The full details of clearings for the week covered by the above statement will be given next Saturday. We cannot, of course, furnish them to-day, bank clearings being made up by the various clearing houses at noon on Saturday, and hence in the above the last twenty-four hours of the week have to be in all cases estimated, as we go to press Friday night. We present below our usual detailed figures for the pre-vious week, covering the returns for the period ending with Saturday noon, February 10, and the results for the cor-responding week in 1899, 1898 and 1897 are also given. In comparison with the preceding week there is an in-crease in the aggregate exchanges of eighty-seven mil-lion dollars, the gain at New York being eighty millions. Contrasted with the week of 1899 the total for the whole country shows an increase of 0.03 per oent. Compared with the week of 1898 the current returns record a gain of 43.8 per cent, and the excess over 1897 is 100.4 per cent. Outside of New York the increase over 1899 is 4.4 per cent. The excess over 1898 reaches 31.0 per cent, and making comparison with 1897 the gain is seen to be 56.0 p. c.

·30·]

#### THE FINANCIAL SITUATION.

The event of the week has been the passage by the Senate on Thursday of its bill to confirm and perpetuate the gold standard. That achievement is one which affords good reason for exultation and thankfulness on the part of the whole people, and for which the Administration deserves great credit. The measure now passed by the Senate is not, to be sure, quite as satisfactory as the one which passed the House. But as a conference committee now has the whole matter in charge we trust that committee will bring about a compromise which will be better than either device. The faulty feature of the Senate bill is obviously the funding provision; and the weak point of the bill is the omission to declare that all future issues of bonds shall be held to be payable in gold. The latter defect is, we think, a serious one. To be sure, both the Senate and the House declare, substantially alike in the first section of their respective measures, that the dollar consisting of gold nine-tenths fine shall continue to be the standard unit of value, and all forms of money issued or coined by the United States shall be maintained at a parity of value with this standard; that United States notes and Treasury notes of 1890 when presented for redemption shall be redeemed in gold of such standard. But in addition to the foregoing the House bill also provides, Section 2, "that all interest-bearing obligations of the United States for the payment of money now existing, or hereafter to be entered into. . . . shall be deemed and held to be payable in the gold coin of the United States" of the standard above defined. This feature as to future bond issues is important because if omitted a material fact is left to wrangle over on the occasion of any new issue of bonds that may be proposed to meet some unforeseen contingency. Who could have foretold the situation that existed in both houses of Congress during the administration of President Cleveland? The long period of uncertainty and apprehension business interests and classes were compelled to pass through at that time because of Congressional action and non-action on this very point makes the public extremely anxious to have the whole controversy, if possible, settled on this occasion so

It may be claimed, though, that so far as the existing issues of the Government are concerned the Senate reaches very nearly the same result as the House through its refunding arrangements, which provide for a 2 per cent gold bond to be substituted for all the old issues except the overdue \$25,000,000 of 2 per cents and the 4 per cents due February 1 1925; the Senate also authorizes a 3 per cent bond to maintain the gold reserve whenever it shall fall below \$100,-000,000, payable, principal and interest, in gold coin of present standard of value and "exempt from all taxes." Thus it will be seen that the Senate by these devices has in effect come so close to the House bill that there is no difference of principle to struggle over, and yet in practice, if the omission is continued, an opening is left which invites possible trouble. As to the Senate's refunding plan, we must repeat what we said when the bill was introduced, that according to our way of looking at it that scheme as a political venture will prove the most difficult portion of either the House or Senate measure to defend. It not only antagonizes-as does every feature of the movement to per-

petuate the gold standard—those who are opposed to gold, but it also antagonizes a larger class, who would look upon the funding provision as a device for the sole advantage of banks, while it is not of any advantage, and still another class who desire the debt paid, and consequently are strongly adverse to putting so considerable a portion of the interest-bearing debt in a shape not redeemable except by purchase.

From week to week great similarity is to be observed in the course of Wall Street affairs. Almost every week there are material advances, but also declines under moderate pressure. If, however, one looks back over the range of prices of railroad stocks from the beginning of the year for comparison, he will find that although the fluctuations have as a rule been much of the time hovering closely about the same level, yet that the apparent tendency since the middle of January, so far as there has been any, has been upwards. Take New York Central, for instance, as the type of one class of roads; for the week ending with Friday, January 5, the lowest sale of that stock was (on Dec. 30) at 131 and the highest (January 5) was 138. The high point of January 5 was exceptional, due to a general reaction from the severe decline in December; the next week the highest was  $136_4^3$ , but since that week the highest in January was on January 19th, when it was 1343; the 2d of February it touched 135, the 6th of February  $136\frac{1}{2}$  and this week the highest has been  $135\frac{1}{3}$ . The Chicago Mil. & St. Paul is a fair type of another and a larger class; there was the same recovery in the first week of January, its common stock selling on January 4 at  $117\frac{1}{8}$  (the lowest of the week) and on January 5 at 119<sup>3</sup> (the highest); the next week (ending with January 12) the highest was  $117\frac{1}{5}$  (January 6); the next week (ending with January 19) the highest was  $118\frac{1}{2}$ ; week ending with January 26 the highest was  $119\frac{1}{4}$ ; week ending with February 2 the highest was  $119\frac{3}{4}$  on February 2, the last day; the following week, ending with February 9, the highest was 1251 February 7; and the current week it reacted, the range being  $122\frac{1}{4}$  the lowest and  $124\frac{1}{4}$  the highest.

In accord with or somewhere between the rates of improvement shown by these two roads since the new year opened, nearly all the other dividend-paying that it may never again be raised. railroad stocks for the same period can be classed. Indeed, those properties may be taken as representing quite nearly the market tendency of every important railroad stock. Industrials and other specialties have fluctuated more widely. Improvements, however, in such enterprises since the close of December have in many cases been materially larger than in railroads, as their previous declines were much larger. In part explanation of the improvement in industrials, it is to be said, as we stated last week, that the chief advances which have occurred have been in the stocks of companies engaged in the manufacture of productions such as iron and steel, where a large margin for profit is known to have existed. The information likewise respecting the past year's income of many of these industrials, which is from week to week being given out, is also favoring this new movement. Altogether, it is to be observed that notwithstanding the market situation is sensitive, so that even a slight pressure seems for a time to bring about a considerable decline in some properties, there is no doubt a tendency to a higher level of values, not only in railroads, but in industrials and other specialties, particularly where they have an assured income.

In the industrial world perhaps the most important incident of the week has been the evidence furnished of the profitableness of the iron and steel trades in this country at the present time. That these trades were prosperous is a fact of which everybody was well enough aware before. But apparently authentic figures are now at hand which place the matter on a basis beyond any controversy whatever. In the suit which H. C. Frick has brought against Andrew Carnegie and the Carnegie Steel Company, Limited, Mr. Frick (who certainly ought to be well informed) states that the Carnegie Steel Company in 1899 made, on low-priced contracts, net profits (after paying expenses of all kinds) of no less than \$21,000,000; furthermore, it is estimated that for the current calendar year the profits will amount to or exceed \$40,000,000—this on a capitalization of \$25,000,000. These figures are entirely in consonance with the statements of some of the other large concerns. For instance, the Federal Steel Company has this week given out an official statement showing that for the late calendar year the Federal Steel and its constituent companies made net earnings amounting to \$10,592,-843. Furthermore, two weeks ago we had the report of the American Steel & Wire Company for the same year, and that showed profits from the various plants and interests controlled aggregating for the twelve months \$13,362,530.

We cite these figures not as evidencing the value of the shares of the industrial properties-that would obviously involve the consideration of some other factors—but as disclosing an extremely favorable commercial situation. As the profits reported for 1899 were undoubtedly, in part at least, made on low-priced contracts, it is obvious that our iron and steel trades cest on a very firm foundation. The fact is of great importance in its bearing on the future, holding out the undoubted promise that irrespective of the present exceptional state of things we shall be able to retain our hold on the markets of the world and very likely to strengthen it. Under such circumstances the constant increase in production which is taking place loses much of the menace that it might otherwise have. For we are still establishing new high records with almost each succeed. ing month. There is the further assuring fact that for the present at least the demand still continues to keep well up with the supply notwithstanding the steady enlargement of the output. The statistics of the "Iron Age" concerning the make of iron furnish an excellent illustration of the truth of this statement. In January the monthly figures of the "Age"

stocks February 1 were 148,336 tons, against 111,543 tons three months ago, but as against 462,904 tons a year ago.

The Canadian Pacific and the Baltimore & Ohio are the latest railroad companies to make announcement of new or enlarged dividend distributions. The Baltimore & Ohio is a reorganized property and has been doing remarkably well, as we have repeatedly pointed out in these columns. It has now been determined to begin dividends on the preferred shares, and 2 per cent on this stock was declared yesterday, payable in April. In the case of the Canadian Pacific the dividend on the common stock the comto be 3 per cent, as against ing April is 2 per cent at the semi-annual dates immediately preceding. This means that the common shareholders are to have altogether 5 per cent out of the earnings of the calendar year-the 2 per cent paid in October 1899 together with the 3 per cent to be paid in April 1900. The Canadian Pacific has had a noteworthy record of growth. During 1899 gross earnings increased \$3,091,061 and net earnings \$1,754,794 as compared with the twelve months of 1898. But this is only the record for one year. If we go back to 1896 we find that in the interval of three years earnings have improved about fifty per cent—that is, gross has risen from \$20,681,597 in 1896 to \$29,230,038 in 1899 and net from \$8,107,582 to \$12,230,166. The five per cent dividend on the common shares will take \$3,250,000. Over and above the amount required for this dividend and also the dividend on the preferred shares there will remain a surplus on the operations of 1899 of \$1,553,847.

There have been no reductions in the official rates of discount by any of the European banks this week, and, judging by the firm tone for unofficial discounts, no lowering of official rates is probable. The most striking feature of the statement of the New York banks last week was the unprecedented increase of \$21,152,400 in loans, making, with the \$11,249,800 increase in the previous week, a gain in this item of \$32,402,200 in a fortnight. The largest previously reported weekly increase in loans was, as was noted last week, in the week ending June 17 last, when the gain, compared with the previous week, was \$15,902,600. The increase last Saturday was probably due to large purchases by the banks of commercial paper, and in part also to special transactions. The specie increased \$2,264,500, but the legal tenders fell off \$520,800, making the net increase almost precisely as our preliminary statement of the currency movements made it. One feature of the situation the

current week, which began to be observable last week, recorded a decline in the capacity of the blast furhas been the movement of money to the interior, and naces in operation, but, as expected, this has proved especially to the South. The Sub-Treasury has also but temporary, and for the 1st of February the outbegun again to draw money from the banks. put is found to have been close to three hundred Money on call, representing bankers' balances, has thousand tons per week-in exact figures, 298,014 been easy this week, with the daily transactions unitons. We need hardly say that this total is without a formly at  $2\frac{1}{2}$  per cent and at 2 per cent, averaging parallel in the country's history. On the correspondabout  $2\frac{1}{4}$  per cent. Banks and trust companies quote  $2\frac{1}{2}$ ing date in 1899 the output was only 237,639 tons per per cent as the minimum. Time loans are more week. In the interval the number of furnaces in firmly held, and though the market is not active, blast has increased from 195 to 296. Unsold stocks some business is done, principally, however, for short are now beginning to augment, but only in a very periods. Loans are reported by banks at 4 per cent small way, showing that with over a hundred more for four months on good mixed Stock Exchange colfurnaces making iron than twelve months ago a ready lateral, but the quotations are 4 per cent for sixty to market is still being found for the product. The ninety days and 4@41 per cent for four to seven

months, the lower rate representing loans on choice collateral, while the higher rate is quoted for loans with a fair admixture of good industrial stocks. The banks are buying commercial paper less liberally, many preferring to place their money on collateral rather than to purchase unsecured single-name paper. At the same time there is a good demand from other buyers and a moderate inquiry from the interior. The supply is very good, and it seems to be increasing. Rates are  $4@4\frac{1}{4}$  per cent for sixty to ninetyday endorsed bills receivable,  $4\frac{1}{2}@5$  per cent for prime and  $5\frac{1}{2}@6$  per cent for good four to six months' single names.

The movement of General Buller in the direction of Vaal Krantz, which was noted last week, was a failure, and the position being untenable he retired. It was announced on Wednesday that on Monday an important movement began under the direction of A column consisting of cavalry, General Roberts. artillery and infantry, commanded by General French, crossed the Modder River and secured possession of Klip Drift, Rondeval Drift and other strategic positions on the Riet River, thus invading the Orange Free State. It was understood that the movement was intended for the relief of Kimberly, and this understanding was confirmed on Friday by the news that Kimberly had been relieved by General The Bank of England minimum rate of dis-French. count remains unchanged at 4 per cent. The cable reports discounts of sixty to ninety-day bank bills in London  $3\frac{1}{5}$  per cent. The open market rate at Paris is  $3\frac{1}{2}$  per cent and at Berlin and Frankfort it is  $4\frac{1}{4}@4\frac{3}{2}$ percent. According to our special cable from London, the Bank of England gained £227,016 bullion during the week and held £35,743,261 at the close of the week. Our correspondent further advises us that the gain was due to the import of £76,000 (of which £70,-000 were bought in the open market and £6,000 were from Australia) and to receipts of £151,000 net from the interior of Great Britain.

The foreign exchange market has been lower for sixty-day sterling and strong for short sterling during the week. It has been influenced in part by the gradual advance in discounts in London. There have, however, been large offerings of commercial bills against cotton which have had a direct effect upon long sterling, and it is expected that before the close of the month the supply of commercial drafts against the above-mentioned staple will greatly increase. The expectation is based on the fact that buying of cotton for Liverpool and for Continental account is reported to have been large this week, and bills drawn against these purchases will, it is presumed, come promptly upon the market. Gold arrivals at the Custom House during the week were \$6,103. The Assay Office paid \$521,227 87 for domestic bullion, and on Wednesday Lawrence Turnure & Co. shipped \$221,730 French and Spanish gold to Cuba. Nominal rates for exchange are 4 85 for sixty day and 4 88@4 881 for sight. Monday was a holiday. On Tuesday rates for actual business opened unchanged for long compared with those at the close on Friday of last week at  $4.84\frac{1}{4}@4.84\frac{1}{2}$ , but those for short storling and for cables were advanced one-quarter of a cent, to  $4.87\frac{1}{2}@4.87\frac{3}{4}$  for the former and 4.88@4 884 for the latter, and the tone was easy for long and strong for short. There was no further change

in the market until Thursday, the tone continuing as above noted. Then rates for actual business in long sterling were reduced one-quarter of a cent, to  $4\,84@$  $4\,84\frac{1}{4}$ , but those for short and for cables were unaltered. The tone was then weak for long and strong for short. The market was steady on Friday. The following shows daily posted rates for exchange by some of the leading drawers.

ler instead of Guiden and Kreutzer. The reduction of the former currency to sterling  $\pounds$  was by considering the Guiden to have the value of 50 cents. As the Krone has really no greater value than 20 cents, our cable correspondent in London, in order to reduce Kronen to  $\pounds$  has altered the basis of conversion by dividing the amount of Kronen by 24 lustead of 20.

THE ISTHMIAN CANAL TREATY.

Perhaps the most interesting bearing of the canal treaty between Great Britain and the United States, now pending in the Senate, lies in the fact that it supersedes a treaty which has existed for half a century without ever being utilized, and which, nevertheless, has been chafed against almost from the day of its signature by one of the contracting parties. A treaty of that kind is unfortunate because, unlike the generality of friendly international conventions, it serves to strain rather than to strengthen international bonds. In this case it was provided, not only what the contracting States might do, but what they might not do. Dislike and objection to the conditions thus imposed may be unjust, in a diplomatic sense; but if the sentiment is widespread among the people of one State, it becomes an awkward fact, with possibilities of real embarrassment; for it is always conceivable that a government subject to such influences might seek to evade the treaty terms or to break them forcibly. In either case, ordinary self-respect would compel the other party to the treaty to remonstrate and protest. Thus a very serious situation might be presented; for unheeded remonstrance logically leads to a partial or complete breach of good relations.

We do not suppose that controversy over the Clayton-Bulwer treaty had gone as far as this. But there can be no doubt that the weight of American opinion has consistently resented the proposition, incorporated in that document, that the Nicaragua Canal should be constructed, even as a neutral enterprise, under the joint protectorate of Great Britain and the United States. Before there was any practical occasion to apply the treaty, contradictory constructions of its terms arose. In 1856, only six years after its adoption, a futile effort was made to frame a new convention on the subject. In 1857 the President of the United States officially advised its abrogation. In 1881 our State Department vigorously contended that the canal, in contravention of the spirit of the Clavton-Bulwer treaty, must be regarded as substantially a part of the coast-line of the United States. The Senate debate of 1897, on the curious plan of a government guaranty to the bonds of a construction syndicate, was full of insinuations against Great Britain as the inciter of Nicaragua's opposition to the plan. This very seasons' Senate discussion, before the new treaty was submitted, was characterized by more than one deliberate assumption that if Great Britain would not consent to the treaty's abrogation, the United States must ignore it.

We do not regard these demonstrations as very dignified or as very creditable to our diplomatic good name. But they were facts, and it is facts with which a statesman has to deal. Moreover, it was pretty plain that the executive and legislative departments assumed the attitude they did because they were backed by public sentiment. Therefore Lord Salisbury was unquestionably wise in smoothing the difficulty over and consenting to cancel the Clayton-Bulwer treaty.

But cancellation involved substitution; for it was not to be supposed that Great Britain, interested as a naval and commercial power in the preservation of ocean waterways, would abandon a highly valuable contract right without protecting itself in some degree against the future. Fortunately there was nothing in such provision to jeopardize the rights or privileges of either party. That the canal must be neutral as to maritime privileges was agreed to by everybody. That it should be open to ships of all nations, in war as in peace, was a rule fixed for all similar enterprises by the practice of the Suez Canal. These provisos appear in form in the Hay-Pauncefote treaty submitted to the Senate on February 6. Careful stipulation is also made that the canal shall never be blockaded, that no right of war shall be exercised within it, that no belligerent shall embark or disembark troops or munitions of war within its waters, and that war vessels of any belligerent shall not be allowed to linger in the canal or in its neighborhood.

In short, the theory of the pending treaty is that the canal, if it is to be built at all, shall be completely neutralized. To the wishes of our people is conceded abandonment of even a shadowy treaty protectorate or partial ownership, such as is exercised jointly by Great Britain and France in the case of the Suez Canal. To the wishes of foreign governments is conceded the absolute abandonment of any claim to peculiar privileges by the United States. No European State will undertake to assert a complete or partial control of the enterprise. If any commercial profit is to be made from the Nicaragua undertaking it will accrue to projectors, subject to the United States. To this extent the theory of the Monroe Doctrine is conceded. But in the use of this important water-way, when constructed, the whole commercial world stands on an equal footing.

We are unable to see how any other solution of the problem would have been feasible, and we are very sure that no other would have been genuinely advantageous to this country. Opposition to the treaty has chiefly taken the form of objection to the prohibition of fortifications on the canal. There has been some effort, in the Senate discussion, to assert our inherent right to arm and defend the canal for our own advantage. To this proposition, it appears to us, there are four objections, each of itself conclusive: the expense of the undertaking, its uselessness, the lack of any right to claim it, and the certainty of complications with other Powers if it were to be asserted.

The expense is obvious; it may be clearly presented by a citation from Senator Turpie's speech of January 19 1897, when the idea of an armed canal was more generally entertained. " The canal," said the Senator, "will be and must be armored. There will have to be a fleet or squadron at the Atlantic terminal and at the Pacific terminal. There will have to be batteries in defense on land at both these terminals, and there are several places in the interior where officers of the Government, detailed to make an inspection, say that it will be necessary to keep a military force." We commented on the highly unpleasant features of this picture at the time; it will hardly impress the average observer more agreeably now when our army and navy are already costing two to three times as much as they did two years ago.

Nor is the contention sound, that the military advantage of an armored canal would compensate for all expenditure. Fortified, the canal would necessarily become a point of instant weakness on the outbreak of a war. It would be the strategic point to which the enemy would direct all his resources, Neutralized, the gateways of the canal would be kept open, not only by solemn treaty stipulations, but by the guaranty of the civilized world. Armed by one State, the jealousy of foreign Powers would instinctively concentrate against the Power holding it. Indeed, as Professor Woolsey has pointed out, the assertion of this privilege, with the incidental abrogation of the treaty, would leave even Great Britain free to buy up the rights to the unfinished Panama Canal and complete it as a rival enterprise. To this project, as matters stand, we could interpose no valid objection.

If the hypothesis of Mr. Blaine were correct, and the canal were constructively part of the coast line of the United States, it would become not merely our right but our duty to fortify the water-way. But the

most strained imaginable construction of the case cannot justify such a theory. The Suez treaty gives te Egypt the right to fortify that canal, because it crosses Egypt's territory. The Kiel canal and the Corinth canal are similarly subject to belligerent rights of Germany and Greece. But by no possible construction could the projected Nicaragua canal be assumed to traverse territory of the United States. It is a water-way bought by concessions in foreign territory, crossing a country whose government is bound by friendly treaties as well to foreign nations as to the United States. To arm the canal with garrisons of our own troops would be equivalent to establishing in neutral territory a military post or fortress of our own-a principle which no foreign government watchful of its rights could contemplate.

The fortification project would, in short, bring us face to face with the just hostility of foreign Powers. It is wholly improbable that the enterprise could be thus conducted as a result of friendly treaties; probably it would have to be carried through in the face of foreign protests. To our plea that we were protecting our own political interests, they would reasonably answer that we were threatening their commerce, and were doing so without a shadow of diplomatic right. The force of this rejoinder, in the present condition of ocean trade in the several States, will escape nobody. To invite such a demonstration by the commercial world at large, when nothing is to be gained by the assertion of our power except a heavily increased annual military outlay and the diversion from our own coasts, in time of war, of our fleets and armies, appears to us too preposterous an idea for serious consideration.

### THE CHANGE IN THE TRUST COMPANY SITUATION.

The statement of the Superintendent of Banking, showing the condition of the trust companies of New York State on the first day of January, serves, when compared with the corresponding exhibit for the first Possibly it may be supposed that the falling off of last July, to throw an interesting light at once on since last July is connected in some way with the the recent "trust company movement," and the monprocess of amalgamation of the newer concerns which etary and financial situation during the latter half of has been going on, and to which we have already rethe year now past. We gave the returns of the sepaferred. Not so. There were actually more institurate companies, as far as the Boroughs of Manhattan tions in active operation on January 1 than last July. and Brooklyn are concerned, in our issues of Janu-The returns now cover 59 separate institutions. Those ary 27 (pages 181 to 184) and February 3 (pages 234 for July covered only 52 companies. Moreover, the capand 235), but it is only by studying and examining ital of the institutions has in the interval increased just the grand aggregates that one is able to see and apten million dollars, having risen from \$38,050,000 to preciate fully what has been going on. In this way \$48,050,000, while surplus and undivided profits have we see revealed with marked distinctness a noteat the same time increased from \$69,757,000 to \$84,worthy incident of one of the most striking episodes 072,744. In other words, the contraction of 50 milof recent financial history. A brief summary of the lion dollars in aggregate resources has occurred in face results for the State was wired from Albany a week of an expansion of 24 million dollars in capital, suror ten days ago. We have awaited the receipt of the plus and profits, making such contraction all the complete official compilation for the State (which more significant. has come this week) in order to be able to note its Turning now to the deposit account, we see the teaching with greater precision and comprehensivesource and origin of the falling off explained. Durness. ing the six months the deposits have shrunk, roughly, Heretofore the chief feature in the statistics of the 71 million dollars, having fallen from \$594,462,705 to trust companies, treating the institutions as a whole, \$523,541,570. That the Clearing-House banks lost has been the further growth recorded with the apheavily in deposits is of course well known. The pearance of each new return-a growth as marvelous trust companies are seen to have suffered in the same in magnitude as it was uninterrupted in development. way. Nor is there any mystery about this diminution Now for the first time we have a retrograde movein their deposit accounts. With trade extremely ment. By this we do not have reference to the perprofitable and extremely active, and with money rates fectly familiar fact that a check has been given to high, it is not wonderful that some of the depositors the formation and creation of new companies. Some should have drawn out their money and found em-

projected enterprises have in effect been abandoned, a merger with institutions already in existence being evidently deemed better than to venture upon an independent existence. Moreover, one or two of those that have been actually launched have had troublesome sailing. This has been only because of the failure to follow a prudent and conservative course. At the same time it is doubtless true that the experience in this instance has in a measure served to induce an attitude of reserve on the part of the public towards all institutions of this class which have no long record of successful management behind them, diminishing the probability for the time being of the organization of further new concerns on any great scale.

However, it is not this development of the situation to which we have allusion. The fact which the returns we are discussing bring out with great prominence is that there has been a falling off in what may be termed the sustenance of the trust companies-we mean the trend of money into their vaults. Obviously the operations of these institutions will expand or contract as their resources expand or contract. Up to the first of last July there had been very striking expansion, and it really seemed as if there were no limit to the upward movement. Now there has been marked contraction. This contraction would hardly be suggested from the face of the returns, for we are dealing with large figures, and these figures show aggregate resources for January 1 1900 of no less than \$672,190,672. But if we turn back to the statement for July 1 1899 we find that aggregate resources then Hence in the interval of six were \$722,356,523. months there has been a decrease of over fifty million dollars. The previous growth and present decline are graphically portrayed in the following brief summary.

AGGREGATE RESOURCES OF	THE TRUST COMP	ANIES OF NEW YO	RK STATE
Jan. 1, 1900\$672,	190,672   Jan. 1,	1895\$36	5,419,729
July 1, 1899 722,	356,523 Jan. 1,	1894 34	1,466,011
Jan. 1, 1899 579,	205,442   Jan. 1,	1893 33	5,707,780
Jan. 1, 1898 483,			
Jan. 1, 1897 396,		1891 28	0,688,769
Jan. 1, 1896 392,	,630,046		

ployment for it in other channels. Loss of faith in the trust companies, induced by the untoward developments connected with one or two of the institutions, could have played no appreciable part in the downward course of the deposits, since the oldest and strongest concerns show the heaviest losses, even as they had previously shown the heaviest gains. During the six months the deposits of the United States Trust Company fell from \$63,395,055 to \$50,176,021, those of the Farmers' Loan & Trust from \$50,634,908 to \$41,519,851, those of the Union Trust Co. from \$42,962,279 to \$36,670,433, those of the Mercantile Trust from \$47,024,066 to \$41,970,993, those of the Central Trust from \$53,632,240 to \$43,177,608, etc., etc. In the following we indicate the changes in aggregates of deposits of the trust companies back to 1891.

AGGREGATE	DEPOSITS OF	THE NEW	YORK TRUST	COMPANIES.

J
J
J
1.

With these figures before us, the causes for the sudden creation of so many new trust companies and for the equally sudden stop put to the movement both become perfectly clear. The justification for the trust company is in the deposits put at its command for employment. These deposits are its tool, without which it can not work. Year by year these deposits had been growing, and during the first six months of 1899 there had been a perfectly marvelous addition—no less than 127 million dollars increase coming on top of the great and almost continuous increase of the years preceding. Furthermore, as already stated, it seemed as if there were to be no limit to this expansion in the deposit line. Here was the inducement, the temptation, for the creation of the new enterprises. But, as it happened, the course of the deposits was suddenly reversed. Instead of still further additions, a very important decline ensued, the reduction for the six months to December 31 being, as we have seen, 71 million dollars. In other words, new facilities were being created at a time when the work for them was being curtailed. Under such circumstances it is not surprising that some of the new creations which were most belated should have been still-born.

As to the bearing of the changes here outlined on the trend of events in the monetary and financial world, the situation is no less important or interesting. But we have space for only a few words concerning this aspect of the matter. While the deposits of the trust companies dropped 73 million dollars, the deposits of our Clearing-House banks during the same six months fell off 165 million dollars-that is, decreased from \$905,127,800 to \$740,046,900. There was, therefore, a total loss of 238 million dollars by the two classes of institutions, or perhaps we should say 228 millions, as part of the decrease in the banks followed from the fact that the trust companies had less of cash on deposit with them. We have allowed, roughly, 10 millions for this, as the trust companies report having only \$70,555,987 cash with the banks December 31 1899, against \$83,062,453 June 30, though this is for all the trust companies in the whole State. With the banks and the trust companies combined having 228 millions less deposits, and therefore 228 millions less money to put out, stringency and the attendant train of circumstances accompanying such development naturally followed.

During the first six months of 1899 the trust companies had expanded their loans on collaterals hardly less than 95 million dollars. In reviewing the July statement in our issue of August 5 last we referred to this fact, and pointed out that it constituted a factor in the future of the money market which could not be ignored. What has happened is precisely what would have been looked for. Having so much less of deposits the trust companies were forced to contract their outstanding loans in precisely the way the banks were obliged to do. The figures show that altogether the loan account was shortened over 50 million dollars during the six months, having been reduced from \$378,218,698 to \$328,143,588, as will appear by the following.

LOANED ON COLLATERAL BY TRUST COMPANIES.

	Jan. 1, 1900 July 1, 1899 Jan. 1, 1899	378,218,693   Jan 283,402,822   Jan	1. 1, 1894 1. 1. 1893	147,794,024 196,321,422
4	Jan. 1, 1899 Jan. 1, 1899 Jan. 1, 1897 Jan. 1, 1897 Jan. 1, 1896	283,402,822   Jan 230,581,708   Jan 169,894,938   Jan	1. 1, 1893 1. 1. 1892	196,321,422 173,552,829

To complete the story, it is only necessary to say that in the same six months the Clearing House banks reduced their loans 113 million dollars (from \$786,-884,000 to \$673,689,400), making a total contraction of 163 million dollars.

#### LIFE ANNUITIES.

An annuity is a fixed payment per year, generally made annually but sometimes at shorter periods. It is in two classes. In one it is issued by governments, by corporations, or by individuals (in the latter case usually, though not always, by will), the consideration being the claim of blood or of some past service by the beneficiary. The largest and most familiar form of this class is the government pension. In the other class—issued only by corporations in this country, but in Europe by governments as well as corporations—the consideration is simply a cold business matter of purchase.

Possibly, though not probably, the issuing of annuities may some time be undertaken as a special business here, but it is thus far confined to the life insurance companies, which naturally are best equipped for it. In the last dozen years the plan has been largely coming into practice of settling life insurance polices by instalments instead of a single payment, and also of putting part or all into the form of an annuity for a term of years, and sometimes during or even beyond the life of the named beneficiary. A considerable annuity line is arising in this way, and there is much to commend in it. Complete figures of annuity transactions *per se* are not attainable, because the official reports do not as yet separate in all cases the independent transactions from those arising out

of life insurance as just explained.

Receipts of 19 companies strictly on annuity account were a little over 5 millions in 1898; their payments were a little over  $3\frac{1}{3}$  millions. There are some flunctuations in the experience of particular companies and also in the aggregate receipts, and the latter declined materially after having been increasng for five years or more; but this does not prevent the general forward movement. At the end of 1898 the 19 companies had oustanding 14,184 pure annuity contracts, calling for \$3,240,123 annually. Comparatively small as these figures are, their significance is in the fact that the trend of the business is steadily upward, and that what we see is only the beginning.

[VOL. LXX.

It is with the life rather than the shorter-term annuities that we have to do. The life annuity is in nearly all particulars the reverse of life insurance. The latter calls for periodical payments to the company, through life or a fixed term, and brings nothing back until a fixed date or at death if occurring sooner, according to the form of the contract; the annuity be gins with paying a lump sum down and then makes annual return till death. The company's interest is to have the insured man live to the limit, that it may collect the largest number of premiums and have the longest use of the money; from the annuitant it gets the entire consideration at once (the exceptions to this rule being too rare to need specification in the general statement), and the sooner he dies the sooner it is relieved of a burden. So the company "selects" lives for insurance by the ablest medical winnowing it can command. It would like to select for annuities also, only reversing the method and seeking the feeblest lives; as this is not possible, it makes no examination of applicants for annuities, leaving the physical condition to themselves and asking no questions except about age. Rates are graded solely by age, as in life insurance, but reversed; the older the person the higher the insurance and the lower the annuity charge. Present rates for the latter are thus:

Age.	Purchase price of \$100 annuity.	Annuity purchasable for \$1000.	Age.	Purchase price of \$100 annuity.	Annuity purchasable for \$1000.
	\$1,693	\$59 07	65	\$988	\$112 61
45	1,556	64 27	70	742	134 77
	1,405				
	1,240				
	1,066				

The two rate columns are equivalent, but differ in the form of expression; the purchase price of a fixed annuity must evidently decrease, and the annuity purchasable by a fixed purchase-money must increase with the age of the person effecting the transaction. The rates have been revised several times, and always upward. Thus, the price of \$100 annuity at age 50 was \$1,165 in 1869, \$1,255 in 1889, \$1,308 in 1892, \$1,405 in 1898, and a slight further increase in 1900 is quite probable.

The rate of return must needs be large in order to make an inducement, because the principal sinks. The rule that high interest means poor security means that principal and interest are really both at hazard, but here the interest is secured for life and the principal is lost from the start. The figures above show that the rate of return ranges from 5.90 to 21.368 per cent. To both sides an annuity is a plain though legitimate speculation in chances. The annuitant begins by receiving more than current interest; hence the company begins by losing—probably not less than four per cent on the average. The annuitant of 62 deposits his money on a contract to receive instalments of 10 per cent, with the chance of receiving two or three times ten of them; he has his chance of getting the better end of the bargain, and sometimes he does get it. In one very notable case, a man of 74. who by the tables had not probably more than eight years left, bought for \$700 an annuity of \$131 and lived to be 102 and drew \$3,739. On the other hand, while the company must risk the consumption of the deposit, which makes an irreparable loss in the particular case, it also has chances of its own. Out of the mass some annuitants will draw only a few payments, and some will not survive the first year, hence drawing nothing and leaving the transaction clear

profit. "Average" favors the company, as upon its insurance business, or it could not sustain itself.

We must here point out that the upward revisions of annuity rates are entirely justifiable by actual and prospective decline of interest (a consideration so obviously forcible that we need not enlarge upon it), but also that the companies have found they had erred—as was done in Great Britain earlier and more seriously than here—in their estimate of the average longevity of annuitants, the error being in under-rating the effect of "selection." This selection is always against the company, for no rational person would think of buying an annuity unless he believes himself "good" for a considerable term; he may prove mistaken, but he so believes. Females are charged more than males for annuities, and also more for life ins trance, although the tendency is towards removal of the latter discrimination. This seems to say that women are more likely than men to die when they have insurance and more likely to live when they hold annuities. It sounds inconsistent, yet there are some hazards to life involved in the fact of the sex, and there have been some practical difficulties in medical examination; as to annuities, it might be found that the effect of unfavorable selection is greater in their case. The companies must go by their experience.

Are annuities useful, and are they advisable? Both. For servants and other legatees an annuity has the advantage over money in hand that it cannot be lost by bad investments, and this is one reason why insurance settlements also are taking the annuity form as already stated. An annuity can be taken on children as young as three years and the returns can be "ploughed in" to increase the amount. Joint annuities may be taken on two lives-of husband and wife, brothers and sisters, business partners, or friends; the returns may be divided between them as they may agree, and at the death of either the survivor will draw for both. As already pointed out, the return is greater to those past middle life, but annuities are not to be advised broadly and unqualifiedly. The extinguishment of principal should always be considered; as temporary investments they are the most remunerative possible, yet they are only temporary and by so much they destroy the power to devise. One cannot eat his cake and bequeath it, and the just claims of dependents (if there are any) should be carefully weighed against the attractions of extra income for one's last years. On the other hand, the large increase of income at an age when earning power may be past and only a fixed amount be left, together with the absolute certainty of an annuity and the favorable effect on health and longevity of being relieved from all financial uncertainty and anxiety, should receive due consideration. These are the great arguments on behalf of annuities. The most extraordinary case yet is that of an Englishman who in three years deposited with an American company an aggregate of \$430,000, on which (being now about 68) he is entitled to \$50,000 annually, about 11<sup>3</sup> per cent. So far, such a transaction as this would be unthinkable in this country. The conditions have left comparatively no room for annuities here, and so there has been no attempt whatever to push them; they have been unmentioned, unknown and almost unthought of. Yet the conditions are slowly changing, always in one direction, without backward slips. The increase in floating

capital and possibly also of the number of persons with fixed incomes, together with the increased difficulties with investments and the decline in interest, are bringing the annuity forward.

#### STANDARDIZATION OF BOX CARS.

A good share of the progress made by American railroads in developing their motive power and rolling stock to the condition of high efficiency now attained has been due to the adoption of the principle of uniformity of design. Wherever it has been possible, so-called standard designs of parts of equipment have been selected after proper discussion, and upon their formal acceptance by a majority of the roads interested, the forms thus made a standard have been quite generally adhered to in later practice. Thus, there are certain designs of axles, journals, wheels, etc., which have been adopted in this manner and are in pretty general use in this country, to the great advantage of railroad practice. This uniformity in parts of engines and cars has been due almost wholly to the initiative of the Master Car Builders' and Master Mechanics' associations. The attempt to attain the next step and secure some agreement among the companies on the dimensions of a box car which might be accepted as a standard design has so far been futile. Conditions now existing in car-building offer the promise of a considerable advance being made in the effort to standardize box-car dimensions.

With the small car becoming obsolete and the present tendency so strongly favoring the use of the largest size car practicable, the differences in carrying capacity are diminishing and the outlook is promising that in a brief time all the important roads will be building box cars of one or possibly two sizes. That development in itself shows marked progress toward uniformity of size, but without concurrent action by the railroads it might still exist without securing uniform dimensions, which many officers consider it especially desirable to bring about. In fact, one of the most hopeful evidences of the past year promising the success of the movement for securing a standard-size box car has been the active interest taken in the matter by general officers and by those of the traffic department. Heretofore the mechanical officers have borne the burden of the effort; and though even while acting alone they might be utimately successful, the cooperation of the traffic department materially helps the situation.

From a traffic standpoint, in fact, it is rather more essential to have a uniform dimensioned car than for mechanical reasons. In many cases the increased capacity of cars built by the railroads have not brought the revenue benefit which should be had from their introduction. That result has been occasioned because shippers have been able to obtain them for loading without any change in the rate they have been paying for cars holding a materially less amount of freight. This is obviously a condition which should not be allowed to exist, and yet it is one which it is rather difficult to remedy. It may easily become a serious abuse. Even, however, with cars assumed to be of the same carrying capacity, there is often such a material difference in one or all of the three governing dimensions-height, width and length-that certain cars give the shippers who have their use advantages in the quantity of freight that they can stow as a car load. It is this state of affairs which has now enlisted the active support of

the traffic department in the effort to establish uniform dimensions, so that the marked carrying capacity will in all cases represent the same amount of freight of any particular class that may be loaded into a car.

It is largely from the point of view of its importance as a traffic or shipping problem that the reform is being urged by the committee of the American Railway Association which has been appointed to take the matter under consideration. The proposition as set forth by the committee is "to determine the dimensions of a box car, which shall be, all things considered, the most economical vehicle of transportation." Obviously, it must be so designed as to make it available for the general use of the railroads of the country. This is an essential point in these days of interchange of traffic, when the greater proportion of every company's rolling stock leaves its own road and when cars are indeed often away from their home line not only months but even years.

Two of the dimensions of the future standard car are practically fixed without any agreement or action toward uniformity being taken by the railroads. Important clearances at tunnels and bridges, which cannot well be altered, fix the limits of height and width. In these respects box cars cannot be made any larger than they are at present being built, and in those particulars the standard car will be of the largest The dimension unsettled is length, practicable size. and that is governed by economy in construction, and by limits which maintenance and operation enforce, and by restrictions required for providing the necessary strength when two of the dimensions are limited. While material progress has been made in the past year in the active steps taken by officials to advance the standardizing of box cars, it has happened that business reasons have likewise worked forcibly to the same end. The need of hurrying orders for equipment has led to the more or less forced waiving of individuality of design ordinarily insisted upon, in order to get the new rolling stock within a limited period. This has resulted in cars being built to a greater extent than usual on the specifications of car-building companies, particularly in the matter of dimensions. In this way variations of an inch or two in size, often the only difference in the cars of many companies, have been done away with. This may seem a minor point, but it is a distinct advantage gained.

ITEMS ABOUT BANKS, BANKERS AND TRUST CO'S —The sales of bank stocks this week aggregate 796 shares, of which 748 shares were sold at auction and 38 shares at the Stock Exchange. Included in this week's record of transactions are 14 shares of the Fourth National Bank stock sold at the Stock Exchange on February 9 at 174, but not reported and the stock Exchange on February 9 at 174, but not reported

until Tuesday of this week. The sales of trust company stocks reach a total of 62 shares, all sold at auction.

\* Of this 38 shares were sold at the Stock Exchange.

-Mr. J. Edward Simmons, President of, the Fourth National Bank, has but recently recovered from a severe attack of the grip, and, with a view to the complete restoration of his health, he will spend the month of March at Palm Beach, Fla., taking the first vacation he has had for three years.

-A bill has been introduced in the Assembly at Albany incorporating the Excelsior Property, Contract and Securities Guarantee Company of New York City. The incorporators are John G. Ritter, William F. Colgate, Edward C. Underhill, Samuel Newmark and Everett Ryder. The company is to conduct a general trust business, and the capital stock is to be \$1,000,000, but operations will not begin un. til \$500,000 has been paid in.

-The Western Reserve Trust Company was partially organized at Cleveland, Ohio, on the 8th instant and seven of the fifteen directors were elected. It is expected that Calvary Morris, who is now in Europe, will be President. The First Vice-President is E. W. Moore, Second Vice-President H. C. Ford and the Secretary and Treasurer Myron H. Wilson. The latter has, for fifteen years, been connected with the Savings & Trust Co. of Cleveland.

-The organization of the Union Trust Co. of Newark, N. J., which was incorporated last spring with a capital of \$1,000,000 and a surplus of \$1,000,000, has been abandoned. George G. Frelinghuysen, who was named for President, gave as the reason for the abandonment the limitation of the field to Essex County, where there is already an old-established trust company; and several of the local incorporators of the Union Trust have acquired substantial holdings of the stock of the Fidelity Trust Co. of Newark. Among the incorporators of the Union Trust were August Belmont, Grant B. Schley, Emory McClintock of the Mutual Life Insurance Co., Joseph C. Hendrix of the National Union Bank, George F. Baker of the First National Bank and George W. Young of the United States Mortgage & Trust Co.

-Negotiations are in progress for the absorption by the Corn Exchange Bank of the Home Bank, a State institution, with a capital of \$100,000 and surplus and undivided profits of \$88,000, located on the corner of Eighth Avenue and Forty. second Street. The object of the movement is to make the Home a branch of the Corn Exchange Bank.

-The Commercial Trust Co. of Philadelphia, to which reference was made in these columns on January 13, opened for business at No. 1426 Chestnut St. February 14 with a capital of \$1,000,000 and also a surplus of \$1,000,000. This is the original Commercial Trust Co. organized in 1894 with a capital of \$500,000, but which has now been increased to a million dollars, as above, with a surplus of equal amount. The officers are as follows: C. Stuart Patterson, President; Thomas DeWitt Cuyler, Vice-President; Horatio G. Lloyd, Jr., Treasurer, and William E. Ellis, Secretary.

### IMPORTS AND EXPORTS FOR JANUARY.

The Bureau of Statistics at Washington has issued the statement of the country's foreign trade for

We subjoin the totals for merchandise, gold and silver for the seven months since July 1 for six years.

#### IMPORTS AND EXPORTS OF GOLD AND SILVER AT SAN FRANCISCO

The Collector of Customs at San Francisco has furnished us this week the details of imports and exports of gold and silver through that port for the month of December, and they are given below in conjunction with the figures for preceding months, thus completing the results for the calendar year 1899. The imports of gold were quite small, the amount received reaching but \$345,481, of which \$265,205 was in coin. Of silver there came in \$195,903, of which \$146,476 was bullion. During the twelve months there has been received a total of \$14,763,734 gold and \$2,504,381 silver, which compares with \$35,685,066 gold and \$1,807,731 silver in 1898. The shipments of gold during December were \$315,690, almost all coin, and the exports of silver have been \$1,035,446, of which \$671,776 was coin. For the twelve months the exports of gold have reached \$2,869,469, against \$811,626 in 1898, and \$5,968,488 silver has been sent out, against \$5,216,609 in 1898. The exhibit for December and the twelve months is as follows :

#### [From our own correspondent.]

LONDON, Saturday, February 3, 1900.

Business on the Stock Exchange continues as stagnant as ever. There is practically no speculation in any department, and there is exceedingly little investment. In the American market there has been somewhat more buying than for some weeks past, chiefly, however, on Continental account; and in the mining market—especially in the market for South African gold shares—there has been a fair amount of buying likewise for the Continent.

In nearly every department the British investor is doing nothing. He is not selling, for he is confident that the war will be brought to a successful termination sooner, perhaps, than foreign observers believe, but, on the other hand, he is not buying because he recognizes that the war will cost very much more than was anticipated until lately; that there will have to be a good deal of borrowing, and, moreover, that it will be a long time before the Transvaal can be restored to prosperity.

Continental capitalists have been buying American railroad securities mainly because of the high prices of coal and iron and the probability therefore that the coal roads in particular will benefit largely, and that likewise all the roads must, more or less, benefit from the goodness of trade. They have been buying South African mining shares partly under the impression that a considerable section of the Liberal Party was not only opposed to the war from the beginning, but is anxious to make peace now on any terms that would be fairly honorable. The impression is quite mistaken. Individuals amongst the Liberal Party probably would accept terms very easy for the Boers. But the great majority of the Liberals, like the great majority of all parties, is resolved that the war, having been begun by the two republics, must be brought to a successful termination, and that a recurrence of the war must be prevented in the future. Continental capitalists, however, doubt the determination of the British public, and they argue that Dr. Leyds's visits to the chief Continental capitals can only mean that he is trying to induce some of the governments to offer their good offices to bring about peace.

Intervention in any form would certainly not be accepted here. But the Continental buyers seem to doubt that. They think that if Germany, for instance, were to take the matter in hand, there is some chance, at all events, of peace resulting. Perhaps, in addition, the Continental buyers are shrewdly suspecting that the Boer resources are coming to an end. Some Continental buyers undoubtedly do hold this view, as the writer is aware. But whether a suspicion that the Boer resources are running out and that their power of resistance is rapidly coming to an end is influencing the bulk of the Continental buyers cannot be said.

In the meantime the war is not having, so far, a prejudicial effect upon trade. It is stopping all new business. Although it is well known that an immense number of new companies had been arranged for, none have been brought out in London for a considerable time past, and none could hope to be floated successfully in the present state of things. New enterprise, therefore, is being greatly checked, and of course if this state of things lasts long it must have a bad effect upon trade by and by. In the meantime, however, manufacturers are so full of orders that they cannot undertake to deliver for a considerable time to come. And this is true of almost every kind of manufacture. There is scarcely an industry in which orders are not more than can be executed for the time being.

The directors of the Bank of England made no change in their rate of discount this week, nor, indeed, was it generally anticipated they would do so. The impression amongst the most careful observers is that the fall in rates has come to an end, and that now we shall see a gradual rise in money. Partly this view is based upon the fact that many of the bills discounted before Christmas by the Bank of England are now falling due, and that therefore the Bank of England will regain more control than it has at present of the outside market. In addition, the collection of the revenue is pro ceeding at a very rapid rate. And although it is true that the Government expenditure is also very large, still the collection of the revenue is transferring large amounts from the other banks to the Bank of England, and therefore is strengthening the control of the latter over the outside market. Furthermore, the Indian Government continues to accumulate gold; and as the receipts from South Africa are likely to be cut off for a considerable time to come, every amount taken by the Indian Government tends to make rates higher here.

In Germany money in the open market is fairly easy, but the exchange upon London, Paris and Amsterdam still continues unfavorable to Germany, and therefore the Imperial Bank still keeps its rate at 5½ per cent. The general impres-sion here is that it will be put down to 5 per cent, as it is expected that the exchange will become more favorable to Germany. Largely, the unfavorable exchange was due to the fact that unconverted 6 per cent Mexican bonds had to be paid off on the 1st of February, and that considerable amounts had to be remitted for that purpose from Berlin to London and smaller amounts to Paris and Amsterdam. The redemption is now completed, and the best informed think there will be a rapid change in the exchange. But it is not thought probable that the Imperial Bank will lower its rate below 5 per cent, for the present at all events. Meanwhile the India Council continues to sell its drafts

very well. It offered for tender on Wednesday 50 lacs, and the applications exceeded 570 lacs, at prices ranging from 1s. 41% d. to 1s. 41/4 d. per rupee. The whole amount offered was allotted at prices ranging between the two figures given above. Later in the day 1½ lacs were sold by special contract at 1s. 4 3-16d. per rupee.

Messrs. Pixley & Abell write as follows under date of Feb. 1:

Gold—The demand for India has proved sufficient to absorb all supplies, and in addition £137,000 in sovereigns, out of a total with-drawal from the Bank of England of £177,000, has been sent to India. Gold to the value of £22,000 has reached the Bank. Arrivals: Aus-tralia, £42,000: Straits, £8,000; West Indies, £22,000; total, £72,-000. Shipments: Jan. 26—Bombay, £110,000. Silver—After a slight reaction to  $277_{16}$ d. there were numerous strong inquiries for India and the price at once improved. A very large business has been done, chiefly for near dates. The Indian price for shipment is Rs. 7042. Arrivals: New York, £128,000; Aus-tralia, £20,000; West Indies, £21,000; total, £169,000. Shipments: Port Said, £4,135; Bombay, £90,000; Hong Kong, £17,194; total, £111,329. Mexican Dollars—These coin are still entirely nominal at about

Mexican Dollars—These coin are still entirely nominal at about  $277_{16}d$ . Shipments to Shanghai, £11,700.

The following table shows the exports and imports of specie at the port of New York for the week ending Feb. 10 and since January 1, 1900, and for the corresponding periods in 1899 and 1898.

#### EXPORTS AND IMPORTS OF SPECIE AT NEW YORK.

Gold.	Exp	orls.	Imports.		
	Week.	Since Jan. 1.	Week.	Since Jan. 1.	
Great Britain France		\$3,652,400		\$39 937 220,020	
Germany. West Indies. Mexico	\$327,460 3,975		\$8,355 20,455	193,000 63,554 43,329	
South America All other countries.	217,500		12,551 6,900	99,821 10,000	
Total 1900 Total 1899 Total 1898	\$548,935 4,000 587,235		\$48,261 215,674 711,974	\$669,661 2,870,856 3,835,086	

To make the figures conform to the Government statement, the amounts mentioned in above foot-notes should be added to the Receipts or Disbursements as indicated therein. We have deducted those items, as they do not belong to the regular income account, and if included would disturb the comparison with former and future years.

TREASURY CURRENCY HOLDINGS.-The following compila-tion, based on official Government statements indicates the currency holdings of the Treasury on the first of November and December, 1899, and January and February, 1900.

WALL STREET, FRIDAY, FE8. 16, 1900.-5 P. M.

The Money Market and Financial Situation.-Little interest has been manifested in the security markets this week outside the walls of the Stock Exchange. Reports circulated early in the week to the effect that plans for re-funding the floating indebtedness of the Third Avenue Rail-road Company were complete encouraged professional operators on the bull side of the market, but a subsequent official announcement that the plan had miscarried, and a reduction of the dividend rate were used with even greater effect, in some cases, by the bear element. In the meantime the investment demand is less in evidence than it was last week. The volume of business in both Govern-ment and railroad bonds was smaller, and the strength then noted has been lacking. This may be due to the fact that the money market was a little firmer, owing to the absorption of funds by the interior and by the Treasury Depart-ment and a good demand from borrowers

The action of the Senate on Thursday in adopting a measure the object of which is to establish the gold standard in this country and change some features of our present cur-rency system was generally expected, and therefore had no appreciable effect in Wall Street. Nevertheless the benefits

which may result are not likely to be over-estimated. The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 2 to 2½ per cent. To-day's rates on call were 2 to 2½ per cent. Prime commercial paper quoted at 4 to 5 per cent. The Bank of England weekly statement on Thursday showed an increase in bullion of £227,016, and the percent.

age of reserve to liabilities was 46.93, against 46.59 last week; the discount rate remains unchanged at 4 per cent. The Bank of France shows an increase of 275,000 francs in gold and a decrease of 1,550,000 francs in silver.

The New York City Clearing-House banks, in their statement of Feb. 10 showed an increase in the reserve held of \$1,743,700 and a surplus over the required reserve of \$27,897,575, against \$30,871,275 the previous week.

\* This is the price bid at the morning board; no sale was made.

State and Railroad Bonds.-Sales of State bonds at the Board include \$19,000 Virginia fund. debt 2-3s of 1991 at 86 and \$9,000 Tennessee settlement 3s at 95.

The market for railway bonds has been moderately active, but not so firm as last week. Transactions at the Exchange averaged somewhat less than \$2,500,000 par value per day, and a considerable proportion of the active list closes fractionally lower. Detroit Mackinac & Marquette 1st guaranteed 31/2s were conspicuous for activity and an advance of 6 points. Toledo St. Louis & Kansas City 1st trust receipts gained over 4 points on large transactions. Rio Grande Western 1sts gained 1½ points on limited sales. Colorado Midland, Mexican Central first incomes and Southern Pacific 4s were strong features. Atchison, Central Pacific, Kansas City Pittsburg & Gulf, Wabash and Reading bonds were relatively weak.

Stock and Bond Sales.-The following shows the volume of business in stocks and bonds on the New York Stock Exchange for the past week and since Jan. 1:

Foreign Exchange.-The market for foreign exchange has been firm on a somewhat better demand and a limited sup-

ply of bills. To-day's actual rates of exchange were as follows: Bank-To-day's actual rates of exchange were as follows: Bankers' sixty days' sterling, 4 84@4 8414; demand, 4 871/2@4 8734; cables, 4 88@4 8814; prime commercial, sixty days, 4 831/2 @ 4 83<sup>3</sup>/<sub>4</sub>; documentary commercial, sixty days, 4 83@4 84; grain for payment, 4 83<sup>3</sup>/<sub>4</sub>@4 84; cotton for payment, 4 83 @4 83¼; cotton for acceptance, 4 831/2@4 8334. The following were the rates of domestic exchange on

New York at the under-mentioned cities to-day: Savannah, buying par, selling \$1 00 per \$1,000 premium; Charleston,

In the railway list prices have been generally well maintained, and closing quotations are in many cases fractionally higher than last week. Pennsylvania and Baltimore & Ohio were strong features, and when at the high-est showed a gain of 3 to  $3\frac{1}{2}$  points. The local traction issues were more or less erratic in sympathy with Third Avenue RR. The latter advanced over 8 points on reports that the refunding scheme would be successful, lost nearly 11 points when it was officially announced that negotiations had ceased, and closes 2 points above the lowest.

American Tobacco and American Sugar Refining were leaders of the miscellaneous list in point of activity, and both were notably strong. Tennessee Coal, Iron & Railway advanced over 6 points, a large part of which it has lost. Pacific Mail, Continental Tobacco and United States Rubber were weak, the former on expectations that the Ship Subsidy bill will not become a law, and the latter on rumors that the forthcoming annual report will not be favorable.

## Investment AND Kailroad Intelligence.

### RAILROAD EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from January 1 to and including such latest week or month.

The returns of the street railways are brought together separately on a subsequent page.

	Latest	Gross Ear	nings.	Jan. 1 to .	Latest Date.

#### STREET RAILWAYS AND TRACTION COMPANIES.

The following table shows the gross earnings for the latest period of all STREET railways from which we are able to obtain weekly or monthly returns. The arrangement of the table is the same as that for the steam roads—that is, the first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

#### Atlantic Coast Line Railroad of Virginia.

(Report for year endin) June 30, 1899.)

#### The report states as follows;

Consolidation.—The consolidation of the Petersburg RR. Co. with the Richmond & Petersburg RR. Co., authorized by law and the stockholders of the two companies, has taken place under the name of the Atlantic Coast Line RR. of Virginia. Improvements.—The straightening of a portion of the road south of Petersburg is practically completed. There have been charged to operating expenses for additional equipment and permanent improve-ments the sum of \$165,737.

Statistics .- Earnings, expenses, charges, etc., have been as follow::

Balance, sur.... 2,203,847 1,051,708 897,098 93,827 In the above the dividend on the common shares for 1899 In the above the dividend on the common shares for 1899 is figured at 4 per cent, being the amount actually paid within the year, namely 2 per cent in April, 1899, and 2 per cent in October, 1899. The company has now declared 3 per cent payable April 2, 1900 Taking this together with the 2 per cent paid in October, 1899, would make 5 per cent com-ing out of the 1899 earnings; on that basis the surplus bal-ance for 1899 would be \$1,553,847 instead of \$2,203,847 as given -V 69 p. 851 given.-V. 69, p, 851.

#### Baltimore & Ohio Southwestern Railway.

(Report for the year ending June 30, 1899.)

The recent foreclosure and reorganization of the property render the results for the fiscal year ending June 30, 1899, of little interest save for purposes of record. The income account for the half-year ending Dec. 31, 1899, showing the position of the company on its new basis of charges, was given in a statement supplemental to the report of the Baltimore & Ohio RR. on page 132 of the CHRONICLE for Jan. 20. The results for the years ending June 30 were as below:

#### National Biscuit Company.

#### (Report for the year ending Jan. 31, 1900.)

At the annual meeting on Tuesday President Crawford submitted substantially the following report for the year ending Jan. 31 last:

"Notwithstanding competition has been active, we have increased our sales \$1,600,619 during the year ending Jan. 31, 1900, as compared with the 13 months ending Jan. 31, 1899. We consumed during the year 2,124,303 barrels of flour, an increase over previous 13 months of 182,861 barrels. We We called your attention last year to our new specialty, Uneeda biscuit, then being introduced. We have since placed upon the market Uneeda jinjer wayfer. We have sold 65,000,000 packages of these goods during the past twelve months. "Our business is not on an inflated basis. Although there has been a large advance in almost all lines of manufactured articles, our prices are substantially the same as one year ago. The physical condition of our plants has been very materially improved during the past year."

#### National Lead Company.

#### (Report for year ending Dec. 31, 1899.)

#### President Cole says:

President Cole says: The statement of earnings for the year 1899 discloses a sound finan-cial condition and a more active use of cash resources by the rapid and sustained advance in all raw materials. The net earnings (\$1,-373,906) follow on our customary conservative inventory and exclu-sion of doubtful accounts. During the year \$222,176 was expended in repairs and additions to existing plants, all charged to operating expense. The physical condition of the properties is good and is being constantly improved. Preferred stock dividends amounting to \$1,-043,280 and a dividend of 1 per cent on the common stock (\$149,054) were paid, the total distribution to stockholders aggregating \$1,192,-334. The only indebtedness of the company is for current accounts in process of payment, aggregating \$13,780, and a mortgage of \$12,-603, not payable during the grantor's life. From the credit balance of \$1,324,841 in "Surplus" account a dividend of 1 per cent on com-mon stock was declared, payable March 1, 1900. From its inception it has been the policy of the company to extend and diversify the character of its business by adding articles properly belonging to the line of its manufactures when careful examination led to the belief that capital could be profitably employed. In further-ance of this policy new work is now in progress which will become productive during the current year. Expenditures so far made on this account are included in "other investments," and will so appear until the work is finished. The volume of business done in 1899 shows a gratifying increase

until the work is finished. The volume of business done in 1899 shows a gratifying increase and exceeded that of any previous year. Competition is active, but has been kept within conservative bounds. The business done in the first month of the current year indicates continued activity and the trade outlook is promising.

#### Peoples' Gas Light & Coke Company of Chicago.

(Report for the year ending Dec. 31, 1899.)

President Billings says in substance :

President Billings says in substance: EXTENSIONS.—The last fiscal year is noticeable for the large exten-sion of territory served by the company, the increased mileage of its street mains, and the number of its customers. At the beginning of the year contracts were secured for street mains and service pipe, to be furnished during the year, at unprecedentedly low figures. The mar-ket prices for such mains and service pipe have since advanced. through the increased cost of iron, and for other reasons, over 100 per cent above the prices in the contracts secured by our company. Taking advantage of these favorable contracts, it was decided to largely extend the company's mains in territory heretofore unable to secure gas for either illuminating or fuel purposes. The total increase in the mileage of our street mains during the year was over 121 miles. As stated in the last aunual report, the company took over, as of Jan. 1, 1899, the Calumet Gas Co., with some 27 miles of street mains. We acquired, on very favorable terms, on Sept. 1, 1899, the gas plant for-merly belonging to Pullman's Palace Car Co., having over eight miles of street mains. Practically all of the remainder of the increase in mileage, during 1899, represents new construction for mains laid in Kensington, Dauphin Park, Ruseland, West Pullman and Cicero, and in other new territory in various sections of the city.

Operations.—The operations were as follows:

Sales to Jau. 31, Inclusive Net profit to Jan. 31, inclusive Percentage of prolit to sales *Dividends	3,302,155 9.26	1898-99. \$34,913,891 3,292,143 9 <sup>.</sup> 43 1,214,500
Balance	\$1,069,829	\$2,077,643

\* On preferred paid 5<sup>1</sup>/<sub>4</sub> p. c. in 1898 and 7 p. c. in 1899; on com-mon, paid 1 p. c. Oct., '99, and 1 p. c. Jan., 1900.

in other new territory in various sections of the city. ADVANTAGES OF CONSOLIDATION.—No company whose operations were confined to such outlying districts as those to which the Peoples' were confined to such outlying districts as those to which the Peoples' Co. last year extended its mains could afford to furnish gas of the high quality and at the reasonable price furnished by it. New gas companies started in Chleago have heretofore selected territory closely built up and already supplied with gas, and have not under-taken to include less profitable parts of the municipality, where gas was not already available. The streets have been toru up for dupli-cation and re-duplication of mains, with no benefit to the public. No improvement in quality of gas nor permanent reduction in price. Since the Peoples' Co. has been placed, through consolidation, upon a strong legal and fuancial basis, it has been the policy of the unange-ment, while paying a reasonable return upon the money invested in its stock, to also give to the public soure of the benefits accruing through the consolidation. The very heavy expenditures made during 1899 in the extension of the company's plant and mains have been of enormous advantage to the citizens of the territory affected. As a single illustration, take the case of the town of Cleero, recently an-nexed to Chleago, where the local gas company had been charging \$1 25 per thousand for gas of inferior candie-power, but upon annex-tory the local company had to reduce its price to \$1 per thousand. tory the local company had to reduce its price to \$1 per thousand.

The Peoples' Co. is able to sell its gas of 24 candle-power at \$1 per thousand in these outlying districts because of the magnitude of its business, and the fact that the extension of its mains in such territory does not proportionately increase its operating expenses. EXTENDING FUEL GAS.—Reference was made in the last annual re-port to the increased use of gas for fuel purposes through introduction of gas stoves. How active our work has been in this direction is shown by the fact that we have sold and set, during the year 1899, over 27,000 additional gas stoves. The increase in the number of meters set during the year was 44,441, of which 5,328 measure the consumption of natural gas, 2,148 were taken over with the Calumet Gas Co., 907 with the gas plant bought from the Pullman Co., and the remainder, 36,058, are new meters set for manufactured gas. The earning compare as follows:

The earnings compare as follows:

		-	

Total ......\$15,402,220 Total.....\$15,402,220 The bonded debt, which was \$2,1%0,000 on Dec. 31, 1898, had been reduced to \$747,000 on Dec. 31, 1899. The bonds maturing May 1, 1900, will be paid on that date, as well as the remainder of the outstanding bonds, due in 1901. The following directors were elected : John Pitcairn (Pres-

ident), E. A. Hitchcock, Artemus Pitcairn (Vice-President and Comptroller), W. W. Heroy, W. L. Clause, W. D. Hart-upee, C. W. Brown (Secretary). Edward Pitcairn is Treas-nrer.-V. 68, p. 525.

#### Rubber Goods Manufacturing Company.

(Report for period from Jan. 26, 1899, to Feb. 10, 1900.)

The first report, covering the period from the incorpora-tion on Jan. 26, 1899, to Feb. 10, 1900, certified to by chartered public accountants, is as follows :

Net income received to Feb. 10, 190 Dividends on preferred, three of 134	0\$798,438 per cent each\$340,770
Available for dividends	\$457,668
Balance of earnings reserved	<u>557,297</u> <u>\$1,014,965</u>
BALANCE SHEET	FEB. 10, 1900.
Assets- Cash. \$318,247 Accounts receivable. 765,590	Liabilities— Preferred stock \$7,621,300 Common stock 15,134,600

Net earnings of prop's

The money received from the sale of 50,000 shares of stock in Jan-uary, 1899, has been largely used by the company during the past year in the purchase of many properties, the most important being that of the Alleghany Co. at Scio, Ohio, in February, and of the National Co. at St. Mary's, W. Va., in June. The production of the company has reached a point where most of it may be called settled, coming as it does from a large nun ber of small wells. For the month of December, 1899, it averaged over 1,800 barrels net per day, Sun-days excluded. The properties of your company are in excellent condition and our relations with all business connections are most friendly. friendly.

No comparison of the income account with former years can be made, except in receipts from sales of oil, which aggregate \$638,162 in the late fiscal year, against \$372,222 in 1897-8 and \$321,341 in 1896-7. The operating expenses in 1898 9 include, apparently, only the cost of pumping the oil, the cost of drilling in new territory, heretofore included in income account, appearing only in the item of "construction" in capital account.

Capital account includes : Amount expended for purchase of properties, leaseholds, etc., \$915,014; due for St. Mary's property, five notes for \$37,500 each, due Dec. 1, 1899 (since paid), March 1, June 1, Sept. 1 and Dec. 1, 1900, \$187,500; expended for construction, machinery, equipment. etc. [in-cluding cost of drilling of new territory-ED.], \$375,479; total, \$1,477,992.

The income account follows:

STATEMENT OCT. 1, 1898, TO SEPT. 30, 1899.

Receipts from sales of oll	\$638.162
Operating expenses (see above)	167.280
Profits on oil	
Dividends	

Undivided profits on oil.....\$152,132 There was also received as premiums on the new stock sold, above referred to (\$1,250,000 or 50,000 shares), less commissions, \$330,755, making a total income for the year of \$482,887.

The following supplemental statement, covering the period to Dec. 16, 1899, is also furnished :

STATEMENT OCT. 1, 1899, TO DEC. 16, 1899.

Receipts from sales of oil......\$162,480 Expenses of operation and construction (approximate)......62,564

The report gives in detail a list of the oil properties owned, which are recapitulated as follows :

West Virginia—Developed, 1,798 acres; partially developed, 1,318 acres; undeveloped, 4,129 acres; total, 7,245 acres; Ohio—Devel-oped, 480 acres; partially developed, 340 acres; undeveloped, 2,861 acres; total, 3,681 acres; total. 10,926 acres. The number of producing wells is 289. -V. 70, p. 234, 180.

#### GENERAL INVESTMENT NEWS.

#### RAILROADS. INCLUDING STREET ROADS.

Reorganizations, Etc.-Latest Data as to Defaults, Reorganization Plans, Payment of Overdue Coupons, Etc.—All facts of this nature appearing since the publication of the last issues of the INVESTORS' and the STREET RAILWAY SUPPLE-MENTS may be readily found by means of the following index. This index does not include matter in to day's CHRONICLE.

Alabama New Orleans Texas & Pacific Junction Rys.-Interest on "C" Debentures.-Notice is given that the accounts of the company to Dec. 31, 1899, show profits sufficient, after providing for interest on the "A" and "B" debentures, to pay 13% per cent on the "C" debentures, which will be paid, less income tax, by the bankers. Glyn, Mills, Currie & Co., 67 Lombard St., London, E. C.-V. 70, p. 125.

Alabama & Vicksburg Ry.-Increase of Stock.-A special

acq'red prior to Nov. 1, 1899 (\$1,409,422), less amo'nt received to date (\$852,125) 557,297 Investments 22,129,732	Total\$22,755,900 Surplus 1,014,966
Total assets\$23,770,866	Total\$23,770,866

'In addition to the net earnings of \$1,409,422 noted above, the in-terests acquired since Nov. 1, 1899, have made a profit to Dec. 31, 1899, as estimated of \$60,000.-V. 69, p. 1106.

#### United States Oil Company. (Report for the year ending Sept 30, 1899.) The report to the stockholders says in substance :

The average price received for crude oil remained stationary at about \$1 15 per barrel for the first nine months of the year and then steadily advanced until it reached the \$1 50 mark on Sept. 30, 1893, this being the highest price at which crude oil had sold since Jan. 14, 1896. (The price to-day, Jan., 1900, is \$1 68 per barrel.) The consumption of oil for the past year has exceeded the production and the surplus stocks of oil arc still being reduced. The increased field operations, naturally resulting from the higher prices paid for crude oil, have so far failed to open up any new pools of large extent.

meeting of the stockholders will be held at No. 2181/2 Capitol Street, Jackson, Miss., on Monday, March 19, 1900, to vote upon the proposition to increase the authorized capital stock. -V. 69, p. 1006.

Baltimore & Ohio RR.-Pittsburg Junction & Middle Division Bonds Listed.-The New York Stock Exchange has admitted to the list \$11,264,000 Pittsburg Junction & Middle Division first mortgage 3½ per cent gold bonds issued under the Central Ohio reorganization plan, as follows : In partial exchange for old bonds, \$6,833,000; sold to syndicate for cash

requirements of plan. \$4,000,000; contingencies, \$431,000. Executive Committee.—S. M. Prevost, who was on Feb. 1 elected a director to represent the Pennsylvania interests, has been chosen as a member of the executive committee.

First Dividend .- A semi-annual dividend of 2 per cent on the preferred stock has been declared, payable April 2, out of the surplus earnings for the six months ending Dec. 31 last, viz.: \$3,201,513. On the basis of \$60,000,000 preferred stock the dividend, which will probably be paid at the New

York office, No. 2 Wall Street, will call for an outlay of \$1,200,000.-V. 70, p. 278.

Bellingham Bay & British Columbia RR.—This company, whose road now extends from New Whatcom to Sumas, Wash., 23 miles, has, it is reported, made a mortgage to secure \$1,000,000 bonds, of which \$600,000 is to take up the existing 6 per cent mortgage of that amount and the remaining \$400,000 is to be used for the proposed extension from Sumas, Wash., southeast about 24 miles to Connell.

Benwood & Wheeling Connecting Ry.—Incorporation.— This company has been incorporated in West Virginia with \$1,000,000 capital stock to build a terminal railroad between Benwood and Wheeling, Va., connecting the various lines entering those places, including the Balt. & Ohio RR., Pennsylvania RR., Ohio River RR., etc. Incorporators: F. J. Hearne, J. M. Vance, J. D Culbertson, L. L. Sands and N. B. Scott, all of Wheeling, W. Va.

Boston & Albany RR.—Quarterly.—Earnings for the quarter and the six months ending Dec. 31 were :

Brooklyn Rapid Transit Co.—Nassau Lease Approved.— The stockholders of the Brooklyn Heights and Nassau Electric railroads on Feb. 13 ratified the lease of the Nassau road to the Brooklyn Heights company for 999 years from April 1. Under the lease the Heights company will pay all fixed charges, taxes and organization expenses of the Nassau company and in addition all net earnings from the property leased, the latter to be not less each year than 4 per cent on the \$6,500,000 outstanding Nassau preferred stock. New Transfer System in Force.—The recommendation of

New Transfer System in Force.—The recommendation of the Railroad Commissioners for optional free transfers at Third Avenue and 65th Street and Fifth Avenue and 36th Street was put into effect on Feb. 15.—V. 70, p. 229, 175.

Canadian Pacific Ry.—Common Stock Dividend Increased.—The directors on Monday last declared a regular semi-annual dividend of 2 per cent on the preferred and a semi-annual dividend of 3 per cent on the common stock, both payable April 2, 1900. In 1899 4 per cent was paid on the common stock; in 1898, 4½ per cent, while 5 per cent yearly was paid trom 1890 to 1894, both inclusive. See also "Annual Reports."

Road Leased.-See Great Northwest Central Ry. below.-V. 69, p. 851.

Chicago Junction Ry's. & Union Stock Yards.—Dividend Period, Etc.—The stockholders on Feb. 8 approved the change in the by-laws permitting the payment of quarterly dividends hereafter on the common stock. J. A. Spoor has been elected President, in place of John B. Sherman, resigned. Arthur G. Leonard, formerly of the New York Central, succeeds Mr. Sherman as General Manager.—V. 70, p. 278, 175.

Cleveland Cincinnati Chicago & St. Louis RR.—President Ingalls Not to Retire.—President S. R. Callaway, of the New York Central, on Tuesday of this week denied the truth of the report that M. E. Ingalls, President of the road, would retire, and the road be made part of the Lake Shore system. He further states that the roads will be operated independently for some time at least.—V. 70, p. 125, 75.

**Colorado Springs & Cripple Creek District Ry.**—*Lines Controlled.*—We learn that this railroad has nothing to do whatever with the Colorado Springs Rapid Transit Ry., which continues to be operated as an independent concern. The new railroad has, however, absorbed the Cripple Creek District Ry., the promoters of the former having purchased all the stock and bonds of the District railway, retiring both issues and taking stock therefor in the new company. The \$2,000,000 bonds authorized by the new company will be used solely for construction and equipment purposes. The new line is a standard-gauge steam road; but certain of its terminal lines in the Cripple Creek district will also be operated by electricity for the local passenger business.—V. 70, p. 175.

Colorado Springs Rapid Transit Ry.—Still Independent.— See Colorado Springs & Cripple Creek District Ry. above.

Consolidated Traction Co. of Pittsburg.—Merger.—See

voting in its favor. The lease will, however, be submitted to the stockholders at a meeting called for the purpose at Boston on March 21. This, it is thought in Boston, practically insures the making of the lease, as the State's 5,000,000stock will unquestionably be voted in its favor, and this, in connection with other large holdings, will be more than sufficient to defeat any stock held or controlled by the directors opposed to the lease.—V. 70, p. 279, 230.

Ft. Wayne Terre Haute & Southwestern RR.—Decree of Foreclosure —Judge Baker, in the United States Circuit Court at Indianapolis on Feb. 1 ordered the foreclosure sale of this property to satisfy the claim of Porte Skinner for \$356,236, being the amount due on its bonds, together with interest in default. The Indianapolis "News" says:

The company was organized in 1890, and projected a road from Ft. Wayne to Terre Haute, with a branch line to Brazil, the total length to be 200 miles. It was to be a feeder of the "Monon" (Louisville New Albany & Chicago Ry.). After the construction had begun, and when \$250 000 in bonds had been given the contractors in payment for construction, the "Monon" withdrew its [proposed] guaranty of the bonds. The securities passed into the possession of Skinner. Only a few miles of the road were built and operated, and five or six miles of unused track was torn up and stored, by order of the Court, a short time ago.

Grand Trunk Ry. of Canada. — Dividends. — A dividend of 4 per cent on the first preferred stock has been declared, payable in April, 1900, out of the earnings of the half-year ending Dec. 31, 1899, making, with the 1 per cent paid Oct. last, 5 per cent for the year 1899. The 3 per cent dividend paid in April, 1899, was charged against the earnings of the preceding year. A dividend of  $3\frac{1}{4}$  per cent on the second preferred stock for the year 1899, payable at the same time, has also been declared. This is the first dividend paid on the latter stock since 1888.—V. 69, p 905.

Great Northwest Central Ry.—The stockholders on Jan. 22 voted to lease this road, extending from Brandon. Manitoba, to Hamiota, about 56 miles, to the Canadian Pacific.

Kansas City Fort Scott & Memphis.—Dividend.—The directors have declared a dividend of 5 per cent on the preferred stock, payable Feb. 15, 1900, to stock of record Feb. 10. The last previous dividend paid was 5 per cent in 1893. In 1892 8 per cent was paid; in 1891, 4 per cent; for some years prior to and including 1890, 8 per cent yearly. Up to 1891 common stock dividends of 1 to  $4\frac{1}{2}$  per cent were also paid. The earnings for the calendar year 1899 show a balance of \$237,682 over charges, against \$97,375 in 1898. The 5 per cent dividend calls for \$137,500 and the balance after paying the same, about \$100,000, is to be appropriated for necessary expenditures and improvements.—V. 69, p. 1146.

Manhattan Ry.—Quarterly.—Earnings for the quarter and the six months ending Dec. 31 were :

3 mos. end. Dec. 31. 1899	Gross earnings. .\$2,507,685	Net earnings. \$1,173,952	Other incomc. \$198,300	Interest, taxes, etc. \$757,572	Balance, surplus. \$614.680

Northern Central Ry.-New Stock.-The directors voted on Feb. 14 to increase the authorized capital stock from \$3,000,000 to \$12,000,000, the new stock to be allotted to stock holders at \$70 per \$50 share. A portion of the proceeds will be used to retire the \$1,126,000 second mortgage 6 per cent bonds maturing April 1, and the \$2,804,000 consolidated mortgage 6 per cent bonds due July 1, 1900. Stockholders will vote on the matter Feb. 23 in Baltimore and April 27 in Debia construction of 1900 moder (14 April 27 in Philadelphia. See earnings of 1899 under "Annual Reports;" also "Reports and Documents" on page 332.-V. 70, p. 176.

Northwestern Elevated RR. of Chicago.—New Bonds Offered.—The \$5,000.000 first mortgage bonds recently authorized, dated Jan. 1, 1900, are offered to stockholders of record of the Columbia Construction Co. as of Feb. 15, 1900, at 99 per cent and accrued interest to Feb. 21, 1900, each stockholder of the Construction Co. to have the right to subscribe for the new bonds to the amount of the par value of the stock owned. The notes of the Northwestern Elevated, is-sued under the agreement dated Jan. 2, 1899, have been called for payment March 1. Stockholders of the Columbia Construction Co. holding these notes and subscribing for the new bonds may present their notes at the time the bonds subscribed for are to be paid, when the notes will be paid or received in payment on account of the bond subscription. The Northwestern Elevated common and preferred stock, deposited as collateral for the loan replaced by the bonds will be released and distributed.

The new bonds are gold bonds, denomination \$1,000 each, carry 5 per cent interest, and mature Jan. 1, 1940, in-terest being payable Jan. and July. The bonds are redeem. able upon any interest coupon date upon giving 30 days'

notice, at 105 and accrued interest. Voting Trust.—Both the common and preferred stock are to be placed in a voting trust, with John J. Mitchell, Mar-shall Field and James A. Blair as trustees, until the full 5 per cent dividend on the preferred stock shall have been paid for three consecutive years.-V. 70, p. 125, 76.

**Oregon & California RR.**—*Listed.*—The New York Stock Exchange has listed \$783,000 additional first mortgage 5 per cent gold bonds, guaranteed, principal and interest, by the Southern Pacific Co, making the total amount listed to date \$19,625,000.—V. 70, p. 76.

Rapid Transit in New York City.—Subscribers Approved. —The Rapid Transit Commissioners have approved the list of subscribers to the construction company presented by Belmont & Co. The construction contract is expected to be signed early next week and sub-contracts made soon thereafter, although actual construction work will not begin for at least thirty days.—V. 70, p. 280, 231.

St. Louis Iron Mountain & Southern Ry.—Listed.—The New York Stock Exchange has listed \$11,567,000 additional general consolidated railway and land grant 5 per cent gold bonds, making total amount listed to date \$35,716,000. These bonds were issued to replace the following old bonds, which have been retired, viz.: \$4.000,000 St. Louis & Iron Mountain RR. first mortgage bonds, \$6,000,000 St. L. & I. M. RR. second mortgage bonds, \$1,450,000 Cairo Arkansas & Texas RR. first mortgage bonds, \$117,000 St. L. I. M. & Southern Ry. first preferred income bonds.—V. 69, p. 27.

St. Louis Peoria & Northern Ry.—Sale.—Notice is given of the foreclosure sale by Bluford Wilson, special master, of the St. Louis Peoria & Northern Ry. and the Madison Coal Co., to be held at Springfield, Ill., March 15, at noon. The upset price of the whole property is fixed at \$850,000.-V. 70, p. 177.

Santa Fe & Grand Canyon RR. Co.—Description of New Road.—President L. W. Goode recently favored us with the following concerning this road now being built from Williams. Ariz., to the rim of the Grand Canyon. 70 miles (see INVESTORS' SUPPLEMENT for Jan., 1900, page 127):

Our road is an independent line, although o ection with

Seaboard Air Line Ry.-Injunction Refused.-Judge Wad-dill, in the United States District Court at Richmond, Va., on Feb. 10 denied the application of Thomas F. Ryan for a preliminary injunction to prevent the carrying out of the consolidation authorized by the Virginia Legislature.

The appeal in the case of Ryan against the Raleigh & Gaston road from the decision of the United States Circuit Court in North Carolina has been filed in the United States Circuit Court of Appeals at Richmond and will be heard at

the May term. New Line.—The Senate Committee in Virginia has reported by vote of 11 to 4 in favor of the Richmond & Washington Air Line charter to the Seaboard Air Line.

Syndicate Agreement Effective.—Subscribers to the Greater Seaboard Air Line organization agreement, dated Jan. 5, 1900, are notified by advertisement by the managing committee that the said organization agreement has become effective according to its terms, and that the depositary, the Continental Trust Co. will issue certificates thereunder to the holders of the syndicate certificates upon application at its office, No. 11 South St., Baltimore, Md.-V. 70, p. 231, 176.

Sherman Shreveport & Southern Ry.—Bonds Listed.— Guaranty —Of the first mortgage gold 5s of 1943, \$2,000,000 are deposited as part security for the 4 per cent first mort-gage of 1890 of the Missouri Kansas & Texas Ry. and \$1,100,-100 were issued in 1893 at the time the S. S. & S. was made standard gauge. These last were recently listed on the New York Stock Exchange. They bear the following :

New York Stock Exchange. They bear the following . For value received, the Missouri Kansas & Texas Railway Company hereby guarantees the payment by the Sherman Shreveport & South-ern Railway Company of the principal of the within bond at maturity thereof, and of all interest thereon, [according to the tenor of the coupons belonging thereto, as they severally become due. In witness whereof, the said Missouri Kansas & Texas Railway Company has caused its corporate name to be signed hereto by its President or Vice-President, and its corporate seal to be hereunto af-fixed and attested by its Secretary or Assistant Secretary, this first day of August, 1893. Missouri KANSAS & TEXAS RAILWAY COMPANY. [Attest].........Secretary. The only additional bonds that can be issued under this

The only additional bonds that can be issued under this mortgage are 2,900 bonds, viz.: 1st. For an extension of 30 miles from Jefferson, Tex., to Waskom, on the State line of Texas and Louisiana, there to connect with the Queen & Crescent system, about \$600,000 in all. The extension will probably be built this year. 2d. For extensions from Mc-Kinney to Whitesboro 35 miles, and from McKinney to Decatur 50 miles, for which there is no immediate necessity. "Therefore, the total amount of the bonds outstanding under this mortgage will probably be limited to about \$1,-700,000." Income account for the year ending June 30, 1899: 

defaults on its coupons	55,000
	000 010
Surplus for year	\$97,517
Total surplus on June 30, 1899	\$170,397

Tennessee Coal, Iron & RR. Co.—Preferred Stock.—At a meeting on Friday of the Executive Committee a plan was agreed upon for the retirement of the \$1,000,000 of 8 per cent cumulative preferred stock and the payment of the 54 per cent of accumulated dividends. The plan will be submitted to the stockholders at the annual meeting, March 14. -V. 69, p. 151.

Texas & Pacific Ry .- Payment on Incomes-The company will on March 1 next pay 1½ per cent interest on its \$23,204,-402 second mortgage income bonds of 1888, of which over nine-tenths are owned by the Missouri Pacific. No previous payment has been made.—V. 69, p. 744.

Third Avenue RR.—Offer to Fund Debt Withdrawn.—On Thursday the directors were notified by Kuhn, Loeb & Co. of their withdrawal from the negotiations which have been in progress for the funding of the floating debt. The requiremente of the company, it is said, aggregate about \$35,000,000, made up as follows: Loans from banks, \$17,000,000; due to con-tractors and for supplies, \$5,000,000; money necessary to complete power house, about \$7,000,000, and required to change equipment on the various properties, about \$6,000,000. The numerous reports as to the cause for the withdrawal of the bankers are stated to be very largely without foundation. It was simply a failure to agree upon the details of the arrangement.

Our road is an independent line, although operated in connection with the Santa Fe system, to which it is an important feeder. We leave their main line at Williams, Arizona, running in an almost due north-erly direction to the rim of the Grand Canyon of the Colorado, the canyon at that point being about 16 miles wide and over a mile deep and containing some of the most magnificent scenery to be found in the world and far surpassing Yellowstone, Yosemite or the Colorado canyons. The tourist business is expected to be a large item, and the leading officials of the Banta Fe system state unbesitatingly that the passenger business of our road will pay all operating expenses. We run through quite a heavy strip of timber on the Government forest reserve, but which ultimately will be thrown open to the publio and should yield an enormous tonnage in tlinber. There are large and valuable copper mines extending along the line of the road for about 25 miles, many of them shipping as much as one or two hun-dred tons a day, and this ore tonnage is expected to have the road run-ning to the main group of mines known as the Anita Camp, 47 miles from Williams, the latter part of January, and to the rim 23 miles further, by March or April, depending upon the weather, as work will not cease, but the same contractors will continue without cessation. The road is financed, most of the material upon the ground, equip-ment purchased and the project a going concern. ment purchased and the project a going concern.

Thirty-five miles of the road were reported to be in operation on Jan. 24 last, and the remaining twelve miles to Anita Camp were to be completed by March 1 next.

Dividend Reduced-The directors on Wednesday declared a dividend of 1 per cent on the stock, payable Feb. 28; the last dividend paid (Nov. 29, 1899,) was 1¼ per cent. Committee.—Frederic P. Olcott, Louis Fitzgerald and T.

Jefferson Coolidge, Jr., having been requested by holders of a large amount of the unfunded debt of the company to act as a committee for the protection of their interests, in-vite all holders of said debt to communicate at once with them or their secretary, Alvin W. Krech, 120 Broadway, New York, with a view to mutual protection. See adver-tisement on page vii.—V. 70, p. 281, 231.

Union Traction Co.-Pittsburg Combination.-Negotiations which have been pending for some time for the merg-ing of the Consolidated Traction and the United Traction of Pittsburg, and some of the outlying lines, it is thought will shortly be brought to a successful conclusion. A charter

for the Union Traction Co. has been applied for, under which the combination will be effected.-V. 69, p. 1013.

United Traction Co. of Albany, Etc.-New Stock.-The stockholders on Feb. 13 voted to increase the capital stock from \$4,000,000 to \$5,000,000, to provide for additional equipment and improvements and pay off the \$399,300 de-bentures of the former Troy City Ry. The new stock, upon approval of the Railroad Commissioners, is to be offered at par to the present stockholders, in the proportion of one share of new for every four shares of old stock, one-quarter of the subscription to be paid May 1, one-quarter Aug. 1, one-quarter Nov. 1 and the final payment on April 25, 1901.-V. 70, p. 77.

Western Maryland RR.—Third Mortgage Bonds to Be Paid.—The Finance Commissioners of Baltimore have authorized the sale of 3½ per cent stock to retire the \$875,000 third mortgage 6 per cent bonds of the railroad company, which matured January 1 last and upon most of which the 6 per cent interest has since been running, under an option given to the holders by the city authorities. The bonds have been called for payment by the City Register on March 1.-V. 70, p. 231, 77.

Western New York & Pennsylvania Ry.-Quarterly.-Earnings for the quarter and the six months ending Dec. 31 were:

3 mos. end.	Gross]	Net	Other	Interest,	Balance,	1

Wheeling Bridge & Terminal Company.—Securities Ac-quired.—The New York News Bureau reports that a majority of the first mortgage bonds and also of the second mortgage bonds and the stock of the Wheeling Bridge & Terminal Company, which has been in a receiver's hands for a considerable time, have passed into the control of Kuhn, Loeb & Co. The purpose for which this purchase has been made by the bankers is not known.

#### INDUSTRIAL, GAS AND MISCELLANEOUS.

New Industrial Companies.-Index.-The leading items heretofore published regarding new industrial companies, mostly organized or floated since the January issue of the IN-**VESTORS'** SUPPLEMENT, are indicated by the following index :

American Linseed Co.—Official Statement.—The following official statement was issued on Tuesday last:

The annual meeting will be held in about six weeks, at which time it will transpire that the company during the past year, in addition to declaring a full 7 per cent on the preferred stock for the year, has earned about \$2,000,000, which will be placed to surplus account. Although some directors are in favor of paying a dividend on the common, others do not favor this policy, believing it to be to the best interests of the company to make the addition of this amount of cash to its working capital thereby insuring dividends on the preferred for to its working capital, thereby insuring dividends on the preferred for some years to come.

The regular 134 per cent dividend on preferred will be paid March 15.-V. 69, p. 1249.

Arlington Copper Co.-This company, with a capital of \$2,500,000, was incorporated at Trenton, N. J., on Feb. 15. to operate mines in North Arlington, Bergen County, N. J. Incorporators are: Addison Ely, Louis V. Koch, Rutherford, N. 'J.; George Bayliss, Anthony W. Schuler, Frank Koch, Arlington, N. J.; W. H. Castles, Kingsland, N. J.; Walter Vandenberger, Lyndhurst, N. J.

Bell Telephone Co. of Buffalo.—Stock Increased.—The stockholders on Feb. 14 voted to increase the capital stock from \$2,000,000 to \$5,000,000. A portion of the new stock, it is understood, will shortly be offered to stockholders at par, and the balance from time to time as required for new construction.-V. 70, p. 232.

Bethlehem Steel.-Reported Control.-H. C. Frick of Pittsburg and associates are reported to have acquired control of the Bethlehem steel and iron companies. This has not been confirmed.—V. 69, p.1250, 284.

Coke Co. to annul the coke contract with the steel company, under which the latter, it is claimed, saves from \$15,000 to \$18,000 daily at the expense of the coke company.

Control of the Bethlehem steel and iron cos., it is reported, has been acquired by Mr. Frick and associates. The per-sistent report that he is negotiating for the Sparrow's Point plant of the Pennsylvania Steel Co. has been denied at Pittsburg, and is said to be without foundation.-V. 70, p. 177-78.

Chicago Telephone Co.-New Stock Allotment.-Of the \$10,000,000 new stock recently authorized, it has been decided to issue \$1,000,000 for improvements and extensions during 1900. The stock is now offered to present holders at par in the ratio of one new share for every five now held, one-half to be paid by April 5, and the other half by October 5 next.—V. 70, p. 178.

Consolidated Gas Co. of New York.—Circular—New Stock for Purchase of New York Gas & Electric Light, Heat & Power Co.—The terms of the recent purchase of the entire \$36,000,000 capital stock of the New York Gas & Electric Light, Heat & Power Co. are fully explained in a circular issued by the trustees of the company to the stockholders the latter part of last week. To accomplish the purchase, \$36,-000,000 Consolidated Gas Co. ten-year debentures were issued, bearing interest at 4 per cent the first year, 5 per cent the second year and 6 per cent thereafter, but redeemable at the option of the Gas Co. within six months in the stock of the

latter at \$232 per share. Meeting of Stockholders on March 9.—This option is now to be availed of, and the stock is to be increased by 155,172 shares, or \$15,517,200, to retire these debentures, raising the authorized and outstanding issue from \$39,078,000 to \$54,593,-200. A special meeting of the stockholders has been called for March 9 to consider the recommendation of the trustees.

The circular, confirming many facts already stated in this column, and containing much additional information, is in effect as follows:

effect as follows: The rapid growth of electricity for light and power is observed by every one, and the annual consumption of gas per meter for light is gradually but surely diminishing. It has long been apparent that the interests of your company would best be served and protected by its being placed in a position to supply electricity as well as gas. After mature consideration it was decided to unite the electrical with the gas business, and negotiations which have been pending for many months resulted in unanimous action by the trustees on Jan. 2 last whereby was acquired for your company the entire \$36,000,000 oapital of the New York Gas & Electric Light, Heat & Power Company. This included the Edison Electric Illuminating Co. of New York, the New York Light, 'Heat & Power Co., the Mount Morris Electric Light Co., the Manhattan Electric Light Co., the Block Lighting & Power Co. and the Borough of Manhattan Electric Co., all operating on Man-hattan Island; the North River Electric Light & Power Co., operating in the Borough of the Bronx, and the Yonkers Electric Light & Power Co., located at Yonkers, N. Y. There had previously been acquired in the interest of your Co. a con-trolling interest in the United Electric Light & Power Co., the Brush Electric Illuminating Co. and the United States Illuminating Co. In addition to the foregoing, ownership of the Consolidated Tele-graph & Electrical Subway Co., which owns 900 miles of ducts and subways for electric lighting and power purposes, has also been acquired. An examination of the business of the New York Gas & Electric

acquired.

subways for electric lighting and power purposes, has also been acquired. An examination of the business of the New York Gas & Electric Light, Heat & Power Co. showed that the net earnings of that com-pany were on a basis of 4 per centum upon its capital stock. The business and franchises of the companies acquired enables your com-pany to be a large factor in supplying electric light and power in the city of New York, to largely reduce the expenses of its electric-light-ing business, to extend the same, and to bring it into more general use by the community, and to derive large benefits from the rapidly-in-creasing use of electricity for power, and gives to the company a great future in the lighting business without calling for any payment from its gas business. The New York Gas & Electric Light, Heat & Power Co. has con-tracted for and is now building the largest power house in the world, to have, when completed, a capacity equivalent to 1,500,000 sixteen-candle power lamps, with a gross earning capacity of more than \$15,-000,000. The Electric Co. has on hand the cash to pay for the con-struction of this plant. To consummate the purchase, \$36,000,000 debentures were issued, bearing interest at 4 per cent the first year, 5 per cent the second year and 6 per cent thereafter, redecmable at the option of the Gas Co., within six months, in Gas Co. stock at \$232 per share This will call for an additional issue of 155,172 shares of Gas Co. stock. The net earnings of the business acquired by the new issue of stock will produce at the present rate an annual sum equal to 9 per cent on such additional stock, and the business is growing very rapidly. By this method, it has been pointed out, the Consolidated

By this method, it has been pointed out, the Consolidated Gas Co. secures control of the local electric light field without incurring any mortgage indebtedness, on a basis yielding, as shown by the official statement, 9 per cent return upon the par value of the stock issued.

Gas Suit Postponed.-Geo. A. Lamb. connsel for the minority stockholders in the action to declare the recent election illegal, has consented to adjourn the hearing therein. The matter will probably not come up until after the stockholders' meeting on March 19.-V. 70, p. 282, 178.

Bonton Water Co.—Bonds Proposed.—The stockholders will vote at the office in Los Angeles, Cal., on March 31, upon a proposition to issue \$50,000 mortgage bonds. F. K. Rule is Secretary.

Carnegie Steel Co.-Suit.-H. C. Frick, formerly Chairman, which office he resigned in Dec., 1899, has begun a suit in equity in the Court of Common Pleas of Allegheny County against Andrew Carnegie and his other partners in the Carnegie Steel Co., Limited, in which he seeks to recover what he claims to be the fair value of his holdings-namely, 6 per cent. He alleges Carnegie is willing to pay about \$6,000,000, while the value is \$16,238,000. The earnings of the company for 1899 are given as \$21,000,000. Mr. Carnegie estimates the 1900 earnings at \$40,000.000 and Mr. Frick at \$42,000,000. Mr. Carnegie received \$1,170,000 cash for a 90-day option on 581% per cent of the stock at \$157,950,000, and is alleged to have claimed that he could sell the entire property in London for \$500,000,000. In addition to this action to break the so-called "iron-clad" agreement, suit will also be brought, it is said by the minority stockholders of the H. C. Frick

Continental Tobacco Co.-P. Lorillard Preferred Stock to Be Acquired.—The company offers to purchase the entire \$2,000,000 preferred stock of P. Lorillard Co., giving in exchange therefor its 5 year 7 per cent gold debentures. See P. Lorillard Co. below. -- V. 69, p. 745.

Denver Gas & Electric Co.-Called Bonds.-First mort-gage six per cent bonds of the Western Electrical Construction Co. of Denver, Col., to the amount of \$10,000, being ten bonds of \$1,000 each, have been drawn and will be paid by the Massachusetts Loan & Trust Co., trustee, at 60 State St., Boston, interest ceasing March 13, 1900.-V. 69, p. 127.

Federal Graphite Co.-New Enterprise.-This company was incorporated in New Jersey on Jan. 26 to develop graphite deposits on the Phlladelphia & Reading Ry. in Chester County, Penn., about 33 miles from Philadelphia.

.

Upwards of 450 acres of land have been purchased, containing graphite which, it is claimed, is as good as, if not better than, that obtained by the Dixon Crucible Company from its mines at Ticonderoga, N. Y. These last are said to be the only other graphite mines of consequence in the United States, their maximum annual output supplying, it is reported, only 600 tons of the country's annual consumption of about 45,000 tons. The capital stock of the new company is \$1.000,000 in \$5 shares, \$500,000 being 6 per cent preferred. Officers and directors:

President, Wm. Grange, of Philadelphia; Vice-President, Theodore B. Casey, of Bostou; Frank A. Schirmer, of Boston; Charles A. Morse, Jr., of New York, and Charles N. King, of Jersey City; Secretary and Treasurer, Edwin W. Cates, of Boston.

Wm. F. Downs, formerly General Manager of the Dixon Company, has been elected General Manager.

Federal Steel Co.-Further Dividend on Common Stock. A dividend of 2½ per cent on the common stock, payable March 20, out of the earnings of 1899, has been declared to stockholders of record March 10, making 3¾ per cent in all paid for 1899. A dividend on account of the year 1900 may be declared next month. Statement for 1899, see "Annual Reports."-V. 70, p. 232, 79,

Fort Pitt (Natural) Gas Co.—Purchase.—This company has purchased the stock of the Jefferson Gas Co., which has supplied the gas fuel for the American Iron & Steel Works of Jones & Laughlin, limited, at a price reported to be about \$250,000. The following officers and directors have been elected by the Fcrt Pitt Company : Joseph W. Craig, Presi-dent; S. H. Anderson, Secretary; E. P. Mellon, Treasurer; P. L. Craig and J. C. Fisher. The company was a consoli-dation formed in Dec., 1899. See V. 69, p. 1105.

Geyserite Soap Manufacturing Co. of Denver, Col.-Securities Offered.-" In order to extend the field of operations, purchase other geyserite deposit lands," etc., were offered:

First mortgage 20 year gold 6s, dated Jan. 1, 1900, semi-annual in-terest, payable at the International Banking & Trust Co. (trustee), 149 Broadway, New York, \$500,000; 8 per cent preferred stock, \$500. 000,000, and common stock, \$1,000,000. The bonds are subject to call on any interest day five years from date of purchase at 115, ten years from date of purchase at 110, or on any interest day 15 years later at 105 later at 105.

Subscriptions were received from Jan. 3 to Jan. 20 by Kay. Healy & Hildreth, New York. The company's total capital stock is given as the amount offered, viz., \$1,500,000.

Imperial Electric Light, Heat & Power Co. of St. Louis. -Mortgage - The stockholders will vote at the office, south-east corner of St. Charles and Tenth streets, St. Louis, March 10, 1900, on a proposition to authorize bonds to the sum of \$1,500,000, to be secured by mortgage. G. H. Wal-bridge is President and E. G. Bruckman Secretary, and among others interested are Hugh H. Harrison and Charles Hodgman. Practically the same people, it is said, have se-oured control of the National Subway Co.

Jersey City Water Supply Co.—Purchase Approved.—At the special election held on Feb. 13 the voters approved the proposition to purchase the plant at the option of the city. See item in "State and City" department.—V. 69, p. 1196.

Laclede Gas Light.—Dividend Increased.—The company has declared a semi-annual dividend of 2 per cent on the common stock, payable March 15. This is at the rate of 4 per cent per annum, as against 3 per cent paid in 1899.-V. 70, p. 178.

Michigan (Bell) Telephone Co.-Stock Increased.-The stockholders on Feb. 12, by unanimous vote, approved the increase of the capital stock from \$2,500,000 to \$10,000.000, over two-thirds of the stock being represented. The directors are authorized to issue stock as funds are required, at not less than par.-V. 70, p. 282.

New York Gas & Electric Light, Heat & Power Co.-Details of Purchase by Consolidated Gas Co.-See that company above.-V. 70, p. 283.

Ohio & Indiana Consolidated Natural & Illuminating Gas.—First Dividend.—The company has declared a quar-terly dividend of one per cent, payable March 1 at the Corn Exchange Bank. A. B. Proal is Treasurer.—V. 69, p. 1304.

Pacific Mail Steamship Co.-New Policy as to Dividends. -President Huntington, in an interview in the New York "Times," is quoted as saying that negotiations have been concluded for the purchase of a new ship for about \$625,000, over \$1.000,000 having recently been spent on two new ves

P. Lorillard Co.—Offer to Purchase Preferred Stock.-Baring, Magoun & Co. have issued a circular, under a contract made with the Continental Tobacco Co., offering the preferred stockholders the right until April 1, 1900, to ex-change their shares for 5-year 7 per cent Continental To-bacco gold debentures at par. This offer is dependent upon its being accepted by two-thirds in interest of the preferred shareholders. The contract states that it shall not be binding until at least 13,400 shares shall have agreed to the exchange. An undertaking is to be executed under which the Continental Tobacco Co. agrees that should any mortgage or incumbrance be put upon the Lorillard property the debentures may be declared payable at a premium to equal a 5 p. c. investment to maturity. Baring, Magoun & Co. state that for business reasons, "which seem to us sound," they have been anxious that the Continental Co. should acquire the \$2,000,-000 preferred in addition to the \$3,000,000 (entire) common stock acquired last year.—V. 68, p. 377.

Railroad Equipment Co.—Sale of Securities.—On Feb. 13 all the securities advertised for sale (see V. 70, p. 233) were bid in by the Atlantic Trust Co., trustee, at 5 cents on the dollar, except the lease warrants of the Toledo Ann Arbor & North Michigan Railroad, which were purchased at 25 cents on the dollar, and certain others of little value. A further batch, consisting of four lots, aggregating \$786,720, on which interest is also in default, will be sold at auction on Feb. 20.-V.70, p. 233.

Rubber Goods Manufacturing Co.—New Director—Divi-dends.—At the annual meeting all of the directors were re-elected, with the exception of W. M. Ivins, who is succeeded by Arthur L. Kelley. A change was made in the by-laws, allowing dividends on the common stock to be declared at the same time as the preferred. The directors will meet on Feb. 28 and declare the regular dividend on the preferred stock and also 1 per cent quarterly on the common, beginning June next. The dividend on the preferred will be paid be-fore June, thus completing the dividends for the year, in order to comply with the law in regard to dividends on the common stock. W. M. Ivins remains General Counsel. See statement of earnings under "Annual Reports."—V. 69, p. 1106

Shelby Steel Tube Co.—Reorganization and Consolidation. -This company was incorporated in New Jersey on Feb. 8 to take over the Shelby Tube Co. of Pennsylvania, which last year increased its capital from \$5,000,000 to \$10,000,000, and acquired the assets, patents and processes of most of the principal manufacturers of seamless tubing in the country, and will also absorb several other concerns. The Pennsylvania Co. formed an alliance with the American Bicycle Co., some of whose tube works it purchased. (See V. 69, p. 286; V. 68, p. 1026, 1183.) It is announced that the company is practically a reorganization and enlargement of the old Shelby Tube Co., and that there is no conflict between it and the National Tube Co., which also manufactures seamless steel tubing but only of the welded variety. The Shelby Co. manufactures hollow seamless steel tubing up to four inches in diameter, and its product, unlike that of the National Tube Co., is designed to afford the maximum of strength with the minimum of weight.

The properties acquired are as follows:

The properties acquired are as follows: The new interests acquired by the Shelby Steel Tube Co. of Pennsyl-vania in 1899, viz., Pope Tube Company of Hartford, Conn., the Newcastle Tube Company of Newcastle, Pa., and the Albany Manu-facturing Company, Albany, Ind.; also the original works of the Shelby Tube Co., at Shelby, Ohio; the Eilwood Weldless Tube Company, at Ellwood City, Pa.; the works of the Greenville Tube Company, at Greenville, Pa.; the American Weldless Tube Company and the Brewer Tube Company, at Toledo, Ohio; the Mansfield Machine Com-pany, at Mansfield, Ohio; the U. S. Standard Drawn Steel Company, at Cuyahoga Falls, Ohio; the Hercules Seamless Drawn Tube Co., at Garwood, N. J.; the United States Standard Drawn Steel Co., Cuya-hoga Falls, O. the McCool Tube Co., Beaver Falls, Pa., and the Auburn Nut & Bolt Works, Auburn, Pa.

Stock.—The new company is authorized to issue \$15,000,-000 stock, consisting of \$6,000,000 7 per cent cumulative pre-ferred and \$9,000,000 common stock, of which only \$5,000,000 preferred and \$8,150,000 will be issued at present. The stock, it is said, has already been fully subscribed for, principally by Chicago interests, cash subscriptions having been re-ceived on Feb. 10 by the Illinois Trust & Savings Bank for \$1,311,000 preferred stock at par, with a 100 p. c. bonus in common stock. Stockholders of the old Shelby Company re-ceived no cash, it is stated, all taking new stock, the terms being one-half share of new preferred and three-quarters of a share of new common for one share of old stock. The outstanding stock of the old company was said to be \$7,376,400, each share of which received one-half share of new preferred and three-quarters of a share of new common stock. The old Shelby Steel Tube Company had a capacity of 57,-000,000 feet per annum; the new acquisitions add about 43,-000,000 feet, making a total of 100,000,000 feet.

sels, and that further similar expenditures are contemplated. Instead of maintaining cash dividends, the company pro-poses for a time to invest surplus earnings in new vessels and other improvements, which in the long run will prove more advantageous to the stockholders by reason of increased revenues applicable to future dividends than the relatively small dividends they may be compelled to forego for the present. He regards new vessels as the "best dividends" which could possibly be offered and does not see why "double" dividends should be paid. Dividends have been paid in June and December. Three per cent was paid in 1899.-V. 69, p. 797.

Philadelphia Electric Co.-Old Certificates Purchased.-We are informed that the company has completed the pur-chase in the open market of \$2,000,000 old Philadelphia Electric five per cent trust certificates, secured by Pennsylvania Heat, Light & Power stock, leaving about \$11,200,000 outstanding. The company had about \$3,500,000 cash in the treasury upon its formation in October last.-V. 69, p. 1151.

Frank O. Lowden, who brought out the American Radiator Co. last year, is said to have promoted the enterprise. The headquarters are expected to remain in Cleveland, O.

Earnings.—The earnings of the old Shelby Tube Co. alone from Aug. 1, 1894, to Aug. 1, 1899, a period of five years, are given in the prospectus as \$1,786,674, an average of \$357,334 per annum, while the dividends on the \$5,000,000 preferred stock of the new company call for \$350,000 yearly.

Officers.—The following are the officers and directors of the company:

Directors.-W. E. Miller, Cleveland; Albert A. Pope, Boston; R. L. Coleman, Chicago; H. A. Lozier, Cleveland; B. J. Williams, Shelby;

E. W. Bliss, Brooklyn; L. S. Hoyt, Newcastle; John L. McKinney, Titusville; F. J. Carolan, San Francisco; Frank O. Lowden, Chicago; James B. Dill, East Orange. *Officers.*—President, W. E. Miller; Treasurer, W. S. Miller; Secretary, H. H. Cockley. N. A. Gilbert will be General Counsel.—V. 69, p. 286.

Southern Naval Stores Co.—This company, we are ad-vised, will be organized at Savannah, Ga., about March 1st next with a paid-up capital of \$300,000, with the privilege of increasing the amount at any time to not in excess of \$2,000,-000. The company will not be formed by the consolidation of existing companies, but will be a separate and distinct organization, composed almost exclusively of turpentine operators who will give their patronage to the company.

Standard Gas Co.—Deposits.—About 40,000 shares of stock, it is understood, have been deposited with the protective committee. It is expected that an extension of time will be given for further deposits, as many stockholders now absent from the city have signified their desire to support the com-mittee.-V. 70, p. 283, 180.

Steel Sheet Consolidation.—Amalgamation.—A press dis-patch from Pittsburg dated Feb. 14 says that at a meeting held there on that day the long-talked-of combination of the steel sheet mills of the country was formed, the name of the new company to be probably the American Steel Sheet Co. The capital stock will be \$52,000,000, consisting of \$26,000,000 seven per cent preferred and \$26,000,000 common stock. Of the preferred \$10,000,000 will remain in the treasury and the entire \$26 000,000 common stock will be placed in a New York bank for a year. None of the stock will be put on the market, the mill owners taking it all. The concerns outside the combine are the Apollo Iron & Steel Co. of Vandergrift, Pa: W. D. Woods & Co. McKeesnort Pa: Zug & Co. Pitts-Pa.; W. D. Woods & Co., McKeesport, Pa.; Zug & Co., Pitts-burg, and the Whittaker Iron Company of Wheeling, these four firms controlling 55 mills and the combine 160 mills. The company expects to have all details arranged to start business in about thirty days.

The committee perfecting the plan of organization is com-posed of J. G. Battalle, Piqua, Ohio; A. W. Brown, Cam-bridge, O., and B. M. Caldwell, Bridgeport, O. Twenty-five out of twenty-nine leading firms were said to have been represented at the meeting.

Underfeed Stoker Company of America.—New Company. —This company was incorporated at Newark, N. J., on Feb. 8, 1900, with a capital stock of \$1,000,000, to consist of \$250,-000 7 new cent computative preferred and \$550,000 corpor-000 7 per cent cumulative preferred and \$750,000 common stock, to manufacture an automatic stoker on what is known as the underfeed principle. Among the incorporators are several prominent business men of Toronto, including Geo. Gooderham, W. R. Brock, Thomas A. Rowan, James L. Ross, Elias Rogers and Lloyd Harris, and James B. Dill of New York City New York City.

United States Leather Co.-Status.-It has been stated in several quarters that the Rockefellers have obtained all the stock they desired for their purposes and that their plans in respect to the reorganization of the company and read-justment of the stocks are assured of accomplishment. Important developments are expected to occur at the annual meeting on Feb. 28 next.—V. 70, p. 40.

United Verde Copper Co.—Injunction.—The Appellate Division of the Supreme Court for the First Department on Feb. 9 handed down a decision reversing an order of the lower court and continuing an injunction forbidding the sale of the company's property in pursuance of the reorganiza-tion plan, on the ground that it would injure the rights of the minority stockholders.

Henry G. Atwater, connsel for United States Senator William A. Clark, is quoted as saying :

"The decision of the Appellate Division came too late to prevent the reorganization of the company. Justice Gildersleeve dissolved the injunction granted by Justice Beach, and on Jan. 9 the property of the company was sold. The company was then reorganized under the laws of West Virginia, and has been doing business as a corpora-tion of that State since Jan. 10, and has declared two dividends."—V. 70. p. 180. 70, p. 180.

-The publishers of the FINANCIAL CHRONICLE have issued their annual publication, known as the FINANCIAL REVIEW. It gives a comprehensive review of the business of 1899, with comparative statistics for a series of years; the weekly range of prices of call loans, time loans and commercial paper for seven years; daily prices of foreign exchange 1897-1899; the weekly bank statements in 1899; the production of gold, sil-ver, iron and coal for a series of years; crop statistics; imports and exports since 1870; monthly range of prices of U.S. Government and State securities since 1860; monthly range of prices of railroad bonds and railroad stocks for five years. These and many other statistics conveniently arranged make up the contents of this very useful volume. -Messrs. Richardson & Clark, bankers at Providence, have issued a very useful little manual-"Hand Book of Rhode Island Investments." It gives dividend records, the range of prices for a series of years, etc., etc. In the tables relating to municipals an interesting feature is the name of the original purchaser and the price paid in the case of each issue.

## Reports and Documents.

#### NORTHERN CENTRAL RAILWAY CO.

FORTY-FIFTH ANNUAL REPORT-FOR THE YEAR ENDING DEC. 31, 1899.

BALTIMORE, February 14, 1900.

To the Stockholders of the Northern Central Railway Co.:

The Board of Directors herewith submit their report for the year ending December 31, 1899, with such data relating to the lines embraced in your System as will give a clear

The coal tonnage of the main line in 1899 was 5,080,833 tons, and in 1898, 4,371,429 tons, an increase of 709,404 tons The total coal tonnage to Baltimore was 974,093 tons, an increase of 50,458 tons.

The coal tonnage of the Lykens Valley Railroad was 555,206 tons in 1899 and 518,153 tons in 1898, increase of 37,053 tons. The coal tonnage of the Shamokin Division was 1,982,145

tons, and in 1898 1,636,466 tons, an increase of 345,679 tons.

The aggregate movement of bituminous coal was 3,832,947 tons, an increase of 402,783 tons, and of anthracite coal 4,491,870 tons, an increase of 616,580 tons. The tonnage of both classes amounted to 8,324,817 tons, as against 7,305,454 for the preceding year, being an increase of 1,019,363 tons in the actual aggregate of coal transported, irrespective of the number of divisions over which it was moved.

The amount of grain received at the elevators at Canton, as compared with the previous year, was:

An inorease of..... 344,217 bushels.

The amount of grain received at the local elevator, No. 2, in the city of Baltimore during the year was 2,019,852 bushels, as against 2,106,344 bushels in 1858.

The principal items of tonnage, besides coal and grain, were lumber, iron ore, manufactures of iron and petroleum.

#### GENERAL REMARKS.

There was a largely increased movement of tonnage, and the receipts therefrom show a gain of \$571,195 41. There was also a slight increase in the receipts from passenger and other traffic. The expenses, however, were largely increased in the Maintenance of Equipment and Conducting Transportation Departments, so that the net operating earn-ings show a gain of but \$97,737 43. This was augmented by the income from investments and other sources, so that after providing for fixed charges, taxes, and all other liabilities, the balance to the credit of Income Account was not only sufficient to pay the regular dividends of 7 per cent, but leave a considerable surplus. Your Capital Ac-count was increased by \$270,411 33 during the year through the purchase of real estate in Baltimore required for addi-tional terminal facilities at that point. The \$20,000 set aside out of the income of 1898 was also largely expended in improving this real estate by the construction of an additional hay warehouse on Monument Street and of a storage warehouse on Brown's wharf, The residue of the sum was appropriated toward furnishing your equipment with air-brakes and automatic couplers, in conformity with the requirements of the Inter-State Commerce legislation.

As quite a large amount will be required to complete the terminal improvements already referred to, the sum of \$300,000 has been transferred to the Extraordinary Expenditure Fund, and the balance of your net income carried to the credit of Profit and Loss.

reaching an amicable adjustment of the questions pending between your Company and the State, should such a course be practicable, a resolution will be presented for your action giving the Board the power to conclude such arrangements in connection therewith as may be to your best interests.

In accordance with the terms of the Consolidated General Mortgage, the amount of bonds outstanding thereunder was reduced by the drawing, July 1, 1899, through the operation of the Sinking Fund, of \$156,000 of the bonds issued under Series A and B of that mortgage.

The work of renewing the bridges and trestles was further continued on the various divisions, 945 feet of steel and other permanent bridges being substituted for lighter structures. The most important renewals were on the Baltimore, Elmira and Canandaigua Divisions, where three steel-deck and half-through girder bridges, respectively 104, 182 and 153 feet in length, were built to replace bridges of less substantial character.

There was a net increase of four miles in company tracks and sidings. There were 6,892 tons of new steel rails and 2 6,785 ties used in repairs and renewals, and additional sections were ballasted with stone and cinder.

Nine locomotives having been sold or condemned were re-placed by standard power. Two new baggage-express cars and one baggage-mail car were built to replace vacancies in the passenger car equipment. There were 610 freight and 11 cabin cars built to replace vacant numbers, of which 270 for the former more provided through the years Car Trust of the former were provided through the usual Car Trust arrangement.

The board has, with deep regret, to place on record the death, on May 22, 1899, after a long illness, of one of your oldest directors, Mr. John M. Hutchinson, in the eightieth year of his age. He had been a member of your board for nearly twenty-five years, having been elected to that position December 8, 1874, and in all the vicissitudes occuring during that period had been devoted to your interests. Of keen, clear judgment and unswerving rectitude, he was no less a warm friend than a faithful colleague, and his memory will be cherished for his personal qualities as well as for his faithful discharge of the official trust confided to him.

Only a fortnight after Mr. Hutchinson's death your company sustained a further loss in the death of your late Presi-dent, Mr. Frank Thomson. The brief illness that preceded his death gave but little warning of this sad event, and it was, in fact, while inspecting the Western lines of the system of which your railway forms a part that Mr Thomson was suddenly prostrated.

Mr. Thomson had been successively the General Manager. Vice-President and President of your company, and for nearly 25 years had devoted his exceptional abilities to its service. His death was a misfortune to the entire railway interests of the country, and the board desires to record its deep sense of this loss and its recognition of the fidelity and marked success with which he discharged the responsible duties inseparable from his official position.

To fill the vacancy caused by Mr. Thomson's death Mr. Alexander J. Cassatt, who had been a director since 1874 and formerly your Vice-Pre-ident, was elected President on the fifteenth day of June, 1899. Mr. S. M. Prevost and Mr. A. Loudon Snowden were elected directors to fill the vacancies thus created in the board.

The organization having been then amended so as to pro-vide for four Vice-Presidents, the office of First Assistant to the President was abolished and Mr. Samuel Rea was elected Fourth Vice-President.

Mr. Charles A. Chipley having resigned his position as General Agent in charge of local traffic, and the organization having been further amended so as to provide for a General Freight Agent and an Assistant General Freight Agent, Mr. John B. Thayer, formerly General Freight Agent in charge of through traffic, was promoted to the former and Mr. George D. Dixon, formerly Division Freight Agent of the Baltimore Division, to the latter position, taking effect May 1. Mr W. Heyward Drayton, Jr., was appointed to fill the

vacancy caused by Mr. Dixon's promotion.

The attention of the shareholders is especially called to the resolutions which will be presented for their approval covering the establishment of an age limit for entry into the service and approving of the creation of a pension depart-ment under which certain allowances shall be paid to employes superannuated by reason of age and physical disability. The maximum amount of such allowances in any one year is limited to \$20,000 for the roads embraced in your system, and the general basis therefor is as follows: That all officers and employes of the company who are required by the organization to give their entire time to its service, and who have either attained the age of 70 years, or, being between 65 and 70 years, and having been 30 or more years in its service, have become physically disqualified, shall be re-lieved and placed on the pension roll. The pension allowance is based upon length of service and average pay during the last 10 years thereof; but it is expressly provided that the adoption of a pension plan shall not prevent the company from discharging any officer or employe when the interests of the company so require. The board desires to acknowledge the fidelity and efficiency with which the officers and employes have discharged their duties during the past year. By order of the Board,

The outstanding bonds secured by your First Mortgage, amounting to \$1,126,000, will mature April 1 next, and those secured by your Consolidated Mortgage. amounting to \$2,804,000, will mature July 1. As your funded debt is largely in excess of your capital stock, it has been deemed wise to make a further issue of the latter, and use the proceeds for the purpose of paying off the greater portion of these maturing obligations. Resolutions will be submitted with this report covering the necessary authorization by the shareholders.

The litigation with the State of Maryland in connection with the exemption from taxation enjoyed by your Company is still progressing, and an adverse decision thereon has been rendered by the Court of Appeals of the State of Maryland. To secure a final settlement of this matter an appeal to the Supreme Court of the United States will probably be necessary, unless a satisfactory basis can be reached through amicable agreement. With the view. however, of

A. J. CASSATT, President.

# The Commercial Times.

#### COMMERCIAL EPITOME. FRIDAY NIGHT, February 16, 1900.

The business situation in mercantile circles has been quite generally referred to as satisfactory. Manufacturers, with comparatively few exceptions, have continued to experience a good, seasonable run of orders at remunerative prices. Business in staple products has been fairly active. There has been a further advance in cotton and values have been firmer. Export business, however, has been checked by the scarcity of ocean freight room and the consequent high ocean freight rates. The Frick-Carnegie dispute has attracted widespread attention in iron and steel circles, but it is not expected it will have any important influence upon trade conditions. Much interest appears to be shown in the legislation at Washington relative to currency matters and to tarriff regulations for Puerto Rico.

Lard on the spot was quiet and easier early in the week. Subsequently, however, there was a better export demand, and the close was fairly steady at 6.35c. for prime Western and 5.95@6c. for prime City. Refined lard has been in more active demand at steady prices, closing at 6.60c. for refined for the Continent. Speculation in lard for future delivery has been moderately active, but for the week prices show a slight decline, due to realizing sales by longs. The close was quiet.

#### DAILY CLOSING PRICES OF LARD FUTURES.

Sat. Mon. Tues. February...... 6·37 Holiday. 6·32 Wed. Thurs. 6·30 6·32

Fri. 6·32 Pork has been in moderate demand and steady, closing at \$10 75@11 50 for mess, \$13 00@13 50 for family and \$12 00 @13 50 for short clear. Cut meats have had a fair sale at firm (a) 3 50 for short clear. Cut meats have had a fair sale at firm prices, closing at 6c. for pickled shoulders,  $10@10\frac{1}{2}$ c. for pickled hams and  $6\frac{3}{4}@7\frac{1}{4}$ c. for pickled bellies, 14@10 lbs. average. Beef has been quiet and unchanged at \$10 00@ 10 50 for mess, \$10 50@12 00 for packet, \$11 00@13 00 for family and \$17 50@19 00 for extra India mess in tcs. Tallow has been firmer, prices advancing to  $5\frac{1}{2}$ c. Lard stearine and oleo-stearine have been quiet and without changes. Cotton-seed oil has been in fairly active demand and higher, closing at  $38\frac{1}{6}@39c$  for prime vellow. Butter has been in closing at 38½@39c. for prime yellow. Butter has been in fair demand, but offerings have been freer and prices have weakened slightly, closing at 21@25c. for creamery. Cheese has had a fair sale at steady prices, closing at 10@13c. for State factory full cream. Fresh eggs have been in in-creased supply and weaker, but the close was steadier at 14½c. for choice Western.

Brazil grades of coffee have been in less active demand, and, owing to weaker European advices and speculative selling for European account, prices have been easier. The close was firmer at 8 13-16c. for Rio No. 7. West India growths have had only a moderate sale, but prices have held steady, closing at 11c. for good Cucuta. East India growths have been firm and higher for the lower grades. Speculation in the market for contracts has been moderately active, but prices have declined under aggressive selling of the dis-tant months, principally for European account. The close was firm. Final asking prices were:

Raw sugars have had a fair sale, but at slightly easier prices, closing steady at 4 7-16c. for centrifugals, 96 deg. test, and 4c. for muscovado, 89 deg. test. Refined sugar has been quiet but steady at 5 05c. net for grannlated. Pepper has been fairly active and higher.

Kentucky tobacco has been firm on small offerings. Seed leaf tobacco has had only a limited sale, but values have held steady. Sales for the week were 1,755 cases, as follows: 355 cases 1898 crop, Pennsylvania seed leaf,  $11\frac{1}{2}@13c.$ ; 100 cases 1898 crop, Pennsylvania Havana, 11½@12c.; 400 cases 1898 crop, Wisconsin Havana, 11½@13½c.; 100 cases 1897 crop, Wisconsin Havana, 10¼c.; 500 cases 1898 crop, Zim-mers, 9½@11½c.; 100 cases 1898 crop, Gebhart, 12@12½c.; 50 cases 1899 crop New England Havana forced sweet 50 cases 1899 crop, New England Havana, forced sweat, 20@ 50c.; 100 cases 1898 crop, New England seed leaf, 30@50c., and 50 cases 1898 crop New England Havana seed, 30@55c.; also 1,000 bales Havana at 50@98c., in bond, and 125 bales Sumatra at 80c @\$1 60, in bond. Straits tin has had only a moderate sale, but prices have advanced in response to stronger foreign advices, closing firm at 30.90@31.10c. Ingot copper has been in fairly active demand and firm, closing at  $16\frac{1}{4}$ c. for Lake. Lead has been quiet but steady at 4.70@4.75c. for domestic. Spelter has had a fair sale at firm prices, closing at 4.70@4.75c. Pig iron has been fairly active and steady at \$19 50 24 00 for domestic. Refined petroleum has been unchanged, closing at 9.90c. in bbls., 7.25c. in bulk and 11.10c. in cases. Naphtha un-changed at 10.65c. Crude certificates have been neglected. Credit balances have been unchanged at \$1 68. Spirits tur-pentine has been quiet but steady at  $56@56\frac{1}{2}$ c. Rosins have been well held, closing at \$1 70@1 72½ for common and good strained. Wool has been quiet with some irregularity in prices. Hops have been quiet and unchanged.

### COTTON.

FRIDAY NIGHT, February 16, 1900.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 194,579 bales, against 212,421 bales last week and 217,451 bales the previous week, making the total receipts since the 1st of Sept., 1899, 5,163,639 bales, against 7,052,674 bales for the same period of 1898-9, showing a decrease since Sep.1, 1899, of 1,884,035 bales.

Speculation in cotton for future delivery has been active, and early in the week there was considerable excitement to the trading, with the fluctuations in prices frequent and violent. The tendency of prices was towards a higher basis, as the advices from abroad continued to report advancing markets, and the advices from the South reported an active demand for cotton for export at steadily hardening prices. At the higher prices prominent speculative holders have been free sellers to realize. On Wednesday there were in-dications that the advance, at least for the immediate future, had culminated. The upward course to values abroad ap-peared to be checked, and reports from different sections of the South announced a subsidence in the demand for cotton. Thursday prices showed a tendency to react particularly Thursday prices showed a tendency to react, particularly for the distant months, the near-by deliveries holding steady, owing to the fact that they were on a relatively lower basis than the Liverpool and New Orleans markets. European advices were weaker, due, it is stated, to increased attention being given to the full movement of the crop, and there was further selling by longs to realize profits. To-day there was a fairly active but unsettled market. Early in the day there was an advance in the near-by deliveries on buying by local and foreign shorts to cover contracts. Subsequently, bowever, under realizing sales and a continued full crop movement, prices reacted and the close was barely steady, with prices 4 points higher to 5 points lower for the day. Cotton on the spot has been firmer; prices advanced 3-16c. on Tuesday and  $\frac{1}{6}$ c. on Wednesday. To-day prices were unchanged, closing at  $\frac{8}{6}$ c. for middling uplands.

The rates on and off middling, as established Nov. 15, 1899, by the Revision Committee, at which grades other than middling may be delivered on contract, are as follows.

Fair	118 on	Strict Good Mid. Tinged.c.	314 On
		Good Middling Tinged	
		Middling Tinged	
		Strict Middling Stained	
Strict Low Middling	316 Off	Low Middling Tinged	518 ofl

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph, is as follows. Continental stocks, as well as those for Great Britain and the afloat, are this week's returns, and consequently all European figures are brought down to Thursday evening. But to make the total the complete figures for to-night (Feb. 16), we add the item of exports from the United States, including in it the exports of Friday only.

The above statement shows: 1.-That the total receipts from the plantations since Sept. 1, 1899, are 5,520,088 bales; in 1898-99 were 7,448,065 bales; in 1897-98 were 7,692,678 bales.

2.-That although the receipts at the outports the past week were 194,579 bales, the actual movement from plantations was only 132,562 bales, the balance being taken from stocks at interior towns. Last year receipts from the plantations for the week were 40,571 bales and for 1898 they were 167,346 bales.

WEATHER REPORTS BY TELEGRAPH.-Our telegraphic advices from the South this evening denote that rain has been quite general at the South the past week, and that in portions of the Atlantic and Gulf sections the precipitation has been heavy, interfering with farm work. Our Meridian, Miss., correspondent states that stocks of cotton at smaller interior towns and on plantations in that vicinity are about exhausted.

Galveston, Texas. - We have had rain on two days of the week, the rainfall reaching one inch and seventy-seven hundredths. The thermometer has ranged from 42 to 62, averaging 52.

Abilene. Texas.-There has been no rain the past week. Average thermometer 43, highest 70 and lowest 16.

Corpus Christi, Texas.-We have had rain on one day during the week, to the extent of eighty six hundredths of an inch. The thermometer has averaged 51, the highest being 68 and the lowest 34.

Palestine, Texas. - No rain the past week. The thermometer has averaged 45, ranging from 22 to 68.

San Antonio, Texas.-We have had showers on two days of the week, the precipitation reaching two hundredths of an inch. The thermometer has ranged from 28 to 70, averaging 49.

New Orleans, Louisiana. -Rain has fallen on five days of the week, to the extent of four inches and forty-three hun-

overland exhibits an excess over a year ago of 17,158 bales.

Decrease during week.

In 1898 the week's movement into sight was 216,592 bales; in 1897 reached 107,495 bales; in 1896 was 124,999 bales, and in 1895 was 104,064 bales. The totals since Sept. 1 in the same years were 9,175,681 bales in 1897-98; 7,326,126 bales in 1896-97, 5,901,461 bales in 1895-96 and 8,384,304 bales in 1894-95. dredths. Average thermometer 53.

Shreveport, Louisiana -We have had rain on one day during the week, the precipitation being sixteen hundredths of an inch. The thermometer has averaged 46, the highest being 67 and the lowest 23.

Columbus. Mississippi .- Rain has fallen on three days of the week, the rainfall reaching one inch and thirty-six hundredths. The thermometer has averaged 54, ranging from 34 to 80.

Leland, Mississippi.-Rain has fallen to the extent of one inch and fifty hundredths during the week. The thermometer has ranged from 22 to 68, averaging 44.6. Meridian, Mississippi.—It has rained heavily on five days

of the week, causing overflows, and consequently no plowing has been done. Stocks of cotton are about exhausted in interior towns and on plantations. The estimated stock be-tween Okolona and Meridian is 1,000 bales against 20,000 bales last year. At stations between Akron and Marion, Ala., there are now 300 bales against 10,000 bales last year. Vicksburg, Mississippi.-Rain has fallen on two days of the

week, to the extent of fifty-three hundredths of an inch.

The thermometer has averaged 49, the highest being 71 and the lowest 33.

Little Rock, Arkansas.—We have had light snow during the week. The thermome er has av sraged 35, ranging from 20 to 50.

Helena, Arkansas.—The week's rainfall has been eleven hundredths of an inch, on three days. Light snow on one day. The thermometer has averaged 391, ranging from 22 to 57.

Memphis, Tennessee.—There has been rain on two days of the week to the extent of thirty-three hundredths of an inch, and it is now snowing. Average thermometer 39.2, highest 56.1 and lowest 21.3.

Mobile, Alabama.—Farm work in the interior has been interrupted by excessive rain. We have had rain on five days during the week, the precipitation being four inches and ninety hundredths. The thermometer has averaged 53, the highest being 70 and the lowest 38. Montgomery, Alabama.—There has been rain on five days

Montgomery, Alabama.—There has been rain on five days of the past week, the rainfall reaching five inches and seventeen hundredths. The thermometer has averaged 55, rangfrom 37 to 73.

Selma, Alabama.—There has been rain on five days during the week, the rainfall reaching four inches and forty-two hundredths. The thermometer has ranged from 34 to 74, averaging 55.

Madison, Florida.—There has been rain during the week, to the extent of three inches, on four days. Average thermometer 61, highest 72. lowest 46.

Savannah, Georgia.—There has been rain on five days of the week, the precipitation reaching sixty hundredths of an inch. The thermometer has averaged 58, the highest being 74 and the lowest 41.

Augusta, Georgia.—It has rained on five days of the week, to the extent of three inches and sixty-nine hundredths. The thermometer has averaged 50, ranging from 37 to 67.

Charleston, South Carolina.—We have had rain on five days during the week, the precipitation reaching eightythree hundredths of an inch. The thermomter has ranged from 40 to 75, averaging 56.

Stateburg, South Carolina.—Rain has fallen on five days of the week, including a thunder-storm on Sunday night, the rainfall reaching three inches and ninety-six hundredths. Average thermometer 50, highest 70, lowest 34.

Greenwood, South Carolina.—We have had rain on five days during the week, the precipitation reaching three inches and ninety-nine hundredths. The thermometer has ranged from 36 to 54, averaging 45.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 8 o'clock February 15, 1900, and February 16, 1899.

ALEXANDRIA RECEIPTS AND SHIPMENTS OF COTTON.-Through arrangements we made with Messrs. Davis, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years.

Alexandria, Egypt, February 14.	1899-1900.		1898	-1899.	1897-98.		
Receipts (cantars*) This week Since Sept. 1	1	70,000 18,000		2 <b>5,000</b> 58,000		50,000 09,000	
	This week.	Since Sept. 1.	This week.	Since Sept. 1.	This week.	Since Sept. 1.	
Exports (bales)— To Liverpool To Continent†		300,000 286,000		204,000 198,000		241,000 237,000	
Total Europe	28,000	586,000	15,000	402,000	13,000	478,000	

A cantar is 98 pounds. t Of which to America in 1899-1900, 57,968 bales; in 1898-99, 24,937 bales; in 1897-98, 29,787 bales.

This statement shows that the receipts for the week ending Feb. 14 were 170,000 cantars and the shipments to all Europe 28,000 bales.

MANCHESTER MARKET.—Our report received by cable to-night from Manchester states that the market continues firm for both yarns and shir ings. Manufacturers are generally well under contract. We give the prices for to-day below and leave those for previous weeks of this and last year for comparison.

		1900.		1899.

SEA ISLAND COTTON MOVEMENT.—We have received this (Friday) evening by telegraph from the various ports the details of the Sea Island cotton movement for the week. The receipts for the week ending to-night (Feb 16) and since Sept. 1, 1899, the stocks to-night, and the same items for the corresponding periods of 1898, are as follows.

	1899	-1900.	1898	-1899.	Stock.		
Receipts to Feb. 16	This week.	Since Sept. 1.	This week.	Since Sept. 1.	1900.	1899.	
Savannah Charleston, &c Florida, &c	1,413 68 522	7.512	5		15,837 1,402 1,213	2,474	
Total	2.003	91,621	320	59,521	18.452	18.486	

The exports for the week ending this evening reach a total of 3 285 bales, of which 3,150 bales were to Great Britain, 135 to France and --- to Bremen, and the amount forwarded to Northern mills has been 1,667 bales. Below are the exports for the week and since Sept. 1 in 1899-1900 and 1898-99.

Francis	Week E	nding 1	Feb. 18.	Since	Sept. 1,	North'n Mills.			
Exports from—	Great Bril'n.	Fr'nce &c.	Total.	Great Brit'n.	Fr'nce &c.	Total.	Week.	Since Sept.1.	
Savannah Charl't'n,&o	3,150		3,150	25,428 2,706		28,584		20,394	
Florida, &c. New York Boston		135	135	1,362	3,746	5,108	522	15,948	
Balt., &o		******			*****	*****			
Total	3,150	135	3,285	29,496	6,902	36,398	1,667	37,108	
Total 1898-9		75	75	13,880	6,508	20,388	825	27,961	

A considerable portion of the Sea Island cotton shipped to foreign ports goes via New York, and some small amounts via Boston and Baltimore. Instead of including this cotton for the week in which it leaves the Southern outports, we follow the same plan as in our regular table of including it when actually exported from New York, &c. The details of the shipments of Sea Island cotton for the week will be found under the head "Shipping News," on a subsequent page. Quotations Feb. 16 at Savannah, for Georgias, extra fine, 17c.. choice, 17½c.; fancy, 18½c.

According to the foregoing, Bombay appears to show a *decrease* compared with last year in the week's receipts of 60,000 bales. Exports from all India ports record a loss of 5.000 bales during the week and since September 1 show a decrease of 187,000 bales.

NORFOLK COTTON EXCHANGE.—The election for officers and directors of the Norfolk Cotton Exchange took place January 31, and the following were elected: Fergus Reid, President; R. S. Dawson, Vice-President; Walter Borne, Treasurer. Directors—John N. Vaughan, J. W. Perry, Edgar Nash, S. B Harrell. One director to be yet elected.

Charleston. Carolinas, medium fine, 18c.; fine, 19 to 20c.; fully fine, 21½ to 28c.

JUTE BUTTS, BAGGING, &C.—The market for jute bagging has been dull during the week under review, but prices have been marked up  $\frac{1}{4}$  to  $\frac{1}{2}$  cent, the ruling quotations to-night being 6@63%c. for 13% lbs. and 61%@61%c. for 2 lbs., standard grades. Jute butts continue very dull at 1.05c. for paper quality and 15%c. for mixing, to arrive.

EUROPEAN COTTON CONSUMPTION TO FEBRUARY 1.—By cable to-day we have Mr. Ellison's cotton figures brought down to February 1. We give also revised totals for last year that comparison may be made. The spinners takings in *actual* bales and pounds have been as follows:

### THE CHRONICLE.

October 1 to February 1.	Great Britain	Oontinent.	Total.
For 1899-1900. Takings by spinnersbales Average weight of bales.lbs Takings in pounds	1,307,000 516 674,412,000	1,615,000 497 802,855,000	2,92 <b>2,</b> 000 505 <sup>.</sup> 6 1,477,267,000
For 1898-99. Takings by spinnersbales Average weight of bales.lbs Takings in pounds		1,701,000 493 838,597,000	

According to the above the average weight of the deliveries in Great Britain is 516 pounds per bale this season, against 511 pounds during the same time last season. The Continental deliveries average 497 pounds, against 493 pounds last year, and for the whole of Europe the deliveries average 505.6 pounds per bale, against 501 pounds last season. Our dispatch also gives the full movement for this year and last year in bales of 500 pounds.

Oct. 1 to Feb. 1.	18	899-190	0.	1898-1899.						
Bales of 500 lbs. each, 000s omitted.	Great Britain.	Oonti- nent.	Total.	Great Britain.	Oonti- nent.	Total

Supply Consumpt'n, 17 weeks	1,412, 1,173,	2,079. 1,543,			2,118, 1,555,	3,548, 2,728,			
Spinners' stock Feb. 1	239,	536,	775,	257	563,	820,			
Weekty Consumption. 00s omitted.	-								
In October	69,0	91,0	160,0	69,0	91,0	160,0			
In November	69,0	91,0	160,0	69,0	91,0	160,0			
In December	69,0	91,0	160,0	69,0	91,0	160,0			
In January	69,0	90.0	159.0	69,0	93,0	162.0			

The foregoing shows that the weekly consumption is now 159,000 bales of 500 pounds each, against 162,000 bales of like weights at the corresponding time last year. The total spinners' stocks in Great Britain and on the Continent have increased 209,000 bales during the month, but are now 45,000 bales less than at the same date last season.

EGYPTIAN CROP.—Mail advices to Mr. Fr. Jac. Andres, Boston, under date of Alexandria January 27 state:

The outlook for the next crop is distinctly bad, although the irrigation service will take every step to save the cotton crop, which is the most valuable of all in Egypt. The next Nile flood will not reach Egypt before July, but the crop is planted in March-April, consequently the young plant will be insufficiently nourished and suffer. Our market is naturally very excited and rising continually, especially since news reached us this morning reporting a further heavy fail of the Nile at Assouan, lower than ever known.

Admitting this, it is undeniable that the river at Assouan is at the time of writing lower than it has ever been known to be in the month of January, and that the reports received up to date from the south are the reverse of encouraging. Further, the continued drought in India points to the existence of abnormal atmospheric conditions over an immense area. Taking all the above circumstances into account, agriculturists in Egypt would seem to be warranted in their anxiety for the future of their crops, and it is evident that very special measures will have to be taken if the latter are by any meansto be saved. An early flood would greatly relieve the gravity of the situation, while on the contrary a late arrival of the flood water would greatly accentuate it.

EXPORTS OF COTTON GOODS FROM GREAT BRITAIN.—Below we give the exports of cotton yarn, goods, &c., from Great Britain for the month of December and since January 1 in 1899 and 1898, as compiled by us from the British Board of Trade returns. It will be noticed that we have reduced the movement all to pounds.

The foregoing shows that there has been exported from the United Kingdom during the twelve months 1,299,690,000 lbs. of manufactured cotton, against 1,285,006,000 lbs. last year, or an increase of 16,684,000 lbs.

A further matter of interest is the destination of these exports, and we have therefore prepared the following statements, showing the amounts taken by the principal countries during December and since January 1 in each of the last three years:

EXPORTS OF PIECE GOODS AND YARNS TO PRINCIPAL COUNTRIES IN DECEMBER AND FROM JANUARY 1 TO DECEMBER 31.

The "Official Journal" of the Egyptian Government, under date of January 24, refers to the Nile water supply of 1900 in part as follows :

Latest accounts from the Lake and White Nile regions do not tend to make the prospects of any diminution in the fall very probable. The Commissioner of Uganda, writing Oct. 16, 1899, stated that the water level of Victoria Nyanza Lake stood at that time two feet below the normal, and that the height of the Upper Nile at Wadelai was 4<sup>1</sup><sub>2</sub> feet below average of previous years. He further reported there having been an almost entire absence of rain over all that part of Africa, more especially in the vicinity of Albert Nyanza Lake; so much so that a famine was feared. Last telegrams from the White Nile report an unprecedented lowness of water in that stream. It is consequently not improbable that the expedition which started from Khartoum early in December for the purpose of cutting the Sadd on the White Nile may be forced to abandon this work for the present year, owing to the impossibility of forwarding the necessary supplies for the laborers up the river. The knowledge at present available regarding the water levels of the equatorial lakes and those of the White Nile is insufficient to permit of any reliable forecast being made of the effect that a given level of the above will produce upon the Nile at Assouan.

DOMESTIC EXPORTS OF COTTON MANUFACTURES.—We give below a statement showing the exports of domestic cotton manufactures for December and for the twelve months ended Dec. 31, 1899, and for purposes of comparison like figures for the corresponding periods of the previous year are also presented:

the table the percentages of total port receipts which had been received to Feb. 16 in each of the years named.

THE EXPORTS OF COTTON from New York this week show an increase compared with last week, the total reaching 12,497 bales, against 10,678 bales last week. Below we give our usual table, showing the exports of cotton from New York, and the direction, for each of the last four weeks; also the total exports and direction since Sept. 1, 1899, and in the last column the total for the same period of the previous year.

EXPORTS OF COTTON (BALES) FROM NEW YORK SINCE SEPT. 1, 1899.

### BREADSTUFFS.

FRIDAY, Feb. 16, 1900.

Reflecting an upward turn to values for the grain, the market for wheat flour has shown a airly firm tone and there has been a slight advance in winter patents, which have been selling at comparatively low figures. Business has been only very moderate, as there has been compara-tively little demand locally from exporters, and there has been no snap to the demand from the home trade, City mills have reported a fair trade with the West Indies. Rye flour has continued in fair jobbing demand at steady prices. Buckwheat flour has been in only limited demand and prices have favored buyers. Corn meal has had a fair sale and prices

have been firm in sympathy with an advance in the grain. Speculation in wheat for future delivery has been on a moderate scale only, but there has been a firmer undertone, and prices have advanced slightly. The improvement was most pronounced early in the week and was in response to stronger advices from the Continent and continued reports of damage to the French crop. Wedlesday there was an easier market during early 'Change. European advices were disappointing; there was some selling for foreign account, the export demand continued light and more favorable weather conditions were reported in the winter-wheat belt. At the close, however, the loss was recovered on a demand from shorts to cover contracts, stimulated by a decrease in the world's visible supply and rumors of an improved export demand. Thursday the market was firmer early on stronger Continental advices and further buying by shorts to cover contracts. Subsequently, however, under realizing sales most of the improvement was lost. The spot market has been quiet but prices have advanced. To-day the market was moderately active but at lower prices. Weaker foreign advices, larger shipments from Argentine and realizing sales by recent buyers were the depressing factors. Business in the spot market was quiet and prices were lower. Sales for export here and at outports were 219,000 bags.

The tone of the Liverpool market for spots and futures each day of the week ending Feb. 16 and the daily closing prices of spot cotton, have been as follows,

July delivery in elev day. 694  $69^{3}8$ Speculation in Indian corn futures has been on a broader scale than for some time past, and prices have advanced. Advices from the interior have been decidedly stronger, reporting free buying by strong houses, apparently for investment account, and the country offerings have been reported as very moderate. Foreign advices have been stronger, and although the drought in Argentine is broken, the corn crop there is reported seriously damaged. Business in the spot market has been fairly active, and advices from interior markets have reported large transactions; prices havead vanced. To-day the market was easier under realizing sales. The spot market was quiet and prices declined. Sales for export here and at outports were 160,000 bushels.

FEBRUARY 17, 1900.]

Oats for future delivery at the Western market have been slightly more active and prices have advanced slightly on moderate buying, stimulated by the advance in other grains. The large receivers have been the principal sellers. Receipts have been fairly full. Business in the local spot market has been moderately active, the home trade being a fair buyer, and prices advanced slightly. To-day the market was quiet and easier. The spot market was weaker.

and easier. The spot market w

### THE DRY GOODS TRADE.

#### NEW YORK, FRIDAY, P. M., February 16, 1900

Business has further increased this week in the cotton goods market, but there has been no large individual buying. and the improvement is evidently due to the growth in pressing requirements on the part of jobbers and others. The demand takes care of ready supplies, keeps the market in a generally clean condition, and helps to strengthen the tone. The chief influence in the latter connection has, however, again been the market for raw cotton, to which sellers if not buyers are giving due weight. It is causing them to act with much reserve in business for future delivery, and instances are frequent where they refuse to consider any bids without first submitting them to their manufacturers. There have been advances in prices also in a number of staple lines, and recent indications of a somewhat easier tendency have quite disappeared. The jobbing trade here and elsewhere continues active and the supplementary demand for the rest of the season should be large enough to take care of all the production not already under contract. Business in woolen goods has been irregular men's wear Business in woolen goods has been irregular, men's wear goods ruling quiet but dress goods active. WOOLEN GOODS.—The demand for men's-wear woolen and worsted fabrics has been irregular this week. Some lines of fine fancies have been in fair request, but business in medium and low grade goods has been indifferent. There are complaints of cancellations heard in some quarters, but most buyers are in a position to stand orders being cut down to some extent and still be secure on their season's production. The tone of the market continues firm. Business in low-

grade cotton-warp cassimeres, satinets and doeskin jeans has ruled quiet at previous prices. Flannels are strong and occasionally quoted 2½ to 5 per cent higher. Blankets also strong. The demand for woolen and worsted dress goods for fall has been on a liberal scale and staple lines are very strong.

DOMESTIC COTTON GOODS .- The exports of cotton goods from this port for the week ending Feb. 12 were 22,746 packages, valued at \$831,245, their destination being to the points specified in the tables below :

The value of the New York exports for the year to date has

The value of the New York exports for the year to date has been \$2,375,712 in 1900, against \$1,849,809 in 1899. The market for brown sheetings and drills is firm, with fair demand. Advances of  $\frac{1}{6}$ c. reported in 4-yard sheetings and of  $\frac{1}{4}$ c. in some export grades of sheetings and drills. Fine grey goods active, with an upward tendency. No change has been made in ducks or browh osnaburgs. Bleached cottons also are unchanged in price and the demand expands but slowly. Wide sheetings and cotton flannels and blankets firm Ouilts advanced  $\frac{21405c}{25}$ . Denims strong and expands but slowly. Wide sheetings and cotton fiannels and blankets firm. Quilts advanced 2½@5c. Denims strong and further advances of ¼@½c. general. Plaids, checks and cheviots generally ¼c. higher. Other coarse colored cottons tending upwards. Kid-finished cambrics occasionally ½c. higher. Staple prints are in fair demand at firm prices, but demand for fancies is indifferent. Ginghams are without change in price in either staples or dress styles, but sellers reserved. Regular print cloths firm at 3¼c., with fair sales. Odd goods in free request and tending upwards Odd goods in free request and tending upwards.

FOREIGN DRESS GOODS.—The market for dress goods is very firm, with some fair orders recorded in high-grade novelties. Silks also firm, but ribbons again irregular. Hosiery quiet but firm. Linens continue strong and against buyers. Burlaps without change.

Importations and Warehouse Withdrawals of Dry Goods The importations and warehouse withdrawals of dry goods

# **Bond Proposals and Negotiations this**

week have been as follows:

Adams, N. Y.-Bonds Defeated-Bond Election.-At the election held on Jan. 4, 1900, the question of issuing \$21,000 3½% 5-26-year (serial) water-works bonds was defeated. We are advised, however, that the proposition to issue these bonds will be again submitted to a vote at the annual election on March 20, 1900.

Alameda (Cal.) School District.—Bond Election Pro-posed.—An election is proposed in this district to vote on the

question of issuing \$35,000 school bonds. Albany, N. Y.—Bond Offering.—Frank R. Palmer, City Comptroller, will sell at public auction at 12 M., Feb. 26, \$120,000  $3\frac{1}{2}$  registered water bonds. Securities will be in denomination to suit purchaser and will be dated Feb. 1, 1900. Interest will be payable semi-annually at the office of the City Treasurer and the principal will mature \$7,500 yearly

on Feb. 1 from 1905 to 1920, inclusive. Albany County, N. Y.—Bond Sale.—On Feb. 15 the \$38,000 4% refunding bonds were awarded as follows: \$6,000 to the Albany Savings Bank at 102'36 and the remaining bonds to Estabrook & Co., New York, \$6,000 at 106'625, \$6,000 at 109'75 and \$20,000 at 111'625. Bonds mature \$1,000 yearly on March 1 from 1901 to 1918, inclusive, and \$20,000 on March 1, 1919. For further description of bonds see CHRONICLE Feb. 3, p. 242

Albion, Mich.-No Bonds to be Issued -This place was discussing the advisability of issuing bonds for an electriclight plant, but we are advised the matter has been given up for the present.

Alexandria County, Va.—Bonds Defeated.—At the elec-tion held on Feb. 13, the proposition to issue \$150,000 road bonds was defeated.

Alleghenv, Pa.-Bond Election.-At the spring election.

#### SEWER BONDS.

Broadway Storm Sewer Dist. No. 1—Bond No. 26. Capitol Hill Sanitary Sewer Dist. No. 1—Bonds Nos. 291 to 310, both inclusive. Downing Avenue Sanitary Sewer Dist. No. 4—Bond No. 19. North Denver Sanitary Sewer Dist. No. 3—Bonds Nos. 264 to 269, both in-

clusive. South Side Sanitary Sewer Dist. No. 1—Bonds Nos. 294 to 298, both inclusive. South Side Sanitary Sewer Dist. No. 2—Bonds Nos. 22 and 23, Thirteenth Street Sanitary Sewer refuncing warrants Nos. 138 to 141, both

#### PAVING BONDS,

Broadway Paving Dist. No. 2-Bonds Nos. 17, 18 and 19. Larimer Street Paving Dist. No. 1-Bonds Nos. 150, 151 and 152. Larimer Street Paving Dist. No. 2-Bond No. 184. Nineteenth Street Paving Dist. No. 1-Bonds Nos. 122 to 129, both inclusive. Nineteenth Street Paving Dist. No. 2-Bonds Nos. 124 to 137, both inclusive

Upon request from the holders of any of the above bonds ten days before the expiration of these calls, the City Treasurer will arrange for their payment at the Mercantile Trust Co., New York City, but not otherwise.

Indian Creek Township, Anderson County, Kan.-Bond Call.-D. M. Reynolds, Township Treasurer, has called for payment Feb. 21, 1900, at the State fiscal agency in New York City, bonds Nos. 1 to 20 (\$500 each), issued Jan. 15, 1887. Kiowa Township, Barber County, Kan.—Bond Call.— H. D. Record, Township Treasurer, has called for payment

Feb. 29, 1900, the question of issuing \$15,000 Melrose Avenue improvement bonds and \$55,090 bonds for the improvement of Termon and Superior Avenues, will be submitted to a vote of the people.

Almonte, Ont.—Debentures Defeated.—At an election held on Jan. 2 the question of issuing \$10,000 4% street-improvement debentures was defeated.

Alton, Ill.-Proposed Purchase of Water Works .- This city is considering the purchase of the water plant of the Boston Water & Light Co.

Atlantic City, N. J.—Bond Sale.—On Feb. 12 the \$16,000 41/2 20 year gold coupon bonds were awarded to Thompson, Tenney & Crawford, New York City, at 112'41-an interest basis of about 3.623%. Following are the bids:

Thompson, Tenney & Crawford.112'41 W. J. Hayes & Sons, Cleve......112'26 Jno. D. Everitt & Co., N. Y......112'13 N. W. Harris & Co., New York..111'04 E. Kleybolte & Co., New York..111'04 John F. Dillon, New York......107'00

For full description of bonds see CHRONICLE Jan. 27, p. 191-Baker City, Ore.—Bond Election Proposed.—The City Council has under consideration the question of calling an

election to vote on the issuance of bonds for a water system.

Baltimore, Md.-Bond Offering.-Proposals will be received until 12 M., Feb. 26, by Thomas G. Hayes, Mayor, for \$875,000 31/2% stock known as "Western Maryland Railroad 1950 refunding loan." This loan was authorized by ordinance on March 9, 1898, with amendment to the same passed Feb. 8, 1900, and will be dated March 1, 1900. Interest will be payable March 1 and September 1.

The city does not tax the above bonds and the State tax is paid by the city.

For description of bonds see CHRONICLE Jan. 27, p. 193. Northampton, Mass.—Temporary Loan.—On Feb. 14 a loan of \$75,000 in anticipation of the collection of taxes was awarded to the Third National Bank of Boston at 3.29% interest. Following are the bids received :

are in denomination of \$500, dated Feb. 26, 1900. Interest will be payable semi-annually at the office of the County Treasurer. Principal will mature \$1,500 yearly on Feb. 26 from 1901 to 1903, inclusive. Bonds are issued under author-ity of Section 4482, Revised Statutes of Ohio. A certified check or a certificate of deposit on a banking company of Port Clinton, Elmore, Oak Harbor or Fremont, payable to the County Auditor, in the sum of \$500 will be required with

each proposal. Paterson, N. J.-Bonds Proposed.-A bill has been introduced in the State Legislature empowering this city to issue \$50,000 bonds to rebuild sewers.

Pawtucket, R. I.-Bonds Authorized by Legislature.-The General Assembly has granted to this city authority to

issue \$100,000 sewer and water bonds. Pembroke, Ontario.—Debentures Authorized.—The Town Council has authorized the issuance of \$30,000 4% 1-30-year debentures for the purchase of the electric-light plant. These securities will be dated Sept. 15, 1900, and will mature-\$1,734 90 (principal and interest) yearly on Sept. 14 from 1901 to 1930, inclusive. As negotiations will first have to be madefor the purchase of the existing electric plant (as provided by law), these debentnres will not be offered for sale until some time in September. Securities were anthorized by a vote of the people on Jan. 1, 1900.

Phoenix, Ariz.-Bond Election.-The City Council has passed a resolution calling an election on Feb. 23, 1900, for the purpose of voting upon the issuance of \$270,000 5% 15-30-year water bonds and \$125,000 5% 15-30-year sewer bonds. The question of issuing \$265,000 water and sewer bonds was sub-mitted to a vote of the people in January, 1899, but the proposition met with defeat.

Phoenixville, Pa.-Bond Election.-At the spring election,. Feb. 20, the question of issuing \$190,000 bonds to refund the outstanding bonded debt of \$173,500 and to fund the floating debt of \$16,500 will be voted upon. The new bonds, if authorized, will be in denomination of \$1,000, dated April 1, 1900. Interest will be at the rate of  $3\frac{1}{2}$ %. payable semi-annually. Principal will mature \$90,000 in 10 years, subject to call after 5 years, and \$100,000 in 25 years, subject to call after 15 years.

Pomona, Cal.-Bond Election.-We are advised that the election to vote on the question of issuing \$30,000 sewer bonds will be held about May 1, 1900.

Ouincy, Mass.—Bonds Proposed.—This city seeks legis-lative authority to issue outside of the debt limit \$300,000 for the purpose of making sewer extensions.

Ravalli County, Mont.—Bond Election.—An election will be held on Feb.20, 1900, to vote on the question of issuing bonds for a court-house.

Reading, Ohio.-Bond Election.-Citizens of this place will

vote on March 8, 1900, on the question of issuing \$60,000 street and sewer bonds and \$10,000 electric-light bonds. Red Lake County, Minn.—Bond Election.—An election will be held on Feb. 24 to vote on the question of issuing \$10,000 5% 20-year court-house bonds.

Redondo, Cal.—Bond Electron Proposed.—An election is proposed in this city to vote on an issue of probably \$40,000 bonds for improvement of streets, sidewalks and sewers.

Roswell (N. Mex.) School District.—Bond Offering.—Pro-posals will be received until April 1 (so in advertisement) by Harry Carmack, Clerk of the Board of Education, for \$25,000 4% 20-30 year school bonds. Interest will be payable semiannually.

Russell County, Va.—Bond Bill Passes House —The House of the General Assembly has passed a bill permitting the Board of Supervisors to borrow money for road and bridge purposes.

Saginaw, Mich.-Bond Offering.-Proposals will be received until 2 P. M. to-day (Feb. 17) by Arthur F. Lewis, City Comptroller, for \$10,000 4% refunding water bonds. Securi-ties are in denomination of \$1,000, dated March 1, 1900. Interest will be payable semi-annually from March 10, 1900, at the office of the City Treasurer. Principal will mature March 10, 1920. A certified check on some Saginaw bank or New York draft, payable to the City Treasurer, for 2% of the par value of bonds bid for must accompany each proposal. Bond Election.— An election will be held in this city to

vote on the question of issuing \$75,000 bonds for a municipal lighting plant.

North Bend, Ohio.-Bond Election.-The Village Council has passed a resolution submitting to a vote of the people on March 3, 1900, the question of issuing \$12,000 bonds for a village hall.

Norwood, Ohio.-Bond Election.-An election will be held on Feb. 19 to vote on the question of issuing \$151,000 bonds for various improvements.

Oakley, Ohio.-Bond Election.-An election has been called for Feb. 26 to vote on the question of issuing \$44,000 bonds for various improvements.

Oskaloosa, Iowa.-Bonds Defeated.-At the election held on Dec. 26, 1899, the question of issuing bonds for a waterworks system was defeated.

Ottawa County (P. O. Port Clinton). Ohio.-Bond Offering. -Proposals will be received until 1 P. M., Feb. 20, by E A. Proposals must be accompanied by a certified che Powers, County Auditor, for \$4,500 5% bonds. Securities to order of Town of Salem, for 5% of amount bid.

ICLE Oct. 28, 1899, we stated that a \$100,000 bond issue was being considered for a water-works system. Since then the city has taken no further action in this matter, and we are now advised that the probabilities are that the present water company will be given a new franchise, and therefore bonds will not be necessary for this purpose.

Salem, Mass.-Bond Sale.-We are advised that the bridge loan for \$7,547 93 recently authorized has been taken by the Water Loan Sinking Fund of Salem as an investment. Bondsbear 31/2% interest and mature \$1,907 93 on July 1, 1901, and \$1,880 yearly thereafter until paid.

Salem (Town), Va.—Bond Offering.—Proposals will be received until 6 P. M. March 10, by J. C. Langhorne and J. H. Duncan Committee, for \$34,000 4% gold coupon refunding bonds. Securities will be in denomination of \$500; interest will be payable in April and October at the office of the Town Treasurer or in New York City. Principal will mature April 1, 1920, subject to call after April 1, 1910. Proposals must be accompanied by a certified check, payable

Sait Lake City, Utah.-Loan Defeated.-The election held on Jan. 20, 1900, to vote on the question of permitting the Board of Education to borrow \$20,000 in order that a full school year of nine months may be had resulted in the defeat

of the proposition by a vote of 350 for to 1,410 against. San Bernardino School District, San Bernardino County, Cal.—Bond Sale.—On Feb. 8 the \$13,000 4% gold school bonds were awarded to Isaac Springer, Pasadena, at par. this being the only bid received. Bonds mature yearly on March 1, \$5,000 each in 1906 and 1907 and \$3,000 in 1908.

San Luis Obispo County (Cal.) Road Districts.—Bonds Defeated.—At the election held on Jan. 9 in District No. 3, town of Cayucos, and District No. 17, town of Templeton, the question of issuing \$12,000 41/2% road bonds failed to carry. Schengetedy, N. V. Bond Sala, On Feb 10 the \$40,741 28

Schenectady, N. Y.-Bond Sale.-On Feb. 10 the \$40,741 28 4% paving notes were awarded to the Schenectady Savings Bank at 101.98. Following are the bids:

Premium. Schenectady Savings Bank... \$808 72 W. J. Hayes & Sons, Cleve.... 439 00 For full description of bonds see CHRONICLE last week, p.

294

Shawnee, Ohio.—Bonds Proposed.—Electric-light plant bonds to the amount of \$25,000 will be voted upon if the bill now before the State Legislature becomes a law.

South Haven. Mich.—Bond Offering.—Proposals will be received until Feb. 21 for \$10,000 4% electric light-plant bonds. Securities were authorized at an election held on Feb. 7 by a vote of 272 to 69. Principal will mature \$1,000 yearly, beginning March 1, 1903.

Springwells Township, Mich.—Bond Sale.—On Feb. 3 the \$20,00) 4% 20-year gold bonds were awarded to the German-American Bank of Detroit at 106-an interest basis of about 3.577%. - For description of bonds see CHRONICLE Feb.

3, p. 246. Streator (III.) School District.—Bonds Voted.—This district recently voted to issue \$33,000 bonds for a new school house.

Sunflower County. Miss.—Bond Bill Passed by Legisla-ture.—Refunding railroad aid bonds to the amount of \$75,000

have been authorized by the Legislature. Syracuse (Neb.) School District No. 27.—Bond Sale.—The \$10,000 4½% refunding bonds mentioned in the CHRONICLE

Jan. 27 have been sold at private sale to Nelson C. Brock,

Lincoln, at par. Tacoma, Wash.—Bond Bids — We are advised by wire that Seymour Bros. & Co., New York City, bid for the entire \$1,-200,000 refunding bonds of this city, advertised for sale on Feb. 14, and that the Quaker City National Bank bid for \$100,000 of the bonds, both proposals being for 5% securities. The award has not yet been made. These bonds were de-scribed in full in the CHRONICLE Jan. 20, p. 143. Toledo, Ohio.—Bond Election Proposed.—A bill recently introduced in the State Legislature provides for an election

introduced in the State Legislature provides for an election to vote on the question of issuing \$200,000 bonds for the im-

provement of Bay View Park. Union Bridge, Carroll County, Md.—Bond Bill Passed by Legislature—The State Legislature has granted to this town

authority to issue redemption bonds. Union County (P. O. Marysville), Ohio.—Bond Offering. —Proposals will be received until 12 M. Feb. 26 by the County Commissioners, for \$35,000 5% 5-year ditch bonds. Securities are in denomination of \$500, dated March 1, 1900. Interest will be payable semi-annually at the office of the County Treasurer. Bonds are issued under authority of Sections 2, 4479, 4480 and 4482, Revised Statutes of Ohio. Edward M. Fullington is County Auditor. Utica (Town), N. Y.—Bond Sale.—On Feb. 12 the \$20,000

5% 1 year bonds were awarded to Isaac W. Sherrill, Pough-keepsie, at 100.275 — an interest basis of about 4.711/2%. Other bidders were J. G. Gibson of Utica and the Utica Trust & Deposit Co. For full description of bonds see CHRONICLE last week, p. 295.

Vineland, N. J.-Bond Election.-An election will be held on Feb. 27 to vote on the question of issuing \$140,000 water and sewer bonds.

Waco, Texas.—Bonds Registered.—The State Comptroller on Feb. 6 registered an issue of \$16,000 improvement bonds.

Warrenton, Va.—Bonds Authorized by House.—The issu-ance of refunding bonds is provided for in a bill recently passed by the House of the State Assembly.

Washington County, Va.—Bond Bill Passes House.—Road and bridge repair bonds may be issued by this county if the bill recently passed by the House of the General Assembly receives the sanction of the Senate.
