REVIEW OF JULY.

An unusual number of unfavorable influences and events disturbed the course of affairs during July. Of these the phenomenal weather conditions were without doubt productive of the most uneasiness. Here in the East the severe term of heat materially restricted business at the beginning of the month—not only on the Exchanges, but everywhere. In this city the thermometer record of the Weather Bureau showed a maximum of 97 June 30th, of 98 July 1st and of 99 July 2d, with an extraordinary list of deaths and prostrations from that cause. Thunder-storms furnished relief on the afternoon of the 3d, and there were more of these visitations on the 4th and 5th; the rest of the month more moderate temperature prevailed in this part of the country.

In the West, however, the heated term extended until towards the close of the month, growing more and more intense. Unparalleled high temperatures were recorded day after day, accompanied by drought of extraordinary severity and of unusual extent. Under these circumstances the damage to agricultural products generally, and to corn in particular, kept each day increasing. Such was the suffering from the heat and the absence of rain that prayers were said in the churches for rain. About the middle of the month showers were reported at many different points, which for the time being relieved anxiety. But it soon appeared that these were very light and scattered, that while beneficial they were not general enough or heavy enough to ensure permanent relief. They were succeeded, moreover, by another period of extreme heat, temperatures of 100 to 110 being reported at widely separated points, and the situation hence again became exceedingly critical. From the 24th to the 28th, however, much heavier and very extensive rains came, and over the greater portion of the stricken territory the drought was then broken.

The speculation in corn options at the grain Exchanges was of tremendous proportions. Here in New York the September option sold up from 49½ July 2 to 62½ July 22, but the close on July 31st was 59. That the aggregate corn yield has been seriously cut short is undoubted, for in at least two States, Kansas and Missouri, much of the crop is an utter failure. The damage in other States it is difficult to estimate, for only the future can tell how far the final rains have served to revive the dying plants and save the crop.

Added to the agricultural uncertainties and damage, labor troubles have been unusually prominent.

Not much importance was at first attached to the strike of the steel workers at the mills of the American Sheet Steel Company and the American Steel Hoop Co., which was inaugurated July 1st, but a conference lasting three days (July 11th, 12th and 13th) between officials of the organization representing the men (the Amalgamated Association of Iron, Steel & Tin Workers) and certain of the officials of the companies resulted in a disagreement, and then the strike was prosecuted with renewed vigor, the union mills of the American Tin Plate Co. also becoming involved. No question of wages was at issue in the contest, which hinged solely on the attempt of the Amalgamated Association to force the companies concerned (which are constituent properties of the United States Steel Corporation) to unionize all their mills. There have also been various other labor troubles. Thus a strike of the stationary firemen in the anthracite mines stopped coal production for a time in a large part of the anthracite field.

It is to be noted that in most of these particulars the situation changed greatly for the better before the close of the month. The strike of the stationary firemen at the anthracite mines was unconditionally abandoned. Furthermore, the great strike of the machinists in the United States, Canada and Mexico, which began in May, for a nine-hour day, also terminated pretty nearly everywhere, the movement undergoing a process of disintegration, it having generally failed. A conference held on Saturday July 27th between Mr. J. P. Morgan and President Shaffer and other officials of the Amalgamated Association seemed to promise likewise an early end of the steel workers' strike, but up to the close of business on July 31 the Amalgamated Board had failed to sanction the terms of settlement proposed.

The stock market was much depressed most of the month, and experienced many sharp breaks. When the Exchange opened on July 8th after the long holiday from July 3d, a very general collapse in prices ensued under the influence of the poor bank statement the previous Saturday, active money, the steel workers' strike, the damage to the crops, reports of new dissensions concerning Northern Pacific affairs between the Morgan-Hill and the Harriman-Kuhn, Loeb & Co. interests, and a proposed cut in rates by the Atchison Company. Before the end of that week the Atchison had agreed to recall its rate circular, but owing to the failure of the conference for the settlement of the steel strike and renewed reports of crop disaster, the market displayed further great weakness on Monday the 15th. On Wednesday the 17th, just before the close of business, Mr. Morgan's list of new appointees for the Northern Pacific board of directors was announced. This changed the whole course of the market on that and succeeding days, it furnishing new evidence of Mr. Morgan's control over affairs and of the spirit of harmony which it has been his purpose to enforce. Thereafter many of the developments, as we have already seen, were favorable, though adverse crop news kept the market unsettled; this, too, finally changed for the better, and a substantial recovery in prices occurred.

January 1 to July 31.....	484,721,300	608,610,930	511,273,835	673,187,107

The money market gave occasion for some quietude the early part of the month. On Monday July 1st the range for call loans on the Stock Exchange was from 6 to 10 per cent, with the bulk of the business at 7@8, the shifting of loans incident to the 1st of July payments being in part responsible for the high rates. On Tuesday July 2d, the demand being less urgent (the extreme heat prevailing having restricted business on the Stock Exchange), the range was a little lower, at 4 to 8, with the majority at 6 per cent. On Wednesday the Stock Exchange having decided to keep closed Friday and Saturday, July 5th and July 6th, in addition to July 4th, loans had to be made for the period until the following Monday the eighth. Some of the trust companies and other financial institutions refused to lend in view of the fact that business on the Exchange being suspended, the money could not be called on Friday if such calls should be necessary. The restricted offerings contributed to high rates, and after opening at 6 per cent, call loans in the afternoon advanced to 25 per cent, the last transaction being at 15 per cent. The bank return issued Saturday July 6th showed surplus reserves of the Clearing House banks down to \$5,211,525, the lowest figure since November 10th of last year. Under these circumstances early loans at call on the Stock Exchange on Monday July 8th were at 8 per cent, and a repetition of the extreme figures reached the previous week was threatened; but at this juncture the National Bank of Commerce and the Morton Trust Co. stepped in and together offered \$14,000,000 at 6 per cent, and this had the effect of breaking the rate later in the day to 2 per cent. The next day the range was 4½@6. The rest of the month all the influences operated to produce ease; the liquidation on the Stock Exchange brought about a contraction in loans, the interior movement of currency was strongly towards this centre, while at the same time the banks gained on the Sub-Treasury operations, and surplus reserves increased week by week, getting up to \$23,128,575 by July 27th. On the closing day of the month (July 31st) the range for call loans was 2@3 per cent.

RATES FOR MONEY IN NEW YORK, WEEKLY.

	July 5.	July 12.	July 19.	July 26.
Call Loans—				
Stock Exchange—Range for week.....	4 -25	2 -8	1 -5	2 -8
Average for week.....	8	5	3½	2½
At banks and trust companies.....	6 -10	5	3½-4	8

NEW YORK STOCK EXCHANGE.

MONTHLY AND YEARLY RECORD.

The following tables furnish a complete record of the New York Stock Exchange transactions for the past month and the year 1900. They need no extended introduction, as they are self-explanatory. The tables embrace every security (excepting only State bonds) dealt in on the Exchange. We give bonds first, using the classification adopted in the official list. As to prices the form is our own, and we think it will be found to contain just the facts desired by our readers and to present them in the most convenient way for study and reference. All quotations in the column headed "Prices about January 2, 1901," were made on that date except those in italics, which are the nearest in January, 1901. The black-faced letters in the column headed "Interest Period" indicate in each case the month when the bonds mature.

For foot notes to tables see last page of Bonds and last page of Stocks.

BOSTON STOCK EXCHANGE.

MONTHLY AND YEARLY RECORD.

The railroad securities which are active on the New York Stock Exchange are omitted from this list.

In comparing New York and Boston prices, it should be noted that bond prices in New York are flat prices—that is, the price includes the accrued interest, while in Boston accrued interest must be paid in addition to price. It should also be remembered that New York stock prices are per cent while those in Boston are dollars per share.

GENERAL QUOTATIONS

—OF—

BONDS AND STOCKS.

1. In the following twenty-seven pages of tables quotations are given for all securities listed on any Stock Exchange in the United States; also for all leading unlisted and inactive securities for which we have been able to obtain reliable prices.

2. Quotations from all Stock Exchanges are as near as possible for the last day of July. Of course the coupon, if there be one, maturing between the date of quotation and the date of this publication, is not deducted from the price.

3. Bond prices marked thus (§) indicate that the purchaser must pay accrued interest in addition to the price given. The method of quoting on the New York Stock Exchange is to quote the prices flat (that is to include the accrued interest in the price), and hence in the tables below no mark is now affixed where this method of quoting is followed.

4. Stock prices marked thus (†) are per share. All others are per cent except bank stock prices.

5. It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.

6. The following abbreviations are often used, viz.; "M." for mortgage; "g." for gold; "g'd." for guaranteed; "end." for endorsed; "cons." for consolidated; "conv." for convertible; "s. f." for sinking fund; "l. g." for land grant.

7. The black-faced type in the letters showing the interest periods indicates in each case the month when the bonds mature.

§ We no longer affix a mark to prices quoted flat, but only to those which require payment of accrued interest in addition to the price. Designating mark in this instance is (§).

Table with 5 columns: Stocks, Par, Bid, Ask. Lists various stocks such as Rome & Clinton, Southern Ry., and Valley RR. with their respective prices.

† Prices per share not per cent. † In London. x Ex-dividend.

STREET RAILWAY SECURITIES.

Prices marked thus (\$) indicate that the purchaser has to pay accrued interest in addition to the price given. Prices not marked are flat prices—that is, the purchaser does not pay accrued interest in addition.

Main table with 5 columns: Bonds, Bid, Ask. Lists various street railway bonds from Albany, N.Y. to Lexington, Ky., including titles like 'Brooklyn Rapid Transit' and 'Dayton Springfield & Urbana'.

* Purchaser also pays accrued interest.

† Sale price.

† Prices per share not per cent. x Ex-dividend. † Sale price.

STATE AND MUNICIPAL BONDS.

Prices marked (*) are flat prices—that is, the purchaser does not pay accrued interest in addition. In all other cases accrued interest must be added to the price. The figures in the column "to net" indicate the basis on which the securities sell or the interest rate which the securities held to maturity, will net to the purchaser at the present market price. It should be borne in mind that municipal bonds are not subject to such decided fluctuations in value as are securities which form a basis for speculation.

† Prices are per share, not per cent.

‡ Sale price.

x Ex-dividend.

QUOTATIONS OF BANK AND TRUST COMPANY STOCKS.

Prices are per share, not per cent, with the exception of New York City, Brooklyn and Canadian bank stocks. Prices marked thus (*) indicate sales.

The dagger (†) prefixed to a price indicates that the figures show the book value.

Notice Change.—We now report surplus and undivided profits together (in the column designated Surplus and Profits) except where otherwise indicated.

Where names of the banks are printed in italics, fuller returns may be found in the advertising columns in the front part of the paper.
