

The full details of clearings for the week covered by the

84 292 877 St. Louis..... 21.607.847

above statement will be given next Saturday. We cannot, of course, furnish them to-day, bank clearings being made up by the various clearing houses at noon on Saturday, and hence in the above the last twenty-four hours of the week have to be in all cases estimated, as we go to press Friday night.

We present below our usual detailed figures for the previous week, covering the returns for the period ending with Saturday noon, September 22. and the results for the corresponding week in 1899, 1898 and 1897 are also given. In comparison with the preceding week there is a an increase in the aggregate exchanges of ninety-seven million dollars, the gain at New York being sixty five millions. Contrasted with the week of 1899 the total for the whole country shows a decline of 27.9 per cent. Compared with the week of 1898 the current returns record an increase of 9.9 per cent, and the exess over 1897 is 8.3 per cent. Outside of New York the decrease rom 1899 is 6.0 per cent. The excess over 1898 reaches 26.6 per cent, and making comparison with 1897 the gain is seen to be 29.3 p. o

# THE FINANCIAL SITUATION.

The political situation, the strike in the anthracite coal-mining region, and the rapid movement of money to the interior giving rise to a fear of high rates for money at this center, have each engrossed a share of attention this week. In the early part of the week they all contributed to depress the stock market -transactions were moderate and prices sagging. Then came a decided change. The political situation was stated to be full of promise, the election of Mr. McKinley by a considerably increased number of electoral votes was about as sure as if it was a fact accomplished, and the strike was as good as settled. Under these reports and beliefs the shorts made a rush to cover, and values of This state of things course improved materially. continued until Thursday night. Friday morning the money market, which had apparently been overlooked the previous two days, again came in for its share of attention; moreover, on second thought, it was felt that as the election had not yet occurred, and the strike had not yet been called off, perhaps buyers had been a little hasty. Prices consequently declined again and the market lost its buoyancy.

As to the strike, the best information we can get is that the differences will be arranged very shortly. Money, on the other hand, is quite a different affair. Measuring its quantity by the surplus reserve, it is seen to be slipping away from us rapidly and out of the reach of the ordinary Wall Street operator. The problem is an easy one to solve, that if these drafts are continued in the same volume as recently, only a few weeks will pass before the surplus will be gone, and as it decreases the inference is that rates will inevitably advance. No doubt higher rates are going to prevail, but we do not anticipate a severe strain unless the Treasury should continue to hoard money as it has done this weck. close six per cent market would not in any event be a surprise. That rate would probably be wholesome; it would most likely lessen loans, and that in turn would result in a decline in the deposits, which would decrease the reserve required, and so provide the needed surplus funds for shipment. ln that connection it is an important fact to remember that our total bank reserves were last Saturday \$240,-920,200, against \$202,611,300 a year ago, or nearly 40 million dollars larger. Hence, the banks are really much stronger than they appear to be when judged by their surplus currency holdings. It is well enough, however, to add that if business expands in October and November, money may be still dearer after the election. The fact is, our currency system, though the total of notes afloat has largely increased, has got to be further modified before it can be automatic, responding directly to the needs of trade.

has now been determined to fix the new price at \$26. With billets at \$16 50 it is questionable whether the railroads will be tempted to purchase freely at the price named. They will no doubt buy to supply their most urgent necessities, but beyond that it would seem they are not likely to go. A difference of \$9 50 between billets and rails appears very large. Would it not be better both in the interests of the railroads and the rail-makers to place the price about five dollars lower, or say at \$21 00. Then the railmakers could feel sure of an active year in 1901. As it is, if the \$26 00 rate is adhered to they will in all probability find orders scarce. In 1897 and 1898 consumers were obliged to pay only \$17 50@18 00 for their rails, though a return to such extremely low figures is of course not desired by any one.

One feature of the week has been an effort by the Treasury Department to afford relief from a derangement brought about through the administration of the currency provisions of the Act of March 14. This law restricted the issue of five-dollar national bank notes to one-third of the circulation; it prohibited the issue of United States notes of a less denomination than ten dollars; it required that the Treasury notes of 1890 when received should be canceled and silver certificates issued in their place, and it enacted that 90 per cent of silver certificates should be issued in denominations of ten dollars and under. In consequence of these provisions there has been an abundance of small silver certificates, while the outstanding five ten and twenty dollar notes have become scarce. There were on August 31 only about \$19,000,000 in silver certificates outstanding of larger denominations) than twenty dollars and of the \$70,000,-000 Treasury notes outstanding more than \$50,000,000 were in fives and tens and \$9,000,000 in ones and twos, and these notes were widely scattered throughout the country. With a view to meet the inquiry at this centre for twenty-dollar notes, which was somewhat urgent, the Assistant Secretary ordered a supply of about \$1,500,000 of gold certificates of this denomination to be sent to this city, where part of them have been exchanged for certificates of larger denomination and part for five and ten-dollar legal tender notes. Provision was also made by the Department for the deposit of gold coin at the Sub-Treasury, for which United States notes of the denomination of five and ten dollars could be exchanged, and if necessary the New York banks will have opportunity for obtaining \$5,000,000 of legal tenders of these denominations and twenty-dollar gold certificates in this manner. It is thought that these measures of relief will be effec-Redemptions of 2 per cent extended bonds tive. have thus far amounted to \$20,933,550. The applications for the exchange of fundable bonds for the new 2 per cents amounted at the close of business on Thursday to \$334,401,350.

A matter of considerable importance to the rail. roads is the fixing of the price of steel rails for the coming year. The quotation the current year has been very high, namely \$35 per ton, and this arbitrary figure has been maintained notwithstanding the price of steel billets has since last March been cut in two, having dropped from \$33 per ton to \$1650 per ton. It is claimed that the reason for adhering to the old price so long was, that if rails had been sold for current delivery at less than \$35 00, the rail-makers under their contracts would have had to pay a rebate on a large amount of their sales. It cent, with the majority at 2 per cent. Banks and

Money on call has been firmer this week. Bankers' balances have loaned at the Stock Exchange at 2 per cent and at  $1\frac{1}{2}$  per cent, with the bulk of the busness at 2 per cent, and the average has been about 1 15-16 per cent. On Monday and Tuesday loans were made at 2 per cent and at 13 per cent, with the majority at 2 per cent. On Wednesday and Thurs. day the transactions were at 2 per cent and at  $1\frac{1}{2}$  per cent, with the bulk of the business at 13 per cent. On Friday the loans were at 2 per cent and at 13 per

trust companies quote 2 per cent as the minimum, though quite a number of down-town banks this week report loans at  $2\frac{1}{2}$  per cent, and even as high as 3 per cent. There appears to have been some effort made by the banks this week to keep the call loan rate at the Stock Exchange from advancing above 2 per cent, in order that trust companies might not be induced, by the ruling of a higher rate, to draw their balances from the banks and loan them on the exchange. One notable feature of the time loan branch of the market is the liberal offerings, which have been attracted by the high rates ruling, from insurance companies and other corporations, who rarely offer money through brokers on collateral These contracts are offered for nine to loans. twelve months at from 5 to  $5\frac{1}{2}$  per cent on first-class security, and it is reported that considerable business has been done. Offerings of time contracts by banks not liberal are and the supply in the market during the week has been chiefly from trust companies, and this seems to have been absorbed. The demand is fair, though not urgent, and rates are 32@4 per cent for thirty days, 41 per cent for sixty days to four months and 5 per cent for five to six months on good mixed Stock Exchange collateral. The commercial paper market is inactive and the sales are principally to institutions in near-by out-of-town points or those within a radius of two hundred miles of the city. The banks as a rule are reserving their money for the accommodation of their customers and for re-discounting for Southern and Southwestern correspondents. The offerings of paper are not large, but a liberal supply of names is expected next month and in November. Rates are 43@5 per cent for sixty to ninety day endorsed bills receivable, 5@51 per cent for prime and 51 @6 per cent for good four to six months' single names.

The Bank of England minimum rate of discount remains unchanged at 4 per cent. The cable reports discounts of sixty to ninety-day bank bills in London 4 per cent. The open-market rate at Paris is  $2\frac{\pi}{5}$  per cent and at Berlin and Frankfort it is  $4\frac{\pi}{5}$  per cent. According to our special cable from London the Bank of England lost £554,083 bullion during the week and held £36,107,411 at the close of the week. Our correspondent further advises us that the loss was due to exports of £754,000 (of which £604,000 were to Germany and £150,000 to Egypt), to receipts of £42,000 net from the interior of Great Britain and to imports of £158,000, wholly from Australia.

The foreign exchange market has tended decidedly downward this week, influenced by higher money here, a decreasing demand and by increasing supplies of bills, chiefly those drawn against cotton. Early in the week there was an inquiry for short sterling to remit for the settlement of the first instalment on the German Treasury notes, due October 1, and on the Swedish loan. After this demand was satisfied it was difficult to sell exchange, and the scarcity of money at the South caused unusually large offerings of cotton bills on our market. These offerings brought about on Thursday a sharp fall in rates, not only for commercial but for bankers' sterling, and the market was weak thereafter, closing steady. Receipts of gold at the Custom House for the week were \$22,444. The steamship Alameda, which left Sydney, N. S. W., on September 26 for San Francisco, has £800,000 in British sovereigns. The Canadian Bank of Commerce

has received drafts for the \$500,000 gold which it was advised last week had been deposited at San Francisco for its account. Checks for \$2,350,000, representing Australian gold deposited at the San Francisco Mint, were received in this city on Thursday.

Nominal rates for exchange on Monday were 4 84 for sixty day and 4 872@4 88 for sight. There was a gradual decline thereafter to 4 83@4 831 for the former and 4 862 @4 872 for the latter by Thursday. Rates for actual business opened on Monday unchanged, compared with those on Fri\_ day of last week, at 4 83@4 834 for long, 4 863@4 87 for short and 4 874@4 874 for cables. The market closed with an easy tone, and it was weak on the following day at a decline in rates for actual business of one-quarter of a cent, to  $4.82\frac{3}{4}@4.83$  for long, 4 8612@4 862 for short and 4 87@4 871 for cables. On Wednesday while long and cables were barely steady, though unchanged, short was easier at a decline of one-quarter of a cent to 4 864@4 864. On Thursday the market was quite weak and long and short fell off half a cent to  $4.82\frac{1}{4}@4.82\frac{1}{2}$  for the former and to 4 853@4 86 for the latter, while cables dropped three-quarters of a cent, to 4.864@4.862, and there was little or no support at the close. The following shows daily posted rates for exchange by some of the leading drawers.

# HOW MR. BRYAN CAN DISPLACE OUR GOLD STANDARD.

Senator Allison made a speech at Clinton, Iowa, on Thursday of last week (Sept. 20) which ought to be read by every man who has a doubt of the imminent danger to our gold standard which would follow if Mr. Bryan were elected President. It surprises us that any intelligent person, who has clear views of the industrial desolation the Democratic nominee's ideas would cause if they were put in operation in the United States, should be willing to risk it all upon an opinion that if elected he would be powerless to enforce his ideas. Safety would in such a case dictate caution and caution would insist on certainty; that is, on a settlement of the doubt before taking action that would aid, if the opinion was erroneous, in bringing confusion and prostration to the country's industries. It cannot be too often stated that putting an enthusiast, of an obstinate and intense character, with theories and opinions which have become a part of himself into the position of largest influence in the country, under a hope—and that at best is all it is that he will not be able to put his views into practice, is inviting most serious trouble. No one in his private business affairs would select his agents in that heedless way.

But there are some people who insist on being shown just how Mr. Bryan could work out his desire and bring in silver payments before they will believe there is any danger of such an event. We write what follows for them. This address of Mr. Allison's is especially useful for the purpose, because the speaker is one of the leading members of the United States Senate, a good authority on the subject discussed, and because he points out one very important and easily usable way of attack against sound money which is likely to be open to Mr. Bryan should he be elected. Moreover, the one he mentions is an agency which is oftenest referred to as being a perfect safeguard against any such opening; it is the composition of the Senate on the supposition that Mr. Bryan is chosen President. Mr. Allison says that to be elected he must carry certain States, in each of which there is one Senator to be elected this fall. He carried them all in 1896; those he named are Kansas, Nebraska, Wyoming, Colorado, Montana, Utah and Idaho.

The gold standard law of last session was passed, it will be remembered, by eighteen majority. "Senator Kyle, of South Dakota, being absent and unpaired did not vote, though having a consistent free silver record in the Senate. Senators Lindsay of Kentucky and Caffrey of Louisiana, who voted for the bill, go out of the Senate on March 4, and both their places have already been filled by Senators who favor free silver, so that by that process the majority of eighteen would be reduced on a similar vote to fourteen. Standing off Utah against Pennsylvania (both these States having a seat vacant), if the six Senators from the States named, except Utah, shall be Democratic, the Republican majority in the Senate will be reduced to two, and if Senator Kyle should vote for free silver, as he always has done heretofore, the Senate would be a tie on that question, leaving Vice-President Stevenson to cast the deciding vote, which he is pledged by his record, by the platform, and by speech, to cast in favor of free silver. The Democratic Senator from Delaware voted for free silver, and if the Democrats shall carry that State

where there is now one vacancy, it is fair to suppose the Senator elected would be for free silver also." The foregoing appears to be the probable situation in the Senate on the Fourth of March next in case Mr. Bryan is elected the coming November. We say it is the probable situation, because Mr. Bryan does not have a chance of success unless he carries the States named, "and because," as Mr. 'Allison adds, "the same votes that will give him the electoral votes will also elect Democratic legislatures."

Mr. Allison does not attempt to carry his forecast as to the Senate's make-up further than the fourth of next March. He concludes, however, that if Mr. Bryan is elected there will be a majority in favor of silver in the House of Representatives as well as in the Senate, and, with the power he will wield in the party as President, the repeal of the law passed at the last session will be easily effected. But suppose we were to grant that the beginning of Mr. Bryan's administration was less favorable to his ideas than here suggested, and that he failed in his endeavors to repeal that law during the first two years of his official career-that would not end the risk. We have to remember that his term as President does not close then; and is it not reasonable to anticipate that a man of his perfect faith in his beliefs, of his earnest persistency in pushing them, and with all the force of the Government at his back, would be able to manage political affairs so as to bring both Houses of Congress into accord with his opinions and purposes at the succeeding election two years later? Or even if, after all, he should be defeated in his chief purpose, how shall the public face the continuing feature of his tireless spirit, always seeking to change our standard of values. From the day of his election to the day when he laid down his office he would be plotting, planning and scheming to advance his ideas. Business could not flourish, enterprise must be at a stand-still, while this revolutionary, unsettling influence existed and prevailed.

But consider still another situation which will afford an opening for silver in case of Mr. Bryan's election. Let us select it from quite different circumstances. Whether a silver standard could or could not be reached through forcing the payment in silver of the interest on the Government debt, we will not stop to enquire. That would be attacking the fortress by open assault when it can be taken more easily by regular and natural approaches. An administration to accomplish the work in the way we have in mind can keep within the letter of the law and the hand directing the movement may not even be seen. We hardly need to again remind any reader that the currency standard, being the basis of all values, is the part of our industrial organization, the stability of which is most keenly sensitive to the slightest suspicion of weakness. Let only a doubt on that point take possession of the public mind, a drain on the Treasury gold would begin and business paralysis would be an immediate result. How would those changes in the situation act? Judging from the experience of recent years, they would obviously cause a sudden contraction in trade transactions and bank exchanges would drop to a minimum. As the productiveness of revenue laws depend upon the activity of business, Government receipts would soon correspondingly decrease. If one wants an illustration on this latter point, he can look at the first year of the operation of the changes made by each of the last

three revenue laws, and compare the results in the first year with the results as to the volume of revenue from the same rates in the best subsequent year, when the same rates were in force and business had become more active. In other words the productiveness of taxes depends upon the degree of prosperity the country enjoys.

Assuming therefore that among the earliest results of a loss in business activity would be a material decrease in the public revenue, the present excess of receipts over disbursements would not long be a feature. Appropriations have very considerably been added to during the last three years, while Customs duties and revenue taxes have been developing pro. ductiveness. Congress is notoriously reluctant and slow to make additions to taxes or to reduce appropriations. Neither can be done at once. Besides, the silver party has always been seeking to force silver payments by readily joining in increasing appropriations and opposing new taxes. As a deficit in Government revenue would soon follow, our gold standard after that would be, we might almost say, at the mercy of whoever happened to be Secretary of the Treasury. If the Administration desired to maintain the gold reserve, it would have all the machinery at hand which would easily permit it to do so; if, on the other hand, it had silver payments at heart, there is just enough discretion possible under the law to permit the change to silver to be apparently a natural and not a forced event. What we have said above respecting the loss of business activity and the sensitiveness of the money standard under any agitation to change it, indicates the tendency toward a lack of confidence which would attend Mr. Bryan's election on a platform favoring the free coinage of silver on a 16 to-1 basis. This feeling of distrust would of course perceptibly increase on the appearance of any effort made to carry out that declaration. Solicitude on the part of the public would be at once followed by drawing out the gold from the Treasury, and soon thereafter, as the loss of surplus revenue would prevent any automatic replenishing of that reserve, the selling of bonds would be in order.

When this point is reached Mr. Bryan's opinions about silver would be actively in evidence. The law (see CHRONICLE March 3 1900, page 411) provides three ways, preliminary to a sale of bonds, in which this reserve fund may be maintained: (1) by exchang ing the notes which have come into the reserve fund for redemption for any gold in the general fund of the Treasury; (2) by accepting deposits of gold coin for the same notes; (3) by "purchasing coin" (see Revised Statutes, Sec. 3700) with any of the said redeemed notes "on terms such as the Secretary of the Treasury may deem most advantageous to the public interest." After these methods have been exhausted the law provides—"if the Secretary of the Treasury is unable to restore and maintain the gold coin in the reserve fund by the foregoing methods \* \* \* then it shall be his duty to restore the same" by borrowing money on United States bonds, etc. Notice that it would only be after Mr. Bryan's Secretary of the Treasury had made up his mind that he had exhausted all the resources the preliminary methods provide, and had concluded that he was unable to restore and main tain the reserve by any of the three methods named, that his "duty" to issue bonds would become operative. Put this duty into unwilling agents' hands, give the authority the Act creates to one who desires

to rid the country of the gold standard, or to one who is not informed with reference to financial movements and influences, and who is also too opinionated to accept the advice of experienced bankers—put the execution of the law under any such control, and what, we ask, would be the result?

The history of the bond sales made to maintain the gold reserve during President Cleveland's Administration will suggest the answer. If one will study them carefully he will learn how easy it would have been at that time by a little less appreciation of the danger that was threatened, by a little greater delay in issuing the offer for the sale of bonds, or by a lack of correct ideas of monetary affairs, to have wrecked our standard and to have brought the country to a silver basis. On the occasion of one of those sales, had the announcement been delayed twelve hours, it would have been too late. In Mr. Bryan's case, if he should think it his "duty" to put off the bond sale in order to further try the already exhausted efficiency of the preliminary remedies; or resting on a false idea of safety, or on a minimum idea of danger, wait for the conditions to become more pressing; or using his own knowledge and laughing at the expressed fears of the business classes—if in any of these ways he should delay action, he could slide the country on to a silver basis as easily as Milton's Satan when dislodged from Heaven fell to Hell, and thereby plunge the business world into a chaos much like that event is stated to have produced in the moral world.

The foregoing are merely illustrations of the ways for reaching a silver standard which would be open to the fertile mind of Mr. Bryan were he elected President. We cannot help closing with a repetition of the thought with which we began. It passes our comprehension how a man with ordinary conservatism, acknowledging the wide and lasting injury Mr. Bryan's financial ideas would do the country if they were put into operation in the United States, could consent to help place him in a position of greatest influence for doing that harm unless he is shown to his own satisfaction just how those ideas can be carried out. Would any bank officer knowingly trust a thief in his bank over night under the belief that the lock on the safe could not be picked? Would he require before consenting to keep him out to be shown just how the safe could be opened ?

## NORTHERN PACIFIC RAILWAY COMPANY REPORT.

The Northern Pacific Railway Company in its pamphlet report issued this week furnishes a very striking exhibition of strength and prosperity. The lines of this system traverse much the same sections of country as do those of the Great Northern Railway Company, whose annual report has also been issued this week and is reviewed on a subsequent page; but in the case of the Northern Pacific the prosperous state of things is the more noteworthy, since this property only a few years ago was in poor condition, both physically and financially, and had to undergo entire reconstruction and rehabilitation. The present is only the fourth annual report of the company, which came into possession of the property on September 1 1896. In the interval since then a complete transformation has been effected in the prospects and situation of the company, and new value given to ail of its securities.

Of course in the twelve months covered by the report under review, both the condition of general trade and the condition of the crops in the territory served by the system were extremely good. The fact that the results of operations for this period are so highly satisfactory is important, however, at this juncture as showing that even should there be a considerable loss in revenue during the current or new fiscal year, the company's prosperity would be only slightly impaired. We refer to the possibility of a falling off simply because in one essential particular the situation the current twelve months will be decidedly less auspicious than during the twelve months past. At the Eastern end of the system, in the Dakotas, Minnesota and Manitoba, the spring-wheat crop the present season has been, to a large extent, an almost complete failure. This necessarily means that the tonnage in wheat over that portion of the system will be decidedly sma ler than it was in the late fiscal year. At the same time it may also happen that as a result of this wheat shortage the farming communities will buy less freely, hence involving some contraction likewise in the merchandise traffic over this part of the system. President Charles S. Mellen refers to the matter in a very conservative way. He points out that while the prospects for business, owing to the crop shortage referred to, are not so bright, and a reduction in gross revenue may, as a consequence, result, yet business conditions upon the Western portion of the system are so good that the hope is that the loss from the cause mentioned may be to a considerable extent offset.

As indicating how satisfactory the outcome was during the late year, brief reference to the income account will be interesting. It appears from this income statement that while in the twelve months referred to the Company had interest and rental charges of \$5,977,802 to meet, it had available net income for the twelve months of \$15,461,620, or nearly three times the amount of these fixed requirements. In other words, after allowing for the charge there was a balance of net income of \$9,483,819. The 4 per cent dividends on the \$75,000,000 of preferred stock called for only \$3,000,000, and the 3 per cent dividends on the \$80,000,000 of common stock called for \$2,400,000, Hence, over and above making \$5,400,000 together. the requirements for the dividends on the two classes of stock there was a surplus in the large sum of \$4,-083,818. Moreover, this is independent of the results on the proprietary roads, namely the Seattle & International Railway and the Washington & Columbia River Railway, which are separately operated and show a profit on their own operations. Instead of distributing the \$4,083,818 surplus in the shape of further dividends to the shareholders, the Company pursued the wise and prudent policy of appropriating \$3,000,000 of the amount for additions and betterments to the property. The report shows that of this \$3,000,000, \$672,305 remained .unexpended at the end of the fiscal year; the other \$2,-327,695 was applied towards paying for various additions and betterments intended to promote the efficiency of the lines. It will be remembered that in the previous fiscal year \$2,176,619 was similarly appropriated from surplus income, while in the year before \$811,709 was charged up in that way. Moreover, in 1897-98 \$3,000,000, it may be recalled, was also set aside out of accumulated surplus as a reserve to insure the continuity of the dividends on the preferred stock.

No one who has read our reviews of the reports of previous years will make the mistake of supposing that favorable traffic and business conditions are alone responsible for these very satisfactory results, which have enabled the management to place both classes of stock upon the dividend list and yet apply such large sums for the continued improvement of the property. Favorable traffic conditions have certainly played their part in producing the large profits, but if the property had not been completely rejuvenated and put on an entirely new footing, such an outcome as is now disclosed would have been wholly out of the question. As a matter of fact, except for the increased operating efficiency the expansion in tonnage and gross revenues must have yielded only very little addition to the net income, supposing that the road would in that event have been able to handle the increased traffic, which is not at all likely. Gross earnings for the late year were \$30,021,318, as against \$26,-048,674 in the year preceding and but \$23,679,718 in 1897-98. This is an increase in two years of  $6\frac{1}{3}$  million dollars, or considerably over 25 per cent. More. over, back in 1894-95 the total of the gross was but \$17,434,981. The net in the latter year (before deducting taxes) was but \$6,115,298. Now it is \$15,626,689.

No such expansion would have been possible except for the work done in improving the economy and efficiency of operations. In the last two years operating expenses (exclusive of taxes) have increased from \$11,095,370 to \$14,394,628, or, roughly, 33 million dollars. Examination of the details of the operating accounts will show that not quite \$1,000,000 of this augmentation was in the cost of conducting transportation, which item has risen from \$5,572,645 in 1897-98 to \$6,514,490 in 1899-1900. This is all the addition to transportation expenses there has been, notwithstanding that the tonnage movement one mile in the two years has increased from 1,618,000,000 to 2,205,000,-000, and the number of passengers carried one mile from 209 millions to 255 millions. It will be observed that while the freight tonnage as represented by the movement one mile has thus been enlarged about 36 per cent, the increase in the cost of conducting transportation has been considerably less than 20 per cent. The rest of the 33 million dollars increase in operating expenses in the two years is found under the heads of "Maintenance of Way and Structures" and "Maintenance of Equipment." For the first-mentioned account the expenditures in the late year were \$4,874,086, against \$3,548,793 in 1898-99 and only \$3,137,504 in 1897 98. For maintenance of equipment \$2,232,400 was spent, against \$1,914,597 in the year preceding and \$1,721,765 in the year before. Upon the two classes of maintenance expenses, therefore, the outlay was \$2,247,217 more in the late year than was spent for the same purpose two years before. These are outlays of course entirely inde-

perdent of and apart from those included in the \$3,-000,000 direct appropriations from income for additions and betterments.

Second Vice-President Kendrick points out at length what has been accomplished with these heavy expenditures of money in the way of grade revisions, improvements of bridges, tunnels, buildings, etc., and adding to the capacity of motive power and equipment. A very interesting table is incorporated in the report to show the striking results that have attended the adoption of improved methods of operation and reduction of grades. All large roads have been forced

#### SEPTEMBER 29, 1900.]

in recent years to conform to such new requirements, but in the case of the Northern Pacific the change is perhaps more striking than in most other cases. In 1896-97, the first year of the operation of the property by the new company, the average train-load was only 184 tons. In the same year the Great Northern, the most direct competitor of the Northern Pacific, had an average train load of 281 tons. In the three years since then, however, the train load has been raised from 184 tons to 328 tons, leaving it only about 9 per cent less than that of the Great Northern, which in the same interval has also been rising. In the late twelve months alone the further addition to the average was 51 tons. How completely conditions have been changed under the new management with its new methods, is shown in a graphic way in the fol lowing little summary.

Northern	Tons one mile.	Miles run by trains.	Rate per ton mile.	Revenue per train mite.	Train load.
	,205,317,271	6,720,173	9.87 mills	\$3.295	328.16
	,830,855,264	6,595,298	10.47 mills	2.955	277.60
	,618,170,284	6,115,784	10.65 mills	2.850	264.59
18971	,181,829,485	6,410,861	11.39 mills	2 1 2 2	184·35
18961	,316,958,350	6,805,354	11.30 mills	2.222	193.52
18951	,177,156,867	7,189.057	11.10 mills	1.837	168.74
1894]	,027,149,898	7,084,925	11.10 mills	1.632	144.98
18931	,368,243,494	8,938,543	12.30 mills	1.904	153.07
18921	,227,797,469	8,299,036	14.00 mills	2.095	147.95
	,258,266.789	8,660,880	13.80 mills	2.019	145.28
1890]	,095,880,073	8,414,961	14.00 mills	1 843	130.23

Let the reader note that the freight-train mileage in the late year was only 6,720,173 miles on a tonnage movement one mile of 2,205 millions, whereas in 1890 it was 8,414 961 miles on a tonnage movement one mile of only 1,095 millions. The effect of this is significantly shown in the increase in the freight-train earnings per mile run. The rates realized by the company have steadily declined, and now average less than a cent per ton per mile, having been for the late year only 9.87 mills, against 11.39 mills in 1896 97 and 14 mills in 1889-1890. But though rates have so materially fallen off, the freight trains in 1899 1900 earned \$3 29 per mile run, as against but \$2 12 three years before in 1896-97 and against but \$1 63 in 1893. 94, when the property was in financial difficulties. No more forcible illustration could be presented to show in what a radical way the operating results have been improved.

It is almost superfluous to say that the financial condition of the company is exceedingly strong. Including the \$5,000,000 provided under the plan of reorganization and the proceeds of land sales and the issue of prior lien bonds, the company has had available altogether since September 1 1896 \$22,820,705 on new property account through its various Betterment and Enlargement Funds, which we may say are entirely distinct from the additions and betterments made from earnings. Of this large sum only \$13,888,029 had actually been used up to Jane 30 1900, leaving \$3,932,676 unexpended—\$7,337,000 of the amount being in the shape of prior lien bonds and the rest in actual cash. The balance sheet shows that while the company had on the date mentioned only \$8,736,816 of current liabilities, it had cash on hand and assets in the various funds aggregating \$22,786,145, besides \$13,337,021 of treasury securities and \$3,011,461 of materials on hand. During the year all of the Gen eral 1st Mortgage bonds of the old Northern Pacific Railroad Company were retired, leaving the Prior Lien bonds of the present company an absolute first lien upon the system, except that portion south from Brainerd and Staples, Minn., to St. Paul.

## THE GREAT NORTHERN RAILWAY.

If as a result of the crop shortage in the springwheat sections of the Northwest, a falling off in the traffic and revenues of the railroads in that part of the country shall take place, no property apparently is better situated to stand such a loss than the Great Northern Railway. As a matter of fact, however, President Hill evidently does not look to see aggregate results very much diminished, notwithstanding such shortage. He frankly states that not much more than half a crop will be marketed in Minnesota, North and South Dakota, but ad Is that while of course this shortage will reduce the earnings, the increase from other traffic will go so far towards replacing such reduction that the company's income will not materially suffer.

When one comes to study the report, which this time is unusually extended and comprehensive, one has no difficulty in finding the reason for this confidence. The traffic of the system is being very greatly diversified, so that the property is no longer so exclusively dependent upon the grain tonnage. For instance, the ore traffic on the Eastern of Minnesota has already reached large proportions, and active efforts are being made to develop it still more. An increase of 733,174 tons in this iron-ore traffic over the Eastern Railway is reported for the late year alone. Moreover, in speaking of the line built by the S van River Logging Company to Virginia, Minnesota, and which is being used by the Eastern under an agreement to purchase, President Hill tells us that this line gives the company access to the mines in the vicinity of Virginia, from which it is expected to haul 500,000 tons of iron ore during the current ore shipping season. Again, he points out that to develop the ore business spurs have been built to reach the Stevenson mine and the Clarke mine, that these lines are now being opened, and that 150,000 tons of ore will be hauled from them during the season.

Another reason to sustain belief in the continued large traffic and earnings is found in the very large immigration into the territory traversed by the Great Northern. This immigration for the past fiscal year, it is stated, exceeds in its results anything in the history of the company. Upon a conservative basis Mr. Hill estimates there were settled along the company's lines during the twelve months 35,000 new people, who very largely came with their household effects from the Middle and Western States. Such an addition to population obviously means a permanent addition to the local traffic of the system.

When we spoke of the company being in a position to stand any loss in traffic resulting from the springwheat shortage, we had in mind mainly, of course, the

excellent income results disclosed for the late year, showing a large surplus over and above the requirements for dividends. The company's stock now amounts to \$99,000,000, and 7 per cent dividends are being paid upon it. The addition during the late twelve months was only 9 million dollars, and we explained a year ago how the previous increase to 90 million dollars had been brought about. In part it followed from the retirement of outstanding bonds or guaranteed stocks, in part from the policy adopted of supplying new capital needs by the issue of stock rather than of bonds. During the late year, notwithstanding the large expenditures for new construction, no bonds were issued by the Great Northern Company or any of the companies in the system. The requirements were met by the 9 millions of new stock already mentioned.

The income account shows that after making a contribution out of earnings of \$1,200,000 to the Fund for Permanent Improvements and Renewals and another contribution of \$600,000 to the Fund for Construction of Cascade Tunnel, \$1,800,000 together, the same as in the previous year, there remained a surplus for dividends on the income of the twelve months in the sum of \$8,626,541. The dividends of 7 per cent (the first three quarterly payments being on the old amount of stock before the \$9,000,000 increase) called for only \$6,408,777. Hence there was left a balance above the dividends of \$2,217,764 after applying \$1,800,000 in the way mentioned. In truth, the showing was really better than this if all the various properties owned and controlled are taken into consideration.

As we pointed out a year ago, the income account from which the above results are deduced is not the income account of the combined companies, but only the account of the Great Northern by itself. It covers the operations of the Manitoba leased lines and of the Seattle & Montana, but not the operations of the proprietary roads or the other companies controlled by the Great Northern. In these last two cases the account embraces merely the amounts received by the Great Northern on its holdings of stock in these companies. If the companies referred to distributed in each case the whole of the year's income, the final result would be the same as if the operations of those companies were actually embraced in the accounts. As a matter of fact, however, such income has not been divided in full. We figure that they had available \$5,052,045, that \$2,874,120 was paid to the Great Northern in the shape of dividends, and that \$1,328,800 was required for fixed charges, leaving a further sum of \$849,125 which was not distributed. Adding this last sum to the \$2,217,764 surplus shown above, would make the total surplus over and above the dividends and the \$1,800,000 appropriation for improvements etc., no less than \$3,066,889. It is proper to say that there was one exceptional item of considerable magnitude in the late year's income of the Great Northern, namely the \$689,076 profit realized from the sale of Oregon Railroad & Navigation preferred stock. On the other hand it is important to note that according to the report there was included in the operating expenses for maintenance of road and structures \$1,861,874 spent for extraordinary improvements. this being entirely independent of the \$1,800,000 special appropriation mentioned above.

In the operating results we look, of course, for continued advance in the case of the Great Northern; and the expectation is not disappointed. The road under Mr. Hill's management has long been noted for excellent work in this respect. In the late year further progress was made in the same direction. For example, another 20 tons was added to the average train-load, bringing it up to the high figure of 356 tons. One of the noteworthy features of the year was the large amount of improvement work done. President Hill directs attention to this feature, and sixteen pages of the report are devoted to setting out the The figures are really striking in their magdetails. nitude. For instance, over eight miles of wooden

bridges were replaced by heavy steel construction or solid earth embankments. In improving tracks, etc., over 9½ million cubic yards of material were moved, being nearly equal to the grading of 500 miles of ordinary railway. The building of the tunnel under the Cascade Mountains has been steadily pushed and a dispatch from St. Paul on Wednesday of this week announced the meeting of the two forces working from opposite ends of the tunnel. The work has been going on for three years and it is now expected the tunnel will be opened to traffic on December 1. This will permit the abandonment of the "switchback" over the mountains and effect a large saving in the expense of all trains on that portion of the line. Evidently there is no reason to fear as to the future of the Great Northern.

ITEMS ABOUT BANKS, BANKERS AND TRUST CO'S.

-The sales of bank stocks this week aggregate 460 shares, of which 450 shares were sold at auction and the balance at the Stock Exchange. The sales of trust company stocks amount to 17 shares, all sold at auction. The sales of Hanover National Bank stock at 399-400, included in the table below, are the first public transactions in the stock of this bank since its capital stock was increased by 20,000 shares July 2.

Shares. BANKS-New York. 6 America, Bank of	Price. 455	Last Previous Sale. Aug. 19.0- 450

- Preparations are being made for the opening, soon after the election, of a new institution to be known as the New York Security Bank in the vicinity of West Broadway and Beach Street. It will have a capital of \$250,000 and a paid-in surplus of a like amount. The board of directors will be: Silas A. Condit, Julius Kaufmann, J. N. Schermerhorn, Cyrus B. Lewis, William McComb, Edmund C. Miller, Norman S. Dike, Ethan Allen, Malcom Stuart, William R. Kuran, James W. Godfrey, Willis S. Paine, formerly Superintendent of Banks of the State of New York, and Henry C. Brewster.

-The programme of the annual meeting of the Trust Company Section of the American Bankers' Association at the Masonic Temple, Richmond, on October 3, comes to us rather late, but it is evident that a great deal of time and labor has been spent in preparing an elaborate and instructive order of proceedings. The Address of Welcome will be made by Mr. John Skelton Williams, President of the Richmond Trust & Safe Deposit Co. Mr. William G. Mather, President of the American Trust Company, Cleveland, and Chairman of the executive committee of the Trust Company Section, will make the reply to the Address of Welcome. The papers and addresses include the following:

"The Duties and Liabilities of Trust Companies Acting as Transfer Agents and Registrars," by Mr. Henry J. Bowdoin, Vice-President of the Maryland Trust Company, Baltimore, Md.

"The Proper Conservative Attitude of Trust Companies Toward Corporate Enterprises," by Mr. John E. Borne, President of the Colonial Trust Company, New York City.

"The Advantages of Operating Safe Deposit Vaults in Connection with the Trust Company," by Mr. William A. Carr, Treasurer of the Union Trust Company, Pittsburg.

"Trust Company Advertising," by Mr. Richard L. Crampton, of the Northern Trust Company, Chicago.

There will also be five-minute talks as follows:

"Essentials Required by Trnst Companies to be Put in Mortgages and Other Papers," by Mr. Audrew Squire, Counsel for the Guardian Trust Company, Oleveland. "The Proper Education of the Clerical Force of a Trust Company with Regard to Promoting the Highest Efficiency of the Office Force," by Mr. Arthur Heurtley. Secretary of the Northern Trust Company Bank, Chicago.

Mr. Henry Russell, counsel for the Union Trust Company, Detroit, Mich., is also down on the programme for an address on "Necessity of Trust Company Officers Having Legal Education," but he informs us that he has "been prevented from attending and will not deliver an address at this convention."

-At the annual meeting of the Boston Stock Exchange this week Mr. John Parkinson, of the firm of Parkinson & Burr, was, as expected, elected President of the Exchange The other officers elected are: Charles C. Jackson, Vice President; Sidney Chase, Treasurer; Governing Committee' John W. Belches, G. Frederic Gridley, Frank W. Remick' Charles Head, Arthur W. Hale, Henry Hornblower and Manning Emery.

-A new trust company has recently been organized in Akron, Ohio, under the title of the Akron Trust Company, with a capital of \$100,000. It will open for business Oct. 1. The officers are H. B. Camp, President; A. B. Rinehart, Vice-President; E. R. Held, Treasurer, and J. W. Lyder Jr., Secretary.

-The Massachusetts National Bank of Boston this week declared a dividend of one per cent on its stock, payable October 1. This is the first dividend paid in a number of years. A short time ago, it will be remembered, the stockholders of the bank paid an assessment of \$400,000 on the \$800,000 capital of the bank. Mr. D. G. Wing has been elected a member of the board of directors to succeed the late Edward T. Russell. Mr. Wing, it is expected, will be made Vice President. Mr. John W. Weeks will remain as President.

-The report of the Hong Kong & Shanghai Banking Corporation for the half-year ending June 30, 1900, shows net profits (including \$960,843 balance brought forward from last account) of \$3,438,826. From this amount \$500,000 is transferred to the reserve fund, increasing that fund to \$12,000,-000. A dividend of one pound and ten shillings per share is declared, absorbing \$533,333, and \$1,717,543 is carried to new profit and loss account.

English Financial Markets—Per Cable. The daily closing quotations for securities, etc., at London are reported by cable as follows for the week ending Sept. 28.

WALL STREET, FRIDAY, SEPT. 28, 1900.-5 P. M.

The Money Market and Financial Situation.—The security markets have been unsettled and irregular this week. There has been increased activity, but legitimate selling by real owners and purchasing by investors have apparently constituted a small part of the transactions, and the wide fluctuations recorded do not seem to be warranted by the developments of the week. Doubtless the most important of these developments affecting Wall Street values was the progress made towards a settlement of the coal miners' strike, and this was made much of by professional traders at the Stock Exchange. Of the other factors which have influenced the course of the markets, a rather sharp decline in foreign exchange and expectation of an advance in in foreign exchange and expectation of an advance in money-market rates are most prominent.

Money-market rates have continued about steady, but the rapidly diminishing surplus reserve of the associated banks

The Bank of England weekly statement on Thursday showed a decrease in bullion of £554,083 and the percent-age of reserve to liabilities was 53.98, against 53.96 last week; the discount rate remains unchanged at 4 per cent. The Bank of France shows an increase of 1,650,000 francs in gold and a decrease of 1,100,000 francs in silver.

Foreign Exchange.-The market for foreign exchange has been decidedly weak, and rates declined on liberal offerings of commercial bills and a limited demand.

To-day's actual rates of exchange were as follows: Bank-ers' sixty days' sterling, 4 82¼@4 82½; demand, 4 85¾@4 86; cables, 4 86¼@4 86½; prime commercial, sixty days, 4 81¾@ 4 82; documentary commercial, sixty days, 4 81¼@4 82½; grain for payment, 4 82¼@4 82½; cotton for payment, 4 81¼ @4 81½; cotton for acceptance, 4 81¾@4 82. Posted rates of leading bankers follow:

Posted rates of leading bankers follow:

\* This is the price bid at the morning board; no sale was made. † Prices are quotations in "Unlisted Dep't" for bonds "when issued."

State and Railroad Bonds.-Sales of State bonds at the Board are limited to \$8,000 Tennessee settlement 3s at 94 to  $94\frac{1}{2}$ .

to 94½. In the matter of activity, the railway bond market has continued about as reported last week, daily transactions averaging nearly \$900,000. There was a general tendency to weakness until Thursday, when the tone was firmer and early declines were recovered in many cases. There were notable exceptions to the tendency of the market, and net results are more or less irregular. Wabash debenture series B were conspicuous for activity and strength. Wisconsin Central 4s, Southern Pacific 4s and Central of Georgia 1st income issues were weak. income issues were weak.

## RAILROAD EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from January 1 to and including such latest week or month. The returns of the street railways are brought together separately on a subsequent page.

Latest Gross Earnings.		Jan. 1 to	Latest Date.		Latest	Gross Ear	nings.	Jan. 1 to Latest Date.

Net Earnings Monthly to Latest Dates.—The table follow-ing shows the gross and net earnings of STEAM railroads reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the CHRONICLE of September 22 1900. The next will appear in the issue of October 20, 1900'

Street Railway Net Earnings.—The following table gives the returns of STREET railway gross and net earnings received this week. In reporting these net earnings for the street railways, we adopt the same plan as that for the steam roads—that is, we print each week all the returns received that week, but once a month (on the third or the fourth Saturday), we bring together all the roads furnishing returns, and the latest statement of this kind will be found in the CHRONICLE of September 22, 1900. The next will ap pear in the issue of October 20, 1900.

#### Great Northern Rallway.

(Report for the year ending June 30, 1900.) The annual report of Mr. J. J. Hill, President, is given at length on pages 654 to 662, together with the revenue and income accounts and the general balance sheet.

The earnings and expenses of the Great Northern Railway, compiled in the usual complete form, are shown below,

The first table includes the operations of the railway system; the second table gives the income account of the Great Northern Company, and the third table shows the results for the entire system, treating all as if one corporation.

#### New York New Haven & Hartford Railroad,

(Report for year ending June 30, 1900.)

President J. M. Hall says in substance:

General Results.—Both passenger and freight receipts are the largest in the history of the company; also for the first time the receipts from freight exceed the receipts from passengers. The operating expenses show an apparent increase over last year of \$2,643,583, or 10 per cent. To the operating expenses of the present fiscal year, however, there has been charged expenditures for betterments and new equipment to meet general depreciation to a total of \$2,745,652, including:

Elimination of grade crossings, \$462,270; Bridgeport improvements, \$227,017; Fort Point channel, Boston, drawbridge, \$130,000; 40 locomotives, \$546,725; 500 coal cars, \$359,860; equipment for "Bay State Limited" trains, \$136,552; remainder various improvements, such as new stations and yards, new bridges, double-tracking, new sidings, etc. [the report gives the list in detail.—Ed.]

If the \$2,745,652 thus charged be deducted from the total operating expenses, \$28,224,839, it will leave \$25,479,187 as the real cost of operation, or 63 18 per cent of the total gross earnings, a decrease in the real operating cost of 1.24 per cent as compared with the real cost the previous year.

No charges to capital account have been made during the year except for purchases of real estate amounting to \$364,-859.

Capital Stock—Purchase of Steamboat Co.—The capital stock on June 30, 1900, was 546,854 shares, an increase of 440 shares, which were issued in exchange for stock of the New England RR. The company held in its treasury at the beginning of the year 24,956 shares of its own stock. It acquired during the year 205 shares, principally by exchange for New England common stock owned by the company; it disposed of 613 shares to acquire shares of leased lines, 1,130 shares for stock of New Haven Steamboat Co. and sold 10,482 shares, the proceeds of which were used to purchase stock of the New Haven Steamboat Co. and for general purposes. There remained in the treasury at the close of the year 12,936 shares. The entire capital stock of the New Haven Steamboat Co. has been acquired and its outstanding bonds, amounting to \$364,500, have been assumed as a part of the purchase price. The geographical distribution of the stock on June 30, 1900,

(Report for the year ending June 30, 1900.) The remarks of President J. W. Thomas from the annual report will be found on pages 662 to 664.

The statistics of earnings and expenses and the income account and balance sheet for several years are given below.

		0010001	0.00 0000				

\*Also 2 steamers and 2 transfer barges.

The geographical distribution of the stock on June 30, 1900, was as tollows: Massachusetts, \$19,325,900; Connecticut, \$13,-831,900; New York, \$16,889,400; Rhode Island, \$2,296,200; other States, \$2,342,000-total, \$54,685,400.

Bonds — The mortgage certificates and first mortgage bonds of the New Haven & Derby RR. Co., aggregating \$705,000, matured Feb. 1, 1900, and were paid by your corporation, the amount so paid being held as a charge against the New Haven & Derby RR.

Grade Crossings.—The work of abolishing grade crossings through the city of Bridgeport was commenced in December laat, and it is expected that the present contract, covering about one-half of the work, will be completed and the new tracks ready for use by the first of next year. The re mainder of the work will be continued as fast as legal obstructions are removed. When finished this will complete the four-track system between New York and New Haven.

Other work of the same character is in progress at Bristol, Conn.; Summer St., Boston, Mass.; at Whitins, Mass.; at Middleboro, Mass., and at Dorchester Avenue, Boston. Legislative acts providing for the abolition of grade crossings at Fall River and Worcester will necessitate early action in those cities.

Other Improvements.-To accommodate the increasing traffic along the Naugatuck RR. extensive improvements, including the double-tracking of that division as far as Water-bury, have already been commenced. The work of chang-ing the Grand Central Station in New York into a union station, to the cost of which improvement this company has contributed liberally, is nearly finished, and when in use passengers between New York and Boston will find at either terminal convenient and elegant waiting-rooms.

Electric Lines .- The installation of electricity upon the Providence Warren & Bristol RR. is nearly finished. A contract has been entered into with the Union Street RR. Co. of Providence to move the electric cars of this company over its tracks between East Providence and Union Station in Providence.

During the year the Warwick Branch, running from Auburn, on the Stonington Division, to Buttonwoods, was sold to the Union Street RR Co. of Providence for \$90,000.

Statistics.-The statistics of operations, earnings, etc., were:

Note.—The foregoing figures include the earnings and expenses of all the railroad properties operated by this company. They do not include the earnings of the several steamboat lines, amounting in the year 1899-00 to \$;985,700, with the exception that the dividends received from these lines are included in the item "Income from other sources." The total gross earnings of the rail and boat lines com-bined for the year ending June 30, 1900, were \$i4,310.853; for the year ending June 30, 1849, \$40,927,844; increase (8 3-10%),\$3,383,-009. The figures for 1900 include earnings of the New Haven Steam-boat Co. for May and June, \$t1,377, which, if deducted, makes the increase \$3,321,632, equal to \$t1 per cent.

Surplus.	\$2,039,084	\$1,489,929	I. \$609.155

During the year the capital stock was increased \$4,722,100 and the funded debt \$9,461,400. The current liabilities decreased \$7,795,892 and the sinking funds increased \$1,098,072. -V. 71, p. 543, 491.

#### Alabama Great Southern Railroad.

(Report for the year ended June 30, 1900.)

President Samuel Spencer says in part:

President Samuel Spencer says in part: Contracts have been made during the year for 8 locomotives and 300 freight cars, costing \$333,008, viz: 2 passenger engines; 6 consoli-dated freight engines: 150 box cars, and 150 double-hopper bottom coal cars. Part of the cost of the box cars and locomotives was paid in cash upon delivery, and the remainder extended over a period of three years in equal monthly instalments, with interest at 5 p c. per annum. Payment for the 150 coal cars now being delivered will be made by the use of the "special cash reserve fund for new property and betterments," amounting, on June 30, 1900, to \$110,563, as shown in the balance sheet. Cross-ties laid during the year, 133,132; steel rails laid, 9:67 miles of 75-lb, steel. The improvements in the physical condition of the roadway and equipment which have been gradually made during several years past, have resulted in a marked advance in operating efficiency. The average number of tons of frieght hauled per train per mile, which in 1890 was 158.81, in 19(0 was 251.26, an increase of 58 per cent. The average freight earnings per freight train mile, which in 1890 were \$1 43, in 1900 were \$1 75, an increase of 22 per ct., despite a decrease in the average rate per ton per mile from '90 cent to '69 cent, or over 23 per cent.

23 per cent.

Earnings, Etc.-The earnings, balance sheet, etc., of the American company are as follows:

## Cleveland Lorain & Wheeling Railway. (Report for the year ending June 30, 1900.)

536

President Walter R. Woodford says in substance: General Results .- The operations for the year ending June 30, 1900, compared with the previous year, show an increase n gross earnings of \$470,592, or 29 per cent, and an increaso in net revenue of \$123,397, or 66 per cent. Compared with he previous fiscal year the freight earnings increased 32 per cent, the tons carried one mile increased 31 per cent, the average load of freight trains increased from 295 tons to 347 cons, or 18 per cent, and the total miles run by freight trains increased from 981,329 to 1,096,759, or 12 per cent. The net earnings per mile of road were \$3,555, against \$3,769.

It is of interest to note the growth of miscellaneous business as distinguished from the important item of coal traffic during the seven years ending June 30, 1900. For the year ending June 30, 1894, miscellaneous traffic contributed \$295,-866, or 28.79 per cent of gross freight earnings. In the year ending June 30, 1900, it amounted to \$943,889, or 51.52 per cent of the whole, the increase being largely attributable to the establishment of local industries.

Bonds-Improvements.-The business of the company necessitates the movement of a large tonnage at a low rate, and it is the aim of the management to raise the property to a high physical standard, to enable the economical hand-ling of the traffic. With this in view large expenditures for additions and improvements have been made during the year, requiring an increase in the bonded indebtedness and involving abnormal charges to operation. The comparative results already obtained seem to the management to have fully warranted the expenditures. The general mortgage 5 per cent bonds to the amount of \$493,000 have been iscued for expenditures upon the property and \$950,000 of the newly-authorized consolidated refunding  $4\frac{1}{2}$  per cent bonds have been used to purchase additional equipment. The car trust was reduced from \$250,100 to \$174 476.

Maintenance, Etc.-The charges to operating expenses for maintenance of way, structures and equipment increased \$219,367, or 52.37 per cent over the previous year, because of the liberal expenditures made for maintenance and improvement. The report describes at length the expenditures of this nature, stating in each case whether paid for from earnings or charged to capital account. Among the facts given are:

or charged to capital account. Among the facts given are: All of the 56-pound steel rails in main line between Lorain and Bridgeport, about 7s track miles, including leads and frogs, were re-placed with standard 8 -pound rails. The main line track now in-cludes: 60-pound steel, 5:57 miles; 65-pound. 80:2s miles; 68-2-pound. 31 miles; 80-pound, 70:14 miles; total, 186:99 miles. The increased weight of metal was charged to improvement, other expenses in connection with the same to operations. In the work of ballast-ing, 123,12 - cubic yards of gravel and 18,432 cubic yards of furnace slag were moved. At the close of the present calendar year there will be no wooden truss bridging left upon the road There were purchased during the year: 5 switch engines, 7 road en-gines, 100 box cars, 200 flat cars, 80.1 gondola cars and 50 side dump cars, and 720 freight cars were equipped with air-brakes and 50 cars with automatic couplers. The legal requirements in these respects have been tully met. At Lorain the new car shops were completed. The ore docks were enlarged by the building of 640 lineal feet of steel and wood dockage. Additional tracks were laid aggregating 9:24 miles. The work of reducing the Sheffield grade, immediately south of Lorain, covering a distance of 3 miles, and the grades at Belden for a distance of 5 miles, from 52's feet to a maximum of 26's feet was commenced in May and will be finished during the present season, A tract of 66 acres, immediately south of 17th Ave., adjoining the southerly limit of Lorain Yards, has been purchased for shop grounds and additioal terminal yard. and additioal terminal yard.

Statistics.—The following tables, compiled for the CHRON-ICLE contain important statistics for the years ending June 30:

interest dividend certificates aggregating \$970.242, payment of ad-vances from the Canadian Pacific Railway Co. for construction and equipment, payment of car trust notes, purchase and improvement of the Minneapolis terminals, purchase of additional equipment, etc. During the year the line from Rapid River north to Trenary, a dis-tance of 24 miles, was completed. The new terminals at Minneapolis will be ready for occupancy by Oct. 1, and will effect a considerable saving of terminal rental.

saving of terminal rental. During the year 40 miles of 60-pound steel rails were relaid with 72-pound steel; 2,641 lineal feet of wooden bridges were filled with earth, and eicht wooden span bridges were replaced with steel spans, and 100 miles of road was ballasted with gravel. The company's equipment is in excellent condition, and was increased during the year by the purchase of 200 freight cars, of 60,000 pounds capacity. The average rate per ton per mile was 6.58 mills, as compared with 5.80 mills during the preceding year. The average miles operated during the year was 1.286; the gross earnings per mile were 4,006, as compared with \$3,470 per mile during the previous year, and \$2,446 during the year 1894 on an average of 1,189 miles.

GENERAL INVESTMENT NEWS.

#### RAILROADS, INCLUDING STREET ROADS.

Ann Arbor RR.-Earnings.-The earnings for the year ending June 30, 1900, compare as follows:

Fiscal Gross Net Deductions. Batance, Year. earnings. earnings. Additions. Taxes. Int., etc. surplus. 1899-'00.\$1721,454 \$674,294 \$277,461 \$46,001 \$283,505 \$67,024 1894-'99. 1,519,334 612,244 265,300 40,154 288,803 17,987 -V. 69, p. 692.

Anthracite Coal Roads. - Strike.-The extent of the strike gradually increased during the early part of the week until on Thursday the Reading had only thirteen collieries working; there was also a smaller force of men at work in the Markle pits at Jeddo. The operators, however, are reported to be inclined to grant a 10-per-cent increase in wages, provided they are not obliged to recognize the union, and yesterday there was a hopeful feeling that a settlement might soon be reached.—V. 71, p. 601.

Baltimore & Ohio RR .-- The New York Stock Exchange on Oct. 1 will list \$2,500,000 additional common stock voting trust certificates subscribed for last May, making the total amount listed \$45,000 000.-V. 71, p. 543, 340.

Boston & Albany RR.—Lease Ratified.—The stockholders on Wednesday ratified the lease of the road to the New York Central as modified by the Massachusetts Legislature by a vote of 116,936 against 49. -V. 71, p. 388, 390.

Chicago Milwaukee & St. Paul RR.-Director.-James H. Smith of New York has been elected a director, succeeding C. H. Cost-r, deceased.

Improvements-Earnings.-Chairman Miller is quoted as

## Minneapolis St. Paul & Sault Ste. Marie Railway.

(Report for the year ending June 30, 1900.)

The report, which is signed by President Thomas Lowry

and General Manager Pennington, says in part: The gross earnings as compared with the previous year show an in-crease of 13'4 per cent; net earnings, 37'7 per cent; fixed charges, taxes and terminal rentals, 13'6 per cent; surplus earnings, 134'9 p. c. The mileage constructed entitles the company to issue \$',128,0.0 of its first consolidated mortgage bonds, and these are available for extensions or improvements when required.

extensions or improvements when required. The fixed charges were increased during the year by the issuance of \$3,500,000 cf 4 per cent second mortgage bonds to retire income and

saying: "We have no intention of discontinuing improvements, although no such money will be expended as was done last year. The road will not require as much ballasting nor will there be such an outlay or money for equipment. but, with the decrease shown in gross, it may safely be said that the cost of improvements will be about enough to make the same showing in net as last year."—V. 71, p. 490, 494.

Chicago Rock Island & Pacific Ry.-Liste 1.-The New York Stock Exchange has listed \$1,000,000 additional general mortgage 4s of 1983, making the total listed to date \$54,581.-000. Of the proceeds of the above \$1,000,000 bonds, \$407,215 has been expended for real estate purchasel for improve-ment at various points and \$293,938 for the work of elevating the tracks in Chicago.-V. 70, p. 1147, 1152.

Columbus Northwestern Ry.—Sold.—See Detroit Lima & Northern Ry. below; also V. 71, p 236.

Cornwall & Lebanon RR.—Car Trust Certificates Called.— The following thirteen certificates of \$1,000 each-Nos. 21, 46, 93, 183, 211, 218, 229, 231, 238, 240, 253, 256 and 260—have been drawn for payment at the office of the trustee, the Pennsylvania Company for Insurances on Lives & Granting Annuities, in Philadelphia, on Oct. 1.—V.70, p. 632.

Detroit & Lima Northern Ry.—Columbus Northwestern Sold.—The Columbus Northwestern Ry., known as the Columbus & St. Mary's extension, was sold at Bellefontaine, Ohio, on Sept. 21 under order of Court, and purchased by W. B. Strang Jr., of No. 15 Wall St., New York, for \$200,-000, the upset price. The line extends from Peoria, O., to St. Mary's, 65 miles, and is to be extended northerly to Lima and on the south to Columbus.—V. 71, p. 236.

Fitchburg RR.—Bonds Authorized.—The stockholders on Wednesday authorized the issue of not exceeding \$500,000 bonds dated Oct. 1, 1900, to provide for the payment of \$500,-000 5 per cents maturing Oct. 1.—V. 71, p. 543, 341.

Illinois Central RR.—Authorized.—The stockholders on Wednesday ratified the purchase of the St. Louis Peoria & Northern line from Springfield to East St. Louis, and authorized the making of a mortgage thereon to secure \$4,-000,000 of 3 per cent gold bonds, payable in 1951.—V. 71, p. 541, 543, 546.

Iowa Central Ry.—Listed.—The New York Stock Exchange has listed \$300,000 additional first mortgage 5s of 1938, making the total listed to date \$7,200,000. The proceeds of these additional bonds "will be applied on account of purchase of new equipment and extraordinary improvements."

Earnings.—The results for the fiscal year ending June 30, 1900, compare as follows:

Kansas City Ft. Scott & Memphis RR.—New President.— D. L. Winchell, Vice-President and Traffic Manager of the Colorado Southern RR, has been elected President and General Manager of this company and of the Kansas City Memphis & Birmingham RR.

Called Bonc's.—Nathaniel Thayer and Charles Merriam, the mortgage trustees, have drawn by lot and will pay on Sept. 26, 1900, at 105 flat, bonds of \$1,000 each of the following companies to the amounts named, viz: \$35,000 Fort Scott Southeastern & Memphis RR. Co. 7 per cent bonds, \$14,000 Short Creek & Joplin RR. Co. 7 per cent bonds.—V. 71, p. 390.

Kansas City Memphis & Birmingham RR.—New President.—See Kansas City Fort Scott & Memphis RR. above.— V. 71, p. 285, 287.

Louisville & Nashville RR.—Bonds Assume 1.—The Nashville Florence & Sheffield Ry., a subsidiary line embracing 108 miles of road, which was sold under a judgment in April last to the L. & N., was on July 1 merged in that company, which has assumed the \$2,096,000 of first mortgage bonds of 1887.—V. 71, p. 84.

Maine Central RR.—Payment of Bonds.—The \$441,500 of 6 per cent bonds due Oct. 1, 1900, and the coupons also due will be paid by the Boston Safe Deposit & Trust Co., Boston, or at the office of the Treasurer, Portland, Me.—V. 71, p 342

Manitou & Pike's Peak Railway-Overdue Coupons.-The coupons due April and Ostober, 1899, and April, 1900, are being paid by Flower & Co., 45 Broadway.

Nashville Florence & Sheffield Ry.—Merged.—See Louisville & Nashville RR. above.—V. 70, p. 792.

New York New Haven & Hartford RR.—Quarterly.— Earnings for the quarter ending June 30 were :

3 mos end. Gross Net Other Interest, Balance, June 30— earnings. earnings. income. laxes, etc. surplus. 1900.....\$10,049,310 \$1,987,554 \$218,682 \$2,067,969 \$138,267 1899..... 10,008,929 2,409,475 14,435 2,006,365 417,545 The report for the last fiscal year will be found on a pre-

ceding page. Col. Frank W. Cheney of South Manchester has been

elected a director to succeed the Hon. Henry C. Robinson.--V. 71, p. 30.

New York & Ottawa RR.—Bridge.—The new bridge over the St. Lawrence River at Cornwall has been completed, and it is expected the road from Ottawa to Tupper Lake, 128 miles, will be formally opened in a few days. It is understood that no reorganization plan will be issued until the earning capacity of the road as a through line as well as a local line has been determined.—V. 71, p. 135. Omalia & St. Louis RR.—Mortgage Trustee Brings Suit.— The Guaranty Trust Co. of New York and Julius Walsh of St. Louis, as trustees under the first mortgage, on Sept. 20 filed a bill of complaint in the United States Circuit Court at Council Blnffs asking that a new receiver be appointed and that the mortgage represented by them be foreclosed. The coupons due Jan. 1 and July 1, 1900, are in default, a large amount of taxes, it is said, remains unpaid, a judgment for \$26,904 has been recorded, and receivers were appointed with the company's consent last January. Judge Thayer of the United States Circuit Court at St. Louis on Sept. 24 granted the bondbolders' committee permission to examine the books and records of the receivers of the road. The receiver at

present in charge of the property is also in charge of allied lines, and the committee desires if possible to obtain a separate receiver.—V. 71, p. 30.

**Peoria Decatur & Evansville Ry.**—Branch Sold.—The Evansville & New Harmony RR., known as the New Harmony branch, extending from Stewartville to New Harmony, Ind., 6:29 miles, was sold under foreclosure at Mount Vernon on Sept. 12, and purchased by the Illinois Central for \$5,900, This completes the purchase of the Peoria Decatur & Evansville lines by the Illinois Central.—V. 71, p. 492.

Pere Marquette RR.—Car Ferry.—The company has ordered from the American Ship-building Co. a car ferry steamer, to cost \$350,000, and to be completed by Oct. 1, 1901. The vessel will be 350 feet in length over all, and its speed will be 14 miles an hour with its maximum load of 32 cars. The company proposes to stop running its car ferries to Muskegon, and to make Ludington the only east shore port for the lines from both Milwaukee and Manitowoc.—V. 70, p. 895.

Sandusky Bellevue Monroevile & Norwalk Electric Railway.—Mortgage.—The company has made a mortgage for \$600,000 to the Commonwealth Title Insurance Trust Co. of Philadelphia as trustee. It is said the road will be in operation by Dec. 1. The officers are: President, Clark Rude, Sandusky, O.; Vice-President. J. Lancaster Bailey, Philadelphia; Secretary, W. E. Guerin, Sandusky; Treasurer, James McLain, Philadelphia.

Seaboard Air Line Ry.—Ryan Suit.—Thomas F. Ryan of New York on Thursday applied to the United States Court in Norfolk, Va., for permission to file a supplemental bill in the suit begun by him some time ago as a stockholder of the Seaboard & Roanoke RR. to prevent the consummation of the Seaboard consolidation. Judge Waddill is expected to render a decision on the matter by Oct. 16.—V. 71, p. 603.

Tacoma & Columbia River Ry.—Sale Sept. 29.—The foreclosure sale is set for to-day at Tacoma; upset price \$11,000. --V. 71, p. 493.

Union Traction Co. of Philadelphia.—Balance Sheet.— The item "open accounts \$1,731,473" in the balance sheet published last week (page 600), it is explained, is not properly a current liability, as it represents assets of underlying companies taken over by the Union Traction Co. at the time of its organization, and which will not have to be returned to them until the expiration of their leases, or about 999 years.— V. 71, p. 600.

Washington Water Power Co.—Increase of Stock.—The stockholders have voted to increase the capital stock from \$1,500,000 to \$2,000,000, for the purpose of purchasing the upper falls of the Spokane River from the Amsterdam Kantoor Co. The lower falls are already owned.—V. 71, p. 259.

## INDUSTRIAL. GAS AND MISCELLANEOUS.

American Cereal Co.—Offer to Purchase Stock.—O. C. Barber, President of the Diamond Match Co., who has been largely interested in the cereal company, has sent out a circular letter, saying:

As a representative of a syndicate of English bankers who desire to purchase a large majority, or all, of the American Cereal Company's stock. I am authorized to offer \$175 per share for the same, conditioned on the annual statements of the last three years being verified as correct by Price, Waterbouse & Co. The syndicate propose to deposit \$3,500,000 with one of the prominent trust companies or banks of Chicago as a guaranty of their good faith, and pay for the stock as it is delivered up to par. The balance to be paid for within six months from date of first payment. All the stock to be left with the bank or trust company as collateral security for deferred payment. -V. 70, p. 478.

Bristol (Tenu.) Telephone Co.—Mortgage.—The company has made a mortgage for \$75,000 to the International Trust Co. of Baltimore, as trustee.

Clyde (N. Y.) Gas & Electric Co.—Permanent Receiver.— Edward Moir has been made permanent receiver.—V. 70, p. 948.

Consumers' Brewing Co. of Philadelphia.—Interest.— Holders of the certificates of deposit issued by the Investment Company of Philadelphia for bonds of the brewing company will receive at the office of the investment company on Oct. 1 \$20 on each bond on account of interest maturing Oct. 1, 1900.—V. 71, p. 604, 344.

Continental Tobacco Co.—Debentures Ready.—Baring, Magoun & Co. are delivering the engraved debentures in exchange for the temporary printed debentures at their office, 15 Wall St.—V. 71, p. 289, 238.

Diamond State Steel Co.—Report.—The results for the fiscal year ended June 30 from operating the old iron plant of the Diamond State Iron Co., the new steel plant having been completed since July 1, 1900, are stated as follows:

Gross	Rental	Dividend,	Charged	Balance,
profits.	to Iron Co.	8 per cent.	off.	surplus.
\$230,596	\$40,000	\$120,000	\$28,549	\$41,547

The capital stock is \$1,500,000. Dividends of 4 per cent each were paid in January and July, 1900.-V. 70, p. 282.

Distilling Company of America.—Reduction of Nominal Stock.—The stockholders will vote Oct. 17 on a proposition to reduce the preferred stock from \$55,000,(00 to \$35,000,000, and the common stock from \$70,000,000 to \$50,000,000, such reduction to be effected out of the still unissued preferred and common stock.—V. 71, p. 557, 392.

1 Lidgerwood unloader	68	2.841	00
U U			-
Total		\$318.379	28

#### CHARGES TO INCOME FOR ADDITIONS AND BETTERMENTS.

In view of the exceptionally favorable conditions of the fiscal year just closed, your Board has felt it desirable to follow the precedent of the previous year in making a liberal appropriation out of income for additions and betterments to promote the development of the existing lines upon modern standards of safety and efficiency.

The following schedule shows the appropriation from income and the disposition of the same for these purposes :

-		

All of the above construction is from funds provided under the terms of the Prior Lien Mortgage, and the lines become a part of the estate of this Company, subject to the same. These lines will be completed during the present fiscal year.

The Portage & Northwestern Railway Company of the Province of Manitoba, owning and operating 29.21 miles of railway, constituting an extension of your system within that Province, has been acquired through the purchase of all of its share capital, which has been deposited with the Trustee of the Prior Lien Mortgage.

#### CLEARWATER SHORT LINE RAILWAY COMPANY.

The Clearwater Short Line Railway has been completed from the junction of the Potlatch and Clearwater rivers in Idaho, connecting at that point with the Lewiston Branch, to a point on the south fork of the Clearwater River, a dis-tance of 62.84 miles, and has been operated since May 15, 1900. A branch of said railway, following Lapwai Creek 11.96 miles, and penetrating some of the best territory in the Nez Perce Indian Reservation, was opened for operation November 15, 1899.

The business secured by the construction of these lines has been quite satisfactory, and confirms the wisdom of the investment. Further extensions will be made from time to time as the development of the territory served necessitates.

All of the securities of the Clearwater Short Line Railway are held in the treasury of this Company.

#### PROPRIETARY COMPANIES.

#### SEATTLE & INTERNATIONAL RAILWAY COMPANY.

This Company has been continued under separate management as an independent road and upon the same basis

of divisions upon joint business as when acquired. The result of its operation for the year ending June 30, 1900 (175.55 miles), is given below.

Gross Earnings-

Freight       \$421,551 35         Passenger       184,908 18         Mails, express, etc.       41,723 50         Miscellaneous       4,307 19         F281 745 05       \$652,490 02	
Operating expenses and taxes	

Net earnings ......\$183,495 72

February 1, 1900, this Company took a lease of that por-tion of the line of the Everett & Monte Cristo Railway be-tween Snohomish and Everett, Washington (11.5 miles), with an agreement to purchase same when satisfactory title could be given. The operation of the line has proven satisfactory, and title will be taken during the present fiscal year.

The construction of a branch from Arlington to Darrington, Washington, thirty miles in length, has been authorized, thereby making a heavily-timbered territory more

directly tributary to the present line. Your Company owns all of the securities of the Seattle & International Railway, and these earnings are properly a part of its surplus, but only that portion of the same repre-senting interest upon the cost of the property, \$178,000, has been carried to the credit of dividends and interest received in the statement of operations for the fiscal year.

#### WASHINGTON & COLUMBIA RIVER RAILWAY COMPANY.

The Washington & Columbia River Railway has also been continued under separate management, and its relations with your Company remain unchanged, the same basis of divisions on joint business being maintained. The result of its operation for the year ending June 30,

1900 (162.73 miles), is given below:

Gross Earnings-

 Freight
 \$290,704 35

 Passenger
 43,319 19

 Mails, express, etc.
 25,235 56

INSURANCE.

The operation of the Insurance Fund established July 1,

1898, is shown by the report of the Assistant Secretary. While the record for the past fiscal year has not been satisfactory, it has been a great improvement over the preceding one.

The policy of reinsuring a portion of the risk has been pursued, satisfactory rates having been obtained. The fund shows a surplus of \$32,695 44 in place of a deficit

of \$24,202 39 June 30, 1899, an increase during the year of \$46,897 83.

#### AUDIT OF ACCOUNTS.

Following the custom of previous years, the accounts of the Company have been audited by Messrs. Price, Water-house & Co., whose certificates are indors-d on the General Balance Sh-et and Income Account, and who have particularly examined into the correctness of all charges to Capital Account.

#### BRAINERD & NORTHERN MINNESOTA RAILWAY COMPANY.

There has been purchased all of the indebtedness, amounting to 3762,393 01, and 3,500 shares (representing 70%) of th capital stock of the Brainerd & Northern Minnesota Rail-way Company, a connecting line extending from Brainerd north to Bermidji, Minn., a distance of 90.52 miles.

This line was your Company's only access to a large sec-tion of the State of Minnesota that is developing rapidly, and promises a considerable revenue within a few years.

Arrangements have been made for an extension of the line from Bemidji, the prese t terminus, to the International Boundary, from which an increased traffic is anticipated.

The operation of the line since the acquisition of your interest in the same has indicated ability to pay interest upon your investment, and contributes to your system a valuable traffic that could have been diverted if control had not been secured.

A condensed statement of the operation of the line for the fiscal year ending June 30, 1900, is given below :

Gross Earnings—	
Freight	.\$316.650 28
Passenger	
Mails, express, etc	
Miscellaneous.	3.274 88
Operating expenses ard taxes	\$256.437 49
Improvements and betterments	30.415.57
Implovements and sever mentoristicities	286,853.06
	20,000 00

#### ST. PAUL & DULUTH RAILROAD.

A proposed reorganization of the St. Paul & Duluth Railroad Company, resulting in the concentration of prac-tically all of the capital stock of the Company in the hands of a reorganization committee, offered an opportunity to your Directors to secure the control of a property with which your interests have been closely allied for many years.

The land grant and land-grant assets were purchased by the Northwestern Improvement Company for \$4,020,927 39, a sum sufficient to retire all the outstanding preferred capital stock and scrip of the St. Paul & Duluth Railroad Company, and the money was placed in trust for this purpose.

The railroad and all its property were purchased for a sum sufficient to retire all of the common capital stock and scrip outstanding at sixty per cent of its par value, and the money was placed in trust for this purpose, and from July 1, 1900, the property has been merged with and is now oper-ated as part of the Northern Pacific system.

By this purchase all indebtedness of the St. Paul & Duluth Railroad Company has been assumed by your Company, and the transaction is entered of record as of June 30, 1900, in the balance sheet, although the operating results, financial and statistical, are not included in the statements of the year's business shown in this report.

By this acquisition your system of roads is strengthened by the addition of 238.09 miles of productive railroad, you become the sole owner of valuable terminals at the head of Lake Superior, in which before you had only a joint interest, and are relieved of the possibility of having in those terminals a partner whose interest should it become adverse or competitive, could damage your business incalculably.

The absorption of this property has resulted in large economies and justifies the belief the purchase will prove profitable.

A contract has been agreed upon with the Chicago Milwaukee & St. Paul Railway Company for the use of the line

Miscellaneous       1,804 19         Miscellaneous       1,804 19         Operating expenses and taxes       \$197,053 94         Improvements and betterments       51,090 93         248,144 87         Net earnings       \$112,918 22         Interest on First Mortgage Bonds       100,000 00

Beattle & International	ment of the outstanding preferred and common stocks and sorip

which has been reserved for the following purposes, viz.:

For retirement at maturity of the out-standing obligations of the St. Paul & Duluth Railroad and its proprietary -\$10,785,000 00

#### RETIREMENT GENERAL FIRST MORTGAGE BONDS.

The sales of lands have been in excess of any similar per-The sales of lands have been in excess of any similar per-iod in the history of the Company, thus providing, through the operation of the sinking fund, for the retirement of *ull* the General First Mortgage Bonds of the Northern Pacific Railroad Company which were assumed by your Company upon the purchase of that property.

Satisfaction of this mortgage has been executed by the Trustee and placed upon record, thus making the Prior Lien Mortgage a *first lien* upon all your railway system except-ing that portion south from Brainerd and Staples, Minnesota, to st. Paul.

The extinguishment of this mortgage marks the retire-ment of the last interest-bearing obligation upon the prop-erty acquired from the Northern Pacific Railroad Company to which securities of your issue were subordinate, and makes the proceeds of future sales of land subject to the provisions of the Prior Lien Mortgage for improvements, as provided therein, and for the retirement of bonds of that issue.

LANDS.

The statements of the Land Department include, for the first time, all of the lands to which the Company is entitled, acquired through foreclosure proceedings of the Northern Pacific Railroad Company.

As stated above, the sales have been unusually large and satisfactory, several blocks of land having been sold to syn-dicates interested in the settlement and development of the country tributary to your lines, from which, indirectly, further large returns are anticipated.

No value is placed upon the lands of the Company in any statement of its assets until the same are contracted for sale.

#### BUSINESS CONDITIONS.

The business of the past year has been exceptionally good, and the operating results have shown satisfactory improvement over those of the preceding year.

Passenger tariffs have been reduced, and, before the close of the present fiscal year, there will be no rate of fare in excess of three cents per mile upon any portion of the system.

The prospects for business for the coming year are not so bright, owing to serious crop failures in Manitoba, North Dakota and Minnesota, which may reduce the gross revenue of the Company for the fiscal year; but the business condi-tions up in the western portion of the system are so good we trust this loss may be offset to a considerable extent.

#### GENERAL.

You are referred to the report of the Second Vice-President for more detailed information regarding the operation of the property and its physical condition; and to the re-port of the Comptroller for a comparison of the results of

this year's work with that of the year preceding. The active and earnest co operation of the Companys officials and employes has resulted in the very satisfactory showing for the year, and the expression of our obligation to them one and all is freely given.

By order of the Board of D rectors,

CHARLES S. MELLEN, President.

#### INCOME FROM RAILROAD TENANTS.

Taxes.....

The decrease in gross receipts from tenants and from income other than traffic, amounting to \$17,442 96, was caused by the withdrawal of the Wisconsin Central Railway Company from its occupancy of this Company's terminals on December 10, 1899.

Beginning January 1 of the current year, the commuted rental payable under the lease with the St. Louis Peoria & Northern Railway Company, as explained in the last annual report, began to accrue, and six months' rental thereunder has been collected and included in the earnings.

Rental payable by the Chicago Great Western Railway Company increased at the annual rate of \$15,000 per an-num, commencing on April 1 last.

\$400,000 first mortgage 4% bonds to pay in part for new mileage, property and equipment.

\$200,000 were sold with coupon due January 1, 1900, attached, and

\$200,000 with coupon due July 1, 1900.

#### CAPITAL LIABILITIES.

#### CAPITAL STOCK.

The amount of Capital Stock outstanding has not been changed during the past year.

#### BONDS.

The amount of bonds outstanding, exclusive of free Treasury Bonds, has been increased by the sale of \$400,000 of the First Mortgage 4% Gold Bonds, and the proceeds used to pay in part for capital expenditures made during the past two years. viz.:

Received from	Trustees	under terms of the Mortgage\$295,000
Free Treasury	Bonds so	appropriated 105,000

Total	\$400.000
	4-00,000

#### DEBT AND INTEREST.

The total debt of the company, direct and assumed, ex-clusive of current liabilities incurred in the daily operation of the property, now amounts to \$14,444,000, with interest charges thereon averaging 4.072 per cent, and amounting to \$588,200 per annum.

The details of this debt and its interest charges are as follows:

	Principal.		Interest.		
Title of Debt.	Public.	Due.	Rate.	Due	Amount
First Mort. Gold Bonds- Ontstanding\$13,585.000 Treas. asset 4. 185.000 Obligations of predecessor companies assumed by the Chicago Terminal	\$13,400,000	July 1,1947	4 p. c.	Jan. 1-July1	\$5 <b>36,0</b> 00

Total principal	\$14,414,000	Annual	Inter	est	\$588,200

FIEST MORTGAGE FIFTY-YEAR FOUR PER CENT GOLD BONDS.

The Chicago Terminal Transfer Railroad Company executed, under date of June 11, 1897, a single mortgage to the United States Trust Company and John A Stewart, of New York, as Trustees, covering its entire real estate, equipment and other property now owned, and also all other property which may be subsequently acquired by the use of any of the bonds to be issued under this mortgage.

All the real estate, or nearly all of the property upon which the lines of railway have been built, are owned in fee

The bonds are dated June 11, 1897. Principal due July 1, 1947, bearing interest at the rate of four per centum, pay-

able semi-annually on the first days of January and July. Both principal and interest are payable at the office or agency of the Railroad Company in the City of New York, in gold coin of the United States of the present standard of weight and fineness, without deduction for any tax or taxes which the Railway Company may be required to pay or re-tain therefrom under any present or future law of the United States, or of any State or Territory thereof, the Rail-road Company agreeing to pay such tax or taxes.

The bonds are issued only in the denomination of \$1,000, with the privilege of registration of principal only or of both principal and interest by the surrender and cancella tion of all unpaid coupons.

The total issue of bonds under this mortgage is limited to \$16.500,000

The following amounts of bonds are reserved by the Trustees, under the terms of the mortgage:

\$1,305,000

1,610,000

Total amount reserved ..... \$2,915,000 There have been \$13,585,000 bonds certified by the Trustees and issued by the Company, which bonds are now held as follows:

By the public......\$13,400,000 In the Treasury of the Company......125,000

13,585,000

Total authorized issue.....\$16,500,000 The above-described bonds are listed at the New York Stock Exchange.

#### CAPITAL ASSETS.

The cost of the Estate of the Company has been increased during the year by the following charges for additions to the property:

Extension to Ohicugo Heights-10.7 5 infles, including 1.515 miles of spur track to

Thornton.

Opened for operation for regular freight business Octo-

#### TREASURY SECURITIES.

The following-described bonds and stock of this Company are available for any corporate purpose, and are a part of the surplus of current resources over current and contingent liabilities that constitute the working capital, in which these securities are valued at \$195.971 84, although their market value July 2, 1900, was \$282,824.

Description.	ParValue.	Qu	e at Market otations y 2, 1900.		Valuation.

#### TENANTS.

The principal railroad tenants now leasing terminal facilities and trackage are the following :

BALTIMORE & OHIO RAILROAD,

CHICAGO GREAT WESTERN,

CHICAGO HAMMOND & WESTERN (Chicago Junction Railway).

ST. LOUIS PEORIA & NORTHERN,

SUBURBAN RAILROAD (Chicago Consolidated Traction Company).

The ST. LOUIS PEORIA & NORTHERN RAILWAY lease of Oct. 1, 1898, has been modified in respect to the commuted rental payable thereunder, and Messrs. Edward H. Harriman, Jacob H. Schiff, James Stillman and George J. Gould have jointly and severally agreed "that on or before the first day of January, 1904, they will cause the Chicago & Alton Railroad Company, or some other corporation satisfactory to the Terminal Company as to responsibility. to become the successor of the St. Louis Company as lessee under said lease of October 1, 1898."

The advance payment of rental under this lease is now represented by 5353,000 of the Chicago ferminal Transfer Railroad Company's 4 per cent Bonds held by the Guaranty Trust Company, as Trustee, and payable to the Chicago Terminal Transfer Railroad Company in equal monthly instal-ments, in advance, from January 1, 1900. During the past year the Company received from the Trustees, in cash, for interest on the fund, \$13,591 27 and \$47, 00 in bonds, covering rental due from January 1 to June 30. 1900. The further rental under this lease, which is for ninetynine years, is payable in gold coin. monthly, in advance, from January 1, 1904, to December 31, 1909, at the rate of \$105,600 per annum, and from January 1, 1910, to December 31, 1999, at the rate of \$150,000 per annum. The WISCONSIN CENTRAL RAILWAY COMPANY, after receiving its property from the Receivers. occupied the terminals under a temporary arrangement from July 1 until December 10, 1899, when it terminated its temporary occupancy and ceased to use the facilities of this Company.

#### CONCLUSION.

It has been part of the policy of the management during the past year to develop, so far as practicable, the traffic in-terests of the Company. To this end efforts have been put forth to secure a reasonable proportion of the switching and transfer business of Chicago by the establishment of reliable service, the increase of side-track and kindred features, and the opening of stations for the conduct of what is known as less than car-load traffic. While of necessity prog-ress has been gradual in this respect, sufficient time has now elapsed to justify the belief that the traffic earnings of the Company will continue to expand and that a source of increased net revenue will thereby be established independent of revenue, received from tenants.

The operation of the new line of the Company's to Thorn-ton and Chicago Heights will, it is believed, within a com-paratively short time produce sufficient net revenue to more than provide for the increased fixed charges thereby created. Its geographical situation is such that any line seeking entrance to Chicago from the South would naturally consider the advisability of its use as such entrance. The opening of the line to Chicago Heights has afforded

an opportunity to further develop the passenger traffic of

the Company, and the results in this respect are gratifying. Work upon the Mayfair extension has been delayed pend-

ing the completion of arrangements with the City of Chicago involving the right to cross streets and highways therein. Material progress has been made in this regard recently, and it is possible that prior to the close of the year 1900 this line will be constructed and put in opera-tion. It is the expectation that with the opening of this extension for traffic the Company will be in a position to participate to a much greater extent than at present in the business of transferring freight between the so-called Trunk Lines.

The respective Officers and Heads of Departments are entitled to much credit for the faithful and efficient discharge of their duties.

For additional details respecting the financial position of the Company, reference is made to the accompanying report of the Comptroller.

By order of the Board of Directors,

J. N. FAITHORN, President.

Increase in Share Capital authorized		
this year	\$9,000,000 00	
Issued		\$9,186,890 00

445 shares (\$44,500) were issued in exchange for 356 shares of the St. Paul Minneapolis & Manitoba Railway Company, making the total number of shares of Manitoba Company held by the Great Northern Company 195,308 (\$19,530,800).

5,865 shares of Great Northern are held in the treasury of the Company (not used in acquiring the outstanding 4,692 shares of Manitoba stock).

1,423 9-10 shares (\$142,390) were issued under the resolution adopted by the Board of Directors April 15th, 1899, and as explained in circular issued to the Shareholders of the Company dated April 20th, 1899. This completed the issue of 150,000 shares (\$15,000,000) authorized by the said resolution.

90,000 shares (\$9,000,000) were authorized by a resolution of the Board of Directors, adopted December 27th, 1899. A circular was issued to the shareholders of the Company, dated January 2nd, 1900, offering these shares for subscrip tion at par. The full number of shares authorized has been issued. Of the \$9,000,000 realized from this issue, \$3,500,000 were used to subscribe and pay for 35,000 shares of the capital stock of the Eastern Railway Company of Minnesota and \$5,500,000 to subscribe and pay for 55,000 shares of the capital stock of the Willmar & Sioux Falls Railway Company. These issues are referred to later on in this report.

Total amount issued during this fiscal year.....\$9,186,890 00 Of which there was authorized this year...... 9,000,000 00 And during year ended June 30, 1899..... 186,890 00

The item "Cost of Properties and Securities owned by the Great Northern Railway Company," as shown in the General Balance Sheet on page 660, shows an increase of \$15,672,307 67 upon comparison with the same item in last year's Balance Sheet, which is accounted for as follows:

Cost of 55,000 shares of additional Capital Stock of the

Willmar & Sioux Falls Railway Company...... \$5,500,000 00 Cost of \$35,000 shares of additional Capital Stock of the

Eastern Railway Company of Minnesota...... 3,500,000 00 Cost of securities of the Spokane Falls & Northern Rail-

way System, less debentures and bonds redeemed.... 6,822,853 57 Cost of 356 shares of the Capital Stock of the St. Paul

Minneapolis & Manitoba Railway Company.....

Net increase.....\$15,672,307 67 In order to give the Company's old and faithful employes

an opportunity to invest their savings in a manner which would allow them to participate in the Company's prosperity

Northern Railway Company shares carried in its Treasury, the number of shares subscribed and paid for by the Investment Company.

The Board of Directors is gratified to see from the monthly subscriptions by employes a steady increase in the

habit of regularly saving a portion of their wages. The Stockholders and Board of Directors of the Willmar & Sioux Falls Railway Company adopted resolutions on December 29th, 1899, authorizing an increase of \$5,500,000 in that Company's share capital, for the purpose of acquir-ing the property of the Sioux City & Northern Railroad Company, extending from Garretson, South Dakota, to Sioux City, Iowa: the property of the Sioux City & Western Sioux City, Iowa; the property of the Sioux City & Western Railway Company, extending from South Sioux City to O'Neill, Nebraska, and the property of the Sioux Falls Ter-minal Railroad Company, in Minnehaha County, South Dakota.

The Great Northern Railway Company subscribed for the entire 55,000 shares and paid \$5,500,000 for same, as mentioned above.

The Willmar & Sioux Falls Railway Company acquired by deed the property, free of any bonded debt, formerly owned by the Sioux City & Northern Railroad Company, took possession and began operating the same January 1st, 1900. It also acquired the entire capital stock of the Sioux City & Western Railway Company (which company has no bonded debt) and assumed the operation of that Company's road on the same date. On April 1st, 1900, the Willmar & Sioux Falls Railway Company acquired title by deed to the property of the Sioux Falls Terminal Railroad Company. The cost of these several properties is included in the expenditures made during the year on Capital account, given further on in this Report.

The Stockholders and Board of Directors of the Eastern Railway Company of Minnesota adopted resolutions on February 8th, 1900, authorizing an increase of \$3,500,000 in that Company's share capital for the following purposes :

Constructing, purchasing or acquiring a bridge across the St. Louis River between Dulnth, Minnesota, and West Superior, Wisconsin.

Acquiring or constructing extensions of its existing lines of railway in the States of Wisconsin and Minnesota.

Constructing a steel grain elevator, plant and appurtenances at West Superior, Wisconsin.

Making additions to and improvements of its existing roadways and their appurtenances; and

Acquiring additional equipment for its railways.

The Great Northern Railway Company subscribed for the entire 35,000 shares and paid \$3,500,000 for same as above mentioned.

The disbursements made by the Eastern Railway Company during the year, out of this increase in capital, are

included in the expenditures made on Capital Account. There were no changes during the year in the share capi-ital of any of the other Proprietary Companies.

#### BONDED DEBT.

No bonds were issued during the year by the Great Northern Railway Company or any of the Companies in the System. Bonds have been retired as follows:

As shown by the Balance Sheet published in last year's Report, there were outstanding June 30th, 1899, \$36,000 of Great Northern Railway Collateral Trust Bonds. Of these, \$21,000 had been redeemed at the date of last Report, leaving then outstanding \$15,000, as stated on page 6 of that Report. These bonds have been redeemed during the year.

As stated on page 8 of last year's Report, the one St. Paul Minneapolis & Manitoba Railway Company's First Mortgage Land Grant Bond outstanding June 30th, 1899, was re-deemed by the Land Grant Trustees on September 15th, 1890, completing the retirement of the heads issued under 1899, completing the retirement of the bonds issued under that Mortgage.

The Trustee of the St. Paul Minneapolis & Manitoba Railway Company's Consolidated Mortgage redeemed dur-ing the year through the operation of the sinking fund \$625,000 St. Paul Minneapolis & Manitoba Railway Consoli-dated Mortgage 41/5% bonds. As no report will be published this year by the St. Paul Minneapolis & Manitoba Railway Company, there has been included in this Report as a mat-ter of information, a statement of that Company's Sinking Fund accounts and a report of the operation of its Land Department.

and make a provision for their later years, the "Great North-ern Employes' Investment Company, Limited." has been formed for the purpose of holding shares of the Great Northern Railway Company's stock, issuing to qualified employes who have subscribed therefor its Investment Certificates, upon which are paid the dividends received on Great Northern Railway shares held by the Investment Company.

The Board of Directors, at a meeting held on April 20th, 1900, resolved, subject to the approval of the shareholders as stated below, to increase the authorized capital of the Com-pany by 10,000 shares (\$1,000,000), such additional shares to be issued only to the Great Northern Employes' Investment Company, Limited, from time to time, as subscribed for, under the conditions set forth in the resolution authorizing the issue of such shares.

Approval of the shareholders of the foregoing resolution will be asked for at the Annual Meeting to be held on Octo-ber 11th, 1900. Pending such assent, the Company has transferred to the "Investment Company" from the Great

#### GENERAL.

Expenditures were made during the year on the Capital Accounts of Proprietary Companies, on work completed or under construction, as follows:

Eastern Railway Company of Minnesota	\$1,775,691 (6
Montana Central Rallway Company	
Willmar & Sioux Falls Railway Company	3,070,831 92
Duluth Watertown & Pacific Railway Company	
Seattle & Montana Railroad Company	
Duluth Terminal Railway Company	3,612 59
Minneapolis Union Railway Company (Credit)	145,184 29
Total	\$5,297,836 23

The amount charged to capital account of the Willmar &

Sioux Falls Railway Company does not include cost of stock of Sioux City & Western Railway Company, which is taken up on the Balance Sheet (page 660) as a separate item. As shown on page 659 there was appropriated out of the net revenue for the year \$1,200,000 00 for the "Fund for Permanent Improvements and Renewals;" and there was charged against that fund \$2,020,527 11, the cost of improve-ments which have not been charged to Operation made ments which have not been charged to Operation made during the year to the property leased from the St. Paul Minneapolis & Manitoba Railway Company. There was also appropriated out of the net revenue for the year \$600,000 00 towards the cost of the tunnel now be-

the year \$600,000 00 towards the cost of the tunnel now be-ing built through the Cascade Mountains. This amount has been deducted from "Revenue Account" on page 659 and is included in the amount of \$5,694,451 53 shown on the Bal-ance Sheet, page 660, as "Cost of Additions and Improvements made by the Great Northern Railway Company to property leased from the St. Paul Minneapolis & Manitoba Railway Company and paid for from 'Fund for Permanent Improve-ments and Renewals.'" The building of the Cascade Tun-nel has been so far advanced since the close of the fiscal nel has been so far advanced since the close of the fiscal year that it will be finished and put in general use by December 1st, 1900.

This Company has from time to time become interested in properties or Companies not strictly a part of the Railway System but of direct or indirect benefit to it, such as coal mines, iron mines, elevators, docks at Buffalo, N. Y., etc. It is considered that these properties can be handled to bet-ter advantage by a separate Company. To this end the Lake Superior Company, Limited, has been organized and there has been transferred to it during the year all of the Great Northern's interest in the Great Northern Express Company, Great Northern Elevator Company, Sand Coulee Coal Company, and other outside Companies. The income Coal Company, and other outside Companies. The income from these properties or securities, unless re-invested, will belong to the Great Northern's shareholders. The title to these securities, etc., having by this transfer passed from the Great Northern Railway Company to the Lake Superior Company, Trustee, the sum of \$1,851,364 92 has been charged against "Profits and Loss" as shown by table on page 659 on account of part of their cost. This will also explain why the earnings, expenses, etc., of the Great Northern Express Com-pany and Sand Coulee Coal Company have not this year been included in the Revenue table printed on page 659, as has been the practice in former years.

#### NEW LINES

The St. Paul Minneapolis & Manitoba Railway Company has completed no branch or new lines during the year, under the provisions of the lease to this Company. It began last fall, however, the building of an extension of its Lake Minnetonka Line from its present terminus, Spring Park, to a connection with the Hutchinson Branch, near St. Bonifacius, Minnesota, a distance of 8.22 miles.

The laying of the main track of this extension was com pleted June 30th, 1900, and the sidings and ballasting during July, the line being open for traffic on August 1st, 1900. The building of this extension shortens the distance be

tween Minneapolis and Hutchinson, Minnesota, by 1.37 miles; reduces the maximum grade to six-tenths of one per cent, and cuts out a great deal of curvature. It will also afford the suburban travel around Lake Minnetonka better train service during the entire year.

Since the completion of the line to the Pacific Coast, the Company has leased terminal facilities and running rights over 4.80 miles of track at Spokane, Washington, and running rights over 5.25 miles of track between Lowell and Everett Junction, Washington. During the year the Com-pany has begun the construction of its own line at these two points. The line through the city of Spokane will be five miles in length, of which 1¼ miles will be double track, and will carry the road through the central part of the city. The grade has been practically finished and the steel bridging and track work will be completed so that the line may be opened for tratfic by February 1st, 1901. In connection with this work there will be built yards at Spokane con-taining 10,000 feet of track, a brick freight station  $50 \times 600$ feet, and a brick passenger station  $50 \ge 316$  feet, with offices for the operating officials of the Western District. Of the entire distance of five miles, two thousand feet is doubletrack steel bridge construction. The line being built between Lowell and Everett is 3.78 miles in length, of which 2,358 feet is tunnel. A local yard is to be built at Everett which will contain ultimately 25,000 feet of track. There are also to be erected passenger and freight stations. The passenger station will provide offices for the staff of the Cascade Division. The line will be completed and put in operation during October, 1900. The lines acquired by the Willmar & Sioux Falls Railway Cempany January 1, 1900, and already referred to, comprise 96 miles from Garretson, South Dakota, to center of

Division Street, Sioux City; and 129.16 miles from South Sioux City to O'Neill, Nebraska.

These two lines were turned over to the Willmar & Sioux Falls Railway Company in good physical condition. In addition to handling a good local traffic, these lines

contribute largely to the main line earnings and the investment has proven a very satisfactory one. The line acquired from the Sioux Falls Terminal Railroad

Company in April, 1900, consisted of 6 944 miles of main track and 1.074 miles of side tracks between Sioux Falls and South Sioux Falls, South Dakota. Of the main track, 3.025 miles between end of line from Willmar and beginning of line to Yankton had been used by the Willmar & Sioux Falls Railway Company since the opening of the line to Yankton in fall of 1893. There was received with this line some equipment too light to handle the present traffic, which has not been taken into equipment account, but is being disposed of to the best advantage; the proceeds being applied in reduction of the cost of the property

The Eastern Railway Company's new line from Sandstone to Fridley, referred to at length on page 10 of last year's Report, was completed between Hinckley and Fridley, and opened for operation on November 12, 1899.

On March 27, 1900, the Eastern Railway Company of Minnesota acquired title by deed to the 5.87 miles of line between Saunders, Wisconsin, and the St. Louis River, there-tofore operated under a lease from the Superior Belt Line & Terminal Railway Company.

During the year the Swan River Logging Company, Limited, has built a line from Barclay Junction, a point on the Eastern Railway Company's line three and one-half miles north of Hibbing, Minnesota, to Virginia, Minnesota, 18.73 miles. This line is being used by the Eastern Railway Company under an agreement to purchase, and gives that Company access to the mines in the vicinity of Virginia, from which it is expected to haul 500,000 tons of iron or from which it is expected to haul 500,000 tons of iron ore during the current ore-shipping season.

In order to develop the iron-ore business, the Eastern Railway has graded this year a spur 3.31 miles long from a point about four miles south of Hibbing to the Stevenson mine, and one 3,200 feet long from near Barclay Junction to the Clarke mine. The tracks are laid to both of these mines, which are now being opened, and about 150,000 tons of iron ore will be hauled during the season.

Late this spring the Eastern Railway Company began the construction of a line from near Stony Brook, on its Northern Division, running north to a connection with the line built by and to be purchased from the Swan River Logging Company, Limited. This line will be about 50 miles long, and will materially shorten the haul from the Virginia iron district, besides giving a grade of 16 feet per mile. This line will be finished early next season. Of the line purchased from the Duluth Superior & West-ern Railway Company in 1897, 10:28 miles between Cloquet and Brace Junction has been taken up being no longer

and Brace Junction has been taken up, being no longer needed.

#### EQUIPMENT.

By the purchase of the Sioux City & Northern Railroad and the taking over for operation of the Sioux City & Western Railway, both before referred to, the Willmar & Sioux Falls Railway Company acquired the following equipment:

17 Locomotives, 8 passenger coaches,

4 Combination passenger and baggage cars, 3 baggage cars,

50 Refrigerator cars, 467 box cars,

100 Stock cars, 197 flat cars,

- 7 Caboose cars, one steam shovel and
- 1 Pile driver.

This equipment has been carefully inspected and appraised, and taken into equipment account at its appraised value.

The following equipment has been sold or taken out of service during the year:

21 Light Great Northern Railway locomotives,

2 Light locomotives acquired by the Eastern Railway in 1898 in purchase of Duluth Superior & Western Railway; and

8 Light locomotives,

2 Box cars,

- 2 Caboose cars and
- 1 Boarding car, acquired by the Eastern Railway in 1899 in pur-

chase of Duluth Mississippi River & Northern Railroad.

The report for last year stated that of the equipment ordered, 9 locomotives and 2,250 freight service cars had not been received and taken into account at the end of that year.

During the year under review, orders were placed for 40 locomotives, 33 passenger service cars and 1,500 freight service cars.

Of the total new equipment undelivered at the close of last year and ordered this year, the following had been received and taken to account at the close of this year:

- 19 twelve-wheel freight engines, 19 inch by 32 inch cylinders, weighing 148,000 pounds on drivers.
- 2 six-wheel switch engines, 18 inch by 26 inch cylinders, weighing 109,400 pounds on drivers.
- six-wheel switch engines, 19 inch by 26 inch cylinders, weighing 137,000 pounds on drivers.

The remaining 26 locomotives ordered but not received at the close of the year or taken into account above, have since been received and are now in service.

...... 250 ..... 19

1

 $\tilde{2}$ 

2  $\overline{\mathbf{2}}$ 

- 8 first-elass sleeping cars, with fourteen sections and state room. 2 parlor and cafe cars, 72 feet 9 inches long.
- 14 first-class passenger coaches, 69 feet long. Of these ten were to take the place of old cars taken out of service and four were additional equipment
- postal cars. 62 feet long; two to replace cars destroyed, and six for additional equipment.

One official car has been received and put into service since the close of the fiscal year.

- 2,250 thirty-six feet, 60,000 pounds capacity box cars, equipped with air brakes and automatic couplers; of these 26° were to re-place destroyed cars, 2-9 the equipment of the Park Rapids & Leech Lake Railway used under lease from that Company, and 1,695 additional equipment.
  - 250 steel. hopper bottom, 100,000 pounds capacity ore cars, equipped with air brakes and automatic couplers. The remaining 1,250 freight service cars are now being de-
  - livered.

There were also purchased during the year:

1 fifty-ton capacity steam wrecking crane, and

1 extension, self-propelling steam pile driver.

There were built at the Company's shops for additional equipment:

14 four-wheel caboose cars,

2 cinder cars,

2 extra strong cars for Lidgerwood unloaders, and

1 poling car for use in St. Anthony Park freight yards.

Some transfers between classes and changes were made in other equipment.

Total equipment added to Inventory during the year:

Locomotives	Steel Ore cars
Sleeping Cars	Caboose cars
Parlor cars 2	Cinder cars
Passenger coaches	Boarding cars
Passenger and Baggage cars. 4	Derrick and Tool cars
Baggage, Mail & Express cars. 9	Steam Shovels.
Box cars2,448	Lidgerwood (Inloaders
Refrigerator cars	Pile Drivers.
Stock cars 100	Snow Dozers.
Flat and Coal cars 194	Other work cars
	( Other Work Carbonnesses

There was expended during the year for equipment \$2,021,443 22, of which amount \$1,518,411 08 was charged to " Equipment Account."

F The equipment with air brakes and automatic couplers of freight cars has been continued during the year, so that substantially the entire equipment was so fitted on August 1, 1900, when the law requiring cars engaged in inter-State traffic to be equipped with these appliances became operative.

As equipment is destroyed or taken out of service, Opera-ting Expense is charged, and "Fund for Replacement of Equipment" is credited with the cost of replacing same. When equipment for replacements is purchased, the cost of the same is charged to the account last mentioned.

#### ADDITIONS.

#### ST. PAUL MINNEAPOLIS & MANITOBA RAILWAY'S LEASED LINES.

The interlocking plant, controlling the entrance to new freight yard at St. Anthony Park and connection with tracks of Minnesota Transfer Railway Company, referred to in last year's Report, has been completed and put into use.

Interlocking plants have also been put in at crossings of the Northern Pacific Railway Company's tracks near Dug-dale and Wadena, one at Coon Creek on account of crossing the Northern Pacific tracks by the Eastern Railway, and one near Paynesville on account of crossing of tracks of the

Minneapolis St. Paul & Sault Ste. Marie Railway Company. New yards have been put in at Minot and Williston, North Dakota, and at each point 20-stall brick round houses with steam-heating plants, boiler houses, 66-feet steel turntables, 70 feet cinder pits, brick oil houses, 20-pocket coaling sta-tions, and improved water supply plants; and, in addition,

at Williston, a brick storehouse 30x90 feet. At St. Cloud, Minnesota, there has been built a 5-stall brick round house; at Larimore, North Dakota, a 10-stall addition to the roundhouse, with brick boiler house 24x38 feet and sand house 24x36 feet; at East Spokane a lumber shed 24x98 feet and one at Minneapolis Junction 24x48 feet.

New depots have been built at:

The second secon			1

The turntables at Barnesville and Great Falls have been replaced with 66 feet steel turntables New 50-feet, eightyton capacity track scales have been put in at St. Paul (2), Minneapolis and Willmar, to replace shorter and lighter scales, and an additional 50-feet, eighty ton scale has been erected at Milaca.

Loading platforms, 12x100 feet, have been built at 48 stations, and one  $12 \times 60$  feet.

Add tional ten pocket coaling stations, equipped with lifting engines and the necessary tracks, have been built at Sebeka and Hillsboro. and the coaling station at Melrose remodeled and improved.

Improvements in the water supply are being continued. An additional reservoir, 200x200 feet, was made at Tagus and power pumping plants were put in at:

St Anthony Park,	St. Bonifacius.	Avon,
Lester Prairie.	Osakis,	Alexandria,

-k-1 1-11 - 010	0 1 1 1 1 1 1	

A steel bridge, 310 feet long, with 40-foot roadway and two 10-foot walks, carrying Rice Street, St. Paul, over our tracks, has been erected this year in place of an old iron bridge; and a steel bridge, 160 feet long, with 40 foot road-way and two 8-foot walks, carrying Snelling Avenue, St. Paul, over our tracks, in place of a wooden one.

The laying of additional passing tracks 3.000 feet long, or the extension of old tracks to that standard length, has been continued during the year, and in addition many tracks for local industries have been laid. The net increase in side-track mileage during the year, including these tracks and the new yards previously mentioned, is 52.37 miles.

During the year 72 46 miles of main line tracks have been relaid with 75 or  $77\frac{1}{2}$  pound steel rais and of the lighter rails r-moved 43.87 miles have been relaid on branch lines in place of iron rails; the balance being used in the construction of passing, yard and other tracks.

Two stories are now being added to the General Office Building at St. Paul, and enlarged electric elevators put in. It is expected that the work will be completed by October 1.

#### EASTERN RAILWAY OF MINNESOTA.

There has been completed during the year the relaying of 25.60 miles of track between Nickerson and Sandstone with 771/2-pound steel rails in place of the 75-pound. and the relaying of 31.54 miles on that portion of the Northern Divis-ion which was purchased from the D. S. & W. Ry. Co. with  $77\frac{1}{2}$ -pound steel in place of 60 pound. This was referred to in the last annual report as having been begun during that year

Double track has been constructed on the Northern Division from Carlton to Cloquet and from Boylston to State Line, a total distance of 12.47 miles, making the doubletrack mileage now 21.02 miles.

A new double-track line is now being built through Cloquet, which, when completed, will greatly facilitate the handling of the business for that point and over the Northern Division.

In order to take care of the large increase in the iron ore traffic the Duluth Superior & Western Terminal Company has acquired the line between Saunders and Allouez, 5.251 miles, formerly owned by the Superior Belt Line & Terminal Ry. Co., and has built on Allouez Bay an additional dock of 250 pockets with a capacity of 65,000 tons, which makes the total capacity of the ore docks 100.000 tons. The necessary dredging has been done to afford proper entrance to and slips for these docks. A large yard has been built at Allouez, and the line purchased from the S. B. L. & T. Ry. Co. greatly improved, bridges being strengthened, etc. New additional depots have been built at

ew auumonai	uepois have been built at

Bwan River,	Simpson,		

d a freight house at Foxboro. Additional section ses at Flint, Kelly Lake and Hibbing, and a bunk house island.

loading platform 10x145 feet has been built at Cass ke: a 10 pocket coaling station equipped with hiting engine, and the necessary tracks, at Kelly Lake, and the coaling station at Swan River enlarged from 10 to 20 pockets. The water supply has been improved at West Superior and Deer River. A 50-ft., 80 tons capacity track scale with scale-track has been put in at Cass Lake. A steel bridge 362 feet long, of 28 feet roadway and two 6foot walks have been erected during the year to carry 21st Street, West Superior, over the freight yard. The ditching of the line between Cloquet and Deer River for the purpose of draining swamps and improving road bed, referred to in last year's report. has been continued, 75,514 yards of material having been moved during the year in that work. A new steel grain elevator of 3,000,000 bushels capacity is now under construction at West Superior and will probably be completed by about December of this year.

Freight sheds at: Barry,

Wenatchee, Burlington. A brick and stone freight depot, 40x200 feet, has been built at St. Cloud in place of a wooden structure; a brick passenger and freight station at Crookston, 36x330 feet, in place of a wooden one, and a brick depot, 321/2x147 feet, at Glasgow in place of a wooden one, burned.

Section houses have been built at:

Rolette, Burwell, Glasgow

Tioga.

Perley,

Fifteen additional stock yards have been built during the year, and a number of others enlarged by building additional pens.

Argusville, Manitou,

Additional ice houses have been built at Barnesville, Minot, Havre and Kalispell, while those at Larimore, Glasgow and East Spokane have been enlarged.

Many additional tracks have been laid during the year, the net increase in side-track mileage, not including mileage of side tracks on lines taken over, etc., being 26.94 miles.

#### MONTANA CENTRAL RY.

A new depot has been built at Stockett; machine shop at Clancy; and water station with power pumping plant at Corbin.

Tracks have been relaid as follows:

Between Wolf Creek and East Helena, 24 miles, with 771/2pound steel in place of 60 and 68-pound rails. Between Woodville and Butte, 8 21 miles, with 77½-pound

steel in place of 60 and 75-pound rails.

Mountain View Branch, Butte, 3.32 miles, with 75-pound steel in place of 60-pound rails.

There was a net increase of '94 miles in the mileage of side tracks during the year.

#### WILLMAR & SIOUX FALLS RY.

An interlocking plant is now being built at the Omaha crossing at Sioux Falls.

A new depot has been built at Mission Hill; stock yards at Cottonwood, Holland and Ihlen: 10-pocket coaling station with lifting engine and neces-ary tracks at Marshall; water

supply station with power pumping plant at Hanley Falls. Standard 3,000 feet passing tracks have been laid at Priam, Tweed, Russell, Ruthton and Jasper, in addition to industry tracks at various points. The net increase in side-track mileage, not including mileage of tracks taken over during the year, was 3 06 miles.

The work of widening banks, taking out sags, sloping snow cuts, and ballasting with an average of 10 inch lift of gravel the 127.9 miles of main track between Willmar and Garret-son, is well under way. There had been completed June 30th 17 miles between Willmar and Clara City, and banks had been widened and restored to grade between Clara City and Cottonwood, 33 miles.

The balance of the work will be completed during the year.

#### GENERAL WORK.

About two years ago we began using tie plates under heavy rails. This has been continued this year, and to June 30th, 1900, about 2,654,000 were in track.

A large amount of riprapping and dry masonry protection has been done along the line on the Montana Kalispell and Cascade divisions, for the purpose of protecting the line against high water and to strengthen banks.

Between Larimore and Minot a great deal of ditching has been done and culverts put in to afford drainage. Rock points have been removed between Wellington and Madison, on the Cascade Division, and 11 snow sheds of an aggregate length of 1,502 feet built between the same points. Right of way was fenced during the year as follows:

Great Northern Railway	56.087 miles
Eastern Railway of Minnesota	
Montana Central Railway	
Willmar & Sioux Falls Railway	
Duluth Watertown & Pacific Railway	
m	

#### 

The replacement of bridges and trestles with steel or filling them so as to make solid embankments, has been actively followed during the year, the record being:

Length of bridges built:-

Great Northern Railway	5,550	feet
Eastern Railway of Minnesota	503	
Duluth Terminal Railway (portion of elevated track in		
Duluth)	244	66
Montana Central Railway	393	66
-Willmar & Sioux Falls Railway	180	66
Total Railway steel bridges built during year	6,870	reet
Length of steel street bridges built during year	832	66
Total steel bridges	7.702	feet
Lineal feet of bridges filled:		
Great Northern Railway	23,721	feet
Eastern Railway of Minnesota		
Montana Central Railway	1,784	6.6
Willmar & Sioux Falls Railway.		66

The widening of banks, restoring of grade and ballasting with gravel was completed during the year as follows:

On Great Northern Railway—		
Spicer to Willmar	11.00 1	niles.
Calais to Glasgow	89.70	6.6
Glasgow to Havre1	52.73	66
Marias Junction to Teton Junction		4.6
On Eastern Railway of Minnesota—		
North End to Island	39.40	66
Sauuders to Holyoke		66
The banks were widened and grade restored-	•	
On Great Northern Railway -		
On Browns Valley Branch		
Verona to Verona Junction.	1.38	66
Havre to Pacific Junction	4.15	66
Pacific Junction to Concord	54.00	66
On Eastern Railway of Minnesota—		
	11.32	66
Grand Rapids to Deer River	7.05	66
On Montana Central Railway-		
Flood to Cascade	24.00	66
Mitchell to Johns		46
Track was ballasted with gravel on Eastern H	tanwa	y or
Minnesota between		
Swan River and Gardner	1.201	miles.

Kelly Lake and Hibbing ..... 1.00 "

In addition to the above, similar work was done on the

Willmar & Sioux Falls Railway, as described above. The grade between Hinckley and Brook Park, 8.55 miles, and between Minot and the stock yards, 3 miles, has been reduced from 6-10 of one per cent to 4-10 of one per cent; and the grade between Monroe and Lowell, Wash., 12:50 miles, has been raised to bring track above high water.

The report last year, page 20, made reference to proposed changes of line for the purposes of reducing grades and curvature. The accounts this year contain charges for these changes as follows:

On the main line of the Montana Division '94 miles of new

line in place of '99 miles of old. Between Pacific Junction and Java 33.05 miles of new line in place of 33.45 miles of old.

Near Spokane, 1.05 miles of new line in place of an equal length of old line. Between Quincy and Columbia River, 13.44 miles of new line in place of 12.21 miles of old, throwing out eight wooden trestles containing about 5,000,000 feet of timber.

In addition there was nearly completed during the year 24.82 miles of line between Verona and Marias in place of 23.49 miles of old line.

#### Total new line.....73.30 miles.

At this time work is in progress on 9.12 miles of new line at Durham and Midvale, 18.70 miles at Sidney and between Teton and Tunis, and a new line into Great Falls from Hunt-ley Coulee, 22.62 miles in length. On the Montana Central Railway a new line 9.05 miles in length is being built from the West end of the Wickes Tunnel to Boulder. The work on all of these new lines is very heavy and they

are being ruilt in the most solid and substantial manner.

As an indication of the amount of work done during the year in improving tracks, etc., the follo ving closely approximated quantities of material moved are given:

In change of line and reduction of grade	cubic y	yards
In widening embankments, taking out sags and		
generally restoring banks	9 "	66
For filling bridges	3 "	66
Widening cuts of Eastern Railway's new line be-		
tween Boyiston and Cloquet 178,320	6 "	66
For ballasting (gravel)1,180,783	1 "	66
Total	L oubio	yards
Recapitulation of tracks relaid with heavier r	ails du	ring
the year, as given in detail under "Additions:"		0
Great Northern Railway	116.33	miles
Eastern Railway of Minnesota	57.14	64
Montana Central Railway	35.53	66
(Mada)	00.00	
Total	209.00	miles

Following the plan of previous years, only such amounts as represented cost of actual additions to the property have been charged to "Additions and Improvements," and the entire amount charged to that account during the year on account of line leased from the St. Paul Minneapolis & Manitoba Railway Company, amounting to \$2,020,527 11, has been transferred to "Fund for Permanent Improvements and Renewals," so that the Great Northern Railway Company is not carrying on its books as an asset the cost of any additions and improvements. All replacements, renewals. etc., have been charged to "Operating Expenses." The amount included in "Maintenance of Road and Structures" this year for extraordinary improvements, etc., is \$1,861,873 76.

THE WE WITH A DELAN	A COAL II COJ CO	TOO

To provide the necessary waterways in place of bridges filled as above, there were put in 102 stone culverts, 113 pipe culverts and 20 box culverts.

The wooden bridging on the line was still further reduced during the year by removal or re-location of lines as follows:

#### Great Northern Railway-

Removal of tracks at St. Vincent..... 1,044 lineal feet

Changes of line between Quincy and Columbia River

Eastern Railway of Minnesota-

Removal of tracks between Brace Junction and

Seattle & Montana Railroad-

Removal of portion of Sedro Branch...... 1,247 " 65

Total.....11,257 lineal feet Making on the System a reduction in wooden struct-

#### VOLUME OF TRAFFIC AND RATES.

The tonnage of revenue freight hauled during the year increased 1,526,851 tons or 15.26 per cent. The number of bushels of wheat hauled east bound decreased 1.032,643, equal to 30,920 tons. The iron-ore tonnage of the Eastern Railway of Minnesota increased 733.174 tons. Taking these increases and decreases into consideration, the increase in tons hauled due to generally increased business is 824,657. The iron-ore business is short haul, shorter than the average on the Eastern Railway. It will be noticed that the number of tons of revenue freight hauled one mile increased by 16.06 per cent. Therefore, the increase of 824,657 tons hauled above mentioned was from long-haul business. Outside of the Eastern Railway's iron-ore traffic, the entire increase in tons hauled one mile was on that portion of the line west of Minot, N. D.

The earnings from passenger trains increased \$1,087,279 11, or 22.0357 per cent. Of this amount \$51,959 66 came from express business, \$97,552 14 from transportation of mails and \$937,767 31 from strictly passenger sources, including sleeping cars, etc.

The increase in pay for mail transportation comes from the readjustment of pay on mail routes east of Minnesota-North Dakota State Line, based upon weighing in the spring of 1899, the new rates of pay becoming effective July 1, 1899.

The average revenue received per passenger per mile shows an increase of 1.7 mills, or 7.6993 per cent. This increase comes almost entirely from the higher rates on first and second-class business to the Pacific Coast, principally second-class. The local rates in Montana, Idaho and Washington were reduced from 5 cents to 4 cents per mile November 1st, 1898, and in North Dakota from 4 cents to 3 cents per mile April 1st, 1900, which has had the effect of somewhat increasing local travel and so the average revenue per passenger per mile. Effective July 1st, 1900, the local rates in Washington were reduced from 4 cents to 3 cents per mile.

mile. The tons one mile have increased 16.0587 per cent, the car miles 12.4467 per cent and freight and mixed train mileage 9.3549 per cent, increasing the average load of 336 tons per train 20.6 tons (6.1302 per cent) to 356.78 tons. The immigration work for the past fiscal year exceeds in

The immigration work for the past fiscal year exceeds in its results anything in the history of the Company. Upon a conservative basis there were settled along the Company's lines during the year 35,000 new people, who very largely came, with their household effects, from the Middle and Western States.

The lands along the line in Montana and Washington are attracting attention, and there is a steady movement of settlers in that direction.

#### GENERAL.

The Board of Directors desires to call attention to the unusually large amount of work done in the way of permanent improvements to the property. The general plan of the improvements contemplates when finished a first-class railway with the lowest grades of any line crossing the Continent, with terminal and division yards, and passing tracks to fully supply the wants of the rapidly growing traffic. It is expected that two more seasons will complete the work necessary to accomplish this.

The permanent work done in recent years, together with the heavy work done during the year covered by this Report, and the work being done during the current fiscal year, covers most of the lines east of the Rocky Mountains.

The amount of work done this year is much larger than in any previous year. Over *eight miles* of wooden bridges have been replaced by heavy steel construction or solid earth embankments. The cubic yards of earth moved, as given on the preceding page, is nearly equal to the grading of 500 miles of ordinary railway. The completion of the Cascade Tunnel will shorten the

The completion of the Cascade Tunnel will shorten the time and reduce the expense of all trains on that portion of the line.

The entire country served by your lines, while the last to be opened to settlement and industrial development has shown a wonderful growth during the past five years, and with the improved conditions under which the Company will be able to transact its business the future growth should amply repay it for the work it is now doing. Enab ling it to better serve the public, and at the same time fully protect its revenues and income, as the constant reduction in rates of traffic keeps pace with the increase of business.

The growth of the lumber and timber business from west of the Rocky Mountains begins to call for more cars than are loaded westbound. The growing Oriental trade has already reached a point where the traffic is practically limited to the ships which can be secured to carry the commodities seeking an outlet to China and Japan. To meet these conditions and provide ample tonnage for this trade the Company has organized the Great Northern Steamship Company, which has now under construction two steamers of the largest class, with all the most modern appliances for safety and economy. During the spring of 1900 a large acreage of grain was planted on the Company's lines in Minnesota, North and South Dakota, with a promise of a large harvest. The total lack of rain during the growing months so far reduced the yield that not much more than half a crop of wheat will be marketed in the three States named. This will of course reduce the earnings, but the increase from other traffic will go so far towards replacing this reduction that the Company's income will not materially suffer.

#### COMPTROLLER'S REPORT.

#### Mr. James J. Hill, President:

DEAR SIR: Herewith I beg to submit statements showing results of operation of the Great Northern Railway Comppany and its proprietary companies for the fiscal year ended June 30th, 1900.

These statements are made in the same form, and on the same basis, as those submitted with last year's report.

The statements further below show the Earnings, Operating Expenses, Taxes, etc., of the Railway SYSTEM exclusive of the Spokane Falls & Northern Railway System, which is operated separately. The statement on next page shows the division of those amounts between the several railways, and includes as a separate item and for the first time, the same information for the Spokane Falls & Northern Railway System. The Earnings, etc., of the Great Northern Express Company and the Sand Coulee Coal Company, which in previous years have been included in this table, are this year omitted, on account of the capital stocks of those companies having been transferred to the Lake Superior Company, Limited. On the page following are given the Revenue, Income and Profit and Loss Accounts of the Great Northern Railway COMPANY.

The results of operating the line from Garretson, S. D., to O'Neill, Neb., from January 1st, 1900, the date upon which it was acquired by the Willmar & Sioux Falls Railway Company, are included in the proper tables.

On account of the adoption by this company of the classification and rules suggested by the Association of American Railway Accounting Officers for the computation of train mileage, etc., some minor changes in the "1899" figures shown in the statistical table on page 661 have been necessary, but they are fully explained in the note at the end of the table.

This company having acquired substantially all of the capital stock of the St. Paul Minneapolis & Manitoba Railway Company, and as that company publishes no report this year, the balance sheet given on page 660 includes the property, assets, capital and liabilities of that company, presenting a complete statement of the property, capitalization and finances of what is known as the Great Northern Railway Line. But all items have been so entered as to readily permit comparison to be made with the balance sheets published in the reports of former years.

The finances, etc., of the Spokane Falls & Northern System and of the Northern Steamship Company are not included, those properties being operated and their finances kept separate and distinct from those of the balance of the system.

R. I. FARRINGTON,

Comptroller.

#### GROSS EARNINGS, OPERATING EXPENSES, TAXES AND NET EARNINGS OF THE RAILWAY SYSTEM, AND PER MILE OF ROAD OPERATED.

FOR THE FISCAL YEAR ENDED JUNE 30th. 1900, COMPARED WITH THE PREVIOUS FISCAL YEAR.

NOTE-These figures do NOT include the Spokane Falls & Northern Railway System.

#### EXPLANATORY NOTE.

The surplus earnings of the Duluth Watertown & Pacific Railway Company, above shown, have been applied to the repayment of the advances made by the Great Northern Railway Company on account of deficits in previous years.

DIVIDENDS.-Out of the net income of the Companies named, the following dividends have been declared:

Eastern Railway Company of Minnesota	\$1,600,000 00
Montana Central Railway Company	
Willmar & Sioux Falls Railway Company.	
Spokane Falls & Northern Railway System:	
Columbia & Red Mountain Railway Company (for two years)	. 52,880.00
Red Mountain Railway Company (for two years)	
Minneapolis Union Railway Company	
Northern Steamship Company	225,000 00
Total	82.874.120.00

which amount is not included in the "Miscellaneous Income" of the Great Northern Railway as given by the above table, but is added to the "Miscellaneous Income" in the Income Account below.

DULUTH TERMINAL RY. Co.—This company is the owner of the railways used by the Eastern Railway of Minnesota, to secure entrance into Duluth, and of extensive yards in Duluth. Its stock and bonds are all owned by the Eastern Railway. Under the franchise of the Duluth Terminal Railway its earnings derived from trackage are limited to 6 per cent on its stock and bonds; the interest and dividend paid, amounting to \$13,500, are not included in the "Miscellaneous Income" of the Eastern Railway as above shown.

\*Shown in last year's report as \$1 236,926; difference caused by addition of mileage of Caboose wars, 5,810,952. For reasons given below, Caboose Car mileage has not heretofore been taken up in the report, either in loaded or empty car mileage. \*Shown in last year's report as \$1'\$130; difference caused by us'ng as the di-visor the sum of "Mileage of Passenger Trains" and "Mileage of Mixed Trains," as explained below. The train, locomotive and car mileage flaures given above have been com-piled, and all computations based usen them made, in accordance with the rules adopted by the Association of American Railway Accounting Officers in 1889. These rules were subsequently adopted by the National Convention of Railroad Commissioners at Denver, Col., August 10, 1899, and have recently been adopted and promulgated by the Inter-State Commerce Commission. Their adoption by this Company has made necessary some changes in the above table, as noted.

EQUIPMENT.	

## During the year seven new freight engines were purchased at a cost of \$69,365 10 to take the place of the same number too light for service, leaving the number of loco-motives 166, the same as last year, all of which are in good running order; 99 were thoroughly overhauled, 4 equipped with electric head-lights, 67 with Master Car Builders' couplers. There are now 161 engines equipped with train brakes and 150 with automatic couplers.

The engine mileage was 5,770,588, against 5,687,818 for the preceding year.

The cost per train mile has been:

	Cents.
For repairs	4.87
For engine and round-house men	. 8.6
For water supply	. '57
For stores	49
For fuel	. 6.25
Total	20.24

#### CARS.

The passenger equipment consists of :

Passenger coaches	113	
Baggage cars.	36	
Postal cars	12-	16
Freight equipment:		

Including 550 cars of the Paducah & Memphis Division, \$2,272,911 16 the total number of freight cars is 6,113, of which 5,416 are now equipped with air brakes and 5,906 with automatic couplers, leaving 697 to be equipped with brakes and 207 with couplers, which will cost \$42,475 00.

#### MARINE EQUIPMENT.

The Company owns the following equipment, which is used on the Tennessee River between Hobbs Island and Guntersville, Ala., a distance of 20 miles:

#### Steamer "Huntsville." Steamer "Hattie McDaniel." Two Transfer Barges.

#### ROAD DEPARTMENT.

The total mileage of main and side lines is as follows:

Miles owned Miles leased	Main Line. 804·90 390·45	Side Line. 180 <sup>.</sup> 65 88 09
	1,195.35	268.74

The following new steel rail has been laid :

The old rail taken up, except that which was sold, was relaid on branch lines and sidings.

The total mileage of steel and iron rail is shown in the tables below:

#### MILEAGE IN STEEL.

#### ROADWAY.

There were 518, 92 cross ties and 239 sets switch ties used in renewals, and 26,513 cross ties and 61 sets of switch ties used in improvements.

There were 14.22 miles of new side track constructed, and 3.13 miles were torn up, making an addition of 11.09 miles.

The side tracks were also increased by the Terminal Company constructing at Nashville 1.73 miles, and transfer track at Nashville .30 miles, making a total increase of 13.12 miles.

There were 96,592 cubic yards of ballast put in the track.

#### BRIDGES AND TRESTLES.

The following table shows the length and different classes of bridges and trestles:

Grand total..... Seventy-one coaches, 21 baggage, 9 postal cars and 1,918 freight cars were repaired, 33 freight cars were rebuilt, 113 new freight cars built in lieu of others destroyed, and 304 new box cars constructed and added to the equipment.

New iron bridges have been constructed at two crossings of Mill Creek on the Chattanooga Division, length 408 feet, and iron beam spans to replace timber bridges on Chattanooga Division, 68 feet; Nashville Division, 32 feet; Lebanon Branch, 39 feet, and Atlanta Division, 35 feet.

The work of replacing the old truss spans on the Centreville Branch, by standard cedar pile trestle and filling, is progressing.

The work of renewing and filling bridges on the Inman Branch has been completed.

Forty-five hundred and eighty four feet of trestle work have been filled; 806 lineal feet of cedar pile trestle built, replacing other structures; 42,043 lineal feet of cedar piles have been driven, and 11,555 feet of trestle deck renewed.

#### BUILDINGS.

A new elevator has been erected at Hickman.

New depots have been built at Union City, Terrell, Allen's Creek, Mountainboro, Tilton and McDaniel. Section houses erected at Whiteside, Smyrna, Tenn., McKenzie, Attalla, Lees and Dunlap; and new track scales at West Nashville, Fayetteville and Huntsville.

The water station at Monteagle has been enlarged.

At the Nashville shops a new hand car and truck shop has been built, and a new turntable installed, also an addition made to the Blacksmith shop.

#### CATTLE GUARDS.

Pit guards are gradually being replaced by surface guards. During the year 559 iron surface guards have been put in.

#### PADUCAH & MEMPHIS DIVISION.

On Sept. 9, 1896, a lease from the Louisville & Nashville Railroad Company for a term of ninety-nine years from December 14, 1895, of the Paducah & Memphis Divi-ion, formerly the properties of the Tennessee Midland Railway and the Paducah Tennessee & Alabama Railroad, was authorized by the Board of Directors, and the President and Secretary were directed to execute it, which was done. It being believed at the time that under an amendment to the charter of the Company, its President and Board of Directors had full authority to execute the lease in question, the same was not submitted to the Stockholders.

The execution of this lease created dissatisfaction with some of the Stockholders, and in January, 1897, a bill was filed in the Circuit Court of the United States, at Nashville. seeking, among other things, to have it declared invalid and void. In the course of the proceedings in this cause, an opinion was rendered by the Circuit Court of Appeals, at Cincinnati, to the effect that under the laws of the State of Tennessee the lease should be ratified and approved by a three-fourths majority of all Stockholders present and voting at any meeting, legal notice of which had been previously given. In accordance with the judgment of the Court, notice has been given as required by law that the lease would be presented to the Stockholders at this annual meeting, and it is earnestly hoped that it will be approved and ratified, it-being undoubtedly the best interests of the Company that this should be done.

The operations of this Division from January 1st, 1896, to June 30th, 1900, fifty-four months, were as follows:

Gross Earnings Total Expenses Less Improvements paid	\$2,501,586 18 \$2,795,156 50
by Lessor	<b>200 55</b> <b>342 77 - 1.059.543 32 - 1.735.613 18</b>
Net Earnings	\$765,973.00

The revenue of the main line on business received from and delivered to the Paducah & Memphis Division for the same period was \$1,186,864 86.

Since this property has been operated by your Company, its revenue has materially increased. The earnings were :

For the fiscal year ending June 30, 1897	\$527,824 38
For the fiscal year ending June 30, 1900	639,855 25
An increase of	\$112,030 87

Egyptian Portland Cement Co.—Mortgage.—The company has made a mortgage to the Union Trust Co. of Detroit, as trustee, to secure \$650,000 of 7 per cent bonds due in 1910. The mortgage covers marl lands in Genesee, Oakland, Shiawassee and Livingston counties, Mich., etc.

Empire Steel & Iron Co.—*Earnings.*—The company reports as follows: Gross earnings Jan. 1 to June 30, 1900. \$353,600; April 11 to Dec. 31, 1899, \$345,605; total, \$699,205. Deduct depreciation, repairs, etc., \$57,900; dividends on 6 per cent preferred, \$152,465; balance, surplus, \$488,837.—V. 70, p. 178.

Glucose Sugar Refining Co.—Report.—The report for the year ended July 31, 1900, according to the press dispatches shows earnings of \$3,328,163, against \$2,280,080 in 1898-99. The deductions for renewals, new construction, etc., aggregate \$695,178, against \$772,490; balance, net profit, \$2,632,-985, against \$2,047,589 in 1898-99. The dividends paid in 1899-00 were 7 per cent on preferred and 6 per cent on the common, \$2,560,627; balance for year, \$272,358. See also advance statement in V. 71, p. 286. The equipment consists of :

Locomotives 17 Passenger, Baggage and Mail Cars. 16 Freight Cars. 550

This Road has been greatly improved during the year. 52.76 miles of track ballasted with gravel; banks widened to standard on 68½ miles, and cuts on 10½ miles; 22 miles of new fence have been built; 163 surface guards put in; the rouud houses at Paducah and Memphis have been repaired; the freight depot at Memphis extended and new platform built; a new depot erected at Aulon, and a large amount of work has been done in renewing and filling the bridges and trestles on Perryville Branch.

#### TERMINAL FACILITIES AT NASHVILLE.

For many years it has been contemplated by the Louisville & Nashville Railroad Company, and the Nashville Chattanooga & St. Louis Railway, to provide terminal facilities at Nashville commensurate with the increased requirements of the city. In order to do this the Louisville & Nashville Terminal Company was organized, and has constructed a new Union Passenger Station on Broad Street. The building is a handsome stone structure 150 feet square, four stories high, with principal waiting room 50x100 feet, two other waiting rooms adjoining, dining room, lunch stand, ticket and telegraph offices, and all other accessories and conveniences on the ground floor. The upper stories will be occupied as offices by the officials of the railroads. South of the building is a gallery 25x300 feet, connecting the station with the train shed, 240x500 feet, covering ten tracks. There is also a baggage, express and mail building 48x176 feet, two stories high. In the basement of the station are water, light and heating plants, sufficient for the requirements of all the buildings and yards.

The plan also contemplates the erection of four freight houses 60x1,000 feet each, two stories high, constructed upon the most modern plans, the upper stories to be used as warehouses for storage purposes.

The terminal yard is one and a-quarter miles long by 700 feet wide, without grade crossings, and contains 27 through tracks with 110 sidings, an aggregate length of 30 miles of track, including a commodious coal yard in the northwest corner fitted with the latest and most improved tipples and bins. There is also a 45-stall engine house, 350 feet in diameter, in the southwest corner, with coal bins that will hold 1,000,000 bushels of coal.

The property has been leased to the Louisville & Nashville Railroad Company and the Nashville Chattanooga & St. Louis Railway, jointly, at a rental of 4 per cent per annum upon the cost, the proportion to be paid by each Company to be determined by the property used respectively and the number of cars handled for each through the property leased. The operating expenses are to be divided upon the same basis.

The BOARD OF DIRECTORS beg to express their satisfaction at the harmonious relations existing with connecting and competing lines, and to acknowledge their indebtedness for the faithful and intelligent services rendered by the officers and employes.

J. W. THOMAS,

President.

Statistics of operations, earnings and expenses will be found on page 643.

and in August earned the interest on all its debt, funded and unfunded, and had a balance to spare of \$6,000. As said last week, the plant is as yet running at only 65 to 70 per cent of its capacity.—V. 71, p. 604, 392.

Queens Borough Electric Light & Power Co.—Increase of Stock.—The stockholders will vote Oct. 4 on a proposition to increase the capital stock from \$250,000 to \$410,000.—V. 70, p. 483.

Steel Companies.—Price of Rails —At a meeting in this city on Sept. 21 representatives of the leading steel rail manufacturers agreed to reduce the price of steel rails for the current year from \$35 per ton to \$26 at Chicago and Eastern mills. The "Iron Age" says that comparing wages under the new scale with those paid for the scale year 1898 9, when prices were close to those now ruling, the men have secured

[G. H.] Hammond Co.-Officers.-Directors and officers:

Directors-J. C. Melvin and E. Chapin, Boston; F. B. Comstock, Providence; George Hotchkiss and T. H. W. Wheeler, New York; J. P. Lyman, F. E. Vogel and J. F. Meagher, Chicago, and James Standish, Detroit.

Officers – President, P. Lyman; Vice-President, F. E. Vogel; Secretary and Treasurer, James Standish. – V. 71, p. 604.

Huntington Light & Fuel Co.—Called Bonds.—The Manhattan Trust Co. will pay on Oct. 1 \$15,000 first mortgage bonds, drawn for the sinking fund.

New England Gas & Coke Co.-Status.-The company, it is stated, has a floating debt of \$1,500,000, one-half secured, an advance of 16 per cent.

Wages.—At Cincinnati on Sept. 23 the conference committees of the Amalgamated Association of Iron & Steel Workers and of the manufacturers signed the wage scale that will be effective until July, 1901. This action averts the threatening strike and results in the opening of mills by the American Steel Hoop Co., the Republic Iron & Steel Co., etc.

-The Farmers' Loan & Trust Co. will pay dividends on a number of securities, list of which will be found in another column.

-Winslow, Lanier & Co. will pay dividends on a number of securities, a list of which will be found in another column.

-N. W. Harris & Co. will pay dividends on a number of securities, list of which will be found in another column.

# The Commercial Times.

## COMMERCIAL EPITOME.

FRIDAY NIGHT, Sept. 28, 1900.

The general report from most lines of trade has been of a moderate amount of activity to business. The buying, however, has been largely of a hand-to-mouth character; awaiting developments, the tendercy has been confined to purchases of such supplies as have been needed to meet immediate and well defined wants. Prices in the main have held to a steady basis, although for pig iron the market is still dragging. Negotiations are reported under way for a settlement of the coal strike. The China situation has received more attention latterly, and developments are awaited with considerable interest. Crop damage from heavy rains and flocds have been reported from Texas, but generally weather conditions have been favorable for maturing crops and fall plowing and seeding. Lard on the spot has had only a limited sale, but as there

Lard on the spot has had only a limited sale, but as there has been no pressure to sell, prices have held steady, closing at 7.55c. for primeWestern and 7.25c. for prime City. Refined lard has been quiet and without important changes, closing at 7.75c. for refined for the Continent. The speculation in lard for future delivery at the Western market has been moderately active. Early in the week prices sagged, but subsequently recovered on buying by packers and shorts. The close was steady.

DAILY CLOS	ING PR	ICES OF	LARD I	TUTURES.		
	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri
tember	7.45	7.50	7.52	7.50	7.52	7 5 2

Pork has continued to meet with only a limited sale locally, but prices have held steady at \$12 75@13 50 for old mess. \$13 50@14 00 for new mess, \$16 00@16 50 for family ard \$14 00@16 25 for short clear. Cut meats have been sparingly offered and firm, closing at  $6\frac{1}{2}$ c. for pickled shoulders,  $9\frac{1}{2}$ @  $10\frac{1}{4}$ c. for pickled hams and  $9@10\frac{1}{4}$ c. for pickled belli-s 14@10 lbs. average. Beef has been quiet but steady at \$8 50@9 00 for mess, \$9 00@10 50 for packet, \$10 00@11 50 for family and \$14 25@16 00 for extra India mess in tcs. Tallow has been firm and higher, closing at  $4\frac{7}{8}$ c. Stearines have been in better demand and firm, closing at  $8\frac{1}{2}$ c. for lard stearine and  $7\frac{1}{2}$ c. for oleo. Cotton-seed oil has been quiet and easier, closing at  $37@37\frac{1}{2}$ c. for prime yellow. Butter has been firmer for creamery grades, closing at 17@22c. Cheese has had a fair sale and prices have advanced, closing at  $9\frac{1}{2}$ @  $11\frac{1}{2}$ c. for State factory, full cream. Fresh eggs have advanced slightly, closing steady at 20c. for choice Western. Brazil grades of coffee have had only a very moderate distributing sale, not being satisfactory for this season of the year. The crop movement has continued large, and Brazil

Brazil grades of coffee have had only a very moderate distributing sale, not being satisfactory for this season of the year. The crop movement has continued large, and Brazil has been a seller on a lower basis, resulting in slightly lower prices. The close was quiet at 8¼c. for Rio No. 7. The demand for West India growths has been quiet, but offerings have been light and prices have held steady at 10@10¼c. for good Cucuta. East India growths have been quiet and unchanged. Speculation in the market for contracts has been more active, but it has been largely to liquidate acounts for both shorts and longs. Prices have weakened slightly under easier foreign advices and the continued large crop movement. The close was steady. The following are the closing asked prices:

Offerings of raw sugars have been limited to a few odd lots, and they have sold at full prices, closing at 5c. for centrifugals, 96-deg. test, and 4¼c. for muscovado, 89-deg. test. Refined sugar has been dull and unchanged at 6.15c. for granulated. Other groceries have been in moderate demand and steady.

Kentucky tobacco has continued to meet with a fair sale at steady prices. Seed leaf tobacco has been less active, but prices have been fairly well maintained. Sales for the week were 1,975 cases, as follows: 400 cases 1899 crop, New England Havana seed.  $18@471/_{2}c.$ ; 200 cases 1899 crop, New England seed leaf, 19@45c.; 300 cases 1899 crop, flats, 10@16c; 250 cases 1898 crop, Pennsylvania seed leaf, 12@121/\_c.; 100 cases 1898 crop, Pennsylvania seed leaf, 12c; 100 cases 1898 crop, Pennsylvania Havana, 113/\_c.; 250 cases 1699 crop. Zimmers.  $15@151/_{2}c.$ ; 200 cases 1898 crop, Zimmers.  $14@143/_{4}c.$ , and 175 cases 1898 crop, Wisconsin Havana,  $13@131/_{2}c$ ; also 600 bales Havana at 50c.@\$1 05 in bond and 150 bales Sumatra at 80c.@\$1 80 in bond. There has been some recovery from the recent decline in prices for Straits tin, but demand has been quiet and the olose was again easier at  $28\cdot50@28\cdot75c$ . Ingot copper has been quiet and slightly casier, closing at  $161/_{2}@17c$ , for Lake. Lead has had only a limited sale, but prices have held steady at  $4\cdot371/_{2}c$ . for domestic. Si elter has been quiet and unchanged at  $4\cdot10@4\cdot15c$ . for domestic. Pig iron has been easier, but quoted prices have not changed from \$13 to \$16 for domestic. Refined petroleum has been easier, closing at  $7\cdot65c$ . in bbls,  $5\cdot10c$ . in bulk and  $8\cdot95c$ .in cases. Naphtha unchanged at  $9\cdot5c$ . Crude certificates have been neglected. Credit ralances have declined to \$1 15. Spirits turpentine has been quiet and easier, closing at  $40@40/_{2}c$ . Rosins have been duli and unchanged. Wool has been dull and weak. Hops have been quiet but steady.

## COTTON.

FRIDAY NIGHT, September 28, 1900.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 279.748 bales, against 153,423 bales last week and 84,869 bales the previous week, making the total receipts since the 1st of Sept., 1900, 570.405 bales, against 740,300 bales for the same period of 1899, showing a decrease since Sept. 1, 1900, of 69,895 bales.

Speculation in cotton for future delivery has been on a fairly extensive scale and the course of prices has been very erratic. The movement of the crop has been large, and the South has been reported a free seller, with factors selling in both the local and Liverpcol markets against purchases of cot ton in Southern markets. On the other hand, however, there have been less favorable crop accounts from Texas, the heavy rains and floods in that State damaging the crop. At the same time the weekly report by the Weather Bureau was of a bullish tenor, and, despite the free movement of the new crop, the statistical position is still a strong one, particu-larly in the United Kingdom. The result has been an unsettled market, with speculative sentiment changing almost daily. Saturday prices advanced 9@12 points, reflecting stronger Liverpool advices and the flood reports from Texas. Monday prices were again higher, advancing 19@24 points, nervous shorts buying to cover contracts, stimulated by the strength of the foreign advices and the unfavorable crop news from Texas. Tuesday the market opened lower, renews from Texas. Tuesday the market opened lower, re-flecting disappointing Liverpool advices; then recovered the decline on moderate buying, discounting a bullish Govern-ment report. During the late trading the market again turned weak, owing to the large crop movement, and final prices showed a net loss for the day of 12@23 points. Wednes-day there was a lower market early. Foreign advices were weaker, the Liverpool market declining, owing to free offerings of cotton from the South. During the late trading mredictions of cold, wet weather started buying and the loss predictions of cold, wet weather started buying and the loss was more than recovered, prices showing a net gain for the day of 4 to 12 points. Thursday the market was again easier, the failure of the predicted cold, wet weather to materialize and a continued large movement of the crop being the de-pressing factors; prices declined 7@30 points. To day there was a slightly easier market at the opening, reflecting a col-lapse of the Sept. corner in Liverpool, prices for Sept. delivery in that market declining 30-64d. During the day there was a steadier tone locally, a rumor that many Manchester mills were reopening stimulated buying by shorts to cover contracts, and prices advanced. The close was steady at a net gain in prices for the day of 7@9 points. Cotton on the spot has been quiet, but prices have advanced slightly, closing at 1034c. for middling vplands.

On the basis of the rates on and off middling as established by the Revision Committee, the prices for a few of the grades would be as follows:

cated. Stateburg, South Carolina, advices denote that cotton looks a little better since the last rain. but that moisture is again much needed, but Greenwood, South Carolina, reports that cotton will not average half a crop. Picking is making rapid progress, and in some districts is said to be approaching completion.

Galveston, Texas.—Picking is general. We have had rain on four days of the past week, to the extent of eighteen hundredths of an inch. The thermometer has averaged 85, the highest being 91 and the lowest 78 Abilene, Texas.—Rain has fallen excessively on four days

Abilene, Texas.—Rain has fallen excessively on four days of the week, to the extent of six inches and eight hundredths. The thermometer has averaged 74, ranging from 64 to 84.

The thermometer has averaged 74, ranging from 64 to 84. Corpus Christi, Texas.—It has been showery on three days of the week, the rainfall being twenty-one hundredths of an inch. Average thermometer 81, highest 86 and lowest 76.

Cuero, Texas.—There has been rain on one day during the week, the rainfall reaching twenty-seven hundredths of an inch. The thermometer has averaged 80, the highest being 92 and the lowest 68.

Dallas, Texas.—Rain has fallen he wily on four days of the past week, the rainfall being three inches and fourteen hundredths. The thermometer has averaged 77, ranging from 65 to 89.

Henrietta, Texas.—We have had heavy rain on four days of the week, to the extent of three inches and ninety-one hundred hs. The thermometer has ranged from 55 to 87, averaging 71.

Huntsville, Texas.—There has been rain on three days of the week, the precipitation reaching two inches and sixtysoven hundredths. Average thermometer 79, highest 90, lowest 68.

Longview, Texas.—There has been rain on five days of the week, to the extent of thirty-nine hundredths of an inch. The thermometer has averaged 76, the highest being 92 and the lowest 60.

Paris, Texas.—There has been rain on three days during the week, the rainfall being eighteen hundredths of an inch. The thermometer has averaged 84, ranging from 65 to 92.

The thermometer has averaged 84, ranging from 65 to 92. San Antonio, Texas.—There has been a trace of rain on three days of the past week. The thermometer has ranged from 68 to 94, averaging 81.

New Orleans, Louisiana.—We have had rain on one day during the week, the precipitation reaching two inches and three hundredths. The thermometer has averaged 80.

Shreveport, Louisiana.—Rain on three days of the week, rainfall being two inches and sixty-two hundredths. The thermometer has averaged 80, ranging from 68 to 93. Columbus, Mississippi.—The crop is failing rapidly. We

Columbus, Mississippi.—The crop is failing rapidly. We have had no rain during the week. The thermometer has ranged from 70 to 98, averaging 84.

Vicksburg, Mississippi.—Reports from the crop are rather poor. Picking is progressing rapidly and marketing is beginning to be free. We have had no rain during the week. Average thermometer 81, highest 92 and lowest 70.

Little Rock, Arkansas.—We have had rain on four days of the week, the rainfall reaching eighty-four hundredths of an inch. The thermometer has ranged from 68 to 91, averaging 79.

Helena, Arkansas.—The crop is light up to this time and there is but little prospect of a top crop. Cotton is opening rapidly and some farmers think they will get about all the cotton this picking, and not much at that. Marketing is active. It has rained on one day of the week, the rainfall being thirty-nine hundredths of an inch. Average thermometer 78, highest 91 and lowest 69. Memphis Tennessee.—Picking and marketing are active.

Memphis Tennessee.—Picking and marketing are active. There has been rain on three days the past week, to the extent of sixty-two hundredths of an inch. The thermometer has averaged 78, the highest being 89.8 and the lowest 66

Mobile, Alabama.—Reports generally indicate a disappointing yield. Weather has been favorable for picking. We have had no rain the past week. The thermometer has ranged from 69 to 90, averaging 79.

Montgomery, Alabama.—The State Commissioner of Agriculture estimates the crop of Alabama as one-third off from last year. Weather has favored the gathering of cotton. We have had rain on one day during the week, the precipitation reaching eighteen hundredths of an inch. Average thermometer 79, highest 92 and lowest 67.

Selma, Alabama.—Picking is making rapid progress and is nearly completed in some localities. Indications point to a very light yield. There has been no rain the past week. The thermometer has averaged 75, the highest being 90 and the lowest 62. Augusta, Georgia.—It has been dry all the week. The crop is being quite rapidly marketed. Average thermometer 78, highest 93 and lowest 63. Stateburg, South Carolina.—Cotton is looking a little better since the last rain, but the past week has been hot and dry and moisture is much needed. The thermometer has averaged 79.2, ranging from 62 to 96.

WEATHER REPORTS BY TELEGRAPH.—Telegraphic advices to us this evening denote that, except in the Southwest, there has been little or no rain in the cotton belt during the week Reports from the crop are on the whole apparently less favorable. Our correspondent at Columbus, Miss., states that in his section it is failing rapidly, from Helena we are advised that there is but little prospects of a top crop, and Alabama reports are to the effect that a disappointing yield is indi-

Charleston, South Carolina.—It has been dry all the week. The thermometer has averaged 79, the highest being 91 and the lowest 68.

Greenwood, South Carolina.—Cotton is nearly all picked and will not average half a crop. We have had no rain during the week. The thermometer has ranged from 65 to 84, averaging 74.

Charlotte, North Carolina.—There has been rain on one day of the week, the precipitation reaching six hundredths of an inch. Average thermometer 76, highest 93, lowest 60. MANCHESTER MARKET. – Our report received by cable to-night from Manchester states that the market is quiet for both yarns and shirtings. The demand for India is improving. We give the prices for to-day below and leave those for previous weeks of this and last year for comparison.

Market, 4 P. M.	Steady.	Steady.	Qulet but steady.	Irregular.	Quiet.	Quiet.

The prices of futures at Liverpool for each day are given below. Prices are on the basis of Uplands, Low Middling clause, unless otherwise stated.

## BREADSTUFFS.

FRIDAY, Sept. 28, 1900.

At slight concessions from the prices ruling at the close of last, week there has been a fair inquiry for wheat flour. The volume of business transacted, however, has reached only very moderate proportions; despite the fact that there has been some reaction in the prices for the grain, mills have not been disposed to weaken in their ideas of values for wheat flour, and business has been held in check. City mills have held steady. Rye flour has been quiet, but offerings have been light and prices have been well maintained. Corn meal has met with only a limited demand, but prices have ruled firm, reflecting an advance in the grain.

Speculation in wheat for future delivery has been moderately active, with the undertone of the market somewhat unsettled. Early in the week the tendency of prices was towards a lower basis, prices on Tuesday declining 1@13%. The weakness was due almost exclusively to liquidation oy recent speculative buyers, there being no development of a character to promote aggressive selling. Cable advices showed generally firm markets, and weather conditions in the Northwest were unfavorable. Wednesday there developed a batter undertone. The pressure to sell for 'he account of longs to realize profits had largely subsided, and the fact that shippers came into the market as free buyers at the decline in prices had a strengthening influence. The accounts from the Southwest reported small country acceptances, and this, coupled with a smaller crop movement, had its influence in favor of the market. Thursday there was an easier market early under more favorable weather conditions in the Northwest and reflecting easier advices from the Northwestern markets. During the day, however, there was fairly good buying and as there was no aggressive selling, the loss was recovered. Business in the spot market has been fairly active, exporters being free buyers on all reactions in prices. To-day there was an easier market, favorable crop news from Argentine being the weakening feature. The spot market was active. The sales for export here and at outports were 600,000 bushels.

Indian corn futures have been fairly active and prices have a tvanced, the improvement being most prononnced in the near-by deliveries. The available supplies are only very moderate and under close control, with the result that shorts have been forced into the open market as buyers to cover their contracts, and this demand has advanced prices. The new crop deliveries have made fractional advances in sympathy, but crop reports state that prospects are favorable for a large yield and an early movement of the new crop. Business in the spot market has been fairly active and for immediate delivery prices have advanced sharply. Exporters have continued fairly free buyers, but their purchases have been principally for late fall deliveries. To day there was an easier market, under longs liquidating. The spot market was active. The sales for export here and at outports were 850,000 bushels.

Oats for future delivery at the Western market have been quiet. The crop movement has continued fairly full and the visible supply is steadily increasing, being considerably larger than at this time last year. In sympathy, however, with the firmness of the corn market and on scattered buying prices have held steady. Locally the spot market has been more active, as exporters have been freer buyers; prices have been well maintained. To day the market held fairly steady. The spot market was fairly active. The sales for export were 270,000 bushels.

#### THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., Sept. 28, 1900.

The main features of the market have not undergone any material change this week. Business in the aggregate has been moderate in cotton goods and without improvement in the woolen goods division. That the cotton goods division should be quiet just now is not remarkable after the extensive business done recently and the material advances in prices of most descriptions, but the continued inactivity of buyers of woolens is disappointing. The reduced demand for cotton goods has not made any impression upon the tone of the market. All advances made so far are maintained and the tendency is frequently towards a still higher level. Scarcity of ready supplies is a prominent feature in all descriptions and there has been no lessening of reserve on the part of sellers with regard to forward contracts. In a number of instances agents are restrained by their mills from making any quotations at all for goods to be made, and there are few willing to quote prices on a basis acceptable to buy-ers. Reports from jobbing centres show quieter conditions prevailing, but most of them record business as showing an improvement in volume over the corresponding period last year.

WOOLEN GOODS .- There has been no change in the policy pursued by buyers of men's-wear woolen and worsted fabrics this week. The general demand has been indifferent again, and the only lines in which anything like fair results have been reported have been the substitute goods referred to in previous reports. Standard qualities of clays and serges nave moved indifferently, but no change in prices has been made. Plain cheviots, with help from the skirt trades, have shown moderate results. Fancy woolens and worsteds have sold irregularly, and in the aggregate business in them has been quite moderate. In low grade cotton warps, satinets, etc., the market is steady. Sales of overcoatings have been limited at previous prices. Cloakings generally quiet. Dress goods also quiet, outside of a few specialties. Cotton warp dress-goods inclined to more firmness owing to the strength. of the market for cotton yarns. Business in flannels and blankets is light, but shows no change in prices.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending Sept. 24 were 2,508 packages, valued at \$139,714, their destination being to the points specified in the tables below :

NEW YORK TO SEPT. 24.	1900.		1899.	
NEW IORK TO SEPT. 24.	Week.	Since Jan. 1.	Week.	Since Jan. I

South America	1,401	32,696	609	34,186
Other Countries	391	7,100	97	5,937
Total	2,503	250,471	1,895	310,468

The value of the New York exports for the year to date has

been \$11,012,410 in 1900, against \$11,257,526 in 1899. The home demand for heavy brown sheetings and drills has been on a quiet scale with little doing for export. There are few goods on hand, and prices are very firm at recent advances. Fine brown sheetings also firm but quiet. Brown osnaburgs are slow and unchanged. Ducks quietly firm. Bleached cottons have not shown any further advances, but higher prices are looked for in leading tickets, the demand being ahead of ready supplies. Wide sheetings are well sold ahead and very firm. Cotton flannels and blankets against buyers. Quilts tending upwards. Denims are difficult to buy, owing to prevailing scarcity and high prices asked for forward deliveries. Ticks and plaids also scarce and strong and other coarse, colored cottons conservatively held, Kid finished cambrics and other linings firm. Staple prints have been in steady request and close the week with limited supplies and a hardening tendency. Fancy prints quiet and unchanged. Percales are well sold and firm. Staple ginghams are scarce in all desirable lines and very firm in price. A good business has been done in dress style ginghams for next spring. Regular print cloths have sold to a limited extent at 31/3 c., with a moderate business in narrow odds on that basis. Wide a moderate business in narrow odds on that basis. odds have been quiet at last week's prices. FOREIGN DRY GOODS.-Woolen and worsted dress-goods in moderate request for fine grades at steady prices. Silks. and ribbons show a steadier tone. Linens are firmer under advices from abroad, and burlaps are advancing, owing to. scarcity and dearer foreign markets.

## STATE AND CITY DEPARTMENT.

## Bond Proposals and Negotiations this week have been as follows:

Asotin County (Wash.), School District No. 25.—Bond Sale.—On September 18 \$6,000 10-20-year (optional) bonds were awarded to W. D. Perkins, Seattle, at 102 for 51/2% bonds. Following are the bids :

#### \* And blank bonds free of charge.

Beaver Falls (Pa.) School District.-Bond Offering.-Proposals will be received until October 15 by Geo. W. Mor-

rison, Pittsburg, for \$10,000 3½% school bonds. Boston, Mass.—Temporary Loan.—City Treasurer Alfred T. Turner has borrowed \$200,000 at 3%, loan to mature Nov. 5, 1900.

Bristol County, Mass.—Note Sale.—On September 27 the \$20,000 4% 4-year note was awarded to Blodget, Merritt & Co., Boston, at 102.88—an interest basis of about 3.227%. Following are the bids:

Note is dated Sept. 28, 1900, and the interest will be payable semi-annually.

Carthage, Ohio.—Bond Sale.—On Sept. 21 the \$6,390 70 5% 1-10 year (serial) street improvement bonds were awarded to the German National Bank, Cincinnati, for \$6,790 10. For

description of bonds see CHRONICLE August 25, p. 469. Chicago (III.) Sanitary District.—Bid.—A syndicate composed of the Illinois Trust & Savings Bank, First Na-tional Bank, Merchants' Loan & Trust Co., N. W. Harris & Co. and Farson, Leach & Co. was the only bidder September 26 for the \$2,500,000 4% 1-20-year (serial) bonds. The syndicate offered 100.10 for the bonds-an interest basis of 3 99%.

For description of bonds see CHRONICLE Sept. 22, p. 616. Concord, N. H.—Bond Offering.—Proposals will be received until 11 A. M., October 1, by the City Tleasurer, for \$3,000 bonds.

Bonds Authorized.—An issue of \$25,000 3½% 20 year re-funding water precinct bonds has been authorized.

Cooper (Texas) School District.-Bond Sale.-The Attorney General has approved an issue of \$3,000 school house bonds. These bonds have been sold to the State school fund at par.

Dansville, N. Y.-Bond Offering.-Proposals will be re-ceived until 12 M., Oct. 1, by James A. Young, Village Clerk, for \$2,500 street-improvement bonds. Two bonds are in denomination of \$1,000 and one bond for \$500, all dated Oct. 1. 1900. Interest (to be named in bids) will be payable semiannually. Principal will mature on October 1, \$1,600 in the years 1905 and 1906 and \$500 in 1907. A certified check for \$150, payable to the board of trustees, must accompany proposals.

East Liverpool. Ohio.—Bond Offering.—Proposals will be received until 12 M., October 1, by J. N. Hanley, City Clerk, for 10,000 6% 1-5 year (serial) sewer bonds. Securities are in denomination of 1,000, dated Nov. 1, 1900. Interest will be payable annually at the office of the City Treasurer. A cer-tified check on some national bank for 5% of bid, payable to the City Clerk, must accompany proposals. Accrued inter-est will be added to the price offered by the successful bid-der. Authority for the issuance of these bonds will be found in Section 2406, Revised Statutes of Ohio.

Edgewood, Allegheny County, Pa.—Bond Sale.—On Sept-ember 20 the \$15,000 4% 9.23-year (serial) sewer and street-improvement bonds were awarded to The Lamprecht Bros.

Co., Cleveland, at 102.25 flat- an interest basis of about 3.81%. For description of bonds see CHRONICLE Sept. 8, p. 513. Ellwood City, Lawrence County, Pa.—Bond Sale.—On September 25 the \$10,000 4½% 10 20.year (optional) electric-light bonds were awarded to Dick Bros. & Co., Philadelphia, at 104—an interest basis of about 4.01% if bonds are redeemed at their optional date and 4.20% if allowed to run their full at their optional date and 4.20% if allowed to run their full time. Following bre the bids:

Dick Bros. & Co., Philadelphia..104'00 | W. J. Hayes & Sons, Cleve.....1(3'17 W. R. Todd & Co., Cincinnati..\*104'09 | Lamprecht Bros. Co., Cleve.....102'50

\* Bid, it is stated, was not made according to requirement

Galion, Crawford County, Ohio.-Bond Sale.-On September 24 the highest bid received for the \$13,000  $4\frac{1}{2}$ % 1 10-year (serial) sewer bonds was that of Seasongood & Mayer, Cincinnati, at 103.57-an interest basis of about 3.775%. Following are the bids :

For description of bonds see CHRONICLE Sept. 15, p. 565.

Hagerstown, Md.-Bond Offering.-Augustus Heimel, Collector of Taxes, will sell at public auction at 11 A. M. Oct. 2 \$15,000 4% electric-light and improvement bonds. Securities are issued under anthority of Chapter 381, Laws of 1898, and Chapter 75, Laws of 1900. Twenty-two bonds are in denomination of \$500 and forty of \$100 each. Interest will be payable January 1 and July 1. Principal will mature \$1,000 yearly on July 1 from 1909 to 1923, inclusive, the one-hundred dollar bonds maturing ten in each of the years 1912, 1914, 1916 and 1918.

Bond Sale.-On September 18 this city sold an issue of \$5,000 4% drainage bonds at prices ranging from 100.24 to 101.51.
