## CLEARING HOUSE RETURNS.

The following table, made up by telegraph, etc., indioates that the total bank clearings of all the olearing houses of the United States for the week ending to-day, Ang. 16, have been $\$ 2,039,397,508$, against $\$ 1,917,21,2,220$ last week and $\$ 1,719,511,762$ the corresponding week last year.

THE FINA NCIAL SITUATION.
The montbly crop condition report of the Agricul. tural Department made public Monday foreshadowed a highly satisfactory out-turn of the yield of wheat, corn and oats-particu?arly of corn. On the Stock Exchange no special effect from this showing ㄷas immediately observable, as the result of large production had been already accepted and to an important extent discounted. Besides that, the bad bark siatement on Saturday, indicating the material reduction in the carrency held by the assoclated bar ks of $\$ 4,083,500$, and leaving the surf lus reserve ol ly $\$ 9,032,250$, was suf. ficiently disturbing to lead to a selling movement in securities on Moncay that unsettled values for the time. Since then that feeling has worn off, the fature of money has apparently caused no anxiety, and operators in the stock market have displayed the same confident spirit of previous weeks. It is likely that the kanks to day will show an er largement of both gross and surplus holdings of currency. The natural tendency of institutions, so many of which are below the legal limit, would be to gather in what ever supplies were within reach; supplies of that character ought to be procurable at this stage of cur. rency movements, especially since our leading banks have added to the efficiency of their organs of pre hension by means of their clnser alliance with mone tary institations not only near by but all over the country.

We cannot too often repeat that there is nothing alarming to general business in the mere fact of small reserves. The only people to be disturbed by it are those that are so extended as not to have the ability to hold on. That is so becanse at a time like the present a short sapply of money is more often local and felt through discriminations in collaterals and in a demard for wider margins; a situation which is of course very trying to weak holders. Other than this there ds nothing a'arming in the mere fact of a small surplus when the country is in a pros perons condition, for, as the reader knows, bank reserves are devised and kept for use in case of monetary stringency and not to look at. There was a period, a considerakle time ago, when the provisions relating to reserves in the nationsl banking law were interpreted and enforced more rigidly than they are now. As soon as a bank fell below the limit, a notice was sent out by the Comptroller of the Currency to stop loaning, etc, until the deficiency was made good. A closer examination of the law has shown that, according to the real meaning of the statute, national bank reserves fill a place not very unlike that filled by army reserves. In either case a reserve arrangement that could not be used might better be abolished, for it would simply be burdensome; while a reserve that had to be kept up to full quola while a struggle which called for its active employment was in progrees, would be simply impracticable, and rainous to the Interests it was made to preserve.

As already stated, the provisions of the national law with regard to this matter are found on examination to be eminently wise. In case a bank's holdings of currency falls below the 25 per cent requirement, the statute merely says that the Comptrolier "may notify" the bank to make good its reserve. The words used are not "shall notify" but "may;" besldes, ithe
context indicates that the intention, by the ase of the word "may," was to make the service of the notice a discretionary act. This idea is also encouraged by the fact that the next step to"be taken by the Comptrcller is deferred by the statate antil the expiralion of thirty days after service of the notice. That is to say, an impairment may remain thirty days after notice Las been served before the Comptroller has authority to take any action. Moreover, if after the notice has been served the bank, within the thirty days, makes good its reserve, the impairment to which the notice refers being no longer exlstent, another notice would have to be served if another lapse occarred and another thirty days expire before any action against the instltution would be in order. Such provisions evidently contemplate perlods of impaired reserves. But in the meantime "losns or discounts other than by discounting or purct asing bills of exchange payable at sight " and the distribution of profits by "dividends" are forbidder-restrictions, by the way, which, for obvious reasons, count for nothing so far as our city banks are concerned.

An easier forelgn exchange market accomranging the advance in money on Monday, with a substantial decline in rates Wednesday and again. Tharsday-due to offerings of loan bills and also of commercial bulls against prospective shipments of cotton-have been a leading, though somewhat unexpected, feature of the wetk, and have relleved present anxiety with reference to the money market. For the time these changes postpone farther gcld exports. The foreign trade statement for July, issued this week (which will be found in our usual form on a subsequent page), is so consplcuously unfavorable compared with the previous year that a resumption of gold exports in the near future woald not cause sarprise. An instructive incident, suggestive of the character of some of the financial items which help to make up the present international monetary status of the United States, has been the granting of the application made by J. P. Morgan \& Co., August Belmont \& Co. and Baring, Magoun \& Co. to the Board of Governors of the New York Stock Exchange to have listed $2,316,000,000$ roables $(\$ 1,188,495,000)$ of State 4 per cent certificates of rente of the Imperial Russian Government, the above-mentioned firms belng authorized to pay the coupons on these rentes. We say that this incident is instructive and suggestive because it affords a hint of what is perhaps becoming a larger factor in the security holdings of our people than is generally understood, a clrcumstance which consequently may have more to do with the conaition of our international adverse balance than is usually allowed for. At all events"the facilities offered the American public by this transaction will no doubt lead to very considerable investments in Russian securities, and so widen the field for permanent holdings in the United States of government funds of Earopean States.

It has been said that we made no account in our currency comparison in this column last week of the increase of the total currency in circulation in the United States during the last twelve months. The omission was intentional and there was good reason for it. In the first place, the additlon has not been half as large as claimed. According to the Government statement of Augast 1 the amount of money in circulation at that date was $\$ 2,260,606,137$, against
(2,159,56\%,149, or ar increase of only 81 million dol. lars, the Sub-Treasury holdlngs being substantially the same at both dates. Another and the chief resson for the omission was that although the new addition to our currency is all in circulation, our New Iork City banks only hold $\$ 248,942,000$, against \$262,298,200 twelve months ago, of gold aad legal tenders, while the aggregate holdings in other na. tional banks show no increase according to latest return; that is to say, there was in sight, that is in banks and in Sub-Treasury, less Augast 11902 than there was August 1 1901; showing that more than a!l the year's addition to the volume was out of sight, in active use.

A statement attributed to President James J. Hill of the Great Northern Railway Co. serves to indicate in a striking way the magnitude and vast extent of this country. Mr. Hill is quoted as saying that the roads embraced in the Northern Sacurities Co. will earn in the fiscal year which began on July 1st 1902 the sum of $\$ 150,000,000$ gross. It should be remembered that the Northern Securities Co. lines all lie west of Chicago, in a country having no extensive manafastaring industries, agriculture being the main pursuit there. It is only a few years since the Pennsylfanla RR., the system of largest earnings in the country, and whose netrork of roads traverses a territory gridironed with coal and mannfacturing interests, attained the distinction of having earned as much as $\$ 150,000,000$ gross. For the calendar year 1901 the Ponnsylvanla's gross amounted close to $\$ 200,000,000$, bat only as recently as 1899 the earnings of this great system for the first time reached the $\$ 150,000,000$ mark. The systems controlled by the Northern Securities Co. are, as is known, the Great Northern, the Northern Paclicic and the Bur. lington \& Qulncy. It is true that these threesystems have an aggregate mileage nearly double that em. braced in the Pennsylvania Railroad confederation, but it is nevertheless a noteworthy fact, illastrative of the growth of the Western half of the Uaited States, that a combination of roads west of Chicago should be within sight of a total of earnings which but a short time bask it was supposed was possible only in the great manufacturing districts east of Cnicago and S:. Lonia.
If Mr. Hill's expactations of $\$ 150,000,000$ gross earnings shall be realized-and Mr. Hilt is a careful man, his estimates in the past having been vely closeit will mean a very large addition over the revenues of the same roads in the fisca! year which closed on Jane 30th. The combined gross earnings of the Burlingto 1 \& Quincy, the Northern Pacific and the Great Northern in the year in question were $\$ 133,064,369$. There would have to be, therefore, an addition of, roughly, $\$ 1 \%, 000,000$ the curreat year to bring the total up to $\$ 150,000,000$, though possiblg Mr. Hill in fixing the total at the figure given meant to inclade the steamship lices and varous miscellaneous companies. In any event, however, the increase will have to be verglarge to make the combined total $\$ 150,000,000$. From certa'n details given it appears that an aldition of over $\$ 6,000,000$ is coanted upon in the case of the Burlington \& Quincy alone, which certainly does not look like an extrapagant expectation, seeing that the Burlington \& Quincy is the largest corn carrier in the Unite 3 States, and that the outlook is for an exiraordinarily heavy yield of corn
in its territory the preseat season, as agaiast an exceptionally poor yield las season.

To whose benefit will all this prosperity of the railroad industry inure? The unthinklng maight be incllned to reply, to the shareholders. Not so, however, Only a very small portion reaches them ultimately. The modern policy is to put a large share of the earnings back into the properties for their improvement and extension, so as to prepare for possible adverse periods when it may not be feasible to spend money in the same lavish way, and also so as to enable the roads to carry traffic at gradually diminishing rates. We have had the present month two announcements which go to show that railroad prosperity means gain for the shipper and the laworer alike. On Saturday last a dispatch came from Chicago saying that nearly every one of the seven thonsand conductors, brakemen and train baggagemen of the ontire Burlington system are to receive a material increase in wages beginning September 1st. The dispatch also gave the details of the increase for these various classes. Only a few days previously, it will be re. called, President Hill of the Great Northern, President Mellen of the Northera Pasifis and President Mohler of the Oregon Railroad \& Navigation Co. had been in conference with the farmers of Eastern Washington, the outcome of which conference was al agree. ment on the part of the railroads to give a 10 -per-cent reduction in rates on wheat shipments to Pacific Coast terminals and also on shipments eastbound to Minneapolis, Duluth and Chicago. It is estimated that this 10 -per-cent reduction means a gift to the farming interests in the sum of close to a million dollars. We clte these announcements simply to show that railroad prosperity brings mutual benefits, redounding to the advantage of all concerned. Of course we need hardly add that, besides higher wages, prosperity means full employment to labor instead of partial or total idleness as at times of depression.

Perhaps the most forcible way of showing the contrast between the superb crop prospects the present season and the poor crops realized last season is to say that the ? Agricultural Bureau at Washington, in its report issued on Monday, places the general condition of the corn crop of the United States on August 1 at $86 \cdot 5$, as against only 54 on the corresponding date in 1901. Eren this comparison, however, does not indicate the fall extent of the difference between the two years. There is the added fact to be taken into account that the area planted to corn this year is $3,520,0$ 000 acres larger than the area harvested last year. Estimates based on the higher condition and Increased area indicate a corn crop the present season, barring future adverse developments, in the nelghborhood of 2,500 to 2,700 million bushels. The figure is so large that even if the amount should be reduced 200 to 300 million bushels, the crop would still be the best ever made in the country's history. At 2,500 million bush. els the amount would be 1,000 million bushels in excess of the short yield of last year.

In the principal producing Siates a comparison between the two years is like that between opalence and poverty. Thus, in Kansas last jear the condition on Aug. 1 was indlcated by 19; this jear the corresponding figure is 103. In Missouri the condltion last year was 29; this year, 100; in Nebraska, 36; this year, 101. In fact, barring Texas, where the outlook is poor on account of the late drought, and where the condition
the present year is expressed by only 38 , the promise throughout the Southwest is exceptionally good. In the Contral Western States the change is only less marked. Illinois's average last year was 51 , this year it is 95; Iowa's was 5\%, now it is 93; Indiana's, 57, now 97 ; Ohio's, 73, now 91. It remains to be said that the other leading crops, barring winter wheat, also promise a greatly increased production. The condition of spring wheat August 11902 is given as $89 \%$, against $80 \cdot 3$ on August 1 1901. The genera average of oats the present year is $89 \cdot 4$, as against orly 73.6 in 1901. As to potatoes, it is only necessary to say that the condition Augast 1 this jear was over 32 points higher than at the corresponding date last year.

The "Iron Age's" monthly statement shows no increase in iron production daring July, but rather a decrease. Owing to the blowing out of a number of large blast farnaces in the Central West, our contem. porary finds that the weekly capacity of the active farnaces on Aagust 1 was only 336,465 tons, as against 350,890 tons per week on July 1. The "Age" says that a part of the falling off is to be ascribed to the anthracite coal strike, which causes a deficiency of about 35,000 tons a month as contrasted with the normal make. Quite a number of stacks in the Contral West, also, have not been working up to full limit, this being caused by irregularity in the fuel supply. Under these circumstances the "Age" thinks the production will be kept down for some time to come. As the demand for iron continues very active, these hindrances are to be regretted, though even as it is the country is prodacing iron on an extraordinary scale. The complete figures of imports and exports for the fiscal year ending June 301902 have just been published, and these throw a new and interesting light on the urgency of the demand which has existed for so many months. Taking all the articles given in the trade statistics by woight, it is found that the exports of iron and steel fell from $1,125,98 \%$ tons in 1900-01 to 496,510 tons in 1901-02, while the imports of iron and steel at the same time ran up from 164,31 ry tons to 459,869 tons. In other words, in the previous fiecal year there was an excess of exports in amount of nearly a million tons, but in the year just passed exports and imports about balanced each other. In the matter of stocks, sold and unsold, the "Age's" figures show no great change, the aggregate being down to an extremely low basis, namely 74,130 tons-hardly much more than a single day's output.

Quite in contrast with the situation in the iron and steel industries, the copper trade remains in an unsatisfactory shape. This week copper prices again weakened. Mr. John Stanton, who is an authority in the trade, jesterday afternoon issued his usual monthly compilation, the figures covering the month of July, and in these figures it is easy to see a reason for the renewed decline in the value of the metal. It appears that production (notwithstanding the great arop in the price as compared with a jear ago) is being maintained at its maximums while the exports are no longer so considerable as they were a short time ago. The amount of copper produced in the United States during July is given as 26,749 tons, or a few tons more even than for June, when the output had been the heavlest ever reached.

The exports daring the month were only 11,733 tons, as against 14,027 tons in June, 16,283 tons in May, 16,424 tons in April and as much as $20,09 \%$ tons in March. In the following table, prepared in our neual form, we show the amount of copper remaining for home consumption, after allowing for the exports' in each of the last three years.

| Copper Production. Tons of $2,240 \mathrm{lbs}$. <br> U. S. production. | July |  |  | -Jan. 1 to Jul |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | 1902. | 1901. | 1900. | 1902. | 1901. | 1800 |
|  | 26,749 | 21,985 | 23.012 | 187,197 | 155,379 | 157,589 |
| Exports | .11,733 | 6,824 | 11,636 | 109,693 | 56,851 | 101,015 |
| Remainder | 15,0 | 15,161 | 11,376 | 57,50ı | 98,528 | 55,874 |
| Production of forelgn report- |  |  |  |  |  |  |
| ing mines. | 9,210 | 9,254 | 7.433 | 61,753 | 56,101 | 50,588 |

As far as the month of July considered by itself is concerned, the sitaation is thas seen to be just what it Was in the same month of last year, 15,016 tons having been left at home in Jaly 1902 and 15,161 tons in July 1901, these amounts comparing with only 11,376 tons in July 1900. For the seven months to July 31 the comparison is better, owing to the large exports early in the year. For these seven months the excess of production over exports is only 57,504 tons in 1902 as against 98,528 tons in 1901. Comparing with 1900, however, when the sitaation was more nearly normal, it is found that the remainder then left was only 55,674 tons.

There was no change in official rates of discount by any of the European banks thls week, and unofficial or open market rates were easy at the chief centres. The striking feature of the statement of the New York Associated Banks last weok was the reduction of $\$ 4,706,875$ in surplus reserve, to $\$ 9,031,250$. This was cansed by the loss of $\$ 4,082,500$ in cash reserve, of which loss \$1,975,500 consisted of specle and \$2,10\%,000 of legal tenders, and also by the lncrease of $\$ 624,=$ 375 in reserve requirements, the deposits having been increased by $\$ 2,49 \%, 500$, mainly through the expansion of loans by $\$ 6,823,200$, less the loss of cash. The receipts by the bankz of the proceeds of Assay Office checks drawn against deposits of gold bullion at Pacific Coast points amounted during the week to $\$ 640,000$.

Money on call, representing bankers' balances, loaned on the Stock Exchange during the week at 6 per cent and at 3 per cent, averaging $4 \frac{1}{2}$ per cont. On Monday loans were at 4 per cent and at 3 per cent, with the bulk of the basiness at $3 \frac{1}{2}$ per cent. On Tuesday transactions were at 1 per cont and at 3 per cont, with the majority at $3 \frac{3}{4}$ per cent. On Wednesday loans were at 4 per cent and at $3 \frac{1}{2}$ per cent, with the bulk of the business at 33 per cent. On Thursdag transactions were at 4 per cent and at $3 \frac{7}{8}$ per cont, with the majority at $3 \frac{7}{8}$ per cent. On Friday afternoon money loaned at 6 per cent, after being quoted at $3 \frac{3}{3}$ per cont early in the day. This adrance was due to a demand incident to the payment of the forelgn subscriptions for the Oregon Short Line collateral trust bonds; the remainder of these subscriptions will be payable September 15. After the above-noted demand had been satiafied, rates for money on call receded to $4 \frac{1}{2}$ per cent, and 5 per cent was quoted at the close of the day. Banks and trust companies loaned at $3 \frac{3}{4}$ per cent as the minimum. Time loans were firmly held at $4 \frac{1}{2} @ 4 \frac{3}{3}$ per cont for sixty to ninety days and 5 per cent for four to six months on good mixed Stock Exchange collateral. The business was small for the longer periods, commission houses generally being well supplied with long-time money, but
there was a fair amount of borrowing for sixty to ninety days, and the offerings for these perlods were chiffly by the foreign bankers. The commercial paper market was dull and the little business done was at 4 ? ${ }^{2}$ Cl 5 per cent for sirty to ninety day endorsed bills receivable, $43 \times 5$ per cent for prime and $5 \frac{1}{2} @ 6$ per cent for good four to six months' single names.

The Bank of England minimum rate of discount remains anchanged at 3 per cent. The cable reports discounts of slxty to ninety day bank bills in London 211-16@23 per cent. The open market rate at Paris is $1 \frac{3}{4}$ per cent and at Berlin and Frankfort it is 178 (a) per cent. According to our special cable from London, the Bank of England gained $£ 322,65 \%$ bullion during the week and held $£ 36,900,763$ at the close of the week. Our correspondent further advises us that the gain was due to imports of $£ 323,000$ (of which £278,000 were bought in the open market, $£ 35,000$ from Australia and $£ 10,000$ miscellaneous), $£ 20,000$ net recelved from the interior of Great Britain and exports of $£ 20,000$ to Malta.

The foreign exchange market was weak, influenced in part by dearer rates for money, which caused liberal offerings of loan bills, and partly by sales of commercial drafts against cotton for prompt delivery and also of this class of bills drawn with the option of delivery sirty or ninety days hence. It is noteworthy that antll thls week bankers' long bills drawn with the expectation of belng covered at a profit at matur. ity have not been freely offered, sach operations in exchange being discouraged by the fact that last jear slmilar transactions in many cases resulted in loss, the market then being in such a condition as to compel the sellers to re-purchase the billa before maturity at comparatively high prices. Now, however, it is claimed that the indications point to lower rates for exchange when the bills fall due by reason of the expected large volume of bills resulting from the cotton, grain and provisions export movament. Commercial drafts made against future exports of staples have not heretofore been regarded with favor by bankers because of the high prices which have been maintained for them, and therefore the operations in these bills have been small. This week, however, holders of such bills have, in view of the probability of liberal supplies of spot drafts early in the cotton export season, been willing to make liberal concessions, and consequently sales of the bills have been quite large. The outlook for firm quotations for money, indlcated by the advance in short time rates, has this week encoaraged the drawing by bankers of sixty or ninety day sterling for the negotiation of loans upon stock collateral, the proceeds of these bills being placed by the purchasers who borrowed them either in the call or in the time loan market, or ased for their individual account in lien of domestic money. These various operations in commercial and in bankers' bills have had a direct effect apon long sterling this week and short sterling has been sympathetically influenced by the decline in rates for long and also by the absence of demand for this class of bills for remittance; cables likewise have been sympathetically affected and after Wednesday the entire market was weak. There was a sharp break in rates all around on Thnrsday, caused in part by liberal offerings of bills against secarities, and the de-
cline in sight was equal to 45 points compared with rates at the beginning of the weok. There was a further decline on Friday of 15 polnts in sight ex. change, making 60 points for the week. The Assay Office pald $\$ 1,052,65245$ for domestic bullion. Gold received at the Castom House for the week, \$38,665.

Nominal quotations fior exchange are $485 \frac{1}{2} @ 486$ for sixty day and $488 @ 488 \frac{1}{2}$ for sight. Rates for actual business opened on Monday easy in tone though nnchanged compared with those at the close of last week, except for cables, which were 5 points lower at $48825 @ 4$ 8835. On Tuesday there was a decline of 10 points in long and in short, to 48540 @ 48550 for the former and to $48780 @ 48790$ for the latter, while cables fell off 5 points to $48820 @ 48830$; the market was weak. On Wednesday the tone was easier for long and for cables, which declined 10 points for the former, to $48530 @ 48540$, and 5 points for the latter, to $48815 @ 48825$; short was barely steady at the close at unchanged rates, though selling 5 points lower during the day. On Thursday the market was very weak, long falling 30 points to 485 © 48525 , short 35 points to 48745 © 48755 , and cables 25 points to $48790 @ 488$. The tone was weak on Friday; then long was quoted 20 points lower at $48490 @ 485$; short at 15 points decline, $48730 @$ 48740 , and cables at a fall of 20 points, 48770 @ 48785 . The market was affected by the above-noted advance in rates for call money, and also by the Oregon Short Line bond subscriptions. The following shows daily posted rates of exchange by some of the leading drawers.
daily posted bates for foreign bxohange.

## the coronation and fing edward.

The delayed coronation ceremony which occurred on Saturday lacked somewhat of the pomp originally prepared for it. Yet the interruption unquestionably served to rais s the occasion beyond the merely ceremonial and to give it a sol эmnity and impressiveness which no mere external pomp coald confer. The evident sincerity with which Edward resigned the first of his baptismal names, that his father's might stand alone in honor, and his voluntary promise to follow in the footsteps of his mother, had been a most approprlate beginning.

The recent interruption-harsh and untimely re minder, as it seemod, that royalty is not more clozely hedged by dlgnity than by the common frailcyproved to have some fortanate results. The new King bore himself with such dignified and coartly patience and seemed so forgetful of self in his consideration for others, that he made the whols civilized world in fel lowship with him. Thas it cameabout that in a very unusual degree the man as well as the King has been brought before the eyes of the people, and has won their affectionate sympathy.

We take a degree of pride in our republican simplicity. Our Adminlstrations change with a smooth. uess which has never obtained, from all inauguration incldents we have been able to give it, any impress. iveness beyond what comes "from the absence instead of the presence of pomp. When the change is extraordinary, as it was last jear, the constitutional oath is taken with almost as much brevity and sim. plicity as the oath of a witness on the stand. For the witness promises to tell the truth; the elected official to act the truth; the President-elect to faithfully execute the laws and preserve the Constitution. England has a conservatism and a regard for traditionary forms which could not exist in this country, which never had form or tradition; and so Eagland retains some of the outward ceremony that once attached to an absolutism which no longer exists.

Of course we know that the monarchy is even more limited now than in the time of Gzorge III., but perhaps we hardly real zz that England is in effect a democracy. The differonce is in form rather than in substance. The execative is hereditary instead of elective, but the limitations are a!so hereditary, and they tend to gain force by time rather than lose it. Under the oath which King Eiward has just taken, undoubtedly with entire sincerity and cheerfulness, he promises to preserve to the bishops and clergy and the church "all such rights and privileges as by law" appertain to them, to cause law and justice in mercy to be executed, and to govern the people of the king. dom and lts dominions "according to the statates in Parliament agreed on and the respective liws and sustoms of the same."

This is in its very form an executive oath and in nowise resembles the crowning and anointing of an absolate monarch, claiming and allowed to hold by divine appointment, whose will is the lbw; it is also a constitutional oath in substance. For the essence, In England as here, is that government derives Its just and stable powers from the consent of the governed. It is even more true now than it was a half century ago that the strength of the throne is because it is "broad bazed apon the people's will and compassed by the inviolate sea." This being so, it is anlikely that England will come to the form of democracy, having already its substance.

Of course there is no country where this is recogniz with more satisfaction than here. There is a tie of kinshlp in race and speech which counts much. The civilization in both is the same, and commercial methods and intercourse grow closer to oneness. The King's illaess, very dramatic in its circumstances, called out a retarn of the quick sympathy which England extended in our own trial of last year. Per. haps it is quite as much a calm statement as an emotional expression to say that the two nations are brothers rather than consins.

Erents which were not foreseen and seem to have been ordered for us have also brought England and this country together in the Esst. In some sense young and new Japan is a ward of the United Stater, and it is certainly a picturesque fact that we have been forced into the position of morally sapporting an alliance in which we have no contractual part. It seems to be the natural law that a nation, like an individual, cennot live for and by itself, and the encouraglng fact as to our new international rel ations is that they came without our will or even against our wish.
This country is on Its second century and has never had an anclean Executive or one for whom we have had to blash. Of modern and democratle Englind the like may be said. King Edward is long prasticed in pablic duties, and if kingship is tiguratively a "trade" (ss it is sometimes callyd) the necessity of a business and social training for it is assaming the force of tradition and precedent. The people of the Uaited States can all the more join, with unreserving heartiness, in the cry of "vivat" aad in the prayer that the new sovereign may have a long, peacefal and prosperous reign.

ADVANTAGES OF THE BOSTON TRUST DEVICE.

Bostona, August 121902.
To the Editor of the Chronicle:
Sin:-The development of the trust in the accurate sense of the word has boen interesting and seems to be full of presage for fatare ase in consolidations. As it has been more widely adopted in Bjston than elsewhere your readers may be interested in some account of it. When I assert accuracy for my ase of the term "trust," it is becasase I wish to distinguish two common and inaccurate uses of the word. Of these there is first the "trust," in the sense of an illicit partnership between corporations, such as was the case with the first form of the sugar "trast." And second the current use of the word as denoting any powerful corporation, such as is more hilariously called an "octopus." Neither of these is a true trast. They and they alone are the things against which the
anti-trnst laws are directed, bat they are not trusts in any correct ase of the English language.
The real thing is the trust such as evergone has experience of in trusts under wills. The principle is that the trustee should be toward the outside world completely in control of the property or enterprise and should hold the results in trust for the beneficiaries. And my subject is the application of this principle es a substitute for incorporation, resulting in the crestion of trasts ander deeds, possessing all powers necessary for a joint enterprise, and powers fully equivalent to those which a State can grant to a private corporation. These trusts show in their workings that only special franchises, such as those in the public streets or of like kind, require any real favor from the State. Otherwise legislatures have really nothing to grant to basiness men who wish to make a joint adventure. Anything which one man can do, these trasts can do and do as well as a corporation. Thla idea, so broadly stated, may be surprising to some legislators who have been accustumed to regard private corporations as created by and beholden to the legislature, and therefore to be tased differently from individuals. Bat experience shows that my statement is not too broad.

Although Boston has been the scene of the greater devtlopment of these trusts, we are indebted to New York and to the greatest of American statesmen, Alexander Hamilton, for an farly-perhaps the earli est-example of this conception and an important application of it. I refer to the articles of association or "Plan of the Merchants' Bank" which may be found in his collected works (Congressloral Edition VII., 838), and form a striking monument to the diversity of his genias. At that time private banking was allowable. The New York Legislature was jealous of corporate banking and refused to grant charters. Joint-stock private banking was open to all, bat involved unlimited liability in every stockholder, a difficulty recen'ly touched on in your revien of the history of the Bark of New York.

Under these circumstances Hamilton evolved the first of the two great idess of the modern trast, lim ited liability, and the equivalent of corporate form and power withont assistance from any legislature. The eleventh of these "articles of association" for a joint-stock private bank :ead: "It is hereby expressly and implicitly declared to be the object of the persons who associate under the style or form of the Merchants' Bank that the joint stock or property of the said company (exclusive of dividends to be made in the manner hereirafter mentioned) shall alone be responsible for the debts and engagements of the said company." And this is followed by other and strin gent provisions, which by admirable draughtsmanship must fully protect the shareholders. Suits are to be brought against the President only as the representative of the company-a device still to be found in New Yoik law. " $A$ 'l persons dealing with the com pany agree to these terms and are to be bound thereby." All contracts declare this immunity, and the officers have no power to make any contracts or bind the enterprise in any way unless this is incorporated in them. It is to be in every pass-bock. The shares are made transferable. Directors and officers and their flection are provided for, and the complete working scheme of a corporate enterprise is there, ready for use, with no sponsor but the draughtsman.

In the light of experience of to-day certain defects appear. The shareholders must have been personally liable without limit for torts or wrongs committed by their officers, and a lawsuit about the property in bills of exchange or in money may sometimes easily be made to "sound in tort," as the lawyers say. It may bave been rather difficult to brirg suits for the company in its name or style or in the names of all its shareholders. Perhaps its bills and notes were so framed that suits could be brought in the name of its President for its ase. I mention these difficulties only to show how few ard trifling they were. In the main the problem of the time was well solved by that strong and masterful mind.
You may think it strange that when I assert that this trust idea is a Boston development I should mention a Philadelphian ase of it as the next in date of which I am aware. But such is the case. William Bingham, the elder of the name, possessed in the rarly part of the Nineteenth Century great tracts of land lying in various States of the Union. After his death the interests became divided, and it seemed likely that they would become still more divided. Yet it appeared wise that the estate should be kept together and maraged as one whcle. Hence, at an early date (1853) various reasons of convenience and of title led the owners to convey all their interests to trastees and to form a land trust, which was substantially equivalent to a corporation for the parpose of owning and managing this real estate. This enterprise is carried on actively to-day under the same form. And its organization marks the first use in the United States of which I am aware of the second of the two basic principles of the modern trust. Hamilton had accomplished limited liability. This draughtsman applied the available body of law relating to trasts and trustees.

These are, however, only two isolated examples. The anreasoning hostility of Massachasetts statute law to real-estate-owning corporations drove the Massachusetts real estate owners to be the first who in this country made a general practice of obtaining the securitios and advantages of limited liability and joint enterprise through the use of the principles and law of trusts.

In the Massachusetts "trasts," of which many exist to-day, the outer world deals only with a small body of trustees. For all legal purposes these gentlemen desl with the world as individuals, except that they offer only the security of the common fund or joint stock, and can only give that within the lines laid down by the trust instrament. In this instrument various well-drafted sections about limited liability, payment for stock, the corporate parpose, transfer of shares, etc., etc., suprly the places both of the sections of the ordinary corporation statate and of the charter of a private corporation. Within the concern these trustees are in tarn responsible to their beneficiaries or shareholders along the same lines and with the same results as the directors of a corporation are reponsible to its ahareholders. In fact it is probable that there is nothing in the enabling statate of any State relative to private corporations which cannot be exacily reproduced in a trust agreement. Bat while within each State its corporation law is more or less inflexible, the flexibility of the trust offers a choice limited only by the English language. A single exception is needed to this broad statement. The trustees are personally liable for torts or wrongs, inde-
pendent of contract. Of course they are entitled to indemnity out of the trust fund, and only a foreclosare of a mortgage on it or a general failure of assets can make the question a practical one. Twenty years ago that might have been a serious hindrance to the use of a trust, for instance in a great manufacturing plant with many personal injary cases. To-day liability insurance with the premiam paid in advance practically disposes of that one remaining question.
From its small beginnings the trast has grown in Boston to a wide development. The monthly quotation list of the leading firm of brokers in Boston who deal in real estate trust and corporation stocks quotes as active the stocks of fifty trusts and of only two cor porations. These trusts have an aggregate capital of thirty-eight millions, or, including bond and mortgage debt, of fifty millions, practically all quoted above par, and among them one may recognize several which own and manage land in various States of the Union. I notice that you have recently found it needful to make a place for the stocks of the same in your Bank and Quotation Supplement. So far as I know, these trusts have gone wherever they chose, finding the local law always sufficient and proper for their needs.

They are not open to the rule that a foreign corporation must submit to the local regulations of each new State it enters. No franchise or privilege taxes await them, no attack on "foreign corporations." And in this respect they are to a great extent secured by the Constitution of the United Stater. That instrument provides (IV,4), that " the citizens of each S tate shall be entitled to all the privileges and immunities of citizens in the several States," and it is confidently asserted by counsel that no State cay, in vlew of this clause, limit the powers or privileges of the trustees of such a trust who come from another State to do business within its borders except by a statute which imposes a like restrlction upon its own citizens as individuals. Such constitutional protection, even if the Iaw be not quite so broad as it is stated, is a very great securlty in these days of sandbagging and blackmailing of foreign corporations.

The trusts quoted are mainly those which own real estate for profit. A member of the legal profession of international repatation is reported to have given an opinion that their shares are therefore real estate. The bearing of this upon local taxation and on the recent United States inheritance tax llmited to personality ls obvious.

After a time, however, as trusts increased they came to be applied to ordinary business ventures where some special reason existed. For instance, an archaic provision of Massachusetts's general corpora. tion law forbids business corporations with capitals of more than a million dollars. And when the Ladlow Manufacturing Company desired to increase its capi tal beyond that limit those concerned formed a trust of like name, which has purchased all the property of the corporation and now carries on its business with an appropriate capital. The two largest trusts, however, are the Massachusetts Electric Companies, a street railway venture, with a nominal capital of thirty-two millions, and the New England Gas \& Coke Company, with a nominal capital of thirty-five millions, soon to become the Massachussetts Gas Companles, a gas and coke manufacturing plant, whioh is also heavily interested in the Boston gas distributing corporations.

The Massachusetts Electric Companies is a trust which holds the stocks of the franchise-owning street sallway corporations and issues its own preferred and common stock against them. This, by the way, illustrates again both the archaic character of certain parts of the Massachusetts corporation law and the flexibility of the trust, for where the law allows no preferred stock at all in our State, the trust form allows of any preference or classification which may be desirable.

Most interesting of all, however, in the nature and magnitude of the enterprise carried on by a trust, is the New Eagland Gas \& Coke Co. I shall write here only of its trast feature and little, if any, of its other vicissitudes, although its fallure is interesting as showing that a trust can fail and be reorganized as easily and as neatly as a corporation. Its origin as a trust was due in part at least to a fear of misconceived governmental interference. The risk that either the Lagislature or the Buard of Gas \& Electric Light Commissloners would interfere inadvisedly was great enough to be a very serious matter and to deter capital from a corporation which would have been subjact to leglslative interference and to the powers of that commission. Another consideration was that the promoters desired to consolidate the distribating or franchise-owning companies, and that acheme, in ordinary corporate forms, would have found it hard to pass the many legislators and commissioners whose concurrence would have been made necessary. Simple articles of assoclation accomplished the whole result, and the operation under them has proved that the trust system is fitted to the largest enterprises.
Where general corporation laws are fair to the public and to the stockholder, where they impose no tax or limit on the many shareholders of modest means, whom such a combination represents, which they do not also impose on one malti-millionaire doling a like business on his own account-Where the statutes merely prescribe the means to the end of a profitable joint venture-there will probably bo little growth of these trusts. B at where corporation laws are archaic, where private enterprise is serlously taxed on the false ground that the State confers a greater favor by allowing two or more to do an otherwise indifferent and permitted thing, there the Massashusetts development of a trust will spread and grow. The limited liability of its stockholders has been sustained by the Federal Courts, the rest of its machinery only applies the simplest principles of trusts under wills such as any layman is familiar with, and the skill of the draughtsman will supply all that can be desired to the largest enterprise. It is to be hoped that a proper appreciation will be shown of what corporatione, because of this situation, do not need from the legislature. And it is sincerely to be hoped that the community will become more reasonable about enterprises which involve the joint venture of capital by shareholders, but which are private concerns; and that both the general community and the legislatures will anderstand how littlg the State ought to interfere in such matters and how costly interference may prove if it is sufficiently extended to hamper the many in combining for joint ventures. I belleve joint and corporate enterprise is the best protection the community can have against the power and the possible oppression from large individaal capitalists. And I submit that if the ignorant in the community go on, as they are now doing, toward making things easier to

#### Abstract

be accomplished by siugle great fortunes than by many modest shareholders united together under the sanction of the law, they will have a heavy reckoning to pay. The contrary should be the case. Capital, if we are to have a peaceful democracy, should be a thing in which the laborer can own a share to the same adrantage as the millonaire. To this end these trusts are doing a good work. They are educating the community up to a proper idea of the nature of a joint venture. And meanwhile they offer a security and a freedom which the community ignorantly dentes to private corporations.

> Richard W. Hale.

## THE BUFFALO ROCBESTER \& PITTSBURG RAILWAY.

The Buffalo Rochester \& Pittsburg Railway Company has favored us with an advance copy of its annual report for the fiscal year ending June 301902. This is one of the smaller companies which has quite a prosperous record. It is a very large carrier of bituminons coal, connecting Buffalo, Rochester and Charlotte, N. Y., with the coal fields in Western Pennsylvania, and its success is to he attributed to the wise policy of the management in putting the road in condition to move this coal tonnage (which has to be taken at low rates) at a minimum of cost. A few years ago these coal rates were down to an extremely low figure, bat under the great industrial revival which has occurred, and with a better understanding among competing coal carrlers, rates have since been on a more satisfactory level. Still it may be surprising to learn that the last twelve months there was again a falling off, the average per ton per mile (all classes of freight) having dropped to 5.05 mills, againgt $5 \cdot 46$ mills in the twelve months preceding. Two years prevlously, however, the company had realized no more than $4 \cdot 12$ mills per ton per mile.

Under the improvement in rates and the steady ex. pansion in the volume of traffic, and elso some inorease in the extent of road operated, revenues have been steadily rising. Even in the late year there was a further addition of $\$ 482,627$ (bringing the total of the gross up to $\$ 6,313,246$ ), notwithstanding the decline slready noted in that period of twelve months in the average rate recelved, and notwithstanding some other drawbacks. Among these drawbecks may be mentioned a strike at the mines along the line in April, many of the collieries having been idle for a period of sixteen days in that month-from April 1 to April 17. It is estimated that in conseqence the coal and coke tonnage of the company was reduced 250,000 tons. As illustrating the growth of the traffic, despite these adverse influences, it should be noted that there were increases in the tonnage of all commodities except anthracite coal and products of the forest. The company had one advantage in the late year which will not be repeated in the current year, namely the extra passenger traffic to the Pan-American Exposition at Buffalo. Passenger revenues for the twelve months increased $\$ 141,750$, in part as a reault of that clrcumstance.

The net income also keeps expanding. For the late year the total of this net income was $\$ 2,681,241$, against which the requirements for charges were only $\$ 1,406,976$, leaving a balance in the sum of $\$ 1,274$, , 265. The company has long made it a practice to apply a large share of its available net income to the
making of improvements and betterments. Tnis policy was continued during the late yoar, nearly half the $\$ 1,274,265$ net income being appropriated to that purpose. In brief, the company charged against income no less than \$583,562 for extraordinary expenses and improvements and for construction and equipment. This appropriation of $\$ 583,562$ represents the principal of all car trust bonds pald off during the year, amounting to $\$ 128,000$, and the entire expenditure for construction on the linez owned and on proprietary rosds, with the exception of $\$ 220,2 \% 1$ transferred to the debit of profit and loss account.

In the case of one of the larger systems, the appropriation of close on to six hundred thousand dollars out of earnings for sach a parpose would not be specially noteworthy, but for a road of the size of the Buffalo Rochester \& Pittsburg, earning altogether only a little over six million dollars gross, it is exceedingly significant. The secret of the company's strength and continaed prosperity lies in that fact. As indicating the efficiency of management attained through the application of money in that way and through caroful attention to the lading of the trains, reference may be made to the large average train load which has been reached. In the late yenr there was a further addition of 18 tons to this train load, raising the average number of tons carried one mile per train mile to the high figure of 423.61 tons. This is the result, excluding the mileage of helping engines; but even with the mileage of these engines included, the average stands at 353 tons.

After dedacting the $\$ 583,562$ applied in special appropriations, there remained a surplus of $\$ 690,703$. Dividends at the rate of 6 per cent on the preferred stock and 4 per cent on the common stock took $\$ 600,000$, still leaving a balance in the amount of $\$ 90,705$. Aathority was given last November to increase the stock (which now consists of $\$ 6,000,000$ common and $\$ 6,000,000$ preferred) by the amount of $\$ 3,000,000$ common stcck. Of the additional stock, \$1,000,000 was issued Jaly 11902 in exchange for the same amount of convertible debenture bonds canceled and on July 231902 stockholders were advised that $\$ 1,300,000$ additional common stock would be issued to pay for certain new extensions. Another $\$ 1,000,0004 \frac{1}{2}$ per cent twenty year gold bonds was also authorized during the last year to provide for additional rolling stock, of which the company is still in need, notwithstanding the similar additions of previous years. Only $\$ 674,000$ of these bonds were sold during the year, making the net addition to the bonded debt (after allowing for the $\$ 128,000$ car trust bonds retired out of earninge) $\$ 546,000$. On account of the increase in traffic the company is also putting in second track at a number of congested pointe, the limit of economical operàtion on a single track having been reached.

## RAILROAD GROSS EARNINGS FOR JULY.

Railroad gross earnings (speaking of the rosds as a whole) continue to record noteworthy gains. The matter is deserving of more attention than usual because the roads are not yet getting any of the traffis from the extraordinarily large grain harvests which seem in prospect thls season. We present to-day our usual preliminary compllation of the gross earnings of United States railroads covering the month of Julyso far as it is possible to procure returns thus early-
and this compilation shows an increase of $\$ 4,347,381$, or 7.65 per cont, as compared with the large total of the corresponding month last jear. The further im. provement was effected in face of a falling off in both the grain and the live-stock movement in the West and of the cotton movement in the South.

It is proper to say that none of the anthracite coal roads are represented in our tables (these roads never furnishing early statements of approximate figures), so the influence of the anthracite miners' strike, which continued throughout the month, is not reflected in the figures giren. As to the bituminous miners' strike in Virginia and West Virginia, that has had some curious results. In our table there are two roads running through that territory, namely the Norfolk \& Westernand the Chesapeake \& Ohio. The latter has suffered a large loss in earnings. The Norfolk \& Western on the other hand, notwithstanding the strike, records an exceptionally large gain. The explanation is that at the mines along the llnes of the Norfolk \& Western the strike proved a failure, the men quickly returning to work; and with the Chesapeake \& Ohio miners remaining on strike the consequence has been that the shipments of coal over the Norfolk line, instead of being decreased, were actually quite heavily angmented.

The improvement of $\$ 4,347,381$ which our compilation for the month discloses derives additional significance from the fact that it comes after suc cessive large increases in the same month of other yoars. In July 1901, particularly, the gain had been large, the amount of the addition at that time having been $\$ 6,515,026$, or 14.06 per cent. In the same month of 1900 the increase was not quite so strikiag, reaching then $\$ 2,798,468$, or $6 \cdot 07$ per cent. But in July 1899 the increment had beon $\$ 7,154,0 \% 1$, or almost 17 per cent. In fact we would have to go way back to 1894 and 1893 to find a period when there had not been an addition of some kind, large or small. The further improvement the present jear is supplementary to all these increases in the years from 1895 to 1901 inclusive, as the following table will show.

|  | Mrleage. |  | Gross Earnings. |  | Increase <br> or <br> Decrease. |

Note.-We do not inolude the Mexioan roads in any of the years.
In the case of the separate roads the expansion in revenues reaches in many instances noteworthy proportions. The Northwestern trans-continental roads are on the whole most conspicuous in this respect. Thus the Great Northern system has added noless than $\$ 7 y 8,246$ to its total of last year, the Northern Pacific $\$ 643,309$ and the Canadian Pacific $\$ 312,545$. Of course in that part of the country there was last
season a good spring-wheat crop as compared with a very poor spring-wheat yield the previous season. Bat it mast not be sapposed that because of this poor crop in the previoas jear these roads in Jaly 1901 had shown a loss in earnings. On the contrary the Great Northern then had 8415,711 gain, the Northern Pacific $\$ 456,893$ gain and the Csnadian Pacific \$380,285 gain.

But in other parts of the country the record is also one of continuous improvement. Thus, if we turn to the South we find the Southern Railway favored with an addition of $\$ 288,211$ the present year and the Louisville \& Nashville with a gain of $\$ 349,076$, both after very considerable increases last year and the years before. The Norfolk \& Western, as already noted, also has a large increase-namely, \$237,262. As pointed out above, the bituminous coal miners' strike in Virginia and West Virginia operated to the advantage of the Norfolk \& Western, since its own miners having returned to work while the Chesapeake \& Ohio miners remained out, the shipments over its lines were heavily increased.

In the Southwest there are a few roads which have fallen behind in their earnings, the Missourl Pacific and the Texas \& Pacific being among the number. Bat on the other hand the St. Luuis \& San Francisco has \$177,621 increase and the Missourl Kansas \& Texas and the St. Louls Southwestern also man. aged to add small amounts to their large totals of last year, notwithstanding the severe crop shortage which was experienced last season in the Southwest. In the Middle Western States and in Ezstern Trunk Line territory the gains are less exceptionally large, but nevertheless in most cases there is a fair improvement over last year's noteworthy figures. In the following we show all gains and also all losses in excess of $\$ 30$, 000 in amoant.

neo Rio Grande Western.
As already indicated, the grain movement in the West did not come up to that of last year. The corner in corn and in oats at Chlcago acted to draw mach of the two kinds of cereals to that point, but the wheat receipts at Chicago fell several million bushels short of the previous jear, though at a namber of other Western points the wheat arrivals exceeded those of 1901. Taking wheat, corn, oats, barley and rye together the deliveries for the five weeks ending Augnst 2 at the principal Western primary markets were only $51,783,370$ bushels in 1902, agalnst 52,919, 321 busheis in the corresponding five weeks of 1901. The difference, it will be seen, is not very large, amounting to only a little over a million bushels. But In order to fully understand how small this year's total was it is necessary to recall that the figures for 1901 with which comparison is being mado wero them. selves very small. Last year our statement was made up to show only the four weeks instead of the fire
weeks, and for these four weeks the aggregate of the receipts at that time was found to have been about $4 \frac{1}{2}$ million bushels below the total for the same four weeks of 1900 and nearly 16 million bushels below the total for the corresponding four weeks in 1899. The grain movement for the two years in our usual form appears in the following.

For Chicago we also have the figures for the even month, whlch we give in the table below. This enables direct comparisons to be made with 1901 and the years preceding, bat the result only emphasizes the point already made as to the small extent of the receipts the present year. It appears from the table that the deliverles of wheat, corn, oats, ryejand barley in July 1902 were 17,121,001 bushels, against 18,188,140 bashels in Jaly 1901 and 19,705,613 ln Jaly 1900; going back to July 1899, it is found that thelltotal then was $27,335,847$ bashels.

| LivehogsNol | 480.930 | 680.208 | 538,102 | 6,181,597 | 9,363,479 | 5,000,233 |

The foregoing table, it will be observed, contains besides the figures of the grain movement, statistics at the end indicating the receipts of provisions and live hogs. The number of head of hogs received this jear $\ln$ July was only 490,936 as against 680, 202 in July 1901 and 703,146 in July 1899. Moreover, the showing for Chicago in this particular is no different from that of the other principal live-stock markets. Combining Chicago, Kausas City, Omaha and St. Louls, the
deliveries of hogs at the four points foot up only 823,432 head in July 1902, against 1,461,013 head in July 1901; the deliveries of cattle, 581,733, against 684,087, and the deliverles of sheep, 579,138 , against 688, 985.
With referonce to the cotton movement in the South, it is not expected of course that the movement will be heavy so late in the cotton season. At the Soathern outports the receipts the present year were only 51,409 bales, against 141,003 bales in July 1901. The shipments overland were only 17,803 bales, against 66,490 bales. The details of the movement at the Soathern ports are shown in the following table.

REOEIPTE OF COTTON AT SOUTEERN PORTS IN JULY, AND FROM
JANOARY 1 TO JULY 31 , IN 1902,1901 AND 1 OOO JANUARY 1 TO JULY 31, IN 1902, 1901 AND 1900

To complete our analysis, we furnish the following slx-year comparison of earnings for the principal roads, arranged in groups according to their location. Every group, it will be noticed, shows a larger total of earnings for 1902 than for 1901, though in one or two instances the farther increase the present year is slight. The groap distinguished for the most noteworthy improvement is the Northwestern, by reason of the large increases already referred to for the Great Northern and the Northern Pacific.

ITEMS ABOUT BANKS BANKERS AND TRUST CO.'S.
-The public sales of bank stock this week aggregate 107 shares, of which 10 shares were sold at the Stock Exchange and 97 shares at auction. Dealings in trust company stocks have been limited to the sale at auction of a 25 -share lot of N. Y. Security \& Trust Co. stock. In the "carb" market 10 shares of stock of the Trust Co. of the Republic were sold at 835 .

* Sold at the Stock Exchange.
-J. P. Morgan \& Co., Augast Belmont \& Co., the National City Bant and Baring, Magoun \& Co. made application on Monday to the Board of Governors of the New York Stock Exchange to have listed $2,310,000,000$ roubles ( $\$ 1,188,495,000$ ) of State 4 per cent certificates of rente of the Imperial Russian Government. The above-named bankers are anthorized to pay the coupons on these rentes. The application was promptly acted apon by the Committee on Stock List and the securities were quoted on the list after Wednesday. In addition to the above, there are now listed on the Exchange the following foreign secarities: The United States of Mexico external gold loan of 1899 sinking fand 5 per cents, amounting to $£ 22,407,000$; Province of Quebec 5 per cent loan of 1908, $95,000,000$, and Frankfort-on-the-Main, Gormany, $31 / 2$ per cents of $1901,15,000,000$ marks.
-A most useful little book, dedicated to Mr. Henry Dlmse, Cashier of the National Citizens' Bank of this oity, has been compiled by Mr. H. Gerald Chapin, LL. D., of the New York City Bar. The booklet is styled "Banking Forms," and is issued with the compliments of the bank. The work is well gotten up, containing 36 pages, and is intended for use in "cases of emergency where the occasion does not warrant the services of a lawyer." To give a general idea of what the book treats of, we may state that in it are given forms of a plain promissory note; promissory note with deposit of collateral in several varieties; notice to stop payment on check; affidavit as to forged signature on check; bond for lost certified check; gaaranty of third party's "specific obligation; agreement for financial accommodation; general power of attorney to sell and assign United States bonds; proxy; assignment of savings bank book, etc., etc. An index in the back gives added value to the pamphlet.
-The 10,000 new shares of the Irving National Bank of this city, recently issued to increase the stock from $\$ 500,000$ to $\$ 1,000,000$, were listed on the Stock Exchange. on the 13 th inst.
-Six new directors have been given place on the board of the Yorkville Bank, at Third Avenue and 85th Street, this city, the number having been increased from 15 to 21. The new names are August Belmont, Richard Dolafield, Stayvesant Fish, Gilbert G. Thorne, Cornelius Vanderbilt and George F. Vietor, all of the National Park Bank. In March, it will be recalled, interests identified with the latter bought stock in the Yorkville, a State institution.
-The meeting of stockholders of the National Bank of the United States of this city, which was called for Monday, Aug. 11, was adjonrned antil Sept. 15 in consequence of the absence of a quoram. It is expected that at the adjourned meeting the board of directors will be changed so as to admit the new interests which now control the bank, and action will be taken on the proposed increase of capital.
-At an early hour on Monday morning fire on the upper floors of the Bank of New York building, Wall Street, corner of William, caused about $\$ 25,000$ damage. The lower floors, including the bank's premises and the safe deposit vaalts, were more or less damaged by water, but the basiness of the bank was conducted as usual, though at some inconvenience.
-Washington dispatches state that the Commissioner of Internal Revenue has directed that steps be immediately taken for the collection of the tax on undivided prof ts of the banks, which collection was suspended last January awaiting a decision of a test suit brought in the District Court for the Southern District of New York by the Leather Manufacturers' National Bank of this city. This sait having been decided in favor of the Commissioner, his contention as to the liability of the banks to pay the tax having been sustained, the Commissioner has concluded to enforce collection of the tax. The amount claimed to be due is for the last fiscal year.
-The stock and surplus of the Guardian Trust Company will be increased from $\$ 500,000$ to $\$ 1,000,000$ each by the sale of the additional amount of stock at 200 , payments therefor to be made on or before September 15. The company will begin business on or about September 1 at the corner of Broadway:and Maiden Lane,
-The application for incorporation made by the Herald Square National Bank of this city was approved by the Comptroller on August 7. Capitalization is given as $\$ 300,000$, with $\$ 150,000$ paid-in surplus. The location is to be in the neighborhood of 34th Street and Broadway.
-The directors of the Perth Amboy Trust Company of Perth Amboy, N. J., have chosen as the head of their institation Mr. James C. McCoy. The Vice-Presidents are Mr, William A. Connor and Mr. Joseph E. Chapman. The board consists of twenty-one members, one of whom is Mr. George W. Young, Vice-President of the Commercial Trust Company of ret Brodhead is also connected with the company, his name appearingionsth e executive board.
-Extensive alterations are contemplated by the New York State National Bank of Albany, N. Y., in the interior of its building. The main banking room is to bo greatly enlarged, and a large skylight in the roof will furnish additional light to the same. A change will be made in the location of the directors' room, and improved accommodations have been arranged for the staff employed by the bank.
-The Albany Trust Company of Albany, N. Y., which voted on June 19 to increase its capital from $\$ 200,000$ to $\$ 300$, 000, now reports the latter amount as paid in. According to the local papers the company has abandoned the idea of erecting a twelve story building, plans for which were accepted in the spring, bat will instead constract a smaller one, possibly only one story. The matter is still under consideration.
-The First National Bank of White Plaine, N. Y., mention of which was made in our issue of March 29, has been granted a certificate of incorporation. This institation (capital, $\$ 100,000$ ), is successor to the White Plains Bank. Mr. David Cromwell continues as President.
-With its removal on Julỳ 28 from 138 Weybosset Street to its splendidly equipped new structure at Dorrance and Westminster streets, the Union Trust Company of Providence, R. I., is in still better position to cater to the wants of its patrons. The new quarters are commodions, elaborately fitted out and contain every modern contrivance for the quick and safe dispatch of business. The company's manage ment is in the hands of Mr. Marsien J. Perry, President; Henry L. Greene, C. S. Sweetland and L. R. Peck, VicePresidents; Michael F. Dooley, Secretary and Treasurer; Frank E. Chafee, Assistant Secretary, and Francis E. Bates, Assistant Treasurer.
-Mr. H. C. Mceldowney, President of the Union Trast Company of Pittsburg, was, it is stated, the purchaser of the
property formerly occupied by the Citizens' National Bank of Pittsburg, and which was sold at auction on August 5. The price is given as $\$ 202,000$. The bank was absorbed by the trust company, it will be remembered, last month.
-Diamond National Bant, of Pittsburg, interests have organized the Diamond Savings Bank. Quarters bave been secured by the new institution in an adjoining luilding on Fifth Avenue, where it will begin business in about four months. Capital and eurplus are to be $\$ 100,000$ each. Mr. John S. Scully, President of the Diamond National Bark, will hold a similar position in the projected bank. His associates will be J. W. Lee (State Senator of Pennsylvania from 1879 to 1886) as Vice-President and John S. Scully Jr. as Cashier.
-The Fourth National Bank of Cincinnati expects to remain in its present location only a few years more, having concladed the purchase of a site on the north side of Fourth Street between Vine and Walnat streats. The property opens on three thoroughfares; it is about 50 feet front, with a depth of $1191 / 2$ feet. Neither the character nor design of the building has yet been decided upon, present leaseholds which still have some two years to ran making an early decision of that matter unnecessary.
-The Commercial National Bank of Sandusky, Ohio, whose application was approved by the Comptroller on Angust 1, is the name of the institution organized, it is stated, to take over the Moss National and Second National banks of that city. The aathorized capital of the Commercial is $\$ 100,0$ co . The names of Mr. William L. Allendorf and John Whitworth, respectively Cashier and Vice-President of the Second National, appear among those who signed the application.
-Incorporation papers have been filed for the Helvetia Savings \& Banking Company of Cincinnati, Ohio, capital and surplus $\$ 50,000$ each. Deposits will receive interest, it is stated, at the rate of 4 per cent. The company will locate near Twelfth and Vine streets and will be under the management of Mr. Charles Nickels, President, and Mr. Herman H. Evers, Secretary and Treasurer.
-Work on the proposed building of the .Third National Bank of Cincinnati has now begnn, and occupancy of the new site, at Vine and Race streets, will occur about July 1 of next year.
-The call issued for a meeling of State bank examiners to be held on July 29 at Detroit, at which the organization of a general association was planned, drew forth representatives from Minnesota, Iowa, Maine, Sonth Dakota, Wisconsin, I1linois, Ohio and Michigan. Preliminary details were completed of the organization, to be known as the National As. sociation of State Bank Examiners, whose prime object is to secure uniform rules for the inspection of banks and needed legislation or amendments for the greater protection of depositors and the investing pablic.
-Messrs. Otis, Wilson \& Co., Chicago, have opened a branch office at 8 Congress St., Boston. Mr. John H. Allen is in charge of this office. The honse deals in all classes of investment securities and are specialists in foreign government, State and City bonds, principally Mexican and German issues.
-The Drexel State Bank of Chicago commenced business last Monday in its convenient and beantifnl quarters at the intersection of Drexel Boulevard, Cottage Grove Avenue and 39 th Sireet. With a strong board of directors and $\$ 200,0 C 0$ paid-up capital, this new bank opens with a good prospect of rapid growth and a profitable business.
-The Federal Trust \& Savings Bank of Cbicago, through its Assistant Cashier Edwin L. Wagner, has bought a piece of property on 92 d Street in South Chicago, where it is contemplated to open a branch office of this new and progressive financial institution.
-The execative committee of the Omaha Clearing-House has arranged to hold the annual State oonvention in Omaha on October 2 and 3. The programme on this occasion will be somewhat more elaborate than last year's meating, which occurred shortly after the death of President McKinley.
-The official liqnidation of the Continental National Bank of St. Louis, Mo., merged the latter part of May with the National Bank of Commerce in St. Louis, took effect on July 31.
-The Mercantile Trust Company of St. Louis moved into its attractive new bome on Monday of this week, The baild-
ing is at the corner of Eighth and Locust streets, and was designed exclusively for the bank's own use. It is two stories bigh, with a roof story above the cornice. Its most striking feature is the heavy granite pillars, fifteen in all, employed in the construction of the facade. The officials are: Mr. Festus J. Wade, President; Corwin H. Spencer, Lorenzo E. Anderson and Jonathan Rice, Vice-Presidents; C. H. McMillan, Secretary; J. B. Moberly, Assistant Secretary; George W. Wilson, Treasurer; William Maffitt and John H. Krase, Assistant Treasurers; Jacob Klein, Coansel; Virgil M. Harris, Trust Officer, and A. V. Rejbarn, Manager of the Safe Deposit Department.
-The session just closed by the Wisconsin State Bankers, Association at Milwarkee was socially and artistically a most successful affair. Two days were devoted to the event, but the business session proper consumed only one day, Wednesday, the 13th inst. There was a discussion of the question of Assets Currency and Branch Banking, participated in by John Campbell, Assistant Cashier of the Marshall \& Ilsley Bank of Milwaukee, and T. R. Frentz, Cashier of the German. American Bank of Oshkosh. The convention adopted the following resolutions on the subject by a manimous vote:
Resolved, That we are opposed to the Fowler Bill, and all legislation tending to the substitation of branch banks for our present inde. pendent system of banking, and our representatives in Congress are urged to oppose such proposed legislation.
Resolved, That we are opposed to any law tending toward the substitution of assets carrency for the present national bank circulation.
At a banquet held Wednesday evening at the Plankington House several toasts were arranged, as follows, Mr. Jonn Johnston, Vice-President of the Marine National Bank of Milwankee, acting as toastmaster.
"The Advanoement of the Northwest," response by Mr. W.W. Wight. "Pablic Opinion and the Banks," response by Mr. E. H. Bottum.
"A Judloial Temperament Necessary to a Good Banker," reaponse by Mr. John F. Burke.
"The Banker's Influence Upon the Community in Which He Lives," response by Mr. John M. Holley, of the State Bank of La Crosse, Wie. The following officials were elected:
President, George L. Flela, President of the First National Bank of Ripon.
Vice-President, George N. Fratt, Cashfer of the First Natlonal Bank of Racine.
Secretary, John Campbell, Assistant Cashler of the Marahall \& Ilsley Bank of Milwaukee.
Treasurer, H. J. Brown, Cashier of the Stephenson National Bank of Marinette.
-The organization is under way of a new Kansas City, Mo., trust company, the capital of which is to be $\$ 500,000$. Although the matter has not been definitely decided, it is believed that the corporation will be atyled the Monarch Trust Company. Mr. Walton H. Holmes will direct its affairs as President. Mr. Holmes was formerly President of the Metropolitan Street Railway Company of Kansas City. Mr. George E, Bradley is temporary Seoretary. The company will have four departments-banking, savings bank, trast and real estate-each nuder the management of a capable officer. The par value of the shares will be $\$ 100$ each.
-The Comptroller of the Currency issued on Jaly 26 a certificate of incorporation to the Continental National Bank of Denver, Colo., several references to which have recently appeared in these columns. The capital is given as $\$ 300,000$. Mr. H. J. Alexander is Cashier, and Delos A. Chappell and John W. Springer are Vice Presidents.
—Wm. P. Bonbright \& Co., Colorado Springs, Col., have opened a branch office at 15 Wall Street, this city, in charge of Mr. W. P. Bonbright. The house has also a branch office in London at 15 George Street.
-The Colorado State Bankers' Association, which recently met at Colorado Springs, Col., elected officers as follows: President, C. B. Kountze (President of the Colorado National Bank of Denver); M. D. Thatcher (President of the First National Bank of Paebln), and Secretary and Treasurer, Frederick G. Moffatt (Assistant Cashier of the First National Bank of Denver). Ex-Comptroller Charles G. Dawes delivered the principal address. The convention next jear will be held at Denver.
- At the annual meeting of the Seattle Clearing Hoase Association on the 5th inst., Mr. M. F. Backns (President of the Washington National Bank of Seattle) was re-elected President and Mr. A. H. Soelberg (Cashier of the ScandinavianAmerican Bank of Seattle) was again chosen as Secretary.

A resolution was adopted by the association in faror of inviting the American Bankers' Association to bold its 1903 convention in Seattle.
-In our remarks two weeks ago concerning the growth of the National Bank of the Republic in Salt Lake City, Utah, the reference to the changes in the personnel of the directors, which occurred a jear or more ago, was somewhat misleading. There was no actual change in control or management at that time. President Frank Knox organized the institution and has always directed its affairs. The only change made was in the displacement of four directors, who did not sait him; also the cashier. Their places were filled with others, but they had, we are informed, no part in the management.
-A change in ownership has occurred in the Island City Savings Bank of Galveston, Texas, a controlling interest having been parohased by the Estate of H. Kempner. Mr. R. Waverley Smith has resigned as President and director of the bank and has been succeeded in both capacities by Mr. I. H. Kempner, s son of the late Mr. H. Kempner, who was himself for many years and until his death head of the bank.
-A charter has been applied for on behalf of the Commercial Bank of Savannah, Ga., which expects to be in shape for business by September. The banking rooms will be in the W. C. T. U. Bailding, on Libert y Street, near West Broad Street. Mr. Barron Carter, formerly Assistant Cashier of the Chatham Bank of Savannah, will become Cashier of the new bank, which is to have a capital of $\$ 50,000$.
-The Alabama Bankers' Association, which met in session at Blount Springs, Ala., on Angnst 11, will hereafter be divided into five groups. A general reorganization of the association was also effected. There are now six Vice-Presidents, as follows: Mr. T. O. Smith, Cashier of the Birmingham Trnst \& Savings Bank of Birmingham; W. R. Rison, of Messrs. W. R. Rison \& Co. of Huntsville ; W. W. Crawford, Cashier of the First National Bank of Birmingham; J. H, McKlerof, President of the Anniston National Bank of Anniston; Lonis B. Farley, Vice-President and Cashier of the Farley National Bank of Montgomery, and Lloyd Battle. The President of the association is Mr. J. W. Whiting, Presi dent of the People's Bank of Mobile. Mr. E. J. Back, VicePresident and Cashier of the City National Bınk of Mobile, was re-elected Secretary and Treasurer. Next year the con vention will be held at Birminghain in May.
-The City National Bank of Dallas, Texas, has removed temporarily to the North Texas Building to await the completion of its own new building, which will replace the one just vacated. The plans show a structure to be devoted to the bank's use alone, the materials oomprised in the exterior to be of Bedford stone, terra cotta and brick. Vaults of the latest type are to be installed, and in fact every contrivance incorporated in modern bank structures will be provided.
-A new financial institution bas enterad the banking field of Wilmington, N. C., in the organization of the Atlantic Trust \& Banking Company. Capital $\$ 100,000$. Mr. M. J, Heyer, it is announced, will be President, and Mitchell F. Allen, Cashier. The company will make its quarters in the old Atlantic National Bank Building on Princess Street, opening about October 1.

IMPORTS AND EXPORTS FOR JULY.
The Bureau of Statistics at Washington has issued the statement of the country's foreign trade for Jaly, and from it and from previous statements we have prepared the following interesting summaries:
fobeign Trade motement of the United stateb.

We subjoin the totals for merchandise, gold and silver for the seven months since Jjan. 1 for six years.

London, Saturday, Augnst 2, 1902.
The fortnightly settlement on the Stock Exchange, which began on Friday morning of last week and ended on Wednes. day evening, was gotten over mach more easily than had been anticipated. It was feared at first that some of those specnlators who had been helped at the last settlement would be unable to meet their engagements this time, and therefore there were apprehensions that several failures might take place. It was fornd, however, that matters had been greatly exaggerated, that the forced selling which has been going on for so long had practically cleared out the weak operators, and that stock had gone into the possession of wealthy people who were prepared to take it np. Two animportant failures have been reported. In every department the ball account tarned ont to be very mucn reduced. On Satnrday, accordingly, there was a very sharp recovery, bat on Monday fears began again to be entertained. Nevertheless, the recovery was quickly resumed.

Yet there does not seem much probability that activity will increase for some time yet. To-day the Stock Exchange is closed, Monday will be a bank holiday, and Satarday of next week, which is Coronation Day, will likewise be a bank holiday. Probably, therefore, holiday-making will go on and little business will be attended to, Still, the market now is in a very much better condition than it has been for a long time, and everywhere marked recovery is anticipated.

On Tuesday Mr. Chamberlain made a speech in the House of Commons explaining the policy of the Government with regard to South Africa, which has been exceedingly well received. He indicated very liberal treatment towards the Boers and a policy of development and expansion on the part of the Government which he did not hesitate to say would probably make South Africa one of the most prosperous countries in the world. Especially, his references to the mining industry, to its importance for the fature welfare of the two new colonies, and to the determination of the Government to do notbing that would in any way check its growth, have made a most excellent impression, and the farseeing are, in consequence, anticipating an early increase in business, For the moment that is kept back by the scarcity of native labor, but nobody doubts that the difficulty will be soon overcome.
In Paris money is as abundant as ever. Rates are exceedingly low, and the settlement at the end of the month is passing off easily; but bnsiness continues depressed, owing to the agitation cansed by the Government measures respecting the religious orders. There are some fears that the Gorernment will not last long, and there are apprehensions that a new Cabinet may be formed which will be less firm, and that therefore France may again fall back into a state of internal dissensicn. For the moment, therefore, there is a good deal of depression in Paris, but it is mainly due to political considerations. No donbt the unsatisfactory condition of Rnssia, both economic and political, aggravates the situation, and France of course feels the depression that prevails in all the neighboring countries. As a result of the general slackness of business, the great French banks are once more increasing the balances they are employing in London, In Germany, likewise, money is abundant and cheap, and the settlement at the end of the month passed over emoothly; but bnsiness oontinnes very dall and probably will remain so for some time yet.

Owing to the fortnightly settlement and to the usual demands at the end of the month, money has been in very strong request this week, and a good deal has been borrowed from the Bank of England. The Government has large payments still to make, but its disbursements are effected so irregularly that the market never knows when to expect them, and therefore does not receive the benefit from them that might be anticipated. Probably money will continue mach as it is for some months yet. Mach of course will depend apon events in the United States. If rates rise materially in New York there may be a very sbarp rise in London also. On the other hand, if money continnes abundant and rates easy in New York, the market here may contince just as it is with Iittle alteration. In Paris mones is as abundant as ever, and, as stated above, the French banks are again increasing the balances they are employing here. On the other hand, there is a demand for France in the open market for gold, and of late there have been large sales of consols which are attributed by many engaged in the market to French and German capitalists. Others, however, hold a different opinion.

Unless something entirely unforeseen should happen or political apprehension slould increase in France, there is no reason to look for mach enhancement of the value of money in Paris. The accumulation tinere is so vast and there is so little inclination to engage in new enterprise. Similarly there may be some increase in demand daring the harvesting time in Germany, but trade is so very slack in Germany and the liquidation of bad bnsiness is so far from being completed that any very great activity of money in Germany seems anllkely. Therefore the market here will be chitfly inflnenced by what may happen in the American money market.

The India Council continues to sell its drafts fairly well. It offered for tender on Wednesday 40 lacs and the applications exceeded 1,166 lacs at prices ranging from 18. 3 15-10d, to 1s, 3 31.32d, per rapee. Applicants for bills at 1s, 3 31-32d.
per rapeo were allotted about 65 per cent of the amounts applied for, Later in the day the Council sold small amounts of bills by private contract at 1s. 4 d . per rapee.

The lollowing return shows the position of the Bank of singland, the Bank rate of discount, the price of consols, \&c. compared with the last three years:

The rates for money have been as follows:

## DIVIDENDS.

WALL STREET, FRIDAY, AUG. 15, 190\%.-5 P, :1,
The Money Market and Financial Situation.-Owing to the unfarorable showing of last Saturday's bank statement, an advance in call loan rates to 4 per cent and apprehension that the money market might become still firmer, the stock market was decidedly weak on Monday. Subsequently the theory that no serious money market stringency is likely to occur in the near future found a steadily increasing number of adherents, and the security markets hare broadened day by day. The theory is based on the favorable outlook for a large cotton crop, on prospects that the corn crop will exceed all records and the probability that the yield of wheat and oats is the largest ever harrested in this country.
Moreover, there is some evidence that the foreign demand for our products is increasing. The foreign exchange market is already showing the effect of offerings of bills drawn against future shipments of grain and cotton, and the probability of further gold exports has diminished. On the other hand, the demand for funds to move these enormous crops is a factor in the financial situation which has to be considered. It is likely to be a factor of considerable importance, and the remaining months of the year will doubtless prove to be a period of unusual activity in financial as well as in commercial circles.
The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from '3 to 6 per cent. To-day's rates on call were $33 / 4$ to 6 per cent. Prime commercial paper quoted at $43 / 2$ @ 5 per cent.

The Bank of England weekly statement on Thursday showed an increase in bullion of $£ 1,322,657$, and the percentage of reserve to liabilities was $50 \cdot 32$, against $49 \cdot 15$ last week, the discount rate remaining unchanged at 3 per cent. The Bank of France shows an increase of $3,375,000$ francs in gold and a decrease of 2,175,000 francs in silver.

The New York City Clearing-House banks in their state ment of Aug. 9 showed a decrease in the reserve held of $\$ 4,082,500$, and a surplus over the required reserve of $\$ 9,031,250$, against $\$ 18,738,125$ the previous week.

## Notri-Retarne of separaie banke appear on pars 325.

Foreign Exchange.-The market for foreign exchange is much easier under liberal offerings of both bankers' and commercial bills. Rates are substantially lower.
To-day's actual rates of exchange were as follows: Bankers' sixty day sterling, 4 8490@4 85; demand, $48730 @ 48740$; cables, $48770 @ 48785$; prime commercial, sixty days, $4841 / 2$. $4845 / 8$; documentary commercial, sixty days, $4833 / 4 @ 485$; grain for payment, $4843 / 4 @ 485$; cotton for paymont, $4833 / 4$ @4 81; cotton for acceptance, $4841 / 2 @ 4845 / 8$
Posted rates of leading bankers follow:

| August 15 | Sixty Days | Demand |
| :---: | :---: | :---: |

| ew York at the under-mention | ed cities to-da | : Savannah |
| ing 75c. discount | premi | Charleston, |
| uying par, selling 1 | O |  |

commeroial, 50c. discount; Chicago, par; St. Louts, par San Francisco, 50 . per $\$ 100$ premium.
United States Bonds.-Sales of Government bonds at the Board are limited to $\$ 9,0004 \mathrm{~s}$, reg., 1907, at $1081 / 2$; $\$ 1,000$ 5 s, coup., at 104 , and $\$ 5003 \mathrm{~s}$, coup., at $1051 / 2$. The following are closing quotations; for yearly range see thard page fol lowing.

State and Railroad Bonds.-No sales of State bonds have been reported at the Exchange this week.

The market for railway bonds has been dull and relatively steady. There was somewhat more activity than last week, however, the transactions averaging about $\$ 3,160,000$, par value, per day, as against $\$ 1,600,000$. With few exceptions net changes in the active list are limited to a fraction of a point.

Railroad and Miscellaneous Stocks. - The stock market was weak on Monday, the result chiefly of a firmer money market, and a long list of active shares declined from 1 to 5 points. Since Monday the market has developed a broadening tendency under the stimulating influences noted above, and substantial recovery has been made. Shares of the Southwestern group have been favorites, and Missouri Pacific, Texas \& Pacific, St. Louis Southwestern and Southern Pacific issues adranced 2 points and upwards. The grangers declined under the lead of Rock Island, which suffered a loss of nearly 9 points, from which it has partially recovered. The anthracite coal stocks also showed a tendency to weakness. A few other important issues that declined under the pressure on Monday have generally recovered. The market has been irregular to-day. Nashv. Chatt. \& St. L. declined 4 points, Missouri Pac. nearly 2 points and Texas \& Pao. a point, while So. Pac. and St. L. Southw. issues advanced.
The express stocts have continued to make sensational advances, the movement being accompanied by a renewal of rumors that some sort of a community-of-interest plan is in progress. American Ice preferred made a maximum gain of over 7 points. New York Air Brake and United States Reduction \& Refining covered a range of 6 points, the former closing near the highest. Western Union Telegraph advanced from $883 / 4$ to $933 \frac{3}{8}$. Colorado Fuel \&Iron shows a net gain and United States Steel issnes have been strong.

For daily volume of business see page 336.
The following sales have occurred this week of shares not represented in our detailed list on the pages which follow.

Outside Market. - The feature of the outside market this week was the securities of the Seaboard Air Line, the stock selling very largely and at greatly improved prices. It is estimated that 40,000 shares changed hands, the common rising from $301 / 2$ to $351 / 8$ and the preferred from $501 / 4$ to 55 , closing at $341 / 4$ and 54 , respectively. This sharp advance is doubtless due to rumors of a Southern railroad consolidation United States Realty \& Construction experienced a further decline from $351 /$ to $333 / 4$ in common and from $823 /$ to 81 in preferred on quite heavy sales. Virginia Iron, Coal \& Coke was very strong, and advanced steadily from $1 r^{3} / 4$ to 25 on large purchases; the bonds moved up from 70 to $761 / 2$ Northern Securities shares were again irregular in price, moving between $1063 / 4$ and $1071 / 8$. Manhattan Transit was quiet around $73 / 4$. Rock Island stock was weak, with a further drop from 44 to $431 / 2$ in common and $793 / 4$ to 79 in preferred; the bonds sold at $91 @ 891 / 2$. Montreal \& Boston was once more the leading specialty in the copper group and was in big demand at 23/4@21/2-a fractional loss. White Knob was exceptionally lively and gained $31 / 2$ points, rising from $191 / 2$ to 23. Bay State Gas was, as usual, dealt in to a large extent at $2 @ 1 / 8$, and considerable inquiry was forthcoming for New England Transportation at $1 @ 1 / 2$. Otis Elevator common was active and realized $393 / 8 @ 3 S 3 / 4$, while preferred brought $1031 / 2 @ 102 \frac{1}{2}$. Oregon Short Line 4 s (w. i.) were again a point of interest; the price adranced from $931 / 2$ to $953 / 8$, closing at $945 / 8$.

Outside quotations will be found on page 336.

## quxestment and gratroad ghtelligence.

## $R A I L R O A D E A R N I N G S$.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, aud the last two columns the earnings for the period from. Buly 1 to and including such latest week or month.

The returns of the street railways are brought together separately on a subsequent page.

| ROADS | Latest Gross Earnings |  |  | July 1 to Latest Date. |  | ROADS | Latest Gross Larnings |  |  | Juty 1 to Latest rate. |  |

6 Covers results on lines directly operated. * Figures from Dec. 1 are for the railroad only
noluded from currency, a Includes Paducah \& Memphis Division from July 1 in both years. t Results on Monterey \& Mexioan Gulf are

now also included. cResults on Montgomery Division are inoluded in both years. dInoludes St. Panl \& Duluth tor both Fears.
These figures are the results on the Ala, Midl., Brunswick \& West., Charles. \& Sav., Sar. Fla. \& Westin and silver Springs Oosia \& Guif,
noludes sundry acquired roads. iIncluding earnings of the Hancook \& Calumet, both years.

## Totals for Fiscal Year.

In the full-page statement on the preceding page we show the gross earnlngs of all roads for the period from July 1, that being now the beginning of the fiscal year of the great majority of the roads. There are, however, some roads that still have their own fiscal years. These with their dates are brought together in the following.

| Period. | Latest Gross Earnings. |  |

Buffalo Hamburg \& Aurora Ry.-New Receiver, etc.-In accordance with an agreement reached by the creditors and the bondholders, Justice Kenefick at Buffalo has ordered:
1st.-That Robert W. Day shall be appolnted recolver.
2d.-That Mr. Day shanl proce日d to Bell the road.
3d. That the $\$ 300,000$ bonds shall be deolared valid.
4th. - That the other creditore shall be pald 60 cente on the dollar rom the procesds of the sale before anythins 0 on be paid on ihe onds.
The Court algo anthorized the issue of $\$ 10,000$ receiver's oertificates. It is said the receiver will be permitted to operate the road long enough to determine its earning capacity before he offers it for sale. -V.73, p. 615

Buffalo Rochester \& Pittsbarg Ry.-New Line to Newo York.-See Reading Co. below.
Quarterly.-Earnings for the quarter ended June 30 were: 3 mos. end'g Gross. Net. Olher. Interest, Balance,

The earnings for the fiscal year ending Jane 30 will be found under "Annual Reports" on a preceding page, -V. 75, p. 183, 28.

Canadian Northern Ry.-Rolling Stock Bonds.-The Dominion Securities Corporation of Toronto has contracted to purchase $\$ 1,000,000$ of rolling stock bonds of this company. V. 75, p. 239, 183

Central of Georgia Ry.-Equipment Trust.-The cost of the cars for which this compuny will issue oar trast notes, referred to in our last issue, page 289, will be about $\$ 320,000$. -V. 75, p. 289

Central Pennsylvania \& Western RR.-See Susquehanna Bloomsbarg \& Berwick RR, below.

Chlcago Great Western Ry.-Contracts. -President Stickney has sent to the stockholders a 4-page circular announcing the making of important contracts with Swift, Armour, and other leading packing companies. The circular says in substance :
The company has execated identioal contracts with each of the packing oumpanies dolng büiness at Kansas City, st. Joseph, Omahas Great Weatern, lines at least a certain percentage of the entire outpot of their plante, at definite rates, for the term of seven years. The ratee are fixed at 20 cents from the Miesouri River to Chicago, which is 25 per cent higher than the average of the last 15 years, and at $181_{2}$ cents on such products passing through Chicago, whioh is 15 per cent higher than the average for the last 15 years. The bulk of the business oarries the 20 -cent rate, beoallse the bulk of the produote of the Missourl River points 18 shipped to Ohicago. The aggregate reveon the present volume of business is estimated to be $\$ 14,000,000$ and if the business increases as rapidly in the next seven years as in the past, approximatels $\$ 20,000,000$
It is probably safe to esilmate the aggregate sales of the packers at fully $\$ 700,000,000$, more than hali of which is the output of the plants at the Missouri River cities mentioned and is affected by the contraote. The margin of proft to the packers is extremely narrow, being only about $11_{3}$ per cent of gross sales in the case of Swift \& Co., who alone obliterates the proft untll snch time as the paokers can adjust their business to the new conditione. The rates which were publlshed when the Inter-State Commeroe Law went into effeet were so muoh higher than those theretofore actually charged that they bore hard on the packers. For a short time these rates were maintalned. Then the paokers, by "Bhopping" between the different linee, throwing all their businesa to one or two lines, etc., not only secured reductions in rates o the former level, but in addition seonred seoret rebate日, which were mprisonment The colleotad.
Rebates were stopped by injunction of United States Court in March last. It was then necessary to flx another method of making rates. The packers reported that the average rate paid by them for 15 jears botween the Missourl River and Chicago had been about 16 cents per owt. They offered the roads a 15 -per-cent advanoe, or $18 \cdot 4$ cents per owt. The roads were ready to accept this rate, but the must he made on live atock as on hacking.honse products. The rate on live stock was 23 cents. The roads decided to maze the rate $18^{1 / 3}$ cente to July 1 and 23 cents thereafter. This 23 -cent rate makes an advance of 50 per cent over the average of 15 years. The Great Western deemed the advance too great to be maintalned, and rather than go baok to the old rebate soheme deolded to make ar regular published tariff rate, as fret above stated.
The contracts become effective at once as to the bu=iness originating at Kansas City and St. Joseph and become elfective as to the business originating at Omaha and Sious City as soon as the Great Western lines now under constructhon are completed to those cities. "These contracts, unlike the 'maximum-rate contracts,' are legal and therefore enforceable in the courts." The agreement has unsettled rates on packing-house products, dressed meats and live stock in the territory immediately affected.-V. 74, p. 1037.

Chicago \& Western Indiana RR.-Called Bonds, First mortgage bonds of 1879 to a total of $\$ 118,000$ have been called for payment on Nov. 1 next at the ( ffice of J. P. Morgan \& Co., New York, at 105, By the operation of the sinking fund the remaining $\$ 27,000$ first mortgage bonds, all that will be outstanding after the above redemption, will be redeemed Jan. 1, 1903. - V. 74, p. 629.
Cincinnati New Orleans \& Texas Pacific Ry.-First Divi-dend.-A quarterly dividend of $11 / 4 \mathrm{p}$. c. has been declared on the preferred stock, payable Sept. 1 to stcckholders of record Ang. 25.-V. 74, p. 1251.
Coahuila \& Pacific Ry.-Formally Opened.-The road was formally opened from Saltillo to Torreon, Mex., 200 miles, on Aag. 12,

New Officers.-The following directors (and officers) are announced:
A. W. Lilliendahl (President and General Manager). J. J. Det 1 Iller of Jerses City, N. J. (Vice Presinent) F. A. Lilliendahi (Traffiomangiger) J. D. Melville (8nperl
C. S. Ling.-V. 73, p. $12 \in 3$.

Colorado \& Sonthern Ry.-Dividend Increased.-The company has declared a semi-annual dividend of $2 \mathrm{p} . \mathrm{c}$. on its first preferred stock, payable Oct. 1, to holders of record Sept. 10. This increases the annaal rate to the full $4 \mathrm{p}, 0$. per annum, contrasting with 2 p. c. yearly paid out of the earninge of the calondar jears 1899 and 1900 , and with dividends at the rate of 3 p. c. yearly paid in O2tober, 1901, and April, 1902.-V. 74, p. 1355.

Columbus Sandusky \& Hocking RR.-Sale. -The sale of this road is advertised for Sept. 24 at Columbas, O. The sale is ander a decree of the U. S. Circuit Conrt at Cincinnati, foreclosing both mortgages, viz., the first mortgage of $\$ 2,000,000$ and the general mortgage, under which there are about $\$ 7,500,000$ of bonds outstanding. There are $\$ 1,056,000$ receiver's certificates and about $\$ 65,000$ of small liens, wbich, with costs of litigation, etc., will make the liens ahead of the first mortgage nearly $\$ 1,3 j 0,000$. There is five years arrears of interest on the first mortgage. The upset price fixed In the decree is $\$ 3,750,000$ - V. 74, p. 1308.

Delaware \& Hadson-Albsny \& Susquehanna-New York \& Canada-Rennselaer \& Saratoga, Earnings of the D. \& H. leased lines in New York State for the six months ending June 30 were:

## Gross....... <br> Net...... Charges. Balance.

1901.
$\$ 517,244$
189.358
18,199

Denver \& Rio Grande RR - Listed -The New York Exchange has listed $\$ 1.000,000$ additional 4 p c. consolidated mortgage bonds, making the total $\$ 32,050,000$. The pro ceeds were used for the purchase of new locomotives and cars. Earnings.-The earnings for the eleven months ending May 31, 1902, including the Rio Grande Western Ry., were:

From the eurplas as above there was appropriated for the D. \& R. G. renewal fund $\$ 110,000$; dividends on the preferred stock at 5 per cent per annum call for $\$ 2.035,000$, leaving net surplas for the 11 months of $\$ 657,597$. -V. 74, p. 576.

Des Molnes Uniou Ry.-Lease Signed. -The contract for the use of this company's terminals by the Chicago Burlington \& Quincy RR. and the Kookuk \& Western Ry. was signed last week. A contract, it is said, has also been signed by which the Des Moines Iowa Falls \& Northern Ry., when completed, will use the terminals.-V. 70, p. 230.

Fair Haven \& Westville Street RR., New Haven, -Strike Over. -The emplojes who strack last week retarned to work on Ang. 9, all their demands having been granted, in cluding recognition of the union.-V. $75, \mathrm{p} .289,7 \%$.

Gulf\& Inter-State Ry.-Final Payment.-John H. Broocks on Ang. 5 made the last papment of $\$ 63,000$ on account of the purchase of a controlling interest in this property. It will probably be Sept. 20 before he is placed in actual pos. session, as reorganization must first be effected.-V. 74 , p. 1308

Henderson Bridge Co.-Called Bonds.-Thirts-one ( $\$ 31,000$ ) first mortgage bonds called for payment will be redeemed by the Central Truet Co. of New York on Sept. 1 at 105.-V. 73, p. 960

Indianapolls \& Eastern Ry,-Bonds Offered.-Baker, Ayling \& Co. (successors to Montgomery Rollins \& Co.) are offering at 101 and interest $\$ 200,000$ of this company's first consolidated mortgage sinking fund 5 per cent $\$ 1,000$ gold bonds, dated July 15, 1902, and due Joly 1, 1927 (not subject to prior redemption); semi-annual interest payable at the Mercantilo Trust Co., New York, or the Central Trust Co. of Indianapolis, Trustee. A circular says
The amount of bonds sssued is $\$ 500,000$, of whloh $\$ 300,000$ are held by the truste日 to redeem an eqnal anount of [underlying] bonds on
the divinlon betwosn Indianapolis and Greenfleld. Total anilhoriz lsene of flrst consols, $\$ 1,000,000$, of which $\$ 300,000$ ean only be lissuad for extensions, under properly apecified oonditions. The net earn inge of the road from Indunapolis to Greentiold ( 17 milles) alone are pleted in June last) from Indlanapolis to Knightsiown ( 30 milies) Under an agreement with the Indlanapoiis Street Ry. CJ. for the uab of lts tracks and power the cars of this company are taken direotly into the business distriet of Iudianapolis. The road is lald with 70ponnd Trails. After flve years as sinking fund begins to operate that Will provide for over one-half of the bonds before inaturity, the fund
to be invested by purchase, if possible, of bonds of this lssue in the to be invested by purchare, if possible, of bonds of this lssue in the
open marset at io5 and interest or less; otherwise in bonds legal for open marketat io5 and interest or less; otherwise in bonds legal for sinking fund of about 4 per cent.

The officers of the company believe that the earnings will be three times the interest charge. The bonds offered are a first mortgage on that part of the road from Greenfield to Knightstown and a first consolidated mortgage on the entire property.-V. 75 , p. 184.

Indlanapolis Northern Traction Co.-Guaranteed Bonds, -The mortgage recently made to the Colonial Trust Co., as trastee, secures $\$ 5,000,000$ of 5 per cent bonds dated Jaly 1, 1932, and due July 1, 1932, interest payable Jan. 1 and July 1, at office of trustee. 'These bonds are guaranteed as to principal and interest by the Union Traction Co. of Indians (V.75, p. 136, 186), and are to be issued on acconnt o the lines described in V. 74, p. 1251, 833،-V. 75, p. 134.

International Ry., Baffalo. - Increase of Stock. - A certifi cate of increase of capital stock from $\$ 10,120,000$ to $\$ 17,000$ 000 has been filed at Albany. See International Traction Co. page 19 of Street Railway Supplement, and V. 74, p. 427 ,
International Tractlon Co.-Se日 laternational Ry. Co. above.-V. 74, p. 427.
Long Island RR, -Another Atlantic Ave. Injunction De nied.-Justice Dickey, in the Supreme Court at Brooklyn, on Aug. 9 denied the motion of $R$, W. Holmes, a tax-payer, to restrain the city from paying its share of the improvement of Atlantic Ave., Brooklyn.-V. 75, p. 135, 29.
Loaisvllle \& Nashville.-Rumor of Leas..-It has been currently reported this week that plans are being matured for the formation of a secarities company that will lease the Louisville \& Nushvills on a gaarantee of 7 per cent on its stock, and that this securities company will be jointly owned by the Southern Railway, the Seaboard Air Line and the Atlantic Coast Line. It is pointed out that such a plan would not interfere with the independent operation of any of the roads concerned, and wonld insare harmony among the important systems in the South without antagonlzing the statutes of the various States through which the roads run.-V. 75, p. 185, 135.

Macon Dablin \& Savannah RR.-Train Service to Sa vanrah.-The company's first through train from Macon to Savannah, it is stated, will be run on Ang. 17, the tracks of the Soaboard Air Line Ry, being used from Vidalia east.V. 73, p. 184.

Manhattan (Elevated) Ry., New York.-Dispute Settled. -The disagreement between the company and its engineers, who have been threatening to strike, was settled on Taes. day. The following statement is made:
"'Matters in dispute narrowed down to a question of nine hours a question of allmit of nin $\rightarrow$ ty miles a dav and the company conoeded a nlne-hour day. An agreement was slgned and the ponference ended." -V. 75, p. 135.
Metropolitan Street Ry. of Dallas, Tex.-Electric Light Plants.-See Dallas Electric Co. below under "Industrials." -V. 75, p. 135.
Metropolitan Street Ry., Kansas Clty-Contract with City.-The new ordinance or contract with the company, which was ratified by the City Council on July 25, was signed by the Mayor of the city and the officers of the company on Julp 28. This ordinance (pablished in the Kaneas City "World" of Aug. B) provides that the company and its sub sidiary corporations shall, beginning June 1, 1902, and so long as they operate under exlsting franchises, set aside each year 8 p. o. of the gross car and track earnlags, and, having paid therefrom all State, County and City school and manicipal taxes and licensss, shall turn over any balance of said 8 per cent to the city. This provision, it is believed in Kansas City, will increass immediatels the amount to be paid to the city by $\$ 100,000$ yearly. ()a its part the city grants to the company franchises covering, it is said, sabstantially all of the city not now covered by the street railway system, and likely in the next few years to call for new street railway lines. In addition the company is confirmed in the possession of its various franchises, the legality of some of which it seems had been called in question. The company agcees to change its remaining cable lines to trolley and to make various extensions within a given time; also to grant aniversal transters, bat not so as to enable passengers to return to their starting point. - V. 74, p. 988.
Mllwankee \& Minnesota R1R,-Bond Suit Dismissed,Judge Bann in the Federal Coart at Madison, Wis., on Jaly 29, dismissed the suit brought by Albert F. Gunnison, Geo. A. Bright and Howard J. Foraker of New York to hold the Chicago Milwankee \& St. Paul liable for certain 8 per cent bonds issued in 1864. See facts in V. 74, p. 427.
New Orleans \& Northwestern Ry.-Sale sept. 6.-The foreclosure sale is advertised for Sept. 6 at Reyville, Richland Parish, La.-V. 78, p. 185.
New York Ontarlo \& Western Ry.-Double Track. - Work has began on the doable-tracking of the 108 miles of road from Cornwall to Cadosio.-V. 74, p. 1039.
Quarterly -Earnings for the quarter ending June 30 were : 3 mos. end. Gross Net Nather Interest, Balance,
Junc $30-$ earnings.

The figures for the year ending June 30 will be found on a preceding page.-V. 75, p. 1039.
Northern Securities Co.-President Hill's Forecast, -See "Fiaancial Situation" on a preceding page،-V. 75, p. 290, 240.

Omalia Street Railway.-Purchase,-J. \& W. Seligman \& Co. offer to parchase not less than 90 per cent of the oatstanding capital stJck $(\$ 5,000,000)$ at $\$ 90$ p9r $\$ 100$ share, conditioned upon the deposit before Sept. 1 (with right of extension till Oct. 1 at option of purchasers) of said 0) per cent with the Colonial Trust Co., in the clty of New York, and Kidder, Peabody \& Co., in the clty of Boston, and the Merohants' National Bank of Omaha, Neb. A larce majority of the sharoholders have agreed to accept the offer. The purohase, it is reported, is made with a view to consoli. dating the company with the Omata \& Council Bluffs Bridge \& Ry. and the O naha Council Bluffs \& Saburban Ry. com-panies.-V. 74, p. 988.

Pennsylvania \& Mahoniug Falley Ry.-First Dividend. This company, a consolidation in May, 1902, of street railways, and other properties of Youngstown, O., etc., has declared a quarterly dividend of $11 / 4$ per cent on the preferred stook payable Ang. 17 to bolders of record Ang. 15.-V.74, p. 1197.

Plttsbarg McKeesport \& Connellsville Street Ry.-Listed in Pittsburg,-Tne Pittsburg Stock Exshange has listed the $\$ 3,000,00$ of ontstanding consolidated mortgage 5 per cent bonds. The statement to the Exchange gives the following:
The lines of the company will be 120 miles in length when completed, and will cover the Connellsville coke region and the valley of the Youghiogheny. Fifty. tive miles of road now in operalion show earnings at the rate of $\$ 160,000$ per annum. About 80 per cent of rbe worn necessars to oonplete the remainder of the system has been done. The oapital stock is $\$ 3,000,000$ in shares or $\$ 50$ each.
Control.-See West Penn Railway \& Lighting Co. below. -V. 74, p. 207.

Pittsburg McKeesport \& Greensburg Ry.-Listed in Pittsburg - The Pittsburg Stock Exchange has listed the $\$ 1,000$, 000 of 5 p. c. bonds of 1901. The statement to the Exchange shows that the company has about 22 miles in operation and 7 miles under construction, making a eystem of 29 miles in all. A bout three-fourths of the entire mileage is on private right of way owned by the company. - V. 73, p. 33.

Presidio \& Ferries RR., San Francisco.-Called BondsThe Californta Safe Deposit \& Trast Co. of San Francisco will pay on Sept. 15 the following bonds, viz.: Nos. 7, 11, 23, $53,73,94,100,111,135,141 .-$ V. 74, p. 1253.
Reading Company. - New Freight Route Betuceen Pitts. burg and New York.-A new freight route from New York to Pittsbarg will be established Sopt. 1 over the Central RR. of New Jersey from Jersey City to Tamaqua, Pa., thence orer the Reading to Newberry Junction and over the Beech Croek (New York Central) to Clearfield and thence over the Buffalo Rochester \& Pittsbarg to Pittsbarg.--V. 75, p. 186.

St. Charles Street RR., New Orleans.-Deposits.-The time within which stockholders may avail themselves of the proposition to sell their stock at $\$ 210$ per share has been extended to Ang. 22. See V. 75, p. 291.

St. Lonis \& San Francisco RR.-New Line.-On Ang, 1 this company formally took over the operation of the completed portion of the Arkansas \& Choctaw, viz., from Ashdown, Ark., to Soper, I. T., 99 miles.-V. 75, p. 291, 240.

Seaboard Air Line Ry.-Option to Exchange Ronds.Vermilye \& Co. and Hallgarten \& Co. offer to holders of the collateral trust 5 p. c. gold bonds, whioh are payable on Oct. 1 next, the opportunity to exchange those mataring bonds for an equal amonnt, par value, of the refunding collateral trast 5 p. c. gold bonds dae in 1911, on payment of $\$ 25$ per bond. Bonds surrendered are to carry the conpon due Oct, 1 next, the refanding bonds deliverable in exchange carrying coupons due Nov. 1 next. The offer of exchange is subject to withdrawal, and it is announced that a large proportion of the bonds has already been exchanged.

The authorized amount of the refunding collateral trust p. c. bonds is $\$ 10,000,000$. The bonds were issued in part to pay for the Seaboard's interest in the Richmond. Wasbington Co. and for other 7 daluable property. The issue is secured p. c. bonds, selling at above 87. Gross ournings of the Seaboard Air Line in the fiscal year to June 30 last were reported as $\$ 11,579,815$, an increase for the year of $\$ 650,764$, or 6 p . c. and net earninge, after taxes, were $\$ 3,435,506$, an increase of $\$ 626,9$ C 6 , or $221 / 3$. p. c. above the earnings of 1901 , the first year of the operation of the consolidated system.

Kumors - In connection with the rumor referred to ander Louisville \& Nashville, it is interesting to note that the Seaboard has come to be jecognized as an important factor in all matters affecting the railway properties of the South.

Coal Traffic.-Reference to the possible connection with the Detroit Southern and the coalfields of Obio, etc., will be fonnd ander the caption Soath \& Western Ry., on page 291 of last week's Chronicle.-V. 74, p. 1197.

Sonthern Ry, - Rumors.-See Louisville \& Nasbville RR. above.-V. 75, p. 136, 78,
Susquehanna Bluomsburg \& Berwick RR.-Successor Company.-This company has been organized with $\$ 1,000,000$ capital stock (in $\$ 50$ shares) as successor of the Central Pennsylvanla \& Western RR., recently foreclosed. A first mortgage has been made to Seth T. McCormick, as trastee, to secure $\$ 150,000$ of 5 p. c. $\$ 10,000$ gold bonds, dated Aug. 1, 1902, and due Aug. 1, 1912. President, J. Henry Cochran; Secretary and Treasurer, Chas. Cochran, Williamsport, Pa. -V. 75, p. 186.
Syivania (Ga.) RR.-Sold.-This 15 mile road, all of whose $\$ 33,000$ bonds were owned by the Central Ry, of Georgia, was sold nnder foreclosure at Sylvania on Aug. 5 and bought in for $\$ 10,000$, presumably for the Central, by

United Railways Investment Co. of San Francisco.-Dis. tribution to Syndicate.-Brown Brothers \& Co., as managers of the San Francisco Street Railway Syndicate, have sent out the following notice:
Notice is hereby given to holders of participation receipts in the Railwaje Investment Co. of San Francieoo, to whiol they are entitied under syndicate agreement dated Feb. 17,1902 (V. 74, p. 631 ), will be
distributed 10 lhose presenting their receipts at our ofice on and after

Monday. Aug. 18, 1902. At the same time there will be a cash pay ment from proceeds of sales of United Rallroads of San Franoisco per cent sinking fund gold bond as follows: 15 p. o. in eash to holders holder of "go pe pida" receipto, maklag these lasi full paid. For the purpose of making this distribution, transier books for the partiol pation reoelpte will close at 12 M . on Saturday, Aug. 9, 1902, and will reopen on Monday, Aug. 25, 1902.
Officers $\alpha$ : d Directors. -The directors (and officers) are
Henry J. Bowdoln, Vice-President of the Maryland Trast Co. (PresiT. Mullaily T. Mulaily.
W. J. Daane ls Seoretary and Treasurer. The Mercantile Trust Co. is Transfer Agent and the United States Mortgage \& Trust Co. Registrar.-V. 74, p. 1039.

Velasco Brazos \& Northern Ry.-Change in Control.Control of this property, it is announced, has been sold to C . C. Waller and E. P. Speers, and they have been elected, respectively, the President and the Vice-President and General Manager. The new Jwners propose to extend the road 114 miles, to a connection with the Atchison Topeka \& Santa Fe Ry. in Grimes County, L. R. Bryan is Secretary, Velasco Tex.-V. 74, p. 207.
West Penn Rallway \& Lighting Co.-Holding Company -This corporation will be a holdtng company, and it is exrected will eventually own the stock and some of the bonds of the Pittsburg McKeesport \& Connellsville Ry. Co. (see that company above) and several other local lines, and all of the light compantes in the more important places throngh which they pass, with the exception of McKeesport. The issuance of the capital stock and bonds of the West Penn corporation has not yet been made, nor will such issue be made until later in the year. The bonds will be 5 per cent gold mortgage and collateral trast bonds. While the capi talization has not been definitely fixed, it being dependent upon the properties which may eventaally be acquired, the understanding in Pittsbarg is that it will be in the neighbor hood of $\$ 6,000,000$ of stock and $\$ 4,000,000$ of bonds. Among those interested are E. C. Converse (74 Broadway), C. M Schwab, James S. Kuhn and W. S. Kuhn and the Colonial Trust Co., all of New York.
Wilkesbarre \& Western RR.-Successor.-See Susque hanna Bloomsburg \& Berwick RR. above.-V. 75, p. 186.

Worcester \& Connecticut Eastern RR.- New Amalgama-tion.-The Massachusetts Railroad Commission recently ap proved the lease of the Worcester \& Webster St. Ry. Co. to the Webster \& Dudley St. Ry. Co., and has been asked to sanction the leasing of the Webster \& Dudley Street Railwav to the Worcester \& Connecticut Eastern RR. See page 90 of Street Railway Supplement
Worcester Railways \& Investment Co.-Authorized. - The Massachusetts Railroad Commission has authorized the Wor ceater Consolidated Street Railway Co. to issue $\$ 350,000$ new stock at $\$ 116$ per $\$ 100$ share, for the parchase of real estate, rolling stock, equipment, and building extensions. - V. 74, p. 989.

## 

American Light \& Traction Co.-Status.-In connection with its offer to purchase the stock of the Consolidated Gas Co. of New Jerzey (see "Industrials" below), the American Light \& Traction Co. has issued a circular showing that there is now outstanding $\$ 8,554,400$ of the $\$ 25, C 00,0006 \mathrm{p} c$. cumulative preferred stock and $\$ 1,378,600$ of the $\$ 15,000,000$ common stock, and that the same was issued in exchange for $\$ 1,917,600$ cash and the purchase of the following amounts of stock in controlled companies, viz.:

x See also $\$ 750,000$ St. Croix Power Co. guaranteed bonds, V. 73, p. 1014.
"The American Light \& Traction Co. earned net for the fiscal year ended June $30,1902, \$ 828,732$, out of which it paid in the way of a full year's dividend on its outstanding preferred stock (the amount above stated as outstanding was not all outstanding during the entire year) the sam of \$457, 015 , leaving a surplus for the year of $\$ 371,717$, which is equivalent to about $81 / 2 \mathrm{p}$.c. on its ontstanding common stock."-V. 75, p. 31.
Boston Steamship Co. - Operations, - The company's steamship Tremont, of 12,500 tons capacity, recently com pleted by the Marylacd Steel Co., left this port on July 28 for Seattle and Tacoma, whence, with the suster ship the Shawmut and three bosts of the Boston Towboat Co., she is to make regular tiips to the Orlent under an agreement with the Great Northern and Northern Pacific railroads.
Exchange of stock.- It is proposed shortly to exchange the company's stock, \$ for \$, for shares of the Boston Steamship Co., which was granted a charter by the last Massachnsetts Legislature. This company will have authorized \$755,000 common aud $\$ 755,0006 \mathrm{p}$. c. cumulative preferred stock, all of which will be outstanding. The bonds will remain un-changed.-V. 72, p. 393.

Calamet Gas \& Electric Co. of Chicago, Increase of Stock-Change of Name - This company, incorporated early in the year, recently certified to an increase of capital stock
from $\$ 5,000$ to $\$ 500,000$, and it is said will presently change
its name to the Calumet Lighting Co., its gas franchises heving been sold (zee People's Gas Light \& Coke Co., V. 74, p. 1255). Control of the Harvey Water \& Light Co, has been acquired (8ee that company below) through the medium of the new United Water \& Light Co., whose $\$ 200,000$ of 5 per cent bonds are guaranteed. A Chicago paper says
The Calumet Company owne the plant at Ohleago Heights and oovors practioally the entire electric-light field south of Chloago to the
Indiana State line. President Samuel Insall of the Ohleago Edison Indiana State line, President Samuel Insull of the Ohicago Edison Co. and his associates are in oontrol of the company. Mr. Insull and the HIghland Park Eleotric Light Co. and the Evanston Eleotrio Ii' lumlnatug Co., the Highland Park plant servlng the territory lnciuding Lake Forest on the north and Glenooe on the sonth. This pras-
tically covers the eleotric-light fleld north of Chlcago as far as and includling Waukegan, exoepting the Yaryan plant at Evanston.

Calumet Lighting Co.-New Name.-Seo Calumet Gas \& Electric Co. above.

Canadian Steel Co.-Project Revived.-The plan mooted two years ago for establishing under this title a $\$ 25,000,000$ steel plant at the mouth of the Welland Canal has been revived, and A. Macrobart Irving, together with W. P. Mitchell of No. 25 Broad ${ }^{*} \mathrm{St}^{2}$, is endeavoring to obtain nnderwriting for an issue of $\$ 6,000,0005$ p.c. 20 -year gold bonds. The authorized capital stock is $\$ 18,000,000$, of which $\$ 4,000,000$ is non-cumulative preferred. See, also, V. 70, p. 1251, 1293.

Childs (Restaurant) Company of New York City.-Incor-porated.-This "parent company" was incorporated in New stock, of which $\$ 1,000,000$ is to be preferred. Directors:

Colonial Lamber \& Box Corporation.-Status.-We were recently informed that this company. which was incorporated in New Jersey in March last with $\$ 15,000,000$ capital stock, of which $\$ 5,000,000$ is 6 p. c. cumulative preferred (no bonds), has arranged thus far to purchase ten concerns and is about to acquire others. Archibald S . White of this city is President and W. T. Hunter Secretary and Treasurer.

Colorado Fuel \& Iron Co.-Gates Interest in Control.-It was announced on Wednesday by John W. Gates, J. J. Mitchell and J. A. Blair that, they had received proxies for 200,000 out of the total of 260,000 shares and would thas out-rote the management at the annual meeting on Ang. 20.

Mr. Osgood's Statement.-A letter from J. C. Osgood, Chairman of the board of directors, to the company's stockholders says in substance:
The present management bas heen connected with the compans and Ite predecessor, the Oolorado Fuel Co.. for more than twenty years, oapital to its present proportlons. The management has paid off all arrears of preferred stock dividends and plaoed that stock on a permanent divldend basis, has acoumulated a large surpius for the oommon stockholders and resumed the payment of common stook divi-
dends with the honest bellef that the oompletion of the projeoted im dends with the honest bellef that the completion of the projeoted 1 m provemen
A\& a resinlt of the disappointments in completing the new plants it uecame neeessary to disoontlnue the payment of oommon stock divi.
dends. The oppositlon to the management falsely asserted that dends. The oppositlon to the managemant falsely assarted that
the dividend was passed for stock-jobbing purposes. There was one fact whith, as a matter of pollog, the management could not ment of dividends, but which was a very important factor in the situation. Work on the improvements was and had been for nearly a month practicaliy at a standstil owing to a strike of the contractor's employes engaged in building. bridge and iron construetion, and there denartments of the compang's plant in operation.
We believe we can eerve the stockholders by an intelligent and honest management and produce results which will be the surest
basta on which to depend for an advance in the price of the stock.

Description of New Plant.-See illustrated article in "Iron Age" of Aug. 14.

Listed.-The New York Stock Exchange bas listed the additínal $\$ 3,000,000$ convertible 5 per cent debentures, making total $\$ 12,068,000$.
Rarnings. - For the 11 months ending May 31, 1902, earnings were: Gross earnings, $12,562,545$; net earnings (after deducting $\$ 182,772$ for expenses of management), $\$ 1.489,983$; other income, $\$ 110,169$; total net income, $\$ 1,600,162$; fixed charges and taxes, $\$ 707,520$; sinking funds, etc., $\$ 285,060$; dividend on preferred stock ( $31 / \sqrt{2}$ per cent), $\$ 146,667$; balauce, surplus, $\$ 460,915 .-\mathrm{V} .75$, p. 241, 187.
Columbns (Ga.) Water Works Co.-Pruposition to Sell Control.-In view of the feeling in the city against the company, Louis F. Garrard, a leading stockholder, has offered to turn over hts own stock and a majority of the company's entire atock (about $\$ 210,000$ ) to a trastee for the oity, provided the city will enter into some arrangemont that is satisfactory to the bondholders. The aathorized bond issae is $\$ 500,000$, of which about $\$ 400,000$ is ontstanding. Mr. Garrard says:
During the period of finaneial depression that followed the foriner panic, when the income of the connpany was reducod to a mindmum. duced the laterest from 6 p . 0 , to $5 \%, 0 .$, and furnished additional mones to make the improvements demanded by the oity. Admitting for the sake of argnment that the stockholders are entitied to no oongideration, oertainiy the bond
toward the city of Columbus.
Consolidated Gas Co. of Now Jersey, Long Branch, Etc. Option to Sell. -The American Light \& Traction Co. (see "Railroads" above), offers to parchase not less thau $\$ 00$ of this company's $\$ 1,000,000$ capital stock, paying therefor at the option of the holder per $\$ 100$ share of stook:
Fither (a) $\$ 17$ oash per ehare, or (b) $\$ 18$ face value of preferred
ofock of the Amerioan $O$ Ompany, or
(o) atock of the Amerlian Oompany, or (o) $\$ 40$ face value of common

The offer is contingent upon deposit of the stock with the Trust Co. of Amerlca on or before Aug. 15.

The Consclidated G7s Co. sapplies gas in Long Branch, Asbury Park and Red Bink, and also owns the electric light plant at Long Branch, which furnishes electric light and power to Elberon, Branchport, Monmouth Beach, Seabright and Eatontown. The company has outstanding $\$ 971,000$ first consolidated mortgage 40 year 5 p. c. gold bonds due in 1936, part of an issue limited to $\$ 1,000,000$; Knickerbocker Trast Co., trustee. In addition are outstanding $\$ 15,000$ Long Branch Lighting Co. bonds, to retire which $\$ 15,000$ cash is deposited with the trustee.-V.61, p. 871.
Consolldated Lake Superlor Co.-Michigan Canal Com-pleted.-The company has pat in operation its Michigan power canal. The "Philadelphia News Bureau" quotes an officer of the company as follows
The new Michizan Lake Snperlor power canal oost the company between $\$ 4,000,000$ and $\$ 5,000,000$. Its 60,000 hydraulle horse power
is about three times the oapacity of the old canal on the lanadian side, and there lis a possiblity for further development np to 225,000 horse power at some future time. We have already sold to outside parties about haif of its power capaelty, or 30,000 horse power, whloh is enough to pay the interest on the cost; the balanoe will be profit Nearly all of this power already sold is taken by the Unlon Carbide Co.. Which is building works there. Besides thls we have contracts Marle, and are negotiating half a dozen other contraots.
Our steel plant, which will eventually represent an investmeut of some $\$ 5,000,000$, is now making a dally ontput of 230 tons of steel ralle. When the plant 18 complete we shall be able to tarn out 550 tons a day. Our converter capacity at the top notch is now 1.000 tons of
steel a day. Our two furnaoes will not be completed for 90 days, and steel a day. Our two furnaoes will not be completed for 90 days, and In the interlm we are obliged to buy oig lron; When these are in opera-
tion we shall make our rails, from ore to finlshed product, ont of our own materials and by ourown manufasture. Of course the fleo al year ended June 30, 1902, does not get the beneflt of a dollar of earning from the steel piant. The ore shipments up to Jane 30, however, were 210,000 tons, against about 169,000 for the entire season of 1901 , and the railroad gross receipts were roundly $\$ 900,000$, against $\$ 300.000$ the previous year. The outstanding preferred stook 1s. roughly, $\$ 24$. 000,000 , upon which a full year's avidend at 7 per cent, whioh is the made no I may , o a required to pay the preferred divldend has been earned.-下. 74 , 1254.

Covington (Ky.) City Water Co.-MIunicipal Plant.-The Mayor of Covington has notified the company that the city considers the contract between the city and the company to be void and proposes to require the removal of the company's mains, pipes, etc., from the streets, the company having re fused to go into further arbitration to ascertain the value of the plant. The city contemplates bailding indepsndent works, but the company will endeavor to enforce the exist ing contract.

Harvester Consolidation, -See Intornational Harvester
Harvey (Ill.) Water \& Light Co.-Sale.-Granger Farwell \& Co have arranged to sell this property to the United Water \& Light Co. (organized to operate the same) in ex-
change for $\$ 300,000$ of 5 per cent $5 \cdot$ year bouds of the United Company, gurranteed by the Calumet Gas \& Electric Co. Holders of the outstanding Harvey Water \& Light bonds are offered 101 either in cash or in United Water \& Light 53 at $971 / 6$, while the stockholders will get 77 in cash or United Water \& Light bonds at 90. See Calumet Gas \& Electric Co. sbore.

Indiana Water Co.-Sold,-See United Gas \& Electric Co, below.-V. 74, p. 1255.
International Harrester Co.-Consolidation.-This com pany was incorporated at Trenton, N. J., on Aug, 12 with $\$ 120,000,000$ of anthorized stock, all of one class, in $\$ 100$ shares. If two-thirds of the stockholders vote to increase the stock, such increase must be common stock and the original stock will become 6 per cent cumnlative preferred stock. There will be no bond issue.

The company has purchased the property and business of the following leading concerns manufactaring agricultaral machines:
Deering Harvester Co. (8ee V. 75. p. 292). Milwaukee Harvesting Co
McCormter Harvesting Maohine Co Warder, Bushnell \& Glessner Oo. (Champlon).

The consolidation was arranged through the agency of J P. Morgan \& Co., two of whose members, George W. Perkins and Charles Steele, are on the board of directors. An official statement says
The company is capitalized upon an exceptionally conservative compsny will require no financling and there will be no offer of its stock to the publio, all the cash required having been provided by its stockholders. The management will be in charge of men who have fully equip ped mannfaotarting plants in the United states-the largest and most complete of their kind in the world-and one plant now in procese of constraction in Canada. Throngh its warehouses in various parts of the coantry it will be able to make the most economical distribution of its manufactared products. It also owns timber lands, cosl, ore, blast furnace and steel properties, by meane of which it should be able to accomplish important economles in the cost of its
raw materials. raw materials.
The officers and directors are :
Officers.-Cyrus H. McCormick, President; Oharles Deering, Chairman Executive Committee; George W. Perking, Chatrman Finance Committee; Harold F, McCormiok, Jambs Deering, William H. Jones

New Securities. - The "Boston News Bureau" says :
That delay in issaing the new securitios is said to be due to the paot thion of all the Boston gas companies, and the "Coke" plan will pertzanot be offiolally declared operative and the new securities issued until Messrs. Kidder, Peabody \& Co. know where they stand in oonneotion With the Bay State Gas companies.
It is sald that practically all the Boston United Gas irst and second series bonds have bsen deposited under the call for deposite. It 18 the generaly accepted theory that the first series bonds whi be patd off in Massaohusetts Gas preferred stook for eaoh hond. The next step will be foreclosure of the properties, and this is where it is feared there may be opposition from the Addiaks or Content party. Mr. Addicks has announced his intention of forming a atrong reorganization com-
mittee to look after the interests of the Bay State Gas Co. of Delamittee to look after the interests of the Bay State Gas Co. of Dela-
Ware atockholders, but, eo far as can be determined, he has taken no Ware stockholders, but, ec iar as can be determined, he has taken no
steps towards this end. Content \& Co. control about $1,000,000$ shares of Bay state Gas Co. of Delaware, but it is not belleved that either the Bay State Gas properties in Boston.-V. 75, p. 189.
Omaha (Neb.) Water C0.-Extension of Franchise.-The Council of South Omaha recently granted the company an extension of its franchise from Oct. 17, 1904, for 10 years. V. 73, p. 1211.

Otis Elevator Co.-Increase of Stock.-The shareholders will vote Sept. 8 on a proposition to increase the authorized preferred stock to the amount of $\$ 2,000,000$, sufficient thereof, to wit: $\$ 1,090,000$, to be offered to the stockholders, each stockholder to have the right to purchase the same at par to
the amount of 10 per cent of his holdings. The balance of such authorized preferred stock will remain in the treasury to be issued only in the future as the necessities of the company may require. A circular says:
Reterring to the annual reports of the oompany since its organiza-
tion, it wlil be noted that the constantly continning incer tion, it will be noted that the constantly continning increase and exment of, permanent additions to, and acquisition of, plants, as well an increase of working oapltal, all of which has been provided for from treasnry stock (reserved for such purposes), earnings and the issue of the compary's notes. This growth, with its increasing re quirements, atill continues, and the directors believe that the bestin terests of the company demand a still further inorease of working oapital and rurther enargemene by an issine of preferred stock, thus ohviating the neceselty of borrowing farther money or drawlig entirely upon the earninge of the oumpany for ouoh' parposes, and making posstble in the future the appropriation of a portion of the earnings of the oompany for the pasment of dividends on the common
Peck, Stow \& Wilcox Co.-Extra Dividend, Etc,-At the annual meeting in Southington, Conn, on Jnly 30, it was announced that in addition to the usual quarterly dividend of 2 per cent, payable Aug. 1, a special dividend of 3 per cent would be paid Aug. 15. The capital stock is $\$ 1,250,000$ in $\$ 25$ shares, all of one class; no bonds or debts of any kind: The annual report, it is said, is the best rendered in fifteen years, showlng a large increase of business and profits. The company has plants at East Berlin. Plantsville and Southington, Conn., and at Cleveland, O. Dnring the past year the company added to its Cleveland business by purchasing the Brittain \& Matthew lock works at Pittsburg. Directors (and officers) as re-elected arə.
A R Treadway of Cleveland (President), Frank L. Wilcox of Berlin, Conn, L. H. Tread way and S. W. Sessions, Cleveland; Marcus H. Holcomb and Mar

Edwin N. Walkley is Secretary and Stephen Walkley Treasurer. Tinners' tools and machines, household utensils and mechanics' tools are manufactured, the business having been started in 1870 and incorporated in Connecticut in 1880. -V. 69, p. 81.
Pennsylvania Steel Co.-Bonds Authorized.-The shareholders of the Pennsylvania Steel Ca. of Pennsylvania on Aug. 12 authorized the proposed issue of $\$ 7,500,0005 \mathrm{p}$. c 30 -year gold bonds, secured by mortgage on the Cornwal ore mines and furnaoe properties. The bonds are subject to call at 105 and interest, but not more than $\$ 500,000$ can be redeemed at any one interest period. The issue has already been sold to a syndicate. A portion of the proceeds will be used for the erection of a coke plant at Lebanon. See, also, V. 74, p. 1312.

Philadelphia Times Co.-Called Bonds.-The company's first mortgage bonds will be paid at par, with interest from June 1. 1902, to date of parment, on presentation to the Land Title \& Trnst Co., Philadelphia, interest ceasing Sept. 10. The paper was recently merged with the "Piiladelphia Led-

Roanoke (Va.) Furuace Co.-Sold.-At the auction sale on July 81, under order of the United States Commissioner of Bankruptcy at Phlladelphia, the furnace and rolling.mill property as a whole was bought for a syndicate by Donald Macleod of Philadelphia for $\$ 170,000$
San Antonio (Tex.) Wator Works Co.-Increase of Stock. -The company has amended its charter, increasing its capital stock from $\$ 500,000$ to $\$ 1,000,000$, preparatory to making extensive improvements.
New Contract with City.-The city and the company re. cently entered into a ten-year contract for public and private water supply, the old contract expiring Aug. 1, 1903. The new contract is based on a report by Chester B. Davis, expert engineer of this city, and permits the company to charge rates which will yield it a profit of sbout 8 p .c. on the cost of the plant. See "Engineering Record" of Ang, 9.
Schlesinger \& Mayer of Chicago.-Mortgage.-This corporation, with $\$ 3,500,000$ capital stock, which last week purchased the Chicago department store operated under the same name, has made a mortgage to the American Trust \& Savings Bank, as trustee, to secure $\$ 3,000,000$ sinking fund 6 per cent 25 -year gold bonds. The mortgage covers the buildIngs and leasehold interest in the property at the southeast corner of State and Madison streets, 141 to 147 Wabash Avenue and 1453 to 1457 State Street, Chicago. The old building will be torn down and a twelve-story structure will be erected in its place. The officers are: Eenry Siegel, President; David Mayer, Vice-President; Frank E. Vogel, Treasurer; B. F. Schlesinger, Secretary.
Union Electric Light, Heat \& Power Co. St. Louis. Bonds Authorized.-The shareholders on Aug, 11 anthorized the making of the proposed mortgage for $\$ 10,000,000$ bonds, of which $\$ 1,000,000$ will be issued at once through the Missisgippi Valley Trast Co., most of them having already been subscribed for. Office, 10 th and St. Charles streets, St. Louis.-V. 74, p. 1312.
United Frait Co.-To Supply English Markets.-Under its contract with the Elder-Fifes Co., the United Frait Co. agrees to load the former's vessels with banavas at cost, receiving in return 25 per cent of the profits from the sale of the fruit in England. In other words, without outlay of capital, the United Company will obtain an English market for a very large amount of fruit, President Preston estimating the immediate demand at $5,000,000$ bunches annually. V. 75, p. 81.

# BUFFALO ROCHESTER \& PITTSBURG RAILWAY COMPANY. 

## SEVENTEENTH ANNUAL REPORT-FOR THE YEAR ENDING JUNE 30, 1902.

The Directors of the Buffalo Rochester \& Pittsburg Railway Company submit to the Stockholders the following report for the year ending June 30, 1902:

## ROAD OPERATED.

Interest and sinking fund payments were increased by the requirements of $\$ 774,000$ four and one-half per cent twenty-year equipment gold bonds, Series C, issued during the year, and the additional rental of the Allegbeny \& Western Railway.

The item "Special Appropriations" represents the principal of all car trust bonds paid off during the year, amounting to $\$ 128,000$, and the entire expenditure for construction on the line owned and on proprietary roads, with the exception of $\$ 220,27143$ transferred to the debit of Profit and Loss Account.

Dividends were paid on :
Preferred stock........
Common stock.......

## DIVIDENDS.

1902. 

Tetal.
$\begin{array}{r}4 \% \\ 4360,000 \\ 240,000 \\ \hline\end{array}$
$6 \% \$ 3601.00$
$2 \%$ 120,000
Increasc. has dine close of the fiscal year your Board of Directors has declared dividends of three per cent on the preferred stock and two per cent on the common stock, payable August $15,1902$.

CAPITAL STOCK.
The capital stock of the Company, as shown in this year's report, amounts to $\$ 12,000,000$, and consists of $\$ 6,000,000$ of preferred stock and $\$ 5,000,000$ of common stock.
At special meotings held in November, 1901, the stockholders authorized an increase of $\$ 3,000,000$ of common stock. Of this additional stock $\$ 1,000,000$ was issued July 1, 1902, in exchange for the same amount of convertible debenture bonds canceled.
This additional stock will appear on next year"s Balance Sheet.

## BONDED DEBT.

During the year $\$ 128,000$ of car-trust bonds were paid and canceled.
$\$ 20,000$ of general mortgage five per cent bonds. reserved for the redemption of underlying bonds, were sold to replace a like amount of Perry Railroad Company first mortgage seven percent bonds, paid and canceltd June 1, 1902.
An agreement was made with the holders of the outstanding $\$ 1,000,000$ of the five per cent debenture bonds, by which the rato of interest on these bonds was reduced to four per cent per annum from January 1. 1902, and the bonds made convertible in to the common stock of the Company at par. The balance of $\$ 2,000,000$ debenture bonds bearing four per cent interest per annum, authorized in 1897, and still remaining in the treasury unissued, were made redcemable on the same terms.
To provide for additional rolling stock, an issue of $\$ 1,000,-$ 000 four and one-half per cent twenty-year gold bonds was authorized, to be secured by new equipment costing $\$ 1,100$.000 . These bonds are being issued under an agreement known as "Equipment Agreement, Series C," dated May 1, 1901, of which $\$ 674,000$ have been sold to meet the cost of
equipment delivered. This agreeement provides for a sinking fund equal to five per cent per annum on the bonds issued, to be paid over to the trustee on the first day of November in each year, to be invested in bonds of this series at or under par; otherwise this fund. or any unused balance, is to be applied to the purchase of rolling stock to be pledged under this agreement as additional security.
The net result is an increase of $\$ 546,000$ in the bonded debt of the Company.

CONSTRUCTION.
All the expenditures for construction were charged against net income, excepting $\$ 220,27143$, transferred to the debit of the Profit and Loss account. The items are as follows:
Land and land damages............................................. $\$ 43,15302$
Reducing grade at West Seneca, N.
Filling tive bridges, two-thirds cost
1,800 16
Four new bridges, one-fourth cost.
New culverts and abutments..
New station at Le Roy, N. Y
New stations at other points.....................
New yard and buildings at S. \& B. Junction, in.
Second track, Ashford, N. Y., to C. \& M. Junction, Pa.
Sidings and yard extensions.
Sundry items..
Total.

. | 636,27143 |
| :---: | :---: |

The main locomotive shops at Du Bois, Pa., were opened on Nov. 4, 1901. They have facilities for making heavy repairs on twelve locomotives per month.

The new yard and improrements near Salamanca, N. Y., are rapidly nearing completion. The total cost, including the laod purchased. will approximate $\$ 150,000$, of which $\$ 106,02252$ was disbursed this year.

The traffic having reached the limit of economical operation on a single track. the construction of a second track was authorized on the congested divisions, and a considerableamount of the grading and bridging was done this year.

## EQUIPMENT.

There was expended for new rolling stock as follows:
Fourteon locomotives......................... $\$ 212,75331$
 Fifty ballast cars.
cking crane. ..................... One steam wrecking crane

Twenty six Company's service cars. 624,95996 | 42,78415 |
| :--- |
| 10,977 |
| 90 | Alr brakes and other betterments. 6,83813 teen freight cars and seven Company's service cars were built at the Company's shops.

The account was credited for equipment sold or destroyed, with the following items charged to operating expenses:
Six locomotives.
Onebaggago
$\$ 44,05492$
 Eightecu Company's service ears..........

The account was further credited for car trust bonds paid off during the year, charged to net income:
Frelght cars.
s................................... ing funds under equipment agree ments Series A, B and C, invested in the purchase of rolling stock:
Freight oars.
77,096 71
304,282 50
Making a nct increase of
$\$ 601,30056$

## PASSENGER EARNINGS.

The average rate received per passenger per mile decreased $35-1000$ of a mill, being $235-1000$ cents, as compared with 2 \%0-1000 cents a year ago. The arerage distance each passenger was carried increased 518.100 miles, being 3945 100 miles, against 34 27-100 miles last year.
Passengers carrled 1902.
Passengers carried 1901.
. 1,052,308
.1,002,677

The average number of passengers carried one mile, per revenue train mile, was 43 , being $\checkmark$ more than in the preceding year.
The result was a gain of $\$ 141,75042$ in gross passenger earnings, due in part to the Pan-American Exposition business.

## Frieight EARIINGS

The average rate recorvea per ton per mile decreased 0.41 of a mill, being 5.05 mills, as compared with 5.46 mills last year.
The average distance each ton was hauled increased 17.00 miles, being $146 \cdot 38$ miles, against $129 \cdot 32$ miles as year ago.

The revenue tonnage moved was:

Owing to a strike of the miners, many of the collieries Were idle for a period of 16 days, from April 1st to 17 th, 1902. It is estimated that, in consequence, the coal and coke tonnage of this year was reduced 250,000 tons.
There were increases in the tonnage of all commodities excepting anthracite coal and products of the forest.

The result was a gain of $\$ 356,28565$ in gross freight earnings.

## EXPENSES.

Operating expenses, excluding extraordinary expenses and improvements, increased 10.83 per cent.

The operating ratio increased 1.32 per ceut, being 57.53 per cent, against $56 \cdot 21$ per cent last year.

The percentage of each group of operating expenses to gross earnings for the past five years is as follows

|  | 1902, | 1901. | 1900. | 1899. | 1898. |
| ---: | ---: | ---: | ---: | ---: | ---: |
| Maintenance of way......... 8.47 | 9.79 | 991 | 10.10 | 11.68 |  |
| Maintenance of equipment..13.23 | 11.91 | 13.10 | 15.42 | 16.11 |  |
| Conducting transportation..33.61 | 32.20 | 32.57 | 36.08 | 33.55 |  |
| General expenses.............2.22 | $\underline{2.31}$ | $\underline{2.05}$ | 2.61 | 2.51 |  |
| Totals.......................57.53 | $\underline{56.21}$ | $\underline{57.63}$ | $\underline{64.21}$ | $\underline{63.85}$ |  |

The arerage cost per ton per mile was 2.76 mills, being - 04 of a mill less than last year.

The average number of tons carried one mile per revenue train mile, excluding the mileage of helping engines, was increased by 18.01 tons, being 423.61 , against 405.60 a year ago.
The arerage number of tons carried one mile per freight engine mile, including the mileage of helping engines, was increased by 8 tons, being 353, against 345 a year ago.

The non-revenue traffic, not included in any of the figures of this report, was as follows:
Number of passengers.
carrled one mile................128,874

Number of tons

## PROPRIETARY ROADS.

Under the provisions of the railroad law of New York a paper was filed with the Secretary of State certifying that all the stock of the Perry Railroad Company and the Lincoln Park and Charlotte Railroad Company had been transferred to your Company. In consequence the said companies have ceased to exist.
The accounts of this year have been adjusted accordingly.

## indIaNa branch.

By a circular dated July 23, 1902, the stockholders were advised that, for the purpose of reaching coal lands which have been acquired and are being developed in the interest of the Rochester \& Pittsburg Coal \& Iron Company and the Jefferson \& Clearfield Coal \& Iron Company, the Board

United Gas \& Electric Co. of New Albany and Jeffersonvilie, Ind.-Purchase.-This company has purchased for a sum reported as $\$ 250,000$ the New Albany Street, Railway. The properties now controlled are as follows:
New Albany Street Ry. Co., New Albany Gralight \& Coke Co., New 1254), Indiana Water Co. (V. 74, po. 1255 ). JJefferanvontile Electrio Light, Heating, Gas \& Coke Co. and Jeffersonvilie Light \& Water Co.
The Jeffersonville Light \& Water Co. was to be bid in at the receiver's sale on Ang. 9. After payment for all the aforesaid properties, the United Gas \& Electric Co. will have ontstanding all of its $\$ 1,000,000$ capital stock ( $\$ 100$ shares) and $\$ 400,000$ of its $\$ 750,000$ bonds. See V.74, p. 1256.

A new line to be known as the Jeffersonville New Albany \& Sellersburg Electric Ry. will, it is stated, be built in the interest of the United Gas \& Electric Company to connect the cities of New Albany and Jeffersonville.-V. 74, p. 1256.

United Gas Improvement Co.-Output.-The statement of gas sold in the city of Philadelphia for the quarter ending June 30, 1902, as filed in the Comptrollor's office, shows outpnt, etc., as follows:

| Oubic jeet gas: | 1802. | 190 |
| :---: | :---: | :---: |
| 8 monthe. | 1,224,122,860 | 965,293,690 |
| 6 months. | 2,627,994,910 | 2,237,588,490 |
| 6 monthe, gross r | \$2,627,995 | \$2,237,588 |
| Of which the city | 262,799 | 223,758 |

of which, the city recoives.
-V. .5, p. ४1.
United States Cotton Duck Corporation.-Interest on Incomes Cumulative. -The Monnt Vernon-Woodberry Cotton Duck Co. has receded from its demand that the warrant calling for payment of the dividend passed six months ago on its cumulative income bonds must accompany that to be paid Aug. 15. While not questioning the cumalative feature, the company thought it wiser to take up the unpaid warrant, but the Baltimore Stock Exchange interfored. The position of the company was fully stated in an advertisement published in the "Baltimore Sun" of the 12 th inst.-V. 75 , p. 294, 24\%.
United States Mortgage \& Trust Co.-Bonds Offered.This company is offering at par by advertisement on another
of Directors had resolved to issue, at par, $\$ 1,300,000$ addi tional common capital stock. The proceeds of $\$ 800,000$ of this stock will be used to pay for the construction of a branch about 28 mfles long from a point on the main line near Punxsutawney to McKees, Indiana County, Pa., leav ing $\$ 500,000$ for future extensions. Since then the Board has thought it advisable to further extend your system, about 38 miles, to reach coal lands near Vintondale, Pa., controlled by the Lackawanna Steel Company of Buffalo, Of this additional extension, 18 miles to Black Lick Station on the Indiana Branch of the Pennsylvania Railroad is to be constructed by your Company at an estimated cost of $\$ 560,000$, and an agreement has been entered into with the Pennsylvania Railroad Company for trackage over the remaining 20 miles from Black Lick to Vintondale. It is expected that the branch will be completed in 1903.

## CLEARFIELD \& MAHONING RAILWAY COMPANY.

The Beech Creek Extension, New York Central \& Hudson River Railroad Company, lessee (a line of easy grades) from Clearfield, Pa., via Keating, Pa., to a connection with the Philadelphia \& Reading Railway, is completed.
By a traffic contract entered into for a term of 25 years your Company has the right to use this new line as another outlet for the interchange of traffic of all kinds to or via the Reading Company's system.

## ALLEGHENY \& WESTERN RAILWAY COMPANY

On March 20, 1902, $\$ 150,000$ of the guaranteed stock of this company was sold for $\$ 311,550$, of which $\$ 183,12204$ was used to pay for construction, principally additional terminal facilities at Allegheny and New Castle, Pa., and \$28,427 96 remain to the credit of the Allegheny \& Western Railway Company to be absorbed by further construction expenses.

## ROCHESTER \& PITTSBURG COAL \& IRON COMPANY.

The surplus of the Rochester \& Pittsburg Coal \& Iron Company for the fiscal year amounted to $\$ 228,20507$, out of which dividend No. 7 of $21 / 2$ per cent was declared, and the rmount, $\$ 100,000$, credited to your Profit and Loss Account. The above surplus was arrived at after deducting from net earnings $\$ 116,00393$ principal of bonds paid off and $\$ 210$, 78201 expended for mining machinery, buildings, equipment, development of mines and sundry miscellaneous items.

## FIRE INSURANCE FUND.

The assets in this fund were increased $\$ 6,5 \% 410$ during the year and now amount to $\$ 77,11728$, in interest-bearing securities and cash.
The acknowledgments of the Board are renewed to the officers and employes for their faithful and efficient services.
Statements and statistics of the operation of your road for the year are submitted herewith.

By order of the Board,
ARTHUR G. YATES
President.
page $\$ 1,000,000$, Series $N$, first mortgage trust gold 4 p. c. bonds, dated Sept. 1, 1902, and due Sept. 1, 1922, but subject to call on Sept. 1, 190\%. These bonds are secured by deposit with trastee of first mortgages on improved city real estate, and are further a directlien on all the assets of the company. Farther particulars respecting the loan and the property covered will be found in the advertisement.-V. 75, p. 81.

United States Shipbuiliding Co.-In Pussession. -The company was formally organized on Aug. 11 and has taken possession of its constituent properties, payment for the same having been duly completed. The capital stock has been increased from $\$ 20,000,000$ to $\$ 45,000,000$, of which $\$ 20,000,000$ is 6 per cent non-cumulative preferred; par valu9 of shares, $\$ 100$. In addition, to the original block of $\$ 16,000,000$ first mortgage bonds there wlll be issued a "collateral and trust mort,gage" for $\$ 10,000,000$, secured by the deposit with the New York Security \& Trast Co. of 300,000 shares (\$15, 000,000 ) of Bethlehem Steel Co. stock and $\$ 10,000,000$ of that company's bonds. The new bonds will be 5 per cent, F. \& A., and matare Aug, 1, 1922. It is reported that these bonds, together with $\$ 8,000,000$ in preferred and the same amount in common stock, represent the cost of the Bethlehem Steel Co. (See V. 74, p. 1258, 1812.)
Daniel Le Roy Dresser, President of the Trast Company of tbe Republic, says:
The business of organization will begin at once by concentrating in different Farde different types of vessele and introduoing economies Whioh ought to resillt, in increased profts. Taking into consideration the fact that a battleship oan be bullt by the company In the ehortest
possible time, there is every promise of increased business and the future of the company ought to be assured. There have been no negotlations whatever between Vlokers. Sons \& Maxlm and the Unived States Shipbuilding Co.

Lewis Nixon said:
Our desire is to put Amerlcan shipbullding establishments npon such a basis that we oHn build forelgn ehlps here. The United States Shlp building Oo. oan make proposala for a oomplete vessel-armor, guns. forglugs, machinery ana hall. No other plant, elther here or abroad,
oan do thls although some do produce ship and gung. The company oan do this, although some do produce ship and guns. The company fleet in course of construotion of the value of $\$ 37,000,000$; the total contraote in hand aggregate $\$ 50,000,000 .-V^{2} .74$, p. 1312.

United States Steel Corporatlon.-Distribution to Syndi-cate.-J. P. Morgan \& Co. on Wednesday made a third distribution ( $\nabla .74, \mathrm{p} .1042$ ) of $\$ 10,000,000$ to the members of the syndicate which anderwrote the plan for organizing the company, making $\$ 30,000,000$ thas far paid as profits. Only $\$ 25,000,000$ of the $\$ 200,000,000$ subscribed was paid in, and this was returned last November (V. 73, p. 1167.) -V.75, p. 195, 139 .
United Water \& Light Co. of Illinols.-See Harvey Water \& Light Co, above.
U. S. (not United States) Clgar Co.-This company was incorporated in Delaware on July 26 with $\$ 6,500,000$ anthorized capital stock (in $\$ 100$ stares), of which $\$ 3,500,000$ is 7 p.c. cumulative preferred, to amalgamate the following concerns, whose annual product is said to be about $280,000,000$ of stogies, cheroots and cheap cigars:
Coling Cigar Oo. and Zengschmidt Bros.. of Pittsburg; the Union Amerlcan Cigar Co, M. Brilles \& Co. and W. W. Stewart Co, of Alle gheny; E. W. Swisher Clagr Co, Columbu
The present stock issue will be $\$ 2,470,000$ of common and $\$ 1,405,000$ of preferred. In addition there will be ontstanding $\$ 985,000$ of an anthorized issue of $\$ 1,500,000$ first mort gage and collateral trust 6 p, c. $\$ 500$ bonds, dated Ang, 1 1902. These bonds will be due in 25 years, bat subject to cali at option of company from Aug, 1, 1805, at 105 in amonnts not to exceed $\$ 100,000$ yearly; after Aug. 1, 1907, the entire issue, or any part thereof, will be subject to call at 110 Beginning Ang. 1, 1904, a sinking fand of $\$ 25,000$ yearly, payable abead of dividends on the preferred shares, is pro vided for the protection of the bondholders. The interest will be payable by the Security Trust \& Safe Deposit Co. (the mortgage trustee), Wilmington, Del., and by the Central Realty Bond \& Trust Co, New York. The officers and directors are:
Presldent, Chas. M. Logue; 1st Vice.Pres., Edward M. Brash; 2d, Vice-Pres., Samnel Bailey Jr.; Treas., Edwa. W. Swisher; Secretary W. D. Sharpe.

Directors.-G. B. Hanford, Frank L. Arnold and Charles Sternbaok of New York; Frank Taylor of Wilmington, Del.; Samuel Balley Jr., O M. Logne, E M. Brash, G. W. Elsenbeis, W. D. Sharpe, E. A. Kitz
miller, W.'s. Dalzeli and A. D. Zeugschmidt of Pittsburg, and W. W. miller, W. S. Dalzeli an
Blake of Altoona, Pa.
Hanford \& Stallknecht, 25 Broad St., this city, are manag ing the financial end of the consolidation. They deny the report published by a Pittsburg paper to the effect that the anthorized capital stock has been or will shortly be increased to $\$ 15,000,000$. The company's office is in Pittsburg, Pa.
Virginia Iron, Coal \& Coke Co.-Readjustment Plan.-A plan for the readjnstment of this company's finances has beec prepared by a committee consisting of Messrs, L, P. Morton, E. J. Berwind, Grant B. Schley and Henry K. McHarg. It is proposed to offer the bondholders the privilege of subscribing ratably at par to an issue of $\$ 2,000,000$ five per cent 100-year first mortgage gold bonds secured on the Virginia \& Southwestern Ry, and guaranteed by the Virginia Iron, Coal \& Coke Co., which owns all the railway company's capital stock.

Subscribers will be given a bonus of $\$ 500$ in stock of the railway with each $\$ 1,000$ bond. The proceeds from the sale Will be used to pay off a loan of $\$ 1,000,000$, a mortgage of $\$ 575,000$ and interest, made to the Morton Trust Co., the bonds of the Tom's Creek Coal \& Coke Co., $\$ 69,500$, and $\$ 40,000$ of Dora Furnace bonds. The balance will be reserved for future requirements. Upon completion of readjustment the capitalization will be
Va. \& Tenn Ooal \& Iron bonde
$\$ 100,000$ 7800,000 Varter Cosi \& ron bonds Va. Iron, doal \& Coke bonds Va. \& Southwestern Ry. bonds $7,300,000$
$8,641,800$ Va. \& Southwestern Ry. stock.

The earnings of the railroad in and $\$ 164,700$ net. The earnings of the Va. Iron, Coal \& Coke Co., it is estimated, will be $\$ 700,000$ between June 1, 1902, and Jan. 1, 1903.
Bondholders will be asked to deposit their bonds under this plan with the Morton Truat Co. before Sept. 3. On making the deposit they will be paid cash for March, 1901, and March, 1902, coupons and will receive five per cent scrip payable on or betore Sept. 1, 1907, for coupons due Sept. 1901, Sept., 1902, and Sept., 1903. - V. 72, p. 679.

Western Telephono \& Telegraph Co.-First Dividend.The company has declared its first dividend on the preferred stock, 2 per cent, payable Aug. 80،-V. 75, p. 38.
-Partly finished bonds are now made; the engraving and lithographing of the reading matter is all that is needed to complete them; or the reading matter may be printed from type, if it is desired, to save time and expense. The blanks in various designs are produced in large numbers and kept in stock by Albert B. King \& Co. of this city.
-The "Canadian Annual Financial Review," issned every Jnly, has come to hand. It contains about 400 pages of financial statements, range of prices, etc., and is a valuable manual of reference regarding Canadian securities. It is published at 22 St. John Street, Montreal. Price, three dollars.

- Messrs. Chandler Bros. \& Co., Philadelphia, have issued a small manual of electric railway securities, containing particulars regarding the principal electric railway securities traded in on the Philadelphia Stock Exchange.

## That Conmencial fimes.

## COMMERCIAL EPITOME.

 Friday Night, Aug, 15, 1902.The outlook for business in most Iines of trade is reported as being of very satisfactory promise. The advices from the interior show that Western merchants quite generally anticipate a heavy demand for merchandise, and that they are now placing orders for goods quite freely. The basis of the general confidence is the favorable harvesting returns. The monthly report issued on Monday by the Agricultural Bareau showed that good crops of wheat and oats were assured, and that present indications are for a record-breaking yield from the corn crop. Advices from the South also have reported a healthy condition of business and the present outloook is reported as favorable for a large cotton crop. Exporters have teen fairly heavy buyers of wheat; freer offerings of "futnre" bills of exchange against shipments of grain and cotton to be made later in the year have resulted in a sharp break in the rate of sterling exchange and have removed for the present the possibility of gold shipments abroad. The activity in iron and steel for 1908 delivery has continued. The production of pig iron for July showed a decrease, due largeIf to the strike of the anthracite coal miners.
Lard on the spot has been quiet, both exporters and refiners holding off, and as there has been increased pressure from packers to sell, prices have weakened. The closs was easy at $10^{\circ} 45 \mathrm{c}$, for prime Western and $10 @ 10^{\circ} 20 \mathrm{c}$, for prime City. Reined lard has had only a small hand-to month sale and prices have been easier, weakening to $10 \%$ c. for refined for the Continent. Speculation in lard for future delivery at the Western market has been fairly active. There bas been fairly free selling for January delivery, based on the favorable prospects for the corn crop. The close was easier.
datey olosing prioes of labd yutures.

Pork has been easier and a limited jobbing business has been transacted locally at the lower range of valnes, closing at $\$ 1775 @ 1875$ for mess, $\$ 2000 @ 2025$ for family and $\$ 1900$ @21 00 for short clear. Cut meats have been quiet and unchanged at 83/4@91/4c. for pickled shoulders, $111 / 1 @ 12 c$. for pickled hams and 111/2@12c. for pickled bellies, 14@10 lbs. average. Beef has been doll and unchanged at \$1300@1400 for mess, $\$ 1500 @ 1550$ for packet, $\$ 1550 @ 1650$ for family and \$2375@2400 for extra India mess in tierces. Tallowhas been dull and the close was easy at 61/2c. Stearines have been neglected and nominal quotations are $121 / 4 \mathrm{c}$, for lard stearine and $131 / 8 \mathrm{c}$. for oleo stearine. Cotton-seed oil basjbeen quiet and unchanged at 42c. for prime yellow. Batter has been in fair supply and the lower grades have dragged, closing at 161/@201/2c. for creamery. Cheese has been quiet and easier, closing at $83 / 4095 / 8 \mathrm{c}$. for State factory, full cream. Fresh eggs have been in fair demand and steady, olosing at 200. for choice Western.

Brazil grades of coffee have been more freely "cffered, and as the bull interests have largely withdrawn their sapport from the market, prices have declined to $51 / 8 \mathrm{c}$. for Riu No. 7 . The trade demand has bsen dull. The close was easy. West India growths have been well held for desirable grades, closing at $83 / 4 \mathrm{c}$. for good Cucuta. East India growths have been quiet and uncbanged. Speculation in the market for contracts has been less active and ander free offerings by the leading bear interests prices have declined. To day the market was easier under continued selling by bear operators. Followlng are the closing asked prices:
Ang. $\qquad$ 4.95 c . Nov

| Feb |
| :--- |
| March | banc.. $\qquad$ $5 \cdot 150$

5.250
5.350 Raw sugars have been quiet but steady, closing at $33 / 8 \mathrm{c}$. for centrifugals, 96 -deg. test, and $2 \% / 8$ c. for muscovado, $\mathbf{~} 9$ deg. test. Refined sugar has been in fairly active demand and firm at $4 \cdot 6 \overline{\mathrm{c}}$. for granulated. Pepper has been in fair demand and firmer. Teas have had a fair sale at full values.
Kentucky tobacco has had only a small sale to the home trade, but the export demand has been fairly active at fall values. Seed-leaf tobacco has been in slightily beiter demand and steady. Sales for the week were 900 cases, including 1901 crop, Pennsylvanis broad leaf at $11 @ 15 \mathrm{c} ., 1971$ crop, Connecticat Hapana seed, on private terms, and 1900 crop Zimmers, Spanish, at 17 c . Foreign tobacco has been more active, with sules reported of 400 bales Havana and 200 bales Sumatra.
Prices for Straits tin have declined, but at the close there was a moderate recovery in response to stronger London cable advices, and final figures were $2840 @ 29^{\circ} 60$ c. Ingot copper has been freely offered and prices have declined to 11.50@11•70c. for Liske. Lead has been in moderate demand and steady at $4.121 / 2 \mathrm{c}$. Spelter has advanoed to $5 \cdot 45 \mathrm{c}$, olosIng firm. Pig iron has continued in good demand for 1933 delivery and at firm prices.

Refined petrolerum has been unchanged, closing steady at $7 \cdot 20 \mathrm{c}$. in bbls., 850 c . in cases aud 4.65 c , in balk. Napatha has been unchanged at 905 c . Credit balances have been quiet at \$1 22. Spirits turpentine have been in moderate demand and prices have advanced slightly, closing at 46 : 4714c. Rosins have been in fair demand at $\$ 155$ for coun mon and good strained. Hops have been firm but quiet. Wool has been in fair demand and firm.

## OTTON

Fridat Niget, August 15, 1802.
ter movement of the Crop, as indioated by our telegrams from the South to-night, is given below. For the week ending this evening the total recelpts have reached 9,441 bales $_{3}$ against 11,910 bales last week and 17,189 bales the previous week, making the total reoeipts sinoe the 1st of Sept., 1901, $7,468,94 \pm$ bales, against $7,535,866$ bales for the same period of 1900-1, showlng a deorease since Sep. 1, 1901, of 71,482 bales.

Speculation in cotton for future delivery has been fairly active, and there has been a moderate advance in prioes. The feature has been the aggressive baying by a prominent Wall Street operator and his following. Accompanving this buying have been namerous reports to the effect that the crop was a "spotted" one, and that consequently it is not probable that the bumper crop that many of the trade have been expecting will be grown. These reports given ont by the "ball" interest have been to the effect that"rust and shedding are extensively complained of in some sections; the Texas crop was reported as going backward, owing to high temperature, and from some of the Atlantic States come reports that ralns were needed. Despite, however, the crop reports as above mentioned, the trade generally has not been disposed to follow the market on the "bull" side, they being of the opinion that the crop has not suffered any serious deterioration. Liverpool cable advices also have shown that market slow in following the apturn to valnes; in fact Liverpool has been a moderate seller in the local market at the advance in prices, and there has also been some selling for Southern account. Advices received from the South íridicate a fairly free movement of new-crop cotton in the near fatare. To-day there was a slightly easier market. Liverpool advices were again disappointing and the "bull" interests were less aggressive in their operations. The close was quiet at a net loss in prices for the day of 4@7 points. Cotton on the spot has been \{quiet and nuchanged at 9 c , for middling uplands.
The rates on and off middling, as established Nov, 80, 1901, by the Revision Committee, at whioh grades other than middling may be delivered on contract, are as follows.

On this basis the official prices for a few of the grades for the past week-Aug. 9 to Aug, 15-would be as follows,

Weather Reports by Telegraph.-Reports to us by telegraph from the South this evening are as a rule of a eatisfactory character. In Texas dry weather has prevailed, which our Galveston correspondent states was favorable for cotton, but there are still complaints of damage by boll worms and weevil. At most points eleewhere rain has fallen, the rainfall being heavy in a few districts, and advices indicate that cotton is doing well \$as a whole. From Montgomery, however, we are advised that the recent rainfall has been insufficient. Greenwood, Suuth Carolina, reports cotton as looking bad in some sections, but our Statsburg correspondent states that on clay lands it is putting on rapidly a fresh, vigorvus growth. Cotton is opsning rapidly in many sections and picking is in progress.
Galveston, Texas. - The weather during the week in Texas has been favorable to cotton, but there are still complaints of damage by boll worms and weevil. We have had dry weather all the week. The thermometer has averaged 84, the highest being 87 and the lowest 79.
Brenham, Texa8.-We have had no rain during the week. The thermometer has averaged 84, ranging from 74 to 91.
Cuero, Texas. - There has been no rain during the week. The thermometer has ranged from 75 to 103, averaging 88.
Henrietta, Texas.-It has been dry all the week. Average thermometer 89, highest 104 and lowest 67.
Kerrville, Texas,-Dry weather has prevailed all the wrek. The thermometer has averaged 80, the highsst being 97 and the lowest 68.
Longview, Texas.- We hare had no rain during the week. The thermometer has averaged 85, ranging from 75 to 99

Palestine, Texas.-We have had no rain the past weok. The
thermometer has ranged from 72 to 94 , averaging 74.
San Antonio, Texas.-We hare had no rain doring the week. Average thermometer 83, highest 98 , lowest 72 .
Abilene, Texas.-There has been no rain the past weak. The thermometer has averaged 85, the highest being 98 and the lowest 70.
Corpus Christi, Texas.-It has been dry all the week. Tnermometer has averaged 83, ranging from 70 to 96.

Dallas, Texas. - We have had no rain the past week. The thermometer has ranged from 70 to 93 , averaging 84.
Huntsville, Texas.-There has baen no rain during the week, Average tinermometer 81, highest 95, luwest 73.
Lampasas, Texas.-There has been no rain during the week. The therm meter has avoraged 81 , the highest being 97 and the lowest 71.
Luling, Texas. - There has been no rain daring the week. The thermometer has averaged 85, ranging from 75 to 98.

Paris, Texas.- We have had no rain the past week. The thermometer has ranged from 70 to 95 , averaging 83.

Weatherford, Texas.-Dry weather has prevailed all the week. Minimum temperature 85, highest 100, average 73.
Neu Orleans, Louisiana.-Rain has fallon oa three days of
he week, the precipitation being ninety hundredthe of an cch. The thermometer has averaged 84.
Columbus, Mississippi. - There has been no rain during the week. The thermometer has ranged from 80 to 105, averaging 92.
Meridian, Mississippi.-Cotton is opening raplaly and picking is general. Several new bales received here this week. Temperature has ranged from 73 to 93.
Litile Rock, Arkansas, -The first bale of now cotton was receired on Angust 14. The crop is ten days earliэr than the average. There has been rain on three days daring the week, the precipitation reaching nineteen hundredths of an inch. The thermometer has ranged from 67 to 95 , averag. ing 80.

Helena, Arkansas.-A bamper crop of cotton is opening fast. There has been only a trace of rain during the week. Average thermometer 81, highest 93 and lowest 67.

Memphis, Tennesses. - Crop prospects continue favorable The first bale of new cotton reached here from Jefferson County. Arkansas, on Monday, one week ahead of the average date. Four new bales received to date. We have had rain on one day of the week, the precipitation being twelvo handredths of an inch. The thermometer has averaged $79 \cdot 8$, th 3 bighest being $94 \cdot 1$ and the lowest 656 .

Nashville, Tennessee, - Crop prospects continus good. We have had rain during the week to the estent of nine han dredths of an inch. The thermometer has averaged 79, rang ing from 61 to 93 .
Mobile, Alabama.-The weather in the interior has in gen eral been favorable for cotton and the crop is making fairly youd progress. There has been rain on two days during the week, the precipitation reaching one inch and sixty-nine hundredths. The thermometer has ranged from 72 to 92 , averaging 83.
Montgomery, Alabama.-Som9 crops are improving, but the majority at present are rather anpromising. The recent rainfall has been insufficient. We have had rain on one day during the week, the precipitation being thirty-three hundredths of an inch. Average thermometer 84, highest 97 , 1) west 71.

Selma, Alabama.-Crops unchanged from last report, which showed improvement as a result of the rains. We have had rain on one day during the week, the precipitation being wenty-six handredths of an inch.
Madison, Florida.- It has rained on three days of the week, the precipitation reaching seven inches and fifteen hundredths. Thermometer has averaged 82, rangiog from 72 to 84 .

Savannah, Georqia. - We have had rain on four days of the past week, the rainfall being two inches and thirty-three hondredths. The thermometer has ranged from 69 to 92 , averaging 81
Augusta, Georgia. - We have had rain on three days of the week, the rainfall reaching one inch and sixty-nine hundiedths. Average thermometer 81, high 3st 95, lowest 70.
Stateburg, South Carolina.-On clay lands cotton is putting on rapidly a fresh, vigorons growth, but on sandy lands is not doing as well. There has been rain on three days during the week, the precipitation reaching two inches and sixty two hundredths. The thermometer has averaged 81, rang ing from 68 to 95.
Greenwool, South Carolina.-Cotton is looking bad in some sections. We have had rain on two days of the week, the rainfall being sixty-nine hundredths of an inch. The thermometer has ranged from 69 to 93, averaging 81.
Charleston, South Carolina.-Ruin has fallon on six days of the week, the precipitation being eleven hundrelths of an inch. The thermometer has averaged 82, the highest being 92 and the lowest 73.

Charlotte, North Carolina.-Crop conditions continuefavor-
able. Rain has fallen during the week to the extent of one inch and sixty-one hundredths. The thermometer has averaged 80, the highest being 94 and the lowest 67 .
The following statement we have also received by telegraph, showing the height of the rivers at the points named, at 3 o'clock Aug. 14, 1902, and Aug. 15, 1901.

Government Weekly Cotton Report.-Mr. James Berry, Chief of the Climate and Crop Division of the U. S. Weather Bureau, made public on Tuesday the following telegraphic reports on the crops in the Sonthern States for the week ending Aug, 11:
Nortil Carolina.-Ample and beneflolal rains in east portion, greatly improving crops, but drought continues in west . portion; cotgouth Carolina.-Many localities still suffering from dronght, others relleved by timely showers; oolton improved in places, deteriorated in others; rast is spreading and shedaing oontinues, opening freely, some prematurely, and plcking will soon be general.
Georola- - Rainfall unevenly distribated; general oonditione varla mild die sectlone, ploking becoming general in soutli and heginning in midde, new orop belng marketed in several middie and southern counties, rusting and shedding oontinue in many looalities.
Flobida - Looal raing damaged some cotton on low lands, where plants are backward and orop will be short; complalnts of rust and aliedding in some seotions, proving quite active on upiande.
AlabainA-Dry and hot in north central and northeastern oountles, lavorable ehowers elsewhere; cotton making rair growth, but rist quite damaging, considerable shodang, early opening rsplaty. plok southern portion: early cottou maturing rabldy and opening in some looalities, late planted maklog rapld growth anil looklag well, muoh complaint of rost and shedding.
LoUisians.-Scattered showers, with looal rains in sonth portion; early ootton opening generally, some ploking in sonth and south oent ral portions; late cotton improved, mauy oomplaints of rust and shexas.
showers occurred: cotton continues to make rank growth and, excent in soattered localities, is fruiting and opening satiofaotorily; nuintor-
rupted sunghine with high temperaturea have decreased number of damage is still belng done ravages oy tse vir allough considerable severely damaged and in many sections rulned; some shedaing reported from northern sections and rust has appeared in localities in the northeast. Cotton is opening over greater portion of state and ploking is progressing under farorable oonditions.
ARIANSAS- 8 cattered dhowers on the 8 th and 9 th Cotton promises good yield, except some localities in northwest, Where moisture sects opening lon ghedaln TENEESEE-LOCal Sho
where they fell, but in some seotions orops are etill sufferlag; cotton Prulting well, much complaint of rust in western countles.
Missuorl. - Rainfall poorly distribted; drought in sontheast unbrokon and cotion greaty darassa, cotton shedding. OKla orops in cood condition, cotton fatting well, ploking commenced
These reports on cotton are summarized by the Department as follows:
With a general abseroe of rain in Texas, and soatterad showers over the central portions of the middle and eastern districta, the progress of the cotton orop as a whole has been favorable. Complaints of rust and shedding, however, are quite generally indloated and some premature opening reported rom portons or Georgla and south Carolia. and in the eastern distriots under picinge is progressing in Texas rupted sanshine and high temperatures have ohecked the ravages of bollworms and weevilin Texas, but these pests oontinue to canse oonsiderable damage, and in innndated sections in that 8tate the crop has been severely damaged, and in many seotlons rulned.
Sgipping Nifws.-As shown on a previous page, the axports of cotton Irom the United States the past week have reached 28,575 bales. The shipments in detail, as made up rom mail and telegraphio returns, are as follows

## BREADSTUFFS.

Friday, Aug. 15, 1908.
Business for the week in the market for wheat flour has been quiet, the stronger tarn to values for the grain failing to stimalate buyers to any extent. Bids have been made of $\$ 375$ for new spring patents to arrive and $\$ 4$ for old do., bat mills have declined to sell at these prices; in fact, they have not been offering $n e w$ spring-wheat flour. Offerings of new winter-wheat flour have been fairly free, and with only a limited demand the tendency of prices has deen in buyers' favor. City mills have been quiet. Rye flour has held steady, but only a jobbing business has been transacted. Corn meal has been quiet and easier.
Speculation in wheat for futare delivery has been more active, and there has been a moderate advance in prices. The monthly Bureau report issued on Monday gave the condition of the crop not as favorable as many of the trade expected. The private crop reports from the Northwest circulated during the week have not been of as favorable a tenor as previously. Wet weather was complained of, and there also was talk of damage from the Hessian fly. Another factor that had a favorable inflaence was reports of extensive baying by exporters. The sales reported at the seaboard markets to shippers were large, and Chicago advices stated that large export sales were made in that market. Bear operators who had put out extensive short lines daring the recent decline in prices tarned bayers to cover their contracte, and this demand, coupled with the features above noted, turned the marker stronger. Tharsday, however, the market again turned easier, reflecting weaker cable advices, more favorable weather reports from the Northwest and a fall movement of the winter-wheat crop. At the close of the day September contracts advanced sharply and with it came rumors that a deal was contemplated. To-day the marinet was firueri. Bū̄ing oy shoris on rumors of a squeモze in September contracts was the feature. The spot market was moderately active and firmer.

agricultural Department's Report of Cereal Crops. \&C., AUGUST 1.-The Agricultaral Department issued on the 11th inst. its reports on the cereal crops for the month of July as follows:
The monthly report of the 8tatistician of the Department of Agri oulture shows the oondition of corn on Augnst 1 to have been $86^{\circ} 5$,
ae compared with $87 \cdot 5$ on July 1, 1902; 54 on Anguet 1, 1901; $77 \cdot 5$ ai the corre日ponding date in 1800, and a ten-jear average of 84. There has been an lmprovement during the month of 10 points in Penneylvania. 7 in Indiana and Wisconain, 4 in Ohio, Illinole and Kansas, 3 in Iowa and 11 in Nebraska. This, oubstantial improvement in the moet important oorn States would undoubtedly have resulted in a marked improvement in the average for the entire country but for the raon
The condition of corn on July 1 and Angust 1 in each of the last five years is shown in the following:

The statistician estimates the winter-wheat orop at about 380.000, 000 bushels, or an average of 13.8 bushele per acre. While thie estimate is ounject to revision, threshing not being eutficiently advanced in the of a definite final estimate at this time, it is based on reporta of yield per acre, in buehele, recelved from correspondente and special Held agente. If the estimate is higher than was indioated by previous reports of condition, it is due to the fact that the orop is tarning out somewhat better than was expeoted. The estimated average yield per acre in the principal states 18 as follows, the states being arranged in order of acreage: Kansas. 8.7 ; Miseourl, 18.2 : California, 15; Indiana, 15; Ohio, 16; Illinols, 16.6; Nebraska, 22; Pennsylvanis, 15; Oklahoma. 11.6; Mlohlgan, $17 \cdot 4$.
The average ondition of spring Wheat on Angust 1 was $89 \cdot 7$, as compared with $92 \cdot \frac{1}{4}$ 1a8t month; $80 \cdot$ on Augnet 1, 1901 ; 56.4 at the a decline during July of 2 points in Minnesota, 3 in North Dakota, 9 in Nebraska and 12 in Iowa. On the other hand, the orop of Bouth DaKota is reported at 1 point higher than even the high figure, 94, reported last month, and the condition in Minnesota, North Dakota and Nebraska, notwithstanding the deoline above mentioned, is still conaiderabls above the ten-year average.
$73^{6} 6$ on August $1,1901,85$ at the was $89^{\circ} 4$, againet $92 \cdot 1$ last month, ten-year average of $82 \cdot 2$. There has been anding date in 1900, and a in Indiana, 5 points in New York, 7 in Pennerivania and 8 in ohto. On the other hand, there has been a deoline of 1 doint in Michigan and Minnesota, 2 points in Illinols, 3 in Wisconsin, 9 in Nebraslaa and 12 in Iowa, All the prinaipal oat 8tates, however, whether reporting an inaprovement or a decline, still have an average condition comparng lavorably with their ten-jear averakes.
ors is estimated at $4 \cdot 2$ per oent, as oom jared wilth 5.9 ner cent of farmorop of 1900 in farmers' hande one year ago and 6.3 per cent of the orop of 1899 in farmers' hands two Jears ago.
The average condition of barley deolined 3.5 polvts durlng Julj, but on Angust 1 it Was atill 3.3 points higher than at the corresponding pointa above the mean of the ten Fear averages. During July there was an improvement of 4 polnts in Ners York and a deoline of 1 point in Kansas and Washington, 2 points in California and North Dazota, 4 in Minnesota, 5 in Wisoonsin and South Dakota and 12 points daring Juls. On Auguet 1 it was $6^{\circ} \cdot 9$ points higher than at the corresponding
above the inean of the average for the past ten years. The conditions In the princlpal Statee are as followe: Wissousth, 10 J: Nebrabli, 83, and Minnesota, 93. Bat one of the princlpal States, howaver. Ahows an improvementia oundition durlag the month. Wisoonaln ls 2 polnts abore the average of last month gad Nebr ubka and Minaesota show deolines of 5 and 3 pointe, reapectively
Preliminary retarns iodicaise a neercase of about 6.000 acces, or 0.8 per cent, in the acreage in backwhe it as oompared with that of last
year. The avergge conditl in of buok wheat is $0 \cdot 3$ point hicher than at the corresponding date last sear, 35 higher than on Aagast 1 . 1900, and 1.4 points abovo the mean of the A agust averages for the past ten years. The conditions in the priacipal states are as follows New York, 89; Pennsylvenia, 92; Miehigan, 89; Wisconein, 95; •Malno and West Virglinis. 99.
The average condition of potatoes improved 1.9 pointe during July, datelast year, 6.6 polnts higher than on Anguas 1,1900 ond 11.1 points above the mean of the Auguet averages for the past ten vears. The conditions in the prineipal states are as follows: New York 92: Mioli igan, 84; Wigconein, 98; Penneylvania. \{95; Iowa, 103; Ohio, 94; Inll note, 97 , and Minnesota, 99 . During July there was a decline of point in Ohlo and 2 pointe in Mlehigan and Iowa. There was au im provement of point in minols, 4 wisoonsin, 7 in Minnesota and durlug the month.
The condition of the various crops on Aug. 1 is given below

## THE DRY GOODS TRADE

New York, Friday, P. M., Aug. 15, 1912.
There has been a large attendance of buyors in the $m$ urke this week, and the jobbing trade bas bənefited materially thereby, lozal jobbers recording a large bustaess in their vd rious departm-nts $R$ fports from out-of-towa dis riba'ing centres are also satisfacto:y, not oaly in coanection witn current trade, but as to fucuro prospsc's. The excellent crop outlook is regarded as a guaraty of a large basiness for this fall and for next spring. In spite of this the market at first hauds has again been generally quiet, and the business done has been smaller than nsual for the time of year in the cotton goods division. It becomes more apparent each week that buyers of general lines of cotton goo 1 l are not apprehensive of higher prices and are therefore content to adhere to a hand-to mouth policy, and whatever is gained in the voluing of basiness passing is owing to the growth of pressing requirements. In this connection cottoncrop prospects are the chief factor, there being a widespred belief in a large crop and lower prices later on for raw ma terial. In some directions sellers are being hardly tried by this condition and find it dificalc to keep pr:ces stealy.
Woolen Goons. -The business done daring the past week has firmly established the advances made in the opening prices of light-welght worsted fabrics for men's wear. and has shown that in some of the woolen lines there may be higher prices raalized later on. There has been no enthusi asm shown by buyers, but they are evidently making fairly full provision for their first round of requirements, and a considerable volume of orders has been placed by them. From the opening of the light-weight season to date the business securad by sellers is of fuily average proportions in the aggregate, with a number of lines so well covered that they have for the time being been wilhdrawn from the mar Eet. The sitnation has a healthy appearance throughout.

Heavy-weights for quick consumption are in limited request but the market is generally clean. There has been no new featare of importance in connection with overcoatings or cloakings. For wool $\leq n$ and worsted dress goods the demand is still generally restricted to staple lines, fow fancies being on the market for the new spring season. The tone of the market is firm.
DOMestic Cotton Goods.-The exports of cotton goods from this port for the week ending Ang, 11 were 2,334 packages, valned at $\$ 147,007$, their destination being to the points specified in the tables below

The value of the New York ezports since Jan. 1 to date nas been $\$ 8,274,615$ in 1902, agsinst $\$ 7,617,569$ in 190
The market for heavy brown sheetings and drills has bzen dull this week, with pricestendiag in favor of buyers. The home demand continues indifferent and there is no help from the export trade, buyers for the chief foreign ontlets still being ont of the market. Light-weight sheetings are quiet. Busine s in drille is molerate at previons prices. Brown o suaburgs are dull and barely steady. There is no change in the prices of denims, bat a molerate demand is rea lily met. Tickings are ircegular; other coarse, colored oottons stealy. A moderate basiness made np of small otders is reported in bleached muslins at previous prices. Wide sheetin ys are dall. Cotton flannels and blankets quiet. Kid finished cambrics are quiet but steady. A fair business has been done in regalar priats at steady pric $\ni$ s for both fancies and staples Ginghams continue very firm. Fine yarn fabrics for nex spring in steads request. Print cloths ard anchanged in price at Fall River, bat easier in ontside markets; demand quiet.
Foreign Dry Goods, -Business in"fine grades of worsted dres 3 goods shows an improvement, with a firm market. Silks and ribbons show a hardening tendency. Linens are very firm, but current business moderate. Barlaps are tending upwards, with strong foraign markets.
Importationsand Warehouse Withdrawals of Dry Goode
The importations and warehouse withdrawals of dry goods at this port for the week ending Ang. 14, 1902, and since January 1, 1902, and for the corresponding periods of last year are as follows

## TILLIA MIB. DANA COMPANY, <br> Pine Street, corner of Pearl Street,

Post Office Box 958.
NEW YORE
Hamilton Cousty, Kan.-Bonds Invalid.-The Hartford (Conn.) "Courant" on August 7 contained the following : A spectal dlspatch from St. Paul, Minn., says that the United States Court of
Appeals has dectded lhat the Hamilton County (Kan.) bonds bought by ho Aetna Life Insurance cempany of this city were purchased llegally. Th talned this vietw in a case instituted by the Aetna, and tbis has been suctained formation un the watter other than that contained ln the dispatich. His com pany was interested with others tu ihe sulis which cr ncerned the bnnds men
ilioned. Sofar as blscompans was concerned. the book Falue of the Hamilion

Galveston, T+Xas.- August Interest Not Puid.-The fact that the interest due on Aug ust 1 on the $\$ 300,0005 \%$ sf Wel bonds mas not paid has been the suhject of much discursion between Mr. Alfred Holzman of Feder, Holzman \& Co. of Cincinnati and the Board of City Commissioners. These bonds were paid for by the Cincinnati from after the great storm of September, 1900, and Commissioner of Finance and Revenue, I, H. K tmpner, recommends that on this account special fffort should be made to pay the interest. It seems that the fund set aside for the payment of the intercst on these sewer bonds is some $\$ 1,100$ short of the required amount, and that the delay in meeting the coupons is due to the nncertainty $\delta s$ to whether or not this sum can be taken rom some other fund.
Paducah, Ky.-Bonds Valid.-The following is frcm the Cincindati "Erquirer :"
PADUCAIT, Ky. Aug. 12.-Judge Evans of the Unlted States Court at Louis-
Flle has decioed bat the old Chicago St. Louis \& Paducah Railroad bonds for
 damages to koberis Co. of New York, amountil
isneat opet the ralrcad io come here. which it did The question of vallidty
was raised ive years foot instructed the Council not to pay the bonds as they were invalid because Was ulconstituticnal. Judge evans says these are flnusy tecbalcalities. Rod-
erts \& Co. of New York refunded the bonds. The refusal of the city to pay the bonds and interest as they became due greatly lmpaired its ciedit.

## Bond Calls and Redemptions.

Allegany County, Md. - Bond Call. - The County Commis sioners have called for payment Oct, 1, 1902, at the office of the Connty Treasurer or at the Citizens' National Bank of Cumberland, all outstanding bonds of the county authorized by Cbapter 43, Laws of 1892, Chapter 249, Laws of 1894, and Chapter 67, Laws of 1898.

Clatsop Connty, Ore.-Warrant Call.-The County Treasurer has called for payment all warrants drawn on the general fand and endorsed between March 23, 1901, and Mas 1, 1901.
