THE FINANCIAL SITUATION.

An inquiry of wide interest relates to the cause that is giving rise to the unrestful labor dispositionwe had almost said mania-so prominent a feature has it become of late. Judging from the number of strikes, the number of men involved, and the rapidity of the increase at special centres, they would seem to be of the nature of a disease and infectious. That, though, is hardly a correct diagnosis. The truth is that, while not a direct product of existing trade conditions, strikes would not have attained, disconnected from those conditions, the prominence they hold; in a sense they are a natural outcome of them, since prosperity and the higher cost of living have furnished congenial surroundings for They have not, however, the their cultivation. faculty of spontaniety; previous advances in wages and increased occupation had made labor satisfied. The leaders in the unions have been foremost in exciting discontent and the trade conditions above mentioned have been a forceful aid to their efforts. All reports of the situation current prior to and during the early activity of the officials attached to the Mine Workers' Union tend to prove that its inception was not among the men; even wages were not made the sine qua non at the start. Besides, the managements of the companies have always offered to treat freely with their employes respecting any grievance they had to present or any change they desired.

The distinction just stated is one the public needs always to keep foremost in forming a judgment respecting the labor movement now active. The issue made must force every industry in the land into oppo sition to its purpose and aim. Some may not at once see that it affects them; but it is none the less a struggle between unions and employers of labor for the control of the men employed—a struggle, consequently, in which one industry is no more interested than every other. The principle can be applied to and enforced against the whole body of managers or operators throughout the land. We said higher wages were not the direct issue. Indirectly wages are involved; indeed, if the purpose were everywhere enforced the whole method of carrying on business would be revolutionized; for the power to fix rates and enforce efficiency of labor would be transferred from the em. ployer to the Union. Labor would no longer be dependent upon the managers of an industry for the amount of money received. The operator would be required to pay the wage scale fixed once a year by a convention of the Union's delegates, whether his in dustry could afford to do it or not, and whether the labor was efficient or not; that is to say, he muet do that or submit to the alternative of a strike. No one, consequently, can help seeing that this proposed system is a device for putting our industries in bondage to the unions and that the coal operators' struggle is everbody's struggle.

nected with it; some of the plaintiffs announced almost immediately that their names were used without their authority. Mr. Sage was one of these. Later it appeared that he had given permission but had withdrawn it. If these suits were intended to disturb market values of the property, they miscarried, as the price of the stocks advanced instead of declined. The fall in foreign exchange came on Wednesday quite unexpectedly; rates in New York on London had been rising for a week or more, while those at Paris on London had declined until on Tuesday a profit on a movement of gold to Paris was figured out and an export to that center by steamer sailing Thursday was anticipated. Wednesday the rates changed so materially as to prohibit such a transaction. It was claimed that this reverse movement in rates was helped by a sale of British consols in London by the Continent. Such a sale may have been an incident in the change, but the cause more likely was higher money here because of the movement of currency to Chicago added to the prospect of still dearer money in New York if gold was withdrawn for export. Another incident was the reported return of heavy rains in portions of the Western States about the middle of the week, but as they were quickly followed by favorable conditions, it is to be presumed that they were not serious. No adverse effect has been noticeable on the Stock Exchange from any of these events. Transactions have been quite limited, but prices have continued to show strength. Indeed, the Government crop report, which appeared Thursday after the close of business, was followed by a more active and confident market.

The crop situation is an all controlling feature in affairs the present year and therefore it is gratifying to find that the indications up to the present time continue highly favorable. In a measure of course the crop situation is always of moment, but this season the matter is of more than ordinary importance because of the deficient harvests of last year. Owing to the great industrial prosperity prevailing all over the United States this crop shortage of last year has had a very much smaller adverse effect than had been supposed would be the case, but obviously another deficient yield of our leading crops would be a much more serious matter. There is hence reason for congratulation that there seems no likelihood of a repetition of the unfortunate experience of 1901.

It is of course a long while yet to harvest time for our leading crops, but this much can be stated with almost absolute positiveness, namely that the yield is going to be very much above the short production of last season. A year ago at this time, owing to the drought and extreme heat, the outlook was daily becoming poorer. This year the situation is in sharp contrast with 1901. Instead of a lack of moisture there is an excess of railfall now, and indeed some damage on that account is claimed. But that is the worst that can be said. In other words, there is simply a possibility of some loss in that wey, while in 1901 the country was threatened with, and later experienced, an almost complete crop failure. Furthermore, two or three weeks of hot weather now would insure a yield of corn and oats surpassing anything ever before equaled in the country's whole history. The monthly report of the Agricultural Bureau at Washington issued Thursday afternoon affords. an

The events of the week, except those relating to money and the corner in corn, have not been of an important character. Another action against the United States Steel Corporation was begun on Monday, and still another was threatened; the latter, it was given out, would seek to enjoin the payment of the dividend on the common stock. The litigation started Monday appears to have had a mystery con-

wheat the situation remains just about the same as it was thirty days ago; that is, while the crop will not be of the same extraordinary proportions as in 1901 (the wheat crop last year, as will be remembered, was an exception to the general crop shortage), it will yet be a very large one-probably the largest ever harvested with the single exception of 1901. We see that the Bureau has lowered the condition of spring wheat three points as compared with the first of June, but the average is still very high, namely 92.4, this comparing with 95.6 in July a year ago and with only 55.2 in July 1900.

The most important point of course is as to the prospects of corn. Here the indications point to an exceptionally large yield-given only a few weeks of hot weather. The Bureau reports an increase of 3,520,000 acres, or 3.9 per cent, in the area planted to corn as compared with the area harvested last year. The condition is stated as 87.5. Based on these indications the statistician of the New York Produce Eschange figures out, we notice, a possible crop of 2,589 million bushels. Of course this may be reduced considerably before harvest time, but even with 300 to 400 millions cut off from the aggregate, the production would still be 600 to 700 million bushels in excess of the yield of 1,522 million bushels in 1901. To this should be added the further fact that the harvest of oats is also likely to reach very exceptional proportions, notwithstanding the recent wet weather. The condition of oats is put at 92.1 as compared with 83 7 in July 1901 and a ten-year average of 87.3 Such figures point to an oats crop of over 900 million bushels. The crop of 1901 was estimated at 736 million bushels after revision to accord with the Census reports. I: will thus be seen that it is easily within the range of probabilities-always providing, of course, that no unexpected disaster overtakes the crops before harvest time-that on corn and oats combined the production will be in the neighborhood of 1,000 million bushels in excess of the short yield of last year. In an article on a subsequent page reviewing railroad gross earnings for the first half of the current calendar year, we show what a tremendous shrip kage in the grain traffic of the railroads occurred as a result of the short yield of 1901. It can, therefore, be easily conjectured what such a large addition to the crops would mean in the way of extra grain traffic next year.

It deserves to be noted that the improvement recorded for corn and oats extends to all the other leading agricultural products. Potatoes, it will be remembered, were a poor crop last year. The Department places the average of condition July 1 the present season at 92.5, with an increase of 3.5 per cent in the acreage; the condition of barley is put at 93.7, of winter rye at 91.2, of spring rye at 89.3. To this may be added the further statement found in the Bareau's

given this week by the "Iron Age" show a full recovery of the loss, and indicate that the weekly production at the beginning of July was larger even than at the beginning of May. The capacity per week is now 352,590 tons, which compares with 344,748 tons in June, 352,064 tons in May, 337,424 tons in April and only 298,460 tons in January. This new high record has been attained in face of the anthracite coal miners' strike and notwithstanding a blowing out and banking of a number of blast furnaces in the East, in Virginia and in the Ohio Valley. The "Iron Age" reports the production of pig iron for the first six months of 1902 at 8,790,065 tons, which, if confirmed by the figures of the American Iron & Steel Association, would be an increase of considerably over 1,000,000 tons over the heavy output of the first six months of 1901. The quantity of iron on hand shows a small increase this time, but the increase is really so trifling as to be hardly worth mention, and the aggregate of furnace stocks, sold and unsold (not including the holdings of the steel works producing their own iron which are never reported), reaches the insignificant amount of 75,037 tons. In February the amount was 154,200 tons.

There was no change in official rates of discount by any of the European banks this week and unoffic. ial or open market rates were easy. The Bank of Bengal reduced its rate from 4 per cent to 3 per cent.

The striking feature of the statement of the New York Associated Banks last week was the increase of \$17,011,400 in loans, due chiefly to the augmentation of the capital and surplus of the National City Bank which became effective July 2. The cash reserve showed a decrease of \$2,189,100 of which \$517,700 consisted of specie and \$1,671,400 of legal tenders, and the deposits were increased \$2,818,100; consequently the required reserve was \$704,525 higher, which amount, added to the decrease in cash, made a loss of \$2,893,625 in surplus reserve, reducing this item to \$10,084,725.

The bank statement for the current week, to be issued to-day, will show a further decrease in cash. This result is in part due to transfers through the Sub-Treasury of about \$500,000 to New Orleans and of \$1,000,000 to Chicago. In addition to these there have been other large amounts forwarded directly by the banks. The movement to Chicago was in great part caused by requirements incident to the corner in July options on corn in that market, which corner has been referred to as one of the features of the week. The drain of currency above noted was partly offset by payments of \$300,000 Assay Office checks, representing Yukon gold deposited at Pacific Coast points; \$600,000 of such checks are now in transit, and payments thereof are expected to be made early next week.

summary, namely that "reports of the hay crop are very favorable, nearly every important State reporting a condition considerably above a ten-year average."

With the agricultural prospect thus promising, the iron trade continues in a state of extreme activity, and a new record in pig iron production has again been established. At the beginning of June, it will be remembered, some slight falling off in the capacity of the active furnaces was reported which it was expected would prove only temporary. This expectation has been fulfilled, for the monthly statistics at 3 per cent, with the majority at 33 per cent. Time

Money on call, representing bankers' balances, loaned at the Stock Exchange during the week at 6 per cent and at 3 per cent, averaging about 4 per cent. On Monday loans were at 6 per cent and at 4 per cent, with the bulk of the business at $4\frac{1}{2}$ per cent. On Tuesday transactions were at 42 per cent and at 3 per cent, with the majority at 4 per cent. On Wednes. day and on Thursday loans were at 4 per cent and at 3 per cent, with the bulk of the business at 31 per cent. On Friday transactions were at 4 per cent and

contracts have been in better demand, especially for short periods, in consequence of the corner in corn at Chicago, which it was thought might cause more or less derangement to the market through the withdrawal of currency from New York. Rates were $4\frac{1}{2}$ per cent for sixty days and 5 per cent for three to six months on good mixed Stock Exchange collateral. Commercial paper has been dull, with little or no demand from the city banks or those from the West, and only a moderate inquiry from Eastern institutions. The offerings are light and rates are $4\frac{1}{2}@5$ per cent for sixty to ninety day endorsed bills receivable, $4\frac{1}{2}@5$ per cent for prime and $5\frac{1}{2}@6$ per cent for good four to six months' single names.

The Bank of England minimum rate of discount remains unchanged at 3 per cent. The cable reports discounts of sixty to ninety day bank bills in London 2 9-16@25 per cent. The open market rate at Paris is 2½ per cent and at Berlin and Frankfort it is 13 per cent. According to our special cable from London, the Bank of England gained £19,794 bullion during the week and held £37,689,802 at the close of the week. Our correspondent further advises us that the gain was due to the imports of £206,000 (of which £120,000 were from Egypt, £80,000 from Australia and £6,000 miscellaneous), to receipts of £288,000 net from the interior of Great Britain and to shipments of £474,000, of which £400,000 were to the Cape, £40,000 to Guayaquil and £34,000 mlscellaneous.

The foreign exchange market was strong early in the week, later growing easier and closing steady. The early strength was chiefly due to a demand incident to arbitration operations in exchange, which were facilitated by a fall in the rate for sterling at Paris on London to 25 frances $15\frac{1}{2}$ centimes. Subsequently the sterling rate at Parls recovered to 25 francs 16 centimes and concurrently discounts at London grew easier and money on short time in New York firmer. These changes in discounts and in money rates encouraged offerings of sixty day sterling, representing loans and speculative sales, and the long bills were preferred to short for remittance. Consequently demand bills were in lighter request, and the recession in rates therefore brought about a decline and checked arbitration operations; the market thereafter was steady. It was expected on Tuesday morning, when short sterling was at the highest point and exchange at Paris on London at the lowest, that some gold would be shipped to the French capital, the reimbursing bill being drawn upon London and covered with French exchange. Indeed, it is probable that if the steamer sailing on Wednesday had offered facilities therefor, gold might have been shipped on that day. By Wednesday, however, the above-noted changes in sight bills in this market and in sterling at Parls on London made gold exports unprofitable; and none was sent during the week. The Assay Office paid £227,060 58 for domestic bullion. Gold received at the Custom House during the week £10,589.

was 4 8555@4 8565 and short 4 8790@4 88. The market was firm, and it so continued for short on the following day. Long and cables were easier, however, the former at 4 8545@4 8555 and the latter at 4 8820 @4 8830. On Wednesday there was a fall in long to 4 8540@4 8550, caused by offerings of loan bills, short declined to 4 8775@4 8785 in the absence of demand, and cables fell to 4 8815@4 8825; the tone was easy. The market was steady and unchanged on Thursday. On Friday long was 4 8540@4 8550, short 4 8780@ 4 8790 and cables 4 8820@4 8830. The following shows daily posted rates for exchange by some of the leading drawers.

Nominal rates for exchange are 4 86@4 86½ for sixtyday and 4 88½@4 89 for sight. The market opened on Monday without alteration in rates compared with those ruling on Thursday of last week, except that cables were slightly higher at 4 8830@4 8840; long

* The division (between gold and silver) given in our table of coin and bullion in the Bank of Germany and the Bank of Belgium is made from the best estimate we are able to obtain; in neither case is it claimed to be accurate, as those banks make no distinction in their weekly returns, merely reporting the totai gold and silver, but we believe the division we make is a close approximation.

+ The Austro-Hungarian Bank Statement is now issued in Kronen and Heoer instead of Guiden and Kreutzer. The reduction of the former currency to sterling \pounds was by considering the Guiden to have the value of 50 cents. As the Krone has really no greater value than 20 cents, our cable correspondent in London, in order to reduce Kronen to \pounds , has altered the basis of conversion by dividing the amount of Kronen by 24 instead of 20.

THE PRESIDENT AND THE TRUSTS.

We observe a good deal of discussion in the newspapers regarding an attack on the trusts alleged to be contemplated by the President. Probably this report had its origin largely in the Administration's action in starting the suit against the Northern Securities Co., under the Sherman Act of 1890. It is also possible that the approval of this ac tion of the Administration in the "trust planks" of the various Republican State conventions has had something to do with this assumption. We are inclined, however, to think that the common view of the case is pure assumption; that the Administration has no more idea of "attacking" trusts than it has of attacking industry in general; and we will state our reasons for this belief.

Mr. Roosevelt has never concealed his views regarding legislation to regulate the trusts. But those views, on the other hand, have always been what is usually called conservative. When he was Vice President he spoke publicly of the Government's powers on the question. At Minneapolis, last September, he declared that "the State, and, if necessary, the Nation, has got to possess the right of supervision and control as regards the great corporations which are its creatures." But this was a very general statement. If it meant simply that Government must assert powers to correct conceivable abuses by a trust, Mr. Roosevelt merely stated a principle from which nobody will dissent. If it meant more than this, it was a statement which needed interpretation, and Mr. Roosevelt has been his own interpreter.

His most recent atterance on the subject was at Pittsburg in a speech delivered on the Fourth of July. These were his words on that occasion:

Under our form of government, with its great decentralization of power, some of those problems must be solved through the work of private individuals working by them-selves; others by the association into organized bodies of groups of private citizens, and others yet through the various governmental agencies of municipality, State and nation. Especially great, especially difficult, are the problems caused by the growth and concentration of great in dividual and, above all, great corporate fortunes. It is immensely for the interests of the country that there should be such individual and corporate wealth as long as it is used right, and when not used right then it becomes a serious menace and danger.

The instruments and methods with which we are to meet these new problems must in many cases themselves be new, but the purpose lying behind the use of these methods of those instruments must, if we are to succeed, be now, as in the past, simply in accord with the immutable laws of order, of justice and right.

We may need, and in my belief will need, new legislation. conceived in no radical or revolutionary spirit, but in a spirit of common sense, common honesty, and a resolute desire to face facts as they are. We will need then new legislation, but while laws are important, it is infinitely more important that they should be administered in accordance with the principles that have marked honest administration from the beginning of recorded history. In the last analysis the most important department of civilized government is the de-

.

This declaration seems to us very clear. It means, last three years, as is-well known, has been in our judgment, that both enactment of laws and just the reverse of that of the six years precedadministration of laws dealing with this problem ing. Now the National Government has a plethoric purse; in the earlier period Government coffers must proceed along the lines of equity and conservatism. It frankly recognizes the necessity and were not sufficiently filled, and had to be replenished value, in a commercial sense, of the great combinato meet current requirements. In other words, for tions which have gained for the United States such several successive years Government revenues have extraordinary power in the industrial world. In recrun far in excess of Government disbursements, leavognizing this, the President's remarks are far away ing a large annual surplus. Previously the revenues from expression of a purpose to attack such comfell much short of the outgoes, and deficits occurred binations, root and branch. We have nothing here with such recurring frequency that it almost seemed of the specious appeals put out by the defeated as if they had become chronic. candidate at the last Presidential election, to the For the fiscal year which ended on June 30 1902 the effect that individual enterprise was being crushed, surplus is not only larger than in either of the two

that the young man no longer had any opportunity in business, and that therefore, in some vague and unstipulated manner, the trust must be destroyed.

What Mr. Roosevelt does intimate is that new commercial phenomena bring new problems, and that new problems require new study for the safeguarding of the public against mischance and abuse. But he is very careful to point out that such safeguards must be conservatively applied and must be enacted and administered in accordance with time honored principles of order and equity. This is as much as to say that rash and novel experiments should be discredited.

It is as far as can be imagined from endorsing such legislation as the Constitutional Amendment proposed, and allowed to die without a vote, in the last hours of Congress before the elections of 1900. That proposed amendment, it will be recalled, declared that "Congress shall have power to define, regulate, control, prohibit or dissolve trusts, monopolies or combinations, whether existing in the form of a corporation or otherwise." We commented on this extraordinary proposition at the time and showed that it was neither conceived in serious good faith nor in expectation of adoption. In its grant of unlimited powers for undefined purposes it was not "in accord with the immutable laws of order, justice and right." It was not intended for adoption and there is not the slightest doubt that, had it been pressed, it would have been honestly and seriously opposed by Mr. Roosevelt.

The conclusion of the whole matter is that the entire community, including, we believe, all properlymanaged industrial combinations, will welcome intelligent and conservative laws looking to the protection of the community against possible abuse of corporate power. But it must be remembered, in the first place, that the common law provides much of that protection already, and that the common law is a very elastic appliance-easily capable, in a true emergency, of application to new and unprecedented conditions. It must also be remembered, as Mr. Roosevelt carefully points out in the speech already cited, that much depends on intelligent administration of any such law. A competent prosecuting officer will prove his usefulness quite as much by what he refuses to undertake as by what he elects to do. His opportunities are already very large, and we greatly doubt the wisdom of increasing those powers by what might amount to mandatory legislation on lines where fruitless annoyance of vested interests might become perpetual.

GOVERNMENT FINANCES FOR THE FISCAL YEAR.

The situation of the Government finances the partment of justice.

preceding years, but it is the largest of any year back to 1889-90. According to the Government revenue returns the surplus for the twelve months figures out \$92,195,546. This, however, includes \$432,896 received in July 1901 on account of the Central Pacific indebtedness, deducting which the actual surplus on the ordinary operations of the Government is found to be \$91,762,650. At that figure it compares with a surplus arrived at in the same way of \$71,142,734 for the fiscal year 1900-01 and a surplus of \$75,267,146 for the fiscal year 1899-1900.

This addition of $20\frac{1}{2}$ million dollars to the excess of receipts attracts particular attention in view of the large amount of the Spanish War revenues cut off during that period of twelve months. It will be recalled that with the beginning of the fiscal year 1901-02 a considerable portion of these war taxes was either entirely abolished or materially reduced. The taxes absolutely repealed were those on bank checks, promissory notes, certificates of deposit, money orders, bills of lading, express receipts, warehouse receipts, telegraph and telephone messages, proprietary medicines, perfumery and cosmetics, and the taxes on the different forms of insurance, besides those on the various kinds of docu-In addition the taxes on beer, mentary paper. cigars, cigarettes, tobacco and snuff and on foreign bills of exchange were considerably reduced. Altogether, it was estimated the amount of \$40,000,000 of revenues had thus been cut off. The increase in the annual surplus from \$71,142,734 in 1900-01 to \$91,-762,650 in 1901-02 occurred in face of this cutting-off of revenues.

It must not be supposed because of this expansion in surplus that Government revenues did not contract. They did, but not to the extent of \$40,000,000. Instead, the decrease was only about 18 million dollars. The difference is explained not by any error in the original estimate, but by the fact that, owing to the prosperity and activity of trade in the United States, the productiveness of the old taxes was greatly enhanced. As a matter of fact the internal revenue taxes, to which the reductions applied, shrank to the extent of fully 34½ million dollars, the total of these internal revenue taxes for 1901-2 having been \$272,-503,214 against \$307,180,664 in 1900-1. But on the other hand the Customs receipts enjoyed an augmentation of almost 16 million dollars. There was also an addition of almost \$1,000,000 to the miscellaneous receipts, cutting the decrease in the aggregate of all Government revenues for the twelve months down to the amount already stated, namely 18 million dollars.

With the loss in revenues far below expectations, there was at the same time a curtailment of, roughly, 38⁴ million dollars in the Government expenditures. The pension payments were about \$1,000,000 less. The requirements for interest were over \$3,000,000 less, reflecting in this the effects of the refunding operations (by which the high-rate bonds were exchanged into new 2 per cents) previously completed and also the further bond purchases made during the year. The greatest reduction, however, in the expenditures occurred in what are called the "ordinary" disbursements, including in this war and navy. These were contracted 344 million dollars. Roughly, 323 million dollars of this represents diminished expenditures of the War Department on ac count of the smaller outlays connected with the military operations in the Philippine Islands and in Cuba. What are called the civil and miscellaneous ing the duty on tea, which will cut off when it becomes

disbursements were also, however, less, being \$113,-488,202, as against \$122,282,003, and the cost of taking care of the Indians was \$10,049,523, as against \$10,896,073. The navy expenditures were larger, being \$67,858,590, as against \$60,506,978, presumably because of increased outlays on new ships.

+ Allowing for the premiums paid, the actual excess in 1888 is \$119,612,116; in 1880, \$105,053,444; in 1890, \$105,844,496 and in 1891, \$37,239,783.

The prospect is for a continued excess of receipts over expenditures, notwithstanding the removal of the whole of the Spanish War taxes. The repeal measure went into effect on Tuesday of last week as to all of these war taxes, with the exception of the 10 cents duty levied on tea, which will remain in operation until the first of next January, leaving then the only unrepealed item of the war revenue Act of 1898 the tax on mixed flour-an unimportant matter in itself. The amount of taxes lopped off by the repeal measure is estimated at 68 million dollars, not countoperative 8 to 9 million dollars more, making altogether 76 to 77 million dollars. As the late year's surplus, as already shown, was 913 million dollars, the elimination of the whole of this sum would still leave a fair surplus. But it would not be strange if there should be a further reduction in expenditures in the current or new fiscal year. In this we are referring to the ordinary current expenditures, not to any extraneous outlays such as a possible 40 million payment for the Panama Canal. The American army of occupation has been withdrawn from Cuba; and in the Philippines it would appear that affairs are daily getting into better shape. While the expenditures of the War Department in the late year were reduced over 32 million dollars, they still aggregated, as already stated, over \$112,000,000; prior to the Spanish-American War these expenditures averaged not over \$50,000,000, though of course as our permanent army is larger now than then, there is no likelihood that we will in any event get back to these former low figures.

As far as the revenues are concerned, all must depend on the state of trade. At present, industrial interests are prospering and it is not possible to discern any likelihood of change in the immediate future. Both Customs receipts and the internal revenue will be gov. erned by these business conditions, for it should be remembered that the great expansion in revenues which has occurred since 1898 has been due not alone to the imposition of the Spanish war taxes but also to the great industrial activity under which consumption has been enlarged and the productiveness of the preexisting taxes enormously increased. Any setback in this direction would necessarily be followed by a contraction in revenues. We have already seen that the Customs receipts, which in 1900.01 had reached the then unprecedented amount of \$238,786,456, were further increased in 1901.2 to \$254,456,927. The removal of the duty on tea will reduce the amount several million dollars, as we have already seen, after the first of next January. The continued expansion in these Customs revenues has followed from the great increase in our imports, due directly to the activity of trade. The statistics of our foreign trade for the full fiscal year are not yet available, but for the 11 months to May 31 the value of our imports was \$830,212,104, as against \$754,767,508 in the corresponding 11 months of the previous fiscal year. The value of these imports was the dutiable portion of \$466,066,163, against \$443,502,942. Of this latter total, articles of food and animals counted for only \$98,987,882 in 1901-2, against \$126,100,518 in 1900-01.

This calls attention to the great increase in the other items of dutiable imports, among which are iron and steel and manufactures of the same. On account

While the surplus for the twelve months was \$91,762,650, the decrease in debt for the year has been only \$75,281,879; in other words, debt less cash in the treasury on Jane 30 1902 was \$969,457,241, against \$1,044,739,120 on June 30 1901. The difference between the two amounts is in the main explained by the fact that in order to reduce the accumulation of cash in the Treasury the Government purchased large amounts of bonds, and on these purchases heavy premiums had to be paid. The purchases were heaviest last autumn (September, October and November), but continued through all the months until shortly after the date when the new Secretary, Mr. Shaw, took charge of the Treasury affairs. We gave the totals by months up to the end of December in a statement on page 68 of the CHRONICLE of January 11 1902, and have obtained the figures for the three subsequent months, namely January, February and March, the purchases having been continued down to the first of April. We find that altogether the Treasury Department purchased \$56,071,730 bonds during the fiscal year ending June 30 1902, on which \$295,820 of accrued interest and \$14,043,391 of net premium was paid, making an aggregate outlay for bond purchases in the sum of \$70,410,941.

Secretary Shaw has followed the policy of keeping his cash holdings down by adding to the Government deposits in National banks, and it appears that on June 30 1902 these Government deposits amounted to \$126,506,518, against \$112,578,621 on February 1 1902, when he assumed office, and \$101,416,974 on June 30 1901. It is interesting to note. that, notwithstanding the heavy bond purchases during the year and the large addition to the Government deposits in the banks, the total of the money holdings in sub-treasuries on June 30 1902 was \$312,802,213, against \$307,890,600 at the beginning of the fiscal year. The net cash balance of the Government on June 30 1902 (including the gold reserve fund of \$150,000,000) was \$358,574,116, against \$326,-833,125 twelve months before.

RAILROAD GROSS EARNINGS FOR JUNE AND THE HALF-YEAR.

In the continued improvement in the revenues of the railroad transportation system of the United States which has been the feature of the last few years, the further increase that has occurred during the six months of the current calendar year is to be regarded as perhaps the most noteworthy of the series. This is so not merely because the increase is large in amount, but also because it has been made in the face of some adverse conditions of great and general importance. When we speak of adverse conditions the reader will of course at once understand that we have in mind especially the poor harvests of last season. The crop shortage of 1901, as will be remembered, was one of the most pronounced in the entire history of the country. The drought was of such severity, and the damage done by it so extreme, that it has had few parallels. The wheat crop fortunately was exceptionally large (it being harvested so much earlier in the season), but in the case of corn and oats and nearly all the other products of the farm, the yield was reduced to an exlong as the present very exceptional demand con- traordinary extent. The loss in corn has been estimated at 600 to 700 million bushels, and in oats at

of the present extraordinary demand for iron and steel these imports have latterly been gradually increasing, and they will probably rise still higher on orders already placed for future delivery. As one instance, we may note that the imports of pig iron for the 11 months of 1901-02 were 126,503 tons, against 33,212 tons in the corresponding 11 months of the previous fiscal year, and 56,298 tons in the 11 months of 1899-1900. The duties on iron and steel are high, and as our domestic production is being steadily enlarged, this import movement is likely to last only so tinues.

about 150 million bushels more. In some of the also underwent material shrinkage as will be seen largest producing States, and particularly in Kansas, the corn crop was almost a complete failure. The cotton crop in portions of the South was also materially shortened by the drought.

In ordinary circumstances such poor agricultural results would have been followed by a very considerable shrinkages in the revenues of railroads, and as a matter of fact a large falling off was looked for in this instance by the great majority of people. Instead a further expansion in earnings has occurred. This expansion is obviously attributable to the great activity and prosperity of trade all over the United States, under which the volume of traffic not dependent on the crops greatly increased, while at the same time passenger travel was also further enlarged. It is hardly needfal to furnish evidence of this industrial activity, since the fact is a familiar one to every one engaged in trade. But as one illustration of how the traffic on the railroads has been expanded from that cause, we may refer to the shipments of coal and coke over the Pennsylvania Railroad Company's lines east of Pittsburg and Erie. Owing to the strike of the anthracite miners, the Pennsylvania's anthracite shipments fell off over 770,000 tons, as compared with the first half of 1901. Notwithstanding this loss, however, in the anthracite tonnage, the Pennsylvania's total coal and coke tonnage (including anthracite) aggregated 18,605,320 tons in the 26 weeks of 1902, against only 16,393,636 tons in the corresponding weeks of 1901. Here, then, we have an increase on this one large system—the Pennsylvania Railroad, it may be added, is the largest coal carrier in the country—of, roughly, $2\frac{1}{4}$ million tons. If to this enlarge. ment of the coal tonnage we add the increase in the tonnage of iron and steel in all their various forms and in thousands of other manufactured articles, and remember also that freight rates have been well maintained at good figures, the continued large gains in earnings recorded by that great system of roads cannot be considered as at all surprising.

The loss in the agricultural tonnage was of really great proportions, and except for the expansion in these other classes of tonnage, the poor harvests of last year would surely have been reflected, as expected, in a very material falling off in railroad earnings. As it is, a few of the roads (only a few, however,) have fallen behind in their revenues, but these are lines on which the agricultural tonnage still constitutes a preponderating item in total traffic, or where the loss from the crop failure was especially heavy. The roads as a whole carried a greatly diminished amount of grain, the live stock traffic at the same time fell off, and even the cotton movement in the South did not come up to that of last year. The loss in the

from the following table.

	RECEIPTS	AT SEABOARD.

At the Western primary markets the loss was only slightly less in extent. Duluth to be sure being in the spring-wheat section, where the crop was good in 1901 and poor in 1900, received enlarged amounts of wheat, but all the other principal Western points (barring Peorla and Cleveland) suffered a loss even in the case of this cereal, and the aggregate of the wheat arrivals in the West from January 1 to June 28 the present year were only about 64 million bushels, against 81 million bushels in the corresponding period of 1901. Of corn the deliveries at the Western markets were but 56 million bushels against 102 million bushels; of oats $59\frac{1}{2}$ million bushels against $83\frac{1}{2}$ million bushels. Taking wheat, corn, oats, barley and rye to. gether, the receipts the present year for the 26 weeks foot up no more than 192,993,871 bushels as against 280,185,540 bushels in the same weeks of last year. In the following we show the details of the Western grain movement in our usual form.

56

grain tonnage extended to both the movement to the seaboard and to the deliveries at the Western primary markets.

As indicating how great was the loss in traffic from that cause, we may refer first of all to the receipts at the Atlantic seaboard. These receipts for the period from January 1 to June 28 in 1902 aggregated only 86,129,229 bushels, as against 194,900,716 in the corresponding period of last year. Here then was a contraction of over 108 million bushels, representing, roughly, 24 million tons of freight. Much the largest part of this loss was in corn, but it is a notable circumstance that the receipts of all the other cereals of 1899.

Chicago being the principal receiving point in the West, it very naturally sustained the heaviest amount of loss. Taking in this case the figures for the even six months (the figures above cover 26 weeks), we find that the receipts for the half-year of 1902 were but 61,982,910 bushels against 120,524,516 bushels the first half of 1901, 118,339,406 the first half of 1900 and 126,883,220 the first half RECEIPTS AT CHICAGO DURING JUNE AND SINCE JANUARY 1.

In addition to the loss in the grain tonnage there was also a loss in the live-stock tonnage, this likewise having followed as a result of the poor agricultural outturn of last season, which necessarily left an insufficient supply of fodder. The table just above shows that the deliveries of live hogs at Chicago the present year were 4,670,601 head against 4,363,246 head in 1901 and 4,466,126 head in 1900. The livestock movement as a whole, however, at Chicago was materially less than last year, it having amounted to 137,115 car-loads in 1902 as against 139,066 car-loads in 1901. At the Kansas City stock yards the falling off was even more pronounced, the receipts comprising only 42,319 car-loads in 1902, as against 60,956 car-loads in 1901.

The cotton movement in the South was also smaller. At the Southern outports the receipts this year were 2,296,754 bales, against 2,452,904 bales in the first six months of 1901. The shipments overland, however, it is proper to say, were somewhat larger, amounting to 800,185 bales in 1902, against 673,808 bales in 1901. The details of the cotton movement at the ports are shown in the following.

Bad weather was an adverse feature during some of the months the present year. This is particularly true of February, when the weather was almost continuously bad, and when floods, snows, rains and storms presented obstacles to railroad transportation which have rarely if ever been equaled. As far as the gross receipts of the roads, however, are concerned, the only effect of these obstacles was to delay the movement of traffic. In the case of the net earnings the results were more serious, as the cost of operating was increased, adding greatly to the expenses of the roads. One other development of the half-year should perhaps be noted. We have reference to the strike of the anthracite coal miners. This began on the 12th of May and has continued up to the present time. The effects of this strike on earnings are not fully reflected in our tabulations below, as none of the anthracite roads have yet furnished figures for the month of June, we being obliged to use for these roads the figures for the five months to May 31.

very large proportions. As only 11 days have elapsed since the close of June, it is obviously too early to have complete returns for the half-year. By combining, however, the returns which we have been able to procure for the full six months with those of the roads which have as yet reported for only the five months to May 31 we are able to arrive at a tolerably close approximation to the actual results. Here is a summary which has been prepared in that way.

	Gr	Miles of Road End of Period.			
	1902.	1901.	Increase.	1903.	1901.
•	\$	\$	\$		
84 roads six months	323,813,658	302,142,861	21,670,797	89,487	87,929
6S roads five months	383,481,681	312,789,452	20,692,179	83,587	83,468
Grand tot. (152 r'ds).	657,295,289	614,932,318	42,862,976	173,074	171,392

The foregoing summary, it will be seen, covers 173,074 miles of road. The improvement in earnings over the corresponding period of last year reaches no less than \$42,362,976—equal to 6.89 per cent. This would be noteworthy in any event, but it derives especial significance from the fact that it follows successive large gains in earnings in all the years preceding back to 1897. In brief, the present increase of 42 million dollars follows 56 million dollars increase in 1901, 69 million dollars increase in 1900, 26 million dollars increase in 1899 and 55 million dollars increase in 1898.

NOTE.—We no longer include the Mexican roads or the coal-mining operations of the anthracite coal roads in our totals. Figures for previous years have been revised in accordance with this change.

Probably if we could have returns for all the roads in the United States, the improvement in earnings for the six months would be found to reach \$50,000,000 to \$55,000,000. In the first six months of 1901 we estimated the increase at 70 million dollars; and previously we estimated the increase for 1900 at 90 million dollars; that for 1899 at 42 million dollars and that for the first six months of 1898 at 68 million dollars. Hence in this half-year there has been a positive addition since 1897 to the gross earnings of the railroad systems of the United States in the extraordinary sum of \$325,000,000. The improvement extended to all the months of the year, though in February, on account of the bad weather, the ratio of increase was smaller than in the other months, as will be

Passing now to a consideration of the totals of earnings for the half-year, we find that the increase reaches

seen from the following.

Durind	Mileage.		Gross Ed	arnings.	Increase.	P.C.
Period.	1902.	1901.	1902.	1901.	Increase.	2.0.
	Miles.	Miles.	\$	\$	\$	
January (94 roads)	95,656	94,011	57,169,120	53,126,110	4,043,010	7.61
Febr'ary (92 roads)	94,914	93,269	50,301,694	48,404,740		3.95
March (89 roads)	92,041	90,481	53,947,913	50,750,057		
April (88 roads)	95,147	93,696	57,848,565	52,093,000	5,719,505	11.03
May (84 roads)	91,858	90,262	54,942,317	50,323,090	4,619,227	9.18
June (81 roads)	85,554	58,996	50,238,273	46,882,292	3,355,981	7.16

The reader need hardly be told that the gains in earnings on the separate roads and systems have reached very striking figures. On the other hand, the losses are few and not any of them very large. In the following two tables we show all gains and all losses exceeding \$100,000 in amount.

§ This is result for Philadelphia Railway; on the Coal & Iron Com-pany there is a decrease of \$1,370,411. * This is result for four months to April 30. † These figures cover lines directly operated east and west of Pitts-burg and Erie. The results for the Eastern lines show an increase of \$3,855,100; those for the Western lines an increase of \$2,649,800. † This is for the railroad company; on the Lehigh Valley Coal Co. there was a decrease of \$257,974.

We have room only for very brief remarks with reference to the month of June considered by itself. The gain reaches \$3,355,981, or 7.16 per cent, and was made notwithstanding a smaller grain movement, a smaller cotton movement and a diminished live-stock movement. The present year's increase comes on top of large increases in the same month of all the years immediately precoding, as will be seen by the following table.

TEMS ABOUT BANKS BANKERS AND TRUST CO.S.

-The public sales of bank stocks this week aggregate 585 shares, and were all made at auction. The transactions in trust company stocks reach a total of 33 shares. An advance of 25 points over the price paid at the last previous sale in May is recorded for Chatham National Bank stock, and 555 was paid for stock of the Bank of America, as against 534 last April. No sales of bank or trust company stocks have been made in the "curb" market.

-The Eastern Trust Co. of New York, the organization of which was recently announced in this department, has been anthorized by the State Banking Department to do business; the offices will be located at 115 Broadway. The capital and paid in surplus are \$1,000,000 each, and the officers are Charles M. Jesup, President: H. A Ware, Vice-President; George B. Seeley, Secretary; J. W. Allison, Treasurer, and William R Corwine, Trust Officer.

-At a regular meeting of the board of directors of the Leather Manufacturers' National Bank of this city, held on June 24 last, Mr. Frank O. Roe (who formerly served as As sistant Cashier) was appointed Cashier and Mr. Andrew H. Voorhis (formerly Loan Clerk) was appointed Assistant Cashier. Mr. Gates W. McGarrah, who has held the offices of Second Vice-President and Cashier for the past two years so successfully, was relieved of the latter position, but still retains the Second Vice Presidency. Mr. Nicholas F. Palmer remains as head of this well-managed institution and Mr. William H. Macy Jr. as Vice-President.

-William F. Garrison, who for many years had been

-Mr. Leonard B. Mallaby, who has been connected with the Phenix National Bank of this city for the past 35 years, was on Wednesday of this week appointed Assistant Cashier, taking the place of the late Mr. Pierson G. Dodd, who died at his home in Newark last week.

-It appears that the stock of the National Shoe & Leather Bank, which was recently bought for control of that institution, as noted in this department, was purchased by Bayard Dominick, of the Stock Exchange firm of Dominick & Dominick, for himself and associates.

-The German Savings Institution of St. Louis has called a meeting of the stockholders for Monday, September 8, to vote on an increase in the capital from \$250,000, the present anthorized amount, to \$500,000. The 2,500 shares, par \$100, will be sold at \$400 each, netting a total of \$1,000,000. Mr. John Wahl is President and Mr. Richard Hospes Cashier and Secretary.

-We have just received the statement of the Boatmen's Bank of St. Louis, Mo., for June 30 1902. It is the 110th semi-annual report, and the figures displayed in it reflect the continued progress of the institution. In connection with the statement a circular has been sent to the stockholders which contains so many interesting facts that we quote it in full, as follows:

To the Stockholders:

Referring to the accompanying statement of even date herewith, the directors of this bank tender to its stockholders congratulations on the fact that the surplus fund has this day reached the sum of one million dollars. In this connection the following figures are submit" ted, and will doubtless prove interesting: Organized in 1847 as a sav ings institution, without capital, business was so continued until 1856 when reorganization occurred with a paid-in capital of \$400,000. This continued until 1873, when second reorganization was had with capital of \$2,000,000, and we now have, as per said statement, an ac comulated surplus of \$1,000,000 after having paid, on the original \$400,000 dividends amounting in total to \$6,830,000, besides charging off, to present date, all bad and doubtful debts; making, including this surplus, a net profit of \$7,830,000 on the said beginning of \$400,-000 in 1856. Profit on each of the original 4,000 shares, \$1,957 50. being about 421% per year on every original \$100 share held in 1856 It is a feature worthy of note that these results have been reached wholly through earnings, and not by the modern way of creating a surplus by subscribing to stock at \$200 per share, \$100 of which goes to capital, and the other hundred to the credit of surplus fund, dividends to be paid only on the \$100. It may be well to add that during all the great panics of the last half century-1857, 1873, 1884 and 1893-this bank weathered the storm, never having closed its doors or refused to pay a check. R. J. LACKLAND, President.

WM. H. THOMBON, Cashier.

To the foregoing may be added the fact that President Lackland and Cashier Thomson have been associated uninterruptedly for 45 years and that the President's connection with the institution as director and stockholder dates baok to the very beginning of the organization—that is, to 1847 a period of 55 years.

-In the death of Mr. L. B. Harrison, President of the First National Bank of Cincinnati, which occurred on the 2d inst., that city has lost one of its most prominent citizens. Mr. Harrison, who at the time of his death was 87 years old, was irstrumental, with others, in the organization of the First National in 1863, and which has had a most successful career. The annual dividends paid have never been less than 12 per cent. Mr. W. S. Rowe, so favorably known as Cashier of the institution, has been elected to succeed Mr. Harrison.

-The Merchants' Loan & Trust Co. of Chicago, in an artistically designed pamphlet dated July 1903, offers for sale a number of high-grade investment securities. The pamphlet contains considerable descriptive and statistical information concerning the bonds offered. The statement of the company under date of May 12 shows marked growth. the deposits amounting to \$34,008,465, an increase of \$1,410,-607 in less than five months.

Vice-President of the Manufacturers' National Bank of Brooklyn, and who was also a director of the Nassan Trust Co. of that city, died in Morristown on Tuesday in the sixtyninth year of his age.

-The People's Trust Company of Brooklyn, by its statement for June 30, shows that institution to be in a very prosperous condition. The deposits are reported as \$11,046,887, while on Dec. 31 1901 they were \$10,620,209 and for December 31 1900 \$10,422,600. The surplus and undivided profits amounts to \$1,490,018, after allowing \$120,000 for dividends, payable 1 per cent monthly for the next twelve months. Mr. Felix Campbell is President; Messrs. J. G. Dettmer and Horace J. Morse, Vice-Presidents; Mr. Edward Johnson, Secretary, and Mr. Chas. A. Boody, Assistant Secretary.

-The new capital of \$2,000,000 of the National Bank of the Republic of Chicago became effective on July 1.

-The increase in the stock of the First National Bank of Chicago from \$5,000,000 to \$8,000,000 was also made on July 1.

-Attention is called to the statement in another column of to day's CHRONICLE of the American Trust & Savings Bank, Chicago, showing the growth of this institution from year to year since 1897. The deposits, which on July 8 1897 were \$4,833,127, have steadily grown, and on July 8 of this year stood at \$16,950,969. The latest statement of the condition of the American Trust & Savings Bank may always be seen on page 15 of our BANK AND QUOTATION SUPPLEMENT.

-Mr. Joseph Lippincott has been elected Secretary and Treasurer of the Camden Safe Deposit & Trust Company of Camden, N. J., to succeed the late Mr. George W. Wakefield.

-Mr. George H. Tucker, Treasurer of Berkshire County, Mass., has been chosen as Cashier of the Pittsfield National Bank of Pittsfield, Mass., as successor to Mr. H. A. Brewster, resigned.

-Hon. Leverett Brainard, a member of the board of directors of the Ætna National Bank of Hartford, Conn., from its beginning, died on July 2. Appropriate resolutions have been adopted by the bank on the loss sustained.

-The officials of the Hill Top German Savings Bank of Pittsburg, capital \$75,000, are arranging to convert the institution into the Hill Top German Savings & Trust Company, capitalization \$150,000.

-The directors of the Continental National Bank of Chicago at their meeting on Monday elected as Vice-President of that institution Mr. N. E. Barker, late President of the First National Bank of Birmingham, Ala. Mr. Barker also holds the position of President of the Chattanooga Savings Bank, which institution he founded in 1889.

-P. A. Valentine of Armour & Company has been chosen a director of the Third National Bank of St. Louis.

-A single block on Dearborn Street, Chicago, viz., that between Adams and Monroe Streets, seems to be the financial haven of United States Ex-Comptrollers of the Currency. Three such Government ex-officials are now located within this short space-E. S. Lacey as President of the Bankers' National Bank, James H. Eckels as President of the Commercial National Bank and Charles G. Dawes at the head of the new Central Trust Company of Illinois.

-Illinois Trust & Savings Bank of Chicago directors have declared an extra dividend of 1 per cent to all shareholders of record on the 8th inst., and checks have been mailed therefor. One million dollars was also transferred from un. divided profits to the surplus account, making total surplus \$5,000,000. The institution has more than 115,000 savings depositors.

-The board of directors of the Garden City Banking & Trust Company, Chicago, passed a vote at a regular meeting on Tuesday last recommending an increase of the bank's capital from \$500,000 to \$1,000,000, which will unquestionably be ratified by the stockholders, who meet September 9th. The new stock will probably be offered at par.

-The first day's deposits of the Central Trust Company of Illinois exceeded \$4,500,000, thus establishing a new Chicago record. The banking rooms of this new financial institution have been handsomely and conveniently equipped, and President Dawes feels confident of building up a very large and successful business. For this expectation he has good reason, with such sterling and wealthy financiers on his board as A. J. Earling, President of the Chicago Milwaukee & St. Paul Ry.; P. A. Valentine of Armour & Co., Frank O. Lowden, Max Pam, Charles Deering, Graeme Stewart, T. R. Lyon, C. T. Boynton, Harry Rubens and A. H. Revell.

-The additional \$500,000 capital of the State Savings Bank of Detroit, Mich., was paid in on Saturday last. The bank now has a capital of \$1,000,000. The price at which the shares were sold, \$200 each, adds half a million dollars to the surplus account.

-Mr. W. P. G. Harding has been elected President of the First National Bank of Birmingham, Ala., succeeding Mr N. E. Barker, who has become Vice-President of the Continental National Bank, Chicago. Mr. Harding had heretofore been Vice-President of the First National, in which position he is now replaced by Cashier J. H. Barr, the latter in turn being succeeded by W. W. Crawford, who had been Assistant Cashler. Mr. J. H. Woodward continues as a Vice-President.

year. Total resources are now \$8,770,473, while on Dec. 31 1901 they were reported \$8,037,147, and on Dec. 31 1900 were only \$7,030,784. The officials are William J. Coombs, President; Wm. E. Nichols, Vice-President; W. J. Matheson, 2d Vice-President; F. L. Sniffen, 3d Vice President and Secretary, and Wm. C. Nesmith, Assistant Secretary.

For week.	1902.	1901.	1900.	1899.					
Dry Goods Gen'l mer'dise	\$2,129,585 9,255,186			\$1,524,273 7,093,507					
Total Since Jan. 1.	\$11,884,771	\$7,631,531		\$8,617,780					
Ory Goods Sen'l mer'dise	\$65,154,486 223,932,280		86 5,824.267 225,982,488	\$54,457,201 220,039,835					
Total 27 weeks	8289,086,766	\$293,213,07 0	\$291.806.755	8274.497.036					

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending July 7, and from January 1 to date.

EXPORTS FROM NEW YORK FOR THE WEEK.

	1902.	1901.	1900.	1899.
For the week Prev. reported				
Total 27 weeks	\$249,765,499	\$272,812,776	\$280,323,858	\$239,439,788

Note.—As the figures of exports as reported by the New York Custom House from week to week frequently show divergence from the monthly totals, also compiled by the Custom House, we shall from time to time adjust the totals by adding to or deducting from the amount "previously reported.

-The Manufacturers' Trust Company of Brooklyn, in its return for June 30 1902, reports a decided increase in its business during the past year. The deposits now aggregate \$7,254,768, as against \$6,613,427 on June 3) 1901 and \$5,561,-680 on Dec. 31 1900. Surplus and undivided profits have likewise increased, rising from \$865,892 on June 30 1901 to \$950,879 on June 30 1902, a gain of nearly \$100,000 for the

The following table shows the exports and imports of specie at the port of New York for the week ending July 5 and since Jan. 1, 1902, and for the corresponding periods in 1901 and 1900.

WALL STREET, FRIDAY, JULY 11, 1902.-5 P. M. The Money Market and Financial Situation.-A note-worthy feature of the Stock Exchange operations this week has been the relative activity and high quotations for several high-grade railway issues. The steady demand for this class of securities has had a tendency to strengthen the tone of the entire market, and, although in other departments the transactions have been limited, prices have generally been well sustained.

The Government crop report, issued after the close of business on Thursday, confirmed reports received from other sources as to the favorable condition of the cereal crops and had a stimulating effect in the stock market to-day, notably for some of the granger shares. The foreign exchange mar-ket is easier on more favorable money market conditions abroad, and gold exports seem less imminent than they did a week ago. Shipments of currency from this centre to the interior have begun somewhat earlier than usual and in the local money market rates are still high.

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 3 to 6 per cent. To-day's rates on call 3 to 4 per cent. Prime commercial paper quoted at $4\frac{1}{2}$ @ 5 per cent. The Bank of England weekly statement on Thursday showed an increase in bullion of £19,794, and the percentage

of reserve to liabilities was 48.69, against 42.95 last week, the discount rate remaining unchanged at 3 per cent. The Bank of France shows a decrease of 3,575,000 francs in gold and 3,625,000 francs in silver.

The New York City Clearing-House banks in their statement of July 5 showed a decrease in the reserve held of \$2,189,100, and a surplus over the required reserve of \$10,084,725, against \$12,978,350, the previous week.

NOTE.-Beturns of separate banks appear on page 62.

Foreign Exchange.—The market for foreign exchange is easier on a more liberal supply of bills and rates have declined.

To-day's actual rates of exchange were as follows: Bankers' sixty day sterling, 4 8540@4 8550; demand, 4 8780@4 8790; cables, 48820@48830; prime commercial, sixty days, 485@ 4 851/8; documentary commercial, sixty days, 4 843/3 @4 851/2; grain for payment, 4 853/8 @4 851/2; cotton for payment, 4 843/8; @4 841/2; cotton for acceptance, 4 85@4 851/3. Posted rates of leading bankers follow:

United States Bonds .- Sales of Government bonds at the Board include \$8,000 4s, coup. 1907, at 109¼, and \$10,000 4s, reg., 1907, at 109 to 109¼. The following are the daily closing quotations; for yearly range see third page following.

This is the price bid at the morning board; no sale was made.

State and Railroad Bonds.-No sales of State bonds have been reported at the Exchange this week.

The market for railway bonds has b en generally steady with a few strong features. Daily transactions averaged about \$2,700.000, par value, made up largely of low-priced issues. Detroit Mackinac & Marquette land grant 31/2s have been conspicuous for an advance of nearly 8 points, and Central of Georgia 2d incomes close nearly 2 points higher than last week. Other active features were Burlington & Quincy joint 43, Colorado Fuel & Iron convertible 5s, Union Pacific and Wabash issues.

Railroad and Miscellaneous Stocks .- On a volume of business averaging about 500,000 shares per day, in which a few issues were conspicuous for activity and strength, the stock market has been decidedly irregular. The conspicuous feat-ures referred to include St. Paul, Rock Island, Chicago & Eastern Illinois, Chesapeake & Ohio, Missouri Pacific, Pennsylvania, New York Central and American Sugar Refining, several of which advanced from 3 to 6 points to new high-record prices. On the other hand, many sometimes active issues were almost wholly neglected, a few had a tendency to weakness and fairly liberal offerings of others were readily absorbed without notable change in quotations. Among the latter are Illinois Central, Louisville & Nashville, Reading, Union Pacific and the Atchison issues. Of the miscellaneous list Colorado Fuel & Iron, the copper stocks and American Ice issues were notably weak. General Electric and New York Air Brake advanced 5 and 6 points' respectively, Sugar Refining covered a range of 4 points, and the United States Steel stocks were steady to firm on fairly large transactions.

For daily volume of business see page 72.

The following sales have occurred this week of shares not represented in our detailed list on the pages which follow.

	July 5.	July 7.	July 8.	July 9.	July 10.	July 11.	Sales

Outside Market .- The market for unlisted securities has been broader and more active this week than for some time past and numerous important advances have occurred. Hall Signal has continued its upward course, commencing the week at par and on large sales reaching 103 @ 105, with the close at $104\frac{1}{2}$. The contracts recently made by the company have occasioned, it is claimed, this demand for the stock. Standard Oil likewise moved upward from 659 last week to 680 breaking later to 625 but closing of the last week to 680, breaking later to 675, but closing at the former figure. Guggenheim Exploration stock was dealt in, after a lapse of several weeks, opening at 145 and rising to 150 on Thursday, the highest price yet attained and 19 points above best previous sales. Tennessee Copper held a place of great prominence this week, over 32,000 shares changing hands at the best figures for months. Opening at 16%, the price advanced steadily to 19½, reacting there-after to 17¾ and closing at 18. Greene Consolidated was quiet at 27%@26¾, Montreal & Boston hovered around 2¼ and Union and United coppers fetched 3%@35% and 35¼@34¾, respectively. Bay State Gas con-tinued brisk at 2@1½; American Can common sold heavily under considerable pressure early in the week, being forced down to 105%, but rallying subsequently to 11¼, the preferred selling at 54@52¼. Good inquiry was forthcoming for Manhattan Transit, which held firm at 5¼@5, and Northern Securities were in fair demand at 103@ 104¼, final quotations being 104. Otis Elevator common 10% , the price advanced steadily to 191%, reacting there-1041/2, final quotations being 104. Otis Elevator common was unusually active, starting at 34 and closing at 40, a rise of 10 points in a little over a week. Among the bonds New England Gas & Coke 5s led in point of activity, selling up from $60\frac{1}{2}$ to $62\frac{1}{4}$, and Cuban Government 6s were materially higher at 23. Outside quotations will be found on page 72.

RAILROAD EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from July 1 to and including such latest week or month. The returns of the street railways are brought together separately on a subsequent page.

	Latest Gross Earnings			1	atest Date.		1	Gross Ear	nings	ings July 1 to 1

§ Covers results on lines directly operated. * Figures from Dec. 1 are for the railroad only. iMexican currency. a Includes Paducah & Memphus Division from July 1 in both years. † Results on Monterey & Mexican Gulf are included from March 1, 1902, but for no part of 1901. e Covers lines directly operated, including the Buffalo & Alle'y Val. Div.for both years.
 b Includes the Houston & Texas Central and its subsidiary lines. Earnings of the Cromwell Steamship Line, not previously reported, are now also included. e Results on Montgomery Division are included in both years. d Includes St. Paul & Duluth for both years.
 f These figures are the results on the Ala. Midl., Brunswick & West., Charles. & Sav., Sav. Fla. & West'n and Sliver Springs Ocala & Gulf. g These figures include, besides the St. L. & S. F. proper, the Kan. City Ft. Soott & Mem.system and Ft, Worth & R. G. h From May, 1902; includes sundry acquired roads.

4

Totals for Fiscal Year.

In the full-page statement on the preceding page we show the gross earnings of all roads for the period from July 1, that being now the beginning of the fiscal year of the great majority of the roads. There are, however, some roads that still have their own fiscal years. These with their dates are brought together in the following.

STREET RAILWAYS AND TRACTION COMPANIES.

The following table shows the gross earnings for the latest period of all STREET railways from which we are able to obtain weekly or monthly returns. The arrangement of the table is the same as that for the steam roads—that is, the first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

ANNUAL REPORTS.

Annual Reports.—All annual reports of steam railroads, street railways and miscellaneous companies which have been published during the first half of 1902 may be found by reference to the general index in the CHRONICLE of June 28, the annual reports being indicated in this index by heavyfaced type.

Cleveland Cincinnati Chicago & St. Louis Railway.

(Advance statement for the year ending June 30, 1902.)

The advance statement for the fiscal year ending June 30, 1902 (partly estimated), compares as follows:

i	1902.	1901.	1900.	1899.
	(Estimated.)	(Actual.) \$	(Actual.)	(Actual.) S
	Gross earnings18,714,980 Oper. exp. and taxes.13,744,132	17,877,489 12,755,638	16,80 ⁶ ,851 11,749,264	14,719,362 10,645,556
	Net earnings 4.970,848 Interest and rentals. 2,800,848	5,121,851 2,916,963	5,057,587 2,866,538	4,073,807 2,873,710
	Balance	2,204,888 127,654	2,191,049 82,934	1,200.097 23,592
	Total income 2,245,000 Dividends on pref(5)500,000 Dividends on com. (4)1,119,516 (2,882,542 (5)500,000 (312)979.626	2,273,983 (5)500,000 (3)839,840	1,223,689 (5)500,000
	Surplus	852,916	934,143	728,689

From the surplus in 1902, as above (\$625,481), the directors have made the following appropriations: For new freight cars, \$222,-201; for extension of double track on the Cleveland Division, \$219,-861; for yard improvements at Lindale, \$160,592; a total expenditure of \$602,654, leaving a net balance of \$22,830.-V. 74, p. 679.

Louisville & Nashville Railroad.

(Preliminary Statement for year ending June 30, 1902.)

The operations for the year 1901-2, compared with previous

years, are shown below, June, 1902, being estimated:						
	Disbursements— 1901-2.	1900-01 *		1898-9. \$

International Steam Pump Co.

(Report for Fiscal Year Ending March 31, 1902.)

The third annual report is published in full on pages 82 to 84. The report for the previous year may be found in V. 73, p. 81. During the year just closed the orders have been over 41 per cent in excess of those taken in the preceding year, and the unfilled orders at the end of the present fiscal year amounted to \$5,750,000. which is \$3,500,000 in excess of the unfilled orders on March 31, 1901. To meet the increased business an enlargement of the Worthington Co. plant is now being made. During the year the principal shops of the company were practically closed by a strike for upwards of three months, but not withstanding this interrup. tion the company added \$734,436 to its surplus, making the undivided net profits at March 31, 1902, \$2,227,904.-V. 74, p. 1311.

GENERAL INVESTMENT NEWS.

RAILBOADS, INCLUDING STREET BOADS.

Alabama New Orleans Texas & Pacific Junction Railways.—Coupon Payment.—The coupors due May 1, 1902, on the £1,050,000 £5 per cent "B" (income) debentures were paid on July 1 by Messrs. Glyn, Mills, Currie & Co., 67 Lombard St., London E. C.-V. 74, p. 678.

Arkansas & Choctaw Ry.—Sold.—Control of this property has been purchased by the St. Louis & San Francisco RR. Co., and possession was taken on July 10. The road is projected from Hope, Ark., to Ardmore, Indian Ter., a total distance of 223 miles, of which 95 miles are completed, and the balance will be ready for operation by the close of the year. The road crosses the Frisco at Hugo on the Paris division and at Madill on the Red River division. Possession was taken July 10. There are no bonds. -V. 73, p. 898.

Ashland Coal & Iron Ry .- Stock Reduced -The company's capital stock has been reduced from \$1,547,000 to \$773.500, because of the transfer of the mining interests to the Ashland Iron & Mining Co.-V. 74, p. 1307.

Atlantic Coast Line RR.-Bonds Offered.-Brown Bros. & Co., Hallgarten & Co. and Vermilye & Co., having purchased \$13,750,000 of the company's first consolidated mortgage 50 year 4 p. c. gold bonds dated July 1, 1902, offer \$10. 500,000 (the unsold portion) for sale at the price of $100\frac{1}{2}$ and accrued interest, payable July 24, 1902, at which time the bonds will be ready for delivery. The bonds are limited to \$20,000 per mile of railway (including underlying divisional liens) and are secured by a mortgage to the United States Trust Co., trustee, covering (subject to underlying divisional mortgages) all the railways, franchises and other property of the railroad company. They are a first lien upon about 570 miles of railway. Half-yearly interest coupons, begin. ning March 1, 1903, payable 1st March and 1st September, in the city of New York. First coupon due March 1, 1908, will be for eight months' interest; last coupon due July 1, 1952, will be for four months' interest. The total amount of the mortgage is \$80,000,000, issued or reserved as follows:

equipment 13,864,000

First Vice-President Henry Walters says in substance:

Of the total anthorized issue of these bonds, \$31,034,000 were set apart for the purpose of taking up and discharging the following debte and obligations, viz:

Debts and obligations. New bonds.

Debts and obligations.
x Savannah Florida & Western Ry. Co. 4 per cent consolidated mortgage bonds. \$12,451,000. due April 1, 1952...\$12,451,000
Wilmington & Weldon RR. irredeemable 7 per cent certificates of indebtedness, \$2,500,000 at not exceeding 175. 4,375,000
Wilmington & Weldon RB. irredeemable 6 p. o. special trust certificates of indebtedness, \$380,000 at not exceeding 150. 570,000

Total.....\$31,034,000

x The \$12,451,000 Savannah Florida & Western 4 per cent consols of 1902 were issued to retire the \$7,162,000 S. F. & W. consol. 5s of 1893. the \$500,000 Alabama Midland (Luverne extension) 8s, the \$161,000 Abbeville Southern 5s and the \$500,000 St. Johns & Lake Eustis 4s, and other small issues and miscel-laneous items.-[ED.]

Of the above, \$12,451,000 Savannah Florida & Western Ry. 4 per cent consolidated mortgage bonds (the entire issue) have been ex-changed for bonds of the new issue, which thus become a first lien upon about 570 miles of railway. After July 1, 1903, this mortgage will also become a first mortgage upon 124 miles of main line from Jacksonville to Sanford, Fia. The holders of more than 75 per cent of the above-mentioned \$5,880,000 certificates of indebtedness have consented to exchange their certificates for first consolidated mort gage bonds. The Atlantic Coast Line RR. is a consolidation of the Atlantic Coast Line RR. Co. with the Savannah Florida & Western Ry. Co. Its Coast Line RR. Co. with the Savannah Florida & Western Ry. Co. Its capital is \$42,000.000, divided into \$18,850,000 5 p. o. non cumula-tive preferred stock and \$23,150,000 common stock. The lines of completed railway owned and operated by it aggregate about 3,453 miles, extending from Richmond, Va., through Charleston. Savannah and Jacksonville, to Port Tampa, Fla., with branches to Norfolk, Va., Wilmington and New Bern, N. C., Brunswick and Albany, Ga., and Montgomery. Ala., etc. In addition the company operates under leases about 79 miles of railway and under trackage agreement about 54 miles. No extensions of these railways are contemplated at pres-ent. The equipment consists of 424 locomotives, 477 passenger, mail, baggage and express cars and 13,071 freight cars, against which there is a liability, under car trusts unmatured, of about \$400,000. The net carnings of the system for the year end-

000, and thus be approximately double the total interest charges of the consolidated company for the fiscal year ending June 30, 1903, which, including the interest on the present issue of \$31,034,000 bonds, will amount to \$2,-976,307. See advertisement on another page. -V. 75, p. 28.

Buffalo & Susquehanna RR,-New Coal Properties.-Fisk & Robinson of New York in their "Monthly Bulletin of Investments" say:

Vestments' say: Announcement was made in May that the directors, having acquired coal properties in Clearfield Connty, Penn. underlaid with upward of 21,000,000 tons of good steam and coking bituminous coal, in-tended to buy other tracts of coal-producing land until at least twice the amount of tonnage then controlled should be tributary to the pro-jected southern extension of the railroad. These purposes have been substantially accomplished. Additional purchases concluded during the past month embrace coal land from which it is estimated will be mined not less than 16,000,000 tons of coal similar to the best Buffalo Rochester & Pittsburg coal, requiring in preparation for coking only mined not less than 16,000,000 tons of coal similar to the best Buffalo Rochester & Pittsburg coal, requiring in preparation for coking only the "dry washing" process. The mineral is found in veins of the un-usual thickness of six feet and can be worked with the greatest economy. Still further purchases of coal lands of large extent are contemplated and the control of territory that will yield approxi-mately 40,000,000 tons of superior coal is assured. At the same time other comprehensive plane for increased business are well advanced. -V.74, p. 1037.

California Pacific (Electric) Ry.-Guaranteed Bonds Offered.-Lonis Blankenborn, of Los Angeles, recently offered at 102 and interest a block of this company's first mortgage 5 per cent gold bonds, dated Jnly, 1901, maturing in 1941, without optional redemption. Interest payable January and July 1. Principal and interest guaranteed by the Los Angeles

July 1. Principal and interest guaranteed by the Los Angeles Traction Co. An advertisement says: This is part of an issue of bonds secured by mortgage on the new electric railway now nearly completed from Los Angeles to the city of San Pedro, 20 miles, with possible branches to some of the other flourishing cities or resorts, Terminal Island, Long Beach and Re-dondo. The road is an extension of the Los Angeles Traction Co., being constructed and operated by the latter, who are its owners, and guarantee the bonds. They are issued on a basis of \$20,000 per mile of completed road and delivered by the trustee, the Title Insurance & Trust Co. of Los Angeles, only upon certain proof of such completion. The road is constructed for high speed.

Canadian Northern Ry.—Line to Minneapolis.—See Minne-apolis Superior St. Paul & Winnipeg RR. below.—V. 74, p. 1250.

Canadlan Pacific Ry.-Listed in London.-The London Stock Exchange has listed certificates of subscription for \$19,500,000 ordinary capital stock in certificates of not more than 10 shares each.-V. 74, p. 1194.

Chestnut Hill RR .- New Stock .- The shareholders on Monday ratified the increase in the capital stock from \$120,-650 to \$195,650, for double tracking.-V. 74, p. 986.

Chicago Rock Island & Pacific Ry.—In Control.—See St. Louis Kansas City & Colorado RR. below. St. Louis Terminals.—The company has completed its pur-

chase for freight terminals of sixteen blocks of property lying in the northern part of St. Louis, east of Broadway, being mostly vacant property in what is termed the "bottoms." See also Terminal RR. Association of St. Louis below.-V. 75, p. 28.

Cincinnati Dayton & Toledo Traction Co.-Mortgage.-The company has filed its mortgage to the Cleveland Trust Co., as trustee, to secure \$5,000,000 of 20 year 5 per cent bonds. See Western Ohio Ry. below.-V. 74, p. 1037, 1039.

Cleveland Elyria & Western Ry.-In Operation.-The 21mile extension from Oberlin to Norwalk was placed in oper-ation on June 30. As the 440 foot bridge at Birmingham is not yet completed, passengers are compelled to transfer at that point.

Cleveland & Southern Ry.—This line, in operation from Berea 10 Medina, O., 16 miles. is to be completed at once from Medina to Wooster, 19 miles. -V. 74, p. 1307.

Columbus Delaware & Marion Electric RR.—Bonds Offered.—E. M. Campbell & Co. of Indianapolis own and offer for sale \$250,000 of the \$1,000,000 first mortgage 5 per cent gold bonds dated May 1, 1901, and due May 1, 1931. Interest payable at National Bank of Commerce, New York, or Western Reserve Trust Co. (the mortgage trustee), Cleveland, Ohio. The entire issue (\$1,000,000) has been under-written. The road was to be completed and operated to Delaware by July 4 and to Marion by Oct. 15, 1902; total distance, 45 miles, upon the company's own private right of way. A circular says:

The road is being constructed with grades reduced to minimum. curves eliminated, best oak ties, 70 pound rail, brokenstone and gravel ballast, onlverts of stone and bridging of steel; power house equip-ment ample to run 180 miles of road. The Delaware City Line has been purchased and is covered by the mortgage; it consists of 7 miles of track in the city of Delaware.—V. 74, p. 853.

The net earnings of the system for the year ending June 30, 1902, Mr. Walter adds, will exceed \$5.800.-

Dayton (0.) & Northern Traction Co.-Bonds Offered. Seasongood & Mayer of Cincinnati are offering at 103 and interest \$200,000 of the \$450,000 1st mortgage 5 per cent \$1,000 gold bonds dated March 1, 1901, due March 1, 1925; optional at 105 and interest on and after March 1, 1906. Principal and interest (March 1 and Sept. 1) payable by the mortgage trustee, the Central Trust Co., New York. Stock authorized and issued \$450,000. An advertisement says :

The company operates a single track interurban electric railway from Dayton, northwesterly, to Greenville, Ohio, $39\frac{1}{2}$ miles of track upon private right of way, excepting in the several towns and villages, where reasonable 25-year franchises have been secured. --V. 71, p. 1267.

Denver & Southwestern Ry.—Arbitration.—C. A. Parker, Chairman of the Colorado Passenger Association, it is announced, will act as arbitrator in the settlement of the rate war and the division of traffic with the Colorado Springs & Cripple Creek Short Line, his decision to be final. The two roads, it is stated, will be operated in harmony, and

rates will be immediately restored. At one time during the fight the rate between Colorado Springs and Cripple Creek is said to have been reduced as low as 25 cents as against a normal \$3 25.-V. 75, p. 29,

East Broad Top RR. & Coal Co.-Financial Plan.-The shareholders of the Shade Gap RR. (an 11-mile line now oper-ated under lease) will vote Aug. 15 on consolidating with the East Broad Top RR. & Coal Co. Treasurer J. E. Haverstick of the latter company replying to our inquiry regarding the following newspaper report says: "This is gossip; there may be some changes in the affairs of the company, but what they are we are unable to say at present:

The East Broad Top RR. & Coal Co. will reduce its capital from \$560,400 common and \$246,750 preferred etock to \$90,000 common. It will take over the Shade Gap RR. The same interests in the East Broad Top control the Rock Hill Iron & Coal Co. and will increase its capital from \$2,000,000 to \$1,000,000 stock.-V. 67, p. 177.

Fair Haven & Westville RR.-New Stock.-Stockholders of record Sept. 1 will be permitted to subscribe at par for one share of new stock for every six shares held by them. Nearly all of the stock of the Winchester Ave. RR. is reported to have been exchanged per offer in V. 74, p. 987, making the present stock about \$3,800,000. The new issue will be about \$633,000 or approximately one-half of the new issue of \$1,200,. 000 authorized last May for improvements and additions.-V. 74, p. 957.

Florida Sonthern Ry .- Coupons Paid .- The interest due July 1 was paid at maturity, the Atlantic Ccast Line RR. Co. having accepted the guaranty of the bonds.-V. 74, p. 1038.

Fort Wayne & Southwestern Traction Co.-Mortgage.-A mortgage for \$2,000,000 has been made to the State Street Trust Co. of Boston as trustee. Of the bonds \$1.000.000 are issuable on account of the new line from Fort Wayne to Wabash, Ind., 46 miles, and the remainder is held for future extensions, etc.-V. 74, p. 1196.

Grand Trunk Ry.- Called Bonds-Interest.-Wellington, Grey & Bruce bonds to the amount of £2,700 have been drawn and will be paid at par on presentation at the offices of the Grand Trunk Ry. in Montreal, or at 203 Dashwood House, New Broad St., London. From the earnings for the half-year ending 80th June, 1902, is being paid £2 8s. 4d. per £100 bond, in respect of coupon No. 42, due July 1, 1891, at the offices in London, England.-V. 74, p. 880.

Hocking Valley Ry.-Status.-Thomas F. Ryan, a leading stockholder, is quoted as saying that the dividend on the common stock is not to be increased in the near future, and that there will be no consolidation of the company with the Pere Marquette.-V. 74, p. 1196.

Hoosac Valley Street Ry., North Adams, Mass.—New Stock, etc.—The shareholders on July 5 voied to increase the capital stock from \$100,000 to \$400,000, to provide for taking up the floating indebtedness and bonds of the company, and making important improvements. The directors include, with two of the old board:

Col. F. S. Richardson of North Adams, President; W. B. Plunkett of Adams, A. H. Rice, P. H. Dolan and W. L. Adam of Pittsfield.

Ezra D. Whitaker of Adams is Treasurer.-V. 74, p. 1308.

Illinois Central RR.-New Stock.-The shareholders will vote Aug. 29 on the proposition to increase the capital stock from \$79,200,000 to \$95,040,000, "for the purpose of paying for, constructing, completing, improving or maintaining the lines of the company." Each shareholder of record Sept. 19, 1902, will have nrtil Oct. 24, 1902, the privilege of subscribing at par for one share of such new stock for every five shares of stock registered in his name, subscriptions to be paid at the New York office in two instalments, viz : 50 per cent on or before Dec. 2, 1902, and the remaining 50 per cent on or be-fore Jan. 7, 1903. To stockholders who pay both instalments in full on or before Dec. 2, 1902, there will be allowed a discount upon the second instalment at the rate of 4 per cent per annum from that date to Jan. 7, 1903. Certificates for full paid shares will be issued as soon as possible after both instalments shall have been paid.—V. 74, p. 1308.

Jacksonville (Fla.) Electric Co.-Bonds Offered.-This company, recently organized by Stone & Webster of Boston, owns all the street railways in Jacksonville, Fla., comprising 20 miles of single track; also the plant formerly owned by the Jacksonville Electric Light Co. John Dearborn is offering in Boston at 971/2 and interest \$300,000 1st mortgage 5 p. c. 25-year gold bonds, part of a total authorized issue of \$1,250,000, of which there is outstanding \$700,000. Begin ning in 1907, there will be an annual sinking fund of 1 p. c.

National RR. of Mexico will stamp its guaranty as to principal and interest on such of the bonds as may be presented to them for that purpose under agreement of June 30, 1902. New President.-J. G. Metcalfe was recently appointed President. - V. 74, p. 772, 783.

Millen (Ga.) & Southwestern RR.—Bonds.—An issue of \$800,000 bonds is being printed, the Citizens' Bank of Savan-nah being trustee. The road is in operation from Millen to Stillmore, Ga., 32 miles, and rails have been received for an extension of 21 miles from Stillmore to Vidalia, on the Seaboard Air Line and the Macon Dublin & Savannah, -V. 74, p. 776.

Milwaukee Burlington & Lake Geneva Ry.—Franchise Invalid.-Judge Tarrant in the Circuit Court at Milwaukee on June 30 decided that the company was not formed for street railway purposes, and for that reason the Common Council of Milwankee had no right to grant the franchise, which is therefore invalid.-V. 73, p. 553.

Mllwaukee Electric Ry. & Light Co.-Decision Respecting New Company.—See Milwankee Burlington & Lake Geneva Ry. above.—V. 74, p. 478.

Mineola Hempstead & Freeport Traction Co.-New Sccurities.—The company recently applied to the New York State Railroad Commissioners for permission to increase its capital stock from \$125,000 to \$1,000,000, and to make a first mortgage to the Cleveland Trust Co., as trustee, to secure \$1,000,000 bonds, the proceeds to cover the cost of building 46 miles of railroad, etc., including the 31 miles officially described in V. 74, p. 1039, and lines from Queens to Jamaica (4 m.), Mineola to Queens (6 m.) and Rockville Centre to Long Beach (5 m.). The company at present gets its power from the Roslyn Light Heat & Power Co., but a central power house will be constructed at an early day. Cleveland capital is back of the enterprise. -V. 74, p. 1355.

Minneapolis Superior St. Paul & Winnipeg RR.-New Enterprise.-This company, whose line will connect at Beaudette, Minn., with the Canadian Northern, has been authorized to construct a bridge across the Mississippi River. This, it is said, practically clears the way for the construction of the new line from Minneapolis to the Canadian border.

the new line from Minneapolis to the Canadian border. The new road will run from Minneapolis and St. Paul, by way of Anoka, Mora. Mille Laos. Altken. on the Northern Pacitic, and Grand Rapids, to Beandette, on Rainy Lake River, 320 miles, where it will connect with the Canadian Northern line for Winnipeg, 156 miles. The road will also run from a point near Anoka via Rush City to Superior, Wis. Most of the right of way has been secured, and all the necessary dockage rights have been secured at Superior. Duluth will be reached by a line already built. The new road, we are informed, is not an allied or subsid-iary line of the Canadian Northern. The \$10,000,000 first mort case bonds are forty-year 55 (not thirty-year) and are

mortgage bonds are forty-year 5s (not thirty-year) and are issuable at the rate of \$20,000 per mile for construction and equipment, with about \$1,000,000 reserved for a bridge over the Mississippi River at Anoka, terminal facilities in St. Paul and Minneapolis, and terminal lands, docks, &c., at Superior, Wisconsin. The company has about 40 miles of its line graded from Minneapolis northward and expects to commence track-laying during the current month. John C. Short & Sons, 51 Liberty St., this city, are interested. See also V. 74, p. 1196.

National RR. of Mexico.—Guaranteed Bonds.—See International RR. of Mexico above. - V. 74, p. 1355.

New Orleans & Sonthwestern (Electric) RR .- New En-

New Orleans & Sonthwestern (Electric) RR.—New En-terprise.—Mortgage.—This company has been incorporated in Louisiana with a capital stock of \$2,000,000, and has made a mortgage to the International Trust Co. of Boston, as trustee, to secure \$2,000,000 of 5 per cent 30-year bonds. Gen-eral Manager C. R. Young says in substance: The contract for building the roadbed and most of the contracts for the machinery have been awarded. The road will be 77 miles long, from Hahnville, on the Missiesippi River, down to Montague, close to the Guif. The power-house, offices and shops will be situated in Thibodaux, which is the centre of the system. The contract awarded to the Buillock Electric Manufacturing Co. of Clinchnatic calls for three 1,000-kilowatt, 15,000 volt, three-phase dynamos. Light and power will be supplied along the line. The road will be completed about Christmas time. The road will carry both passengers and irreight. O. P. Shaffer, Cashier of the Bank of Thibodaux, is President. New York & Jersey RR.—Franchise.—On July 1 the

New York & Jersey RR.-Franchise.-On July 1 the Rapid Transit Commission of this city approved the proposi-tion to give the company a perpetual franchise for its proposed tunnel road, the right being reserved to readjust the rental charges every twenty five years. The company will pay 50 cents a linear foot of single track for the first ten

1038.

Mexican Central Ry.-Change of Office.-The financial and accounting offices have been transferred from Boston to No. 422 Olive St., St. Louis, Mo. The Old Colony Trust Co. has been appointed transfer agent at Boston, Mass. Annual meetings of the stockholders will hereafter be held in Boston as heretofore.

New Officers -Gabriel Morton, Vice President, has been elected Comptroller and Jas. Piper has been made clerk of the board, vice Mr. J. T. Harmer, resigned.-V. 75, p. 29.

Mexican International Ry.-Bonds Guaranteed.-The New York Stock Exchange has been asked to list \$2,348,000 additional first consolidated mortgage 4 p. c. bonds of 1977, making the total issue to date of these bonds \$6,983,000. The p. 1308.

years and \$1 a foot for the next fitteen years. The annual payments, it is estimated, will be at a rate of \$14.336 for the first ten years and for the next fitteen years at the rate of \$25,-673. The company is to pay the city for the first ten years 3 p. c. and for the uext fifteen years 5 p. c. upon an estimate of its gross receipts from traffic within the city of New York.-V. 74, p. 988.

Norfolk Portsmonth & Newport News (Street Railway) Co.-Mortgage Filed.-This amalgamated company has filed its new mortgages, viz., first and collateral mortgage for \$4,000,000, to the North American Trust Co.; second income mortgage for \$2,000,000, to the Richmond Trust & Safe Deposit Co., trustee. See page 59 of STREET RAILWAY SUPPLE-MENT. -V. 74. p. 1308.

Oakland Transit Consolidated.-Mortgage.-The company has filed its mortgage to the Union Trust Co. of San Francisco as trustee to secure \$6,500,000 5 per cent \$1,000 30-year sinking fund bonds. Of the new issue \$3,500,000 is to be devoted to taking up existing bonds at or before maturity and \$3,000,000 to improvements and construction.-V. 74,

Old Colony RR.—Bonds Sold.—The \$1,000,000 3½ p. c. 30year bonds have been awarded to Estabrook & Co., Blake Bros. & Co. and R. L. Day & Co.—V. 74, p. 1252.

Ozark & Cherokee Central Ry.—Extensions-Mortgage.— President H. W. Seaman, replying to our inquiries, says:

The Shawnee Oklahoma & Missonri Coal & Ry. Co.is owned and controlled by the stockholders of the Ozark & Oherokee Central Ry., and both companies have the same officers, and eventually it will be absorbed by the Ozark. Grading on this line is nearly completed between Mnskogee and Okmulgee, 40 miles, and it will be finished and ready for use as soon as the Ozark reaches Muskogee, about October 1st. Under date of May 1st, 1902, a first mortgage was made by the Shawnee Company to the St. Louis-Union Trust Co. as trustee for \$680,000. Securities are now being prepared for the extension of this line from Muskogee to Shawnee, a distance of 60 miles, and it is expected the line will be completed and in operation to Shawnee by June 1st, 1903, making the total distance from Fayetteville to Shawnee 201 miles. A bridge of the Ozark Co across the Arkansas River is nearing completion, the material (eight 150-ft. spans) being now on the ground.

The Muskogee & Western Railway has been acquired by the Ozark & Cherokee Central. It is not yet determined whether this road will be built, for the line as originally laid down occupied the field to some extent of the Shawnee line. There are no bonds or other securities outstanding on the Muskogee & Western.

The Ozark & Cherokee Central is in operation from Fayetteville to Tahlequah, I. T., 70 miles, and under construction from Tahlequah to Muskogee, 30 miles.—V. 74, p. 41.

Paris (Tex.) Transit Co.—Bonds.—See Paris (Tex.) Light & Power Co. under "Industrials" below.—V. 74, p. 478.

Peekskill (N. Y.) Lighting & R.B.—Bonds Offered.— Thompson, Tenney & Crawford are offering for sale \$175,000 of the \$500,000 first mortgage 5 per cent gold sinking fund bonds. For the year ended May 31, 1902, the gross earnings are reported as \$84,641 and net \$29,350, contrasting with \$71,-454 and \$23,417, respectively, in 1900-01.—V. 71, p. 913.

Philadelphia Co. of Pittsburg.—Official Statement.—On page 84 will be found an explanatory statement as to the nature of the company's business, together with the earnings of the subsidiary corporations—street railways, fuel gas and electric lighting and illuminating gas—also the combined results on the entire property for the last three calendar years and the first five months of 1902.—V. 74, p. 1253.

Philadelphia Rapid Transit Co.—Regularly Listed in Philadelphia.—The \$30,000,000 stock in \$50 shares (10 per cent paid) have been regularly listed on the Philadelphia Stock Exchange.—V. 75, p. 30.

Pittsfield (Mass.) Electric Ry.—See Hoosac Valley Street Ry. above.—V. 74, p. 1809.

Rhode Island Securities Co.—Stock Distribution.—See United Traction & Electric Co. below.

Strike Off.—See United Traction & Electric Co. below.—V. 74, p. 1356.

Richmond Fredericksburg & Potomac RR.—*To Be Double Tracked.*—This union road is to be double tracked for its entire length from the Potomac to Richmond, Va., a distance of 115 miles, and partly rebuilt to eliminate curves.—V. 74, p. 149.

St. Charles & St. Louis Bridge Co.—Mortgage, Etc.—The shareholders on June 30 voted to increase the capital stock from \$200,000 to \$400,000 and to authorize the making of a mortgage to secure \$400,000 of 30-year 5 per cent \$1,000 bonds. Among the leading stockholders are J. B. C. Lucas and J. D. Houseman, the President and the Secretary and Manager, respectively, of the St. Louis St. Charles & Western RR., which will use the bridge. See that company below.

St. Lawrence & Adirondack Ry.—Status.—Touching the rumors of an impending sale of this road to the New York Central, Dr. W. Seward Webb, who, it seems, has recovered the controlling interest in the stock which he sold to Arthur L. Meyer (See Dominion Securities Co. V.74, p. 987), is quoted as saying, "the property is not for sale."—V. 74, p. 989.

St. Louis Kansas City & Colorado RR.—New President.— William B. Leeds, President of the Chicago Rock Island & Pacific RR., has been elected President. The directors are as follows, the six last-named being the new members representing the Rock Island:

D. R. Francis, Chairman; George L. Sands, John Scullin, William B. Leeds, O. H. Warren, Robert Mather, H. S. Cable, W. F. Evans and M. A. Low.

W. P. Kennett, Secretary and Treasurer.-V. 74, p. 938.

St. Louis St. Charles & Western (Electric) [BR.-New Enterprise.—This property was completed from the City of St. Louis to the Missouri River, opposite St. Charles, last fall, and is now operating between these two points, a distance of 16 miles; total track 1934 miles. As soon as the new power station and equipments are completed, which will be some time this month, through cars will be run from 4th St., St. Louis, over the lines of the St. Louis Transit Co. The railroad now connects with St. Charles by means of a ferry which is operated by the railroad company. A bridge is being constructed over the Missouri River at St. Charles, over which the railroad will be run into the centre of the city of St. Charles. The bridge is under contract to be completed within one year. (See St. Charles & St. Louis Bridge Within the last two months the gross earnings Co. above.) of the road have been averaging \$250 per day, the operating expenses being about 50 p. c. of the gross receipts. The company's authorized capital stock is \$600,000 in \$100 shares, all outstanding. A mortgage has been made to the Colonial Trust Co. of St. Louis, as trustee, to secure \$600,000 of 5 p. c. gold bonds, dated 1902 and due 1932, but sub-ject to call in 1906 at 108; interest payable in March and

September. Of these bonds \$500,000 are outstanding and \$100.000 are reserved for improvements. It is not expected to offer the bonds for sale until next fall or winter, when it is believed a very attractive earnings sheet can be shown.— V. 74, p. 681.

St. Louis & Suburban Street Ry,—New Mortgage—New Officers—Voting Trust.—On July 1 Samuel M. Kennard was elected President, and the following new board of directors was chosen, only Mr. Kennard and C. Marquard Forster of the old beard being included:

S. M. Kennard; Julius S. Walsh, Vice-President; Breckenridge Jones, O. Marquard Forster. Benjamin Altheimer, Charles Huttig, William F. Nolker and William D. Orthwein.

A three-year voting trust was also established, composed of the first five directors above named, and controlling about 80 per cent of the stock. All the stockholders will be asked to come in.

A new bond issue of \$7,500,000 was authorized, of which several million will be reserved to retire at or before maturity the existing bonds of the system, and about \$1,500,000 it is said will be used for improvements, additions, etc. Contracts for material to be used in the betterments have already been let. About 30 miles of extensions have been proposed, and to some extent are probably now to be built.

The company, it is stated, will absorb by consolidation its various subsidiary companies, viz.: Brentwood Clayton & St. Louis RR., 12½ miles; St. Louis & Kirkwood RR., 10½ miles; St. Louis & Meramec River RR., 14 miles.

Secretary and Treasurer Thomas C. Kimber was re-elected, -V. 74, p. 1356.

St. Louis Southwestern Ry.—Application to List.—The New York Stock Exchange has been requested to list \$12,-054.000 first consolidated mortgage 4 per cent bonds of 1932. —V. 74, p. 1356.

Sanford & St. Petersburg Ry.—Coupons Paid.—The interest due July 1 was paid at maturity, the Atlantic Coast Line RR Co. having accepted the guaranty of the bonds.— V. 74, p. 1039.

Savannah Electric Co.—Listed in Boston.—The Boston Stock Exchange has listed \$1,500,000 bonds of 1952, \$1,000,000 preferred stock and \$2,500,000 common stock.—V. 74, p. 1039.

Shawnee Oklahoma & Missouri Coal & Ry.—Mortgage.— See Ozark & Cherokee Central Ry. above.

Southern Illinois & Missouri Bridge Co.—Bonds.—The company has made a mortgage to the Mercantile Trust Co. of this city and R. R. Hutchinson of St. Louis as trustees, to secure \$3,000,000 of 4 per cent \$1,000 gold bonds dated Nov. 1, 1901, and due Nov. 1, 1951; \$100,000 are outstanding.— V. 74, p. 938.

Southern Ry.—Called Bonds.—The Central Trust Co. will pay on Sept. 1 at par \$56,000 (56) equipment mortgage bonds of the Richmond & Danville RR.—V. 75, p. 31.

South & West RR.—Purchase—Mortgage.—The shareholders on June 25 approved the proposition to purchase the Ohio River & Charleston and to issue \$600,000 bonds to provide means for completing the line.—V. 74, p. 1091.

Staten Island Electric RR.—*Plan Operative.*—*Further Deposits till July 31.*—The plan of reorganization has been declared operative, but further deposits of securities will be received by the Guaranty Trust Co. until July 31 next, after which none will be accepted except upon terms to be fixed by the committee. See notice on page xi.—V. 74, p. 1253.

Terminal Railroad Association of St. Louis.—Conference Respecting Rock Island.—An informal conference of representatives of the constituent companies was held this week to consider the admission of the Chicago Rock Island & Pacific as a member of the Association. Press dispatches from St. Louis assert that the Rock Island will control the Wiggins Ferry Co., but that the Terminal Association will have the use of the property on a tollage basis.—V. 74, p. 934.

Ulster & Delaware RR.—*Listing.*—The company has applied to the New York Stock Exchange to list \$600,000 4 per cent refunding mortgage 50-year bonds of 1952 and \$1,900,000 capital stock.—V. 74, p. 42.

United Railroads of San Francisco.—Suit.—Zimmerman & Forshay have begun actions in the Supreme Court against various brokers who sold the bonds to them for delivery "when issued," but failed to make delivery. See V. 74, p. 1356.

United Traction & Electric Co., Providence.-Strike Off.

-The strike of the motormen and conductors was declared off by the Providence men on July 5, work being resumed on July 7 by those of the 400 or 500 strikers for whom there were vacancies. The Pawtucket strikers have also returned to work. The strike began early in May, when the company, being compelled to reduce the hours of its employes under the 10 hour labor law passed at the May session of the Legislature, refused to grant the demand of the men for the same pay as was received for the longer day. The State Supreme Court on June 25 decided that the 10-hour law is constitutional and that the company cannot legally contract for more than ten hours work. As a sult involving the constitutionality of the law is now pending in the United States Circuit Court, the company will await the decision of that court before making any change in its schedules. In the meantime any employe who wishes to work for eleven hours, as heretofore, for full pay, will be permitted to do so. Othere will receive wages at the reduced rate. Stock.-The 25 per cent in the stock of the Rhode Island Securities Co. will be distributed to the shareholders of the United Traction & Electric Co. Aug. 1 by the Union Trust Co. of Providence. See Rhode Island Co., V. 74, p. 1356.-V. 74, p. 1357.

Western Maryland RR.- Officers.-On Tuesday Winslow S. Pierce was elected President and F. S. Landstreet Vice-President and General Manager. George J. Gould and John W. Gates were elected directors to succeed George B. Baker

W. Gates were elected unrectors to succeed Goorge D. Daker
 and Leon Greenbaum. The board includes:
 W. S. Pierce, George J. Gould, John W. Gates, Henry B. Henson.
 Lawrence Greer, Edwin Gould, W. H. McIntyre of New York; F. S.
 Landstreet, S. Davies Warfield, John M. Hood, George R. Gaither
 Thomas J. Shryock and Charles W. Slagle.
 Later, it is stated, E. L. Fuller, Myron T. Herrick and

Alvin Krech, the managers of the Fuller syndicate, will be given places on the board. Complimentary resolutions were adopted regarding the retiring President, Gen. John M. Hood.-V. 75, p. 31.

Western Ohio (Electric) Ry. - Bonds-Status. - F. L. Fuller & Co. and M. J. Mandelbaum & Co. have purchased \$500,000 of the underwriting of the \$3,000,000 authorized bond issue. The "Cleveland Finance" says:

bond issue. The "Cleveland Finance" says: Previous to this sale, \$1,500,000 of bords had been sold, which has paid for the completion of the 47 miles of road now under operation from Lima through Wapakoneta and St. Marys to Celina and Minster. In addition to this, the private right of-way for the remaining 64¹g miles has been bought and paid for; on 32 miles of this all bridge abnt-ments have been erected and the pole line has been constructed and 18 miles of grading completed. The company since June 1 has been operating 47 miles of road; the earnings for the first 19 days of the month aggregate \$8,117, an average of \$427 per day. The Western Ohio forms a link in the trolley line which

next spring will establish through car service from Toledo to Cincinnati. 204 miles. The other roads in this service will be the Cincinnati Dayton & Toledo Traction Co., which, like the Western Ohio, is controlled by the Mandelbaum-Pomeroy syndicate, the plan, it is understood, being to consolidate the companies; the Dayton & Troy Electric Ry., owned by the Clegg-Winter Dayton syndicate and the Toledo Bowling Green & Southern owned by a Cincinnati syndicate. It is expected to carry passengers from Toledo to Cincinnati in eight hours, and to do a through freight business. Sleeping cars, buffet and parlor cars, it is said, will also be run on the line. The Mandelbaum-Pomeroy syndicate at present con-trols 140 out of the 204 miles between Cincinnati and Toledo. See each of the constituent companies in the STREET RAILWAY SUPPLEMENT.-V. 74, p. 831.

West Virginia Central & Plttsburg Ry.—*Earnings.*—The results for 9 months ending March 31, 1902, compared with corresponding 9 months in 1900-01 were as follows, including the coal department:

-Railroad -- Ooal, etc. Totat Gross. Net. Net. Net. Totat 9 mos.- \$ \$ \$ \$ \$ \$ \$ 1901-02..960,462 345,978 451,412 797,390 211,104 212,590 373,695 1900-01..881,459 371,678 558,113 929,792 216,111 323,575 390,105 -V. 74, p. 1253, 989.

INDUSTRIAL, GAS AND MISCELLANEOUS.

Alliance Realty Co.—First Dividend.—A dividend of 1½ p. c. has been declared, payable July 15 to stockholders of record on July 10, 1902.—V. 74, p. 381.

American Pneumatic Service Co.—Postponed.—To ac-commodate prospective bidders, the United States Post Office Department has postponed from July 12 to Aug. 14 the time for receiving proposals for installing pneumatic tube mail service in various cities. The decisions will probably be announced about Aug. 21.-V. 74, p. 1357.

Atlantic Match Co., Camden, N. J.—Receiver.—At Tren-ton, on July 7, Henry S. Holmes of Camden and E. J. Patter-son of Plainfield were appointed receivers of the Atlantic Match Co. upon application of Frank Tilford of New York, on the ground of insolvency. The company was incorporated in New Jersey on Aug. 13, 1900, with \$2,000,000 authorized capital stock and immediately made a mortgage to the Real capital stock, and immediately made a mortgage to the Real Estate Loan & Trust Co. of Camden, as trustee, to secure \$1.000,000 bonds, of which, it is understood, \$250,000 is ont-standing. The bill avers that the Atlantic Match Co. is losing money at the rate of \$7,000 per month and has a floating debt of at least \$180,000.-V. 71, p. 344.

Bay State Gas Co.—Receiver.—Judge Kirkpatrick in the United States Circuit Court at Trenton, N. J., on July 7 ap pointed George D. Hallock of Plainfield, N. J., receiver of the Bay State Gas Co., on application of Frank L. Day & Co. of New York, who hold \$160,000 of the Boston United Gas bonds, on which interest was defaulted July 1. The com pany has also defaulted on its sinking fund payments and has, it is claimed, in violation of its covenant, permitted the controlled companies to create a floating indebtsdness of about \$333,000. The four operating companies, it is further alleged, have not for two years earned or declared sufficient dividends to pay the interest on the bonds. The \$1,000,000 capital stock of the Bay State Gas Co. of New Jersey is held by the Bay State Gas Co. of Delaware. Majority Deposited.—A majority of both first and second series bonds having been deposited in accordance with the circulars dated June 20, 1902, the time for the deposit of bonds has been extended to July 19, 1902. after which date no deposits will be received except on such terms as the committee may prescribe. The receipts for the deposited bonds have been listed on the Boston Stock Exchange, and the bonds themselves have been stricken from the list.

New Directors for Operating Companies.-Judge Knowlton in the Supreme Court at Boston on June 1, upon application of the Mercantile Trust Co. as mortgage trustee, relieved the four local companies from their agreement of Jan. 18, 1898, not to elect officers until the determination of the Manning suit. The following temporary directors have accordingly been elected for the Boston, South Boston, Roxbury and Bay State gas companies of Massachusetts :

J. L. Richards, formerly Treasurer of Newton & Boston Ry. Co.; H. B. Chapin, Traffic Manager of Boston & Albany Ry.; R. Elmer Town-send, lawyer; Chas. Gaston Smith, lawyer; Neal Rantonl, of F. S. Mosely & Co.; S. Reed Anthony, of Tucker, Anthony & Co.; W. S. Spaulding, of Nash, Spaulding & Co.-V. 75, p. 31.

Buffalo & Susquehanna Iron Co.-Mortgage.-The company has filed its mortgage for \$3,000,000 to the New York Security & Trust Co. as trustee.-See V. 74, p. 1092, 1040

Cleveland & Sandusky Brewing Co.-Dividend.-The directors have declared a 6 per cent dividend on the preferred stock, payable quarterly in instalments of 1½ per cent.-V. 74, p. 939.

Commercial Cable Co.—Operation Over Pennylvania Lines.—The company's controlled corporation, the Postal Telegraph Cable Co., began on July 7 operating under its contract with the Pennsylvania RR. Co., having installed its instruments for the transmission of messages over the railroad company's wires at Jersey City, Philadelphia, Baltimore, Washington, Harrisburg and Pittsburg. The Western Union Telegraph Co. has been notified to remove its property from the railroad company's premises not later than Sept. 30. President Cassatt of the Pennsylvania says he does not expect any trouble with the latter company.—V. 74, p. 1357.

Corn Products Co.-Overdue Interest Paid.-The coupons of the United States Sugar Refinery first mortgage 6s due June 1 are being paid by the International Trust Co. of Boston.-V. 74, p. 1310.

Cuyahoga Telephone Co., Cleveland, O.-Interest Pay-ment.-The coupons due Jan. 1 on the company's bonds were paid at the Dime Bank in Cleveland on June 27. If the sale of stock in the United States Telephone Co. is consummated, it is expected that all of the overdue interest will be met .-V. 74, p. 939.

Distilling Co. of America.—Final Order Respecting Spirits Distributing Co.—The leading minority stockholders having accepted the offer made on behalf of the Distilling Company to buy the assets of the Spirits Distributing Co. for \$1,243,-538 80, and the remaining forty stockholders of that company having been notified and having raised no objection, Vice-Chancellor Emery on July 8 confirmed the sale. The liabilities of the Spirits Company were approximated at \$209,910 03, including \$50,000 for counsel fees, etc., deducting which there remains \$1,033,628 77, or an equivalent of \$82.69 per share for the preferred stock of the Spirits Company.

Nathan Bijur, one of the minority stockholders of the Spirits Distributing Co., who instituted the litigation, pub-lished in the "Wall Street Journal" of July 10 a detailed statement regarding the case. He ends by saying: "Our claim for the payment of our dividends by the Standard Co. (as guarantor of the dividends on the Distributing Com-pany's stock) for the next forty-four years is reserved by us, and suit has been brought by us in this State for the first instalment unpaid."

Suit Won.-See Hammond Distilling Co. below.

Reorganization.-It was reported this week that holders of the 6 p. c. bonds of the American Spirits Manufacturing Co. were dissatisfied with the plan and would attempt to block it. This brought ont the statement that the exchange of the bonds is optional, and that if not accepted the status of the bonds would remain unchanged. The time for deposits of these bonds and of the stocks and bonds of the Distilling Co. of America will expire July 15, 1902. See advertisement on page xi.-V. 75, p. 32.

Daluth General Electric Co.-Bonds Offered.-The St. Paul Title & Trust Co. is offering a block of this company's first mortgage bonds, full particulars regarding which were given in the CHRONICLE of June 28, page 1358.

Eastmans, Limited.—Payment of Overdue Dividends.— Another dividend of 5 per cent is announced, discharging the arrears to June 30, 1901, on the preferred shares.—V. 74, p. 832.

Edison Electric Co. of Los Angeles .-- N. W. Harris & Co. and a San Francisco banking house have closed contracts for the purchase of a block of the proposed new issue of \$10,000,000 bonds. A steam plant and a new water power plant of 20,000 horse-power capacity are said to be proposed.-V. 74, p. 680.

Fowler Brothers (Packing).-Sale.-See Swift & Co. below.-V. 74, p. 1358.

Fort Dodge (Ia.) Light & Power Co.—Change in Control. -Healy Bros. & Kelleher, a legal firm of Fort Dodge, has purchased \$67,000 of the \$125,000 of the capital stock. plant includes a gas and electric light plant and three miles of street railway.

General Building & Construction Co.—New Enterprise.— This company has been organized under New York laws with \$2,500,000 proposed capital stock and power to carry on building or other operations in any part of the United States. The directors are:

John Larkin (President); William J. Merritt (Vice-President); Henry B. Cocheu (Secretary); William R. Randall (Treasurer); William F. Havemeyer, F. W. La Frenz and B. P. Cheney, Henry Selig-man, S. H. Chisholm, William A. Garrigues, Alex. S. Porter, F. H. Ecker, Louis Dohme, Col. Charles B. Ropes, Charles A. Cowen, Henry R. Hout Henry R. Hoyt.

General Electric Co.-Denial.-See Jenney Electric Light & Power Co. below.-V. 74, p. 1254.

Hammond Distilling Co.-Decision.-Judge Lacombe in the United States Circuit Court has decided that George L. Woolsey must abide by the contract made by him in 1898 in connection with the sale of his interest in the Inter-State Distilling Co. to the Standard Distilling & Distributing Co., and must refrain from engaging in the distilling business within 1,200 miles of Chicago. The Manhattan Trust Co. is also en-joined from delivering to him the stock which he received from the Standard Company and pledged to secure his contract. The Hammond Company, however, it is understood, is permitted to go on with its enterprise without Mr. Woolsey.—V. 74, p. 154.

Harrisburg (III.) Water, Light & Power Co.-Bonds Of-fered.-William C. Thompson Co. of Chicago are offering for sale \$60,000 first mortgage 5 per cent gold bonds, dated Oct. 1, 1901; interest payable semi-annually, April 1 and Oct. 1, by mortgage trustee, the American Trust & Savings Bank of Chicago. Principal due in semi-annual instalments (\$500, increasing gradually to \$3,000) from Oct. 1, 1902, to 1921, both inclusive. Capital stock, \$60,000. C. W. Wiedemann of Harrisburg, Ill., is President.—V. 75, p. 32.

Havana Commercial Co.—Two-thirds of Stock Assents.-The Havana Tobacco Co., has acquired more than twothirds of each class of capital stock] in pursuance of a notice dated May 27, 1902. The remaining shares will be received at the Guaranty Trust on or before July 21 on the same terms of exchange, viz.:

Sixty shares of preferred and 40 shares of common stock of the Havana Tobacco Co. for each 100 shares of pref. stock of the Havana Commercial Co. and 40 shares of common stock of the Havana Tobacco Co. for each 100 shares of common stock of the Havana Com-mercial Co.-V. 74, p. 1142.

Huntsville (Ala.) Gas Light Company.-Sold.-At the receiver's sale on June 26 the property was bid in by R. C. Brickell and associates for \$43,000 after spirited bidding.-V. 73, p. 1210.

Jamestown Electric Light & Power Co. (N. Y.)-Re-cewer.-Walter E. Griggs of Jamestown has been appointed receiver in the suit of the Atlantic Trust Co. to foreclose the \$16,000 mortgage. Capital stock is \$50,000. The city established a lighting plant some years ago

Jenney Electric Light & Power Co.-Purchase Denied.-Replying to our inquiry as to the reported purchase of this company, Secretary M. F. Westover, of the General Electric Co., says:

This seems to be one of the canards which the Street is accustomed to amuse itself with. We have never heard of the purchase.

Kansas City Cotton Mills Co.-New Enterprise.-This company is being formed with an authorized capital stock of \$10,000,000. in \$100 shares, to construct within 15 miles of Kansas City a mill of 500,000 spindles, 12,000 looms and machinery for making plain sheetings, from 2½ yard drills up to print cloths and four and five-yard sheetings. To raise the necessary funds it is proposed to sell the \$10,000,000 stock at par, realizing \$10,000,000, and give with each \$1,000 an income bond of \$500, running for five, ten or fifteen years, with interest at 5 per cent per annum, and redeemable at option of company after three years at 102 per cent, the total issue thereof being \$5,000,000. The capacity of the mill, the prospectus says, will be sufficient to consume in a year 170,-000 bales of cotton and to produce 75,000,000 pounds of finished cloth. The following have agreed to become sub scribers and directors, viz. :

Edward F. Swinney, Kansas City; John R. Mulvane, Top-ka, Kansas; W. S. Woods, Kansas City; Edward Wilder, Topeka, Kansas; Edward L. Scarritt, Kansas City; A. A. Robinson, City of Mexico; Henry C. Flower, Kansas City; Joab Mulvane, Topeka, Kansas; W. B. Smith Whaley, Boston, Mass.; Witten McDonald, Kansas City, and four additional representatives of the Eastern stockholders.

It is considered best to receive subscriptions at present for only \$5,000,000, and to erect the building and provide the De machinery in instalments. W. B. Smith Whaley, President Pu Hu of the Olympia and the Granby cotton mills of Columbia, S. C., has agreed to become President of the company, and give his personal attention to the construction and operation. Mr. Whaley, his New England associates and Western capitalists are reported to have subscribed for \$3,100,000 of the stock on the terms above named. Subscribers agree not to sell at less than \$75 per share until after July 1, 1904; sub scriptions will not be binding until the \$5,000,000 has been subscribed.

Both propositions are made noon condition that the firm shall have six months from the date of deposit of three-quarters of the stock to organize the new company, acquire said properties, and issue new stock, unless the time is extended by consent of the parties hereto; but the parties of the first part may terminate this agreement at any time if for any reason the objects herein contemplated cannot be accomplished.—V. 75, p. 33.

Manhattan Transit Co.-Merger.-The certificate of merger of the General Carriage Co. with this company has been filed with the Secretary of State. -V. 75, p. 33.

Maritime Canal Co.-Canal Bill. -See Isthmian Canal above.-V. 74, p. 1359.

New Haven (Conn.) Gas Light Co.—Debenture Bonds.— The company's shareholders are to have the right to subscribe, to the extent of 60 per cent of their holdings, to \$750,-000 four per cent debentures, convertible into stock on Oct. 1, 1907. Subscriptions will be payable one-half Oct. 1, 1902, and the remainder April 1, 1903. The proceeds will be used for extensions and additions. The capital stock, \$1,250,000, receives dividends at the rate of 10 p. c. per annum. Bonds to the amount of \$1,250,000 were authorized in 1901, but not issued.-V. 73, p. 141.

Omaha Gas Co.-Bonds Offered.-Drexel & Co., Ervin & Co and Edward B. Smith & Co. are offering at 101 and interest \$1,200,000 of the company's five per cent first consolidated mortage \$1,000 gold bonds, dated Aug. 13, 1897, maturing Aug. 13, 1917. principal and interest (Feb. and Aug. 1st) payable at the office of the trustee, the Guaranty Trust Co. of New York. Authorized issue, \$2,500,000; bonds outstanding, \$1,787,000; reserved to retire the only prior lien, \$300,-000; reserved for extensions and betterments, \$413,000. Thomas Dolan, President of the United Gas Improvement Co. of Philadelphia says under date of June 17:

Co. of Philadelphia says under date of June 17: The United Gas Improvement Co. owns a controlling interest in the stock of the Omaha Gas Co., which operates under its superintend-ence. The latter in Aug., 1897, encceeded the Omaha Gas Manufact-ning Co.; it serves the citles of Omaha and South Omaha, combined population (1900) 128,556. Gas plant, built in 1898, has a capacity largely in excess of present requirements. The sales of gas approxi-mate 300.000,000 cubic feet, having shown an annual increase of over 12 p. c. for the last 5 years. The company operates under an equita-ble contract with the city of Omaha, fixing the price of gas on a slid-ing scale. The net carnings averaged \$168,467 for the last four years, and for the year 1901 amounted to \$185,666. The fixed charges amount to \$107,350. [The capital stock is \$3.750.000 in \$100 shares, of which

The capital stock is \$3,750,000 in \$100 shares, of which \$1,250,000 preferred.-ED.]

Omaha (Neb.) Loan & Trust Co.-Default, Etc -Default having been made in the payment of the interest upon debenture bonds of 1899, Series I and U, a meeting of the bondholders was to be held July 9 at the American Loan & Trust Co., Boston, for the purpose of taking action to protect the interests of the bondholders.

Panama Canal Co.—Canal Bill.—See Isthmian Canal above. - V. 74, p. 1359.

Pennsylvania Furnace Co.-Action Postponed.-Action on the various propositions which were to come before the stockholders (V. 74, p. 580) has been postponed until October 14th, the date of the annual meeting. See V. 74, p. 580, 634.

Pittsburg Brewing Co.-Sinking Fund.-A sinking fund to which \$50,000 will be paid each year from earnings has been established for the redemption at maturity of the \$6,-319,000 bonds. The first semi-annual payment to this fund was made July 1, 1902.-V. 73, p. 1158.

Planters Compress Co.-Directors of New Company.-The following directors are announced :

Arthur R. Marsh, President; Gen. Stephen M. Weld. Chairman of Board of Directors; T. Jefferson Coolidge Jr., Vice-President. Charles F. Ayer, Samuel Carr, Stewart H. Chishoim, Amos T. French, Francis R. Hart, Charles Hayden, Judge Henry E. Howland, Walter Hunneweli, James F. O'Shaughnessey, James A. Parker, Felix Racke-mann, Edward D. Toland. F. M. Wakefield is Treasurer and F. S. Goodwin Secretary and Counsel.-V. 74, p. 1200.

Railway Steel-Spring Co.-Additional Stock on Unlisted. -The \$3,500,000 each of new common and new preferred stock issued in the merger with the Steel-Tired Wheel Co. has been added to the amount in the unlisted department of the New York Stock Exchange, increasing those amounts to \$13,500,000 of each class. The plants of the Steel-Tired Wheel acquired are as follows. Co.

J. acquired are as ronows.	
Annual	Annual
Capacity.	Capacity.
Acres. Tons.	Acres. Tons.
pew (N. Y.) Works.2110 4,500	Soranton (Pa.) Works. 4 3,000
liman (III) Works.245 6,500	Chicago (III.) Show
adson (N.Y.) Works. 1910 5,500	Denver (Col.) Works 2110 2,750
Also the manufacturing rights for f	used steel-tired wheels of the Lehigh

Locomobile Company of America.-Dividend.-The company has declared a 3½ per cent semi annual dividend on its preferred stock. The company, which has works at Bridgeport, Conn., manufactures steam automobiles under the Stanley patents.-V. 74, p. 155.

Lone Star & Crescent Oll Co.—Alternative.—As an alter-native to the proposition mentioned last week, Isidore Newman & Sons offer in cash \$1 a share (par) for the old preferred and 75 cents a share for the old common. Assenting stock must be deposited with the Citizens' Bank of New Orleans.

Also the manufacturing rights for fused steel-fired wheels of the Lengu Car, Wheel & Axle Works, Catasauqua, Pa., and real estate and buildings at cleveland, O., operated by other parties under lease. All the plants named are being steadily operated. No incumbrances of any kind. Net earnings of Steel-Tired Wheel Co. past three years: 1-80, \$421,713; 1900, \$415,922; 1901, \$60,-909. See also V. 74, p. 1041.-V. 74, p. 1200.

Risdon Iron (& Locomotive) Works, San Francisco, Cal. -Bonds Offered.-The Bank of California is offering at 105 and interest the company's \$600,000 of 5 per cent 15-year first mortgage bonds, redeemable at the option of the company at \$105 after 5 years, and at \$102 50 after 10 years. The company, it is stated, employs 1,10) men, and has no other indebtedness. Extensions are proposed in the shipbuilding de-partment.-V. 74, p. 1143.

St. Lawrence Power Co.-Sold.-At the foreclosure sale on July 3 the property was bought in for \$500,000 by Mark T. Cox, of Robert Winthrop & Co. representing the reorganiza-tion committee. See plan in V. 74, p. 683.-V. 74, p. 1143.

Southern States Lumber Co.-Called Bonds.-Fourteen first mortgage bonds, Nos. 16, 51, 66, 89, 328, 335, 398, 410, 433, 487, 489, 494, 502, 505, have been drawn, and are being paid at \$1,025 with accrued interest to July 1 at the Knickerbocker Trust Co.-V. 73, p. 1318.

South Porto Rico Sugar Co.-Increase of Stock.-This company, incorporated in New Jersey in November, 1900, has increased its authorized capital stock to \$5,000,000, half of this to be S per cent cumulative preferred. The company owns about 4,000 acres of sugar lands at Guarica, on the south coast of Porto Rico, and is erecting thereon a sugar factory capable of annually manufacturing about 16,000 tons of raw sugar. The plant is expected to be in full working operation by December. William Schall Jr., of Muller, Schall & Co., bankers, 44 Wall St., is the President; E. Pavenstedt, of the same banking concern, is Treasurer, and Frank A. Dillingham is Secretary. It is proposed to issue \$750,000 bonds, but the details have not yet been de-termined. The stock is in \$100 shares.

Standard Butterine Co., Washington, D. C.-Receiver.-Judge Hagner, in the Equity Court at Washington, D. C., on June 26, appointed receivers for this company. The company is reported to have outstanding \$500,000 preferred stock and \$500,000 common stock, \$180,000 notes and \$30,000 bonds.-V. 71, p. 713.

Stanley Electric Manufacturing Co., Pittsfield, Mass.— Increase of Stock — The stock has been increased from \$3,000,-000 to \$4,000,000. In accordance with the laws of New Jersey, the new shares will be offered to the stockholders. The di-rectors bave not as yet decided regarding the issuance of the new stock.—V. 74, p. 1256.

Storage Power .Co.-Delivery of Certificates.-The Stan. dard Trust Co. is issuing the stock certificates in exchange for its receipts.-V. 74, p. 1143.

Susquehanna Iron & Steel Co.-Opposition.-Stockholders dissatisfied with the present management are requested to send proxies for the forthcoming annual meeting to J. C. Bradley, 20 South Third Street, Philadelphia.

President Charles A. Porter says :

The majority of the stockholders have supported the present officers in the past, and I presnme that they will continue to do so. Having ended the strike of our puddlers several weeks ago by agreeing to pay 25 cents per day more in wages, we are now running at full capacity. We are going steadily on with the erection of our tube mill, which we expect to put in operation next December.—V. 74, p. 535.

Swift & Co.—Purchase.—A press dispatch from Liverpool states that at meetings of the shareholders of Fowler Brothers and Fowler, Son & Co., held there yesterday, it was voted to sell out to Swift & Co. on the following basis :

Ordinary shareholders of, Fowler Brothers to receive a profit of be-tween $\pounds 4$ and $\pounds 5$ per share and the preference and debenture holders to get par. Ordinary shareholders of Fowler, Son & Co. to receive $\pounds 4$ for each $\pounds 7$ paid np on $\pounds 10$ shares; the preference holders to get par, plus seven years of unpaid dividends, making $\pounds 14$ for each $\pounds 10$ share; holders of debenture bonds to get par, plus 2 per cent.

See also V. 74, p. 1359.

Trenton Potteries Co.—Payment of Overdue Dividends-New Certificates.-The preferred stockholders are requested to send their certificates to the Trust Co. of the Republic, No. 71 William St., New York City, for exchange per plan in V. 74, p. 1256, into temporary negotiable receipts, which when the new securities are ready will be exchanged per \$100 stock deposited for \$100 in new non-cumulative 8 per cent pre-ferred stock and \$44 in 4 per cent funding certificates,--V. 75, p. 33.

United Electric Light & Power Co. of Baltimore.-New President.-Gen. John M. Hood has been elected President and a director to succeed George R. Webb, resigned. Mr. Webb is also President of the United Railways and Electric Co.; Gen. Hood was recently President of the Western Maryland RR.-V. 75, p. 38.

United Fruit Co.—Proposed Contracts.— President Preston will sail for Europe next week to close negotiations with Elder, Dempster & Co., who are operating a heavily subsidized line of steamers between Jamaica and England, as to a contract for regular shipments of the Fruit Co.'s bananas and oranges to Great Britain. If the contract is executed as planned, it is expected to afford a market for a large amount of fruit.-V. 74, p. 1256.

United Gas & Electric Co. of San Jose, Cal.—Mortgage Filed.-The company has filed its \$2,000,000 mortgage to the Mercantile Trust Co. of San Francisco, as trustee. – V. 75, p. 33.

United Gas Improvement Co.-Bonds Paid Off.-The ,000,000 6 per cent oonds ayment on July 1 of 10 011 the company from all bonded indebtedness. -V. 74, p. 1359.

United Shoe Machinery Co.-Increased Business.-At the recent annual meeting President Winslow said in substance:

During the year close business relations have been entered into with a number of new companies, including several in the eyelet busi-ness and in other lines of machinery or supplies used by shoe manu-facturers. The matter of the establishment of a new factory plant has received careful attention, and it is expected a decision in regard to the location will be reached at an early date. This factory is to combine the existing plants in Boston, South Boston, Winchester and Our general machinery department has more than doubled Beverly. during the past year

during the past year The foreign business has shown a gratifying increase, and our ma-chinery is now found in almost every country in the world. The large plant at Leicester, England, has been kept busy throughout the year. In France the growth of the business necesitates the building of a new factory. In Germany, in spite of the great financial depression, our business has shown a satisfactory increase and our German com-pany le considering the advisability of erecting a new factory to meet its requirements. The Canadian business has been excellent and the Canadian company has already outgrown its facilities and has pur-chased lands and made plans for the erection of a new plant. chased lands and made plans for the erection of a new plant.

The total number of machines out under lease in this country on March 1, 1902, is reported as 28,443, an increase for the year of 2,838.-V. 74, p. 1312.

United States Mortgage & Trust Co.-Dividend Increased. -The comi-annual dividend paid June 30 was increased to 7 per cent, 6 per cent having been the previous semi-annual payment.-V. 74, p. 430.

United States Steel Corporation.—Large Stockholders.— Of the eleven million shares of stock of the Corporation, 7,-Of the eleven million shares of stock of the Corporation, 7,-716,828 were voted at the meeting called to act on the bond plan; of this total only 12,540 shares were voted in the nega-tive. The assenting shares were owned by 14,176 stockhold-ers, representing 3,745,731 shares of preferred stock and 3,-958,557 shares of common stock. A certified list of these holders was filed at the office of the Secretary of State at Trenton, N. J.; from it the "New York Evening Post" obtained the following table of the largest assenting share-holders their stock comprising something over 1,600,000 holders, their stock comprising something over 1,600,000 preferred shares and 1,400,000 common, viz.:

Maatschappij tot Beheer van	het Ac	iministratiekantoor van	

laatschappij tot Beheer van het Administratiekantoor van Amerikaansche Fondsen, opgerigt door Broes & Gosman, Ten Have & Van Essen en Jarman & Zoonen te Amsterdam......

1,550 128,180 The London and the Amsterdam houses at the end of the list co-operated in floating the shares, but as in the case of the other banking or brokerage houses named, it is not clear to what extent the shares are absolutely controlled by them or how far they are handled for account of customers who are the actual owners. Bertram Cutler is a clerk in one of the offices of John D. Rockefeller, and his name is therefore believed to be used to cover the Rockefeller and Standard Oil interests.

Litigation.-Vice Chancellor Emery at Trenton, N. J., on July 7, on application of William H. Curtiss and others, granted a temporary order returnable July 15 restraining the company from proceeding with the bond conversion plan on the ground that the officers and directors, who are made defendants, were contriving thereby to profit at the expense of the corporation. The names of members of a well-known house connected with the New York Stock Exchange ap-peared among the plaintiffs, but it is announced were used withous authority and will be withdrawn. Russell Sage, acting under a misapprehension, was made a party to the suit be too will withdraw. A decision in the Berger suit suit; he, too. will withdraw. A decision in the Berger suit is said to be likely before the end of the month.-V. 75, p. 28.

United States Telephone Co.—Interest Payment.—The interest due Jan. 1 on the company's bonds was paid at the office of the Cleveland Trust Co. in Cleveland on June 27.— V. 74, p. 1313.

Virginia-Carolina Chemical Co.—Investments in German Syndicate.-The company confirms the report that it has made large investments in the German potash syndicate, to ensure a supply of raw material. Whether these investments aggregate about \$5,000,000, as has been reported, cannot be ascertained.

The "Engineering and Mining Journal" recently said:

Last year the imports of the potash salts at Atlantic ports alone amounted to 359,260 long tons. The value of this product is enoramounted to 3.39,260 long tone. The value of this product is enor-mous, and as Germany is the only place where it is produced, the Ger-man Kati syndicate has the monopoly and fixes prices accordingly. With the growth of the fertilizer industry in the United States the consumption of potash salts has also increased, and as the Virginia-Carolina and the American Agricultural Chemical companies are the largest buyers, it was but natural that they should desire more favor-able terms. In this the syndicate did not at first acquiesce, but when the Americans began to buy up or option independent potash proper-ties, the situation changed. Now it is understood that the Virginia-Carolina Chemical Co. at least will receive its supply of potash salts at lower prices, and to bind the agreement the properties which it took up will join the syndicate. It is not unlikely that a similar agreement will be made with the American Agricultural Chemical Co.

Annual Report.-See page 75.-V. 74, p. 1095.

Wankesha (Wis.) Water Co.—Sold.—The property was bid in at the receiver's sale on June 26 for \$47,750. The ontstanding debts are stated as \$70,000.-V. 74, p. 482.

White Knob Copper Co.-Operations Suspended.-The company has temporarily suspended operations, owing, it is stated, to labor troubles. It is denied that the enterprise has been abandoned.—V. 74, p. 271.

Reports and **Documents**.

INTERNATIONAL STEAM PUMP COMPANY.

THIRD ANNUAL REPORT-FOR THE YEAR ENDED MARCH 31, 1902.

GENERAL OFFICES, 114. 116, 118 LIBERTY STREET, NEW YORK, N. Y.

To the Steckholders of the International Steam Pump Co.:

The Directors take pleasure in presenting herewith their Third Annual Report of the operations of the Company and of the constituent companies controlled by it for the year ending March 31, 1902.

OPERATIONS.

The manufacturing plants of the Company have been taxed to their utmost to meet the increased demand.

The orders on hand at the present time are largely in ex cess of the capacity of the works. During the year just closed the orders taken have been over 41 per cent in excess of the orders taken during the preceding year. The unfilled orders at the end of the present fiscal year amount to \$5,-750,000, which is \$3,500,000 in excess of the unfilled orders on March 31, 1901.

INCREASED FACILIFIES.

It has been found necessary to substantially enlarge the plants. Additions have been made to some of the shops and the erection of extensive new works has been begun at Harrison, N. J., for the Worthington Company, which will largely increase the present capacity of the Worthington plant, and when completed will employ from 3,000 to 4.000 mechanics.

It is intended that the new works shall be the largest and best equipped pump manufacturing plant in the world.

There has been purchased during the past year the Clayton Air Compressor Works, which has proven an important acquisition to the properties of the company. The out-standing 40 per cent of stock of the Holly Company, except a small number of shares, has also been acquired in the process of reorganizing the affairs of that company.

MAINTENANCE OF PLANTS.

Besides the new additions to the existing plants, large expenditures have been found necessary to increase the efficiency of the tools and machinery.

By reference to the balance sheet it will be seen that there has also been charged against the profits of the Company for the past year for depreciation on the plant, tools and machinery the sum of \$237,848 92.

PROFITS.

year, amounting to..... 776,050 00

out of the trading profits of the year applicable to dividends on the common stock in addition to the surplus of \$1,493,468 68 from previons years, so that there is now in hand a total accumulated surplus applicable to dividends of \$2,227,904 94, besides which there is \$1,211,462 33 of surplus profits upon the books of the constituent companies.

On May 20, 1901, the International Association of Machinists inaugurated a strike which practically shut down the principal shops of the Company for upwards of three months. Having regard to the serious effect of this strike upon the past year's profits of the Company, the result is regarded as highly satisfactory.

Accompanying is the report of the Treasurer, incorporat-ing the accounts of the Company and the certificate of Messrs. Touch, Niven & Co., Chartered Accountants JOHN W. DUNN

President.

TREASURER'S REPORT, YEAR 1901-02.

NEW YORK, June 27, 1902.

To the President and Directors of the International Steam Pump Company,

SIR :- There are submitted here with Consolidated Abstract

balance sheet, are eliminated, so as to show the net assets on the one hand and the net capital in hands of the public on the other hand.

The most important change in the accounts during the year has been in connection with the closer affiliation of the Holly Manufacturing Company and the inclusion of its affairs in the Consolidated Accounts for the first time.

Reference is made to the accounts for details, but I beg to draw your attention especially to the following matters:

1ST. FIXED ASSETS AND INVESTMENTS.

The additions during the period have embraced the following:

and additions and improvements to build	
ings, machinery, plants and fixtures, etc.,	
including the expenditure for the year on	
account of small tools, patterns and draw-	
ings, and for modernizing and replace-	
ment of machine tools, etc., and for ac-	
quisition of the properties of the Clayton	
Åtr Compressor Works \$731,614 91	
From which there has been deducted on	
account of depreciation	
	493,765 99
Appreciation of investment in the common stock of	
Blake & Knowles Steam Pump Works, Ltd., due to	
the operation of the sinking fund and redemption of	
debentures of that company, for the two years ended	
31st March, 1902.	138,188 00
CAGU MADICILI LOGILIZZZZZZZZZZZZZZZZZZZZZZZZZZZZZZZZZZ	1001200 00

\$1,228,948 44

The charge for depreciation has been fixed by the Board of Directors, and is considered ample to cover the requirements.

2D. CURRENT ASSETS.

Under this head are included, among other items:	
Inventories of finished work and work in progress \$2,473,508 12 Materials, supplies, etc	
	-
Accounts and bills receivable, etc	2
Cash in banks and on hand	ĩ

\$6,634,490 30

The inventories have been valued under your direction, as nearly as can be estimated, at cost price. No profit has been added for work in progress.

Accounts Receivable are stated after deduction of all Bad Accounts, and after making due provision for possible losses in connection with such as are still retained upon the books, but which are considerd to be doubtful.

3D. CAPITAL LIABILITIES.

.\$23,779,600 00

Blake Manufacturing Company)..... 3,500,000 00

\$27,279,600 00

As an offset against the latter figure, however, the International Steam Pump Company continue to hold the whole Ordinary Stock (20,000 shares) of the Blake & Knowles St-am Pump Works. Limited. The debenture issue of the English Corporation. which is directly represented by the mortgage of \$1,500,000 included in the above liabilities, had at 31st March, 1902, been reduced by drawings from £312,-000. the original amount, to £202,800, or about \$983,580. With a few exceptions, which have been provided for, all drawn bonds have been actually redeemed. The Annual Drawing made since the expiration of the fiscal year will further reduce the number outstanding by £14,500.

4TH. SURPLUS.

The Balance of Undivided Profits as shown in the Second Annual Report was..... \$1,962,350 64 21,802 04 ond Annual Report was..... Add Interest recovered applicable to year 1900-01.....

\$1.984.152 68

Balance Sheet as at 31st March last, and relative Profit and Loss Account for the year ended that date, of the International Steam Pump Company and its associated Companies, Henry R. Worthington, The George F Blake Manufacturing Company, The Worthington Pumping Engine Company and the Holly Manufacturing Company. The books and ac-counts of the various Companies have been examined and audited by Messrs. Touch, Niven & Company, Chartered Accountants, whose certificate is appended.

The form of the Balance Sheet now presented differs in two particulars from that presented in the previous year, viz.:

1. It is now presented in columnar form in order to show the details of the items which are applicable to each of the associated Companies.

2. In the consolidation of the figures in the last column of the balance sheet, the amounts of stocks, etc., of asso i-ated Companies held by other companies in the group, and which would accordingly appear upon both sides of the

Surplus: International Steam Pump Co \$490,500 00 Henry R. Worthington 184 00 490,684 00
Henry R. Worthington 184 00
Balance of last year's Surplus
ADD:
Not profits from the combined operations
of the Companies, year 1901-02, per ac- counts annexed
Less Preference Dividends:
International Steam PumpCo. \$531.000 00
Henry R. Worthington 140,000 00
Provision for Debenture In- terest, Preference Dividend
and expenses of the Blake
& Knowles Steam Pump
Works, Ltd. (unpaid) 105,050 00 776,050 00
Balance added to Surplus
Total of undivided net Profits at 81st March, 1902 \$2,227,904 94

Ξ

The difference between this amount and the sum at credit of Surplus Accounts in the accounts subjoined (\$3,614,417 27) is mainly accounted for by the accumulations of undivided profits of the various associated companies which had acorued prior to their association with the International Steam Pump Company, and which are not therefore considered to be available as undivided profits of that Company.

> MAX NATHAN, Treasurer.

INTERNATIONAL STEAM PUMP COMPANY, HENRY R. WORTHINGTON, GEORGE F. BLAKE MANUFACTURING COMPANY, WORTHINGTON PUMPING ENGINE COMPANY, HOLLY MANUFACTURING COMPANY.

We have examined the books and accounts of the International Steam Pump Company and its associated Companies in America - Henry R. Worthington, the George F. Blake Manufacturing Company, the Worthington Pumping Engine Company, and the Holly Manufacturing Company, for the year ended 31st March, 1902, and having prepared Balance Sheets and Profit and Loss Accounts therefrom we have certified the same to be correct, after deducting depreciation, as fixed by the Directors. The accuracy of the inventories has been certified to by the President. The foregoing Consolidated Balance Sheet and relative Profit and Loss and Surplus Accounts have also been prepared therefrom and exhibit in our opinion a correct view of the affairs of the Companies at 31st March, 1902, and of their operations for the year ended that date.

PHILADELPHIA COMPANY OF PITTSBURG.

OFFICIAL STATEMENT REGARDING CONSTITUENT PROPERTIES AND EARNINGS,

PITTSBURG, July 1st, 1902.

In reply to numerous inquiries that reach this Company from time to time from stockholders and others as to the nature of its business and the sources from which its earnings are derived, it has been decided, owing to the diversified character of the interests controlled by the Company, to bring before the stockholders generally the following particulars in order that a full realization may be had of the work the Company is doing.

The Philadelphia Company was organized in May, 1884, and operates under a special act of the Legislature of Pennsylvania of March, 1871, in favor of the Empire Company. its predecessor. This Act conveyed many valuable rights and privileges and has made possible the extraordinary development of the company's business, particularly during recent years, with the result that from an organization supplying fuel gas alone the company has grown into one which supplies the inhabitants of Pittsburg, Allegheny and the many important manufacturing towns along the banks of the Allegheny, Monongahela and Ohio Rivers, numbering about 600,000, almost exclusively, with fuel gas, illuminating gas and electric light, as well as serving the same territory with electric service transportation. Its business, therefore, has become varied, and may, for the purposes of convenient description, be sub-divided under the following captions:

FIRST: Street Railways,

SECOND: Electric Lighting and Illuminating Gas, THIRD: Fuel Gas.

I. STREET RAILWAYS.

The Philadelphia Company owns or controls by lease the following Street Railway properties:

THE UNITED TRACTION COMPANY, CONSOLIDATED TRACTION COMPANY, MONONGAHELA STREET RAILWAY COMPANY, PITTSBURG & BIRMINGHAM TRACTION COMPANY, PITT8BURG & CHARLEBOI STREET RAILWAY COMPANY, SUBURBAN RAPID TRANSIT STREET RAILWAY COMPANY, EAST MCKEESPORT STREET RAILWAY COMPANY, TUSTIN STREET RAILWAY COMPANY.

The total mileage of the above properties is about 404 miles.

To permit of greater convenience and economy in the conduct of the above properties, they are operated under a properly executed agreement by the Pittsburg Railways Company, formerly known as the Southern Traction Company, whose shares of stock, both common and preferred. 2. ELECTRIC LIGHTING AND ILLUMINATING GAS.

The Philadelphia Company also owns or controls by lease the following Companies, which form the Lighting Department of its business:

ALLEGHENY COUNTY LIGHT COMPANY,

MONONGAHELA LIGHT & POWER COMPANY,

SOUTHERN HEAT, LIGHT & POWER COMPANY,

CONSOLIDATED GAS COMPANY,

SOUTH SIDE GAS COMPANY,

ALLEGHENY ILLUMINATING COMPANY.

The three first-named Companies are the only public organizations furnishing electric current for heat, light and power to the cities of Pittsburg and Allegheny and the territory immediately surrounding the same. The Consolidated Gas Company operates under a perpetual charter, and with the Allegheny Illuminating Company and the South Side Gas Company constitute the only gas-manufacturing companies in the cities of Pittsburg and Allegheny, and the exclusive right to manufacture illuminating gas in said cities is vested in them.

We likewise append the earnings of these Companies, as furnished to us by Messrs. Haskins & Sells, showing their growth during the past three calendar years. The earnings of the South Side Gas Company are not included in these figures, as the Company has been but recently acquired:

	1899.	1900.	1901.
Gross Earnings	\$1,507,297 76	\$1,649,136 82	\$1,771,720 53

Net Earnings	\$803,048 85	\$885,368 21	\$1,002,759 54
Other Income (Net)	27,455 19	31,331 83	29,381 32
Net Income Flxed Charges	\$830,504 04 397,488 33	\$916,700 04 407,400 00	\$1,032,140 86 407,125 00
Surplus	\$433,020 71	\$509,300 04	\$625,015 86

3. FUEL GAS.

The Philadelphia Company. through its own lines and those of a number of Companies controlled by it. supplies nearly all the fuel gas consumed in the cities of Pittsburg and Allegheny, and the large number of manufacturing towns lying along the Monongahela and Allegheny rivers. This territory is well covered with distributing mains and is connected by larger mains of ample capacity with the sources of supply in the West Virginia fields and elsewhere. The Company controls by lease about 201,532 acres of gas lands, and during the past year it has acquired in West Virginia and Pennsylvania the gas rights on about 73.917 acres of well-known producing fields. It has been reported to us by competent experts that the Company has gas in sight for the next twenty-five or thirty years. We mention below the principal Fuel Gas Companies, and follow this with a statement furnished to us by Messrs. Haskins & Sells of the earnings of all the fuel gas properties for the past three calendar years:

are wholly owned by the Philadelphia Company.

We append herewith a statement showing the growth of these properties during the past three years. The figures are taken from reports made by Messrs. Haskins & Sells, Certified Public Accountants of New York City.

	189 9 .	1900.	1901.

While the Philadelphia Company has not owned during the three years under review all of the Companies enumerated in the foregoing statements, their earnings have been included to admit of a fair comparison from year to year and to show the normal annual growth during that period of the properties now under its control.

In conclusion we append the Consolidated Income Account for the respective calendar years and for five months of 1902 of all the Companies heretofore referred to separately, and it will be seen that the gross earnings have in-creased on the average about \$1,500,000 per annum. In order to make a fair comparison, the earnings of some of the properties (such as the Monongahela Street Railway Company), which were under construction during part of the period and prior to their acquisition by this Company, have been estimated and added to the years 1899 and 1900. J. H. REED,

President.

-The July edition of the Hand-Book of Railroad Securities, compiled by the publishers of the FINANCIAL CHRONI-CLE, will be issued next week. The book contains in a small compass a vast amount of information concerning the various railroads and a number of the industrials whose securities are dealt in on the leading Stock Exchanges. It shows their earnings, dividends, etc., for a series of years, present fixed charges, and also the amounts of the different issues of bonds outstanding, their rates of interest, etc. There is also given the monthly range of stocks and bonds for 1901 and to July 1, 1902, together with a yearly range for the past four years. Price one dollar, or to CHRONICLE subscribers, seventy-five cents.

The Commercial Times.

COMMERCIAL EPITOME. FRIDAY NIGHT, July 11, 1902.

The general business situation has undergone few changes. In a number of lines of trade the markets have felt the influence of the usual mid-summer dulness and vacation period; nevertheless the quantity of merchandise moving has been reported as fairly heavy, there being a good steady call for deliveries on outstanding contracts. In a few instances jobbers have begun placing orders for their fall requirements. In the iron and steel markets the scarcity of spot supplies has been quite pronounced, and buyers have been forced to pay extreme prices to fill their orders. In speculative circles the corner in July contracts on the Chicago market has been the feature. The outlook for the growing crops has been favorable. The Agricultural Bureau's report issued Thursday indicated large grain crops, the present outlook being for record corn and oats crops. The cotton crop also has been reported as making fair progress.

Lard on the spot has been held at higher prices and but few sales have been made. It is reported, however, that packers are forcing sales of consigned goods held in foreign markets at below the parity of values ruling locally. The close was firm at 11.50c. for prime Western and 101/2@103/4c. for prime City. Refined lard also has had only a small sale locally, but prices have been advanced, closing at 11.65c. for refined for the Continent. Speculation in the market for contracts has been quiet. There has been some "bulling" by packers, and with only scattered selling prices have been advanced. The close was firmer on shorts covering.

DAILY CLOSING PRICES OF LARD FUTURES. Sal. Mon. Tues. Wed. Thurs. Fri. July...... Hol. 11:35 11:35 11:30 11:42 10:50

Higher prices have been quoted for pork, but the business transacted locally has been limited to small jobbing sales, closing at \$19 50@20 00 for mess, \$20 75@21 25 for family and \$20 25@22 00 for short clear. Cut meats have been firmer but quiet, closing at $9\frac{1}{4}$ c. for pickled shoulders, $12\frac{1}{4}$ @13c. for pickled hams and $11\frac{1}{4}$ @11 $\frac{3}{4}$ c. for pickled bellies, 14@10 lbs. average. Beef has had a limited sale at firm prices, closing at \$12 00@\$14 00 for mess, \$15 00@15 50 for packet, \$15 50@ 16 50 for family and \$23 00@23 50 for extra India mess in tcs. Tallow has been steadier on light offerings, closing at 6½c. Stearines have been firmer but quiet, closing at 12½c. for lard stearine and 131/4 c. for oleo stearine. Cotton-seed oil has been dull and unchanged, closing at 431/2@44c. for prime yellow. Butter has been in fair demand and steadier, closing at 18½@22c. for creamery. Cheese has been in moderate de-mand and steady at 9@10½c. for State factory, full cream. Fresh eggs have advanced for the best grades, closing at 20 @201/2c. for choice Western.

Brazil grades of coffee have been easier. The feature has been increased pressure from Brazil to sell, and under the freer offerings, with only a limited demand, prices have declined. The close was quiet at 5 1-16c. for Rio No. 7. West India growths have been in moderate demand for the better grades, with prices holding steady at $8\frac{1}{4}@8\frac{1}{2}c$. for good Cucuta. East India growths have been quiet but steady. Speculation in the market for contracts has been more active. There has been fairly free selling against purchases in Brazil. The leading bull interest has been buying the near months and selling the distant deliveries. The close was steady. Following are the closing asked prices:

Raw sugars have weakened slightly, but the close was steady at 3 5-16c. for centrifugals, 90-deg. test, and 2 13-16c. for muscovado, 89-deg. test. Refined sugar has been in fair demand and steady at 4.65c. for granulated. Pepper has been firmer. Teas have had a fair sale at firm prices. Kentucky tobacco has been in fairly active demand for ex-

port at steady to firm prices. A quiet market has been reported for seed-leaf tobacco. The few sales made have been of an unimportant character and no transactions have been reported for the week; prices have been unchanged. Foreign grades of tobacco have been quiet but steady. There has been a steadier market for tin, based on stronger cable advices from London, and prices have advanced to 28.50@28.75c. Ingot copper has had only a small sale and the market lacks tone, with prices at 12@12.15c. for Lake. Lead has been unchanged and steady at 4 121/3c. Spelter has held firm at 5.121/c. Pig iron has been in small supply for prompt delivery, and prices have been firm. Refined petroleum has been unchanged, closing steady at 7.40c. in bbls., 8.50c. in cases and 4.85c. in bulk. Naphtha has been unchanged at 9.05c. Credit balances have been steady at \$1 22. Spirits turpentine has advanced, but the close was easier at 47@48c. Rosins have been steady at \$1 571% for common and good strained. Hops have been firm and higher. Wool has been in moderate demand and firm.

-Otis, Wilson & Co., the Chicago bankers, have issued a circular setting forth the merits of a large and varied list of investment bonds owned and offered by them for sale. This firm makes a specialty of United States governments, British consols, German imperial and municipal bonds, Mexican and other foreign securities. They also offer for the consideration of investors a new issue of \$100,000 Paris (Texas) Transit Company and \$200,000 Paris Light & Power Company first mortgage 5 per cent gold bonds, description of which may be found in our "General Investment News" columns.

The semi-annual issue of the Pocket Manual of the Boston Stock Market is now ready. It is compiled by Frank A. Ruggles, 10 State St., Boston.

COTTON.

FRIDAY NIGHT, July 11, 1902.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 10,561 bales, against 12,155 bales last week and 22,259 bales the previous week, making the total receipts since the 1st of Sept., 1901, 7,392,930 bales, against 7,416,587 bales for the same period of 1900-1, showing a decrease since Sep. 1, 1901, of 23,657 bales.

Speculation in cotton for future delivery has been quiet, there being practically no trading for the account of outside interests and regular operators have done little. The fluctuations in prices have accordingly been few and the net changes for the week have been small. The crop news from the South has been closely followed, but it has not been of a character to induce extensive trading on either side of the market. Rains have been reported wanted in most sections of the cotton belt and the fall of showers has partially relieved the situation. In the Southern Mississippi Valley, however, it is claimed that the outlook is becoming somewhat serious, owing to the absence of sufficient moisture. Reflecting the strength of the statistical position, the snot markets here and strength of the statistical position, the spot markets here and at the South have been firm. Orders for spot cotton, it is reported, have been filled with some difficulty, due to the light offerings. The stock of cotton in New York is moderately large, but it is understood to be under the control of a few interests, and cotton is not offered on the market. To-day the market opened easier reflecting disappointing Liverpool advices and more favorable weither news from the South. Subsequently, however, buying by nervous shorts of August contracts and absence of sellers turned the market stronger and prices advanced. The close was steady with prices un-changed to 9 points higher for the day. Cotton on the spot has been steady, closing at 9¼ c. for middling uplands.

The rates on and off middling, as established Nov. 20, 1901, by the Revision Committee, at which grades other than niddling may be delivered on contract, are as follows.

	Fair	Good Middling Tinged Even
1	Middling Fair	Strict Good Mid. Tinged.c. 0.20 on
	Strict Good Middling 0.50 on	Strict Middling Tinged 0.06 of
	Good Middling 0.32 on	Middling Tinged 0.12 of
	Strict Low Middling 0.14 off	Strict Low Mid. Tinged 0.34 of
	Low Middling	Middling Stained 0.50 of
	Strict Good Ordinary 0.72 off	Strict Low Mid. Stained 1.06 off
	Good Ordinary 1.00 off	Low Middling Stained 1.50 off

On this basis the official prices for a few of the grades for the past week-July 5 to July 11-would be as follows.

NEW ORLEANS OPTION MARKET.—Owing to the extremely crowded condition of our columns this week this table is omitted.

WEATHER REPORTS BY TELEGRAPH.—Advices to us by telegraph this evening indicate that rain has fallen in most districts of Texas during the week and that at some other points there has been needed moisture. On the other hand, from Alabama and some Atlantic districts there are complaints that rain is badly needed. Temperature has been very high quite generally. Our correspondents in Arkansas and Tennessee report the crop as doing well.

Galveston, Texas.—There have been showers on two days the past week, to the extent of nineteen hundredths of an inch. The thermometer has averaged 80, the highest being 87 and the lowest 72.

Abilene, Texas.—There has been rain on two days during the week, the precipitation reaching fifty two hundredths of an inch. The thermometer has averaged S1, ranging from 68 to 94.

Brenham, Texas.—It has rained on three days of the week, the precipitation being one inch and fifteen hundredths. The thermometer has ranged from 73 to 91, averaging 82.

Corpus Christi, Texas.—The week's rainfall has been twenty hundredths of an inch, on four days. Average thermometer 81, highest 86, lowest 76.

Cuero, Texas.—We have had rain on three days during the week, the precipitation being thirty-two hundredths of an inch. The thermometer has averaged 88, the highest being 109 and the lowest 71.

Dallas, Texas.—It has rained on one day of the week, the precipitation reaching twenty four hundredths of an inch. The thermometer has averaged 86, ranging from 72 to 100.

Henrietta, Texas.—There has been no rain the past week. The thermometer has ranged from 68 to 101, averaging 85.

The thermometer has ranged from 68 to 101, averaging 85. Huntsville, Texas.—There has been heavy rain on two days during the week, the rainfall reaching one inch and two hundredths. Average thermometer 83, highest 93, lowest 72. Kerrville, Texas—There has been rain on two days of the

Kerrville, Texas — There has been rain on two days of the week, the precipitation reaching sixteen hundredths of an inch. The thermometer has averaged 81, the highest being 95 and the lowest 67.

Lampasas, Texas.—There has been rain on one day during the week, to the extent of seventeen hundredths of an inch. The thermometer has averaged 83, ranging from 70 to 95.

Longview, Texas.—There have been showers on four days during the week, to the extent of thirty eight hundredths of an inch. The thermometer has ranged from 72 to 98, averaging 85.

Luling, Texas.—There has been light rain on three days of the week, the rainfall reaching fifty-five hundredths of an inch. Average thermometer 83, highest 95 and lowest 70.

Palestine, Texas.—We have had light rain on five days of the past week, the rainfall reaching forty six hundredths of an inch. The thermometer has averaged 81, the highest being 92 and the lowest 70.

Paris, Texas.—There has been no rain the past week. The thermometer has averaged 80, ranging from 60 to 99. San Antonio, Texas.—We have had rain on four days dur-

San Antonio, Texas.—We have had rain on four days during the week, the rainfall reaching one inch and thirty-eight hundredths. The thermometer has ranged from 70 to 94, averaging 82.

Weatherford, Texas.—It has rained on two days of the week, the precipitation being nineteen hundredths of an inch. Average thermometer 84, highest 98, lowest 70. Shreveport, Louisiana.—There has been only a trace of

an inappreciable extent. The thermometer has ranged from 73 to 94, averaging 83.

Helena, Arkansas.—Dry weather has prevailed all the week. Cotton is in good condition, but needs a little rain. Average thermometer 84, highest 94, lowest 73.

Memphis, Tennessee.—The crop outlook is the finest is many years. We have had dry weather all the week. The thermometer has averaged 88.7, the highest being 95.5 and the lowest 75.2.

Nashville, Tennessee.—The cotton crop is in excellent condition. We have had rain during the week to the extent of twenty-two hundredths of an inch. The thermometer has averaged 84, ranging from 68 to 100.

averaged 84, ranging from 68 to 100. Mobile, Alabama.—In the interior the weather was dry and very hot during the early part of the week, but scattered rains occurred in the latter portion. Cotton is generally in poor condition, and good soaking rains are badly needed. Rain has fallen here on two days of the week, to the extent of twenty hundredths of an inch. The thermometer has ranged from 74 to 96, averaging 83.

Montgomery, Alabama.—Moisture is badly needed. Cotton is suffering and corn is drying up. There has been rain on two days during the week, the precipitation being eleven hundredths of an inch. Average thermometer 87, highest 101 and lowest 73.

Selma, Alabama.—The continued hot weather with dry winds has done much damage to cotton. The plant is very small and blooming at the top. There has been rain on one day during the week, to the extent of twenty hundredths of an inch. The thermometer has averaged 85, the highest being 98 and the lowest 73.

Augusta, Georgia.—There has been rain on three days during the week, the rainfall reaching fifty-five hundredths of an inch. The thermometer has ranged from 73 to 102, averaging 86.

Savannah, Georgia.—There has been rain on one day during the week, to the extent of sixty-eight hundredths of an inch. Average thermometer 85, highest 101, lowest 71.

Stateburg, South Carolina.—This has been the hottest week on record here. The temperature on four consecutive days was above 100. Some shedding is reported, but by destroying lice the heat has done some good to cotton so infested. Rain is greatly needed. It has rained lightly on two days during the week, to the extent of thirty-eight hundredths of an inch. The thermometer has averaged 87, ranging from 71 to 104.

Greenwood, South Carolina.—There has been rain on one day of the week, the rainfall being twenty hundredths of an inch. Thermometer has ranged from 12 to 98, averaging 85.

Charlotte, North Carolina.—The crop is progressing favorably. We have had rain the past week to the extent of two inches and twenty-one hundredths. Average thermometer 84, highest 98, lowest 71.

INDIA COTTON MOVEMENT FROM ALL PORTS.—The receipts of cotton at Bombay and the shipments from all India ports for the week ending July 10, and for the season from Sept. 1 to July 10 for three years have been as follows:

Shreveport, Louisiana.—There has been only a trace of rain during the week. The thermometer has averaged 84, ranging from 73 to 95.

New Orleans, Louisiana.—There has been rain on one day of the week, the rainfall reaching forty-six hundredths of an inch. The thermometer has averaged 83.

Columbus, Mississippi.—There has been rain on one day during the week, the rainfall reaching forty-one hundredths of an inch. The thermometer has ranged from 70 to 102, averaging 86.

Vicksburg, Mississippi.—Local showers during the week to the extent of thirty-eight hundredths of an inch were beneficial, but general rains are needed. The thermometer has averaged 84, the highest being 96 and the lowest 72.

Little Rock, Arkansas.—Crops are in good condition and doing well. Rain has fallen on one day of the week, but to

to-night from Manchester states that the market is quiet for yarns and steady for shirtings. There is talk of resorting to short time. We give the prices for to-day below and leave those for previous weeks of this and last year for comparison.

COTTON STATISTICS FOR WEEK ENDING JULY 4.-Last Fri-day having been a holiday (Independence Day), we went to press on Thursday night, and our cotton statistics therefore covered only six days. We have, however, this week re-vised all the results so as to make them cover the full week ending Friday, July 4, and they are as follows: Net re-ceipts for the week, 12,155 bales, and since Sept. 1, 7,382,369 bales. United States port stocks last Friday, 310,238 bales. Total foreign exports for the week, 23,450 bales, and since Sept. 1, 6,401,956 bales. Total visible supply, 2,414,124 bales, of which American 1,572,124 bales. Interior towns, receipts for week, 4,941 bales; since Sept. 1, 5,852,472 bales; ship-ments for the week, 15,216 bales, and stock, 113,377 bales. Receipts from plantations for week, 1,880 bales. Weekly net overland, 1,762 bales, and for season to date, 1,134,789 bales. Southern consumption for week, 37,000 bales, and for season, 1,582,000 bales: Interior stocks decreased 10,275 bales during the week, and on Friday last were 15,888 bales less than on September 1. There came into sight for the week 40,642 bales, and the total for the season to date reached 10,083,270 bales. Northern spinners had taken since September 1 2,058,348 bales, of which 17,089 bales represented the week's takings,

GOVERNMENT WEEKLY COTTON REPORT.-Mr. James Berry' Chief of the Climate and Crop Division of the U. S. Weather Bureau, made public on Tuesday the telegraphic reports on the crop in the Southern States for the week ending July 7, summarizing them as follows:

summarizing them as follows: With showers over local areas only and very high temperatures, the cotton crop over much the greater portion of the central and eastern districts of the cotton belt has materially deteriorated, especially over the southern portion of the districts named, although, considering the size of the plant, it is fruiting well and is generally clean. In Tennes-see, extreme Northern Mississippi, Arkansas, Missouri, Oklahoma and Indian Territory, the crop continues in promising condition, although it is needing cultivation and making too much weed in portions of Arkansae. In Texas cotton shows further improvement and is mak-ing good, healthy growth, except in the southwestern and northwest-ern counties, where it is at a standstill. While the plant is small, it is epreading nicely and fruiting satisfactorily, and but few reports of ehedding and boll weevil are received.

EUROPEAN COTTON CONSUMPTION TO JULY 1 .- By cable to-day we have Mr. Ellison's cotton figures brought down to July 1. We give also revised totals for last year that comparison may be made. The spinners takings in actual bales and pounds have been as follows:

Oct. 1 to July 1.	Great Britain			Oontinent.	Total.
For 1901-02. Takings by spinnersbales Average weight of bales.lbs Takings in pounds			,000 502 ,000	490	
For 1900-01. Takings by spinnersbales Average weight of bales.lbs Takings in pounds			, 00 0 511 .000	487	6,397,000 496 ^{.5} 3,176,227,000

According to the above, the average weight of the deliveries in Great Britain is 503 pounds per bale this season, against 511 pounds during the same time last season. The Continental deliveries average 490 pounds, against 487 pounds last year, and for the whole of Europe the deliveries average 494'7 pounds per bale, against 496'5 pounds last season. Our dispatch also gives the full movement for this year and last year in bales of 500 pounds.

April-May May-June									

BREADSTUFFS.

FRIDAY, July 11, 1902,

Only a small volume of business has been transacted in the market for wheat flour, buyers and sellers, as a rule, being apart in their views. Jobbers do not seem to attach much importance to the recent reports from the winterwheat belt of damage to the crop by wet weather during harvesting. There has been, however, no pressure to sell new-crop winter-wheat flour, as millers apparently anticipate difficulty in obtaining full supplies of sound, dry wheat during the early part of the season. Spring-wheat flour has been held at \$4.25 for choice brands of spring patents, with buyers at \$4 10@4 15. Rye flour has been quiet and un-changed. Corn meal has been firmly held, reflecting the high prices for corn. Speculation in wheat for future delivery has been on a moderate scale only. The tone of the market has been unsettled, and for the week the net changes in prices are unimportant. Reflecting slightly better cable advices than expected and favorable statistical developments, there was a slight improvement in values with the resumption of business on Monday. An easier market, however, developed on The weather conditions in the winter-wheat Tuesday. belt were more favorable, needed dry weather being quite generally reported, and there was con-siderable speculative selling for the account of South-

* The average weekly rate of consumption in Great Britain in each year is as given by Mr. Ellison, after allowing for stoppage of spindles in consequence of short supply of cotton. I The average weekly consumption reduced on account of stoppage

of spindles during the month, or for holidays.

SHIPPING NEWS,-As shown on a previous page, the exports of cotton from the United States the past week have reached 29,719 bales. The shipments in detail, as made up from mail and telegraphic returns, are as follows:

Total bales.

 NEW. YORK—To Havre, per steamers Huelva, 1,278....La Bretagne, 126 Sea Island....Nicomedia, 1,487.......
 To Bremen. per steamere Friedrich der Grosse, 502.....
 Grosser Kurfuerst, 751....Koenigen Luise, 2,092.......
 To Antwerp, per steamers British Prince, 100....Zeeland, 250 1,278....La 2,891 3,345 250 850 western operators. Wednesday the market again turned steadier, recovering nearly all of Tuesday's loss. The feature was the return of rainy weather in the Southwest, especially in Kansas, Iowa and Nebraska. The precipitation was reported as being quite heavy and doing much damage. The short interest became nervous, and on moderate buying to cover contracts and only scattered selling, prices improved. Thursday the market again turned easier. Weather reports from the winter-wheat belt were more favorable and speculative holders sold to realize profits. Business in the spot market has been fairly active, exporters being moderate buy-ers here and at outports. To-day the market closed firmer on predictions of rains in the harvesting districts.

The feature of the market for Indian corn futures has been the corner of July contracts in the Chicago market. The bull interest has been unusually aggressive and on Tuesday advanced the price to 90c., forcing some shorts into the market to cover. Prices have since reacted slightly, but the market appears to be in control of the bull interest, and quotations are maintained on a much higher basis than those ruling in other markets. Supplies are beginning to be hurried in from country points to Chicago, but comparatively little of it is coming up to a contract grade, and furthermore it is understood that reserve stocks in farmers' hands are unusually small. The market for the new-crop deliveries has shown a sagging tendency during the week, as weather conditions on the whole have been reported more favorable for the growing crop. Business in the spot market has been quiet. To-day there was a steadier market.

WINTEE WHEAT.—The unfavorable harvesting weather of the pre-vious weeks in the States of the Lower Missouri Valley continued dur-ing the past week, although harvesting of winter wheat is now prac-tically finished in that section. Some damage to grain in shock and stack is reported from Illinois, Missouri and Nebraska. Harvesting has continued in the Ohio Valley under generally favorable condi-tions; is practically finished over the southern portions of the Middle Atlantic States, and has begun in the Lake region. On the North Pa-cific coast lodging is extensively reported, and harvest will be later than usual, but the general outlook continues favorable. Harvesting continues under favorable conditions in California. SPRING WHEAT.—Spring wheat has experienced no unfavorable con-ditions during the past week The outlook for this crop is generally very promising.

very promising. OATS. — Harvesting of cats is in progress in the Lower Missouri Val-ley, Tennessee and Middle Atlantic States, and the crop is ripening in the Ohio Valley, good yields being reported. In portions of the Mis-souri and Ohio Valleys and Upper Lake region considerable lodging is reported, but the general condition of the crop is promising.

AGRICULTURAL DEPARTMENT'S REPORT ON CEREAL CROPS,

&c., July 1.—The Agricultural Department issued on the 10.h inst. its report on the cereal crops for the month of June, as follows.

June, as follows. Preliminary returns to the Statistician of the Department of Agri-oulture on the acreage of corn planted indicate an increase of about 3.520.000 acres, or 3 9 per cent, on the area harvested last year. Of the 25 States and Territories with 1,000,000 acres or upward in corn harvested last year, Iowa, Nebraeka and Michigan report an increase of 1 per cent; Pennsylvania, Indiana, Virginia and Louisiana of 2 per cent; Georgia, Arkaneas, Wisconsin and Missonri 3 per cent; Ohio, lilinois, Mississippi and Indian Territory 4 per cent; Kaneas, Ken-tucky and Tennessee 5 per cent; North Carolina and South Carolina 6 per cent; Texas 7 per cent; Alabama 8 per cent; Minnesota 9 per orn; and South Dakota and Oklahoma 11 per cent. The average on-dition of the growing crop on July 1 was 87.5, as compared with 81.3 on July 1, 1901, 89.5 at the corresponding date in 1900, and a ten-year average of 89.2. The condition in Illinois was 91, in Iowa. Nebraska and Indian 20, in Kansas and Oklahoma 99, in Missonri 102, in Ohio 87 and in Texas 41. The acreage and condition of corn for a series of years.

The acreage and condition of corn for a series of years, as made up from Government figures, is as follows:

ACREAGE AND CONDITION OF CORN ON JULY 1.

			_							
	1902.			1901.*		1900.	1899.		1898.

Three ciphers (,000) omitted from acreage figures. "Acreage figures for 1901 are the revised results of the Agrical-tural Department based on the Census returns for the previous year. Owing to this revision, there is an increase of 10°2 per cent over 1900 (as against the Department's estimate at that time of a decrease of '2 of 1 per cent) but of course this is an apparent increase only. To make the comparison correct, the Department would have to revise the figures for the earlier years to the figures for the earlier years too.

make the comparison correct, the Department would have to revise the figures for the earlier years too. The average condition of winter wheat improved during June nine tenths of 1 point, standing on July 1 at 77, or 11.3 points below the condition on July 1, 1901; 3 8 points below that in the corresponding date in 1900, and 2.4 points below the ten-year average. It fell off during June 4 points in Kansas, 2 points in California and Oklahoma and 1 point in Illinois, and improved during the same period 2 points in Pennsylvania and Ohio, 7 in Indiana and Nebraska. 10 in Michigan and 3 in Missouri. Special field agents report a decline of 4 points in Indiana and Illinois since July 1. The average condition of spring wheat declined 3 points during June, standing at 92.4 on July 1, as compared with 95.6 on July 1, 1901, 55.2 at the corresponding date in 1900 and a ten-year average of 85.8. The decline during June amounted to 5 points in Minnesota, 6 in South Dakota, 3 in Iowa and 4 in Washington. On the other hand, there was an improvement of 9 points in Nebraska, with no ap-preciable change in North Dakota. The condition of spring and winter wheat combined or July 1, 1900, and 76.2 at the corresponding date in 1890. The amount of wheat remaining in the hands of farmers on July 1, 1900, and 76.2 at a bout 52,440,000 bushels, or 7 per cent of the crop of last year.

last year.

The average condition of the oat crop on July 1 was 92.1, as com-

GOVERNMENT WEEKLY GRAIN REPORT .- Mr. James Berry, Chief of the Climate and Crop Division of the U.S. Weather Bureau, made public on Tuesday the telegraphic reports on the grain crops in the various States for the week ending July 7 as follows:

CORN.-Under highly favorable temperatures there has been a general improvement in the condition of corn throughout the central valieye, and the outlook for this cropin the principal corn States is envalieys, and the outlook for this cropin the principal corn States is en-couraging, although in the States of the Missouri Valley it has suf-fered considerably from lack of cultivation, due to excessive moisture In Kansas the buik of the orop is laid by and much is sliking and ear-ing. In Nebraska corn is rather small, but is growing nicely, al-though needing cultivation; three-fourths of the crop in Iowa is well cultivated and in normal condition; notwithstanding the unfavorable effects of heavy rains in Misseouri the outlook in that State is the best in years; in Arkansas, Tennessee, the Ohio Vailey and the Lakeregion the general outlook is excellent; in the Southern States a very poor crop is indicated, and in portions of the Central Gulf districts the early planted is injured beyond recovery.

pared with 90.6 last month. S3.7 on July 1, 1901, 85.5 at the corre-sponding date in 1900 and a ten year average of 87.3. The average condition of barley is 93.7, avalust 93.6 one month ago, 91.3 on July 1, 1901, 76.3 at the corresponding date in 1900 and a ten-year average of 87.1. All the principal barley-producing States. except New York and California—in which States improvements amounting to 1 and 4 points, respectively, were noted—show a slight decline in condition during the month. Notwithstanding this decline, however, the present average condition in every important State is above the ten year average. above the ten year average. The average condition of winter rye is 91.2, as compared with 93 6

The average condition of winter rye is 91.2, as compared with 93 6 on July 1, 1901, 89 6 at the corresponding date in 1900 and a ten-year average of 89.2. Each of the principal rye-producing States shows an improvement in condition during the past month. Now York and Pennsylvania, two of the largest winter-rye States, show conditions 4 and 7 points below their respective ten-year averages, and in Michigan the condition is 3 points above such average. The average condition of spring rye is 89.3, as compared with 93.8 on July 1, 1901, 69.7 at the corresponding date in 1900 and a ten-

on July 1, 1901, 69.7 at the corresponding date in 1900 and a ten-year average of 87.9. The two leading spring-rye States, Wisconsin and Nebraska, report conditions 8 and 19 points above their respecive ton-year averages.

THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., July 11, 1902.

This week has been no better than last week so far as the day-to-day demand has been concerned, but by reason of more working days in it the aggregate business has been larger. Actual conditions are without material change in any respect in the cotton-goods division. Buyers persist in following a conservative policy in regard to staples and seasonable fancies, although still purchasing specialties for next year with a fair amount of freedom. They are evidently of the opinion that there is nothing in the general situation suggestive of higher prices, and are making the most of the fact that sellers here and there are slightly easier to deal with. So far it is undeniable that buyers, by pursuing a handto-mouth policy, have had the best of the argument, and this encourages them to continue a conservative course. The manufacturers' position is indicated by the fact that some mills run out of raw supplies have intimated their intention of curtailing production rather than buy cotton to put into goods selling at present prices. It remains to be seen how far this will figure as a market factor.

WOOLEN GOODS - Re-orders for heavy-weight woolens and worsteds for men's wear have been on a moderate scale this The market is generally in good condition on these, week. particularly in staple and medium grade fancy woolens, and prices are firm. The new-season lines for next spring are gradually opening, but up to the present time the display is confined almost entirely to low qualities in woolens and to serges. These have been put upon the market without material variation from last season's prices, but until there is a m regeneral opening the price situation will be more or less indefinite. In the overcoats division Kerseys continue in best request at firm prices, and the Kersey fabrics are in best demand by the cloaking trade. Business in woolen and worsted dress goods has been slow and without feature. Flannels and blankets are dull and unchanged.

DOMESTIC COTTON GOODS,-The exports of cotton goods from this port for the week ending July 7 were 1,533 packages, valued at \$117,854, their destination being to the points specified in the tables below:

NEW YORK TO JULY 7		1902.	1901.		
MEW YORK TOJULI 7	Week.	Since Jan. 1.	Week.	Since Jan. 1.

Total	1,582	147,887	5,221	139,151	
	1				

The value of the New York exports since Jan. 1 to date aas been \$6,792,327 in 1902, against \$6,291,796 in 1901.

Home buying of heavy brown sheetings and drills has again been on a limited scale, but the latter have been in fair request for export to India. Prices are without quotable change, but the tendency has been in favor of buyers. A moderate demand has been reported for heavy-weight ducks at steady prices. Brown osnaburgs are dull and easy. Bleached muslins have been in request for limited quantities only, without change in prices in any grade. Wide sheetings are slow, business being diverted mostly to made-up sheets and pillow cases. Cotton blankets are scarce and firm. Cotton flannels quiet. Business has improved slightly in coarse, colored cottons, and with limited supplies on hand prices are maintained. The demand for kid finlshed cambrics and other linings is limited and general tone easy. A moderate business has been reported in printed calicoes, with both fancies and staples steady in price. Wide printed specialties are in fair demand for next season at steady prices. Printed fl innellettes are scarce in desirable lines. Domets are quiet. Ginghams are scarce in all descriptions and very firm. Print cloths have been inactive all the week in narrow makes; regulars unchanged at 32, nominal. Wide odds have been in fair request at previous prices.

FOREIGN DRY GOODS .- A quiet business has been reported in fine grades of dress goods at firm prices. Silks and ribbons are in limited supply and firm. Linens sell at previous prices, but the demand is moderate. Burlaps are advancing in face of slow buying.

STATE AND CITY DEPARTMENT.

MUNICIPAL BOND SALES IN JUNE.

The municipal bond market continued active, the aggregate of such sales in June far exceeding even the exceptional figures for May. In fact the total has been surpassed but twice during the past ten years. Our aggregate for June is \$28,468,672, more than double the average for that month of the previous ten years. In May 1902 the disposals footed up \$20, 956,404 and in June 1901 \$13,468,098. Canadian loans to the amount of \$2,884,394 and temporary loans in the sum of \$2,805,400 were also negotiated in June 1902, but these, as previously pointed out, are never included in our totals.

While several large blocks of bonds were placed during the month, the smaller issues have also been numerous in all sections. In the face of such large offerings it is perhaps not surprising that prices in many instances show slight declines from former figures.

The city of Boston, in placing \$5,314,000 31 per cent bonds (fourteen issues), made the largest sale of the month; the bonds were taken by Estabrook & Co., R. L. Day & Co. and Harvey Fisk & Sons on a 3.267 per cent basis. St. Louis sold \$5,000,000 $3\frac{1}{4}$ per cent gold Louislana Parchase Exposition bonds on June 2 to local concerns-the Mississippi Valley Trust Co. and Whitaker & Co. New York City's sale on June 26 of \$4,667,000 31 per cent stock was made on a basis of 3.28 per cent; as usual, by far the greater portion of the bonds went to well known brokers.

The number of municipalities emitting bonds and the number of separate issues made during June 1902 were 207 and 273, respectively. This contrasts with 202 and 247 for May 1902 and with 206 and 274 for June 1901.

Owing to the crowded condition of our columns, we defer until next week the publication of the detailed list of the sales for the month.

Bond Calls and Redemptions.

Pittsburg, Pa.-Bonds Wanted .- The Sinking Fund Commission of the city of Pittsburg-Robert Pitcairn, Presidentin our advertising columns, invites tenders of Pittsburg bonds.
