## THE FINANCIAL SITUATION.

There are quite a number of men to-day in doubt with respect to the person for whom they will vote at the coming election; there are more who feel indifferent over the result; and there are more still who express uncertainty as to casting any vote for President in November. All of these classes base or justify their intended action or non-action either on the claim that Mr. McKinley is certain to be elected and that a vote more or less is of no consequence, or that if Mr . Bryan should be elected he would be unable to do any harm to our currency situation, as the Senate will continue to have a Republican majority and the House probably likewise. Neither of these assumptions as to the future character of the Senate or of the House on the silver question is by any means certain. Nor is any other assumption justified that belittles the character of the present silver issue. If Mr. McKinley should fail of election, both Congressional bodies are likely to be lost with him; moreover, if they continued Republican in name by a small majority, there would be enough of the members from silver States, or from silver-loving constituencies, to turn all branches of the Government over to that party on that question. This outcome, according to our best judgment, is probable. Moreover, granting Bryan to be elected, that result, in addition to the distrust it would cause among the more intelligent classes, would undoubtedly create accessions to the Bryan ranks by unsettling the views of the big crowd of people not of strong convictions who naturally flock around an intense leader and change their views to suit the ideas of an aggressive official who has favors to bestow. In brief, is it too much to say that any gold man of 1896 who thinks this silver crusade is to die out-after having received such a life-giving impulse as it would unquestionably receive by the election of Bryan-must have his men tal vision clouded?

We do not want to exaggerate the seriousness of the issue our people are about to face. But to us the occasion seems critical, in some respects more critical than any occasion heretofore passed in the country's movement towards currency stability. One reason why this is so. is because no one knows the number of individuals in the Republican Party who are disaffected. It is claimed to be large onough in the East to elect Bryan. We do not believe that statement is correct, and we are quite sure the larger portion of gold Democrats will vote as theyldid four years ago. Holding these views, we have on previous occasions expressed the opinion that Bryan would be defeated by a greater electoral vote than he was in 1896. Until, however, the votes have been counted, there must be of course uncertainty as to the result, and this feeling of uncertainty is by no means lessened by the loud claims made by some of the disaffected. Admitting then a doubt to exist, all the risk which has been suggested above hangs upon the election. A further reason why we consider the occasion especially critical is because a step backward in any reform movement is always doubly dangerous. It is not unlike an added costliness to the army that has gained the height only to suffer a disorderly retreat in the face of the onemy. Similarly, our people have struggled for every reform under ropeated discouragements through years of
effort until finally they attained what they hoped was complete success. Not only that, they have begun to reap the fruits, and the harvest is proving a bountiful one. $\Lambda$ t such a point the cry is raised-retreat! It is raised, too, by a number of leading men among those who thought currency stability the vital issue four years ago. Does not this situation become critical if the public is to follow such leaders? How and where shall we stop the retrograde movement when once under way?
In judging of the effect on industrial affairs of a triumph of Bryan, it should be remembered that any state of facts or any conditions that excited a fear as to the stability of the currency would be all sufficient to bring in another era of general distrust and business prostration. With that thought in mind, imagine Mr. Bryan elected President. Let us assume that our industries and currency standard survive the shock of his election. No one doubts his devotion to silver. No one doubts that in every way he could he would make his influence felt in endeavors to embarrass the gold standard and to advance silver. Besides doing this in smaller ways, an effort to secure free coinage would be at once made, and, if unsuccessful at first, it would be pursued unceasingly until secured or until his administration terminated. There is every reason to suppose that he would use the whole power of the Government offices and money-so far as he legitimately could-to carry his scheme through. The silver States would also be united in encouraging this endeavor and would no doubt find ways to bring every one of their representatives into line and to raise additional supplies of money for all needed purposes. While these movements were being agitated and in progress, what chance would there be, whether for the time being successful or unsuccessful, for the development of business interests? We do not overstate the case when we eay that, instead of confidence, apprehension would of necessity pervade financial circles, and that the status of affairs which existed in 1893, 1894 and 1895 would be in large part repeated. In one leading feature the experience would be decidedly worse. During those years the country had President Cleveland's "genuine, solid, old Teutonic pluck" against the majority of his party devoted to the preservation of our standard of values. In the case proposed, Bryan is President, a man who hates gold, loves silver, and whose every effort would be to hasten the substitution of the idol he worships and to put in action the fundamental plank in his creed.

Affairs in China have been a leading influence in Wall Street this week. They wear a much more hopeful aspect to day than they did a week ago or even than they did the early part of the current week. Indeed, the news published here Monday was extremely discouraging. The very worst results the most pessimistic fear had suggested seemed then to have been realized. Every foreigner in Pekin it was reported had been killed, men, women and children, after prolonged and desperate fighting. The same day nows came that the allied Powers had suffered a severe repulse at Tien Tsin. Wednesday all this was changed; the Chinese Minister at Washington called on the Secretary of State and gave him a copy of a cable dispatch stating that the Ministers at Pekin were safe on July 9. Furthermoro, the report
was received at the Navy Department from Admiral Remey stating that the native city of Tien Tsin had been captured by the Allies after heavy fighting. Later the reports, however, again became of a mixed character. Accept Thursday and Friday mornings' accounts in full and one would have to return to the belief that all foreigners in Pekin had been massacred; that the Boxer movement had been a long time preparing; that evidences of a thorough organization and of its wide extent are augmenting daily, and that a war of very large proportions between China and the civilized Powers is the present prospect. Apparently these reports have been wholly discredited and indeed disproved by a dispatch received by the Government at Washington, and made public yesterday (Friday) noon, from Minister Conger at Pekin under a date not definitely fixed but supposed to be July 18. The dispatch reads: "In British Legation under continued shot and shell from Chinese troops. Quick release only can prevent general massacre." This appears to give assurance that all the foreign Ministers were alive at the date named. Does not the fact that the Chinese Government has allowed the dispatch to go through also leave the inference that Pekin is in control of a mob and that the Government desires the help of the Allies to release the Ministers?

As expected, the Illinois Central Railroad has this week increased its semi-annual dividend from $2 \frac{1}{2}$ per cent to 3 per cent, placing the stock on a 6 per cent basis. The share capital of the Illinois Central is $\$ 60,000,000$, and the additional one per cent will increase the yearly requirements for dividends by $\$ 600,000$. The earnings of the company are on a scale amply sufficient to provide the added sum and leave besides a handsome surplus. A preliminary income account has been furnished for the twelve months ending June 30, 1900, which shows $\$ 5,400,000$ available for dividends for the year. The dividends to come out of the earnings of the twelve months aggregate $5 \frac{1}{2}$ per cent (namely, the $2 \frac{1}{2}$ per cent paid last February and the 3 per cent now declared payable in August), calling for $\$ 3,300,000$. Hence a surplus of $\$ 2,100,000$ will remain on the year's operations over and above all charges and the $5 \frac{1}{2}$ per cent dividends. The call for dividends at the full 6 per cent would be $\$ 3,600,000$ instead of the $\$ 3.300,000$ actually taken out, but even on that basis the surplus for the twelve months, it will be observed, would be $\$ 1,800,000$. The management of the company has for years been pursuing a farsighted policy, and an increase in the rate of return to the shareholders has been simply a matter of time. Not only has the business of the system been enormously extended, but the property has been placed in condition to handle it with increased economy. Aside from the new facilities and additions provided through capital expenditures, the company has each year recently been contributing large sums out of earnings for improvements and betterments. In 1898.9 the special contribution amounted to $\$ 1,475,040$; in 1897.8 no less than $\$ 1,726,451$ was taken out of earnings to provide for betterments, antomatic couplers and air brakes, and for an addition to the Insurance Fund; in 1896. 7 the contribution was $\$ 150,000$ and in 1895.6 it was $\$ 422,500$. Hence we have a total appropriation from earnings for the four years of $\$ 3, \% 773,991$, not counting the amount
that may be set aside for the same purpose out of the earnings of the year which has just closed.

Another obnoxious State onactment directed against the railroads has this week received a blow at the hands of the Fedoral courts. The McChord Railroad law of Kentucky, which was passed at the last session of the Legislature, and which was intended to give the Railroad Commission of that State practically arbitrary control of freight rates, has been declared unconstitutional by Judge Walter Erans of the United`States District Court. Judge Evans says that viewing the Act as a whole and considering the only modes by which it can be put in operation, he is of the opinion that these modes are not due process of law, and that its enforcement would deprive the roads of the Constitutional guaranty of their rights secured by the Fourteenth Amendment. The Court, he states, is always reluctant to interfere with the exercise by any State officer of his official functions, but in the most eminent degree the safety of the property and the rights of the citizens of the community depen! ! upon the supremacy of the Constitution. The value of these safeguards, he pointedly remarks, is not diminished because individuals associate as a body corporate. They are citizens none the less, and the Court must not shrink in clear cases from discharging its plain duty to uphold the dominant authority. If the Act under consideraation only empowered the Railroad Commission to fix rates generally, and for all alike, which would be a mere administrative work, the Court would not interfere until that power had been exercised and the propriety of the result called in question. Under the law, however, not only may a rate in a single instance be fixed by a process plainly unconstitutional, but the most serious, not to say excessive, punitive consequences may be visited, not only npon the railroad, but also upon the individual citizen whom it may employ. Accordingly the temporary injunction previously granted is made permanent.

Gold exports have this week become a feature again, $\$ 2,029,543$ having been sent on Thursday to France. To what extent the movement will be continued is somewhat uncertain. As the outflow has begun on this occasion so late as the third week of July, we should assume that if the movement was under the control of the regular old-time influences that it would be a very short affair, since the new crop of cotton begins to come in the last half of August. There must, consequently, soon be plenty of bills on the market to supply the ordinary demand for exchange. But the gold shipments to Europe seem to have been a special movement of late. This week's outflow is the fourth time that exports of gold to En. rope have been begun after a more or less lengthened intermission. 'I'he year opened with such an outflow in progress, but it continued only about ten days, and during those days aggregated less than $\$ 5,000,000$. The last week of April shipments began again and continued to the last week of May, reaching on that occasion about $\$ 10,500,000$, all of which was sent to France. In the second week of June the exports were once more resumed, but were continued only that and the succeeding week, the gold going in part to France and somewhat more than half to Germanys the total in both directions aggregating $\$ 7,626,414$. The move-
ment which began the current week promises to be more of a feature the coming week.

The sharp advance in the Bank of England minimum rate of discount from 3 to 4 per cent, announced on Thursday, was unexpected. The low condition of the Bank reserve and the drain of gold from the Bank and from the open market to Paris, which were among the important occurrences last week, seemed clearly to foreshadow an early advance in the Bank minimum for the protection of its stock of gold. It was not ex. pected, however, that the advance would be more than one-half of 1 per cent, and therefore when the rise from 3 to 4 per cent was announced, it was re. garded as probable that this drastic measure was due to the new phase of the Chinese situation caused by the rumors that Russia had taken the initiative in declaring war gainst certain northern provinces of the Chinese Empire, which, if it had been true, would have, to some extent, complicated the Far Eastern situation. There was, however, a speedy denial of the rumor; besides, there was no response at the Continental centres to this action by the Bank of England and official rates of discount at Paris and at Berlin remained unchanged, while there was scarcely a perceptible hardening in the open market rates at these centres. The state. ment of the New York Associated Banks last week showed an increase in the surplus reserve of $\$ 4,3 \% 0$,925 , the total surplus now standing at $\$ 19,960,125$. The Treasury operations this week have been influenced by payments by the depositary banks of part of the $\$ 5,000,000$ public deposits which were called for surrender July 16. It is reported from Washington that no further calls will be made upon the depositary banks, for the reason that the cash is accumulating to such an extent that the money which will be required to pay for the remainder of the old 2 per cent bonds will be drawn from the Treasury, leaving the deposits in the banks undisturbed. It was announced on Thursday that arrangements had been made for the payment at the Sub-Treas. uries at Chicago and at New York of drafts drawn by the superintendents of the assay offices at Seattle, Wash., and San Francisco, Cal., for bullion deposited therein. This will be a great convenience to agencies of Canadian banks which are now receiving consignments of bullion from the Yukon and also to American miners who are operating in Alaska. The proceeds of the bullion deposited at the Pacific Coast assay offices can now be promptly transferred to the Hast through assay office checks. The agents in this city of the Bank of British North America have this week received about $\$ 2,000,000$ of the $\$ 2,500,000$ re. ported last week as having been deposited at Seattle and at San Francisco for their account. The agents in this city of the Canadian Bank of Commerce have received $\$ 1,500,000$ of the money which they last week had in transit from California in the form of drafts. The applications re. ceived at the Treasury for the exchange of fundable bonds for the new 2 per cents amounted at the close of business on Thursday to $\$ 316,061,900$.

Money on call, representing bankers' balances, has loaned during the week at the Stock Exchange at $1 \frac{1}{2}$ per cent and at 1 per cent, averaging about $1 \frac{3}{8}$ per cent. On Monday loans were made at $1 \frac{1}{2}$ per cent and at $1 \frac{1}{4}$ per cent, with the bulk of the business at $1 \frac{1}{2}$ per cent.

On Tuesday transactions were at $1 \frac{1}{2}$ per cent and at 1 per cent, with the majority at $I \frac{1}{4}$ per cent. On Wednesday, Thursday and Friday loans were at $1 \frac{1}{2}$ per cent and at $1 \frac{1}{4}$ per cent, with the balk of the business at $1 \frac{1}{2}$ per cent. Banks and trust companies quote $1 \frac{1}{2}$ per cent as the minimum. Time loans, especially for long dates, are somewhat firmer than they were last week. The banks quote $4 @ 4 \frac{1}{2}$ per cent for four, five and six months' loans on good mixed Stock Exchange collateral, and they report a good demand at these rates. No quotations are given by these institutions for sixty-day loans, but some contracts have been made at 3 per cent for ninety days. Brokers report that good houses seem to be well supplied with time loans which will mature after the election and early in the new year and hence the demand is only moderate. They quote 3 per cent for sixty days, $3 \frac{1}{2}$ per cent for ninety days, $3 \frac{3}{4}$ per cent for four months and $4 @ 4 \frac{1}{2}$ per cent for five to six months on good mixed collateral. Commercial paper is moving slowly and the supply appears to be equal to the demand. The city banks, as a rule, are not buying paper, and the sales which are made are to other institutions and to banks at the East. Rates are 4 per cent for sixty to ninety-day endorsed bills receivable, with some sales of exceptionally good paper at $3 \frac{1}{2}$ per cent. The quotation for prime four to six months single names is $4 \frac{1}{4} @ 4 \frac{3}{4}$ per cent and for good paper having those periods to run $5 @ 5 \frac{1}{2}$ per cent.

The news from South Africa indicates that the Boers are actively operating on the flanks of General Roberts's forces, causing considerable annojance and inflicting more or less serious losses. The Bank of England minimum rate of discount, as already stated, was advanced on Thursday from 3 per cent, at which it had stood since June 14, to 4 per cent. The cable reports discounts of sixty to ninety day bank bills in London 4 per cent, against $3 @ 3 \frac{1}{4}$ per cent on Wednesday. The open market rate at Paris is $2 \frac{7}{8}$ per cent; at Berlin it is 4 per cent and at Frankfort4@41 from London the Bank of England lost $£ 1 \% 6,669$ bullion during the week and held $£ 31,488,375$ at the close of the week. Our correspondent further advises us that the loss was due to exports of $£ 315$,000 (of which $£ 2 \% 6,000$ were to France, $£ 20,000$ to Roumania, $£ 12,000$ to Portugal and $£ 4,000$ to China) and to $£ 138,000$ net receipts from the interior of Great Britain.

The foreign exchange market has been directly influenced this week by the monetary situation in Lon. don. Indeed, this influence was felt on Saturday of last week, when the nominal rate for sight sterling was advanced by Brown Bros to 488 and then there were rather free offerings, for the last day of the weok, of sixty-day bankers' bills in anticipation of higher discounts in the coming week. On Monday sight sterling and.cables were firmer, and on Wednesday engagements were made of $\$ 2,029,54355$ in gold bars for shipment on the following day to Paris. The amounts taken were $\$ 1,004,057$ 17 by Lazard Freres, $\$ 500,62880$ by Heidelbach, Ickelheimer \& Co. and $\$ 524,85758$ by Goldman, Sachs \& Co.

On the announcement of the advance in the Bank of England minimum rate of discount Brown Bros., the Bank of British North America and Heidelbach,

Iehelkeimer \＆Co．reduced their nominal rates for long sterling half a cent，and the tone of these bills grew heavy，while that for sight and for cables be－ came firmer．The irregular tone for the market con－ tinued thereafter．The shippers of the gold which went forward on Thursday state that the export wäs made as a direct exchange operation and that it was not influenced by advances by the Bank of France， that institution having ceased to offer such induce－ ments for shipments．Some of the gold was drawn against with francs，but the greater part of the consignment is understood to have been made against sterling．Bankers report an un－ asally good supply of cotton bills against spot movements of the staple，and also fairly liberal offerings of commercial drafts against exports of pro－ visions，some grain and manufactures．One notice－ able feature is that there are no offerings or sales of futures against cotton or grain．The Director of the Mint is advised from San Francisco that the consign－ ment of $\$ 2,500,000$ gold from Australia，now in trans－ it，which，it may be noted，was announced in this column last week，will be followed by three additional shipments，at intervals of one month，of similar amounts，making altogether about $\$ 10,000,000$ ．This gold，on its arrival，will be paid for with drafts on the Treasury．Gold received at the New York Custom House during the week，$\$ 24,610$ ．The Assay Office paid $\$ 738,15374$ for domestic gold．
Nominal rates for exchange were 485 for sixty－day and $487 \frac{1}{2} @ 488$ for sight until Thursday，when the range was from $484 \frac{1}{2}$ to 485 for long，while short was uniformly quoted at 488 ．Rates for actual business opened on Monday unchanged for long，compared with those at the close on Friday of last week，at $484 @ 484 \frac{1}{4}$ ．There was，however，an advance of one－quarter of a cent for short and for cables，to $487 \times$ $487 \frac{1}{4}$ for the former and to $487 \frac{1}{2} @ 4873$ for the latter．The tone was easy for long and strong for short and for cables，and it so continued，without change in rates，until Thursday．Then，on the an－ nouncement of the advance in the Bunk of England rate to 4 per cent，the quotation for long fell one－ quarter of a cent，to 483 腬＠4 44 ，while sight sterling and cables advanced one－quarter of a cent，to 487 ㄴ（0） $487 \frac{1}{2}$ for the former and $487 \frac{3}{4} @ 488$ for the latter． The market was easy for long and strong for short and for cables，and it so continued on Friday，when there was a further advance in short and in cables． The following shows daily posted rates for exchange by some of the leading drawers．

＋The Anstro－Hungarian Bank Etatement is now issned in Kronen and Eel－ ler Instead of Gulden and Kreatzer．The reduction of the former carrenoy to sterling $£$ was $\bar{Y}$ considering the Gulden to have the valne of 50 cents．As the Krone has really no greater value than 20 cents，our cable correspondent in London，in order to reduce Kronen to $£_{\text {．has altered the basis of conversion by }}$ dividing the amount of Kronen by 24 instead of 20.
＊The division（between gold and sllver）given in our table of coin and bullion in the Bank of Germany and the Bank of Beigium is made trom the best estinaate we are able to obtain；in neither case is it claimed to be accurate，as those hanks make no distinotion in their weekly returns，merely reporting the total gold and sllver，but we bolleve the division we make is a close approximation．
Note．－We recelve the foregolng results weetry by oable，and whlle not all of the date given at the head of the oolumn，they are the r＇eturns issued nearest to that date－that is the latest reported flgures

## THE THIRD TICKET．

We have hesitated in taking positive ground regard－ ing the movement described as the anti－imperialist campaign，because we have not yet felt that the plans and purposes of the movement had fully defined themselves．In so far as the movement has simply embodied opposition to extravagant theories some－ times expressed regarding colonial expansion，or to the notion of a military career as the highest glory of a nation，we have been heartily in sympathy with it． We do not in the least doubt that the so－called＇anti－ imperialist＂movement has already accomplished much in checking the tendency，always present after a suc－ cessful war，to incite the public to further efforts along the line of foreign acquisition．It has been our belief that the common sense of the American people was too strong to allow them to chase after the will－0＇－the－ wisp which has beguiled more than one foreign State －which led France into Tonquin and Italy into Abyssinia，when it was hardly possible that in either case the benefit，commercial or political，would ever balance the cost of the andertaking．Yet every one who has thoughtfully studied either ancient or modern history is aware how suddenly，by the impulse of a moment，the purposes and principles of a nation may be changed，and how completely．It is not impossible that a serious danger of this sort may really have threatened the United States in the
excitement of its arrival in its new place among the Powers. If so, the stabborn and radical opposition of the anti-imperialists has played an important part in keeping the people in their senses. It is at least conceivable that another lapse from sound judgment and cautious action may be threatened by happenings yet to come. In such event, the resolute protest of a small but determined body of thinking men will be of the highest service in restraining popular opinion. We should, indeed, have regarded the situation with great misgiving had there been no concerted opposition to block the way to such dangerous excesses. For it must be remembered, even by thosejwho believe the views of the "anti-imperialist" to be extremeand his fears to be exaggerated, that there are extremists on the other side as well, and that the extremist is most dangerous when the majority leans in his direction.
But the formation of a conservative party on this question is one thing, and its formal entry into the arena of Presidential politics is another. "Third parties" have chosen and voted for Presidential candidates, it is true, when they owed their origin to a single issue, and that not the issue which the voters had most at heart. There have been independent nominations in Presidential years, on platforms ranging all the way from the abolition of slavery and the extension of paper money issues, to prohibition of liquor traffic, compulsory arbitration of labor disputes and female suffrage. Sometimes-as in the case of the abolition movement-the third party has managed to impress its policies powerfully on one of the two great parties of the State. But with one exception-that of the People's Party in 1892, whose million votes were attained by a fanatical movement against the conservative element in both the larger parties-the vote for the independent ticket has been quite insignificant. Perhaps the strongest illustration of the working of this principle was witnessed in the Gold Democratic campaign of 1896, when a platform embodying, as the event has proved, the real wishes of the majority, and with candidates of unquestioned excellence, polled only 134,645 votes in the United States.
The campaign of the Gold Democrats, however, has never been looked upon as a failure, and for the reason that it served at least to bring about the decision in favor of honest money. The problem at issue was very simple, and the work of the third party helped to define it. The problem of 1900 is very far from simple. It embraces, for one thing, all the issues at stake in 1896, with the Chicago platform of that year boldly reiterated. Yet the party which pronounces thus for a false and dangerons system of finance is the very party which makes positive objection to the expansion policy. It is therefore necessary at the outset, as even the organizers of the third party are aware, to consider how far a third ticket, formally placed in nomination, would affect the result as regards not only the "anti-imper. ialist" plank, but the other important issues of the canvass. That an independent ticket would draw to itself enough votes to bring its own candidates into office is, in the light of our political history, quite impossible. That it might indirectly influence the re sult, however, is proved by the experience of four years ago; and a third party which can influenco pluralities may conceivably control them. But it can serve this purpose only by emphasizing, through its own work
with the public, the best part of the platform of one of the two parties which will certainly win at the polls, or by so pointing out the evils in the other platform as to aid in its defeat.
If we can take as a forecast of the independent Presidential platform the declaration of the third party conference at the Plaza Hotel last Wednesday, its attitude would be purely one of negation. Directly, the independents could help neither party. The New York declaration opposes President McKinley's policy with Spain and with the Philippines, and declares that a vote for him "will be counted as a vote for imperialism." But on the other hand it describes the opposing candidate as " $\beta_{\text {a man }}$ mallucinations or a demagogue-in either event, a dangerous man," and characterizes a vote for him as " $a$ vote for free silver; $a$ still further debauching of the civil service; a packing of the Supreme Court by men to be governed by the will of the Executive." Apparently, therefore, the only practical effect of such a canvass would be to draw away voters from both parties. It is at least conceivable that enough votes might be diverted from either party to insure its defeat, and it is not by any means clear at the moment which of the two great parties would suffer most from the process. That both could or would be overthrown by it is out of the question. That Mr. Bryan's chances would be favored by the independent canvass, under existing conditions, is at least assumed by Mr. Bryan himself and his associates. The plain question to consider, then, is whether the effective rebuking of what is considered a dangerous expansion policy would compensate, in an imagined emergency, for the throwing over of the balance in favor of a party which this week's independent manifesto itself describes as "disorganized fanaticism."

We cannot believe that even in the eyes of the strongest anti-imperialist the gain in such a case would outweigh the loss. It seems to us that the attitude of the Administration on the expansion issue is not only one which was forced on it by circumstances, but. is one which has been restrained and modified by the force of intelligent public opinion. We can hardly, therefore, share the apprehension of the third party advocates that the country stands in imminent peril of reckless and irrevocable action in this regard. On the other hand, the attitude of the Kansas City nominee has not only not been modified by conservative opinion, but was fixed, so far as the silver question is concerned, in open disregard of the protests of a sober-minded majority even in his own party. Mr. McKinley's policy regarding our foreign acquisitions is tentative, and will neces. sarily be brought to its final shape in the light of intelligent criticism. Mr. Bryan's policy regarding the currency is outlined in a a distinct and formal pledge to upset the existing order at the earliest opportunity, and the fact that the candidate staked his personal fortunes on the adoption of such a plank gives some hint at the full extent of his fanaticism. In the light of such a situation it seems to us that a conservative third party ought to move very carefully in gielding to the temptation for an independent canvass. We are glad to say, from our personal knowledge of the facts, that the risks which would be run in this direction, through the formal entry of the anti-imperialists into the campaign, is receiving full and serious consideration from some of the guiding spirits in the movement.

## BREADSTUFFS EYPORTS FOR THE FISCAL

 YEAR.Mr. O. P. Austin, the Chief of the Bureau of Statistics at Washington, has this week issued the flgures of the country's foreign trade for the fiscal year ending June 30 last. The results are in many respects remarkable, hardly less so than those for the years immediately preceding. We shall, however, defer our review of them until next week, in order to permit a more comprehensive and detailed analysis. We shall confine ourselves to-day to an examination of one important branch of the export trade, namely the breadstuffs shipments.
The breadstuffs figures possess especial interest just now in view of the fact that it is pretty well estab. lished that the drought in the Northwest the present season has materially impaired the prospects for the spring-wheat crop. Just how much the shortage will be cannot be stated with any definiteness yet. Accounts recently have been more encouraging, the reports being that late rains have proved much more beneficial in reviving apparently dead plants than had been thought possible. As we have stated on previous occasions, whatever the shortage in the spring-wheat yield, a considerable portion of the loss will be made good by an augmented production of winter wheat, for which conditions have been much better than a year ago. It is possible that the combined crop will be only 20 to 30 million bushels smaller than the aggregate crop for 1899, which was estimated at $54 \%$ million bushels.
Of course, the matter of left-over supplies is an important element in the problem. One would be inclined to think that these left-over supplies now must be very much less than twelve months ago, seeing that the 1899 crop of wheat, as already stated, was 547 million bushels, while that for 1898 had been of phenomenal extent and amounted to 675 million bushels. The difference, however, in that regard is comparatively small, if the figures of the Agricultural Bureau can be relied upon. The Bureau recently estimated the amount of wheat remaining in the hands of farmers on July 11900 at $51,000,000$ bushels. The similar estimato for July 11899 was $64,000,000$ bushels. The decrease is thus only 13,000,000 bushels. On the other hand, the visible supply of grain at the principal points of accumulation was on June 30 1900, according to the weekly statement of the New York Produce Exchange, nearly $13,000,000$ bushels larger than twelve months ago.

We cite these facts to show that despite the damage done to the spring. Wheat crop there is a possibility that our breadstuffs exports during the current fiscal year may not fall greatly behind those for the year just closed, especially considering the higher prices now raling. Of course this statement is based on the supposition that the corn crop, which forms an important item in the breadstuffs shipments, will not also be curtailed.

What, then, was the value of the breadstuffs exports in 1899-1900, and how does the amount compare with other recent years? It will perhaps be a surprise to hear that, notwithstanding the wheat crop of 1899 fell so much below the phenomenal crop of 1898 , the value of the breadstuffs shipments for 1899-1900 came with. in $\$ 11,700,000$ of the total for 1898.99 . Of course this total for 1898.99 was itself 60 million dollars below the total for 189\%.98, but that is not an entirely
fair comparison and hardly signifies much, since, as we showed in our review for the previous year, the 1897-98 total was a wholly exceptional one. Roughly, the breadstuffs export values were 262 million dollars in the late year, 274 million dollars in the previous year and 334 million dollars the year before. We have, however, only to compare the 262 millions for 1899. 1900 with the 197 millions for $1896-9 \%$, the 141 millions for $1895-96$ and the 114 millions for 1894.95 to see that the total was a large one and far above the average. In the following we give the record for many years past.
values of exports.

| Fiscal Year ended June 30. | Wheat. | Wheat | Total <br> Wheat \& Flour. | Corn. | $\begin{aligned} & \text { Tot. Wheat } \\ & \text { Corn } \\ & \text { \& Flour. } \end{aligned}$ | Total all Br'dstufs. |

It will be observed from this table that while the decrease in total breadstuffs exports in the late year as compared with $1898-9$ was less than $\$ 11,700,000$, in the wheat and flour exports the loss was really almost $37 \frac{1}{2}$ million dollars. It follows that this latter loss was in part offset by an increase in the other items of the breadstuffs exports. The table shows that over 16 million dollars of such increase was contributed by the corn movement. The rest of the increase came from the minor cereals. It is only proper to say, however, that in the case of these minor cereals the movement has been quite irregular. For instance, in the rye exports there was a further shrinkage, they being valued at but $\$ 1,442,000$ for the late 12 months, against $\$ 5,-$ 936,078 for the 12 months preceding, the shipments being $2,372,000$ bushels, against $10,140,876$ bushels. On the other hand, we exported $23,700,000$ bushels of barley in 1899-1900, against only 2,267,400 bushels the previous year; which, at the average price of $47 \frac{3}{5}$ cents, against $60 \frac{5}{8}$ cents in 1898-9, produced a total of $\$ 11$,228,000 , against but $\$ 1,375,275$ in 1898-9-a gain in that item of almost 10 million dollars. In oats, too, the shipments were much larger, $41,410,000$ bushels being sent out, against only $30,309,680$ bushels, and the values being $\$ 12,530,000$, against $\$ 9,787,540$; the average price obtained was $303-16$ cents per bushel, against 329.32 cents.

In the case of corn, as it happens, not only was there an increase in the quantity exported, but the price obtained was also better, it having averaged $40 . \%$ cents per bushel. We shipped, altogether, about $209,000,000$ bashels of that cereal, at which figure the total exceeds that of all other years, even running slightly ahead of the marvelous total of 208,744,939 bushels for 1897.8. Of wheat and flour the exports
were, roughly, $182 \frac{1}{2}$ million bushels, against $222 \frac{5}{8} \mathrm{~m}$ illion bushels in $1898-9$ and $217 \frac{1}{3}$ million bushels in 1897-8. Prices, however, were lower. Here are the details.

The feature which the foregoing emphasizes is that, except in a year of complete failure of the wheat crop, and a coincident small foreign demand, the general result as to the breadstuffs exports is quite as much dependent upon the movement of corn and the minor cereals as upon wheat.

## the foreign trade policy of the BRITISH EMPIRE-THE MANCHESTER COTTON. GOODS MARKET-THE BRITISH COAL, IRON AND STEEL MARKETS AND AMERICAN COMPETITION.*

Manchester, July 7, 1900.
A highly significant feature of the Congress of Chambers of Commerce of the Empire, held in London last week, was the great deference paid to the views and desires of the colonial representatives, of those from Canada especially. Their influence was particularly conspicuous in the discussions upon the two questions which were most warmly debated-the commercial relations between the mother country and her colonies and dependencies, and the treatment of foreign sugar export bounties. It is not difficult to account for this special regard. The sentiment of unity throughout the empire which has been growing visibly during the last three or four years has been immensely strengthened by the cordiality and enthusiasm with which the colonies have contributed of their own accord, in men and means, toward the prosecution of the war in South Africs. Not only, therefore, were the delegates from a distance received with greath warmth, their proposals were also treated with much tendorness and consideration, even when they were in themselves radically opposed to the con. victions of a majority of the Congress.
Upon the first-named of these subjects-tho commercial relations of the mothor country and her colonies-not fewor than five resolutions stood on the agenda to be proposed by as many Canadian Chambers. Their main features were of very much tho same complexion, and it was agreed to take the motion of the

[^1]Toronto Board of Trade as an expression of Canadian opinion generally. It advocated "the adoption of a commercial policy based upon the principle of mutual benefit, whereby each component part of the empire would receive a sabstantial advantage in trade as the result of its pational relationship." It was quite clearly understood, both by the adrocates and the opponents of the motion that the "substantial advantage" was to consist of a aniform addition to the import duties in every section of the empire upon all competing foreign products. An amendment, submitted by the Manchester Chamber, ran: "This Congress, rejoicing in the growing evidences of unity between the colonies and the mother country, and recognizing the material and political advantages of the largest possible exchange of commodities between the various portions of the empire, is of opinion that all measures for the promotion of this end should respect the liberty of each portion to parchase in the cheapest market wherever it may exist."
The debate npon these motions was animated and instructive. The Canadian speakers were all in favor of the one from Toronto, but it received no support from the Australians and only sympathetic expressions of qualified approval from one or two English and one South African delegate. There was, however, a rather strong desire, especially on the part of the Australians, that the Canadian proposal should not encounter the adverse fate which seemed to be impending, if it had been put to the vote, and a committee consisting chiefly of the Canadian and the Manchester representatives was appointed to draft a motion in favor of referring the whole question of interimperial trade to a Royal Commission. The result was the passing by a unanimous vote of the following resolution: "This Congress urges upon Her Majesty's Government the appointment of a Royal Commission, composed of representatives of Great Britain and her colonies and India, to consider the possibility of increasing and strengthening the trade relations between the different portions of the empire, and that the Chairman appoint a deputation to wait upon the Premier, the Secretary of State for the Colonies, and the President of the Board of Trade, and lay the question fally before them." It was with an obvious sense of relief that the Congress unanimously passed this resolution, for no one wished to inflict pain upon the Canadian delegates. There can be no doubt, however, that these gentlemen have learned something from the plain things which were said about their scheme, publicly and privately. Yet this is not the first time that they have brought it before a similar Congress. At the one held in London in 1896, the Toronto Chamber submitted a motion advocating an arrangement of the nature of a "Zollverein," whilst Sir Donald Smith, the High Commissioner for Canada, bronght in one favoring an official conference for the purpose of considering the practicability of "a Customs arrangement between Great Britain and her colonies and India, on the basis of preferential treatment." Both of these were ultimately withdrawn in favor of a resolution expressing the desire for "closer commercial relations" between the various parts of the Empire.
It is not vory easy to define the motives which lie beneath the persevering efforts of the representatives of Canadian commorce to secure by fiscal means preferontial treatmont of inter-imperial trade. Partly, no doubt, it is tho product of the widely-prevailing de-
sire for closer political union and eventual federation of the mother country and the colonies, which appearances seem to indicate as a coming condition likely to be realized step by step. It is also probable that the Canadians are unfavorably impressed by the fact that the surplus production of the United States finds its readiest and most natural market across the border, and that at times the overwhelming magnitude of the American imports is a little distressing to competing interests in Canada. They do not seem to derive any comfort from the example of the mother country, pre-eminently a nation of manufacturers. The United Kingdom received last year more than £100,000,000 of foreign manufactured goods without any sort of import duty. Yet, no one complains, and observant men see in this fact a positive benefit. They rejoice in the reflection that any one in the world who has anything cheap and good to sell can always find a ready market for it in these islands. The consequence is that manufactures are daily coming into British ports, in great volume, often at prices less than the cost of their production even here. More than one-half of them become the materials or accessories of further manufacture, thus feeding economically the national industries, whilst the rest pass into consumption, economizing the expenditure of the consumers and leaving so much more of their incomes to be spent'on other things. It may be hoped that the Canadian delegates have not over looked these considerations, which they have had an opportunity of learning during their visit, and that the discouragement which they have met with-though very considerately and kindly conveyed-will enable them to look upon their proposal for an Imperial Zollverein based upon preferential trade as an unrealizable and even an undesirable one.

Within the last two or three weeks the Manchester market for cotton goods and yarns has shown growing inactivity, accompanied by much perplexity in the minds of sellers and buyers. Spinners and manufacturers are being sorely pressed between the apper millstone of lessened demand for their productions and the nether one of advancing prices of cotten. Every one can see that the stooks of raw material and the seanty remains of the old crop are insufficient to allow a full consumption until the new crop becomes available in quantity. The advance of $15-16 \mathrm{~d}$. per lb. which has taken place in the price of middling Orleans in Liverpool since June 7 th is therefore regarded as not unwarranted. On the other hand, the course of events has been highly unfavorable to the maintenance of the previously steady demand for goods and yarns. The disturbances in China, grave enough in themselves and yet more grave in their possible consequences, have completely put a stop to all business for that important market. Substantial orders for China, previously placed, have yet to be executed, and the merchants who have to receive the goods thus bought are in some cases storing them here, or are sending them out in some fear as to the results of their ventures. The latest telegrams from Shanghai and Hong Kong state that native dealers engaged in the distribution of imports are not giving way to panic, notwithstanding the very dark outlook for their trade. They are in moderate degree taking delivery of goods previously bought as they arrive, but it is quite clear that until some sort of pacific conclusion is reached, or is well within sight, business with China must be of very small dimensions.

India merchants, too, are not encouraged to bay at all freely by the reports of the progress of the sonthwest monsoon. A good summer monsoon is now more than ever to be desired in view of the troubles from famine, plague and cholera which have fallen upon the Dependency. A single famine, or evon two in succession if they are not very widely extended, rarely make much difference in the consumption of imported cotton goods in India. Every year the production of food is sufficient and more than sufficient, on the whole, to feed the people. Bat famine brings dearness, and although the portions of the country where scarcity prevails have to pay high prices, those which have a surplus profit by them and become able to buy goods more freely. It is the complication of disasters which is just now discouraging merchants who export to India, and although they will be ready enough to buy freely as soon as a good monsoon is assured, they are at present holding off and are confirmed in their policy by the opinion that prices in Manchester are at present too much sustained by what they regard as a temporary scarcity of cotton to afford a safe basis for renewed operations. This consideration is indeed powerfully influencing the minds of buyers for all markets, the home trade included. Merchants engaged in this last-named department, it may be observed, are in an excellent position. The volume of their business during the last half-year has exceeded all previous experience, and there is good reason to believe that their profits have also been very large. Nearly one-fourth of the raw cotton consumed in English mills is disposed of in the manufactured state within the bounds of the United Kingdom, and in this direction there is good prospect of a continued large distribution during the remainder of the year. The colonial demand also has of late been increasing, and, with the exception of China and India, there appears to be no important external market in which the prospects of a continued large or at least an ample volume of trade are not promising.
Meanwhile, weaving machinery, and in smaller though still increasing proportion spinning machinery, is either being stopped or put upon short time. It is certain, too, that the summer holidays in the Lancashire cotton-spinning and manufacturing towns occurring in July and August, and usually lasting a week, will be considerably extended. There is, consequently, every prospect of a greatly lessened consumption of cottion in England during the next two months. On the . whole, spinners are understood to be sufficiently provided with raw material to cover their contracts for yarns or goods, and in a few cases those who have a surplus are disposed to sell their cotton rather than retain it for consumption at present prices. So far as I can learn, the state of the cotton Industry in Germany is very much the same as it is here. The advance in the cotton market has been covered by a corresponding upward movement in the prices of goods and yarns, but the mills appear to be at present fully employed in the execution of contracts previously entered into. On the other hand, the French cotton industry is still in a very prosperous condition, although there also the activity is more the result of previous business than of a sustained current demand.
The British markets for coal, pig-iron, manufactured iron and steel are just now in a very interesting condition. There is no relazation of the scarcity of coal and coke in any direction and prices remain at
the highest level hitherto reached. This week the tendency has been even further upward in some districts, and there are no stocks worth speaking of. The demand for general industrial purposes and for export is well maintained, and several of the railway and gas companies, after prolonged negotiations, have been compelled to place their contracts for the next six months at prices about 50 per cent in advance of those which they paid twelve months ago. On the other hand, there is a little slackening in the demand for pig-iron, although prices do not show much reduction anywhere, and for the most part they remain unchanged. More distinct is the falling off of business in manufactured iron and steel, although the orders in hand remain abundant. Still, the tendency continues rather downward. The engineering, iron founding and rolling-mill works are well employed, but the new inquiries for certain kinds of machinery, that used for textile purposes especially, are becoming fewer. For rails and railway equipment-wagons, carriages and locomotives-orders are still coming forward very freely, and prevailingly the prospects in this department are encouraging. There is, however, no improvement in the state of the shipbuilding indus-try-a very important consideration-and the amount of work in the yards in the Scotch and the English northeastern ports is steadily lessening.
So far as pig-iron is concerned, there appears to be no doubt that if prices in the United States and in this country continue to show the wide differences at present existing, a substantial amount of American iron will be imported during the next six months. A well-known Glasgow merchant has recently been in the United States and has made arrangements for considerable supplies to be shipped to this side. It is understood here, however, that the over-production the United States, which is the cause of the recent heavy decline of prices there, is largely the result of the lighting of antiquated furnaces which cannot be profitably kept in blast at the reducedj rates now current. The latest advices from the Continent show that in Germany, and still more markedly in France, the prices of pig-iron have at last begun to recede, and if this declining process should continue, the exports from England to these countries, which have for some time past been very heavy, may be expected to fall off. In that case the pressure upon supplies in this country will be reduced and the; tendency to. ward lessened demand here will be accentuated. It is quite likely, however, that orders for new shipping, which are known to have been held back because of the greatly advanced prices required for some time past, may be forthcoming in abundance if these should settle down appreciably.

## RAILROAD NET EARNINGS MOR MAY.

The higher cost of materials and supplies is at length being reflected in the returns of our railroads. Oar compilations for the month of May show that the improvement in the gross receipts of the roads was well maintained, the ratio of gain being $12 \cdot 10$ per cent. In the net earnings, however, the ratio of increase is only 7. 19 per cent. Stated in another way, we have, as compared with the corresponding month in 1899, an addition of $\$ 9,424,461$ in the gross receipts, of which $\$ 7$,698,860 has been consumed by augmented expenses, leaving only $\$ 1,725,601$ addition to the net. Of course, in the case of some roads-the Milwaukee \& St. Paul being a conspicuous type-where improve.
ment outlays are being carried on on a large scale, it is not possible to tell to what extent this may have controlled the result; but the fact that the increase in expenses is very general, extending to all classes of roads and to all sections of the country, warrants the conclusion that the cause is a common one and must be sought in the enhanced cost of materials and supplies.

|  | $\begin{gathered} \text { May. } \\ (135 \text { roads.) } \end{gathered}$ |  |  | January 1 to May 81. (193 roads.) |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | 1800. | 1899. | Increase. | 1900. | 1899. | Increase. |
|  | 8 | \$ | \% | 8 | \$ | \$ |
| Gross earn's | 87,308,032 | 77,882,171 | 9,424,401 | 420,301,558 | 385,746,702 | 54,014,856 |
| Oper. exp... | 61,310,574 | 53,611,714 | 7,888,880 | 294,181,558 | 258,855,680 | 35,225,886 |
| Net earn's | 25,980,038 | 21,270,457 | 1,725,601 | 128,180,002 | 106,791,042 | 19,388,930 |

Except for the higher operating expenses the showing is in everv way satisfactory. It must be remembered that the gains this year follow successive gains for several preceding years, both in the gross and the net, as may be seen by the following:

| Fear and Number of roads. | Gross Earnings. |  |  | Net Earsings. |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Year Given. | Fear Preceding. | Increase or Decrease. | Year Given. | Year Preceding. | Increase or Decreass. |

In the case of the separate roads, the increase in expenses has occasioned quite a number of losses in the net. The following is our usual summary of the principal changes (gains and losses) for the month. It will be observed that while in the gross there is only one road reporting a decrease in excess of $\$ 30,000$, in the case of the net there are 10 such decreases.

| Pennsylvaniat. | 629,400 | Increases. Chio. Mil. \& St. Paul.. | \$98,712 |

Covers lines directly operated east and west of Plttgburg and Erie. The net on Castorn Ines increased $\$ 476,800$ and on the Western llnes $\$ 48,800$.

When arranged in groups the losses are，to a great extent，neutralized by the gains，and there are only three groups which actually record a decrease in the net．

ITEMS ABOUT BANKS，BANKERS AND TRUST CO＇S
－The sales of bank stocks this week aggregate only 65 shares and represent transactions in the stocks of three banks．Ten shares were sold at the Stock Exchange and the balance at auction．No public sales of trust company stocks have been made this week．
shares．Ranks－New York．
Price．

169－17018
Last previous sa
＊Of this amount 10 shares were sold at the Stock Exohange．
－The bank consolidation movement in Chicago grows apace．News comes from that city that the Corn Exchange National Bank，the Northwestern National Bank and the America National，each having a capital of $\$ 1,000,000$ ，are to be consolidated．The Corn Exchange National will absorb the other two，increasing its stock from $\$ 1,000,000$ to $\$ 2,000,000$ for this purpose．The surplus is to remain at $\$ 1,000,000$ ， while the undivided profits are to be increased from about $\$ 350,000$ to $\$ 500,000$ ．The stockholders of the America Na－ tional are to receive $\$ 200$ a saare cash for their stock，or as an alternative 60 per cent in the new stock of the Corn Ex－ change National，The stockholders of the Northwestern National are to receive the remaining 40 per cent of the $\$ 1,000,000$ new stock of the Corn Exchange．It is stated that 7，160 shares of the Northwestern National stock have been acquired from Mrs．Mary D．Starges by a syndicate in the interest of the Corn Exchange National．Mr．Ernest A． Hamill，the President of the Corn Exchange National at present，is also to be the chief executive of the consolidated institution．We annex the following statement to show the growth during the last two years in the business of the three institutions to be merged，and also the market value of their respective shares：
－CORN EXCHANGEー－NORTHWESTERN一－－AMERICAN－－－

National Bank．National Bank．National Bank． $\begin{array}{cc}\text { Gross } \\ \text { Deposits．Bid．Ask．Deposits．Bid．Ask．} & \text { Gross } \\ \text { Deposits．Bid．Ask．}\end{array}$ $\begin{array}{rlllllll} & \text { June } 29,1900 . .815,424,458 & 295 & 310 & \$ 7,278,20 \pm & 163 & 175 & 810,471,149 \\ 180 & 185\end{array}$ | Apr．23，1900．．12，184，346 | 293 | $\$ 10$ | $6,353,958$ | 163 | 175 | $9,119,857$ | 175 |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- |

to $\$ 15,424,456$ on June 29，1900．The period covered is that during which Mr．Hamill has been the head of the bank，the Corn Exchange having formerly been a State institution． When the change to the national system was made Mr． Charles L．Hutchinson，then the President and now the Vice－ President，gave way to Mr．Hamill．
－The Continental National Bank is another Chicago insti－ tution which is to enlarge its capital．A meeting of the shareholders is to be held August 23 for the purpose of authorizing the issue of an additional $\$ 1,000,000$ of stock， making the total capital $\$ 3,000,000$ ．The increase，it is stated， is necessitated by the expansion of the bank＇s business．The shareholders are to be allowed to take the additional stock， which sells at above 170，at par．
－We commented recently on an effort to create in this country a market for certain European State and municipal securities．Obviously such an effort indicates that the con－ ditions in the respective money markets，here and abroad， have undergone considerable change within recent periods． For many years past the mass of European money seeking in－ vestment forced the yield of income on European home is－ sues to so low a point that capital looked to other conntries in search of better returns，and Europe consequently became a large holder of our securities．Latterly，however，a radical change of conditions has taken place，both in this country and abroad，more particularly Germany．The succession of good crops here and growing industrial activity，together with the heavy increase in our exports，has given the United States an unprecedented era of prosperity and has greatly increased the wealth of the country．A larger investment demand than formerly has been the result．In consequence prime securities which a dozen or fifteen years ago netted 6 or 7 per cent now sell on a basis of less than half that return in income．

On the other hand，the recent industrial boom in Germany has advanced money？rates there as high as 7 and 8 per cent． To take advantage of these rates，and of the more profitable returns on local＂industrials，＂many holders of the best Ger－ man investment securities have thrown their holdings on the market，bringing about a marked decline in German invest－ ment prices and a corresponding improvement in the rate of return on the better class of securities；for instance，even imperial 3 per cents，which four years ago brought par，have lately sold as low as $85 \frac{1}{2}$ ，though from this figure some recovery has taken place．Mr．A．A． Lisman］of C．I，Hadson \＆Co．of this city，has pre－ pared a series of tables to show the difference in the rate of return between prime American and prime Enropean State，city and railroad bonds．Mr．Lisman finds that while the rate of return to an investor on leading issues of municipal bonds emitted by such cities as New York，Chi－ cago，St．Lonis，Cincinnati and Philadelphia is only 2.90 to $3 \cdot 20$ per cent，the return in the case of German and other foreign municipal securities in the list selécted by him runs from $3 \cdot 69$ to $4 \cdot 21$ per cent．Equally marked differences are found between various issues of State securities in this conn－ try and those abroad，and between leading issues of American railroad bonds and European railroad bonds．We have not space to give the tables prepared by Mr．Lisman，but presume they can be obtained on application．
－The Execative Committee of the Connecticnt Bankers Association met at Hartford on Wednesday of this week in order to discuss the charges imposed by the New York Clear－ ing House for collecting checks on out－of－town banks．As is well known，there is considerable opposition to these charges． The committee took no action，it appears，beyond deciding to communicate with associations in other States in order to learn their views on the sabject．
－The New York Stock Exchange proposes to occupy a portion of the Produce Exchange Building nest year during the erection of its new building．The following notice has been posted at the Produce Exchange：
＂At a meeting of the Board of Managers held on Thars－ day，July 19，an application was received from the Board －of Governors of the New York Stock Exchange request－ ing that we accommodate them with space on our main floor from April 15，1901，to May 1，1902，during the constraction of their new Exchange．It was decided wise by four Board of Managers to extend the courtesy asked on terms to be matually agreed upon，and，by
$\begin{array}{llllllllll}\text { Feb．13，1900．．} & 10,279,391 & 293 & 310 & 6,461,528 & 163 & 175 & 9,738,091 & 160 & 18 \\ \text { Dec．2，1899．．} & 12,621,790 & 293 & 310 & 6,628,496 & 163 & 175 & 8,024,944 & 164 & 168\end{array}$ Sept．7，1899．．12，720，058 $285 \$ 00 \quad 6,749,107 \ldots .175$ $\begin{array}{lllllll}\text { June 30，1890．．14，325，367 } & 285 & 300 & 7,783,385 & 150 & 160\end{array}$ $\begin{array}{lllllll}\text { Apr．5，1809．．．12，732，208 } & 260 & 275 & 8,686,707 & 140 & 150\end{array}$ $\begin{array}{llllllll}\text { Apr．} & 5,1809 . . & 12,732,208 & 260 & 275 & 8,686,707 & 140 & 150 \\ \text { Feb．} & 4,1899 . . & 11,138,095 & 260 & 275 & 7,288,582 & 135 & 1.50\end{array}$ $\begin{array}{lrrlllll}\text { Feb．} 4,1899 . . & 11,138,085 & 260 & 275 & 7,28,682 & 135 & 150 \\ \text { Dec．} & 1,1898 . . & 9,855,222 & 265 & 25 & 8,805,683 & 135 & 150\end{array}$ $\begin{array}{lllllllll}\text { Sept．21，1888．．} & 7,943,154 & 265 & 275 & 6,683,67 S & 185 & 150\end{array}$ $\begin{array}{llllllll}\text { July } 14,1898 . . & 7,496.829 & 205 & 275 & 6,265,383 & 135 & 150\end{array}$ $\begin{array}{lllllll}\text { May 5，1898．．} & 9,171,259 & 265 & 275 & 7,209,269 & 135 & 150 \\ \text { Feb．18，} 1,98 . . & 8,409,411 & 260 & 270 & 6,034,795 & 135 & 150\end{array}$

It will be observed from the foregoing that all three of the banks are apparently thriving institutions and that their combined deposits exceed 33 million dollars．Each one of the three banks has made a substantial increase in its deposits during the period embraced in the table，though the Corn Es change is particularly note worthy in this respect，－－its gross deposits having risen from $\$ 8,409,441$ on February 18， 1898俍 $\begin{array}{lll}9,734,944 & 164 & 168 \\ 9,273,331 & 160 & 162\end{array}$ $\begin{array}{lll}9,229,681 & 155 & 160\end{array}$ $9,041,110 \quad 15031 / 15216$ $\begin{array}{llll}9,041,110 & 150) \\ 9,185,325 & 149 & 151\end{array}$ $\begin{array}{llll}9,185,325 & 148 & 152 \\ 8,208,784 & 147 & 130\end{array}$ 8，208，784 147－150 $\begin{array}{lll}8,407,292 & 145 & 150 \\ 7,555,336 & 145 & 150\end{array}$ 7，55j，336 $145 \quad 150$ $\begin{array}{lll}7,453,789 & 142 & 145\end{array}$
resolution, the President was requested to call a rublic meeting of the Exchange to anthorize your Board to make the lease and such necessary changes as would be required."

It is proposed to partition off the Stone Street end of the main floor of the Produce Exchange for the use of the Stock Exchange.
-Dr. John N. Jacobs, the President of the Montgomery Insurance, Trust \& Safe Deposit Company, of Norristown, Pa., bas issued a pamphlet containing a mass of information and statistics concerning this institution. It will be remembered that ten years ago the company was in difficulties. It was soon, however, again placed on its feet, Dr. Jacobs and the new management assuming control. The object of Dr. Jacobs's pamphlet is to show how steadily the business has grown in the interval since then, and how strong is the financial condition of the company at the present time. On January 3,1891 , the deposits were $\$ 320,313$. On January 1, 1895 , the amount was $\$ 188,845$. January 1,1900 , saw the total up to $\$ 1,102,742$, and now (June 30,1900 , ) the deposits are $\$ 1,210,626$. These figures, it is proper to state, are exclusive of all trust funds. The company has funds as executor, administrator, trustee, guardian, committee, etc., which amounted on June 30,1900 , to $\$ 638,483$. The surplus in the nine years has increased from $\$ 25,000$ to $\$ 125,000$, making it equal to the amount of the capital stock. Beginning July 1, 1892, the company has paid semi-annual dividends of 3 per cent, and in July of the present year this semi-annual payment has been increased to 4 per cent. Figures are given to show that if allowance be made for net earnings used in reducing the value of bonds, stocks and real estate on the company's books, earnings the last three years have been at the rate of $21 \cdot 7 C 3$ per cent on the stock. S. S. Kohn is VicePresident of the company and C. H. Alderfer is Treasurer.
-In our issue of April 21, 1900, we referred to the fact that the Colonial Trust Company of Waterbury, Conn.. which had been organized Nov. 1, 1899, with $\$ 400,000$ capital and $\$ 100,000$ surplus, made a satisfactory exhibit in its statement of March 31, showing aggregate resources at that time of $\$ 980,215$. The company now presents a return for June 30 , 1900, and this shows still further expansion, resources for that date being reported $\$ 1,142,769$. D. S. Plume is President and Lonis N. Van Keuren is Secretary and Treasurer.

- The Continental Fire Insurance Company of this city (F, C. Moore, President, and Henry Evans, Vice-President), in its statement for July 1 shows an increase in net surplus for the six months of $\$ 52,860$, and an increase in gross assets of $\$ 204,279$, notwithstanding the very unsatisfactory conditions which have prevailed in the fire insurance business. The company reports aggregate assets of $\$ 10,013,940$. It has a reserve for the security of insurance in force of $\$ 4,087,128$, and a net surplus above capital and all liabilities of $\$ 4,087$, 855.
-We called attention two weeks ago to the proposed reduction of the capital of the Citizens' Trust \& Deposit Co. of Baltimore. It appears that some time ago, when prices were very much depressed, some of the large shareholders of the company purchased 5,000 shares of the stock of the bank at a low figure. This stock they now offer to deliver to the company at cost, with the understanding that it be canceled. By this action the capital will be reduced from $\$ 2,000,000$ to $\$ 1,500,000$. The institution is doing a good business. Mr. John A. Tompkins is President; William P. Harvey and William Whitridge are Vice-Presidents, and John G. Brog. den is Secretary and Treasurer.
- A meeting of the shareholders of the International Trust Company of Baltimore has been called for August 23 to act on the proposition to reduce the capital stock of the bank from $\$ 3,000,000$ to $\$ 2,250,000$. The reduction is to be effected by omitting to call the last instalment, still unpaid, on the company's shares. The company will issue paid-up stock for the amonnt already paid in on the shares, but will reduce the number of shares from 30,000 to 22,500 . It will have a surplus equal to one-half the $\$ 2,250,000$ stock, viz., $\$ 1,125,000$, shareholders having contributed that amount on the instalments previously paid in.
-The address delivered by Robert William Smylie, the Auditor of the People's Savings Bank of Dytroit, Mich., before the Michigan State Bankers' Association at Detroit last month, has been re-printed in pamphlet form by request. The theme of Mr. Smylie's address was "Bad and Doubtful

Debts, Earnings and Competition." The paper abounds in useful hints and suggestions.
-The Albany Safe Deposit \& Storage Company has elected Daniel Leonard, David A. Thompson, Isaac D. F. Lansing and James McCredie, directors for the ensuing year.
-William Bettle, Commissioner of Banking and Insurance for the State of New Jersey, has just issued his annual report, giving statistics regarding New Jersey banks and trust companies. The figures are brought down to the first of January of the present year. The feature of most interest in the statistics is the general and large growth disclosed in the case of each of the three classes of institutions covered by the report, viz., the savinge banks, the trast companies and the banks of discount and deposit. The deposits of the savings banks were $\$ 54,713,698$, against $\$ 48,852,873$ on January 1,1899 ; the deposits of the trust companies, $\$ 33,856,403$, against $\$ 28,423,471$, and the deposits of State banks, $\$ 8,826,-$ 840, against $\$ 8,362,248$, making a grand total of $\$ 97,396,941$, against $\$ 85,638,592$. The aggregate resources of the three classes of institutions rose almost $\$ 15,000,000$ during the twelve months, being stated $\$ 116,530,007$ this jear, against $\$ 101,532,899$ last year. The expansion in recent years in the case of the trust companies has been very noteworthy and striking. There were on January 1, 1900, twenty-five of these companies with aggregate resources of $\$ 43,029,692$. Three years before, on January 1, 1897, there were twentytwo of these institutions, and their resources were only about one-half the present amount, or $\$ 22,417,128$. January 1, 1890, there were but eleven trnst companies in New Jersey, with aggregate resources no more than $\$ 4,888,604$.
-Last week reference was made in this column to the annual convention of the New York State Bankers' Association at Saratoga. At the conclusion of the business session on Saturday the following officers were elected for the ensuing year: John B. Dutcher, President; John H. Deridder, VicePresident; B. W. Wallington, Secretary, and J. F. Thompson, Treasurer. The following were elected delegates to the National Convention at Richmond, Va.: W. H. Walker, C. C. Woodworth, Charles Adsit, M. C. Palmer, E. A. Groesbeck, C. T. Van Inwegan, F. B. Schenck and Bernard Coombe. Ex-President H. C. Brewster was elected delegate-at-large.
-Application has been made to the Comptroller of the Currency for the incorporation of a new down-town banking institution. It will be known as the Federal National Bank, and it will have a capital of $\$ 500,000$ and a surplus of a like amount. Among the promoters of the organization are: Charles A. O'Donohue, Percy B. O'Sullivan and other prominent merchants in the lower Wall Street district. It is stated that this application has been made now chiefly for the purpose of securing the right to the use of the name.
-Percival Knauth, of Knauth, Nachod \& Knhne, the well-known bankers of this city, died on Tnesday at Lake George, N. Y. Mr. Knauth was a member of the Maritime Exchange, a director of the Safety Car Heating \& Lighting Co. and a trustee of the German Savings Bank and of the Bankers' Trust Co.

- A cone shaped brick of gold, technically called a "bing," was received in this city early this week by the agents of the Bank of Montreal, and it was sent to the Assay Office on Tuesday for assay: The cone came from the Cariboo Consolldated Hydraulic Mine, in British Columbia. It weighed 7,897 ounces and its value is estimated at $\$ 135,275$.
-The meeting of the Washington State Bankers' Association at Tacoma on Thursday, Friday and Saturday of last week proved quite successful. It was the first gathering since 1892. The convention adopted a resolution declaring it the sense of the Association that the war revenue tax on banks and documents should be materially reduced and that express companies issuing money orders in competition with banks should be compelled to pay for the privilege. The fol lowing officers were elected for the ensuing year : President, Jacob Furth, President of the Puget Sonnd National Bank, Seattle; Vice-President, E. J. Dyer, President Exchange National Bank, Spokane; Secretary, James D. Hoge, Jr., President First National Bank, Seattle, and Treasurer, S. M. Jackson, Manager London \& San Francisco Bank, Tacoma.
- Charles Elliot Warren was on Wednesday of this week appointed an Assistant Cashier of the Lincoln National

Bank of this city. Mr. Warren has been connected with the bank in one capacity or another for the last eighteen years.
-The Bank of Commerce of Louisville, Ky., which last year distributed $\$ 400,000$ of its surplus among its share. holders, is about to distribute an additional $\$ 200,000$. This will still leave the bank with a surplus of $\$ 200,000$ in addition to its capital of $\$ 800,000$. The distribation is made in order to avoid the high taxes imposed and also becanse it is felt that the surplus is not all needed in the bnsiness of the bank.

## IMPORTS AND EXPORTS FOR JUNE.

The Bureau of Statistics at Washington has issued the statement of the country's foreign trade for June, and from it and from previous statements we have prepared the following interesting summaries.
forgign Trade movement of the United states.
[In the following tables three olphers (00cs) are in all oases omitted.]

We subjoin the totals for merchandise, gold and silver for the twelve months since July 1 for sis years.

|  | Merchandise. |  |  | Gold. |  |  | Silver. |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

## 

## From our own correspondent.

London, Saturday, July 14.
This has been a week of depression and some anxiety on all the bourses and money markets of Europe. Here in London there were some exceptional reasons why business should be dull. The Khedive of Egypt was entertained by the Lord Mayor, and his entry and departure interrupted traffic in the streets and therefore somewhat interfered with general business. The Henley regatta is going on this week and it is a very favorite resort for the wealthy of all classes. Consequently many of the most active operators have been absent. To-day the .Stock Exchange is closed for repairs, and on Monday the fortnightly settlement will begin.
Owing to all this it was generally anticipated that the week would be dull. But the news from China has rather contradicted the impression. For while business has been bad the Stock Exchange certainly has not been dull. In Berlin the unwise speculation in industrial and bank shares, which has been going on for several years, and which is now ending in the inevitable liquidation, caused much nervousness during the second half of June. The ond of the first half of the year is always a period of some stringency in Berlin, and for the past few years, while speculation has been going on, the Imperial Bank has found it necessary to increase its note circulation so much that it has had to pay 5 per cent duty upon several millions of notes. That it would have to do the same this June was generally anticipated. Bat the Bank took very energetic measures to keep its excess circulation within limits. In the first place, it intimated that speculators, who, contrary to the advice of the Treasury and the Imperial Bank, had insisted upon keeping up a reckless speculation, would not be accommodated on the nsual scale; and, acting on this intimation, the other banks put pressure upon their customers to reduce their accounts. In consequence there was a sharp fall last month in industrial and bank shares, and naturally, therefore, the amount required for the end-of-the-month liquidation was not as great as it otherwise wonld be. Furthermore, the Imperial Bank took measures to attract gold, and it got in altogether, it is estimated, aboat two millions sterling. Lastly, very large amounts were obtained by the other banks from American bankers and financial institutions of all kinds.
In spite of all this, however, the note circulation of the Inuperial Bank largely exceeded the anthorized lssue, and the pressura for money was very great. The money market is now easing once more, and probably will remain comparatively easy for some weeks to come. But the liqnidation has begun again, and no doubt has been greatly increased by the events in China. It will be recollected that a large Chinese loan of sixteen million sterling nominal was brought out about two years ago in London and Berlin. The subscriptions in Lon-
don were very small, as the price was regarded as altogether too high. But the subscriptions in Germany were very large. It is understood that the subscriptions were by the great banks and capitalists in connection with them. It is certain that the stock was never placed with the investing public in Germany. It has been reported from time to time that the German banks had gradually sold a considerable proportion of what they took here in London. But it is impossible to ascertain whether the holdings are larger in this country or in Germany. It is certain, however, that they have never been properly placed with the investing public. That is shown for one thing by the heary fall which has taken place this week in Chinese bonds, ranging from about 20 per cent to 25 per cent; and in reality the tall is very much greater, because it would be impossible to sell any consider. able amount at the quoted prices.

The result of this collapse in Chinese securities has naturally increased the losses in Berlin, and therefore there has again this week been a sharp fall in bank and industrial shares. It is hoped, however, that the position is now so much improved that all serious danger is at an ond. Ger many has sold here in London very large amounts of American securities likewise, and for two or three days there has been general and almost indiscriminate selling. The opinion of the best observers is that here in London, at all events the fall has been entirely overdone and that there will soon be a considerable recovery.

Money continues abundant and cheap, and probably will remain so for some time yet, although the revenue is coming in so badly that it seems clear that the Government will have to borrow something more upon Treasury bills. Meantime, the demand for gold from abroad has greatly abated, and speculation is quite absent except for the fall. This specula tion in trade, which in some departments was considerable a little while ago, is falling off. The demand for money, there fore, is much less than it was. Possibly the necessity the governments are under to send out considerabe forces to China may disturb the money market by and by. On the other hand, there has been quite lately a remarkable rise in the Brazilian exchange. Not very lona ago it was down to 7d., and it remained thereabouts for a very long time. At the time of the deposition of the Emperor the exchange ztood at about 30 d. The first few years, therefore, of Republican Government saw a decline from 30d, to 7d. The present President is a man of great firmness, judgment and public spirit, and he has energetically reduced the paper circulation. As a consequence, the over-abundance of money came to an end, and the purchasing power of the paper note increased. This tendency was increased by a marked in crease in the demand for Brazilian coffee, partly accountable, perhaps, by the fact that the crop last year was comparatively small. In any case, there was a sharp demand for coffee, very considerable rise in price, and therefore an additional demand for money. Speculation, too, has played an active part, and thus there has been a rise from the lowest point of nearly 100 per cent in the exchange of late.

Meantime money continues abundant and cheap in India, and the India Council continues to sell its drafts fairly well. It offered for tender on Wednesday 30 lacs and the applications amounted to nearly 91 lacs. The whole amount offered was disposed of at prices ranging from 1s. 331-32d. to 1s. 41.32 . per rupee. Afterwards the Council sold one lac by special contract at 1s. 4 d. per rupee.
The trade of the United Kingdom still continues exceed ingly good. The imports for June were of the value of $£ 42$, 016,307 , an increase over the corresponding month of last year of $£ 3,667,364$, or $3 \cdot 56$ per cent. The exports reached a sum of $£ 24,895,335-a n$ increase over the corresponding month of last year of $£ 2,915,268$, or $13 \cdot 26$ per cent.
The following recurn shows the position of the Bank of England, the Bank rate of discount, the price of consols, \&c,

WALL BTREEET, FRIDAY, JULY 20, 1900.-5 P. M.
The Money Market and Financial Sitnation.-If there are any less encouraging features in the general situation than recently existed, the effect of such features is not apparent in Wall Street. There has been a further reduction in the volume of business, but otherwise there is almost no indication of anything but a hopeful and an encouraging outlook. The tone of the market for railway securities was
favorably affected at the opening of the week by reports favorably affected at the opening of the week by reports the crop prospect greatly improved. The strength that statement imparted has continued up to the close.
The condition of affairs in China is very naturally absorbing universal interest; still the effect in financial circles has not been especially marked, although the hardening of money rates at principal European centers is no doubt in some measure due to that cause, and the advance from three to four per cent made by the Bank of England may be looked upon as suggestive of the importance with which the matter is regarded in London. The advance in discount rates abroad is accompanied by gold exports, $\$ 2,027,543$ having been shipped to Paris on Thursday. The local money market remains easy.
The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 1 to $11 / 2$ per cent. To-day's rates on call were $11 / 4$ to $11 / 2$ per cent. Prime commercial paper 4 to $43 / 4$ per cent.
The Bank of England weekly statement on Thursday showed a decrease in bullion of $£ 176,669$ and the percentage of reserve to liabilities was $33 \cdot 11$, against $36 \cdot 87$ last week; the discount rate was advanced from 3 to 4 per cent. The Bank of France shows an increase of $19,350,000$ francs in gold and 975,000 francs in silver.
The New York City Clearing-House banks, in their statement of July 14 showed an increase in the reserve held of $\$ 4,781,000$ and a surplus over the required reserve of $\$ 19,960,125$, against $\$ 15,589,200$ the previous week.

Foreign Exchange.-The foreign exchange market has been generaily firm and advanced sharply on the rise in the Bank of England's discount rate. The offerings included bills drawn against gold shipments.
To-day's actual rates of exchange were as follows: Bank ers' sixty days'sterling, $4833 / 4 @ 484$; demand, $4871 / @ 4873 / 4$; cables, $488 @ 4881 / 4$; prime commercial, sixty days, 4831 ¢ @ grain for payment, $4831 / 2 @ 4833 / 4$; cotton for payment, $4823 / 4$ @4 83; cotton for acceptance, $4831 / 4 @ 4831 / 2$.

Posted rates of leading bankers follow:

## Less $1_{18}$.

The following were the rates of domestic exchange on New York at the under-mentioned cities to-day: Savannah, buying 1-16 discount, selling 1-16 premium; Charleston, buying par, selling $1 /$ p premium; New Orleans, bank, $\$ 100$ premium; commercial, 75c. discount; Chicago, par; St. Louis, 50 c . per $\$ 1,000$ premium; San Franclsco, $121 / 2 \mathrm{c}$. per $\$ 100$ premium.

United States Bonds.-Sales of Government bond8 at the Board include $\$ 11,5003 \mathrm{~s}$, coup., at 110 to $1101 / 4 ; \$ 71,5003 \mathrm{~s}$, reg., at 109 to $1091 / 2 ; \$ 34,0004 \mathrm{~s}$, coup., 1925, at 134 to $1341 / 4$; $\$ 10,0004 \mathrm{~s}$, reg., 1925 , at $1831 / 8$; $\$ 15,0004 \mathrm{~s}$., coup., 1907, at 115 to $115 \frac{5}{8}$ and $\$ 6,0004 \mathrm{~s}$, reg., 1907 , at $1147 / 8$ to $1153 / 4$. The following are the daily closing quotations; for yearly range see seventh page following.

State and Railiroad Bonds.-Sales of State bonds at the Board are limited to $\$ 10,000$ Alabama class A at $1091 / 4$ and $\$ 10,000$ Virginia fund. debt $2-3$ s of 1991 at 90 .
The market for railway bonds has been dull and narrow. Sales at the Exchange averaged only about $\$ 950,000$, par value, per day, and the changes are about evenly divided between higher and lower quotations.
Missouri Kansas \& Texas 1st 4s and Western New York \& Pennsylvania general $3-43$ were among the strong features. The latter were unusually active.
Stock and Bond Sales.-The following shows the volume of business in stocks and bonds on the New York Stock Ex. change for the past week and since Jan. 1:

We add the following record of the daily transactions:
Week ending

| Week endingJuty 20.1900. | - Stocks |  | Bailroad, \&c. Bonds. | slate Bonds. | U. 8. Bonds. |

The sales on the Boston and Philadelphia Exchanges were:

Railroad and Miscelianeous Stocks.-Stock market conditions have not materially changed during the week. The dulness which has been a feature for some time past was more pronounced than usual and the business more exclusively in the hands of the professional element. On only two days did the transactions amount to 300,000 shares and on two days were only a trifle over 200,000 shares.
The market has been generally firm, however, and although more or less irregularity is noted and some reaction from the highest quotations has taken place, a considerable list of active stocks closes higher than last week. Burlington $\&$ Quincy adranced 2 points and all the grangers were strong on reports of copious rains in the West. Illinois Central was again a strong feature, showing a net gain of 2 points. Union Pacific, Northern Pacific and Baltimore \& Ohio show substantial net gains. The local traction issues recovered somewhat from recent depression.

American Sugar Refining was the most conspicuous feature of the miscellaneous list; transactions in it were on a large scale; it steadily advanced day by day and closes 10 points higher than last week. Pacific Mail was bid up 5 points, on the theory that its business will be increased by conditions in the Far East. Consolidated Gas also advanced over 5 points. American Ice and the iron and steel stocks were strong.

## furestment axd gixitroad fintelligence.

## RAILROAD EARNINGS.

The following table shows the gross earnings of every StEAM railroad from which regular weekly or monthly returns an be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two olumns the earnings for the period from January 1 to and including sach latest week or month.

The returns of the street railways are brought together separately on a subsequent page.

| ROADS. | Latest Gross Earnings. |  |  | Jan. 1 to Latest Date. |  | Roads. | Latest Gross Earnings. |  |  | Jan. 1 to Latest Date |  |

Net Earnings Monthly to Latest Dates.-The following shows the gross and net earnings to latest dates of all STEAM railroads furnishing monthly statements. The compilation includes every road from which we can get returns of this character, and in that form is given once a month. Early returns are published fromweek to week, as soon asissued, but for the convenience of our readers all the roads making returns are brought together here in the week in which wo publish our monthly article on net earnings-say on or about the 80th of the month.
The returns of the street railways we give by themselves under a separate head at the extreme end of these tabulations
-see page 132.

of MoKeesport, Equitable Gas Co., United Traction of Pittsburg.

## STREET RALLWAYS AND TRACTION COMPANIES.

The following table shows the gross earnings for the latest period of all STREET railways from which we are able to obtain weekly or monthly returns. The arrangement of the table is the same as that for the steam roads-that is, the first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

$\dagger$ Strike in Cleveland from June 1 to 26,1890 .
Street Kailway Net Earnings.-In the following we show both the gross and the net earnings to latest dates of all STREET railways from which we have been able to procure monthly returns. As in the case of the steam roads, the returns of the different roads are published by us each week as soon as received, and once a month (on the third or the fourth Saturday of the month) we bring together all the reads reporting, as is done to-day.

## Pacific Mall Steamshìp Co.

(Annual Report for the fiscal year ending April 30, 1900.)
Full extracts from the pamphlet report, giving the balance sheet, income, and profit and loss accounts, etc., etc., will be found on page 138.-V. 70, p. 331.

## Calnmet \& Hecla Mining Co.

(Report for the fiscal year ending April 30, 1900.)
President Alexander Agassiz says:
We have continued to push the openings underground both in the conglomerate and in the Osieola amygdaloid belt. The marked improvement noted last year in the character of the ed, and the lode at the north end of the mine in the lower levele io not as rloh as in the upper onee or in the central part of the mine, the quality of which has not changed. On the Osceola lode we have now reaohed a depth of orer 1,300 feet in the No. 13 shaft and have since last year opened No. 16 and 17 on the Osceola, giving us a length of orer 9,00ing houses for the ube of pur employes. Half of our seoond coal dock, of a oapaoity of 100,000 tons, has been erected at Torch Lake; the whole docr should be in commiselon this fall.

The foundations have been laid for an extension of the Hecla mill． It will contain six heads and should treat 2,500 tcns of amyedalold rook a day．Four bollers have been added to the mill plant．The Heala \＆Toroh Lake RR，has been extended to the head of Toroh Lake， Where we intend to ereot a timber mill．We have purchased a rraot of timber land Dear Whitefish Point．At the Lake Linden emelting Works a new mineral house has been erected．We have also built a ing works．At the Buffalo emelting works we have parohased an ad－ joining parcel of land and are bullding an eleotrolytio plant for the treatment of a certain portion of our product，including that which carries the larger values in silver．We have also erected a double fur－ nace with a Walker table，from whioh we hope to obtain a great in－ orease in the rapidity of casting our conper．We have also built an electrlo oonvejor for loading the farnaoes and have made a contraot for the purohase of an additional frontage on Niagara River．Oar orig． addtional land for fature extensions of the plant．
In consequence of the contioned hieh priee
continued the incressed production of the previous yepper we have
The results for four years have been as follows：

## Welsbach Light Company．

（Report for the year ending April SO，1900．）
The following results for the year ending April 30，1900， were given out at the annual meeting recently held：

As is well known，the Welsbach Company has been organ． ized to absorb by consolidation both this company and the Welsbach Commercial Co．The net earnings for the late year，as above shown，when added to those of the Welsbach Commercial Co．for the year，it is claimed，equal the interest cn the bonds of the new company and the sinking fund re． quirements and would leave about $\$ 75,000$ for the new stock．－V．70，p． 898.

## GENERAL INVESTMENT NEWS．

## RAILROADS，INCLUDING STREET ROADS．

Allegheny Valloy Ry．－Lcase．－See Pennsylvayia RR．Co． below．－V．71，p． 27 ．

Atlantlc Valdosta \＆Western Ry．－Interest in Jacksonville Terminal Ry－The company has acquired a one quarter in－ terest in the Jacksonville Terminal Ry．Co．，the other owners heing the FJorida East Coast，the Seaboard Air Line and the Plant System．－V．68，p． 1022.
Bangor \＆Portiand Ry．－Sold．－This proporty，owned by the Blairs of Blairstown，N．J．，has been sold to the Dela－ ware Lackawanna \＆Western RR．Co．，which see below．

Boston \＆Albany RR．－Lease．－The Massachusetts House of Representatives on Monday finally passed the lease bill， the vote being 112 to 41．The Senate also passed the bill， which was then duly signed by the Governer．－V．71，p． 83.
Boston \＆Maine RR．－Purchase．－Se日 Central Massa－ chnsetts RR．below．－V． 71 ，p．83， 28.
Buffalo Rochester \＆Pittsburg RR．－New Equipment Trust．－The company is about to issue a new equipment trust，series B， $41 / 2$ per cent（M．and N．），bonds payable 1920， Gasaranty Trust Co．of New York，trustee．The issue is dated May，1900，and is limited to $\$ 1,000,000$ ．The bonds are to be issued to 90 per cent of the value of the equipment delivered to the truste日．A sinking fund of 5 per cent per annum will purchase the bonds at par if possible；otherwise will be invested in more equipment by the trustee as addi－ tional security for bonds．The bonds are not subject to call． The company will use only about half of the authorized is－ sue at present．－V．70，p． 944 ．
Catawissa RR．－Maturing Bonds．－The Philadelphia \＆ Reading Ry．Co．will purchase the $\$ 1,300,000$ of 7 per cent bonds maturing Ang． 1,1900 ，in so far as not already ex－ changed under offer in V．70，p． 429.
Central Massachusetts RR．－Sale Authorized．－The stock－ holders on Tuesday，by a vote of 38,956 shares to 13，510，agreed to sell the road to the Boston \＆Maine at a price to be adjudi－ cated by the Railroad Commission．Certain common－stock holders entered a protest，claiming that a majority of both issues of stock was not in favor of the sale．The sale does not include $\$ 300,000$ of the company＇s preferred stock held in its treasury．
In order to get the consent of the Boston \＆Maine to the bill as passed by the Massachusetts Legislature permit－ ting the sale of the roar，it was necessary that holders of two－thirds of the preferred stock of the Central Massachu－ setts make an agreement with the Boston \＆Maine to sell the preferred stock at $\$ 65$ per share．When this was done the Boston \＆Maine gave its consent to refer the question of price to be fixed for the common stock and the minority pre－ ferred stack to the Massachusetts Railroad Commission， stockholders having the right to take the matter to the Su－ preme Court for final adjudication．The holders of the mi－ nority interest（about $\$ 1,000,000$ ）in the preferred stock，it is stated，will also be allowed $\$ 65$ a share provided no appeal be made to the Railroad Commission or the Supreme Court as provided in the bill．－V． 71, p． 83.
Central Pacific Ry．－Durkee Claim D＇smissed．－Judge Hagner of the District Supreme Court on Tharsday dis－ missed the claim of the heirs of Charles Darkee against the United States Government for certain bonds of the Central Pacific RR．Co．，aggregating $\$ 64,643,512 .-V .70$, p． 1194.
Chesapeake \＆Ohlo Ry．－Gross Earnings for Year 1899. 1900．－The approximate gross earnings for the fiscal year ending June 30，1900，were $\$ 13.318,983$ ，against $\$ 12,009,839$ for 1898－99，an increase of $\$ 1,309,144$ ．－ $\mathbf{V} .70$, p． 1194 ．
Chicago \＆Alton RR．－Payment of Bonds．－The $\$ 1,785,000$ first mortgage 7 per cent bonds of the Loulsiana \＆Missouri River RR．Co．due Aug．1，1900，heretofore assumed by the Chicago \＆Alton RR．Co．，will be paid principal and interest at the office of the Treasurer of the Cbicago \＆Alton Ry． Co．，No． 120 Broadway，New York City，on the maturity thereof．As to refunding，see V．70，p．995．－V．70，p． 1290.
Chicago Burlington \＆Quincy RR．－Purchase．－Sie Kan． sas City \＆Omaha Ry．below．－V．70，p． 1248.
Cleveland Akron \＆Columbns RR．－Bonds Authorized．－ The stockholders on July 13 anthorized the proposed issue of $\$ 4,000,000$ bonds．V．70，p． 1194.

Cleveland Cincinnati Chicago \＆St．Louis Ry．－Dividend on Common．－The company on Thursday declared a semi－an－ nual dividend of $11 / 2$ per cent on the common stock，payable Sept．1，making 3 per cent payable out of the earnings of the fiscal year ended June 30．The payment of dividends on the common stock was resumed last March，after having been omitted since 1893．An advance statement for the late fiscal year appears on page 133．－V．70，p． 1249.
Colorado Midiand Ry．－Status of First Mortgage Bonds． －The Governing Committee of the New York Stock Ex－ change calls attention to the resolutions of the directors of the company providing that the right to issue prior lien bonds be＂waived and abrogated，＂and that the option during the next three years to pay in preferred stock a portion of the interest on certain of the first mortgage bonds be likewise ＂hereby waived and abrogated．＂As already announced， the first mortgage lien of the loan is thereby assured，and all the bonds are placed on the same footing as 4 per cent fixed interest bonds．The official action in the matter is given at length on page 139．See V．70，p． 1290 ．－V．71，p． 28.

Delamare Lackawanua \＆Western RR．－Purchase．－The company has purchased the Bangor \＆Portland Ry．， 40 miles in length，extending from Portland to Nazareth and Mar－ tin＇s Creek，Pa．，through a slate and cement region．The
purchase price is stated as about $\$ 2,000,000$, for which is acquired the entire capital stock and bonded debt. The road, we are informed, will probably be merged in the D. L. \& W. -V. 70, p. 995.
Denver \& Rio Grande RR.-Extension.-See Rio Grande RR. below.-V. 70, p. 995.
Erle \& Pittsbnrg RR.-Suit to Compel Pennsylvania RR. to Pay Taxes. -The Providence Life \& Trust Co., Clement B. Newbold and James M. Wilcox filed a blll in equity in the Common Pleas Court at Philadelphia on July 17, asking the Court to hold the Pennsylvania RR. Co. liable to the Erie \& Pittsburg for $\$ 252,778$ 25. which represents the total taxes paid to the State by the Erie \& Pittsburg since May 24, 1870, the date of the leasing of the road to the PennsylvaniaRR. Co The plaintiffs are stockholders of the Erie \& Pittsburg, and they allege that under the terms of the lease the Pennsylvania RR. Co. agreed to pay all State taxes, but that it has refused to do so, and the tax has been paid every year by the Erie \& Pittsburg. The plantiffs also ask that the Pennsylvania RR. Co. be held liable for all futnre taxes during the remainder of the 999 -year lease.-V. 67, p. 689.
Georgetown Rowley \& Ipswich (Street) RR.-Mortgage. The company has made a mortgage to the Mercantile Trust Co. of Boston, as trustee, to secure $\$ 180,000$ bonds.
Great Northern Ry.-Approximate Gross Earnings for Year 1899-1900.-Approximate gross earnings for the fiscal year ending June 30,1900 , are reported as follows:
St. P. M. \& M. leased llnes............. \$23,689,393 Increase \$2,723,520

Total gross for system ............ $\overline{\$ 29,490,297}$ do. $\$ 3,567,161$ -V. 70, p. 1149 .
Guayaquil \& Quito Ry. of Ecuador.-Contract Awarded -J. P. McDonald \& Company, of 35 Nassau St., New York, have been awarded the contract to build this railroad for the Ecuador Association of Scotland. A mortgage for \$12,282, 000 to the United States Mortgage \& Trust Co., as trustee, was filed last December. Elliott C. Smith is Socretary, No. 33 Wall St. The "Engineering News" says:
The road will have a main line of 300 miles, with branches. The oresent road of milles will be used, but will have to be recon strueted. For the fret work, mhen an altitude of about 12,000 feet will be reaohed on the plateau of the Andes. The route will contlnue on this plateau for about two-thirde of the distance. A grade of 5 per cent will be encountered in some places. It is propos
frst-class road in every detall, having a 42 -inch gauge.
Bids for sub-contracts are wanted. See V. 69, p. 1193, 795.
Gulf Beaumont \& Kansas City.-Sold -Negotiations are nnderstood to be practically completed for the transfer of this road to the Gulf Colorado \& Santa Fe of the Atchison system. The road, it is said, will be extended to a connection with the Atchison at Conroe.-V. 69, p. 795.

Gulf \& Ship Island RR.-In Operation.-Operation of the entire main line from Gulfport, Miss., to Jackson, 160 miles, including the extension just completed from Hattiesburg to Jackson, 90 miles, was begun on July 9. Full passenger service will commence in about two weeks. When the branches now under construction are completed the mileage of the road will be 250 miles. By an agreement with the holders of the first 5 s of 1897, that mortgage has been limited to the 70 miles from Gulfport to Hattiesburg, operated since 1897, so that the general 5s of 1900 will be a first lien on the remaining 180 miles of the road when completed.-V. 70, p. 1194.

Illinois Central RR.-Dividend Increased.-The directors on Wednesday declared a semi-annual dividend of 3 per cent in cash, payable Sept. 1, 1900, to stock of record Ang. 1. This makes the annual rate 6 per cent, as against 5 per cent from March, 1891, to March, 1900 , both inclusive.

Peoria Decatur \& Evanseille.-See that company, also Mattoon \& Evansville RR. below.-V. 70, p. 1249.

Jacksonville Terminal Ry.-See Atlantic Valdosta \& Western Ry. above.-V. 70, p. 230.

Kansas City \& Omaha Ry.-Sold to C. $\cdot B . \&$ Q.-The offer made to the bondholders by the Central Trust Co. last June has been generally accepted. We understand the purchase is made on behalf of the Chicago Burlington \& Quincy RR. -V. 70, p. 1095.
Kansas City \& Paciflc RR.-Injunction.-Judge Lacombe in the United States Court, on Thursday issued a preliminary injunction against the taking of further steps toward the consolidation of this company with the Missouri Kansas \& Texas. The suit was instituted some months ago on behalf of the minority stockholders objecting to the consolidation by the executors under the will of Robert S. Stevens, deceased, and Henry D. Mitich against the Missouri Kansas \& Texas Railway Co., the Kansas City \& Pacific RR. Co.. the Southwestern Coal \& Improvement Co. and Henry W. Poor. The attempt to consolidate the properties, it is said, will probably be abandoned. See V. 69, p. 1346.

Kentucky Railroads.-Injunction.-Judge Evane, in the Federal Court at Louisville on July 17 granted a temporary injunction in the suit of the Louisville \& Nashville, Chesapeake \& Ohio, Louisville Henderson \& St. Louis, and Southern Railways against the Kentncky Railroad Commission to prevent the operation of the McChord Anti-Estortion Rail road Bill, passed March 10 last (operative on June 12). The injunction will be made permanent.

Keoknk \& Hamilton Bridge Co.-Master's Report Cor rected.-After a hearing on the Master's report at Springfield, Ill., July 10, Jadge Allen allowed the item of expenses of litigation which the master had disallowed, thus including all the expenses of the Bridge Company as proper charges in the accounts with the guaranteeing railroads. See V. 70, p. 1204.

Lake Street Elevated RR. of Chicago.-New President. Howard Abel has been elected President to succeed D. H. Louderback, who resigned.-V. 70, p. 1149.
Lonisville Eransville \& St. Louis Consolidated RR.-Re organization Notice -J. P. Morgan \& Co., referring to their advertisement of June 23, 1900, annonnce that substantially all of the bonds of each of the issues therein mentioned, ex cept second mortgage bonds of the Louisville Evansville \& St. Louis RR., have been acquired or deposited nnder the plan of reorganization. The managers have decided to ex tend the time for further deposite of bonds without penalty until and including Aug. 15, 1900, after which date deposits of bonds, if accepted at all, will be received only upon such terms as the managers mav prescribe.
sppeal.-W. H. H. Miller, attorney for the Louisville Trust Co., announced on Tuesday that bis clients, as trustees nnder the second mortgage of 1886, would appeal from the decree of Judge Woods ordering a foreclosure sale of the property. The New York Security \& Trust Co., as trastee under the general mortgage of 1893, it is stated, joins in the appeal.-V. 71, p. 84.
Mattoon \& Evansville RR.-Successor Company.-This company was incorporated in Illinois July 10, with a capital stock of $\$ 50,000$, to operate that portion of the Peoria Docatur \& Evansville extending from the Indiana line ( 30 miles northwest of Evansville) to Mattoon, on the main line of the Illinois Central RR., a distance of about 100 miles. The board of directors is made up of the following representatives of the Illinois Central: John C. Welling, J. T. Harahan William G. Bruen, Thomas E. King, Clarence W. Moore, all of Chicago. The line in question comprises the old Evansville division, except the 30 miles thereof in Indiana, which, for technical reasons, is not included in the new company's property.

Metropolitan Street Ry. of New York.-Storage Battery Cars on 34th Street.-The new electric storage cars, it is ex pected, will be put in operation on the Thirty fourth St cross-town line to day. The new car has twice the carrying capacity of the one it replaces, and will shorten the trip from $42 d$ St. on the North River to 34th St. on the East River by five minutes.-V. 70, p. 1249.
Missouri Kansas dexas Ry.-Injunction Against Con solidation. -See Kansas City \& Pacific Ry. above.-V. 70, p. 946.

Missouri Pacific Ry.-New Securiiies.-The stockholders on Monday formally approved the proposition to increase the capital stock by $\$ 15,000,000$ and to issue $\$ 15,000,000$ debenture bonds for the purposes stated in V. 70, p. 894, 997.

New York \& Ottawa RR.-Receiver's Certificates.-Receiver Henry W. Gays is about to deliver $\$ 400,000$ receiver's certificates of the authorized issne of $\$ 585,000$. Counsel informs him that internal revenue stamps need not be at tached, but to satisfg intended purchasers Judge Lacombe has authorized him to purchase such stamps to the amount of $\$ 29250$, thas providing for the entire issue.-V. 70 , p. 812.
Norfolk \& Western Ry.-Conservative Policy.-The "New York Sun" on Thursday said: "President Henry Fink and his associate directors have, it is asserted, reached a harmonious agreement with the Pennsylvania RR. representatives in the board regarding the use of the surplus earnings this year. No dividends will be paid out of these surplus earnings this year but the money will be applied toward the improvement of the road."一V. $0, \mathrm{p} .1195$.

Northwestern Elevated RR. of Chicago.-New President. -L. S. Owsley has been elected President, succeeding D. H. Louderback, who resigned.-V. 70, p. 1150.

Pennsylvania RR.-Lines Leased.-President Cassatt says; The Allegheny Valley Rallway and Western New York \& Pennsyl Penneylvania RR, Co. The lines of Western New York \& Pennsyl vania Rallway Co., except the portion between New Castle \& Oll Clty and the llnes of the Allegheny Valleg Rallway, except that portion between Redbank and Driftwood, will constitute the Boffdlo \& Alle gheny Valley division. That portion of the Weatern New York \& Pennsylvania Railway between New Castie \& Oil City will be operated by the Peunsyivania co. Nr and on beller Rallway between Redbank and Driftwood will be operated as a part of the Philadelphla \& Erie RR. division.-V. 71, p. 30.

Peoria Decatur \& Evansville RR.-Successor for Portion of Road.-The Mattoon \& Evansville RR. Co. has been incorporated by representatives of the Illinois Central RR. to own the Eransville division, except the 30 miles in Indiana, which for legal reasons is kept distinct, though it is understood the whole division will be virtually merged in the Illinois Central. What disposition the Central will mako of the Peoria Division it is not prepared to say. Soe Mattoon \& Evansville above.-V. 71, p. 30.
Pittsburg Cincinnati Chicago \& St. Lonis Ry.-Maturing Bonds.-The consol. 7s of the Pittsburg Cincinnati \& St. Louis Railway, maturing Aug. 1, 1900, will be paid at maturity on presentation at the office of the Pennsylvania RR. in Philadelphia.-V. 70, p. 946.

Rio Grande RR.-Proposed Extension of Denver \& Rio Grande. -This company has been incorporated with a capital stock of $\$ 2,000,000$ to construct a road through the Wet Moantain Valley and build several other lines in the interest of the Denver \& Rio Grande RR. The directors are:
E. T. Jeffery, J. W. Glllaly, J. F. Vaile, C. W. Waterman J. B. An drewe, George Coppell, C. C. Beaman and R. T. Wilson.
San Francisco \& North Pacific Ry.-Called Bonds.-Twenty-two first mortgage bonds of 1889 have been designated by lot for redemption at 110 per cent and interest to Feb. 8, 1901, viz.
Nos. $43,100,312,419,668,1160,1604,1551,1601,1690,1784,1914,2200,2398,2715$,
$2942,3025,315!, 3256,3277,3356,3464$,
They will be paid at the Mercantile Trust Co., New York, on Feb. 8, 1901, at which date interest thereon will cease. V. 69, p. 181.

Schuylkill \& Juniata RR.-Lease.-The stockholders will vote July 24 on a proposition to lease the road to the Pennsylvania RR. Co.-V. 70, p. 997.
Sliore Line Railway of New Brunswick.-Receivers.-On July 13 Russell Sage of New York and H. H. McLean of St. John were appointed receivers of the company at the instance of the Metropolitan Trust Co. of New York. The road extends from St. John to St. Stephen, $821 / 2$ miles. Mr. Sage is said to hold over $\$ 500,000$ of the $\$ 800,000$ first mortgage bonds. For the year ending June 30, 1898, the gross earnings were $\$ 30,353$; net, $\$ 3,094$.
Southern Pacific RR. of California.-Listed.-The New York Stock Exchange has listed $\$ 974,000$ additional "unstamped" first consolidated mortgage gaaranteed 5 per cent gold bonds of 1937, making the total listed $\$ 6,576,000$. At the date of the last listing (see V. 70, p. 842) the company still held $\$ 2,500,302$ of its first consols unsold. Since then 22 miles of new road have been constructed and $\$ 429,408$ has been spent for new equipment, raising the amonnt on account of which bonds could be issued to $\$ 3,474,855$. The sale of the $\$ 974,000$ bonds just listed reduces the bonds now available to $\$ 2,500,855$. The total amount of first consols listed to date is $\$ 25,744,000$, of which $\$ 19,168,000$ are "stamped" bonds, subject to redemption at $1071 / 2$ and interest on and after April 1,1905.-V. 70. p. 995.

Toledo \& East St. Louis RR. - Incorporated.-This company has been incorporated in Illinois with $\$ 1,500,000$ of capital stock, to succeed to the Illinois portion of the Toledo, St. Louis \& Kansas City Ry., recently foreclosed. The Toledo St. Louis \& Western Ry. Co. was incorporated last week in Indiana to own the Indiana section, and this last will be the name of the reorganized property.
Toledo St. Lonis \& Kansas City RR.-See Toledo \& East St. Louis RR. above.-V. 71, p. 85.
Ulster \& Delaware RR.-Extension.-The new line from Bloomville to Oneonta, 22 miles, was put in operation on Monday, giving the company a through line from Kingston on the West Sbore RR. to Oneonta on the Dilaware \& Hudson, a distance of 109 miles.-V. 69, p. $3<2$.

Washington \& Potomac RR.-Sold.-At the foreclosure sale in Upper Marlborough, Md., on July 18, the road was bought in for $\$ 100,000$ by Charles B. Collier of Philadelphia, acting for the syndicate of bondholders who intend to reorganize the company and complete the road from Washington City to Point Lookout, with a branch to Esperanza, on Dram Bay. (See V. 70, p. 1197.)
Western New York \& Pennsylvania RR.-New Directors. On July 13 Charles M. Lea, E. W. Clark Jr., E. Clarence Miller and E.L. Owen retired from the board and their places were filled by the election of W. H. Barnes, John P. Green. T. De Witt Cuyler and Samuel Rea of the Pennsylvania $R R$. The lease of the road to the Pennsylvania RR. Co. will take effect Aug. 1.-V. 71, p. 85.
White Pass \& Ynkon Ry.-Extension.-Soon after the first of Angust it is expected through trains will be running from Skaguay to White Horse, a distance of 111 miles. From this point steamers run on the Yukon River to St. Michaels. - V. 69 , p. 542.

## INDUSTRIAL, GAS AND MISCELLANEOUS.

American Heat, Light \& Power Co.-New Enterprise-Prospectus.-A prospectus received from the office, 27 State Street, Boston, says the corporation is duly organized under the laws of New Hampshire, with a capital stock of $\$ 1,000$,000 , par value $\$ 100$ per share, for the purpose of installing isolated plants in the State of Massachusetts to supply heat, light and power by a patented method of producing gas from crude petrolenm. For power this gas, it is stated, may be nsed in gas engines or burned ander boilers to generate steam; when burned under boilers no change in construction is required, tiles being placed in the fire-box to defleot the flames. A large plant is said to be in practical operation at stock" has been subscribed. The prospectus does not name stock" has been subscribe
the officers or directors.

American Sasli d Inor Co.-Consolidation.-This company, incorporated in New Jersey Feb. 19, is now taking over the various plants included in the consolidation. The original prospectus (see V. 70, p. 383) provided for the acqui. sition of 32 mills. According to the "Chicago Inter-Ocean" the number actually acquired is about thirty, "embracing 75 per cent of the number, capacity and tangible value of the
sash, door and blind factories of Chicago." The capital stock is as follows: Preferred ( 7 per cent camulative), $\$ 2,500,000$; common, $\$ 3,500,000$. The mill owners bave taken a large percentage of the value of their plantsin the securities of the new company. The "Inter-Ocean" says:
The securities will not be listed untll the earning power of the comin escrow for a year at least. The earnings of the mille, uncombined, for a perlod of years equal more earninge of the mille, uncombined, plants taken orer. The profite nan 7 per cent on the values of costimated varionsly at from 8 to 20 per cent on the common stock, after the dividend of 7 per cent on the preferred etock has been paid. See

American Silver \& Casket Co.-Consolidation.-This company was recently organized under the laws of New Jersey, with a capital stock of $\$ 500,000$, to unite, it is stated, the following concerns : Strong Mfg. Co. and Morgan Sllver Plate Co., Winsted; Casket Hardware Co. and Textile Mfg. Co., Westfield, Mass.; Eldridge \& Co., Taunton, Mass.; Westfield Plate Co., Thompsonville, and the Gridley Co. and the United States Hardware Co., New Haven. The officers are:
President. Goo. H. Ford. New Haven; Vice-Presidents, David strong. Knell. Wegtfield, Mass; A H Matthewson Thompsonville; Treasurer, Kne L. Roberts, Winsted; Seoretary, G. L. Hart, Winsted.
American Sugar Refining Co.-Price of Sugar Again Advanced.-On Monday the several refining companies advanced all grades of refined sugar 10 points, or 10 cents a handred pounds, to $6 \cdot 10 \mathrm{c}$. From this price is deducted the trade rebate of 15 cent and one per cent for cash, bringing the net price to the refiner to 5.89 cents. Centrifugals are $47 / 8$ cents, so that the margin for profit is now 1.015 c .-V. $71, \mathrm{p}$. 86, 31 .

Asphalt Co. of America.-Pending Consolidation.-A plan is under consideration for the merger of this company in the new National Asphalt Co., which was incorporated in New Jersey on May 3. The plan laas not been officially announced, bat the Philadelphia "News Bureau" gives the pro. posed terms (as modified) as follows:
For 100 shares of Asphalt stook ( $\$ 1,000$ paid in) will be given $\$ 1,000$ in a new 5 per cent collateral trust certifioate; $\$ 700$ in new 6 per cent preferred stock and $\$ 1.000$ in new common. The new stocks will be non-assessabie,
footed by application to the State Departm Co. capital will be erto take over the Asphalt Company of America on the terms arranged. The present oapitalization of the National Asphalt Co. is $\$ 15,000,000$, and to take up the American Co. stock it will apply for permission to issue $\$ 6,000,000$ bonds. $\$ 10,000,000$ preferred stock and $\$ 12,000,000$ common stock. About $\$ 1,500.000$ preferred stock will remain in the treasury for futuro capital requirements. It is quite probable that
the discussed provision for annnally eetting aside from earnings the ine dest on the Asphait of America 5 s for the succeeding year will be adopted.
A. L. Barber is to be President and John Mack Viee-President. Members of the Widener-Elkins group of capitalists in Philadelphla
and of the Whitneg party in New York will be in the board of direotors. Only one or two of the present members of the Asphait Com-
pany of Amerioa board wili be in the new direrorate.-V. $71, \mathrm{p}$. 31 . pany of Amerioa board will be in the new direrorate.-V. 71, p. 31 .

Atlas Tack Co.-Successor Company.-This company has been incorporated in New Jersey with aathorized capital stock of $\$ 780,000$ to take over properties formerly owned by the Atlas Tack Co. of Maine.-V. 71, p. 86.

Baltimore Connty Water \& Electric Co.-Mortgage. -This company, recently formed by consolidation of the Chesapeake Electric \& Water Co. and the Catonsville Water Co., has made a mortgage to the Maryland Trust Co., as trustee, to secure $\$ 1,000,000$ of $40 \cdot$ year 5 per cent gold bonds. Of the authorized issae, $\$ 625,600$, it is stated, is $\mathrm{re}-$ served for fatare improvements, $\$ 245,000$ to retire bonds of constituent companies as they matare, and the remainder, $\$ 130,000$, are to be sold forthwith. The company proposes to furnish electric current for lighting, heating and power for commercial and railway purposes in Baltimore County, and to supply water to Canton, Highlandtown and Catonsville. The officers are: Thos. McGuinness, President; Martin Myerdirck, First Vice-President; Jno. W. H. Geiger, Second VicePresident, and Albert H. Wehr, Secretary and Treasurer, Law Building, Baltimore. The company is reported also to have parchased for $\$ 21,000$ all the Towson Water Company's real estate, plant, franchises, water mains, etc., located at Towson. Md.

Bay Countles Power Co.-Consolidation.-This company, a consolidation of the Nevada County Electric Power Co. and the Yuba Electric Power Co., is extending its lines from its main generating plant on North Yuba River to the Bay counties of California and as far as Oakland, operating in all in twelve different counties in central portion of the State. The present installation is 14,000 HP.; cost of plant about $\$ 2,500,000$. E. J. de Sable Jr. is President and General Manager. See Yuba Electric Power Co. item, V. 69, p. 133, and Sacramento Electric Gas \& Railway report, V. 70, p. 630.
The new company was incorporated in California about July 5 , with $\$ 5,000,000$ of capital stock. Incorporators: E. J. de Sabla Jr... C. A. Grow, R. M. Hotaling, J. Martin, W. M.

Bergner \& Engel Brewing Co.-Status.-This company, we are unofficially informed, is now earning mach in exceas of its interest carge, but all earnings over and above interest
are being used to retire its outstanding paper floated to make advances to customers. When this is all retired the company, it is asserted, will have about $\$ 1,000,000$ more assets (withont extra liabilities) than were contemplated when it was formed. Since Nov. 1st it has paid off over $\$ 200,000$ out of earnings.-V. 70, p. 948.

Brooklyn Gas \& Electric Co.-Proposed Sale-The stockbolders will meet July 23 "to consider a proposition to dispose for cash of a portion of the assets of the company, to distribute the balance of the assets pro rata among the stockholders and to take such action as will result in a dissolution of the company."-V. 69, p. 1250 .

Camden (N. J.) Gaslight and Fuel Co.-Incorporated.This company has been incorporated in Now Jersey with $\$ 600,000$ of authorized capital stock. Incorporators: F.W. Emger, G. Barker, E. A. Pruden, all of Newark; T. N. McCarter, attorney, Newark.
Cincinnati Leaf Tobacco Warehouse Co.-Majority As sents.-A large majority of the stock has been deposited in favor of the readjustment plan in V. 70, p. 1252.-V. $70, \mathrm{p} .31$.
Consolidated Gas Co. of Baltimore.-Managers' Ticket Elected.-At the annual meeting on Monday the ticket presented by the managers was elected by a vote of 47,166 to 39,902. The ticket elected is as follows:
 William W. Sp.
Conditimore.
W. B. F. Frick. orie
ck,
spence, capitalist

## Johil W. Hail, ex-President Contitimore.

James A. Gary, cotton manufacturer of Gas Co.. Baltimore.
Heary R. Wilson, banker, of Wilson \& Stephens, New York. Baltimors.

John E. Hurst, morchant, of Jobn E. Hurst \& Co., Baltimore
E. Austin Jenkine, merchant, of Edward Jenking \& Sons, Batımore.
G. A. Yo Lingen, German Consul aud silpping metchant, of
G. A. Von Lingen, German Consul and shipping merchant, of A. Schu-

, merchant. of Cahn, Belt \& Co, Baltimore.
Consolidated Gas Co. of New Fork.-Increase of stock.The stockholders on Monday duly authorized the increase of the capital stock from $\$ 54,595,200$ to an amount not exceeding $\$ 80,000,000$, for the purposes stated in V. 70, p. 1293. The official notice to the Secretary of State at Albany of the increase of the capital stock to $\$ 80,000,000$ states the debts of the company as $\$ 10,584,914$; capital paid in, $\$ 54,551,900$.-V. 70, p. 1293.

Danville Bessemer Co.-Meeting.-A meeting of the stockholders, it is stated, will be held shortly to authorize a sale of a portion of the property, the proceeds to be distributed to the stockholders. The plan, it is stated, is to sell merely the steel plant, the company retaining possession of the blast furnace and rolling mill.-V. 70, p. 999.

Detroit Teleplione Co.-Bonds to be Guaranteed.-The stockholders of the Michigan Telephone Co. have voted to guarantee the payment of principal and interest of the bonds. The guarantee will be stamped upon each bond and signed by the Treasurer of the Michigan Telephone Co. upon presentation at the company's office at Lowell, Mass. The bonds were described in V.63, p. 838, and V.66, p. 384.-V. 70, p. 178.

Dominion Coal Co.-Stock Offered.-The stockholders of record Aug. 1 will be permitted to subscribe to 10,000 shares of preferred stock at 110 per share, in the proportion of 1 new share for every 17 shares of preferred or common stock held. Payment must be made on or before Ang. 15. Stock will be dated Aug. 1, but will be entitled to dividend as from July 1, 1900. See V. 70, p. 1193 as to purpose.-V. 70, p. 1193.
Flemington Coal \& Coke Co.-Refunding-New Stock.At the annual meeting on June 15 the directors were anthor ized to retire the $\$ 500,000$ of 5 per cent bonds which fall due in ten years, and to issue instead an equal amount of 6 per cent 20 year bonds, the latter to have a sinking fund of seven cents per ton on the coal mined. The present bondholders, it is stated, are willing to exchange their securities for the new issue, which will not be subject to call.

The stockholders also authorized an increase of $\$ 500,000$ in the capital stock. The new stock, it is said, will be held in the treasury for the present and will be used only for the purpose of building a coke plant and for mine development.
New Officers.-The new President, elected recently, is Joseph D. Reading, succeeding S. L. Simpson, who becomes Vice-President and General Manager. H. E. Moller was elected Treasurer.-V. 68, p. 1076.

General Electric Co.-New Stock to Retire Bonds.-The stockholders on Tuesday voted to increase the capital stock by $\$ 4,415,000$ in order to provide for the conversion of the $\$ 5,298,000$ debentare bonds still outstanding, as from time to time presented. The debentares are convertible at any time into common stock on the basis of $\$ 120$ of their principal for $\$ 100$ of common stock. See also V. 70, p. 1293.
Georgia Electric Light Co.-Mortgage for \$2,000,000.-See Atlanta Rapid Transit Co., under Railroads above.

Grand River Coal \& Coke Co.-Guaranty.-The amount of bonds carrying the guaranty recently printed is $\$ 125,000$ out of $\$ 949,000$,-V. 71, p. $8 \%$.
Henry Clay Pure Rye Distilling Co.-New Company.This company has been organized with $\$ 1,000,000$ authorized capital stock, of which $\$ 500,0007$ per cent non-cumulative preferred. The new company, it is understood, will take over part, if not all, of the business of the Pepper Whiskey companies. The company was incorporated in New Jersey about July 9. Incorporators: J. E. Pepper, E. O. Pepper, . Duttson, all of Jersey City; N. Baur, attorney, N. Y.
International Power Co.-Rights of Preferred Stock.The rights of the preferred stock are stated in the certificate of incorporation as follows:

The preferred stook is to be issued for oash at the par value thoreof and ehall be preferred as to dividend, whith are to be cumulative untll pald to the extent of slx per cent ( $6 \%$ ) per annum, payable out of net oarnings (before any dividends are deolared on the oommon stook) upon the amount actually pald in upon suoh proferred stock
from the date or dates whereon the same shall have heen pald. in addition to the cumulative dividend aforesaid evory share of such preferred stook is to be pald a dividend equal to that upon a share of common stook when and as often as a dividend shall be deolared on the common stock.

The $\$ 6,400,000$ common stock has been placed on the unlisted department of the New York Stock Exchange. See "Annual Reports" on a preceding page.-V. 70, p. 432.
Inter-State 011 Co.-Status.-This company, whose shares were recently active on the outside market, was incorporated in Angust, 1899, under the laws of New Jersey, with $\$ 2,200,000$ authorized capital stock (par $\$ 30$ ), to operate oil properties in W Joming. The company owns, it is stated, 50,000 acres of oil lands. Its directors include, with others: Charles D. Oramp. of Philadelphia; Thomas 8. Moffatt, of Chicago, president; Henry W. Lambirth, of Philadelpha, vice-President; Rod-ex-Mayor of Camden, N. J., Seoretary, and A. E. C. Clothler, of Philaexelphia.
del
The stock is all common and no bonds have been issued. Thomas B. Williams, of 42 New St., New York, is interested.
Johann Hoff Malt Co. of Newark, N. J.-Mortgage. - The company has made a mortgage to the Knickerbocker Trust Co. of New York, as trustee, to secure $\$ 1,000,000$ twentyyear 5 per cent bonds of the value of $\$ 1,000$ each, dated Aug. 1, 1900. Joseph Mendelson is President.
Knickerbocker Ice Co. of Chicago.-Dividend Not Declared. -The directors at their meeting on July 12 took no action regarding the dividend on the common stock, and it is anderstood that none will be declared for the half-year now ended, cold weather in June having restricted sales.-V. 70, p. 790 .

Kentucky Heating Co. of Louisvllle.-Adverse Decision. -Soe Louisville Gas Co. below.-V. 70, p. 1197.

Louisville Gas Co.-Franchise Exclusive as to Illuminating Gas.-Judge Toney, at Louisville on July 12, handed down a decision declaring that the Louisville Gas Co. has the exclusive right to supply illuminating gas for illuminating and heating purposes in Louisville. He also granted an injunction restraining the Kentucky Heating Co. from selling natural gas or a compound of natural and artificial gas, known as fuel gas, for illuminating purposes by the use of the Welsbach burner or other mechanism. The decision further holds that the Kentucky Heating Co. has the right to sell non-illuminating gas-gas not used for illuminating pur-poses-in Louisville for heating purposes only, and also to sell nataral gas and natural gas mixed with carburetted water gas for heating purposes only. The decision was given in the Jefferson Circuit Court.-V.65, p. 571.

Lower Merion Gas Co.-Increase cf Stock. -The stockholders will vote at the office, northwest corner Broad and Arch streets, Philadelphia, on Sept. 5, 1900, on a proposition to increase the capital stock from $\$ 200,000$ to $\$ 250,000$; par value of shares $\$ 50$.
Madison Square Garden Co. of New York City.-Lease.James C. Kennedy has leased the main auditorium but not the theatre, for one year from Jane 1. 1900. After Aug. 31, it is stated, the Garden will be devoted wholly to athletic exhibitions of the Twentieth Century Athletic Club. All the coupons on the first mortgage loan, which from time to time have been several months overdue, are now paid in full to May 1, 1900, inclusive.-V. 68, p. 85.
Marion (Ind.) Gas Co.-Purchase-Mortgage.-This company, which recently purchased from the Mississinews Mining Co. its natural gas plant at Marion, Ind., and it is said about 20,000 acres of gas and oil leases, has filed a mortgage to the Union Trust Co. of Pittsbarg, as trustee, to secure $\$ 400,000$ bonds of $\$ 1,000$ each.

Michigan Telephone Co.-Bonds to be Guaranteed.-See Detroit Telephone Co. above.-V. 70, p. 742.
Montana Coal Iron \& Coke Co.-Incorporated. -This company has been incorporated in New Jersey with $\$ 4,500,000$ of anthorized capital stock. Incorporators: R. C. Ellis, R. I. McKinstry, E. Fred Center, E. F. Glenn and Joseph Gilfillan, all of Camden. The shares of a company known as the Montana Coal \& Coke Co. are already listed on the Boston Stock Exchange, but the two companies, we are informed, are entirely distinct. See V. 69, p. 1014.-V. r0, p. 1098.
National Wall Paper Co.-Dissolution Authorized.-The stockholders on Tuesday voted to dissolve the company, and empowered the old board of directors to act as trustees during the dissolution proceedings. Some of the factoriss, it is understood, will be bought by their original owners, and the others will' be sold to the ligghest bidder. President Henry Burn makes the following official statement:
No opposition developed at the meeting of the stookholders in respect to the proposed dissolution of the company, and we therefore expeot very shortly to be able to announce the completlon of the plan that has been under consideration to bring about such dissolution.
The successfal manufacture of wall paper, it is claimed, depends so largely on designs, individual taste and persona a ttention to the requirements of different localities, that independent plants can be operated to better advantage than can many plants under one head.-V. 71, p. 33.

## 

## PACIFIC MAIL STEAMSHIP COMPANY.

EXTRACTS FROM ANNUAL REPORT FOR THE YEAR ENDING APRIL 30TH, 1900.

| New York, June 16th, |  |  |
| :---: | :---: | :---: |
| The President and Directors submit herewith their report |  |  |
| of the Company's operations for the year ending April 30th, 1900 , and statements showing its financial condition and property at the close of the year. |  |  |
|  |  |  |
| I.-INCOME FOR THE YEAR. |  |  |
| The receipts and disbursements for two years have been as follows: |  |  |
| eipts. | $\text { This } \underset{\sim}{F}$ |  |
| Gross earnings from steamers operated....2,664,940 42 2,744,012 52 |  |  |
| Gross earnings from steamers chartered... 944,90000$M$ Mexican Government, for transportationa |  |  |
| of malls.................. .................. .......... 2,83 |  |  |
| Central American governments, for trans- |  |  |
| mortation of mails -........................ | 12,282 00 |  |
| Interest on investments and loans......... |  |  |
| Total recelpts...........................3,817,620 30 4,140,713 22 |  |  |
| Expenses of steamers operated |  |  |
|  |  |  |
| General and extraordinary rep |  |  |
|  | 349,380 0 | 460,557 27 |
|  |  |  |
| Miscellane |  |  |
|  |  |  |
| Total expenses...........................2,987,431 01 3,024,377 |  |  |
| Recelpts over expeases........................ 830,189 29 <br> Deduot loss 88" Starbuck" |  | 1,116,335 82 |
|  |  | 298.01188 |
| Balance................................. 830,189 29 |  |  |

The increase in "Steamers" consists of $\$ 398,59262$, paid for the SS. Algoa, less $\$ 180$ proceeds from sale of steam launch. The increase in "Steamers building under contract" represents cash payments made during the year for account of their construction.

The payments to April 30, 1900, for account of the two new steamships referred to in the preceding annual report, have amounted to $\$ 996,000$. Since the close of the inscal year $\$ 332,000$ additional has been paid for their account
Two dividends of $1 \frac{1}{2}$ per cent each, amonnting to $\$ 600$, 000 , were paid June 1 and Decenber 1, 1899, on the outstanding stock of the Company.

Respectfully,
C. P. HUNTINGION,

President.

## COLORADO MIDLAND RAILWAY COMPANY.

OFFICIAL STATEMENT TO NEW YORK STOCK EXCHANGE. ALL BONDS NOW FULL FOUR PER CENT AND RIGHT TO 1SSUE PRIOR LIEN BONDS ABROGATED.

## New York, July 9, 1900.

The Governing Committee on April 27, 1898, admitted to the list the First Mortgage Bonds of the Colorado Midland Railway Company. By the terms of the Deed of Trust, the interest upon these bonds is payable semi-annually January 1 and July 1, as follows:
"From July 1, 1897, to July 1, 1900, Two per Cent per annum in after Four per Cent. The remainder of the interest to July thereup to Four per cent, shall he payable in money on the first day of July of each jear, if the earnings of the preceding year will permit, or to the extent not so earned in Scrip convertible into Preferred, Stook Voting Trust Certificates. Coupons dated July 1.1898 , 1899 and
1900 are stam ped on the back as follows: '\$20 aditional payable 1900, are stam ped on the back as follows: '\$20 adjitional payable
hereon in oash, if earned during preceding year, or 1 ll Prefe red stook
Sorin tor so much as ls not so earned.' and 1902 are stamped, $\$ 10$ additional earned during the preceding year, or in Preferred Stook Scrip for muoh as is not so earned.'
And it is further provided that "until July 1, 1903, the right is reserved to confer upon bonds Nos. 9,501 to 10,000, in clusive, a priority of lien for principal and interest over all other bonds of this issue, subject, however, to the approval of the Trustee of the Mortoage," as published in the circular of the Committee on Stock List, A-2027.
The Committee has received and hereby publishes the following report of the action of the Directors of the Colorado Midland Railway Company in reference thereto:
"Whereas. It is provided in subdivision G, Section 2 of Article 1 of the First Mortgage Deed of this Company, dated July 1, 1897 , that 500 of thls Company's First Mortgage Brnd8, numbered from 9,501 to
10,000, both inclusive, shall, ic the Board of Directors shall so deter10,000, both inciusive, shall. ic the Board of Directors shall so deter-
mine, have a priority of lien for the principal thereof and the interest mine, have a priority of lien for the principal thereof and the interest
therron over all other bonds of the issue gecured by said First Mortgage, whioh priority shanl be evidencod by an engraved or stamped the right of this Company to resh priority, provided. however. that shall not be exercised except by and with the writtell consent of the Trustee of said Mortgage, and that such right ahall not in any event be exeroised after July 1, 1903; and
Whereas, None of sald bonds have been issued as Prior Lien Bonds; and
Whereas, The right to issue suoh Prior Lien Bonds was reserved because of conditions then existing which it was thought might make
such issue of bonds necessary or desirable, and which oonditions no such isaue of bonds necessary or desirable, and which conditions no onger exist; and
Whereas, At a meeting of the Voting Trustees under the Voting Trust Agreement of this Company, dated October 29, 1897, held on June 7,1900 , a resolution was adopted requesting this Board to waire the right given this Company under subdivision G of Section 2 of Ar.
ticle 1 of the said First Mortgage Deed to issue said bonds as Prior Lien Bonds; and
Whereas, In the opinion of this Board, it is for the interest of this Company and of the Stockholders thereof and of the holders of its aforesagd, be waived and abrogated, and that all of the bonds issued aroresaid, he waived and abrogated, and that all of the bonds issued the Company, set forth in its said First Mortgage Deed;

National Linseed OII Co.-No Receiver for Remaining Assets.-Judge Kohlsaat, in the United States Circuit Court, has declined to appoint a receiver, as apparently less than 3 per cent of the stock and bond holders desired the change. See V. 70, p. 844.
National Wire Corporation of New Haven, Conn.-First Dividend.-The company has declared its first quarterly dividend, $11 / 2$ per cent, payable at the offioe, 141 High Street, Boston, Aug. 9, to stockholders of record July 31. The company was promoted by George E. Armstrong \& Co.-V. 70, p.

New Brunswick Cannel Coal Co.-Stock Offered.- This company, organized under the laws of the Province of New Brunswick, with 200,000 shares capital stock, par value $\$ 10$ each, recently offered for sale 25,000 shares of its treasury stock at $\$ 6$ per share, the proceeds to be devoted to the further equipment of the property and to extending its business. A prospectus says
The company owns the mining rights, leases, etc., oovering an area of over 27 square mileg, through which run 6 velns of cannel coal. The Salishary \& Harvey RR. passe日 directly through the property and con-
neots it with the Intercolonial RR. and with a tide water port 6 miles neots it with the Intercolonial RR. and with a tide water port 6 miles
from the mines. There is no bonded or other indebted nese against the from the mines. There is no bonded or other indebted ness against the
company. It 18 the intention to immediately prt the property in condition to ontput 1,000 tons per day.
 Wmos B. Chandler, Moncton, N. B.; Alexander MoElwee, New York; Arthur J. Anthony, New York.
Alexander McElwee is President and Arthur J. Anthony Secretary and Treasurer, 29 Broadway, New York.
Newtown \& Flushing (N. Y.) Gas Co.-IncorporatedThis company has been incorporated to supply gas in the Borough of Queens. Capital stock, $\$ 300,000$, in shares of \$100 each, Directors: Henry R. Wilson, of New York City: Thomas W. Stephens, of Montclair, N. J., and Edward J. Patterson, of Plainfield, N. J.
New York Telephone Co.-Increase of Stoclc. -The stockholders will vote Aug. 8 on the proposition to increase the capital stock from $\$ 16,000,000$ to $\$ 30,000,000$.-V. 70, p. 844.
Park Steel Co.-Merger. -In the consolidation with the
Crucible Steel Co. of America, it is anderstood, the pro-

Now, therefore, be it Resolved, That this Board does hereby declare that the right to $188 u$ e the Mortgage Bonds of this Company, numbered froin 9.501 to 10,000 , both inciasive, having priority of lien for the principal thereof and the interest thereon over other bonds of the
issue secured by sald Firgt Mortgage Deed of July 1, 1897, is hereby issue secured by sald
waived and abrogated.
And be it further Resolved, That sald 500 of said honds, numbered from 9,501 to 10,000, both inclusive, may be certified. Issued and used at any time hereatiter in the manner and for the purposes set forth in subdivieion $F$, Section 2, of Article 1 of sald Firet Mortgage Deed.
And be ilfurther Resolved, That a copy of these resolutions, duly sliall ed by the seoretary of this Company, under its corporate seal slall be filed for record in the offices of the reapective recorders of
deeds of the counties of Colorado in whioh said Firgt Mortgage Deed is rocorded, and that a like certified copy be flled with the Trustee of the Mortgage.
I hereby certify that the foregolng is a true oopy of a resolutlon of the Board of Directors of the Colorado Midland Railway Company, adopted at a meeting held on June 22, 1900.
New York, June 25, 1900. OSCAR BUNKE, Seoretary."
"Whereas, It is provided in coupons numbered 6.8 and 10, attaohed to this Company's First Mortgage Bonds numbered 1 to 8,250 , both inolusive, and 7,301 to 8,550 , both inolusive, that certain amounts of
the interest in sald coupons named may be pald in Preferred Stook the interest in sald coupons named may be pald in Preferred Stock Sorlp, and
Whereas, At a meeting of the Voting Trustees nnder the Voting Trust Agreement of this Company, dared October 29, 1897. held on the 7th day of June, 1900, a resolution was adopted hy said Voting Trastees, requesting this Board to waive the right given this Com pany, as shown by said ooupons above mentloned, and ae set forth in gage DGed, to issue Preferred Stock Sorip in payment of a part of the amount due upon eaid coupons as aforesald. and
Whereas, In the opinion of this Board it will not be necessary for coupons and in gatd Mortgage Deed to issue such Preferred saic Scrip in payment of any part thereof, and it will be advantageous for the holders of its Stock and of its Mortgage Bonds that such right to issue Scrip should be walved and abrogated, and that hereaiter inter est should be pail in oash npon each and all of this Company's First Mortgage Bonds at the rate of Four per Cent per annum.
Nov, therefore, be it Resolved, That this Board does herebs declare that any rigit this Company may have to pay or discharge any part of said conpons numbered 6, 8 and 10, attached to said bonds num bered 1 to 6,250 , both inclusive, and 7,301 to 8,550 , both inclusive. by
delivering to the holder of sald coupons Sorip or sorip Certificates in delivering to the holder of saild coupons Sorip or sorip Certlifates in
lieu of oash, as in sald coupons and in said Mortgage provided, be and lieu of cash, as in sald coupons and in said
And be ilfurlher Resolved, That upon said conpon numbered 6 the sum of $\$ 30$ shall be paid in oash, and upon said coupons 8 and 10 each the sum of $\$ 25$ shall be paid in cash, as they severally mature.
And be if further Resolved, That a copy of these resolutions daly certifed by the seoretary of this Company, be fled with the Trustee of sald Mortgage.
I herely cerlify that the foregoing is a true copy of a resolution of the Baard of Directors of the Colorado Midiand Railway Company, a dopted at a meetling held on June 22, 1900.
New York, June 25, 1900.
OSCAR BUNKE, Seoretary."
ferred stockholders of the Park Steel Co. will receive in exchange for each share of their holdings one share of new preferred and one of common. The preferred stock of the Park Company is $\$ 5,000,000$; common stock the same amount. See V. 70, p. 840.
Peekskill (N. Y.) Lighting Co., Peekskill.-Incorporated. -This company has been incorporated with $\$ 500,000$ capital stock, to furnish electricity. Incorporators: B. B. Nostrand, Jr., of Peekskill; H. H. Porter, Jr., G. H. Sonneborn, both of New York City; R. Talbot, of Tuxedo; H. S. Morton, of Hoboken, N. J.; Ágar, Ely \& Falton, Attorneys, New York.
Peninsula \& Occidental Steamship Co.-Consolidation. Judge Simeon E. Baldwin, of the Supreme Court of Connecticat, sitting in the Superior Court on July 12, hauded down an order authorizing therecently-announced consolidation of the Southeastern Steamship Co., known as the Plant Steamship Line, with the Florida East Coast Steamship Co., under the title of the Peninsula \& Occidental Steamship Co. The capital stock of the new company is $\$ 2,000,000$.-V. 70, p. 1294.

Pratt \& Whitney Co.-Plan Endorsed.-The directors last week voted to recommend to the stockholders the acceptance of the proposition of the Niles-Bement Pond Co., namely: To reincorporate the company as the Pratt \& Whitney Co. under the laws of New Jersey, the capital stock to be $\$ 2,750,000$, of which $\$ 1,225,000$ will be preferred 6 per cent, cumulative as to assets and dividend. The Niles-BementPond Co. will guarantee the payment of the 6 per cent dividend on the preferred stock provided it earns that amount ou its own stock. Each $\$ 100$ share of the present $\$ 1,750,000$ preferred stock will be exchanged for $\$ 70$ in the new preferred stock and $\$ 3$ cash. Each $\$ 100$ share of the present $\$ 1,525,000$ common stock will be bought for $\$ 10$ cash.-V. 70, p. 1253.
Price, McCormick \& Co.-Plan of Settlement.-William Nelson Cromwell, counsel to assignee William J. Curtis, has made a statement to the creditors. The firm's indebtedness, he says, amounted to about $\$ 13,000,000$ and the secured loans to over $\$ 10,000,000$. Over $\$ 8,000,000$ of the loans have been discharged. Among the assets remaining are some securities of a kind not immediately marketable at ad. vantageous prices, and Mr. Cromwell believes that if certain
of the securities of this class are not now thrown upon the market they will, within two years (and some at an earlier date), produce a much larger sum. The chief asset of this character is about 20,000 shares $(\$ 1,000,000)$ of the Philadelphia Company, of Pittsburg. [See Street Railway Supple MENT.]
The following plan is therefore suggested:
(a) The immediate discharge of all outstanding loans, and the reemption of the remaining collateral thereon
(b) The prompt distribution of 50 per cent in cash to oreditors availing of the plan, and the establishment of a trust in respect of certain important assets which are not immediately marketable ex cept at a great saoritice.
(c) Or, at the option of such creditor, to be exercised as stated in the pran, 25 per cent in oash and the distribution to him in kind of (d) In either case, the further distribution by the trustees, from time to time, of the net proceeds of the assets embraced in the trust, inoluding any further dividends paid by the assignee; due allowance. of course, being made as to the respective rights and interests of (e) The prompt winding up of the grivileges.
(e) The prompt winding up of the general assignment.

James G. Cannon (Chairman), Brayton Ives and William Lanman Bull have consented to act as trustees under the plan. Creditors are requested to deposit their respective claims, etc., under the plan on or before August 6, 1900, with the Metropolitan Trust Co., No. 37 Wall St., which Trust Company will issue negotiable certificates of deposit therefor.
St. Louis National Stock Yards.-Mortgage.-The company has made a mortgage for $\$ 250,000$ to the American Trust \& Savings Bank of Chicago, as trustee, covering real estate, etc., in St. Clair County and in Venice Township, Madison Ceunty, Mo.
Salt Lake City Water \& Electric Power Co.-Receiver.The company was placed in the hands of a receiver on July 7. The capital stock is stated as $\$ 1,000,000$; liabilities, $\$ 400,000$. President Tarbet is a creditor for $\$ 235,000$ and Allan $G$. Lamson for $\$ 60,000$. The receiver is Joseph Geoghegan, and his appointment was made on complaint of W. G. Benham, the holder of $\$ 83,300$ of the company's $\$ 1,000,000$ capital stock, with a view to reorganization. The property will probably be sold by the receiver and then bonded to provide for the existing indebtedness and to provide $\$ 100,000$ with which fully to complete the plant. Mr. Tarbet, it is stated, owns $\$ 458,400$ stock, Mr. Lamson and his friends $\$ 458,300$ and Mr. Benham as above stated $\$ 83,300$. The company has a power house at Jordan Narrows.
Sharon (Pa.) Steel Co.-Coal Lands Leased.-The company, it is stated, has leased 20,000 acres of coal land situated between Sharon and Harrisville, Pennsylvania.-V. 70, p. 180
(John) Stephenson Co.-Succcssor Company.-This company has been organized as successor of the old Stephenson Car Co. Authorized capital stock $\$ 200,000$. Incorporators: William S. Harris, Bayonne; C. B. Hedges, New York City, and V. H. B. Shoemaker, Brooklyn.-V. 71, p. 88.
Stonghton Gas \& Electric Co.-Mortgage.-The company has made a mortgage to the International Trust Co., as trustee, to secure an issue of first mortgage 5 per cent 20 - year bonds, to be issued for the purpose of constructing an incandescent lighting system and for extensions 'and improvements.

Union Station Co. of Savannah.-New Enterprise.-This company has been formed in Georgia to build a union passenger station and terminal in Savannah for the use of the Seaboard, Southern and Plant railway systems. The company will be capitalized at $\$ 300,000$ and will build and control about eight miles of track. Work will be started in about six weeks,

United Electric Securities Co.-Offer to Purchase-44th Call.-Proposals are asked for sale to the company of as many of its collateral trust 5 per cent bonds of the fifth, sixth and eighth series as can be purchased with the following amounts of cash: Fifth series, $\$ 29,858$; sixth series, $\$ 3,411$; eighth series, $\$ 75,190$; total, $\$ 108,458$.

Sealed proposals will be received at No. 68 Ames Building, Boston, until 12 m . Tuesday, July 3, 1900 , and all bonds accepted will be paid for on July 6,1900, on delivery, together with accrued interest to that date.-V. 70, p. 898.

United States Pnenmatic Morse Collar Co.-Meeting.The stockholders will meet July 30 to hear a report of the directors as to the financial condition of the company and to appoint a committee to outline the future policy of the company and to formulate a plan to finance the same.-V.70, p. 284.

Waterloo (Ia.) Water Co.-Incorporated. - This company as been incorporated with a capital stock of $\$ 340,000$ by C W. Mullan and J. E. Sedgwick.

Yuía Electric Power Co.-Consolidation.-See Bay Counties Power Co.-V. 69, p. 133.

- Attention is called to the offering of German Govern. ment and manicipal bonds by Messrr. Otis, Wilcox \& Co., Chicago. It will be noticed that the bonds are offered at prices to not the investor from $31 / 2$ to 4 per cent. Particulars will be found in the page advertisement in this issne.
- The National Salt Co. has declared a quarterly dividend, No. 5, on its preferred stock of $13 / \nmid$ per cent; also a first dividend on its common stock of $11 / 8$ per cent, and an extra dividend of $1 / 2$ per cent, all payable on Ang. 1 to holders of record July 25.

## the $\mathfrak{C o m m e x c i a l}$ teimes.

## COMMERCIAL EPITOME. <br> Friday Niget, July 20, 1900.

The condition of business in most lines of trade has been fairly satisfactory for the season of the year; demand, as a rule, has not been large; still it has been well up to an average for the midsummer period. No improvement has been as yet noted in the situation of the iron and ste日l markets; the large buyers have continued to hold off, and to sell foundry men have had to make concessions. Reports from the dry-goods trade have noted generally quiet conditions; in cotton goods the China situation is an unsettling factor. In the grocery trade prices generally have been firm and coffee and sugar have been advanced. Crop accounts have been favorable and corn has suffered a sharp decline in values, resulting from the fall of general and beneficial rains in the corn belt.

Lard on the spot has been easier and at the lower prices exporters have been fair buyers. The close was steadier at $7.071 / 2 \mathrm{c}$. for prime Western and 5.50 c . for prime City. Refined lard has been in moderate demand; prices have weakened, but the close was steady at $7 \cdot 35 \mathrm{c}$. for refined for the Continent. Speculation in lard for future delivery has been fairly active, but at lower fprices, the decline in corn and liquidation by longs being the depressing factors. The close was steadier.

Pork has had only a small sale and prices have been weaker, closing at $\$ 1275 @ 1350$ for mess, $\$ 1500 @ 1550$ for family and $\$ 1350 @ 1500$ for short clear. Cut meats have been quiet but steady at $63 / 4 \mathrm{c}$. for pickled shoulders, $93 / 40$ $101 / 2 \mathrm{c}$. for pickled hams and 81/4@9c. for pickled bellies, $14 @$ 10 lbs. average. Beef has been dull and easier, closing at $\$ 900$ for mess, $\$ 950 @ 1100$ for packet, $\$ 1050 @ 1200$ for family and $\$ 1600$ for extra India mess in tierces. Tallow has been in moderate demand and steady at $45 / 8 \mathrm{c}$. for prime City. Lard stearine has been dull, closing at oc. for prime City. Oleo-stearine has been neglected, closing at $73 / 4 \mathrm{c}$. Cottonseed oil has weakened slightly, closing dull at $361 / 2 @ 37 \mathrm{c}$. for prime yellow. Butter has had a fair sale and desirable grades have been well held, closing at $161 / 20191 /$ c. for creamery. Cheese has been dull and easy, closing at $8 @ 97 / 8$ c. for State factory, full cream. Fresh eggs have been firmer, closing at $15 @ 151 / 2 \mathrm{c}$. for choice Western.

Brazil grades of coffee have been active at advancing prices. The, local trade, stimulated by stronger advices from primal markets, has been a large buyer. The close was steady at $97 / 8 \mathrm{c}$. for Rio No. 7 on the spot. West India growths have bsen in fairly active demand; offerings have been limited and prices have advanced to 11c. for good Cucuta. East India growths have been fairly active and firm. Speculation in the market for contracts has been fairly active. There has been considerable new buying, stimulated by a continued very moderate movement of the Brazil crop and stronger European and Brazilian advices. The close was easier under realizing sales. Final asking prices were:
 Sept............. 8.45c. | Dec............... 8.850. 1 May.............. 9•10s
Raw sugars have been in fair demand, and prices have been advanced, closing at $47 / 8 \mathrm{c}$. for centrifugals, 96 -deg. test, and $43 \% \mathrm{c}$. for muscovado, $8 y$-deg. test. Refined sugar has been firm and at the opening of the week prices were advanced 10 points, to $6 \cdot 10 \mathrm{c}$. for granulated. At the higher prices business has been quiet. Teas have been in active demand and firmer.

Kentucky tobacco has been quiet but steady. Seed leaf tobacco has been in better demand and steady. Sales for the week were 2.600 cases, as follows: 150 cases 1599 crop, New England Havana seed, $2 \overline{0} @ 40 c$; 250 cases 1898 crop, Pennsylvania broad leaf, $11 @ 12 c . ; 1,200$ cases 1893 crop, Zimmers, Spanish, 12@14c., and 1.000 cases 1899 crop, big flats private terms; also 400 bales Havana at 60@90c. in bond and 100 bales Sumatra at 70c @\$150 in bond.

The local market for Straits tin was under close control and prices have been advanced, closing at $34 \cdot 871 / 2 @ 35 \mathrm{c}$. Copper has been quist, but the market has held firm, closing at $161 / 2 \mathrm{c}$. for Lake. Lead has sold slowly, but prices have been unchanged at 4c. for domestic. Spelter has weakened slightly to $4 \cdot 171 / 2 @ 4 \cdot 221 / 2 \mathrm{c}$. for domestic. Pig-iron has been dull and easier, closing at $\$ 15 @ 19.75$ for domestic.
Refined petroleum has been steady, closing at 7.85 c . in bbls., $5 \cdot 30 \mathrm{c}$. in bulk and $9 \cdot 15 \mathrm{c}$. in cases. Naphtha nuchanged at 9.55 c . Crude certificates have been neglected. Credit balances muchanged at $\$ 125$. Spirits turpentine has been advanced slightly, but the close was easy at $463 /{ }^{(1741 / 4} \mathrm{c}$. Rosins have been dull and unchanged at $\$ 155$ for common and good strained. Wool has been steadier, with a better in quiry reported. HoI have been unchanged and steads.

## COTTON.

Fibiday Niget, July 20, 1900.
The Movement of the Crop, as indioated by our telegram: from the South to-night, is given below, For the week ending this evening the total recelpts have reached 40,879 bales, against $25,6!2$ bales last week and 13,708 bales the previous week, making the total recelpts since the 1st of Sept., 1899, 8,487,855 bales, against 8,374,453 bales for the same perlod of 1898-9, showlng a decrease since Sep.1, 1899, of 1,886,598 bales.

Speculation in cotton for future delivery has been moderately active. The tone of the market has been nervous and the course of prices erratic. D svelopments in the main have been of a bearish character. At the close of last week prices declined rather sharply under general selling, prompted largely by the improved outlook for the crop as pablished by the Chronicle. Monday and Tuesday the downward tendency to prices continued, Private advices received from the South quite generally reported the crop outlook improving as a result of the favorable weather conditions experienced thus far this month. The weekly Burean report also denoted au improvement. Another factor that has received considerable attention in the trade and that has had a weakening influence has been the uneasiness over the situation in China. On Wednesday the market took a decided tarn for the better. A crop estimator, who made himself conspicuous last fall in standing out against the general views of the cotton trade and claiming that the yield of the present crop would reach $11,000,000$ bales, issued a bullish circular in which he said that considerable and irreparable damage had been done by the unfavorable weather in June and that much land was abandoned to grass. To the surprise of the majority of the trade, Liverpool apparently took the report soriously, prices in that market advancing sharply. Locally, buying by foreign and New Orleans shorts to cover contracts and sympathy with the rise in Liverpool market advanced prices, particularly for the near-by positions. Thursday there was a quiet market and under scattered selling, prompted by fayorable crop accounts, prices weakened slightly. The strength of the statistical position and the operations by the ball clique in New Orleans served to hold the market from a sharp decline. To-day the market was quiet and prices eased off slightly under weaker foreign advices and continued favorable crop accounts. The close was steady at a net decline for the day of $5 @ 9$ points, exclusive of Jaly, which was unchanged. Cotton on the spot bas been quiet, closing at 10c. for middling uplands.
On the basis of the rates on and off middling as established by the Revision Committee, the prices for a few of the crades would be as follows:

cis The imports into Conti been $18,000 \cdot$ bales.

The above figures indicate a decrease in the cotton in sight to-night of $1,548,716$ balas as compared with the same date of 1899 , a loss of $1,034,373$ bales from the corresponding date of 1898 and a decline of 362,302 bales from 1897 .

AT TEE INTERIOR TOWNS the movement-that is the receipts cor the week and since September 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period of $1898-99$-is set out in detadl below.

The above totals show that the interior stocks have deoreased during the week 14,022 bales, and are to-night 183,557 bales less than at same period last jear. The receipts at all towns have been 1,600 bales less than same week last year,

Overland Movement for the Week and Since Sept. 1.We give below a statement showing the overland movement tor the week and since Sept. 1, as made ap from telegraphio reports Fridsy night. The results for the week ending July 20 and since Sept. 1 in the last two years are as follows.

| July 20. | 1899-1900. |  | 1898-1899. |  |
| :---: | :---: | :---: | :---: | :---: |
|  | Week. | since Sept. 1. | Week. | since Sept. 1. |

The closing quotations to-day (Friday) at other important Southern markets were as follows.

Weather Reports by Telegraph.-Reports to us by telegraph this evening from the South denote that there has been a continuation of favorable weather conditions during the week in almost all localities. In Texas, as well as in other sections where moisture was needed, there has been beneficial rain, and the temperature generally has been satisfactory. As a result a further improvement in,the crop is indicated in most districte.

Galveston, Texas.-It has rained on three days of the week, the rainfall reaching two inches and sixty-seven hundredths. The thermometer has ranged from 71 to 89, averaging 80.
Henrietta, Texas. - It has rained on two days of the week, the rainfall reaching sixty three hundredths of an inch. Average thermometer 83, highest 98 and lowest 68.
Corpus Christi, Texas.-Rain has fallen during the week to the extent of one inch and forty-four hundredths, on three days. The thermometer has averaged 81, the highest being 88 and the lowest 74.
Cuero, Texas,-Rain has fallen on four day s of the week, to the extent of five inches and twelve hundredths. The thermometer has averaged 87, ranging from 70 to 94.

Longview, Texas.-The week's rainfall has been seventy hundredths of an inch, on five days. The thermometer has averaged 83, the highest being 94 and the lowest 71.
Paris, Texas.- It has rained on four days during the week, to the extent of ninety-seven handredths of an inch. The thermometer has averaged 82, ranging from 68 to 95.
Dallas, Texas.-It has rained on three days of the week, the precipitation reaching two inches and sixty-one hundredths. The thermometer has ranged from 67 to 92 , averaging 80 .
Huntsville, Texas.-We have had rain on three days dur ing the week, to the extent of two inches and fifty one hundreds. Average thermometer 83, highest 92, lowest 73.

San Antonio, Texas.-There has been rain on three days during the week, to the extent of one inch and fifty-six hundredthe. The thermometer has ranged from 72 to 94 , averaging 83.
Temple, Texas.-Rain has fallen on three days of the week, to the extent of one inch and fifty-three handredths. Average thermometer 84, highest 94 and lowest 63.
New Orleans, Louisiana.-It has rained on six days of the week, the rainfall reaching fifty-five hundredths of an inch. Average thermometer 82.
Shreveport, Louisiana.-There has been rain on six days during the week, to the extent of two inches and twenty-nine hundredths. The thermometer has ranged from 70 to 93 , averaging 81.
Leland, Mississippi.-Rain has fallen during the week, to the extent of one inch and seventy hundredths. The thermometer has averaged $77 \cdot 3$, ranging from 65 to 88.

Vicksburg, Mississippi.-It is claimed that the crop is not doing very well, as a result of too much rain and deficient sunshine. Rain has fallen on five days of the weels, to the extent of one inch and forty-seven hundredths. The thermometer has ranged from 70 to 91 , averaging 81.
Greenville, Mississippi.-The weather has been hot the past week, with rain on two days.
Little Rock, Arkansas.-We have had rain on six days of the week, to the extent of one inch and fifteen hundredths, The thermometer has averaged 79, the highest being 90 and the lowest 69.

Helena, Arkansas. - We have had light rain (sprinkles) on two days of the week, the rainfall reaching seven bundredths of an inch. Heavier precipitation is reported in the neighborhood. It is claimed that crops in some sections need moisture. The thermometer has averaged $81^{\circ} 4$, ranging from 73 to 93 .

Mempinis, Tennessee.-The weather has been favorable for cleaning fields. There has been rain on one day of the past Teek, the rainfall being fifty-eight handredths of an inch. ing had none at all. Plant is small The thermometer has ranged from 68.9 to 91 , averaging 80.8 .
Mobile, Alabama.-Crop accounts are favorable. Rain has fallen on five days of the week, to the extent of seventy-three
hundredths of an inch. The thermometer has averaged 80 , the highest being 87 and the lowest 72.

Montgomery, Alabama. - Crops show improvement generally, but are somewhat late. There has been rain on three days during the week, the rainfall reaching fifty-eight hundredths of an inch. Latterly hot and cloudy. The thermometer has averaged 80, ranging from 70 to 91.
Selma, Alabama.-The weather conditions have been more favorable and cotton has shown improvement the past week. We have had rain on one day, the precipitation being thirtyfive hundredths of an inch. The thermometer has ranged from 85 to 96 , averaging 89.
Madison, Florida.-Rain has fallen on four days during the week, to the extent of one inch and twenty hundredths. Average thermometer 87, highest 95 and lowest 70.
Savannah, Georgia.-Rainfall for the week nine hundredths of an inch, on four days. The thermometer has averaged 81, the highest being 91 and the lowest 70.
Augusta, Georgia.-Accounts continue favorable. Cotton is now fruiting well, but is late. There has been rain on two days during the week, to the extent of thirty-two hundredths of an inch. The thermometer has averaged 81, ranging from 69 to 92.
Charleston, South Carolina. -There has been rain on two days of the past week, the rainfall being ten hundredths of an inch. The thermometer has ranged from 74 to 91, averaging 82.

Textile World’s Official Directory of the Textile Manufacturers of the United States, \&C., for 1900.We are indebted to Messrs. Guild \& Lord, Boston, publishers of the "Textile World and Industrial Record," for a copy of their "Official Directory of Textile Manufactarera, \&c., for 1900." just issued. The book is a very comprehensive one. Full information about the textile industry and allied interests are given, including details about each establishment, class of goods made, machinery, officers, etc. Lists of dry goods commission merchants, manufacturing clothiers, suit and cloak makers, jobbers and large retailers, wool and cotton rag dealers, as well as cotton, wooien, worsted, knit, silk, flax and jute mills are also presented in the volame. A feature of the book is the system of textile maps, showing where mill towns are located, and so arranged that ready reference can be made to any town. The series of statistical tables incorporated in the present issue should prove of great value to manufacturers. They comprise comparative yarn tables, showing the equivalent sizes of different systems of numbering yarn and different standards, reed tables ranning from 1,000 to 5,075 ends in warp and from 15 to 78 ends per inch, and a compilation covering the meight of jarn per yard of cloth, with explanatory notes. The prioe in cloth is $\$ 250$, and flexible covers $\$ 2$ c 0 .

Government Weekly Cotton Report.-Mr. James Berry, Chief of the Climate and Crop Division of the U.S. Weather Bureau, made pablic on Tuesday the following telegra phic reports on the crop in the Southern States for the week ending July 16:
Virginia. - Week warm and dry, except showers over llmited areas North Carolina.-Insufficlent showers Thursday; drought becoming serious throughout central and eastern portions, cotton still. goutr and setting fruit freely
though localities need rain; flelds now gencol orop development, alproving slowly, yellow on light solls, but generally fruiting well, with ew reports of shedding.
Georgia.-Plenty of sunshine and soattered showers have been benefioial; cotton small but improving and fruiting slowly, some fields till grassy.
Lorida.-Heavy local rains damaged cotton, which is in less ia. ALABAMA. - Too much complaint of slow growth and little fruitage. ties; onltivation progressing rapidly; outlook improving though counon small, poorly fruited and some shedding
Mississippi eeded. needed ; cotton improved, oolor better, but remains small, stalky and corn or peas. corn or peas.
Loning flel-Frequent showers interrupted and delayed work of ore clean, cotton is running to stalk and fruiting IEXAS.-Gerin weeds.
places; cotton growing nloely, plant very uneven, some justout of the ground, early planting frulting well, except in scattered localities; Mexlcan weevil and boll worm dolng some damage.
ARKANSAS -Light showers general, but more rain needed; considpromises tair where properly cultivated; much leit in grass and weed TENNESSEE. - Week very favorable for plowing and oleaning crops; ootton worked and generally in promising oondition.
MISSOURI. - Cotton worked out and muoh improved.
OKLahoma and Indian Territories.-Cotton blooming; bolls appearing.

These reports on cotton are summarized by the Department as follows :
A general inprovement in the condition of ootton is reported, except in Fiorida and Louisiana, but the plaut is small and is frulting slowly in the central and eastern distriots, where some fields are still grassy. In Texas the orop has made good growth, but is very uneven
and the early-planted is frulting well, exoopt in soattered localities.

Exports of Cotton Goods from Great Britain.-Below we give the exports of cotton yarn, goods, \&c., from Great Britain for the month of June and since October 1 in 1899-1900 and 1898-99, as compiled by us from the British Board of Trade returns. It will be noticed that we have reduced the movement all to pounds.

| Total exports of cotton manufactures............... ... .. 982,554 $^{\text {a }}$ |  |  |  |  |  |  |  | 976.821 |

The foregoing shows that there has been exported from the United Kingdom during the nine months $932,554,000$ lbs. of manufactured cotton, against $976,821,000 \mathrm{lbs}$, last year, or a decrease of $44,267,000 \mathrm{lbs}$

A further matter of interest is the destination of these exports, and we have therefore prepared the following statements, showing the amounts taken by the principal countries during June and since October 1 in each of the last three years.
EXPORTS OF PIEOE GOODS AND YARNS TO PRINOIPAL OOUNTRIES IN JUNE AND FROM OCTOBER 1 TO JUNE 30.

## BREADSTUFFS.

Friday, July 20, 1900.
Reflecting the weaker turn to the market for the grain, business in the market for wheat flour has been flat. Spring patents have been practically neglected; the few sales made being limited to car load lots, and prices have sagged. City mills and Kansas flours also have been dull. The export basiness has been dull, there being no demand from Europe, and the West Indies trade has been small. Rye flour has sold slowly, with the tendency of prices in buyers' favor. Corn meal has been dull and prices have weakened, following a sharp break in values for the grain.
Speculation in wheat for futare delivery has been fairly active, but it bas been at declining prices. The more favorable outlook for the spring-wheat crop as a result of the recont rains in the Northwest, conpled with increasing receipts at interior points of the new winter-wheat crop, have been the principal depressing factors, although sympathy with a sharp break in corn values also has had a weakening influence. Foreign markets have been quick to follow the weaker turn to values in the American markets; furthermore, crop news from Earope has been generally favorable. Daring the latter part of the week the tone of the market was steadier. The liquidation of the existing long interest had apparently about run its course and the private advices received from the Northwest were of a character to disappoint those who had taken a pronounced optimistic view of the benefits to the spring wheat crop by the recent rains. The spot market has been weaker, following the decline in futures, but the lower prices have thus far failed to stimulate the demand from exporters, and business has been quiet. To day the market opened lower nnder larger receipts in Northwest, bat turned stronger and advanced on unfavorable crop news from California. The spot market was moderately active and firmer; sales for export were 200,000 bushels.

DAILY OLOALNG PRICES OF NO. 2 SPRING IN CHICAGO.

Speculation in Indian corn futures has been active. There has been a complete change in sentiment, the tone of the market during the first balf of the week being exceptionally heavy, prices breaking badly, losing practically all of the advance during the past month. Improved iprospects for the growing crop in Kansas, Nebraska and Iowa was the development that changed the aspect of the market. Good general rains were reported in the corn belt, thus dispelling the anviety of the crop being seriously damaged by drought, and prompted active selling by recent buyers for a rise to liqui. late their accounts. Bear operators, too, have been more aggressive in their operations, and a fairly full crop movement also has had a weakening influence. The spot market has been decidedly weaker, but at the lower prices exporters have been large buyers; and during the latter part of the week the active export demand had a steadying influence. To day the market was firmer, in sympathy with the advance in wheat, The spot market was fairly active and firmer. Sales for export were $500, \mathrm{C00}$ bushels.

## datly olosing phioes of no. 2 mixid corn in ohidago.

Oats for future delivery at the Western market have been moderately active, but at a lower range of values, sympathy with the decline in corn and the improved pros. pects for the crop being the depressing factors. Locally the spot market has been easier under free offerings. At the iower prices business has been fairly active, as exporters have been better buyers. To day the market was firmer. The spot market was quiet but steady.

Government Weekly Grain Report.-Mr. James Berry, Chief of the Climate and Crop Division of the U. S. Weather Burean, made public on Tuesday the telegraphic reports on the grain crops in the various States for the week ending July 24 as follows
Weather. - Notwithstanding the excessively heavy rains on the West Gulf Coast and in portions offithe Central Missouri Valley and the prevalence of drought to a greater or less extent in the Middle and
south Atlantio States and over portions of M1ssourl, Kansas and Oksouth Atlantio States and over portions of Missouri, Kansas and ok-
lahoma, the week has been generally favorable in tha distriots east of the Rocky Mountalns. Throughout the Rocky Mountaln and Plateau regions there is general scarcity of water, especially over the southCorn distriots.
ConN.-The condition of corn in Kansas and Nebraska is less favorable than in the previons week, and the orop is suffering for rain in portions of Missouri, Southern Ohlo, West Virginia, Maryland, Virinla and North Carolina. In Indiana, Iuinois and Inwa oorn has see and Pennsylvania.
WINTER WHEAT.-Harvesting of winter wheat is about completed, except in the more northerly districts, the weather oonditions being very favorable for this worl in the districts east of the Mississlppi River, except in portions of New York, where it has been interrupted S rains. Harvesting is well advanced on the Pacific Coast.
Sprivg Wileat.-Further improvement in the condition of spring oided improvement is reported from North Dakota, the weather denditions in that State have been propitious. In Minnesota this orop has suffered some danage from local storms. Fair to good yields are expected in the extreme southeastern countles of South Dakota,
OATs.-Oat harvest is in progress in the States of the central valless and a rery fine orop generally is being secured in good condition. Hay. - Wet weather has interrupted haying in Northern New England, but elsewhere the hay harvest has made satisfactory progress, and is nearly completed in the states of the central valleys. Rains路 to hay in Michigan, Louisiana and Texas. Tobacco.-In Virginia, Tennessee and the Carolinas tobacco is sufStates. In the Ohio Valley. New England, and over the northern portion of the Middle Atlantic States, tobacco has made favorable prog$\stackrel{\text { ress. }}{\text { APP }}$
Apples.- The continued dropping of apples in New England, the central valleys and uppel lake region has materially reduced the encouraging in New York and portions of Pennsylrania, Ohlo and Indiana.

The movement of breadstuffs to market as indicated in the statements below is prepared by us from the figures collected by the New York Produce Exchange. The receipts at Western lake and river ports for the week ending Jaly 14, and since Aug. 1, for each of the last three years have been:

## THE DRY GOODS TRADE.

New York, Fridat, P. M., Jaly 20, 1900.
The conditions in the dry-goods market have undergone little change during the past week. The high temperature prevailing has', interfered to 80 me extent with business on the spot, but the demand through the mails has been up to recent average in volume. Buyers still show indifference towards their future requirements and confine their attention almost entirely to providing for present needs. There is no dissatisfaction expressed at the general run of prices of cot. ton goods, nor is there indication of expectation to purchase later on at a lower level, the desire being to reduce stocks on hand before engaging in fuller operations. In the woolen goods division buyers are fully as indifferent as in cotton coods, and the general opening of now lines of men'sj wear for next spring has been deferred on that account. There has been nothing further of any moment in connection with curtailment of production. Fall River is carrying ont the "shut-down" agreement, but the South so far has not done anything beyond incidentally throwing ont of work a few looms here and there. The condition of the China trade is, however, likely to force a number of Southern mills to cut down materially before long.
Woolen Goods. -There has been no progress made this week in opening new lines of men's heavy-weight woolens and worsteds for next spring. There have, in fact, been fewer lines than last week available to buyers, some then on the market having been withdrawn, owing to their poor reception at the hands of ionyers. The outlook for spring is indefinite, an unusual condition for the latter part of Jaly, and there is no likelihood of th being settled until after the beginning of next month, owing to the pronounced indifference of
the clothing trade towards spring needs, a condition which would tell against prices if agents were to press their goods upon the market unduly. For heavy-weights the re-order business has been moderate and without special feature, Orercoatings and cloakings continue dull and unchanged, and only a limited new business reported in flannels or blankets, at previous prices.

Domestio Cotton Goods.-The exports of cotton goods from this port for the week ending July 16 were 9,541 packages, valued at $\$ 440,325$, their destination being to the points specified in the tables below

| New York to July 16. | 1900. |  | 1899. |  |
| :---: | :---: | :---: | :---: | :---: |
|  | Week. | Since Jan. 1. | Wreek. | Since Jan. 1. |
| Great Britain................. | 88 | 1,274 | 10 | 1,300 |
| Other Earopean.............. | 3 | 13,177 |  | ${ }^{602}$ |
| Ohina.... .-.................... | 7,775 | 132,037 | 17,087 | 153,859 |
| Arabia. | ..... | 21,605 |  | 26,230 |
| Africa. | 86 | 2,504 | 100 | 8,214 |
| WestIn | 958 | 15,109 | 1,105 | 17,985 |
| Mexico. | 55 | 1,908 | 55 | 2,535 |
| Central America. | 229 | 6,844 | 726 | 6,293 |
| South America. | 259 | 24,616 | 859 | 27,283 |
| Other Countries | 88 | 4,901 | 98 | 4,937 |
| Total. | 9,541 | 220,279 | 20,046 | 250,771 |

The value of the New York exports for the year to date has been $\$ 9,369,529$ in 1900 , against $\$ 8.958,341$ in 1899 .
Business in heary brown cottons on home account has been on a limited scale only and at previous prices. Nothing doing for export of any account. In fine grey goods the market is firm, with a fair demand. Bleached cottons are inactive in fine grades, without change in quotations. Demand for medium and low grades show slight improvement; prices irregular. Denims are dull and barely steady. Plaids inactive and easy to buy. Ticks slow without quotable change, and other coarse, colored cottons featureless. Wide sheetings and cotton flannels and blankets dull and anchanged, Kid-finished cambrics easy. The market for all descriptions of fancy calicoes has ruled slow; prices unchanged, stocks being small. Staple prints in moderate demand at previons prioes. Percales irregular. No change in napped goods. Ginghams in average demand and without feature, Regular print cloths idle. Fall River quotes 27/8c., outside markets $23 / 4$ c. Wide goods in fair demand and steady.
Foreign Dry Goods. -There has been no improvement in general business in this division of the market. Dress goods are slow and barely steady. Silks and ribbons quiet aud unchanged. Linens dull and inclined to favor bnyers. Burlaps are quiet and irregular.

## Importations and Warehouse Withdrawals of Dry Goods

 Theimportations and warehouse withdrawals of dry goods at this port for the week ending July 19, 1900, and since January 1, 1900, and for the corresponding periods of last year are as follows:

## STATEAND CITY Despatimint.

## News Items.

Coffeyville, Kan.-Bonds Illegal.- We take the following dispatch, dated independence, June 16, from the Topeka 'Journal :"
Judze Skidmore of the District Court to-dar made permanent the temporary injunction that he pranted some time ago restraining the city or Coffey ville
from lisuing the 87.000 bonds that were voted at appecal election at that
lat place about a year ago. The ground for his decision was a technicality, it
belng claimed that the Mayor called the election for the purpose of roting
bonds without any ordinance or resolution from the City Councli authorizing
Linda Vista (Cal.) Irrigation District.-Bond Litigation. following :
A. G. Gassen brought suit In the Superior Court Saturday agalnet the Linda Vista lrrigation District to recover 8 i,3ic alleged to be due on Interest coupons atached the conder ench promisiug to pay $\$ 15$, and alleges that the district's

Utica, N. Y.-Bond Offering.-John A. Cantwell, City Clerk, will sell at public auction at 2 P. M., July 25, \$3,500 5\% 1-year bonds. Securities are dated Jaly 25, 1900. Interest will be 5\%, payable semi-annually. A certified check for $5 \%$ of the amount of bonds must accompany proposals.
Wahpeton, N. Dak.-Bond Sale.-On July 10. 1900, the $\$ 21,5001-20$-year (serial) sewer bonds were awarded to the Hanterdon County National Bank of Flemington, N. J., at par for $51 / 4 \%$ bonds.

Wappingers Falls, N. Y.-Bond Offering.-Proposals will be received until 12 m. , Aug. 6, by E. P. Howarth, Village Clerk, for $\$ 15,000$ electric-light bonds. Securities are in denomination of $\$ 1,000$, dated Aug. 1, 1900. Interest (to be named in bid) will be payable annually on Jaly 1. Principal will matare $\$ 1,000$ yearly on July 1 from 1903 to 1917, inclusive. Bonds are issued under authority of sections 128 and 129 of the village laws. The legality of the bonds has been approved by George Wood, District Attorney of Dutchess County. The village has no debt at present of any kind. The assessed valuation is $\$ 941,850$ and the real value about $\$ 2,354,625$. The popnlation is estimated at 3,500 .

The official notice of this bond offering will be found among the advertisements elsewhere in this Department.
Waynesburg (Pa.) School District.-Bond Sale.-On July 14 the $\$ 40.0004 \%$ bonds of this district were awarded to the Citizens' National Bank of Waynesburg at $10 \%$ 447. Following are the bids :
Citizens'Nat.B'k.Waynesb'c. $\$ 42.978$ 95 $\mid$ W. J. Hayes \& Sons, Cleve... \$42.077 00
 Waynesburg................ 42.412
Lamprecht Bros. Co., Cleve.. 42,384
( 0

For description of bonds see Chronicle July 14, p. 100.
Waynesville, Ohio.-Bonds Voted.-On June 16 this place authorized the issaance of $\$ 22,000$ water and $\$ 8,000$ electriclight bonds.
Willamsbarg, Ohio.-Bonds Defeated.-At a recent election the proposition to issue $\$ 6,000$ town-hall bonds was submitted to a vote of the people and defeated. While the vote in favor of the bonds was 126 and the vote against but 81, the question failed, as it did not receive the necessary two-thirds vote.

Winona, Minn.-Bids.-We stated last week that the $\$ 32,-$ 000 sewer bonds were awarded on July 9 to Denison, Prior \& Co., Cleveland, at $101 \cdot 25$ for $31 / 2 \%$ bonds. The other bids received were as follows :

$$
\begin{aligned}
& \text { For 336 Bonds. } \\
& \text { Co., Toledo....... }
\end{aligned}
$$

Spltzer \& Cor 336\% Bonds.

[^0]:    The full details of clearings for the week covered by the above statement will be given next Saturday. We cannot, of course, furnish them to-day, bank clearings being made up by the various clearing houses at noon on Saturday, and hence in the above the last twenty-four hours of the week have to be in all cases estimated, as we go to press Friday night.
    We present below our usual detailed figures for the previous week, covering the returns for the period ending with Saturday noon, July 14, and the results for the corresponding week in 1899, 1898 and 1897 are also given. In comparison with the preceding week there is a decrease in the aggregate exchanges of one hundred and four million dollars, the loss at New York being sixty-nine millions. Contrasted with the week of 1899 the tetal for the whole country shows a decline of 17.9 per cent. Compared with the week of 1898 the current returns record a gain of 24.9 per cent, and the excess over 1897 is 43.4 per cent. Outside of New York the decrease from 1890 is 0.03 per cent. The excess over 1898 reaches 32.0 per cent, and making comparison with 1897 the gain is seen to be $41.5 \mathrm{p} . \mathrm{c}$.
