run details of clearings for the above statement will be given next Saturday. We cannot, of course, furnish them to-day, bank clearings being made up by the various clearing houses at noon on Saturday, and hence in the above the last twenty-four hours of the week have to be in all cases estimated, as we go to press Friday night. We present below our usual detailed figures for the previous week, covering the returns for the period ending with Saturday noon, June 16. and the results for the corresponding week in 1899, 1898 and 1897 are also given. In comparison with the preceding week there is a decrease in the aggregate exchanges of twenty-five million dollars, the loss at New York being twenty millions. Contrasted with the week of 1899 the total for the whole country shows a decline of 12.3 per cent. Compared with the week of 1898 the current returns record a gain of 19.9 per cent, and the excess over 1897 is 45.4 per cent. Outside of New York the increase over 1899 is 7.7 per cent. The excess over 1898 reaches 27.4 per cent, and making comparison with 1897 the gain is seen to be 46.5 p. c.

### THE FINANCIAL SITUATION.

All the developments of the week have been such as to emphasize those features of the situation which have been dominant factors for quite a while, and which for the time being militate against buoyancy either in trade or in financial circles. The holding of the Republican Convention at Philadelphia this week has served as a reminder that from now until next November the Presidential campaign will be a distracting event. The election of the ticket nominated at that Convention is of course a foregone conclusion. At the same time the canvass is sure to be a warm one and to excite much interest. Furthermore, the fact that the opposition party, which counts among its adherents such a large part of the voters of the country, is certain to name the same candidate and to promulgate the same platform of principles as four years ago is not an exhilarating circumstance. Bryanism is objectionable not merely because it stands for false monetary doctrines, but because it embodies conceptions which, if carried out, would be destructive alike of social order and of sound morals. Hence while the outcome is not at all in doubt, the fact that these pernicious principles are to be flaunted before the public for a period of several months and to be advocated from the stump and on the platform necessarily serves as a damper on enterprise.

The cut announced in the price of structural steel gives prominence to one of the other features of the situation which are responsible for the present quiet We refer to the readjustment of state of things. values which is in progress growing out of the reaction in trade. The price of steel beams at tidewater has been marked down from \$48 a ton to \$41, and the price of angles from \$48 to \$39. That this reduction by no means endangers the margin of profit is evident from the quoted remark of one of the manufacturers to the effect that cut could hardly be called a severe one, the but was considered a good move. The "Iron Age" of this city notes that branch after branch of the iron trade is falling into line, with prices on a lower level. Those governed by associations or by trade agreements, it says, are yielding to the inevitable as well as those in which competition has been free and unrestrained. This of course is satisfactory rather than the reverse. In the iron and steel trades prices, as we know, advanced to figures where profits were simply extraordinary. But in nearly all other industries and branches of trade closely similar conditions have prevailed, the high prices checking consumption and stimulating production. During the last few months a readjustment of prices to a lower basis has been in progress, accompanied in some lines

and political situation here outlined there is added the alarming developments in China, so pregnant with possibilities whose nature no one can foresee, the continued exports of gold, and the unfavorable crop accounts which have this week come to hand, it is perhaps not surprising that prices on the Stock Exchange should have evinced a marked downward tendency. The volume of business on the Exchange has increased decidedly, but the activity has been at the expense of values. All through the week the market has been more or less depressed, with sharp declines in special stocks. The rallies have only been fitful and occasional.

The prospect for the crops is without question a matter of great importance. The appreciation in the market price of wheat which has recently occurred, amounting since June 5 to 16@17 cents per bushel, is pretty clear evidence that that crop has suffered substantial damage. It is also true, however, that the rise established this week has had other contributing causes, chief among these being the situation in the Far East and the reports of a shortage in the French wheat crop. Nevertheless all accounts agree in saying that the spring-wheat yield has been seriously cut short and that the outlook latterly has grown worse rather than better. The Government weekly report is accepted as throwing much light on the situation, and this showed that the rains of last week were altogether too scant and scattered to furnish much relief from the long-continued drouth. It is manifestly impossible to express definite conclusions as yet as to the outcome. In the districts which have suffered most harm the shortage may have important consequences. Except locally, however, and especially in its influence upon the country as a whole, the effects, it seems to us, are more likely to be over-estimated than under estimated.

It should be remembered that the further damage now being done is confined entirely to the spring-The winter-wheat crop is practically wheat area. made. It is true that in certain portions of the winterwheat belt the crop is also poor (though from a different cause), Indiana and Ohio showing the worst prospect in over a generation; but the loss here is more than offset by the splendid harvest in Kansas, Oklahoma and Texas, where the yield is of extraordinary magnitude and now being gathered. By reason of this latter fact the indications on the 1st of June were that the winter-wheat crop the present year would be 40 to 50 million bushels better than that of last year. Even in the case of the spring-wheat crop a distinction must be made between the different parts of the spring wheat area. The portion where the greatest damage has been inflicted appears to be the Dakotas and Minnesota, more particularly on the extreme north, the Red River Valley country being the worst sufferer. This constitutes the most important part of the spring-wheat belt, but it does not constitute the whole of it. In Nebraska farmers look for a much larger crop than last year, and in Iowa, also, the prospect is by no means discouraging. Bearing all this in mind, later advices and further developments must obviously be awaited before we can definitely conclude that this year's production of winter and spring wheat combined is to fall very much below last year's yield, which was an average though not a large one. We need hardly say that to the railroads and to the general

also by a curtailment of output. In not a few in- an stances the declines have been severe.

This movement, while it is under way, is obviously disturbing and unsettling. Nevertheless it is healthful and corrective, and in the end is certain to prove beneficial. In fact some of the benefits are already becoming apparent. We know of some plans for large buildings which were long held in abeyance because the contractors felt unwilling to make bids while the prices of materials were rising from day to day, but where contracts have now been executed and work has been begun. In the export trade the lower level of values will strengthen our hold on foreign consumers. When to the trade that part of the spring wheat area where wheat constitutes the main crop), the corn crop is of vastly more importance than the wheat crop. As to the probabilities for that crop it would be idle to speculate at this early day. We may say, however, that the very largest corn crop ever produced in the United States was raised in 1896, when the wheat crop was an ex. ceptionally poor one.

Some disappointment has been expressed in certain quarters because the directors of the Northern Pacific Railway, at their meeting last Friday, made the dividend on the common shares only 1 per cent instead of 1 per cent plus 1 extra as was done last February. It seems to us that this action was wise and for the best interests of the shareholders. The statement submitted for the year was an excellent one, and showed that the income of the twelve months would readily admit of the payment of the extra one per cent. But obviously that is not the only point to be considered. After allowing for the one per cent now declared and the two per cent paid last February (three per cent altogether for the year on the common shares), there is a surplus on the operations of the twelve months of \$1,925,755, whereas the extra one per cent would require only \$800,000. Obviously, however, the crop and the business situation both suggest caution in placing a property on a dividend basis which it may not be possible to maintain. As we said on a previous occasion with reference to another company, to raise the rate of distribution now only to have to reduce it again a short while hence, would neither conduce to the advantage of the shareholders nor tend to promote the company's credit. As far as the general industrial outlook is concerned, all that can be affirmed is that a reaction in trade is in progress and that the Presidential campaign will tend, as above explained, to keep our industries in a quiet state for the next few months.

With reference to the crop prospects in Northern Pacific territory it is possible to speak with considerable positiveness. President Mellen is quoted as saying that "the crops in the Northwest are not looking as well as we would like to see them." This remark might be made a great deal stronger in its application to the Northern Pacific. The spring-wheat crop has suffered most severely in the Red River Valley and the northern part of Minnesota and North Dakota, just the sections of the country where so large a part of the mileage of the Northern Pacific lies. The further deterioration of the crop in those sections, since the board acted on the dividend question last Friday, shows that they did not misjudge the situation. Northern Pacific earnings have risen enormously during the last few years, as the result of excellent management and the favorable conditions experienced. With conditions now less satisfactory in the particulars mentioned, it would not be at all strange if a somewhat lower level of income should again be reached during the ensuing fiscal year. The directors are to be commended for having kept this contingency in view. It is to be remembered that the present management of the Northern Pacific have from the first followed a conservative course, one of their first acts having been the setting aside of a fund of \$3,000,000 to ensure the continuance of dividends on the preferred shares. Their latest step is merely in line with the same policy.

The death of H. Walter Webb so soon after the passing away of Cornelius Vanderbilt shows some of the sacrifices that often attend the management of large business interests and corporations. In both cases close and unremitting attention to duties may be said to have contributed in no small degree to the cutting short of lives of eminent usefulness. Mr. Vanderbilt preferred to devote himself to the upbuilding of the great corporations which had come to him as a heritage rather than follow a life of indolence and ease, which his means would have permitted him to do. Mr. Webb completely broke down his health in directing New York Central affairs for eight years as Third Vice-President. Two years ago, by reason of this fact, he was obliged to lay down the cares of the office, and he dies at the age of only forty-eight years. Mr. Webb had a distinguished business career even before he became identified with the Central, but he will be chiefly remembered for what he accomplished in the management of that great railroad, and on which he has left a lasting impress. Current newspaper comment assigns an unusually prominent place to the part played by him at the time of the strike on the Central in 1890. That was an unpleasant episode which it was impossible to avert, and which he handled with the skill and firmness which such exigencies always require. But if his fame rested on no broader foundation than that, it would hardly be enduring. The truth is, he made his influence felt everywhere in the operating department of the road, displaying extraordinary ability and aptitude for the practical side of railroad work. In fact, he may be said to have been the author of that progressive policy which has distinguished the management of the Central during the last decade, and which under President Callaway has been carried still further and is being extended to all departments of the service.

While there has been no change in the official rates of discount at the European centres this week, a notable feature has been a rise in the open market quotation for gold at London to 77 shillings  $10\frac{1}{2}$  pence per ounce for bars and to 76 shillings 5 pence per ounce for American eagles, in consequence of the demand for gold at Berlin. The Bank of Bombay, at Bombay, which last week reduced its rate of discount from 6 per cent to 5 per cent, made a further reduction in the rate this week to 4 per cent. The statement of the New York Associated banks last week showed a net loss of \$367,300 in cash, specie decreasing \$1,335,-000 and legal tenders increasing \$965,700. Loans were augmented \$3,248,300, making a new high record, and deposits were increased \$2,024,800. The surplus reserve was reduced by \$875,500, now standing at \$17,-498,750. The applications at the Treasury for the

exchange of refundable bonds for the new 2 per cents amounted at the close of business on Thursday to \$301,433,700, of which applications \$227,602,950 came from banks.

Money on call, representing bankers' balances, has loaned at the Stock Exchange during the week at  $1\frac{3}{4}$ per cent and at 1 per cent, averaging about  $1\frac{5}{8}$  per cent. On Monday, Tuesday and Wednesday loans were made at  $1\frac{3}{4}$  per cent and at  $1\frac{1}{2}$  per cent, with the bulk of the business at  $1\frac{3}{4}$  per cent. On Thursday transactions were at  $1\frac{3}{4}$  per cent and at 1 per cent, with the majority at  $1\frac{1}{2}$  per cent. On Friday loans were at 1<sup>2</sup>/<sub>4</sub> per cent and at 1<sup>1</sup>/<sub>2</sub> per cent, with the bulk of the business at  $1\frac{1}{2}$  per cent. Banks and trust companies quote 2 per cent as the minimum, though some institutions meet the market at the Stock Exchange and loan at  $1\frac{1}{2}$  per cent. Time loans are in better demand, especially for long periods, and rates are more tirmly held. One feature is an indisposition on the part of lenders among the banks to make engagements which will mature after the end of the year. Quotations are 3 per cent for sixty to ninety days,  $3\frac{1}{2}$  per cent for four and  $4@4\frac{1}{2}$  per cent for five to six months on good mixed Stock-Exchange collateral. Commercial paper is in fair demend, but the inquiry from city buyers is light. Quotations are  $3\frac{1}{2}@3\frac{3}{4}$  per cent for sixty to ninety-day endorsed bills receivable,  $3\frac{3}{4}@4\frac{1}{4}$  per cent for prime and  $4\frac{1}{2}@5\frac{1}{2}$  per cent for good four to six months' single names. One feature of the week was the reported offering of any part of \$10,000,000 on first class improved city real estate on 50 per cent of its valuation at  $3\frac{1}{2}$  per cent. While inquiry among real estate brokers has failed to verify the report as to the amount offered, it has been ascertained that mod. erate sums of money are obtainable at the rate The borrower would be required to pay 1 named. per cent for the lawyer's fee and  $\frac{1}{2}$  of 1 per cent brokerage, which would make the rate for the first year 5 per cent, but loans extending over a period of five years would, at the above-named rate, average 3.80 per cent.

Military operations in South Africa during the week indicate some progress, though no very important results appear to have been secured. General Buller is reported to be moving, with the object of cutting off communication between President Steyn and General De Wet's forces in the Orange River Colony and General Botha's army in the Transvaal, and completing the movement to surround these armies. The news from China early in the week announced the capture of the Taku forts by the allied forces on the 17th. The Chinese attacked the fleet in the river, whereupon the ships bombarded the forts and a force was then landed, which had a successful engagement with the garrisons. The American contingent does not appear to have participated. Reports from Chinese sources state that the legations at Pekin were safe on the 17th and that the British relieving force under Admiral Seymour had arrived at the Chinese capital. Alarming reports continue to be received concerning the situation at Pekin, and nothing of an official character has come from the American or other foreign ministers. The Ninth Infantry has been ordered to China from Manila, and Russian and Japanese reinforcements have arrived at Taku preparatory to a movement upon Tien Tsin. A dispatch from Admiral Kempff says that Tien Tsin was bombarded by the Chinese and that the American Consulate has been destroyed. Tien Tsin, it may be noted, is on the Pechilli River and is the seaport of Pekin district. The Bank of England's minimum rate of discount remains unchanged at 3 per cent. The cable reports discounts of sixty to ninety day bank bills in London 25 per cent. The open market rate at Paris is  $2\frac{1}{5}$  per cent, and at Berlin and Frankfort it is  $5@5\frac{1}{5}$ per cent. According to our special cable from London the Bank of England gained £1,006,852 bullion during the week and held £33,745,101 at the close of the week. Our correspondent further advises us

that the gain was due to the receipt of £664,000 net from the interior of Great Britain, imports of £1,-062,000 (£500,000 from India which had previously been "earmarked," £500,000 from Russia, £50,000 from Egypt, and £12,000 from Australia), and to exports or £719,000—£345,000 going to Germany, £200,000 to the Cape, £102,000 to France, £38,000 to India, £20,-000 to Roumania, and £14,000 miscellaneous.

The foreign exchange market has been lower this week, influenced chiefly by a pressure of sterling drawn against gold exports to Berlin and Paris and also by an absence of demand. The market has not been active, prices gradually sagging under the weight of offerings. Commercial bills continue in very light supply. The reason assigned for the movement of gold to Germany is that there was an urgent demand for the metal at Berlin in order to prepare for the July settlements, and that the banks at that centre were willing to pay a premium for the gold. The exchange against the shipments was drawn upon London, which will account for the influence upon the market for sterling. The movement to Berlin seems to have begun on Thursday of last week, when \$1,000,-456 37 of Heidelbach, Ickelheimer & Co.'s consignment of \$1,501,123 52 gold bars shipped on that day was forwarded on the Hamburg steamer. On Tuesday the above-named firm shipped \$2,000,443 91 in gold bars to Germany and the National City bank sent \$497,672 17 in bars and \$500,000 in gold coin, which was taken from its vaults, to the On Thursday the National City same destination. Bank shipped \$503,037 97 in bars to Germany and Lazard Freres forwarded \$612,918 47, also in bars, to Paris. This makes a total of \$4,114,072 52 in gold bars and gold coin exported for the week and \$18,-148,788 78 since April 26. Rates for exchange were so low on Thursday that further shipments were regarded as improbable, and moreover the demand then from Germany at least seemed to have subsided. It was thought likely, however, that some gold would. be shipped to Paris on Thursday of next week. Gold received at the Custom House for the week, \$10,925. The Assay Office paid \$625,432 71 for domestic bullion.

Nominal rates for exchange were  $4.85\frac{1}{2}$  for sixty day and  $4.88@4.88\frac{1}{2}$  for sight early in the week, but on Wednesday they were 4 85@4 85½ for the former and 4 872 @4 882 for the latter, and on Thursday the higher figure for sight was reduced half a cent. Rates for actual business opened on Monday at a reduction of one-quarter of a cent for long and for cables, compared with those at the close on Friday of last week, to  $4\ 84\frac{1}{2}@4\ 84\frac{3}{4}$  for the former and  $4\ 87\frac{1}{2}@4\ 87\frac{3}{4}$  for the latter, while short remained unchanged at  $4.87@4.87\frac{1}{4}$ . The tone was easy. On the following day rates for actual business for long unchanged, while those for short remained and for cables fell one-quarter of a cent to 4.863@4.87for the former, and to  $4 S7\frac{1}{4}@4 S7\frac{1}{2}$  for the latter, in consequence of offerings of bills against gold exports. On Wednesday the market was steady and the only change was an advance of one-quarter of a cent in cables, to 4 874, 64 874. On Thursday the tone was weak in the absence of demand, and rates for actual business for long declined half a cent to 4 84@4 844, while those for short and for cables fell one-quarter of a cent, to  $4 86\frac{1}{2}@4 86\frac{3}{4}$  for the former and  $4 87\frac{1}{4}@4 87\frac{1}{4}$ for the latter. The market was easy on Friday, though not quotably lower. The following shows daily posted rates for exchange by some of the leading drawers.

+ The Anstro-Hungarian Bank Statement is now issued in Kronen and Heiler Instead of Gulden and Kreutzer. The reduction of the former currency to sterling  $\pounds$  was by considering the Gulden to have the value of 50 cents. As the Krone has really no greater value than 20 cents, our cable correspondent in London, in order to reduce Kronen to  $\pounds$ , has altered the basis of conversion by dividing the amount of Kronen by 24 instead of 20.

### THE REPUBLICAN CONVENTION.

It has so long been taken for granted that Mr. Mc-Kinley would be renominated by his party for the Presidency that the question of that part of the pro-

a century has been able to escape. Franklin, with his keen common sense and humor, pointed out as long ago as the Constitutional Convention the weakness of the Vice Presidential plan when he proposed for that officer the formal title of "Your Most Superfluous Excellency." The general understanding of the early days of the Republic was, however, that the Vice President, who was then by law the electors' second choice for President, should succeed his chief at the expiration of the term. Thus, Adams was Vice-President under Washington and President after him; Jefferson similarly served under and succeeded Adams. This plan gave to the Vice Presidency a real but unnatural importance, which largely disap. peared after the Constitutional Amendment of 1801, which repealed the law granting the second office to the candidate polling the second largest number of votes for President. Yet, as lately as 1836, a Vice-President under one administration was accepted throughout the party as the fore-ordained candidate in the next contest for the Presidency.

Even this enlargement of the dignity of the office came to an end after Mr. Van Buren had succeeded General Jackson. From that time to the present year the Vice-Presidential nomination has been settled by one of four principles. It was sometimes bestowed, as happened in 1884 with General Logan and with Mr. Hendricks, on a defeated candidate for the Presidential nomination who no longer counted the higher honor as a probability. More frequently, as in the case of Mr. Fillmore in 1848, of Mr. Hamlin in 1860, Mr. Johnson in 1864, Mr. Colfax in 1868, and Mr. Thurman in 1892, the Vice Presidential candidate was selected distinctly with the view of strengthening the ticket through his geographical location and political influence. Once or twice a politician whose own candidate had been rejected was allowed to name the Vice-Presidential nominee. Mr. Conkling thus named General Arthur in 1880. This method of selection was never practiced before the days of modern party leadership, and has for various reasons never been popular in recent times. The fourth method of selection bade fair at one time to fix the rule for the conventions of 1900-the naming of a candidate of high character and strong influence in the business world, who could add to the ticket a stability in the eyes of conservative voters, which the name of a politician cannot always give. On this basis, Mr. Wilson was named for the Vice-Presidency in 1872, Mr. Morton in 1888, and Mr. Hobart in 1896, and the recent movement to nominate Mr. Cornelius N. Bliss, which was checked only by Mr. Bliss's personal withdrawal, was inspired by similar motives.

Since 1836, with very rare exceptions-Mr. Morton being one-no public man who has served a Vice-

Presidential term has subsequently been chosen either gram hardly attracted interest when this week's Reto the Presidency or to any other important elective publican Convention assembled at Philadelphia. In office. This result has been partly accidental, partly current discussion it had also been expected that the a consequence of the peculiar rules followed in the Vice Presidency would be disposed of with similar selection of the Vice-President. There is no conlack of excitement, and possibly this expectation vincing reason why a public man of force and ability would have been realized but for the unwillingness of the most promising candidates to submit their names. should lose the support of nominating conventions. The anomalies of this office, highest but one in a tituand voters merely because he had served four years as. presiding officer in the Senate. Nevertheless, the lar way of all the honors our people have to bestow, but fact grew into so firmly-rooted a tradition that it so lacking in actual power and opportunity that amhas served to discredit the office in the eyes of all bitious leaders shrink from it, have created a series aspiring statesmen. The curious chain of circumof very curious traditions regarding the nomination, stances by which, in the face of his own protests, from which no nominating body for three quarters of '

Governor Roosevelt has been virtually forced to accept the nomination at Philadelphia, will test the validity of this tradition. Mr. Hobart was frequently called into council by the President and possessed at Washington a real influence in public matters unknown to most of his predecessors in This went to show that the man the office. with proper judgment and capacity may possibly make of the Vice-Presidency more than the public has commonly looked for in it. The peculiarly interesting problem, from a personal point of view, is whether so active and restless a public man as Mr. Roosevelt, if he were to be elected, can impart to his place anything more than the conventional dignity expected from a public officer who has ordinarily no vote on legislation, no voice in the Cabinet, and no power of appointment. As regards the strategic wisdom of the nomination, considered from the party's view alone, of this there can be no doubt. Mr. Roosevelt's personality and military career have made him extremely popular in sections of the Union where his party stands in most need of popular support. The nomination will, for one thing, lend curious interest to the question whether the Democratic Party will attempt to offset these advantages by naming for the second place upon its ticket a candidate with somewhat similar record.

The remarkable contest over the Vice-Presidential nomination at Philadelphia has diverted attention largely from the platform of the Convention. Yet there are declarations in this document which may rise to supreme importance in the coming contest. Chief among these is the financial plank, which is unique in the whole list of Presidential platforms, with the single exception of the National Democrats in 1896, in affirming without qualification the gold standard of currency. This is the Republican Convention's pledge on the problem of the currency :

"We renew our allegiance to the principle of the gold standard, and declare our confidence in the wisdom of the legislation of the Fiftysixth Congress, by which the parity of all our money and the stability of our currency upon a gold basis has been secured.

"We declare our steadfast opposition to the free and unlimited coinage of silver. No measure to that end could be considered which was without the support of the leading commercial countries of the world."

This declaration must be read in contrast with the party's "money plank" in previous Presidential years. In 1896 the party declared itself "opposed to the free coinage of silver," but with the qualification "except by international agreement with the leading commercial nations of the world, which we pledge ourselves to promote." In 1892 the equivocal promise familiar to previous platforms was recorded, for "the use of both gold and silver as standard money." Four years before, in 1888, the party declared that it "is in favor of the use of both gold and silver as money, and condemns the policy of the Democratic Administration in its efforts to demonetize silver." In 1884

fortunate results of this position were seen in the legislation which followed the inauguration of a Congress committed by its party's convention declarations. Year after year the free-coinage element in Congress claimed that the platform committed the majority to the policy of open mints for silver, while the gold-standard element contended that it did not. The money plank itself being a compromise, the natural result was compromise legislation; from which fact developed such sources of financial mischief as the Bland Silver Coinage Bill of 1878 and the Silver-Purchase Law of 1890, not to mention a host of still more radical bills on the subject, whose prolonged consideration at Washington unsettled business confidence, even though in the end they failed of enactment. The money plank adopted at Philadelphia brushes away all such disturbing inferences. It does not even commit the Administration, as did the platform of 1896, to promoting efforts at international arrangements which were foredoomed to failure, and were therefore little short of diplomatic absurdities. Last Wednesday's platform leaves no doubt as to the real position of the party on that part of the financial question.

This declaration is so supremely significant in the work of the Convention that the rest of the platform is in reality of minor importance. The trust plank is more conservative than the legislation proposed in the closing days of Congress, and displays more courage and intelligence than is expected in platform outgivings on such questions, when, while condemning attempted monopolies in trade, it formally recognizes "the necessity and propriety of the honest co-operation of capital to meet new business conditions, and especially to extend our increasing foreign trade.' As was to be anticipated, the tariff plank does little more than refer to the past, thus tacitly recognizing the fact that, with our new advance in competitive commerce and manufactures, the protective tariff theory is no longer a question of the day. The platform shows, however, that above all these special declarations the Administration Party is appealing for support on the ground that prosperity has accompanied its four years of power. The argument may not be in all respects as convincing to the experienced student of the markets as it is to the uninstructed voter; for legislative policy was as powerless to create or influence the rich home crops and foreign shortage of 1897 as it was to affect the foreign over-production of grain, along with the corn crop failure at home, in 1894. Nevertheless, the argument is vastly effective, as a rule, in popular elections, and it will doubtless play a very important part in the canvass of 1900, as it did in those of 1880 and 1872.

the party's platform urged "that an effort be made to unite all commercial nations in the establishment of an international standard which shall fix, for all, the relative value of gold and silver coinage."

We make no sweeping condemnation of these decclarations in the past. Most of them were honestly made, and under some circumstances would have been entirely statesmanlike and proper. But in the circumstances which existed as regards the popular attitude on the currency, these declarations, which fairly represent the platforms of both parties, were accepted universally as a concession to the free-coinage sentiment, or at least as a compromise. The un-

COMMERCIAL VALUE OF A MILLIONAIRE.

REV. HENRY A. STIMSON, D. D.

Old John Selden, among the many deep things in his Table Talk, observes that Yes and No answer no question. An inquiry the answer to which is obvious, is not a question. The real answer to a question is only to be come at by carefully "discriminating things which are to be discriminated, and confounding things which are to be confounded." When one asks, What is the commercial value of a millionaire ? it is quite wide of the mark to state in figures the amount of his wealth. That is altogether too simple and obvious a reply. When a millionaire dies, his wealth remains. He has not taken a dollar with him. And yet it is conceivable that in his death the community has suffered a loss not easily to be estimated.

There is much public discussion as to what is to be done with millionaires. There are thoughtful men who believe that they are a danger to the welfare if not to the permanence of the republic. I was seriously asked the other day if I did not think that a certain stated sum was the maximum which any individual could honestly possess. It is very clear not only that individual fortunes but the total wealth of the community is going to augment at a rate which the world has not known in the past. The alchemy of modern science and modern invention and modern skill in organization is turning everything into gold at a rate of which the old philosophers did not dream, and that would turn Crœsus green with envy. The poor are by no means growing poorer, but the rich are growing richer at a rate unprecedented. The discussion, therefore, is sure to continue, and, unless we get down to certain underlying principles and can hold clearly in mind some determining facts, there is likely to be not a little social disturbance.

It is a very crude and ignorant view that understands a millionaire to be merely a man possessed of a large amount of money, whether one million or many. In fact, it denotes a person who for himself and his household is in a position in which he is exempt from the toil and struggle of the multitude to obtain opportunities for self-culture and for self-chosen occupation, and who, as related to the public, commands the power effectively to concentrate his energies in carrying out his purposes. In this two-fold way his wealth gives him what others have not. He is free to develop by culture such gifts as he has, and he has in his hands exceptional power when he comes to apply them. He does not first have to earn his bread. His money is a power as well as an opportunity. The aim now is to reduce these men to the ranks; and the discussion is as to what they are worth to the community and to the State.

A recent English writer drops this hint : "Since, tial to the welfare and progress of the community. therefore, in this imperfect world one cannot have Now it is to be noted that excessive distribution of everything, possibly the system of large fortunes and wealth tends to destroy ability. Imagine a law under great capitalists may possess unsuspected virtues which no man would be allowed to leave to his chilwhich we shall do well not too hastily to abolish." It dren more than a pittance. The effect at once would may throw light upon the situation to inquire what be that each generation would begin life with little if these unsuspected virtues are. The new economists any advantage beyond its predecessor. There would are pointing out that the production of wealth in the be the same severe struggle for existence and the modern world is not in any essential respect the result same restriction of opportunity of growth and educa of labor but of "ability." When a group of men tion, together with indifference as to the future and were trying in vain to move a great rock, and one the destruction of impulse to painful effort. Each standing by showed them how to adjust a beam to man would feel that to a large degree he could live serve as a lever, he not only made their labor effective, only for himself. The accumulation of capital to the but he gave a new value to all labor as henceforth it extent in which it is necessary in order to secure immight be applied to the moving of great weights. plements or complicated machinery would disappear. When the men of Syracuse were laboriously carrying This already has been curiously demonstrated in water in buckets up a hill, and Archimedes showed France. The abolishing of the right of primogenithat by a simple adjustment of a hollow pipe in the ture consequent upon the French Revolution has alform of a screw, the water could be pumped up in a ready had serious effect upon the size of the French steady stream, he made human labor effective in family and has already resulted in making the popupumping water for all generations to come. This is lation of France first stationary and then decreasing. what the teachers mean by ability; and it is this ap-The Frenchman who is prohibited from so distributplication of ability to labor in every department of ing his property as to give one of his children an adlife, and with an ingenuity and to an extent such as vantage which the others do not have and a responsithe world has not known in the past, that characbility for the care of the others comes as a result to terizes the situation to-day and gives firm basis to the

The most obvious truth, therefore, in modern life is the necessity of developing men of ability. The limit of using labor profitably with any existing device is quickly reached. The product of that labor has a fixed value, to be affected only by the available amount of raw material; and the measure of its consumption is soon determined. The further reduction in cost, upon which depend great increase of consumption and the consequent employment at good wages of an increasing number of workmen, turns upon the improvement of methods of manufacture, economizing the material and bettering the product, which can only be brought about by the application of brains, that is, by ability.

The welfare of the community, therefore, whether the community be regarded as the consumers of the product or as the army of workmen who, with their families, are supported by the manufacture, depends almost exclusively on this factor. No abundance, or cheapness, or intelligence, or even devotion, of labor will suffice to accomplish the result. Labor only becomes effective to this end when it is directed by the highest skill and supplied with the machines and the methods which that skill alone can devise. The best friend of the workingman, therefore, indeed the only man in the community without whom the workingmen cannot hope to live, is the man of ability, the man endowed with special gifts or trained in the special way which enables him to direct their labor in efficient channels, and to provide it with the machines without which it is little better than the strength of the brute. Set to move earth, a laborer with his hands alone can do little if any better than his dog. The man who puts in the laborer's hand a well-made steel shovel has lifted him at once to another plane of efficiency, and the man who provides for him a steam excavator has put within his reach high wages and has made the removal of mountains and the digging of channels for rivers an affair no longer of faith but of sight.

It is obvious, therefore, that those conditions of human society which are most favorable to the dovelopment of ability, wherever it is found, are essen-

prophecies of steady increase of wealth in the future. the settled purpose to have as few children as possible;

while the subdivision of land in France consequent upon the Revolution has been carried so far, under the sentiment of land-hunger, as to undermine French agriculture, which is now maintained only by strong Governmental measures. There are over eight million owners of land in France, with a price so high as to be ridiculous.

Over against this is the experience of our Western farmers, who have already discovered that only by pooling their capital in the form of co-operative creameries and cheese factories and packing houses can they be sure of adequate profits; while capitalists who have taken possession of large tracts of land and are working them with improved machinery and the methods which capital alone can employ, have shown how profit, otherwise impossible, can be obtained, and the whole community lifted to a state of assured comfort. The same has been proved by many large industries which now employ tens of thousands of men where before there were hundreds; where the rates of wages are steadily rising, and the various communities dependent on these great industries are abodes of thrift and even of luxury.

The man of ability, therefore, is the most important man in the community. He cannot be produced without some waste, as waste attends all production, and there are millionaires and capitalists who are parasites—worth nothing, and living upon the labor and sacrifice of others. But, setting these aside, the millionaire himself is the man in the community who ought to be the man of ability, upon whom the welfare of all will largely depend. He has exceptional opportunities of personal training. He has in his wealth the instrument by which his ability can be made available, and if his wealth has not destroyed his character, but that has developed with his training, as his intellectual qualities have, he should be the true prince among men, or the king, if you will, in the old Anglo Saxon sense of that word, "the man who can." Indeed, if the day should come in which the possessors of large fortunes in the community should fall below this ideal or cease to regard themselves as under this responsibility, the State would have it as its first duty to take in hand the production of such men-a task for which the State, as yet understood, is quite unprepared.

Unless, therefore, our capitalists recognize this responsibility, and strenuously set about training themselves and their sons for the task, the State will more and more be left without any class competent to guide. Capable administrators will be rare. The great organizations of business and manufacture which have been called into existence will be left unguided, and the proletariat, helpless in its necessary dependence upon others, will relapse into the ignorant mob, struggling in vain for the simplest means of existence. The progress of civilization no less than the welfare of the laborer depends, therefore, upon the proper accumulation of capital in individual hands to the extent that shall promote ability in the individual to the maximum of his possibilities. In a word, the welfare of the community depends upon the development of the ability without which labor is helpless; and that ability can only be produced where wealth gives opportunity for a culture otherwise rarely, or only with great difficulty, attainable. While in the death of a great " captain of industry " not a dollar of his wealth is destroyed, it is easily possible, as has often been the case, that a great enterprise which he has directed

or created may go to pieces to the ruin of many. The commercial value of such a man, therefore, is not easily calculated.

### LOCAL POLICE POWERS AS AFFECTING THE RUNNING OF THROUGH TRAINS.

Much concern was felt about a year ago over a decision of the United States Supreme Court upholding a State statute requiring the stopping of through trains at local points. Another decision has recently been rendered in a similar case, which qualifies materially the scope of the former decision and shows that the earlier ruling was not nearly so broad in its application as had at first been feared.

Last year's ruling was made in the case of the Lake Shore & Michigan Southern Railway Company vs. the State of Ohio. The Court held in that case that in the absence of legislation by Congress upon the sub. ject, a statute of Ohio, providing that every railroad company should cause three of its regular trains carrying passengers (if so many be run daily) to stop at a station, city or village containing 3,000 inhabitants, for a time sufficient to receive and let off passengers, was consistent with the Constitution of the United States as applied to trains engaged in inter-State commerce through the State of Ohio. The case was reviewed at length in our issue of April 29 1899, pages 800 and 801. The present ruling was rendered in the case of the Cleveland Cincinnati Chicago & St. Louis Railway Company vs. the State of Illinois. Since 1874 there has been a law upon the statute books of Illinois providing that all regular passenger trains shall stop a sufficient length of time at the railroad stations of county seats to receive and let off passengers with safety. The Cleveland Cincinnati Chicago & St. Louis, or "Big Four" has for years run a train known as "The Knickerbocker Special," devoted to carrying through passengers (in connection with the Lake Shore) between St. Louis and New York City. The line of the "Big Four," passes through the county of Montgomery and the city of Hillsboro, the county seat of such county. Under the law referred to an attempt was made to compel the road to stop this "Knickerbocker Special" at Hillsboro. The company resisted the attempt, claiming that it furnished four regular passenger trains daily each way, passing through and stopping at Hillsboro, and that this service amply accommodated the travel and afforded every reasonable facility for such city. On the other hand, the travel between St. Louis and New York had grown to such an extent that it had become necessary to put on a through fast train, that the "Knickerbocker Special" was used exclusively for inter-State traffic through and to points without the State of Illinois, and that to subject it to the statutes of the various States through which it passes, requiring it to stop at county seats, would wholly destroy the usefulness of the train, and would impede and obstruct inter-State commerce. The State courts upheld the validity of the statute in relation to inter-State trains; the United States Supreme Court now reverses the judgment of the State courts. Justice Brown, who delivered the opinion in this instance, asserts that the case decided last year is distinguishable from the one under consideration at the present time in the fact that the State of Ohio required only that three regular passenger trains should stop at every station containing 3,000 inhabitants, leaving the company at liberty to run as many through

JUNE 23, 1900.]

passenger trains exceeding three per day as it chose without restriction as to stoppage at particular stations. Thus it left open a loophole which the statute of Illinois effectually closed. The question broadly presented in the present Illinois case, he said, was whether a State statute is valid which requires every passenger train, regardless of the number of such trains passing each way daily, and of the character of the traffic carried by them, to stop at every county seat through which such train may pass by day and night, and regardless also of the fact whether another train, designated especially for local traffic, may stop at the same station within a few minutes before or after the arrival of the train in question.

The opinion points out that the State's demurrer to the answer of the "Big Four" Company admits that the company furnishes a sufficient number of regular passenger trains to accommodate all the local and through business along the line of the road, and that all such trains stop at Hillsboro, and that the "Knickerbocker Special" was put on in response to an urgent demand on the part of the through traveling public from St. Louis to New York, and that if compelled to stop this train at county seats the company will be compelled to abandon the train, to the great damage of the traveling public and to the railway company. Under these circumstances, Justice Brown says, it is evident that the power attempted to be exercised under the statute in question would operate as a serious restriction upon the speed of trains engaged in inter State traffic, and might in some cases render it impossible for trunk lines running through the State of Illinois to compete with other lines running through States in which no such restrictions were applied.

If such passenger trains may be compelled to stop at county seats, Justice Brown argues with much force, it is difficult to see why the Legislature may not compel them to stop at every station-a requirement which would be practically destructive to through travel where there were competing lines unhampered by such regulations. While railways, as was held in the Lake Shore case, are bound to provide primarily and adequately for the accommodation of those for whom they are directly tributary, and who not only have granted to them a franchise but who may have contributed largely to the construction of the road, they are bound to do no more than this, and may then provide special facilities for the accommodation of through traffic. The Court is not obliged to shut its eyes, the opinion says, to the fact that competition among railways for through passenger traffic has become very spirited, and the carriers have a right to demand that they shall not be unnecessarily hampered in their efforts to obtain a share of such traffic. Proceeding in the same strain, the opinion says : "It is evident, however, that neither the greater safety of their tracks, the superior comfort of their coaches or sleeping berths, or the excellence of their tables, would insure them such share if they were unable to compete with their rivals in the matter of time. The great efforts of modern engineering have been directed to combining safety with the greatest possible speed in transportation, both by land and water. The public demand this, the railway and steamship companies are anxious in their own interests to furnish it, and local legislation ought not to stand in the way of it." Justice Brown is particular to state that the ruling in this instance does not conflict with or vary prece-

dents. Neither the conclusions of the Court nor the tenor of the opinions is opposed, he asserts, to the principle that after all local conditions have been adequately met, railways have the legal right to adopt special provisions for through traffic. Moreover, legislative interference therewith is unreasonable and an infringement upon that provision of the Constitution which requires that commerce between the States shall be free and unobstructed. While the statute under consideration is operative only in the State of Illineis, it is obnoxious to the criticism made of the Louisiana statute in Hall vs. De Cuir that "while it purports only to control a carrier when engaged within the State, it must necessarily influence its conduct to some extent in the management of his business through his entire voyage. If each State was at liberty to regulate the conduct of carriers while within its jurisdiction, the confusion likely to follow could not but be productive of great inconvenience and unnecessary hardship. Each State could provide for its own passengers and regulate the transportation of its own freight, regardless of the interest of others."

The Court points out that there is an obvious distinction between the Illinois statute and ordinances or statutes requiring passenger trains to stop at railroad crossings and draw-bridges, regulating the speed and running of trains through crowded thoroughfares, requiring tracks to be fenced, bells and whistles to be attached to the engines, signal lights to be carried at night, &c., &c. These and other similar requirements are intended to promote the safety, comfort and convenience of the patrons of the roads, and are clearly within the police powers of the States. Accordingly it is declared that the Illinois Act is a direct burden upon inter-State commerce, and therefore the judgment of the Supreme Court of Illinois was reversed.

## RAILROAD NET EARNINGS FOR APRIL.

Whatever the future may have in store, there are as yet no indications of any falling away in the revenues of our railroad transportation lines. We give below our compilations of gross and net earnings for the month of April, and the results disclose the same striking gains as noted in all the preceding months. We reviewed the conditions prevailing in that month in the early summary of the gross earnings published in our issue of May 12. Suffice it to say that while the volume of trade remained large and active, and the grain and live stock movement in the West was much heavier than a year ago, there were nevertheless quite a number of unfavorable influences tending to reduce traffic and earnings. Among these may be enumerated the serious floods the present year in Texas and some other Southern States, the falling off in the cotton movement in the South, and the labor troubles which were prevalent in different parts of the country. This makes the extent of the gains as disclosed in the following totals quite significant.

		April. (133 roads.)		January 1 to April 80. (131 roads.)			
	1900.	1899.	Increase.	1900.	1899.	Increase.	
	8	\$	8	\$	8	\$	
Gross earn's		72,956,046			286,696,468	45,328,841	
Oper. exp	59,157,064	51,780,684			204,537,326	27,349,488	
Net earn's	24,134,618	21,175,362	2,959,256	100,138,495	82,159,142	17,979,853	

In the gross earnings the statement, despite the drawbacks enumerated, reveals, as will be seen, an improvement over the corresponding month of 1899 in the sum of over 10 million dollars—\$10,335,636. The ratio is 14.17 per cent. In the net the influence of the floods and the higher prices for materials is to an extent apparent; and yet the increase in net is close to three million dollars—\$2,959,256. The ratio here is also almost 14 per cent—13.97. Of course these gains follow gains in the same month of other years, as may be seen by the following summary of the April totals back to 1895.

Year and	Gross Earnings.			Net Barnings.

	1425	Tune 1900-1433

-One incident of the week has been a complimentary dinner which was given at the Metropolitan Club on Wednesday night by Mr. James Stillman, President of the National City Bank, to M. Adolph Rothstein, the Russian banker, who is now on a visit to this country. The object of the function was to give M. Rothstein an opportunity to meet prominent bankers of this city. Among the guests were Messrs. J. Pierpont Morgan, C. P. Huntington, Jacob H. Schiff, E. H. Harriman, E. D. Adams, H. H. Rogers, Frederick D. Tappan, D. O. Mills, Charles R. Flint, F. Jennings, George S. Morison and James T. Woodward. M. Rothstein is devoting much attention to the American methods of transacting business, and he has made good use of his vacation in studying how he may promote the financial and commercial enterprises in Russia with which he is intimately connected, and especially those in the Far East. He will sail for Europe to day (Saturday).

-The New York Court of Appeals on the 5th instant rendered an important decision bearing upon the method of valuing bank shares for taxation. The decision was given in the matter of the certiorari proceedings brought by the shareholders of the First National Bank of Brooklyn. The Court decides that in fixing the value of bank shares for taxation the real estate of the bank is to be included at its actual value. It had been contended that for the purpose of the valuation of the shares the real estate should be taken at its assessed valuation, this assessed valuation being, as is well known, usually much below the real value. The real estate of the First National Bank was assessed at \$50,000 and that sum was deducted from the value of the shares. It was urged, however, that in ascertaining the value of the shares for taxation the real estate had been counted at its full value of \$93,000, as carried on the bobks of the bank, and that this was the amount that should have been deducted. Had a deduction been made of the whole \$93,000 the assessment on the shares would have been reduced \$14 33 per share. The Court holds that in order to ascertain the capital subject to taxation the assessors are not bound by the assessed valuation. The assessed value does not necessarily show the full value, and the assessors may consequently disregard it and estimate the real estate at its actual value. The Court says that there is no double taxation, as had been contended, under such a ruling, for the reason that the tax law contemplates that the shareholder shall not pay a tax upon that portion of the property of the bank already represented on the assessment rolls. Hence it is immaterial what the real estate may be assessed at, whether at its full value or less.

t Covers lines directly operated east and west of Pittsburg and Erie. The net on Eastern lines increased \$509,900 and on the Western lines \$110,300.

When the roads are arranged in groups there are two groups of roads which on the present occasion show a slight falling off in the net, but this follows entirely from enlarged expenses. In the gross every group records an increase, and in fact there are few separate roads which have fallen behind in the gross —only 14 out of the whole 133 contributing returns. The shareholders in either case get a deduction for such amount, whatever it may be, and their shares are taxed only for the remainder.

Still another point was decided in the consideration of this case. The bank shareholders had alleged that they were assessed at a greater rate than the shareholders in trust companies, and that this was a violation of Section 5219 of the United States Revised Statutes, which provides that taxation on national bank stock "shall not be at a greater rate than is assessed upon other moneyed capital in the hands of individual citizens in such State." The Court of Appeals points out that the United States Supreme Court long since decided that trust companies in New York, according to the powers conferred upon them by their charters, and habitually exercised, are in no proper sense of the word banking institutions. It had been claimed, however, that since this ruling of the U.S. Supreme Court the powers of trust companies had been enlarged by the banking law of 1892, which law, it was contended, confers upon trust companies all the powers prescribed by the statute laws of the State of New York to banks created thereunder, except the power to emit bills and circulate as money. The Court of Appeals examines this point carefully, and, after pointing out some of the particulars in which the powers of the trust companies differ very essentially from the powers of banks, reaches the conclusion that trust companies, even under the enlarged powers conferred upon them by the banking law of 1892, are not in a legal or commercial sense engaged in the business of banking.

-There have been no new developments recently regarding the plans for the consolidation of Chicago banks. Rumor has singled out a good many institutions as quite likely to be used for the purpose of various suggested combinations. As yet, however, the only definite scheme having real vitality is that of the proposed union of the First National Bank of Chicago with the Union National Bank of the same city. Whether there are to be more consolidations or not, the affairs of all the Chicago banks at the moment are attracting increased attention. We have already indicated the growth of late years in the business of several of these institutions and may take up to day the Metropolitan National Bank of Chicago. This is one of the institutions of considerable size. Its capital is \$2,000,000, an amount exceeded only by two other banking concerns in Chicago. The bank had a surplus at the date of its last return of \$1,253,342. In the following table we show how the business of the bank has developed during the last five years and how the market value of its shares has advanced:

METROPOLITAN	Surplus and	Gross	Aggregate	Mar't p	rice.

States, is President, and of which the late Vice-President Hobart was a director. Mr. Allen's entrance into the Trust Company of Georgia is the result of a visit made by him to Atlanta last April, when he became much impressed with the advantages offered by that city as a place for investment and financial enterprises.

-The Woonsocket National Bank of Woonsocket, R. I., has been absorbed by the Industrial Trust Company of Providence. The transfer will take place on June 23, the bank then becoming the Woonsocket branch of the trust company. This bank was originally incorporated in 1828 as the Woonsocket Falls Bank and became a national bank in 1865. Its capital, according to its latest statement, is \$200,000, surplus and undivided profits, \$155,134, deposits, \$429,523, and loans, \$460,000. The directors of the bank recommend the acceptance of the offer of \$97 per share (par value \$50). It is understood that the officers of the bank will remain in the employ of the trust company, Mr. E. C. Francis, the Cashier, becoming the Manager of the branch.

This makes the sixth bank absorbed, by the Industrial Trust Co., namely: The Roger Williams National and the Third National of Providence, the Pacific and First National of Pawtucket, the National Bank of Rhode Island at Newport and now the Woonsocket National.

-The Phenix National Bank, of Phenix, R. I., capital \$100,000, is about to become a trust company. It is expected that the change will be made by about August 1. R. G. Howland is the President of the bank.

-Mr. Richard C. Washburn, President of the Hudson County National Bank of Jersey City, announced his resignation this week. Mr. Washburn has been in ill-health for some time and requires rest.

-The Arsenal Bank of Pittsburg, Pa., will vote July 5 on a proposition to increase the capital stock from \$55,000 to \$100,000. Par value of the stock is \$50, but the market price is \$135 per share. E. Z. Wainwright is President and John Grine is cashier.

-Theodore F. Miller was on Wednesday unanimously elected a trustee and President of the Brooklyn Trust Co. As was announced in this department May 26, the office of President was unanimously tendered to Mr. Miller by the board of trustees at a meeting on May 22. Frederick C. Colton, who was Secretary, has been elected Second Vice-President, and Stanley W. Husted, Assistant Secretary, has been made Secretary.

-It was announced in this department June 9 that the annual convention of the State Bankers' Association will be held at Saratoga. Details have now been partially arranged. The sessions of the convention will begin July 13. After the business meeting in the afternoon the delegates will visit the Saratoga monument and battle field and in the evening a reception will be given at the Grand Union Hotel. On Saturday, July 14, there will be an excursion to Lake George and a meeting will be held at Bolton for the election of officers for the ensuing year, after which there will be a sail to Sabbath Day Point, thence to Caldwell and return to Saratoga.

-The annual meeting of Group VI. of the New York State Bankers' Association, which group embraces institutions to the north and northwest of this city, will be held at Hotel Kaaterskill, Catskill Mountains, June 29 and 30.

-The directors of the Garfield National Bank, in addition to

Dec. 17, 1896..... 1,127,198 9,700,701 12,829,078 165 168 Sept. 23, 1895..... 1,117,545 8,957,712 12,076,735 161 165 NOTE.—Capital was \$2,000,000 at all the dates here given.

It will be observed from the foregoing that since 1895 the deposits of the bank have almost doubled, having risen from \$8,957,712 to \$16,773,169. Aggregate resources are \$20,-722,339 against only \$12,076,735 at the earlier date. The shares are now quoted at about 200 against 165 in 1895. The officers of the bank are E. G. Keith, President; William J. Watson, Vice-President; H. H. Hitchcock, Cashier, and Edward Dickinson, Assistant Cashier.

-At a meeting of the stockholders of the Trust Company of Georgia on Thursday of last week, Mr. Frank R. Allen, of Paterson, N. J., was elected a director of the company and was also made Vice-President. Mr. Allen was for ten years Secretary of the Paterson Safe Deposit & Trust Co., of which John W. Griggs, the Attorney-General of the United

the regular quarterly dividend of 10 per cent, have declared an extra dividend of 5 per cent, both payable June 30.

-One hundred and seventy-five bankers attended the Fourteenth Annual Convention of the Iowa State Bankers' Association at Des Moines last week Resolutions were adopted declaring it the sense of the Association that the further retention on the statute books of the Federal Bankruptcy Law " is a menace to the business of the country, depriving many honorable business men of the credit their integrity and business ability would entitle them to, because of its use by the unscrupulous," and accordingly advocating the speedy repeal of this law. A resolution was also passed saying that as the Attorney-General of the United States has ruled that the money-order business of express companies is an incident to their business, and that such companies are not liable to taxes the same as banks, Congressmen and Senators be asked to see that in any modification that may be made of the revenue law, banks be taxed no higher than other concerns doing a competitive business.

-The Ohio State Bankers' Association will convene at Columbus, Ohio, for its tenth annual gathering on September 19 and 20.

-In pursuance of the plan for the merger of the First National Bank of Chicago and the Union National Bank of the same city, the Cashier of the first-named bank, Richard J. Street, has sent out the following notice calling a special meeting of the shareholders of the First National for July 24:

Notice is hereby given that there will be a meeting of the sharehold-ers of the First National Bank of Chicago on the 24th day of July. 1900, at 3 o'clock p. m., at the office of said bank, at the corner of Monroe and Dearborn Sts., in Chicago, Ill., for the purposes— "(1) Of voting upon a proposition to amend Article 5 of the articles of association in relation to the disposition of the new stock in cases where it is voted to increase the capital of the association. "(2) To vote upon a proposition to increase the capital stock of the

"(2) To vote upon a proposition to increase the capital stock of the association from \$3,000,000 to \$5,000,000. "(3) To vote upon a proposition to increase the number of the board of directors from eleven to fifteen; and if such increase is fa-

vored, "(4) To elect the four new members of the board thus provided for. A full attendance is desired."

The directors of the Union National will also take action within a few days to carry into effect the merger of the two institutions.

-Some important changes have been made in the personnel of the management of the Dime Savings & Banking Company of Cleveland. Mr. E. W. Moore, in order to get more time to devote to his outside interests, which are extensive, resigned as Secretary and Treasurer. The directors accordingly elected him to the post of Vice-President, and made him a member of the Finance Committee. Mr. Francis Widlar was also given membership on that committee. Mr. Frank H. Townsend, who has been the Assistant Secretary and Treasurer, was made Secretary and Treasurer to fill the vacancy created by the resignation of Mr. Moore. Mr. P. C. Pettit, who has been with the bank for quite a while, was advanced to the position of Assistant Treasurer. A trust committee was also created to 'ake charge of the trust business of the bank. This committee consists of Hon. E. T. Hamilton, as Chairman, and J. R. Sprankle, O. M. Burke, E. W. Moore and B. Mahler. The quarters of the Dime Savings & Banking Company are claimed to be among the handsomest in Cleveland.

-At the meeting of the Georgia State Bankers' Association at Lithia Springs last week, the matter of making liberal advances to planters on their cotton received a good deal of attention, the subject being brought up by the Southern Cotton Growers' Protective Association recently organized at Macon, Georgia. The outcome of the discussion was the unanimous adoption of the following resolutions:

Resolved, By the Georgia Bankers' Association, That we are in full sympathy with all associations that have in view the promotion of the best interest of the planters of Georgia; Resolved, 2, That we recognize the interest of the planters and of the State and its banks to be identical, and we Georgia bankers commit ourselves fully to as liberal a support of the planting interest of the State as circumstances will justify. Resolved, further, That we express our willingness and ability to ad-vance to the planters of Georgia three-fourths of the market value of their cotton, taking as collateral therefor proper warehouse receipts.

-Mr. George B. Whiteside has been made Pressdent of the Merchants' & Mechanics' Bank of Columbus, Georgia, succeeding the late Judge W. H. Brannon. Mr. Whiteside had been the Vice-President of the bank. Mr. O C. Bullock has been elected Vice-President. Mr. T. W. Bates retains his position as Cashier. In the board of directors Mr. George A. Pearce has been elected to take the place of Judge Brannon. The bank changes to the national system and increases

-Captain MacLennan, one of the attaches of the Treasury Department, has been sent to Honolulu on a special mission to settle the accounts of the Hawaiian Postal Savings Bank and other matters pertaining to the finances of the Hawaiian Islands, in accordance with the provisions of the resolutions of Congress annexing the islands and the subsequent law for the establishment of a government therein. The resolution of annexation, which was adopted July 7, 1898, it will be remembered, recognized the liability of the United States to pay the debts of the islands to the amount of \$4,-000,000, including the deposits in the Postal Savings Bank. The Act of April 30, 1900, provided for the settlement of the affairs of the islands so far as they related to the United States, but the Act did not make any appropriation for the redemption of the bonded debt. The Secretary of the Treasury was, however, directed to pay all accounts of the depositors in the Postal Savings Bank beginning July 1, and interest on such deposits will cease after that date. The Secretary has made arrangements with the American Bank at Honolulu to begin such payments July 1 and to continue the disbursements until the accounts are settled, after which the Treasury will reimburse the bank.

-August 14 and 15 has been fixed as the date for the annual gathering of the Wisconsin State Bankers' Association. An effort is to be made to secure for Milwaukee the annual meeting of the American Bankers' Association in 1901.

### DEBT STATEMENT MAY 31 1900.

its capital from \$80,000 to \$100,000.

-The Associated Banks of Tacoma will entertain the State Bankers of Washington on July 12, 13, and 14. A notice to that effect has been sent out signed by P. C. Kauffman, President, A. F. Albertson, Secretary. Arrangements have been made with the Northern Pacific Railway Company and the leading hotels for reduced fares and rates.

-The annual convention of the Minnesota Bankers' Association this week was well attended. A feature was an address by James H. Eckels, ex-Comptroller of the Currency and President of the Commercial National Bank of Chicago. Mr. Eckels spoke on "The Business Outlook." Mr. A. A. Crane, Cashier of the National Bank of Commerce, Minneapolis, and President of the Association, urged the repeal of the tax on capital and surplus of banks and bankers imposed by the War Revenue Act.

The foregoing figures show a gross debt on May 31 1900 (interest-bearing and non-interest-bearing) of \$1,418,392,340 67 and a net debt (gross debt less net cash in the Treasury) of \$1,122,608,810 87.

PACIFIC RAILROAD DEBT.—At present the only bonds not paid or in some manner settled by the companies are the Central Branch Union Pacific and the Sioux City & Pacific. We consequently omit the others from our table. Any reader desiring the details with reference to all the issues will find the facts in the Debt Statements for March 31 1900 and previous dates.

### Monetary Commercial English News

[From our own correspondent.]

LONDON, Saturday, June 9, 1900. The occupation of Pretoria following so closely upon that of Johannesburg and the knowledge that the Witwatersrand mines are safe have not stimulated business upon the Stock Exchange as was expected. On the contrary, there is even greater stagnation this week than last week, and prices are somewhat lower. Yet everybody is satisfied that the war is practically at an end, and furthermore money is abundant and cheap.

The main cause of the stagnation this week is undoubtedly the apprehensions excited by the "Boxer" movement in China. Early in the week the Paris market was very much excited by the reports from China, and Paris began steadily selling. The nervousness of Parisian operators is increased no doubt by the boldness of the Nationalist party. It was generally assumed that until the success of the Exhibition had been assured, nothing would be done to disturb the existing Ministry; but the expectation has not been verified. On the contrary, fierce attacks have been made upon the Cabinet, and its position has been weakened by the resignation of General de Gallifet. Moreover, the very small number of foreigners who are visiting Paris inspire a fear that the Exhibition will be far less successful than was hoped.

The French people themselves are visiting the Exhibition in great numbers; but foreigners are scanty; and it looks as if Paris no longer offers the attractions to foreigners that it once did. All this has no doubt made French operators more sensitive than they otherwise would be. Trade is not good. The hope that a great deal of foreign money would pour in because of the Exhibition it is now feared will not be fulfilled, and the discovery that France is less popular than she was makes people nervous lest a quarrel should arise out of the troubles in China. Berlin has been selling very actively during the week. Owing to the great prosperity of German trade for years past, there has been an extraordinary manufacture of industrial companies. Upon the whole the companies are well managed and prosperous; but the speculation in their securities has been extravagant and prices have been running far beyond what was justified. To make matters worse, a great proportion of the shares is held on borrowed money. For some time past the semi-official press in Berlin has been warning the public that this was the dangerous state of things, and that there would be considerable stringency in the autumn if it was not removed. It is understood also that the Imperial Bank has addressed itself to the other banks as to the danger of continuing to give facilities for speculation. The result is that there has been a steady fall in industrial securities. This week it has been very sharp again. The losses of the speculators are, it is to be feared, heavy, and probably many of them to meet their difficulties

We subjoin the totals for merchandise, gold and silver for the eleven months since July 1 for six years.

\* Excess of imports.

have to sell securities for which there is a free market abroad.

The selling from Berlin, Frankfort and Hamburg, together with that from Paris, accounts largely for the stagnation in the London market; but no doubt London also has been made somewhat nervous by the Chinese troubles, although it is very strongly believed here that the Powers will all act together and that there is no real danger of any quarrel between any of them. One other influence that has probably helped to weaken markets is the complaint that the scarcity and dearness of coal are telling adversely upon trade throughout the country, and therefore the profits of traders are likely

to be much smaller in the future than for some years past. As yet, however, the Board of Trade returns do not show sign of any falling off. The value of the imports for the past month was £43,876,427, an increase over the correspond-ing month of last year of almost three millions, or  $7\frac{1}{3}$  per cent. The value of the exports of British and Irish produce was £24,715,930, being an increase of £1,685,690 over the corresponding month of the proceding year, or also very nearly 71/2 per cent.

The money market continues well supplied and exceedingly easy. Owing largely, no doubt, to the absence of speculation there is very little demand; and consequently for the week short loans have generally ranged at about 2 per cent. The general impression is that rates will rise somewhat during the next few weeks and will probably remain comparatively firm for a month or so, but that then there will be another decline. The view is based mainly upon the belief that Russia will continue to send gold to Western Europe. She is sending considerable amounts to the Bank of France; and as it is well known that she is negotiating in Paris for a large loan, it is anticipated that all the gold necessary to keep markets easy will be supplied. Moreover, it is very difficult to continue borrowing small sums in Paris, as Russia has been borrowing for a couple of years past, while Russian expenditure is so enormously great that she needs very con-siderable sums. Therefore, the best-informed are convinced that she will have to send gold to London, Paris and Berlin to meet her interest payments at the beginning of July. It is also thought probable that the Indian Government will set free some of the gold it holds in the Bank of England; and probably gold may be received from Japan. Upon the whole, the impression here now is that money

will remain easy during the summer, and the impression is strengthened by the fact that the prices of industrial securi-ties have fallen so heavily in Berlin. The best-informed hope that there will be no crisis, that the liquidation which is going on will ease the pressure upon the Berlin market, and that the stringency in the coming autumn will not be nearly so great as it was last autumn and the autumn before. If that view be correct, then there will not be the sharp rise in rates in Berlin that was witnessed at the end of June last year, although the end of June is always a trying time in Berlin.

At all events, money for the present is abundant and cheap, and the opinion of the market is that it will continue so for some time. Money is also abundant and cheap in The Bank of Bengal has this week put down its rate India. of discount from 5 per cent to 4 per cent; but whether this is justified by the state of the market, or whether it is done to facilitate the raising of a loan of three crores which is an-nounced this week, is open to doubt. The India Council continues to sell its drafts fairly well.

It offered for tender on Wednesday 30 lacs and the applications exceeded 3371/2 lacs. The whole amount offered was disposed of at about 1s. 4d. per rupee. Later, nearly 41/4 lacs were disposed of by special contract at prices ranging from 1s. 4 1.32d. to 1s. 4 1-16d. per rupee.

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols, &c.

Messrs. Pixley & Abell write as follows under date of June 7:

Gold-There are no open market movements to report. During the week  $\pounds140,000$  has been taken from the Bank;  $\pounds121,000$  is in gold coin for France. Only  $\pounds10,000$  in sovereigns has been received. Arrivals: Australia,  $\pounds47,000$ : New Zealand,  $\pounds13,000$ ; West Indies,  $\pounds12,000$ ; Chili,  $\pounds4,000$ . Total,  $\pounds76,000$ . Shipments: Nil. Silver-The market remains practically unaltered; India is still elightly below the London level, but outside orders, partly for coinage and partly for the Continent, continue, and with supplies scarce the

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending June 18, and from January 1 to date.

EXPORTS FROM NEW YORK FOR THE WEEK.

	1900.	1899.	1898.	1897.
For the week Prev. reported	<b>\$</b> 11,459,452 270,121,360		\$10,317,877 227,097,931	
Total 24 weeks	\$281,580,812	\$218,920,597	\$237,415,808	\$190,003.325

The following table shows the exports and imports of specie at the port of New York for the week ending June 16 and since January 1, 1900, and for the corresponding periods In 1899 and 1898.

To make the figures conform to the Government statement, the amount mentioned in above foot-note should be added to the Receipts as indicated therein. We have deducted this item, as it does not belong to the regular income account, and if included would disturb the comparison with former and future years.

TREASURY CURRENCY HOLDINGS.—The following compila-tion, based on official Government statements indicates the currency holdings of the Treasury on the first of March, April, May and June, 1900.

TREASURY NET	HOLDINGS.

ALL STREET, FRIDAY, JUNE 22, 1900.-5 P. M.

The Money Market and the Financial Situation.-The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 1 to  $1\frac{3}{4}$  per cent. To-day's rates on call were  $1\frac{1}{2}$  to  $1\frac{3}{4}$  per cent. Prime commercial paper  $3\frac{1}{2}$  to  $4\frac{1}{4}$  per cent. The Bank of England weekly statement on Thursday showed an increase in bullion of £1,0(6,852 and the percent-age of reserve to liabilities was  $44\cdot36$ , against  $43\cdot96$  last week; the discount rate remains unchanged at 3 per cent.

the discount rate remains unchanged at 3 per cent. The Bank of France shows an increase of 40,875,000 francs in gold and 2,650,000 francs in silver.

The following were the rates of domestic exchange on New York at the under-mentioned cities to-day: Savannah, buying par, selling \$1 00 per \$1,000 premium; Charleston, buying par, selling ½ premium; New Orleans, bank, \$1 00 premium; commercial, 50c. discount: Chicago, 20c. per \$1,000 premium; St. Louis, 10c.@ per \$1,000 premium; San Francisco, 10c. per \$100 premium.

Foreign Exchange.-The foreign exchange market has been weak and rates are lower.

To-day's actual rates of exchange were as follows: Bankers' sixty days' sterling,  $4\ 84@4\ 84!_4$ ; demand,  $4\ 86!_2@4\ 86!_4$ : cables,  $4\ 87!_4@4\ 87!_4$ ; prime commercial, sixty days,  $4\ 83!_4@$  $4\ 83!_4$ ; documentary commercial, sixty days,  $4\ 83@4\ 84$ ; grain for payment,  $4\ 83!_4@4\ 84$ ; cotton for payment,  $4\ 83$ @4 831/4; cotton for acceptance, 4 831/2@4 833/4. Posted rates of leading bankers follow:

\* This is the price bid at the morning board; no sale was made. † Prices are quotations in "Unlisted Dep't" for bonds "when issued."

State and Railroad Bonds.-Sales of State bonds at the Board are limited to \$10,0 0 Tennessee settlement 3s at 961/4. The market for railway bonds has been weak. The vol-ume of business was somewhat larger than last week and better distributed. A disinclination to acquire this class of securities, as well as others, seems to be increasing, and such limited offerings as came upon the market were sufficient to bring about a lower range of prices. The decline averaged between 1 and 2 points and extended, practically, to the entire active list. An unusual absence of special features is noted.

Stock and Bond Sales.—The following shows the volume of business in stocks and bonds on the New York Stock Exchange for the past week and since Jan. 1

6,740 7,608 57,025 14,000 20,741 18,900 11,074 5,051 110,000 965,805 Total...... \$8,895 28,816 228,775 97,946 44,988 Railroad and Miscellaneous Stocks .- The stock market has been more active than last week and there is abundant evidence that operators on the short side of the market have been successful in their efforts. The decline of a long list of shares averages between 2 and 3 points, and in a few notable cases is much larger. This is true of Great North-ern preferred, which declined 9 points; also of Northern Pacific, Lackawanna, Brooklyn Rapid Transit and Minneapolis & St. Louis common and preferred. Other granger issues were weak on the unfavorable crop reports.

138,580

The local traction issues were irregular, Brooklyn Rapid Transit having declined nearly 13 points on rumors that proceedings would be taken for a forfeiture of the company's charter, Metropolitan Street Railway losing about 7 points and Manhattan Elevated 4½ points, while Third Avenue Railroad advanced 4 points. Central of New Jersey was in request and advanced 5 points,

## Investment and Kailroad Intelligence.

## RAILROAD EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from January 1 to and including such latest week or month. The returns of the street railways are brought together separately on a subsequent page.

\* Figures for May are for the railroad only. ‡ Mexican currency. § Covers results of lines directly operated east of Pittsburg.
† Includes Chesapeake & Ohio So'western, Ohio Valley and Chicago and Texas for both years.
a Figures for 1900 are for three days only, road tied up for remainder of week as result of cloudburst.
b Does not include the Austin & Northwestern, the San Antonio & Aransas Pass or Houston & Texas Central system.
e Results on Montgomery Division are include in 1900, but not for 1899.

Latest Gross Earnings by Weeks.—The latest weekly earnings in the foregoing are separately summed up as follows: For the second week of June our statement covers 67 roads and these show 12.20 per cent increase in the aggregate over the same week last year.

2d week of June.	1900.	1899.	Inerease.	Decrease.

Net Earnings Monthly to Latest Dates.—The following shows the gross and net earnings to latest dates of all STEAM railroads furnishing monthly statements. The compilation includes every road from which we can get returns of this character, and in that form is given once a month. Early returns are published from week to week, as soon as issued, but for the convenience of our readers all the roads making returns are brought together here in the week in which we publish our monthly article on net earnings—say on or about the 20th of the month.

The returns of the street railways we give by themselves under a separate head at the extreme end of these tabulations —see page 1246.

<ul> <li>Net earnings here give</li> </ul>	an are after	deducting	LA YAS	

a Net earnings here given are after deducting taxes.

b Net earnings here given are before deducting taxes.

c Deducting other expenditures for repairs, replacements and general expenses, net income applicable to interest on bonds in April was \$148,327, against \$125,935 last year, and from January 1 to April 30 \$551,066, against \$536,473. This is the result in Mexican dollars treated (according to the company's method of keeping its accounts) as equivalent to 80 cents in United States money—that is, depreciation beyond 20 per cent has already been allowed for.

d Gross earnings include other income.

f Thirty per cent of gross earnings.

g After allowing for other income received, net for April, 1900. was \$22,235. against \$31.064 in 1899, and from July 1 to April 30 was \$547,074, against \$505,119.

i Does not include Austin & Northwestern, San Antonio & Aransas Pass or Houston & Texas Central System.

j After allowing for expenditures for betterments, net in April, 1900, was \$22,126.

k April, 1900, estimated.

\* After allowing for expenditures for betterments, net in April, 1900. was \$88.751, against \$102,494 in 1899, and from July 1 to

t After deducting "reserve fund for repairs of steamers" surplue in March, 1900, was \$26,893, against \$30,617 in 1899, and from May 1 to Mar. 31 there was a surplus of \$732,611, against \$1,076,232. The reserve fund for depreciation and general and extraordinary repairs of steamers has been increased to the standard of the English companies, *i. e.*, five per cent upon the value of the steamers.

Interest Charges and Surplus.—The following roads, in addition to their gross and net earnings given in the foregoing, also report charges for interest, &c., with the surplus above or deficit below those charges.

* Figures for May							

\* Figures for May cover Scranton Railway, Scranton & Pittston, Scranton & Carbondale and Carbondale Traction.

Street Kailway Net Earnings.-In the following we show both the gross and the net earnings to latest dates of all STREET railways from which we have been able to procure monthly returns. As in the case of the steam roads, the returns of the different roads are published by us each week as soon as received, and once a month (on the third or the fourth Saturday of the month) we bring together all the reads reporting, as is done to-day.

Net earnings here give	n are after	dednoting	axes.	

a Net earnings here given are after deducting taxes.

b Net earnings here given are before deducting taxes.

c Net earnings here given are after allowing for expenditures improvements.

1 Taxes and tolls in May, 1900, were \$12,479, against \$7,9 and from Jan. 1 to May 31 \$61,737, against \$67,466. After deduct these items the net in May. 1900, was \$24,996, against \$25,9 and from Jan. 1 to May 31, \$113,228, against \$50,515.

\*Storms in April this year made receipts smaller than they oth wise would have been, and increased expenses. Expenses w further increased by repairs to buildings.

t Figures for Mav in both years include results on Scranton Railway, Scranton & Pittston, Scranton & Carbondale and Carbondale Traction.

#### Southern Cotton Oil Company.

(For the year ending April 30, 1900.)

### President Henry C. Butcher says:

Your board has the pleasure to congratulate you upon the very suc cessful result of the year's operations. Following the usual custom of your management this result has been reached after charging to profit and loss every dollar of expense incurred in the maintenance of your plant and the conduct of your business, as well as the cost of considerable new machinery not included in the plant, and in addi-tion writing off \$40,116 for depreciation. Your company continues to enjoy the very highest credit, the property being entirely free from incumbrance, and as hitherto the sole ownership vests in the stock.

The net profits, dividends and bal	ance sheet have been:

¶ After deducting \$80,000 for dividend due June 15.-V. 68, 1178.

### GENERAL INVESTMENT NEWS.

#### RAILROADS, INCLUDING STREET ROADS.

Algoma Central Railway-Subsidy.-See Ontario-Lake Superior Co. under "Industrial, Etc., Companies."

Allegheny & Western Railway.—First Dividend.—The first semi-annual dividend of 3 per cent, guaranteed by the Buffalo Rochester & Pittsburg Ry. Co., is announced, payable July 1 to stock of record June 25.—V. 70, p. 840, 849.

Austin (Tex.) Rapid Transit Co.-Receivers' Certificates.-Receivers' certificates to the amount of \$30,000 have been authorized by the Federal Court to pay for the erection of a power house, the cars having been at a standstill since the great dam broke. -V. 64, p. 422.

Baltimore & Delaware Bay RR.—Purchased.—The Penn-sylvania RR. Co. has purchased from the Central RR of New Jersey its holdings of the securities of the Baltimore & Delaware Bay RR., which include nearly all the capital stock (\$366,500) and bonds (\$375.000) of said company. The road is 45 miles in length, extending from Chestertown to Bombay Hook, on the Delaware River. The line has not been operated as part of the Central RR. of New Jersey system.

Bismarck Washburn & Great Falls Ry.—Mortgage.—This company, which proposes to build a road extending from Bismarck, N. D., to Great Falls, Mont., has filed a mortgage to the Central Trust Co. of New York, as trustee, to secure \$7,000,000 30-year 5 per cent gold bonds (\$1,000 each), due Jan. 1, 1930. Of the bonds, \$600,000 are issuable on the 46 miles from Bismarck to Washburn non under construction miles from Bismarck to Washburn, now under construction, of which 26 miles will be completed in July and the balance about October next, and the remainder at the rate of \$12,000 per mile for additional mileage constructed. The authorized stock is \$590,000, of which \$200,000 is now outstanding. The President is W. D. Washburn; Secretary and Treasurer, C. C. Crane, Minneapolis, Minn.

Brooklyn Rapid Transit Co.-Electric Cars on Elevated Lines .- All the elevated roads in Brooklyn, it is expected,

will be operated with electric power by July 15. Decision as to Fares.—Justice Dickey, in the Supreme Court, Brooklyn, on Tuesday denied on technical grounds the application of ex-State Senator Peter H. McNulty for an injunction to restrain the Brooklyn Heights Railroad Com-pany from charging more than one five cent fare on its lines to Coney Island. The Judge expresses the opinion that the company cannot legally charge in excess of 5 cents, but he is obliged to deny the motion for an injunction because, he says, the plaintiff cannot maintain an "action in behalf of the whole people, where the injury to him is in common with others, he not being distinguished from others by be-ing specially damaged in a way not common to them." The The only remedy the plaintiff personally has, he says, is by an action to recover back an excessive fare paid by him. But the law, he states, gives a remedy to all injured by Section 1,798 of the Code, which provides for an action by the Attorney-General of the State to annul the charter of any corporation which offends against any provision of an Act by or under which it was created. The opinion further says: "The fact that some of the leased lines were formerly operated by others who have rights because of the incorporation of the companies under a different Legislative act, does not permit this defendant, which is governed by the Street Railroad Act, in its operation to disregard the mandate of the Act under which it was created that it must not charge more than a 5-cent fare on any or all roads operated by it from one point to another within the city.'

C. A. Collin, of counsel for the company, says:

Judge Dickey's decision was in favor of the railroad company, and permits the company to collect the 10 cent fare as heretofore. While his opinion suggests that the right of the company to charge the ad-ditional fare may be tested by a different kind of action than the one before him, yet of course he did not assume to decide such a case be-fore it should be brought. We have advised, and still advise, the com-pany that it will be able to maintain its legal right to collect the ad-ditional fare to Coney Island.—V. 70, p. 1048, 944.

Central RR. of New Jersey.-Reported Purchases of Stock. The price of the company's stock has advanced sharply this week in the face of a weak market, on reports that a large interest in the property and also in the Reading Company has been purchased by parties identified with the Pennsyl-vania RR. Co. and the New York Central & Hudson River RR. Co.

Sale of Baltimore & Delaware.-See that company above. V. 70, p. 1149, 893.

Central Vermont Ry.-Merger.-The company gives notice that application is to be made to the Canadian Parliament for an Act to authorize the company to absorb the Montreal & Province Line Ry., the Stanstead Sheffield & Chambly and the Montreal & Vermont Junction, in all 80 miles of road, now held under stock ownership, lease or otherwise.-V, 70, p. 739.

Chesapeake & Western RR.—Change of Control.—Control of this property has been acquired by a New York syndi-cate headed by DeWitt Smith through purchase of a majority of both the stock and the bonds.

Chicago Burlington & Quincy RR.—Called Bonds.—The following bonds have been called for payment and will be paid at the New England Trust Co., Boston, July 2, 1900, interest ceasing July 1, viz.:

(1) Burlington & Miesouri River RR. Company in Nebraska non-exempt 6 per cent consolidated mortgage bonds dated 1878, due July 1, 1918, viz.: \$129,000 in \$1600 bonds and \$15,600 in \$600,000 bonds.
(2) Republican Valley RR. 6 per cent bonds dated July 1, 1879, due July 1, 1919, viz: Sixteen bonds for \$1.000 each, numbers 7, 37, 78, 134, 194, 313, 517, 683, 9, 47, 123, 188, 251, 351, 653, 727; and seven bonds for \$600 each, numbers 47, 73, 138, 171, 206, 228, 336.

Exchange of Bonds.—The consolidated mortgage 7s of 1873, due 1903, have been reduced by \$4,571,000, viz., from \$28,due 1903, have been reduced by \$4,571,000, viz., from \$28,-924,000 to \$24,353,000, through exchange for the new Illinois Division  $3\frac{1}{5}s$ . The amount of the  $3\frac{1}{2}s$  now outstanding is \$23,238,000. This last item includes the \$16,166,000 issued in April, 1899, the \$2,000,000 sold in February, 1900, and \$5,072,-000 issued in exchange for underlying bonds, etc. Besides the \$4,571,000 of consol. 7s, there have been retired \$290,000Ottawa Oswego & Fox River 8s. The balance, \$600,000, of this last-named issue matures and will be paid July 1, 1900. —  $V_{-}$  70 p. 1048, 044 V. 70, p. 1048, 944.

Chicago Electric Traction Co.-Receivership.-President Isaac L. Rice is quoted as saying:

Isaac L. Rice is quoted as saying: The receivership is due to the fact that the company was compelled to change from the storage battery'system to the trolley. We asked the first mortgage bondholders to waive their priority so as to permit of the issuance of a prior lien bond, but this required unanimous con-sent, and as we could not get this we had to have a receivership, which will permit of the issuance of receivor's certificates to meet the cost. About \$150,000 of these certificates will have to be issued. The company has a good future. It is making money now, but not enough to pay the interest on its bonds. The property is worth every dollar of the nearly \$1,100,000 that has been spent on it. By changing to the trolley system we expect that we can earn considerably more than the interest on the bonds. The storage battery system was not abandoned because of any inherent fault, but because the conditions for its use were found to be very unfavorable, especially by reason of the fact that there were three branch lines, which prevented an economical operation of the system, and also because the road was surrounded by trolley lines. There is a good market for our storage battery cars, so the company is practically no worse off for the ex-periment with them. -V. 70, p. 1194, 739.

Chicago & Grand Trunk Ry.—Reorganization.—Charles M. Hays, General Manager of the Grand Trunk system, who returned from London recently, is quoted as saying that an agreement has been reached with the second mortgage bondholders who objected to the original plan of reorganization, and that the property will probably be taken ont of the receiver's hands within six months.—V. 70, p. 75.

Chicago & North Western Ry.—Merger.—A deed was filed with the Secretary of State at Pierre, S. D., on June 19 transferring all the lines of the Winona & St. Peter Railway in South Dakota to the Chicago & North Western Ry. Co.-V. 70, p. 1149, 1147, 841.

Chicago Peoria & St. Louis Ry .- Income Mortgage .- The company has filed its income mortgage for \$2,000,000 to the Equitable Trust Co., Chicago, Ill., as trustee, and also the Litchfield & Madison Ry. income mortgage for \$500,000 to the City Trust Co., of New York, as trustee. New Securities .- The new securities will be ready for distribution the latter part of next week at the company's office, 27 Pine St., New York.—V. 70, p. 1048. Chicago & South Side Rapid Transit Co.-Receiver.-The Circuit Court at Chicago on application of stockholders in this old company recently appointed Robert M. Wells receiver to protect the rights of the shareholders. The road itself was foreclosed in 1896 97 and is now owned and operated by the South Side Elevated RR. Co. The present re-ceivership is an effort on the part of the shareholders shut out by the foreclosure to have the proceedings reopened .-- V. 64, p. 665.

Chicago Terminal Charges.-Decision.-See Chicago Junction Railways & Union Stock Yards Co. under "Industrials, etc."-V. 69, p. 1167, 1193.

Choctaw Oklahoma & Gulf RR.—Lease.—The report is confirmed that the company is arranging to lease the White & Black River Valley RR. 64 miles in length, extending from Brinkley to Newport, etc., Arkansa\*, and forming a connection between the Choctaw and Iron Mountain roads. The lease, it is expected, will run for eighty years, at a rental sufficient to pay the interest on \$600,000 bonds.—V. 70, p. 944, 841.

Cincinnati Street Railway.—New Stock.—The stockholders, it is stated, will vote at the annual meeting July 25 on a proposition to increase the capital stock from \$18,000,000 to \$20,000,000, to provide for improvements. The Cincinnati "Enquirer" says:

The first issue will probably occur about Oct. 1, and will be of \$650,000, to which the stockholders will be entitled to subscribe at par, providing the recommendation of the directors is concurred in by the stockholders. The present authorized capital is \$18,000,000, of which \$17,096.000 has been issued, the remainder being held in the treasury for the purpose of redeeming outstanding bonds of that amount.—V. 66, p. 810.

Cleveland Columbus Cincinnati Chicago & St. Louis Ry. —Mortgage Satisfied.—The \$3,000,000 mortgage made by the Cleveland Columbus Cincinnati & Indianapolis in 1869 and paid in 1899 is being satisfied of record.—V. 70, p. 439.

Cleveland Elyria & Western Ry. Co.—Consolidation.— This company was formed on June 20 by the consolidation of the Cleveland Berea Elyria & Oberlin Rv. Co., the Lorain County Railway Co. and the Oberlin & Wellington Ry. Co. The capital stock of the combined company is fixed at \$2,-000,000. See further facts in V. 70, p. 894, 995.

**Consolidated Traction Co. of Pittsburg.**—Lease Ratified. —The stockholders on June 20 ratified the lease to the Union Traction Co. per terms in V. 70, p. 995. The vote is reported as 432,473 shares in favor to 20,610 shares against the proposition; 48,0°0 shares are in litigation and could not be voted. The minority interest, it is stated, will continue their opposition in the courts. —V. 70. p. 995.

Cumberland & Ohio RR., Northern Division.—See Shelbyville & Bloomfield RR. below.—V. 70, p. 1095.

Dabuque & Sioux City RR.—Acquisition.—See Fort Dodge & Omaba.

Duluth Street Ry.—Reorganization and Consolidation.— See Duluth Superior Traction Co. below.—V. 67, p. 73.

**Duluth-Superior Traction Co.**—Reorganization and Consolidation.—A new company is being organized under the laws of Connecticut to take over the properties of the Duluth Street Railway Co. and the Superior Rapid Transit Railway. The new company it is proposed to call the Duluth-Superior Traction Co. The capitalization will be \$1,500,000 4 per cent cumulative preferred stock, \$3,500,000 common stock and \$2,500,000 first mort. 5 p. c. 30 year bonds. Of the latter \$500,000 will be reserved for improvements. The first mortgage bonds of the two constituent companies will be paid off or given the new bonds, bond for bond, the holders of all, or substantially all, these bonds having agreed to the terms offered.

The consolidated bonds of the Duluth Street Railway which have been deposited with Brown Bros. & Co. will receive 110 per cent in the new preferred stock and 90 per cent in common stock.—V. 62, p. 279.

Easton Consolidated Electric Co.—First Dividend.—The company has declared its first dividend,  $3\frac{1}{2}$  per cent, semiannual, payable July 23.—V. 70, p. 175.

Eureka & Palisade RR.—Receiver.—The United States District Court at Carson, Nev., on June 12 appointed Mark Requa of San Francisco as receiver for this road, Eureka to Palisade, Nev., 84 miles.

Fitchburg & Leominster Street Ry.—New Stock.—The Massachusetts Railroad Commission has authorized the issue of \$100,000 capital stock in addition to the present \$250,000.

Fonda Johnstown & Gloversville RR.—Increase of Stock.— The New York Railroad Commission has approved the proposition to increase the capital stock by \$309,000 in exchange for a like amount of stock of the Cayadutta Electric RR. (leased), raising the total issue to \$600,000.—V. 70, p. 1194, 1048.

Fort Dodge & Omaha RR.—Sale—Lease.—On June 16 this property was purchased by the Dubuque & Sioux City RR. Co., and was then leased by the latter to the Illinois Central. The new line, built by the Illinois Central, extends from Tara Station, near Fort Dodge, Ia., to Council Bluffs, Ia., 130 miles, and was opened Nov. 1, 1899.—V. 67, p. 956. Gulf & Inter-State Ry. of Texas.—Receiver.—Fox Winnie on June 16 applied to the Fifty-sixth District Court for the appointment of a receiver for the property. Judge Ernest D. Cavin will hear the case on July 9. Mr. Winnie states that he owns \$99,000 of the \$829,000 outstanding bonds, and that the interest thereon has been in default for more than two years. The floating debt, he claims, has increased over \$180,000 in the past two years. The mortgage provides that the request of a majority in interest of the bondholders is necessary to foreclose the mortgage. The complainant alleges that N. Weekes and A. H. Pierce, who own, or represent the majority of the owners of, the bonds are in possession of the road and have conspired together to prevent foreclosure.—V. 69, p. 795. Illinois Central RR.—Lease of Fort Dodge & Omaha. —See that company below (also V. 69, p. 130, 595, 1011; V. 67, p. 956).

Iowa Central Ry.—Change of Control.—On Wednesday Robert J. Kimball resigned the Presidency, and Edwin Hawley, President of the Minneapolis & St. Louis, was elected his successor. F. H. Davis, also the Treasurer of the M. & St. L., was chosen as Vice-President. L. F. Day, General Manager of the Minneapolis & St. Louis, was made Second Vice-President and General Manager of the Iowa Central. The following were elected directors to fill vacancies in the board:

Edwin Hawley, George Crocker, John E. Searles, L. C. Weir, President of the Adams Express Company; Edwin Langdon, President of the Central National Bank, New York; Paul Morton, Vice-President of the Atchison Topeka & Santa Fe; T. P. Shonts, President of the Indiana Illinois & Iewa RR., and L. F. Day.

Ex-President Kimball, it is stated, retains his interest in the property and will continue as director and member of the executive committee, and Mr. Morse, heretofore Vice-President, will remain as director and Treasurer. The Iowa Central is now controlled by the interests that dominate the Minneapolis & St. Louis, and the two properties will hereafter be operated in close connection to their mutual advantage. The Minneapolis & St. Louis, it is stated, is not directly concerned in the purchase of Iowa Central stock. and will not absorb that company by consolidation. The control was obtained through purchases of the common stock in the open market.—V. 69, p. 1346.

Kansas City Sonthern Ry.—Mortgage.—The company has made its mortgage for \$30,000.000 to the Mercantile Trust Co. of New York, as trustee.—V. 70, p. 1149, 945.

Kentucky & Indiana Bridge Co.—Reorganization Plan. —Judson Harmon and Judge Alex. P. Humphreys, the purchasers of the property, have filed at Louisville, in the United States Court, a plan of reorganization, to which holders of securities or creditors may, until June 26, state their objections. The hearing has been fixed for June 30. —The plan provides for the creation of #2 500,000, of 4 per

The plan provides for the creation of \$2,500,000 of 4 per cent bonds and of \$75,000 of capital stock, the latter to be owned by the Baltimore & Ohio S uthwestern RR., the Southern Ry. of Kentucky (owned by the Southern Ry. Co.), and the Chicago Indianapolis & Louisville RR. These companies, it is stated, have expended \$948,445 in the acquisition of the debts and claims, secured and unsecured, against the Bridge Company. This is additional to the \$1,700,000 paid for the property at the foreclosure sale.—V. 70, p. 1049, 280.

Lake Shore & Michigan Sonthern Ry.—Payment of Bonds.—The principal of the \$7,996,000 first consolidated mortgage and sinking fund bonds due on July 1 will be paid on the 2d day of that month by the United States Trust Co., No. 45 Wall St. The coupons payable on that day should be presented at the office of the Treasurer in the Grand Central Depot as heretofore. Fisk & Robinson offer at 10934 and interest a limited amount of the refunding morigage 31/2s, due 1997, and will accept in payment the first consols at par and interest to maturity.—V. 70, p. 996, 891.

Long Island Electric RR.—May Carry Freight.—The Court of Appeals at Saratoga on June 21 affirmed the judgment of the Appellate Division, Second Department, holding that the company, now merged in the New York & North Shore RR. Co., has the right to carry freight (see V. 69, p. 743, 1221).—V. 69, p. 906.

Louisville Bridge Co.—Decision as to Dividend Rate.— Judge Miller in the Chancery Court on June 19, at Louisville, Ky., handed down a decision in the case brought by the minority stockholders holding valid the contract entered into in 1877 reducing the dividend rate from 12 to 8 per cent and ordering judgment for the deficit in dividends paid below the latter rate. No dividends have been paid since February, 1899. The application for a receiver is denied. The claim of the Louisville & Nashville against the bridge company for rebates, amounting to \$500,000, is disallowed, the Court holding that the roads must settle that question between themselves. (See also V. 69, p. 80, 387.) The stock is \$1,500,000, about \$900.400 being owned by the Pennslvania. The amount due as dividends under the above decision is stated as \$262,500.—V. 70, p. 233.

Manhattan Ry.—Battery Park.—The company on Tuesday obtained from Justice Smyth of the Supreme Court a temporary injunction, returnable June 26, restraining the Commissioners of Parks and the city of New York from removing the elevated structures from Battery Park and adioining streets.

Transfers to Third Ave. RR.—See Metropolitan Street Ry. below.—V. 70, p. 1195, 945.

Metropolitan Street Ry.—*Transfers.*—President Vreeland announces that owing to the terms of a contract made between the Third Avenue RR. and the Manhattan Elevated for mutual and exclusive transfers, by which contract his company, as lessee, is bound for the next four years, he does not believe he will be able to give the upper West Side the benefits of the universal transfer privileges of the Metropolitan system.—V. 70, p. 1150, 1049.

Minneapolis & St. Louis RR.—Iowa Central Ry. in Same Control.—See Iowa Central Ry. above.—V. 70, p. 1195, 1150.

New Jersey & Hudson River Ry. & Ferry Co.—New Line.— The company ran its first electric car into Hackensack on Thursday.—V. 70, p. 430.

New York & North Shore RR.-Decision.-See Long Island Electric RR. above.-V. 70, p. 532.

Northern Pacific Ry.—Purchase of St. Paul & Duluth.— As stated below, the purchase of the St. Paul & Duluth RR.

has been duly arranged. It involves the assumption of all that company's indebtedness and the purchase of its common stock at 60 per share. The entire issue of preferred stock (3.895,032) was called for payment several weeks ago (see V. 70, p. 895), and the payment now announced will dispose of guide of the 44.660,207 common stock as a of such of the \$4,660,207 common stock as was not acquired from the syndicate, as stated in V. 70, p. 895. The funded debt of the St. Paul & Duluth aggregates about \$5,000,000, and its line extends from St. Paul to Duluth, with branches representing in all 245 miles of road. This total includes 19 miles held under lease. On June 19 a deed was filed at St. Paul by the St. Paul & Duluth Railroad Company, trans-ferring all its property to the Northern Pacific Company. The consideration named is \$2,799.824.

New Mortgage.—The Northern Pacific has filed a mortgage on the road acquired from the St. Paul & Duluth to the Guaranty Trust Co. of New York as trustee to secure \$20,-000,000 of 4 per cent gold bonds, of which only \$9,215,000 will be issued at present, this last amount representing the total cost of the road and its lands (about 1,000,000 acres) to the Northern Pacific. The bonds will be known as St. Paul & Duluth Division bonds, and will have the same date of maturity as the prior lien bonds of the Northern Pacific, viz., Jan. 1, 1997. They will be purchase-money bonds, and of the \$10,785,000 not immediately issued \$4,919,500 will be reserved for exchanging the existing St. Paul & Duluth bonds; the balance will be held for improvements to the property. *Earnings and Dividend.*—The estimated earnings for the

year ending June 30, 1900, are stated as follows

year ending state so, 1300, are stated as ronows.	
Gross earnings	\$29.981.265
Operating expenses.	14 324 407
Taxes	850,590
	000,000

Balance, surplus	\$1,925,755

President Mellen is quoted as saying:

The crops in the Northwest are not looking as well as we would like The crops in the Northwest are not looking as well as we would like to see them, and this being a Presidential year, the directors of the company decided to follow conservative lines in the matter of the div-idend. If we had declared a dividend at the rate of 4 p. c. per annum, we would have had a surplus of \$1,200,000. The road is doing splen-didly, and if in six months favorable conditions exist it will be time enough to place the common stock on a permanent dividend basis. The dividend declared Friday was not specified as being quarterly or semi-annual; it does not cover any stated period.—V. 70, p. 1195, 946.

Peoria Decatur & Evansville Ry.—Payment of Firsts.— It is expected that the first mortgage bonds will be paid on or before the first of the month. A new company is being organized to take over the property. -V. 70, p. 1150, 1049.

Reading Company.—See Central RR. of New Jersey above. -V. 70, p. 947.

St. Louis Southwestern Ry.-Interest Payment.-On and after July 2, 1900, interest will be paid on the second mort-gage income bond certificates at the rate of \$23.22 on each 51,000 certificate upon surrender of the coupon maturing July 1, 1900, at the office of the Mercantile Trust Co., 120 Broadway. This is the balance of the 4 per cent for the fis-cal year, as stated in V. 70, p. 687.

St. Paul & Duluth RR.-Payment of Common Stock.-Pursuant to the unanimous vote of more than two-thirds of the entire capital stock of the company at a meeting of the stockholders on June 14, 1900, the company has sold all its railroad and other remaining property to the Northern Pacific Ry. Co., in consideration of the assumption by the Northern Pacific Ry. Co. of all indebtedness of the St. Paul & Duluth and the payment of a sum in cash equal to \$60 for each share of the common stock of the St. Paul & Duluth. J. P. Morgan & Co., No. 23 Wall Street, will, upon surrender of the certificates of the common stock, duly indorsed for transfer, pay to the holders of such common stock the amount named

Executive Committee-C. P. Huntington, D. O. Mills, Charles H. Tweed, J. D. Probst and E. Hawley.

According to press dispatches from San Francisco the ac-quisitions of the syndicate to date include, in part, the fol-lowing: Crocker holdings (par value), \$29,000,000; Stanford, \$30,000,000; Searles (or a portion thereof), \$26,000,000; Hub-bard, \$2,000,000. We are informed that it is a mistake to say that Mr. Searles has parted with the whole of his stock, as he still has a large interest in the company.-V. 70, p. 1150, 1096.

Southern Railway Co.—Maturing Bonds.—Right to Re-fund.—The \$3,123,000 first mortgage 7 per cent bonds of the East Tennessee Virginia & Georgia RR. Co. which mature on July 1 will be paid upon presentation at the office of J. P. Morgan & Co., on the date of maturity. The company has reserved to the holders of the bonds the privilege of exchanging them for Southern Railway first consolidated mortgage 5 per cent gold bonds at 107½ ex July coupon, such exchange to be made either bond for bond with the difference in the price adjusted in cash or to the amount of the proceeds of the old bonds at the option of the holder. J. P. Morgan & Co. announce that having purchased from the Southern Railway Co. the amount of consols reserved to provide for payment of the above-named bonds, they are now prepared to make the exchange upon the terms stated.—Vol. 70, p. 1196,1150.

South Side Elevated RR. of Chicago.—See Chicago & South Side Elevated RR. Co. above.—V. 70, p. 481, 430.

Stockton & Tuolumne County RR.—Project Apparently Dead.—The rails for this proposed line are being returned to San Francisco, and it is thought the project is dead. See page 142 of INVESTORS' SUPPLEMENT.—V. 67, p. 323.

Superior Rapid Transit Co.—Foreclosure Sale.—This com-pany's property was sold at West Superior on June 16 under foreclosure of the second mortgage, and bid in by the Central Trust Co. for \$350,000. The road is to be merged with the Deluth Street By in a new corporation the Deluth Space. Daluth Street Ry. in a new corporation, the Daluth Superior Traction Co., which see above. Thomas Lowry, President of the Twin City Rapid Transit Co. of St. Paul and Minne-apolis, is reported to be one of those interested in effecting the consolidation.-V. 62, p. 279.

Third Avenue RR.—Receiver Discharged.—Hugh J. Grant was finally discharged as receiver on Tuesday in accordance with a motion granted by Judge Lacombe on June 18.-V. 70, p. 1050, 997.

Toledo St. Louis & Kansas City RR.—Reorganization Notice.—The reorganization committee, Frederic P. Olcott, Chairman, gives notice that the time for the deposit of common and preferred stock only has been extended up to and including July 15th, after which date no stock will be re-ceived except on payment of such penalty as may be imposed by the committee.—V. 70, p. 1196, 1150.

Wellington Grey & Bruce Ry.—Called Bonds.—Interest Payment.—The numbers are announced of £3,200 bonds which have been drawn, and will be paid at par at the offices of the Grand Trunk Railway Co. in Montreal, or at Dashwood House, New Broad St., London, E. C., on July 2d. The estimated earnings for the half-year ending June 30 applicable to meet interest on company's bonds will admit of the payment of £2 1s. 4d. on each £100 bond, and this pay-ment will be applied in respect of coupon No. 39, due Jan. 1st, 1890, and will be made on July 2d at the agency of the company in London.—V. 68, p. 1228. Wellington Grey & Bruce Ry.—Called Bonds.—Interest

White & Black River Valley RR.—Lease.—See Choctaw Oklahoma & Gulf RR. above.

#### INDUSTRIAL, GAS AND MISCELLANEOUS.

Acetylene Light, Heat & Power Co., Chicago.—Status.—

J. M. Morenead is quoted as saying: In our line there is no sign of any falling off in business or, indeed, in the business of any of the gas companies in the West. Our factory at Niagara Falls, where we manufacture onr calcium carbide, from which the gas is generated in union with water, is kept running night and day, and lately we enlarged its capacity. We ship this carbide in large quantities all over the country. In general manufacturing lines, too, men to whom I have talked tell me that they are kept busy. In fact, it seems that outside of steel and iron the business prosperity is just as substantial and great as ever.— V. 66, p. 708.

American Hay Co.-Incorporated.-The company was inth \$500,000 o recentl porated in New Jersey COI ized capital stock, consisting of \$250,000 each of eight per cent non-cumulative preferred and common stock, to take over and develop the business heretofore carried on by William C. Bloomingdale in this city. The officers are: President, William C. Bloomingdale, 95 Broad St., New York; Treasurer, Joseph Vollkommer; Secretary, William J. Bloomingdale.--V. 66, p. 470.

in cash.—V. 70, p. 1096, 947.

Shelbyville & Bloomfield RR.—Southern Railway Ceases to Operate.-The Southern Railway Co. on June 11 ceased to operate this line, formerly the Cumberland & Ohio, Northern Division.-V. 70, p. 532.

Sioux City & Pacific Ry.—Readjustment.—In accordance with the Act of Congress a commission is to be appointed to settle the indebtedness of the company with the United States.-V. 70, p. 739.

Sonthern Pacific Co.-Officers-Change in Stock Ownership.—The acquisition by the Speyer-Huntington syndicate of additional stock in the Southern Pacific Co. was made evident on June 13 by the election of H. E. Huntington, a nephew of President Huntington, to the Vice-Presidency, to succeed Gen. Thomas H. Hubbard, who voluntarily withdrew. The officers and executive committee are as follows:

Officers-President. C. P. Huntington; Vice-President, H. E. Huut-ington; Second Vice-President and General Counsel, Charles H. Tweed; Third Vice-President, J. C. Stubbs; Fourth Vice-President, J. Krultsohmit.

American Cement.—Dividend Increased.—The company has declared a semi-annual dividend of 3 per cent and an extra dividend of 1 per cent, payable July 16, to stockholders of record July 5. This is the second dividend, the first being 2 per cent with 1 per cent extra Jan. 15, 1900.—V. 70, p. 1096, 843.

American (Bell) Telephone & Telegraph Co.-Dividend. -The company has declared a regular quarterly dividend of 1½ per cent and an extra dividend of ¾ per cent, payable July 16 to stock of record of June 30. This is the first dividend on the stock since the absorption of the American Bell Telephone Co., and being just half the amount of the usual

July dividend on the old shares, which were recently exchanged for double their face value in the stock of the American Telephone & Telegraph Co., is understood to indicate the adoption of an annual rate of  $7\frac{1}{2}$  per cent, viz.: Jan.,  $2\frac{1}{4}$ ; April,  $1\frac{1}{2}$ ; July,  $2\frac{1}{4}$ : Oct.,  $1\frac{1}{2}$ . The rate paid by the old company for the last five and a-half years was 15 per cent per annum.—V. 70, p. 948, 942.

(D.) Appleton & Co.-Reorganization Plan.-The reorganization committee, James G. Cannon, Chairman, on Monday announced its plan of reorganization. The assets com-prise, besides the business of D. Appleton & Co., the lands and printing establishment of the Appleton Manu-facturing Co. and 85 per cent of the capital stock of the A. J. Johnson Co., the owner of the "Johnson Universal Ency-clopedia." The committee, basing their valuations and examination on expert opinions, state the combined value of the assets as \$3,224,787, and the total of all liabilities as \$1,-346,696.

The plan of reorganization provides for the unifying of title and ownership of the three business establishments into the new corporation of D. Appleton & Co., with capitalization as follows:

- Syndicate notes for. \$250,000 Running for a short period and sold to the underwriting syndicate for the cash purposes of the plan.

Oapital stock. \$3,000.000

The general creditors are to be paid 25 per cent in cash and 75 per cent in the 6 per cent mortgage gold notes. The preferred obligations, such as taxes, wages, interest on mortgage, royalties, etc., amounting to \$176,699, are to be paid in full. Cash working capital of \$250,000 is to be provided. It is believed that William H. Appleton will be made Pres-

ident of the new company, and James G. Cannon, Chairman of the board of directors. The consummation of this plan, it is believed, will place the new company upon a firmer basis than its predecessor, and insures for the reorganized D. Appleton & Co. even a wider field of activity and influence.-V. 70, p. 843, 586, 582.

Arkansas Co. of Lester, Ark.-Mortgage.-The company has made a mortgage for \$250,000 to the Union Savings Bank & Trust Co. of Cincinnati, as trustee. The Arkansas Com-pany, it is stated, is capitalized at \$3,000,000, and owns 15,000 acres of timber and mineral lands and 9 miles of railroad property. It is engaged in the lumber business, the manufacture of fire brick and the hi-products of coal. The bonds, partly placed in Cincinnati, are for improvements on the property. Henry Bailey, formerly of Cincinnati, is said to be connected with the enterprise.

Bear River Irrigation & Ogden Water-Works Co.—Sale. —The sale of the Ogden Water-Works system to Thomas D. Dee and associates was confirmed by Judge Marshall in the United States Court at Salt Lake on June 15. The sum to be paid is \$400,000 in first mortgage bonds to be issued by the purchasers.—V. 69, p. 1014.

Bethlehem Steel Co.-Earnings.-The statement for the year ended April 30, 1900, it is stated, shows income from

Stockholders upon payment of \$500 for each ten shares of stock of old company will receive a \$500 bond of the new company and five shares of new stock; \$200 must be paid upon deposit of the old stock on or before July 16. The holders of receipts for stock already deposited under agreement of July, '99, must present them for exchange into certificates of deposit and pay \$200 thereon on or before July 21. The second payment of \$200 is called for Aug. 15 and \$100 Sept. 15.

All securities must be deposited on or before July 16.-V. 68, p. 1074.

Calumet & Hecla (Copper) Mining Co.-Fire Over.-The "Boston News Bureau" on Wednesday said:

"Boston News Bureau" on Wednesday said: The tomperature at the mine shows that the fire lasted about four weeks. The mine will be fully opened this week, but it may be some weeks before operations are resumed in the burned shaft. The full number of men at work on regular production cannot be immediately restored for the burned shaft was in the richest part of the mine. It is understood to be the policy of the company to carry above ground a reserve in mineral and other forms in process of nearly 25,000.000 lbs. of copper, or about a three months' supply. The management of the fire demonstrates the wisdom of President Agassiz, who, since the previous fire, has had every shaft isolated from every other shaft, and although the escaping gases prevented workmen from entering the other shafts, the fire was confined, by reason of the scientific fire preparations that had been made, to this single shaft, wherein it was smothered.-V. 70, p. 1097.

Canadian Steel.—New Enterprise.—This company, au-thorized capital stock \$18,000,000, was recently chartered by the Dominion Parliament, and is preparing to construct a large plant at the mouth of the Welland Canal. Vice-President F. E. Hinckley, 30 Wall St., is quoted as saying:

Our plant when completed will cost about \$25,000,000. We are mak-ing preparations as rapidly as possible, and already have bids covering practically all parts of the work. We have 200 acres for a site on the Welland Canal. After we get fairly started with the work of con-struction we should be able to complete the plant in about a year. It will have a daily output of 1,000 tons of finished steel products, in-cluding rails, beams, plates and the various other staple atticles.

Of the \$18,000,000 authorized stock, \$4,000,000 is to be preferred. The directors are: E. A. C. Pew, of Toronto, President; F. E. Hinckley, of New York, Vice-President; John H. Hardabeck, of Kankakee, Ill.; James Young and E. M. Butz, of Pittsburg.

Canton Company of Baltimore.—Purchase of Stock.— Notice is given to the stockholders that \$50,000 will be expended in the purchase of the shares of the company's capital stock for cancellation, in accordance with its charter. All offers in writing and inclosed in sealed envelopes and en-dorsed "Proposals to sell stock" will be considered if received by 12 M. June 28.-V. 70, p. 897.

Central Station Heating Co.—Stock Offered.—W. E. Hut-ton & Co. of Cincinnati are receiving subscriptions for 10,000 shares of the company's capital stock, both common and preferred, "full paid and non-assessable." The comand preferred, "full pair and non-assessment." In the pany, it is stated, controls the inventions, rights and the services of the inventor, Col. Isaac D. Smead, formerly of Toledo, O., for heating buildings from central stations, including his stand-pipe system and hot-water lines. The company owns the sole right to operate in Ohio, Kentucky, Indiana and Michigan, and as parent company will share in the profits of the local companies to be organized. The capital stock is \$500,000 6 per cent preferred stock and \$1,500,000 common stock, all full paid. W. E. Hutton is President and Treasurer. Many small stations, it is said, are now in satis-factory operation. General offices, No. 110 East Third St., Cincinnati. O.

Chicago Junction Railways & Union Stock Yards Co.--Decision.-The United States Court of Appeals, at Chicago, on June 14, affirmed Judge Kohlsaat's decision that the terminal tax imposed by railways at the stock yards is reasonable, and not excessive. It is said that the Inter-State Commerce Commission will appeal the case to the Supreme Court of the United States for a final decision. See V. 69, p. 1167, 1195.

Bonds Offered.—See advertisement on another page. Lien of New Bonds.—The new 4 p. c. 40-year mortgage and collateral trust refunding gold bonds are secured as follows:

By first mortgage on about 700 acres of land at Tolleston, Lake Co. Ind., by the deposit with the trustee of 9,203 shares Union Stock Yards & Trarsit Co. stock, and 21,990 shares of a total issue of 22,000 shares Chicago Junction Railway Co. stock, and by a lien subject to that of the Chicago Junction Railways & Union Stock Yards Co. col-lateral trust 5 per cent bonds of 1915 upon the 120,000 shares Union Stock Yards & Transit Co. stock piedged as security for that issue. Treasurer Wm. C. Lane writes as follows: The company owns over 9S per cent of the capital stock of the Union Stock Yards & Transit Co. of Chicago, 21,990 shares (of a total issue of 22,000) of the capital stock of the Chicago Junction Railway Co., and about 700 acres of land in Tolleston, Lake Co., Ind. The Union Stock Yards & Transit Co. owns over 450 acres of land in the heart of Chicago, fronting on Halstead St., and on the south branch of the Chi-eago River. The new mortgage is to provide that the Union Stock Yards & Transit Co. is not to place any mortgage upon its property so long as the new bonds are outstanding. The Chicago Junction Rail-way Co. operates under lease all the railroads owned by the Union Stock Yards & Transit Co., and owns an outer belt line crossing all railroads entering Chicago, together with terminals of great value. The total mileage is 211.31 miles of track. The property owned by the railroad company has great present, as well as prospective, value, independent of its relations to the Stock Yards Co. The present bond issue will by the redemption now provided for of the income bonds and notes decrease fixed charges \$60,000 yearly. The expenditure upon the property of \$1,000,000 cash, the proceeds of these bonds, will also tend to materially increase the earnings. Both the earnings of the Union Stock Yards & Transit Co. and the Chicago Junction Railway Co. are in excess of the dividends which they pay, and it has been the policy of the management to leave the surplus earnings in the treasuries of the compaties which earn them, to be used when needed for improvements, extensions and bet-terments.-V. 70, p. 897, 843. Treasurer Wm. C. Lane writes as follows:

operations, charges, etc., as follows:

Income from	Iron Co.	Steel Co.	Balance
Operations.	Rental.	Dividend.	Surplus
\$2,122,000	\$450,000	\$600,000	\$1,072,000
-V. 70, p. 383.			

Bristol Land Co.-Payment on Bonds.-A payment of \$12 10 will be made upon each of the outstanding first mort gage 4 per cent bonds dated March 1, 1890, upon their pro-duction to the Central Trust Co., No. 54 Wall Street, N. Y.

Butte City Water Co.—Reorganization Plan.—The reorganization committee, consisting of Stephen M. Crosby, Joseph S. Ricker, George H. Lyman, Albert S. Bigelow and Edward C. Perkins, has prepared a plan of reorganization, copies of which may be obtained at the office of the Massachusetts Loan & Trust Co., the depositary, in Boston. The plan provides for the formation of a new company which will issue \$2,500,000 20 year first mortgage 5 per cent gold bonds and \$1,000,000 common stock; par value of shares \$25. O'd bondholders will receive 50 per cent in new bonds and two shares of new stock for each bond of the old company. Holders of scrip given for unpaid coupons will be paid 50 per cent in cash at time of delivery of new bonds.

Cincinnati Leaf Tobacco Warehouse Co.-Reorganization Plan.—At a meeting of the leading stockholders on June 17 a new plan of reorganization was adopted. This plan is described by the "Cincinnati Tribune" as follows :

The plan embraces a reduction of the capital stock to \$1,650,000, to be all of one class, and every share to enjoy equal voting power. This represents the amount of the present preferred stock, and reduces the capital the total amount of the present common-\$850,000. The hold-er of 100 shares of preferred stock to receive 88 shares of the new stock, and the holder of 100 shares of common to receive 25 shares of the new. The committee's report shows that the earnings are at least 7 per cent on the proposed new capital stock, and recommends that a dividend of 6 per cent annually be provided for the new stock, and the extra 1 per cent be placed to a surplus account.

The reorganization committee selected to carry the plan into effect consists of Bradford Shinkle, C. H. Davis, Joseph Rawson, Judge John Hodge, of Newport, and James M. Hutton,-V. 70, p. 1097, 1051.

Cleveland (Bell) Telephone Co.-Increase of Capital Stock. -On June 14 the stockholders adopted the recommendation of the directors to increase the capital stock \$1,000,000 for the purpose of completing and establishing in the city nine branch offices and increasing the number of subscribers to 25,000. This raises the capital stock to \$4,000,000.

Consolidated Car Heating Co.— Extra Dividend.—The "Albany Argus" of June 13 said:

At the annual meeting of the company at its offices on North Pearl St. yesterday a regular semi-annual dividend of 1<sup>1</sup>9 per cent was declared and an extra dividend of 3<sup>1</sup>2 per cent, both payable Aug. 1 to share-holders of record at 3 P. M. July 16. The report showed that the earnings for the fiscal year exceeded 8 per cent on the stock outstanding. With the 2<sup>1</sup>2 per cent dividend paid in February last, the return to stockholders will be 7<sup>1</sup>2 per cent in dividends for the year.

Robert C. Pruyn is President; E. A. Groesbeck, Secretary; Frederick W. Kelley, Treasurer. The directors are:

Robert C. Pruyn, Charles Tracey, D. D. Sewall, Frederick W. Kelley, James F. McElroy, Robert C. Blackwell, Anthony N. Brady, E. A. Groesbeck. James W. Hinkley, C. H. Jackson, Albion Little, H. S. Osgood, Charles J. Peadody, Richmond P. Scales, George Westing-honse, Jr.-V. 70, p. 232.

Consolidated Gas Co. of Baltimore.—Negotiations.—New York capitalists have this week been conferring with Balti-more interests represented by Alexander Brown & Co. upon the question of leasing or purchasing the property. No definite proposition to this end has been made public. In Baltimore, however, the expectation was that an offer would be made to lease the property at a gnaranteed dividend of 3½ per cent upon the stock, cash to be paid for the stock of holders who do not favor the lease. As to the status and possibilities of the property, see V. 70, p. 1093. The New York men, it is stated, include several identified with the Standard Gras Co : also Mr Wilson of Wilson & Stephens Standard Gas Co.; also Mr. Wilson of Wilson & Stephens, who is reported as expressing satisfaction with the present management and as saying that no offer has been made for the property.—V. 70, p. 1197, 1097.

Consolldated Gas Co. of New York.—Increase in Price of Gas.—Secretary O F. Zollikoffer on Monday issued the foi-lowing notice: "Oa and after June 20 instant the price of gas supplied by this company will be restored to the legal rate of \$1 05 per 1,000 cubic feet." The law passed in 1897 provides that the price of gas shall be reduced to \$1 per 1,000 cubic feet in 1901. See the law in V. 64. p. 100; V. 70, p. 1197, 1150. On June 21, also, the New York Mutual Gas Co., on June 22 the New Amsterdam Gas Co., began charging \$1 05 per 1,000 cubic feet. The Standard Gas Co. announces that its price for gas will be \$1 05 per 1,000 cubic feet on June 25. This will make the price uniform except in a few cases where long-term contracts exist.-V. 70, p. 1197.

Distilling Co. of America.—Additional Working Capital. -President Rice says : "The agreement which stockholders are requested to sign to form a voting trust for five years provides that the trustees may raise additional capital in such ways as they may deem advisable, provided, however, that such means to be proposed shall not involve an assessment of any sum of money to be paid by said stockholders." It is unofficially suggested that the Kentucky Distilleries bonds, amounting to \$5,000,000, now in the treasury, may be used to supply the additional working capital. Stockholders are required to deposit their certificates of

preferred and common stock under the terms of the agree-ment prior to July 1, 1900. See advertisement in this issue, and also V. 70, p. 1(97.

ducers and purchasers will within the next two or three months mu-tually agree upon a satisfactory basis, and that this will result in the sale of large quantities of steel and iron. So far as our companies are concerned, more is being sold now than during last month, and there is a considerable demand for export. Some of our mills, which have been closed for a short time, including the rod mills at Joliet, open to-day.

day. I do not at present see any great reason for discouragement. The business prosperity of this country has not, in my judgment, received a permanent set-back. The published statements that the company, or its constituent companies, have, in making contracts of sale, guar-anteed prices, and therefore must suffer loss, have no foundation whatever. We still have a large tonnage of unmanufactured products booked at fair prices, and the contracts are firm and unconditional.— V. 70, p. 1052. V. 70, p. 1052.

Fulton (N.Y.) Water-Works.-Called Bonds.-The \$100,000 bonds of Feb. 1, 1891, have been called and will be paid on presentation at the Atlantic Trust Co. of New York on Feb. 1, 1901, on which day interest ceases. They will also be paid by the company at any intervening date.—V. 70, p. 1197.

Havana Commercial Co.—Dividends—Loan.—The "New York Sun" on Thursday said :

The decline in the preferred stock unquestionably foreshadows the suspension of dividends. It is asserted by officers of the company that its profits are satisfactory, but, as is well known, it borrowed about \$1,0; 0,000 from a syndicate of bankers several months ago to provide additional working capital. This loan will not mature for some time, but the management has doubtless considered it wise to liquidate this obligation before making any further distribution of profits. The preferred stock, it may be noted, is entitled to 7 per cent cumulative dividends. --V. 70, p. 840.

Herring-Hall-Marvin Co.-Sale Confirmed.-At Trenton, N. J., on June 18, Judge Kirkpatrick in the United States Circuit Court confirmed the recent sale of the property to a representative of the reorganization committee for \$100,000. The plan of reorganization is in V. 68, p. 232, and the modification in V. 70, p. 689.—V. 70, p. 1098, 844.

Manhattan Telegraph Co.-Called Bonds.-Six of the first mannattan Istograph of the way for payment, viz.: Nos. 10, 75, 78, 121, 141, 146. These bonds will be paid on July 2 at No. 124 Water St., N. Y. City.-V. 69, p. 1304.

Manhattan Typewriter Co.-Receiver.-President Edward W. Wilson on June 21 applied to Vice-Chancellor Emery, at Newark, N. J., for the appointment of a receiver. The case will be heard next Tuesday. The receivership is pre-liminary to a reorganization on the following lines:

The cancellation of the [present issue of \$750,000 first mortgage bonds and the making of a new issue of first mortgage bonds of \$600,-000 and \$400,000 of debentures, the old bonds to be surrendered in exchange for those of the new issues. The agreement further provides for the purchase of \$250,000 of the new first mortgage bonds for the benefit of the treasury of the company.

A majority of the bondholders has signed an agreement embodying these terms. It was hoped to avoid a receivership, but a minority interest objected and foreclosure will probably be necessary.-V. 69, p. 336.

Monongahela Water Co.-New Stock.-The stockholders will vote July 31 on increasing the capital stock of the com-pany \$100,000. The proceeds will be expended in building an overhead coal siding, the purchase of a new 5,000,000gallon pumping engine and the extension of the pipe system in the West End and McKees Rocks. Shareholders, it is stated, will be given the privilege of taking the stock at par pro rata to their present holdings. The \$2,000,000 stock now outstanding is listed on the Pittsburg Stock Exchange.

New Amsterdam Gas Co.—Price of Gas.—See Consolidated Gas Co. above. - v. 70, p. 1197.

New England Gas & Coke Co.—Price of Gas.—In the Mas-sachusetts House on Wednesday the Engstrom Bill calling for 75 cent gas in Boston was substituted for the report of the committee, which was adverse to the adoption of the measure. On Thursday the House refused to advance to a third reading the McPherson Bill to compel the incorporation of the company, now a voluntary association. "Rialto" in the "Boston Advertiser" expresses the opinion that neither bill will become a law.-V. 70, p. 1052.

Niles-Bement-Pond Co.—Control of Pratt & Whitney Co. —See that company below.—V. 69, p. 1065.

Northern Liberties Gas Co. of Philadelphia.-Lease.-The stockholders will vote July 2 on the recommendation of their trustees that the property be leased for 99 years to the United Gas Improvement Co., which also controls the Equitable Illuminating Gas Light Co. of Philadelphia. The Northern Liberties Company has outstanding \$475,000 capital stock in \$25 shares, and has paid dividends of 8 per cent per annum M&S. Ogden Gas Co. of Chicago.-Franchise.-The City Council of Chicago on June 18 passed an ordinance amending the original Ogden Gas franchise to permit the company to transfer its property to the People's Gas Light & Coke Co., upon the condition that the purchasing or leasing corporation be subject to and perform the obligations resting upon the Ogden Company to the city. Owing to charges of bribery, it is thought that Mayor Harrison may veto the ordinance.-V. 70, p. 999.

Electric Vehicle Co.-Increase of Stock.-The stockholders on Wednesday unanimously adopted the proposition to increase the capital stock from \$12,000,000 to [\$18,000,000. See V. 70. p. 1197.

Erie Telegraph & Telephone Co.-Stock Increase by Controlled Company.-See Cleveland Telephone Co. above.-V. 70, p. 1197, 1150.

Federal Steel Co.-Status.-President E. H. Gary, of Federal Steel, who returned last week from a tour of inspection of the company's plants, is quoted as follows:

of the company's plants, is quoted as follows: We found all the properties in good condition, and the mills and transportation companies reasonably busy. The mills in the aggre-gate are producing about 75 per cent of their total capacity. The ore inlines and the coal mines are working to their full capacity, the for-mer mining and shipping a materially larger tonnage than last year at the same time. New business undoubtedly is rather dull, purchasers evineing a disposition to buy only for immediate wants. This results from various causes already well advortised. There is an inclination to wait until it is determined whether or not prices will be readjusted. Manufacturers generally would be glad to see some reductions in prices of a few of the finished products; but it seems impracticable to do much at present in this direction, for the reason that manufacturers themselves are obligated on old contracts for purchases of raw material at large prices. It is believed the pro-

Oklahoma Water-Works Co. -Proposed Sale. - The com-pany has offered to sell its plant to Oklahoma City for \$35,-000. See State and City Department.

Ontario Lake Superior Co.-Subsidy for Railroad.-The Government of Outario, it is stated, has grauted a bonus to the Algoma Central Railway of 7,400 acres of land per mile of road. This is additional to a money bonus from the Dom-inion Government of \$3,200 per mile. The line is to run about 200 miles through a mineral and timber district, and is owned by the Ontario Lake Superior Co., which is allied to the Consolidated Lake Superior Co., both having the same officers and to a great extent the same stockholders, though in no way does either control or own stock in the other.

Second Instalment on Preferred.-In accordance with the terms of the subscription agreement to the preferred stock, the second payment of 20 per cent (\$10 per share) will be due and payable at the office of the Provident Life & Trust Co., 409 Chestnut St., Philadelphia, on July 20, 1900. (See V. 69, p. 909). -V. 70, p. 40.

Pennsylvania Steel Co.—Position as to Dividends.—E. B. Morris, President of the Girard Trust Company, Phila delphia, and a director of the Pennsylvania Steel Co., is quoted as saying:

quoted as saying:
Numerous requests are made for an explanation why no dividend has been declared upon the common stock. The reason is manifest. The business of the company has increased from gross sales of \$5,-000,000 three years ago to \$17,000,000 last year. In the first five months of this year the value of products shipped has been over \$10,-000,000, and sufficient orders are now on hand to keep the works in operation for four or five months ahead at prolitable prices. It is impossible for the company to pay for supplies promptly so as to get the best cash prices. and at the same time carry on a volume of business three and a half times as great as formerly, with the previous capital.
There is no trouble about paying dividends if the owners of the property will furnish sufficient capital to do the business afforded. It should not be done at present if they do not; every dollar madelast year and this will be needed for working capital. Last year nearly \$1,500,000 was thus secured out of profits. This year the amount gives promise of being considerably more. Every dollar of these sums is in active service.

active service.

In addition to a varied product shipped in this country, bridges and rails are being exported all over the world; Russia, India, Japan. Australia, Africa, Norway, and many other places. Last month 25,-000 tons of rails were ordered for Mexico, Canada and India. I say this without any consultation with the officers of the company, and they are merely my personal views.-V. 70, p. 582.

Peorla (III.) Gas Light & Coke Co.—New President.—Mr. W. B. McKinley, of Champaign, Ill., the President of the Urbana & Champaign Railway, Gas & Electric Co., writes:

I find your letter of June 9 upon my return from the West. Theitem you enclose is a fake newspaper report and not correct. It is true that the Peoria Gas Light & Coke Co. of Peoria has changed hands; that I have been elected President of same, Mr. Geo. E. Macomber of Augusta, Me., Secretary and Treasurer, and Mr. Little, of the new gas company one of the directors.—V. 70, p. 1197.

Pittsburg Valve & Construction Co.-. Prospectus.--George B. Hill & Co. of Pittsburg have sent out circulars regarding the underwriting of this company, which they propose to organize under the laws of Pennsylvania, with \$4,000,000 capital stock, of which \$2,000.000 7 per cent cumulative preferred; par value of shares, \$100. All the stock will be issued full paid, the \$2,000,000 preferred being offered at par, each share to be accompanied by one share of common stock as bonus. The proceeds will be used for the following purposes, viz : (1) To provide \$450,000 cash as working capital; (2) to acquire the real and personal property, plants, machinery, equip-ment, patents, and trade marks of the following Pittsburg concerns:

Atwood & McCaffrey, Shook-Anderson Manufacturing Co., Best Manufacturing Co., Pittsburg Valve & Machine Co. and the pipe-fit-ting plant of the Wilson-Snyder Manufacturing Co.

It is expected that Mr. Atwood, of Atwood & McCaffrey, will be elected President. The business of the firms in question is that of pipe, valve and steam fitting and pipe manipulation for high steam pressure. The new company, it is claimed, will own or control exclusive rights to the most valuable processes and appliances in use in its various lines. The properties will be taken over free and clear of all debts and incumbrances, except the leases for the land occupied by the plants of the Shook Anderson Company and Pittsburg Valve & Machine Co., said leases running for 4 years and 18 years, respectively, from April 1, 1900. The prospectus says:

Taking into consideration the saving in fixed charges and operating expenses and the fact that since the plants of the five concerns have been under option, their sales have been from January 1, 1900, to June 1, 1900. \$1,066,553, or at the rate of \$2,559,727 per annum.[a conservative estimate places the future annual average net earnings of the new corporation at upwards of \$500,000. An aunual net earn-ing of this amount will pay an annual dividend of 7 per cent, amount-ing to \$140,000 on the preferred stock and an annual dividend on the common stock, and permit a substantial amount to be placed to the credit of the surplus account.

Pratt & Whitney Co.—Readjustment—Guaranty.—The "Hartford Courant" says:

The stockholders will receive in a few days a circular describing the

dated Jan. 20, 1893, executed by and between Post, Martin & Co. and the said railway company and numbered 15 to 41, both inclusive, and 43 and 44 and 78 and 79 to 84, both inclusive, and 66 to 73, both in-clusive. The par of unpaid principal of each of which lease warrants is \$9,500 72, except No. 41, which is \$9,695 05.-V. 70, p. 1099.

Springfield (0.) Light & Power Co.—Called Bonds.—Two bonds dated Jan. 1, 1892, viz., Nos. 45 and 115, will be paid at 106 and interest on July 1, at the Massachusetts Loan & Trust Co., in Boston.

United Gas Improvement Co.-Lease.-See Northern Liberties Gas Co. above.-V. 70, p. 1053, 1000.

United States Brewing Co.-Dividend.-The company has declared a dividend of 4s per share, less income tax, on preferred shares, for three months to March 31st, 1900, payable July 2d, Instead of 5s per share for six months to June 30th, as in former years, the auditors having advised that the dividends on the preferred shares should not at present be paid beyond the end of the financial year.-V. 69, p. 1198.

United States Mining Co.—Voting Trust.—The pooling committee has transferred the stock deposited with them to Robt. D. Evans, Sidney W. Winslow and Jos. S. Ricker, to be held by them as voting trustees for three years from Jane 14. The certificates of deposit issued by the pooling committee are being exchanged at the Old Colony Trust Co. for the trust certificates.—V. 70, p. 850, 538.

- We are in receipt of the "Western Union Telegraph Code and International Cable Directory (Universal Edition)," compiled and published by the International Cable Directory Company, 30 Broad Street, New York. Since the first issue of the code, in 1898, its scope has been greatly extended in all departments. The list of subscribers has increased about four-fold, and now embraces most of the prominent firms in all lines of business in the United States and Canada and many in foreign countries. The code words, which have been taken from the official vocabulary adopted by the International Bureau at Berne, Switzerland, have been largely added to, numbering now about 173,000, or nearly 30,000 more than in the former edition. The work gives evidence of much care in its preparation as well as a desire to cover as far as possible all phrases likely to be used in cabling. The code has been placed in the principal offices of the Western Union Telegraph Company in all cities and towns of 2,000 population and upward in the United States and Canada, as well as in cable offices in Cuba, Mexico, Great Britain, Japan and other countries. This work has been adopted by the United States War Department, by the United States and Canadian Commissioners to the Paris Exposition of 1900, by all departments of the Canadian Government, and by the largest banking, mercantile and manufacturing concerns largest banking, mercantile and manufacturing concerns throughout the world. The price of the book to subscribers is \$15, which includes placing the name, street address, line of business and cable address in the directory. For the book alone \$10 is charged.

-The "Railway and Engineering Review" of Chicago has issued a portrait souvenir edition under date of June 16, arranged in honor of the Master Car Builders and the Ameri-can Railway Master Mechanics' associations, which have been holding a convention this week in Saratoga. The number is an attractive one. Besides the usual valuable and interesting features, it contains an almost complete photo-graph gallery of the officers and members of the associations.

-C. I. Hudson & Co. call attention to several prime European investment securities, regularly quoted and dealt in on all German Exchanges, market prices of which have declined lately for special reasons. These securities can be bought and sold at any time through Messrs. Hudson & Co. The advertisement offering the securities is on the last page of this issue of the CHRONICLE.

The holders of certificates of deposit issued by the National City Bank of New York for stock of the New Am-sterdam Gas Company, deposited under the agreement of May 15th, 1900, are notified that upon presentation of such certificates at the said bank, debentures of the Consolidated Gas Company will be delivered therefor in accordance with the terms of the said agreement.

-Coupons No. 6, due July 1, of the Union Pacific RR. Co. first mortgage 4 per cent bonds will be paid at maturity at the office of the company. Coupons Nos. 2, 3, 4 and 5 are payable by the Mercantile Trust Co. of New York. The books for the registration and transfer of the bonds will close on Saturday, June 23, and will reopen on July 2. - Attention is called to the offering by Messrs. Strong, Sturgis & Co., New York, and Messers. Lee, Higginson & Co., Boston, of the four per cent forty-year refunding gold bonds of the Chicago Junction Railways & Union Stock Yards Co. Full particulars of the issue will be found in our investment news columns.

plan under which the control of the company will be acquired by the Niles-Bement-Pond Co. [V. 69, p. 1065.] The combination has bought a large quantity of the common stock at \$10 per share, and proposes to scale the preferred stock to 70 and guarantee 6 per cent oividends on that basis. The preferred capital is \$1,750,000, and scaling it 30 per cent will reduce it to \$1,225,000. There is about \$500,000 due on the 8 per cent cumulative dividend, but this appears it be only a dream now. The common stock capital is \$1,525,000, and if the com-bination pays \$10 per share for all this, the control of the company will have been acquired at a cost of \$152,500.-V. 68, p. 673.

Quicksilver Mining.-Dividend.-A dividend of one-half of one per cent has been declared on the preferred stock, payable July 16. The last previous dividend was paid at this rate on May 5, 1899.—V. 63, p. 1077.

Railroad Equipment Co.—Sale.—The Atlantic Trust Co., as trustee under two deeds of trust, the one bearing date Feb. 1, 1893, applicable to Series A 99 bonds, and the other, dated Nov. 2, 1896, applicable to Series A 99a bonds, will sell at public auction by Richard V. Harnett & Co., auctioneers, on July 2, 1900, at the New York Real Estate Salesroom, No. 111 Broadway, the securities held as security for the bonds now outstanding. The securities so to be sold are :

Lease warrants originally executed by the Toledo Ann Arbor & North Michigan Railway Co., known as Series A-99, under contract

Coupons due July 1 from Oregon Short Line RR. Co. con-solidated mortgage 5 per cent bonds, Utab & Northern Ry. Co. first mortgage 7 per cent bonds and Utah & Northern Ry. Co. consolidated mortgage 5 per cent bonds will be paid at maturity at the office of the Treasurer of the Oregon Line.

The North American Trust Company has removed to its spacious new offices in the new North American Trust Company Building, 135 Broadway, corner Cedar St.

-"THE SARATOGA LIMITED," commencing June 23d, leaves Grand Central Station every Saturday at 1:50 P. M.; other week days at 3:20 P. M, running at the same speed as the "Empire State Express" and stopping only at Troy.

### THE CHRONICLE.

[VOL. LXX.

# The Commercial Times.

#### COMMERCIAL EPITOME. FRIDAY NIGHT, June 22, 1900.

Developments in the speculative markets have been the important features in commercial circles the past week. Wheat has continued active at advancing prices, based on the reports of a partial failure of the Spring-wheat crop, and on Wednesday there was a bear panic in cotton, the result of unfavorable crop news from the Mississippi Valley. General business has been quiet, but no important price changes have occurred. Some authorities have been disposed to take a more hopeful view of the iron and steel situation, believing that prices have finally weakened to about a basis which will be considered reasonably safe by buyers. The political situation in China has been followed closely and has begun to be something of a factor in several lines of merchandise. A feature of the week has been the Philadelphia Convention and the naming of the candidates of the Republican Party for President and Vice-President.

Lard on the spot was quiet early in the week, but prices were firmly maintained. At the close there was a sharp advance, final prices being 7.15c. for prime Western and 6.55c. for prime City. Refined lard closed firm and higher at 7.30c. for refined for the Continent. Speculation in lard for future delivery was quiet during the fore part of the week, but at the close, on small receipts of hogs, higher prices for the same, and buying by shorts to cover contracts, prices advanced sharply.

#### DAILY OLOSING PRICES OF LARD FUTURES.

Brazil grades of coffee have had only a very moderate sale, and owing to the falling off in the demand and the beginning of the new crop movement in Brazil, prices have weakened slightly, closing at 8½c. for Rio No. 7 on the spot. West India growths also have been quiet, but as there has been no pressure to sell prices have held steady at 10 ± 10½c. for good Cucuta. East India growths have been quiet but steady. Speculation in the market for contracts has been quiet but under increasing receipts at primal points and some selling by longs to realize profits, prices have weakened. The close was steady. Final asking prices were.

Raw sugars have been in fair demand, but offerings have continued small and prices have held firm at  $4\frac{5}{8}$ c. for centrifugals, 96 deg. test, and  $4\frac{1}{6}$ c.for muscovado, 89 deg test. Refined sugar has been in fairly active demand and firm, closing at 5.55c. net for granulated. Teas have been in better demand, and at the regular auction sale higher prices were paid.

Kentucky tobacco has been in moderate demand and steady. Seed leaf tobacco has had a more active sale and at steady values. Sales for the week were 2,565 cases, as fol-lows: 400 cases 1899 crop. New England Havana seed, forced and natural sweat, 14@50c.; 150 cases 1899 crop, New England seed leaf, 30@32c.; 1,000 cases 1898 crop, Onondaga, 16<sup>1</sup>/<sub>2</sub>c.; 400 cases 1899 crop. Onondaga, 7@8c.; 150 cases 1899 crop, Connecticut and State fillers, 6c.; 150 cases 1898 crop, Wisconsin Havana, 11@13c.; 140 cases 1898 crop, Pennsylvania seed, 11 @12c.; 125 cases 1898 crop, Zimmers, 13@15c., and 50 cases 1898 crop, Gebhardt, 13c.; also 550 bales Havana at 50c.@ \$1 00 in bond and 200 bales Sumatra at 80c.@\$1 75 in bond. Business in the market for Straits tin has been quiet, but prices for supplies for prompt delivery have been advanced, closing at \$31 10@31 50. Ingot copper was quiet, but prices held fairly steady at  $16\frac{1}{2}$ c. for Lake. There has been less pressure to sell lead and prices have advanced, closing at  $3.87\frac{1}{2}$ c. Spelter was dull and easy at 4.15@4.20c. for domestic. Pig-iron has been dull and easy, closing at 17.50@ 21.50c. for domestic. Refined petroleum has been unchanged, closing at 7.85c. in bbls., 5.30c. in bulk and 9 15c. in cases. Naphtha unchanged at 9 55c. Crude certificates have been neglected. Credit balances unchanged at \$1 25. Spirits turpentine has been quiet, and prices have weakened to 46@46½c. Rosins have been quiet and unchanged at \$1 55 for common and good strained. Wool has been quiet but steady. The demand for hops has been limited, but prices have held steady.

### COTTON.

FRIDAY NIGHT, June 22, 1900.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 15,507 bales, against 12,423 bales last week and 16,328 bales the previous week, making the total receipts since the 1st of Sept., 1899, 6,396,769 bales, against 8,296,065 bales for the same period of 1898-9, showing a decrease since Sep.1, 1899, of 1,899,296 bales.

Speculation in cotton for future delivery was quiet early in the week and no decided changes occurred in prices. Advices were received from the Mississippi Valley saying that the crop situation was unfavorable, due to excessive rains, but these reports were offset by the uneasiness over the situation in China. On Wednesday, however, developments were of a sensational character. The weekly crop report issued by the Weather Bureau on Tuesday had a tendency to make shorts nervous and as advices continued to be received on Wednes-day from the Mississippi Valley and Georgia complaining of too much moisture, Western shorts (who were in a mood to be easily frightened, owing to unfavorable outlook for the wheat crop) made a wild rush to cover contracts; this started buying by local and Southern shorts and finally resulted in a practical bear panic, as there was an absence of aggressive selling and the top prices reached for the day showed a rise of nearly  $\frac{1}{2}$ c. per pound for the new crop-deliveries. Toward the close part of the advance was lost. On Thursday the market opened firm as Liverpool made a full response to the rise in the local market and during the first half-hour of trading the tendency of prices was upward on continued buying, principally by Western shorts to on continued buying, principally by western shorts to cover contracts. Subsequently, however, there developed considerable pressure to sell for Liverpool, Southern and local account; these offerings more than sufficed to supply the demand, and during the remainder of the day prices gradually sagged. The fact that crop news was generally favorable, exclusive of portions of the Mississippi Valley, also prompted selling. The situation in the Far East also appeared to be such as to make the more in the Far East also appeared to be such as to make the more conservative traders cautious in operating on the bull side of the market. To-day there was an active and higher market, on buying principally by Western shorts to cover contracts, stimulated by unfavorable crop accounts from the Mississippi Valley and stronger foreign advices. The close was firm at a net gain in prices for the day of 24@32 points. Cotton on the spot has advanced, closing at 9 5-16c. for middling uplands.

On the basis of the rates on and off middling as established by the Revision Committee, the prices for a few of the grades would be as follows:

UPLANDS.	Sat.	Mon	Tues	Wed	Th.	Fri.

The imports into Continental ports the past week have been 45,000 bales.

The above figures indicate a decrease in the cotton in sight to-night of 1,612,637 bales as compared with the same date of 1899, a loss of 969,399 bales from the corresponding date of 1898 and a decline of 420,151 bales from 1897.

AT THE INTERIOR TOWNS the movement—that is the receipts for the week and since September 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period of 1898-99—is set out in detail below.

WEATHER REPORTS BY TELEGRAPH.—Our telegraphic advices from the South this evening indicate that the weather has been less favorable the past week. Rain has been quite general, and in a number of sections in the Mississippi Valley.[as well as in portions of Alabama, Georgia and Florida, the precipitation has been excessive. Damage is claimed to have resulted from the wet weather, and crops in many districts are reported to be very grassy. From Texas our reports are to the effect that the plant is forming squares, but there is some complaint of shedding. In the northern part of the State the crop would be benefited by rain and in the southern portion the boll weevil is complained of.

Galveston, Texas.—Corn is suffering for rain in some local. ities, and cotton would be benefited by good showers over north and central portions of the State. The plant is form-ing squares. Some shedding is reported. Boll weevil is complained of in Southern Texas. Re-planting is still in progress on bottom lands. Chopping-out is nearly com-pleted. Some plowing is going on, but to some extent ground is too hard for such work. Fields are badly in grass and weeds. Bain has fallen beavily on two days of the week and weeds. Rain has fallen heavily on two days of the week, to the extent of three inches and seventy-nine hundredths. The thermometer has ranged from 68 to 91, averaging 80.

Abilene, Texas.-Dry weather has prevailed all the week.

Average thermometer 84, highest 104, lowest 64. Brenham, Texos.—There has been no rain the past week. The thermometer has averaged 81, the highest being 94 and the lowest 68.

Corpus Christi, Texas.—There has been rain on one day during the week, to the extent of twenty-two hundredths of an inch. The thermometer has averaged 82, ranging from 74 to 90.

Cuero, Texas.-We have had rain on one day during the week, to the extent of forty-five hundredths of an inch. The thermometer has ranged from 71 to 98, averaging 85.

Dallas, Texas.-Rain has fallen during the week, but the precipitation was inappreciable. Average thermometer 81, highest 99 and lowest 62.

Henrietta, Texas.—There has been no rain during the week. The thermometer has averaged 81, the highest being 101 and the lowest 61.

Huntsville, Texas.-We have had heavy rain on one day of the week, the rainfall reaching one inch and eighty-seven hundredths. The thermometer has averaged 82, ranging from 69 to 95.

Longview, Texas.—We have had heavy showers on two days during the week, the rainfall reaching one inch. The thermometer has ranged from 68 to 100, averaging 84.

Paris, Texas.—We have had showers on two days of the week, the rainfall reaching twenty-one hundredths of an inch. Average thermometer 81, highest 99 and lowest 63. San Antonio, Texas.—There has been no rain the past week. The thermometer has averaged 84, the highest being

98 and the lowest 70.

6,882,657 bales in 1895-96 and 9,663,783 bales in 1894-95.

Temple, Texas.-We have had no rain during the week.

The thermometer has averaged 78, ranging from 59 to 97. New Orleans, Louisiana.—Rain has fallen on five days of the week, the rainfall being two inches and fifty-five hundredths. Average thermometer 80.

Shreveport, Louisiana.-We have had rain on two days during the week. to the extent of one inch and eighteen hun-The thermometer has ranged from 67 to 97, averdredths. aging 79.

Columbus, Mississippi.—It is claimed that this section can-not hope to make over half a crop. Rain has fallen on each not hope to make over half a crop. Rain has fallen on each day of the week, the precipitation reaching two inches and forty-nine hundredths. The thermometer has averaged 74, the highest being 86 and the lowest 66. *Leland, Mississippi.*—The crop is very grassy as a result of too much rain. The week's precipitation has been one inch and eighty one hundredths. The thermometer has averaged 73, ranging from 65 to 88. *Meridian Mississipni*—Consequent upon the continued

Meridian, Mississippi.—Consequent upon the continued

heavy rains crops are over-run with grass and weeds. The

condition. some claim, could hardly be worse. Greenville, Mississippi.—It has rained on five days of the week. Weather now cloudy and cool.

Vicksburg, Mississippi.-Continued rains are preventing farm work, and there are complaints of grassy crops. Local streams have overflown. We have had showers on five days of the week, the rainfall aggregating two inches and seventyfour hundredths. Average thermometer 76, highest 94 and lowest 63

Little Rock, Arkansas.-Crops are grassy. There has been rain on three days of the week, the rainfall reaching one inch and seventeen hundredths. The thermometer has averaged 75, the highest being 90 and the lowest 64.

Helena, Arkansas.-According to reports crops have been damaged considerably by rain and cotton is grassy. Potatoes are rotting. We have had rain on two days of the week, the rainfall reaching one inch and ten hundredths. The thermometer has averaged 74.5, ranging from 66 to 87.

Memphis, Tennessee.—The unfavorable weather conditions have continued, with rain on five days of the week, and it is raining now. Some crops are clean and in good condition, but there is general complaint of grass and weeds and lack of labor. The crop needs sunshine and cultivation. The week's precipitation reached one inch and twenty-three hundredths. The thermometer has ranged from 65.8 to 87, averaging 74.1. Reports from points in this district indicate that land was overflowed or washed, and some railroad property damaged by last week's rain.

Mobile, Alabama.-The crop situation is gloomy. Continuous heavy rains have flooded low-lands, and there is an excessive growth of grass and weeds with labor scarce. We have had rain on six days during the week, to the extent of three inches and eighty-six hundredths. The thermometer has averaged 78, the highest being 90 and the lowest 69. Montgomery, Alabama.—The week's rainfall reached one inch and eighty hundredths on five days. The thermometer

inch and eighty hundredths on five days. The thermometer

has averaged 75, ranging from 65 to 88. Selma, Alabama.—Rains of the past two weeks have caused much damage to cotton fields that are well worked. Most fields are very grassy and labor very scarce. We have had rain on six days during the past week, to the extent of two inches and twenty-five hundredths. The thermometer has

ranged from 70 to 92, averaging 82. Madison, Florida.—Excessive moisture is damaging crops. We have had rain on six days of the past week, the rainfall being three inches and ninety hundredths. Average ther-

mometer 78, highest 90, lowest 66. Savannah, Georgia.-We have had rain on five days during the week, to the extent of one inch and ninety two hun-dredths. The thermometer has averaged 76, the highest being 88 and the lowest 66.

Augusta, Georgia. — Accounts are very unfavorable. Weather too wet and cool and crops are grassy. There has been rain on four days during the week, the precipitation being two inches and eighty-seven hundredths. The ther-mometer has averaged 74, ranging from 61 to 86. *Charleston, South Carolina.*—It has rained on six days of the

week, the precipitation reaching one inch and seventy-one hundredths. The thermometer has ranged from 66 to 85, averaging 76.

Stateburg, South Carolina -- Showers have been very partial; plentiful over limited areas, but generally moisture is needed. Rainfall for the week forty hundredths of an inch, on four days. Average thermometer 75, highest 90, lowest 60.

Greenwood, South Carolina.—Cotton is growing fast, but is grassy on account of too much moisture. We have had rain on four days of the week, to the extent of two inches and fifty-five hundredths. The thermometer has averaged 72 the bighest heige 82 and the lowest 62 73, the highest being 83 and the lowest 63.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 3 o'clock June 21, 1900, and June 22, 1899.

	June 21, '00.	June 22, '99.
	Feet.	Feet.
New Orleans	9.0	11.1
Memphis		18.2
Nashville Above zero of gauge.		3.3
Shreveport		12.0
Vicksburg Above zero of gauge.		30 9

JUTE BUTTS, BAGGING, &C.—There has been a slow demand

regular development, and watering has been sufficient for the pres-ent. But the question of irrigation now assumes a more serious turn, for we are entering upon the most trying period for the plants, and fears are openly expressed lest the plants should suffer, especially in July, through the application of the Government's third programme of rotations, which allows only one watering every four weeks during June and July June and July.

INDIA COTTON MOVEMENT FROM ALL PORTS,-The receipts of cotton at Bombay and the shipments from all India ports for the week ending June 21, and for the season from Sept. 1 to June 21 for three years have been as follows:

GOVERNMENT WEEKLY COTTON REPORT.—Mr. James Berry, Chief of the Climate and Crop Division of the U.S. Weather Bureau, made public on Tnesday the following telegraphic reports on the crops in the Southern States for the week end-

reports on the crops in the beautiful and the neutron of the second seco but healthy and growing rapidly; lice prevalent; Sea Island needs hot weather. -Excessive rainfall in numerous localities, daily showers GEOROIA in nearly all parts of State; crops very grassy; fair weather and sun-shine badly needed for cleaning and working; cotton suffering from moisture and damage by lice.

for jute bagging during the week under review at unchanged prices, viz: 7<sup>3</sup>/<sub>4</sub>c. for 1<sup>3</sup>/<sub>4</sub> lbs. and 8c. for 2 lbs., standard grades. Car load lots of standard brands are quoted at 8@ 8<sup>1</sup>/<sub>4</sub>c., f. o. b., according to quality. Jute butts continue very dull at 2c. for paper quality and 3c. for bagging quality, but none obtainable.

PERUVIAN CROP. -Latest advices to Mr. Fr. Jac. Audres from Pera are to the effect that-

Plantations are in first-class condition and crop promises to be better than last one; nevertheless we must wait for June and July to pass, as frosts may set in, which would damage the orop in a single night, as happened in 1399 Nothing can be predicted as to the out-turn. We believe crop of August-Sept. to February-March, 1901, will amount to from 19,000 to 25,000 bales, provided no frost sets in, and then the prices will probably be lower. On the other haud, if frosts occur, we shall have about the same quantity as last year-about 14,000 bales, all classes, two-thirds white.

EGYPTIAN CROP.—From Mr. H. Bindernagel's circular dated Alexandria, June 1st, we have the following :

Reports about the new crop generally speak of satisfactory progress of the plants so far, the weather during the month of May having been favorable on the whole. The plants show, with few exceptions, a

FLORIDA .- Jotton good growth, but many fields grassy; work de-

FLORIDA.--Ootton good growth, but many fields grassy; work de-layed by wet soil. ALABAMA.--Rainfall excessive, particularly in the southern coun-ties, many low-lands flooded and abandoned; cotton grassy, running to stalk, lice damaging, forming square slowly, few blooms. Mississippi.--All reports discouraging except those from few south-ern counties, owing to continued rains; cannot work grassy crops; no sunshine to 'promote growth; cotton getting red and lousy, few blooms, fair stands.

LOUISIANA.—Weather conditions very favorable for prosecution of farm work and growth of crops; cotton being cultivated second time and early-planted blooming freely. TEXAS—Except scattered showers, weather continues dry, excep-tionally favorable for cleaning crops; cotton very irregular in size, particularly over southern portion, where some fields were planted

fourth time before seconring stand, some still planting, crop improving rapidly, but many fields foul. ARKANSAS.—Wet weather stopped cultivation generally; cotton very grassy and weedy in most sections; unless dry weather sets in soon many fields in lowlands will be abandoned.

TENNESSEE.—Almost daily rains since 13th, heavy and damaging in many localities, especially in the southwest portion of western divi-sion, where immense damage to crops and fences is reported; cotton sadly needing cultivation.

OKLAHOMA AND INDIAN TERRITORIES.—Cotton commencing to square and improving. MISSOURI.—Rainfall poorly distributed, heavy in localities; showers in southeastern counties prevented cultivation of cotton.

These reports on cotton are summarized by the Department as follows:

In Arkansas and eastward of the Mississippi River, except in por-tions of the Carolinas, cotton has suffered seriously in consequence of excessive rains, lack of cultivation and lice. In Texas continued dry weather, except scattered showers, was exceptionally favorable for cleaning the crop, which, however, is of irregular size over the south-ern portion of the State, and notwithstanding the favorable weather for cultivation many fields are still foul. In Louisiana the weather conditions were very favorable for cultivation.

SHIPPING NEWS.—As shown on a previous page, the exports of cotton from the United States the past week have reached 32,926 bales. The shipments In detail, as made up from mail and telegraphic returns, are as follows:

#### BREADSTUFFS.

FRIDAY, June 22, 1900.

A fair volume of business has been transacted in the market for wheat flour and prices have advanced sharply. Mills have been indifferent sellers and have been quick to follow the rise in values for the grain. Jobbers in a number of instances have been buving with considerable freedom, both of spring patents and Kansas flours. The export business at the higher prices has been comparatively quiet. City mills have been in fairly active demand at advancing values. Rye flour has been in moderate demand and firmer. Corn meal has had a fair sale and at higher figures. Speculation in wheat for future delivery has been excep-

tionally active, the trading at times being attended with considerable excitement, and prices have advanced sharply. The principal bull factor has been the crop situation in the Northwest. It is now generally conceded that the prolonged drought in the Dakotas and Minnesota has done irreparable damage to the crop, with the result that the common talk is that the yield of the spring crop will be barely two thirds the quantity raised last year. Estimates have been made that the yield of the three Northwest States will not exceed 125,000,000 bushels, and the most sanguine bulls make the claim that unless the drought is soon broken a yield of not larger than 100,000,000 bushels need be expected. Reports from the winter wheat districts have been favorable, as perfect weather has been experienced for harvesting. European ad-vices have reported firmer markets, but they have apparently followed the advance reluctantly, the rise not being so great as in the domestic markets. Crop conditions in France, it is reported, have improved, but with the outlook. nevertheless, less favorable than a year ago, and weather conditions in the United Kingdom and Southern Russia have been more auspicious for the crop. The spot market has been firm and higher, following the advance in tutures, but business has been quiet as the demand from exporters has been limited. To-day the market was active and higher on crop news. The spot market was firmer but quiet. Sales for export here and at outports were 96,000 bushels.

Indian corn futures have been fairly active and at gradu-ally hardening prices. The improvement has been largely in sympathy with the sharp rise in wheat values, although there has been some buying, stimulated by the crop news, advices received from some sections of the corn belt saying that conditions were unfavorable, owing to continued dry weather. The spot market has been firmer with futures, but at the higher prices only a moderate volume of business has been transacted, as the advance has held the export de-mand in check to some extent. To-day the market was firmer. The spot market was active and higher. Sales made to exporters late Thursday and to day here and at outports were 1,000,000 bushels

The tone of the Liverpool market for spots and futures each day of the week ending June 22 and the daily closing prices of spot cotton, have been as follows.

Oats for future delivery at the Western market have received slightly increased attention. Nervous shorts have bought to cover contracts, and there also has been some buying for investment account, based on unfavorable crop accounts. Sympathy with the advance in other grains also has been au important factor in the advance. Locally the spot market has been fairly active, as both exporters and the home trade have continued buyers, and prices have advanced. To-day the market was moderately active and firmer. The spot market was firm. Sales for export here and at outports were 150,000 bushels.

GOVERNMENT WEEKLY GRAIN REPORT .- Mr. James Berry Chief of the Climate and Crop Division of the U.S. Weather Bureau, made public on Tuesday the telegraphic reports on the grain crops in the various States for the week ending June 18, as follows :

WEATHER.-The protracted drought over the northern portion of the WEATHER.—The protracted drought over the northern portion of the spring-wheat region continues, and rain is needed in portions of New England and Texas and generally throughout the Rocky Mountain dis-tricts. Abundant rains have thoroughly relieved the drought con-ditions in the Middle Atlantic States, while excessively heavy precipi-tation has interrupted farm work and caused damage to crops in the South Atlantic and East Gulf States, lower Ohio and central and lower Mississippi valleys. The week was unseasonably cool in the lower Missission and upper Mississippi valleys and upper Lake region, light frosts occurring over the eastern portion of the Upper Michigan Peninsula. On the Pacific coast the week was generally favorable, although light showers damaged grain and fruit to some extent in northern California and abnormal heat in Washington proved un-favorable.

although light showers damaged grain and fruit to some extent in northern California and abnormal heat in Washington proved undersorable.
Tork.—While the week has been rather cool in the great oorn States of the central valleys, corn has made very favorable progress, especially in the States of the Missouri Valley, where the crop is growing rapidly and is well cultivated except in portions of Missouri. The orop also needs cultivation in the lower Ohio Valley, Western Tennessee. Arkansas, and generally throughout the East Gulf States. In the Middle and South Atlantic States corn has made decided advancement, but it is needing rain in portions of Texas and Louisiana.
Winter WHEAT.—Heavy rains in the central Mississippi Valley have retarded the harvesting of winter wheat especially in portions of Missouri, Arkansas and Western Tennessee, and in the two last-maned States some dawage has been done to wheat in shock. Harvesting has continued under generally favorable conditions in Okla-homa and Kansas, and will begin this week in Nebraska.
Sring WHEAT.—Very infavorable reports respecting spring wheat for fine from the northern portion of the spring wheat-region, where no rain or only very light showers fell during the week. In North Dakota a general improvement is expected as a result of late rains, though to what extent is uncertain, as many fields are weedy and corp has experienced improvement.
The Source along the portion of the spring wheat for both as the sourt of the spring wheat of bacta a goneral improvement is expected as a result of late rains, though to what extent is uncertain, as many fields are weedy and to bacta a general condition of oats continues promising, except where shortened by drought in Wisconsin, Minnesota, the Dakotas and portions of Nebraska. Some dawage has been caused to oats in shock by excessive rains in the South Atlantic and East Gulf States.

For other tables usually given here see page 1232.

### THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., June 22, 1900

There has not been any development this week in the dry goods market at first hands of a strengthening character Cotton has shown an improvement, but that has not been reflected in cotton goods, while the market for raw wool ha again been unsatisfactory and a weak element in the good situation. In cotton goods the low prices in dark fanc prints made last week have been followed this week b breaks in staple prints and in low grade bleached cottons while the tendency of prices generally has been in favor o buyers. The demand coming forward day by day shows the home trade still in ultra conservative mood, with the Chi nese complications effectually cutting off the chief export de mand for cotton goods. There are no accumulations of an moment in first hands so far, but contracts are running ou and new business of some extent will be required to kee the market in anything like fair shape. Reports of retain distribution are the best feature of the situation, the con sumptive demand in all parts of the country continuing lib eral. WOOLEN GOODS .- There has been no sign of improvemen in the woolen goods situation. The market for raw materia continues easy and the supplementary demand for men's wear heavy-weight fabrics develops but slowly. This week' business has been on a very moderate scale in both staple and fancies, despite the fact that sellers in the majority o instances are easier to deal with. Agents well enough sold up to adhere firmly to previous prices are the exception, and the market shows considerable irregularity throughout in both woolens and worsteds. There are some staple line being shown for next spring, but not sufficient of them to give any reliable indication as to the price situation for the

new season. In overcoatings, kerseys and other plain-faced fabrics are fairly steady. Cloakings inactive. Woolen and worsted dress goods dull throughout and barely steady. Flannels and blankets inactive but prices are maintained.

Domestic Cotton Goods.—The exports of cotton goods from this port for the week ending June 18 were 3,447 packages, valued at \$172,726, their destination being to the points specified in the tables below :

NEW YORK TO JUNE 18		1900.	1899.		
NEW FORE TO JUNE 18	Week.	Since Jan. 1.	Week.	Since Jan. 1.	
Great Britain. Other Enropean. Ohina. India. Arabia. Africa. West Indies. Mexico. Central America. South America. Other Countries.	61 1 82 15 67 603 103 207 1,996 312	$\begin{array}{r} 1,050\\ 1,127\\ 118,404\\ 7,872\\ 17,779\\ 2,270\\ 12,266\\ 1,746\\ 6,117\\ 22,743\\ 4,163\\ \end{array}$	$\begin{array}{r} 34\\ 3\\ 22,154\\ 10\\ 1,093\\ 83\\ 833\\ 16\\ 649\\ 238\\ 149\\ \end{array}$	$\begin{array}{r} 1,127\\ 498\\ 129,510\\ 1,508\\ 23,597\\ 6,986\\ 14,649\\ 2,229\\ 5,147\\ 23,629\\ 4,598 \end{array}$	
Total	3,447	195,537	25,252	213,478	

The value of the New York exports for the year to date has been \$8,137,791 in 1900, against \$7,518,325 in 1899.

Prices of heavy brown cottons are irregular so far as a limited amount of business discloses, and some sellers are showing a growing anxiety to secure orders, now that the export demand has been cut off. Bleached cottons in medium and fine grades are slow and irregular, but fair sales of lowgrade bleached have been effected by a marked break in price, some 36-inch 64-squares being cut to 434c. per yard. The demand for denims and other coarse colored cottons is inactive and prices favor buyers. Ducks and brown osnaburgs dull and irregular. Wide sheetings and cotton flan-nels and blankets in light request at previous prices. Kid-finished cambrics and other cotton linings slow and easier to buy. Dark fancy calicoes, on the basis of 5c. for best grades, have been in moderate request. Some leading lines of mourning prints reduced to 4½ c. have sold fairly well. Reductions in other lines of staples looked for. There has been no change in the gingham situation. Print cloths are still quoted at  $3\frac{1}{6}c$ . for regulars by Fall River, but there is no business do-ing thereat, nor with outside markets at 3c. Wide goods are slow of sale at  $\frac{1}{8}$ c. lower than a week ago.

FOREIGN DRY GOODS.-This division of the market has been decidedly dull this week. In dress goods only a few high-grade novelties have been moving. Silks are slow of sale at previous prices. Ribbons and laces dull. Linens are barely steady in face of slack buying. Burlaps inactive, but slightly firmer for Calcuttas.

Importations and Warehouse Withdrawals of Dry Goods

The importations and warehouse withdrawals of dry goods at this port for the week ending June 21, 1900, and since January 1, 1900, and for the corresponding periods of last year are as follows:

Jowr or									
Total Ent'd for consump. Total imports	Manufactures of- Wool Cotton Silk. Flax Miscellaneous	Totalmarketed	Total withdrawals Ent'd for consump.	Manufactures of- Wool Cotton Silk. Flax. Miscellaneous		Total	Manufactures of- Wool Cotton Silk. Flax. Miscellaneous		IMFORIO BULEKED

New York State.—Text of Savings Banks Decision Rela-tive to Chicago & Alton Failroad Bonds.—We stated on June 9 that Attorney-General J. C. Davies had advised the State Superintendent of Banks that savings banks of New York State might lawfully invest in the bonds of the Chicago & Alton Railroad Company. We have obtained a full copy of this decision, which we give below :

The amendment of 1900 added the name of the Chicago & Alton Rail-road Company to the list of those companice in whose bonds the sav-ings banks might lawlully invest and also made certain changes in the provisos following said list, which I have indicated below by en-closing in brackets the words omitted from the former statute and underscoring the words added :

And further provided that all bonds hereby authorized for investments shall be secured by a [first mortgage of the whole or a part] mortgage which is a first mortgage on either the whole or some part of the railroad and rail-

road property actually in the possession of and operated by such company, or that such bonds shall be mortgage bonds of an issue to retire all prior mortgage debt of such railroad company.

mortgage debt of such railroad company. In adopting this amendment the Legislature obviously had in view the following objects: FIRST-To make the mortgage bonds of the Chicago & Alton Rall-road Company a lawful investment for savings banks. SECONDLY-To permit investments in bonds secured by mortgages not a first lieu upon the whole of the railroad and its property. This amendment was evidently adopted to meet a ruling of your Depart-ment, based upon an opinion of the Attorney-General, to the effect that such bonds were not a lawful investment unless secured by a first mortgage upon the whole of the railroad and its property. THRDLY-To permit investments in bonds of an issue to retire all prior mortgage debts of the company, even though such prior mort-gage debt had not been actually taken up and discharged. The bonds of the Chicago & Alton Railroad Company are refunding bonds, as I am advised, of the character and description mentioned in the amendment. I am also advised that the railroad has earned and paid regular div-

I am also advised that the railroad has earned and paid regular div-idends in cash for the last ten years exceeding six per centum per an-num on its capital stock; and that the capital stock of the company exceeds in amount one-third of the par value of all its bonded in-

exceeds in amount one-third of the proposed in-debtedness. The only question therefore as to the legality of the proposed in-vestments arises from the fact that the railroad in question has re-cently been leased to and is now operated by the Chicago & Alton Railway Company. The solution of this question will depend upon the interpretation of the following clause of Section 116, to wit:

The following clause of Section 116, to wit:
And further provided, that all bonds hereby authorized for investments shall be secured by a mortgage which is a first mortgage on either the whole or some part of the railrond and railroad property actually in the possession of and operated by such company, or that such bonds shall be mortgage bords of an issue to retire all prior mortgage debt of such company.
I understand it to be suggested that the words "actually in the possession of and operated by such company" apply to the clause which follows them, in the sentence above quoted, with the same force as to that which precedes them. I find it impossible to concur in this view. It seems to be entirely clear that the words last quoted are intended only to qualify those which precede them; and that they have no reference or relation to those which follow them. As a matter of grammatical construction, I do not see how this can be considered debat able. It is not practicable within the proper limits of such an opinion as this to enter into a technical and detailed discussion of this question of grammatical construction. Suffice it to say that, under familiar rules of construction, the legislative intent could not have been plainer had the sentence in question read:

And further provided, first, that all bonds hereby authorized for investments shall be secured by a mortgage which is a first mortgage on either the whole or some part of the railroad and railroad property actually in the possession of and operated by such company; or, secondly, such bonds (*i.e.*, bonds hereby authorized for investments) shall be mortgage honds of an

Clerk, for \$25,000 4% 20 year sidewalk and \$25,000 4% 30 year street improvement bonds. Securities are issued under anthority of sections 2335 and 2837, Revised Statutes of Ohio, and were voted at the election held May 8. They are in de-nomination of \$500, dated May 1, 1900. Interest will be pay-able semi-annually at the Second National Bank, Cincinnati.

able semi-annually at the Second National Bank, Cincinnati. A certified check for 1% of the bonds bid for must accompany proposals, which must be made separately for each issue. For description of bonds see CHRONICLE June 9, p. 1161.

For description of bonds see CHRONICLE June 9, p. 1161.

issue to retire all prior mortgage debt of such company.

In a case where the legislative intent has been clearly expressed in In a case where the legislative intent has been clearly expressed in plain and unambiguous language there is no occasion for speculation as to what was the purpose sought to be accomplished or the motives by which the action was prompted. Such inquiry properly arises only in cases where the language employed is of doubtful meaning, or vague and indefinite forms of expression are made use of. In this case the intent is clearly manifest when we give to the language and forms of expression employed their usual and ordinary meaning, and there remains no room for further construction. I am, for the reasons stated, of the onion that the savings institu-

I am, for the reasons stated, of the opinion that the savings institu-tions of this State may lawfully invest the moneys deposited with them and the income derived thereform, in the refunding bonds of the Chicago & Alton Rairoad Company. Yours respectfully, J. C. DAVIES, Attorney-General.
