VOL 68

SATURDAY, MAY 6, 1899.

NO. 1767.

CLEARING HOUSE RETURNS.

For the month of April the clearings make a very satisfactory exhibit. Contrasted with the month of 1898, the aggregate for the whole country records an excess of 66'4 per cent. For the four months the gain is 46'8 per cent.

The week's total for all cities shows a gain of 64.7 per cent over 1898. The increase over 1897 is 101.2 per cent and the increase over 1898 is 69.6 per cent. Outside of New York the excess compared with 1898 is 31.1 per cent, the gain over 1897 is 50.6 per cent, and the excess over 1896 reaches 36.4 p. c.

Monday our Stock Exchange had quite a bad turn, the result of an accumulation of unfavorable conditions and reports. Chief among these was the state of foreign exchange, the rates for which hovered suggestively near the gold-export point; indeed, it was rumored on that day that an outflow of that metal was sure to occur at the close of this week. What gave added plausibility to the rumor was the fact that the transfer of the 20 million dollars of gold due by our Government to Spain began on Saturday. It was at the moment assumed that this transfer would give rise to a new demand for exchange and put the rates up still higher than they were, so that gold would of necessity go out. Indeed, the rates did rise and the Street drew the inference that an outflow of the metal thereby became assured. Of course the fear was without substantial cause, and the next day all but one foreign exchange banker pronounced it so. A large amount of American money is still in Europe; besides, it turned out that three quarters of the exchange needed to make the 20 million dollars transfer to Spain had, previous to the issue of the warrants by the Government, been already accumulated by the National City Bank.

This incident and the extreme sensitiveness shown over a possibility of gold exports should serve as a warning to Congressmen and to the Administration. Current report leads us to fear that the currency proposals contemplated by the coming Congress may not be as radical as was hoped; that no new bank note legislation is to be undertaken. We trust there is no truth in this report. The experience had the current week ought to convince every one that a complete cure for our defective currency arrangements should be provided as soon as possible. What is needed is to put our finances into a condition so secure that an outflow of gold may cause no more alarm in New York than it causes in London. That situation can only be attained by a thorough reform.

There were, as already said, several other influences at work against the market on Monday which helped to cause the "slump" that day. The serious cut in the rates charged for gas by our city organizations, and the bitter contest between the gas companies it apparently indicated as in progress, was one of them. Since then the fight has gone on, but as it has not served to depress the stocks of the companies concerned in it, the contest has become in public estimation of less moment. Monday, also, there were especially unfavorable reports in circulation respecting winter wheat; the planting of spring wheat likewise in important districts was claimed to be very backward. These rumors did not more than last out the day. The chief adverse influence, however, other than the fear of gold exports was the passage of what has been called the Ford Franchise Tax Bill. This piece of legislation was born of the prejudices cultivated by politicians against corporations and every other combination of capital. The danger from it and other like legislative transactions grows mainly out of the two facts, (1) the class who let others do all that their thinking for them is larger than the class who think for themselves, and (2) that the unthinking class get such distorted ideas of wealth that they are easily led the Bank is thus reduced to \$215,000,000. to look upon any organization or combination of cap-

ital as a fair subject for oppressive tax burdens. It never occurs to them to think what a debt this vast country owes to just such combinations for all its development and what a paralysis would settle upon the activities of to-day if the spirit of these laws could be carried out and all combinations suppressed.

We bring these thoughts together because Monday was an epochal day and because the influences we have mentioned were all active in making it so. No doubt, too, the public nerves have become quite tense and high-strung through the rapid rate at which capital seems to be going into industrial organizations. This situation means a conversion of floating capital into fixed forms which has a limit. We are, however, inclined to think that rather more is made of this feature than it deserves. It is a matter of doubt whether nearly as large a portion of these industrial securities has gotten into the hands of outsiders as many imagine. What the Amalgamated Copper Company has done in offering \$75,000,000 of stock to the public and having it subscribed for fully five times over (approximately \$400,000,000) is not typical but special. The names connected with that organization not only represent financial strength but, better still, unsurpassed industrial capacity and experience, and would draw as very few others could. Under all these adverse circumstances perhaps the most significant feature of the situation was not the break on Monday but the very marked recovery on Tuesday. Since Tuesday there has been a variable market, ups and downs from day to day, but within narrow limits, the movement vesterday being strongly in the direction of lower prices.

The most notable event of the week has been the payment to Spain of the twenty million dollars indemnity money. On Saturday last the State Department officially requested the Treasury Department to pay the money to M. Cambon, the French Ambassador, who had been duly authorized by Spain to receive it. Thereupon four warrants of \$5,000,-000 each were drawn, and on Monday M. Cambon received and receipted for the same. Not until Thursday was anything further heard of the transaction. On that day the first of three warrants was delivered by the representative of the French Embassy to Mr. James Stillman, President of the National City Bank; it passed through the Clearing House yesterday (Friday), on which day the Treasury was debtor to the Clearing House about \$5,500,000. On Wednesday, it is stated, two more of these warrants will be delivered to the same bank. When the final \$5,000,000 warrant will be deposited, has not yet transpired. The reason for the selection of the National City Bank as the depositary and collector of this money is that the City Bank sustains intimate relations with the Deutsche Bank of Berlin, which bank is understood to have contracted with the Bank of Spain for the transfer of the money. A Madrid cable under date of April 30 said that the Bank of Spain has accepted in payment in part of its advances to the Treasury all the bills the United States has authorized Spain to draw for the indemnity and that the Bank has consented to regard the amount as 115,750,000 pesetas (about \$23,150,000) though the rate of exchange is over 19. Spain's indebtedness to

Industrial affairs continue highly satisfactory. | The volume of trade is large, and profits in most The 'encouraging lines fair, in some exceptional. nature of the situation is strikingly reflected in the decreased mortality in trade. Col. W. M. Grosvenor has compiled the statistics for the month of April for "Dun's Review," and he finds that the mercantile failures for that month were the smallest of any month as far back as his compilations What may have happened in the far-off go. no monthly which records exist for years cannot be stated, though he thinks the indications are that one of the months in the second quarter of 1881 may have yielded smaller failures-very naturally so in view of the far smaller volume of business then transacted. But in the nearly six years during which the monthly statistics have been kept, there has been no month in any year in which failures were as small as those of last month. In number they were only 666, against 927 in April 1898, 941 in April 1897 and 1000 in April 1896. In amount of liabilities they were \$5,790,096, against \$9,367,802 in 1898 and \$17,-613,477 in 1897. It is pointed out, furthermore, that the improvement does not extend to any one department of business, but that both in manufacturing and in trading the disasters were less than ever before known in April.

Bank clearings also continue to give evidence of the satisfactory conditions prevailing. We have this week compiled the results for the month of April. The total is not quite equal to that for the month preceding, but is nevertheless of extraordinary dimensions. Moreover, allowing for the fact that April contains one less day than March, and that besides there were five Sundays in April against only four in March, the difference in favor of the earlier month is entirely eliminated. Including New York the aggregate for April stands at 8,282 million dollars; which compares with 8,726 million dollars for March, 6,981 million dollars for February and 8,492 million dollars for January. It is only when comparison is made with the volume of clearings in other years that one gets a proper idea of the magnitude of the present year's figures. Hence it is well to note that as against 8,282 millions for April 1899, the bank exchanges for the corresponding month in 1898 were only 4,979 million dollars, for 1897 4,106 million dollars, for 1896 4,302 millions and for 1895 4,255 millions. As compared with last year the expansion is over 66 per cent, and as compared with the earlier years still heavier. Of course this includes New York, where financial transactions have been of such enormous volume, but even outside of New York the gain is 28.2 per cent, which is the largest ratio of increase for any month this year.

The death of President Hyde, of the Equitable Life Assurance Society, removes a man of note in the financial community. Mr. Hyde founded the Equitable, and thus reared one of the great financial structures of the day-one whose assets to-day exceed a quarter of a thousand million dollars. The decision of the Appellate Division this week in the case of a suit of one of the policy-holders of the Equitable has also attracted a good deal of attention. The decision was to the effect that policy holders are entitled to share in all the net surplus of the company, instead ties this, as already stated, is to be accomplished by of only such portion of it as the directors may choose direct purchase. Obviously a large amount of cash is

to set aside for division. But this decision has been given greater importance than it deserves. In the first place the decision is not that of the final tribunal, and the case will go for review to the Court of Appeals. In the second place, the action was not tried on its merits. The case came up on demurrer, and therefore the allegations made in the complaint had to be treated as true. The Court before which the demurrer was first argued ruled that even if the facts were as stated in the complaint no cause of action was set forth against the company. The Appellate Division now reverses this ruling, the presiding Justice however dissenting. Furthermore, assuming that this reversal shall stand, the ruling is not as broad as generally supposed, for the following declaration is part of the opinion of the Court: "That the Society has a large discretion in determining the amount of the surplus; that it may largely increase its reserve fund for the security of its policy holders, or that it may deduct much more than at present to cover contingent liabilities, is not disputed." Altogether, therefore, it is better to wait before drawing conclusions as to the effect of the supposed new doctrine.

The reorganization plan of the Wisconsin Central was approved by the Wisconsin Central 1st mortgage bondholders on Tuesday of this week, and the success of the scheme may therefore be considered assured. The plan reflects great credit upon those who took part in evolving it. The task was an unusually diffi-The Reorganization Committee is to cult one. be congratulated in the first place upon having once and for all discarded the complex organization and arrangements now existing between the different parts of the system. We have often puzzled over these arrangements ourselves and we have never yet met any one who would admit that he thoroughly understood them. The property is represented by the bonds, notes and stocks of no less than thirteen separate corporations. But this hardly indicates the full nature of the obstacles that had to be overcome. The holders of these various obligations all had their own ideas of the value of their particular piece of property to the system as a whole; each holder thought he had a better lien or a better obligation than his neighbor. This made the situation delicate as well as complex, and it seemed an impossibility to reach an agreement upon any common basis. Hence the long delay in placing the property on its feet, the receivers having been in possession since September 1893-that is, not far from six years. Probably the reorganization would still be in the air if the Committee had not, as the easiest way out of the maze, determined to purchase for cash the greater part of the obligations of the constituent companies. When the Wisconsin Central Company was formed in 1887 it was intended that the bonds and stock of that company should ultimately displace those of the original companies. As a matter of fact, however, this was not done, and the so-called first mortgage 5 per cents never became a first lien upon any part of the system except some terminals at Eau Claire.

The reorganization plan provides for taking up all the multifarious issues of stocks and bonds of the old companies. In the case of the most of these securi-

required for that purpose, and accordingly a syndicate has been formed to raise \$21,550,503, about 31 millions of which will be repaid by the contributions of the income bondholders and the preferred and common shareholders. The sum mentioned includes, of course, an allowance for the financial needs of the new company in the way of requirements for improvements, equipment, etc. The new concern will have only three classes of new securities-\$27,-000,000 of 1st mortgage bonds, \$12,500,000 of 1st preferred stock and \$17,500,000 of common stock. Besides the merit of simplicity, the reorganization has the further merit of keeping the system intact and of unifying it. The fixed charges under the reorganization are to be \$1,080,000, while net earnings in the calendar year 1898 were \$1,413,636. It is thought that by means of certain improvements, etc., net earnings can be further increased in the sum of \$325,000, giving an estimated surplus above charges of \$658,636. It will thus be seen the plan has many strong features. Besides the credit due to the Reorganization Committee itself (composed of George Coppell, John Crosby Brown, William L. Bull, Gerald L. Hoyt, Fred T. Gates and James C. Colgate) we understand that Mr. Charles C. Beaman is entitled to much credit for what has been accomplished.

The market for money on call has been a little more active this week, gradually growing easier. This activity has been due in part to shifting of loans early in the week, consequent upon the liquidation in the stock market and also to accumulations of money in anticipation of the payment on Thursday of 5 per cent of subscriptions to the stock of the Amalgamated Copper Co. of New Jersey. On Friday the payment by the Sub-Treasury, through the Clearing House, of \$5,000,000 of the Philippine indemnity, together with the loaning of the money paid on ac count of the Copper Company's stock, made the tone of the market easier, and the National City Bank, which was the custodian of the money paid for the 5 per cent instalment of the Copper Company stock, and which also received the proceeds of the first of the Philippine indemnity warrants, was a liberal lender.

Money on call, representing bankers' balances, has loaned at the Stock Exchange during the week at 3 per cent and at 7 per cent, averaging about 41 per cent. On Monday loans were made at 7 per cent and at 31 per cent, with the bulk of the business at 4@5 per cent. On Tuesday the range was from 6 per cent to 4 per cent, with the majority of the transactions at 5 per cent. On Wednesday the loans were at 5 per cent and at $3\frac{1}{2}$ per cent, the bulk of the business being at 5 per cent. On Thursday the range was from 5 per cent to 3 per cent, with the majority of the loans at 4 per cent. On Friday loans were made at 41 per cent and at $3\frac{1}{2}$ per cent, chiefly at 4 per cent. Banks and trust companies quoted 4 per cent as the minimum, though some obtained 5 per cent early in the week. and only in exceptional cases were standing loans marked down to 31 per cent after Wednesday. Money on time has been in fairly good demand, while the supply has been liberal on ordinary mixed Stock Exchange collateral. The banks generally seem inclined to prefer contracts for long rather than for short

mentioned security are 3 per cent for sixty days, 31 per cent for ninety days to four months and 33@4 per cent for five to six months. Loans have been made by one of the large down-town banks during. the week of \$200,000 at 4 per cent, discounted, for: six months, and of a like amount, at the same rate .. for four months, with 25 per cent of listed industrials having a well established market value, the remainder of the collateral being good mixed railroad securities. Both loans had 25 per cent margin, and they were made to first-class houses. Commercial paper is in moderate supply at present, but more liberal offerings are expected soon. The demand is good from city buyers, and it continues to be urgent from out: of town. Rates are 32@32 per cent for sixty to ninety. day endorsed bills receivable, 33@41 per cent for prime and $4\frac{1}{2}@5\frac{1}{2}$ per cent for good four to six months? single names. Bankers look for easy money in the near future. They base their opinion upon the indications. that financing of large manufacturing and other corporations is nearly completed; that the underwriters. and the promoters of these schemes will naturally seek. to keep money easy in order to market the new stock,. and that the money paid on the Philippine indemnity, will add to the market supply of funds. Though the Treasury Department is gradually reducing the deposits in the specially-designated depositary banks, the effect upon the market of such withdrawals isalmost imperceptible. Banks having large correspondence continue to report that institutions in the interior are over-supplied with money, which they find difficulty in employing even at low rates.

The European political situation is without feature,. and there is no important change in the financial situation. The Bank of England minimum rate of discount remains unaltered at 3 per cent. The cablereports discounts of sixty to ninety day bank bills in London 21 per cent. The open-market rate at Paris is 25 per cent and at Berlin and Frankfort it is 38 per cent. According to our special cable from London the Bank of England lost £853,815 bullion during the week and held £30,418,108 at the close of the week. Our correspondent further advises us that the loss was due to the export of £200,000 to the Cape, to shipments of £680,000 net to the interior of Great Britain, and to imports of £26,000, of which £17,000 were from Australia and £9,000 bought in the open market.

There was a temporary, and, as it subsequently appeared, an entirely unwarranted, disturbance in the foreign exchange market on Monday. Washington dispatches on Saturday announced that the longexpected payment of the \$20,000,000 Philippine indemnity would be immediately made. Thereupon the tone of the exchange market grew distinctly firmer, though, as is usual on Saturdays, little or no business was done. It appeared to be assumed by Monday that the bankers who had contracted to remit the money to Europe had not obtained all the sterling they required; and, acting upon this assumption, there was a speculative demand for sterling, which resulted in a general advance in nominal rates and in a sharp rise in those for actual business. The market was quite strong and it so continued until the following morning. Then official assurances were given that three fourths of the exchange periods. Quotations for time loans on the above- necessary to remit the Philippine indemnity had been

accumulated, and also that the remitting operation would be so conducted as not to disturb the markets. Thereupon the tone became distinctly easier, the offerings of bills which had been bought for speculation were comparatively liberal, and rates fell off. The decline seemed to be checked, however, by a demand for remittance supposed to be for account of the Anaconda Copper speculation, and the market grew steady by the close, so continuing on Wednesday. So far as the Philippine indemnity remittance was concerned the market was entirely unaffected. The tone was easier on Thursday and it was steady on Friday. Gold received at the Custom House for the week amounted to \$293,490, of which \$250,900 was from Europe.

Nominal rates for exchange opened on Monday generally at an advance of half a cent, and a further advance by the Bank of British North America made the range from 4 86 to 4 87 for sixty day and from 4 88 to 4 89 for sight. On the following day a reduction by the above-named bank and an advance by those drawers quoting the lower rates made the posted figures uniform at 4 861 for sixty-day and 4 881 for sight, and there Was Rates for actual business no change thereafter. opened on Monday at an advance of half a cent all around, compared with those at the close on Friday of last week, to 4 853@4 86 for long, 4 873@4 88 for short and 4 881@4 881 for cables. The market was quite strong, with some talk of impending gold exports in connection with the remittance of the Philippine indemnity. On the following morning the official assurances, above noted, that the remittance would produce no disturbance, caused a fall of one quarter of a cent all around in rates for actual business, to 4 851@4 851 for long, 4 871@4 871 for short and 4 88@4 881 for cables. The tone was easy until near the close, and on Wednesday it grew steadier though without quotable change. On Thursday the market was dull and easy at a further decline in rates for actual business in sterling of one-quarter of a cent all around, and, compared with Monday's rates, of 1 of 1 per cent for Continental exchange. Sterling rates were 4 851@4 851 for long, 4 871@4 871 for short and 4 874@4 88 for cables, these figures being the same as those ruling on Friday of last week. On the following day the tone was steady. The following shows daily posted rates for exchange by some of the leading drawers.

MR. AMORY AND THE COST OF AN UNDERGROUND ROAD.

From the character of Mr. Amory's second letter in the "Evening Post" we should judge that he had lost confidence in his compilations we criticized, and was even ashamed of the use he had made of them, and yet wanted to raise dust enough to put the real situation out of view. We see no other reason why he shifted his base and sought by a dull dissertation on the advantages of transfers to street railroads and other solemn platitudes to cover up and induce the public to lose sight of the faulty features in his previous ill-judged statements and groundless estimates. The following confused sentence with which he opens his letter is a fair specimen of the style of the answer he has adopted.

"The CHRONICLE writer argues that transfer passengers are not passengers at all, but something or other not exactly determined and probably nothing at all, and therefore are beneath any consideration."

We can hardly wonder that, in taking the padding out of Mr. Amory's inflated figures and bringing them down to a normal condition, we should have produced such a distressing contrast for the inspection of the compiler as to give the figures the appearance of being "beneath any consideration." Would it not be wise, though, in the interest of truth, to lay aside this lofty air, correct these distorted imaginings and get back to a point of view from which the real issue can be seen and judged. There has been and is only one question raised worth discussion. It involves a proposition as simple and self-evident, in our opinion, as that 1 + 0 is equal to one, and we cannot understand how any pretension or sleight of hand can make out of it any other result. But the point at issue is so intimately connected with the success of a tunnel enterprise that it is highly important it should not be misapprehended.

The question referred to was raised by Mr. Amory's method of estimating the problematical earnings of an underground railroad. It was not whether transfer passengers should be counted once, for we as well as he counted them once, but whether they should be counted twice. Mr. Amory counted them twice, and in his final figures more times; but-for the present confining ourselves to the simpler form-he counted them once when they paid their 5 cent fare and again when they paid nothing. We insisted that his method, in such a matter as he had undertaken to investigate, was obviously wrong; that each passenger should be counted only once. Doubling an individual so as to make him two persons because he happens to go forward and take a seat in another car, or because, like so many of the Elevated Railroad pas sengers at Chatham Square, he has occasion to change cars for the "Bridge" and for "South Ferry," is clearly inadmissible and was what we took exception to. It introduced an error at the outset of the investigation that could not fail to be destructive of any argument based upon it.

Moreover, we showed last week that even our reference to that error did not express the dimensions or disclose the gravity of Mr. Amory's mistake. His deeper error consisted not alone in counting transfers twice; he did far worse than that, he counted them each time as full-paying 5-cent individual passengers. This error followed directly from the former error and was a necessary part of it. That is to say, there was no gain and no advantage to Mr. Amory's argument in simply counting individuals twice. What he was seeking was to make out an inflated income for an underground railroad, and that could not be done except by assuming that "transfers" paid two fares, that is, 10 cents instead of 5 cents. Only in this way was he able to exaggerate the present and prospective growth of the paying population riding in the sur. face cars. A quasi-census was Mr. Amory's ostensible object. Instead of disclosing a true result the affair was so manipulated as to show many more people tributary to the district and many more fares drawn from it than there really were.

We are likewise compelled to add that Mr. Amory does not permit us to doubt what he wanted to do with and what he has done with these inaccurate figures. He has clearly ciphered out his thought step by step in making up his final result, and we must say, he has thus produced the most remarkable piece of statistical work that has ever come under our notice. For the purpose of bringing up the estimate of the first year's income of a tunnel road to an amount sufficient to cover running expenses and 5 per cent interest on cost of building, he has arbitrarily taken this quasi-census of passengers carried, with the errors we have specified incorporated, and so used it as not only to credit each transfer passenger with paying ten cents, or two full fares, but much more than that. This is done and the error is made progressive and cumulative by multiplying the average gain in passengers (56,000,000) during the last three years (in which total are included not only the individual passengers but the transfers as individuals)-by multiplying that total (56,000,000) by 3, and that result again by 5 cents. We last week indicated how far astray this kind of figuring had led Mr. Amory. We showed in our article at that time the measure of this error in a small table prepared by us in which we gave Mr. Amory's figures, taken from his first letter, and in a separate column our own results correcting his. We reproduce that table and would refer our readers to last week's article for any further explanation.

Aver.annual increase 3 years 1896-1898. Multiplied by three	Mr. Amory. 56,000,000 168,000,000	Corrected- 12,000,000 36,000,000
Income from passeng.car'd, 5 cents each.	\$8,400,000	\$1,800,000
Operating expenses	4,200,000	4,200,000
Profit and loss on operationprofi	t.\$1,200,000	def.\$2,400,000
Five per cent on \$84,000,000 capital	4,200,000	4,200,000
Total deficit on first year's operation	TODAL FRANCE	\$6,600,000

Instead of showing a net profit sufficient to cover interest on capital as Mr. Amory's figures do, our corrected totals show a deficit of \$6,600,000. We should add, as we did last week, that we do not give that statement as our estimate of the results of an underground road the first year of its operation. We give it simply as the result of Mr. Amory's method worked out free from his errors and to its logical conclusion.

We should not have taken so much time and space for this discussion were it not that we earnestly desire the city should not build an underground railroad. It is far better in our opinion, and for reasons we have given on previous occasions, that private capital be induced to construct it, taking the risks and the profits. We acknowledge that we are in the minority; that a large majority of our people favor the city doing the work. Public opinion has however, we think, been influenced to a considerable extent by just such loose statements as the one we have here criticised. At all events we intend to do what we can to enforce our views. We shall urge them as we have opportunity, because, as we said a few weeks since, we believe them to be in the interest of good morals, good government and future taxation.

THE SOUTH CAROLINA & GEORGIA LEASE TO THE SOUTHERN RAILWAY.

The lease of the South Carolina & Georgia Railroad (old South Carolina RR.) to the Southern Railway, entered into last week, is an event of importance for a number of reasons. In the first place it emphasizes the tendency towards the absorption of the smaller roads by the larger systems, to which we referred in a special article in our issue of April 15. In the second place it shows that the Southern management are still enterprising and wide awake, for there can be no doubt that the South Carolina & Georgia is a desirable acquisition; indeed, in some respects, as we shall presently show, it was absolutely essential to the Southern Railway. Finally, the change of control means a great deal for Charleston and the State of South Carolina.

The South Carolina & Georgia has had a checkered career. Once a very prosperous road, in recent years misfortune after misfortune has attended it. When the Parsons people bought it at foreclosure sale, a few years ago, it became evident that sooner or later there would be another move in the game, for these people buy only to sell. It has long been a wonder that a road so eligibly situated and occupying such a commanding position on the South Atlantic seaboard should remain under independent control. That its strategic value was appreciated was made obvious before the recent foreclosure, when the Louisville & Nashville invested a large sum in the securities of the old company. But the hard times came then, and it was not deemed advisable to prosecute the venture any further; so the Louisville & Nashville suffered the loss of the whole of its investment in the property, amounting to over a million dollars. Nor did the Southern Railway or any of the other systems make any effort at that time to get possession. Despite its advantageous location Mr. Parsons was not successful in adding greatly to its earning capacity, and it almost seemed as if this sagacious operator, who had been so successful in other similar ventures, might have difficulty in finding some one to take this property off hs hands.

But recently important changes have been going on in the railroad map of that part of the country, and the owners of the South Carolina & Georgia have not been slow to avail of their opportunity. Thus the Seaboard Air Line changed ownership and passed into the possession of the parties controlling the Georgia & Alabama and the Florida Central & Peninsular, and a grand consolidation of those roads is planned. The Atlantic Coast Line people have also been showing great aggressiveness. They acquired the Charleston & Western Carolina. Then, to solidify control of their system they last year united their roads in South Carolina under the title of the Atlantic Coast Line of South Carolina and made similar consolidations in other States. They also have plans for the building of various pieces of road to make their confederation harmonious and complete.

The situation now became interesting for the Southern Railway. The Louisville & Nashville could afford to be an onlooker, for it has little mileage in that part of the country. Not so the Southern, whose lines grid-iron that section. With new combinations being formed all around it, it was in danger of being hemmed in. It will be remembered that the announcement was made recently that owing to the change of owership of the Florida Central & Peninsular the Southern had determined to build a new line into Savannah from Columbia, S. C., or Augusta, Ga. But it behooved the Southern people to guard against danger from another direction. Its lines in South Carolina could reach the seaboard at Charleston by only one of two routes, namely the Atlantic Coast Line or the South Carolina & Georgia. The Coast Line was a rival, the South Carolina & Georgia was still available; but suppose it, too, should be bought up in the interest of one of the neighboring combinations ? The Southern Railway people were quick to see the logic of events, and before outsiders had the slightest idea of what was going on, the lease had been made and the Southern Railway was securely in possession.

The arrangement seems to have given general satisfaction, and there can be no doubt that it will prove mutually advantageous to the contracting parties. The people of Charleston also seem to be gratified, and well they may be, for they get what they have so long desired-namely, connections with the Ohio and Mississippi rivers through the rich coal and iron fields of the South. With its affiliated lines the Southern controls about eight thousand miles of road, much of which will in a measure become tributary to Charleston. There does not seem to be the slightest inclination to think that the process of consolidation will be harmful, which is rather significant, as showing that the people of South Carolina appreciate the benefits in store for them. The Charleston "News & Courier" well says, it pays the railroads to centralize, and, what is of more concern, it pays the public to have centralized roads. Through rates are lower than joint rates, and better service and more direct connections are as-

other systems make any effort at that time to get possession. Despite its advantageous location Mr. Parsons was not successful in adding greatly to its earnbetter the service can be.

THE MEXICAN CENTRAL REPORT.

The Mexican Central annual report is issued at a time when there is renewed activity in the securities of the company, and when also there is a revival of the talk of a prospective great advance in the price of silver. Some of the current statements have gone even beyond the suggestion of a rise in the price of the metal, and have spoken of the possibility of Mexico changing her standard of values from the silver to the gold basis. With reference to this last point, however, we observe President Robinson is inclined to entertain doubt. In his remarks at the stockholders' meeting this week he slated that so far as he could learn no such policy was contemplated. Furthermore, he thought it would seem unjustifiable on the part of the Mexican Government to change from silver currency, with a large surplus over its yearly requirements, to a gold basis and an experimental period, especially as that country appeared now to be developing as fast as it safely could.

That Mexico has undergone wonderful development in recent years and that this development is still in progress admits of no question. The railroads have been a chief element in the growth and activity and have in turn profited most by it. Their earnings have been steadily and largely expanding. We showed recently in reviewing the reports of the Mexican National and the Mexican International how noteworthy had been the growth in the revenues of these two roads. In the case of the Mexican Central the record is still more striking, for the Central is the largest of all the Mexican systems. We referred a year ago to the great gain established by the Central in 1897, it amounting for the twelve months to \$2,-807,000, or about 28 per cent, this coming on top of continuous gains in all the preceding years. In the earnings for that year there was included \$410,890 derived from the transportation of corn imported into Mexico by reason of the crop failure in that country. In 1898 all this revenue was lost, and yet, despite that fact, there was a further gain in the gross revenues of nearly three-quarters of a million dollars-in exact figures, \$743,146. Moreover, this increase was made in face of some other circumstances that operated greatly to diminish the year's earnings. For instance, the war between the United States and Spain, the report tells us, caused the suspension of the regular sailings of the liners to Tampico, and substituted irregular tramp service in their place. During the months of July, August, September, October and November a pernicious fever prevailed at Tampico and along that part of the San Luis Division lying in the hot country, which seriously interfered with the traffic of that division, owing to the inability to secure labor to handle the business. In September and October unprecedented floods occurred on the San Luis Division, resulting in extensive wash-outs between Tamasopo and Tampico, causing an absolute suspension of traffic, the report says, for twenty-one days. It is estimated that by reason of these hindrances and drawbacks the road sustained a loss in gross revenue in the amount of fully \$500,000.

Consider this loss of \$500,000 in connection with the loss of \$410,890 on the corn traffic, and it becomes evident that the further increase of \$743,147 in the gross earnings in 1898 reflects a degree of progress as striking as that of any preceding year. This appears particularly true when it is borne in mind that there was no increase in the miles of road operated during 1898. The Parral extension from Jimenez to Parral, 54.60 miles, was completed the latter part of the year, but it was not operated for revenue account until the 1st of January 1899. To show how the revenues of the system have expanded from year to year, we present the following table, giving the figures back to 1885.

giving the ng	mes buon i	10 10000		
Average	Gross	Less const'n	Gross	Earnings
	earnings	material.	commercial.	per mile.
mileage.		. \$	\$	\$
Year. Miles.	8		3,532,819	2.858

1886123: 90	3,857,705	none	3,857,705	
18871235.90	4,8=6,578	301,317	4,585,261	3,710
18881316.40	5,774,331	471,831	5,302,500	4,028
18891461.85	6,337,225	475,451	5,861,774	4,009
	6 425,694	303,020	6,122,674	4,009
18901527.20		431,798	6,942,740	4,169
18911665.11	7,374,538			4,146
18921824.83	7,963,253	397,376	7,565,877	
18931846.64	7,981,768	none	7,981,768	4,322
18941859.83	8,426,025	none	8,426,025	4,530
18951859.83	9,495,865	68,258	9,427,609	5,069
	10,208,0 0	200,442	10,007,578	5,352
18961869.60		31.198	12,814,621	6,552
18971955.66	12,845,819			6,906
18981955.66	13,588,966	83,543	13,505,423	0,000
······································	7 11	1	1001 +h	DDOM'N O

It will thus be seen that even since 1891 the gross earnings from commercial business have almost doubled, they having risen from \$6,942,740 to \$13,-505,423. In the whole of the thirteen years covered by the statement, there has not been a single year that has failed to record an increase. Perhaps the most striking feature disclosed is that as new mileage has been added there has been a steady enlargement of the earnings per mile. In 1885, with 1,235 miles of road in operation, the earnings per mile were \$2,858; in 1890 with 1,527 miles the per mile was \$4,009; in 1895 with 1,860 miles the per mile had risen to \$5,069, while now for 1898 with the results based on 1,956 miles the gross per mile is up to \$6,906.

The one drawback in the management of this as of all the other Mexican roads is that the revenues of the company are in silver while so much of the pay. ments have to be made in gold. That is a feature to which we have referred so many times that it almost grows irksome through repetition. Yet it continues by all means the most important factor in the company's operations. And the worst of it is that the depreciation in the price of silver has been growing each year more pronounced. Even during 1898 there was a further decline, the company having realized an average for the twelve months of only 46.59 cents for the Mexican dollar against 48.24 cents for the twelve months of 1897. The depreciation operates not only to reduce the gold equivalent of the Mexican currency net earnings, but it also operates directly to reduce these net earnings. This latter is a factor frequently ignored. Much of the materials and supplies needed in the operation of the road can not be obtained in Mexico, but has to be bought in foreign countries and paid for in gold. But as the gold value of the silver declines, it takes more Mexican silver dollars to pay a given amount in gold. The result is that operat. ing expenses are added to in increasing amount in order to pay for the cost of exchange. Here is a table showing how enormously this item has grown since 1891. We give first the cost in U. S. money of purchases made in the United States, then the premium in silver which had to be paid on these purchases, and a final column to indicate the total cost in Mexican currency.

-and such	Cost in	Aver. rate.	mium	Cost in Mex. Ourrency.
Years. 1891	U. S. Money. \$1,549,998 60	128.83	\$446,841 39	\$1,996,839 99
	1,386,065 68	143.16	598,277 01	1,984,342 69
1893	1,213,270 38	160.04 192.69	728,475 62 1,009,829 98	$1,941,746\ 00$ $2,099,302\ 35$
1895			826.880 83	1,756,558 32
1896		188.65	929,442 18	1,977.923 39
	1,447,530 13	209.39	1,583,446 21	3,030,976 34 3,322,626 44
1898	1,549,691 82	214.41	1,772,934 62	3,322,020 **

Expressed in U. S. money the purchases made in this country cost almost exactly the same in 1898 as seven years before in 1891—namely \$1,549,692 against \$1,549,999. But on account of the shrinkage in the gold value of the Mexican dollar, the premium which had to be paid amounted in 1898 to \$1,772,935 against only \$446,841 in 1891. Here, then, is a direct loss of $1\frac{1}{3}$ million dollars occasioned by the addition of that amount to the ordinary operating expenses. In other words, what cost \$1,996,840 in Mexican currency in 1891, cost no less than \$3,322,626 in 1898.

Besides the loss in this way there is the further and still larger loss resulting from the conversion of the net earnings into gold for the payment of interest on the bonds. The net in Mexican currency in the late year was \$4,427,534, or \$411,185 better than in the previous year. In U. S. currency, however, the net was only \$2,062,804, being an increase of but \$125,321. Notwithstanding the great and wonderful growth in business and revenues which has been established from year to year, the problem which the management have had to meet has been a trying one, for as far as the final net result has been concerned the shrinkage from the decline in silver has served to offset the gains arising from the growth in business. For the same reason it has been found necessary in all recent years to draw upon the Subsidy Trust Fund to provide for the deficiency in earnings to meet the company's fixed charges. In 1898, fortunately, the deficit reached only \$413,222, against \$538,947 in 1897.

All these results possess especial value at this juncture because of the prediction, already referred to, of a much higher price for silver. Whether this expectation will be realized or not remains to be seen. Some increase has already been established, and the Mexican dollar is now quoted at about 50 cents. The figures we have given show how much a rise will mean to the company. But if only further depreciation shall be arrested—if, instead of the uninterrupted decline which has been experienced for so many years there should now be stability in values, and the development of Mexico continue—even in that event the whole outlook for the property and the security holders would change.

ITEMS ABOUT BANKS, BANKERS AND TRUST CO'S Although the sales of bank stocks have not been large the current week (only 657 shares in all), there have been some very notable changes in price. We see that 5 shares of National City Bnnk sold at 1,805, against 1,656 April, 1899, the date of the last sale; that is an advance of 149 points. Five shares also of the Hanover National were sold, the price being 730, against 656 in April, 1899, or an advance of 74 points. The foregoing were sales at auction. At the Stock Exchange there were 200 shares of the National Park Bank sold at 540 to 560, the latter being the latest sale, and showing an advance of 50 points since April, 1899, when the stock sold at 510. The following are all of the week's transactions, both at auction and at the Exchange. BANKS-New York. Price. Shares.

*Sales at the Stock Exchange.

-Oa Saturday of last week, soon after noon, the American Exchange National Bank began its removal from the premises which it has occupied since 1858, at the northeast corner of Broadway and Cedar Street, and on Monday morning business was resumed on the second floor of the Boreel building, nearly opposite, on Broadway. The work of demolition of the American Exchange Bank building has begun, and on the site the bank will erect a sixteen story modern structure which will cost about \$500,000; the building, it is expected, will be ready for occupancy on or about May 1, 1900. The old building was entirely unsuited for modern requirements. The site is a valuable one, however, and it was felt that the bank needed better quarters, and furthermore that it was desirable, as promptly as possible, to meet the demand for office accommodation which is now increasing in that section of the city. Mr. Dumont Clarke, the President of the bank, says that applications have already been received for at least one-half of the offices the new building will contain, indicating that by the time the structure is completed it will be fully and profitably rented. As an illustration of the progress in construction facilities, it may be stated that the old building, five stories in height, was begun early in 1857 and was not completed until the fall of 1858, whereas the new building of sixteen stories will require only a year in construction. Mr. Clarke has been connected with the bank in various capacities for thirty-six years, succeeding Mr. George S. Coe as President.

-Mr. Albert H. Wiggin, who has been Vice-President and the practical manager of the Eliot National Bank of Boston, has been elected a vice-president of the National Park Bank of this city and he will assume the duties of his office on or about May 15. During the protracted illness of Mr. Edward E. Poor, President of the National Park Bank, Mr. Richard Delafield, the active Vice-President, has had the principal direction of the affairs of the bank and its increasing business has necessitated the addition to the official force which has now been secured by the election of Mr. Wiggin. This gentleman has made many friends in Boston during his connection with the Eliot National Bank and he is highly regarded by bank officers of this city. The present official staff of the Park Bank consists of Mr. Edward E. Poor, President; Mr. Richard Delafield, Active Vice President; Mr. Stuyvesent Fish, Honorary Vice-President; Mr. George S. Hickok, Cashier, and Mr. Edward J. Baldwin, Assistant Cashier.

-Mr. Orlando M. Packard has been elected a director and Vice-President of the Capital National Bank of Indianapolis, Ind., the growing business of the institution requiring an increase of its official staff. Mr. Packard has, for the past six years, been National Bank Examiner for Indiana, serving for five years under Comptroller Eckles and over a year under Comptroller Dawes, resigning the position in April. His reputation for efficiency has been excellent, and the experience gained during his incumbency of the office of Bank Examiner will be valuable in his new field of labor.

-At a meeting of the Providence, R. I., Clearing House on Friday of last week, a proposition was recommended for the action of directors of the banks in the Clearing House that interest on deposits should be paid only on amounts in excess of an average daily balance of \$1,000. If the proposition shall be favorably received, it will be made a permanent policy by the banks. At this meeting the Clearing House Committee recommended a rule charging depositors with the cost of collecting out-of-town checks. The proposition was rejected, but it may be again submitted for consideration if the plan now in force with the New York Clearing House shall be made permanent after the expiration of the three months' trial.

-Mr. Henry B. Hyde, President of the Equitable Life Assurance Society, died on Tuesday in this city from heart trouble. He had been an invalid for more than a year. Mr. Hyde was in the sixty-sixth year of his age. He was born in Catskill, N. Y., and at the age of sixteen obtained employment as a clerk in a mercantile house in this city and two years later entered the employ of the Mutual Life Insur-

ance Company of New York, subsequently becoming its Cashier. He resigned this position in 1859 to become Vice-President and Manager of the Equitable Life Assurance Society on its incorporation, and in 1874 he became its President, succeeding Mr. William C. Alexander. He was Vice President of the Mercantile Trust Company and a director of the Western National Bank. The directors ofthe last-named institution have adopted resolutions of re spect to his memory.

-Mr. Lawrence Turnure, of the banking firm of Lawrence Turnure & Co., 50 Wall Street, and one of the directors of the National City Bank, died on Monday of this week in the seventy fourth year of his age. He was for many years associated in business with the late Moses Taylor. The immediate cause of Mr. Turnure's death was a second attack of paralysis following a serious stroke about eighteen months ago. Mr. Turnure was a direct descendant of Daniel De Tourneur, a member of an ancient French family, who emigrated to this country in 1652, and he was the most prominent member of this Huguenot family. In early life he began his financial and mercantile career in this city and, as noted above, was associated for many years with the late Moses Taylor in the banking business, the firm subsequently becoming Lawrence Turnure & Co. Mr. Turnure was a brother of the late David M. Turnure, also a banker and merchant of this city. At the time of his death the deceased was a trustee of the Atlantic Mutual Insurance Co., a director of the National City Bank, as above mentioned, and a director of the Syracuse Binghamton & New York and of the Mobile Street Railway companies. He was also a member of the Metropolitan Museum of Art, the St. Nicholas Society, the National Academy of Design, the American Museum of Natural History and the American Geographical Society.

-It is claimed by the Post-office anthorities at Washington in charge of the money-order division of the department that the action of the New York banks in charging for the collection of country checks has resulted in increasing the demand for money orders. The Post-office officials are familiar with the causes which have resulted in the augmented demand for money orders, and they doubtless base their statements upon their observation of the character of the orders which have been handled by the Department during the month of April. In addition to the estimated normal increase of \$20,000,000 in money orders for the current fiscal year, it is calculated that there will be a gain of \$5,000,000 due to remittances in these orders which have heretofore been made in bank checks.

-There was a new high record established for bank clearings on Tuesday, the exchanges at the New York Clearing House amounting to \$343,031,922, against \$315,236,782 on January 4, which was the highest previously recorded. The exchanges on Tuesday were largely affected by the May 1 payments of interest and dividends, by checks in part settlement for the Republic steel combination and by the large business on the Stock Exchange on the previous day.

-Mr. Eugene H. Pullen, Vice-President of the National Bank of the Republic, died suddenly on Saturday. Mr. Pullen was prominent in the State bankers' organizations, and he was for three years Chairman of the Executive Council of the American Bankers' Association and the President of that organization in 1895. He entered the service of the Bank of the Republic in 1861 as a clerk, was gradually promoted, becoming Cashier in 1879 and Vice-President in 1892, when Mr. Oliver S. Carter, now the President, succeeded the late John Jay Knox.

Clearings by Telegraph.—Sales of Stocks, Bonds, &c.— The subjoined table, covering clearings for the current week, usually appears on the first page of the CHRONICLE, but on account of the length of the other tables is crowded out once a month. The figures are received by telegraph from the leading cities. It will be observed that as compared with the corresponding week of 1898 there is an increase in the aggregate of 63.8 per cent. So far as the individual cities are concerned, New York exhibits an increase of 92.0 per cent, and the gains at other points are : Boston 58.5 per cent, Philadelphia 48.6 per cent, Baltimore 122.7 per cent, Chicago 19.4 per cent, New Orleans 7.7 per cent and St. Louis 6.7 per cent.

Monetary Commercial English News

LFTOM OUT OWN COTTOS DONGON

LONDON, Saturday, April 22, 1899.

At the beginning of the week markets were dull and un-decided, chiefly under the influence of renewed political un easiness. The first cause of this was the trouble in Samoa easiness. The first cause of this was the trouble in Samoa Happily, the three governments have come to an understand-ing for carrying on the administration of the Islands and

the Commission has been sent out. Still the fact that so strong a difference of opinion has been shown between Germany on the one hand and this country and the United States on the other has made a very bad impression, and people feared for a while that it may be very difficult for the Commission to agree upon any course of action. Furthermore, the opposition which the American troops are meeting in the Philippines and the reported bad impres-sion that has been made in the United States had an unfa-vorable effect. People here think that too much is made of the opposition and that if the American people exercise a little patience all will come out satisfactorily. But the tele-egrams report much uneasiness in the United States and much discontent with the whole cause of affairs in the Philip-pines.

much discontent with the whole cause of affairs in the Philip-pines. There have also been fears of renewed tension with the Transvaal. Some time ago negotiations were entered into by the Transvaal Government with the leaders of the mining industry, the Government wanting money and the industry wanting reforms. And for a considerable time, it was un-understood that the negotiations were going on smoothy, and it was hoped that an arrangement might be finally ar-rived at. President Kruger's recent speeches, in which he held out hopes of certain concessions, were accepted by the leaders of the industry as exempting them from the secrecy in regard to the negotiations that they had previously main-tained. They believed, or affected to believe, that the Pres-ident having spoken out, they were bound to follow his ex-ample, the more particularly as they feared that if they did not do so the great body of the Uitlanders would assume that the leaders of the industry were bartering away the rights of the non-Boer population for their own personal interests. Accordingly information respecting the negotiations was published in some of the newspapers. This was resented by President Kruger who regarded the publication as a breach of faith. Just at the time a petition very numerously signed was presented by the Uitlanders to the British High Commissioner for South Africa, and this was further re-sented by the President. For a time it looked as if the ne-gotiations would be broken off and as if, in fact, the Trans-vaal Government might adopt an angry policy. But it is understood that the President now recognizes that there was gotiations would be broken off and as if, in fact, the Trans-vaal Government might adopt an angry policy. But it is understood that the President now recognizes that there was no intention on the part of the leaders of the mining industry to show him disrespect or betray confidence, and it is be-lieved that the negotiations will be resumed. At all events, in the course of the week a very much better feeling respect-ing the Transvaal has sprung up.

to show him insrespect of being conductes, and it is bo-lieved that the negotiations will be resumed. At all events, in the course of the week a very much better feeling respect-ing the Transvaal has sprung up. Lastly, a curious incident in connection with the recent naval fetes in Italy has attracted some notice and comment. It would be too much to say it has excited apprehension. It is alleged that when the French Admiral and his chief of-ficers were entertained on board the Italian Admiral's ship, he told the Italian officers that Italy would have greatly to increase her navy and that this was desirable inasmuch as France and Italy ought to have control of the Mediterra-mean. Probably the speech was inspired by the good cheer of the luncheon and had no real political significance. But the French Admiral undoubtedly went too far and protests are being raised in the Italian press against the insinuation that Italy is prepared to break off from the British alliance. As the week is drawing to a close, however, the political apprehensions are passing away and a more hopeful feeling is again springing up. Trade everywhere is very good. Money is comparatively easy. And though there is not very much business doing upon the Stock Exchange, prices gen-erally are higher than a few days ago. There has been a very considerable rise in copper. And this has been accompanied by a general advance in copper company shares, Rio Tinto shares leading. There has also been a revival in the Transvaal mining shares and in West Australian gold shares; while the advance in Rhodesian shares is maintained. In British securities of all kinds there is not very much doing. But quotations are steady. In the International Department there is also a lack of activity, but fair steadiness. And generally speaking there is a more obspeful feeling without any great extension of buying. The outside market has at last succeeded in paying off the loans it obtained from the Bank of England. But the supply in the open market is not very great.

and rates very cheap. In Germany the liquidation of bad business is going on very gradually and very caatiously. And if it continues, as now seems probable, the crisis in the autumn, which has

been feared so much, may be averted. In the same way liq-uidation is going on in Belgium. In France there is a strong demand for money in prepara-tion for the exhibition. But except for that purpose there is exceedingly little doing. There are, indeed, loud com-plaints of the badness of trade. A little while ago it looked as if trade was improving. And, indeed, some branches of trade—as, for example, the woolen trade—are improving. But speaking broadly there are complaints all over France that business is very depressed. Speculation is at a stand-still and there is not much investment. In fact the war scares, the Dreyfus excitement, the fear of revolution and the attack made by the Government upon the *Coulisse* or Outside Bourse, has so limited Stock Exchange transactions that a very great part of the business once done in Paris has now been transferred to London and Brussels. Still, the French banks have advanced immense sums to the German and Belgium bourses and there has quite recently been in-vestment on a considerable scale in Russian, Chinese and other securities, as well as large purchases of gold shares. The money market, therefore, is somewhat firmer than might have been expected from the badness of business gen-erally. In India the hot weather is now setting in and the active erally

erally. In India the hot weather is now setting in and the active erport season is drawing to a close. Consequently, there has been a great falling off this week in the demand for Council drafts. The Council offered for tender 60 lacs. But the applications were under 19¼ lacs, and only 1 1.5 lacs were allotted, at prices ranging from 1s. 3 15-16d. to 1s. 4d. per rupee. Afterwards, however, 7 lacs were sold by special contract at 1s. 3 15-16d. per rupee. Next week, in conse-quence of this great disappointment, the amount offered for tender will be reduced to 30 lacs. The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols, &c., compared with the last three years:

WALL STREET, FRIDAY, MAY 5, 1899.-3 P. M. The Money Market and Financial Situation.-The course of business this week at the Stock Exchange illustrates how, under certain conditions, the stock market can be made to yield to professional manipulation. With practically no change in the general situation, with only a brief and lim ited rise in money market rates, with nothing of importance to cause any change in values, the stock market has suffered rather a severe decline. Naturally, in view of recent advan-ces, the market is more sensitive to acy unfavorable influence, real or imaginary, than was the case a few weeks ago, and to this fact largely, no doubt, the change is due. The market for railway bonds has been steady to firm, showing a fair in-vestment demand, and the readiness with which the capital was supplied for the new Copper Combination is evidence that there is abundant confidence in the future pros-perity of the country. Moreover, the fact that the transfer of \$20,000,000 from this centre to Europe on account of the Government indemnity to Spain has been effected or provided for this week with scarcely a ripple in either the money or foreign exchange markets illustrates how of business this week at the Stock Exchange illustrates how, either the money or foreign exchange markets illustrates how either the money or foreign exchange markets illustrates how much better equipped we now are for such transactions than formerly. Rates for foreign exchange advanced dur-ing the early part of the week in anticipation of a demand for the Spanish indemnity, but when it was officially an-nounced that a local bank had already provided for the trans fer, rates declined and the market settled back into normal condition. The money market was similarly affected, chiefly from the same cause, and with about the same result. The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 3 to 7 per cent. To-day's rates on call were 3½ to 4½ per cent. Prime commercial paper quoted 3½ to 4½ per cent. The Bank of England weekly statement on Thursday showed a decrease in bullion of £853,815, and the percentage of reserve to liabilities was 38.80, against 40.60 last week; the discount rate remains unchanged at 3 per cent. The Bank of France shows an increase of 4,175,000 frances in gold and a decrease of 1,375,000 francs in silver. The New York City Clearing-House banks in their state-ment of April 29 showed an increase in the reserve held of \$1.147,700, and a surplus over the required reserve of \$25,524,675, against \$24,175,900 the previous week.

State and Rallroad Bonds,-Sales of State bonds at the Board are limited to \$48,000 Virginia fund. debt 2-3s of 1991

The market for railway bonds has been generally steady on the smallest volume of business recorded this year. Daily transactions at the Exchange averaged only about \$2,800,000 par value, in which the better class of bonds was conspicupar value, in which the better class of bonds was conspicu-ously absent. Changes in quotations on the active list are generally unimportant and but few are worthy of note. The Wisconsin Central ist trust receipts advanced 2½ points, to 72, the highest yet recorded for them: Texas & Pacific 1sts gained 1½ points and Baltimore & Ohio 4s nearly a point. St. Louis Iron Mountain & Southern 4s (when issued) lost a part of the gain noted last week and in a few other cases weall frontioned dealines are recorded. small fractional declines are recorded.

Stock and Bond Sales,-The following shows the volume of business in stocks and bonds on the New York Stock Exchange for the past week and sinc- January 1.

Note.-The total of sales on the Boston Exchange for the week ending April 28, omitted last week on account of von-receipt of our telegram for Friday, were as follows: Listed shares, 441,582; unlisted shares, 84,765; bonds, \$1,528,390.

Railroad and Miscellaneous Stocks.—The market for stocks has again been irregular and unsteady, with the re-sult that quotations in the railway list are generally lower. A wider difference than usual in the amount of business transacted from day to day is noted The industrial stocks were conspicnous, generally taking the lead in each move-ment and every phase of the market. The active railway list fluctuated over a range averaging from 2 to 3 points, and in most cases the lowest quotations were recorded on Thursday. Flint & Pere Marquette was a prominent exception. The preferred advanced from 54 to 62 on rumors that one of the Vanderbilt roads had obtained control and that the preferred stock would be exchanged for a 3 or 3½ per cent bond. The local traction shares covered a much wider range than the average mentioned, Metropolitan Street showing a dif-ference of 17% points between its highest and lowest, Brook-lyn Rapid Transit a difference of 10 points and Manhattan Elevated over 7 points. Burlington & Quincy was relatively strong but otherwise the granger, trunk line and coal stocks were included in the general course of the market. Of the miscellaneous list the iron and steel stocks were active and generally strong. American Sugar Refining was conspicuous for activity and erratic movement as a result of bold manipulation. The gas shares were weak on aggressive competition and sharp cutting of prices. Railroad and Miscellaneous Stocks .- The market for

competition and sharp cutting of prices.

Net increase (7'16 p.c.)			520,071	

For the month of April 64 roads (all that have furnished statements for the full month as yet) show aggregate results as follows :

Month of April.	1899.	1898.	Increase.	Per Cent.
	8	\$	8	

Gross earnings (64 roads) 28,711,729 27,077,603 1,634,126 6.04 It will be seen that there is a gain on the roads reporting in the amount of \$1,634,126 or 6.04 per cent.

Net Earnings Monthly to Latest Dates.—The table following shows the gross and net earnings of STEAM railroads reported this week. A full detailed statement, including all roads from which monthly reterns can be obtained, is given once a month in these column, and the latest statement of this kind will be found in the CHRONICLE of April 22, 1899. The next will appear in the issue of May 20, 1899.

-Gross Earnings. -- Net Karnings --

After deducting "reserve fund for repairs of steamers," balance in March, 1899, was \$80,616, against \$83,558, and from May 1 to March 31 \$1,076,232, against \$571,764. The reserve fund for depreci-ation and general and extraordinary repairs of steamers has been increased to the standard of the English companies, *i. e.*, five per cent upon the value of the steamers. "Expenses in 1899 include certain exceptional items amounting to about \$18,000.

Interest Charges and Surplus.—The following roads, in addition to their gross and net earnings given in the fore-going, also report charges for interest, &c., with the surplu-or denoit above or below those charges

# STREET RAILWAYS AND TRACTION COMPANIES.

The following table shows the gross earnings for the latest period of all STREET railways from which we are able to ob-tain weekly or monthly returns. The arrangement of the table is the same as that for the steam roads—that is, the first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

Includes Baltimore Traction and City & Suburban for both years. I These figures include results on Bridge Division.

These figures include results on Bridge Division. "Greet Bailway Net Earnings.—The following table gives the returns of STREET railway gross and netearnings received this week. In reporting these net earnings for the street rail-ways, we adopt the same plan as that for the steam roads— that is, we print each week all the returns received that week, but once a month (on the third or the fourth Saturday) we bring together all the roads furnishing returns, and the latest statement of this kind will be found in the CHRONICLE of April 23, 1899. The next will appear in the issue of May 20, 1899.

26, 1898, and on that day a perpetual lease of the road to this

26, 1898, and on that day a perpetual lease of the road to this company was executed. During the period from June 1, 1897, to Jan. 1, 1899, \$24,-918,500 of the various old issues of 7 per cent bonds were surrendered, and in conformity with the provision made for their retirement the new 3½ per cent 100-year gold bonds were substituted therefor. There is included in these ex-changes the outstanding balance of the Buffalo & Erie bonds, \$1,829,000, which became due April 1, 1898. By reason of these refunding transactions thus far the addition of \$3,-892 500 to the company's funded debt down to Jan. 1, 1899. 892,500 to the company's funded debt down to Jan. 1, 1899, is accompanied by an annual interest saving of \$735,910. Statistics.— The comparative statistics for four years, com-

piled for the CHRONICLE, are as follows:

#### GENERAL INVESTMENT NEWS.

Akron Traction & Electric Co.—Mr. Everett in Control.— The new company with Mr. Henry A. Everett, of Cleveland, O., as President, took possession on May 1. The Akron &

Cuyahoga Falls Rapid Transit was not purchased by the Cleveland syndicate.-V. 68, p. 616.

Cleveland syndicate.--V. 68, p. 616. Amalgamated Copper Co.-Official Statement.--An official statement says: "This company is organized under the laws of New Jersey for the purpose of purchasing and operating copper producing properties. Its capital is \$75,000,000, di-vided into 750,000 shares of common stock of the par value of \$100 each. It has no bonded or mortgage debt. The com-pany has already purchased large interests in Anaconda Copper Co., Parrott Silver & Copper Co., Washoe Copper Co., Colorado Smelting & Mining Co. and other companies and properties." The "Boston News Bureau" says:

and properties." The "Boston News Bureau" says: "This first amalgamation will furnish money to pay for the Ana conda mining stock which has been purchased, the Washoe Company, the Boston & Colorado, and the Parrott. Substantial control of these four properties is embraced in the \$75,000,000 financiering. Of course not all the shares of these companies are yet taken in. The Anaconda itself, at \$60 a share for its 1,200,000 shares would require \$72,000,000, but enough stock for control has been secured, together with the Washoe property of Messrs. Haggin and Daly, five sixths of the Boston & Colorado and a large majority of the Parrott Company. The absorption of these stocks calls for about \$70,000,000 co cash. The Butte & Boston and the Boston & Montana will be put in later, as well as the minority interests of the Anaconda and other com-panies. This will require more than \$200,000,000. The Washoe Com-pany is very necessary in the combination, as it owns all the avail-able timber land." Public Subscription.—Public subscriptions for the com-

Public Subscription.—Public subscriptions for the com-pany's 750,000 shares of the par value of \$100 each were re-ceived at the National City Bank of New York until 12 o'clock noon, Thursday, May 4, at the rate of \$100 per share and were very largely in excess of the amount offered. -V. 68, p. 820.

American Hide & Leather Co.-Upper Leather Company Incorporated.—This company was incorporated in New Jer-sey on Wednesday with authorized capital stock of \$70,000,000 (in \$100 shares). [of which \$30,000,000 is 7 per cent cumulative preferred stock] as a consolidation of the upper leather companies.

The merger was financed by J. & W. Seligman & Co., Sew. ard, Guthrie & Steele managing the legal details.—V. 68 p. 52.

p. 52. **American Steel Hoop Co.**—On "Unlisted."—Official State-ment.—On April 14th the company's \$14,000,000 7 per cent cumulative preferred stock and \$19,000,000 common stock were admitted to quotation in the Unlisted Securities Depart-ment of the N. Y. Stock Exchange. Official statement says: Organized April 14, 1899, under the laws of New Jerser. Author-ized capital: Preferred 7 per cent cumulative stock \$14,000,000 (common, \$19,000,000, all outstanding. Par value of shares \$100 each. No personal liability. Registrar, First The American Steel Hoop Co. either actually own in fee or own every share of stock of the corporation which does own infee the properties of every one of the constituent companies, and all of said companies are free of lien or incumbrance. The cash working capitalis \$3,000,000. There is no bonded indebtedness authorized or outstand-ing. The net earnings of the constituent companies during the period trom July 1, 1898, to April 1, 1899, announced to \$720,000. **LOCATION OF PLANTE.** Union Works of National Steel Co. | Pomercy Iron & St'l Co., Pom , O

from July 1, 1898, to April 1, 1899, amounted to \$720,000. LOCATION OF PLANTS. Union Works of National Steel Co. Youngst'n, Girard & Warren, O. J. Painter's Sons & Co., Pitts, Pa. Monnessen Steel Co., Monns., Pa. The above properties consist of blast furnaces and colling mills for the manufacture of hoops, bands, bars, skelp and kindred products, the annual tonnage amounting to 700,000 tons of fluished product and 200,000 tons of pig iro. The certificate of incor poration says: "The preferred stock shall be entitled in preference to the common stock to cumulative dividends at the rate of 7 per centum yearly, payable quarterly, half-yearly or yearly; that is to say, dividends may be paid upon the common stock only when the preferred cock shall have received dividends at said rate from the time of the issue thereof. The preferred stock shall also have a preference over the common stock to and 10 new party dividends or distribution. The preferred stock shall have been paid by dividends or distribution. The preferred stock shall not receive any dividends or distribution. The preferred stock shall have there in unpaid of such cumulative dividends, bases of the share in distribution of assests other than profits unfil the full par value thereof and 7 per centum per annum there on the same to fissue shall have been paid by dividends or distribution. The preferred stock shall not receive any dividends or distribution of assets in excess of said 7 per centum per annum, nor any share in distribution of assets in excess of said par value and the amount then unpaid of such cumulative dividends, based and outstanding, the board of directors may sell, convey, assign, transfer or other where dispose of, the property, assets, rights and privileges of the corporation, as an entirety, for such consideration and on such terms as they may determine."

The officers and directors were given in V. 68, p. 770.

American Tobacco.—Application to List.—The company has applied to the New York Stock Exchange to list \$12,-500,000 additional common stock.—V. 68, p. 820, 821.

500,000 additional common stock.—V. 68, p. 820, 821. Baltimore & Ohio RR.—To Authorize the New Securities. —At Baltimore on April 28 an order was signed by Judge Morris in the United States Circuit Court setting a hearing for May 15 on the petition of the company for authority to issue the new securities provided for under the reorganiza-tion plan. The petition asks for the release by the various trustees of the mortgage liens securing issues of bonds upon the payment of the bonds secured, or upon satisfactory security for the payment. Upon such payment being made the Court is asked to direct the various trustees to deliver to the company the various securities, properties and money the company the various securities, properties and money in the sinking funds, and to discharge the receivers. This step is one of the final steps in the reorganization of the property without foreclosure.—V. 68, p. 774.

Belle City Electric Co. of Racine-Milwaukee Racine & Kenosha Electric Ry.-Milwaukee Electric Ry. & Light

Co.—*Properties Transferred.*—Papers were filed in the office of the register of deeds at Racine, Wis., on April 28, trans-ferring the property of the Belle City Street Ry. of Racine and the entire property of the Milwaukee Racine & Kenosha Ry. Co. to the Milwaukee Light, Heat & Traction Co., which is a subsidiary company of the Milwaukee Electric Ry. & Light Co.—V. 68, p. 619.

Bennington & Rutland Railroad.—No Receiver. — It was stated last week that this road had been placed in receivers' hands. This was a mistake, the company con-cerned being the Bennington & Woodford Electric Ry., nine miles in length, extending from Bennington to Glastonbury. V. 68, p. 821.

Bennington (Vt.) & Woodford Electric Ry.-Receiver.-This line has been placed in the hands of E. D. Bennett, Su-perintendent of the Bennington & Rutland R.R., as receiver.

Brooklyn Development Co.—Stock Increased.—On May 2 the company filed a certificate at Albany increasing its capital stock from \$350,000 to \$2,000,000.—V. 68, p. 721. Brooklyn Rapid Transit.—Settlement Consummated.— The settlement with Mr. Flynn has been consummated. It provides for the withdrawal of the pending suits, the acqui-sition of Mr. Flynn's holdings in the Brooklyn City RR., the Nassau Electric RR., the Coney Island & Brooklyn RR. and the Brooklyn Union Elevated RRs., and also of the stocks, franchises and ownership of the Gravesend & Coney Island RR., which holds perpetual franchises on over 30 miles of public streets and roads in Gravesend. The amount paid Mr. Flynn is reported as about \$2,250,000. Mr. Flynn's withdrawal from the field, it is said, may enable the Brooklyn Rapid Transit Company to modify its lease of the Brooklyn Rapid Transit Company to modify its lease of the Brooklyn Rapid Transit Company to modify its lease of the Brooklyn Rapid Transit Company to modify its lease of the Brooklyn Rapid Transit Company to modify its lease of the Brooklyn Rapid Transit Company to modify its lease of the Brooklyn City RR. Co. and to obtain the release of the \$4,-000,000 deposited as a 'guaranty fund for the payment of dividends on the stock of the latter. Mr. Flynn's holdings are said to have included about 10,000 shares of the old Nas-sau common stock, 5,000 shares of the Nassau preferred sau common stock, 5,000 shares of the Nasau preferred stock, 450 of the Coney Island & Brooklyn stock, 100 Brooklyn City & Newtown stock and 3,500 Coney Island &

Brooklyn Citv & Newtown stock and 3,500 Coney Island & Gravesend RR. stock. Increased Earnings-Electrical Equipment.—The com-pany's increased earnings (see earnings department), it is stated, have thus far been made in spite of the fact that only about one half of the open cars are equipped for running, and neither the Brighton Beach nor the Prospect Park & Coney Island roads were open for traffic. Both roads will be in operation by or before Decoration Day. The running time from Manhattan Borough to Coney Island, via the Brooklyn Elevated route, is now 36 minutes, but will be reduced to 30 minutes. The Fifth Avenue line of the Brook-lyn Union Elevated RR. will also be equipped electrically by Decoration Day. A large increase in traffic it is ex-pected will result from these changes.—V. 68, p. 821. Buffalo Rochester & Pittsburg.—Quarterly.—Earnings

Carnegie Steel Co.--Steel Combination.--Incorporation

-Pending Negotiations —A certificate incorporating the Carnegie Steel Company was filed on Thursday with the Sec-retary of State at Trenton, N. J. The capital named is nom-inal—only \$2,000—but this amount, it is stated, will be increased to several hundred millions. It is understood increased to several hundred millions. It is understood that Mr. Carnegie has sold his entire plant to the new com-pany, of which H. C. Frick will be the head, and that the new company will acquire also the H. C. Frick Coke Co.. the Oliver Mining Co., the Pittsburg Bessemer & Lake Erie Railroad, the Union Railroad, and allied properties. By the articles of incorporation Andrew Carnegie is to receive in payment for his interest in the individual concerns \$100,-000,000 worth of 5% first mortgage bonds of the new com-pany. pany

pany. Negotiations have been pending in this city during the week for the consolidation of the American Tip Plate Co., the National Steel Co. and the American Steel Hoop Co. with other concerns, into a single corporation, with a capitalization of several hundred millions. Reports are contradictory as to whether actual consolidation, or only an operating agree-ment, will be made with the Carnegie Steel Co. The Federal Steel Co. and the American Steel and Wire Co. have been asked to take part in the consolidation movement, which it is understood is backed by the Rockefeller interests and the Moores of Chicago.-V. 68, p. 84, 283. Catskill Electric Ry.-Mortgage Fuled.-The company has

Catskill Electric Ry.-Mortgage Filed.-The company has filed a mortgage for \$400,000 to the Hamilton Trust Co. of

Brooklyn as trustee to secure an issue of 5 per cent bonds. The road is projected from Catskill to Cairo, 16 miles.-V. 67, p: 427.

Central New York & Western Ry.—Increase of Stock.— The stockholders have voted to increase the capital stock from \$1,000,000 to \$2,000,000, in order to standard-gauge the narrow-gauge division, fill trestles, re-lay tracks and pur-chase equipment. Several short lines, it is stated, have been purchased recently with a view to consolidation.—V. 68, p. 823.

Central Vermont Railway.—Mortgage Filed.—The com-pany has filed its mortgage for \$12,000,000 to the American Loan & Trust Co. as trustee.—V. 68, p. 822.

Central Vermont Ry.—Grand Trunk Ry.—Possession Taken May 1.—The receivers of the Central Vermont RR. turned over the property to the new company, the Central Vermont Railway, at 12:01 A. M. May 1. The officers and directors were given last week. The Grand Trunk Ry. Co., under the reorganization plan, acquired a controlling inter-est in the new company, and owns, it is said, two-thirds of the stock. the stock.

Interest Payment.—One per cent was paid May 1 on the certificates of deposit representing the Consolidated RR. of Vermont 5s at the American Loan & Trust Co., No. 53 State Street. Boston. or at R. L. Day & Co., No. 1 Broad Street, New York.—V. 68, p. 427, S22.

Chicago & West Michigan Railway.—Coupon Fayment in Full in Cash.—Coupon No. 16, due May 1, 1899, of the Chi-cago & North Michigan RR. 5 per cent bonds was paid in full on that date at the National Webster Bank, 87 Milk Street, Boston, Mass.—V. 68, p. 376.

Cleveland Belt & Terminal RR .- Wheeling & Lake Erie

Cleveland Belt & Terminal RR.—Wheeling & Lake Erie RR.—Control Secured.—The syndicate that acquired the Cleveland & Canton first mortgage bonds has secured de-posits of over \$600,000 bonds of the Cleveland Belt & Ter-minal Company ont of a total of \$902,000, and \$2,200,000 stock out of a total of \$3,191,300.—V. 68, p. 830. Consolidated Gas Co.—New York Mutual Gas Co.— Standard Gas Co.—New Amsterdam Gas Co.—Gas War.— A reduction in the price of gas from \$110 to 65 cents per thousand feet was made on May 1 by the Consolidated and the New York Mutual Gas Companies. Harrison E. Gaw-try. President of the Consolidated Gas Co., says: "Our com-petitors have been cutting rates and we deemed it wise to make this sweeping reduction in order to protect our busipetitors have been cutting rates and we deemed it wise to make this sweeping reduction in order to protect our busi-ness. The reduction is not intended to be permanent, for there would be no profit in the gas business at 65 cents per 1,000 feet. We are obliged to fight owing to the aggressive-ness of our competitors. It is not especially a fight against the Standard Gas Light Co., for the New Amsterdam Gas Co. has been equally, if not more, aggressive." On Wednesday the Standard Gas Co. reduced its rate to 65 cents per 1,000 feet and the New Amsterdam Gas Light to 50 cents from Max 1

65 cents per 1,000 feet and the New Amsterdam tras hight to 50 cents from May 1. The New Amsterdam Co. is reported to have been enter-ing the domain of the older companies. Moreover until within a few months the Standard Gas Co. worked in har-mony with the Consolidated and the Mutual, there being an agreement that neither should invade the other's territory, but this accompany has been disrogarded. Enseell Sage is agreement that neither should invade the other's territory, but this agreement has been disregarded. Russell Sage is one of the largest owners of stock in the Standard Gas Light Co.; J. P. Morgan became interested in the New Amsterdam Company some time ago, while the Rockefellers are heavy holders of stock in the Consolidated Company.-V. 68, p. 569; V. 67, p. 1263; V. 68, p. 577; V. 66, p. 616.

Consolidated Gum Co.—Consolidation.—The "Chicago Inter-Ocean" states that the consolidation of chewing gum interests will be effected under the name of the Consolidated Gum Co., to be incorporated under the laws of New Jersey, and capitalized at \$9,000,000. Of this \$3,000,000 is preferred and \$6,000,000 is common stock. The consolidated company, it is said, will become the owner of the following manu-factories: W. J. White (Yucatan), Cleveland; Adams & Sons' Co. (Tutti Fiutti), Brooklyn; Beeman Chemical Co. (Pepsin Gum), Cleveland; J. P. Primley (California Fruit Gum), Chicago; Stephen T. Britten, Toronto, Canada, and the Kisme Gum Co. of Louisville. The options on the plants do not expire until June 1. Thomas F. Harvey of Chicago is the promoter of this trust and Charles R. Flint of New York is financing the deal. Delaware & Hudson Co.—Change of Name.—Governor Consolidated Gum Co .- Consolidation .- The "Chicago

Delaware & Hudson Co.—Change of Name.—Governor Roosevelt has signed the bill permitting the Delaware & Hudson Canal Co. to discontinue the use of its canal and change its corporate title to the "Delaware & Hudson Com-pany."—See last annual report, V. 68, p. 566; V. 68, p. 670.

Delaware Lackawanna & Western RR.—New Treasurer.— F. H. Chambers, who has been Secretary of the company since 1872, has been elected Treasurer to succeed Frederick H. Gibbens resigned.—V. 68, p. 427.

Electric Storage Battery Co.—Stock.—The increase of \$4,500,000 in the capital stock, we are informed, "is for the purpose of acquiring large interests in, or in adjusting con-tracts in connection with the control of the electrical vehicle business." The new stock was authorized yesterday.—V. 68, p. 822.

Florida Central & Peninsular RR.—Option to Sell Stock to Expire June 1.—Announcement is made that the offer of \$55 for the preferred and \$16 for the common stock, made

by the syndicate which controls the Seaboard Air Line, is now effective, and that the option expires June 1.-V. 68, p. 822.

Ford Franchise Tax Bill.—Bill Passed.—The Assembly at Albany at its last session passed by a vote of 104 to 33 the bill of Senator Ford providing for the taxation of franchises as real estate, that is without deduction or allowance for debts. The bill is published in full in the State and City Department to day. An official of the Tax Department is reported as stating that the increases in the assessed valuis reported as stating that the increases in the assessed valu-ations of four companies alone, doing business in this city, would amount to nearly \$260,000,000. Grave question, how-ever, is raised as to the constitutionality of the bill, and various companies, like the Third Avenue RR., and a num-ber of the constituent companies of the Metropolitan Street RR. system, it is claimed, will be exempt from its enforce-ment, since they operate under municipal or State contracts which, it is said, would be violated by the imposition of an additional tax. The Tax Department has decided that it is out of the question to attempt to tax the franchises this is out of the question to attempt to tax the franchises this spring. The matter will therefore lie over until September, spring. spring. The matter will therefore he over until September, and after the assessment is announced next January the companies will have time to make their complaints. One lawyer says: "Nothing will be paid this year, and by next year there will be, I believe, an entirely different law for the taxation of franchises.

Houston & Texas Central RR.-Bonds Called.—The com-pany has called for payment with the proceeds of land sales \$200,000 of jts first mortgage bonds. The bonds will be paid at 110 per cent and accrued interest upon presentation thereof, with all unmatured coupons attached thereto, at the office of the company, Mills Building, New York City, interest ceasing June 30, 1899.—V. 68, p. 571.

Hudson River Tunnel Ry.—Sale Postponed.—The sale of the property, which was set for May 2, has been postconed at the request of the committee till June 1 in Jersey City and June 2 in New York. The postponement was due to the death of Daniel Lord, of Lord, Day & Lord, who represented the English bondholders.—V. 68, p. 671.

Indianapolis & Broad Ripple Rapid Transit Co.—Sold.— William H. Schmidt of Indianapolis has been elected Presi-dent of the road. He confirms the report that "a new com-pany" has acquired the property "by purchase." Bonds for \$400,000 were pledged to secure a loan for \$125,000.—V. 64, p. 664.

International Packing Co.-No Interest May 1.-The di-rectors have voted to pass the semi-annual interest on the \$2,438,000 of 6 per cent debenture bonds due May 1, viz .:

Whereas, The net profits made by this company during the five months ending March 31, 1899, are \$104,661; and Whereas, The working capital was on Oct. 25, 1898, impaired to the extent of \$166,695; Now, th refore, be it resolved, That this company do not pay on May 1, 1899, any interest on its said debentures.-V. 67, p. 1206.

Kansas City Pittaburg & Gulf RR.—Announcement by Harrity Committee—Flan to be Presented.—The new reor-ganization committee, William F. Harrity, Chairman, says:

ganization committee. William F. Harrity, Chairman, says: The recent change in the receivers has not in any way injured your interests. We feel assured that the property will continue to be man-aged by the new receivers for the benefit of its security-holders only, and that they will not be influenced by rival or competing interests. The real matter in controversy is the method of reorganization. The committee first appointed, after four months' delay and repeated promises to announce a plan, have failed to do so. Our committee expects to announce a plan of reorganization as soon as it can be properly formulated, which plan, it is expected, will receive the support of the foreign holders, representing, as we are informed, a majority of all the securities affected. Pending such action we ask the security holders to communicate with the Chair-man of the committee, care of Equilable Trust Co., Philadelphia, Pa. Associations of the foreign committee — The committee

Announcement of Thalmann Committee -The committee Amouncement of Thalmann Committee — The committee annexes s that at the request of, and in conjunction with, the représentatives of the Amsterdam bondholders, expert ac-countants have been appointed to examine the books and accounts, and an expert has also been appointed for the physical examination. The plan will be formulated as soon as these examinations shall have been completed.—V. 68 p. 824.

In the Map of the service, and frequent electric and Cortlandt Street, the plan provides for intermediate service, and frequent electric version of the service of the the service of the transformation of the service of the servic Long Island RR.-Atlantic Avenue Tunnel Bill Passed.

Louisville Evansville & St. Louis RR. - Southern Ry. -Option Rejected. - A press despatch from Louisville, Ky., on May 3 says the Southern Ry. has rejected the option on the bonds of the Louisville Evansville & St. Louis RR., which it has had for some time under consideration, on the ground that it is higher than the company would be justified in pay-ing.—V. 68, p. 474, 826.

Macon (Ga.) Consolidated Street Ry. Co.-Mortgage.-The company has filed a mortgage for \$350,000 to the Old Colony Trust Co. as trustee to secure an issue of 5 per cent thirty-year gold bonds. The old loan of 1892 has no doubt been retired.

Manhattan Ry.—Favorable Report.—J. D. Schultz, the State Railroad Commission's official inspector, on Wednesday filed a report stating that the company's elevated structure was in excellent physical condition, and recommended im provements to cost not more than \$20,000.—V. 68, p. 772.

Manhattan Ry. of New York.—Third Avenue RR.—Trans fer System.—The new transfer system between these roads went into effect on Saturday, April 29. By paying eight cents at the point of taking the elevated cars the pas-senger gets a coupon ticket, of which the coupon is deposited in the box of the elevated company and the remainder is given for passage on the surface car. At present Yonkers, Mount Vernon, Pelham and New Rochelle are the furthest points with which connection is made.—Vol. 68. p. 772. points with which connection is made .-- Vol. 68, p. 772.

Milwaukee Light Heat & Traction Co.-Milwaukee Electric Ry. & Light Co.-Mortgage for \$5,000,000.-The Milwaukee Light Heat Heat & Traction Co., which is con-trolled by the Milwaukee Electric Ry. & Light Co., has filed a mortgage for \$5,000,000 to the City Trust Company of New York as trustee. The mortgage, it is learned, covers the properties and franchises of the following companies:

Milwaukee & Wauwatosa Motor Ry., North Greenfield & Waukesha Electric Ry., Waukesha Electric Ry., Waukesha Beach Electric Ry., Wauwatosa Rapid Transit Ry., Milwaukee & Wauwatosa Rapid Tran-sit Co., Milwaukee & Wauwatosa Motor Electric Co., North Green-field & Milwaukee Electric Ry., Milwaukee Racine & Kenosha Ry., Belle City Street Ry. and Milwaukee Light Heat & Traction Co.

The acquisition of the Milwaukee Racine & Kenosha Ry. 

-V. 68, p. 619.
Minneapolis & St. Louis Ry.—First Preferred Stock Called for Payment June 1.—Notice is given by advertisement that the company has exercised its right to retire the \$2,500,000 first preferred stock at par and accrued dividends. The issue will be payable at the office of Redmond, Kerr & Co., No. 41 Wall St., New York, on June 1, 1899, after which date divi-dends will cease to accrue. Holders are given the privilege of exchanging the first preferred stock at par and accrued divi-dends from Jan. 1st for an equal amount of first and refund-ing mortgage 4 per cent gold bonds due March 1, 1949, at 97½ per cent and accrued interest from March 1st, provided they signify their desire to make such exchange on or before June 1st, after which date the privilege ceases. For each ten shares of stock holders will receive \$1,000 in bonds bear-ing interest from March 1st, and \$35 83 in cash.

Missouri Kansas & Texas Ry.—Boonville RR. Bridge. —Bonds Called.—Forty-six bonds of the Boonville RR. Bridge Company have been drawn for the sinking fund, and will be paid on presentation at the Union Trust Co. of New York, Trustee, interest ceasing July 1, 1899.—V. 68, p. 572.

Nashville Railway (Tenn.).—Incorporated.—This com-pany has been incorporated by E. C. Lewis, A. H. Robinson, J. C. Bradford and Wm. Hunt, all of Nashville, to carry out the consolidation already announced as in progress. The authorized capital stock is \$6,500,000.—V. 68, p. 724.

National Strawboard Co.—Options Extended till Sept. 1. —The independent strawboard manufacturers at Chicago on April 27 extended the options on the plants until Sept. 1, in order to give the promoters time to float the securities nec-essary to organization.—V. 68, p. 572.

essary to organization.-V. 68, p. 572. National Typewriter Co.-Listed in Philadelphia.-The Philadelphia Stock Exchange has listed the company's \$2,-000,000 common stock, par value \$25, full paid; transfer office, Twenty-third and Arch streets, Philadelphia,'Pa. The official statement says: "The company was incorporated April 10,1899, under the laws of Delaware, for the purpose of manufacturing, buying, selling and trading in typewrit-ing machines, etc. Its property consists of United States and foreign patents for the manufacture of typewriters and the necessary machinery and tools for the manufacture of same. Authorized capital stock, \$2,000,000, all issued; \$100,-000 for cash and \$1,900,000 for patents, property, etc., ac-quired; funded debt, none; floating debt, \$659, consisting of bills payable, offset by bills receivable amounting to \$1,294 27 and \$100,000 cash in treasury." National Tube Co.-Consolidation Progressing.-The tube

National Tube Co.—Consolidation Progressing.—The tube mills and pipe works have reached the point where the works have received instructions not to book orders beyond June 1. One feature of this consolidation is that the underwriting bankers are to keep absolute control of the property for a period of nine months. "Iron Age." The prospectus was cited in V. 68, p. 429.

New York Central & Hudson River RR.—Fall Brook Ry. —Beech Creek RR.—Possession Taken.—The New York Central & Hudson River RR. Co. on May 1 assumed control of the Fall Brook and Beech Creek roads, 412 miles in all,

and began operating them as its Pensylvania division --V. 68, p. 773; V. 66, p. 952.

Pacific Coast Biscuit Co.—Incorporated.—This company as incorporated at Trenton, N. J.. Thursday, with\$4,000,000 Pacific Coast Biscuit Co.—Incorporated.—This company was incorporated at Trenton, N. J.. Thursday, with\$4,000,000 authorized capital stock, of which \$1,500,000 to be preferred, 7 per cent cumulative. Incorporators: Turner A. Beale, New York, and George V. Vicars and Balph B. Corbett, Jersey City. The new company, it is stated, will include biscuit companies in Spokane, Tacoma, Seattle, Portland, San Francisco and Los Angeles. The promoters are Charles M, Warner and Charles B. Ide, of Syracuse, and Robert Shaw and A. W. Kinnear, of Chicago. Thomas A. McIntyre, of New York, is also interested.

Planters' Compress Co.—Indo-Egyptian Compress Co.— *Re-incorporation.*—The planfor re-incorporating the company, we are now informed, will probably go through, but whether under the laws of New Jersey or not is uncertain. The plan at the moment is to give the present stockholders double the amount of their holdings in new stock, and for every five shares of the new stock to allow them to subscribe to the capital stock of the Indo Egyptian Compress Co. at \$20 per share of the par value of \$100.—V. 68, p. 825.

**Rapid Transit in New York City.**—*Mr. Orr Retires from Commission.*—Morris K. Jesup, the new President of the Chamber of Commerce, has succeeded Alexander E Orr as a member of the Rapid Transit Commission. The retirement of President Orr makes Vice-President John A. Starin the Acting President. Mayor Van Wyck on Thursday gave a hearing on the Rapid Transit bill. Labor representatives opposed the bill, which was supported by the President of the Rapid Transit Commission and others. The Mayor did not state what his action would be.—V. 68, p. 774.

Republic Iron & Steel Co.—Incorporated,—This company was incorporated on Wednesday under the Laws of New Jer-sey, and took over the consolidated properties under the legal direction of Simpson, Thacher & Barnum. The com-pany's capitalization is \$55,000,000, of which \$25,000,000 is 7 per cent cumulative preferred stock. The prospectus of the company, showing the properties acquired, was in V. 63, p. 674.

Richmond Nicholasville Irvine & Beattyville RR.-Sold. -At the foreclosure sale on May 1 the property was purchased for \$291,000 by G. P. Cochran, trustee, representing Adolph H. Segal, of Philadelphia.-V. 68, p. 724.

H. Segal, of Philadelphia. - V. 68, p. 724. **Rubber Goods Manufacturing Co.**-Organization Com-pleted.-Official Statement.-The pending consolidation has been completed, and there have been issued, full paid, and are now outstanding, preferred stock, \$6,196,600, and com-mon stock, \$11,840,000, all in \$100 shares. The company was incorporated in New Jersey on Jan. 26, 1899, with authorized capital stock of \$50,000,000, of which \$25,000,000 to be 7 per cent cumulative preferred. The following state-ment was authorized by Charles R. Flint: "The company bas acquiredhas acquired-

(1) 91 per cent of the capital stock of the Mechanical Rubber Co., which owns the following plants: Chicago Rubber Works, at Chicago, Ill.; Cleveland Rubber Works, at Cleveland, O.; New York Belting & Packing Co., (1) at Passaic, N. J., and (2) at Sandy Hook, Conn., Fabric Fire Hose Co., at Warwick, N. Y.; Stoughton Rubber Co., at Stoughton, Mass.
(2) 75 per cent of the capital stock of Morgan & Wright, Chicago, Ill.
(3) The entire capital stock of the Peerless Rubber Manufacturing Co., of New York.
(4) The entire capital stock of the India Rubber Co., of Akron, Ohio
(5) Together with \$1,427,820 in cash.

(5) Together with \$1,427,820 in cash. "The actual tangible assets of the company have been certified by the Audit Co. of New York at \$6,196,553, including the \$1,427,820 cash in the treasury. The Audit Co. has certified the net profits for the year 1898 at \$1,177,228, without regard to the advantages and economies of consolidation. The interests now owned have been acquired by it as of Jan. 1, 1899, and carry profits from that date which, based upon the reports of the officers of the several companies, are estimated for the first four months of the present panies, are estimated for the first four months of the present year at over \$400,000."

The officers and directors are as follows:

The officers and directors are as follows: Directors—Charles R. Flint, Henry Steers, Alvah Trowbridge, Ulysses D. Eddy, George W. Hebard, R. L. Edwards, Percy Chubb, L. K. McClymonds, Alden S. Swan, Charles H. Dale, George W. Blanch-ard, Charles Stewart Smith, Wallace B. Flint and William M. Ivins of New York, and Fred W. Morgau of Chicago. Officers—Charles R. Flint, Chairman of the Executive Committee; Charles Stewart Smith, President; Ulysses D. Eddy, Vice-President; Wallace B. Flint, Treasurer, and W. A. Towner, Scoretary and Assist-ant Treasurer.

ant Treasurer.

The new company was underwritten by Baring Magoun & Co. and F. S. Smithers & Co.-V. 68, p. 774.

Co, and F. S. Smithers & Co.-V. 08, p. 774. Santa Fe Prescott & Phœnix Ry.-Bonds Offered.-Harriman & Co. and Fisk & Robinson offer for sale at 105½ and accrued interest \$1,000,000 of the company's \$5,000,000 first mortgage gold 5s of 1892, \$4,940,000 being outstanding, and the issue limited to \$25,000 per mile. The net carnings for the eight months ending Feb. 28, 1899, are stated as \$271,762; total annual interest charge \$247,000.-V. 68, p. 326.

\$271,702; totat annual interest charge \$247,000.-V. 68, p. 320. St. Louis Cape Girardeau & Fort Smith Ry.-Southern Missouri & Arkansas RR.-Successor Company.-The St. Louis Cape Girardeau & Fort Smith Ry. was purchased at foreclosure sale on Monday for \$425,000 by Albert S. Bard, representing the reorganization committee. On Thursday the Southern Missouri & Arkansas RR. was incorporated to take over the property. The reorganization plan was in V. 68, p. 233, and provides for the issue of \$1,000,000 capital

stock and a mortgage for \$1,000,000. Of the new bonds \$600,000 will bear 5 per cent interest from July 1, 1899, and the remaining \$400,000 will be entitled to non-cumulative interest payable as earned during five years, but thereafter 5 per cent fixed interest. --V. 68, p. 233.

Sioux City Traction Co.-Consolidation.-We are officially Sioux City Traction Co.—Consolidation.—We are officially informed that while the consolidation is not yet completed, it is true that the Traction Company has bought all the other lines, and now owns and will operate about 48 miles of road in Sioux City, including the Elevated. All of the old securi-ties will be canceled, and a new issue of bonds issued of about \$750,000 5 per cent conds, to run 20 years, interest payable semi-annually. The capital stock of the Sioux City Traction Co. will be increased to \$1,200,000. It may take thirty days more or less before everything is completed, but the different lines are all managed by one set of officers. Mr. J. S. Lawrence is President and Abel Anderson Vice-President and Treasurer.—V. 68, p. 725. South Caroling & Georgia RR.—South Caroling & Geor-

President and Treasurer. ---V. 68, p. 725. South Carolina & Georgia RR. --South Carolina & Geor-gia Extension RR. - Southern Ry. --Control Acquired. --Property Leased Except Extension. --As toreshadowed in the CHRONICLE last week, the control of the South Carolina & Georgia RR. on April 29 passed to the South Carolina & Georgia RR. on April 29 passed to the Southern Ry. Co., which has taken a lease of the property. The Augusta Southern RR. 84 miles in length, which, owing to a dispute, had been placed in receiver's hands, was on April 27 ordered to be delivered to the South Carolina & Georgia, and with that company passed under the manage-ment of the Southern Ry. Co.

of April 2: Order to be the company passed under the management of the Sonthern Ry. Co.
Not Included in Lease. — The proposed consolidation of the Sonth Carolina & Georgia Extension RR. (formerly the Ohio River & Charleston Railway) and the guaranteeing of its bonds was abandoned, Mr. Parsons having arranged a sale of all the stock and bonds of the Sonth Carolina & Georgia Extension RR. to a syndicate. This syndicate will operate the road entirely independent of the Sonthern Railway Co., lessee of the Sonth Carolina & Georgia RR. Mr. Samuel Hunt will continue as President of the Extension Company. Option to Sell Stock. — Mr. Chas. Parsons, the late President of the S. C. & G., states that nine-tenths of the shares have accepted the offer of sixty cents on the dollar, the price obtained for the controlling interest, and that the balance of the stock will be taken at the same price if presented within a reasonable time at the office of Strong, Sturgis & Co., 30 Broad Street, New York.—V. 68, p. 526, 674.

Southern Railway-Northern Alabama Ry.-In Control. -The purchase of the Northern Alabama Railway (Sheffield to Parish. Ala., and branch, 119 miles in all) by the South-ern Ry. Co. was announced in this column last week. The following officials have been elected for the North. Ala.:

Samuel Spencer, President; A. B. Andrews, First Vice-President; W. W. Finler, Second Vice-President; F. S. Gannon, Third Vice-Presi-dent and General Manager; Josiah F. Hill, Secretary, and H. C. Ansley, Treasurer.

Lease of South Carolina & Georgia Ry.-Control of the South Carolina & Georgia Ry., 326 miles in length, affording entrance into Charleston, S. C., has been acquired, and the property leased to the Southern Railway Co., as above stated.-V. 68, p. 826, 238.

stated.-V. 68, p. 826, 233. Tacoma Railway & Power Co.-Consolidation-New Mortgage.-This company, which was incorporated in New Jersey in February, 1899, has taken over all the street rail-ways of Tacoma, Wash., and retired all their securities. The new company has authorized and issued \$2,000,000 stock (all common), and has authorized and will shortly issue \$1,500.0°0 of 5 per cent first mortgage gold bonds, due April 1, 1929, Old Colony Trust Co. mortgage trustee. The com-pany owns 51 75 miles of road, mostly double track. The officers are: President. Gordon Abbott; Secretary, I. S. Keeler, New York.-V. 68, p. 284. Lusted States Flour Milling Co.-Official Statement.-An

officers are: President. Gordon Abbott; Secretary, I. S. Keeler, New York.-V. 68, p. 234.
United States Flour Milling Co.-Official Statement.-An official statement says: "The certificate of incorporation of the company was filed in New Jersey on April 28. The securities authorized are \$25,000,000 stock, half common and half preferred, and \$15,000,000 6 per cent 40-year gold bonds. Of these securities the following will be issued at this time: \$7,500,000 bonds, \$5,000,000 preferred stock and \$3,500,000 common stock, leaving in the treasury for future use \$7,500,000 bonds, \$7,500,000 preferred stock and \$9,000,000 common stock. This is not, as reported, a consolidation of the Minnespolis mills, but of mills in Duluth, West Superior, Milwaukee, Buffalo, Syracuse and New York, the organizers buying only such properties as they could at a fair price.
"The company will own nineteen mills, including some of the latest and most modern mills in the country, and will have a daily capacity of about 40,000 barrels of flour. The capitalization, therefore, should not be regarded as excessive. This corporation has issued only securities for property. Jacob Amos, Mayor of Syracuse for three years, is to be Vice-President, and Thomas A. McIntyre, of McIntyre & Wardwell, is to be Treasurer. The directors are expected to be:
Eugene Jones, President of the Hecker Jones Jewell Milling Co.; George H. Southard, President for the Hecker Jones. President of the States Su are reported to be:
Eugene Jones, President of the Hecker Jones. Jewell Milling Co.; Mildebrook, of Bowers & Sanda, and Clinton Morrison, President Mineapolis Flour Manufacturing Co.
"The mills will consume daily 250,000 bushels of wheat and the output will be 48,000 barrels of flour and 5,000 tons

"The mills will consume daily 250,000 bushels of wheat and the output will be 48,000 barrels of flour and 5,000 tons

of feed. All the capital needed was underwritten and largely over-subscribed. The financial affairs of the com-pany will be in charge of the Produce Exchange Trust Co." -V. 68, p. 829.

Union Match Co.—New Enterprise.—Incorporated.—This company was organized at Trenton, N. J., on Saturday, April 29. with an anthorized capital of \$10,000,000, of which \$5,000,000 is to be 7 per cent cumulative preferred. The in-corporators are : Erskine Henry Bronson and Levi Crannell, of the Bronson & Western Lumber Company, Ottawa, On-tario: William M. Ivins of New York; Camillus G. Kidder of Orange, N. J.; W. E. Cook of the Adirondack Match Co., Ogdensburg, and G. H. Williams, N. Y. Mr. Ivins says:

This is not a consolidation. It is an ordinary corporation, organ-ized to manufacture and sell matches in the United States and Canada in competition with the Diamond Co., the Continental Co. and other concerns. The stock is not offered for sale and will not be listed. The company has arranged to buy the Barnes patents and the Cook patents for match-making and match-boxing machines, and has bought the plant of the Adirondack Match Company and will enter the field at once.

Union Pacific Ry.—Sinking Fund 8s of 1873.—On May 15 Special Master Sherman E. Day will pay at the Mercantile Trust Co., 120 Broadway, N. Y., upon the bonds and ma-tured coupons secured by the Sinking Fand Mortgage of the Union Pacific RR. Co., dated Dec. 18, 1873, the appropriate amounts derived from the foreclosure sales. No interest thereon after May 15th, 1899, will be paid.—V. 68, p. 525.

United Power & Transportation Co. of Reading Pa.— United Traction Co.—*Exchange*.—United Traction stock is to be taken into the new United Power & Transportation Co. on the basis of \$75 in a new 4 per cent collateral trust bond for each \$50 share with the right to subscribe to 100 shares of the new stock for every 100 shares of Reading United Traction stock. There will be \$750,000 of the new collateral trust 4s and \$150,000 bonds ahead of them. The guaranty on the stock of the Reading Traction Co. will remain undisturbed. The property is stated to have been earning around 4 per cent on the \$500,000 stock.—"Philadelphia Inquirer."—V. 68, p. \$30. 68, p. 830.

Wheeling & Lake Erie RR.—New Company in Possession. —The Wheeling & Lake Erie Railroad Co. was incorporated at Columbus. Ohio, on April 28, with \$24,500,000 capital stock, and on May 1 took possession of the property of the Wheeling & Lake Erie Railway Co. recently sold under foreclosure.

foreclosure. Of the capital stock \$15,000,000 is common, \$2,500,000 is first preferred 4% and \$7,000,000 second preferred 4%, all non-cumulative. The reorganization plan was in V. 66, p. 1142 and authorized the new company, if deemed advisable, to be organized with power to issue not in excess of \$10,000,-000 additional common stock for acquisition of additional terminal facilities or extensions or securities of other com-panies owning the same; but apparently this option was not exercised. not exercised.

Officers .- The officers and directors are as follows:

Robert Blickensdorfer, President; Alvin Arech, Vice-President; James H. Dewland, Secretary and Treasurer, and George O. Turner, Assistant Secretary. Directors-Henry J. Booth, John Crosby Brown, E. R. Ader, Willard J. Crawford, Daniel R. Hanna, W. H. Hastings, Earl W. Oglobay, Richard M. Parmely, Charles C. Needham and Wil-liam Whiting.

New Securities Ready.—The reorganization committee, Louis Fitzgerald, Chairman, gives notice to holders of Mer-cantile Trust Company's and Central Trust Company's cer-tificates for deposited securities and stock of the railway, that the committee is now prepared to deliver at the Mer-cantile Trust Co. the securities of the Wheeling & Lake Erie RR. Co in exchange for certificates of deposit. One hun-dred schedules per diem will be received.—V. 68, p. 830.

Wisconsin Central Co.—Plan Operative—Deposits till June 3.—The plan, having been approved by the holders of certificates of deposit, has been declared operative by the Reorganization Managers, and the holders of the securities requiring deposit are called upon to deposit the same on or before June 3. 1899, with the United States Trust Co. of New York or the Old Colony Trust Co. of Boston. The same institutions will on or before June 3 pay the securities that receive cash under the terms of the plan. The plan was fully given in the CHRONICLE of April 15, p. 725. Further facts will be found in the advertising columns of the pres ent issue.

-Messrs. Kean, Van Cortlandt & Co. have moved their offices this week from 33 Wall Street to 26 Nassau Street, corner of Cedar Street.

-The official notice to holders of first preferred stock of Minneapolis & St. Louis RR. Co. of the exercise of its right to retire same will be found on page v. Payment will be made at the office of Redmond, Kerr & Co., 41 Wall Street, New York.

### MEXICAN CENTRAL RAILWAY COMPANY, LIMITED.

NINETEENTH ANNUAL REPORT, FOR THE YEAR ENDING DECEMBER 31, 1898.

OFFICE OF THE

MEXICAN CENTRAL RAILWAY Co., LIMITED, Boston, April 25, 1899. To the Stockholders of the Mexican Central Railway Company,

Limited :

Your Directors present the following Report for the year ending December 31, 1898. The operations for 1898 compare with those of 1897 as

follows : Mexican Ourrency. Gross Earnings...... 

Operating mileage was the same in both years, viz., 1,955.66. GROSS EARNINGS.

The increase over 1897 is made up as follows :

On

being 5.79 per cent, or, exclusive of freight on construction material, 5.39 per cent.

of fully \$500,000 00. The freight earnings in 1897 on corn imported into Mex-ico were \$410,890 09, none of which obtained in 1898, and it is a gratifying evidence of the increasing earning power of the property to note that, in addition to making up this amount, the gross earnings increased \$743,146 54 over 1897 Excluding from consideration the freight on construction material, the percentages of local and international earn-ings to gross earnings in 1898 and 1897 compare as follows: 1898. 1897. 68:91 68:04

Totals		719.76	58.24	\$108,725,352 92	\$2,790.975 53	\$105,934,377 39	\$9,972.603 08	282.2-	B a gallen	\$4,047.31	Inc. 141.59

It will be noticed from the foregoing statement that with an increase in operating mileage between 1885 and 1898 of 58°24 per cent there was an increase in gross commercial earnings of 282°28 per cent, or nearly five times the increase in mileage; and the commercial earnings per mile, oper-ated during the same period, increased from \$2,858 50 to \$6,905 81, or 141°59 per cent.

OPERATING EXPENSES.

Of this increase \$74,090 94 was caused by higher rates of exchange on the United States Currency Material and Ex-penses, and in order to make a proper comparison with 1897 the expenses should be placed on the same basis of ex-change as in that year by deducting this amount, which would reduce the expenses to \$9,087,341 25, as compared with \$8,829,470 91 in 1897, an increase of \$257,870 34; and on the same basis the net earnings would show an increase of \$485,276 20 over 1897.

\$485,276 20 over 1897. The maintenance-of-way expenses were 22.92 per cent of the total, and increased \$366,085 89, principally in heavier general repairs to track and bridge work, the general repairs being \$207,716 92 and the repairs and renewals of bridges \$149,488 39 more than in 1897. Of the increase under this head \$19,181 62 was caused by higher rates of exchange. There were 1,924'442 tons of new 66-pound steel rail placed in track on the Mexico Division, and 4,774'791 tons of new 66-pound steel rail placed in track on the San Luis Division. Since the rail renewals were commenced in 1896, track has been re-laid with 56 and 66-pound rail, as follows: Year

Year. 1895 1896 1897 1898 1898	Weight of Rail. 66 lb. 56 lb. 66 lb. 66 lb. 66 lb.	Division. Mexico " " San Luis	<i>Tons.</i> 7,263,980 3,507,107 1,878,910 1,924,442 4,774,791	Feet of Track. 369,802 210,426 95,653 97,971 243,080
equal to 192.	6 miles.	************	19,349,230	1,016,932

The tie renewals were 551,040, costing \$573,460 26, com-pared with 530,740 in 1897, at a cost of \$573,119 91, an in-crease of 20,300, and making a total of ties renewed from

pared with 550,4° in 1897, at a cost of \$573,11991, an increase of 20,300, and making a total of ties renewed from 1883 to 1898, inclusive, of 4,766,850. During the year 4,572 feet of wooden trestle bridges were taken out, the drainage diverted by ditching and the openings filled with earth; 4,645 feet were replaced by cost iron culverts; 1,015 feet were replaced by stone culverts and 1,984 feet were replaced by iron structures, making a total of 12,216 feet of wooden bridging replaced by permanent structures or by ditching. The amount charged to operating expenses for bridge work in 1898 was \$486,159 14. When the road was built c nsiderable wooden bridge construction was introduced. The wooden bridges were maintained by repairs until four years ago, when extensive renewals became necessary, and will continue during the next year, after which they will be materially decreased. These bridges are being replaced, as far as practicable, with permanent structures of stone or iron, or a combination of the two; and only creosoted material is used when wooden structures are rebuilt, insuring a bridge of at least twice the life of one built with untreated timber.

The following shows the replacements of wooden bridg-ing since January 1, 1895:

	Filled and	Replaced with	Replaced with Stone	Replaced with Iron	
The second s	Abandoned.	Iron Pipe.	Oulverts.	Bridges.	and a state of the
Year.	Feet.	Feet.	Feet.	Feet.	Total ft.

1896		5,642	Õ	Õ	8,800
1897		2,223	360	195	5.927
1898		4,645	1,015	1,984	12,216
Totals	12,327	13,880	1,375	2.179	29.761

thirty-seven 30-ton box cars, one 20-ton box car, seven bo ton stock cars, two 30-ton coal cars, three flat cars, two coke

The repairs of passenger cars include the cost of rebuild-ing four coaches, and one 50-foot baggage, mail and express car into a 60-foot car. Eighteen coaches also received heavy general repairs

The expenditures for maintenance of equipment include \$103,120 (the equivalent of \$48,000 U. S. Cy.), credited to Equipment Fund to provide for replacement of condemned

and destroyed equipment. The transportation and traffic expenses were 53:36 per cent of the total, and increased \$84,737 05, compared with 1897, of which \$25,461 00 was due to higher rates of ex-change on United States Currency Material and Expenses.

The amount paid for use of foreign cars was \$138,120 42, compared with \$215,577 15 in 1897, a decrease of \$77,456 73; and the items generally under this heading show de-creases, excepting station expenses and supplies, which increased \$185,284 93, of which \$177,176 91 was for demurrage on vessels at Tampico, owing to the inability of the Company to effect prompt discharging on account of the conditions and difficulties at that port, previously referred to referred to.

The general expenses were 7.78 per cent of the total, and increased \$61,441 84, of which \$9,563 44 was due to higher rates of exchange.

# STATEMENT SHOWING U.S. CURRENCY MATERIAL AND EXPENSES CHARGED IN THE OPERATING EXPENSES 1891 TO 1898, INCLUSIVE, AND YEARLY INCREASES OR DECREASES IN SAME OWING TO DEPRECIATION OR APPRECIATION IN SILVER.

During the period from 1892 to 1898, inclusive, the loss to the Company from depreciation in the value of the Mexican dollar has amounted to \$6,198,021 04 United States cur-rency. This matter was discussed more fully on pages 19 and 20 of the grant for the more 1907 and 20 of the annual report for the year 1897.

The United States Currency values of the stock of ma-
terial and fuel at the periods specified have been as follows:
December 31, 1892
December 31, 1893
December 31, 1894
December 31, 1895 (excl. material for const. of Amera ext.) 412,419.96
December 31, 1896 419,652 45
December 31, 1897
December 31, 1898 290, 286 57

showing a decrease between December 31, 1892, and Decem-ber 31, 1898, of \$565,549,33, or 66.08 per cent. The statistics of earnings and expenses for 1898 and 1897

compare as follows:

The only addition during 1898 to the equipment was two-60-foot baggage, mail and express cars, built at the Mexico shops. Various changes in classification, including four small box cars changed to beer and ice cars, forty small box

cars changed to fruit cars and fifty-eight flat cars changed to ballast cars, reduced the number of freight cars thirty-two and added the same number to "Sundry Cars." Statement showing number of engines on equipment list, total weight on drivers, average weight on drivers, and total average weight of, engines and tenders, for the years 1890 to 1998 inclusive. 1998 inclusive

Since 1893 the number of freight cars has been increased about 43 per cent, but the tonnage capacity has very nearly doubled, of which over 10 per cent has resulted from the policy of replacing condemned and destroyed cars of 15 and 20 tons capacity by cars of 30 tons capacity, the entire cost of which has been included in the operating expenses.

#### MILEAGE.

The Parral Extension from Jimenez to Parral, 54.60 miles in length, was completed in the latter part of 1898, but was not operated for revenue account until the first of January, 1899; and there have also been added 11.76 miles of new side tracks. The total mileage on December 31, 1898, was as follows: follows:

Main Line, City of Mexico to Ciudad Juarez	1,224.16
Santiago Branch, City of Mexico to Santiago	1.40
Pachuca Branch, Tula to Pachuca	43.81
Guanajuato Branch, Silao to Marfil	11.56
Guadalajara Branch, Irapuato to Guadalajara	161.21
Ameca Extension, Guadalajara to Ameca	55.41
San Luis Division, Chicalote to Tampico	406.93
Branch to Compania Metalurgica Mexicana Smelter, S.L. Potosi	5.19
Bar Extension, Tampico to La Barra.	6.21
Laguna Extension, Lerdo to San Pedro	39.78
Parral Extension, Jimenez to Parral.	54.60
_	
Total	2,010.26
Mileage of side tracks	195.21

Total mileage of all tracks....

Attached to this report will be found a map showing the lines of the Mexican Central and other railroads in the Re-public of Mexico, and steamship connections with Europe, Havana and ports in the United States. TAMPICO HARBOR.

The floods at Tampico made a further scouring out of the channel, recent soundings showing a depth of 27 feet on the outer bar and 30 feet on the old inner bar at mean high tide

tide. On February 20, 1898, the new Custom House wharf at Tampico, which had just been completed by the company for the Government, and was about to be opened for busi-ness, was entirely destroyed by fire, together with a large amount of material stored on the wharf for the construc-tion of the Custom House. The Custom House structure itself was not damaged. As the wharf was owned by the

Government, and the Company had received its payment for the work, it suffered no money loss, but the loss of the facilities which would have been furnished by the wharf proved a serious impediment to traffic, and in order to meet immediate requirements for shipping until the Govern-ment wharf could be rebuilt, an extension of 400 feet was made to the company's merchandice wharf at Dona made to the company's merchandise wharf at Dona Cecilia, and a similar extension to the company's coal wharf at that point, at a cost of \$48.972 57 United States Currency. The Government is now considering plans

for the erection of an iron wharf to take the place of that

At Dona Cecilia thirty-four employes' cottages have been erected, and at La Barra two cottages for the station agent and Customs agent, at a cost of \$7,285 61 United

States currency. On the following page will be found a statement showing the tonnage and value of exports and imports, via the various seaports and gateways of Mexico, for the years 1885 to 1898, inclusive.

The tonnage of exports and imports through Tampico and El Paso for the year ending June 30, 1898, was 712,586, com pared with 686,011 in the previous year, an increase of 26,575 tons, or 3.87 per cent; but the values of the exports and

20,375 tons, or 5'87 per cent; but the varies of the exports and imports show an increase over the previous year of 13'62 p. c. The value of exports through all the ports and gateways of the Republic for the fiscal year ending June 30, 1898, amounted to \$128,972,749 Mexican silver, of which \$56,076,-066, or 43'47 per cent, was through Tampico and El Paso; and the value of the imports through all the gateways and ports of the Republic for the same period amounted to \$42. and the value of the imports through Tamplet and the Value ports of the Republic for the same period amounted to \$43,-603,492 gold, of which \$11,719,784, or 26.88 per cent, was through Tampico and El Paso, in addition to which a con-siderable amount of the exports and imports via Eagle Pass was delivered to and received from the Mexican Interna-tional Railroad at Torreon. The corresponding percentages in 1897 were respectively 43 and 27.68, showing that the Company's gateways of Tampico and El Paso about main-tained their proportions of the total exports and imports. The above figures show the importance of the Mexican Central Railway to the industrial interests of Mexico, and the development it is instrumental in accomplishing. The following is a statement of the cost in United States currency of the Tampico Harbor Company works and prop-erty to December 31, 1898, all of which has been advanced by the Mexican Central Railway Company Limited:

by the Mexican Central Railway Company Limited:

Preliminary Expenses	\$3,299 38

for which a further issue of bonds can be made to the Railway Company in settlement.

### FINANCIAL.

The Income Accounts for the years 1898 and 1897, in United States currency, compare as follows:

United States currency, compare as follows:1892.1897.Inc. or Dec.Net Earnings......\$2,062,804 57\$1,937,483 19Inc. 125,321 38Interest on Bonds and<br/>other charges, less2,476,430 61Dec. 403 40Miscellaneous Inter.\$413,222 64\$538,947 42Dec. \$125,724 78which was provided for in both years by amounts with-<br/>drawn from the Subsidy Trust Fund, in accordance with<br/>the terms of the Trust Indenture.Fund, in accordance

It will be seen by reference to the Income Account, that

Del265:658 17,653:750 00 4;892,196 00 7,065,934 00 43'e05,492 00
It will be seen by reference to the Income Account, that the partial payment of \$50,00 00, account of new equipment, is included in the fixed charges, although on account of new property, the title to which does not become vested in the company until all the partial payments are completed and the Equipment Bonds redeemed and canceled. The payment is for Capital Account, however, and if excluded from the charges for the year, the deficit in operation is reduced from \$413,222 64 to \$363,222 64 United States currency. The maximum price at which the Company sold Mexican silver dollars in 1898 was 48 cents, and the minimum was 45 cents, and the average for the year was 46:59 cents, against 48:24 in 1897, an average decrease of 165 cents per dollar. The loss to the Company in net earnings from this decrease in the value of the dollar amounted to \$108,779 22 U.S. Cy., to which should be added the depreciation in the United States currency value of the Mexican currency assets, amounting to \$2,233 93, making a total loss in the Income for the year of \$111,013 15 U.S. Cy., being a loss of \$67,280 70 U.S. Cy. for each cent of depreciation in the gold value of Mexican silver dollars.
The balance of the Mexican Government Interior Redeemable Debt 5 per cent Bonds, amounting to \$499,300 00, received as Subsidy on the Tampico Harbor Works, and held as collateral under the mortgage securing the Tampico Harbor Company Bonds (all of which are owned by the Railway Company), were sold by the Mexican Government were used to purchase from the Railway Company and cancel \$168,-000 00 of the bonds by the Mexican Government were used to purchase from the Railway Company and cancel \$168,-000 00 of the bonds by the Mexican Government were used to purchase from the Railway Company and cancel \$168,-000 00 of the bonds by the Mexican Government were used to purchase from the Railway Company and cancel \$168,-000 00 of the bonds by the Mexican Government were use

\$74,747 97

The amount of interest collected for ac- count of the Trust during the year was Less: Trustee's compensation	\$2,500.00	\$138,639 3
Loss on securities sold	61,391 35	63,891 35

Showing the net income of the Trust dur-ing the year 1898 to have been..... an average rate of 2.96 per cent.

Exclusive of the loss on securities sold, the net receipts during the year amounted to \$136,139 32, or 5 39 per cent. The \$589,000 withdrawn from the Subsidy Trust Fund

for account of the 1898 deficit was based on a statement of operations, those for the latter months of the year being estimated, but on completion of the accounts the actual deficit was found to amount to \$413,222 64, and the amount overdrawn, viz., \$175,777 36, will be returned to the Trust Fund.

At the time the settlement of the subsidy was made with At the time the settlement of the subsidy was made with the Government, \$6,122,646 37 of the proceeds were invested in Priority Mortgage Five per cent Bonds to the par value of \$5,597,000. This is an investment by the trustee for the same purposes as the Subsidy Trust Fund, amounting, as stated above, to \$2,121,147 79, so that the security at the end of 1898 for the payment of the interest on the Consolidated Mortgage Bonds amounted to \$8,243,794 16, as shown by the general balance sheet in addition to net earnings general balance sheet, in addition to net earnings.

#### IN GENERAL.

Federal and State concessions were acquired in 1898 for a

Federal and State concessions were acquired in 1898 for a line of railroad from Yurecuaro, on the Guadalajara Branch, to Ario, an estimated distance of 190 kilometers, with a Mexican Government subsidy of \$6,000 per kilometer in 5 per cent silver bonds and a State Subsidy of \$2,500 per kilometer in cash. The construction of this branch, which will be known as the "Zamora Extension," has been author-ized by the directors to the extent of 60 kilometers. Tederal and State concessions were also obtained during the year for a line from Guadalajara, or some adjacent point on the Guadalajara Division, to Colima, an estimated distance of 261 kilometers (162 miles), with a Mexican Gov-ernment subsidy of about \$9,000 per kilometer in 5 per cent silver bonds and a State subsidy of \$3,000 per kilometer in 6 per cent silver bonds and cash. The concessions require the completion of the line October 1, 1904. No financial arrangements have yet been made for the construction, but engineering work is in progress. The territory to be trav-ersed by this line is of the same character as that occupied by the Guadalajara Branch; it is well populated, business is now offering, and the outlook is favorable. During the year the Division Point on the San Luis Divi-sion has been changed from Rascon to Cardenas, on account of the unhealthy conditions at the former place, and in order to economize in conducting transportation. At

of the unhealthy conditions at the former place, and in order to economize in conducting transportation. At Cardenas a new switching yard has been established, and an addition to the shop and engine house provided; 15 new dwelling houses, a new storehouse and new carpenter shop and necessary tracks have been added at Cardenas; and the headquarters of the Superintendent and other Division Offi-cials moved to that point, from San Luis Potosi. A new

vard has been established at Tamasopo (the foot of Tamasopo Mountain) to be used in connection with the mountain service.

service. A new reservoir for fresh water has been completed at Velasco, on the San Luis Division, which was filled with surface water during the rainy season, and which will be of great benefit to the locomotives on that section of the line. The washout which occurred near San Jose, on the Chihuahua Division, in 1897, has been repaired by re-locating and rebuilding the line around the lake, a distance of 3.71 bilometers. kilometers.

The grade has been raised between kilometers 1817 and 1851 on the main line, between kilometers 37 and  $4^{\circ}$ , and 58 and 60 on the Laguna Extension, and between kilometers 587 and 593 on the San Luis Division, at all of which points

During the year, 19:09 miles of track were thoroughly ballasted with broken stone and volcanic ash on the main ballasted with broken stone and volcanic asi on the main line, and 41.60 miles on the San Luis Division, a total of 60.67 miles, and making a total of track ballasted in the last four years of 105.36 miles, at a cost of \$338,434 28 Mexi-can currency, which has been charged to construction account.

Mr. Robert R. Symon, of London, a Director and Vice-President of the Company, died on January 28, 1899. He was one of the original concessionnaires, and had been

Connected with the company since its inception. The Comptroller's report following gives the balance sheet and income account of the company in United States currency, and detailed statements of the earnings and expenses in Mexican currency.

Respectfully submitted by order of the Board,

#### A. A. ROBINSON, President.

#### RELAY STATION.

RELAY STATION. Relay Stations are located in small buildings some miles distant from the main Exchange building in the suburban districts, where center all the long distance wires, thereby avoiding the necessity of carrying them to the main Ex-change and city proper. This greatly improves the through long-distance service. The relay station is also used as a branch office for subscribers in the immediate locality.

LONG DISTANCE SERVICE.

The value of the long-distance service to the Exchange The value of the long-distance service to the Exchange subscribers and general public has not been over-estimated. We had supposed the Northwestern and Southwestern ter-ritory would be pretty well covered with long-distance wires befere the close of 1898, but as the work of construc-tion moves forward new towns are connected with the gen-eral system, a large and unexpected business has rapidly developed, which is a sure indication that continued ex-tensions will be necessary. Undoubtedly it will be advis-able to connect every post office within a reasonable dis-tance of a trunk line route during the next two years. The wires are mostly copper and give excellent service. They are, however on account of their tensile strength, being tance of a trunk line route during the next two years. The wires are mostly copper and give excellent service. They are, however, on account of their tensile strength, being much less than iron, quite easily broken by sleet storms, causing an interruption of service at times and some extra expense for repairs. We have, however, been specially for-tunate during the past year, not having had a sleet storm causing any material damage. The gross earnings of the long-distance lines increased over 48 per cent in 1898 over the year 1897. Long-distance extensions, to be made during the next eighteen months, have been authorized as follows: *Pole.* Wire.

Miles.
3,000
8,000
19,000
30,000

Total number of metallic circuit subscribers included in the above, 1,769.

The excess of wire miles over pole miles provides for metallic circuits and extra metallic circuits on poles already constructed; this to establish additional facilities for a large

and rapidly increasing business. The development of Michigan is much less in ratio to telephonic population than either the Northwest or South-western systems, and an opportunity here presents itself for many important and valuable extensions in our newly-acquired territory, many of which will be made during the

acquired territory, many of which will be made during the year 1899. The long-distance service of the Northwestern Telephone Exchange Company extends from Park River, in North Da-kota, to Sioux City, in Iowa, a distance of 750 miles, with lines radiating in all directions to important points. A similar condition exists in the Southwest, the Company's longest line extending from Waldron, in Arkansas, to Brownsville, Texas, a distance of 1,400 miles. Our entire long-distance system is now connected with the long-distance wires of the American Telephone & Tele-graph Company and its connecting Companies, thereby establishing telephonic service with all the cities and towns connected in the United States and Canada. Company, during the year, was 7,446, and 4,083 were changed from grounded to metallic circuits. The Michigan Company made a net gain of 3,269 subscribers. 1899

1899. It is estimated that the increase of subscribers for the year 1899 will exceed 20,000. The net earnings of the Sub-Companies, exclusive of the Michigan Company, for the year 1898 were \$610,455 35— based upon the net earnings for the three months ending December 31. and not allowing for any increase during the year 1899, the net earnings should be \$867,554 20; an increase of \$257,098 85.

#### THE MICHIGAN TELEPHONE COMPANY.

THE MICHIGAN TELEPHONE COMPANY. December 9, 1898, contracts were authorized to be exe-outed for the purchase of a controlling interest in the cap-ital stock of the Michigan Telephone Company. The Company operates exclusively under the American Bell Telephone Company's perpetual licenses in the State of Michigan. A committee consisting of six members of your Board of Directors occupied twelve days in a most thorough inspection of the Company's property and made a report to the full Board of Directors. In closing the report the com-mittee say: "That they are satisfied we have obtained at a low price property that will prove of great value to the Company."

Company." The Michigan Telephone Company have sold Five Million General Consolidated Mortgage Bonds to be delivered as the Company may require funds for extensions.

#### BONDS.

To provide funds for the future growth of the business, the Capital Stock of the Cleveland, Northwestern and Southwestern Companies will be increased from time to time—and to take the new stock allotted this Company it will be necessary to issue the bonds heretofore authorized. The Company has sold for this purpose Five Million Thirty-Year Five Per Cent Debenture Bonds, to be delivered as funds may be required funds may be required.

#### IN CONCLUSION.

The admirable system of exchange and long-distance plants now in operation and constructed during the past five years has furnished a foundation for a permanent, suc-cessful business, and the Company's earnings will continue to increase in the rapidly growing and prosperous commu-nities where the properties are located.

For the Directors, LOWFLL, MASS., U. S. A. CHAS. J. GLIDDEN, January 2, 1899. Presiden President.

AUDITOR'S REPORT.

BOSTON, MASS., January 31, 1899.

CHAS. J. GLIDDEN, Esq., President, The Cleveland Telephone Company, The Northwestern Telephone Exchange Company, The Southwestern Telegraph & Telephone Co.,

The Michigan Telephone Company.

DEAR SIR: I hereby certify that I have audited the books of the I hereby certify that I have audited the books of the above-named companies quarterly during the year ending December 31, 1898, and report thereon that the postings and additions of the several books are correct, and the pay-ments are supported by vouchers, all of which I believe to be legitimate and genuine. The cash and bank balances are properly accounted for. I therefore hereby cer-tify that I have found the books correct, and that the Balance Sheets of the respective companies are true ex-hibits as shown by the books Respectfully, HENRY A. PIPER, Auditor,

Auditor.

BOSTON, MASS., January 31, 1899. CHAS. J. GLIDDEN, Esq., President, Erie Telegraph & Telephone Company.

DEAR SIR :

DEAR SIR: I hereby certify that I have audited the books of THE ERIE TELEGRAPH & TELEPHONE Co. quarterly during the year ending Dec. 31, 1898, and report thereon that the post-ings and additions of the several books are correct, and the payments are supported by vouchers, all of which I believe to be legitimate and genuine. The cash and bank balances are properly accounted for. I, therefore, hereby certify that I have found the books correct, and that the Balance Sheet is a true exhibit as shown by the books. Respectfully. HENRY A. PIPER, Auditor.

Auditor.

Hofmann Bros., 30 Broad Street, deal in Wisconsin Central fours and stock when issued.
Messrs Blodget, Merritt & Co. advertise in another column a list of choice investment bonds.
Redmond, Kerr & Co. advertise on page x a list of bonds of steam railroad companies of established reputation. This offering will well re-pay examination by investors.
Spencer Trask & Co. advertise on page x, at prices to net 3¼ to 5 per cent, a list of high-grade investment bonds.
Messrs F. Jaintor & Holt have moved from 11 Wall St. to number 10 Wall St., where they have more spacious offices. They occupy the entire Pine Street front of the building on the second floor.
Mr. Frederick T. Ackermann and Mr. Wm. Chauncey Coles have formed a copartnership under the firm name of Ackermann & Coles, with offices at 20 Broad Street, for the purpose of transacting a general brokerage business in un-listed securities.

Ackermann & Coles, with offices at 20 Broad Street, for the purpose of transacting a general brokerage business in un-listed securities. —Messrs. F. J. Lisman & Co. offer \$800,000 Gila Valley, Globe & Northern bonds at 103½ and interest, which is a 4¾% basis, Messrs. Lisman & Co. point out that in view of the fact that the bonds are guaranteed, principal and interest, by the Southern Pacific Company, and that the road is earning independently three-and-one-half times its interest charges, the offer looks exceedingly attractive. The adver-tisement appears on page vii. —Messrs. Harriman & Company and Fisk & Robinson, of New York, are offering for sale \$1,000,000 first mortgage 5% 50-year gold bonds of the Sante Fe Frescott & Phœnix Rail-way Company. The bonds are secured by an absolute first-mortgage lien upon all its property now owned or hereafter to be acquired, including the terminals and equipment. The company is exempt from taxation for twenty years from 1894, and is free from floating debt. The bonds are offered at 105½% and accrned interest—a net return on the invest-ment of 4.70%. This company is closely affiliated with the Atchison Topeka & Sante Fe Railway Company. A map of the road will be found in our INVESTORS' SUPPLEMENT; see also advertisement in another column.

# The Commercial Times.

#### COMMERCIAL EPITOME FRIDAY NIGHT, May 5, 1899.

FRDAY NIGHT, May 5, 1899. The reactionary tendency which has been experienced in financial circles the past week has not been reflected to any extent in the commercial markets. Business has been fairly active. There has been a good steady demand in most lines of merchandise and values in the main have held to a steady to firm basis. Crop accounts, although not as favorable as a week ago, have been, nevertheless, of a fairly satisfactory character. Early in the week there was some talk of gold exports, arising from an advance in the rate of exchange, the result of speculative purchases in anticipation of the Philippine indemnity navment. Philippine indemnity payment.

grades and steady. Cheese has been fairly active and steady. Fresh eggs have had a fair sale at steady prices. Brazil grades of coffee more active. There has been a large Brazil grades of coffee more active. There has been a large distributing business, and jobbers and roasters have been buy-ers. The crop movement has been light, the world's visible supply showing a fairly large decrease during April. The close was firm at 6½ c. for No. 7. Mild grades have been fairly active and prices have advanced to 8½ c. for good Cucuta, closing firm. East India growths have been dull but steady at 25@25½ c. for standard Java. Speculation in the market for contracts has been more active, and prices have advanced on a demand largely from shorts to cover contracts. Close was firm. Following are final asking prices:

granulated,

were renewed and demand became active, closing 5%c. for granulated. Kentucky tobacco has had only a limited sale, but prices have held firm. Seed leaf tobacco has been in limited demand and steady. Sales for the week were 1,925 cases as follows: 100 cases 1898 crop, New England Havana seed, 21@55c.; 300 cases 1897 crop, Zimmers, 17@20c.; 300 cases 1896 crop, Wisconsin Havana, 7%@10c.; 200 cases 1897 crop, Wisconsin Havana, 7%@10c.; 200 cases 1895 crop, Pennsylvania seed leaf, 13c.; 200 cases 1896 crop, Pennsylvania seed leaf, 12%c.; and 150 cases sundries, 6@16c.; also 900 bales Havana at 75@90c. in bond and 225 bales Sumatra at 80c.@\$1 80 in bond. Straits tin has been taken rather freely on contract, but new business has been limited; prices have ruled firm, closing at 25%@26c. Ingot copper has been quiet, and prices have weakened slightly, closing at 19@19%c. for Lake. Lead has been in fair demand and higher, closing at 4:45@4:50c. for domestic. Spelter has been steady at 6.75@7c. Pig iron in moderate demand and steady at \$14 50@16 50 for domestic. Refined petroleum has been steady, closing at 6.95c. in bbls., 4:45c. in bulk and 7:70c. in cases. Naphtha steady at 10c. Crude certificates have been neglected; credit balances have been unchanged at \$1 13. Spirits turpentine has weak-ened slightly, closing at 4:41%c. Rosins have been in de-mand and firmer at \$1.47%@1 50 for common and good strained. Wool has been in more active demand and firmer. Hops have been quiet but steady.

Hops have been quiet but steady.

### COTTON.

FRIDAY NIGHT, May 5, 1899.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 66,966 bales, against 71,179 bales last week and 61,608 bales the previous week, making the total receipts since the 1st of Sept., 1898, 7,994,369 bales, against 8,337,964 bales for the same period of 1897-8, showing a decrease since Sept. 1, 1898, of 333,595 bales.

FUTURES.— The highest, lowest and closing prices of Futures at New York are shown in the following table.

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph, is as follows. Continental stocks, as well as those for Great Britain and the afloat, are this week's returns, and consequently all European figures are brought down to Thursday evening. But to make the total the complete figures for to-night (May 5), we add the item of exports from the United States, including in it the exports of Friday only.

WEATHER REPORTS BY TELEGRAPH.—Our telegraphic ad-vices from the South this evening indicate that the weather has been dry as a rule the past week and from some districts complaint is made that moisture is needed. Planting has made excellent progress and in a few sections is about completed.

Galveston, Texas. — We have had no rain during the week. The thermometer has averaged 71, ranging from 69 to 78, Palestine, Texas. — We have had showers on three days during the week, the rainfall reaching fifty-two hundredths of an inch. The thermometer has ranged from 64 to 84, averaging 74.

averaging 74. Columbia, Texas.—It has been dry all the week. Average thermometer 74, highest 83 and lowest 65. Corpus Christi, Texas.—We have had a trace of rain on two days during the week. The thermometer has averaged 75, the highest being 78 and the lowest 72. San Antonio, Texas.—We have had showers on two days of the week, the precipitation reaching twenty-seven hun-dredths of an inch. Minimum temperature 66. Cuero, Texas.—We have had rain on one day of the week, to the extent of one hundredth of an inch. The thermom-ster has ranged from 65 to 88, averaging 77.

eter has ranged from 65 to 88, averaging 77. Dallas, Texas.—There has been rain on two days during the week, the rainfall being thirty-eight hundredths of an inch. Average thermometer 75, highest 84 and lowest 66. Huutsville, Texas.—Dry weather has prevailed all the week. The thermometer has averaged 77, the highest being

week. The thermometer has averaged 77, the highest being 86 and the lowest 67. Brenham, Texas.—There has been rain on five days during the week, but to an inappreciable extent. The thermometer has averaged 76, ranging from 67 to 85. Luling, Texas.—We have had rain on three days of the week, the precipitation being sixteen hundredths of an inch. The thermometer has ranged from 64 to 89, averaging 77. Weatherford, Texas.—There has been rain on one day of the week, to the extent of thirteen hundredths of an inch. The thermometer has averaged 71, the highest being 86 and the lowest 55.

the lowest 55. New Orleans, Louisiana.—Dry weather has prevailed all the week. The thermometer has averaged 76.

the week. The thermometer has averaged 76. Shreveport, Louisiana.—Rain has fallen on one day of the week, to the extent of one hundredth of an inch. The ther-mometer has ranged from 64 to 90, averaging 76. Coumbus, Mississippi.—We have had no rain the past week. Average thermometer 70, highest 90, lowest 56. A pril rainfall one inch and seventy-nine hundredths.

Leland, Mississippi.-Dry weather has prevailed all the week. The thermometer has averaged 74.1, the highest being 90 and the lowest 62. Month's rainfall one inch and eightyeight hundredths.

eight hundredths. Vicksburg, Mississippi.—We have had no rain the past week. Moisture badly needed. The thermometer has aver-aged 75, ranging from 64 to 88. Greenville, Mississippi.—The weather has been warm the past week and partly cloudy. Rain is badly needed. Helena, Arkansas.—Farm-work is making good progress. There has been one heavy shower during the week, to the ex-tent of eighty-nine hundredths of an inch. The thermome-ter has averaged 73, the highest being 85 and the lowest 60. April rainfall two inches and nineteen hundredths. Memphis, Tennessee.—Rain has fallen on one day of the week, to the extent of ninety-four hundredths of an inch. Planting is progressing rapidly, but more moisture is needed to bring upseed. The thermometer has averaged 76-1, ranging from 60 to 88-5. April rainfall one inch and thirty-eight han-dredths. dredths.

Nashville, Tennessee, —We have had rain on one day of the past week, to the extent of thirty-eight hundredths of an inch. The thermometer has ranged from 60 to 88, averaging 78.

Mobile, Alabama.—Reports from the interior are unfavor-able. Very little cotton is above ground, the dry weather preventing germination and delaying planting. There has been no rain here during the week. Average thermometer

April rainfall one inch and 73, highest 82 and lowest 62. two hundredths.

Montgomery, Alabama.—The weather has been very warm all the week and there has been no rain. Crops are doing well. The thermometer has averaged 76, the highest being 90 and the lowest 62. April rainfall two inches and forty-one

90 and the lowest 62. April rainfail two inches and forly-one hundredths. Selma, Alabama.—There are no stands on bottom lands yet and there will not be until we have rain. On uplands cotton is doing well. It has been dry all the week. The thermometer has averaged 75, ranging from 59 to 92. Madison, Florida.—Planting is completed. The increase in acreage is slight; possibly not more than 5 per cent. Fer-tilizers have been used to about the same extent as last year. We have had no rain the past week. The thermometer has

NEW ENGLAND MILLS SITUATION.—The strike among the weavers employed in the Rhode Island cotton mills is at an end, and most of the men have returned to work. The Whit-tenton Mfg. Co., of Taunton, Mass., advanced wages in the various departments of their mills on Monday, May 1, thus placing the hands on the same schedule as prevailed prior to Feb. 7, 1898.

MANCHESTER MARKET.—Our report received by cable-to-night from Manchester states that the market is firm for both varns and shirtings. The demand for both home trade and foreign markets is improving. We give the prices for to-day below and leave those for previous weeks of this and last year for comparison.

GovERNMENT WEEKLY COTTON REPORT.—Mr. James Berry, Chief of the Climate and Crop Bureau of the Agricultural Department, made public on Tuesday the following tele-graphic reports on the crops in the Southern States for the week ending May 1: NorTh CAROLINA.—Satisfactory progress in farm work and growth of crops continues; preparation for cotton-planting advanced and bulk of crop will be put in during next two week; early planted coming up.

NORTH CAROLINA.—Satisfactory progress in farm work and growth of crops continues; preparation for cotton-planting advanced and bulk of crop will be put in during next two week; early planted coming up. BOUTH CAROLINA.—Weather favored farm work, germination and growth of crops; cotton-planting will be finished by the 10th; early planting coming up well. GRORGIA.—Weather throughout week most favorable for farm work as well as growth of all crops; cotton planting completed in a num-ber of counties and chopping is in progress. FLORIDA.—Week favorable for work; gooler than normal over east-ern districts and rainfall generally deficient; cotton looks well, but damaged in some sections by grasshoppers. ALAB-MA.—Warm, dry week; rain would benefit all crops; cotton nearly all planted considerable up and some being chopped. MISSISTEPL—Crop conditions are generally improved, although lack of rain has materially retarded the germination of cotton; cotton now up is a good stand and being worked in some southern counties; outworms still working in northern and central counties. LOUISIANA.—Favorable conditions prevailed during the week, but rain is new needed; cutworms damaging cotton; cotton poor stand and much yet to be planted. TEXAS.—Warm week, with just sufficient sunshine for rapid veget-able growth; farm work pushed; cotton being chopped out in south-ern portion and growing nicely, except some danger from briek winds; cotton planting well advanced in northern portion and crop coming up to good stands. MERYANA.—Rain in portions of northwest section Wednesday bene -fited crops; ootton planting progressed rapidly; some coming up; entworms doing damage. TEXAS.A.=Rain in portions of northwest section weak of the season was so well advanced that it is nearly up to the average; cot-ton planting mearing completion; first plantings up and growing well. MISSOURL—An excellent week for crop growth; considerable cotton planted. OKLAHOMA.—Cotton planting delayed until Thursday by wet ground but has advanced rapidly since. Thes

These reports on cotton are summarized by the Department as follows:

Cotton planting is now well advanced over the northern section of the cotton belt, considerable having been planted in Missouri. The stands are generally reported as good, with favorable growth during the week throughout the central and southern portions, where culti-vation is in progress. Complaints of damage to cotton from insects-are reported from Floriea and Louisiana.

JUTE BUTTS, BAGGING, &C.—There has been little or no business in jute bagging the past week. Quotatious are as last quoted, viz., 55%@534c. for 134 lbs. and 64%@614c. for 2 lbs., standard grades. Jute butts continue dull at 105c. for paper quality and 15%c. for mixing to arrive. From Messrs. Ira A Kip & Co.'s circular we ascertain that the deliveries of jute butts and rejections at New York and Boston during April were 95,884 bales against 33,397 bales for the same month last year, and since January 1 the deliveries have been 125,149 bales, against 178,552 bales last year. Import-ers and speculators at New York and Boston held no stock on April 30 in either year; amount afloat for the United States reaches 66,780 bales, against 140,743 bales last year.

NEW YORK COTTON EXCHANGE.—At the meeting of the Board of Managers of the Cotton Exchange on Thursday the question of establishing a fixed rate which must be charged by dealers in cotton was laid on the table. The abolishment of membership certificates was also con-sidered yesterday, and with that end in view the formulating of the amendment to the existing by-laws was decided upon. The proposed action is for the purpose of preventing trading in certificates, considerable of which has, it is said, been car-ried on of late. ried on of late.

COTTON FROM NEW ORLEANS TO NEW YORK BY SAILING VESSELS.—The ship St. Paul arrived at New York from New Orleans Thursday with 3,088 bales of cotton. This is the first sailing vessel to bring a cargo of cotton to this port in many years, and is due to exceptional circumstances. The St. Paul was at New Orleans early in April, and was chartered to load at New York, for Japan. Her owners therefore, made a very low rate on cotton to secure a cargo for this port.

EGYPTIAN CROP.-Mail advices to Mr. Fr. Jac. Andres, of Boston, of date Alexandria, April 15, are to the effect that New crop is making good progress, and the weather, though on the cool side, is still favorable for the germination of the seed.

SHIPPING NEWS.—As shown on a previous page, the exports of cotton from the United States the past week have reached 112,412 bales. The shipments in detail, as made up from mail and telegraphic returns, are as follows: Tolal bales.

# BREADSTUFFS.

FRIDAY, May 5, 1899.

A quiet market has been experienced for wheat flour. Both the home trade buyers and shippers have shown an indifferent spirit in making purchases, and generally have confined their takings to small lots. The fact that buyers' ideas of values have been low also has had atendency to hold business in check, as sellers have been disposed to hold for

business in check, as seliers have been disposed to hold for steady prices. Rye flour has had only a small sale, and prices have ruled slightly in favor of buyers. Corn meal has been in fair active demand from both the home trade and exporters, and prices have ruled firm. Speculation in wheat for future delivery has been only moderately active and the net change in prices for the week has been unimportant. Early in the week there was a firmer tone and prices made fractional advances. Crop accounts from the winter-wheat belt were generally of a less favor-able character complaints of drought haing received and from the winter-wheat belt were generally of a less favor-able character, complaints of drought being received and weather conditions in the spring-wheat belt were reported unfavorable for sowing the new crop. Subsequently, how-ever, there developed an easier tone, as there was no spirit to the buying power, and tame foreign advices also had an unfavorable influence. At the lower prices, however, exporters were good buyers. Wednesday there was a firmer market during early 'Change on drought reports from Russia, but later in the day more favorable weather conditions in the winter-wheat belt prompted in-creased offerings, and the improvement was lost. Thuraday creased offerings, and the improvement was lost. Thursday there was an easier market under moderate offerings by bear operators and absence of aggressive buying. Busi-ness in the spot market has been active, exporters being good here in the spot market has been active, exporters being good buyers of wheat for early shipment; prices have followed futures. To day there was a slightly easier market under weaker foreign advices, generally favorable crop accounts and large receipts from Argentina. The spot market was fairly active. The sales for export here and at outports were 420,000 bushels.

GOVERNMENT WEEKLY GRAIN REPORT.—Mr. James Berry, Chief of the Climate and Crop Bureau of the Agricultural Department, made public on Tuesday the telegraphic reports on the grain crops in the various States for the week ending May 1 as follows:

May 1 as follows: WEATHER.-In the districts eastwarl of the Rocky Mountains the temperature conditions of the week ending May 1, 1899, were highly favorable. There was, however, too much rain in portions of the Missouri and R-d River of the North Valleys, and destructive local storms in portions of Kansas, Missouri and Georgia, while rain is needed in the Central Gulf States, Ohio Valley. Middle Atlantic States and Southern New England. In the Rocky Mountain districts and along the Pacific coast the week was unfavorable owing to un-seasonably low temperatures and frequent frosts, which were more or less destructive. CONN.-The week has been exceptionally favorable for planting, germination and growth of corn. Rapid progrees with planting has been made in the States of the Ohio. Central Missispipi and Lower Missouri valleys, and with favorable conditions planting will begin this week in Iowa. About half the crop has been planted in Kentucky and West Virginia, and planting nearly completed in Tennessee and Arkansas. In the Southern States corn has made good growth and is being cultivated; some complaints of damage from insects are re-ported. WINTER WHEAT.-Further improvement is generally reported in the condition of miner when her the term is generally reported in the

ported. WINTER WHEAT.—Further improvement is generally reported in the condition of winter wheat, but, as stated in previous bulletins, much of the crop has been winter-kiled, particularly over the northern por-tions of Missouri, Illinois and Indiana and northwestern Ohio, and the southern portions of Michigan, Wisconsin and Minnesota. A marked improvement in winter wheat is reported from the Ohio Valley, Tennessee and the Middle Atlantic States. The crop is now heading in the Southern States, Alabama and Texas reporting the stalk very short. On the Pacific Coast the outlook for wheat continues favorable in Oregon and California, but it is less promising in Wash-ington.

favorable in Oregon and California, but it is less promising in Wash-ington. SPRING WHEAT.—Early-seeded spring wheat is coming up to good stands and with vigorous plant over southern portions of the spring-wheat region. Seeding is about finished over the southern portions of Minnesota and North Dakota, but has been delayed in the Red River Valley and Oregon, and that sown in Washington is coming up slowly. OATS.—In the Southern States the oat crop has made favorable progress and the outlock is generally promising, although heading thort in some sections. A general improvement is reported from the Ohio Valley and Middle Atlantic States. In the more northerly section seeding continues under conditions favorable for rapid germination.

F For other tables usually given here see page 207.

# THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., May 5, 1899.

NEW YORE, FRIDAY, P. M., May 5, 1899. There has been no marked change in the general character of the market this week. The improvement in demand noted in last report has been maintained, but without further development in any particular direction. The home trade is re-ordering cotton goods for seasonable purposes to quite an average extent for the time of year, and is operating fairly in specialties for fall, but has not so far started to supply its needs for next season in staple lines with any degree of freedom. The export demand for heavy cottons is still a good feature of the situation and keeps the market for these in excellent condition. Price changes have not been important, but where made have always been in the shape of advances, as more particularly noted below. The been important, but where made have always been in the shape of advances, as more particularly noted below. The woolen goods division of the market shows a somewhat better undertone. The jobbing trade reports good results this week, particularly in cotton fabrics, and there has been an active distribution by retailers. The general outlook is regarded with assurance. Financial conditions are satisfac-tory, complaints being heard but rarely from either the primary market or jobbing circles.

primary market or jobbing circles. WOOLEN GOODS.—There has been a fair demand for Clay worsteds at the advanced prices reported last week and the market is in good shape in these. The heavier weights of men's-wear serges are also well situated and firm in prices but some of the lightest weights are dull and irregular. The demand for medium and low-grade cheviots and cassi-meres has been quiet but there is less appearance of pressure to sell than of late. Fine worsteds have sold rather more freely at steady prices. Cotton-warp and union goods are dull and irregular. The demand for overcoatings has run mostly to kerseys which are firm in price. Cloakings quiet and un-

altered. Only a moderate demand is reported for dress goods without change in prices of leading makes. Flannels Flannels and blankets quiet and unchanged. Carpets in good request for fall season and prices steady.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending May 1 were 2,571 packages, valued at \$114,729, their destination being to the points specified in the tables below:

Chilling Want and Marriel		1899.	Liter)	1898.

From New England mill points direct.

The value of the New York exports for the year to date has been \$5,323,245 in 1899, against \$3,792,318 in 1898. Several advances have been reported in bleached cottons this week, bringing the lines affected up to regular parity with those previously advanced. There has been a fair de-mand, and the bleached goods situation is still strong in medium and fine grades. Heavy brown sheetings and drills are well sold ahead, and export grades have an upward ten-dency. Export business good, but home demand moderate. Light-weight grev goods are firm, with a good business doing. are well sold ahead, and export grates have an upnet dency. dency. Export business good, but home demand moderate. Light-weight grey goods are firm, with a good business doing. Wide sheetings are quiet and unchanged. Re-orders on cot-ton flannels and blankets moderate at full prices. Denims are firmly held, being in limited supply; demand moderate Ticks firm. Checks occasionally ½c. higher. Other coarse, colored cottons quietly steady. Prints have been in full aver-age demand. Fancies are unchanged. Mournings and pinks and purples occasionally ½c. higher. Ginghams continue very scarce in both staple and dress styles. Regular print cloths have been inactive at Fall River, but firm at 234c; sales outside at 25%c. A good business has been done in wide odds at steady prices. FOREIGN DEX GOODS.—The demand for woolen and wor-

FOREIGN DRY GOODS.—The demand for woolen and wor-sted dress goods has been fair for hihg novelties, but dull otherwise. Silks are firm; demand moderate. Ribbons also firm. Linens are quiet: prices maintained. Burlaps steady, with better demand.

Importations and Warehouse Withdrawals of Bry &

The importations and warehouse withdrawals of dry goods at this port for the week ending May 4, 1899, and since January 1, 1899, and for the corresponding periods of last vear are as follows:

### MUNICIPAL BOND SALES IN APRIL.

An increase in the municipal bond sales for the month of April over that of March is here recorded. Not only is the aggregate of sales larger, but the number of municipalities issuing bonds as well as the number of issues floated is also much above that for the month previous. There have been two large issues, namely those of Providence, R. I., and Cleveland, Ohio, but these are the only ones exceeding \$200,000.

Prices have continued strong and bids have been frequently made for original issues on a much better basis than that quoted on the street for outstanding bonds of the same municipality. Instances of the high prices commanded are numerous, but for example we will only mention the two issues referred to above. On April 5 1899 Cleveland, Ohio, sold \$500,000 4 per cent park bonds, maturing one-half Oct. 1 1929 and one-half Oct. 1 1931, to Denison, Prior & Co. of Cleveland, on a basis of 3.113 per cent. In February an issue of bonds by the same municipality was sold netting the investor 3.147 per cent interest. Providence, R. I., on April 25 sold to Adams & Co., Boston, \$620,000 31 per cent 30-year bonds to net 3.014 per cent and to the Industrial Trust Co., Providence, \$334,000 3 per cent 30year bonds, on a basis of only 2.975 per cent. The last sale in this city was on July 20 1898 and the basis then was 3.107 per cent.

Our usual monthly compilation shows that the total amount of municipal securities marketed during April 1899 was \$7,447,906, not including \$3,119,000 of temporary loans reported. This aggregate may be compared with \$3,570,963 for April 1898 and \$5,507,-311 for March 1899.

The number of municipalities issuing bonds during April 1899 was 147 (emitting 183 separate issues), as against 100 and 111 for March 1899 and 108 and 118 for April 1898.

In the following table we give the prices which were paid for April loans to the amount of \$6,308,318, issued by 115 municipalities. The aggregate of sales for which no price has been reported is \$1,139,588, and the total bond sales for the month \$7,447,906. In the case of each loan reference is made to the page of the CHRONICLE where a full account of the sale is given.

### Special Topics.

Butler County (P. O. Greenville), Ala.—Injunction Issued. —We are advised by Jas. T. Buland, County Treasurer, that an injunction has been issued to prohibit the County Board of Revenue from issuing the road bonds which were recently of Revenue from issuing the road bonds which were recently anthorized by the State Legislature until the constitution-ality of the Act can be tested before the courts. As stated in the CHRONICLE of April 15, this county recently sold to A. M. Baldwin of the First National Bank of Montgomery, Ala., \$100,000 bonds, but we are not informed whether these are the bonds affected by the above injunction. Colorado.—Bill Permitting School Districts to Refund Vetoed.—The Governor has vetoed the bill passed by the re-cent Legislature permitting school districts to refund their bonded indebtedness. The Governor stated that "the sub-ject was satisfactorily covered by the law of April 8, 1897, still on the statute books." New York State.—Franchise Tax Bill.—The following is

still on the statute books." New York State.—Franchise Tax Bill.—The following is the Ford Franchise Tax Bill passed by the State Legislature on April 28, 1899, just prior to adjournment. The bill has not yet been signed by the Governor, to whose special efforts the bill owes its passage at the last moment. He has designated May 11, 1899, as the date for a hearing.

designated May 11, 1899, as the date for a hearing. Bection 1. Sub-division three of section two of the tax law is hereby amended to read as follows: 3. The terms "land," "real estate" and "real property," as used in his chapter, include the land itself above and under water, all build-ings and other articles, and structures, substructures and superstruct-ures erected upon, under or above, or affixed to the same; all wharves and piers, including the value of the right to collect wharfage, cran-age or dockage thereon; all bridges, all telegraph lines, wires, poles and appurtenances; all supports and enclosures for electricai con-ductors and other appurtenances upon, above and under ground; all surface, usderground or elevated railroads, including the value of all franchises, rights or permission to construct, maintain or oper-ate the same in, under, above, on, or through streets, highways or public places; all railroad structures, substructures and superstruct-ures, tracks and the iron thereon; branches, switches and other fixtures permitted or authorized to be made, laid or placed in, upon, above or under any public or private road, street or ground; all mains, pipes and tanks laid or places in, upon, above or under any public or pri-vate street or place, for conducting steam, heat, water, oil, electricity, or any property, substance or product capable of transportation or conveyance therein, or that is protected thereby, including the value of all franchises, rights, authority or permission to construct, main-tain, or operate, in, under, above, upon, or turough, any streets, high-ways, or public places, any mains, ploes, tanks, conduits, or wires, with their appurtenances, for conducting water, steam, heat, light, power, cas, oll, or other substance, or electricity for telegraphic, tele-phonie or other purposes; all trees and underwood growing upon iand, and all mines, minerais, quarries and fossils in and under the same, except mines belonging to the State. Section 2. T

St. Clair County, Mo.—Another Attempt to Compromise.— We take the following item from the Kansas City "Star" relative to the bond case of this county which has gained so much notoriety in recent years :

much notoriety in recent years:
A great mass meeting of the voters of St. Clair County has been called to convene May 6 in Osceoia, Mo. the county seat, and another attempt will be made to agree upon a compromise that will settle the enormous debt which has here a seloud over the county for twenty-seven years. General John B. Henderson of St. Louis, one of the attorneys for the holders of bonds against the county, will make a speech at the meeting and offer terms of compromise. The bondholders are willing to settle this debt, now amounting to 11% millions. The bondholders are willing to settle this debt, now amounting to 11% millions, for \$400,000. The amount of bonds originally issued was \$250,000. Of these the county has paid \$19,000. O. E. Robinson, former prosecuting attorney of the county, who was in Kanasa Cluty vesterday, says that the people of St. Clair County are willing to 5t. Clair County are willing to 5t. Vineland (Cal.) Irrigation District.—Bond Litigation. The following appeared in the Los Angeles "Times" of April 22, 1899 : The

In the suit of Edwin Baxter against A. W. Dickinson et al., arguments were heard by Judge York, and the case was submitted. The suit was to have de-clared invalid an issue of \$62,000 worth of bonds by the Vineland Irrigation District, and to estop the district officers from selling the lands to collect in-terest on the bonds. Dr. E. R. Maxwell of Sierra Madre and the University Bank, who hold about \$12,000 worth of the bonds, came into the case as inter-venors to protect their interests.

### **Bond Calls and Redemptions.**

insane asylum. Joplin ( to.) School District.—Bonds Voted.—At an elec-tion held recently it was voted to issue \$20,000 bonds for new school buildings. Only ten votes were cast against the proposition.

Kansas.-City and County En Voles Were cast against this proposition. Kansas.-City and County Bonds Purchased.-The State School Fund Commissioners have recently purchased the following bonds: \$300 of Logan County, \$500 of Washington County, \$200 of Woodson County, \$500 of Greenwood and \$16,000 of the city of Iola. La Plata County (P. 0. Durango, Col.,) School District No. 9.-Bond Offering.-Proposals will be received until May 10, 1899, by the Board of Education, for \$26,000 5% 10:20-year and \$12,000 5% 5-15-year bonds. Interest on both is-sues will be payable semi-annually at the office of the Coun-ty Treasurer or in New York City, at the option of holder. We are advised by C. A. Pike, Secretary of the board, that there is no litigation pending nor threatened affecting the validity of these bonds, and that the county has never de-faulted in payment of its bonds. Lawrence County, S. Dak.-Bond Sale.-On May 1, 1899, the \$140,000 5% refunding bonds were awarded to J. F. Kimball, Hastings, at 102'93. Following are the bids:

Bonds mature July 1, 1919, subject to call after July 1, 1909. For further description of bonds see CHRONICLE, April 8, 1899, p. 685.

Bonds mature July 1, 1919, subject to call after July 1, 1909. For further description of bonds see CHRONIOLE, April 8, 1899, p. 685. Tebanon (III.) School District.—Bond Offering.—Propo-sals will be received until 8 p. m. June 1, 1899, by the Board of Education, for the \$14,000 4% refunding bonds voted at the election held April 15, 1899. Securities are in denomi-nation of \$500 and will mature 20 years from date of issue, subject to call after 10 years. Torain, Ohio.—Bond Offering.—Proposals will be received until 12 m. May 24, 1899, by G. A. Resek, City Clerk, for \$10,000 5% Black River improvement bonds. Securities are in denomination of \$1,000, dated July 15, 1898. Interest will be payable January 15 and July 15, and the principal will mature \$5,000 on July 15, 1981 and 1982. A deposit of \$500 in either money or a certified check on some bank in Lorain must accompany proposals. This is the third series of bonds sold for this purpose, and they were atthorized at a special election held June 13, 1998. The first series, of \$35,000, was sold on Sept 5, 1898, and the second series, of \$30,000, Dec. 9, 1989. Bonds are subject to call after July 15, 1908. McConnelsville (Yillage), Morgan County, Ohio.—Bond Offering.—Proposals will be received until 10:30 A. m. May \$1, 1899, by George Birch, Yillage Clerk, for \$10,000 44 street-improvement bonds. Securities are issued pursuant to sections 2835, 2836, 2837 and 28373, Revised Statutes of Ohio. They are in denomination of \$500, dated Feb. 1, 1999. Interest will be payable semi-annually at the office of bond with boaks before bidding, and must so state in his bid. A certificate of deposit with the first National Bank or the Cit-izens' Bank of McConnelsville for 10% of the face value of bonds bid for, or else a check certified to by one of theses banks for that amount, will be required with each bid. McCook, Neb.—Bonds Not Sold.—All bids received on April 24, 1899, for \$1,500 6% 20-year city hall bonds were re-jected. Bonds will again be offered for sale at a la

Interest will be payable semi-annually at the National Bank of the Republic, New York City. Principal matures May 1, 1914.

1914. Marion, Ohio.—Bond Election.—An election will probably be held about May 15, 1899, to vote on the question of issu-ing \$18,000 school bonds. Marshall, Mich.—Bonds Authorized.—The City Recorder has been authorized to issue \$25,000 sewer bonds. Mattoon, III.—Bonds Voted.—This city has voted to issue \$20,000 refunding bonds. Mitchell, S. Bak.—Bond Sale.—The city has sold to J. O. Walworth, Mitchell, the \$45,000 4% bonds issued for the pur-pose of refunding water bonds now subject to call. Nashville, Tenn.—Bonds Proposed.—A bill has been in-troduced in the City Council providing for the issuance of \$50,000 refunding bonds.

\$50,000 refunding bonds. Newberry, S. C.-Bond Sale.-Rudolph Kleybolte & Co. Cincinnati, have been awarded at private sale \$22,000 41/3% bonds.

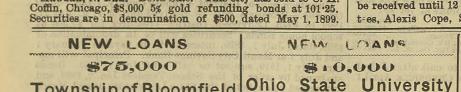

bonds. Newburgh, N. Y.—Bond Sale.—On May 3, 1899, \$8,000 alms-house bonds were sold to Isaac W. Sherrell, Pough-keepsie, at 101.87. New Mexico.—Bond Sale.—On May 1, 1899, \$60,000, 4%, 20-30 year capitol building bonds, were awarded to Denison, Prior & Co., Cleveland, at 101.338. Newton, Mass.—Loan Authorized.—The Board of Alder-men has authorized a loan of \$300,000 in anticipation of the collection of taxes.

collection of taxes.

North Adams, Mass.—Loans Authorized.—At a recent meeting of the City Council a 1-30 year loan of \$21,000 for sewers and a 1-5 year loan of \$15,000 for paving purposes were authorized.

Ocean Springs, Miss.—Bond Sale.—On May 1, 1899, the \$5,000 5% 5.20 year (optional) school bonds were awarded to F. R. Fulton & Co., Chicago, at par and blank bonds. A bid of 100.70 was received from the New First National Bank of Columbus and one of 100.22 from Duke M. Farson, Chicago.

Ohio State University .- Bond Offering .- Proposals will be received until 12 M., May 24, 1899, by the Board of Trust-es, Alexis Cope, Secretary, Columbus, Ohio, for \$10,000

Township of Bloomfield ESSEX COUNTY, N. J.,

STREET IMPROVEMENT BONDS.

4% REFUNDING BONDS.

WILMINGTON, N. C., April 15th, 1899. The City of Wilmington, N. C. offers \$150,000 of Refunding non-optional and non-taxable 4% Bonds dated July 1st, 1890, and payable 30 years after date. Interest payable semi-annually in January and July. Fuil particulars upon application to the Mayor.

If you wish to buy or sell Municipal or other Securities, please write or call. S. A. KEAN, 132 La Salle St., Chicago. 416% refunding bonds. Securities are in denomination of \$1,000, dated June 1, 1899. Interest will be payable June 1 and December 1 at the Clinton National Bank of Columbus, Principal will mature \$5,000 Dec. 1, 1904, and \$5,000 Dec. 1, 1905. Bidders will be required to be satisfied as to the legality of the bonds and to deposit \$500 in cash with the Treasurer of the University at the Clinton National Bank. Bonds are issued under authority of an Act of the State Leg islature passed April 23, 1898.

The official notice of this bond offering will be found among the advertisements elsewhere in this Department.

The official notice of this bond offering will be found among the advertisements elsewhere in this Department. Ohio Township (P. O. Rockport), Ind.—Bonds Not Is-med.—In the CHRONICLE April 22, 1899, we stated that this township had voted to issue \$43,000 road improvement bonds. We are now advised that the improvements had fallen through on account of not receiving any bids for the pro-posed work. Another election will probably be held to again vote on the question of levying a tax for this purpose. Orange, N.J.—Bond Sale.—The \$60,000 sewer assessment bonds anthorized on April 17, 1899, as stated in the CHRON-ICLE April 22, have been taken by the Sinking Fund of the city. The \$50,000 bonds anthorized on the same date will be sold on May 8, as stated last week. Owosso, Mich.—Bids.—The highest bid received on April 25, 1899, for the \$15,000 45 bonds was that of the Merchants' Loan & Trust Co., Chicago, at 101·12. The second highest bid was that of Rudolph Kleybolte & Co., Cincinnati, at 100:50. Bonds mature \$3,000 yearly. Pelican Rapids (Minn.) Independent School District No. 10.—Bond Offering.—Proposals will be received until 8 P. M., May 15, 1899, by O. J. Morrison, District Clerk, for \$6,000 55 10 15 year (serial) bonds. Bonds are dated May 15, 1899, and interest will be payable annually. A certified check for \$600 mmst accompany proposals. Perry County, III.—Bond Sale.—The Board of County Commissioners recently sold to T. B. Potter, Chicago, \$200, 500 45 1:20 year (serial) refunding bonds. These bonds are issued to refund \$100,000 Chester & Tamaroa Railrosd aid bonds and for the payment of accmed interest at 75 since 1897. This action is the closing chapter of a long series of

litigations over the legality of these bonds, resulting in 1895 in a decision of the United States Supreme Court declaring the bonds valid. Since then the County has endeavored to compromise the debt without success. See CHRONICLE, April 8, 1899, p. 683. Pittsburg (Pa.) Fourteenth Ward School District.— Bond Sale.—On April 28, 1899, \$65,000 4% bonds of this dis-trict were awarded to W. J. Hayes & Sons, Cleveland, at 113'40. Following are the bids: W. I. Hayes & Sons, Cleveland, at

Buy, C. Jones & Co., N. F.... 71:25 064 Bonds mature \$2,000 yearly from 1907 to 1919, inclusive; \$3.000 in 1920, and \$4,000 yearly 1921 to 1929, inclusive. Pottstown (Pa.) [VOL. LXVIII.

Insurance.

Six per centinterest on the outstanding certificates of profits will be paid to the holders

thereof, or their legal representatives, on and after Tuesday, the seventh of February, next. The outstanding certificates of the issue of 1893 will be redeemed and paid to the holders thereof, or their legal representatives, on and after Tuesday, the seventh of February next, from which date all interest thereon will cease. The certificates to be produced at the time of payment, and canceled.

A dividend of Forty per cent is declared on the net earned premiums of the Company for the year ending 31st December, 1898, for which certificates will be issued on and after Tues-day, the second of May, next. By order of the Board.

J. H. CHAPMAN, Secretary.
