THE FINANCIAL SITUATION.

Words fail to describe what has been passing in Wall Street this week. One might imagine that a short, sharp, sudden stock revival of special force would be due and come after an unnatural and extreme depression; but that in no particular represents the occurrence on this occasion. The course of the movement, when at its height, was as irresistible as a tropical cyclonic storm ; and yet it came, not after a depression, but in the wake of decided and prolonged activity and of uninterrupted and phenomenal advances. Then, too, in the eagerness to get stocks, in the strong quality of the buying, in the volume of transactions, in the general character of rising values, and in the leaps made in some prices-in these particulars the movement this week passed beyond any former record. The surroundings, too, are of a na ture never before realized. We do not mean to affirm that this movement is healthy. Still, it is attended by some circumstances favor. ing high quotations. Among these is the continued increases in earnings until the net if distributed to stockholders would in most cases be sufficient to pay a fair dividend on current values. It is a fact, too, that crop advices and business movements seem to warrant the conclusion that these earnings are not yet at their height. There is likewise the iron and steel industry, which has always been claimed as a tell-tale of trade development, that never looked so healthy and promising as now. Home demand for these articles is immense, while appearances favor the idea that any material European expansion in their production is not possible, and that the increase in the outside world's need for iron and steel must hereafter come from the United States.

We might fill many columns with interesting details of the Exchange operations during this notable week. Most of the facts will, however, be found in our pages of quotations, tables of sales, and Investment News. The first three days were perhaps the more conspicuous; but the continuation day after day is the most astonishing feature. Monday's recorded sales reached 2,619,736 shares; Tuesday's 3,281,226 shares; Wednesday's 2,823,498 shares; Thursday's 2,854,689 shares; Friday's 2,945,277 shares, or an average for the five days of over 2,900,000 shares, and a total of 14,524,426 shares. More though is needed than those figures to get a correct idea of the volume of business done; each day there was an amount of sales larger than ever before that escaped being recorded. The rush to secure stocks and the crowded condition of the new quarters were such important factors that the facilities were greatly overtaxed and hundreds of thousands of shares were each day sold The rapidity with which that were unrecorded. work had to be done is illustrated by the circumstance that the tape recorded in the first hour on Wednesday sales of 1,000,000 shares. A prominent and leading feature of the week has been the same contest which took the lead the previous week; we refer to the effort to secure possession of the Union Pacific property. It was understood Wednesday that the ownership of the company had changed hands; that it had passed into the control of the New York Central and its allied propertiesamong them the Chicago & North West. and presumptively St. Paul. Later, however, this view was not favored. An idea of the keenness of the struggle | Southern California and Texas indicates that the op-

The closing may be obtained from a few figures. price of Union Pacific last week Friday (there was no session Saturday) was 1073; Monday the stock sold up to 120 and closed at 1183; Tuesday it sold again at 120 but closed at $116\frac{1}{2}$; Wednesday it sold at 130 and closed at 1293; Thursday it sold up to 133 but closed at $128\frac{1}{2}$; Friday it touched $128\frac{1}{2}$ and closed at $122\frac{1}{2}$.

Speculation to-day does not alone find congenial conditions for development at such centers as New York and other large cities. It is absorbingly active in many other and wide sections, seeming to be the dominant interest of whole States with their adjacent communities, and in that case generally based upon a single product. Among these, the new oil fields form the most conspicuous and remarkable illustration. We accord them this position not only because of the high pressure speculation has there attained, but because the material they concern could not have been discovered at any points in the United States where it was more needed as an industrial agent than in Southern California and in Texas. Southern California especially has been thereby favored; for it has always been considered as permanently and heavily handicapped in regard to mannfacturing pursuits through a notable lack of fuel. Coal brought from Australia was long the only supply; later the Santa Fe Railroad opened other sources, but the distance it still had to be carried made it very little cheaper. The same lack has also been a difficulty the railroads throughout those sections have had to contend with, low operating cost and consequently low rates for freight being difficult with fuel high.

These facts impart a double character to the speculations which prevail growing out of the oil discoveries; the immediate results are the gains and losses to individuals, the other and more remote are the gains to the public and to the State. We can hardly overestimate these later benefits which are certain to accrue. Light and fuel must become the cheapest of products in these two sections. Railroads have already begun to turn their locomotives into oil burners; cheaper freight rates ought to follow. Every sort of manufacture is likewise encouraged. Cotton mills should find a more profitable field in Texas than ever before, and as a consequence, with fuel low and the best of cotton the leading product, they should spring up rapidly; and whatever other kind of factory meets favoring conditions in the general surroundings has the question of cheap fuel, a most important item, established in its favor in both of these new oil sections. High prices of every commodity have always been the rule in Lower California; this, as is well known, has been due not only to the circumstance of distance from the source of manufacture but to the Rockies interposing a barrier to quick or cheap transit. By degrees this will be changed under the influence of this new industrial agent. For the time being excessive speculation in oil lands and stocks is a natural outcome. New York has been through a somewhat similar experience. It was many years ago. In the early stages nearly every one made money; but in course of time the public lost all caution, invested in everything offered under the label of "oil," many finding in the end that even the territory so glowingly described in prospectuses was non est. What we have said about

must be abundant; and yet the excitement is getting to be so intense that floating bogus concerns must soon get to be feasible.

The provisional contract entered into at London with J. Pierpont Morgan by Chairman Ellerman of the Leyland Steamship Line for the sale of his entire holdings of the ordinary shares of that company was announced in a circular issued Tuesday, April 30, by Mr. Ellerman. It is also stated in the same circular that the other principal ordinary shareholders have intimated that they will avail themselves of Mr. Morgan's offer, the effect of which will be that Mr. Morgan and those he represents will practically become owners of all the ordinary shares $(\pounds 1, 200, 000)$ at a cost to them of upwards of £1,750,000. Another circular issued by the Secretary of the Leyland Line accompanies Mr. Ellerman's circular confirming the above statements. This transfer is believed to be but a first step in bringing the Leyland Line and the Atlantic Transport Line under a single organization, and that the whole arrangement simply aims to facilitate the export movement from the United States, especially of coal and iron.

It has been assumed by some that the action presaged great harm to British trade. No idea could be farther from the truth. Without doubt it will tend to advance the distribution of American commodities throughout the world, and it foreshadows an increase in the ocean carrying business of this country. But those facts suggest merely a slow advance and a friendly rivalry. Our power to produce is in many directions getting beyond our power to consume. Hereafter to keep up development and prosperity we must have an outlet for our surpluses. We shall not get it by supplanting wholly or in considerable part Great Britain or Germany or any other active intelligent people in the markets of the world. If there were no other obstacle to such a result it would be impossible for us to have surplus goods enough to fill any such requirement. Besides, our population is increasing rapidly and its capacity for consumption is increasing more rapidly. It is only by a gradual and slow de velopment that our industries can expand and surplus be enlarged; and even then values must be low to compete with Great Britain and Germany. Present rising prices of commodities do not encourage the belief of our soon becoming a dangerous rival in the world's markets.

The week has been distinguished for an unusual number of new or enlarged dividend distributions by our leading railroads, and in that fact we see one of the strong features of the situation. It is the prosperity which our railroad carrying interest is enjoying, making possible these new returns to the share. holders, that really lies at the bottom of the wonderful activity and marvelous rise in prices which is being witnessed on the Stock Exchange. Note, for instance, that two well-known companies which had to un. dergo reorganization only a few years ago have this week entered the dividend lists with their common shares, after having previously put their preferred stock in the ranks of the dividend-payers. One of these is the Atchison Topeka & Santa Fe Railway. No one could have thought it possible, when this company was reorganized at the end of 1895, that within of all the clearing houses for the month the present

portunity for good oil investments in both sections | a little over five years a return on the common stock would be made. The question then was whether the Adjustment Incomes could depend even upon getting their interest regularly. But the company has paid successively the 4 per cent on the \$51,728,000 of Adjustment bonds, the 5 per cent on the \$114,199,530 of preferred stock, and now announces an initial payment of $1\frac{1}{2}$ per cent. on the \$102,000,000 of common stock. In the same way the Norfolk & Western, after paying first on the preferred shares, has advanced so much further in its state of prosperity that a dividend of one per cent is now possible on the \$64,479,400 of common stock. The transformation in this case is even more noteworthy than in that of the Atchison, for the Norfolk & Western was not reorganized until about a year later—that is, not until 1896.

> But the reorganized roads are not the only ones that are giving their shareholders added returns. The Great Northern Railway has just declared an extra one-half of one per cent, this being from the surplus earnings of the Lake Superior Company, a corporation organized in the late fiscal year to take over the Great Northern's interests in outside companiescoal, elevators, express, &c. The Barlington & Quincy dividend is also this time one-half per cent larger, being 2 per cent instead of the previous quarterly 14 per cent; it is proper to say, however, that this return is for a period of four months, not three months, covering the time to July 1, when the bonds to be given for the stock will begin to draw interest. The Pennsylvania Railroad dividend seems to have caused disappointment in certain quarters, only the usual semi-annual payment of $2\frac{1}{2}$ per cent being announced, with nothing extra, as against one per cent extra last November. But the Pennsylvania is a conservatively managed property, and it may not be the policy to make an extra distribution until the end of the year. Furthermore, shareholders have just received an extra dividend in the shape of rights which are at present selling at 10@11 in the market.

> Very naturally, with speculation so active, bank clearings are rising to unprecedented dimensions. At New York the total of the exchanges for the month of April reached the extraordinary figure of 8,636 million dollars, which is 1,235 millions in excess even of the aggregate for last January, which had never previously been approached. As compared with the clearings for April 1900 the present year's total represents an increase of no less than 83 per cent. It may be urged that in April of last year clearings showed a decrease. This is true, but the loss then was small alongside the present enormous gain. To get a proper idea of the extent of the present figures, the comparisons must be carried back a few years. For April the present year the exchanges at New York, as already stated, were 8,636 millions; in April 1900 they were 4,716 millions and in April 1899 5,577 millions. But these latter were in themselves exceptional totals. In April 1898 the aggregate of the clearings at this point was only 2,869 millions and in April 1897 but 2,250 millions. Hence this year's total is three to four times the amounts for these earlier years. For the country as a whole the result is much the same. In this case the increase over April 1900 is 60 per cent, the aggregate of the exchanges

[VOL. LXXII.

year being 12,007 millions; the comparison is with 7,473 millions in April 1900, with 8,283 millions in April 1899, with 4,979 millions in 1898 and 4,106 millions in 1897. It may be supposed that the striking gains here recorded are entirely due to the phenomenal volume of exchanges at New York, and hence are to be ascribed entirely or mainly to the influence of Stock Exchange speculation. But even outside of New York there is an increase over last year of 22.3 per cent, and in this case there was no loss last year; the total outside of New York is 3,370 millions for 1901, 2,757 millions for 1900, 2,706 millions for 1899, 2,110 millions for 1898 and 1,856 millions for 1897.

Quite a number of monthly reports of railroad gross and net earnings, covering the month of March, have come to hand this week, and in the great majority of instances they make very flattering comparisons with the corresponding period of last year. The Lehigh Valley return might be referred to as being particularly noteworthy in this respect. We shall, however, for purposes of illustration, take a more representative system, namely the Pennsylvania Railroad. Both on the lines east of Pittsburg and Erie and the lines west of those points the Pennsylvania RR. reports a further improvement; on the Western lines this improvement is very moderate, being \$44,000 in gross and \$92,400 in net, but on the Eastern lines the increase amounts to \$600,200 in gross and \$352,-300 in net. What gives special significance to these results is that the improvement follows still more noteworthy improvement a year ago, showing that the expansion has been progressive and cumulative; on the Eastern and Western lines combined the increase last year was no less than \$1,802,100 in gross and \$541,800 in net. The following furnishes a six-year comparison for the lines east of Pittsburg and Eriethe only portion of the system for which we have the data for such a comparison.

| LINES EAST OF PITTSBURG. | 1901. | 1900. | 1899. | 1898. | 1897. | 1896. |
|-----------------------------|------------|------------|------------|------------|------------|------------|
| March. | 8 | 8 | 8 | \$ | \$ | 8 |
| Gross earnings | 7,615,132 | 7,014,932 | 5,820,932 | 5,438,382 | 5,064,732 | 5,253,932 |
| Operat'g expenses | 5,170,110 | 4,922,210 | 4,183,210 | 3,802,410 | 3,444,810 | 8,661,310 |

| Jan. 1 to Mar. 31. | | | | | | |
| Gross earnings | 21,717,837 | 19,592,537 | 15,701,937 | 15,356,937 | 14,806,637 | 14,893,737 |
| Operat'g expenses | 14,868,217 | 13,866,217 | 12,034,817 | 11.209,117 | 10,267,117 | 11,134,217 |
| Net earnings | 6,819,620 | 5,726,320 | 3,687,120 | 4.147,820 | 4,039,520 | 3 759,520 |

It is noteworthy that the first official announcement regarding the new issue of British consols since the closing of the subscription books April 23 was made on May 2, when the Chancellor of the Exchequer stated, in response to a Parliamentary inquiry, that £30,000,000 of the new loan had been allotted, £11,000,000 to the Rothschilds, £10,000,000 to J. S. Morgan & Co. and £9,000,000 to the Bank of England. This substantially confirms the statement made in the CHRONICLE last week that £30,000,000 were taken jointly by J. S. Morgan & Co. and the Rothschilds. It was officially announced on Tuesday of this week by J. P. Morgan & Co. of this city that the allotments to American subscribers were 35 per cent of the American subscriptions, which, assuming them to have been about \$150,000,000, as stated by a member of the syndicate, would make the amount allotted about \$50,000,000. Adding thereto the \$50,-000,000 allotted directly to J. S. Morgan & Co. (the are 4 per cent for sixty to ninety day endorsed

firm style of the London house) would make \$100,-000,000 of the British consols taken by American bankers and other subscribers in this country. The allotments of subscriptions received by the Bank of England are stated to have been $12\frac{1}{2}$ per cent. In this case, therefore, as was the case with the British Exchequer loan, which was issued last August, the greater part of the loan has been placed in this country.

The bank statement of last week showed gains in all the principal items. The increase in cash was \$2,735,000, closely corresponding with our preliminary estimate, while the increase in loans was \$2,377,600 and in deposits \$3,589,000. The surplus reserve increased by \$1,837,675, to \$16,759,775. The gains in specie were largest by the Manhattan \$4,252,000, the North America \$1,139,600, the Hanover \$1,146,200 and the First National \$1,075,400. The principal losses were by the City \$4,872,800 and the America \$1,011,700. Though nine national and eight State banks were below the limit of 25 percent of reserve to deposits, none of the former showed an important reduction. The Secretary of the Treasury has this week bought 4 per cents of 1907 to the face value of \$812,500 at from 113.6069 to 113.6123, costing, with the premiums, \$923,066. This makes the total payment for bonds purchased by the Treasury for the sinking fund since the week ending April 6 \$7,709,463. Shipments of gold to Europe this week have been \$4,013,902 23, all of which went to the Continent. The Secretary of the Treasury on May 1 paid \$3,812,129 quarterly interest on the 3 per cents of 1898, the 4 per cents of 1925 and the 5 per cents of 1904. This money, however, will be quite generally distributed throughout the country.

Money on call, representing bankers' balances, has loaned at the Stock Exchange during the week at 8 per cent and at $3\frac{1}{2}$ per cent, averaging about 5 per cent. The higher rate was due in part to preparations on Tuesday for the May settlements, and later to the increased requirements of stock commission houses caused by the wild speculation in stocks which has prevailed this week. On Monday loans were made at 4 per cent and at $3\frac{1}{2}$ per cent, with the bulk of the business at 4 per cent. On Tuesday and on Wednesday transactions were at 6 per cent and at $3\frac{1}{2}$ per cent, with the majority at 4 per cent. On Thursday loans were at 6 per cent and at 4 per cent, with the bulk of the business at 5 per cent. On Friday transactions were at 8 per cent and at 5 per cent, with the majority at 6 per cent. As a rule banks and trust companies closely follow the rates for money at the Stock Exchange, and though the mimimum rate quoted by them has been $3\frac{1}{2}$ per cent, the down town institutions have generally loaned at the higher figures quoted at the board. Time contracts are less liberally offered by banks, many of them preferring to keep control of their money through call loans, being somewhat apprehensive of trouble resulting from the enormous business in stocks at the almost unprecedentedly high prices now ruling. Quotations for time money are $4@4\frac{1}{2}$ per cent for thirty days to four months and $4\frac{1}{2}$ @5 per cent for longer periods on good mixed Stock Exchange collateral. Commercial paper is quiet, with a fair demand, chiefly from the interior, and a moderate supply. Rates

bills receivable, $4@4\frac{1}{2}$ per cent for prime and 5@6 per cent for good four to six months single names.

The Bank of England minimum rate of discount remains unchanged at 4 per cent. The cable reports discounts of sixty to ninety-day bank bills in London at 31@35 per cent. The open market rate at Paris is 25@24 per cent, and at Berlin and Frankfort it is $3\frac{1}{8}@3\frac{1}{4}$ per cent. According to our special cable from London the Bank of England lost £433,395 bullion during the week and held £35,439,819 at the close of the week. Our correspondent further advises us that the loss was due to the export of £68,000 (of which £50,000 were to Peru, £13,000 to Argentina and £5,000 to Continent) to shipments of £468,000 net to the interior of Great Britain and to imports of £103,000, of which £39,000 were from Australia, £38,000 were bought in the open market and £26,000 from China.

The foreign exchange market was easy early in the week, influenced by offerings of bills drawn against present and prospective shipments of gold, and also by offerings of running-off bills and of other sight drafts, the delivery of which at the end of April had been contracted for. Later in the week the tone grew steadier, though rates were not quotably changed. The requirements of the Bank of England that 3 per cent of the British loan should accompany applications therefor is understood to have been met by correspondents in London of houses here through whom requests for the loan were made and consequently the foreign exchange market has not yet been affected by the loan negotiations. Toward the end of next week, however, it is expected that there will be a demand for exchange to remit for the first instalment of $6\frac{1}{2}$ per cent of the American subscriptions to the loan. The exports of gold during the week have all been to France and Germany. On Tuesday Heidelbach, Ickelheimer & Co. sent \$1,504,-902 67 and Kuhn, Loeb & Co. \$253,885 73 in gold bars to Berlin, and on Thursday the former sent \$1,-004,783 13 and Lazard Freres \$1,000,330 70 in gold bars to Paris, and the National City Bank \$250,000 in American gold coin to Hamburg. This makes a total of \$4,013,902 23 for the week and \$15,403,736 52 exported to Europe since the beginning of the year, including \$8,083,869 48 which was forwarded between January 16 and February 2, inclusive. No further engagements of gold for shipment were made after Wednesday. The Assay Office paid \$1,188,-779 29 for domestic bullion. Gold received at the Custom House for the week \$68,094.

Nominal rates for exchange are 4 $85\frac{1}{2}$ for sixty day and 4 89 for sight. Rates for actual business opened on Monday at a decline of one quarter of a cent all around, compared with those at the close of last week, at4 844@4 85 for long, 4 88@4 884 for short and 4 884@ 4 89 for cables, and the market was easy, influenced, as above noted, by offerings of bills against gold engagements and of running-off and other drafts. The tone was easy again on Tuesday, when there was a further fall in actual rates of one quarter of a cent all around to 4 842@4 842 for long, 4 872@4 88 for short and 4 $88\frac{1}{2}@4$ $88\frac{3}{4}$ for cables. On the following day the market grew steadier and it so continued thereafter at unchanged rates. The tone was steady on Friday. The following shows daily posted rates for exchange by some of the leading drawers.

from the best estimate we are able to obtain; in neither case is it claimed to be accurate, as those banks make no distinction in their weekly returns, merely reporting the total gold and silver, but we believe the division we make is a close approximation.

THE REMARKABLE FINANCIAL POSITION OF AMERICA.

The extraordinary position into which the United States has passed in the field of finance and industry has been forcibly brought before the public in many ways this week. To numerous observers-perhaps to most-the unparalleled outburst of buying in the American security market has been the strongest testimony. Another incident of the week has produced an almost equally profound impression on both home and foreign markets. We refer to the purchase, through Messrs. J. P. Morgan & Co., of the business and the sixty-five vessels of the English Leyland line. In some ways, this striking operation caps the climax of the financial exploits of the United States, particularly in its invasion of a field hardly yet touched in the recent expansion of our investments. What importance the foreign financial world attaches to this operation may be judged from this comment of a responsible London newspaper, cabled the day after the announcement:

"America has superseded our agriculture, beaten our coal output, left us far behind in the production of iron and steel, and has passed us at last in the total volume of exports. She has only commenced her final onslaught on our carrying trade, and with these be ginnings we may wonder, if such things are done in the green tree, what will be done in the dry."

We cite this rather noteworthy criticism, not be cause we share in the belief that destruction of British commerce by American capital is impending, but because it aptly sums up the series of epoch-making events in our recent industrial progress. This forward movement has almost imperceptibly, in the last year or two, passed into a new stage, differing in many respects from that whose climax was reached in 1899. Up to the middle of that year it was plain enough how the upward impulse had been occasioned. In 1897 the foreign grain crops failed at an hour when America's wheat farms yielded the largest harvest in their history. In 1899 the world's industrial demand for iron and steel suddenly ran to a volume which European foundries were wholly unable to supply, and recourse had to be made, even by Europe's own markets, to the ready supplies of American makers. In 1900 a shortage of foreign cotton crops occurred in the face of a very active manufacturing demand, and the product of our Southern plantations was sent abroad, not only in a volume never but once exceeded but at a price which, by the Government's returns, vielded \$82,000,000 more than the most profitable previous year on record.

Three such achievements were of themselves enough to set the ball of prosperity rolling with prodigious speed. It was, however, plain to all trained observers that the end of these special causes could not be far away. They were in a sense pure accidents of fortune, of which in each case American industry had profited. They left still unsettled the problem what was to be the result when competitive foreign production of agricultural staples rose to its former maximum, or foreign consumption was abruptly checked. What had happened under such circumstances in former years was plain enough. Production continued on its extended scale long after the exceptional demand had disappeared; import of foreign merchandise in enormous quantities turned the scales of foreign exchange, and eventually the double phenomenon was presented of contracting markets and outflow of capital, with the resultant reaction throughout the domain of industry.

If previous episodes of the past had been taken as an absolute guide, something like this was to have been expected even before, for the causes set at work purely by accidents of nature had largely ceased to operate. But precedent was not followed. So far as regarded foreign trade, our imports did not increase as they used to do after a trade revival; instead, they decreased; our exports decreased only slightly or not at all, and as a result the excess of American outward trade grew even larger. In every month but one since the middle of last year the Bureau of Statistics has reported an excess of exports larger than that of the year before.

Contraction of internal trade and of railway earnings is often looked for at such times. But trade throughout the recent "boom" was conducted on conservative lines. Commodity prices, notably in the iron trade, were reduced at once when the slackening of demand was visible, producers seeking to

master the situation through increased economy of production rather than through a desperate effort to hold the market forcibly at a higher level. As a result, exchange of merchandise between producer and consumer continued active; the railways were still crowded with business; labor was abundantly employed, and accumulation of capital went on. We have mentioned only a few of the perfectly wellknown incidents of the last year or two; but they go far towards explaining the remarkable situation which has followed.

At the opening of the present season the usual uncertainty as to the crops arose as a possible disturbing element. As the present era of American prosperity began with a series of fortunate harvests, so it was possible that its progress would be interrupted by an unfavorable season. This happened in the harvest failure of 1881, and it has happened at other times. No such disaster has occurred; largely, it is true, because of the generally favoring weather conditions, but partly also as the world is now beginning to comprehend, because the area under grain cultivation in the United States is at present so enormous, that a harvest is seldom subject now to a general and devastating blight. The spring-wheat shortage of last year was serious enough to have checked our financial progress abruptly two or three generations ago; it is now remembered only as a passing incident of the year. A glance at the map, comparing the American area under wheat, stretching nearly from the thirtieth to the fiftieth parallel of latitude, and across the whole huge expanse of the Continent, shows what the present position of our agricultural industry is, compared with that of Europe, confined within barely half the area north and south—a narrow strip subject to the sudden vicissitudes of weather as an American harvest in these days can hardly be.

Along with this broadening of our agricultural resources has come an increase of population and a diversification of industry which is transforming the interior and incidentally reducing the question of harvest accidents to a very different position from what it used to occupy. The Census returns of 1900 only partially tell this story; for the movement of immigration since that time and of emigration from the East to the West has been on a scale unparalleled in recent years. During the eight months ending with February, 28,758 more immigrants arrived in this country than in the same months a year ago, and nearly 15 per cent of the total arrivals were the thrifty Fins, who pass directly into the agricultural lands of the Northwest. This gain, moreover, follows an increase of 136,000 in the fiscal year 1900, and of 82,000 in the preceding fiscal year. Industrial communities have grown up throughout sections of the country where nothing but farm lands existed two years ago. The bearing of this change on the railway problem may be judged by the fact that the Northern Pacific, traversing a district where last year's wheat crop turned out 73,000,000 bushels short of 1899, nevertheless has reported gross earnings for the ten months during which that crop should have come to market larger by \$1,600,000 than in the same months a year ago.

It would of course be both rash and unreasonable to assume that this immense expansion will go on for ever at its present rate. It must, in the vicissitudes of nature and politics, suffer at some time in the future abrupt and severe reactions. Nevertheless the few facts which we have briefly grouped together are of themselves enough to show that the widespread optimism of the American public has had the best of foundations in real conditions.

RUSSIA AS AN INDUSTRIAL FACTOR.* ST. PETERSBURG, Russia, April 14, 1901.

With special reference to my recent article, "Russia as a Financial Power in the Far East," I will now endeavor to show that Russian influence in the Far East will not by any means be as harmful for the trade connections of other nations as generally has been feared by the English and even the American press.

The similarity between the two nations—American and Russian—referred to in my previous article, is again apparent in another direction. What America has done in the Philippine Islands and Cuba, not for her benefit alone, but for that of the other nations as well, Russia is undoubtedly able to do in parts of China which are in direct intercourse with her Asiatic possessions. Any new regime will be better than a continuation of the old one, be its name Spain or China.

During the writer's stay in the U. S., at the time of the seizure of Port Arthur through the Russians, the more inflammable part of your press was quite wrought up over the prospect that the then "open door" might be closed to American goods. The reproaches made then were quite out of place, as Russia—the high tariff power par excellence—had adopted a free trade policy for her possessions on the Pacific Coast. This was quite ignored by the sensa tional papers, although the writer must admit that he did not know it himself at the time.

This freedom from customs duties was only done away with on Jan. 1 1901, a tariff law having now been substituted, but during all the time of the "free trade" period the export trade of your Pacific States must have been greatly benefited; especially the export of American flour to Siberia must have been quite heavy. The new duties are felt as a great hard ship by the rich and poor alike in the Maritime Provinces, by the natives as well as the Russians employed in the army and civil government, especially now that Vladivostok, which enjoyed the privilege of being a free port, has been placed on the same footing as the other ports. The adjoining country, as far as the Baikal Lake was barely self-sustaining up to the time of the China expedition, and was really in need of free imports of flour from America and tea and silk from China. When, however, large masses of soldiers were thrown into these cities, the prices of food-stuffs rose to disagreeably high figures. Although the soldiers have been withdrawn now, officers of the military and civil government have remained, and have to pay rather high prices for house rent, and the cost of living is now about 50 per cent higher than it was before the new duties were enforced.

Those districts which were and are still dependent upon connection by river will miss the American flour very much, especially as the Great Siberian Railway is so far only operating to the Baikal Lake; the ice breakers not being effective enough to keep traffic open through the winter season and the branch railway around the southern end of the lake not being finished yet.

The first of March has passed by without bringing us the withdrawal of the additional tax on Russian

* Communicated by our Special Correspondent at St. Petersburg.

sugar which the Washington authorities began to levy about two months ago. Therefore the Russian Government has seen fit to retaliate by the measures announced some time ago, imposing supplementary duties at all Russian and Siberian custom-houses on certain specified articles of American origin—especially hardware and machinery.

This sort of protection, however, is not of the kind which fosters the infant industries so that they can hold the home market and at the same time make great strides in all the branches of export trade, as has been the case during the last few years with the United States. On the contrary more enlightened people begin to think that the "high-protection" system has been anything else but a blessing in disguise to our young industries. The "paternalism" which was so dear to the Populists of the West and the Silverites of the South has had some evil effects here from which some useful lessons might be drawn by the gentlemen from Kansas and those who think like them.

The first disagreeable sign has been an overproduction, especially in our iron industry, which looks to the Department of Finance to be brought on its feet again by means of substantial contracts for the railways owned by the State. Involuntarily such efforts lead to measures which, by way of comparison, must appear as an injustice to the taxpayer.

At the time that Czar Alexander III. began to favor the extension of the Russian railway system and desired to crown his work with the mapping out of the Great Siberian Route, Government circles decided upon the patriotic step that this railway should be Russian only, from the rails to the locomotives and the rolling stock. The few large establishments of the iron and steel industries then existing reaped great benefit from this patriotic decision and their shareholders were "in clover" for years to come, as the managers of these works were able to dictate to the railway department whatever prices they liked. The Government of course was most anxious to create competition within its border-lines and do away with such an unhealthy state of affairs as indicated above, but such costly works cannot spring up over night, even if the Government assures beforehand to them large contracts, as it has repeatedly done.

In spite of this artificially created competition, the Government has had to pay not less than R2 a pud (about \cdot 40 lbs. English) for steel rails for delivery to the Great Siberian Railway, when English works had put in a bid to deliver at 75 kopeks a pud or roughly speaking at $\frac{1}{3}$ of the above price.

It is natural enough to assist a child whenever it shows the desire to walk, but when this child becomes of age and then has not learned to walk alone, it is best that it should be left to look out for itself, else it becomes a burden on the father's arm. Since then, however, things have changed somewhat for the better, especially with our present Minister of Railways, who has gone through a practical experience in the railway service of the United States.

But in the meantime the shareholders have seen their income reduced by the disappearing dividends. The shrinkage in values of shares held by the well-todo class is simply appalling—a shrinkage of about 50 per cent and more during the past three years can be put down as a rather conservative estimate. Fortunately, so far it has only been a rich man's crisis. I say fortunately, as the small man is the great consumer of the home-made products and he plays a far more important part here than in any other country. When in England one speaks of the upper 10,000 and the 1,000,000—here in Russia one would be quite justified in taking off a 0 from the former 'figure and adding it to the latter one.

A rather favorable sign for the good sense of these teeming millions is shown in the report of the Governmental savings banks. The latter at the end of last year (Russian style) numbered 5,406 savings banks with:

3,541,000 saving books, upon which

R. 752,300,000 had been paid in, whereof

R. 662,500,000 were in cash, while the balance of

R. \$9,500,000 had been invested in bonds for account of the depositors.

This picture is quite in keeping, so to speak, with the character of the frugal and conservative class of the people.

The industrial crisis has, however, made some inroads on the pockets of the laboring man, although this is felt only now, when we have turned the sharpest edge and are getting into smoother water again.

The excess of the deposits over the withdrawals amounted during the year:

1898 to R. 82,000,000. 1899 to R. 86,000,000. 1900 to R. 72,000,000.

Although these statistics are far behind the corresponding figures of the Western European countries and those of the United States, it is a very good record for the Russian that with the great proportion of analphabets and the large agricultural population in districts without railway communication, the returns are still so favorable as shown above.

Compared with the total population we find on the average one holder of a saving-book to 42 inhabitants with:

33 per cent of the holders owning about R. 6'80

22 per cent of the holders owning about R. 54.60

32 per cent of the holders owning about R. 222.75 13 per cent of the holders owning about R. 762.50

who receive a return of about 3.40 per cent per annum on the capital deposited.

The Russian's somewhat distrustful nature prevents him from embarking in enterprises where his money might not be quite sure; he prefers surety to large profits. And this lack of enterprise will prevent the Moscovite for a good while to come from direct competition with other nations in the open markets of the world.

Russia is principally an agricultural State and not an industrial State, as her industries are not yet able to fill all her own wants. It is therefore evident that it would be quite useless to let slip the well-protected home market and compete in much contested quarters for the export trade with other nations, who in the first place can produce cheaper and in the second place have had the experience.

As regards Russian labor, this is another very important element which is rather an impediment to a lively export trade; nowhere else has the fallacy of the theory, that "low-priced 'labor is "cheap" labor been proven more effectively than in Russia.

But this refers to industrial pursuits only. As far as agriculture is concerned, the story is different. In this respect it is quite possible that the Russian born and bred peasants will prove good colonizers in the districts along the Great Siberian Route and in the

Amoor provinces, to which a good deal of emigration is taking place, thanks to the facilities the Russian Government is offering to persons willing to emigrate either by railway or by steamer from Odessa to Vladivostok.

A great deal of the scarcity of good labor-not to speak jof skilled labor at all--is due to the present system of education, an evil which cannot be remedied in a short while. It is not exaggerating to say that three men are needed here where one man in America, England and Germany would be able to perform the same task in the same amount of time. During the last few years more attention has been paid to the education of good technical men-one might almost say that too much money is diverted to the higher courses. These young men, after having received their degree at any of the Russian technological institutes, go abroad to perfect their studies and would thus be well equipped to face the task before them.

But the best of talent cannot do anything without an intelligent stock of workingmen, which is ready at hand in the American, English and German industrial centres. Or at least there it could be educated for the wants of the manufacturers, but here such a process of evolution seems hardly possible. There are no proper foremen, overseers, second hands, to be picked out from the Russian laborers, as no such preparatory schools exist for technical young men, who received their primary education at the public school; there is nothing here to correspond with the Stevens School at Hoboken, N. J., and the corresponding institution at Troy, N. Y.

It is therefore evident that the export business cannot be considered as a substantial attraction for the Russian industries. They must do their utmost to gain and hold their supremacy in the home market, and one might almost say, under the peculiar circumstances ruling in the country, in a certain way the State has a moral obligation to sustain the industries it has, so to speak, called into existence.

Such has been the case quite recently, when the railway department gave out a large order for about 200,000 tons of steel rails and the corresponding quantity of rolling stock. This measure will come as a blessing in disguise, not only to our industries, but to the agricultural community as well, in view of the fact that there have been bitter complaints about the lack of freight cars—especially in the Eastern provinces—which has greatly hampered our grain exporters, who entirely depend upon railway transportation during the winter time.

THE MEXICAN CENTRAL REPORT.

The annual report of the Mexican Central Railway Co. comes at a time when there is an active speculation at rising prices in the securities of the company and when simultaneously a change has occurred in the control of the property. The Mexican Central is in many respects a very desirable system. In the first place it holds an eligible location, extending all the way through Mexico from El Paso on the United States frontier to the City of Mexico, with lines in one direction to Tampico (where there is a fine harbor constructed by the company as agent for the Mexican Government), and in the other direction to the Pacific Coast. In the second place the system, both in point of earnings and mileage, is the largest in Mexico, comprising 2,124 miles of road, with some more mileage under construction.

There are some interesting statistics in the report bearing upon the value and importance of the system. Thus, according to the enumeration made in 1900 the population of the entire Republic of Mexico was in that year 13,570,545, of which no less than 8,768,426 con. sisted of the population of the 15 States served by the lines of the Mexican Central. Moreover, the report tells us that outside of the City of Mexico 48 manufacturing enterprises were established during 1900 alone along the lines of the road, not counting mining industries. Again, note that the value of the exports through all the ports and gateways of the Republic of Mexico during the fiscal year ending June 30 1900 amounted to \$150,056,360 in silver, and that of this \$57,224,503, or 38.14 per cent, was through Tampico and El Paso, the two entrepots on the Mexican Central. The value of the imports through all the ports during the same year was \$61,318,175 gold, of which \$15,917,813, or 25.96 per cent, came through Tampico and El Paso. In addition a considerable amount of both exports and imports passing via Eagle Pass was delivered to and received from the Mexican International RR. at Torreon. President Robinson's remarks on these figures-that they show the importance of the Mexican Central [to the indus. trial interests of Mexico and the development it is instrumental in accomplishing-put the case modestly and moderately.

There is one drawback in the way of the prosperity of the company-the same that exists in the case of all the Mexican roads-namely, that the revenues are in silver, and that a great portion of the income is therefore lost through the process of conversion into gold. Measured in silver there is absolutely no reason to complain of the receipts-the record is one of large and uninterrupted growth, year in and year out, in good and bad seasons alike. We presented a table to show this growth when reviewing the figures for 1899. With another year added the record becomes still more striking, and we accordingly bring this table forward again as follows. It will be noted that the earnings per mile are given as well as the aggregate total of earnings. This is to avoid the conclusion that might otherwise be drawn, that possibly the larger total of earnings has followed from the larger total of mileage operated.

| Ave | rage | Gross | Less const'n | Gross . | Earnings |
|-----------|-----------------|---------|--------------|-------------|----------|
| mile | eage. ea | rnings. | malerial. | commercial. | permile. |
| Year. Mil | les. | \$ | \$ | \$ | \$ |
| 1885123 | 5.90 3, | 559,560 | 26,741 | 3,532,819 | 2,858 |
| 1886123 | 5•90 3, | 857,705 | none | 3,857,705 | 3,121 |
| 1887123 | 5.80 4, | 886,578 | 301,317 | 4,585,261 | 3,710 |
| 1888131 | 6· 40 5, | 774,331 | 471,831 | 5,302,500 | 4,028 |
| 1889146 | 1.85 6, | 337,225 | 475,451 | 5,861,774 | 4,009 |
| 1890152 | 7.20 6, | 425,694 | 303,020 | 6,122,674 | 4,009 |
| 1891166 | 5.11 7, | 374,538 | 431,798 | 6,942,740 | 4.169 |
| 1892182 | 4.83 7, | 963,253 | 397,376 | 7,565,877 | 4,146 |
| 1893184 | 6.64 7, | 981,768 | none | 7,981,768 | 4,322 |
| 1894185 | 9.83 8, | 426,025 | none | 8,426,025 | 4,530 |
| 1895185 | 9.83 9, | 495,865 | 68,256 | 9,427,009 | 5,069 |
| 1896186 | 9.60 10, | 208,020 | 200,442 | 10,007,578 | 5,352 |
| 1897195 | 5.66 12, | 845,819 | 31,198 | 12,814,621 | 6,552 |
| 1898195 | 5.66 13, | 588,966 | 83,543 | 13,505,423 | 6,906 |
| 1899201 | 6.21 15, | 602,065 | 99,520 | 15,502,545 | 7,689 |
| 1900205 | 4.35 17, | 223,878 | 270,746 | 16,953,132 | 8,252 |
| | | | | | |

The foregoing must be considered a very gratifying record of expansion. It will be observed that since the main line was opened its entire length, in 1884, there has not been a year when aggregate gross earnings have not materially exceeded those of the year preceding. Moreover there have been only two or three years in the whole period when the gross earn-

enlarged. Taking the whole fifteen years, from 1885 to 1900, the increase in operated mileage has been 66.22 per cent, whereas the increase in the total of the gross commercial earnings has been 379.88 per cent, or over five times as much. As a consequence the gross commercial earnings per mile have risen from \$2,858 per mile in 1885 to \$8,252 in 1900.

If these were the revenues in gold, the property would be in a state of wonderful prosperity. As it is, they are, as has already been stated, in silver, and there is where the trouble comes in. During the last two years the further downward course of the Mexican dollar, as measured in gold, has been arrested, but nevertheless the loss from the depreciation of silver amounts each year to an enormous aggregate. The reader should be reminded that the shrinkage in the gold value of the Mexican dollar operates in a double way to diminish net income. In the first place it adds greatly to the expenses. This follows from the fact that certain of the materials and supplies needed in the operation of the road cannot be obtained in Mexico, but have to be bought in foreign countries and paid for in gold. Obviously as the gold value of silver declines, it takes more Mexican silver dollars to pay a given sum in gold. In other words, operating expenses are enlarged by the amount of the difference, representing what is termed the cost of exchange. From figures given in the report we have compiled the following table to indicate how enormously this item has grown since 1891. The table gives first the cost in United States money of purchases made in the United States, then the premium in silver which had to be paid on these purchases, with the average price of gold, and a final column to indicate the total cost in Mexican silver.

| | Cost in | Pre | emium | Cost in |

| 1899 | .2,157,927 47 | 206.57 | 2,299,644 05 | 4,457,571 52 |
| 1900 | .2,784,958 81 | 204.18 | 2,901,371 77 | 5.686,330 58 |

Thus while the premium on gold by reason of the depreciation of silver was less in 1900 than in either of the three years preceding, it yet added no less than \$2,901,371 to the cost of supplies in that year. This, however, relates simply to the expenses. In addition there was the further loss arising from the conversion of the net earnings (remaining after deducting the expenses) from Mexican money into gold. For 1900 these net earnings were \$5,373,684, and they yielded in gold only \$2,628,577, thus showing a shrinkage in that way of \$2,745,107. Adding this sum to the \$2,-901,371 addition to expenses arising from the same cause, we have a total loss for 1900 by reason of the depreciation of silver of \$5,646,478.

Notwithstanding the heavy loss in this way, the net income in gold for 1900 was \$2,628,576, as against obligatory fixed charges of \$2,622,483, thus leaving a small surplus above such charges. Of course this allows nothing for the 17 millions of first consolidated incomes or the 11 millions of second consolidated incomes, both of which come ahead of the stock. Nor are Mexican roads able to include in expenses some items which on many of the roads in the United States are regularly charged to the operating accounts. For ings per mile have not likewise been very decidedly instance, the report, in speaking of the charges respectively to capital account and to expenses, says that when old rail, weighing, say 56 pounds per yard, is replaced by new rail weighing 75 pounds per yard, the amount represented by the increased weight of rail is charged to capital account and the balance to operating expenses, together with cost of rail fastenings and labor. This is perfectly legitimate, but we may be sure that if there were a surplus of earnings sufficiently large, the whole cost would be charged to expenses. However, under the circumstances above detailed with reference to the loss from the depreciation in silver, it must be considered exceedingly gratifying that the company should be able even to meet its fixed interest requirements, and the management are to be congratulated on the fact, for if the property were not ably and skilfully administered such a result would be out of the question. Prior to 1899 deficits of varying amounts were reported each year, which had to be met by recourse to the Subsidy Trust Fund. This last situation appears now to be a thing of the past, and thus, despite the drawback of silver revenues, great progress has been made in improving the rela tion between charges and income.

THE MEXICAN INTERNATIONAL.

The Mexican International Railroad Company has also issued its annual report for the calendar year 1900 the present week. This is the enterprise planned and carried out by the late C. P. Huntington. It enjoys the distinction, to which we have many times referred, of having been built without aid or subvention of any kind. The enterprise has proved a success, too, on that basis. Nor has any attempt been made to give speculative prominence to the securities. The 1st consols are listed on the New York Stock Exchange, while the prior lien bonds are dealt in in the London market, but transactions can hardly be called large, though here in New York there has been a little increase in activity lately in sympathy with the animation of the general market. Those who have any of the bonds are evidently content to hold them as investments. The stock has never made its appearance in any of the markets.

Mr. Huntington was a far-sighted man and his faith in the future of Mexico has been amply justified. A feature in the building of the Mexican International was the close relations existing between Gen. Diaz, the President of the Mexican Republic, and Mr. Huntington, which friendliness was maintained up to the time of Mr. Huntington's death. The railroad magnate was a great admirer of the Mexican executive, and it was this more than anything else that led him to invest his money and build the road. In the tribute to Mr. Huntington's memory adopted last September by the board of directors of the Mexican International, it is stated that he believed Gen. Diaz to be "one of the greatest guides to the destinies of men in the world to-day." It is also stated that he required each year a statement of those employed on all his Mexican properties, from highest to lowestofficials, clerks, artisans and laborers, and showing whether native or foreign. These reports he would carefully scan, commending every increase of Mexican employes in any class, dissenting from any decrease, and urging the employment of Mexicans in preference to foreigners. He also insisted upon an apprentice system for the training of young Mexicans.

The business of the road has been steadily growing, but during the last two years particularly there has been a marked increase in the revenues. From \$3,-497,073 in 1898 gross earnings in Mexican silver have risen to \$5,378,977 in 1900, while during the same two years the net revenue in Mexican currency has advanced from \$1,430,564 to \$2,131,237. This expan. sion in business has placed the property in a prosperous state. Like the other Mexican roads, over one-half the company's net revenue is lost through the process of conversion from silver into gold. But even on a gold basis the net results during the last two years have been greatly in excess of the requirements for interest and other fixed charges. Thus for 1900 the net revenue in gold was \$1,002,534, whereas the obligatory charges were only \$560,004, leaving a surplus balance of \$442,530. In 1899 the net gold revenue was \$907,500, and the obligatory charges \$498,486, leaving a balance of \$409,014. The sum of \$182,135 was charged off in 1900 for discount on bonds sold and \$10,602 for depreciation in sleeping cars, after which there still remained a favorable balance of \$249,793.

The company had 848 miles of road completed at the end of 1900 and operated an average of 801 miles for the twelve months. President Thomas H. Hubbard states that it is the company's policy to maintain its properties at a high standard and to improve and extend as rapidly as its finances and business conditions may admit and as adequate service for the regions depending on its roads may require. He expresses the hope that the speculative fever for building useless roads and for destructive competitive construction, which prevailed so long and with such disastrous results in the United States, will not extend in the Republic of Mexico; and further, that the Federal Government will find a way to prevent the construction, under authority of the separate States, of new roads parallel to the old-established lines and within the distance defined in the Federal concessions as protected against parallel construction.

THE NEW CONNECTICUT SAVINGS BANK INVESTMENT LAW.

The new law concerning the investments of Connecticut savings banks, to which we made reference in our issue of April 20, has now passed both houses of the Connecticut Legislature, and was on April 30 signed by the Governor, thus becoming a law. We give below the full text of the new statute, which is known as Chapter 48, Laws of 1901.

The only important particular in which the new Act differs from the old is in the addition of certain bonds of the Central Railroad of New Jersey, the Burlington Cedar Rapids & Northern, the St. Paul Minneapolis & Manitoba, the Illinois Central, the Chicago St. Paul Minneapolis & Omaha, the Chicago & Eastern Illinois, the Minneapolis & St. Louis and the Milwaukee & Northern to the list of railroad bonds specifically named as legal investments for savings institutions. We have indicated by means of a blackfaced bracket [] the parts of the law which are new.

SECTION 1.—Section 1800 of the General Statutes, as amended by chapter CCXXIX of the Public Acts of 1893, chapter CCXVII of the Public Acts of 1897, and by section one of chapter 146 of the Public Acts of 1899 is hereby amended to read as follows: Savings barks may invect

Public Acts of 1899 is hereby amended to read as follows: Savings banks may invest—

Not exceeding twenty per centum of their deposits and surplus in notes secured by the pledge of stocks or bonds as collateral security; provided, said stocks or bonds shall have paid dividends or interest of not less than three per centum per annum during the two years next preceding that in which the respective loan is made; or by the pledge of any stocks, bonds, or other obligations which, under the provisions of this Act, can be purchased by savings banks; and may invest not exceeding twenty per centum of their deposits and surplus in notes, each of which shall be the joint and several obligation of two or more parties, all residents of this State.
And may invest in the bonds of the United States, the District of Columbia, any of the New England States, or any of the States of New York, New Jersey, Pennsylvania, Delaware, Maryland, Ohio, Ken-

tucky, Michigan, Indiana, Illinois, Iowa, Wisconsin, Minnesota, Missouri, Nebraska, Kansas, California, Colorado, and Oregon;
(3) In the bonds of any city in the Now England States, or in the State of New York; of Newark, Paterson and Trenton in the State of New York; of Philadelphia in the State of Pennsylvania; of Cincinnati, Cleveland, Columbus, Dayton, and Toledo in the State of Michigan; of Chicago in the State of Kentucky; of Detroit in the State of Michigan; of Chicago in the State of Illinois; of Milwaukee in the State of Missonsin: of St. Louis in the State of Missouri; of Onaha in the State of New York in the State of Missouri; of Onaha in the State of Nebraska:
(4) Or in the obligations of any of the counties, towns, citles, boroughs, and school districts in this State;
(5) Or in the capital stock of any bank or trust company located in this State, or in the city of New York in the State of New York, or in Boston in the State of Massachusetts;
(6) Or in the bonds of any other incorporated city located in any of the States mentioned in this Act, having not less than twenty thousand inhabitants, as ascertained by the United States or State Census, or any municipal census taken by authority of the State, next preceding such investment; provided, the amount of the bonds of staid city, including the issue in which such investment is made and its proportion, based on the valuations contained in the assessment for taxation next preceding such investment, of the county and town debt, after deducting the amount of its water debt and the negotiable securities in the sinking funds which are available for payment of its bonds, does not exceed seven per centum of the valuation of property in said city as

on the valuations contained in the assessment for trather hext pre-ceding such investment, of the county and town debt, after deducting the amount of its water debt and the negotiable securities in the sink-ing funds which are available for payment of its bonds, does not ex-ceed seven per centum of the valuation of property in said eity as assessed for taxation next preceding such investment; provided, at-ways, that the State or city issuing said bonds has not defaulted pay-ment of any of its funded indebtedness or interest thereon within fifteen years next preceding the purchase of such bonds by the savings bank; but this Act shall not be held to authorize the investment of any funds in any "special assessment bonds" or "improvement bonds," so called, which are not direct and primary obligations of the city is-suing the same; (7) Or in the bonds of any railroad company organized under the laws of any of the States mentioned in this Act, and which bonds are secured by a first mortgage (as the only mortgage security) given by said railroad company upon some portion of the railroad owned by it, or given by a railroad company (a majority of the capital stock in which is owned by the railroad company issuing said bonds) upon some portion of the railroad owned by it but leased or operated by the railroad company issuing sail bonds, and which portion of said railroad in either case shall be located wholly or in part in one or more of the States mentioned in this Act, provided the entire railroad of said company is located wholly within the United States; or in the consolidated bonds of any railroad company incorporated by this State and authorized to issue such bonds to retire the entire funded debt of said company; provided, that in every case the railroad com-pany in the bonds of not less than five years next previous to such investment, in addition to the interest on its funded indebted-mess, dividends of not less than four per centum per annum upon its entire capital stock at the tine of such investment e tions, viz :

ions, viz: Boston & Albany Railroad Company, Boston & Lowell Railroad Company, Boston & Maine Railroad Company, Concord & Montreal Railroad Company, Fitchburg Railroad Company, Harlem River & Port Chester Railroad Company, Maine Central Railroad Company, New England Railroad Company, New York & New England Kailroad Company, New York New Haven & Hartford Railroad Company, Old Colony Railroad Company:

and in any general or consolidated mortgage bonds issued by any of the following-named railroad corporations to retire all of the out-standing prior mortgage bonds secured upon the property covered by said general or consolidated mortgage: aid general or consolidated mortgage: -Chicago & North Western Railway Company, Chicago Burlington & Quincy Railroad Company, Chicago Milwaukee & St. Paul Railway Company, Ohicago Rock Island & Pacific Railway Company, Chicago & Alton Railroad Company, Chicago & Alton Railroad Company, Cieveland & Pittsburg Railroad Company, Lake Shore & Michigan Southern Railroad Company, Michigan Central Railroad Company, Morris & Essex Railroad Company, New York Central & Hudson River Railroad Company, Pennsylvania Railroad Company, St. Paul Minneapolis & Manitoba Railway Company. Eastern Railway Company of Minnesota, Northern Division, d in the mortgage bonds litherto issued which the said conso

and in the mortgage bonds hitherto issued which the said consolidated and in the mortgage bonds hitherto issued which the said consolidated or general mortgage bonds are to retire at maturity; provided, that at no time within five years next preceding the date of such investment [in said general or consolidated mortgage bonds issued by any of said railroad corporations last named] shall such railroad corporation have failed regularly and punctualiy to pay the principal at maturity, or as extended, and interest of all its mortgage indebtedness, and, in addition thereto, regularly and punctually to have paid dividends upon all its outstanding capital stock during the preceding five years; further, that at the date of every such dividend the outstanding capital stock of such railroad corporation shall have been equal to at least one-third of the total mortgage indebtedness of such railroad corporation, including all bonds issued or to be issued under any mortgage securing any bonds in which such investment shall be made, [but no bond of any railroad corporation named in this Act shall be a mortgage securing any bonds in which such investment shall be made, [but no bond of any railroad corporation named in this Act shall be a legal investment for a savings bank when said corporation or the system of which it is a part shall fail to pay dividends on all of its capital stock, and] this Act shall not be held to authorize any invest-ment in the bonds of any corporation operating its railroad ex-clusively by any means other than steam as a motive power, or in the house on any etermined company. the bonds of any street railroad company.

(8) All other investments shall consist of deposits in incorporated banks or trust companies located in this State, or in the States of New York, Massachusetts, or Rhode Island,
(9) Or of ioans secured by mortgage on unincumbered real estate situated in this State, worth double the amount of the loan secured thereon, provided, that any savings bank in the towns of Putnam, Brooklyn and Killingly may loan on land located in the County of Providence in the State of Rhode Island; any savings bank in the town of Ridgetield may loan on land located in the County of Westchester in the State of New York; any savings bank in the town of Enfected or in the State of New York; any savings bank in the County of Westchester in the State of New York; any savings bank in the County of the County of Stafford may loan on land located in the County of Hampden in the State of Massachusetts; and any savings bank in the town of Stafford may loan on land located in the County of Washington in the State of Rhode Island.
SEC. 2-This Act shall take effect upon its passage.

THE NEW BANK TAX LAW OF NEW YORK STATE,

The bill approved last week by Governor Odell makes material changes in the law taxing bank shares. We give the new Act in full below. The important feature of the Act is that the shares are to be taxed one per cent upon their value as determined by the bank's capital, surplus and undivided profits; that the owners are not to be allowed any deduction because of any personal indebtedness; that the new tax is to be "in lieu of all other taxes whatscever for State county, or local purposes upon the said shares," and that "the mortgages, judgments and other choses in action and personal property held or owned by banks and banking associations, the value of which enters into the value of said shares of stock, shall also be exempt from all other State, county or local taxation."

AN ACT.

TO AMEND THE TAX LAW RELATING TO THE TAXATION OF THE STOCK-HOLDERS OF BANKS AND BANKING ASSOCIATIONS.

The People of the State of New York, represented in Senate and Assembly, do enact as follows: SECTION 1. Section twenty-three of article two of the Tax Law is hereby amended to read as follows:

bereformed to read as follows: SEC. 23. The chief fiscal officer of every bank or banking association organ-ized under the authority of this State, or of the United States, shall, on or before the first day of July, in each year, furnish the assessors of the tax dis-trictin which its principal office is located a statement under oalh of the con-dition of such bank or banking association on the first day of June next pre-ceding, stating the amount of its authorized capital stock, the number of shares and the par value of the shares thereof, the amount of stock paid in, the amount of its surplus and of its undivided profits, if any, a complete list of the unmes and residences of its stockholders and the number of shares held by each. In case of neglect or refusal on the part of any bank or banking asso-ciation to report as herein prescribed, or to make other or further reports as may be required, such bank or banking association shall forfeit the sum of one hundred dollars for each failure, and the additional sum of ten dollars for each day such failure continues, and an action therefor shall be prosecuted by the concurty treasurer of the county in which such bank or banking association so neglecting or returning to report is located, and in the City of New York by the receiver of taxes thereof. There sh l, in addition to such report, be kept in the office or every such bank or banking association a full and correct list of the names and residences of all stockholders therein, and of the number of shares held by each, and such lists shall be subject to the inspection of the assessors at all times. The hist of stockholders furnished by such bank or banking association shall be deemed to contain the names of the owners of such shares as are set opposite them respectively, for the purpose of assess-ment and taration.

SEC. 2. Section twenty-four of article two of the tax law is hereby amended to read as follows:

Between the states of the provided the neglectively, for the purpose of assessed to a state state.
So the state of the state of the state of the state of the state and the nere provided to read as follows:
So the state of the state of the state of the state of the states, the states of the st

which said shares of stock shall be taxable, the tax rate of each of said tax dis-tricts for said year, the proportion of the tax imposed by this Act to which each of said tax districts is entitled, under the provisions hereof, and com-manding bin to collect the same, and to pay to the proper officer meach of such districts the proportion of such tax to which it is entitled under the provisions of this Act. The said county treasurer shall have the same powers to enforce the collection and payment of said tax as are possessed to said county treasurer shall be entitled to a commission of one per centum for collecting and paying out said moneys, which commission shall be hesting their warrants to the collectors of taxes, the bo rds of supervisors shall omit therefrom assessments of and taxes upon the shares of stock of banks and banking associations. All assessment of the shares of stock of banks and banking associations. All assessment of the shares of stock of banks and banking associations made on or aft r January first, interteen lun deed and one, and prior to the passage of this Act, shall be null and void, and revealed, that in the cits of New York the statement of bank assessment and for this hard to respective banks and banking associations shall be made by the baard of tax commissions so fit is Act. Provided, that in the cits of New York the statement of bank assessment and for they and prior to the passage of this Act shall be null and void, and the treas thall be paid by the respective banks and banking associations located in said city, on or before the tifteenth day of December in each year, and by them for they it mailed to the respective banks and banking associations located in shall be collected by the respective banks and banking associations located in the treasury of said city to the credit of the general fund thereof. This Act is not to be construed as an exemption of the real estate of banks or banking associations from taxation. associations from taxation.

SEC. 3. Section fifty-six of article three of the tax law is hereby amended to read as follows:

amended to read as follows:
SEC. 56. On or before December fiftsenth in each year the board of supervisors shall annex to the tax roll a warrant udder the seal of the county, signed by the chairman and clerk of the board, commanding the collector of each tax district to whom the same is directed to collect from the several persons named in said roll the several sums mentioned in the last collamn thereof, opposite their respective names, except taxes upon the shares of stock of banks and banking associations, on or before the first day of the following February, and further commanding him to pay over on or before that date all moneys so collected appearing on said roll to the treasurer of the county, if he be a collector of a city or a divisi in thereof, or if he be a collector of a commissioners of highways of the town, such sum as shall have been raised for the support of highways and bridg s therein.
2. To the coverseers of the poor of the town, such sum as shall have been levied, to be expended by such overseers for the support of the poor therein.
3. To the supervisor of the town, all of the moneys levied therein, to defray any other town expenses or charges.
4. To the treasurer of the county, the residue of the money so to be collected.

4. To the treasurer of the county, the residue of the money so to be left lected. If the law shall direct the taxes levied for any local or special purpose in a city or town to be pald to any person or officer other than those named in this section, the warrant shall be varied so as to conform to such direction. The warrant shall authorize the collector to levy such taxes by distress and sale, in case of non payment. The corrected assessment roll, or a fair copy thereof. shall be delivered by the board of supervisors to the collector of the tax district on or before December fifteenth in each year.

§4. All acts and parts of acts inconsistent herewith are hereby repealed.

55. This act shall take effect immediately. Approved April 25, 1901.

ITEMS ABOUT BANKS, BANKERS AND TRUST CO'S

-The auction sales of bank stocks this week aggregate 728 shares. Transactions in trust company stocks reach a total of 400 shares, including 180 shares of Brooklyn companies. No sales of either class were made at the Stock Exchange. Fourth National Bank stock advanced from 260½ last week to 3221/2. National Broadway Bank stock records a gain of 104 points over the price paid at the last previous sale, in March. Morton Trust Company sold as high as 1325, comparing with 1163 last week.

In the "curb" market bank and trust company stocks continue to attract considerable attention. The largest dealings were in National Bank of Commerce, the prices ranging from 474 to 480, and National City Bank at 785 to 800. Trust Company of America advanced from 247 to 280, North American Trust Company from 283 to 325 and National Park Bank from 581 to 665.

-The report that the dates in September had been fixed for the annual convention of the American Bankers' Asso ciation at Milwaukee is incorrect. Though it is probable that the convention will assemble toward the end of the month, it will be necessary, before the date is fixed, to consult the convenience of the local committee at Milwankee and to ar. range other details. It may be stated that the membership of the association is now 5,050, a net increase since the annual convention of 550.

-Plans for the New York Chamber of Commerce building on Liberty Street provide for a structure of white Vermont | chapter has been organized at Albany.

marble with a white granite base. The building will be three stories high, with the offices of the Central Realty Bond & Trust Co. on the first floor and the Chamber of Commerce occupying the entire second floor; the hall of the chamber being ninety feet long, sixty feet wide and thirty feet high. The third floor will be devoted to the executive offices of the Chamber and the committee rooms.

-Senator Krum's bill imposing a tax of 1 per cent on the book value of bank stocks, which was signed by Governor Odell last week, makes important changes in the law regard. ing the taxation of bank shares. We give the text of the bill on a preceding page. The one per cent tax will be in lieu of all other taxes now paid except those assessed on real estate.

-The Court of Appeals of this State on Monday last affirmed the ruling of the Appellate Division of the Supreme Court, to which reference was made in this column on Jan. 12, declaring that a Stock Exchange "seat" is not taxable. The decision was in the suit of William Lemmon, a nonresident, against the New York City Tax Commissioners, and the question determined by the Court was whether the value of a seat in the New York Stock Exchange, owned by a nonresident member doing business in this State, is to be regarded as capital invested in business in this State, and as such taxable as personal property. The Court decides that the value of a seat is not capital invested in business in this State. The money paid by a broker for his membership or "seat," it declares, is for the mere facility to transact his particular business, and to surround it with such safeguards of rectitude and honorable dealing as tend to promote both rapidity and safety in his transactions.

-The Atlantic Trust Company takes possession this week of their offices on the ground floor of the Atlantic Building, southwestern corner of Wall and William streets, being practically the same location occupied by them before the erection of the new building.

-Concerning the reports in the daily papers of sales of Stock Exchange seats at \$70,000 and \$75,000, the officers of the Exchange make the statement that no seats have yet sold at those prices. The latest seat transferred was purchased by Frank E. Brumley on Thursday for \$69,000. This price, with the initiation fee of \$1,000 and other incidental expenses, will bring the cost to the buyer above \$70,000.

-Two mortgages, one of \$2,100,000 to the Bowery Savings Bank and one of \$1,100,000 to the Title Guarantee & Trust Co., were recorded on Tuesday by the New York Stock Ex. change Building Co. on the property on Broad Street where the new Stock Exchange building will be erected.

-Memberships on the New York Produce Exchange have been sold this week at \$1,000 each (but have since declined to \$400) against \$150 last week and \$40 quite recently. The advance is due to the demand arising out of the fact that members of the Stock Exchange desire the privileges of Produce Exchange membership, so that they can pass over the floor of that Exchange to the space set apart for the Stock Exchange at the south end of the building.

-At the organization in Chicago, Illinois, on April 13 of a chapter of the American Institute of Bank Clerks, Mr. William C. Cornwell (President of the City National Bank of Buffalo), President of the Institute, delivered an interesting address. He paid a deserved tribute to the faithfulness of bank clerks, pointing out that considering the vast interests entrusted to bankers and bank clerks, the proportion of defaults is gratifyingly small. He also showed the advantages that will accrue to bank clerks through the American Institute where its opportunities are availed of. It will be remembered that anthority to organize the American Institute of Bank Clerks was given at the last annual convention of the American Bankers' Association. Mr. Cornwall is the President: Mr. James G. Cannon, Vice-President of the Fourth National Bank of this city, Vice-President, and Mr. A. O. Kittredge is Secretary. In his remarks Mr. Cornwell noted that although the Institute is hardly a month old, three chapters have been formed in New York City, one in Baltimore, while the Bank Clerks' Economic Society in St. Louis has joined the Institute in a body, and in addition about twenty other cities are taking up the question of forming chapters. Since this meeting at Chicago a local

-The "Atlanta Constitution" in its issue of April 21 in commenting on the annual examinations at present being made by State Bank Examiner S. G. Turner, points out that there are now exactly forty more banks in Georgia than there were on September 5 last when Mr. Turner com pleted his examinations for the previous year. In other words, there are 177 banks against only 137. The Bank Examiner states that the organization of these new banks has no decreased the business of the older banks. He has thus far examined fifty of the older banks and finds that every one of them shows an increase in its busness over last year. State Treasurer R. E. Park has just sent out a circular to the banks in Georgia asking for a return of their condition at the close of business on April 15. This call is made under the Act of 1891 as amended by the Act of 1894 relating to State banks.

-The Quebec (Can.) Clearing House, to which we referred in this department on February 23, has completed its organ ization, and opened for business on May 1. Mr. W. H. Scott is the chief accountant.

-A movement is on foot among bankers in South Carolina looking towards the organization of a State banking asso ciation. To that end a call has been issued inviting the bankers in the State to send representatives to Columbia. S. C., on May 8, when a meeting will be held. Mr. William A. Law, President of the Central National Bank of Spar tanburg, S. C., is the prime mover in the proposed organ ization.

-For the purpose of reducing taxes [and saving expenses, two Wilmington, N. C., banks will shortly be consolidated. They are the Atlantic National Bank and the National Bank of Wilmington; the latter will be merged; in the former, the name Atlantic National being retained. The President of the old Atlantic National, J. W. Norwood, will continue a-President of the consolidated banks, and the former President of the Wilmington National, John S. Armstrong, will act as Vice-President.

-Our St. Louis correspondent informs us that the stock of the Third National Bank of St. Louis, Mo., is now quoted at 225 bid, and that the shares are held at 230. This is a very striking advance within a short period of time. At the beginning of April the price was 192 bid and 195 asked, and at the beginning of March 168 was bid and 170 asked. Thus in sixty days the shares have risen about 60 points. There were reports a short time ago that the stock of the bank, which is \$1,000,000, was to be increased. There has been no confirma tion of these reports, but the business of the institution has certainly been increasing in a very noteworthy way during the last two years. We have prepared the following table to show the extent of the increase.

3D NAT. BANK, ST. LOUIS. Aggregale -Price.-Resources. Bid. A:k Capital. Surplus & Gross Deposils. * Present price.

The foregoing reveals a record [of growth which is not inconspicuous even for a banking institution in St. Louis, where there has been an expansion in bank operations hardly less marked than in the case of the banks of Chicago, to which we have referred in these columns on previous occasions. It will be observed that on February 5 (the date of the last call) aggregate deposits were \$13,147,146, as against only \$11,342,581 in February last year; only \$10,177,685 in February 1899, and less than 71/2 million dollars in September 1898. Aggregate resources now stand at over 151/2 million dollars, as against only \$9,000,000 in September 1898. The shares were quoted at 112 at this earlier date, as against 225 now. The institution has at the same time greatly enlarged its total of surplus and profits, which February 5 last was reported at \$357,432, against \$210,908 in September 1898. Mr. C. H. Huttig is the President of the Third National Bank of | tinental National Bank of Baltimere, for the purpose of act-

St. Louis; W. B. Wells, Vice-President; G. W. Galbreath, Cashier, and J. R. Cooke, Assistant Cashier.

-Mr. John W. Conley, familiarly known as Colonel Conlev. on May 1 withdrew from the firm of Schwartz, Dapee & Co. of Chicago and New York, and has practically retired from active business.

-The Hibernian Banking Association of Chicago is contemplating an immediate increase of its capital stock to \$500,000. The bid price per share is about \$250, and it is thought the new stock will go mostly to present holders.

-In order to pass upon the question of increasing the capital of the Coal & Iron National Bank of Cleveland, O., from \$500,000 to \$1,000,000 a special meeting of the shareholders will be held on May 29 next. At the same time the advisability of increasing the number of directors, of which there are now fifteen, to twenty one, will also be determined. J. C. Gilchrist is President and A. B. Marshall Cashier.

-As soon as the necessary arrangements can be completed, the Colonial Trust Company of Baltimore, Md., will remove from its present offices at 215 East German Street to the main floor of the Calvert Building corner of Fayette and St. Paul streets.

-In addition to Mr. W. F. C. Golt, who, as we stated in our issue of April 20 was chosen Cashier of the new Columbia National Bank of Indianapolis, the officers selected thus far for its management are Mortimer Levering, President, and Charles F. Coffin, Secretary of the board of directors. The new bank has a capital of \$300,000.

- The Hazlewood Savings & Trust Company is the name of a new institution which opened for business corner Second and Hazlewood avenues, Hazlewood, Pittsburg, Pa., on Wednesday last. The company, which starts with a capital of \$125,000 is under the management of W. H. Barker, President; F. C. Kohne, Vice-President, and L. Z. Birmingham, Secretary and Treasurer.

-Pittsburg is to have still another trust company-the People's Trust Company. It has already been organized with a capital of \$250,000, all of which has been subscribed, and application for a State charter will be made on May 13. A stockholders' meeting was recently held at which Mr. Wm. Ruske, Secretary of the Pittsburg Brewing Company, was chosen President, and Mr. G. Henry Schmunk, Vice President. The company will be located on Carson Street, between 12th and 17th streets, and will begin business about June 1.

-In order to wind up the affairs of the Third National Bank of Chicago, which suspended twenty four years ago, both the Comptroller of the Currency and the receiver are anxions that the assets shall be disposed of as speedily as possible. There is, however, no truth in the report that the Comptroller had issued an order to sell the property. The assets consist of Chicago real estate, which is now valued at about \$1,500,000. The shares of the bank are reported to be worth nearly double the par value.

-Mr. Perin Langdon has been elected a director of the National Lafayette Bank of Cincinnati to fill a vacancy caused by the resignation of Frank J. Jones. Mr. Langdon is the Manager of the Langdon branch in Cincinnati of the National Biscuit Company.

-The Waukesha National Bank of Waukesha, Wis., will in about a week temporarily vacate the site which it has occupied since its organization in 1855 in order that a modern banking structure may be erected on the ground. The new building is expected to be completed by October 1 next. The bank, which started with but \$25,000 capital, now has a capital of \$150,000. Its deposits amount to about \$1,500,000. Mr. A. J. Frame is at the head of the institution, Senator Richard Weaver and Col. Frank H. Putney are the Vice-Presidents, H. M. Frame is Cashier and E. R. Estberg is Assistant Cashier.

-The dates selected for the annual convention of the California Bankers' Association are May 30 and 31 and June 1. The meeting will be held at San Jose, Cal. Mr. Frank Miller, President of the National Bank of D. O. Mills & Co., of Sacramento, is Chairman of the executive council of the association.

-The proposed meeting of the stockholders of the Con-

ing upon the question of an assessment and strengthening the resources of the bank, has been called for May 28. Two propositions to be 'submitted to the meeting were given in these columns last week.

-As noted in these columns in our issue of April 13 the shareholders of the People's National Bank of Charleston, S. C., will meet on the 7th of the present month to act on the proposition to increase the capital of the bank from \$250,000 to \$300,000. We suppose that the proposed enlargement of the capital of this institution is made necessary by the growth of the bank's business. Within the last two years the bank's line of deposits has about doubled. The operations of the bank appear also to have been profitable, as is evident from the additions that have been made to the item of surplus and profits. The bank has prepared for us a statement of its condition under date of April 26, for use in our QUOTATION SUPPLEMENT, and in the following we show how the leading items in this statement compare with the corresponding items in some of the previous returns as made to the Comptroller of the Currency.

| Sept. 20 1898 | 250,000 129 | 2,006 638, | 207 1,041,815 | | •• |

It thus appears that gross deposits April 26 1901 were \$1,424,911: that on the same date last year the amount was \$1,175,120; that in April 1899 it was but \$922,580, whereas the statement for Septemler 1898 showed deposits no more than \$633,207. Aggregate resources now are \$2,295,297, which compares with only \$1,041 815 in September 1898. There has also been an appreciation in the market value of the shares as will be seen from an inspection of the above table. The bank was on December 22 last designated as sole depository of the City of Charleston for three years from January 1 1901. The executive force of the bank consists of R. G. Rhett, President; E. H. Sparkman, Cashier, and E. P. Grice, Assistant Cashier.

-The new Cincinnati Trust Company, which has been referred to from time to time in these columns, moved into its permanent quarters, at the southwest corner of Fourth and Walnut streets, this week, and to signalize the event held **a** reception to the public. A committee of ladies assisted the officers in receiving the guests. The company began business on December 1 1900 and on April 1 had deposits of \$493,-110 and a surplus of \$109,257. The capital of the company is \$500,000. Guy W. Mallon is the President and N. S. Keith is Secretary and Treasurer.

-The Western German Bank of Cincinnati, O., is about to add a savings department to its business and to that end will increase its capital from \$200,000 to \$250,000. The new stock will be offered to the public at 400 Of the proceeds \$50,000 will be added to the capital and \$150,000 to the surplus, making that account, roughly, \$500,000. The total deposits of this bank are about \$2,000,000.

-The Federal Trust Company and the People's Trust Company of Cleveland, O., both in process of formation, have decided to consolidate under the charter of the Federal Trust Company. The capital stock of the consolidated institution will be \$1,500,000, as originally intended for the company organized under that name last December. It will begin business on May 22 in the National Bank Bnilding, corner Superior and Warren streets. The stock of the People's Trust Company was to have been \$500,000, and it is stated that the subscriptions to both companies aggregated \$5,000,000. The incorporators of the original Federal Trust Company were given in this column December 1, and the same information concerning the People's Trust Company was given on March 6.

-At the meeting of the shareholders of the International Trust Company of Baltimore, called for April 30, the propo-

sition referred to in these columns two weeks ago to reduce the capital and surplus of the company was unanimously approved. The capital will be decreased from \$3,000,000 to \$2,000,000 and the surplus from \$1,500,000 to \$1,000,000.

-A statement showing the growth of Richmond (Va.) banks and trust companies from March 1, 1898, to February 5 1901 has been issued by Messrs. Scott & Stringfellow of that city. Briefly, it exhibits an increase in the aggregate resources of nearly \$10,000,000-from \$17,726,558 in 1898 to \$27,349,304 in 1901. The addition to capital has been \$1,435,-941, the item having grown from \$3,607,196 to \$5,043,137 in the three years stated. The deposite have risen from \$11,-127,233 to \$17,976,682. As showing the expansion of the banking business in Richmond, the total clearings for 1897 were \$116,338,731, while in 1900 the amcunt was \$175,537,475.

-The Ohio Trust Company of Columbus, C., incorporated last November, opened for business this week in temporary quarters in the Wyandotte Building. The company's permanent offices will be in the new Hayden Building as soon as that structure is completed. A list of officers and directors of the Ohio Trust Company was given in the CHRONICLE of Dec. 8, 1900.

-The [City Trust Company of Cleveland, O., formerly the Wick Banking & Trust Company, will probably increase its capital from \$250,000 to \$500,000 about July 1, and about \$20 per share will protably be added to the surplus fund. The names of the efficials of this company were given in this column on March 16.

-The Mechanics' Bank of St. Louis has been converted into a national institution and has assumed the name of "The Mechanics' National Bank of St. Louis," with a capital of \$1,000,000 and a surplus of \$500,000. The board of directors consists of R. R. Hutchinson, President; D. K. Ferguson, Vice-President; Chas. O. Austin, Cashier; B. B. Graham, R. M. Hubbard, C. G. Knox, Henry Nicolaus, Chas. H. Turner, W. J. Kinsella, James Green, James T. Drummond and Morris Glaser.

-The board of directors of the Commercial National Bank of Council Bluffs, Iowa, recently organized with a capital of \$100,000, was chosen last week, and includes many who are prominent both in railroad and financial circles. Mr. W. C. Brown, General Manager of the Chicago Burlington & Quincy Railroad, is one of the directors. H. S. Storrs, Division Superintendent of the same road, is another; Governor L. M. Shaw of Iowa, who is at the head of the Bank of Denison of Denison, Iowa, and also the Bank of Manilla of Manilla, Iowa, will likewise serve as a director of the new bank, as will C. F. Kuehnle, Vice-President of the Bank of Denison and Vice President of the Bank of Manilla; George W. Nicholson, President of the Conway Exchange Bank of Conway, Iowa; Judge J. R. Reed, Lewis Hammer, Fred. R. Davis, F. C. Lougee, R. H. Bloomer, W. A. Maurer, J. F. Wilcox and C. E. Price. The latter has been made Cashier of the Commercial National Bank. None of the other officials have yet been selected, nor has a suitable building been secured as yet.

-Mr. J. M. Rhett, heretofore associated with Messrs. O'Connor & Kahler, as bond salesman, and Mr. E. L. Rhett, for many years with Messrs. Brown Brothers & Co., as manager of their bond and stock department, have formed a copattnership under the firm name of Rhett Brothers. They will transact a general commission business in investment securities. The offices are in the new Atlantic Buildings 49 Wall St.

—Thomas F. Gilroy has been elected President of the Twelfth Ward Bank, succeeding Isaac A. Hopper. The institution is located at the corner of Lexington Avenue and One Hundred and Twenty-fifth Street.

-The New York Realty Company, with a capital of \$3,000,000, was incorporated at Trenton, N. J., on Wednesday. The managing directors are Albert Flake and Robert E. Dowling, and among the stockholders are prominent owners of real estate in this city, including Amos R. Eno, B. Aymar Sands, William Zeigler, Frank Tilford, William F. Havemeyer and Samuel L. Parrish. The object of the company is to deal in New York real estate.

-James H. Dunham, of the dry-goods house of James H. Dunham & Co., formerly Dunham, Backley & Co. of this city, died on Sunday in his sixty-ninth year. Mr. Dunham was born in Pittsfield, Mass. He was, early in his business career, employed by the dry-goods firm of George B. Bliss & Co., and six years later was admitted to 'the firm. Subsequently the house of Eldridge, Dunham & Co. was formed, which was succeeded by that of Dunham, Buckley & Co. Mr. Dunham was a director of the Central National Bank and a trustee of the Equitable Life Assurance Society and of the Bowery Savings Bank. The directors of the Central National Bank on Tuesday adopted an appropriate minute to his memory.

-It is proposed to organize a new trust company in Brooklyn, to be located at the corner of Court and Joralemon streets, with a capital and paid in surplus of \$1,000,000 each. Clinton L. Rossiter, late President of the Brooklyn Rapid Transit Co., is said to have been selected for President, and Oliver W. Denton, President of the Kings County Bank, for Vice-President.

Clearings by Telegraph.—Sales of Stocks, Bonds, &c.— The subjoined table, covering clearings for the current week, asually appears on the first page of the CHRONICLE, but on account of the length of the other tables is crowded out once a month. The figures are received by lelegraph from the leading cities. It will be observed that as compared with the corresponding week of 1900 there is an increase in the aggregate of 73.8 per cent. So far as the individual cities are concerned, New York exhibits a gain of 101.4 per cent, Boston 24.4 per cent, Philadelphia 21.8 per cent, Chicago 12.3 per cent, St. Louis 35.6 per cent and New Orleans 22.5 per cent. Baltimore records a loss of 5.7 per cent.

Monetary: Commercial English News

[From our own correspondent.]

LONDON, Saturday, April 19, 1901.

Except in the American department, business upon the Stock Exchange has been very quiet this week, in some directions exceptionally so, even for the present year. To some extent the stagnation is due to disappointment that there is no early prospect of a termination of the war either in South Africa or in China, but mainly it is due to an unwillingness to enter into fresh engagements until the budget proposals were made and the amount and date of the new loan were known.

Throughout the country trade is satisfactory. There are signs of improvement in the woolen industry. There has been during the past month a decided recovery in the price of the raw material, especially in merino wool; and as the price of coal is very much less than it was there are better indications in other directions likewise. On the other hand, the troubles in China are adversely affecting the calico trade; and although there is a great improvement in India, still the famine is not yet completely at an end, and the purchasing power of the people is not nearly as good as in normal times.

On the Continent Stock Exchange business is almost as stagnant as here at home. In Germany there are loud complaints that every department of industry is suffering. The slow liquidation that began last summer is still going on, and is likely to go on for a long time yet. There are hopes of better times in iron and steel; but they are only hopes; and generally mannfacturers complain that while during the good times of the past few years they largely extended their premises and increased their machinery, orders now are greatly wanting. The Bourse laws, too, it is complained, are killing business upon the Stock Exchange; and altogether the feeling in Germany is rather depressed. Whatever business there is is mainly in the new issues of the Empire and the States composing it. In Anstria-Hungary things are equally bad. In the Scandinavian countries there is likewise depression; and the news from Russia continues exceedingly grave.

In France there is a vast abundance of money; but there is very little enterprise. The great French banks are investing heavily in other countries. Just now they are employing very large sums here in England; but they are doing little at home. There is talk in Paris of a very large investment by France in Italy; and it is said that numerous French institutions will be founded in that country. Whether all this talk has been originated merely by the Toulon fèles remains to be seen. For the moment, however, the project has not got beyond the stage of talk.

The Chancellor of the Exchequer made his budget statement on Thursday night. For the year ended with last month the expenditure was £183,592,000 and the revenu-£'3).385,000, leaving a deficit of £53,207 00). Of the total expenditure one-third, or £63,520 0 '0 was war expenditure, of which £65,-120,000 was in South Africa and £3,5' 0,000 in China. For the new year the exp-nditure is estimated at £187,602,000 and the revenue at £143,255,000. To get this revenue the Chancellor of the Exchequer found himself obliged to suspend again for the second year the sinking fund amounting to £4,640,000, to add 2d. in £1 on the income tax, raising it to 1s. 2d in £1, to impose a sugar duty of somewhat under $\frac{1}{2}$ d. per 1b. and an export duty on coal of 1s. p-r ton. The additions to taxation and the suspended sinking fund give together £15,640,(00. The total deficit is thus reduced to £40,-832.(0'; but the Chancellor of the Exchequer takes powers to borrow nearly 20 millions more so as to be prepared for all contingencies.

The new loan is to be for 60 millions sterling nominal, and to be in consols; so that it will not be redeemable or convertible for 22 years. Up to the present time the borrowings on account of the war in South Africa and China have amounted to 67 millions. The total borrowings, including the new loan, will thus amount to 127 millions. According to the Chancellor of the Exchequer the cost of the war was £23,217,000 in 1899-1900, £68,622,000 in 1900-1; and the cost is estimated for the new year as £60,230,000, making the total cost 152 millions, or adding the interest for the loan about to be floated the total cost for the three years will somewhat exceed 153 millions. Considering how large the expenditure has been, how the country has been tried by the withdrawal of so many men from productive industry, the chartering by the Government of so many ships, the stoppage of receipts of gold, and the very high price of coal, it is remarkable how little the reverue has been affected up to the present. There is in fact no real sign of any falling off in the purchasing power of the country. In fact there are some signs of extraordinary prosperity. The income tax at 1s. in £1 yielded very nearly 27 millions sterling, or £1,120, 000 more than the ϵ stimate. Each penny in the income tax in fact yielded as much as £2,400,000. It may be added that until 1889 a panny income tax never yielded as much as two millions.

Money has been exceptionally abundant this week and the outside market has been able to pay off its debt to the Bank; but as the week draws to a close it is becoming clear that the abundance and cheapness of money are likely to prove very temporary. The last instalments of the last Government loan are not yet paid; and we are about to have a new loan for 60 millions sterling. The instalments of coarse will be spread over a long time; but even so, as they come on they will transfer very large, sums from the open market to the Bank of England. They will make the supplies in the open market thus extremely scarce; and although the Government expenditure will also be large, it cannot be counted upon to couterbalance the other influences affecting the market. Moreover, it is to be recollected that the great French banks are employing immense sums in this market at present; and if rates were to fall much the money would be withdrawn for employment more profitably elsewhere. It is exceedingly improbable, therefore, that the present ease of the market will last long.

Upon the Continent money continues easy and is likely to continue so generally; and, as always happens at this season of the year, money is becoming easier and cheaper in India. Consequently there is not the same demand there was a little while ago for Council drafts. On Wednesday the India Council offered for tender 60 lacs. The applications were somewhat under 69 lacs. The total amount offered was allotted at about 1s. 3 29 32d. per rupee. Later in the day the Council sold small amounts by private contract at prices rarging from 1s. 3 15.16d. to 1s. 4d. per rupee,

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols. &c.

Messrs. Pixley & Abell write as follows under date of April 18:

April 18: Gold—The flow of gold into the bank still continues, £263,000 in bars ont of a total of £271,000 having been bought during the week. This represents all the arrivals with the exception of some small amounts required for the Continent. £7,000 has been withdrawn. Arrivals: Bombay, £57,000; Australia, £160,000; River Plate, £30,-C00; Chile, £1,000; total, £268,00. Silver—After keeping steady all the week at about 274d. with the Straits buying moderately, we have risen sharply to day to 273gd. on a few special orders, combined with a reluctance on the part of Ameri-can holders to sell at London prices. The market closes dull. The Indian price is Rs. 70 per 100 Tolahs. Arrivals: New York, £166,-000; Chile, £3,000; total, £169,000. Shipments: Bombay, £125,000; Malta, £10,000; total, £135,00. Mexican Dollars—Only a few transactions have taken place in dol-lars at about the forward price of silver. Shipments: Mexico, £20,-S00.

900.

Commercial and Miscellaneous News

IMPORTS AND EXFORTS FOR THE WEEK.--The following are the imports at New York for the week ending for dry goods April 25 and for the week ending for general merchandise April 26; also totals since beginning first week January. FOREIGN IMPORTS.

| For week. | 1901. | 1900. | 1899. | 1898. |
|-----------------------------|-----------------------------|-----------------------------|---------------|-----------------------------|
| Dry Goods Gen'l mer'dise | \$1,735,832 9,232,790 | \$2,352,109 8,873,666 | | \$1,514,487 7,493,579 |
| Total Since Jan. 1 | \$10,968,622 | \$11,225,775 | \$10,946,526 | \$8,808,066 |
| Dry Goods Gen'l mer'dise | \$88,668,490 147,757,318 | \$48,936,880 147,267,258 | | \$37,675,060 115,964,422 |
| Total 17 weeks | \$186,425,803 | \$196,204,138 | \$179,762,411 | \$153.639.482 |

The imports of dry goods for one week later will be found in our report of the dry goods trade. The following is a statement of the exports (exclusive of

specie) from the port of New York to foreign ports for the week ending April 29, and from January 1 to date.

EXPORTS FROM NEW YORK FOR THE WEEK.

| | 1901. | 1900. | 1899. | 1898. |
|--------------------------------|---------------|-------------------------------------|---------------|----------------------------|
| For the week Prev. reported | | \$11,408,97 5 165,643,898 | | \$9,514,194 144,365,141 |
| Fotal17 weeks | \$172,772.724 | \$177,052,873 | \$154,445,192 | \$153.879.335 |

Nore.-As the figures of exports as reported by the New York Custom House from week to week frequently show divergence from

THE CHRONICLE.

the monthly totals, also compiled by the Custom House, we shall from time to line adjust the totals by adding to or deducting from the amount "proviously reported."

The following table shows the exports 'and imports of specie at the port of New York for the week ending April 27 and since Jan. 1, 1901, and for the corresponding periods In 1900 and 1899.

| EXPORTS | AND | IMPORTS | OF | SPECIE | AT | NEW | YORK. |
|---------|-----|---------|----|--------|----|-----|-------|
|---------|-----|---------|----|--------|----|-----|-------|

| 0.24 | Exp | orts. | Imp | orts. | | |
|--|--|--|--|--|--|--|
| Gold. | Week. | Since Jan. 1. | Week. | Since Jan. 1. | | |
| Great Britain France Germany West Indies Mexico South America All other countries. | \$ | 17,595 | \$ 1,275 7,664 5,926 2,864 | \$ | | |
| Total 1901 Total 1900 Total 1899 | \$559,857 1,109,751 54,096 | 9,089,206 3,809,638 | | \$870.638 1,158,713 5,412,741 | | |
| Silver. | | orts. SinceJan.1. | Week. | BinceJan.1 | | |

*This is the price bid at the morning board; no sale was made.

State and Railroad Bonds.—Sales of State bonds at the Board include \$220,00) Virginia 6s deferred trust receipts at 10 to 10¹/₂ and \$22,000 Tennessee settlement 3s at 96¹/₂ to 99¹/₂.

The market for railway bonds has been strong in sympathy with other security markets, although there were few noteworthy changes in quotations. Union Pacific new 4s were an exceptional and conspicuous feature. On sales aggregating about \$16.000,000, par value, they steadily advanced from 113 to 129, receding later, and closing at 11934. Mexican Central issues were strong and show a net gain of from 2 to 4 points. Fort Worth & Denver City 1sts advanced 2 points on a good demand.

Stock and Bond Sales.—The daily and weekly record of stock and bond sales at the various stock Exchanges, formerly given on this page, has been transferred to a place by itself. It will be found to-day on page 865. The sales for Tuesday and for the week are both the largest on record.

Rallroad and Miscellaneous Stocks.—The erratic tendency of the stock market has been more pronounced than heretofore and the volume of business larger. Recorded transactions amounted to about 3,300,000 shares on Tuesday, and averaged nearly 3,000,000 shares per day for the week. Of definite news in regard to any particular property there has been little, but eagerness to acquire certain railway stocks, presumably for control because of dividend prospects or consolidation plans, carried Union Pacific (omitting fractions) from 107 to 133. Northern Pacific from 108 to 119, Atchison from 71 to 87, New York Central from 153 to 170, and other active issues up from 5 to 10 points. Naturally there have been reactions from the highest quotations, today's market having been conspicuous for such movements; but closing prices are well above those of last week.

Attention has been chiefly absorbed by the railway list, but a few miscellaneous stocks have been somewhat conspicuous. United States Steel issues were very active at advancing prices. International Power sold up to 87, a gain of over 12 points on the prospect of control of locomotive manufacturing in this country. Colorado Fuel & Iron covered a range of 7 points and Air Brake 5 points. Rubber Goods issues appeared in the unlisted department on Wednesday, and advanced from the opening prices.

Outside Market.-Business in the outside market this week has been relatively dull, but prices have been generally firm; in a few instances they have advanced several points, though losing part of the gain on Friday, when the Stock Exchange market became weak. Amer. Bridge com., which closed last Friday at 501/2, moved to 57 on Tuesday and receded to-day to 5314: the preferred also participated in the advance and rose from 105 to 111 and closed the week at 1081/4. American Can common sold up from 263/4 to 315/8 and closed at $28\frac{5}{8}$; the preferred at the same time advanced fr m 761/2 to 82, closing at 781/4. Standard Oil stock rose on Friday to 840, the highest point ever reached by this stock. International Power preferred, which has been neglected recently, was bid up from 80 to 100, with practically no sales. The new Great Northern-Northern Pacific-Burlington 4s, which have been admitted to the unlisted department of the Exchange, were fairly active on the curb also, the price there ranging between $100\frac{1}{4}$ and $101\frac{1}{4}$. Compressed Air stock moved up during the week from 12@ 4 to 18@20. New securities dealt in this week were the N. Y. & Queens Electric Light & Power Co. stocks, which were quoted at 20 bid for the common and 67 bid-70 asked for preferred, and the International Umbrella Co., a New Jersey corporation capitalized at \$1,500,000, par value \$10, which sold at $3\frac{1}{4}$ @ 3%. Bank stocks have been in good demand at advancing prices.

The list of outside quotations will be found on page 865.

WALL STREET. FRIDAY, MAY 3. 1901.-5 P. M. The Money Market and Financial Situation.—In some particulars the first week of Stock Exchange operations at temporary quarters in the Produce Exchange building has been a notable one. The volume of these operations was greatly in excess of the previous maximum record and several issues made sensational advances to higher prices, as will be seen by reference to our subjoined review of the bond and stock markets.

These movements have been so spasmodic as to be somewhat confusing, and many interested parties have wondered how fast and how far they could be safely carried. For, as is well known, there is a safety-line, notwithstanding the fact that nearly all the conditions affecting security values have improved of late and further developments in the same directions are promised. To-day's market indicates that this line may have been reached in some cases.

The money market was firmer on Thursday, and gold exports have continued, facts which seem to have had no special influence upon Stock Exchange operations until today, when rates for call loans advanced to $8\frac{1}{2}$ per cent and considerable liquidation was forced.

considerable liquidation was forced. The open market rates for call loans on the stock Exchange during the week on stock and bond collaterals have ranged from 3½ to 8 per cent. To-day's rates on call were 5 to 8 per cent. Prime commercial paper 4 to 4½ per cent.

The Bank of England weekly statement on Thursday showed a decrease in bullion of £433,395 and the percentage of reserve to liabilities was 46.68, against 47.21 last week; the discount rate remains unchanged at 4 per cent. The Bank of France shows a decrease of 26,450,000 francs in gold and an increase of 525,000 francs in silver.

The New York City Clearing-House banks in their statement of April 27 showed an increase in the reserve held of \$2,735.000, and a surplus over the required reserve of \$16,759,775, against \$14,922,100 the previous week.

R'AILROAD EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from July I to and including such latest week or month. The returns of the street railways are brought together separately on a subsequent page. Notice Change - Our yearly totals now all date from July 1.

\$ Covers results on lines directly operated east of Pittsburg.
 \$ Includes Chesapeake & Ohio Southwestern, Ohio Valley and Chicago and Texas for both years.
 \$ Includes Paducah & Memphis Division from July 1 in both years.
 \$ Figures from March 1 are for the railroad only.
 \$ Mexican currency.
 \$ Includes the Houston & Texas Central and its subsidiary lines.
 \$ d Includes St. Paul & Duluth from July 1, 1900.

Totals for Fiscal Year.

In the full page statement on the preceding page we show the gross earnings of all roads for the period from July 1, that being now the beginning of the fiscal year of the great majority of the roads. There are, however, some roads that still have their own fiscal years. These with their dates are brought together in the following.

Street Railway Net Earnings .- The following table gives the returns of STREET railway gross and net earnings received this week. In reporting these net earnings for the street railways, we adopt the same plan as that for the steam roads—that is, we print each week all the returns received hat week, but once a month (on the third or the fourth Saturday), we bring together all the roads furnishing re-turns, and the latest statement of this kind will be found in the CHRONICLE of April 20, 1901. The next will appear in the issue of May 18, 1901.

After allowing for other income received.

* After allowing for other income received. † These figures include other income. After deducting \$86,641 for interest on funded debt and dividends on preferred stock in March, 1901, and \$86,580 in 1900, there is a surplus of \$4,4-2 this year, againsta deficit of \$6,070 last year. From April 1, 1900, to March 31, 1901, interest and dividends were \$1,038,029, against \$963,735 in 1900, leaving a surplue this year of \$104,442, against \$622 last 1902 year.

Lake Shore & Michigan Southern Railway.

(Report for year ending Dec. 31, 1900.)

The report, signed by President William H. Newman and Chairman Channey M. Depew, says:

Funded Debt.—Daring the year exchanges of $3\frac{1}{2}$ per cent gold bonds for old 7 per cent bonds embraced the talance of consolidated first mortgage which matured on July 1, 1900, amounting to \$7,996,000. and a part of the consolidated second general mortgage, amounting to \$1,214,000 By the operation of the refunding plan thus far \$36,551,000 of the various issues of old 7 per cent bonds have been retired The outstanding bonds have increased in amount \$6,209,000, while a reduction of \$1,061,970 has been made in the annual interest charge.

General Results.—Comparisons with the previous year show the following: Freight earnings increased 13.66 per cent; passenger earnings, 11.01 p. c.; mails, express, etc., 4.42 p. c.; number tons freight moved, 9.73 p. c.; number passengers carried, 6.48 p. c. The ton mileage revenue freight increased 6.03 per cent, while the mileage of loaded cars increased 5.09 per cent and the mileage of freight trains decreased 0.35 per cent. The average load per train mile was 454.7 tons, increase 6.41 per cent. The average rate per ton mile was 0.505 cent, increase 7.22 per cent. Passenger traffic shows an increase in passenger mileage of 13.43 per cent and in train mileage 4.72 per cent. The rate per passenger mile was 2.03 cents, decrease 2.40 per cent.

Expenses.—Operating expenses in 1900 included the following charges for extraordinary expenditures: For new equipment purchased, \$2,267,825; for new side tracks, \$92,256; for construction and betterments, \$711,918, which latter may be summarized as follows:

Second track, \$263,721; separation of grades, \$172,775; changes of line, \$17,170; new round house, Collinwood, \$110,009; new bridges, Toledo, \$36,996; five new depots, \$82,520; other new buildings, \$28,727; total, \$711,918.

Purchases of Stock.—The board deemed it advisable to authorize the purchase during the year of stock in two important convecting lines, the Lake Erie & Western RR. Co. and the Cleveland Cincinnati Chicago & St. Louis Ry. Co., the cost of these securities aggregating \$12,958,082; of which sum there was paid out of the surplus earnings of this and preceding years \$6,958,082. [In the case of the Lake Erie & Western there was acquired \$5,940,000 of its \$11,840,000 common and \$5,930,000 of its \$11,840,000 preferred stock, these being valued in the balance sheet at \$5,847,017. Of the Cleveland Cincinnati Chicago & St. Louis there is owned \$11,224,000, evidently all, or chiefly, common stock (total issue, \$27,989,310), since valued in the balance at \$7,111,065, or equal to an average of \$63 35 per share. On the New York Stock Exchange the price of the common during 1900 ranged from 55 to 76.]

Outlook.—During the year 1901 a large outlay for new work, including bridges, depots, shops, second track and separation of grades will be necessary. The business of the year 1900 exceeded that of any previous year, and the outlook is promising for a continuance of heavy traffic.

Statistics.—The comparative statistics for four years, compiled for the CHRONICLE, are as follows:

Osceola Consolidated Mining Company.

(Report for the year ended Dec. 31, 1900.)

The report says in substance:

The report says in substance: In addition to what has been spent on the new stamp mill and equipment at South Kearsarge, \$88,564 for additional construction has been included in operating expenses. The operations have been largely in developing the old Oscoola mine, suking a new shaft at the old Kearsage, opening an entirely new mine at the South Kear-sarge and increasing our surface plant to provide means for treating a large increase of ore from the varions mines of the company. All of the new development work has proved very satisfactory. Our stamp mill capacity now consists of six heads of stamps in the old mill and three heads in the new mill. It is proposed to put up an additional building during the year capable of holding four heads of stamps, but to erect only three heads at this time. This is expected to be in operation the last of the year. We shall then be in shape to handle a large quantity of material at a low cost, and the openings have been so pushed in the different mines that they will be able to supply the necessary rock at that time. There are remaining in the treasury 4,000 shares of stock which are not included in the statement of assets. On Dec. 31, 1900, the cash and accounts receivable and copper sold but not paid for aggregated \$413.165; supplies at mine, \$267,974; timber lands, etc., \$181,506; total liabilities, \$291,218. Results for four years past compare as follows:

GENERAL INVESTMENT NEWS,

RAILROADS, INCLUDING STREET BOADS.

American Light & Traction Co.-Majority Deposited.-More than a majority of the stock of the Western Gas Co., the Grand Rapids Gas Light Co., the Madison Gas & Electric Co. and the St. Jcseph Gas Co. has been deposited as assent-ing to the plan of amalgamation.—See V. 72, p. 723.

Atchison Topeka & Santa Fo Ry.—First Dividend on Common.—The company on Wednesday declared a first divi-dend of 1½ per cent on its \$102.000,000 common stock, pay-able June 18 to shareholders of record May 28. The divi-dend calls for \$1,530,000. The dividend is supposed to be a semi-annual distribution.—V. 72, p. 775, 531.

Buffalo Rochester & Pittsburg Ry.-Quarterly.-Earnings for the quarter and the nine months ending March 31 were:

| -V. 72, p. 241, 183. | | | | |

Baffalo & Sasquehanna RR. Co.-Refunding.-The company has arranged with Fisk & Robinson to refund upon equitable terms its outstanding 5 per cent bonds of 1913 into first mortgage refunding 4 per cent fifty-year gold bonds. The 5 per cents which have been issued aggregate \$1.470,000. Of this amount \$491,000 bonds have been retired through the sinking fund, leaving outstanding on April 1 \$979,000. Under the terms of the sinking fund attached to the 5 per cent mortgage there is retired in each year an amount of bonds determined by dividing the amount outstanding on the 1st day of July by the number of years which the bonds still have to run. Bonds are called for payment in the order of numbers, beginning with the highest. The company has ar-ranged for this refunding, believing that bondholders will prefer a bond having a definite maturity some years in the future rather than one subject to call at an indefinite date. The offer to exchange has already been accepted by holders of a considerable amount of bonds; indications, it is stated, point to its proving to be generally acceptable - V. 72, p. 721.

Canadian Pacific Ry.-New Securities.-The company has applied to the London Stock Exchange to list a further issue of £650,000 4 per cent non-cumulative preference stock and £430,000 4 per cent perpetual consolidated debenture stock,-V. 72, p. 820.

Chicago Burlington & Quincy RR.-Official Circular.-A circular addressed to the stockholders announces under date of April 29 the joint offer of the Great Northern Railway Co. and the Northern Pacific Railway Co. to purchase all or any part, not less than two-thirds, of the shares of the capital stock of the company, and requests the assenting shareholders to deposit their stock certificates with duly ex-ecuted transfers in blank at either the Metropolitan Trnst Co., New York, or the Old Colony Trust Co., Boston, on or before May 20. The stockholders, it will be observed, have the option of taking the purchase price either all in bonds or \$160 in bonds and \$40 in cash, or under certain conditions a still larger proportion in cash. The circular says in substance:

stance : The offer is to purchase such stock as of July 1, 1901, and to pay therefor at the rate of \$200 per share in bonds, which are to be the joint obligation of the Northern Pacific Railway Co. and of the Great Northern Railway Co.; but the proposition includes an offer to provide each instead of bonds for part of the purchase price. The bonds are to bear interest at the rate of 4 per cent per annun from July 1, 1901, and are to mature July 1, 1921, but to be redeemable at the option of the two Northern Companies at 105 per cent and accrued interest on July 1, 1906, or on any coupon day thereafter. The two Northern Companies reserve the right to pay off any part without paylog off the whole of the bonds, and in such event the numbers of the bonds to be paid will be designated by lot; the coupon bonds will be paid first. The coupon bonds are to be of \$1,000, and the registered certificates of \$1,000, \$5,000, or some multiple of \$5,000; the interest

OUT OF THE CORE on the company and that to be payable semi-annually on the first day of January and of July, and that on the registered certificates to be payable quarterly on the first day of January. April, July and October, by checks mailed to certificate holders if so requested; the coupon bonds to be exchangeable for registered certificates in proper amounts, and the registered certificates for coupon bonds at the will of the holders. The bonds are to be eccured by pledge of all the stock acquired, with of the interest or principal of the bonds. The total authorized issue of such bonds shall be limited to an aggregate amount equal to twice the par value of the total amount of stock that shall be deposited and the trust deed. Proper provision will be made in the payment of the interest or principal of the Chicago Burlington & Quincy RR. stock, that a propertionate part of such new issue, if auy, must be oroside as a by quarter by any new issue of the Chicago Burlington & Quincy RR. stock, that a proportionate part of such new issue, if auy, must be reading in the aggregate \$50,000,000 to those shareholders who shall be proved by your committee and the consel of the interest will pay cash intered of bonds to a amount of \$40. Stock and a syndicate, have undertaken to privide such cash, and a security be and the privileg of selling your stock at \$200 per indicate, have undertaken to privide such cash, and a security the interest of the consel of the consel of the security of the privileg of selling your stock at \$200 per indicate, have undertaken to privide such cash, and and the privileg of selling your stock at \$200 per indicate, have undertaken to privide such cash, and and the privileg of selling your stock at \$200 per indicates who at the time of depositing their stock shall notify the depositary that they elect to receive payment partly in bonds and partly in cash, as above, or in the stock have of the privileg of selling your stock at \$200 per indicates who at the time of depositing their stock sha bonds.

bonds. The transaction is to be completed by the two Northern Companies on or before Sept. 2, 1901. All cash payable will bear interest at the rate of 4 per cent per annum from July 1, 1901, until Sept. 2, 1901, or until such earlier day as shall be designated for the payment thereof. Holders of convertible 5 per cent bonds are advised to im-mediately exchange their bonds for stock and to deposit such stock on or before May 20, 1901. Your directors, except as stated in the foot note, personally have agreed to accept, for the shares held by them, the proposition above referred to. The stock deposited will be held subject to the order of Francis W. Huunewell, Charles J. Paine and J. Maloolm Forbes, who will act as a committee in your interest, or to eubiect to the order of Francis W. Hunnewell. Charles J. Palne and J. Maloolm Forbes, who will act as a committee in your interest, or to the order of any two of them. In case the aggregate amount of stock so deposited on or before May 20, 1901, shall be less than two-thirds of the total outstanding capital stock, the certificates so deposited may be returned to their owners by order of said committee. A divi-dend of two dollars per share, covering the period of four months ending June 30, 1901, will be payable June 15, 1901, to stockholders of record at the close of business on May 21, 1901. By order of the Board of Directors, FRANCIS W. HUNNEWELL, Chairman.

Note.—Mr. Edward W. Hooper has not been consulted on account of illness, and Mr. Nathaniel Thayer is in Europe. Mr. James H. Smith voted against the acceptance of the proposition. Dividend —The dividend for the proposition.

Dividend.-The dividend for the four months ended July 1, 1901, which is to be the date of the new bonds, has been declared, as foreshadowed by the above circular, and is payable June 15.-V. 72, p. 820, 775.

Chicago St. Paul Minneapolis & Omaha Ry.—Purchase. -The company has purchased the Minnesota & Wisconsin Railway, extending from Woodville, Wis., on the Ch. St. P. M. & O., west of Eau Claire, to Emerald. 26 miles, for a sum said to be about \$450,000.-V. 72, p. 720, 671.

Chicago Union Transfer Ry. -Progress. -The "Railway and Engineering Review" says:

And Engineering Review says: Notice is given that the switching yards now being built in the Stickney tract, near Chicago, will hereafter be known as the Chicago Clearing Yards. Work on the yards is progressing fast and the com-pany has just completed what will be known as Yard No. 2. This is 3 miles long and $\frac{1}{2}$ mile in width, and contains 105 miles of track. The capacity of the yard is 14,000 cars, and there will be three other yards of about the same capacity. Work is progressing on the hill, from the top of which the gravity switching is to be done. This ele-vation will contain 10,000 car loads of sand and will be twenty feet high, varying in width.-V. 69, p. 1011.

Coahuila & Pacific RR. -Bonds Offered. - The Noel-Young Bond & Stock Co. of St. Louis, Mo., is offering \$200,000 of this road's first mortgage 5 per cent gold bonds at 86.33 and interest. Amount of mortgage, \$2,500,000 authorized; to be issued at the rate of \$12,500 a mile; amount issued, \$1,250,-Capital stock, \$1,500,000. An advertisement says: 000.

Length of road, 200 miles, of which about 80 miles are now com-pleted and in operation, and 100 miles will be in operation by June 1, 1901. The entire road will be completed by Jan. 1, 1902. The road runs from Saltillo, the capital of the State of Coahuila, Mexico, on the main line of the Mexican National RR. to Torreon, the junction point of the Mexican Central and Mexican International railroads. It traverses a fertile valley, 30 to 60 miles wide, between two mountain ranges. The country tributary is rich in agriculture, mines and man-nfacturing industries. Three-fifths of the population of Coahuila (290,000) reside along or in the vicinity of this line. The company has valuable concessions from the Federal and State governments, which grant free importation of materials and rolling stock; 30 years' exgrant free importation of materials and rolling etock; 30 years' ex-emption from all State and municipal taxation, and free use of water (a very valuable privilege in Mexico). It has also been given a sub-eidy of \$752,000 of 6 per cent gold bonds of the State of Coahulla. The road is standard gange, with 60 lb. steel rails and heart ties. The equipment is the best that can be obtained, and includes 4 engines, 6 passenger cars, 3 cabooses and 100 freight cars. The entire proceeds of the sale of the first mortgage bonds and of the \$752,000 gold State bonds go into the construction and equipment of the line.

See also Investors' SUPPLEMENT, page 52.-V. 71, p. 1269.

Columbus (0.) Delaware & Northern Interurban Rall-way Co.—Increase of Stock.—The company has filed articles at Columbus, O., increasing its capital from \$10,000 to \$1,000,-000, and has begun the construction of its road, which will extend from near Columbus, O., to Marion. A press des-patch says that representatives of the Columbus London & Crease of Stock — The authorized capital stock has Springfield and the Springfield Dayton & Urbana electric creased from \$2,850,000 to \$5,000,000.—V. 71, p. 913.

roads have been added to the board of directors, and that the three lines will eventually be consolidated, making part of the proposed system between Cleveland and Cincinnati. See Columbus London & Springfield Ry. in STREET RAILWAY SUPPLEMENT.

Columbus London & Springfield Ry.—See Columbus Dela-ware & Northern Interurban Railway Co.—V. 71, p. 963.

Connecticut Ry. & Lighting Co.—Bonds Offered.—J. & W. Seligman & Co. and Redmond, Kerr & Co., having sold a large amount of the company's present issue of \$9,355,000 first and refunding mortgage 4½ per cent fifty-year gold bonds, offer the remainder at 100 and interest, the subscrip-tion books to be opened and closed on May 9. The limit of issue is \$15,000,000 issue is \$15,000,000; present amount authorized, \$9,350,000, of which amount \$995,000 is reserved with the trustee to redeeman equal amount of underlying bonds, which are being rapidly retired. The remaining bonds can be issued from time to time only for the acquisition of additional plants or property, for new construction, improvements and better-ments, under conditions stated in the mortgage. The com-pany is a consolidation of the several street railway and lighting corporations shown on page 18 of our STREET RAIL-WAY SUPPLEMENT (see also map of system on page 17).

An official statement says:

An official statement says: The railway properties owned by the company cover 161¹/₂ miles of single track. The completed system will connect with the Winchester Avenue RR. into the City of New Haven, and the company will there-fore be enabled to transport passengers from New Haven to Milford, Bridgeport, Stratford, Southport, Shelton, Derby, Ansonia, Westport, Saugatuck. Norwalk, South Norwalk, Darien, Stamford. The company also, through traffic contract with the Hartford Street Ry., is enabled to transport passengers from Hartford to New Britain, Berlin, Plain-ville and Newington. The population served by the street railroads owned is 465,748, an increase of 35^{.2} per cent during the last decade. The gas and electric properties together serve a population of 139,581, an increase of 37^{.6} per cent during the last decade. The net earnings of the constituent companies for the year ending June 30, 1900, were \$505,335. Under economical management there should have been not less than \$50,000 additional profit earned. not less than \$50,000 additional profit earned.

A controlling interest of the stock of the company is owned by the United Gas Improvement Co., Philadelphia, which pays 8 per cent dividends on \$22,500,000 capital stock.—V. 72, p. 136, 44.

Consolidated Traction Co. of Pittsburg.-Bonds.-The \$49,500 bonds of the Transverse Passenger Ry. due May 1 are being paid at the banking house of N. Holmes & Sons, Pittsburg.-V. 72, p. 821.

Denver City Tramway.—First Dividend.—The company has declared a quarterly dividend of 1 per cent payable May 15 to holders of record May 6. This is the first dividend on the stock of the new company.—V. 70, p. 686.

Elgin Joliet & Eastern Railway Co.—New President.—A. F. Banks has been elected President, to succeed C. H. Ackert, resigned.—V. 70, p. 230.

Evansville (Ind.) Electric Ry.—Successor Company.— This company has increased its authorized capital stock from \$50,000 to \$600,000, as successor, it is understood, of the Evansville St. Ry. Co., recently foreclosed. A mortgage has also been filed covering the plant of the former company to secure \$1,500,000 of 4 per cent 20 year bonds. John E. Bowles of the Mills Building, this city, is interested in the reorganization.-V. 72, p. 776.

Fort Scott (Kan.) Consolidated Supply Co — Purchase— Mortg ige.—Press dispatches report that this company,"which now owns every public utility plant in the city except the water works," has made a mortgage for \$200,000 to the Morton Trust Co. as trustee. The Fort Scott Light & Fuel Co. was the latest purchase. The bonds are 3) year 5 per cents, \$500 each, dated Jan. 1, 1901, interest payable January and July at the Metropolitan Trust Co. V. 72, p. 87.

Great Northern Ry.-Extra Dividend.-An extra dividend of one-half of one per cent was paid May 1 from the surplus earnings of the Lake Superior Company (Limited), a corporation organized during the year 1899 1900 to own all the company's interest in the Great Northern Express Co., Great Northern Elevator Co., Sand Coulee Coal Co., and other outside companies. See V. 71, p. 655. Another one-half per cent, it is thought, will be distributed before the end of the year.—V. 72, p. 776, 580.

Hocking Valley Ry.—Car Trusts Called.—Forty-seven Co-lumbus Hocking Valley & Toledo Railway car trust series "A" have been drawn by lot for redemption at par and ac-crued interest on Joly 1, 1901, at the Atlantic Trust Co., 61 William Street.-V. 72, p. 338, 282.

Houston & Texas Central RR.—Called Bonds.—First mortgage bonds for \$50,000 have been drawn by lot and will be redeemed at 110 and interest June 30. See advertisement on another page of to-day's CHRONICLE.-V. 72, p. 821, 671.

Illinois Central RR.-Steamship Line.-The Leyland Line, it is announced, has agreed to run four steamers a week from New Orleans for Liverpool and other European ports. See statement as to steamship lines in V. 72, p. 533.

International & Great Northern RR.—Purchase.—The company having purchased the Calvert Waco & Brazos Valley RR., with its franchises, equipment and rights of all kinds, took possession of the same May 1, 1901, and assumed its liabilities.-V. 72, p. 831, 722.

Lackawanna & Wyoming Valley Rapid Transit Co.-In-crease of Stock — The authorized capital stock has been in-

Lynchburg (Va.) Traction & Light Co.—Consolidation. —Philadelphia and Lynchburg capitalists have purchased and are arranging to consolidate under this title all the street car lines, gas works and electric light plants of Lynchburg, Va. The officers, it is stated, will be Richard D. Apperson, President and General Manager, and R. Colston Blackford Secretary and Treasurer.-V. 67, p. 274.

Mexican Central Ry .- New Interests in Control.- At the annual meeting on May 1, 1901, the following directors were elected:

John R. Davis of Mexico. Justino Fernandez of Mexico. Levi Z. Leiter of Chicago. Pablo Martinez del Rio of Mexico. John J. Mitchell of Chicago. E. Rollins Morse of Boston. Richard Olney of Boston. Charles J. Paine of Boston. Charles J. Perkins of Burlington, Ia. Charles a seventeen directors ten represent the reference of St. Louis. H. Clay Pierce of St. Louis. Frederick H. Prince of Boston. Eben Richards of St. Louis. Albert A. Robinson of Topel Kan. C. D. Simpson of Scranton, Pa. W. L. Stow of New York. J. C. Van Blarcom of St. Louis.

Albert A. Robinson of Topeka,

Of these seventeen directors ten represent the rew stock interests. While the St. Louis & San Francisco has not purchased the road, the control, according to the "Boston Transcript," is held primarily in the interest of that company, and Mr. Pierce, who will be Chairman of the Mexican Central, will shortly be elected a director of the Design of the Director of the St. States and 'Frisco. Mr. Pierce is President of the Waters-Pierce Oil Co., a branch of the Standard Oil Co., and the "Transcript" credits him with being the purchaser of the Kansas City Fort Scott & M. Ry. (Thayer system), also the largest stockholder in the St. Louis & San Francisco, and the owner of the Fort Worth & Rio Grande, these lines controlling about 3,300 miles in the Southwest.

B. F. Yoakum is President of the St. Louis & San Francisco Ry. Mr. Richards is a son in law of Mr. Pierce and John C. Davis is the Mexican manager of the Waters Pierce Oil Co. Mr. Mitchell is President of the Illinois Trust & Savings Co. and Mr. Van Blarcom is President of the Missis-sippi Valley Trust Co. Mr. Simpson is the well known Scranton capitalist and the leading spirit in the El Paso & Northeastern Railway. The last-named road on completion of extensions now building will afford a direct connection of extensions now building will afford a direct connection for the Chicago Rock Island & Pacific Company's Chicago-Kansas City line with the Mexican Central (see map on page 99 of INVESTORS' SUPPLEMENT).

The general offices of the company, is is stated, will be re-moved from Boston to New York, and a change in the capitalization is under consideration whereby preferred stock may be given for the income bonds.

Mr. Pierce, in an interview, said:

Mr. Pierce, in an interview, said: The line will be operated as an independent one, interchanging traine with all of its connections at El Paso on equal terms, includ-ing the Texas & Pacific, Southern Pacific, Atchison Topeka & Santa Fe Railway, and the Rock Island, which will have completed its line from Liberal, Kan., to a connection with the Mexican Central at El Paso, in conjunction with the El Paso & Northeastern Railway during this year. Efforts will be directed to the physical betterment of the property and increasing its traffic through the development of the resources of Mexico. The Pacific Coast line of the Mexican Central, now utder construction to Manzanillo, when completed will become an im-portant factor as a new trans-Continental road, and provide a new line via the Port of Tampico across Mexico to Hawaii and the Philip-plnes.

plnes.

A. A. Robinson will be re-elected President and H. R. Nickerson Vice-President and General Manager. *Report.*—The annual report will be found on pages 870 and

871 to 881 of to-day's CHRONICLE.-V. 72, p. 722, 675.

Mexican International RR.—New Office.—After May 1, The New York offices of the following companies, viz,:

Mexican International Railroad Co., Coahuila & Durango Development Co., Fuente Coal Co., Alamo Coal Co. Coahuila Coal Co., Rio Bravo Coal Co.

are now in Broad Exchange Building, 25 Broad St. See annual report on a preceding page.-V. 70, p. 683, 690.

Missouri Kansas & Texas Ry.—Called Bonds.—Fifty-two (\$52,000) bonds of the Boonville Railroad Bridge Co., drawn for the sinking fund, will be paid on presentation at the Union Trust Co. of New York, trustee, interest ceasing July 1, 1901.—V. 72, p. 821, 722.

Mohawk & Malone RR.-Purchase.-Dr. W. Seward Webb has purchased the Crosby Transportation (steamboat) Co. and the Fulton Chain RR, a 3-mile road extending from Fulton Chain Station on the Mohawk & Malone RR. to Old Forge in the Adirondacks. The price paid is said to have been \$50,000.—V. 71, p. 544.

Mont-Alto RR .- Sold. - At the foreclosure sale on April 27 the property was purchased by President T. B. Kennedy of the Cumberland Valley RR. for \$75,000.-V. 72, p. 391.

New York Central & Hudson River .RR.—Lease.—The shareholders will vote May 21 on a proposition to acquire by lease the railroad of the Beech Creek Extension RR. Co. for a term of 999 years from May 22, 1901.-V. 72, p. 438, 45.

Norfolk & Western Ry.-First Dividend on Common Stock,—The first dividend on the common stock since the re-

.

organization of 1896, viz., 1 per cent, was declared on Thursday payable June 20 to stockholders of June 4. The dividend calls for \$645,000, which is more than covered by the increase of \$815,609 in the net earnings (over ex-penses and taxes) for the nine months ended March 31, 1901, as compared with the corresponding period of the previous year.-V. 72, p. 723, 480.

Pawnee RR.—Sale.—This road, extending from Auburn to Pawnee, Ill., 9 miles, is reported to have been sold to A. M. Burrill of Chicago, representing a Chicago syndicate, which has also purchased about 1,000 acres of coal lands near Pawnee. A new railroad company, it is said, will be incor-porated with a capital stock of \$1,500,000, and will extend the railroad to Sullivan, in Montrie County, and to Waverly, Morgan Courty, to connect with the Chicago Peoria & St. Louis RR.

Pennsylvania RR.-Dividend.-See page 843 of editorials -V. 72, p. 627, 581.

Pittsburg & Western Ry.—Payment of Receivers' Certifi-cates.—The United States Circuit Court at Pittsburg on April 30 authorized Receiver John K. Cowen to borrow from the Union National Bank of Pittsburg the funds required to meet principal and interest of the \$210,000 maturing re-ceivers' certificates issued May 6, 1898.—V. 71, p. 1009.

Rutland RR.-Director.-S. R. Callaway, President of the New York Central, has been elected a director of the Rutland RR. The directors previous to his election were:

Edgar Harding

P. W. Clement, President, Horace G. Young, Geo. H. Ball, E. V. W. Rossiter, John W. Stewart,

W. Seward Webb, George Bird, W. C. Clement. -V. 72, p. 822, 627.

San Francisco & San Mateo Electric Ry.-Purchase Effected-The Baltimore syndicate has formally completed its purchase of the property. The syndicate includes:

J. B. Ramsay, Henry J. Bowdoin, Jenkins Bros., George R. Webb, H. A. Parr, J. L. Blackwell, W. H. Bosley, James A. Gary, W. M. Oler and Seymour Mandelbaum.-V. 72, p. 723.

San Jose & Santa Clara (Electric) RR.-D. L. Center of San Francisco has acquired a controlling interest in this property by the purchase, it is reported, of \$251,450 of the \$500,000 capital stock. The Alum Park RR. is owned by H. Center.

Schuylkill & Juniata RR.-Called Bonds-Sunbury Hazleton & Wilkesbarre Ry. first mortgage bonds of 1878 to the amount of \$14,500 having been drawn, will be purchased at par and accrued interest on June 1, at the Fidelity Insurance Trust & Safe Deposit Co. of Philadelphia.-V. 71, p. 864.

Seaboard Air Line Ry.-Consolidation.-Meetings have been called of the following corporations to act on consolidation with this company :

Raleigh & Gaston RR. Co., Raleigh & Augusta Air Line RR. Co., Carolina Central RR. Co., Georgia Carolina & Northern Ry. Co., Sea-board Air Line Beit RR Co., Palmetto Ry. Co., Chesterfield & Ker-shaw RR. Co. and South Bound RR. Co.-V. 72, p. 822, 776.

Seattle City Ry.-Securities Sold.-The securities held by the reorganization committee have been sold and the Seattle papers believe have been purchased in the interest of the Seattle Electric Co.-V, 62, p. 950.

Sealtle Electric Cc.-See Seattle City Ry. above.-V. 72, p. 582.

Terre Haute & Peorla RR.-Writ Denied.-The United States Supreme Court at Washington has denied the petiticn of the Terre Haute & Indianatolis RR. for a writ of certiorari in the case recently decided in favor of the bondholders of the Terre Haute & Peoria.-V. 72, p. 481.

Texas Railroads.-Law Affecting Bonds.-The Governor of Texas has signed a bill providing that bonds and stocks onistanding against railroad corporations shall not apply on their branch lines or extensions.

Track Elevation in Chicago.-Outly Involved.-The "Railway Age" of Chicago, in its issue of April 26, gives an authoritative statement as to the progress made by the several railroad companies entering Chicago in elevating their tracks in that city, also the ϵ stimated cost of the work already done, and of the work called for under ordinances passed or prepared. The general summary follows:

| | | Grade | |
|--------------------------------|----------|-------------|--------------|
| | Miles of | Crossings | Estimated |
| | Track. | Eliminated. | Cost. |
| Track elevation completed | 318.6 | 389 | \$17,155,000 |
| Ordinances passed and accepted | 1 227 5 | 185 | 9,958,000 |
| Ordinances prepared | 199.7 | 145 | 11,258,000 |
| | | | |
| | | ALC | 202000000000 |

719 \$33,371,000 It may be seen from Mr. O'Neill's statement that while ordinances have been passed for the elevation or depression of 546 miles of track at a cost of \$27,113,000, there remained at the date of his report 1 ro-posed ordinances covering almost 200 miles of track and involving an estimated cost of \$11,258,000 for elevation. Since then about half of these ordinances have been passed and the work is included in the table becauit table herewith.

Even the latest ordinances do not cover all the work yet to be done, for considerable mileage in the heart of the city, reaching the main terminals, is yet to be considered. For the tracks of the Chicago & North Western and the Chicago Milwaukee & St. Paul in Kinzle Street, it is now suggested by the Mayor that the roadway be elevated, leav-ing the tracks depresent their present level. ing the tracks depressed at their present level.

Toledo Bowling Green & Southern Traction Co.-Bonds. -The \$500,000 bonds offered, as reported last week, are part

of an authorized issue of \$1,500,000, secured by mortgage to the Central Trust & Safe Deposit Co. of Cincinnati, as trustee. Capital stock, \$1,500 000. The prospectus says it is proposed to reserve bonds sufficient to build an independent line from Perrysburg to Toledo, 11 miles, whenever a majority of the stockholders determine that is a necessity. Also it is intended to build a consolidated power plant able to supply the entire system. In addition to the properties mentioned in our last issue, the company has purchased control of the Hancock Light & Power Co. of Findlay, O., furnishing 5,000 incan-descent and 400 arc lights, The President of the Traction Company is G. B. Kerfer, Cincinnati; Vice-President and Treasurer, Henry Burkhold; Secretary, James A. Bope, Find-lay, O.-V. 72, p. 822.

Unioa Pacific R.R.-Remarkab'e Demand for Stock.-The transactions this week in the company's shares have been on an enormous scale, more than \$214,779 500 par value of the stock having been sold on the New York Stock Exchange, and the price of the common stock, which on April 23 was as low as 9814, having advanced to 133, closing yesterday at $122\frac{1}{2}$. The belief was commonly expressed that the Vander bilt interests in general, or the North West.-St. Paul companies in particular, were endeavoring to wrest the control of the property from the Harriman Gould syndicate, the latter, it was reported, lacking a majority and being obliged to purchase to maintain its position. Mr. Harriman was reported on Thursday as saying that he had parted with none of his holdings. It is quite possible therefore that the uncertainty as to the syndicate control was due to the recent sale by the company of \$40,000,000 of convertible bonds, which gave the outsiders a call on the stock and thus increased the amount of the stock necessary to enable the syndicate to retain the management.-V. 72, p. 779, 628.

Wabash RR.-Connection with Puttsburg.-Trackage rights into Pittsburg have been obtained for the Wheeling & Lake Erie, which see below. This will do away with the necessity for building a new line into that city, as recently proposed.-V. 72, p. 822, 776.

Wheeling & Lake Erie RR.-New Directors.-At the annual meeting at Cleveland, May 1, the Gould interest assumed control and the following directors were elected:

One year-Edwin Gould. New York; Joseph Ramsey Jr., St. Louis; Winslow S. Pierce and Alvin W. Krech, New York; H. P. McIntosh, Cleveland. Two years-Geo. J. Gould, Cyrus J. Lawrence and W. E. Connor, New York; Myron T. Herrick, George A. Garretson and Robert Blickensderfer, W. G. Mather, D. R. Hanua and E. W. Oglesby, Cleve-land; C. M. Spitzer, Toledo.

Mr. Ramsey, who is Vice-President and General Manager of the Wabash RR., announced that the Wheeling & Lake Erie RR. will continue to be operated as a separate property, but that a close working arrangement will be made between it and the Wabash. He said also that a short line from Jewett, Ohio, on the Wheeling line to Steubenville, would be built, and from the latter point trackage rights over an existing line (understood to be the Pennsylvania) had been secured, giving an entrance into Pittsburg. It is understood that Mr. Ramsey will be elected President.—V. 72, p. 723, 534.

Youngstown-Sharon Railway & Light Co.-Bonds Offered. -Battles, Heye & Harrison of this city and Philadelphia are offering at 102 and interest \$1,000,000 of the \$2,500,000 first mortgage 5 per cent thirty-year sinking fund gold bonds; present issue, \$2,000,000. A circular says:

present issue, \$2,000,000. A circular says: The company will furnish the inter-urban electric railway service between Youngstown and Hubbard, O., Sharon, Sharpsville, South Sharon and Wheatland, Pa. It also controls the elec ric lighting and artificial gas business in Youngstown, Girard and Struthers, O., and Sharon, South Sharon, Wheatland and Sharpsville, Pa. The proper-ties now operating are running five electric power houses; when the reconstruction is completed there will be only one operated. The en-gineers estimate that only about three-fourths of the territory has been covered by these plants. The entire district is noted for its vast iron and steel and miscellaneous manufacturing industries. The Sharon Steel Company's plant at South Sharon is approaching com-pletion, and will, it is said, cost in excess of \$4,000,000 and employ between four and five thousand hands. The remaining \$50,000 bonds are reserved in escrow and can only be issued for improvements when the net earnings are one and one half times the amount necessary to pay interest on all outstanding bonds, together with those proposed to be issued, and then only for 80 per cent of the cost of such improvements, under approval of the trustee, verified through their experts. The securities pledged to secure the bonds are shown on

The securities pledged to secure the bonds are shown on page 86 of our STREET RAILWAY SUPPLEMENT. "These securities, with the exception of \$56,000 in bonds and \$33,000 stock of the Valley Street Railway Co., constitute the entire issue in each case."—V. 72, p. 723, 243.

INDUSTRIAL, GAS AND MISCELLANEOUS.

Algoma Iron & Nickel Steel Co.—Change of Name.—In the bill before the Canadian Parliament to incorporate the Clergue Iron & Nickel Steel Co. of Canada, the name of the concern has been changed to the Algoma Iron & Nickel Steel Co., and the authorized capital stock has been fixed at \$20,000,000 (instead of \$10,000,000), with power to increase to \$30,000,000.

Allis Chalmers Co.-Prospectus.-This company is being organized to unite the business of the following well-known manufacturers of heavy engines, mining and other machinery

Edward P. Allis Co. of Milwaukee. Fraser & Chalmers of Chicago. Dickson Manufacturing Co. of Soranton, Pa., excluding its loco-motive works. Gates Iron Works of Chicago.

The anthorized capital is \$25,0 10,000 preferred and \$25,000, 000 common, of which \$16,250,000 preferred and \$20,000,000

common will be issued. The preferred stock will be entitled to cumulative dividends of 7 per cent per annum, and will have a further preference of 1 per cent non-cumulative after the payment of 7 per cent on the common stock. It will also be preferred as to assets in case of liquidation, and will be convertible into common stock, share for share, at the option of the holder, on any first day of May until and including May 1, 1921, exclusive of any declared dividends.

Vermilye & Co. are organizing an \$11,900,000 cash syndicate to purchase \$3,400,000 preferred stock and \$13,000,000 common, the cash to be used in effecting the purchase of the properties, in providing working capital and means for extension. The existing plants are valued by an expert, excluding good will, at \$9,935,000. The new company will have a working capital of \$10,000,000, including \$2,500,000 to be expended in doubling the capacity of the Allis plant. The combined profits the last two years, after making provision for depreciation and bad debts, it is stated, exceeded 7 per cent on the \$16.250,000 preferred stock, while last year the profits considerably exceeded this amount. It is proposed to take over the business of the several companies as of April 1, 1901, under the management of the present chief officers and owners of the E. P. Allis Co. and Fraser & Chalmers.

The board of directors will probably be as follows:

Edward D. Adams, New York; William W. Allis, Milwaukee; Charles Allis, Milwaukee; Frank G Bigelow, Milwaukee; Mark T. Cox, Or-ange, N. J.; W. J. Chalmers, Chicago; James H. Eckles, Chicago; Wil-liam L. Elkins Jr., Philadelphia; Elbert H. Gary, New York; Henry W. Hoyt, Chicago; William A. Read, New York; Max Pam, Chicago; James Stillman, New York; Edwin Reynolds, Milwaukee; Cornelius Vanderbilt, New York.

The preferred stock, \$8,400,000, is to be offered for sale by the syndicate at 105 and accrued dividend from May 1; the common stock is not to be offered publicly.-V. 72, p. 823.

Edward P.) Allis Co.-See Allis Chalmers Co. above.

Amalgamated Copper Co.-Deposits-Temporary Injunction.-Over 90 per cent of the shares of Boston & Montana and Butte & Boston Cos. have been deposited, but Kidder, Peabody & Co. give notice that owing to the suit brought in New Jersey, in which the Amalgamated Copper Co. is restrained by the court from acquiring the shares of the Bos-ton & Montana and Butte & Boston Cos. until after the hearing set for May 6, there may be some delay in their negotiations with the Amalgamated Co.-V. 72, p. 823, 777.

American Clay Manufacturing Co.—Acquisitions.—The company has purchased the two plants owned by the United States Clay Manufacturing Co. at Lisbon, O. The price is understood to be less than \$500,000. This leaves in this district ontside of the trust:

The Robinson Brothers & Co. and the Summit Sewer Pipe Co. of Akron, and the Granite Sewer Pipe Co. of Mogadore, and a number of smaller companies.-V. 70, p. 688.

American Cotton Co.-New President.-Albert C. Case has been elected President to succeed John E. Searles. Mr. Case is a trustee of the Metropolitan Trust Co. and a director of the American Bridge Co. The directors are:

James G. Cannon, Vice-President of the Fourth National Bank (Chairman). Charles Hathaway, William C. Lovering, Cornelius N. Bliss, David R. Francis. James K. Jones, Maxwell Woodhull, Albert W. Smith and Albert C. Case.-V. 72, p. 481.

American Telephone & Telegraph Co.-Bonds Offered.-Kidder, Peabody & Co. are offering for subscription \$2,500,-000 of the company's collateral trust 4 per cent bonds at $100\frac{1}{2}$ and accrued interest. A circular says:

There are now outstanding \$10,000,000 American Bell Telephone 4s and \$15,000,000 American Telephone & Telegraph Company 4s, mak-ing in all, including this issue, \$25,000,000 4 per cent honds, against which the trustee holds as collateral:

| Name of Company. | Par value. |
|--|-------------|
| Bell Telephone Co. of Philadelphia, | \$4.035.150 |
| Bell Telephone Co. of Canada, Limited | 1,925,900 |
| New England Telephone & Telegraph Co | 8,989,900 |
| Western Electric Co | |
| New York & New Jersey Telephone Co | 659,500 |
| Central Union Telephone Co. 1st mortgage gold 6s | 1.000.000 |
| Iowa Telephone Co. 1st mortgage gold 6s | |
| New England Tel. & Tel. Co. 4 per cent debenture bonds | 581,000 |

The company owns a majority of the stock in practically all these companies, except the Bell Telephone Company of Canada, Limited, of which it owns about 40 per cent. The annual interest requirement for the outstanding bonds is \$1,000,000; net revenue for 1900, after deducting interest and taxes is \$5,466,057.-V.72, p. 777, 677,

American Tobacco Co.-Earnings.-The net earnings for the quarter ended March 31 are reported as \$1,314,661. a decrease of \$228,188 as compared with 1900.-V. 72, p. 823, 724.

American Wireless Telephone & Telegraph Co.—See New England Wireless Telegraph & Telephone Co and Universal Wireless Telegraph Co. in next week's CHRONICLE -V. 70, p. 793.

Atlantic Transport Co.—See Leyland (Frederick) & Co., Limited, below.—V. 71, p. 1014.

Back Bay Park Land Co. of Boston.-Consolidation Plan. The plan for the consolidation of the Boylston Street Land Co., the Boston Water Power Co., etc., and for paying off their mortgages, provides that the Back Bay Park Land Co. shall have the following capitalization:

Mortgage 5 per cent bonds, due in 20 years, but subject to call at 105. No right of foreclosure...... Of which in part payment for land free of mortgages.... Preferred slock, 5 per cent cumulative, redeemable at par. \$4,400,000 3,400,000

All issuable in part payment for land as above...... 3,400,000 6,800,000 4,533,334 Common stock Of which in part payment for land as above.....

The bankers' syndicate agrees to furnish \$1,000,000 cash working capital in return for \$1,000,000 of the bonds and

\$2,266,666 common stock as bonns; also in return for \$2.096,-000 bonds and \$2,445,334 common stock to provide \$2,096,000 cash (or so much thereof as may be needed) to take up existing mortgages not paid by land owners. Land owners have the privilege of themselves taking up the mortgages on their lands, receiving their full proportion of securities, in which case the securities to be paid the bankers' syndicate for taking up said mortgages will be proportionately less. For the Boylston Company there is appropriated \$356,800

For the Boylston Company there is appropriated \$356,800 bonds, \$356,800 preferred stock and \$475,733 common stock, which (after provision for \$250,000 mortgages) will leave for each of the 40,000 outstanding shares \$2.67 in bonds, \$8.92 in preferred stock and \$4.60 in common stock. If the Boylston Company decides to take up the mortgage itself, each share of stock will receive \$8.92 bonds, \$8.92 preferred stock and \$11.89 common stock. As to the Boston Water Power Co., see that company below. The combined properties, it is stated, will own 3,000,000

The combined properties, it is stated, will own 3,000,000 square feet of land, having a tax value May 1, 1900, of \$3,-400,000.

Bangor (Me.) Gas Co.—Offer to Purchase.—The American Gas Light Co. of Philadelphia is offering by circular to pay \$185 a share for the stock of the small holders. The capital stock is \$150,000, in shares of \$100.

Boston Water Power Co.- Consolidation.-Referring to the proposed consolidation under the title of the Back Bav Park Land Co. (which see above), the "Boston News Bureau" recently said:

The Boston Water Power Company receives in the securities of the new company for land conveyed; \$748,700 bonds, \$748,700 preferred stock and \$998,267 common stock, a total of \$2,495,667. \$748,700 in new bonds plus 1 1-6 times their par value in new common will be paid to the bankeres' syndicate for the retirement of \$748,700 of Boston Water Power Co. bonds. These new securities and 500,000 feet of land are the assets behind the Water Power Co.'s 85,00 of shares of stock and \$550,000 bonds which are not retired. The company also has 1,800 shares of old preferred stock, which with accrued interest stand as a debt of \$50,000. The Boston Water Power Co. therefore will have \$748.70 new preferred stock, \$125,000 in new common, and over 500,000 feet of land which the trustees value at \$1,100,000.

Sole Authorized.—The stockholders on Tnesday authorized the trustees to convey the whole or any portion of the com pany's real estate to the trustees of the Back Bay Park Land Co.; also to pay interest on overdue coupons or to make such other arrangements to defer payment of coupons as may seem best.—V. 71, p. 865.

Boylston Street Land Co.- Conscilication.-See Pack Bay Park Land Co. above. The stockholders on Monday, by a vote of 15,549 in favor and 4,555 against, approved the proposed consolidation.

Butte Water Co.—Successor Company —This company has been incorporated in New Jersey, presumably to succeed to the property recently foreclosed. Capital stock, \$2,000,000. Incorporators: C. N. King, Le Grande Bouker and S. C. Smith. A reorganization plan was in V. 70, p. 125; V. 72, p. 283.

Chesapeake & Ohio Canal Co.—Extension of Contract.— Judge Stake in the Circuit Court of Washington County, Md., on April 29 granted the petition of John K Cowen, Joseph Bryan and Hugh J. Bond Jr., surviving trustees, for authority to extend the contract under which the canal is operated until Dec. 31, 19(5. The Judge holds that to sell the canal at the present time, as desired by the State, would be detrimental to the bondholders. The State authorities, it is said, will carry the case to the Court of Appeals. The canal bed, if sold, was expected to be acquired by some railroad company as a route for a new line to Washington and Baltimore, the canal extending from Cumberland easterly to near Washington, D. C., a distance of about 200 miles. The trustees in their petition said:

trustees in their petition said: The guaranteed revenue secured to these trustees by the continuarce for five years longer of the said contract with the Chesapeake & Ohio Transportation Co. [organized in 1893 with \$250,000 capital stock] will not only provide for the payment by these trustees of the unpaid balance of the money borrowed by them for repring and restoring the caual, but will provide a fund of not less than \$350,000 for distribution to such interests as the court may find entitled to roceive the same. Beginning with the calendar year 1896 the said comtract has been in tuil force and effect without interruption or suspension. The canal has been maintained as a navigable highway and in the highest state of efficiency. The said Transportation Company has regularly in each year made good to the trustees its guaranty that the net revenues derived by said trustees over and above the expenses of ordinary operation and repair will not be less in any year than \$100,-000, and any deficiency in net revenues to equal said amount in any year will be made good by said Transportation Company. The Baltimore & Ohio RR, as bondholder is understood to

The Baltimore & Ohio RR, as bondholder is understood to be in virtual control. For the outstanding securities and the amounts held by the State and the B. & O, see V. 67, p. 1109; also see V. 69, p. 1303.

Chlcago Edison Co.—New Stcck.—The stockholders, it is stated, will be asked at their annual meeting in June to authorize an increase in the capital stock, part thereof to be issued in August or September.—V. 70, p. 839.

Consolidated Packing Co., Chicago.—Decrease of Stock. —The company, it is stated, has decreased its capital stock from \$5,00,000 to \$500,000.

Continental Tobacco Co.—*Earnings.*—The net earnings for the quarter ended March 31 are reported as \$975,091, a decrease of \$297,983 as compared with 1900.—V. 72, p. 823, 721.

Dexter Portland Cement Co.—New Stock.—The stockholders will vote at the office in Nazareth, Pa., on May 1 a proposed increase of the capital stock from \$800,000 to \$650, 000, and of the indebtedness from \$60,000 to \$200,000. Joseph Brobston is Secretary.

Diamond State Steel Co.—*Approved.*—The shareholders on Tuesday approved the proposed transfer of the property to the new corporation, "the Diamond State Steel Co.," per plan in V. 72, p.583.—V. 72, p. 778.

Elgin National Watch Co.—Certificates of Indebtedness Called.—The 6 per cent certificates of indebtecness of 1887 now outstanding will be paid, principal and interest. at the offices. No. 76 Monree St., Chicago, on July 1.—See V. 71, p. 1122, 1169.

Empire Coal Mining Co. — Property Acquired. — The "Wheeling Intelligencer" on April 20 said:

The mines taken over by the company are the Rose & Morgan, the Pittsburg & Ohio Coal Company's and the Neff mines It is said to be likely that two other going mines will be acquired in the near future, in fact it was the intention of the company until a few days ago to acquire these two mines on the present deal It is stated that the company will tabe hold of the three going mines in thirty days. Their present ontput is about 500,000 tons annually, and the company proposes to increase the output to 3.500,000 tons by the opening of several new mines. Col. W. P. DeArmitt of Pittsburg is President and General Manager. His headquaters may be located in Wheeling.-V. 72, p. 778.

Equitable Illuminating Gas Light Co. of Philadelphia- *Output.*—The statement of gas sold in the City of Philadelphia for the quarter ending Mar. 31, 1901, as filed at the Comptroller's office, shows ontput, etc., as follows:

| Cubic feet gas- | 1901 | 1900 | 1899 |
|-------------------------|---------------|---------------|---------------|
| 3 months | 1,272,294,800 | 1,158,757,600 | 1,105,295,200 |
| 3 months gross revenue. | | \$1,158,757 | \$1,105,295 |
| Of which city receives | 127,229 | 115,875 | 110.529 |
| -V. 72, p. 244. | | | |

Erie Telegraph & Telephone Co.—Experts' Report.—The "Boston News Burean" has condensed Stone & Webster's report on the properties as follows:

report on the properties as follows: Overhead construction is in accordance with good standards and well maintained. A large part of the construction has been done in past two or three years and the lines as a whole are comparatively new. The underground system is in use in business sections in all of the larger citles. About 40 per cent of the total subscribers are served through underground cable, which contains 48 per cent of the total exchange wire mileage. Average amount of wire mileage underground in Bell system is 52 per cent. The Cleveland Co, has 69 per cent underground; pole lines are all copper wire; 90 per cent of subscribers are using long distance transmitters; this is unusually high. The average age of the entire system is 2 to 3 years. Considering the Erie Co, has only 6 cities of the 52 in the United States with population of 75,000 or more, the proportion of underground wire is very satisfactory. The Erie companies own and occupy 51 buildings and 14 parcels of land; the buildings are generally commodious and creditable. Practically all of the important towns of the territory served are connected by toll lines, which are generally in good condition, being of standard construction. The cost to reproduce the property, exclusive of cost of

The cost to reproduce the property, exclusive of cost of franchises and rights of way, is placed at \$26,300,000.-V. 72, p. 629, 583.

Fort Scott (Kan.) Light & Fuel Co.—Purchase.—This property is reported to have been purchased by the Fort Scott Consolidated Supply Co., which see above.

Fraser & Chalmers.—See Allis-Chalmers Co. above.—V, 71, p. 1313.

General Electric Co.—Manhattan Contract.—The company has been awarded a contract by the Manhattan Railway Co. for its entire train connection, including 1,600 motors.—V. 72, p. 820, 825.

Hartford (Conn.) Electric Light Co.—Incr: ase of Stock.— The directors have voted to recommend the increase of the capital stock from 1,50,000 to 1,400,000, each stockholder to be permitted to subscribe for one new share at par for each three now held. The proceeds, it is stated, will be used to retire bonds of the Hartford Light & Power Co. and to pay for placing wires underground.—V. 70, p. 1151.

Kenton (0.) Gas & Electric Co.—Purchase.—Samuel R. Bullock of New York is reported to have purchased a controlling interest in the \$200,000 capital stock.

Leyland (Frederick) & Co., Llmited.—Mr. Morcan Buys Control of Steamship Company.—It was announced in London this week that J. P. Morgan & Co. had arranged to acquire control of this company through the purchase of most of its £1.200,000 ordinary shares at £14 10s. γ er £10 share, and that he would purchase on similar terms all ordinary shares cffered before May 26. Chairman Ellerman has issued a circular giving the particulars regarding the transaction, and this is accompanied by another circular from the Secretary of the company containing further facts. The directors, including Mr. Ellerman, it seems, hold £886,680 out of £1.200,000 ordinary share capital. and £314,900 out of £1,415,000 preference capital. A meeting of the company will be held May 7 at which they intend to vote to sell the common stock: the preferred they will retain.

ccmmon stock; the preferred they will retain. The Leyland steamers engaged in the Atlantic and West Indian and Pacific service number thirty-eight and aggregate about 206.000 tons gross, this being exclusive of the steamers of the Wilsons' & Furness Leyland Line. Twenty other verels aggregating about 40,000 tons are to be sold back to Mr. Ellerman. The cable despatches also say:

Mr. Ellerman binas himself not to engage, either directly or indirectly, in the North Atlantic trade, either with the United Kingdom or the Continent, except between Antwerp and Montreal, for a term of fourteen years, on condition that the purchasers sell him the Mediterranesn, Portugai and Montreal fleets and the business connected therewith at an agreed on price.

of fourieen years, on condition that the purchasers sell him the Mediterranean, Portugai and Montreal fleets and the business connected therewith at an agreed on price. The report of the Leyland Line for 1900, just issued, says the purchase of the West India & Pacific Steanship Co. has been duly completed. The company also owns upward of 99 per cent of the [£310,-000] capital of the Wilsons' & Furness-Leyland Line, Limi'ed. Steamers of the value of £1,000,000 were recently added to the joint fleets. The directors declared a dividend of 6 per cent on ordinary shares and set aside £370,000 to the account of the reserve fund. The object of the purchase is supposed to be to obtain independent means for exporting the coal and steel output of one or more companies in which Mr. Morgan is interested. President Baker of the Atlantic Transport Line was asked in London if his company is to be included in the deal, but while admitting that advantages would accrue from a closer community of interests, said: "I am not yet at liberty to discuss the arrangements projected. Beyond the Leyland purchase nothing will be settled till I return from the United States in June."

Maryland Brewing Co. – Reorganization Plan. – The following plan of reorganization has been recommended by the bondholders' committee and endorsed by the managers of the proposed new organization and the underwriters of the scheme. The property shall be sold under foreclosure of the mortgage and purchased by the new Gottlieb-Bauernschmidt-Strauss Co., which will issue:

Holders of the old securities paying the assessments below indicated will receive securities of the new company as follows in exchange for their holdings:

The plan reduces the fixed charges from \$450,000 per annum to \$168,750 per annum for first two years and to \$225,000 thereafter. Including the income bonds, the maximum charges will be only \$400,000. The assessments will produce about \$410,000, the plan being underwritten by a syndicate. The managers believe that the new company will pay not only the interest on all its bonds, but after a little time dividends on the stock.

There is some opposition to the plan, and the "Baltimore Sun" says it is thought the committee may perhaps modify it and advise the payment of 4 per cent interest upon the first mortgage bonds from the beginning.—V. 72, p. 823, 678.

Monongahela River Consolidated Coal & Coke Co.—Acquisit:ons.—The stockholders of the Virginia & Alabama Coal Co. at Birmingham, Ala., on April 30 agreed to sell a controlling interest in the company to J. B. Finley and others of Pittsburg, representing, it is understood, this company. A press dispatch further says:

The Monongahela Company has also bought the Southern Coal Co., and negotiations have been concluded practically for the purchase by the same parties of the properties of the Corona Coal & Coke Co. These three companies control the coal output of Walker County, Ala., and last year sold 300,000 tons of coal on the Lower Mississippi [io competition with the Monongahela Company]. The several deals involve \$3,000,000. The Pittsburg company agrees to continue the operation of the mines, which are on the Southern Rallway.-V. 72, p. 390.

New England Electric Vehicle & Transportation Co.— Dissolution Authorized.—The shareholders on Monday voted to dissolve the company and divide its assets —See V. 72, p. 630.

New England Wireless Telegraph & Telephone Co.-Stock Offered. – This company, a licensee of the American Wireless Telephone & Telegraph Co., claims to be constructing instruments for a commercial system from Boston to New York. Series B stock for 100,000 shares, offered at 20 cents per share of \$1, are reported as having been over-subscribed, and 50,000 shares of series C are off red at 30 cents per share. J. N. Huston is President. Office, Boylston Building, Boston. Of the company's stock, \$1,250,000 will be placed in the treasury of the parent company. [See also Universal Wireless Telegraph Co. in next week's CHRONICLE]

New York Air Brake Co.—New Stock.—Shareholders of record May 2 are offered the privilege of subscribing at par until May 29 for their proportion (one share for every four held) of \$1,662,500 capital stock, being a part of the unissued shares now in the treasury. The proceeds will be used to develop the foreign business and to construct additional works. Payment must be accompanied by surrender of the certificates to be issued by the company evidencing the right to subscribe. These certificates are transferable.—V. 70, p. 636.

Northern Commercial Co.—Status of North American Company.—The Secretary of the North American Transportation & Trading Co. is quoted as saying that his company "has no connection, near or remote," with the consolidated company. and that it will continue to do business independently.—V. 72, p. 778.

Northwestern Steamshlp Co.—Line from Chicago to Europe.—The "Northwestern," the first of the Counselmans' four new steamers intended to run from Chicago to Europe, was to sail from Chicago with a miscellaneous cargo on April 24. The vessel has a freight capacity of 3,200 tons, and will complete her loading at Montreal after passing through the canals.

The company was incorporated in New Jersey, September, 1900, with \$1,000,000 authorized capital stock. Incorporators: Eliot Norton, G. G. Day and R. G. Martin.

Pennsylvania Steel Co. — Re incorporated. — The new Pennsylvania Steel Co. was incorporated at Trenton, N. J., on April 29 with \$50,000,000 of anthorized capital stock per

plan given in V. 72, p. 46, 91. Less than 20) shares of the stock, it is stated, is unascented to the reorganization plan. The "Philadelphia News Bureau" says.

The examination of the Cuban Steel Ore Company's ore has been satisfactory as to quality, and the only question is as to its extent. The cbances are that the company will be taken over under the terms of the option, 10 for the preferred and $7\frac{1}{2}$ for the common, which option runs into July. The Pennsylvania Steel Co. paid \$1,200,000 for the Spanish-American Co. The new company to pay its fixed charges and 7 per cent on \$16,500,000 preferred stock, and 4 per cent on \$11,500,000 common, has to make a profit per ton on its finished product, which amounts to 700,000 tons per annum, of only \$2 65 per ton.

Directors.—The following directors are announced:

Luther S. Bent, Arthur Brock, Evans R. Dick, John Cassels, G. H B. Martin, chosen for one year; Edgar C. Felton, Francis I. Gowen Effingham B. Morris. Frank W. Hunnewell, two years; Edward T.. Stotesbury, George Wood, William D. Winsor, Frank P. Hansell, three years.

Mr. Felton is President. Messrs. Stotesbury and Morris are directors of the Cambria Steel Co. -V. 72, p. 725, 678.

People's Gas Light Co. of Rutland, Vt.—*Purchase.*—A majority of the \$70,000 stock has been acquired by a syndicate through the Rutland County National Bank at 50 cents on the dollar.

Port Arthur Land Co.—Objection.—Foreign securityholders have taken steps to prevent consummation of the sale of an undivided half interest in the company's remaining 28 000 acres of land at Port Arthur to the Standard Oil interests. The company was organized by A. E. Stilwell of the Kansas City Pittsburg & Gulf.

Pure Oil Co.—*Pipe Line Opened.*—The United States Pipe Co., controlled by this company, opened on May 1 its independent pipe line from Oil City, Pa., to the seaboard at Marcus Hook on the Delaware River. The capacity is 10,-000 barrels a day.—V. 71, p. 1151.

Rubber Goods Manufacturing Co.—On Unlisted —The company's common and preferred shares were admitted on May 1 to dealings in the unlisted department of the New York Stock Exchange.—V. 72, p. 337.

Saginaw (Mich.) City Gas Co.-Consolidation.-New Bonds.-King, Hodenpyl & Co. of Chicago and the Michigan Truet Co. of Grand Rapids are arranging to merge under this title (or some other appropriate name) with authorized capital stock of \$100,000 first mortgage 5 per cent 15 year gold bonds dated May 1, 1901, all the property, franchises, etc., of the East Saginaw Gas Co. and the Saginaw Gas Co., both of Saginaw, Mich., such property to be acquired free and clear of incumbrance. In acquiring the above properties, \$600,000 of bonds and \$400,000 of stock will be issued. This will provide \$50,000 cash for the treasury, which will be expended in betterments. The remaining \$400,000 of bonds will be held for future extensions and betterments. It is expected that the earnings above interest and fixed charges will be about as follows : 1st year, 3 per cent; 2d year, 5 per cent; 3d year, 7 per cent. "The directors, however, may deem it wise to invest these earnings or a portion of them in betterments rather than to pay them in dividends." Population of Saginaw, 42,345; sales of gas per inhabitant per year, 1,315 feet, contrasting with 3,429 feet in Grand Rapids. It is believed, therefore, the company's business can be largely developed. The \$600,000 bonds (with bonus of 40 per cent in stock) are reported as having been over-subscribed at par.-V. 72, p. 629.

St. Paul Union Depot Co.—Stock Increase.—The company has filed amended articles of incorporation increasing the authorized capital stock from \$350,000 to \$759,000, in shares of \$100 each. The proceeds will be used to acquire additional facilities, etc.—V. 66, p. 1190.

Salem Iron Co.—New Bonds.—The shareholders will vote at the office in the Merchants' & Manufacturers' National Bank building, Pittsburg, Pa., June 26 on "the proposed increase of the indebtedness of the company to \$200,000." N. J. McKeefrey is Secretary.

Tackless Shoe Machinery Co.—Stock Offered.—This company "wishing to acquire more capital for building machines, offers a small block of its treasury stock at one-half of par— \$5 per share." The stock is \$1,000,000, of which \$459,000 is in the treasury; debts. \$16,225. Patent rights are valued in the balance sheet at \$1,000,000; cash (\$511), and other assets (machinery) at \$15,639. H. J. Saeger is Treasurer, 212 Essex Street, Boston.

Tefft Weller Co.—Subscribed.—The 6 per cent cumulative preferred stock (\$1,500,000) recently offered for public subscription was all taken.—V. 72, p. 824.

Tennessee Coal, Iron & RR. Co.—Bond Issue.—The company is proposing to sell \$3,030,000 bonds to complete the steel mill at Easley, and for other improvements. This mill will have an annual capacity of 100.000 tons of rails and 200,-000 tons of steel and other forms. The bonds will be part of an authorized issue of \$15,000,000 fifty-year 5s, \$10,000,000 of which will be reserved to provide for existing liens. The making of rails, it is expected, will begin next fall.—See annual statement on a preceding page.—V. 72, p. 824, 779.

Tennessee Phosphate Co.—Change of Control.—J. B. Atherton and Jeff D. Stewart have purchased control of this company. The property is situated at Mt. Pleasant, Tenn., and it is stated consists of 1,200 acres of phosphate land, a considerable portion of the product yielding about 80 per cent of pure bone phosphate.—V. 69, p. 339.

Reports and Documents.

MEXICAN CENTRAL RAILWAY COMPANY, LIMITED.

TWENTY-FIRST ANNUAL REPORT-FOR THE YEAR ENDING DECEMBER 31, 1900.

OFFICE OF THE MEXICAN CENTRAL RAILWAY CO., LIMITED. Boston, April 22, 1901.

To the Stockhold rs of the Mexican Central Railway Compary, Limited:

Your Directors present the following Report for the year ending Dec 31, 1900:-

MILEAGE.

MILEAGE. The Zamora Extension was completed in 1900 between Chavinda and Tarecuato, 22.58 miles; the San Marcos Ex-tension was completed from La Vega on the Amaca Extension to San Marcos, 29.37 miles; the Parral Line was extended from Parral to Adrian, 12.03 miles, and a branch from Adrian to Santa Barbara, 5.46 miles, was constructed; and the wyes connecting the Parral Extension with the Main Line at Jiminez, .17 of a mile, and the Ameca Ex-tension with the Guadalajara Branch, near Guadalajara, .44 of a mile, not previously reported, are now included. There was also added to the operated line 10.62 miles of new side tracks and 5.30 miles were constructed with the new side tracks and 5.30 miles were constructed with the Zamora Extension, making the total mileage of road on Dec. 31, 1900, as follows:-

| Main Line, City of Mexico to Cuidad Juarez | 1.224.16 |
|--|----------|
| Mexico City Belt Line | 5.95 |
| Santiago Branch, City of Mexico to Santiago | 1.40 |
| Pachuca Branch, Tula to Pachuca | 43.81 |
| Guanajuato Branch, Silao to Marfii | 11.56 |
| Guadalajara Branch, Irapuato to Guadalajara | 161.21 |
| Zamora Extension, Yurecuaro to Tarecuato | 60.72 |
| San Marcos Extension, La Vega to San Marcos | 29.57 |
| Ameca Extension, Guadalajara to Ameca | 55.8 |
| San Luis Division, Chicalote to Tampico | 406.93 |
| Branch to Compania Metalurgica Mexicana Smelter, San | |
| Luis Potosi | 5.19 |
| Bar Extension, Tampico to La Barra | 6.21 |
| Laguna Extension, Lerdo to San Pedro | 39.78 |
| Parral Extension, Jimenez to Adrian | 66.80 |
| Santa Barbara Branch, Adrian to Santa Barabara | 5.46 |
| | |
| Total | 2.124.40 |
| 3.511 | 000.00 |

Attached to this report will be found a map showing the lines of the Mexican Central and other railroads in the Republic of Mexico, and steamship connections with Europe, Havana and ports in the United States.

The Zamora Extension between Yurecuaro and Chavinda, 38.14 miles in length, was added to the operating mileage January 1, 1900, making a total of 2,054.35 miles operated in 1900, compared with 2,016.21 miles in 1899, an increase of 1.89 per cent.

The operations for 1900 compare with those of 1899 as follows:

 Mexican Ourrency.
 1900.
 1899.

 Gross Earnings......\$17,223,878 39
 \$15,602.065 22

 Operating Expenses.
 11,850,194 79
 10,402,970 19
 Increase. \$1,621,813 17 1,447,224 60 Net Earnings..... \$5,373,683 60 \$5,199,095 03 \$174,588 57 The statistics of earnings and expenses for 1900 and 1899 compare as follows STATISTICS OF EARNINGS AND EXPENSES. (Mexican Currency.) 1900. 1899. Increase. 2,016*21 \$7,738 31 5,159 66 2,578 65 38.14 645.79 608.68 37.11 2.12 66.68 GROSS EARNINGS. The increase over 1899 is made up as follows:

| The more the second so made ap as remotion | |
|---|----------------|
| On Local Freight Business | \$724,404 19 |
| On International Freight Business | 510.142 17 |
| On Local Passenger Business | 21,682 20 |
| On International Passenger Business | 64,006 07 |
| On Baggage, Express, Telegraph and Miscellaneous | |
| Business | 130,352 65 |
| - | |
| Total Commercial | \$1,450,587.28 |
| On Freight on Construction Material for new Extensions. | 171,225 89 |
| | |

A total increase, Mexican Currency, of.....\$1,621,813 17 being 10.39 per cent. or exclusive of freight on construction material 9.36 per cent.

While the gross earnings show a gratifying increase over 1899. yet they would have been much larger had it not been for the financial conditions prevailing in Mexico in the last half of the year. A falling off in exports and an appreciation in the value of silver stimulated an abnormal exportation of silver dollars to foreign countries in settlement of trade balances, thereby causing a stringency in the money market which adversely affected all business enterprises, especially the railroads. At no time was the situation serious, however, and the conditions are now gradually improving.

| Totals | | 818.45 | 66.22 | \$141,551,296 53 | \$3.161,241 72 | \$138,390.054 81 | \$13,420.312 66 | 379 88 | | \$5,393 81 | lne. | 185 ·69 |

It will be seen from the foregoing statement that with an increase in operating mileage between 1885 and 1900 of 66.22 per cent, there was an increase in gross commercial earnings of 379.88 per cent, or over five times the increase in mileage, and the commercial earnings per mile operated during the same period increased from \$2,858 50 to \$8,252 31, or 188.69 per cent, and it will te further noticed from an examination of this statement that in every year during the past eight years the gross commercial earnings have increased in a much larger ratio than the additions to the mileage.

OPERATING EXPENSES.

The comparison of classified expenses with 1899 follows : (Mexican Currency.)

| Classification. | 1900. | 1899. | Increase. |
|---------------------------|------------|----------------|--------------|
| Main. of Way and Struc.\$ | | \$2,013,575 76 | \$152,412 32 |
| Main, of Equipment | | 1,833,375 21 | 424,321 25 |
| Trans. aud tralho Ex | | 5,764,310 88 | 718,958 71 |
| General Expenses | 943,240 66 | 791,708 34 | 151,532 32 |
| - | | | |

.

This statement shows an increase for the year of \$1.447.-224 60, but the operations benefited in 1900 to the extent of \$61,566 05 owing to the lower average rate of exchange on the United States Currency Material and Expenses, and which in order to make a proper comparison with the previous year should be added to the expenses as is done in the following table: --

| (Mexlcan Currency.) | | | | | | | |
|---|--|------------------------------|---|--|--|--|--|
| Classification. Main. of Way and Strue.\$ Main. of Equipment Trans. and Traffic Ex General Expenses | 2,267,680(5 6,519,24915 | 1,833,375 21 5,764,310 58 | Increase. \$1: 9,73 > 56 434.305 44 754,938 27 159,203 38 | | | | |
| | | | | | | | |

The expenditures for maintenance of way were 18.28 per cent of the total expenses and increased \$152.412 32, to which should be added \$7,326.24 decrease due to lower rates of exchange, making the total increase in this class of expenses There were 8,203.40 tons of new 75-pound steel rails placed in track on the Mexico Division and 9,292.68 tons of new 75pound steel rail placed in track on the San Luis Division, a total for the year of 17.496 08 tons, or 148.46 miles, compared with 6,784.08 tons, or 57.33 miles, in 1899. Since the rail renewals were commenced in 1896, track has been relaid with 56, 66 and 75-pound steel rail, as follows: -

| | L DUCCE LEALS UN | | |
|--------|------------------|------------|----------------|
| / | Weight of Rail. | Tons. | Fect of Track. |
| 1895 | | 7,263,980 | 369,802 |
| 1896 | | 3,507,107 | 210,426 |
| 1897 | 66 Ib. | 1,878,910 | 95,653 |
| 1893 | 66 lb. | 6,699,233 | 341,051 |
| 1899. | 75 lb. | 6,784.090 | 302,698 |
| 1900 | 75 lb. | 17,496,080 | 783,816 |

During the year 783 fect of wooden trestle bridges were taken out, the drainage diverted by ditching and the openings filled with earth; 1,055 feet were replaced by cast iron culverts; 218 feet by stone culverts; 2,447 feet were replaced by iron structures; making a total of 4,503 feet of wooden bridging replaced by permanent structures or by ditching. At Tamess River, near Tampico, three piers, including the pivot pier, were renewed and the original draw span replaced by one of modern design and increased strength.

All bridges are being replaced. as far as practicable, with permanent structures of stone or iron, or a combination of the two; and only creosoted material is used when wooden structures are rebuilt, insuring a bridge of at least twice the life of one built with untreated timber.

The following shows the replacements of wooden bridg-ing since Jan. 1, 1895:

| anapy wave of the count of | | | | | |

TT I I O

The bridging on the entire line at the close of 1900 was as follows: ballasted deck, 11,556 feet; pile or trestle, (creosoted), 14,879 feet; pile or trestle, (non-creosoted), 25,498 feet; iron, 24.883 feet; total, 76,816 feet.

The expenditures for maintenance of equipment were 19.05 per cent of the total expenses and increased \$424,321.25 over 1899, to which should be added \$9,984-19 decrease due to lower rates of exchange, making the total increase in this class of expenses, \$434,305 44.

The repairs of locomotives include the cost of 12 fire boxes, the construction of 8 tenders and 11,928 boiler tubes. The repairs of freight cars include the cost of rebuilding 163 cars.

Of the 4,398 freight cars shown by the Equipment List, 2,466 or 56 per cent are equipped with automatic couplers, and of the 244 sundry cars 73, or 29.05 per cent, have auto-matic couplers, making a total of 2,539, or 54.7 per cent, so fitted. Of the total 4,642 freight and sundry cars, 4,375, or 94.3 per cent, are equipped with air-brakes.

The expenditures for maintenance of equipment, in 1900 included \$245,000 00 (equivalent of \$120,000 00 U. S. Cy.) credited to Equipment Fund, to provide for replacement of condemned and destroyed equipment. The total amount standing to the credit of Equipment Fund at the close of 1900, as shown by the balance sheet, was \$123,455 76 U.S. Cy.; and the only equipment on the condemned and destroyed list at that time, to be replaced by purchase from this Fund, was one baggage, mail and express car. The provision was made, however, to cover the cost of new engines to be purchased this year, replacing engines worn out, or which, being old and out of date, are too expensive to keep in repair.

The transportation and traffic expenses were 54.71 per cent of the total, and increased \$718,958 71 over 1899, to which should be added \$35,979 56 decrease, due to lower rates of exchange, making the total increase \$754,938 27, the largest part of which was in cost of fuel.

The general expenses were 7.96 per cent of the total and increased \$159,808 38 compared with 1899, including a decrease of \$8,276 06 due to lower rates of exchange. Of this increase \$66,000 00 is due to a charge to general expenses for proportion of duties paid the Government on importations of material in excess of the kilometric allowance. Under contract of June 30, 1886, with the Government, the Company has been granted a yearly allowance on duties on materials imported for use on the operated line. During the past year, however, such duties exceeded the allowance, which explains the charge above referred to. The kilometric allowance granted by the Government expires June 30, 1901, after which time the tariff duties will have to be paid on all importations of material for the operated line, which will cause considerable increase hereafter in the general expenses.

Statement showing the number of freight cars on equip ment list, total tonnage capacity and average capacity per car for the years 1890 to 1900, inclusive:

| • | | | |
|--------------------|---------|-----------|---------------|
| | No. of | Total | Average |
| | Freight | Tonnage | Oapacity per |
| Date | Cars. | Capacity. | Our. in tons. |
| December 31, 1890 | 2.650 | 43,630 | 16.48 |
| December 31, 1891 | 2.674 | 44,420 | 16.61 |
| December 31, 1892 | 2,671 | 44,435 | 16.63 |
| December 31, 1493 | 2,673 | 44,465 | 16.63 |
| December 31, 1894 | 2,677 | 44.500 | 16.62 |
| December 31, 1895 | 2,675 | 49.465 | 18.49 |
| December 31, 1896 | 2,919 | 57,075 | 19.55 |
| December 31, 1897 | 3.845 | 86.745 | 22.56 |
| December 31, 1898, | 3,813 | 87,540 | 22.95 |
| December 31, 1899 | 3,828 | 89,905 | 23.49 |
| December 31, 1900 | 4.398 | 110.685 | 25.17 |

Since 1893 the number of freight cars has been increased 1,725, or about 65 per cent, while the capacity has been increased 66,220 tons, or 149 per cent, of which 13,670 tons, or over 20 per cent, has resulted from the policy of replacing condemned and destroyed cars of 15 and 20 tons capacity by cars of 30 tons capacity, the entire cost of which has been included in the operating expenses.

ADDITIONS, BETTERMENTS AND IMPROVEMENTS.

The additions, betterments and improvements to the operated line, charged to Capital Account, during the year 1900, were as follows: Mex. Ourr'y.Right of Way.\$6.352 98Real Estate.9,342 15Station Gronnds.427 50Clearing and Grubbing.2,254 76Grading59.073 64Ballast.268,344 46Cross Ties.15,425 06Rails.279,553 31Rail Fastenings.2,691 25Track Laying and Surfacing.16.723 27Bridges and Culverts.142,707 26Buildings and Shops.121,723 35Tools and Machibery in Shops.112,136 56Greneral Expenses.60 63Equipment.32,329 91

ated line during the years 1895 to 1900, inclusive, charged to Capital Account, have amounted to \$2,134,490 99 U. S. Curr'y.

A considerable portion of these charges is for new side tracks, station buildings, shops and water stations. In addition to this when old rail weighing for instance 56 pounds per yard is replaced by new rail weighing say 55 pounds per yard, the amount represented by the increased weight of rail is charged to capital account and the balance to operating expenses, together with cost of rail fastenings and labor. Similarly, when a temporary bridge is replaced by a permanent structure, the difference in cost between the new structure and what it would have cost to have renewed the old one is charged to capital account and the balance is charged to operating expenses.

TAMPICO HARBOR.

The depth of channel entering the harbor of Tampico, as shown by the last 1900 chart, is 23.7 feet on the outer bar and 30 feet on the old inner bar, at mean high tide.

During the year the Tampico custom house, in the construction of which your Company has acted as agent for the Mexican Government, was completed, accepted and paid for in full by the Government, and is now occupied.

During the year there were 1,120 cars of rock, containing 15,527.79 cubic yards, placed on the jetties, which have been maintained in good condition.

On Nov. 11 25 bents of the shore end of the merchandise wharf at Dona Cecilia were destroyed by fire, including cars, wharf, tools, etc., the damage amounting to \$45,585 00, Mexican Currency, which was fully covered by insurance.

Below will be found a statement showing the tonnage and value of exports and imports, via the various seaports and gateways of Mexico, for the years 1895 to 1900 inclusive.

TONNAGE AND VALUES OF EXPORTS AND IMPORTS VIA THE VARIOUS SEAPORTS AND GATEWAYS OF MEXICO. (Values of Exports are in Mexican Silver. Values of Imports are in Gold.)

The tonnage of exports and imports through Tampico and El Paso during the year ending June 30, 1900, was 981,937, compared with 803,013 in the previous year, an increase of 178,924 tons, or 22.23 per cent.

The value of exports through all the ports and gateways of the Republic during the fiscal year ending June 30, 1900, amounted to \$150,056,360 Mexican silver, of which \$57,224,-503, or 38.14 per cent, was through Tampico and El Paso, and the value of the imports through all the ports and gateways of the Republic during the same period amounted to \$61,318,175 gold, of which \$15,917,813, or 25.96 per cent, was through Tampico and El Paso; in addition to which a considerable amount of exports and imports via Eagle Pass was delivered to and received from the Mexican International Railroad at Torreon.

.

These figures show the importance of the Mexican Central Railway to the industrial interests of Mexico and the development it is instrumental in accomplishing.

The following is a statement of the cost in United States currency of the Tampico Harbor Company works and property to December 31, 1900, all of which has been advanced by the Mexican Central Railway Company, Limited.

| Preliminary Expensee | | \$3,299 38 |

FINANCIAL.

The Income Account for the years 1900 and 1899, in United States currency, compare as follows:

1900 Inc. or Dec 1899

Surplus..... \$6,092 98 \$99,198 33 Dec. \$93,105 :5 The surplus in 1899 was transferred to the credit of Equipment Fund, for the replacement of condemned and destroyed equipment, while the small surplus in 1900 was carried forward to 1901. The increase in fixed charges during the year was on account of issue of \$5,000,000 of Mortgage Bonds to pay for construction of new lines and improve-ments to the property, and the issue of \$1,000,000 of Equip ment and Collateral Gold Bonds, Second Series, for the nurchase of new compart purchase of new equipment.

The maximum price at which the Company sold Mexican silver dollars was 511/2 cents, and the minimum was 47.23 cents, the average for the year being 48.92 cents, as against 48.41 cents in 1899. average increase of '51 of a cent, United

States currency per dollar. The gain to the Company in 1900 from this increase amounted to \$71,556 88 United States Currency, being at the rate of \$140,307 61, United States Currency, for each cent of appreciation in the gold value of Mexican silver dollars.

The notes payable at the close of the year amounted to ,594,000. This included \$1,000.000 due to the Subsidy \$1,594,000. Trust Fund, which has been standing since 1891, it having been found less costly to carry it as a loan than to sell the Mortgage Bonds of the Company at the prices that have been current. Since the close of the year the Company has made a delivery of \$1,000,000 of Mortgage Bonds under a contract made in 1900, and has also sold \$3,200,000 of First Consolidated Income Bonds, and part of the proceeds has been used to reduce the notes payable, which at the date of

this report stands at \$50%,704 50. The following is the statement of the Subsidy Trust Fund for the year 1900:--

STATEMENT OF SUBSIDY TRUST FUND, BOSTON SAFE DE-POSIT AND TRUSF CO, IRUSTEE, FOR THE YEAR 1900.

(United States Currency)

\$2,460,992 92 Trustee's compensation one year to Dec.1,1900.\$2,500 00 Balance in hands of Trustee, Dec. 31, 1900..... \$2,458,492 92

\$114,079 27

\$111.579 27

An average rate of 5.26 per cent.

At the time the settlement was made with the Government, \$6,122,646 37 of the proceeds were invested in Priority Mortgage 5 per cent bonds to the par value of \$5,597.000. This is an investment by the Trustee for the same purpose as the Subsidy Trust Fund, amounting, as stated above, to \$2,458,492 92, so that the security at the end of 1900 for pay-ment of the interest on the Consolidated Mortgage Bonds amounted to \$8,581,139 29 in addition to net earnings.

IN GENERAL.

Construction work on the new extensions has progressed satisfactorily during the year, the following mileage having been completed: On the Zamora Extension, 22.58 miles between Chavinda and Tarecuato; on the San Marcos Extension from La Vega on the Ameca Extension to San Marcos. 29.37 miles; the Parral Line between Parral and Adrian, 12.03 miles; and a branch from Adrian to Santa Barbara, 5.46 miles. These were turned over to the Operating Department January 1, 1901, a total of 69.44 miles. Work is in progress on the Zapotlan Extension, which will

be completed by November 1st next to Tuxpan, 115 miles from Guadalajara. The Parral Extension will be completed to El Rosario by October 1st next, 97 miles: and the Rio Verde Extension from San Bartolo to Rio Verde, will be completed to Rio Verde, :5 miles, by October 1st. The com-pletion of the above mileage will close out the construction at this time authorized by your Directors.

On the Chibuahua Division the line has been changed for a distance of 10 kilometers, between kilometers 1678 and 1687, and the grade raised from 1 to 2 meters for a distance of 17 kilometers, between kilometers 1661 and 1677

On the San Luis Division the line has been changed at kilometer 439, in the Tamasopo Canyon. to avoid landslides, and the track has been raised on kilometers 414, 529, 530, 531 and between 581 and 606, to place the track above high water.

On the Mexico Division express offices were erected at Irapuato and City of Mexico, and a new round house. c al chute, cinder pit, oil house, double cottage for employes and a wall around the shop yard at Aguascalientes. A new reservoir was built at kilometer 1052, near Jimulco, to se-

cure an additional water supply for locomotives. On the Chihuahua Division a new turn table has been placed at Jimulco. a new water station at Lucero, Superintendent's office at Chihuahua, a new station built at Ciudad Juarez, replacing one destroyed by nre, also a reservoir at kilometer 1293, near Zavalza, for increased water supply. On the Guadalajara Division a new freight house and

tracks have been built at Guadalajara. On the San Luis Division, a vew water tank and crane

have been crected at kilometer 448, and a new reservoir near San Bartolo, for increased water supply.

During the year the following track was thoroughly ballasted with broken rock or volcanic cinder: On the Mexico Division, 38.44 miles; on the Chihuahua Division, 4.86 miles; on the Guadalajara Division, 4.80 miles; on the San Luis Division, 44.91 miles; a total of 93.01 miles, and making a total track ballasted in the last six years of 265.11 miles, at a cost of \$938,141.21 Mexican Currency, which has been charged to Construction Account.

On May 1, for convenience in operating, the Guadalajara Division, covering the territory west of Irapuato, was established with headquarters of the Superintendent at Guadalajara; the Mexico Division was extended from Calera to Jimulco, and the Chihuahua Division was extended to cover the territory west of Jimenez.

The census taken by the Government in 1900 shows the total population of the entire Republic of Mexico to be 13,570,545, compared with 12,632,427 in 1895, an increase in 5 years of 938,118, or 7.4 per cent. In 1900 the population of the 15 States served by the Mexican Central Railway was 8,768,426, compared with 8,169,028 in 1895, an increase of 599,398, or 7.3 per cent, the States showing the largest in-crease in population being Chihuahua, Durango and Mexico.

During the year 1900, exclusive of the City of Mexico and mining industries, 48 manufacturing enterprises have been

established along the lines of your railway, as follows: One brass factory, 4 brick factories, 2 candle factories, 1 chocolate factory, 1 cigarette factory, 1 clothing factory, 7 corn and flour mills, 1 cotton factory, 1 cracker factory, 5 distilleries, 1 glycerine plant, 1 ixtle factory, 1 knitting factory 2 metch factories 1 packing company, 1 metch beer factory, 2 match factories. 1 packing company, 1 paste-board factory, 1 rope and bag factory, 4 shoe and leather factories, 1 smelter, 3 soap and perfumery factories, 3 soda and mineral water factories, 2 starch factories, 1 steel plant and 2 sugar mills; and 2 street car lines have been built at La Piedad, $5\frac{1}{2}$ kilometers, and Penjamo, 6 kilometers, both on the Guadalajara Division.

In November last the Minister of Public Works gave notice to the railroad companies of the Republic that owing to the fact that the Department of Communications and Public Works could not give railway tariffs the study required by law, it had been decided to appoint a Commission for re-vision of tariffs, and the same became operative December 1, 1900. This commission is composed of two Lawyers, one Government Railway Inspector, one Government Director, one Representative from the Department of Communications and Public Works, two delegates from the Railway Com-panies, one delegate from the Chamber of Commerce, one delegate from the Agricultural Association, and a Secretary. All members, excepting the Secretary, have a right to take part in any discussion, but only the first five men-tioned are authorized to vote, Lic. Don. Luis Mendez is President of the Commission.

The Company suffered a loss May 21, 1900, in the death, after a painful illness, of Mr. Henry G. Nichols, one of its Directors. Mr. Nichols became a Director May 3, 1899, and though he served but a short time, his ability and good judgment had made him prominent in the councils of the Company.

The Comptroller's report following gives the Balance, Sheet and Income Account of the Company in United States Cur-rency, and detailed statements of the earnings and expenses in Mexican Currency.

Respectfully submitted by order of the board.

A. A. ROBINSON, President.

COMPTROLLER'S REPORT.

BOSTON, March 28. 1901.

To the Directors of the Mexican Central Railway_Company, Limited. **GENTLEMEN:**

MEXICAN INTERNATIONAL RAILROAD COMPANY.

ANNUAL REPORT-FOR THE YEAR ENDING DEC. 31, 1900.

NEW YORK, March 20, 1901.

The President and Board of Directors submit herewith their report of the Company's transactions for the year ending Dec. 31, 1900.

I. MILES OF ROAD OWNED.

The Company owns and operates the following miles of railway:

| Miles. | Kilomclers. |
|---|-------------|
| Main Line-Ciudad Porfirio Dlaz to Durango540.44 | 869 74 |
| " " Reata to Monierey | 115 54 |
| Branches-Sabinas to Hondo | 20 00 |
| Montclova to Chatro Cienegas | 68.36 |
| Hernos to San Pedro. 14.35 | 23 09 |
| Pedricena to Velardena. 5.82 | 9.37 |
| Matamoros to Tlahualilo | 70.04 |
| Horizonte to Bermejilio 14.00 | 22.53 |
| Durango to Santiago Papasquiaro | 165.75 |
| | |
| Total | 1,364.42 |
| Sidings | 170 01 |
| Total miles of track | 1,534.43 |

The average number of kilometers of road operated for the year was 1.289.92 (8)1.53 miles), as compared with 1,185.53 kilometers (736 67 miles) for the year 1899, an in-crease of 104.39 kilometers (64.86 miles), or 8.80 per cent. The extension from Durango to Santiago Papasquiaro was completed and opened to the public for traffic on Dec. 8, 1900.

Sections of the extension, as completed, were opened to the public for traffic March 24 and May 23, 1900. Further construction of this extension will be continued towards Guanacevi.

II. RECEIPTS AND EXPENSES.

The transportation receipts and expenses (in Mexican currency) for the year were:

.

| Total | 192,736 96 | 24,683 53 | +168,053 43 |
| Surplus | 249,792 71 | 384,330 53 | -134,357 82 |

The income for the year, converted into U.S. currency at 47.04 cents for the silver dollar, amounted to \$1,002,533 97. Of this amount, \$560,004 30. or 55.86 per cent of the total income, was absorbed in the payment of interest on the funded debt and other fixed charges against the year's operations, leaving a surplus of \$442,529 67, U. S cur., over all fixed charges, against a surplus of \$409,014 06 for the year 1899.

In Mexican currency the year's operations show an in-crease of \$733.418 04, or 15.79 per cent, in gross receipts; an increase of \$512,021 27. or 18.99 per cent, in working ex-penses; and an increase of \$221,396 77, or 11.36 per cent, in receipts over working expenses.

Earnings from local passengers were \$595,295 86, and increased \$70,473 04. or 13.43 per cent. Earnings from through passengers were \$62,663 93, and increased \$3,949 77, or 6'73 per cent, over the preceding year. First class passengers formed 13.98 per cent, second class 14.32 per cent and third class 71.70 p. c. of the total number of pa-sengers carried.

Earnings from coal and coke were \$1,140,038 89, and increased \$194,311 49, or 20.55 per cent; earnings from local freight, other than coal or coke, were \$3,010,331 59, and in creased \$433,041 00, or 16.80 per cent; earnings from through freight were \$255,187 47, and decreased \$32,209 63, or 6.66 p.c. The working expenses were \$3,208,282 21, an increase of \$512,021 27, or 18.99 per cent, over the preceding year. A part of this increase has resulted from the considerably greater cost over previous years of material needed in the working of the road, imported from the United States.

The expenses for maintenance absorbed 28.45 per cent, and for operations 30.19 per cent, a total of 59.64 per cent of the gross earnings, against 58.04 per cent in 1899. details of these expenses are shown on Table 9 in pamphlet.

The expenditures for maintenance of way and structures increased \$129,663 15, or 17.52 per cent They include \$33, 026 53, cost of 4.139 kilometers of new line built between kilometers 464 and 469, to reduce the grade to the ruling The remaining increase grade of that division of the line. was principally in : repairs to roadway, \$43,076 22, resulting from the increase in the number of kilometers of roadway and structures required to be maintained and the labor incident to replacing with heavier rails the lighter rails taken up and used in the construction of extensions. Rails and fastenings increased \$11,484 88, and engine houses, shops, station and other buildings, \$38,491 18. There were replaced during the year 177,580 cross-ties, equal to 6.32 per cent of the total ties in track; 2.77 kilometers of 50-pound and 26.43 kilometers of 54-pound rail were replaced with 75-pound rail. The average cost of maintenance per kilometer of main track operated was \$674 19, against \$624 18 in 1899 and \$586 37 in 1898. The material used in making repairs and renewals during the year, and the character and condition of bridges and track, are shown on Table No. 15 in pamphlet.

Expenses for maintenance of equipment increased \$123, 869 04, or 23.07 per cent, and resulted from the greater cost of imported material used in making repairs and renewals, and the greater use of the equipment. Kilometers run by locomotives in revenue service increased 12.20 per cent. cars in passenger train service increased 12.86 per cent, and kilometers run by cars in freight train service increased 20.54 per cent. The expenditures include also \$23,853 45, cost of replacing 10 box, 6 gondola and 3 flat cars destroyed and broken up during the year. Eighteen box, 3 flat and 7 gondola cars were added during the year, and the cost thereof charged against the rolling stock replacement fund. The freight cars owned are now all equipped with air

brakes and automatic couplers. The rolling stock owned and changes therein during the

year, kilometers run and cost of maintenance, are shown on Tables Nos. 13 and 14 in pamphlet.

The expenditures for conducting transportation increased \$240,836 24, or 19.48 per cent. With the exception of an increase of 28 cents per ton in the price of coal, which added to the cost of locomotive service, the increase in all other items of expenses was proportionate to the greater amount of work done by the transportation department, as shown on Tables Nos. 10 and 11 in pamphlet.

The trainload averaged 184.47 metric tons per train kilometer, against 174.17 tons in 1899, an increase of 10.30 tons per train kilometer.

General expenses increased \$17,652 84, or 9.63 per cent. principally: custom house expenses, \$10,364 25; repairs to Company's dwelling houses, \$3,205 00, and \$4,083 59 in other items of general administration.

111. GENERAL REMARKS.

The capital account was increased during the year by the issue of the following 4 per cent First Consolidated Mortgage Gold Bonds, as provided for in Section Second of the deed of trust of August 6, 1897, to the Metropolitan Trust Company of the City of New York:

In payment for construction of 105.00 miles of road from Durango to Santiago Papasquiaro (face value)...\$1,030,000 60 In payment of expenditures for additions, betterments and improvements (face value)..... 200.000 00

Total\$1,230 000 00

Also by the issue of \$2,000.000 00. face value, of the common shares of the company to the contractors who built the Durango division and Monterey division, in release of all further payments under the contract for the construction of said divisions.

There was expended during the year for additions, betterments and improvements \$931,125 56 in Mexican currency, which included \$416,411 62 for new rolling stock. The details of expenditures are shown on Table No. 8 in pamphlet.

The additions to the company's equipment, other than such as has heen charged against the rolling stock replacement fund, have been as follows:

| | Add's, beli'is and | Acquired with | |
|---------------------------------|-----------------------|------------------|--------|
| * | impro'ls. | new road. | Tolal. |
| 6-wheel switching locomotives | 3 | | 3 |
| 10-wheel freight locomotives | 7 | 5 | 12 |
| Baggare, express and mail cars | | 1 | 1 |
| I. and II. class passenger cars | | 1 | 1 |
| III. class passenger cars | | 1 | 1 |
| Box cars | | 100 | 100 |
| Caboose cars | | 5 | 5 |
| Flat cars | | 100 | 100 |
| Gondola cars | 100 | | 100 |

The Company's employes have continued to secure the benefit of the hospital service and medical treatment, established some years ago. which has been maintained with satisfactory results. During the year 3,903 patients have been treated. Contributions to the Hospital Fund amounted to \$19,664 71; expenses were \$19,101 42; surplus on hand December 31 was \$563 29. The balance to the credit of this fund at the close of the year 1900 amounted to \$1,468 44, Mexican currency. In addition to this cash balance, there is held in trust for the fund \$13,000 of this Company's First Consolidated 4 per cent American Gold Bonds, which have been acquired out of the previous accumulations of the fund.

The figures given in the report show a healthy condition of business in the country served by this road, and a moderate increase of earnings by the Company. It is the Com-pany's policy to maintain its properties at a high standard and to improve and extend as rapidly as its finances and business conditions may admit, and as adequate service for the regions depending on its roads may require. It is hoped that the speculative fever for building useless roads and for destructive competitive construction, which prevailed so long and with such disastrous results in the United States, will not further extend in the Republic of Mexico.

It is also hoped that the Federal Government will find a way to prevent the construction, under authority of the separate States, of new roads parallel to the old established lines and within the distance defined in the Federal concessions as protected against parallel construction.

The Board announces with profound sorrow the death of C. P. Huntington, Esq., whose wise foresight and untiring efforts contributed so largely to the construction of the Railways now owned by this Company, and who had a deep and abiding interest in the prosperity of the Republic of Mexico. Copy of the resolutions adopted at meeting of this Board of Directors is appended to this report.

For further details in regard to receipts and disbursements, traffic, working results, rolling stock, etc., reference is made to the accompanying tables of the Controller.

The results shown by these statements are recognized by the Board of Directors as largely due to the faithfulness and devotion to duty of all officers and employes of the Company; and for their conscientious discharge of their duty, the Board of Directors requests the present acknowledgement to be made.

By order of the Board. THOS. H. HUBBARD, President.

more convenient offices at 35 and 37 Broad St. Mr. Gallagher's officers and directors, etc. thorough familiarity with "curb" securities, of which he makes a specialty, has been acquired by long experience gained during his connection with firms doing a large busi ness in this line, which has enabled him from the day he opened up on his own account to fully serve his clients and to add continually to their number.

-The publishers of the "Street Railway Journal" are just issuing the 1901 edition of "American Street Railway Invest-ments," known as the street railway "Red Book." This volume, containing 300 pages (10x14 inches each), contains as nearly as may be statements regarding all the street rail-way companies in the United States and Canada, together

.

-William G. Gallagher has moved from 20 Broad St. to with a description of the plant and equipment, the names of

-The Franklin Bank of Cincinnati is offering for sale at par and interest \$500,000 first mortgage 20-year 5 per cent gold bonds of the Toledo Bowling Green & Southern Trac-tion Co., full particulars regarding which will be found on page 873 of to-day's CHRONICLE and page 823 of last week's issue. See also advertisement.

-Messrs. W. R. Todd & Co. have removed their office in this city from 1 Nassau Street to the new Atlantic Building, 49 Wall Street.

-M. G. Hahn, bond dealer, has removed from 27 William Street to 10 Wall Street.

Toledo (0.) Heating & Lighting Co.-Bonds Called-Cption.-The issue of \$125,000 bonds has been called and will be paid in Toledo at offices of the Security Trust Co. or Secor & Bell, on or before May 1, interest ceasing that date. Holders of the bonds are notified that in lieu of pay. ment thereof they can exchange the same (in amounts not less than \$1,000) without expense, at the offices of said trust company or Secor & Bell, for the new 5 per cent gold refund. ing bonds, tearing the same rate of interest, maturing Jan. 1, 1921, but redeemable on and after Jan. 1, 1911. George H. Beckwith, Treasurer.

Trigg Ship Building Co.-Bonds. -The stockholders have voted to issue \$1,000,000 5 per cent bonds. -V. 72, p. 631.

Union Lead & Oil Co.-Acquisition.-President Homer Wise is given as authority for the statement that the company has purchased more than 7,000 acres of land in the Missouri lead fields.-V. 72, p. 824, 492.

United States Shipbuilding Co.-Consolidation.-H. W. Pcor & Co. are engaged in underwriting the capital stock of this new company, which, according to present plans, is to acquire the plants of the following concerns:

Newport News Shipbuilding & Dry Dock Co. Union Iron Works of San Francisco, Cal. New London Shipbuilding Co. of New London, Conn. Crescent Shipyards of Elizabethvort, N. J. Bath Iron Works and the Bath Windlass Co. of Bath, Me.

The new company, it is expected, will be capitalized at about \$70,000,000, of which one-half is to be preferred stock. No bonds are to be issued. Formal announcement of the plans will probably be made next week.

United States Steel Corporation.—Application to List in London.—Application, it is stated, has been made to list \$800,000,000 of the company's common and preferred stock on the London Stock Exchange.-V. 72, p. 780, 725.

Utica Electric Light & Power Co.-Water Power Plant in Use.—The company on April 18 began transmitting about 1.500 horse power to Utica from the new power plant at Trenton Falls, a distance of $12\frac{1}{2}$ miles. The new plant, when fully completed a few months hence, will have a capacity of about 5,800 horse power, making unnecessary the use of the old steam plant. See V. 69, p. 133, 1348.-V. 70, p, 1000.

Van Choate Electric Co.—Report to Court.—Stephen H. Tyng, Auditor, appointed by the United States Circuit Court to pass upon the claims of creditors, recently reported that the only assets of the company at organization were rights and property turned over by Van Choate. for which he received \$6,000,000 stock, the tangible property being scarcely wortby of consideration. None of the inventions have been a commercial success.-V. 70, p. 284.

Wakefield Water Co.-Not to Sell.-The shareholders on April 24 voted not to sell its pipes. hydrants, etc., i Stone. ham, Mass., to the town for \$75,000, the amount offered .-V. 71, p. 1274.

Webster Coal & Coke Co.-Purchase.-This company, which was recently reported to be obtaining options on nearly all of the bituminous coal mines east of Latrobe, Pa., is now said to have purchased the following, and with them about 500 coke ovens:

Mitchell Coal & Coke Co., Gallitzen Coal & Coke Co., Chest Creek Coal & Coke Co., Beaver Run Land Co., Beaver Dale Water Co., Hast-ings Electric Light Co., Cresson Electric Light Co., Gallitzin Water Co. and Kittaning Coal Co.

The property of John C. Scott & Sons Coke Co. at Summerhill, Pa., it is understood, is included in the purchase. Several millions of dollars are believed to be involved in the several acquisitions.

-J. & W. Seligman & Co. and Redmond, Kerr & Co. offer for subscription at 100 and interest \$8,355,000 first and refunding mortgage 4½ per cent gold bonds of the Connecticut Railway & Lighting Co. The books open at 10 o'clock A. M. Thursday, May 9, and close at 3 o'clock the same day. The bonds are secured by first mortgage, subject only to \$995,000 underlying bonds upon 161 miles of street railway. It comprises the street railway systems of twenty-three cities and towns in Southern and Western Connecticnt, one of the most prosperous districts in the United States, and comprising a population of over 465,000, which population shows an increase of 35 per cent in the last ten years. Among the cities and towns included are Bridgeport, Milford. Stratford, Southport, Shelton, Derby, Ansonia, Westport, Saugatuck, Norwalk, South Norwalk, Darien and Stamford. The company also owns four electric plants, supplying New Britain, Southington, Waterbury, Naugatuck, South Norwalk, Norwalk and Greenwich, and controls the gas companies sup-plying Waterbury and Norwalk. These properties earned, under separate management, \$505,235 net, and it is expected that the consolidation will result in a large increase in earnings and a reduction of the cost of operation. The interest charges of the consolidated company are approximately \$420,000. A majority of the stock is owned by the United Gas Improvement Co. of Philadelphia, which pays dividends of 8 per cent on \$22,500,000 capital stock. The management of the company will be under the supervision of the United Gas Improvement Co. A large amount of the bonds has already been sold to investors and the bankers now reserve the right to allot smaller amounts than applied for.

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, May 3, 1901. More seasonable weather has been quite generally experienced, and the volume of business transacted in nearly all lines of merchandise has been large. Both manufacturers and jobbers, with comparatively few exceptions, have had a good trade, and at steady to firm values. A par-ticularly favorable feature to the buying has been the absence of a speculative demand, the purchases made being almost wholly to cover legitimate trade wants. Prices for the coarser grains have been advanced sharply; the short interest in the May contracts in the Chicago speculative market being badly concard. Gran the Chicago speculative market being badly squeezed. Crop news from both the West and South has been generally favorable. Much replanting of cotton has been reported. The Cuban Commission is now visiting this country. The President has promised to negotiate a treaty with the new government, when organized, including a reduction in the duty on sugar. Shipping circles have been much interested in the big steamship deal consummated this week.

Lard on the spot has been quiet and following a decline in the speculative market prices have declined, closing at 8.40c. for prime Western and 8.5 for prime City. Refined lard has had an active sale, but on a lower basis of values, closing at 8.60c. for refined for the Continent. Speculation in lard for future delivery has been more active but at lower prices, due to freer selling, prompted by larger receipts of swine. The close was easier.

prime yellow. Butter has weakened slightly but the close was steady. Cheese has been quiet. Fresh eggs have weakened slightly but the close was steady.

Brazil grades of coffee have been quiet, buyers generally keeping their purchases close to their actual wants. The pressure to sell, however, has been removed, and there has been a slight improvement in values. The close was steady at 6¼ c. for Rio No. 7. West India growths have had a better sale to jobbers and prices have held steady at Sc. for good Cucuta. Speculation in the market for contracts has been quiet but prices have advanced on stronger foreign advices and reports that the movement of the new crop will not be as early as was generally expected. The close was easier. The following are the closing asked prices.

Raw sugars have been in fairly active demand and higher, closing at $4\frac{1}{4}$ c. bid for centrifugals, 96 deg. test, and $3\frac{3}{4}$ c. bid for muscovado, 89 deg. test. Refined sugar has had a fairly large sale. The close was higher at 5.55c. for granulated. Other staple groceries have been without important changes.

Kentucky tobacco has had a fair sale and desirable grades have been firm. Seed leaf tobacco has been quiet but steady Sales for the week were 1,925 cases; also 650 bales Havana at 38@90c. in bond and 150 bales Sumatra at 85c.@\$1 75 in bond.

Business in the market for Straits tin has been quiet, but the close was steady, with prices quoted at 25.95@26 05c. Ingot copper has been quiet and unchanged at 17c. for Lake. Lead has been unchanged and steady at 4.37½ c. for domestic. Spelter has weakened to 3.95@4 05c. Pig iron has been less active but steady at \$13@16.50.

Refined petroleum has declined, closing quiet at 7.25c. in bbls., 8.25c. in cases and 4.70c. in bulk. Naphtha has been unchanged at 9.05c. Credit balances have declined to \$1 12. Spirits turpentine has declined, closing quiet at 34½@35c. Rosins have been dull and easier, closing at \$1 55@1 57½. Wool has had only a limited sale, but prices have held fairly steady. Hops have been quiet, but with limited offerings prices have been steady.

COTTON

FRIDAY NIGHT, May 3, 1901. THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 88,666 bales, against 72,220 bales last week and 77,282 bales the previous week, making the total receipts since the 1st of Sept., 1900, 6,850,519 bales, against 6,235,684 bales for the same period of 1899-00, showing an increase since Sep.1, 1900, of 614,835 bales.

Speculation in cotton for future delivery has been without spirit and although prices for the week show no pronounced decline, the undertone of the market has been easier and there has been gradual sagging of values. The fact that speculative sentiment throughout the country is bullish, as reflected by the stock market, has had a tendency to check aggressive bear selling, although many of the trade are of the opinion that developments latterly have been of a character unfavorable to the market. Private advices received from the South have reported replanting general where damage resulted from the recent unfavorable weather, although seed is stated to be scarce and bringing high prices. Weather conditions for the week have been reported as gen-erally favorable. The crop movement has continued large, receipts running in excess of all previous records for this season of the year. Cable advices have reported declining markets. Liverpool has been adversely influenced by not only the full movement of the American crop but also the large receipts at Bombay. Reports from the cotton goods trade have not as yet noted any material improvement in business; still, with the advent of warmer weather many anticipate a broadening of demand which they believe will have a decidedly favorable influence upon the cotton market. To day there was an easier market. European advices were decidedly weaker, based, it was stated, on the continued large crop movement, coupled with unsatisfactory trade reports. Favorable crop news and the reports of an increased acreage also had their influence against values. The close was quiet at a net loss for the day of 2@13 points. Cotton on the spot has been quiet and easier, closing at 81/4 c. for middling uplands.

The rates on and off middling, as established Nov. 21, 1900, by the Revision Committee, at which grades other than middling may be delivered on contract, are as follows.

AT THE INTERIOR TOWNS the movement—that is the receipts

The above totals show that the interior stocks have dereased during the week 21,893 bales, and are to-night 268,831 cales more than at same period last year. The receipts at all owns have been 38,916 bales more than same week last year.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.-We give below a statement showing the overland movement for the week and since Sept. 1, as made up from telegraphic "ports Friday night. The results for the week ending May 3 and since Sept. 1 in the last two years are as follows.

| | 1900 | -1901. | 1899-1900, | | | | |
|--|--|---|-----------------------------------|---|--|--|--|
| May 3. | Week. | Since Sept. 1. | Week. | Since Sept. 1. | | | |
| Shipped- Via St. Louis Via Cairo Via Paducah Via Rock Irland Via Louisvilie Via Cincinnati Via other routes, &c. | 6,767 3,216 134 1,301 1,464 4,023 | 209,263 5,086 55,105 127,121 93,586 | 450 427 | 216,090 11,635 12,810 203,697 129,959 | | | |
| Total gross overland Oeduct shipments Overland to N. Y., Boston, &c Between interior towns Inland, &c., from South | | 97,058 | 14,506 4,811 1,761 2,602 | 73,623 | | | |
| Total to be deducted | 9,665 | 554,481 | 9,174 | | | | |

* Including movement by rail to Canada.

The foregoing shows the week's net overland movement this year has been 7,240 bales, against 5,332 bales for the week in 1900, and that for the season to date the aggregate net overland exhibits a decrease from a year ago of 201,429 bales.

WEATHER REPORTS BY TELEGRAPH.-Our advices by telegraph from the South this evening indicate that dry weather has prevailed in most sections during the week, and from a number of points, particularly in Alabama, Mississippi, Texas, Arkansas and South Carolina, there are complaints that moisture is needed. The temperature has been higher From Texas we are advised that the dry hot days as a rule. and cool nights are retarding growth over the central eastern portion of the State. Oar Montgomery correspondent states that the outlook is unpromising and that rain is badly needed. From other districts of Alabama poor stands are reported and scarcity of seed is referred to. Replanting is in progress.

Galveston, Texas.—The bulk of the crop has been planted and shows fairly good stand, except early plantings. In the central eastern portion of the State, however, the dry, hot days and cool nights are retarding growth. There has been no rain during the week. The thermometer has averaged 75, ranging from 66 to 84.

Abilene, Texas.-We have had showers on two days during the week, the rainfall reaching four hundredths of an inch. The thermometer has ranged from 54 to 86, averaging 70.

Brenham, Texas.-Dry weather has prevailed all the week. Average thermometer 67, highest 87 and lowest 46.

Corpus Christi, Texas.—There has been no rain during the eek. The thermometer has averaged 74, the highest being week. 84 and the lowest 64.

Dallas, Texas. - There has been no rain during the week. The thermometer has averaged 72, ranging from 55 to 89.

Henrietta, Texas.-There has been rain on two days during the week, the rainfall reaching thirty hundredths of an inch. The thermometer has ranged from 51 to 87, averaging 69.

Lampasas, Texas.-We have had no rain the past week. Average thermometer 68, highest 86, lowest 50.

Longview, Texas.-We have had no rain during the week. The thermometer has averaged 79, the highest being 91 and the lowest 56.

Palestine, Texas.-Dry weather has prevailed all the week. The thermometer has averaged 72, and ranged from 56 to 86. Paris, Texas.—We have had no rain during the week. The thermometer has ranged from 56 to 90, averaging 73.

San Antonio, Texas.-We have had no rain the past week.

Average thermometer 72, highest 86, lowest 59. Huntsville, Texas.—There has been no rain during the week. The thermometer has averaged 72, the highest being 88 and the lowest 55.

New Orleans, Louisiana.-We have had no rain during the week. The thermometer has averaged 74.

Shreveport, Louisiana.—Dry weather has prevailed all the week. Average thermometer 74, highest 89 and lowest 59.

Columbus, Mississippi .- We have had no rain during the The thermometer has averaged 72, the highest being week. 90 and the lowest 55.

Leland, Mississippi.-About all the cotton has had to be replanted, having been killed by the cold weather. Seed very scarce, and have had to resort to oil mills for a supply, entailing a mixing of varieties and staples. Expect to finish replanting cotton about May 10. We have had rain one day during the week, the rainfall reaching twelve hundredths of an inch. The thermometer has averaged 67.7, ranging from 53 to 87.

Vicksburg, Mississippi.—There has been no rain the past week. The thermometer has ranged from 58 to 90, averaging 74.

Greenville, Mississippi.-The weather has been dry and warm during the week, and unfavorable for replanting cotton

Little Rock, Arkansas.—Planting is about finished. We have had no rain during the week. The thermometer has averaged 74, ranging from 58 to 91.

Helena, Arkansas.-Moisture is needed. Rain has fallen on one day of the week, to the extent of twenty two hundredths of an inch. The thermometer has ranged from 53 to 88, averaging 69.

Nashville, Tennessee.-Replanting of cotton and corn is now in progress. There has been no rain all the week. Average thermometer 70, high-st 90 and lowest 50.

Mobile, Alabama.—The weather has been more favorable and replanting is making good progress. Poor stands are re-ported in some sections. There has been rain on one day of the we-k, precipitation reaching twenty-seven hundredths of an inch. The thermometer has averaged 72, ranging from 54 to 88.

Montgomery, Alabama.—A general rain is badly needed to assist cotton in coming up. The present outlook is unpromising. Planting is about over. Dry weather has prevailed all the week. The thermometer has ranged from 53 to 92, averaging 72.

Selma, Alabama.-Stands of cotton are very poor. Many farmers are waiting for a rain before plowing up. Seed very scarce. We have had only one local shower the past week.

Average thermometer 70, highest 87, lowest 52. Madison, Florida.—The injury from the cold and rain was not so great as first thought, but considerable replanting is nevertheless being done. No rain all the week. The thermometer has averaged 71, the highest being 93 and the lowest 53.

Savannah, Georgia.-There has been no rain the past week. The thermometer has averaged 67, ranging from 51 to 90.

Augusta, Georgia.—About 3,000 bales of this week's re-ceipts are from Charleston. There has been no rain the past week. The thermometer has ranged from 45 to 91, averaging 65.

Charleston, South Carolina.-We have had no rain during the week. The thermometer has averaged 65, the highest being 89 and the lowest 52.

Stateburg, South Carolina.-Reports indicate that some farmers will have to replant the full crop and none less than half. Consequently there is urgent demand for seed, which appears to be scarce, and it seems doubtful whether all will be able to secure a supply in time. Dry weather has pre-vailed all the week. Rain is needed generally and especially for replantings. Average thermometer 69.1, highest 91, lowest 47.

Greenwood, South Carolina,-We have had no rain during the week. The thermometer has averaged 65, the highest being 75 and the lowest 55.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 3 o'clock May 2, 1901, and May 3, 1900.

GOVERNMENT WEEKLY COTTON REPORT.—Mr. James Berry, Chief of the Climate and Crop Division of the U. S. Weather Bureau, made public on Tnesday the following telegraphic reports on the crops in the Southern States for the week ending April 29:

VIRGINIA.-Generally unfavorable for crop growth and work.

NORTH CAROLINA.—Rain early in week delayed farm work, latter part fair, but still too cool aud windy; plowing, planting cotton now actively under way; cotton coming up poorly, stands bad, plants eickly, much replanting necessary.

SOUTH CABOLINA.—Too cool for germination and growth; cotton planting progressing slowly, young plants dying, seed rotting, much replanting necessary, seed scarce.

GEORGIA.—Dry and genorally cool week, although warmer latter portion; showers needed to soften land; much cotton replanted in south section, planting continues in middle and north sections, very ittle up.

FLORIDA.—Frost last day of previous week damaged cotton, and cold of current week retarded growth; warmer weather and showers needed.

ALABAMA.-Practically no rain; cold first few days, some damaged by frost; warmer latter part of week; considerable cotton to be planted, much early cotton killed but being replanted, seed scarce.

MISSISSIPPI. — First of week too cool, latter part favorable; moderate rainfall in central counties, little elsewhere; frost 22d, with previous cool weather, killed cotton, caused some sprouting seed to rot; much replanting of cotton necessary, seed very scarce.

LOUISIANA.—Ideal weather for work; too cool for crops; cotton that came up before frost of 18th was killed. that planted but not up before rain 17th shows poor stand, much replanting necessary; seed scarce.

TEXAS.-Dry, abundant sunshine, days warm, nights too cool for healthy growth; rath needed in many localities, especially southwest portion; bulk of cotton planted, recent planting coming up to fair stands, although some replanting necessary.

* ARKANSAS.-Farm work progressing rapidly; decidedly warm; light rainfall in most sections; early cotton not coming up to good stands, much being replanted.

TENNESSEE.—Cold and wet until middle of week, afterwards warmer. and vegetation began rapid and healthy growth; farm work pushed vigorously; cotton mostly planted.

OKLAHOMA AND INDIAN TERRITORIES.-Cotton being planted.

MISSOURI.—Weather exceptionally favorable for farm work and soil generally in good condition, but warm showers now needed; cotton planting progressing rapidly.

These reports are summarized by the Department as follows:

The unfavorable effects of the frosts the previous week appeared to have been more serious to cotton in the central districts of the cotton belt than was indicated in the preceding bulletin. Much of the cotton that was up prior to the 18th in Louisiana, Mississippi and Alabama was killed, necessitating extensive replanting. The bulk of the Texas grop is now planted and planting is progressing rapidly over the nothern portion of the cotton region. Widespread scarcity of seed is reported from the central and eastern districts.

COTTON CONSUMPTION AND OVERLAND MOVEMENT TO MAY 1. —In consequence of the crowded condition of our columns this week, we omit giving the usual extensive details of the overland movement. Below, however, we present a synopsis for the month of April and the eight months ended April 30, for three years.

JUTE BUTTS, BAGGING, &C.—The market for jute bagging has been dull the past week. Quotations are unchanged at $5\frac{7}{3}$ c. for $1\frac{3}{4}$ lb. and $6\frac{1}{4}$ c. for 2 lb., standard grades. Car-load lots of standard brands are quoted at $6\frac{1}{8}$ @ $6\frac{1}{2}$ c., f. o. b., according to quality. Jute butts inactive with prices nominal at $1\frac{1}{2}$ @ $1\frac{5}{8}$ c. for paper quality and $2\frac{3}{8}$ @ $2\frac{1}{2}$ c. for bagging quality to arrive.

SHIPPING NEWS.—As shown on a previous page, the exports of cotton from the United States the past week have reached 163,473 bales. The shipments in detail, as made up from mail and telegraphic returns, are as follows:

BREADSTUFFS.

FRIDAY, May 3, 1901.

The market for wheat flour has held firm. During the first half of the week, owing to a sagging tendency shown to values for the grain, the volume of business transacted was very moderate, buyers being disposed to hold off for concessions. Subsequentiy, however, following an upward turn to the prices for wheat, the demand for flour improved, fair sales being made to both the home trade and exporters. City mills have had a fairly good sale for export to the West In-dies, and at firm prices. Rye flour has been quiet. Corn meal has advanced in value, reflecting an increase in the cost of the grain. Business has been moderately active, although the advance has checked the domand to some extent.

Speculation in wheat for future delivery has been fairly The tendency of prices early in the week was downactive. ward, the depression being most pronounced on Monday, when for the day values declined $1\frac{1}{8}@1\frac{3}{5}c$. This weakness appeared to result almost wholly from liquidation by longs, in anticipation of free deliveries of wheat on outstancing contracts in May. An unexpected decline in the European markets also had considerable influence against values, as did also favorable weather and crop news from the interior. Statistical developments were generally of a bullish character. The world's shipments and the amount of wheat on passage showed a material falling off, and the United States visible supply also showed a fair decrease. During the second half of the week the market turned stronger, and on Wednesday and Thursday nearly all of the loss in prices was recovered. The menace of the May liquidation was removed and there was considerable buying in anticipation of an upward turn to prices. Sympathy with the advance in values for the coarser grains also strengthened the market. Business in the spot market has been quiet and prices have followed futures. To day there was a higher market early on stronger foreign advices, but during the day the advance was lost under realizing sales. The spot market was quiet. The sales for export here and at outports were 232,000 bushels. DAILY GLOSING PRICES OF NO. 2 RED WINTER IN NEW YORK

Indian corn futures have continued active, particularly in the Western market, where the squeeze of May shorts has had the effect of forcing prices steadily upward. The bull interest, backed by their country following, have appeared to have complete control of the market. The deliveries on May contracts on Wednesday in the Chicago market were understood to amount to about 2,500,000 bushels, but they were quickly absorbed. Subsequent to these deliveries aggressive bidding by the bull interest advanced prices sharply and brought shorts into the market as free buyers. The distant deliveries have reflected the strength of the near-by positions, and many of the trade express themselves as be-lieving that the bull deal will probably be carried into the July options. Crop preparations have been reported as progressing favorably. Business in the spot market has been moderately active, the purchases made including a fair line purchased direct from Chicago. To-day the market opened active and decidedly higher, but during the day reacted under profit-taking sales by longs. The spot market was quiet and easier. The sales for export were 34,000 bushels.

Oats for future delivery at the Western market have been moderately active, and for the May option prices have advanced sharply. The bull interests have been aggressive in their operations. Deliveries on May contracts on Wednesday, the first of the month, were quickly taken up, and buy. ing by nervous shorts to cover contracts has carried prices steadily upward. The spot market has been fairly active and firm. To-day there was a higher market early, but

under realizing sales the advance was lost. The spot market was quiet.

Feeding ... GOVERNMENT WEEKLY GRAIN, &C., REPORT.-Mr. James Berry Chief of the Climate and Crop Division of the U.S. Weather Bureau, made public on Tuesday the telegraphic reports on the grain crops in the various States for the week ending April 29, summarizing them as follows:

WEATHER.—The weck ending April 29 has been by far the most favorable of the season, although the first part was much too cool in the Ohio Valley, Atlantic Coast and east Gulf districts, and on the North Pacific coast. In the States of the Upper Mississippi and Missouri Valleys, and over the eastern Rocky Mountain slope, ideal weather conditions prevailed, the temperature being exceptionally mild and highly favorable for farming operations, germination and growth. growth.

Growth. CORN.—Rapid progress has been made preparing ground for corn planting in the States of the central Mississippi and lower Missouri Valleys, but this work has been much delayed in the Ohio Valley and Middle Atlantic States. Some corn has been planted in Illinois and Nebraska; planting is general in Missourl and Kansas and will begin this week in Iowa if favorable conditions continue. Throughout the central and east Gulf and South Atlantic States the general condition of corn is near owing to unsease pably each and wat weather and much

this week in lowa if favorable conditions continue. Throughout the central and east Gulf and South Atlantio States the general condition of corn is poor, owing to unseasonably cool and wet weather, and much replanting in these districts is necessary. WINTER WHEAT.—Winter wheat continues generally in promising condition. Oklahoma and Texas, however, continue to report damage by insects, and similar reports are now received from Southwestern Missouri. It appears that the effects of the Hessian fly are much less serious than were feared, although this pest is causing damage to some extent, especially in the Ohio Valley. On the North Pacific coast wheat has made slow growth in consequence of low temperatures. In Central and Northern California wheat has been greatly benefited by rain, although late grain in some sections will be cut for hay. SPRING WHEAT.—Excepting high winds in the Dakotas during the latter part of the week, which uncovered in places, and in others deeply covered late sown spring wheat, ithe conditions have been highly favorable for seeding and germination, the former being well advanced over the northern portion of the spring-wheat region and practically finished on the North Pacific coast. OATS.—Oat seeding continues late in portions of the Middle Atlantic States, but has made favorable progress in other districts where not finished. The reports respecting this crop are generally favorable. Insects continue injurious in Oklahoma and Texas. The movement of breadstuffs to market as indicated in the

The movement of breadstuffs to market as indicated in the statements below is prepared by us from figures collected by the New York Produce Exchange. The receipts at Western lake and river ports for the week ending April 27, and since Aug. 1, for each of the last three years have been:

* Includes stocks in private elevators at Milwaukee. *Stocks in private elevators at Milwaukee not included NOTE.—Beginning Jnly 1, 1899, the New York Produce Exchange has changed its Visible Supply Statement by including stocks at New Orleans, Galveston, Ft. William and Pt. Arthur (previously omitted) and leaving out Albany Oswego and Cincinnati, formerly included.

THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., May 3, 1901.

Several days of fine weather have helped the demand for dry goods, but not sufficiently to impart any activity to the market at first hands. The retail trade has shown an improvement, but retailers are fairly well stocked with merchandise and the effect of a more liberal distribution by them must be slow in making itself felt to any extent in other quarters. The primary market shows considerable irregularity. In cotton goods the export demand has cleaned up most stocks of export grades and some of these are fully 1/3c. higher than a week ago. On the other hand print cloths have been reduced 3.16c. at Fall River and allied fabrics are in consequence generally weaker here. The print cloth situation is the weakest feature in the market just now. The curtailment of production entered upon in March has not brought a reduction of stocks to any extent, nor prevented a material decline in prices. There is talk of the curtailment being prolonged and also of a reduction in wages, but no definite policy has been decided upon as yet for the action to be taken when the present short time agreement expires.

WOOLEN GOODS.-The orders for men's wear woolen and worsted fabrics during the week have been disappointing in both number and volume. Clothiers show no sign of throwing off their previons conservatism and are slow in supplementing their original purchases of heavy-weights, while practically neglecting light-weights. The market for both staple and fancy lines of trouserings and suitings is irregular. There are no quotations lower than a week ago, but if a good business could be drawn out, there are sellers who

would be willing to make concessions. In a few lines business has been good enough to put sellers in a few lines busi-ness has been good enough to put sellers in a firm position. For overcoatings and cloakings the demand has been quiet and without special feature. In dress goods developments have been few and have not helped conditions, the market continuing quite irregular. Flannels and blankets are in quieter demand than usual for the time of year and irregular in price.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending April 29 were 2,699 packages, valued at \$177,183, their destination being to the points specified in the tables below:

| NEW YORK TO APRIL 29 | | 1901. | 1900. | | | |

The value of the New York exports for the year to date has been \$3,066,664 in 1901, against \$6,226,978 in 1900. Quotations of standard and 3 yard sheetings and drills

have been advanced in leading brands 1/8 2, for export cuts, but there has been no change in the market for home lengths which are still easy to buy at irregular prices. In bleached cottons both the jobbing and manufacturing trades continue conservative buyers, and the demand is freely met. There are no open reductions in quotations, but the market is irregular. Wide sheetings are quiet and unchanged. Cotton flannels and blankets also quiet. Denims in limited request and prices easy. Ticks dull and irregular and other coarse, colored cottons in indifferent request, with ready sellers. Prints in both fancy and staple lines are quiet and tending in favor of buyers. Percales weak with a slow demand. Napped fabrics of all kinds are quiet, but best makes well sold ahead. Ginghams are without change. Print cloths have been reduced to the basis of 2 9-16c. for regulars, but no general demand. Wide goods quiet and easier.

FOREIGN DRY GOODS.-Fine grades of dress goods are in fair demand, but other descriptions quiet. Silks are steady, with a moderate business and ribbons quiet. Linens very firm in price, but demand indifferent. Burlaps firm, but only small orders coming forward.

Importations and Warehouse Withdrawals of Dry Goods The importations and warehouse withdrawals of dry goods at this port for the week ending May 2, 1901, and since January 1, 1901, and for the corresponding periods of last year are as follows:

* Average of dates of maturity. † Subject to call in and after the earlier year and mature in the later year. §Not including \$1,606,000 of temporary loans reported and which do not belong in the list; also does not include \$1,937,426 of Canadian loans reported. ¶ Taken by einking fund as an investment. ‡And other considerations.

Bay County, Mich.-Bonds Valid.-Judge Shepard lately handed down an opinion holding that the recent action of the State Legislature in passing an Act legalizing the \$100,000 $3\frac{1}{2}$ % 30-year road bonds voted in April, 1900, has cured all irregularities complained of in a suit brought to restrain the issuance of these bonds. The Judge states, however, that as all the questions involved are serious ones and as the matter is one of great importance to the taxpayers the highest Court of the State should pass upon the questions raised and determine the legality of the bonds before they are issued. Cincinnati, Ohlo.—Lease Cincinnati Southern Railway.-

The trustees of the Cincin. Southern Ry. on April 27 received a communication from President Spencer of the Cincinnati New Orleans & Texas Pacific Railway accepting the terms and conditions of the resolution passed by the trustees on

April 16, as mentioned in the CHRONICLE April 20 on p. 787. Connecticut.—Savings Banks Investment Law.—On page 850 in our editorial columns will be found in full the Act passed by the State Legislature of Connecticut and approved April 30 revising the laws of that State relating to the investments of savings banks.

Tennessee.—Legislature Adjourns.—The State Legislature adjourned on April 25, 1901.

Bond Proposals and Negotiations this week have been as follows :

Adrian, Mich.-Bonds Proposed.-The issuance of \$50,000 improvement bonds is being considered.

Securities are all in denomination of \$1,000, dated April 1, 1901. Interest will be payable semi-annually.

Bona Offering. - Proposals will be received until 12 M., May 25, by J. P. Madigan, City Auditor, for \$100,000 4% 20-year intercepting sewer bonds and \$200,000 4% 10 year sewer district bonds. Securities are in denomination of \$1,000, dated

American Exchange National Bank, New York City. A cer-tified check for 5% of bonds bid for, payable to the "Treas-nrer of the City of Cleveland," must accompany proposals. All bids must be made on blank forms, which can be obtained from the City Auditor.

Coaticook, Quebec.-Debenture Election.-The rate-payers of this place will vote on a by-law for a loan of \$29,000 at 4% interest.

Collinwood, Ohlo.-Bond Sale.-On April 11 the four issues of bonds, aggregating \$90,000, were awarded to W. J. Hayes & Sons, Cleveland, as follows:

\$40,000 4% 25-year water bonds...101.68 | \$22,000 4% 15-yr. elec.-light bds...101.14 12,000 5% 20-yr. drainage bonds.105.29 | 16,000 4% 25-year bonds......101.14 For description of bonds see CHRONICLE March 30, 1891,

p. 638. Columbus, Ohio.-Bonds Authorized by Council.-The City Council on April 29 passed an ordinance providing for

the issuance of \$110,000 4% 30-year electric-light bonds. Concord, N. C.-Bond Election Authorized.-The recent Legislature authorized this town to hold an election to vote on the question of issuing \$150,000 bonds for various purposes. If authorized, these bonds are to be in denomination of not less than \$1,000. Interest will be payable January 1 and July 1, at a rate not exceeding 5%. Principal will mature in forty years. Crafton School District, Allegheny County, Pa.-Bond

Offering.-Proposals will be received until 8 P. M., May 15, by the Board of School Directors, Harry A. Meredith, Secretary, for \$55,000 4% bonds. Securities were authorized at the election held in February, 1901. They are in denomination of \$1,000, dated May 15, 1901. Interest will be payable semi-annually at the Metropolitan National Bank, Pittsburg. Principal will mature yearly on May 15 as follows: \$1,000 yearly from 1903 to 1909, inclusive, and in 1911, 1913 and in 1915; \$2,000 each year in 1910, 1912, 1914, the same amount yearly from 1916 to 1922, and in 1924 and 1926; \$3,000 each in 1923, 1925 and from 1927 to 1931. Bonds are free from tax. A certified check for \$500 must accompany proposals. Accrued interest is to be paid by purchaser. A bill for an injunction to restrain the board from issuing these bonds was filed in the March (1901) term of the Common Pleas Court No. 1 of Allegheny County and upon hearing was dismissed.

Dallas County, Texas.-Bonds Proposed.-The County Commissioners are considering the issuance of \$100,000 3% refunding bonds.

Dalton (Mass.) Fire District.-Bonds Voted.-At a meeting of this district held April 29 the issuance of \$25,000 bonds for the extension of the water works was authorized. We are advised by John D. Carson, Treasurer, that nothing will probably be done towards issuing any of these bonds at present.

Danville, Va.-Bonds Proposed.-At a meeting of the City Council held April 19 an ordinance was introduced to authorize the issuance of \$160,000 4% 30-year refunding bonds.

Decatur County, Ind.—Description of Bonds.—The \$38,830 41/2% Jackson Twp. bonds which we stated last week had been sold to the Third Nat. Bank of Greensburg at 102.43 are

been sold to the Third Nat. Bank of Greensburg at 102'43 are in denomination of \$970 75, and will mature one bond each six months, beginning May 15, 1902. They are dated April 15 and the interest will be payable May 15 and November 15. Delta County (P. O. Escanaba), Mich.—Bond Offering.— Proposals will be received until 12 M., May 15, 1901, by Alfred P. Smith, County Clerk, for \$20,000 4% jail bonds. Securities are in denomination of \$500, dated July, 1, 1901. Interest will be payable semi-annually at the office of the County Treasurer. Principal will mature \$4,000 yearly on July 1 from 1902 to 1906, inclusive. A certified check for 2% of bid from 1902 to 1906, inclusive. A certified check for 2% of bid, payable to the County Clerk, must accompany proposals. These bonds were originally advertised for sale on May 1, 1901, but the Board of Supervisors on April 24 made a change in the maturity of the bonds, necessitating a postponement of the sale as above.

Detroit, Mich.-Bonds Authorized.-The Common Council has passed a resolution authorizing the Board of Water Commissioners, the Board of Estimates consenting thereto, to issue \$50,000 31/2% 30-year water-works improvement bonds.

Dublin, Ga.-Bonds to be Issued.-This place will probably advertise for sale in the near future an issue of \$25,000 school and city improvement bonds.

East Cleveland, Ohio.—Bond Offering.—Proposals will be received until 12 M., May 13, by H. B. Chapman, Village Clerk, for \$20,000 4% sewer bonds. Interest will be payable semi-annually at the Cleveland Trust Co., Cleveland, and the principal will mature May 1, 1921. A certified check for \$2,000, payable to the village of East Cleveland, must accom-pany proposals pany proposais.

Erving, Mass.-Loan Authorized.-At a town meeting held April 11 it was voted to borrow \$4,000 for school-house purposes.

Findlay, Ohio.-Bonds Authorized.-The City Council has authorized \$3,000 4% 1-8-year (serial) crematory bonds. Securities will be in denomination of \$1,000, dated May 1, 1901. Interest will be payable semi-annually at the Fourth Na-tional Bank, New York City.

Fort Atkinson, Wis.—Bond Sale.—The \$35,000 31/2% water bonds advertised for sale on April 3 have been awarded to a Chicago firm. For description of bonds see CHRONICLE March 23, p. 592.

Foxboro, Mass.-Loan Authorized.-The Treasurer has authority to borrow \$20,000 in anticipation of the collection of taxes.

.

Franklin Township, N. J.-Bond Offering.-W. Acker-man, District Clerk (P. O. Nutley); will receive bids until 8 P. M., May 14, for \$18,000 4% 30 year gold bonds. Fulton County, Ohio.—Bond Sale.—This county has sold at par an issue of \$9,000 5% court-house repair bonds. Secu-

rities are in denomination of \$1,000. Interest will be pay-able semi-annually. Principal will mature \$3,000 on Jan. 1, 1902, a like amount on July 1, 1902, and likewise on Jan. 1, 1903.

Gardner, Mass.-Bids.-Following are the bids received for the \$50,000 31/2% 1.25-year (serial) sewer scrip :

C. S. Cummings & Co., Boston..103 29 Rogers, Newman & Tolman, Bos.103 227 Jose, Parker & Co., Boston......103 111 Adams & Co., Boston.......102 61

Securities are all dated June 1, 1901, and will mature one bond of each issue yearly on June 1 from 1902 to 1911, inclu-sive. Interest will be payable annually at the Franklin Bank of Cincinnati. Bids for each issue must be made separately and must be accompanied by a certified check for 2% of bonds bid for.

Omaha, Neb.—Bond Eale.—On April 29 the \$74,000 4% 20-year sewer and the \$74,000 4% 20 year paving bonds were awarded to Hugh Murphy at 108.108—an interest basis of about 3.437%. Following are the bids :

For description of bonds see CHRONICLE April 20, p. 790. Oregon City, Ore.—Bond Sale.—On April 25 the \$30,000 5% 20-year gold refunding bonds were awarded to A. G. Klos-

termann, Portland, at 109 666. Following are the bids: A. G. Klostermann, Portl'd.. \$32,900 00 W. J. Haves & Sons, Cleve... \$30,100 00 H. Kleybolte & Co., Cincin... 31,660 00 Mrs. H. Hanley (for \$15,000). 15,750 00 H. A. Townsend...... 31,615 00

For description of bonds see CHRONICLE April 13, p. 739. Palmyra Township; Douglas County, Kan.—Bond Elec-tion.—On May 27 the question of issuing \$22,000 railroad-aid bonds will be voted upon.

Parker, S. Dak.-Bonds Voted.-At the election held April 30 the proposition to issue \$10,000 bonds carried by a vote of 171 to 23. Full details of these bonds have not yet been determined upon.

Paxton, Mass.—Bonds Authorized.—This town has authorized the Treasurer to borrow \$5,000 at 4% to refund school-house debt.

Payson School District No. 6, Utah County, Utah.—Bond Offering.—Proposals will be received until 12 M.. May 15, by Mrs. Millie Stark, Clerk of the School Board of Trustees, for \$10,000 6% bonds. Securities are dated June 1, 1901. Interest will be payable semi-annually at Payson City. Principal will mature \$3,300 on Dec. 1, 1901; a like amount on Dec. 1, 1902, and \$3,400 on Dec. 1, 1903. A certified check for 1% of the amount of the bid must accompany proposals. The above district is free from indebtedness and the assessed valuation is \$689,871

Peoria Township, Ill.—Bond Proposition Rejected.—The Board of Town Auditors has refused to accept a proposition made by Farson, Leach & Co., Chicago, to refund an lesue of \$7 bonds now outstanding and held by that house by a new issue of \$73,000 4% bonds. The old bonds were issued Dec. 1, 1890, and mature in twenty years after that date, but are subject to call at the end of any year after ten years. The board thinks that the township will do better to offer the re-funding bonds for sale rather than to accept the bid of the Chicago firm at this time. As the old bonds cannot now he Chicago firm at this time. As the old bonds cannot now be called until December, nothing more will be done in the matter of retunding until later in the year.

Perry, N. Y.—Bonds Voted.—At a special election held in this village recently the issuance of from \$40,000 to \$54,000

bonds for a sewerage system was authorized. Perry County, 111.—Bond Election.—An election will be held on May 21 to vote on the question of issuing from \$160,-000 to \$165,000 bonds to take up the outstanding debt. These bonds were contracted for by Farson, Leach & Co., Chicago, at a special meeting of the County Commissioners held re-cently. The Chicago firm agreed to take 4d bonds provided cently. The Chicago firm agreed to take 4% bonds provided they are authorized at the election. See STATE AND CITY SUPPLEMENT for April, 1901, page 100.

Perth Amboy, N. J.-Bonds Proposed.-The issuance of \$10,000 4% reservior bonds is being considered.

Peru, Ind.-Subsidy Voted.-At the election held April 23 this city voted a \$60,000 subsidy to the Cincinnati Rick mond & Muncie Railroad.

Loan Authorized.—A temporary loan of \$5,000 for the water department has been authorized.

Pern Township, Ind.-Subsidy Voted.-This township has voted a \$15,000 subsidy to the Cincinnati Richmond & Muncie Railroad. As stated above, the city of Pern has also voted to subsidize this road.

Pctoskey (Mich.) School District.—Bond Election.—An election will be held early in July to vote on the question of issuing \$7,000 refunding bonds.

.

Petrolia, Ont.-Debenture Sale.-On April 15 the \$17,426 23 41/2 debentures were awarded to G. A. Stimson & Co., Toronto, at 103 90.

Pittsburg (Pa.) Minersville Sub-School District.-Bonds to be Issued.-An issue of \$40.000 bonds to fund \$15,000 floating debt and to build a new school house will be made by this district.

of \$525 and forty of \$250 each. Interest will be payable semiannually. Principal will mature \$2,075 yearly from 1902 to 1921, inclusive.

Pontlac (Mich.) School District.-Bond Election.-An election will be held in this district to vote on the issuance of \$25,000 school house bonds.

Port Horon, Mich.-Bonds Authorized.-Local reports state that the Board of Estimates has anthorized the issuance of \$100,000 canal bonds.

Portland, Ore.-Bond Sale Declared Off.-We are advised by Thos. C. Devlin, City Auditor, that the bid of E H. Rollins & Sons, Boston, made April 15 for the \$56,500 refunding bonds, was conditional upon the approval by their attorneys of the charter provisions under which the bonds were to be issued. The attorneys have disapproved of the said bonds, and in consequence thereof the sale has fallen through. The city has made other arrangements relative to meeting its obligations on May 1, and will not in the immediate future refund the issue of bonds then due.

Portsmouth, Va.—Description of Bonds.—The City Coun-cil has authorized \$11,500 4% bonds to take up an issue of paving bonds which will mature June 1, 1901. Six bonds will be in denomination of \$1,000 and eleven of \$500 each, all dated June 1, 1901. Interest will be payable at Ports-month, and the principal will mature June 1, 1931. The

date for the sale of these bonds has not yet been fixed. Powell County (P. 0. Deer Lodge), Mont.—Bond Offering. —Proposals will be received until 8 P. M., June 5, by James H. Mills, County Clerk, for \$75,000 4% bonds. S-curities are in denomination of \$1.000, dated July 1, 1901. Interest will be payable semi annually at the office of the County Treas-urer. Principal will mature July 1, 1921, subject to call after July 1, 1911. A certified check for \$1,000 must accom-pany proposals. This county was formed by legislative Act, session of 1901, out of Deer Lodge County, assuming \$62,-663 93 of the indebtedness of the old county. The above bond issue will be used to pay off the warrant, indebtedness bond issue will be used to pay off the warrant indebtedness of the new county and the \$62,663 93 indebtedness mentioned. The valuation of property in Powell County is \$2.496,000.

Providence, R. I.-Bond Ordinances.-The Common Council has passed ordinances providing for the issuance of \$90,-000 water and \$300,000 sewer bonds.

Reading (Pa.) School District.—Bond Offering.—Sub-scriptions will be received by the Treasurer of the district from May 6 to May 15 for \$40,000 31/2% 5 30 year (optional) bonds. Securities are in denomination of \$100, dated June 1, 1901. Subscribers will be limited to one bond, which must be applied for in person. Ten per cent of the amount must be paid at the date of subscription. F. Roland Jr. is Secretary of the district.

Redlands, Cal.-Bond Election.-The City Trustees have decided to call an election to vote on the question of issuing bonds for the purchase of a municipal water system.

Reno, Nev.-Bond Sale.-The sale of \$13,000 5% 8-year (average) bonds to the Washoe County Bank of Reno at par is reported.

Rhinebeck (N. Y.) Union Free School District No. 5.-Bond Sale.—On April 16 the \$5,000 4% bonds described in the CHRONICLE April 13 on page 740 were awarded to the Rhinebeck Savings Bank at 104.31.

Rochester, N. Y.— Temporary Loan.— In April 29 this city negotiated a loan of \$645,000 with C. S. Lunt & Co., Rochester, at 3.80%. A bid at the same rate was also received from Dunscomb & Jennison of New York City. The only other bid submitted was by the Security Trust Co. of Rochester, which institution offered to take \$125,000 of the notes at 4% and \$10,000 at 4 1/4%.

Rocky Mount, N. C.—Bond Sale.—This place has sold \$40,0105% 40-year water, light and sewer bonds and \$15,000 5% 40-year school bonds to Rudolph Kleybolte & Co., Cinnati, at 102, according to local reports.

St. Joseph, Mich.-Bond Sale.-On April 30 the \$10,000 4% 20 year bridge bonds were awarded to Trowbridge & Niver Co, Chicago, at 105.81. For description of bonds see CHRON-1CLE April 20, p. 790.

St. Paul, Minn.-Certificate Sale.-The City Treasurer on April 20 sold \$37,500 certifi ates of indebtedness. These certificates are issued against property on which taxes for local improvements are delinquent.

San Diege. Cal.—Bond Offering.—At the election held April 20 the proposition to issue \$600,000 4½¢ water-works bonds carried by a vote of 2,369 to 142. Proposals for these bonds, accompanied by a certified check for \$15,000, will be

received until 7:30 P. M., June 17, 1901. Sault Stc. Marie (Mich.) School District.—Bond Offer-ing.—Proposals will be received until 4 P. M., May 16. by James T. Moore, Secretary Board of Education, for \$50.000 4% 10 year bonds. Securities are in denomination of \$500, \$25,000 of issue being dated June 15, 1901, and the remaining \$25,000 Sept. 15, 1901. Interest will be payable semi-annu-

ally in New York City or at such place as may be designated by the purchaser, who will be required to furnish blank bonds. A certified check for \$500 must accompany proposals. Sheiby County (P. 0. Memphis), Tenn.—Certificate Offer-ing.—Proposals will be received until 12 M. May 11, by W. T. Bond, Chairman of the County Court, for \$60,000 4½% 1.3-vers (serial) certificates of indebtedness year (serial) certificates of indebtedness.

Shepherdstown, W. Va.—Bond Election.—An election will be held to day (May 4) to vote on the question, of issuing \$4,000 electric-light-plant bonds.

Sherman, Texas.—Bond Offering.—Proposals will be re-ceived until 8 P. M., May 6, by E. M. Kearney, City Secre-tary, for \$80,000 41/2% 1.40-year (serial) sewer bonds. The proposals received, according to the official circular, will be opened at the above named hour, and all persons bidding will then be notified of the highest bids received and will be invited to submit additional bids, to be opened on May 20 and the contract closed on May 21. Securities are in denom-ination of \$1,000, dated July 1, 1901. Interest will be pay-able semi-annually at the National Park Bank, New York City. A certified check for \$2,500, payable to A. A. Fielder, Mayor must accompany property. Mayor, must accompany proposals.

Smithtown (Town), Suffolk County, N. Y.—Bond Sale.— On May 1 the \$18,000 31/2% refunding bonds were awarded to the Southold Savings Bank at 104—an interest basis of about

time and the Conncil afterwards raised the interest rate to

41/24. Stoneham, Mass.-Bond Sale.-On April 27 an issue of \$30,000 31/2% 1.6-year (serial) water bonds was awarded to

Jose, Parker & Co., Boston, at 101 003-an interest basis of about 3.20%. Following are the bids:

Summit, N. J.-Bond Offering.-Proposals will be received Summit, N. J.—Bona Offering.—Proposals will be received until 8 P. M., May 7, by the Common Council, for \$10,000 4% 25-year fire-department bonds. Securities are in denomina-tion of \$1,000, dated May 1, 1901. Interest will be payable annually. Daniel C. Day is City Clerk. Symmes Township, Ohio.—Bonds Defeated.—At the April election the question of issuing \$2,000 town-hall bonds was

defeated.

Tensas Basin (La.) Levee District.—Bonds Authorized.— The Leveee Board on April 25 passed a resolution to issue \$40.000 5% 20.year levee bonds.

Thayer County, Neb.—Bond Election.—An election will be held May 11 to vote on the question of issuing \$55,000 court-house bonds. These bonds were submitted to a vote of the people last fall and the proposition carried. They were sold on February 26 to the State of Nebraska, but the Attorney General of the State advised the State Treasurer not to accept the bonds on account of the notice of election not having been published the required length of time. A new election therefore has been called as above.

Thief River Falls, Minn.-Bonds Re-awarded.-The \$7,500 5% 15-year electric-light-plant bonds awarded on March 6 to J. D. Cleghorn & Co., Minneapolis, have been refused by that firm and the bonds re-awarded to the Skandia State Bank of Thisf River Falls.
