### REVIEW OF FEBRUARY.

After the intense speculative activity of the month preceding a comparatively quiet state of things developed during February. On the Stock Exchange the volume of business was not small, judged by ordinary standards, but as contrasted with the phenomenal transactions of January there was a marked falling off. Stock sales reached a million shares on only one day, whereas in January there were thirteen days when that total was exceeded. There was a marked difference also in the matter of the price fluctuations. In January the situation was such that almost any day a person might without discrimination or judgment buy a stock in the morning and see a large profit to his credit in the afternoon. In February this gave place to a more rational and wholesome state of things. There were many recessions in values but also a good many further advances. As a consequence the market had a decidedly ragged appearance at times. Yet the undertone continued strong.

While the reasons for the reaction and comparative quietude are thus seen to have been largely inherent in the market itself, circumstances and conditions aided the movement. The ratification of the Peace Treaty with Spain by the United States Senate on Monday, February 6, by a vote of 57 to 27, would doubtless have proved a stimulating influence had it not been coincident with the announcement of disturbing developments in the Philippines. It was known before the opening of business on the 6th that a great battle had taken place the day before at

Manila, in which both the army under Gen. Otis and some of the vessels of Rear Admiral Dewey's squadron were engaged. Our forces gained a victory all along the line, the insurgents being driven back with heavy losses. The number of their killed and wounded was estimated at many thousands, while our casualties were reported at only two hundred or three hundred. But the action of the insurgents was taken as reflecting a very serious situation; and later developments all proved more or less disquieting. On the 11th our forces under Gen. Miller took possession of Iloilo, the capital of the island of Panay. Subsequently frequent skirmishes by our outposts at Manila were reported. On the 22 a general attempt at incendiarism in Manila was made. The movement was finally checked, but not until a very large amount of property had been destroyed. On the 24th a cable message from Dewey, saying that for "political reasons" the battleship Oregon should be sent to Manila at once, created considerable anxiety. On the 28th the Stock Exchange was depressed by a rumor that our ships had sunk a German war vessel. The rumor was wholly unfounded, and in fact the same day advices came that German interests had been entrusted to our care and that the German fleet would be withdrawn from the Philippines.

The weather conditions during the month were also such as to retard activity and produce a feeling of quietude. In the early part exceedingly low temperatures were reported, the thermometer here in this city dropping below zero on several successive days. On the 12th and 13th when the cold was at its worst a snow storm (or rather series of storms) of extraordinary energy and severity passed over practically the whole Eastern half of the country from Texas to the Canadian border. This climatic disturbance was comparable only to the memorable blizzard of March 12 1888. Whether in fury and destructiveness it equaled this earlier disturbance will probably always be an open question. It certainly covered a much wider territory, the South particularly being a sufferer this time, unheard of temperature records being reported from that section, as shown at length in our Cotton Department in the CHRONICLE of February 18, page 339. For the time being an embargo was put on ordinary business. In New York and the other large Atlantic cities nearly all the surface lines were tied up for from one to three days, and many of the streets re-

mained impassable to wagon traffic for almost a week. The larger steam roads, like the New York Central, the Pennsylvania, the New Haven and the Long Island suffered hardly less seriously; a good many trains had to be abandoned and it took several days to open up the lines again their entire length. The widespread nature of the disturbance is shown in the general decreases in railroad gross earnings for the second and third weeks of the month. Whether or not much damage was done to the growing winter-wheat crop in the South and the Middle West cannot yet be positively determined. Prices were not greatly affected, cash wheat selling at 88½ on the 28th against 82½ on January 31 and the May option at 78½ against 78¾.

The general business situation continued very satisfactory. In the iron and steel trades great activity was reported and sharp and pretty general advances in prices occurred. In the dry goods trade the bad weather considerably retarded business. Nevertheless, in the cotton goods division stocks were reported absolutely "cleaned up" in some quarters and production sold ahead for a long time to come. The price of print cloths was further advanced to 2½ cents per yard, this comparing with 2 7-16 cents on Jan. 31.

Prices of anthracite coal were also advanced. There had been an improved demand for coal for some time, and when the great snow-storm and exceedingly cold weather came, stopping work at the mines, blockading the railroad lines, filling the rivers and bays with ice and rendering the city streets for the time being almost impassable, a decided stimulus was naturally given to the anthracite trade. The Lackawanna announced an increase of 20 to 40 cents in tidewater prices, and the other companies were only too glad to follow suit. In retail prices the advance was much greater; in fact, the retailer in each case got practically what he chose to ask.

The higher prices and augmented inquiry were the cause of the great strength of the anthracite properties on the Stock Exchange. Central New Jersey stock was especially prominent in this respect, touching 112 on the 23d, against 98½ on the 8th. All the granger properties were also strong and active, Burlington & Quincy being a leader among these on reports of a general refunding of the company's debt at a lower rate of interest. The action finally taken by the managers did not appear to meet expectation, and a sharp reaction occurred. The stock sold at 131½ on the 8th, at 149½ on the 18th, and closed at 141½ on the 28th. Among the industrial properties American Tobacco common, evidently on manipulation, made a sensational rise from 132½ to 191½. The shares of a number of New York City corporations were likewise very conspicuous in this respect, Consolidated Gas jumping from 196½ to 222, Third Avenue RR. from 169½ to 242, and Metropolitan Street Railway from 215½ to 249½. Manhattan Elevated attracted a great deal of attention by reason of the local political movement against the company—the Park Commissioners giving six months' notice that the elevated structure must be removed from Battery Park and the local legislative bodies passing resolutions compelling the company to put up drip pans along the entire length of the line, besides requiring the running of trains every five minutes during the day and night, etc. The stock did not fall off under these moves, and reports were current that some of the political agitators were short of it.

The only feature of the foreign exchange market was its strength. There was a pretty steady demand for bills to remit for securities bought in London on New York account, while on the other hand there was a reported absence of commercial bills. Exchange rates were advanced one-quarter of a cent for long and short sterling on the first day of the month, and with the exception of a temporary reaction on the 3d rose steadily thereafter. On the second the Bank of England reduced its discount rate from 3½ to 3 per cent. On the 21st the Bank of Germany marked its rate down from 5 to 4½ per cent. Some gold was received from Europe, but it was on previous engagements.

ERROR.—On page 8 of the February QUOTATION SUPPLEMENT the "sales in December, 1898," of the following bonds (owing to a typographical error) were incorrectly reported and should have been as below: Ann Arbor 1st 4s, \$69,000; Atch. Top. & Santa Fe gen. 4s, \$4,499,000; do. registered none; Atch. Top. & Santa Fe adjustment 4s, \$9,614,000; Atlantic & Danville 1sts, \$4,000. In the January SUPPLEMENT three ciphers (000) were omitted from the "sales in year 1898" of Atch. Top. & Santa Fe gen. 4s and adjustment 4s. These should have read \$42,929,000 and \$95,558,000 respectively.

# BOSTON STOCK EXCHANGE.

## MONTHLY AND YEARLY RECORD.

The following tables furnish a record of Boston Stock Exchange transactions in railroad securities for the past month and for the year 1899. Also a record of transactions in mining stocks for the past month and for the year 1899. The railroad securities which are active on the New York Stock Exchange are omitted from this list. We give the securities in alphabetical order under the three general headings, Railroad Bonds, Railroad Stocks and Mining Stocks.

In comparing New York and Boston prices, it should be noted that bond prices in New York are flat prices—that is, the price includes the accrued interest, while in Boston accrued interest must be paid in addition to price. It should also be remembered that New York stock prices are per cent while those in Boston are dollars per share.

# GENERAL QUOTATIONS

## —OF— BONDS AND STOCKS.

1. In the following twenty-seven pages of tables quotations are given for all securities listed on any Stock Exchange in the United States; also for all leading unlisted and inactive securities for which we have been able to obtain reliable prices.
  2. Quotations from all Stock Exchanges are as near as possible for the last day of February. Of course the coupon, is there be one, maturing between the date of quotation and the date of this publication, is not deducted from the price.
  3. Bond prices marked thus (§) indicate that the purchaser must pay accrued interest in addition to the price given. The method of quoting on the New York Stock Exchange is to quote the prices flat (that is to include the accrued interest in the price), and hence in the tables below no mark is now affixed where this method of quoting is followed.
  4. Stock prices marked thus (†) are per share. All others are per cent except bank stock prices.
  5. It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.
  6. The following abbreviations are often used, viz.; "M." for mortgage; "g." for gold; "g.d." for guaranteed; "end." for endorsed; "cons." for consolidated; "conv." for convertible; "s. f." for sinking fund; "l. g." for land grant.
- Notice Change.**—We no longer affix a mark to prices quoted flat, but only to those which require payment of accrued interest in addition to the price. Designating mark in this instance is (§).

† Prices per share not per cent.

MUNICIPAL BONDS.

Prices marked (\*) are flat prices—that is, the purchaser does not pay accrued interest in addition. In all other cases accrued interest must be added to the price. The figures in the column "to net" indicate the basis on which the securities sell or the interest rate which the securities if held to maturity, will net to the purchaser at the present market price. It should be borne in mind that municipal bonds are not subject to such decided fluctuations in value as are securities which form a basis for speculation.
