

THE FINANCIAL SITUATION.

A peaceful termination of our negotiations with Spain has become daily less promising, until as the week closes a state of war actually exists. The demand made under the resolutions which were passed by the two Houses of Congress on Tuesday, and signed by the President on Wednesday, admitted of no answer except the one received, since the only alternative offered Spain was to fight or give up Cuba. Moreover the resolutions abandoned all reasons previously stated for our action and substituted a declaration having in it the aroma of gunpowder, containing an abstract statement as to the inherent rights of Cubans and breathing throughout the spirit of the Monroe Doctrine. To be sure there was a sort of preamble attached, but the body of the document wholly ignored it by going outside of the grievances it alluded to, and fixing upon this new, and in these proceedings heretofore unexpressed situation, as the cause of offense,-the real animus for a war. In the opening section was the basic idea and the other propositions followed as a direct sequence.

It stated-"First, that the people of the Island of Cuba are and of right ought to be free and independent." "Second, that it is the duty of the United States to demand, and the Government of the United States does hereby demand, that the Government of Spain at once relinquish its authority and government in the island of Cuba and withdraw its land and naval forces from Cuba," &c. Third, that the United States call into use its entire naval and land forces to compel this relinquishment and withdrawal. We submit that it would hardly be possible to prepare a more offensive document or more peremptorily to close all negotiations. It worked, as we assume it was intended to work, expeditiously and effectually. And yet is there any one of us who would not now feel a little more comfortable had the framers of the resolutions left them in the form the House first adopted; or at least if they had not compelled service on Spain of so bald and forceful a notice to quit, but had used some little diplomatic drapery to hide the rougher features of the summons?

What is likely to be the effect of hostilities on our industries, becomes in turn the engrossing question. Barring mishaps, some recovery ought soon to be in progress. There can be no mishaps unless the boastful spirit and belief in speedy results, which has been the teaching of our war press, should pervade naval circles as well, and lead to undue haste or lack of proper caution. Assuming that the progress of events in military and also in Congressional circles is such as to tend to increase confidence, the recovery of business activity cannot be doubted. The state of the money market has caused some anxiety, but we look for early relief in that direction. Many departments of trade have suffered such a decided stoppage in transactions and likewise in collections that to help merchants who required help has been the concern of our banks.

There have been several conferences during the week among members of the Clearing House Committee of the Clearing House Association for the purpose of considering the financial situation and the requirements of the commercial community. These conferences have shown that as a rule merchants are, at the moment, obtaining from their respective banks all the accommodation they need. But the

many cases that we hear reports of extensive cancellations of orders as well as small spot sales and tardy collections. Hence it is felt that the spring requirements for money will be earlier and more urgent than usual; and it has been to anticipate and to be prepared to meet these which has led to the conferences referred to. Our larger institutions now feel assured that ample funds are available to extend liberal accommodations to all their patrons, and this is now being done at 6 per cent, and that there is no sufficient reason for any action of the Clearing House Association.

Brokers in commercial paper look for a liberal supplv in the immediate future as the result of mercantile requirements above noted. The only demand which now exists for such paper is from banks in the interior, not alone in near-by cities, but almost everywhere throughout the country. These banks have withdrawn their balances from New York, apprehending trouble ; they cannot affo d to keep their money idle, and therefore they resort to this market through their correspondents or through brokers, and make fairly liberal purchases of the best names offering. No paper is, however, sold below six per cent, and much of it commands a higher rate. This out-of-town buying of paper does not materially relieve the situation so far as the merchants are concerned; it simply enlarges the market for paper without causing The bank statement any reduction in rates. of last week showed a further falling off in loans, legal tenders and deposits. The loans were contracted by \$7,697,900, making a loss of \$66,-829,800 since February 19, a contraction largely due to liquidation on sterling collateral. Specie was increased \$4,554,400, while legal tenders were reduced \$3,824,200, and therefore there was a gain of \$730,200 in cash. Deposits were reduced \$6,317,-600, a loss of \$75,164,500 since February 19. The surplus reserve was increased \$2,309,600, to the highest point of the year. Under normal conditions this reserve would be ample for all the requirements of the market; and as the movement of cash to the interior has already lessened, and is likely soon to cease entirely if affairs move along smoothly, there seems to be no present reason for the long continuance of a close money market.

The Anti-Trust Law passed by the legislature of 1897 has received another set-back this week. An impression has prevailed that because the decision of the Court of Appeals handed down on Tuesday last dismissed the appeal on a question of practice, that therefore the Court's action does not affect or concern the enforcement of the law. That view of the case is quite far from the truth; the decision leaves the law in such a condition that it cannot be used as the authorities attempted to use it in this case against the coal railroad companies. It will be remembered that the petition which is now held to be insufficient was made in a fishing proceeding to obtain evidence of the existence and purposes of a trust claimed to have been formed by the coal roads. The object was two-fold-first to vex and trouble the officers and management of companies by taking their time in requiring their presence at a public examination not conducted under the rules which restrict evidence in courts of law, and therefore not confined to matters material to the proceeding; and, second to display zeal and gain notoriety in the prosecution of men resuspension of business has been so extreme in puted to be wealthy, and of corporations charged with combining to oppress the poor, and thereby help make the party engaged in this work popular with the masses. The petition in this case charged that the railroads named entered into a certain illegal contract, arrangement, agreement or combination limiting the product of anthracite coal; that the presidents of said roads have knowledge as to such illegal contract; that the petitioner is desirous of examining such persons under oath for the purpose of determining whether an action should be commenced. These allegations were all stated on information and Now it seems that the Courts hold belief. under Section 5 of the Trust Act that this kind of a petition is insufficient. That section provides that if it appears to the satisfaction of the Court that such order is necessary, then such order shall be granted. Judge Merwin said that "the opinion and desire of the petitioner is not enough;" that the Justice must have facts, not opinions, before he can act, and no facts are given. As no such facts can be proved and no such petition can be sworn to except on rumor and belief, the execution of this fishing provision of the law is no longer feasible.

The war with Spain is such an all-controlling influence that other events seem insignificant alongside of it. Yet it is not well to ignore as bearing upon the condition of the railroads that rates are becoming steadily more demoralized. This week reports have been received from Chicago saying that eastbound rates to the seaboard had gone all to pieces, that the Joint Traffic Association was no longer able to exert any control over the situation, and that grain all-rail was being taken at 10@12 cents per 100 lbs. to New York. It was added that these were the lowest figures in years, if not the lowest on record. It is impossible that there should be any profit in moving freight at such prices. Let any one make a calculation and he will find that a rate of 10 cents per hundred pounds is equal to only about onefifth of a cent per ton per mile. The special cause for the further break in rates appears to have been the fear that the United States Supreme Court will declare the Joint Traffic Association illegal, as it did a year ago the Trans-Missouri Freight Association. The case is now before the Court, and rumors have had it that an early decision would be rendered-that indeed the Court's opinion might be expected any week now. These rumors appear to have been based on mere surmise, but there can be no doubt that nearly all the traffic associations have lost their influence since the Supreme Court decision of last year. Evidence of this is furnished in the fact that west of Chicago the situation is as bad as east of that point. It was announced on Thursday that one of the Western roads was going to make another reduction in the rate for packing-house products from the Missouri River to Chicago, reducing it to only 10 cents per 100 lbs., or $13\frac{1}{2}$ cents less than the old rate, and that under this tariff the packers would be able to ship to New York for 23 cents per 100 lbs., or 30 cents less than the old tariff. Hitherto the roads have had as a counterpoise to the low rates the certainty of a greatly increased traffic arising out of the revival in business, but the outbreak of hostilities with Spain takes away this prop. It behooves Congress therefore to furnish the needful relief by giving authority to make agreements for the maintenance of rates. With a foreign war on the country's hands, it would be the height of | part some activity. Long sterling was easier in

folly to keep any of our industries in a crippled state -most of all the greatest in the country.

Money on call, representing bankers' balances, has been somewhat easier this week, mainly because of the restricted business on the Stock Exchange, and also fo the reason that lenders of money are confining their offerings to this branch of the market. Loans were at $3\frac{1}{2}$ and at 2 per cent on Monday; at 3 and at 2 per cent on Tuesday; at 3 and at $1\frac{1}{2}$ per cent on Wednesday; at 3 and at 2 per cent on Thursday, and at 3 and at $1\frac{1}{2}$ per cent on Friday. The average for the week has been about 3 per cent. Banks and trust companies quote 4 per cent as the minimum. The business in time loans is extremely limited, and the only transactions noted are for long periods, for which there appears to be a small inquiry. Rates are 6 per cent for all dates. The business in commercial paper is confined to the interior, scarcely any of the city institutions being in the market, for all the banks find full employment for their money in discounting for their customers. Rates are 6 per cent for sixty to ninety day endorsed bills receivable, 6@7 per cent for prime and 7@9 per cent for good four to six months' single names. A few only of the larger banks are fairly well supplied with currency, and the majority of the institutions are deficient in this respect. Last week's bank statement showed an average of \$4,537,-900 in the Fourth National, \$3,280,700 in the City, \$2,782,000 in the Park, \$3,329,000 in the Chase, \$2,-836,300 in the Western, \$2,453,800 in the Hanover, \$2,302,000 in the American Exchange, \$2,046,100 in the Chemical, \$2,163,000 in the Manhattan, \$3,390,-000 in the New York, and \$11,106,500 in eight of the other large banks. The movement of money to the interior continues, but not on so large a scale; in many cases gold is shipped instead of currency.

The Hispano American crisis has had a disturbing influence upon the London and Continental markets this week, and on Wednesday and Thursday there was a sharp fall in Spanish 4 per cents to the lowest point yet recorded. Consols were affected by dearer money and American securities were unsettled. There was some apprehension on Thursday of trouble at Paris at the next settlement in consequence of the fall in Spanish 4s, the transactions in which have been The Bank of England minimum rate very large. of discount remains unchanged at 4 per cent. The cable reports discounts of sixty to ninety day bank bills in London at 4 per cent. The open market rate at Paris is 2 per cent, and at Berlin and Frankfort it is 34 per cent. London, According to our special cable from the Bank of England gained £833,610 bullion during the week and held £30,270,078 at the close of the week. Our correspondent further advises us that the gain was due to the import of £599,000 (of which £236,000 were from Germanv, £200,000 were from Egypt, £101,000 were from Australia, £32,000 were from France and £30,000 were from Austria), to receipts from the interior of Great Britain of £335,000 net and to the export of £100,000, of which £75,000 were to New York and £25,000 to Montreal.

The foreign exchange market was dull and without special feature until Thursday, influenced by suspense regarding the outcome of the Hispano-American complications; then the signing of the intervention resolution by the President and the sending of the ultimatum to Spain seemed to im-

consequence of dearer discounts in London, while short sterling was firmer because of selling of securities for European account, and the market was irregular thereafter. The large movement of wheat from Chicago via New York and other Atlantic ports probably will not be reflected in the exchange market until the grain is loaded, but berth room is comparatively scarce, and therefore the loading will be delayed. There are some inland bills against the wheat sold by Mr. Leiter already on the market. The export movement of cotton is also likely to be large as soon as berth room can be secured, and the indications point to lower exchange as the result of this movement of cotton and grain. Gold engagements continue, though the amount reported this week is comparatively small. The foreign open markets have only a light supply of the metal. It is held at high figures and only moderate sums can be secured. The engagements of gold in Europe on Monday were \$2,375,000, on Tuesday \$50,000, on Wednesday \$425,000, on Thursday \$1,275,000 and on Friday none. Total for the week, \$4,125,000; previously reported, \$54,435,000; making \$58,560,000 since the beginning of the movement. The arrivals during the week have been \$4,952,262, making a total thus far of \$46,316,627, leaving \$12,243,373 in transit.

Nominal rates for exchange have remained at $4.80\frac{1}{2}$ @ 4 81 for sixty day and 4 84@4 841 for sight. The market opened dull and steady on Monday at unchanged rates for actual business, compared with Friday of last week, these rates being 4 793/@4 80 for long, $4\ 83\frac{1}{4}@4\ 83\frac{1}{2}$ for short and $4\ 84@4\ 84\frac{1}{4}$ for cables transfers. There was no change until Thursday, when the market became irregular, with a fall of onequarter of a cent in long sterling to 4 791/@4 791, and a rise of one-quarter of a cent in short sterling and cable transfers to $4.83\frac{1}{2}@4.83\frac{3}{4}$ for the former and 4 84 $\frac{1}{4}$ @4 84 $\frac{1}{2}$ for the latter. On Friday there was an advance of one-quarter of a cent all around to 4.793@ 4 80 for long, 4 833 @4 84 for short and 4 841 @4 843 for cable transfers. The market was steady for long and firm for short and cables. The following shows daily posted rates for exchange by some of the leading drawers.

THE WAR WITH SPAIN.

The war with Spain, which appears already to have broken out in spite of the absence of a formal declaration of hostilities, may be described as in one sense a logical culmination of a series of incidents pointing successively in the same direction, and each in its turn adding emphasis to the sentiment which makes war possible. In describing war as a logical culmination, we do not, however, wish to be understood as meaning that such events made war unavoidable. On the contrary, we believe that the original and genuine causes for an international breach were never nearer to a final and satisfactory settlement than on the day when Congress adopted the resolutions making settlement impossible. That, however, is nothing new in the history of war; what we are undertaking now is to judge this impending Spanish war as we judge the wars of former generations-as this conflict will be judged by future history. To that tribunal, from whose verdict there is no appeal, and whose decision has more to do with the destinies of nations than all the "joint communications" of the Powers, or the letters of enthusiastic constituents, or the declarations of the press, it is our business to see that our case is decently submitted.

As we have suggested, we do not think that future history will find trouble in discovering how and why this war occurred. There is some comfort in the reflection that the conflict can never be called the outcome of personal ambition, like the Napoleonic wars; of political intrigue, like our own war with Mexico half a century ago; or of whim and passion, like the Franco-Prussian war. Sixteen months ago, after a thorough and conservative review of the state of things in Cuba, President Cleveland plainly stated that this country might, through the course of events, "be drawn into such an unusual and unprecedented condition as will fix a limit to our patient waiting for Spain to end the contest," and that " when the inability of Spain to deal successfully with the insurrection has become manifest, * * * a situation will be presented in which our obligations to the sovereignty of Spain will be superseded by higher obligations which we can hardly hesitate to recognize and discharge." One year later President McKinley, in his message of December 6 1897, declared with equal plainness, laying the same declaration before the Spanish Cabinet through our Minister, "that we

could be required to wait only a reasonable time for resolution. It would have been more gratifying if the the mother country to establish its authority and re- House had not yielded to the Senate's irrational destore peace and order within the borders of the island; that we could not contemplate an indefinite period for the accomplishment of this result."

The insurrection was not suppressed. Whether it might under ordinary circumstances have been brought to an end, as the Sagasta Government had hoped, through the larger concessions of home rule in Cuba, will always remain a matter of controversy. At the very moment when this question hung in the balance, two of the most extraordinary incidents in the history of nations-the publication of Señor De Lome's indiscreet letter, on February 9, followed only six days afterward by the Maine's explosion in Havana harbor -introduced that element which has repeatedly, in the history of nations, broken through the barriers of civilized diplomacy and forced a government into war whether it wished or not. Our case, then, is not singular in history; the event is not, speaking by precedent, at all illogical. War has occurred, as wars occur in nine cases out of ten, partly through accident, partly through the mistakes of public men, chiefly through the failure of two nations to understand the motives and sentiments of one another. Nor is the series of events discreditable to our country's honor. Disheartening as some of the influences making for war have unquestionably been, there are at least two chapters in the episode which we and our children may remember with some sort of pride-the self-restraint of our people as a whole during the first shock of the Havana news of February 15, and the very high qualities exhibited by our Administration under most trying circumstances, before and after the Maine disaster and up to the moment of the breach with Spain.

It is, however, of the highest consequence that the cause for war, or for the action necessarily involving war, should be clearly, honestly and forcibly stated before the beginning of hostilities. It is equally necessary that the purpose of the projected war should be unmistakably set forth, and since under our Constitution the war-making power rests with the legislative body, responsibility for the proper performance of this double task necessarily lies with Congress. Considering the character of the past week's struggle over the intervention resolution (which all have accepted as in effect an act of war), it is not perhaps surprising that the manifesto should be far from per-The Senate, following, as it has done with fect. lamentable frequency in the last few years, the leadership of hot-heads and professional agitators, had snapped its fingers at the advice of the President, of Consul-General Lee, and of all competent publicists, and had insisted on a resolution recognizing the peripatetic insurgent Cabinet as the lawful Government of Cuba. The House, with an organized party majority and with a proper sense of the dangers threatened by a breach at this moment between the President and Congress, had followed Mr. McKinley's will and merely authorized the Executive to intervene in Cuba in [behalf of peace. The stubborn determination with which each House held to its own position eventually forced a compromise resolution which is open to serious criticism, as legislative compromises usually are. But this was perhaps inevitable. We could have wished that the President's own clear statement, or a summary of it, might have been used in place of the involved and awkward preamble to the compromise the Cuban insurgents' orders, the surrender of Cuba

mand for a formal declaration that the people of Cuba not only "of right ought to be," but "are, free and independent." To say that these people are to-day, and were when the resolution was debated, indepenent of Spanish sovereignty, is to make an affirmation not borne out by the truth of the situation. Such defects are greatly to be regretted; certainly not the less so since contemporary foreign observers, and the future generations of America itself, must judge this Spanish war by precisely these declarations.

Nor can the honest student of the situation overlook the fact that the Senate resolution, as finally adopted by both houses, completely fails to state the true diplomatic cause of intervention. To this criticism the original House of Representatives resolution was not open. 'That document had plainly and correctly affirmed in its preamble, adopted Wednesday, April 13, that "the Government of Spain for three years past has been waging war on the Island of Cuba against a revolution by the inhabitants thereof," that the war has continued "without making any substantial progress towards the suppression of said revolution," that its methods have resulted in "causing the death by starvation of more than 200,000 innocent non-combatants," and in "inflicting intolerable injury to the commercial interests of the United States." This is a sober and statesmanlike recital of the diplomatic justification for our action. But in place of that paragraph, the Senate resolution substitutes a bald and (it must be confessed) very brutal declaration that "the abhorrent conditions" in Cuba "have shocked the moral sense of the people of the United States, have been a disgrace to Christian civilization, * * * and cannot be longer endured." It is this preamble, angry in its tone, confused in its English, and unsustained by any diplomatic review of facts, which has so unfavorably impressed even our friends in foreign nations that the quite universal comment of their press is that Congress had launched a rude and superfluous insult at the Spanish Government in advance even of declaring war. We cannot help feeling that the strange contrast so often shown in this decade's legislation between a conservative House of Representatives and an ill-advised and headstrong Senate is powerfully emphasized by this Cuban episode. Certainly it would seem to the ordinary observer that if the solemn duty of declaring war will not bring back its old-time calmness and dignity, the Senate is incorrigible.

These weaknesses in the epoch-making joint resolution of last Tuesday we have pointed out thus frankly because we think it of the first importance that their real origin should be understood, and that it should also be remembered that the President's. express wish and the original House resolution were of a character worthy of a great occasion. As against this peculiarly unfortunate handiwork of the Upper House must be placed two elements in the declaration which are legitimately reassuring. The reckless announcement in the Senate's original resolution that "the Government of the United States hereby recognizes the Republic of Cuba as the true and lawful Government of that island," has been positively repudiated. People are beginning now to understand what such recognition would have meant, involving logically the subjection of our intervening forces to to their irresponsible will, and in fact repudiating wholly the theory of humanitarian intervention on which the Administration from the first has fixed attention. That such a blind and crazy leap into unknown consequences has been prevented is a cause for gratitule.

Not less so, in our judgment, is the last paragraph of the joint resolution, which was separately approved, even on its first proposal in the Senate, without a dissenting vote, declaring "that the United States hereby disclaims any disposition or intention to exercise sovereignty, jurisdiction, or control over said island, except for the pacification thereof, and asserts its determination when that is accomplished to leave the government and control of the island to its people." No dread or misgiving has prevailed more strongly in the minds of conservative citizens than that arising from the not unreasonable suspicion that some of the leading agitators secretly proposed to bring in this degenerate and ill-civilized island community as a sovereign State in the Union. What the future will bring forth, as regards the condition, pacification and government of Cuba, is the darkest sort of mystery. As we said last week, we are ourselves wholly unable to discern the outcome. But with a positive pledge on record, made under the most solemn circumstances to ourselves, to Spain, to Cuba, and to the world at large, that we shall not contemplate the idea of annexation, there is at least one spot of firm ground on which to stand. Hot-headed Congressmen may look upon international law, in Senator Mason's words, as harsh and cruel, as something which this nation may violate at will. But we entertain the hope that even the rashest of such statesmen will respect the formal word of honor of the United States. This is not only a reassurance to those who shrink from the absorption of an alien and mongrel State into our government, but it relieves us from the base imputation of provoking needless war for purposes of conquest or ambition. The one war episode in our history which the lover of his country's honor passes over with a sense of shame has been judged and condemned because it was inspired by precisely such motives. The Spanish war of 1898 will at least not repeat this phase of the Mexican war of 1846.

As for the practical considerations now involved in the war situation, it will probably be agreed that the advantages are so overwhelmingly on the side of the United States that the contest ought not to be protracted. The Spanish people, it is true, as this week's Madrid dispatches plainly show, are roused to the highest pitch of patriotism and enthusiasm, which was indeed to be expected, since from their point of view their fight is against aggression and invasion and for national existence. But popular enthusiasm can not well counterbalance physical weakness and financial poverty in the case of a costly modern war. contest, in any case, is most unequal, The a fact which ought, we think, in deference to American self-respect, to check in some degree the usual tendency of the people of a belligerent State to brag and bluster. Were the odds less heavy on our side, the popular demand for an instant attack by fleet and army, and the popular confidence in a quick and easy victory, might lead to sure disaster. It is conceivable, even now, that a too rash step may bring about some disaster in the as yet untried contest of modern battleships. The Administration, how-

ever, is showing a caution displayed by neither Congress, press nor people. If the President and his advisers can stand firm in the face of the clamor for hasty action which will undoubtedly arise next week, we may rest assured that there will at least happen no Bull Run and no Detroit to prove our folly. The l ssons of 1861 and 1812 ought to have been learned by our military men if by no others.

One other reassuring factor in the situation is the fact that our financial institutions have had both opportunity and ability to prepare themselves against the shock of war. Thanks to our powerful situation in international trade, our New York banks alone have been able since early in February to spare from their cash reserves very many millions of legal tenders, besides some gold, for interior institutions, replacing such remittances in part by a net increase of \$33,000,-000 in specie brought from Europe. The banks have been able within the same period to curtail their loans some \$67,000,000, and their liabilities \$75,000,000, without causing a panic in the money market or forcing anything more than the postponement or abandonment of business plans. This is a strong position-stronger than that of any market which we can recall on the eve of war. If Congress acts promptly in the matter of war revenue and war loans, which are certainly no less a prime essential in a modern conflict than are troops and battleships, it may be that the more serious financial misgivings of the last few weeks will not be realized.

THE COTTON-MANUFACTURING INDUSTRY IN MASSACHUSETTS.

The Bureau of Statistics of Labor of Massachusetts has issued an instructive pamphlet with reference to the cotton-manufacturing industry in that important commonwealth. The inquiry into the subject has been pursued with intelligence and skill, and the report contains a large mass of valuable statistics, arranged in such a way as to make them easy of comprehension and bring out their salient characteristics. This study of the subject has peculiar interest now in view of the depressed condition of the cotton manufacturing industry all over the country, and the labor troubles to which it has given rise.

Of course no particularly new features are disclosed. as the result of the investigation. But the elaborate data collected by the Labor Bureau serve to give statistical form and expression to many facts which previously, though matter of common knowledge, could not in discussions be cited with the force and effect belonging to demonstrated results. In view of the interest attaching to the question of Southern competition, the report begins with some comparisons showing the labor cost in the two sections. For this purpose the only data available are those furnished by the United States Census. These data bring out the fact that as far as the mere rate of wages is concerned, the South undoubtedly has an advantage over New England. The Bureau takes the value of the goods made in Massachusetts in the Census year (1890), which was \$100,202,882, and from it deducts the value (\$56,492,375) of the stock used-that is, the cost of the raw materials entering into the goods; the resulting difference (\$43,710,507) represents in effect the cost of bringing the raw material to its finished form, though it also includes the item of profit to the manufacturer. The Bureau gives to the difference the designation, "Value of Industry Product."

The question which arises with reference to this "Industry Product," is how much of it is made up of the item of wages. In Massachusetts, it appears, 57.47 per cent of the product referred to was in 1890 divided among the operatives in the form of wages. On the other hand, in the Southern States the percentage paid in wages in the same year was, as a rule, very much less. In Georgia it was only 50.90 per cent. in South Carolina 50.62 per cent and in North Carolina but 44.39 per cent. In two of the States in the Southern group. namely Tennessee and Virginia, the percentage paid in wages happened to be higher than in Massachusetts, but these are States in which the total product in 1890 was comparatively small, and in which it is probably true, the report says, that the establishments were not so effectively organized as in the others. Of course no conclusion as to profits can be drawn from the figures given. The comparisons are useful simply as showing that the item of wages forms a higher percentage of cost in Massachusetts than in the leading Southern States.

An interesting fact is brought out by going back ten years and comparing with the 1880 figures. This comparison shows that in the ten years there was a marked increase in the percentages paid in wages in both Massachusetts and the South. Thus in Massachusetts the percentage in 1880 was only 43.61, against 57.47 per cent in 1890. In Georgia there was an increase during the decade from 46.10 per cent to 50.90 per cent; in South Carolina the rise was from 35.02 to 50.62, and in North Carolina from 40.30 to 44.39. In the other Southern States the comparisons are much the same-that is, in each of them wages consumed a larger portion of the industry product in 1890 than in 1880. The gain in Massachusetts, however, was greater than in any of the others, excepting only Mississippi and South Carolina. We need hardly say it would be an error to assume that these changes represented an absolute increase in wages to the extent of the difference. Obviously, if the various other items entering into the cost of manufacturing goods were reduced, through increased efficiency and economy in the operation of the mills, as they no doubt were, the wages percentage would rise even without any increase in the pay of the employes. Again, in considering the differences between the percentages in Massachusetts and the Southern States, it should not be forgotten that the character of the goods produced is an element in the calculation. If Massachusetts turned out a finer class of goods (as it undoubtedly did), requiring a higher degree of skill on the part of the operatives, the percentage paid in labor might easily be higher on that account. Allowing for all this, however, there is obviously a marked difference in favor of the South because of the lower price of labor.

These figures are all for 1890, as already noted. A statement is given, however, making comparisons of wages in Massachusetts and North Carolina for the year 1896, this being before the recent reductions in the wages of New England operatives. It appears that the pay for skilled male labor in Massachusetts in the year mentioned was \$1.47, against only \$0.99 in North Carolina; for skilled female labor \$1.10, against \$0.66; for unskilled male \$1.20, against \$0.67; for unskilled female \$0.93, against \$0.48; for children \$0.78, against \$0.31; for machinists \$1.84, against \$1.69; for engineers \$2.83, against \$1.46, and for firemen \$1.57,

considerably higher, it will be observed, than those in North Carolina. The report points out, however, that part of this difference is to be accounted for, no doubt, by the differences in product and in skill in the two States. That is to say, while skilled men, so called, may be paid 99 cents per day in North Carolina, as against \$1.47 in Massachusetts, these figures are to be taken as typical rather than absolute, it being impossible to parallel, in any such general comparison, exactly the particular grade of work, and therefore the degree of skill, in each of the States. This qualification is said to apply to all the quotations in the table, and especially to the wages of children. These are placed at 31 cents per day in North Carolina, as against 78 cents per day in Massachusetts; but in the latter State no persons under 13 years of age are employed, and very few under 14, while in North Carolina persons of less age may be employed without restriction.

A fact not to be overlooked is that in the New England States comparatively few children are employed, while in the South, on the other hand, the children form a considerable portion of the whole. In the case of the two States just compared, the ratio of children for 1896 was only 5.77 per cent in Massachusetts, but 25.80 per cent for North Carolina. Turning again to the Census figures, so as to get more comprehensive comparisons, we find that in 1890 the percentage of children of total wage earners in Massachusetts was only 5.42 per cent. In the Southern States, on the contrary, it was in each case over twenty per cent, being 26.52 in South Carolina, 24.32 in North Carolina and 23.85 per cent in Georgia. There was compensation, however, to the Massachusetts producer in the fact that the operatives, in being so much more largely adults, were correspondingly more effic-This is evident from the fact that the ient. number of spindles per employe in Massachusetts in 1890 was 77.10, while in all the Southern States it was very much less, being only 41.23 per cent in South Carolina, 39.67 per cent in North Carolina and 43.19 per cent in Georgia. When this factor is taken into consideration, the comparison assumes a different phase. It is then found that the labor cost per spindle is actually lower in Massachusetts than in most of the Southern States-that is, in Massachusetts it is \$4 31, while in South Carolina it is \$4 54, in North Carolina \$4 37 and in Georgia \$4 86; in Virginia and Kentucky (both small producers) the amount is only \$3 97.

There are other particulars in which the Southern manufacturer is assumed to have an advantage over the Northern manufacturer. Being nearer the sources of supply, his fuel costs him less. In 1890 the percentage of cost of fuel of the value of product was in Massachusetts 1.87, against 1.13 in South Carolina, 1.05 in North Carolina and 1.17 in Georgia. But here again the larger number of spindles employed operates as an almost complete offset. On the basis of spindles the cost of fuel in the Census year was 32 cents in Massachusetts, 33 cents in South Carolina, 30 cents in North Carolina and 32 cents in Georgia. The Southern mills are also able to utilize water power to a greater extent than the Northern mills. In Massachusetts of the total of motive power of all kind employed in 1890, only 32.57 per cent was water, while in South Carolina the percentage was 57.62, in North Carolina against \$0.86. In every case the Massachusetts rates are 52.43 and in Georgia 64.57 per cent. Then there is

the fact of closer proximity to the supply of the raw material-cotton. The average cost of cotton per pound to the mills in Massachusetts in 1890 was 10.48 cents, against 10.08 cents in North Carolina, 9.75 cents in South Carolina and 9.64 cents in Georgia. But it is pointed out that it is sometimes possible for the mills in Massachusetts to avail themselves of exceptionally low freight rates by water transportation, so as to land cotton at the mill even lower than it can be delivered at mills in the interior in the South; and it is also true that establishments in Massachusetts may sometimes offset the disadvantage due to their greater distance from the cotton fields by their financial ability to purchase large amounts of cotton in advance of immediate requirements, thereby securing better terms, or to avail themselves of exceptionally low prices in the market. On the whole, the Bureau thinks that the difference on account of this item is not in itself an important factor.

Moreover, it is also pointed out that notwithstanding the advantages possessed by the South in certain elements of manufacture, if the value of material consumed and the amount paid in wages are combined and the ratio of the two to the total value of the product ascertained, the disparity between the North and the South is on the whole found to be quite small. In some cases the percentage is actually higher in the Southern States than in Massachusetts. In the latter State the combined value of stock and wages in 1890 represented 81.45 per cent of the selling price of the goods; in Georgia the percentage was 82.64; in North Carolina 80.66, and in South Carolina 84.96.

Turning now to more recent periods, the reasons for the depressed condition of affairs become clearly apparent. In this case the Bureau gives very elaborate tables showing the results in Massachusetts for each year up to and including 1897. As the same number of establishments is included for all the years, the figures possess especial value. The fact which stands out more prominently than any other is the increasing importance, both relatively and absolutely, of the item of wages. Take Fall River for example. In 1890 the value of the goods made by 34 establishments was \$23,779,524; in 1897 the value of the goods turned out by the same 34 establishments was only \$23,197,310, or nearly six hundred thousand dollars less. The 1897 total of course represented a greatly increased quantity of goods. The value of the stock or materials used in producing these goods declined (owing to the lower price of cotton) in about the same amount, having been \$13,739,147 in 1890 and \$13,134,355 in 1897, so that there was no ground for complaint on that score. But the sums paid out in wages in the same interval rose from \$6,445,772 to \$7,527,386. It should be clearly understood that the increase in this last instance has followed from the greater number of persons necessarily required to produce the larger amount of goods turned out. The average number of persons employed in 1897 was 22,943, against only 19,548 in 1890, though the number of days' work in the later year was only 278.05, against 291.61 in the earlier year. As the result of the enlarged requirement for wages, the percentage of the industry product paid in that way rose from 64.20 to 74.80 per cent. This means that the percentage left for profit and all other items of expenses was only 25.20 in 1897 against 35.80 in 1890. At New Bedford the percentage paid in wages advanced ment and better wages, will inevitably tend, it.

from 52.68 to 65.54, at Lowell from 59.75 to 72.53 and in Lawrence from 79.72 to 80.88.

The Bureau shows clearly the effect of this situation in reducing profits, diminishing assets and contracting or cutting off dividends. But as these facts are familiar to our readers, we shall not dwell on this part of the story. There is considerable force in the observation that falling prices for a product cannot. be offset at once by a corresponding decline in wages. As bearing upon the reasons for the fall in the price of goods, some facts pertinent to the question should not escape attention. The producing capacity in the United States has very greatly increased, not only in the South but also in the North. In the South Atlantic Division the number of cotton spindles increased from 1,180,604 in 1887 to 2,980,113 in 1896, an addition of 152 per cent; in the South Central Division the increase was from 335,220 to 627,770 spindles, or 87 per cent. In the North Atlantic Division, comprising the New England States, besides New York, New Jersey and Pennsylvania, the increase in the same interval was from 11,784,053 spindles to 14,893,592 spindles, or 26.39 per cent. Thus the ratio of growth in the South has been very much more rapid than in the North, but the absolute amount. of increase has been decidedly larger in the North. Indeed, Massachusetts alone shows more new spindles added than the whole South, the number having risen from 5,330,120 in 1887 to 7,790,642 in 1896. Under these circumstances and the inability to effect a reduction in labor cost, it is no surprise that stocks of cloth should have increased till at the end of 1897 they were reported the heaviest on record, and that the average price received per yard of cloth should have been only 2.484 cents in 1897 against 3.344 cents in 1890.

What view of the future does the Bureau take as far as Massachusetts is concerned? No support is given to the idea that the industry in the Old Commonwealth is in danger of decay. "Here is an industry which is to-day better organized than many others; which notwithstanding its present difficulties has on the whole suffered less than some others. during the past five years; which represents in the entire State fully \$100,000,000 in capital, if we include not merely share capital but capital of all kinds devoted to production; which during ten years has increased its productive capacity fully 50 per cent and its output fully 52 per cent; and which possesses certain advantages which can never be overcome, in spite of certain disad-vantages with respect to certain competitors which, for the time, exist. It is not to be supposed that this industry is to be at once 'wiped out,' or that it is as: a whole in a state of permanent decadence."

It is urged that to say that Southern computition was the cause of the conditions surrounding the industry in Massachusetts in 1897 is altogether too strong a statement, and to say that under those conditions Southern competition was not felt is also wide of the truth. The opinion is expressed that every advance which the South makes in manufacturing, unless the development of the factory there is to bedifferent from what it has been elsewhere, will tend toward equalizing the conditions under which the industry is conducted in each section. Theimproved state of the operatives there, who, through the factory, are given regular employis thought, toward shorter working time and still higher wages. The concentration of the industry in certain centres in the South which will gradually take place will hasten this result. Such advance means also an improved home market, upon which the industry, both North and South, must mainly rely.

The conclusion is that the industry is Massachusetts will conform to new conditions. It will abandon certain kinds of goods which cannot be profitably made; it will extend the output of others and cheapen production by improvements in machinery and processes. Some capital may be withdrawn in certain lines and diverted to other industries, or may even go South, as in a few instances it has already. New capital will be invested in other branches of the industry, as during the past year.

New equipment and new economies of management will be introduced, and thus gradually the industry in each section will take the form to which it is best adapted. Finally, the suggestion is thrown out that this is not a time for contests between labor and capital. "If ever a clear recognition of the situation, and afterward mutual confidence and co-operative effort were needed between employers and employed in any industry," says the report, "they are needed now in the cotton industry in Massachusetts."

REAL ESTATE MORTGAGES MAY BE TAXED AS REAL ESTATE.

The United States Supreme Court has recently decided a case involving the question whether real estate mortgages (in States where there is a law to that effect) can be taxed as real estate. The Court upholds the law, even as applied to the owner of a mortgage residing in a different State from that in which the property mortgaged is situated.

The Legislature of Oregon in 1882 enacted that real estate mortgages should, for the purposes of assessment and taxation, be deemed and treated as land or real property in the county in which the land is situated and be there taxed, not beyond their real cash value, to the person appearing of record to be the owner of the mortgage. Under the law no attempt was made to tax the note, but the statute authorized that the amount of the mortgage should be deducted from the assessment against the mortgagor or owner of the property, and that the tax on the amount so deducted should be paid by the mortgagee. In case of default in payment of the tax the mortgages were to be sold, like other real property. To make sure that the owner of the mortgage should not escape, the law contained provisions for having his name appear on the records.

In 1891 and 1892 a number of land owners in Oregon gave their notes to secure the payment of certain sums of money, with interest, to the Savings & Loan Society in the city of San Francisco and State of California, the notes amounting in all to the sum of \$531,000. To further secure these debts the land owners executed to the Loan Society mortgages of divers parcels of lands owned by them in Multnomah County. The notes and mortgages immediately passed out of the State, and have since then been in the possession of the Loan Society at San Francisco. In accordance with the 1882 law taxes were imposed upon all the taxable property in Multnomah County, including these mortgages. The taxes upon the mortgages not having been paid, a warrant was placed in the hands of the Sheriff and he advertised the mortgages for sale. The Loan Society brought a suit in equity against the county and the Sheriff in the Circuit Court for the district of Oregon. A demurrer to the bill was sustained, and the complainant then carried the case to the U. S. Supreme Court on appeal, claiming that the Act of 1882, as applied to mortgages owned and held by a citizen of California was contrary to the Fourteenth Amendment of the Constitution of the United States, as depriving him of his property without due process of law.

Justice Gray, who delivered the opinion of the Court, said that, taking all the provisions of the statute into consideration, its intent and effect were not difficult to discern. The personal obligation of the mortgagor to the mortgagee is not taxed at all. The mortgage and the debt secured thereby are taxed as real estate to the mortgagee, not beyond their real cash value, and only so far as they represent an interest in the real estate mortgaged. The debt is not taxed separately, but only together with the mortgage; and is considered as indebtedness within the State for no other purpose than to enable the mortgagor to deduct the amount thereof from the assessment upon him in the same manner as other indebtedness within the State is deducted. And the mortgagee, as well as the mortgagor, is entitled to have deducted from his own assessment the amount of his indebtedness within the State. The result is that nothing is taxed but the real estate mortgaged, the interest of the mortgagee therein being taxed to him and the rest to the mortgagor.

There is no double taxation. Nor is any such discrimination made between mortgagors and mortgagees, or between resident and non-resident mortgagees, as to deny to the latter the equal protection of the laws. No question between the mortgagee and the mortgagor arising out of the contract between them in regard to the payment of taxes or otherwise is presented, says Judge Gray, or can be decided upon the record. The case accordingly reduces itself to the question whether the tax Act, as applied to mortgages owned by citizens of other States and in their possession outside the State of Oregon, deprives them of their property without due process of law.

Discussing this point the Court notes that by the law of Oregon, as indeed of some other States of the Union, a mortgage of real property does not convey the legal title to the mortgagee, but creates only a lien or incumbrance as security for the mortgage debt ; and the right of possession, as well as the legal title, remains in the mortgagor, both before and after condition broken, until foreclosure. Nevertheless it has been held both by the Supreme Court of the State and by the U. S. Circuit Court for the District of Oregon that the State has the power to tax mortgages of lands] in Oregon, though owned by citizens and residents of other States. Thus in Mumford vs. Sewall, it was declared that "all subjects, things as well as persons, over which the power of the State extends, may be taxed." "A mortgage, as such, is incorporeal property. It may be the subject of taxation." "Concede that the debt accompanies the respondent's person and is without the jurisdiction of the State. Yet the security she holds is Oregon security. It cannot be enforced in any other jurisdiction. It is local in Oregon absolutely as the land which it binds." "Since the power of the State over the mortgage is as exclusive and

complete as over the land mortgaged, the mortgage is subject to taxation by the State unless there is Constitutional limitation to the contrary."

The opinion also quotes from Dundee Mortgage Company vs. School District, where Judge Deady said: "A mortgage upon real property in this State [Oregon], whether considered as a conveyance of the same, giving the creditor an interest in or right to the same, or merely a contract giving him a lien thereon for his debt and the power to enforce the payment thereof by the sale of the premises, is a contract affecting real property in the State, and dependent for its existence, maintenance and enforcement upon the laws and tribunals thereof, and may be taxed here as any other interest in, right to or power over land. And the mere fact that the instrument has been sent out of the State for the time being, for the purpose of avoiding taxation thereon or otherwise, is immaterial."

After citing these various authorities, Justice Gray declares that the power of every State to tax all property, real and personal, within its jurisdiction is unquestionable. The Supreme Court has often in the past endorsed the principle that personal property may be taxed either at the domicile of its owner or at the place where the property is situated, even if the owner is neither a citizen nor a resident of the State which imposes the tax. The State, Justice Gray asserts, may tax real estate mortgaged, as it may all other property within its jurisdiction, at its full value. It may do this either by taxing the whole to the mortgagor, or by taxing to the mortgagee the interest therein represented by the mortgage, and to the mortgagor the remaining interest in the land. And it may, for the purposes of taxation, he declares, either treat the mortgaged debt as personal property, to be taxed, like other choses in action, to the creditor, at his domicile, or treat the mortgagee's interest in the land as real estate, to be taxed to him, like other real property, at its situs.

RAILWAY GROSS AND NET EARNINGS FOR FEBRUARY.

Our compilation of the gross and net earnings of United States railroads for the month of February reveals no new or striking features. The returns are almost uniformly good. The leading conditions were all favorable. Business activity still remained unchecked, the grain movement in the West and the cotton movement in the South, as well as the livestock movement, all increased over the previous year, while the weather was propitious. Our statement covers 141 roads, and in the aggregate these record \$7,109,078, or 12.65 per cent, increase in the gross and \$2,776,111, or 17.53 per cent, increase in the net, as will appear from the following.

-	February. (141 roads.)			January 1 to February 28 (140 roads.)

Even last year there was a slight increase in the aggregate of the gross, with quite a considerable increase in the net, while the year before the improvement was very marked. In the following we carry the figures back to 1893.

The Pacific roads and the Western grain-carrying roads are the ones particularly distinguished for good results. Thus the Southern Pacific has \$918,656 gain in the gross and \$608,832 gain in the net; the Northern Pacific \$487,831 gain in the gross and \$343,-981 gain in the net; the Atchison \$608,648 gain in gross and \$190,565 gain in net, etc., etc. Below we print a full list of the roads whose changes from last year, whether gains or losses, equal or exceed \$30,000. It will be observed that the losses number only two in both the gross and the net.

[VOL. LXVI.

When arranged in groups, the prominence of the Pacific group for improvement becomes still more noticeable. That group shows \$2,196,818, or nearly 30 per cent, increase in the gross and \$1,364,989, or 63.59 per cent, increase in the net. The Southwestern group is only a trifle less conspicuous, with over 25 per cent increase in the gross and 33 per cent increase in the net. The anthracite coal group, which did so well last year, also shows a satisfactory (nearly 24 per cent) improvement in the net, though the addition to the gross is only trifling.

Monetarn Commercial English News

[From our own correspondent.]

LONDON, Saturday, April 9, 1898.

Prices upon the Stock Exchange move up and down accordng to the information from New York. Everything that looks like the maintenance of peace causes a rise; everything threatening war causes a fall; and the movements are not confined to the American market; almost every department is more or less affected. The result practically is that business is almost; suspended. In any event there would not be much doing this week, for the Stock Exchange is closed from Thursday night to Tuesday morning, Good Friday and Easter Monday both being bank holidays. Naturally, under the circumstances no one would care to enter into new risks, and business would be very dull. But the dulness has become utter stagnation because of the political anxieties.

The relations between the United States and Spain occupy the first place in everybody's mind. Towards the end of last week it was almost universally believed that war was inevitable. At the beginning of this week the hope sprang up that peace would be maintained, chiefly because it was announced from Madrid that the Popp had offered his good offices and that they were eagerly accepted by Spain. There was a very marked rise in the American market on Monday, from which it is generally inferred by careful observers that there had been a pretty considerable bear account opened. On Tuesday there was somewhat of a damper. In the mining market there has also been a decided recovery.

Practically every department is more or less influenced by the course of the American. The general depression, because of the fear of war about Cuba, was intensified last week by the language of our own jingo papers, which are furious because they think the Government has not pursued a sufficiently spirited foreign policy in China. The newspapers, more especially the Conservative newspapers, were loud in their outcry against the Government, and they had almost convinced people that Russia had won all along the line and that the prestige of this country had seriously suffered. The announcement at the beginning of this week that three new treaty ports are to be opened and that Wei-Hai-Wei is to be leased to this country on its evacuation by the Japanese has accomplished a great change of opinion and has helped to strengthen the effect of the Pope's offer of mediation. But, naturally, all prudent people are avoiding new risks, waiting simply upon events. Some members of the Stock Exchange speculate either for the fall or for the rise, according to their temperament, and a few outside speculators do the same; but the great public is holding aloof, and even investment business is on an exceptionally small scale.

In Paris matters are not more cheerful than here. The new legislation which is about to curtail very seriously the business of the *coulisse*, or outside market, is preventing the *coulissiers* from acting as usual. They suffered very heavily at the end of 1895, partly because of the collapse in the mining boom and partly because of the general political alarm that arose out of the Armenian massacres. They have never recovered from the blow they then received, and now they are threatened with a measure likely to deprive them of some of their most lucrative business.

Added to this, investors in France are likely to suffer very severely from the bankruptcy of Spain. The finances of Spain are in a desperate state. One of the puzzles of the present time is how Spain has been able to go on paying the interest on her debt while defraying the cost of the Cuban and Philippine operations. But nobody believes that she can avoid bankruptcy if she engages in a war with the United States. It is estimated that French investments in Spain are not less than 4 milliards, or 160 millions sterling. The bankruptcy of the Spanish Government, followed probably by a further great depreciation of the paper money and widespread failures in commercial and financial circles, would inflict terrible losses upon French investors. Moreover, the French are disappointed because it is alleged that their claims in China are not properly supported by Russia, while Russiahas got all her own demands promptly satisfied.

In Germany business is at a standstill likewise, partly because of the condition of Austria-Hungary and partly because of the political apprehensions. The quarrels of the nationalities in Austria are aggravated by a serious fear of an impending outbreak in Macedonia. For many years past Greece, Bulgaria and Servia have been laving claim to Macedonia on the ground that the majority of the population of the province is Greek, or Bulgarian, or Servian, according to the party making the claim. The defeat of Greece last year has practically put her out of the running, and now there is a bitter strife between Bulgaria and Servia. Apparently the Bulgarians are gaining much ground in Macedonia, and the fear is that they will stir up an insurrection as soon as the snow melts, and invade the province in force. If they do, the Eastern question may be reopened. Thus all over Europe there is anxiety and uncertainty, with depression upon the bourses.

Doubtless had it not been for the benevolence shown in high quarters, a benevolence consequent on the desire to assist the introduction of the Chinese loan, the Bank of England would have taken steps to protect its position earlier than it has done. On Thursday there was no alternative but to take action. The feeling in the money market, however, on Wednesday was that there would be an advance of only one-half per cent. As a matter of fact, a rise of a full one per cent from 3 per cent, which was fixed on October 14 to 4 per cent, was made. The future of the money market greatly depends upon politics and the American gold requirements, for in case of expansion in the demand for gold from this side, considering the weak state of the Bank of England's position there would be no option but to carry the rate still higher. There is no demand for Germany, Russia or Austria-Hungary. For the moment the only drain is for New York. But that drain may become considerable should war break out or if very large additional sums should be expended upon the army and the navy. The home government is about to appoint a commission to inquire into the best means of establishing a gold standard in India, and that may lead to a considerable Indian gold loan. Lastly, the Chinese Government at the beginning of May will pay over the indemnity to Japan and Japam will then be free to spend the money as it pleases. Of course it is to be recollected that Japan has to pay for ships and munitions of war,

The home government is about to appoint a commission to inquire into the best means of establishing a gold standard in India, and that may lead to a considerable Indian gold loan. Lastly, the Chinese Government at the beginning of May will pay over the indemnity to Japan and Japan will then be free to spend the money as it pleases. Of course it is to be recollected that Japan has to pay for ships and munitions of war, and most of the money, therefore, will be laid out in Europe and America. Still there is the danger that gold may be sent away. For all these reasons the drain upon the Bank of England may be considerable during the next few months, and the bank is bound, in its own safety, to take measures for the protection of its reserve should the drain ceases the Bank will obtain complete control of the outside market in May, and then, by making the three-per-cent rate effective during the summer, it will probably slowly and gradually strengthen its reserve.

There is nothing new to report from India. The exports are active, except from Bombay, where they are still interrupted by the plague. The crops are all turning out most excellent, and the prospects of the country are favorable. But the money market is as stringent as ever. The discount rate in Bombay remains 13 per cent and in Bengal 12 per cent. On Wednesday the India Council offered for tender, as usual, 50 lacs. The applications amounted to nearly 123 lacs, and the whole of the 50 lacs were sold, 22 being in bills, at prices from 1s. 3 13 16d. to 1s. 3 27-33d. per rupee, and 28 lacs in telegraphic transfers, at 1s. 3 29 82d. and 1s. 3 15-16d. per rupee. Subsequently there were special sales of transfers amounting to nearly 6½ lacs, the price being 1s. 3 15-16d. per rupee.

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols, &c., compared with the last three years:

Messrs. Pixley & Abell write as follows under date of

Messrs. Pixley & Abell write as follows under date of April 6: 'Gold-In consequence of the strong demand for New York, higher prices have been paid for all arrivals. In addition to about £750,000 on the open market, consisting of arrivals of yen, African gold and Australian sovereigns, £246,000 in eagles and sovereigns have been taken from the Bank. The Bank of England has advanced the price of United States gold coin to 76s, 8d, per oz. since our last The Bank has received £51,000 from Austria, and has lost £346,000, mostly for New York, as above stated. Arrivals-West Indies, £59,000: Ans-tralia, £136,000; Capetown, £2824.0°; Chili, £8,000; Japan, £255, 000; total. £740,000. Shipments to Bombay, £17,500. Silver-Indian orders, consequent on harder forward exchange, coupled with temporary cessation of American sales, have caused improvements in the cash rate, and the market closes steady at 26d., with little offering. The Bombay price to-day is Rs. 674 per 100 Tolahs. Shipments -Bombay, £136,000; West Indies, £30,000; Chili, £32,000; total, £198,000. Mexican Dollars-There are no movements to report. The quotations for bullion are reported as follows:

WALL STREET, FRIDAY, APRIL 22, 1898-5 P. M.

The Money Market and Financial Situation .- Development in international affairs has been rapid this week, and our future relations with Spain are no longer a matter of doubt. Owing to the fact of abundant warning, the certainty of war has as yet had little effect in financial circles. At the Stock Exchange business has been limited in volume and confined chiefly to liquidation by cautious holders, selling for foreign account, and the operations of professional traders. Securities of all classes have declined, the new Government 4s showing a loss of 2 points within the week. Stocks, however, are not generally down to the low quotations recorded in March. Notwithstanding firmer money markets abroad and sales of securities for foreign account, the rates for foreign exchange remain about as reported last week. Gold imports have continued, the amount for the week being \$4,125,0 0 and the total to date \$53,560,000. The money market has

and the total to date \$53,560,000. The money market has been firm, but rates are generally steady. The open market rates for call loans on the Stock Ex-change during the week on stock and bond collaterals have ranged from 1½ to 3½ per cent. To-day's rates on call were 1½ to 3 per cent. Prime commercial paper is quoted at 6 to 7 per cent. The Bank of England weekly statement on Thursday showed an increase in bullion of £833,610 and the percentage of reserve to liabilities was 39 86. against 38 40 last week: the

of reserve to liabilities was 39 86, against 38 40 last week; the discount rate remains unchanged at 4 per cent. The Bank

of France shows an increase of 3,375,000 francs in gold and 1,825,000 francs in silver. The New York City Clearing-House banks in their state-ment of April 16 showed an increase in the reserve held of \$ 780,200 and a surplus over the required reserve of \$37,346,-075, against \$35,036,475 the previous week.

This is the price bid at the morning board; no sale was made.

State & Railroad Bonds.—Sales of State bonds at the Board are limited to \$10,000 Virginia fund. debt 2-3s of 1991 at 65 to 66.

As shown by the table following, the volume of business As shown by the table following, the volume of business in the market for railway bonds has steadily increased from a lit le over \$500,000 on Monday to \$1,105,000 on Thursday, and the quotations on subsequent pages show that prices are gen-erally lower. The market has been relatively steady, fluctua-tions showing a much narrower range than in the market for stocks. In many cases the decline recorded is only fractional, while in some instances it is over 2 points. There is practic-ally no investment demand, and offerings are generally taken only at concessions. Activity was confined to a few bonds, including Atchison, Chesapeake & Ohio, Missouri Kansas & Texas, Northern Pacific, Reading, Union Pacific and the Oregon issues. Oregon issues.

Stock and Bond Sales.—The following shows the volume of business, in stocks and bonds, on the New York Stock Exchange for the past week, and since January 1.

Net Earnings Monthly to Latest Dates .- The following shows the gross and net earnings to latest dates of all STEAM railroads furnishing monthly statements. The compilation includes every road from which we can get returns of this character and in that form is given once a month. Early re_ turns are published from week to week, as soon as issued, but for the convenience of our readers all the roads making returns are brought together here in the week in which we publish our monthly article on net earnings-say on or about the 20th of the month.

The returns of the street railways we give by themselves under a separate head at the extreme end of these tabulations 000 0000 000

a Net earnings here given are after deducting taxes. b Net earnings here given are before deducting taxes. c Deducting other expenditures for repairs, replacements and general excenses, net income applicable to interest on bonds in February was 889,003, agst. \$140,315 isst year, and for January 1 to February 28 \$182,453 against \$247,416. This is the result in Mexican dollars-treated (according to the company's method of keeping its accounts) as equivalent to 30 cents in United States money-that is, all depreci-ation beyond 20 per cent has already been allowed for. d Includes the operation of seven miles of Susquehanna Connecting road.

a find devond 20 per deur has already been allowed for.
a findudes the operation of seven miles of Susquehanna Connecting road.
e Decrease in net earnings the result entirely of increased expenses caused by continuous slow-storms.
f thirty per cent of gross earnings.
g After allowing for other income received, total net from July 1 to February 28 was \$107,120, against \$433 215.
h Increase in operating expenses due to floods.
i Includes besides Atlantic System the Houston & Texas Central, Austin & Northwestern, Central Texas & Northwestern and Ft. Worth & New Orleans.
n Embraces only earnings of reorganized lines; earnings of Central Branch not included.
* Figures beginning with July include At T. & S Fe, Gulf Col. & Santa Fe, Santa Fe Pacific (old Atlantic & Pacific) and S. O. Galfornia Br., but not Sonora Ry, and N. M. & Arizona, which previous to July had been included.
* For February, 1898, taxes and rentals amounted to \$149,059, agst. \$179,917, and from July 1 to February 24 net, alter deducting taxes and rentals is \$63,32,358, against \$4,927,055.
i Includes Chicago B arilington & Northern for both years.
i Includes Chicago B arilington & Northern for both years.
i Includes Chicago B arilington & Northern for both years.

STREET BAILWAYS AND TRACTION COMPANIES.

The following table shows the gross earnings for the latest period of all STREET railways from which we are able to obtain weekly or monthly returns. The arrangement of the table is the same as that for the steam roads—that is, the first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

Street Railway Net Earnings.—In the following we show both the gross and the net earnings to latest dates of all STREET railways from which we have been able to procure monthly returns. As in the case of the steam roads, the returns of the different roads are published by us each week as soon as received, and once a month (on the third or the fourth Saturday of the month) we bring all the roads reporting together, as is done to-day.

as is done to-day.			Les in all

Lehigh & Wilkesbarre Coal-Central RR. of New Jersey. (Report for the year ending Dec. 31, 1897.)

We have received the following official report regarding the finances and operations of the Lehigh & Wilkesbarre Coal Co., which is controlled by the Central RR. of New Jersev:

Property.-The company owns 21,000 acres of anthracite coal lands and holds 3,000 additional acres under lease. It operates thirteen collieries and leases about 4,000 acres of its

coal lands to various individual operators. Stock.—The capital stock is \$10,000,000, of which \$9,212,500 is outstanding, \$6,600,000 of this being owned by Central RR.

is outstanding, \$6,600,000 of this being owned by Central RN. of New Jersey. Bonds, Etc.—Of the consolidated mortgage seven per cent bonds only \$54,000 are guaranteed by the Central RR. of New Jersey, the holders of the other bonds having freed that com-pany from liability therefor, on condition that it shall not collect interest on the \$6,116,000 consols which it holds prior to their maturity unless such interest is earned, this agree-ment being stamped on the bonds. A sinking fund for bonds due 1913 is provided from sales of surface lands and from 10 cents for each ton of coal mined on property included in the first lien : no drawings. first lien ; no drawings.

The real estate mortgage for \$500,'00 shown below is a first mortgage on unencumbered lands for \$5 0,000 originally deposited as security for the payment of Lehigh Coal & Navi-gation Company's bonds assumed by the Lehigh & Wilkesbarre Coal Co., which matured Dec. 15, 1897. The Fidelity Insur-ance Trust & Safe Deposit Co. of Philadelphia advanced the money for their payment, and is secured by an assignment of the real estate mortgage above mentioned, bearing 6 per cent interest for two years and six months, or to date when the Lehigh & Wilkesbarre consolidated mortgage bonds, due June 1, 1900, will mature, and be provided for in the refund-ing of the company's indebtedness or otherwise. *Floating Det.*—There is no floating debt other than that due the Central RR. of N. J. except \$375,000 borrowed money.

money.

idle. However, we have had our new machines adapted to making eyelet-holes as well as button-holes, and are now able to supply either the lace or button trade. During the past year we have been to a large expense completing the special tools and adding new machinery for producing the new machine, which we are pleased to say is now finished and is being successfully placed upon the market. This ma-chine cuts, works and bars the button-hole, and its capacity is from ten to twelve thousand button-holes or cyclet holes per day. Our business in other lines than the boot and shoe trade has increased, the output of machines during the past year's neig almost wholly for col-lar and cuff, shirt, clothing and miscellaneous lines. "Notwithstanding that the last year's net gain enabled us to pay dividends amounting to \$170,000, we consider as a matter of business prudence, and as the earnings of the different quarters vary, to make the basis of the dividend 3 per cent quarterly and declare extra divi-dends as often as the earnings will permit. We have pald in divi-dends to date \$1,502,500. We see no reason why we cannot control the button-hole trade for many years." Swift & Company.

Swift & Company.

(Balance Sheet of Dec. 31, 1897.)

The company's latest statement filed with the Massachu-setts Commissioner of Corporations compares with last year's statement as below :

American Hard Rubber Co.—Rubber Companies' Con-solidation.—Incorporate t.—The American Hard Rubber Co. of New York City, with a capital of \$3,500,001, was in-corporated at Albany on Wednesday. The new company was formed to purchase the business of the India Rubber Comb Co. of New York, the Butler Hard Rubber Co. of New Jersey and the Goodrich Hard Rubber Co. of Ohio. The di-rectors are Fri z Achelis, Richard Butler, Charles A. Hoyt, Albert T. Morse, Edwin W. Belcher, William W. Weitling, Frederick G. Dow of New York City, and George T. Per-kips and Henry C. Carson of Akron, O.—V. 66, p. 519. American Sardine Co.—Organize1.—This company, with a capital of \$3,000.000, has been organized under the laws of Maine to operate 51 factories situated on the eastern coast of Maine. The plant, it is stated, will have an annual output of

1,000,000 cases. S. G. Stevens, of Brookline, Me., is men-tsoned as a promoter of the new company.

American Tobacco.-Continental Tobacco.-American Tobaceo.—Continental Tobaceo.—New Interest in Management.—Probable Termination of Tobacco War.— The shares of the American Tobacco Co. have been very ac-tive this week on reports that at the annual meeting May 11 a partial change will be made in the management. The transfer books, which closed on April 15, show extensive transfers of the stock. Col. Oliver H. Payne has acquired a large amount of the stock, and other considerable amounts have been transferred to John G. Moore, G. B. Schley and their business associates. -New Interest their business associates. The belief is that the new interest will terminate the un-

have been transferred to John G. Moore, G. B. Schley and their business associates. The belief is that the new interest will terminate the un-profitable warfare between the company and the manufac-turers of plug tobacco. Advices from St. Louis say that a new company, to be called the Continental Tobacco Com-pany, will shortly be organized, with \$50,000,000 capital, to ab-sorb all the plug tobacco charters of the country. President Drummond, of the Drummond Tobacco Co., will be its President, James B. Duke of this city, who is Presi-dent of the American Tobacco Company, Vice-President, and Pierre Lorillard Treasurer. Plug tobacco and cigarette and smoking tobaccos, it is proposed, shall be manufactured separately in the future. The New York "Sun" says: "The American Tobacco Co. will keep out of the plug tobacco. The St Louis advices stated that the important firm of Lig-gett & Meyers had not yet signed the plan for, the new com-pany, but would do so. The Drummond Tobacco Co. has annulled all its agency appointments and notified its former agents that it will henceforth make them fixed prices, with no commissions or rebates."-V. 64, p. 950. Anthracite Coal Roads.-Appeal Dismissed.-The Court of Appeals on Tuesday dismissed the appeals taken by the State from the decision of the Appellate Division of the Su-preme Court, a decision which vacated the order originally granted by Judge Chester compelling the presidents of the so-called " coal" railroads operating in New York State to appear before the referee and be examined for the purpose of ascertaining whether or not an unlawful combination existed for the purpose of raising the price of coal. The appeals were dismissed on the ground that they are not reviewable by the Court. The Appellate Division of, the Supreme Court vacated the order on the ground that the Attorney General did not properly draw the affidavits on which Judge Chester issued the original order.-V. 64, p. 234. Arizona Canal Co.-Arizona Improvement Co.-Meeting May 25 to Act on Plan.-The bond

Arizona Canal Co. — Arizona Improvement Co. — Meeting May 23 to Act on Plan. — The bondholders' committee, con-sisting of Charles S. Fairchild, Morgan G. Bulkeley, Andrew Crawford, Arthur B. Leach and William H. Burrows, an nounces that a plan of reorganization has been prepared, and that a meeting of the holders of the certificates issued on the deposit of bonds will be held at the office of the New York Security & Trust Co. at 12 M. May 23 to take action thereon. —V. 65, p. 1023.

Atlantic Snuff Co., of Camden, N. J.—Incorporated.—This company has filed articles of incorporation at Clarksville, Tenn. The capital stock is \$10,000,000, in shares of \$100 each. The company owns the large Stewart-Ralph snuff factory at Clarksville. James E. Bruton, of Nashville, of the firm of Bruton & Condon, is an officer of the new corporation.

Blue Ridge & Atlantic – Tallulah Falls Ry.—Reorgan-ized.—The Blue Ridge & Atlantic, which was foreclosed April 27, 1897, was turned over on April 1 to a new company enti-tled the Tallulah Falls Ry. Co. The road runs from Cor-nelia, Ga., to Tallulah Falls, 21 miles. George Lewis Pren-tiss, of 31 Nassau Street, New York, is President.—V. 64, p. 706. p. 706.

Brooklyn & Brighton Beach RR.—Receivers' Certificates Authoriz.d. – Judge Maddox, in the Supreme Court in Long Island City this week, granted the application of receivers E. L Langford and G. W. Palmer for permission to issue re-ceivers' certificates to the amount of \$50,00, in order to make improvements and pay the wages of employes.—V. 66, p. 287.

Central Branch Union Pacific RR. - Atchison & Pike's Central Branch Union Pacific RR. - Atchison & Pike's Peak RR — Agreement Operative. — Penalty After May 14 — The Borg Committee gives notice that the bondholders' agreement of March 9, 1896, has become operative, as pro-vided in Section 2 thereof. The time for deposits with the Union Trust Co. of New York has been extended to May 14, 1898, after which date no bonds will be received, except upon such terms as the committee may then impose. — V. 65, p. 869.

Chicago Rock Island & Pacific Ry.—New Bonds to be Feady on Mon 'ay.—The Central Trust Co. will begin on Mon-day to deliver the new 4 per cent general mortgage 90-year gold bonds in exchange for its certificates representing the old bonds deposited; also to make the cash payments, as stated in said receipts, on presentation thereof at its office.— V. 66, p. 759.

Chicago & West Michigan Ry.—Coupons.—The directors have voted "that the Treasurer pay the holders of the cou-pons due May 1, 1898, of Chicago & North Michigan RR. Co 5 per cent bonds one half the amount of same in cash and the other one-half in ten year coupon scrip of the same form and on the same basis as that heretofore issued."—V. 66, p. 38.

Choctaw Oklahoma & Gulf RR.—First Dividend.—The company has declared a semi-annual dividend of 2½ per cent on the preferred stock. The dividends on this stock be-came cumulative Nov. 1, 1897. "Philadelphia Ledger" says:

It is stated that the earnings for the first six months of the fiscal year show a surplus over the half-year's charges of \$20,000, which is-equal to a full year's dividend of 5 per cent on the preferred stock. The country through which the road runs has been gradually filling up, and it is believed that the bill passed by the House of Representa-tives providing for the opening of the Indian Territory for settlement will be concurred in by the Senate, in which case there will be a large influx of immigrants both from the North and from the South. The company is about completing a connection with the line of the Pitts-burg Kansas City & Gulf RR., and is extending its line to the west-ward, so that a further increase in earnings is expected. The cost of the extensions has already been provided for.-V. 66, p. 133.

Cincinnati Inclined Plane Ry.—Cincinnati Street Ry.— Purchased.—At the foreclosure sale of the Inclined Plane Ry. on April 14 the road was bought by Chas. H. Kilgour, of the Cincinnati Street Railway Co. for \$278,000, or \$9,500 more-than the upset value.—V. 66, p. 471, 616.

Colorado Midland Ry.—Aspen Short Line.—Status.— Of the \$108,000 first mortgage bonds, between eighty and ninety of the bonds have assented to the exchange of their holdings for the Colorado Midland fours and fifty per cent in preferred stock.—V. 66, p. 708.

Davenport Gas & Electric.—*Change of Name*.—The Con-solidated Gas Electric Light & Steam Heating Co. of Daven-port, Ia., has filed amendments to its articles of incorporation changing its name to the Davenport Gas & Electric Co. and its capital stock from \$400,000 to \$800,000.

Detroit City Gas Co.—The New Bonds.—The \$3,885,000 five per cent 25 year bonds issued by this company and listed last week on the New York Stock Exchange were used for the following purposes:

Total

.\$3,885.000 698.—V. 66, p. 759.

Fairhaven & New Whatcom Street Ry.—Northern Ry. & Improvement Co.—Property Transferred.—The Northern Ry. & Improvement Co. has become, it is stated, the owner of all street railways, the right of way, franchises, cars, buildings, power house, tracks. etc., until recently belonging to the Fairhaven & Whatcom Street Ry.

to the Fairhaven & Whatcom Street Ry. Fort Worth & Denver City.—Atchison Topeka & Santa Fe Ry.—Transfer of 18 Miles of Road.—The Fort Worth & Denver City has sold to the Atchison Topeka & Santa Fe the short branch between Washburn and Panhandle City, Texas, about 18 miles, and the Santa Fe has also been ac-corded trackage rights from Washburn to Amarillo, where it will meet the Pecos Valley & Northeastern when the lat-ter's extension to that place is finished.—V. 66, p. 758, 519. Grand Trunk RR.—Central Vermont RR.—Report for Six Months Ending Dec. 31.—The pamphlet report of the Grand Trunk RR. Co. for the six months ending Dec. 31, 1897, is at hand, showing: 6 mos. to Gross Net Net. net. Rentals, Balance.

Net, incl. Rentals, Balance, other inc. interest, &c. surplus, \$2920,235 £644,972 £275,263 707,607 668,520 39,087 634,252 Balance.

Hagerstown & State Line RR.—Western Maryland RR. —Organized to Build Excension.—The Hagerstown & State Line RR. Co., which is the sub-company formed to build the branch of the Western Maryland Railroad from Hagerstown to Altenwald, Pa., has organized with John M. Hood as Pres-ident, and J. T. M. Barnes as Secretary and Treasurer.— V. 66, p. 233.

V. 66, p. 252. Herkimer Light & Power Co.—Consolidation Completed. —This company has been incorporated at Albany with a cap-ital stock of \$400,000 The new corporation has absorbed by consolidation the Herkimer Gas Light Co. of Herkimer, the United Gas & Electric Light Co. of Little Falls and the Ilion & Mohawk Gas Light Co. of Ilion. The directors are William F. Cochran and Alexander S. Cochran, of Yon-kers; George E. Weed, Maitland F. Griggs, Thomas E. O'Shea, Henry Stanton, Robert P. O'Shea and James P. O'Shea, of New York City, and Thomas Ringwood, of Ilion. Illinois Car & Equipment Co.—Martagae Filed.—The com-

Illinois Car & Equipment Co.—Mortgage Filed.—The com-pany has filed its mortgage for \$1,250,000 to the Illinois Trust & Savings Bank of Chicago, as Trustee. The mortgage covers all the property formerly owned by the United States Car Co., and is made in accordance with the plan of reorgan-ization.—V. 66, p. 343.

Ization.--V. 66, p. 546. Knoxville & Bristol RR.--Morristown & Cumberland Gap RR.-\$1.000,000 Mortgage File t by Reorganize t Com-pany.- The Knoxville & Bristol RR. Co., successor of the Morristown & Cumberland Gap. foreclosed, has been organ-ized, with Adolph Segal, of Philadelphia, as President. and has filed a mortgage for \$1,000,000 to the Security & Trust Co. of Camden, N. J., as trustee. The new loan covers the

line already constructed from Corryton, Tenn., via Tate Springs (Bean Station) to Morristown, 40 miles, and also the proposed extensions thereof to Knoxville and Bristol. When completed the road will run from Knoxville via Corryton completed the road will run from Knoxville via Corryton and Bean Station (thus embracing 29 miles of the present line) to Bristol, the terminus of the Norfolk & Western, a distance of about 120 miles, while the remainder of the pres-ent line will exist as a branch of 11 miles to Morristown. The authorized capital stock of the Knoxville & Bristol is \$1 000.000. Mr. Segal's address is Drexel Building, Philadel-phia.—V: 66, p. 426.

Lake Superior Consolidated Iron Mines.-Cancellation of Mortgage.—The company is taking steps to cancel its mortgage, no bonds being now outstanding. After May 1 its office will be moved to 26 Broadway.

Lake Shore & Michigan Southern RR.—New York Cen-tral & Hudson River RR.—Deposits of Stock.—It is cur-rently reported that about \$41,000,000 of Lake Shore stock, out of a total issue of \$49,466,500, has been deposited with the Guaranty Trust Co. for exchange into New York Central bonds per plan in V. 66, p. 237, 288.—V. 66, p. 760.

bonds per plan in V. 66, p. 237, 288.—V. 66, p. 760.
Little Rock & Memphis RR.—Sale Postpored till May 18.
—The foreclosure sale which was to have been held at Little Rock April 18 has been postponed until May 18. This is about the tenth postponement.—V. 66, p. 471.
Marsden Company.—Stock Outstanding.—The common stock has been increased to \$30,600, '00. The preferred remains at \$1,500,000.—V. 66, p. 134.

Milwaukee & Lake Winnebago RR.-Wisconsin Central Milwaukee & Lake Winnebago RR. — Wisconsin Central Co. — Coupms and Erminos. — In response to an inquiry from us, President Elwin H. Abbot makes the following statement: "Coupons upon Milwaukee & Lake Winnebago bonds of all issues have always been paid with absolute punctuality. The bonds of 1832 and income 5s were paid Jan 1. The Manitowoc Division first mortgages 6s were paid March 1. No dividend has been paid [since Feb., 1897] on the preferred stock, which takes cumulative dividends, because the company has expended on its Manitowoc terminals, in ad-dition to the proceeds of its Manitowoc divisional bonds, a conthe company has expended on its Manitowoc terminals, in ad-dition to the proceeds of its Manitowoc divisional bonds, a con-siderable amount which it prefers to pay out of income The Manitowoc division, which completes the through line via Manitowoc to Buffalo via car ferry, during the seven months ending January 31, increased the gross earnings of the receivers (who were operating the line under temporary lease terminable on 6 months notice by either party) by the sum of \$293.714; deducting from this amount the total opersum of \$293,714; deducting from this amount the total oper-ating expenses, taxes and rental upon this division \$183,385, the receivers made the profit of \$110,329 in seven months."— V. 64, p. 903; V. 66, p. 575.

Nashville Tellico & Charleston RR.—Sold.—This prop-erty has been purchased at judicial sale for \$20,000 by Col. T. E. H. McCroskey of Madisonville The road is 24 miles in length, and runs between Athens and Tellico Plains. -V. 66, p. 520.

New York Central & Hudson River RR.—New Directors. —Lake Shore & Michigan Central Purchase Approved.—At the annual meeting on Wednesday Samuel R. Callaway and George S. Bowdoin were elected directors to succeed the late Erastus Corning of Albany and George C. Buell of Rochester. Resolutions were adopted approving the purchase of Lake Shore stock and also the Michigan Central stock. Mr. Calla way was also elected a director of the West Shore to sucway was also elected a director of the West Shore, to succeed H. J. Hayden.

New President Elected.—The new board of directors on Thursday elected Chauncey M. Depew Chairman to succeed Cornelius Vanderbilt, and Samuel R. Callaway President, in

Thursday elected Chauncey M. Depew Chairman to succeed Cornelius Vanderbilt, and Samuel R. Callaway President, in place of Mr. Depew. *Michigan Central Purchase.*—We announced last week the proposition for the acquisition of the Michigan Central by the New York Central, in pursuance of the plan for a unification of all the lines in the Vanderbilt trunk line system. The Messrs, Vanderbilt own a controlling interest in the Michigan Central, and they have agreed to sell their holdings to the New York Central on the same terms now offered to the minority stockholders, viz: For every share of Michigan Central stock of \$10, \$115 in 3½ per cent 100-year gold bonds of the New York Central RR Co. The new bonds will be secured by a deed of trust dis-tinct from that securing the Lake Shore bonds, and will be for the total authorized amount of \$21,550,000. To secure the loan the stock exchanged will be placed in trust, with the Guaranty Trust Co. of New York as trustee. The bonds will mature on Feb. 1, 1998, and the interest will be payable semi-annually on Feb. 1 and Aug. 1. Deposits of stock will be received by the Guaranty Trust Co. on or before June 16, and temporary receipts will be issued therefor. There is \$18,738,(00 of Michigan Central stock now outstanding.— V. 66, p. 760. New York Philadelphia & Norfolk.—Reorganization Plan.—The received is

New York Philadelphia & Norfolk.—Reorganization Plan.—The reorganization plan was given fully last week, but as to the amount of new incomes to be issued we were misled by a misprint in the official circular. The new income but as to the amount of new incomes to be issued we were misled by a misprint in the official circular. The new income mortgage will be for \$1,000,000, and the old income bonds, on the payment of the 35 per cent assessment, will be exchange-able for the new incomes, bond for bond.—V. 66, p. 760. Niagara River Land & Dockage Co.—Foreclosure Suit.— An action to foreclose the mortgage of 1896 for \$400.000 has been begun in the Supreme Court by Harriette E. Stafford and Otto Arens.

and Otto Arens.

North Chicago Street RR.-New Stock Issue.-The resolu-on of the directors that the stock be increased \$1,320,000, tion of to \$7,930,000, was as follows :

to \$7,930,000, was as follows: "Whereas, This company expended about \$2,500,000 in extension of tracks and changing of horse-car road into electric tramway, build-ing power stations and other appurtenances; and Whereas, These improvements were partly paid for by an issue of bonds and an issue of \$1,100,000 of the stock of this company, which left a balance still due, which is now standing on the books of the company; and "Whereas, There are \$500,000 of debenture bonds, which are now pavable, and it is considered to the best interests of the company that the debenture bonds should be paid and canceled as opportunity pre-sents itself, and that the outstanding indebtedness should be liqui-dated; therefore "Resolved, That an issue of 20 per cent of the capital stock now out-

"Resolved, That an issue of 20 per cent of the capital stock now out-standing be made-which would amount to \$1,320,000-and that stockholders of record April 25, at 3 o'clock P. M., be given the right to subscribe to 20 per cent of their holdings at par, payments to be made as follows: "One-half to be paid on the 2d day of May, 1898, and one-half on the 15th day of June, 1898."-V. 66, p. 761.

Pecos Valles & Northeastern Ry.—Contract made for ex-tension.—S. H. Mallory & Co., Caicago, have received the contract for building the extension from the present terminus at Roswell, N. M., northeast 208 miles to Amarillo. Texas, to a connection with the Atchison. The contract calls for com-pletion of the work by Dec. 15.—V. 66, p. 709.

Pennsylvania Manufacturing Light & Power Co.-Con-solidation.-"It is understood that the owners of the Northern, West End and Southern Electric Light companies, the only West End and Southern Electric Light companies, the only remaining independent companies since the Pennsylvania Heat, Light & Power Co. consolidation, have agreed to go into the consolidation. They will form part of the Pennsyl-vania Manufacturing Light & Power Co., which has taken over the consolidated company. The terms are said to be favorable. Holders of the Northern were offered, it is stated, \$16 cash or \$12 in the Hamilton Co. bonds and 25 shares of Hamilton stock at \$1. The Hamilton Co. was one that went in under the former consolidation. The Northern is in some respects the most important of the three companies named." —Philadelphia Times.- V. 66, p. 384. Phila telphia Reading & New England RR —Plan Oper-

-Philadelphia Times.- v. ob, p. 354. Phila[†]elphia Reading & New England RR.-Plan Oper-ative.-Penalty after April 30th.-The reorganization com-mittee has declared the plan operative and agreed to impose a penalty after April 30 of 5 per cent on the first mortgage bonds, 2 per cent on the series A and B bonds, and 50 cents per share on the stocks. The deposits are reported to be nearly \$5.000,000 first mortgage bonds (out of a total outstanding of \$7.0,000 or and over \$2.000,000 series A and B bonds deposited \$7,0 (0,000) and over \$2,000,000 series A and B bonds deposited. -V. 66, p. 761.

Pittsburg & Western.—Sale of Car Trust Certificates.—It is reported that Receiver King has sold \$550,000 car trust cer-tificates secured on 4 locomotives and 750 cars.—V. 65, p. 1169.

St. Louis Kansas & Southwestern RR.—St. Louis & San Francisco RR.—Present Status.—Of the \$390,000 outstanding bonds of the St. Louis Kansas & Southwestern, all but \$175,000 have accepted the offer of 18 shares of St. Louis & San Fran-cisco common stock in respect of the claim of each \$1,000 St. L. K. & S. W. bond and deposited the bonds with the Ameri-can Loan & Trust Co., Boston. The road, however, is still operated by the receiver.—V. 66, p. 761.

Southern Pacific RR.—Consolidation Consummated.—The consolidation referred to last week as pending has been con-summated under the title of the Southern Pacific Railroad

consolutation refered to fast week as penning has been con-summated under the title of the Southern Pacific Railroad Co. The new company embraces all the lines of the South-ern Pacific system in California except the Central Pacific and the South Pacific Coast Co.—V. 66, p. 761. Street Ry. & Illuminating Co.—Position of Common Stock. —Preferred Stock All Paid Off.—The preferred stock, original-ly amounting to \$4,500,000, has all been retired at or below 110, through the sale of securities, leaving the 4,500 shares of common to receive all future benefit from the securities re-maining in the trust. The first dividend on the common stock was paid Feb. 12 last, and was at the rate of 6 per cent per annum. An idea as to the securities still held in trust may be gained by noting that on Aug. 2, 1897, when \$412,900 of preferred still remained outstanding, the securities held aggregated at their par value, \$5,157,955, as follows : Bonds, \$1,763 100; stocks, \$2,880.860; notes, \$492,193; miscellaneous, \$21,802. The par value of the common stock, it was agreed, should be the value of the trust estate upon the liquidation of the preferred shares. The stock of the company was floated in 1893 in connection with the liquidation of the floating debt of the General Electric Co., the stock being sold at the rate of one of the company endormed on the rate of the rate of the General Electric Co., the stock being sold at the rate of one share of common and one of preferred for \$100 in cash to stockholders of the General Electric, or for \$90 to the underwriting syndicate.—V. 65, p. 569. Union Pacific Denver & Gulf Ry.—Reorganization.—Re-ceiver Trumbull makes the following summary as to the pre-

liminary steps taken towards reorganization: Old accounts between the Union Pacific RR. Co. and the

U. P. D. & G. Ry. Co., involving between four and five mil-lion dollars, were settled absolutely, and settlement has been approved by the United States Courts at St. Paul and Denver.

Julesburg division has been sold to U. P.; title to be given at time Gulf receivership is wound up, which I hope will be

at this Guir receivership is wound up, which I nope will be about Oct. 1. Contract has been made with Colorado & Northwestern Ry. Co. for facilities and exchange of business at Boulder. U. P. D. & G. syndicate has secured \$2,700 000 Colorado Central 7 per cent bonds, formerly owned by U. P. interests, and this gives Gulf syndicate control of Colorado Central situation. situation.

Trackage contract has been made with Denver & Rio Grande for line between Pueblo and Walsenburg for a term of years beyond the receivership on mutually satisfactory basis.

basis. An understanding has been arrived at between the U. P., D. & G. consolid ited bondholders and committee of the underlying bonds on lines south of Denver, viz, of the old Denver Texas & Gulf and Denver Texas & Fort Worth mortgages, of which about \$1,750,000 are still afloat. With this understanding, and with control of the Colora to Central situation, it is expected the new company can retire all the underlying bonds and put out a new bond which will be a first lien upon all lines from Greeley via Fort Collins to Tex-line; also branches, including the Central City and Silver Plume divisions and the Cheyenne & Northern Division in Wyoming.

Plume divisions and the transformation provides a state of the transformation of transfo 617.

Wabash RR.—Grand Trunk Ry.—Terms of Trackage Agreement.—It was announced last June that a new arrange-ment had been made by the Wabash for trackage facilities for both freight and passenger trains over the Grand Trunk line between Windsor and Buffalo, and Niagara Falls via Welland Junction. The semi-annual report of the Grand Trunk Ry save Trunk Ry. says :

Trunk Ry. says: The negotiations have resulted in an agreement granting the Wabash company the joint use, for a period of 21 years, of the railways be-tween Windsor, in the province of Ontario, and Black Rock Station, in the eity of Buffalo, via Glencoe, St. Thomas, Welland Junction and Fort Erie, all in the province of Ontario-over the International Bridge controlled by the Grand Trunk between Fort Erie and Black Rock-a distance of about 228.4 miles, and between Welland Junction, via Allanburg Junction and Niagara Falls, in Ontario, to Suspension Bridge, N. Y., a distance of about 172 miles, or a total distance of 246 miles, and to use the two ferryboats ('Lansdowne'' and the slip docks and other facilities of the Grand Trunk at Windsor, and the slip docks and other facilities of the Grand Trunk at Windsor, for transferring its trains across the Detroit River. The arreement provides that the Wabash Co. will pay to the Grand Trunk Co. a rental co unencing at \$275,000 per annum, to be in-creased at the end of every five years by \$25,000 a year, until it reaches a maximum of \$350,000 per annum, at which it will continue for the remaining six years of the agreement. The Wabash Company will also p 4y monthly their quots of the cost of operating and main-taining the joint section, and all other expenses specified in the agree-ment, in the proportion which the engines and cars transported by the Wabash Company shall bear to the whole number of engines and cars conveyed over the joint section, or any portion thereof. The agreement is printed *in extenso* as an appendix to the

conveyed over the joint section, or any portion thereof.
The agreement is printed in extenso as an appendix to the report.—V. #6, p. 475.
West Virginia—Pittsburg RR.—Deposits of Bonds to be Received Till May 1.—The company having failed to provide for the payment of the coupons of the first mortgage gold bonds due 1st April, 1898, Messrs. Brown, Shiplev & Co., Founders' Court, E. C., London, give notice to the bond-holders that it is their intention to tak > immediate steps for the protection of their interests. To this end they request the holders to deposit their bonds not later than 1st May, 1898, in exchange for negotiable certificates.—V. 66, p. 665.
Williamsport & North Branch RR.—Control to be Sold.—

Williamsport & North Branch RR.-Control to be Sold.-The control of this road, which was owned by the late John Satterfield, is to be sold. It was stated at the hearing before Surrogate Marcus that the executors had received an offer of \$450,000 for the railroad, \$50,000 of which is to be paid down. The executors are Henry C. McCormick and the Fidelity Trust & Guaranty Co. of Buffalo. The

Attention is directed to the card of Mr. Robert R. Lock-ett, Attorney-at-law, at Anstin, Texas. Mr. Lockett does a general practice in all the higher Courts in Texas, and is pre-pared to transact legal business for persons outside of Texas. He refers to Governor Chas. A. Calberson, Chief Justice Reuben R. Gaines. Charles S. Morse the Secretary of the Texas Bar Association, and to the heads of any of the State Departments.

-The Guardian Security Trust & Deposit Co. of Balti-more has changed its corporate title to Guardian Trust & Deposit Co. The company does a general banking and trust business, becomes trustee under mortgages or deeds of trust, acts as financial or transfer agent for States, cities or cor-porations, pays interest on deposits, etc., etc.

-The Colonial Trust Company, 222 Broadway, New York City, has issued a pamphlet entitled "Trust companies, what they are, whom they serve, and the advantages they offer." It is of interest to all persons doing, and those in-tending to do, business with trust companies.

The Bank of British North America will open a branch at Dawson City by about the first of June, and is now offer-ing to issue its drafts on that place at its offices, 52 Wall Street, N. Y., and 3 Clements Lane, London.

for FRASER

Times. The Commercial

The Commercial Links. **COMMERCIAL EPITOMES**. FRIDAY NIGHT, April 22, 1998. Now that a state of war exists with Spain by virtue of the dismissal of Minister Woodf ord from Madrid and the order-ing of the North Atlantic squadron to blockade Cuba, a more settled tone has developed in business circles, merchants no longer being perplexed by the uncertainty of the situation. Features of the week have been sharp upward turns to pricess for breadstuffs and cotton on active buying for foreign ac-count, stimulated by the apprehension that a war be-tween Spain and the United States would have a tendency to shut off supplies from Europe. Press dispatches received from Washington stating that the Ways and Means Commit-tee had drafted a bill which would yield sufficient revenue without taxing coffee and teas was received with much sur-prise by the trades interested, inasmuch as operations latterly have been in anticipation of an import duty. Tard on the spot has had only a very moderate sale, as the buyers; prices, however, have advanced in sympathy with the improvement in futures, closing at 5 80c. for prime West-ern and 5:30c for prime City. Refined lard has had only a imited sale, but prices have advanced, closing at 6:20c for refined for the Continent. Speculation in lard for futures delivery has been fairly active and prices have advanced on utside speculative buying, stimulated by the war talk. DALY CLOSING PRICES OF LARD FUTURES. Sat. Mon. Tues. Wed. Thurs. Fri.

been firm. Kentucky tobacco has been firm but quiet.

been hrm. Kentucky tobacco has been firm but quiet. Seed leaf to-bacco has sold slowly but prices have been firmly maintained; sales for the week were 550 cases, as follows: 100 cases 1895 crop, New England Havana, 18@40c.; 50 cases 1896 crop, New England seed leaf, 22@30c.; 100 cases 1893 crop, Wisconsin Havana. 102.; 50 cases 1896 crop, flats, 16c.; 150 cases 1895 crop, Zimmers, 16@17½c. and 100 cases sundries, 6@16c.; also 200 bales Havana at 55c @\$1 10 in bond and 80 bales Sn-matra at 95c.@\$1 70 in bond. Offerings of Straits⁺tin have been limited, owing to very moderate stocks on hand, and as there has been a steady de-mand prices have advanced, closing firm at 14⁺55@14⁺65c. Ingot copper has been in demand for export and home con-sumption, and prices have advanced to 12½@12½c. for Lake, Lead has weakened slightly, but the close was steady at 3 6 c. for domestic. Spelter has been quiet but steady at 4⁺25@4⁺30c. for domestic. Pig iron has had only a limited sale and prices have favored buyers, closing at \$975@11 75-for domestic.

for domestic. Refined petroleum has been easier, closing at 5 60c. in bbls., 3 10c. in bulk and 6 25c. in cases; naphtha quiet at 5 50c. Crude certificates have been quiet, closing at 71½c.; credit balances have been easier at 72c. Spirits turpentine has been quiet and easier, closing at 29@29½c. Rosins have sold slowly; prices have not changed, closing at \$1 42½@1 45. Wool has had only a limited sale, but values have been fairly welk maintained. Hops have been quiet but steady.

COTTON.

FRIDAY NIGHT, April 22, 1898. FRIDAY NIGHT, April 22, 1898. THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 65,372 bales, against 70,074 bales last week and 63,876 bales the previous week, making the total receipts since the 1st of Sept., 1897, 8,211,670 bales, against 6,453,808 bales for the same period of 1896-7, showing an increase since Sep.1,1897, of 1,757,862 bales.

Speculation in cotton for future delivery has been decidedly more active; in fact, during the second half of the week there was considerable excitement to the trading, and prices ad-vanced sharply. The war talk has been the stimulating feature, and the buying for foreign account to cover short feature, and the buying for foreign account to cover short sales has been on a decidedly extensive scale, that interest in the market, it is estimated, being barely 20 per cent of what it was a little while ago. In fact, there seems to have been a general liquidation in the market, as the new buying for in-vestment account has been of comparatively small propor-tions, and recent longs have taken advantage of the upward turn to values to liquidate their accounts. Saturday there was a moderately active market, and prices advanced a few points on moderate buying, principally for Liverpool account. Monday prices advanced early in the day in response to stronger foreign advices and buying for foreign account. Subsequently, however, they reacted under realizing sales by longs, and the close showed prices slightly lower for the day. Tuesday the mar-ket was moderately active and firmer on continued buying for foreign account. Wednesday there was an active specu-lation. There was free buying both for Liverpool and Conti-nental account, and prices for the day showed an advance of 18 to 18 points. Thursday the speculation was again active, but the market was unsettled, prices advancing on free buy-ing for European account, but reacting under realizing sales by longs. To-day there was an active and unse tled market. There was fair buying for foreign account and also by short to cover, while longs were free sellers to realize profits. At the close prices advanced on buying by the Continent, and final figures were 2 points lowerto 4 points higher for the day. The spot market has been firmer but quiet: prices advanced 1-16c. on Saturday, declined 1-16c. on Monday, advanced 3-16c, on Wednesday and closed firm at 6 7-16c. for middling uplands. On the basis of the rates on and off middling as established sales has been on a decidedly extensive scale, that interest in uplands.

On the basis of the rates on and off middling as established by the Revision Committee, the prices for a few of the grades would be as follows:

UPLANDS.	Sat.	Mon	Tues	Wed	Th.	Fri.

THE VISIBLE SUPPLY OF COTTON to-night, as made up by THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph is as follows. Continental stocks, as well as those for Great Britain and the afloat are this week's re-turns and consequently all European figures are brought down to Thursday evening. But to make the total the complete figures for to night (Apr. 22), we add the item of exports from the United States including in it the events of Friday only. Ingutes for too-ingut (Apr. 22), we add the item of exports of Friday only.the United States including in it the exports of Friday only.1898Stock at Liverpool...bales. 1,250,0001,254,0001,250,0001,250,0001,250,0001,250,0001,250,0001,2006,0001,2001,2001,2001,0001,0001,0002,0005,0002,000363,00012,0002,0001,0002,0002,0002,0002,0002,0003,0002,0002,00011,0002,0002,0002,0002,0002,0002,0002,0002,0002,0002,0002,0002,0002,0002,0002,0002,0002,0002,0002,000</ the United States including in it the exports of Friday only.

The above figures indicate an *increase* in the cotton in sight to-night of 613.742 bales as compared with the same date of 1897, a gain of 485,438 bales over the corresponding date of 1896 and a decrease of 541,844 bales from 1895.

AT THE INTERIOR TOWNS the movement-that is the receipts for the week and since September 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period of 1896-97—is set out in detail below.

* Decrease during week.

*Decrease during week. WEATHER REPORTS BY TELEGRAPH.—Our telegraphic ad-vices from the South this evening are, on the whole, of a favorable character. Where rain has fallen during the week the precipitation has been light as a rule, and at a few points rain is said to be needed. Planting has made good progress generally. The river is falling rapidly at Memphis and Helena, and but little damage has been done. A break occurred in the levee at Bayou Lafourche on Tuesday. *Galveston, Texas.*—Rain has fallen on three days of the week to the extent of one inch and sixteen hundredths. The thermometer has ranged from 59 to 79, averaging 69. *Palestine, Texas.*—There have been showers on three days the past week, with a precipitation of thirty-six hundredths of an inch. Average thermometer 67, highest 82 and lowest 52.

of an in lowest 52.

Huntsville, Texas.—There has been rain on two days during the week, the precipitation being seventy hundredths of an inch. The thermometer has averaged 68, the highest of an inch. The thermometer has averaged 68, the being 82 and the lowest 54. Dallas, Teras.—It has rained on two days of the

week, to

the extent of two inches and four hundredths. The ther-mometer has averaged 65, ranging from 49 to 81. San Antonio, Texas.—There has been rain on one day the past week to the extent of one hundredth of an inch. Mini-

mum temperature 54. *Luling Texas.*—Rain has fallen on two days of the week to the extent of one inch. Average thermometer 69, high-est 84, lowest 53.

Columbia Texas.—We have had rain on two days during the week to the extent of ninety-one hundredths of an inch. The thermometer has averaged 65, the highest being 81 and the lowest 50.

Cuero, Texas.-The week's rainfall has been eighty-seven

hundredths of an inch on two days. The thermometer has

averaged 68, ranging from 56 to 80. Brenham. Texns.—There has been rain on one day of the week, the rainfall reaching seventy-eight hundredths of an inch. The thermometer has ranged from 56 to 84, averaging

70. Weatherford, Texas — There has been rain on two days our-ing the week, the rainfall reaching two inches and eighty-six hundredths. The thermometer has averaged 65, ranging

from 50 to 80. New Orleans, Louisiana.—There has been rain on two days of the week, the precipitation reaching one inch and twenty-nine hundredths. The thermometer has averaged 69. Shreeport, Louisiana.—Rain has fallen on two days of the week, to the extent of thirty-six hundredths of an inch. Average thermometer 62, highest 81, lowest 46. Columbus, Mississippi.—We have had rain on two days during the week, the precipitation being two inches and seven hundredths. The thermometer has averaged 64, the highest being 86 and the lowest 45. Leland, Mississippi.—Telegram not received. Vicksburg, Mississippi.—There has been rain on two days during the week, the rainfall reaching forty hundredths of an inch. The thermometer has ranged from 56 to 82, aver-aging 63.

aging 63.

an inch. The thermometer has ranged from 56 to 82, aver-aging 63. Greenville, Miss.—The week's rainfall has been heavy. Little Rock, Arkansas —It has rained on one day of the week, the rainfall being ten hundredths of an inch. Aver-age thermometer 65, highest 82 and lowest 48. Helena, Arkansas.—The river is falling rapidly, but very little damage has resulted from the high water. Plowing, and planting are in progress. There has been rain on two days during the week, the rainfall reaching one inch and twenty-eight hundredths. The thermometer has averaged 61, the highest being 75 and the lowest 45. Memphis, Tennessee.—Farm work has made rapid progress except on overflowed lands. The river is now 30 4 feet on the gauge and is falling rapidly. It has rained on two days of the week, to the extent of twenty six hundredths of an inch. The thermometer has averaged 65, ranging from 51 to 77.4. Nashville, Tennessee.—The weather has been unfavorable for farming operations. It has rained on one day of the week, to the extent of twenty hundredths of an in. The ther-mometer has ranged from 42 to 78, averaging 62. Mobile, Alabama.—Cotton planting is making good prog-ress. Some uneasiness is apparent in labor circles on ac-count of the war. We have had rain on two days of the week, the rainfall being one inch and twenty hundredths, and there were good rains in the interior the early part of the week. Average thermometer 65, highest 78 and lowest 50. Montgomery, Alubama.—Planting operations continue un-interrupted. We have had rain on one day during the week, the rainfall being two hundredths of an inch. The ther-mometer has averaged 66, the highest being 83 and the lowest 49. Selma, Alabama.—There has been rain on one day during the week, the rainfall reaching eight hundredths of an inch.

To west 49. Selma, Alabama.—There has been rain on one day during the week, the rainfall reaching eight hundredths of an inch. The thermometer has averaged 65, ranging from 45 to 83. *Madison, Florida.*—Rain is badly needed. We have had one shower during the week, to the extent of twenty hun-dredths of an inch. The thermometer has ranged from 52 to 85. dredths of an inch. to 85, averaging 67.

Savamah, Georgia.—We have had rain on two days of the week, the precipitation being forty five hundredths of an inch. The thermometer has averaged 69, the highest being 86 and the lowest 48

86 and the lowest 48 Augusta, Georgia.—There has been rain on one day during the week to the extent of thirty-one hundredths of an inch. The thermometer has averaged 65, ranging from 45 to 84. Charleston, South Carolina.—Rain has fallen on two days of the week to the extent of forty-seven hundredths of an inch. Average thermometer 68, highest 82, lowest 49. Stateburg, South Carolina.—Cotton planting is making rapid progress. We have had a thunder-storm and light rain. on one day of the week, the rainfall reaching ten hundredths of an inch. The thermometer has averaged 66.2, the highest of an inch. The thermometer has averaged 66.3, the highest being 85 and the lowest 45.

Greenwood, South Carolina.—There has been rain on one day the past week, to the extent of seven hundredths of an inch. The thermometer has averaged 64, ranging from 51 to 77.

Wilson, -It has rained on one day of the North Carolina.week to the extent of thirty-eight hundredths of an inch. The thermometer has ranged from 44 to 84, averaging 65.

The following statement we nave also received by telegraph, showing the height of the rivers at the points named at 3 o'clock April 21, 1898, and April 22, 1897.

	Apr. 21, '98.	Apr. 22, '97.
	Feet.	Feet.
New Orleans	16.3	190
Memphis		35.4
Mashville		12.8
ShreveportAbove zero of gauge.		21.3
Vicksburg	49.0	51.6

JUTE BUTTS. BAGGING, &c.—There has been nothing doing in jute bagging during the week under review, but quota-tions are nominally unchanged at 4% c. for 1% lbs., 5c. for 3 lbs. and 5% c. for 2% lbs. The market for jute butts has been inactive. Quotations are nominally '75@'77% c. for paper quality, 1% c. for mixing and 1% c. for spinning cut-tings, to arrive.

INDIA COTTON MOVEMENT FROM ALL PORTS.—The receipts of cotton at Bombay and the shipments from all India ports for the week ending Apr. 21, and for the season from Sept. 1 to April 21 for three years have been as follows:

	1	.897-98.		189	6-97.	1	189	5-96.
Receipts at	Week	c. Since Sept.					Week.	Since Sept. 1.

EUROPEAN COTTON CONSUMPTION TO APRIL 1 .- We have received to-day (Friday) by cable Mr. Ellison's figures brought down to April 1. We have also received the revised totals for last year and give them for comparison. The spinners' takings in *actual* bales and pounds have been as follows:

October 1 to April 1.	Great Britain.	Oontinent.	Totat.
For 1597-98. Cakings by spinnersbales Average weight of bales.lbs Fakings in pounds			502.3
For 1896-97. Fakings by spinnersbales A verage weight of bales.lbs. Takings in pounds	502	2,117,000 485 1,172,720,000	492.6

According to the above, the average weight of the deliver as in Great Britain is 512 pounds per bale this season, against 502 pounds during the same time last season. The Continen al deliveries average 495 pounds, against 485 pounds las year, and for the whole of Europe the deliveries average 502.3 pounds per bale against 492.6 pounds last season. Our dispatch also gives the full movement for this year and last rear in bales of 500 pounds year in hales of 500 pounds.

Oct. 1 to April 1.		1897-98.		1	1896-97.		
Bales or 500 lbs. each, 000s omitted.	Grea: Britain	Oonti- nen:	Totas.	Grea Brita	Oon nen	Tota.

Weekly Consumption. 00s omitted.				-			
In October	65,0	85,0	150,9	64.0	83.0	147,0	
In November	65,0	85,0	150,	64,0	83.0	147,0	
In December	65,0	85.0	150,0	64,0	83,0	147.0	
In January	65,0	86,0	151,0	64,0	84.0	148.0	
In February	65,0	86.0	151.1	64.0	84,	148.0	
In March	65,0	86.0	151.0	64.0	84.^	148.0	

Note.—Our cable indicates that Mr. Ellison has revised his figures of consumption for this season in Great Britain by adding 1,000 bales of 500 lbs. each to the weekly rate since the first of October. On the Continent 1,000 bales per week have been added to the weekly average for October. November and December. Last year's figures for the Continent have also been revised.

The foregoing shows that the weekly consumption is now 151,000 bales of 500 pounds each, against 143,000 bales of like weights at the corresponding time last year. The total spinners' stocks in Great Britain and on the Continent have increased 182,000 bales during the month, and are now 309,000 tales more than at the same date last season.

GOVERNMENT WEEKLY COTTON REPORT. — Mr. W. L. Moore Chief of the Weather Bureau of the Agricultural Depart ment, made public on Tuesday the following telegraphic reports on the crops in the Southern States for the week ording April 18 ending April 18.

Féports on the crops in the Southern States for the week ending April 18.
North CAROLINA.-Cool, cloudy, rainy weather, causing slow germination and growth, until Saturday; then warmer, favorable; planting cotton begun.
South CAROLINA.-Weather too cool for germination; heavy rain in places interrupted planting; ootton planting progressing rapidly cotton germinating slowly.
GEORGIA -Cool weather and lack of sunshine detrimental to advancement of vegetation; cotton planting general, some up, but stands bad; warm sunshine and showers needed.
FLORDA.-Week very unfavorable; cool, dry and windy: soattered showers insufficient to relieve drought; cotton planting glayed, some up, but slow growth.
ALABAMA -Cool weather retarded growth of all crops; cotton lands all prepared and considerable planting done, but cotton coming up slowly.
MISSISSIPPI-Showers beneficial but too cool for growth of crops; cotton planting nearly finished over central and southern portion, and becoming general over northern.
LUISIANA.-Favorable week for farm work; ploughing and seeding of cotton progressed rapidly; week too cool for growth of crops; cotton induction and northern parishes; warm weather generally needed.
TEXAS.-Warmer, with good rains where most needed; weather generally favorable for farming operations, except in some localities where rain was too heavy, cotton planting has continued and recent planting coming up well over southern and central portions, and planting only in some localities where rain was too heavy.

ARKANSAS. - Weather favorable for farm work; much cotton land prepared and some cotton planted; brisk winds of past week rendered surface of ground too dry, needing rain now. TENNESSEE. Cool, wet weather early in week delayed ploughing and planting except on uplands; last days generally favorable and work rapidly pushed forward. MISSOURI. - Week fairly favorable for work except in some central and northern counties, where heavy rains fell 13th. OKLAHOMA. - Cotton planting begun; season about two weeks back-ward.

These reports on cotton are summarized by the Depart-

These reports on cotton are summarized by the Depart ment as follows: Cool weather in the cotton region has not been favorable for ger-mination of seed planted, especially in the central and eastern por-tions, where it is coming up slowly, and in some sections to bad stands. In central and southern Texas the recently planted is, how over, coming up well and planting is well under way over the north-ern part of the State. Some planting has been done in Arkansas and North Carolina, but none has yet been done in Tennessee. bad

North Carolina, but none has yet been done in Tennessee. HIGH WATER IN THE MISSISSIPPI.—The first break in the levees along the Mississippi River this year occurred on Tuesday, April 19, on the Melenson plantation at Bayon Lafourche, La. The break was reported to be 30 feet wide. The Levee Board does not think it will attain much greater dimensions. The levee, at the point where the break oc-curred, is between 5 and 6 feet high, and the flood running through the crevasse will not do much damage. It will probably overflow some of the neighboring plantations and then run off rapidly into the streams which intersect that section in all directions.

NEW ENGLAND COTTON MILL SITUATION.—The strike at the cotton mills in New Bedford, Mass., has practically ended, except in the case of the spinners.

SHIPPING NEWS.—As shown on a previous page, the exports of cotton from the United States the past week have reached 72,656 bales. The shipments in detail, as made up from mail and telegraphic returns, are as follows: m-4-7 1 - 7

BREADSTUFFS.

FRIDAY, April 22, 1898.

BREADSTUDEES. FRIDAR, April 22, 1898. This in the market for wheat flour has been fairly advanced in sympathy with the upward tendency to values for the grain. The demand has been fairly well distributed between the home trade and exporters, as dealers have shown some disposition to anticipate their requirements as a result of the war talk, and shippers have been moderate buyers, their purchases including a small line of spring patents for South Africa at full values. Rye flower has hat a moderate sale and prices have shown a hardening tendency. Corn meal has been in fairly good demand, as both the home tade and exporters have been buyers, and prices have ad-and exporters have obeen buyers, and prices have ad-and exporters have been buyers, and prices have ad-tade and exporters have been buyers, and prices have ad-tade and exporters have been buyers, and prices have ad-tade and exporters have been buyers, and prices have ad-tade and exporters have been buyers, and prices have ad-tade and exporters have been buyers. South the home tade and exporters have been buyers, and prices have ad-tade and exporters have been buyers, and prices have ad-tade and exporters have been buyers, and prices have been steadily privading active export demand, stimulated by the war talk. Immediately following our last, prices advanced sharply in response to decidedly stronger foreign advices and an active export business. Monday there was a hesitating, market advices and an active export demand. Wednesday there was a fairly active market, and in response to decidedly stronger European advices and large purchases for export prices advanced, closing 4/@1%c. higher for the day. Thurs-day the speculation continued fairly active, and as a result of the war talk and the continued demand from exporters prices were again higher, closing 3/@1%c. up for the eay. To-day

the market opened decidedly higher on the war talk and in response to decidedly stronger foreign advices. Subsequently, however, the market turned easier under realizing sales, and at the close the distant deliveries showed a decline on the day. The spot market has been active, as exporters have been large buyers To-day the sales for export were 300,000 bushels. No. 2 red winter was quoted at 113¹/₄ c. f. o. b. afloat for prompt delivery down to 89⁵/₈ c. f. o. b. afloat for late Sep-tember delivery.

DRY GOODS TRADE THE

THE DRY GOODS TRADE New York, FRIDAY, P. M., April 22, 1898. There has not been any improvement in the volume of business transacted during the week as compared with recent weeks. The quick developments at Washington and the growing certainty that diplomacy would speedily give place to resolute action only made more pronounced the disposi-tion on the part of buyers to await the definite outcome; hence nearly all business for forward requirements has again been held in abeyance, and the day to-day demand governed by such needs as had to be quickly met. With the jobbing trade now growing quieter, week by week, as the end of its spring season approaches, these needs are of a modest character in all departments, and both on the spot and through mail orders business has been of limited proportions. Further, the tone of the market has ruled easy. There is no positive pressure, for, as stated last week, sellers do not deem it advisable, in face of the indifference of buyers, to force thand the buyer can frequently do somewhat better than a week ago. In one direction, however, war is helping prices, the Government demand for cotton ducks patting up prices some 5 per cent. In the woolen goods division of the market the demand continues slow and prices easy. Collections con-tinue good.

tinue good. WOOLEN GOODS.—The demand for men's wear woolen and worsted fabrics has again been on quite a limited scale, both re-orders and new business proving light. Manufac-turers are in some instances curtailing production, recent cancellations of orders having left them with unexpected stocks. The tone of the market is very dull and prices are irregular in both staple and fance lines. Fine grade fancies have had a particularly disappointing season. In cotton-warp lines sales have been light and only a slow demand is reported for satinets and doeskin jeans. The overcoating da-mand is slow, and in cloakings business has been quiet, but prices are without quotable change. Fall dress goods have not sold any more freely than before and the market is barely

ed for ERASER

steady. Flannels are in quiet request and blankets dull at previous prices.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending April 18 were 10,907 packages, valued at \$361,512, their destination being to the points specified in the tables below :

NEW YORK TO APRIL 18.	[1898.		1897.

From New England mill points direct.

FOREIGN DRY GOODS — The demand for seasonable lines of foreign merchandise has been slow and featureless. Orders for fall have proved indifferent in all lines, but there is a feeling in the market that the demand will now improve, as both buyers and sellers know the condition under which business must be prosecuted.

Importations and Warehouse Withdrawals of Dry Goods The importations and warehouse withdrawals of dry goods at this port for the week ending April 21, 1898, and since January 1, 1898, and for the corresponding periods of last year are as follows:

Terms of Advertising-(Per inch space.)

BIANDING BUSINESS CARDS. Six months (26 times). 43 00 Two months (8 times)..... 18 00 Twelve Months (52 times). 58 00 Baltimore, Md.—Debt Limitation Unter New Charter.— Under the new city charter granted by the Legislature March 22, 1898, and now operative, the funded debt of the city is limited to 7% of the "taxable basis." The wording of the section is as follows: "SECTION 2. And be it further enacted that the Mayor and City Council of Baltimore shall contract no debt in excess of 7 per centum of its taxable basis, and any ordinance providing for any such debt to be contracted, as well as the certificates of debt issued for the same, shall be void." According to Messrs. Hambleton & Co., Baltimore, there is some question whether "gross" or "net debt" is meant in the above section, and if "net debt" there is no formula given as to the method of determining that debt. The City Register of Baltimore, in determining the "net debt" of the **Gity**, deducts from the gross debt not only the sinking funds, but the value of the water-works, &c. Ordinarily only sinking funds and water stock are deducted. Charlotte, N. C.—Bonds Illegal.—Local papers state that the Supreme Court of North Carolina had declared illegal the Charlotte bonds awarded to E. D. Shepard & Co., New York, in:January, 1897. The bonds amounted to \$20,000, bearing 5% interest, payable semi-annually, maturing in 30 years, and were issued for the construction of water-works and a sewer system. The New York firm submitted the issue to Judge Dillon of New York, who discovered that the popu-lar vote by which they were authorized had not included the authorization of taxes to be levied to pay for the bonds and the interest on them. He accordingly advised against ac-cepting them until a North Carolina Court should decide that the bonds would be a valid obligation upon the city, not-withstanding the omission. The case was decided against the city a few months ago. The decision of the Supreme Court re-affirms the former verdict. The case has excited wide inon this point.

on this point. Greeley County, Kans.—Bond Litigation.—We take the following dispatch from the Kansas City "World" of April 15, 1898: "A case involving the validity of \$35,000 bonds of Greeley County has been appealed to the State Supreme Court by Attorney-General Boyle. "The bonds in question were issued by the county many years ago. They were purchased by the State School Fund Commissioners. After a time the county defaulted in in-terest, and when Attorney-General Boyle came into office he brought suit to enforce payment of principal and interest. The District Court of Greeley County held in favor of the county and against the State. It held that the bonds had been illegally issued. The Attorney-General now appeals from that decision." Jones County, Texas.—Bond Litigation.—The county has

been inlegally issued. The Attorney-General now appears from that decision." Jones Couaty, Texas.—Bond Litigation.—The county has brought suit in the District Court of Travis County to can-cel \$10,000 funding bonds owned by the Permanent School Fund of Ma agorda County. St. Clair County, Mo.—Bond Litigation.—We take the following from the "St. Louis Post-Dispatch" of April 12, 1898: "Gen. John B. Henderson, of Washington, D. C., formerly of St. Louis, is in St. Clair County, Mo., endeavor-ing to effect a compromise in the long-pending litigation over an issue of railroad bonds of \$25),0 0 on which never a pay ment has been made of either principal or interest. "Under the old Drake Constitution the bonds were issued in aid of a prospective railroad. As the road was never built, the taxpayers repudiated payment. The State courts held that the county was not liable, but the United States Court, proceeding on the theory that the bondholders were innocent purchasers, held the county liable and ordered a tax levied to pay principal and accrued interest, aggregating nearly \$900,-000, about one third of the assessed valuation of the whole county. county

"But payment could only be made through the regular channels, and in spite of the Court's decision the County Court has persistently refused to make the levy. Several members of the Court have served terms for contempt, but "Bond Proposals and Negotiations this week have been as follows: Albany, Ga.—Bonds Voted.—The election held April 18, 1898, resulted in favor of issuing \$25,000 5% 25-year gold

they refused to issue the levy, and one of the qualifications for office is that the candidate shall be willing to go to jail

for office is that the candidate shall be willing to go to jail rather than be a party to the levy. "Some time ago the taxpayers offered to pay the face of the bonds without interest. This was refused by the bond-holders, and all attempts at compromise on any other basis have failed. Gen. Henderson is himself a large bondholder and has strong hopes of effecting a compromise."

Bond Calls and Redemptions.

Brazoria County, Texas.—Bonds Redeemed.—The county has redeemed \$550 bridge bonds, held by the State Perma-nent School Fund.

nent School Fund. Caldwell County, Texas.—Bonds Redeemed.—The county has redeemed \$3,000 bridge bonds. Codington County, S. Dak.—Warrant Call.—The county has called for payment all warrants registered on general fund prior to Register No. 2,436. Also all warrants on poor fund registered prior to Register No. 192.
