

STREET RAILWAY SUPPLEMENT.

A new number of our STREET RAILWAY SUPPLE-MENT, revised to date, is sent to our subscribers today. The editorial discussions in the SUPPLEMENT embrace the following topics—

THE TRAMWAY—STREET MAINTENANCE. ECONOMY BY PRESERVATION OF PROPERTY. THE PASSING OF THE HORSE CAR. GREATER PROTECTION AGAINST ACCIDENTS. TRAMWAYS IN ENGLAND.

THE FINANCIAL SITUATION.

The further disclosures made this week, which in large measure help to fill out the details of the settlement we stated last week had been reached of the matters in dispute affecting the railroad situation in the Northwest, have greatly added to the interest felt in the arrangement and put in clearer light its wide scope and usefulness. We have given in our department of General Investment News to day all the facts that have thus far been developed. The scheme promises, when fully unfolded, to show greater breadth and completeness even than had been generally anticipated. This seems to be true not only of the immense interests involved, but also respect to the permanent character in of the arrangement. Results affording ground for so much hope will, if realized, go far to reconcile the public to the heavy cost it has had to pay for the Chicago Burlington & Qaincy purchase. The outcome recalls that undertaking and all that has since occurred following on its trail. To be sure we have, by a miracle as it were, reached safe anchorage at last—a consummation which bids fair to prove a great and lasting benefit in an industrial way. But has not the road traveled been a risky and rough one, not encouraging to future ventures of a like character?

Gold exports, the money market and Government surplus receipts have been the dominant influences affecting security movements this week. That is to say, all other surroundings have been for the time being subordinated to those which tend to deplete our bank reserves and reduce, and so make more discriminating and scarce, loanable funds. We do not mean that money has been the only power; it is never true that the forces operating in Wall Street are confined to a single agency, but it is often a fact that potent influences become secondary, or as it were dormant, while a more immediate influence leads to action. We had an obvious illustration of this situation Thurs. day, when in the face of news which showed arrangements perfected that promised not immediately, but in coming years, added value to Northwestern stocks, a free selling of those securities took place, because for the time being exchange was strong, gold was going out freely, and the general outlook for the near future of money was uncertain. In connection with this movement of gold and the very strong condition of foreign exchange, it is of interest to note the trade figures for October which were issued this week. It appears that although merchandise exports in October 1901 fell off, compared with 1900, about 171 million dollars, and imports increased about 10 million dollars, there was still an excess in exports of $64\frac{1}{4}$ milion dollars. Moreover these exports in October 1901

were larger than October of any other year in the record except in 1900. No doubt the November report and also that for December will record even more favorable results than the October statement, and yet we are told that there is such a scarcity of exchange that a temporary and unintentional corner has developed.

A telegram from Washington states that delegates representing ten Chambers of Commerce had an interview with President Roosevelt Wednesday, urging upon him to use all efforts in his power to secure a reciprocal trade treaty with Canada. Apropos of this subject of reciprocity was a very enthusiastic annual meeting of the Canadian Manufacturers' Association held in Montreal last week. The closing session was in the evening of Wednesday, November 6, at the dining hall of the Windsor Hotel in that city, and was reported to have been a brilliant affair. The speeches of the Premier, Sir Wilfrid Laurier, and of Mr. R. L. Borden, the leader of the Opposition party, were the events of the evening. The members of the convention were evidently friendly to an amendment in the direction of larger protection of the existing Canadian tariff, but neither the Premier nor Mr. Borden expressed himself squarely as favorable to such a proposal, though each said he believed in the most ample protection to the industries of the Dominion. Reciprocity, however, had no advocate. The Premier remarked that the Government was not sending any more delegations to Washington, indicating that reciprocity was a past issue, and the announcement was received with general applause; he was rather of the opinion it would not be long before delegations would be coming from Washington to Ottawa. The inference was that as the Dominion cooled in its desire for closer trade relations, the States would grow in eagerness. All speakers expressed new hopefulness in Canadian industrial development and in the general prosperity of the country. Sir Wilfred Laurier said he had lately traversed the Dominion from end to end, and he had found general signs of progress. In the Northwest he had noticed a new movement. During the last sixty years the flow of population had been from north to south, but now it was from south to north, and Canada was receiving thousands of hardy yeomanry from the United States. It may be that the United States has disregarded Canada's smile so long that a situation has now been reached when although Barkis "is willin" Peggotty is not.

The phenomenal activity in the iron and steel trades, which continues to be one of the most noteworthy features of the times, is reflected in the monthly figares of iron production which the "Iron Age" of this city has published this week. Our contemporary finds that during the month of October there was an addition of 13 to the number of active furnaces, and that the weekly output was further increased nearly 13,000 tons per week (or at the rate of 650,000 tons per year), the weekly capacity now being 320,824 tons, against 307,982 tons on the 1st of last month. At 320,824 tons per week the production far surpasses the highest previous total reached in the country's history. It will perhaps be recalled that it was not until the 1st of May of the present year that the weekly output for the first time reached 300,000 tons, the report then showing that the make of iron was 301,125 tons per week. The next month there was a further increase to 314,505 tons, but after that the output again decreased, the production Sept. 1 being down to 299,861 tons. From this there has been an advance the last two months from 299,861 tons to 320,824 tons. At the latter figure the production is at the extraordinary rate of 164 million tons per year. These are gross tons of 2,240 pounds, and it will perhaps give a better idea of the magnitude of a total of 16¹/₂ million tons to say that, expressed in pounds, it represents an aggregate of over thirty-six thousand million pounds. The most striking and most significant feature, however, in connection with this expanding output of iron is that in the face of such expansion the total of stocks (sold and unsold) keeps steadily shrinking. The decrease in stocks the last month has been particularly marked. The figures never include the holdings of the steel works producing their own iron, but the same furnaces are represented as in former months, and hence it is a noteworthy fact that between October 1 and November 1 stocks were farther reduced from 361,593 tons to 273,251 tons. According to the "Age," too, it appears likely that this small total of stocks will be further trenched upon the present month, since so many farnaces have had their operations hampered by inability to secure a sufficient supply of coke, owing to the serious shortage of cars. Altogether, the strength of the iron and steel markets is not difficult to explain.

The American Cotton Oil Company in its report for the year ending August 31 1901, submitted this week, does not show as large net earnings as for the twelve months preceding, but the reasons for this are well known, and are also fully explained in the report, which is in the same form as in previous years. Expressed in brief, the company did a larger volume of business—in fact the largest in its history—but realized a smaller margin of profit from it; conditions in the cotton-oil trade having been unfavorable. The price of seed advanced to high figures, putting the cost of the raw material at a level which was not warranted by the prices obtained for finished products. Notwithstanding the smaller net earnings, the company was able to meet the interest on its debentures (which were extended during the year at $4\frac{1}{2}$ per cent) to pay the full 6 per cent dividends on the preferred shares, and also 2 per cent on the common stock, and to carry forward a surplus of \$75,199 to the credit of profit and loss, on the operations of the twelve months. The report states that no effort has been spared to keep the physical condition of the properties up to the highest standard of value and efficiency. It is pointed out that since the recrganization of the company in 1889 \$4,389,534 has been spent in repairs, betterments and maintenance and charged to operating expenses. With these large outlays the net remaining profits for the last four years, after paying interest on the debenture bonds and 6 per cent dividends upon the preferred stock, have been, the report says, \$3,093,412, out of which \$2,529,637 has been applied to dividends upon the common stock (being an average of $3\frac{1}{5}$ per cent per annum) and \$563,775 has been added to working capital. The appearance of a new item in the balance sheet perhaps deserves explanation. We refer to the \$1,000,000 of bills payable reported outstanding on

the balance sheet by an increase from \$3,685 275 on August 31 1900 to \$4,221,549 on August 31 1901 in the amount of the stock of raw materials and finished products carried over. Chairman George A. Morrison in his remarks points out that this is due to the fact that products were higher in value and also somewhat greater in quantity than last year. The most important fact, however, is his further statement that since the close of the fiscal year the goods on hand have been marketed at a profit over the price at which they were inventoried.

There was no change in the official rates of discount by any of the European banks this week, and the open market, or unofficial, rates were steady. One feature of the week was a rise in Paris exchange on London to 25 frances 14 centimes, and a decline in the price of gold in the London bullion market to 77s. 10¹/₄d. per ounce for bars and to 76s. 5¹/₄d. for American eagles, these movements indicating comparatively normal exchange conditions at the French capital and less urgency in the demand for gold at London.

The statement of the New York Associated Banks last week showed a much greater loss of cash than had been estimated, the decrease being \$3,703,700, of which \$1,124,500 consisted of specie and \$2,579,200 of legal tenders. The effect of this disclosure was, however, to some extent counteracted by the reduction of \$4,927,900 in loans. Deposits decreased \$7,-643,300 and the surplus reserve was reduced by \$1,-792,875, to \$8,689,925. Among the disbursements by the Treasury this week, which will probably be reflected in the bank statement, was the payment on Monday of a check drawn by the Comptroller of the Currency for \$1,400,000, representing the amount collected by the receiver of the Seventh National Bank while he was administering the affairs of that institution after its suspension. The exports of gold to Europe amounted to \$4,602,770 13, which was forwarded to Paris by the steamer sailing on Thursday. Of this amount \$1,001,767 58 was shipped by Heidelbach, Ickelheimer & Co., \$1,064,039 47 by Lazard Freres, \$1,007,097 89 by the National City Bank, \$1,-029,587 28 by Goldman, Sachs & Co. and \$500,277 91 by the United States Mortgage & Trust Company. This makes \$39,848,314 28 exported to Europe since the beginning of the year. Payments for unmatured bonds at the Sub-Treasury this week were \$3,069,-664 96, making \$50,318,724 21 since April 2.

Money on call, representing bankers' balances, loaned at the Stock Exchange at 5 per cent and at 3 per cent during the week, averaging about 4½ per cent. On Monday loans were made at 4 per cent and at 33 per cent, with the balk of the business at 4 per cent. On Tuesday transactions were at 5 per cent and at 3% per cent, with the majority at 4½ per cent. On Wednesday and on Thursday loans were at 5 per cent and at 4 per cent, with the bulk of the business at 43 per cent. On Friday transactions were at 5 per cent and at 3 per cent, with the majority at $4\frac{1}{2}$ per cent. Banks and trust companies have loaned at 4½ per cent as the minimum, and some of these institutions on Thursday marked up their loans to 5 per cent. Time contracts are freely offered, but the business is small, commission houses generally appearing to be well provided with money which they borrowed in the summer for periods which will not expire until the August 31, 1901. This is offset on the other side of end of the year, or in January. Rates are 4 per cent for all dividend securities, $4\frac{1}{2}$ @5 per cent for good mixed Stock Exchange collateral and 5@5 $\frac{1}{2}$ per cent for a general assortment of industrial security for all periods from sixty days to six months. There is a little better supply of commercial paper in the market, but the local demand is light and the business is chiefly confined to out of town. Rates are $4\frac{1}{2}$ @4 $\frac{3}{4}$ per cent for sixty to ninety-day endorsed bills receivable, $4\frac{3}{4}$ @5 per cent for prime and $5\frac{1}{2}$ @6 per cent for good four to six months' single names.

The Bank of England minimum rate of discount remains unchanged at 4 per cent. The cable reports discounts of sixty to ninety-day bank bills in London $3\frac{1}{2}$ per cent. The open market rate at Paris is $2\frac{1}{8}$ per cent, and at Berlin and Frankfort it is 3 per cent. According to our special cable from London the Bank of England lost £259,266 bullion during the week and held £34,924,384 at the close of the week. Our correspondent further advises us that the loss was due to the export of £283,000 (of which £163,000 were to Argentina, £50,000 to the Cape, £50,000 to Denmark and £20,060 to Malta), to the import of £17,000 from Australia and receipts of £7,000 net from the interior of Great Britain.

The foreign exchange market has been quite strong this week, influenced by a more or less urgent demand to remit for stocks sold for European account, and to repay exchange loans, some of which were, it is reported, negotiated to provide funds for carrying the Northern Pacific securities which were returned to this country from abroad in the spring. There was also a special inquiry to cover exchange, the delivery of which had been contracted for this month at much lower prices than those which are now ruling. Though there was a good supply of commercial bills against cotton early in the week, these, as has recently been the case, were promptly absorbed without affecting the market. It is noteworthy that no exchange was sold against the exports of gold this week, the metal being forwarded in direct settlement of maturing contracts, because exchange could not be obtained for this purpose, owing to its extreme scarcity, which condition had the semblance of a temporary and unintentional corner in exchange. The rates ruling for sterling were fractionally below the point at which gold could be sent to London and the rates for French exchange on the British capital were so high, owing to the recent demand for it, that if sterling bills had been drawn with the intention of covering them with the proceeds of Paris exchange on London, as was done during the last two weeks, the operation would most likely have resulted in a loss. Therefore uncovered shipments of gold were made to Paris, this course involving the least unprofitable outlay. Whatever loss shall be incurred by the exporter will most likely be reimbursed by the parties for whose account the shipment was made. The Assay Office paid \$966,-627 60 for domestic bullion. Gold received at the Custom House during the week \$123,166.

Nominal rates for exchange are $4.84\frac{1}{2}@4.85$ for sixty day and $4.88@4.88\frac{1}{2}$ for sight. Rates for actual business opened on Monday at an advance of oneeighth of a cent for long, compared with those at the close of last week, to $4.84@4.84\frac{1}{5}$, while short and cables were one quarter of a cent higher, at $4.87\frac{1}{4}@$ $4.87\frac{3}{5}$ for the former and $4.87\frac{3}{4}@4.87\frac{1}{5}$ for the latter. The market was strong and on the following day long

sterling rose one-quarter of a cent, to 4 844 @4 841, and cables, influenced by a demand to remit for the semi-monthly settlement in London, advanced threeeighths of a cent, to 4 883 @4 884. The bid quotation for sight sterling remained unchanged at 4 874, but the asking price was moved upward one eighth of a cent, to 4 874. On Wednesday long sterling and cables were unaltered, while the bid quotation for sight advanced one eighth of a cent, to 4 873. The market was strong, however, and on Thursday there was a rise of one-eighth of a cent in long and short, to 4 848@4 848 for the former, and to 4 871@4 875 for the latter, while cables were unchanged. The tone was then quite strong, and it was firm on Friday, when sight rose one-quarter and cables one-eighth of a cent. The following shows daily posted rates for exchange by some of the leading bankers.

DAILY POSTED BATES FOR FOREIGN EXCHANGE.

| | FRI., Nov. 8. | MON., Nov. 11. | TUES., Nov. 12. | WED., Nov. 18. | | |

• The division (between gold and silver) given in our table of coin and bullion in the Bank of Germany and the Bank of Belgium is made from the best estimate we are able to obtain; in neither case is it claimed to be accurate, as those banks make no distinction in their weekly returns, merely reporting the total gold and silver, but we believe the division we make is a close approximation.

+ The Austro-Hungarian Bank Statement is now issued in Kronen and Hecer instead of Guiden and Kreutzer. The reduction of the former currency to sterling \pm was by considering the Guiden to have the value of 50 cents. As the Krone has really no greater value than 20 cents, our cable correspondent in London, in order to reduce Kronen to \pm , has altered the basis of conversion by dividing the amount of Kronen by 24 instead of 20.

DIFFICULTIES WHICH JUST NOW BESET COTTON MANUFACTURING.

The cotton-spinning industry in New England has had a further shake-up the past ten days, though the final outcome appears to be a full justification of the course pursued by the Fall River mill Treasurers. Mr. Borden, it seems, gave out a notice last week Thursday directly reversing his attitude with reference to labor and the print cloth market. When he raised wages in his mill five per cent and then on top of that another five per cent, although the other mill managers considered the policy highly harmful and disturbing, no one liked to criticise the act, for he was a large buyer, and had on former occasions apparently assumed a considerable risk by making free and timely purchases which were followed by an improved market. It might turn out, too, that conditions would conform to and so justify these advances, or that higher wages were simply a method adopted by a free-handed operator of distributing past profits among his employes which no one would desire to criticise.

But from the first it appeared to the other Fall River mill managers not to be a business-like proceeding at all, which they could imitate, for they were as one in affirming that goods could not with profit be made on that basis and sold at the market price. Mr. Borden's recent notice would indicate that he has adopted the same view, for it states that "the wages of the Fall River Iron Works Corporation will be reduced" Monday, November 18th, "10 per cent, to the scale prevailing prior to the recent advances," and he gives as his reason because the management of kindred mills have continued at the old rate. In addition to this notice a telegram announced that Mr. Borden was offering through his local representatives at Fall River to sell print goods to any one who would buy them at 2 15-16 cents, or -cent below his bid of the previous week. Monday (November 11th) this offer was withdrawn, Mr. Borden's brokers saying that he had no goods to sell and did not wish to buy any. We suppose the incident, consequently, may now be considered closed. It has operated all the way through as an unsettling influence in the cotton-spinning market for cloths and for wages. Every one interested in the print cloth trade will be pleased to have the disturbing cause removed, although for the moment it leaves the print cloth market unsettled and lower-as all such meddling with industrial affairs does-affairs which ought to be left to natural influences to adjust themselves.

It should perhaps be said in connection with the foregoing that Mr. Borden thoroughly believes in the wisdom and efficacy of the policy of pegging prices, and has on several occasions bought goods in large amounts at rates higher than those ruling in the open market, thereby relieving the mills from the pressure of a cumbersome unsold stock. Twice at least some such purchase made by him has been followed by a term of activity in the trade. Mr. Borden, we believe, sought at first on this occasion to do the same thing which, as we have said, had been successfully worked when previously tried; but the situation was so different that there was no response on the part of the public to the effort. Pegging price added to a purchase which substantially absorbs current stock will for a time when the surroundings are every way favorable stimulate demand. We do not, however, believe

in that method, and do not think anything in the long run has ever been gained by it. At its best, after a term of more or less length, the end-up is sure to be a return of the same old depression, the mills floundering again under a new and larger accumulation of goods. The disease is, too many spindles for full home consumption; the pegged price and temporary activity have led to an aggravation of the disease, that is to more spindles, or to a delay in seeking and obtaining the true remedy, the development of outside markets.

There are movements in progress at present that have as their purpose to equalize labor wages in the textile factories of the North and South which have a promise of success. To-day labor in Northern mills as a rule receives higher rates, works shorter hours and includes fewer children than in the South. These are important differences which help to account for the more advantageous condition of the spinning industry in the cotton States, and cover a feature which we have long said would in the nature of things sooner or later be eliminated by a rise in the South to wage conditions prevailing in the North. The rapidity with which spindles in the cotton States have been multiplying makes the adjustment more imperative, and is consequently hastening the event. Of course as the quantity of goods put on the market from the South has increased-goods which have been manufactured at a labor cost less than paid at the North-the more severe the pressure on the Northern mill manager becomes to bring his factory, in that particular at least, on equal terms with the Southern manager for competing with the Southern makes of goods. Every such disability tends to the accumulation of stocks of manufactures at the New England mills, and that in turn serves to depress wages in Northern factories, and to a suspension of work periodically. All of these conditions are to the disadvantage of the employes.

The efforts making which will aid in regulating wage differences is seen in two movements which now show some activity. Next week, Monday, November 18th, the annual convention of the American Federation of Textile Operatives begins its session. This year that body meets at Washington. Hitherto the South has not affiliated with this organization, but now it is stated that all disagreements have been removed and that Southern operatives will be represented, and the organization thereby become national. Of course this new situation is by no means to be understood as settling the question of an equality of wages in the two sections. That will be a matter requiring time to It is, though, a first and decided step in adjust. that direction.

Another movement which tends to show that the labor differences are in a state of fermentation is the publication of an appeal "To the people and press of New England" which has originated in Alabama; it relates to the employment of children in the cotton mills of the South and makes this remarkable statement that in "the mills representing Northern investments the number of such children employed is twice as great as the number found in the mills controlled by Southern capital." It almost looks as if there must be some mistake in this averment. There certainly can have been no intent to publish an erroneous assertion, and it would seem hardly possible that any error can have been made; this we say because the appeal is signed by Ex-Governor Thomas G. Jones of Alabama, by the

[VOL. LXXIII.

Rev. Edgar Gardner Murphy of Montgomery, by the State Superintendent of Schools J. H. Philips, and others. It appears that this appeal is a part in a movement making in Alabama to effect legislation regulating the employment of children in that State.

Altogether, affairs in the cotton goods trade appear to be working towards a more secure basis. On the one hand a loss of confidence in the efficacy of the practice of pegging prices would be a highly important point gained. That method, by securing for the time being to the spinner an unnatural profit, stimulates a rapid multiplication of spindles in the North and South at a period when spindles are already in excess. There is but one way to relieve a recurring congestion in the goods market, and that is by enlarg. ing the demand. New markets for the surplus is the outlet needed. The point to study is how these markets can be cultivated and opened up.

So also the movement to equalize wages in the Northern and Southern mills is progress in the right direction and should be encouraged. There are other advantages manufacturers in the cotton States enjoy which are natural and unchangeable. To help and hasten this wage movement legislation might, with advantage to the industry in the New England States, be modified in some degree. The remainder of the work will have to be left to labor unions, and that agency, as we have seen, is getting to work.

THE CROP SHORTAGE OF 1901.

The report issued this week by the Agricultural Bureau at Washington on the crops of the current year should furnish a pretty good indication of what the Bureau's final estimates of yield for 1901 are likely to be. As such they are invested with considerable importance. Of course the November report is always interesting by reason of the fact that it foreshadows the probable figures of yield, but the present season it attracts unusual attention owing to the known impairment of the harvest on account of the unprecedented drought experienced during the critical period in the growth of the crops. A decided shortage in the harvest of the leading crops being an admitted fact, the question has been mainly as to the extent of the shortage. On that point opinions and estimates have differed widely, not a few leaning to the theory that the accounts of the damage done which came at the time the drought prevailed were much exaggerated. The Agricultural Department, however, in the present report, as in all previous monthly reports issued by it during 1901, takes the most unfavorable view possible. It will be understood that the Statistican does not as yet undertake to give totals for any of the crops. Such data will not be furnished until the close of the year. He does, however, give preliminary estimates of the average yield per acre (except in the case of wheat, where the figures as in other years are withheld), and the acreage having previously been reported, the two together afford a result which is likely to accord very closely with the actual total.

The fact which stands out prominently in a review of the report now made is that the agricultural outturn for the year has on the whole proved decidedly poor. And this must be the conclusion even if one does not accept the extreme estimates of loss adopted by the Government. Except in the case of wheat, the production of all the leading crops has been very 3,519 millions in 1900 and 3,518 millions in 1899.

seriously curtailed. Interest of course centres mainly on the loss in corn, since this is such an important item of traffic with Western roads and such an indispensable article on the farm. The reduction in yield, however, has not been confined to that staple, but extends to the other chief grain and food crops. Take potatoes, for instance. For the current year the Bureau makes the average yield per acre of potatoes only 59.9 bushels, as against an average yield per acre of 80.8 bushels in 1900, 88.6 bushels in 1899 and a tenyear average of 78.7 bushels. The present indicated yield per acre is reported the lowest since 1890. In oats, too, the effects of the extraordinary weather conditions are seen in a large falling off in the estimated production per acre. The figures for this crop appeared in the return for the previous month, and the yield per acre was estimated at 25.1 bushels, as compared with 296 bushels at the corresponding date in 1900, 30.7 bushels in 1899 and 27.2 bushels the mean of the estimates for the last ten years.

The most serious loss, of course, is found in the case of corn. Here the falling off is of great magnitude. The Bureau makes the preliminary estimate of the yield of this cereal for 1901 but 16.4 bushels per acre, as compared with an average yield of 25.3 bushels per acre in 1900 and 1899, and a ten-year average of 24.4 bushels. The present indicated yield per acre, the Statistician says, is the lowest general average ever recorded for this cereal, being 2.2 bushels per acre below the yield in 1881, which for twenty years has stood as the lowest on record. In Kansas, which suffered beyond all other States from the disastrous drought, the yield is put at but 7.8 bushels, and in Missouri, which fared only a little better than Kansas, at 10.1 bushels, while for Nebraska the estimate is 14.1 bushels per acre.

These figures for corn are taken to point to an aggregate crop of, roughly, 1,360 million bushels, as against 2,105 million bushels in 1900 and 2,078 million bushels in 1899, the contraction thus being over 700 million bushels, or fully 35 per cent. The oats crop, based on the figures of yield per acre, works out 661 million bushels, there being here a loss of nearly 150 million bushels more, the crop of 1900 having been 809 million bushels, and that of 1899 having been 796 million bushels. The probable size of the wheat crop the Bureau has not yet attempted to indicate, as already observed, though that crop is known to have been greatly in excess of the wheat yield of either 1900 or 1899, and possibly the very largest crop on record. Probably 700 million bushels will prove not far from the correct total, at which figure the comparison will be with 522 million bushels for 1900 and 547 million bushels for 1899. Bringing these figures together, and adding barley and wheat, we have the following summary of the harvest of these crops, separately and combined, for the last five years. CROPS OF WHEAT, CORN, OATS, BARLEY AND RYE.

| Total Production. | 1901. | 1900. | 1899. | 1898. | 1897. | | | |
|----------------------|---------------|---------------|---------------|---------------|---------------|--|--|--|
| | Bushels. | Bushels. | Bushels. | Bushels. | Bushels. | | | |
| Corn | 1,359.626,000 | 2,105,102,518 | 2,078,143,935 | 1,924,184,660 | 1,902,967,933 | | | |
| Wheat | 700,000,000 | 522,229,505 | 547,303,846 | 675,148,705 | 530,149,168 | | | |
| Oats | 660,756,000 | 809,195,989 | 796,177,718 | 730,906,643 | 698,767,809 | | | |
| Barley | 70,631,000 | 58,925,833 | 78,931,563 | 55,792,257 | £6,685,127 | | | |
| Rуе | 23,573,000 | 23,995,927 | 23,961,741 | 25,657,522 | 27,363,324 | | | |
| Total | 2,814.586.000 | 3.519.879.770 | 8.518.988.796 | 3.411.689.787 | 8,225,983,861 | | | |

Thus even with the improvement in wheat, the aggregate yield for 1901 of these five crops falls 700 million bush.below the corresponding totals for 1900, and 1899, this year's footing being 2,814 million bush.against

Dealing more specifically with the corn figures, as apportioned to the different States, the decrease in Kansas and Missouri is naturally found to be strik. ingly large. The two States, it is estimated, will harvest only 126 million bushels, as against 344 million bushels in 1900 and 400 million bushels in 1899. The decrease also extends to the smaller corn-producing States in the Sonthwest, the indicated yield for Texas being less than 55 million bushels, as against over 81 million bushels in both 1900 and 1899, and 105 million bushels in 1898, and the yield of Arkansas not quite 19 million bushels, as against 45 million bushels in 1900 and 48 million bushels in 1899. Turning to the Northwest the story is much the same, modified somewhat for the better. Nebraska is credited with only 113 million bushels, this comparing with 210 million bushels last year and 224 million bushels the year before. Iowa has suffered less than any of its neighbors, and yet has a promise of only 209 million bushels against 305 million last year. The Middle Western States prove no exception to the rule. Taking the tier of States east of the Mississippi and north of the Ohio-that is, Ohio, Indiana and Illinoisthe aggregate of the 1901 product is but 287,814,000 bushels, against 524,267,000 bushels in 1900 and 479,-051,000 bushels in 1899. Nor has the South escaped, as is evident from the loss in Kentucky. Here are the figures for the leading corn-producing States.

It is fortunate that the present deficient agricultural yield is not coincident with trade depression. That was the situation in 1894, and accounted for the serious reverses our carrying interests and all other departments of business sustained at that time. Now we have unwonted activity in trade, which is serving and will probably continue to serve to the end of the crop season as a counterpoise to the ill effects of the crop shortage. As far as the Southwest is concerned, the further circumstance must not be overlooked that the oil discoveries have changed the whole aspect of things in that part of the country, and this must tend as an additional stimulus to trade activity.

THE NATIONAL BANKRUPTCY LAW SHOULD BE AMENDED.

The National Bankruptcy Law, a subject of the gravest importance, is a timely one for consideration at present, inasmuch as it will come up at Washington this winter. Inquiry into the views of business men about it is now proceeding along three lines. The National Association of Referees in Bankruptcy is acting at the request of the Chairman of the House Judiciary Committee; the National Association of Credit Men is doing the same ; and the special committee of the Merchants' Association in this city only a few weeks ago appointed a sub-committee to procure and collate opinion from other trade organizations. A digest of the wishes and advice of the business interests of the country at large, based upon experience, is therefore in preparation, to be submitted to Congress.

The first English Bankruptcy Act, in 1542, was quaintly entitled "An Act against such Persons as do make Bankrupt," and cited in its preamble that "whereas divers and sundry persons, craftily obtaining into their hands great substance of other men's goods, do suddenly flee into parts unknown, or keep their houses, not mindful to pay or restore to any their creditors their debts and duties, but at their own wills and pleasures consume the substance obtained by credit of other men, for their own pleasure and delicate living, against all reason, equity and good conscience." The Act itself did not belie its title; it was "against" such persons, for it penalized debt by visiting outlawry upon the debtor who absconded and imprisonment upon the one who did not. The Chinese debtor's pigeon-English inquiry, "If no havee, how cap," had no force for the sixteenth-century English legislator. The debtor who had been unable to keep square with the world while a free man could not find money in jail; yet the law made no attempt to discriminate between honest and fraudulent. This feature is older than the sixteenth century and older than the first, for one of the parables in Matthew relates how a hard creditor refused compassion and "went and cast him into prison, till he should pay the debt." The spirit of the law was penal and revengeful, but in course of time it mellowed. The statute of 1705 made failure to appear and answer, a felony, but rewarded appearance and honest answering by a discharge, and even by an allowance out of the assets.

Our four American laws have been relief laws, the first one being limited to five years in force and the others providing discharge for debtors made by the troubles of 1837, 1865 and 1893. As one referee in bankruptcy, Mr. W. H. Hotchkiss, puts it, the present law might have been called an act to abolish old debts and have been captioned thus: "Whereas many of our citizens, through misfortune or speculation during the recent period of commercial depression, have become prisoners to their debts, and cannot through State laws secure discharges from their obligations and become productive members of society again, be it enacted." In a little more than two years, 40,000 American men (and women) have become voluntary bankrupts and have presumably obtained discharge, and from 600 to 700 millions of debt have been wiped out. Yet it should be noted that mainly this has been only a formal acknowledgment of an existing fact. The debts thus wiped out were out before. Nine-tenths of the discharged cases represent old failures and musty affairs barren of assets; the creditors had been carrying the accounts over, in hope deferred, from year to year, and what the law took from them was only the right to sue men who could not pay.

The present law of 1898 has thus given freedom to victims of past misfortune. It is also in its favor that, recognizing the principle that assets in bankruptcy belong to the creditors, it has enforced this by sequestering them, by setting aside preferences, by giving to creditors the choice of trustee, by limiting expenses for officers and attorneys, and by reducing to the minimum the necessary consumption of assets and time in settlement. In marked contrast with the waste under the law of 1867, delays are made almost impossible, and the average cost of administration, the country over, was under \$40 in the past year for voluntary cases and only \$210 for involuntary; so that extravagance is certainly not a vice of the present law. Preferences are made easy of overthrow, and since they are valueless unless obtained four months prior to bankruptcy few creditors try to obtain them; every lien or priority secured by legal proceedings within the four months, irrespective of intent or collusion, is wiped out by the law, which must as a whole be judged to well perform its chief function, the administrative one.

On the other hand, the law has grave defects. To prevent a discharge seems impossible. This is so, even if the bankrapt estate pays nothing whatever and the bankrupt has recklessly dissipated or conveyed away his property prior to or in contemplation of bankruptcy; nor is there any limit to the number of times the same person may go through the process. Many obligations generally regarded as beyond the pale of bankruptcy laws seem to be released in most districts. Even fraudulent preference does not bar discharge, and flagrant frauds upon creditors are made too difficult of proof and are not enough penalized. Corporations cannot be halted by creditors when seeking to wind up by favorable receiverships under State laws. The Federal courts, although charged with collecting the assets, including these fraudulently transferred, must proceed in the State courts, which are often unconsciously hostile and usually far behind with their calendars. Probably the gravest defect, however, turns upon the preferences, for the clause concerning these has been judicially construed to mean that all payments on account made within four months prior to bankruptcy are preferences, irrespective of the intent on part of either creditor or debtor.

Delicate and casuistic though the subject is, we suppose it will not be denied that, as a question of spect to time and does not commit the real preference

debts, and that the debtor may even be allowed some right to discriminate. For instance, if it is too much to say that the comparative consequence of the debt to the creditor affects its comparative sacredness, the character of the debt is not wholly irrelevant; thus a friendly loan in goodwill clearly seems more owed than an ordinary business obligation. That it would be ueither feasible nor morally right to broadly allow the debtor to choose whom and in what proportions he will pay—which would be to grant unrestricted liberty of preference-is too plain to be open to discussion. It is true that the law does not make distinctions and generally regards a debt as a debt; yet perhaps as law becomes more and more permeated with morality, the courts, which ought to be safely trusted to do justice, may be permitted to discriminate between debts, and go beyond the rule of pro rata.

This forecast, however, we indulge as casting a sidelight upon the preference of the bankrupt law. A payment, entire or partial, by a person who is in fact insolvent though not yet so declared, or by one who has almost given up his case in his own mind as hopeless, may be deemed, pro tanto, to "prefer" a creditor. This is giving one an advantage over the rest; it selects him from the number of creditors, and gives him a part of what equitably belongs to them; this must be what Congress had in mind. Knowledge of the facts by the creditor characterizes and confirms the transaction; yet since such knowledge is not ordinary and natural, he must be presumed not to have it and only to innocently receive his own. The intent and knowledge of the debtor, the person who alone can know and ought to know the facts, thus determine when a payment is the preference which the law intended to prevent.

Surely this is so obvious that argument could not strengthen it; but if anybody dissents let the severest say what the honest and supposedly solvent debtor, who cannot now meet all debts due, ought to do about it; also remembering that "solvency" has a somewhat broader meaning than to have in hand today the cash to discharge every dollar of obligation. No dealer can ever positively know just what his trading for even four months ahead will do for him, or exactly what his goods in stock are worth; or exactly what his bills receivable and open accounts will yield; therefore, there must be a large margin allowed for honest judgment and persistent hope, and the apparent assumption in the law that any bankrupt must have recognized himself as insolvent for at least four months is unsound.

But-to renew the question-what is the debtor to do about payments? No man decides, either after an express examination or by a rough estimate, that he can pay a certain percentage and thereupon remits it to each creditor; this is not the manner of ordinary business. The man settles some small accounts and reduces the number of creditors; or partly pays those who press him most or those whose goods are most necessary to his trade; perhaps he prefers his landlord, for obvious reasons of expediency; probably he pays here and there, sometimes partly and sometimes fully, according to what he thinks the method most helpful to his case. So long as he does this honestly and not in contemplation of bankruptcy, it seems to us clearly within his right, for he only prefers in remorals, there are differences in the obligation of intended, but not clearly defined, by the law. Whoever dissents may well ask himself what he would probably do if he found himself short of ready cash but not without reasonable faith in the future.

Yet the law as linterpreted involves absurd inconsistencies. The payment within four months, unless collusive, is not recoverable from the creditor; it is absolutely his, only he cannot prove a claim against the estate until he has surrendered what he has received. In case of full payment, there is, of course, no question of claim or surrender-the fortunate creditor is out of the trouble; in case of partial payment, it is admissible (and inevitable) that he shall decide for himself whether he will do better to keep what he has and charge off the rest or refund and then come in among the others with the full 100 per cent of his claim. The more he has been "preferred," obviously, the less he will incline to refund; therefore the larger the injustice assumed to have been worked upon the other creditors, the less likely is it to be rectified. Moreover, all payments on account must really be deemed to have a taint attaching to them for four months after date; they are a quasi trust fund in hands of the creditor; his, yet not his, lest the debtor fail meanwhile and bring them into question. Here is an anomaly which needs to be pointed out rather than to be argued. The partial payment is in a measare banned by law, while the complete one is in the same case protected; thus the greater the assumed wrong, the weaker the provision for its undoing.

Suppose a firm puts a limit of \$1,000 to a customer's indebtedness at one time, and that in four months more he fails, owing \$1,000 and having paid on the open account \$6,000 within that term; the firm must, and may, decide whether to write off the \$1,000 or re fund \$6,000 in order to be allowed to put in a claim for \$7,000. Suppose a dealer owes \$1,000 to one firm and \$5,000 to another; that he pays\$1,000 to each and then fails within four months; one creditor is clear, but the other and larger one must lose \$4,000 or return \$1,000 and take the chances of a dividend on \$5,000. Or take this extraordinary actual case: A St. Louis bank loaned a corporation \$25,000 on notes indorsed by its directors, who, it appears, had no means beyond their stock; while these notes were running the same bank duplicated the loan upon the same indorsements, plus the names of two outside capitalists of large responsibility. The corporation paid this amply secured loan, and within four months thereafter failed, leaving the other notes in the bank. When the bank sought to put in its claim, it was barred by a demand that it return the second \$25,000, already paid. Although the corporation, for whatever reason, did "prefer" to pay the second loan instead of the first, there was obviously no preference or favor on the side of the bank, because the two solid indorsements secured that loan in any event; yet, under the law, the bank must lose that indorsement and surrender the money or abandon the other \$25,000. Without any fault on its part, unless perhaps an error in judgment, the creditor bank was thus forced to choose between \$25,000 in hand and a contingent dividend on a claim for \$50,000.

The question now up is whether the law shall be suspended, amended or repealed, and neither of these courses wholly lacks advocates. Some would even give it an intermittent feature; a bill now pending would actually suspend it four years (giving time for a fresh crop of debts to grow), then put it in force for one year, and so on indefinitely. England tried this in 1742, but kept moving forward the date of suspension by amendment until, in 1775, the idea was abandoned. It is not worthy of respectful consideration now.

Repeal would throw the country back into the chaos of State laws and no State laws. When this statute went into effect, only 18 States had laws which sought to compel an equitable distribution by insolvent debtors; in 28 States the debtor could distribute as he saw fit, by voluntary conveyance and through a trustee of his own choosing, and in 33 States and Territories he could pay or secure some and Such an irrational and reexclude the rest. actionary return as this, in a country where trade is inter-State, and in an age of such expanding commerce that a bankruptcy treaty between this country and Great Britain and even an international agreement among all commercial nations are large topics already in discussion, is really intolerable. Nor should we forget that repeal would be a retreat which would make subsequent rally more difficult. It would be to again abandon the subject as impracticable, and although the pressure of relief from the misrale of inconsistent laws, together with the plaint of debtors under bondage, would certainly recall it, the permanent status would be made harder to attain.

Such a status, in the view of Referee Hotchkiss, should do away with referees, since the referee plan involves many defects, of which compensation by fees is worst. He would have a bankruptcy court with bankruptcy judges, thus obviating confusions of interpretation and securing dignity and permanence. At least, his suggestion that the subject be first committed by Congress to a commission of experts seems wise. The mass of expert opinion, qualified by commercial and legal experience which is now gathering, could well go before such a commission. The inquiry blank now in circulation especially covers the clause which makes partial payments preferences, and presents a blank sheet for the suggestion of amendments generally. The proposition, however, upon which all may agree is that there should be no hasty action, but that the law as it is should be maintained firmly as a vantage-ground for reaching a more progressive stand.

CITY TAXES AND THE REFORM MOVEMENT.

We make room for the following letter because we feel deeply impressed with the necessity of lightening the burden of taxation in this city and because we are glad to have so good an authority in such matters as former City Comptroller Ashbel P. Fitch in full accord with us in that respect.

> THE TRUST COMPANY OF AMERICA. OFFICE OF THE PRESIDENT, 149 BROADWAY, NEW YORK. 5 NOVEMBER 9, 1901.

To the Editor THE COMMERCIAL & FINANCIAL CHRONICLE: MY DEAR SIR-Please allow me to express to you the pleasure with which I have read what you say in your article entitled "The Financial Situation" in to-day's issue of the CHRONICLE in regard to what ought to be attained as a result of the late election.

The burden upon real estate in this city has become almost unbearable and, as you truly suggest, the life of this reform movement will depend largely upon whether or not it results in lower taxes and searching economy in all the city's expenditures. Very sincerely yours,

ASHBEL P. FITCH.

RAILROAD GROSS EARNINGS FOR OCTOBER.

As expected, railroad gross earnings for October make a strikingly favorable exhibit, the results being noteworthy even in this era of large and continuous improvement in transportation receipts. The gains reach really imposing proportions. On the 105 roads that have contributed returns the aggregate increase is more than 84 million dollars-\$8,232,194. Our statement covers considerably over one hundred thousand miles of road, the exact figures for 1901 being 106,399, and yet this represents little more than one-half the railroad mileage of the whole United States, it being impossible to secure returns for the other half so soon after the close of the month. The import of this remark lies in the fact that it indicates that for the entire mileage of the country the increase for this one month would probably be in the neighborhood of 15 million dollars. In ratio the \$8,232,194 increase is not far from 12 per cent-11.87 per cent.

It is repeating a familiar fact to say that this improvement the present year follows similar improvement, differing only in degree, in the years preceding. That has been the record month after month, and October is no exception to the rule. Turning to our review for that month a year ago, we find that we then stated that in view of all the circumstances it was one of the most notable features of the times that the gains in earnings should keep up so continuously. The aggregate increase then was \$2,807,275, or 5.03 per cent, and was made in face of heavy losses on the spring-wheat roads by reason of the spring-wheat shortage of 1900. The increase referred to, moreover, in itself followed \$6,094,486 increase in 1899, \$2,628,-854 increase in 1898 and \$4,602,179 increase in 1897. It is on top of all this that the further improvement of \$8,232,194, or 11.87 per cent in 1901 comes. Here is a summary showing the totals back to 1897.

| | Mil | eage. | Earnings. | | Increase | |

As this year's wheat yield was so much better than that of last year, possibly it may be supposed that the railroads had the advantage of a much larger grain movement. As far as the distinctively spring-wheat roads in the Northwest, like the Great Northern and the Northern Pacific, are concerned, that is true; but it is not true of the roads in other parts of the country, or of the roads as a whole. These other sections had to contend with a heavy falling off in corn, in oats and in barley. There was also, strange as it may seem, a pretty general decrease in the wheat movement outside of the spring wheat territory, the increase in the wheat deliveries as a whole following almost entirely from the exceptionally heavy movement to Minneapolis and Duluth. Taking the five weeks ending November 2, the receipts of corn at the Western primary markets were only 14,287,438 bushels this year, against 23,828,044 bushels last year; of 183,900 bales, against 255,659 bales.

oats, 14,940,144 bushels, against 18,369,954 bushels, and of barley, 8,766,804 bushels, against 11,902,249 Combining wheat, corn, oats, barley and bushels. rye, the aggregate of the receipts for the five weeks of 1901 is 75,765,259 bushels, against 85,979,629 bushels for the corresponding period in 1900. The falling off, it will be seen, has been over 10 million bushels. We annex our usual detailed statement:

BECEIPTS OF FLOUR AND GRAIN FOR FIVE WEEKS ENDING NOVEMBER 2 AND SINCE JANUARY 1.

The contraction which has occurred in the grain movement is strikingly shown in the case of Chicago. Here we have the tigures for the even month, and they give an aggregate of only 21,889,187 bushels for October 1901, against 30,842,323 bushels for October 1900 and 34,758,147 bushels for 1899, per the following:

| | RECEIPTS AT | CHICAGO | DUBING | OCTOBER | AND | SINCE | JANUABY | 1. |

The Pan-American Exposition has been an important advantage to the New York Central, but it has hardly been a considerable factor in the case of any of the other roads represented in our compilations, since the Erie, the Lehigh Valley, etc., have not yet made reports for October. The cotton movement in the Sonth, on the whole, was probably smaller than in October 1900, for while the receipts at the Southern outports were 1,518,121 bales, against 1,473,202 bales, the shipments overland were only

THE CHRONICLE.

RECEIPTS OF COTTON AT SOUTHERN PORTS IN OCTOBER, AND FROM JANUARY 1 TO OCTOBER 31, IN 1901, 1900 AND 1899.

| | | | |

To complete our review we present the following six-year comparisons of earnings for the principal roads, arranged in groups. It will be noticed that the two groups which are particularly distinguished for good results are the Northwestern, where the earnings reach this year \$20,289,157, against \$16,684,522 last year, and the Trunk Line group, with a total of \$18,060,636, against \$16,240,924. The Southwestern group records over 10 per cent increase, notwithstanding the corn and cotton shortage in that part of the country.

-A syndicate has been organized by Charles W. Morse for

the purpose of constructing a modern banking and office building, to be called the Bank of the State building, on Exchange Place and William Street, running through from Exchange Place to Wall Street. The structure will occupy the present site of the Bank of the State of New York, corner of William Street, also property adjoining on the

rear at 43 Exchange Place, which was bought last

spring by the bank, and 45 and 47 Exchange Place (extending to 41 and 43 Wall Street), which has been bought by the above-noted syndicate. The plans contemplate the throwing of the whole property named into one building,

shares of the new stock of the Seventh National Bank.

which will be twenty-three stories high, and the bank will thus have an entrance on Wall Street as well as on William Street. The report that the Morse Syndicate has bought 49 Exchange Place is not correct; this property is owned by the Charles Harvier estate and it is not for sale. The building No. 51, adjoining, is owned by D. O. Mills. The edifice now occupied by the Bank of the State was erected about forty years ago, previous to which the property was occupied by dry goods merchants.

-The Seventh National Bank, as reorganized with a capital of \$1,700,000, resumed business on Tuesday morning under the management of Edwin Gould as President; William H. Taylor and Edward R. Thomas, Vice-Presidents, and R. W. Jones Jr., Vice-President and Cashier, and George W. Adams, Assistant Cashier. The credit balance of the bank at the Clearing House was \$1,981,000, which was largely due to the payment by the Comptroller of the Currency to the bank of about \$1,400,000, which had been collected by the receiver during his administration of the affairs of the old institution since its failure in June last. Comptroller Ridgely discharged the receiver on Monday and personally superintended the reopening of the bank. All the civil suits growing out of the suspension were formally dismissed on Monday. The Seventh National will after April next occupy offices on the main floor of the new building now in course of construction at the corner of Maiden Lane and Broadway. This structure will be eighteen stories high, and it will be known as the Seventh National Bank Building.

-As was announced in this department last week, interests identified with the National City Bank have secured control of the National Citizens' Bank at 401 Broadway, and James Stillman, President of the first-named institution, was then elected a director in the Citizens. On Saturday it was announced that the Citizens' Bank had 'obtained control of the Ninth National Bank at 407 Broadway, and that the two institutions will be consolidated after formal assent shall be given by the stockholders of the respective banks at meetings which will be held December 9. It will be proposed by the directors at the meeting of the stockholders of the Citizens' Bank to change the par value of the stock from \$25 to \$100 per share, and to increase the capital from \$600,000 to \$1,550,000 and the surplus from about \$380,000 to \$775,000, by the issue of 9,500 shares of a par value of \$100 each, of which 6,000 shares shall be offered ratably to present stockholders at \$150 per share. The remaining 3,500 shares will be dis. posed of for the purpose of acquiring the capital stock and assets of the Ninth National Bank. If exchange of stock shall be made for this purpose, the stockholders of the Ninth will receive one share of the Citizens' for two and one-seventh shares of the Ninth. On this basis the value of the 7,500 shares of the Ninth is estimated at \$70 per share. The proposition has been informally approved by holders of more than two-thirds of the stock of the Citizens', and a large number of the stockholders of the Ninth have signified their willingness to accept the terms which may be proposed for the exchange of stock. The nearly-adjoining locations of the two banks, 401 and 407 Broadway, have made them active competitors for business; hence the proposed consolidation will doubtless result greatly to the advantage of the Cltizens." The purchase by the Hanover National of control of the Ninth, which, as heretofore noted, was consummated on October 29, appears to have been a step preliminary to the action taken last Saturday.

It is expected that Edward S. Schenck, now Vice-President, will be elected President of the Citizens' Bank at the meeting of stockholders to be held December 9. Mr. Schenck was for seven years President of the Hamilton Bank, a State institution located at 215 West 125th Street, which bank is controlled by the Mercantile National Bank, of which Mr. Schenck's brother, Frederick S., is President. Edward S. Schenck was on February 1 elected Vice-President of the Citizens,' and he has since been the active executive officer of that institution. The Citizens' is the oldest bank, having been organized in 1851, while the organization of the Ninth was in 1864. The Citizens' originally had a capital of \$300,-000, and it was first located at 64 Bowery, later removing to 58, and in 1865, when it became a national bank, to Broadway, corner of White Street. In 1875 it removed to its present location, 401 Broadway. The Ninth National began business at the corner of Broadway and Canal Street with a capital of ' \$1,000,000, which was later increased to \$1,500,000, and in 1878 reduced to \$750,000.

-Among the banks in the West to whose growth attention has at varions times been called in these columns, the Security Bank of Minnesota at Minneapolis should not be overlooked. The progress of the institution, which has added nearly \$4,000,000 to its deposits during the past three years, is best displayed in the appended table prepared by us:

With the figures above, the Security Bank ranks among the largest in Minneapolis. Its deposits, it will be seen, now stand at \$7,398,677, against \$6,754,455 on April 30 1901 and but \$3,905,776 on September 20 1898. The same progress is shown in aggregate resources, where we observe figures of \$8,546,750 for September 30 1901, as against only \$7,854,683 on April 30 1901 and but \$5,014,192 on September 20 1898. The shares are now quoted at 120 bid, 132 asked, which compare with 57 asked February 4 1899—less than three years ago. The management of the bank is in the hands of Mr. F. A. Chamberlain, President; Perry Harrison and E. F. Mearkle, Vice-Presidents; T. F. Hurley, Cashier, and Guy C. Landis, Assistant Cashier.

-The St. Paul Bank Clerks' Association of St. Paul, to the temporary organization of which we referred in our issue of the 2d inst., has been regularly organized, and the election of the following officers is announced: President, Otto M. Nelson of the First National Bank; Vice-President, Henry Van Vleck of the Merchants' National; Secretary, W. B. Clow of the St. Paul National, and Treasurer, Henry Von Dermeyer of the National German-American. Meetings are to be held once a month, and any employe of a bank, trust company or banking house is eligible for membership, the dues for which are but \$1 a year.

-A branch office of Messrs. Lamprecht Bros. & Company of Cleveland has been opened in Youngstown, Ohio. Messrs. Joseph Miller Jr. and Edward C. Munroe have been installed as managers of this branch.

-The People's Trust Company of Pittsburg, organized last spring with a capital of \$250,000, has purchased property at South 18th and Carson streets, on which will be erected a modern banking house. The officials are Mr. William Ruske, President; G. H. Schmunk, Vice-President, and H. J. Kumer, Treasurer.

-Arrangements have been made for the extension of the corporate existence of the Commercial National Bank of Detroit, whose charter expired on the 11th inst. The new term is for twenty years. No change is to be made in the capital of \$500,000, or the officials, who are as follows: Hugh McMillan, President; Morris L. Williams, Vice-President and Caehier, and A. W. Ehrman, Assistant Cashier.

-The People's Savings Bank of Detroit is also to extend its charter, but for a longer period of time-thirty years from January 1, 1902. This bank, too, has a capital of \$500,000, and the officers include M. W. O'Brien as President; F. A. Schulte as Vice-President and George E. Lawson as Cashier.

-What is said to be the initial step in a contemplated consolidation of the Columbia National of Buffalo with some other Buffalo bank was the election last week of three new directors to the Columbia Board. These are Mr. George F. Rand, President of the First National Bank, Tonawanda; John F. Harper, Cashier of the Colonial National of Cleveland, and John Cunneen of Buffalo.

Whether the proposed consolidation be effected or not (plans for which are still in a formative state), it is understood that a reorganization of the Columbia National will take place. Although Mr. Rand is chiefly interested in the venture and will very likely, it is stated, be made President, considerable Cleveland capital, aside from that represented by Mr. Harper, has also become interested in the bank, the names of Mr. H. C. Christy, President of the Colonial National Bank, and W. H. Lamprecht, of Messra. Lamprecht Bros. & Company, being mentioned in connection with the move. Under the plan proposed, the capital of the Columbia, now \$200,000, will be increased to \$500,000. The President now is Mr. Edgar B. Jewett and Vice-President George Wadsworth. Cashier Clifford Hubbell resigned this week.

-Plans for a new three-story building for the Frankford Real Estate Trust & Safe Deposit Company, Philadelphia, have been prepared. The structure is to be of elaborate design, entirely of granite. The institution has a capital of \$125,000 and is officered by John B. Lennig, President; E. H. Middleton, Vice President, and J. T. Crankshaw, Secretary and Treasurer:

-A permanent receiver has finally been appointed to take charge of the affairs of the Eufaula National Bank, of Eufaula, Ala. Mr. J. K. McDonald, of Birmingham, is the appointee.

-At the meeting of the Pittsburg Stock Exchange members on Saturday last the proposed amendments noted in the issue of the CHRONICLE a week ago (an increase in the initiation fee from \$25 00 to \$250, and a provision allowing an additional assessment beyond the annual dues of \$50 if expenses require it) were adopted. Rules for order were modified, the fine limit raised to \$5 and the rules to be in force at all times instead of only, as heretofore, between the hours of 10 and 3.

-The Coal & Iron National Bank of Cleveland, Ohio, which, as noted herein at the time, had issued \$300,000 out of the \$500,000 increased stock, now reports the full amount as paid. The bank's capital is accordingly \$1,000,000.

-The directors of the Tiffin National Bank of Tiffin, Ohio, elected Mr. Elmer E. Hershberger as Assistant Cashier. Mr. Hershberger, having served the bank for eighteen years, is well qualified to fill his new position.

-John P. Hollingshead & Co., note brokers at 45 and 47 Wall Street, and successors of the old, well-known house of Dix & Phyfe, have opened a branch office at No. 202 La Salle Street, Chicago, with Mr. William G. Heath as Manager. Mr. Heath has had many years' experience in the commercial paper business, both East and West.

-Mr. H. B. Walker, Treasurer of the Canada Life Assuracce Company, has been appointed a director of the National Trust Company of Toronto, Canada.

—A certificate has been issued to the Commercial National Bank of Fond du Lac, Wis. As stated in our issue of October 19, in which we also gave the names of the officials, this bank succeeds the Wells Banking House, established in 1870.

-The Comptroller has approved the application to organize the American National Bank of Everett, Wash., with \$100,000 capital and surplus of \$50,000. The incorporators are J. T. McChesney, E. A. Nickerson, Edward C. Mony, W. J. Rucker and Bethel J. Rucker. The latter two are President and Cashier, respectively, of the Rucker Bank of Everett, organized in 1892, which is to be absorbed by the new organization. The bank will locate temporarily at Hewitt and Colby avenues, and expects to be ready for business by January 1. It is the intention of the officials to provide a building for the exclusive needs of ithe bank, which will conduct a trust department in addition to a regular banking business. Mr. McChesney, it is understood, will be named as President and Robert Moody, President of the Aberdeen National Bank, of Aberdeen, So. Dak., as Cashier.

-Mr. Edwin W. Robertson has been appointed President of the Central National Bank of Columbia, S. C. (capital \$100,000), succeeding Mr. James Woodrow.

-Through the death of William P. Marshall, Mr. J. Preston Thomas, Vice President, has become President of the National Bank of Chester County, West Chester, Pa. Mr. T. W. Marshall assumes the Vice-Presidency.

-The post of Cashier of the North Ward National Bank of Newark, which had been temporarily filled by Mr. E. F. Hartshorn, has been assigned to Mr. Spencer S. Marsh.

-Mr. F. J. Lothrop is the new Cashier of the Leominster National Bank, Leominster, Mass., of which Mr. Hamilton Mayo is President. Mr. Lothrop succeeds the late A. L. Burditt.

-The Anthracite Savings Bank of Wilkesbarre, Pa., reports an increase in the capital from \$150,000 to \$200,000. The amount of the surplus, which has also been added to, is now \$305,000. Benj. Reynolds is President and C. W. Laycock, Cashier.

-The organization has been completed of the Lake Charles National Bank, Lake Charles, La., by the election of the following officers; President, H. C. Gill; Vice-President, Charles S. Ramsay, and Cashier, W. A. Guillemet, formerly Cashier of the Bank of Poplarville, Poplarville, Miss. The bank has a capital of \$100,000 and intends to erect a building of its own.

-The Dollar Savings Bank of Toledo, it is reported, has made the proposed increase of \$50,000 in its capital, raising it to \$250,000.

-The convention of the Maryland Bankers' Association held at the Hotel Rennert, Baltimore, on Wednesday and Thursday of this week was marked by a large attendance of delegates, and certainly the programme arranged for the occasion was worthy of the interest displayed. Mr. C. C. Homer, President of the Second National Bank of Baltimore, and also of the Baltimore Clearing House Association, welcomed the bankers, his address being responded to by State Comptroller J. W. Hering. In his annual address, the President, Robert Shriver (President of the First National Bank of Cumberland), touched on the prosperity enjoyed by Maryland during the past year, not alone in the financial world but also in all other lines of business. Mr. W. T. Warburton, President of the Second National Bank of Elkton, contributed to the programme a discourse on "Bankers Associations," in which the value of such unions was shown. Not less interesting was the topic discussed by Mr. William G. Baker Jr., of Messrs. Baker, Watts & Co., Bankers, Baltimore, on "The American Banker in History." Mr. William Barrett Ridgely, Comptroller of the Currency, and the guest of honor, spoke informally at the gathering. A steamboat excursion to Sparrow's Point and a banquet at the hotel were among the social features of the gathering.

The officials for the ensuing year, unanimously chosen, are :

President, Mr. Charles C. Homer; Vice-Presidents (of which there are 10), Charles S. Lane, of Messrs. Eavely, Lane & Co., Hagerstown; S. A. Williams, President of the Harford National Bank, Bel Air; David Sloan, President of the Lonaconing Savings Bank, Lonaconing; William T. Warburton; William Dale, President of the Pocomoke City National Bank, Pocomoke City; Charles W. Dorsey, President of the Manufacturers' National Bank, Baltimore; William G. Baker Jr.; J. D. Wheeler, Cashier of the Drovers' & Mechanics' National Bank, Baltimore; John F. Sippel, Cashier Third National Bank, Baltimore, and John R. Bland, President of the United States Fidelity & Guaranty Company, Baltimore.

Secretary (re-elected), Lawrence B. Kemp, President Commercial & Farmers' National Bank, Baltimore.

Treasurer, William Marriott (re-elected), Cashier Western Nationa Bank, Baltimore.

-The announcement is made that a charter has been asked for the Newport Trust Company, which company will absorb and take the place of the Newport, R. I., branch of the Industrial Trust Company of Providence. This branch was originally the National Bank of Rhode Island, and was merged with the Industrial Trust Company in April 1900. Among those interested in the new institution, the capital of which is to be \$500,000, par \$100, are Samuel P. Colt, President of the Industrial Trust; Henry A. C. Taylor, Theodore K. Gibbs, Daniel B. Fearing, Charles L. F. Robinson, William G. Roelker, Frederick Tompkins, T. A. Lawton and J. W. Horton. The Newport Trust Company will be entirely separate from and independent of the Industrial Trust Company, although a number of those interested in the new concern are closely identified with the Providence institution.

-Mr. Henry B. Spencer of St. Louis, and a son of Mr. Samuel Spencer, President of the Southern Railway, is to address the Bankers' Club of Cincinnatiat its annual banquet Tuesday evening next.

-The Whitney National Bank of New Orleans has found it necessary to enlarge its facilities for the proper transaction of its increasing business. In the new quarters, which adjoin the main building of the bank, a foreign exchange department has been opened. Writing rooms for the patrons, commodious accommodations for the directors and a dining and reading room combined for the employes have been provided in the recent addition. Those in charge of the bank are Mr. James T. Hayden, President; Pearl Wight. Vice-President; J. M. Pagaud, Cashier, and J. E. Bouden Jr., Assistant Cashler.

-At a meeting of representatives of the Clearing House banks of Atlanta, Ga., it was decided to extend the hour of closing of banks on Saturdays from 12 to 2 o'clock. The order will go into effect at once and remain operative until April 1 1902. The reason for the departure is explained in the fact that Saturday's business is among the heaviest of the week.

Monetary Commercial English News

[From our own correspondent.]

LONDON, Saturday, November 2, 1901.

Early in the week the stock markets were very depressed and a good deal of uneasiness prevailed throughout the city. Since then, however, quotations have recovered somewhat and there is a better feeling. Still, business is very stagnant and a certain amount of uneasiness remains. In Paris the losses resulting from the breakdown of industrial enterprises both at home and in Russia are enormous. They have caused selling upon an extraordinary scale of all kinds of securities for which there was a free market abroad. Owing to the measures taken against the coulisse, or outside market, the Paris Stock Exchange is greatly crippled. Practically the outside market does scarcely any business, and the seventy members of the parquet, or official market, are accused, whether rightly or wrongly, of not very well understanding a good deal of what ought to be their own business.

At all events, the business done upon the Paris Bourse is shrinking more and more every day, while the greater part of it is transferred to London. It is estimated, for example, by persons in a position to be well informed, that during the past few weeks 50,000 Rio Tinto copper shares have been sold by Paris in London and 100,000 De Beer shares. Bearing in mind the high quotations at which both of these stand the figures will be seen to be very large, and all other kinds of securities for which there is a free market were disposed of in the same way.

This constant selling has naturally caused business to shrink in London in every direction, for people are afraid it is the forerunner of some great collapse. Rumor, indeed, is busy in Paris with the names of some important institutions; but the rumors are believed by the well informed to be abso-lutely unjustified. A few small banks that gave entirely too much accommodation to industrial enterprises have locked up a great part of their capital; but the large banks are believed to be thoroughly sound. There was a very heavy speculation in the shares of the various industrial enterprises and as these have fallen disastrously in many cases from 50 per cent to 70 per cent and in some cases even more, the differences to pay are enormous; and to meet those differences the sales have had to be made. For the time being, there-fore, the Paris Bourse has almost ceased to count. Yet the accumulation of unemployed money is enormous, and really good securities, especially French rente, are in eager demand. There have been several loans, some of them guaranteed by the French Government, but most of them to small States like Denmark; and now there is an issue of French rente amounting to 265 million francs, or a little under $10\frac{1}{2}$ mil lions sterling. It is expected to be issued very shortly, and no doubt is entertained that it will be eagerly subscribed for. The issue is intended to provide the Government with the total amount of the indemnity to be paid by China, but which will be paid by China only in yearly instalments.

In Germany matters are even worse than in France. It is believed by the well-informed that the worst of the crisis is over, at least in this sense: that no serious failure is now ap prehended; but small failures are occurring every day and are likely to occur for a considerable time yet, for the banks are limiting the accommodation they give in the most rigorous way, and there is over-production in almost all industries. The Government is giving out orders for railways and similar things over which it has control; bat Government orders do not make up for the general collapse all over Germany. In Russia matters are still worse; and to add to the troubles it appears that the failure of the crops is even more pronounced than has been supposed hitherto. To make head against its difficulties the Russian Government has induced its Paris bankers to anticipate the payments of the instalment of the last loan, and it is believed that it is trying to induce the Paris bankers to agree to the early issue of another large loan.

On Thursday the directors of the Bank of England raised their rate of discount to 4 per cent. Up to Tuesday morning this was very generally expected, as the withdrawals for

both France and Germany have been large of late; while the period is now fast approaching when the internal demands for both coin and notes will be heavy and the usual shipments will have to be made to South America and to Egypt; but on Tuesday and Wednesday the opinion of the city changed, and it was more and more assumed that the rise in rates would not be needed, since it was believed that France would obtain what gold she required direct from New York, and that the German power of taking gold was nearly ex-hausted. The directors of the Bank of England, however, have wisely decided not to run any risks, and so far the market has accepted the decision of the directors with equanimity, and quotations have been scarcely affected.

For the moment it looks as if the rise in the Bank rate would stop the shipments of gold to the Continent; but that will depend upon the course of events in France and Ger-If the Paris market settles down, as the best judges many. expect it will, when the new issue of rente is made, money will once more become dearer in London than in Paris and the withdrawals of gold from the Bank will cease. On the other hand, if anything further should disturb the Paris money market, such, for example, as the threatened coal strike, which is now believed to be practically averted, but which for all that the leaders of the men have never openly admitted to be abandoned, then rates would probably rise in Paris; and as it is certain that there is a very large debt due from this country to France, the gold withdrawals might begin again. Similarly, if anything should happen in Germany to send up rates rapidly there, we might again see gold withdrawals from London. The best opinion for the time being, however, is that the 4 per cent rate will be made effective here and that withdrawals from the Bank will cease

Meantime the India Council continues to sell its drafts fairly well. It offered for tender on Wednesday 50 lacs and the applications exceeded 1,479 lacs. The whole amount offered was allotted at prices ranging from 1s. 4d. to 1s. 4 1-32d. per rupee.

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols, &c.

Messrs. Pixley & Abell write as follows under date of October 31:

October 31: Gold—The feature has been the demand for Paris; £340,000 has been taken from the Bank, and the small supplies of bars in the open market have also been secured. America has shipped \$2,850,00J to Paris, but this has not eased the demand appreciably, and to-day, with the Bank rate up to 4 per cent, the cheque remains at 25'9's. The withdrawals from the Bank total £520,00J, of which £130,000 has gone to Egypt. Arrivals: West Indies, £18,000; Australia, £21,000; total, £39,000. Shipments: Bombay, £48,500; Colombo, £8,000; total, £57,000. Silver - After touching 26'3d, the lower rates attracted some buying orders from the East, and this, coupled with covering orders for the end of the month, bronght about a sharp recovery to 26'3d, eash and 2611₁₆d. forward, America selling sparingiv. To-day's rise in the Bank rate, with slightly lower rates from the East, has caused the market to ease off to 26'₁₆d, eash and 26'₅d, forward, closing sellers. The Indian price is Rs. 67%. Arrivals: New York, £90,000; West Indies, £16,000; Australia, £3,000; total, £109,000. Shipments: Bombay, £160,000; Hong Kong, £22,677; Caloutta, £10,000; total, £192,677. Mexican Dollars—The rise in the price of sliver has stopped the sell-

Moxican Dollars—The rise in the price of silver has stopped the sell-ing orders from Mexico, and we quote 264d. nearest price, with no business. Shipments: Singapore, £11,860; Hong Kong, £52,550; Shanghai, £19,600; Manila, £10,070; total, £84,110.

The quotations for bullion are reported as follows:

Commercial and Miscellaneous Rews

IMPORTS AND EXFORTS FOR THE WEEK.—The following are the imports at New York for the week ending for dry goods Nov. 7 and for the week ending for general merchandise Nov. 8; also totals since beginning first week January. FOREIGN IMPORTS.

| | | | | 1 |
|-----------------------------|----------------------------------------|------------------------------|----------------------------|-----------------------------|
| For week. | 1901. | 1900. | 1899. | 1898. |
| Dry Goods Gen'l mer'dise | *2,127,967 10,027,364 | | | \$1,513,001 7,048,699 |
| Total Since Jan, 1. | \$12,155,331 | \$11,129,375 | \$9,970,621 | \$8,561,700 |
| Dry Goods Gen'l mer'dise | \$92,325,880 | \$100,339,049 361,663,458 | 889,370,298 356,885,068 | \$80,170,765 289,083,082 |
| Total 45 weeks | \$480.781.232 | \$462,002,507 | 8445,755,366 | \$369.253.850 |

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending Nov. 11, and from January 1 to date. EX

| PORTS FROM NEW YOR | ik for the week |
|--------------------|-----------------|
|--------------------|-----------------|

| | 1901. | 1900, | 1899. | 1898. | |
|--------------------------------|---------------|---------------|---------------|---------------|--|
| For the week Prev. reported | | | | | |
| Total45 weeks | \$442,276,042 | \$466,675,362 | \$407,521,218 | \$405,413,233 | |

NOTE.—As the figures of exports as reported by the New York Oustom House from week to week frequently show divergence from the monthly totals, also compiled by the Custom House, we shall from time to time adjust the totals by adding to or deducting from the amount "previously reported."

The following table shows the exports and imports of specie at the port of New York for the week ending Nov. 9 and since Jan. 1, 1901, and for the corresponding periods in 1900 and 1809.

EXPORTS AND IMPORTS OF SPECIE AT NEW YORK.

† Final dividend for quarter ending Dec. 31, 1901.

WALL STREET. FRIDAY, NOV. 15. 1901.-5 P. M. The Money Market and Financial Situation.—The important event of the week in Wall Street has been the announcement of the plan under which the Northwestern railway situation is or will be settled. The result of this announcement in the stock market was disappointing to those who expected an advance in prices to follow, and shows that the strength of the market for some time past has been based on the general understanding that such a plan was being formulated. This matter being no longer in suspense, the security markets will no doubt in future be more exclusively controlled by general commercial and financial conditions.

As to the latter, when viewed from a domestic standpoint, there seems to be no diminution of industrial activity, but the international trade statement for October is less favoraable than that for the corresponding month last year. It is, however, more favorable than for October, 1899.

Foreign exchange rates have advanced to very near the point at which gold may be shipped direct to London at a profit and \$4,602,770 has been shipped to Paris this week. Naturally the money market is firmer and the tendency of rates is upward.

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 3 to 5 per cent. To-day's rates on call were 3 to 5 per cent. Prime commercial paper quoted at 4½@5 per cent. The Park of England multiple tetrates of the cent.

The Bank of England weekly statement on Thursday showed a decrease in bullion of £259,266, and the percentage of reserve to liabilities was 45.91, against 46.44 last week; the discount rate remains unchanged at 4 per cent. The Bank of France shows an increase of 19,400,000 francs in gold and 350,000 francs in silver.

The New York City Clearing-House banks in their statement of Nov. 9 showed a decrease in the reserve held of \$3,703,700, and a surplus over the required reserve of \$8,689,925, against \$10,482.800 the previous week.

Surplus reserve 8.689,925 Dec 1,792.875 4,606.050 de NOTE.-Heturns of separate banks appear on page 1044.

Foreign Exchange.—The foreign exchange market has been decidedly strong and rates advanced to the highest point of the season.

To-day's actual rates of exchange were as follows: Bankers' sixty days' sterling, 4 843%@4 845%; demand, 4 8734@4 877%; cables, 4 8814@4 8812; prime commercial, sixty days, 4 84@ 4 8412; documentary commercial, sixty days, 4 8214@4 8412; grain for payment, 4 8414@4 8412; cotton for payment, 4 8314@4 8312; cotton for acceptance, 4 84@4 8414.

Posted rates of leading bankers follow:

| November 15 | Sixty Days | Demand | | |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|--|
| Prime bankers' sterling bills on London. Prime commercial. Documentary commercial. Paris bankers' (Francs). Amsterdam (guilders) bankers. Frankfort or Bremen (reichm'ks) bankers * Less ¹ 1e. | $\begin{array}{cccccccccccccccccccccccccccccccccccc$ | 4 88 04 88 ¹ ₂ 5 15 ⁴ ₉ 05 15* 40 ⁵ ₁₆ 0 40 ³ ₉ 95 ⁷ ₁₈ 0 95 ¹ ₂ | | |

The following were the rates of domestic exchange on New York at the under-mentioned cities to-day: Savannah, buying ½ discount, selling par; Charleston, buying par, selling 1-10 premium: New Orleans, bank, par; commercial, \$1 00 discount; Chicago, 20c. discount; St. Louis, par; San Francisco, 10c. per \$100 premium.

United States Bonds.—No sales of Government bonds have been reported at the Board this week. The following are the daily closing quotations; for yearly range see third page following.

State and Railroad Bonds.-Sales of State bonds at the Board are limited to \$22,000 Virginia fund, debt 2-3s at 98.

Board are limited to \$22,000 Virginia fund. debt 2-3s at 98. The railway bond market has been active, the volume of business averaging about \$5,850,000 par value per day. This average was increased by heavy dealings in Union Pacific and Third Avenue issues, both of which showed some tendency to weakness, and close fractionally lower than our last quotations. Chicago Terminal Transfer 4s were also heavy and sold off about 3 points. These were exceptional in this regard, however, the active list generally showing small net gains. Standard Rope & Twine 6s were notably strong. Other than the above the active list includes Baltimore & Ohio, Burlington & Quincy, Fort Worth & Denver City, Erie, Northern Pacific, Reading and Wabash issues.

Stock and Bond Sales.—The daily and weekly record of stock and bond sales at the various stock Exchanges, formerly given on this page, has been transferred to a place by itself. It will be found to-day on page 1053.

Railroad and Miscellaneous Stocks.—The stock market has continued active, daily transactions averaging nearly 1,000,000 shares. The upward movement noted last week remained in force through Monday and part of Tuesday, since which there has been liberal selling to realize profits and the reaction which resulted was accelerated by aggressive operations on the short side of the market. To-day's market, although less active, was firmer in tone and some recovery has been made. There were a few noteworty features, including Chicago & Eastern Illinois, which advanced 9 points on Monday, closing with a net gain of 6½ points, Chicago Indianapolis & Louisville, Hocking Valley, and the local transportation issues. Of the latter, Metropolitan Street Railway advanced over 12 points and Brooklyn Rapid Transit over 7 points, on the theory that a change in the city government will be advantageous to these properties. Transactions in Union Pacific were on a very large scale, aggregating nearly 200,000 shares on Thursday, and it closes with a net loss of 1¼ points. With few exceptions, in addition to those mentioned, the active railway list closes lower than last week.

Trading in miscellaneous stocks was dwarfed by the interest manifested in railway issues, and changes in the former are generally unimportant.

Outside Market.-The improvement in the outside market which followed Election day reached its heighth early in the week when the curb market enjoyed the most active business in some time. Trading was well distributed and practically all prices advanced. The latter part of the week the volume of trading diminished and prices to some extent fell off. To-day the market was rather quiet, with prices irregular. The notable event of the week was the appearance on the curb of the stock of the Northern Securities Company, which sold at 110 on Thursday and 109¹/₂@108¹/₂ to-day; also the new convertible 4s of the Northern Pacific RR. (See Investment News, page 1062), which were quoted to-day at 110 bid. Other new issues were the stock of the Eastern Steamship Co., capital \$3,000,000, which sold at 40@ 42, and the stock of the North Platte Mining & Smelting Co., which opened at $16\frac{1}{2}$ on Monday and sold to day at 19½. Among the more active stocks, Union Copper was dealt in in large amounts, from $4\frac{3}{4}$ up to $7\frac{1}{2}$ and closes at $5\frac{7}{8}$. White Knob Copper advanced from $20\frac{1}{2}$ to $23\frac{1}{4}$, but fell back to 21¹/₂, while Adams Copper moved up to 44 from 40. Consolidated Oil of California sold at 59 cents last Friday and at 74 cents to-day. American Can stocks were fairly active. The common advanced from $19\frac{1}{4}$ to $19\frac{3}{4}$, declined to $18\frac{1}{4}$, and to-day came back to 19, while the preferred rose from $66\frac{1}{2}$ to 67, fell off to $64\frac{1}{2}$ and to-day got back to 66 at the closing. Storage Power closed at $6\frac{3}{4}$ bid, against $4\frac{1}{4}$ a week ago. It was as high as $7\frac{1}{2}$ yesterday. International Salt certificates changed hands to-day at 26, compared with 29 last week and Dominan Sacurities closed at $8\frac{1}{2}\frac{1}{2}$ argainst 32 last week, and Dominion Securities closed at 8714, against 893%. Standard Oil sold to-day at 700 ex-dividend; its high-est price this week was 718. United Railways rose from 86¼ to 89½. Outside quotations will be found on page 1053.

THE CHRONICLE.

Investment and Railroad Intelligence.

RAILROAD EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week cr month, and the last two columns the earnings for the period from July 1 to and including such latest week or month. The returns of the street railways are brought together separately on a subsequent page.

Notice Change-Our yearly totals now all date from July 1.

| § Covers resu | lts on lines | directly o | perated ea | st of Pittsh | urg. * Fi | gnres from Octob | per 1 are t | or the rail | road only. | : Mexican | currency |

§ Covers results on lines directly operated east of Pittsburg. * Figures from October 1 are for the railroad only. ; Mexican currency. a Includes Paducab & Memphis Division from July 1 in both years.
 b Includes the Houston & Texas Central and its subsidiary lines. Earnings of the Cromwell Steamship Line, not previously reported, are now also included. c Results on Montgomery Division are included in both years.
 e Includes results on Sher. Shrev. & Southern, Mo. Midland and Sau Antonio extension for this year, but not for last year. f These figures are the results on the Ala. Midland, Brunswick & Western, Charleston & Savannah, Savannah Fla. & West'n and Silver Springs Ocala & Gulf. g These figures include, besides the St. Louis & San Francisco proper, the Kan. City Ft. Scott & Memphis and Ft, Worth & Rio Grande.

[VOL. LXXIII.

Totals for Fiscal Year.

In the full page statement on the preceding page we show the gross carnings of all roads for the period from July 1, that being now the beginning of the fiscal year of the great majority of the roads. There are, however, some roads that still have their own fiscal years. These with their dates are brought together in the following.

| | Period. | | | Latest Gros | s Earnings. |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------|------------------------------------------------------------ Net Earnings Monthly to Latest Dates.—The table follow-ing shows the gross and net earnings of STEAM railroads reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the CHRONICLE of Oct. 19, 1901. The next will appear in the issue of Nov. 23, 1901.

STREET RAILWAYS AND TRACTION COMPANIES.

The following table shows the gross earnings for the latest period of all STREET railways from which we are able to obtain weekly or monthly returns. The arrangement of the table is the same as that for the steam roads—that is, the first two columns of figures give the gross earnings for he latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

STREET RAILWAYS AND TRACTION COMPANIES.

Street Railway Net Earnings.—The following table gives the returns of STREET railway gross and net earnings received

this week. In reporting these net earnings for the street railways, we adopt the same plan as that for the steam roads—that is, we print each week all the returns received that week, but once a month (on the third or the fourth Saturday), we bring together all the roads furnishing returns, and the latest statement of this kind will be found in the CHRONICLE of October 19, 1901. The next will appear in the issue of November 23, 1901.

Manhattan Railway.

(Report for the year ending Sept. 30, 1901.)

At the annual meeting on Wednesday, President George J. Gould said:

"While the year's results are very gratifying, the current earnings are even more so. During the past year the improvement and enlargement of our facilities have been steadily pushed. The line from Tremont to Fordham has been completed and put in operation since July 1, opening a highly promising field for growth.

"The new terminals secured in the Bronx district have enabled us to give additional and improved facilities to the public on our East Side lines, which have met with an immediate response in increased traffic. During the year the change to electrical equipment has made great progress. The buildings for the central power station at East 74th St. and snb-stations at Allen St., 34th St. and 99th St. are completed, and the machinery is being rapidly installed in all of them. Motor equipments are arriving in quantity and deliveries of 300 new cars will commence within two weeks. Our engineers expect to turn the first 8,000 horse-power engine and dynamo by Dec. 1 and run the first train on 2d Ave. during the month, to be followed up as rapidly as the equipment can be assembled and put in operation. The company carried in October 2,200,000 more passengers than in October, 1900, a daily average increase of over 70,000."

Earnings and passengers carried for a series of years:

Wheeling & Lake Erie Rallroad.

(Report for the year ending June 30, 1901.)

President J. Ramsey Jr. says in substance: General Results.—The gain in gross earnings over the previous year was \$284,080, of which \$259,973 was on freight; operating expenses increased \$171,520. A study of traffic and transportation statistics shows an improvement in the average revenue per ton mile of 4.62 per cent, resulting in an increase in the gross revenue from freight of 12.10 per cent, with an increase of only 7.21 per cent in ton miles hauled; and also an improvement in the economical operation, as there was an increase of 32.35 tons per train mile (from 355.51 to 387.86 tons, or 9.10 per cent).

Necessary Improvements and Additions .- The freight equipment of the company is far below the requirements of the traffic which is naturally tributary to the line. To-day our coal and other tonnage is limited only by ability to provide the cars, and the motive power to move them. We must at once arrange for at least 2,000 or 2,500 forty-ton coal cars and 20 or 25 freight locomotives, to be paid for under an equipment mortgage running twenty years, with proper sinking fund provisions. (See report of General Manager below.) The policy of improving the property by reduction of

grades, substitution of heavy rail and bridges, elimination of curves, etc., etc., must be continued until we have the prop-erty in such condition as to enable us to operate it as economically as any of the roads competing with us can be operated. This work of improvement must be spread over several years, as it must be paid for out of the surplus earninga, and therefore must be limited each year to the amount available from that source. The road is aurrounded by rail-roads owned and operated by the wealthiest and strongest companies in the country, and it must be prepared to carry

traffic at very low rates and at as low a cost per ton as any, or it must again go to the wall. It can be put in this condition at a comparatively small expenditure, but the cost of the work must be met principally from earnings, as the amount provided for this purpose by the reorganization scheme is nearly exhausted.

Prospects.—The prospects for the growth of traffic are very promising. The opening of the Adena Extension will give us a large tonnage from coal mines on that line; other coal mines are now being opened and branch tracks built by the owners to connect with the Wheeling & Lake Erie. The Wheeling & Lake Erie Coal Company's mines can largely increase their output as soon as we can furnish cars to carry it. (Several mines are now closed on that account.) New and important industries are being located on our tracks at Cleveland and other points, and I look for a very gratifying increase in our gross earnings for the coming year.

increase in our gross earnings for the coming year.
General Manager R. Blickensderfer says in part:
ADDITIONS, ETC.—During the year 2,750 tons or 25 miles of 70-lb.
new steel rail was laid to replace old 60-lb. rail on the Toledo Division,
and 24.82 miles of eidings and tracks to industries were built. On
July 1st, 1900, the company acquired by purchase the Coshocton &
Southern RR. from Coshocton to Zanesville, and the Zanesville Terminals, comprising a total mileage of 28.9 miles. On this line new
buildings and structures were completed at a cost of \$107,055, chiefly
from funds provided for by that road's receiver. The construction
work on the Adena Railroad was commenced in December, 1900, and
the total cost of work on this line contracted for to date is \$383,156.
MINES.—One and a-balf miles of track was completed to the Roby
Mine on July 18th, 1901. This mine was opened up and commenced
shortly to 2,500 tons per day. Seven other new mines were opened
up on the line during the year, their total present output being 3,225
tons and their anticipated output 5,075 tons.
EQUIPMENT.—During the year is new switching engines were received or ordered and four Consolidation engines contracted for are
to be delivered in October, 1901. There were also built and received
500 gondola coal cars (\$0,000-pounds capacity), all equipped with
metal bolsters, air brakes, etc.; 500 gondolas (50,000-pounds capacity)
were rebuilt for us. At our Ironville shops 185 cars were rebuilt and
6 new cabooses built.
At the consolidation Aug. 14, 1899, the Cleveland Canton & South-

6 new cabooses built. At the consolidation Aug. 14, 1899, the Cleveland Canton & South-ern had 2,061 twenty-five-ton gondola cars in its equipment. A majority of them were practically unserviceable, so that on June 30th. 1901, only 576 were in service, the balance having been dismantled or destroyed. Of these 576, at least 400 more will have to be retired from service before June 30th, 1902, and possibly all of them. The Wheeling & Lake Erie RR. on Aug. 14th, 1899, also had in its equip-ment 1,942 twenty-ton gondola cars, of which only 431 are in service at present. These carsalso will have to be destroyed during the present year on account of age and general condition. Of the freight carried in 1900-01 products of agriculture furnished 6 65 per cent: products of mines, 60'37 per cent

furnished 6 65 per cent; products of mines, 60.37 per cent (bituminous coal, 42.14 per cent); manufactures, 22.56 per cent, remainder scattering.

Statistics.-The operations, earnings, expenses and charges, and the balance sheet for two years, have been as follows:

Montreal Street Railway,

(Report for the year ended September 30, 1901.)

President L. J. Forget says:

President L. J. Forget says: GENERAL RESULTS. — The past year's business shows a net profit of \$649,251, as compared with \$647,246 for the previous year. Out of this amount four quarterly dividends of 2½ per cent each have been declared, leaving a surplus of \$97,552, of which amount the sum of \$50,000 has been added to the contingent account, and the balance, \$47,551, has been added to the surplus account. An amount of \$23,-277, expended during the year on special renewals, has been charged against the contingent account. The read-bed, rolling stock, build-ings and other property have been ciliciently maintained. While the increase in the business has been most satisfactory, the operating expenses show an increase of 11.32 per cent over last year. This in-crease is mainly due to the increased cost of coal and increased ex-penditure required for the maintenance of the read-bed and rolling stock. stock

ADDITIONS.—One quarter (1,250 horse power) of the power con-tracted for with the Montreal & St. Lawrence Light & Power Co. (for-merly the Chambly Manufacturing Co.) has been in successful opera-tion at William St. power-house since the 26th of March last. Machintion at William St. power-house since the 26th of March last. Machin-ery to accept the balance of the power contracted for is on order and will be delivered and installed early next year. The buildings to re-ceive the same are at present under construction. In addition to this electrically-driven plant, your company has purchased and installed two steam units, capable of developing 3,000 horse power. In doing so the directors have setablished the policy of having duplicate plants, capable of meeting all contingencies, and providing for the increase in the company's business. The rolling stock has been increased during the past year by the addition of 31 motor oars, fully equipped; also one rotary snowplow with equipment. On the 20th of June last the company purchased certain bonds and stock of the Montreal Park & Island Rallway Co., which purchase was subecquently ratified at a general meeting of shareholders held on July 10. The company has obtained franchises from the municipali-ties of St. Lonis and St. Paul, thereby adding a large and valuable ter-ritory to its main system. During the past year the company has paid the City of Montreal the following amounts: Tax on earnings and other taxes, \$94,776; on account of snow clearing, \$79,172, making a total of \$173,948.

St. Joseph & Grand Island Railway.

(Report for the year ending June 30, 1901.)

President Bull merely says that the results for the year have been highly satisfactory and that the property has been amply maintained, both as to the right of way, equipment and motive power. General Manager Raymond Du Pay says in part :

The tonnage of corn fell off 75,890 tons, equaling 32.6 per cent. This was due to the exceedingly good crops the previous two years and the general selling by the farmers of their surplus. Notwithstanding

This was due to the exceedingly good crops the previous two years and the general selling by the farmers of their surplus. Notwithstanding this fact the groes earnings could have been made to show an increase over the preceding year had it not been thought more profitable to go out of the packing house product business between St. Joseph and knasas City, as our proportion of the current rates would have left us no not earnings on that traffic. One result of this concervatism is shown in the average rate per ton per mile, which increased from 1.27 to 1.36, equal to 6.6 per cent. Of the total amount saved in operations as against the previous year, viz., \$188,954, the sum of \$93,752, equaling 49.6 per cent, was sowed in the item of "conducting transportation." This has been ac-complished without any expenditures for grade reductions and with precisely the same locomotives and equipment formerly used. The total revenue train mileage in 1901 was 770,181 miles, a decrease of 258,690 miles, or 25.1 per cent compared with 1900. With such a marked reduction in train mileage it was found to be entirely consist-ent with the best interests of the property to somewhat curtail "main-tenace of way" and "maintenace of equipment" expenses. This our-talment, however, was not actually as large as it would seem to be. * All material and supplies bough have been obtained at reduced figure compared with the preceding year; in some cases the saving has been as high as 75 per cent. . The earnings per freight train mile in 1900 were \$1.94; in 1901 they were \$2.70, an increase of 39.0 per cent. The earnings per passenger train mile increased from 0.58 in 1900 to 0.74 in 1901, equal to 27.6 and charged to rail renewal account, which is an operating account. The old lighter rails released have not yet been sold. We expect to and charged to rail renewal account, which is an operating account. The old lighter rails released have not yet been sold. We expect to apprecise out averes with earth filling, and the entire cost is being earn

American Malting Company.

(Report for the year ending August 31, 1901.)

The annual report is signed by Robert M. Gallaway, Chairman of finance committee; Louis L. Stanton, Treasurer, and Frederick Uhlmann, Chairman of board. The report says in substance:

The committee reported net earnings for the fiscal year ended Aug. 31, 1900, of \$123,000, from which \$100,000 was reserved and has been virtually all applied to "losses on old contracts." During the fiscal year ending Aug. 31, 1901, the earnings of the company were:

| RESULTS | FOR | YEAR | ENDED | AUO. | 31, | 1901. | |
|---------|-----|------|-------|------|-----|-------|--|
| | | | | | | | |

Profit on malt, barley and other farm products manufactured

| and dealt in, over and above all expenses and maintenance. | \$121,977 |
|------------------------------------------------------------|-----------|
| DeductInterest on underlying mortgages | \$17,727 |
| Interest on \$4,000,000 mortgage bonds | 240.000 |
| Taxca | |
| | |
| | 0000 B1 F |

| Total deductions | \$338,715 |
|------------------|-----------|
| Net surplus | \$383,261 |

This reduces the deficit of the company to \$1,012,426 from \$1,395,688, as shown in balance sheet annexed. During the year ending Aug. 31, 1901, the company also derived from sales of various pieces of nnused property \$107,654, of which \$94,500 (net) was from sale of property, 48th St. and East River, N. Y. City. Of this amount \$101,800 was deposited in the sinking fund, and, with the interest thereon, was used in September 1901 to purchase and cancel \$107,000 of the company's mortgage bonds, reducing the amount outstanding to \$3,893,000. In addition there has been paid off \$115,-000 of underlying mortgages, which are now reduced to \$256,-

000 of underlying mortgages, which are now reduced to 500, 000. The report also says: While, owing to the above transactions, plants and good-will ac-count was reduced by the sum of \$154,154, nothing has been written off for depreciation. The company owns some plants which are use-less for malting purposes, and are not covered by its general mort-gage. The sale of these from time to time will provide funds applic-able to redeem more bonds, and such transactions will be treated in diminution of plant and good-will account. The operating and gen-eral expenses of the company were less by \$125,821 than for the year previous.

eral expenses of the company were less by \$125,821 than for the year previous. The company begins its present fiscal year with net working capital (including malt and barley, \$1,550,722) of \$4,889,871, the quick assets being all worth the stated value. The inventories (\$1,550,722) of malt and barley have been taken at cost, which is in both cases below the present market. All the malt is actually sold for future delivery at better prices than inventoried. Plants have been kept in full repair, the outlay being charged to general expenses.

"After careful consideration the directors have concluded that it would not be opportune at present to submit a plan of reorganization, but recommend that the stockholders request the incoming board to do so.

"The Western department, notwithstanding open competition on the part of former directors and officers, has booked orders for the current year (two months) for a quantity of malt largely in excess of the same period last year. In the year 1900-'01 the company purchased all its material for cash. To do this it never at any one time owed over \$1,000,000. All its loans were promptly paid at maturity (some even dur-ing the financial panic of May, 1901, being anticipated). The result of this has been to establish a high credit for your company."

United Fruit Company.

(Report for the fiscal year ended Aug. 31, 1901,)

The remarks of President Andrew W. Preston on pages 1066 and 1067 of to day's CHRONICLE contain many particulars respecting the property and its business. Further facts from the report follow.

The first table shows the location of the lands owned by the company and the value (book cost) of its plantations and their equipment:

LOCATION AND BOOK VALUE OF PROPERTY OWNED AUG. 31

| | LOCATION AND BOOK VA | ALUE OF P | ROPERTY OWNED | AUG. 31. | 0 |

| | | | | | |

Of the acreage as above 72,426 acres were classed as "im-proved" on Aug. 31, 1901, as against 61,263 acres on Aug. 31, 1900. In addition to its lands owned, the company held under lease 24,134 acres in 1901, against 23,807 in 1200, (all in Jamaica, except 1,000 acres in Costa Rica) making the total of all lands owned and leased at the end of the year 262,425 acres, against 236.201 on Aug. 31, 1900. Of these last totals, 77,055 acres and 66,294 acres, respectively, were "improved." The nature of the crops raised on these improved lands was as below: COMPANY'S VARIOUS OF TWATING ON AT

| 1 | COMPANY'S VARI | OUB CUI | LTIVATIONS ON AUG. 31. | |

GENERAL INVESTMENT NEWS.

RAILROADS, INCLUDING STREET BOADS.

American Railways Co.-Dividend Increased.-The directors on Wednesday declared a quarterly dividend of 1¼ per cent, payable Dec. 15, thus increasing the annual rate from 4 to 5 per cent. The "Philadelphia News Bureau" says that the earnings statement laid before the board showed about \$:5,000 net earnings for the quarter ended Sept. 30, 1901, or equal to 8 per cent per annum on the \$3,750,000 capital stock.-V. 73, p. 1008, 615.

Arkansas Southwestern Ry.—Acquisition.—The company, successor of the Southwestern Arkansas & Indian Territory Ry., has acquired the Ultima Thule Arkadelphia & Mississippi Ry., extending from Daleville to Camptown, 43 miles. A new branch has been opened from Gurdon Junction, Ark., to Gagetown, Ark, 28 miles, making total mileage of road owned and controlled 105 miles. William Grayson of St. Louis is President.-V. 70, p. 895.

Athens (Ga.) Electric Ry.—Mortgage.—The company has made a mortgage to secure \$400,000 bonds.

Atlantic Coast Electric RR. of Long Branch, N. J., Etc. -Default.-Default was made Nov. 1 on the \$800,000 first mortgage 5 per cent bonds. W. E. Benjamin, 32 Broadway, the President of the company, says:

The earnings have not been sufficient to meet the charges and also provide the eash to meet necessary expenditures for betterments and depreciation. The stockholders have become tired of advancing money for these purposes and it was decided to default on the November coupon. A considerable floating debt has been incurred and it will be necessary to reorganize the finances. A plan, it is expected, will be formulated in the course of a week or so.

Francis Ralston Welsh, 328 Chestnut St., Philadelphia, requests all the first mortgage bondholders to communicate with him, "stating amount and numbers of bonds held, in order that an organization for mutual protection may be promptly formed.-V. 65, p. 867.

Atlantic & Danville Ry.—Listed.—The New York Stock Exchange has listed \$750,000 additional first mortgage 4 per cent gold bonds of 1948, making the total amount listed to date \$3,925,000. See V. 73, p. 956, 722.

Atchison Topeka & Santa Fe Ry.—In Possession.—Possession of the Santa Fe Prescott & Phoenix Ry. was taken on Nov. 8.—V. 73, p. 1009, 898.

Boston & Maine RR.-Bonds Approved.-The Massachu setts Railroad Commission has approved the issue of \$1,000,-000 20 year 31/2 per cent bonds in connection with permanent improvements on the Lowell & Andover, Stony Brook, Manchester & Lawrence, Connecticut & Passumpsic River, the Northern and the Worcester Nashua & Rochester railroads. See V. 73, p. 783.-V. 73, p. 1009, 1007, 783.

Central of Georgia Ry.—Listed.—The New York Stock Exchange has listed the \$1,840,000 Chattanooga Division purchase-money 4 per cent gold bonds of 1951.-V. 73, p. 840, 662.

Chatham & Lebanon Valley RR.—Mortgage.—This com-pany has filed a mortgage for \$500,000 to the Standard Trust Co. of New York as trustee.—V. 73, p. 899.

Chicago Burlington & Quincy RR.-Control.-See Northern Securities Co. below.

Directors.-Through a misunderstanding the annual meet. ing was again adjourned, this time until Nov. 21, but the new board of directors is reported to be as below. Mr. Norman B. Ream, it is said, may succeed Mr. Harris as a director:

Francis W. Hunnewell of Boston; President George H. Harris of Chicago; Charles E. Perkins of Burlington; E. H. Harriman, Jacob H. Schiff, George J. Gould, H. McK. Twombly and Robert Bacon of New York; James J. Hill and James N. Hill of St. Paul and J. Malcolm Forbes of Boston.-V. 73, p. 1010, 899.

Choctaw Oklahoma & Gulf.—Listed in Philadelphia.— The Philadelphia Stock Exchange has listed \$800,000, the additional common stock issued as a 10 per cent dividend Oct. 31, making total listed to date \$8,800,000.-V. 73, p. 783, 722.

Cincinnati Hamilton & Dayton Ry.—See Kansas City Peoria & Chicago Ry.-V. 73, p. 839.

Cincinnati New Orleans & Texas Pacific Ry.—Suit to Restrain Extension of Lease.—See "Cincinnati" in "State and City Department," page 1074 of to-day's CHRONICLE,—V. 73, p. 1010, 722.

Cleveland Cincinnati Chicago & St. Louis Ry.-Called Bonds.-The following Cincinnati Indianapolis St. Louis & Chicago consolidated 6 per cent mortgage bonds have been drawn, viz.: Nos. 1118, 451, 399, 208, 602, 515, 728; interest on said bonds will cease May 1, 1902, and the bonds will be taken up at 105 per cent and accrued interest to said date.-V. 73, p. 956, 497, 491.

Cleveland City Ry.-See Cleveland Traction Co. kelow.-V. 73, p. 184.

Cleveland Electric Ry.—See Cleveland Traction Co. below. -V. 73, p. 31.

Cleveland (0.) Traction Co.—Incorporated.—This company has been incorporated with nominal (\$1,000) capital stock. Incorporators: Frank DeHass Robison, M. S. Robi-son, L. A. Russell. F. E. Gentsch, F. B. Gott. The "Cleveland Leader" quotes Mr. Robison as saying:

It is a little early to discuss plans, but it can be said that we will build at least four lines. Two will be cross-town lines and two will run east and west, one on the east slde of the river and the other on the west side. We expect to enter into active competition with the older companies and will carry passengers for less than five cents. Before we get through we will have about 80 miles of track running through 40 miles of streets. I anticipate little trouble in securing rights of way for the entire distance. We will probably have things in shape so as to begin work on the tracks during the coming(year. Detroit United Ry – New Martanae Authorized – The di

Detroit United Ry.-New Mortgage Authorized.-The di-rectors on Nov. 9 ratified the syndicate plan noted in the CHRONICLE of Sept. 14, page 553, and authorized the making of a mortgage for \$35,000,000 to take up the \$12,500,000 capital stock on the basis already announced (page 553) to retire the underlying bonds and the guaranteed bonds at maturity and to provide for extensions and improvements. The reduction of the total amount of the mortgage from \$50,000,000 (the limit originally suggested) to \$35,000,000 follows a modification in the plan of the syndicate, omitting from the consolidation scheme various companies which, when the plan was issued, it was thought would be taken over.-V. 73, p. 957, 558.

Great Northern Ry.—Exchange of Stock.—See Northern Securities Co. below.—V. 73, p. 903, 895.

Hudson Valley (Electric) RR.-Mortgage.-The company has filed its new mortgage for \$4,000.000 to the Merchants Trust Co. of New York, as trustee.-V. 73, p. 899.

Iowa Central Ry.—Listed.—The New York Stock Ex-change has listed the \$2,000.000 refunding mortgage 4 per cent 50-year gold bonds of 1951. See full description, V. 73, p. 899; also report on page 1059.—V. 73, p. 957.

Kansas Clty & Northern Connecting RR.—See Kansas City Peoria & Chicago Ry.—V. 73, p. 957, 843.

Kansas City Poorin & Chicago'Ry.-Successor Company Consolidation .- This company has been incorporated in Missouri with \$3,945,000 of authorized capital stock to operate a railroad from Kansas City, Mo., to Quincy, Ill., and branch, 263 miles in all. The incorporators include John W. Gates, Max Pam and William J. Calhoun of Chicago, for whom the Max Pam and William J. Calhoun of Chicago, for whom the Kansus City & Northern Connecting RR. was recently pur-chased at foreclosure sale. (V. 73, p. 957.) The new com-pany is clearly intended to take over the property of that company, the Quincy Omaha & Kansas City and the Omaha Kansas City & Eastern, forming the through line above men-tioned, as foreshadowed in V. 73, p. 662. There have been rumors from time to time of plans for carrying the line fur-ther east (to Cincinnati, Toledo and Ironton, O.,) by some sort of an arrangement with the Cincinnati Hamilton & Dayton Ry., but they are denied so far as a consolidation or Dayton Ry., but they are denied so far as a consolidation or purchase is concerned.

Lake Shoro & Michigan Sonthern Ry.-Quarterly.-Earnings for the quarter and the nine months ending Sept. 30 were:

| 3 mos. end. Gross | Net | Other | Interest, | Balance, |

Ligonier Valley RR.—Newspaper Report Denied.—Replying to our inquiry as to the truth of the newspaper report that the road or its securities had been acquired by the Pennsylvania RR. Co., T. Mellon & Sons of Pittsburg, Pa., the owners of the Ligonier Valley road, reply : "Not true. No sale; no negotiations."

Little Kanawha RR.-Sold.-President Jackson confirms the report that this road has been sold, but pronounces as not correct the statement that the sale was "to Stephen B. Elkins, representing a syndicate for \$1,250,000, of which \$1, 000,000 was paid down and the remainder is to be paid Nov. 10 "

An officer of the West Virginia Central & Pittsburg denies that his road is the purchaser. The general impression, however, has been that the Elkins syndicate, which is back of the road, had a hand in the purchase. A special dispatch to the Baltimore "Sun" on Nov. 7 said:

The Little Kanawha RR., which is to be one of the links in the Gould Elkins trank line from the Seaboard to the Great Lakes, was to-day formally transferred to the new owners. J. T. Blair, of Greenville, Pa., had the option and conducted the negotiations. The price paid was \$350,000, and all indebtedness of the road was wiped ont. The road will be extended to a connection with the West Virginia Central and the Obio & Little Kanawha roads, work beginning before winter sets in. Blair and his associates have options on over 70,000 acres along the proposed extension.—V. 72, p. 776.

Manhattan Ry.-Quarterly.-Earnings for the quarter ending Sept. 30 were:

3 mos. ending Gross Balance, Net Other Interest, surplus. \$340,083 218,328 Dividends of 1 per cent call for \$480,000 quarterly. See report on page 1057.-V. 73, p. 336, 138.

Mexican National RR.-Certificates of Deposit on "Unlisted."-The certificates of deposit of voting trustee certificates of stock, 1st mortgage 6 per cent bonds, second income series A, second income series B, and income bonds of 1937, have been admitted to quotation in the unlisted department of the Stock Exchange.-V. 73, p. 900, 843.

Michigan Central RR.-Bonds Offered.-J. P. Morgan & Co. offer this week at $107\frac{1}{2}$ and interest \$2,000,000 of $3\frac{1}{2}$ per cent 50-year gold bonds secured by first mortgage on the Jackson Lansing & Saginaw RR., principal payable Sept. 1 1951, interest March 1 and Sept. 1, coupon bonds of \$1,000 each, bearing interest from Sept. 1, 1901. These bonds re-placed \$1,661,000 of 5 per cents due Sept. 1, 1901, and provide for improvements. The new mortgage, dated Aug. 1, 1901, is made by Michigan Central in connection with the Jackson Lansing & Saginaw RR. It secures the \$2,000,000 of bonds issued by the Michigan Central, as a first mortgage on the main line of the Jackson Lansing & Saginaw RR., between the city of Jackson, Mich., and the Straits of Mackinac (295.1 miles), and two branches, respectively 27.8 and 27.5 miles in length, making a total mileage of 350.4, bonded at less than \$6,000 per mile. The J. L. & S. is leased in perpetuity, its \$2,000,000 stock receiving dividends of 31/2 per cent per annum. See further particulars in advertisement on another page.-V. 73, p. 616, 337.

Muskegon Grand Rapids & Indiana RR.-Payment of Overdue Coupon.-First mortgage coupon No. 27, due Jan. 1, 1900, is now being paid through Winslow, Lanier & Co. A statement of the net income applicable to interest shows :

Surplus May 1, after paying coupon 26, \$4,741; net earnings, May 1, 1901, to Aug. 31, 1901, \$17,911; deduct amount required to pay coupon No. 27, \$18,750; surplus as of Sept. 1, 1901, \$3,901.-V. 72, p. 1188.

Nashville Ry .- Sale .- A decree of foreclosure under the first consolidated mortgage was entered in the United States Circuit Court at Nashville on Nov. 11. The upset price is \$1,000,000.-V. 73, p. 1011, 957.

New York Central & Hudson River RR.-Tunnel Im-provement.-Various property owners along Park Avenue

are objecting to the plan for enlarging the ventilator open-ings in the Park Avenue tunnel. The intention was to try the efficacy of the improvement on the first ten blocks north of the yards of the Grand Central station before carrying the work further. The nature of the change is as follows:

The tunnel, as at present constructed, includes one central double-track tunnel, open at the top, and one single track tunnel on each side, ventilated only by small apertures into the central tunnel. Each of the three is roofed with an arch of masonry. These arches will, to a large extent, be removed, and a reotangular construction of steel girders will be substituted. The masonry walls between the side and central tunnels will also be knooked out and steel columus substituted at intervals of 17 feet, making all four tracks open to ventilation from above.-V. 73, p. 790, 785, 779.

New York Chicago & St. Louis RR.-Quarterly.-Earnings for the quarter and the nine months ending Sept. 30 were:

| 3 mos. end'g Gross Sept. 30. earnings. 1901 | Net carnings, \$402,004 532,944 | Other income. \$5,834 527 | Interest, taxes, ctc. \$318,021 299,896 | Balance [,] surptus \$89,277 233,575 |

Equipment.—The company recently ordered 30 locomotives and 1,100 freight cars, largely for replacements. The new equipment will be paid for out of surplus earnings. Further purchases of rolling stock are proposed.-V. 73, p. 721, 616.

New York Ontario & Western Ry.-Quarterly.-Earnings for the quarter ending Sept. 30 were:

Gross Interest, Balance. 3 mos. end'g Net Other Sept. 30. earnings. 1901......\$1,605,809 1900.....1,357,855 -V. 73, p. 501, 492, 338. surplus. \$367,268 earnings. \$573,766 512,375 income. \$63,375 66,715 taxes, etc. \$269,873 285,669 293,421

Northern Pacific Ry.-Retirement of Preferred Stock.-Agreeably with the sale noted last week of the majority holdings in the stock by the Harriman-Kuhn, Loeb & Co. interests, in consequence of which their opposition to the retirement of the preferred shares was withdrawn, the directors on Wednesday voted unanimously to call the preferred stock for redemption. Formal notice is therefore given in another column that the entire issue (\$75,000,000) will be retired at par, upon the first day of January, 1902, at the office of the company, 49 Wall St.

Convertible Debentures-Right to Subscribe.-The directors also voted to provide the funds necessary for the payment of the preferred shares by the sale at not less than par of \$75,-000,000 4 per cent bonds convertible into common stock. Each common stockholder of record will be entitled to purchase at par an amount of these new bonds equal to seventy-five eightieths of the amount of his present holdings. After the conversion of these bonds into common stock, all of the company's capital stock (\$155,000,000) will be of one class without preference.

Extra Dividend on Preferred.-The directors on Wednes day also declared a dividend of 1 per cent on the preferred shares for the period to end Dec. 31, 1901, in addition to the regular quarterly dividend of one per cent payable on Dec. 5.

Directors.-Samuel Spencer has been elected a director to succeed Robert Bacon, resigned. New Proprietary Company.—See Northern Securities Com-

pany below.--V. 73, p. 1011, 843.

Northern Securities Co.-Proprietary Company -The understanding which was reached last week (page 1011) be-tween the Hill-Morgan interests on the one hand and the Union Pacific interests (Harriman-Kuhn, Loeb & Co. syndi cate) on the other, for the sale of the latter's stock in the Northern Pacific and their acquisition of a one-half representation in the control of the new Chicago Burlington & Quincy Railway, was followed on Wednesday, Nov. 13, by the incorporation in New Jersey of the Northern Securities Co., with \$400,000,000 authorized capital stock in shares of \$100 each, to take over the control of both the Northern Pacific and the Great Northern. The incorporators of the new com-pany are George F. Baker Jr., Richard Trimble and Abram M. Hyatt. In its directorate the Union Pacific people have a substantial representation, and their interest in the stock will be about 23 p. c. of the entire issue. The settlement ends the controversy over the Burlington, provides for single ownership of the Northern Pacific and the Great Northern and assures protection to the Union Pacific interests in the Northwest.

Exchange of Stock.-The Northern Securities Co. will give its shares in exchange for the common stock of the North. ern Pacific and the stock of the Great Northern at the rate of \$115 and \$180, respectively, for each \$100 of the old shares. As stated below, the stock of the Northern Pacific after January 1, 1902, will be all of one class, and upon conversion of the debentures now to be issued (to provide for the retirement of the preferred shares) will aggregate \$155,000,000. To retire this entire amount at 115 would require \$178,250,000, while to take up all the \$125,000,000 stock of the Great Northern at 180 would call for \$225,000,000, in all \$403,250,000 of new stock. The hold-ers of about \$90,000,000 of the Great Northern shares, it is stated authoritatively, have already assented to

e terms of exchange. The new Chicago Burlington Quincy Railway of Iowa will lease and operate the old the terms of exchange. Chicago Burlington & Quincy Railroad; the stock of the railroad company will continue to be owned by the Great Northern and Northern Pacific, subject to the lien of the trust deed securing the joint collateral trust 4s of 1901.

Officers.-The following officers and directors have been elected :

Officers: President, James J. Hill; Vice-President, John S. Kennedy;
Second Vice-President, George F. Baker; Third Vice-President, D.
Willis James; Fourth Vice-President, W. P. Clough; Secretary and
Treasurer, E. T. Nichols; General Counsel, W. P. Clough.
Directors: D. Willis James, Samuel Thorne, James J. Hill, E.
T. Nichols, George F. Baker, Robert Bacon, George W. Perkins, Daniel
S. Lamont, E. H. Harriman, Jacob H. Schiff, James Stillman, W. P.
Clough, George C. Clark, John S. Kennedy and N. Terhune.

Of the board Messrs. Hill, Kennedy. Clough, Nichols and Terhone are either directors or officers of the Great Northern Railway system, while Mr. James and Col. Lamont are friends of Mr. Hill. Messrs. Harriman, Schiff and Stillman represent the Union Pacific interests and Messrs. Baker, Bacon and Perkins represent J. P. Morgan & Co. The Great Northern interests are accorded a leading position in the management because a preponderating amount of the stock will go to the Great Northern shareholders. It is affirmed emphatically, however, that the object of the new company ie unity and not division of interests, and that the intent was not to allot so many directors to the Union Pacific so many to the Great Northern and so many to the Northern Pacific, "but rather to form the strongest and most harmonious combination possible, representing the joint interests involved."

Northwestern Elevated RR. of Chicago.-Bond Sale.-The company, it is reported, is arranging to offer to the stockholders about \$4,000,000 of its new 4 per cents to provide for the payment of such of its 5 per cent bonds as have not already been purchased. About \$1,000,000 of the 4 per cent issue [of \$15,000,000], it is claimed, will remain available for improvements upon completion of the refunding.-V. 73, p. 957, 841.

Omaha Kansas City & Eastern R.R.—See Kansas City Peo-ria & Chicago Ry. above.—V. 71, p. 492.

Quincy Omaha & Kansas City RR.—See Kansas City Peo-ria & Chicago Ry. above.—V. 72, p. 723.

Rutland RR.—Purpose of New Stock Issue.—President Clement, in response to our inquiry, says: "In explanation of the issue of stock referred to, I would say it was deemed necessary for the purpose of putting in steel bridges in place of wooden bridges on the Mountain and Bennington divis-ions; 80-pound rails in place of 60-pound on the Mountain Division; paying up the floating debt of the mountain mounting to \$1,500,000, which has been incurred for the purchase of additional property. The balance will be used for extensions of the system." The new stock issue (\$3,578, 100) is the balance will be used and the stock issue (\$3,578, 100) is the balance will be used and the stock issue (\$3,578, 100) is the balance will be used and the balance will be used and the balance will be used and the stock issue (\$3,578, 100) is the balance will be used and the balance will be balance will 400) is to be sold at 90, and will therefore yield about \$3,-220,000. See circular in last week's CHRONICLE, page 1011, and last annual report on page 1007.-V. 73, p. 1011, 1007, 958.

St. Louis & San Francisco RR.-New Directors.-At the annual meeting on Nov. 12 James Campbell of St. Louis and Mark T. Cox of New York were elected directors to succeed S. C. Eastman and H. K. McHarg. See board on page 125 of INVESTORS' SUPPLEMENT.-V. 73, p. 911, 900, 896.

Seaboard Air Line Ry.—Proprietary Company.—See Seaboard Company below.—V. 73, p. 1012, 33.

Seaboard Company.—Proprietary Company.—This com-pany was incorporated under the laws of New Jersey on Tuesday with \$5,000,000 authorized capital stock. The Baltimore papers publish a report to the effect that the new company will take over from the parties in con-trol a majority of the \$47,000,000 capital stock of the Seaboard Air Line Ry., issuing in exchange therefor some amount of its own stock and in addition Class A and Class B debenture (income?) bonds for the preferred and the com-mon shares, respectively. The officials of the Railway Company say that the published matter is largely the result of guesswork by the reporters.—V. 73, p. 1012, 33.

Seattle Ry.-Mortgage.-The company has filed a first mortgage to the Boston Safe Deposit & Trust Co. to secure \$500,000 gold 5 per cent bonds.-V. 73, p. 664, 495.

Shamokin Valley & Pottsville Ry.—New Bonds.—As noted in V. 73, p. 139, the \$2,000,000 first mortgage 7 per cent bonds were paid at maturity, July 1, 1901. We now learn that an issue of $3\frac{1}{2}$ per cent bonds is to be made presently.—V. 73, p. 139.

Sonthern Ohio Traction Co.-First Through Car.-The first car was run from Hamilton to Cincinnati, Ohio, on Nov. 10.-V. 73, p. 844.

Southwestern RR. of Georgia.-Suit Dismissed.-Judge Don A. Pardee, in the United States Circuit Court at Atlanta, Ga., has sustained the demurrer of the Central of Georgia and dismissed the intervention brought by Robert Ry. M. Farrar and other stockholders. The latter sought to obtain a decision holding that a portion of the fund, viz., about \$350,000, received in compromise of the rentals which fell due during the receivership, and which had not been paid out with the remainder of the fund as dividends to the stock-holders, had been misapplied and "illegally diverted from its true owners."—See V. 71, p. 809.

Springfield (Mass.) & Eastern Street Ry.-New Stock-The Massachusetts Railroad Commission has approved the

proposed issue of \$455,000 stock to provide for the payment of floating debt incurred in constructing and equipping the road. The company was formerly the Palmer & Monson Street Ry.

Toledo St. Louis & Western RR.—Bonds Offered.-Ver-milye & Co. and Hallgarten & Co. are offering at 901/2, by advertisement on another page, about \$4,500,000 of this com-pany's 3½ per cent prior lien gold bonds due July 1, 1925. The issue under the mortgage is limited to \$10,000,000, of which \$1,000,000 is reserved and can be used only after Jan. 1, 1902, for additions, etc., at not exceeding \$250,000 yearly. Of the remaining \$9,000,000, about one half has already been sold to investors. Following the prior lien mortgage and subordinate thereto is a first mortgage for \$6,500,000. A digest of the company's report for the year ended June 30, 1901, was given in the CHRONICLE of Oct. 26, page 896. Further data regarding the bonds, etc., can be obtained from the advertisement and from a letter of President Norton, copies of which will be furnished by the bankers named.—V. 73, p. 896, 844.

Syracuse Geneva & Corning Ry.—Called Bonds.—First mortgage bonds of 1875—viz., 47 of \$1,000 each and 5 of \$100 each-have been called and are payable at par at the Farmers' Loan & Trust Co., interest having ceased Nov. 15. Including this lot, the sinking fund holds \$582,900 of the orig-inal \$1,000,000 issue.-V. 68, p. 573.

Union Pacific RR.—Agreement.—S90 Northorn Securities Co. above.-V. 73, p. 1012, 786

Union Traction Co. of Indiana.—Called Bonds.—The fol-lowing Citizens' Street Railway of Muncie, Indiana, first mortgage 6 per cent gold bonds—viz., Nos. 34, 46, 76, 77, 81, 88, 116, 118, 132, 154, 159 and 198, for \$1,000 each, and 223, 253, 258 and 263, for \$500 each-have been drawn and will be paid off at 105 and interest at No. 316 Chestnut St., Philadelphia, on or before Dec. 1, 1901, after which date interest will cease.-V. 73, p. 617.

INDUSTRIAL. GAS AND MISCELLANEOUS.

American Cotton Oil Co.—Agreement Effective.—Holders of more than a majority of the preferred and common stock have assented to the stockholders' agreements of July 22 and Oct. 16, and these agreements have been declared bind-ing and effective. The committee has extended the time for the deposit of stocks until Dec. 2. The annual report will be found on pages 1065 and 1066 of to-day's CHRONICLE.-V. 73, p. 1012, 901.

American Express Co.—Extra Dividend.—In addition to the usual semi-annual dividend of 3 per cent, payable Jan. 2, 1902, an extra dividend of 1 per cent out of the earnings of the company from its investments has been declared. An extra one per cent was also paid in July last, so that the stock is now receiving 8 per cent yearly.-V. 72, p. 937.

American Light & Traction Co.-See St. Paul Gas Light Co. below. -- V. 73, p. 1013, 897.

American Malting Co.-New Directors.-The old directors were re-elected on Thursday except Adam Neidlinger and C. A. Purcell, who were succeeded by G. F. Neidlinger and Michael Coleman. See report on page 1060.-V. 73, p. 238.

American Sugar Refining Co.-Subsidiary Company.-The American Sugar Refining Co. of New York was incor-porated at Albany on Thursday, with \$2,500,000 capital stock, by representatives of the New Jersey corporation. H. O. Havemeyer says:

This subsidiary company will do nothing but N. Y. State business; it was incorporated in deference to the growing public sentiment that business should be done in a State by corporations of that State. The Pennsylvania business of the concern is now done by a similar Penn-sylvania company. The parent company remains under the laws of New Jersey.-V. 73, p. 959, 786.

Asphalt Company of America.-See National Asphalt Co. below.-V. 71, p. 810.

Brooklyn Union Gas Co.-Listed.-The New York Stock Exchange has listed \$283,000 additional first consolidated 5 per cent 50-year gold coupon bonds of 1945, making the total amount listed to date \$14,493,000. The bonds were used to retire a like amount of underlying bonds, the only old bonds now remaining outstanding being: Citizens' Gas Co. consoli-dated 5s, \$367,000; United Gas Light Co. consolidated 5s, \$200,000. The Fulton Municipal Gas Co. mortgage has been discharged of record.—V. 71, p. 965.

Chicago Transfer & Clearing Co.-Transfer of Property.

"Railway & Engineering Review of Chicago" on Nov. 2 said : "Railway & Engineering Review of Chicago" on Nov. 2 said: Four conveyances of acre property in Stickney, near Chicago. aggre-gating in consideration \$553,407, were recorded last week. The com-panies concerned were the Chicago Transfer & Clearing, the Chicago Union Transfor and the National Warehouse & Transfer companies. Thei land conveyed is being laid out as a clearing ground for freight. and important improvements are being made in the tract. The trans-fers, according to officials of the companies, were made for the pur-pose of arranging a satisfactory system of accounting among the com-panies, the interests involved heing practically identical. The trans-fers were as follows: Chicago Union Transfer Ry. Co. to the Chicago Transfer & Clearing Co. 238'47 acres for \$119,235; the Chicago Transfer & Clearing Co. to the National Warehouse & Transfer Co.. 315'96 acres for \$157,980; the National Warehouse & Transfer Co.. to the Chicago Union Transfer Ry. Co., 314'28 acres for \$157,545, and the Chicago Transfer & Clearing Co. to the Chicago Union Transfer Ry. Co., 237'29 acres for \$118,645. H. H. Porter is President of the Chicago Transfer & Clearing Co. and W. H. Lyford of the National Warehouse & Transfer Co. at Chicago.-V. 71, p. 491. **Clitizens' Gas Co. of Fairmount, Ind.**-Receiver.-William

Cltizens' Gas Co. of Fairmount, Ind.-Receiver.-William A. Beasley has filed suit for a receiver.

Citizens' Water Co. of Washington, Pa.-Payment of Bonds.-The company, it is stated, will on Dec. 1 redeem all of its first mortgage bonds dated Nov. 19, 1887.

Cleveland & Buffalo Transit Co.—Increase of Stock—Ertra Dividend .- The shareholders will vote at the office in Buifalo on Dec. 3 on a proposition to increase the capital stock from \$750,000 to \$1,000,000. The "Cleveland Leader" says :

\$750,000 to \$1,000,000. The "Cleveland Leader" says: The stockholders will be asked to determine whether the capitaliza-tion shall be increased and the money now on hand be turned back into the treasury as a sinking fund, or whether the results of an extra-ordinary season shall be divided pro rata on the stock of the company. This, it is to be understood, will not interfere with the payment of the regular quarterly dividend on the basis of 7 per cent per annum. Should the shareholders decide to forego the extra (cash) dividend and take the stock, this division of the additional \$250,000 of stock would be the equivalent of a further dividend of 33's per cent on the original stock. The showing made by the company is a direct resultant of the excellent business done by the passenger department during the Pan-American Exposition. The company started in the year with a net surplus of \$158,760. To this it has been able to add since the opening of the season of navigation up to the 1st of October net profits of \$274,443, which made a total surplus of undivided profits of \$433,203. From this is to be taken the amount paid as interest on the bonds and there is a net surplus of \$419,385. President, M. A. Bradiey; Vice-President, George W. Gardner; Treasurer, R. C. Moody; Secretary and General Manager, T. F. Newman.

Colonial Brewery of New York .- Sold .- At the foreclosure sale on Tnesday the property was bid in as an entirety for \$351,000 by Donald McCredie of Albany, representing, it is said, himself and other bondholders. -V. 73, p. 844.

Crystal Water Co. of Staten Island.—Foreclosure.—A decree of foreclosure under the first mortgage was granted recently.—V. 71, p. 1271.

Cuyahoga Steel & Wire Co.—See Hartman Manufacturing Co. below.—V. 73, p. 84.

Detroit City Gas Co.-Competition.-See People's Gas Co. of Detroit below. No Dividend.—This company, after paying 2½ per cent

semi-annually (5 per cent per annum) on its stock from Nov-ember, 1899, to May, 1901, both inclusive, has passed the November dividend this year, "owing to the loss the failure of the natural gas entailed."— ∇ . 72, p. 629.

Diamond Match Co.-See Federal Match Co. below.-V. 73, p. 724, 495.

Federal Match Co.—Description of Plant.—The "Scien-tific American" of this city on Sept. 7 published an illus-trated article describing the machine which this company has in operation at Paterson, N. J., "turning out 18,000,000 matches per day of 20 working hours."

The company was incorporated in New Jersey in January, 1900, with \$500,000 capital stock, the incorporators being Morris San (the patentee of the new machine), H. Nathan, F. Brown and L. Sonneborn, all of Paterson, N. J.

Fort Scott (Kan.) Water Supply Co.—*City's Offer.*—The city has offered \$125,000 for the plant; the company has asked as high as \$450,000. The franchise expires next April.

Goldsboro (N. C.) Water-works.—Sold.—At, the foreclo-sure sale on Nov. 6 the property was bid in for \$50,000 by Percival Bonney of Portland, Me., one of the principal secu-rity holders. The city voted on Nov. 3 to issue \$50,000 of water bonds, and Mr. Bonney, it is stated, has signified his willingness to turn the property over to the city at the pur-chase price.-V. 73, p. 289.

Great Northern Paper Co.-Extension.-The directors recently authorized the construction of an additional mill at Madison, Me., with a maximum daily capacity of 200 tons, increasing the company's daily output to about 500 tons of newspaper per day. The capital stock is still \$5,000,000, all of one class and in \$100 shares. The new plant, it is said, will cost about \$2,500,000, and will give the company a ca-pacity equal to about one-third that of the International Paper Co. The office is at 51 Wall St.-V. 72, p. 1037.

Hulf Coast Shipbuilding & Dry Dock Co.-New Enterprise. -The Finance Realty Trust Co. of this city is arranging to finance this company, which was incorporated in March last under the laws of Alabama, with special charter, to establish an extensive shipbuilding and marine railway plant at Ala-bama Port on the Bay of Mobile and a dry dock and repair-ing plant at the port of New Orleans. The authorized capi-tal stock is \$5,000,000, in \$100 shares. A first mortgage will be made securing \$5,000,000 of 30-year sinking fund 5 per cent bonds. The present issues will be \$4,000,000 each of stock and bonds, the remainder being reserved for future requirements. The directors and officers thus far selected are as follows:

Directors: Charles M. Jesup, S. B. McConnico and Cassius M. Wicker of this city; Alfred S. Elliott of Wilmington, Del.; Robert C. Morris and Lewis Johnsou of New Orleans, and Patrick J. Lyons and E. L. Russeil

of Mobile. President, Charles M. Jesup; Vice-President, Cassius M. Wicker; Second Vice-President and Secretary, S. B. McConnico; Third Vice-President and Treasurer, Robert C. Morris.

Newport News is at present the port nearest to the Gulf affording shipbuilding and dock facilities for merchantmen. Office, 31 Nassan St., New York.

Hartman Manufacturing Co.—Purchase.—The company has purchased the \$500,000 capital stock of the Cuyaboga Steel & Wire Co. of Cuyaboga Falls, Ohio (see V. 73, p. 84).

Havana Commercial Co.-Majority Deposited .- A large majority of each class of stock has been deposited in accord-ance with the agreement mentioned in V. 73, p. 1013, 902.

Indianapolis Light & Power Co.-Called Bonds.-The following first mortgage bonds of 1892 have been drawn for

payment at 104 and accrued interest, viz., Nos. 63, 128, 178' 341, 344, 398. They will be paid at 104 and accrued interest at the office of the American Loan & Trust Co., Boston, on Nov. 13, 1901, interest ceasing that day.-V. 69, p. 285.

International Salt Co.-Majority of Stocks Deposited.-A majority of the stock of the Retsof Company as well as of the National Salt Co. has been deposited under the terms of the consolidation plan, which will therefore be carried out. The report that control of the Colonial Salt Co. has been acquired in the interest of the consolidation is discredited by a repre-sentative of the National Salt Co.-V. 73, p. 902.

Inter-State Independent Telephone & Telegraph Co.— Incorporated.—This company was incorporated in New Jer-sey on Nov. 7 with \$3,000,000 of authorized capital stock to unite independent telephone companies in Illinois, etc. One branch office is to be in Aurora, Ill., another in Chicago. The promoters are said to be interested in the Northwestern Telephone Co., which operates, it is stated, in Joliet, Aurora, Elgin, etc. (V. 72, p. 535.)

National Asphalt Co.—Investigating Committee.—At the request of the holders of a large amount of the collateral gold certificates of the Asphalt Company of America, Henry W. Biddle, Rudolph Ellis, Alvin W. Krech, Effingham B. Morris and Henry Tatnall have consented to act as a committee for the purpose of investigating the business of the company, and protecting the interest of certificate hold-ers. The holders are invited to deposit their certificates with the Mercantile Trust Co. of New York or the Commer-cial Trust Co. of Philadelphia on or before Dec. 15. The agreement under which deposits are to be made provides that the committee, if, as a result of its investigation, it shall find it expedient to formulate or adopt any plan, may do so; but depositors dissenting from such plan may withdraw their securities without expense to themselves on surrender of the deposit certificates.- V. 73, p. 290, 136.

New England Gas & Coke Co.—Dorchester Company Stock —The Dorchester Gas Light Co., of whose \$519,600 capital stock \$517,600 is pledged under the mortgage of the New England Gas & Coke Co., recently applied to the Massa-chusetts Gas & Electric Light Commission for permission to issue \$480,400 additional stock to pay floating debt [incurred since 1895 for improvements, etc.], and to provide for fur-ther extensions.-V. 73, p. 794.

New Orleans Water Works Co.—Receiver.—On application of Robert Moore, a bondholder, the United States Circuit Court at New Orleans on Nov. 14 made Frank Howard receiver of the company because of the recent decision of the State Supreme Court annulling the company's charter on the ground of excessive water rates persistently maintained.-V. 73, p. 1013, 239.

New York Air Brake Co.-Russian Plant.-The price of the company's shares has advanced sharply this week on the announcement that the company has purchased an extensive plant near Moscow, Russia, and has orders that will keep this plant busy for a considerable period-V. 72, p. 876.

Northwestern Gas Light & Coke Co. of Evanston. Ill.— Change in Control—See People's Gas Light & Coke Co. of Chicago below.—V. 72, p. 630.

Northwestern Telephone Co. of Illinois.-See Inter-State Independent Telephone & Telegraph Co. above.-V. 72, p. 535.

Nova Scotia Steel & Coal Co., Ltd.-Bonds Offered.-This company, whose head office is at New Glasgow, Nova Sco-tia, will receive subscriptions at par until 3 P. M., Nov. 23, through various banks (among them the Bank of Toronto, the Imperial Bank of Canada and the Bank of Nova Scotia), for the company's new issue of \$2,500,000 of 6 per cent 30-year first mortgage gold bonds, dated July 1, 1901, and due July 1, 1931, but subject to call for the sinking fund at 110 and interest; trustee for bondholders, the Eastern Trust Co., Halifar N.S., company parable half mearly (Jon 1 and July Halifax, N. S.; coupons payable half-yearly (Jan. 1 and July 1) at the Union Bank of Halifax, in Halifax, or the Bank of Nova Scotia, in Montreal or Toronto. The bonds cover the real estate, mines, collieries, steel mills, coke ovens, rolling mills, railways, franchises, patents, etc., owned July 1, 1901, except certain parcels of lands not needed for the business. See official statement next week under "Annual Reports."

DIRECTORS.—John F. Stairs, President, Halifax, N. S.; Graham Fra-ser, Vice-President and Managing Director, New Glasgow, N. S; J. Walter Allison and George Stairs, Halifax, N. S.; Thomas Cantley, Simon A. Fraser, James D. McGregor and George F. McKay, New Glasgow, N. S.; Robert Jaffray and Hon L. Melvin-Jones, Toronto, Ont.; Hon. James S. Pitts, St. Johns, N. F.; Robert Reford, Montreal, P. Q.; Frank Ross, Quebec, P. Q.-V. 73, p. 86.

Oshkosh (Wis.) Electric Light & Power Co.-Receiver.-Judge Seaman, in the Federal Court at Milwaukee on Nov. 7, appointed A. E. Thompson of Oshkosh receiver of the property on petition of the Massachusetts Loan & Trust Co., mortgage trustee. The first mortgage bonds, it is stated, amount to \$92,000; second mortgage bonds to \$15,000. Some \$60,000, it is claimed, is necessary for improvements, and may be raised by receivers' certificates to enable the compans to carry out its new ten year lighting contract with city of Oshkosh.-V. 67, p. 690.

People's Gus Light & Coke Co. of Chicago.-Purchase.-Friends of the company, it is understood, have acquired a majority of the \$2,000,000 capital stock of the Northwestern

Gas Light & Coke Co. of Evanston, Ill. (See V. 72, p. 630.) The company has outstanding \$500,000 first mortgage 6s due June 1, 1915, and at last accounts \$418,500, of an issue of \$2,-00,000, consolidated mortgage 5 per cent gold bonds due Dec. 1, 1928, but subject to compulsory payment at 105 on or after June 1, 1904, on 60 days' notice; Equitable Trust Co. of Chicago, trustee.-V. 73, p. 960, 953, 902.

People's Gas Co. of Detroit.-New Enterprise.-Elliott G. People's Gas Co. of Detroit.—New Enterprise.—Efflott G. Stevenson and Herbert W. Noble (Manager of Detroit Clear-ing House) are seeking to obtain a foothold in Detroit for this new company, which offers to sell gas for illuminating purposes at not exceeding 80 cents and for fuel at not over 60 cents per 1,000 cubic feet. The Detroit City Gas Co. charges \$1 for illuminating and 80 cents for fuel gas. The new company, it is said, contemplates issuing \$2,500,000 stock and a like amount of bonds. An application for a fran-chise is pending before the City Council.

Realty Associates of Brooklyn.—Stock.—Of the \$4,000,000 stock of this new company, the present issue is to be only \$3,000,000, and this was recently offered at par, \$100 a share, payable in instalments, the last on or about Oct. 1, 1902. It is the general intention to buy only improved property (par-ticularly in Brooklyn) well rented and capable of producing good returns. See V. 73, p. 1014.

Rogers Locomotive Works.—Officers.—The following officers have been elected:

Officers : John Havron, President; E. H. Norton, Vice-President; F. P. Holran, Treasurer; G. E. Hannah, Secretary; R. Wells, General Manager; John W. Griggs, General Counsel. Directors: Sir William C. Van Horne, George B. Hopkins, George Turnure, J. D. Probst, Elliott C. Smith, Frank P. Holran, John W. Griggs, Robert C. Pruyn, E. Hope Norton, John Havron and Stephen Peabody. Executive Committee, John Havron, Chairman ex officio; George B. Hopkins, J. D. Probst, Elliott C. Smith, Robert C. Pruyn and Stephen Peabody.

The capital stock is \$1,600,000, of which \$800,000 is 6 p. c. cumulative pref., but after payment in any year of 6 p. c. on the preferred the common is entitled to 6 per cent, and then both stocks participate pro rata. All the stock is outstand-ing. Orders have been received and partially filled for the Great Northern, the Duluth South Shore & Atlantic, the St. Louis Southwestern and the Erie roads. Par value of shares, \$100.

Bonds.-Coupons No. 1, due Noy. 14, 1901, on Rogers Lo-comotive Works first mortgage 5 per cent bonds will be paid on and after that date at the office of the company, 33 Wall St. The bonds aggregate \$500,000, all outstanding; they are due in 1921.-V. 73, p. 86.

St. Paul Light Co.-Dividend Passed.-The company has passed the quarterly dividend due Nov. 15 in order, it is said, to provide for improvements.

Guaranteed Bonds.—See St. Croix Power Co. of Wisconsin item last week on page 1014.—V. 70, p. 234.

Sedalla (Mo.) Water Co.-Action by City Council.-The City Council on Nov. 4 adopted a resolution declaring the company's franchise void because of failure to lay pipes from Lake Tebo, as declared necessary to make adequate the city's water supply.

Sharon Coke Co.-Bonds.-The company has authorized an issue of \$1,250,000 of 5 per cent bonds to be dated Dec. 1, 1901, and to be subject to call at par after 5 years.

South Amboy (N. J.) Gas Light Co.—Sold.—At the fore-closure sale recently the property was bid in for \$10,700 by T. Reynolds Beal of No. 1 West 121st St., New York. The Continental Trust Co. was trustee under the \$30,000 mort-gage foreclosed.—V. 73, p. 794.

Susquehanna Iron & Steel Co.—Bonds.—The directors have sent to the stockholders a circular recommending the making of an issue of \$300,000 6 p. c. mort. bonds of \$500 each, due in five years, but subject to call after two years. The proceeds will be used for the construction of a pipe mill, to cost about \$240,000, and to use the company's output of skelp iron. This output is now about 100 tons a day, but it can be increased at a small expense to 125 tons a day. The circular says:

From conservative estimates, based npon profits now being realized, the mill would pay for itself within two years, without incurring any risk of impairing the present 6 per cent dividend on your stock, after which time the dividends of your company should be materially in-creased; and we see no reason why your stock should not, in a short time at least advance to par.-V. 73, p. 444.

Union Ferry Co. of New York.—Acceptance of the Com-pany's Terms.—The Dock Board on Nov. 8 passed a reso-lution recommending to the Sinking Fund Commission the acceptance of the company's offer to lease the ferry franchises on the basis of paying the city 3 per cent of the gross receipts, with the stipulation that should the gross receipts fall below \$760,000 the company may charge not exceeding 2 cents for each foot passenger. Seventeen tickets are to be sold for 25 cents under the lease and the rate for vehicles to remain as at present. J. Sergeant Cram, President of Dock Board, says:

The schedules of receipts for the last 19 years, as submitted by the company, show that the competition of the bridge is most serious for the ferries, and it is fair to assume that the opening of the new bridge and tunnel will have a similar effect. The proposed change in the rates for foot passengers shall not go into effect unless and until the gross receipts fall to a sum insufficient to pay the operating expenses of the company. of the company.

The recommendation was taken under consideration by the Commissioners for one week.—V. 73, p. 187.

INSURANCE.

All the properties, the stocks of raw material and finished products are fully insured. Nearly all the Mills and other properties are equipped with Automatic Sprinklers, effect-ing marked economy in premiums paid as a result of the improvement of the risk.

WORKING CAPITAL.

The Working Capital and Surplus of the Company on August 31, 1901, was \$4,830,694 86, of which \$517,908 52 was Cash in Banks, and \$4,312,786 34 was Bills and Accounts Receivable, Marketable Products and Supplies.

tion to care for and handle the increased business to the best advantage, as well as to keep abreast of the times with new and modern appliances, and thereby reduce the cost of production and improve the quality of products. Since the organization of the Company in 1889 \$4,389,-534 23 have been spent in Repairs, Betterments and Main-

tenance, and charged to Operating Expenses. The year covered by this Report has not been a good one for the Cotton Seed industry, and the profits shown have been earned only by the closest attention to and experienced handling of the manufacturing and commercial details of the business.

Before the season fully opened, it became apparent that the expectations of a large crop were not to be realized, and this brought about an eager and voracious competition for seed, putting cost of raw material at a level which was not

warranted by the prices obtained for finished products. Although the Cotton Crop was a disappointment, and the price of seed was high in consequence, yet the amount of business done during the past year has been the largest in the history of the Company.

In addition to the crushing of Cotton Seed and the refining of Oil, the commercial operations of the Company include the refining of Lard, the manufacture of Lard Compounds, Soaps, Soap Powders, Fertilizers, etc., on an extensive scale. In these departments there has been a gratifying and progressive increase in sales during the past five years.

The business of the N. K. Fairbank Company, the W. J. Wilcox Lard & Refining Company and the Union Oil Company, protected as it is by valuable Brands and Trade-marks, is of vast importance to the Organization. The possession of so varied and comprehensive a system adds greatly to the safety and stability of the Company, particularly in times of special or local trade depression.

Recognizing the importance of the application of science to the development of commercial industry, the Chemical Department, to which reference has been made in a previous report, with headquarters at Chicago and branch laboratories at all important points. has been fostered and developed in recent years to a perfected system. Much good has already emanated from this source, and greater benefits are in sight.

It has been the custom of this Company, since its formation. to publish in its Annual Reports full and complete statements of the condition, progress and earnings of the business. This practice enables Stockholders to form an

opinion as to the value of the property in which they are interested.

The stock of raw materials and finished products carried over at the end of the fiscal year, August 31, being higher in value and somewhat greater in quantity than last year, the cash balances at the close of the fiscal year were less than usual. Since that date the goods on hand have been marketed at a profit over the price at which they were inventoried.

An indication of the careful supervision and correct business methods which govern the conduct of the Company's affairs is shown in the extremely small percentage of loss from Bad Debts. During the twelve years of the Company's operations the losses from this cause have averaged less than one-fifth of one per cent per annum. Regarding the present condition of the business and the

future outlook, our reports indicate a Cotton Cropsomewhat

larger than last year. So far, the business done since the beginning of the new year has been satisfactory, and we have every reason to believe that this condition will continue.

An exhibit of products of this Company and of The N. K. Fairbank Company was made at the recent Pan-American Exposition at Buffalo. The excellence of the products exhibited was recognized by the award to the Companies named of two gold medals, two silver medals and honorable mention.

The working staff of the Company has never been more effective or harmonious than at present. The work done in the several departments is deserving of the highest com-mendation. For the Board of Directors,

> GEORGE A. MORRISON, Chairman.

UNITED FRUIT COMPANY.

SECOND ANNUAL REPORT-FOR THE FISCAL YEAR ENDED AUGUST 31, 1901.

To the Stockholders United Fruit Company:

In presenting herewith the Second Annual Report of your Company, the management has endeavored to inform you even more fully than previously as to the character. location, extent and value of the Company's several properties. as well as to show in detail receipts, expenditures and other financial and business matters. The management desires to give all such statements, figures and general information respecting your Company's property and business to the stockholders as will enable them to share the confidence of the management in the stability and success of the Company's business, a confidence which has been inspired by many years' experience in the businesses which your Company has acquired, and which has been greatly increased by the success with which the risks and disadvantages under which such prior businesses were formerly carried on have been obviated by the formation and operations of your Com-

with this object in view the statements and figures given in our previous report have been sub-divided and amplified.

INCOME.

During the fiscal year ended August 31, 1901. your Company earned \$1,251,975 79 from the production and importation of tropical fruits, and from miscellaneous operations, after charging its operations with approximately \$190,000 for depreciation and deducting its proportion of the deficit arising from the operations of the Sub-Companies. Interest and miscellaneous charges against income were \$153,418 50, leaving net income available for the payment of dividends \$1,098,557 29. During the year the Company paid four quar terly dividends, three of two and one-balf per cent each and one of one and one-half per cent, or a total of nine per cent for the year, amounting to \$1,084,767 50. After the payment of dividends there remained a surplus balance of \$13,789 79, which, added to the surplus of \$1,150,-143 95 brought forward from the preceding year, made a surplus of \$1,163,933 74, which has been carried forward to the fiscal year 1902.

During the early part of the year the climatic conditions and delayed operations in connection with Cuban business were unfavorable and the results from the Company's operations were not as satisfactory as your Directors had anticipated, and, while it was felt that the unfavorable conditions were of a temporary character, it seemed wise that the dividend payments should always be well within the earnings, and consequently the rate of the July dividend was fixed at one and one-half percent. Further details in refer ence to the Company's operations will be found in the Treasurer's report on page 14 [pamphlet], et seq.

GENERAL.

During the year the Company distributed in the United States and Canada approximately 17,500,000 bunches of bananas. 13,500,000 cocoanuts and 200,000 boxes of oranges. More than sixty ocean-going steamers on an average were engaged during the year in the transportation of bananas for the United Fruit Company and its associated companies, ten of them owned by the Company, and the balance operated under time charters. It has been the practice of your Company to charter steamers sailing under the flags of several different countries, so as to protect its interests as far as possible in the event of international disturbances which might affect any of the steamers composing the Company's fleet.

Through its distributing department, the Fruit Dispatch Company, your Company has organized a most thorough and systematic method of disposing of its products throughout the United States, agencies for marketing the fruit having been established in all the principal cities of the country. While only a short time has elapsed since its organization was perfected, the results have been extremely gratifying, not only enabling the consumer to purchase bananas at a less cost than ever before, but largely increasing the consumption of fruit. During the year 1901 the Fruit Dispatch Company distributed 18,906 car-loads of

tropical products, against 16.197 the preceding year, an in crease of 2,709 carloads, or nearly sixteen per cent.

The sugar mill at Banes. Cuba, was put in operation about the first of March, 1901. This was a later date than had been anticipated, and consequently the Company was unable to grind its sugar cane during January and February. two of the best months in the year for that purpose. In spite of this failure, however, the Company demonstrated to the satisfaction of your Directors that the cane crop from its Cuban plantations can be made to produce profitable re-sults during the spring and summer months. During the remaining months of the crop season the mill produced about 19,000,000 pounds of sugar, which yielded a profit of more than \$110,000 00.

For the present year arrangements have been made to start the mill by January first, which will give not only a longer season, but will enable the Company to grind its cane at the time when it contains the maximum proportion of sugar.

ASSETS.

PLANTATIONS AND EQUIPMENT, forming as they do a large proportion of the assets of the Company, are shown in a comparative tabular form under Exhibit A, on page 15 [in pamphlet], a study of which will clearly show the items resulting in the increase of \$1,310,000 in this account. One of the largest factors contributing to this increase is the item of Lands. In the Costa Rica Division appears an increase of over 2,000 acres in the Company's holdings, and in the Republic of Colombia the Company has recently ac-quired, through the liquidation of The Colombian Land Company, Ltd., title to over 11,000 acres of land, the value of which was represented in last year's report by the cost of the stock of that Company. This will account largely of the stock of that Company. This will account largely for the decrease in the Company's investment in "Stocks of other Companies," as shown by the balance sheet. A large tract of land in Cuba was also purchased during the year covered by this report. making an approximate increase in the Company's holdings at all its tropical divisions of 26,000 acres.

There is little change in the item of Houses and Buildings, except in the figures for Cuba and the Republic of Colombia, the increase in the former being occasioned by the necessity of providing accommodations for the Company's employes, the increase in the latter being chiefly due to the acquisi-tion of additional properties in Colombia referred to in the preceding paragraph.

The increase in the item of Cultivations is accounted for in part by substantial additions to the acreage of banana cultivations at all of the divisions, except in Honduras. During the year some 3,500 acres of land in Costa Rica were planted in bananas, and 3,000 acres of banana fields in the Republic of Colombia were acquired. It is the general policy of the Company that all expenditures made on these and other banana cultivations shall be charged to the Company's operating expenses, and in case such charges are not sufficient to offset natural depreciation, the excess of

depreciation is charged to operation. But little change in the aggregate will be noticed in the item of Live Stock. The increase of \$40,000 in the value of cattle in Cuba, due to the necessity of providing draft ani-mals to haul cane from the fields to the railroad, is in part offset by the sale of fattened steers from the ranges in Costa Rica, which have since August 31st been replaced by thin cattle to be fattened for the market.

The increase in the item of Tools and Machinery is due to the natural increase in carts and farming implements, etc., required to handle the products of the increased acreage in cultivations.

RAILWAYS.-The valuation of the Company's railways shows a total decrease of \$230,000, which arises on account of the sale of all the Company's railway property in Costa Rica, valued at some half million dollars, to the Northern Railway Company in September, 1900. A large amount of additional equipment, including five locomotives and over 200 freight cars, was required in Cuba in connection with

the transportation of cane to the sugar mill. The increase in the value of telephone lines owned by the Company is due to extension of the service in Costa Rica, and the decrease in the item of Wharves and Lighters is due to the writing off of depreciation.

The Northern Railway, mention of which was made in our last report, is expected to be completed and in full operation not later than March 1, 1902. Some sixty-two miles of standard-gauge road equipped with sixty pound steel rails, the entire construction of which, inc uding its steel bridges, has been done in a most thorough and reliable manner, when completed with its equipment, which has been especially constructed for our requirements, will give us advantages of transportation by rail that are unsurpassed.

MERCHANDISE. - The increase in the value of merchandise stores appears almost wholly in the Cuban Division, where it seemed wise to own several commissaries in order that the laberers at the mill and on the plantations might be supplied with food and other necessaries at reasonable prices.

SUGAR MILL.-The sum of \$460,000 was expended during the year on the sugar mill and its equipment. As stated elsewhere, the mill has been completed and put in operation. It will be the policy of your Directors to charge to the cost of its operation such expenditures for ordinary repairs or al-

terations to the mill as may be required from time to time. INSTRANCE FUND.—Your attention is directed to page 20 in pamphlet, where are illustrated fully the operations of the Insurance Fund, which have resulted in the accumulation of assets at the close of the present fiscal year of approxi-mately \$132,000. These assets are not included in the Company's balance sheet.

LIABILITIES.

CAPITAL STOCK.—The Company's stock was increased during the year ten per cent. or \$1,123,000, as provided for by offering to the shareholders the right to subscribe for ten per cent of their holdings, at par, as outlined in the Company's circulars dated August 15, 1900. In addition to this \$16,500 in stock was issued for cash to pay for property under and in accordance with one of the original agree-ments made upon the formation of the Company. This transaction was delayed until proper titles could be de-

livered, and completes the execution of all such contracts. Boston FRUIT COMPANY BONDS.—\$30,000 of these bonds were drawn for redemption on May first, as provided by the terms of the mortgage indenture under which they were issued.

FIVE PER CENT CONVERTIBLE GOLD BONDS .- During the year arrangements were made by which the Company was to issue \$3,000,000 in Ten Year Five Per Cent Convertible Bonds, for the purpose of retiring the Company's flcating debt, as explained in our circular letter to shareholders, under date of August 1, 1901.

It affords me much pleasure to inform you that the entire executive and operative force are working in the interests of the Company with the utmost harmony and confidence in their ability to produce satisfactory results. Very respectfully submitted, ANDREW W. PRESTON, President.

BOSTON, NOVEmber 8, 1901.

Union Lead & Oil Co.-Status.-We learn that since the plan of consolidation with the American Linseed Co. was abandoned, the Union Lead & Oil Co. has relir quished the idea of going into the linseed oil business, and, confining itself to lead products, has undertaken the construction at Brooklyn of a large plant for the making of white lead. The company has ore properties and reducing plants in Missouri. President, Homer Wise, 32 Liberty St.-V. 72, p. 1191.

White Mountain Paper Co.-Acquisition.-The company has purchased the plant and water rights of the Portsmouth Matufacturing Co. at South Berwick, Me. The property ac-quired is valued at about \$1,000,000.—V. 73, p. 964.

-An announcement is made in another column of the Mine Securities Corporation, which besides being a large mine owner and operator of mines, has organized a depart-ment for the examination of mining enterprises, both as to their physical and financial condition. The President and chief executive officer is Mr. Thomas J. Hurley, the Vice-President and General Manager of both the Exploration Company of New York and the Guanajuato Company of Mexico, and the President of the Natalie and the Occidental mining companies of Colorado. From the fact that some of the leading trust companies do not easy to not one to prove the leading trust companies do not care to act as transfer agents for new enterprises, it is thought that this corporation, acting as transfer agents for responsible miring companies, will be of much interest to mining circles.

-" The Financial Half-Year," issued from The Times Pub lishing office, Printing House Square, London, has come to hand. The edition is volume 2 and covers the half-year, April 1 to September 30. The various financial interests are treated separately, under classifications, and a comprehensive index of some twenty-five pages affords a ready reference for any desired subject. Much space is given to reports of earnings, dividends and range of prices. The price of the book is fifteen shillings.

-\$100.000 Continental Tobacco seven per cent debentures are offered by A. A. Lisman, 25 Broad Street, to net 5 per cent. These are the only outstanding bonds of either the American or Continental Tobacco Company, the constituent companies of the Consolidated Tobacco Company.

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, Nov. 15, 1901. Complaints of car shortage have continued to be quite generally heard from interior points, which in turn have been taken as positive confirmation of the heavy distribution of merchandise that is now going on throughout the country. As to the volume of new business transacted, reports have been somewhat irregular. In the iron and steel trade business has continued active, orders for for ward deliveries being placed with considerable freedom, and there has been an active demand for holiday goods. O.her lines of trade, however, in the majority of instances, have been quieter. Manufacturers and dealers have been kept fairly busy on old orders, but with the approaching end of the year and the holiday season there is developing a disposition to reduce stocks on hand to smaller proportions; consequently much of the buying now going on is of a hand-to-mouth character. Price changes have been few, values for most staple articles being well maintained.

Lard on the spot has continued to meet with only a small sale, exporters are still out of the market, and the demand from refiners has been quiet. Prices have held about steady, as there has been no attempt to force sales, closing at 8.85c. for prime Western and 8.35@8 50c. for prime City. Refined lard has been quiet and prices have weakened slightly, closing at 9c. for refined for the Continent. Speculation in the market for contracts has been quiet and there have been no important changes in prices.

DAILY CLOSING PRICES OF LARD FUTURES.

Sat. Mon. Tues. Wed. Thurs. Fri. 8.90 8.90 8.90 8.85 8.90 8.90 November..... Pork has had only a small jobbing sale locally, but prices bave not changed from \$15@16 for mess, \$17@17 25 for family and \$17@18 50 for short clear. Cut meats have been quiet and easy at 7@714c. for pickled shoulders, 934@1034c. for pickled hams and 834@914c. for pickled bellies, 14@10 lbs. average. Beef has had a moderate sale at full values, clos-ing at \$10@\$10 50 for mess, \$10 50@11 50 for packet, \$11 50@ 12 50 for family and \$17 50@18 00 for extra India mess in tcs. Tallow has been firmer, closing at $5\frac{5}{8}(a 5\frac{3}{4}c)$. Stearines have been quiet and easier, closing at $9\frac{3}{4}c$. for lard stearine and $10\frac{1}{2}c$. for oleo stearine. Cotton seed oil has continued to sell slowly, and prices have weakened to $34\frac{1}{2}@35c$. for prime yellow. Butter has been in light supply and firmer for de-sirable grades, closing at $17@24\frac{1}{2}c$. for creamery. Cheese has been in moderate demand and firmer at $8\frac{1}{2}@10\frac{1}{2}c$. for State factory, full cream. Fresh eggs have been scarce and higher for best grades, closing firm at 28c. for choice Western.

Brazil grades of coffee have sold with considerable freedom in a large way, as there has been an active speculative business. The tone, however, has been unsettled, owing to conflicting crop news from Brazil. Rains have been reported in the Santos districts. Some advices claim that they have come too late to be of material benefit to the crop, while others report that the crop outlook is improving. The close was steady at 634c. for Rio No. 7. West India growths were active early in the week, but close quiet. Speculation in the market for contracts has been active. The course of prices has been very irregular, but showing a decline for the week under profit-taking sales by longs. The close was steady. Following are the closing asked prices :

Raw sugars have been dull and easy, closing at 334c. for centrifugals 96 deg. test and 314c. for muscovado 59 deg. test. Refined sugar has been quiet and prices have weakened to 4 90c. for granulated. Other staple groceries have been steady to firm.

Kentucky tobacco has had only a limited sale in the local market, but Western advices have reported a fair business transacted at unchanged prices. Seed leaf tobacoo has received only a limited amount of attention. The only sale of importance for the week was 1,200 cases 1900 crop, Wisconsin Havana seed, at 16@18c. Foreign grades of tobacco were quiet but steady.

The market for Straits tin has been firmer for spot supplies. Available supplies are under close control and with a moderate demand prices have been advanced to 26.75@27.25c., closing firm. The market for copper has been quiet; prices quoted for Lake have been unchanged at 16.85@17c. Lead has been unchanged at 4.37½c. Spelter has weakened slightly, closing at 4.30c. Pig iron has been in active demard and firm at \$13@15 50.

Refined petroleum has been unchanged, closing steady at 7 65c. in bbls., 8.75c. in cases and 5 10c. in bulk. Naphtha has been unchanged at 9 05c. Credit balances have been unchanged at \$1 30. Spirits of turpentine has been quiet, but the close was steady at 3734@3814c. Rosins have been in fair demand and firmer, closing at \$1 50 for common and good strained. Wool has been in less active demand but firmly held. Hops have been dull and unchanged.

COTTON.

FRIDAY NIGHT, November 15, 1901. THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 380,004 bales, against 355,484 bales last week and 406,290 bales the previous week, making the total receipts since the 1st of Sept., 1901, 2,742,550 bales, against 2,794,987 bales for the same period of 1900, showing a decrease since Sept. 1, 1901, of 52,437 bales.

Speculation in cotton for future delivery has been moderately active, and for the week prices show a slight improvement. During the first few days the market displayed a sagging tendency. The movement of the crop to the ports con-tinued on a fairly liberal scale. The advices from European markets were disappointing, Liverpool in particular failing to respond to any improvement in local values. Indications point to foreign spinners being strongly imbued with the idea that the yield of the present crop will be a fairly large one, the favorable weather conditions in the South for the past two months, it is believed, having added considerably to the size of the crop. An estimate of a crop in excess of 11,-000,000 bales was reported early in the week, and this, too, had its influence against the market. On Thursday there developed a better undertone. The movement of the crop, particularly in the Southwest, showed a decided falling off. and this, coupled with more encouraging advices from Liverpool, stimulated buying by bear operators to cover contracts, on which prices advanced sharply. To-day there was a slightly easier market under disappointing Liverpool ad-vices. During the day, however, there was a better tone, as predictions of a cold wave in the cotton belt and a continued smaller crop movement stimulated further buying on the part of shorts to cover contracts, and prices advanced a few points. The close was reported barely steady, with prices 3 points lower to 1 point higher for the day. Cotton on the spot has been quiet, but prices have advanced to 8c, for middling uplands.

The rates on and off middling, as established Nov. 21, 1900, by the Revision Committee, at which grades other than middling may be delivered on contract, are as follows.

| Fair | 14 0n |

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph, is as follows. Foreign stocks, as well as the afloat, are this week's returns, and consequently all foreign figures are brought down to Thursday evening. But to make the total the complete figures for to-night (Nov. 15), we add the item of exports from the United States, including in it the exports of Friday only.

Continental imports past week have been 115,000 bales. The above figures indicate an *increase* in 1901 of 57,132 bales as compared with same date of 1900, a loss of 715,011 bales from 1899 and a decline of 1,179,644 bales from 1898. AT THE INTERIOR TOWNS the movement—that is the receipts for the week and since September 1, the shipments for the week and the stocks to-night, and the same items for the sorresponding period of 1900—is set out in detail below.

Stocks Nov. 16. |
| | the above totals show that the interior stocks | have in. |

The above totals show that the interior stocks have increased during the week 28,178 bales, and are to-night 11,537 bales more than at same period last year. The receipts at all towns have been 200,167 bales less than same week last year.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.-We give below a statement showing the overland movement for the week and since Sept. 1, as made up from telegraphic reports Friday night. The results for the week ending Nov. 15 and since Sept. 1 in the last two years are as follows.

| | 19 | 901. | 1900. | | |
|-------------------------------------------|-------------|-------------------|---------|-------------------|--|
| November 15. | Week. | Since Sept. 1. | Week. | Since Sept. 1. | |

WEATHER REPORTS BY TELEGRAPH.—Our telegraphic advices from the South this evening denote that the weather during the week has on the whole been favorable for gathering and marketing cotton, and that good progress has been made. Some correspondents state that picking is nearing completion. Killing frosts are reported from a few points and light frosts trom a number of other localities. *Galveston, Texas.*—We have had rain on one day during

Galveston, Texas.—We have had rain on one day during the week, to the extent of twenty-eight hundredths of an inch. Average thermometer 62, highest 78 and lowest 46.

Corpus Christi, Texas.—Rain has fallen on one day of the week, to the extent of fifty-two hundredths of an inch. The thermometer has averaged 61, highest being 74 and lowest 48.

thermometer has averaged 61, highest being 74 and lowest 48. Palestine, Texas.—We have had rain on three days during the week, to the extent of seventy-eight hundredths of an inch. The thermometer has averaged 59, ranging from 40 to 78.

San Antonio, Texas.—There has been rain on two days of the week, to the extent of sixty-two hundredths of an inch. Aver age thermometer 63, highest 82, lowest 44. For Worth, Texas.—We have had rain on two days of

For Worth, Texas.—We have had rain on two days of the week, the precipitation reaching sixty two hundredths of an inch. The thermometer has ranged from 50 to 78, averaging 64.

New Orleans. Louisiana.—Rain has fallen on one dayof the week, the rainfall being one hundredth of an inch. The thermometer has averaged 64.

Shreveport, Louisiana.—Light frost on the 13th. Rain has fallen on three days of the week, to the extent of ninety-nine hundredths of an inch. Average thermometer 58, highest 76, lowest 40

Columbus, Mississippi.—We had heavy frost and ice on Wednesday morning. It has been showery on one day of the week, the precipitation reaching forty-five hundredths of an inch. The thermometer has averaged 50, the highest being 70 and the lowest 30.

Leland, Mississippi.—The week's rainfall has been twenty hundredths of an inch. The thermometer averaged 58'3, ranging from 34 to 76.

Vicksburg, Mississippi.—Picking is progressing well and cotton is being marketed freely. It has rained on one day of the week, to the extent of eleven hundredths of an inc h. The thermometer has ranged from 40 to 78, averaging 61.

Greenville, Mississippi.-Dry and cold during the week, with two frosts.

Little Rock, Arkansas.—Cotton picking is nearing completion. There has been rain on one day of the week, the rainfall reaching forty eight hundredths of an inch. The thermometer has averaged 56, the highest being 75 and the lowest 37.

Helena, Arkansas.—Frost killed leaves but did not damage bolls. There has been rain on one day during the week, the rainfall being thirty six hundredths of an inch. The thermometer has averaged 55, ranging from 33 to 74. Memphis, Tennessee.—General killing frost occurred on

Memphis, Tennessee.—General killing frost occurred on November 13, against November 9 last year and October 27 in an average year. Picking and marketing are progressing rapidly. We have had rain on two days during the week, the precipitation being thirty-seven hundredths of an inch. Average thermometer 55.4. highest 73.4. lowest 37.

Average thermometer 55.4, highest 73.4, lowest 37. Mobile. Alabama.-Light frosts in the interior during the week. We have had no rain. The thermometer has averaged 58, ranging from 42 to 77.

Montgomery, Alabama.-Light frost has occurred on three days. Picking and marketing continue uninterruptedly. We have had rain on one day of the week, the precipitation reaching five hundredths of an inch. The thermometer has ranged from 39 to 75, averaging 59.

Selma, Alabama.—The top crop will be light in this section. Picking is nearing completion. We have had rain on one day during the week, to the extent of forty-one hundredths of an inch. Average thermometer 55, highest 75 and lowest 33.

Madison, Florida.—There has been rain on one day of the week, to the extent of ten hundredths of an inch. The there

mometer has averaged 59, the highest being 84, and the lowest 42.

Augusta, Georgia.—The crop is practically all in; only scattered picking remains to be done. We have had rain on one day during the week, to the extent of four hundredths of an inch. The thermometer has averaged 57, ranging from 37 to 70.

Savannah, Georgia.—It has been dry all the week. Thermometer has ranged from 44 to 76, averaging 69.

Charleston, South Carolina.—We have had rain on two days during the week, the precipitation being one hundredth of an inch. Average thermometer 59, highest 75, lowest 44.

Stateburg, South Carolina.—Frost on low grounds on two days. Rain has fallen on $0n \ni day during the week, to the$ extent of fifteen hundredths of an inch. The thermometerhas averaged 55.8, the highest being 63 and the lowest 39.

Greenwood, South Carolina.—There has been no rain during the week. The thermometer has averaged 52, ranging from 36 to 69.

Charlotte, North Carolina.—We have had a week of perfect weather for picking cotton. There has been a rainfall of only five hundredths of an inch, and the thermometer has ranged from 33 to 66, averaging 53.

The following statement we have also received by telegraph, showing the height of the rivers at the points named, at 8 o'clock Nov. 14, 1901, and Nov. 15, 1900.

EUROPEAN COTTON CONSUMPTION TO NOV. 1.—By cable to-day we have Mr. Ellison's cotton figures brought down to November 1. We give also revised totals for last year that comparison may be made. The spinners takings in actual bales and pounds have been as follows:

| Oct. 1 to Nov. 1 | Great Britain | Oontinent. | Tota. |
|-------------------------------------------------------------------------------------------|---------------|-------------------------------|--------------------------------------------------------|
| For 1901. Takings by spinnersbales Average weight of bales.lbs Takings in pounds | | 325,000 494 160,550,000 | 564,000 494 [.] 5 278,922,000 |
| For 1900. Takings by spinnersbales Average weight of bales.lbs Takings in pounds | | 203,000 481 97,730,000 | 407,00 0 485.7 197,690 00 0 |

According to the above, the average weight of the deliverie in Great Britain is 496 pounds per bale this season, against 489 pounds during the same time last season. The Continental deliveries average 494 pounds, against 481 pounds last year. and for the whole of Europe the deliveries average 491.5 pounds per bale, against 485.7 pounds last season. Our dispatch also gives the full movement for this year and last year in bales of 500 pounds.

| Oct. 1 to Nov. 1. | | 1901. | | 1900. | | | |
|-----------------------------------------------------|--------------------------|-----------------|--------------|------------------|-----------------|-------------|--|
| Bales of 500 lbs. each, 000s omitted. | Great Brilatn | Oonti- nent. | Totat. | Great Britain | Oonti- nent. | Tou | |
| Spinners' stock Oct.1. Takings to Nov. 1 | 36 , 237 , | 317. 321, | 363, 558, | 47. 199 | 324 195 | 371, 394 | |
| 8npply Consumpt'n, 4 weeks | 27 3 , 240, | 638, 352, | 911 592 | 246 200. | 519, 348, | 765 518. | |
| Spinners' stock Nov.1 | 83, | 286, | 319, | 46 | 171, | 217. | |
| Weekly Consumption. 000s omilted. In October. | *60. | 88. | 149. | *30, | 87. | 137 | |

* The average weekly rate of consumption in Great Britain in each year is as given by Mr. Eilison, after allowing for stoppage of spindles in consequence of short supply of cotton.

The foregoing shows that the weekly consumption is now 148,000 bales of 500 pounds each, against 137,000 bales of like weights at the corresponding time last year. The total spinners' stocks in Great Britain and on the Continent have decreased 44,000 bales during the month, but are now 102,000 bales more than at the same date last season.

EXPORTS OF YARN FROM INDIA TO CHINA.—We give below a statement of the shipments of yarn from India to China during the first six months of the calendar years 1878 to 1901, inclusive:

| Jan. 1 to | To Ohina (bales) | Jan. 1 10 | To Ohina (bales |
|-----------|------------------|-----------|-----------------|
| | 4co lbs, each). | | 400 lbs. each.) |
| 1878 | | | 149,973 |
| 1879 | 23.338 | 1891 | |
| 1880 | | 1892 | |
| 1881 | | 1893 | |
| 1882 | | 1894 | |
| 1883 | | 1895 | 170,460 |
| 1834 | | 1896 | |
| 1885 | | 1897 | 142,9-5 |
| 1886 | | 1898 | |
| 1887 | | 1899 | |
| 1888 | | 1900 | 161,177 |
| 1889 | | 1901 | 256.211 |

The above indicates that the shipments to China during the six months of 1991 have been much greater than in 1900, but considerably less than in 1899, when the heaviest total on record was reached. At the same time the 1899 total is the only one larger than that for 1901.

SAVANNAH COTTON EXCHANGE.—At the annual election of the Savannah Cotton Exchange, held Nov. 11th, the following officers were chosen: President, J. P. Williams; Vice President, H. Weber; Directors, W. W. Williamson, F. D. Bloodworth, Wright Hunter, C. B. Malone. Charles Ellis, J. M. Barnard Jr., John Flannery, W. S. Daffin, M. M. Hopkins and E. Karow; inspectors of the next election, J. J. Raners, F. C. Hubbell and Otto Fritze.

JUTE BUTTS, BAGGING, &C.—The market for jute bagging has been very quiet during the past week. Quotations have been reduced to 5% c. for 1% lbs. and 5% c. for 2 lbs., standard grades. Car lots of standard brands are quoted at 5% & 6c., f. o. b., according to quality. Jute butts continue dull at $1\frac{1}{2}$ @1% c. for paper quality and $2\frac{3}{8}$ @2½ c. for bagging quality.

SHIPPING NEWS.—As shown on a previous page. the exports of cotton from the United States the past week have reached 236,601 bales. The shipments in detail, as made up from mail and telegraphic returns, are as follows:

BREADSTUFFS.

FRIDAY, Nov. 15, 1901.

Only a limited volume of business has been transacted in the market for wheat flour. Bayers and sellers have been apart in their ideas of values. Owing to an easier turn to the wheat market the former have been inclined to lower their bids. On the other hand, however, sellers have continned to hold for full values, and this has held trading in check. Bids 5c, off asking prices have been made on some fairly large lines of spring patents, but have been refused by mills. Rye flour has been quiet but steady. Buckwheat flour has been in fair demand and firmer. Corn meal has been offered sparingly; prices have held firm.

Speculation in wheat for future delivery has been fairly active. There was a slight weakening in prices, but the close was firmer. The downward tendency to prices was most pronounced during the first half of the week. Statistical developments exerted a bearish influence against values, and European cable advices reported weaker and lower markets. The movement of the crop in the Northwest was on a fairly large scale, and weather conditions in the winter wheat belt were more favorable for the new crop, needed rains being reported. The American visible supply of wheat showed a large increase for the week, due, it was re-ported, to gains in Northwestern elevators and Man-itoba points. The continued strength showed by the markets for the coarse grains had, however, a steady-ing influence. During the latter part of the week there was an appreciably better tone to the foreign advices, and this, coupled with a more active export demand in the spot markets and a subsidence of the pressure to sell to liquidate long contracts resulted in a slight recovery in prices. To-day there was a fairly active and higher market, prices advancing in sympathy with a rise in values for other grains. The spot market was firmer but quiet.

Indian corn futures have received a fair amount of speculative attention and there has been a gradual hardening of values, prices in the New York market making a new high record for the season. The monthly Bureau report showed no important changes, indicating a yield slightly under 1,400,000,-000 bushels. Foreign advices continued to note firm markets. The export demand, however, has continued limited, and with the comparatively small foreign buying, export clearances have been necessarily light. Advices from the interior have continued to report a small movement of the crop, with light country offerings. Chicago advices report that fair sales have been made in the cash market for ship-ment to other interior points. To-day there was a firm and higher market, on strong advices from the interior. The spot market was firmer but quiet.

Oats for future delivery at the Western market have been fairly active and firmer. The movement of the crop has been fairly large, receipts at interior points running in excess of those at this time last year. The cash demand, however, has continued fairly free, and this, coupled with the strength shown by the markets for other feed stuffs, has advanced prices. Locally the spot market has been fairly active and firmer. To-day the market was firmer, selling at high record prices for the season.

* Including cattle and hogs in all months and years. NOTE.—All the above figures are based on the monthly preliminary returnsissued by the Bureau of Statistics, and cover about 98 per cent of thetotalexports.

AGRICULTURAL DEPARTMENT'S REPORT,-The Agricultural Department's report on the cereal and other crops was issued November 11, and is given below.

November 11, and is given below. The preliminary estimate of the average yield per acre of corn, as published in the monthly report of the Statistician of the Department of Agriculture, is 16'4 bushels, as compared with an average yield of 25'3 bushels per acre in 1900 and 1899, at d a ten year average of 24'4 bushels. The present indicated yield per acre is the lowest general average ever recorded for this orop, being 2'2 bushels per acre below the yield in 1881, which has stood for twenty years as the lowest on record. The indicated yield in bushele per acre in the seven principal States is as follows: Ohio, 26'1; Indiana, 19'2; Illinois, 21'4; Iowa, 25; Missouri, 10'1; Kansae, 7'8 and Nebraska, 14'1. Of the 23 States hav-ing one million acres or upward in corn, all but Pennsylvania. Virginia and Michigan report an average yield per acre below their respective ten-year averages. The general average as to quality is 73'7 per cent, as compared with 85'5 per cent in November last and 87'2 per cent in November, 1899. It is estimated that 4'5 per cent of the corn orop of 1900 was still in the hands of farmers on November 1, 1901, as com-pared with 4'4 per cent of the orop of 1899 in farmers' hands on Novem-ber 1, 1900, and 5'9 per cent of that of 1898 in hand November 1, 1899. The indicated yield of corn for the whole country by

The indicated yield of corn for the whole country by States, in comparison with the results for the four preceding years, is shown in an editorial article on page 1034.

years, is shown in an editorial article on page 1034. The preliminary estimate of the average yield per acre of buckwheat is 18:9 bushels, against an average yield per acre of 15 bushels in 1900, 16:6 bushels in 1894, and a ten-year average of 16:9 bushels. Of the six States having ten thousand acres or upward under this product, including New York and Pennsylvania, which together contain over three-fourths of the entire buckwheat acreage of the country, four report a yield per acre in excess of their respective ten-year averages. The general average as to quality is 93:3 per cent, azainst 90:2 per cent in November last and 86:4 per cent in November, 1899. The preliminary estimate of the yield per acre of potatoes is 55:9 bushels, jagainst an average yield per acre of 80.5 bushels in 1900, 88:6 bushels in 1899, and a ten-year average of 7x:7 bushels. The present indicated yield per acre is the lowest since 1890. Of the States having 50,000 acres or upward in potatoes, all except Miohigan and Maine report a yield per acre comparing unfavorably with their ten-year averages. Indiana, Illinois, Iowa, Kansas and Nebraska report less than one-half and Missouri less than one-fourth of an average crop. The average as to quality is 78:4 per cent, as compared with 88:1 in November last and 91:4 in November, 1899. The preliminary estimate of the average yield per acre of hay is 1:32 tons, against an average yield of 1:28 tone in 1900, 1:35 tone in 1899, and a ten year average of 1:28 tone. While more than three-fourths of the 47 States and Territories for which comparative data are available report a yield per acre in excess of their respective ten-year averages, such important States as Illinois, Iowa, Missouri, Kansas, Nebraska, South 1:akota. Texas and Arkansas are all included in the region

such important States as Illinois, Iowa, Missouri, Kansas, Nebraska, South Dakota, Texas and Arkaneas are all included in the region reporting less favorably. The average as to quality is 91.3 per cent, against 89.7 per cent in November last and 93.8 per cent in November, 1899.

Of the fifteen principal tobacco States, nine, including Kentucky, Virginia, North Carolina and Tennessee, report an average yield per acre of tobacco in excess of their ten-year averages. while six, includ-ing Ohlo, Wisconsin and Missouri, fall below such averages. The apple orop is considerably below the ten-year average, the pear and grape erops are slightly below and the sweet potato crop is slightly above.

The average indicated yield per acre of the various crops for a number of years is as follows:

AVERAGE YIELD PER ACRE.

| 1 | 901. | 1900. | 1899. | 1898. | 1897. | 1896. | 1895. |

THE DRY GOODS TRADE.

NEW YORK. FRIDAY, P. M., Nov. 15, 1901.

The print cloth situation has again attracted considerable attention, Mr. Borden putting in a temporary appearance as a re-seller of print cloths below the Fall River quotations. Failing to draw out any buyers he has retired, but as a result of his action the print cloth market has been decidedly inactive and the demand for allied fabrics has been adversely affected. The situation created in print cloths by Mr. Borden's recent actions has been an unfavorable factor in other ways. Buyers have been unsettled in their belief in the general stability of the market, and business on home account this week has been quite moderate. The most favorable feature in the cotton goods division has been the reappearance of a good demand for brown cottons for China. This has been met in some querters at rather easier prices, but it is putting export grades into a secure position. There has not boen any influence exercised by the raw cotton market since last report, and prices generally show no change. The woolen goods division is improving and a good tone prevails in staple fabrics.

WOOLEN GOODS .- A general improvement in the demand for men's wear woolen and worsted fabrics has been noted this week. The re-orders on spring account have been more numerous and heavy-weights for quick consumption are still in request. Stocks of staple fabrics are in restricted supply and are largely sold for spring, the tone ruling firm in these in all grades. The market for fancies shows some irregularity under efforts to clean up slow sellers. There has not been anything shown for next heavy-weight season, but the impression prevails that prices are likely to show an advance when the new goods are put upon the market. Overcoatings

DOMESTIC COTTON GOODS,-The exports of cotton goods trom this port for the week ending Nov. 11 were 3,112 packages, valued at \$134,378, their destination being to the points specified in the tables below:

| NEW YORK TO NOV. 11 | | 1901. | 1900. | | | |
|-------------------------|-------|-----------------|--------|------------------|--|--|
| NEW YORK TO NOV, II | Week. | Since Jan. 1. | Week. | Since Jan. 1 | | |
| Great Britain | 22 | 3,973 | 15 | 2,048 | | |
| Other European Ohina | 12 | 1,374 85,306 | 3 | 1,430 140,462 | | |
| India | 201 | 5,693 | 120 | 11,158 | | |
| Arabia Africa | 962 | 38,561 9,270 | 161 | 25,441 3,762 | | |

| Mexico | 36 | 1,775 | 48 822 | 2,762 10,705 | | |
| South America | 748 | 46,788 | 1,201 | 41,825 | | |
| OtherCountries | 290 | 9,371 | 126 | 7,857 | | |
| Total | 3,112 | 228,199 | 2,498 | 273,203 | | |

The value of the New York exports for the year to date has been \$9,841,791 in 1901, against \$12,218,243 in 1900.

The sales of heavy brown sheetings and drills this week have been estimated to reach nearly 30,000 bales. Most of this business has been done at concessions by sellers of from one to two per cent from previous asking prices. Home business in brown goods has been moderate. Ducks are firm business in brown goods has been moderate. Ducks are firm but quiet. In bleached cottons buying has been on a handto month scale in all grades. Fine and medium qualities are steady, but low counts show some irregularity. Wide sheetsteady, but low counts show some irregularity. Wide sheet-ings rule firm with a light business. Cotton flannels and blankets are dull but steady. Denims are in quiet request, but very firm. Ticks and plaids are steady with moderate sales. Kid cambrics are inactive at $3\frac{5}{8}$ c. for 64s. Second quality fancy prints have been opened at $4\frac{1}{2}$ c., same price as last season, and have sold quietly. Staple prints are steady, but the demand has fallen short of last week in volume. The gingham division is very firm throughout. Regular print cloths close at 3c. nominal, and no business done. Mr. Borden offered cloths at 2 15-16c., but has since withdrawn. Narrow odds have been inactive on the basis of 27% c. for regulars.

FOREIGN DRY GOODS.-The dress goods division shows thin fabrics well sold for spring and a fair demand still noted at steady prices. Silks and ribbons are firm but quiet. Linens in moderate demand at previous prices. Burlaps weak and declining.

Importations and Warehouse Withdrawals of Dry Goods. The importations and warehouse withdrawals of dry goods at this port for the week ending Nov. 14, 1901, and since January 1, 1901, and for the corresponding periods of last year are as follows:

Index.

An index to all the news matter sppearing in this Depart-ment for the period from July 6, 1901, to Oct. 5, 1901, in-clusive, was published in the CHRONICLE of Oct. 12, 1901, pages 806, 807 and 808.

Alabama.-Constitutional Convention.-At the election November 11 the new revised Constitution of the State as recently framed by the Constitutional Convention was ratified by a majority said to be from 25,(00 to 30,000. The features of the new instrument bearing on debt and taxation were treated editorially on page 2 of our STATE AND CITY SUPPLE-MENT of Oct. 12, 1901.

Bay County, Mich.—Bond Decision.—The following dis-patch from Bay City, dated Nov 6, appeared in the Detroit "News:"

The decision of the Supreme Court in the case of Shearer et al. vs. the Board of Supervisors prohibits the sale of \$100,000 worth of stone road bonds which were authorized by a special election last fall. After the sale of the bonds was authorized it was found that some of the proceedings were illegal, and the matter was taken before the Legislature and an Act passed to legalize them. The Court declares the Legislature had no authority to pass such Act, and issues a permanent injunction against the issue of the bonds.

See CHRONICLE May 4, 1901.

Cluclunati, Ohio.-Suit to Prevent Cincinnati Southern Lease.—The Corporation Counsel has decided to apply for an injunction restraining the execution of the extension of the lease of the Cincinnati Southern Railway to the Cincinnati New Orleans & Texas Pacific Railway. This may seem a strange proceeding, particularly in view of the fact that the proposition was submitted to the people at the election November 5 and was ratified by a vote of 3 to 1. It is proper, therefore, to state that the sult is brought at the instance of W. M. Ampt, a citizen of Cincinnati, and because the Corporation Counsel deems it proper that no doubt shall exist either as to the validity of the extension of the lease or as to the right of the Trustees to issue the \$2,500,000 new bonds. We give herewith the letter addressed by the Corporation Counsel to Mr. Ampt, which will serve to explain the situation :

tion : I have received your communication of November 6 requesting me as Corporation Counsel of the city of Cincinnati to apply to a Court of competent jurisdiction and to a Court of last resort, if necessary, for an order of perpetual injunction restraining the execution by the trustees of the Southern Railway of an extension of the present lease of the Cincinnati Southern Railway to the Cincinnati New Orleans & Texas Paolfic Railway Company, and further restraining said trustees from the execution of a supplementary agreement providing for the issue of \$2,500,000 bonds to be expended for terminal facilities and permanent betterments to such railway. Inasmuch as under the law I am compelled to bring a suit as re-quested, or, upon my refusal, you would be permitted to bring it, and if you are permitted to bring it the city, regardless of the result of the suit, would be assessed the costs, including a counsel fee to you, and inasmuch as it is important that no doubt should exist as to the valid-ity of the extension of the lease, if made, nor as to the rights of the trustees to issue the \$2,500,000 bonds to be expended for terminal facilities for the railroad, and of the obligation of the lease company to pay the principal and interest of such bonds, if issued; and inas-much as the unimperchable validity of such extension and agreement, when made, and of such bonds, when issued, is a very important ele-ment of value in the refunding soon to be made at a low rate of inter-est of the city's present bonded indebtedness, by reason of the con-struction of such road, I have concluded to bring the suit requested by you to be brought, and to prose oute the same as speedily as possible to the Supreme Court of Ohio, if necessary. you to be brought, and to prosecute the same as speedily as possible to the Supreme Court of Ohio, if necessary.

If you desire to participate in the argument of the case in any Court, I will extend to you every reasonable courtesy.

See CHRONICLE Nov. 9, Sept. 21, May 4 and April 20, 1901. Fort Scott, Kan.-Proposed Purchase of Water Plant.-This city has submitted an offer to the Fort Scott Water Supply Co. to purchase the plant of that company for \$125,-It is said that the company has been holding out for 000. \$450,000, but will probably consider the above offer, as the water franchise expires in April next.

Franklin County, Ohio.—Bond Decision.—The following is taken from the "Ohio State Journal" of Columbus of Nov. 12, 1901 :

The case of the Gardner Bank against Franklin County, which was argued in the United States Court before Judge Thompson at Cincinnati last Saturday, has been decided against the county. While there was but \$5,000 involved in

the case, the decision in its entirely is far-reaching, holding the county hable for nearly \$300,060 in bends to which it was never a party. The deci-ion arises from the holding of the Supreme tourt which declared the suburban street-improvement law invalid. Bonds were issued under that law, the abutting property holders being looked to for payment. The decision of the Supreme Court relieved the property owners from liability, and now Judge Thompson's decision saddles the indecideness on the county. The bonds must be paid from general county funds, under this decision.

Massachusetts.—Special Session of the State Legislature.-The State Legislature met in special session on November 13 for the purpose of approving the Revised Statutes as compiled ty special commissioners and approved by a commit-tee consisting of all the lawyers of the General Court of 1901. North Carolina-Sonth Dakota.-Litication.-The fol-

lowing dispatch from Washington, dated Nov. 11, appeared in the Baltimore "Snn:"

in the Baltimore "Snn:" An original bill in equity was filed to-day in the United States Supreme Court by John L. Pyle, Attorney-General of South Dakota, against the State of North Carolina to compet a settlement on bonds issued in the name of the Western North Carolina Rauroad Comtany. South Dakota is the owner of 10 of these br.nds, of \$1,000 par value each, do-nated for the benefit of the State University. When the reliroad was built North Carolina subscribed for 30,000 shares, amounting to \$3,00°,000 of the stock of the reliroad company, and in return guaranteed payment of bonds, including those held by South Dakota. It is alleged that notwithstanding the State of North Carolina is receiving dividends on the stock held by it, there has been a failure on account of an extension of time to pay the hones or the interest on them. The bill filed to-day asks for a general determination and settlement of the question.

Bond Proposals and Negotiations this week have been as follows :

Albany, N. Y.-Bond Offering.-Edward J. Gallien, City

Comptroller, will sell at public auction at 12 M., November 30, the following bonds:

\$9,1(0 3)4% 1-20-year (serial) honds for re-surfacing Watervliet Avenue.
22,000 334% 1-20-year (serial) bonds for widening Broadway.
55,00 334% 1-20-year (serial) Riverside Park bonds.
66,00 334% 1-20-year (serial) bonds for re-surfacing Madison Avenue.
157,500 334% 1-5-year (serial) improvement boads of 1901.

The improvement bonds of 1901 are dated Nov. 1, 1901, and all other issues Oct. 1, 1901. Interest will be psyable semiannually.

Angelina County, Texas.—Bonds Voted.—This county has voted to issue \$40,000 court house bonds.

Asheville, N. C.-Bonds Not Sold.-We are advised that the \$10,000 4% school-building bonds offered for sale (n October 25 have not yet been disposed of. A description of these tonds will be found on page 864 of the CHRONICLE of Oct. 19.

Atlantic City, N. J.-Bond Offering.-Proposals will be received until 12 M., December 9, by A. M. Heston, City Comptroller, for the following bonds:

\$135,000 4% gold coupon paving bonds, dated Oct. 1, 1901, and maturing July 1, 15,000 4% gold coupon fire-house bonds, dated Jan. 1, 1901, and maturing Jan. 1, 1908.

Securities are in denomination of \$1,000. Interest will be payable semi-annually at the Hanover National Bank, New York City. The legality of these bonds has been approved by Messrs, Dillon & Hubbard of New York City. Acorued interest must be paid by purchaser. Either \$2,500 cash or a certified check for \$2,500, payable to the City Comptroller, must accompany proposals for the paving konds and either \$500 cash or a certified check for that amount with proposals for the fire-house bonds. Bids must be made on blanks furnished by the City Comptroller.

The official notice of this bond offering will be found among the advertisements in this Department in a subsequent issue.

Auburn, Me.-Loan Authorized.-The city government has authorized a loan of \$15,000 at not exceeding 4% interest to pay off a like amount of bonds which will mature Jan. 1, 1902.

Beaver County, Okla.—Description of Bonds.—The \$31,000 20-30-year refunding bonds which we stated in the CHRON-ICLE Oct. 26 had been sold were purchased by R. J. Edwards of Oklahoma City at par and all expenses. Thirty bonds are in denomination of \$1,000 and 100 of \$10 each, all dated Sept. 11, 1901. Interest will be at the rate of 5%, payable semiannually.

Berlin, N. H.-Loan Authorized.-A resolution has been passed by the Council authorizing the City Treasurer to bor-

ow \$6,000 in anticipation of the collection of taxes. Binghamton, N. Y.—Temporary Loan.—This city has borrowed \$5,000 temporarily.

Bird Island School District, Renville County, Minn. – Bond Sale. – On November 11 the \$5,0.0 5% 10-year schoolncuse bonds were awarded to Kare & Co., Minneapolis, at 102 80 and blank bonds. Following are the bids:

For description of bonds see CHRONICLE Nov. 2, p. 971.

Bowie County, Texas.-Bonds Approved.-The Attorney-General has approved an issue of \$50,000 refunding courthouse and jail bords.

Brenham, Texas.-Loans Negotiated.-The Mayor has borrowed \$1,200 from the First National Bank of Brenham for the school fund and \$500 from H. K. Harrison for the street and bridge fund. Loans mature March 1, 1902.

Brown County (P. O. Aberdeen), S. Dak.-Bonds Voted. -This county has voted to issue \$65,000 4% 5-17 year (serial) court house bonds. The date for the sale of these bonds has not yet been fixed.

Brule County, S. Dak.-Bonds Defeated.-Local reports have it that the election held November 5 to vote on the question of issning \$20,000 court-house bonds resulted adversely

Cadott, Wis.-Bond Sale.-We are advised that the \$10,000 water-works bonds mentioned in the CHRONICLE May 25 have been awarded to S. A. Kean, Chicago. Securities carry 41/2% interest. payable annually on April 19. Principal will ma ture \$500 yearly.

Cambridge, Dane County, Wis.—Bond Offering.—Propo-sals will be received until 2 P. M., November 23, by this vil-lage, O. J. Olson, Clerk, for \$7,5'0 4% water-works bonds. Securities were anthorized by a vote of 95 to 28 at the elec-tion held Sept. 7, 1901. They are in denomination of \$500, dated Jan. 10, 19(2. Principal will mature yearly on Jan. 10, \$500 in each of the years 1905, 1916 and 1907 and \$1,000 annually from 1908 to 1913, inclusive. The village has at present a bonded debt of \$1,000. The assess 'd valuation is \$221,755 and the real value about \$443 000.

Cannon County. Tenn.—Radroad Subscription Voted.—At the election held November 9 this county authorized a subscription of \$138,000 in aid of the Woodbury & Nashville Railroad. The vote was 1,749 for to 520 against. Canonsburg, Pa.—Bonds Voted.—This place has author-ized the issuance of \$10,000 sewer bonds by a vote of about

ten to one, according to reports.

Caruthersville, Mo.—Bond Offering.—Proposals will be received until 7:30 P. M., November 18, by Hina C. Schult, City Clerk, for \$26,000 4% 10-20-year (optional) water-works bonds. Securities are dated Nov. 1, 1901. Interest will be payable semi annually.

Chattanooga, Tenn.-Bond Suit Withdrawn.-A special dispatch to the Nashville "American" from Chattanooga, dated Nov. 11, 1901, says that the injunction sult brought to prevent the sale of \$100,000 city bonds on the ground of the illegality of the election has been withdrawn and that the bonds will be sold to local banks at par, the proceeds to be applied to the payment of the fliating debt. See CHRONICLE July 13, July 6, June 15 and May 25, 1901.

Colorado Springs, Colo.-Bond Sale.-On November 4 the \$69,000 4% 10-15 year (optional) gold water works extension bonds were awarded to N. W. Harris & Co., Chicago, at 101.523 and blank bonds. For description of bonds see CHRON. ICLE Nov. 2, p. 972

Columbus, Ohio.—Loan Authorized.—A loan of \$9,000 for use of the D partment of Health has been authorized.

Loan Proposed.-An ordinance recently introduced in the City Council authorizes a loan of \$22,500 to defray the expense of improving Woodland Avenue. Bond Offering.-Proposals will be received until 3 P. M.,

November 21, by the Trustees of the Sinking Fund-Martin A. Gemunder, Secretary-for \$180,000 3½% refunding water bonds. Securities are in denomination of \$1,000, dated Nov. Interest will be payable semi-annually at the office 1, 1901. of the City Treasurer. Principal will mature Nov. 1, 1919.
