers, has done. They have made a bold and gallant fight; so did the Irish insurgents of 1848 and the Spanish Carlists of 1874. But it is permissible to doubt whether in Cuba, any more than in the earlier Ireland and Spain, the cause of good government and civilization has been necessarily identified with that of insurrection. Against this extremely questionable benefit must be placed the wholesale loss of life and property consequent on any war; the abandonment of this nation's position in the front rank of defenders of international peace; the establishment of enmity between ourselves and a fellow-nation which would probably outlast another century; and not least of all, the possibility that one such outbreak, with the inevitable chain of national alliances, tacit or expressed, might conceivably bring about that fearful catastrophe which the world has been struggling to avert-the bursting of the European war cloud and the alignment of the several States in a general conflict from which the United States could no longer claim immunity. No reader who has thoughtfully studied the history of a century ago will accuse us of painting the picture in too gloomy colors.

It is gratifying to turn from this dark panorama to the actual situation as it exists to-day. The responsible Ministers of both nations, even while recognizing the possible gravity of the situation, and even while providing for increased defensive armaments, frankly and publicly declare that they neither wish nor expect war. The discussion regarding Consul-General Lee, which in a similar situation between other States might easily have been made the pretext for a declaration of hostilities, is courteously smoothed over without the least exhibition of ill will. very Congressional debate over the fifty-The million defense appropriation called forth almost unanimous expression of opinion by our legislators that their wish and purpose was not to provoke war but to avert it. Congressional declarations now, as always, are the reflection of opinion of constituencies, and it is quite safe to assume that the hope and wish for peace asserted by last Tuesday's Washington debaters proved conclusively the sentiment of the Amer- | war as next to impossible.

ican people as a whole. Neither Government and neither people is likely, in the words of the unlucky Emile Ollivier of 1870, to send its troops to war "with a light heart."

Much has been said, as is usual on such occasions, of the obstructions placed by the financial interests in the way of irrevocable action. Such opposition has undoubtedly existed in the United States and in Europe, and it is our judgment that the sobering influence of sentiment as expressed in such quarters has been of the highest value. There are those who choose to exhibit indignation because what they call the "money power" stands repeatedly in the way of war. But the assumption that such an attitude is a public wrong or injury seems to us the most fantastic notion ever conceived. What would have happened to the human race in the last two centuries, without this constant brake on national impulsiveness and passion, it is difficult to imagine. All that we know is that before the instinct for the protection of property and trade obtained a firm hold in the human mind, war was apparently the natural condition of the race.

But for this wholesome instinct on the side of peace, the history of modern times, the era of high explosives and destructive armaments, could have been little more than a series of wars of extermination. To cry out, therefore, as some of our light-headed demagogues occasionally do, against this well-known endency of concentrated property interests, is simply to express the wish that the brute passion for revenge and slaughter shall have nothing to restrain it in the march of modern civilization. If property and investment interests have at times opposed the declaration of a war whose cause was just-and their influence even at such times has undoubtedly been to oppose the final outbreak-it is at least worthy of recollection how many imminent wars based upon passion, hate and misrepresentation have been prevented by the same conservative influences. We scarcely think this tribute will be withheld, unless by that grotesque school of philosophers who deliberately argue that war is a benefit in itself.

We believe that in the present instance the influence of these conservative interests has been very great, and we rejoice that they have been able to exert it. The situation is all the more gratifying from the very obvious fact that public opinion in the nation as a whole has taken its stand on the side of this conservative balance-wheel. It is equally pleasant to observe, as seems to be indicated by such intimations as have come this week from diplomatic circles, that Great Britain has thrown its powerful influence on the side of an amicable settlement of this Cuban quarrel. How the dispute is to be adjusted we can only guess; but it is very safe to rest on the principle that when both parties to a dispute are anxious for friendly adjustment, and unwilling to resort to open quarrel, some means of settlement can be found. The lesson of the Nineteenth Century, from opening to close, is that the most unsatisfactory means of settling an international controversy is by the gage of war. The sacrifice of some hundred thousand lives, of some hundred millions' worth of property, commonly ends with the disputed question in its old position, or in a position worse than that which it occupied before. If the world can once be convinced of the absurdity of war, it will soon go further and mark out

THE CHRONICLE.

#### THE SUPREME COURT AND THE NEBRASKA MAXIMUM FREIGHT LAW.

No one who has followed the decisions of the United States Supreme Court in recent years can be surprised that the Court has failed to uphold the Ne. braska Maximum Freight law. Indeed it is difficult to account for the anxiety which has been felt regarding the outcome in this case, considering that the Court has over and over again laid down the rule that carriers are entitled to receive fair and just compensation for their services, and that a State cannot, acting either through its legislature or through some. other public body, enforce confiscatory or non-compensatory rates.

But while the present ruling announces no new doctrine, it covers some points barely touched upon in previous decisions, and is interesting also because it defines so plainly and clearly how the doctrine is to be applied. . Through the Maximum Freight Law the Nebraska Legislature sought to compel the roads to move local traffic at rates which would have involved a reduction of nearly 30 per cent from those previously in force. The Union Pacific and other roads contested the law, and in the United States Circuit Court before Judge Brewer obtained a ruling against the constitutionality of the act. From this the appeal to the Supreme Court was taken, where the views of Judge Brewer have now been sustained.

It is well enough to say that one of the arguments advanced in behalf of the railroads was held to be without merit. It had been contended that the Nebraska law could not be made applicable to the Union Pacific, since the latter held a Federal charter, and the act creating the corporation had reserved to Congress the right to fix the rates on this line in certain contingencies. But Justice Harlan (who delivered the opinion of the Court) took the ground that as Congress had not availed itself of this privilege, the States through which the Union Pacific runs can exercise control over the subject of rates, "Until Congress in the exercise either of the power specifically reserved by the 18th Section of the Act of 1862 or its power under the general reservation made of authority to add to, alter, amend, or repeal that Act, prescribes rates to be charged by the railroad company, it remains with the States through which the road passes to fix rates for transportation beginning and ending with their respective limits "

But while in the absence of legislation by Congress, the States have control, a State enactment (or regulation made under the authority of a State enactment) seeking to establish such rates as will not admit of the carrier earning a just compensation is illegal and unconstitutional. Such a statute would deprive the carrier of its property without due process of law, and deny to it the equal protection of the laws, and hence would be repugnent to the Fourteenth Amendment to the Constitution of the United States. Furthermore, while the rates for the transportation of persons and property within the limits of a State are primarily for the State's determination, the question whether they are so unreasonably low as to deprive the carrier of its property cannot be left to the exclusive determination of the Legislature, but is a matter for judicial inquiry.

The Court admits that this last question could very likely be more easily determined by a commission composed of persons of special skill and qualification.

A.r

confessedly attend the proper solution of such ques tions, the Court cannot shrink from the duty to determine whether it be true that the Nebraska statute invades or destroys rights secured by the supreme law of the land. No one would contend, he urges, that a State enactment is in harmony with that law simply because the Legislature of the State has declared such to be the case. For such a rule would make the State Legislature the final judge of the validity of the enactment. On that point the Justice says: "The idea that any legislature, State or Federal, can conclusively determine for the people and for the courts that what it enacts in the form of law, or what it authorizes its agents to do, is consistent with the fundamental law, is in opposition to the theory of our institutions. The duty rests upon all courts, Federal and State, when their jurisdiction is properly invoked, to see to it that no rights secured by the supreme law of the land be impaired or destroyed by legislation."

Very important are the Court's observation with reference to the claim made that the State of Nebraska could legally require local freight business to be conducted even at an actual loss if the company earned on its inter-State traffic enough to give it just compensation in respect of its entire line and all its business, inter-State and domestic. This contention is dismissed in these words: "We cannot concur in this view. In our judgment, it must be held that the reasonableness or unreasonableness of rates prescribed by a State for the transportation of persons and property wholly within its limits must be determined without reference to the business of an inter-State character done by the carrier, or to the profits derived from that business. The State cannot justify unreasonably low rates for domestic transportation, considered alone, upon the ground that the carrier is earning large profits on its inter-State business, over which, so far as rates are concerned, the State has no control. Nor can the carrier justify unreasonably high rates on domestic business upon the ground that only in that way can it meet losses on its inter-State business. So far as rates of transportation are concerned domestic business should not be made to bear the losses on inter-State business, nor the latter the losses on domestic business. It is only rates for the transportation of persons and property between points within the State which the State can prescribe, and when it undertakes to prescribe rates not to be exceeded by the carrier, it must do so with reference exclusively to what is just and reasonable as between the carrier and the public in respect of domestic business."

The Court also indicates very clearly the elements that may be regarded as entering into the question as to what are reasonable rates. "We hold that the basis of all calculations as to the reasonableness of rates to be charged by a corporation maintaining a highway under legislative sanction must be the fair value of the property being used by it for the convenience of the public. And in order to ascertain that value, the original cost of construction, the amount expended in permanent improvements, the amount and market value of its bonds and stock, the present as compared with the original cost of construction, the probable earning capacity of the property under any rates prescribed by statute, and the sum required to meet operating expenses, are all matters for consideration, and to be given such weight But, says Justice Harlan, despite the difficulties that as may be just and right in the particular case. What

the company is entitled to ask for fair return on is the value of that which it employs for the public convenience. On the other hand, what the public is entitled to demand is that no more be exacted from it for the use of a public highway than the services rendered by it are reasonably worth."

Having thus laid down the principles that must govern, the Court says that on that basis it can perceive no ground in the record for reversing the decree of the Circuit Court. The evidence seemed to show quite conclusively that as to most of the companies there would have been under the rates established by the Act of 1893 an actual loss in each of the years ending June 30, 1891, 1892 and 1893, and substantially no compensation earned for the services rendered, with the effect of depriving such companies of the just conpensation secured to them by the Constitution.

But circumstances and conditions are all the time changing, and a rate which may to-day be unremunerative may a year or two hence be just and compensatory. The Circuit Court in its decree had provided that the Nebraska Board of Transportation might, when the circumstances had changed so that the rates complained of should yield proper compensation, apply to the Court for a further order in the premises. Justice Harlan speaks with approval of their reservation, and says it is a wise provision of which the Board can avail itself. In such an event, he says, if the Circuit Court finds that the present condition of business is such as to admit of the application of the statute to the roads without depriving them of just compensation, it will be its duty to discharge the injunction heretofore granted and to make whatever order is necessary to remove any obstruction placed by the decrees in these cases in the way of the enforcement of the statute. The meaning of this would seem perfectly clear. There is no hard and fast rule by which the question of the reasonableness of a rate can be determined now and forever. Circumstances must control, and circumstances may make a present unreasonable rate reasonable hereafter.

#### THE CANADIAN PACIFIC REPORT.

The annual report of the Canadian Pacific serves to direct attention anew to the wonderful growth and development of this great property. Just at the moment the road is receiving a good deal of notice in the papers by reason of the war on passenger business to the Pacific Coast which has broken out between it and the American lines. That, however, is only a passing event in the affairs of the company. The increase in the traffic and revenues of the system is a more noteworthy circumstance, since it is a constant, ever present fact, having been going on so long and being evidently still in progress.

The expansion in net earnings the last three years furnishes an excellent illustration of the growth referred to. In 1893 and 1894, in common with the roads in the United States, the company suffered from the business depression prevailing, and its revenues, both gross and net, underwent a decided contraction. The company simultaneously passed the dividend on its stock, and as previously the dividends had been paid in part out of a guaranty fund lodged with the Dominion Government, many were the predictions that a point had now been reached where the early collapse of the enterprise might be looked for. But the preparty showed great recuperative powers. The loss sustained during the period of adverse conditions

11.

to expand in the old way, rising to higher tigures than before. In the late year alone there was an increase of \$3,367,938 in the gross and of \$2,196,194 in the net. Comparing with 1894 we find that the net then was \$6,423,309, while now for 1897 the amount is \$10,303, -776. Thus in the three years the addition has been nearly four million dollars, or about 60 per cent. Gross during the same interval increased about 51 million dollars, or from \$ 8,752,167 to \$24,049,534.

Of course the company is all the time adding to its mileage, but the fact that revenues are increasing in such a decided fashion is the best evidence that the new extensions are proving productive. The company holds a unique and distinctive position in operating not only a very large mileage but in controlling a system of lines which extends from ocean to oceanfrom the northern Atlantic seaboard all the way to the Pacific. In the United States there is no trans-Continental system that can claim a line under its own control extending from the Atlantic ocean on the north to the Pacific. The road has had the advantage the last two years of an increased grain tonnage, but study of the traffic statistics shows a steady growth in nearly all directions. Thus, 663,773 head of live stock were carried in 1897 against 566,219 in 1896, 562,135 in 1895 and 375,292 in 1892; and 831 million feet of lumber, against 636 million feet in 1896, 638 million in 1895 and 700 million in 1892. It will no doubt be a surprise to hear, considering that a good deal of the mileage of the system runs through sparsely-settled districts, that over one-quarter the tonnage consists of manufactured articles. The tota tonnage in 1897 was 5,174,484 tons, while the tonnage in manufactured articles was 1,310,827 tons, which thus formed 25 per cent of the whole. The grain traffic amounted to 37,756,201 bushels (say roughly a million tons), against 32,528,256 bushels in 1396, 27,628,593 bushels in 1895 and 29,309,887 bushels in 1892. The flour traffic was not quite so large as in the year preceding, having amounted to only 2,911,072 bbls., against 3,291,299 bbls.; in 1895 2,832,304 bbls. were carried and in 1892 2,480,563 bbls.

President Van Horne, in his remarks, says that the improvement in the traffic the late year was due in large measure to the mining development in British Columbia and that the mining development in the Lake-of-the-Woods district also contributed in no small He notes furthermore that the discovery degree. of extraordinary deposits of gold in the Canadian Yukon territory contributed appreciably to the general improvement. He thinks it likely that the latter will contribute vastly more in the immediate future, since the movement in that direction can hardly be said to have commenced until within the past few weeks. He shows what work was done in extending the company's mileage in the mining districts the past year, and indicates the plans for further extensions in the near future. He points out that the mining districts of Southern British Columbia are exceptionally fortunate in possessing an abundance of coal, a bound less supply of timber, numerous water-powers, a healthy climate, and, close at hand, agricultural dis tricts affording cheap and plentiful food.

Under the remarkable increase in the earnings of the system, the income statement makes an exceedingly good showing. The Duluth South Shore & Atlantic fell further behind than in the previous year in meeting its fixed charges, so that the Canadian.

Pacific had to advance \$442,065 to make good the deficiency, against \$335,756 in 1896. Nevertheless, after meeting all charges for the year, the company had left a surplus of \$3,861,115 on the operations of the twelve months of 1897, against only \$1,706,772 on the operations of the twelve months of 1896. The board has declared, as is known, 4 per cent dividends on the common stock out of the earnings of 1897. But these dividends, together with those on the preferred shares, call for only \$2,964,027, while the surplus available, as we have seen, was \$3,861,115, leaving a balance of \$897,088. In other words, after providing for 4 per cent on the company's capital, there is left a surplus of nearly nine hundred thousand dollars. Another fact should not escape notice. The company is able to make such a favorable showing on very low average rates. As much of the traffic has to be moved long distances, low rates are an absolute necessity. At all events, though the average for 1897 was slightly better than for 1896, it was only a little over three-quarters of a cent per ton mile-in exact figures, 78 hundredths of a cent.

There was a very noteworthy increase in the sales of the company's lands in 1897. Mr. Van Horne states that the recovery in the prices of farm products, and especially of wheat, has given vigor to agricultural development in the Canadian Northwest, and a much larger increase in sales is expected the present year. He says a great majority of the established farmers in that part of the country realized from their crops and cattle in 1897 more than their lands and improvements had cost them. This fact, it seems reasonable to suppose, must result in a new and large movement of settlers in that direction.

#### RA'LROAD GROSS EARNINGS FOR FEBRUARY.

Railroad gross earnings for February make the same favorable comparisons as for the months preceding. Indeed, the returns are so uniformly of one character now, and the record of improvement week by week and month by month is being so regularly maintained, that it only remains to register the results and report the amount of increase. We have collected the returns of 131 roads for February ; of these only 20 have fallen behind ; the other 111 all show increases, the most of them for quite considerable amounts. In the aggregate of the whole 131 roads the gain reaches almost five million dollars—\$4,993,219.

Considering that business continued large and active-the exciting occurrences which marked the month not having served to diminish the volume of trade to any great extent; that the grain movement in the West and the cotton movement in the South were both very much heavier than a year ago, that there was also a gain in the live-stock movement in the West, it is not surprising that earnings should be on a steadily expanding scale. The weather, also, was a favoring element. There was some slight interruption to traffic in certain sections the early part of the month from a snowstorm which passed over the country at the close of January, but the effects of this quickly disappeared. Last year in February the weather was also mild, but floods in Cincinnati and throughout the Ohio Valley proved somewhat disturbing-causing a considerable loss of traffic to a number of roads running through or contiguous to the afflicted districts. It should also be remembered that we are comparing with figures last

year which still recorded a decrease, though small in amount, the improvement for which 1897 stands noteworthy not having occurred until the last half of the year. The following furnishes a summary of the monthly totals back to 1894.

	Mil	eage.	Earn	ings.	Increase

As regards the grain movement, there was a heavy gain in the receipts of wheat and corn, but a loss in oats and barley. Moreover, notwithstanding the general increase, several of the primary markets (more particularly St. Louis, Toledo and Peoria) record decreases even in corn. In the grand aggregate of all the cereals the receipts at all points were 45,350,572 bushels in the four weeks to February 26 1898, against only 42,107,939 bushels in the corresponding four weeks of 1897.

a Figures here for 1898 and 1897 are simply the totals of the earnings for the four weeks of the month as reported in the weekly returns; the month's earnings usually exceed the weekly estimates quite considerably. b Including Scioto Valley & New England and Shenandoah Valley for all the years. \* Figures are approximate, same as for 1808: actual earnings were larger. \* Month of February not yet reported; taken same as last year. \* Fourth week not reported; taken same as last year.

The trunk lines have not failed to share in the general improvement, though it is noteworthy that the New York Central has rather a moderate increase-\$127,844, or less than 4 per cent.

## Monetary Commercial English News

#### [From our own correspondent.]

LONDON, Saturday, February 26, 1898. The two telegrams read by Mr. Chamberlain in the House f Commons on Friday night, or rather early on Saturday morning, have made much noise in the newspapers and have caused some apprehension among the public, but they have not excited the war feeling which those at a distance might naturally suppose to exist from the very bellicose language used by some of our newspapers. There has, in fact, been exceedingly little fall upon the Stock Exchange. The highest price reached by consols recently was about 11314, the lowest touched this week was 1121/4. There was a rapid rise to 113, then another fall, followed by a recovery to about 11234. In the bonds of European Governments there has been scarcely any movement with the exception of Spanish bonds. And in the other great investment markets the changes have been equally slight. But markets have undoubtedly become more stagnant than they were before. For many months investors have been holding aloof, mainly under the influence of political considerations, and Mr. Chamberlain's announcement has made them still more adverse to part with their money.

It is hoped that the telegrams and the dramatic way in which they were read will bring about a better state of things. For many months a Commission has been sitting in Paris to settle the conflicting claims of this country and France respecting West Africa. But the Commission has maintained rigorous silence, and the general impression both in Paris and in London is that practically no progress has been made. Meanwhile, there was an understanding between the two governments that neither should make any further move in West Africa. In spite of that, if the telegrams are to be believed, small detachments of French troops have been pushing vigorously forward in the debatable districts so as to strengthen the hands of their own Government in the negotiations by showing that so much of the disputed districts are effectually occupied by the French. It is to be hoped now that stringent orders will be given by both governments that there must be no further movements, and that the Commission will be instructed to push on the negotiations.

On Tuesday afternoon Lord Salisbury read a very satisfactory telegram from the British Ambassador in Paris, reporting that the French Foreign Minister had declared that if French troops had entered the Kingdom of Sokoto, it was contrary to the orders as well as to the wishes of the French Government. But, unfortunately, that does not touch the two other districts which are said to have been entered by French troops. Still, the spirit of M. Hanotaux's announcement, and the dignified calm maintained by the French press in general, give rerson to hope that the negotiations will now be continued in a friendly spirit, and with every desire to

come to an early settlement. It would be absurd for two great nations to fight about the plague-stricken swamps of West Africa.

The struggle of the nationalities continues as bitter as ever in Austria-Hungary, the unrest in the Balkan Peninsula is reported to be very great, and there is no visible progress as yet at all events in the settlement of Crete. But important concessions by the Chinese Government have been announced. The internal water-ways are to be thrown open to the steamers of all countries of the world next June, a port is to be opened in Hunan within two years, and the Valley of the Yang-tzse-Kiang is to be made neutral.

It has been announced this week from Egypt that the Egyptian Government has sanctioned a contract with a British firm for the construction of two great dams across the Nile, to provide the country with water during the dry season, and also in years of low Nile. The works are to be completed in five years, and payment is to be made after the completion of the works by annual instalments continued for thirty years of £160,000.

In South Africa President Kruger seems as unwilling as ever to make concessions to the mining industry, and if the telegrams are to be believed he wishes to raise in rather a dangerous form the question as to the British suzerainty over the Transvaal.

After Lord Salisbury's statement in the House of Lords on Tuesday there was a general recovery in markets on Wednes day morning, particularly in the American market. But a speedy fall occurred, owing to rumors of very strained relations between the United States and Spain. The great investing public continues to keep away from the American as well as from every other department of the Stock Exchange. But there is undoubtedly more speculation than there has been, and the fall this week has induced a considerable amount of buying in London. The buying, however, is entirely speculative, and it may be doubted, therefore, whether it really strengthens the market.

Meanwhile the condition of Spain is growing worse and worse. Her finances have long been in a desperate state and the wonder to all close observers has been how she has managed to go on paying the interest on her debt and at the same time to find the means for carrying on the military operations in Cuba and the Philippines. It looks as if the end were now nearly approaching. The Bank of Spain has always been in the habit of cashing coupons some time before they fel due. It is said that this week it has cashed coupons on Spanish bonds only "with recourse to the holder." In other words, if the coupon is not paid the money will have to be reimbursed, and naturally this has led to the rumor that the April coupon will not be paid.

The Chinese Government, having been frightened by Russia from accepting the loan which the British Government was willing to make to it, has now arranged for a loan of 16 millions sterling, bearing interest at the rate of  $4\frac{1}{2}$  per cent, with the Hong Kong & Shanghai Banking Corporation and the German Asiatic Bank. All the details are not yet settled, but already in London the loan is underwritten. In Berlin, also, underwriting preparations are going on rapidly.

The Bank of England continues to hold complete control of the outside market, and is doing a very good business both in loans and discounts. Most of the loans that fell due at the Bank this week have had to be renewed, and fresh loans

many cases have had to be made. No gold worth speaking of has been withdrawn from the Bank, and the foreign demand for the metal in the open market is small. Everything seems to point to a continuance of the present state of things, until at least the middle of March, when the payments out of the Exchequer will become very large. Whether money will then become much easier depends a good deal upon the state of politics.

Trade is undoubtedly good all over the country; the consequent demand for money is very strong. If the trade improvement continues, it is reasonable to anticipate that the rates of interest and discount will be fairly well maintained, though of course there will be short periods of ease, as for example during the first fortnight of April. On the other hand, if apprehension should increase without becoming strong enough to cause real alarm, trade itself will no doubt fall off and rates then will tend to decline.

Meantime, the stringency in the Indian money market grows greater. On Thursday the Bank of Bombay raised its rate of discount from 12 per cent to 13 per cent, and the Bank of Bengal raised its rate from 11 per cent to 12 per cent. The crops in India this year are wonderfully good. There is a very active export of rice from Burmah, and in spite of the plague there is a much larger export of cotton from Bombay. The demand for moving the crops is telling very strongly upon the markets. As a natural consequence, the India Council is disposing of its drafts exceedingly well. On Wednesday it offered for tender as usual 40 lacs, and sold the whole amount, 17 lacs being in bills at prices from 1s. 3 27 32d. to 1s. 3%d. per rupee, and 23 lacs in telegraphic tran-fers at from 1s. 3 31-32 to 1s. 4d. per rupee. Subsequently it sold 9½ lacs at 1s. 4d. by special contract. On Thursday it sold 20 lacs further, half in bills at 1s. 3 29-33d. and half in transfers at 1s. 4 1-33d, per rupee. On Friday another 9½ lacs of trans-fers were sold by private contract at 1s. 4 1-32d. The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols, is a

Messrs. Pixley & Abell write as follows under date of Feb. 24:

Feb. 24: Gold.-The premium on gold which has lasted so long has all but disa peared, and it seems more than likely that some portions of the recent arrivals will reach the Bank to-morrow. During the week \$114,000 has come from Australia in coin and £20,000 has been withdrawn for South America. Arrivals: New Zealand, £12,000; Australia, £114,000: Bombay, £60,000; Capetown, £208,000. Total, £394,000. Shipments to Bombay, £40,000. Special January move-ments. Imports: Belgium, £23,000; Germany, £1,792,000; South Amer-ica, £895,000. Silver,-There is very little doing with India, the chief inquiry be-ing for "future delivery" to the Straits. The market closes steady. The Indian price to-day is Rs. 663; per 100 Tolahs. Arrivals from New York, £99,000. Shipments: Bombay, £1,71,000; Hong Korg, \$20,000; Shanghai, £13,500. Total, £20,4500. Special January movements.-Exports: Russia, £56,000 Mexican Dollars,-The market is nominal in the absence of business. The quotations for bullion are reported as follows:

#### Name of Company.

\* One-half per cent of this is extra. WALL STREET, FRIDAY, MARCH 11, 1898-5 P. M. The Money Market and Financial Situation.—The news from Washington on Monday morning indicating the possi-bility of additional complications in Cuban affairs had a de-moralizing effect in Wall Street. The markets were panicky at the opening and securities were sold in large amount at prices several points below last week's closing. Later reports were less exciting, and on the handing down of a decision by the United States Supreme Court in the Nebraska maximum rate case, there was a substantial recovery. The decision re-ferred to was favorable to the theory that railway officials have a right to manage within reasonable limits the prop-erties in their charge, and railway securities are proportion-ately benefited. ately benefited.

erties in their charge, and railway securities are proportion-ately benefited. Since Monday there have been no important developments, but the conditions are not such as to encourage activity in financial circles. The foreign markets have been sensitive on account of the unsettled state of affairs in the Far East, but sales of securities for foreign account in this market are about offset by purchases. The gold import movement has been steadily going on, and shows no sign of abatement. The amount reported as engaged for shipment thus far is \$16,585,000. There is only a limited demand for exchange, and as bills which have been held for investment here are now being offered, rates have declined to the lowest point recorded in many months. The money market is easier, but there is not much activity. The open market rates for call loans on the Stock Ex-change during the week on stock and bond collaterals have ranged from ½ to 3 per cent. To-day's rates on call were 1½ to 5½ per cent. The Bank of England weekly statement on Thursday showed a decrease in bullion of £216,460 and the percentage of reserve to liabilities was 43:35, against 43:02 last week; the discount rate remains unchanged at 3 per cent. The Bank of France shows a decrease of 27,750,000 frances in gold and 2,025,000 francs in silver. The New York City Clearing-House banks in their state-

of France shows a decrease of 27,700,000 francs in gold and 2,025,000 francs in silver. The New York City Clearing-House banks in their state-ment of March 5 showed a decrease in the reserve held of \$7,934,300 and a surplus over the required reserve of \$20,823,-500, against \$22,959,325 the previous week.

Surplus reserve 20,823,500 Dec.2,135,825 55,556,925 23,234,500 The Clearing-House, on Oct. 30, 1897, also began issuing weekly returns showing the condition of the non-member banks which clear through the Clearing-House institutions. The statement in full for the latest week will be found on the second page following.

Foreign Exchange.—The foreign exchange market has been somewhat unsteady, but generally weak. Rates are sufficiently low to admit of gold imports, and the latter have continued through the week.

To-day's actual rates of exchange were as follows: Bank-ers' sixty days' sterling,  $480\frac{1}{2}@480\frac{3}{4}$ ; demand,  $483\frac{3}{4}@$ 484; cables,  $484\frac{1}{4}@484\frac{1}{2}$ ; prime commercial, sixty days'  $480@480\frac{1}{2}$ : documentary commercial, sixty days, 480@481; grain, 481; cotton for payment,  $479\frac{1}{2}@480$ ; cotton for acceptance,  $480@480\frac{1}{4}$ .

\* This is the price bid at the morning board; no sale was made.

State and Railroad Bonds.—Sales of State bonds at the Board include \$3,000 Tennessee settlement 3s at 89, \$4,000 Virginia fund. debt 2-3s of 1991 at 69 and \$2,000 Alabama class A at 108<sup>1</sup>/<sub>2</sub>.

class A at 108½. Railway bonds were weak on Monday, in common with other securities. Prices on the active list were an average of about 2 points below those recorded at the close last week, but have since recovered a part of the loss. Duluth & Iron Range are among the few issues which, on limited transac-tions close higher than last week.

tions, close higher than last week. Attention is called to the extensive list of bond quotations on the following pages, which we purpose to continue in the future.

The volume of business at the Exchange has ranged from \$3,330,000 to \$1,465,000 and averaged \$2,350,000 par value per day. Sales of high-grade issues were nominal, a large per-centage of the transactions being in Atchison, Kansas Pacific, Metropolitan Street Railway, Northern Pacific, Reading, Texas & Pacific Union Pacific and Union Pacific Denver & Gulf bonds Gulf bonds.

United States Sub-Treasury — The following table shows the daily receipts and payments at the Sub-Treasury :

Date.	Deside	-	Balances.

Sovereigns	18         Five frames

Mex. Doubloons 15 50 #15 60 Fine gold bars... par  $\#1_4$  prem. **Railroad and Miscellaneous Stocks.**—The stock market was badly unsettled at the opening on Monday, with prices averaging about 3 points below last week's close, and in many cases at the kowest of the year. Liquidation was heavy, sales on that day at the Exchange amounting to nearly 600,000 shares, which was more than double the amount of transactions recorded on any other day of the week. Rail-way shares were strengthened and the market recovered somewhat on the announcement of the Supreme Court decision referred to above and Cuban news of a less disturbing character. Since Monday the mar-ket has been dull and unsteady, the daily trans-actions averaging only 370,300 shares. There have been few exceptions to the general fluctuation of prices from day to day. Louisville & Nashville, Third Avenue, Manhattan Elevated, Metropolitan Street Railway, American Sugar and Tobacco are among the stocks which have covered a range of 5 points and upwards; and New York Central, Burlington & Quincy, North West., Union Pacific preferred and Consoli-dated Gas a range of 4 points or more. For full information in regard to the prices recorded during the week of all shares dealt in on the New York Stock Exchange, our readers are referred to the new list of quotations on the following pages, which we believe to be the most complete and comprehen-sive ever published, and which we shall give each week here-after.

## New York Stock Exchange-A Weekly and Yearly Record.

**INCW IOTK SLOCK EXCHANGE—A WEEKLY and YEARLY RECORD.** On this and the seven pages which follow we furnish a complete record of the transactions on the N.Y. Stock Exchange. It includes very security dealt in on the Exchange, whether stocks or bonds. The stock table is self-explanatory. As to the bonds the Friday price is either (1) the closing sale price where there has been a sale; or (2) it is the bid and asked price for that day, or (3) if there is no bid price on Friday it is the latest bid and asked price for the week. The column of "Week's Range or Last Sale" gives the highest and lowest prices for the week, based on actual sales; where no sales have occurred, we show the last sale previous to that week, with the date, the record in this instance being extended back to January 1 of last year. The column of "Bonds Sold" shows the number of one thousand dollar bonds sold during the week. In the column "Range from January 1" we report the highest and lowest prices for the year to date on actual sales. "OUTSIDE SECURITIES," reported at the foot of each page, comprise securities not listed on the Exchange or only infrequently dealt in there, s uch as street railways, gas, telegraph, electric-light, and industrial and miscellaneous stocks. STOCKS DALLY AND VEARLY PRICES—FOR MONTHLY RECORD SEE OLIOTATION SUDDLEMENT.

STOCKS, DAILY AND YEARLY PRICES-FOR MONTHLY RECORD SEE QUOTATION SUPPLEMENT.

## THE CHRONICLE

.

## Luvestment AND Railroad Intelligence.

#### RAILROAD EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from January 1 to and including such latest week or month. The returns of the street railways are brought together sep-arate.y on a subsequent page.

Net Earnings Monthly to Latest Dates.—The table follow-ing shows the gross and net earnings of STEAM railroads reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the CHRONICLE of February 26, 1898. The next will appear in the issue of March 19, 1898. The next will appear in the issue of March 19, 1898.

## STREET RAILWAYS AND TRACTION COMPANIES.

The following table shows the gross earnings for the latest period of all STREET railways from which we are able to ob-tain weekly or monthly returns. The arrangement of the table is the same as that for the steam roads—that is, the first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month. latest week or month.

Street Railway Net Earnings.—In the following we show both the gross and the net earnings to latest dates of all STREET both the gross and the net earnings to latest dates of all STREET railways from which we have been able to procure monthly returns. As in the case of the steam roads, the returns of the different roads are published by us each week as soon as re-ceived, and once a month (on the third or the fourth Satur-day of the month) we bring all the roads reporting together, as is done to-day. Besides the roads making monthly returns we publish this week those making quarterly returns.

#### Delaware & Hudson Canal Company.

(Report for the year ending De: 31, 1897.)

President R. M. Olyphant says:

516

President R. M. Olyphant says: In the last report reference was made to the operations of the Rutland RR., in which your company is largely inter-ested. It is gratifying to report that the hope expressed as to an improvement in the earnings has been fully realized, and after paying 2 per cent on its preferred stock it carried forward a surplus to new account. Your leased roads show a profit of \$109,507, as compared with a loss in 1896 of \$18,243. There were no additions to conjument drains the second

There were no additions to equipment during the year; 6,874 tons of steel rails were purchased and charged to operating expenses.

ating expenses. The contract under which a large portion of the coal of your company was transported by the Erie Railroad expired at a recent date and has been renewed on terms advan-tageous and satisfactory to each of the contracting parties. The total output of coal, the amount produced by your company and the amount transported for others were as fol-lows. [For comparison we add the years given prior to 1897. -Ep.]

#### Chicago St. Paul Minneapolis & Omaha Ry.

(Report for the year ending Dec. 31, 1897.)

President Marvin Hughitt says in substance :

General Results.—"The gross earnings during the first nine months of the fiscal year showed but a moderate increase over those of the corresponding month in 1896, and the large expenditures proposed for the improvement of equipment, as well as some of the heavier work upon bridges, were delayed or slowly progressed for the time being, but upon the recurrence of an encouraging traffic during the last quarter of the year the amounts needed for these important improvements were provided out of the net earnings and charged to operating expenses. "A compari

ating expenses. 'A comparison with the operations of the preceding year shows changes as follows: An increase of \$496,-600 in gross earnings; an increase of \$146,569 in operat-ing expenses; an increase amounting to \$242,6\*6 for replace-ments of cars, and an appropriation of \$200,000 made to equipment fund for the completion of freight cars building in the company's shops. The dividends of 7 per cent on the preferred stock and 2 per cent on the c mmon stock, when deducted, leave a net surplu s of \$230,281 for the year, a de-crease of \$110,620." *Construction and Renewals.*—The report enumerates at

crease of \$110,620." Construction and Renewals.—The report enumerates at length the various improvements which have been made. In brief they include the change of line at three different points for an aggregate distance of about 10 miles, the length of line having been reduced 4-5ths of a mile and the grades and curves greatly lessened. The length of wooden bridging was decreased 1,537 feet, by construction of iron bridges and ma-sonry (968 feet) and of iron pipe culverts and filling (569 feet). New steel rail, 30 pounds to the yard, was laid to a total of 42:85 track miles. The length of side tracks was increased 9:67 track miles. New ties were laid in renewal to a total of 472,564 ties. Ballasting was done on 68½ miles, of which 57¼ miles gravel, remainder cinder. St itistics.—The following statistics for four years have been compiled in the usual form for the CHRONICLE : OPERATIONS AND FISCAL RESULTS.

Missouri Pacific Railway Company.

(Report for the year ending Dec. 31, 1897.)

(Report for the year ending Dec. 31, 1897.) President George J. Gould says: Refunding.—During the past year the first and second mortgage bonds of the St. Louis & Iron Mountain RR. Co. [aggregating \$10,000,000] became due and were ex-tended. The Cairo Arkansas & Texas RR. first mortgage bonds [\$1,450,000], which also became due, were paid off and canceled, and St. Louis Iron Mountain & Southern Ry. Co. general consolidated railway and land grant mort gage bonds (5%) issued in place of the canceled bonds, thus making the general consolidated mortgage a first and only lien on the line from Poplar Bluff to Cairo, as it is also on all the company's lines in the State of Arkansas. Iron Mountain Road Eurns 4 p. c. on its Stock.—If it had not been for the payments made for refunding, the Iron Mountain would have shown nearly one million dollars sur-plus to the credit of income account for the year, or about

plus to the credit of income account for the year, or about 4 per cent on its stock. After charging to income account all the money which has been paid for the above refunding, the company could have made a dividend out of the surplus earn-The per cent on its stock. After charging to motion bound at the the money which has been paid for the above refunding, the company could have made a dividend out of the surplus earnings for the year of 1 per cent, which would have gone into the Missouri Pacific treasury and improved the Missouri Pacific income account to that extent, but it was thought more conservative to reserve the money and apply it to the physical improvement of the Iron Mountain property. Vice-President Warner adds: *Earnings and Expenses.*—The gross earnings, as compared with those of the preceding year, increased \$2,793,491, and the operating expenses \$962,787. The net earnings in 1897 therefore increased \$1,330,704. The increase in cost of conducting transportation, motive power and maintenance of cars is to be attributed to the heavy increase in freight train movement; \$212,985 of the increased cost of motive power resulted from the rebuilding and repairs of locomotives; locomotive mileage increased 964,692 miles; 137 locomotives were rebuild uring the year in excess of the previous year. Of this expenditure, \$52,710 was incurred in compliance with United States laws as to safety appliances.
New 75-pound steel rail was laid on 43 miles of track on main lines. Twenty three and less of new wire fence were built. The server miles of so when her woring the year, at an expense of \$106,986. *Tinancial.*—When the funding transactions of the year are closed by final disposition of general consolidated bonds issued in place of C. A. & T. bonds purchased and retired, the net annual saving of interest on funded debt St. I. I. M. & S. Ry. will be \$169,000. The increase in charges against increase as "Sundry Amounts." compared with previous year consists c. commissions paid for extension of bonds; these commissions amounted to \$481,000. *Freight 1 raffic.*—The total tonnage of all classes of freight for 1897, as compared with 1896, was increase of the Missouries and incorease being bulk grain, although

527,837 tons. There was an increase in volume of traffic of 14 per cent over the previous year, the notable increase being bulk grain, although on the vast increase of tonnage the relative proportions of the various classification divisions have been found about the same as the previous year. While the revenue has largely increased, the rate per ton per mile still shows a slight decrease, namely, from '865 cents to '843 cents. This decrease is largely attributable to the reduction of the average rate per ton per mile on the Iron Mountain during first six months of the year 1897. In addition to the interruption of traffic by the fever early in October Colorado west-bound rates were greatly demoralized, owing to the action of the water lines from New York via Galveston, and considerable traffic was thus diverted from our line, since it was deemed best not to attempt to obtain freight upon the competitive divisions and rates, which in some cases were below the cost of transportation. *Purchase of Equipment.*—During the year 1,009 box cars

*Purchase of Equipment.*—During the year 1,000 box cars and 100 furniture cars were purchased by The Missouri Pa-cific Ry. Co., at a cost of \$680,164 54. These cars were built with all the modern improvements, such as air-brakes, safety couplers, steel bolsters, etc. [They were paid for with 115 notes, aggregating \$464,927, due in monthly instalments of \$8,085 (two notes \$4,042 each) from January, 1898, to October, 1902.] 1902.]

Traffic Statistics.-The following tables compiled from the company's reports shows the changes in tonnage of principal articles carried, and other statistics:

#### Georgia & Alabama Railway.

(Report for the year ending June 30, 1897.)

President John Skelton Williams, under date of Nov. 10, says in part:

Says in part: In the reorganization it was determined to set aside funds and se-curities sufficient to b ing the property up to a strictly first class physical condition, and in pursuance of this policy the work of im-provement and betterment has been steadily carried on. The expendi-tures during the year, over and above operating expenses and taxes, and in addition to the cost of the Abbeville & Waycross RR., from Ab-beville to Fitzgerald, 22 miles, and the construction of the 8 miles ad-ditional from Fitzgerald to Oeilla, and over and above the cost of the Columbus & Southern RR. from Albany to Columbus, include \$83,441 paid out during this period in the retirement of the principal and in

erest of maturing car trusts; \$162,419 expended in the construction of the Richland Revised Line, and \$181,785 paid out for improve-ments and betterments, equipment, etc. The largest items in these expenses for betterments were: \$78,399, for the re-grading of the road, widening of slopes, in the reduction of the maximum grade on various portions of the line from 2's per cent to 1'4 per cent, and in reducing curves from ten degrees to four degrees; \$22,357, on account of new shops, other new buildings, etc.; \$37,775, for the filling of trestles, and betterment and construction of trestles and steel bridges; and \$22,714, expended for the rebuilding of cars and engines. To meet these large expenditures the company has increased its temporary loans by about \$400,000, feeling that this was a rather better course to pursue than to market bonds during the unfavorable financial conditions that prevailed. Against these outstanding loans the company held in its treasury on June 30, 1897, \$253,000 first mortgage preference bonds and \$1,056,000 first mortgage consol. bonds. Since the close of the fiscal year your company has sold of its treasury securities these \$253,000 first mortgage preference bonds, which have realized the company par and accrued interest net, the proceeds being applied to the reduction of the company's unfunded debt. The balance of this unfunded debt will be either retired with the companys surplus earnings, or else by the sale of additional treasury bonds, as may be deemed best.

Treasury bonds, as may be deemed best. Vice-President and General Manager Cecil Gabbett says: "During the past fiscal year there has existed a universal depression in traffic throughout this section of country; hence, in my opinion, last year's earnings are no criterion of the earning capacity of this property. The property is a new one, and although it traverses the best portions of the States of Georgia and Alabama, yet it will take time to develop its local business. We have every right to believe that the results of next year's operation will be much more-satisfactory than those of the past." The earnings, expenses, and charges, and the balance sheet, have been as below: EARNINGS, EXPENSES AND CHARGES YEAR ENDING HAR 20, 1807

#### St. Louis Terminal Cupples Station & Property Company.

(Report for the nine and one-half months ending Dec. 31, 1897.) The following statement is male for the nine and one-half months ending Dec. 31, 1897:

Receipts from rents. Expenses, including taxes and insurance		 \$212,235 47,079
Number 2		 \$165,156

Nine and one-half months' interest, \$3,000,000 412 p. c. bds., 106.875

\$58,281 9,979 Extraord'y expenses-Incorp. expenses and disbursements ... \$48.301

The traffic handled during the calendar year 1897 aggre-gated 282.733 tons, contrasting with 235,604 tons in 1896, an increase of 47,129 tons, or 20 per cent.

Three out of the four new buildings whose earnings are not included in the above statement have now been rented at an annual rental of \$19,000.—V. 65, p. 1073.

### American Sugar Refining Company.

(Balance Sheet of Dec. 31, 1897.)

The company, following its usual custom, has filed with the State of Massachusetts the following balance sheet of Dec. 31, 1897. 1896. 1895. 1894. 

#### GENERAL INVESTMENT NEWS.

**Reorganizations, Etc.**—Latest Data as to Defaults, Reorganization Plans, Payment of Overdue Coupons, Etc.—All facts of this nature appearing since the publication of the last issues of the INVESTORS' and the STREET RAILWAY SUPPLEMENTS may be readily found by means of the following index. This index does not include matter in to-day's CHRONICLE.

 RALLROADS AND MISCEL. Co.'s. *Volume* 66— *Page*. *Adams Express...official circular*, 470 Bait.& Ohlo. Default, etc., Mar. 1 470 Bait.& Ohlo. Default, etc., Mar. 1 470 Bronstrometer and the construction of t RAILROADS AND MIS. Co. (Con.)-Volume 66-

American Hard Rubber Company.—Consolidation.—This company is being organized to consolidate the India Rubber Comb Company and the Butler Hard Rubber Company of this city and the Goodrich Hard Rubber Company of Akron, O. The new company, it is stated, will be capitalized at about \$2,500,000. Its headquarters will be at Nos. 9, 11 and 13 Mercer Streat. 13 Mercer Street.

American Steel & Wire.—Modified Plans.—The inability to agree as to the valuations of a number of the properties has led to a modification of the plan of union, which origi-nally provided for the consolidation of practically all the leading wire nail companies of the country under the title of the American Steel & Wire Co. with \$87,000,000 of capital stock. The report now is that the new company (name not decided) will be capitalized for \$24,000,000 and will em-brace the seven plants of the Consolidated Steel Co., the Ell-wood plant of De Kalb, Ill.; the two plants of the Salem Wire Co., the two plants of the Horse Power Nail Co., and the American Thread Co.—Consolidation.—This company was

the American Wire Co., of Cleveland.—V. 65, p. 1218. American Thread Co.—Consolidation.—This company was incorporated at Trenton, N. J., March 10, to consolidate the leading cotton thread properties of the country other than those held by J. & P. Coats, Limited, of England. The au-thorized capital stock of the new company is \$6,000,000 of common and the same amount of preferred stock, both in shares of only \$5. The incorporators are Peter Lowe, Charles N. King and Ernest F. Charles, all of Jersey City. Among the plants to be absorbed, it is stated, are the William Clark, the Barstow, Summit, Hadley, National, Warren, Kerr, Ruddy, Glasgo and New England thread companies, the Glasgo Yarn Company and Alexander King & Co. The consolidation is being effected under the direction of Mr. John Dos Passos. Atlantic & Pacific RB.—Atchison Toneka & Santa Fe By

Company and Alexander King & Co. The consolidation is being effected under the direction of Mr. John Dos Passos. Atlantic & Pacific RR.—Atchison Topeka & Santa Fe Ry. —Land Grant Foreclosure.—At Prescott, Ari., March 10, the Arizona land grant of the Atlantic & Pacific RR. was sold under foreclosure and purchased by E. Wilder, Treasurer of the Santa Fe Company, for \$6,500. This portion of the land grant, it is stated, includes 1,500,444 acres. The total acre-age of the unsold lands covered by the Western Divisicn grant was, at last accounts, about 15,400,000 acres. The Atchison will presumably bid in the remaining lands at the foreclo-sure sales in the other States—V. 65, p. 1222; V. 66, p. 425. Brooklyn Elevated RR.—The Bridge Connection.—The cash assessmente levied under the plan aggregate \$1,921,500, one-half of which sum has already been called and was pay-able not later than March 7. The commitee, therefore, is in funds to make the changes necessary in order to run the ele-vated trains across the New York and Brooklyn Bridge. Work on these changes began on Monday and it is hoped through service to New York may be begun some time in June. Twelve electric-motor cars are being built to haul the trains from the Tillary Street station in Brooklyn, at which point the steam locomotives will be detached, to the tracks of the bridge. Cars of the elevated road are also being equipped with side doors and grip attachments so that they may be op-erated, when on the bridge, precisely as are the bridge cable cars. The reorganization, it is thought, will hardly be com-pleted before the bridge connection is in use.—V. 66, p. 383. Brooklyn Rapid Transit.—Lacreased Earnings.—With repleted before the bridge connection is in use.-V. 66, p. 383.

Brooklyn Rapid Transit.—Increased Earnings.—With re-gard to the large increase in the company's earnings as a result of the running of cars direct to New York by way of the Brooklyn Bridge, President Rossiter makes the following statement:

statement: "It is a wonder to me where all the people are coming from. We are doing an immense business on all our lines since we began to cross the bridge. Our receipts have in-creased from \$700 to \$1,200 a day. I think we are taking a good many people from the ferries. Our Flushing Avenue line has grown to be one of the best paying lines, and is now on a par with those of Gates Avenue and Fulton Street. The latter have always been our best-paying lines.

661.868

"We are going to put the Court Street line on the bridge as soon as our new cars arrive. We expect a shipment of twenty new cars to arrive soon and have ordered 130 alto-gether." - V. 66, p. 383.

Canal & Claiborne RR.—New Orleans & Carrollton RR. —Officers, Etc.—Ford, Bacon & Davis, of 220 Broadway, New York, as stockholders and managers of these properties, make the following statement:

make the following statement: With regard to the Canal & Claiborne RR, the electrical reconstruc-tion was entirely completed February, 1897. The par value of the stock has been changed from \$40 per share to \$100. Of the directors J. W. Castles has been replaced by Charles Newman, and J. K. New-man by C. B. Stroudback. One of the members of our firm, George H. Davis, is manager of this road. The officers of the New Orleans & Carrollton RR. for the present year are as follows: President, J. K. Newman; Secretary, W. V. Crouch; Manager, George H. Davis; directors. J. K. Newman, S. H. March, G. W. Bacon, A. C. Kains, S. V. Fornaris, T. J. Feibleman, B. M. Harrod, Thos, McDermott, Chas. Goll, Jr.

Thos. McDermott, Chas. Goll, Jr. Central London Ry.—General Electric—Westinghouse Air Brake.—Construction and Equipment.—The March issue of the Street Railway Journal contains an article on the Cen-tral London Underground Ry., an electric line 6<sup>1</sup>/<sub>4</sub> miles in length, extending under the heart of London, and now being built at a cost of about \$15,00,000. The particular interest to American readers which attaches to this road lies in the many points of similarity which it possesses with the proposed rapid transit line in New York, both in equipment and in the districts to be served. Another feature interesting to our readers is that practically

Another feature interesting to our readers is that practically and in the districts to be served. Another feature interesting to our readers is that practically all of the apparatus for the line is being built in America. Thus the locomotives, motors, generators and rotary con-verters are being built by the General Electric Co. of Sche-nectady, N. Y.; the engines by the E. P. Allis Co., of Mil-waukee, Wis.; the station coal conveyors by the C. W. Hunt Co., of New York; the piping valves in the station by the Crane Co., of Chicago; the rail bonds by the Washburn & Moen Mfg. Co., of Worcester, Mass., and Harold P. Brown, of New York; the air brakes by the Westinghouse Air Brake Co., of Pittsburg, and the car couplers by the W. T. Van Dorn Co., of Chicago; finally, the designing engineer was Mr. H. F. Parshall, an American. -V. 65, p. 151. Chicago & Atchison Bridge.-Sold.-At the foreclosure

Chicago & Atchison Bridge.—Sold.—At the foreclosure sale March 4 the property was purchased by H. E. Kelley of Cleveland, O., representing the bridge reorganization com-mittee, for \$500,000.—V. 65, p. 366.

Chicago St. Paul Minneapolis & Omaha Ry.—Listing— Right to Exchange First Mortgage Bonds.—The company's several issues of first mortgage bonds are of two classes.
First, \$3,000,000 Chicago St. Paul & Minneapolis first mort gage bonds due in 1918 and \$500,000 North Wisconsin bonds due in 1930, total \$3,800,000. These bonds are "exchangeable on surrender to the trustee, the Central Trust Co., dollar for dollar, for the consolidated 6 per cent bonds of this company (which are due June 1, 1930), and the bonds so exchanged and surrendered are to be canceled in accordance with the provisions of the mortgage. The other class, St Paul & Sioux City bonds, \$6,070,000, Hudson & River Falls, \$125,000, and St. Paul Stillwater & Taylor's Falls, \$335,00, total \$6,530,000, has not the privilege of exchange, and will be paid when they mature either by the issue and sale of consols reserved for them or otherwise as the railway company may reserved for them or otherwise as the railway company may

at their maturity elect." Of the Chicago St. Paul & Minneapolis bonds \$33,000 have recently been exchanged, under the above-mentioned option, for consols, and these consols have been listed this week on the New York Stock Exchange. Further exchanges teing expected, the Stock List Committee has been authorized to add to the list from time to time additional consolidated mortgage bonds to an aggregate amount of \$967,000, when officially notified that said bonds have been issued in ex-change for existing bonds of the first class as above desig-nated -V. 66, p. 424.

The directors on Thursday voted to pay in April an extra The directors on Thursday voted to pay in April an extra dividend of  $\frac{1}{2}$  of one per cent in addition to the regular 2 per cent on the common stock. This stock received  $\frac{2}{8}$  both in April and October, 1897, with an extra dividend of 1 per cent at the latter period; in 1896 its dividends aggregated 4 per cent, in 1895 2 per cent, in 1894 and 1893 4 per cent, in 1892 2 per cent, and nothing in 1891 and 1890.—V. 66, p. 471.

1892 2 per cent, and nothing in 1891 and 1890.—V. 66, p. 471. **3** Coney Island & Brooklyn RR.—Restrained from Making Mortgage for \$1,500,000. The Appellate Division of the Su-preme Court on Monday sustained the action of the lower court in granting to Patrick H. Flynn an injunction restrain-ing the company from making a mortgage, the total author-ized amount of which, for present and future use, would, it is alleged, be in excess of two-thirds the present value of the road. The proposed amount of the mortgage was \$1,500,000, but of this sum \$500,000 was not to be issued at present, being reserved for future requirements; but the Court holds that under the law the total authorized issue of bonds, as well as the actual issue, must not exceed the company's 12 well as the actual issue, must not exceed the company's capital stock nor two-thirds of the present value of the property.—V. 66, p. 425.

property.—V. 66, p. 425. Eastern Elevator Co. of Buffalo.—\$1,000,000 Stock List(d. —The stock of this company (\$1,000,000) has been listed on the New York Stock Exchange. The company owns on the Buffalo River Water front a receiving and storage elevator with a capacity of 1,700,000 bushels and a maximum receiv-ing capacity of 45,00 bushels per hour. This property is subject to a mortgage for \$250,000. The company reports:

d for FRASER

Since June 5, 1897, four dividends of  $\frac{1}{2}$  per cent on the capital stock, amounting all told to  $\frac{3}{20,000}$ , have been paid, together with  $\frac{12,849}{12,849}$  for taxes, insurance and accrued interest on mortgage. After these payments were made the company had cash on deposit Oct. 18, 1897,  $\frac{42,745}{5}$ .

Edison Electric Illuminating Co. of New York.—Listing. —The Stock List Committee of the New York Stock Ex-change has been empowered to add to the list from time to time the \$1,262,000 new capital stock as from time to time notice shall be received that the same has been issued, mak-ing the total amount listed \$9,200,0.0.—V. 66, p. 384.

Kansas City Watkins & Gulf Ry.-Receiver.-Henry B. Kane, who was appointed receiver by the United States District Court, has taken charge of the property .- V. 65, p. 1220.

Lehigh Valley RR.—Earnings in New York State.—The lines in New York State, total 597 miles, report for the quarter and six months ending Dec. 31 as follows:

3 mos. end. Dec. 31- 1897	Gross earnings.	Net earnings. \$821,339	Interest, taxes, etc \$283,730	Balance, surplus, \$537,609
1896		742,329	285,301	457,028
6 mos.— 1897 1896 		$\$1,369.114 \\ 1,346,282$		\$815,196 810,024

-V. 66, b. 236. Long Island RR.—Purchase of Street Railway Stock.— The company has purchased nearly all the \$30,0 to capital stock of the Huntington (Street) RR., a line three miles in length, and bonded for \$26,000. The new owners will re-build the road and equip it with the trolley. Voting Trust.—More than a majority of the company's capital stock having been deposited under a voting trust agreement dated Feb. 1, 1897, with the United States Mort-gage & Trust Co., notice is given that the remaining shares will be received on the same terms. Stock trust certificates are issued in exchange for the deposited stock.—V. 66, p. 471. Matronalitan Street Raifway New York — Extension of

are issued in exchange for the deposited stock.—V. 66, p. 471. Metropolitan Street Raifway, New York.—Extension of Trolley Line. Underground trolley cars began running this week on the Madison Avenue line over the entire distance from the City Hall to 135th Street. Everything worked satisfactorily and the cars were well patronized. The line will eventually be extended over the remaining two blocks to the Post Office, but as yet the authorities have not allowed the street to be opened, and it is doubtful when the loop can be built.—V. 66, p. 426. Midland Terminal Rx—Stan and Sold. The stock

Midland Terminal Ry.-\$400,000 Bonds Sold.-The stock-holders have authorized the sale of \$400,000 of 5 per cent bonds, due in 19:5 to E. H. Rollins & Sous.-V. 61, p. 967.

Milwankee Electric Ry. & Light Co.-\$603,000 Censel. 5s Listed.-The consol. mortgage 5s of 1926, listed on the New York Stock Exchange, have been increased to \$6,103.00, in order to include \$603,000 bonds issued for the following:

...\$603.767

Nashville Tellico & Charleston.—Receiver.—Bond Issue Void.—The court at Knoxville, Tenn., it is understood, has declared null and void the \$180,000 bond issue of this com-pany, and has appointed O. R. Brigham of Knoxville, Tenn., receiver, in place of H. J. Euglesing. The road extends from Athens to Tellico Plains, Tenn., 23 miles.

Athens to fellico Plains, Tenn., 23 miles. Nebraska Maximum Freight Case.—Statute Unconstitu-tional.—Justice Harlan on Monday handed down the decision of the United States Supreme Court, sustaining the decision of the Circuit Court of Appeals, and holding unconstitu-tional the Nebraska law of 1893, which prescribed maximum rates for carrying freight between points within the State. An article on the decision appears in our editorial columns.— New Amsterdam Case Construction Com-

An article on the decision appears in our entorial container. New Amsterdam Gas Co., New York.—Consolidation Com-pleted.—On March 4 the stockholders in the East River, the Equitable and the New Amsterdam gas companies ratified the consolidation agreement, and the next day notice of its consummation was filed with the Secretary of State at Al-bany. The directors of the consolidated company are:

James E. Tolfree, William C. Lane, Edward M. F. Miller, Frederick E. Eldridge, William C. Cox, William T. Eldridge, Sherman Flint, Frederick P. Voorhees and Matthew F. Johnston, of New York City; John B. Summerfield, of Brooklyn, and Noel Gale, of Olifton.-V. 66, p. 337

New Orleans Traction.—Reorganization Delayed.—The conflicting opinions as to the earning power of the respective roads composing the New Orleans Traction has made it im-possible to reach any agreement for the reorganization of the company. The Seligmans are understood to favor a reduc-

tion of the interest on the collateral trust notes from six to four per cent, provided the Crescent City consol. fives can be reduced to four per cent. Operating expenses have been curtailed and earnings have so improved that the manage-ment advise postponement of reorganization until it can be seen what the property can do.-V, 66, p. 381.

Northern Pacific Ry.—\$684,000 Prior Lien Gold Bonds Listed.—The prior lien bonds quoted at the New York Stock Exchange have been increased from \$83,514,500 to \$84,198,500, in order to include \$684,000 bonds issued in exchange for \$558,000 general first mortgage 6s. There are \$10,541,000 of general first mortgage bonds now held by the public.—V. 66, p. 426.

Oregon Improvement—Pacific Coast [Co.—Assessment.— The Oregon Improvement reorganization committee gives notice to depositors of consolidated mortgage bonds and pre-ferred and common stock, under the agreement of reorgani-zation, that the sixth instalment required by the agreement has been called, payable at the Manhattan Trust Co. of New York or the Old Colony Trust Co. of Boston on or before March 22 —V. 66, p. 83.

Oregon Short Line.—Contral Furchased for Union Pacific. —As stated below, the Union Pacific committee has recently purchased enough of the stock of the Oregon Short Line, in addition to the \$3,460,00) obtained last October from the Morgan trust, to give the new Union Pacific Company a practically controlling interest therein.—V. 66, p. 135.

practically controlling interest therein. -V. 66, p. 155. People's Gas Light & Coke Co. of Chicago. -\$2,500,000 Refunding Bon's Listed-Consolidations. -The company has listed on the New York Stock Exchange \$2,500,000 refund-ing 5 per cent bonds of 1897, due Sept. 1, 1947. These bonds are secured by mortgage for \$40,000,(00 to the Central Trust Co. as trustee and were issued in lieu of \$2,500,000 Chicago Economic Fuel Gas bonds. The last-named bonds were in-cluded among the "existing bonds" in the application of Oct. 4, 1897 (V. 65, p. 727), but they were then owned by the Peo-ple's Company, and they have since been turned over to the trustee of the refunding mortgage in exchange for the con-sols now listed. The company presents to the Exchange the facts from the recent annual report (see V. 66, p. 332, 383, 472), and adds the following: Since the application of Oct. 4, 1897, and under a certain agreement

472), and adds the following:
Since the application of Oct. 4, 1897, and under a certain agreement of consolidation, dated Jan. 10, 1898, the Hyde Park Gas Co. became consolidated with the People's Gas Light & Coke Co., and under such consolidation the capital stock of the Hyde Park Gas Co. is canceled, and this company assumes the bonded indebtedness of the Hyde Park Gas Co. as follows: First mortgage 6 per cent bonds, dated Sept. 1, 1884, due Sept 1, 1904, interest payable March 1 and Sept 1, \$200,000. Under an agreement of consolidation dated Jan. 10, 1898, there was also consolidated with the People's Gas Light & Coke Co. the Mutual Fuel Gas Co. Under the agreement of consolidation the capital stock of that (ompany, \$1,500,000, is canceled, and there is issued by that company and guaranteed by the People's Company the following bonds: First mortgage 5 per cent bonds, dated Nov. 1, 1897, due Nov. 1, 1947, interest payable May 1 and Nov. 1, \$5,0,000. Application will shortly be made to list the bonds above mentioned of the Mutual Fuel Gas Co. The bonds of the Hyde Park Gas Co. and of the Mutual Fuel Gas Co. are not included in the bonds provided for under the refunding mortgage, but they should properly be added to the total amount of outstanding bonds, \$29,046,000, as shown by the application of Oct. 4, 1897.-V. 66, p. 472.

Rapid Transit in New York City—Decision as to Bond.— The Appellate Division of the Supreme Court yesterday denied the application of the Board of Rapid Transit Commissioners for a re-argument of their motion to confirm the report of the Court Commission approving the plans for an underground tunnel. The Court granted substantial relief, however, by providing that the amount of the bond continuing during operation shall be 1,000,00, and that the bond for perform ance of the contract to construct and equip shall be 14,000,-000, and that a pool bond may be given by sureties, cor-porate or individual, who can justify for a half million each. The opinion was written by Presiding Justice Van Brunt, in which Justices Rumsey and Patterson concurred.—V. 66, p. 289. p. 289.

Schuylkill & Lehigh R.R.-Increase of Stock.-The stock-holders will vote April 30 on a proposition to increase the capital stock from \$50,000 to \$600,000.

capital stock from \$50,000 to \$600,000. Union Pacific RR.—Oregon Short Line RR.—Control Purchased.—It is reported that a "controlling" interest in the capital stock of the Oregon Short Line RR. has been purchased for the new Union Pacific. The total capital stock of the Short Line is \$27,460,100, of which sum \$8,460,000 was purchased last December by the U. P. reorganization com mittee. Recent purchases have increased this amount to a "controlling" interest. The control, it is still stated, is not through the ownership of an absolute majority of the stock, but by virtue of a largely prependerating holding therein. The purchase of the Oregon RR. & Navigation Co., whose property, as already stated, is controlled through ownership of a majority of its preferred stock by the Union Pacific, the Great Northern and the Northern Pacific. The preferred stock, as will be remembered, controls the company until Aug. 17, 1906, unless the voting trust, which gives the pre-ferred two-thirds of the board of directors, is terminated, in accordance with its terms, at an earlier date. The Short Line Co. owns \$16,281,400 of the \$24,000,000 common stock of the Navigation Co. Purchase of Julesburg Branch — The Julesburg Branch

of the Navigation Co. Purchase of Julesburg Branch — The Julesburg Branch, extending from La Salle, Col., to Julesburg, 151 miles, it has

been agreed, shall become the property of the Union Pacific RR. This branch has been owned by the Union Pacific Denver & Gulf Ry. The Colorado Central bonds, on the other hand, to the amount of \$1,600,000, recently purchased by Kuhn, Loeb & Co., have been turned over to the reorganiza-tion committee of the U. P. D. & G. The present intention is not to include the remainder of the Denver & Gulf road in the Union Pacific system. *Injunction Denied.*—Justice Chase on Monday denied the application for an injunction to prevent the reorganization committee from issuing in excess of \$75,000,000 of bonds for reorganization purposes. Referring to the announcement of the committee on Jan. 29, 1897, of its intention to limit the bond issue to this amount, the Justice said : "I am of the opinion that the announcement of Jan. 26, 1897, was

"I am of the opinion that the announcement of Jan. 26, 1897, was not intended as a change of the original plan and agreement, and as the same was not lodged with the depositors or published in accord-ance with the agreement, the committee is not bound thereby; and the statements therein do not constitute a representation or warranty binding upon the committee, or a condition of the deposit of security thereunder; and the committee now has full authority in its discre-tion to use \$90,000,000 or any other amount not exceeding \$100,000,-000 of the first mortgage bonds of the new company for reorganiza-tion purposes."

New Securities Listed.—The new securities of the Union Pacific Railroa Co. were listed this week on the New York Stock Exchange, as follows:

 First mortgage 4 per cent gold bonds of 1947......\$71,235,000

 Preferred stock non-cumulative, 4 per cent.
 59,250,000

 Common stock—total authorized issue.
 61,000,000

old company

The remainder of the authorized \$75,000,000 of preferred stock, viz, \$15,750,000, will be used in the acquisition of the Kansas Pacific division. The rights of the holders of the preferred stock are set forth in the company's articles of association as follows:

"Such preferred stock shall be entitled in preference and priority over the common stock of said corporation to dividends in each and every fiscal year at such rate not exceeding four per cent per annum, payable out of net profits, as shall be declared by the board of direc-tors Such dividends are to be non-cumulative, and the preferred stock is entitled to no other or further share of the profits."

The earnings of the main line and Kansas Pacific ver Pacific lines for the fiscal year ending Dec. 31,	and Den- 1897 were :
Gross earnings	\$16.444.892
Net earnings	\$5,602,513

There are outstanding car trust obligations not exceeding \$435,000, for the payment of which, as rapidly as the same can be obtained, provision has been made. The company has no floating debt no floating debt.

pany's fixed charges.

pany's fixed charges. Payment of Eastern Division Bonds.—Special Master William D. Cornish gives notice that he will be pre-pared on April 25 to pay at the Mercantile Trust Co., 120 Broadway, New York, all the Union Pacific Railway Eastern Division first mortgage bonds of 1865 and the ma-tured coupons thereon, as also interest on the bonds from Feb. 1, 1898, to April 25. Interest will cease at the last named date named date.

named date. Payment of Collateral Trust 6s of 1879, Certificates of De-posit.—The Union Trust Company began paying yesterday upon surrender of the certificates of deposit for Union Pacific RR. Co. collateral trust 6 per cent bonds the amount of the principal and interest to March 11th, 1898, of the bonds represented by such certificates less one-half of one per cent of the par amount of the bonds, to be retained for the com-pensation and expenses of the Davis Committee.—V. 66, p. 473.

## Reports and Documents.

# CHICAGO ROCK ISLAND & PACIFIC RAILWAY COMPANY.

ABSTRACT OF GENERAL GOLD BOND MORTGAGE, DATED JAN. 1, 1898, SECURING \$1(0,000,000 OF GOLD BONDS DUE JAN. 1, 1988.

#### PARTIES.

The Chicago Rock Island & Pacific Railway Co. (herein-after called the "Railway Company") party of the first part, and Central Trust Company of New York and George Sher man, of the City of New York (hereinafter called the "Trus-tees"), parties of the second part:

#### PURPOSE OF NEW LOAN.

PURPOSE OF NEW LOAN. WHEREAS, for the purpose of refunding \$62,712,000 of "existing bonds" and for the purpose of providing for the further enlargement, improvement or extension of its property, the Railway Company, having been duly au-thorized hereto by action of its Board of Directors and by the concurring vote of the holders of more than two-thirds of its capital stock, now proposes from time to time to issue its bonds for an aggregate principal sum not exceeding \$100,000,000, secured by mortgage: and, DESCRIPTION OF NEW BONDS. WHEREAS the Directors and stockholders of the Boilward

DESCRIPTION OF NEW BONDS.
WHEREAS, the Directors and stockholders of the Railway Company have duly resolved that said bonds shall be called the "General Mortgage Gold Bonds of 1988;" shall bear date Jan. 1, 1898, in the case of coupon bonds, and of the time of issue in the case of registered bonds; shall become and be payable on Jan. 1, 1988, in gold coin of the United States, of the present standard of weight and fineness; and shall bear interest at such rate, not exceeding 5 per centum per annum, as from time to time the Board of Directors or the Executive Committee of the Railway Company may determine, and as shall be designated in said bonds when issued, payable in like gold coin semi-annually.
Said bonds shall be issued either as coupon bonds or as registered bonds. The coupon bonds shall be each for the principal sum of \$1,000, and shall give to the holders the right to register the principal thereof, and also the right to convert the same into fully registered bonds. The registered bonds without coupons shall be each for the principal sum of \$1,000 or of \$5,000, and may be issued either or riginally as registered bonds or in exchange for coupon bonds for an equivalent sum. WHEREAS, the Directors and stockholders of the Railway

- THIRD .- ALL STATIONS, DOCKS, ROLLING STOCK, FRANCHISES, ETC. All the following property and rights now owned or here
- after acquired for use in connection with any of said railroads: Road beds, rights of way, station and terminal grounds. Tracks, bridges, docks, depots, elevators and other structures. Tools and machinery, coal and other supplies. Engines, cars and other rolling stock. Rights, privileges and franchises.

Also all incomes and profits from the property. EXCEPTION AS TO SECURITIES OWNED.

But, except as may herein otherwise be expressly de-clared, no grant or pledge under this indenture shall be con-strued to include any bonds or any shares of capital stock.

FOURTH.-ALL PROPERTY HEREAFTER ASSIGNED TO TRUSTEE.

All other property, including stocks, bonds, claims or in-debtedness, which from time to time hereafter may be as-signed to the Trustees.

*Provided, however,* that at the time of such assignment the Railway Company, by a writing duly delivered to the Trustees, may reserve to itself power to dispose of such prop-erty, and to use all proceeds for any of the purposes for which may be used the proceeds of bonds issued under Sec-tions 2, 3 or 4 of Article One hereof.

RIGHT TO ACQUIRE PROPERTY FREE FROM LIEN HEREOF.

And *Previded*, further, that nothing shall limit the right of the Railway Company, hereby expressly reserved, to own or in any manner, except by the use of bonds secured by this indenture, to construct or to acquire other lines of railway or equipment or new terminals, and to dispose of any line or property so acquired free from the lien of this indenture

CHICAGO ROCK ISLAND & TEXAS BONDS COVERING 93 MILES. FIFTH.—The following bonds now deposited with the United States Trust Co., as trustee, for the security of the first mortgage extension and collateral bonds of 1884:

Chicago Rock Island & Texas By. Co. first mortgage bonds of 1883 secured by mortgage to the Merchants' Loan & Trust Co of Chicago, as Trustee, being all of the bonds of sald company now issued and outstanding [these bonds cover the 93 miles from Terral to Fort Worth, Tex.-Ed.].\$1,365,000 Upon satisfaction of the first mortgage extension and collateral, the Railway Company will deliver to the Trustees such instruments as the Trustees may reasonably require for the purpose of assigning to them the aforesaid bonds. ENTIRE CAPITAL STOCK OF THE WISCONSIN MINNESOTA & PACIFIC RR. CO., OWNING 217 MILES UNBONDED.

-The entire capital stock of the Wisconsin Minne-Sixth.—The entire capital stock of the Wisconsin Minne-sota & Pacific RR. Co., viz., \$5,205,000, the same to be de-livered to the Trustees hereunder. [The W. M. & P. extends from Red Wing, Minn., to Mankato, Minn., 94 miles, and from Morton to Watertown Junction, 123 miles, in all 217 miles, and is unbonded.—ED.] The Railway Company shall have the right to vote such stock, but not to authorize an increase of the convict stock.

The Railway Company shall have the right to vote such stock, but not to authorize an increase of the capital stock or the creation of any indebtedness or any mortgage upon the Wisconsin Minnesota & Pacific RR. The Railway Com-pany shall have the right to sell the stock on such terms as it shall deem proper, *provided* that the proceeds, except so much as the parties hereto shall agree to be the *bona tide* value of the land-grant of said Wisconsin Company, shall forthwith be invested in betterments, extensions or im-provements of the mortgaged premises or in the purchase of equipment. The Wisconsin Minnesota & Pacific RR. also may be leased or sold, but the proceeds of sale, aside from the value of the land-grant, shall be applied in the manner provided in case of the sale of the capital stock, and the lease shall be assigned to the Trustees hereunder. ALL THE NEW BONDS TO BE EQUALLY SECURED.

ALL THE NEW BONDS TO BE EQUALLY SECURED.

To have and to hold in trust for the equal and proportion-ate benefit and security of all present and future holders of the bonds and interest obligations issued and to be issued under and secured by this indenture, without preference, priority or distinction as to lien or otherwise of any one bond over any other bond by reason of priority in the issue or negotiation thereof.

#### ARTICLE ONE.

ISSUE AND APPROPRIATION OF BONDS-LOAN LIMITED TO \$100,000,000.

SECTION 1. The aggregate amount of bonds issued and outstanding under this indenture shall never at any one time exceed the principal sum of \$100,000,000. BONDS FOR NOT EXCEEDING \$65,847,600 TO BE RESERVED TO RETIRE EXISTING BONDS.

Sec. 2. Of the authorized issue there shall be re-served bonds for the aggregate principal sum of \$62,712,000, and for such further sum, not exceeding, however, 5 per

cent upon the par value of the existing bonds surrendered to the Trustee as shall be paid as premium in retiring said existing bonds. [The total amount of bonds issuable for re-funding, including the 5 per cent premium, is therefore not to exceed \$65,847,600.—ED.] The bonds so reserved shall be delivered for the purpose of refunding or paying bonds of the following four issues viz. the following four issues, viz .:

	Existing bonds.	Miles covered.

<b>1</b> .	Chicago Rock Island & Pacific Ry. Co. deben-	
	ture 5 per cent bonds of 1891. [ These bonds	

will be paid off Sept. 1, 1898, at 105]..... 4,500,000 None.

¶ Only approximate; supplied, not in mortgage.

## AFTER JAN. 1, 1903, NOT EXCEEDING \$5,500,000 OF 4 P CENT BONDS MAY BE ISSUED AT NOT OVER \$18,000 PER MILE, TO RETIRE A LIKE AMOUNT OF OUT-STANDING BONDS ON ANY CONNECTING LINE PUCHASED. PER

Sec. 3. If the Railway Company shall become the owner of any connecting railway or railways capable of operation as part of its system of railways, bonds for a prin-cipal sum not exceeding the aggregate of the outstanding cipal sum not exceeding the aggregate of the outstanding bonds secured by any present mortgages of such railway, and not exceeding the aggregate amount hereinafter specified, shall be reserved for the purpose of retiring, at or before maturity, bonds secured by any such present mort-gage; *Provided* that the aggregate amount to be issued under the provisions of this section shall not exceed \$18,000 where the theorem of for each mile of railway or railways thus and the provisions of this section shall not exceed \$15,000 par value thereof for each mile of railway or railways thus acquired, and shall never exceed the total sum of \$5,500,000; and, *prov ded furthe*, that the bonds to be delivered under this section shall not bear interest at a higher rate than 4 per cent per annum; and in no event shall be delivered prior to the 1 1002 to Jan. 1, 1903.

#### REFUNDING OF EXISTING BONDS.

Sec. 4. To facilitate the refunding of the existing bonds the Trustee, upon request of the Railway Company by resolution of its Board of Directors or Executive Committee,

shall deliver to the Railway Company bonds issued under this mortgage for the aggregate principal sum of \$500,000. Thereafter, as often as the Railway Company shall sur-render any of the existing bonds, the Trustee, in exchange therefor, shall deliver to the Railway Company bonds issued under this mortgage for an accounted minimal sum under this mortgage for an aggregate principal sum equal to the par amount of the bonds so surrendered and for such further sum, not exceeding, however, 5 per cent upon the par value of the bonds so surrendered, as shall have been paid by the Railway Company as premium in retiring, re-deeming or refunding any of said existing bonds, and this process may continue from time to time until the amount of existing bonds specified in said Section 2 shall be reduced to \$500,000, when no further amount of bonds shall be certified and delivared for the numbers specified in said Section 2 and delivered for the purposes specified in said Section 2.

## \$2,000,000 BOND3 IS JUABLE AT OPTION OF RAILWAY COM-PANY FOR IMPROVEMENTS, ADDITIONS OR EXTENSIONS.

PANY FOR IMPROVEMENTS, ADDITIONS OR EXTENSIONS. Reserving at all times such amount of the bonds as at their face value shall be sufficient to provide for the issues thereof authorized in Sections 2 and 3 of this Article (less the said \$500,000), the said Trustee from time to time shall deliver to the Railway Company, out of the residue of the total authorized issue hereunder, bonds for an aggregate prin-cipal sum not exceeding \$2,000,000 on receipt of an attested copy of a resolution of the Board of Directors or the Execu-tive Committee of the Railway Company, requesting such delivery. This \$2,000,000 of bonds shall be applied only to the betterment or increase of the mortgaged premises, whether by improvement, enlargement or extension, or by the acquisition of new property of any kind, to be subject the acquisition of new property of any kind, to be subject to this mortgage, as a first lien thereon.

# REMAINING BONDS ISSUABLE AT NOT EXCEEDING \$1,000,000 YEARLY FOR PERMANENT IMPROVEMENTS AND AD-DITIONS, INCLUDING EQUIPMENT.

Of the total amount of bonds to be secured by this Trust Deed, apart from the amount hereinbefore reserved for the purpose of retiring existing bonds, and apart from the amount of \$2,000,000 under this article to be delivered to the Railway Company, the said Trustee, from time to time, shall deliver to the Railway Company such amount of bonds, not exceeding \$1,000,000 par value thereof in any one calendar year, as an attested copy of a resolution of the Board of Directors or of the Executive Committee of the

Company shall call for, but only on a certificate of the President and the Chief Engineer of said Company, showing that an amount of money equal to the amount of bonds so called for has been expended in the permanent improve-ment or extension of or in additions to the property, in-cluding equipment, subject to the lien of this indenture.

## EXISTING BONDS RECEIVED BY TRUSTEE-WHEN TO BE CANCELED.

CANCELED. Sec. 5. Every existing bond received by the Trustee shall be stamped with the words "Not Negotiable. Held in trust for "the purposes declared in the General Gold Bond Mortgage "of the Chicago Rock Island & Pacific Railway Company. "dated January 1. 1898." and shall be held by the Trustees without extinguishment of lien as additional security for the payment of the bonds hereby secured until not less than 97 per cent of the issue to which such existing bond belongs either shall have been paid and canceled, or shall have been received hereunder by the Trustees, whereupon, on the written request of the Railway Company, the Trustees shall cancel all outstanding existing bonds of such issue then in their possession.

their possession. Sec. 7. From time to time the Railway Company shall take all practicable measures to procure the discharge of all the mortgages securing any such outstanding existing bonds which shall have been paid.

#### REGISTERED BONDS WITHOUT COUPONS.

REGISTERED BONDS WITHOUT COUPONS. Sec. 8. Whenever any coupon bond issued under this indenture, together with all unmatured coupons thereto be-longing, shall be surrendered for exchange for registered bonds, the Railway Company shall issue therefor a like amount of registered bonds without coupons. Such regis-tered bonds shall be for \$1,000 or \$5,000 each, and shall bear interest at the same rate as the surrendered coupon bonds. Whenever any registered bond shall be surrendered for transfer, the Railway Company shall issue a like amount of new registered bonds for \$1,000 or for \$5,000 each; but no registered bonds for \$1,000 or for \$5,000 each; but no registered bond shall be converted into a coupon bond. For any exchange of coupon bonds for registered bonds, and for any transfer of registered bonds, without coupons, the Railway Company, at its option, may make a charge not exceeding one dollar for each new registered bond issued upon such exchange or transfer. BONDS MUTILATED OR DESTROYED MAY BE REPLACED.

BONDS MUTILATED OR DESTROYED MAY BE REPLACED.

Sec. 9. In case any bond issued hereunder shall become mutilated or shall be destroyed, upon the surrender of any such mutilated bond to the Trustee, or upon filing with the Trustee satisfactory evidence of such destruction, the Bail-way Company upon receiving indemnity satisfactory to it may in its discretion issue a new bond bearing the same social number serial number.

#### ARTICLE TWO.

#### PARTICULAR COVENANTS OF THE RAILWAY COMPANY PRINCIPAL AND INTEREST TO BE PAID PUNCTUALLY TAX FREE.

TAX FREE. Section 1. The Railway Company will punctually pay the principal and interest of every bond issued hereunder in the manner promised, according to the true intent and meaning thereof, without deductions from either principal or interest for any tax or taxes imposed by the United States or by any State or County or Municipality thereof, which the Railway Company may be required to pay or to retain therefrom un-der or by reason of any present or future law; and the Rail-way Company will pay all such taxes. When and as paid, all coupons shall be canceled.

#### DEEDS OF FURTHER ASSURANCE.

Sec. 2. Whenever required by the Trustees, the Railway Company will transfer unto the Trustees title to all real and personal estate, corporate rights and franchises which it shall personal estate, corporate rights and tranchises which it shall acquire as appurtenant to, or for the use of, the several rail-roads hereby mortgaged; and also it will acknowledge and deliver all such further transfers and assurances for the better confirming unto the Trustees the premises hereby conveyed, as reasonably they shall require for the better securing of the bonds issued hereunder.

## RIGHT RESERVED TO CONSTRUCT OR ACQUIRE PROPERTY FREE FROM LIEN HEREOF.

But nothing in this indenture expressed or implied is in-tended, or shall be construed, to limit the right or power of the Railway Company, hereby expressly reserved, to con-struct or to acquire, and to own and hold, other lines of railway, or branches or extensions, or interests therein, or other property free from the lien hereof.

## OFFICE FOR REGISTRATION AND TRANSFER TO BE MAINTAINED IN NEW YORK CITY.

Sec. 3. The Railway Company agrees to maintain an office or agency in New York City for the registration of cou-pon bonds in accordance with the terms of the bond, which see above.

see above. Upon presentation of any registered coupon bond by the registered holder, or by his duly appointed attorney, such bond shall be transferred and entered upon the books of the Railway Company, or the same may be transferred and reg-istered to bearer, in which case transferability by delivery shall be restored and thereafter the principal of such bond shall be payable to any person presenting the same. Suc-

zed for ERASER

cessive registrations and transfers as aforesaid may be made from time to time as desired; and each registration shall be noted by the Railway Company on the bond. Any registered bond without coupons may be transferred on the books of the Railway Company by the registered holder thereof in person or by his duly authorized attorney as provided in Section 8 of Article One hereof.

## PRINCIPAL AND INTEREST OF EXISTING BONDS TO BE PROMPTLY PAID WHEN DUE.

Sec. 4. Exclusively for the benefit of the holders of bonds issued hereunder, the Railway Company will pay, or will acquire and deposit with the Trustees, on or before their respective dates of maturity, or as soon as presented for payment, all of the outstanding existing bonds secured by prior lien on any of the premises hereby mortgaged; and will provide for the payment of the interest on all such out-standing existing bonds and obligations having prior lien, not acquired and deposited bereunder, as and when such in-terest shall become due and payable; and it will not extend any of such existing bonds having liens superior to this in-denture, denture,

## NO PRIOR LIENS EXIST EXCEPT THOSE ENUMERATED; NO OTHERS TO BE PERMITTED.

Sec. 5. The Railway Company covenants that, with the exception in this section specified, the premises hereby conveyed are subject to no mortgage or trust deed except those veyed are subject to no mortgage or trust deed except those securing the outstanding obligations hereinbefore men-tioned, and that it will not create any lien or charge having priority to the lien of these presents upon the mortgaged premises; and, within six months after the same shall ac-crue, it will pay all lawful claims of laborers and others, which, if unpaid, might by law be given precedence to this indenture as a lien upon the mortgaged premises. The following first mortgage bonds cover a portion of the road described by the conveyance clause of this mortgage. They are all, however, pledged as part security for the Ex-tension and Collateral Mortgage of 1884, and on discharge of that mortgage will either be canceled or pledged with the Trustee hereunder. With the bonds in the latter case will also be pledged the entire capital stock as below : 1st M. Bonds. Stock.

Stock. \$ 615,000

2,000,000 Sec. 6. The Railway Company from time to time will pay all taxes, assessments and governmental charges lawfully imposed upon the premises hereby mortgaged, the lien of which would be prior to the lien hereof, so that the priority of this indenture shall be fully preserved.

COMPANY TO PERFORM ALL ITS OBLIGATIONS.

Sec. 7. The Railway Company from time to time will punctually perform all of its obligations, and will discharge all amounts payable under any lease of property subject to the lien of this mortgage, and will also punctually observe all of its obligations as provided in the aforesaid trackage and traffic contracts or modifications thereof.

BONDS TO BE APPLIED AS HEREIN PROVIDED.

Sec. 8. The Railway Company will not dispose of any bonds hereby secured in any manner other than in accord-ance with the provisions of this indenture; and it will ap-ply the proceeds thereof to purposes herein prescribed, and to no other or different purpose.

#### ARTICLE THREE.

COUPONS NOT TO BE PURCHASED OR EXTENDED.

Section 1. The Railway Company covenants that it will Section 1. The Railway Company covenants that it will not, directly or indirectly, assent to the extension of the time for payment of any interest upon any bonds secured hereby, and that it will not, directly or indirectly, be a party to any arrangement for purchasing or funding said interest. Interest extended with the consent of the Railway Company shall not be entitled to the security of this indenture, except subject to the prior payment in full of the principal of all bonds issued, and of all interest not so extended; the intention of this agreement being to pre-vent any accumulation after maturity of coupons or claims vent any accumulation after maturity of coupons or claims for interest upon registered bonds.

for interest upon registered bonds. ON DEFAULT FOR SIX MONTHS THE TRUSTEES MAYTAKE POSSESSION. Sec. 2. In cise (1) of default for six months in the pay-ment of interest on any bond secured by this indenture, or in the performance of any of the covenants contained in Section 5 of Article Two hereof; or in case (2) of default in the punctual payment of the principal of any bond hereby secured; or (3) of default in the performance of any other covenant herein for a period of six months after written notice thereof from the Trustees or from the holders of 5 per cent in amount of the bonds hereby secured; then the Trustees may enter upon all the railways and premises hereby conveyed, and operate the same by their receivers, agents or attorneys, to the best advantage of the holders of the bonds hereby secured. After deducting the expense of operating and of all re-

After deducting the expense of operating and of all re-pairs, additions, betterments and improvements, and all taxes, assessments, insurance and prior or other proper charges, the Trustees shall apply the moneys arising as afore-said as follows :

First. In case the bonds hereby secured shall not have become due, to the payment ratably to the persons entitled thereto of the interest in default in the order of its maturity, with interest on the overdue instalments. Second. In case the bonds hereby secured shall have become due, by declaration or otherwise, first, to the payment of the accrued interest (with interest on the overdue instalments thereof) in the order of its maturity; and next, if any surplus remain, towards the payment of the principal of all bonds hereby secured.

# UPON SIX MONTHS' DEFAULT, HOLDERS OF A MAJORITY IN AMOUNT OF THE BONDS MAY REQUIRE THE TRUS-TEES TO DECLARE THE PRINCIPAL DUE.

Sec. 3. In case of default for six months in the payment of Sec. 3. In case of default for six months in the payment of any interest on any bond hereby secured, or in the perform-ance of any of the covenants contained in Section 5 of Arti-cle Two hereof, then upon the written request of the holders of a majority in amount of the bonds hereby secured then outstanding, the Trustees, by notice in writing delivered to the Railway Company, shall declare the principal of all bonds hereby secured then outstanding to be due and pay-able immediately. But if at any time thereafter all arrears of interest, with

able immediately. But if at any time thereafter all arrears of interest, with interest thereon, shall be paid before sale of the mortgaged premises, then the holders of a majority in the amount of the bonds may waive such default and its consequences.

# DEFAULT-TRUSTEES MAY SELL PROPERTY OR BRING FORECLOSURE OR OTHER SUITS.

Sec. 4. In case of default made and continued as pro-Sec. 4. In case of default made and continued as pro-vided in Section 1 of this article, the trustees, with or with-out entry, in their discretion (a) may sell to the highest and best bidder all and singular the mortgaged property and premises, in one lot and as an entirety, unless a sale in par-cels shall be required under the provisions of Section 6 of this article, or (b) may proceed to enforce the rights of bondholders by foreclosure or other suits, as the Trustees, being advised by counsel learned in the law, shall deem most effectual. most effectual.

## TRUSTEES MUST ACT WHEN REQUESTED BY HOLDERS OF 25 PER CENT IN AMOUNT OF BONDS.

Upon the written request of the holders of 25 per cent in amount of the bonds hereby secured, in case of any such continuing default, it shall be the duty of the Trustees, upon being indemnified, to take all needful steps for the enforce-ment of the rights of the holders of the bonds hereby secured by suit or otherwise as the Trustees shall deem most expedient in the interest of the bondholders.

### HOLDERS OF 65 PER CENT IN AMOUNT OF BONDS MAY DIRECT AND CONTROL PROCEEDINGS.

Sec. 5. The holders of 65 per cent in amount of the bonds hereby secured, and then outstanding, shall have the right, if they so elect by an instrument in writing delivered to the Trustees, to direct, control or discontinue any and all pro-ceedings for any sale of the premises hereby conveyed, or for the foreclosure of this indenture, or for the appointment of a proceedings hereunder of a receiver, or any other proceedings hereunder

#### DEFAULT-VARIOUS PROVISIONS.

Sections 6 to 17, Etc. The mortgage contains the usual carefully-drawn provisions defining the further rights of the Trustee and the bondholders in case of default, some of these provisions being as follows:

these provisions being as follows: Property to be sold in one parcel, unless otherwise requested by holders of a majority of the bonds. Notice of sale to be advertised for four weeks. On sale of mortgared premises principal, at the option of the Trus-tees, to be due and payable. Proceeds of sale, after payment of expenses, to be applied to pay-ment of principal and interest ratably without preference of one over the other. Purchaser may apply bonds and coupons due and unpaid on pur-chase price. Trustee may recover judgment for amount due on principal and in-terest.

Trustee may recover judgment for amount due on principal and in-terest. The benefit of all valuation, stay, extension or redemption laws are waived by the Railway Company. Upon commencement of judicial proceedings a receiver may be ap-pointed for benefit of bondholders. The remedies herein are additional to all other remedies existing at law, except as herein expressly provided to contrary. The Railway Company, whenever it shall deem it expe-dient for the better security of the bonds. although there may be then no default entitling the 'Trustee to possession, may, with the consent of the Trustee, surrender to the Trus-tee the whole or any part of the property hereby conveyed for any period fixed or indefinite.

## REQUEST OF A MAJORITY IN AMOUNT OF THE BONDS NECES-SARY TO REQUIRE ACTION HEREUNDER.

SARY TO REQUIRE ACTION HEREUNDER. Sec. 18. No holder of any bond or coupon shall have the right to institute any action in equity or at law for the fore-closure of this indenture or for the appointment of a re-ceiver or for any other remedy hereunder unless the holders of 25 per cent in amount of the then outstanding bonds shall have made written request of the Trustee, and shall have afforded it reasonable opportunity to exercise the powers hereinbefore granted; it being intended that no holders of bonds or coupons shall enforce any right hereunder except in the manner herein provided and for the equal benefit of all outstanding bonds and coupons.

#### ARTICLES FOUR AND FIVE.

IMMUNITY OF OFFICERS, ECC.-BONDHOLDERS' INSTRU-MENTS.

Article Four provides that no recourse hereunder shall be ditional issues sha had against any incorporator, stockholder, officer or director of this indenture.

of the Railway Company, this mortgage and the obligations hereby secured being solely corporate obligations. Article Five contains provisions respecting bondholders' instruments, etc.

#### ARTICLE SIX.

#### RELEASES OF MORTGAGED PROPERTY.

RELEASES OF MORTGAGED PROPERTY. Upon the written request of the Railway Company, ap-proved by resolution of its Board of Directors or Executive Committee, the Trustees may, from time to time, release from the lien of this indenture any part of the mortgaged premises; *provided* the same shall no longer be of use, and that no part of the track shall be released if thereby the continuity of the railroads hereby mortgaged shall be broken. No property, also, shall be released unless to be sold or ex-changed for other property. The proceeds of sale shall be applied to the purchase of other property or in improve-ments upon the mortgaged premises. All new property ac-quired in place of property released shall be held for further security hereunder. security hereunder.

#### ARTICLE SEVEN.

#### OBLIGATION OF TRUSTEES.

Section 1. The Trustees shall not be under any obligation to take any action toward the enforcement of the trusts hereby created, unless indemnified against all expense or liability, nor to take notice of any default hereunder unless requested by a writing signed by the holders of 25 per cent in amount of the bonds hereby secured then outstanding, and tendered reasonable indemnity as aforesaid; but neither any such request nor this provision therefor shall affect any discretion herein elsewhere specially given to the Trustees to determine whether or not they shall take action.

#### REMOVAL OF TRUSTEES.

Sec. 2. Any Trustee may be removed at any time by an instrument in writing under the hands of three-quarters in amount of the holders of the bonds hereby secured and then outstanding. Any Trustee other than a Trust Company, Trustee, may be removed at any time by an instrument in writing executed upon the part of the Railway Company by order of its Board of Directors or of its Executive Commit-tee, and by notice thereof to the Trust Company, Trustee.

### APPOINTMENT OF NEW TRUSTEES.

APPOINTMENT OF NEW TRUSTEES. Sec. 3. In case any Trustee hereafter appointed shall resign or be removed or otherwise become incapable of act-ing, a successor or successors may be appointed by the holders of a majority in amount of the bonds hereby secured then outstanding by instruments in writing; provided, nevertheless, that the Railway Company by an instrument executed by order of its Board of Directors or Executive Committee may appoint a Trustee to fill such vacancy un-til a new Trustee shall be appointed by the bondholders as herein authorized. The Railway Company shall publish no-tice of such appointment once a week for six successive weeks in New York and Chicago, and any new Trustee so appointed by the Railway Company shall immediately be superseded by a Trustee appointed in the manner above pro-vided by the holders of a majority in amount of the bonds hereby secured prior to the expiration of six months after such publication of notice. Me of the Trustees hereunder shall always be a Trust Company in good standing, doing business in the City of New York, and having a capital and surplus aggregating at least \$3,000,000, if there be such a Trust Company willing and able to accept the trust upon reasonable terms. ARTICLE EIGHT.

#### ARTICLE EIGHT.

#### RAILWAY COMPANY'S POSSESSION TILL DEFAULT.

This article is merely formal, relating to the company's right to retain the property until default, and to the termination of the Trust upon the faithful performance of all the covenants herein.

#### ARTICLE NINE.

## A COMPANY ABSORBING THE RAILWAY COMPANY MAY ISSUE BONDS HEREUNDER.

Nothing contained in this indenture shall prevent any consolidation, merger or sale of the mortgaged premises as an entirety; provided, however, that such consolida-tion, merger or sale shall not impair the lien and security of this indenture, and that the payment of the principal and interest of all said bonds according to their tenor shall be assumed by the corporation formed by such consolidation or moreore or purchase as aforesaid

assumed by the corporation formed by such consolidation or merger, or purchase as aforesaid. The successor corporation as aforesaid, upon executing, and causing to be recorded, an indenture with the Trustees satisfactory to the Trustees, whereby it shall assume the due and punctual payment of the principal and interest of said bonds and the performance of all the covenants and condi-tions of this indenture, shall be substituted for the Railway Company and may issue either in its own name or in the r ame of the Chicago & Rock Island Railway Company, any or all of such bonds not theretofore issued, but all such ad-ditional issues shall be made subject to all the restrictions of this indenture.

#### CANADIAN PACIFIC RAILWAY COMPANY.

SEVENTEENTH ANNUAL REPORT-FOR THE YEAR ENDED DECEMBER 31ST, 1897.

To the Shareholders:

A balance sheet of the affairs of the Company at 31st De-cember, 1897, together with the usual statements and schedules, are herewith submitted. And the net earnings were..... ......\$10,303,775 89 Add interest earned on deposits and loans.. \$74,001 48 Add interest due from Duluth South Shore & Atlantic Ry. Co. on Consolidated bonds held by your Company against Debenture Stock is-Less advanced by your Com-pany...... \$159,325 00 Add interest from Minneap-olis St. Paul & Sault Ste. Marie Ry. Co. on bonds held by your Company against Debenture Stock issued..... \$107.380 00 \$340.706 48 Stock: 1<sup>1</sup>g per cent paid 1st October, 1897... 975,000 00 1.142.413 33 Leaving balance. From this there has been declared a half-yearly dividend on Preference Stock of 2 per cent payable 1st April, 1898..... \$196,613 33

1.625.000 00

The working expenses for the year amounted to 57.16 per cent of the gross earnings, and the net earnings to 42.84 per cent, as compared with 60.80 and 39.20 per cent, respectively, in 1896.
 The earnings per passenger per mile were 1.82 cents and per ton of freight per mile 0.78 cents, as against 1.83, and 0.75 cents, respectively, in 1896.

Following is a statement of the results of working by 4 months:

Earnings.	Expenses.	Net Earnings.

5. Notwithstanding the unfavorable results of the first three months of the year the Directors are able to report a substantial increase in the earnings and profits of the Com-

substantial increase in the earnings and profits of the com-pany. 6. The improvement in the traffic of the Company is due in large measure to the mining development in British Columbia; the mining development in the Lake-of-the Woods district also contributed in no small degree. 7. The discovery of extraordinary deposits of gold in the Canadian Yukon territory has contributed appreciably to the general improvement, and is likely to contribute vastly more in the immediate future, for the movement in that direction can hardly be said to have commenced until within the past few weeks. the past few weeks. 8. Under the authority given by the shareholders at the

8. Under the authority given by the shareholders at the last meeting, the Directors entered into an arrangement with the Dominion Government providing for the immediate construction of a railway from Lethbridge, Alberta, through the Crow's Nest Pass, to a connection with your line at Nelson, British Columbia, a distance of 340 miles. This line has been completed to within 12 miles of the Crow's Nest Pass, at the summit of the Rocky Mountains, and the work beyond is well advanced. It is expected that the line will be completed to Kootenay Lake before the end of August. On reaching Kootenay Lake a temporary connection will be made with Nelson by means of a train ferry whereby a through train service may be established, pending the com letion of the railway along the shore of the lake to that point sixty miles distant.
9. The Dominion Government has entered into an agreement with the Company to assist the undertaking to the extent of \$11,000 per mile, and the balance required will form part of your capital expenditure. This agreement will be submitted for your confirmation.

FRASE

10. It is worthy of remark that the maximum gradients on the Crow's Nest line through the Rocky and Selkirk ranges of mountains are only 1 foot in 100 (with compensa-tion for curvature), or barely half the maximum of any other railway crossing either of these ranges. 11. This much-needed Canadian outlet for the Kootenay mining district afforded by the Crow's Nest Railway will give a decided impetus to mining and smelting, and is cer-tain to add largely to the earnings of the Company ; but that the fullest advantage may be derived from it, and that the interests of your Company may he protected in South-ern British Columbia, it is necessary to move on westward from the Columbia River at Robson, the western end of your line, so as to reach the Boundary Creek District—about 100 miles—during the present year, and your authority in this regard will be asked. The opening of mines in the Boundary Creek District has been retarded by the lack of transportation facilities, but the mineral deposits have been

this regard will be asked. The opening of mines in the Boundary Creek District has been retarded by the lack of transportation facilities, but the mineral deposits have been proven to an extent sufficient to justify the belief that this is the richest district yet discovered in the Province. 12. As a preliminary step towards the construction of the Crow's Nest line, the Shareholders at their meeting on the 10th May, 1893, authorized the purchase of the section of the Alberta Railway, between Dunmore, on your main line, and Lethbridge—109 miles—for \$976,590. This purchase was consummated early in January of the present year. 13. The section of the Crow's Nest line west of the sum-mit of the Rocky Mountains is being constructed under the charter of the British Columbia Southern Railway Com-pany, the acquisition of which, for an almost nominal con-sideration, you will be asked to approve. The work is being carried on by the officers of your Company and on its com-pletion the railway will become the property of your Com-pany at the actual cost of construction. 14. Through the British Columbia Southern Railway your Company acquires about 3,350,000 acres of land granted to that Company by the Province of British Columbia, and also acquires six square miles of valuable coal lands near the Crow's Nest Pass—an amount of coal lands quite sufficient for the pretection of the public as well as the Company, if need be, against unduly high prices. The lands first men-tioned are all adjacent to the railway as it is laid out be-tween the Crow's Nest Pass and Kootenay Lake. They have not as yet been examined in detail, but will no doubt prove a valuable asset. The lands are not taxable until leased or alienated. a valuable asset. The lands are not taxable until leased or alienated.

alienated. 15. The coal deposits made accessible by the Crow's Nest Railway are of great extent and extraordinary character. The aggregate thickness of the beds in the immediate vicin-ity of the railway exceeds 125 feet, and the coals are of ex-cellent quality and make superior coke, the latter being of especial consequence as affecting the smelting of ores; and in this connection it is worthy of remark that the mining districts of southern British Columbia are exceptionally for-tunate in possessing an abundance of coal, a boundless sup-ply of timber, numerous water-powers, a healthy climate and, close at hand, agricultural districts affording cheap and plentiful food.

and, close at hand, agricultural districts affording cheap and plentiful food. 16. Arrangements have been completed, subject to the approval of the Dominion Parliament, whereby your Com-pany may acquire the Columbia & Western Railway ex-tending from Robson to Rossland (33 miles) for the sum of \$800,000. With this property will be acquired the smelt-ing works at Trail Creek, and about 270,000 acres of land in the vicinity, these heing included in the average price the vicinity, these being included in the purchase price named.

17. Rossland having become the principal mining centre in British Columbia, it was necessary either to build an in-dependent line to that place or acquire the Columbia and Western Railway, and the latter was clearly the wiser course

18. Your authority for the acquisition of this property will be asked, and you will be asked to approve the construction of a line 32 miles in length, connecting the Columbia and Kootenay Railway with Slocan Lake, which was demanded by the Slocan mining district and which your Directors felt obliged to carry out last year, anticipating your authority.

19. You will be asked to approve a lease of the St. Stephen & Milltown Railway 4 6-10 miles in length at a rental of \$2,050 per annum. This line affords access to a number of saw mills and manufactories in the vicinity of St. Stephen,

New Brunswick. 20. The Montreal & Ottawa Railway is now practically completed to the city limits of Ottawa, and is expected to be in readiness for traffic at the beginning of the coming summer. 21. The results of the purchase of the Columbia & Koote-

21. The results of the purchase of the Columbia & Koote-nay steamers, as authorized by the shareholders a year ago, have been most gratifying. Additions have already been made to this flee and more boats are required. 22. The Directors have anticipated your authority in pur-chasing two ocean steamships for the new trade of the Canadian Yukon (Klondike) district. These steamships are intended to ply from Vancouver and Victoria, and are far superior to any now engaged in the trade and should secure to your Company a large share of it. Your Directors have also caused to be put under contract eleven steamboats, costing approximately \$350,000, for the lakes and rivers in the Southern British Columbia mining districts, and for river service in the Canadian Yukon trade.

23. Your railway has been maintained in excellent condition and has enjoyed its usual immunity from serious acci-

28. Your railway has been maintained in excellent condition and has enjoyed its usual immunity from serious accident.
 24. Two hundred and forty-seven miles of the principal lines of the Cempany were relaid with heavy rails (70 and 80 pounds per yard) during the year.
 25. The sudden increase of traffic, subsequent to the last Annual Meeting, made necessary considerable expenditures on Capital Account for rolling stock, grain elevators and for terminal and station facilities, mining spurs, sidings and spurs for new industries. etc., which were not anticipated at that time, and the Directors will ask your approval of these expenditures. They will also ask you to authorize them to make liberal provision for rolling stock, improvements of roadway, additional repair shops and various other matters, in order that your railway may be well prepared for the large traffic ahead, which now seems assured.
 26. The rapid increase of traffic on the line between Montreal and Toronto makes it necessary to take steps towards the double-tracking of that section of the Company's line, the traffic having now practically reached the limit of the capacity of a single-track line. Your authority to proceed with this work as it may be conveniently and economically done will be asked.
 27. Schedules "E," "F" and "G" appended to this report show in detail the expenditures on Capital Account.
 28. Two hundred and fifteen timber bridges aggregating 5.7 miles were replaced with permanent work -masonry, steel or embaakments-during the year.
 30. Since the close of the year your Company's shares in the Pacific Postal Telegraph-Cable Company have been sold for an equal amount in the bonds of the Company's telegraph to your already handsome profits from this source. In connection with this sale your interests have been secured by a contract for the interchange of business with the same telegraph system for a term of 20 years.
 30. Since the close o

Itself, but brings a large amount of passenger traine to the railway. 32. The Company's telegraph, express, grain elevators, sleeping cars and lake steamers all afforded increased net earnings and these, with the profits from the Pacific Steam-ships, exceeded the interest on the whole of the Consolidated Depenture stock of the Company.

Baings and these, with the promestrum the trachestering ships, exceeded the interest on the whole of the Consolidated Debenture Stock of the Company.
33. Your Company had nothing to pay on its guaranty in respect of the Minneapolis St. Paul & Sault Ste. Marie Railway, but the improved conditions in the Western States did not begin to be felt by the Duluth South Shore & Atlantic Railway until late in the year, and the deficit of that Company was \$442,065, as already stated.
34. During the year \$151,000 of the 4 per cent Consolidated Mortgage Bonds of the Minneapolis St. Paul & Sault Ste. Marie Railway, \$131,000 of the 4 per cent Consolidated Mortgage of the Duluth, South Shore & Atlantic Railway, and \$518,750 of the 5 per cent First Mortgage Bonds of the Montreal & Ottawa Railway—all guaranteed by your Company —were purchased with the proceeds of £145,875 four per cent Consolidated Debenture Stock, a considerable saving in interest being thereby effected.

cent Consolidated Debenture Stock, a considerable saving in interest being thereby effected. -35. During the year your Directors contracted for the sale of one million pounds four per cent Preference Stock to ap-ply on Capital expenditures already authorized, including a portion of the Crow's Nest Railway construction, and the portion of the proceeds received before the end of the year was so applied. 26 Arrangements permanently assuring the traffic inter-

was so applied. 66. Arrangements permanently assuring the traffic inter-ests of the Duluth South Shore & Atlantic Railway west of Duluth having been made, the amount advanced to that Company for the acquisition of the Duluth & Winnipeg Railway has been returned to your treasury. 77. The land sales for the year were 199,482 acres for \$665,740 (see schedule "D"), an increase over 1896 of 111.604 acres, or 127 per cent, and an increase in the amount realized of \$356,812, or 112 per cent. The net amount realized from town sites was \$100,267, as against a deficit of \$7,860 in 1896. 38. The recovery in the prices of farm products, and especially of wheat, has given vigor to agricultural develop-ment in the Canadian Northwest, and the Directors antici-pate a much larger increase in the land sales of the new year.

year

year. 39. The fact that a great majority of the established farmers in that part of the country realized from their crops and cattle in 1897 more than their lands and improvements had cost them must result in a new and large movement of

settlers in that direction. 40. The business of Canada seems to have returned to its normal condition and prosperity is the rule in nearly all sections of the country. For the Directors,

WM. C. VAN HORNE,

MONTREAL, February 26, 1898.

President.

MARCH 12, 1898.1

### The Commercial Times.

#### COMMERCIAL EPITOME. FRIDAY NIGHT, March 11, 1898.

Interest in the Spanish-American political situation has continued keenly alive, and although the developments have had considerable influence upon the course of values in the speculative markets, they have not interfered materially with general trade conditions, business in most lines being normal for the season of the year, with the general outlook encour-

aging. The Anglo-Russian-Chinese situation has received close attention and has had some influence upon the course of grain and cotton values. There has been no falling off in the movement of gold from Europe to New York, large withdrawals having been made from the Bank of France the past week for shipment here. The action of Congress in unanimously voting to place \$50,000,000 in the President's hands for national defense has been a leading event of the week.

Lard on the spot had a moderate sale to exporters, but re finers have been only limited buyers; prices have held steady, closing at 5 45c. for prime Western and 5 15c. for prime City. Refined lard has had a moderate sale at steady prices, clos-ing at 5'80c. for refined for the Continent. Early in the week prices for lard futures weakened slightly under selling by packers. Subsequently, however, prices advanced slightly on smaller receipts of hogs than expected. The close was steady.

(@\$1 05 in bond fand 100 bales Sumatra at 90c. (@\$1 80 in bond. Straits tin has continued in fair demand, and in response to stronger foreign advices prices have advanced, closing at \$14 40@14 50. Ingot copper has again advanced and a large export business for forward deliveries has been transacted, closing firm at 12c. for Lake. Lead has been quiet but steady at 3.75c. for domestic. Spelter has been firmer but quiet at 4.15@4.20c. for domestic. Pig iron has been quiet but steady at \$9.75@12 for domestic. Refined petroleum has been easier, closing at 5.85c. in bbls., 3.35c. in bulk and 6.50c. in cases; naphtha quiet at 5.50c. Crude certificates have declined, closing at 78c. bid; credit balances have been lowered to 79c. Spirits turpentine has been moderately active, but prices have weakened slightly, closing at 36!4@36!4c. Rosins have been steadier, closing at \$142!4@147!4 for common and good strained.Hops have been quiet but teady. Wool has been dull andeasy.easy.

### COTTON.

FRIDAY NIGHT, March 11, 1898. THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 150,221 bales, against 150,717 bales last week and 162,474 bales the previous week, making the total receipts since the 1st of Sept., 1897, 7,669,398 bales, against 6,115,406 bales for the same period of 1896-7, showing an increase since Sep.1,1897, of 1,553,992 bales.

NEW ENGLAND COTTON MILL STRIKE SITUATION,-The strike of cotton mill operatives in Biddeford, Maine, ter-minated on Monday last, March 7, when all the hands re-turned to work at the reduced wage scale. The King Philip Will of Full Discussion of the state of the st Mills at Fall River also resumed operations in full on the same date. At New Bedford the situation is practically unchanged.

EUROPEAN COTTON CONSUMPTION TO MARCH 1.—We have received to-day (Friday) by cable Mr. Ellison's figures brought down to March 1. We have also received the revised totals for last year and give them for comparison. The spinners' takings in *actual* bales and pounds have been as follows:

October 1 to March 1.	Great Britain.	Continent.	Total.
For 1897-98. Takings by spinnersbales Average weight of bales.lbs Takings in pounds	507		500.1
For 1896-97. Takings by spinnersbales Average weight of bales.lbs. Takings in pounds	503	485	3,498,000 492.8 1,723,836,000

According to the above, the average weight of the deliveries According to the above, the average weight of the deliveries in Great Britain is 507 pounds per bale this season, against 503 pounds during the same time last season. The Continental deliveries average 496 pounds, against 495 pounds last year, and for the whole of Europe the deliveries average 500.1 pounds per bale against 493.8 pounds last season. Our dispatch also gives the full movement for this year and last year in bales of 500 pounds.

Oct. 1 to March 1.		1897-98.		1	896-97.	
Bales of 500 lbs. each, 000s omitted	Great Britatn	Oonti- nent.	Total.	Great Britan	Conti- nent.	Totas

spinners' stock Mch.1	246	632	878.	190	476,	666,
Weekly Consumption. 00s omitted.				1		
In October	64,0	84,0	148,0	64,0	82,0	146,0
In November	64,0	84,0	148,0	64,0	82,0	146,0
In December	64,0	84.0	148,0	64,0	82,0	146,0
In January	64,0	86.0	150,0	64,0	84,0	148,0
In February	64.0	860	150,0	64.0	84.0	148.0

The foregoing shows that the weekly consumption is now 150,000 bales of 500 pounds each, against 148,000 bales of like weights at the corresponding time last year. The total spinners' stocks in Great Britain and on the Continent have increased 149,000 bales during the month, and are now 212,000 bales more than at the same date last season.

SEA ISLAND COTTON MOVEMENT .- We have received thi (Friday) evening by telegraph from the various ports the details of the Sea Island cotton movement for the week. The receipts for the week ending to-night (March 11) and since Sept. 1, 1897, the stocks to-night, and the same items for the corresponding periods of 1896-97. are as follows.

199	7-98.	189	6-97	Stock

9½c.; medium fine, 10c.; choice, 13½c. Charleston, Carolinas, medium fine, 15½ to 16c.; fine, 17c.; fully fine, 19 to 20c.; extra fine, 26 to 33c.

JUTE BUTTS, BAGGING, &C.—There has been practically nothing doing in jute bagging during the week under review and prices are nominally unchanged at 45% c. for 134 c lbs., 5c. for 2 lbs. and 51% c. for 21% lbs. The market for jute butts continues very quiet. Quotations are '80c. for paper quality, 11% c. for mixing and 11% 21% c. for spinning cuttings, to arrive arrive.

#### MARCH 12, 1898.]

THE CHRONICLE. RUSSIAN COTTON.-Recently-issued reports on the Russian cotton crop indicate that area was considerably extended ir Turkestan, Khiva and Buchara in 1896, and that while the yield per acre was not so great as in the previous season, the aggregate production increased. According to the same reports, the deliveries of Central Asian cotton in European Russia via the Trans-Caspian Railway were 4,294,191 poods in 1896-97 (Oct. 1 to Sept. 30), against 3,475,392 poods in the preceding year and 3,161,843 poods in 1894-95. Reducing

these figures to American weights would give us 309,182 bales of 500 lbs. each for 1896-97, against 250,228 bales and 227,653 bales respectively in the two previous seasons. the

SHIPPING NEWS.—As shown on a previous page, the exports of cotton from the United States the past week have reached 179,862 bales. The shipments in detail, as made up from mail and telegraphic returns, are as follows: Total bales.

#### BREADSTUFFS.

FRIDAY, March 11, 1898.

Only a very moderate volume of business has been trans-acted in the market for wheat flour. The demand from the acted in the market for wheat flour. The demand from the home trade has been almost exclusively of a hand-to-mouth character, as jobbers have been confining their takings to only such supplies as have been needed to meet their current wants. Shippers have also been small buyers, their pur-chases having been of an unimportant nature. Mills have shown no disposition to hurry business, and values have held steady with the grain market. Rye flour has been in moderately active demand at firm prices. Buckwheat flour has sold slowly but values have held steady. Corn meal has been quiet but steady.

has sold slowly but values have held steady. Corn meal has been quiet but steady. There has been only a small speculation in the market for contracts and the changes in prices have been of an unimport-ant nature, as the influence of the home political develop-ments have been offset by the Anglo-Russian-Chinese situa-tion. Saturday there was a quiet, steady market. Monday there was slightly easier turn to values early in the day, the result of uneasiness shown over the Spanish American rela-tions. Subsequently, however, developments in the Far East turned the market steady. Tuesday there was a firmer market, foreign advices were stronger, and this, together with the political situation in the Far East and unfavorable prospects for the growing "rop were the strengthening features. Wednesday prices again made a fractional advance on very moderate trading; a more active export demand was the principal bullish feature of the mar-ket. Thursday there was a quiet and easier market, in re-

sponse to weaker foreign advices. To-lay prices broke badly, showing a decline of  $1\frac{1}{3}$ @1 $\frac{3}{4}$ c. in response to weaker ad-vices from the West, where aggressive selling by a prominent operator depressed prices. The export business has been moderately active for the week. To-day there was a limited amount of business transacted, the sales here and at out-ports amounting to 64,000 bushels No. 2 red winter at \$1 05 $\frac{7}{8}$ f. o. b. afloat.

#### THE DRY GOODS TRADE.

#### NEW YORK, FRIDAY, P. M., March 11, 1898.

There have been no material developments in the market this week. The demand at first hands has again been quiet. and there is some disposition to attribute this to the continued uneasiness regarding the relations between the United States and Spain, but as the jobbing trade all over the country is reported good, and its results for the season much ahead of recent springs, it would hardly seem as though "war talk" was recent springs, it would hardly seem as though "war talk" was exercising any powerful general influence. It may possibly be preventing some branching out, however, on forward business. The tone of the primary market continues steady, and prices have not weakened here. In print cloths there has, however, been an easier market, and although Fall River makes no charge in quotations, there has been a decline of 1-16c. elsewhere, bringing them back to the previous lowest point from which they moved up in January. This may have an adverse effect on other prices within the next week or two, but sellers do not so far show any disposition to press other staple lines of cottons upon buyers. The woolen goods business continues unsatisfactory in all lines of men's-wear fabrics. fabrics.

fabrics. WOOLEN GOODS.—There has been a limited attendance of buyers in the market this week and salesmen on the road have sold indifferently. The general demand has thus been light, and smaller than had been counted upon. The volume of business actually doing is further practically offset by the cancellations of previous orders which are still coming to hand in men's-wear light fabrics. The tone of the market shows increasing uncertainty in heavy-weights, and irregu-larity in prices becomes a more conspicuous feature in both staple and fancy goods. Cotton-warp and cotton-mixed fabrics are quiet. Overcoatings have been in limited request

ized for FRASER

100

and cloakings dull, with an occasional te dency in buyers favor. Fall dress goods have been in fair demand, with more doing in fancy lines. Flannels have ruled quiet but firm. Blankets also firm but demand moderate.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending March 7 were 6 574 packages, valued at \$247,025, their destination being to the points specified in the tables below :

		1898.		1897.
NEW YORK TO MAR. 7.	Week.	Since Jan. 1.	Week.	Since Jan. 1

year are as follows:

\* From New England mill points direct. The value of the New York exports for the year to date-has been \$2,065,607 in 1893 against \$1,919,428 in 1897. The market for heavy-weight brown sheetings and drills remains steady in price, as agents are, as a rule, able to take care of stocks on hand, although current demand is quiet on both home and export account. Light-weight brown and grey goods have a tendency to favor buyers. Brown osnaburgs and ducks quiet and featureless. Wide sheetings firm but quiet. Fair orders reported for cotton flannels for the new season, but some irregularity in prices, cotton blankets sell-ing well and firm. Bleached cottons in quiet but steady de-mand, the finer grades steady in price but low qualities rather easier in tendency. Denims quietly steady; ticks in moderate request; and other coarse colored cottons quiet at previous prices. Kid-finished cambrics dull and unchanged. Prints in fair re-order demand for general assortments; prices unchanged. Ginghams in good condition and firm through-out. Print cloths have been sold at 2½c. for extras at Provi-dence, but no sales at Fall River except in odd goods, and demand for these indifferent. dence, but no sales at Fall E demand for these indifferent.

FOREIGN DRY GOODS.— Seasonable business has been irreg-ular and without special feature. Demand for dress goods-for fall has improved, but chiefly in low-priced grades. Silks very firm, with fair orders. Ribbons firm but quiet. Linens and hosiery and underwear without new feature.

### Importations and Warehouse Withdrawals of Dry Goods The importations and warehouse withdrawals of dry goods at this port for the week ending March 10, 1898, and since January 1, 1898, and for the corresponding periods of last

Americus, Ga.—Bond Issue Legal.—The Supreme Court has dissolved the injunction granted last fall restraining the city officials from issuing the \$35,000 water-works and sewer bonds voted in October. It is stated that the bonds will be offered for sale within a few days. Bozeman. Mont.—Injunction Against the Issuance of

offered for sale within a few days. **Bozeman, Mont.**—Injunction Against the Issuance of Bonds.—On February 25, 1898, Judge Armstrong allowed an injunction restraining the city from issuing the \$56,000 6% water-works bonds, the sale of which was to have taken place February 15, 1898. The bonds were to be issued for the purchase of the water-works plant, the city assuming the outstanding bonded indebtedness of the Bozeman Water-Works Company, amounting to \$102,000. The decision was made on the ground that the city, under the statute govern-ing municipal corporations, c uld not assume indebtedness of the water-works company, but could only issue bonds for the purchase of water-works, and therefore the election of Nov. 17, 1897, was of no effect.

the purchase of water-works, and therefore the election of Nov. 17, 1897, was of no effect. Clinton - Lebanon, N. J. - Annexation Bill a Law. - The Governor has signed a bill consolidating the townships of Clinton and Lebanon, situated in Hunterdon County. Douglas County, Neb. - Bonds Valid. - The State Supreme Court has declared legal the \$180,000 4½% funding bonds awarded December 1, 1897, to Farson, Leach & Co, Chicago. Lawrence, Kan. - Bond Litigation. - The long-threatened suit by the State against the city of Lawrence for the collec tion of \$100,000 in bonds issued by the city in aid of the State University was field in the District Court March 1, 1898. The tion of \$100,00° in bonds issued by the city in aid of the State University was filed in the District Court March 1, 1898. The petition on behalf of the State, it is said, covers 1,00° pages, and is the largest ever filed in that court. The amount claimed is \$143,791 and accumulated interest to the amount of \$1,971. The case will not be reached at the present term of court, but will probably be tried in May. The Kansas City "Journal" recently stated in a dispatch from Lawrence that it was proposed to make this a test case by the present State Administration as to its bearing on other school bonds held by the State. The city has paid in interest on these bonds an amount equal to the face value, when, by an act of the Legislature, the city was released from further payments, and now rests on the validity of that act and the original in validity of the bonds.

validity of the bonds. Michigan.—Special Session of the Legislature.—On March 8, 1898, Governor Pingree issued a proclamation convening the :8. Legislature in extra session March 22, 1898. The State Con-stitution requires the Legislature to provide a uniform rule of taxation, and that all assessments should be at the actual cash value of the property. The Governor claims that the spirit, if not the letter of these constitutional provisions, is being violated, laws having been passed, he charges, by which railroads express to be and telegraph companies or re-

being violated, laws having been passed, he charges, by which railroads, express, telephone and telegraph companies are re-quired to pay about one twenty-sixth of the taxes, although owning at least one-third of the property in the State. It is to correct this evil, he states, that the extra session is called. New Jersey.—Bill as to Savings Banks Investments.— Messrs. Wilson & Stephens of this city have written us call-ing attention to the fact that the bill recently passed by the State Senate, as introduced by Senator Ketcham, permits the managers of savings banks to invest in bonds of townships in the State of New Jersey as well as in those of boroughs. The following is the exact wording of the clause: "The managers of any savings bank organized under the laws of this State may invest its moneys in the bonds of any borough or town-ship of this State, issued pursuant to the authority of any law of this State." *Equal Taxation Law.*—The Legislature has passed a bill

of this State." Equal Toxation Law.—The Legislature has passed a bill which provides that the "equal taxation" law of last year shall be operative during the present year. The papers say that the "effect of this is that during this year and annually thereafter the State shall surrender to the several municipal-ities within its borders the one-half of 1% tax on second class railroad property, which since 1884 has gone into the State Treasury. The State, by this 'equal taxation' law, surrenders about \$2 0,000 a year."

Treasury. The State, by this 'equal taxation' law, surrenders about \$2 0,000 a year." New York State.—Biennial Sessions of the State Legisla-ture.—On March 3, 1898, the State Assembly passed the Sen-ate resolution providing for the submission to a vote of the

people of the Constitutional amendment providing for bien-

nial sessions of the State Legislature. Ohio.—Proposed Limiting of the Issuance of B nds.—A bill has been introduced in the State Legislature which limits the issuance of bonds by any county, township or municipality

the issuance of bonds by any county, township or municipality to 1% of the tax duplicate. Owyhee County, Idaho.—Bond Litigation.—We are ad-vised by E. L. Ballard, County Auditor, that the question re-garding the legality of the \$61 0 0 6% funding bonds maturing from 1967 to 1917 is now being considered by the State Su-preme Court, and that the bonds have not yet been delivered to the purchasers, the First National Bank of Caldwell.

Seattle, Wash .- Suit Impending Against the City Seattle, Wash.—Suit Impending Against the City of Seattle.—Preliminary action was taken by the holders of street-improvement warrants of Seattle issued from 1889 to 1892, inclusive, at a meeting held March 2, 1898, at the office of Olmstead & Taylor, 44 Broad Street, New York City, as pre-viously advertised in these columns. These warrants, amounting to \$250,000, were issued by the city for various improvements, principally for the grading and improving of its streets. It is claimed that the laws of the State of Wash-ington and the charter of Seattle provide for the levy and collection of money for the retirement of the warrants, and that said provisions have not been complied with by the city A committee composed of Mr. Alonzo Elliott, Manchester, N. A committee composed of Mr. Alonzo Elliott, Manchester, N. H.; Mr. George Olmstead of New York, and Mr. M. C. Soule of Monmouth, Ill., were appointed and authorized to take such action as may appear necessary, and to employ any means to enforce the payment of the warrants. The obliga-tions are held largely in the East.

tions are held largely in the East. Stoneville, N. C.—*Temporary Injunction.*—The Raleigh "News" on March 1, 1898, stated: "The Town Commissioners of Stoneville, through their attorney, will bring suit at the next term of the Rockingham Court to test the validity of a \$5,000 issue of bonds to the Roanoke & Southern Railroad of date January 1, 1889. The charter of the town, obtained in 1877, allows the Commissioners to levy taxes for internal improvements, streets, etc., and the plaintiffs in this action claim that they had no authority, none having been granted by the Legislature and the charter never having been amended, to levy a tax for the payment of bonds to build or aid in the construction of a railroad."

construction of a railroad." On March 5, 1898, Judge Cable granted a temporary in-junction restraining the Sheriff from levying or collecting any tax to retire these bonds.

Junction restraining the Salerin from ferving or concering any tax to retire these bonds. Superior, Wis. – Refunding Bond Order Sustained. – A dispatch to the Milwaukee "Wisconsin" from Madison, dated February 26, 1898, said: "Judge Bunn yesterday refused to grant the motion of the Endion Improvement Company in the Superior refunding case, and the original order which pro-vides for the refunding of \$250,000 of bonds will stand. This is a victory for the city, which is endeavoring to refund \$1,000 000 of indebteāness. The company also applied to be made a party to certain tax cases now pending in the Court, and this petition was also refused." Tacoma, Wash. – Petition for a Rehearing in the Tocoma Warrant Case Refused. – The following dispatch from Olymp-ia, Wash., under date of March 2, 1898, is taken from the New York "Times": "The Supreme Court to day handed down a decision denying a petition for a rehearing in the case of Bardsley vs. Sternberg, Treasurer of the city of Tacoma. This is the Tacoma city warrant case, and the Su-preme Court recently held that \$600,000 of warrants once paid by the City Treasurer and resold to innocent purchasers must

by the City Treasurer and resold to innocent purchasers must be paid. The warrants in dispute with interest now aggre-gate \$800,000, and they are held by Eastern parties. The city, it is understood, must now make provision for their pay-

Terre Haute, Ind.—Bonds Refused. - The Indianapolis News recently stated that N. W. Harris & Co., of Chicago, suc-cessful bidders for \$30,050 of street improvement bonds, have declined to take the same claiming that the bonds on the

cessful bidders for \$30,050 of street improvement bonds, have declined to take the same, claiming that the bonds are not legal because issued in a lump when separate bonds for each contemplated improvement should have been issued. **Texas.**—No Ruling As to the Gold Clause in Bonds.—In the CHRONICLE Feb. 26, 1898, we quoted a dispatch from the St. Louis "Globe-Democrat" which said that Attorney-General Crane had recently ruled that all bonds hereafter submitted to him for expressed more the mode, public in 'dawful money Crane had recently ruled that all bonds hereafter submitted to him for approval must be made payable in "lawful money of the United States" and not in "gold." This statement has been denied by Assistant Attorney-General Faller, who, ac-cording to the Houston "Post," said "that no such ruling has emanated from Mr. Crane's department." Mr. Fuller stated that neither the Beaumont nor Bexar County bonds (mentioned in the item) had as yet been presented for approval

approval. Trenton, N. J.—Bill Annexing Wilbur Now a Law.—The S'ate Legislature has passed a bill annexing the Borough of Wilbur to the city of Trenton, and the bill has been signed by the Governor.

the Governer. Van Wert County, Ohio.—Bonds Illegal.—On March 7, 1898, Judge W. T. Mooney of the Van Wert Coun'y Common Pleas Court has made perpetual the injunction restraining the Auditor, Treasurer and Pike Commissioners from collect-ing the pike tax in this precinct. The proceedings leading to the issue of bonds was found to be irregular. A majority of the land owners of the precinct should have signed the original petition, but it was discovered upon trial of the cases that the number of signers was less than that required by law. This decision, it is stated, invalidates bonds to the amount of \$30,00) which were purchased by Lamprecht Bros. of

Cleveland. An appeal has been taken to the Circuit Court, which convenes at Van Wert March 22. Virginia.—Constitutional Convention Bill Failed.—The Senate passed a bill some time ago providing for the sub-mission to a vote of the people of the question of holding a convention to revise the Constitution. The House amended the bill so as to have the question voted on at the fall elec-tion in 1899 instead of the spring election of that year. The Senate refused to concur, and a conference committee was unable to agree. The result was that the bill failed.

#### Bond Calls and Redemptions.

Bandera County, Texas.—Bonds Redeemed.—The county recently redeemed \$1,000 court-house bonds. Brazos County, Texas.—Bonds Redeemed.—On March 5, 1898, the county redeemed \$5,200 bridge bonds held by the State School Fund.

Following are the descriptions of the bonds:

Following are the descriptions of the bonds:
\$1,300 Maple Street sewer bonds, maturing \$300 in one year, \$500 in two and \$500 in three years.
300 North Valley sewer bonds, maturing \$100 yearly.
1,000 High Street sewer bonds, maturing \$300 in one and two years and \$400 in three years.
2,800 Oakdale Avenue improvement bonds, maturing \$500 yearly from one to four years and \$400 in five years.
900 Kling Street sewer bonds, maturing \$300 in one year and \$500 in two and three years.
1,200 High Street sewer bonds, maturing \$200 in one year and \$500 in two and three years, respectively.
1,900 Market Street sewer bonds, maturing \$500 in one and two years and \$900 in three years.
1,600 North Valley street improvement bonds, maturing \$300 in one and two years and \$900 in three years.
1,600 North Valley street improvement bonds, maturing \$300 yearly from one to four years and \$600 in five years.
1,600 North Valley street improvement bonds, maturing \$300 yearly from one to four years and \$600 in two three years.

Andover, Mass.—Bonds Voted.—On March 7, 1898, the town voted to issue \$30,000 sewer-construction bonds. Atlanta, Ga.—Bond Election Postponed.—The election to vote on the question of issuing \$200,000 water bonds called for April 6, 1898, has been postponed to April 21, 1898, the date of the county primary. Baltimore, Md.—Bond Sale.—The City Finance Commis-sion has accepted the offer of  $106\frac{1}{2}$  made by the Maryland Casualty Co. for \$50,000 1945 loan and \$50,000 of the public improvement 1940 loan. This, it is stated, is the highest price ever paid for city stock. The money secured will be devoted to payments upon the new court-house and water supply system.

devoted to payments upon the new court-house and water supply system. Bexar County, Texas.—Bonds Proposed.—The County Commissioners have under consideration the refunding of \$240,000 8% subsidy bonds. It is stated that several offers have been received for the new bonds. Berkeley, Cal.—Bond Election.—It is reported that an election will be held March 26, 1898, to vote on the question of issuing \$60,000 school-house bonds. Bismarck (N. Dak.) School District.—Bond Sale.—The State Board of University and School Lands has taken for the School Fund \$25,000 4% refunding bonds of this district. Brookhaven, Miss.—Bond Sale.—Local press reports state that on March 1, 1898, the city sold \$5,000 20-year water-works and electric-light bonds. Brooklaven (Town) Conn — Bond Offering —Proposals will

Brooklyn (Town), Conn.-Bond Offering.-Proposals will be received until 3 P. M. March 26, 1898, by Henry H. Davison, Town Treasurer, for \$28,000 4% funding bonds. Securities will be in denominations of \$1,000, dated May 1, 1898, and mature \$3,000 May 1, 1903; \$5,000 May 1, 1908; \$5,000 May 1, 1913; \$5,000 May 1, 1918; \$5,000 May 1, 1923, and \$5,000 May 1, 1928. Interest will be payable May 1 and November 1. Bonds are issued for the purpose of funding the floating indebtedness, which on February 1, 1898, was \$30,500, but which will be reduced by about \$2,000 from the proceeds of a tax levied for this purpose. The town has no other indebtedness. The total valuation in 1897 was \$1,258,597.

The official notice of this bond offering will be found among the advertisements elsewhere in this Department.

Buffalo, N. Y.—Bond Offering.—Proposals will be received until 12 M. March 16, 1898, by Erastus C. Knight, Comptroller, for \$89,136 86 31/2% grade-crossing bonds. Securities are as follows:

follows: \$27,722 05 3% registered bonds, dated February 15, 1895, and maturing Feb-ruary 15, 1918. Interest will be payable February 15 and August 15. 10,697 44 3% registered bonds, dated March 1, 1898, and maturing March 1, 1918. Interest will be payable March 1 and September 1. 50,717 37 3% registered bonds, dated March 1, 1898, and maturing March 1, 1919. Interest will be payable March 1 and September 1. Interest on the above bonds will be payable at the Comp-troller's office or at the Gallatin National Bank, New York City. These bonds are issued pursuant with acts of the Legis-lature and duly authorized by ordinances. A certified check for 2% of the amount of bonds bid for, payable to the Comp-troller without conditions, must accompany bids. Bonds Authorized.—Mayor Diehl has approved the bill au-thorizing the issuance of \$500,000 water-works extension bonds. 1913. St. Cloud, Minn.—Bond Election.—An election will be held to vote on the question of issuing \$25,000 school house bonds. Salem Depot, N. H.—Bond Meeting.—The question of bor-rowing \$50,000 for rcad improvements will be decided at a town meeting to be held shortly. Salem, Ohio.—Bond Sale —Following are the bids received March 8, 1898, for the \$2,900 6% sewer bonds: Seasongood. Mayer & Co., Cln. \$3,131 75 W.J. Hayes & Sons, Cleve..... 3,107 00 The Lamprecht Bros.Co., Clev. 3,041 89 Parda will be avageded to Saccaparced & Mayer, Cinemati

The Lamprecht Bros.Co., Clev. 3,041 89 Bonds will be awarded to Seasongood & Mayer, Cincinnati, at their bid of 107.96. They will mature \$290 yearly on April 1 from 1899 to 1908, inclusive. For further description of bonds see CHRONICLE March 5, 1898, p. 486. San Rafael (Cal.) School District.—Bond Election.—An election will be held March 26, 1893, to vote on the question of issuing \$15,000 high-school bonds. South Hadley Falls (Mass.) Fire District.—Bonds Au-thorized and Scid.—At a meeting of the district held March 5, 1898, the Treasurer was authorized to borrow \$10,000 for

therized and Sold.—At a meeting of the district held March 5, 1898, the Treasurer was authorized to borrow \$10,000 for ten years at 4% interest. The Treasurer was also authorized to borrow \$20,000 for thirty years at 4% for the purpose of re-funding a loan maturing April 30, 1898. The bonds have been sold to E. H. Gay & Co., Boston. Syracuse, N. Y.—Temporary Loan.—The city has negoti-ated a loan of \$100,000 with the Onondaga County Savings Bank, Syracuse, at 3.65%. Loan matures Nov. 15, 1898.

Terre Haute (Ind.) School District.—Bonds Proposed.— The School Board has under consideration the issuance of \$50,000 bonds. The Finance Committee recently decided to The School Board has three committee recently decided to \$50,000 bonds. The Finance Committee recently decided to refer to legal authority the question whether such bonds would be considered a municipal obligation, inasmuch as the present city indebtedness is within \$10,(00 of the debt limit as fixed by law, which would prevent the issuance of the

542

Terrell, Texas.—Bond Offering.—Proposals will be re-ceived until March 25, 1898, for \$12,000 5% 40-year water-works bonds. Securities are in denominations of \$1,000, dated April 1, 1898. Interest will be payable April 1 and October 1 at the Seaboard National Bank, New York City.

Toledo (Ohio) School District.—Bond Sale.—On March 7, 1898, the \$90,000 bonds were awarded to Mason, Lewis & Co., Chicago, at 106.08 for 4 per cents. Bonds mature \$45,000 March 7, 1923, and \$45,000 March 7, 1928. For further de-scription of bonds see CHRONICLE January 29, 1898, p. 252.

Tucker County, W. Va.—Bond Election.—An election will be held on March 29, 1898, to vote on the question of issuing \$30,000 court-house bonds.

#30,000 court-house bonds.
Tucson—Prescott, Ariz.—Territorial Bill Permitting Bond Issues.—The bill recently signed by the President allowing cities of over 1,000 population within the territories to issue bonds for public improvements was pushed especially, it is stated, in the interest of Tucson and Prescott, Ariz., which cities will immediately take advantage of the provisions of the bill, and call bond-issue elections. Both wish to install sewer systems and adequate municipal water works.
Wayne, Neb.—Bonds Proposed.—The question of calling an election to vote on the proposition to issue \$6,000 electric-light plant bonds is under discussion.
Wellesley, Mass.—Temporary Loan.—The Treasurer has negotiated an eight months' loan of \$10,000 with Bond & Goodwin at 3<sup>19</sup>% discount.
West Orange, N. J.—Bond Sale.—On March 8, 1898, the \$50,000 4% gold bonds were awarded to the Franklin Savings institution of Newark at 102. Following are the bids:

Bonds mature \$5,000 yearly on April 1 from 1913 to 1922

inclusive. For further particulars see CHRONICLE of last week, p. 487. Wilbarger County, Tex.—Bonds Registered.—On March 1, 1898, the Comptroller registered \$33,000 county refunding

bonds

bonds. Williamsport, Pa.—Bonds Defeated.—At a meeting of the Common Council held recently an ordinance providing for the issuance of \$25,000 bonds for the improvement of Grafius run was defeated.
