POST OFFICE BOX 958. NEW YORK.

CLEARING HOUSE RETURNS.

The following table, made up by telegraph, etc., indicates that the total bank clearings of all the clearing houses of the United States for the week ending to-day, Nov. 17, have been \$2,171,075,337, against \$1,710,467,864 last week and \$2,004,487,968 the corresponding week of last year.

| CLEARINGS. | Week Ending November 17. | | | | | |
|---------------------------|--------------------------|-----------------|--------|--|--|--|
| Returns by Telegraph. | 1900. | 1899 | P. Cen | | | |
| New York | \$1,196,493,190 | \$1,034,758,240 | +15.6 | | | |

| St. Louis | 35 571 550 | 31,476,005 | +18*0 | | | |
| New Orleans | 12,824 0 32 | 10,825,043 | +18% | | | |
| Seven cities, 5 days | \$1,603,668,306 | \$1,430.146,756 | +12" | | | |
| Other cities, 5 days | 208,419,763 | 225,017,498 | -74 | | | |
| Total all cities, 5 days | \$1,813.088.069 | \$1,655,164 254 | +9! | | | |
| All cities, 1 day | 858,987 268 | 349,323,714 | +3.8 | | | |
| Total all cities for week | \$2,171,075,337 | \$2,004,487,968 | +88 | | | |

The full details of clearings for the week covered by the above statement will be given next Saturday. We cannot, of course, furnish them to-day, bank clearings being made up by the various clearing houses at noon on Saturday, and hence in the above the last twenty-four hours of the week have to be in all cases estimated, as we go to press Friday night.

THE FINANCIAL SITUATION.

There have been numerous little events occurring the current week which indicate a quickened industrial movement and an aroused vitality everywhere. This is so although nothing has happened in that interval having any general influence on affairs; neither has the revival been due to supernatural or magical means. All that can be said in explanation is that truth and error have for many months been in conflict and it has looked for the time as if error might gain ascendency; the spirit of enterprise and the activities of the people have during the whole of that period been more or less suppressed by this impending danger. Now affairs, relieved from that fear, have broken away from its restraining influence, and buoyancy in feeling and action has become a general feature. The darkness of the night in which we have been for months enveloped is fleeing before the light of the coming day.

It is useful to draw attention to these varying phases of our industrial situation and movements, for experience is the best of school-masters. Besides, in this case the contrast is extreme, the recent developments having no doubt been phenomenal, not only in character but in their suddenness-breaking out in so many ways all at once and covering the whole field of work. They are to be seen in factory enterprises, some entirely new, and others which had been arrested and held in abeyance during the political canvass being now advanced again; in announcements of new issues of securities for the extension of trolley roads and divers other properties; indeed, stated in brief, hardly a department of trade can be mentioned that is not already showing evidence of new enterprise and expansion; while in the most of our commodity markets demand has increased materially and prices of products have risen. We should particularly note that the same hopeful and progressive spirit is conspicuous among the managers of our railroads; all sorts of improvements are either under way or in contemplation tending to strengthen the position of their properties and to improve the facilities for cheaply and expeditiously doing the increasing business which is anticipated. It is in keeping also to mention, as evidence of the completeness of the change, the enormous additions to the transactions and rise in values at our Stock Exchange and at the Exchanges of other cities the last two weeks and a half. The higher prices are of course in part speculative and so is the increase in transactions; but that suggestion does not weaken the strength of the illustration as evidence of the added buoyancy and confidence that have followed the favorable settlement of the election issues.

We have had a remarkable, though a somewhat checkered, week on the Stock Exchange. Including last Saturday the stock sales have reached 6,720,025 shares, a total which puts the week's sales next to the largest they have ever been. For the week ending January 27 1899 they exceeded the current week's aggregate, being 7,432,552 shares; the previous week (ending January 20 1899) the total was 5,702,864 shares, and the week ending January 13 1899 they were 5,588,825 shares; these totals are the highest ever recorded. The first two days of the current week the market was very active and constantly rising,

nearly every property participating in the movement, thus adding to the advances of the previous week; so eager was the buying that it seemed to be almost impossible to satisfy the demand. Tuesday, however, there came a reaction, with quite general declines, but the total sales continued large, making the aggregate for the three days 3,692,580 shares, notwithstanding that Saturday's session continued only two hours. The succeeding two days were of quite a different character. Following the reaction on Tuesday came a much more quiet market Wednesday and Thursday, with railroad stocks as a rule strong, and some of them advancing materially, but the industrials remaining weaker, though without any very important declines; the sales of those two days aggregating only 1,806,212 shares. Yesterday the buying was again urgent and apparently without much discrimination, prices advancing all through the list and there being scarcely any reaction, even at the close. The transactions amounted to 1,221,233 shares.

The death of Henry Villard removes a man who at one time played a very prominent part in the railroad history of the United States. It is true that he was not able to carry his undertakings through to success, that financial misfortune overtook him on several occasions, involving heavy losses to the security holders and those associated with him, and that if it had not been for the aid extended by the banking and financial interests headed by Mr. J. P. Morgan, the consequences would have been serious in the extreme. But making allowance for all this, it must be admitted that his achievements were important. It was his energy and boundless faith that carried the Northern Pacific through to the Pacific Coast. This was many years before James J. Hill undertook to extend the Great Northern to the Pacific. The cities of St. Paul, Minneapolis and Daluth and the whole tier of States on the Canadian border owe much to him for this first step, which was so essential to the settlement and development of such a large stretch of country. At a critical juncture, namely in 1883, his resources became exhausted; but the task he had imposed upon himself was one of large dimensions. It is to be remembered, furthermore, as indicating the nature of the undertaking, that ten years before, in 1873. when the enterprise was yet on a small scale, the effort carried down the banking house of Jay Cooke & Co. and precipitated a panic in the industrial and financial world from which full recovery was not experienced until the resumption of gold payments in 1879. Doubtless a similar result might have followed in 1883 except that the banking interests came to the rescue. Just as the road was being completed, and with much ceremony a golden spike had been driven, so that the outlook for the property appeared particularly bright, the company's means gave out. The cost of the work had been greatly under estimated, as usually happens on such occasions, and the concern found itself burdened with a heavy floating debt, with extensive pressing requirements, and nowhere to turn for ready cash. Mr. Villard's German backers, upon whom he had been accustomed to rely, here failed him. The situation was a most critical one. The preferred stock dropped from 905 in June to 56 in October, and the common shares fell from 531 to 231. The whole country was becoming alarmed. It was then that a syndicate consisting of Drexel, Morgan & Co., Winslow, Lanier & Co. and August Belmont & Co. stepped

in and agreed to take \$18,000,000 of an issue of \$20,000,000 second mortgage bonds.

Notwithstanding his extensive railroad connections, Mr. Villard never pretended, we believe, to be a railroad man in the operating sense. But he had a very able adjutant to lean upon in Thomas F. Oakes. Mr. Villard's forte was finances. As a financier he displayed qualities which in popular parlance are termed brilliant-qualities, however, which nearly always involve an absence of self-restraint. In seeking for an explanation of the financial reverses which the properties with which he was identified experienced, it is perhaps only necessary to say that his was an extremely sanguine temperament—as it had to be to direct such large undertakings—and that he was often carried away by his own enthusiasm. His scheme was a comprehensive one. He had been very successful with the Oregon Railway & Navigation Company, and he aimed to unite that property, the Northern Pacific, the Wisconsin Central, the Chicago & Northern Pacific and allied roads under a single control. The contrivance devised for that purpose, namely the organization of the Oregon & Trans-Con. tinental Company to hold control of these properties, was not well chosen for the purpose. It served to weaken rather than to strengthen the general plan. Mr. Villard's methods have often been questioned, but we think the faults and defects in them were all attributable to his sanguine way of looking at things. He was in many ways a man like Franklin B. Gowen of the Reading. To his over-confidence must be attributed the later era of financial tribulations which the Northern Pacific suffered. This time Mr. Morgan stepped in and took hold in good earnest. It is a strange coincidence that Mr. Villard's death should have occurred at just the moment when the voting trus tees announced their intention to terminate the voting trust, and made public a statement showing how ex tremely prosperous the property had become under new methods. In the early days of the Northern Pacific Mr. Villard's faith and genius were of inestimable benefit. To-day the solidity combined with aggressiveness which distinguishes modern banking interests is best suited to the property's needs.

The annual report of the American Cotton Oil Company has been issued this week. This is one of the older industrial properties which eleven years ago was changed from a "trust" into the corporate form, the capital being at the same time very materially reduced, and which has since continued on an assured basis. As is known, the company is paying dividends on both the common and the preferred shares. The payment on the preferred stock is 6 per cent, and has been continued without break since 1892. On the common stock the dividends have been 3 per cent in December 1898 and 4 per cent in December 1899, while $3\frac{1}{2}$ per cent is to be paid the present year. The reduction of one-half of one per cent in this last instance reflects the slightly decreased net profits of the late fiscal year—ending August 31. It is quite surprising to note how small has been the reduction in net earnings considering the unfavorable conditions which prevailed during the year. We say unfavorable conditions, because the company is dependent upon the available amount and price of cotton seed, which in turn is dependent upon the size of the cotton crop. This crop, as the reader knows, was short last season, and as a result the company had to deal with

diminished receipts of seed and the natural consequence of a higher range in values of all products. Nevertheless the volume of business done, the report informs us, almost equaled that of the previous year, when the cotton crop was largest on record and low prices prevailed. The profits were; \$1,739,449, against \$1,883,254 for the twelve months preceding. After allowing for interest on the outstanding debentures, and for the 6 per cent dividends on the preferred shares and the 31/2 per cent on the common stock, a surplus of \$176,968 remains for the year. The company has no bonded indebtedness, except \$3,000,000 of debentures, and, as showing the credit it enjoys, it may be noted that these debentures, which previously bore 8 per cent interest, were on November 1 extended for 15 years at only $4\frac{1}{2}$ per cent interest.

A distressing event of the week was the suspension of the dry goods commission house of William L. Strong & Co., the principal of which was one of the most prominent merchants in this city and highly respected in the community. His sudden death on November 2 tended to derange the affairs of the house of which he was the head, and the executors of the estate brought suit on Tuesday for the dissolution of the copartnership and the determination of the interests of the several partners. Edward A. Treat, of the firm of Treat & Converse, was appointed receiver under the decree of the Court. The death on November 5 of Francis H. Stott, of C. H. & F. H. Stott & Co., of Stottsville, Columbia Co., N. Y., who were extensive manufacturers of flannels, in which concern the firm of W. L. Strong & Co. was largely interested, tended still further to complicate affairs, and for the protection of creditors of the above-noted manufacturers a receiver was appointed on Wednesday. An examination by the receiver of the books of W. L. Strong & Co. disclosed the fact that the accounts were more or less confused, and that a public statement of the affairs of the concern could not be made until after thorough inquiry. It was at first reported that the liabilities would be quite large. Later, however, Hon. Cornelius N. Bliss, John Claffin and Augustus D. Juilliard, who had been asked by the receiver to act as an advisory committee, stated that the notes drawn by C. H. & F. H. Stott and indorsed by W. L. Strong & Co. aggregate \$1,000,000 and that there seem to be no notes of W. L. Strong & Co. except one for \$7,500. The committee also said that they were credibly informed that there had been no swapping of paper and no notes drawn by W. L. Strong & Co. and endorsed by C. H. & F. H. Stott. In banking circles it is stated that the paper of the last-named firm was issued in lots of about \$25,000 each and that it had been discounted by banks in this city and State and in Eastern cities and States, though the holdings by individual banks were not so great as to be embarrassing.

There has been no change in the official discount rates by any of the European banks this week, though unofficial rates continue firm, especially at London, where the market was affected on Thursday by the payment of the final instalment on the Exchequer loan. The statement of the New York Associated Banks last week was somewhat of a surprise in that the changes in the cash items did not agree with the preliminary estimates, there being a loss of \$4,015,200

where only about half this sum was expected. The reduction of \$6,673,800 in loans was unlooked for, though the decrease was supposed to be due to the liquidation of loans upon stock collateral, which obligations had been paid off by speculators who had sold their holdings during the rise following the announcement of the result of the Presidential election. The exchange of fundable bonds for the new 2 per cents amounted at the close of business on Thursday to \$352,083,450, and the exchanges have been comparatively large, amounting since Friday of last week to \$5,200,000.

Money on call, representing bankers' balances, has loaned at the Stock Exchange during the week at 6 per cent and at 2 per cent, averaging about 4 per cent. On Monday loans were at 5 per cent and at 4 per cent, with the bulk of the business at 4 per cent. On Tuesday transactions were at 6 per cent and at 4 per cent, with the majority at $4\frac{1}{2}$ per cent. On Wednesday loans were at 6 per cent and at 2 per cent, with the bulk of the business at 5 per cent. On Thursday transactions were at 5 per cent and at 21 per cent, with the majority at 4 per cent. On Friday loans were at $4\frac{1}{2}$ per cent and at 3 per cent, with the bulk of the business at 4 per cent. Banks and trust companies have loaned at 4 per cent as the minimum, some, however, early in the week obtaining $4\frac{1}{2}$ and 5 per cent. Time contracts are in good demand, and there has been a moderately large business during the week at $4\frac{1}{2}$ to 5 per cent for four to six months on good mixed Stock Exchange collateral. Quotations for thirty to ninety days are 4½ per cent, though transactions are small for these periods. The only influence which the Strong suspension appears to have had in the commercial paper market was to induce a closer scrutiny of names. The demand for paper is good, not only from local, but from out-of-town institutions, and the supply is fair, with no accumulation. Rates are $4@4\frac{1}{2}$ per cent for sixty to ninety day endorsed bills receivable, 44@5 per cent for prime and 5@6 per cent for good four to six months single names.

The Bank of England minimum rate of discount remains unchanged at 4 per cent. The cable reports discounts of sixty to ninety-day bank bills in London 4 per cent. The open market rate at Paris is 3 per cent and at Berlin and Frankfort it is $4\frac{1}{4}$ @ $4\frac{3}{8}$ per cent. According to our special cable from London the Bank of England gained £187,899 bullion during the week and held £31,918,050 at the close of the week. Our correspondent further advises us that the gain was due to the import of £10,000 from Australia, to receipts of £264,000 net from the interior of Great Britain, and to exports of £86,000, of which £40,000 were to Roumania, £36,000 to Malta and £10,000 to South America.

The foreign exchange market has been dull and firm this week. There was some demand for cables on Monday in connection with the bi-weekly settlement in London, after which the market for them grew inactive. The supply of commercial bills against cotton has been small, and only moderate amounts of grain bills have been offered, thus accounting for the firm tone for these drafts, while bankers sixty day exchange has been affected by the London discount market. An inquiry for short sterling to remit for stocks sold for European account has tended

to keep this class of bills firm. Arrivals of gold reported at the Custom House for the week were \$2,744,550. The Assay Office paid \$2,819,158 30 for foreign and \$727,988 58 for domestic bullion.

Nominal rates for exchange are uniformly quoted at $481\frac{1}{2}$ for sixty day and $485\frac{1}{2}$ for sight. Rates for actual business opened on Monday unchanged compared with those at the close of business on Friday of last week at $480\frac{3}{4}$ @481 for long, $484\frac{1}{2}$ @ $484\frac{3}{4}$ for short and $485\frac{1}{4}$ @ $485\frac{1}{2}$ for cables, and while the tone was steady to firm, there was no quotable change in rates thereafter. The market was steady on Friday. The following shows daily posted rates for exchange by some of the leading drawers.

DAILY POSTED RATES FOR FOREIGN EXCHANGE.

+ The Austro-Hungarian Bank Statement is now issued in Kronen and Heller instead of Gulden and Kreutzer. The reduction of the former currency to sterling £ was by considering the Gulden to have the value of 50 cents. As the Krone has really no greater value than 20 cents, our cable correspondent in London, in order to reduce Kronen to £, has altered the basis of conversion by dividing the amount of Kronen by 24 instead of 20.

*The division (between gold and silver) given in our table of coin and bullion in the Bank of Germany and the Bank of Belgium is made from the best estimate we are able to obtain; in neither case is it claimed to be accurate, as those banks make no distinction in their weekly returns, merely reporting the total gold and silver, but we believe the division we make is a close approximation.

NOTE.—We receive the foregoing results weekly by cable, and while not all of the date given at the head of the column, they are the returns issued nearest to that date—that is the latest reported figures.

SOUTHERN SPINNERS AND THE CONCERT IN CHINA.

A passage in the speech of Prime Minister Salis bury, Friday night of last week, at the Lord Mayor's banquet at the Guildhall, is of considerable interest to our cotton spinners if the suggestion he made turns out to be fully realized. The suggestion comes, too, at a moment when the subject to which it relates has been given special prominence here by the publication of a petition by forty-five cotton mills in the South to our Government to look after their interests in China, they fearing that the outcome of the war would be permanently to restrict the trade of the United States with that country. The wish expressed in the petition is that the "open-door" policy, so far as possible, be maintained, and their interests preserved; Manchuria is especially named, because to that portion of the Chinese Empire a large part of the cotton drills and shirtings manufactured in the Southern States has hitherto been exported. Apprehension is felt lest Russia after the settlement with China is completed will, through the imposition of heavy duties, shut out from that section the goods of the petitioners.

It will be remembered that in our cotton crop report of September 10 we referred at considerable length to the then embarrassed condition of the portion of Southern cotton mills, as well as certain of the mills in the North, that were producing those goods. Of course that embarrassment was brought about, as therein stated, by the disturbed state of affairs in China, which had then culminated in the crisis in Pekin, the closing of the ports of the Empire, and the stoppage of the movement of all products to that country. By reason of this embargo the particular business in which the mills above referred to were engaged was substantially ruined. It had been very active and prosperous and full of promise up to the beginning of the Boxer agitation; but it stopped suddenly about the time when the Allies started to make arrangements for the relief movement to Pekin. Since then there has been no material change in the conditions except that the mills which were forced to stop operations at that time have since started up again, and with few exceptions are said to be running on full time, though the price they get for their prod uct has had to be cut down until in many cases the cost of manufacture is barely covered.

Under these circumstances it becomes a question of deep importance what kind of a settlement is to be made by the Allies between themselves and with China when a final arrangement is reached. On this point the words of Prime Minister Salisbury seem to be explicit and satisfactory. He says that the opendoor policy will be maintained. Indeed, he says more than that: he asserts that the "integrity of China and the open door" will be agreed to by all parties. His method of making this statement is likewise of such a character as to apparently leave no room for doubt in regard to his meaning. The Prime Minister, by way of introducing the subject, remarked that what he said with reference to China would be restricted because of Great Britain's connection with the Allies. But he could refer to the Anglo-German agreement, which represented the views of nearly all the Allies. That agreement, he said, "laid down the important points of the integrity

vantage that the Powers had expressed themselves as favorable to it." After that, emphasizing his own view, he added that if those two points were achieved he did not know that the issue of the Chinese problem need concern Great Britain very anxiously. Now that the threatened danger to the Ministers was passed she had only to watch and assist in the process by which China might return to a regular government favorable to prosperity and the encouragement of commerce.

No doubt our Government will in every way do its best to further the objects mentioned. Such a settlement of that portion of the issue between the Powers and China is an arrangement the United States could well be a party to. Aside from the feature that trade interests would be thereby served, it is a conclusion which justice and good morals demand. The rumors of our intended withdrawal from the concert in China must, if wholly true, tend to diminish our influence, even with reference to the matters discussed. But we do not believe they are correct—at least in the form in which they have been accepted. It is not unlikely that our Government may refuse to unite in the demand for the execution of efficials to the extent proposed and to the required amount of indemnity. Certainly it cannot be willing to let the past go without any reparation. It seems obvious that no life would be safe hereafter in China, no treaty would have any force, no trade would be possible, if the Powers should wholly omit to enforce punishment and payment of indemnity for past offences and losses.

DISSOLUTION OF NORTHERN PACIFIC VOTING TRUST.

The action last week of the board of directors of the Northern Pacific Railway Company in placing the common stock on a 4-per-cent dividend basis has been followed this week by the wholly unlooked for announcement that the voting trust in the shares of the company is to be terminated. This is a voluntary step on the part of the trustees, for the trust would not have expired by limitation until a year hencethat is not until November 1 1901. The action is somewhat unique. Men do not as a rule yield up power readily, for there is a certain fascination in the exercise of it that makes the holder reluctant to divest himself of it; hence the fact that in this instance the voting trustees of their own volition part with the control of this important railroad property speaks volumes both as to the character of the men themselves and of the wonderful results which have been accomplished under their wise care and judgment in the short period of four years since the new company was constituted.

The reorganization of the Northern Pacific, as is well known, was the work of J. P. Morgan & Co. Mr. Morgan's house has on more than one occasion in the history of the road come to its rescue on critical occasions, but never did it render more efficient or important services on behalf of an embarrassed concern than when, in the thorough and drastic manner for which the house is famed, it undertook to place this large concern on its feet. In connection with the announcement of the dissolution of the trust a statement has been issued intended to indicate the great change which has been effected in the condition of the property since the formation of the present company. The facts are all taken from the record of China and the open door, and it was a great ad- and what a wonderful story they tell. It is rather

noteworthy that the voting trustees appear to be little concerned to give prominence to their own part in the work. It would be difficult to find a stronger list of names than that comprising the voting trust, it consisting of J. P. Morgan himself and of August Belmont, Charles Lanier, Johnston Livingston and Dr. Georg von Siemens; but they cite the facts set out in the report simply to show that they are justified in the step they have taken in handing control of the property back to the shareholders—or (to use their own language) to furnish convincing proof "that the purposes of our trusteeship have been fulfilled and that we are warranted in now dissolving the trust."

We have frequently indicated in these columns how great has been the transformation in the operating and fiscal results under the new regime. The statement before us serves to direct attention anew to the fact, and moreover summarizes the work in a peculiarly interesting and striking way. American railroad history records some marvelous achievements, but none more marvelous than this—none, too, more credit-As bearing upon the improvement in the physical condition of the property and the increase in the capacity of plant and equipment, we may note that between September 1 1896 and November 1 1900 1,042 miles of heavy steel rails were laid in the track; 221 miles of new second track, spurs and sidings provided; 1,391 miles of embankment widened to 16 feet; 1,426 miles of roadway ballasted; 7½ million ties replaced and 1,700 miles of grades reduced. As for the addition to equipment, the report shows that the company on November 1 1900 had 27,052 locomotives and cars, as against only 19,509 on September 1 1896. This is an increase of 38.7 per cent as far as mere numbers are concerned. But account must be taken of the fact that the new rolling stock is of the most approved modern type, and therefore of large capacity, making the increase in the hauling and carrying capacity very much greater than would appear from these figures. The horse power of the road engines is now 393,345, as against only 242,475 at the earlier date, giving an increase of over 62 per cent. In like manner the capacity of the cars now in service is 629,269 tons, while in 1896 it was only 368,914 tons. In this case, therefore, the addition has been over 70 per cent. During the four years no less than \$14,638,029 has been expended for additions and improvements to the road and equipment, out of the Betterment and Enlargement Fund provided for the purpose, and on September 30 1900 the company still had available in cash and bonds for similar expenditures \$8,464,514. This, moreover, does not by any means cover all the outlays for this purpose. Very large amounts for like work were used from earnings from year to year and charged directly to operating expenses. Besides all this \$5,988,328 has been specifically appropriated from net income during the past three years for these purposes.

As was pointed out by us in reviewing the annual report for the year ending June 30 a few weeks ago, the financial condition of the company is one of exceptional strength. The corporation is amply provided with funds for all requirements, both for the present and the future. Aside from the \$5,988,328 appropriated from net income for new equipment and additions and betterments to the property, surplus revenues (after providing for the dividends paid) have accumulated in cash since the organization of the

company to the extent of \$7,273,248, of which, as will be remembered, \$3,000,000 was set aside in 1898 as a special reserve, until the end of 1901, to insure the continuity of dividends on the preferred stock. Exclusive of this special reserve of \$3,000,000 for the benefit of the preferred stock, and exclusive also of the Betterment and Enlargement and Insurance funds, the current assets of the company on September 30 1900 exceeded the current liabilities in the sum of nearly \$20,000,000—in exact figures, \$19,540,-482. Including the Betterment and Enlargement Fund, the Preferred Stock Dividend and the Insurance funds, the aggregate of cash and available assets on September 30 amounted to no less than \$34,688,-018, of which \$8,856,645 existed in the shape of money in bank. Furthermore, there are additional resources for present and future requirements in \$30,002,000 of bonds, which may be issued from year to year under the provisions of the existing mortgages of the com-

Another important circumstance should not be overlooked. On September 1 1896 there had been outstanding of underlying mortgages \$17,918,000. All of these have since been retired and their mortgages discharged of record. The result is that the prior lien 4 per cent bonds have become a first lien, by direct mortgage or through the ownership of securities, upon 4,975 miles of road, together with extensive terminal properties. The General Lien 3 per cents have, of course, likewise been advanced in order of lien. On account of the additions to the mileage of the system, the total mortgage debt in the four years has risen from \$156,000,000 to \$171,000,000. But it is important to note that the addition to interest charges has been slight, the total of such charges now being \$6,497,655, compared with \$6,217,-320 on September 1 1896. The explanation is found in the fact that the interest rate averages but 3.79 per cent, whereas in 1896 it was 3.98 per cent.

Favorable business conditions have obviously aided in the work of the rehabilitation of the property. But it is pertinent to ask how far these favorable conditions, at least to the extent that they have been local to the territory tributary to the road, must be attributed to the liberal and enlightened policy pursued in disposing of the company's extensive land We are led to refer to this feature because of the appearance in the report of a statement showing that the total of unsold lands on September 30 1900 amounted to only 22,773,250 acres, as against 34,638,-873 acres on December 1 1896. The new policy has been to sell the lands at greatly reduced rates; and the large disposals the company has been able to make show that the policy has been a success. dental effect has been to reduce the company's taxes on the land grant, to stop the interest on the land grant bonds, which the company was able to retire out of the proceeds of the sales, and, most important of all, to add in an important degree to the population and tonnage tributary to the system.

What has been accomplished in increasing the operating efficiency of the road has often been referred to by us. Hence very brief reference to this feature will suffice on the present occasion. The company moved in 1900 2,205 million tons of freight one mile, as against only 1,316 million tons in 1896, and actually did the additional work with a smaller freight train mileage, the miles run by the freight trains in 1900 having been 6,720,173, against 6,805,354 in 1896.

The average rate realized per ton per mile on the freight moved was only 987 thousandths of a cent in the later year, as against 1,130 thousandths in the earlier year. And yet, owing to the increased load, the trains earned \$3 29 per mile in 1900, as against \$2 22 in 1896—an improvement of almost 50 per cent.

The expansion in revenues is shown by the fact that gross earnings in the late fiscal year were \$30,021,317, while in the year ending June 30 1896 the amount was but \$19,863,159. But the most striking fact is that as a result of the improved methods and increased efficiency in operations, the addition to net earnings has been almost as large as the addition to the gross. In brief, net income for 1900 was \$15,461,620, whereas in the fiscal year of 1896 it had been less than onehalf that sum, or but \$7,527,913. The report points out that the new company has already declared thirteen dividends upon the preferred stock and six dividends upon the common stock, and that even with unusual charges and expenses for improvements to the property the net income during the past three years has averaged 5.16 per cent on both preferred and common stocks. The opinion is also expressed that the "published statements of earnings and cash resources give evidence that the continuance of regular quarterly dividends now established at the rate of 4 per cent per annum upon both common and preferred stocks may be reasonably expected under the company's present management." Truly these are marvelous exhibits and they have few parallels.

MISAPPREHENSIONS REGARDING INDUSTRIAL COMPANIES.

It is one of the unfortunate results of the electioneering methods at present in vogue in this country that with considerable real education the people receive also a bewildering amount of misinformation. Political exigencies, or shall we say "political license," seem to make this effect inevitable. The recent crusade against industrial companies is an instance of the manner in which actual evils are lost sight of, and evils imaginary, or largely so, are given undue prominence at election times both in the press and on the stump.

All thoughtful men recognize the harmful nature of no trifling part of the industrial flotation the past two years. Frequent and flagrant over-capitalization, reckless purchases of plants good, bad and indifferent, and more or less extravagant statements as to the character and earnings of the properties concerned these unquestionably merit strong condemnation. The disturbances, too, created in many communities through the discharge of wage-earners whose services have been rendered unnecessary, and the closing of unprofitable plants in consequence of the consolidation of companies, have caused undeniable hardship, albeit probably less serious and permanent than some would have it appear; but on the other hand, there is evidence at hand which has scarcely been considered that these consolidations are not likely to prove the domineering and oppressive factors in our social and industrial organism that on theoretical grounds one might expect them to be.

Three main objections have been nrged against the large industrial companies, namely: (1) They eliminounced its decision to relinquish its unprofitable business to the former owners of the constituent (2) open the way to extortionate prices for necessaries plants; the Grocery (Thurber-Whyland) company and

of life, with the result that (3) the companies in question pay or will pay excessive dividends to their stockholders. More moderately stated, these asser tions unquestionably contain a measure of truth so far as the object of effecting many of the consolidations undertaken of late is concerned. Several years of lean business and immoderate competition with their natural concomitant, low prices, so low as to make fair profits impossible, certainly gave incentive to any movement that promised a relaxation of the tension and better net income. The essential question, however, is whether real danger exists of competition being prevented, of prices being established at an unreasonable level, and thus of undue profits being wrung from the public?

An answer to these queries, which if it is not absolutely conclusive is at least highly suggestive, 18 afforded by the history of the industrial companies organized during the years 1888-1895. These companies were few in number and small in aggregate capitalization compared with the similar incorporations of recent months, and many of them also were in nowise combinations, being merely private enterprises putting on corporate form for one or another of several reasons; but even so, they have been fruitful of experience, having included in their number several that even to-day rank among the greatest of industrial enterprises. Below we have tabulated their dividend record or other facts indicative of their success or want of success, omitting a few minor private concerns as to which the facts are wanting; also the breweries consolidations effected by British capital (mostly disappointments to their promoters) and the electric light, gas and transportation combines, which fall in a class by themselves and have no bearing on the question in hand.

Our list embraces in all thirty-two companies with an aggregate capitalization as at first issued or since increased of about 700 millions, an amount not insignificant even in view of the more recent development on similar lines. At least half of these companies it is probably safe to say were expected more or less confidently to dominate their respective trades. Yet, as a matter of fact few of them have been able alone to maintain at all fully the position they first occupied, and in a number of instances profits became so unsatisfactory that reorganization and a greater consolidation with a view to reducing still further the competition-old and new-have been recently effected and a fresh start made, the outcome of which is yet to be determined. Thus, the stockholders of the Starch and the Linseed Oil and the Whiskey company having undergone heavy losses, parted with their holdings for cash or securities in order that a better equipped company might in each case be established. The Biscuit and Michigan Car companies also having received small returns on their investments were glad to dispose of their property, valuable though it was; the Tack and the Cordage companies were twice foreclosed, and to-day the holder of \$1,000 preferred capital stock of the original Cordage consolidation, having paid thereon two assessments aggregating \$320, making the total cash investment, say-\$1,320, finds himself the possessor of stock and bonds together worth only \$115 to represent the entire outlay; the Wall-Paper company not long since announced its decision to relinquish its unprofitable business to the former owners of the constituent

the Book company after some struggling had both to undergo liquidation, and the Safe company and the Wharf property are undergoing or awaiting reorganization. The Directory, the Electric and the Type found ers' company belong to a different category—they were hampered by over-capitalization, but having rectified this are now in the ranks of the dividend-payers; but neither of the two last mentioned is in any sense a monopoly.

Turning to the dividend list, which includes many of the most widely-known "trusts," there are therein only six companies that have paid dividends regularly year in and year out on their entire capital stock, and of this number three (a hat, a soap and a tobacco company) are or were little more than private corporations—prosperous because well managed and producing articles of recognized merit. The Match company has always paid large dividends, but one strong competitor built up a large business, and while this was bought out in 1899, several new companies have been formed of late to continue the op. position, and one of them claiming to control valuable patents, we are informed, will shortly begin manufacturing. The leading tobacco company has distributed large dividends with much regularity, but its ascendency has been possible of late, as is well known, only by the wholesale absorption into itself and allied companies of competing properties. To what extent this absorbing process with its inevitable swelling of outstanding securities can be pursued with advantage to its stockholders is a question. The Sugar company was thought to be particularly well intrenched against diminution of its receipts by outsiders, but notwithstanding the cost of sugar refineries, competitors (a list of which we gave in our issue of July 7 1900, page 31) have gradually secured a foothold, reducing the proportion of the refining business done by it from 90 to 70 per cent, and maintaining a contest that caused the company to decrease its dividend rate on its common stock from 12 to 6, and later 7, per cent per annum.

Of the companies that have been paying intermittently or with regularity only on their preferred stock, the Rubber company is one of the most important. Within a few years after its organization that company succeeded in absorbing practically all of the outside concerns, but from time to time since others have begun business—at first in a small way, then on a larger scale until, as shown in the CHRONICLE for July 7 1900, page 37, the separate companies are producing probably 30 per cent of the country's total output of rubber shoes. The company's dividends on its common stock have been small and paid at long intervals. The great Leather company (which recently purchased a troublesome competitor of a few years' standing), the Lead company, the Strawboard company, the Potteries company, the Soda Water Fountain company have paid on the average really trifling sums to their stockholders. The last-named company, as also the Directory company, has just resumed dividends on a small scale after a long intermission.

Certainly few of the thirty two companies have paid excessive dividends, even if the actual cash value of their plants is taken as the basis of comparison; and though quite a number of them have been more or less prosperous, they have not become so by destroying the power of others to compete; on the contrary, competitors have kept appearing, and in many cases have had to be bought out to preserve

prestige in the trade. We do not forget that the period following the organization of these companies was a peculiarly trying one, that profits were on almost every side greatly curtailed and that gross mis. management in several instances contributed to the poor results; but it is also to be remembered that times which were bad for money-making were likewise for that reason equally unfavorable for the establishment of competing properties, a feature of the more recent industrial movement. Theoretically no doubt the enormous aggregations of capital and of plants possess, or should possess, extraordinary advantages for profit-making, and if properly managed there is apparently no reason why a large measure of success should not be secured. On the other hand there is a certain marked capacity for economical operation (offsetting much of the economies claimed for the huge industrials) that belongs to the private company, whose proprietors are its managers and as such are watchful of every expense, in close personal touch with the demands of the local market, and untiring in their effort to meet those demands. Here is the shelter under which the small competitor, like the tender plant protected from the wind, will generally be able to grow.

Finally, as bearing on the contention that great consolidations do not necessarily impose upon the markets conditions of strength preventing competition, recall (1) that of the 83 distilleries that were included in the original Whiskey company, only 16 were deemed of sufficient earning capacity to be taken over by the successor company; (2) that the managers of the 35-million-dollar Wall-Paper combine, after long experience, came to the conclusion that it was advisable to sell back the constituent properties to the first owners, who, they say, can determine and supply the wants of the several communities served as no centralized management could do; the circumstances surrounding the wall-paper trade, it is explained, are peculiar, but one cannot avoid asking if after all the same or similar conditions will not be found to exist in other trades as well; (3) it is announced that the reorganizers of the United States Flour Company hope to save a considerable sum yearly by leasing the constituent properties to their former owners, instead of trying to operate the plants as one property; (4) that in the case of the Malt company, another of the recent consolidations, the investigating committee appointed by the stockholders found that "economies in general administration, manufacturing and distributing have not resulted from bringing the various plants into one ownership" some improvements, however, in these respects appear to have been effected recently, as is shown in the report on a subsequent page of to-day's CHRON-ICLE.

The financial experience of the earlier industrial companies as here sumarized and such other circumstances as we have just indicated, afford ground for the belief that natural causes may be trusted to regulate most of the industrials, and that there is no call for legislation to suppress them, though there may be for action eliminating some abuses in connection with their organization and management. There is, however, loud call for conservatism and circumspection on the part of the companies themselves to bring their capital, their expense accounts and their properties into condition to meet inevitable competition.

The tables about which we have been writing follow.

FINANCES READJUSTED OR COMPANIES LIQUIDATED.

THE BRITISH AND CONTINENTAL IRON AND COAL MARKETS.*

MANCHESTER, November 7.

Within the last fortnight a decidedly adverse change has come over the iron and steel markets of Western Europe. The change is much more pronounced in Great Britain and in Belgium than in France or in Germany; but in all these countries the demand for finished iron and steel in nearly every form is much slacker than it was three months ago, and prices of several descriptions have fallen considerably during the last two or three weeks. This downward movement has of course greatly accentuated the previously growing caution of buyers, and now the prevailing disposition is to hold off from all but absolutely necessary operations. How much longer will the decline go on, and at what point will it be arrested? Such are the questions which buyers are asking themselves, and since no assured answer is possible, most people are inclined to act upon the maxim, "when in

* Communicated by our Special Correspondent at Manchester.

doubt, hold your hand." The following comparison of prices per ton of 2,240 pounds of a few representative descriptions of raw and manufactured iron and steel on October 4th and November 1st shows the decline between those dates:

The exceptional and slight rise in hematite pig iron is due to the fact that a considerable fall in this description had previously occurred, followed by a trifling reaction. Apart from this solitary instance, however, the trend of prices has in all directions been downward, and in the case of pig iron the decline has come about in spite of the fact that a good many furnaces have been put out of blast since the close of last year. Partly this reduction of producing capacity was caused by the scarcity and dearness of ore and coke, and partly by the necessity of re-lining and repairing furnaces which had been kept continuously in blast for quite as long as they could be profitably worked. The result is shown in the returns of the production of pig iron in the United Kingdom during the first half of 1900, published a few days ago. These show that only 4,540,403 tons (of 2,240 lbs.) were made, against 4,782,868 tons in the first half of 1899. No wonder that, in face of a large demand, both for export and for home consumption, the stocks of pig iron in this country are everywhere very light. Still, prices have been going down, and are even now not always quite firm.

What has brought about the decline, not only in pig iron, but also in the many descriptions of manufactured iron and steel? The causes are various. One is the cessation of demand for the raw material for the Continent, particularly for Germany. The influx of American pig iron has been too slight to make any decided impression upon prices, for, as already shown in this correspondence, the imports of it from the United States this year have so far been actually less than they were in the corresponding portion of 1899. Latterly, however, purchases of steel ship plates and other kinds of manufactured material in the United States have been sufficiently large to create a visible flutter in the markets. Last week the first consignment of American steel ship plates arrived at Glasgow, and although it is known that high Atlantic freights are working against the fulfilment even of contracts already entered into for American manufactured steel, not to speak of further similar transactions, there can be no doubt that anticipations of imports from your side have had much to do with the falling off of business and the weakening of prices during the last month. So far as one can gauge intelligent expert opinion, however, the prevailing view in the British markets appears to be that the present inactivity will disappear as soon as prices have settled down to a level which buyers can regard as safe. And the more encouraging view is strengthened by the latest telegrams from New York, which report more cheerful and active markets, at all events for manufactured iron and steel, and prospects of an important revival of demand for next year. The force of

this intelligence is greatly accentuated by the news received to-day, that yesterday's election gives a majority in the Electoral College in favor of Mr. McKinley as President of the United States for a second term. Indeed, yesterday, in the iron markets in Manchester and other centres, the certainty of his reelection was generally regarded as an assurance of continued revival in the American iron trade, and as forecasting an early return of confidence and activity in the markets on this side the ocean.

An important factor in the problem is the price of fuel and iron ore. So far very little giving way is perceptible in the case of coal, but coke, the main consideration in the manufacture of iron and steel, has fallen greatly. At Middlesborough, for example, medium qualities for blast furnaces, which three months ago were worth 29s. per ton of 2,240 pounds, were sold yesterday at 22s. Iron ore, too, though still dear, is easier. The native product in the various districts has not fallen much, but imported Spanish hematite, which a few weeks since was sold at 21s. 9d. per ton, is now offered at Middlesborough at 20s., with little demand. The decline in this instance is mainly the consequence of a fall in freight from Bilbao, steamers engaged in the Baltic trade during the summer being now compelled in consequence of the approaching close of navigation by ice to seek employment in other directions. On the whole the downward tendency in the prices of the chief constituent materials of the British iron industry is unquestionable, and it may go on for some time longer. Much will depend, however, upon the state of the iron and coal markets of the Continent. Western and Central Europe have for many months made large demands upon British resources for coal, coke and pig iron. But these have now greatly abated, and in some cases German buyers have lately been re-selling here pig iron which they had previously bought, rather than have it shipped. From this point of view the state of the iron and coal markets of the Continent is at present a particularly important question.

The latest advices from Germany state that there is undoubtedly an over-supply of pig iron. The blast furnaces are, it is true, fully at work; not, however, for meeting current requirements, but in execution of forward orders previously taken. Consumers of raw iron appear, indeed, to have over-estimated their needs. The makers of girders and beams, of which there has long been an enormous consumption in Germany for buildings and public works, find the demand for them so slack that they are seeking to cancel, with compensation, their contracts for raw iron. In Belgium the position of iron and steel manufacturers is still worse. They have little demand for their products and are searching in every likely direction for new outlets. One consequence in these developments is that German and Belgian structural iron and steel, and even German steel ship plates and other manufactures, are being offered, notwithstanding the maintenance of the syndicate prices for the home markets in England and Scotland, at considerably less than the quotations of similar British manufacturers.

This Continental "invasion" of the British markets has, in the departments affected by it, had, to say the least, quite as much effect as the imports of American iron and steel. In France, also, prices are falling, but they are still relatively much higher than in England; higher even than in Germany; and the

current demand is better sustained for coal, pig iron and manufactures of all kinds.

Upon a broad view of the position and prospects of these industries in Europe one is impelled to conclude that the present depression, if such it may be called, is not likely to be lasting. New enterprises of many kinds at home and abroad requiring for their carrying-out enormous quantities of iron and steel are yet in progress, and there are no serious financial or monetary difficulties in the way. Given international peace, and prosperity in the United States, the prospects of a resumption of activity in the iron and steel industries in Europe appear to be dependent only upon the settlement of prices to a level which will command the confidence of buyers. No one dreams, however, of a descent to the level of two or three years ago, simply because of the impossibility of securing a sufficient supply of the primary requisites—iron and ore—at the old prices.

ITEMS ABOUT BANKS, BANKERS AND TRUST CO'S

—The sales of bank stocks this week aggregate 1,073 shares, of which 724 shares were sold at the Stock Exchange and 349 shares at auction. The sales of trust company stocks reach a total of 252 shares, all sold at auction. These transactions—the largest weekly total since February 3, 1900, were almost all made at prices considerably higher than those paid at recent sales. The greatest advances in value were: National City Bank, 43¾ points; Hanover National Bank, 30 points; Guaranty Trust Co., 25 points, and National Park Bank, 21 points.

*Sales at the Stock Exchange.

—The great increase in business on the New York Stock Exchange and the confidence in a bright outlook for a prosperous season has raised the price of seats on the Exchange to an unprecedented figure. Up to this month the highest price ever paid for a membership was \$42,000, in May, 1900, but this record was eclipsed early the present week by the sale of a seat for \$45,000. On Wednesday a purchaser paid \$46,500 for the seat formerly owned by the late Charles C. Goffe, and on Thursday the record was raised still higher by a sale at \$47,000. The new owners of these seats are Albert J. Erias, Nathan M. Miller and Arthur M. Hess, the last mentioned paying the highest price.

—It is reported by cable that a '\$15,000,000 loan of the City of Copenhagen, Denmark, is being negotiated by a syndicate of Danish and Swedish bankers with American banking houses. Representatives of such houses who are in a position to be well informed regarding foreign loans say that they have no knowledge of such negotiations.

—The rumor of the intended retirement from the Cabinet of Secretary Gage seems to have been unfounded. At a meeting of the Cabinet on Tnesday the President expressed a desire that all the members should remain in his official family during the four years of his incoming administration. All the members responded, and while no definite pledges were made that they would accept their respective portfolios, there was no positive declination. It is understood, however, that Attorney-General Griggs will retire on March 4.

-One notable event of the week was the presentation to Frederick D. Tappen, President of the Gallatin National Bank, of a testimonial from the directors and the employes of that institution. The gift was in the form of a gold cup, suitably inscribed, and an artistically illuminated album bearing the autographs of the officers, directors and clerks of the bank, and it was given in recognition of the fiftieth anniversary of Mr. Tappen's connection with the institution. The cup, which is of solid gold, bore the following inscription:

> Presented to FREDERICK D. TAPPEN, President of the GALLATIN NATIONAL BANK of the City of New York, in appreciation of his ability and faithfulness in every position in its service for Fifty Years. Nov. 12, 1850. Nov. 12, 1900.

The album was prepared at the establishment of Tiffany & Co. It was elegantly mounted and embossed and contained a record of Mr. Tappen's half century of service, with the following address:

To F. D. Tappen, President Gallatin National Bank:

"In presenting this record of fifty years, we extend to you our hearty congratulations upon a service no less noteworthy in its character than in its duration-extending over a period of half a century.

"The quick perception, sound judgment and undaunted courage displayed by you in times of extreme financial peril have been of inestimable value to the institution with which you have been so long connected, and have called you to wider fields of influence in which you have won a reputation second to none.

"We appreciate the privilege of being associated with you in our various capacities, and in affixing our signatures hereto express the earnest wish that the years to come may bring to you blessings in the same liberal measure as your generous, unselfish life has brought to others. November 12, 1900."

In addition to the above there was a record of the various positions which Mr. Tappen has held in the bank, from that of specie clerk, November 12, 1850, to President July 1, 1868, including the positions of individual bookkeeper, May 6,1851; general bookkeeper, April 15, 1853; receiving teller, June 23, 1854; paying teller, December 5, 1854; Assistant Cashier, October 20, 1857, and Cashier, October 21, 1857. His promotions it will be observed were rapid, indicating marked efficiency and prompt recognition of his ability. His advancement to the responsible position of Cashier within one day of his appointment to the Assistant Cashiership occurred during the height of the panic of 1857, which it may be noted was directly caused by the failure of the Ohio Life Insurance & Trust Company in the previous August,

Not only has Mr. Tappen efficiently served his bank during the half century, but he has been of invaluable service to the banking institutions and the financial interests of this city through his active connection with the New York Clearing-House Association, and especially during the various crises from 1873 to and including 1893. Indeed, Mr. Tap pen may be said to have taken a leading part in inaugurating the measures which were adopted by the Clearing-House banks during these crises for the amelioration of the effects of the panics through the issue of Clearing-House loan certificates. Since 1869 he has been for fourteen terms a member, and for five terms Chairman, of the Clearing House Committee, and for four terms President of the Clearing-House Association. It will be remembered that in Novemher 1893 after the panic of that year Mr. Tappen was presented by the Clearing-House Association with a silver tankard which had, in 1696, been presented by the directors of the Bank of England to its Governor, Sir John Houbson, Lord Mayor of London, "in token of his great ability, industry and strict uprightness at a time of extreme difficulty,"which inscription was appropriately repeated on the tankard on its presentation to Mr. Tappen. That testimonial marked the esteem in which the recipient was held by his associates in the Clearing-House. The testimonial which Mr. Tappen received on Monday will be as highly prized by him, as a gift from his associates and subordinates in the institution with which he has been identified during his entire banking

gold loan of the city of Cologne, Germany. The amount of this issue is 21,000,000 marks, making the total debt of the city 64,328,542 marks. Interest is payable April and October, and the bonds are subject to call after December 31, 1905, one and a-half per cent to be drawn each year through a sinking fund until the loan is extinguished.

-On Monday James H. Hyde, First Vice-President of the Equitable Life Assurance Society, Dr. J. H. Parker and William Haigh were elected directors of the Washington Bank. This is a State institution, located at the corner of One Hundred and Forty-eighth Street and Third Avenue, having a capital of \$100,000 and a paid-in surplus of \$25,000, and it began business, as was noted in this column, on August 1 this year. The President is Frederick L. Eldridge, First Vice-President of the Knickerbocker Trust Co.; the Vice-President is Valentine P. Snyder, President of the Western National Bank, and the Cashier is John Bambey. Directors, in addition to those above named, are Henry M. Alexander, Charles T. Barney, President Knickerbocker Trust Co.; John J. Barry, Frederick L. Eldridge, A. Foster Higgins, Valentine P. Snyder, Oakleigh Thorne and William H. Zeltner. The bank clears through the Western National.

-The enormous business on the New York Stock Exchange on Monday, amounting to 1,668,250 shares, the highest ever recorded, and to \$5,335,000 of bonds, par value, was reflected in the exchanges at the Clearing House on the following day, when the total exchanges were \$338,333,507, as against \$352,882,567, the greatest on record, on April 11, 1899.

-The annual meeting of Group viii. of the New York State Bankers' Association, embracing New York City banks, convened at the Clearing House on Tuesday and elected the following officers: A. C. Barnes, Chairman; E. S. Schenck, Secretary, and W. H. Perkins, Stephen Baker, Gates W. McGarrah, A. H. Wiggin and C. H. Fancher Executive Committee.

-The vacancies in the board of trustees of the New York Life Insurance Co. caused by the death of Edward N. Gibbs and William L. Strong will be filled by the election of James Stillman and Alexander E. Orr.

-The Euclid Avenue Trust & Savings Company on Monday of this week moved into their new and handsome offices at 84 and 86 Euclid Avenue, Cleveland. The officers of the company are: President, H. C. Brainerd; Vice-Presidents, Rollin C. White and R. A. Harman; Treasurer, C. H. Stewart, and Assistant Treasurer, A. G. Tame.

—The Missouri Trust Company, formerly of Sedalia, Mo., but which has been re-incorporated as a St. Louis institution, with a capital of \$500,000 and a surplus of \$125,000, has the present month been opened for business. Mr. O. A. Crandall, who was President of the old company, is also the President of the new concern. Mr. G. L. Faulhaber continues as Treasurer. Mr. John C. Wilkinson is First Vice-President and Secretary, Henry W. Harris Second Vice-President and J. A. Webb Counsel and Trust Officer.

-The stockholders of the Metropolitan National Bank of Cleveland, to which allusion was made in these columns in our issue of Oct. 20, have elected directors of the institution. The Directors have in turn elected Mr. J. J. Phillips President of the Bank, and Mr. Frank S. Bauder Cashier. The stock is \$500,000, and it is expected that the bank will be opened for business about the first of December.

-The annual meeting of the stockholders of the Colonial Trust Company of Philadelphia was held this week. The new Board of Directors unanimously re-elected John O. Gilmore President. Mr. William K. Haupt was elected Vice-President. The capital of the company is \$250,000.

Monetary? Commercial English Aews

[From our own correspondent.]

London, Saturday, Nomveber 3, 1900.

During the week there has been a fair amount of business in the American department, and the belief is very general that after the elections, if, as everybody here assumes to be almost certain, President McKinley wins, there will be a further considerable rise, and after the turn of the year business -Messrs. C. I. Hudson & Co. of this city are receiving advance subscriptions at 99½ to a new 4-per-cent public works will greatly brighten. In every department stagnation continues and is likely to continue for the remainder of the year. In the first place all the continental bourses are greatly depressed. They are selling whatever they can dispose of,

and presumably will do so for some time.

Amongst the well-informed the belief is general now that the liquidation in Germany has gone so far that all serious danger is ended. There have been many failures on a small scale and others may follow; but no large failure is anticipated. At the same time the fall in prices has been very great, the losses of operators have been on an immense scale, and there is a very great lock-up of capital. Still, serious danger is over, and gradually we may look for

improvement.

For some weeks past there has been some apprehension respecting events in Belgium and in Germany. Many of the newly-started banks have lost a large part of their capital, and the creation of industrial companies has been on too great a scale. Therefore the best informed have feared a considerable break. Fortunately the Paris Bourse has bought immense quantities of stocks of all kinds offered from Belglum, and the belief is now gaining ground that these purchases have so far relieved the situation that serious danger will be averted. Still, the position in Belgium is undoubtedly

critical, and will remain so for some time yet.

In France there has been very little speculation, although electrical companies of all kinds have been started on too great a scale and motor companies in particular have absorbed too much money; but the Paris market is well provided with funds, the savings of the country are on an enormous scale, and classes which have kept aloof from the electrical mania are now buying quite extensively. No serious difficulty is apprehended in Paris. In Sweden the difficulties are now buying the control of the country are on an enormous scale, and classes which have kept aloof from the electrical mania are now buying quite extensively. ficulties are great also; but the necessary accommodation will be obtained in Paris and London. In Russia, though the crisis continues, the most acute stage is past. In Austria-Hungary there is a very great depression, and in the Balkan countries there is also an unsatisfactory state of things.

In face of all this it is natural that there should be here at home much caution practiced, and that few should care to engage in new enterprise. Besides, the situation in China is so uncertain that no broadening of business is to be looked for; and unfortunately the military operations in South Africa do not promise to be brought very soon to an end. Indeed, for some little time past the Boers have become more active

and aggressive.

In the meantime, however, it is satisfactory to be able to state that trade generally in this country is perfectly sound and very prosperous, with the exception of the wool trade. At the end of last year there was an extravagant rise in the price of wool; but operators were chiefly Continental. Since the present year began, the prize of wool has been steadily going down, until now practically it has reached the lowest level of 1895-6. The losses amongst the Continental operators are on an enormous scale, and it is feared that further failures are inevitable. With that exception, however, trade is good, and it looks now as if we may expect soon a moderate decline in the price of coal. The great dearness of coal undoubtedly has been a disturbing element and a fall would

give great relief to all our industries.

There has been during the week a recovery in the rates, both of interest and discount. Last week short loans were done at such very low rates that serious apprehension began to arise that gold would be taken away in convenient amounts. The Bank of England will begin to borrow, and the other banks say that it would be unwise to continue at the old rates. There has been a recovery, therefore, both in interest and discount; but there is still much apprehension. The Paris exchange upon London has fallen almost to the point at which it would pay to take gold, and the belief is very general in Paris that it will go lower. If so, a considerable amount of gold is likely to be shipped to Paris, and unless the Bank of England is able to maintain control of the outside market and to raise rates here so much that it will be profitable for the great French bankers to employ their money here rather than in Paris, the Bank of England's reserve may be seriously reduced.

There is not as much fear as there was of large amounts of gold going to New York. The demand for gold in the open market has fallen off and it is thought probable that few other countries are able to take the metal. Regarding the action of the Russian Government there is great uncertainty. When it failed to obtain loans in Paris and New York the impression was very general in Western Europe that the Russian Government would have to send considerable amounts of gold both to Paris and London; but so far it has not done so. At the same time, the Russian Treasury keeps all its movements so secret that it is impossible to say what may happen, and the best opinion still is that Russia will

have to send to Paris considerable amounts.

The steady fall in the Paris exchange upon London is exciting a good deal of surprise. The discount rate in Paris at present is about 3 per cent; in London it is about 334 per cent; and therefore it would seem to be more profitable to employ money here than to take it to Paris. The answer generally given by those best acquainted with the Paris market is that the great Paris banks already hold such large amounts of British bills that they do not care to invest more of their money in such bills. No doubt their action will change if the Bank of England acts promptly and raises the rate sufficiently to make it very profitable to employ funds

The India Council continues to sell its drafts successfully.

tions exceeded 800 lacs. The whole amount offered for tender was alloted at about 1s. 3 15-16d, per rupee. Subsequently the Council sold a small amount by special contract at 1s. 3 31-32d. per rupee.

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols, &c.

Messrs. Pixley & Abell write as follows under date of

Nov. 1:

Gold—The demand for bar gold in the open market has not been quite so active, but has sufficed to absorb all arrivals, chiefly on Paris account. In addition to the ordinary supply, £500,000 consigned to the Bank of England on account of the Indian Currency Department has been received here and taken for export. The withdrawals from the Bank amount to £245,000, of which £115,000 is in sovereigns for Egypt. Arrivals: Australia, £32,000; Chili. £1,000; Vera Cruz, £22,000; India, £500,000 Total, £605,000. Shipments nil.

Silver—The market gradually receded on the withdrawal of the Indian Government support until as low as 29¹¹116 d. was reached. At this price there was a good inquiry for forward delivery, and we have subsequently rallied to 29%a., with India slightly under our rates. The market closes steady. The last Indian price is Rs. 76½ per 100 tolahs. Arrivals: New York, £239,000; Chili, £10,000; Australia, £18,000. Total, £267,000. Shipments: Bombay, £135,500; Shanghal, £40,000. Total, £173,500.

Mexican Dollars—These coin are still following the course of silver at 581 difference in price. Shipments: China and the Straits, £67,500.

Investment and Kailroad Intelligence.

RAILROAD EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns on be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from January 1 to and including such latest week or month.

The returns of the street railways are brought together separately on a subsequent page.

| Minorscheme | | Latest (| Gross Earn | ings. | Jan. 1 to 1 | Latest Date. | | Latest | Gross Ear | nings. | Jan. 1 to I | atest Date. |

^{*} Figures for October are for the railroad only. † Mexican currency. § Covers results of lines directly operated east of Pittsburg. † Includes Chesapeake & Ohio So'western, Ohio Valley and Chicago and Texas for both years.

a Includes Paducah & Memphis Division from July 1 in both years.

b Does not include the Austin & Northwestern, the San Antonio & Aransas Pass or Houston & Texas Central system.

c Results on Montgomery Division are included in 1900. from Jan. 1 and in 1899 after July 1.

d Includes St. Paul & Duluth from July 1, 1900. • Anthracite coal miners strike this year.

Latest Gross Earnings by Weeks.—The latest weekly earnings in the foregoing are separately summed up as follows:
For the first week of November our statement covers 62 roads and these show 0.07 per cent increase in the aggregate over the same week last year.

Net Earnings Monthly to Latest Dates.—The table following shows the gross and net earnings of STEAM railroads reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the CHRONICLE of October 20, 1900. The next will appear in the issue of Nov. 24, 1900.

- a Net earnings here given are after deducting taxes.
- b Net e srnings here given are before deducting taxes.

c Deducting other expenditures for repairs, replacements and general expenses, net income applicable to interest on bonds in September was \$110,622, against \$112,009 last year, and from Jan. 1 to Sept. 30 \$1,171,880, against \$1,142,477. This is the result in Mexican dollars treated (according to the company's method of keeping its accounts) as equivalent to 80 cents in United States money—that is, depreciation beyond 20 per cent has already been allowed for.

Increase in expenses in September due to track repairs.

Interest Charges and Surplus.—The following roads, in addition to their gross and net earnings given in the foregoing, also report charges for interest, &c., with the surplus above or deficit below those charges.

| above or dencit below those charges. | | | | | |

STREET RAILWAYS AND TRACTION COMPANIES.

The following table shows the gross earnings for the latest period of all STREET railways from which we are able to obtain weekly or monthly returns. The arrangement of the table is the same as that for the steam roads—that is, the first two columns of figures give the gross earnings for the

latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

Street Railway Net Earnings.—The following table gives the returns of Street railway gross and net earnings received this week. In reporting these net earnings for the street railways, we adopt the same plan as that for the steam roads—that is, we print each week all the returns received that week, but once a month (on the third or the fourth Saturday), we bring together all the roads furnishing returns, and the latest statement of this kind will be found in the Chronicle of October 20, 1900. The next will appear in the issue of November 24, 1900.

ANNUAL REPORTS.

Pittsburg & Western Railway.

(Report for fiscal year ended June 30, 1900.)

Earnings.—The results of the year are very gratifying. They are due to the policy which has been pursued for the past five years in double-tracking a great part of the lines, increasing the weight of rail in track, improving and adding to the locomotive and car equipment, filling wooden trestles and converting them into permanent readway, cutting down grades and eliminating curves, all of which has brought about a decrease in the cost of operation and has allowed an increase in train load, thereby increasing net earnings. The percentage of expenses to earnings compares favorably with that of other roads more advantageously located as to grades.

percentage of expenses to earnings compares favorably with that of other roads more advantageously located as to grades.

Compared with the previous year the gross earnings increased 15.86 per cent and the net earnings increased 24.42 per cent. President Thomas M. King says in substance:

Improvements.—The principal improvements made during

the year were:

[†] Strike in Cleveland in 1899.

‡ Strike in August, 1899.

[§] These are results for properties owned

b Net earnings here given are before deducting taxes.
‡ Strike in 1899.

The widening and arching with brick of tunnel No. 2, 200 feet in length, near Glenshaw, and preparing it for double track; also the changing of tunnel No. 3 to an open cut, which will be completed

The Ribold cut-off, the remodeling of the Butler branch and the re-The Ribold cut-off, the remodeling of the Butler branch and the relocation and improvements near Chewton were completed. The Chewton re-location is very important, as the grade for 4.92 miles was reduced from a 90-foot compensated grade to an 18-foot grade, and it has effected a great economy in cost of train service. The widening of the gauge of the track between Butler and Foxburg, on the Northern Division, has been finished as to grading and cross-ties, and it is expected will be completed about Nov. 15. This change will reduce the narrow-gauge mileage 30 miles.

On the Pittsburg Cleveland & Toledo Railway second track has been completed between Struthers and Girard and between Akron Junction and Cuyahoga Falls.

Contract.—The contract entered into with the Buffalo Rochester & Pittsburg Railway Co., referred to in last annual report, went into force Nov. 1, 1899, and has been working satisfactorily. It is of great benefit to this company in rent als for use of its line and in the fact that the construction of

a competitive railroad was prevented.

Statistics.—In 1899-1900 the gross earnings per mile for the entire system were \$11,045; net earnings per mile, \$3,853. Average number of tons per freight-train mile on standard-gauge lines (entire system) was 477 in 1899-1900, against 419 in 1897-98; average revenue per mile of freight train, \$2 45, against \$1 86 in 1897-98. The cost of maintenance, as charged per mile of road, including all additions and betterments that were charged to expenses, was as follows:

Pittsburg & Westerr, main division, \$2,091; Pittsburg & Western, narrow-gauge division, \$584; Pittsburg Cleveland & Toledo, Western Division, \$1,608; Pittsburg Palnesville & Fairport, Lake Division, \$1,140; total all divisions, \$1,277.

The charge to expenses includes \$40,454 for work of the nature of improvements or betterments.

Earnings.—Including the leased lines, 339 miles in all, re-

sults have been as follows:

| | Gross | Net earn. & | Interest | | ı |
|--------|-------------|-------------|-------------|----------------|---|
| Year. | earnings. | mis.income. | and taxes. | Balance. | ı |

Manhattan Railway.

(Report for the year ending Sept. 30, 1900.)

At the annual meeting on Wednesday President George J. Gould said:

"The report shows the satisfactory growth and results of the company's business. The electrical installation is making excellent progress. The heaviest work at main power station at East 74th Street is completed and the superstructure is being rapidly erected in anticipation of the first arrivals of machinery, due for delivery next month. The first elecof machinery, due for delivery next month. The first electric train is completely equipped, and, through the courtesy of the officials of the Metropolitan Street Railway Co. in furnishing us with the necessary power, it will be put in operation on our Second Avenue line without delay. The company's general improvements and enlargement of facilities other than the change of motive power will begin to produce results in the very near future. The first stretch of the Fordham extension beyond Tremont will be ready for the Fordham extension beyond Tremont will be ready for trains in a few days, giving entrance to the new yard on 180th St., with capacity for 325 cars. The new line from this point to Fordham will be finished early in January.

"Our plans contemplate the extension of express service from 84th to 129th St., on Third Avenue line, materially shortening the running time of express trains between Harlem and the lower part of the city. This improvement we expect to put into effect within the next thirty days. Generally, I may say that the outlook for the Manhattan system is most encouraging."

American Malting Company.

(Report of Committee for year ended Aug. 31, 1900.)

Robert P. Gallaway, J. P. Ord and Frederick Uhlmann, the committee appointed Jan. 17, 1900, which on March 5 last reported the results of its examination of the company's affairs, makes the following further report covering the entire fiscal year as changed to end Aug. 31:

GENERAL RESULTS.—Owing to economies introduced and a change of business methods, the company for the year earned not only the interest on its bonded indebtedness but a small profit—namely, \$123.000. This profit remained after deducting \$69,000 for bad and doubtful debts largely incurred in previous years. It has also been deemed prudent to set aside \$100,000 out of this profit as a reserve fund to provide for possible losses on old contracts.

This result should be fairly satisfactory when it is considered that the year was one of liquidation and readjustment. The net profits of the company were also affected by the fact that in competition with others during the summer and early fall of 1899 it sold considerable malt at prices based on the then prevailing low price of barley; but as the price of barley rose before the company was put in funds (by the sale of its bonds) to make purchases, these transactions resulted in loss or diminished profit.

as the prices of barley rose before the company was put in funds (by the sale of its bonds) to make purchases, these transactions resulted in loss or diminished profit.

Assetzs.—All asset items that are not in fact working capital have been charged to plant and good-will account. The book accounts and notes due the company are believed to be worth their present book value. The inventories of grain and merchandise are based on actual weights; the inventoried value of the malt on hand is cost price and below market value. Although all this malt has been sold for future delivery, no anticipated profit is taken into account. The profit, if any, to be realized, will show during the current year.

Bonds.—Present Status.—The company begins its current year with \$4,620,500 of working capital, consisting of cash, notes and accounts receivable, inventories, etc. In November, 1899, a financial plan involving the mortgaging of the real estate of the company for \$5,000,000 was effected, under which \$4,000,000 general first mortgage 6 per cent bonds were sold, netting the company \$3,600,000 in cash. The prior lien real estate mortgages of \$371,000 have been diminished by \$65,000 during October, 1900. Exclusive of said mortgages and \$4,000,000 bonds issued, the entire indebtedness Aug. 31, 1900, was less than \$90,000. The \$4,000,000 bonds will not largely increase the interest charges, for the reason that now the working capital of the company is ample it need borrow money only to a limited amount during the three or four months of the barley-buying season, whereas during the period prior to the making of the mortgage the or mpany was burdened with a large continuing floating indebtedness, which of course was subject to heavy interest charges.

The administrative expenses have been reduced by not less than \$100,000 per annum, and it is believed that further savings can be effected. It has been the policy to close down badly located and small plants and manufacture only in the large and well-equipped malt-houses, operating th

Competition continues to be active and aggressive. Your company, however, has a considerable advantage over its competitors by the ownership and control of numerous grain elevators located in the best barley growing sections, by means of which it is enabled to purchase a large proportion of its requirements of choice barley direct than the control of the control o from the grower and save the commission or profit usually paid to dealers. That the company now has the confidence and good-will of -V.71, p. 604.

the brewing trade is manifested by the orders already received for the current season.

REDUCTION OF CAPITAL STOCK.—This committee recommends that the capital stock be readjusted and reduced to an amount commensurate with the value of the property, determined with due reference to its probable future business and its present physical condition.

GENERAL INVESTMENT NEWS.

RAILROADS, INCLUDING STREET ROADS.

Alamo Heights Street Railway of San Antonio, Texas.— Sold.—On Nov. 8 this property was sold, under order of the Thirty-seventh District Court, to Otto Koehler, President of the San Antonio Brewing Association.

American Railways Co.—First Dividend.—The company has declared its first dividend, 1 per cent, payable Dec. 15, 1900, to stockholders of record Dec. 1. The earnings for the quarter ended Sept. 30 are stated as \$69,000; the dividend calls for \$37,500. A director says:

The net earnings for the quarter were nearly twice the amount of the dividend. Out of these, in addition to the dividend, comes the operating expenses of the American Railways Co., which as a proprietary company amount to a small sum. The company, therefore, lays away as surplus very nearly as many dollars as it pays out in the dividends this quarter. The dividend action may be taken to indicate that it will be our purpose to add steadily to our surplus account, to which \$90,000 was credited last year, and that the policy will be such as to insure the permanency of dividends, now that they have been commenced.—V. 71, p. 491, 287.

Atchican Tapata & Santa Fo Pailway New Directors

tchison Topeka & Santa Fe Railway.—New Directors. -The following new directors have been elected: Howell Jones, of Topeka, Kan., to succeed C. K. Holliday. deceased; John G. McCullough, of New York, to succeed Edward N. Gibbs, deceased; Bryon L. Smith, of Chicago, in place of William Rotch, resigned.—V. 71, p. 963.

Atlanta (Ga.) Railway & Power Co.—Relations with Rapid Transit Co.—Electric Light Plant.—An officer of the company writes as follows under date of Nov. 14, calling attention to several points in which he thinks the statement published in our issue of Nov. 10, page 963, regarding the Atlanta Rapid Transit Co., is misleading:

Atlanta Rapid Transit Co., is misleading:

About 6 miles of streets which were granted to the Atlanta Rapid Transit Co. had been granted to the Atlanta Railway Co. (now a part of the Atlanta Railway & Power Co.) in 1838, and the Atlanta Railway Co. bnilt these lines, thereby excluding the Atlanta Rapid Transit Co. from these streets, except for a distance of two blocks. At only two points has the Atlanta Rapid Transit Co. so far succeeded in operating its cars over the tracks of the Atlanta Railway & Power Co. At the three other places where they have sought to condemn, they have beee held up by the courts, and are only now about succeeding in obtaining consent from the Atlanta Railway & Power Co. to go ahead and put in connecting switches and frogs. The agreement, if finally consummated to-day or to-morrow, will be a compromise by which the Atlanta Railway & Power Co. will secure the use of certain tracks and special work to be installed by the Atlanta Rapid Transit Co., and the Rapid Transit Co. and the Georgia Electric Light Co. will also withdraw all opposition to the granting of a franchise for the Atlanta Railway & Power Co. to do a general lighting and power business.

This companyls just completing a modern station in the centre of the city from which it intends to furnish light and power at the minimum cost. All of its coal will be delivered direct by the steam railroads, and will be handled by machinery from the time it leaves the mines until it is dumped into the ash bank. Our proposition to do a lighting business is what brought forth, a year ago, the effort of the Georgia Electric Light Co. to promote the extension of the lines of the Atlanta Rapid Transit Co. It seems that the scheme did not work, and that the Atlanta Rallway & Power Co. will now go ahead, under the new municipal administration recently elected, and install its much needed electric-lighting plant.—V. 71, p. 287, 181.

Atlanta Rapid Transit Co.—See Atlanta Railway & Power Co. where V. 71, p. 268, 181

Atlanta Rapid Transit Co.—See Atlanta Railway & Power Co. above.—V. 71, p. 963, 181.

Arkansas & Oklahoma RR.—Purchased.—See St. Lonis & San Francisco RR. below.—V. 70, p. 632.

Brooklyn Heights RR.-Quarterly.—Earnings for the quarter ending Sept. 30, covering the operations of lessor companies (the results of the Kings County Elevated 1 eing included in 1900 but not in 1899), were:

Chicago & Alton Railway.—Rights of Preferred Stock.— The rights of the common and preferred stocks are given on

Dividends.—The directors have decided that dividends when earned shall be paid in January and July. The first dividend, therefore, on the preferred stock, it is thought, may be declared the last of this month. The first

Listed.—The New York Stock Exchange has listed \$17,433, 2000 of the \$31,988,000 Chicago & Alton Railroad 3 per cent refunding mortgage gold bonds of 1949; also Chicago & Alton Railway securities as follows: \$22,000,000 3½ per cent first lien gold bonds of 1950, \$19,544,000 4 per cent non-cumulative preferred stock, and \$19,542,800 common stock. Full details regarding the securities of the new company are given at length in the official statement made to the New York Stock length in the official statement made to the New York Stock Exchange, which may be found on pages 1021 and 1022.

The remaining \$14,555,000 of the \$31,988,000 Chicago & Alton RR. refunding bonds have been sold by the railroad company, but have been deposited by the purchasers with the United States Trust Co. of New York, and against them negotiable receipts have been issued in the denomination of \$1,000 each, representing the face value of a bond. The receipts provide that all or any part of the deposited bonds are subject to sale until July 1, 1901, at the price of 95 per cent and accrued interest.—V. 71, p. 862, 808.

Chicago & North Western Ry .- New Line .- The Peoria & Northwestern Railway Co. has been incorporated to build a road from Peoria, Ill., northerly, through the counties of Peoria, Marshall, Stark, Bureau, Whiteside and Lee, to a point on the Chicago & North Western Railway near Nelson, in Lee County, a distance of 84 miles. The officers are identified with the Chicago & North Western.—V. 71, p. 602, 340.

Chicago City Ry.—Stock to Retire Bonds.—The company, it is stated, will retire its \$4,619,500 41/2 per cent bonds due July 1, 1901, by an issue of stock to be offered to shareholders at par.—V. 71, p. 602.

Cincinnati Hamilton & Dayton Railway.—Refunding Bonds-Sale of First Mortgage Treasury Bonds.—The stock-holders will vote Dec. 11 upon the question of empowering the board of directors as follows:

a. To provide for refunding all the maturing indebtedness of this company and as far as practicable to arrange for convering the fixed obligations of this company, under leases of other railways, guarantees, etc., into refunding bonds, bearing a rate of interest not exceeding 4 per cent per annum.

b. To arrange for a reduction of interest upon the \$1,200,000 first mortgage Cincinnati Dayton & Chicago bonds, now in the treasury, from 5 per cent to 4 per cent per annum and to sell and deliver the said bonds.

from 5 per cent to 4 per cent per annum and to sell and deliver the said bonds.

c. To sell such refunding bonds as said board of directors may find it expedient to issue to refund the obligations of this company.

d. To use the proceeds of such sale or sales to pay, redeem or refund the debts or obligations assumed or created by this company or either of its predecessor or constituent companies; to purchase any railroad held under lease or operating contract; to acquire any stocks or bonds or any railroad held under lease or operating contract; to acquire any bonds, notes or other obligations of any railroad; to extend, improve or maintain the railroad of this company, to construct branch lines, to lay double or additional track, to increase the machinery or rolling stock, to build depots, elevators, shops, and generally for any purpose needed in its business.

e. To execute a mortgage or pledge of the real and personal property of this company and its franchises, for the purpose of securing the said refunding bonds.—V. 71, p. 806, 751.

East Side Ry of Portland Ore—Sale Dec. 8.—The fore-

East Side Ry. of Portland, Ore.—Sale Dec. 8.—The foreclosure sale is advertised for Dec. 8; upset price \$250,000.— V. 69, p. 283.

Franchise Tax Law.—Decision.—The Appellate Division of the Supreme Court, Third Department, Justice Kellogg writing the opinion, on Wednesday unanimously reversed the order dismissing the writ of certiorari obtained by the New York & Queens County Railway to review the valuation placed on its special franchise by the State Board of Tax Commissioners. The right to review the assessment, it was claimed, was lost by failure to comply with Section 45 which requires reports to be filed within thirty days (i.e. on or before Oct 1 1800) the report in this assessment. (i. e. on or before Oct. 1, 1899), the report in this case not having been filed by the company until April last. The Attorney-General, it is reported, will abide by the decision, thus making the principle one of general application.—V. 68, p. 1024.

Keokuk & Western RR.—Sale Authorized.—The stockholders on Nov. 10 voted unanimously to sell the property and franchises of the road to the Chicago Burlington & Quincy RR., which bought a majority of the stock last year.

-V. 71, p. 697.

Kings County Elevated RR.—Listed.—The New York Stock Exchange has listed the company's \$7,000,000 first mortgage 4 per cent gold bonds of 1949.—V. 69, p. 1148.

Lake Shore & Michigan Southern Ry.—Quarterly—Earnings for the quarter and the nine months ending Sept. 30 were:

Marletta Columbus & Cleveland RR.-Successor Company.—This company on Nov. 1 took over the property of the Toledo & Ohio Central Extension RR., fcreclosed. The the Toledo & Ohio Central Extension RR., fcreclosed. The company was incorporated in Ohio on Oct. 23, with \$250,000 capital stock. The officers are: President, H. H. Isham; Vice President and Treasure, H. A. Clare; Secretary and General Manager, Robert H. England.—V. 71, p. 810.

Massachusetts Electric Companies .- Lease and Consolidation of Controlled Lines.—The Massachussetis Railroad

Commission has authorized the lease of the Nashua Street Ry. to the Lowell & Suburban Street Ry. and the consolidation of the Lowell & Suburban Street Ry. with the Lowell Lawrence & Haverhill St. Ry.; also the issue by the last-named company of \$1,200,000 additional stock in exchange for the stock of the Lowell & Suburban, share for share; also the issue by its Brockton St. Ry. Co. of \$363,600 additional stock to fund its floating indebtedness incurred in construction and for the purchase of real and personal property. The Brockton Company's stock is to be offered to stockholders at \$110 per share.—V. 71, p. 964, 863.

McKeesport Wilmerding & Duquesne St. Ry.—Acquisi tion. - The company has acquired control of the Youghiog. heny Valley Traction Co., making a through line from Pittsburg to Buena Vista, a distance of 21 miles, with one change of cars at McKeesport.-V. 66, p. 900.

Michigan Central RR.—Taxation.—At the election held on Nov. 6 the constitutional amendment providing for the appointment of a State board of Assessors was adopted by a large majority. See V. 71, p. 864.

Mobile & Birmingham RR.—Listed.—The New York Stock Exchange has listed the company's \$900,000 preferred stock. The voting power on this stock has been assigned irrevocably during the term of the lease to the Southern Railway Co.—V. 68, p. 1134.

Mobile & Dauphin Island RR. & Harbor Co.—Notice to Bondholders.—Notice is given to the holders of the bonds issued by the company under its first mortgage of Aug. 1, 1888, to the Central Trust Company of New York, that in pursuance of the decree rendered Oct. 26, 1900, the bonds should be filed with Chas. K. Holt, the Register of the Chancery Court at Mobile, Ala., with affidavit or other proof as to ownership, on or before March 1, 1901. See Investors' SUPPLEMENT for March, 1892

New York New Haven & Hartford RR.—Quarterly.— Earnings for the quarter ending Sept. 30 were:

3 mos. ending Gross Net Other Interest, Balance, Sept. 30. Earnings. Earnings. Income. taxes, etc. Surplus 1900......\$10,389,506 \$3,759,493 \$44,023 \$2,012,835 \$1,790,681 1899...... 10,693,981 4,355,726 40,992 1,957,158 2,439,560 -V. 71, p. 643,646.

New York Untario & Western Ry.—Quarterly.—Earnings for the quarter ending Sept. 3) were:

3 mos. end. Gross Net Sept. 30. Earnings. Earnings. 1900....\$1,357,855 \$512,375 1899.....1,385,912 558,044 Balance, Other Interest. Income. \$66,715 69,933 taxes, etc \$285,669 288,247 Surplus, \$293,421 339,730

Coal Properties .- The company has arranged with Kuhn, Loeb & Co. to finance the acquisition, now pending, of a number of important independent coal properties in the anthracite region in Pennsylvania, among them the collieries of the Mount Pleasant Coal Co., which has been one of the active supporters of the project for a new independent coal railroad to tide-water. These acquisitions, we are informed, will increase the coal tonnage of the Ontario & Western about 30 per cent; according to unofficial reports they will increase its ownership of anthracite to about 50,000,000 tons, with a minimum output of 2,000,000 tons a year. In addition, it is said, the company receives annually from individual operators about 500,000 tons of coal.

Issue of Notes.—To pay for the aforesaid properties the company is proposing to issue its 5 per cent notes dated Dec. 1, 1900, and due in semi-annual instalments from 1901 to 1915. The following is stated to be substantially correct:

These notes are part of a total of \$3,500,000 secured by a first lien upon the properties of the New York & Scranton Coal Co., the Johnson Coal Co., the Raymond Coal Co., the Mount Pleasant Coal Co. and the Elkhill Coal Co. These properties contain about 27 million tons of coal, of which 23 million tons are under law royalty and 4 million tons in fee simple. The cash cost to the New York Ontario & Western of the properties on which the \$3,500,000 notes are a first mortgage has been \$6,200,000. The notes will contain a stipulation that if any additional mortgage shall be made upon the railroad properties of the New York Ontario & Western, upon which the refunding 4 per cent bonds are now the only lien, these notes shall be secured pari passu with any such additional obligations.—V. 71, p. 542, 556.

59, 77, 158, 168, 176, 225 and 245, and will be redeemed by the Central Trust Co., trustee, at its office No. 54 Wall Street, New York, at \$1,050 per bond, on Dec. 1, 1900, at which date interest will cease on the above bonds.—V. 71, p. 808.

Northern Pacific Railway.—Voting Trust to be Dissolved Jan. 1.—The voting trustees, in the exercise of their discretionary powers reserved by the voting trust agreement, have resolved that certificates for stock shall be delivered in exchange for the stock trust certificates at any time after Jan. 2, 1901, and prior to Nov. 1, 1901. The report of the

voting trustees is on pages 1016 and 1017.

Rumors Denied.—It is authoritatively denied that there are to be any changes in capitalization or a formal alliance with the Great Northern. The harmonious relations existing with the latter company, it is said, have been brought about in the same manner that permanently amicable relations have been established by the anti-project coal-carrying comhave been established by the anthracite coal-carrying companies; that is, by a community of interests on the part of the larger investors in both properties.—V. 71, p. 964, 693.

Ottawa (III.) Railway, Light & Power Co.—Bonds Offered.
—E. H. Rollins & Sons of Boston are offering for sale the \$150,000 first mortgage 5s of 1899 at 101 and accrued interest. The gross income of the property for the year ended Aug. 1,

1900, is reported as \$39,193; operating expenses, \$25,769; net earnings, \$13,424.

Pennsylvania RR.—New Equipment.—The company let contracts this week for 2,400 freight cars, making, it is stated, 5,400 cars contracted for within two weeks, including 3,000 pressed steel hopper coal cars of 100,000 pounds capacity. This week's order is distributed as follows:

500 gondola cars, of 80,000 pounds capacity, Allison Manufacturing Company, of Philadelphia; 500 similar cars Pullman Company; 700 box cars, of 80,000 pounds capacity, Barney & Smith Co., of Dayton, O.; 700 similar cars, the Illinois Car & Equipment Co, of Chicago.

Bids for 1 000 flat cars have been received but at last accounts have not yet been placed.—V. 71, p. 914, 864.

Perkiomen RR.—Increase of Stock—The stockholders will vote Jan. 14 on a proposal to increase the capital stock from \$50,000 to \$1,500,00). The road is controlled by the Reading through stock ownership.

Pittsburg Shawmut & Northern RR.—New Construction. -The contract has been let for building the line from Angelica to Bolivar, 26 miles. The completion of this link will give the Pittsburg Shawmut & Northern a through line 228 miles in length from the bituminous coal fields in E'k County, Pa., north to Wayland, N. Y., on the Erie RR. - V. 70, p. 1095.

Railways Company General.—Earnings.—The earnings for the first four months ending Oct. 31 were: Gross, \$93,605; net, \$43.052; interest on investments, \$3,333; total net income, \$46.385.—V. 71, p. 911, 273.

St. Louis & San Francisco RR.—Purchase.—The company has bought the Arkansas & Oklahoma RR., a new line in operation from Rogers, Ark., to Southwest City, Mo., 36 miles, and under construction to Grand River, Ind., 16 miles additional.—V. 71, p. 809.

Sharon-Youngstown Consolidation.—Report Confirmed.— Penhale & Fisher of 20 Broad Street state that they are arranging the consolidation of the following properties:

Kaeroher Electric Light & Power Co., Sharon Electric Light & Gas Co., Sharpsvilie Electric Light Co., Youngstown Gas & Electric Light Co., Shenango Gas Lighting Co., Sharon-Sharpsville Street Railway Railway Co., South Sharon Street Railway Co., Youngstown-Sharon Street Railway Co.

Southern Pacific Co.—Purchase of Pacific Mail SS. Co. -After a meeting on Tuesday the directors authorized the

following statement:

"The board approved the purchase through Speyer & Co. of the majority of the capital stock of the Pacific Mail Steamship Co. and accepted the proposition of Messrs. Speyer & Co. to purchase \$10,000,000 of 2-5 years 4½ per cent gold bonds of the Southern Pacific Co secured by the control of the Pacific Mail Steamship Co. and by stocks and bonds of other companies, most of which have been acquired during the last five years, during which period upwards of \$20,000,-000 of income has been applied to purchases of railroad properties and other capital items."—V. 71, p. 914, 864.

Toledo & Ohlo Central Extension RR.—See Marietta Columbus & Cleveland.—V. 71, p. 810.

Union Traction Co. of Indiana.—Bonds Offered—Description of Property.—Of the \$3,940,000 outstanding first mortgage 5 per cent gold bonds, all except \$500,000 have been sold, and this balance is now offered by Dick Brothers & Co. of Philadelphia at par and interest. These bonds are dated July 1, 1899, and due July 1, 1919. A circular issued by Dick Brothers & Co. gives the following:

Capitalization-Stock, \$4,000,000; bonds outstanding, \$3,940,000; held by trustee to retire underlying bonds, \$800,000; held by trustee for acquisition of new property, \$260,000; total bonds authorized, \$5,000,000.

*Includes also Marion City Railway June 19 to June 30, 1899, both inclusive.

*Includes also Marion City Railway June 19 to June 30, 1899, both inclusive. The road from Anderson to Muncie, and the end of the line running into Indianapolis (49 40 miles in length), was not in operation in 1899 00, and the company did not receive any income from over one-third of its mileage. The property is expected to be in full operation (136 04 miles of main line) by the 15th of November.

Bonds.—This issue of bonds is secured by a first mortgage upon 136 04 miles of main line, subject only to \$800,000 of prior lien bonds (covering 54 98 miles); an equal amount of the Union Traction Company's first!5s being held in esero w to retire the same. This mortgage covers all property, real and personal, franchises, contracts, rights of way and equipment. All of the franchises have a life longer than the date of maturity of the bonds. The average life of all the franchises is over sixty years, which is exceptional. There are also a number of grants which are perpetual.

Territory and Traffic.—This company is a consolidation of the Union Traction Co. of Anderson, the Muncie Anderson & Indianapolis Street Railway Co. oth Clitzens' Street Railway Co. of Muncle, the Marion City Railway Co. and I ew lines of Interurban roads connecting the city of Indianapolis with the following 24 towns and cities: Cities—Anderson, Alexandria, Elwood, Gas City, Muncie and Marion. Incorporated Towns—Franklin. Faitmount, Fortville, Ingalls, Jonesb ro, Middletown, Orestes, Pendleton and Summitville. Incorporated Villages—Affonte. Chesterfield, Daleville, Dundee, Lawrence, Linwood, McCordsville, Oaklandon and Yorktown. The lines traverse the richest manufacturing and agricultural section of the State. The population served is 150,000 to 175,000, and, including the city of Indianapolis, a total of 325,000. On the interurban lines a high rate of speed will be maintained, as the road is located almost entirely on private rights of way. At Indianapolis the cars of the company enter the city over the tracks of the Indianapolis Street

Railroad Co. to the centre of the city. The physical portion of the plant is believed to conform in all of its parts to the best type of modern Railway construction.

The officers are named in the STREET RAILWAY SUPPLE-MENT, page 7.—V. 69, p. 334.

INDUSTRIAL, GAS AND MISCELLANEOUS.

American Bridge Co.-New Plant.-The company has under consideration plans for the erection of a large bridge and structural steel plant at Pittsburg. The cost, it is currently reported, may exceed \$1,000,000.—V. 71, p. 86.

American Confectionery Co.—Stock Offered.—Frank F. Bell & Co. of Philadelphia are offering a limited amount of this company's \$1,000,000 capital stock, all common. An advertisement says:

The company was organized March 27, 1900, under the laws of Delaware, with its general offices in Boston, Mass., and Montpelier, Vt. The capital stock is divided into 1,000,000 shares, par \$1, full paid, non-assessable. The company was organized for the purpose of buying, selling and manufacturing a general line of confectionery and to purchase and operate retail confectionery stores. The following stores are now in operation in Boston: 65 Court 8t., 72 Cornhill, 1823 Washington St., 587 Massachusetts Ave., 96-98 Green St., Jamaica Plain District; 616-618 Blue Hill Ave., Dorchester District. It is expected the company will be able to pay quarterly dividends of 8 percent per annum.

cent per annum.

Directors.—W. A. Lane (President), Boston, Mass.; Hon, Jos. G. Brown (First Vice President), Montpelier, Vt.; D. B. Provan (Second Vice-President), Philadelphia; Hon. Geo. W. King (Secretary and Treasurer), Montpelier, Vt.; Hon. Chas. J. Bell, Walden, Vt.; B. L. Kent, Burlington, Vt.

Adams Express Co.—Extra Dividend.—The company on Wednesday declared the regular semi-annual dividend of \$2 per share from the earnings of the express business and an additional dividend of \$2 per share from the company's investments (see V. 66, p. 470). The board also voted to assure the shareholders that distributions of \$2 per share per annum from the income of investments will hereafter be justified. V. 66, p. 1235.

American Ice Co.—Report as to Boston Business.—An officer of the company was reported early in the week as saying that the company had secured control of the ice interests in Boston giving the American Co. 90 per cent of the business of the Atlantic seaboard cities. President Hopkins of the Boston Ice Co., however, is quoted as follows: "This is news to me. The American Ice Co. has not secured control of the Boston Ice Co. and I fail to see how it could control the ice interests in Boston without the Boston Ice Co."

New Jersey Ice Co.—Control of the company, it is understood, has passed to interests friendly to the American Ice Co., Oren Dennett, the new President being a director of that company.—V. 70, p. 1293.

American Lead & Baryta Co.-New Bonds.-This company has been organized under the laws of Delaware with a capital stock of \$10,000,000 and an authorized issue of \$1,250,-000 bonds, of which \$1,100,000 are to be sold for the purchase of 33,100 acres of land in Washington County, Missouri, and to develop the property on a large scale for zinc, baryta and timber. The Baltimore Trust & Guarantee Co. of Baltimore, Md., is the mortgage trustee, and is arranging for the underwriting of the bonds. J. O. Johnston. Guardian Trust Building, Baltimore, and Alfred S. Elliott. of Wilmington, Del., are said to be interested in promoting the enterprise.

American Linseed Co.—Dividend Passed.—The directors on Thursday adopted the following resolution, passing the

usual quarterly dividend of 134 p. c. upon the pref. stock:

Resolved, Whereas by reason of the operations of the company in purchase of flaxseed, there is now outstanding a very large amount of obligations, and

Whereas, In the opinion of the board, it is absolutely necessary, in connection with the proper financing of these obligations, that the net earnings of the company be applied to the liquidation and reduction of these obligations; therefore, be it

Resolved, That the quarterly dividend upon the preferred stock be

Apparently, therefore, the working capital of \$6,000,000 provided at the organization of the company in 1898.99 has been partly tied up in an effort to control the flaxseed crop, which it was erroneously thought by some was to be a short one. As the embarrassment of the predecessor company was largely due to its purchases of flaxseed, the impression that the present management has been engaged in similar ventures caused a large decline in the price of the company's stock. The company late on Thursday reduced the price of linseed oil for immediate delivery 10 cents a gallon, to 65 cents. Plans for raising several millions of working capital through sale of bonds or notes are said to be under consideration.—V. 71, p. 964, 810.

American Malting Co.—Reduction of Capital Stock.—See last paragraph of annual report on page 1011.—V. 71, p. 438.

American Shipbuilding Co.—Acquisition.—The company has purchased the Union Dry Dock Company's large plant at Buffalo, including the company's two dry docks, shipyards, contracts, etc, The consideration is said to be about \$1,000,-000.-V. 71, p. 493.

American Soda Fountain Co.—Dividend.—The company has declared a dividend of 3 per cent on the first preferred stock, payable Nov. 21 to stock of record Nov. 20. This is the first dividend since November, 1896. The accumulated dividends, after deducting this 3 per cent, aggregate 21 per cent on the first preferred and 32 per cent on the second preferred.-V. 69, p. 1060.

American Steamship Co. - Purchased. - See American Steel Wire Co. below.

American Steel & Wire Co.—Purchase of Steamshirs— The company, it is stated, has purchased for \$5,250 000 from the American Steamship Co. its twelve ships, including four vessels said to be the largest on the lakes, six from 5,000 to 7,000 tons capacity, and two canal ships of 3,000 tons each. The purchase, it is stated, is made on the basis of \$175 per \$100 share, for the \$3,000,000 stock to be paid for in 5 per cent 20-year bonds of the steamship company, guaranteed by the Steel & Wire Company.—V. 71, p. 914, 493.

American (Bell) Telephone & Telegraph Co.—Output of Telephones.—The following statement is published showing the increase in the number of instruments in use by the company and its licensees.

From Dec. 21 to Oct. 20-1899-00. 1898-99 539,598 163,271 220,698 Net output......36,461 32,817 303,664 376,327

Total instruments in use Oct. 20, 1900, 1,884,169, against 1,501,577 in 1899; increase, 382,592.—V. 71, p. 493.

Authracite Coal Co.—Officers.—S. Halline, Secretary of the Missouri Kansas & Texas Railway, has been elected Vice-President. W. E. Pedrich, a coal expert of Denver, is President and R. J. Gerere is Secretary. The prospectus says:

The company owns and controls over 6,000 acres of coal fields in Gunnison County, Colorado, containing valuable deposits of anthractic; also bituminous and coking coal in large quantities. There has been expended upon this property, all told, about \$40,000. This company has acquired the property, however, without debt of any kind, and is preparing to expend \$250,000 in modern equipment, which will give it a capacity of 1,200 tons per day. An officer of one of the prominent Western railways assures us that he is authorized to extend his company's line to the property at an expense of \$500,000, provided he can secure a favorable contract for the handling of our product for a long period of years.—V. 71, p. 913, 862.

Atlantic Transport Co.—Deal Pending.—Mr. Alexander Brown, of Baltimore, is quoted as saying: "It is true that a deal is pending, but I am not at liberty to give any information at present."—V. 71, p. 965.

Buffalo & Niagara Falis Electric Light & Power Co.— New Stock — The shareholders will vote Nov. 26 upon a proposition to increase the capital stock from \$200,000 to \$500,000, par value of shares \$100. The directors include:

George Urban Jr., Wilson S. Bissell, Charles R. Huntley, John M. Brinker, Edward Michael, Wm. C. Warren.

Burton Stock Car Co.—Proposed Loan.—The stock holders will meet at Portland, Me., Nov. 19, to consider a proposition to mortgage the property. The capital stock at last accounts was \$1,820,000 common and \$180,000 seven per cent preferred; par value of shares \$10. From Jan., 1885, to Jan., 1893, 7 per cent yearly was paid on the preferred and in 1893 3½ per cent on the common. Distributions to the stock were then suspended. At last accounts (in 1899) the company was said to have a floating debt of \$1,250,000 and annual gross earnings of \$250,000; do not earnings, \$100,000.

Carnegle Company. — Particulars as to Bonds. — The mortgage for \$160,000,000 (or £32,000,000) was executed some time ago to the United States Trust Co., as trustee, but full particulars regarding the bonds, which have just appeared in this market, are only now available. The bonds are collateral trust 5s, dated April 2, 1900, and payable as to principal and interest either in lawful money or in British sterling, without deduction for any United States, State, county or municipal taxes which the company may be required to The loan will mature April 1, 2000, but the company is required to pay to the trustee on April 1, 1905, and annually thereafter, \$800,000 as a sinking fund and for this sinking fund the bonds are subject to call at 105 and interest, if not purchasable at that price. The par value of the bonds is as

\$1,000 or £200\$40,000,000 | \$10,000 or £2,000....\$40,000,000 \$5,000 or £1,000..... 40,000,000 | \$20,000 or £4,000.... 40,000,000

The bonds are coupon bonds, with the privilege of registration as to principal.

The mortgage provides for the execution of all of the

bonds at once and their issuance as required.

The security for the loan consists of the following shares of stock pledged with the trustee out of a total issue in each case as indicated (the par value of the shares does not appear from the mortgage and is given as reported unofficially):

Also "a \$45,000 interest in the Pittsburg Limestone Co., Lim., being a three-fourths interest in said limited partnership association, and a \$75,000 interest in the Union Supply Co., Lim., being all of the capital of said limited partnership association, together with additional shares of the capital stock of the Pittsburg Steamship Co., subscribed

by the company, as and when they are issued," and all shares of stock which may be acquired in corporations hereafter caused to be organized in the interest of the Carnegie Co. (less a sufficient number to qualify directors).—V. 71, p. 603, 184.

Central Coal & Coke Co. of Kansas City.—Increase of Stock.—The company has increased its capital from \$3,000,000 to \$3,750,000 and has purchased the Sweet Water bituminous mines at Rock Springs, Wyo., which have an output reported as 600,000 tons a year.—V. 67, p. 369.

Chicago Suburban Water & Light Co.—Earnings — The earnings for the year ending July 31, 1900, are reported as follows: Gross, \$116,338; net earnings, \$70,651; interest on \$700,000 bonds, \$35,000; surplus for stock, \$35,651.—V. 69, p. 956.

Electric Vehicle Co.—Decision as to Gas Propellers.—Judge Coxe, in the United States Circuit Court, in this city, on Nov. 9, in the case of the Electric Vehicle Co. against the Winton Motor Carriage Co., et al, overruled the demurrer of the defendants and ordered that the action proceed upon the merits. The suit was brought to prevent the infringement of letters patent granted Nov. 5, 1895, to George B. Selden, of Rochester, N. Y., under which the Vehicle Co. has acquired sole rights to manufacture a "road vehicle, the motor being a liquid hydrocarbon gas engine of the compression type," the demurrer being interposed upon the "broad ground that the patent, on its face, is void for lack of patentability." If the decision is sustained, the company, it is claimed, will have a virtual monopoly in the manufacture and use of automobiles operated by gas or oil motors. The use of electric motors was not involved.—V. 70, p. 1293.

Federal Graphite Co.—Mill Completed.—The company has completed its mill and expects to be in full operation at an early day. A director is quoted as saying:

We are satisfied that we have one of the best deposits of graphite in the country and one that can be most economically worked, owing to the softness of the ore. In quality our graphite will compare favor ably with the Ceylon product. It should average \$125 per ton at least.

The property is controlled by Boston capitalists, having been financed by George E. Armstrong & Co. -V. 70, p. 330.

General Electric Co.—Listed.—The New York Stock Exchange has authorized the listing of \$4,415,000 additional common stock from time to time when issued in exchange for debenture bonds, the amount of common stock, including such additional issues, not to exceed in the aggregate \$22,691,000. A financial statement for the seven months ended August 31, 1900, is on page [111].—V. 71, p. 604.

General Carriage Co.—Cab Service.—The company, it is stated, under an arrangement with the Westcott Express Co., will shortly establish a cab service at the Grand Central Station and elsewhere in this city where cabs are now stationed by the Westcott Express Co. The carriage company is said to have about 75 cabs in operation.—V. 71, p. 604.

Great Northern Paper Co.—Plant in Operation.—This company, organized early in 1899 with \$4,000,000 of capital stock, all subscribed, has completed and put in operation its extensive works at Millinockett, Me. The capacity of the plant is between 250 and 300 tons of news paper daily. Garrett Schenck of Boston is President and Col. Oliver H. Payne was a large stockholder. The New York & Pennsylvania Co., with offices in the "Times" Building, this city, is the company's selling agent.—V. 69, p. 285.

Indiana Natural Gas.—Supply Failing.—A press dispatch from Indianapolis on Nov. 12 says.

The natural-gas supply is almost a failure in Indiana this winter and much suffering has been caused by the sudden cold spell. Coal is being used almost exclusively here and many towns located in the centre of the gas belt have a short supply. Much complaint is made because gas is being piped out of the State, chiefly to Chicago, where rates are higher than in Indiana. State Natural Gas Supervisor Leach says that the natural gas will be entirely exhausted within three years at the present rate of decrease of pressure.

International Emery & Corundum Co.—Litigation.—Vice-Chancelior Stevens of Newark, N. J., will hear in Chancery on Nov. 21, the suit brought by the company to compel the National Abrosive Co. to assign to it the contracts originally secured from the Turkish Government by William F. and Alton H. Kimball of Tiffin, Ohio. The defendants claim that the International Company failed to exercise its option on the contracts, said to be worth \$600,000, within the required time.—V. 71, p. 604:

Iola (Kan.) Portland Cement Co.—In Operation.—This company, incorporated in West Virginia in May, 1899, with \$3,500,000 of authorized capital stock, has just completed at Iola, Kan., on the Atchison Topeka & Santa Fe Ry., one of the largest Portland cement plants in the UnitedStates, and said to be the first established west of the Missouri River. Its capacity will be 5,000 barrels per day. It is now operating at half capacity. The material used is said to be abundant. It was discovered by the industrial commissioner of the Atchison. The President is Wm. L. Holmes, Vice President, Geo. A. Beaton; Treasurer, John T. Holmes, all of Detroit. Of the \$3,500,000 capital stock \$1,000,000 is 7 per cent cumulative preferred.

Kings County Electric Light & Power Co. of Brooklyn.—New Stock.—The company, it is stated, will issue on Nov. 21, at par to the present stockholders, \$520,000 stock, this bringing the capital stock up to its anthorized limit, \$2,500,000.—V. 71, p. 862, 866.

Mississippi Valley Independent Telephone Co.—Sheriff's Sale.—The partially-completed plant of this company at Minneapolis will be sold by the sheriff Nov. 19 to satisfy claims, those already filed, it is said, amounting to \$45,000.—V. 68, p. 928.

"Mobile" Company of America—Stock Offered.—The company is offering for sale at par (\$100 per share) \$400,000 of its \$2,000,000 preferred stock. Each share of \$100 so subscribed will carry with it an additional share of the common stock. The company, it is stated, will have no bonds and no indebtedness. The President is John Brisben Walker, proprietor of the "Cosmopolitan Magazine," who owns a controlling interest in the stock of the "Mobile" Company. The preferred stock of \$2,000,000 and common stock of like amount, it is stated, will be issued upon the basis of the following property to be taken over, fully paid for:

\$400,000 cash working capital; factory buildings at Kingsland Point, designed specially for the work of building "mobiles;" a complete p'ant, all new and guaranteed to be equal to the turning out of ninety carriages per week; 233 acres of manufacturing and residence land along the Hudson River, at Kingsland Point and Philipse Manor, upon which the New York Central has recently established a new station; the rights to manufacture for the United States and Canada under the Francis E. and Freeland O. Stanley patents—the "Mobile" Company owning a one-half interest in the original steam carriage patents of the Messrs. Stanley—the Locomobile Company owning the other half. The two companies owning these patents turned out more than 95 per cent of all the steam carriages built in America during the past year.

Natalie Anthracite Coal Co.—Mines Leased.—The Pittsburg Trust Co., as receiver, has been authorized by the Court to lease the company's mines to the Shamokin Coal Co. for 14 months, 30,000 tons as a minimum to be mined monthly. The lessee is to pay \$8,333 33 per month in advance on account of royalties, as follows:

Thirty-five cents per ton for coal above seven-eighths in mesh, 25 cents for pea coal, 20 cents for No. 1 buckwheat. 10 cents for No. 2 buckwheat and 5 cents for one-fourth in mesh.—V. 66, p. 574.

National Salt Co.—Second Dividend on Common Stock.—Common stock dividend No. 2, 1½ per cent, has been declared payable Dec. 1st, 1900, to stock of record Nov. 24th, 1900.—See V. 71, p. 862, 866.

Newburg (N.Y.) Light Heat & Power Co.—Incorporated.— This company has been incorporated at Albany with \$500,000 of capital stock. Directors—J. L. Wilke, W. B. Goodwin and Moses Ely, New York City. The new company, it is stated, has acquired the property of the Consumers' Gas Company and the Consolidated Gas Electric Light Heat & Power Co. (see V. 71, p. 87, 604) and will increase its capital stock to \$1,000,000.

Niles-Bement-Pond Co.—See Pratt & Whitney Co.—V. 71, p. 290.

North Shore Gas Co. of Wankegan, Ill.—Incorporated.— This company was incorporated at Springfield, Ill., on Nov. 2 to operate gas and electric plants. Incorporators, W. Irving Osborne, Fred. W. Bentley, Marshall C. Smith. A promoter is quoted as saying:

We have been working for some time past to control the gas business of the North Shore towns, and so far have secured the privileges from Waukegan south to Highland Park. The greater part of our pipe line is ready for operation. Contracts have been made to supply the Government reservation at Fort Sheridan.

Ohio & Indiana Natural & Illuminating Gas Co.—See "Indiana Natural Gas," above.—V. 70, p. 994.

Pacific Mail Steamship Co.—Sale of Stock.—See Southern Pacific Company under "Railroads" above.—V. 71, p. 970, 867.

People's Gas Light & Coke of Chicago.—Earnings.—For the quarter ending Sept. 30 the sales of manufactured gas to private consumers, as indicated by the company's payment to the city, aggregated \$1,351,165, an increase of 4 per cent over the corresponding quarter last year. Following is a comparison with previous years:

Third quarter. \$1,351,165 \$1,297,955 \$1,158,934 \$econd quarter. 1,506,882 1,302,543 1,181,462 First quarter. 1,780,726 1,545,211 1,436,226

Totals \$4,638,783 \$4,145,709 \$3,776,622

Pittsburg Valve, Foundry & Construction Co.—Consolidation.—This company was incorporated in Pennsylvania on Oct. 30 as a consolidation of the following concerns: Atwood & McCaffrey, Pittsburg Valve & Construction Co., the pipe-fitting department of the Wilson-Snyder Manufacturing Co., Shook-Anderson Manui'g Co. and the foundry department of Alex. Speer & Sons. The new company will make a specialty of heavy steam pipe fittings. The capital stock is \$1,150,000, fully paid up, and was taken by the firms above named, not a share having been offered for sale; neither is it expected that any of it will be on the market. The officers are:

Henry M. Atwood, President; J. T. Speer, Vice-President; C. A. Anderson, Treasurer; Moses Atwood, Secretary and Sales Agent; Geo. E. Klingelhofer, General Manager.

Portland Gold Mining Co. of Cripple Creek.—Sold to London Syndicate.—This company, organized in 1893 94, and having outstanding \$3,000,000 of capital stock in \$1 shares, is reported to have been sold for over \$10,000,000 to a London syndicate, including the Exploration Company, Limited, and others. The Portland has of late been paving dividends at the rate of 24 per cent per annum, over \$3,300,000 having been distributed to shareholders to date.

Reports and Documents.

NORTHERN PACIFIC RAILWAY COMPANY.

DISSOLUTION OF THE VOTING TRUST.

23 WALL STREET, NEW YORK, November 12, 1900.

To the Holders of Trust Certificates for the Common and Preferred Capital Stock of the Northern Pacific Railway Company:

Pursuant to the Plan for the Reorganization of the Northern Pacific Railroad Company, dated March 16, 1896, and "in furtherance of the independent reorganization and ad ministration of the property and to promote and protect the value of the securities of the new Company, "Messrs. J. P. Morgan & Co., as Reorganization Managers, delivered to the undersigned, as Voting Trustees, under the terms of an Agreement dated December 1, 1896, the Common and Preferred Capital Stocks of the Northern Pacific Railway Company, for which our Trust Certificates have been issued and are now outstanding

By the receipt of these Northern Pacific shares the Voting Trustees possessed and became "entitled to exercise all the rights of every name and nature, including the right to vote

in respect of any and all such stock."

As stockholders of record, the Voting Trustees have received all dividends paid upon these shares and have caused the same to be distributed as received to the holders of the

In voting the stock held by them, the Voting Trustees have exercised their best judgment, from time to time, in the selection of suitable directors, to the end that the affairs

of the Company should be properly managed.

The annual reports issued and distributed by order of the directors during the past four years to the holders of the Trust Certificates and various securities of the Company, have given prompt and full information to all parties in interest regarding the directors and officers selected, and the management thereby secured by the Voting Trustees in the exercise of their voting power and the administration

Although the first day of November, 1901, was fixed as the date for the expiration of this trust, yet it was provided that at any time the Voting Trustees might call upon the holders of the stock Trust Certificates to exchange them for certificates of capital stock.

By reason of the evidences of financial strength, conservative management, skillful and profitable operation, superior physical condition of the property and the reasonable prospect of continued prosperity of the Northern Pacific Railway Company, the Voting Trustees, in the exercise of their discretion, have decided to now terminate their trust and to distribute on January 1, 1901, the shares of stock they hold in exchange for their outstanding Trust Certifi-

The Northern Pacific Railway Company has already declared thirteen dividends upon its Preferred Stock and six dividends upon its Common Stock. Although its published statements of earnings and cash resources give evidence that the continuance of regular quarterly dividends, now established at the rate of 4% per annum, upon both its Common and Preferred Stocks, may be reasonably expected up mon and Preferred Stocks, may be reasonably expected under its present management; yet a brief summary of the position of the Company may be of interest to its proprietors at the present time.

MILEAGE.

On September 1, 1896, when the Northern Pacific Railway Company received possesion of its property, the railroad system consisted of a Main Lineand Branches aggregating.

On November 1, 1900, the total mileage owned and op-

.4,345.69 miles

equivalent to an increase of 30.4 per cent in mileage owned

During the same period the miles of second track, spurs nd sidings have increased 575.39 miles, or 63.2 from 909.32 to 1,484.71 miles.

EQUIPMENT.

The increase in number of items constituting the Equipment has been as follows:

| | | | Incred | ase |
|-------------------------|---------------|---------------|---------|-------|
| Equipment— | Sept. 1,1896. | Nov. 1, 1900. | Number. | p. c. |
| Locomotives | 574 | 688 | 114 | 19.9 |
| Passenger-train cars | . 438 | 582 | 144 | 32.9 |
| Freight-train cars | 18,032 | 25,130 | 7.098 | 39.4 |
| Miscellaneous equipment | . 465 | 652 | 187 | 40.2 |
| Totals | 19,509 | 27,052 | 7,543 | 38.7 |

While the increase in total number is 38.7 per cent, the increased horse power of the road locomotives is 62.2 per cent, and the increased capacity of the freight trains is 70.6 per cent, by reason of the purchase of heavier power and the reinforcement and purchase of cars of larger capacity.

The average train load of revenue freight increased in the

same period 69.57 per cent, from 193.52 to 328.16 tons.

LAND GRANT.

Instead of holding the lands at prices that were high compared with the prices asked for adjoining Government lands, the policy of selling at much reduced rates has been vigorously carried out, with great success, thereby reducing the Company's taxes, stopping the interest on "Land Grant" Bonds retired, and iccreasing the population and tonnage tributary to the railroad system.

The acreage of the lands granted by the United States to the Northern Pacific Railroad Company has been thus re-duced over 34 per cent, from about 34,000,000 to about 22,-000,000 of acres, as will be seen by the following details of

unsold lands:

| Locations- | | Sept. 30, 1900. | |
|--------------|------------|-----------------|------------|
| Minnesota | 1,336,154 | 442,796 | 893,358 |
| North Dakota | 6,951,987 | 1,267,780 | 5 584,207 |
| Montana | | 13,270,271 | 2,530,872 |
| Idaho | | 1,633,272 | 199,221 |
| Washington | | 6,129,934 | 2,540,399 |
| Oregon | 146,763 | 29,197 | 117,566 |
| | | 00.550.050 | 11 005 800 |
| Total acres | 34.638.873 | 22,773,250 | 11,865,628 |

Under the terms of the mortgages issued by the Northern Pacific Railway Company, the net proceeds of the Land Grant are now applicable to the extent of one-half, but not exceeding \$500,000 in any one year, to the purchase at not exceeding 110 per cent and the cancellation of Prior Lien 4% Bonds, and when these are not obtainable, then to the purchase, at not exceeding 100 per cent, and the cancellation of General Lien 3% Bonds. The remaining half of the proceeds are to be used for betterments and additions to the mortgaged property

Since the cancellation of all the mortgages securing the Land Grant" Bonds of the old Northern Pacific Railroad Company, the proceeds of land sales have been applied as above provided and \$1,282,500 of Prior Lien Bonds have

been purchased and canceled.

CAPITALIZATION AND FIXED CHARGES.

During the same period of increased assets and earning power, the Mortgage Debt and Fixed Interest Charges have been increased as follows:

| | Mortgage | Average Rate | Annual Int. |
|------------------------|----------------|---------------|-------------|
| Date of Batance Sheet- | Debt. | of Interest. | Charges. |
| June 30, 1900 | .\$171,346,596 | 3.79% | \$6,497,655 |
| September 1, 1896 | . 156,157,500 | 3 ·98% | 6,217,320 |
| | | | |
| Changes | . \$15,189,096 | ·19% | \$280,335 |

While the Mortgage Debt has been increased 9.72 per cent and the Fixed Annual Interest Charges 4.51 per cent, the average rate of interest on the entire Mortgage Debt, both that of original issue and that assumed, has been reduced 4.8 per cent.

By reason of the application of the proceeds of land sales to the payment of "Land Grant" Bonds, and the acquisition and construction of additional mileage during the period from September 1, 1896, to June 30, 1900, the capitalization per mile has been reduced \$11,623 per mile, or 16.16 per cent.

ADVANCE IN PRIORITY OF MORTGAGE LIENS.

Since September 1, 1896, all the then outstanding bonds of the old Northern Pacific Railroad Company assumed to be paid by the new Northern Pacific Railway Company, being:

acte Nov

ained lessed

Portati Dethou Faiber followi

lia l

\$1,776,000 Missouri River Division 6s 16,142,000 General First Mortgage 6s

\$17,918,000 in all,

have been retired, and their mortgages discharged of record. The Prior Lien 4 per cent Bonds have thus become a first lien, by direct mortgage or through the ownership of securities, upon 4,975.04 miles of Main Line and Branches, including extensive terminal properties at the several termini on Lake Superior and Puget Sound, upon the entire Northern Pacific Railroad Land Grant and all the Equipment of the Northern Pacific Railway Company, exclusive of the St. Paul & Northern Pacific and St. Paul & Duluth Divisions, upon which subject to their existing underlying Divisions, upon which, subject to their existing underlying mortgages, the new bonds likewise have subsisting liens.

The General Lien 3 per cent Bonds have likewise been advanced in order of lien, so that they are now they are now that they are now that they are now they are now they are now that they are now they a

second mortgage upon the same property that secures the Prior Lien 4 per cent Bonds and subject to the same excep-

tions stated.

EARNINGS

| The gross earnings for the fiscal year ending June 30 1900, were |), .\$30.021,317 |
|------------------------------------------------------------------|---------------------|
| For the year ending June 30, 1896, they were | . 19,863,159 |
| Being an increase of 51.14%, or | .\$10,158,156 |

The net income for the same periods increased 105.39%, being from \$7,527,913 to \$15,461,620.

Appropriations from net income have been made during the past three years to the extent of \$5,988,328 for new equipment and additions and betterments to the property. Dividends have been declared upon both Common and Preferred Shares to the aggregate amount of \$14,550,000.

Of which \$3,000,000 cash was set aside in 1898 as a special reserve, until the end of 1901, to insure the continuity of dividends upon the Preferred Stock.

CASH WORKING CAPITAL.

On June 30, 1897, the Current Assets, exclusive of the Betterment and Enlargement Funds, exceeded the Current

.....19,540,482 ties by..... An increase of 271.6 per cent since June 30, 1897.

CASH AND CASH ASSETS.

The cash and available a sets of the Company on Septem. ber 30, 1900, including the Betterment and Enlargement, Preferred Stock Dividend and Insurance Funds, were as

| Cash | \$8,856,645 |
|-----------------------------------------|-------------|
| Accounts Receivable | 2,607,601 |
| Materials on hand | 2,270,928 |
| Land Contracts | 2.2-4,590 |
| Treasury Securities— | |
| Prior Lien Bonds, \$9,891,000, at 100% | 9,924,000 |
| General Lien Bonds, \$2,650,000, at 60% | 1,590, 00 |
| Miscellaneous Bonds and Stocks | 7,153,854 |
| | |

Total present Cash Resources......\$34,688,018

With the exception of the interest on \$811,000 General Lien Bonds held by the Insurance Fund, the interest accruing upon the Prior Lien and General Lien Bonds held as Treasury Securities has not been included in either the Fixed Charges or the Miscellaneous Income of the Company for the past fiscal year.

In addition to the above-described cash and convertible assets there are the following marketable bonds available, under the provisions of their respective mortgages, for new construction, betterments, equipment and other purposes:

and additions to this Division..... 5,502,000

\$30,002,000

\$23,102,543

BETTERMENT AND ENLARGEMENT FUND.

Under the Plan of Reorganization a cash fund amountwas provided for early use in the betterment and enlargement of the property acquired by the new Company. The entire amount of this Fund has been expended for the purposes indicated.

Further cash and bonds have been received from time to \$5,073,964

time for similar improvements, pursuant to the provisions therefor under the terms of the Prior Lien Mortgage, to the aggregate amount of.

During the same period there has been expended from this additional fund, for new mileage, equipment, real estate and improvements. \$18,028,579

9,564,035

PHYSICAL CONDITION.

In addition to the large amounts charged to operating expenses during our period of trusteeship for improvements and additions to the property, there has been \$5,988,328 appropriated from Net Income during the past three years for these purposes.

The following details will indicate the amount and character of the expenditures made from September 1, 1896, to November 1, 1900, to place the property, exclusive of the proprietary companies, in condition for economical operation and maintenance.

| The state of the s | |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------|
| Heavy steel rails laid on | 1.042 miles |
| Added Second Track, Spurs and Sidings | 221 miles |
| Embankments widened to 16 feet on | 1,391 miles |
| Roadway ballasted for | 1,426 miles |
| Replaced | 50.000 ties |
| Grades reduced, with incidental improvement of align- | |
| ment and curvature, over engine districts aggregat- | |

,700 miles 70.6% 62.2% Tonnage capacity of freight-train cars increased... Horse-power capacity of road locomotives increased..

OPERATING RESULTS.

The increase of net income to the extent of 103.89 per cent in the past four years, while largely due to the improvement in general business, could not have been attained in the face of voluntary reductions in freight and passenger rates but for the decrease of expenses of transportation through the intelligent application of the best methods known in the science of railroad operation and engineering. The results of such methods are shown in the following comparative statistics for that period, by which it will be seen that invested capital, labor and fuel have been utilized with an economy and profit seldom before shown in the solution of railroad problems of this country.

Although there has been in this period of four years an increase of 67 145 persons in the proof of the period of the p

increase of 67.45 per cent in tons of revenue freight carried

one mile, yet by increasing the tonnage loaded in each car 25.66 per cent and the number of loaded cars in each train 34.93 per cent, the number of revenue tons in each train has been increased 69.57 per cent, and the increase of 888,358,-921 tons one mile has been transported in 1900 in trains that ran 85,181 miles less than was required for that much less tonnage under the methods and facilities of 1896.

Although the mileage of loaded freight cars increased 33.22 per cent and the average receipts per ton per mile decreased 12.65 per cent, yet the total freight earnings per

train mile increased 48.29 per cent.

The following statistics are from the Annual Reports:

| | Tons, Mites, | Increase or | Pcr |
|----------------------------------------------------------------------|--------------------------------|-------------|-------|
| Operating Uni/s - Year. | Elc. | Decrease. | Oint. |
| Tons of revenue freight 1900 carried one mile | 2,205.317,271 1,316,958,350 | 888,358,921 | 67.45 |
| Average tons of revenue, 1900 freight in each loaded car, 1896 | 13.42 10.68 | 2.74 | 25.66 |
| Average number of loaded \ 1900 freight ears in each train \ 1896 | 24·45 18·12 | 6.33 | 34.93 |
| Average number of tons of revenue freight in each 1896 | 328·16 193·52 | 134.64 | 69 57 |
| Miles run by freight trains $\begin{cases} 1900 \\ 1896 \end{cases}$ | 6,720,173 6,805,354 | 85,181 | 1.52 |
| Mileage of loaded freight 1900 cars 1896 | 164,314,552 123,342,454 | 40,972,099 | 33.22 |
| Average receipts per ton 1900 per mile revenue freight. 1896 | .00987 .01130 | *00143 | 12 65 |
| Total freight earnings per 1900 train mile | 3,295 2,222 | 1,073 | 49.29 |
| | | | |

Italic figures denote a decrease.

The above record appears even more creditable when it is considered that 42 per cent of the mileage of the system now operated is composed of 63 separate branch lines.

The strength of the Northern Pacific Railway Company in its physical and financial condition, as well as in its management, may be briefly stated in conclusion as follows: While the mileage has been increased 30.4 per cent, the

capitalization has been decreased \$11,623 per mile.

The Prior Lien Bonds have been made a first mortgage and the lien of the General Lien Bonds has been correspondingly advanced to the second position.

Even with unusual charges to expenses for improvements to the property, the net income during the past three years has averaged 5.16 per cent on both Preferred and Common Stocks.

The net cash working capital on September 30, 1900, was \$19,540,482, while the total cash assets of the Treasury amounted to \$34,688,018.

There are additional resources for present and future requirements in \$30,002,000 of Bonds issuable under existing mortgages of the Northern Pacific Railway Company.

The condition of the railroad and its equipment is of the

The officers have given continued evidence of their ability to improve and extend the property while increasing its net revenue.

The directors have contributed, by their varied experiences and personal attention, so much to the strength and credit of the company that we consider their continuance in the guidance of its affairs to be of the greatest importance to its future prosperity.

Because of the conditions above described, we believe that the purposes of our trusteeship have been fulfilled and that we are warranted in now dissolving the Voting Trust.

> J. PIERPONT MORGAN, DR. GEORG VON SIEMENS, JOHNSTON LIVINGSTON, AUGUST BELMONI, CHARLES LANIER,

Voting Trustees.

THE PACIFIC COAST COMPANY.

EXTRACTS FROM THE ANNUAL REPORT FOR THE YEAR ENDING JUNE 30, 1900.

To the Stockholders of the Pacific Coast Company:

The following report of the business and operations of your Company for the fiscal year ended June 30, 1900, is respect-

fully submitted:

There has been no change in the Funded Debt or Share Capital. There was sold in conformity to the provisions of the mortgage the following property: Block 325, San Francisco for 2014 000 and other property: cisco, for \$224,000 and other property for \$21,615. The proceeds, less expenses of sale, were deposited with the Trustee, and are available for re-investment.

The Steamship "Miami" (collier), laden with 3,969 tons of

Wellington coal, bound from Oyster Harbor, British Columbia, to San Francisco, California, in charge of a Canadian licensed pilot, as required by the Compulsory Pilotage Act, struck a ree of between White Rock and Danger Reef, off the southeast coast of Vancouver Island, January 25, 1900. Sur vey was had, and the Board having reported the vessel a total loss, notice of abandonment was served upon the underwriters, who, in due time, paid the insurance, viz.:

Your Board of Directors having authorized the purchase or construction of a collier to replace the "Miami," plans and specifications were prepared for a 5.000-ton steel vessel, 356 feet in length, 45 feet beam, 28 feet depth, equipped with water tube boilers, direct acting triple expansion engines and water ballast. In the preparation of these plans special attention was given the features which tend to expeditious loading, trimming and discharging of cargo.

IMPROVEMENTS AND BETTERMENTS.

The rapid development of the Pacific Coast country, referred to in our last report, continues, and in order to meet the growing demand for transportation of passengers and freight it is necessary that additional modern ships be provided from year to year to supplement and take the place of vessels that are becoming unsuitable for use on account of

It is also necessary, in order to meet the increased demand for coal, to make a very considerable expenditure of money to reopen the Franklin Mine; to replace the Seattle coal bunkers; to obtain additional trackage facilities, and generally to make provision to insure economical operation and handling of this important product of our Company, additional colliers and barges must also be provided. Our ditional colliers and barges must also be provided. Our ocean and city docks require renewing, and expenditures are also necessary to utilize the valuable water-front property at Seattle.

It is also imperative that liberal maintenance expendi-

tures be continued from year to year to improve the service and reduce operating cost on our rail lines, and the directors have authorized the officers of the Company to make the necessary expenditures in order to meet the require-

ments as set forth in this report.

Appreciating that the traffic to and from Alaska had outgrown your transportation facilities, plans and specifications were prepared by marine architects of recognized ability for a steel passenger and cargo ship, to accommodate 200 first cabin, fifty second cabin passengers, and 800 tons miscellaneous cargo.

The vessel will be 285 feet long, 40 feet beam, 20 feet depth, and equipped with Babcock & Wilcox water tube boilers, triple expansion engines, electric lights, ventilating and sanitary appliances of modern type, electric cargo hoists and cold storage plant; guaranteed speed 15 knots.

A contract for the construction of this ship was awarded, to the Union Iron Works of San Francisco. The material and workmanship is of the best. Satisfactory progress has been made, and it is expected the vessel will be in com-

mission April 1, 1901.

The Seattle coal bunkers of the Columbia & Puget Sound Railroad Company are practically worn out. Although extensive repairs have been made during the past year, it has been found necessary to reduce the storage capacity one-half. To provide the required facilities and ensure economical operation it is proposed to construct a modern plant at

an early date.

By reference to the Annual Report for 1899 it will be observed that the Columbia & Puget Sound Railroad Company is the owner of various tracts of unimproved real estate in the City of Seattle. It is the policy of your Board of Directors, when full value is offered, to sell such property as is not necessary or requisite to the operation or preservation of the parent and constituent companies, or which will not by improvement yield adequate returns, and to invest the proceeds accruing from such sales in property that will increase the earning power and enhance

the value of the assets of your Company.

The tracts of real estate reserved from sale will, from time to time, be improved as the conditions warrant. In pursuance of this policy there is being erected for a respons ible firm a cold storage plant, warehouse and wharf, on Block 172, Seattle Tide Lands, at estimated cost of \$80,000.

In order to increase the output of steam coal, for which there is a growing demand, your Directors decided to reopen the Franklin Mine, which was fired, flooded and aban-

doned in 1894. The original maps were recently verified by surveys and a diamond drill bore hole and a conservative estimate indicates that there are approximately 12,000,000 tons of high-grade steam coal in this field. Two years will be required to complete the work, and the estimated cost

The reopening of the Franklin Mine necessitates the revision of 1½ miles of the Columbia & Puget Sound Railroad Company's track, at an estimated cost of \$25.000. The revision, in addition to affording trackage facilities to the mine, obviates the immediate necessity of rebuilding six trestle bridges, aggregating 1,000 feet in length, and reduces grades and curvatures.

The Lawson Mine, acquired May, 1899 (See Report for that year), has been extensively developed at a cost of \$36,-

000, charged to operating mine.

At Coal Creek Mine (Newcastle) improvements were made and equipment purchased at a cost of \$30,680, charged to

Operating Mine.
The Ocean and City Docks, Seattle, property of the Columbia & Puget Sound Railroad Company, by reason of their dimensions, age and construction, are inadequate to the needs of the Pacific Coast Steamship Company and our tenants, and expensive to maintain and operate. To the end of meeting the present and prospective requirements of your shipping interests and utilizing unimproved property, your Board authorized the construction of additional slips, wharves and a three-story fire-proof warehouse. We have executed a lease for a term of years of the City Dock and the warehouse mentioned. Satisfactory progress has been made, and it is expected the structure will be completed before the close of next fiscal year. Estimated cost, \$250,000.

GENERAL.

The output of your Company's mines exceeds that of the preceding fiscal year by 50,070 tons. The cost of per-

manent improvements and equipment, aggregating \$72,129, was included in the Operating Expenses. The profits are, however, \$68,166 50 in advance of the previous year.

The wharves at Skagway, Alaska Southern Wharf Company, received extensive repairs. The wharves at Juneau, The Pacific Coast Company, were substantially improved, the warehouses remodeled and modern coal bunkers erected.

The net earnings from the operation of the steamships

The net earnings from the operation of the steamships owned by and under charter to the Pacific Coast Steamship Company are satisfactory, being \$41,312 27 in excess of the previous year. In addition to the cost of ordinary repairs of your fleet there was expended in extraordinary repairs on the Steamships "Santa Rosa," "Umatilla," "Walla Walla" and "Orizaba" \$125,000, all of which was charged to Operating Expenses. The benefits arising from the liberal maintenance expenditures will be evidenced by

improved service and reduced operating cost.
Contracts for repairs to the Steamships "Pomona" and "City of Puebla" have been awarded. Further repairs and alterations will also be made on these vessels. The aggregate cost of the treatment of the two vessels will approximate \$175,000, which sum will be charged to the Steamship

Depreciation and Renewal Fund.

The traffic on the Pacific Coast Railway was satisfactory, showing an increase in net earnings of \$41.248 21.

The demand upon the locomotives and freight cars of the Pacific Coast Railway, by reason of transporting the heavy grain crop tributary to that line, necessitated liberal maintenance expenditures. Five stone culverts were constructed, 300 lineal feet of trestle bridges filled, and 4,000 cubic yards of riprapping put in along exposed track in vicinity of Port Harford.

The net earnings of the Columbia & Puget Sound Railroad Company are \$65,117 19 in excess of previous fiscal year.

The increased traffic necessitated the building of 15 coal cars, 8 flat cars, 1 rock car and 10 log trucks, and material was purchased for five additional coal cars. All the equip-

ment received general repairs.

The operating expenses and taxes of the Port Townsend Southern Railroad Company exceed the gross earnings by A material reduction in the cost of conducting transportation was effected. There is an increase of \$4,400 in maintenance charges. The tie renewals and repairs to bridges contributed largely to this increase. deficit compared with that of the last fiscal year shows a decrease of \$2,306 28, the business continues unsatisfactory. The gross earnings were more than sufficient to pay the operating expenses, exclusive of taxes.

In accordance with the recommendation made in the Report for 1899, your Board fixed the Steamship Annual Depre-

ciation and Renewal Fund at \$200,000.

An estimate of the coal available from your lands has been prepared and it is not deemed necessary to increase the appropriation of five cents per ton on the output which is now being carried to the credit of Coal Depreciation and Renewal Fund.

H. W. CANNON, Chairman.

J. D. FARRELL, President and General Manager.

[Balance Sheet and Income Account will be found on p. 1010.]

\$6,343,777 29

THE AMERICAN COTTON OIL COMPANY.

ANNUAL REPORT FOR THE FISCAL YEAR ENDING AUGUST 31, 1900.

EXECUTIVE OFFICES, 27 BEAVER STREET, NEW YORK, November 14, 1900.

To the Stockholders of the American Cotton Oil Company: The Directors submit herewith their Report and Statement of Accounts for the fiscal year ending August 31, 1900, being the Eleventh Annual Report of the Company.

SHARE CAPITAL.

The amount of the Capital Stock issued and outstanding is unchanged, viz.: Common Stock, \$20,237,100; Preferred Stock, \$10,198,600.

DEBENTURE BONDS.

Of the \$3,068,000 eight per cent Debenture Bonds outstanding at the date of last Report, \$68,000 have been bought by the Company and canceled. The remaining \$3,000,000 have been extended for the period of fifteen years, from November 1,1000 and hear interest at the rate of 41/2 from November 1, 1900, and bear interest at the rate of 41/2 per cent per annum.

ALL PROPERTIES FREE FROM LIEN.

All the properties of the Organization are absolutely free from mortgage or other lien, and there are no liabilities for loans or Bills Payable, except for Debenture Bonds, as above stated.

PROFIT AND LOSS.

| The Profits for the year amounted to Deduct Debenture Bond Interest | .\$1,739,449 28 . 242,266 67 |
|----------------------------------------------------------------------------------------------------|---------------------------------|
| Net Profits | .\$1,497,182 61 |
| Dividends on Pref. Stock, 6% per annum.\$611,916 00 Dividend on Common Stock, 3 ¹ 2% | |
| | - 1,320,214 50 |
| Balance carried to General Profit and Loss Account | . \$176,968 11 |

PERMANENT INVESTMENT ACCOUNT.

This Account has been charged with the sum of \$326,-331 19 for additions to the properties, such as Real Estate, Cotton Ginneries, Seed Houses and Scales, Warehouses, Extensions to Crushing Mills, Refineries and Soap Plants.

The Account has been credited with sales of Inactive Properties, Machinery, etc., amounting to \$228,875 52.

The net result is an increase to Permanent Investment Account of \$97,455 67.

REPAIRS AND MAINTENANCE OF PROPERTIES.

The properties have been maintained during the past year by the expenditure of \$326,087 38, which has been charged to Operating Expenses for the same period.

INSURANCE.

All the properties, the stocks of raw material and finished

products are fully insured.

Our plants in Texas suffered more or less from the recent hurricane, but in every instance the loss was covered by cyclone insurance.

WORKING CAPITAL.

The Working Capital and Surplus of the Company on August 31, 1900, was \$4,828,571 49, of which \$885,019 47 was Cash in Banks and \$3,943,552 02 was Bills and Accounts Receivable, Marketable Products and Supplies.

Balance to Credit..... Balance of General Profit and Loss Account August 31, 1900.....

176,968 11 \$6,520,745 40

The Board of Directors, at the regular monthly meeting held November 8, after declaring the Eighteenth Semi-Annual Dividend of 3 per cent upon the Preferred Stock, authorized the distribution of \$708,298 50 to the holders of the Common Stock, being 3½ per cent, both Dividends payable December 1, 1900.

The amount of the eight per cent Gold Debenture Bonds outstanding at the date of last report was \$3,068,000, maturing November 1, 1900; \$68,000 were bought by the Company and canceled; the remaining \$3,000,000 Bonds have been duly extended for fifteen years from November 1, 1900, bearing interest at the rate of $4\frac{1}{2}$ per cent per annum, resulting in a saving to the Company of \$105,000 yearly. The extended Bonds retain all the advantages and conditions of the terms of their original issue.

The success of the above operation emphasizes the strength of the financial position held by the Company.

The physical condition of the properties continues to improve. The sum of \$326,087 38 has been spent during the year in Repairs, Additions and Betterments and charged to Operating Expenses, which may be considered an ample equivalent for depreciation of properties during the same period.

During the past year the Company had to deal with diminished receipts of seed, resulting from the smaller Cot-ton Crop, the consequence of which was a higher range in

values of all products.

Notwithstanding these conditions the volume of business done by your Company has almost equaled that of the preceding year, when the Cotton Crop was the largest of record and low prices prevailed.

The total production of Cotton Seed is limited by the size of the Cotton Crop, and can be yearly estimated. From the nature of the article there can be no accumulation of Cotton Seed from one season to another, and the output is disposed of each year.

The growing demand for Cotton-Seed Products is marked by the extension of territory in which they are used and by the steady increase in the number of consumers, both for-eign and domestic. The export business of the Company continues to develop, and the wider trade relations which have been established since the date of last Report justify the expectation of further improvement.

Owing to the superior quality of products and sufficient capital to carry stocks large enough to supply promptly at all seasons of the year the wants of consumers, no purchaser can ignore the prominent position that your Company occu-

pies in the trade.

\$35,023,987 88

In addition to crushing Cotton Seed and refining oil, the Company is a large manufacturer of Proprietary Articles. This branch of the business had to deal with somewhat unusual conditions during the year. The price of finished goods did not keep pace with the advance in the cost of raw material. In other words, raw material led instead of following the advance. During the month of March the entire country encountered a depression of business which continued throughout the summer, and could only be accounted for by the apprehension of over-production, a condition aptly termed the "indigestion of prosperity." The natural result was a temporary fall in values.

The experience of your Company, however, was not singular in this regard, as conditions referred to applied to

nearly all industrial companies.

A comprehensive display of the Company's manufactures, consisting of Crude and Refined Oils, Cotton Seed Cake, Meal, Hulls, Linters, Soaps, etc., was made at the Paris Exposition of 1900.

The exhibit obtained a fitting recognition of excellence in the highest possible award, viz.: the Grand Prix

Concerning the prospects for the season of 1900-1901, our reports indicate a cotton crop exceeding that of the year just closed. For various reasons the price of seed opened high, but as the season advanced more normal conditions asserted themselves.

Since the period covered by this Report, the business of the Company has been done on a satisfactory basis, and the stocks of merchandise carried over at the end of the fiscal year have been profitably marketed.

It is with regret that the Board announces the death during the year of one of its members, Mr. James A. Garland, who became a director in 1892 and took an active interest in the Company's affairs. His genial presence and wise counsel are much missed by his associates.

The loyal and efficient co-operation of the officials and employes of the Company is recognized as having much to do with the satisfactory result for the year.

For the Board of Directors, GEORGE A. MORRISON,

Chairman.

Endrogen State of the Control of the

UNITED FRUIT COMPANY.

FIRST ANNUAL REPORT-FOR THE FISCAL YEAR ENDED AUGUST 31, 1900.

To the Stockholders United Fruit Company:

This being the first annual report of your Company, and as its operations and requirements are not familiar to many of the stockholders, I therefore submit the following explanations regarding items in the balance sheet and a statement of a few facts relating to past conditions, prospects for the future and the general policy of the management.

The item of plantations, houses, buildings, fruit and cane cultivations comprises a very careful selection of properties by men of experience, who have demonstrated their ability by marked success in the production of fruit, covering a series of years, and who continue in the foreign management of the Company. The schedule on next page gives in detail the acreage and location of these properties.

The locations are such as have been proven to contribute a maximum of productiveness and economy in operation, and are sufficiently separated to ensure the business of your Company against serious interruption by any one or more local climatic disturbances. It would require very large means and many years of skilful selection to duplicate a larger part of the plant, and in fact it would be utterly impossible to really duplicate it, as the best lands have been taken up already. The former owners of these properties are now largely interested in your Company, and are acting as managers in our several tropical divisions.

FRUIT CULTIVATIONS.

The table showing these will be readily understood, with the exception, possibly, of cultivated grasses in Costa Rica, which require but little attention after planting, and are used standing to fatten beeves for the market.

The statements of lands owned and leased will give you correct information as to their location and extent. I would remark, however, that but a very small percentage of unimproved land is unproductive land.

LIVE STOCK.

In addition to cattle required for conducting farming operations, large numbers are fattened in Costa Rica for local and Cuban markets. The uplands in that country are particularly adapted to the fattening of beeves and this forms a very profitable adjunct to our business. The reputation of Costa Rican cattle in the Havana markets is without a rival.

RAILWAYS.

The nature of our business makes a properly equipped railroad of the greatest importance, as the prompt and efficient handling of fruit from plantations to the main line and by main line to side of steamer is essential. Arrangements have been completed since the close of the fiscal year whereby a net saving in Costa Rice of not less than \$100,000 per year in railroad freights will be made, and at a limit of fifteen years some sixty-two miles standard-gauge road fully equipped for our business reverts to this Company without additional cost.

The railroads in Cuba perform the double service of delivering cane from the plantations to the mill, which is located within a few hundred feet of the wharves, and de-

livering cargoes of fruit to steamer's side.

TELEPHONES.

All lines are owned by the Company, and by being extended from headquarters to all plantations and shipping points, all subordinates are placed in direct communication with the manager. Metallic circuit lines are used The greatest distance covered in a direct line is from Port Limon to San Jose, Costa Rica, 103 miles.

MERCHANDISE.

This item represents values that it is necessary to carry in our foreign divisions in order to supply the large number of employes with provisions, etc., at moderate prices. Commissary stores are located at convenient points and serve to protect the laborer from extortion in the purchase of subsistence. It serves also to furnish freight for both ships and railroad.

SUGAR MILL-CONSTRUCTION AND EQUIPMENT.

This item represents the amount paid to the close of the fiscal year on this account. It is expected the mill will be fully constructed, equipped and operating not later than January 15, 1901. Approximately seven thousand eight

hundred acres of cane of superior quality will be in condition for treatment. The mill will have a capacity for grinding fifteen hundred tons of cane per day, and is considered by experts to be one of the best equipped and most efficient mills in Cuba.

CURRENT ASSETS.

In connection with these items, an explanation as to the methods employed in the distribution of our products which create a large portion of these items would appear in order.

The markets in the United States and Canada, except within a certain radius of Boston, New York, Philadelphia, Baltimore, Mobile and New Orleans, are operated by the Fruit Dispatch Company (owned by your Company), who are represented by a competent Branch House staff in each large city. Efficient messengers from our organized messenger corps attend each train-load of fruit to the interior and deliver it in the best condition possible at its destination. This is facilitated in the Southern Division by the service of a Warm House at Cairo, Illinois, the largest diverting point for that Division. This house holds eighty cars on track.

This method of distribution of fruit and the collection of rising \$5,500,000 for such fruit has entailed an expense to the Fruit Dispatch Company of less than one-half of

to the Fruit Dispatch Company of less than one-half of what was formerly paid for the single item of Commissions, and the loss by poor accounts, etc., on the above sum has been less than ½ of 1%. The sales made by the Domestic Managers at staboard points are collected within ten days. The combined losses covered by bad accounts in these Divisions are also represented by a small fraction of 1%.

ADVANCE PAYMENTS, ETC.

It is the custom to pay for hire of ships semi-monthly in advance. Coal, for all ships, is a very considerable item, and in the case of our own and ships chartered under the "net form," provisions and supplies must also be furnished.

STOCK OF OTHER COMPANIES

Includes the entire stock of the Belize Royal Mail & Central American Steamship Company, which was organized by your Board as a matter of convenience, and represents the shipping purchased by the Company, and includes a fleet of ten steamers, one being used for coastal service on the Cen-tral American Coast; the others are foreign freight and passenger ships. which service requires ships of from 1,000 to 1,600 tons. We have also included in this item stocks of various companies, including the Fruit Dispatch Company, which it seemed wise to operate as companies instead of departments.

TRANSPORTATION - MARINE. In addition to the ships owned indirectly by the Company, it is necessary, in order to move north our product (aggregating approximately 400,000 tons yearly) to charter (or lease), for periods ranging from three months to five years, approximately fifty steamers. Those on long charters are especially constructed to meet our requirements, and among them can be found new twin-screw American ships of superior model and speed, equipped with every modern appointment for the comfort and safety of passengers. The matter of transportation by sea is a vital link in the business. During the busy season, from twenty-five to thirty steamers each week arrive at United States ports with fruits from our foreign divisions. This necessitates a nearly perfect schedule and rigorous discipline. The advisability of owning and controlling for a term of years, a portion of the owning and controlling, for a term of years, a portion of the fleet is apparent when considering the absolute control necessary in carrying out our contracts for mail service with this and other governments.

LIABILITIES.

Advance payments on stock subscriptions is self-explanatory, and stock covering the full subscription will be issued in December. No further issue of stock or securities is contemplated or required.

BO3TON FRUIT CO. BONDS.

During the current fiscal year there has been \$30,000 of these bonds paid and canceled. Under the terms of the mortgage a corresponding amount of bonds will be retired each year.

CURRENT LIABILITIES.

Drafts and acceptances represent sight drafts drawn on the Treasurer by our foreign divisions for cargoes of fruit shipped various domestic ports.

Coupon Notes, \$1,750,000, maturing Oct. 1st, were paid on that date from funds on hand. The balance, \$1,750,000, will mature Oct. 1st, 1901, and will be retired at maturity in like manner.

ACCOUNTS PAYABLE.

This account represents the audited vouchers and accounts payable arising from the current operations of both foreign and domestic divisions, which have since been liquidated in the regular course of business. It is the practice of the Company to transact its business on a strictly cash basis, securing the benefits arising therefrom.

INCOME ACCOUNT, SURPLUS.

This statement, which represents the net income, after liberal treatment for depreciation, to the close of the present fiscal year, is satisfactory to your board. The past year has not been without its drawbacks; in fact, the most experienced members of your board cannot recall as numerous combinations of disadvantages as ever before occurring in one season. The present season opened with the first hurricane for twelve years in Jamaica, which was experienced later to a great extent at San Domingo. This, coupled with a very unusual drought in Cuba. and the quarantine scare at Mobile and New Orleans during the unprecedented hot weather of July and August throughout the country, rendered the business of the latter month, for the first time in years, non-productive of profits.

Arrangements are now nearly perfected with the begints to

Arrangements are now nearly perfected with the hospital service at Washington that promise to eliminate all unnecessary formalities and consequent losses on account of sanitary conditions. Our foreign divisions have been almost entirely free from yellow fever or other contagious diseases, and under our efficient sanitary department, established the past year, continued improvement is assured.

INSURANCE FUND.

This represents the absorption by the Company, under the above title, of the marine risk on ships owned indirectly by the Company and on cargoes of fruit carried by all ships in our employ. The efficient management by our steamship department, coupled with the competent preparation and loading of fruit by the managers of our foreign divisions, warrants your board in carrying this risk, thus making a large saving in the expense item. The same impartial conditions and methods of adjustment govern in case of claims as would apply if the risk were carried by marine insurance companies, and the results, as shown by the statement, were

anticipated by your board. All fire risks on buildings and merchandise are carried by reliable companies.

IN GENERAL.

Your board have every reason to feel perfectly satisfied with the prospects for the ensuing year. They expect better general conditions and look forward to a number of large savings in operations.

Great credit is due the employes for their enthusiasm and close attention to the interests of the Company during the year. They are constantly adding their names to the stockholders' list as their means will allow, thus indicating their interest and belief in the Company.

Respectfully submitted.

ANDREW W. PRESTON, President.

Boston, November 9, 1900.

THE CHICAGO & ALTON RAILWAY COMPANY

LISTING OF NEW SECURITIES ON NEW YORK STOCK EXCHANGE.

NEW YORK, October 24, 1900. The Chicago & Alton Railway Company respectfully applies to have the following-described bonds and stocks issued by it placed on the regular list of the New York Stock Exchange, viz.:

\$22,000,000 of its Three and One-Half per Cent First Lien Fifty-Year Gold Coupon Bonds, being 22,000 bonds for \$1,000 each, numbered from 1 to 22.000 inclusive, and Registered Bonds of the denominations of \$1.000, \$5,000 and \$10,000 each, into which the Coupon Bonds may be converted.

\$19,544,000 of Four per Cent Non-Cumulative Preferred Stock, being 195,440 shares of the par value of \$100 each.

\$19,542,800 of Common Stock, being 195,428 shares of the par value ot \$100 each.

The Chicago & Alton Railway Company was incorporated in April, 1900, under Articles of Incorporation filed in the office of the Secretary of State of Illinois. Six copies of the

Articles of Incorporation are filed herewith.

The Chicago & Alton Railway Company owns and operates the line of railroad between Springfield, Illinois, and Grove, a town near Peoria, Illinois, a distance of 57 43 miles, being a portion of the railroad formerly owned by the St. Louis Peoria & Northern Railway Company.

The Mortgage, which had been executed by the St. Louis Peoria & Northern Railway Company, dated May 1, 1896, and the Supplemental Mortgages, were foreclosed in the United States Circuit Court, and the Decrees of Foreclosure, dated January 30, 1900, provided that the property should be sold in parcels or portions. The property was sold at foreclosure sale on the 15th day of March, 1900. The portion of the road north of Springfield was subsequently acquired by The Chicago & Alton Railway Company, as above explained, which now owns the same free from en-cumbrances and subject only to the First Lien Mortgage of the Railway Company above mentioned.

The Chicago & Alton Railway Company further operates under lease all the railroad lines of the Chicago & Alton Railroad Company, and owns 34,722 shares of the Seven per Cent Preferred Stock and 183,224 shares of the Common Stock of the Chicago & Alton Railroad Company, and owns 34,722 shares of the Common Stock of the Chicago & Alton Railway Railroad Railway Railway Railroad Railway Ra Stock of the Chicago & Alton Railroad Company (out of a total outstanding stock capital of 34,795 shares of preferred and 187,511 shares of common stock). which have been deposited with the Trustees above mentioned under the First

Lien Mortgage as part security therefor.

The total mileage of the Chicago & Alton Railway Company, including lines owned and leased is 900 97 miles, constituted as follows:

Miles. Miles. 57.43 ren and Godfrey..... · 542·93 Lines leased to The Chicago & Alton Railroad Company and by that Company to The Chicago & Alton Railway and by that Company to The Chicago Carlo
Company:
Joliet & Chicago Railroad Company, from Chicago
to Joliet. Illinois (in perpetuity)

Louisiana & Missouri River Railroad Company, from
center Missis-ippi River at Louisiana, Missouri, to
Cedar City, Missouri (1,000 years)

Kansas City St. Louis & Chicago Railroad Company,
from Mexico, Missouri, to Kansas City, Missouri
(in perpetuity)

Total..... The foregoing properties of The Chicago & Alton Railroad Company, including leaseholds, are all covered by the Lease from The Chicago & Alton Railroad Company to The Chicago & Alton Railway Company. This Lease is dated April 3, 1900, and is for a term of ninety-nine years from April 3, 1900, and it provides for a rental to be paid by the Lessee to the Lesser of an amount equal to the net earnings. Lessee to the Lessor of an amount equal to the net earnings of the Chicago & Alton Railreaa lines, after payment therefrom of all fixed charges, taxes, etc. Six copies of the Lease are filed herewith.

(in perpetuity)......161.82

300.61 900.97

THREE AND ONE-HALF PER CENT FIRST LIEN FIFTY-YEAR GOLD BONDS.

These bonds are issued under and secured by a Mortgage and Deed of Trust dated April 1, 1900, executed by the Railway Company to The Farmers' Loan & Trust Company, as Trustee. The Coupon Bonds are dated as of April 1, 1900, and mature on July 1, 1950, and the principal and interest of the bonds are payable in the City of New York, in gold coin of the United States of the present standard of weight and fineness. The interest is payable on January first and July first. Both the principal and interest of the bonds are payable without any deduction for any tax or taxes of the United States or of any State, county or municipality therein which the Company may be required to pay or retain therefrom under any present or future law. are in coupon form of \$1,000 each, with power of registration as to principal, and the Mortgage provides that they may be converted into full Registered Bonds of the denomination of \$1,000 and such multiples of \$1,000 as the Board of Directors may from time to time authorize. The Board has authorized the denominations of Registered Bonds to be \$1,000, \$5,000 and \$10,000, as above. The Registered Bonds are re-convertible into Coupon Bonds. The bonds are redeemable at par and accrued interest on any interest day upon six months' notice of such redemption being given.

The Mortgage securing these bonds covers, as a first lien, the line of 57.43 miles of railway owned by the Company as above described, its equipment and all other property. The charter of the Chicago & Alton Railway Company also provides for new construction from a point on the railroad of The Chicago & Alton Railroad Company between Murrayville and Woodson, Illinois, to a point in or near Spring-field. Illinois. This line has been surveyed, but has not yet been constructed. By advice of Counsel it was in-cluded in the description so as to fasten the lien of the Mortgage thereon as soon as constructed.

As additional security for the Prior Lien Bonds, the above-mentioned Lease from The Chicago & Alton Railroad Company is specifically assigned and conveyed by the Mortgage, which has been duly recorded in all the counties through

which the leased lines run.

There have been further deposited with the Trustee and pledged under the Mortgage the above-mentioned 34,722 shares of the Seven per Cent Preferred Stock and 183,224 shares of the Common Stock of The Chicago & Alton Railroad Company. Dividends of at least Seven per Cent per annum have been paid on both the Common and Preferred Stock of The Chicago & Alton Railroad Co for many years.

The Mortgage provides that the Railway Company, as holder of the stock of the Railroad Company, will not give its consent to the issue of any bonds under the Refunding Mortgage of the Railroad Company in excess of the amount now authorized, namely, \$40,000,000, except when such additional issue is expressly authorized by a three-fourths vote of the entire Board of Directors of the Railroad Company and approved by a three-fourths vote of the entire Board of Directors of the Railway Company. The Mortgage further provides for the case of ultimate consolidation or merger of the Railway Company.

The total authorized issue of Three and One-Half per Cent

First Lien Fifty-Year Gold Bonds is \$22,000,000, all of which have been issued to fund indebtedness incurred in the acquisition of the above mentioned line of railroad from Springfield to Grove, and the shares of the Capital Stock of The Chic. & Alton Railroad Co. deposited thereunder, as follows:

The proceeds of \$5,000,000 face value of said bonds were used and applied in payment for said railroad, formerly of the St. Louis Peoria & Northern Railway Company, and the proceeds of the remainder of said bonds were used and applied in part payment for shares of the Capital Stock of The Chicago & Alton Railroad Company.

CAPITAL STOCK.

The total authorized amount of the Preferred Stock of The Chicago & Alton Railway Company is \$20,000,000, divided into 200,000 shares of the par value of \$100 each. Of these shares 195,440 have been issued and sold. The remaining shares, viz., 4,560 shares of Preferred Stock, are unissued. The rights of the holders of the Preferred Stock are set forth in the Company's Articles of Incorporation as follows: "The holders of Preferred Stock shall be entitled to a yearly preferred non-cumulative dividend of Four Per Cent, payable semi-an-

nually, if declared by the Board of Directors, before any dividend shall be set apart or paid on the Common Stock. The balance of the net profits of the Company appropriated in any year to dividends shall, after the payment of the said Four Per Cent non-cumulative dividends on the Preferred Stock, be distributable among the holders of Common Stock. In case of liquidation or dissolution of the Company, the holders of Preferred Stock shall be entitled to be paid in full the par value of their shares before any amount is paid to the holders of Common Stock; but after the payment, on any such liquidation or dissolution, to the holders of the Preferred Stock of its par value, the remaining assets and funds shall be divided pro rata among the holders of Common Stock."

The total authorized amount of the Common Stock is

The total authorized amount of the Common Stock is \$20,000,000, divided into 200,000 shares of the par value of \$100 each, of which 195,428 shares have been issued and sold. The remaining shares, viz., 4,572 shares of Common Stock,

are unissued.

Of the Preferred Stock, 550 shares were issued for cash, and all of the remaining out-tanding Capital Stock, viz., 194,890 shares of Preferred and 195,428 shares of Common Stock, were used to acquire and in part pay for shares of the Capital Stock of The Chicago & Alton Railroad Company. EARNINGS.

The income of the Railway Company will be derived from the earnings of the road owned in fee and from dividends which may be declared upon the shares of the Preferred and Common Stock of The Chicago & Alton Railroad Company.

As the Railway Company has been in existence less than one year, the earnings of the Chicago & Alton Railroad for the years ending December 31, 1897, December 31, 1898, and December 31, 1899, are given, viz:

BOARD OF DIRECTORS.—The Board of Directors of the Chicago & Alton Railway Company is constituted as follows: E. H. Harriman, S. M. Felton, James Stillman, George J. Gould, Mortimer L. Schiff, J. W. Doane, N. B. Ream, J. J. Mitchell, C. H. Chappell, B. Winston and R. Brand.

The Executive Committee of the Board of Directors is as follows: E. H. Harriman, James Stillman, George J. Gould,

J. W. Doane and Mortimer L. Schiff.

Officers.—Chairman of the Executive Committee, E. H. Harriman, New York; President, S. M. Felton, Chicago; Vice-President, W. D. Cornish, New York; Secretary, Alex. Millar, New York; Treasurer, F. V. S. Crosby, New York. The Company has an agency at No. 120 Broadway, in the City of New York, where its stock is transferred and its bonds are registered and coupons payable. The United

States Trust Company of New York is Registrar of the Preferred and Common Stock of the Company.

Respectfully THE CHICAGO & ALTON RAILWAY COMPANY

By W. D. Cornish, Vice President.
The Committee on Stock Lists recommended that the above described \$22,000,000 Three and One-Half per Cent above-described \$22,000,000 Three and One-Hair per Cent First Lien Fifty-Year Gold Coupon Bonds of 1950, \$19,544,000 Four per Cent Non-Cumulative Preferred Stock, and \$19,-542,800 Common Stock be admitted to the list. The bonds are in coupon form, of the denomination of \$1,000 each, numbered from 1 to 22,000 inclusive. They may be con-verted into Registered Bonds and re-converted into Coupon Bonds.

Adopted by Governing Committee Nov. 14, 1900.

Pratt & Whitney Co.—Incorporated.—This company was incorporated in New Jersey, Nov. 12. with \$2,750,000 capital stock, as successor of the Pratt & Whitney Co. of Connecticut. The Niles Bement Pond Co. will control the new company and guarantee dividends at the rate of 6 per cent per annum on the \$1,225,000 of preferred stock, per plan in V. 71, p. 139. At a meeting on Wednesday the plan was formally ratified by the stockholders of the old Pratt & Whitney Co., who, it is stated, had previously given unanimous assent.

The guaranty of dividends is as follows:

The second party shall and will, in consideration of the sale to it of said common stock, enter into a contract of guaranty * * * that if upon any quarterly dividend day of the said proposed Pratt & Whitney Co. its earnings applicable under its charter to dividends shall be insufficient to pay its preferred dividends then due and accumula ed, then that it, the second party, shall and will pay to the proposed Pratt & Whitney Co. such amount of money as, with the said earnings, if any, of the latter, will enable it to pay its said preferred dividends then due and accumulated, provided that the earnings of the said second party applicable under its charter to dividends shall at such times have been sufficient to enable it to pay all dividends then due and accumulated upon its preferred stock.—V. 71, p. 393, 185.

Stock Quotation Telegraph Co.—Called Bonds —The following mortgage bonds of 1888, viz.: Nos. 45, 59, 160, 172, 177, 200, 203, 206, 280, 335. have been drawn and will be paid at par at the Central Trust Co., New York, on Feb. 1, 1901.— V. 70, p. 86.

Suburban Electric (Light) Co. of Covington. — Sale Again Postponed.—The bankruptcy sale was again postponed on Nov. 10, for thirty days in order to give the trustee, Charles H. Shaw, time to perfect plans for the reorganization of the company.—V. 71, p. 713, 290.

Tyrone (Pa.) Gas & Water Co.—Purchase.—The borough of Tyrone it is stated has voted to issue \$100,000 bonds for the purchase of the company's plant.

Westchester Lighting Co.—Incorporated.—This company was incorporated on Nov. 6 with \$2,500,000 of stock, of which \$500,000 is 5 p. c. preferred (cumulative after Jan. 1, 1904), to supply gas and electricity in the city of New York, the cities of Yonkers, New Rochelle and Mount Vernon, and the towns and villages of Westchester County, etc. The par value of shares is \$100. The directors are:

Charles W. Squires, Charles H. Werner, Richard F. McKiniry, Nathan D. Daboll, M. J. Warner, and Reginald H. Giles of New York City, and Louis B. Grant, Charles M. Heminway and Harry A. Kenworthy of Brooklyn.

Wheeling (West Va.) Iron & Steel Co.—Steel Pipe Works —The company has let contracts for the erection and equipment of a wrought steel pipe plant at Benwood, W. Va, The cost, it is said, will be \$500,000.

Youngstown Gas & Electric Light Co.—Consolidation.— See "Snaron Youngstown," under RRs.—V. 71, p. 767, 566.

- -Moody's Manual of Industrial and Miscellaneous Securities is the title of a volume of 1,100 pages, just issued by The O. C. Lewis Company, 6 Wall Street, New York. The book embraces statements of about 1,800 distinct corporations, coving the contract of the c ering not only the leading industrial and miscellaneous securities known to the New York market, but also those dealt in in other important American cities, such as Boston, Philadelphia, Chicago and Pittsburg. The last section of the book is given up to a series of articles or reviews on the Corporation Laws of New Jersey, Delaware and West Virginia. The article on the New Jersey law is by Jno. S. Parker, of the law firm of Dill, Bomeisher & Baldwin; that on the Delaware law was written by I. Francet Smith, of the on the Delaware law was written by J. Ernest Smith, of the Delaware Bar, while the West Virginia article is from the pen of A. Parker Nevin, counsel of the Lawyers' Incorporation Co., New York City. The book is 6x91/2 inches in size, and is bound in red cloth. Price \$5 00 per copy. The editor, Mr. John Moody, was for many years statistician of the banking house of Spencer Trask & Co., New York.
- -Messrs. John L. Williams & Sons, Richmond, invite the attention of investors to the 8 per-cent preferred stock of the Virginia-Carolina Chemical Co. The company owns fortyone factories for the manufacture of fertilizers; also pyrite and sulphur mines, phosphate lands, cotton-seed oil mills, and other properties. See particulars in advertisement The same house offers for sale State of Virginia 3-per-cent century bonds
- -Detroit Rochester Romeo & Lake Orion Railway Co., Detroit, Mich., five per cent first mortgage sinking fund gold bonds are offered for sale at par and interest by C. H. White & Co., 71 Broadway, New York. The advertisement is on page vii. A map of the road will be found on page 36 of the STREET RAILWAY SUPPLEMENT. A special circular can be had on application to the advertisers.
- -Attention is called to the offering of \$500,000 Swift & Co. first mortgage 5 per cent bonds, advertised in another column. The bonds are part of an issue of \$5,000,000, covering the Swift & Co. plant, estimated to be worth over \$11,000,000. The net earnings exceed \$2,000,000 per annum.
- -C. I. Hudson & Co. advertise to receive advance subscriptions for the City of Cologne, Germany, new gold 4 per cent public works bonds at 99½. Details of debt, &c., are contained in the advertisement on page vii.
- -Attention is called to the offering of \$150,000 Chicago 6 per cent improvement bonds by T. B. Potter, 172 Washington Street, Chicago. See advertisement in municipal department of the CHRONICLE.
- On page viii. will be found a list of guaranteed stocks and high-grade investment bonds offered by Redmond, Kerr & Co.

The Commercial Limes.

COMMERCIAL EPITOME.

FRIDAY NIGHT, Nov. 16, 1900.

Advices received from practically all sections of the country have noted a steady increase in business activity the past week. Manufacturers who had been working their factories and mills on short time, pending the result of the election, are resuming work on full time. Salesmen are quite generally on the road, and their returns show that the trade has, as a rule, renewed confidence in the future prospects for business, orders being pretty freely booked. Prospective building of new mills and increasing the capacity of existing plants have been reported in some lines and this is looked upon as further evidence of the confidence existing in the outlook for continued business prosperity. Another factor that has been favorable to trade has been the prevalence of seasonable weather conditions. The question of reducing the existing war taxes is beginning to receive considerable attention. The belief appears to be general that changes will be made, especially in the stamp taxes, at the next meeting of Congress.

Lard on the spot has had only a limited sale, demand from both exporters and refiners being light; prices have advanced on light offerings, closing at 7.60@7.65c. for prime Western and 7:15c. for prime City. Refined lard has been firmer, but business has been quiet, closing at 7.75c. for refined for the Continent. Speculation in lard for future delivery at the Western market has been moderately active and prices have advanced on the light receipts of swine. The

close was firm.

DAILY CLOSING PRICES OF LARD FUTURES.

Mon. 7.55 Tues. 7.45 Wed. 7.50 Thurs. 7.65 8at. 7.50

Pork has had a better sale and prices have ruled firm, closing at \$12 25@13 for old mess, \$13 50@13 75 for new mess, \$15 75@16 00 for family and \$14 50@17 00 for short clear. Cut meats have had a limited sale at steady prices, closing at 64c. for pickled shoulders, 834@91/2c. for pickled hams and 9@93/4c. for pickled bellies, 14@10 ibs. average. Beef has been firm but quiet, closing at \$9 for mess, \$10 50 for packet, \$11 50@12 for family and \$14 25@16 50 for extra India mass in tierces. Tallow has been firmer, closing at 43/4/441/8c. Stearines have been firmer and oleo has been in better demand, closing at $8\frac{1}{4}$ @ $8\frac{1}{2}$ c. for lard stearine and $6\frac{3}{4}$ @7c. for oleo stearine. Cotton seed oil has had a fair sale and prices have advanced to 331/2@34c. for prime yellow. Butter has been in light supply for desirable grades and prices have advanced to 18@27c. for creamery. Cheese has been quiet but steady at 91/2@11c. for State factory, full cream. Fresh eggs have been in small supply and prices have advanced, closing at 27c. for choice

Brazil grades of coffee have been dull and lower. The trade generally has been a slow buyer and under free offerings prices have declined, closing flat at 73/4c. for Rio No. 7. West India growths have had only a small sale but prices have held about steady, at 93/4@10c. for good Cucuta. East India growths have been quiet and unchanged. Speculation in the market for contracts has been fairly active but at lower prices; a continued large crop movement and favorable crop news have prompted liquidation. The close was easy. The following were the final asking prices:

Raw sugars have been firm but quiet. Offerings have been light. Refiners are buyers at 4%c. for centritugals, 96-deg. test, and 3%c. for muscovado, 89-deg. test. Refined sugar has been in better demand and steady at 5.60c. for granulated. Other groceries have been unchanged.

Kentucky tobacco has had a moderate sale at unchanged prices. Seed leaf tobacco has been in fairly active demand at fairly full values. Sales for the week were 3,400 cases, as follows: 1,000 cases 1899 crop. Pennsylvania seed leaf, 12@12½c; 600 cases 1899 crop. Zimmers, 15@15½c.; 100 cases 1898 crop. Zimmers, 14c.; 1,325 cases 1899 crop. Wisconsin. Haven 11 m15c; 2,110 cases 1899 crop. Gebbarts, 13@ sin Havana, 11@15c.; 2,110 cases 1899 crop, Gebharts, 13@13½c.; 100 cases 1899 crop, New England Havana, 20@50c., and 75 cases 1899 crop, New England seed, 23@35c.; also 600 bales Havana at 35@900. in bond and 150 bales Sumatra at 80c.@\$1 60 in bond.

Straits tin has had a moderate sale and on steadier foreign advices prices have improved to 28.75@29c., closing steady. Ingot copper has been in fair demand on contracts, closing steady at 1634@17c. for Lake. Lead has been quiet and unchanged at 4.37½c. for domestic. Spelter has been firm and higher, closing at 4.27½@4.32½ for domestic. Pigiron has been in fairly good demand and firm at 13@16c. for

Refined petroleum has been easier, closing at 7.25c. in bbls., 4.70c. in bulk and 8.55c. in cases. Naphtha unchanged at 9.55c. Crude certificates have been neglected. Credit balances have weakened to \$1 05. Spirits turpentine has been in moderate demand and firmer, closing at 441/2@45c. R sins have been firm and prices have advanced to \$160 for common and good strained. Wool has had only a limited sale. Hops have continued to meet with a steady demand at firm prices.

COTTON.

FRIDAY NIGHT, November 16, 1900.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 278,572 bales, against 295,732 bales last week and 300,450 bales the previous week, making the total receipts since the 1st of Sept., 1900, 2,794.987 bales, against 2,559,112 bales for the same period of 1899 showing an increase since Sept.1, 1900, of 190,875 bales.

Speculation in cotton for future delivery has been fairly active and the tendency of prices has been towards a higher basis. The feature has been the crop news. Killing frost occurred in Texas at the opening of the week; this, with the killing frosts that occurred in the cotton belt at the close of last week, brought the yield of the present crop to an end. The crop movement also has been a bullish factor, the receipts, particularly at the ports, not coming up to expectations. Many believe that planters will held the cotton back, and that the consequent light crop movement will have a tendency to strengthen the belief in a small crop. American spinners have been reported as the principal buyers of the staple, and their purchases do not as a rule in fluence the movement to Continental buyers, it is stated, have not been in the market for several weeks and Liverpool has been reported as only a very moderate buyer. During the latter part of the week the near-by deliveries showed especial firmness, the short interest apparently exhibiting some nervousness over the slowness with which local stocks have increased. day there was an unettled market. The opening was steady, reflecting firmer foreign advices. Subsequently it became known that Mr. Ellison esti nated the requirements of American cotton for the present season at 10,000,000 bales; this prompted moderate selling. On light estimated receipt for Saturday at New Orleans and Houston, the market turned steady, but during the late trading realizing sales again weakened values. The close was barely st-ady, with prices 5 points higher for November but 2 to 14 points lower for other months, with the weakness most pronounced in the distant deliveries. Cotton on the spot has been firmer, closing at 9% c. for middling uplands.

On the basis of the rates on and off middling as established by the Revision Committee, the prices for a few of the

grades would be as follows:

| UPLANDS. | Sat. | Mon | Tues | Wed | Tb. | Fri. |

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph, is as follows. Continental stocks, as well as those for Great Britain and the afloat, are this week's returns, and consequently all European figures are brought down to Thursday evening. But to make the total the complete figures for to-night (Nov.16), we add the item of exports from the United States, including in it the exports of Friday only,

1900.

Continental imports past week have been 107,000 hales. The above figures indicate a decrease in 1900 of 772,143 bales as compared with same date of 1899, a loss of 1,226,776 bales from 1898 and a decline of 373,834 bales from 1897.

AT THE INTERIOR TOWNS the movement—that is the receipts for the week and since September 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period of 1899—is set out in detail below.

The above totals show that the interior stocks have inmeased during the week 44,015 bales, and are to-night 140,994 bales less than at same period last year. The receipts at all towns have been 28,218 bales more than same week last year.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.—
We give below a statement showing the overland movement
for the week and since Sept. 1, as made up from telegraphic
eports Friday night. The results for the week ending
Nov. 16 and since Sept. 1 in the last two years are as follows.

| | 19 | 900. | 1899. | | | | |
|------------------------------------------|----------------------|----------------|--------|-------------------|--|--|--|
| November 16. | Week. Since Sept. 1. | | Week. | Since Sept. 1. | | | |
| Shipped— | | | | | | | |
| Via st. Louis | 60.209 | 288,803 | 44.084 | 259,700 | | | |

WEATHER REPORTS BY TELEGRAPH.—Our telegraphic ad vices from the South this evening denote that low temper ature has been general during the week with killing frost in many localities. The weather has been favorable for gathering cotton, dry weather having prevailed in most sections.

Galveston. Texas.—We have had no rain during the week. Average thermometer 56, highest 70 and lowest 42.

Abilene, Texas.—It has rained on one day of the week, to the extent of twenty one hundredths of an inch. Killing frost on 12th and 13th. The thermometer has averaged 49,

the highest being 68 and the lowest 30.

Corpus Christi, Texas.—Rain has fallen on one day of the week, the rainfall being one hundredth of an inch. The thermometer has averaged 56, ranging from 38 to 74.

Palestine, Texas.—Dry weather has prevailed all the week. Killing frost on the 12th and 13th. The thermometer has

ranged from 30 to 72, averaging 51.

San Antonio, Texas —We have had rain on one day of the week, the precipitation being ninety hundredths of an inch. Killing frost on two nights. Average thermometer 52, highest 74 and lowest 30.

New Orleans, Louisiana. - We have had no rain during the

week. Average thermometer 55.

Shreveport, Louisiana.—Rain has fallen on one day of the week, the rainfall being two hundredths of an inch. The thermometer has averaged 48, the highest being 76 and the lowest 29.

Columbus, Mississippi.—The weather has been favorable the past week with no rain. The movement is becoming slow. The thermometer has averaged 49, ranging from 28 to 70.

Vicksburg, Mississippi.—There has been but a trace of rain, on one day of the week. Thermometer has ranged from 32 to 75.

Greenville, Mississippi.—The weather has been clear and

cold during the week, with heavy frost.

Little Rock, Arkansas.—There has been no rain during the week-favorable weather for gathering crops. mometer averaged 47, ranging from 27 to 68. Ther-

Helena, Arkansas.—Picking is nearly finished. We have had light rain on one day of the week, the precipitation reaching ten hundredths of an inch. The thermometer thas ranged from 29 to 65, averaging 44.

Memphis, Tennessee.—Picking and marketing are progressing well. There has been rain on one day of the past week, the rainfall reaching four hundredths of an inch. Average thermometer 42.8, highest 64.9 and lowest 30.7.

Nashville, Tennessee. - Dry weather has prevailed all the week. The thermometer has averaged 45, the highest being 64 and the lowest 26.

Mobile, Alabama.—Freezing weather was experienced in the interior early in the week. It has been dry all the week. The thermometer has averaged 50, ranging from 36 to 73.

Montgomery, Alabama.—Frost has occurred on three nights. There has been no rain the past week. Thermome-

ter has ranged from 32 to 72, averaging 49.

Augusta, Georgia.—It has rained on one day of the week to an inappreciable extent. The thermometer has averaged

47, ranging from 31 to 70. Savannah, Georgia.—There has been rain on two days of the week, the rainfall reaching five hundredths of an inch. Thermometer has ranged from 36 to 73, averaging 53.

Charleston, South Carolina.—There has been rain on two days of the week, to the extent of thirteen hundredths of an inch. The thermometer has averaged 53, the highest being 72 and the lowest 36.

Stateburg, South Carolina.—Killing frost on three days of the week, with thin ice on low grounds. Very little cotton remains in the field. Dry weather has prevailed all the week. The thermometer has averaged 49 6, the highest being 69 and

Greenwood, South Carolina.—It has been dry all the week, There is no top crop. Average thermometer 43, ranging

Charlotte, North Carolina.—The week's rainfall has been

but one nundredth of an inch. The thermometer has ranged from 29 to 67, averaging 48.

The following statement we have also received by telegraph. showing the height of the rivers at the points named at 3 o'clock Nov. 15, 1900, and Nov. 16, 1899

BREADSTUFFS.

FRIDAY, Nov. 16, 1900.

Business for the week in the market for wheat flour has been on a very moderate scale, but prices have held about steady. According to reports current in the trade, large sales of spring patents were made recently in the local market at \$4@4 10, supplying the wants of buyers for some little time to come. Kansas flours are reported sold ahead and values have been well maintained. Winter wheat patents have had a limited sale at steady prices. City mills have been quiet and unchanged. Rye flour has had a fair sale in jobbing lots at steady prices. Demand for buckwheat flour has improved with the more seasonable weather and prices have proved with the more seasonable weather, and prices have been firmer. Corn meal has been in more active demand and

Speculation in wheat for future delivery has been fairly active. At the opening of the week prices advanced, the rise in values on Monday amounting to 3/6/3/c. There was more activity to the buying, and this, coupled with reports of a large export business and decidedly stronger advices from Antwerp, which was supposed to be influenced by the crop news from Argentine were the prime factors in the advance. The increase in the visible supply was less than half the amount on the corresponding date last year. Primary receipts were decreasing, running smaller than at this time last year. World's shipments were large, the exports of Russian and Danubian wheat being especially heavy. Advices from the winter-wheat belt have reported generally favorable condition, but some talk has been heard to the effect that the acreage planted in the middle Western States shows a moderate decrease from last year. During the latter part of the week there developed a weaker undertone. The increase in the world's visible supply was larger than expected. The large available supplies in sight had a tendency to dsscourage speculative holders, and as the advices from Liverpool came unexpectedly weaker, they turned sellers, to liquidate their accounts, under which prices declined. Business in the spot market has been fairly active, as exporters have been buying; prices have followed futures. To-day there was an easier market under general selling, prompted by tame foreign advices. The spot market was moderately The sales for export here and at outports were 260,000 bushels.

Indian corn futures have received slightly increased atten-The tone of the market has held steady and only frac tional changes have been made in prices. Clear, cold weather has been noted in the West, favorable for an increase in the crop movement. Primal markets, however, have reported only moderate country acceptances. Statistically the position of the market continued a fairly strong one. Stocks were small and decreasing. The visible supply, as reported on Monday, showed a fairly large decrease. The amount on passage to Europe, also, is only half the quantity reported at this time last year. Business in the spot market has been fairly active, exporters being moderately free buyers here and at outports; prices have held steady. To-day the market was quiet and prices weakened slightly. The spot market was fairly active, the sales for export here and at outports amounting to 410,000 bushels.

AGRICULTURAL DEPARTMENT'S REPORT —The Agricultural Department's report on the cereal and other crops was issued on November 15, and is given below.

on November 15, and 18 given below.

The preliminary estimate of the average yield per acre of corn in 1900, as published in the forthcoming mouthly report of the Statistician of the Department of Agriculture is 25.3 bushels, as compared with an average yield of 25.3 bushels in 1899, of 24.76 bushels in 1898 and a ten year average of 24.1 bushels. The ludic sted yield per acre in Ohio 18.37 bushels. in Indiana and Iowa 3, in Illinois 7, in Missouri 28, in Kansas 19 and in Nebraska 26 bushels. The average as to quality is 85.5 per cent, as compared with 87.2 per cent last year and 82.7 per cent in November, 1898. It is estimated that 4.4 per cent of the corn crop of 189.4 was still in the hands of farmers on November 1, 1900, as compared with 5.9 per cent of the crop of 1898 in farmers' hands on November 1, 1895, and 7.25 per cent of that of 1897 in hand on November 1, 1895.

The indicated yield of corn for the whole country for 1000.

The indicated yield of corn for the whole country for 1900 makes the following comparison with the results for the four preceding years:

CORN CROP FOR FIVE YEARS.

The preliminary estimate of the average yield per acre of buck-wheat is 15 bushels, against an average yield of 16'56 bushels in 1899, 17'28 bushels in 1898, and a ten year average of 16'8 bushels. The average for New York and Pennsylvania, the two States of principal production, is 14 bushels. The average as to quality is 90'2 per cent, against 88'4 per cent in November last and 85'z per cent in November, 1898.

The preliminary estimate of the average yield per acre of potatoes is 80 8 bushels, against an average yield of 88.63 bushels in 1899, 75.19 bushels in 1898, and a ten-year average of 76.6 bushels. The average as to quality is 88.1 per cent, against 91.4 per cent in November last and 81.7 per cent in November, 1898.

The preliminary estimate of the average yield per acre of hay is 1.28 tons, against an average of 1.35 tons in 1899, 1.55 tons in 1898 and a ten-year average of 1.28 tons. The average as to quality is 89.7 per cent. against 93 8 per cent in November last and 95.3 per cent in November, 1898.

A preliminary estimate of the cotton crop, based upon reports from the Department's regular (correspondents, from ginners and from individual planters, supplemented by the investigations of special agents, will be issued ear y in December.

An estimate of the wh-at crop will be issued as soon as the individual farm returns are available for comparison with the reports of the Department's regular correspondents. This will be not later than December 10.

December 10.

The average indicated yield per acre of the various crop⁸ for a number of years is as follows:

| | AVERAGE YIELD PER ACRE. | | | | | | | |

† Includes stocks in private elevators at Milwaukee.

*Stocks in private elevators at Milwaukee not included.
NOTE.—Beginning July 1, 1899, the New York Produce Exchange has changed its Visible Supply Statement by inclu ing stocks at New Orleans, Galveston, Ft. William and Pt. Arthur (previously omitted) and leaving out Albany Oswego and Cincinnati, formerly included.

THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., Nov. 16, 1900.

Market conditions show a slight improvement over the last two or three weeks, and though there is no general activity yet, there is a feeling of increased hopefulness and faith in the situation. The inactivity of the few days immediately subsequent to election caused some holders to weaken in their ideas, which has continued in a few certain qualities, but for the most part where before sellers have shown any inc ination to accede to the demands of buyers, this position has changed somewhat and the buyer is discovering that it is impossible to weaken the agent in his opinions. On some of the heavier and cheaper grades of cottons manufacturers are said to be accumulating stocks under the small demand in progress, and in consequence are becoming rather uneasy, though no open reduction has been made. The principal feature of the week has been the naming of new prices on staple prints. These figures show a slight advance, but not as much as was generally expected. The business done at old figures makes possible a dragging market for some time to come, with buyers well filled up with stocks at the old level. Carpet prices have also been announced during the week, an advance of about 5 per cent being recorded. The opening days proved very satisfactory to sellers, a large business having been booked. In ingrains the situation is not as encouraging, for it has been impossible to secure an advance, and although quotations have not been openly made, it is reported that the goods are selling on a basis of last season's closing prices, which are 2½ cents down from the opening level.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending Nov. 12 were 2,498 valued at \$151,832, their destination being to the ckages. points specified in the tables below:

| Total | 2,498 | 273,203 | 11,511 | 363,722 | | |

The value of the New York exports for the year to date have been \$12,218.243 in 1900, against \$13,340,597 in 1899.

With the exception of heavy brown goods the market remains very firm, with sellers showing no disposition to ac-

cede to buyers' attacks. On heavy grades of staple brown cottons a slight irregularity is noticeable, especially on 3-yard and standard sheetings and drills. Although 3 yards are currently quoted at 534c., there are reports of transactions at 51/2c., while re-sales of export qualities have been made at 51/4c. and below. Little demand is noted in the export field, but mills are not radically curtailing. On this account there is some uneasiness expressed at the accumulation of stocks. Light and finer qualities of brown sheetings are quiet, but prices are firm. Ducks and osnaburgs show no development of movement, though prices are firm. Denims continue quiet, with a difference between buyers and sellers regarding prices. Linings are unchanged. Kid finished cambrics are still quoted at 35%c., with an indifferent demand in progress. An advance has taken place in certain lines of staple prints. American indigo blues have been put at 43/4 cents, with other grades advanced in proportion. Merrimack shirting print have been advanced 1/4 cent, to 41/4 cents, but no announcement has been made concerning indigo blues. A few others have made revised prices on blacks and grays, but the majority have not as yet made announcements on light fancy work. Jobbers are said to be selling prints at present price wherever the opp rounity offers rather than wait for increased prices. The print cloths market is quiet but steady at old prices, regulars being quoted at 31/8 cents for 64-squares. A small business has been noted in 381/2 inch 64-square cloths at 4% cents.

Woolen Goods.-Reports of very low prices on spot woolens have been received by the local trade, which may account in part for the increased movement in these qualities. The cooler weather may be made partly responsible. as clothiers's stocks of heavy-weights are not large, and should a fair late demand spring up it might be difficult to secure all the goods necessary on schedule time. Agents are anticipating a fair duplicate business, though a great deal depends upon the success of wholesale clothiers' travelers, many of whom are at present visiting their trade. Overcoatings of the better order are moving with more treedom, though orders are for small quantities, which would seem to indicate that stocks in buyers' hands are light. Spring dress goods are moving a little more rapidly, and the jobber is commencing to put his men on the road with advance samples. Plain sheer fabrics are among the most favored articles. Flannels and blankets are firm though quiet.

FOREIGN DRY GOODS.—Batistes, veilings and crepes are being taken with fair freedom by dress goods buyers. and ribbots are unchanged, the former showing little development with the exception of printed effects Linens are tending against the buyer. Burlaps are unchanged at firm prices, with small stocks and forward deliveries higher.

Importations and Warehouse Withdrawals of Dry Goods The importations and warehouse withdrawals of dry goods at this port for the week ending Nov. 15, 1900, and since January 1, 1900, and for the corresponding periods of last year are as follows:

Proposals are again asked for until November 22. For full description of these bonds see Chronicle Oct. 20, p. 825.

O'Fallon (III.) School District.—Bond Offering.—Proposals will be received until 8 P. M., December 3, by the Secretary of the Board of Education, for \$10.000 5% school-house bonds. Securities are dated April 2, 1901. Interest will be payable annually at the office of the Township Treasurer. Principal will mature \$1,000 April 2, 1906; \$3,000 April 2, 1916, and \$2,000 April 2, 1921. 1911; \$3,000 April 2, 1916, and \$3,000 April 2, 1921. A certified check for 3% of the amount bid, payable to the Secre-

tary, must accompany proposals.

Omaha, Neb.—Bonds Voted.—At the recent election the issuance of \$75,000 street and \$75,000 sewer bonds was authorized. We are advised that these bonds will be issued in 1901 and 1902 in such sums as may be needed for the im-

provements.

Omaha (Neb.) School District.—Bonds Voted.—At the general election the issuance of \$40,000 4% 20-year high-school bonds was authorized. These bonds will be dated Jan. 1, 1901. Interest will be payable semi-annually in New York City.

Owensboro, Ky.—Bonds Voted.—At the general election the proposition to issue \$200,000 4% 10-30-year (optional) water bonds carried. Securities will be dated Jan. 1, 1901, and will be offered for sale about Dec. 15, 1900.

Paris (Texas) School District.—Bond Sale.—We are advised that the \$19,500 school-building bonds recently regis-

tered have been sold.

Perry County, Ill.—Bond Vote.—The vote at the election November 6 on the question of issuing \$175,000 4% refunding bonds was 2,368 in favor and 1,362 against their issuance. We are advised that there were 1,100 persons voting at the election who did not vote on the bond proposition, and that there is some doubt whether it takes a majority of all the votes cast at the election to authorize or only a majority of

the votes cast on the bond proposition.

Plymouth County, Iowa.—No Bonas Probable.—We are advised that at the election held November 6 the proposition to build a \$40,000 court house carried, but that it will prob-

ably not be necessary to issue bonds.

Portage, Wis .- Loan Authorized .- The City Council has arranged for a loan of \$18,000 from the State for a new city

Port Gibson, Miss.—Bond Sale.—On November 5 the \$12,-000 6% bonds were awarded to Seasongood & Mayer, Cincinnati, at 106 t66. For description of issue see Chronicle Oct. 20. p. 825.

Rucine, Wis.-Bonds Voted.-The vote in favor of issuing \$50,000 paving bonds at the recent election was 3,838, while the negative vote was 1,790.

Ramapo (N. Y.) School District No. 1.—Bond Sale.—On

Securities are in denomination of \$1,000, dated Nov. 15, 1900. Interest will be payable annually and the principal

will mature \$1,000 yearly on November 15 from 1901 to 1910, Rock Island. Ill.—Bond Sale.—It is stated that the \$40.-000 5% 5-12 year (serial) water bonds, bids for which were received on November 5, have been sold at 102.089. For description of bonds see Chronicle Nov. 3, p. 931.

Salem, Ind.—Bond Sale.—On Oct. 31 \$5 500 5% school bonds were awarded to Campbell, Wild & Co., Indianapolis, at 103. Securities are in denomination of \$500. Interest will be payable January 1 and July 1 at the office of the Town Treasurer or at the Western National Bank of New York City. Principal will mature in 15 years, subject to call after 5 years.

Salem, Mass.—Bond Sale—The Sinking Fund has taken an issue of \$3,275 3½% municipal bonds of this city. Securities are dated Nov. 1, 1900, and will mature in one year.

Santa Barbara (Cal.) School District.—Bonds Voted.—This district on November 5 voted in favor of issuing bonds for a new high school building.

for a new high school building.

Schuyler County, III.—Bonds Voted.—The proposition to issue \$12 (00 jail bonds carried at the recent election.

Sedgwick County, Kan.—Bond Election.—At an election to be held November 20 the question of issuing \$80,000 4% 10-20-year (optional) bonds in aid of the Kansas City Mexico & Orient Railway will be voted upon

Shelby County, Ohio.—Bonds Defeated.—The issuance of bonds for the purchase of fair grounds was defeated at the recent election.

Stewart, McLeod County, Minn.—Bond Offering.—Proposals will be received until 1 P. M., November 24, by the Village Council, for \$7,000 5% water-works bonds Securities are in denomination of \$700, dated Dec. 1, 1900. Interest will be revealed as a second securities are in denomination of \$700, dated Dec. 1, 1900. est will be payable semi-annually and the principal will ma ture one bond yearly on December 1 from 1910 to 1919, inclusive. Ernest Baumgarten is Village Recorder.

Summit County, Ohio.—Bonds Defeated.—The proposition to issue bonds for a court house was voted down at the recent election.

Syracuse, N. Y.—Loans Authorized and Negotiated.—The Common Council has authorized loans aggregating \$816,000 in anticipation of the collection of taxes for 1900. Loans are for the purpose of retiring various notes maturing during the

month of November. These loans, we are advised, were only authorized in case the tax of 1900, on which the old loans were issued, was not collected sufficiently to meet them when due. It was found that only a loan of \$166,000 was necessary, and this has been negotiated through Duns: omb & Jennison, New York City, at 4.90%.

Thief River Falls, Minn.—Bond Sale.—Following are the bids received Newspaper 5 for the \$4,500.5% 15 received leaves.

bids received November 5 for the \$4,500 5% 15 year gold elec-

tric-light plant bonds:

J. D. Cleghorn & Co., Minn....\$4,680 00 | Minn. L. & Tr. Co., Minn'lis...\$4,625 00 | Stoddard, Nye & Co., Minn.... 4,680 00 | Trowbridge & Niver Co., Chic... 4,607 50 | R. Kleybolte & Co., Cincin.... 4,655 00 | S. A. Kean, Chicago...... 4.522 50 | Kane & Co., Minneapolis..... 4,650 00 |

For description of bonds see CHRONICLE Oct. 27, p. 878.

Toledo, Ohio.—Bond Sale.—On November 9 the \$100,000 31/2% park bonds were awarded to Hooker, Nickerson & Co., Hartford, at 103 825—an interest basis of about 3 296%. Following are the bids:

Hooker, Nickerson & Co., Hartford. \$103,825 00 | P. S. Briggs & Co., Cincin... 102,050 00 P. S. Briggs & Co., Cincin... 102,050 00 New 1st Nat. B'k Columbus. 103,040 00 Seasongood & Mayer, Cin... 102,628 75 Lamprecht Bros. Co., Cleve. 101,000 00 Parson & Lose....... 102,320 00 Feder, Holzman & Co., Cin... 102,300 00

Bonds mature June 1, 1930. For full description see CHRON-

ICLE Oct. 27, p. 878.

Two Harbors, Minn.—Bond Offering.—Proposals will be received until 8 P. M., November 19. by M. T. Hannon, Village Recorder, for \$5.500.5% 10-year water and light-improvement bonds. Interest will be payable semi-annually. The bonded debt now outstanding is \$30,000, all for water purposes. The equalized valuation is \$360,686 and the real value about \$1.200.000. about \$1,200,000.

Tyrone, Pa.—Bonds Voted.—The voters of this borough on November 6 authorized the issuance of \$100,000 bonds for the purchase of the property of the Tyrone Gas & Water Co.

NEW LOANS.
