

## SATURDAY, JULY 7, 1900.

#### NO. 1828.

#### CLEARING HOUSE RETURNS.

VOL. 71.

For the month of June the clearings make a slightly more satisfactory exhibit compared with a year ago than in May. Contrasted with the month of 1899, the aggregate for the whole country records a loss of 11.3 per cent. For the six months the decrease is 10.9 per cent.

The week's total for all cities, shows a loss of 15.9 per cent from 1899. The increase over 1898 is 9.7 per cent and the excess over 1897 is 20.6 per cent. Outside of New York the decrease compared with 1899 is 1.8 per cent, the gain over 1898 is 12.6 per cent, and the excess over 1897 reaches 26.4 p. c.

#### THE FINANCIAL SITUATION.

The recurrence of the national holiday which is observed more widely and completely than any other holiday of the year; a fire at Hoboken, especially alarming and distressful because so unexpected and destructive of life and property; a political national convention of one of the two great parties of the country, setting up as its candidate for President the representative not only of silver money but of almost every other error found afloat on the surface of public affairs—these, added to a panic on the Berlin Bourse and to far more disturbing reports from China tending to complicate the situation thrust upon the world incident to the uprising of the Boxers, are the leading developments of the week with which business has had to contend. That in the face of such unfavorable developments our Stock Exchange has stood up so well is forcible evidence of the strength and soundness of the situation and of the general confidence felt in its permanency.

Our aversion to political "straddles" is well known. As a consequence of that aversion, as well as for other reasons, we are highly gratified at the results reached in Kansas City this week by what has been very properly called the rump of the old Democratic Party. Either an equivocal resolution as to silver money or a candidate of uncertain views on that question would have been dishonest and disturbing; but worst of all would have been an equivocal, double-faced platform with Bryan the nominee standing on it. Happily the country has been spared any such contingency, and instead the voting population have presented for their choice the same candidates, the same financial issue, put forward in precisely the same shape as faced them in 1896.

There is, though, a difference in the surroundings of to-day which makes the issue more grave and serious than it was four years ago. The fact is we have at stake all that has been gained by the verdict on the former occasion. Even a smaller electoral vote for Mr. McKinley would be construed as meaning a change of the public mind on the question at issue, while his defeat would open again the whole discussion, and would cause a great industrial set back, if not a general business catastrophe. On the other hand, a much larger electoral vote in his favor, which we believe is certain to be the outcome, will not only go far towards preventing the silver issue ever again being raised by any political party in this country, but it will, we are persuaded, bury the silver-currency contention. We say we confidently believe these will be the results. Every condition favors the sound-money party on this re-trial. The occasion is every way most propitious for its complete success, and hence it is that we look upon the action at Kansas City as the harbinger of great good. Let every man who knows what a fortycent dollar means and entails act as if the coming election were the opportunity of a life-time.

all of whom are rightly in China and entitled to protection under existing treaties. If their safety and liberation and the enforcement of treaty obligations lead to war, that cannot be charged to trade or religion but to the barbarities which the Chinese Government has allowed and encouraged. No one can detest and deprecate war more than we do. It is certainly lamentable that national and international differences cannot be otherwise adjusted and the business of shooting and killing our fellow-men at wholesale cannot be forever put an end to. And yet such events seem to come as a part of the order of things and on occasions appear unavoidable. Was it possible to have averted the war between the North and the South? One may claim it might have been done at the cost of a divided country. But, laying aside every other objection to that course, is there not good reason for the belief, that if war had been thus avoided, war and not peace would thereby have been promoted? That is to say, is it not presumable that thereafter the relations existing between the two nations would have been as a rule not amicable, but bordering on a state of uninterrupted hostilities? Some, too, are often extremely fervent in their denunciation of every act by which civilization seeks to direct, control or supplant the inferior races; and yet where would be this lusty, boastful, freedom-loving nation had not our forefathers driven out of and taken possession of a land theretofore occupied and owned by men of a lower order.

In a separate article on a subsequent page we re. view the statements of Government debt and finances for the fiscal year ending last Saturday. The changes in the cash holdings for the month of June by itself are deserving of notice. These changes are significant not only as showing the difficulty experienced by the Secretary of the Treasury in keeping down his money holdings because of his steadily-increasing surplus, but also as emphasizing the fact that the congestion of currency has become so great that even a large depletion of the supply seems to have no very appreciable effect upon rates for money. During the month of June Government revenues exceeded Government disbursements in amount of nearly 18 million dollars. A number of circumstances aided the Secretary in getting out again a portion of this surplus. In the first place somewhat over 3 million dollars of the extended two per cents were presented for payment in advance of the date fixed for their redemption. In the second place the fund held for the redemption of national bank notes was reduced about 2 million Then also the premium payments on dollars. the fundable bonds presented for exchange have taken 2 or 3 million must dollars more. But on the other hand the Secretary made two calls for \$5,000,000 each upon the depositary banks for Government moneys held by them. This latter operation is reflected in the fact that Government deposits in the banks July 1 were only \$101,-879,520, against \$111,322,418 June 1, a decrease of about 91 million dollars. What, however, we wish particularly to direct attention to is that as the net result of these various movements the aggregate of cash held in the Sub-Treasury vaults was added to in the sum of nearly 17 million dollars, the total rising from \$262,831,054 to \$279,615,582. In addition to this absorption of cash by the Government, our New

We see it stated that our Government ought not to get mixed up in the affairs transpiring in China. Some say it is religion and trade that have forced the existing situation, and that neither furnishes an excuse for war, since China has the right to control its own domestic affairs. The question to-day is not war —it simply concerns the rescue of diplomats, missionaries, merchants and others, European and American, York banks, it will be remembered, lost over  $7\frac{1}{2}$  million dollars through gold exports to Europe. In these two ways, therefore, market supplies were reduced 241 million dollars during June. Yet the effect upon the money market, as we know, was practically nil. The explanation is very simple. As we show in our bank items on another page, bank circulation durlate ing the month, under the stimulus of new financial law, was further increased the 9 million dollars, making the addition over since the 1st of last March more than 60 million dollars. Obviously we are getting a superabundance of currency at a time of trade reaction and declining prices. The Government reports the aggregate of the various forms of money in circulation July 1, 1900, at \$2,062,425,496, which compares with only \$1,932,484,-239 on the corresponding date last year. Of the increase of 130 millions for the twelve months, no less then \$62,328,958 consists of national bank notes.

The panic at Berlin referred to above was directly caused, or rather precipitated, by the news of the assassination of the German Ambassador at Pekin and by the action of the Emperor in taking measures to avenge the outrage. The Berlin market, however, was already in such a state of tension because of previous unsettling declines that the shock of the news noted had a much more disastrous effect than would probably have been produced under other circumstances. As is well known, the Berlin market for securities and for discounts has been more or less influenced for some months by the inflated prices for industrial securities and by over-speculation. Recently the fall in this country in the price of iron and steel directly affected values of those stocks on the Berlin Bourse, because it was feared that the decline in these staples in America would enable our manufacturers more successfully to compete with those of Germany. The Berlin market was therefore extremely sensitive when the Chinese situation began to develop an acute stage. As a matter of course, the securities which were most freely sold this week were those of iron and coal companies and of some banks. The Chinese bonds which Germany aided in negotiating after the Chino-Japan war, and which were largely held in Germany, likewise declined under liberal offerings; considerable amounts of American bonds and stocks were also disposed of, not only in Berlin but in London. The panicky situation at Berlin was to some extent reflected at London for this reason. Yesterday, Friday, the news was more assuring, indicating a recovery, not only in the Berlin but in the London markets, though it was rumored that there was a panic at Vienna. Discounts at Berlin were reported easier, but this condition is regarded as very temporary and no indication of the real situation; easier money after the first of July is always an incident at Berlin. One effect of this disturbance was observable in our foreign exchange market on Friday, there being a firmer tone for sight sterling and for cables, caused by a demand to remit for securities sold here for European account.

with last year are much better than might have been expected. All the monthly totals this year have shown a decrease, and June has proved no exception to the rule, the falling off for that month being 11.3per cent and for the six months 10.9 per cent. But that includes in both instances the results for this city, where there has been a great decline in Stock Exchange speculation; for instance, the stock sales for the six months in 1900 have aggregated only 66 million shares, against nearly 101 million shares in the corresponding six months of 1899, the estimated market values being 4,549 million dollars against 7,780 million dollars. Of course the greater portion of these stock sales is cleared through the Stock Exchange Clearing House. It is nevertheless true that the effect upon bank clearings of a contraction in stock speculation or the reverse is always very marked. Furthermore, there has been, as compared with a year ago, a noteworthy falling off in financial operations; the flotation of new industrial undertakings in these six months of 1899, it will be remembered, was on a prodigious scale.

Bearing all this in mind, it is significant that outside of New York there is no decrease in bank exchanges, but rather a small further increase. For the month the total outside of New York shows 2.0 per cent gain and for the half-year 1.5 per cent gain. Moreover, excepting the financial centres like New York, Boston, Philadelphia and Baltimore and the New England manufacturing districts, there are really very substantial increases all along the line both for June and the half-year. Thus the Middle Western group of places records 7.2 increase for the month and 6.3 per cent for the six months; the Far Western group 18.9 and 19.4 increase, respectively; the Pacific group 12.4 and 12.9 per cent; even the Southern group, notwithstanding the smaller cotton crop, shows 4.8 per cent and 12.3 per cent gain, respectively, though in this case several of the separate places reflect the small crop by showing losses for June. The New England group, as already stated, has fallen behind; that group has no less than 15.2 per cent decrease for the month and 11.5 decrease for the half-year, every place except Providence sharing in the contraction for the six months and every place except Providence and New Bedford in the contraction for June. Excluding the financial centers and this New England district, there are only three places in the whole rest of the country where there has been a falling off for the six months, thus indicating that last year's large volume of business has been remarkably well maintained.

The records of mercantile failures for the half-year show that 1900 thus far has been a period of greater strain than the corresponding period last year. According to the figures compiled by Col. Wm. R. Grosvenor for "Dun's Review" the liabilities of the defaulting traders aggregate \$74,747,452 for the six months of 1900, against only \$42,062,933 for the same six months of 1899. This bare comparison, however, unexplained would give an exaggerated idea of the extent of this year's misfortunes. The reader will recall that there have been some disasters for very large amounts, the outgrowth of speculation, among others that of Price, McCormick & Co. It is through these exceptional defaults that the total of the liabilities has been so heavily swollen. When we take the number of the failures, the disparity between the two years is

We print on another page our compilations of bank clearings for June and the half-year. Considering the decline in commodity prices and the reaction in trade which has been in progress, the comparisons six months of 1900, against 4,853 in 1899. The number is below that for 1898, which was 6,718. Even in the matter of liabilities, the comparison with 1898 is quite satisfactory, the total then having footed up \$67,-444,639, against the present \$74,747,452. In brief, then, we may say that the situation is not as good as it was last year, when it was extremely favorable, but that the record compares quite well with other years. We may accept Col. Grosvenor's explanation when he says that the record shows plainly enough the disappointment and loss which result after a year of wholly unprecedented expansion and hopefulness in all lines of industry and trade. To multitudes who have bought too much, relying on the continuance of increased consumption and rising prices, the reaction inevitably means serious losses. Hence, "when out of more than 1,100,000 concerns in business, it is found that but one in two hundred has been thus drawn into misfortune, the evidence is quite as satisfactory as when a half-year of extraordinary prosperity appears to have brought a smaller ratio."

There has been no change this week in the official discount rates at any of the European financial centres. The Bank of Bengal at Calcutta, however, reduced its rate on Thursday from 4 per cent to 3 per cent. The statement of the New York Associated Banks last week showed an increase of \$649,200 cash, of which \$455,400 consisted of specie and \$193,800 of legal tenders. The leans decreased \$1,557,300 and the deposits fell off The surplus reserve was increased by \$2,733,300. \$1,332,525, to \$16,859,375. The applications for the exchange of refundable bonds for the new 2 per cents amounted at the close of business on Thursday to \$309,239,850, of which applications \$283,623,550 came from banks. The amount of each class of bonds exchanged up to the end of June was \$69,949,400 3 per cents, \$189,317,450 4 per cents of 1907 and \$47,358,500 5 per cents. The Bank of British North America has advices of the receipt at Seattle and at San Francisco of \$2,000,000 gold from the Yukon mines.

Money on call, representing bankers' balances, has loaned at the Stock Exchange during the week at 2 per cent and at  $1\frac{1}{2}$  per cent, averaging about  $1\frac{3}{4}$  per The loans have been made uniformly at these cent. rates each day, with the bulk of the business at  $1\frac{3}{4}$  per Banks and trust companies have loaned at  $1\frac{1}{2}$ cent. per cent as the minimum. Time contracts are freely offered for short periods, but offerings of those contracts which will mature during October and in the later months of the year are not liberal except at full rates. Banks and other lenders are inclined to refrain from placing money except for short periods or on call, preferring to keep their funds within control in order that they may take advantage of any flurry which may occur during the summer or early fall months. The demand for time money is quite moderate for the shorter dates and good for the longer periods. Quotations are 3 per cent for sixty days, 34 per cent for four months and  $4@4\frac{1}{2}$  per cent for five to seven months on good mixed Stock Exchange collateral. The supply of commercial paper is good, though not largely increasing, while the local demand is moderate; few of the banks, and these among the large down-town institutions, being in the market. There is, however, some interior inquiry, chiefly from Eastern cities. Rates are 33@4 per cent for sixty to

ninety day indorsed bills receivable,  $4@4\frac{1}{2}$  per cent for prime and  $5@5\frac{1}{2}$  per cent for good four to six months' single names.

The military situation in South Africa has developed no new feature. Disquieting reports continue to be received regarding the situation at Pekin and elsewhere in China. The rumor of the assassination of the German Ambassador has been officially confirmed, and it caused intense excitement in Germany, the Emperor promptly despatching reinforcements to China to avenge the outrage. Reports from Chinese sources through Shanghai are to the effect that the Emperor Kwang Su committed suicide by compulsion of Prince Tuan June 19 and that the Empress Dowager also took poison, though without fatal effect. The foreign legations were reported through Chinese sources to have been safe in Pekin June 25. The Bank of England minimum rate of discount remains unchanged at 3 per cent. The cable reports discounts of sixty to ninety day bank bills in London at  $2\frac{1}{2}$  per cent. The open market rate at Paris is  $2\frac{1}{5}$  per cent and at Berlin and Frankfort it is  $4\frac{1}{5}$ per cent. According to our special cable from London, the Bank of England lost £950,504 bullion during the week and held £32,691,617 at the close of the week. Our correspondent further advises us that the loss was due to exports of £256,000 (of which £136,-000 were to France,  $\pounds 100,000$  to the Cape and  $\pounds 20,-$ 000 to Roumania), to shipments of £745,000 to the interior of Great Britain and to £50,000 received from Egypt.

The foreign exchange market has been dull and without important change as to rates during the week, and it appears to have been entirely unaffected until Friday by the disturbances at London and Berlin caused by the disquieting news from China. On Friday, however, the market grew firmer for short and for cables, owing to a demand to remit for securities sold for European account. There is only a moderate supply of commercial bills, and these, as has recently been the case, have been promptly absorbed. The sale of investment bills continues to be reported, and the supply required for remittance is probably chiefly obtained from this source. Gold received at the Custom House during the week \$15,057. The Assay Office paid \$423,513 70 for domestic bullion. Nominal rates for exchange were  $4.84\frac{1}{2}@4.85$  for sixty-day and 4 87@4 87 $\frac{1}{2}$  for sight until Friday, when the lower figures were advanced. Rates for actual business opened on Monday at a decline of one-quarter of a cent for long, compared with those at the close on Friday of last week, at  $4.83\frac{1}{2}@4.83\frac{3}{4}$ , while rates for short and for cables were unchanged at  $4.86\frac{1}{4}@4.86\frac{1}{2}$  for the former and 4 863 @4 87 for the latter. The market was quiet and without feature and it so continued on Tuesday. On Thursday the only change was a recovery of onequarter of a cent in rates for actual business for long, to 4 833@4 84, short and cables remaining unaltered. The market closed firm on Friday, with rates for actual business 4 832@4 84 for long, 4 862@4 862 for short and 4 863@4 87 for cables. Commercial on banks 4 831 @4 831 and documents for payment 4 83@4 84. Cotton for payment 4 83@4 831, cotton for acceptance 4 831 @4 831 and grain for payment 4 833@4 84. The following shows daily posted rates for exchange by some of the leading; drawers.

+ The Austro-Hungarian Bank Statement is now issued in Kronen and Heller instead of Gulden and Krentzer. The reduction of the former currency to sterling  $\pounds$  was by considering the Gulden to have the value of 50 cents. As the Krone has really no greater value than 20 cents, our cable correspondent in London, in order to reduce Kronen to  $\pounds$ , has altered the basis of conversion by dividing the amount of Kronen by 24 instead of 20.

#### THE KANSAS CITY CONVENTION.

It seems to us that the feeling of reassurance which spread over the markets when the character and position of the Democratic following at Kansas City was revealed is entirely reasonable. When the success of a fore ordained candidate for the Presidency has been looked upon as a menace to national prosperity; when the most responsible delegates who have gathered to name that candidate warn him of certain failure if a given platform is adopted; and when, in the face of these warnings, he forces the objectionable plank on an unwilling convention-under such circumstances These plain men will draw their own inference. warnings were not, as such utterances have sometimes been, a mere manoeuvre to frighten a rival faction into yielding to the personal wishes of another group of politicians. The protest was intensely earnest, and was sustained by the delegates from almost every State where the issue of the canvass was staked on the party's attitude towards silver.

in this majority were comprised the four votes of New Mexico, Oklahoma, Indian Territory and Hawaii, which count for nothing next November, and that the minority included such pivotal States as Connecticut, Illinois, Indiana, Maryland, Michigan, New Jersey, New York and Ohio, without some support from which the battle is certain to be lost. There is nothing for which the Republican Party could more heartily have prayed than for the forcing of this issue by their opponents, and Mr. Bryan, admittedly against the protests of the strongest element in his party, has granted the prayer. The Convention's reluctant but none the less formal demand for a coinage system "which shall restore and maintain a bi-metallic price level, and as part of such system the immediate restoration of the free and unlimited coinage of silver and gold at the present legal ratio of 16 to 1, without waiting for the consent of 'any other nation," ensures the loss of what might possibly have been doubtful Eastern States, and in all probability of the entire Middle West. The approval of Hawaii and Oklahoma, and the perfunctory endorsement of the Silver Republicans and Populists, strike us as pretty poor compensation for such sacrifice.

The nomination of Mr. Bryan himself has been too long a certainty to need specific comment. Yet even in this regard there were mutterings of discontent in the Convention, which suggested no great delight among the party's supporters at the pressure of this young demagogue's heel upon their necks. The "Bryan demonstration," carefully prepared as it had been, was in large degree a failure, and we think it creditable to the delegates that it was. The notion of arousing frantic enthusiasm by holding aloft, in the folds of an American flag, the bust of a young gentleman whose name is associated with no act of public legislation, State or national, and with no policy but perpetual agitation, goes beyond even the expedients of the French Convention of 1789. We cannot wonder that the Kansas City Convention found relief from this Bryan nightmare in cheers for ex-Senator Hill, as unexpected to the ring-masters of the Convention as they were unpalatable. The nomination of Mr. Stevenson for the second place could hardly be called a concession to the Gold Democrats, when the attitude of the candidate, as far back as 1893, was a source of alarm to conservative men in his party.

We do not propose at this time to review the other planks of the Kansas City platform. The "anti-imperialist" declaration-drawn up, we believe, by Ex-Judge Van Wyck-is at least a soberly worded and intelligently constructed public utterance. The "antitrust" plank is hardly more violent, in most regards, than similar declarations made on occasion by the opposing party. But Mr. Bryan's act has prevented the Democratic Party from making these its foremost campaign issues. No voter will be blinded by the fact that they are referred to first in the platform. Actions speak louder than words, and the action of the real minority which controlled the party machinery at Kansas City has defined the true position of the candidate. This action on silver coinage is all the more absurd because, except in the narrowest view of personal politics, it was wholly unnecessary. We are, indeed, unable to share the opinion even of that very considerable section of the party which objected to the insertion of a new plank demanding free-silver coinage, but advocated the mere re-affirmation of the Chicago platform

Nothing could more positively sum up the situation a than the well-known fact that after an angry controversy of twenty-four hours, the free coinage-plank was a dopted in committee by a majority of only two; that of 1896. We are perhaps not as skilled in political dialectics as some of our framers of convention platforms, but it has seemed to us that when the platform of 1896 declared that "we demand the free and unlimited coinage of both silver and gold at the present legal ratio of 16 to 1, without waiting for the aid or consent of any other nation," a declaration in 1900 that "we re-assert our faith in the platform of 1896" would hardly provide legitimate ground for modified opinions. If there is any difference, it could rest only in the possibility that one section of the party might believe that the convention was not sincere in its "re-affirmation," but repeated the declaration of four years ago only for the sake of keeping up the appearance of consistency, whereas another section might believe that the convention meant every word it said. We cannot feel that such a purpose, supposing it to exist, would have been straightforward, and we are very sure that the voters have had enough of platforms that face both ways.

As a matter of fact, there is nothing in the history of parties, in this country or in others, which proves the need of unerring consistency throughout a succession of electoral campaigns. Some few fundamental principals unquestionably do exist which a party could not formally relinquish without parting completely with its past. In the history of American politics the problem of strict or loose constitutional interpretation, and probably that of import duties for protection or for revenue, may rightly be thus classed. But the problem of free silver coinage has no more title to such traditional authority than the problems of paper money issues, of pension policy, of civil service reform, or any one of the scores of issues which have figured, in the past, in the Presidential platforms of one or another party. In the silver question, as in the others which we have called to mind, the consideration of absolute right or wrong, of expediency or inexpediency from a broader view than partisan controversy, wholly supersedes the political aspect of the case.

Indeed, literal consistency from one generation to another has never in political history been recognized as a requirement of party declarations. The record of both parties is marked with abandoned "issues," which were found by the test of the ballot box to be unacceptable to the voters of that party itself. A striking modern illustration of this condition is the change of attitude towards silver coinage in recent Presidential conventions of both parties. In the matter of legal tender issues and resumption of specie payments, the platforms of the Democratic Party are equally interesting. In 1868 the party declared that Government obligations, wherever possible, ought in right and justice to be paid in paper money. In 1872 it had not a word to say for resumption of specie payments and its State platforms were repeatedly given over to fiat money. The panic of 1873 was a wholesome lesson. Yet if the party's leaders of a generation ago had been personally wedded to the inflation theory, it is at least conceivable that by seizing possession of the party machinery they might have forced the Convention of 1880 to "re-affirm" the platform of America? of 1868. Such an experiment might have won praise in some quarters for consistency, but it would never have gained any compliments for common sense. What the party did under the intelligent leadership of 1876 was to call for action which should "make good the promise of the legal-tender notes, \* \* \*

the non-payment of which is a disregard of the plighted faith of the nation;" and in 1880 "honest money," with "paper convertible into coin on demand," was the most important plank. From that time until 1896 a plank for paper inflation on the fiatmoney basis never found a place in the party's platforms, and it has won the Presidency in two of the three intervening elections.

We think it not impossible that conservative business men will have an uncomfortable season of it until this matter is again decided at the polls. For ourselves, however, we entertain no doubt as to what the eventual decision will be, and our expectation is that the lesson will be considerably more emphatically taught than it was in 1896.

### THE LESSON OF THE HOBOKEN FIRE.

The loss by the calamity of last Saturday proves much below the first estimates, yet it cannot fall short of considerably over a hundred lives and several millions of property. The loss upon the liners falls mostly on the sinking funds established for that purpose, but a large amount of insurance was carried on the dock and merchandise; the net loss is a matter not of salvage alone but of the amount exposed. When all is ascertained, it will fall heavily upon the underwriters, and be a last stroke and proof, at the end of the first half of a year which has piled more increase of loss upon the piled increase of 1899, to show the hazardous exposure of business that is one of the supports of the commercial structure.

To call this calamity startling would be to use a well-worn term, and yet startling is just what it ought to prove. Precisely how or in what material the fire began will never be known; it appeared on the southerly pier, and flew before the wind so swiftly that all the piers were involved, with their contents, before men's actions could have much effect and almost before their senses could realize the situation. In this appalling swiftness and fury of the fire is the lesson to be sought. The cotton was doubtless large in quantity, but probably not so in proportion; among the "general merchandise" were probably some oils and gums; but no considerable quantity of any explosive material is admitted to have been present, and yet the fire flew with a speed and raged with a power of heat that recall the blast at Chicago. A little fire starting on a dock and sweeping over others, with their contents and an adjacent warehouse; three liners abandoned as hopeless, one of them where she lay, and the fourth saved only because the prospect of larger salvage concentrated attention upon her; the men on board imprisoned for hours, some of them rescued at the last extremity; blazing lighters and barges drifting ashore down the bay to burn out; tugs and fire boats acting in their own way, some of the former, sad to say, accused of inhuman greed after salvage; no marked discipline of action and a general helplessnessit was a dramatic scene, but is it not plainly a reproach that such a scene could be enacted, in broad, peaceful day, in the harbor of the metropolis Surely we are not to talk about acts of God, but to accept responsibility. Inquiry must take the practical turn. What conditions made such an occurrence possible; what can be done to change them? Prevention -that fire shall not start, and that, if it does start, it shall be subject to positive limitation-this is what we

have to consider. We have known about our docks these many years and have admitted them to be antiquated, obstructive and discreditable; now comes a solemn warning of their continual menace by fire. They consist of wood piling, on which are erected wood flooring and structures, with a little ineffective sheet metal. They are open at the sides, and made more inaccessible by being crowded together; they have unbroken areas, always a prime source of danger, and are necessarily wind-swept. Even if the order against smoking is enforced, cotton and its kindred will always be tindery and there will always be chances that fire may start. Make ample provision of pumps and hose, with the best discipline and readiness for emergencies which can reasonably be deemed practicable, and yet a fire that has once gathered headway in such surroundings as the Hobcken piers (which were not distinctively so very bad) cannot be controlled with any certainty.

What is to be done, then? First, substitute substantial docks of stone and iron, which will themselves retard fire instead of feeding it. Next, so far as practicable, make some separation of merchandise, upon such a line as this: material which can be burned, material which will itself burn, material violently inflammable. Subdivide the area somewhat and isolate the more dangerous forms of merchandise. Some rapid substance, very likely cotton, began the Hoboken fire; had this material been by itself, in a compartment which could have been quickly (perhaps automatically) closed, the fire could have been fought so far as to confine it to that compartment, or, at the least, the liners could have been removed unharmed. As for the ships, their hulls are still unconsumed, however warped; they caught fire in sails, cordage and deckhouses, and burned downward into their interiors; clearly marine construction should change in the direction of slow-burning. Masts and yards are largely of metal already; sails can perhaps be made fire-resisting; most of all, this occurrence adds another lesson to those of the late war as to the danger of wood. Why should not fire-proofing treatment be applied to all wood for ships and docks, since the process has been proved practical and is extending?

This argument could be expanded into pages, but the inquiry comes back to one word—prevention. Nor is it any answer to cite difficulties and cost; the former exist to be surmounted, the latter is always to be viewed comparatively. Ascertain the total cost, direct and indirect, of this calamity, and compute the amount upon which that would pay interest and provide a sinking fund. We must also remember that this is only one stroke let fall from a constant menace, and that there must be others-possibly heavier ones-to fall in course of time, if the causes are allowed to remain. Taking the larger view, while it would be folly to croak dismally it would also be folly to assume that commercial supremacy is unalterably fixed for this port; there is an admonition, for example, in the present appearance of the neighborhood of Erie Basin. Just as it has been made clear since 1897 that this country cannot, if she would, remain isolated but must become a nation and a power on the globe, so must this city face her alternative, which is that not to grow, is to shrink. Expansion locally, in bridges, tunnels and other transportation modes, is our destiny; and our water-front must be remodeled to keep pace. We can choose in details, but we cannot lag in

the movement. That it is time to begin, on a wellplanned and foreseeing scale, is the lesson of this stroke. To heed it will be one step in the reform of our national habit of wasting our substance by fire--a reform which cannot much longer be deferred.

## GOVERNMENT FINANCES FOR THE FISCAL YEAR.

The Government revenue and financial statements for the fiscal year ending June 30 1900 possess unusual interest, as they cover a period of great trade activity favorable to large Government receipts and also the enactment last March of a decidedly important financial law which in its operation has affected results in various directions. At the outset we note a very gratifying feature, one which has not been observed before for seven years, namely a surplus of Government receipts over Government expenditures. It is a noteworthy fact that up to this latest year there had been ever since 1893 a deficit each twelve months, and for very large amounts, too, as a rule. In the early part of the period to which we are referring, the deficits resulted from the fact that after Congress had cut off some important items of receipts and heavily increased the expenditures, a cycle of business depression intervened. In the latter portion of the period the shortage followed from the circumstance that the expenses incurred in the prosecution of the Spanish War greatly exceeded the revenue collected from the War Revenue Act, which was calculated to add 100 million dollars to the yearly receipts. The return to a condition where there is again a surplus of large amount is due to the retention of the War Revenue Act on the statute books at a time of rising trade prosperity while coincidently the military outlays have been greatly curtailed.

Eliminating the \$2,946,194 received in payment of Central Pacific indebtedness, the surplus for the twelve months amounts to \$78,283,581. A surplus was of course looked for, but in his report to Congress at the beginning of last December Secretary Gage did not think it prudent to put the probable amount at over forty million dollars. We have only to compare this \$78,283,581 excess of receipts with the \$100,909,-874 excess of disbursements in 1898-9 and the similar deficit of \$99,066,160 for 1897-8 to see how decided the contrast and how complete the transformation has been. In the following we furnish a summary of both the leading items of receipts and the leading items of disbursements for each year back to 1879.

GOVERNMENT RECEIPTS AND DISBURSEMENTS-1878-79 TO 1899-1900

\* Including war and navy.

**†** Allowing for the premiums paid, the actual excess in 1888 is \$119,612,116; in 1889, \$105,053,444; in 1890, \$105,844,496 and in 1891, \$37,239,763.

The foregoing reveals some remarkable results. Notice in the first place the large aggregate of the receipts at 566 million dollars, an average of considerably over 1<sup>1</sup>/<sub>2</sub> million dollars a day for the whole 365 days. The table shows that the aggregate is the largest of any year since 1879, and we may add that it is the largest of any year in the country's history, even exceeding the highest totals reached during the Civil War. Only two years ago, in 1897.8, the aggregate of the receipts was less than 340 millions, and the rise in the interval to 566 millions reflects the operation of the new tariff law enacted in 1897 and the War Revenue Act of 1898, and the concurrent development of trade activity and prosperity on a very exceptional scale. The Customs revenue has expanded in the two years from 149 millions to 233 millions, and the internal revenue from 169 millions to 296 millions. The Customs revenue at \$233,857,958 shares the distinction of the grand aggregate in being the very heaviest ever recorded. The internal revenue total at 296 millions has been exceeded in one of the years of the Civil War, these taxes having yielded \$309,226,-813 in 1865-6. We have not the data for an analysis of the miscellaneous receipts for the late year, but they evidently included some special items, such as the payment of \$3,210,000 by the National City Bank for the custom house property, etc.

If we take the figures of debt, less cash in the Treasury, and compare with a year ago, we find a much smaller debt reduction than that indicated by the above excess of receipts. This excess, as stated, was \$78,283,581. Adding the \$2,946,194 received on account of the Central Pacific indebtedness, we get a total of \$81,229,775, which ought to have been, roughly, the amount of the debt reduction for the twelve months, had no other operations occurred to disturb the result. As a matter of fact, the actual debt reduction reaches scarcely 48 million dollars, the net debt July 1 1900 being \$1,107,711,257, against \$1,155,320,235 July 1 last year. The reason for the apparent discrepancy is of course perfectly obvious. The Act of March 14 1900, gave authority to fund the greater part of the bonded debt of the United States into new two per cents. As an inducement to make the exchange the old bonds are allowed to be taken on a basis of 2+ per cent interest to maturity, and the Secretary of the Treasury has been paying the premium on that basis in cash. Through these

bonus, Treasury cash has been correspondingly reduced, while the principal of the funded debt has remained the same. Up to July 1 \$307,125,350 of the new two per cents had been issued, and it is calculated that the premium payments on these have reached 30<sup>3</sup>/<sub>4</sub> million dollars. It should also be remembered that during the monetary stringency last November and December the Secretary purchased \$14,-310,350 of the 4s of 1907 and \$4,990,300 of the 5s of 1904, giving 112.75 and interest for the former and 111 for the latter. In this way he paid \$21,771,867, including principal, premiums and interest, for \$19,-300,650 of bonds.

The changes in the funded debt attract special attention because of these operations. The aggregate of the funded debt now is \$1,023,478,860, against \$1,-046,048,750 a year ago, a decrease of, roughly,  $22\frac{1}{2}$  million dollars; \$19,300,650 represents the 4s and 5s purchased last autumn, and the rest represents the portion of the old or extended two per cents redeemed. It will be remembered that the whole of these two per cents have been called for payment on August 18, but the Secretary offered to redeem them any time before that date with interest to the day of presentation. From the fact that only \$21,979,850 of these bonds are now reported as outstanding, as against the original total of \$25,364,500, it is obvious that \$3,-384,650 have availed of the offer of prepayment. The 4s of 1925 are not fundable under the Act of last March, and the amount of these outstanding remains precisely the same as a year ago, namely \$162,315,400. The outstanding total of the 4s of 1907, however, has been reduced during the twelve months from \$559,-652,300 to \$355,528,350, the 5s of 1904 from \$100,-000,000 to \$47,651,200, and the 3s of 1908 from \$198,-678,720 to \$128,843,240. The amount of the 4 per cent Refunding Certificates is \$35,470, against \$37,-830 last year. There were, as already stated, \$307,125,-350 of the new twos out on June 30.

As under the Act of last March 150 millions of gold is specifically set aside as a gold reserve fund, the socalled "available" cash balance has been to that extent reduced. Including, however, the gold reserve, the cash balance July 1 1900 was \$305,705,655, against \$281,380,469 twelve months ago. Of this \$24,325,186 increase, only \$6,328,335 is represented by enlarged holdings of cash in Sub-Treasuries, the total of which was \$279,615,582 July 1 1900, against \$273,287,247 July 1 1899. During the late month the holdings of money in the depositary banks were reduced nearly 94 million dollars, but they still stand at \$101,879,520, against \$79,171,929 a year ago. It is interesting to note that the gold holdings, including the 150 millions gold reserve, are only \$220,557,185 now, against \$240,-737,212 on July 1 1899. The other forms of cash

have increased during the twelve months.

## ITEMS ABOUT BANKS, BANKERS AND TRUST CO'S

-No sales of bank stocks were made at the Stock Exchange this week. At the auction sale held on Thursday instead of Wednesday, on account of the holiday, 160 shares were sold. No public sales of trust company stocks have been made during the week.

and the Secretary of the Treasury has been paying the premium on that basis in cash. Through these premium payments, which are in the nature of a

notes in amount of \$9,070,830. In May the addition was \$15,-210,563; in April \$14,325,258, and in March \$21,518,190. This makes a total for the four months of over \$60,000,000, raising the aggregate of outstanding notes from \$249,434,878 to \$309,-559,719. On June 30 the Government held \$377,526,520 of United States bonds as security either for public deposits or bank circulation. These are the figures from Washington, which do not include \$14,114,100 of bonds held in the Sub-Treasury in this city against public deposits. Of the total of \$377,526,520 no less than \$282,413,150 consists of the new 2 per cents; of the remainder \$14,026,400 consists of the extended 2 per cents which have been called for payment in August, and \$18,620,300 consists of the 4 per cents of 1925, which are not fundable under the new law. This still leaves over \$62,000,000 of bonds held by the banks yet to be exchanged, viz., \$6,274,500 of 5 per cents due in 1904, \$33,682,350 of the 4 per cents of 1907 and \$22,434,820 of the 3 per cents of 1908.

-It is evident that the creation of new banks with small capital is not being confined to the national system, notwithstanding that the Federal enactment of March 14, 1900, has furnished special inducements for the organization of such small institutions. In the State of Iowa the State Auditor on June 30 issued charters to ten banks desiring to do business in Iowa. The certificate in one case was for a renewal, but the other nine cases cover new institutions. This is said to be the first time that ten charters have gone out from the Auditor's office in one day. The amounts of capital of the new organizations run from \$10,000 to \$50,000. Many more applications for charters, it is reported, remain on file to be acted upon.

- In noting last week the resumption of dividends by the American Trust & Savings Bank of Chicago and the advance in the price of the shares to about 128, we made allusion to the growth which had occurred in the business of the bank during the last two years under the management of President Edwin A. Potter. A more conclusive indication of this growth is found when we compare the returns made to the Comptroller of the Currency under the several calls during the last two years, as is done in the following table :

AMERICAN TR.&	Surplus and	Gross	Aggregate	Mar't	price
SAV. BK. CHIC.		Deposits.	Resources.		
Apr. 26, 1900	\$292,077	\$9,854,396	\$11,146,477	113	115
Feb. 13, 1900	257,517	9,967,072	11,224,593	109	112

Jan. 10, 1898	144,246	4,921,025	6,065,276	95	100
NOTECapital	was \$1,000.00	0 at all the d	ates here give	n.	

It will be observed that the three items we have here selected for comparison have all just about doubled since the beginning of 1898. On January 10, 1898, the bank reported surplus and undivided profits at \$144,246; for April 26, 1900, the similar item was \$292,077; gross deposits in the same interval have risen from \$4,921,025 to \$9,854,396. Aggregate resources have increased from \$6,065,276 to \$11,146,477. At the earlier date only 95 was bid for the shares; in April of this year 118 was bid, and now, as already stated, the price is about 128.

-The Guaranty Trust Company of this city, at the corner of Nassau and Cedar streets, has greatly enlarged its office space. It has added the quarters lately vacated by the National Union Bank to its own extensive offices on both floors of the building. Openings have been cut through, thus practically making the two large sections one. The decorations are in white and gold. The company now has one of the handsomest and most commodious establishments in the city. Walter G. Oakman is the President; Adrian Iselin, Jr., Vice-President; G. R. Turnbull, Second Vice-President; H. A. Murray, Secretary and Treasurer, and J. N. Borland Assistant Secretary and Treasurer. The officers of the new bank are Washington Becker, President; John L. Mitchell and John Johnston, Vice-Presidents; and A. H. Lindsay, Cashier. The Milwankee "Sentinel" says that the new institution enters on its business career without any real estate or a dollar of donbtful paper.

-The Trust Co. of New York has issned its first semiannual statement. The company's assets of over \$5,000,000 consist mainly of \$500,000 in United States bonds, over \$1,-000,000 in New York City bonds and nearly \$3,000,000 of loans secured by collateral. Capital and surplus aggregate \$2,000,000, and in the six months of the company's existence it has acquired a deposit account of over \$3,000,000. Willis S. Paine is President and Warner Van Norden, First Vice-President.

- The Real Estate Loan & Trust Company of Camden, N. J., organized this spring, has acquired a controlling interest in the stock of the Security Trust Company of the same city. According to the Philadelphia "Record" the two companies will be merged, and in addition to a general banking business the new concern will conduct a surety and guaranty branch in the present offices of the Security Trust Co. The price at which the stock was purchased is reported to have been \$150 per share. The President of the Real Estate Loan & Trust Co. is Francis R. Fithian. W. K. Hurff is the Treasurer.

-The Baltimore "Sun" is authority for the statement that the directors of the Citizens' Trust Company are considering a proposition to reduce the capital of the company one-halfthat is from \$2,000,000 to \$1,000,000. This move, our contemporary says, is regarded in financial circles as a preliminary to a consolidation of several Baltimore trust companies. The Central Real Estate & Trust Company of Baltimore, it will be remembered, recently (see CHRONICLE of June 16, 1900, p. 1178) reduced its capital from \$1,000,000 to \$500,000.

- The statement of the Trust Co. of America, as of June 30, has been issued this week and attracts attention because of the noteworthy growth disclosed since the issue of the half-yearly statement on December 31 last. Deposits, then stated at \$6,842,855, now figure at \$10,911,343, and the surplus and undivided profits. which stood at the beginning of the year at \$2,635,605, have risen to \$2,716,626. The gross assets are \$16,151,650. The Trust Co. of America started business just a year ago. Its President is Ashbel P. Fitch, formerly City Comptroller. Wm. H. Leupp, the active Vice-President, was for many years with the Farmers' Loan & Trust Co., being second Vice-President of that company at the time of his retirement to enter the service of the Trust Co. of America. Lawrence O. Murray, the Trust Officer, resigned as Deputy Comptroller of the Currency to take his position with the new Trust Co. Raymond J. Chatry, the Secretary, came from the Metropolitan Trust Co.; Albert L. Banister, the Treasurer, came from the Farmers' Loan & Trust Co., and W. Hunt Hall, the Assistant Treasurer, from the Central Trust Co. It will thus be seen the company is managed by experienced and tried men, while its board of directors is composed of prominent men in the financial world.

-It is interesting to know that the experiment made by C. I. Hudson & Co. of this city, through Mr. A. A. Lismar, manager of their bond department, in offering for sale in this market certain foreign municipal bonds has met with a considerable measure of success. The bonds were advertised for sale on the last page of the CHRONICLE of June 23, 1900, and in various other papers. The undertaking was a decidedly novel one, but was in keeping with the broadening character of the investment field in the United States, under which purchases are no longer confined to exclusively domestic securities and enterprises, but are gradually being extended to foreign investments. C. I. Hudson & Co. did not seek a market for entire issues of municipal loans, but merely undertook to dispose of small amounts of several different issnes. The inducement to the investor obviously consisted in the circumstance that at the prices named the return would be better than could be obtained from the same class of security in this country. Mr. Lisman holds that American municipal securities sell at such extremely high figures simply because an artificial market is created by statute for such securities through the fact that they are made legal investments for savings and other institutions, who are required to invest in them. On the other hand, it is claimed that there is never any trouble about the payment of interest on

- The Marine National Bank of Milwaukee began business on Monday of this week as successor to the old Wisconsin Marine & Fire Insurance Company Bank. We referred to this contemplated change in our issue of June 2 last, and then noted that the Wisconsin Marine & Fire Insurance Company Bank was the oldest bank in Milwaukee, having been started in 1839 by George Smith and Alexander Mitchell. German municipal bonds, and that such a thing as default on the same is practically unknown.

- The capital of the Utica City National Bank is to be in. creased from \$400,000 to \$500,000. The shareholders are to vote on the proposition August 4. The new stock is to be allotted to the existing shareholders pro rata at 120. The business of the bank is expanding and the object of the increase in capital is to enable the institution to add still further to its growth. Charles S. Symonds is President, Henry W. Millar Vice-President and Melville C. Brown Cashier.

-Less than four months ago (CHRONICLE of March 17, page 509) we stated that the National Park Bank of this city had just opened a foreign exchange and credit department. It is now announced that owing to the growth of the business of the bank additional space has been found necessary. Accordingly the foreign exchange department is to be located in the rooms on the south side of the first floor of the building, giving the bank two entrances.

-The subjects to be discussed at the annual Convention of the Washington State Bankers' Association, to be held at Tacoma July 12, 13 and 14, are "Bank Taxation," by P. C. Kauffman, Cashier of the Fidelity Trust Company of Tacoma; "The Revenue Tax," by Miles C. Moore, President of the Baker-Boyer National Bank of Walla-Walla; "The Country Banker," by George S. Brooke, President of the Fidelity National Bank of Spokane, and "The Young Man in Banking," by Herman Chapin, President of the Boston National Bank of Seattle.

- In our issue of May 5 we adverted to the organization of a new bank in Philadelphia to be called the Franklin National Bank. This bank opened its offices for business in its new banking house, at Broad and Chestnut sts., on Monday morn. ing of this week. We have it on very good authority that the deposits the first day were of flattering amount, quite a good many prominent local corporations opening accounts. The building is still in an unfinished condition, but work on it is being rapidly hurried to completion. The bank has a capital of a million dollars, with a surplus of like amount. and in its board of directors are included an unusual array of representatives of corporate and financial interests. Henry Tatnall, late Vice-President of the Girard Trust Co., is the President, and J. R. McAllister, late Cashier of the Corn Exchange National Bank, is the Cashier.

- The Merchants' Trust Co. of this city, which commenced business only about six months ago, that is on Dec. 11, 1899, in its statement for June 30 shows deposits of \$4,359,983. The company started with a capital of half a million dollars and a surplus of one million dollars, and now reports aggregate resources of \$5,882,399 72.

-Allusion was made in our issue of May 26 to the proposed reduction of the capital of the First National Bank to \$300,000 as a of Norwich, Conn., from \$400,000 preliminary to its absorption of, and consolidation with, the Merchants' National Bank of the same city. A meeting of the shareholders of the First National has now been held and the proposed reduction approved by an almost unanimous vote. The Merchants' National Bank has a capital of \$100,000, and after the merger the capital of the First National will be \$400,000, the same as before.

-The First National Bank of Paterson, N. J. (Mr. Edward T. Bell, President,) has issued a statement of its condition on June 30, 1900. The statement came too late for use in our QUOTATION SUPPLEMENT, and accordingly we give the items here. Resources : Time loans, \$1,613,876 12; demand loans, \$418,374 24; United States bonds, \$562,000 00; other bonds, etc., \$382,178 36; real estate, \$142,000 00; due from banks, \$470,273 07; due from Treasurer United States, \$15,000 00, cash and cash items, \$208,7(3 06; total, \$3,812,404 85. Liabilities: Capital stock, \$400,000 00; surplus, \$300,000 00: profit and loss, \$162,570 79; circulation, \$300,000 00; deposits, \$2,450,834 06; United States bond account, \$175,000 00; 72d dividend, \$24,000 00; total, \$3,812,404 85.

which it will occupy for banking purposes as soon as alterations can be completed.

-Robert L. Niles of Niles Bros., bankers and brokers, and a member of the Exchange since 1883, has been appointed Vice-Chairman of the New York Stock Exchange, succeeding McPherson Kennedy, who was made Chairman when William McClure was elected Secretary.

-Group VI. of the State Bankers' Association, at the convention held at Catskill last week, adopted the following resolution: "Resolved, That Group VI. of the New York State Bankers' Association expresses its approval of the principles embodied in the new financial law, and that its members pledge their support for all legislative measures that will promote the stability of the currency of the country."

-Mr. John S. Jenks, Jr., was on July 2 admitted to membership in the firm of Edward B. Smith & Co. of Philadelphia.

## Book Notices.

THE A B C OF WALL STREET.-Edited and printed by S. A. Nelson, 16 Park Place, New York. Price, \$1 00.

As the title indicates, this little book aims to deal only with elementary and primary things relating to Wall Street affairs. The author is a member of the Wall Street staff of the New York "Evening Sun," which in itself is a high recommendation as to his qualifications; for the writers on the "Sun" are trained men and experts in their various lines, furnishing each day a clear and intelligent review of the day's business in the different markets. The writer says that the book is published for those persons who have long wanted a simple and authoritative description of Wall Street -- its men and their methods, and the mechanism of the stock speculative and security business in general. There are chapters setting out the operations and methods of business of the Stock Exchange, and defining the Stock and Bank clearing houses, the curb market, the grain, cotton and the coffee markets, as well as describing the various forms of bonds and stocks dealt in on the Stock Exchange. The book also deals with the "Assay Office and Its Work," the "Custom House and Its Work," the "Sub-Treasury and Its Work," besides discussing foreign exchange, gold imports and exports, and various kindred matters. It is neat and attractive in appearance and compact in size. It gives just the kind of simple and rudimentary information for which the average banker and broker receives a good many calls nearly every day in the year, but which requests cannot be readily complied with without the expenditure of a good deal of A feature of the book is a dictionary of Wall time. Street words, names and phrases. This is intended to comprise persons, terms and expressions forming part of the affairs or appertaining to the vernacular of Wall Street. As indicating the author's views and breadth of mind we may select as an illustration his definition of "Trusts:"

TRUSTS.-The popularly accepted name for a combination of interests-usually manufacturers-for the purpose of regulating production and prices in fair conformity with demand. They are the outgrowth of excessive competition which produced demoralization and panic. Up to certain limits they sometimes advance prices, when public sentiment steps in and controls. They are a necessity or they would not exist. Having some evils they also have much in them to commend, chief of which is that they work the greatest good to the greatest number. Excessive competition-characteristic of this great country with its energy and resources-is the ruin of trade, and only prevented by an industrial combination. As they are organized to-day any man with \$100 can become the part owner of a so-called Trust. Prior to the organiza-tion of the Sugar Trust the sugar trade was controlled by a few men who owned all the refineries; to-day the Sugar

-The increase in the capital and surplus of the Hanover National Bank became effective July 2. The new capital is \$3,000,000, the surplus is \$5,000,000 and the undivided profits \$14.000.

-The Nineteenth Ward Bank has bought property on the northwest corner of Third Avenue and Fifty-seventh Street.

Trust has 11,000 small stockholders. Trusts generally work for smaller profits than individuals.

If we should make any criticism at all on this part of the book it would be that it does not differentiate sufficiently between the important and the unimportant. Some decidedly inconsequential characters and things are dignified with a place in the list, when as a matter of fact they are as complete strangers in Wall Street as they are out of it.

RAILROADS .- Address by J. W. Thomas, President of the Nashville Chattanooga & St. Louis Railway, before the University Club at Nashville.

This address by Major Thomas is now printed in pamphlet form. Major Thomas has been a railroad man for a period extending over forty years, yet he speaks in a modest kind of way of his knowledge regarding railroad matters. In this address he notes some of the important events in the early history of railroads in this country, and then gives some interesting general remarks upon the management of the same, the cost of building them, and a brief description of the various departments into which the administration of a railroad is divided. He points out that the construction of a new and needed line usually enhances the value of adjoining lands ten times the cost of the road, and also materially increases the value of all products of the field, the forest and the mines. Everybody hails with delight the first train, and he well says that it would be a blessing to both parties if this feeling of mutual interest would be continued. But, unfortunately, what at first was hailed with delight is soon by some denounced as a grinding monopoly.

The chief complaints against railroads, he points out, are on account of the charges for transportation of freights. Some claim that rates should be in proportion to distance hauledthat the rate from Nashville to Murfreesboro, thirty miles, should be one-tenth the rate from Nashville to Atlanta, 300 miles. Such a view ignores the fact that receiving, loading unloading and delivering forms a considerable part of the charge for transportation, and that this expense is the same for a short as for a long haul. If a rate of twenty cents on a barrel of flour, Nashville to Murfreesboro, is a reasonable rate, and he does not think any one will dispute that it is, on the basis proposed the rate would be \$2 to Atlanta, which would be prohibitory. If forty cents a barrel is a reasonable rate to Atlanta, on the basis proposed the rate to Murfreesboro would be four cents, which would be unremunerative. Others claim that the rate should be based on the unit of 100 pounds, a ton, or a car-load-that the rate per ton per mile should be the same on all classes of freight; that is, that the charge on a case of dry-goods weighing 100 pounds should be no more than on a sack of corn weighing 100 pounds, although the corn would be worth a dollar and the case of dry-goods \$500; that the rate on a car-load of wheat worth \$1,000 should be no more than on a car-load of coal worth at the mines \$20.

With all thoughtful students he contends that the true basis is a low rate on articles of necessity, a higher rate on articles of comfort and a still higher rate on articles of luxury. Rates should be reasonable; but what may be reasonable on one road may not be so on another. Rates to be reasonable should at least pay the cost of the service. Rates and classifications are the battle-grounds for all rivalries of trade and commerce. Every city is in competition with every other city, every railroad with every other railroad, and every industry with those which rival it. Water competition is an important factor, if not a controlling force, in the establishment of competitive rates of this country, The establishment of rail rates between points and territories also reached by means of water transportation materially influences, if it does not actually control, the fixing of competitive rates between points and territories not directly competitive with water transportation, because the carriers deem it wise to maintain a reasonable parity of rates be tween manufacturing, jobbing and distributing points in the interior with those points favored with water transportation, this policy being necessary to insure the upbuilding of the manufacturing and jobbing interests of communities served only by rail lines.

Major Thomas makes some comments upon the attempt of the States to regulate the railroads, which has become a fea-

cent, Baltimore 19.9 per cent, Chicago 19.3 per cent, St. Loui<sup>S</sup> 2.0 per cent and New Orleans 10.3 per cent.

The course of bank clearings at leading cities of the country for the month of June and since January 1 in each of the last four years is shown in the subjoined statement.

ture since 1877, and the similar policy of the United States, inaugurated in 1887. He does not believe in the wisdom of such a policy; he declares that in many instances Government has regulated the roads into bankruptcy. The commerce of this country, extending over 200,000 miles of railroad, is too complex and varied to be controlled by any five men, and cannot be made subject to any iron-clad rules.

Clearings by Telegraph.—Sales of Stocks, Bonds, &c.— The subjoined table, covering clearings for the current week, usually appears on the first page of the CHRONICLE, but on account of the length of the other tables is crowded out once a month. The figures are received by telegraph from the leading cities. It will be observed that as compared with the corresponding week of 1899 there is a decrease in the aggregate of 3.6 per cent. So far as the individual cities are concerned, New York exhibits a loss of 1.9 per cent, and Boston 15.7 per cent. Philadelphia records a gain of 3.3 per

## Monetary Commercial English News

[From our own correspondent.]

LONDON, Saturday, June 22, 1900.

Although business is as slack as ever, there is a complete change in the sentiment of the market here, mainly due to the belief that the liquidation in Berlin is ended, for the time being at all events. The crisis in China causes grave anxiety for the very many valuable European lives endangered; but as all the Powers are acting cordially together, there is a very strong belief that the crisis will not bring about a serious quarrel. The only danger of course is from Russia. The other Powers are either strongly in favor of maintaining the integrity of China or are afraid to move; but the designs of Russia are suspected. The belief, however, here is that if the United States and Japan act in concert with this country, Russia will not venture upon action that might involve her in war. For all these reasons people do not entertain much anxiety respecting China.

But there was serious apprehension some little time ago that the liquidation in Berlin might reveal serious difficulties. That there has been a very rash speculation in Germany is beyond question; and that many people have bought much more than they are able to pay for is also certain. On the other hand, it is no doubt true that the banks act together with great public spirit in times of emergency, and that they do not press their clients too severely. It is also true that much of the speculation has been in industrial securities which in themselves are intrinsically sound. But for all that the "break" in iron and steel in the United States caused much anxiety in Germany lest the market there might be flooded with American iron and steel. And when the Government became apprehensive and the Imperial Bank urged the other banks to be more cautious in the future, liquidation became absolutely necessary. There has been a very large selling of American securities, of Chinese bonds, South Afri-can gold shares, and the like. Everything, in fact, for which there was an international market has been disposed of on a very great scale by the speculators. The impression, however, now is that the liquidation has come to an end, for the time being, at all events. Bank shares, industrial shares, and the like, are very much lower. The weaker speculators have been cleared out and a good deal of money has been ob-tained by the sales of securities for which there was a demand abroad.

Although, then, it is certain that the money market will be very stringent next week, anxiety has disappeared and there is a much more hopeful feeling here in London. At the end of June there is always a very strong demand for money in Germany. Last year the Imperial Bank had not only to put up its rate of discount, but it had to issue a very con-siderable amount of notes for which it was obliged to pay 5 per cent duty to the Government. This year it seems certain that it will have to issue duty paying notes in the same way; but it is evidently doing its utmost to avoid raising its rate of discount, as it is attracting gold from New York, Lon-

don, St. Petersburg and Vienna. Assuming that the liquidation in Berlin is over for the time being, the expectation is that the next week or two will pass over smoothly in Paris. There has been a good deal of speculation in France also in industrial securities, such as mining, electrical securities, automobile enterprises, and the like; and some anxiety was entertained in France lest the "break," first in the United States and then in Germany, might react upon Paris. At present, however, the fears are disappearing.

Here at home there is scarcely any speculation for the rise. In some departments, indeed, there is a very large speculation for the fall; and assuming that the next week passes over smoothly in Berlin and Paris, the general opinion of the best informed in the city is that there will be a considerable rise in prices here as soon as good news is received from China.

Quite unexpectedly a large amount of gold, not far short of three-quarters of a million sterling, has been taken from London for Berlin; and at the same time the metal is being obtained from New York, Vienna and St. Petersburg. The Berlin exchange upon London has been falling for some time past; but the fall has not been sufficient to make the withdrawal of gold from the Bank of England a profitable transaction as an exchange pure and simple. Or course the Imperial Bank of Germany gives great facilities when gold is required, and indirectly, no doubt, the operation has paid; but as a pure exchange operation it is not profitable. Still, it is understood that somewhat more will be taken, though it is believed not much more. A considerable amount is being taken from St. Petersburg, and it is said that about five million dollars in all will be got from New York. The Imperial Bank thus strengthened will be able to increase its note issues very considerably; but for all that very little doubt is entertained that it will have to issue notes for which it will have to pay duty. The main thing, however, is that the rate of discount should not be raised; and the best opinion in Berlin now is that the Bank will be able to avoid doing so. As the Bank of France has been attracting gold in very large amounts, at the same time the situation in Berlin was rendered more difficult; but Berlin has been reinforced, and it is hoped now that the trouble is over.

tion that the loan was to be repaid in gold when the time arrived, or whether it be that the Russian Government is preparing the markets for a large Russian loan, remains to be seen. Probably all the causes have been at work. There have been loans from Germany on Russian bonds, and Russia desires to keep the markets of Western Europe as quiet as possible. At all events, Russia is sending gold in large amounts both to Berlin and to Paris, and it is expected that she will have to send considerable amounts more to London. Her expenditure in the Far East at the present time is very great. Not only is she hurrying on the completion of the Siberian railway, but she is also pushing railways in China; while she is breathlessly endeavoring to strengthen her hold upon Port Arthur; and she has a large naval and military force. On account of all this vast expenditure she has been remitting for a considerable time past through London as the easiest, quickest and readiest means of providing funds, and she has also been buying large quantities of silver here. The impression, therefore, is that the crisis in China will compel her to spend even more lavishly, and that consequently she will have to increase her remittance of gold to London.

Meantime money is rapidly becoming very cheap in India. The Bank of Bombay has this week lowered its rate of discount from 5 per cent to 4 per cent. The Bank of Bengal rate was already 4 per cent. Yet the Council sells its drafts very well. On Wednesday it offered for tender 30 lacs, and the applications exceeded 500 lacs. The whole amount offered was dispossed of at prices ranging from 1s. 3 31-32d. to 1s. 4 1-32d. per rupee. Later the Council sold by special con-tract 1½ lacs at 1s. 4d. per rupee.

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols, &c.

Messrs. Pixley & Abell write as follows under date of lune 21

June 21. Gold—There has been a strong demand for gold during the week consequent on the reduction of the Bank rate, foreign exchanges have moved against us, and both Paris and Berlin have bought all the arri-vals of bars in the market. There have in addition been withdrawals from the Bank of £27,000 French coin at the advanced price of 76s. 9<sup>1</sup>2d., and £647,000 German coin at 76s. 8<sup>3</sup>4d. New York has shipped during the week \$3,500,000 to Berlin and \$600,000 to Paris. The Bank has received £1,062,000, of which £500,000 is released by the Indian Currency Department and £500,000 from Russia, and has sold £953,000, of which £200,000 goes to the Cape. Arrivals: Australia, £209,000; Japan, £50,000; Straits, £17,000; West Indies, £29,000. Total, £305,000. Shipments: Nil Silver—With the renewal of the demand for the Indian Government, and also good trade inquiry, silver has been in good request, and the feeling that the trouble in China may lead to a large demand for re-mittance in bars to the East has created a speculative demand. The price has risen to 27 13-16d. cash and 27<sup>3</sup>4d. forward with sellers holding out for 1-16d. better. The Indian price is Rs. 80<sup>5</sup>9. Arri-vals: New York, £165,000; West Indies, £15,000. Total, £180,000. Shipments: None since last week. Mexican dollars have shared the rise in silver. A good demand for Manila, and also a speculative inquiry for extended delivery, has caused an advance to 27 7-16d. buyers. Shipments: Penang, June 14, £24,650.

£24,650.

WALL STREET, FRIDAY, JULY 6, 1900.-5 P. M. The Money Market and Financial Situation.-The more hopeful and buoyant feeling, signs of which we noted at the close last week, has steadily developed since that time. As is usually the case during a national holiday period, the volume of business was limited, but the tone of the security markets has been quite in contrast with that which had previously existed and prices for all classes of securities ad-vanced. This is somewhat surprising in view of the fact that much of the news of the week, both at home and abroad, forms a chapter of horrors rarely equaled, and might therefore be expected to have a depressing effect. The de-plorable state of affairs in China caused a sharp decline in securities at all the principal European centers, and there is reported to have been liberal sales in Wall Street for for-

eign account. The open market rates for call loans on the Stock Exchange

during the week on stock and bond collaterals have ranged from 1½ to 2 per cent. To-day's rates on call were 1½ to 2 per cent. Prime commercial paper 3¾ to 4½ per cent The Bank of England weekly statement on Thursday showed a decrease in bullion of £950,504 and the percent-age of reserve to liabilities was 37.32, against 43.64 last week; the discount rate remains unchanged at 3 per cent. The Bank of France shows an increase of 36,250,000 francs in gold and a decrease of 1,875,000 francs in silver.

The New York City Clearing-House banks, in their statement of June 30 showed an increase in the reserve held of \$649,200 and a surplus over the required reserve of \$16,859,375, against \$15 526,850 the previous week.

* This is the price	bid at the	morni	ng boa	rd: no	sale we	as made	8.

Prices are quotations in "Unlisted Dep't" for bonds "when issued."

State and Railroad Bonds .- Sales of State bonds at the oard include \$6,000 Louisiana con. 4s at 106½, \$2,000 Ala-ama Class A at 109, \$40,000 Virginia fund debt 2-3s of 1991 911/4 to 911/2 and \$10,000 Virginia 6s deferred trust receipts 714.

The market for railway bonds developed more strength han has been apparent for some time past. Transactions t the Board were limited to an average of only a little more than \$1,000,000 par value per day and were fairly well distributed. The list of issues which sold ex-interest on the first of this month is a long one, a fact which should be kept in mind when comparing quotations. The smartest advance noted is that of Detroit Mackinac & Marquette land grant  $3\frac{1}{2}$ s, which were bid up  $2\frac{1}{2}$  points. Reading 4s were in request and advanced about 2 points on unusually large transactions. Missouri Kansas & Teras 2ds and St. Louis Southwestern 1sts were on the small list of bonds that advanced a point or more.

Stock and Bond Sales .- The following shows the volume of business in stocks and bonds on the New York Stock Ex-change for the past week and since Jan. 1:

Foreign Exchange.-The foreign exchange market has been firm in tone, especially to-day, and a hardening of

rates is noted. To-day's actual rates of exchange were as follows: Bankers' sixty days' sterling, 4 8334@4 84; demand, 4 8614@4 8612;

cables, 4 8634@4 87; prime commercial, sixty days. 4 8314@ 4 831/2; documentary commercial, sixty days, 4 83@4 84; grain for payment, 4 833/4@4 84; cotton for payment, 4 83 @4 831/4; cotton for acceptance, 4 831/4 @4 831/2.

Total...... 37,169 22,554 130,300 91,777 23.097 1,116.462 Railroad and Miscellaneous Stocks .- Notwithstanding some sales for foreign account, the volume of business in stocks averaged less than 300,000 shares per day. The market was generally firm and offerings were, for the most part, readily absorbed at advancing prices. The anthracite coal shares were exceptionally strong, led by Central of New Jersey, which sold up to 133½, an advance of 11 points within the week, 7 points above its record in 1899 and its highest price since 1892. Various rumors accompanied this advance, none of which are confirmed. The grangers were strong on less unfavorable crop reports. Some of the South-western stocks were firm on the prospects of heavy grain western stocks were firm on the prospects of heavy grain traffic. Missouri Pacific, of this group, was conspicuous in an advance of over 4 points. Baltimore & Ohio advanced over 3 points, on a good demand. The local traction issues although lightly dealt in, followed the trend of the market in a mild way, except Third Avenue, which was weak. The entire market was weak towards the close to-day and in several cases quotations mentioned have been modified.

## RAILROAD EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns oan be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two oolumns the earnings for the period from January 1 to and including such latest week or month. The returns of the street railways are brought together separately on a subsequent page.

	Latest Gross Earnings.		nings.	Jan. 1 to I	atest Date.		Latest	Gross Ear	nings.	Jan. 1 to	Latest Date,

\* Figures for May and June are for the railroad only. 
<sup>†</sup> Mexican currency. 
<sup>§</sup> Covers results of lines directly operated cast of Pittsburg.
<sup>†</sup> Includes Chesapeake & Ohio 80'western, Ohio Valley and Chicago and Texas for both years.
<sup>a</sup> Figures for 1900 are for two days only, road tied up for remainder of week as result of wash-out.
<sup>b</sup> Does not include the Austin & Northwestern, the San Antonio & Aransas Pass or Houston & Texas Central system.
<sup>c</sup> Results on Montgomery Division are include <sup>†</sup> in 1900, but not for 1899

Latest Gross Earnings by Weeks .-- The latest weekly earn-

ings in the foregoing are separately summed up as follows: For the fourth week of June our statement covers 39 roads and these show 8.05 per cent increase in the aggre-

gate over the same week last year. 4th week of June. 1900. 1899. Increase. Decrease. 8 8 46,288 156 2 )9 792.000 94,297 167,183 Alabama Gt. For the third week of June our final statement covers

68 roads, and shows 10.24 per cent increase in the aggregate over the same week last year.

3d week of June.	1900.	1899.	Increase.	Decrease.
		\$	\$	\$
Previously rep'd (62r'ds)	8.736.577	7,914,999	892,547	70,969
Burl. Ced. Rap. & North	90,486	83,483	7,003	
Iowa Central	47,234	44,085		
Pere Marquette	142.804	127,669	15,1 (5	
Santa Fe Pres. & Phœnix.	19,502	17,717	1,785	
Texas Central	6,615	5,383	1,232	
Wisconsin Central	122,979	121,651	1,328	
Total (68 roads)	9,166,197	8,314,937	922,179	70,969
Net increase (10 24 p. c.			851,210	

For the month of June 51 roads (all that have furnished statements for the full month as yet) show aggregate results as follows:

Month of June.	1900.	1899.	Increase.	Per Oent.
Gross earnings (51 roads)	\$ 31,461.625	\$ 28,600,916	\$ 2,860,709	10.00

It will be seen that there is a gain on the roads reporting in the amount of \$2,860,709 or 10.00 per cent.

Net Earnings Monthly to Latest Dates.—The table following shows the gross and net earnings of STEAM railroads reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the CHRONICLE of June 23, 1900. The next will appear in the issue of July 21, 1900.

#### STREET RAILWAYS AND TRACTION COMPANIES.

The following table shows the gross earnings for the latest period of all STREET railways from which we are able to obtain weekly or monthly returns. The arrangement of the table is the same as that for the steam roads—that is, the first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

#### Lehigh & Wilkes-Barre Coal Company.

#### (Official Statement.)

NEW YORK, June 25, 1900. The \$12,175,000 7 per cent consolidated mortgage bonds which matured on June 1, 1900, have, by agreement be-tween this company and the Central RR. Company of New Jersey, been extended for ten years from June 1, 1900, at 41/2 per cent, interest payable quarterly on the first days of March, June, September and December in each year, and said extended bonds are guaranteed both as to principal and interest by the Central RR. Co. of New Jersey. The exten-

#### EXTENSION CONTRACT.

sion contract and guaranty are as follows :

By and in consideration of this contract and the coupon sheet made and attached to the accompanying bond number \_\_\_\_\_\_\_, issued by the Lehigh & Wilkes-Barre Coal Co., dated April 27, 1875, and secured by the mortgage executed by the said Coal Company to the Fidelity In-surance Trust & Safe Deposit Co. of Philadelphia, dated April 27, 1875, and of the acceptance of this contract and coupon sheet by the holder of said bond, the Lehigh & Wilkes-sarre Coal Co. and the holder of said bond agree that the time of payment of the principal of said bond shall be extended to June 1, 1910; that interest shall be paid thereon at the rate of 4½ per cent per annum, payable quarterly on the first days of March, June, September and December in each year, on presentation and delivery of the annexed interest coupons as they severally become due; but if there be any default in the payment of any coupon the principal of said bond shall, at the option of the holder, immediately become due and payable. The mortgage security of said bond remains unimpaired, and no part of this contract shall be construed to affect its priority or validity or the rights or powers of the trustee of said mortgage, and except as to the postponement of maturity and the reduction of the rate of interest, all the provisions of said bond and mortgage shall apply to this extended bond, but the sinking fund set apart by the said Coal Company under the fourth article of said mortgage, to be applied as therein provided, shall be onc-half of one per ceut on the par value of the bonds outstanding in the year for which it is set apart. In witness whereof the Coal Company has caused its corporate seal By and in consideration of this contract and the coupon sheet made

Soranton & Carbondale and Carbondale Traction.

Street Railway Net Earnings.-The following table gives the returns of STREET railway gross and net earnings received this week. In reporting these net earnings for the street railways, we adopt the same plan as that for the steam roads-that is, we print each week all the returns received that week, but once a month (on the third or the fourth Saturday), we bring together all the roads furnishing returns, and the latest statement of this kind will be found in the CHRONICLE of June 23, 1900. The next will appear in the issue of July 21, 1900.

the year for which it is set apart. In witness whereof the Coal Company has caused its corporate seal to be hereunto afflyed, duly attosted, the first day of June, 1900. THE LEMGH & WILKES-BARRE COAL COMPANY.

By ..... President.

Attest:

----- Secretary.

#### GUARANTY.

For value received, the Central RR. Co. of New Jersey hereby guarantees the punctual payment of the principal of the bond attached to this coupon sheet and the payment of interest thereon at the times and upon the terms and conditions specified in this extension contract, and this coupon sheet. in pursuance of a resolution by the board and

the assent of its stockholders. In witness whereof the said company has caused this guaranty to he-signed on its behalf by its Treasurer and its corporate seal to be here-unto aflixed this first day of June, 1900.

..... Treasurer.

An official statement to the New York Stock Exchange says: "The company owns in fee in the Wyoming region 20,577 acres, in the Lehigh Division 8,332 acres, making a total of 28,909 acres owned in fee. The company also holds under lease in the Wyoming Division, Luzerne Co., Pa., 2,847 acres, making a total owned and leased of 31,756 acres. There is no corporate relation between the Central RR. Co. of New Jersey and the Lehigh & Wilkes Barre Coal Co., the interest of the Railroad Company being through ownership of shares of capital stock of the Coal Company. The coupons on \$6,116,000 of consolidated bonds of the Coal Company owned by the Railroad Company, maturing June 1 and prior thereto, as well as those held by the public, have all been paid and canceled. In accordance with the require been paid and canceled. In accordance with the require-ments of your committee, the company will publish at least once in each year a properly detailed statement of income and expenses for such preceding period, as well as a balance sheet.'

A statement of the business for the five months endirg June 1 and the balance sheet on June 1 follow:

STATEMENT OF BUSINESS, FIVE MONTHS ENDING JUNE 1, 1200.

#### North American Company.

#### (Report for the fiscal year ending May 31, 1900.)

The Treasurer's statement of income and assets was given June 23 on page 1247. President C. W. Wetmore says in substance:

Income.—The income account for the year shows a surplus of \$149,750 over operating expenses. As compared with the year ending May 31. 1899, there is a decrease in expenses of administration of \$2,047 and an increase in gross income of \$62,409.

Dividends on Stocks Owned.-In February, 1900, quarterly dividends were begun at the rate of 6 per cent per annum upon the preferred shares of the Milwaukee Electric Ry. & Light Co. and in April at the rate of 5 per cent per an-num upon the shares of the capital stock of the Cincin-nati Edison Electric Co. The rate upon the preferred shares of the Milwaukee Company is the maximum to which they are entitled. Each of the companies has delayed the beginning of dividends until its ability to continue them perma-nently was believed to be assured. Your company has during the past fiscal year increased its holdings of the common capital stock of the Milwaukee Company from 32,277 shares to 34,522 shares and of the capital stock of the Cincinnati Company from 7,466 shares to 8,632 shares.

Milwaukee Electric Railway & Light Co.—An ordinance was enacted by the Common Council of the city and signed by the Mayor on Jan. 2, 1900, extending the principal railway franchises of the company (which otherwise would expire on July 1, 1924) for ten years and six months and fixing December 31, 1934, as the uniform date of termination of all its railway franchises. The ordinance also grants to the company additional and important franchises to extend its railways. This was upon the following reasonable conditions:

That the company shall sell tickets for transportation on its lines within the city limits at the rate of 6 for 25 cents, 12 for 50 cents and 25 for \$1, good during the hours from 5:30 to 8 o'clock in the morning and from 5 to 7 o'clock in the afternoon during the five years ending Jan. 1, 1905; and thereafter, until the termination of its franchises, shall sell tickets at the same rate good at all hours of the day.

sion of the central power house has been completed and is now in successful operation. During the past year a line has been constructed to North Milwaukee, a distance of about three miles from the city limits.

The Milwaukee system is described as follows:

The suburban and interurban lines, as well as the city railways of Racine and the electric light and power plants of Racine and Wau-watosa, to which extended reference was made in the last report, are operated under a separate organization known as the Milwaukee Light Heat & Traction Co., the entire capital stock of which is owned by the Milwaukee Electric Railway & Light Co. The last named com-pany, therefore, now owns, directly or indirectly, and operates, a sys-tem of railways which extends from White Fish Bay and North !Mil-waukee on the north, through Racine to Kenosha on the south, a dis-tance of 37 miles, and to Waukesha Beach, at Pewaukee Lake, on the west, a distance of 25 miles, having a total operated mileage of 214 miles and serving a population estimated at from 330,000 to 375,000, without competition except from the steam railways, and also owns and conducts the entire central station electric light and power busi-ness in the cities of Milwaukee, Racine and Wauwatosa. All these properties constitute a single system, closely united under one execu-tive organization, a system which is assuming a high place among the great street railway enterprises of the country. The suburban and interurban lines, as well as the city railways of

Extensive plans are under consideration for the future development of the railway and lighting systems, both inter-urban and within the city, which will, we believe, be of great advantage to all concerned.

Cincinnati Edison Electric Co.-Since the completion of the new central station the Cincinnati company has entered upon an active campaign for the extension of its business. In January last a reduction of  $33\frac{1}{3}$  per cent was made in the base rate charged for electric current and a new system of discounts, based mainly upon the hours of consumption, was introduced, with the result of greatly increasing the commercial sales of current. Further extensions and improvements have been undertaken and will be completed by the autumn, with the view of bringing the service to the highest standard of efficiency and of meeting all possible demands therefor. We have no doubt that these improvements and extensions will more than warrant the additional investment of capital required.

Reduction of Capital Stock.-In two previous reports mention has been made of a parpose to propose a reduction of the capital stock of the company to an amount more closely approximating the value of its assets. We feel that the time will shortly arrive when this matter should be brought formally to your attention, and it is not improbable that a special meeting of shareholders may be called within the next few months for the consideration of this subject and of active plans for the future of the company. See also V. 70, p. 1247,

#### GENERAL INVESTMENT 'NEWS.

#### RAILROADS, INCLUDING STBEET BOADS.

**Contributions.**—Subscribers and others will contribute materially to the completeness and value of this department, if they will send us prompt information as to all matters coming within their personal knowledge affecting the financial status of any company whose securities are held by the public, particularly facts as to new stock and bond issues, leases and consolidations, defaults in interest or dividends, protective committees, reorganization plans, etc. Copies of official circulars, readjustment plans or notices, financial reports of every kind and brokers' offerings of new securities will also be appreciated.

Allegheny Valley Ry.-Lease, Etc.-See Western New York & Pennsylvania Ry. below.--V. 70, p. 839.

American Railways Co.—On Philadelphia Unlisted.—The Philadelphia Stock Exchange has placed on its unlisted department the \$3,750,000 capital stock, par value \$50, full paid. -V. 70, p. 1094.

Ashland Coal & Iron Ry.-New Mortgage.-The stockholders have authorized a new first refunding mortgage to secure \$400,000 twenty five year 4 per cent gold bonds (\$1,-000 each), due May 1, 1925, interest being payable May and November at the New York Security & Trust Co., trustee. Of the new bonds \$300,000 have been issued from which will be retired the \$241,000 7 per cent bonds due Aug. 1, the remaining \$100,000 being reserved for improvements, etc.

Atchison Topeka & Santa Fe Ry.-Through Line to San Francisco.-Tae company on July i began running through passenger trains over its own rails from Chicago to San Francisco, making nae of its new line built by the San Francisco & San Joaquin Valley Ry Co. from Bikersfield, Cal., to the bay of San Francisco. Freight service began May 1. Acquisition.- The company on June 3) purchased at foreclosure sale the Kansas Oklahoma Central & Southwestern RR., which see below.

While the ordinance was before the Council three suits were brought, nominally on behalf of taxpayers, to prevent its enactment and enforcement, and ex parte injunc tions were obtained. It was decided, however, by the Su-preme Court of Wisconsin that the discretion of a legislative body could not be interfered with and that unless there were some technical informality in enacting the ordinance it was unquestionably valid. Two of the suits have been dismissed, but one injunction remains in force until an appeal can be heard by the Supreme Court, and is so far operative as to prevent construction work under the new franchises. Conn sel confidently advise that the injunction will be dissolved. Recent events have shown that the settlement has the general approval of the people. It assures to Milwaukee the development of its transportation system and it gives to the company added assurance of stability for its investment.

During the past year a large number of new cars of the highest type of efficiency have been purchased and an exten.

Consolidation.-All the property of another of the subsidiary companies, the Chicago Santa Fe & California Ry. Co., has been conveyed to the Atchison, and brought under the direct lien of the parent company's mortgages of 1895.-V. 70, p. 1289.

Atlanta Railway & Power Co.-New Ordinance.-Oa July 2 the Grady ordinance, as amended, giving franchises to the company for the construction of an electric-lighting system in Atlanta, was adopted unanimously by the Conncil. The ordinance was to go to the Aldermanic board for action on Thursday afternoon. The company is not satisfied with the terms of the ordinance, and, it is stated, will not accept if it

it is adopted and receives the signature of the Mayor.-V. 70, p. 1290.

Baltimore & Ohio RR.—Securities of Central Ohio Lines. —Below will be found the amounts of the securities of the various Central Ohio lines originally outstanding, the amounts deposited with the Central Trust Co. as trustee of the Pittsburg Junction & Middle Division 3½ per cent mort-gage, and the amounts not yet exchanged for the new 3½s:

Boston & Maine RR.-In control.-On July 1 possession was taken of the Fitchburg RR., the lease, sanctioned by the Massachusetts Legislature, having been signed by President Tuttle of the Boston & Maine and President Codman of the Fitchburg. Gov. Crane signed the lease bill at 11:20 A. M. June 30.-V. 70, p. 1194.

Brooklyn Rapid Transit Co.—Conviction of Conspirators. -On Monday Alfred R Goslin, Eugene L. Packer and Charles Thomas Davis, three of the four men on trial before Justice Fursman in the Criminal Branch of the Supreme Court on a charge of misdemeanor for having conspired to depreciate the market value of the stock of this company, were convicted. Henry Bogart, the fourth defendant, was acquitted by direction of the Court. Alfred R. Goslin was sentenced to six months in jail and fined \$500. Eugene L. Packer and Charles T. Davis were sentenced to three months each and fined \$250. On application, however, of the lawyers for the de-fendants, Justice McAdam granted an order directing the Attorney General and the District-Attorney to show cause on July 10 why a certificate of reasonable doubt should not

be granted. Hearing Adjourned Until July 11.-At Albany Tuesday Attorney-General Davies postponed till July 11 the hearing on the application of ex-Senator P. H. McNulty to begin an action for the annulment of the Brooklyn Heights Railroad Company's charter.-V. 70, p. 1290.

Centralia & Chester RR.—Transferred.—See Illinois Southern Ry Co. below.—V. 70, p. 1095.

Central RR. of New Jersey.—Further Rumors.—An addi-tional large advance in the price of the company's stock has been accompanied this week by further rumors of a pending change in control. One story, which received some consid-eration, is that the property will be leased to Baltimore & Ohio, and Pennsylvania, for a guaranteed dividend on the stock. The tracks of the Central of New Jersey, it may be noted. from Bound Brook, N. J., to Jersey City form part of the "Royal Blue Line," by means of which the Baltimore & Ohio is enabled to furnish through service to New York city.

Director H. C. Fahnestock, Vice-President of the First National Bank, speaking for the directors who represent a controlling interest in the stock said yesterday:

All I can say is that so far no one has yet approached us, and the only way in which any one can get control of the property is to step up to the Captain's office and make the arrangements here. Any one knowing the value of the Jersey Central terminals can understand how important they would be to systems like the Pennsylvania and Baltimore & Ohio, and it is certain that some interests have been buy-ing the stock in the market which may be preliminary to other steps.— V. 70, p. 1290.

Chicago Consolidated Traction Co.-Suit to Prevent Control.—Sutro Bros. & Co. of New York, bankers and holders of 700 shares of stock in the company, have applied to the Circuit Court at Chicago for an injunction to prevent the control of the company by the Chicago Union Traction Co. The plaintiffs claim that the mortgage for \$6,750,000 was made by the Chicago Consolidated Traction Co. with its own stock as collateral, as part of a plan to evade the law forbidding "one corporation from buying out another corporation." -V. 70, p. 1048. Chicago & Grand Trank Railway.—Modification of Plan —Official Statement.—Chas. M. Hays, General Manager, writes us as follows: "Replying to yours of June 23rd mak-ing inquiry as to modification of the plan for the Chicago & Grand Trunk reorganization, will state that the original plan as per circular enclosed [see V. 69, p. 954] has been accepted by all interests with the modification that the second mortgage bondholders are to get the 25 per cent reduction that was made in their bonds in 50 year 4 per cent income bonds, the reorganized company retaining the right to purchase the said income bonds any time within ten years at 85 cents on the dollar.' Interest to be Guaranteed.-The trustees, C. Rivers Wilson, Joseph Price and Lord Welby, give the following notice:

After negotiations with holders of second mortgage bonds, whose opposition threatened a protracted delay in carrying through the scheme of reorganization, an arrangement has been entered into with the Grand Trunk Rallway Co. by which that company undertake to add to the traffic guaranty an absolute and unconditional guaran-ty of interest, to be endorsed on each of the new 4 per cent first mortgage bonds for \$15,000,000 to be issued under the scheme. In addition to the 75 per cent of first mortgage bonds to which the sec-ond mortgage bondholders are entitled under the scheme as originally framed, they are now to receive 25 per cent in 4 percent income bonds, forming a second charge on the undertaking of the new company. The concurrence of nearly all the second mortgage bondholders has now been obtained, and the carrying through of the schemes practi-cally assured. Holders of the few outstanding second mortgage bonds who may wish to avail themselves of the scheme must deposit their bonds with the Amsterdam Committee. All information with refer-ence to the terms and conditions of deposits of second mortgage bonds can be received by Glyn, Mills, Currie & Company. Arrange-ments have been made for payment by Messrs. Glyn, Mills, Currie & Company on and after the 2d of July of interest of 2 per cent for the current half-year on the trustees' certificates in respect of the first mortgage bonds deposited in favor of the scheme, and holders of first mortgage bonds deposited in favor of the scheme, and holders of first mortgage bonds who have not as yet deposited their bonds with Messrs. Glyn, Mills, Currie & Company should do so before the 2d of July if they wish to secure participation in the benefits to be derived from it. Leased Lines Abandoned.—Judge Swan, in the United

Leased Lines Abandoned.—Judge Swan, in the United States Circuit Court at Detroit. on June 28, in the suit of the Mercantile Trust Co. of New York, granted an order direct-ing the receiver, on July 1, to discontinue operating under lease the Cincinnati Saginaw & Mackinaw and Toledo Sag-inaw & Muskegon roads. This order was granted upon a finding of Special Master William J. Spicer, who reported that the operation of these lines was detrimental to the Chicago & Grand Trunk. The findings of the Master are re-ported by the "Detroit Tribune" as follows:

The lease of the Cincinnati Saginaw & Mackinaw road went into effect Oct. 2, 1890, and since that time the gross receipts of the Chicago & Grand Trunk RR. from the interchanged traffic has been \$762.7.0, carried at an expense of \$645,066. During the time the payments to the leased road under the lease have amounted to \$335,667, making the total loss to the Grand Trunk \$267,973. The loss to the Grand Trunk since May 10, 1888, on account of its lease of the Toledo Sagi-naw & Muskegon is found to be \$159,439. These figures do not include any estimate of the loss experienced by the Grand Trunk Railroad from having cars and engines tied up in the service of these lines when the traffic on the main line would have utilized the entire rolling stock of the company at a profit.-V. 70, p. 1290.

Chicago & NorthWestern Railway.-Divisional Bonds Offered.-N. W. Harris & Co. are offering for sale at 1015 and interest, yielding 3:40 per cent, the following first mortgage 3½ per cent divisional bonds, aggregating \$3,344,000. These securities are \$1,000 gold bonds, with both principal and interest unconditionally guaranteed by the Chicago & North Western Railway Co. by indorsement on each bond. The description of the two issues follows:

The description of the two issues follows: MINNESOTA & IOWA RAILWAY CO.-Dated June 1, 1899, duc June 1, 1924; interest J. & D.-The mortgage authorizes and secures by a first lien \$1,904.000 3<sup>1</sup>2 per cent bonds. issued at the rate of \$16,000 per mile-119 miles completed, extending in a southerly direction from a point in Redwood County, Minnesota, near Vesta, crossing Winona and St. Peter Branch, thence into Iowa, connecting with the "Omaha" Branch of the NorthWestern system at Burt Station, Iowa. BOYER VALLEY RAILWAY CO.-Dated Dec. 1, 1898, due Dec. 1, 1923; interest June and December.-The mortgage authorizes and secures by a first lien \$1.440 000 3<sup>1</sup>2 per cent bonds, issued at the rate of \$16,000 per mile-90 miles completed, beginning at Wall Lake, Iowa, on the Chicago & NorthWestern Railway extending in a southwesterly direc-tion through Sac County, through Crawford County, Iowa, to Denni-son, and from Crawford County in a westerly and southwesterly direc-tion through Monona County, theough Harrison County to a point of junction with the Sioux City & Pacific RR., a division of the Chicago & NorthWestern. & NorthWestern.

These divisions were organized and constructed for the Chicago & Northwestern, and both were accepted at the annual meeting held June 7, 1900, and the properties com-pletely merged into the Chicago & NorthWestern system by deed of conveyance, establishing this issue as absolute a Chicago & North Western obligation as the general mortgage  $3\frac{1}{2}$  per cent bonds."—V. 70, p. 1248.

Cincinnati Saginaw & Mackinaw RR.—Lease Abandoned. See Chicago & Grand Trunk Ry. above.

Colorado Midland Ry.—Payment for Stock.—Notice is given that the voting trustees, with the written consent of the holders of a majority in interest of the outstanding stock trust certificates, have sold all of the stock of the company represented by said certificates, and that holders of certificates will be paid therefor at the rate of \$30 per share for preferred stock and \$12 50 per share for com-mon stock at the office of the Central Trust Co., No. 54 Wall Street, New York, after July 2, 1900. Cont. ol Transferred. - On July 2 the control of the prop-

erty was transferred to the purchasers of the stock, wh already stated, are identified with the Colorado Southern Ry. and the Rio Grande Western Railway. The line will con-tinue to be operated separately, as the laws of Colorado do not permit the consolidation of parallel or competing roads. New Directors .- The following new directors are announced:

Henry Budge, George Foster Peabody, Edward B. Shepard, Edward C. Henderson, Col. D. C. Dodge of Denver, Edwin N. Bulkley, Cecil Barret, Frank Trumbull, Harry Bronner and N. B. Hoxie, Jr

This list contains the names of several men elected temporarily. Frank Trumbull was made President and Col. D. C. Dodge Vice-President. The former represents the Colorado Southern and the latter the Rio Grande Western.—V. 70, p. 1289, 1290.

Consolidated 'Electric Co.-Properties Acquired.-This company was organized a few months ago under the laws of New Jersey. Its authorized capital stock is \$4,000,(00, in shares of \$100 each; all described as full paid. The "Philadelphia News Bureau" on June 30 gave the following list of the properties acquired and shortly to be taken over :

PROPERTIES ACQUIRED AND NOW BEING OPERATED. Kennett Electric Light Heat & Power Co., Kennett Square, Pa. Haverfor i Electric Light Co., Haverford, Pa. Oll City Electric Co., Oll City, Pa. Franklin Electric Co., Franklin, Pa. Franklin Gas Co., Franklin, Pa. Titusville Electric Light & Power Co., Titusville, Pa. Armstrong Electric Co., Kittaning, Pa. Kittaning & Ford City Street Railway, Kittaning, Pa. ADDITIONAL PROPERTIES TO BE OPERATED AUG. 1, 1900.

ADDITIONAL PROPERTIES TO BE OPERATED AUG. 1, 1900. Wayne Electric Light Co., Wayne. Pa. Coatesville Electric Light Heat & Power Co., Coatesville, Pa. Doylestown Electric Co., Doylestown, Pa. Doylestown Gas Co., Doylestown, Pa. Bristol Electric Light & Power Co., Bristol, Pa. Bradford Electric Light & Power Co., Bradford, Pa. Warren Electric Light Co., Warren, Pa. Warren Gas Light Co., Warren. Pa. United Light Co., Uniontown. Pa. iSteubenville Gas & Electric Co., Steubenville, Ohio. iSteubenville Traction Co., Steubenville, Pa.

† Payment for these properties was to be made July 2.

The officers of the company are: President, William F. Eidell; Vice President, Stanley R. Ketcham; Secretary, C. E. Gouert; Treasurer, Charles F. Lumb. Dallas Sanders, of Land Title & Trust Building, Broad and Chestnut Sts., Philadelphia, Pa., is interested.

Detroit Rochester Romeo & Lake Orion (Electric) Ry. -Bonds Offered.-C H. White & Co, New York, and Homer, Warren & Co., Detroit, are offering \$125,000 of this com-pany's bonds at par and accrued interest. See "Street Rail-way Supplement," page 35.-V. 70, p. 429.

Dominion Atlantic Railway.-Steamship Line.-The company has applied to the Dominion Parliament for permission to buy the Yarmouth Steamship Co., running to Boston, for \$350,000.-V. 69, p. 1061.

Fitchburg RR.-See Boston & Maine RR. above.-V. 70, p. 1291.

Galveston & Western Ry.-\$500,000 Bonds.-The stock-holders on June 28 anthorized an issue of \$500,000 bonds to be applied to reconstruction, extensions and equipment. The Texas Railroad Commission, it is stated, has authorized the issue of \$300,000 of this amount. It is hoped the proceedings to annul the charter will be dismissed. The line extends from Galveston to Nottingham, 13 miles, and was completed in 1889. At one time it was operated by the Galveston Houston & Northern Ry. Co.

Georgia & Alabama Ry.-Merger.-See Seaboard Air Line Ry. below.-V. 70, p. 996.

Hartford Street Railway.-Option to Exchange.-Holders of the 5 per cent debentures desiring to exchange them for first mortgage non-taxable 4 per cent gold bonds dated Sept. 1, 1900, are notified to deposit them with all unmatured cou-pons at the Connecticut Trust & Safe Deposit Co. and ad-just interest payments on or before Aug. 1, 1900; 103 and interest will be charged for the 4s and par and interest to date when called will be allowed for the 5s.-V. 70, p. 1194.

Illinois Southern Railway Co.—Property Taken Over.— This new company has taken over by deed from John R. Walsh of Chicago the property of the Centralia & Chester Railroad recently purchased by him at foreclosure sale. The consideration ramed is \$2,800,000. The new company began to operate the property on June 1. C. H. Bosworth is Presi-dent and C. F. Weinland is Auditor, with office at 204 Dear-born St. Chicago. With this excention and until further born St., Chicago. With this exception and until further notice the officers and agents employed by the Receiver will continue in the employ of the new company. The stock is \$2,000,000, all paid in, and \$2,000,000 bonds have been author-ized, but not yet issued.—V. 70, p. 1095.

Kansas City Mexico & Orient RR.—To Finance the En-terprise.—The Guardian Trust Co. of Chicago and Kansas City, successor of the Misscuri Kansas & Texas Trust Co. of Kansas City, has agreed to undertake the financing of this Kansas City, has agreed to undertake the infancing of this new enterprise, in which A. E. Stillwell is interested. To complete the line it is expected an issue of \$30,000,000 to \$35,000,000 of bonds and an equal amount of stock will be necessary. The general plan of action will be that pursued by the Missouri Kansas & Texas Trust Co. in financing the Kansas City Pittsburg & Gulf. A portion of the stock, however, will be preferred.

The directors of the Guardian Trust Co. include:

vivester of St.

at St. Louis on July 2 denied the application of Eastern stock-holders for the removal of Charles H. Chappell and James Hopkins, as receivers of the Omaha & St. Louis and the Kaneas City & Northern Connecting railways. Judge Thayer reserved decision on the request that he rescind his order al-lowing the receivers to borrow \$525,000 on certificates for the purpose of relaying rails on the Omaha & St. Louis RR,-V. 70, p. 1195.

Kansas City Osceola & Southern Ry.—Transferred.—See St. Louis & San Francisco RR. below.—V. 70, p. 1096, 532.

Kansas City Southern Ry.-New Securities Ready July 16. The reorganization committee of the Kansas City Pittsburg & Gulf RR. announces that holders of certificates of deposit may exchange them on and after July 16 into securities of the Kansas City Southern Ry.-V. 70, p. 1249.

Kansas Oklahoma Central & Southwestern RR.-Sold.-This property was sold under foreclosure on June 30 to satisfy a mortgage of \$585,433, and was purchased for \$400,000 by Lyman F. Parker, Jr., representing the Atchison Topeka & Santa Fe Ry. The line from Caney, Kansas, to Owasso, I. T., 58 miles, was completed last December and has since been included in Atchison mileage, the sale being made for the purpose of perfecting title.

Kentucky & Indiana Bridge Co.—Stockholders Barred Out.—The shareholders of the old company filed an objection to the recent plan of reorganization because it made no provision for their holdings. Judge Evans in the United States Court, however. at Louisville on June 30, decided that the common stock holders were not entitled to participate in the reorganization. The stock was represented at the hearing by Jas. P. Helm.-V. 70, p. 1249, 1049.

Lima (Ohio) Railway.—Sold.—A Buffalo syndicate, headed by Joseph Mayer, which recently purchased the plant of the Lima Electric Light Co., has purchased this property.-V. 62, p. 502.

Louisville Bridge Co.-Dividend.-In compliance with the recent order of the Circuit Court, the company has declared a dividend of 8 per cent for the first six months of 1900 and the last six months of 1899.

Supplemental Judgment.-At Louisville on Tuesday Judge Miller signed the supplemental judgment relating to the dividends accrned and unpaid to July 1, 1899. The amount ad-judged as due from the tenant roads is stated as follows: Pittsburg Cincinnati Chicago & St. Louis Railway, \$122,392; Louisville & Nashville RR., \$37,207. An appeal has been taken.-V. 70, p. 1249.

Mexican National RR.-Called Bonds.-Twenty-seven (\$27,000) second mortgage "A" and "B" 6 per cent subsidy bonds, London issue 1882, represented by Matheson & Co.'s certificates, have been drawn for redemption at par by terms of the trust deed of Sept. 1, 1888. These bonds, represented by certificates for \$1,000, consist of \$500 "A" bond, with ten years and four months' accrued interest at 6 per cent from March 1, 1890 (\$310), and \$500 "B" bond, which carries no accrued interest. They will be payable at the counting house of Messrs. Matheson & Co., 3 Lombard St., London, on and after June 30, 1900, at the rate of \$1,310, being \$1,000 capital of "A" and "B" bonds and \$310 accrued interest on "A" bond. Any of the above certificates not presented for redemption before Aug. 31, 1900, will lose the benefit of the said trust deed, and the amount reserved in respect of same will be transferred to the credit of the next drawing. The The bonds now to be redeemed will be deposited with those already drawn, amounting together to \$1,575,000, with the bankers of the trustees as further collateral security for the carrying out of the terms of the trust deed. The original issue of certificates was \$5,000,000. They are secured by trust indenture made by the Mexican National Construction Co. to Messrs. Smith & Macdonald, the subsidy received being applied to redemption of certificates.-V. 70, p. 842.

Newburg (N. Y.) Electric Ry.- Receiver.-Judge Betts of Kingston has appointed William H. Pouch, Secretary and Treasurer of the Newburg Electric Railway. as receiver of the company. The \$75,000 second mortgage, Hamilton Trust Co. trustee, is being foreclosed.-V. 67, p. 1056.

New York Central & Hudson River RR.—Franchise Tax Decision.—Justice Bischoff, in the Supreme Court on Monday, granted an application made by this company and the New York & Harlem RR. Co. for a writ cf mandamus to compel the board of taxes and assessment to set aside an assessment of \$7,660,(00 made against their property for the year 1900. The board made two assessments, one for \$7,660,-000 upon the real estate, road-beds and superstructure and the other for \$10,192,000 upon the franchises, under direction of the State Board. Justice Bischoff says: The respondents may not be compelled to strike from the assessment rolls the assessment made by the State Board, eince the law required them to insert that assessment. It appears, however, from the allegations of the petition that assessment. It appears, however, how the special franchise tax was also assessed by the respondents in the course of an additional assessment. As matter of law this property was taxable under the Franchise-Tax Law and was not otherwise taxable. Therefore it was not subject to assessment by the respondents, who were authorized to assess only taxable property within the district.

Judge J. E. McKeigham, Charles Clark and W. W. Sylvester of St. Louis; E. Henry Barnes. of New Haven; William Waterall and W. S. Taylor, of Philadelphia; Thomas L. Chapman and A. J. Singer. of Chicago; H. H. Harris, of Champaign, Ill; A. E. Stillwell, E. L. Mar-tin, C. A. Braley, J. McD. Trimble, J. T. Nolthenfus, J. J. Cairnes, W. S. Woods, William Huttig, C. E. Grannis and D. J. Haff, of Kansas City, and others.

Contracts, it is stated, have been awarded to the Interna-tional Construction Co., incorporated under the laws of Delaware, for building the portion of the road from Port Stillwell on the Pacific coast of Mexico to the north line of Texas, and to the Kansas City & Oklahoma Construction Co. for building the line from Wichita, Kan., 12 miles southwesterly. It is expected a contract will be awarded in a day or two for the construction of the line to connect the read-beds to be built by the two construction companies named, leaving only that part of the line between Kansas City and Wichita uncontracted for.-See V. 70, p. 894, 429.

Kansas City Northern Connecting RR.—Receivers Not Removed .- Judge Thayer, in the United States Circuit Court

Harlem Lease.-See New York & Harlem RR. below.-V. 70, p. 1289, 1291.

New York & Harlem RR.-Litigation.-Proceedings have been brought in the New York Supreme Court on behalf of the Continental Insurance Co., the Westchester Insurance Co. and the Rhode Island Hospital Trust Co., as large stock-

holders and on behalf of individual stockholders whose holdings aggregate about 3,000 shares, against the New York & Harlem and the New York Central railroads for the purpose of securing to the Harlem stockholders the full benefit of the recent refunding at 3½ per cent interest of the \$12,000,000 consol. 7s. By the terms of a supplementary lease, adopted by way of compromise, the Central Company was relieved after May 1, 1900, from all obligation to continue the annual payment, as part rental, of \$840,000, being the equiva-lent of the 7 per cent interest on said consolidated mortgage bonds, and is only required to pay thereof \$620,000 for the urexpired term of the lease. The plaintiffs claim that the difference between these sums, namely \$220,000 per annum, properly belongs to the Harlem stockholders.—V. 70, p. 1049.

New York New Haven & Hartford RR.—Bridgeport Im-provements.—The company, it is stated, has settled out of court the dispute regarding the proposed changes and im provements at Bridgeport, Conn., and will now complete its four track line through that city, the total cost involved, in cluding the necessary stone viaduct, etc., being estimated at about \$3 000,000, of which Bridgeport was to bear not exceeding \$400,000 (see V. 69, p. 955).-V. 70, p. 997.

New York Westchester & Connecticut Traction Co.-Mortgage.-A mortgage for \$2,500,000 has been made to the Hamilton Trust Co. of Brooklyn, as trustee, to provide the means for constructing various lines in the counties of New York and Westchester, this State. The bonds are first mortgage gold 4s, dated May 1, 1900, and are due May 1, 1950. The mortgage recites that the Traction Company "by virtue of certain contracts and agreements made with the People's Traction Co. and the Edenwald Street Ry. Co. has acquired the perpetual right to use the routes, roads and franchises of each of the said companies." See Peoples' Traction Co. on page 63 of STREET RAILWAY SUPPLEMENT.-V. 63, p. 969.

Northern Railroad of New Jersey.—Mortgage Filed —The company has filed its new general mortgage to secure \$1,000,-000  $4\frac{1}{2}$  per cent bonds, of which \$304,000 to retire old sixes, and the balance for improvements or for equipment. The bonds will be due Jan. 1, 2000. The United States Trust Co. of New York is mortgage trustee.-See particulars in V. 69, p. 81.

Northern Pacific Ry.-Opposition to Furchase.-At St. Paul, Minn., on Jnne 29, the State Railroad Commission filed notice that it finds the absorption of the St. Paul & Duluth RR. to be illegal and void on the ground that competing and parallel lines cannot consolidate. The Ramsey County Dis-trict Court was therefore asked to order the re-conveying of the St. Paul & Duluth head to its stockholders. In the of the St. Paul & Duluth back to its stockholders. In the meantime the various steps in the merger have been duly carried out. See St. Paul & Duluth below. The company, it is claimed, will effect a saving of \$125,000 a year in the cost of operating the S<sup>t</sup>. P. & D. RR. Equipment.—The company has countermanded a recent

order for about \$300,000 worth of new freight cars, on account of the partial failure of the wheat crop in the Northwest.--V. 70, p. 1249.

Omaha & St. Louis RR.-Receivers and Receivers' Certificates.—See Kansas City Northern Connecting RR. above.-V. 70, p. 1150.

Pennsylvania RR.-New Leases.-On or about Aug. 1 the company intends to take over under lease the Allegheny Val-ley Ry. and the Western New York & Pennsylvania Ry., thereby adding about 829 miles to the lines in the system proper.—V. 70, p. 1269.

**Peoria Decatur & Evansville Ry.**—Payment of First Mortgage Bonds.—The first mortgage bondholders' com-mittee, Walston H. Brown chairman, announces to the hold-ers of the certificates of the Central Trust Co. representing first mortgage bonds of both aivisions, deposited under agreement dated Oct. 1, 1897, that upon surrendering for cancellation their certificates at the office of the Trust Company, 54 Wall St., they are entitled to receive \$1,035 for each \$1,000 certificate, being their pro rata share of the net proceeds of the sale of the property.—V. 70, p. 1250, 1150.

Peoria & Pekin Terminal Ry.-Increase of Stock.-The capital stock has been increased from \$500,000 to \$700,000.-V. 70, p. 946.

Richmond & Manchester Ry.-Settlement-Bonds Called.-At Richmond, Va., on June 29, the defendants in the bond-

For value received the Pere Marquette RR. Co. hereby guarantees the punctual payment of the principal and interest upon the within bond, as therein provided. In testimony whereof the corporate seal of said company is hereby affixed and attested by its Secretary, by order of the Board of Directors. Pere Merquette RR. Co., by President (P. M. Co. seal.) Attest Secretary -V 70 p. 947, 281

R.R. Co., by , President (P. M. Co. seal.) , Secretary. -V. 70, p. 947, 281. Attest

St. Clair Madison & St. Louis Belt RR.—Improvements.— Judge Adams, of the United States District Court at St. Louis, on June 22, granted Receiver Barnard permission to expend \$35,000 on the Alton bridge, subject to the approval of the United States Circuit Court for Southern Illinois. The proposed improvements include an additional stone pier, as well as a steel approach leading from Langdon St. The trestle leading to the bridge will also be filled. The "St. Louis Re-public" says:.

The large increase in business over the Alton bridge during the last few months has necessitated a good many improvements. The last year of the receivership has been a prosperous one, the net earnings of the bridge for the year ending April 14 being given as \$25,051. The present volume of business has given rise to the rumor that an appli-cation will soon be made for a release from the receivership.--V. 64, p. 181 181

St. Louis & San Francisco RR.—Property Taken Over— New Mortgage.-A deed has been filed at Kansas City transf-rring the property of the Kansas City Osceola & Southern Ry. to the St. Louis & San Francisco. The consideration is \$3,300 000, payable in bonds secured by a mortgage to the United States Mortgage & Trust Co. of New York and John H Lucas of Kansas City, as trustees. (See V. 70, p. 1096, 53?.) -V. 70, p. 1150.

St. Paul & Duluth RR.—Distribution to Syndicate.—It is announced that the Manhattan Trust Co. will distribute to the holders of syndicate's certificates as their share of the proceeds of the sale of the property to the Northern Pacific, together with the instalment paid by them upon said certifi-cates, a sum equal to 31 per cent of the full amount sub-scribed. The amount subscribed by the syndicate was \$7.-000.000, on which 25 per cent-\$1,750,000-was paid in. Henry W. Cannon, Daniel S. Lamont and Clarence S. Day are the committee of the syndicate which effected the transfer. As to the syndicate, see V. 69, p. 1347; V. 70, p. 895. The syn-dicate stock was acquired at 50, and with this payment of 31 per cent on the subscriptions, the net result to the common stockholders joining in the syndicate is about 68½ per cent for their stock, while the common stockholders who dealt directly with the Northern Pacific received \$60 per \$100 share.—V. 70, p. 1250.

Seaboard Air Line Ry.—Operated in System—Merger—Ex-change of Stock.—On July 1 the lines of the Georgia & Ala-bama and Florida Central & Peninsular railway companies were taken over as divisions of the Seaboard Air Line system. Last week, also, the necessary steps were taken for the im-mediate consolidation with the Seaboard Air Line Railway Co. of some six or seven individual roads embraced in the system, aggregating more than 600 miles of road, the earnings of which, beginning July 1, are included with those of the main line from Richmond to Ridgeway

More than 80 per cent of the capital stock of the Georgia & Alabama Railway, it is announced, has already assented to the plan to exchange the same for securities of the Seaboard Air Line Ry. Co. (see V. 70, p. 996). President Williams is quoted as saying:

The linking together of the Florida Central & Peninsular and the Georgia & Alabama divisions of the Seaboard Air Line will mean a large increase in business to all parts of the system. The old main line of the Seaboard will hereafter enjoy a large business in Florida products, especially in the line of truits and vegetables, of which it has heretofore had no share, and the business which it will derive from the Georgia & Alabama in the way of lumber and other Georgia products will be considerable. I think it will be but a little while now before the earnings of the consolidated system will reach and exceed \$1.00,000 a month. The earnings of all the roads embraced in the 2.600 miles of the system for the 6 months ending Apr. 1 show that we had earned about 100 per cent more than the interest on all outstanding bonds for that period.

Mr. E. St. John has been made Vice-President and General Manager of the entire system.—V. 70, p. 1096, 995.

Southern Railway.—Redemption Notice No. 7.—Fifty-one Richmond & Danville RR. equipment mortgage bonds dated Sept. 3, 1889, have been drawn for the sinking fund, and with the coupons attached thereto maturing Sept. 1, 1900, will be paid at the Central Trust Co. on or after that date, at par.-V. 70, p. 1292, 1252.

Springfield (Mass.) Street Ry.-Increase of Stock.-The stockholders on July 5 voted to ask the Massachusetts State Railroad Commissioners for the right to increase the capital stock. The company, it is said, has between \$400,000 and \$500,000 indebtedness in outstanding notes, which will be canceled if the new issue of stock is allowed. For this purpose and for improvements it is thought about \$350,000 of new stock will be sold at the market price, *i. e.*, at more than 200.—V. 66, p. 860.

holders' suit moved the Federal Circuit Court to vacate the order appointing Major B. R. Selden temporary receiver, and to restore the line to the Richmond Passenger & Power Co. This action was taken in view of a resolution adopted by the R. & M. Ry. Co. on June 27 calling for redemption at 105 and interest its entire issue of \$400,000 first mortgage bonds, the bonds to be paid on or after July 2 at the Merchants' Trust Co., No. 320 Broadway, New York, interest ceasing Jap. 1, 1901. Judge Waddill continued the motion until July 10, for further hearing.—V. 70, p. 1196.

Richmond (Va.) Passenger & Power Co.-Settlement.-A settlement has been agreed upon with the leading holders of the bonds of the Richmond & Manchester Ry. Co. in accord-ance with which the entire \$400,000 bonds of that company have been called for payment at 105 and interest. See R. & M. above.-V. 70, p. 1196.

Saginaw Tuscola & Huron RR.-Guaranty.-The form of guaranty of the Pere Marquette RR. Co. on the 4 per cent bonds is as follows:

Third Avenue RR.-Extensions.-The Union Railway Co. is asking for bids for double track to be laid as follows:

Melroso Ave., from 161st St. to 165th St.	Feet. 3 000
1 Webster Ave., trom Josth St. to Fordham	90 800
I BOSCODELAVE., IFOUL JEFOIDE AVE TO Wishington Budgo	4 000
LIPFOILLE AVE. LEURE WOODLAWH DALE EO GITVING	11 000
I DULUSIUM AVE., IFORI JEFOIRE AVE TO CEOUT AVE	0 100
Cedar Ave., from Burnslde Ave, to Morris Heights	4,000
Westchester Ave., from Prospect Ave. to Bronx River.	12,000

Total feet double track..... The most important of these extensions will be the Jerome Ave. extension, from Woodlawn to the city line, where connection will be made with the Yonkers RR. controlled by

the same interests. By this means passengers will be carried from Yonkers to Central Bridge over the Harlem River, better known as Macomb's Dam Bridge, in less than forty minutes without change of cars and for a single five cent fare.---V. 70, p. 1250.

Toledo Saginaw & Muskegon RR.—Leass Abandoned.— See Chicago & Grand Trunk Ry. above.

Toledo St. Louis & Kansas City RR.-Opposition.-S. H. Kneeland, former President and a stockholder, announces by advertisement that he will undertake to have the courts set aside the recent foreclosure sale on the ground that the property would have brought a higher price if the bidders had known that a considerable part of the operating expenses reported by Receiver Hunt really went into permanent betterments.—V. 70, p. 1292.

Union Terminal Railway Co. of Sioux City, Iowa.-Status.-This company is successor in ownership to the property of the Sioux City Terminal RR. & Warehouse Co. and is organized entirely upon a stock basis, with no debt either bonded or floating. The amount of stock authorized to be issued is \$2,500,000, all being common stock, no preference stock being issued. Of the authorized capital there will be issued immediately \$1,870,250 in pro rata distri-bution among the bondhclders of the Sioux City Terminal RR. & Warehouse Co. under the committee's plan of reor-ganization, every bond having been deposited. A voting trust has been created, comprising more than two-thirds of the outstanding stock, the trustees controlling the voting trust being Messrs. Hamer, Stull, Dixon, Blackford and Wistar.

Officers.—The directors and officers are:

Directors-John Cadwalader, Charles C. Harrison, Sydney L. Wright, John W. Hamer, William H. Blackford, Isaao J. Wistar, Law-rason Riggs, Edwin S. Dixon and Adam A. Stull. Officers-President, Sydney L. Wright; Vice-President, John Cad-walader; Treasurer, Adam A. Stull; Secretary, Walter T. Bilyeu; Gen-eral Manager, W. L. Stevenson.

The company's office is in Philadelphia, address 503 Chestnut St.-V. 70, p. 1292.

United Railroads of St. Louis.—Strike Ended.—The strike which began May 8, and which cost sixteen lives and seriously interfered with the operation of the system, was declared off on July 2 as a result of a conference between officials of the Transit Company and a committee acting for the strikers. The agreement concedes to employes the right to join or not to join any labor organization. but provides that any attempt to induce other employes to join the union by intimidation or threats shall be ground for summary dis-charge. Former employes guilty of no acts of lawlessness during the strike will be placed on the waiting list and taken again into the service of the company as vacancies occur.— V. 70, p. 1292.

Western Maryland RR.—Payment of Interest to City.— The company on July 1 paid to the city semi-annual interest to the amount of \$91,889, being interest on all the city loans. President John M. Hood says :

President John M. Hood says: Included in the payment is interest at 3<sup>1</sup>/<sub>2</sub> per cent on the sixth mort-gage of \$875,000 (old third mortgage refunded Jan. 1, 1900), and 3<sup>1</sup>/<sub>2</sub> per cent on the 6 per cent \$1,000.000 fourth mortgage, to be refunded at this rate, 3<sup>1</sup>/<sub>2</sub> per cent, at maturity, Jan. 1, 1902. The company feels itself in condition to not only assume the interest upon the third mortgage, but also 3<sup>1</sup>/<sub>2</sub> per cent upon the fourth mortgage from Jan 1, 1900, two years in advance of the time promised, so that, if the rate of interest were already reduced, the oity would be entirely relieved of extending any further aid to the Western Maryland RR. Co. As it is, it will only have to pay the difference between 3<sup>1</sup>/<sub>2</sub> and 6 per cent upon the \$1,000,000 for two years; that is. it will pay \$25,000 per year for two years, instead of \$112,500, as heretofore, and then be en-tirely relieved.-V. 70, p. 481. Western New York & Pennsylvania Ry.—Lease Proposed.

Western New York & Pennsylvania Ry.—Lease Proposed. James McCrea, director of the Pennsylvania RR. and First Vice-President of the Pennsylvania Company, is quoted as saying:

The Allegheny Valley and the Western New York & Pennsylvania lines will be operated by the Pennsylvania RR. proper, except the small portion of the Western New York & Pennsylvania between New Castle and Oil City. This will be operated by the Pennsylvania lines west as part of the Erie & Ashtabula division, the Western New York & Penneylvania having trackage rights over the 30 miles of this branch from Stoneboro to Oil City, which part is owned by the Lake Shore. The exact date when the Pennsylvania Railroad will assume the operation of these properties I cannot say, but it will probably be on or about Aug. 1. Operating leases will be executed.

It is also rumored that the two companies will be united by consolidation before their lines are leased to the Pennsylnia RR. Co.-V. 70, p. 1150.

York County Traction Co.—Incorporated.—This consolidated company, referred to last week, has been incorporated under the laws of New Jersey, with \$1,500,000 of authorized capital stock.-V. 70, p. 1292.

#### INDUSTRIAL, GAS AND MISCELLANEOUS.

American Rolling Mill Co. of Cincinnati.-Purchase.-This company has arranged to acquire control of the Ameri-can Steel Roofing Co., and for that purpose will increase its capital stock from \$350,000 to \$500,000; of this last amount \$100,000 is to be 7 p.c. cumulative preferred. After the completion of the rolling mill plant at Middletown both concerns, it is stated, will be operated under one management. George M. Verity is expected to be President, W. T. Simpson, Vice-President, and R. C. Phillips, Secretary. In addition the directors include:

Harlan P. Lloyd, Jacob Meurer, of Mourer Bros., Brooklyn, N. Y., and James B. Strawbridge, late of the Norton Tin Plate Works of Chicago, Ill.

American Sugar Refining Co.—Advance in Price of Sugar. -The various refining companies on Tuesday advanced all grades of refined sugar 10 points a hundred pounds, making the price of fine granulated sugar 5.90 cents per pound. This is the seventh advance in the price of refined sugar within the past two months.

Existing Refineries.—The leading sugar refineries, with their daily capacity in barrels, are stated by Willett & Gray, of 91 Wall Street, as follows:

AMERICAN SUGAR REFINING CO. (total, 42,700 barrels).

	BOI8.
Havemeyer & Elder, Brooklyn	.12.500
Franklin, Philadelphia.	
New Orleans	6.000
Spreokels, Philadelphia.	5.500
Jersey City	5,000
Standard & Continental, Boston	
Western, San Francisco	2.700
NATIONAL SUGAR REFG. CO. (total, 9,500 barrels).	
	Bbls.
Notional Vankara	0 500

INDEPENDENT REFINEBIES (total, 7,600 barrels).

	Bols.
Arbuckles. Brooklyn (see also V. 70, p. 1051)	3.500
McCahn, Philadelphia.	.1.500
Revere, Boston	1.200
Henderson, New Orleans.	
Cogewell, New Orleans	. 400
Cunningham, Texas	

A similar statement as of Dec., 1897, was in V. 65, p. 1086. The lease of the Spreckels refinery in San Francisco to the Western Sugar Refining Co., of which the American Sugar Refining Co. owns one-half the stock, expires next year, and it is asserted that the Speckels may decline to renew the lease.—V. 70, p. 1197.

Asphalt Company of America.--Payment of Loans.-The "Philadelphia News Bureau" says:

"Philadelphia News Bureau" says: The company is planning to pay off all the \$1,250,000 which was borrowed at the starting up of business. A director says that there is \$2,000,000 in cash in the treasury. Arrangements have already been made to cancel a loan of \$350,000 in New York which matures in July. There has also been paid off the \$250,000 loan negotiated with the Marine Bank of Buffalo, N. Y., the calling of which led to the last stock assessment. The retirement of these two obligations leaves but \$650,000, which, it is stated, will be wiped out before the end of August, thereby saving \$75,000 annually. After paying off these debts there will still be left \$750,000, or exactly enough to meet the 2<sup>1</sup>2 per cent semi-annual interest on the \$30,000,000 bonds. Besides the \$800,000 paving contract in New York and \$600,000 in Philadelphia, the company has contracted for paving in Buffaio, St. Louis and Kansas City, and it is stated that by January 1 4,000,000 yards of paving will have been supplied. A director says: "We may have occasion some time to

A director says: "We may have occasion some time to contract additional loans because every dollar earned in the asphalt business requires a dollar with which to start the work. But there will be no occasion to further assess the stock. On the other hand, I do not favor paying any dividend on the stock this year. nor until we can do so with-out straining our resources."—V. 70, p. 993, 998.

Carnegie Company.-Bonds.-Formal notice has been filed in New Jersey of the making of the company's bond issue, the amount acknowledged being stated in the press dispatches as \$54,000,000.—V. 70, p. 1197.

Cincinnati Leaf Tobacco Co.-Receiver.-On July 2 President James C. Ernest was made receiver of the company by Judge Hodge of the Circuit Court of Campbell County, Ky. The receivership, it is stated, is merely incidental to reorganization per plan already announced. See V. 70, p. 1293.

Wheeling & Lake Erie RR.—Official Statement.—The offic-ial statement made to the New York Stock Exchange, in connection with the listing last week of the new securities on the Exchange, is printed on pages 34 and 35 of this issue. The statement is very complete, giving the details regarding the new company, its property, capitalization, earnings, etc. The earnings for the month of June have been received this week and show the gross receipts for the system to have been \$242,555, as against \$202,568 for the corresponding month last year, being an increase of \$39,987. For the 12 months of the fiscal year, the gross was \$2,637,032, an increase of \$462,980 over the previous year of \$462,980 over the previous year.

We note in the statement of earnings for June that general freight earnings were considerably in excess of the earnings from coal, though both classes of freight show important gains over last June.

Branch in Operation July 15.—The Coshocton & Southern Railway now controlled will be operated for both freight and passenger business, beginning July 15.—V. 70, p. 1292.

Consolidated Gas Co, of Baltimore City.—Official Notice. -By order of the board, Secretary N.T. Meginniss, under date of June 23, makes the following announcement to the stockholders:

Stockholders: Since last communicating with you, the officers and some of the di-rectors have conferred with interests identified with other large gas enterprises in New York City and elsewhere, and the board is of the opinion that it is to the distinct advantage of the company to enlist the co-operation of these interests in the active management of this company. It is proposed, therefore, to install as directors at the next annual meeting, to be held on July 16, 1000. Mr. Frank Tilford and Mr. Henry R. Wilson, both of New York. We suggest that stockhold-ers resident in New York and vicinity confer with either Messrs. Til-ford or Wilson, the former at the Bank of New Amsterdam, 39th St. and Broadway, and the latter at the office of Messrs. Wilson & Ste-phens, 41 Wall St. Full information concerning the company's affairs may be obtained from either of these gentlemen, who have recently visited Baltimore and are perfectly familiar with the business of the company. company.

The opposition ticket, as announced by Charles H. Dickey, Jr., will include:

William A. Read, New York; Anthony N. Brady, New York; F. S. Hastings. New York; William Powell Wilson, Boston; Charles H. Dickey, Baltimore; S. Davies Warfield, Baltimore; Charles A. Webb, Baltimore; William H. Grafilin, Baltimore; Thornton Rollins, Balti-more; A. J. Schriver, Baltimore.-V. 70, p. 1293.

Consolidated Gas, Electric Light, Heat & Power Co. of Newburg. N. Y.-Called Bonds - Sixteen bonds issued in 1890 by the Edison Electric Illuminating Co. of Newburg, N. Y., have been called for payment and will be redeemed at the Central Trust Co. Aug. 1, 1900.

Consumers' Hygienic Ice Co.—Stock Offered.—This com-pany has been organized in Boston with authorized capital stock of \$1,000,000 to manufacture ice. McPeck & Co. of Boston have been offering ten thousand shares of the treasury stock, par value \$10, at \$5 per share.

Council Bluffs (Ia.) Gas & Electric Co.—Status—Earn-ings.—The New York Security & Trust Co., as trustee under the mortgage of 1899 (\$300,000 authorized, \$276,000 outstanding), has brought suit in the United States Circuit Court at Council Bluffe to restrain the city from enforcing the ordinance recently passed fixing the price of gas at \$135 per 1,000 cubic feet. A 25-year franchise granted in 1889, it is alleged, permits the company to charge \$1 75 per 1,000 cubic feet. For the year 1899 the company reports to the city that the gross earnings from gas were \$44,186; from electric light, \$22,264; total, \$66,450; while its operating expenses are stated as \$51,914; interest charge (5 per cent) as \$13,800; sink-ing fund, \$5,000; leaving balance deficit, \$4,264.-V. 68, p. 231.

Crucible Steel Company of America.—Consolidation— Underwriting Privilege.—This company is in process of formation under the laws of New Jersey, with authorized capital stock \$50,000,000 in shares of \$100 each. Of this amount \$25,-000,000 is preferred stock, entitled to cumulative dividends of 7 per cent yearly, and to payment of its par value, on distri-bution of assets, in preference to the common stock, but to no other dividends or payments. The corporation is to be vested with the properties, good-will and business of the fol lowing-named concerns, which it will purchase at a price not exceeding \$19,000,000, and, in addition thereto, is to receive \$6,000,000 in cash, which shall be used for the purchase of stock and materials necessary for the operations of the company, and as a cash working capital, etc.:

Co.

These properties will be acquired free from liens and incumbrances, and the charter will provide that the corporation shall not mortgage any of its property, except by purchase money mortgage, without the assent of two thirds in value of the preferred stock.

Of the capital stock \$20,000,000 preferred and \$20,000,000 common stock, or a total of \$40,000,000 of the \$50,000,000 authorized capital, it is stated, has already been subscribed or underwritten with Alexander Watson Black, the consolidation purchaser of the properties aforesaid, by the vendors of the different concerns hereinbefore enumerated, and the privilege of underwriting or subscribing for the remaining \$5,000,000 of preferred and \$5,000,000 of common stock upon the same terms, to wit, \$100 in cash for each two shares, one preferred and one common, is now offered to the public through the Union Trust Co. of Pittsburg. Prospectus says:

through the Union Trust Co. of Pittsburg. Prospectus says: The companies to be acquired represent about 95 per cent of the out-put of orncible steel within the United States. They have been oper-ated separately, and, with the expense incident to the thirteen organ-izations show average earnings for the past five years of more than sufficient to pay the dividend upon the proposed issue of preferred stock, and for the past two years sufficient to pay a large dividend upon the common stock, in addition to the dividend upon the pre-ferred stock, and it is confidently believed that, operated as one or-ganization, and with the economies that can be introduced in the manufacture, distribution and sale of the product, the earnings will be largely increased. No part of the capital stock of the proposed corporation is to be issued to the consolidation purchaser nor to any syndicate or person as promoter's profit, or for any other purposes than for the acquisition of the properties, good-will and business of the constituent companies, takon upon a conservativo valuation.

Subscription agreements will be available at the office of the Union Trust Co. of Pittsburg for signature between 10 A. M. July 10 and 3 P. M July 11. Ten per cent of the pur-

The company will manufacture heavy steel forgings and castings, including probably heavy forgings for battleships. The President is John Fritz, recently of South Bethlehem, Pa. H. T. Wallace, President of the Diamond State Steel Co., is Secretary and Treasurer, Wilmington. The latter informs us that the organization of the company is somewhat tempor-ary in character, material changes in the directorate being probable, and that while the preceding statements are practi-cally correct, it is not nossible at present to furnish full parcally correct, it is not possible at present to furnish full particulars regarding the enterprise.

Delaware River Ferry.-Eighth Drawing.-Ten bonds of 1891 have been drawn and are now payable at 105, with in-terest to July 1, at the office of the Provident Life & Trust Co., trustee, No. 409 Chesnut St., Philadelphia, viz.: Nos. 41, 56, 64, 225, 241, 318, 373, 380, 457, 488.

Diamond State Telephone Co.-Status.-The company has entered into a traffic agreement with the American Bell Telephone Co. for a period of five years ending December 31, 1904, whereby the subscribers of the Diamond State Telephone Co. have direct service over the Bell lines. Under this agreement the Delaware & Atlantic Co. surrendered their line from Dover to Wilmington and from Wilmington. to Elkton to the Diamond State Co. The control of the Dia mond State Co. has not passed out of its hands, President H. A. Richardson, of Dover, Del., holding the controlling inter-The Diamond State Co. also owns the Eastern Shore est. Co. of Maryland. The capital stock of the Diamond State is \$100,000, of which \$75,000 has already been issued, and the remaining \$25,000 is about to be offered to the public at once. It is bonded for \$50,000 5 per cent gold bonds, all of

which were issued last year. The Eastern Shore Telegraph & Telephone Co. (see V. 70, p. 534) is capitalized at \$100,000, but this stock is all in the treasury of the Diamond State Co. and will not be issued to the pub-lic. It is also bonded for \$100,000, of which \$6),000 has already been issued and the balance is being issued as needed in the construction of its lines. It will probably all be taken up by the 1st of October. There are also 5 per cent bonds; they are all owned by Mr. Richardson.—V. 70, p. 232.

Distilling Co. of America.—Majority of Stock Deposited.-A large majority of the stock, it is announced, has already been deposited with the Mercantile Trust Co. under the agreement of June 9th, 1900 [see V. 1252, 1097]. Further de-posits will be received without penalty up to and including July 16, 1900.-V. 70, p. 1252, 1097.

Eastern Shore Telegraph & Telephone Co.-Status.-See Diamond State Telephone Co. above.-V. 70. p. 534.

Economy Light & Power Co. of Joliet, Ill.-Mortgage.-This company, which is constructing a large water power plant on the Chicago Sanitary Canal at Joliet, Ill., has mortgaged its property for \$300,000.

Electric Boat Co.-Submarine Boats.-The Naval Board of Construction recently decided to recommend letting contracts for six submarine boats, to cost on an average \$170,000, and to be delivered to the Government within one year. The "Improved Holland" also was recommended for purchase. The company accordingly has been awarded the contract for these additional boats, but the contract itself has not as yet been executed. - V. 70, p. 999.

Electric Co. of America.—Sale of Long Island Plants.— President Snowden is quoted as saying:

(1) The price at which the properties were sold, and for which the (1) The price at which the properties were sold, and for which the purchase money is now in the treasury of the company, was a large profit over their cost. (2) Contracts for public lighting in Greater New York are for a single year, and there are complications and very powerful combinations that endangered future contracts. (3) The money received from these plants can be more profitably and safely invested in plants in other parts of the United States. (4) The receipt of this money avoided an assessment on the stock to pay for plants already purchased.

The amount received in payment is understood to be in excess of \$1,000,000.-V. 70, p. 1293.

Empire Coal & Coke Co.-This company has been organized with authorized stock \$700,000, of which \$400,000 is preferred. The incorporators are Charles A. Stillman, Birming-ham, manager of Rogers, Brown & Co.; Henry W. Milner of Newcastle, Ala., and James Weatherly of Birmingham. The company has acquired about 14,000 acres of coal lands in Walker County, Ala. Part of these lands carry the celebrated Black Creek coal seam, which is one of the best coking coals in the State. (See V. 68, p. 671, 926.)

chase price must accompany the subscription.

Daylight Prism Co. of Pennsylvania.—Trust Certificates for Stock.—The \$500,000 common stock listed in Philadelphia recently is represented by trust certificates issued by Charles S. Whelen, Charles A. Sparks and Frank Dallett, trustees, under an agreement giving the latter full voting powers and the right to sell the stock at any time prior to July 1, 1905, at not less than \$40 per \$50 share, less commissions and expenses, unless the trust is dissolved meantime by the written agreement of seven-eighths in value of the trust certificates. The agreement also provides for the deposit of the preferred stock, which cannot be sold at less than \$70 per \$50 share.-V. 70. p. 1150.

Delaware Forge & Steel Co.—New Enterprise.—This com-pany, recently incorporated in Delaware with a capital stock of \$5,000,000, and authority to increase it to \$25,000,(00, proposes to construct a large plant near Wilmington, Del., and for this purpose, it is stated, has purchased 200 acres of land at the junction of the Delaware and Christlana rivers.

Erie Telegraph & Telephone Co.-Stocks Pledged.-The company has completed the transfer to the Old Colony Trust Co. of Boston of the following amounts of stock in the controlled companies as security for its \$5,000,000 bonds heretofore known as debentures, viz :

Northwestern Telephone Exchauge Co	\$500.000
Cleveland Telephone Co	500 000
Southwestern Telegraph & Telephone Co	2 500 000
Michigan Telephone Co	1 000 000
Wisconsin Telephone Co	500.000
On pledge of additional stock the bond issue sec	sured by
the deed of trust may be increased to a like amount.	-V. 70.
p. 1252, 1197.	,

Hampton Roads Hotel Co.-Receiver.-On application of the Kuickerbocker Trust Co. of New York, as mortgage trustee, the United States Circuit Court at Norfolk, Va., on June 23 appointed William Butler Duncan, Jr., receiver of the Hotel Chamberlin at Old Point Comfort. This is preliminary to reorganization.

Indiana Oil & Gas Co.-Adverse Decision.-The Supreme Court of Indiana on June 28 handed down a decision in the case of the Manufacturers' Gas Co. against this company prohibiting the pumping of natural gas out of the State. The Indiana Company supplies natural gas to the People's Gas Light & Coke Co. of Chicago. (See V. 67, p. 690; V. 68, p. 825, 1182.)

Indianapolis Water Co.-Mortgage.-The company has made a mortgage to the New York Security & Trust Co., as trustee, to secure \$1,000,000 4½ per cent gold bonds, matur-ing July 1, 1930.—V. 67, p, 73.

International Navigation Co.—First Dividend – The com-pany has declared a first dividend, 2 per cent, on its \$9,205, 000 of 8 per cent preferred stock. There are also outstanding \$5,000,000 common stock and \$13,000,000 first mortgage 5s, the total authorized issue of the latter being \$20,000,000. The cost of the six boats now building (two at Cramp's and four at Clydebank) is stated as \$8,500,000, of which it is understood \$2.500,000 has already been paid, while the balance of this year's payments thereon is reported in the treasury. The first vessel, the Vaderland, will probably be delivered in October next, in time for return travel from the Paris Exposition.-V. 63, p. 1076.

Lehigh-Northampton (Pa.) Gas & Electric Co.-Bonds Offered.-This company owns the gas and electric plants of Catasauqua, Pa., and from the proceeds of its new bond issue intends to extend its mains and wires to Siegfried, Newport, Northampton, Egypt, Coplay, etc., comprising a considerable portion of Lehigh and Northampton counties, Pa. The capital stock is \$250.000; authorized bond issue, \$250,000, of which \$150,000 is offered for sale, being secured by first mortgages and dated June 18, 1900, due June 1, 1930, but subject to call June 1, 1910. President, M. L. Dreisbach, Wilkesbarre, Pa. For information apply to rooms 302-304 Provident Building, Philadelphia.

Lowell (Mich.) Water & Light Co.-Refunding.-The stockholders were to vote June 22 on a proposition to issue \$80,000 mortgage bonds for refunding and to provide means for improvements. William Judson is President.

Marion (0.) Water Co.—Receiver.—Cullen C. Chapman of New York, owner of \$25,000 of the company's bonds, has applied for a receiver, claiming that the franchise is endan-gered because the company cannot make extensions demanded by the city of Marion.

Merrimac Manufacturing Co.—New Stock—New Southern Mill—Change in Par Value of Stock.—The stockholders voted on June 29 to increase the capital stock from \$2,500,009 to \$2,750,000. The company's new mill at Huntsville, Ala., it is stated, will be in operation by Aug. 1. The new mill has 25,000 spindles, and in equipping it a part of the machinery in the Lowell mill was used. It was a part of the machinery in the Lowell mill was used. It was therefore necessary to purchase new machinery for the Lowell plant. A circular letter says :

Lowell plant. A circular letter says: The whole cost at Huntsville and Lowell will be about \$500,000. Of this amount about \$400,000 will be paid from the profils of the last eighteen months and from the sale of outlying land in Lowell. Your directors think it wise that this large addition to the plant should be, partly at least, represented in the capital of the company. and they recommend to stockholders the increase of the capital stock from \$2,500,000 to \$2,750,000 by the issue of \$250,000 of new stock to the stockholders at par. This would entitle the holders of \$1,000 par value of the present stock to subscribe for \$100 par value of new stock, and to facilitate the subscription the directors recom-mend that the par value of the shares of the company be reduced from \$1,000 to \$100 each. If this plan should be adopted, the com-pany would receive \$250,000, of which \$100,000 would be used for the Huntsville property and \$150,000 would remain to increase the reserve. reserve.

The changing conditions of business, involving the increase of pro-duction and the manufacture of fine and expensive goods in place of the common print, require a larger use of capital, and the proposed increase in the reserve would be employed to advantage.

Monongahela River Consolidated Coal & Coke.—First Dividend.—The company has declared its first dividend on the preferred stock, being 3½ per cent, payable July 10 to stockholders of record June 30.—V. 69, p. 1065.

Montgomery (Ala.) Light & Power Co.-Bonds Offered.-Hamilton & Co. of Baltimore are offering for sale at par and interest \$100,000 5 per cent prior-lien bonds, due 1947, inter-est March and September. "These bonds, amounting to \$300,000, are a first mortgage and a prior lien on the property, which was formed by the consolidation of the electric-light and the gas companies of Montgomery, Ala. An official statement shows for the year ended Dec. 31, 1899: Gross earnings, \$136,166; operating expenses and taxes, \$82,499; net earnings, \$53,666. Deduct: Interest on \$300,000 prior lien 5s, \$15,000; interest on \$450,000 1st mortgage 5s, \$22,500; balance, surplus for year, \$16,166."

their sale to the National Wall Paper Co. The essential feature of the plan will be that the present board of directors will have sole charge of closing the affairs of the company.—V. 70, p. 1099, 582.

New England Telephone & Telegraph Co.-Option to Sub-scribe.-The stockholders on May 7 voted to increase the capital stock from \$15,000,000 to \$20,000,000. The amount now outstanding is \$'3,759,100. Of the new issue 17,200 shares are offered at par to stockholders of record July 9, one share for every eight then held. The right to subscribe will

expire at 1 o'clock, July 28. Payment for one half of the amount subscribed for is to be made Aug. 16 and the re-mainder Nov. 16. A circular says: The great and constant increase in the number of our subscribers, due in part to the low rates at which the party line and measured ser-vice is furnished, has demanded a more rapid enlargement of our facilities than ever before, and extensive additions to the property are still required.

To provide the means, therefore, for extensions the new stock issue is required.—V. 70, p. 993.

North American Fisherles Co.—New Pacific Combine.-This company, incorporated in New Jersey last March with \$600,000 of authorized capital stock, of which \$300,000 to be 8 per cent cumulative preferred, is the new combine pro-moted by R. Onffroy, who assisted in the organization of the Pacific-American Fisheries Co. The "Seattle Post Intelligencer," says :

gencer," says: Arrangements have been made with President A. L. Black, of the Fairhaven Land Co., for a site in what is known as the railroad reserve. Mr. Onfiroy gets 1,050 feet of water front, extending nearly to the Bellingham mill. The new company will prepare and ship fresh, salt and smoked fish of all kinds and do a general cold storage shipping business. It has purchased the three Johnson and Anderson fish traps on Lummi Island, which are considered among the best fish trap properties not owned by the Pacific-American Co. The reported price paid for this property was \$125,000. The company also owns the cannery and traps on Grays harbor.

The Porter Bros'. Co. is said to be interested. See also Puget Sound Packing Co. in V. 70, p. 1000, and Pacific-American Fisheries Co. V. 70, p. 636.

Northern Liberties Gas of Philadelphia.-Lease Approved.—The stockholders on July 2 ratified the lease of the property to the United Gas Improvement Co. for ninety nine years. Three wards of Philadelphia, the Eleventh, Twelfth and Sixteenth, have for sixty-two years been lighted by the Northern Liberties Gas Co. Under the lease, it is stated, 8 per cent per annum is guaranteed on the \$475,000 stock.-V. 70, p. 1252.

Paterson & Passaic Gas & Electric Co.-Official State-ment-Bonds Listed on New York Stock Exchange.-The official statement made to the Stock Exchange in connection with the listing of the company's consolidated 5 per cent bonds is given at length on pages 36 and 37. The company sup-plies gas and electric light to Paterson and Passaic, N. J., and to a number of adjacent towns. A description of the plant and its earnings, together with a balance sheet, will be found in the statement referred to.-V. 70, p. 1151.

People's Gas & Electric Co. of Oswego, N. Y.-Bonds-Offered.-Street, Wykes & Co. have been offering for sale \$250,000 of the company's 5 per cent first mortgage sinking fund gold bonds, due May 1, 1930, principal and interest payable at the office of the New York Security & Trust Co., trustee of the mortgage. "This company owns all the gas and electric-light plants in the city of Oswego, and valuable water power privileges. It supplies the city with public lights, and furnishes power to the street railway system."-V. 70. p. 1000. 70, p. 1000.

People's Gas Light & Coke Co. of Chicago.-Natural Gas. -See Indiana Oil & Gas Co. above. Gas Bill Postponed.—The committee of the City Council

having the Ogden Gas ordinance in charge has postponed its report until next Monday, when, it is thought, a revised ordinance in the nature of a compromise will be submitted to the companies.-V. 70, p. 948.

Pittsburg Valve & Construction Co.-Consolidation Plan Fails.—Telegraphic advices report that the proposed consoli-dation has been deferred until the iron market shall be in better condition. - V. 70, p. 1253.

Southern Cotton Co.-Incorporated.-This company has been incorporated at Little Rock, Ark., to do a general cot-ton business. Authorized capital stock, \$5,000,000. Incor-porators: S. W. Fordyce, of St. Louis, Mo.; J. R. Fordyce, W. H. Wright, both of Little Rock, Ark.; C. R. Breckin-ridge, J. M. Taylor, both of Pine Bluff, Ark.; J. M. & J. G. Taylor, attorneys, Pine Bluff, Ark. Taylor, attorneys, Pine Bluff, Ark.

National Wall Paper Co.—Dissclution.—Notice is given by advertisement that at the annual meeting July 17 the stockholders will consider the subject of the dissolution of the company, and will take action with respect thereto.

President Henry Burn says :

Although the company has now been in existence for eight years, and has done a largo business, its profits have not been commensurate with the expectations of the stockholders, due to the fact that its ex-istence has to such an extent stimulated competition that the number of plants engaged in the manufacture of wall paper has in that period practically doubled. It has also been demonstrated that the manu-facture of wall paper involves elements of so peculiar a nature that it connot be as successfully conducted through the medium of a com-bination as it can through independent and isolated plants. The indebtedness of the company is nominal, and will be paid in full before any action looking toward dissolution is taken. A plan is being matured which will in all probability result in the acquisition of the various plante by those who were identified with them prior to

Storage Power Co.-Super Heated Water as Stored Power -Prospectus.-This company was organized under the laws of West Virginia in the year 1898. It is capitalized for \$5,-0(0,000 of common stock of the par value of \$50 per share. The stock is all issued and fully paid. Registrar and Trans-fer Agent, Standard Trust Co., 40 Wall Street, New York. An illustrated prospectus describes the invention and says :

The company controls the patents of William E. Prall, directly and indirectly, for the fundamental basis of converting hot water into work and its application through special mechanical devices. Ample working capital is in hand to establish the system for street railway, interurban and branch line service on railway systems. This method of utilizing super heated water as a power will also be adapted to omnibuses, trucks, delivery wagons, stationery engines, marine engines and wherever the most economical power is required.

The Secretary and Treasurer, Edward Barr, 30 Broad St. New York City, will furnish information, also estimates for the installation of the system. upon application. The officer and directors were given in V. 69, p. 1197.

# Reports and Documents.

## THE WHEELING & LAKE ERIE RAILROAD COMPANY.

#### APPLICATION TO LIST THE SECURITIES ON THE NEW YORK STOCK EXCHANGE.

NEW YORK, June 15, 1900.

The Wheeling & Lake Erie Railroad Company hereby makes application to place on the regular list of the New York Stock Exchange,

\$7,529,000 of its First Consolidated Mortgage four per cent gold bonds, due Sept. 1, 1949, interest payable March 1 and Sept. 1, numbered from 1 to 5,804 inclusive, and from 7,091 to

8,815 inclusive;
3,855,200 First Preferred non-cumulative four per cent stock, being 38,552 shares of \$100 each;
10,427,600 Second Preferred non-cumulative four per cent stock, being 104,276 shares of \$100 each;
19,000,000 Common Stock, being 190,000 shares of \$100 each.

The Wheeling & Lake Erie Railroad Company was organized under the laws of the State of Ohio, under Articles of Incorporation dated April 26, 1899, and filed with the Secre-tary of the State of Ohio April 28, 1899, as provided by the Plan of Reorganization dated February 7, 1898.

The Company acquired the properties and franchises of the Wheeling & Lake Erie Railway Company, which were sold under foreclosure on the seventh day of February, 1899. Its authorized capital consists of:

\$15,000,000 First Consolidated Mortgage Four Per Cent Gold Bonds, due September 1, 1949, interest payable March 1 and September 1. The Mercantile Trust Company, Trustee.
 5,000,000 First Preferred Non-cumulative Four Per Cent Stock.
 12,000,000 Second Preterred Non-cumulative Four Per Cent Stock.
 20,000,000 Common Stock

By the provisions of the said Plan of Reorganization the following funded debt of the Wheeling & Lake Erie Railway Company was assumed by the new Company, and remained undisturbed both as to principal and interest:

Lake Erie Division First Mortgage Five Per Cent Bonds...\$3,000,000 Wheeling Division First Mortgage Five Per Cent Bonds.... 1,500,000 Extension and Improvement Five Per Cent Bonds...... 1,624,000

......\$6,124,000 Of the \$500,000 First Mortgage Bonds of the Toledo Belt Railway Company originally issued under its Mortgage, \$224,000 have been redeemed with a like amount of Extension and Improvement Bonds included in the \$1,624,000 above referred to. The bonds of the Toledo Belt Railway Company so redeemed, as well as all of the stock of the Toledo Belt Railway Company, are held by the Central Trust Company as collsteral under the Extension and Improve-ment Mortgage. There are, therefore, still outstanding \$276,000 of Toledo Belt Railway First Mortgage Five per Cent Bonds.

The Plan of Reorganization provided for the conversion of the then outstanding Consolidated Mortgage Four per Cent Bonds of the Wheeling & Lake Erie Railway Company, amounting in all to \$1,600,000, into First Preferred Stock at One Hundred and Six per Cent of The Wheeling & Lake Erie Railroad Company. All but \$2,000 of the said Consolidated Bonds were deposited under the said plan, and have been thus converted, and funds were deposited with the Special Master in Chancery for the redemption of the two outstanding bonds at their pro rata proportion of the pro-

ceeds of the sale of the property.
1. There were issued in accordance with the said Plan of Reorganization, in First Preferred Stock, at par value, \$2,500,000; Second Preferred Stock, \$7,000,000; Common Stock, \$15,000,000.
2. Subsequent to the reorganization of the property there was issued for the purchase of the Cleveland Canton & Southern and Cleveland Belt and Terminal properties, and for expenses, New First Consolidated Four Per Cent Bonds, \$3,850,000; First Preferred Stock, \$4,000; Second Preferred Stock, \$3,210,000; Common stock, \$4,000,000. 000,000.

000,000.
3. First Consolidated Four Per Cent Bonds were also issued for the payment and retirement of outstanding car trust obligations, for the purchase of new equipment and the general improvement of the company's road and acquired properties, to the amount of \$1,954.000.
4. There were also issued, but are at present held in the Treasury of the Company, for the acquisition of the property of the Coshocton & Southern Railway Company and for terminals in Zanesville Four per Cent Consolidated Bonds to the amount of \$490,000.
5. The following securities have been set aside by the Company to be issued to the holders of the Divisional First Mortgage Bonds of the Toledo Belt & Terminal Railway Company, hereinbefore referred to (a copy of the circular addressed to the holders of the said referred to (a copy of the circular addressed to the holders of the said bonds and setting out the basis of said conversion is hereto attached), to wit: First Mortgage Consolidated Four per Cent Bonds, \$6.400,-000; First Preferred Non-cumulative Four per Cent Stock, \$1,580,000; Second Preferred Non-cumulative Four per Ceut Stock, \$790,000. The following bonds have been deposited with the Mercantile Trust Company, for such conversion, up to the date of the filing of this application: Lake Erie Division First Mortgage Five per Cent Bonds, \$902,000; Wheeling Division First Mortgage Five per Cent Bonds, \$242,000; Extension and Improvement Five per Cent Bonds, \$581,000, and a cor-responding amount of First Consolidated Four per Cent Bonds have been delivered thereagainst, as well as certificates of the Mercantile Trust Company entitling the holders to shares of Capital Stock when the same shall have been listed, as follows: 4,352 shares First Preferred Non-camu lative Four per Cent Stock; 2,176 shares Second Preferred Non-cumulative Four per Cent Stock.

#### RECAPITULATION.

The Committee on Stock Lists recommends the abovedescribed securities be admitted to the list, viz.: \$7,529,000 First Consolidated Mortgage Four per cent Gold Coupon Bonds of 1949 for \$1,000 each, Nos. 1 to 5,804 inclusive, and 7,091 to 8,815 inclusive; \$3.855,200 First Preferred Non-cumulative Four per cent Stock, \$10,427,600 Second Pre-ferred Non-cumulative Four per cent Stock, \$19,000,000 Common Stock. The Committee further recommends that it he compared to add to the list from time to time odd it be empowered to add to the list from time to time additional amounts of said bonds amounting to \$4,675,000 and proportionate amounts of First and Second Preferred Stock, as the same shall be issued, in accordance with the Offer of Conversion, for further exchanges of deposited securities made prior to October 1, 1900.

Adopted by the Governing Committee, June 27, 1900.

-Messrs. F. J. Lisman & Company offer in another column \$100,000 Grand River Coal & Coke Co. 1st mortgage 63 on a 514 per cent basis. These bonds are guaranteed as to principal and interest by the Colorado Fuel & Iron Co. The Grand River Coal & Coke Co., in a separate statement, shows that it is earning double the interest on this issue. The Colorado Fuel & Iron Co. earned in the year ending June 30, 1899 \$641,000 above all interest charges and will most likely make a still better showing for the year ending June 30, 1900.

## PATERSON & PASSAIC GAS & ELECTRIC COMPANY.

## OFFICIAL STATEMENT TO NEW YORK STOCK EXCHANGE,

Paterson, N. J., June 11, 1900.

The Paterson and Passaic Gas and Electric Company of Paterson, New Jersey, respectfully applies to have the following bonds issued by it placed on the regular list of the New York Stock Exchange:

\$3,317,000 Five per Cent. Consolidated Mortgage Gold Bonds, dated March 1, 1899, and due March 1, 1949, at the First National Bank in the City of Paterson, New Jersey. Bonds are in coupon form; of the denomination of \$1,000 each, with the privilege of registry as to principal only, and are not subject to redemption before maturity; coupons are payable semi-annually, on September 1 and March 1, at the First National Bank in the City of Paterson, New Jersey, and will also be paid upon presentation at the First National Bank, Broadway and Wall Street, New York City. The bonds issued are numbered from 1 to 3,035, both inclusive, and from 4,101 to 4,382, both inclusive, and are part of a total authorized issue of \$5,000,000. The \$1,683,000 of unissued bonds are retained in the hands of the Paterson Safe Deposit and Trust Company, Trustee under the Mortgage, to be issued only in accordance with the provisions of the Mortgage, as follows:

\$624,000 at par to provide for the extension and betterment of the Company's plant and acquisition of new prop-erty, real or personal; and \$1,059,000 at par for the redemption of underlying bonds.

The securities of the Paterson and Passaic Gas and Electric Company issued under merger and consolidation proceedings in acquiring the property of the several merged or underlying Companies were as follows:

50,000 shares of its Capital Stock (all), par value \$100 per share, or a total of \$5,000,000 par value; and \$2,845,000 of its Five per cent. Consolidated Mortgage Bonds,

the Company being subject at the time to the following underlying bonds:

- \$50,000 First Mortgage Five per Cent. Bonds, issued by the Paterson Gas Light Company, dated July 1, 1866, and due July 1, 1906.
- 5,000 Second Mortgage Five per Cent. Bonds, issued by the Paterson Gas Light Company, dated July 15, 1868, and due April 1, 1906.
  50,000 First Mortgage Six per Cent. Bonds, issued by the People's Gas Light Company of the City of Paterson, dated January 1, 1880, and due January 1, 1800. uary 1, 1900.
- 49,000 Second Mortgage Six per Cent. Bonds, issued by the People's Gas Light Company of the City of Paterson, dated October 1, 1880, and due October 1, 1900.
- 150,000 First Mortgage Five per Cent. Bonds, issued by the Edison Electric Illuminating Company of Paterson, dated July 1, 1892, and due July 1, 1912.
- 398,000 General Mortgage Five per Cent. Gold Bonds,, issued by the Edison Electric Illuminating Company of Paterson, dated July 1, 1895, and due June 30, 1925.
- 52,000 First Mortgage Six per Cent. Gold Bonds, issued hy the Paterson Electric Light Company, dated May 1, 1888, and due May 1, 1908.
- 400,000 First Consolidated Mortgage Five per Cent. Gold Bonds, issued by the Passaic Lighting Com-pany, dated March 27, 1895, and due May 1, 1925.
- 45,000 Second Mortgage Five per Cent. Gold Bonds, issued by the Passaic Lighting Company, dated January 1, 1897, and payable, \$5,000 on the 1st day of January, 1899, and \$5,000 on each succeeding 1st day of January, until all of the bonds are retired.
- 50,000 First Mortgage Six per Cent. Gold Bonds, issued by the Passaic Gas Light Company. dated June 1, 1892, and due June 1, 1922.

\$1,249,000

During the period ending March 1, 1900, \$190,000 in bonds had been used in retiring an equal amount of underlying bonds, and \$282,000 additional bonds had been sold and the proceeds used for construction purposes.

The Mortgage covers all the property, rights and franchises of the Company, and of the several underlying or constituent companies merged into it, now owned or hereafter acquired, and, subject to the Mortgages to secure the above described underlying bonds, is the only Mortgage existing against any of the property described therein, which is in other respects free from all liens and incumbrances except accruing taxes and other municipal assessments.

PATERSON:

#### REAL ESTATE.

Tracts, as shown in Mortgage, numbers 1 to 5 inclusive, and additional property recently purchased, located along and near the Passaic River, about 1 mile from the centre of the city, and bounded by Putnam, Rye, East Seventh and Wait Streets and the Passaic River; contains 123 city lots, or cheut 7 centre. This tract is near accurately be the or about 7 acres. This tract is now occupied by the Paterson Gas Works.

Tracts, as shown in Mortgage numbers 6 to 9 inclusive, located along the Erie Railroad at Fulton Street, about ¾ of a mile from the centre of the city; contains 36 city lots, or about 2 acres. The old People's Gas Works was located on this land, which is now leased.

Tracts, as shown in Mortgage, numbers 10 and 11, located between Dale and Railroad Avenues, about <sup>33</sup>/<sub>4</sub> of a mile from the centre of the city; contains 5 city lots, or about .29 acres; abandoned electric light plant.

Tracts, as shown in Mortgage, numbers 12 and 13, located at Prospect and Van Houten Streets, with a frontage along Passaic River, and has tail race rights, in centre of mill district, about  $\frac{1}{4}$  of a mile from centre of the city; contains about 23 city lots, or 1.11 acres; now occupied by the electric light power station.

PASSAIC:

Tracts, as shown in Mortgage, numbers 14 to 18 inclusive, bounded by Passaic, Ann and Columbia Streets and the canal; about  $\frac{1}{2}$  mile from the centre of the city; contains about 2.4 acres. The gas and electric works at Passaic are located on this property.

Tract, as shown in the Mortgage, number 19, located along the Erie Railroad, at Harrison Street, about  $\frac{1}{2}$  of a mile from the centre of the city; contains about .338 acre. The old Passaic electric light plant is located on this land.

The Company owns and operates two complete gas works, one located at Paterson and one at Passaic, with all the necessary and modern appliances for manufacturing and storing the gas, and a complete system of mains, connections, services and meters for the distribution of gas, with ample real estate well situated for its purposes. The two plants have a capacity of 3,800,000 cubic feet per day. The number of miles of mains owned is 147.

Comparative statement of gas accounted for in cubic feet for the twelve months ending February 28, 1899 and 1900:

:	1899 208,078,	2	$1900 \\ 62,118,4$	,	rea: 039,		 er Cent. 21.1	
							$     \begin{array}{r}             8,263 \\             . 12,116             \end{array} $	

Gain during year .....

The Company also owns two complete electric light plants, one located at Paterson and one at Passaic, with all the necessary and modern appliances for generating and distributing electricity for light and power purposes, including a complete system of poles, lines and wires:

Number of commercial arc lights on circuit Mar. 1, 1899. 693 Number of commercial arc lights on circuit Mar. 1, 1900. 1,035 Increase 342Number of city arc lights on circuit March 1, 1899.... 1,005 Number of city arc lights on circuit March 1, 1900.... 1,047 42

Number of incandescent lamps, 16 candle-power basis, Number of incandescent lamps, 16 candle-power basis, ou circuit March 1, 1900..... 30,791 39,664

8,873

The Paterson and Passaic Gas and Electric Company was formed under and pursuant to the provisions of an Act of the Legislature of the State of New Jersey, entitled, "An Act Concerning Corporations (Revision of 1896)," by the merger and consolidation of the Pcople's Gas Light Company of the City of Paterson, Paterson Gas Light Company, the Edison Electric Illuminating Company of Paterson, Passaic Lighting Company, the Lodi Light, Heat and Power Company, and the Passaic and Bergen Gas Company, all of which companies had been engaged in the business of manufacturing and selling gas and electricity in the Cities of Paterson and Passalc and adjacent territory in the Counties of Passaic and Bergen, State of New Jersey. The franchise of the Company is perpetual.

The new Company, under the merger and consolidation. assumed all existing obligations of every kind, including outstanding bonds, of the old companies, and acquired all of their assets, real, personal, or mixed.

. . . . . The Company supplies the following towns and municipalities of the counties of Passaic and Bergen:

#### PASSAIC COUNTY. Paterson, Passaic. Haledon, Lakeview. Acquackanonk, Clifton. Delawanna. BERGEN COUNTY. Garfield, Garfield Park. Saddle River, Lodi.

#### Wallington.

It is also now laying pipes in Hawthorne and North Paterson, in Passaic County, no other lighting company being within the territory covered by the operations of this Company.

The Company also leases the property of the Nichols Electric Light and Power Company of Nutley, Essex County, N. J., with an option to buy same for the sum of \$31,-114.47. This is a small plant which has a municipal contract, and operates in Nutley, Franklin and Avondale, Essex County.

The net profits of the Company for the twelve months ending March 1, 1900, are as follows:

There are herewith submitted: Six copies of the Mortgage securing the above bonds. Certificate of counsel as to the validity of the organization of the Company and legality of its title to the property, and as to the legality and effect of its Mortgage and bonds referred to above. Certificate of the Trustee acknowledging the acceptance of the trust and giving the serial numbers and the amount of the bonds executed in accordance with the terms of the Mortgage. Certificate of Civil Engineer stating the actual physical condition of the property on March 1, 1900. Specimen copies of bond. . Copy of merger and consolidation agreement.

The Company will, from time to time, make publication of its net profits not less than twice in each year.

#### Respectfully submitted,

THE PATERSON AND PASSAIC GAS AND ELECTRIC COMPANY.

Attest:

By WILLIAM BARBOUR, President.

W. H. ROGERS, Secretary.

Telephone, Telegraph & Cable Co. of America.-Policy.-President William J. Latta in a circular to stockholders is reported as saying :

ported as saying : The policy of purchasing so-called independent plants, especially where they occupy isolated positions, will not be pursued. Experi-ence has demonstrated that many of these plants are not only poorly and cheaply constructed, but are insuillciently provided with funds for future extensions, and are therefore undesirable as investments. Your management has secured by absolute purchase patents on tele-phone, telegraph, cable machinery and wireless telegraphy, which by experts are considered invaluable as future adjuncts in the work to be accomplished in telephone and telegraph development which will open up new fields in the art, capable of producing a larger percent-age of net results and a protection against successful interference.--V. 70, p. 1294

Tennessee Coal Iron & RR. Co.-Quarterly Dividend.-The company has declared a "quarterly" dividend of 2 per cent upon the common and outstanding preferred stock, pay-able August 1, 1900, at the Hanover National Bank, New York City, to the stockholders of record July 14. A divi-dend of 2 per cent was declared on the common stock last March payable May 1, but it was not described as a quarterly distribution.-V. 70, p. 1196.

Tropical Fruit & Steamship Co.-New Enterprise.-This company, recently organized, it is stated has secured a fleet of 12 steamships, which will be used to import fruit from Jamaica, Cuba, Central America, etc., to Newport News and to New Orleans. The new company was incorporated last month under the laws of Maine with \$500,000 capital stock. Martin H. K. Paulsen, of Baltimore is President.

United Gas Improvement Co.—Lease.—See Northern Liberties Co. above.—V. 70, p. 1253.

United States Rubber Co.-Competition.-The "Boston News Bureau" says: "Four new rubber boot and shoe fac-tories this year have been erected within six or eight months and are now producing. We have inquired of the various outside companies as to their *daily* output and capacity, and condense their replies as follows:

	Present	Present	Prospective
Factory.	output.	capacity.	capacity.
Apsley Rubber Co. (new)	2.000	2.000	8,000
Byfield Rubber Co		4,000	5,000
Beacon Falls Rubber Co	5.000	7,500	15,000
Bourn Rubber Co		5,500	5,500
Concord (new)		3,000	10,000
Model Rubber Co. (new)		4,000	5,000
Mishawaka Co.		5,500	10.000
Geo. Watkinson Co		6,500	6,500
Monarch Co., St. Louis (new)		5,000	5,000
Hood Rubber Co.		25,000	25,000
Total		- 68,000	95,000
TT-14- 1 Oladas T. D. D Os		150 000	

United States Rubber Co..... (?) 150,000

"It is sometimes misleading to estimate the capacity of a factory, as boots and shoes vary in list prices from 35 cents to \$6 50 per pair. A pair of men's boots weigh from 5 to 6 pounds and a pair of women's shoes about half a pound. Some factories, in estimating their capacity, reduce their product to the basis of women's shoes, while others take the actual production.

"It is generally believed in the trade that Charles R. Flint, Treasurer of the United States Rubber Co., controls the Watkinson factory, and that Col. S. P. Colt, Secretary of the United States Co., controls the Byfield Rubber Co. at Bristol, R I., which latter company only manufactures 'thirds.' We are informed on good authority that two of the largest United States Co. factories carried over from last season 192,000 cases of shoes, the value of which will average, at a low estimate,

\$10 per case. "The daily capacity of the United States Co.'s plants is placed at 150,000 pairs."

Dividend.-The directors yesterday declared the regular dividend on the preferred stock but none on the common. An official of the company says: "The stockholders at the last annual meeting passed an amendment to the by-laws fixing the responsibility on the directors as to the amount to be reserved for surplus. As the earnings cannot now be de-termined—it being in the middle of the season—the consideration of common stock dividends for this year will go over to a later meeting."-V. 70, p. 1053.

Van Choate Electric Manufacturing Co.-Reorganized Company.—This company was recently organized at Port-land, Me., with \$600,000 authorized capital stock, as succes-sor, it is understood, of the Van Choate Electric Co. (see V. 70, p 284) The officers are: President, S. F. Van Choate of Bostory, W. F. Sarford of Attlackers, V. 70, p. Boston; Treasurer, W. E. Sanford of Attleboro.-V. 70, p. 284.

The Committee on Stock Lists recommends that the above-described \$3,317,000 Five per Cent. Consolidated Mortgage Gold Coupon Bonds of 1949, for \$1,000 each, Nos. 1 to 3,317 inclusive, be admitted to the list.

Adopted by the Governing Committee, June 27, 1900.

Sargent Automatic Railway Signal Co.-Change of Control.-James Sargent, having sold his stock recently, retired from the Presidency, the company being then reorganized with \$1,000,000 capital stock and the following officers and directors, all or most of them Rochester men:

Officers-Edmund Ocumpaugh, Jr., President; F. W. Zoller, Vice-President; Percy R. McPhail, Scoretary and Treasurer, and John A. Barhite, counsel. Directors-Edmund Ocumpaugh, Jr., F. W. Zoller, Percy R. McPhail, John N. Beckley, George W. Archer, Abraham J. Katz and Philip Kos-cialowski.

cialowski.

In the title of the new company the word "Railway" is omitted. This company makes a semaphore signal which is worked by an electric motor.

Welsbach Company .- Mortgage .- The company has filed its mortgage for \$7,000,000 to the Provident Life & Trust Co. of Philadelphia as trustee.

New Securities.-The Provident Life & Trust Co. of Philadelphia will deliver the bonds or stock of the Welsbach Company on and after Monday. July 23, 1900, in exchange for its certificates of deposit. -V. 70, p. 1151.

West Side Construction Co.—Final Dividend.—A final dividend of \$1 25 a share is appounded.—V. 69, p. 554.

Wheeling Lake Erie & Pittsburg Coal Co.--Opposition to Plan.-A bondholders' committee, consisting of Alexander H. Spencer, Lomax Littlejohn and Alfred P. Boller, has filed a petition in the United States Court in Ohio asking to be made parties to the foreclosure suit in order to oppose the carrying out of the reorganization plan in V. 70, p. 799. The Knickerbocker Trust Co. is depositary for this opposition committee.-(See V. 70, p. 1000.)

### THE CHRONICLE.

# The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, July 6, 1900. Business has been interrupted to some extent by a midweek holiday. Furthermore the vacation season is now at hand in many lines of trade and comparative quiet is naturally expected. The tendency of prices for iron and steel has continued downward and there has been nothing encouraging in the reports from the dry goods trade. Coffee has advanced sharply and higher prices have been made for sngar. Crop news has been more favorable; needed rains have fallen in the Northwest and clearing weather has been reported in the Southern Mississippi Valley. The situation in China has continued to be closely followed and in some lines of trade, particularly teas and silks, it has caused some uneasiness. At the Democratic Convention, held this week at Kansas City, W. J. Bryan was re-nominated for President on the 16 to 1 platform.

Lard on the spot has been in moderate demand, as there has been some buying by both exporters and refiners, prices have advanced and the close was steady at 7:20c, for prime Western and 6:55c. for prime City. Refined lard has been quiet, but prices have advanced, closing at 7:40c, for refined for the Continent. Speculation in lard for future delivery at the Western market has been moderately active and on moderate receipts of swine and sympathy with an advance in corn, prices have been firmer. The close was steady.

### DAILY CLOSING PRICES OF LARD FUTURES.

July	Sat. 7.05	Mon. 6·97	Tues. 7.15	Wed. Thurs. Holiday. 7.12	Fri · 7 · 20

Pork has had a fair sale and prices have advanced, closing at \$13 25@14 00 for mess. Cut meats have been irregular. Tallow has advanced and the close was firm at 45% c. Cottonseed oil has held steady at 36% @37c. for prime yellow. Butter and cheese have been quiet but steady. Fresh eggs steady

ter and cheese have been quiet but steady. Fresh eggs steady. Brazil grades of coffee have had only a moderate sale but as sellers generally have been indifferent and Brazil and European advices have been decidedly stronger, prices have advanced sharply. The close was steady at 9½ c. for Rio No. 7 on the spot. West India growths have had a moderately large sale and prices have advanced, closing at 10½ c. for good Cucuta. East India growths have been firmer but quiet. Speculation in the market for contracts has been quiet. Owing to a steady advance in the rate of sterling exchange on Rio, stronger European advices and only a moderate movement of the new crop, shorts have become nervons over the situation and have been free buyers to cover their contracts; there also has been considerable buying for investment account. Final asking prices were:

Raw sugars have been in fairly active demand and higher, at 434c. for centrifugals, 96 deg. test, and 414c. for muscovados, 89 deg. test. Refined sugar has continued to have a large sale, and prices have been advanced to 5 90c., list, for granulated. Teas have been fairly active and firm. Kentucky tobacco has been in fairly good supply but well held; demand has been moderately active. Seed leaf tobacco has been quiet but steady. Sales for the week were 695 cases. Straits tin declined early in the week, but the close was firmer in response to stronger foreign advices, closing at 31 25@31 50c. Ingot copper has been quiet and unchanged at 16½c. for Lake, Lead has unexpectedly weakened in price, but the close was steady at 4 12½c. Spelter advanced early in the week, but the close was easier at 4 22½@ 4 27½c. for domestic. Pig iron has been dull and easy at \$16@20 50 for domestic. Refined petroleum has been steady, closing at 7.85c. in bbls., 5 30c. in bulk and 9 15c. in cases. Naphtha unchanged at 9 55c. Crude certificates have been neglected. Credit balances unchanged at \$1 25. Spirits turpentine has been quiet but steady, closing at 46½@47c. Rosins have been quiet but steady, closing at 46½@47c. Rosins have been quiet and unchanged at \$1 55 for common and good strained. Wool has been quiet and without important changes. Hops have been quiet but steady.

### COTTON. FRIDAY NIGHT, July 6, 1900.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 13,703 bales, against 10,887 bales last week and 15,507 bales the previous week, making the total receipts since the 1st of Sept., 1899, 6,421,364 bales, against 8,334,173 bales for the same period of 1898-9, showing a decrease since Sep.1, 1899, of 1,912,809 bales.

Speculation in cotton for future delivery has been fairly active. The tone of the market has continued decidedly unsettled and the course of prices has been somewhat irregular. The near-by deliveries have shown considerable strength reflecting the strength of the advices from Liverpool and New Orleans, prices for the summer months at the latter market being kept considerably above those ruling locally. The statistical position continues a strong one and it is on this that the higher prices are maintained. Reports from Fall River show an unsatisfactory condition of business in the cotton goods trade and mills have agreed to shut down four weeks between now and Sept. 17 for the purpose of curtailment. The new-crop deliveries have been maintained largely by foreign buying. Crop accounts have been conflicting. Weather conditions, however, have been generally favorable, and during the latter part of the week beneficial rains were reported in Texas. To-day the market was fairly active and firmer in response to stronger foreign advices and continued buying for foreign account. Crop news from the South was more favorable and this prompted selling by longs to realize profits. The close was steady at a net gain in prices for the day of 19@25 points for this crop and 10@12 points for the new-crop deliveries. Cotton on the spot has been quiet, closing firmer at 10½c. for middling uplands.

The rates on and off middling, as established Nov. 15, 1899, by the Revision Committee, at which grades other than middling may be delivered on contract, are as follows.

Fair	Strict Good Mid. Tinged.c. 310 on	
Middling Fair 34 on	Good Middling Tinged Even	1
Strict Good Middling 716 on	Middling Tinged <sup>1</sup> 8 off	
Good Middling	Striot Middling Stained 4 off	
Strict Low Middling 316 off	Low Middling Tinged 516 off	
Low Middling. 716 off	Middling Stained

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph, is as follows. Continental stocks, as well as those for Great Britain and the afloat, are this week's returns, and consequently all European figures are brought down to Thursday evening. But to make the total the complete figures for to-night (July 6), we add the item of exports from the United States, including in it the exports of Friday only.

#### MARKET AND SALES.

The total sales of cotton on the spot each day during the week are indicated in the following statement. For the convenience of the reader we also add columns which show at a glance how the market for spots and futures closed on same days.

		FUTURE8	SALEB	OF SPOT	CON & CON	TRACT.
	SPOT MARKET CLOSED.	MARKET CLOSED.	Ex- port.	Con- sump.	Oon- tract.	Totat.
Monday Tuesday Wednesday Thursday	Quiet at <sup>1</sup> 9 dec Quiet at <sup>1</sup> 16 adv. Quiet at <sup>1</sup> 16 adv. Quiet at <sup>1</sup> 16 adv. Steady at <sup>1</sup> 6 ad.	B'rly steady. Steady Quiet & st'dy	1.481 Holi		300 400	1,781 725 100
Total			1,881	25	700	2,606

been 35,000 bales.

The above figures indicate a *decrease* in the cotton in sight to-night of 1,596,721 bales as compared with the same date of 1899, a loss of 1,032,690 bales from the corresponding date of 1898 and a decline of 424,785 bales from 1897.

AT THE INTERIOR TOWNS the movement—that is the receipts for the week and since September 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period of 1898-99—is set out in detail below.

					-	-

The above totals show that the interior stocks have de oreased during the week 13,659 bales, and are to-night 170,203 bales less than at same period last year. The receipts at all towns have been 7,428 bales less than same week last year.

**OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.-**We give below a statement showing the overland movement for the week and since Sept. 1, as made up from telegraphic reports Friday night. The results for the week ending July 6 and since Sept. 1 in the last two years are as follows.

	1899	-1900.	1898-1899.		
July 6.	Week.	Since Sept. 1.	Week.	Since Sept. 1.	
Shipped— Via St. Louis Via Cairo Via Paducah Via Rock Island Via Lonisville	4,576 545 645	224,429 11,686 12,810		19,892 42,967	
Via Cincinnati Via other routes, &c	596 1,982	134,819		178,623	
Total gross overland Deduct shipmenis—	8,344	1,738,283	16,783	1,970,865	
Overland to N. Y., Boston, &c Between interior towns Inland, &c., from South	1,396 785 551	75,304	2,483 142 2,122	49,463	
Total to be deducted	2,732	502,828	4,747	684,642	
Leaving total net overland*	5,612	1,235,455	12,036	1,286,223	

\* Including movement by rail to Canada.

The foregoing shows that the week's net overland movement this year has been 5,612 bales, against 12,036 bales for the week in 1899, and that for the season to date the aggregate net overland exhibits a decrease from a year ago of 50,768 bales.

QUOTATIONS FOR MIDDLING COTTON AT OTHER MARKETS.-Below are closing quotations of middling cotton at Southern and other principal cotton markets for each day of the week.

WEATHER REPORTS BY TELEGRAPH.-Our reports by telegraph this evening denote that there has been a marked improvement in the weather conditions at the South during the week. In Texas and at points on the Atlantic, where moistnre was claimed to be needed, beneficial rains have fallen, and in other sections where there had recently been too much rain dry weather has been quite general. As a result of the more favorable weather good progress has been made with cultivation, and some of our correspondents note

that the crop is doing better. Galveston, Texas.—There have been showers on five days during the week, the precipitation being ninety-three hun-dredths of an inch. The thermometer has averaged 80, the highest being 88 and the lowest 72. June rainfall five inches and forty-eight hundredths.

Abilene, Texas.—It has rained on two days of the week, to the extent of twenty-five hundredths of an inch. The ther-mometer has averaged 83, ranging from 72 to 94. June rainfall two hundredths of an inch.

Brenham, Texas.-It has rained on five days during the week, the precipitation reaching one inch and forty-three hundredthe. The thermometer has ranged from 73 to 93, averaging 83. June rainfall two inches and eighty-five hundredths.

Longview, Texas.—It has rained on three days of the week, the rainfall being thirty-four hundredths of an inch. Average thermometer 86, highest 100 and lowest 71. June rain-

fall three inches and twenty-seven hundredths. Corpus Christi, Texas.—The week's rainfall has been one inch and sixteen hundredths, on three days. The thermometer has averaged 82, the highest being 88 and the lowest 76. June rainfall seventy six hundredths of an inch. Paris, Texas.—Rain has fallen on two days of the week,

the precipitation reaching seventy-three hundredths of an inch. The thermometer has averaged 85, ranging from 70 to 100. June rainfall one inch and seventeen hundredths.

Huntsville, Texas.-There have been showers on three days of the week, the rainfall reaching sixty-five hundredths of an inch. The thermometer has ranged from 73 to 94, aver-ing 89. June rainfall three inches and twenty-two hundredths.

San Antonio, Texas.-It has rained on four days of the week, the rainfall being twenty-two hundredths of an inch. Average thermometer 81, highest 94 and lowest 68. June rainfall seventy-eight hundredths of an inch.

Cuero, Texas.—We have had rain on three days during the week, to the extent of one inch. The thermometer has averaged 86, the highest being 100 and the lowest 72. June rain-

fall three inches and sixty-seven hundredths. Dallas, Texas.—The week's rainfall has been ninety-two hundredths of an inch, on two days. The thermometer has averaged 86, ranging from 73 to 99. June rainfall one inch

and seventy two hundredths. Henrietta, Texas. - We have had no rain during the week. The thermometer has ranged from 72 to 100, averaging 86.

* Decrease during week.	1 Less 1	than Sept.	1.				
In 1898 the week's movement into sight was 25,847 bales; in 1897 reached 14,555 bales; in 1896 was 16,635 bales, and in 1895 was 12,438 bales. The totals since Sept. 1 in the same years were 10,856,243 bales in 1897-98; 8,313,964 bales in 1896-7; 6,917,241 bales in 1895-96 and 9,694,035 bales in 1894-95.							

June rainfall fifty-five hundredths of an inch. Temple, Texas. —We have had showers on three days during the past week, the rainfall being thirty nine hundredths of an inch. Average thermometer 88, highest 99 and lowest 66. Rainfall for the month of June forty-five hundredths of an inch.

New Orleans, Louisiana.-Rain has fallen on one day dnring the week, the precipitation reaching eleven hundredths of an inch. The thermometer has averaged 82. June rainfall five inches and ten hundredths.

Shreveport, Louisiana.—It has rained on one day of the week, to an inappreciable extent. The thermometer has averaged 83, ranging from 70 to 94. June rainfall six inches and eighty hundredths. Leland, Mississippi.—June rainfall eight inches and ninety

hundredths.

Columbus, Mississippi .- We have had dry weather all the week. It is claimed that some cotton has been abandoned. Average thermometer 83, highest 93 and lowest 74. June rainfall fifteen inches and fifty-nine hundredths.

Vicksburg, Mississippi.-Crops are still a little grassy but weather conditions have been very favorable for work the past week. We have had a trace of rain on one day. The thermometer has averaged 77, the highest being 92 and the lowest 73.

Greenville, Mississippi.—The weather has been clear and hot the past week—favorable for cultivating crops.

Helena, Arkansas.-There has been but a trace of rain on three days of the week. Crops have improved although still a little in the grass. Average thermometer 76.4, highest 93 and lowest 63. June rainfall nine inches and fifty-three hundredths.

Little Rock, Arkansas.—We have had rain on three days of the week, the rainfall reaching three hundredths of an inch. The thermometer has ranged from 72 to 93, averaging 81

Memphis, Tennessee.-The weather conditions have greatly improved, enabling cultivation of crops to be pushed. Scarcity of labor is complained of, however. Rain has fallen during the week to the extent of seventeen hundredths of an inch. The thermometer has averaged 81.8, the highest being 91.7 and the lowest 73.1. June rainfall eleven inches and forty-five hundredths.

Nashville, Tennessee.—Rain has fallen during the week, the precipitation reaching seventy two hundredths of an inch. The thermometer has averaged 80, ranging from 69 June rainfall ten inches and thirty-five hundredths. to 92.

Mobile, Alabama.-Crop reports are more favorable. Good progress has been made in clearing the fields of grass and weeds. It has rained on two days during the week, the rainfall being twelve hundredths of an inch. The thermom-eter has ranged from 72 to 92, averaging 82. June rainfall twenty-six inches and sixty-seven hundredths.

Montgomery, Alabama.—Prospects are slightly improving. We have had rain on two days of the week, the rainfall being fifty-two hundredths of an inch. Average thermometer 81, highest 92 and lowest 70. June rainfall seven inches and twenty-three hundredths.

Selma, Alabama.--Rain has fallen on three days of the week, the precipitation being one inch and fifty-six hun-dredths. Crop situation unchanged. The thermometer has averaged 72, the highest being 102 and the lowest 58. Madison, Florida.—Rain has fallen on one day of the week,

the precipitation reaching fifty hundredths of an inch. The thermometer has averaged 87, ranging from 75 to 98. *Charleston, South Carolina.*—We have had rain on three days of the week, to the extent of seven hundredths of an inch.

The thermometer has averaged 84, the highest being 92 and the lowest 77. June rainfall six inches and twenty-nine hundredths.

Stateburg, South Carolina.-We have had beneficial rain on four days during the week, the rainfall being one inch and thirty-three hundredths. The last two days have been clear and hot with rising temperature. Crops are in good condition around here. The thermometer has averaged 81.6, ranging from 69 to 96. June rainfall five inches and three hundredths.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 3 o'clock July 5, 1900, and July 6, 1899.

GOVERNMENT WEEKLY COTTON REPORT. - Mr. James Berry, Chief of the Climate and Crop Division of the U.S. Weather Bureau, made public on Tuesday the following telegraphic reports on the crops in the Sonthern States for the week ending July 2:

VIRGINIA .- Week showery in western, dry in eastern countles; minor

Ing July 2:
 VIRGINIA.—Week showery in western, dry in eastern counties; minor crops doing well.
 NORTH CAROLINA.—Throughout greater portion of State week very favorable, oausing marked improvement; cotton improved, color good, beginning to bloom freely.
 South CAROLINA.—Outivation hindered by excessive rains; all crops foul; cotton small, not fruiting well, fields grassy, some abandoned, sandy land plants vellowed and eickly, general outions poor, needs dry weather and cultivation.
 GEORGIA.—Little or no improvement in crop situation during past week, except in few southern counties, and general outlook continues gloomy; cotton seriously damaged and making no progress.
 FLORIDA.—High temperature; rains coased early in week; much work accomplished in cleaning crops of grass; rnst in cotton and considerable shedding, though condition improved.
 ALABAMA.—Cool and wet first of week; heavy to excessive rains in some southern and middle counties, large lowland areas inundated and ruined; last few days generally favorable; cotton very grassy, running to stalk. fruiting slowly, lice damaging, some shedding.
 MISSISPFI.—Weather favorable latter part of week; considerable progress made with oultivation; cotton small and discolored, much not worked first time, choked with grass and weeds, many fields abandoned and replanted in corn.
 LOUISIAN.—Cool, rainy weather most of week retarded growth and cultivation of crops in nearly all sections; cotton running to stalk, very grassy and not fruiting.
 TEXAS.—Hot, dry week, except light showers extreme southeast portions, early planted fruiting in central and south portions, omplaints of peets diminishing, although Mexican weet il destroying bolls in some localities.
 ARKANSAS.—Warm, with raine general and excessive in many places; cotton generally rery grassy, many fields in lowlands have been abandoned, black blight has appeared on cotton in some

MANCHESTER MARKET .- Our report received by cable to-night from Manchester states that the market is quiet for yarns and dull but steady for shirtings. The demand for

Over nearly the whole of the central and eastern portions of the cot-Over nearly the whole of the central and eastern portions of the cot-ton belt the weather has been very unfavorable to cotton, which is largely overrun with grass and weeds, some fields in Mississippi and South Carolina having been abandoned. In North Carolina, Florida and on uplands in Tennessee the condition of the crop is more favor-able. In Texas it is generally clean and making good growth, al-though very irregular, and is needing rain over the central and west-ern part of the State.

NEW ENGLAND MILL SITUATION.-CURTAILMENT OF PRO-DUCTION PROPOSED AT FALL RIVER.-Advices from Fall River indicate that the movement to bring about a curtailment of production of cotton goods is taking definite shape. The members of the Cotton Manufacturers' Selling Com-mittee estimate that nearly 2,000,000 spindles will join in the agreement to curtail production for four weeks, and that the total amount of curtailment will be 1,000,000 pieces and possibly a few thousand more. It is stated that the greater part of the expected total of spindles to curtail is already pledged, and there is some expectation that a curtailment will be general among the plain goods mills of New England.

THE CHRONICLE.

JUTE BUTTS, BAGGING, ETC.-Business in jute bagging has been only moderate during the week under re-view at unchanged prices. The close to-night is at 734c. for 134 lbs. and 8c. for 2 lbs., standard grades. Car-load lots of standard brands are quoted at 8@814c., f. o. b., according 5) quality. Interputs dull and nominal at 13/c for paper qual quality. Jute butts dull and nominal at 134c. for paper quality and 2<sup>3</sup>/<sub>4</sub>c. for bagging quality, new crop.

SHIPPING NEWS .- As shown on a previous page, the exports of cotton from the United States the past week have reached 24,176 bales. The shipments in detail, as made up from mail and telegraphic returns, are as follows: es.

### BREADSTUFFS.

FRIDAY, July 6, 1900.

Only a very moderate volume of business has been transacted in the market for wheat flour, and there has been an easier turn to prices, particularly for spring patents. Owing to a weaker market for the grain, buyers of flour, as a rule, have been indifferent, and there has been a general disposition shown to use up recent purchases before placing orders for additional supplies of importance. The export The export business continued quiet. Rye flour has had only a small sale, but offerings have been light and prices have been firmer. Corn-meal has been quiet, but prices have been fairly well maintained.

Speculation in wheat for future delivery has been fairly active, but there has been a further decline in prices. The liquidation by recent buyers to realize profits has continued, and this selling, together with the fall of needed rains in the Northwest, although too late to prove of material benefit to the crop, has had a depressing influence. Crop news from Europe has been generally favorable; European markets, however, have held comparatively steady, and shippers report the indications favorable for a revival of the export business in the near future, as their limits were gradually getting closer to the markets. Reports from the winterwheat section, particularly Kansas, have been favorable, and latest advices say that the yield in this State may be in excess of estimates. Business in the spot market has been quiet, as few purchases have been made by exporters; prices have followed futures. To day the market was easier under realizing sales and rains in the Northwest, but advanced at the close on more active export business. The spot market was fairly active and firmer. Sales for export here and at outports were 350,000 bushels.

Indian corn futures have been fairly active and there has been a fractional advance in prices. Early in the week real-izing sales by longs and sympathy with the decline in wheat values had a weaekning influence and the tendency of prices was downward. Tuesday the market showed a decided turn for the better. Foreign advices were stronger than ex-pected, there was a more active export demand, crop news from Kansas and Nebraska were less favorable, and advices from the interior reported small country acceptances, all of which had their influence in favor of the market. Thursday the market was quiet but steady. To-day the market was fairly active and higher, on unfavorable crop news from the The spot market was fairly active and at higher Southwest. prices. Sales for export here and at outports were 680,000 bushels.

GOVERNMENT WEEKLY GRAIN REPORT.-Mr. James Berry, Chief of the Climate and Crop Division of the U.S. Weather Bureau, made public on Tuesday the telegraphic reports on the grain crops in the various States for the week ending July 2, as follows :

WEATHER.—Heavy rains have fallen over a large part of the South Atlantic, central and east Gulf States, Tennessee and Ohlo Velleys, which districts suffered much from excessive moisture in the previous Atlantic, central and east Gulf States, Tennessee and Ohlo Valleys, which districts suffered much from excessive moisture in the previous week. Very favorable weather conditions prevailed in the Middle Atlantic States and generally in New England and the Lake region. The severe drought in the Red River of the North Valley has been par-tially relieved by from one to more than two inches of rain over North-ern Minnesota and light to heavy showers in North Dakota. Rain is much needed throughout the Rocky Mountain region and Plateau dis-tricts. The week was marked by exceptionally high temperatures over the middle Rocky Mountain slope and upper Missouri Valley. CORN.- Corn has suffered injury from heavy rains in portions of In-diana, Illinois, Missouri and Kentucky, and generally in the east Gulf States, but on the whole has made very favorable progress especially in the great corn States. In Iowa and Nebraska the crop is in fine con-dition, having received its final cultivation in Iowa. In portions of Kansas, Oklahoma and Texas corn is suffering from drought, and would be benefited by rain over portions of the Middle Atlantic States. WINTER WHEAT.-In the Ohio and Central Mississippi valleys, as in the previous week, winter wheat harvest has been interfered with by heavy rains, and reports continue of damaze to grain in shock. In the Middle Atlantic States harvesting has continued under favorable con-ditions and is practically finished as far north as Maryland. BrENG WHEAT.-Good rains have fallen over portions of northern Minnesota and North Dakota, but further deterioration in the condi-tion of spring wheat is reported from North Dakota. In Minnesota much spring wheat will be too short to harvest. In South Dakota the orop is very uneven and continues to suffer for rain. OATS.-In the Southern States oats in shock have sustained much damage as a result of heavy rains, which have also injured the un-harvested crop in the Central Mississipi and Ohlo valleys; elsewhere, except in the drought region of the North

except in the drought region of the Northwest, reports respecting oats are generally favorable. HAY.—Further improvement in the condition of hay is reported from the Ohio and Central Mississipi valleys, where, however, in some sec-tions the weather conditions have been unfavorable for haying. TOBACCO.—Tobacco needs rain in Maryland, but the general condi-tion of the orop in the other tobacco States is very promising, except in Western Kentucky and portions of Tennessee, where it has been damaged by heavy rains. FRUIT.—In New England, New York, Pennsylvania, Wisconsin and Minnesota the reports respecting apples are very favorable, but drop-

Minnesota the reports respecting apples are very favorable, but drop-ping continues to be extensively reported in the States of the Central valleys and in portions of the Lake regions. In Oregon the outlook for a large erop of apples of superior quality is promising, and very favorable reports are received from California, Colorado and New Mexico.

For other tables usually given here see page 14.

### THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., July 6, 1900.

The market has not shown any change during the past week from previously existing dull conditions, and with the holiday interruption business has been on a limited scale in all departments. In some quarters handling brown cotton goods there has been a somewhat firmer tone, owing to the strength of the market for raw material; otherwise no improvement is noticeable, buyers being just as readily met as heretofore. The failure of the cotton goods market to re spond to the course of raw cotton either by fuller buying or by better prices is forcing the question of curtailment of production upon the manufacturers both North and Sonth. The Fall River Committee has recommended a shut-down of the print-cloth mills for four weeks, and their recommendation appears likely to be adopted. As the last reduction in the price of cloths to 2% c. for regulars has failed to elicit any demand, a curtailment seems to be good policy. A number of Southern mills are reported to be running out of both enders and eattern on the print also is both orders and cotton and a shut-down on their part also is likely, as the selling price of their product is below parity with cotton cost. Reports from out-of-town points have again been irregular and on the whole less satisfactory than desirable. WOOLEN GOODS.-The business done in the woolen goods division of the market this week has again been of limited proportions. For men's-wear tronserings and suitings the re-orders for heavy-weights have shown some gain in numbers but no expansion in individual purchases, and the course of supplementary buying has been disappointing. The market shows a good deal of irregularity, sellers who are well enough situated to adhere steadily to their prices being in the minority. Cnly a few lines have been opened in new springweights, and although additions may now be daily expected, it is likely to be near the end of the month before the price situation is well defined. The demand for overcoatings con-

tinues light without material change in prices. Cloakings inactive. Business in woolen and worsted dress goods has been on an indifferent scale and tone of market easy. There has been no demand of any moment for either flannels or blankets, or any change of prices.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending July 2 were 1,830 packages, valued at \$108,714, their destination being to the points specified in the tables below :

NEW YORK TO JULY 2		1900.	1899.			
NEW YORK TO JULI 2	Week.	Since Jan. 1.	Week.	Since Jan. 1.

Total	1,830	202,748	12,691	228,645		

The value of the New York exports for the year to date has been \$8,507,005 in 1900, against \$8,132,156 in 1899.

COTTON GOODS .- There has been no export demand for heavy brown cottons for the chief markets, and recent buyers for China are endeavoring to secure release from contracts made by them for delivery between now and the end of September. The home trade continues slow. In spite of this there has been a steadier tone, owing to the influence of the cotton market over sellers' views and the downward tendency of prices has been at least temporarily checked. Business in ducks and brown Osnaburgs has been light at irregular prices. In bleached cottons of all grades purchases have been small, lower prices on leading grades being looked for. Wide sheetings are slow and unchanged, and there has been no feature of any moment in cotton flannels or blankets. Danims and other coarse, colored cottons are dull, with sellers meeting the demand readily at irregular prices. All de-scriptions of prints have been in quiet request without fur-ther change in prices. Ginghams have ruled slow but steady. There has been no business in regular print cloths at 27/8c. In odd goods sales have been small at previous prices.

FOREIGN DRY GOODS.—In dress goods the demand has been small but tone generally steady. Silks show a slight improvement in demand and tone. Ribbons and laces quiet and unchanged. Linens are dull but no quotable change in prices. Burlaps steady for Dundees and firm for Calcuttas.

#### Importations and Warehouse Withdrawals of Dry Goods

The importations and warehouse withdrawals of dry goods at this port for the week ending July 5, 1900, and since January 1, 1900, and for the corresponding periods of last year are as follows:

[VOL. LXX I.

#### CITY DEPARTMENT. STATE AND

### MUNICIPAL BOND SALES IN JUNE.

The month of June in the past has generally shown a large aggregate of municipal bond sales, and the past month has proved to be no exception to this rule. The total-\$19,619,826-is the heaviest, with one exception, ever recorded for that month, being second only to that for June] 1899, when the sales reached over 294 millions and included \$6,385,000 bonds of Massachusetts, \$5,600,000 of Philadelphia and \$4,-711,000 of Boston. The average for June for the previous eight years is \$14,329,474.

These exceptional totals are principally due to the fact that several cities and States have made issues of bonds amounting in themselves to some millions. The present year, for instance, the cities of New York and Philadelphia and the State of Massachusetts alone put out bonds aggregating nearly ten millions of dollars. The sales of New York City and Philadelphia are particularly interesting. They both occurred on June 25 1900, and both were made at good figures. New York's \$3,135,000  $3\frac{1}{2}$  per cent gold stock was sold on a basis of about 3.04 per cent, and Philadelphia's \$5,800,000 3 per cent currency bonds brought a price netting only 2.99 per cent interest. The tax-exempt feature in these issues make them a desirable investment in the State wherein the city lies, but Philadelphia's sales are few and far between, the one last month being the first that has occurred for a year.

The number of municipalities placing bonds and the number of the separate issues for June 1900 are respectively 199 and 250, as against 174 and 213 for May 1900. In June 1899, however, the number of municipalities was 234 and the numer of issues 299.

In the following table we give the prices which were paid for June loans to the amount of \$18,439,545, issued by 171 municipalities. The aggregate of sales for which no price has been reported is \$1,180,281, and the total bond sales for the month \$19,619,826. In the case of each loan reference is made to the page of the CHRONICLE where a full account of sale is given.

\* Average of dates of maturity. † Subject to call in and after the earlier year and mature in the later year. ‡Not including \$3,785,325 of temporary loans reported and which do not belong in the list. ¶ Taken by sinking fund as an investment. § And other considerations.

Austin, Texas.—Bond Litigation.—Suit has been insti-tuted by Geo. H. Church, New York City, against the city of Austin to recover interest due January 1 and April 1 on 408 conpons of bonds known as the water-works and electric-light bonds. The city has defaulted in the payment of this interest. The bonds were issued to build the water-works and the river dam which were destroyed by floods some and the river dam, which were destroyed by floods some months ago; but default was made before the occurrence of the floods.

Interest Payment Authorized. - A special dispatch to the Dallas "News" dated June 5, 1900, stated that the City Council on June 4, 1900, passed ordinances appropriating money for the payment of overdue interest for the quar-ters ending January 1 and April 1, 1900, on the water and light bonds of Austin. Cincinnati, Ohio.—Decision in the Cincinnati Southern Case.—The "Cincinnati Tribune" on June 20, 1900, contained the following despatch from Columbus, dated June 19, 1900:

Mayor, taken to St. Louis, and there disposed of, and the money paid to parties who were not empowered to receive it. Not one dollar of it, he asserts, ever found its way into the hands of the City Treasurer. A suit was recently insti-tuted by J. H. Brown, proprietor of the American Hotel, to compel the city to accept a coupon from one of these bonds as payment for his city license. The Act authorizing these bonds, among other things, provided that the bonds and cou-pons "shall be receivable for all dues to said town." Upon the City Clerk refusing to accept the coupon, Mr. Brown applied for a writ of mandamus to compel the issnance of the license and to receive the coupon in payment therefor. Upon the hearing of the petition the Court held that license fees were not "dues" within the contemplation of the Act.

Galveston, Texas.—Bonds Valid-On June 14. 1900, the Court of Civil Appeals, First Supreme Judicial District, at Galveston, handed down an opinion in the case of Moller et al. vs. the city of Galveston holding valid the \$300,000 bonds proposed to be issued for sewer purposes. As stated in the CHRONICLE May 26, Judge Stewart, in the Tenth Dis-trict Court, ruled that only \$93,600 of these bonds were valid. The case was appealed, with the result that the entire issne is now declared valid. The case, it is reported, will be further appealed to the State Supreme Court for final judgment.

Illinois.-Interest Payments.-F. K. Whittemore, State Treasurer, gives notice that he will pay at the American Exchange National Bank, New York City, from July 1 to 20, 1900, inclusive, matured interest on Illinois registered municipal bonds and the principal of matured or called bonds, for which funds have been provided.

Indianapolis (Ind.) School District.—Bonds Valid.—On June 29, 1900, the State Supreme Court handed down a lengthy decision determining the validity of the \$100,000 31/2% funding bonds awarded to Rudolph Kleybolte & Co., Cincin-nati. on Jan. 31, 1900, at 105 101. The suit was instituted by Eddy Campbell and others, who contended that the indebtedness of the city and that of the school board should be added together in computing the 2% limit of indebtedness as provided for in the Constitution. In its decision the Court held that the school city and civil city are independent corporations and that each has authority to incur debts up to the constitutional limit of indebtedness of 2% of the taxable property.

Missouri.—Constitutional Amendments.—At the fall election this State will vote upon seven amendments to the State Constitution. Two of the amendments relate to the exposition to be held in St. Louis in 1903 to commemorate the onehundredth anniversary of the Louisiana purchase. One of these permits the city of St. Louis to issue \$5,000,000 bonds for such an exposition, and another authorizes the State Legislature to appropriate \$1,000,000 out of the sinking fund of the State for the purpose of making a State exhibit at the exposition.

Another amendment relates to the grand jury system; a fourth allows counties to levy a special tax of 15c. on the \$100 for road and bridge purposes, while another provides for the payment by a holder of a mortgage of a share of the taxes assessed against the mortgaged property. A majority of the votes cast at the election will be necessary for

the amendments to carry. Muscatine, Iowa.—Proposed Purchase of Water Plant.— The City Council has received an offer from the water company to sell the water plant to the city for \$100,000. The proposition will be submitted to a vote of the people.

New York City.-Tax Rolls.-On July 2, 1900, the Tax Commissioners transmitted to the Municipal Assembly the tax rolls for 1900. We give below the assessments of real and personal property by boroughs :

Boroughs.	Real Estate.	Personal Estate.	Total.
Manhattan	\$2,231,502,655	\$421,8°0,527 8.013,441	\$2,653,363,182 140,508,490
Brooklyp Queens	. 651,398,500 104,427,772	43,937,440 5,498,681	695,335,940 109,926,453
Richmond	42,723,924	6,264,204	48,988,128
Totals	.\$3,168,547,700	\$485,574,193	\$3,654,122,193

In 1899 the total for real estate was \$2,932,445,464 and for

personal \$545,906,565, a total of \$3,478,352,029. North Carolina.—Special Session of Legislature.—The State Legislature convened in special session on June 12, 1900, and after three days' work adjourned until July 24, 1900. The principal thing done was the passing of an amend-ment to the election law.

The Supreme Court this morning affirmed the Circuit Court of Hamilton County in the case of Cincinnati against Taft and others, trustees, known as the Cincinnati Southern case, and declares valid the original Act under which the trustees of the road derive their powers, as well as sixteen supplementary Acts. Under the decision of to-day the trustees of the road and the trustees of the sinking fund of the city may extend the bonds forty years beyond 1909.

See CHRONICLE, March 10, 1900; Dec. 2, Nov. 25, Sept. 9, July 29, July 22 and June 24, 1899.

Decatur. Ala.-Bond Litigation.-This city is in litigation over \$40,000 bonds issued some years ago for street improve-ments. Mr. A. A. Skiggs, Jr., Mayor, writes us that the city resists the payment of these bonds on the grounds that they were not sold in accordance with the Act authorizing their sale, nor was the money derived from the sale applied as intended. Mr. Skiggs states that the bonds were signed by the

Oklahoma City, Okla.—Proposed Purchase of Water Plant. —The Oklahoma Water Works Company has offered to sell its plant to the city for the sum of \$85,000, which sum is to cover all claims of the water company against the city, said to amount to about \$11,000. The proposition will be voted upon at an election to be held in July, at which time propo-sitions to build a city hall to cost \$50,000 and to expend \$22,-500 for sewer purposes will also be submitted to a vote.

Oregon.-Constitutional Amendments Defeated.-The sev-eral amendments to the State Constitution voted upon at the election held June 4, 1900, all failed to carry. One of these amendments related to the indebtedness of counties, cities, towns, school districts and other municipal corporations, and was given in the CHRONICLE Dec. 16, 1899; on this amend-

ment the vote was 16,147 for to 26,575 against. Sheboygan, Wis.—Proposed Purchase of Water Plant.— The Council has appointed two appraisers to estimate the value of the water plant owned by a private company, with the object in view of purchasing the plant by the city. It

will be two or three months before the city will be ready to issue bonds, even if they finally decide to buy the plant.

Table Rock (Neb.) School District.-Bonds Illegal.-Owing to certain irregularities, the courts have permanently enjoined the district from issuing the \$10,000 school-house bonds voted at the election held May 21, 1900.

Virginia.—Constitutional Convention.—The official returns published in local papers show that at the election held May 24, 1900, the proposition to hold a Constitutional Con-vention received 77,362 votes in favor of and 60,370 against the convention. Consequently the proposition carried.

### **Bond Calls and Redemptions.**

Brewster County, Texas.—Bonds Redeemed.—This county on June 5, 1900, redeemed \$5,000 court-house and jail bonds held by the school fund.

Des Moines, Iowa.—Bond Call.—H. F. Gross, City Treas-urer, called for payment June 12, 1900, bonds Nos. 111 to 115, inclusive, known as the "Renewed Funding bonds of 1888."

Fifth Louisiana Levee District.—Bond Call.—J. T. Mc-Clellan, President Board of Commissioners, called for pay-ment July 1, 1900, at the New Orleans National Bank, the following bonds: One-thousand-dollar bonds Nos. 1 to 100, inclusing and five hundred dollar bonds Nos. 1 to 500 in inclusive, and five hundred-dollar bonds Nos. 1 to 50, in-clusive, dated Feb. 1, 1888; also one-thousand-dollar bonds Nos. 101 to 140, inclusive, dated Oct. 25, 1888. Frederick County, Md.—Bond Call.—The County Com-missioners called for payment July 2, 1900, at the Citi-zens' National Bank of Frederick, 4% coupon bonds issued

under the Act of the General Assembly passed at the ses-sion of 1884, Chapter 494, and the 4% coupon bonds issued under the Act of the General Assembly passed at the session of 1886, Chapter 239, all of which bonds are now redeemable.

of 1886, Chapter 239, all of which bonds are now redeemable. Grundy County, Mo.—Bond Call.—M. W. Morris, County Treasurer, called for payment July 1, 1900, at the Na-tional Bank of Commerce, New York City, bonds Nos. 71 to 95, inclusive, dated July 2, 1888. Securities are in denom-ination of \$1,000 and carry interest at the rate of 5%. Manchester, Va.—Bond Call.—J. W. Bronaugh, Jr., City Treasurer, called for payment July 1, 1900, at his office or at the office of Thos. Branch & Co., 1101 East Main Street, Richmond, five hundred-dollar bonds Nos. 1 to 250, inclu-sive, dated Jan. 1, 1890, said bonds being subject to call after Jan. 1, 1900. See arrangements made for the sale of new 4½% 30-year refunding bonds mentioned June 16, 1900. new 41/2% 30 year refunding bonds mentioned June 16, 1900. Milwaukee, Wls.—Bond Call.—The Commissioners of the

Public Debt called for payment the following bonds:

General City Bonds of 1871-3-Nos. 161, 131, 209, 162, 224, 195, 76, 80, 8, 225, 83

General City Bonds of 1871-3—Nos. 161, 131, 209, 162, 224, 195, 76, 80, 3, 225, 83 122, of \$1,000 each. General City Bonds of 1885—Nos. 492, 411, 403, of \$1,000 each. General City Bonds of 1885—Nos. 605, 609, 611, 613, of \$1,000 each. Water Bonds of 1872, Registered—Nos. 1, 61, 43, 20, 15, of \$10,000 each; Nos. 191, 153, of \$5,000 each. Water Bonds of 1872-4—Nos. 125, 24, 59, 96, 57, 68, 26, 97, of \$1,000 each. Water Bonds of 1872-4—Nos. 204, 293, 393, 318, 271, 263, 396, 212, 213, 185, 294, 334, 3-7, or \$1,000 each. Water Bonds of 1887—Nos. 494, 412, 501, 518, 491, 438, 468, 486, 416, 415, 406, 443, 413, of \$1,000 each. Water Works Refunding Bonds of 1883—Nos. 57, 129, 65, 81, 29, 67, 76, of \$1,000 each. Bridge Bonds of 1883—Nos. 12, 49, 56, of \$1,000 each.

Interest on the above bonds will cease June 30, 1900. Ohio County, W. Va.—Bond Call.—H. P. McGregor, Presi-dent of Board of Commissioners, called for payment July 1, 1900, at the German Bank of Wheeling the following  $4\frac{1}{2}$ % 10-30-year (optional) bonds:

Nos. 2, 17, 29, 59, 60, 63, 64, 70, 86 and 91, in denomination of \$100. Nos. 105, 109, 150, 151, 181, 190, 194, 200, 203, 264, 265, 271, 287, 306, 317, 332, 337, 351, 357, 392, in denomination of \$200. Nos. 419, 420, 432 and 439, in denomination of \$1,000.

Oregon.-Warrant Call.-State Treasurer Chas. S. Moore has called for payment State warrants drawn on the general fund and endorsed "Presented and not paid for want of funds" prior to June 2, 1900, except those drawn for convey-ing insane for the years 1899 and 1900; also all warrants on the State scalp bounty fund presented prior to May 20,

on the State scalp bounty fund presented pror to May 20, 1899. Interest ceased June 2, 1900.
Pierce Township, Lawrence County, Mo.—Bond Call — Interest ceased on May 21, 1900, on 6% bond No. 107, dated March 1, 1887, and 5% bond No. 39, dated July 1, 1889.
Pike County, Mo.—Buffalo, Calumet, Cuivre and Peno Townships.—Bond Call.—The following township bonds

were called for payment June 15, 1900 :

Titusville, Pa.—Bond Call.—Jules A. C. Dunbar, City Comptroller, called for payment June 11, 1900, the following

Comptroller, called for payment June 11, 1900, the following bonds: City bonds Nos. 1372, 1373 and 1374, in denomina-tion of \$1,000, and No. 1310 for \$100; also water bonds Nos. 709, 712 and 713, in denomination of \$1,000. Wheeling, W. Va.—Bond Call.—The Commissioners of the "Loan of 1885" called for payment July 1, 1900, at the Bank of the Ohio Valley, Wheeling, bonds Nos. 34, 46 and 95, in denomination of \$500, and bonds Nos. 131, 133, 142, 184, 207, 221, 312, 313 and 328, in denomination of \$1,000 each. The Commissioners of "Main Street Bridge Loans" have called for payment on the same day at the same bank bonds Nos. 101 and 121, in denomination of \$500.

## Bond Proposals and Negotiations this

week have been as follows :

Abbeville, S. C.—Bond Offering.—Proposals will be re-ceived until Aug. 1 by Jas. Chalmers, City Clerk, for \$6,000 6% 20-year bonds. Securities are issued under authority of Section 275, Laws of 1900. The bonded debt of the city, in-cluding this issue, is \$46,000. The assessed valuation is \$800,000 and the actual value about \$1,000,000. The population is estimated at 3,600.

Algonac, Mich.—Bond Offering.—This town has voted to issue \$20,000 4% gold electric-light and water-works bonds. Proposals for these bonds will be received until 2 P. M., July 10, by Roy T. Gilbert, Village Clerk. They are in denomina-tion of \$1,000, dated July 1, 1900. Interest will be payable semi-annually. Principal will mature \$1,000 yearly from 1911 to 1930, inclusive. A certified check for \$500 must ac-company proposals. The village has no debt. The assessed

valuation is \$235,000 and the population about 1,300. Allegheny, Pa.—Bonds Proposed.—The City Councils are considering the issuance of \$993,000 bonds for various purposes.

Allerton (Iowa) Independent School District-Bond Offering.-Proposals will be received at any time by E. P. Phillips, Treasurer, for \$18,000 4% school-house bonds. Se-curities are in denomination of \$500. Interest will be pay-able semi-annually at the Bank of Allerton. Of the total amount, \$5,000 will be subject to call at any time and the remainder after five years. The assessed valuation in 1899 was \$133,502 and the real value about \$550,000.

Atlantic (Iowa) School District.—Bonds Defeated.—At the election held June 11 the proposition to issue \$14,000 school-house bonds was defeated by a vote of 593 to 259. Aurora, Ill.—Bonds Proposed.—The City Council is con-

sidering an ordinance providing for the issuance of \$8,000 5% 10-year water-extension bonds.

Barnwell (S. C.) School District.—Bond Sale.—On June 15 the \$5,000 5% 20 year bonds were awarded to F. M Stafford & Co., Chattanooga, at 101. This bid was the only one received. Bonds are dated May 1, 1900, and the interest will be payable annually.

Berkeley, Cal.-Bond Sale.- On June 27 the \$100,000 41/2% 1-40-year (serial) gold school bonds were awarded to the Oakland Bank of Savings at 106.956-an interest basis of about 4%. Following are the bids:

Oakland Bank of Savings......108'956 E. H. Rollins & Sons. Boston...105'80 N. W. Harris & Co., Chicago.....105'43 W. J. Hayes & Sons, Cleve.....\*1(4'16 Anson S. Blake.......104'10

\* No check enclosed with bid

Blds for these bonds were received on June 25. For full description of bonds see CHRONICLE June 2, p. 1112.

Bernalillo County (N. Mex.) School District of Precinct No. 51.—Bona Offering.—J. L. Perea, County Treasurer, will sell on July 14 an issue of \$1,200 6% bonds of this district. Securities are in denomination of \$100.

Bexar County, Texas.—Bonds Approved.—The Attorney-General has approved an issue of \$50,000 refunding bridge bonds.

Boise City School District No. 30, Ada County, Idaho.— Bond Offering.—Proposals will be received until 12 M., July 18, by Henry S. Dorman, Clerk, for \$5,000 6% gold bonds. Securities are in denomination of \$500. Interest will be pay-able annually on July 1 at the office of the County Treasurer. Securities will mature in five years, subject to call, \$1,000 yearly after two years. A certified check for 5% of the amount of the bonds bid for must accompany proposals.

Buffalo Township 5% bonds, dated Jan. 1, 1889, Nos. 30 to 37. Inclusive, each 10

Calumet Township 5% bonds, dated Jan. 1, 1889, Nos. 48 to 45, inclusive, each

Tor \$500. Cuivre Township 5% bonds, dated Oct. 1, 1887, Nos. 71, 73 and 75, each for \$1,000.

Peno Township 5% bond No. 32, dated Nov. 1, 1887, for \$1,000.

Pittsburg (Pa.), Minersville Sub-School District.-Bond Call.—The board of directors, J. J. Tobin, Secretary, called for payment July 1, 1900, at the Lincoln National Bank, Pittsburg, bonds Nos. 1 to 89, inclusive, in denomination of \$500 and dated July 1, 1890. Also bonds Nos. 28 to 40 and 52 to 57, inclusive, all in denomination of \$500, and dated Oct. 1, 1884.
