UNIFORM MUNICIPAL ACCOUNTS AND STATISTICS.

The attention of good citizens who are of a reforming spirit is being directed more and more to our municipalities, not alone because of political malad ministration, but also because of the unbusinesslike manner in which their affairs are being handled. The latter is true even of localities that are freed from the baneful effects of rule by politicians, who use the party machinery for private ends.

American cities, not being controlled by any central authority, exhibit an entire lack of co-operation between the different administrative departments, many of which, besides, are independent of a higher control. These departments in a large number of cases display a complete ignorance of the simplest principles of ac counting, and to make matters worse a system when once established is not permitted to remain, but changes with a change in management, so that no comparison of results over a series of years is possible. So serious has this condition become, and so great have the difficulties proven to those who have attempted scientific investigation of municipal problems on the basis of existing statistics, that steps have been taken by a number of scientific societies looking toward improvement. The Associations that have appointed committees on uniform municipal accounts and statistics are the American Gas Light Association, American Pablic Health Association, American Society of Civil Engineers, American Society of Municipal Improvement, Central States Water Works Association, National Electric Light Association, National Municipal League, New England Water Works Association and the New Jersey Sanitary Association. A number of other associations have signified their intention to take the subject under consideration.

HRONICLE.

The most recent report on the question was made to the American Economic Association at a meeting held in Detroit on December 29 by a committee of which Mr. M. N. Baker of the "Engineering News" is Chairman. As this report was not a final one the committee did not offer detailed methods of procedure, but confined itself to the presentation of the general plan. Municipal accounts, the committee maintained, should show clearly the cost of construction, depreciation and maintenance charges of each form of municipal activity, and should separate ordinary from extraordinary revenue and expenditures; the reports should summarize these facts and give in addition full statistical and descriptive information relating to the nature, extent, workings and results of the various municipal works; the full reports of the separate departments should be supplemented by condensed annual summaries, largely statistical, for the entire municipality. In other words, the project for reform has two distinct ends in view : first, uniform accounting, and, second, uniform methods of summarizing accounts for presentation in city reports, in order to give taxpayers a comprehensive idea of the methods and results of the various city departments and to make possible comparisons between different cities.

Bearing in mind the existence of committees of other jassociations prepared to handle the phases of municipal activity with which they are familiar, the committee suggested that the Economic Association might address itself to municipal taxation and finance, not of course from the standpoint of theory, but from that of uniform accounting and statistics. Such questions would include: the advisability of placing all taxes on real estate, compensation for municipal franchises, municipal ownership, and day labor versus the contract system.

The reform movement is now fairly under way, and what is at present needed is the co operation of the various reform agencies to the end that efforts may be directed with greater exactness and that duplication of activity may be avoided. The committee accordingly recommended the encouragement of cooperation between the various sanitary, engineering and other technical societies, in the hope that a general conference committee may be formed composed

of members from the committees of the societies, and that some one committee having a strong membership and backed by a society that can provide it with funds will act as a centre for the investigation and correlation of plans, and for finally presenting a complete scheme of uniform municipal accounts and reports. They urged further, that after such a plan had been formulated by co-operative effort, steps should be taken to secure its adoption by the municipalties through the agency of State boards of municipal control or special State commissions.

The committee suggests that much valuable information could be placed within the reach of investigators if the National Government published annually a comparative summary of municipal statistics of the whole country. We cannot think that course is at all necessary or advisable. The work belongs to the State and city, stimulated by these private societies and the people at large. Tumble any part of it over on to the General Government and we speedily transfer the responsibility so far from the activities and heart of the people as soon thereafter to relieve and destroy individual action and accountability. Besides, the fundamental principle of our political organization is a stern command to the Central power-"hands off from our municipalities." What the public needs is to get back to the town-meeting idea, and not lock as far as possible from itself for a scapegoat to carry burdens which duty and principle require should be removed or lifted through work done at the home centre. While therefore highly regarding the value of uniform methods of accounting and like summaries of statistics extending to as many cities as possible, we deprecate the interference of any de partment of the General Government in the undertaking. The present Census Office will no doubt issue exhibits which will perhaps furnish the public with facts more in detail than it now has with reference to the nature and extent of municipal activities; and so far as it does, those results can serve as a basis for detailed ir quiries by societies, State officials, etc.

The Economic Association continued the same committee in power, and thus endorsed the policy of the co-operation of scientific societies for the attainment of the ends sought. Although the net results of the reform movement are very small when compared with looked for in the near future.

SAVINGS BANK INVESTMENTS AND MUNICIPAL BONDS.

An inquiry into the subject of the investments of the savings banks of this State seems pertinent at the this privilege was extended so as to include (under the present time in view of recent discussions and events. same restrictions) roads of other States connecting On the one hand, it will be interesting to see what changes have taken place in the security holdings of these institutions as the result of the extension during the last few years of their permissible line of investments-that is, how largely they have availed of the privilege accorded under late amendments of the laws to place their moneys in new classes and kinds of obligations. On the other hand, it will be interesting to study these changes in the light of the movement of prices of municipal bonds, more particularly for the purpose of determining whether the course of municipal bond prices has been influenced by such changes. It may, perhaps, be recalled that the addition of new classes of investments was opposed by certhe bills had become laws at the date of this writing.

tain persons who argued that the effect must be to diminish the demand for municipal bonds, thereby lowering the price at which such bonds could be disposed of.

The enlargement of the scope of the investment field of the savings institutions in this State during the last decade has, as the reader knows, been very material. The enlargement has been accomplished through a gradually widening process, only one step at a time being made. The record of our law-makers in this respect, indeed, has been very conservative. They showed decided reluctance to extend the authority of the institutions so as to allow the purchase of new kinds and classes of obligations and may be said to have yielded only as necessity made it clearly manifest that the original category was surely inadequate. In an article in the STATE AND CITY SUPPLEMENT for April 1898 we reviewed the earlier of the steps in the process. All the banking laws of the State were revised in 1892. Savings banks were included in the revision, but no essential alterations were made in the investment features. As before, the institutions were limited in their choice to three classes of securities (independent of real estate mortgages), namely, (1) U. S. Government securities, including the bonds of the District of Columbia; (2) State securities, and (3) municipal securities of this State. In 1893 an amendment was made in the law which permitted the banks for the first time to invest in the securities of municipalities *outside* of this State. The provision was not a general one, taking in all outside cities, but comprised merely certain designated municipalities. The list was made up of Boston and Worcester, Mass.; St. Louis, Missouri; Cleveland, Ohio; Detroit, Michigan; Providence, R. I., and New Haven, Conn. In 1895 the list was enlarged by adding Cambridge, Lowell and Fall River, Mass.; Cincinnati and Toledo, Ohio; Grand Rapids, Mich.; Hartford, Conn.; Portland, Me.; Philadelphia, Pittsburg, Allegheny, Reading and Scranton, Penn.; Minneapolis and St. Paul, Minn,; Des Moines, Iowa; Milwaukee, Wis.; Louisville, Ky.; Paterson and Trenton, N. J., and Baltimore, Md. In 1896 Springfield, Mass., and Newark, N. J., were added to the list, and in 1897 Holyoke, Mass., and Camden, N. J.

what remains to be accomplished, the situation is by A more radical departure came in 1898, when privino means hopeless, and some improvement is to be lege was accorded to invest in railroad mortgage bonds under certain carefully defined restrictions and limitations. This early privilege, however, was a narrow one. It was circumscribed so as to include only railroad corporations of this State the principal part of whose road was located within the State. In 1899 with and controlled and operated as part of a system in this State, and also so as to include (under still more stringent requirements in certain respects) bonds of the Chicago & NorthWestern RR., the Chicago Burlington & Quincy, the Michigan Central, the Illinois Central, the Pennsylvania RR., the Delaware & Hudson Canal, the Delaware Lackawanna & West. ern, the New York New Haven & Hartford, the Beston & Maine and the Maine Central; also the Fonda Johnstown & Gloversville RR., which was put in a class by itself. In 1900 the Chicago & Alton was added to the list. At this year's session of the Legislature further additions have been proposed, but none of It follows as a matter of course that savings bank managers have not been slow to take advantage of the opportunities thus offered for extending their investments into these new fields. The purpose of this article is to show the aggregate extent of their purchases of this kind, and the influence of such purchases on their holdings of the old lines of securities. We have accordingly compiled the following statement giving the holdings of the various kinds and classes of bonds on January 1 1901, in comparison with corresponding figures of a number of previous years.

From the foregoing it is evident that the banks have availed very liberally of their new privileges. They held 80³/₄ millions of railroad mortgage bonds on January 1 1901, against none of this class of obligations on January 1 1898. It appears, nevertheless, that they have not neglected any of the old forms of permissible investments. Thus, they have been steadily adding to their holdings of bonds of cities in this State, and now report \$149,531,933 of such bonds on hand, against \$128,855,349 on January 1 1893, an increase in the three years of over $20\frac{1}{2}$ million dollars. The item of bonds of cities of other States now amounts to \$82,654,853, against \$52,300,426 in 1898, making an addition in the three years of 30 million dollars. Some of the minor items like town bonds show irregular changes, recording a decrease from earlier years, but no conclusions can be drawn from this, as there is never any considerable supply of these bonds, and old issues are constantly being paid off. The one leading class of obligations in which there is a marked decline is United States Government bonds, the total now being only 581 millions, against 1003 millions Jan. 1 1898 and 110 millions Jan. 1897. Here of course the high price to which the bonds have advanced and the low return netted by them furnishes a perfectly obvious explanation of the falling off. It will not escape notice that real estate bonds and mortgages still constitute the largest single item of investments, the aggregate of the same for January 1 1901 standing \$436,957,784. The corresponding total January 1 1898 was \$358,943,-901, so that in the three years the banks have enlarged their ownership of this form of obligations by 78 million dollars.

A fact of considerable importance in its bearing upon the changes here outlined is the great growth that is going on in the deposits and resources of the banks. Taking the resources as the best measure of the investment requirements of the banks, we may note that the aggregate of these resources last year passed the one-thousand million mark, and January 1 1901 reached \$1,066,019,217. On January 1 1898 the total was \$869,751,244, and on January 1 1893 it was but \$718,454,662. Hence in the three years since railroad bonds have been added to the list, the fands which the savings institutions have had to employ have increased 196 million dollars, and in the eight years since municipal bonds outside of this State were first brought within their province, the addition to the funds in their possession has been over 347 million dollars. When this circumstance is recalled and when furthermore it is remembered that there has been a coincident marked expansion in the deposits of the savings institutions in other States, and particularly in those of New England, not alone the wisdom but the pressing necessity which existed for opening these new fields to the banks would seem to be put beyond question.

It is nevertheless desirable to see what the course of prices of bonds of municipalities in this State has been in the three years since authority has been conferred upon the banks to buy railroad bonds. At the outset, however, it is well to remember that from the very nature of the case no positive conclusion can be drawn on the point as to whether the changes in the savings bank laws have had any influence upon such prices. Necessarily a variety of circumstances enter as factors into the course and tendency of prices over a given period. The supply of bonds offering, the condition of the money market, the state of general confidence, the state of trade and business and the opportunity afforded to ordinary moneyed capital for finding profitable employment in other directionsthese are all elements in the problem. In a broad, general way it may be said that municipal bond prices are not now at the lowest.

A few illustrations will serve to give an idea as to what the tendency of prices has been during the last three years. Albany sold a considerable amount of bonds in December 1897 on a basis of 3.18 to 3.20 per cent. This was before the banks had authority to invest in railroad bonds of any kind. In June 1898, after permission had been given to buy railroad bonds of this State, a \$200,000 issue of Albany bonds could be disposed of no better than at 3.22 per cent. As a matter of fact, however, the new law had absolutely nothing to do with this advance in interest rate. The advance was due to the fact that the breaking out of the Spanish-American war had unsettled the markets for the time being, municipal bonds by reason of that fact having in the spring become almost unsalable. With the return of confidence, owing to the brilliant victories of the American forces, Albany in November 1898 sold \$195,000 and \$14,000 4s respectively at prices yielding the purchaser 3.07 and 3.06 per cent, and in February 1899 found takers for \$100,000 and \$30,000 $3\frac{1}{2}$ s on a basis of 3.04 per cent. On the other hand in November 1899 we find that 3.50 had to be paid for money on a sale of \$130,750 4 per cents. It is true that savings institutions had in the meantime had their line of investments further broadened, but it is also true that the money market was greatly disturbed. The present year \$124,000 and \$65,-

000 34s were sold on a basis of 3.05 and 3.11 per cent. Buffalo disposed of bonds in December 1897 on a 3.18 per cent basis, and in March 1898 borrowed at 3.11 and 3.10 per cent, but in May 1898 paid 3.34 and 3.37 per cent. November 1898 saw the rate down again to 3.09, and April 1899 witnessed a drop to 2.99 and 2.96 per cent. From this there was an advance again until October 1899. when 3.27 was paid. The most recent loan of Buffalo, namely March 1901, was placed on a 3.03 per cent basis. For New York City the differences have not been so wide, because unusual care has been exercised in selecting the time for the sales, offerings being often withheld when the monetary surroundings were unfavorable. In the main, however, the experience has been much the same. In December 1897 the municipality borrowed at 3.11 per cent, in August 1898 it paid 3.23 per cent, in November 1898 the terms were 3.07 and 2.79 per cent, and in February 1899 2.89 per cent (though it is proper to say there was an exceptional feature connected with both the sale at 2.79 and that at 2.89), while in November 1899 3.16 per cent had to be paid. The offering in January of the present year found takers at 2.93 per cent, while the latest loan-that placed March 25—was sold on a $3.08\frac{1}{2}$ per cent basis.

There is nothing in the changes here recorded that cannot be readily and directly explained by reference to market conditions without regard to the influence of the new laws. The illustrations given have very clearly established the fact, we think, that the municipal borrowing rate advanced during the spring and summer of 1898 when the war with Spain introduced a disturbing element of uncertain dimensions, and when, at the same time, the United States Government came in as a competitor in the bond market by floating a 200 million new loan. This point passed, the borrowing rate early in 1899 dropped to a lower figure than before. Again the latter part of 1899, when the stock and money markets alike suffered by reason of the collapse of the gigantic speculation and flotation of industrial undertakings, the fact was reflected in a marked rise in the interest rate which municipal borrowers had to pay. Since then the rate has been once more tending downwards, though the figure at present is in most instances a trifle above that reached the first half of 1899.

The fact that the best prices and lowest rates for municipal bonds in recent years were obtained at the beginning of 1899, and that this period was coincident with the passage of the law authorizing investments in railroad bonds outside of this State, and that at the same time the legislatures of Massachusetts and Connecticut in the same manner materially broadened the investment field of savings institutions, would appear at first sight to establish a pretty close connec. tion between the two events; but careful consideration of all the facts applicable in the matter will show that this conclusion is not warranted. In the first place, the difference against 1901 is very slight at the outside, and in the second place such difference as there is would seem to be entirely due to changes in general conditions. Trade is more active now than it was then and Stock Exchange speculation is simply on an enormous scale. As a result many of the large moneyed institutions which ordinarily make investments in municipal bonds find greater remuneration in putting their funds out in loans at the Stock Exchange, and hence are not bidders for municipal Furthermore, it is to be remembered that bonds. during the last six months foreign municipal loans have been introduced in the market, where they now compete actively with domestic issues. Hardly a day passes but we receive the circular of some prominent house offering one or more issues of foreign government or municipal bonds at prices yielding the buyer very much higher returns than home bonds.

Of course we are not arguing that the municipal borrowing rate might not have been driven considerably lower had the savings banks been held down to the old classes of investment, but the wisdom and expediency of doing this may well be questioned. When municipalities can obtain money in the neighborhood of 3 per cent they are obviously able to borrow on easy terms. We shall not, however, enter into a discussion of this phase of the matter to-day. The fact is pretty well established, we think, from what we have said above, that the new laws, while being an advantage to the banks, have been no disadvantage to municipal borrowers in the way of imposing higher borrowing rates than formerly, the trifling rise in rates which has occurred being due to other causes.

United States Debt and Its History.

The following is a statement of the debt of the United States past and present. To add to its usefulness we give references to the laws authorizing each of the issues of bonds outstanding to-day, and likewise, so far as we deem it needful, citations from those laws.

All our figures, except when otherwise noted, represent the status at the close of business June 30 or the beginning of business on July 1 of each fiscal year. To conform to that feature and yet furnish information through which any reader can always have the data for a correct exhibit of the debt situation at any past or future day, and make an accurate comparison with previous years, we present, FIRST, the details as they stood at the close of the last fiscal year ending June 30 1900; SECOND, the changes in those details since June 30 1900 down to April 1 1901; THIRD, the items of interest-bearing debt, &c., at the beginning of each fiscal year since July 1 1876; FOURTH, we publish in the CHRONICLE every month-usually the first or second Saturday-the full detailed Government statement of the debt as reported by the Treasurer on the last day of the previous month; some months lack of space forces us to delay the publication to a later week.

With these data at his command, it would seem as if any inquirer could satisfy himself fully with reference to every point which might become of importance for him to know respecting the United States debt.

Aggregate June 30 190	Aggregate June 30 1900 of debt bearing no interest						\$388,761,732 41	
The foregoing shows that the Government debt on June 30 1900 was made up of (1) interest-bearing debt, \$1,023,478,860, of (2) debt on which interest has ceased, \$1,176,320 26, of (3) debt bearing no interest, \$388,761,732 41, making total gross debt,								

\$1,413,416,912 67; subtracting from the total the net cash balance in the Treasury (\$305,705,654 78) at the same date (June 30 1900) we have the net debt as it stood at the close of the last fiscal year, \$1,107,711,257 89. To bring down the interestbearing debt to Oct. 1 1900-which, as stated, was \$1,023,478,860 on June 30 1900-we must add the \$138,815,400 Consols of 1930, and deduct the following: from the Loan of 1908-1918 \$28,930,300, from the Funded Loan of 1907, \$85,169,000, from the Refunding Certificates \$1,900, from the Loan of 1904, \$24,712,800 and the remainder of the Funded Loan of 1891, \$21,979,850 (a net deduction of \$21,978,450), to reach the total of the interest-bearing debt April 1, 1901, which was \$1,001,499,260.

For later and future details of the debt, see the same as issued every month in the CHRONICLE, the first or a later Saturday. We now add, first, references to and citations from the laws which are the authority for the debt as it stands to-day, including the new 2 per cent loan authorized March 14, 1900; second, the two tables on the next page, which exhibit all the particulars of the total debt of the United States on June 30 of each year from 1876 to 1900, and on April 1, 1901; third, the Pacific Railroad bonds, which are never included in the Treasury debt statements.

"FUNDED LOAN OF 1891" (Column 1) 4¹₂ per cents, continued at 2 per cent. The bonds of this issue were issued in exchange for the 4¹₂ per cent funded loan of 1891 by agreement between the Secretary of the Treasury and the holders, and were made redeemable at the pleasure of the Government. Amount issued \$25,364,500, but May 18 all were called for redemption on August 18, when interest ceased.

pleasure of the Government. Amount issued \$25,364,500, but May 18 all were called for redemption on August 18, when interest ceased. "CONSOLS OF 1930."-(Column 9.) Bonds (2 per cent payable at the pleasure of the Government after 30 years) authorized in "Act to define and fix the standard of value," etc. (for copy of Act see CHRONICLE, wareh 3, 1900, page 411), for the purpose of refunding (1) outstanding United States bonds bearing interest at 5 per cent payable Feb. 1, 1904; (2) bonds bearing interest at 4 per cent payable July 1, 1907, and (3) bonds bearing interest at 3 per cent payable August 1, 1908 (the "ten-twenties of 1898"). For details of arrangement see Secretary Gage's circular with reference to the operations for carrying out the refunding provisions of the bill in CHRONICLE, March 17, 1900, page 509. Of these 2 per cents there were outstanding April 1, 1901, according to debt statement, \$445,940,750. "LOAN OF 1908-1918."-(Column 7.) The bonds included under this head are an issue of \$200,000,000 3 per cents. They were authorized by Act of June 13 1998, and are known as the "War Ioan." The law provided that in allotting said bonds the individual subscrip-tions of the lowest amount must be first allotted. On the day the Act was signed a Treasury circular was issued (see circular in CHRONICLE of June 18 1893, page 1163,) inviting subscriptions for 32 days, from June 13 to July 14, for the amount of bonds stated, in both eoupon and regis-tered form, coupons in denominations of \$20, \$100, \$500 and \$1,000, aud registered in denominations of same amounts, and also in \$5.000 and \$10,000, dat-d August 1 1898, redeemable in coin at the pleasure of the United States after ten years from date of issue, and due and payable August 1 1918. See circular for further details. Subscriptions reached the amount of \$1,325,000,00J. The amount now outstanding (April 1, 1901) is \$99,912,940. 1901) is \$99,912,940.

"FUNDED LOAN OF 1907" (Column 2) 4 per cents. The act of July 14, 1370, authorized the issue of 1,000 million dollars of bonds at 4 per cent, payable in coin of the present standard value, at the pleasure of the United States after thirty years; these bonds to be exempt from all taxes or duties of the United States, as well as from taxation in any form by or under State, municipal or local authority. Bonds to be sold at not less than par in coin, and proceeds to be applied to the redemption of outstanding 5-20s, par for par. Outstanding (April 1, 1901), \$270,339,350.

\$270,359,350. ¹¹ REFUNDING CERTIFICATES" (Column 3).—Act of February 26 1879 authorized the Secretary of the Treasury to issue in exchange for lawful money of the United States certificates of deposit of the denomination of ten dollars, bearing interest at the rate of 4 per cent, and convertible at any time, with accrued interest, into the 4 per cent bonds described in the Refunding act; the money so received to be applied only to the payment of the bonds bearing interest at a rate not less than 5 per cent. On March 12 1879 the issue of these certificates and their exchange into 4 per cent bonds were authorized; the certificates were to draw 4 per cent interest from April 1 1879 and were convertible in sums of \$50 or its multiples. The amount issued at the close of the fiscal year (June 30 1879) was \$39,303,110, but they had been converted so rapidly that there were outstanding at that date only \$12,348,210. On October 31 1879 the entire authorization had been reached, the maximum amount of the issue being \$40,012,750. Of these there were still outstanding on April 1, 1901, a total of \$33,570. ¹¹ COAN OF 10.25 "—(Column 5). Soles of bonds included under this designation were effected (1) in February 1595 to the amount of

maximum amount of the issue being \$40,012,750. Of these there were still outstanding on April 1, 1901, a total of \$33,570. "LOAN OF 1925."-(Column 5.) Sales of bonds included under this designation were effected (1) in February 1895 to the amount of \$62,315,400 and (2) in February 1896 to the amount of \$100,000,000. In a message to Congress under date of February 8, 1895 (published in the CHRONICLE February 9 1895, page 244), President Cleveland stated in substance that in pursnance of Section 3700 of the Revised Statues the details of an arrangement have this day been concluded whereby bonds authorized under the act of July 1 1875, payable in coin at the pleasure of the United States after the first day of Feb., 1925, with interest at the rate of 4 per cent per annum, to the amount of \$62,315,400, are to be issued for the purchase of gold coin amounting to a sum slightly in excess of \$65,000,000, to be delivered to the Treasury of, the United States, which sum added to the gold now held in our reserve will so restore such reserve as to make it amount to something more than \$100,000,000. Such a premium is to be allowed to the Government upon the bonds as to fix the rate of interest upon the amount of gold realized at 34 p.c. per annum. At least one-half of thegold to be obtained is to be supplied from abroad. Section 3700 of the Revised Statutes is as follows: "Sec. 3700. The Secretary of the Treasury may purchase coin with any of the bonds or notes of the United States authorized by law at such rates and upon such terms as he may deem most advantageous to the public interest." For a construction of the "Refunding Act of 1370" and of the "Resumption Act of 1875," see CHRONICLE, February 18 1893, page 265. The issue in February 1896 was an ordinary offering, open to all bidders, of \$100,000,000 of the same bulls as the foregoing—same in date, same in time of maturity, same in rate of interest and time of interest payments. Consequently both issues are called the "Loan of 1925," of which there are o

"LOAN OF 1904."-(Column 4.) The act of January 14 1875 authorizes the Secretary of the Treasury to use any surplus revenues from time to time in the Treasury not otherwise appropriated, and to issue, sell, dispose of, at not less than par in coin, either of the descriptions of bonds of the United States described in the act of July 14 1870 for the purpose of redeeming on and after January 1 1879 in coin, at the office of the Assistant Treasurer of the United States at New York, the outstanding legal tender notes when presented in sums of not less an fifty dollars. Under this authorization, and for the purpose mentioned, there were issued in Feb., 1894, payable in 10 years, \$50,000,000 of 000 of 5 per cents and in Nov., 1894, there were issued \$50,000,000 more for similar bonds for same purpose. Now outstanding \$22,938,400.

In April, 1895, we gave a table showing the debt of the United States on the first day of July 1856, and every subsequent year. It is not necessary to repeat all those figures. We have determined on this occasion to begin our statement with 1876, as that year antedates all of the issues now outstanding, and yet carries the record sufficiently far back to show the nature and extent of the Government securities when the refunding operations of that period began. It has the advantage, too, of giving separate and distinct each issue of bonds now outstanding. The statement is subjoined.

NOTE 1.—The annual interest charge is computed upon the amount of outstanding principal at the close of the fiscal year, except in the case of April 1, for which the total is of that date, and is exclusive of interest charge on Pacific Railway bonds.

NOTE 2.-The figures for July 1 1879 were made up assuming pending funding operations to have been completed.

* NOT: 3.- Under the Act of March 14 1900 the Treasury Department has kept the gold Reserve Fund of \$150,000,000 as a separate item, and not included it in the available each balance. In the foregoing statement, however, we have continued to include the item so as not to embarrass comparison with previous years.

PACIFIC RAILROAD DEBT.—One other class of bonded debt must be referred to which has never been included in the total of Government debt—we mean the Pacific Railroad subsidy debt. To show the situation of this indebtedness we have to make compilations of our own, as the Treasury form comes short of indicating the existing situation. In the following we bring together the details respecting the issues to the Pacific Railroads, giving likewise in the statement the debt already paid and the balance due to the Government.

* Government accepted principal of bonds-\$6,303,000-in full payment of all indebtedness; but subsequently received an additional \$321,898, as mentioned in the note below.

\$321,898, as mentioned in the note below. NOTE. — The Government has been reimbursed for \$27,236,512 principal and \$31,211,711 75 interest, being the total indebtedness of the Union Paelfie Railroad Company to Nov. 1, 1897, and for the principal of the Kansas Pacific indebtedness, amounting to \$6,303,000 Subsequently under the final decree for the distribution of the assets of the Union Paelfie Railroad, made by Judgo Samborn at St. Paul, October 24, 1899, the United States received an additional \$321,598 on its claim. Under settlement agreement of Fob. 1, 1899, twenty notes of the Central Pacific Railroad Company were delly-red to the Treasurer of the United States, aggregating \$58,812,715 60, which amount represented the unpald balance of the total indebtedness of the Central Pacific and Western Pacific Railroad companies to the United States on February 1, 1899. On March 10, 1899, in pursuance of agreement, the first four of said notes, aggregating \$11,762,543 12 (with accrued interest amounting to \$35,771 02) were transferred in consideration of a full cash payment into the Treasury of the principal and interest thereon; another note which, with interest, amounted to \$2,946,194 79 was paid in February, 1900, leaving the balance unpaid Sept. 30, 1900, \$44,109,536 70, and accrued interest, less transportation earnings. DEBT LIMITATIONS.-Constitutional and statutory limitations restricting municipal indebtedness have become quite a feature since the crisis of 1873. In the States where these limitations are provisions of the Constitution of course debts contracted in excess of such limitation are absolutely void. In Maine the amendment to the Constitution took effect January 2, 1878, and is in the following form and words: "Article XXII. Limitation of Municipal Indebtedness. No city or town "shall create any debt or liability which, singly or in the aggregate, "with previous debts or liabilities, shall exceed five per centum of the "last regular valuation of said city or town; provided, however, that "the adoption of this article shall not be construed as applying to any "fund received in trust by the said city or town, nor to any loan for the "purpose of renewing existing loans, or for war, or to temporary loans "to be paid out of money raised by taxation during the year in which "they are made."

SAVINGS BANKS' INVESTMENTS-POWERS AND RESTRIC-TIONS.-The provisions regulating the investments and loans of savings banks and institutions for savings in the State of Maine are contained in Public Laws 1895, Chapter 161, Public Laws 1893, Chapter 170, and Revised Statutes, Chapter 47, Sections 102 and 103.

All the provisions referred to above have been compiled by the Bank Examiner, and we give his compilation below in full. Maine Savings banks and institutions for savings are restricted to and hereafter may invest their deposits in manner following, to wit:

Public Funds.—Aggregate of Investments Unlimited.— Public funds of the United States. Public funds of the District of Columbia. Public funds of any of the New England States. Bonds of the cities, counties and towns of any of the New England

The tax rate for 1901 is \$1.75 per \$1,000, which includes State schoo and State highway taxes of 50 cents each per \$1,000, collected and re-distributed to towns on a basis of the number of schools and road mileage.

DEBT LIMITATIONS.-There appears to be nothing in the Consti tution or in the Statutes of Vermont providing a general limit to the debt-making power of municipalities. Whatever in each case the Leg-Islature authorizes, the city, town, county or other civil division can issue. Of course the purpose of the improvement must be of a public character. Railroad subscriptions by towns are authorized by Section 2760, chapter 132 of the Revised Statutes, the section being as follows:

SECTION 2760. A town may aid in the construction of a railroad or-anized under the general law by issuing bonds to aid such railroad, by taking capital stock therein, or in such other manner as it directs, but the liability so assumed shall not exceed eight times the grand list town at the time. Such aid shall be given in the way provided in this chapter.

It will be noticed that this section contains a limit to the power granted of making subscriptions in aid of rallroads-to wit: That the subscriptions shall not exceed eight times "the grand list." To evolve the "grand list" in Vermont, the authorities first prepare a schedule of all the property, real and personal, of each individual, with valuations entered at their real value in money, deducting debts owing; after this is done "the grand list" is made up by taking one per eent of that amount, according to Section 317, Chapter 25, of the Revised Statutes, which is as follows: "All taxable property shall be set in the list at one "per cent of its value in money on the first day of April of the year "in which the list is made."

Following Section 2760, above cited, which authorizes subscriptions In aid of railroads, are other sections describing the method in which these subscriptions must be made, by calling a town meeting, voting, Haverhill, Grafton Co 76,650 11,875 1,273,217 25:30 3,414 &e., &c. Then follows Section 2766, authorizing the issue of bonds.

SECTION 2766. Such town may issue bonds, with coupous payable semi-annually, at a rate of interest not exceeding seven per cent, to aid such road.

14

The only other general authority granted for the issue of bonds by municipal corporations in Vermont is that given for refunding outstanding bonds and notes. The Sections which grant this power are Sections 2769, 2775 and 2776, Chapter 132 of the Revised Statutes, Sections 2769 and 2776 are as follows:

SECTION 2769. A town which has outstanding and unpaid negotiable notes or bonds, issued to pay for stock subscribed to a railroad com-pany, under any act of the general assembly, may issue other nego-tiable notes or bonds to pay or retire such outstanding notes or bonds.

SECTION 2,775. A town having outstanding and unpaid orders, notes, SECTION 2,775. A town having outstanding and unpaid orders, notes, bonds or coupons, issued under any act of the Legislature, for the pur-pose of the erection of public buildings, or in aid of public improve-ments, or for the payment of soldiers' bounties, may issue other negotiable notes or bonds for the purpose of retiring the outstanding orders, notes, bonds and coupons, in the same manner that it may issue new notes or bonds to pay or retire outstanding notes or bonds issued in aid of a railroad; and the powers, restrictions, duties and liabilities of the town and town officers in the matter shall be the same as is provided by law in the case of the refunding by a town of town bonds issued in aid of a railroad; and the interest on such new notes or bonds shall be provided for in the same manner.

By Section 2776 municipal corporations other than towns have the same refunding powers granted them which are conferred upon towns by the two sections last above eited.

The only other section which we need quote is Section 2751 of Chapter 130, which names the objects for which towns may vote money. If money is appropriated for any other object, the Charter or a special statute must be looked to for the authority.

SECTION 2751.—Towns in town meetings may vote such sums of money as they judge necessary for the support of the poor; for laying out and repairing highways; for the prosecution and defense of the common rights and interests of the inhabitants, and for other necessary incidental town expenses.

POPULATION OF STATE. - According to the United States Census the population of Vermont has been as follows:

SAVINGS BANKS INVESTMENTS-PRIVILEGES AND RE-STRICTIONS.-The provisions of law relating to savings banks are found in Chapter 174 of the Vermont statutes, Sections 4066 to 4131 inclusive, as amended from time to time. The first section having reference to investments is Section 4096, which treats of real estate mortgages. It authorizes the investment of 70 p.c. of the assets in such mortgages, one-sixth at least of which "shall be upon real estate in this State"-that is Vermont. A proviso adds that only 50 per cent of the assets may be invested in mortgages on real estate outside of Vermont. Sections 4097 and 4098 relate only to obtaining and paying for insurance. Section 4099 is as follows, and has reference to investment on personal security.

SECTION 4099-No loans or investments on personal security shall be made except upon at least two approved names, not less than two of whom reside in this State or within fifty miles of the institution making such investment, and such personal loans or investments shall not be for a longer time than one year; and not more than one-third of the assets of a savings bank, savings institution or trust company shall be invested in personal securities.

Section 4100 only covers a single point; that is to say it restricts to five per cent of the deposits the amount which a savings bank may invest in the lot and building for the transaction of its business, and adds that a revenue may be derived from portions of the building not required for the bank's use. The next section (Section 4101) covers the most important of the provisions relating to investments that are contained in the law. We give the section in full below. The separation into paragraphs and the figures in parenthesis which number and begin the paragraphs are our own.

SECTION 4101—With the foregoing exceptions, the moneys deposited in Savings Banks, Savings Institutions and Trust Companies, and the income therefrom, shall be invested only as follows: (1.) In the public funds of the United States, or public funds for the payment of principal and interest of which the faith of the United States is pladed:

(1.) In the public limits of the contribution the faith of the United States payment of principal and interest of which the faith of the United States is pledged;
(2.) In the bonds or notes of the counties, eities, towns, villages and school districts of the New England States, New York, Pennsylvania, Ohio, Michigan, Indiana, Illinois and Iowa;
(3.) In the stock of any national bank in the New England States, New York and the cities of Detroit, Chicago, St. Paul and Minucapolis; in the stock of any banking association or trust company incorporated under the authority of and located in this State;
(4.) In the municipal bonds, not issued in aid of railroads, of counties, cities and towns of five thousand or more inhabitants in the States of New Jersey, Wisconsin, Minnesota and Missouri, and in counties, eities and towns of ten thousand or more inhabitants in the States of Kansas, Nebraska, North Dakota, South Dakota, Oregon and Washington, but no investment shall be made in any of the countles, eities or towns in the States shove named, except in cities of fifty thousand or more inhabitants, where the municipal indebtedness of such county, eity or town exceeds five per cent of its assessed valuation, and when not issued in aid of railroads;
(5.) In the school bonds and independent school district bonds of New Jersey, Wisconsin, Minnesota and Missouri; and in the school bonds and independent school districts of two thousand

(5.) In the school bonds and independent school district bonds of New Jersey, Wisconsin, Minnesota and Missouri; and in the school bonds and independent school district bonds of school districts of two thousand or more Inhabitants in the States of Kansas, Nobraska, North Dakota, South Dakota, Oregon and Washington, where the amount of such bonds lasued does not exceed five per cent of the assessed valuation of the respective cities, towns and school districts.
(6.) In the public funds of any of the States named in this section; in notes with a pledge of any of the aforesald securities, including deposit books or deposit receipts, Issued by a savings bank, savings institution or trust company or banking association located in this state, as collateral, such notes with each of the expective districts. State, as collateral, such notes not to exceed the par or market value of such security; (7.) But no savings bank, savings institution or trust company shall hold, by way of investment or as security for loans, more than ten per cent of the capital stock of any one bank, nor invest more than ten per cent of the depicts nor more than thirty-flye thousand dollars in per cent of the capital stock of any one bank, not invest more than the per cent of its deposits, nor more than thirty-five thousand dollars in the eapital stock of any one bank; and no such investments shall be made in the capital stock of any such banks, owned or loaned upon, to exceed in the aggregate one-fourth of the deposits of any savings bank, savings institution or trust company. SECTION 4102—No savings bank, savings institution or trust company shall loan to any one person, firm or corporation, or the individual members thereof, more than five per cent of its deposits, nor more than thirty thousand dollars; nor shall such loan on personal security exceed ten thousand dollars.

We also give Section 4106 in full. It confers authority upon savings banks to make deposits on call in banks and trust companies in certain States and cities, and is as follows.

Section 4106.—The words "trust company" in this chapter shall be construed to include savings banks and trust companies. A savings bank, savings institution and trust company may deposit on call in bauks, banking associations or trust companies in this State, or in the cities of New York, Boston or Chicago, or in national banks in the cities of St. Paul, Minneapolis and Kansas City, with or without interest, as may be agreed upon, sums not exceeding in the aggregate twenty per cent of the assets of such savings bank, savings institution or trust company.

Section 4107 enacts that savings banks may hold real estate acquired: on foreclosure or otherwise taken to secure debt, but it must be sold within five years, &c. Section 4108 authorizes savings banks to demand and receive on loans 6 per cent interest.

DEBT LIMITATIONSThere seems to be no provision in	the Con-
stitution of Massachusetts limiting the power of the Legisl	ature to
ereate State indebtedness, or limiting its power to authorize n	unicipal
indebtedness. Statutes general and special have, however, bee	an passed

on this subject with respect to Cities and Towns. First among these Statutes needing mention we have Chapter 29 of the Revised or "Public Statutes." The important sections to be cited

contained in Chapter 29 are as follows. We give only the substance of the sections, not the words.

SECTION 1-Provides that cities and towns shall not incur debt except in the manner and within the limitations prescribed in this ehapter.

Section 2—Provides (as a preliminary for determining whether the limitation fixed by Section 4 has been reached by any municipality) that the water debt and the sinking funds shall be deducted from the total debt

SECTION 3-Provides that the first 17 sections of chapter 29 shall not apply to debts incurred in aid of railroads, to water scrip issued under

special statutes, or to indebtedness for a fire district. SECTION 4-Provides that no city or town except as provided in the following section shall become indebted in an amount which exceeds 3

per cent on the last preceding valuation [but amount which exceeds 5 per cent on the last preceding valuation [but amound as noted below.] SECTION 5—Provides that cities and towns which were indebted on the 13th day of June, 1875, to an amount not less than 2 per cent on valuation for that year may "increase such indebtedness to the extent "of an additional one per cent on that valuation and no more." SECTION 6—Provides that cities, &c., "may by ordinary role incur debts for tempory loans" in anticipation of the year's taxes and of the year's taxes next ensuing

debts for tempory loans" in anticipation of the year's taxes and of the year's taxes next ensuing. SECTION 7—Provides that other debts than those referred to in section 6 shall be incurred only by a vote of two-thirds of the voters present at a town meeting, of two-thirds of all the members of each branch of the city council, and approved by the Mayor; or if the Mayor disapproves, by another like vote after notice of such disapproval. SECTION 8—Provides that debts incurred for water must be payable within 30 years; in constructing sewers within 20 years; all other debts within 10 years.

within 10 years.

SECTIONS 9 to 17 inclusive, contain interesting provisions relating to sinking funds and other allied matters.

SECTION 18—Provides that any city which at a meeting of its voters has accepted by a two-thirds vote any act to supply said city with water, may by a vote of a majority of the members of each branch of the city council contract debts and issue bonds for the purpose. SECTION 19—Provides that towns, &c., shall not increase their debt by subscriptions in aid of railroads beyond 3 per cent of valuation; but the limitation of this section, shall not accurately leave men-

the limitation of this section shall not apply to temporary loans men-

tioned in Section 6 SECTIONS 20 to 23, which are the final ones of Chapter 29, have no reference to the subject we are discussing and need not be cited.

As the reader has seen, the foregoing (Section 4, Chapter 29) fixes the general debt limitation for cities and towns at 3 per cent.

This general limitation was lowered by a later law. The provision is found in Chapter 312, Section 2 of the Laws of 1885, which provision reduces the general debt limitation of cities from 3 per cent to 212 per cent on the average valuation for the preceding three years. Worcester, Lynn, Gloucester and Brockton are in the same Section exempted from the operation of the Section until January 1, 1889-later than 1889 the only exemptions we find in the Statutes are special in their purpose, not general. In 1893, however, authority was given for an addition of ¹2 per cent, to provide public playgrounds-that is to say, under Chapter 225, Laws of 1893, any town or city (except Boston) may incur an indebtedness of 12% of the assessed valuation beyond the limit of indebtcdness for playgrounds

The temporary loans provision, as it appears above in Section 6 (Chapter 29), is also changed by Section 4, Chapter 312, by omitting "and of the year next ensuing;" so that at present cities and towns by ordinary role can incur debts for temporary loans in anticipation of the taxes of the year only in which such debts are incurred.

Temporary loans (for a term not exceeding one year) in anticipation of money to be derived from an issue of bonds or other form of indebtedness, duly authorized, are provided for by a statute approved June 14,1898. The same Act states that the time within which said bonds, etc., shall become due shall not be extended by reason of said tempor. ary loan.

The foregoing statements cover all the material facts general in their application passed with respect to debt limitation. In addition to these General Provisions there are various Special Laws which contain exceptions to the general law as to debt limitation, which apply to Cambridge, Lynn, Newburyport, Waltham, Worcester, &c., &c.

Boston was formerly subject to a special statute (Chapter 178 of the Laws of 1885) limiting its debt to 2 per cent, but this was repealed by Chapter 399 of the Acts of 1900, and that city is now subject to Chapter 312 of the Laws of 1885 as above.

SAVINGS BANK INVESTMENTS-POWERS AND RESTRIC-TIONS.—The provisions regulating the investments and loans of savings banks and institutions for savings in Massachusetts are con-tained in Section 21, Chapter 317, acts of 1894, and amendments thereof. All the provisions have been compiled by the Commissioners of Savings Banks, and we cannot do better than to give their compila-tion, which we do below in full. In 1899 the authority to purchase railroad bonds was materially broadened. The amendment is included in the provisions below. in the provisions below. DEBT AND 7	TAX LIMITATIO	NSTaxes in Bos	ston are limited

by Chapter 399 of the Acts of 1900 as follows:

by Chapter 399 of the Acts of 1900 as follows: SECTION 1. The taxes assessed on property, exclusive of the State tax, county tax and sums required by law to be raised on account of the city debt, shall not exceed in any year in the city of Pos-ton ten and one-half dollars, and in any other city twelve dollars, on every one thousand dollars of the average of the assessors' valua-tions of the taxable property therein for the preceding three years, the valuation for each year being first reduced by the amount of all abate-ments allowed thereon previous to the thirty-first day of December in the year preceding said assessment and any order or appropriation requiring a larger assessment than is herein limited shall be void. SECTION 2. Chapter one hundred and seventy-eight of the Acts of the year eighteen hundred and eighty-five and Chapter two hundred and eighty one of the Acts of the year eighteen hundred and eighty-seven are hereby repealed. SECTION 3. This Act shall take effect upon its passage. [Approved June 26, 1900.]

SECTION 3. This Act shall take effect upon its passage. [Approved June 26, 1900.] The new law, in repealing Chapter 178 of the Laws of 1885, repealed a special Act limiting the indebtedness of the City of Boston to 2 per cent of the assessed valuation, etc. etc. Boston consequently is now subject to Section 2, Chapter 312, Laws of 1885, which places the debt limitation at 2½ per cent of the average assessors' valuations of the taxable property for the preceding three years. Reference to this 1885 law will be found in the debt limitations for the State of Massa-chusetts. See also CHRONICLE of August 4, 1900, page 250. The foregoing limitation is of course exclusive of debts created for water supply, and further exceptions have been made from year to year by different legislatures, authorizing bonds outside of the debt limit for various purposes, especially enumerated. It is proper to state that under Chapter 93, Acts of 1891, the city is authorized to anticipate its authority to borrow money within its debt limit for any current municipal year.

MUNICIPAL INDEBTEDNESS LIMITATIONS.—There is nothing in the Constitution of Rhode Island limiting the amount of city debts. The following, however, are two sections taken from Title 7, Chapter 36 (page 157) of the Revised Statutes of the State of 1896. Since 1878 these provisions have been in force, and consequently 3 per cent of the taxable property has been the limit of the power of each town (which includes city) to create debt.

includes city) to create debt. SECTION 20. "The outstanding notes, bonds and contracts of towns shall be paid and be fulfilled according to the tonor thereof, and all public works now authorized to be prosecuted shall be prosecuted, and all in lebtedness now authorized to be incurred on account thereof may be incurred according to the tenor of the authority therefor. SECTION 21. No town shall, without special statutory authority therefor, incur any debt in excess of three per centum of the taxable property of such town, including the indebtedness of such town on the tenth day of April, one thousand eight hundred seventy-eight, but the giving of a new note or bond, for a pre-existing debt, or for money borrowed and applied to the payment of such pre-existing debt, is excepted from the provisions of this section, and the amount of any sinking fund shall be deducted in computing such indebtedness." A proposed new constitution, containing certain limitations as to

A proposed new constitution, containing certain limitations as to State and other debts, failed of adoption at the November election in 1898, was again submitted to popular vote in 1899 and again defeated.

SAVINGS BANK INVESTMENTS AND RESTRICTIONS.-In the Revised Statutes of Rhode Island (which were revised in 1896)-Sections 54, 55, 56, etc., of Chapter 178, Title 19 (on page 548), will be found the provisions of law with reference to Savings Bank Investments. Section 54, which recites in detail the stocks, bonds, etc., these institutions are allowed to put their money in is as follows:

SECTION 54. Institutions for savings shall invest their receipts—
(1) In public stocks or bonds of any State or of the United States,
(2) Or in any bank stock, or in notes or bonds of any town or city,
(3) Or in notes of any school district or fire district in any New England State,

(4) Or in such corporate stocks or bonds as they may deem safe and secure,

(5) Or they may discount notes, bonds or drafts of individuals or corporations, with two other responsible endorsers, suretles or guarantors,
(6) Or the notes, bonds or draits of individuals or corporations secured by the public notes, stocks or bonds of any State of the United States, or of any town or city or of any school district or fire district in any New England State, or by the stock or bonds of any corporation which may be deemed to be safe, or by mortgage on real estate.

Concerning Sections 55 and 56, the first appears to give savings institutions quite extensive powers as to making and keeping deposits in commercial banks. When so kept, however, they are to be kept "payable on demand whether drawing interest or not." The two sections are subjoined.

SECTION 55.—No such institution shall have an amount exceeding one-half of its receipts invested in notes, bonds or drafts of individuals or corporations, unless secured by some public notes, bonds or stocks as aforesaid, or by mortgage on real estate: but the preceding section shall not be so construed as to forbid any such institution from placing and holding on deposit in any bank such reasonable amount of their re-

celpts as is customary and they may deem proper, payable on demand, whether drawing interest or not. SECTION 56.—No money shall be loaned by any institution for sav-ings to any trustee, director or other officer of such institution. For the other provisions of the law as they now are we would refer our readers to the Revised Statutes of 1896.

DEBT LIMITATION.—The Constitution of Connecticut contains but a single provision restricting the debt-making power. The provision is Article 25, adopted as an amendment in 1877, and is as follows

No County, City, Town, Borough or other Municipality, shall ever subscribe to the capital stock of any railroad corporation, or become the purchaser of the bonds, or make donation to, or loan its credit in aid of, any such corporation; but nothing herein contained shall affect the validity of any bonds or debts incurred under existing laws, nor be con-strued to prohibit the General Assembly from authorizing any Town or City to protect by additional appropriations of money or credit any railroad debt contracted prior to the adoution of this amendment.

The foregoing is explicit and comprehensive, covering every municipality. There are no general restrictions in the Revised Statutes; whatever restrictions have been made from time to time are contained in enabling acts and in city charters.

As to towns, we notice that there is a general law granting them unlimited power to issue bonds. According to section 140, chapter 23 of the Revised Statutes, "when any town shall have made appropriations "or incurred debts, or shall hereafter make appropriations or incar "debts exceeding ten thousand dollars, it may issue bonds, either regis-"tered or with coupons attached, or other obligations, payable at such "times and at such annual rate of interest not exceeding 6 per cent, " payable annually or semi-annually, as it shall determine," &c. Cities have had no such general authority conferred upon them.

Exemption from Taxation has been accorded by general statute to certain bonds issued by cities and towns to aid in the construction of railroads; and this exemption has been extended to new bonds issued for the purpose of redeening or providing a fund to redeem the railroad for the purpose of redeeming or providing a fund to redeem the railroad aid bonds above referred to. This exemption is found in Section 3.820 Chapter 241 of the Revised Statutes (last clause of Section), and the bonds there named are those "issued by any town or city in aid of the "construction of the railroads of the Connecticut Western Railroad "Company, the New Haven Middletown & Willimantic Railroad Com-"pany, the Shepaug Valley Railroad Company, the Connecticut Valley "Railroad Co.. the Connecticut Central Railroad Company, or either of "them." All railroads which are in whole or in part in the State are taxed by the State under Section 3920, Chapter 244 of the Revised Statutes, so that the tax on these bonds is paid by the railroads. *Exemption from tax* of new bonds issued to redeem or to provide a fund to redeem the railroad aid bonds, or to redeem or to provide a fund

to redeem the railroad aid bonds, or to redeem or to provide a fund to redeem any reissue of the same, is conferred fully by an act approved June 19, 1889, and found in the "Public Acts" for that year.

SAVINGS BANKS INVESTMENTS-PRIVILEGES AND RE-STRICTIONS.-At the session in 1899 material changes were made in the provisions regulating the investment of the deposits of the savings banks of Connecticut. We give below the law as thus amended. The Act of 1899 is entitled "An Act concerning Investments of Savings Banks", and is as follows. The separation into paragraphs and the figures in brackets which number and begin the paragraphs we have inserted so that those who need to refer to or use any particular portion of the section can more readily find the part desired; otherwise we give the section as it reads and was passed.

[A measure is now April 8, 1901-before the Legislature enlarging the scope of investments in railroad bonds. Should this bill become a law, the fact will be recorded and the measure printed in our weekly CHRONICLE.]

Section 1800 of the General Statutes, as amended by chapter CCXXIX of the Public Acts of 1893 and by chapter CCXVII of the Public Acts of 1897 is hereby amended to read as follows: Savings banks may invest—

Public Acts of 1897 is hereby amended to read as follows: Savings banks may invest—

(1) Notexceeding twenty per centum of their deposits and surplus in notes secured by the pledge of stocks or bonds as collateral security: provided, said stocks or bonds shall have paid dividends or interest of not less than three per centum per annum during the two years next preceding that in which the respective loan is made; or by the pledge of any stocks, bonds, or other obligations which, under the provisions of this act, can be purchased by savings banks; and may invest not exceeding twenty per centum of their deposits and surplus in notes, each of which shall be the joint and several obligation of two or more parties, all residents of this State.
(2) And may invest in the bonds of the United States, the District of Columbia, any of the New England States, or any of the States of New York, New Jersey, Pennsylvania, Delaware, Maryland, Ohio, Kentucky, Michigan, Indiana, Illinois, Iowa, Wisconsin, Minnesota, Missouri, Nebraska, Kansas, California, Colorado, and Oregon;
(3) In the bonds of any city in the New England States, or in the State of New York; of Newark, Paterson and Trentou in the State of New Jersey; of Philadelphia in the State of Pennsylvania; of Cincinnati, Cleveland, Columbus, Dayton, and Toledo in the State of Michigan; of Chicago in the State of Missouri; of Omaha in the State of Nebraska;
(4) Or in the obligations of any of the countles, towns, cities, boroughs, and school districts in this State,
(5) Or in the capital stock of any bank or trust company located in this State, or in the city of New York in the State of New York, or in Boston in the State of Massachusetts;

(6) Or in the bonds of any other incorporated city located in any of the States mentioned in this act, having not less than twenty thousand inhabitants, as ascertained by the United States or State census, or any inhabitants, as ascertained by the United States or State census, or any municipal census taken by authority of the State next preceding such investment; provided, the amount of the bonds of said city, including the issue in which such investment is made and its proportion (based on the valuations contained in the assessment for taxation next pre-ceding such investment) of the county and town debt, after deducting the amount of its water debt, and the negotiable securities in the sink-ing funds which are available for payment of its bonds, does not ex-ceed seven per centum of the valuation of property in said city as assessed for taxation next preceding such investment; provided, at-ways, that the State or city issuing said bonds has not defaulted pay-ment of any of its funded indebtedness or interest thereon within fifteen years next preceding the purchase of such bonds by the savings bank; but this act shall not be held to anthorize the investment of any funds in any "special assessment bonds" or "improvement bonds", so called, which are not direct and primary obligations of the city is-suing the same; (7) Or in the bonds of any railroad company organized under the

so called, which are not direct and primary obligations of the city is-suing the same; (7) Or in the bonds of any railroad company organized under the laws of any of the States mentioned in this Act, and which bonds are secured by a first mortgage (as the only mortgage security) given by said railroad company upon some portion of the railroad owned by it, or given by a railroad company (a majority of the capital stock in which is owned by the railroad company issuing said bonds), upon some portion of the railroad owned by it but leased or operated by the railroad company issuing said bonds, and which portion of said railroad in either case shall be located wholly or in part in one or more of the States mentioned in this Act, provided the entire railroad of said company is located wholly within the United States; or in the consolidated bonds of any railroad company incorporated by this State and authorized to issue such bonds to retire the entire funded debt of said company; *provided*, that in every case the railroad com-pany in the bonds of not less than five years next previous to such investment, in addition to the interest on its funded indebted-ness, dividends of not less than four per centum per annum upon its entire capital stock at the time of such investment equals or exceeds in amount one-third of the entire outstanding issue of said bonds; also in the bonds of the following-named railroad corpora-tions, viz: Restor & Albany Bailroad Company tions, viz :

Eastern Railway of Minnesota, Northern Division, and in the mortgage bonds hitherto issued which the said consolidated or general mortgage bonds are to retire at maturity; provided, that at no time within five years next preceding the date of such investment shall such railroad corporation have failed regularly and punctually to pay the principal at maturity, (or as extended,) and interest of all its mortgage indebtedness, and in addition thereto regularly and punc-tually to have paid dividends upon all its outstanding capital stock during the preceding five years; further, that at the date of every such dividend the outstanding capital stock of such railroad corpora-tion shall have been equal to at least one-third of the total mortgage indebtedness of such railroad corporation. including all bonds issued or to be issued under any mortgage securing any bond in which such investment shall be made, but this Act shall not be held to authorize any investment in the bonds of any corporatiou operating its railroad exclusively by any means other than steam as a motive power, or in the bonds of any street railroad company. (8) All other investments shall consist of deposits in incorporated banks or trust companies located in this State or in the States of New York, Massachusetts, or Rhode Island. (9) Or of loans secured by mortgage on unincumbered real estate situated in this State, worth double the amount of the loan secured thereon, provided that any savings bank in the towns of Putnam. Brooklyn and Killingly may loan on land located in the County of West-chester in the State of New York; any savings bank in the town of Enfield or in the town of Stafford may loan on land located in the County of Hampden in the State of Massachusettis; and any savings bank in the town of Stonington may loan on land located in the County of Washington in the State of Rhode Island. It would seem according to the foregoing amendment of section and in the mortgage bonds hitherto issued which the said consolidated

It would seem according to the foregoing amendment of section 1800 that only forty per cent of the deposits and surplus of any savings bank may be employed on personal security, but that no limit is placed upon the amount which may be invested in the other securities mentioned in the section.

Besides the ordinary safeguards which are in all isavings bank laws there is one of no little importance that ought to aid materially in preventing incautious loans. We refer to the provision below.

SEC. 1806.—When any loan or investment is made by any savings bank, the names of the directors or trustees consenting thereto shall be entered upon the records of said bank, and said record shall be at all times open to the inspection of the corporators and auditors of said bank and the Bank Commissioners, and be *prima facie* evidence of the truth of the statements therein contained.

TRUST FUNDS-HOW LOANED OR INVESTED-We find in Section 495 of the General Statutes the following liberal provisions providing that trust funds may be loaned or [invested in the same securities savings banks are authorized to invest in.

Sec. 495.—Trust funds, unless it is otherwise provided in the instru-ment creating the trust, may be loaned on the security of mortgages on unencumbered real estate in this State, double in value the amount loaned, or may be invested in such mortgages or in the bonds or loane of this State, or of any town, city, or borough of this State, or in any bonds, stocks, or other securities which the savings banks in this State are or may be authorized by law to invest in, or may be deposited in savings banks incorporated by this State.

CITIES, COUNTIES AND TOWNS IN THE STATE OF CONNECTICUT

NOTE.—For debts of minor civil divisions not found among the state-ments given below, see "Additional Statements" at the end of this State.

The relation which the towns, cities and boroughs of this State bear to one another is peculiar, and requires a word of explanation. The State is divided into eight counties, and these counties are made up of towns, numbering in the aggregate 167. The towns are the civil unit, and on the assessed valuation (which is called the "Grand List of each town") is levid the tay for State purpose as well as the tow for and on the assessed valuation (which is called the "Grand List of each town") is levied the tax for State purposes as well as the tax for town expenditures. Within the town is often situated a city or a borough, or both, all of which may at the same time have bonds outstanding. There are ten cities, each with one exception bearing the same name as the town in which it lies. Of late several towns and cities whose limits were about identical have been consolidated and the outstanding bonds of both town and city are reported together without distinction. This is the case with the city and town of Hartford, which previous to April, 1896, reported their debts separately. The city and town of New London have been consolidated and also Bridgeport city and town. On December 7, 1897, city, town and school district of New Haven were likewise consolidated. The borough stands in about the same relation to the town as does the city. The grand list as determined for the town is used by both the

The borough stands in about the same relation to the town as does the city. The grand list as determined for the town is used by both the city and the borough in levying taxes, the city, for instance, putting **a** tax of its own on its share of the total grand list of the town. This tax is additional to the town tax. In some instances the schools are in the charge of school districts, which also are empowered to issue bonds and to levy a tax, so that to cover the total tax paid by a city it is necessary to take into account the State, town, city and school district levies. In the statements which follow we give under one heading the town and city, wherever they bear the same name, for though distinct corporations, their debts are to a greater or less extent the debts of **a** single community. single community.

DEBT LIMITATION-STATE.—The new Constitution has in some measure modified the provisions of the fundamental law restricting the power of the Legislature over the issue of debt, & These provisions are found in Article 7. We give the sections of that article (Article 7 below which have reference to the subject. State credit not to be given.—SECTION 1. The credit of the State shal not in any manner be given or loaned to or in aid of any individual association or cornoration

not in any manner be given or loaned to or in aid of any individual association or corporation. State debts, power to contract.—SEC. 2. The State may, to meet casual deficits or failures in revenues, or for expenses not provided for, con-tract debts; but such debts, direct or contingent, singly or in the aggre-gate, shall not at any time exceed one million of dollars; and the moneys arising from the loans creating such debts shall be applied to the purpose for which they were obtained, or to repay the debt so con-tracted, and to no other purpose whatever. State debts to repel invasions.—SEC. 3. In addition to the above limited power to contract debts, the State may contract debts to repel invasion, suppress insurrection, or defend the State in war; but the money aris-ing from the contracting of such debts shall be applied to the purpose for which it was raised, or to repay such debts, and to no other purpose whatever.

whatever.

Ing from the contracting of such debits shall be applied to the purpose whatever. *Limitation of legislative power to create debis.*—SEC. 4. Except the debts specified in sections two and three of this article, no debts shall be hereafter contracted by or on behalf of this State, unless such debt shall be authorized by a law, for some single work or object, to be dis-tinctly specified therein; and such law shall impose and provide for the collection of a direct annual tax to pay, and sufficient to pay, the interest on such debt as if falls due, and also to pay and discharge the principal of such debt within eighteen years from the time of the con-tracting thereof. No such law shall take effect until it shall, at a gen-eral election, have been submitted to the people, and have received a majority of all the votes cast for and against it at such election. On the final passage of such bill in either house of the Legislature, the question shall be taken by ayes and noes, to be duly entered on the fournals thereof, and shall be: "Shall this bill pass, and ought the same to receive the sanction of the people?" The Legislature may at any time, after the approval of such law by the people, if no debt shall have been contracted in pursu-ance thereof, repeal the same: and may at any time, by law, forbid the contracting of any further debt or liability under such law, but the tax imposed by such act, in proportion to the debt and liability which may have been contracted, in pursuance of such law, shall remain in force and be irrepealable, and be annually collected, until the proceeds thereof shall have made the provision hereinbefore specified to pay and discharge the interest and principal of such dobt and liability. The money arising from any loan or, stock creating such debt or liability, shall be applied to the work or object specified in the act authorizing such debt or liability, or for the repayment of such debt or liability and for no other purpose whatever. No such law shall be submitted to be voted on, with

provided.

DEBT LIMITATION.—CITIES, COUNTIES. TOWNS AND VILLAGES.— The new Constitution of New York State puts a general and uniform limit to the power of all counties and cities of the State to con-tract and put out their obligations, leaving to the Legislature to fix the debt-making power of villages and towns only. These provisions are found in Article 8, Section 10. We give that section in full. The separation into paragraphs and the figures in parenthesis which num-ber and begin the paragraphs are our own, we having inserted them so that those who ueed to refer to or use any particular portion can the more readily find the part desired. With that exception we give Section 10 of Article 8 as it reads, preserving even the punctuation. (1) No county, city, town or village shall hereafter give any money or property, or loan its money or credit to or in aid of any Individual, association or corporation, or become directly or indirectly the owner of stock in, or bends of, any association or corporation; nor shall any such county, city, town or village purposes. This section shall not prevent such county, city, town or village from making such pro-vision for the aid or support of its poor as may be authorized by law. (2) No county or city shall be allowed to become indeleted for any purpose or in any manner to an amount which, including existing

indebtedness, shall exceed ten per centum of the assessed valuation o the real estate of such county or city subject to taxation, as it appeared by the assessment rolls of said county or city on the last assessment for State or county taxes prior to the incurring of such indebtedness; and all indebtedness in excess of such limitation, except such as may now exist, shall be absolutely void, except as herein otherwise provided. (3) No county or city whose present indebtedness exceeds ten per centum of the assessed valuation of its real estate subject to taxation, shall be allowed to become indebted in any further amount until such indebtedness shall be reduced within such limit.

indebtedness shall be reduced within such limit. (4) This section shall not be construed to prevent the issuing of certif-leates of indebtedness or revenue bonds issued in participation of the collection of taxes for amounts actually contained, or to be contained in the taxes for the year when such certificates or revenue bonds are issued and payable out of such taxes. (5) Nor shell this section he construed to prevent the issue of bonds

(5) Nor shall this section be construed to prevent the issue of bonds to provide for the supply of water; but the terms of the bonds issued to provide the supply of water shall not exceed twenty years, and a sink-ing fund shall be created on the issuing of the said bonds for their re-demption, by raising annually a sum which will produce an amount equal to the sum of the principal and interest of said bonds at their motority. maturit

(6) All certificates of indebtedness or revenue bonds issued in an-ticipation of the collection of taxes, which are not retired within five years after their date of issue, and bonds issued to provide for the supply of water, and any debt hereafter incurred by any portion or part of a city, if there shall be any such debt, shall be included in ascertaining the power of the city to become otherwise indebted. (7) Whenever hereafter the boundaries of any city shall become the

city, if there shall be any such debt, shall be included in ascertaining the power of the city to become otherwise indebted. (7) Whenever hereafter the boundaries of any city shall become the same as those of a county, the power of the county to become indebted shall cease, but the debt of the county at that time existing shall not be included as part of the city debt. [At the November 1899 election an amendment to the Constitution was adopted changing this para-graph to read as follows: Whenever the boundaries of any city are the same as those of a county, or when any city shall include within its boundaries more than one county, the power of any county wholly included within such city to become indebted shall cease, but the debt of the county heretofore existing shall not, for the purposes of this section, be reckoned as a part of the city debt.] (8) The amount hereafter to be raised by tax for county or city pur-poses, in any county containing a city of over one hundred thousand inhabitants, or any such city of this State, in addition to providing for the principal and interest of existing debt, shall not in the aggregate exceed in any one year two per centum of the assessed valuation of the real and personal estate of such county or city debt. By the terms of the foregoing section, Paragraph (1), every "County, City, Town or Village" is included in the prohibition against (1) loan-ing "its money or credit," (2) in becoming "directly or indirectly the owner of stock in or bonds of any association or corporation," and (3) in incurring "any indebtedness except for County, City, Town or Vil-lage purposes." Most of the other paragraphs include only Counties and Cities. According to Paragraph (6) it seems that "any debt hereafter in-curred by any portion or part of a city, if there shall be any such debt,

According to Paragraph (6) it seems that "any debt hereafter in-curred by any portion or part of a city, if there shall be any such debt, shall be included in ascertaining the power of the city to become other wise indebted." wise indebted.

wise indebted." We would also call special attention to Paragraph (7), declaring that [as amended in 1899] whenever the boundaries of any city may be the same as those of a county or when any city shall include within its boundaries more than one county, "the power of any county wholly in-cluded within such city to become indebted shall ccase, but the debt of the county heretofore existing shall not * * be reckoned as a part of the city debt." In May 1886 the New York Court of Appeals decided at the end of a litigation begun in July 1885 that the sinking fund was not a part of the city debt within the meaning of the above provision of the Consti-tution limiting the creation of debt to 10 per cent of the assessed valua-tion of the real estate.

tion of the real estate. Towns and Villages are not limited in their debt-making power by the Constitution. Those municipalities will be governed by general or

special statutes. The 1895 Legislature passed an act "for the protection of bona fide purchasers and holders of coupon bonds and of municipal corporations against misfeasance, malfeasance or negligence of public officers." The full text of this law was published in the CHRONICLE of June 8, 1995 Y 60 P 1022 1895. V. 60, p. 1023.

1895. V. 60, p. 1023.
EXEMPTION FROM TAXATION.—There is one general New York statute with reference to exemption from taxation "for town, county, municipal or State purposes" of a class of bonds "Issued by any village, city, town or county" in the State, which seems to have a wider application than is generally known. As originally passed in 1881 the exemption applied only to bonds issued to pay up or retire bonds "created to aid in the construction of any railroad." A new law was passed in 1886 (Chapter 316) making the tax exemption apply to "new bonds" issued under the act to retire any of the then "present bonded indebtedness of any village, city, town or county in this State." With reference to such new bonds the third section of the act of 1886 says: "All new bonds issued by any village, city, town or county in this State under the provisions of this act shall be exempt from taxation for town, county, municipal or State purposes until the period when they are made payable." In 1893 still another law was passed making the statute cover any bonded indebtedness. The law as it now stands will be found in editorial on page 4 of the April, 1894, SUPPLEMENT.
In addition to the foregoing there are special laws authorizing special issues that are exempt, but which we have not room to quote here. For New York City there is a general statute which directs how any of its bonds may be made exempt from city and county taxation. That statute is subjoined.

The Commissioners of the "Sinking Fund of the City of New York for the redemption of the city debt," when duly authorized by ordinance of the Common Council, may, by concurrent resolution, direct that the bonds and stocks of said city, issued pursuant to law, after June ninth, eighteen hundred and eighty, shall be exempt from taxation by said city and by the county of New York, but not from taxa-tion for State purposes; and all bonds and stocks issued pursuant to such authority shall be exempt from taxation accordingly, provided that said bonds and stocks shall not bear interest exceeding the rate of four and one-half per centum per annum. The bonds and stocks of the city of New York issued pursuant to the provisions of this section shall city of New York issued pursuant to the provisions of this section shall express upon their face the fact that they are exempt from taxation by the city and county of New York, but not from State taxation, and shall refer to this section, and to the ordinance of the Comuon Council, and the resolution of the Commissioners of the Sinking Fund authorzing their issue.

SAVINGS BANK INVESTMENTS-POWERS AND RESTRIC-TIONS .- In 1898 the New York Legislature passed an amendment to paragraph 6, Sec. 116, of the Savings Bank law of 1892. The amendment extended investments of savings banks to first mortgage railroad bonds the principal part of whose railroad is located within this State, and in 1899 the field of railroad investments was still further enlarged; In 1900 the Chicago & Alton RR. was added to the list and other changes made in paragraph 6 Some further additions have been proposed at the 1901 session of the Legislature, but no action on them had been laken up to April 8

We give section 116 below as it stands with these amendments incorporated.

Sec. 116. In what securities deposits may be invested.—The trustees of any savings banks may invest the moneys deposited therein and the income derived therefrom only as follows:

1. In the stocks or honds or interest-bearing notes or obligations of the United States, or those for which the faith of the United States is pledged to provide for the payment of the interest and principal, in-eluding the bonds of the District of Columbia.

2. In the stocks or bonds or interest-bearing obligations of this State, issued pursuant to the authority of any law of the State.

State, issued pursuant to the authority of any faw of the State. 3. In the stocks or bonds or interest-bearing obligations of any State of the United States which has not within ten years previous to mak-ing such investment by such corporation defaulted in the payment of any part of either principal or interest of any debt authorized by the legislature of any such State to be contracted; and in the bonds or in-terest-bearing obligations of any State of the United States, issued in pursuance of the authority of the legislature of such State, which have, prior to the passage of this act, been issued for the funding or settlement of any previous obligation of such State theretofore in desettlement of any previous obligation of such State theretofore in de-fault, and on which said funding or settlement obligation there has been no default in the payment of either principal or interest since the issuance of such funded or settlement obligation, and provided the interest on such funded or settlement obligations has been paid regu-larly for a period of not less than ten years next preceding such in-vestment. vestment.

4. In the stocks or bonds of any city, county, town or village, school district bonds and union free school district bonds issued for school purposes, or in the interest-bearing obligations of any city or county of this State, issued pursuant to the authority of any law of the State for the payment of which the faith and credit of the municipality issuing them are pledged.

6. In bonds and mortgages on unincumbered real property situated in this State, worth at least twice the amount loaned thereon. Not more than sixty-five per centum of the whole amount of deposits shall be so loaned or invested. If the loan is on unimproved and unproductive real property, the amount loaned thereon shall not be more than forty per centum of its actual value. No investment in any bonds and mortgage shall be made by any savings bank except upon the report of a committee of its trustees charged with the duty of investigating the same, who shall certify to the value of the premises mortgaged or to be mortgaged, according to their best judgment, and such report shall be filed and preserved among the records of the corporation. Also in the first mortgage bonds of any railroad corpoof investigating the same, who shall certify to the Value of the pren-ises mortgaged or to be mortgaged, according to their best judgment, and such report shall be filed and preserved among the records of the corporation. Also in the first mortgage bonds of any railroad corpo-ration of this State, the principal part of whose railroad is located within this State; or of any railroad corporation of this and any other State or States connecting with and controlled and operated as part of the system of any such railroad corporation of this state, and of which connecting railroad at least a majority of its capital stock is owned by such a railroad corporation of an issue to retire all prior mortgage debt of such railroad corporation of this State, or in the mortgage bonds of any such railroad corporation of an issue to retire all prior mortgage debt of such railroad corporation of this State or such connect-ing railroad corporation respectively have failed regularly and punc-tually to pay the principal and interest or all its mortgage indebted-ness, and in addition thereto regularly and punctually to have paid dividends upon all its outstanding capital stock during the preceding railroad company respectively shall have been equal to at least one half of the total mortgage indebtedness of such railroad corporations re-spectively, including all bonds issued or to be issued under any mort gave securing any bond in which such investment shall be made. Also in the mortgage bonds of the following railroad corporations: The Chicago & North Western RR. Co., Chicago Burlington & Quiney RR Co., Michigan Central RR Co., Maine Central RR. Co., Pensyl-vania RR. Co., Delaware & Hudson Canal Co., belaware Lackawan-na & Western RR. Co., Maine Central RR. Co., the clicago & Alton RR. Co. Provided that at the time of making such investment the said railroads shall have earned and paid regular dividends of not less than four per centum per annum in cash on all their issues of capital stock for the ten years next preceding such feet eight and one-half inches. Not more than twenty per centum of the whole amount of deposits of any bank shall be loaned or invested in railroad bonds, and not more than five percentum of the deposits of any bank shall be invested in the bonds of any one railroad. Street railroad corporations shall not be considered railroad corporations within the meaning of this subdivision.

[Under date of June 10, 1809, F. D. Kilburn, SuperIntendent of the State Banking Department, issued a circular naming the bonds in which savings banks may invest under the amendment of 1899. For list of, savings cames may invest under the amendment of 1899. For list of, such bonds see CHRONICLE, V. 68, p. 1111. In 1899, as above stated-the Chicago & Alton was added to the list.] The opinion of Attorney General J. C. Davies, declaring the refunding bonds of the Chicago & Alton RR. Co. a legal investment for savings banks, will be found in full in the CHRONICLE V. 70, p. 1260.

7. In real property subject to the provisions of the next section.

It will be noted that subdivision 7 (the last paragraph of the above) refers to the "next section" for the provisions applicable. This reference is to section 117 of the law of 1892; we omit that section as it relates only to real estate. Sections 118, 119 and 120 of the law of 1892 we subjoin.

NEW YORK-CITIES AND TOWNS.

SECTION 118. The trustees of every such corporation shall as soon as practicable invest the moneys deposited with them in the securities authorized by this article; but for the purpose of meeting current payments and expenses in excess of the receipts, there may be kept an available fund not exceeding ten per centum of the whole amount of deposits with such corporation, on hand or deposit in any bank in this State organized under any law of this State or \cdot f the United States, or with any trust company incorporated by any law of the State; but the sum so deposited in any one bank or trust company shall not exceed twenty-five ver centum of the paid-up capital and surplus of any such bank or company; or such available fund, or any part thereof, may be loaneč upon pledge of the securities or any of them named in sub-divisions one, two, three and four (‡) of the preceding section but one, but not in excess of ninety per centum of the eash market value oi such securities so pledged. Should any of the securities so held in pledge depreciate in value, after making any loau thereon, the trustees shall require the immediate payment of such loau or of a part thereof, or ad-ditional security therefor, so that the amount loaned shall at no time exceed 90% of the market value of the securities pledged for the same. same.

same. SECTION 119. Every such corporation may also deposit temporarily in the banks or trust companies specified in the last section the excess of current daily receipts over the payments, until such time as the same can be judiciously invested in the securities required by this article. Whenever it shall appear to the superintendent of banks that the trustees of any such corporation are violating the spirit and intent of this provision by keeping permanently uninvested all or an undue proportion of the moneys received by them, he shall report the facts to the Attorney-Goueral, who shall proceed against such corporation in the manner provided in section eighty-two of this chapter.

SECTION 120. The trustees of any savings bank shall not loan the moneys deposited with them or any part thereof, upon notes, bills of exchange, drafts or any other personal securities whatever. In all cases of loans upon real property, a sufficient bond secured by a mort-gage thereon, shall be required of the borrower, and all the expenses of searchers,* examinations and certificates of title or appraisal of value, and of drawing, perfecting and recording papers, shall be paid by the borrower by the borrower.

HEMPSTEAD.—SMITH Cox, Supervisor.

HEMPSTEAD.—SMITH COX, Supervisor. Hempstead is now a town in Nassau County, but wasformerly atown in Queens Co., then including Far Rockaway, Hempstead, Iuwood, Law-rence, Rockaway Beach and Seaford villages. On Jan. 1, 1898, that portion of the town lying "westerly of a straight line drawn from the southeasterly point of the town of Flushing through the middle of the chaunel between Rockaway Beach and Shelter Island, in the county of Queens, to the Atlantic Ocean," became part of New York City, under the Greater New York Charter. This boundary was changed by the Legislature in April, 1899, and the new boundary is that portion of the old town of Hempstead "bounded on the east and north by the east and north bounds of the former village of Far Rockaway, and on the east by a line drawn due north from the northwest corner of said village to the south line of the town of Jamaica, as it existed on the thirty-first day of December, 1897." The bonds given below are those remaining as a debt against the town after assigning to New York City the portion belonging to it according to a decision of the supreme Court of the Third Judicial District at Albany Dec. 9, 1899. POPULATION OF THE BOROUGHS OF MANHATTAN AND THE BRONX, according to the U.S. Census of 1900, is 2,050,600; in 1890 the population of the old city of New York, comprising a some-what smaller area than that of the present boroughs of Manhattan and the Bronx, was 1,515,301. On the basis of the present territory, population then was 1,529,301. See V. 71, p. 408. In 1880 New York City's population was 1,206,299; in 1870 it was 942,292.

BOROUGH OF BROOKLYN.

CITY OF BROOKLYN.

The old city of Brooklyn covered the entire area of the county of The old clty of Brooklyn covered the entire area of the county of Kings, the county government being consolidated with that of the city on January 1, 1896, under the provisions of Chapter 954 of the Laws of 1895. Under the provisions of this act "the debt of the said county shall not be deemed to be or be included as a part of the debt of the City of Brooklyn, within the meaning of the provision of the Constitution of the State of New York limiting the power of cities to incur indebtedness." [See CHRONICLE, vol. 62, p. 49.] The towns of Flatbush, New Utrecht and Gravesend were annexed to the City of Brooklyn in 1894 and the town of Flatlands became a ward of the city on the first day of January, 1896.

BOROUGH OF QUEENS.

COUNTY OF QUEENS.

The debt of the county of Queens is reported under the county's own name on a subsequent page; the amount of the original debt which was chargeable to the city of New York was adjudicated finally to be \$3,-796,032 11, leaving \$1,011,967 89 as Nassau County's share of the old indebtedness. The old dobt will not be apportioned but the city of New York will pay all obligations as they mature, looking to Nassau County for reimbursement of its proportion of the debt. The amount of Queens County bonds outstanding on Jan. 1, 1901, was \$4,778,000, of which \$3,772,316 39 was chargeable to New York City. V. 71, p. 875.

County seat is Long Island City. A good part of the old County of Queens is now included in the Greater New York, and a law changing the name of that portion of the old county outside of Greater New York to Nassau County went into effect January 1, 1899. The amount of the outstanding bonds of this county which will be charge-able to the city of New York has been finally determined by the Supreme Court (V. 71, p. 875.) Under this decision the city of New York is liable for \$3,796,032 11 of the old debt of Queens County as it stood at the date of division and the remaining \$1,011,967 89 becomes an obligation of Nassau County. Instead of apportioning certain bonds to New York City and to Nassau County, the debt and interest will not be divided, but will be paid by New York City, Nassau County paying over its proportion as it becomes due. Now York City pays '78952414973 of the principal and interest as it becomes due, and Nassau County '21047585027. The statement below shows the obligations of the old County of Queens which remained out+tanding on Dec. 31, 1900. INTEREST—With the exception of the City Hall Commissioners' loan, which is payable at the office of the City Treasurer, all bonds and interest are payable at the office of the Union Trust Co. of New York.

DEBT, RESOURCES, ETC.

. . One of Original Thirteen Admitted as a State 7,815 Total area of State (square miles) Trenton -State Capital - -Governor(term exp. Mon. bef. 2d Tues. Jan.'02) F. M. Voorhees Secretary of State (term expires Apr. 1, 1902) - Geo. Wurts Treasurer (term expires April 2, 1903) - - George B, Swain Comptroller (term expires April 2, 1903) - Wm. S. Hancock

Legislature meets annually the second Tuesday of January, and there is no limit to the length of the session.

HISTORY OF DEBT.—New Jersey has always been a conservative State; there are consequently no facts out of which to construct a his-tory of debt issues. In a report made in 1838 the financial officer of the State affirmed that New Jersey had put out no obligations of any kind or loaned its credit to any company. The Constitution of 1844 forbade the creating of a State debt exceeding one hundred thousand dol-lars erect for purposes of war, for a swill more fully annear in the lars except for purposes of war, &c., as will more fully appear in the item below with respect to "debt limitation." This exception, under which it was allowable to exceed the hundred-thousand-dollar limit became operative on the occasion of the breaking out of our Civil War. Quite a debt was created at that period; the small amount the State now owesis the remnant of those war issues. The details are as follows.

DEBT LIMITATIONS.—The provisions of law limiting and regulat-ing the debt-making power in New Jersey will be better understood and the information will be made more serviceable to the investor if arranged in accordance with the civil divisions to which the provisions apply

(1) THE STATE is restricted as to its debt-making power by the State Constitution. In Article IV, Section VI, paragraphs 3 and 4, the whole subject is disposed of. The third paragraph forbids a loan of the State's credit, and the fourth paragraph forbids the creation of debt. These provisions are as follows. 3. The credit of the State shall not be directly or indirectly loaned in any case.

any case. 4. The Legislature shall not in any manner create any debt or debts, liability or liabilities of the State, which shall singly or in the aggregate with any previous debts or liabilities at any time exceed one hundred with any previous debts or purposes of war, or to repel invasion, or to Hability or flabilities of the State, which shall singly or in the aggregate with any previous debts or liabilities at any time exceed one hundred thousand dollars, except for purposes of war, or to repel invasion, or to suppress insurrection, unless the same shall be authorized by a law for some single object of work, to be distinctly specified therein; which law shall provide the ways and means, exclusive of loans, to pay the interest of such debt or liability as it falls due, and also to pay and discharge the principal of such debt or liability within thirty-five years from the time of the contracting thereof, and shall be irrepealable until such debt or liability and the interest thereon are fuily jaid and discharge i, and no such law shall take effect until it shall, at a general election, have been submitted to the people, and have received the sanction of a majority of all the votes cast for and against it at such election; and all money to be raised by the authority of such law shall be applied only to the specific object stated therein, and to the payment of the debt thereby created. This section shall not be construct to refer to any money that has been, or may be, deposited with this State by the Government of the United States.
According to the foregoing (4th paragraph), the power of the State for making debt is limited to \$100,000, except (1) for purposes of war etc., and (2) when the authorization is for some single object of work specified therein, etc. In the latter case the mode of procedure is, as will be seen, given in the same paragraph of the Constitution.
(2) OTTLES, COUNTLES, TOWNS, Ele., are also restricted in the making of certain kinds of debt by Article I, paragraphs 19 and 20, of the Constitution. We give the paragraph in full.
19. No county, city, borough, town, township or village shall hereafter give any money or property, or loan its money or eredit, to or in ald of any individual, association or corporation, or become security for or be direct bonds of any association or corporation.

20. No donation of land or appropriation of money shall be made by the State or any municipal corporation to or for the use of any society, association or corporation whatever. It will be noted that the above prohibition relates to the giving of money, property or credit of cities, &c., to individuals, associations, or corporations, &c., and that the prohibition is absolute, forbidding the doing of such acts in any form, shape or manner. There is one other restriction of the State Constitution, and that is found in Article IV. Section VII., paragraph 11, which forbids the Legislature passing any special laws "regulating the internal affairs of towns and counties"; in this and in all other cases in which according to the judgment of the Legislature general laws are feasible, the Constitution states that general laws must be provided. In compliance with this last provision the Legislature has passed many general laws covering bonded indebtedness of cities, towns, etc. They are so numerous they cannot be cited here. We would refer the reader to the Revised Statutes of New Jersey published in 1896 under the heading "Municipal Bonds" pages 693 to 716 both inclusive; and also to the same heading ("Municipal Bonds") pages 2220, etc. TAX EXEMPTION.—The State of New Jersey passed in 1893

TAX EXEMPTION.—The State of New Jersey passed in 1893 a general statute which exempts from taxation the bonds, securi-ties and other evidences of indebtedness of municipal corpora-tions; the provision covers not ouly the bonds, etc., to be hereafter issued, but those as well that have been heretofore issued. It is a sweeping statute, and one which is of decided interest to the holders of the municipal securities of the State. The full text of it may be found in the STATE AND CITY SUPPLEMENT for October, 1898, page 58.

SAVINGS BANKS' INVESTMENTS-POWERS AND RESTRIC-TIONS.-The last general savings bank law of New Jersey was passed in 1876. Since then the legislative tendency in the matter of investments has been in the direction of allowing the management of these institutions a wider choice and a larger discretion. In 1878 the limits of the 1876 law were broadened in several particulars by a new act of two sections, the first taking the place of section 26 of the act of 1876. In 1886 still another law was passed in place of the first section of the law of 1878. Again in 1889 an act was passed extending ma. terially the provisions of section two of the law of 1878, which covered the same subject matter contained in section 29 of the original law of 1876, and thereby section 26 of the law of 1876 was superseded by the law of 1886, and section 29 was superseded by the law of 1889. In 1901 Section two was further amended in the way specified below. In 1896 a supplement approved March 30, 1896 (Chapter 139, laws of 1896) to the law of 1876, making school district bonds an authorized investment, went into effect. In 1897 an act was passed (approved April 9) authorizing investments in bonds issued by commissioners appointed by the Supreme Court of the State. In 1899 a further supplement extending the permissible line of municipal investments so as to include the bonds of townships and boroughs was approved March 24. An attempt to add such securities to the list was made in 1898, but the measure then failed to receive the approval of the Governor. The 1899 law is as follows:

SECTION 1. It shall be lawful for any savings hank in this State to invest its funds in the bonds of any city, county, town or township of this State issued pursuant to the authority of any law of this State, or in the bonds of any borough or village or school district of this State issued pursuant to the authority of any law of this State; provided, such borough, village or school district shall not, within the ten years next preceding, have defaulted in the payment of any part of either principal or interest of any legal debt or obligation thereof; and provided further, that the total indebtedness of any such borough or village does not exceed ten per centum of its assessed valuation, and such school district bonds are by taw charged upon all the property of the inhabitants of such district, or in any interest-bearing obligation (other than obligations commonly known as improvement certificates) issued by the city, county, town, township, borough or village in which such bank or institution is situated. The following is the law of 1897 (approved April 9, 1897): SECTION 1. It shall be lawful for any savings bank in this State to

The following is the law of 1897 (approved April 9, 1897):

"Sec. 1. It shall be lawful for any bank, trust company, savings bank or savings institution * * incorporated under the laws of this State, to invest moneys belonging to or deposited with any such com-panies in any bonds authorized by the laws of this State to be issued by any commission appointed by the Supreme Court of this State by virtue of any law of this State."

We omit the law of 1896 with reference to school district bonds

because its provisions are included in the laws of 1899, quoted above. Next we give the leading provisions of the general law as to investments.

SECTION 1. That the first section of the act of which this is a supplement be and the same is hereby amended so as to read as follows:

That it shall not be lawful, from and after the passage of this act, for any savings bank or other savings institution, whether chartered or incorporated under a general or special act of the legislature of this State, and any provision contained in the charter, or any supplement thereto, of such savings bank or savings institution to the contrary, to invest the moneys deposited with the same in any manner, except as follows to wit:

1. In the stocks or bonds or interest-bearing notes or obligations of the United States, or those for which the faith of the United States is distinctly pledged to provide for the payment of the principal and interest thereof;

tion, defaulted in the payment of any part of either principal of interest of any debt anthorized by any legislature of such State to be contracted. IV. In the stocks or bonds of any city, town, county or village of this State, issued pursuant to the authority of any law of this State, or of the cities of New York. Brooklyn and Philadelphia, or in any interest-bearing obligations (other than those commonly known as improve-ment certificates) issued by the city, town or borough in which such bank or institution shall be situated; (See below for provision including the bonds of certain cities and counties of any State in the U.S). V. In bonds secured by mortgages which shall be a first lien on real estate situate in this State, and worth at least double the amount loaned thereon, but not to exceed eighty per centum of the whole depos-its shall be so loaned or invested; but in case the loan is on unimproved or unproductive real estate, the amount loaned thereon shall not be more than thirty per centum of its actual value; and no investment in any bond and mortgage shall be madeby any savings bank, except upon the report of a committee of at least three of the managers, directors or trustees of any such bank or institution, and a majority of which eommittee shall certify to the value of the premises mortgaged, or to be mortgaged, according to their best jidgment; such report shall be filed and preserved among the records of the institution; VI. In real estate strictly in accordance with the following pro-visions.

visions.

We do not reprint the real estate provisions, as they cover a matter not germane to our present subject. It is sufficient to say that they are two in number, marked (a) and (b), and may be summarized as below:

(a) authorizes the holding of a plot for erection of a banking building or buildings, portions of which may be rented, but the cost of lot and buildings must not exceed 50% of the net surplus of the corporation:
(b) all purchases under foreelosure sales upon mortgages owned by the corporation or sales under judgments or decrees obtained for debts due, etc.; and all such real estate must be sold within five years unless, on application to the State Board having supervision of Savings Banks, the state ball he extended time shall be extended.

But the character of permissible investments was further greatly enlarged by the law of 1886, which is as follows:

enlarged by the law of 1886, which is as follows: SECTION 1. That it shall be lawful for any savings bank or savings in-stitution, incorporated under any law of this State, to invest moneys deposited with it in the bouds of any city or county of any State of the United States of America, which have been or may be issued pursuant to the authority of any law of any such State; *provided*, no such city or county has, within ten years previous to making such investment by any such savings bank or savings institution of this State, defaulted in the payment of any part of either principal or interest of any debt authorized by law of such State to be contracted; and provided, fur-ther, that the total indebtedness of any such city or county is limited by law to ten percentum of its assessed valuation.

By another act the banks also have the right to invest in railroad bonds under certain restrictions. The authorization was given by Section 2 of an act approved February 22, 1888. Subsequently (April 27, 1888,) this Section 2 was repealed. On March 27, 1889, however, It was again re-enacted. The section is as follows:

SECTION 2. That it shall be lawful for any savings bank in this State to invest its funds in first mortgage bonds of any railroad company which has paid dividends of not less than four per centum per annum regularly, on their entire capital stock, for a period of not less than five years next previous to the purchase of such bonds, or in any con-solidated mortgage bonds of any such company authorized to be issued to retire the entire bonded debt of such company.

The other law referred to above passed in 1889 amending section 2 of the law of 1878 is as below. It relates to *loans on collaterals*. As noted above, a slight but very important alteration in the phraseology of this section was made by a law approved March 22, 1901, and which forms chapter 148 of the laws of 1901. The new words intro-duced are indicated by brackets [] below.

dueed are indicated by brackets [] below. SECTION 2. Hereafter it shall not be lawful for any saving insti-tution in this State to loan the money on deposit with the same, or any part thereof, upon notes, bills of exchange or drafts, excepting upon the additional pledge of collateral security or securities, which collat-oral security or securities shall be of the same nature and character as those in which the money deposited may be invested, as directed in the first section of this act, or the capital stocks of national and State banks, or [the capital stock or bonds of] other corporations of this State, which have not defaulted in the payment of interest [or] dividends within two years next preceding the time of such loan, and then only to the extent of eighty per centum of the market value of such collater-als; provided, that the total amount of such loans shall not exceed diffeen per centum of the total deposits held by such institution. In addition to the foregoing (according to section 27 of the general

In addition to the foregoing (according to section 27 of the general law of 1876) the managers can keep on hand or on deposit in any bank in the State, or in any trust or safe deposit company in New Jersey, New York or Pennsylvania, an available fund of not exceeding ten per cent of the whole amount of deposits with such corporation, or loan the same on pledge of the securities named in the first section cited above. Also (according to section 28 of the general law of 1876) they can deposit temporarily in banks the excess of daily receipts over pay-ments until such time as they may be judiciously invested.

DEBT LIMITATION—In Pennsylvania the limit to the indebtedness of the State, and to the indebtedness of the cities and minor civil organizations in the State, is fixed by the State Constitution.

1 State indebtedness.—With regard to the State, the regulations controlling and governing debt creation, payment, &c., are found in Sections 4, 5, 6, 11, 12, 13 and 14 of Article IX of the Constitution, and are as follows.

ARTICLE IX, Sec. 4. No debt shall be created by, or on behalf of, the State except to supply casual deficiencies of revenue, repel invasions, suppress insurrection, defend the State in war, or to pay existing debt; and the debt created to supply deficiencies in revenue shall never exceed, in the aggregate at any one time, one million of dollars.

SECTION 5. All laws authorizing the borrowing of money by, and on behalf of, the State shall specify the purpose for which the money is to be used, and the money so borrowed shall be used for the purpose specified and no other.

SECTION 6. The credit of the Commonwealth shall not be pledged or loaned to any individual, company, corporation or association, nor shall the Commonwealth become a joint-owner or stockholder in any company, association or corporation.

company, association or corporation. SECTION 11. To provide for the payment of the present State debt, and any additional debt contracted as aforesaid, the General Assembly shall continue and maintain the sinking fund sufficient to pay the accruing interest on such debt, and annually to reduce the principal thereof by a sum not less than two hundred and fifty thousand dollars; the said sinking fund shall consist of the proceeds of the sales of the public works, or any part thereof, and of the income or proceeds of the sale of any stocks owned by the Commonwealth, together with other funds and resources that may be designated by law, and shall be increased from time to time by assigning to it any part of the taxes or other revenue of the State not required for the ordinary and current expenses of government, and unless in case of war, invasion or insurrection, no part of the said sinking fund shall be used or applied otherwise than in the extinguishment of the public debt.

SECTION 12. The moneys of the State, over and above the necessary reserve, shall be used in the payment of the debt of the State, either directly or through the sinking fund, and the moneys of the sinking fund shall never be invested in or loaned upon the security of anything except the bonds of the United States or of this State.

SECTION 13. The moneys held as necessary reserve shall be limited by law to the amount required for current expenses, and shall be secured and kept as may be provided by law. Monthly statements shall be published, showing the amount of such moneys, where the same are deposited, and how secured.

SECTION 14. The making of profit out of the public moneys, or using the same for any purpose not authorized by law, by any officer of the State, or member or officer of the General Assembly, shall be a misdemeanor, and shall be punished as may be provided by law; but part of such punishment shall be disqualification to hold office for a period of not less than five years.

State loans in Pennsylvania, whether created for original indebtedness or authorized to fund existing indebtedness, are usually negotiated through the Governor and Commissioners of the sinking fund.

The last act of the Pennsylvania Legislatura authorizing a public lean was the act of June 8, 1881, when a thirty-year loan was effected to fund existing indebtedness at a lower rate of interest.

The earliest date at which the last of the existing indebtedness of Pennsylvania will mature is February 1, 1912, and under existing ar rangements the accumulations in the sinking fund will at that time pay the total State indebtedness.

(2) County and Municipal Indebtedness.—Under the laws of Pennsylvania the power to create county loans is in the Board of County Commissioners, which consists in each county of three persons, elected tri-ennially under the minority system of voting, by which the minority party in each County usually has one member of the Board.

In cities and boroughs the power to create indebtedness is vested in councils, municipal debts being created by ordinance.

The creation of county, city and other municipal indebtedness is contracted. subject to the following constitutional limitations. (4) In the stock

suppress domestic insurrection, defend itself in time of war, or to assist the State in the discharge of any portion of its present indebtedness.

SECTION 10. Any county, township, school district or other municipality incurring any indebtedness shall, at or before the time of so doing, provide for the collection of an annual tax sufficient to pay the interest, and also the principal thereof within thirty years.

(3) Townships and School Districts.—In the various school districts of the State the school directors have the power to create loans, subject to the limitations of Section 10 above quoted, to provide for the redemption of the same within thirty years.

In townships, the only authority, except that of the school directors to borrow money, is in the road supervisors, who have no power tocreate bonded indebtedness, but simply to make a temporary loan for necessary expenses, which must be provided for by an assessment of sufficient township tax rate, known as road tax.

POPULATION OF STATE.—The population of Pennsylvania hasbeen reported as follows in the years named

1900 6,302,115	1860 2,906,215	1820	1.047.507

SAVINGS BANKS INVESTMENTS-POWERS AND RESTRIC-TIONS.-Philadelphia is, we believe, entitled to the distinction of starting the first savings institution in the United States. The name this association bore was the "Philadelphia Savings Fund Society," and it still exists, bearing the same name. Originally the bank was not incorporated, but was a voluntary organization, such societies in Great Britain being at that time of a like character. The date of the organization was November 27, 1816, and the bank was opened for business December 2, 1816. Mr. Hutchinson, who, now holds the office of President, states that the oldest ledger of the company goes back to the time of opening, and shows a deposit on that day 'December 2, 1816) of five dollars. The company was not incorporated until February 25, 1819.

It is surprising that Pennsylvania, although engaged in such an early venture in the department of savings institutions, should have made so little progress in the same department since. Indeed, the second organization does not bear date until 1847, and we think there had only been 10 mutual savings institutions organized in the whole State from 1816 down to the early part of 1890. We may assume, howeverthat this slow development was in no measure due to a lack of desire for savings banks on the part of the people of that commonwealth. That such institutions were sought and needed is sufficiently evident from the fact that nine of the ten companies referred to above reported in 1890 that they held \$63,957,341 of deposits. In 1889 a general law, facilitating the incorporation of sav ings banks, was passed by the Legislature. Since then there has been a small addition to the number of institutions, the total doing business in the State in November, 1900, being 17, with deposits aggregating \$107.621.381 19.

The provisions of the special charters are all liberal as to investments. A law passed in 1885, and a supplement of the same passed in 1889, authorizing the extension for twenty years of special charters, contains the following.

"Provided also, that no * * * Savings Institution or Savings Bank having no capital stock, renewing or extending its charter, corporate rights and franchises, under the provisions of this act, shall thereafter be allowed the privileges of a bank of discount, nor be allowed to loan any money received on deposit, EXCEPT first mortgage or lien upon real estate within this commonwealth, upon the bonds or securities of the United States or of this State, or upon county, city, borough, township or school bonds of any county, city, borough, townhip or school district within this commonwealth, or any other good and valid securities."

Authority to loan on any "good and valid security "appears to confer about as broad a discretion upon the managers as could be expressed in a statute.

It was not until 1889, as already stated, that a general law facili tating the organization of savings institutions was passed. That law of 1889 is indeed well adapted not only for facilitating, but for stimulating, the growth of the system. Its influence in the latter direction would seem to be assured under the liberality of the provisions respecting investments. The following is section 17, which contains the investment limitations; we would especially direct attention to subdivision four of this section:

SECTION 17.—It shall be lawful for the trustees of any savings bank to invest money deposited therein only as follows:

(1.) In the stocks or bonds or interest-bearing notes or the obligations of the United States, or those for which the faith of the United States is pledged to provide for the payment of the interest and the principal.

(2) In the stocks or bonds of the Commonwealth of Pennsylvania bearing interest.

(3) In the stocks or bonds of any State in the Union that has not within ten years previous to making such investments, by such corporation, defaulted in the payment of any part of either principal or interest of any debt authorized by any Legislature of such State to be

ARTICLE IX, Sec. 7. The General Assembly shall not authorize any county, city, borough, township or incorporated district to become a stockholder in any company, association or corporation, or to obtain or appropriate money for, or to loan its credit to, any corporation, association, institution or individual.

ation, institution or individual. SECTION 8. The debt of any county, city, borough, township, school district, or other municipality or incorporated district, except as herein provided, shall never exceed seven per centum upon the assessed value of the taxable property therein, nor shall any such municipality or district incur any new debt, or increase its indebtedness to an amount exceeding two per centum upon such assessed valuation of property, without the assent of the electors thereof at a public election in such manner as shall be provided by law; but any city the debt of which now exceeds seven per centum of such assessed valuation may be authorized by law to increase the same three per centum, in the aggregate at any one time, upon such valuation.

SECTION 9. The Commonwealth shall not assume the debt. or any part thereof, of any eity, county, borough or township, unless such debt shall have been contracted to enable the State to repeal invasion,

(4) In the stocks or bonds of any city, county, town or village of any State of the United States, issued pursuant to the authority of any law of the State, or in any interest-bearing obligations issued by the city or county in which such bank shall be situated.

(5) In bonds and mortgages on unineumbered, improved real estate, situated in this State.

It will be noted that according to the foregoing (sub-division four), Pennsylvania savings banks are allowed to invest their deposits in the bonds and stocks of any city, county town or village in any of the United States. Furthermore, by the fifth subdivision bonds and mortgages are left to the discretion of the trustees in all purchases, except that they must be first mortgages on improved real estate in Pennsylvania. The next section (18) relates to the temporary deposit of funds in banks and trust companies. It makes it lawful to deposit temporarily in banks or trust companies the excess of current daily receipts over the payments until such time as the same can be judielously invested in the securities named above.

The city sinking fund held on Jan. 1, 1901, in addition to the loans given above, assets amounting to \$917,957 25. The cash on hand in the city treasury on that date was \$11,389,783 54. The amount of bonded debt redeemed by the Sinking Fund Commission during the year 1900 was \$6,339,750. Among the assets held by the city are 22,500 shares of Sunbury & Erie Railroad stock, par value \$100 per share, or 45,000 shares of Philadelphia & Erie Railroad stock, par value \$50 per share, market value \$30 per share.

CITY PROPERTY-The real estate owned by the city Jan. 1, 1901, was valued at \$58,413,394, an increase over that of Jan. 1, 1900, of \$1,059,400.

ASSESSED VALUATION, ETC.—The following shows the annual payments to the sinking fund, amount of bonded debt and outstanding warrants, assessed value of property, and the tax rate, for years indicated. Property in this city is assessed at about 80% of its actual value.

TOTAL DEBT, ETC.—The total liabilities on March 1, 1900, were \$769,750. The assets on March 1, 1899, were \$934,743; assets in excess of liabilities \$164,993. The total assets include bank stocks \$308,450; mortgages on railroads \$385,000, and bonds, \$161,750.

ASSESSED VALUATION.—The total assessed valuation of the State in 1890 was \$74,134,401; in 1897 it was \$77,632,079.

DEBT LIMITATION.-Neither the new Constitution (adopted June 4, 1897,) nor the old Constitution nor the State statutes contain any general provisions authorizing bond issues or limiting the debt-making power, except that the new Constitution-

power, except that the new Constitution—

Forbids the State (Article 8, Sec. 3) to borrow money or create debt, "but pursuant to an Act of the General Assembly passed with the concurrence of three-lourths of all the members elected to each House, except to supply casual deficiencies, repel invasion, suppress insurrections, defend the State in war or pay existing debts."
Forbids any county, city, town or other municipality (Article 8, Sec. 8) to "lend its credit or appropriate money to, or assume the debt of, or become a shareholder or joint owner in, or with, any private corporation or any person or company whatever."
Forbids any corporation (Article 9, Sec. 1) to be created, etc., by special act, "but only by or under general law"; "but the foregoing provisions shall not apply to municipal corporations, banks," etc. The above indicates that the authority as regards municipalities [except as already specified in number (2)] rests with the General Assembly, and the General Assembly always passes special acts to provide for special occasions and needs.

POPULATION OF STATE.—The population of Delaware has been as follows in the years mentioned:

DEBT LIMITATION.-There is nothing in the Constitution of Maryland limiting the power of the Legislature to authorize bond issues either by the State or by its municipalities. No general limit for cities and towns has been fixed by the Legislature, nor is there any general authorization to be found in the statutes under which cities and towns ean issue bonds. This power is lodged in the Legislature, and is dele gated to the municipalities from time to time for specific purposes as the occasion may arise. It is necessary, therefore, for the investor to study the law in each case on this as well as on other points affecting the loan with respect to which he may need information.

POPULATION OF STATE .-

Of the total population in 1880 22.49 per cent was colored and in 1890 20.92 per cent. In number, blacks were 165,091 in 1850; 171,131 in 1860; 175,391 in 1870; 210,230 in 1880; and 218,004 in 1880.

SAVINGS BANKS INVESTMENTS.—There are in this State gen-eral banking laws under which savings banks may be organized, and yet we notice that even in 1890 a special charter was granted incorpor-ating the Germania Savings Bank of Baltimore. However, in both the general and special laws there appears to be a pretty general authority granted for investing the deposits. The general law states that—

Any savings institution incorporated under this article shall be capable of receiving from any person or persons, or bodies corporate or politic, any deposit of money which shall be invested or loaned out on

good security in the discretion of the directors; provided that no part of the funds of said corporation shall be loaned to any officer or director of such corporation.

such corporation. In the special law passed in T390, which we have referred to above, the power to loan the deposits is made a little more definite. The sec-tion referring to that subject states that the "corporation shall have "power to borrow money, receive money on deposit, loan money "taking such security therefor, either real or personal, as the Board of "Directors may deem sufficient; provided that no part of the funds of "said corporation shall be loaned to an officer or director thereof." We cannot discover any marked difference in the two provisions cited, except that the enactment in the case of the new Baltimore bank states distinctly that the security can be either real or personal. But as much as that would, we think, be assumed as authorized under the gen-eral provision, since no limit is made and loaning on bond and mortgage is always a legitimate part of the business of savings banks. is always a legitimate part of the business of savings banks.

DEBT LIMITATION .- Ohio has very carefully guarded the debtmaking power of the State. This could not be said while the Constitution of 1802 was in force; for under that instrument it was competent

for the Legislature to construct works of internal improvement on behalf of the State, or to aid in their construction by subscribing to the capital stock of corporations created for that purpose, or to authorize in other ways the creation of debt in unlimited amounts. But since the

adoption of the Constitution of 1851 the whole situation in these particulars has changed, the legislative power with respect to the State having been limited. The same is in large measure true also of the municipalities.

FIRST, As to the State's power to contract debt, this is regulated under the first five sections of article 8 of the Constitution. Section 1 limits the power to the supply of "casual deficits in revenues or to meet expenses not otherwise provided for," but in the aggregate debts for even the purposes named cannot exceed \$750,000. Section 2 contains an exception to the foregoing; it grants the power to contract debt in case of invasion, of insurrection, of war or of the redemption of the then existing indebtedness. Section 3 reaffirms the limit, except as above specified. Section 4 forbids the loaning of the State credit. Section 5 further forbids the assumption of debts by States. We insert these five sections in full.

The assumption of debts by States. We insert these five sections in full. SECTION 1. [Debt limited to seven hundred and fifty thousand dollars]. The State may contract debts to supply casual deficits or failures in revenues or to meet expenses not otherwise. provided for; but the aggregate amount of such debts direct and contingent whether contracted by virtue of one or more acts of the General Assembly, or at different periods of time, shall never exceed seven hundred and fifty thousand dollars; and the money arising from the creation of such debts shall be applied to the purpose for which it was obtained or to re-pay the debts so contracted and to no other purpose whatever.

SECTION 2. [Additional and for what purpose whatever. SECTION 2. [Additional and for what purpose.] In addition to the above limited power the State may contract debts to repel invasion, suppress insurrection, defend the State in war, or to redeem the present outstanding indebtedness of the State; but the money arising from the contracting of such debts shall be applied to the purpose for which it was raised, or to re-pay such debts, and to no other purpose whatever; and all debts incurred to redeem the present outstanding indebt-edness of the State shall be so contracted as to be payable by the sinking fund hereinafter provided for as the same shall accumulate. SECTION 3. [The State to create no other debt]. Excent the debts above

SECTION 3. [The State to create no other debt.] Except the debts above specified in Sections 1 and 2 of this article, no debt whatever shall here-after be created by or on behalf of the State. SECTION 4. [Ordit of State; the State shall not become joint owner or stockholder.] The oredit of the State shall not in any manner be given or loaned to or in aid of any individual association or corporation what-ever; nor shall the State ever hereafter become a joint owner or stock-belden in any company or execution in this State or clearwhere forward holder in any company or association in this State or elsewhere formed

for any purpose whatever. SECTION 5. [No assumption of debts by the State.] The State shall never assume the debts of any county, city, town or township, or of any corporation whatever, unless such debt shall have been created to repel invasion, suppress insurrection or defend the State in war.

The foregoing sections complete the limitation as to State debt and credit. Sections 7, 8, 9, 10 and 11 of Article 8 cover the matter of sinking funds referred to in Section 2 above. But they need not be published here.

SECOND, As to Cities, Towns, Counties, &c., so far as the Constitution affects the power of the Legislature to authorize these municipalities to create debt, the limitations are found in section 6 of article 8 and in sections 1, 2 and 6 of article 13. (1) Section 6 of article 8 forbids the General Assembly to authorize cities, &c., to become stockholders in or to raise money or loan credit to aid corporations, &c. (2) Sections 1 and 2 of article 13 forbid the passing of special acts and require general acts for conferring cor porate powers. (3) Section 6 of article 13 provides that the General Assembly make provision for the organization of cities, &c., by general laws and restrict their debt-making power. These sections are as follows:

laws and restrict their debt-making power. These sections are as follows: ARTICLE 8, Section 6. [Counties, cities, towns or townships not author-ized to become stockholders, dc.] The General Assembly shall never authorize any county, city, town or township. by vote of its citizens or otherwise, to become a stockholder in any joint stock company, corpora-tion or association whatever; or to raise money for, or loan its credit to, or in aid of, auy such company, corporation or association. ARTICLE 13, Section 1. [Corporate powers]. The General Assembly shall pass no special act conferring corporate powers. Section 2. [Corporations how formed]. Corporations may be formed under general laws; but all such laws may from time to time be altered or repealed. Section 6. [Organization of cities, dc.] The General Assembly shall provide for the organization of cities and incorporated villages by gene-ral laws and restrict their power of taxation, assessment, borrowing money, contracting debts and loaning their credit, so as to prevent the abuse of such power.

One at first sight would infer from section 6 article 8 above cited that elties could not subscribe to the stock of or loan money to railroads, as railroads are corporations and joint-stock companies. That, however, is not a correct conclusion, as was decided in the case of Walker vs. The City of Cincinnati, a case which arose under an act of the General Assembly of Ohio entitled "An Act relating to cities of the first class," authorizing any such city to construct a line of railroad therefrom to any other terminus in that State or in any other State. In pursuance of the authority that act purports to give, Cincinnati undertook to build the Cincinnati Southern Railroad. To test the legality of that proceeding this action was brought. The Court's opinion is very full and explicit, the conclusion being that from "the language "of the section it is quite evident that it was not intended to prohibit "the construction of railroads nor indeed to prohibit any species of "public improvements. The section contains no direct reference to "railroads nor to any other special classes of improvements or enter-" prises. The inhibitions are directed only against a particular manner "or means by which under the Constitution of 1802 many public im-"provements had been accomplished."

In compliance with section 6, article 13 (cited above), which provides for the organization of cities etc. by general law, the Legislature has made an elaborate classification of municipal corporations. First they are divided into cities, villages and hamlets. Then cities are divided into two classes, the first class being subdivided into three grades and the second class being subdivided into four grades, the grade being determined by population according to the last Federal Census.

Cities in the FIRST CLASS-First grade includes all cities of more than 200,000 inhabitants; second grade all less than 200,000 and more than 90,000 inhabitants; third grade all less than 90,000 and more than 31,-500 inhabitants.

Cities in the SECOND CLASS-First grade includes all cities of less than 31,500 and more than 30,500 inhabitants; second grade all less than 30,500 and more than 20,000 inhabitants; third grade all less than 20,000 and more than 10,000 inhabitants; fourth grade all less than 10,000 and more than 5,000 inhabitants.

VILLAGES-Of the first class include all having less than 5,000 and more than 3,000 inhabitants; the second class includes all having less than 3,000 and more than 200 inhabitants.

HAMLETS-According to section 1550 of the Revised Statutes all exlsting corporations organized as "incorporated villages for special "purposes shall be hamlets until advanced to villages."

It is impossible to make any satisfactory generalization with regard to the bonding power the Legislature has granted these municipalities. There are a few sections of the Revised Statutes authorizing bond issues which have a universal application, such as the provision granting power to issue bonds in anticipation of special assessments. but most of the laws for that purpose cover only one class of cities, and many of them are so worded as to apply only to one city, and granting an issue of bonds for a specific purpose. No general laws limiting the powers of municipalities to incur indebtedness have been passed, although section 6, article 13, appears to require it. And yet is it not a question whether that section calls for any legislation of a general nature except a general law "for the organization of cities, &c."?

the road to the Cincinnati Hamilton & Dayton Railway and the South-ern Railway was voted on August 3, 1896, and defeated-V. 63, p. 153, 228. The State Legislature in 1898 passed a bill permitting an election to vote to extend the lease beyond 1906 (V. 66, p. 900), but at this date (April, 1901,) no proposition has yet been submitted. President Spencer of the Cincinnati New Orleans & Texas Pacific Railway Co. has submitted a proposition to the Board of Trustees for the renewal of the lease, to date from Oct. 12, 1901. The proposition is to extend the lease for a term of not less than sixty-five years at an annual rental of \$1,050,000. Other considerations are also mentioned in the proposal. See V. 72, p. 499. If accepted, proposition must be voted upon. (See V. 72, p. 499.) The water-works pays the interest and sinking fund on all water bonds. ASSESSED VALUATION. ETC.—The net debt on Dec. 31 assessed

from subscribing for any stock in a corporation unless paid for at time of such subscription. The section which covers this subject is section 6 of article 10, and is as follows.

Counties cannot take stock. No county shall subscribe for stock in any incorporated company unless the same be paid for at the time of such subscription; nor shall any county loan its credit to any incor-porated company, nor borrow money for the purpose of taking stock in any such company; nor shall the General Assembly ever on behalf of the State assume the debts of any county, city, town or township, nor of one company of the state assume the debt of any county of the state assume the debt of the state assume th

It should be said in connection with the above that several laws

have been enacted since the foregoing constitutional limit was adopted (March 14 1881), and bonds have been issued by counties thereunder beyond the z per cent limit, for the construction of "free gravel, stone

or other macadamized roads." Several such laws were passed at the 1899 session of the Legislature. But in the case of Strieb vs. Cox, Treas., 111 Ind., the Supreme Court of Indiana held that gravel road

bonds are not properly indebtedness of the county-hence do not come

within the inhibition of Section 13 of the Constitution. (See editorial in STATE AND CITY SUPPLEMENT for October, 1899, page 3.) THIRD, counties (but no other kind of municipality) are prohibited

Treasurer (term expires Feb., 1903) - Leopold Levy Legislature meets biennially in odd years on the Thursday after the first Monday in January, and sessions are limited to sixty-one days.

HISTORY OF DEBT .- The historical details of Indiana's State debt from 1832 up to 1894 will be found in the STATE AND CITY SUPPLEMENT of April, 1894, pages 85 and 86.

Indiana's credit stands high now, about all of its debt being in 3 and 3 12 percent bonds; the details of the State's outstanding obligations are as follows:

FOREIGN DEBT.

LOANS-	-Interest.	Prine	cipal
NAME AND PURPOSE.	P. Ot. Payable.	When Due.	Outstand'g.

any corporation whatever.

The prohibition which this section contains applies, as already stated, only to counties. Consequently the Legislature was at liberty to authorize cities to subscribe to the stock of railroads, as it did by a general law passed in 1867 granting the power to subscribe to the stock of any railroad running into or through any city or near its corporate limits. Other laws of a somewhat similar character have been passed at other dates. We notice one law too which authorizes counties bordering on the State line to subscribe for railroad stock and to issue bonds for the purpose of paying the subscription. In view of the above section this grant of power extended to counties would seem to be at least questionable.

COUNTIES are apparently restricted .hy statute to a lower than the Constitutional limit of 2 per cent in the matter of creating certain kinds of debt. For instance, Section 5749 of the Revised Statutes authorizes any county to issue bonds when necessary to construct, complete or repair court house, jail or other county huildings, or to fund existing debt; in those cases county commissioners may borrow for that purpose not exceeding 1 per cent on assessed valuation and issue bonds therefor.

Limit of one per cent may be exceeded in counties for funding purposes in certain cases where the aggregate indebtedness in 1879 exceeded one per cent (see Revised Statutes, Section 816); also for temporary loans (see Revised Statutes, Section 5818).

Also (if the laws that have been passed are constitutional), the limit of 2 per cent may be exceeded for the purpose of making gravel roads (see above), the Supreme Court having decided that gravel road bonds are not properly an indebtedness of the county.

In addition to the foregoing, general statutes have been passed by the Legislature granting general powers to cities and towns of fifteen thousand inhabitants or over to issue bonds for legitimate corporate purposes, subject, however, to the Constitutional limit of 2 per cent on valuation. But we have not the space to set out here the details, or the details of the other legislation applicable to cities of larger and smaller population, and covering specific purposes, such as water works, &c.

BILL LEGALIZING GRAVEL ROAD BONDS.—The Legislature in 1901 passed a bill (House bill No. 8) legalizing all bonds, sold or unsold, issued under an act of the Legislature, approved March 3, 1893, as amended by Acts approved March 7, 1895, and Feb. 24, 1899. All acts and orders of the Board of County Commissioners passed under these laws are by this new law legalized and made valid.

POPULATION OF STATE.-The population of Indiana has been as follows in the years named.

of its present Constitution. We say developed, because this antagonism has apparently been progressive. Nothing of it is to be found in the Constitution of 1818. The Constitution of 1848 contains no reference to municipalities, but has in it stringent restrictions limiting to \$50,000 the power of the Legislature to create State debt, except in case of war, invasion, etc., unless the law proposing the Issue of bonds is submitted to a vote of the people. But turning to the Constitution of 1870 we find the whole subject of debt-making most thoroughly considered and its

FIRST, as to the State, the provisions are not very unlike the provisions of the Constitution of 1848, except that as to the limit for casual de-

basis settled.

ficits and failures of revenue, the aggregate which can be created is very properly raised to \$250,000. But with that exception and with the further exception for the purpose of repelling invasion etc. no debt ean be contracted unless the law is submitted to a vote of the people at a general election, which law must contain a provision for the payment of interest as it accrues, and previous notice of the election be given by publication for three months prior to such election. These last two restrictions as to interest and notice of election are only found in the 1870 Constitution. The sections which cover these matters are as follows; we omit the first portion of Section 18, which relates only to appropriations and payment of appropriations out of funds belonging to the State:

SECTION 18. * * * * * *Provided*, the State may, to meet casual deficits or failures in revenues, contract debts never to exceed in the ag-gregate, \$250,000, and moneys thus borrowed shall be applied to the purpose for which they were obtained, or to pay the debt thus created, and to no other purpose; and no other debt except for the purpose of repelling invasion, suppressing insurrection or defending the State in war (for payment of which the faith of the State shall be pledred), shall be contracted, unless the law authorizing the same shall at a general election have been submitted to the people, and have received a majority of the votes cast for members of the General Assembly at such election The General Assembly shall provide for the publication of said law for three months at least before the vote of the people shall be taken upon the same; and provision shall be made at the time for the payment of the same; and provision shall be made at the time for the payment of the interest annually as it shall accrue, by a tax levied for the payment of or from other sources of revenue; which law providing for the payment of such interest by such tax, shall be irrepealable until such debt be paid: And provided further, that the law levying the tax shall be sub-mitted to the people with the law authorizing the debt to be contracted. SECTION 20. The State shall never pay, assume or become responsible

for the debts or liabilities of, or in any manner give, loan, or extend its credit to or in aid of any public or other corporation, association or individual

Nothing needs to be added in explanation of the foregoing. The provisions seem to be explicit and to guard most wisely the creation of State debt.

SECOND, municipal indebtedness is regulated only in the Constitution of 1870. In that instrument the subject is dealt with in all its phases First is a provision in Article 8, Section 3, forbidding the General Assembly and every municipality from making any appropriation in aid of any sectarian purpose. Second is a "separate section" forbidding any such municipality from becoming a subscriber to the stock of any railroad, &c., or to loan its credit. Third is the broad and general provision Section 12, Article 9, which limits the indebtedness of ali municipalities to 5 per cent "on the value of the taxable property therein," &c. We give these sections below :

ARTICLE 8. Section 3. Neither the General Assembly nor any county

We give these sections below : ARTICLE 8. Section 3. Neither the General Assembly nor any county city, town, township, school district, or other public corporation, shall ever make any appropriation, or pay from any public fund whatever, anything in aid of any church or sectarian purpose, or to help support or sustain any school, academy, seminary, college, university, or other literary or scientific institution controlled by any church or sectarian denomination whatever; nor shall any grant or donation of land, money or other personal property ever be made by the State, or any such public eorporation, to any church or for any sectarian purpose. ARTICLE 9, Section 12. No county, city, township, school district or other municipal corporation shall be allowed to become indebted in any manner or for any purpose, to an amount, including existing indebted ness, in the aggregate exceeding five per centum on the value of the taxable property therein, to be ascertained by the last assessment for State and county taxes, previous to the incurring of such indebtedness. Auy county, city, school district or other municipal corporation incur-ring any indebtedness as aforesaid shall before, or at the time of doing so, provide for the collection of a direct annual tax sufficient to pay the principal thereof within twenty years from the time of contracting the same. This section shall not be construed to prevent any county, city, township, school district, or other municipal corporation, from issuing their bonds in compliance with any vote of the people which may have been had prior to the adoption of this Constitution in pursuance of any law providing therefor. SEFARATE Sections. [Municipal subscriptions to railroads etc.] No county, city, town, township or other municipality shall ever become subscriber to the capital stock of any railroad or private corporation, or make donation to or loan its credit in aid of such corporation, *prowided*, *however*, that the adoption of this article shall not b

The foregoing limitation to 5 per cent is general, as will be seen-that is, it applies to all municipalitics. With this limitation preserved the Legislature has passed general laws authorizing the city council in eities and the board of trustees in villages to issue bonds for corporate purposes, for refunding and consolidating debt, for water works, etc.; and the county board of any county has been authorized by general statute to issue, when it deems it necessary, county bonds, after submitting the matter to the legal voters of the county at a general election, at which a majority vote is required as a prerequisite of the issue. Recently an attempt was made to limit "any county, city, township, school district or municipal corporation" in counties containing 125,-000 or more inhabitants to 212 per cent of the assessed value, but Jan. 12, 1900, the State Supreme Court ruled that this was an arbitrary and unnatural classification of municipalities which could not be sustained. See Vol. 70, page 242. IMPROVEMENT BONDS .- There is a kind of improvement bond authorized in some cases which is made a special licn on the land benefited and to which the 5 per cent limit has no reference. We refer to cases which come under the law entitled "To divide cities and villages subject "to overflow into improvement districts." This statute provides that any such city or village or part thereof may be laid off into an improvement district for the purpose of draining, raising the grade of the streets and improving the district; that after the cost for the work has been ascertained and been assessed, the assessment may be paid in instalments or otherwise and such city or village may issue bonds sufficient to pay the assessment. In that case the bonds are a lien on the lots, blocks or parts thereof which shall be designated therein; but before the issue the owner of the lots, etc., to be charged must endorse upon the back of such bond his consent, under seal, in substance as follows : "1 hereby indorse the within bond "and consent that the lot or lots or parts thereof therein designated "shall become liable for the interest and principal therein namea and

"the same shall be a lien upon said property from this date until paid "off and discharged." The bond when executed by the city or village and so endorsed by the owner shall be recorded in the recorder's office in the county, and such record shall be a notice of the lien created to the same extent as the record of mortgages is a notice.

We have room to give only this very brief and imperfect outline of this statute. The whole law will be found in the Revised Statutes of Illinois, the 1889 edition, page 303. To understand the real cause and occasion for all this machinery, one should study also the previous statute (page 99, &c.) which authorizes cities, &c., to protect themselves from overflow aud inundation and control private levees, &c. After having read the two laws it will be found that the district improvement bond has been devised as a relief measure, and that it affords a wise and ingenious method for helping those in more moderate circumstances who have been taxed for a very necessary improvement to pay the tax by instalments.

PERRY COUNTY.-J. G. TAFFER, Clerk.

County scat is Pinckneyville.

County seat is Pinckneyville. The bonds below described are registered with the State Auditor. The United States Supreme Court has established the validity of Chester & Tamaroa railroad-aid bonds of this county and has declared the \$100,000 B. & S. S. railroad-aid bonds invalid. At the November (1899) election, a proposition to issue bonds to re-fund the Chester & Tamaroa bonds together with accrued interest, amounting in all to about \$190,000, was voted upon and defeated. Since then the county has been mandamused to pay indebtedness to the amount of about \$162,000 as follows. All interest due and accrued up to June 1, 1900, and 10% of principal to be paid in 1900. Interest and 15% of the remaining principal in 1901; interest and 20% of principal then remaining in 1902; interest and 25% outstanding principal in 1903; interest and 30% principal in 1904; interest and 50% principal in 1905, and the remaining amount due in 1906. In accord-ance with the above order 10 per cent of the judgments and accrued interest have been paid, and the county is now paying the 1901 in-stalment. There is now (March 1 1901) due on judgments about \$125,000 and the accrued interest thereon brings the aggregate up to about \$155.000 or \$160,000. Refunding bonds to the amount of \$150, 000 were voted upon at the November, 1900, election, but were de feated. The question will probably be again voted upon in the near future. future.

PULASKI CO.-E. W. McClelland, Clerk.

County seat is Mound City. The bonds described are registered with the State Auditor. An issue of Cairo & Vincennes RR. bonds amount-ing to \$29,000 and interest has been in litigation for some years. The bonds were first deelared void by the United States District Court, but the decision was reversed on a rehearing of the case. The funding bonds below were issued in 1900 to retire these bonds.

State of Michigan.

DEBT, RESOURCES, ETC.

Organized as a Territory (Act Jan. 11, 1805) - June 30, 1805 Admitted as a State (Act June 15, 1836) - Jan. 26, 1837 Total Area of State (square miles) -58,915 Governor (term expires Jan., 1903) Lansing Aaron T. Bliss Secretary of State (term ex's Jan., 1903) Fred. M. Warner Treasurer (term expires Jan., 1903) - - Daniel McCoy

Legislature meets biennially in odd years the first Wednesday in January, and there is no limit to the length of sessions, excepting special sessions, in which the pay of members is limited to 20 days.

HISTORY OF DEBT.-The historical details of Michigan's State debt will be found in the STATE AND CITY SUPPLEMENT of April, 1894, page 98. In 1864 the State Treasurer reported the funded debt at \$3,880,399, and \$1,450,472 additional "Trust fund debt." The bonded debt Jan. 1, 1901, consisted of \$434,800 war loan bonds of 1898. The \$19,000 of "past-due part-paid \$5,000,000 loan bonds" which were adjustable at \$578.57 per \$1,000, amounting to \$10,992.83, have never been presented for payment and bear no interest. These latter bonds not having been presented for payment prior to May 31, 1900, were forfeited to the State as per notice given to the holders at that time The "Trust fund debt" on July 1, 1900, amounted to \$6,273,144 94. The term "Trust Fund Debt" is, however, a misnomer. In explanation it should be said that the United States Government set asido certain lands in the State of Michigan for educational purposes, and under the Michigan statutes the money received from the sale of these lands is used to pay the general expenses of the State; the law provides, however, that a certain specified rate of interest must be annually figured on the total amount accumulated from said sales and be paid over to the educational institutions specified. The amount of interest to be so paid is raised by taxation. The sinking fund applicable to the retirement of the war bonds on Jan. 1, 1901, amounted to \$175,825 09.

In 1896 the assessed voluation of real estate was \$805,553,976; per-sonal property, \$140,455,965; total valuation, \$946,009,941.

DEBT LIMITATION. - Michigan, as noted in our history of the State's debt, started its career as a State in January 1837, when the whole land was buoyant over its inflated enterprises carried on at public expense. So to be abreast with the times, instead of putting any limit on the power of the State to create debt, it put into its Constitution a notice to the Legislature to go to work at once and make provision for "ascertaining the proper objects of improvement in relation to roads, "canals and navigable waters," that the money might be raised and these improvements might be prosecuted with as little delay as possible.

That was the spirit which ruled and the condition which prevailed in 1837. In 1850 Michigan made and adopted another Constitution. During the years which intervened the people had gained a wide experience and had evidently profited by it. Hence we find them at the latter date showing a purpose to make an instrument in its financial features about as dissimilar from the one it was to supplant as it could well be. Nothing will illustrate this change in spirit and purpose more clearly than the following limitations respecting the creation of State indebtedness which were inserted. These sections are all found in article 14 of the 1850 Constitution. which Constitution is still in force.

SECTION 3. The State may contract debts to meet deficits in revenue. Such debts shall not in the aggregate at any one time exceed fifty thousand dollars. The moneys so raised shall be applied to the pur-poses for which they were obtained or to the payment of the debts so contracted.

contracted. SECTION 4. The State may contract debts to repel invasion, suppress insurrection or defend the State in time of war. The money arising from the contracting of such debts shall be applied to the purpose for which it was raised or to pay such debts. SECTION 6. The credit of the State shall not be granted to or in aid of any person, association or corporation. SECTION 7. No scrip, certificate, or other evidence of State indebted ness shall be issued except for the redemption of stock previously issued or for such debts as are expressly authorized in this Constitution. SECTION 8. The State shall not subscribe to, or be interested in the stock of any company, association or corporation. SECTION 9. The State shall not be aparty to, or interested in, any work of internal improvement, nor engage in carrying on any such work ex-cept in the expenditure of grants to the State of land or other property. The foregoing sections appear to cover every branch and phase of the

The foregoing sections appear to cover every branch and phase of the subject; and compared with the Constitution of 1837 what a contrast they afford !

Cities and villages, however, were left by the 1850 instrument to the discretion of the Legislature in the matter of restrictions upon their borrowing power. The provision which relates to this subject is found in Article 15, Section 13, and is as follows :

SECTION 13.-The Legislature shall provide for the incorporation and organization of cities and villages, and shall restrict their powers of taxation, borrowing money, contracting debts and loaning their credit.

In the exercise of the power granted by this section the Legislature has passed general laws governing the incorporation, taxation and bonding of cities and villages. With regard to cities the chief provisions with respect to taxation and bond issues will be found in the second volume of the 1890 revision of Howell's Annotated Statutes of Michigan. Chapter 22, on "Finance and Taxation," pages 629 to 702, Sections 2693 to 2730. The sections which mainly cover these points are the following-we give the substance not the words of the section :--

Taxes, And in what amount they can be laid, are defined in Section 2697 to Section 2701.

Section 2697 provides that the maximum amount which the council may raise by general tax for all general purposes (except schools and school house purposes and except as otherwise provided below) shall not exceed in any one year--

SECTION 2698 provides that the council may also raise in each street

district not exceeding one fourth of one per cent.

SECTION 2699 provides that in addition to above the council may alse by special assessment in sewer and in special assessment districts

SECTION 2,712. If any greater amount is required for erecting public buildings, or for purchase of ground for same, or for other public improvements or purposes than can be raised by the council under the foregoing provisions, such amount may be raised by tax or loan or partly by tax and partly by loan if authorized by a majority role of the electors voting upon the question at an annual city election. The amount that may be so raised in any year shall not exceed two per cent of assessed valuation.

SECTION 2,713. The proposition to raise such additional amount must be submitted by an ordinance distinctly stating the purpose of proposed expenditure, the amount proposed, and whether to be raised by tax or loan. Such ordinance shall be passed, published in one newspaper of city, and copies posted in five most public places in each ward of city, at least two weeks before the election -vote shall be by ballot.

SECTION 2,717. No loans made exceeding amounts prescribed in this act. For loans lawfully made bonds of the city may be issued bearing a legal rate of interest. Record to be kept by city clerk. When deemed necessary by council new bonds may be issued in place of former bonds falling due. Each bond shall show upon its face the class of indebted-ness to which it belongs and from what fund payable.

The foregoing provisions apply to cities. The law relating to villages with reference to the same subject is so nearly of a like character as not to need reciting.

State of Wisconsin.

DEBT, RESOURCES, ETC.

Organized as a Territory (Act. Apr. 20, 1836) - July 3d, 1836 Admitted as a State (Act. Aug. 6, 1846) - May 29th, 1848 Total area of State (square miles) - -56,040 State Capital - - - - - - - -Madison Governor (term expires 1st Monday, Jan. 1903), R.M.La Follette Secretary of State (1st Mon. Jan. 1903), - W. H. Froehlich - J. O. Davidson Treasurer (1st Monday Jan, 1903) - -Legislature meets bi-ennially in odd years on the second

Wednesday in January, and there is no limit to length of sessions.

HISTORY OF DEBT. For a brief history of the Wisconsin debt 800 STATE AND CITY SUPPLEMENT of April, 1895.

At present the State has no indebtedness except the trust funds, as follows:

Certificates	of indebtedness,	School Fund	\$1,563,700
Do	do	Normal School Fund	515,700
Do	do	University Fund	111,000
Do	do	Agricultural College Fund	60,600
Total		-	82 251 000

DEBT LIMITATION.-The constitutional provisions of Wisconsin restricting debt-making are very rigorous, plain and comprehensive. Since the amendment adopted in 1874, cities &c., as well as the State, are definitely limited by that instrument. We will give the provisions first which relate to the State and after that those which have reference to cities. &c.

SECTION 7. State may borrow money, when. The Legislature may also borrow money to repel invasion, suppress insurrection or defend the State in time of war; but the money thus raised shall be applied exclusively to the object for which the loan was authorized, or to the repayment of the debt thereby created.
SECTION 9. Evidences of debt. No scrip, certificate, or other evidence of State debt, whatsoever, shall be issued, except for such debts as are authorized by the sixth and seventh sections of this article.
SECTION 10. Internal improvements—avails of grants. The State shall never contract any debt for works of internal improvement, or be a party in carrying on such works, but whenever grants of land or other property shall have been made to the State, especially dedicated by the grant to particular works, and shall devote thereto the avails of such works in aid of their completion.
(2) CUTLES counties forms willages for more property in the state shall or properties.

(2) CITIES, counties, lowns, villages, de., were unrestricted except by legislative enactment until 1874. Since that amendment was adopted five per cent on the value of the taxable property has been the extreme amount of debt permissible for any municipality. Not only is that the case, but, as will be seen, the municipality is required before or at the time when it incurs any indebtedness, to make provision for an annual tax sufficient to pay the interest and also sufficient to pay the principal within twenty years from the time of contracting the debt. We give below the amendment referred to in full.

Limitation of Municipal Indebtedness-Adding to Section 3, Article 11. the words:

11, the words: No county, city, town, village, school district, or other municipal cor-poration, shall be allowed to become indebted in any manner or for any purpose, to any amount, including existing indebtedness in the aggregate exceeding five per centum on the value of the taxable property therein, to be ascertained by the last assessment for State and county taxes pre-vious to the incurring of such indebtedness. Any county, city, town, village, school district, or other municipal corporation incurring any indebtedness, as aforesaid, shall before or at the time of doing so pro-vide for the collection of a direct annual tax sufficient to pay the interest on such debt as it falls due, and also to pay and discharge the principal thereof within twenty years from the time of contracting the same. On A pril 20, 1893, a new law passed by the Legislature of Wisconsin

On April 20, 1893, a new law passed by the Legislature of Wisconsin was approved by the Governor which gives general authority for the issuance of bonds to citics operating under special charters granted by the State, and containing a population of three thousand or more inhabitants, as follows. This authority is of course subject to the foregoing provisions of the Constitution.

(1) STATE indebledness is confined within very close bounds. It seems as if the framers of the Constitution must have taxed to the extreme their ingenuity for forms in which to express their determination to inhibit debt-making. The sections which cover the subject are sections 3, 4, 6, 7, 9 and 10 of Article 8. We give them in full below.

SECTION 3. Credit of State, for what not giren. The credit of the State shall never be given or loaned in aid of any individual, association or corporation.

SECTION 4. Contracting debts. The State shall never contract any

SECTION 4. Contracting debts. The State shall never contract any public debt, except in the cases and manner herein provided. SECTION 6. Limitation on public debt. For the purpose of defraying extraordinary expenditures, the State may contract public debts (but such debts shall never in the aggregate exceed one hundred thousand dollars). Every such debt shall be authorized by law, for some purpose or purposes to be distinctly specified therein; and the vote of a majority of all the members elected to each House, to be taken by yeas and nays, shall be necessary to the passage of such law; and every such law shall provide for levying an annual tax sufficient to pay the annual interest of such debt, and the principal within five years from the passage of such law, and shall specially appropriate the proceeds of such taxes to the payment of such principal and interest; and such appropriation shall not be repealed, nor the taxes be postponed, or diminished until the principal and interest of such debt shall have been wholly paid.

For the erection and construction of a city hall and the purchase of a site for the same.

For the construction and extension of water works or the purchase of the same, and for constructing sewers, and for the improvement and maintenance of the same.

For the crection, construction and completion of school buildings and the purchase of school sites. For the purchase of sites for engine houses, for fire engines and other

equipments of the fire department, and for the construction of engine houses

For the purchase of sites for police stations and for the construction if buildings thereon for the use of the police department. For the construction of viaduets, bridges, and for repairs of the same. For the erection and construction of library and museum buildings and the purchase of sites for the same.

For the establishment of public baths and hospitals and the purchase of sites for the same.

For the purchase of lands for public parks and improvements thereof and for the payment of purchase money and interest thereon which may be or become due for park lands already acquired or contracted

For permanently improving streetsn such eity, and for creating a fund out of which to advance the cost of repairs to sidewalks in antic-ipation of the collection of special assessments for such cost of repairs by the Treasurer of such city. For the construction or purchase of electric or gas light plants for lighting streets and public buildings. For refunding existing indebtedness.

The law further provides that bonds issued under this act shall bear interest, payable annually or semi-annually, at a rate not exceeding 6 per cent per annum; that the Common Council shall annually levy a tax upon all the taxable property sufficient to pay the annual interest thereon, and to provide a sinking fund each year equal to 5 per cent on the principal of said bonds; that no bonds shall be issued so that the amount thereof, together with all the other indebtedness of the city, shall exceed 5 per cent of the assessed valuation of the city and also that the bonds shall show on their face the amount of indebtedness of the city issuing the same, the annual amount of the assessment of the taxable property therein for the five years next preceding the issue, and the average amount thereof, and they shall not be sold for less than their par value and accrued interest.

No system could be devised better adapted for keeping municipal debt at a minimum than the foregoing amendment establishes.

* The total taxes levied in the above table includes the amounts raised not only for State purposes, but also all taxes raised by the various minor divisions of the State The tax rate, however, is for State purposes, and besides the tax of 1.80, as given above, for 1899 there was a tax of 1.23 for school and university purposes.

DEBT LIMITATION.- Minnesota has protected the State from extravagant expenditures through restrictions which its Constitution puts on every kind of debt making. That instrument fixes the limit at \$250,-000 "for the purpose of defraying extraordinary expenditures;" and an amendment, ratified in 1879, extended this power to \$250,000 additional "for erecting and completing buildings for the insane, a deaf, umb and blind asylum, and State prison." Besides the foregoing, it is also provided that the State credit shall not be loaned, &c. With regard to the debt of municipalities there is but one section in the Constitution which relates to that subject, and that has reference to making railroad debt.

FIRST, as to State indebtedness, the sections which treat of the subject are in article 9, sections 5, 6, 7, 8 and 14.

FIRST, as to State indebtedness, the sections which treat of the subject are in article 9, sections 5, 6, 7, 8 and 14. SECTION 5. (Public debt may be contracted.) For the purpose of defraying extraordinary expenditures, the State may contract public debts, but such debts shall never, in the aggregate, exceed two hundred and fifty thousand dollars; every such debt shall be authorized by law for some single object, to be distinctly specified therein; and no such law shall take effect until it shall have been passed by the vote of two-thirds of the members of each branch of the Legislature, to be recorded by the yeas and nays on the journals of each House, respectively; and every such debt within ten years from the final passage of such law, and shall specially appropriate the proceeds of such taxes to the payment of such principal and interest; and such appropriation and taxes shall not be repealed, postponed, or diminished, until the principal and interest of such debt shall have been wholly paid. The State shall never contract any debts for works of internal improvement, or be a party in carrying on such works, except in cases where grants of land or other property shall have been made to the State, especially dedicated by the grant to specific purposes; and in such cases the State shall devote thereto the avails of such grants, and may pledge or appropriate the rovenues derived from such works in aid of their completion. SECTION 6.—(Public debt how contracted.) All debts authorized by the preceding section shall be contracted by loan on State bouds of amounts not less than five hundred dollars each, on interest, payable within ten passage of the law authorizing such debt; and such bonds shall be kept by the Treasurer in numerical order, so as always to exhibit the number and amount unpaid and to whom severally made payable.

made payable. SECTION 7.—The State shall never contract any public debt, unless in time of war, to repel invasion or suppress insurrection, except in the cases and in the manner provided in the fifth and sixth sections of this article.

SECTION 8.—(Appropriation of money received from loan or State bonds.) The money arising from any loan made, or debt or liability con-tracted, shall be applied to the object specified in the act authorizing such debt or liability, or to the repayment of such debt or liability, and to no other purpose whatever. SECTION 14.—(State debt for public buildings). For the purpose of creeting and completing buildings for a hospital for the insane, a deaf, dumb and blind asylum, and State prison, the Legislature may by law increase the public debt of the State to an amount not exceeding two hundred and fifty thousand dollars, in addition to the public debt al-ready heretofore authorized by the Constitution, and for that purpose may provide by law for issuing and negotiating the bonds of the State and appropriate the money only for the purpose aforesaid; which bonds shall be payable in not less than ten nor more than thirty years from the date of the same, at the option of the State. SECOND, as to eity, county or other municipality the only restriction

SECOND, as to city, county or other municipality the only restriction on the debt-making power in the Constitution is the following, found in article 9. section 15.

SECTION 14.—(Municipal debts in aid of railroads.) The Legisla-ture shall not authorize any county, township, elty or other municipal corporation to issue bonds or to become indebted in any manner to aid in the construction or equipment of any or all railroads to an amount that shall exceed five per centum of the value of the taxable property within such county, township, eity, or other municipal corporation; the amount of such taxable property to be ascertained and determined by the last assessment of said property made for the purpose of State and county taxation previous to the incurring of such indebtodness.

Legislature meets biennially in odd years on the Tuesday after the first Monday in January, and sessions are limited to ninety days.

INTEREST on the bonds is payable in New York; on the certifieates of indebtedness at the ollice of the State Treasurer.

The foregoing was adopted as an amendment in 1879. Before its adoption the section read so as to authorize municipal corporations to issue bonds in aid of railroads to ten per cent of valuation. Hence the amendment consisted in simply changing the word ten and making it five.

This is all the Constitution contains with reference to the debts of municipalities. The Legislature, however, has made some general provisions governing bond issues, which will be found in the STATE AND CITY SUPPLEMENT for October, 1899, and in provious numbers of that publication.

SINKING FUND.—It is provided by the city's charter that in addi-tion to raising a tax sufficient to pay the interest on all its bonds the city shall levy a tax of one mill on each dollar of the assessed valuation to provide for the principal of the bonds when due. The maintenance of this sinking fund for the payment of the principal of the bonds is "de-clared to be part of the contract with the holder of any bonds of the city that may hereafter be issued and shall be kept inviolate." In ac-cordance with this provision there was raised by taxaton for the sink-ing fund in 1900 \$123,111. The sinking fund is invested in eity of Minneapolis 4 and 4¹₂ per cent bonds. BOND LIMIT.—The city of Minneapolis is restricted in all legisla-tive acts authorizing the issue and sale of bonds, and is required to keep within the following limit: From the total issue of all city bonds shall be deducted the total amount of funds and securities in the sink-ing fund, and this balance shall not exceed 5 per cent of the aggregate value of the taxable property of the city as assessed and determined for the purpose of taxation. WATER RECEIPTS.—The receipts from water in 1900 were \$237,779; current expenses for water works, \$200,446. VALUATION AND INDEBTEDNESS.—The city's assessed valua-tion (property being assessed about '2 of its actual value) tax rate and bonded debt have been as follows on December 31 of the years given: Tax Kate, Total Bonded

TAX RATE.—The State tax (per \$1,000) for 1900 was \$2.80; this includes general State tax, \$2.60, and special tax, 20 cents, for educational purposes.

DEBT LIMITATION.-Iowa's Constitution restricts the creating of debt, both State debt and municipal debt.

FIRST, as to State debt, the limitation made is not absolute, for it permits other debt if authorized by some law for some single specified work. But this permission is very safely guarded-(1) the law must provide for the collection of a direct annual tax sufficient to pay the interest regularly and discharge the debt in twenty years; and (2) the law cannot take effect until it has been submitted to the people at a general election, and has received a majority of the votes cast. All the debt provisions relating to the State we give below.

ARTICLE 7, Section 1. [Limitation of State indebtedness.] The credit of the State shall not in any manner be given or loaned to, or in aid of, any individual, association, or corporation; and the State shall never assume, or become responsible for, the debts or liabilities of any individ-ual concentration or corporation unless interaction of man for the ual, association or corporation, unless incurred in time of war for the benefit of the State.

benefit of the State. SECTION 2. [Same.] The State may contract debts to supply casual deficits or failures in revenues, or to meet expenses otherwise provided for; but the aggregate amount of such debts, direct and contingent, whether contracted by virtue of one or more acts of the General Assem-bly or at different periods of time, shall never exceed the sum of two hundred and fifty thousand dollars; and the money arising from the creation of such debts shall be applied to the purpose for which it was obtained, or to repay the debts so contracted, and to no other purpose whatever whatever.

obtained, or to repay the debts so contracted, and to no other purpose whatever. SECTION 4. [For what other purposes State may contract debt.] In addition to the above limited power to contract debts, the State may contract debts to repel invasion, suppress insurrection, or defend the State in war; but the money arising from the debts so contracted shall be applied for the purpose for which it was raised, or to repay such debts, and to no other purpose whatever. SECTION 5. [Other debts to be anthorized.]—Except the debts hereinbe-fore specified in this article, no debt shall be hereafter contracted by or on behalf of this State, unless such debt shall be authorized by some law for some single work or object, to be distinctly specified therein; and such law shall impose and provide for the collection of a direct annual tax sufficient to pay the interest on such debt as it falls due, and also to pay and discharge the principal of such debt within twenty years from the time of contracting thereof; but no such law shall take effect until at a general election it shall have been submitted to the people, and have received a majority of all the votes cast for and against it at such election; and all money raised by authority of such law shall be applied only to the specific object therein stated, or to the payment of the debt created thereby; and such law shall be published in at least one newspaper in each county, if one is published therein, throughout the State, for three months preceding the election at which it is submitted to the people. to the people.

ARTICLE VIII, Section 3. [State not to be a stockholder.]—The State shall not become a stockholder in any corporation, nor shall it assume or pay the debt or liability of any corporation, unless incurred in time of war for the benefit of the State.

There can be but little fear that a State or city will ever create debt in any larger amount than it can easily pay where the law, as in the above case, requires a tax to be levied at the time of its creation sufficient to pay the interest annually and the principal when due.

SECOND, as to municipal indebtedness, the limit is fixed absolutely in the Constitution. The provisions covering the subject are as follows:

ARTICLE VIII, Section 4. [Corporation not to be a stockholder.] No political or municipal corporation shall become a stockholder in any banking corporation, directly or indirectly.

ARTICLE XI, Section 3. [To what amount county may become indebted.] No county or other political or municipal corporation shall be allowed to become indebted in any manner, or for any purpose, to an amount in the aggregate exceeding five per centum on the value of the taxable property within such county or corporation—to be ascertained by the last State and county tax list previous to the incurring of such indebtedness. [The Legislature, however, has fixed a lower limit, as stated below.]

The above (section 3 of article XI) covers cities, countles, towns and every other kind of political or municipal corporation. The Supreme Court of Iowa has decided that even a school district is such a corporation and subject to same limit. The Legislature of 1900 passed a bill (approved April 6, 1900,) fixing the limit of indebtedness of counties or other political or municipal corporations at only 14 per cent of the actual value of property in cities or towns as returned by the last tax list. This change was made because, under a revision of the Revenue Law which went into effect in 1898, property is now appraised for taxation on a much higher basis than formerly. We present this bill in full. SECTION 1.—That Section thirteen hundred and six (1306) of the Code be and is hereby repealed, and the following enacted in lieu thereof. SEC. 2.—"No county or other political or municipal corporation, including cities acting under special charters, shall be allowed to become indebted, in any manner or for any purpose, to an amount in the aggregate exceeding one and one-fourth per centum on the actual value of the property within such county or corporation, to be ascer-tained by the last State and county tax list previous to the incurring of such indebtedness." of such indebtedness." SEC. 3.—This Act being deemed of immediate importance shall be in force from and after its publication in the Des Moines "Register" and the Des Moines "Leader," newspapers published in Des Moines, Iowa.

The special assessment bonds are secured by property certificates issued and held in trust for bondholders. A tax levy of \$5.00 (per \$1,000) is made each year for water purposes. The sinking funds accumulated on the straight city bonds on April 1, 1900, amounted to \$15,930, and on the intersection improvement bonds to \$2.466

bonds to \$2,466.

ASSESSED VALUATION.—The city's assessed valuation has been as given below in the years named. The noticeable decrease in 1899 is due to a change in the law. Property was formerly assessed at from 30 to 40 per cent of its value, but under a new law all real estate is appraised at its supposed full cash value, of which, however, only 25 per cent constitutes the listed or assessed value.

Legislature meets biennially in odd years on the first Wednesday after the first Monday of January, and there is no limit to length of sessions; but after the first seventy days members can draw only a dollar a day for their services, except every tenth year, when the statutes are revised, at which session members are allowed \$5.00 per day for 120 days. A session of this kind was held in 1899.

HISTORY OF DEBT.-The interesting details of Missouri's eventful history in debt-making and debt-paying will be found on page 111 of the STATE AND CITY SUPPLEMENT for April, 1893. The details of the debt on Jan 1, 1899, were as follows:

Total debt	\$6 280 839	\$7 940 839	\$8 035 839

Under a provision of the State Constitution at least \$250,000 of State indebtedness must be retired annually. The total debt, including accrued interest, &c., on Jan. 1, 1865, was \$36,094,908. The entire amount of school and seminary certificates is held by the State Schoo and State Seminary funds.

ASSESSED VALUATION .- The State's assessed valuation (about one-fourth actual value) and tax rate have been as follows. This valuation does not include valuation of railroads, bridges and telegraphs, which amounted in 1900 to \$103,361,000, or of machinery, tools, merchandise, etc., as taxed on "merchants' and manufacturers' tax books," which amounted in 1900 to \$63,144,571.

DEBT LIMITATION.—Missouri has made provision in its Consti-tution restricting the creation of debt both on behalf of the State and of its municipalities. *FIRST*, with respect to the State, the regulations are full and specific. They are found in article 4, sections 44, 45 and 46, which we subjoin. ARTICLE 4, Section 44. (General Assembly not to contract debis except as herein.) The General Assembly shall have no power to contract or to-suthorize the contracting of any debt or liability on behalf of the State, or to issue bonds or other evidences of indebtedness thereof, ex-cept in the following cases:

State, or to issue bonds or other evidences of indebteduess thereof, ex-cept in the following cases: *First*, In renewal of existing bonds, when they cannot be paid at maturity out of the sinking fund or other resources. *Second*, on the occurring of an unforeseen emergency, or casual defi-ciency of the revenue, when the temporary liability incurred, upon the recommendation of the Governor first had, shall not exceed the sum of two hundred and fifty thousand dollars for any one year, to be paid in not more than two years from and after its creation. *Third* on the occurring of any unforeseen emergency, or casual defi-

Third, on the occurring of any unforeseen emergency, or casual deficiency of the revenue, when the temporary liability incurred or to be incurred shall exceed the sum of two hundred and fifty thousand dollare.

for any one year, the General Assembly may submit an act providing for the loan, or for the contracting of the liability, and containing a pro-vision for levying a tax sufficient to pay the interest and principal when they become due (the latter in not more than thirteen years from the date of its creation), to the qualified voters of the State, and when the act so submitted shall have been ratified by a two-thirds majority, at an election held for that purpose, due publication having been made of the provisions of the act for at least three months before such election, the act thus ratified shall be irrepealable until the debt thereby incurred shall be paid, principal and interest.

SECTION 45. (State's credit not to be loaned.) The General Assembly shall have no power to give or to lend, or to authorize the giving or lending of the credit of the State in aid of or to any person, asso-ciation or corporation, whether municipal or other, or to pledge the credit of the State in any manner whatsoever, for the pay-ment of the liabilities, present or prospective, of any individual, association of individuals, municipal or other corporation whatsoever. SECTION 46. (Public money, grant of prohibited.) The General Assem-bly shall have no power to make any grant, or to authorize the making of any grant of public money or thing of value to any individual, asso-ciation of individuals, municipal or other corporation whatsoever. *Provided*, That this shall not be so construed as to prevent the grant of wid in a case of public calamity. SECTION 45. (State's credit not to be loaned.) The General Assembly aid in a case of public calamity.

The foregoing sections cover all phases of State indebtedness and so restrict action as to put the State beyond the chance of future debt embarrassment.

SECOND, with regard to cities and other municipalities, the provisions are in like manner full and wisely constructed. There are three-section 47 in article 4, section 6 in article 9 and section 12 in article 10. We give them complete below.

give them complete below. ARTICLE 4, Section 47. (Municipalities, loaning credit of.) The Gen-eral Assembly shall have no power to authorize any county, city, town or township, or other political corporation or sub-division of the State now existing, or that may be hereafter established, to lend its credit, or to grant public money or thing of value in aid of or to any individual, association or corporation whatsoever, or to become a stockholder in such corporation, association or company. ARTICLE 9, Section 6. (Municipalities not to subscribe to capital stock of corporations.) No county, township, city or other municipality shall hereafter become a subscriber to the capital stock of any railroad or other corporation or association, or make appropriation or donation, or loan its credit to or in aid of any such corporation or association, or to or in aid of any college or institution of learning or other institution, whether created for or to be controlled by the State or others. All authority heretofore conferred for any of the purposes aforesaid by the General Assembly, or by the charter of any corporation, is hereby re-pealed: Provided, however, That nothing in this Constitution contained shall affect the right of any such municipality to make such subscrip-tion where the same has been authorized under existing laws by a vote of the neople of such municipality to make such subscrip-tion where the same has been authorized under existing laws by a vote Shall affect the right of any such municipality to make such subscrip-tion where the same has been authorized under existing laws by a vote of the people of such municipality prior to its adoption, or to prevent the issue of renewal bonds, or the use of such other means as are or may be prescribed by law for the liquidation or payment of such sub-scription, or of any existing indebtedness. ARTICLE 10, Section 12. (Municipal indebtedness, limit of.) No county, city, town, township, school district or other political corpora-tion or sub-division of the State shall be allowed to become indebted in any manner or for any purpose to an amount exceeding in any year the

tion or sub-division of the State shall be allowed to become indebted in any manner or for any purpose to an amount exceeding in any year the income and revenue provided for such year, without the assent of two-thirds of the voters thereof voting at an election to be held for that purpose; nor in cases requiring such assent shall any indebtedness be allowed to be incurred to an amount, including existing indebtedness, in the aggregate exceeding five per centum on the value of the taxable property therein, to be ascertained by the assessment next before the last assessment for State and county purposes, previous to the incur-ring of such indebtedness: *Provided*, That with such assent any county may be allowed to become indebted to a larger amount for the erection of a court-house or jail. *And provided further*, That any county, city, town, township, school district, or other political corporation or sub-division of the State, incurring any indebtedness, requiring the assent of the voters as aforesaid, shall, before or at the time of doing so, pro-vide for the collection of an annual tax sufficient to pay the interest on such indebtedness as it falls due, and also to constitute a sinking fund for payment of the principal thereof, within twenty years from the time of contracting the same. It is scarcely necessary to add anything to the foregoing. The sections

It is scarcely necessary to add anything to the foregoing. The sections given make clear (1) that a municipality cannot loan its credit; (2) that It cannot subscribe to the capital stock of corporations; (3) that it cannot get into debt unless two-thirds of the voters voting at an election favor it, and then only to an aggregate of 5 per cent of valuation, except that with such assent any county may be allowed to become Indebted in a larger amount for the erection of a court house or jail, and finally (4) that before or at the time of getting the assent of the voters an annual tax must be provided sufficient to pay interest and form a sinking fund to pay the debt within 20 years. These provisions are certainly very conservative.

POPULATION OF STATE.—The population of Missouri has been as follows in the years named.

1900 3,106,665	1860	1,182,012	1830140,455

DEBT, RESOURCES, ETC.

Organized as a Territory (Act May 30, 1854) - May 30, 1854 Admitted as a State (Act April 19, 1864) - March 1, 1867 Total area of State (square miles) - -77,510 State Capital, Lincoln Governor (term exp. Th. aft. 1st Tu. Jan. '03) C. H. Dietrich Sec. of State (till Thur. after 1st Tues. Jan. 03') Geo. W. Marsh Treasurer (till Thurs. after 1st Tues. Jan. '03) Wm. Stuefer Chas. Weston Auditor - -. Legislature meets biennially in odd years on the 1st Tuesday

of January, and sessions "shall not be less than sixty days," but are not otherwise limited. Members of the Legislature "shall not receive pay for more than 60 days at any one sitting, nor more than 100 days during their term."

HISTORY OF DEBT.-For history of the State debt see STATE AND CITY SUPPLEMENT of April, 1894, page 122.

This State has no bonded indebtedness at present. The bonded debt, which on Dec. 1, 1892, amounted to \$549,267, was gradually reduced until June 3, 1900, when the last remaining \$35,000 was paid off. On Dec. 1, 1900, the general fund warrants outstanding amounted to \$1,727,509. The cash in the treasury on the same date was \$615,018.

PERMANENT SCHOOL FUND.-The school fund held Dec. 1, 1900: United States bonds, \$15,000; sundry State of Nebraska county and school district bonds, \$3,147,792; general fund warrants, \$1,-166,012; temporary University warrants, \$36,740; total of all, \$4,-365.544.

ASSESSED VALUATION.-The total assessed valuation (about 25 per cent of true value) and tax rate per \$1,000 have been:

	Fotal Assessed			Total Assessed	Tax rate

DEBT LIMITATION.--Nebraska has carefully provided in its Con-stitution against creating State indebtedness, but has left city and other municipal indebtedness chiefly in the care of the Legislature. STATE indebtedness is restricted to \$100,000 to meet casual defi-cits in revenues, except in case of invasions, &c., while the loaning by the State of its credit is prohibited. The sections of the Constitution which have reference to these matters will be found in the STATE AND CITY SUPPLEMENT of April 1895 pages 124 and 125 CITY SUPPLEMENT of April, 1895, pages 124 and 125.

POPULATION OF STATE —The population of Nebraska has been as follows in the years named :

KANSAS-DEBT OF STATE.

INCIDENTS IN STATE ORGANIZATION, ETC.-See STATE AND CITY SUPPLEMENT of April, 1893, page 124, for the facts and statements heretofore given under this head.

HISTORY OF DEBT .- When Kansas was admitted into the Union as a State (in 1861) it had a bonded debt of \$150,000. The Constitution of 1859 limited the debt-making power to one million dollars (with certain restrictions and exceptions), as more fully described below. In 1866 the bonded debt was \$630,775, of which the State owned \$28,650. In 1878 the total bonded debt was \$1,181,975, of which the State owned \$713,600. The bonded debt March 10,1901, was \$667,000, all held by State funds. At present the debt is:

DEBT LIMITATION,- Kansas has by its Constitution given the State power to contract public debts for the purpose of defraying extraordinary expenses and making public improvements in an amount not to exceed \$1,000,000. This limit, however, has two exceptions. First, the next section provides that it may be exceeded if the proposed law for creating such debt shall be submitted to a vote of the electors, and if the proposed law be ratified by a majority of the votes cast. Second, the section following provides that the State may borrow money to repel invasion, &c. We give these sections in full and also the subsequent one which forbids the State being a party to internal improvements.

ments.
Debts, annual tar; proceeds. For the purpose of defraying extraordinary expenses and making public improvements, the State may contract public debts; but such debts shall never, in the aggregate, exceed one million dollars, except as hereinafter provided. Every such debt shall be authorized by law for some purpose specified therein, and the vote of a majority of all the members elected to each House, to be taken by the yeas and nays, shall be necessary to the passage of such law; and every such law shall provide for levying an annual tax sufficient to pay the annual interest of such debt and the principal thereof when it shall become due; and shall specifically appropriate the proceeds of such taxes to the payment of such principal and interest; and such appropriation shall not be repealed nor the taxes postponed or diminished until the interest and principal of such debt shall have been wholly paid.
Other debts. No debt shall be contracted by the State except as herein provided, unless the proposed law for creating such debt shall first be submitted to a direct vote of the electors of the State at some general election; and if such proposed law shall be ratified by a majority of all the provisions and restrictions provided in the preceding section of this article.
Borrow money. The State may borrow money to repel invasion, suppress insurrection or defend the State in time of war; but the money thus raised shall be applied exclusively to the object for which the loan was anthorized, or to the repayment of the debt thereby created.

created.

Internal improvements. The State shall never be a party in carrying on any works of internal improvement.

MUNICIPAL indebtedness is not restricted by the Constitution at all. The only provision for the regulation of such matters contained in that instrument is the following, requiring the Legislature to make general laws and restricting the power to make debt in the case of cities, towns and villages.

Gities. Provision shall be made by general law for the organization of cities, towns and villages; and their power of taxation, assessment, borrowing money, contracting debts and loaning their credit, shall be so restricted as to prevent the abuse of such power.

Under the foregoing the legislation of Kansas has become so extensive that our limited space here does not admit of even a brief digest. The reader will, however, find the ground very fully covered in a scrics of articles which were published in the CHRONICLE, Vol. 53, pages 854 and 942, and Vol. 54, pages 42 and 128.

POPULATION OF STATE.-The population of Kansas has been as follows in the years named.

1900 . 1,470,495 1890 . 1,427,096 1880 . 996,096	1860	364,399 107,206

The proportion of the colored population was 4.33 per cent in 1880 and 3.59 per cent in 1890. In number blacks were 627 in 1860; 17.108 in 1870; 43,107 in 1880, and 51,251 in 1890.

SITUATION AS TO DEBT, ETC.-For facts with reference to the history of Montana's State debt see STATE AND CITY SUPPLEMENT for April 1893, page 130. The leans described below are not strictly State debts, the bonds being issued on land grants; the State has no bonded indebtedness, and is not liable for these loans. The registered warrants outstanding on Dec. 1, 1900, amounted to \$243,970, and on the same date the State institutions had a warrant indebtedness of \$105,-432. The State is not liable for the latter. The permanent school fund on Dec. 1, 1900, held cash and securities amounting to \$340,495.

ASSESSED VALUATION.-In 1900 the assessed valuation of real estate was \$75,039,256; personal property, \$63,373,706; railroads, \$15,000,100; total, \$153,413,062; in 1899 the State tax (per \$1,000) was \$2.50. Property is supposed to be assessed at full cash value.

DEBT LIMITATION.-The Constitution of Montana was adopted by popular vote October 1, 1889. Article XIII. contains the Sections which regulate the debt-making powers of State, county and city, and we gave those sections in full on page 135 of the STATE AND CITY SUPPLEMENT of April, 1895. It may be mentioned that the restrictions and limitations are distinctly and fully stated.

POPULATION OF STATE.-The population of Montana has been as follows in the year named:

1900....243,329 | 1890.....132,159 | 1880....39,159 | 1870.....20,595 The population in 1900 included Indians and whites on Indian res. ervations not previously counted in the enumeration. In 1890 there were 10,765, and in 1880 31,650 such persons, which number should be added to the total for those years in making accurate comparisons

[•]The floating debt mentioned above represents outstanding war-rants issued subsequent to Sept. 12, 1893, and accrued interest thereon at 7 per cent, which have been declared illegal by the State Supreme Court. The Union Bank & Trust Co. of Helena has been appointed agent for the city to exchange illegal 3 per cent bonds for the war-rants. The city intends to preserve the warrants, to be returned to the original owners in the event that the city is enjoined from pay-ing the interest on these bonds. Up to Marcn 1, 1901, about \$60,000 bonds had been so issued.

DEBT HISTORY .- Idaho as a Territory always kept its debt within moderate limits. When it became a State the bonded debt of the Territory was \$146,715 06. Of that amount \$46,715 06 was issued to pay floating debt, \$80,000 to pay for Capitol building and \$20,000 for an asylum. The condition of the State's debt now is set out with all the details below.

INTEREST on the asylum improvement and normal school bonds is payable at the Chase National Bank, New York; on the 6 per cent wagon-road bonds by Wells, Fargo & Co., New York; on the refunding bonds at the office of the State Treasurer.

TOTAL DEBT, ETC.-The total bonded debt on Jan. 1, 1901, was \$443,500. The State holds \$73,000 of the above bonds. The warrants outstanping on the same date amounted to \$95,499.

ASSESSED VALUATION.-In 1899 the total assessed valuation was \$46,548,313; in 1898 was \$30.423,671: in 1893, \$33,431,841, property being assessed at about 13 of its estimated true value. The tax rate per \$1,000 in 1899 was \$15.00; in 1893 it was \$8.50. The equalized valuation for 1900 was \$47,545,905.

DEBT LIMITATION.-Idaho has placed limits in its Constitution upon the debt-making power both of the State and its municipalities. Though the provisions have a conservative tendency, they are not quite as strict as the Constitutional limitations of most of the other new States. For a digest of the laws respecting debt limitation in Idahe. Ree STATE AND CITY SUPPLEMENT of April, 1895, pages 138 and 139.

POPULATION OF STATE.-The population of Idaho has been as follows in the years named:

In 1870-80 increase was 17,611, or 117.41 per cent, and in 1880-90 51,775, or 158.77 per cent. In 1890.1900 the increase was 77,387, or 91.7 per cent, a part of which is due to the fact that the 1900 aggregate embraces Indians and whites on Indian reservations not heretofore included. Such persons numbered 4,163 in 1890 and 3,420 in 1880, which amounts should be added to the totals for those years in making comparisons.

DEBT LIMITATION .- Colorado's Constitutional provisions with reference to the creation of debt are of considerable length, and strike one at first as quite elaborate. After a brief study of the provisions their good qualities stand out so plainly as wholly to disarm criticism. No State has placed the debt-making power on a more reasonable basis. All the regulations with reference to public indebtedness are found in article 11 of the Constitution. See STATE AND CITY SUPPLEMENT of April. 1895, pages 140 and 141.

POPULATION OF STATE.-The population of Colorado has been as follows in the year named: in 1897 it was estimated at 500,000:

DEBT LIMITATION.—The indebtedness of this State is limited by its Constitution. The following is Article XIV. of that instru-ment, entitled "Public Debt":

by its Constitution. The following is Article XIV. of that instru-ment, entitled "Public Debt": "To meet casual deficits or failures in revenue, and for necessary ex-penditures for public purposes, including the erection of public build-ings, and for the payment of all Territorial indebtedness assumed by the State, the State may contract debts not exceeding in the aggregate at any one time the sum of \$200,000 over and above the amount of the Territorial indebtedness assumed by the State. But when the said Territorial indebtedness assumed by the State. But when the said Territorial indebtedness, except as in the next section provided, in excess of the sum of two hundred thousand dollars, and all moneys arising from loans herein authorized shall be applied solely to the purposes for which they are obtained." The "next section" mentioned above refers to debt contracted " to repel invasion, suppress insurrection, or to defend the State Board of Loan Commissioners, who are authorized to refund all outstanding Territorial bonds. These bonds are not to be taxed within the State of Utah for any purpose. Under the provisions of this Act several Territorial bond issues have been refunded. Under Senate Bill No. 15, passed by the State Legislature in 1901, school districts are permitted to incur indebtedness up to 4 per cent of the assessed valuation of property. Previously the limit was 2 per cent of the valuation.

This city is the county seat of Sacramento County and the capital of the State. The original debt was a little less than \$1,600,000, being four series of 6 per cent bonds, issued in 1858, and falling due in 1888, 1893, 1898 and 1903 The flood of 1861-1862 destroyed half of the property values, and the coupons had been delinquent for a dozen years. In 1872 a Funded Debt Commission (abolished by Legislative Act of 1899) was created and received from the city a gift, or capital, of \$212,080 80. With this it bought bonds and coupons, and collected from the city as other creditors did and re-invested in more bonds and eoupons. In 1899 the Commission was ordered by decree of Court to cancel \$1,411,167 60 of the bonds and coupons at par. Mar. 1, 1901, 1 Net debt Mar. 1, 1901,..., \$80,700

J. P. PARKER, Mayor. SARVIA CRUZ. $\{J. L. WRIGHT, Clerk.$ This city is in Santa Cruz County. The city bas been in litigation over its 5 per cent refunding bonds (issued April 16, 1894), which it refused to pay, they having been purloined, but on Sept. 28, 1898, the United States Circuit Court held the entire issue of \$360,000 bonds invalid as between the city of Santa Cruz and purchasers of the bonds having notice of the facts constituting their invalidity, but also held that the city was estopped by recitals contained in the bonds, from denying their validity in the case of innocent purchasers for value. Upon this ground the court rendered judgment against the city for the amount of principal and interest due upon such bonds as were purchased upon the faith of recitals contained therein and without notice or knowledge of their invalidity. The municipality received no consider-ation whatever for these bonds. The United States Circuit Court of Appeals, however, on Dec. 5, 1899, declared that the entire issue was void, on the ground that there was a flaw in the bonds themselves which the purchasers should have investigated before buying. V. 69, p. 1260. The city is in litigation also over \$225,000 5 per cent water bonds issued Jan. 16, 1889, but in this case having received value for the bonds has been disposed to pay maturing principal and interest, netwithstanding their municipality investigated before buying. State of Oregon.

DEBT, RESOURCES, ETC.

Organized as a Territory (Act Aug. 14, 1848) -	Aug. 14, 1848
Admitted as a State (Act Feb. 14, 1859) -	Feb. 14, 1859
Total area of State (square miles)	- 96,030
State Capital	Salem
Governor (term ex. 2d* Monday Jan. 1903), -	T. T. Geer
Secretary of State (term ex. 2d Mon. Jan. 1903),	F. I. Dunbar
Treasurer (term ex. 2d Mon. Jan. 1903) -	C.S. Moore

* The Legislature does not always canvass the vote for Governor immediately upon its meeting, and the Governor's term runs until his successor is declared elected.

Legislature meets biennially in odd years on the second Monday in January, and there is no limit to length of sessions; but members of the Legislature can draw pay only for 40 days' services in the aggregate.

HISTORY OF DEBT.—For history of Oregon's State debt see STATE AND CITY SUPPLEMENT of April, 1894, page 147. To-day Oregon practically has no debt. There are some little left-over lots that go by that name, in the aggregate amounting to \$1,233.58, which the State is ready and would be very glad to pay, but caunot get them in. Interest on these ceased prior to December 31, 1896. On January 1, 1901, \$36,270 of general fund and \$99,948 of Scalp County fund warrants were outstanding, in addition to which there are \$36,919 of swamp land warrants, payable out of the proceeds of sales of swamp lands, redeemable on call of the Treasurer. On Jan. 1, 1901, the amounts held in the irreducible trust funds were as follows: School fund, \$3,637,951: Agricultural College fund, \$157,302, and University fund, \$103,046.

VALUATION.—The gross valuation according to the returns of the county boards of equalization for 1900 was \$125,738,761: exemptions, \$7,933,887; net taxable valuation, \$117,804,874. State tax rate (per \$1,000) for 1901 is \$5.70.

DEBT LIMITATION.—Oregon framed and adopted its Constitution in 1857. It is quite a notable fact that the people of the State are to-day living under that instrument in the precise form in which it was originally adopted, for there never has been an amendment made to it. The provisions with respect to debt limitation will be found on pages 150 and 151 of the STATE AND CITY SUPPLEMENT of April, 1895.

STATE DEBT .- The Washington State debt is described in detail below. The North American Trust Co. is now (1900) the New York fiscal agent for the State of Washington.

LOANS NAME AND PURPOSE. Funding, April 1, 1890, gold. 3¹2g. Apr. 1 Apr. 1, 1905 School fund bonds, 1899..... 3¹9 All bonds subject to call at any time. -Principal. Outstand'g. \$155,000 760,000

INTEREST is payable at the office of the State Treasurer in Olympia,

TOTAL DEBT.-The total bonded debt on Jan. 15, 1901, was \$155,000 (not including the \$760,000 bonds issued for investment of the Permament School Fund), and the floating debt on Jan.15, 1901, was \$605,926. Cash in the general fund on the same date was \$108,-842.

ASSESSED VALUATION.-The assessed valuation, equalized by State board, for 1900 of real estate was \$177,822,995; personal property, \$38,721,872; railroads, \$21,038,256; total, \$237,583,123. The following statement shows the total assessed valuation of the State for the years indicated. The tax rate (per \$1,000) for 1900 was \$6.00 including \$3.80 for school purposes.

DEBT LIMITATION .- Like so many of the younger States, Washington has taken a conservative position with respect to State and municipal indebtedness. The provisions of the Constitution with reference to creating debt are so comprehensive and plain that it Is necessary to do no more than copy the sections relating to the subject.

FIRST, with reference to the State, there are three sections; the first limits the debt, the second names exceptions to the limit and the third provides the method in which additional debt may be created. These sections are all found in article 8, and were given in the STATE AND CITY SUPPLEMENT of April, 1895; page 152. SECOND, Counties, Citics, Towns &c. are more rigorously guarded. The whole system as to municipalities is found in section 6 of article 8, though section 7 is also important, as it forbids counties, cities &c.

though section 7 is also important, as it forbids counties, cities &c. giving money or loaning eredit to any corporation &c. Sections 6 and 7 will be found on page 152 of the April, 1895, SUPPLEMENT.

POPULATION OF STATE.—The full record of population of Washington as far back as it goes is given in the following. **1900**.....**518**.103 | **1890**....**349**,390 | **1870**....**23**.955 **1892**....**395**,589 | **1880**....**75**,116 | **1860**....**11**,594

The State tax rate (per \$1,000) for 1901 was \$8.00.

BDEBT LIMITATION.—Nevada has in its Constitution limited the State to a nominal indebtedness, except for the purpose of "defraying extraordinary expenses" arising from invasion, war, etc.; and in such cases the law shall provide an annual tax sufficient to pay the interest semi-annually and the principal within twenty-years. Further the State is forbidden ever to assume the debt of any county, city, etc., or to donate or loan its money or credit, or to subscribe to the stock of any company, etc. MR

Oounties, cities, towns etc. cannot become stockholders in any company, or loan their credit, eto. But other than that the Constitution omits to put any limit on county, city, etc., debts; but provides that the Legislature shall make general laws restricting their borrowing power. The Constitutional provisions referred to are as follows:

ARTICLE IX., SECTION 3. [State dobt limited.] For the purpose of enabling the State to transact its business upon a cash basis from its organization, the State may contract public dobts, but such debts shall never in the aggregate, exclusive of interest, exceed the sum of three hundred thousand dollars, except for the purpose of defraying extra-ordinary expenses, as hereinafter mentioned. Every such debt shall be authorized by law for some purpose or purposes, to be distinctly speci-fied therein, and every such law shall provide for levying an annual tax sufficient to pay the interest semi-annually and the principal within twenty years from the passage of such law, and shall specially appro-priate the proceeds of said taxes to the payment of said principal and interest; and such appropriation shall not be repealed, nor the taxes he postponed or diminished, until the principal and interest of said debts shall have been wholly paid. Every contract of indebtedness entered into or assumed by or on behalf of the State, when all its debts and liashall have been whonly paid. Every contract of interactices checked into or assumed by or on behalf of the State, when all its debts and lia-bilities amount to said sum before mentioned, shall be void and of no effect, except in cases of money borrowed to repel invasion, suppress insurrection, defend the State in time of war, or, if hostilities be threatened, to provide for the public defense. SECTION 4. [State prohibited from assuming debts of cities, &c.] The State shall never assume the debt of any county, town, eity, or other corporation whatever, unless such debts have been created to repel invasion, suppress insurrection or to provide for the public defense. ARTICLE VIII., SECTION 9. [State shall not loan its money or credit &c.] The State shall not donate or loan money or its credit, subscribe to or be interested in the stock of any company, association or corporation, except corporations formed for educational or charitable purposes. ARTICLE XVII., SECTION 7. [State to assume debts of the Territory.] All debts and liabilities of the Territory of Nevada lawfully incurred, and which remain unpaid at the time of the admission of this State into the Union, shall be assumed by and become the debt of the State of Nevada Provided, That the assumption of such indebtedness shall not prevent the State from contracting the additional indebtedness, as provided in mation 2 of orbids Correctivition section 3 of article 9 of this Constitution.

shall become a stockholder in any joint-stock company, corporation or association whatever, or loan its credit in aid of any such company, corporation or association, except railroad corporations, companies or associations.

SECTION 8. [Citics and lowns to be restricted by general laws]. The Legislature shall provide for the organization of cities and towns by general laws; and restrict their powers of taxation, assessment, bor-rowing money, contracting debts, and loaning their credit, except for procuring supplies of water.

POPULATION OF STATE.-Though Nevada has some good grazing land, the mining industry, more particularly silver mining, has had chief attention, and with the decline of this population has also declined, the Census of 1900 showing a total of only 42,335 persons, as against 45,761 in 1890 and 62,266 in 1880. The famous Comstock lode is located within Nevada, but the silver production of the State has undergone great contraction within the last decade. The full record of population is as follows: The 1900 figures include persons on Indian reservations, not considered in previous aggregates. Of such persons there were 1.594 in 1890 and 6.800 in 1880.

* These officials are elected by the General Assembly and hold office for two years.

CONSTITUTIONAL CONVENTION.-At a special session of the Legislature in January, 1901, a resolution was passed providing for a Constitutional Convention.

STATE DEBT.-For a detailed report of the Virginia debt as it stood prior to 1892, and for the history of the debt settlement made by and between the Virginia Debt Commission and the Bondholders' Committee, see the STATE AND CITY SUPPLEMENT of April, 1893, pages 151 and 152. Other items of interest with reference to the Virginia debt will be found in the CHRONICLE as follows: Vol. 56, p. 636, 802; V. 57, p. 155, 190, 565, 733, 950, 1053; V. 58, p. 232, 274, 315, 357.-V. 66[,] p. 392.-V. 67, p. 333.-V. 68, p. 196, 241; V. 70, p. 1202, 1211; V. 71 p. 408; V. 72, p. 150.

On March 1, 1901, Virginia's debt stood as shown below:

NAME AND PURPOSE. Riddleberger Bonds, Act of 1882.....

NOTE.—The Commissioners of the Sinking Funds on Mar. 1, 1901, held \$772.500 of century bonds and \$219,000 of Riddlebergers; total \$991,500.

Of the \$18,023,773 century bonds, \$8,975,500 are coupon, \$9,045,-200 registered and \$3,073 fractional certificates.

The interest on the Century bonds is 2 per cent for the first 10 years (or until July 1, 1901,) and 3 per cent thereafter. Both issues are exempt from taxation.

Total amount of bonds Issued under act of Feb. 20, 1892 :

Canceled	3,357
Total	\$18.023.773
Total Act of Feb. 14, 1882	6,329,554
Total debt Mar. 1, 1901	\$24,353,327

and under its provisions all old Virginia bonds were allowed to be brought in and funded into new Century bonds, upon the same terms as the Olcott settlement, provided they were presented for funding prior to December 31, 1896. By the Act of January 25, 1898, however, another opportunity to fund the bonds was given. By this Act bondholders had until July 1, 1898, to come in and accept the terms, and power was given the Commissioners of the Sinking Fund to extend the time until Dec. 31, 1898. By Act of Feb. 3, 1900, the time was again extended, this time to July 1, 1900, with authority to still further extend it to Jan. 1, 1901. And on Feb. 16, 1901, the Legislature in extra session again extended the time until Dec. 31, 1901. Bonds funded under any amendment or extension to the Act of Feb. 20,189 ', carry interest from the semi-annual period next preceding the date of funding. Under the old law coupon bonds once converted into registered certificates were not re-convertible into coupon bonds, but under the Acts of 1882 and 1892 coupon and registered bonds are interchangeable.

WEST VIRGINIA CERTIFICATES .- In the settlement of 1871 it was assumed that West Virginia should provide for one-third the principal and interest of the then existing debt, that is \$15,239,370 out of the total debt of \$45,718,112. To represent, therefore, West Virginia's share of bonds funded "deferred certificates" were issued. All efforts, however, to induce West Virginia to take recognition of these certificates have thus far been unavailing. In 1885 the holders of about \$8,000,000 certificates united for the purpose of obtaining a compromise, and deposited their holdings with the Farmers' Loan & Trust Company, which gave its trust receipts therefor. This attempt came to nothing, and in 1890 Messrs. C. Satterthwaite & Sons, of No. 30 Throgmorton Street, London, E. C., started another movement to bring about a settlement.

An adjustment company, with the Mercantile Trust & Deposit Com. pany of Baltimore at its head, was formed late in 1893 for the purpose of making an attempt at the settlement of the West Virginia certificates. See CHRONICLE, Vol. 57, page 819; Vol. 58, pages 51, 314 and 444.

In August, 1898, another movement was started, this time under the leadership of Messrs. Brown Bros., with the same object in view, and that movement is now being vigorously pushed. The plan provides for ascertaining the exact amount of the old virginia debt with share West Virginia is justly chargeable (subject to certain limitations), and then compromising that amount at the same percentage at which Vir-ginia compromised the two-thirds of the original Virginia debt, namely 60 per cent for principal and 304 per cent for interest. (See the edifor ascertaining the exact amount of the old Virginia debt with which gluia compromised the two-thirds of the original Virginia debt, namely 60 per cent for principal and 30⁴ per cent for interest. (See the edi-torial article in STATE AND CITY SUPPLEMENT for April, 1899.) The Legislature of Virginia in March, 1900, passed a bill authorizing the State Debt Commission to take such action and institute such pro-ceedings as may be deemed proper to protect the State's interests and to bring about a settlement with West Virginia. (V. 70, p. 494.) The purpose of this Act was to enable Virginia to bring suit against West Virginia in the U. S. Supreme Court. Application was made Juno 3, 1900, and granted by the Governing Committee June 13, 1900, to list Brown Bros. & Co.'s Virginia deferred certificates on the New York Stock Exchange. The amount listed on April 1, 1901, was \$7,205,426, issue of 1871, with power to add thereto from time to time as additional certificates may be issued nuder the plan of settlement

issue of 1871, with power to add thereto from time to time as additionar certificates may be issued under the plan of settlement After about three-fourths of the old Virginia bonds had been sur-rendered, and "deferred certificates" been given to represent West Virginia's one third, under the acts of 1871 and 1879, these acts were repealed. The remaining bonds were refunded under other laws. These laws required a certificate to represent one-third the *principal* of the old bonds brought in for funding, but gave "non-interest-bearing certificates" to represent one-third the *interest* on old bonds. The fol-lowing shows the amounts of each issue: lowing shows the amounts of each issue: at M

TOTAL DEBT, SINKING FUNDS, ETC.—The subjoined statement shows Kentucky's bonded debt on the following dates.

Jan. 1,1901. Jan. 1,'99. Jan. 1,'98. Tot. bonded debt (exclusive of bonds

held by the Board of Educatiou).\$1,000,000 \$1,171,394 \$1,171,394 On Jan. 1, 1901, the sinking fund amounted to \$754 019.

The educational bonds are not, strictly speaking, a debt of the State. They are irredcemable; the fund is inviolate, and the six per cent semi-annual interest drawn by them is provided for out of the revenue placed to the credit of the sinking fund annually. The amounts are as follows: State bonds, issued Jan. 1, 1870, \$1,327,000; county bonds, lssued Jan. 1, 1885, \$378,946; new school bonds, issued March 12, 1892, \$606,650. The \$165,000 military bonds are also irredeemable; the interest is paid to the A. & M. College and the State normal school for colored persons.

ASSESSED VALUATION—The State's assessed valuation has been as follows:

Years.	Real Estate.	Personal Property.	Railroads.
1899	\$447,681,753	\$115,646,933	\$46,027,613

IEMPHIS. -- {JOS. J. WILLIAMS, Mayor. W. B. ARMOUR, Secretary.

Memphis is the County seat of Shelby County. A yellow fever bidemie in 1878 rendered the city unable to meet its obligations, ad in 1879 the city's charter was repealed and the Taxing District of nelby County was organized for the purpose of securing a compromise ith the bondholders on such terms as the city felt able to make. The purts, however, held that the Taxing District was liable for the entire obt of the city, and a compromise at 50 per cent was then arranged r under the act of March 1883. This act was amended in 1885. The d debt has been all retired and interest payments on the new issues re promptly made. In 1891, by an act of the Legislature, this dis-iet was again incorporated as a city.

INTEREST is payable in New York and Nashville—in New York by the Merchants National Bank. All coupons are tax receivable.

TAX FREE.-All bonds issued by this city are exempt from city tax

TOTAL DEBT, SINKING FUNDS, ETC.—The city's bonded debt on Jan. 1, 1901, was \$3,389.600, including a water debt of \$1,497,000. The city has no floating debt. Beginning in 1900 10 per cent of all revenues collected by the city, except for schools, will be set aside to form a sinking fund (Act of General Assembly 1899) and in addition all surplus on hand Dec. 31 each year, after deducting city debts, will pass to the sinking fund.

WATER WORKS.—The city owns its water works, on which it has expended \$1,500,000. By act of Legislature the net revenue derived from sales of water must be applied to interest on the water bonds.

DEBT LIMITATION.—New bonds can be issued only with permis-sion of the Legislature and the vote of the people.

Legislature meets biennially in odd years on the Wednesday after the first Monday in January, and there is no limit to length of sessions, but if sessions are continued longer than 60 days members "shall serve without compensation."

STATE DEBT.—The old debt, excepting such as is not recognized, has mostly been funded under the funding laws of 1879, the time pres-cribed for the exchange having been extended to January 1, 1903. These laws provided for the issue of (1) consolidated 4 p. c. bonds due in 1910 to fund old ante-war bonds at 40 per cent of face value, "New" railroad bonds recognized as valid at 25 per cent, and bonds of 1866 and 1868 at 15 per cent, nothing being given for overdue coupous; and (2) for new consolidated 6 per cent bonds due in 1919, for which the North Carolina RR. construction bonds were made exchangeable at par, holders of construction bonds abating \$240 of overdue interest on North Carolina RR. construction bonds where made exchangeable at par, holders of construction bonds abating \$240 of overdue interest on each \$1,000 bond. The new bonds, both 4s and 6s, carry tax-receivable coupons, and are exempt from "all State, county or corporate taxation or assessment, direct or indirect, general or special." An amendment to the State Constitution passed by the Legislature in 1879 and ratified by popular vote in 1880, forbids the General Assembly to pay or recognize as valid the following bonds: Special tax honds \$11,366,000; bonds to Chatham RR., 1863, \$1,030,000, and to Williamston & Tarboro RR., \$150,000; Penitentiary bonds of 1868 \$44,000. The special tax bonds are in 3 classes, class 1 bearing the coupon of April 1869 and since; class 2 bearing the coupon of Oct. 1869; class 3 bearing the coupon of April, 1870 Holders of the special tax bonds brought suit to establish the validity of their bonds and the ease was decided in favor of the State. The recognized debt which had been adjusted up to Dec. 1, 1900, stood as follows: stood as follows:

The city tax rate (per \$1,000) in 1899 was \$15.00; the total tax (per \$1,000), \$24.50.

POPULATION-In 1900 (Census) was 80,865; in 1890 it was 76,-168; in 1880 was 43,350; in 1870 was 25,865.

TOTAL DEBT RECOGNIZED AND TOTAL ADJUSTED.-The funding act of March 4, 1879, was extended to Jan. 1, 1903. The recognized fundable debt which has been funded and the recognized fundable debt which has not been funded are as follows: Not funded

Consols 6 per cent. \$2,720,000Consols 4 per cent. 3,397,350\$22,000 218,420 To the foregoing we should add the further fact that the State does not have to raise money for the interest on the six per cent bonds for the reason that the lease of the North Carolina Railroad provides a fund for the payment of the interest thereon, and the State holds three millions in the stock of the road, which if sold would much more than pay the principal. In addition the State holds other stocks and bonds to the value of \$1,400,000; total, \$4,400,000.

pons are all tax-receivable. DEBT LIMITATION.—The city can issue bonds only when auth-orized by a two-thirds vote of its citizens at a popular election held in accordance with a two-thirds vote of both the City Council and the State Legislature. Under the new Constitution the debt cannot be increased, the limitation being 8 p. c. of the assessed valuation. An amendment to the State Constitution voted at the Novem-ber (1900) election and subsequently passed by the Legislature per-mits the issuance of bonds outside of this limit for water-works and sewcrage purposes only. The matter is now before the Supreme Court to establish its validity.

HISTORY OF DEBT.—For history of South Carolina's debt from 1794 to 1893 see the STATE AND CITY SUPPLEMENT of April, 1893, pages 163 and 164. Attorney-General Griggs, of the United States, in July, 1900, brought suit against the State of South Carolina to re-cover on \$125,000 principal and \$123,750 over-due interest on bonds issued in 1856 to complete the State House. The Sundry Civil Act of June 6, 1900, however, repealed the Act of 1899 under which the suit was brought, and the action was discontinued. See V. 71, p. 875. The bonds matured in 1881, and principal and interest were never paid. See V. 71, p. 147. They came into the possession of the United States, but South Carolina refuses to recognize them. The State debt on Jan-uary 1, 1901, consisted of the following items:

	1900\$12,338,143	\$4,907,999	\$17,246,142	\$29.50	\$40.50

	1888 14,527,350	7,042,205	21,569,555	23.50	33.75

Total tax rate in 1900 included State and county tax, \$10.00; city tax, \$29.50; school tax, \$1.00; total, \$40.50.

POPULATION.—In 1900 (Censns) was 55,807; in 1890 it was 54,-955; in 1880 it was 49,984.

COLUMBIA.—T. T. TALLEY, City ()k., & Treas. Columbia is the capital of the State and the county seat of Riehland County. In 1880 the city funded the entire amount of its debt (prin-cipal and overdue interest) into the first issue of bonds below de-scribed. The water bonds, secured by first mortgage on water works costing over \$400,000, were issued in 1891 for improvements.

DEBT LIMITATION.—The Constitution of the State of Georgia adopted in 1877, limits municipal indebtedness in this State to 7 per cent on the amount of taxable property. Augusta's debt at that time was in excess of that limitation and still is. Therefore under no cir-cumstances can the debt of the city be increased. No bouds can be lawfully issued except for the purpose of retiring old issues as they fall due. No obligation of this city has ever been repudiated or scaled.

CITY PROPERTY.—The city owns its water works, valued in 1901 at \$1,000,000, the Angusta Canal, valued at \$2,000,000, and \$300,000 in other good real estate within city limits. The net annual in-come from water rents (canal and water works) was reported in 1900 as \$88,350 and increases yearly from new industries and new extensions of water mains. The city also receives \$12,000 yearly for certain street railway franchises.

ASSESSED VALUATION.—The city's assessed valuation and tax rate have been as given below. In 1897 the assessed valuation of all real estate was reduced 10 per cent and in 1899 and in 1900 5 per cent was deducted.

Legislature meets biennially in even years on the Tuesday after the second Monday in November, and sessions are limited to 50 days.

*This is date when the Mississippi Constitutional Convention com-pleted its labors, the Act establishing the Territorial Government of Alabama having provided that the Act was to commence and go into force when the Constitutional Convention of Mississippi had "formed " a Constitution and State Government for that part of the Mississippi "Territory lying west of the territory herein described." † Term is two years from time of installation in office.

HISTORY OF DEBT .- For history of Alabama's State debt see STATE AND CITY SUPPLEMENT of April, 1894, page 168. Under an Act of the State Legislature approved Feb.18,1895, all bonds authorized to be exchanged under the Act approved Feb. 23, 1876, were barred if not exchanged by July 1, 1896. The amount thus barred was \$185,400. Another Act also approved Feb. 18, 1895, and amended Feb. 16, 1899, authorized the Governor to refund the bonds outstanding with new securities bearing such rates of interest as may be deemed hest, and maturing in not more than 50 years from date of issue.

CITIES, COUNTIES AND TOWNS IN THE STATE OF ALABAMA.

ANNISTON.

Anniston is in Calhoun County. Oxanna has recently been annexed. The city defaulted in the payment of interest on its bonds amounting to \$295,000. A majority of the bondholders united and brought suit in the United States District Court and secured a judgment against the city for the payment of the overdue coupons. The Mayor and the Chairman of the Finance Committee were appointed a committee to arrange for an adjustment on the basis of a reduction of interest, and an agreement was reached whereby new 20-year bonds were issued to refund the old bonds, together with the interest accrued thereon. The new bonds will bear 2% interest for the first five years, 3% for the next five years, 5% for the third five years and 6% for the remaining five years. Bonds are tax exempt. The Legislature of 1900 authorized the bonds, and they are now (March 10, 1901), in process of exchange. LOANS— When Due. | Assessment about 34 actual value.

BESSEMER .- Situated in Jefferson County.

BIRMINGHAM.-

Birmingham is in Jefferson County. In 1899 an amendment to the State Constitution was passed permitting an increase of one-half per

cent in the tax rate, the proceeds to be applied exclusively to the payment of interest on the city's bonds and for the creation of a sink-ing fund On Aug. 13, 1895, the old boudholders by arrangement with the city agreed for a term of five years to defer their claim for one-half of the interest coupons. The whole amount withheld, how-ever, together with 5 per cent interest thereon, was paid on Aug. 13, 1900, and the original contract with the bondholders thus fully com-plied with. Since the latter date all interest has been paid regularly and in full.- See CHRONICLE, Vol. 69, p. 194. The funding bonds carried 4 per cent interest to Jan. 1, 1901, and 5 per cent since that date.

and 5 per cent since that date. TOTAL BONDED DEBT Sept. 1, 1900, was \$2,252,878, not includ-ing the water bonds. Of the funding bonds of 1881 about \$250,000 are endorsed with the statement that they represent the purchase money for certain wharf property and are secured by a vendor's lien on said property. Of the original issue, about \$200,000 are outstand-ing, the balance having been drawn under the provisions of the Aot, from the proceeds arising from the rent of said wharves. An Act of the Legislature requires the city to levy a tax of $\frac{3}{4}$ of one per cent on its valuation to provide for the payment of principal and interest of the bonds of 1881. After the payment of interest the sur-plus remaining from this tax is applied to the redemption of the bonds, after drawing by lot, at par, bonds so redeemed being canceled. Regular or quadrennial sessions are not limited, but special sessions are limited to 30 days, unless the Governor by proclamation shall extend the sitting, and only revenue and appropriation bills can be considered, "except such other matters as may be acted upon at an extraordinary session called by the Governor."

*This is the date of the organization of the old Mississippi Territory, which was divided up into two parts when the State was created.

HISTORY OF DEBT.-For history of the State debt of Mississippi SEE STATE AND CITY SUPPLEMENT OF April 1894, page 170. The Legis lature of 1900 authorized the issuance of \$1,000,000 bonds for a new State House. Part of this issue (\$250,000) was advertised for sale on October 2, 1900, but sale was afterwards withdrawn, as it was found that the State had sufficient money on hand to go on with the work without bonding. There is a probability that none of these bonds will ever be issued.

Legislature meets biennially in even years on the second Monday in May, and sessions are limited to 60 days.

*Further provision for the Government of the Territory, then known as the Territory of Orleans, was made by the Act of March 2, 1805, the duration of the Act of March 26, 1804, having originally been contined to the period of one year from October 1, 1804, "and to the end of the next session of Congress which may happen thereafter."

HISTORY OF DEBT.-For history of the State debt of Louisiana see STATE AND CITY SUPPLEMENT of April 1894, pages, 171 and 172. Debt on which the State is paying interest is about as follows:

Interest .--LOANS-P. Ct. Payable. When Duc. Outstand'g. -Principal.-

DEBT LIMITATIONS STATE, AND MUNICIPAL.-For debt limitations under the Constitution adopted May 12, 1898, see editorial columns of the State and City SUPPLEMENT for October, 1898. The limitation for municipalities is 10 per cent upon the assessed value of the property of the municipal corporation, parish or drainage district.

PAR VALUE OF BONDS-The consolidated 7s, stamped 4 per cent are for \$100, \$500 and \$1,000. The Constitutional bonds for \$5, etc. See CHRONICLE, Vol. 68, p. 987.

INTEREST is payable by Winslow, Lanier & Co., New York City and by the fiscal agents of the State in New Orleans and Baton Rouge.

FISCAL AGENTS.-The fiscal agents of the State are the New Orleans Nat. B'k, the Louisiana Nat. B'k and the Hibernia Nat. B'k at New Orleans, and the Bank of Baton Rouge and First National Bank at Baton Rouge

TOTAL DEBT-The subjoined statement shows Louisiana's total bonded debt on April 1, 1901.

A pril 1, 1900.Fotal bonded debt bearing interest.\$10,377,801 Floating Debt-Baby bonds and certificates (act of 1880) exclusive of

coupons....

913,597 The baby bonds are 3 per cents and were due in 1886. They were issued to fund certain obligations of charitable institutions. No interest has been paid on them since January, 1885, but provision has been made to pay the principal of the bonds at not more than 50 p.c.-See CHRONICLE, Vol. 64, p. 987.

In September, 1889, it was discovered that a number of bonds had been fraudulently issued. Part of these were subsequently recovered, but \$373,600 consols so issued (\$303,600 being consols of 1874 and \$70,000 Constitutional bonds) are still outstanding. The State considers them "null and void," and they are therefore not included in the amount outstanding above. There are also \$421,935 fraudulently issued baby bonds outstanding. There are moreover old bonds not recognized, and hence not fundable, more than the transmission of the state of

amounting to \$3,953,000. These include New Orleans Mobile & Texas 8 per cent bonds, endorsed, \$875,000; 8 per cent State bonds issued to said road, \$2,500,000; 8 per cent bonds issued to the N. O. Mobile & Chattanooga RK. \$70,000; 7:30 per cent bonds issued to the Mis-sissippi & Mexican Gulf Ship Canal Co. \$260,000, etc., etc.

ASSESSED VALUATION—The assessed valuation is estimated at about 37 per cent of the actual value. The State tax (per \$1,000) for 1900 was \$6.00:

NEW ORLEANS. } PAUL CAPDEVIELLE, Mavor. New Orleans is co-extensive with the parish of Orleans. An amendment to the Louisiana Constitution authorizing the eity to refund its debt at a lower rate of interest was adopted in 1892, and up to Jan. 1, 1900, the city had issued 4 per cent 50-year bonds to the amount of \$9,008,500, thus enabling it to pay all its maturing loans and all those upon which it had option. The amendment provides that the interest tax collected in excess of requirements shall be divided between city schools and city improvements. The new Louisiana Constitution, in effect May 12, 1898, confirmed these arrangements. On June 6, 1899, the city voted a special tax of 2¹2 mills for water, sewer and drainage purposes, intended to provide for an issue of from 12 to 16 millions bonds. As this required an amendment to the State Constitution, the Legislature, in special session, passed a bill for its submission to a vote of the people of the State. At this election the amendment was approved and the bonds were awarded in Dec., 1900. These bonds, however, will not be issued in one lump sum, but will be put out as the improvement progresses. be put out as the improvement progresses. LOANS— When Due. Legislature meets biennially in odd years on the 2d Monday in January, and sessions are limited to 60 days, unless by a two-thirds vote of the members a longer time is decided on.

HISTORY OF DEBT.-For history of the Arkansas State debt see STATE AND CITY SUPPLEMENT of April, 1894, page 173. By Act of Congress approved April 29, 1898, a compromise was effected between the United States and the State. In accordance with the terms of this settlement the United States authorities on May 27, 1898, delivered to the State Arkansas bonds and coupons amounting to \$1,505,160, and carrying besides a large sum of overdue interest. This operation wiped out the entire debt of the United States against the State except \$160,000, which has since been paid.

REFUNDING.-Under the Legislative Act of 1899 the entire debt has been refunded by an issue of 3 per cent 30-year bonds, denominations \$500 and \$1,000, except \$22,000 in bonds of 1869 and 1870, and the estimated interest thereon. amounting to \$36,000, which have not been presented for refunding.

The total amount of bonds issued up to Oct. 1, 1900, was \$1,271,-000, of which amount \$1,113,000 are held by the State's School Fund; \$38,500 by the treasury of Washington County, Ark., and \$69,500 by individual parties.

TOTAL DEBT, ETC.-The bonded debt on Oct. 1, 1900, consisted only of refunding bonds (referred to above) as follows:

Interest. When payable. Maturity. Amount. ... 3 Sept. 1929 \$1,271,000 Refunding bonds..... The following statement shows the debt of the State as it stood prior to the refunding of the recognized debt under the Act of 1899 In 1898, under a compromise made by Act of Congress, as noted above, a large amount of bonds and coupons held by the United States was delivered up, which accounts for the reduction shown October 1 1898.

Total debt..... \dots \$1,565,580 \$4,218,752 \$4,823,022 \$4,976,997 In addition to the above indebtedness there was outstanding on Oct. 1, 1898, State scrip to the amount of \$375,264 and sinking fund notes \$105,022, making the total State indebtedness \$2,045,866. All this serlp was called for payment Aug. 1, 1899, (to be barred if not pre sented for payment within six months), and the amount so barred was about \$374,000.

DEBT NOT RECOGNIZED, HOLFORDS, ETC.-A summary of the unrecognized debt appears below. To ald in distinguishing the Holfords from the valid bonds of the State it should be said that under the act of April 6, 1869, two series of funding bonds were issued. One was dated July 1, 1869, and numbered from 1 to 1,000, inclusive. All of this series are printed in blue ink and are non-Holfords-in other words, sre recognized obligations. The second series were dated January 1. 1870, numbered from 1 to 2,050, inclusive, and are printed in red lnk, Of this series numbers 491 to 1,860, both inclusive, are the Holfords which constitute part of the unrecognized debt. MUNICIPAL AND COUNTY BOND LAW.—A State law approved in 1893 has done much to widen the market for new Texas municipal leans. At present before any bond can be issued by a municipality or county it must receive the certificate of the Attorney General that it is a lawful obligation. It must then be registered in the office of the State Comptroller, and when the bond is so issued its validity cannot be questioned except on the grounds of fraud or forgery. The text of the law will be found in the STATE AND CITY SUPErFERENT of April the law will be found in the STATE AND CITY SUPPLEMENT of April, 1895, page 178. Where the fact is known to us we have marked with a star (*) in the returns below the issues put out *prior* to the enactment of the above law. A law went into effect Aug. 26, 1899, compelling counties and incor-porated towns and cities to submit propositions for the issuance of bonds [all except "funding bonds issued or to be issued of any valid outstanding bonds of said county, town or city;" also excepting bond issues for less than \$2,000, when "issued for the purpose of repairing buildings or structures, for the building of which bonds are allowed to be issued,"] to a vote of the qualified taxpayers before the issue can be submitted to the Attorney General for approval as required by the law of 1893-V. 69, p. 569. AUSTIN.-JOHN O JOHNSON, City Clerk. This is the capital of the State and the county seat of Travis County. \$52,500 of General Revenuehonds issued prior to 1890 are in litigation. See CHRONICLE, Vol. 69, p. 91. The Jan., 1900, interest on the water and light bonds was not paid when due—see CHRONICLE, V. 70, p. 46. On June 4 the City Council, however, authorized an appropriation for the payment of overdue interest for the quarters ending January 1 and April 1, 1900-see CHRONICLE V. 71, p. 45. Since April, 1960, however, no interest has been paid. The Austin dam, water-works, cicctric light and power houses, for the building of which the water and light bonds below were issued, were destroyed by the disastrous floods that visited Texas in April, 1900.-V. 70, p. 755. GALVESTON.— {I H. KEMPNER, Treasurer. THEO. K. THOMPSON, Auditor. Galveston is the county seat of Galveston County. This city was badly injured by a hurricane on Sept. 8, 1900, it being completely inundated by the waters of the Gulf of Mexico. The loss of life reached several thousands, while the property loss ran high into the millions. -V. 71, p. 564. All interest on outstanding bonds has been promptly paid to this date, Mar. 28, 1901. The city Auditor states that the city will endeavor to refund the outstanding bonds at a lower rate of interest, and that the principal of all the city's debt—bonded and float-ing—will be paid in full.
