REVIEW OF AUGUST.

August was on the whole a quiet, uneventful month in the financial markets. There was steady development in the favorable conditions previously noted. Trade revival remained a prominent and conspicuous feature of the situation, and the activity was reflected in further rises in the prices of various classes of commodities, iron and steel of course leading. The revenues of our great transportation lines furnished further evidences of an extremely satisfactory situation, the gains over the corresponding period of 1898 reaching unusual dimensions. Agricultural prospects continued assuring, and corn gave promise of the largest crop ever raised in the United States. Tension in the money market was for the time being relaxed. The beginning of dividends by the Chesapeake & Ohio RR. and the increase in the dividends on Southern Railway preferred and Union Pacific preferred showed what was in store for security holders under the maintenance of the present favorable state of things. Labor troubles became less prominent, the ore smelters' strike in Colorado being one of the disturbances brought to a close.

The stock market showed much firmness and strength. In some of the better classes of stocks, as also in several of the specialties, there were noteworthy advances. The reasons for the strength are found in the continued activity of trade, in the uninterrupted expansion in railroad earnings disclosed in the weekly and monthly returns, and lastly in the assurance that the corn would rank among the largest, if not as the largest, in the country's history. European purchases of securities were a feature at times, and helped to impart firmness to the market on

occasions when bear operators sought to create depression by short sales. Towards the end of the month the acute situation which appeared to be developing in the relations between the Transvaal and Great Britain led to some sales here on European account, inducing temporary weakness, which, however, was readily overcome. The new dividend declarations referred to above were special stimulating influences. Iron and coal shares rose sharply in a number of cases, and Tennessee Coal & Iron touched par on the 21st, closing at 95 $\frac{7}{8}$ on the 31st, against 72 on August 1. "Sugar" common fluctuated rather widely, and closed at 156 $\frac{3}{8}$ on the 31st against 162 at the opening on the 1st, on account of a further cut in the price of sugar and increased bitterness in the strife with the independent refiners. International Paper common experienced a sharp break and dropped to 31 on the 31st on rumors that dividends on the common shares were to be suspended. The close was at 33 on the 31st, which compares with 42 $\frac{3}{4}$ at the opening on the 1st. The war between the local gas companies continued unchecked, and the Consolidated Gas Company, after having in June reduced its quarterly dividend from 2 per cent to 1 $\frac{1}{2}$ per cent, made a further reduction to 1 per cent. The stock nevertheless closed higher, standing 188 $\frac{3}{4}$ ex-dividend August 31 against 181 August 1. Brooklyn Rapid Transit suffered a decline on the appearance of the company's annual report for the year ended June 30 1899, but later a more favorable view was taken of the results, and a sharp recovery ensued. The stock opened at 116 $\frac{1}{2}$ on the 1st, dropped to 100 $\frac{1}{2}$ on the 22d and closed at 105 $\frac{1}{2}$ on the 31st.

January 1 to Aug. 31.....	583,513,930	721,016,607	1,038,120,517	719,950,205

The money market developed an easier tendency, but it cannot be said that the actual situation of the

banks changed greatly. From \$10,811,125 July 29 the surplus reserve of the Clearing House banks dropped to \$8,110,600 August 5, then advanced to \$14,395,375 August 12 and \$15,082,350 August 19, but dropped again to \$12,378,525 August 26. Comparing the money holdings we find the total but slightly larger August 26 than on July 29, it being \$226,912,300, against \$226,346,800. The improvement in reserve therefore as between these two dates has been due not so much to an addition to the banks' holdings of cash as to the contraction in loans, this in turn helping to draw down the deposits, thus diminishing the reserve requirement. Loans stood at \$756,789,900 August 26, against \$759,509,100 July 29, and the deposits at \$858,135,100, against \$862,142,700.

The contraction in both loans and deposits was at one time much heavier, but the last week there was a large expansion in both items (no doubt induced by a feeling, hastily formed but widely prevalent, that there was no occasion for further apprehensions as to the future of money), the loans rising \$9,056,000 and the deposits \$6,934,100 in that week. In view of the entire situation one would expect to find no very great relaxation in rates, and the record bears out this expectation, the tendency towards ease to which we have referred being observable mainly in the call-loan branch; time loans and commercial paper following to only a small extent. Generally the range for call loans the latter part of the month was 2½@3 per cent, though occasionally there were instances of isolated loans at a higher figure. Time loans on the tenth were quoted at 4@4½ per cent for sixty days and 4½@5 per cent for ninety days to six months. On the 25th the quotations were 4 per cent for sixty to ninety days and 4@4½ per cent for four to six months. On August 31 the latter class of loans ruled about one-half per cent higher. It will be remembered that at the beginning of July quoted rates were still as low as 3 per cent for sixty to ninety days and 3½ per cent for four to seven months. For commercial paper rates at the close of August were at practically the highest figures, notwithstanding considerable out-of-town buying of paper. On August 31 the figures were 4¼@4½ per cent for sixty to ninety-day double names and 4½@5 for prime single names and 5½@6 for good names of the same class. This compares with 3@3½ per cent for double names at the beginning of July, at which time single name prime bills sold at 3½@4 per cent and good at 4@5 per cent. A feature in connection with the somewhat easier feeling which developed was that there was comparatively little discrimination against loans on such of the industrial stocks as have shown reasonable stability, an admixture of these being taken at only one-half of one per cent above the ordinary rates.

It seems proper to make reference here to a few special incidents that had some bearing, direct or indirect, upon the money market. A run July 31 on a number of the Canadian banks, arising out of the fail-

ure of the Banque Ville Marie of Montreal the previous week, led to some considerable shipments of gold from this centre to Canada early in August. None of this gold had been returned by the end of August. Perhaps the most important event of the month was the announcement on the 5th by the Secretary of the Treasury, Mr. Gage, that he had decided to resume the issue of gold certificates, which had been suspended since 1893, when the gold in the Treasury first dropped below 100 million dollars. As there has long been a scarcity of small notes and the period was approaching when there would be an active demand for money for crop purposes, the Secretary directed the preparation of \$10,000,000 certificates of the denomination of \$20. The following Monday (the 7th) the New York banks began to make extensive applications for the gold certificates. Another Treasury move during the month was the making of provision by the Department for the payment by the Assistant Treasurer at New York of drafts drawn by the Superintendent of the Mint at San Francisco. The reason for the step was that Government funds at San Francisco were rather low, having been heavily drawn upon for payments in the Philippines. The effect of the action was to transfer money from San Francisco to New York. The move was rather important in view of the expectation of continued arrivals of gold at San Francisco from the Klondike and Australia.

With reference to foreign exchange, the market had been weak at the close of July, and was further decline the first day of August and all through the early part of the month, there being liberal offerings of commercial futures. This weakness existed notwithstanding the purchase of £1,000,000 sterling for immediate delivery and £3,000,000 for future delivery, for the purpose of remitting the proceeds of that portion of the Mexican loan subscribed for in the United States. About the 10th of the month the course of the market changed. The Bank of Germany had advanced its discount rate to 5 per cent and there were fears that the Bank of England would also be obliged to raise its rate. Sterling therefore hardened, and the advance continued until the 17th, when it appearing that there was to be no change in the Bank of England minimum, exchange became easier. Thereafter it continued more or less irregular, with renewed ease at the close.

NEW YORK STOCK EXCHANGE.

MONTHLY AND YEARLY RECORD.

The following tables furnish a complete record of the New York Stock Exchange transactions for the past month and the year 1899. They need no extended introduction, as they are self-explanatory. The tables embrace every security (excepting only State bonds) dealt in on the Exchange. We give bonds first, using the classification adopted in the official list. As to prices the form is our own, and we think it will be found to contain just the facts desired by our readers and to present them in the most convenient way for study and reference. All quotations in the column headed "Price about January 3, 1899," were made on that date except those in italics, which are the nearest in January, 1899.

For foot notes to tables see last page of Bonds and last page of Stocks.

BOSTON STOCK EXCHANGE.

MONTHLY AND YEARLY RECORD.

The railroad securities which are active on the New York Stock Exchange are omitted from this list.

In comparing New York and Boston prices, it should be noted that bond prices in New York are flat prices—that is, the price includes the accrued interest, while in Boston accrued interest must be paid in addition to price. It should also be remembered that New York stock prices are per cent while those in Boston are dollars per share.

GENERAL QUOTATIONS

—OF—

BONDS AND STOCKS.

1. In the following twenty-seven pages of tables quotations are given for all securities listed on any Stock Exchange in the United States; also for all leading unlisted and inactive securities for which we have been able to obtain reliable prices.

2. Quotations from all Stock Exchanges are as near as possible for the last day of August. Of course the coupon, if there be one, maturing between the date of quotation and the date of this publication, is not deducted from the price.

3. Bond prices marked thus (§) indicate that the purchaser must pay accrued interest in addition to the price given. The method of quoting on the New York Stock Exchange is to quote the prices flat (that is to include the accrued interest in the price), and hence in the tables below no mark is now affixed where this method of quoting is followed.

4. Stock prices marked thus (+) are per share. All others are per cent except bank stock prices.

5. It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.

6. The following abbreviations are often used, viz.; "M.," for mortgage; "g.," for gold; "g'd.," for guaranteed; "end.," for endorsed; "cons.," for consolidated; "conv.," for convertible; "s. f.," for sinking fund; "l. g.," for land grant.

Notice Change.—We no longer affix a mark to prices quoted flat, but only to those which require payment of accrued interest in addition to the price. Designating mark in this instance is (§).

MUNICIPAL BONDS.

Prices marked (*) are flat prices—that is, the purchaser does not pay accrued interest in addition. In all other cases accrued interest must be added to the price.

The figures in the column "to net" indicate the basis on which the securities sell or the interest rate which the securities if held to maturity, will net to the purchaser at the present market price.

It should be borne in mind that municipal bonds are not subject to such decided fluctuations in value as are securities which form a basis for speculation

† Prices are per share not per cent.

‡ Sale price.

x Ex dividend.

QUOTATIONS OF BANK AND TRUST COMPANY STOCKS.

Prices are per share, not per cent, with the exception of New York City and Brooklyn bank stocks. Prices marked thus (*) are last sales.

The dagger (†) prefixed to a price indicates that the figures show the book value.

The double dagger (‡) prefixed to the capital stock indicates that only part is paid in.

The section mark (§) prefixed to surplus indicates that undivided profits are included.
